

LINGUISTICS

Linguistics is a cross-disciplinary program in the College of Liberal Arts and Sciences designed to meet the needs of students interested in various aspects of language—its structure, history, varieties, meanings, and uses. The program includes courses in anthropology, communication disorders, computer science, English, psychology, and speech communication and world languages and cultures, thus providing a multi-disciplinary approach to the study of human language.

Courses in linguistics serve as background for students interested in any career that involves working with language, such as teaching English both as a first and as a second language, second language studies, psycholinguistics, cross-cultural communication, linguistic anthropology, computational linguistics, speech-language pathology, and audiology.

In the College of Liberal Arts and Sciences, courses in linguistics can be applied as electives or as part of the group requirements. They may also be used in a minor or in a major.

Graduate Study

A graduate minor in linguistics permits students to investigate various
aspects of linguistics, emphasizing the ability to think about language in
a systematic and disciplined way and to apply the methods of the field
to research problems in their own disciplines. Graduate courses for the
minor may be cross-listed with courses in Anthropology, Communication
Disorders, Computer Science, English, Psychology, and World Languages
and Cultures.

For the master's degree, a declared minor consists of 9 credits in
linguistics including two foundation courses:

LING 511	Introduction to Linguistic Analysis	3
One of the following:		3
LING 514	Sociolinguistics	
LING 527	Discourse Analysis	
LING 537	Corpus Approaches to Grammatical Analysis	
And one elective from the list of courses approved for graduate credit		3
Total Credits		9

For the Ph.D. degree, the minor consists of 12 credits in linguistics
including:

LING 511	Introduction to Linguistic Analysis	3

Additional courses beyond those listed below may be used as electives.
The chair of the supervisory committee can provide information about
these.

At least one member of the linguistics faculty will serve on a student's
program of study committee. A list of faculty members may be obtained
from the Linguistics program website. Ph.D. candidates will write one
section of the preliminary examination on an area of linguistics. Students
