| AER E 160 | Aerospace Engineering Problems With Computer Applications Laboratory |

**Chemical Engineering**

| CH E 160 | Chemical Engineering Problems With Computer Applications Laboratory (Chemical Engineering) |

**Civil Engineering**

| C E 160 | Engineering Problems with Computational Laboratory |

**Computer Engineering**

| CPR E 185 | Introduction to Computer Engineering and Problem Solving I |

**Electrical Engineering**

| E E 185 | Introduction to Electrical Engineering and Problem-Solving I |

**Industrial Engineering**

| I E 148 | Information Engineering |

**Mechanical Engineering**

| M E 160 | Mechanical Engineering Problem Solving with Computer Applications |

**Software Engineering**

| S E 185 | Problem Solving in Software Engineering |

Credit hours for graduation will be given for any one of the following without increasing a curriculum's minimum number of credits required for graduation:

| AER E 160 | Aerospace Engineering Problems With Computer Applications Laboratory |
| C E 160 | Engineering Problems with Computational Laboratory |
| CH E 160 | Chemical Engineering Problems with Computer Applications Laboratory |
| ENGR 160 | Engineering Problems with Computer Applications Laboratory |
| I E 148 | Information Engineering |
| CPR E 185 | Introduction to Computer Engineering and Problem Solving I |

### Option 1

**Option 1**

| CHEM 177 | General Chemistry I | 4
| CHEM 177L | Laboratory in General Chemistry I | 1
| CHEM 178 | General Chemistry II | 3
| CHEM 178L | Laboratory in College Chemistry II | 1
| PHYS 221 | Introduction to Classical Physics I | 5

**Option 2**

| CHEM 177 | General Chemistry I | 4
| CHEM 177L | Laboratory in General Chemistry I | 1
| PHYS 221 & PHYS 222 | Introduction to Classical Physics I and Introduction to Classical Physics II |

* Students who opt for PHYS 222 Introduction to Classical Physics II rather than CHEM 178 General Chemistry II, CHEM 178L Laboratory in College Chemistry II will increase the total number of credits required by 1.

### Requirement for Entry into Professional Program

Students enrolled in the College of Engineering must satisfy the following requirements before enrolling in the professional courses (200-level and above) offered by departments in the Engineering College:

1. Completion of the basic program with a grade point average of 2.00 or better in the basic program courses.
2. A cumulative grade point average of 2.00 or better for all courses taken at Iowa State University.
3. The College of Engineering requires a grade of C or better for any transfer credit course that is applied to the Basic Program.

The following are the only exceptions to this rule:

- a. Students who have completed all of their coursework while enrolled in the College of Engineering, but have not met the three basic program requirements, may enroll for not more than two semesters in 200-level or above courses offered by departments in the College of Engineering.
- b. Students transferring to the College of Engineering from another college or university, or from a program outside this college, who have not met the three basic program requirements may also enroll for not more than two semesters in 200-level or above courses offered by departments in the College of Engineering. However, they may be granted an additional semester upon review by the college.
- c. Iowa State students not pursuing an engineering degree may generally take engineering courses without restrictions provided they meet the prerequisites and space is available.
- d. Only the first two semesters of 200-level and above engineering courses, taken at ISU while a student is not enrolled in the College of Engineering, can be applied toward an engineering degree.

### Requirement for Graduation

In order to graduate in a professional engineering curriculum, students must have a minimum GPA of 2.00 in a department-designated group of 200-level and above courses known as the Core. These courses will total no fewer than 24 semester credits.

### Engineering Minors

The College of Engineering offers five undergraduate minors which are open only to students in the College of Engineering. These are minors in bioengineering, energy systems, engineering sales, nondestructive evaluation and nuclear engineering. These minors must include at least nine credits which are beyond the total used to meet curriculum requirements.
The bioengineering minor is a 16 credit interdisciplinary program that complements a student's major discipline by providing additional insight into the interactions between various engineering disciplines and biological systems. The minor is administered by a supervisory faculty committee. For minor course requirements, refer to Bioengineering in Courses and Programs.

The aerospace engineering minor is a 15 credit minor that complements the technical training in the student's major discipline by providing the tools and knowledge required for technical (i.e., business-to-business) sales careers. The minor is administered by a supervisory faculty committee. For minor course requirements, refer to the Energy Systems in Courses and Programs.

The nuclear engineering minor is a 15 credit minor which enables engineering students to acquire a basic and fundamental knowledge of nuclear sciences and engineering. Courses are provided at Iowa State University and also through an inter-institutional distance education program offered through the Web by four of the Big 12 Engineering Consortium Schools. For minor course requirements, refer to Nuclear Engineering in Courses and Programs.

Engineering Minor (Interdisciplinary)

The College of Engineering offers an undergraduate minor in wind energy which is open to all students at ISU that meet the prerequisites. The wind energy minor is a 15 credit minor which enables students to acquire an interdisciplinary knowledge of the wind energy industry. There are two required courses; the remaining credits are chosen from a list of elective courses that are related to wind energy. The minor is administered by a supervisory faculty committee from several departments. For minor course requirements, refer to Wind Energy Minor in Courses and Program.

Undergraduate Majors and Minors Outside the College of Engineering

In addition to the engineering degree program, students may earn majors or minors in other colleges of the university. A major or minor program must meet all requirements of the offering department or program and its college and contain credits beyond the requirements for a B.S. degree in engineering. A minimum of 15 additional credits is required for each major area of study and an additional 9 credits for each minor.

Advising System

The purpose of the advising system in the College of Engineering is to work constructively with students in developing their individual academic programs and to provide a resource contact person for students during their college careers.

The college offers an orientation program during the spring and summer for students planning to enter in the fall, and during the fall for students planning to enter in the spring. Transfer students may also complete orientation online. All entering students are encouraged to attend orientation which includes meeting with an academic adviser to register for classes. Placement assessments given during the orientation program help determine the student's current level of proficiency which enables the academic adviser to prepare an appropriate course schedule for the student.

Special Programs

All engineering students are strongly encouraged to participate in either the cooperative education or internship programs. Students who are qualified to participate in the engineering honors program are also urged to do so. These programs are integrated into the professional engineering curricula and may require additional work. However, both these professional and academic programs offer opportunities that will enrich the standard academic experience. Engineering students are also encouraged to take advantage of study abroad opportunities available through the College of Engineering's International Programs Office.

Undergraduate Study

For undergraduate curriculum in aerospace engineering leading to the degree bachelor of science. This curriculum is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/.

The aerospace engineer is primarily concerned with the design, analysis, testing, and overall operation of vehicles which operate in air, water, and space. The curriculum is designed to provide the student with an education in the fundamental principles of aerodynamics, flight dynamics, propulsion, structural mechanics, flight controls, design, testing, and space technologies. A wide variety of opportunities awaits the aerospace engineering graduate in research, development, design, production, sales, and management in the aerospace industry, and in many related industries in which fluid flow, control, structural, and transportation challenges play major roles.

Make To Innovate (M:2:I) is an exciting new program in the Aerospace Engineering Department that engages students in hands-on projects to augment their understanding of engineering fundamentals. A cooperative education program in aerospace engineering is available in cooperation with government agencies and industry. The usual four-year curriculum is extended for students who participate in alternating industrial experience periods and academic periods. This arrangement offers valuable practical experience and financial assistance during the college years.

Undergraduate Mission and Educational Objectives

The Department of Aerospace Engineering maintains an internationally recognized academic program in aerospace engineering via ongoing consultation with students, faculty, industry, and aerospace professionals. Results of these consultations are used in a process of continuous academic improvement to provide the best possible education for our students.
Mission statement:
The mission of the aerospace engineering program is to prepare the aerospace engineering student for a career with wide-ranging opportunities in research, development, design, production, sales, and management in the aerospace industry and in the many related industries which are involved with the solution of multidisciplinary, advanced technology problems.

Program Educational Objectives:
Within three to five years after graduation, Aerospace Engineering alumni will have become actively contributing, valued engineers showing professional growth or be actively pursuing an advanced degree in graduate school. They will have achieved this by:
- Utilizing their strong foundation in science, mathematics and engineering.
- Demonstrating teamwork, leadership, and integrity.
- Being aware of the societal, economic and environmental impact of their work.
- Demonstrating critical thinking and effective communication skills.
- Ensuring superior quality, customer satisfaction, and safety outcomes in their work.

Nondestructive Evaluation (NDE)
The NDE minor is multidisciplinary and open to undergraduates in the College of Engineering.

Graduate Study
The department offers graduate programs that lead to the degrees master of engineering, master of science, and doctor of philosophy with major in aerospace engineering. For all graduate degrees, it is possible to establish a co-major program with another graduate degree-granting department. Within the aerospace program, students can specialize in one or more of the following areas: aerospace systems design, atmospheric and space flight dynamics, computational fluid dynamics, control systems, wind engineering, fluid mechanics, optimization, structural analysis, and non-destructive evaluation.

The master of science degree requires a thesis and a minimum of 8 research credits. It has strong research emphasis and is recommended for students who anticipate entering a doctoral program later. At least 30 credits of acceptable graduate work are required for the degree.

The master of engineering degree does not require either research credits or a thesis. However, at least two credits of acceptable creative component and at least 26 credits of acceptable graduate coursework are required. A minimum of 30 credits of acceptable graduate work is required for the degree.

In another option, a master of engineering degree can be completed through 30 credits of coursework only.

The department offers a combined BS-MS program that is expected to require two additional semesters beyond the completion of the BS program. The department also offers a similar, combined BS-MBA program.

Minor work for aerospace engineering majors is usually selected from mathematics, physics, electrical engineering, engineering mechanics, mechanical engineering, materials science, meteorology, computer science, and computer engineering.

The normal prerequisite for major graduate work in aerospace engineering is the completion of an undergraduate curriculum substantially equivalent to that required of aerospace engineering students at this university. Due to the diversity of interests of aerospace faculty, students whose prior undergraduate or graduate education has been in allied engineering and/or scientific fields may also qualify. In such cases, it may be necessary for the student to take additional work to provide the requisite aerospace background. A prospective graduate student is urged to specify the degree program and the specific field(s) of interest on the application for admission.

Courses are offered at the times stated in the course description. Where no specific time of offering is stated, the course may be offered during any semester provided there is sufficient demand.

Curriculum in Aerospace Engineering
Leading to the degree bachelor of science.

Total credits required: 128.0.

Any transfer credit courses applied to the degree program require a grade of C or better. See also Basic Program and Special Programs.

International Perspectives 1: 3 cr.
U.S. Diversity 1: 3 cr.
Communication Proficiency/Library requirement:
ENGL 150 Critical Thinking and Communication (minimum grade of C) 3
ENGL 250 Written, Oral, and Electronic Composition (minimum grade of C) 3
LIB 160 Information Literacy 1

General Education Electives: 15.0 cr 2
Complete 15 cr. including a series. A series of at least two courses must be taken to fulfill this requirement.

Basic Program: 27 cr. 4
Complete with 2.00 GPA including transfer courses:
CHEM 167 General Chemistry for Engineering Students 4
or CHEM 177 General Chemistry I 4
ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, and Electronic Composition 3
ENGR 101 Engineering Orientation R
or AER E 101H Engineering Honors Orientation 3
AER E 160 Aerospace Engineering Problems With Computer Applications Laboratory 3
LIB 160 Information Literacy 1
MATH 165 Calculus I 4
MATH 166 Calculus II 4
PHYS 221 Introduction to Classical Physics I 5
Total Credits 27
* see above for grade requirements

Math and Physical Science: 13 cr.
MATH 265 Calculus III 4
MATH 267 Elementary Differential Equations and Laplace Transforms 4
PHYS 222 Introduction to Classical Physics II 5
Total Credits 13

Aerospace Engineering Core: 48 cr. 4
AER E 261 Introduction to Performance and Design 4
AER E 310 Aerodynamics I: Incompressible Flow 3
AER E 311 Aerodynamics II: Compressible Flow 3
AER E 321 Flight Structures Analysis 3
AER E 321L Aerospace Structures Laboratory 2
AER E 331 Flight Control Systems I 3
AER E 344 Aerodynamics and Propulsion Laboratory 3
AER E 351 Astrodynamics I 3
AER E 355 Aircraft Flight Dynamics and Control 3
AER E 411 Aerospace Vehicle Propulsion I 3
AER E 421 Advanced Flight Structures 3
AER E 361 Computational Techniques for Aerospace Design 3
AER E 461 Modern Design Methodology with Aerospace Applications 3
AER E 462 Design of Aerospace Systems 3
E M 324 Mechanics of Materials 3
M E 231 Engineering Thermodynamics I 3
Total Credits 48

Other Remaining Courses: 25 cr.
E M 274 Statics of Engineering 3
E M 345 Dynamics 3
MAT E 273 Principles of Materials Science and Engineering 3
AER E 161. Numerical, Graphical and Laboratory Techniques for Aerospace Engineering

3 credits from the following 3

- AER E 412 Aerospace Vehicle Propulsion II
- AER E 422 Vibration and Aeroelasticity
- AER E 423 Composite Flight Structures
- AER E 426 Design of Aerospace Structures
- AER E 432 Flight Control Systems II
- AER E 442 V/STOL Aerodynamics and Performance
- AER E 446 Computational Fluid Mechanics and Heat Transfer I
- AER E 448 Fluid Dynamics of Turbomachinery
- AER E 451 Astrodynamics II
- AER E 464 Spacecraft Systems
- AER E 481 Advanced Wind Energy: Technology and Design

Technical Electives (see below) 2

Career Electives (see below) 2

Total Credits 25

Technical Electives, 3 cr. and Career Electives, 6 cr. selected from preceding Aer E list or departmental-approved 300-level or above courses relevant to technical and career areas.

Seminar/Co-op/Internships/Flight Experience:

- AER E 192 Aerospace Seminar
- AER E 291 Aerospace Advising Seminar
- AER E 292 Aerospace Advising Seminar
- AER E 301 Flight Experience
- AER E 391 Aerospace Advising Seminar
- AER E 392 Aerospace Advising Seminar
- AER E 491 Aerospace Advising Seminar

Co-op and internships are optional

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also allowed by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.
2. Choose from department approved list.
3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.
4. 2.00 required including transfer courses.

See also: A 4-year plan of study grid showing course template by semester. (p. )

Courses

Courses primarily for undergraduates:

AER E 101H. Engineering Honors Orientation.
Cr. R. F. Prereq: Membership in the Freshman Honors Program
Introduction to the College of Engineering and the Aerospace Engineering profession. Information concerning university, college, and department policies, procedures and resources with emphasis on the Freshman Honors Program. Topics include experiential education study abroad opportunities, and department mentorships.

AER E 112. Orientation to Learning and Productive Team Membership.
(Cross-listed with NREM, CON E, FS HN, HORT). (2-0) Cr. 2. F. Introduction to developing intentional learners and worthy team members. Learning as the foundation of human enterprise; intellectual curiosity; ethics as a personal responsibility; everyday leadership; effective team and community interactions including team learning and the effects on individuals; and growth through understanding self, demonstrating ownership of own learning, and internalizing commitment to helping others. Intentional mental processing as a means of enhancing learning. Interconnectedness of the individual, the community, and the world.

AER E 160. Aerospace Engineering Problems With Computer Applications Laboratory.
(2-2) Cr. 3. F.S. Prereq: Satisfactory scores on mathematics placement assessments; credit or enrollment in MATH 142, MATH 165

(2-2) Cr. 3. F.S. Prereq: Satisfactory scores on mathematics placement assessments; credit or enrollment in MATH 142, MATH 165

(3-2) Cr. 4. F.S. Prereq: AER E 160 or equivalent course
Computer solutions to aerospace engineering problems using the FORTRAN language and Matlab(R), with emphasis on numerical methods. Solid modeling with emphasis on aerospace design. Analysis of basic mathematical models and engineering problem solving. Written and oral technical reports. Team projects.

AER E 161H. Numerical, Graphical and Laboratory Techniques for Aerospace Engineering: Honors.
(3-2) Cr. 4. F.S. Prereq: AER E 160 or equivalent course
Computer solutions to aerospace engineering problems using the FORTRAN language and Matlab(R), with emphasis on numerical methods. Solid modeling with emphasis on aerospace design. Analysis of basic mathematical models and engineering problem solving. Written and oral technical reports. Team projects.

AER E 192. Aerospace Seminar.
Cr. R. S.
Experimental lab set-up, graphical skills. Academic program planning.

AER E 192H. Aerospace Seminar: Honors.
Cr. R. S.
Experimental lab set-up, graphical skills. Academic program planning.

Cr. 1-2. Repeatable. Prereq: Sophomore classification, approval of the department
Engineering aspects of scientific balloon flights. Integration of science mission objectives with engineering requirements. Operations team certification. FAA and FCC regulations, communications, and command systems. Flight path prediction and control.

AER E 209A. Aerospace Engineering Independent Study: Flight ground instruction.
Cr. 1-2. Repeatable. Prereq: Sophomore classification, approval of the department

AER E 209B. Aerospace Engineering Independent Study: In-flight training.
Cr. 1-2. Repeatable. Prereq: AER E 301

AER E 209C. Aerospace Engineering Independent Study: Other.
Cr. 1-2. Repeatable. Prereq: AER E 301

Cr. R. F.
Academic program planning. Offered on a satisfactory-fail basis only.

AER E 292. Aerospace Advising Seminar.
Cr. R. S.
Academic program planning. Offered on a satisfactory-fail basis only.

Cr. 1-2. Repeatable.
AER E 290A. Aerospace Engineering Independent Study: Flight ground training.
Cr. 1-2. Repeatable. Prereq: AER E 301

AER E 290B. Aerospace Engineering Independent Study: In-flight training.
Cr. 1-2. Repeatable. Prereq: AER E 301

AER E 290C. Aerospace Engineering Independent Study: Other.
Cr. 1-2. Repeatable. Prereq: AER E 301

AER E 206. Scientific Balloon Engineering and Operations.
(Cross-listed with MTEOR). (0-2) Cr. 1. Repeatable. F.

AER E 256. Scientific Balloon Engineering and Operations.
(Cross-listed with MTEOR). (0-2) Cr. 1. Repeatable. F.

Cr. 1-2. Repeatable. Prereq: Sophomore classification, approval of the department

Cr. 1-2. Repeatable. Prereq: Sophomore classification, approval of the department

AER E 290A. Aerospace Engineering Independent Study: Flight ground instruction.
Cr. 1-2. Repeatable. Prereq: Sophomore classification, approval of the department

AER E 290B. Aerospace Engineering Independent Study: In-flight training.
Cr. 1-2. Repeatable. Prereq: AER E 301

AER E 290C. Aerospace Engineering Independent Study: Other.
Cr. 1-2. Repeatable. Prereq: AER E 301

Cr. R. F.
Academic program planning. Offered on a satisfactory-fail basis only.

AER E 292. Aerospace Advising Seminar.
Cr. R. S.
Academic program planning. Offered on a satisfactory-fail basis only.

AER E 298. Cooperative Education.
Cr. R. F.S.S. Prereq: Permission of department and Engineering Career Services
First professional work period in the cooperative education program. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.
AER E 301. Flight Experience.
Cr. R. F. Prereq. Credit or enrollment in AER E 355
Two hours of in-flight training and necessary ground instruction. Course content prescribed by the Aerospace Engineering Department. Ten hours of flight training certified in a pilot log book can be considered by the course instructor as evidence of satisfactory performance in the course. Offered on a satisfactory-fail basis only.

(3-0) Cr. 3. F. Prereq: Grade of C- or better in AER E 261 and MATH 265

(3-0) Cr. 3. S. Prereq: AER E 310, M E 231
Review of thermodynamics, energy equation, compressible flow, isentropic flow, normal and oblique shocks, Mach waves, expansion fans, ducts and nozzles, compressible slender body theory. Nonmajor graduate credit.

(3-0) Cr. 3. F. Prereq: E M 324
Determination of flight loads. Materials selection for flight applications. Analysis of flight structures including trusses, beams, frames, and shear panels employing classical and finite element methods. Nonmajor graduate credit.

AER E 321L. Aerospace Structures Laboratory.
(1-2) Cr. F. Prereq: Credit or enrollment in AER E 321

AER E 331. Flight Control Systems I.
(3-0) Cr. 3. S. Prereq: AER E 355
Linear system analysis. Control system designs using root-locus and frequency response methods. Applications in flight control systems. Nonmajor graduate credit.

AER E 344. Aerodynamics and Propulsion Laboratory.
(2-2) Cr. 3. S. Prereq: AER E 310 and AER E 311

AER E 351. Astrodynamics I.
(3-0) Cr. 3. F.S. Prereq: E M 345, AER E 261. Credit or enrollment in AER E 310
Introduction to astrodynamics. Two-body motion. Geocentric, lunar and interplanetary trajectories and applications. Launch and atmospheric re-entry trajectories. Nonmajor graduate credit.

AER E 355. Aircraft Flight Dynamics and Control.
(3-0) Cr. 3. F. Prereq: AER E 261, MATH 267, E M 345
Aircraft rigid body equations of motion, linearization, and modal analysis. Longitudinal and lateral-directional static and dynamic stability analysis. Flight handling characteristics analysis. Longitudinal and lateral-directional open loop response to aircraft control inputs. Aircraft flight handling qualities. Nonmajor graduate credit.

AER E 361. Computational Techniques for Aerospace Design.
(2-2) Cr. 3. F.S. Prereq: AER E 310, MATH 267, E M 324, E M 345
Advanced programming, workstation environment, and development of computational tools for aerospace analysis and design. Technical report writing. Nonmajor graduate credit.

AER E 361. Introduction to Wind Energy.
(3-0) Cr. 3. S. Prereq: MATH 166, PHYS 221
Basic introduction to the fundamentals of Wind Energy and Wind Energy conversion systems. Topics include but not limited to various types of wind energy conversion systems and the aerodynamics, blade and tower structural loads, kinematics of the blades and meteorology. Nonmajor graduate credit.

Cr. R. F. S.
Academic program planning. Offered on a satisfactory-fail basis only.

Cr. R. S.
Academic program planning. Offered on a satisfactory-fail basis only.

AER E 396. Summer Internship.
Cr. R. Repeatable. SS. Prereq: Permission of department and Engineering Career Services
Summer professional work period. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

AER E 397. Engineering Internship.
Cr. R. Repeatable. F.S. Prereq: Permission of department and Engineering Career Services
Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only. Professional work period, one semester maximum per academic year.

AER E 398. Cooperative Education.
Cr. R. F.S.S. Prereq: AER E 298, permission of department and Engineering Career Services
Second professional work period in the cooperative education program. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

AER E 411. Aerospace Vehicle Propulsion I.
(3-0) Cr. 3. F. Prereq: AER E 311

AER E 412. Aerospace Vehicle Propulsion II.
(3-0) Cr. 3. S. Prereq: AER E 311

(Cross-listed with E M), (2-2) Cr. 3. Alt. F., offered 2012. Prereq: E M 324
Introduction of different aspects of measuring deformation, strains, and stress for practical engineering problems. Strain gage theory and application. Selected laboratory experiments. Nonmajor graduate credit.

(2-5) Cr. 3. S. Prereq: AER E 321, MATH 266 or MATH 267
Analysis of indeterminate flight structures including finite element laboratory. Static analysis of complex structural components subject to thermal and aerodynamic loads. Analytical and finite element solutions for stresses and displacements of membrane, plate stress, plate structures. Buckling of beams, frames, and plate structures. Introduction to vibration of flight structures. Steady state and transient structural response using normal modal analysis. Nonmajor graduate credit.

AER E 422. Vibrations and Aeroelasticity.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: E M 324 or AER E 321

(2-2) Cr. 3. S. Prereq: E M 324; MAT E 273
Fabrication, testing and analysis of composite materials used in flight structures. Basic laminate theory of beams, plates, and shells. Manufacturing and machining considerations of various types of composites. Testing of composites for material properties, strength and defects. Student projects required. Nonmajor graduate credit.

(1-6) Cr. 3. S. Prereq: E M 324
Detailed design and analysis of aerospace vehicle structures. Material selection, strength, durability and damage tolerance, and validation analysis. Design for manufacturability. Nonmajor graduate credit.

AER E 432. Flight Control Systems II.
(3-0) Cr. 3. F. Prereq: AER E 331
AER E 442. V/STOL Aerodynamics and Performance. 
(3-0) Cr. 3. F. Prereq: AER E 355
Introduction to the aerodynamics, performance, stability, control and critical maneuvering characteristics of V/STOL vehicles. Topics include hovercrafts, jet flaps, ducted fans and thrust vectored engines. Nonmajor graduate credit.

AER E 446. Computational Fluid Mechanics and Heat Transfer I. 
(Dual-listed with AER E 546). (3-0) Cr. 3. F. Prereq: AER E 161, AER E 310

AER E 448. Fluid Dynamics of Turbomachinery. 
(Cross-listed with M E). (3-0) Cr. 3. S. Prereq: M E 335 or equivalent
Applications of principles of fluid mechanics and thermodynamics in performance analysis and design of turbomachines. Conceptual and preliminary design of axial and radial flow compressors and turbines using velocity triangles and through-flow approaches. Nonmajor graduate credit.

AER E 451. Astrodynamics II. 
(3-0) Cr. 3. F.S. Prereq: AER E 351
Simple orbit determination and prediction. Advanced orbit maneuvers, single-, double-, and triple-impulse; fixed-maximum, finite-duration. 3-D rigid-body dynamics, Euler's equations, satellite stabilization and attitude control. Earth gravity field models and gravity harmonics, orbit perturbations, variational methods, relative orbital mechanics, Clohessy-Wiltshire equations. Nonmajor graduate credit.

AER E 461. Modern Design Methodology with Aerospace Applications. 
(2-2) Cr. 3. F.S. Prereq: AER E 361, AER E 311, AER E 321, AER E 351, AER E 355
Introduction to modern engineering design methodology. Computational constrained optimal design approach including selection of objective function, characterization of constraint system, materials and strength considerations, and sensitivity analyses. Nonmajor graduate credit.

(1-4) Cr. 3. F.S. Prereq: AER E 461
Fundamental principles used in engineering design of aircraft, missile, and space systems. Preliminary design of aerospace vehicles. Engineering Ethics.

(3-0) Cr. 3. S. Prereq: AER E 351
An examination of spacecraft systems including attitude determination and control, power, thermal control, communications, propulsion, guidance, navigation, command and data handling, and mechanisms. Explanation of space and operational environments as they impact spacecraft design. Includes discussion of safety, reliability, quality, maintainability, testing, cost, legal, and logistics issues. Nonmajor graduate credit.

AER E 466. Multidisciplinary Engineering Design. 
(Cross-listed with A E, CPR E, E E, ENGR, I E, M E, M AT E, M E). (1-4) Cr. 3. Repeatable. F.S. Prereq: Student must be within two semesters of graduation and receive permission of instructor
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

AER E 467. Multidisciplinary Engineering Design II. 
(Cross-listed with ENGR, CPR E, E E, I E, MAT E, M E, M E). (1-4) Cr. 3. Repeatable, maximum of 2 times. F.S. Prereq: Student must be within two semesters of graduation or receive permission of instructor.
Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

(3-0) Cr. 3. F. Prereq: AER E 381 or senior classification in engineering or junior in engineering with a course in fluid mechanics
Advanced topics in wind energy, emphasis on current practices. Theoretical foundations for horizontal and vertical axis wind turbine. Design codes for energy conversion system design, aerodynamic analysis, structural load estimation, wind resource characterization wind farm design, optimization. Nonmajor graduate credit.

AER E 490. Aerospace Engineering Independent Study. 
Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

AER E 490A. Aerospace Engineering Independent Study: Aero and/or Gas Dynamics. 
Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

AER E 490B. Aerospace Engineering Independent Study: Propulsion. 
Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

AER E 490C. Aerospace Engineering Independent Study: Aerospace Structures. 
Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

AER E 490I. Aerospace Engineering Independent Study: Design. 
Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

AER E 490M. Aerospace Engineering Independent Study: Other. 
Cr. 1-6. Repeatable. Prereq: Junior or senior classification, approval of the department

AER E 491. Aerospace Advising Seminar. 
Cr. R. F.S.
Academic program planning.

AER E 498. Cooperative Education. 
Cr. R. Repeatable. F.S.SS. Prereq: AER E 398, permission of department and Engineering Career Services
Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

AER E 499. Senior Project. 
Cr. 1-2. Repeatable. F.S. Prereq: Senior classification, credit or enrollment in AER E 491
Development of aerospace principles and concepts through individual research and projects. Written report.
Courses primarily for graduate students, open to qualified undergraduates:

(Cross-listed with E M). (3-0) Cr. 3. F. Prereq: E M 324

(Cross-listed with E M). (3-2) Cr. 4. Alt., S., offered 2012. Prereq: E M 510 or E M 514 or E M 516
Fundamental concepts for force, displacement, stress, and strain measurements. Strain gages. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro and nano scale regimes.

AER E 521. Airframe Analysis.
(3-0) Cr. 3. F. Prereq: AER E 421 or E M 424
Analysis of static stresses and deformation in continuous aircraft structures. Various analytical and approximate methods of analysis of isotropic and anisotropic plates and shells.

AER E 522. Design and Analysis of Composite Materials.
(3-0) Cr. 3. F. Prereq: E M 324
Composite constituent materials, micro-mechanics, laminate analysis, hygro-thermal analysis, composite failure, joining of composites, design of composite beams and plates, honeycomb core, manufacturing of composites, short fiber composites, and demonstration laboratory.

(3-0) Cr. 3. Prereq: MATH 385, proficiency in programming
Introduction to modern mesh generation techniques. Structured and unstructured mesh methods, algebraic and POE methods, elliptic and hyperbolic methods, variational methods, error analysis, Delaunay triangulation, data structures, geometric modeling with B-spline and NURBS surfaces, surface meshing.

AER E 525. Finite Element Analysis.
(Cross-listed with E M). (3-0) Cr. 3. S. Prereq: E M 425, MATH 385
Variational and weighted residual approach to finite element equations. Emphasis on two- and three-dimensional problems in solid mechanics. Isoparametric element formulation, higher order elements, numerical integration, imposition of constraints and penalty, convergence, and other more advanced topics. Use of two- and three-dimensional computer programs. Dynamic and vibrational problems, eigenvalues, and time integration. Introduction to geometric and material nonlinearities.

AER E 531. Automatic Control of Flight Vehicles.
(3-0) Cr. 3. S. Prereq: AER E 331
Applications of classical and modern linear control theory to automatic control of flight vehicles. Spacecraft attitude control. Control of flexible vehicles. Linear-quadratic regulator design applications.

(Cross-listed with M E). (3-0) Cr. 3. Alt., S., offered 2012. Prereq: AER E 311

AER E 541. Incompressible Flow Aerodynamics.
(3-0) Cr. 3. F. Prereq: AER E 311 or M E 335

AER E 545. Advance Experimental Technique for Thermal-Fluid Studies.
(3-0) Cr. 3. Alt., F., offered 2013. Prereq: AER E 311 or M E 335 or E M 378
Introduction of various experimental techniques widely used for fluid mechanics, aerodynamics, heat transfer, and combustion studies. Pressure gauge and transducers; Pitot tube; hot wire anemometry; shadowgraph and Schlieren Photography; laser Doppler velocimetry; particle image velocimetry (PIV); advanced PIV techniques (stereo PIV, 3-D PIV, Holograph PIV, microscopic PIV); laser induced fluorescence; pressure sensitive painting, temperature sensitive painting; molecular tagging velocimetry; molecular tagging thermometry. Extensive application and demonstration laboratory experiments will be included.

AER E 546. Computational Fluid Mechanics and Heat Transfer I.
(Dual-listed with AER E 446). (3-0) Cr. 3. F. Prereq: AER E 161, AER E 310

AER E 547. Computational Fluid Mechanics and Heat Transfer II.
(Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: AER E 546 or AER E 546
Application of computational methods to current problems in fluid mechanics and heat transfer. Methods for solving the Navier-Stokes and reduced equation sets such as the Euler, boundary layer, and parabolized forms of the conservation equations. Introduction to relevant aspects of grid generation and turbulence modeling.

(3-0) Cr. 3. F. Prereq: AER E 351

(3-0) Cr. 3. F. Prereq: AER E 331

AER E 556. Fracture and Fatigue.
(Cross-listed with M S E, M E, M I). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: E M 324 and either MAT E 216 or MAT E 273 or MAT E 392. Undergraduates: Permission of instructor
Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

AER E 556. Systems Engineering and Analysis.
(Cross-listed with I E, E E). (3-0) Cr. 3. Prereq: Coursework in basic statistics
Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test and evaluation, and systems engineering planning and organization. Not available for degrees in industrial engineering.

AER E 566. Avionics Systems Engineering.
(Cross-listed with E E). (3-0) Cr. 3. S. Prereq: E E 565
Avionics functions. Applications of systems engineering principles to avionics. Top down design of avionics systems. Automated design tools.

AER E 570. Wind Engineering.
(Cross-listed with E M). (3-0) Cr. 3. Alt., S., offered 2013. Prereq: E M 378, E M 345
Atmospheric circulations, atmospheric boundary layer wind, bluff-body aerodynamics, aeroelastic phenomena, wind-tunnel and full-scale testing, wind-load code and standards, effect of tornado and thunderstorm winds, design applications.

AER E 572. Turbulence.
(Cross-listed with CH E). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: AER E 543 or M E 538

(Cross-listed with E E, MATH, M E). (3-0) Cr. 3. F. Prereq: E E 324 or AER E 331 or M E 370 or M E 411 or MATH 341
AER E 574. Optimal Control.
(Cross-listed with E E, MATH, M E), (3-0) Cr. 3. S. Prereq: E E 577
The optimal control problem. Variational approach. Pontryagin’s principle, Hamilton-
Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum
energy control systems. The regulator problem. Structures and properties of optimal
controls.

AER E 575. Introduction to Robust Control.
(Cross-listed with MATH, E E, M E), (3-0) Cr. 3. Prereq: E E 577
Introduction to modern robust control. Model and signal uncertainty in control
systems. Uncertainty description. Stability and performance robustness to
uncertainty. Solutions to the H2, Hoo, and H control problems. Tools for robustness
analysis and synthesis.

(Cross-listed with E E, MATH, M E), (3-0) Cr. 3. F. Prereq: E E 475 or AER E 432 or
M E 411 or 414 or MATH 415; and MATH 267
Sampled data, discrete data, and the z-transform. Design of digital control systems
using transform methods: root locus, frequency response and direct design methods.
Design using state-space methods. Controllability, observability, pole placement,
state estimators. Digital filters in control systems. Microcomputer implementation
of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital
control systems. Simulation of digital control systems.

AER E 577. Linear Systems.
(Cross-listed with E E, MATH, M E), (3-0) Cr. 3. F. Prereq: E E 324 or AER E 331 or
MATH 415; and MATH 307
Linear algebra review. Least square method and singular value decomposition.
State space modeling of linear continuous-time systems. Solution of linear systems.
Controllability and observability. Canonical description of linear equations. Stability
of linear systems. State feedback and pole placements. Observer design for linear
systems.

AER E 578. Nonlinear Systems.
(Cross-listed with E E, MATH, M E), (3-0) Cr. 3. S. Prereq: E E 577
Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold
theory. Lyapunov stability. Absolute stability of feedback systems. Input-output
stability. Passivity theory and feedback linearization. Nonlinear control design
techniques.

(3-0) Cr. 3. S. Prereq: MATH 267
Mathematical perturbation methods with applications to ordinary differential
Resonance and mode coupling. Solvability conditions for differential equations.
Physical and engineering applications.

AER E 590. Aerospace Engineering Independent Study: Special Topics.
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590A. Aerospace Engineering Independent Study: Aero and/or Gas
Dynamics.
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590B. Aerospace Engineering Independent Study: Propulsion.
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590C. Aerospace Engineering Independent Study: Aerospace
Structures.
Cr. 1-5. Repeatable, maximum of 3 times.

Cr. 1-5. Repeatable, maximum of 3 times.

Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590F. Aerospace Engineering Independent Study: Flight Control
Systems.
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590G. Aerospace Engineering Independent Study: Aeronautical
Engineering Systems.
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590H. Aerospace Engineering Independent Study: Viscous
Aerodynamics.
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590I. Aerospace Engineering Independent Study: Design.
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590J. Aerospace Engineering Independent Study: Hypersonics.
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590K. Aerospace Engineering Independent Study: Computational
Aerodynamics.
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590L. Aerospace Engineering Independent Study: Optimization.
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590M. Aerospace Engineering Independent Study: Non Destructive
Evaluation.
Cr. 1-5. Repeatable, maximum of 3 times.

Cr. 1-5. Repeatable, maximum of 3 times.

AER E 591. Graduate Student Seminar Series.
Cr. R. Repeatable.
Presentation of professional topics by department graduate students. Development
of presentation skills used in a professional conference setting involving question and
answer format.

AER E 599. Creative Component.
Cr. 1-5. Repeatable.

Courses for graduate students:

(3-0) Cr. 3. S. Prereq: AerE 541
Theoretical methods of stability analysis; linear analysis of exchange of stability and
over stability; bifurcation of equilibria; most dangerous modes and pattern formation;
shoar flow stability theorems. Physical mechanisms. Tollmein-Schlichting waves,
disintegration of capillary jets, Benard convection, Taylor-Couette flow, centrifugal
instability, double diffusion.

AER E 647. Advanced High Speed Computational Fluid Dynamics.
(Cross-listed with M E), (3-0) Cr. 3. Alt. S., offered 2013. Prereq: AER E 547
An examination of current methods in computational fluid dynamics. Differencing
Construction of higher-order CFD algorithms. Parallel computing. Current
applications. Use of state of the art CFD codes.

Cr. 1-5. Repeatable.

AER E 690A. Aerospace Engineering Independent Study: Aero and/or Gas
Dynamics.
Cr. 1-5. Repeatable.

AER E 690B. Aerospace Engineering Independent Study: Propulsion.
Cr. 1-5. Repeatable.

AER E 690C. Aerospace Engineering Independent Study: Aerospace
Structures.
Cr. 1-5. Repeatable.

Cr. 1-5. Repeatable.

Cr. 1-5. Repeatable.

AER E 690F. Aerospace Engineering Independent Study: Flight Control
Systems.
Cr. 1-5. Repeatable.

Cr. 1-5. Repeatable.

AER E 690H. Aerospace Engineering Independent Study: Viscous
Aerodynamics.
Cr. 1-5. Repeatable.

AER E 690L. Aerospace Engineering Independent Study: Design.
Cr. 1-5. Repeatable.

AER E 690J. Aerospace Engineering Independent Study: Hypersonics.
Cr. 1-5. Repeatable.

Cr. 1-5. Repeatable.
Cr. 1-5. Repeatable.

AER E 697. Engineering Internship.
Cr. R. Repeatable. Prereq: Permission of DOGE (Director of Graduate Education),
graduate classification
One semester and one summer maximum per academic year professional work
period. Offered on a satisfactory-fail basis only.

AER E 699. Research.
Cr. arr. Repeatable.

Agricultural Engineering
Administered by the Department of Agricultural and Biosystems Engineering

Undergraduate Study
For the undergraduate curriculum in agricultural engineering leading to the degree
bachelor of science. This curriculum is accredited under the General Criteria
and Program Criteria for Agricultural Engineering Programs by the Engineering

Curriculum Educational Goal, Objectives, and Learning Outcomes:
Goal: To educate students in the analysis and design of machinery, animal housing,
and environmental systems for the production, processing, storage, handling,
distribution, and use of food, feed, fiber and other biomaterials, and the management
of related natural resources, by integrating basic physical and biological sciences
with engineering design principles.

Program Educational Objectives: Three to five years after graduation, our
graduates will be using the knowledge, skills, and abilities from their agricultural
engineering degree to improve the human condition through successful careers in
a wide variety of fields. They will be effective leaders, collaborators, and innovators
who address environmental, social, technical, and business challenges. They will
be engaged in life-long learning and professional development through self-study,
continuing education, or graduate/professional school.

Student Outcomes: At graduation, students will have developed and demonstrated
these outcomes:
(a) an ability to apply knowledge of mathematics, science, and engineering;
(b) an ability to design and conduct experiments, as well as to analyze and interpret
data;
(c) an ability to design a system, component, or process to meet desired needs within
realistic constraints such as economic, environmental, social, political, ethical, health
and safety, manufacturability, and sustainability;
(d) an ability to function on multidisciplinary teams;
(e) an ability to identify, formulate, and solve engineering problems;
(f) an understanding of professional and ethical responsibility;
(g) an ability to communicate effectively;
(h) the broad education necessary to understand the impact of engineering solutions
in a global, economic, environmental, and societal context;
(i) a recognition of the need for, and an ability to engage in life-long learning;
(j) a knowledge of contemporary issues;
(k) an ability to use the techniques, skills, and modern engineering tools necessary
for engineering practice.

Graduates find employment in diverse ag- and bio-related industries and
government agencies dealing with agricultural machines and buildings, animal and
environmental control, grain processing and handling, soil and water resources,
food, biorenewables, and biotechnology. Their work involves engineering design,
development, testing, research, manufacturing, consulting, sales, and service.
Students are highly encouraged to participate in either cooperative education or
internship programs.

The department also offers a bachelor of science curriculum in biological systems
engineering. Additionally, the department offers bachelor of science curricula in
agricultural systems technology and in industrial technology.
Well-qualified juniors and seniors in agricultural engineering who are interested
in graduate study may apply for concurrent enrollment in the Graduate College to
simultaneously pursue a bachelor of science degree in agricultural engineering
and a master of science degree in agricultural engineering. A concurrent bachelor
of science and master of business administration program is also offered by the
department. Refer to Graduate Study for more information.

Graduate Study
The department offers master of science, master of engineering, and doctor
of philosophy degrees with a major in agricultural engineering. Within the
agricultural engineering major the student may specialize in advanced machinery
engineering, animal production systems engineering, biological and process
engineering, occupational safety engineering, or water and environmental
stewardship engineering. Details on current research programs available at http://
www.abe.iastate.edu/.

For the master of science program, at least 30 credits of acceptable graduate work
must be completed with a minimum of 22 credits of course work; corresponding
numbers for the master of engineering program are 32 and 27. For the doctor
of philosophy degree, at least 72 credits of acceptable graduate work must be
completed with a minimum of 42 credits of course work. All Ph.D. students must
complete a teaching/extension experience prior to graduation.

The department also offers both master of science and doctor of philosophy degrees
in industrial and agricultural technology.

The department also participates in interdepartmental majors in environmental
science, sustainable agriculture, biorenewable resources and technology, human
computer interaction, and toxicology (see Index).

Curriculum in Agricultural Engineering
Administered by the Department of Agricultural and Biosystems Engineering.
Leading to the degree bachelor of science.
Total credits required: 128 cr. Any transfer credit courses applied to the degree
program require a grade of C or better. See also Basic Program and Special
Programs.

International Perspectives: 3 cr. ¹
U.S. Diversity: 3 cr. ¹

Communication Proficiency/Library requirement:
ENGL 150 Critical Thinking and Communication (minimum grade of
C) 3
ENGL 250 Written, Oral, Visual, and Electronic Composition
(minimum grade of C) 3
LIB 160 Information Literacy 1
One of the following (minimum grade of C) 3
AGEDS 311 Presentation and Sales Strategies for Agricultural
Audiences
ENGL 309 Report and Proposal Writing 3
ENGL 314 Technical Communication 3
SP CM 212 Fundamentals of Public Speaking 3
MKT 343 Personal Sales

Social Sciences and Humanities: 12 cr. ²
3 credits from international perspectives 3
3 credits from U.S. diversity university-approved list 3
6 additional credits from Social Sciences and Humanities courses 6
Total Credits 12

Basic Program: 27 cr. ³ ⁴
CHEM 167 General Chemistry for Engineering Students 4
or CHEM 177 General Chemistry I
and
CHEM 178 General Chemistry II 4
ENGL 150 Critical Thinking and Communication * 3
ENGL 250 Written, Oral, Visual, and Electronic Composition * ³ 3
ENGR 101 Engineering Orientation R 3
ENGR 160 Engineering Problems with Computer Applications
Laboratory ³ 3

* Indicates laboratory course.
Land and Water Resources Engineering Option: 40 cr.

Elect remaining courses from one of the following options:

Other Remaining Courses: 8 cr.

One of the following (minimum grade of C)

Total Credits 8

Elect remaining courses from one of the following options:

Land and Water Resources Engineering Option: 40 cr.

Total Credits 40

Animal Production Systems Engineering Option: 40 cr.

Total Credits 40
Courses

Courses primarily for undergraduates:

A E 110. Experiencing Agricultural and Biosystems Engineering. (0-2) Cr. 1. S.
Laboratory-based, team-oriented experiences in a spectrum of topics common to the practice of agricultural and biosystems engineering. Report writing, co-ops, internships, careers, registration planning.

A E 170. Engineering Graphics and Introductory Design. (Cross-listed with BSE). (2-2) Cr. 3. F.S. Prereq: Sophomore classification in A E, AST, BSE or iTec
Principles of drafting and computer-aided design. Introduction to computer-aided engineering. Applications of computer software in the design and drafting of engineering products.

A E 201. Preparing for Workplace Seminar. (Cross-listed with BSE, TSM). (1-0) Cr. 1. F.S. Prereq: Sophomore classification in A E, AST, BSE or iTec

A E 216. Fundamentals of Agricultural and Biosystems Engineering. (Cross-listed with BSE). (2-2) Cr. 3. F. Prereq: A E 110, ENGR 160, credit or enrollment in MATH 166
Application of mathematics and engineering sciences to mass and energy balances in agricultural and biological systems. Emphasis is on solving engineering problems in the areas of heat and mass transfer, air and water vapor systems; animal production systems, grain systems; food systems, hydrologic systems, and bioprocessing.

Colleges and Curricula
A E 398. Cooperative Education.
Prereq: A E 298, permission of department and Engineering Career Services
Second professional work period in the cooperative education program. Students must register for this course before commencing work.

A E 403. Modeling and Controls for Agricultural Systems.
(Dual-listed with A E 503). (Cross-listed with BSE). (2-2) Cr. 3. At. S., offered 2013. Prereq: A E 363, MATH 266
Modeling dynamic systems with ordinary differential equations. Introduction to state variable methods of system analysis. Analysis of mechanical, electrical, and fluid power systems. Analytical and numerical solutions of differential equations. Introduction to classical control theory. Feedback and stability examined in the s domain. Frequency response as an analytical and experimental tool. MATLAB will be used throughout the course for modeling.

A E 404. Instrumentation for Agricultural and Biosystems Engineering.
(Dual-listed with A E 504). (2-2) Cr. 3. F. Prereq: A E 363 or CPR E 281
Interfacing techniques for computer-based data acquisition and control systems. Basic interfacing components including A/D and D/A conversion, signal filtering, multiplexing, and process control. Sensors and theory of operation applied to practical monitoring and control problems.

A E 408. GIS and Natural Resources Management.
(Dual-listed with A E 508). (Cross-listed with ENSCI). (2-2) Cr. 3. F. Prereq: Working knowledge of computers and Windows environment
Introduction to fundamental concepts and applications of GIS in natural resources management with specific focus on watersheds. Topics include: basic GIS technology, data structures, database management, spatial analysis, and modeling; visualization and display of natural resource data. Case studies in watershed and natural resource management using ArcView GIS.

(Dual-listed with A E 510). Cr. 3. S. Prereq: A E 363 or equivalent.
System architecture and design of electronics used in agricultural machinery and production systems. Emphasis on information technology and systems integration for automated agriculture processes. Design of Controller Area Network (CAN BUS) communication systems and discussion of relevant standards (ISO 11783 and SAE J1939). Application of technologies for sensing, distribution control, and automation of agricultural machinery will be emphasized.

A E 411. Bioprocessing and Bioproducts.
(Dual-listed with A E 511). (Cross-listed with C E, BIOE, BSE). (3-0) Cr. 3. F. Prereq: A E 216, C E 326 or equivalent, MATH 160 or MATH 165, CHEM 167 or higher, BIOL 173 or BIOL 211 or higher, senior or graduate classification

A E 413. Fluid Power Engineering.
(Cross-listed with M E). (2-2) Cr. 3. F. Prereq: Credit or enrollment in E M 378 or M E 335, A E 216 or M E 270

A E 415. Agricultural Engineering Design I.
(Cross-listed with BSE). (1-2) Cr. 2. F. S. Prereq: A E 271 or A E 272, E M 324
Identification of current design problems in agricultural engineering. Development of alternate solutions using creativity and engineering analysis and synthesis techniques. Nonmajor graduate credit.

A E 416. Agricultural Engineering Design II.
(Cross-listed with BSE). (1-2) Cr. 2. F. S. Prereq: A E 415
Selection of promising solutions to design problems identified in 415 for development by design teams. Presentation of designs through oral and written reports and prototypes. Nonmajor graduate credit.

A E 424. Air Pollution.
(Dual-listed with A E 524). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A E 424A. Air Pollution: Air quality and effects of pollutants.
(Dual-listed with A E 524A). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A E 424B. Air Pollution: Climate change and causes.
(Dual-listed with A E 524B). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A E 424C. Air Pollution: Transportation constraints.
(Dual-listed with A E 524C). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A E 424D. Air Pollution: Off-gas treatment technology.
(Dual-listed with A E 524D). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A E 424E. Air Pollution: Agricultural sources of pollution.
(Dual-listed with A E 524E). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

(Dual-listed with A E 531). (2-3) Cr. 3. F. Prereq: E M 378 or CH E 356

A E 432. Nonpoint Source Pollution and Control.
(Dual-listed with A E 532). (3-0) Cr. 3. F. Prereq: E M 378 or CH E 356 or M E 335
Characteristics and courses of non-point source (NPS) pollution in agricultural and urban watersheds, computer modeling and NPS pollution for terrestrial and aquatic systems, strategies to control and manage NPS pollution of water bodies, total maximum daily loads (TMDLs) and integrated watershed management. Graduate students are required to review research papers and develop/deliver lecture models on assigned topics.

(Dual-listed with A E 536). (3-0) Cr. 3. Alt. S., offered 2014. Prereq: A E 431 or permission of the instructor
Development of monitoring systems that support effective planning, performance evaluation, modeling, or environmental impact assessment of soil-, water-, and waste-management systems. Typical soil and water pollutants and physical, chemical, and biological characteristics that affect sample location and timing. Sample collection, documentation, chain-of-custody, and quality assurance procedures.

A E 451. Food and Bioprocess Engineering.
(Dual-listed with A E 551). (3-0) Cr. 3. F. Prereq: A E 216 and M E 436 or CH E 357, or FS HN 351 and MATH 266 or MATH 267
Application of engineering principles and mathematical modeling to the quantitative analysis of food and bioprocessing systems. Physical/chemical characteristics of foods and biological systems, flow processes, thermal processes and separation processes.

A E 466. Multidisciplinary Engineering Design.
(Dual-listed with AER E, CPR E, ENGR E, E E I, E M, E Mate). (1-4) Cr. 3. Repeatable. F. S. Prereq: Student must be within two semesters of graduation and receive permission of the instructor
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations, computer models and engineering drawings.

A E 496. Agricultural and Biosystems Engineering Travel Course. (Cross-listed with BSE). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor. Limited enrollment. Tour and study of international agricultural and biosystems engineering as applied to biorenewable and food systems. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C or option D. Meets International Perspectives Requirement.

A E 496A. Agricultural and Biosystems Engineering Travel Course: Pre-departure. (Cross-listed with BSE). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor. Limited enrollment. Tour and study of international agricultural and biosystems engineering as applied to biorenewable and food systems. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C or option D. Meets International Perspectives Requirement.

A E 496B. Agricultural and Biosystems Engineering Travel Course: Travel (R credit). (Cross-listed with BSE). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor. Limited enrollment. Tour and study of international agricultural and biosystems engineering as applied to biorenewable and food systems. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C or option D. A E 496C. Agricultural and Biosystems Engineering Travel Course: Post-travel. (Cross-listed with BSE). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor. Limited enrollment. Tour and study of international agricultural and biosystems engineering as applied to biorenewable and food systems. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C or option D. Meets International Perspectives Requirement.

A E 496D. Agricultural and Biosystems Engineering Travel Course: Combination (A/B/C). (Cross-listed with BSE). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor. Limited enrollment. Tour and study of international agricultural and biosystems engineering as applied to biorenewable and food systems. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C or option D. Meets International Perspectives Requirement.

Courses primarily for graduate students, open to qualified undergraduates:

A E 501. Fundamentals of Biorenewable Resources. (Cross-listed with BRT). (3-0) Cr. 3. S. Prereq: Undergraduate training in an engineering or physical or biological discipline or degrees in agriculture or economics. Introduction to the science and engineering of converting biorenewable resources into bioenergy and biobased products. Survey of biorenewable resource base and properties; description of biobased products; methods of biorenewable resource production; processing technologies for fuels, chemicals, materials, and energy; environmental impacts; economics of biobased products and bioenergy.

A E 504. Instrumentation for Agricultural and Biosystems Engineering. (Dual-listed with A E 404). (2-2) Cr. 3. F. Prereq: A E 363 or CPR E 281. Interfacing techniques for computer-based data acquisition and control systems. Basic interfacing components including A/D and D/A conversion, signal filtering, multiplexing, and process control. Sensors and theory of operation applied to practical monitoring and control problems.

A E 506. Applied Computational Intelligence. (2-2) Cr. 3. Alt. F., offered 2012. Prereq: A E 316 or equivalent, MATH 166, STAT 305. Applications of biologically inspired computational intelligence tools for data mining, system modeling, and optimization for agricultural, biological and other engineered systems. Introduction to Artificial Neural Networks, Support Vector Machines, Fuzzy Logic, Genetic Algorithms, Bayesian and Decision Tree learning. Fundamental Machine Vision techniques will be introduced in the first part of course and be integrated into the lab exercises for learning different computational intelligence techniques. MATLAB will be used throughout the course for algorithm implementation.

A E 508. GIS and Natural Resources Management. (Dual-listed with A E 408). (Cross-listed with ENSCI). (2-2) Cr. 3. F. Prereq: Working knowledge of computers and Windows environment. Introduction to fundamental concepts and applications of GIS in natural resources management with specific focus on watersheds. Topics include: basic GIS technology, data structures, database management, spatial analysis, and modeling; visualization and display of natural resource data. Case studies in watershed and natural resource management using ArcView GIS. In addition to other assignments, graduate students will prepare research literature reviews on topics covered in class and develop enterprise applications.
(Dual-listed with A E 410). Cr. 3. S. Prereq: A E 363 or equivalent. System architecture and design of electronics used in agricultural machinery and production systems. Emphasis on information technology and systems integration for automated agriculture processes. Design of Controller Area Network (CAN BUS) communication systems and discussion of relevant standards (ISO 11783 and SAE J1939). Application of technologies for sensing, distribution control, and automation of agricultural machinery will be emphasized.

A E 511. Bioprocessing and Bioproducts.
(Dual-listed with A E 411). (Cross-listed with C E, BIOE, BSE). (3-0) Cr. 3. F. Prereq: A E 216. C E 326 or equivalent, MATH 160 or MATH 165, CHEM 167 or higher, BIOL 173 or BIOL 211 or higher, senior or graduate classification. Sustainability, cleaner production. Taxonomy, kinetics, metabolism, microbial cultivation, aerobic and anaerobic fermentation. Antibiotics, food supplements, fermented foods, vitamin production. Biofuels, bioenergy and coproducts. Mass/energy balances, process integration, pretreatment, separation. Membrane reactors, bioelectrolysis, microbial fuel cells, nanotechnology, genetic engineering, mutagenesis.

(Cross-listed with SUSAG, AGRON, AN S). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: SUSAG 509 Methods to maintain productivity and minimize the negative ecological effects of agricultural systems by understanding nutrient cycles, managing manure and crop residue, and utilizing multispecies interactions. Crop and livestock production within landscapes and watersheds is also considered. Course includes a significant field component, with student teams analyzing Iowa farms.

A E 524. Air Pollution.
(Dual-listed with A E 424). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above 1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A E 524A. Air Pollution: Air quality and effects of pollutants.
(Dual-listed with A E 424A). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above 1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A E 524B. Air Pollution: Climate change and causes.
(Dual-listed with A E 424B). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above 1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A E 524C. Air Pollution: Transportation constraints.
(Dual-listed with A E 424C). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above 1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A E 524D. Air Pollution: Off-gas treatment technology.
(Dual-listed with A E 424D). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above 1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A E 524E. Air Pollution: Agricultural sources of pollution.
(Dual-listed with A E 424E). (Cross-listed with ENSCI, C E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above 1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

(Dual-listed with A E 431). (3-3) Cr. 3. F. Prereq: E M 378 or CH E 356 Hydrology and hydraulics in agricultural and urbanizing watersheds. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design: relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality. Graduate students will prepare several research literature reviews on topics covered in the class in addition to the other assignments.

A E 532. Nonpoint Source Pollution and Control.
(Dual-listed with A E 432). (3-0) Cr. 3. Prereq: E M 378 or CH E 356 or M E 335 Characteristics and courses of non-point source (NPS) pollution in agricultural and urban watersheds, computer modeling and NPS pollution for terrestrial and aquatic systems, strategies to control and manage NPS pollution of water bodies, total maximum daily loads (TMDLs) and integrated watershed management. Graduate students are required to review research papers and develop/deliver lecture models on assigned topics.

(Cross-listed with ENSCI). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: A E 422 or C E 372, MATH 266 Soil erosion processes, modified universal soil loss equation and its application to conservation planning, sediment properties, initiation of sediment motion and over land flow, flow in alluvial channels and theory of sediment transport, channel stability, reserves sedimentation, wind erosion, BMPs for controlling erosion.

(Dual-listed with A E 436). (3-0) Cr. 3. Alt. S., offered 2014. Prereq: A E 431 or permission of the instructor Development of monitoring systems that support effective planning, performance evaluation, modeling, or environmental impact assessment of soil-, water-, and waste-management systems. Typical soil and water pollutants and physical, chemical, and biological characteristics that affect sample location and timing. Sample collection, documentation, chain-of-custody, and quality assurance procedures.

(2-2) Cr. 3. Alt. F., offered 2011. Prereq: CE 372 or equivalent A project-based course to develop a water quality improvement plan. The legislative and judicial basis of the Total Maximum Daily Load (TMDL) program, different approaches for TMDL development, data needs and sources, SWAT modeling, and principles and techniques for implementation of water quality improvement plans.

A E 551. Food and Bioprocess Engineering.
(Dual-listed with A E 451). (3-0) Cr. 3. F. Prereq: A E 216 and M E 436 or CH E 357, or FS HN 351 and MATH 266 or MATH 267 Application of engineering principles and mathematical modeling to the quantitative analysis of food and bioprocessing systems. Physical/chemical characteristics of foods and biological systems, flow processes, thermal processes and separation processes.

A E 558. Pretreatment of Biomass.
(1-2) Cr. 2. S. Prereq: A E 216 or equivalent Review of lignocellulosic chemistry; chemical and physical impacts of pretreatment; impact of pretreatment on downstream processing; pretreatment economics. Lab experiments using current and novel pretreatment methods.

A E 569. Grain Processing and Handling.
(Dual-listed with A E 469). (Cross-listed with BSE). (2-3) Cr. 3. S. Prereq: A E 216 Cereal grain and oilseed properties, quality measurement, processing, and end-use value. Design of drying systems using computer simulation. Corn wet and dry milling. Soybean oil extraction. Grain handling systems.

(Dual-listed with A E 472). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: A E 216, M E 231 Principles and design of animal environmental control systems. Insulation, heat and mass transfer, fans, ventilation, air distribution, heating and cooling equipment, energy use, control strategies.

A E 578. Wood Frame Structural Design.

A E 580. Engineering Analysis of Biological Systems.
(3-0) Cr. 3. F. Prereq: A E 216; MATH 266; BIOL 211 or BIOL 212; M E 231 Systems-level engineering analysis of biological systems. Economic and life-cycle analysis of bioresource production and conversion systems. Global energy and resource issues and the role of biologically derived materials in addressing these issues. Students enrolled in AE 580 will be required to answer additional exam questions and report on two journal articles.

A E 590. Special Topics in Agricultural & Biosystems Engineering.
Cr. 1-3. Repeatable. Guided instruction and self-study on special topics relevant to agricultural and biosystems engineering.
Courses for graduate students:

A E 601. Graduate Seminar.
(Cross-listed with TSM). (1-0) Cr. 1. F.
Keys to writing a good MS thesis or PhD dissertation. How to begin formulating research problems. Discussion of research problems and broader impacts, review of literature, identifying knowledge gaps and needs, long-term goals, research hypotheses, objectives, rationale and significance, methods, procedures, data analysis, and reporting results. Presentation of research proposal in different formats. Using peer review and responding to feedback.

A E 610. Foundations of Sustainable Agriculture.
(Cross-listed with AGRON, SUSAG, ANTHR, SOC). (3-0) Cr. 3. F. Prereq: Graduate classification, permission of instructor
Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

A E 690. Advanced Topics.
Cr. arr. Repeatable.
A E 694. Teaching Practicum.
(Cross-listed with TSM). Cr. 1-3. Repeatable. F.S.SS. Prereq: Graduate classification and permission of instructor
Graduate student experience in the agricultural and biosystems engineering departmental teaching program.

A E 697. Engineering Internship.
Cr. R. Repeatable. Prereq: Permission of department chair, graduate classification
One semester and one summer maximum per academic year professional work period.

A E 698. Technical Communications for a Master’s Degree.
(Cross-listed with TSM). Cr. 1. F.S.SS.
A technical paper draft based on the M.S. thesis or creative component is required of all master’s students. This paper must be in a form that satisfies the requirements of some specific journal and be ready for submission. A technical presentation based on M.S. thesis or creative component is required of all master’s students. This presentation must be in a form that satisfies the normal presentation requirements of a professional society. The presentation itself (oral or poster) may be made at a professional society meeting or at any international, regional, state, or university conference/event as long as the presentation content and form conforms to normal expectations. Offered on a satisfactory-fail basis only.

A E 599. Creative Component.
Cr. arr. Repeatable.

A E 699. Research: Biomedical Engineering.
Cr. arr. Repeatable.
Guided graduate research in biomedical engineering.

Cr. arr. Repeatable.
Guided graduate research in structures.

Cr. arr. Repeatable.
Guided graduate research in process engineering.

A E 699I. Research: Environmental and Natural Resources.
Cr. arr. Repeatable.
Guided graduate research in environment and natural resources.

Cr. arr. Repeatable.
Guided graduate research in waste management.

Bioengineering

http://www.eng.iastate.edu/bioengineering/
Minor supervised by an interdisciplinary faculty committee, administered by Chemical and Biological Engineering.
The Bioengineering minor is a unique opportunity for engineering students to acquire a multi-disciplinary engineering and life sciences background for entering the field of biomedical engineering.

Undergraduate Study

The program is open to all undergraduate engineering students at Iowa State University. This minor will provide students with a foundation of core biology and engineering relevant to further study in biomedical engineering along with an introduction to the application of engineering principles to biomedical problems from a multidisciplinary perspective as well as the applications within the majors of the participating departments. Minor requirements are as follows:
A minimum of 16 cr. meeting the six requirements below with a minimum of 9 of those credits not being used to meet degree requirements and a minimum of 6 cr. at the 300 level or above. For most students this last stipulation will probably result in 18 cr. being taken.

BIOI 212 Principles of Biology II 3
BIOE/CH E 220 Introduction to Biomedical Engineering 3
BIOI 256 Fundamentals of Human Physiology 3
INTRO ENGR ELEC ** 3
ADV ENGR ELEC *** 3
PROF ELEC *** 1-3

** 300-500 level engineering course with clear biomedical engineering application (BIOE 325, 341L, 352, 412, 428, 450, 450L, 490; CH E 440, 542; MAT E 456; IE 571; or other courses approved by Minor Chair).

*** 300-500 level engineering or life sciences course with clear biomedical engineering application OR BIOE 490 OR departmental 490 with biomedical engineering topic OR 200+-level life sciences laboratory course (If a 200-level course is chosen here, the student will need to meet the required 6 cr. of 300+ courses by substitution of a higher-level course for the other requirements or by taking an additional course.). OR 300-500 level BME courses, which may be offered on-line from the University of Iowa.

Courses
Courses primarily for undergraduates:

**BIOE 220. Introduction to Biomedical Engineering.**
(Cross-listed with CH E). (3-0) Cr. 3. S. Prereq: BIOL 212, ENGR 160 or equiv, MATH 166, CHEM 167 or 178, PHYS 222

Engineering analysis of basic biology and engineering problems associated with living systems and health care delivery. The course will illustrate biomedical engineering applications in such areas as: biotechnology, biomechanics, biomaterials and tissue engineering, and biosignal and image processing, and will introduce the basic life sciences and engineering concepts associated with these topics.

**BIOE 325. Systems Biology for Engineering.**
(Cross-listed with E E). (3-0) Cr. 3. Prereq: BIOE 210, MATH 267

**BIOE 341L. BioMEMS and Nanotechnology Laboratory.**
(0-3) Cr. 1. Prereq: BIOE 220, concurrent enrollment in BIOE 341

**BIOE 352. Molecular, Cellular and Tissue Biomechanics.**
(3-0) Cr. 3. Prereq: BIOE 220, E M 354, MAT E 273

Introduction to the anatomy of the musculoskeletal system and connective tissue. Range of movement, joint dislocation, bone deformity and fracture. Application of continuum mechanics to both living and non-living systems. Laws of motion, free-body diagrams and simple force analysis of musculoskeletal system. Biomechanical response of soft and hard tissues with emphasis on microstructure and mechanical properties. Applications to bioengineering design.

**BIOE 411. Bioprocessing and Bioproducts.**
(Dual-listed with BIOE 511). (Cross-listed with A E, BSE), (3-0) Cr. 3. F. Prereq: A E 216, C E 326 or equivalent, MATH 160 or MATH 165, CHEM 167 or higher, BIOL 173 or BIOL 211 or higher, senior or graduate classification

**BIOE 428. Image Processing with Biomedical Applications.**
(3-0) Cr. 3. Prereq: E E 324

**BIOE 440. Biomedical Applications of Chemical Engineering.**
(Dual-listed with BIOE 540). (Cross-listed with CH E), (3-0) Cr. 3. Alt. F., offered 2013. Prereq: CH E 210, MATH 266, PHYS 222

Applications of material and energy balances, transport phenomena, chemical reaction engineering, and thermodynamics to problems in biomedical engineering and applied physiology; survey of biomedical engineering; biomaterials; biomedical imaging. Nonmajor graduate credit.

**BIOE 450. Biosensing.**
(3-0) Cr. 3. Prereq: BIOE 220

Overview of biosensors and bioanalytical challenges; designing for performance including various analytical problems, ion-selective membranes, characteristics of enzymes and basics of bioaffinity sensing; fundamentals of bioselective layers including depositing films and membranes, surfaces for immobilization and bioselective agents; survey of different biosensing technologies including electroanalytical, biomembrane, optical, and acoustic-wave based sensors.

**BIOE 450L. Biosensing Laboratory.**
(0-3) Cr. 1. Prereq: BIOE 220, concurrent enrollment in BIOE 450

Laboratory course accompanying Bioe 450. Design, fabrication, and characterization of various electrical, chemical, polymer, optical and acoustic sensors. Lab is not a necessary corequisite with Bioe 450.

**BIOE 456. Biomaterials.**
(Dual-listed with BIOE 556). (Cross-listed with MAT E), (3-0) Cr. 3. F. Prereq: MAT E 216 or MAT E 273 or MAT E 392

Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

**BIOE 490. Independent Study.**
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S. Prereq: chair for the Bioengineering Minor

Investigation of biomedical engineering topics of special interest to student and supervising faculty member with a final written report.

**Biological Systems Engineering**

**Undergraduate Study**

For the undergraduate curriculum in biological systems engineering leading to the degree bachelor of science.

**Curriculum Educational Goal, Objectives, and Learning Outcomes**

Biological Systems Engineering integrates life sciences with engineering to solve problems related to, or using, biological systems. These biological systems may include microbes, plants, animals, humans and/or ecosystems. Biological systems engineers have a worldview shaped by an understanding of fundamental principles of engineering and life-sciences. They use their understanding of engineering to analyze organisms or ecosystems, and their knowledge of biological systems to inspire and inform their designs. They approach engineering design from a biological systems perspective, appreciating the complexity of biological systems and developing solutions that accommodate and anticipate the adaptability of biological systems.

**Goal:** To educate students to solve problems related to biorenewables production and processing, water quality, environmental impacts of the bioeconomy, food processing, and biosensors, and in so doing to prepare students for professional practice and post-graduate educational opportunities.

**Program Educational Objectives:** Three to five years after graduation, our graduates will be using the knowledge, skills, and abilities from their biological systems engineering degree to improve the human condition through successful careers in a wide variety of fields. They will be effective leaders, collaborators, and innovators who address environmental, social, technical, and business challenges. They will be engaged in life-long learning and professional development through self-study, continuing education, or graduate/professional school.

**Student Outcomes:** At graduation, students will have developed and demonstrated:

(a) an ability to apply knowledge of mathematics, science, and engineering;
(b) an ability to design and conduct experiments, as well as to analyze and interpret data;
(c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
(d) an ability to function on multidisciplinary teams;
(e) an ability to identify, formulate, and solve engineering problems;
(f) an understanding of professional and ethical responsibility;
(g) an ability to communicate effectively;
(h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
(i) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Well-qualified juniors and seniors in biological systems engineering who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue a bachelor of science degree in biological systems engineering and a master of science degree in agricultural engineering. Under concurrent enrollment, students are eligible for assistantships and simultaneously take undergraduate and graduate courses.
A concurrent bachelor of science and master of business administration program is also offered by the department.

The department also offers a bachelor of science curriculum in agricultural engineering. See College of Engineering, Curricula. Additionally, the department offers bachelor of science curricula in agricultural systems technology and in industrial technology. See College of Agriculture and Life Sciences, Curricula.

The department also participates in interdepartmental majors in environmental science, sustainable agriculture, bioenergy resources and technology, human computer interaction, and toxicology (see index).

Graduate Study

The department offers master of science, master of engineering, and doctor of philosophy degrees with a major in agricultural engineering. Within the agricultural engineering major the student may specialize in advanced machinery engineering, animal production systems engineering, biological and process engineering, occupational safety engineering, or water and environmental stewardship engineering. Details on current research programs available at http://www.abe.iastate.edu/.

For the master of science program, at least 30 credits of acceptable graduate work must be completed with a minimum of 22 credits of course work; corresponding numbers for the master of engineering program are 32 and 27. For the doctor of philosophy degree, at least 72 credits of acceptable graduate work must be completed with a minimum of 42 credits of course work. All Ph.D. students must complete a teaching/extension experience prior to graduation.

The department also offers both master of science and doctor of philosophy degrees in industrial and agricultural technology.

Curriculum in Biological Systems Engineering

Administered by the Department of Agricultural and BioSystems Engineering. Leading to the degree bachelor of science.

Total credits required: 128 cr. Any transfer credit courses applied to the degree program require a grade of C or better. See also Basic Program and Special Programs.

International Perspectives: 3 cr. 1

U.S. Diversity: 3 cr. 1

### Co-op/Internships (Optional)

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.
2. Choose from department approved list.
3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.
4. 2.00 GPA required including transfer courses.

See also: A 4-year plan of study grid showing course template by semester for a biorenewable resources engineering option in Biological Systems Engineering. (https://nextcatalog.registrar.iastate.edu/planofstudy/engineering/biologicalsystemsengineeringbs-biorenewableresourcesengoption)

### Courses

### Courses primarily for undergraduates:

**BSE 110.** Experiencing Biological Systems Engineering. 
(0-2) Cr. 1. S. Laboratory-based, team-oriented experiences in a spectrum of topics common to the practice of biological systems engineering. Report writing, co-ops, internships, careers, registration planning.

**BSE 170.** Engineering Graphics and Introductory Design. 
(Cross-listed with A E). (2-2) Cr. 3. F.S. Prereq: Satisfactory scores in math placement assessments; credit or enrollment in MATH 142. Applications of multi-view drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports.

**BSE 201. Preparing for Workplace Seminar.** 
(Cross-listed with A E, TSM). (1-0) Cr. 1. F.S. Prereq: Sophomore classification in A E, AST, BSE or ITEc 8 week course. Professionalism in the context of the engineering/technical workplace. Development and demonstration of key workplace competencies: teamwork, initiative, communication, and engineering/technical knowledge. Resumes, interviewing, preparation for internship experiences, professional portfolios.

**BSE 216. Fundamentals of Agricultural and Biosystems Engineering.** 
(Cross-listed with A E). (2-2) Cr. 3. F. Prereq: A E 110, ENGR 160, credit or enrollment in MATH 166 Application of mathematics and engineering sciences to mass and energy balances in agricultural and biological systems. Emphasis is on solving engineering problems in the areas of heat and mass transfer, air and water vapor systems; animal production systems, grain systems; food systems, hydrologic systems, and bioprocessing.

**BSE 218. Project Management & Design in Agricultural and Biosystems Engineering.** 
(Cross-listed with A E). (1-2) Cr. 2. S. Prereq: A E 216 Project management - critical path, Garrit charts, resource allocations, basic project budgeting, and project management software. Engineering design applications. Open-ended design projects to demonstrate the preceding principles through application of technical concepts taught in prerequisite coursework.

**BSE 298.** Cooperative Education. 
Cr. R. F.S.S. Prereq: Permission of department and Engineering Career Services First professional work period in the cooperative education program. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

**BSE 316. Applied Numerical Methods for Agricultural and Biosystems Engineering.** 
(Cross-listed with A E). (2-2) Cr. 3. F. Prereq: ENGR 160, Math 266 Computer aided solution of agricultural engineering problems by use of numerical techniques and mathematical models. Systems analysis and optimization applicable to agricultural and biological systems.

**BSE 325. Biorenewable Systems.** 
(Cross-listed with A E, AGRON, AN S, TSM, BUSAD, ECON). (3-0) Cr. 3. F. Prereq: ECON 101, CHEM 163 or higher, MATH 140 or higher Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, and transportation/logistics.

**BSE 380. Principles of Biological Systems Engineering.** 
(3-0) Cr. 3. S. Prereq: BSE 216, CH E 387 or M E 436 Unit-operation analysis of biological systems, through the study of mass, energy, and information transport in bioresource production and conversion systems. Quantification and modeling of biomass production, ecological interactions, and bioreactor operations.
BSE 388. Sustainable Engineering and International Development. (Cross-listed with A E, E E, M E, MAT E, C E). (2-2) Cr. 3. F. Prereq: Junior classification in engineering
Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report.
Meets International Perspectives Requirement.

BSE 396. Summer Internship.
Cr. R. Repeatable. SS. Prereq: Permission of department and Engineering Career Services
Summer professional work period. Offered on a satisfactory-fail basis only.

BSE 397. Engineering Internship.
Cr. R. Repeatable. F.S. Prereq: Permission of department and Engineering Career Services
One semester maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

BSE 398. Cooperative Education.
Cr. R. F.S.SS. Prereq: BSE 298, permission of department and Engineering Career Services
Second professional work period in the cooperative education program. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

Modeling dynamic systems with ordinary differential equations. Introduction to state variable methods of system analysis. Analysis of mechanical, electrical, and fluid power systems. Analytical and numerical solutions of differential equations. Introduction to classical control theory. Feedback and stability examined in the s domain. Frequency response as an analytical and experimental tool. MATLAB will be used throughout the course for modeling.

BSE 411. Bioprocessing and Bioproducts. (Dual-listed with BSE 511). (Cross-listed with A E, BIOE, C E). (3-0) Cr. 3. F. Prereq: A E 216, C E 326 or equivalent, MATH 160 or MATH 165, CHEM 167 or higher, BIOL 173 or BIOL 211 or higher, senior or graduate classification

BSE 415. Agricultural Engineering Design I. (Cross-listed with A E). (1-2) Cr. 2. F. S. Prereq: A E 271 or A E 272, E M 324
Identification of current design problems in agricultural engineering. Development of alternate solutions using creativity and engineering analysis and synthesis techniques. Nonmajor graduate credit.

BSE 416. Agricultural Engineering Design II. (Cross-listed with A E). (1-2) Cr. 2. F. S. Prereq: A E 415
Selection of promising solutions to design problems identified in 415 for development by design teams. Presentation of designs through oral and written reports and prototypes. Nonmajor graduate credit.

BSE 469. Grain Processing and Handling. (Dual-listed with BSE 569). (Cross-listed with A E). (2-3) Cr. 3. S. Prereq: A E 216
Cereal grain and oilseed properties, quality measurement, processing, and end-use value. Design of drying systems using computer simulation. Corn wet and dry milling. Soybean oil extraction. Grain handling systems.

BSE 480. Engineering Analysis of Biological Systems. (Cross-listed with ENSCI). (2-2) Cr. 3. F. Prereq: BSE 216; MATH 266; BIOL 211 or BIOL 212; M E 231
Systems-level engineering analysis of biological systems. Economic and life-cycle analysis of biosource production and conversion systems. Global energy and resource issues and the role of biologically derived materials in addressing these issues. Nonmajor graduate credit.

BSE 490. Biological Systems Engineering Independent Study. (Cross-listed with A E). (3-0) Cr. 1-4. Repeatable. F.S.SS.
Faculty-guided independent study in topics relevant to biological systems engineering.

BSE 490B. Biological Systems Engineering Independent Study: Biorenewable Resources.
Cr. 1-4. Repeatable. F.S.SS.
BSE 490E. Biological Systems Engineering Independent Study: Environmental Bioprocessing.
Cr. 1-4. Repeatable. F.S.SS.
BSE 490F. Biological Systems Engineering Independent Study: Food Engineering.
Cr. 1-4. Repeatable. F.S.SS.
BSE 490G. Biological Systems Engineering Independent Study: General Topics.
Cr. 1-4. Repeatable. F.S.SS.
BSE 490H. Biological Systems Engineering Independent Study: Honors.
Cr. 1-4. Repeatable. F.S.SS.
BSE 496. Agricultural and Biosystems Engineering Travel Course.
(Cross-listed with A E). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor
Limited enrollment. Tour and study of international agricultural and biosystems engineering as applied to biorenewable and food systems. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C or option D.
Meets International Perspectives Requirement.

BSE 496A. Agricultural and Biosystems Engineering Travel Course: Pre-departure.
(Cross-listed with A E). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor
Limited enrollment. Tour and study of international agricultural and biosystems engineering as applied to biorenewable and food systems. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C or option D.
Meets International Perspectives Requirement.

BSE 496B. Agricultural and Biosystems Engineering Travel Course: Travel (Credit).
(Cross-listed with A E). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor
Limited enrollment. Tour and study of international agricultural and biosystems engineering as applied to biorenewable and food systems. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C or option D.
Meets International Perspectives Requirement.

BSE 496C. Agricultural and Biosystems Engineering Travel Course: Post-travel.
(Cross-listed with A E). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor
Limited enrollment. Tour and study of international agricultural and biosystems engineering as applied to biorenewable and food systems. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C or option D.
Meets International Perspectives Requirement.

BSE 496D. Agricultural and Biosystems Engineering Travel Course: Combination (A/B/C).
(Cross-listed with A E). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor
Limited enrollment. Tour and study of international agricultural and biosystems engineering as applied to biorenewable and food systems. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C or option D.
Meets International Perspectives Requirement.

BSE 498. Biological Systems Engineering Cooperative Education.
Cr. R. Repeatable. F.S.SS. Prereq: BSE 398, permission of department and Engineering Career Services
Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

Chemical Engineering
Administered by the Department of Chemical and Biological Engineering

Undergraduate Study
For undergraduate curriculum in chemical engineering leading to the degree bachelor of science. This curriculum is accredited under the General Criteria and the Chemical Engineering Program Criteria by the Engineering Accreditation Commission of ABET, http://www.abet.org.
Chemical engineering is a profession, which provides a link between scientific knowledge and manufactured products. The chemical engineer relies on science, experience, creativity, and ingenuity to produce these materials economically. Almost everything of a material nature used by society today has at some point felt the influence of the chemical engineer. From raw materials such as minerals, coal, petroleum, and agricultural products, chemical engineers create versatile intermediate and commodity chemicals, high performance fuels, new materials for construction, pharmaceuticals, high performance foodstuffs, synthetic textiles, plastics, solid state electronic components, and dozens of other engineered materials. The chemical engineer’s influence has been important in the development of catalysts, fuel cells, automatic controls, biochemical processes, artificial kidneys, tissue engineering, nuclear energy, medical instruments and devices, as well as in the development of air and water pollution control systems. Many new and equally exciting challenges await the practicing chemical engineer of the future.

The profession of chemical engineering embraces a wide variety of activities including research, process development, product development, design, manufacturing supervision, technical sales, consulting, and teaching. The engineer can be behind a desk, in a laboratory, in a manufacturing plant, or engaged in nationwide and worldwide travel. Successful chemical engineers find chemistry, mathematics, and physics to be interesting and exciting. Many chemical engineers also have interest in the biological sciences. The curriculum in chemical engineering includes continued study of chemistry, biochemistry, mathematics, and physics as well as an intensive study in the engineering sciences such as chemical reaction engineering, thermodynamics, mass transfer, fluid mechanics, heat transfer, system analysis and process synthesis, and design.

The curriculum in chemical engineering is designed to produce graduates that have the ability to apply knowledge of mathematics, science, and engineering; the ability to design, conduct and interpret experiments; and the ability to design a chemical engineering system, component, or process. Graduates should also have the ability to function on multi-disciplinary teams; the ability to identify, formulate, and solve chemical engineering problems; and the ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

The curriculum should also assure that graduates have the ability to communicate effectively, the broad education necessary to understand the impact of chemical engineering solutions in a global and societal context, and recognition of the need for, and an ability to engage in life-long learning, as well as a knowledge of contemporary issues and an understanding of professional and ethical responsibility.

The curriculum assures that graduates have a thorough grounding in chemistry, along with a working knowledge of advanced chemistry such as organic, inorganic, physical, analytical, materials chemistry, or biochemistry. In addition, a working knowledge, including safety and environmental aspects, of material and energy balances applied to chemical processes; thermodynamics of physical and chemical equilibria; heat, mass, and momentum transfer; chemical reaction engineering; continuous and stage-wise separation operations; process dynamics and control; process design; and appropriate modern experimental and computing techniques is assured.

Program Educational Objectives

The objectives of the Chemical Engineering Program at Iowa State University are to produce graduates who:

- will excel in careers as professional chemical engineers in the businesses and industries related to chemical engineering; and
- will successfully pursue research and advanced studies in chemical engineering, or in related fields such as chemistry or biology, or in related professional fields such as medicine, law, and business.

Biological Engineering Option

Students may enhance their academic preparation for the growing opportunities in the biologically-related industries by pursuing a selection of courses with a biological emphasis.

Cooperative Education

A cooperative education program is available to students in chemical engineering.

Graduate Study

The department offers work for the degrees master of science, master of engineering, and doctor of philosophy with major in chemical engineering, and minor work to students taking major work in other departments. Prerequisite to major graduate work is a bachelor’s degree in chemical engineering, chemistry, or other related field. Students with undergraduate background other than chemical engineering should contact the department for further details. A thesis is required for the master of science degree. The master of science degree also requires a minimum of 30 graduate credits (minimum of 15 for coursework, 12 within Ch E and 3 outside). The master of engineering requirements are the same for total credits but include a special project or coursework rather than research thesis. The doctor of philosophy degree requires a minimum of 72 graduate credits (minimum of 30 for coursework, at least 16 inside Ch E and a minimum of 8 credits taken outside of Ch E). Candidates for the doctor of philosophy degree can refer to the department’s home page and/or the department’s Graduate Student Handbook for degree options and credit requirements.

Well-qualified juniors and seniors in chemical engineering who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both the Bachelor of Science and Master of Science.

Curriculum in Chemical Engineering

Administered by the Department of Chemical and Biological Engineering

Leading to the degree bachelor of science.

Total credits required: 129 cr. See also Basic Program and Special Programs.

International Perspectives: 3 cr. 1

U.S. Diversity: 3 cr. 1

Communication Proficiency/Library requirement:

Chemical Engineering Core: 36 cr.  
CH E 210 Material and Energy Balances 3  
CH E 202 Chemical Engineering Seminar 1  
CH E 310 Computational Methods in Chemical Engineering 3  
CH E 325 Chemical Engineering Laboratory I 2  
CH E 356 Transport Phenomena I 3  
CH E 357 Transport Phenomena II 3  
CH E 358 Separations 3  
CH E 381 Chemical Engineering Thermodynamics 3  
CH E 382 Chemical Reaction Engineering 3  
CH E 420 Chemical Process Safety 3  
CH E 421 Process Control 3  
CH E 426 Chemical Engineering Laboratory II 2  
CH E 430 Process and Plant Design 4  
Total Credits 36  

Other Remaining Courses: 21 cr.  
One of the following Communication Elective: 3  
ENGL 309 Report and Proposal Writing  
ENGL 312 Biological Communication  
ENGL 314 Technical Communication  
JL MC 347 Science Communication  
Chemistry Electives 2 3  
Statistical Electives 2 3  
Chemical Engineering Electives 2 3  
300+ level course in Engineering 3  
Professional Elective 2 3  
Total Credits 21  

Biological Engineering Option  
The standard Chemical Engineering program may be modified to meet the option requirements for Biological Engineering:  
Math and Physical Science – BBMB 404 Biochemistry I or BIOL 313 Principles of Genetics, 3 cr., may be substituted for BBMB 301 Survey of Biochemistry from list above when taken with BBMB 405 Biochemistry II or BIOL 314 Principles of Molecular Cell Biology, respectively. BBMB 420 must be taken in combination with BBMB 301.  

Chemical Engineering Core 5 – Replace CH E 426 Chemical Engineering Laboratory II, 2 cr. with CH E 427 Biological Engineering Laboratory, 2 cr. in required Core.  

Other Remaining Courses for Biological Engineering Option  
1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.  
2. Choose from department approved list.  
3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.  
4. 2.00 required including transfer courses.  
5. not BBMB 301 Survey of Biochemistry  

Courses primarily for undergraduates:  
CH E 104. Chemical Engineering Learning Community.  
(1-0) Cr. arr. F.S. Prereq: Enrollment in Chemical Engineering Learning Team  
(1-0) Curriculum in career planning and academic course support for Freshmen learning team.  

CH E 160. Chemical Engineering Problems with Computer Applications Laboratory.  
(2-2) Cr. 3. F.S. Prereq: MATH 142 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165  

(1-0) Cr. 1. F.S. Prereq: Sophomore classification in chemical engineering  
Professionalism in the context of the engineering/technical workplace. Introduction to chemical engineering career opportunities. Process and workplace safety. Development and demonstration of key workplace competencies: teamwork, professionalism and ethical responsibility, ability to engage in life-long learning, and knowledge of contemporary issues. Resumes; professional portfolios; preparation for internship experiences.  

CH E 204. Chemical Engineering Continuing Learning Community.  
Cr. R. F.S. Prereq: Corequisite-enrollment in Chemical Engineering Learning Team  
(1-0) Curriculum and career planning, academic course support for learning community.  

(3-0) Cr. 3. F.S. Prereq: Chem 178, Math 166  
Introduction to chemical processes. Physical behavior of gases, liquids, and solids. Application of material and energy balances to chemical engineering equipment and processes.  

CH E 220. Introduction to Biomedical Engineering.  
(Cross-listed with BIOE). (3-0) Cr. 3. S. Prereq: BIOL 212, ENGR 160 or equiv, MATH 166, CHEM 167 or 178, PHYS 222  
Engineering analysis of basic biology and engineering problems associated with living systems and health care delivery. The course will illustrate biomedical engineering applications in such areas as: biotechnology, biomechanics, biomaterials and tissue engineering, and biosignal and image processing, and will introduce the basic life sciences and engineering concepts associated with these topics.  

CH E 298. Cooperative Education.  
Cr. R. F.S.S. Prereq: Permission of department and Engineering Career Services  
First professional work period in the cooperative education program. Students must register for this course before commencing work.  

CH E 310. Computational Methods in Chemical Engineering.  
(3-0) Cr. 3. F.S. Prereq: CH E 210 and ENGR 160  
Numerical methods for solving systems of linear and nonlinear equations, ordinary differential equations, numerical differentiation and integration, and nonlinear regression using chemical engineering examples. Nonmajor graduate credit.  

CH E 325. Chemical Engineering Laboratory I.  
(0-4) Cr. 2. F.S. Prereq: CH E 357, credit or enrollment in CH E 381  
Experiments covering fundamental material and energy balances, momentum and energy transport operations, and thermodynamics. Computer applications. Nonmajor graduate credit.  

CH E 335. Transport Phenomena I.  
(3-0) Cr. 3. F.S. Prereq: CH E 210, PHYS 221, credit or enrollment in MATH 267  
Momentum and mechanical energy balances. Incompressible and compressible fluid flow. Applications to fluid drag, piping system design, filtration, packed beds and setting. Nonmajor graduate credit.  

CH E 357. Transport Phenomena II.  
(3-0) Cr. 3. F.S. Prereq: Credit or enrollment in CH E 310; CH E 356  
Conduction and diffusion, convective heat and mass transfer, boiling and condensation, radiation, and design of heat exchange equipment. Introduction to diffusion. Nonmajor graduate credit.
CH E 358. Separations.
(3-0) Cr. 3. F.S. Prereq: CH E 310, CH E 357
Diffusion and mass transfer in fluids. Analysis and design of continuous contacting and multistage separation processes. Binary and multicomponent distillation, absorption, extraction, evaporation, membrane processes, and simultaneous heat and mass transfer. Nonmajor graduate credit.

CH E 381. Chemical Engineering Thermodynamics.
(3-0) Cr. 3. F.S. Prereq: Credit or enrollment in CH E 310; MATH 267, PHYS 222, CHEM 325
Application of thermodynamic principles to chemical engineering problems. Thermodynamic properties of fluids, phase equilibria, and chemical reaction equilibria. Nonmajor graduate credit.

CH E 382. Chemical Reaction Engineering.
(3-0) Cr. 3. F.S. Prereq: Credit in CH E 310; CH E 381, credit or enrollment in CH E 357
Kinetics of chemical reactions. Design of homogeneous and heterogeneous chemical reactors. Nonmajor graduate credit.

CH E 391. Foreign Study Orientation.
(3-0) Cr. 3. Prereq: Credit or enrollment in CH E 357 and CH E 381 or permission of instructor
Offered on a satisfactory-fail basis only. Credit for graduation allowable only upon completion of CH E 392.
Meets International Perspectives Requirement.

CH E 392. Foreign Study Program.
Cr. 4. SS. Prereq: CH E 391
Study of chemical engineering including laboratories and lectures at University of London or other collaborating international universities. Comparative study of U.S. and international manufacturing facilities. Expenses required.
Meets International Perspectives Requirement.

CH E 396. Summer Internship.
Cr. R. Repeatable. SS. Prereq: Permission of department and Engineering Career Services
Summer professional work period. Students must register for this course prior to commencing work.

CH E 397. Engineering Internship.
Cr. R. Repeatable. F.S. Prereq: Permission of department and Engineering Career Services
One semester maximum per academic year professional work period. Students must register for this course prior to commencing work.

CH E 398. Cooperative Education.
Cr. R. F.S.SS. Prereq: CH E 298, permission of department and Engineering Career Services
Second professional work period in the cooperative education program. Students must register for this course before commencing work.

(Dual-listed with CH E 506). (3-0) Cr. 3. Alt. F., offered 2013. Prereq: CH E 381, credit or enrollment in CH E 358
Examines the mechanisms and rates of chemical transport across air, water, and soil interfaces. Applications of transport and thermodynamic fundamentals to movement of chemicals in the environment. Nonmajor graduate credit.

CH E 408. Surface and Colloid Chemistry.
(Dual-listed with CH E 508). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: CH E 381 or equivalent
Examines the factors underlying interfacial phenomena, with an emphasis on the thermodynamics of surfaces, structural aspects, and electrical phenomena. Application areas include emulsification, foaming, detergency, sedimentation, fluidization, nucleation, wetting, adhesion, flotation, and electrophoresis. Nonmajor graduate credit.

CH E 415. Biochemical Engineering.
(Dual-listed with CH E 515). (3-0) Cr. 3. S. Prereq: CH E 357, CH E 382 recommended, CHEM 331
Application of basic chemical engineering principles in biochemical and biological process industries such as enzyme technology and fermentation. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: CH E 357, CH E 381 (or equivalents); junior classification
Application of transport phenomena, thermodynamics, and chemical kinetics to the study of safety, health, and loss prevention. Government regulations, industrial hygiene, relief sizing, runaway reactions, toxic release, and dispersion models will be used. Fires, explosions, risk assessment, hazard identification, case studies, accident investigations, and design considerations will be studied. Nonmajor graduate credit.

CH E 421. Process Control.
(3-0) Cr. 3. F.S. Prereq: CH E 358, CH E 382, Math 267
Control of industrial chemical processes. Device applications and limitations. Dynamics of chemical process components and process control systems. Nonmajor graduate credit.

CH E 425. Chemical Engineering Laboratory II.
(0-4) Cr. 2. F.S. Prereq: CH E 325, CH E 358, CH E 382
Experiments in heat and mass transfer, staged operations, chemical reactor performance, unit processes. Computer applications. Nonmajor graduate credit. Only one of Ch E 426 or 427 may count toward graduation.

CH E 427. Biological Engineering Laboratory.
(0-4) Cr. 2. S. Prereq: Credit in CH E 325, CH E 358, CH E 382, and BBMB 301
Experiments on biological applications in chemical engineering. Nonmajor graduate credit. Only one of Ch E 426 or 427 may count toward graduation.

(2-6) Cr. 4. F.S. Prereq: CH E 358, CH E 382
Synthesis of chemical engineering processes, equipment and plants. Cost estimation and feasibility analysis. Nonmajor graduate credit.

CH E 440. Biomedical Applications of Chemical Engineering.
(Dual-listed with CH E 540). (Cross-listed with BIOE). (3-0) Cr. 3. Alt. F., offered 2013. Prereq: CH E 210, MATH 266, PHYS 222
Applications of material and energy balances, transport phenomena, chemical reaction engineering, and thermodynamics to problems in biomedical engineering and applied physiology; survey of biomedical engineering; biomaterials; biomedical imaging. Nonmajor graduate credit.

CH E 447. Polymers and Polymer Engineering.
(Dual-listed with CH E 547). (3-0) Cr. 3. S. Prereq: CH E 382 and CHEM 331 or MAT E 361
Chemistry of polymers, addition and condensation polymerization, Physical and mechanical properties, polymer rheology, production methods. Applications of polymers in the chemical industry. Nonmajor graduate credit.

CH E 490. Undergraduate Research/Independent Study.
(0-18) Cr. 1-6. Repeatable, maximum of 6 credits. Prereq: Permission of Department
Investigation of topics of special interest to student and faculty with a final written report. Election of course and topic must be approved in advance by Department with completion of Study Proposal. No more than 6 credits of Ch E 490 may be counted towards technical electives.

CH E 490H. Undergraduate Research/Independent Study, Honors.
(0-18) Cr. 1-6. Repeatable, maximum of 6 credits. Prereq: Permission of Department
Investigation of topics of special interest to student and faculty with a final written report. Election of course and topic must be approved in advance by Department with completion of Study Proposal. No more than 6 credits of Ch E 490 may be counted towards technical electives.

CH E 498. Cooperative Education.
Cr. R. Repeatable. F.S.SS. Prereq: CH E 398, permission of department and Engineering Career Services
Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Courses primarily for graduate students, open to qualified undergraduates:

CH E 506. Environmental Chemodynamics.
(Dual-listed with CH E 406). (3-0) Cr. 3. Alt. F., offered 2013. Prereq: CH E 381, credit or enrollment in CH E 358
Examines the mechanisms and rates of chemical transport across air, water, and soil interfaces. Applications of transport and thermodynamic fundamentals to movement of chemicals in the environment. Nonmajor graduate credit.
CH E 508. Surface and Colloid Chemistry.
(Dual-listed with CH E 498). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: CH E 381 or equivalent
Examines the factors underlying interfacial phenomena, with an emphasis on the thermodynamics of surfaces, structural aspects, and electrical phenomena. Application areas include emulsification, foaming, detergency, sedimentation, fluidization, nucleation, wetting, adhesion, flotation, and electrophoresis. Nonmajor graduate credit.

CH E 515. Biochemical Engineering.
(Dual-listed with CH E 415). (3-0) Cr. 3. S. Prereq: CH E 357, CH E 382, CHEM 331
Application of basic chemical engineering principles in biochemical and biological process industries such as enzyme technology and fermentation. Term project required for graduate credit.

CH E 540. Biomedical Applications of Chemical Engineering.
(Dual-listed with CH E 440). (Cross-listed with BiOE). (3-0) Cr. 3. Alt. F., offered 2013. Prereq: CH E 210, MATH 266, PHYS 222
Applications of material and energy balances, transport phenomena, chemical reaction engineering, and thermodynamics to problems in biomedical engineering and applied physiology; survey of biomedical engineering; biomaterials; biomedical imaging. Nonmajor graduate credit.

CH E 542. Polymeric Biomaterials.
(3-0) Cr. 3. Prereq: CHEM 331 or a polymers class
Polymeric biomaterials, overview of biomaterial requirements, different classes of polymers used as biomaterials, specific bioapplications of polymers.

CH E 545. Analytical and Numerical Methods.
(3-0) Cr. 3. F. Prereq: CH E 358, MATH 267
Analysis of equipment and processes by analytic and/or numerical solution of descriptive differential equations. Operational and series techniques, boundary value problems, numerical interpolation and approximation, integration techniques.

CH E 547. Polymers and Polymer Engineering.
(Dual-listed with CH E 447). (3-0) Cr. 3. S. Prereq: CH E 382 and CHEM 331 or Mat E 351
Chemistry of polymers, addition and condensation polymerization. Physical and mechanical properties, polymer rheology, production methods. Applications of polymers in the chemical industry.

CH E 554. Integrated Transport Phenomena.
(4-0) Cr. 4. F. Prereq: CH E 357, CH E 381, Math 267, credit or enrollment in CH E 545
Conservation equations governing diffusive and convective transport of momentum, thermal energy and chemical species. Transport during laminar flow in conduits, boundary layer flow, creeping flow. Heat and mass transport coupled with chemical reactions and phase change. Scaling and approximation methods for mathematical solution of transport models. Diffusive fluxes; conservation equations for heat and mass transfer; scaling and approximation techniques; fundamentals of fluid mechanics; unidirectional flow; creeping flow; laminar flow at high Reynolds number; forced-convection heat and mass transfer in confined and unconfined laminar flows.

(3-0) Cr. 3. Prereq: CH E 357 or advanced standing in a science major
Principles and techniques for separation and recovery of biologically-produced molecules, especially proteins. Relationship between the chemistry of biological molecules and efficient separation and preservation of biological activity. Includes centrifugation and filtration, membrane processing, extraction, precipitation and crystallization, chromatography, and electrophoresis.

CH E 572. Turbulence.
(Cross-listed with AER E). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: AER E 543 or M E 538

CH E 583. Advanced Thermodynamics.
(3-0) Cr. 3. F. Prereq: CH E 381
Application of thermodynamic principles to chemical engineering problems. Thermodynamic properties of non-ideal fluids and solutions; phase and chemical-reaction equilibria/stability.

(3-0) Cr. 3. S. Prereq: CH E 382
Analysis of complex reactions and kinetics. Fixed bed, fluidized bed, and other industrial reactors. Analysis and design of non-ideal flow mixing, and residence times. Heterogeneous reactors.

CH E 590. Independent Study.
Cr. 2-6. Repeatable.
Investigation of an approved topic on an individual basis.

CH E 595. Special Topics.
Cr. 2-3. Repeatable.

CH E 595A. Special Topics: Separations.
Cr. 2-3. Repeatable.

CH E 595B. Special Topics: Advanced Control Theory.
Cr. 2-3. Repeatable.

CH E 595C. Special Topics: Crystallization.
Cr. 2-3. Repeatable.

CH E 595D. Special Topics: Thermodynamics.
Cr. 2-3. Repeatable.

CH E 595E. Special Topics: Protein Engineering/Bioseparations.
Cr. 2-3. Repeatable.

CH E 595F. Special Topics: Biological Engineering.
Cr. 2-3. Repeatable.

CH E 595G. Special Topics: Materials and Biomaterials.
Cr. 2-3. Repeatable.

CH E 595H. Special Topics: Surfaces.
Cr. 2-3. Repeatable.

CH E 595I. Special Topics: Combinatorial Design.
Cr. 2-3. Repeatable.

CH E 599. Creative Component.
Cr. arr. Repeatable.

Courses for graduate students:

CH E 601. Seminar.
Cr. R. Repeatable. F.S.
Offered on a satisfactory-fail basis only.

CH E 625. Metabolic Engineering.
(3-0) Cr. 3. Prereq: CH E 382, CHEM 331
Principles of metabolic engineering. Emphasis on emerging examples in biorenewables and plant metabolic engineering. Overview of biochemical pathways, determination of flux distributions by stoichiometric and labeling techniques; kinetics and thermodynamics of metabolic networks; metabolic control analysis; genetic engineering for overexpression, deregulation, or inhibition of enzymes; directed evolution; application of bioinformatics, genomics, and proteomics.

CH E 632. Multiphase Flow.
(Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: M E 538
Single particle, multiparticle and two-phase fluid flow phenomena (gas-solid, liquid-solid and gas-liquid mixtures); particle interactions, transport phenomena, wall effects; bubbles, equations of multiphase flow. Dense phase (fluidized and packed beds) and ducted flows; momentum, heat and mass transfer. Computer solutions.

CH E 642. Principles and Applications of Molecular Simulation.
(3-0) Cr. 3. Prereq: CH E 545

CH E 652. Advanced Transport.
(3-0) Cr. 3. Prereq: CH E 552 and CH E 553
Advanced topics in momentum transport, fluid mechanics, and mass transport including study of recent literature.

CH E 688. Catalysis and Catalytic Processes.
(Cross-listed with BR C). (3-0) Cr. 3. Prereq: CH E 382
Principles and applications of heterogeneous and homogeneous catalysis. Adsorption. Reaction kinetics and mass transfer effects. Catalyst characterization. Industrial catalytic processes.

CH E 692. Independent Study.
Cr. 2-6. Repeatable.
Investigation of an approved topic on an individual basis. Election of course and topic must be approved in advance by Program of Study Committee.

CH E 695. Advanced Topics.
Cr. arr. Repeatable.
Environmental engineering, as a specialty area in civil engineering, is concerned with the protection of the public and natural health; providing safe, palatable and ample water supply; management of solid and hazardous waste; proper treatment and disposal of domestic and industrial waste waters and waste; resource recovery; providing adequate drainage of urban and rural areas for sanitation; and the control of water quality, soil contamination, and air pollution. At the undergraduate level, the study of various environmental and water resource engineering topics is part of the course of study leading to the bachelor degree in civil engineering.

Program Goal
Consultation with an industrial advisory board of employers of civil engineers, with a broad base of civil engineering educators, and with students and alumni has yielded a continuous process of program planning, program assessment, curriculum development, and instructional development to produce an integrated, learning-based curriculum. The curriculum listed in this catalog has the academic program goal of developing an effective program that fulfills student educational needs and that equips and empowers qualified students for a successful career in civil or environmental engineering.

Program Educational Objectives
By three to five years after graduation, graduates of the civil engineering program will have:
1. Established themselves in successful careers in civil engineering or a related field.
2. Collaborated effectively on multi-disciplinary teams to address the needs of society and the environment.
3. Pursued lifelong learning, professional development, and registration as appropriate for their employers.

The faculty encourages the development of the student’s professional skills through participation in cooperative education, internships, or progressive summer engineering employment. Qualified juniors and seniors interested in graduate study may apply to the Graduate College to concurrently pursue the bachelor degree and a master of science in Civil Engineering, or a master of business administration in the College of Business Administration, giving the student the opportunity to graduate in five years with both degrees.

Graduate Study
The Department of Civil, Construction and Environmental Engineering offers work for the master of engineering, master of science, and doctor of philosophy degrees with a major in civil engineering with areas of specialization in structural engineering, environmental engineering, construction engineering and management, geotechnical engineering, civil engineering materials, and transportation engineering. The department also offers graduate minors of 9 to 15 credits of coursework to students from other engineering departments.

Candidates for the degrees of master of engineering and master of science are required to satisfactorily complete a total of 30 credits of acceptable graduate work. The master of engineering degree involves all course work. The master of science degree requires the preparation of a thesis or creative component. Candidates for the doctor of philosophy degree refer to the department’s home page and/or the department’s Graduate Student Handbook for degree options and credit requirements. The normal prerequisite to major graduate work is the completion of a curriculum substantially equivalent to that required of engineering students at this university. However, because of the diversity of interests within the graduate programs in civil engineering, a student may qualify for graduate study even though undergraduate or prior graduate training has been in a discipline other than engineering. Supporting work will be required depending upon the student’s background and area of interest. A prospective graduate student is urged to specify the degree program and area of specialization in which he or she is interested on the application for admission. The department participates in the interdepartmental majors in transportation (master of science only), environmental science, and biorenewable resources and technology (see Index).

The Department of Civil, Construction and Environmental Engineering (CCEE Department) offers graduate certificates in construction management, environmental engineering, and environmental systems. The construction management certificate requires 12 credits, including nine credits of “core courses” and three credits of “elective courses” from approved CCEE Department lists.

For the environmental engineering and environmental systems certificates, each certificate requires the completion of four courses of three credits each and at least two of these courses shall be from an approved “core course” CCEE Department list and the remaining courses may be selected from an approved “elective courses” CCEE Department list. These courses are offered by different departments at Iowa State University. These two certificates also require the completion of a seminar course, C E 591 Seminar in Environmental Engineering, or any equivalent to be approved by the Environmental Engineering graduate faculty.

For additional requirements for these three certificates, refer to the document that describes each graduate certificate. These documents are available from the Department of Civil, Construction, and Environmental Engineering.

Curriculum in Civil Engineering (General)
Administered by the Department of Civil, Construction and Environmental Engineering.

Leading to the degree bachelor of science.
Total credits required: 128*. Any transfer credit courses applied to the degree program require a grade of C or better. See also Basic Program and Special Programs.

International Perspectives: 3 cr. ¹

U.S. Diversity: 3 cr. ¹

Notes.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.

2. Choose from department approved list.

3. See Basic Program for Professional Engineering Resides for accepted substitutions for curriculum designated courses in the Basic Program.

4. 2.00 required including transfer courses.

5. Students who opt for PHYS 222 Introduction to Classical Physics II rather than CHEM 178 General Chemistry II, CHEM 178L Laboratory in College Chemistry II will complete 18 cr. here which will increase the total number of credits required by 1.

6. Students who transfer in with CHEM 167/CHEM 167L will be able to take CHEM 178/CHEM 178L to complete the program’s Chemistry requirement.

Co-op/Internship optional.

**Notes.**

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.

2. Choose from department approved list.

3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.

4. 2.00 required including transfer courses.

5. Students who transfer in with CHEM 167 General Chemistry for Engineering Students/CHEM 167L Laboratory in General Chemistry for Engineering will be able to take CHEM 178 General Chemistry II/CHEM 178L Laboratory in College Chemistry II to complete the program’s Chemistry requirement.

**Courses**

**Courses primarily for undergraduates:**

**C E 101. Technical Lecture.**
Cr. R. F.S.
(1-0) Discussion of various phases of civil engineering. For transfer students only. Evaluation of transfer credits and discussion of graduation requirements. Offered on a satisfactory-fail basis only.

**C E 105. Introduction to the Civil Engineering Profession.**
(1-0) Cr. 1. F.S.
Overview of the nature and scope of the civil engineering profession. Exploration of the various specialty areas within civil engineering. Bloom’s Taxonomy and creativity. Departmental rules, student services operations, degree requirements, educational objectives, program of study planning, career options, and student organizations.

**C E 111. Fundamentals of Surveying I.**
(2-3) Cr. 3. F.S.
Prereq: C E 160, credit or enrollment in ENGR 170 or C E 170, MATH 165, credit or enrollment in C E 105 for C E majors

**C E 120. Civil Engineering Learning Community.**
Cr. R. Repeatable.
Integration of first-year students into the Civil Engineering program. Assignments and activities involving teamwork, academic preparation, study skills, and preparation for entry into the Civil Engineering profession. Completed both individually and in learning teams under the direction of faculty and peer mentors. Offered on a satisfactory-fail basis only.

**C E 160. Engineering Problems with Computational Laboratory.**
(2-2) Cr. 3. F.S.
Prereq: C E 141, MATH 142 or satisfactory scores on mathematics placement assessments; credit or enrollment in MATH 165
Formulation of engineering problems using spreadsheets and Visual Basic for Application for solution. Presenting results using word processing, tables, and graphs. Introduction to engineering economics and statics. Civil engineering examples.

**C E 170. Graphics for Civil Engineering.**
(0-4) Cr. 2. F.S.
Prereq: MATH 165, credit or enrollment in C E 105
Fundamental graphics. Introduction to computer aided drafting and modeling. Civil engineering applications.

**C E 206. Engineering Economic Analysis and Professional Issues in Civil Engineering.**
(3-0) Cr. 3. F.S.
Prereq: MATH 166, ENGL 250;
ECON 101 recommended
Engineering/managerial analysis of the economic aspects of project proposals. Alternative sources of funds; time value of money; expenditure of capital funds and methods of evaluating alternative projects. Professionalism, licensure, liability, ethics, leadership, social responsibility, creative and critical thinking, and applications/impacts of regulations in civil engineering.

**C E 298. Cooperative Education.**
Cr. R. F.S.S.
Prereq: Permission of department and Engineering Career Services
First professional work period in the cooperative education program. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.
Course Title: Project Management for Civil Engineers.
Prerequisites: 3 credits in statistics, junior classification
Course Description: Project management, including work breakdown structures, cost estimating, scheduling, and project control. Civil engineering project life cycle, including planning, design, construction, and maintenance processes. Techniques in interpretation of contract documents, plan reading, and in estimating quantities.
Course credit: 2-3 credits F.S.

Course Title: Principles of Environmental Engineering.
Prerequisites: CHEM 177 or CHEM 178, MATH 166, credit or enrollment in E M 378
Course Description: Introduction to environmental problems, water quality indicators and requirements, potable water quality and quantity objectives, water sources and treatment methods, water pollution control objectives and treatment methods; survey of soil and hazardous waste management and air pollution control. Nonmajor graduate credit.
Course credit: 2-3 credits F.S.

Course Title: Structural Analysis I.
Prerequisites: C E 332, E M 327
Course credit: 2-2 credits F.S.

Course Title: Structural Steel Design I.
Prerequisites: C E 332, E M 327
Course Description: AISc design methods for structural steel buildings. Load and Resistance Factor Design. Theoretical behavior and applications. Analysis and design of structural steel members subject to tension, compression, flexure, and combined axial force and bending. Analysis and design of bolted and welded connections. Nonmajor graduate credit.
Course credit: 2-2 credits F.S.

Course Title: Reinforced Concrete Design I.
Prerequisites: C E 332, E M 327
Course Description: Analysis and design of beams, one-way slabs, and columns. Preliminary design of building frames using pattern loading and moment coefficients. Nonmajor graduate credit.
Course credit: 2-2 credits F.S.

Course Title: Introduction to Transportation Planning.
Prerequisites: C E 111, C E 206, PHYS 221, a course in statistics from the approved departmental list.
Course Description: An introductory course for planning urban and regional transportation systems within government. Applications and impacts of legislation, financing, four-step planning process, population trends, land use, societal impacts, public transportation, master plans and traffic impact studies. Organization and coordination of the transportation planning function. Nonmajor graduate credit. Not available for graduation credit for students in civil engineering.
Course credit: 3 credits F.S.

Course Title: Principles of Transportation Engineering.
Prerequisites: C E 111, C E 206, PHYS 221, a course in statistics from the approved departmental list.
Course Description: Introduction to planning and operations of transportation facilities. Vehicle/operation/infrastructure characteristics. Technological, economic and environmental factors. Travel demand modeling and capacity analysis. Nonmajor graduate credit.
Course credit: 3 credits F.S.

Course Title: Geotechnical Engineering.
Prerequisites: C E 332, credit or enrollment in E G E O L 201
Course Description: Introduction to soil engineering and testing. Identification and classification tests, soil water systems, principles of settlement, stresses in soils, and shear strength testing; slope stability, retaining walls, bearing capacity. Nonmajor graduate credit.
Course credit: 2 credits F.S.

Course Title: Engineering Hydrology and Hydraulics.
Prerequisites: C E 332, a course in statistics from the approved departmental list.
Course Description: The hydrologic cycle: precipitation, infiltration, runoff, evapotranspiration, groundwater, and streamflow. Hydrograph analysis, flood routing, frequency analysis and urban hydrology. Applied hydraulics including pipe and channel flow with design applications in culverts, pumping, water distribution, storm and sanitary sewer systems. Design project required. Nonmajor graduate credit.
Course credit: 3 credits F.S.

Course Title: Design of Concretes.
Prerequisites: C E 360
Course Description: Physical and chemical properties of bituminous, portland, and other cements; aggregate properties and blending; mix design and testing of concretes; admixtures, mixing, handling, placing and curing; principles of pavement thickness design. Nonmajor graduate credit.
Course credit: 2 credits F.S.

Course Title: Design of Portland Cement Concrete.
Prerequisites: C E 383
Course Description: Design of Portland cement concrete. Mix design and testing of p.c. concrete. Nonmajor graduate credit.
Course credit: 2 credits F.S.
C E 424. Air Pollution.
(Dual-listed with C E 524). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 424A. Air Pollution: Air quality and effects of pollutants.
(Dual-listed with C E 524A). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 424B. Air Pollution: Climate change and causes.
(Dual-listed with C E 524B). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 424C. Air Pollution: Transportation constraints.
(Dual-listed with C E 524C). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 424D. Air Pollution: Off-gas treatment technology.
(Dual-listed with C E 524D). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 428. Water and Wastewater Treatment Plant Design.
(2-2) Cr. 3. S. Prereq: C E 326
Physical, chemical and biological processes for the treatment of water and wastewater including coagulation and flocculation, sedimentation, filtration, adsorption, chemical oxidation/disinfection, fixed film and suspended growth biological processes and sludge management.

C E 436. Masonry and Timber Design.
(Dual-listed with C E 536). (2-2) Cr. 3. Alt. F., offered 2013. Prereq: C E 334
Behavior and design of clay and concrete masonry beams, columns, walls, and structural systems. Behavior and design of timber and laminated timber beams, columns, connections, and structural systems. Nonmajor graduate credit.

C E 446. Bridge Design.

C E 448. Building Design.

(Dual-listed with C E 551). (2-2) Cr. 3. F. Prereq: C E 350 or C E 355 Urban transportation planning context and process. Project planning and programming. Congestion, mitigation, and air quality issues. Transportation data sources. Travel demand and network modeling. Use of popular travel demand software and applications of geographic information systems. Nonmajor graduate credit.

C E 453. Highway Design.

C E 460. Foundation Engineering.
(3-0) Cr. 3. F.S. Prereq: C E 360 Fundamentals of foundation engineering. Exploration, sampling, and in-situ tests. Shallow and deep foundations. Settlement and bearing capacity analyses. Stability of excavations and earth retaining structures. Nonmajor graduate credit.

C E 467. Geomaterials Stabilization.
(Dual-listed with C E 567). (2-2) Cr. 3. F. Prereq: C E 360 Soil and aggregate physical and chemical stabilization procedures. Soil stabilization analysis and design. Ground modification methods. Geosynthetics application and design. Nonmajor graduate credit.

C E 483. Pavement Analysis and Design.
(Dual-listed with C E 583). (3-0) Cr. 3. Prereq: C E 360 and C E 382 Analysis, behavior, performance, and structural design of pavement systems. Topics include climate factors, rehabilitation, life cycle design economics, material and system response, pavement foundations and traffic loadings. Development of models for and analysis of pavement systems. Use of transfer functions relating pavement response to pavement performance. Evaluation and application of current and evolving pavement design practices and procedures. Mechanistic-based pavement design techniques and concepts. Analysis of the effects of maintenance activities on pavement performance and economic evaluation of pavement systems. Nonmajor graduate credit.

C E 484. Advanced Design of Concretes.
(Dual-listed with C E 584). (2-2) Cr. 3. F. Prereq: C E 382 Asphalt binder characterization, fundamentals of asphalt rheology, asphalt materials behavior under loading and temperature effects. Portland cement concrete admixtures, cements and admixture compatibility, environmental effects on concrete performance, advanced performance testing. Nonmajor graduate credit.

C E 485. Civil Engineering Design.
(2-2) Cr. 3. S. Prereq: C E 306, C E 326, C E 333 or C E 334, C E 355, SP CM 212 The civil engineering design process, interacting with the client, identification of the engineering problems, development of a technical proposal, identification of design criteria, cost estimating, planning and scheduling, codes and standards, development of feasible alternatives, selection of best alternative, and oral presentation.

C E 490. Independent Study.
Cr. 1-3. Repeatable. F.S.S.S. Prereq: Permission of instructor Independent study in any phase of civil engineering. Pre-enrollment contract required.

C E 490H. Independent Study: Honors.
Cr. 1-3. Repeatable. F.S.S.S. Prereq: Permission of instructor Independent study in any phase of civil engineering. Pre-enrollment contract required.

C E 498. Cooperative Education.
Cr. R. Repeatable. F.S.S.S. Prereq: C E 398, permission of department and Engineering Career Services Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

C E 501. Preconstruction Project Engineering and Management.
(3-0) Cr. 3. Prereq: CON E 221 and CON E 421 Application of engineering and management control techniques to construction project development from conceptualization to notice to proceed. Determinants of construction project success, conceptual estimating, design and engineering planning for automated construction techniques, constructability review procedures, planning for safety, value engineering.

C E 502. Construction Project Engineering and Management.
(3-0) Cr. 3. Prereq: CON E 221 and CON E 421 Application of engineering and management control techniques to construction projects. Construction project control techniques, equipment selection and utilization, project administration, construction process simulation, Quality Management, and productivity improvement programs.
C E 503. Construction Management Functions and Processes.  
(3-0) Cr. 3. Prereq: CON E 421.  
Analysis of critical construction management skills. Analysis of organizational systems related to construction management. Case studies. Analysis of theories of motivation, planning, leadership, organizational change, etc., as they relate to field construction operations.

(3-0) Cr. 3. Prereq: C E 334, C E 360, CON E 322 and CON E 340  
Advanced design of concrete formwork and falsework systems. Design for excavation and marine construction including temporary retaining structures and cofferdams. Aggregate production operations, including blasting, crushing, and conveying systems. Rigging system design.

(3-0) Cr. 3. Prereq: CON E 221, credit or enrollment in CON E 421  
Study of cases involving disputes, claims, and responsibilities encountered by management in construction contract documents. Analysis of methods of resolving differences among the owner, architect, engineer, and construction contractor for a project.

C E 510. Information Technologies for Construction.  
(3-0) Cr. 3. Prereq: CON E 421, ENGR 160 or C E 160 or equivalent  
Information technologies including microcomputer based systems, management information systems, automation technologies, computer-aided design, and expert systems and their application in the construction industry. Overview of systems acquisition, communications, and networking.

C E 511. Bioprocessing and Bioproducts.  
(Dual-listed with C E 411). (Cross-listed with A E, BIOE, BSE). (3-0) Cr. 3. F. Prereq: A E 216, C E 326 or equivalent, MATH 160 or MATH 165, CHEM 167 or higher, BIOL 173 or BIOL 211 or higher, senior or graduate classification  

C E 515. Railroad Engineering.  
(3-0) Cr. 3. Alt. S., offered 2014. Prereq: C E 355  

(Dual-listed with C E 420). (2-3) Cr. 3. Prereq: CHEM 177 and CHEM 178, MATH 166  
Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions and mass transfer principles. Individual laboratory practicals and group projects required. Term paper and oral presentation for graduate level only.

(Dual-listed with C E 421). (2-2) Cr. 3. Prereq: C E 326  
Fundamentals of biochemical and microbial processes applied to environmental engineering processes, role of microorganisms in wastewater treatment and bioremediation, bioenergetics and kinetics, metabolism of xenobiotic compounds, waterborne pathogens and parasites, and disinfection. Term paper and oral presentation.

C E 522. Water Pollution Control Processes.  
(Cross-listed with ENSCI). (2-2) Cr. 3. Prereq: C E 521  
Fundamentals of biochemical processes, aerobic growth in a single CSTR, multiple events in complex systems, and techniques for evaluating kinetic parameters; unit processes of activated sludge system, attached growth systems, stabilization and aerated lagoon systems, biosolids digestion and disposal, nutrient removal, and anaerobic treatment systems.

C E 523. Physical-Chemical Treatment Process.  
(Cross-listed with ENSCI). (2-2) Cr. 3. Prereq: C E 520  
Material and energy balances. Principles and design of physical-chemical unit processes; including screening, coagulation, flocculation, chemical precipitation, sedimentation, filtration, lime softening and stabilization, oxidation, adsorption, membrane processes, ion exchange and disinfection; recovery of resources from residuals and sludges; laboratory exercises and demonstrations; case studies in mineral processing and secondary industries.

C E 524. Air Pollution.  
(Dual-listed with C E 424). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 524A. Air Pollution: Air quality and effects of pollutants.  
(Dual-listed with C E 424A). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 524B. Air Pollution: Climate change and causes.  
(Dual-listed with C E 424B). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 524C. Air Pollution: Transportation constraints.  
(Dual-listed with C E 424C). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 524D. Air Pollution: Off-gas treatment technology.  
(Dual-listed with C E 424D). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 524E. Air Pollution: Agricultural sources of pollution.  
(Dual-listed with C E 424E). (Cross-listed with ENSCI, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 527. Solid Waste Management.  
(Cross-listed with ENSCI). (3-0) Cr. 3. Prereq: C E 326  
Planning and design of solid waste management systems; includes characterization and collection of domestic, commercial, and industrial solid wastes, waste minimization and recycling, energy and materials recovery, composting, incineration, and landfill design.

C E 529. Hazardous Waste Management.  
(Cross-listed with ENSCI). (3-0) Cr. 3. Prereq: C E 326  
Regulatory requirements for the classification, transport, storage and treatment of hazardous wastes. Analysis and design of alternatives for treatment and disposal technologies, including physical, chemical, and biological treatment, solidification, incineration, and secure landfill design. Regulatory requirements and procedures for hazardous waste contaminated site investigations and risk analysis. Analysis and design of remedial action alternatives for site restoration.

C E 532. Structural Analysis II.  
(3-0) Cr. 3. F. Prereq: C E 332  
Analysis of indeterminate structural problems by the force and generalized direct displacement methods. Direct stiffness method for 2-D frames, grids, 3-D frames. Additional topics for the stiffness method.

C E 533. Structural Steel Design II.  
(3-0) Cr. 3. Prereq: C E 333  

C E 534. Reinforced Concrete Design II.  
(3-2) Cr. 3. Prereq: C E 334  
Every third semester, offered F 2013. Design of reinforced concrete long columns, floor slabs, building frames, isolated footings and combined footings. Design and behavior considerations for torsion, biaxial bending, structural joints and shear friction. Introduction to cold-formed composite steel and composite floor slab design.

C E 535. Prestressed Concrete Structures.  
(3-0) Cr. 3. Prereq: C E 334  
Every third semester, offered S 2014. Design of prestressed concrete structures, review of hardware, stress calculations, prestress losses, section proportioning, flexural design, shear design, deflections, statically indeterminate structures.
C E 536. Masonry and Timber Design.
(Dual-listed with C E 436), (2-2) Cr. 3. Alt. F., offered 2013. Prereq: C E 334
Behavior and design of clay and concrete masonry beams, columns, walls, and
structural systems. Behavior and design of timber and laminated timber beams,
columns, connections, and structural systems. Two additional design problems.

C E 541. Dynamic Analysis of Structures.
(3-0) Cr. 3. Alt. S., offered 2015. Prereq: E M 345 and credit or enrollment in C E 532
Single and multi-degree-of-freedom systems. Free and forced vibrations. Linear and

C E 542. Structural Analysis by Finite Elements.
(3-0) Cr. 3. S. Prereq: C E 532
Use of the finite element method for the analysis of complex structural configurations.
Plane stress, plate and shell finite elements. General purpose finite element programs.

C E 545. Seismic Design.
(3-0) Cr. 3. Alt. F., offered 2013. Prereq: C E 333, C E 334
Seismic hazard in the United States. Engineering characteristics of ground motions.
Structural damage in past earthquakes. Capacity design philosophy for seismic
resistant design. Conceptual design of structures. Capacity design process including
design of structural members.

C E 546. Bridge Design.
(Dual-listed with C E 446), (2-2) Cr. 3. Alt. S., offered 2014. Prereq: C E 333, C E 334
Bridge design in structural steel and reinforced concrete. Application of AASHTO
Bridge Design Specifications. Analysis techniques for complex structures. Preliminary
designs include investigating alternative structural systems and materials. Final
designs include preparation of design calculations and sketches. Nonmajor graduate
credit.

C E 547. Analysis and Design of Plate and Slab Structures.
(3-0) Cr. 3. Alt. S., offered 2015. Prereq: C E 334, E M 514, MATH 266
Bending and buckling of thin plate components in structures utilizing classical and
energy methods. Analysis of shell roofs by membrane and bending theories.

C E 548. Building Design.
(Dual-listed with C E 448), (2-2) Cr. 3. Alt. S., offered 2014. Prereq: C E 333, C E 334
Building design in structural steel and reinforced concrete. Investigation of structural
behavior of frameworks. Gravity and lateral load resisting systems. Application
of current building codes and design specifications. Review of building designs.
Preliminary designs include investigating alternative structural systems. Final designs
include preparation of design calculations and sketches. Nonmajor graduate credit.

(Dual-listed with C E 451), (2-2) Cr. 3. F. Prereq: C E 350 or C E 355
Urban transportation planning context and process. Project planning and
programming. Congestion, mitigation, and air quality issues. Transportation data
sources. Travel demand and network modeling. Use of popular travel demand
software and applications of geographic information systems. Term project required
for graduate credit.

(2-2) Cr. 3. Prereq: C E 355
Engineering aspects of highway traffic safety. Reduction of accident incidence and
severity through highway design and traffic control. Accident analysis. Legal
implications. Safety in highway design, maintenance, and operation.

C E 553. Traffic Engineering.
(2-2) Cr. 3. Prereq: C E 355
Driver, pedestrian, and vehicular characteristics. Traffic characteristics; highway
capacity; traffic studies and analyses. Principles of traffic control for improved
highway traffic service. Application of intersection, corridor or network analysis
computer evaluation and optimization tools.

C E 556. Transportation Data Analysis.
(3-0) Cr. 3. Prereq: C E 355, STAT 101 or STAT 105
Analysis of transportation data, identification of data sources and limitations.
Static and dynamic data elements such as infrastructure characteristics, flow and
operations-related data elements. Spatial and temporal extents data for planning,
design, operations, and management of transportation systems. Summarizing,
analyzing, modeling, and interpreting data. Use of information technologies for
highways, transit, and aviation systems.

C E 557. Transportation Systems Analysis.
(3-0) Cr. 3. Prereq: C E 355, 3 credits in statistics or probability
Travel studies and analysis of data. Travel projections. Public transportation
forecasts and analyses. Statewide, regional, and local transportation system
planning. Corridor travel planning. Optimization of systems.

C E 558. Transportation Systems Development and Management Laboratory.
(5-2) Cr. 3. Prereq: C E 350 or C E 355
Study of designated problems in traffic engineering, urban transportation planning,
and urban development. Forecasting and evaluation of social, economic, and
environmental impact of proposed solutions; considerations of alternatives.
Formulation of recommendations and publication of a report. Presentation of
recommendations in the host community.

C E 559. Transportation Infrastructure/Asset Management.
(3-0) Cr. 3. Prereq: C E 355 or C E 453, C E 382
Engineering management techniques for maintaining and managing infrastructure
assets. Systematic approach to management through value engineering, engineering
economics, and life cycle cost analysis. Selection and scheduling of maintenance
activities. Analysis of network-wide resource needs. Project level analysis.

(3-0) Cr. 3. Prereq: C E 360
Limiting stress analysis, stress paths, introduction to critical state soil mechanics,
constitutive models, soil strength under various drainage conditions, seepage, pore
pressure parameters, consolidation, slope stability and retaining wall applications.

(2-3) Cr. 3. Prereq: C E 460
Lateral earth pressure theories and retaining structures. Field investigations, in-situ
testing, foundations on expansive soils, and analysis and design of shallow and deep
foundations. Foundation engineering reports.

C E 562. Site Evaluations for Civil Engineering Projects.
(2-2) Cr. 3. Prereq: C E 360
Identification and mapping of engineering soils from airphotos. Use of remote sensing
and GIS, planning subsurface investigations, geomaterials prospecting, water
resource applications.

(1-4) Cr. 3. Prereq: C E 360
Principles of geo-engineering laboratory testing including the conduct, analysis,
and interpretation of soil classification tests, compaction tests, permeability tests,
consolidation, triaxial, direct and ring shear tests. Issues regarding laboratory testing
versus field testing and acquisition, transport, storage, and preparation of samples
for geotechnical testing. Field and laboratory geotechnical monitoring techniques,
including the measurements of deformation, strain, total stress and pore water
pressure.

C E 564. Application of Numerical Methods to Geotechnical Design.
(3-0) Cr. 3. Prereq: C E 560
Application of numerical methods to analysis and design of foundations, underground
structures, and soil-structure interaction. Application of slope stability software.
Layered soils, bearing capacity and settlement for complex geometries, wave
equation for piles, and foundation vibrations.

(2-3) Cr. 3. Prereq: C E 382
Atoms and molecules, crystal chemistry, clay minerals, structure of solids, phase
transformations and phase equilibria. Surfaces and interfacial phenomena, colloid
chemistry, mechanical properties. Applications to soils and civil engineering
materials. Overview of state-of-the-art instrumental techniques for analysis of the
physicochemical properties of soils and civil engineering materials.

C E 567. Geomaterials Stabilization.
(Dual-listed with C E 467), (2-2) Cr. 3. Prereq: C E 565
Soil and aggregate physical and chemical stabilization procedures. Soil stabilization
analysis and design. Ground modification methods. Geosynthetics application and
design. A term project is required.

C E 568. Dynamics of Soils and Foundations.
(3-0) Cr. 3. F. Prereq: C E 360, E M 345
Dynamic soil properties and their measurement. Foundation dynamics and soil-
structure interaction. Sources and characteristics of dynamic loads. Vibration of
single- and multi-degree-of-freedom systems. Vibration of continuous systems; 1D,
2D, and 3D analyses. Liquefaction concepts and analysis methods. Introduction to
geotechnical earthquake engineering.

C E 570. Applied Hydraulic Design.
(2-2) Cr. 3. Prereq: C E 372
Flow characteristics in natural and constructed channels; principles of hydraulic
design of culverts, bridge waterway openings, spillways, hydraulic gates and gated
structures, pumping stations, and miscellaneous water control structures; pipe
networks, mathematical modeling. Design project.
C E 571. Surface Water Hydrology. (Cross-listed with ENSCI) (3-0) Cr. 3. Prereq: C E 372
Analysis of hydrologic data including precipitation, infiltration, evapotranspiration, direct runoff and streamflow; theory and use of frequency analysis; theory of streamflow and reservoir routing; use of deterministic and statistical hydrologic models. Fundamentals of surface water quality modeling, point and non-point sources of contamination. Design project.

C E 572. Analysis and Modeling Aquatic Environments. (Cross-listed with ENSCI) (3-0) Cr. 3. Prereq: C E 372
Principles of surface water flows and mixing. Introduction to hydrologic transport and water quality simulation in natural water systems. Advection, diffusion and dispersion, chemical and biologic kinetics, and water quality dynamics. Applications to temperature, dissolved oxygen, primary productivity, and other water quality problems in rivers, lakes and reservoirs. Deterministic vs. stochastic models.

C E 573. Groundwater Hydrology. (Dual-listed with C E 473) (3-0) Cr. 3. Prereq: C E 372

C E 576. Environmental Flows. (3-0) Cr. 3. Prereq: E M 378 or equivalent
Analysis and applications of flows in civil engineering, environmental engineering, and water resources. Primary topics include conservation laws, laminar flow, turbulence, mixing, diffusion, dispersion, water waves, and boundary layers. Associated applications include particle settling, transfer at air-water and water-sediment boundaries, flow and friction in pipes and open channels, contaminant transport, waves in lakes, jets, plumes, and salt wedges.

(1-0) Students and outside/invited speakers give weekly presentations about the ongoing research work and Geotechnical and Materials Engineering issues. Offered on a satisfactory-fail basis only.

C E 583. Pavement Analysis and Design. (Dual-listed with C E 483) (3-0) Cr. 3. Prereq: C E 360 and C E 382
Analysis, behavior, performance, and structural design of pavement systems. Topics include climate factors, rehabilitation, life cycle design economics, material and system response, pavement foundations and traffic loadings. Development of models for and analysis of pavement systems. Use of transfer functions relating pavement response to pavement performance. Evaluation and application of current and evolving pavement design practices and procedures. Mechanistic-based pavement design techniques and concepts. Analysis of the effects of maintenance activities on pavement performance and economic evaluation of pavement systems.

C E 584. Advanced Design of Concretes. (Dual-listed with C E 484) (2-2) Cr. 3. F. Prereq: C E 382
Asphalt binder characterization, fundamentals of asphalt rheology, asphalt materials behavior under loading and temperature effects. Portland cement concrete admixtures, cements and admixture compatibility, environmental effects on concrete performance, advanced performance testing. A term project is required.

C E 586. Advanced Asphalt Materials. (2-3) Cr. 3. Prereq: C E 382

C E 587. Advanced Portland Cement Concretes. (2-3) Cr. 3. Prereq: C E 382 or C E 383
Hydraulic cements, aggregates, admixtures, and mix design; concrete production, quality control, early-age properties and durability. Concrete distress examination, identification, prevention, and nondestructive testing; advanced concrete technology, high-strength and high performance concrete.

C E 590. Special Topics. Cr. 1-5. Repeatable. F.B.S.S.
Pre-enrollment contract required.

C E 591. Seminar in Environmental Engineering. Cr. R. Repeatable. F.S. Prereq: Graduate classification
(1-0) Contemporary environmental engineering issues. Outside speakers. Review of ongoing research in environmental engineering. Offered on a satisfactory-fail basis only.

C E 594. Special Topics in Construction Engineering and Management. Cr. 1-3. Repeatable. Prereq: CON E 322, CON E 340 or C E 306; and permission of instructor
Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:.

C E 594A. Special Topics Construction Engineering and Mgt.: Planning and Scheduling. Cr. 1-3. Repeatable. Prereq: CON E 322, CON E 340 or C E 306, and permission of instructor
Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:.

C E 594B. Special Topics Construction Engineering and Mgt.: Computer Applications for Planning and Scheduling. Cr. 1-3. Repeatable. Prereq: CON E 322, CON E 340 or C E 306, and permission of instructor
Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:.

C E 594D. Special Topics Construction Engineering and Mgt.: Computer Applications for Project Controls. Cr. 1-3. Repeatable. Prereq: CON E 322, CON E 340 or C E 306, and permission of instructor
Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:.

Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:.

Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:.

Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:.

Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:.

C E 594K. Special Topics Construction Engineering and Mgt.: Electrical and Mechanical Construction. Cr. 1-3. Repeatable. Prereq: CON E 322, CON E 340 or C E 306, and permission of instructor
Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:.
Courses for graduate students:

C E 622. Advanced Topics in Environmental Engineering.
(2-0) Cr. 2. Repeatable. Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering. Emphasis for a particular offering will be selected from the following topics:

C E 622A. Advanced Topics in Environmental Engineering: Water Pollution Control.
(2-0) Cr. 2. Repeatable. Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering. Emphasis for a particular offering will be selected from the following topics:

C E 622B. Advanced Topics in Environmental Engineering: Water Treatment.
(2-0) Cr. 2. Repeatable. Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering. Emphasis for a particular offering will be selected from the following topics:

C E 622C. Advanced Topics in Environmental Engineering: Solid and Hazardous Waste.
(2-0) Cr. 2. Repeatable. Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering. Emphasis for a particular offering will be selected from the following topics:

C E 622D. Advanced Topics in Environmental Engineering: Water Resources.
(2-0) Cr. 2. Repeatable. Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering. Emphasis for a particular offering will be selected from the following topics:

C E 650. Advanced Topics in Transportation Engineering.
(3-0) Cr. 3. Repeatable. Prereq: Permission of Transportation Engineering graduate faculty

C E 650A. Advanced Topics in Transportation Engineering: Highway Design.
(3-0) Cr. 3. Repeatable. Prereq: Permission of Transportation Engineering graduate faculty

(3-0) Cr. 3. Repeatable. Prereq: Permission of Transportation Engineering graduate faculty

C E 690. Advanced Topics.
Cr. 1-3. Repeatable. F.S.SS.
Pre-enrollment contract required.

C E 697. Engineering Internship.
Cr. R. Repeatable. Prereq: Permission of coop advisor, graduate classification
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

C E 699. Research.
Cr. 1-30. Repeatable. Prereq: Pre-enrollment contract required
Computer Engineering
Administered by the Department of Electrical and Computer Engineering

Undergraduate Study
For the undergraduate curriculum in computer engineering leading to the degree Bachelor of Science. This curriculum is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

The Department of Electrical and Computer Engineering (ECpE) at Iowa State University provides undergraduate students with the opportunity to learn electrical and computer engineering fundamentals, study applications of the most recent advances in state-of-the-art technologies, and to prepare for the practice of computer engineering. The student-faculty interaction necessary to realize this opportunity occurs within an environment that is motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research and outreach programs.

The computer engineering curriculum offers focus areas in software systems, embedded systems, networking, information security, computer architecture, and VLSI.

Students also may take elective courses in control systems, electromagnetics, microelectronics, VLSI, power systems, and communications and signal processing.

The program objectives for the computer engineering programs describe accomplishments that graduates are expected to attain within five years after graduation. Graduates will have applied their expertise to contemporary problem solving, be engaged professionally, have continued to learn and adapt, and have contributed to their organizations through leadership and teamwork. More specifically, the objectives for expertise, engagement, learning, leadership and teamwork are defined below for each program.

The objectives of the computer engineering program at Iowa State University are:

- Graduates, within five years of graduation, should demonstrate peer-recognized expertise together with the ability to articulate that expertise and use it for contemporary problem solving in the analysis, design, and evaluation of computer and software systems, including system integration and implementation.
- Graduates, within five years of graduation, should demonstrate engagement in the engineering profession, locally and globally, by contributing to the ethical, competent, and creative practice of engineering or other professional careers.
- Graduates, within five years of graduation, should demonstrate sustained learning and adapting to a constantly changing field through graduate work, professional development, and self study.
- Graduates, within five years of graduation, should demonstrate leadership and initiative to ethically advance professional and organizational goals, facilitate the achievements of others, and obtain substantive results.
- Graduates, within five years of graduation, should demonstrate a commitment to teamwork while working with others of diverse cultural and interdisciplinary backgrounds.

As a complement to the instructional activity, the ECpE department provides opportunities for each student to have experience with broadening activities. Through the cooperative education and internship program, students have the opportunity to gain practical industry experience. Students have the opportunity to participate in advanced research activities, and through international exchange programs, students learn about engineering practices in other parts of the world. Well-qualified juniors and seniors in computer engineering who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both Bachelor of Science and Master of Science, or Bachelor of Science and Master of Business Administration, or Bachelor of Science and Master of Engineering degrees. Under concurrent enrollment, students are eligible for assistantships and simultaneously take undergraduate and graduate courses. Details are available in the Student Services Office and on the department’s web site.

The Master of Science degree with thesis is recommended for students who intend to continue toward the Doctor of Philosophy degree or to undertake a career in research and development. The non-thesis Master of Science degree requires a creative component.

The department also offers three graduate certificate programs in embedded systems, computer networking, and software systems.

The normal prerequisite to graduate major work in computer engineering is the completion of undergraduate work substantially equivalent to that required of computer engineering students at this university. It is possible for a student to qualify for graduate study in computer engineering even though the student’s undergraduate or prior graduate training has been in a discipline other than computer engineering. Supporting work, if required, will depend on the student’s background and area of research interest. Prospective students from a discipline other than computer engineering are required to submit, with the application for admission, a statement of the proposed area of graduate study.

The department requires submission of GRE General test scores by applicants. All students whose first language is not English and who have no U.S. degree must submit TOEFL examination scores. Students pursuing the Doctor of Philosophy must complete the department qualifying process.

The Department of Electrical and Computer Engineering is a participating department in the interdepartmental Master of Science and Doctor of Philosophy degree programs in bioinformatics and computational biology. Students interested in these programs may earn their degrees while working under an adviser in electrical and computer engineering.

The Department of Electrical and Computer Engineering also is a participating department in the interdepartmental certificate, Master of Engineering, and Master of Science in Information Assurance programs. Students interested in studying information assurance topics may earn a degree in computer engineering or in information assurance. (See catalog section on Information Assurance.)

Well-qualified juniors and seniors in computer engineering who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both Bachelor of Science and Master of Science, or Bachelor of Science and Master of Business Administration, or Bachelor of Science and Master of Engineering degrees. Under concurrent enrollment, students are eligible for assistantships and simultaneously take undergraduate and graduate courses. Details are available in the Student Services Office and on the department’s web site.
MATH 166  Calculus II  4
PHYS 221  Introduction to Classical Physics I (See Basic Program rule)  5

Total Credits  27

Math and Physical Science: 20 cr.
COM S 227  Introduction to Object-oriented Programming  4
COM S 228  Introduction to Data Structures  3
MATH 265  Calculus III  4
MATH 267  Elementary Differential Equations and Laplace Transforms  4
PHYS 222  Introduction to Classical Physics II  5

Total Credits  20

Computer Engineering Core: 33 cr.  4
CPR E 281  Digital Logic  4
CPR E 288  Embedded Systems I: Introduction  4
CPR E 308  Operating Systems: Principles and Practice  4
CPR E 310  Theoretical Foundations of Computer Engineering  3
CPR E 381  Computer Organization and Assembly Level Programming  4
COM S 309  Software Development Practices  3
CPR E 315  Applications of Algorithms in Computer Engineering or COM S 311  Design and Analysis of Algorithms  3
E E 201  Electric Circuits  4
E E 230  Electronic Circuits and Systems  4

Total Credits  33

Other Remaining Courses: 32 cr.
CPR E 491  Senior Design Project I and Professionalism  3
CPR E 492  Senior Design Project II  2
STAT 330  Probability and Statistics for Computer Science  3
One of the following:
ENGL 314  Technical Communication  3
ENGL 309  Report and Proposal Writing  3
Computer Science course  5
Computer Engineering  6
Technical Electives  9
Electrical Engineering course  3

Total Credits  32

* minimum grade of C

Seminar/Co-op/Internships:
CPR E 166  Professional Programs Orientation  R
CPR E 294  Program Discovery  R
CPR E 394  Program Exploration  R
CPR E 494  Portfolio Assessment  R

Co-op or internship is optional.
Outcomes Assessment - Students are required to prepare and to maintain a portfolio of their technical and non-technical skills. This portfolio is evaluated for student preparation during the student’s curriculum planning process. Results of the evaluation are used to advise students of core strengths and weaknesses.

Transfer Credit Requirements
The degree program must include a minimum of 30 credits at the 300-level or above in professional and technical courses earned at ISU in order to receive a B.S. in computer engineering. These 30 credits must include CPR E 491 Senior Design Project I and Professionalism, CPR E 492 Senior Design Project II, and credits in the core professional curriculum and/or in technical electives. The Electrical and Computer Engineering Department requires a grade of C or better for any transfer credit course that is applied to the degree program.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass, but are used to meet the general education electives.

2. Complete minimum of 6 cr. from Approved General Education Component at 300- or higher level. Complete additional 9 cr. from Approved General Education Component.

3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.

4. 2.00 required including transfer courses.

5. From department approved lists.

See also: A 4-year plan of study grid showing course template by semester.

Courses

Courses primarily for undergraduates:
(Cross-listed with INFAS). (1-0) Cr. 1.
Basic concepts of practical computer and Internet security: passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

CPR E 166. Professional Programs Orientation.
(Cross-listed with E E). Cr. R. F.S.
(1-0) Overview of the nature and scope of electrical engineering and computer engineering professions. Overview of portfolios. Departmental rules, advising center operations, degree requirements, program of study planning, career options, and student organizations.

CPR E 185. Introduction to Computer Engineering and Problem Solving I.
(2-2) Cr. 3. Prereq: Credit or enrollment in MATH 141

CPR E 186. Introduction to Computer Engineering and Problem Solving II.
(0-2) Cr. 1, 5. Prereq: CPR E 185
Project based examples from computer engineering. Group skills needed to work effectively in teams. Group problem solving. Computer based projects. Technical reports and presentations. Students will work on 2 or 3 self-directed team based projects that are representative of problems faced by computer engineers.

CPR E 261. Transfer Orientation.
(Cross-listed with E E). Cr. R.
Introduction to the College of Engineering and the engineering profession specifically for transfer students. Information concerning university and college policies, procedures, and resources. Offered on a satisfactory-fail basis only.

CPR E 281. Digital Logic.
(3-2) Cr. 4. F.S. Prereq: sophomore classification
Number systems and representation. Boolean algebra and logic minimization. Combinational and sequential logic design. Arithmetic circuits and finite state machines. Use of programmable logic devices. Introduction to computer-aided schematic capture systems, simulation tools, and hardware description languages. Design of simple digital systems.

(3-2) Cr. 4. F.S. Prereq: CPR E 281, COM S 207 or COM S 227 or E E 285
Embedded C programming, Interrupt handling, Memory mapped I/O in the context of an application. Elementary embedded design flow/methodology. Timers, scheduling, resource allocation, optimization, state machine based controllers, real time constraints within the context of an application. Applications laboratory exercises with embedded devices.

CPR E 294. Program Discovery.
(Cross-listed with E E). Cr. R. Prereq: CPR E 166 or E E 166
The roles of professionals in computer and electrical engineering. Relationship of coursework to industry and academic careers. Issues relevant to today’s world. Offered on a satisfactory-fail basis only.
CPR E 288. Cooperative Education. 
Cr. R. F.S.SS. Prereq; Permission of department and Engineering Career Services
First professional work period in the cooperative education program. Students must register for this course before commencing work.

(3-3) Cr. 4. F.S. Prereq; CPR E 381, CPR E 310
Operating system concepts, processes, threads, synchronization between threads, process and thread scheduling, deadlocks, memory management, file systems, I/O systems, security, Linux-based lab experiments. Nonmajor graduate credit.

(3-0) Cr. 3. F.S. Prereq; Credit or enrollment in CPR E 288, COM S 226
Propositional logic and methods of proof; set theory and its applications; mathematical induction and recurrence relations; functions and relations; and counting; trees and graphs; applications in computer engineering.

(3-0) Cr. F.S.SS. Prereq; CPR E 310
Solving computer engineering problems using algorithms. Emphasis on problems related to the core focus areas in computer engineering. Real world examples of algorithms used in the core engineering domain. Algorithm engineering. Prototyping of algorithms. Nonmajor graduate credit.

CPR E 329. Software Project Management. 
(Cross-listed with S E). (3-0) Cr. 3. Prereq; COM S 309

CPR E 330. Integrated Electronics. 
(Cross-listed with E E). (3-3) Cr. 4. Prereq; E E 201, credit or enrollment in E E 230, CPR E 281
Semiconductor technology for integrated circuits. Modeling of integrated devices including diodes, BJTs, and MOSFETs. Physical layout. Circuit simulation. Digital building blocks and digital circuit synthesis. Analysis and design of analog building blocks. Laboratory exercises and design projects with CAD tools and standard cells. Nonmajor graduate credit. Credit for only one of E E 330 or 331 may be counted toward graduation.

(Cross-listed with S E). (3-0) Cr. 3. Prereq; S E 319

CPR E 370. Tying with Technology. 
(Cross-listed with MAT E). (2-2) Cr. 3. F.S. Prereq; C I 201 or C I 202
A project-based, hands-on learning course. Technology literacy, appreciation for technological innovations, principles behind many technological innovations, hands-on laboratory experiences based upon simple systems constructed out of LEGO® and controlled by small microcomputers. Future K-12 teachers will leave the course with complete lesson plans for use in their upcoming careers.

(3-2) Cr. 4. F.S. Prereq; CPR E 288
Introduction to computer organization, evaluating performance of computer systems, instruction set design. Assembly level programming: arithmetic operations, control flow instructions, procedure calls, stack management. Processor design. Datapath and control, scalar pipelines, introduction to memory and I/O systems.

(3-2) Cr. 4. Prereq; CPR E 288
Contemporary programming techniques for event driven systems - Xcode and COCOA for objective-C. Location and motion sensors based user interfaces. Threading and scheduling. Resource management - measurement and control techniques for memory and energy. Client-server application design. Distributed applications. Laboratory includes exercises based on a mobile platform such as iPhone.

CPR E 394. Program Exploration. 
(Cross-listed with E E). Cr. R. Prereq; CPR E 294 or E E 294
Exploration of academic and career fields for electrical and computer engineers. Examination of professionalism in the context of engineering and technology with competencies based skills. Introduction to professional portfolio development and construction. Offered on a satisfactory-fail basis only.

CPR E 396. Summer Internship. 
Cr. R. Repeatable. SS. Prereq; Permission of department and Engineering Career Services
Summer professional work period.

CPR E 397. Engineering Internship. 
Cr. R. Repeatable. F.S.SS. Prereq; Permission of department and Engineering Career Services
One semester maximum per academic year professional work period.

CPR E 398. Cooperative Education. 
Cr. R. F.S.SS. Prereq; CPR E 298, permission of department and Engineering Career Services
Second professional work period in the cooperative education program. Students must register for this course before commencing work.

(Cross-listed with COM S, S E). (3-0) Cr. 3. Prereq; S E 319, COM S 309
Introduction to prepositional/predicate/temporal logic, program verification using theorem proving, model-based verification using model checking, and tools for verification. Nonmajor graduate credit.

CPR E 416. Software Evolution and Maintenance. 
(Cross-listed with S E). (3-0) Cr. 3. Prereq; COM S 309
Practical importance of software evolution and maintenance, systematic defect analysis and debugging techniques, tracing and understanding large software, impact analysis, program migration and transformation, refactoring, tools for software evolution and maintenance, experimental studies and quantitative measurements of software evolution. Written reports and oral presentation. Nonmajor graduate credit.

(Cross-listed with CPR E). (3-2) Cr. 4. F. Prereq; E E 230 and CPR E 311

(Cross-listed with COM S). (3-1) Cr. 3. S. Prereq; COM S 311, COM S 330, ENGL 250, SP CM 212
Introduction to high performance computing platforms including parallel computers and workstation clusters. Discussion of parallel architectures, performance models, and software development issues. Sample applications from science and engineering. Practical issues in high performance computing will be emphasized via a number of programming projects using a variety of programming models and case studies. Oral and written reports. Nonmajor graduate credit.

CPR E 426. Introduction to Parallel Algorithms and Programming. 
(Dual-listed with CPR E 526). (Cross-listed with COM S). (3-2) Cr. 4. F. Prereq; CPR E 308 or COM S 321, COM S 311
Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: credit or enrollment in CPR E 489 or COM S 454
Introduction to and application of basic mechanisms for protecting information systems from accidental and intentional threats. Basic cryptography use and practice. Computer security issues including authentication, access control, and malicious code. Network security mechanisms such as intrusion detection, firewalls, IPSEC, and related protocols. Ethics and legal issues in information security. Other selected topics. Programming and system configuration assignments. Nonmajor graduate credit.

CPR E 435. Analog VLSI Circuit Design. 
(Cross-listed with E E). (3-3) Cr. 4. S. Prereq: E E 324, E E 330, E E 332, and either E E 322 or STAT 330
Basic analog integrated circuit and system design including design space exploration, performance enhancement strategies, operational amplifiers, references, integrated filters, and data converters. Nonmajor graduate credit.
CPR E 444. Introduction to Bioinformatics. (Cross-listed with BCB, BCBIO, COM S, BIOL, GEN). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent. Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology. Nonmajor graduate credit.

CPR E 450. Distributed Systems and Middleware. (Dual-listed with CPR E 550). (3-0) Cr. 3. Prereq: CPR E 308 or COM S 352. Fundamentals of distributed computing, software agents, naming services, distributed transactions, security management, distributed object-based systems, web-based systems, middleware-based application design and development, case studies of middleware and internet applications. Nonmajor graduate credit.

CPR E 454. Distributed and Network Operating Systems. (Dual-listed with CPR E 554). (Cross-listed with COM S). (3-1) Cr. 3. Alt. S., offered 2013. Prereq: COM S 311, COM S 352. Laboratory course dealing with practical issues of design and implementation of distributed and network operating systems and distributed computing environments (DCE). The client server paradigm, inter-process communications, layered communication protocols, synchronization and concurrency control, and distributed file systems. Graduate credit requires additional in-depth study of advanced operating systems. Written reports.

CPR E 465. Digital VLSI Design. (Cross-listed with E E). (3-3) Cr. 4. S. Prereq: E E 330. Digital design of integrated circuits employing very large scale integration (VLSI) methodologies. Technology considerations in design. High level hardware design languages, CMOS logic design styles, area-energy-delay design space characterization, datapath blocks: arithmetic and memory, architectures and systems on a chip (SOC) considerations. VLSI chip hardware design project. Nonmajor graduate credit.

CPR E 466. Multidisciplinary Engineering Design. (Cross-listed with A E, AER E, E E, ENGR, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S. Prereq: Student must be within two semesters of graduation and receive permission of instructor. Application of design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations, and computer models and engineering drawings.

CPR E 467. Multidisciplinary Engineering Design II. (Cross-listed with AER E, ENGR, E E, I E, MAT E, M E). (1-4) Cr. 3. Repeatable, maximum of 2 times. F.S. Prereq: Student must be within two semesters of graduation or receive permission of instructor. Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

CPR E 480. Graphics Processing and Architecture. (3-3) Cr. 4. S. Prereq: CPR E 381 or COM S 321. Introduction to hardware architectures for computer graphics and their programming models. System-level view, including framebuffer, video output devices, displays, 2D and 3D graphics acceleration, and device interfacing. Architectural design of GPUs, from 2D and 3D sprite engines to 3D rendering pipelines to unified shader architectures. Computing models for graphics processors. GPUGPU and GPU computing. Nonmajor graduate credit.

CPR E 483. Hardware Software Integration. (3-3) Cr. 4. S. Prereq: CPR E 381. Embedded system design using hardware description language (HDL) and field programmable gate array (FPGA). HDL modeling concepts and styles are introduced; focus on synthesizability, optimality, reusability and portability in hardware design description. Introduction to complex hardware cores for data buffering, data input/output interfacing, data processing. System design with HDL cores and implementation in FPGA. Laboratory-oriented design projects. Nonmajor graduate credit.

CPR E 488. Embedded Systems Design. (3-3) Cr. 4. Prereq: CPR E 381 or COM S 321. Embedded microprocessors, embedded memory and I/O devices, component interfaces, embedded software, program development, basic compiler techniques, platform-based FPGA technology, hardware synthesis, design methodology, real-time operating system concepts, performance analysis and optimizations. Nonmajor graduate credit.

CPR E 489. Computer Networking and Data Communications. (3-2) Cr. 4. F. Prereq: CPR E 381 or E E 324. Modern computer networking and data communications concepts. TCP/IP, OSI protocols, client server programming, data link protocols, local area networks, and routing protocols. Nonmajor graduate credit.

CPR E 491. Senior Design Project I and Professionalism. (Cross-listed with E E). (2-3) Cr. 3. F.S. Prereq: E E 322 or CPR E 308, completion of 24 credits in the E E core professional program or 29 credits in the CPR E core professional program, ENGL 314. Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; design review presentation. First of two-semester team-oriented project design and implementation experience.

CPR E 492. Senior Design Project II. (Cross-listed with E E). (1-3) Cr. 2. F. Prereq: CPR E 491 or E E 491. Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in E E 491 or CPR E 491 and the evaluation of project results. Technical writing of final project report; oral presentation of project achievements; project poster.

CPR E 494. Portfolio Assessment. (Cross-listed with E E). Cr. R. Prereq: CPR E 394 or E E 394, credit or enrollment in CPR E 491 or E E 491. Portfolio update and evaluation. Portfolios as a tool to enhance career opportunities.

CPR E 498. Cooperative Education. Cr. R. Repeatable. F.S. SS. Prereq: CPR E 389, permission of department and Engineering Career Services. Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Courses primarily for graduate students, open to qualified undergraduates:

CPR E 505. CMOS and BiCMOS Data Conversion Circuits.  
Theory, design and applications of data conversion circuits (A/D and D/A converters)  
including: architectures, characterization, quantization effects, conversion algorithms,  
spectral performance, element matching, design for yield, and practical comparators,  
implementation issues.

CPR E 506. Design of CMOS Phase-Locked Loops.  
(Cross-listed with E E). (3-3) Cr. 4. Prereq: E E 435 or E E 501 or instructor approval  
Analysis and design of phase-locked loops implemented in modern CMOS processes  
including: architectures, performance metrics, and characterization; noise and  
stability analysis; and design issues of phase-frequency detectors, charge pumps,  
loop filters (passive and active), voltage controlled oscillators, and frequency dividers.

CPR E 507. VLSI Communication Circuits.  
(Cross-listed with E E). (3-3) Cr. 4. Alt. S., offered 2013. Prereq: CPR E 330 or CPR  
E 501  
Radio frequency integrated circuits for wireless and wired communications with  
a focus on CMOS implementations. Discussions on fundamental concepts in RF  
design such as nonlinearity, sensitivity, and dynamic range will be followed with a  
detailed analysis and design of low-noise amplifiers, mixer, oscillators, and  
transceivers.

CPR E 511. Design and Analysis of Algorithms.  
(Cross-listed with COM S). (3-0) Cr. 3. F. Prereq: COM S 311  
A study of basic algorithm design and analysis techniques. Advanced data structures,  amortized analysis and randomized algorithms. Applications to sorting, graphs, and  
geometry. NP-completeness and approximation algorithms.

(Cross-listed with COM S, MATH). (3-0) Cr. 3. Alt. S., offered 2015. Prereq: CPR E  
308 or MATH 481; experience in scientific programming; knowledge of FORTRAN or  
C  
Introduction to parallelization techniques and numerical methods for state-of-the-art  
high performance computers. A major component will be a final project in an area  
related to each student’s research interests.

(Dual-listed with CPR E 426). (Cross-listed with COM S). (3-2) Cr. 4. F. Prereq: CPR  
E 308 or COM S 321, COM S 311  
Models of parallel computation, performance measures, basic parallel constructs and  
communication primitives, parallel programming using MPI, parallel algorithms for  
selected problems including sorting, matrix, tree and graph problems, fast Fourier  
transforms.

(3-0) Cr. 3. Prereq: COM S 311  
The application of randomized and probabilistic methods in the design of computer  
algorithms, and their efficient implementation. Discrete random variables in modeling  
algorithm behavior, with applications to sorting, selection, graph algorithms,  
hashing, pattern matching, cryptography, distributed systems, and massive data set  
algorithms.

(Cross-listed with INFAS). (3-0) Cr. 3. Prereq: CPR E 381  
Detailed examination of networking standards, protocols, and their implementation.  
TCP/IP protocol suite, network application protocols, IP routing, network security  
issues. Emphasis on laboratory experiments.

(Cross-listed with INFAS). (3-0) Cr. 3. Prereq: CPR E 489 or CPR E 530 or COM S  
586 or MIS 535  
Computer and network security; basic cryptography, security policies, multilevel  
security models, attack and protection mechanisms, legal and ethical issues.

CPR E 532. Information Warfare.  
(Cross-listed with INFAS). (3-0) Cr. 3. S. Prereq: CPR E 531  
Computer system and network security: implementation, configuration, testing of  
security software and hardware, network monitoring. Authentication, firewalls,  
vulnerabilities, exploits, countermeasures. Ethics in information assurance. Emphasis  
on laboratory experiments.

CPR E 533. Cryptography.  
(Cross-listed with MATH, INFAS). (3-0) Cr. 3. S. Prereq: MATH 301 or CPR E 310 or  
COM S 330  
Basic concepts of secure communication, DES and AES, public-key cryptosystems,  
elliptic curves, hash algorithms, digital signatures, applications. Relevant material on  
number theory and finite fields.
(3-0) Cr. 3.
Analytical approach to resource allocation on communication networks (e.g. the Internet, multihop wireless networks, etc.). Network utility maximization and the internet congestion control algorithm. Layering as optimization decomposition: a cross-layer design approach in multihop wireless networks. Capacity of ad hoc wireless networks.

(Cross-listed with COM S), (3-0) Cr. 3. Alt., offered 2012. Prereq: CPR E 308 or CPR E 352 Algorithms and analysis of algorithms for applications in computational biology, pairwise and multiple sequence alignments, approximation algorithms, string algorithms including in-depth coverage of suffix trees, semi-numerical string algorithms, algorithms for selected problems in fragment assembly, phylogenetic trees and protein folding. No background in biology is assumed. Also useful as an advanced algorithms course in string processing.

CPR E 550. Distributed Systems and Middleware.
(Dual-listed with CPR E 450). (3-0) Cr. 3. Prereq: CPR E 308 or CPR E 352 Fundamentals of distributed computing, software agents, naming services, distributed transactions, security management, distributed object-based systems, web-based systems, middleware-based application design and development, case studies of middleware and internet applications.

CPR E 554. Distributed and Network Operating Systems.
(Dual-listed with CPR E 454). (Cross-listed with COM S). (3-1) Cr. 3. Alt., offered 2013. Prereq: CPR E 311, CPR E 352 Laboratory course dealing with practical issues of design and implementation of distributed and network operating systems and distributed computing environments (DCE). The client server paradigm, inter-process communications, layered communication protocols, synchronization and concurrency control, and distributed file systems. Graduate credit requires additional in-depth study of advanced operating systems. Written reports.

CPR E 556. Scalable Software Engineering.
(3-0) Cr. 3. Prereq: CPR E 309 Design and analysis techniques scalable to large software, project-based learning of problem solving techniques, automation tools for high productivity and reliability of software, analysis-based measurement and estimation techniques for predictable software engineering.

(Dual-listed with CPR E 458). (3-0) Cr. 3. Prereq: CPR E 308 or CPR E 352 Fundamental concepts in real-time systems. Real-time task scheduling paradigms. Resource management in uniprocessor, multiprocessor, and distributed real-time systems. Real-time scheduling, resource reclaiming, and overload handling. Real-time channel, packet scheduling, and real-time LAN protocols. Case study of real-time operating systems. Laboratory experiments.

CPR E 567. Bioinformatics I (Fundamentals of Genome Informatics).

CPR E 569. Bioinformatics III (Structural Genome Informatics).

CPR E 570. Bioinformatics IV (Computational Functional Genomics and Systems Biology).

CPR E 575. Computational Perception.
(Cross-listed with COM S, HCI). (3-0) Cr. 3. S. Prereq: Graduate standing or permission of instructor.
This class covers statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. This semester we will focus on machine perception techniques that facilitate and augment human-computer interaction. The main goal of the class is to introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

(Cross-listed with COM S). (3-0) Cr. S. F. Prereq: CPR E 381 Quantitative principles of computer architecture design, instruction set design, processor architecture: pipelining and superscalar design, instruction level parallelism, memory organization: cache and virtual memory systems, multiprocessor architecture, cache coherence, interconnection networks and message routing, I/O devices and peripherals.

CPR E 582. Computer Systems Performance.
(3-0) Cr. 3. Prereq: CPR E 381, CPR E 310 and STAT 330 Review of probability and stochastic processes concepts; Markovian processes; Markovian queues; renewal theory; semi-Markovian queues; queuing networks, applications to multiprocessor architectures, computer networks, and switching systems.

(Cross-listed with COM S). (3-0) Cr. S. Prereq: Background in computer architecture, design, and organization Introduction to reconfigurable computing, FPGA technology and architectures, spatial computing architectures such as systolic and bit serial adaptive network architectures, static and dynamic rearrangeable interconnection architectures, processor architectures incorporating reconfigurability.

(3-0) Cr. 3. Industry-standard tools and optimization strategies; practical embedded platforms and technology (reconfigurable platforms, multi-core platforms, low-power platforms); instruction augmentation, memory-mapped accelerator design, embedded software optimization. Students will be encouraged to compete as teams in an embedded system design competition.

(Cross-listed with HCI). (3-0) Cr. 3. S. Prereq: knowledge of C/C++ programming language. An introduction to the emerging interdisciplinary field of Developmental Robotics, which crosses the boundaries between robotics, artificial intelligence, developmental psychology, and philosophy. The main goal of this field is to create autonomous robots that are more intelligent, more adaptable, and more useful than the robots of today, which can only function in very limited domains and situations.

(3-0) Cr. 3. Prereq: CPR E 489 or CPR E 530 Fundamentals of pervasive computing, including location and context awareness, mobile and location services, ubiquitous data access, low power computing and energy management, middleware, security and privacy issues.

CPR E 590. Special Topics.  
Cr. 1-4. Repeatable.  
Formulation and solution of theoretical or practical problems in computer engineering.

CPR E 592. Seminar in Computer Engineering.  
Cr. 1-4. Repeatable. Prereq: Permission of instructor  
Projects or seminar in Computer Engineering.

CPR E 594. Selected Topics in Computer Engineering.  
(3-0) Cr. 3. Repeatable.

CPR E 599. Creative Component.  
Cr. arr. Repeatable.

Courses for graduate students:

(Cross-listed with COM S). (3-0) Cr. 3. Prereq: CPR E 526  
Algorithm design for high-performance computing. Parallel algorithms for multidimensional tree data structures, space-filling curves, random number generation, graph partitioning and load balancing. Applications to grid and particle-based methods and computational biology.

CPR E 632. Information Assurance Capstone Design.  
(Cross-listed with INFAS). (3-0) Cr. 3. Prereq: INFAS 531, INFAS 532, INFAS 534  
Capstone design course which integrates the security design process. Design of a security policy. Creation of a security plan. Implementation of the security plan. The students will attach each other’s secure environments in an effort to defeat the security systems. Students evaluate the security plans and the performance of the plans. Social, political and ethics issues. Student self-evaluation, journaling, final written report, and an oral report.

(Cross-listed with COM S). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: CPR E 581. Repeatable with Instructor permission  
Current topics in computer architecture design and implementation. Advanced pipelining, cache and memory design techniques. Interaction of algorithms with architecture models and implementations. Tradeoffs in architecture models and implementations.

CPR E 697. Engineering Internship.  
(Cross-listed with E E). Cr. R. Repeatable.  
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

CPR E 699. Research.  
Cr. arr. Repeatable.

Construction Engineering

Administered by the Department of Civil, Construction and Environmental Engineering

Undergraduate Study

For curriculum in construction engineering leading to the degree bachelor of science. This curriculum is accredited under the General Criteria and Construction Engineering Program Criteria by the Engineering Accreditation Commission of ABET, http://www.abet.org.

Construction engineering is a curriculum administered by the Department of Civil, Construction and Environmental Engineering. For details of the curriculum in construction engineering leading to the degree bachelor of science. By three to five years after graduation, graduates of the construction engineering program will have:

1. Established themselves in successful careers in construction engineering, or a related field.
2. Collaborated effectively on multi-disciplinary teams to address the needs of society and the environment.
3. Pursued lifelong learning, professional development, and registration as appropriate for their employers.

Students who successfully complete the curriculum will be prepared for entry into the field or for further study at the graduate level in construction engineering or related fields of study, such as law, business and other engineering disciplines.

Construction engineers need to possess strong fundamental knowledge of engineering design and management principles, including knowledge of business procedures, economics, and human behavior. Graduates of this curriculum may expect to engage in design of temporary structures, coordination of project design, systems design, cost estimating, planning and scheduling, company and project management, materials procurement, equipment selection, and cost control. With the emergence of integrated project delivery methods such as design-build construction, the role of the construction engineer is expanding the need for trained professionals that understand both aspects of the project delivery environment. The curriculum offers opportunities to study emphases concerned with building, heavy, mechanical or electrical construction. The process of construction involves the organization, administration, and coordination of labor resource requirements, temporary and permanent materials, equipment, supplies and utilities, money, technology and methods. These must be integrated in the most efficient manner possible to complete construction projects on schedule, within the budget, and according to the standards of quality and performance specified by the project owner or designer. The curriculum blends engineering, management and business sciences into a study of the processes of construction whereby designer’s plans and specifications are converted into physical structures and facilities. The curriculum develops the ability of students to be team workers, creative thinkers, and effective communicators. This is achieved by providing students with opportunities to:

- interact with practicing professionals.
- gain work experience during summer jobs, internship, and cooperative education assignments that emphasize the knowledge required of construction engineers.
- develop leadership skills by participating in student organizations.
- develop, analyze, and interpret alternative solutions to open-ended problems.
- study abroad.

The construction industry is becoming increasingly global. Courses in humanities, social sciences, U.S. diversity, and international perspectives are included in the curriculum to broaden the student’s perspective of the work environment. In addition, the department has several exchange program opportunities for students to participate in study-abroad programs. Interested and qualified students have the opportunity to participate in the cooperative education program or internship program to supplement academic work with work experience.

Construction engineering students are encouraged to participate in life-long learning, continuous professional development, and to achieve professional engineer registration and/or registration as a certified professional constructor. Qualified construction engineering students within 30 credits of completing their degree may apply for concurrent enrollment in the Graduate College. See Civil Engineering (p. 333) Graduate Study for more information.

Graduate Study

An area of specialization in construction engineering and management is offered within the graduate program of the Department of Civil, Construction and Environmental Engineering. See Civil Engineering, Courses and Programs. A graduate certificate is also available which requires 12 credits:

- C E 501 Preconstruction Project Engineering and Management 3
- C E 502 Construction Project Engineering and Management 3
- C E 503 Construction Management Functions and Processes 3

One of the following:

- C E 505 Design of Construction Systems 3
- C E 506 Case Histories in Construction Documents
- C E 510 Information Technologies for Construction
- C E 594A Special Topics Construction Engineering and Mgt.: Planning and Scheduling
- C E 594C Special Topics Construction Engineering and Mgt.: Cost Estimating
- C E 594E Special Topics Construction Engineering and Mgt.: Computer Applications for Project Controls
- C E 594F Special Topics Construction Engineering and Mgt.: Advanced Building Construction Topics
- C E 594L Special Topics Construction Engineering and Mgt.: Design Build Construction

Total Credits 12

Courses are offered for minor work to students taking major work in other curricula or in interdepartmental programs.
Curriculum in Construction Engineering

Administered by the Department of Civil, Construction, and Environmental Engineering.

Leading to the degree bachelor of science.

**Total credits required: Building Option -125.0, Heavy Option - 124.0, Electrical - 125.0, Mechanical - 125.0 cr.**

The Construction Engineering Department requires a grade of a C or better for any transfer credit course that is applied to the degree program. See also Basic Program and Special Programs.

**International Perspectives: 3 cr.**

**U.S. Diversity: 3 cr.**

**Communication Proficiency/Library requirements (minimum grade of C):**

- ENGL 150 Critical Thinking and Communication 3
- ENGL 250 Written, Oral, Visual, and Electronic Composition 3
- LIB 160 Information Literacy 1

**Business Communication Elective: one course of the following with a minimum grade of C.**

- ENGL 302 Business Communication 3
- ENGL 309 Report and Proposal Writing 3
- ENGL 314 Technical Communication 3

**Social Sciences and Humanities: 12 cr.**

One of the following 3

- PSYCH 101 Introduction to Psychology
- PSYCH 230 Developmental Psychology
- PSYCH 250 Psychology of the Workplace
- PSYCH 280 Social Psychology
- SOC 134 Introduction to Sociology
- ECON 101 Principles of Microeconomics
- or ECON 102 Principles of Macroeconomics

**International Perspectives** 3

**U.S. Diversity approved list** 3

**Total Credits** 12

**Basic Program: 27 cr.**

Complete with 2.00 GPA including transfer courses (see above for grade requirements):

- CHEM 167 General Chemistry for Engineering Students 4
- CHEM 177 General Chemistry I
- ENGL 150 Critical Thinking and Communication 3
- ENGL 250 Written, Oral, Visual, and Electronic Composition 3
- ENGR 101 Engineering Orientation R
- C E 160 Engineering Problems with Computational Laboratory 4
- LIB 160 Information Literacy 1
- MATH 165 Calculus I 4
- MATH 166 Calculus II 4
- PHYS 221 Introduction to Classical Physics I (See Basic Program rule) 5

**Total Credits** 27

**Math and Physical Science: 11 cr. (B, H); 12 cr. (E, M)**

- STAT 105 Introduction to Statistics for Engineers 3
- MATH 266 Elementary Differential Equations (B, H) 3
- MATH 267 Elementary Differential Equations and Laplace Transforms (E, M) 4
- PHYS 222 Introduction to Classical Physics II 5

**Construction Engineering Core: 27 cr. (B, H); 28 cr. (E, M)**

- E M 274 Statics of Engineering 3
- E M 324 Mechanics of Materials 3
- CON E 421 Construction Estimating 3
- CON E 441 Construction Planning, Scheduling, and Control 3
- E M 378 Mechanics of Fluids 3
- C E 332 Structural Analysis I 3

See options for remaining option core courses 9-10

Total Credits **27-28**

**Additional Required Courses: 32 cr. (B, H), 33 cr. (E, M)**

- CON E 121 Cornerstone Learning Community: Orientation to Academic Life 1
- CON E 122 Cornerstone Learning Community: Orientation to Professional Life 1
- C E 170 Graphics for Civil Engineering 2
- C E 111 Fundamentals of Surveying I 3
- CON E 222 Contractor Organization and Management of Construction 3
- I E 305 Engineering Economic Analysis 3
- CON E 241 Construction Materials and Methods 3
- CON E 251 Mechanical/Electrical Materials and Methods 1
- Law Elective 3
- CON E 487 Construction Engineering Design I 3
- CON E 488 Construction Engineering Design II 3

**Business Communication Elective** 3

**Total Credits** 32-33

Select remaining courses from one of the following options:

**Building Option: Remaining Core courses (9 cr.)**

- C E 360 Geotechnical Engineering 3
- CON E 322 Construction Equipment and Heavy Construction Methods 3
- CON E 340 Concrete and Steel Construction 3

**Total Credits** 9

**Remaining option courses 16 cr.**

- C E 333 Structural Steel Design I 3
- C E 334 Reinforced Concrete Design I 3
- C E 383 Design of Portland Cement Concrete 1
- CON E 352 Mechanical Systems in Buildings 3
- CON E 353 Electrical Systems in Buildings 3
- E M 327 Mechanics of Materials Laboratory 1
- Engineering Topics Elective 2

**Total Credits** 16

**Heavy Option: Remaining Core courses (9 cr.)**

- C E 360 Geotechnical Engineering 3
- CON E 322 Construction Equipment and Heavy Construction Methods 3
- CON E 340 Concrete and Steel Construction 3

**Total Credits** 9

**Remaining option courses 15 cr.**

- C E 333 Structural Steel Design I 3
- C E 334 Reinforced Concrete Design I 3
- C E 382 Design of Concretes 3
- E M 327 Mechanics of Materials Laboratory 1

<td>CON E 112. Orientation to Learning and Productive Team Membership. (Cross-listed with AER E, NREM, FS HN, HORT). (2-0) Cr. 2. F. Introduction to developing intentional learners and worthy team members. Learning as the foundation of human enterprise; intellectual curiosity; ethics as a personal responsibility; everyday leadership; effective team and community interactions including team learning and the effects on individuals; and growth through understanding self, demonstrating ownership of own learning, and internalizing commitment to helping others. Intentional mental processing as a means of enhancing learning; interconnectedness of the individual, the community, and the world.</td>
</tr>
<tr>
<td>CON E 114. Developing Responsible Learners and Effective Leaders. (Cross-listed with NREM, FS HN, HORT). (2-0) Cr. 2. S. Prereq: Hort 112 or NREM 112 Focus on team and community. Application of fundamentals of human learning; evidence of development as a responsible learner; intentional mental processing as a habit of mind; planning and facilitating learning opportunities for others; responsibility of the individual to the community and the world; leading from within; holding self and others accountable for growth and development as learners and leaders.</td>

<tr>
<td>CON E 222. Contractor Organization and Management of Construction. (3-0) Cr. 3. F.S. Prereq: Completion of basic program Entry level course for construction engineering: integration of significant engineering and management issues related to construction company operations. Company organization and operations; construction and project administration; construction contracts; delivery systems; insurance and bonding; construction safety; construction labor relations; contract documents.</td>
</tr>
<tr>
<td>CON E 251. Mechanical/Electrical Materials and Methods. (0-3) Cr. 1. F.S. Prereq: Credit or enrollment in CON E 241 Introduction to the materials and methods for mechanical and electrical construction systems and drawings. HVAC, water and waste water, power distribution, lighting, and fire protection. Blueprint reading and quantity takeoff.</td>
</tr>
<tr>
<td>CON E 298. Cooperative Education. Cr. R. F.S.SS. Prereq: Permission of department and Engineering Career Services First professional work period in the cooperative education program. Students must register for this course before commencing work.</td>
</tr>
<tr>
<td>CON E 322. Construction Equipment and Heavy Construction Methods. (2-2) Cr. 3. F.S. Prereq: CON E 241 Selection and acquisition of construction equipment. Application of engineering fundamentals and economics to performance characteristics and production of equipment. Heavy construction methods and economic applications. Nonmajor graduate credit.</td>
</tr>
</tbody>
</table>
(2-2) Cr. 3. F.S. Prereq: CON E 251, PHYS 222
Comprehensive coverage of mechanical systems, plumbing, fire protection. Analysis techniques and design principles for each system. Required comprehensive design project for a major building project. Nonmajor graduate credit.

(3-0) Cr. 3. F.S. Prereq: PHYS 222 and credit or enrollment in CON E 352
Comprehensive coverage of building electrical systems including power, lighting, fire alarm, security and communications. Analysis techniques and design principles for each system. Required comprehensive design project for a major building project. Nonmajor graduate credit.

(3-0) Cr. 3. F. Prereq: Junior Classification
Energy performance of buildings, building shells, HVAC, electrical and other building systems. Analysis and evaluation of building performance, energy efficiency, environmental quality, first costs, and operating costs. Strategies to exceed energy code requirements through the ASHRAE Standard 90.1. Nonmajor graduate credit.

(3-0) Cr. 3. F.S. Prereq: Junior classification
Introduction to law and judicial procedure as they relate to the practicing engineer. Contracts, professional liability, professional ethics, licensing, bidding procedures, intellectual property, products liability, risk analysis. Emphasis on development of critical thinking process, abstract problem analysis and evaluation. Nonmajor graduate credit.

CON E 381A. Bidding Construction Projects I: Heavy and Highway.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids. Offered in the following specialties:

CON E 381B. Bidding Construction Projects I: Building.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids. Offered in the following specialties:

CON E 381C. Bidding Construction Projects I: Mechanical.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids. Offered in the following specialties:

CON E 381D. Bidding Construction Projects I: Electrical.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids. Offered in the following specialties:

CON E 381E. Bidding Construction Projects I: Mechanical and Electrical.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids. Offered in the following specialties:

CON E 381F. Bidding Construction Projects I: Miscellaneous.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids. Offered in the following specialties:

CON E 381G. Bidding Construction Projects I: Transportation.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids. Offered in the following specialties:

CON E 396. Summer Internship.
Cr. R. Repeatable. SS. Prereq: Permission of department and Engineering Career Services
Summer professional work period. Students must register for this course before commencing work.

CON E 397. Engineering Internship.
Cr. R. Repeatable. F.S. Prereq: Permission of department and Engineering Career Services
Professional work period, one semester maximum per academic year. Students must register for this course before commencing work.

CON E 398. Cooperative Education.
Cr. R. F.S.S. Prereq: CON E 298, permission of department and Engineering Career Services
Second professional work period in the cooperative education program. Students must register for this course before commencing work.

(2-2) Cr. 3. F.S. Prereq: CON E 241, Junior classification

CON E 441. Construction Planning, Scheduling, and Control.
(2-2) Cr. 3. F.S. Prereq: Credit or enrollment in CON E 421
Integration of previous construction coursework into the planning, scheduling, and management of time, costs, and other resources. Emphasis on preparation and analysis of network schedules. Comprehensive planning and scheduling project. Computer project management applications. Nonmajor graduate credit.

CON E 481. Bidding Construction Projects II.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481A. Bidding Construction Projects II: Heavy and Highway.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481B. Bidding Construction Projects II: Building.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481C. Bidding Construction Projects II: Mechanical.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481D. Bidding Construction Projects II: Electrical.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481E. Bidding Construction Projects II: Mechanical and Electrical.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481F. Bidding Construction Projects II: Miscellaneous.
(0-3) Cr. 1. F. Prereq: Permission from the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 487. Construction Engineering Design I.
(2-2) Cr. 3. F.S. Prereq: CON E 340 (B, H), CON E 352 (B, E, M), CON E 353 (B, E, M), CON E 421, CON E 441. Student must be within two semesters of graduation
The integrated delivery of project services as a team, including preliminary engineering design process, constructability review, interaction with the client, identification of engineering problems, developments of a proposal, identification of design criteria, cost estimating, planning and scheduling, application of codes and standards, development of feasible alternatives, selection of best alternative, and delivery of oral presentations.

CON E 488. Construction Engineering Design II.
(1-5) Cr. 3. F.S. Prereq: CON E 380. Coreq: CON E 487
Application of team design concepts to a construction engineering project. Project planning. Advanced construction and project management.
CON E 498. Cooperative Education. Cr. R. Repeatable. F.S.S. Prereq: CON E 398, permission of department and Engineering Career Services. Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Electrical Engineering

Undergraduate Study

For the undergraduate curriculum in electrical engineering leading to the degree Bachelor of Science. This curriculum is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

The Department of Electrical and Computer Engineering (ECpE) at Iowa State University provides undergraduate students with the opportunity to learn electrical and computer engineering fundamentals, study applications of the most recent advances in state-of-the-art technologies, and prepare for the practice of electrical engineering. The student-faculty interaction necessary to realize this opportunity occurs within an environment that is motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research and outreach programs.

The electrical engineering curriculum offers a number of emphasis areas at the undergraduate level, including control systems, electromagnetics and nondestructive evaluation, microelectronics and photonics, VLSI, electric power and energy systems, and communications and signal processing. Students are required to choose at least one course sequence that focuses on one of these areas; therefore graduates have substantial depth in specific areas to complement the breadth obtained in the required curriculum. Students also may take elective courses in computer networking, security, computer architecture, digital systems, and software.

The program objectives for the electrical engineering program describe accomplishments that graduates are expected to attain within five years after graduation. Graduates will have applied their expertise to contemporary problem solving, be engaged professionally, have continued to learn and adapt, and have contributed to their organizations through leadership and teamwork. More specifically, the objectives for expertise, engagement, learning, leadership and teamwork are defined below for each program.

The objective of the electrical engineering program at ISU are:

- Graduates, within five years of graduation, should demonstrate peer-recognized expertise together with the ability to articulate that expertise and use it for contemporary problem solving in the analysis, design, and evaluation of electrical and electronic devices and systems.
- Graduates, within five years of graduation, should demonstrate engagement in the engineering profession, locally and globally, by contributing to the ethical, competent, and creative practice of engineering or other professional careers.
- Graduates, within five years of graduation, should demonstrate sustained learning and adapting to a constantly changing field through graduate work, professional development, and self-study.
- Graduates, within five years of graduation, should demonstrate leadership and initiative to ethically advance professional and organizational goals, facilitate the achievements of others, and obtain substantive results.
- Graduates, within five years of graduation, should demonstrate a commitment to teamwork while working with others of diverse cultural and interdisciplinary backgrounds.

As a complement to the instructional activity, the ECpE department provides opportunities for each student to have experience with broadening activities. Through the cooperative education and internship program, students have the opportunity to gain practical industry experience.

Students have the opportunity to participate in advanced research activities, and through international exchange programs, students learn about engineering practices in other parts of the world. Well-qualified juniors and seniors in electrical engineering who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both the Bachelor of Science and Master of Science, the Bachelor of Science and Master of Business Administration, or the Bachelor of Science and Master of Engineering degrees.

Students are required to prepare and to maintain a portfolio of their technical and non-technical skills. This portfolio is evaluated for student preparation during the student’s curriculum planning process. Results of the evaluation are used to advise students of core strengths and weaknesses.

Courses for students who are not in the electrical engineering program: E E 442 Introduction to Circuits and Instruments, E E 448 Introduction to AC Circuits and Motors. Credit in these courses may not be counted toward a degree in either electrical engineering or computer engineering.

Graduate Study

The department offers work for the degrees Master of Engineering, Master of Science, and Doctor of Philosophy with a major in electrical engineering and minor work to students with other majors. Minor work for electrical engineering majors is usually selected from a wide range of courses outside electrical engineering.

Master of Engineering degree is coursework only. It is recommended for off-campus students.

The degree Master of Science with thesis is recommended for students who intend to continue toward the Doctor of Philosophy degree or to undertake a career in research and development. The non-thesis Master of Science degree requires a creative component.

The department also offers a graduate certificate program in power systems engineering. Completion of the certificate requires at least 12 credits selected from:

The normal prerequisite to major in graduate work in electrical engineering is the completion of undergraduate work substantially equivalent to that required of electrical engineering students at this university. Because of the diversification in the electrical engineering graduate program, however, it is possible for a student to qualify for graduate study in certain areas of electrical engineering even though the student’s undergraduate or prior graduate training has been in a discipline other than electrical engineering. Supporting work, if required, will depend on the student’s background and area of research interest. Prospective students from a discipline other than electrical engineering are required to submit, with the application for admission, a statement of the proposed area of graduate study.

The department requires submission of GRE General test scores by applicants. All students whose first language is not English and who have no U.S. degree must submit TOEFL examination scores. Students pursuing the Doctor of Philosophy must complete the department qualifying process.

The Department of Electrical and Computer Engineering is a participating department in the interdepartmental graduate minor in complex adaptive systems. Students interested in this program should see the Complex Adaptive Systems section of the catalog for requirements.

The Department of Electrical and Computer Engineering is a participating department in the interdepartmental Master of Science and Doctor of Philosophy degree programs in bioinformatics and computational biology. Students interested in these programs may earn their degrees while working under an adviser in electrical and computer engineering.

Well-qualified juniors or seniors in electrical engineering who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both the Bachelor of Science and Master of Science degrees, the Bachelor of Science and Master of Business Administration, or the Bachelor of Science and Master of Engineering degrees. Under concurrent enrollment, students are eligible for assistantships and simultaneously take undergraduate and graduate courses. Details are available in the Student Services Office and on the department’s website.

Curriculum in Electrical Engineering

Administered by the Department of Electrical and Computer Engineering. Leading to the degree Bachelor of Science.
Total credits required: 128 See also Basic Program and Special Programs.

International Perspectives: 3 cr. 1

Transfer Credit Requirements

The degree program must include a minimum of 30 credits at the 300-level or above in professional and technical courses earned at ISU in order to receive a B.S. in electrical engineering. These 30 credits must include E E 491 Senior Design Project I and Professionalism, E E 492 Senior Design Project II, and credits in the core professional curriculum and/or in technical electives. The Electrical and Computer Engineering Department requires a grade of C or better for any transfer credit course that is applied to the degree program.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/No Pass.

2. Complete minimum of 6 cr. from Approved General Education Component at 300 or higher level. Complete additional 9 cr. from Approved General Education Component.

3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.

4. 2.00 required including transfer courses.

5. From department approved lists

See also: A 4-year plan of study grid showing course template by semester.

Note: International perspectives and U.S. diversity courses are used to meet the general education electives.

Courses

Courses primarily for undergraduates:

E E 166. Professional Programs Orientation. (Cross-listed with CPR E), Cr. R. F.S. (1-0) Overview of the nature and scope of electrical engineering and computer engineering professions. Overview of portfolios. Departmental rules, advising center operations, degree requirements, program of study planning, career options, and student organizations.

E E 186. Introduction to Electrical Engineering and Problem Solving II. (0-2) Cr. 1. S. Prereq: E E 185. Project based and hands on continuation of 185. Group skills needed to work effectively in teams. Individual interactive skills for small and large groups. Learning to use tools and methods for solving electrical engineering problems.
E E 188. Bio-Electrical Engineering Fundamentals Laboratory.  
(1-3) Cr. 3. Prereq: E E 165 or equivalent  
Fundamental laboratory based course in bio-electrical engineering with an emphasis on acquiring and analyzing biomedical signals to obtain relevant information. Topics covered include an overview of basic medical terminology and anatomy, labs illustrating data acquisition from different body systems, and an introduction to statistical significance and its relationship to biological variability.

E E 201. Electric Circuits.  
(3-2) Cr. 4. F.S. Prereq: Credit or registration in MATH 267 and PHYS 222  
Emphasis on mathematical tools. Circuit elements (resistors, inductors, capacitors) and analysis methods including power and energy relationships. Network theorem, DC, sinusoidal steady-state, and transient analysis. AC power. Frequency response. Two port models. Diodes, PSpice. Laboratory instrumentation and experimentation. Credit for only E E 201 or 442 may be used towards graduation.

E E 224. Signals and Systems I.  
(3-3) Cr. 4. F.S. Prereq: E E 201, MATH 267, PHYS 222  

(3-3) Cr. 4. F.S. Prereq: E E 201, MATH 267, PHYS 222  

E E 261. Transfer Orientation.  
(Cross-listed with CPR E). Cr. R.  
Introduction to the College of Engineering and the engineering profession specifically for transfer students. Information concerning university and college policies, procedures, and resources. Offered on a satisfactory-fail basis only.

(3-3) Cr. 4.  

E E 294. Program Discovery.  
(Cross-listed with CPR E). Cr. R. Prereq: CPR E 166 or E E 166  
The roles of professionals in computer and electrical engineering. Relationship of coursework to industry and academic careers. Issues relevant to today’s world. Offered on a satisfactory-fail basis only.

E E 298. Cooperative Education.  
Cr. R. F.S.SS. Prereq: Permission of department and Engineering Career Services  
First professional work period in the cooperative education program. Students must register for this course before commencing work.

(3-0) Cr. 3. F.S. Prereq: MATH 267, Phys 222. Credit or registration in E E 224 and E E 230  

(4-0) Cr. 4. F.S. Prereq: E E 201, MATH 265, PHYS 222, credit or registration in MATH 267  

E E 314. Electromagnetics for non Electrical Engineers.  
(3-0) Cr. 3. Prereq: PHYS 222, PHYS 112, or equivalent  
Conceptual study of electromagnetism and its application in engineering and related fields. EM fundamentals, EM spectrum, radiation, radiating systems, wireless, modern concepts of physics, quantum computing, transmission lines, high speed effects, waveguides, GPS and other related phenomena will be discussed and explained with the application in mind. Nonmajor graduate credit.

E E 321. Communication Systems I.  
(3-0) Cr. 3. F. Prereq: E E 224  
Frequency domain analysis, spectral filtering, bandwidth, Linear modulation systems. Angle modulation systems. Phase locked loop, super-heterodyne receiver. Sampling and pulse code modulation. Digital data transmission, line coding, pulse shaping, multiplexing. Nonmajor graduate credit.

E E 322. Probabilistic Methods for Electrical Engineers.  
(Cross-listed with STAT). (3-0) Cr. 3. F.S. Prereq: E E 224  
Introduction to probability with applications to electrical engineering. Sets and events, probability space, conditional probability, total probability and Bayes’ rule. Discrete and continuous random variables, cumulative distribution function, probability mass and density functions, expectation, moments, moment generating functions, multiple random variables, functions of random variables, Elements of statistics, hypothesis testing, confidence intervals, least squares. Introduction to random processes.

E E 323. Introduction to Digital Signal Processing.  
(3-3) Cr. 4. Prereq: E E 224  

E E 324. Signals and Systems II.  
(3-3) Cr. 4. F.S. Prereq: E E 224  

E E 325. Systems Biology for Engineering.  
(Cross-listed with BIOE). (3-0) Cr. 3. Prereq: BIOE 210, MATH 267  

E E 330. Integrated Electronics.  
(Cross-listed with CPR E). (3-3) Cr. 4. Prereq: E E 201, credit or enrollment in E E 230, CPR E 281  
Semiconductor technology for integrated circuits. Modeling of integrated devices including diodes, BJTs, and MOSFETs. Physical layout. Circuit simulation. Digital building blocks and digital circuit synthesis. Analysis and design of analog building blocks. Laboratory exercises and design projects with CAD tools and standard cells. Nonmajor graduate credit. Credit for only one of E E 330 or 331 may be counted toward graduation.

E E 332. Semiconductor Materials and Devices.  
(Cross-listed with MAT E). (3-0) Cr. 3. S. Prereq: PHYS 222; MAT E majors: MAT E 334; CPR E and E E majors: E E 230  
Introduction to semiconductor material and device physics. Quantum mechanics and band theory of semiconductors. Charge carrier distributions, generation-recombination, transport properties. Physical and electrical properties and fabrication of semiconductor devices such as MOSFETs, bipolar transistors, laser diodes and LED’s. Nonmajor graduate credit.

(2-2) Cr. 3. Prereq: E E 188, E E 224, E E 230  
Principles and practices of biomedical instrumentation. Topics include: the physics and measurement of biopotentials including electrocardiography (EKG), electromyography (EMG) and electro-oculography (EOG), mechanical and chemical sensors, amplifiers and filters, recording and processing biological signals from nerve cells, muscles and human body, electrode polarization, surface electrodes, power line interference, heart sound sensors, respiratory gas concentration, blood-gas sensors, noninvasive blood-gas sensors.
(3-0) Cr. 3. Prereq: MATH 165.  

E E 388. Sustainable Engineering and International Development.  
(Cross-listed with A E, C E, M E, MAT E, BSE). (2-2) Cr. 3. F. Prereq: Junior classification in engineering  
Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report. Meets International Perspectives Requirement.

E E 394. Program Exploration.  
(Cross-listed with CPR E). Cr. R. Prereq: CPR E 294 or E E 294  
Exploration of academic and career fields for electrical and computer engineers. Examination of professionalism in the context of engineering and technology with competencies based skills. Introduction to professional portfolio development and construction. Offered on a satisfactory-fail basis only.

E E 396. Summer Internship.  
Cr. R. Repeatable. SS. Prereq: Permission of department and Engineering Career Services  
Summer professional work period. Students must register for this course before commencing work.

E E 397. Engineering Internship.  
Cr. R. Repeatable. F.S. Prereq: Permission of department and Engineering Career Services  
One semester maximum per academic year professional work period. Students must register for this course before commencing work.

E E 398. Cooperative Education.  
Cr. R. F.S.SS. Prereq: E E 298, permission of department and Engineering Career Services  
Second professional work period in the cooperative education program. Students must register for this course before commencing work.

E E 414. Microwave Engineering.  
(Dual-listed with E E 514). (3-3) Cr. 4. F. Prereq: E E 230, E E 311  
Principles, analyses, and instrumentation used in the microwave portion of the electromagnetic spectrum. Wave theory in relation to circuit parameters. S parameters, couplers, discontinuities, and microwave device equivalent circuits. RF amplifier design, microwave sources, optimum noise figure and maximum power designs. Microwave filters and oscillators. Nonmajor graduate credit.

(Dual-listed with E E 517). (3-3) Cr. 4. S. Prereq: E E 311  

(Cross-listed with CPR E). (3-2) Cr. 4. F. Prereq: E E 230 and CPR E 311  

E E 422. Communication Systems II.  
(3-0) Cr. 3. Prereq: E E 421 and enrollment in E E 423  
Introduction to probability and random processes; Performance of analog systems with noise; Performance of digital communication with noise; optimum receivers, transmission impairments, and error rates; Introduction to information theory and coding; source coding, channel coding, channel capacity. Nonmajor graduate credit.

E E 423. Communication Systems Laboratory.  
(0-3) Cr. 1. Prereq: E E 421, enrollment in E E 422  
Construction and evaluation of modulators, demodulators and other components for analog and digital communications. Design, simulate,and evaluate wireless communication systems and their key components. Noise measurement. Nonmajor graduate credit.

E E 432. Microelectronics Fabrication Techniques.  
(Dual-listed with E E 532). (Cross-listed with MAT E). (2-4) Cr. 4. Prereq: PHYS 222, MATH 267. E E 332 or MAT E 334 recommended  
Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS). Nonmajor graduate credit.

(Cross-listed with CPR E). (3-3) Cr. 4. S. Prereq: E E 324, E E 330, E E 332, and either E E 322 or STAT 330  
Basic analog integrated circuit and system design including design space exploration, performance enhancement strategies, operational amplifiers, references, integrated filters, and data converters. Nonmajor graduate credit.

(3-0) Cr. S. Prereq: E E 332/MAT E 332 or MAT E 331  
Concepts of quantum mechanics relevant to nanoelectronic devices, including quantization, tunneling, and transport; overview of some of the leading technologies for nanoelectronics, including carbon nanotubes, quantum dots, and molecular transistors; fabrication methods for building nanoelectronic devices. Nonmajor graduate credit.

E E 442. Introduction to Circuits and Instruments.  
(3-2) Cr. 2. F.S. Prereq: PHYS 222, MATH 267  
Half-semester course. Basic circuit analysis using network theorems with time domain and Laplace transform techniques for resistive, resistive-inductive, resistive-capacitive, and resistive-inductive-capacitive circuits. Transient circuit behavior. Basic operational amplifiers and applications. Familiarization with common E E instrumentation and demonstration of basic principles. Nonmajor graduate credit. Credit for only 201 or 442 may be counted toward graduation; credit for 442 will not count toward graduation for E E or Cpr E majors.

E E 448. Introduction to AC Circuits and Motors.  
(2-3) Cr. 2. F.S. Prereq: E E 303 or E E 441 or E E 442  

(2-2) Cr. 3. Alt. S., offered 2012. Prereq: Phys 221 and Math 266 or 267  
Sound sources and propagation. Noise standards and effects of noise on people. Principles of noise and vibration control used in architectural and engineering design. Characteristics of basic noise measurement equipment. Experience in use of noise measuring equipment, sound power measurements, techniques for performing noise surveys, evaluation of various noise abatement techniques applied to common noise sources. Selected laboratory experiments. Nonmajor graduate credit.

E E 452. Electrical Machines and Power Electronic Drives.  
(2-3) Cr. 3. S. Prereq: E E 303; E E 330 or E E 332; credit or registration in E E 324  
Basic concepts of electromagnetic energy conversion. DC motors and three-phase induction motors. Basic introduction to power electronics. Adjustable speed drives used for control of DC, induction, and AC motors. Experiments with converter topologies, DC motors, AC motors and adjustable speed drives. Nonmajor graduate credit.

E E 455. Introduction to Energy Distribution Systems.  
(3-0) Cr. 3. F. Prereq: E E 303, credit or registration in E E 324  
Overview and description system descriptions and characteristics. Load descriptions and characteristics, overview line and underground cable models, distribution transformers, power flow and fault analysis, overcurrent protection, power factor correction, system planning and automation, and economics in a deregulated environment. Nonmajor graduate credit.
E E 456. Power System Analysis I.
(3-0) Cr. 3. F. Prereq: E E 303, credit or registration in E E 324
Power transmission lines and transformers, synchronous machine modeling, network analysis, power system representation, load flow. Nonmajor graduate credit.

E E 457. Power System Analysis II.
(3-0) Cr. 3. S. Prereq: E E 303, credit or registration in E E 324
Power system protection, symmetrical components, faults, stability. Power system operations including the new utility environment. Nonmajor graduate credit.

(Cross-listed with ECON). (3-0) Cr. 3. Prereq: E E 303 or ECON 301

(Dual-listed with E E 559). (3-0) Cr. 3. Prereq: Credit or enrollment in E E 452, E E 456
Summary of industry status and expected growth; power extraction from the air stream; operation and modeling of electric machines, and power electronics topologies for wind energy conversion; analysis of machine-grid power electronic circuits, controller interface, and collector (distribution) networks; treatment of harmonics, flicker, over/under-voltages, filters, low-voltage ride-through, and active compensation; relaying; effects on transmission expansion, planning and grid operation and coordination including variability, frequency control, reserves, and electricity markets; overview of storage technologies and hybrid configurations. Nonmajor graduate credit.

(Cross-listed with CPR E). (3-3) Cr. 4. S. Prereq: E E 330
Digital design of integrated circuits employing very large scale integration (VLSI) methodologies. Technology considerations in design. High level hardware design languages, CMOS logic design styles, area-energy-delay design space characterization, datapath blocks: arithmetic and memory, architectures and systems on a chip (SOC) considerations, VLSI chip hardware design project. Nonmajor graduate credit.

E E 466. Multidisciplinary Engineering Design.
(Cross-listed with A E, AER E, CPR E, ENGR, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S. Prereq: Student must be within two semesters of graduation and receive permission of instructor
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

E E 467. Multidisciplinary Engineering Design II.
(Cross-listed with AER E, CPR E, ENGR, I E, MAT E, M E). (1-4) Cr. 3. Repeatable, maximum of 2 times. F.S. Prereq: Student must be within two semesters of graduation or receive permission of instructor
Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

(3-0) Cr. 3. F. Prereq: E E 324

(2-3) Cr. 3. S. Prereq: E E 475
Computer aided techniques for feedback control system design, simulation, and implementation. Nonmajor graduate credit.

(Dual-listed with E E 588). (Cross-listed with MAT E). (3-0) Cr. 3. Alt. F., offered 2013. Prereq: MATH 265 and (MAT E 216 or MAT E 272 or E E 311 or PHYS 364)
Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a virtual’ eddy current instrument will demonstrate key concepts.

E E 490. Independent Study.
Cr. arr. Prereq: Senior classification in electrical engineering
Investigation of an approved topic commensurate with the student’s prerequisites.

E E 490H. Independent Study: Honors.
Cr. arr. Prereq: Senior classification in electrical engineering
Investigation of an approved topic commensurate with the student’s prerequisites.

E E 491. Senior Design Project I and Professionalism.
(Cross-listed with CPR E). (2-3) Cr. 3. F. S. Prereq: E E 322 or CPR E 308,
completion of 24 credits in the E E core professional program or 29 credits in the Cpr E core professional program, ENGL 314
Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; design review presentation. First of two-semester team-oriented, project design and implementation experience.

E E 492. Senior Design Project II.
(Cross-listed with CPR E). (1-3) Cr. 2. F. S. Prereq: CPR E 491 or E E 491
Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in E E 491 or Cpr E 491 and the evaluation of project results. Technical writing of final project report; oral presentation of project achievements; project poster.

E E 494. Portfolio Assessment.
(Cross-listed with CPR E). Cr. R. Prereq: CPR E 394 or E E 394, credit or enrollment in CPR E 491 or E E 491
Portfolio update and evaluation. Portfolios as a tool to enhance career opportunities.

E E 496. Modern Optics.
(Cross-listed with PHYS). (3-0) Cr. S. S. Prereq: Credit or enrollment in PHYS 322, PHYS 365, and PHYS 490
Review of wave and electromagnetic theory; topics selected from: reflection/ refraction, interference, geometrical optics, Fourier analysis, dispersion, coherence, Fraunhofer and Fresnel diffraction, holography, quantum optics, nonlinear optics. Nonmajor graduate credit.

E E 498. Cooperative Education.
Cr. R. Repeatable. F.S. SS. Prereq: E E 398, permission of department and Engineering Career Services
Third and subsequent professional work periods in the cooperative education programs. Students must register for this course before commencing work.

Courses primarily for graduate students, open to qualified undergraduates:

(Cross-listed with CPR E). (3-3) Cr. 4. F. Prereq: E E 435

(Cross-listed with CPR E). (3-3) Cr. 4. Prereq: E E 435, Credit or Registration for E E 501
Theory, design and applications of power management and regulation circuits (Linear and switching regulators, battery chargers, and reference circuits) including; Architectures, Performance metrics and characterization, Noise and stability analysis, Practical implementation and on-chip integration issues, design considerations for portable, wireless, and RF SoCs.

E E 505. CMOS and BiCMOS Data Conversion Circuits.
Theory, design and applications of data conversion circuits (A/D and D/A converters) including: architectures, characterization, quantization effects, conversion algorithms, spectral performance, element matching, design for yield, and practical comparators, implementation issues.
E E 506. Design of CMOS Phase-Locked Loops. (Cross-listed with CPR E). (3-3) Cr. 4. Prereq: E E 435 or E E 501 or instructor approval
Analysis and design of phase-locked loops implemented in modern CMOS processes including: architectures, performance metrics, and characterization; noise and stability analysis; and design issues of phase-frequency detectors, charge pumps, loop filters (passive and active), voltage controlled oscillators, and frequency dividers.

Radio frequency integrated circuits for wireless and wired communications with a focus on CMOS implementations. Discussions on fundamental concepts in RF design such as nonlinearity, sensitivity, and dynamic range will be followed with a detailed analysis and design of low-noise amplifiers, mixer, oscillators, and transceivers.

E E 508. Filter Design and Applications. (3-3) Cr. 4. Prereq: E E 501

E E 511. Modern Optical Communications. (3-0) Cr. 3. S. Prereq: E E 311

E E 512. Advanced Electromagnetic Field Theory I. (3-0) Cr. 3. F. Prereq: E E 311

E E 513. Advanced Electromagnetic Field Theory II. (3-0) Cr. 3. S. Prereq: E E 512

E E 514. Microwave Engineering. (Dual-listed with E E 414). (3-3) Cr. 4. F. Prereq: E E 230, E E 311
Principles, analyses, and instrumentation used in the microwave portion of the electromagnetic spectrum. Wave theory in relation to circuit parameters. S parameters, couplers, discontinuities, and microwave device equivalent circuits. RF amplifier design, microwave sources, optimum noise figure and maximum power designs. Microwave filters and oscillators.

E E 516. Computational Methods in Electromagnetics. (3-0) Cr. 3. S. Prereq: E E 311

E E 517. Electromagnetic Radiation, Antennas, and Propagation. (Dual-listed with E E 417). (3-3) Cr. 4. S. Prereq: E E 311

E E 518. Microwave Remote Sensing. (Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Math 265 or equivalent
Microwave remote sensing of Earth’s surface and atmosphere using satellite-based or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.

E E 519. Magnetism and Magnetic Materials. (Cross-listed with M S E). (3-0) Cr. 3. F. Prereq: E E 311, MAT E 211 or E E 271 or E E 272 or PHYS 364

E E 520. Selected Topics in Communications and Signal Processing. (3-0) Cr. 3. Repeatable

E E 521. Advanced Communications. (3-0) Cr. 3. F. Prereq: E E 422. Coreq: E E 523

E E 523. Random Processes for Communications and Signal Processing. (3-0) Cr. 3. Prereq: E E 522, MATH 317
Axioms of probability; Repeated trials; Functions of a random variable and multiple random variables: covariance matrix, conditional distribution, joint distribution, moments, and joint moment generating function; Mean square estimation; stochastic convergence; Some important stochastic processes: Random walk, Poisson, Wiener, and shot noise; Markov chains; Power spectral analysis; Selected applications.

E E 524. Digital Signal Processing. (3-0) Cr. 3. F. Prereq: E E 322, E E 424, MATH 317

E E 527. Detection and Estimation Theory. (3-0) Cr. 3. S. Prereq: E E 422

E E 528. Digital Image Processing. (3-0) Cr. 3. S. Prereq: E E 322, E E 424
Review of sampling, linear algebra and probability. Classical image processing topics such as image sampling and quantization, image transforms (2D Fourier, KLT, DCT, etc), image enhancement, restoration and filtering. Image analysis topics including edge detection, segmentation, registration and tracking (uses least squares estimation, EM, Kalman filter). Medical image reconstruction from tomographic projections (Radon transform, Fourier slice theorem and reconstruction algorithms using them) and Magnetic Resonance Imaging (MRI). Basic introduction to image and video compression methods.

E E 530. Selected Topics in Electronics, Microelectronics and Photonics. (3-0) Cr. 3. Repeatable. Prereq: E E 332

E E 532. Microelectronics Fabrication Techniques. (Dual-listed with E E 432). (Cross-listed with MAT E). (2-4) Cr. 4. Prereq: PHYS 222, MATH 267. E E 332 or MAT E 331 recommended
Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).
(Cross-listed with PHYS). (3-3) Cr. 4. Prereq: E E 311 and E E 332  
Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic  
structures, crystal structure, energy bands, equilibrium carrier concentration and  
doping, excess carriers and recombination, carrier transport at low and high  
fields, space charge limited current, photo-conductivity in solids, phonons, optical  
properties, amorphous semiconductors, heterostructures, and surface effects.  
Laboratory experiments on optical properties, carrier lifetimes, mobility, defect  
density, doping density, photo-conductivity, diffusion length of carriers.  

(Cross-listed with PHYS). (3-3) Cr. 3. Prereq: E E 535  
P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers,  
heterojunctions, bipolar transistors, field-effect transistors, negative-resistance  
devices and optoelectronic devices.  

E E 538. Optoelectronic Devices and Applications.  
(Dual-listed with E E 438). (3-0) Cr. Prereq: E E 311 or E E 332  
Transmission and reflection of electromagnetic plane waves. Propagation in dielectric  
and fiber optic waveguides. Led and laser operating principles and applications.  
Photodetectors and solar cells. Optical modulation and switching.  

(Cross-listed with M S E). (3-0) Cr. 3. Prereq: E E 332 or MAT E 331 or PHYS 322  
Review of classical and quantum mechanical descriptions of electrons in solids,  
bond theory, metallic conduction, lattice vibrations, semiconductors, semiconductor  
devices, dielectrics, polarization, dielectric relaxation, crystal anisotropy,  
ferroelectricity, piezoelectricity, superconductivity, magnetism, device applications.  

E E 545. Artificial Neural Networks.  
(3-0) Cr. 3. F. Prereq: E E 324  
Introduction to the fundamentals of artificial neural networks (ANNs). Theory  
and practical implementation of networks. ANNs for pattern recognition, function  
approximation, prediction. Activation functions, neural net architectures, supervised  
and unsupervised learning. Various neural network methods and architectures.  

E E 547. Pattern Recognition.  
(3-0) Cr. 3. F. Prereq: E E 324  
Mathematical formulation of pattern recognition problems and decision functions.  
Statistical approaches: Bayes classifier, probability density function estimation and  
expectation minimization. Clustering (supervised and unsupervised), learning,  
and neural network algorithms. Fuzzy recognition systems. Feature selection systems.  
Classifier comparison. Current applications.  

E E 553. Steady State Analysis.  
(3-0) Cr. 3. F. Prereq: E E 456, E E 457  
Power flow, economic dispatch, unit commitment, electricity markets, automatic  
generation control, sparse matrix techniques, interconnected operation, voltage  
control.  

E E 554. Power System Dynamics.  
(3-0) Cr. 3. S. Prereq: E E 456, E E 457, E E 475  
Dynamic performance of power systems with emphasis on stability. Modeling of  
system components and control equipment. Analysis of the dynamic behavior of the  
system in response to small and large disturbances.  

(3-0) Cr. 3. Prereq: E E 455  
Transient models of distribution components, automated system planning and  
distribution automation, surge protection, reliability, power quality, power electronics  
and intelligent systems applications.  

(3-0) Cr. 3. Prereq: E E 452  
Converter topologies, AC/DC, DC/DC, DC/AC, AC/AC. Converter applications to  
do motor drives, power supplies, AC motor drives, power system utility applications (var  
compensators) and power quality.  

E E 559. Electromechanical Wing Energy Conversion and Grid Integration.  
(Dual-listed with E E 459). (3-0) Cr. 3. Prereq: Credit or enrollment in E E 452, E E 456  
Summary of industry status and expected growth; power extraction from the  
air stream; operation and modeling of electric machines, and power electronics  
topologies for wind energy conversion; analysis of machine-grid power electronic  
circuits, controller interface, and collector (distribution) networks; treatment of  
harmonics, flicker, over/under-voltages, filters, low-voltage ride-through, and reactive  
compensation; delaying effects on transmission expansion, planning and grid  
operation and coordination including variability, frequency control, reserves, and  
electricity markets; overview of storage technologies and hybrid configurations.  
Nonmajor graduate credits.  

E E 565. Systems Engineering and Analysis.  
(Cross-listed with AER E, I E). (3-0) Cr. 3. Prereq: Coursework in basic statistics  
Introduction to organized multidisciplinary approach to designing and developing  
systems. Concepts, principles, and practice of systems engineering as applied to  
large integrated systems. Life cycle costing, scheduling, risk management, functional  
analysis, conceptual and detail design, test and evaluation, and systems engineering  
planning and organization. Not available for degrees in industrial engineering.  

(Cross-listed with AER E). (3-0) Cr. 3. S. Prereq: E E 565  
Avionics functions. Applications of systems engineering principles to avionics. Top  
down design of avionics systems. Automated design tools.  

E E 570. Systems Engineering Analysis and Design.  
(3-0) Cr. 3. Prereq: E E 475, E E 577  
Selected topics in abstract algebra, linear algebra, real analysis, functional analysis,  
and optimization methods in electrical engineering.  

E E 571. Introduction to Convex Optimization.  
(3-0) Cr. 3.  
Introduction to convex optimization problems emerging in electrical engineering.  
Efficiently solving convex optimization problems with the use of interior point  
algorithms software. Review of linear algebra, convex functions, convex sets, convex  
optimization problems, duality, disciplined convex programming, applications to  
optimal filtering, estimation, control and resources allocations, sensor network,  
distributed systems.  

(Cross-listed with AER E, MATH, M E). (3-0) Cr. 3. F. Prereq: E E 324 or AER E 331  
or M E 370 or M E 411 or MATH 341  
Elementary notions of probability. Random processes. Autocorrelation and spectral  
functions. Estimation of spectrum from finite data. Response of linear systems  
to random inputs. Discrete and continuous Kalman filter theory and applications.  
Smoothing and prediction. Linearization of nonlinear dynamics.  

E E 574. Optimal Control.  
(Cross-listed with AER E, MATH, M E). (3-0) Cr. 3. S. Prereq: E E 577  
The optimal control problem. Variational approach. Pontryagin's principle, Hamilton-  
Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum  
energy control systems. The regulator problem. Structures and properties of optimal  
controls.  

E E 575. Introduction to Robust Control.  
(Cross-listed with MATH, AER E, M E). (3-0) Cr. 3. Prereq: E E 577  
Introduction to modern robust control. Model and signal uncertainty in control  
systems. Uncertainty description. Stability and performance robustness to  
uncertainty. Solutions to the H2, Hoo, and H1 control problems. Tools for robustness  
analysis and synthesis.  

(Cross-listed with AER E, MATH, M E). (3-0) Cr. 3. F. Prereq: E E 475 or AER E 432  
or M E 411 or MATH 415; and MATH 267  
Sampled data, discrete data, and the z-transform. Design of digital control systems  
using transform methods: root locus, frequency response and direct design methods.  
Design using state-space methods. Controllability, observability, pole placement,  
state estimators. Digital filters in control systems. Microcomputer implementation  
of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital  
control systems. Simulation of digital control systems.  

E E 577. Linear Systems.  
(Cross-listed with AER E, MATH, M E). (3-0) Cr. 3. F. Prereq: E E 324 or AER E 331  
or MATH 415; and MATH 307  
Linear algebra review. Least square method and singular value decomposition.  
State space modeling of linear continuous-time systems. Solution of linear systems.  
Controllability and observability. Canonical description of linear equations. Stability  
of linear systems. State feedback and pole placements. Observer design for linear  
systems.  

(Cross-listed with AER E, MATH, M E). (3-0) Cr. 3. S. Prereq: E E 577  
Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold  
theory. Lyapunov stability. Absolute stability of feedback systems. Input-output  
stability. Passivity theory and feedback linearization. Nonlinear control design  
techniques.  

358 Colleges and Curricula

Courses for graduate students:

E E 653. Advanced Topics in Electric Power System Engineering. Cr. 3. Repeatable. Prereq: Permission of instructor Advanced topics of current interest in electric power system engineering.

E E 674. Advanced Topics in Systems Engineering. (3-0) Cr. 3. Repeatable. Prereq: Permission of instructor Advanced topics of current interest in the areas of control theory, stochastic processes, digital signal processing, and image processing.

E E 697. Engineering Internship. (Cross-listed with CPR E). Cr. R. Repeatable. One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

Courses

Courses primarily for undergraduates:

ENGR 104. LEAD Program Orientation. (1-0) Cr. 1. F. Orientation for LEAD Learning/Living Community participants. Introduction to college and university resources, tools and techniques to promote academic, professional and social/cultural development and success. Focus on building support networks with peers, faculty, and staff. Introduction to core engineering competencies including but not limited to initiative, communication, teamwork, and cultural adaptability. Offered on a satisfactory-fail basis only.

ENGR 105. LEAD Program Seminar. (1-0) Cr. 1. S. Seminar for LEAD Learning/Living Community participants. Focus on professional development and exposure to various engineering disciplines through hands-on lab experiences, industry visits and networking opportunities with alumni, faculty, and staff. Development of core competencies: engineering/technical knowledge, communication and teamwork. Offered on a satisfactory-fail basis only.

ENGR 131. Learning Community Seminar. Cr. R. F.S. Peer-mentored review of course topics in engineering undeclared learning communities. Offered on a satisfactory-fail basis only.

ENGR 150. Foundations of Leadership Development and Learning. (1-0) Cr. 1. F.S. Prereq: ELP students only Leadership development with focus on global context and awareness of events shaping the context. Exposure to theory of leadership with examples. Necessary characteristics of a leader, and strategies for leadership skills development. Exposure to non-traditional career paths for engineers. Outline of personalized leadership development. Offered on a satisfactory-fail basis only.
Credits for creative component will be obtained by registering for E M 599 Creative Component. A written report and an oral presentation will be given to the student’s graduate committee.

The normal prerequisite to major graduate work is the completion of a curriculum substantially equivalent to that required of undergraduate students in engineering at this university. However, because of the diversity of interests in graduate work in engineering mechanics, it is possible for a student to qualify for graduate study even though undergraduate or prior graduate training has been in a discipline other than engineering—e.g., physics or mathematics.

Courses

Courses primarily for undergraduates:

E M 274. Statics of Engineering. (3-0) Cr. 3. F.S.S.S. Prereq: Credit or enrollment in MATH 166; credit or enrollment in PHYS 111 or PHYS 221
Vector and scalar treatment of coplanar and noncoplanar force systems. Resultants, equilibrium, friction, centroids, second moments of areas, principal second moments of area, radius of gyration, internal forces, shear and bending moment diagrams.

E M 274H. Statics of Engineering: Honors. (3-0) Cr. 3. F.S.S.S. Prereq: Credit or enrollment in MATH 166; credit or enrollment in PHYS 111 or PHYS 221
Vector and scalar treatment of coplanar and noncoplanar force systems. Resultants, equilibrium, friction, centroids, second moments of areas, principal second moments of area, radius of gyration, internal forces, shear and bending moment diagrams.

E M 324. Mechanics of Materials. (3-0) Cr. 3. F.S.S.S. Prereq: E M 274
Plane stress, plane strain, stress-strain relationships, and elements of material behavior. Application of stress and deformation analysis to members subject to centric, torsional, flexural, and combined loadings. Elementary considerations of theories of failure, buckling. Nonmajor graduate credit.

E M 327. Mechanics of Materials Laboratory. (0-2) Cr. 1. F.S.S.S. Prereq: E M 324

E M 345. Dynamics. (3-0) Cr. 3. F.S.S.S. Prereq: E M 274, credit or enrollment in MATH 266 or MATH 267
Particle and rigid body kinematics, Newton’s laws of motion, kinetics of plane motion, rigid body problems using work-energy, linear, and angular impulse-momentum principles, vibrations. Nonmajor graduate credit.

E M 350. Introduction to Nondestructive Evaluation Engineering. (3-0) Cr. 3. S. Prereq: E M 324, MATH 266 or MATH 267, PHYS 222
The physics of ultrasonic, eddy current, and x-ray testing. Introduction to linear system concepts, wave propagation, electromagnetics and radiation. Models of the generation, scattering and reception of waves in ultrasonics, the electrical impedance changes of eddy current testing, and image formation process for x-rays. Pattern recognition methods for the interpretation of measured responses. Nonmajor graduate credit.

E M 362. Principles of Nondestructive Testing. (Cross-listed with MAT E). (3-0) Cr. 3. S. Prereq: PHYS 112 or PHYS 222
Radiography, ultrasonic testing, magnetic particle inspection, eddy current testing, dye penetrant inspection, and other techniques. Physical bases of tests; materials to which applicable; types of defects detectable; calibration standards, and reliability safety precautions. Nonmajor graduate credit.

E M 362L. Nondestructive Testing Laboratory. (Cross-listed with MAT E). (0-3) Cr. 1. S. Prereq: Credit or enrollment in MAT E 362
Application of nondestructive testing techniques to the detection and sizing of flaws in materials and to the characterization of material’s microstructure. Included are experiments in hardness, dye penetrant, magnetic particle, x-ray, ultrasonic and eddy current testing. Field trips to industrial laboratories. Nonmajor graduate credit.

E M 378. Mechanics of Fluids. (2-2) Cr. 3. F.S.S.S. Prereq: E M 274

Introduction of different aspects of measuring deformation, strains, and stress for practical engineering problems. Strain gage theory and application. Selected laboratory experiments. Nonmajor graduate credit.

E M 424. Intermediate Mechanics of Materials. (3-0) Cr. 3. S. Prereq: E M 324

E M 425. Introduction to the Finite Element Method. (3-0) Cr. 3. S. Prereq: E M 324, MATH 266 or MATH 267
Introduction of finite element analysis through applications to one-dimensional, steady-state problems such as elastic deformation, heat and fluid flow, consolidation, beam bending, and mass transport. Transient heat conduction and wave propagation. Two-dimensional triangular and quadrilateral elements. Plane problems of torsion, thermal and potential flow, stress analysis. Simple computer programs for one- and two-dimensional problems. Nonmajor graduate credit.

E M 451. Engineering Acoustics. (Cross-listed with M E). (2-2) Cr. 3. Alt. S., offered 2012. Prereq: PHYS 221 and MATH 266 or MATH 267

E M 490. Independent Study. Cr. arr. Repeatable. Prereq: Permission of instructor

E M 490H. Independent Study: Honors. Cr. arr. Repeatable. Prereq: Permission of instructor

Courses primarily for graduate students, open to qualified undergraduates:

E M 510. Continuum Mechanics. (3-0) Cr. 3. F. Prereq: MATH 385

E M 514. Advanced Mechanics of Materials. (Cross-listed with AER E). (3-0) Cr. 3. F. Prereq: E M 324

Fundamental mechanics of linear elasticity, formulation and solution of simple elastostatic boundary value problems. Kinematics of small deformations, constitutive equations for isotropic and anisotropic media. Field equations for elastic solids, plane strain/plane stress and some classic analytical solutions such as Boussinesq, Hertz, Kirsch, Lamé, and Mitchell. Stress functions and potential methods and introduction to finite elements.

Fundamental concepts for force, displacement, stress, and strain measurements. Strain gages. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro and nano scale regimes.
(3-0) Cr. 3. F. Prereq: MATH 385  

E M 525. Finite Element Analysis.  
(Cross-listed with AER E), (3-0) Cr. 3. S. Prereq: E M 425, MATH 385  
Variational and weighted residual approach to finite element equations. Emphasis on two- and three-dimensional problems in solid mechanics. Isoparametric element formulation, higher order elements, numerical integration, imposition of constraints and penalty, convergence, and other more advanced topics. Use of two- and three-dimensional computer programs. Dynamic and vibrational problems, eigenvalues, and time integration. Introduction to geometric and material nonlinearities.

(3-0) Cr. 3. Alt. F., offered 2012. Prereq: E M 514 or E M 516  

E M 543. Introduction to Random Vibrations and Nonlinear Dynamics.  
(Cross-listed with M E), (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 444  
Vibrations of continuous systems. Nonlinear vibration phenomena, perturbation expansions; methods of multiple time scales and slowly-varying amplitude and phase. Characteristics of random vibrations; random processes, probability distributions, spectral density and its significance, the normal or Gaussian random process. Transmission of random vibration, response of simple single and two-degree-of-freedom systems to stationary random excitation. Fatigue failure due to random excitation.

E M 548. Advanced Engineering Dynamics.  
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: E M 345, MATH 266 or MATH 267  
3-D kinematics and dynamics of particles and rigid bodies. Coordinate systems, calculus of variations. Lagrange’s equations with constraints, modified Euler’s equations, torque-free motion of rigid bodies in 3-D, moment equations with constraints.

(Cross-listed with M S E), (3-2) Cr. 4. S. Prereq: E M 324, MATH 385  
Principles of five basic NDE methods and their application in engineering inspections. Materials behavior and simple failure analysis. NDE reliability, and damage-tolerant design. Advanced methods such as acoustic microscopy, laser ultrasonics, thermal waves, computed tomography, and thermoelectrics are analyzed. Laboratory experiments on all basic methods: ultrasonics, eddy currents, x-ray, liquid penetrants, magnetic testing, and visual inspection are performed.

E M 552. Advanced Acoustics.  
(Cross-listed with M E), (3-0) Cr. Alt. F., offered 2011. Prereq: E M 451  
Theoretical acoustics: wave propagation in fluids; acoustic radiation, diffraction and scattering; nonlinear acoustics; radiation force; cavitation; and ray acoustics.

E M 564. Fracture and Fatigue.  
(Cross-listed with M S E, M E, AER E). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: E M 324 and either MAT E 216 or MAT E 273 or MAT E 392. Undergraduates: Permission of instructor  
Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

(Cross-listed with M E), (3-0) Cr. 3. S. Prereq: EM 510 or EM 516 or EM 514  

(Cross-listed with M S E, AER E), (3-0) Cr. 3. Alt. S., offered 2012. Prereq: E M 324  

E M 570. Wind Engineering.  
(Cross-listed with AER E), (3-0) Cr. 3. Alt. S., offered 2013. Prereq: E M 378, E M 345  
Atmospheric circulations, atmospheric boundary layer wind, bluff-body aerodynamics, aeroelastic phenomena, wind-tunnel and full-scale testing, wind-load code and standards, effect of tornado and thunderstorm winds, design applications.

Cr. 1-4. Repeatable. Prereq: Permission of instructor  
Cr. 1-4. Repeatable. Prereq: Permission of instructor  
Cr. 1-4. Repeatable. Prereq: Permission of instructor  
Cr. 1-4. Repeatable. Prereq: Permission of instructor  
Cr. 1-4. Repeatable. Prereq: Permission of instructor  
E M 599. Creative Component.  
Cr. arr. Repeatable.

Courses for graduate students:

Cr. 1-6. Repeatable. Prereq: Permission of instructor  
Cr. 1-6. Repeatable. Prereq: Permission of instructor  
Cr. 1-6. Repeatable. Prereq: Permission of instructor  
Cr. 1-6. Repeatable. Prereq: Permission of instructor  
Cr. 1-6. Repeatable. Prereq: Permission of instructor  
Cr. 1-6. Repeatable. Prereq: Permission of instructor  
Cr. 1-6. Repeatable. Prereq: Permission of instructor  
E M 697. Engineering Internship.  
Cr. R. Repeatable. Prereq: Permission of DOGE (Director of Graduate Education), graduate classification  
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

E M 699. Research.  
Cr. arr. Repeatable.

Engineering Studies

Interdepartmental minor

The College of Engineering offers an undergraduate minor in engineering studies for non-engineering students designed to improve their understanding of engineering. This minor is not intended to train non-engineering students to do the work of practicing, degree-holding engineers. Rather, students who complete the minor in engineering studies will be able to work more effectively in their primary field by better appreciating the nature, capabilities, and limitations of engineering.

The minor in engineering studies is structured so that no student will be excluded due to insufficient preparation in mathematics or the sciences. The required courses in
the minor and many of the elective courses are specifically designed to offer a range of prerequisites, so that students from all curricula will find coursework that supports an accessible and intellectually stimulating program of study.

The minor in engineering studies will be awarded only to students whose degree program is not in engineering. Twelve additional credits from an approved list of eligible courses. Some of these approved courses are taught by the College of Engineering; additional courses are taught by other colleges. A minimum of six of those 12 credits must be courses that bear the designation “E St” or are courses offered by engineering departments. Eligible courses will include those 200-level and above courses offered by the departments in the College of Engineering that are expressly designated by that department’s curriculum committee for use in the minor in engineering studies. A minimum of 6 credits in the minor must be 300-level or above (university requirement).

Courses
No courses found for E ST

Industrial Engineering
Administered by the Department of Industrial and Manufacturing Systems Engineering

Undergraduate Study
For the undergraduate curriculum in industrial engineering leading to the degree bachelor of science. The Industrial Engineering Program of this curriculum is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/.

The Industrial Engineering (IE) Program educates its future graduates to accomplish its educational objectives in their early careers. Specifically, the IE curriculum prepares its majors so that, within a few years after graduation, graduates’ attainments are
1. industrial engineering decisions that result in well-reasoned, value-added solutions.
2. communications with stakeholders that are informative, persuasive, and constructive.
3. contributions to team goals through effective team interactions and leadership.
4. new skills and knowledge that advance professional practice and enable career advancement.

Details on industrial engineering program outcomes that foster the attainment of these objectives are available at appropriate sections of: www.imse.iastate.edu

The industrial engineering undergraduate curriculum provides students with fundamental knowledge in mathematics and science, engineering science, social science, and humanities as well as professional industrial engineering course work. Management electives provide students with an opportunity to become familiar with modern business practices that they will encounter in their career. A senior capstone design course provides students with an opportunity to solve open-ended industrial problems with an industrial partner. The cooperative education program provides students with real world experience in the profession and a good perspective on career choices. Students are encouraged to participate in international experiences through exchange programs and international internships.

Qualified juniors and seniors interested in graduate studies may apply to the Graduate College to concurrently pursue both B.S. and M.S. or M.Eng. degrees in Industrial Engineering, or B.S. and M.B.A. degrees.

Engineering Sales
The Engineering Sales Minor is multidisciplinary and open to undergraduates in the College of Engineering. The minor is earned by completing 15 credits including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>I E 450</td>
<td>Technical Sales for Engineers I</td>
<td>3</td>
</tr>
<tr>

</tbody>
</table>

The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Graduate Study
The department offers programs for the degrees master of engineering, master of science and doctor of philosophy with a major in industrial engineering. A formal minor is available at the M.S. and Ph.D. levels to graduate students having a major in another department. The M.Eng. degree consists of coursework designed to improve professional expertise in industrial engineering. The M.S. and Ph.D. degrees are designed to improve the student’s capability to conduct research as well as their professional expertise.

The prerequisite to major graduate work is the completion of a curriculum similar to that required of undergraduate students in engineering at this institution. Because of the diversity of industrial engineering topics, it is possible for a student to qualify for graduate study even though undergraduate or prior graduate training has been in a discipline other than engineering; e.g., mathematics or physics. However, completion of a calculus sequence through differential equations is required.

With the help of a program of study committee, a graduate student develops an educational program in areas within industrial engineering. Typical areas of concentration include ergonomics/human factors, engineering management, human computer interfaces, advanced manufacturing systems, operations research, and information engineering.

The department also offers master of engineering degrees in systems engineering and engineering management. These degrees are designed to prepare engineers for leadership/management positions within their organizations. Students gain the knowledge and skills necessary to manage and develop a highly qualified and trained staff of engineers, scientists, and technicians in a rapidly changing technological environment.

The department offers a certificate in advanced manufacturing, in collaboration with the mechanical engineering department, which consists of four graduate courses selected from an approved list in both departments.

For additional information about graduate degree programs, admission criteria, and procedures refer to https://www.imse.iastate.edu/graduate-program/.

Curriculum in Industrial Engineering
Administered by the Department of Industrial and Manufacturing Systems Engineering.

Leading to the degree bachelor of science.

Total credits required: 122 cr. See also Basic Program and Special Programs. Transfer credit with a grade less than a C will not be approved for application to the program.

International Perspectives: 3 cr.
U.S. Diversity: 3 cr.

Communication Proficiency/Library requirements: 7 cr.

Social Sciences and Humanities Electives: 12 cr.

Six of twelve credits must be from 200-level or above courses. Six credits must be sequential or related courses.
Basic Program: 27 cr. 3,4
CHEM 167 General Chemistry for Engineering Students 4
ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, Visual, and Electronic Composition (see above for grade requirements) 3
ENGR 101 Engineering Orientation R
I E 148 Information Engineering 3
LI 160 Information Literacy 1
MATH 165 Calculus I 4
MATH 166 Calculus II 4
PHYS 221 Introduction to Classical Physics I (see Basic Program rule) 5
Total Credits 27

Math and Physical Science: 17 cr.
MATH 265 Calculus III 4
MATH 267 Elementary Differential Equations and Laplace Transforms 4
PHYS 222 Introduction to Classical Physics II 5
STAT 231 Probability and Statistical Inference for Engineers 4
Total Credits 17

Industrial Engineering Core: 31 cr. 4
I E 248 Engineering System Design, Manufacturing Processes and Specifications 3
I E 271 Applied Ergonomics and Work Design 3
I E 305 Engineering Economic Analysis 3
I E 312 Optimization 3
I E 413 Stochastic Modeling, Analysis and Simulation 4
I E 341 Production Systems 3
I E 348 Solidification Processes 3
I E 361 Statistical Quality Assurance 3
I E 441 Industrial Engineering Design 3
I E 448 Manufacturing Systems Engineering 3
Total Credits 31

Other Remaining Courses: 29 cr. 2
MAT E 273 Principles of Materials Science and Engineering 3
E M 274 Statics of Engineering 3
E E 442 Introduction to Circuits and Instruments 2
M E 231 Engineering Thermodynamics I 3
Focus Electives 6
Management Electives 6
Engineering Topic Electives 6
Total Credits 29

Seminar/Co-op/Internships:
I E 101 Industrial Engineering Profession, R cr. Optional co-op/Internship courses.
1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also allowed by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.
2. For Social Sciences and Humanities, Focus, Management, and Engineering Topic Electives, choose from the department approved list.
3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.
4. 2.00 required including transfer courses.
5. 4-Year Plan of Study for Industrial Engineering. (https://nextcatalog.registrar.iastate.edu/planofstudy/engineering/industrialengineeringbs)

Note: The Industrial and Manufacturing Systems Engineering Department requires a grade of C or better for any transfer credit course that is applied to the degree program.

Courses
Courses primarily for undergraduates:

I E 101. Industrial Engineering Profession.
Cr. R. F.S.
(1-0) Introduce students to the industrial engineering profession, its scope, industrial engineering tools, and future trends.

I E 148. Information Engineering.

(3-0) Cr. 3. S. Prereq: I E 248; credit or enrollment in I E 271. Study of system improvement methods and strategies. Specific areas of lean system improvements include continuous improvement, setup reduction, workplace organization, inventory and waste minimization. Methods and strategies to analyze and quantify the impact of changes.

(2-2) Cr. 3. F. Prereq: MATH 166 and PHYS 221. Credit or enrollment in I E 101 and MAT E 273. Introduction to metrology, engineering drawings and specifications. Engineering methods for designing and improving systems. Theory, applications, and quality issues related to machining processes.

(3-0) Cr. 3. S. Prereq: PHYS 221. Basic concepts of ergonomics and work design. Their impact on worker and work place productivity, and cost. Investigations of work physiology, biomechanics, anthropometry, work methods, and their measurement as they relate to the design of human-machine systems.

I E 296. Cooperative Education.
Cr. R. F.S.SS. Prereq: Permission of department and Engineering Career Services. First professional work period in the cooperative education program. Students must register for this course before commencing work.

I E 305. Engineering Economic Analysis.
(3-0) Cr. 3. F.S.SS. Prereq: MATH 166. Economic analysis of engineering decisions under uncertainty. Financial engineering basics including time value of money, cash flow estimation, and asset evaluation. Make versus buy decisions. Comparison of project alternatives accounting for taxation, depreciation, inflation, and risk. Nonmajor graduate credit.

I E 312. Optimization.
(3-0) Cr. 3. F. Prereq: Credit or enrollment in MATH 267. Concepts, optimization and analysis techniques, and applications of operations research. Formulation of mathematical models for systems, concepts, and methods of improving search, linear programming and sensitivity analysis, network models, and integer programming. Nonmajor graduate credit.

I E 341. Production Systems.
(3-0) Cr. 3. F. Prereq: STAT 231; credit or enrollment in I E 312. Introduction of key concepts in the design and analysis of production systems. Topics include inventory control, forecasting, material requirement planning, project planning and scheduling, operations scheduling, and other production systems such as Just-In-Time (JIT), warehousing, and global supply chains. Nonmajor graduate credit.

I E 348. Solidification Processes.
(2-2) Cr. 3. S. Prereq: I E 248 and MAT E 273. Theory and applications related to metal casting, welding, polymer processing, powder metallurgy, and composites manufacturing. Nonmajor graduate credit.

I E 396. Summer Internship. 
Cr. R. Repeatable. SS. Prereq: Permission of department and Engineering Career Services 
Summer professional work period.

I E 397. Engineering Internship. 
Cr. R. Repeatable. F.S. Prereq: Permission of department and Engineering Career Services 
Professional work period for a maximum of one semester per academic year. Offered on a satisfactory-fail basis only.

I E 398. Cooperative Education. 
Cr. R. F.S.SS. Prereq: I E 298, permission of department and Engineering Career Services 
Second professional work period in the cooperative education program. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

I E 403. Introduction to Sustainable Production Systems. 
(Dual-listed with I E 503). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: Credit or enrollment in I E 341 
Quantitative introduction of sustainability concepts in production planning and inventory control. Review of material recovery (recycling) and product/component recovery (remanufacturing) from productivity perspectives. Sustainability rubrics ranging from design and process to systems. Application to multi-echelon networks subject to forward/backward flow of material and information. Closed-loop supply chains. Comparative study of sustainable vs. traditional models for local and global production systems.

I E 413. Stochastic Modeling, Analysis and Simulation. 
(4-0) Cr. 4. F. Prereq: MATH 267, STAT 231 
Development and analysis of simulation models using a simulation language. Application to various areas of manufacturing and service systems such as assembly, material handling, and customer queues. Utilizing model output to make important business decisions. Fitting of data to statistical distributions. Introduction to Markov processes and other queueing models. Nonmajor graduate credit.

I E 441. Industrial Engineering Design. 
(1-6) Cr. 3. F.S. Prereq: I E 248, I E 271, I E 361; credit or enrollment in I E 341, I E 413, and I E 448 
A large, open-ended design project related to an enterprise. Application of engineering design principles including problem definition, analysis, synthesis, and evaluation. Nonmajor graduate credit.

I E 446. Geometric Variability in Manufacturing. 
(Dual-listed with I E 546). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: I E 348, or MAT E 216, or M E 324 
Assessment, accommodation, and control of geometric variability of manufacturing processes. Use of CMMs, vision and scanning systems, and profilometers. Techniques to successfully accommodate variation through design of product, tooling or process plan including plastic injection molding, metalcasting, welding, machining, powder metallurgy. Methodologies to control geometric variability.

(3-0) Cr. 3. S. Prereq: I E 248, I E 362 
Fixturing and tooling requirements for manufacturing process planning, geometric dimensioning and tolerancing, computer aided inspection, cellular and flexible manufacturing, and facility layout. Lean manufacturing principles and controlled flow production. Nonmajor graduate credit.

(Dual-listed with I E 549). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: Prereq: I E 248 or similar manufacturing engineering course, MATH 265. 
Representation and interpretation of curves, surfaces and solids. Parametric curves and surfaces and solid modeling. Use of CAD software and CAD/CAM integration. Computer numerical control, CNC programming languages, and process planning.

I E 450. Technical Sales for Engineers I. 
(3-0) Cr. 3. F. Prereq: Credit or enrollment in I E 305. 
Sales process methodology, techniques for building professional relationships, sales automation software, prospecting and account development, market analysis and segmentation, responding to RFQ’s and RFP’s in written and verbal form. Developing technical value propositions and competitive positioning, evaluating organizational decision processes and people, technical marketing strategies, sales closing strategies. Nonmajor graduate credit.

I E 451. Technical Sales for Engineers II. 
(3-0) Cr. 3. S. Prereq: I E 450 
Case studies and experiential lessons on the development and application of technical sales strategies. Specific topics include developing pricing and distribution strategies, managing a sales staff and channel, developing sales teams and global sales plans, bid and negotiation strategies, time management skills, and implementing sales automation technologies. Nonmajor graduate credit.

I E 466. Multidisciplinary Engineering Design. 
(Cross-listed with A E, AER E, CPR E, E E, ENGR, M E, MAT E). (1-4) Cr. 3. Repeatable. 
F. S. Prereq: Student must be within two semesters of graduation and receive permission of instructor 
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

I E 467. Multidisciplinary Engineering Design II. 
(Cross-listed with AER E, CPR E, E E, ENGR, MAT E, M E). (1-4) Cr. 3. Repeatable, 
maximum of 2 times. F. S. Prereq: Student must be within two semesters of graduation or receive permission of instructor 
Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

I E 481. e-Commerce Systems Engineering. 
(Dual-listed with I E 591). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: I E 148 
Design, analysis, and implementation of e-commerce systems. Information infrastructure, enterprise models, enterprise processes, enterprise views. Data structures and algorithms used in e-commerce systems, SQL, exchange protocols, client/server model, web-based views.

I E 483. Knowledge Discovery and Data Mining. 
(Dual-listed with I E 583). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: I E 148, I E 312, and STAT 231 
Introduction to data warehouses and knowledge discovery. Techniques for data mining, including probabilistic and statistical methods, genetic algorithms and neural networks, visualization techniques, and mathematical programming. Advanced topics include web-mining and mining of multimedia data. Case studies from both manufacturing and service industries. A computing project is required. Nonmajor graduate credit.

I E 490. Independent Study. 
Cr. 1-5. Repeatable. Prereq: Senior classification, permission of instructor 
Independent study and work in the areas of industrial engineering design, practice, or research.

I E 490A. Independent Study: Manufacturing. 
Cr. 1-5. Repeatable. Prereq: Senior classification, permission of instructor 
Independent study and work in the areas of industrial engineering design, practice, or research.

Cr. 1-5. Repeatable. Prereq: Senior classification, permission of instructor 
Independent study and work in the areas of industrial engineering design, practice, or research.

Cr. 1-5. Repeatable. Prereq: Senior classification, permission of instructor 
Independent study and work in the areas of industrial engineering design, practice, or research.

I E 490D. Independent Study: Enterprise Computing and Information Management. 
Cr. 1-5. Repeatable. Prereq: Senior classification, permission of instructor 
Independent study and work in the areas of industrial engineering design, practice, or research.

Cr. 1-5. Repeatable. Prereq: Senior classification, permission of instructor 
Independent study and work in the areas of industrial engineering design, practice, or research.

I E 490H. Independent Study: Honors. 
Cr. 1-5. Repeatable. Prereq: Senior classification, permission of instructor 
Independent study and work in the areas of industrial engineering design, practice, or research.
Courses primarily for graduate students, open to qualified undergraduates:

Cr. R. Repeatable.
Principles and practices for research tasks at the M.S. level including proposal writing, presentations, paper preparation, and project management.

I E 503. Introduction to Sustainable Production Systems.
(Dual-listed with I E 403). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: Credit or enrollment in I E 341
Quantitative introduction of sustainability concepts in production planning and inventory control. Review of material recovery (recycling) and product/component recovery (remanufacturing) from productivity perspectives. Sustainability rubrics ranging from design and process to systems. Application to multi-echelon networks subject to forward/backward flow of material and information. Closed-loop supply chains. Comparative study of sustainable vs. traditional models for local and global production systems. A course project is required for graduate credit.

(3-0) Cr. 3. Prereq: I E 312 or MATH 307
Market-based allocation mechanisms from quantitative economic systems perspective. Pricing and costing models designed and analyzed with respect to decentralized decision processes, information requirements, and coordination. Financial Engineering Techniques. Case studies and examples from industries such as regulated utilities, semiconductor manufacturers, and financial engineering services.

I E 510. Network Analysis.
(3-0) Cr. 3. Prereq: I E 312
Formulation and solution of deterministic network flow problems including shortest path, minimum cost flow, and maximum flow. Network and graph formulations of combinatorial problems including assignment, matching, and spanning trees. Introduction to deterministic and stochastic dynamic programming.

(3-0) Cr. 3. Prereq: STAT 231
Introduction to modeling and analysis of manufacturing and service systems subject to uncertainty. Topics include the Poisson process, renewal processes, Markov chains, and Brownian motion. Applications to inventory systems, production system design, production scheduling, reliability, and capacity planning.

I E 514. Production Scheduling.
(3-0) Cr. 3. Prereq: I E 312, I E 341
Introduction to the theory of machine shop systems. Complexity results for various systems such as job, flow and open shops. Applications of linear programming, integer programming, network analysis. Enumerative methods for machine sequencing. Introduction to stochastic scheduling.

I E 519. Simulation Modeling and Analysis.
(3-0) Cr. 3. Prereq: COM S 311, STAT 401
Event scheduling, process interaction, and continuous modeling techniques. Probability and statistics related to simulation parameters including run length, inference, design of experiments, variance reduction, and stopping rules. Aspects of simulation languages.

I E 531. Quality Control and Engineering Statistics.
(Cross-listed with STAT). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: STAT 401; STAT 342 or STAT 447
Wu. Statistical methods and theory applicable to problems of industrial process monitoring and improvement. Statistical issues in industrial measurement; Shewhart, CUSUM, and other control charts; feedback control; process characterization studies; estimation of product and process characteristics; acceptance sampling, continuous sampling and sequential sampling; economic and decision theoretic arguments in industrial statistics.

I E 533. Reliability.
(Cross-listed with STAT). (3-0) Cr. 3. Alt. S., offered 2014. Prereq: STAT 342 or STAT 432 or STAT 447
Meeker. Probabilistic modeling and inference in engineering reliability; lifetime models, product limit estimator, probability plotting, maximum likelihood estimation for censored data, Bayesian methods in reliability, system reliability models, competing risk analysis, acceleration models and analysis of accelerated test data; analysis of recurrence data; planning studies to obtain reliability data.

I E 534. Linear Programming.
(3-0) Cr. 3. Prereq: I E 312

I E 537. Safety and Risk Engineering.
(3-0) Cr. 3. Prereq: STAT 231 or STAT 401

I E 541. Inventory Control and Production Planning.
(3-0) Cr. 3. Prereq: I E 341
Economic Order Quantity, dynamic lot sizing, newsboy, base stock, and (Q,r) models. Material Requirements Planning, Just-In-Time (JIT), variability in production systems, push and pull production systems, aggregate and workforce planning, and capacity management. Supply Chain Contracts.

(3-0) Cr. 3. Alt. S., offered 2014. Prereq: Undergraduate engineering degree or permission of instructor.
Materials, processes and systems required to produce the major components (blades, towers, nacelles) of megawatt scale wind turbines. Transportation, manufacturing siting and procurement decisions as it relates to these large components in an expanding industry.

I E 545. Rapid Prototyping and Manufacturing.
(3-0) Cr. 3. Prereq: I E 248 or similar manufacturing engineering course, Math 265. Undergraduates: Permission of instructor.
Introduction to rapid prototyping processes and other rapid manufacturing methodologies. Operating principles and characteristics of current and developing rapid prototyping processes. Use of rapid prototypes in product design, development, and service. Selection of rapid prototyping systems based on rapid methodologies used in manufacturing processes and rapid tooling approaches.

I E 546. Geometric Variability in Manufacturing.
(Dual-listed with I E 446). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: I E 348, or MAT E 216, or M E 324
Assessment, accommodation, and control of geometric variability of manufacturing processes. Use of CMMs, vision and scanning systems, and profilometers. Techniques to successfully accommodate variation through design of product, tooling or process plan including plastic injection molding, metalcasting, welding, machining, powder metallurgy. Methodologies to control geometric variability.

(Dual-listed with I E 449). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: I E 248 or similar manufacturing engineering course, MATH 265.
Representation and interpretation of curves, surfaces and solids. Parametric curves and surfaces and solid modeling. Use of CAD software and CAD/CAM integration. Computer numerical control, CNC programming languages, and process planning.

(3-0) Cr. 3. Prereq: I E 361
Methods for continuous quality improvement in process analysis. The systems analysis for process improvement model based on W. Edwards Deming. Quality function deployment methods. Case studies of applications to manufacturing and other heavy industries. Use of process analysis computerized programs and tools for design analysis.

I E 565. Systems Engineering and Analysis.
(Cross-listed with AER E, E E). (3-0) Cr. 3. Prereq: Coursework in basic statistics
Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test and evaluation, and systems engineering planning and organization. Not available for degrees in industrial engineering.
(3-0) Cr. 3. Prereq: I E 565
Design for reliability, maintainability, usability, supportability, producibility, disposability, and life cycle costs in the context of the systems engineering process. Students will be required to apply the principles of systems engineering to a project including proposal, program plan, systems engineering management plan, and test and evaluation plan. Not available for degrees in industrial engineering.

I E 570. Systems Engineering and Project Management. 
(3-0) Cr. 3. Prereq: Coursework in basic statistics
Systems view of projects and the processes by which they are implemented. Focuses on qualitative and quantitative tools and techniques of project management. Specific systems concepts, methodologies, and tools for effective management of both simple and complex projects. Introduction of important performance parameters for planning, cost control, scheduling, and productivity, including discussions of traditional and state of the art tools and systems.

I E 571. Occupational Biomechanics. 
(3-0) Cr. 3. Prereq: E M 274, STAT 231

(3-0) Cr. 3. Prereq: I E 577
Human factors methods applied to interface design, prototyping, and evaluation. Concepts related to understanding user characteristics, usability analysis, methods and techniques for design and evaluation of the interface. The evaluation and design of the information presentation characteristics of a wide variety of interfaces: web sites (e-commerce), computer games, information presentation systems (cockpits, instrumentation, etc.), and desktop virtual reality.

(3-0) Cr. 3. Prereq: I E 577
Investigation of the human interface to consumer and industrial systems and products, providing a basis for their design and evaluation. Discussions of human factors in the product design process: modeling the human during product use; usability; human factors methods in product design evaluation; user-device interface; safety, warnings, and instructions for products; considerations for human factors in the design of products for international use.

I E 577. Human Factors. 
(3-0) Cr. 3. Prereq: I E 271, STAT 231 or STAT 401
Physical and psychological factors affecting human performance in systems. Signal detection theory, human reliability modeling, information theory, and performance shaping applied to safety, reliability, productivity, stress reduction, training, and human/equipment interface design. Laboratory assignments related to system design and operation.

I E 581. e-Commerce Systems Engineering. 
(Dual-listed with I E 481), (3-0) Cr. 3. Alt. F., offered 2012. Prereq: I E 148 Design, analysis, and implementation of e-commerce systems. Information infrastructure, enterprise models, enterprise processes, enterprise views. Data structures and algorithms used in e-commerce systems. SQL, exchange protocols, client/server model, web-based views.

I E 582. Enterprise Modeling and Integration. 
(3-0) Cr. 3. Prereq: 3 credits in information technology or information systems
The design and analysis of enterprise models to support information engineering of enterprise-wide systems. Representation of system behavior and structure including process modeling, information modeling, and conceptual modeling. Applications in enterprise application integration, enterprise resource planning systems, product data management systems, and manufacturing execution systems.

I E 583. Knowledge Discovery and Data Mining. 
(Dual-listed with I E 483), (3-0) Cr. 3. Alt. F., offered 2012. Prereq: I E 148, I E 312, and STAT 231
Introduction to data warehouses and knowledge discovery. Techniques for data mining, including probabilistic and statistical methods, genetic algorithms and neural networks, visualization techniques, and mathematical programming. Advanced topics include web-mining and mining of multimedia data. Case studies from both manufacturing and service industries. A computing project and an additional project with more theoretical content are required.

I E 585. Requirements Engineering. 
(3-0) Cr. 3. Prereq: 3 credits in information technology or information systems
Principles and practices for requirements engineering as part of the product development process with emphasis on software systems engineering. Problem definition, problem analysis, requirements analysis, requirements elicitation, validation, specifications. Case studies using requirements engineering methods and techniques.

I E 588. Information Systems for Manufacturing. 
(3-0) Cr. 3. Prereq: I E 148, I E 448
Design and implementation of systems for the collection, maintenance, and usage of information needed for manufacturing operations, such as process control, quality, process definition, production definitions, inventory, and plant maintenance. Topics include interfacing with multiple data sources, methods to utilize the information to improve the process, system architectures, and maintaining adequate and accurate data for entities internal and external to the enterprise to achieve best manufacturing practices.

I E 590. Special Topics. 
Cr. 1-3. Repeatable.
Advanced study of a research topic in the field of industrial engineering.

I E 599. Creative Component. 
Cr. arr. Repeatable.

I E 599A. Creative Component: Industrial Engineering. 
Cr. arr. Repeatable.

Cr. arr. Repeatable.

Courses for graduate students:

Cr. R. Repeatable.
Principles and practices for conducting research at the Ph.D. level, including problem definition, proposal writing, presentations, conference proceedings, paper preparation, and project management.

(3-0) Cr. 3. Prereq: I E 513
Modeling techniques to evaluate performance and address issues in design, control, and operation of systems. Markov models of single-stage make-to-order and make-to-stock systems. Approximations for non-Markovian systems. Impact of variability on flow lines. Open and closed queueing networks.

(3-0) Cr. 3. Prereq: I E 534
Develop nonlinear models, convex sets and functions, optimality conditions, Lagrangian duality, unconstrained minimization techniques. Constrained minimization techniques covering penalty and barrier functions, sequential quadratic programming, the reduced gradient method.

I E 632. Integer Programming. 
(3-0) Cr. 3. Prereq: I E 534
Integer programming including cutting planes, branch and bound, and Lagrangian relaxation. Introduction to complexity issues and search-based heuristics.

I E 634. Computational Optimization. 
(3-0) Cr. 3. Alt. S., offered 2014. Prereq: I E 534 or equivalent.
Theory, algorithm, and computer implementation of optimization models. Simplex, Benders decomposition, computational complexity, mixed integer linear program, linear program with complementarity constraints, inverse optimization, bilevel discrete optimization. CPLEX, Matlab, and Tomlab will be used for computer implementation.

I E 642. Simultaneous Engineering in Manufacturing Systems. 
(3-0) Cr. 3. Prereq: I E 549 or ME 415
Current engineering methods for the product life cycle process. Feature-based design, computer-aided process planning, and data-driven product engineering.

(3-0) Cr. 3. Repeatable. Prereq: I E 571 or I E 577
Ergonomics research topic development, literature evaluation, experimental design, use of bioinstrumentation, data collection, basic data interpretation, statistical analysis, manuscript preparation.

I E 690. Advanced Topics. 
Cr. 1-3. Repeatable. Prereq: Permission of the instructor
Advanced topics related to Ph.D. research in industrial engineering under the direction of the instructor.
Materials Engineering

Undergraduate Study

For the undergraduate curriculum in materials engineering leading to the degree of bachelor of science. This curriculum is accredited under the General Criteria and the Materials Engineering Program Criteria by the Engineering Accreditation Commission of ABET, http://www.abet.org/. Materials engineering is a broadly-based discipline relating the composition, microstructure, and processing of materials to their properties, uses and performance. Materials engineering includes a variety of traditional and modern technologies involving metals, ceramics, polymers, composites, and electronic materials. Because of its interdisciplinary nature, career opportunities for materials engineers bridge all industrial and government sectors including: materials based technologies (materials production), communication/information technologies (semiconducting materials, fiber optics), medical/environmental technologies (biomedical, energy production, waste containment), nanotechnologies, consumer products (building and construction, durable goods), and transportation industries (automotive, aerospace).

The objectives of the materials engineering program are to produce graduates who:

- practice materials engineering in a broad range of industries including materials production, semiconductors, medical/environmental, consumer products, and transportation products
- engage in advanced study in materials and related or complementary fields

Graduates in materials engineering will have hands-on skills with a broad range of modern materials processing and characterization equipment and methods. A degree in materials engineering relies on a strong foundation of math, chemistry and physics. The core materials courses include fundamentals of materials, kinetics and thermodynamics, mechanical properties, computational methods, design, and professional practice experience. Students tailor their programs to their goals and interests through the selection of a specialization from the three available: ceramic materials, metallic materials and polymeric materials. Additional technical electives can be taken in other areas of interest. The breadth and depth of the program provide excellent preparation for both immediate entry into industry or further study in graduate school.

The department also offers a cooperative education program that combines classroom learning with work experience. Well qualified juniors in materials engineering who are interested in graduate study may apply for concurrent enrollment during their senior year in the Graduate College to simultaneously pursue both bachelor of science and master of science degrees. See Materials Science and Engineering (p. 371) for more information.

Curriculum in Materials Engineering

Administered by the Department of Materials Science and Engineering. Leading to the degree of bachelor of science.

Techniques include optical and electron microscopy, x-ray diffraction, and thermal characterization of ceramic, electronic, polymeric and metallic materials.

### MAT E 214. Structural Characterization of Materials
(3-0) Cr. 3. F. Prereq: Math 165 AND (CHEM 177 or CHEM 167)

Materials Engineering majors only. Structure and properties of ceramic, electronic, polymeric and metallic materials, emphasizing differences based on structure and bonding. Phase equilibria and phase transformations. Only one of Mat E 215, 273, or 392 may count toward graduation.

### MAT E 215. Introduction to Materials Science and Engineering I.
(3-0) Cr. 3. F. Prereq: Math 165 AND (CHEM 177 or CHEM 167)

Materials Engineering majors only. Structure and properties of ceramic, electronic, polymeric and metallic materials, emphasizing differences based on structure and bonding. Phase equilibria and phase transformations. Only one of Mat E 215, 273, or 392 may count toward graduation.

### MAT E 216. Introduction to Materials Science and Engineering II.
(3-2) Cr. 4. S. Prereq: MAT E 215, Credit or enrollment in PHYS 222

Materials Engineering majors only. Fundamentals of ceramic, polymeric, and composite materials; degradation, electronic, thermal, magnetic, and optical properties of materials. Materials for energy, biomaterials, and nanomaterials. Laboratory exercises in materials property measurements.

### MAT E 220. Globalization and Sustainability.
(Cross-listed with ANTHR, ENV S, GLOBE, T SC, M E, SOC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.

Meets International Perspectives Requirement.

(3-0) Cr. 3. F.S.S. Prereq: Sophomore classification; CHEM 167 or CHEM 177; MATH 165

### MAT E 298. Cooperative Education.
Cr. R. F.S.S. Prereq: Permission of department and Engineering Career Services
First professional work period in the cooperative education program. Students must register for this course before commencing work.

### MAT E 311. Thermodynamics in Materials Engineering.
(3-0) Cr. 3. F. Prereq: MAT E 216, CHEM 178, PHYS 222, credit or enrollment in MATH 267

### MAT E 314. Kinetics and Phase Equilibria in Materials.
(3-0) Cr. 3. S. Prereq: MAT E 216, MAT E 311

Kinetic phenomena and phase equilibria relevant to the origins and stability of microstructure in metallic, ceramic and polymeric systems. Application of thermodynamics to the understanding of stable and metastable phase equilibria, interfaces and their effects on stability; defects and diffusion, empirical rate equations for transformation kinetics, driving forces and kinetics of nucleation, diffusion and diffusionless phase transformations. Nonmajor graduate credit.

### MAT E 316. Computational Methods in Materials.
(2-2) Cr. 3. S. Prereq: MAT E 215

Use of mathematical and statistical computer tools for materials design and analysis. Applications of statistical principles to problems concerned with materials. Computer-assisted design of experiments. Nonmajor graduate credit.

(3-0) Cr. 3. F. Prereq: MAT E 216 and PHYS 222

MAT E 321. Introduction to Ceramic Science. (3-0) Cr. 3. F. Prereq: MAT E 216

MAT E 322. Introduction to Ceramic Processing. (2-3) Cr. 3. S. Prereq: MAT E 321

MAT E 332. Semicon ductor Materials and Devices. (Cross-listed with E E). (3-0) Cr. 3. S. Prereq: PHYS 222; MAT E majors: MAT E 334; CPR E and E E majors: E E 230
Introduction to semiconductor material and device physics. Quantum mechanics and band theory of semiconductor. Charge carrier distributions, generation/ recombination, transport properties. Physical and electrical properties and fabrication of semiconductor devices such as MOSFETs, bipolar transistors, laser diodes and LED's. Nonmajor graduate credit.

MAT E 334. Electronic & Magnetic Properties of Metallic Materials. (2-2) Cr. 3. S. Prereq: MAT E 317

MAT E 342. Structure/Property Relations in Nonferrous Metals. (2-3) Cr. 3. S. Prereq: MAT E 216
Processing of metals and alloys to obtain desired mechanical properties by manipulation of their microstructure and composition of constituent phase(s). Relevance of defects to mechanical properties, plastic flow. Strengthening mechanisms in metals and alloys. Microstructure, heat treatment and mechanical properties of engineering alloys. Metal-matrix composites. Nonmajor graduate credit.

MAT E 351. Introduction to Polymeric Materials. (3-0) Cr. 3. F. Prereq: MAT E 216
Introduction to polymeric materials, synthesis, structure and properties. Relationship between polymer composition, processing and properties. Nonmajor graduate credit.

MAT E 362. Principles of Nondestructive Testing. (Cross-listed with E M). (3-0) Cr. 3. S. Prereq: PHYS 112 or PHYS 222
Radiography, ultrasonic testing, magnetic particle inspection, eddy current testing, dye penetrant inspection, and other techniques. Physical bases of tests; materials to which applicable; types of defects detectable; calibration standards, and reliability and safety precautions. Nonmajor graduate credit.

MAT E 362L. Nondestructive Testing Laboratory. (Cross-listed with E M). (0-3) Cr. 1. S. Prereq: Credit or enrollment in MAT E 362
Application of nondestructive testing techniques to the detection and sizing of flaws in materials and to the characterization of material’s microstructure. Included are experiments in hardness, dye penetrant, magnetic particle, x-ray, ultrasonic and eddy current testing. Field trips to industrial laboratories. Nonmajor graduate credit.

MAT E 370. Tying with Technology. (Cross-listed with CPR E). (2-2) Cr. 3. S. F. Prereq: C I 201 or C I 202
A project-based, hands-on learning course. Technology literacy, appreciation for technological innovations, principles behind many technological innovations, hands- on laboratory experiences based upon simple systems constructed out of LEGO’s and controlled by small microcomputers. Future K-12 teachers will leave the course with complete lesson plans for use in their upcoming careers.

MAT E 388. Sustainable Engineering and International Development. (Cross-listed with A E, E E, M E, O E, BSE). (2-2) Cr. 3. F. Prereq: Junior classification in engineering
Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report. Meets International Perspectives Requirement.

MAT E 389. Applied Methods in Sustainable Engineering. (Cross-listed with M E). (3-0) Cr. 3. Repeatable, maximum of 2 times. SS. Learning how to work in a cross disciplinary engineering team to develop and implement appropriate solutions for cooking, lighting, farming, and sanitation in a rural village in Mali. Engineering principles necessary for the projects to be worked on including lighting solutions in a village without electricity, new construction materials, water, etc. Application of engineering principles from core courses. Design conception, feasibility, production, and implementation within context of local cultures and needs. Emphasis on creating real solutions that can be implemented with the constraints imposed by cost, time, manufacturing capability, and culture. Meets International Perspectives Requirement.

MAT E 391. Introduction to US Women’s roles in Industry and Preparation for Summer Study. (3-0) Cr. 3. S. Introduction to the historical role of women as related to US industry, family and community with emphasis on the years 1830 - 1945, but also related to the current climate. Topics completed in 392 with arranged lectures at Brunel University. Orientation for Brunel summer study program. Offered on a satisfactory-fail basis only. Credit for graduation allowable only upon completion of Mat E 392. Meets U.S. Diversity Requirement

MAT E 392. Principles of Materials Science and Engineering. (3-0) Cr. 3. S. Prereq: MAT E 391, CHEM 167 or CHEM 177
Structure and properties of ceramic, electronic, polymeric and metallic materials, emphasizing differences based on structure and bonding. Phase equilibria and phase transformations. Taught on Brunel University campus. Offered on a satisfactory-fail basis only. Only one of Mat E 215, 273, or 392 may count toward graduation. Meets International Perspectives Requirement.

MAT E 396. Summer Internship. Cr. R. Repeatable. SS. Prereq: Permission of department and Engineering Career Services
Summer professional work period.

MAT E 397. Engineering Internship. Cr. R. Repeatable. F.S. Prereq: Permission of department and Engineering Career Services: junior classification Professional work period, one semester maximum per academic year.

MAT E 398. Cooperative Education. Cr. R. F.S.SS. Prereq: MAT E 298, permission of department and Engineering Career Services
Second professional work period in the cooperative education program. Students must register for this course before commencing work.

MAT E 413. Materials Design and Professional Practice I. (2-2) Cr. 3. F. Prereq: Senior status in Mat E
Fundamentals of materials engineering design, information sources, team behavior, professional preparation, quantitative design including finite-element analysis and computer aided design, materials selection, informatics and combinatorial methods. Analysis of design problems, development of solutions, selected case studies. Oral presentation skills. Preparations for spring project.

MAT E 414. Materials Design and Professional Practice II. (2-2) Cr. 3. S. Prereq: Senior status in Mat E
Integration of materials processing, structure/composition, properties and performance principles in materials engineering problems. Multi-scale design of materials, materials processing, case studies including cost analysis, ethics, risk and safety. Team projects specified by either industry or academic partners. Written and oral final project reports.

MAT E 418. Mechanical Behavior of Materials. (3-0) Cr. 3. S. Prereq: MAT E 216 and credit or enrollment in E M 324
Mechanical behavior of ceramics, metals, polymers, and composites. Relationships between materials processing and atomic aspects of elasticity, plasticity, fracture, and fatigue. Life prediction, stress-and failure analysis. Nonmajor graduate credit.
MAT E 425. Glasses and Advanced Ceramics.
(2-3) Cr. 3. F. Preq: MAT E 321
Composition, structure, properties and manufacturing of inorganic glasses. Properties and applications of advanced ceramics. Structural, thermal, optical, electronic, magnetic and biological applications of ceramic materials. Contemporary topics in ceramic engineering. Laboratory exercises in preparation and characterization of glasses and advanced ceramics. Nonmajor graduate credit.

MAT E 432. Microelectronics Fabrication Techniques.
(Dual-listed with MSE 532). (Cross-listed with E E). (2-4) Cr. 4. Preq: PHYS 222, MATH 267. E E 332 or MAT E 334 recommended
Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS). Nonmajor graduate credit.

(2-3) Cr. 3. F. Preq: MAT E 334

(2-3) Cr. 3. F. Preq: MAT E 214, 216, credit or enrollment in 311

MAT E 444. Corrosion and Failure Analysis.
(2-2) Cr. 3. S. Preq: MAT E 216 and credit or enrollment in MAT E 418

MAT E 453. Physical and Mechanical Properties of Polymers.
(Dual-listed with MAT E 553). (2-3) Cr. 3. F. Preq: MAT E 351
Overview of polymer chemical composition, microstructure, thermal and mechanical properties, rheology, and principles of polymer materials selection. Intensive laboratory experiments include chemical composition studies, microstructural characterization, thermal analysis, and mechanical testing. Nonmajor graduate credit.

MAT E 454. Polymer Composites and Processing.
(Dual-listed with MAT E 554). (3-0) Cr. 3. S. Preq: MAT E 351
Basic concepts in polymer composites, blends, and block copolymers. Phase separation and miscibility, microstructures and mechanical behavior. Fiber reinforced and laminated composites. Viscosity, rheology, viscoelasticity of polymers. Polymer melt processing methods such as injection molding and extrusion; selection of suitable processing methods and their applications. Nonmajor graduate credit.

MAT E 456. Biomaterials.
(Dual-listed with MAT E 556). (Cross-listed with BiOE). (3-0) Cr. 3. F. Preq: MAT E 216 or MAT E 273 or MAT E 392
Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

MAT E 457. Chemical and Physical Metallurgy of Rare Earth Metals.
(Dual-listed with MAT E 557). (3-0) Cr. 3. Alt. S., offered 2014. Preq: MAT E 311 or CHEM 325 AND CHEM 324 or PHYS 322
Electronic configuration, valence states, minerals, ores, beneficiation, extraction, separation, metal preparation and purification. Crystal structures, phase transformations and polymorphism, and thermochemical properties of rare earth metals. Chemical properties: inorganic and organometallic compounds, alloy chemistry, nature of the chemical bonding. Physical properties: mechanical and elastic properties, magnetic properties, resistivity, and superconductivity.

MAT E 466. Multidisciplinary Engineering Design.
(Cross-listed with A E, AER E, CPR E, E E, ENGR 1 E, M E). (1-4) Cr. 3.
Repeatability. F.S. Preq: Student must be within two semesters of graduation and receive permission of the instructor
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations, computer models and engineering drawings. Nonmajor graduate credit.

MAT E 467. Multidisciplinary Engineering Design II.
(Cross-listed with AER E, CPR E, E E, I E, ENGR 1 E, M E). (1-4) Cr. 3. Repeatable, maximum of 2 times. F.S. Preq: Student must be within two semesters of graduation or receive permission of instructor.
Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

(Dual-listed with MAT E 588). (Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered 2013. Preq: MATHE 265 and (MAT E 216 or MAT E 272 or E E 311 or PHYS 364) Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a virtual eddy current instrument will demonstrate key concepts.

MAT E 490. Independent Study.
Cr. arr. Repeatable.
Investigation of individual research or special topics.

MAT E 498. Cooperative Education.
Cr. R. Repeatable. F.S.SS. Preq: MAT E 398, permission of department and Engineering Career Services
Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Materials Science and Engineering

Graduate Study

The department offers work toward the following advanced degrees: Master of Engineering in Materials Science and Engineering, Master of Science in Materials Science and Engineering and Doctor of Philosophy in Materials Science and Engineering.

Built on a foundation of thermodynamics, kinetics of phase transformations, mechanical behavior, physical properties, solid state science, and the structure and chemistry of materials, the graduate program offers advanced studies in many areas of materials science and engineering, including the design and control of materials for structural, electronic, photonic, magnetic, optical, and biological functionality. Graduates of the program have a fundamental understanding of the critical aspects of the field and how they are applied to real materials systems. The program is highly flexible and research-oriented, where students work carefully with their major professor in tailoring the various academic and research components to meet their interests.

With the ability to address complex problems in materials science while considering the various constraints inherent to both academic and industrial environments, our graduates are well prepared for a wide range of academic and research-related careers. They are skilled in carrying out independent and collaborative research, able to communicate effectively in formal and informal settings, and are proficient at writing persuasive technical articles and grant proposals.

The department boasts excellent facilities for academic materials research, maintaining a wide range of faculty laboratories across the ISU campus. In addition, departmental research is highly integrated with the operation of several Research Centers, such as the Ames Laboratory, the Center for Nondestructive Evaluation, the Microelectronics Research Center, and the Center for Advanced Technology Development. These laboratories offer excellent resources and opportunities for graduate student research.

Prerequisite to major graduate work is completion of an undergraduate curriculum in physical science, biological science, or engineering discipline. Graduate students from disciplines other than materials science and engineering may expect that
supplemental coursework will be needed, in addition to the required graduate coursework. Well qualified students (juniors) enrolled in the undergraduate materials engineering program at Iowa State University can apply to the Graduate College for admission to the concurrent enrollment program, where students may simultaneously pursue both master of science and bachelor of science degrees.

The requirements for the M. Eng., M.S. and Ph.D. degrees are established by the student’s program of study committee within the established guidelines of the Graduate College. Minimum requirements include coursework, research (M.S. and Ph.D. only), proposal (M.S. and Ph.D. only), preliminary oral examination (Ph.D. only), dissertation (M.S. and Ph.D. only), and a final oral examination (M.S. and Ph.D. only). Academic coursework requirements include 31 credits for the M.Eng. degree, 21 credits for the M.S. degree and 32 credits for the Ph.D., with additional specific rules for choices available from the department.

There are no foreign language requirements for any of the graduate degrees administered by the Department of Materials Science and Engineering. Graduate students wishing to declare a formal minor in materials science and engineering will have at least one materials science and engineering faculty member serving on their program of study committee. For the M. Eng., M.S. and Ph.D. degrees, they will take a minimum of 8 materials science and engineering course credits for the M.Eng. or M.S. degrees and a minimum of 12 materials science and engineering course credits for the Ph.D. degree.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

M S E 510. Fundamentals of Structure and Chemistry of Materials. (3-0) Cr. 3. F. Prereq: MATH 165, PHYS 221, and CHEM 167

M S E 519. Magnetism and Magnetic Materials. (Cross-listed with E E). (3-0) Cr. 3. F. Prereq: E E 311, MAT E 211 or E E 271 or E E 272 or PHYS 364

M S E 520. Thermodynamics and Kinetics in Multicomponent Materials. (3-0) Cr. 3. F. Prereq: MAT E 311 or CHEM 321, MATH 266 or MATH 267
A review of the fundamental principles of heat, work, basic thermodynamic relations, and criteria for equilibrium. Analytical treatments for the thermodynamic description of multicomponent chemical solutions and reacting systems are developed and employed to predict phase equilibria in materials systems. Builds on the thermodynamic construction to treat the kinetics of chemical reactions and phase transformations. Topics include general first order and second order transitions, along with chemical diffusion. Detailed examples involving nucleation and diffusion limited growth, spinodal decomposition, martensitic transformations, magnetic and electric transitions, and glass formation will be considered.

M S E 521. Mechanical Behavior and Manufacturing of Polymers and Composites. (Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: M E 324 or MAT E 272 and E M 324

M S E 530. Solid State Science. (3-0) Cr. 3. S. Prereq: MAT E 334 or E E 332 or PHYS 322

M S E 539. Electronic Properties of Materials. (Cross-listed with E E). (3-0) Cr. 3. Prereq: E E 323 or MAT E 331 or PHYS 322
Review of classical and quantum mechanical descriptions of electrons in solids, band theory, metallic conduction, lattice vibrations, semiconductors, semiconductor devices, dielectrics, polarization, dielectric relaxation, crystal anisotropy, ferroelectricity, piezoelectricity, superconductivity, magnetism, device applications.

M S E 540. Mechanical Behavior of Materials. (3-0) Cr. 3. F. Prereq: MAT E 418, MATH 266 or MATH 267
Mechanical behavior of materials with emphasis on micromechanics of deformation in three generic regimes: elasticity, plasticity, and fracture. A materials science approach is followed to understand and model the mechanical behavior that combines continuum mechanics, thermodynamics, kinetics, and microstructure.

Some topics include elastic properties of materials, permanent deformation mechanisms at different temperatures (e.g., via dislocation motion and creep), and fracture in ductile and brittle materials. Specific classes of materials that are studied: metals, ceramics, polymers, glasses and composites.

Principles of five basic NDE methods and their application in engineering inspections. Materials behavior and simple failure analysis. NDE reliability, and damage-tolerant design. Advanced methods such as acoustic microscopy, laser ultrasonics, thermal waves, computed tomography, and thermoelctrics are analyzed. Laboratory experiments on all basic methods: ultrasonics, eddy currents, x-ray, liquid penetrants, magnetic testing, and visual inspection are performed.

Characterization of ceramic, metal, polymer and glassy materials using modern analytical techniques. Spectroscopic (IR, Raman, UV/VIS/NIR, and NMR), thermal (DSC, DTA/TGA, and DMA) methods, mechanical and rheological testing, magnetic and electrical characterization, and powder characterization.

M S E 554. Polymer Composites and Processing. (Dual-listed with M S E 454). (3-0) Cr. 3. S. Prereq: MAT E 351
Basic concepts in polymer composites, blends, and block copolymers. Phase separation and miscibility, microstructures and mechanical behavior. Fiber reinforced and laminated composites. Viscosity, rheology, viscoelasticity of polymers. Polymer melt processing methods such as injection molding and extrusion; selection of suitable processing methods and their applications.

M S E 556. Biomaterials. (Dual-listed with M S E M S E 456). (3-0) Cr. 3. F. Prereq: MAT E 216 or MAT E 273 or MAT E 392
Presentation of the basic chemical and physical properties of biomaterials, including macromolecules, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

M S E 557. Chemical and Physical Metallurgy of Rare Earth Metals. (Dual-listed with M S E 457). (3-0) Cr. 3. Alt. S., offered 2014. Prereq: MAT E 311 or CHEM 325 AND CHEM 324 or PHYS 322
Electronic configuration, valence states, minerals, ores, beneficiation, extraction, separation, metal preparation and purification. Crystal structures, phase transformations and polymorphism, and thermochemical properties of rare earth metals. Chemical properties: inorganic and organometallic compounds, alloy chemistry, nature of the chemical bonding. Physical properties: mechanical and elastic properties, magnetic properties, resistivity, and superconductivity. Nonmajor graduate credit.
and chemistry. Includes magnetic, dielectric, transport, and optical phenomena in
the behavior of solids within the framework of solid state physics. Undergraduates: Permission of
instructor
Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

M S E 570. Toying With Technology for Practicing Teachers. (Cross-listed with C I). (2-0) Cr. 2. SS. Prereq: C I 201 or 202 or 505 or equivalent
A project-based, hands-on learning course. Technology literacy, appreciation for technological innovations, principles behind many technological innovations, hands-on experiences based upon simple systems constructed out of LEGOs and controlled by small microcomputers. Other technological advances with K-12 applications will be explored. K-12 teachers will leave the course with complete lesson plans for use in their classrooms.

M S E 590. Special Topics. Cr. arr. Repeatable. Prereq: Permission of instructor

Courses for graduate students:

M S E 601. Materials Seminar. (3-0) Cr. 3. Alt. S., offered 2012. Prereq: M S E 520 Seminar course - presentations given on a weekly basis by leading U.S. and International researchers that are experts in their respective fields closely related to Materials Science.

M S E 610. Academic Teaching Practices. (2-0) Cr. 2. Repeatable. F.S. Prereq: Permission of instructor
Provides instruction and directed experience in undergraduate level teaching practices. Students engage in lesson planning, classroom/laboratory teaching, student and course assessment, web-based lessons, and other aspects of academic course delivery.

M S E 620. Fundamentals of Phase Transformations. (3-0) Cr. 3. Alt. S. identifies a successful candidate for the industrial, governmental, or academic laboratory. Prereq: M S E 620 Explores various advanced theoretical treatments of the energetics and kinetics of multicomponent materials. Topics include analytical and computational descriptions of thermodynamic quantities, experimental measurement of essential physical properties, analytical and computational treatments of kinetic processes, and the use of theoretical predictions of phase equilibria and evolution in materials systems.

M S E 630. Physical Properties of Solids. (3-0) Cr. 3. Alt. F., offered 2012. Prereq: M S E 530 Advanced course in the behavior of solids within the framework of solid state physics and chemistry. Includes magnetic, dielectric, transport, and optical phenomena in solids. Influence of phase transformations and crystal symmetry on the physical properties.

M S E 690. Advanced Topics in Materials Science. Cr. arr. Repeatable. Prereq: Permission of instructor
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

M S E M S E 456. Biopolymers. (Dual-listed with M S E 456). (3-0) Cr. 3. F. Prereq: MAT E 216 or MAT E 273 or MAT E 392 Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

Mechanical Engineering

Undergraduate Study

For the undergraduate curriculum in mechanical engineering leading to the degree bachelor of science. This curriculum is accredited under the General Criteria and Mechanical Engineering Program Criteria by the Engineering Accreditation Commission of ABET, http://www.abet.org/.

Mechanical engineers apply the principles of motion, energy, and force to create mechanical solutions to technological problems, thereby realizing devices and systems that make life better. About one-fifth of all engineers practicing today are mechanical engineers. Their skills are used in research, development, design, testing, production, technical sales, technical management, as well as medicine, law, and business. Mechanical engineers are characterized by personal creativity, breadth of knowledge, and versatility. For these reasons they are found to function and thrive as valuable members and leaders of multidisciplinary teams. Mechanical engineers are employed in a wide range of industries; examples include agricultural/ heavy equipment, biomedical, consulting, energy and power, manufacturing, product design and transportation.

The mechanical engineering curriculum at Iowa State University is dedicated to preparing students for productive careers in the state, nation, and the world and has the following objectives:

1. Graduates will have utilized a foundation in engineering and science to
2. Graduates will have become effective collaborators and innovators, leading or
3. Graduates will have engaged in life-long learning and professional
development through self-study, continuing education or graduate and
professional studies in engineering, business, law or medicine.

The mechanical engineering curriculum is organized to provide students with a broad foundation in mathematics, science, engineering, social science and humanities. The mechanical engineering disciplinary areas emphasized are design and optimization, dynamic systems and control, materials processing and mechanics, and thermo-fluid sciences. Elective courses provide additional emphasis in terms of the student’s unique educational goals, whether they include immediate entry into industry or

A major focus throughout the mechanical engineering curriculum is a series of experiences that emphasize engineering design, culminating in a capstone design experience in the senior year. Students will develop engineering judgment through
open-ended problems that require establishment of reasonable engineering assumptions and realistic constraints. Development of skills needed to be independent, creative thinkers, effective communicators, and contributing team members is emphasized throughout the curriculum. Students also develop an understanding of the societal context in which they will practice engineering, including environmental, legal, aesthetic, and human aspects.

Students are encouraged to participate in the cooperative education program or to obtain engineering internships, both domestically and abroad. Study abroad is encouraged, and the department has exchange programs with several universities around the world. These experiences help students to round out their education and to better prepare for careers in the increasingly global practice of engineering.

**Energy Systems Minor**

The Energy Systems minor is administered by the mechanical engineering department and is open to all undergraduates in the College of Engineering. The minor may be earned by completing 15 credits from the following courses. The complete list of approved elective courses can be found here (http://www.me.iastate.edu/energy-systems-minor).

**Required courses**

- ECON 380 Environmental and Resource Economics 3
- E 351 Analysis of Energy Systems 3
- Electives: Choose from a list of approved courses 9

Total Credits 15

The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

**Nuclear Engineering Minor**

The nuclear engineering minor is administered by the mechanical engineering department and is open to all undergraduates in the College of Engineering. The minor may be earned by completing 15 credits from the following courses. A complete list of approved courses can be found here (http://www.me.iastate.edu/students/degrees-and-programs/engineering-minors).

**Required courses**

- NUC E 401 Nuclear Radiation Theory and Engineering 3
- Electives: Choose from a list of approved courses 12

Total Credits 15

The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

**Graduate Study**

The department offers programs for the degrees Master of Engineering (M. Eng.), Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) with a major in mechanical engineering. The M.Eng. degree is a coursework-only degree designed to improve professional expertise in mechanical engineering. The M.S. and Ph.D. degrees are designed to improve the student's capability to conduct research as well as their professional expertise. Although co-major and formal minor programs are not offered in mechanical engineering, courses may be used for minor work by students taking major work in other departments.

Well-qualified juniors and seniors in mechanical engineering who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both the Bachelor of Science and Master of Science, the Bachelor of Science and Master of Business Administration. Under concurrent enrollment, students are eligible for assistantships and simultaneously take undergraduate and graduate courses. Details are available in the Graduate Programs Office and on the department's website (http://www.me.iastate.edu/).

The graduate program offers advanced study in a variety of thrust areas, including biological and nanoscale sciences, clean energy technologies, complex fluid systems, design and manufacturing innovation, and simulation and visualization.

The department offers students the opportunity to broaden their education by participating in minor programs in established departments, interdepartmental programs, or other experiences as approved by their program of study committees.

The requirements for advanced degrees are established by the student’s program of study committee within established guidelines of the Graduate College. Graduate students who have not completed an undergraduate program of study substantially equivalent to that required of undergraduate students in the department can expect that additional supporting coursework will be required.

Program requirements can be found on the department webpage (http://www.me.iastate.edu/) and in the Mechanical Engineering Graduate Student Handbook.

**Curriculum in Mechanical Engineering**

Administered by the Department of Mechanical Engineering. Leading to the degree bachelor of science.

Total credits required: 130 cr. See also Basic Program and Special Programs.

**International Perspectives:** 3 cr.¹

**U.S. Diversity:** 3 cr.¹

**Communication Proficiency/Library requirement (minimum grade of C):**

Philosophy of design and design methodology. Consideration of stresses and failure models useful for static and fatigue loading. Analysis, selection and synthesis of machine elements. Nonmajor graduate credit.
M E 332. Engineering Thermodynamics II.
(3-0) Cr. 3. F.S.SS. Prereq: M E 231
Gas power cycles. Fundamentals of gas mixtures, psychrometry, and
thermochemistry. Applications to one-dimensional compressible flow, refrigeration,
air conditioning and combustion processes. Nonmajor graduate credit.

(3-2) Cr. 4. F.S.SS. Prereq: Credit or enrollment in M E 332, E M 345, MATH 266 or
MATH 267
Incompressible and compressible fluid flow fundamentals. Dimensional analysis and
similitude. Internal and external flow applications. Lab experiments emphasizing
concepts in thermodynamics and fluid flow. Written reports are required. Nonmajor
graduate credit.

(2-3) Cr. 3. F.S.SS. Prereq: E E 442, STAT 305
Fundamentals of design, selection, and operation of components of measuring
systems. Measurement processes, data acquisition systems, analysis of data, and
propagation of measurement uncertainty. Nonmajor graduate credit.

M E 388. Sustainable Engineering and International Development.
(Cross-listed with A E, E E, C E, MAT E, BSE). (2-2) Cr. 3. F. Prereq: Junior
classification in engineering
Multi-disciplinary approach to sustainable engineering and international development,
sustainable development, appropriate design and engineering, feasibility analysis,
international aid, business development, philosophy and politics of technology, and
ethics in engineering. Engineering-based projects from problem formulation through
implementation. Interactions with partner community organizations or international
partners such as nongovernment organizations (NGOs). Course readings, final
project/design report.
Meets International Perspectives Requirement.

(Cross-listed with MAT E). (3-0) Cr. 3. Repeatable, max 3 Cr. of 2 times. SS.
Learning how to work in a cross disciplinary engineering team to develop and
implement appropriate solutions for cooking, lighting, farming, and sanitation in a
rural village in Mali. Engineering principles necessary for the projects to be worked
on including lighting solutions in a village without electricity, new construction
materials, water, etc. Application of engineering principles from core courses. Design
conception, feasibility, production, and implementation within context of local cultures
and needs. Emphasis on creating real solutions that can be implemented with the
constraints imposed by cost, time, manufacturing capability, and culture.
Meets International Perspectives Requirement.

M E 396. Summer Internship.
Cr. R. Repeatable. SS. Prereq: Permission of department and Engineering Career
Services
Summer professional work period.

M E 397. Engineering Internship.
Cr. R. Repeatable. F.S. Prereq: Permission of department and Engineering Career
Services
Professional work period, one semester maximum per academic year.

M E 398. Cooperative Education.
Cr. R. F.S.SS. Prereq: M E 298, permission of department and Engineering Career
Services
Second professional work period in the cooperative education program. Students
must register for this course before commencing work.

M E 410. Mechanical Engineering Applications of Mechatronics.
(2-2) Cr. 3. S. Prereq: E E 442, E E 448, credit or enrollment in M E 421
Fundamentals of sensor characterization, signal conditioning and motion control,
coupled with concepts of embedded computer control. Digital and analog
components used for interfacing with computer controlled systems. Mechanical
system analysis combined with various control approaches. Focus on automation
of hydraulic actuation processes. Laboratory experiences provide hands-on
development of mechanical systems. Nonmajor graduate credit.

M E 411. Automatic Controls.
(2-2) Cr. 3. F. Prereq: M E 421
Methods and principles of automatic control. Pneumatic, hydraulic, and electrical
systems. Representative applications of automatic control systems. Mathematical
analysis of control systems. Nonmajor graduate credit.

M E 412. Ethical Responsibilities of a Practicing Engineer.
(3-0) Cr. 3. F. Prereq: Credit or enrollment in M E 325
The study of ethics in engineering design and the engineering profession. A
comprehensive look at when ethical decisions must be made and an approach to
make them. The approach takes into account moral, legal, technical, experiential,
and standards to aid in ethical decision making. Each area will be studied through
lectures, debates, guest speakers, class discussion, and case studies. Nonmajor
graduate credit.

M E 413. Fluid Power Engineering.
(Cross-listed with A E). (2-2) Cr. 3. F. Prereq: Credit or enrollment in E M 378 or M E
335, A E 216 or M E 270
Properties of hydraulic fluids. Performance parameters of fixed and variable
displacement pumps and motors. Hydraulic circuits and systems. Hydrostatic
transmissions. Characteristics of control valves. Analysis and design of hydraulic
systems for power and control functions. Nonmajor graduate credit.

M E 415. Mechanical Systems Design.
(0-6) Cr. 3. F.S. Prereq: M E 324, M E 325
Mechanical Engineering Capstone Design course. Team approach to solving design
problems involving mechanical systems. Teams will use current design practices
they will encounter in industry. Document decisions concerning form and function,
material specification, manufacturing methods, safety, cost, and conformance with
codes and standards. Solution description includes oral and written reports. Projects
often worked with industry sponsors. Nonmajor graduate credit.

(Dual-listed with M E 517). (3-0) Cr. 3. S. Prereq: M E 325, M E 273
Stress life, strain life, and fatigue mechanics approaches to fatigue life and design
with metals, polymers and ceramics. Introduction to material selection in design of
machine components. Thermal and structural considerations in design of machine
components and hybrid materials. Course project and relevant literature review
required for graduate credit. Nonmajor graduate credit.

M E 418. Mechanical Considerations in Robotics.
(Dual-listed with M E 518). (3-0) Cr. 3. S. Prereq: Credit or enrollment in M E 421
Three dimensional kinematics, dynamics, and control of robot manipulators,
hardware elements and sensors. Laboratory experiments using industrial robots.
Nonmajor graduate credit.

(3-0) Cr. 3. F. Prereq: M E 325
Theory and applications of computer-aided design. Computer graphics
programming, solid modeling, assembly modeling, and finite element modeling.
Mechanical simulation, process engineering, rapid prototyping and manufacturing
integration. Nonmajor graduate credit.

M E 421. System Dynamics and Control.
(3-2) Cr. 4. F.S.SS. Prereq: E E 442, E E 448, E M 345, MATH 267
Modeling and simulation of mechanical, electrical, fluid, and/or thermal systems.
Development of equations of motion and dynamic response characteristics in time
and frequency domains. Fundamentals of classical control applications, including
mathematical analysis and design for closed loop control systems. Introduction
to computer interfacing for simulation, data acquisition, and control. Laboratory
exercises for hands-on system investigation and control implementation. Nonmajor
graduate credit.

M E 423. Creativity and Imagination for Engineering and Design.
(Dual-listed with M E 523). (3-0) Cr. 3. F.
Improve ability to think creatively and be innovative in designs. Understand and
discuss creativity from different perspectives, learn to control your voice of judgment,
identify personality traits that encourage and hinder creativity. Assignments include
individual and team design projects; weekly readings; and, for graduate students,
a semester-long research project on creativity and the development of a related
teaching module.

(Dual-listed with M E 525). (Cross-listed with HCI). (3-0) Cr. 3. S. Prereq: M E 160,
MATH 265
Optimization involves finding the ‘best’ according to specified criteria. Review of a
range of optimization methods from traditional nonlinear to modern evolutionary
methods such as Genetic algorithms. Examination of how these methods can be
used to solve a wide variety of design problems across disciplines, including
mechanical systems design, biomedical device design, biomedical imaging, and
interaction with digital medical data. Students will gain knowledge of numerical
optimization algorithms and sufficient understanding of the strengths and
weaknesses of these algorithms to apply them appropriately in engineering design.
Experience includes code writing and off-the-shelf routines. Numerous case-studies
of real-world situations in which problems were modeled and solved using advanced
optimization techniques. Nonmajor graduate credit.
M E 433. Alternative Energy. (3-0) Cr. 3. F. Prereq: PHYS 221/PHYS 222 and CHEM 167
Basic principles, performance, and cost analysis of alternative energy systems including biofuels, bioenergy, wind, solar, fuel cells, storage and other alternative energy systems. Performance analysis and operating principles of systems and components, and economic analysis for system design and operation will be taught. Emphasis on alternative energy technologies needed to meet our future energy needs at various scales ranging from household to city to national levels. Nonmajor graduate credit.

M E 436. Heat Transfer. (3-2) Cr. 4. F.S.SS. Prereq: M E 335

M E 437. Introduction to Combustion Engineering. (3-0) Cr. 3. S. Prereq: Credit in M E 332 or equivalent and credit or enrollment in M E 335 or equivalent
Introduction to the fundamentals of combustion and the analysis of combustion systems for gaseous, liquid, and solid fuels-including biomass fuels. Combustion fundamentals are applied to the analysis of engines; turbines, biomass cookstoves; suspension, fixed-bed, and fluidized-bed furnaces; and other combustion devices.

M E 441. Fundamentals of Heating, Ventilating, and Air Conditioning. (3-0) Cr. 3. F. Prereq: Credit or enrollment in M E 436
Space conditioning and moist air processes. Application of thermodynamics, heat transfer, and fluid flow principles to the analysis of heating, ventilating, and air conditioning components and systems. Performance and specification of components and systems. Nonmajor graduate credit.

M E 442. Heating and Air Conditioning Design. (1-5) Cr. 3. S. Prereq: M E 441

M E 444. Elements and Performance of Power Plants. (3-0) Cr. 3. S. Prereq: M E 332, credit or enrollment in M E 335
Basic principles, thermodynamics, engineering analysis of power plant systems. Topics include existing power plant technologies, the advanced energyplex systems of the future, societal impacts of power production, and environmental and regulatory concerns. Nonmajor graduate credit.

M E 448. Fluid Dynamics of Turbomachinery. (Cross-listed with AER E) (3-0) Cr. 3. S. Prereq: M E 335 or equivalent
Applications of principles of fluid mechanics and thermodynamics in performance analysis and design of turbomachines. Conceptual and preliminary design of axial and radial flow compressors and turbines using velocity triangles and through-flow approaches. Nonmajor graduate credit.

M E 449. Internal Combustion Engines. (3-1) Cr. 3. F. Prereq: M E 335
Basic principles, thermodynamics, combustion, and exhaust emissions of spark-ignition and compression-ignition engines. Laboratory determination of fuel properties and engine performance. Effects of engine components and operating conditions on performance. Written reports required. Nonmajor graduate credit.

M E 451. Engineering Acoustics. (Cross-listed with E M). (2-2) Cr. 3. Alt, S., offered 2012. Prereq: PHYS 221 and MATH 266 or MATH 267

M E 466. Multidisciplinary Engineering Design. (Cross-listed with A E, AER E, CPR E, E E, ENGR, IE, MAT E, ENGR). (1-4) Cr. 3. Repeatable. F.S. Prereq: Student must be within two semesters of graduation and permission of instructor.
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing and life cycle considerations. Application of design tools such as CAD, CAM and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations, computer models and engineering drawings.

M E 467. Multidisciplinary Engineering Design II. (Cross-listed with AER E, CPR E, E E, IE, E, MAT E, ENGR). (1-4) Cr. 3. Repeatable, maximum of 2 times. F.S. Prereq: Student must be within two semesters of graduation or receive permission of instructor.
Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

M E 475. Modeling and Simulation. (3-0) Cr. 3. S. Prereq: M E 421, credit or enrollment in M E 436
Introduction to computer solution techniques required to simulate flow, thermal, and mechanical systems. Methods of solving ordinary and partial differential equations and systems of algebraic equations; interpolation, numerical integration; finite difference and finite element methods. Nonmajor graduate credit.

M E 479. Sustainability Science for Engineering Design. (3-0) Cr. 3. S. Prereq: Any engineering design course
Scientific principles and quantitative methods concerning sustainability. Analysis of environmental issues associated with engineering design and product manufacturing in an economic and social context. Heuristic and analytical methods for assessing the sustainability of existing or potential product/service designs. Application to a design problem in teams. Nonmajor graduate credit.

M E 484. Technology, Globalization and Culture. (Dual-listed with M E 584). (Cross-listed with WLC). (3-0) Cr. 3. F. Prereq: senior classification for M E 484; graduate classification for M E 584
Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists. Meets International Perspectives Requirement.

M E 486. Appropriate Technology Design. (3-0) Cr. 3. F. Prereq: M E 231, M E 270, enrollment in M E 335; or permission of instructor.
Hands-on design experience utilizing knowledge acquired in core mechanical engineering courses. Emphasis with engineering problem formulation and solution, oral and written communication, team decision-making and ethical conduct. Design projects include engineering considerations in appropriate technology which have multidisciplinary components in economics and sociology.

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

Investigation of topics holding special interest of student and faculty. Election of course and topic must be approved in advance by supervising faculty.

M E 490P. Dynamic Systems and Controls. Cr. 1-6. Repeatable. Prereq: Senior classification
Investigation of topics holding special interest of student and faculty. Election of course and topic must be approved in advance by supervising faculty.

Investigation of topics holding special interest of student and faculty. Election of course and topic must be approved in advance by supervising faculty.
Courses primarily for graduate students, open to qualified undergraduates:

Optimization involves finding the 'best' according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Students will also be exposed to numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques.
(Dual-listed with M E 446). (3-0) Cr. 3. F. Prereq: AER E 161, AER E 310
Basic concepts of discretization, consistency, and stability. Explicit and implicit
methods for ordinary differential equations. Methods for each type of partial differential
equation. Iterative solution methods; curvilinear grids. Examples of basic algorithms.
Nonmajor graduate credit.

M E 547. Computational Fluid Mechanics and Heat Transfer II.
(Cross-listed with AER E). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: AER E 546 or
AER E 546
Application of computational methods to current problems in fluid mechanics and
heat transfer. Methods for solving the Navier-Stokes and reduced equation sets such
as the Euler, boundary layer, and parabolized forms of the conservation equations.
Introduction to relevant aspects of grid generation and turbulence modeling.

M E 552. Advanced Acoustics.
(Cross-listed with E M). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: E M 451
Theoretical acoustics: wave propagation in fluids; acoustic radiation, diffraction and
scattering; nonlinear acoustics; radiation force; cavitation; and ray acoustics.

(Cross-listed with CPR E, COM S). (3-0) Cr. 3. F.S. Prereq: M E 421, programming
experience in C
Fundamentals of computer graphics technology. Data structures. Parametric curve
and surface modeling. Solid model representations. Applications in engineering
design, analysis, and manufacturing.

M E 561. Scanning Probe Microscopy.
(2-1) Cr. 3. Alt. F., offered 2012. Prereq: First year physics, chemistry
Introduction to the scanning probe microscope (SPM, also known as atomic
force microscope or AFM) and associated measurement techniques. Overview or
instrumentation system, basic principles of operation, probe-sample interaction and
various operational modes to obtain micro/nanoscale structure and force
spectroscopy of material surfaces. Examples of SPM significance and applications in
science and engineering research, nanotechnology and other industries. Laboratory
work involving use of a scanning probe microscope system is an integral part of the
course.

(3-0) Cr. 3. Alt. F., offered 2011. Prereq: E M 324 and M E 325
Review of Fundamentals: (Elasticity, Electromagnetism, Mechanical response),
Mechanics of thermally, electrostatically and magnetically actuated microsystems,
Mechanics and design of nanostructured materials, mechanics of surface stress
engineering and its implications to sensors and thin film structures.

M E 564. Fracture and Fatigue.
(Cross-listed with M S E, E M, AER E). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: E M
324 and either MAT E 516 or MAT E 273 or MAT E 392. Undergraduates: Permission
of instructor
Materials and mechanics approach to fracture and fatigue. Fracture mechanics,
brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films
and layered structures. Fracture and fatigue tests, mechanics and materials designed
to avoid fracture or fatigue.

(Cross-listed with E M). (3-0) Cr. 3. S. Prereq: EM 510 or EM 516 or EM 514
Continuum thermodynamics and kinetics approaches to phase transformations.
Phase field approach to stress- and temperature-induced martensitic transformations
Analytical and numerical solutions. Surface stresses and energy. Surface-induced
phase transformations. Large Strain formulation.

(Cross-listed with E M, AER E). (3-0) Cr. 3. F. Prereq: E E 324 or AER E 331
or M E 370 or M E 411 or MATH 341
Elementary notions of probability. Random processes. Autocorrelation and spectral
functions. Estimation of spectrum from finite data. Response of linear systems
to random inputs. Discrete and continuous Kalman filter theory and applications.
Smoothing and prediction. Linearization of nonlinear dynamics.

M E 574. Optimal Control.
(Cross-listed with AER E, MATH, E E). (3-0) Cr. 3. S. Prereq: E E 577
The optimal control problem. Variational approach. Pontryagin’s principle, Hamilton-
Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum
energy control systems. The regulator problem. Structures and properties of optimal
controls.

M E 575. Introduction to Robust Control.
(Cross-listed with MATH, AER E, E E). (3-0) Cr. 3. Prereq: E E 577
Introduction to modern robust control. Model and signal uncertainty in control
systems. Uncertainty description. Stability and performance robustness to
uncertainty. Solutions to the H2, Hoo, and H1 control problems. Tools for robustness
analysis and synthesis.

(Cross-listed with AER E, MATH, E E). (3-0) Cr. 3. F. Prereq: E E 475 or AER E 432
or M E 411 or 414 or MATH 415; and MATH 267
Sampled data, discrete data, and the z-transform. Design of digital control systems
using transform methods: root locus, frequency response and direct design methods.
Design using state-space methods. Controllability, observability, pole placement,
state estimators. Digital filters in control systems. Microcomputer implementation
of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital
control systems. Simulation of digital control systems.

M E 577. Linear Systems.
(Cross-listed with AER E, MATH, E E). (3-0) Cr. 3. F. Prereq: E E 324 or AER E 331
or MATH 415; and MATH 307
Linear algebra review. Least square method and singular value decomposition.
State space modeling of linear continuous-time systems. Solution of linear systems.
Controllability and observability. Canonical description of linear equations. Stability
of linear systems. State feedback and pole placements. Observer design for linear
systems.

(Cross-listed with AER E, MATH, E E). (3-0) Cr. 3. S. Prereq: E E 577
Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold
theory. Lyapunov stability. Absolute stability of feedback systems. Input-output
stability. Passivity theory and feedback linearization. Nonlinear control design
techniques.

M E 580. Virtual Environments, Virtual Worlds, and Application.
(Cross-listed with HCI). (3-0) Cr. 3. F. Prereq: Senior or Graduate status.
A systematic introduction to the underpinnings of Virtual Environments (VE), Virtual
Worlds, advanced displays and immersive technologies; and an overview of some of
the applications areas particularly virtual engineering.

M E 584. Technology, Globalization and Culture.
(Dual-listed with M E 484). (Cross-listed with WLC). (3-0) Cr. 3. F. Prereq: senior
classification for M E 484; graduate classification for M E 584
Cross-disciplinary examination of the present and future impact of globalization with
a focus on preparing students for leadership roles in diverse professional, social, and
cultural contexts. Facilitate an understanding of the threats and opportunities inherent
in the globalization process as they are perceived by practicing professionals and
articulated in debates on globalization. Use of a digital forum for presenting and
analyzing globalization issues by on-campus and off-campus specialists.
Meets International Perspectives Requirement.

M E 590. Special Topics.
Cr. 1-8. Repeatable.

M E 590Q. Special Topics: Independent Literature Investigation.
Cr. 1-8. Repeatable.

M E 590T. Special Topics: Biological and Nanoscale Sciences.
Cr. 1-8. Repeatable.

M E 590U. Special Topics: Complex Fluid Systems.
Cr. 1-8. Repeatable.

M E 590V. Special Topics: Clean Energy Technologies.
Cr. 1-8. Repeatable.

M E 590W. Special Topics: Design and Manufacturing Innovation.
Cr. 1-8. Repeatable.

M E 590Z. Special Topics: Simulation and Visualization.
Cr. 1-8. Repeatable.

M E 599. Creative Component.
Cr. arr. Repeatable.

Courses for graduate students:
M E 600. Seminar.
Cr. R. Repeatable. (1-0).

M E 690. Advanced Topics. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690A. Advanced Topics: Experimental Gas Dynamics. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690B. Advanced Topics: Fluid Mechanics. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690C. Advanced Topics: Heat Transfer. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690D. Advanced Topics: Thermodynamics and Energy Utilization. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690E. Advanced Topics: Turbomachinery. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690F. Advanced Topics: Vehicular Propulsion Systems. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690I. Advanced Topics: Automatic Controls. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690J. Advanced Topics: Operating and Environmental Considerations in Design. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 639K. Advanced Topics: Mechanical Behavior of Materials. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690L. Advanced Topics: Manufacturing Processes. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690M. Advanced Topics: Tribology. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690N. Advanced Topics: Sensitivity Methods. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690O. Advanced Topics: Engineering Computation. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690P. Advanced Topics: Engineering Measurements and Instrumentation. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690Q. Advanced Topics: Independent Literature Investigation. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690R. Advanced Topics: Nuclear Engineering. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 690S. Advanced Topics: CAD/CAM. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.

M E 697. Engineering Internship. Cr. R. Repeatable. Prereq: Permission of Director of Graduate Education, graduate classification One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

Non-destructive Evaluation Engineering

Minor supervised by an interdisciplinary faculty committee, administered by Aerospace Engineering. The NDE minor is a unique opportunity for engineering students to acquire a multi-disciplinary engineering qualification in the rapidly evolving field of Nondestructive Evaluation.

Undergraduate Study

Students interested in completing the NDE engineering minor must be enrolled in the College of Engineering at Iowa State University. They must submit the “Request for Minor” form and complete the minimum prescribed 16 credit-hours of course work defined below. Acceptance is based on approval by the administering department, Aerospace Engineering.

The course requirements for the undergraduate minor in NDE are:

The course requirements for the undergraduate minor in nuclear engineering are:

Students interested in completing the nuclear engineering minor must be enrolled in the College of Engineering at Iowa State University. They should complete and submit the “Request for Minor” form. The selection process is based on approval by the administering department, Mechanical Engineering.

The course requirements for the undergraduate minor in nuclear engineering are:

Required course:

NUC E 401 Nuclear Radiation Theory and Engineering 3

Four of the following:

NUC E 402 Nuclear Reactor Engineering
NUC E 405 Radiation Protection and Shielding
NUC E 410 Nuclear Reactor Theory
NUC E 411 Nuclear Reactor Analysis
NUC E 441 Probabilistic Risk Assessment
NUC E 461 Radiation Detection, Measurement and Simulation
NUC E 490 Independent Study

The minor must include at least nine credits which are beyond the total used to meet curriculum requirements for the bachelor's degree in engineering.

Nuclear engineering courses are provided through an inter-institutional distance education program offered through the Web. Some of the courses that comprise this minor are offered at Iowa State University, while others are offered through four of the Big 12 Engineering Consortium universities that have formal nuclear engineering departments or programs. The four universities offering an assortment of nuclear engineering courses via web-based distance education are Texas A & M (TAMU), the University of Missouri Columbia (UMC), Kansas State University (KSU) and the University of Texas at Austin (UTA).

Courses

Courses primarily for undergraduates:

NUC E 405. Radiation Protection and Shielding. (3-0) Cr. 3. Prereq: NUC E 401. WWW only. Basic principles and concepts of radiation protection and design: dosimetric units and response functions, hazards of radiation dose, radiation sources, basic methods for dose evaluation, and shielding design techniques for photons and neutrons.

NUC E 410. Nuclear Reactor Theory. (3-0) Cr. 3. F. Prereq: NUC E 401. WWW only. An introduction to neutron diffusion theory, neutron moderation, conditions for criticality of nuclear reactors.

NUC E 430. Nuclear Energy and Society. (3-0) Cr. 3. Alt. S., offered 2012. Prereq: NUC E 401. The relationship between nuclear energy and society is examined from the perspective of significant events in the commercial nuclear power industry. Event analysis includes differences and similarities of technologies along with environmental impact. Political, social, media and regulatory responses for each event are discussed along with the impact on future plant design. Nonmajor graduate credit.

NUC E 480, Independent Study; Cr. 1-3. Repeateable, maximum of 3 credits. Prereq: Junior Classification
Investigation of nuclear engineering topics. Election of course and topic must be approved in advance by supervising faculty.

Software Engineering

Undergraduate Study

For the undergraduate curriculum in Software Engineering (http://www.se.iastate.edu) leading to the degree Bachelor of Science
This curriculum is jointly administered by the Department of Computer Science and the Department of Electrical and Computer Engineering at Iowa State University. The Software Engineering program provides undergraduate students with the opportunity to learn software engineering fundamentals, to study applications of state-of-the-art software technologies and to prepare for the practice of software engineering.

The student-faculty interaction necessary to realize this opportunity occurs within an environment motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research and outreach programs.

The software engineering curriculum offers emphasis areas in software engineering principles, process and practice. Students may also take elective courses in computer engineering and computer science.

Program Educational Objectives

Within five years of graduation, the graduates should:
1. attain a productive career in Software Engineering or related fields;
2. attain leadership roles and become effective collaborators to advance professional and organizational goals;
3. engage in continuous learning and professional development.

We expect that these objectives will be manifested in our graduates through the following five key attributes: (a) peer-recognized expertise, (b) engagement in professional practice, (c) sustained learning, (d) leadership and (e) teamwork. Demonstration of expertise involves applying state-of-the-art practices for solving problems in the design, development, validation, evolution and sustainment of (software) products. Demonstration of professional engagement involves contributing locally and globally to the use of ethical, competent, and creative practices in industry, academia or the public sector. Demonstration of sustained learning involves the ability to adapt to rapid technological, environmental, and organizational changes through self-study and group study and through opportunities of professional development or graduate study. Demonstration of leadership involves the ability to take initiative, and to facilitate the advancements of individuals and the community by influencing others and by having a widespread, positive impact on critical issues and projects. Finally, demonstration of teamwork involves the ability to work with collaborators who have varied expertise, and with diverse cultural and interdisciplinary backgrounds.

As a complement to the instructional activity, the Department of Computer Science and the Department of Electrical and Computer Engineering provide opportunities for each student to have experience with broadening activities. Students have the opportunity to gain practical industry experience in the cooperative education and internship program. Students have the opportunity to participate in advanced research activities. Through international exchange programs, students learn about engineering practices in other parts of the world.

Curriculum in Software Engineering

Administered by the Department of Electrical and Computer Engineering in the College of Engineering and the Department of Computer Science in the College of Liberal Arts and Sciences.

Leading to the degree bachelor of science.

Transfer Credit Requirements

The degree program must include a minimum of 30 credits at the 300-level or above in professional and technical courses earned at ISU in order to receive a B.S. in software engineering. These 30 credits must include S E 491 Course S E 491 Not Found, S E 492 Course S E 492 Not Found, and credits in the core professional curriculum and/or in technical electives. The software engineering degree program requires a grade of C or better for any transfer credit course that is applied to the degree program.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.

2. Choose from department approved lists.

Note: International perspectives and U.S. diversity courses are used to meet the general education electives.

Courses

Courses primarily for undergraduates:

Cr. R.
Introduction to the procedures, policies, and resources of Iowa State University and the department of Computer Science and Electrical and Computer Engineering. Information on engineering and computer-based professions.
S E 166. Careers in Software Engineering.
Cr. R.
Overview of the nature and scope of the software engineering profession. Relationship of coursework to careers. Departmental rules, student services operations, degree requirements, program of study planning, career options, and student organizations.

(3-1) Cr. 3. Prereq: Credit or enrollment in MATH 142
Introduction to software engineering and computer programming. Systematic thinking process for problem solving in the context of software engineering. Group problem solving. Solving software engineering problems and presenting solutions through computer programs, written documents and oral presentations. Introduction to principles of programming, software design, and extensive practice in design, writing, running, debugging, and reasoning about programs.

S E 298. Cooperative Education.
Cr. R. F.S.S. Prereq: Permission of department and Career Services First professional work period in the cooperative education program. Students must register for this course before commencing work.

S E 319. Software Construction and User Interfaces.
(Cross-listed with COM S). (3-0) Cr. 3. F. Prereq: MATH 228

S E 329. Software Project Management.
(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: COM S 309
(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: S E 319  
Modeling and design of software at the architectural level. Architectural styles.  
Basics of model-driven architecture. Object-oriented design and analysis. Iterative  
development and unified process. Design patterns. Design by contract. Component  
based design. Product families. Measurement theory and appropriate use of metrics  
in design. Designing for qualities such as performance, safety, security, reliability,  
reusability, etc. Analysis and evaluation of software architectures. Introduction to  
architecture definition languages. Basics of software evolution, reengineering, and  
reverse engineering. Case studies. Introduction to distributed system software.  
Nonmajor graduate credit.

S E 342. Principles of Programming Languages.  
(Cross-listed with COM S). (3-1) Cr. 3. F.S. Prereq: COM S 321; COM S 330 or CPR  
310; either COM S 309, COM S 362 or COM S 363; ENGL 250  
Study of concepts in programming languages and major programming paradigms,  
especially functional programming. Special emphasis on design tradeoffs that enable  
students to make sound choices of programming languages for a given software  
development task. Programming projects. Nonmajor graduate credit.

S E 396. Summer Internship.  
Cr. R. Repeatable. SS. Prereq: Permission of department and Career Services  
Summer professional work period.

S E 397. Software Engineering Internship.  
Cr. R. Repeatable. F.S. Prereq: Permission of department and Career Services  
One semester maximum per academic year professional work period.

S E 398. Cooperative Education.  
Cr. R. F.S.SS. Prereq: S E 298, permission of department and Career Services  
Second professional work period in the cooperative education program. Students  
must register for this course before commencing work.

S E 409. Software Requirements Engineering.  
(Dual-listed with S E 509). (Cross-listed with COM S). (3-0) Cr. 3. F. Prereq: COM S  
309, ENGL 250, SP CM 212  
The requirements engineering process, including identification of stakeholders,  
requirements elicitation techniques such as interviews and prototyping, analysis  
fundamentals, requirements specification, and validation. Use of Models: State-  
oriented, Function-oriented, and Object-oriented. Documentation for Software  
Requirements. Informal, semi-formal, and formal representations. Structural,  
informational, and behavioral requirements. Non-functional requirements. Use  
of requirements repositories to manage and track requirements through the life cycle.  
Case studies, software projects, written reports, and oral presentations will be  
required. Nonmajor graduate credit.

(Cross-listed with COM S, CPR E). (3-0) Cr. 3. Prereq: S E 319, COM S 309  
Introduction to prepositional/predicate/temporal logic, program verification using  
theorem proving, model-based verification using model checking, and tools for  
verification. Nonmajor graduate credit.

S E 416. Software Evolution and Maintenance.  
(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: COM S 309  
Practical importance of software evolution and maintenance, systematic defect  
analysis and debugging techniques, tracing and understanding large software,  
impact analysis, program migration and transformation, refactoring, tools for software  
evolution and maintenance, experimental studies and quantitative measurements  
of software evolution. Written reports and oral presentation. Nonmajor graduate credit.

(Cross-listed with COM S). (3-0) Cr. 3. S. Prereq: COM S 309, COM S 319, ENGL  
250, SP CM 212  
Comprehensive study of software testing, principles, methodologies, management  
strategies and techniques. Test models, test design techniques (black box and  
white box testing techniques), integration, regression, system testing methods, and  
software testing tools. Nonmajor graduate credit.

S E 490. Independent Study.  
Cr. arr. Repeatable. Prereq: Senior classification in software engineering  
Investigation of an approved topic.

S E 491. Senior Design Project I and Professionalism.  
(2-3) Cr. 3. Prereq: S E 329, completion of 29 credits in the S E core professional  
program, ENGL 314  
Preparing for entry to the workplace. Selected professional topics. Use of technical  
writing skills in developing project plan and design report; project poster. First of two-  
semester team-oriented, project design and implementation experience.

S E 492. Senior Design Project II.  
(1-3) Cr. 2. Prereq: S E 491  
Second semester of a team design project experience. Emphasis on the successful  
implementation and demonstration of the design completed in S E 491 and the  
evaluation of project results. Technical writing of final project report; oral presentation  
of project achievements.

S E 494. Software Engineering Portfolio Development.  
Cr. R. F.S. Prereq: Credit or enrollment in S E 491  
Portfolio assessment for Software Engineers. Guidelines and Advice to improve  
software engineering portfolios and to better use portfolios as a tool to enhance  
career opportunities.

S E 498. Cooperative Education.  
Cr. R. Repeatable. F.S.SS. Prereq: S E 398, permission of department and Career  
Services  
Third and subsequent professional work periods in the cooperative education  
program. Students must register for this course before commencing work.

Systems Engineering  
Administered by the Department of Industrial and Manufacturing Systems  
Engineering  
Work is offered for the master of engineering with a major in systems engineering.  
The graduate major in Systems Engineering is primarily an off-campus program. It is  
an interdisciplinary program that allows students to take courses across a variety of  
departments. Graduates of the program will possess the analytical abilities needed  
to design, evaluate, and build complex systems involving many components and  
demanding specifications. They will have the ability to work across disciplinary  
boundaries, as the practice of modern engineering often requires. Graduates will  
have developed management capabilities and extended their disciplinary knowledge.  
The program is broadly based and uses courses in the various departments of the  
College of Engineering and courses in other departments of the university. The 30  
credits necessary for graduation includes 30 semester credits of formal coursework.  
Completion of the program requires two courses in systems engineering, eighteen  
to twenty one credits of engineering elective, and six to nine credits outside of the  
college of engineering. Courses are delivered to off-campus students through  
various distance education systems, including video-streaming, podcasting, and ftp  
downloading.  
The student, in consultation with the faculty adviser, determines the courses to be  
taken and the acceptability of transfer credits. Admission to the program requires a baccalaureate degree in engineering and  
admission to the graduate college. Students with degrees in other areas will be  
considered on an individual basis. The degree awarded is a Master of Engineering in  
Systems Engineering.

Systems Engineering Graduate Certificate (four courses and a one credit independent study) 13 cr.

For additional information students should contact the Chair of the Supervisory  
Committee, 3004 Black Engineering Building, ISU, Ames, Iowa 50011 or visit http://  
www.eol.iastate.edu/graduate-degrees/systems-engineering-master%E2%80%99s-degree-online/  

College of Human Sciences  
Pamela White, Dean  
Carla Peterson, Associate Dean Research and Graduate Education  
Linda Serra Hagedorn, Associate Dean Undergraduate and International Studies  
www.hs.iastate.edu/  

Divisions of the College  
- Apparel, Educational Studies, and Hospitality Management  
- Food Science and Human Nutrition  
- Kinesiology
• Human Development and Family Studies
• School of Education

The College of Human Sciences provides an integrative approach to improving the quality of life for individuals, families, and communities by linking discovery, science, creativity, and practice; applying the knowledge of learning in all endeavors; and developing leaders for roles in research, education, business and industry, and health and human services.

The College of Human Sciences (CHS) was founded in 2005 and fosters innovative synergies in teaching and learning in addition to the discovery of new knowledge, and in many ways is reinventing how human potential can be enhanced. Members of the college strive to improve the quality of people’s lives - helping them learn better, live longer, and lead lives that are more productive and fulfilling.

Recommended High School Preparation

Recommended preparation for students entering most departments of the College of Human Sciences should include 4 years of English (including speech) with emphasis in composition and communication skills; 3 years each of mathematics and natural sciences, and at least 2 years of social science and/or humanities. In addition, students interested in Elementary Education or Early Childhood Education are advised to complete three or more years of high school study in one foreign language.

Information for Prospective Students

Each student in the College of Human Sciences works closely with an academic adviser who is associated with the program in which the student is majoring. In some majors, freshmen are advised by a general college adviser. After the freshman year, these students are assigned an adviser in the department of the chosen curriculum. Advisors assist students in developing academic programs and in adjusting to university life. They also provide information and guidance about career choices. Advisors attempt to assist students as they develop their schedule of classes to meet their goals, interests, and capabilities.

The college offers a number of orientation sessions during the summer for students planning to enter in the fall. Incoming students are encouraged to attend an orientation session so that academic assessments can be made and appropriate classes may be scheduled for the following term.

Open Option Status

The College of Human Sciences offers an open option for entering students who have not selected a specific area of study. An orientation course helps students explore the opportunities available. Program planning information can be obtained from the open option adviser in the College of Human Sciences Student Services Office.

Planned Transfer Programs

By careful planning, students may begin their education at another college and then transfer their courses to a curriculum within the College of Human Sciences with maximum efficiency in meeting the degree requirements. The college works closely with community colleges in Iowa and surrounding states to facilitate a transfer to Iowa State University. For more information, call 1-800-522-0683 or visit the College of Human Sciences Student Services.

Families Extension

Students may prepare for a career in the Cooperative Extension Service by enrolling in a curriculum in the College of Human Sciences that provides them with a broad subject matter base for conducting educational programs for families. Advice on choice of courses should be sought from the Family and Consumer Sciences Education and Studies program, the associate dean and director of Iowa State University Extension to Families programs, the director of Iowa State University Extension to Youth and 4-H programs, or the Extension Human Resources office.

Undergraduate Core Curriculum

Purpose

The College of Human Sciences has established core learning outcomes to provide the unifying foundation critical to personal and professional success for all College of Human Sciences undergraduate students. Assessment of College of Human Sciences’ core learning outcomes will measure student competence in four (4) areas. Assessment results will be used by CHS students, faculty and staff to enhance student learning experiences.

Four components

The core identifies the expected minimum outcomes that each undergraduate in the college must meet:

- Communication - Communicate with clear purpose, workable organization and effective style in written, oral, visual and electronic (WOVE) formats without distracting errors in usage or convention.
- Self-Assessment/Self Reflection - Consistently and realistically analyze and evaluate one’s own knowledge, abilities and actions in comparison to professional standards and create action plans to enhance personal and professional efficacy.
- Critical Thinking - Generate, acquire and evaluate information based on scientific evidence, creative processes, and logical and ethical reasoning to make decisions and solve problems in one’s personal, professional and community endeavors.
- Social Justice - Articulate and demonstrate a clear concept of a just society in which individuals and groups equitably share in societal benefits within a global community.

Expectations for departments/programs

Departments/programs are expected to identify courses at three levels where the learning outcomes will be assessed. At least one significant educational activity will be embedded in introductory, intermediate and advanced coursework for each outcome.

General Education

Students in the College of Human Sciences are required to complete a program in general education which is integrated in their professional training and extends through the undergraduate curriculum.

The general education program emphasizes intellectual growth and personal development as contrasted with specific career preparation.

The program aims to stimulate a desire for learning and intellectual endeavor, develop understanding and appreciation for the physical and cultural world, encourage independent thinking and analysis, increase competence in all aspects of communication, and create an understanding of individuals as social, psychological, and physical beings.

The student is expected to complete studies in three groups in general education. Areas represented below are not departmental titles. In some cases, courses relating to a given area may be found in several different departments. Credits listed are minimum requirements.

Minimum Group Requirements in the College of Human Sciences

I. Communication Skills (9.5 cr.): ENGL 150, ENGL 250; LIB 160; and 3 credits in oral communication
II. Biological and physical sciences and mathematical disciplines (9 cr.): at least 3 credits in mathematical disciplines
III. Social sciences and humanities (15 cr.): at least 6 credits in social sciences and at least 6 credits in humanities

Accreditation and Licensure

The following program-specific accreditation/licensure/registrations have been attained by departments within the college:

Department of Apparel, Educational Studies, and Hospitality Management:

Family and Consumer Sciences Education Teacher Licensure Program is licensed by the Iowa Department of Education and the Iowa Board of Educational Examiners. Hospitality Management is accredited by the Accreditation Commission for Programs in Hospitality Administration, the accrediting agency of the International Council on Hotel, Restaurant, and Institutional Education. Apparel Merchandising, and Design major is endorsed by the American Apparel and Footwear Association.

Department of Food Science and Human Nutrition:

Food Science and Industry, and Food Science and Technology curricula are approved by the Institute of Food Technologists. Dietetics Internship and the Didactic Program in Dietetics are accredited by the Commission on Accreditation for Dietetics Education, the accrediting agency of the American Dietetic Association.

Department of Kinesiology:

Athletic Training Option is accredited by the Commission on Accreditation of Athletic Training Education.
Department of Human Development and Family Studies:
Child Development Laboratory School is accredited by the National Association for the Education of Young Children (NAEYC), Academy for Early Childhood Programs, and licensed by the Iowa Department of Human Services.

Teacher Education and Licensure
All Iowa State University Teacher Education Programs are accredited by the Iowa Department of Education and the Iowa Board of Educational Examiners. All students who are recommended by Iowa State University for teacher licensure must meet the requirements of the University Teacher Education Program and be recommended by the CHS Associate Dean for Teacher Education. Each student will be enrolled in the department in which he or she plans to major and must meet the graduation requirements of that department and the college in which it is located. For details concerning the professional teacher education requirements and the areas of specialization requirements, see Teacher Education. (p. 27)

Majors
For more information about a major, see:
1. the curriculum descriptions in this section of the catalog
2. the department catalog section under Courses and Programs
3. department websites.

Apparel, Merchandising, and Design
Options: Merchandising; Creative and Technical Design; and Product Development and Sourcing—Administered by the Department of Apparel, Educational Studies and Hospitality Management. See Curriculum in Apparel, Merchandising, and Design (https://nextcatalog.registrar.iastate.edu/collegeofhumansciences/apparelmerchandisinganddesign/#curriculumtext)

Athletic Training
Administered by the Department of Kinesiology. See Curriculum in Kinesiology (https://nextcatalog.registrar.iastate.edu/collegeofhumansciences/kinesiology/#curriculumtext)

Child, Adult, and Family Services
Options: Child Programs; Youth Programs; and Adult/Family Programs — Administered by the Department of Human Development and Family Studies. See Curriculum in Child, Adult, and Family Services. (p. 436)

Culinary Science
Administered by the Department of Food Science and Human Nutrition. See Curriculum in Culinary Science. (p. 401).

Dietetics
Administered by the Department of Food Science and Human Nutrition. See Curriculum in Dietetics. (p. 405).

Early Childhood Education - Unified
Administered jointly by the School of Education and the Department of Human Development and Family Studies. See Curriculum in Early Childhood Education. (https://nextcatalog.registrar.iastate.edu/collegeofhumansciences/humandevelopmentandfamilystudies/#curriculumtext)

Elementary Education
Administered by the School of Education. See Curriculum in Elementary Education. (https://nextcatalog.registrar.iastate.edu/collegeofhumansciences/curriculumandinstruction/#curriculumtext)

Event Management
Administered by the Department of Apparel, Educational Studies and Hospitality Management. See Curriculum in Event Management. (p. 414)

Family and Consumer Sciences Education and Studies
Options: Communications; Professional Studies; Teacher Licensure—Administered by the Department of Human Development and Family Studies. See Curriculum in Family and Consumer Sciences Education and Studies (https://nextcatalog.registrar.iastate.edu/collegeofhumansciences/familyandconsumerscienceseducationandstudies/#curriculumtext)

Family Finance, Housing, and Policy
Administered by the Department of Human Development and Family Studies. See Curriculum in Family Finance, Housing, and Policy. (p. 439)

Food Science
Options: Consumer Food Science; Food Science and Industry; Food Science and Technology—Administered by the Department of Food Science and Human Nutrition. See Curriculum in Food Science. (p. 438)

Hospitality Management
Administered by the Department of Apparel, Educational Studies and Hospitality Management. See Curriculum in Hospitality Management. (p. 431)

International Studies (secondary major only)
The International Studies Program is an interdisciplinary program which may be taken only as a second major. Students pursuing a second major in international studies must complete the International Studies Program as described in this catalog (see Index (http://catalog.iastate.edu/azindex), International Studies).

Kinesiology & Health
Options: Community and Public Health; Exercise Science; Physical Education Teacher Education; and Pre-Health Professions —Administered by the Department of Kinesiology. See Curriculum in Kinesiology (https://nextcatalog.registrar.iastate.edu/collegeofhumansciences/kinesiology/#curriculumtext)

Nutritional Science
Options: Pre-Health Professional and Research; and Nutrition and Wellness—Administered by the Department of Food Science and Human Nutrition

Secondary Education
The College of Human Sciences provides secondary education licensure programs in conjunction with subject matter areas, or majors, offered by various departments across the university campus. These subject matter areas include agriculture, biology, chemistry, earth sciences, English, family and consumer sciences, health, history-social sciences, mathematics, music, physics, physical education, and world languages. See Index, Teacher Education. (p. 27)

Minors
Minors are available to all Iowa State students. Minors consist of at least 15 credits including 6 credits taken at Iowa State University in courses numbered 300 or above. A student may not apply the same course to two different minors. The minor must include 9 credits that are not used to meet any other department, college or university requirement. Minors are available in the following areas:

Apparel, Merchandising, and Design
Athletic Coaching
Child, Adult, and Family Services
Culinary Science
Dance
Educational Services in Family and Consumer Sciences
Event Management
Exercise Science
Family Finance, Housing, and Policy
Food Safety (interdepartmental minor)
Food Science
Gerontology (interdisciplinary minor)
Health Promotion
Hospitality Management
Learning Technologies
Kinesiology
Nutrition (two minors: non FS HN majors and department majors)
Sport and Recreation
See Index (http://catalog.iastate.edu/azindex) for minor requirements for specific departments and programs.
Certificates

Undergraduate Certificates
An undergraduate certificate provides a way to give formal recognition of focused study in a specialized area that is less comprehensive than required for an undergraduate major. At Iowa State University, an undergraduate certificate is awarded concurrently or after baccalaureate requirements are finished. The following undergraduate certificate is available in the College of Human Sciences:
- Merchandising Certificate (see http://www.aeshm.hs.iastate.edu/majors/)

Graduate Certificates
Graduate certificates provide formal recognition of focused graduate study in an area of specialization that is less comprehensive than required for a master’s degree. At Iowa State University, a graduate certificate may be earned either before, after, or concurrently with the master’s or doctoral degree. The following graduate certificates are available in the College of Human Sciences:
- Community College Leadership Certification (see www.cclp.hs.iastate.edu/)
- Community College Teaching Certificate (see www.cclp.hs.iastate.edu/)
- Dietetics Internship Certificate (see www.dietetics.iastate.edu/)
- Family Financial Planning Certificate (see www.hdfs.hs.iastate.edu/graduate/curriculum/ms-fcs/)
- Literacy Coaching Certificate (see www.education.iastate.edu/graduate/)
- Gerontology Certificate (see www.hdfs.hs.iastate.edu/graduate/curriculum/ms-fcs/)
- Instructional Design (see www.education.iastate.edu/graduate/)
- Principal Endorsement (Pre-LEAD) (see www.elps.hs.iastate.edu/edadm/edadmnhmpg3- acad.php)
- Social Justice Certificate (see www.education.iastate.edu/graduate)
- Special Education Certificate (see www.education.iastate.edu/graduate/)
- Superintendent Licensure (see www.elps.hs.iastate.edu/edadm/edadmnhmpg3- acad.php)

Double Majors
Students may elect a second major from the departments and program areas listed above, or from a major field offered for the bachelor’s degree in another college of the university. Double majors may be prohibited between majors as determined by the appropriate curriculum committees.

The major departments must approve the degree program, and if those majors involve two colleges, both deans must approve. Such programs must fulfill the general education requirements of the college of the primary major. If one major leads to the B.A. degree and the other to the B.S. degree, the degree awarded will be the one offered by the department of the primary major. If the primary major may lead to either a B.A. or a B.S., a student may choose to receive either degree. In this case, the student must satisfy the requirements of each major and of the degree that is chosen for the primary major.

Students with a primary major in another college who wish to take a second major in the College of Human Sciences are required to meet all requirements for the major, prerequisites and supporting courses.

Two Bachelor’s Degrees
Any degree offered by the College of Human Sciences may be earned together with a degree in this or any other college of the university. For the requirements for two degrees, see Index (http://catalog.iastate.edu/azindex), Two Bachelor’s Degrees.

International and Cross Cultural Programs
International experience opportunities are available and encouraged through the College of Human Sciences to broaden international and cross-cultural perspectives. Scholarships and other forms of financial assistance are available which provide partial support for students studying abroad. The College has established programs with a variety of colleges and universities around the world including Glasgow Caledonian University, Glasgow, Scotland; University of Otago, Dunedin, New Zealand; the International College of Hospitality Administration, Brig, Switzerland; the London College of Fashion, London, England; Lorenzo de Medici, Florence, Italy; Academia Italiana, Florence, Italy; and Paris American Academy, Paris, France. Students also have an opportunity to participate in group study abroad programs to Europe, Africa, Central and South America, and Asia. Other opportunities may be developed through consultation with the college director of international experiences and the student’s adviser; for example, students have acquired internships and studied in such countries as Kenya, Rwanda, Spain, Puerto Rico, Ireland, Guatemala, Switzerland, England, Australia, Germany, and France. Faculty members bring diversity and global perspectives to instruction and research through their work in India, South Korea, Central and South America, Pakistan, Africa, and Europe.

Honors Program
High achieving students, with a grade point average of above 3.50, are invited to apply to the Honors Program. Honors students are encouraged to develop a creative program of study expanding their interests while meeting individual educational objectives. Students in the Honors Program also participate in University Honors Seminars, Honors Courses and complete an honors project. For further information, contact the College Honors Committee or academic adviser. Also see Index (http://catalog.iastate.edu/azindex), Honors Program.

Preparation for Graduate Study
Students considering graduate studies should gain background knowledge in basic subjects related to their area of interest. Undergraduate mathematics, statistics, and research methods courses are useful as preparation for advanced study in graduate school. Upon completion of graduate programs, students are qualified for leadership positions in public and private institutions and for teaching, research, and extension positions in colleges and universities.

- School of Education - www.education.iastate.edu

Graduate study in the College of Human Sciences is conducted through the Graduate College. Details are found in the Graduate College section of this catalog, (www.grad-college.iastate.edu) and on department websites.

Athletics
Administered by the Department of Kinesiology (p. 445).

Courses

Courses primarily for undergraduates:

ATH 101. Intercollegiate Athletics.
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101B. Intercollegiate Athletics: Basketball (men).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101C. Intercollegiate Athletics: Basketball (women).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101D. Intercollegiate Athletics: Cross Country (men).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101E. Intercollegiate Athletics: Cross Country (women).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101G. Intercollegiate Athletics: Golf (men).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101J. Intercollegiate Athletics: Gymnastics (women).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101K. Intercollegiate Athletics: Softball (women).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101M. Intercollegiate Athletics: Swimming/Diving (women).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101N. Intercollegiate Athletics: Tennis (women).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101P. Intercollegiate Athletics: Track and Field (men).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101Q. Intercollegiate Athletics: Track and Field (women).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101R. Intercollegiate Athletics: Volleyball (women).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101T. Intercollegiate Athletics: Golf (women).
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

Curriculum and Instruction

Missions and Goals
The Department of Curriculum and Instruction aspires to prepare transformative leaders in teaching, learning, and curriculum within diverse pre-K-16 settings through exemplary teaching, research and outreach. In order to reach this vision, we have the following mission. As an engaged community of scholars and teacher educators, we seek to:

- Enhance Iowa's families, schools, and communities through exemplary education and teacher preparation;
- Provide educators and students with the knowledge, skills, and experience necessary to become transformative leaders in an increasingly changing and interdependent world; and
- Support the advancement of specialized academic disciplines through exemplary research and scholarship.

Undergraduate Study

The Department of Curriculum and Instruction provides the professional education coursework that leads to licensure of pre-service teachers. Majors offered in the department include Elementary Education (K-6), and Early Childhood Education-Unified (birth through age 8). The Early Childhood Education-Unified major is an interdepartmental program administered by the Departments of Curriculum and Instruction and Human Development and Family Studies.

Students who are interested in teaching at the secondary level (7-12) major in a specific discipline (e.g. Mathematics, Science, English, Social Studies) and complete the additional coursework in Curriculum and Instruction required for a teaching license.

Editor's Note: The Iowa Board of Educational Examiners has mandated changes to the teacher licensure requirements which will impact students graduating after September 1, 2015. Students must consult with an education academic advisor to review these curriculum changes.

Elementary Education and Early Childhood Education-Unified majors must complete a professional course sequence:

- C I 201 Learning Technologies in the PK-6 Classroom 3
- C I 204 Social Foundations of Education in the United States 3
- C I 245 Strategies in Teaching 2
- C I 268 Strategies Practicum 1
- C I 332 Educational Psychology of Young Learners 3
- C I 406 Multicultural Foundations of School and Society: Introduction 3
- SP ED 250 Education of the Exceptional Learner in a Diverse Society 3

Total Credits 18

Secondary education students must complete a professional course sequence:

- C I 202 Learning Technologies in the 7-12 Classroom 3
- C I 204 Social Foundations of Education in the United States 3
- C I 333 Educational Psychology 3
- C I 406 Multicultural Foundations of School and Society: Introduction 3
- SP ED 401 Teaching Secondary Students with Exceptionalities in General Education 3

Total Credits 15

Some secondary licensure areas also require C I 426 Principles of Secondary Education.

The Curriculum and Instruction department offers a minor in Learning Technologies that may be earned by registering for the program and completing the following courses:

- C I 201 Learning Technologies in the PK-6 Classroom or C I 202 Learning Technologies in the 7-12 Classroom 3
- COM S 107 Applied Computer Programming 3
- or COM S 207 Fundamentals of Computer Programming 3
- or MAT E 370 Toying with Technology 3
- or CPR E 370 Toying with Technology 3
- C I 280B Pre-Student Teaching Experience: Learning Technologies 1-2
- C I 302 Principles and Practices of Learning with Technology 3
- C I 407 Principles and Practices of Distance Learning 3
- C I 454 Emerging Topics in Learning Technologies (3 credits required) 3

Total Credits 14-17

The Department of Curriculum and Instruction offers courses that can lead to a reading endorsement for grades K-8 or grades 5-12. Students seeking a K-8 endorsement should consult with a Curriculum and Instruction academic advisor. The 5-12 endorsement is offered collaboratively with the English Department. Students
Graduates of the elementary education program will be able to demonstrate:

- their understanding of concepts and structures of disciplines, tools of inquiry, how students learn and develop, and the effects of individual differences on learning;
- a broad range of instructional strategies, including knowledge of technology applicable to instruction;
- the ability to stimulate active inquiry with collaboration and supportive interaction among their students; and
- their ability to develop professional relationships with colleagues, parents, and agencies that support students and their learning in appropriate settings.

## Early Childhood Education-Unified

The curriculum in Early Childhood Education – Unified is planned for students preparing to teach young children and work with their families. This program leads to careers in working with young children (both those who are typically developing and those with special needs) from birth through age eight. Graduates in this curriculum may teach in early childhood (preschool and primary) classrooms or home based programs, with emphasis on inclusive services. Graduates may be employed by either public or private agencies or schools. This curriculum has been approved by the Iowa Department of Education and meets requirements for the early childhood education - unified teacher license. The program is an interdepartmental major administered by the Department of Curriculum and Instruction and the Department of Human Development and Family Studies within the College of Human Sciences.

Early childhood education-unified majors must satisfy a world languages requirement for graduation.

Students who enroll in early childhood education-unified must apply to and be accepted into the teacher education program prior to enrolling in advanced courses. All early childhood education-unified students, including those seeking a double major, must meet general education requirements for teacher licensure.

Iowa State University is in compliance with the Iowa Department of Education’s mandate for a performance-based system of teacher training. The State of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the twelve Iowa State University Teacher Education Standards and the eight State of Iowa Teaching Standards, along with other information about the University Teacher Education Program, can be found at [http://www.teacher.hs.iastate.edu/](http://www.teacher.hs.iastate.edu/), the teacher education website. Additional information is also available from the student’s academic advisor. Students in early childhood education – unified must meet the performance outcome standards for teacher licensure. Standards are assessed in coursework through artifacts such as assignments, projects, or practicum participation. These standards assessments are based on the early childhood content standards for endorsement 100 in the State of Iowa. These include competencies in (1) child growth, development, and learning, (2) developmentally appropriate learning and curriculum implementation, (3) health, safety, and nutrition, (4) family and community collaboration, and (5) professionalism. Pre-student teaching field experiences and student teaching experiences in at least two different settings is required. Students will receive both formative and summative evaluations of their progress toward meeting these outcomes throughout their program at Iowa State University.

### Elementary Education

The undergraduate curriculum in elementary education leads to the Bachelor of Science degree.

The curriculum in elementary education is planned for students preparing to teach at the elementary school level. This program leads to careers in working with school-aged children in kindergarten through sixth grade. Graduates in this curriculum may teach in elementary classrooms in either public or private schools.

Endorsements in art, English/language arts, English as a Second Language (ESL), health, history, music, basic science, social studies, mathematics, special education (Instructional Strategist I: Mild/Moderate Disabilities K-8), and speech communication in theater are available for elementary education students. An endorsement for teaching world languages in elementary schools is available through the Department of World Languages and Cultures.

Elementary education majors must satisfy a world languages requirement for graduation.

Students who enroll in elementary education must apply and be accepted into the teacher education program prior to enrolling in advanced elementary education courses. Iowa Department of Education licensure requirements state that every student must meet the performance outcome standards for teacher licensure. Standards will be assessed in each course and students will receive both formative and summative evaluations of their progress toward meeting these standards throughout their program at Iowa State University. A detailed explanation of the standards and assessment process may be found on the department’s website ([http://www.ci.hs.iastate.edu/](http://www.ci.hs.iastate.edu/)). The same information is also available from the student’s academic advisor.

Graduates of the elementary education program will be able to demonstrate:

- the ability to stimulate active inquiry with collaboration and supportive interaction among their students; and
- their ability to develop professional relationships with colleagues, parents, and agencies that support students and their learning in appropriate settings.

## Secondary Education

For specific requirements for each area of specialization, see Teacher Education ([http://catalog.iastate.edu/collegeofliberalartsandsciences/teachereducation](http://catalog.iastate.edu/collegeofliberalartsandsciences/teachereducation)) and curricula for the college in which the chosen degree major is sought.

Students seeking recommendations for a license to teach in the secondary schools must be admitted to the teacher education program and pursue a program that includes the professional core:

- C 1 202 Learning Technologies in the 7-12 Classroom 3
- C 1 204 Social Foundations of Education in the United States 3
- C 1 333 Educational Psychology 3
- C 1 406 Multicultural Foundations of School and Society: Introduction 3
- C 1 426 Principles of Secondary Education 3
- SP ED 401 Teaching Secondary Students with Exceptionalities in General Education 3

Total Credits 18

Notes:

- Students seeking licensure in physical education, agriculture and science do not take C 1 426 Principles of Secondary Education.
- Students seeking a teaching license in physical education must see an advisor in the Department of Kinesiology in the College of Human Sciences.
- All students who are recommended by Iowa State University for teacher licensure must meet the requirements of the teacher education program and be recommended by the Associate Dean for Teacher Education.
- Each student must meet the performance outcome standards for teacher licensure. Each standard will be assessed in every major. Students will receive both formative and summative evaluations of their progress toward meeting these outcomes throughout their program at Iowa State University.
- A detailed explanation of the standards and assessment process may be found at [http://www.teacher.hs.iastate.edu/](http://www.teacher.hs.iastate.edu/). For more information, students should contact the academic advisor in their major. Each student will be enrolled in the department in which he or she plans to major, and must meet the graduation requirements of that department and the college in which it is situated.

## Graduate Study

The Department of Curriculum and Instruction offers work for the degrees Master of Science, Master of Education, and Doctor of Philosophy with a major in education and minor work to students taking major work in other departments. Within the education major in the Department of Curriculum and Instruction a student may earn an education degree with no area of specialization (master’s and doctorate) or specialize in special education (master’s only), or curriculum and instructional technology (master’s and doctorate). The special education specialization is designed to prepare candidates as practitioners and researchers in the field of mild/moderate disabilities or behavioral disorders/learning disabilities. The specialization in curriculum and instructional technology is designed to prepare candidates as researchers and practitioners in the fields of curriculum and instructional technology. Students may also opt not to select an area of specialization. These students are asked to select a focus area for their graduate study. Focus areas include educational foundations, world language education, literacy education, mathematics education, multicultural education and international curriculum studies, and science education. See the Curriculum and Instruction web site at [http://www.ci.hs.iastate.edu/](http://www.ci.hs.iastate.edu/) for more information on these focus areas.

A minor is available in curriculum and instructional technology at both the master’s and doctoral level. Information about the minors can be found on the web at [http://www.ctlt.iastate.edu/student/degree_programs.php](http://www.ctlt.iastate.edu/student/degree_programs.php). Prerequisite to major graduate work in education is preparation substantially equivalent to the completion of one of the undergraduate curricula in education offered at Iowa State University, or graduate preparation in a discipline to be used as a teaching field in a community college or university, and adequate proof that
the student ranks above average in scholastic ability and promise of professional competence.

The world language requirement, if any, for the Ph.D. degree will be determined by the student's program of study committee. If no world language is required, the total program must consist of a minimum of 78 semester credits, at least 12 of which must be earned outside the education major, and at least 16 of which must be earned outside the area of specialization. Statistics and research methods may not be included in the 16 credits. Should world language be included, the program of study committee may adjust the minimum program requirement downward, but in no instance may the program of study be less than 72 semester credits. Students whose native language is not English may substitute competence in English. All applicants for the Ph.D. must submit Graduate Record Examination (GRE) scores.

Other graduate programs related to education (including General Graduate Studies) may be planned for students on the basis of previous education and experiences as well as future plans and needs. Students should refer to Agricultural Education and Studies, Family and Consumer Sciences Education, Kinesiology, Educational Leadership and Policy Studies, and General Graduate Studies or to graduate level course offerings within other departments.

**Graduate Teacher Licensure Programs**

A Master of Arts in Teaching degree program leading to teacher licensure (science only) is available to students who currently have a bachelor's degree in science (or a closely related field). A teacher licensure program in mathematics education is also available to graduate students (Department of Curriculum and Instruction). Teacher licensure at the graduate level is also offered in agricultural education (College of Agriculture and Life Sciences) and family and consumer sciences (College of Human Sciences). The Department of Curriculum and Instruction provides the professional education coursework.

Students in a graduate teacher licensure program must complete:

- **SP ED 501** Teaching Secondary Students with Exceptionalities in General Education 3
- **C I 505** Using Technology in Learning and Teaching 3
- **C I 506** Multicultural Foundations of School and Society: Advanced 3
- **C I 529** Educational Psychology and the Secondary Classroom 3
- **H P C 504** Studies in the Foundations of Education in the United States 3

Total Credits: 15

Mathematics licensure students also take C I 526 Principles of Secondary Education. Graduate level teaching endorsements are offered through the Department of Curriculum and Instruction. Graduate students who seek a teaching endorsement in special education, but do not wish to pursue a master's degree can incorporate those courses in a professional certificate program. Endorsement programs include Instructional Strategist I: Mild/Moderate Disabilities (K-8 or 5-12), or Instructional Strategist II: Behavior Disorders/Learning Disabilities, and special education consultant. A graduate level reading endorsement is also available.

**Graduate Certificate Programs**

The Department of Curriculum and Instruction offers Graduate Certificate programs to allow students to enhance their skills outside of full degree programs. The Certificate programs currently offered include Instructional Design, Literacy Coaching, and Special Education.

The Instructional Design Certificate is designed for those working in education, training, professional development, design, and/or outreach who wish to accredit and enhance their knowledge and skills in instructional design. All credits earned toward the Instructional Design Certificate are Iowa State University graduate credits and can be earned before, after, or concurrently with a master or doctoral degree. More information about the Instructional Design Certificate is available at http://www.ci.hs.iastate.edu/gcert-id/.

The Literacy Coaching Certificate program consists of a series of advanced graduate level courses (17 semester credits) aimed at preparing eligible classroom teachers, instructional leaders, and other school personnel to serve in literacy leadership roles with the goal of improving teacher practices and student achievement in diverse PreK-12 school settings. The Literacy Coaching Certificate program provides a unique opportunity to develop deep expertise in literacy research, policy, and practice, as well as skill in leadership at a leading university supported by two outstanding programs within the College of Human Sciences at Iowa State University: Literacy Education and Educational Administration. More information about the Literacy Coaching Certificate is available at http://www.ci.hs.iastate.edu/literacy/index.php.

The Special Education Certificate program also includes courses that will prepare those who hold a teaching license in Special Education. Both the Instructional Strategist I: Mild/Moderate Disabilities (K-6 and 712) and the Instructional Strategist II: Behavior Disorders/Learning Disabilities endorsements are available. The programs use a hybrid distance education model to provide accessible coursework, combining video conferencing with a limited number of on-campus sessions. More information about the Special Education Certificate program is available at http://www.ci.hs.iastate.edu/spedgradprosp.php.

**Curriculum in Elementary Education**

The curriculum in Elementary Education is planned for students preparing to teach in grades kindergarten through six. For additional information, see Index, Elementary Education.

Teaching endorsements in areas closely related to elementary education, are available for elementary education majors. These include Art, English as Second Language K-12, English/Language Arts, Health, History, Mathematics, Music, Science (basic), Social Studies, Special Education (Instructional Strategist I: Mild/Moderate K-6), Speech Communication/Theater, World Language. See Teacher Education, Courses and Programs, for additional information about endorsements.

Additional teaching endorsements, available at the graduate level to individuals who hold a valid Iowa teaching license, include the following: K-6 world language, reading, and special education (Instructional Strategist II: Behavior Disorders/Learning Disabilities, ages 5-21).

A minor in learning technologies is available; see requirements under Curriculum and Instruction Courses and Programs.

**Communication Proficiency**

To meet graduation requirements, all students must have a C (2.0) or better for each of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition.

**U.S. Diversity and International Perspectives**

To meet graduation requirements, all students must complete 3 cr. of course work in U.S. Diversity and 3 cr. in International Perspectives. See department for approved lists of courses.

**World Language and Culture Requirement**

Elementary education majors must satisfy a graduation requirement equivalent to the first year of university-level study in one world language (normally, completion of a two-semester sequence in any one world language). The requirement may be met by completion of three or more years of high school study in one world language.

Students who have completed three or more years of French, German, or Spanish in high school may not receive graded credit for WLC 101/102 in those languages; test-out credit (T credit) may be obtained by passing an appropriate examination or by completing an advanced sequence (200-level or higher) in that language. If these students choose to take WLC 101/102 on a remedial basis, they will be graded S-F.

Certification in American Sign Language is recognized by the University and satisfies the world languages requirement for the curriculum in elementary education.

Total credits required: 128.5.

**General Education* : 45.5**

**Communication skills:**

- **LIB 160** Information Literacy 1
- **ENGL 150** Critical Thinking and Communication 3
- **ENGL 250** Written, Oral, Visual, and Electronic Composition 3

**Select one of the following:**

- **COMST 102** Introduction to Interpersonal Communication 3
- **COMST 218** Conflict Management
- **COMST 317** Small Group Communication
- **SP CM 212** Fundamentals of Public Speaking
- **SP CM 312** Business and Professional Speaking
- **SP CM 313** Communication in Classrooms and Workshops
- **SP CM 322** Argumentation, Debate, and Critical Thinking
- **SP CM 327** Persuasion

Total Credits: 10

**Social sciences:**

- **HD FS 102** Individual and Family Life Development 3
- **PSYCH 230** Developmental Psychology 3
- **American Government or American History** 3
Required courses: 24 Credits

Professional education**: 68 cr.

**Area of specialization**: 18 cr.

(Require 24 cr.; 9 cr. from an area specialization may be used to meet other requirements.)

**Mathematics**: 21 Credits

One of the following:

**Iowa State University - DRAFT COPY**

† Must receive a C or above in each of the courses listed
(3-0) Cr. 3. F.S.SSS.
Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis is placed on topics and tensions in the relationship between school and society (e.g. equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning in public schools. Designed for prospective teachers.

C I 208. Early Childhood Education Orientation.
(Cross-listed with HD FS). Cr. 1. F.S. Prereq: Restricted to ECE majors
Overview of early childhood education (birth-grade 3) teacher licensure requirements. Program planning and university procedures. Required of all students majoring in early childhood education. Offered on a satisfactory-fail basis only.

C I 216. Learning Community Orientation to Teacher Education.
(1-0) Cr. 1. F. Prereq: First semester freshman Elementary Education major or other majors interested in seeking pre-K to grade 12 teacher certification Learning community for transition to university community life. Overview of pre-K to grade 12 teacher certification requirements in Iowa and other states. Program and career planning. Offered on a satisfactory-fail basis only.

Cr. 1. F.S. Prereq: Students seeking teacher licensure in mathematics, science family and consumer sciences, or history/social sciences in grades 5-12 Overview of mathematics, science, family and consumer sciences and history/social sciences secondary education (grades 5-12), teacher licensure requirements in Iowa and other states. Program and career planning.

C I 245. Strategies in Teaching.
(2-0) Cr. 2. F.S. Prereq: C I 204; HD FS 220 or HD FS 224 or HD FS 226 2 (or concurrent enrollment in one of these courses); concurrent enrollment in C I 268; sophomore standing
Introduction to elementary education teaching strategies, classroom management, and curriculum organization. Open to students in the elementary education curriculum or the early childhood education curriculum.

C I 268. Strategies Practicum.
(0-2) Cr. 1. F.S. Prereq: C I 204
Clinical experience, to be taken concurrently with C I 245. Offered on a satisfactory-fail basis only.

C I 280. Pre-Student Teaching Experience.
(1-8) Cr. 0.5-2. Repeatable. F.S.SS. Prereq: C I 280A may be taken alone Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280A. Pre-Student Teaching Experience: Teacher Aide.
(1-8) Cr. 0.5-2. Repeatable. F.S.SS. Prereq: C I 280A may be taken alone. Restricted to students with full admission to the University Teacher Education Program. Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280B. Pre-Student Teaching Experience: Learning Technologies.
(1-8) Cr. 1-2. Repeatable. F.S. Prereq: C I 201 or 202; permission of instructor for 2 credits.
Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280C. Pre-Student Teaching Experience: Native American Tutoring.
(1-8) Cr. 1. Repeatable. F.S.SS. Prereq: C I 280A may be taken alone. For enrollment in C I 280B-I, C I 280A must be either a prerequisite or taken concurrently Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280D. Pre-Student Teaching Experience: Museum Education.
(1-8) Cr. 0.5-2. Repeatable. F.S.SS. Prereq: C I 280A may be taken alone. For enrollment in C I 280B-I, C I 280A must be either a prerequisite or taken concurrently Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280E. Pre-Student Teaching Experience: Multicultural Youth Experience.
(1-8) Cr. 0.5-2. Repeatable. F.S.S.S. Prereq: C I 280A may be taken alone. For enrollment in C I 280B-I, C I 280A must be either a prerequisite or taken concurrently Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280F. Pre-Student Teaching Experience: International Student.
(1-8) Cr. 0.5-2. Repeatable. F.S.S.S. Prereq: C I 280A may be taken alone. For enrollment in C I 280B-I, C I 280A must be either a prerequisite or taken concurrently. Permission of instructor required. Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280G. Pre-Student Teaching Experience: Mild/Moderate Disabilities.
(1-8) Cr. 1-2. Repeatable. F.S.SS. Prereq: C I 280A may be taken alone. For enrollment in C I 280B-I, C I 280A must be either a prerequisite or taken concurrently. Concurrent with SP ED 330. Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280H. Pre-Student Teaching Experience: Secondary Science.
(1-8) Cr. 1-2. Repeatable. F.S.SS. Prereq: C I 280A may be taken alone. For enrollment in C I 280B-I, C I 280A must be either a prerequisite or taken concurrently Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280I. Pre-Student Teaching Experience: Multicultural Science.
(1-8) Cr. 1-2. Repeatable. F.S. Prereq: Permission of department required. Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280J. Pre-Student Teaching Experience: Cohort Field Experience.
(1-8) Cr. 1-2. Repeatable. F.S. Prereq: Permission of department required. Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280K. Pre-Student Teaching Experience: Art Education Field Experience.
(1-8) Cr. 1-2. Repeatable. F.S. Prereq: C I 280A may be taken alone. For enrollment in C I 280B-I, C I 280A must be either a prerequisite or taken concurrently Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280L. Pre-Student Teaching Experience: Field Science.
(1-8) Cr. 1-2. Repeatable. F.S.SS. Prereq: C I 280A may be taken alone. For enrollment in C I 280B-I, C I 280A must be either a prerequisite or taken concurrently Field experience in area educational settings. Concurrent with SP ED 330. Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280M. Pre-Student Teaching Experience: Multicultural Science.
(1-8) Cr. 1-2. Repeatable. F.S. Prereq: Permission of department required. Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280N. Pre-Student Teaching Experience: Multicultural Science.
(1-8) Cr. 1-2. Repeatable. F.S. Prereq: Permission of department required. Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280O. Pre-Student Teaching Experience: Art Education Field Experience.
(1-8) Cr. 1-2. Repeatable. F.S. Prereq: C I 280A may be taken alone. For enrollment in C I 280B-I, C I 280A must be either a prerequisite or taken concurrently Field experience in area educational settings. 2 1/2-hour blocks of time needed for field experience. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280P. Pre-Student Teaching Experience: Pre-Student Teaching Experience for ESL.
(0-4) Cr. 1. Repeatable, maximum of 2 times. F.S. Pre-student teaching experience in a school setting. Level two clinical experience for students who are pursuing the ESL endorsement. Students will be required to teach one lesson.

C I 290. Independent Study.
Cr. 1-3. Prereq: 6 credits in education, permission of department chair Independent study, under faculty supervision, of a topic in the field of education.

(2-2) Cr. 3. F.S. Prereq: C I 201 or C I 202 Advanced integration of learning technologies into K-12 educational contexts. Students will examine current trends in the use of learning technologies with K-12 students; explore the use of Web 2.0 applications in the classroom; and delve into issues and trends in classroom technology use. Required for Learning Technologies minor.

C I 315. Transfer Orientation.
Cr. 1. F.S. Overview of elementary education requirements, curricular opportunities, and university procedures. Program planning. Required of all transfer students majoring in elementary education. Offered on a satisfactory-fail basis only.
C I 332. Educational Psychology of Young Learners. (3-0) Cr. 3. F.S. Prereq: PSYCH 230 or HD FS 102, open only to majors in Early Childhood Education or Elementary Education
C I 333. Educational Psychology. (Cross-listed with PSYCH); (3-0) Cr. 3. F.S. Prereq: PSYCH 230 or HD FS 102, application to the teacher education program or major in psychology
Classroom learning with emphasis on theories of learning and cognition, and instructional techniques. Major emphasis on measurement theory and the classroom assessment of learning outcomes.
C I 347. Nature of Science. (Dual-listed with C I 547); (3-0) Cr. 3. F. Prereq: C I 280M; concurrent enrollment in C I 418 or instructor permission
The intersection of issues in the history, philosophy, sociology, and psychology of science and their application to and impact on science teaching and learning, science teacher education, and science education research.
C I 377. The Teaching of Reading and Language Arts in the Primary Grades (K-3). (4-0) Cr. 4. F.S.S.S. Prereq: admission to teacher education program. C I 1245, SP ED 250, HD FS 240, HD FS 226 (Ed Majors) or HD FS 221 (EC/CE Majors); concurrent enrollment in C I 448A, C I 468A (Ed Majors) or C I 448B, C I 468B, SP ED 368, HD FS 343 (EC/CE Majors)
Theories, teaching strategies, and instructional materials pertinent to teaching reading, writing, listening, and speaking to children in kindergarten through third grade.
C I 378. The Teaching of Reading and Language Arts in the Intermediate Grades (4-6). (4-0) Cr. 4. F.S.S.S. Prereq: C I 377; concurrent enrollment in C I 449, C I 468B, C I 468D
Theories and processes of literacy. Application through reading and writing across the curriculum, integration of language arts, literature-based instruction, and metacognitive strategies.
C I 395. Teaching Reading in Middle and Secondary Schools. (Dual-listed with C I 595); (3-0) Cr. 3. F. Prereq: C I 204 and junior standing
Analysis and application of strategies to enhance students' literacy development in middle and secondary school settings.
C I 406. Multicultural Foundations of School and Society: Introduction. (3-0) Cr. 3. F.S.S.S. Prereq: C I 201 or C I 202, C I 332 or C I 533; junior classification, admission to teacher education program
Awareness and nature of cultural pluralism; need for multicultural education; multicultural concepts and theories; cultural groups - their perceptions, needs, and contributions; problems and issues regarding ethnocentrism, prejudice, and discrimination based on race, ethnicity, socioeconomic class, sex/gender, sexual identity, and language in the school environment; curriculum infusion and transformation, multicultural interaction, design and execution of teaching strategies. Meets U.S. Diversity Requirement
C I 407. Principles and Practices of Distance Learning. (Dual-listed with C I 507). (2-2) Cr. 3. F.S.SS. Prereq: C I 201 or C I 202; convenient access to the Web
Review of flexible and distance learning (FDL) cases in a variety of contexts and pedagogic styles, identification of underlying principles and frameworks for best practice in this field.
C I 416C. Supervised Student Teaching - Elementary: World Language. Cr. arr. F.S. Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required
Supervised teaching experience in the elementary grades.
C I 416D. Supervised Student Teaching - Elementary: World Language. Cr. arr. F.S. Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required
Supervised teaching experience in the elementary grades.
C I 416E. Supervised Student Teaching - Elementary: International Student Teaching - Primary grades. Cr. arr. F.S. Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required
Supervised teaching experience in the elementary grades.
C I 416F. Supervised Student Teaching - Elementary: International Student Teaching - Intermediate grades. Cr. arr. F.S. Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required
Supervised teaching experience in the elementary grades.
C I 417. Student Teaching. (Cross-listed with ENGL). Cr. arr. F.S. Prereq: GPA 4.94, admission to teacher education, approval of coordinator the semester prior to student teaching
Full-time teaching in secondary English: long term and unit planning, lesson planning, classroom teaching practice in English language arts.
C I 417A. Student Teaching: Social Studies-Middle School. (Dual-listed with C I 517A). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.
C I 417B. Student Teaching: Physical Sciences. (Dual-listed with C I 517B). Cr. arr. F.S. Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching
Supervised student teaching in the liberal arts at the secondary level.
C I 417C. Student Teaching: Mathematics. (Dual-listed with C I 517C). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.
C I 417D. Student Teaching: Biological Sciences. (Dual-listed with C I 517D). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.
C I 417E. Student Teaching: English and Literature. (Cross-listed with ENGL). Cr. arr. F.S. Prereq: GPA 4.94, admission to teacher education, approval of coordinator the semester prior to student teaching
Full-time teaching in secondary English: long term and unit planning, lesson planning, classroom teaching practice in English language arts.
C I 417G. Student Teaching: World Language. (Dual-listed with C I 517G). (Cross-listed with WLC). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.
C I 417J. Student Teaching: Earth Sciences. (Dual-listed with C I 517J). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.
C I 417M. Student Teaching: Science-Basic. (Dual-listed with C I 517M). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.
C I 417N. Student Teaching: International. (Dual-listed with C I 517N). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.
C I 417P. Student Teaching: Social Studies-High School. (Dual-listed with C I 517P). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.
C I 417R. Student Teaching: Music-Elementary.
(Dual-listed with C I 517R). (Cross-listed with MUSIC). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching.
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 417S. Student Teaching: Music-Secondary.
(Dual-listed with C I 517S). (Cross-listed with MUSIC). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching.
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

(Dual-listed with C I 518). (2-0) Cr. 2. F. Prereq: C I 280M; concurrent enrollment in C I 347 and C I 468J.
Development of a research-based framework for teaching science that includes student goals, congruent student actions, the character and role of science inquiry, teaching behaviors and strategies, contemporary learning theories, and self evaluation.

C I 419. Secondary Science Methods II.
(Dual-listed with C I 519). (2-0) Cr. 2. S. Prereq: C I 418 or C I 518, undergraduate students must register concurrently for C I 468K.
Advancing a research-based framework for teaching science in a variety of school settings, emphasizing the teacher’s role, the development and revision of science curriculum, exceptional learners, content area reading strategies, management strategies, technology and student assessment.

(Dual-listed with C I 520). (3-0) Cr. 3. F. Prereq: C I 406.
Introduction to research on bilingualism and examination of the social, historical, and political contexts of bilingual education in U.S. schools. Attention to policy environment, school program structure, mode of classroom instruction, family and community context, and attainment of bilingualism and biculturalism for U.S. Mexican youth.

C I 426. Principles of Secondary Education.
(Dual-listed with C I 526). (3-0) Cr. 3. F.S.SS. Prereq: C I 202, senior classification, admission to teacher education program.
The curriculum, human relations, student evaluation, support services, classroom management, organization of schools, legal aspects of schools, professionalism, and career planning.

C I 433. Teaching Social Studies in the Primary Grades.
(2-0) Cr. 2. F.S. Prereq: C I 377, HD FS 224; concurrent enrollment in C I 439, SP ED 355, SP ED 455.
Emphasis is placed on providing appropriate social studies learning experiences (e.g. curriculum content, instructional strategies, and assessment) for primary grade children.

C I 438. Teaching Mathematics in the Primary Grades.
(2-0) Cr. 2. F.S. Prereq: HD FS 224; MATH 195, MATH 196 (minimum grade of C- in both Math 195 and MATH 196), concurrent enrollment in C I 377, C I 468B, C I 468G, SP ED 368.

C I 439. Teaching Science in the Primary Grades.
(2-0) Cr. 2. F.S. Prereq: C I 377, HD FS 224; concurrent enrollment in C I 433, C I 468I, SP ED 355, SP ED 455.
Study, development, and application of current methods for providing appropriate science learning experiences and processes for primary grade children. Formal and informal assessment strategies and instructional methods for diverse learners.

C I 443. The Teaching of Social Studies.
(3-0) Cr. 3. F.S.SS. Prereq: C I 377.
Emphasis is placed on providing appropriate social studies learning experiences (e.g. curriculum content, instructional strategies, and assessment) for primary and intermediate grade children.

C I 448. Teaching Children Mathematics.
(3-0) Cr. 3. F.S.SS. Prereq: MATH 195 (minimum grade of C-), MATH 196 (minimum grade of C-); concurrent enrollment in C I 377, C I 468A, C I 468C.
Study, development, and application of current methods for providing appropriate mathematical learning experiences for primary and intermediate children. Includes critical examination of factors related to the teaching and learning of mathematics.

C I 449. The Teaching of Science.
(3-0) Cr. 3. F.S.SS. Prereq: C I 377, concurrent enrollment in C I 378, C I 468B, C I 468D, junior classification.
Procedures for teaching science to children. Emphasis on developmental implications, teaching processes and methods, current programs, and assessment of learning in science.

C I 450. Ethnicity and Learning.
(Dual-listed with C I 550). (3-0) Cr. 3. Alt. S.. Admission to the 2012 TPR program.
Prereq: C I 332 or C I 333, C I 406.

C I 452. Corrective Reading.
(Dual-listed with C I 552). (3-0) Cr. 3. S. Prereq: C I 378 or equivalent; undergraduate students must register concurrently for SP ED 365, SP ED 436; graduate students must have a teaching license.
Identification, analysis and correction of reading problems in five areas: print knowledge, integration of print knowledge, oral reading fluency, vocabulary, and comprehension.

C I 454. Emerging Topics in Learning Technologies.
(2-0) Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: C I 201 or C I 202.
Development and application of emerging technology topics related to digital learning. Series of 1-3 credit on-line learning modules on topics such as grant writing, interactive on-line tools, social networking, gaming technologies, technology leadership in schools, and web/graphic design. Required for the Learning Technologies minor.

C I 456. Integrating Technology into the Reading and Language Arts Curriculum.
(Dual-listed with C I 556). (3-0) Cr. 3. F.S.SS. Prereq: C I 201 or C I 202, C I 377.
Methods and strategies used to integrate technology into the reading and language arts curriculum. Use and evaluation of reading and language arts software for elementary classrooms.

C I 468. Supervised Practicum in Teaching.
(2-0) Cr. 2. F.S.SS. Prereq: Admission to teacher education program.
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

C I 468A. Supervised Practicum in Teaching: Primary Grades, Reading & Language Arts. Cr. 1.
(2-0) Cr. 1-2. F.S.SS. Prereq: Admission to teacher education program.
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

(2-0) Cr. 1-2. F.S.SS. Prereq: Admission to teacher education program.
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

C I 468C. Supervised Practicum in Teaching: Mathematics.
(2-0) Cr. 1-2. F.S.SS. Prereq: Admission to teacher education program.
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

C I 468D. Supervised Practicum in Teaching: Science.
(2-0) Cr. 1-2. F.S.SS. Prereq: Admission to teacher education program.
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

C I 468E. Supervised Practicum in Teaching: World Language.
(2-0) Cr. 1-2. F.S.SS. Prereq: Admission to teacher education program.
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.
C I 468F. Supervised Practicum in Teaching: Primary Grades, Literacy, Inclusive.
Cr. 1-2. F.S.SS. Prereq: Admission to teacher education program
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

C I 468G. Supervised Practicum in Teaching: Primary Grades, Mathematics, Inclusive.
Cr. 1-2. F.S.SS. Prereq: Admission to teacher education program
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

Cr. 1-2. F.S. Prereq: Admission to teacher education program
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

Cr. 1-2. F.S. Prereq: Admission to teacher education program
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

C I 468K. Supervised Practicum in Teaching: Secondary Science II.
Cr. 2. F.S. Prereq: Admission to teacher education program
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

C I 468R. Supervised Practicum in Teaching: Reading Endorsement.
Cr. 1-2. F.S.SS. Prereq: Admission to teacher education program. Permission of department required; concurrent enrollment in C I 378
Observation, application of current methods, and instructional experiences with children in a supervised elementary classroom while engaged in other elementary methods courses. Offered on a satisfactory-fail basis only.

C I 480. Field Experience for Secondary Teaching Preparation.
Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.).

(Cross-listed with HIST). Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.).

Cr. 0.5. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. Physical Sciences.

C I 480C. Field Experience for Secondary Teaching Preparation: Mathematics.
Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.).

C I 480D. Field Experience for Secondary Teaching Preparation: Biological Sciences.
Cr. 0.5. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area coordinator required prior to enrollment
D. Biological Sciences.

C I 480E. Field Experience for Secondary Teaching Preparation: English and Literature.
Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program.

C I 480F. Field Experience for Secondary Teaching Preparation: World Languages and Cultures.
Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program.

Cr. 0.5. Repeatable, maximum of 2 times. F.S.

(Cross-listed with MUSIC). Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.).

(0-4) Cr. 2. Repeatable, maximum of 2 times. Prereq: C I 280S, ENGL/LING 219: ENGL/LING 220; ENGL/LING 511
Observation and participation in a variety of school settings after admission into the Teacher Preparation Program. Three-level clinical experience for students who are pursuing the ESL endorsement. Supervised experience. Students are required to teach two lessons.

C I 481. Philosophy of Education.
(Dual-listed with C I 581). (3-0) Cr. 3. Att. F., offered 2013.
Introduction to Western philosophy of education. Emphasis is placed on enduring debates about the purposes(s) of education in a just society. Readings include classic and contemporary texts.

C I 486. Methods in Elementary School World Language Instruction.
(Cross-listed with WLC, LING). (3-0) Cr. 3. F. Prereq: 25 credits in a world language
Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on K-8 students’ communicative skills, cultural knowledge, and content learning. Nonmajor graduate credit.

(Cross-listed with LING, WLC). (3-0) Cr. 3. F. Prereq: 25 credits in a world language
Admission to the teacher education program
Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning.

C I 490. Independent Study.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490A. Independent Study: Education.
(Cross-listed with MUSIC). Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head

C I 490C. Independent Study: Curriculum Construction.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490D. Independent Study: Principles of Education.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490E. Independent Study: Methods of Teaching.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490F. Independent Study: Educational Psychology.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490G. Independent Study: Digital Learning.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490H. Independent Study: Honors.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490J. Independent Study: Multicultural Education.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

Prereq: GPA of 2.5 or more for preceding semester

Prereq: Permission of area

Prereq: Permission of area

Prereq: Permission of area

Prereq: Permission of area

Prereq: Permission of area

Prereq: Permission of area

Prereq: Permission of area

Prereq: Permission of area
Courses primarily for graduate students, open to qualified undergraduates:

C I 490L. Independent Study: Literacy Education.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490M. Independent Study: Mathematics Education.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490N. Independent Study: World Language.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490O. Independent Study: Foundations of Education.
Cr. 1-3. F.S.SS. Prereq: GPA of 2.5 or more for preceding semester

C I 490P. Independent Study: Science Education.
Cr. 1-3. F.S. Prereq: GPA of 2.5 or more for preceding semester

(Cross-listed with ENGL). (3-0) Cr. 3. F.S. Prereq: ENGL 310, ENGL 397, 9 other credits in English beyond ENGL 250, PSYCH 333, admission to teacher education program

C I 495B. Independent Study: Teaching Speech.
(Cross-listed with SP CM). (3-0) Cr. 3. F. Prereq: SP CM 313; 9 credits in speech communication; minimum grade point average of 2.5 in speech communication coursework

Problems, methods, and materials related to teaching speech, theatre, and media in secondary schools.

(Cross-listed with MATH). (3-0) Cr. 3. F. Prereq: 15 credits in college mathematics and admission to a teacher licensure program, concurrent enrollment in C I 426 or C I 480C

C I 498. Methods of Teaching History/Social Sciences.
(Cross-listed with HIST). (3-0) Cr. 3. F. Prereq: Concurrent enrollment in HIST 480A; Admission to teacher education and 30 credits in subject-matter field

Concurrent enrollment in 480A; Admission to teacher education and 30 credits in subject-matter field. Theories and processes of teaching and learning secondary history/social sciences. Emphasis on development and enactment of current methods, assessments, and curriculum materials for providing appropriate learning experiences.

(3-0) Cr. 3. F.S. Prereq: Graduate classification

Educational philosophies and theories of instructional technology. Application of research to the production and use of instructional technology for learning and teaching. Equipment operation.

C I 503. Designing Effective Learning Environments.
(3-0) Cr. 3. F. Prereq: 501

Introduction to theories and models of instructional design. Design decision-making based on the analysis of performance problems and instructional inputs. Practical experience with the design and development of instructional and evaluation principles.

(Cross-listed with HCI). (3-0) Cr. 3. S. Prereq: C I 501

Principles and procedures to plan, design, and conduct effective evaluation studies (formative, summative, usability) in different settings are studied. Opportunities to engage in real or simulated evaluation projects of substantial scope are provided. Create evaluation instruments, develop methods with which to evaluate a product or program, conduct try-outs or usability sessions, analyze the data, report the findings, and recommendations are some of the course activities.

C I 505. Using Technology in Learning and Teaching.
(3-0) Cr. 3. F.S.SS. Prereq: Graduate classification

(3-0) Cr. 3. F.S.SS. Prereq: 6 graduate credits in education

Theories, legal bases, and principles of multicultural education. Pluralism and contributing cultures in the United States; presence and contributions of cultural group diversity with implications for educational programs, curriculum development, and student instruction, materials utilization and development; problems and issues regarding ethnocentrism, prejudice, and discrimination based on race, ethnicity, socioeconomic class, sex/gender, sexual identity, and language in the school environment; curriculum infusion and transformation, multicultural interaction, design and execution of teaching strategies and techniques; inquiry and research on multicultural education issues.

(Dual-listed with C I 407). (2-2) Cr. 3. F.S. Prereq: C I 501, convenient access to the Web

Review of flexible and distance learning (FDL) cases in a variety of contexts and pedagogic styles, identification of underlying principles and frameworks for best practice in this field.

C I 508. Algebra in the K-12 Classrooms.
(3-0) Cr. 3. F. Prereq: C I 448, C I 497

Focus on Algebraic concept explorations and associated procedures. Use of research-based strategies and appropriate technologies to apply fundamental ideas of patterning, coordinate graphing, and relationships among elements to K-12 classrooms. Additional topics facilitate critical examination of K-12 curriculum, pedagogy, and assessment.

C I 509. Geometry in the K-12 Classrooms.
(3-0) Cr. 3. S. Prereq: C I 448, C I 497

Euclidean and non-Euclidean geometry explorations with a focus on pedagogical issues in the K-12 classroom. Use of research-based strategies and appropriate technologies to teach geometry in K-12 classrooms. Additional topics from discrete mathematics, history and philosophy of geometry and fractal geometries.

C I 511. Technology Diffusion, Leadership and Change.
(3-0) Cr. 3. S. Prereq: Admission to graduate study, C I 501 or equivalent and C I 505 or equivalent

Principles and practices of technology diffusion, leadership and school change. Readings and coursework focus on technology diffusion in a broad sense, and examine more closely how this has played out in educational contexts. Leadership is addressed relative to frameworks and strategies for professional development and organizational change.

(3-0) Cr. 3. F. Prereq: Admission to graduate study and at least two courses in research and foundations of instructional technology

Critical review of current research trends in educational technology. Designed to consolidate graduate students' knowledge of current trends, issues in research, and methods of conducting research in practice.

C I 513. Mathematical Problem Solving in K-12 Classrooms.
(3-0) Cr. 3. F. Prereq: 6 credits of mathematics, C I 448 or C I 497 or C I 597 or permission of instructor

Strategies for improving problem solving skills across all strands of mathematics (e.g., geometry, algebra, number theory) will be emphasized. Issues surrounding the appropriate role of problem solving in K-12 mathematics classrooms will also be discussed, including distinctions among teaching "about," "for," and "through" problem solving. Note: This course is open to undergraduate students, but it is a graduate level course.

C I 514. Introduction to the Purposes and Complexities of Science Teaching.
(1-2) Cr. 2. S.S. Prereq: Admission to M.A.T. program

Introduction to critical issues facing science education, science education goals reflecting contemporary purposes of schooling, and how people learn science.

C I 515. Action Research in Education.
(3-0) Cr. 3. S. Prereq: Admission to graduate study, one course in research methods, educational inquiry, statistics, educational psychology, or instructional design

Philosophy and methods of conducting and communicating action research focused on improving educational practices. Designed specifically for practicing teachers.

C I 516. Antiracist Curriculum Development and Implementation.
(2-2) Cr. 3. Alt. S., offered 2013. Prereq: 9 credits in education

Introduction to historical, sociological, philosophical and pedagogical foundations of antiracist/multicultural education. Examination of causes of racism, other forms of discrimination, and intergroup conflict from different theoretical perspectives and experiential exercises.
C I 517. Student Teaching.  
(Dual-listed with C I 417J). (Cross-listed with C I). Cr. arr. F.S. Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching  
Supervised student teaching in the liberal arts at the secondary level.

C I 517A. Student Teaching: Social Studies-Middle School.  
(Dual-listed with C I 417A). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching  
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517B. Student Teaching: Physical Sciences.  
(Dual-listed with C I 417B). Cr. arr. F.S. Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching  
Supervised student teaching in the liberal arts at the secondary level.

C I 517C. Student Teaching: Mathematics.  
(Dual-listed with C I 417C). Cr. arr. F.S. Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching  
Supervised student teaching in the liberal arts at the secondary level.

C I 517D. Student Teaching: Biological Sciences.  
(Dual-listed with C I 417D). Cr. arr. F.S. Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching  
Supervised student teaching in the liberal arts at the secondary level.

C I 517F. Student Teaching: World Language.  
(Dual-listed with C I 417F). (Cross-listed with WLC). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching  
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517J. Student Teaching: Earth Sciences.  
(Dual-listed with C I 417J). Cr. arr. F.S. Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching  
Supervised student teaching in the liberal arts at the secondary level.

C I 517M. Student Teaching: Science - Basic.  
(Dual-listed with C I 417M). Cr. arr. F.S. Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching  
Supervised student teaching in the liberal arts at the secondary level.

C I 517N. Student Teaching: International.  
(Dual-listed with C I 417N). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching  
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517P. Student Teaching: Social Studies-High School.  
(Dual-listed with C I 417P). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching  
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517R. Student Teaching: Music-Elementary.  
(Dual-listed with C I 417R). (Cross-listed with MUSIC). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching  
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517S. Student Teaching: Music-Secondary.  
(Dual-listed with C I 417S). (Cross-listed with MUSIC). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching  
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

(Dual-listed with C I 418). (2-0) Cr. 2. F. Prereq: C I 514; concurrent enrollment in C I 547 and C I 591D  
Development of a research-based framework for teaching science that includes student goals, congruent student actions, the character and role of science inquiry, teaching behaviors and strategies, contemporary learning theories, and self-evaluation.

C I 519. Secondary Science Methods II.  
(Dual-listed with C I 419). (2-0) Cr. 2. S. Prereq: C I 418 or C I 518, concurrent enrollment in C I 591D  
Advancing a research-based framework for teaching science in a variety of school settings; emphasizing the teacher’s role, the development and revision of science curriculum, exceptional learners, content area reading strategies, management strategies, technology, and student assessment.

(Dual-listed with C I 420). (3-0) Cr. 3. F. Prereq: C I 1506  
Introduction to research on bilingualism and examination of the social, historical, and political contexts of bilingual education in U.S. schools. Attention to policy environment, school program structure, mode of classroom instruction, family and community context, and attainment of bilingualism and biculturalism for U.S. Mexican youth.

C I 523. Teaching Mathematics to Struggling Elementary Learners.  
(3-0) Cr. 3. SS. Prereq: C I 438 or C I 448  
Instructional methods and assessment techniques for elementary students struggling to learn mathematics. Emphasis on current research and practices for at-risk students and students with disabilities.

C I 526. Principles of Secondary Education.  
(Dual-listed with C I 426). (3-0) Cr. 3. F.S.SS. Prereq: 6 credits in education  
The curriculum, human relations, student evaluation, support services, classroom management, organization of schools, legal aspects of schools, professionalism and career planning.

C I 529. Educational Psychology and the Secondary Classroom.  
(3-0) Cr. 3. SS. Prereq: Bachelor's degree; admission into a graduate level teacher licensure program  
Analysis of psychological research related to learning, cognition, motivation, individual differences, and teaching techniques. Student and classroom assessment to facilitate positive learning outcomes. Adaptation and differentiation of instruction to meet individual learners' needs. This course can only be used for teacher licensure programs. It is not acceptable for use in meeting the non-licensure M.Ed., M.S. or Ph.D. requirements.

C I 533. Educational Psychology of Learning, Cognition, and Memory.  
(Cross-listed with PSYCH). (3-0) Cr. 3. F  
Learning, cognition, and memory in educational/training settings.

(3-0) Cr. 3. Prereq: Bachelor's degree  
Current learning theories within science education and their application to science classrooms. Examination of models which assist the implementation of these theories of learning.

C I 546. Advanced Pedagogy in Science Education.  
(3-0) Cr. 3. S.SS. Prereq: Bachelor's degree  

C I 547. Nature of Science.  
(Dual-listed with C I 347). (3-0) Cr. 3. F. Prereq: Concurrent enrollment in C I 518 or permission of instructor  
The intersection of issues in the history, philosophy, sociology, and psychology of science and their application to and impact on science teaching and learning, science teacher education, and science education research.

C I 548. Restructuring Science Activities.  
(3-0) Cr. 3. S.SS. Prereq: Admission to teacher education or teaching license  

C I 550. Ethnicity and Learning.  
(Dual-listed with C I 450). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Graduate classification and completion of C I 506 or permission of instructor  

C I 551. Foundations of Reading and Language Arts.  
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: Teaching license  
Analyzing, discussing, and researching the theory and practice of current literacy issues.
C I 552. Corrective Reading.
(Dual-listed with C I 452). (3-0) Cr. 3. F.S.SS. Prereq: C I 378 or equivalent; undergraduate students must register concurrently for SP ED 365; SP ED 436; graduate students must have a teaching license. Identification, analysis, and correction of reading problems in five areas: print knowledge, integration of print knowledge, oral reading fluency, vocabulary, and comprehension.

C I 553. Teaching Struggling Adolescent Readers.
(Cross-listed with SP ED). (3-0) Cr. 3. SS. Prereq: Teaching license. Instructional strategies for enhancing the fluency, vocabulary and comprehension of struggling adolescent readers. Attention to content-area reading materials and strategies.

C I 554. Reading and Responding to Children’s Literature.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: Senior status or teaching license. Research and discussion of issues surrounding the classroom use of literature for children and young adults including censorship, diversity, selection, and the influences of technology.

C I 555. Literacy, Leadership, and Advocacy.
(3-0) Cr. 3. S. Prereq: Graduate Standing. Examination of the roles of literacy specialists/coaches in diverse pre-K-12 schools and communities. Particular focus placed on current theories, research, standards, and policies relative to literacy processes and instruction, including culturally responsive literacy; processes of successful literacy coaching; and methods of supporting teachers and other school personnel in planning, implementing, and evaluating literacy instruction for all students.

C I 556. Integrating Technology into the Reading and Language Arts Curriculum.
(Dual-listed with C I 456). (3-0) Cr. 3. F.SS. Prereq: Teaching license. Methods and strategies used to integrate technology into the reading and language arts curriculum. Use and evaluation of reading and language arts software for elementary classrooms.

C I 557. Teaching Mathematics to Struggling Secondary Learners.
(Cross-listed with SP ED). (3-0) Cr. 3. Prereq: Secondary teaching experience. Instructional methods and assessment techniques for secondary students struggling to learn mathematics. Particular emphasis on current research, practices, and trends in mathematics interventions for at-risk students and students with disabilities.

C I 5570. Toying With Technology for Practicing Teachers.
(Cross-listed with M S E). (2-0) Cr. 2. SS. Prereq: C I 201 or 202 or 505 or equivalent. A project-based, hands-on learning course. Technology literacy, appreciation for technological innovations, principles behind many technological innovations, hands-on experiences based upon simple systems constructed out of LEGOs and controlled by small microcomputers. Other technological advances with K-12 applications will be explored. K-12 teachers will leave the course with complete lesson plans for use in their classrooms.

(3-0) Cr. 3. Prereq: Graduate or senior level status or permission of instructor. This course takes a nonlinear, reflective view of the historical, social, economic, political, and legal contexts of the education of African Americans in the U.S. Educational theories and philosophies, Critical Race Theory and Black Feminist Thought form the framework for investigating broad-based, multiple issues of education for African Americans in the U.S. as they are situated in the prevailing dominant views.

C I 581. Philosophy of Education.
(Dual-listed with C I 481). (3-0) Cr. 3. Alt. F., offered 2013. Introduction to Western philosophy of education. Emphasis is placed on enduring debates about the purposes(s) of education in a just society. Readings include classic and contemporary texts.

C I 588. Supervised Tutoring in Reading.
(2-2) Cr. 3. F.SS.SS. Prereq: Graduate status, teaching license and concurrent enrollment in or completion of one course in corrective reading; diagnosis and correction of reading problems. Using formal and informal diagnostic procedures to plan and implement individualized reading instruction. Field experience in tutoring and a related research project.

C I 590. Special Topics.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590A. Special Topics: Curriculum.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590B. Special Topics: Digital Learning.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590C. Special Topics: Science Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590D. Special Topics: Secondary Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590F. Special Topics: Multicultural Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590G. Special Topics: Mathematics Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590I. Special Topics: Elementary Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590J. Special Topics: World Language Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590K. Special Topics: Educational Psychology.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590L. Special Topics: Social Studies Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 590M. Special Topics: Literacy Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 591. Supervised Field Experience.
(0-2) Cr. 1-6. F.S.SS. Prereq: 15 graduate credits in special area. Supervised on-the-job field experience in special area.

C I 591A. Special Topics: World Language Education.
(0-2) Cr. 1-6. F.S.SS. Prereq: 15 graduate credits in special area. Supervised on-the-job field experience in special area.

C I 591C. Supervised Field Experience: Elementary Education.
(0-2) Cr. 1-6. F.S.SS. Prereq: 15 graduate credits in special area. Supervised on-the-job field experience in special area.

C I 591D. Supervised Field Experience: Secondary Education.
(0-2) Cr. 1-6. F.S.SS. Prereq: 15 graduate credits in special area. Supervised on-the-job field experience in special area.

C I 591F. Supervised Field Experience: Multicultural Education.
(0-2) Cr. 1-6. F.S.SS. Prereq: 15 graduate credits in special area. Supervised on-the-job field experience in special area.

C I 591G. Supervised Field Experience: Mathematics Education.
(0-2) Cr. 1-6. F.S.SS. Prereq: 15 graduate credits in special area. Supervised on-the-job field experience in special area.

C I 591I. Supervised Field Experience: Literacy.
(0-2) Cr. 1-6. F.S.SS. Prereq: 15 graduate credits in special area. Supervised on-the-job field experience in special area.

C I 593. Workshops.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 593A. Workshops: Curriculum.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 593B. Workshops: Digital Learning.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 593C. Workshops: Science Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 593D. Workshops: Secondary Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 593F. Workshops: Multicultural Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 593G. Workshops: Mathematics Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 593I. Workshops: Elementary Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 593J. Workshops: World Language Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 593K. Workshops: Educational Psychology.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 593L. Workshops: Social Studies Education.
Cr. 1-3. F.S. Prereq: 9 graduate credits in education
C I 593M. Workshops: Literacy Education. Cr. 1-3. F.S. Prereq: 9 graduate credits in education

C I 594. Contemporary Curriculum Theory and Principles. (3-0) Cr. 3. F. Prereq: Graduate standing. Theoretical and historical perspectives of contemporary curriculum; social, cultural, and epistemological aspects of curriculum theory; diverse philosophical positions and approaches to understanding curriculum as it relates to educational settings.

C I 595. Teaching Reading in Middle and Secondary Schools. (Dual-listed with C I 395). (3-0) Cr. 3. F. Prereq: Graduate status and teaching license. Analysis and application of strategies to enhance students' literacy development in middle and secondary school settings. Research paper related to a course topic.

C I 599. Creative Component. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599A. Creative Component: Curriculum. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599B. Creative Component: Digital Learning. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599C. Creative Component: Science Education. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599D. Creative Component: Secondary Education. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599F. Creative Component: Multicultural Education. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599G. Creative Component: Mathematics Education. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599H. Creative Component: Elementary Education. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599J. Creative Component: World Language Education. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599K. Creative Component: Educational Psychology. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599L. Creative Component: Social Studies Education. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

C I 599M. Creative Component: Literacy Education. Cr. 1-3. F.S.S.S. Prereq: 9 graduate credits in education

Courses for graduate students:

C I 601. Foundations of Educational Inquiry. (3-0) Cr. 3. F. Prereq: Admission to a doctoral program. First of a two-course sequence designed to welcome new Curriculum and Instruction PhD students into the community of educational scholars. Inquiry into (1) the history of education as an academic field of study; (2) the philosophical underpinnings of social scientific and educational inquiry; and (3) the contemporary landscape of the field of education.

C I 602. Educational Inquiry in Action. (3-0) Cr. 3. S. Prereq: C I 601. Second in a sequence welcoming new Curriculum and Instruction PhD students into the community of educational scholars. Opportunities to learn about a variety of faculty research in the department, engage faculty in conversation about their research, and continue reflecting on the theory and practice of educational inquiry.

C I 603. Advanced Learning Environments Design. (Cross-listed with HCI). (3-0) Cr. 3. S. Prereq: C I 503. Exploration of advanced aspects of the instructional design process. Application of analysis, design, development and production, evaluation, implementation, and project management principles. Focus on the production and use of instructional technology with an emphasis on the instructional design consulting process. Theory and research in instructional technology provides the foundation for design decisions.

C I 610. Digital Learning in Teacher Education. (2-0) Cr. 2. F. Prereq: C I 505. Research on using technology in teacher education programs. Application examples studied. Field component involving relating material from class to a teacher education situation.

C I 611. Philosophical Foundations of Digital Learning. (3-0) Cr. 3. Prereq: 12 graduate credits in curriculum and instruction. Exploration of philosophies of science that serve as foundations for research and practice in instructional technology, including positivism, post-positivism, interpretivism/constructivism, and critical theory. The roles of language, nature of truth and reality, and acceptable ways of knowing are explored in terms of their implications for instructional technology design, delivery, research, and scholarship.

C I 612. Socio-psychological Foundations of Digital Learning. (3-0) Cr. 3. Prereq: 12 graduate credits in curriculum and instruction. Exploration of theories of learning and associated instructional models that are the foundation for research and practice in education and educational technology, including behaviorism, information processing theory, and cognitive science. Emphasis on cognitive and social constructivist paradigms and the creation and use of constructivist learning environments supported by technology.

C I 615. Seminar. (0-2) Cr. 1. F.S. Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615A. Seminar: Curriculum. (0-2) Cr. 1. F.S. Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615B. Seminar: Digital Learning. (0-2) Cr. 1. F.S. Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615C. Seminar: Science Education. (0-2) Cr. 1. F.S. Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615D. Seminar: Secondary Education. (0-2) Cr. 1. F.S. Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615E. Seminar: Multicultural Education. (0-2) Cr. 1. F.S. Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615F. Seminar: Mathematics Education. (0-2) Cr. 1. F.S. Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615G. Seminar: Educational Psychology. (0-2) Cr. 1. F.S. Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615H. Seminar: Social Studies Education. (0-2) Cr. 1. F.S. Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615I. Seminar: Literacy Education. (0-2) Cr. 1. F.S. Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.
Special Education Courses

Courses primarily for undergraduates:

SP ED 250. Education of the Exceptional Learner in a Diverse Society.  (3-0) Cr. 3. F.S. Prereq: C I 204
An overview of students with diverse learning needs, including legal foundations. Emphasis on early identification; educational programming, services and strategies; and preparation for community living in a heterogeneous society. Meets U.S. Diversity Requirement

SP ED 334. Teaching Exceptional Learners in the General Classroom.  (3-0) Cr. 3. F. Prereq: Concurrent enrollment in SP ED 330
Evidence-based teaching strategies and instructional accommodations for inclusive education. Emphasis on managing challenging behavior.

SP ED 335. Classroom Assessment in Inclusive Primary Settings.  (2-0) Cr. 2. F.S. Prereq: Concurrent enrollment in SP ED 455, C I 433, C I 439, C I 468I
Examination and application of strategies for determining special educational needs, planning and evaluating instructional programs, and monitoring student progress.

SP ED 401. Teaching Secondary Students with Exceptionalities in General Education.  (2-2) Cr. 3. F.S.
Overview of characteristics and needs of exceptional children/youth and appropriate service delivery options. Legal foundations for special education. Emphasis on co-teaching models, differentiated instruction, accommodations for instruction and assessment, and collaboration among professionals and parents.

SP ED 416. Supervised Student Teaching.  Cr. arr. F.S. Prereq: Full admission to teacher education, senior classification, elementary education major; SP ED 330, SP ED 334, SP ED 365, SP ED 436, SP ED 439, C I 280I, C I 452
Reservation required.

SP ED 436. Instructional Methods for Students with Mild/Moderate Disabilities.  (3-0) Cr. 3. S. Prereq: C I 245, concurrent enrollment in SP ED 365
Evidence-based instructional strategies/techniques in academic areas and materials for individual instruction and classroom management for elementary students with mild/moderate disabilities.

SP ED 455. Instructional Methods for Inclusive Primary Settings.  (2-0) Cr. 2. F.S. Prereq: Concurrent enrollment in SP ED 355, C I 433, C I 439, C I 468I
Evidence-based instructional strategies and techniques in academic areas that support the learning of students with diverse learning needs. Emphasis on accommodations and alternative teaching strategies to meet individual student needs.

SP ED 459. Field Experience - Students with Mild/Moderate Disabilities.  (0-2) Cr. 1. F. Prereq: SP ED 365, SP ED 436, concurrent enrollment in SP ED 460
Observation and involvement with students with mild/moderate disabilities in school settings. Offered on a satisfactory-fail basis only.

SP ED 460. Special Education Seminar.  (1-0) Cr. 1. F. Prereq: SP ED 436, concurrent enrollment in SP ED 459
Application of evidence-based instructional strategies/techniques in academic and behavioral areas with students who have mild/moderate disabilities. Discussion of professional practices.

SP ED 464. Collaborative Partnerships in Special Education.  (3-0) Cr. 3. F. Prereq: SP ED 365, SP ED 436
Collaborative skills used in education of students with mild/moderate disabilities. Includes collaboration between general and special education teachers, parents, paraeducators, and other education professionals and agencies.

SP ED 490. Independent Study.  Cr. 1-5. F.S. Prereq: 12 credits in elementary education, permission of department chair
Courses primarily for graduate students, open to qualified undergraduates:

SP ED 501. Teaching Secondary Students with Exceptionalities in General Education.
(3-0) Cr. 3. SS. Prereq: Baccalaureate degree
Overview of characteristics and needs of exceptional children/youth and appropriate service delivery options. Legal foundations for special education. Emphasis on co-teaching models, differentiated instruction, accommodations for instruction and assessment, and collaboration among professionals and parents. Students complete a literature review on a topic related to students with exceptionalities and their content area.

SP ED 510. Foundations in Mild/Moderate Disabilities.
(3-0) Cr. 3. S. Prereq: SP ED 501 or equivalent
Historical and legal foundations for special education. Characteristics, prevalence, and etiology of mild/moderate disabilities. Historical and contemporary models of programming for students with disabilities.

SP ED 511. Foundations of Behavior Disorders and Learning Disabilities.
(3-0) Cr. 3. S. Prereq: Sp Ed 501 or equivalent
Study of theory, characteristics, and special education service delivery models to students with moderate/severe behavior/learning disabilities in the public schools and residential settings.

SP ED 515. Assessment of Children and Youth with Disabilities.
(3-0) Cr. 3. F. Prereq: SP ED 510 or SP ED 511
Formal and informal methods of assessment for identification/eligibility, IEP development, and progress monitoring. Formative evaluation of academic and behavioral skills, including curriculum-based measurement and functional behavioral assessment.

SP ED 517. Research Review.
(2-0) Cr. 2. SS. Prereq: RESEV 550, SP ED 515
Critical review of recent research in education and related behavioral sciences as applied to education of students with disabilities. Examination of multiple research methodologies.

SP ED 520. Evidence-based Practices for Mild/Moderate Disabilities.
(3-0) Cr. 3. Prereq: SP ED 510, SP 515
Evidence-based instructional methods for meeting the academic and behavioral needs of students with mild/moderate disabilities. Includes methods, strategies, and behavior management techniques appropriate for students with mild or moderate disabilities.

SP ED 530. Evidence-based Practices in Behavior Disorders.
(3-0) Cr. 3. S. Prereq: SP ED 511, SP ED 515
Current research on evidence-based interventions designed to improve the behavior and social skills of students with moderate/severe behavior disorders. Particular emphasis on positive behavioral supports and behavior change strategies.

(3-0) Cr. 3. S. Prereq: SP ED 511, SP ED 515
Current research on evidence-based interventions designed to improve the academic performance of students with moderate/severe learning disabilities. Particular emphasis on methods for improving reading, written expression, and mathematics, as well as performance in content-area instruction.

SP ED 553. Teaching Struggling Adolescent Readers.
(Cross-listed with C I). (3-0) Cr. 3. SS. Prereq: Teaching license
Instructional strategies for enhancing the fluency, vocabulary and comprehension of struggling adolescent readers. Attention to content-area reading materials and strategies.

SP ED 555. Career Education and Transition for Youth with Disabilities.
(2-0) Cr. 2. SS. Prereq: SP ED 510 or SP ED 511
Examination of the academic, personal, social, employability, and daily living skills needed for a satisfactory adult life. Exploration of curricula, programs, and services to meet these needs.

SP ED 560. Classroom Management/Behavior Support.
(3-0) Cr. 3. F. Prereq: Teaching license
Emphasis on positive behavioral supports and understanding behavior and its context through a functional behavioral approach. Design and development of carefully planned behavioral intervention programs for groups and individual students in general and special education settings.

SP ED 564. Collaborative Consultation.
(3-0) Cr. 3. F. Prereq: SP ED 515, SP ED 520 or SP ED 530 or SP ED 540
Models of consultation. Characteristics and methods to promote effective collaboration with families, paraprofessionals, other school personnel, and representatives of other agencies. Includes specific attention to IEP development as a collaborative process.

SP ED 565. Role of the Consultant.
(1-0) Cr. 1. Prereq: SP ED 564
Explore role of the educational consultant in different settings (state department, area education agency, school district, private). Examine roles in relationship to models (mental health, collaborative, organization).

SP ED 567. Teaching Mathematics to Struggling Secondary Learners.
(Cross-listed with C I). (3-0) Cr. 3. Prereq: Secondary teaching experience
Instructional methods and assessment techniques for secondary students struggling to learn mathematics. Particular emphasis on current research, practices, and trends in mathematics interventions for at-risk students and students with disabilities.

SP ED 570. Systems-level Supports for Youth with Behavior and Learning Disabilities.
(3-0) Cr. 3. SS. Prereq: SP ED 511
Overview of support systems (education, juvenile justice, mental health, communities) that serve students with special education needs. Working with and supporting families.

SP ED 590. Special Topics.
Cr. 1-5. F.S. Prereq: 15 credits in education, permission of department chair

SP ED 591. Supervised Field Experience.
(0-2) Cr. 1-6. F.S. Prereq: 15 graduate credits in special area, admission to the graduate program in special education
Supervised on-the-job field experience in special areas.

SP ED 591G. Supervised Field Experience: Mild/Moderate Disabilities, K-8.
(0-2) Cr. 1-6. F.S. Prereq: 15 graduate credits in special area, admission to the graduate program in special education
Supervised on-the-job field experience in special areas.

SP ED 591H. Supervised Field Experience: Mild/Moderate Disabilities, 5-12.
(0-2) Cr. 1-6. F.S. Prereq: 15 graduate credits in special area, admission to the graduate program in special education
Supervised on-the-job field experience in special areas.

(0-2) Cr. 1-6. F.S. Prereq: 15 graduate credits in special area, admission to the graduate program in special education
Supervised on-the-job field experience in special areas.

SP ED 599. Creative Component.
Cr. 1-5. F.S.SS. Prereq: 15 credits in education

Courses for graduate students:

SP ED 615. Seminar.
(1-0) Cr. 1. Repeatable, maximum of 2 credits.
Selected topics in special education. Analysis of current special education research. Evaluation of impact upon the profession. Implications for additional research.

SP ED 699. Research.
Cr. arr. Prereq: 15 credits in education

Culinary Science (H SCI)

Curriculum in Culinary Science
Administered by the Department of Food Science and Human Nutrition

Total Degree Requirement: 120 cr.

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.
International Perspectives: 3 cr.  
U.S. Diversity: 3 cr.  
Communications and Library: 10 cr.

Dance

Courses

Courses primarily for undergraduates:

DANCE 120. Modern Dance I.
(0-3) Cr. 1. F.S.
Introduction and practice of basic dance concepts, including preparatory techniques and guided creativity problems. No previous modern dance experience required. Offered on a satisfactory-fail basis only.

DANCE 130. Ballet I.
(0-3) Cr. 1. F.S.
Introduction to the basic skills, vocabulary, and tradition of ballet with concentration on control and proper alignment. No previous ballet experience required. Offered on a satisfactory-fail basis only.

DANCE 140. Jazz I.
(0-3) Cr. 1. F.S.
Introduction to the modern jazz style with concentration on isolation and syncopation. No previous jazz experience required. Offered on a satisfactory-fail basis only.

DANCE 150. Tap Dance I.
(0-3) Cr. 1. F.
Instruction and practice in basic tap technique and terminology. No previous tap experience required. Offered on a satisfactory-fail basis only.

DANCE 160. Ballroom Dance I.
(0-2) Cr. 1. F.S.
Instruction and practice in foxtrot, waltz, swing, cha cha, rhumba, tango, and selected contemporary dances. Offered on a satisfactory-fail basis only.

DANCE 199. Dance Continuum.
Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S. Prereq: Permission of instructor Advance registration required. Continued instruction and practice in either modern dance, recreational dance, ballet, jazz and/or compositional skills. Offered on a satisfactory-fail basis only.

DANCE 211. Fundamentals and Methods of Social and World Dance.
(1-3) Cr. 2. S.
Skill enhancement, teaching, progressions with emphasis on world and social dance. Designed for kinesiology and health majors, open to others.

DANCE 220. Modern Dance Composition.
(1-3) Cr. 2. F. Prereq: DANCE 120 or previous modern dance experience Theory and practice of the creative skills involved in solo and small group composition.

DANCE 222. Modern Dance II.
(0-3) Cr. 1. F. Prereq: DANCE 120 or previous modern dance experience Dance techniques emphasizing strength, balance, endurance, rhythmic activity and extended combinations.

DANCE 223. Modern Dance III.
(0-3) Cr. 1. S. Prereq: DANCE 222 Continued experience in dance techniques and extended combinations. Emphasis on maturation of skill and artistry. Exposure to a variety of modern dance technical styles.

DANCE 242. Jazz II.
(0-3) Cr. 1. S. Prereq: Previous jazz dance experience Concentration on technical proficiency at the intermediate level. Pointe work and partnering opportunities available.

DANCE 244. Dance History.
(3-0) Cr. 3. F.S.SS.
Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required.

DANCE 250. Dance Appreciation.
(3-0) Cr. 3. F.S.SS.
Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required.

DANCE 320. Sound and Movement.
(2-2) Cr. 3. S. Prereq: DANCE 220 Intermediate composition based on the relationship of movement to improvised sounds, rhythmic scores, and the musical works of composers from various periods.

DANCE 360. History and Philosophy of Dance.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: DANCE 270 Study of the history of dance from early to modern times with emphasis on the theories and philosophies of contemporary modern dance, dancers, and dance educators.

DANCE 370. Advanced Studies in Dance.
Cr. 1-3. Repeatable, maximum of 8 credits. F.S. Prereq: 2 credits in dance Advance registration required. Designed to meet special interests and talents of students to include both group and independent study in various aspects of dance as a performing art including production, choreography, and performance.

DANCE 384. Teaching Children’s Dance.
(1-3) Cr. 2. S.
Content, experiences, and methods of a comprehensive dance program at the elementary school level. Theories and practice in guiding elementary school children in expressive movement experiences.

DANCE 385. Methods of Teaching Dance.
(1-3) Cr. 2. F.
Methods and techniques of teaching social and world dance forms. Introduction to teaching educational modern dance.

DANCE 386. Teaching Dance Technique and Composition.
(1-3) Cr. 2. Prereq: DANCE 320 Teaching of dance as an expressive art form with emphasis on technique, rhythm, and the creative teaching process.
DANCE 480. Independent Study.
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits in dance and permission of coordinator
Independent study of problems or areas of interest in dance.

DANCE 490A. Independent Study: Dance.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S. Prereq: 6 credits in dance and permission of coordinator
Independent study of problems or areas of interest in dance.

DANCE 490H. Independent Study in Dance - Honors.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S. Prereq: 6 credits in dance and permission of coordinator
Independent study of problems or areas of interest in dance for those admitted to the honors program.

Diet and Exercise (H SCI)
Curriculum in Diet and Exercise B.S./M.S.
Administered by the Department of Food Science and Human Nutrition and Department of Kinesiology
This is an accelerated program with concurrent enrollment in the undergraduate and graduate degree programs. Courses included have been approved as meeting the academic requirements of the Didactic Program in Dietetics (DPD) in preparation for admission to dietetic internship programs; the DPD is accredited by the Accreditation Council for Education in Nutrition and Dietetics, the accrediting agency of the Academy of Nutrition and Dietetics. There is a $30 fee for the verification statement of completion of the accredited dietetics program. Courses also are included to meet the ACSM requirements for certification at the level of Health Fitness Instructor.

Total Degree Requirements: 124 cr. for bachelor’s degree and 39-40 cr. for master’s degree
Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

DIET 511. Research Methods.
(3-0) Cr. 3. F.S. Prereq: enrollment in GP-IDEA MFCS in Dietetics
An overview of diverse research approaches focusing on methods for collecting and analyzing quantitative and qualitative data. www only. Only one of DIET 511 or FCEdS 511 may count toward graduation.

DIET 524. Financial Management and Cost Controls in Dietetics.
(3-0) Cr. 3. SS. Prereq: Enrollment in GP-IDEA MFCS in Dietetics
Overview of the fundamental knowledge of financial management, managerial accounting, and operational cost controls for dietetics professionals. Topics include a review of managerial accounting concepts for not-for-profit organizations and for-profit organizations based on the Uniform System of Accounts, value and risk analysis, budgeting, asset management, franchising and management contracts, cost-volume-profit analyses, and operational applications for financial performance.
DIET 527. Food Writing. 
(3-0) Cr. 3. F. Prereq: Enrollment in GP-IDEA MFCS in Dietetics 
Understanding and appreciating how to communicate effectively in writing about food and food-related topics. Hands-on experience in research and writing for various audiences and types of media.

(3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Addresses wellness promotion through nutrition. Nutritional risk and protective factors will be examined in relation to public health and individual nutrition. www only.

(3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Critical examination of behavioral, physiological, and public health issues impacting dietary and nutritional factors that support normal growth and development. Content focuses on early stages of the life cycle: gestation, lactation, infancy, preschool, school age, and adolescence. www only.

DIET 534. Nutrition Education in the Community. 
(3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Principles and practices of teaching individuals and groups to translate nutrition knowledge into action. Emphasis on research in and evaluation of nutrition education. www only.

(3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Explore influence of normal physiological stressors on nutritional needs throughout the life span. Evaluates dietary intake and identification of appropriate community nutrition services in on-line discussions. Specific considerations, such as the influence of age and cultural heritage, are incorporated. www only.

(Cross-listed with GERON). (3-0) Cr. 3. Alt. F., offered 2012. WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

(3-0) Cr. 3. F. Prereq: enrollment in GP-IDEA MFCS in dietetics 
Examines the physiological, biochemical and nutritional aspects of disease processes relevant to infants and children up to 18 years of age. Discussion of medical nutrition therapy for a variety of medical conditions in this population including inborn errors of metabolism, food hypersensitivity, obesity, and diseases of the major organ systems. www only.

DIET 546. Phytochemicals. 
(3-0) Cr. 3. F. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Overview of phytochemicals (non-nutritive biologically active compounds) from fruits, vegetables, cereals and oilseeds. Covers recent findings of chemistry, physiological functions, and potential health implications of phytochemicals. www only.

DIET 548. Professional Development Assessment. 
(1-0) Cr. 1. F.S.SS. Prereq: Enrollment in GPIDEA MFCS in Dietetics 
Web-based course providing information and practice for student to assess and evaluate own professional development and continuing professional education needs. Completion of professional 5-year plan. Offered on a satisfactory-fail basis only.

DIET 550. Finance and Cost Controls. 
(3-0) Cr. 3. F. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Overview of the fundamental knowledge of hospitality managerial accounting, cost controls, and financial management. Important topics include financial statement analysis, cost concepts, cost-volume-profit analysis, calculating and controlling food and beverage costs, pricing, and capital budgeting. www only.

DIET 554. Statistics. 
(3-0) Cr. 3. S.SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Tools used to make statistical decisions. Major emphasis on explanation and understanding of important concepts involved; basic theme is understanding of data and methods used to analyze such data. www only. Only one of DIET 554 or Stat 401, 495, 542 may count toward graduation by students in the GPIDEA Dietetics program.

(3-0) Cr. 3. S. Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics 
Integration of the molecular, cellular and physiological aspects of vitamins and minerals in mammalian systems. Interactions among nutrients, metabolic consequences of deficiencies or excesses, relevant polymorphisms, major research methodologies, and current topics related to micronutrients and non-nutrient components. www only. Only one of DIET 556 or NUTRS 502 may count toward graduation.

(3-0) Cr. 3. F. Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics 
Integration of the molecular, cellular and physiological aspects of macronutrients and energy metabolism in mammalian systems. Dietary energy, carbohydrates, fiber, lipids, proteins, their interactions, metabolic consequences, and major research methodologies. www only. Only one of DIET 558 or NUTRS 501 may count toward graduation.

DIET 560. Medical Nutrition and Disease. 
(3-0) Cr. 3. F.S.SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention directed to medical nutrition needs of patients in the treatment of each disease state. www only. Only two of DIET 560 or NUTRS 561, 564 may count toward graduation.

DIET 565. Malnutrition in Low-Income Countries. 
(3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Identification and assessment of malnutrition in low-income countries. Social, cultural, political, economic, and geographic determinants of malnutrition. Protein-energy malnutrition, vitamin and mineral deficiencies. Intervention approaches; international efforts and local sustainability. www only.

DIET 566. Nutrition Counseling and Education Methods. 
(Dual-listed with DIET 466). (Cross-listed with NUTRS). (2-2) Cr. 3. F. Prereq: Graduate student status 
Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

(3-0) Cr. 3. Alt. F., offered 2011. Prereq: DIET 360; BBMB 301, undergraduate course in physiology; enrollment in GP-IDEA MFCS in Dietetics 
Study of the current scientific literature to evaluate current trends and issues in nutrition science and dietetic practice. Emerging areas of research investigating the role of nutrients in health and disease in humans will be explored. Emphasis on the impact of emerging research on nutrition recommendations and interventions designed to promote human health. www only.

DIET 568. Entrepreneurship in Dietetics. 
(3-0) Cr. 3. F. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Definition and discussion of entrepreneurship and its importance to economic and business environment. www only.

DIET 569. Dietary and Herbal Supplements. 
(3-0) Cr. 3. SS. Prereq: Enrollment in GP-IDEA MFCS in Dietetics 
Develop skills to partner with patients in making dietary supplement decisions. Explore the safe, efficacious use of botanicals and supplements in nutritional support of aging, maternal health and wellness. Discussions on supplementation in the prevention and treatment of chronic disease include: arthritis, cancer, cardiovascular, diabetes, digestive, liver and renal disorders.

(3-0) Cr. 3. S. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Develop an understanding of nutrition based on knowledge of the biochemical and physiological processes and functions of specific nutrients in meeting nutritional requirements. Emphasis on the relationship of optimal nutrition and physical efficiency and performance. www only.

DIET 572. Environmental Scanning and Analysis of Current Issues in Dietetics. 
(3-0) Cr. 3. F.S. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
Overview of current topics, issues, and trends in dietetics practice. www only.

DIET 573. Administration of Health Care Organizations. 
(3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics 
A comprehensive review of today's health care institutions and their response to the economics, social, ethical, political, legal, technological, and ecological environments. www only.
DIET 595. Proposal and Grant Writing for the Working Professional. (3-0) Cr. 3. F. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Designed for the working professional. www only.

DIET 599. Creative Component. Cr. arr. Repeatable. F.S.SS. Prereq: Enrollment in GP-IDEA MS Dietetics
For non-thesis option only.

Educational Leadership and Policy Studies

Departmental Mission, Vision and Goals statements

Mission:
The mission of the Department of Educational Leadership and Policy Studies is to advance the quality and effectiveness of educational institutions and individuals engaged in education. The department is guided by the missions of Iowa State University and the College of Human Sciences and embodies the concepts of the land-grant tradition of teaching, research, and service. The department is dedicated to enhancing the intellectual, cultural, social, and ethical potential of students and faculty for the benefit of Iowa, the nation, and the world. Specifically, the Department of Educational Leadership and Policy Studies:

• Provides graduate degree and career preparation programs, coursework, and other learning opportunities for students and practitioners.
• Conducts and disseminates basic and applied research for the advancement of educational theory and practice.
• Provides professional service for institutions, individuals, and organizations at all levels of education.

Vision:
Research: All Educational Leadership and Policy Studies faculty create and disseminate knowledge and promote educational inquiry that enhances educational practices at local, state, national, and international levels.
Teaching: All Educational Leadership and Policy Studies faculty engage in teaching that is consonant with the principles of adult learning and effective teaching that help students develop critical thinking and professionally relevant skills, and that provides a foundation for the application of knowledge to practice.

Service: All Educational Leadership and Policy Studies faculty, using their professional expertise, work with educators, educational institutions, and other constituent groups to solve problems.

Advising: All Educational Leadership and Policy Studies faculty foster students’ professional and personal growth by guiding and inspiring them to formulate and complete relevant programs of study and to conduct high quality research.

Curricula/Program: The Educational Leadership and Policy Studies faculty develop and implement futuristic curricula and programs to ensure that students learn to think critically and perform their professional roles in an exemplary fashion.

General Goals:
The general goals of the department, and hence of each of its program areas and affiliated programs, are to:

• Conduct high quality graduate education programs, both on- and off-campus, for students seeking graduate degrees in a major in education and/or seeking professional licensure as school service personnel.
• Establish appropriate conditions, opportunities, and resources with which both faculty and graduate students may engage in scholarly activities.
• Assist the educational enterprise of Iowa in development by utilizing, when appropriate, the talents and expertise of the faculty and graduate student body in such activities as workshops, conferences, and consultation in small groups, both on- and off-campus.

Graduate Study

Degrees: The Department of Educational Leadership and Policy Studies -- ELPS -- offers work for the degrees master of science, master of education, certificate of advanced studies, and doctor of philosophy with a major in education. ELPS also offers minor work to students majoring in other fields of study. At the master’s level, students may specialize in educational administration; higher education; and research and evaluation. Interested students should consult the specific program area for master’s degree information related to that program.

Students may complete the Ph.D. with a major in education and a specialization in educational leadership with emphasis in either educational administration or higher education. Specific information about the requirements of the Ph.D. degree is available from the departmental office or on the web (wwwelps.hs.iastate.edu/elps/elpsdoc.htm).

The following information refers only to the Ph.D. program:

Prerequisites: Prerequisite to major graduate work in educational leadership is completion of an undergraduate degree with coursework appropriate to the planned specialization, and evidence that the student ranks above average in scholastic achievement and promise of professional competence. In addition it is preferred that students complete a master’s degree and 3-5 years of professional experience.

Learning Opportunities: Doctoral students in Educational Leadership and Policy Studies will complete seminars, laboratory experiences, field experiences, independent research, and a capstone experience course. In addition to the common experiences noted above, students will each select an intellectual content area that will prepare them to work in the setting of their choice.

Careers: Graduates of the doctoral program are prepared to serve as leaders in various educational settings, including school administration, community colleges, public and private colleges and universities, and public and private educational agencies.

Outcomes: Graduates of the Ph.D. program, regardless of the emphasis chosen, possess skills and knowledge related to five core domains: leadership, educational research, communication, educational evaluation, and educational foundations. By the time of graduation, students will demonstrate the necessary skills and knowledge to:
• Work effectively with individuals and groups.
• Engage in ethical decision-making and management of resources to accomplish goals.
• Engage in scholarly inquiry.
• Express ideas clearly, both orally and in writing.
• Articulate their values, beliefs, and Philosophy of life.
• Relate sensitively to individuals from diverse backgrounds.
• Use the principles of program evaluation and assessment intelligently.
• Have a clear understanding of the foundations of education, grounding their work in theory and Philosophy.
• Articulate the concepts, theories, and practices related to the educational content area emphasized in their studies.

Other Related Programs: Other graduate programs related to education (including Interdisciplinary Graduate Studies) may be more suited to the interests of potential students on the basis of previous education and experiences as well as future plans and needs. Potential students should refer to programs in the Departments of Agricultural Education and Studies, Curriculum and Instruction, Family and Consumer Sciences Education and Studies, Kinesiology, and Interdisciplinary Graduate Studies, or to graduate level course offerings within the other departments, to determine if these offerings may be more closely matched with their career interests.

The following information refers only to the masters level programs:

Prerequisites: Prerequisite to major graduate work in educational leadership is completion of an undergraduate degree with coursework appropriate to the planned specialization, and evidence that the student ranks above average in scholastic achievement and promise of professional competence.

Educational Administration (EdAdm)

Degrees and Certificates: Several programs are offered: (1) master of science degree, with thesis or creative component, in elementary or secondary school administration; (2) master of education practitioner; (3) advanced study leading to principal’s license; (4) certificate of advanced studies providing post-master’s training for superintendent’s license; and (5) doctor of philosophy with major in education and specialization in educational leadership. Courses are scheduled with consideration for cohort-collegial teams or groups.

Emphasis: The Educational Administration Program places dual emphasis on preparation of professional educational administrators and on the academic/scholarly aspects of educational leadership and management.

Prerequisites: Prerequisite to major graduate work in educational leadership is completion of an undergraduate degree with coursework appropriate to the planned specialization, and evidence that the student ranks above average in scholastic achievement and promise of professional competence.
Learning Opportunities: Students will complete courses, laboratory experiences, field experiences, and independent research so that they can effectively serve in leadership roles.

Careers: Graduates of Master’s Degree and Certificate of Advanced Study Programs in Educational Administration are prepared for leadership roles in Pre K-12 school districts and education agencies, typically as building-level principals, assistant principals, curriculum directors, and central office administrators. Doctoral graduates are prepared for PreK-12 leadership roles and academic or leadership positions in higher education.

Outcomes: Graduates of the Certificate of Advanced Studies Program will possess administrative and leadership skills necessary for the superintendent and central office administration. By the time of graduation, students will demonstrate the necessary skills and knowledge to:

- Serve as visionary leaders, with effective skills in curricular and instructional leadership.
- Work effectively with individuals and groups, both within the district and community, to create and sustain a positive learning culture.
- Engage in ethical decision-making and effective management of human, material, and financial resources to accomplish district goals.
- Express ideas clearly to various publics, both orally and in writing.
- Articulate their values, beliefs, and Philosophies of education.
- Relate sensitively to individuals from diverse backgrounds.
- Access and utilize research information and technology to assist with organizational improvement.
- Translate educational administration concepts and theories into sound management and leadership practices.

Graduates of the Master’s Program with a specialization in educational administration and the Principal Licensure Program possess administrative and leadership skills necessary for PreK-12 building-level leadership roles. Upon program completion, each student will possess the knowledge and skills to:

- Work effectively with all members of the school community to create a shared vision of learning, which builds upon the formation of a shared understanding of the purposes of schooling in a pluralistic society.
- Demonstrate effective skills in collaborative instructional leadership, including an understanding of curriculum standards, principles of effective teaching practices, and effective assessment practices that lead to improved student learning.
- Implement a system of shared governance and empower faculty, staff, students, and families in the school improvement process.
- Create and sustain a safe and caring school culture that values diversity and maintains a commitment to equity in school practices.
- Engage in ethical and moral leadership practices and the effective management of human, material, and financial resources to accomplish school goals.
- Work collaboratively with internal and external stakeholders in responding to school needs and providing community resources to support the learning process.
- Access research and use data to inform teaching and learning practices and support the process of continuous improvement.
- Apply various technologies to support and enhance administrative and instructional purposes.
- Use leadership skills to transform the school into a learning community that promotes change and sustains school improvement initiatives.
- Engage all members of the school community in critical inquiry and reflection, to promote the belief that learning is a lifelong endeavor for every individual.

Graduates of the Ph.D. Program with a specialization in educational administration will possess skills and knowledge related to the six core domains: leadership, educational research, communication, educational evaluation, educational foundations, and educational technology. By the time of graduation, students will demonstrate the necessary skills and knowledge for those outcomes as listed under the ELPS Ph.D. program outcomes.

Courses primarily for graduate students, open to qualified undergraduates:

EDADM 541. Principles of Educational Leadership.
(3-0) Cr. 3. F.S.SS. Prereq: Teacher licensure and permission of instructor
Basic principles of educational organizations, including an understanding of organizational behavior and theoretical approaches to administration. Exploration of substantive elements related to school reform, such as leadership, the change process, current issues in education, and developing a shared vision and mission.

EDADM 551. Supervision for Learning Environments.
(3-0) Cr. 3. F.S.SS. Prereq: EDADM 541
Study of effective classroom instructional practices that reflect current principles of learning. Understanding and practice of supervisory techniques that support teachers in improving the teaching and learning process, including skills in observational data collection, data analysis, collaboration, and conferencing skills.

EDADM 552. Current Issues in Site-Level Leadership.
(3-0) Cr. 3. F.S.SS. Prereq: EDADM 541
Essential tasks of building-level leadership and management in contemporary school settings, including: curriculum and organizational structure, theory and practice of scheduling, financial management, roles and responsibilities of governance, communication and public relations skills, home/parental involvement and relationships, project and crisis management, technology integration, school climate and culture, effective student support programs such as counseling and guidance, attendance and discipline.

EDADM 554. Leading School Reform.
(3-0) Cr. 3. F.S.SS. Prereq: EDADM 541
Study of principles of transformational leadership and collaborative decision-making skills. Leadership activities that facilitate the development of a school culture that embraces change and school reforms that result in high quality schools dedicated to improved student achievement.

EDADM 556. School Systems as Learning Cultures.
(3-0) Cr. 3. F.S.SS. Prereq: EDADM 541
Practical and theoretical perspectives on school administrative problems from critical pedagogical studies and research. Exploration of related issues such as cultural literacy, forms of authority and control, and other historical problems of schools in dealing with minorities and culturally different persons.

(3-0) Cr. 3. F.S.SS. Prereq: EDADM 541
Leadership theory and practice that focuses on the professional development of human, material, and financial resources to accomplish school goals.

(3-0) Cr. 3. F.S.SS. Prereq: EDADM 541
Learner needs will be examined from major psycho/social perspectives with stress upon developmental phases of normal growth along with common problems encountered in schools. Issues of racism, gender bias, and socio-economic problems that influence learner responsiveness to school curricula and administrative regulations, routines, and legal requirements.

EDADM 559. Curriculum Leadership.
(3-0) Cr. 3. F.S.SS. Prereq: EDADM 541
Generic administrative approaches to the design and delivery of elementary and secondary school curricula including the study of the organizations for learning; cognition and learning theories; validation; concepts of balance; school goals, student assessments and reporting of progress, alignment, and professional development; development of curriculum guides; mapping; employing national standards and benchmarks.

EDADM 575. Education Law and Ethics.
(3-0) Cr. 3. F.S.SS. Prereq: EDADM 541
Examination of constitutional, statutory, and judicial provisions as a basis for the legal operation of educational institutions. Rights and ethical responsibilities of school leaders are examined in relation to their roles and responsibilities with boards, other school personnel, and students.

EDADM 590. Special Topics.
Cr. 1-4. Repeatable. Prereq: 9 credits in education

EDADM 591. Supervised Field Experience.
Cr. 1-6. Repeatable. Prereq: EDADM 541 and admission to program and instructor's approval
Supervised on-the-job field experience in special areas.
EDADM 591A. Supervised Field Experience: Elementary Principal.
Cr. 1-4. Repeatable. Prereq: EDADM 541 and admission to program and instructor’s approval
Supervised on-the-job field experience in special areas.

EDADM 591B. Supervised Field Experience: Secondary Principal.
Cr. 1-4. Repeatable. Prereq: EDADM 541 and admission to program and instructor’s approval
Supervised on-the-job field experience in special areas.

EDADM 593. Workshops.
Cr. 1-4. Prereq: 9 credits in education

EDADM 599. Creative Component Development.
Cr. 1-3. Prereq: 9 credits in educational administration

Courses for graduate students:

EDADM 615. Seminar.
Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615A. Seminar: Client Focus.
Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615B. Seminar: Research.
Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615C. Seminar: Quality Improvement.
Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615D. Seminar: Special Services.
Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615E. Seminar: Assessment.
Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615F. Seminar: Leadership.
Cr. 1-3. Repeatable.
In-depth study of administrative topics of contemporary interest and importance.

EDADM 620. Program Induction Leadership Seminar.
(3-0) Cr. 3. SS. Prereq: EDADM 541
Assessment of candidate skill areas, including communication, leadership, technology, and team facilitation for the development of an individualized learning plan for the program. Orientation to program expectations and leadership challenges in the context of schooling for a global society.

EDADM 621. Aligning the System for Student Achievement.
(5-0) Cr. 5. F. Prereq: EDADM 541
Alignment of system goals and leadership theory with student achievement, governance, systems thinking, and communication and collaboration with various publics.

(3-0) Cr. 3. S. Prereq: EDADM 541
Allocation of system resources to enhance student achievement; human resource development and negotiations; and coaching and evaluating the administrative team.

EDADM 623. Mid-Program Leadership Seminar.
(1-0) Cr. 1. SS. Prereq: EDADM 541
Mid-program assessment of candidate progress and exploration of leadership strategies for working with diverse populations.

EDADM 624. School Finance.
(2-0) Cr. 2. SS. Prereq: EDADM 541
General issues of school finance and managing school financial affairs. Role of the federal, state and local governments in educational finance, tax issues, and structures; bonding; budget procedures; and non-public school finance issues. Includes attendance at selected sessions of the Iowa School Business Management Academy in May and two additional class sessions.

EDADM 631. Achieving Results Through Accountability Strategies.
(5-0) Cr. 5. F. Prereq: EDADM 541
Accountability strategies for applying leadership theory to student achievement, governance, systems thinking, change agentry, and communication and collaboration with various publics.

EDADM 632. Using System Assets to Create a Culture of Learning.
(3-0) Cr. 3. S. Prereq: EDADM 541
Leadership strategies to promote a culture of high student achievement; effective human capital management, including recruitment and induction of new personnel; and effective communication with parents and other patrons.

(1-0) Cr. 1. SS. Prereq: EDADM 541
Development of entry plan for creating a culture of collaboration; professional growth plan for first year in new position; and authentic performance assessment of values and beliefs platform.

EDADM 634. School Business Management and Accountability.
(2-0) Cr. 2. SS. Prereq: EDADM 541
Management of school operations; accountability and ethical business practices; risk management; school plant operations, food service and student transportation. Includes attendance at selected sessions of the Iowa School Business Management Academy in May and two additional class days.

EDADM 690. Advanced Special Topics.
Cr. 1-3. Repeatable. Prereq: 9 credits in educational administration

EDADM 691. Clinical Dilemmas of Practice.
Cr. 1-3. Repeatable, maximum of 3 credits. Prereq: EDADM 541, admission to program, and instructor’s approval
Supervised on-the-job field leadership experience in clinical dilemmas of practice. Offered on a satisfactory-fail basis only.

Cr. arr. Repeatable. Prereq: 9 credits in education

Educational Leadership and Policy Studies Courses

Courses primarily for graduate students, open to qualified undergraduates:

EL PS 591. Social Justice Field Experience.
Cr. 1-3. F.S.SS. Prereq: EL PS 620
Supervised field experience in equity and social justice inside/outside higher education.

Courses for graduate students:

EL PS 615. Thematic Seminars.
Cr. 1. F.S.SS. Prereq: Admission to educational leadership doctoral program

EL PS 615A. Thematic Seminars: Communication and Team Building.
Cr. 1. F.S.SS. Prereq: Admission to educational leadership doctoral program

EL PS 615B. Thematic Seminars: Governance, Politics and Policies.
Cr. 1. F.S.SS. Prereq: Admission to educational leadership doctoral program

EL PS 615C. Thematic Seminars: Law, Equity, Equality.
Cr. 1. F.S.SS. Prereq: Admission to educational leadership doctoral program

EL PS 615D. Thematic Seminars: Ethics, Justice, and Caring.
Cr. 1. F.S.SS. Prereq: Admission to educational leadership doctoral program

EL PS 615E. Thematic Seminars: Problem Solving and Planning.
Cr. 1. F.S.SS. Prereq: Admission to educational leadership doctoral program

EL PS 615F. Thematic Seminars: Critical and Creative Thinking.
Cr. 1. F.S.SS. Prereq: Admission to educational leadership doctoral program

EL PS 616. Capstone Experience.
Cr. 3. F.S. Prereq: 4 credits of EL PS 615
This experience is designed to explore a topic addressed in one of the thematic seminars. The product of the capstone experience is a written paper of sufficient quality to be submitted to a scholarly journal for review.

EL PS 620. Social Justice Theory, Research, and Practice.
(3-0) Cr. 3. F.
Introduction to social justice theory, research, and practice from a variety of theoretical perspectives in the context of higher education and broader society.

(Cross-listed with W S). (3-0) Cr. 3. S. Prereq: EL PS 620
Critical examination of the philosophical foundations of education that seek to challenge the status quo and advance radical educational change. Exploration of macro-level (and some micro-level) issues relevant to educational change, in relation to how they inform practices of dissent and every day social relations.
(3-0) Cr. 3. S. Prereq: EL PS 620
Critically probes the philosophical and historical foundations of anti/post-colonial theory. Examination of policy, social, theoretical and educational issues from a anti/post-colonial perspective.

EL PS 624. Critical Race Theory in Higher Education.
Cr. 1-3. SS.
Exploration of the central tenets of critical race theory. Examination of policy, social and educational issues from a critical race perspective.

EL PS 625. Sexual Orientation Issues in Higher Education.
Cr. 1-3. SS.
Exploration of issues related to sexual orientation in higher education. Examination of individual and environmental forces that influence students' success in college. Development of intervention strategies to enhance the college experience for lesbian, gay, and bisexual students.

EL PS 626. Social Justice and Social Change in Higher Education.
(3-0) Cr. 3. F. Prereq: EL PS 621
An examination of how changes in the interest of social justice have occurred historically in American higher education. Exploration of social movements and theories of social change.

Higher Education Courses
Courses primarily for graduate students, open to qualified undergraduates:

HG ED 504. Higher Education in the United States.
(3-0) Cr. 3. S. Prereq: Graduate classification
Historical development of higher education; diversity, functions, and philosophies of colleges and universities; federal and state roles; review of general, liberal, technical, graduate, and professional education.

(2-0) Cr. 2. F. Prereq: permission of instructor
Serving as an introduction to developing practicing leaders, this course will create the foundation upon which enduring understanding of leadership will be built. Specifically explored will be learning as the foundation of human enterprise, everyday leadership, determination of common good, roots of individual’s actions, sensitivity to others, merits of divergent ideas, questioning the status quo, ethics as personal responsibility and choosing to grow.

HG ED 541. Learning, Leadership, Ethics and Community.
(2-0) Cr. 2. S. Prereq: permission of instructor
Serving as the second semester in a program to develop practicing leaders, this course will build upon the foundation started first semester to help students embrace the enduring understandings of leadership. Specifically explored will be team learning and the effect on individuals, skills required for a team to move forward, importance of decisions based on the good of the community, reflection as a means of enhancing learning, and interconnectedness of the individual, the community, and the world.

HG ED 542. Learning, Leadership, Ethics, and Teams; Knowing, Doing and Being.
(2-0) Cr. 2. F. Prereq: permission of instructor
The overall purpose of this course is to expand the foundation started in Foundations of Leadership: Learning, Ethics, Self and Interactions and Learning, Leadership, Ethics and Community for developing practicing leadership. The focus will shift from a naive understanding of the concepts of self within a team and community to a more sophisticated understanding of knowing, being and doing leadership.

HG ED 543. Learning, Leadership, Ethics and Teams in Action.
(2-0) Cr. 2. S. Prereq: permission of instructor
The purpose of this last (in a series of four) course is to allow students to put their knowledge, skills, and abilities related to leadership, learning, Ethics and Teams into practice. In addition to planning and implementing a major service learning project, the focus will be on the next wave of the study of leadership - connecting leadership to the research about the brain and human learning.

(3-0) Cr. 3. F. Prereq: graduate student classification
First of two-course series to help leaders develop the knowledge and skills to engage the collective capacity of a group to think, learn, and achieve important purpose. The foundation for developing deep understanding about leadership, learning, and the relationships therein. Focus on application of recent knowledge about human learning in the professional practice of leadership. Relationship leadership model and relationship to other leadership models, theories, and concepts; current theories of human learning (including expert/novice and transfer of learning), and interrelationships with leadership practice; critical understanding of self; facilitating learning for others; metacognition as a habit of mind; fundamentals of group interaction theories; social interdependence, communication, trusting, trustworthy goals, decision-making, cohesion, controversy, team development; power, resources, and development of community.

HG ED 545. Connecting Leadership & Learning in Practice.
(3-0) Cr. 3. F. Prereq: Graduate student classification and completion of HG Ed 544
Second of a two-course series designed to help leaders develop the knowledge and skills to best engage the collective capacity of a group to think, learn and achieve important purpose. Builds on foundation course to support students in creating applications of the relationships between leadership and learning. Focus on developing the habits of mind and habits of practice to best use knowledge about human learning in the professional practice of leadership. Applications of relational leadership model; applications of group interaction theories; development and implementation of action plans to achieve measurable goals; application of current theories of human learning as they relate to leadership; exploration of the fundamentals of emotional intelligence and the impacts on leadership; developing critical habits of mind to practice leadership focused on learning.

HG ED 550. Teaching, Learning and Leadership.
(3-0) Cr. 3. F. Prereq: Teacher licensure
Current issues and practices in community college teaching and learning, and the roles and responsibilities of teachers as leaders.

HG ED 561. College Teaching.
(3-0) Cr. 3. Prereq: 6 graduate credits
Educational theories, methods and strategies for the improvement of college instruction. Assist potential college instructors in developing knowledge of protocol, assessment, and the scholarship and art of teaching. Emphasis on the unique challenge of college teaching in a changing student population environment.

(3-0) Cr. 3. Prereq: Graduate classification
Modes of curriculum design, development, and change in colleges. Development of curricular leadership and evaluation strategies.

(3-0) Cr. 3. Prereq: HG ED 504
Assessment of global education policy issues in education. Analysis of policies, implementation strategies, and policy outcomes.

HG ED 570. Current Topics in Student Affairs.
Cr. 1-3. Prereq: Graduate classification
Current issues and new directions in student affairs practice. Topics developed to the specific needs of student affairs professionals. Primarily for off-campus.

HG ED 570D. Current Topics in Student Affairs: Residential Life.
Cr. 1-3. Prereq: Graduate classification
Current issues and new directions in student affairs practice. Topics developed to the specific needs of student affairs professionals. Primarily for off-campus.

HG ED 570H. Current Topics in Student Affairs: Student Diversity.
Cr. 1-3. Prereq: Graduate classification
Current issues and new directions in student affairs practice. Topics developed to the specific needs of student affairs professionals. Primarily for off-campus.

HG ED 574. Student Affairs Practice in Higher Education.
(3-0) Cr. 3. F. Prereq: Graduate classification, admission to Higher Education Program
An introduction to the field of student affairs practice with a consideration of student activities, counseling services, financial aid, admissions, student conduct, academic advising, and residential programs; includes community college programs.
HG ED 575. Organization and Administration of Student Affairs. 
(3-0) Cr. 3. S. Prereq: Admission to Higher Education Program. 
HG ED 574 Organization structures, role and function of student affairs staff; policies and 
decision-making for student affairs practice.

HG ED 576. Student Development in Higher Education. 
(3-0) Cr. 3. F. Prereq: Admission to Higher Education Program 
Theories of student development and their applications in student affairs programs, services, and activities are reviewed. Emphasis is placed on psychosocial, cognitive 
developmental, and learning theories as well as newer integrative theories.

HG ED 577. Campus Environments and Cultures. 
(3-0) Cr. 3. F. Prereq: Admission to Higher Education Program 
Study of the impact of the college environment on students and use of environmental 
theory to create positive learning situations for students.

HG ED 578. Students in American Higher Education. 
The relationship between college students and characteristics from 1950 to the 
present. Traditional assumptions about the impact of higher education on students 
will be reviewed and challenged. Campus issues and concerns relative to commuters 
and residential life. Participants will analyze institutional responses to students 
through college missions, organizational development, structure, core curriculum and 
retention.

HG ED 579. Counseling and Group Dynamics in Post-secondary Settings. 
(3-0) Cr. 3. F. Prereq: HG ED 574, HG ED 576 
Development of effective, basic counseling skills. Understanding of group dynamics. 
Ability to work effectively in groups.

HG ED 580. Current Topics in Community Colleges. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed 
to the specific needs of colleges. For off-campus.

HG ED 580A. Current Topics in Community Colleges: Student Needs. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed to 
the specific needs of colleges. For off-campus.

HG ED 580B. Current Topics in Community Colleges: General and Liberal 
Education. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed to 
the specific needs of colleges. For off-campus.

HG ED 580C. Current Topics in Community Colleges: Counseling and Advising. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed to 
the specific needs of colleges. For off-campus.

HG ED 580D. Current Topics in Community Colleges: Adult and Continuing 
Education. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed to 
the specific needs of colleges. For off-campus.

HG ED 580E. Current Topics in Community Colleges: Development and 
Remedial Education. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed to 
the specific needs of colleges. For off-campus.

HG ED 580F. Current Topics in Community Colleges: Student Services. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed to 
the specific needs of colleges. For off-campus.

HG ED 580G. Current Topics in Community Colleges: Faculty and Staff 
Evaluation. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed to 
the specific needs of colleges. For off-campus.

HG ED 580H. Current Topics in Community Colleges: Organization and 
Administration. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed to 
the specific needs of colleges. For off-campus.

HG ED 580L. Current Topics in Community Colleges: Learning and Teaching. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed to 
the specific needs of colleges. For off-campus.

HG ED 580J. Current Topics in Community Colleges: Human Relations. 
(1-3) Cr. 1-3. Prereq: Graduate classification 
Current issues and new directions in community college education. Topics developed to 
the specific needs of colleges. For off-campus.

HG ED 580. The Comprehensive Community College. 
(3-0) Cr. 3. Prereq: Graduate classification 
The community college as a unique social and educational institution: its history, 
philosophy, functions, programs, faculty and student characteristics, organization 
and finance, trends, and issues. Reviews current research and exemplary community 
college practices internationally, nationally, and in Iowa.

HG ED 590. Special Topics. 
Cr. 1-4. Prereq: 9 credits in education 
Independent study on specific topics arranged with an instructor.

HG ED 590A. Special Topics: Student Services. 
Cr. 1-4. Prereq: 9 credits in education 
Independent study on specific topics arranged with an instructor.

HG ED 590B. Special Topics: Community Colleges. 
Cr. 1-4. Prereq: 9 credits in education 
Independent study on specific topics arranged with an instructor.

HG ED 590C. Special Topics: Current Issues. 
Cr. 1-4. Prereq: 9 credits in education 
Independent study on specific topics arranged with an instructor.

HG ED 590D. Special Topics: International Higher Education. 
Cr. 1-4. Prereq: 9 credits in education 
Independent study on specific topics arranged with an instructor.

HG ED 590E. Special Topics: Federal and State Affairs. 
Cr. 1-4. Prereq: 9 credits in education 
Independent study on specific topics arranged with an instructor.

HG ED 590F. Special Topics: Law in Higher Education. 
Cr. 1-4. Prereq: 9 credits in education 
Independent study on specific topics arranged with an instructor.

HG ED 590G. Special Topics: Institutional Research. 
Cr. 1-4. Prereq: 9 credits in education 
Independent study on specific topics arranged with an instructor.

HG ED 591. Supervised Field Experience. 
Cr. 1-4. Repeatable. Prereq: 9 credits graduate work 
Supervised on-the-job field experience.

HG ED 593. Workshops. 
Cr. 1-5. Repeatable. Prereq: 15 credits in education

HG ED 598. Capstone Seminar. 
(3-0) Cr. 3. S. Prereq: Completion of 30 credits in EL PS 
This course is designed to integrate the learning experiences of students completing 
the Master’s Degree Program in higher education. Such issues as ethics, continuing 
professional development, career planning and leadership will be explored.

HG ED 599. Creative Component. 
Cr. arr. Prereq: 9 credits in education

Courses for graduate students:

HG ED 615. Seminars in Higher Education. 
Cr. 1-4.

HG ED 615A. Seminars in Higher Education: Student Services. 
Cr. 1-4.

HG ED 615B. Seminars in Higher Education: Community Colleges. 
Cr. 1-4.

HG ED 615C. Seminars in Higher Education: Current Issues. 
Cr. 1-4.

HG ED 615D. Seminars in Higher Education: International Higher Education. 
Cr. 1-4.

HG ED 615E. Seminars in Higher Education: Federal and State Affairs. 
Cr. 1-4.

HG ED 615F. Seminars in Higher Education: Law in Higher Education. 
Cr. 1-4.
HG ED 664. College Organization and Administration. (3-0) Cr. 3. F. Prereq: HG ED 504 Administrative organization and behavior: communications, leadership, finance, strategic planning, and institutional governance.
HG ED 665. Financing Higher Education. (3-0) Cr. 3. S. Prereq: HG ED 504 Lectures, discussions, and individual investigation relating to financial administration in colleges and universities. Budgeting, auxiliary enterprises, administration of financial planning, fund raising, examination of theories on expenditures. Designed for persons aspiring to serve as college administrators.
HG ED 666. Academic Issues and Cultures. (3-0) Cr. 3. S. Prereq: HG ED 504 Examination of institutional culture and issues in higher education focusing on the roles and responsibilities of faculty and academic administrators.
HG ED 676. Student Development Theory II. (3-0) Cr. 3. S. Prereq: HG ED 576 An examination of social identity theories including those exploring race, ethnicity, gender, class, ability, sexuality, and spirituality. An exploration of how social identity is influenced by the dynamics of power and oppression in education and society and how to enhance the college experiences of students from diverse backgrounds.

Historical, Philosophical, and Comparative Studies in Education Courses

Courses primarily for graduate students, open to qualified undergraduates:

H P C 504. Studies in the Foundations of Education in the United States. (3-0) Cr. 3. SS. Prereq: Admission to graduate licensure program in teacher education or permission of instructor Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis is placed on topics and tensions in the relationship between school and society (e.g. equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning in public schools. Designed for students in a graduate licensure program.

H P C 581. Philosophy of Education. (Dual-listed with H P C 481). (3-0) Cr. 3. SS. Prereq: Graduate classification Introduction to Western philosophy of education. Emphasis is placed on enduring debates about the purpose(s) of education in a just society. Readings include classic and contemporary texts.

H P C 582. History of Education in the United States. (3-0) Cr. 3. Prereq: Graduate classification Survey course in the history of education in the United States, from the colonial era to the present. Emphasis is placed on enduring debates about the purpose(s) of public schooling. Readings include primary and secondary materials.

H P C 588. History of Education in the United States. (3-0) Cr. 3. Prereq: Graduate classification Survey course in the history of education in the United States, from the colonial era to the present. Emphasis is placed on enduring debates about the purpose(s) of public schooling. Readings include primary and secondary materials.

H P C 590. Special Topics. Cr. 1-5. F.S. Prereq: 9 graduate credits in education

H P C 590A. Special Topics: History of Education. Cr. 1-5. F.S. Prereq: 9 graduate credits in education

H P C 590B. Special Topics: Philosophy of Education. Cr. 1-5. F.S. Prereq: 9 graduate credits in education

H P C 590C. Special Topics: Comparative Education. Cr. 1-5. F.S. Prereq: 9 graduate credits in education

H P C 599. Creative Component. Cr. 1-3. F.S.

Courses for graduate students:

H P C 615A. Seminar in History of Education. Cr. 1. Repeatable.

Organizational Learning and Human Resource Development Courses

Courses primarily for graduate students, open to qualified undergraduates:

OLHRD 541. Adult Learning. (3-0) Cr. 3. Examines how adults acquire and use knowledge, skills, and attitudes within organizational settings; individual differences in learning as well as the principles and elements of the learning organization.

OLHRD 544. Performance Improvement and Change Through Learning Interventions. (3-0) Cr. 3. Prereq: OLHRD 541, OLHRD 542 Critical examination of learning acquisition, transfer, and evaluation barriers, partnerships, strategies, and activities; and the roles and responsibilities of human resource development professionals, managers, employees, and organizations in the application and evaluation of learning on the job.

Research and Evaluation Courses

Courses primarily for graduate students, open to qualified undergraduates:

RESEV 550. Introduction to Educational Research. (3-0) Cr. 3. F-S.S. Understanding the nature of quantitative and qualitative research; reviewing the literature; developing research problems and questions; research designs; data collection and analysis issues; evaluating research studies.

RESEV 552. Basic Educational Statistics. (3-0) Cr. 3. F. Statistical concepts and procedures for analyzing educational data; descriptive statistics, correlation, t tests, and chi square with computer applications.

RESEV 553. Intermediate Educational Statistics. (3-0) Cr. 3. Prereq: RESEV 552 or STAT 401 A continuation of statistical concepts and procedures for analyzing educational data, using multiple regression and logistic regression.

RESEV 554. Intermediate Research Methods. (3-0) Cr. 3. SS. Prereq: RESEV 553 or STAT 404 Intermediate quantitative research methodology in preparation for carrying out thesis and dissertation research, with an emphasis on the estimation of causal effects using observational data.
RESEV 570. Surveys in Educational Research.  
(3-0) Cr. 3. S. Prereq: RESEV 552 or equivalent  
Examination of survey design and administration in educational research. Designing  
surveys; developing, evaluating, and asking survey questions; survey sampling;  
measuring survey reliability and validity; administering mail and web surveys;  
decreasing survey nonresponse; conducting post-collection survey data processing;  
conducting survey research with integrity.

RESEV 580. Introduction to Qualitative Research Methodology.  
(3-0) Cr. 3.  
Qualitative research in the human sciences, emphasizing education; principles of  
qualitative inquiry, including theoretical foundations, research design, and fieldwork.

RESEV 590. Special Topics.  
Cr. 1-3. Repeatable. F.S.S.S. Prereq: Graduate standing  
Guided reading and in research and evaluation study on special topic.

RESEV 591. Supervised Field Experience.  
Cr. 2-4. Repeatable. Prereq: RESEV 553 or RESEV 680  
Supervised on the job field experience.

RESEV 593. Workshop.  
Cr. 1-3. Repeatable. F.S.S.S. Prereq: Graduate standing  
Intensive, concentrated exposure to a special educational research or evaluation  
problem.

RESEV 597. Program Assessment and Evaluation.  
(3-0) Cr. 3. S. Prereq: RESEV 550  
Evaluation models and professional standards. Techniques of evaluating educational  
programs. Emphasis on both theory and practical applications.

Courses for graduate students:  
RESEV 615. Current Topics in Research and Evaluation.  
Cr. 1-3. Repeatable.

RESEV 620. College Access in Policy, Practice, and Research.  
(4-0) Cr. 1-3. SS.  
Exploration of the plurality of frameworks used to conceptualize college access as  
a social problem (for research, policy, and practice). Development of application of  
understandings of college access frameworks to policy, practice, and research.

(3-0) Cr. 3. S. Prereq: RESEV 580  
An intensive reading and discussion course focusing on contemporary  
methodological theory for qualitative inquiry; examines epistemological, ontological,  
axiological and theoretical assumptions and their consequences for qualitative inquiry  
in the human sciences; interrogates core concepts of qualitative inquiry such as  
fieldwork, data, validity and representation.

RESEV 681. Analytical Approaches in Qualitative Inquiry.  
(3-0) Cr. 3. F. Prereq: RESEV 580 or equivalent  
Conceptions of data and analysis in qualitative methodologies; focus on applied  
topics in qualitative data analysis, such as narrative analysis, ethnographic analysis,  
life history analysis, postmodern analyses, discourse analysis, arts-based analytical  
strategies, constructing data; combining formal of reading and discussion seminars  
and classroom workshops focusing on individual research projects (not for thesis or  
dissertation).

RESEV 690. Advanced Special Topics.  
Cr. 1-3. Repeatable. Prereq: Graduate standing  
Guided reading and/or study on special topics of an advanced nature.

RESEV 699. Research.  
Cr. arr. Repeatable. F.S.S.S.

Event Management  
Administered by the Department of Apparel, Educational Studies, and Hospitality  
Management.

Department name changed to Apparel, Events, and Hospitality Management  
(12-2011)  
The program offers study for the degree of Bachelor of Science with a major in event  
management. The program prepares undergraduate students for careers in leading  
event and meeting management businesses. Through the major, students gain  
background and experiences in planning, budgeting, and implementing conferences,  
meetings, and other special events in the public or private sectors. Course work  
provides students with a general education plus professional preparation focusing  
on the concepts and principles involved in meeting and event planning; special  
event management; budgets and finance; site selection; contracts, vendors, and  
negotiations; marketing and promotions; food and beverage management; meeting  
technology; and hospitality law. Supporting courses include foodservice, catering,  
promotion, brand management, trend analysis, fashion, and resource management.  
Learning experiences are provided through planning university events such as  
VEISHEA, Dance Marathon, and Homecoming, as well as other campus and  
community events.

Graduates from this program are prepared for careers in event planning (political  
events, celebrations, education, promotions, commemorations, trade shows,  
conferences, exhibitions, and conventions) and small business development  
(entrepreneurship). Graduates demonstrate leadership characteristics and make  
decisions based on integrating knowledge of financial, human resources, promotion,  
and event management principles. Students are required to complete an internship in  
event management prior to graduation.

The AESHM Department offers a minor in event management. The minor can be  
earned by successfully completing the following for a total of 15 credits.

9 credits are required:  
EVENT 271 Introduction to Event Management 3  
EVENT 371 Conference and Meeting Planning 3  
EVENT 471 Special Events Coordination 1-3

And six credits of the following:  
AESHM 287 Principles of Management in Human Sciences  
AESHM 311 Seminar on Careers and Internships  
AESHM 340 Hospitality and Apparel Marketing Strategies  
AESHM 342 Aesthetics of Consumer Experience  
AESHM 470 Supervised Professional Internship  
AESHM 474 Entrepreneurship in Human Sciences  
Total Credits 15

Curriculum in Event Management  
Administered by the Apparel, Events, and Hospitality Management Department.  
Leading to the degree Bachelor of Science.

Total credits required: 123 including a minimum of 18 credits from the AESHM  
Department at Iowa State University for the degree. The curriculum in event  
management prepares students for careers in leading event and meeting  
management businesses. Courses are required in general education, and  
the professional area. Students majoring in Event Management are required  
to earn C- or better in all AESHM and EVENT courses. Communication  
Proficiency Requirement: Grade of C or better in ENGL 150 Critical Thinking and  
Communication, and ENGL 250 Written, Oral, Visual, and Electronic Composition.  
A minor in event management is available; see requirements under Apparel, Events,  
and Hospitality Courses and Programs.

Cr. Degree Requirements  
Communication Skills:  
ENGL 150 Critical Thinking and Communication 3  
ENGL 250 Written, Oral, Visual, and Electronic Composition 3  
LIB 160 Information Literacy 1  
One of the following: 3  
COMST 102 Introduction to Interpersonal Communication  
COMST 214 Professional Communication  
SP CM 212 Fundamentals of Public Speaking  
Total Credits 10

<tr>
<td>The College of Human Sciences offers a nonthesis master’s degree program that might appeal to individuals with a bachelor’s degree in family and consumer sciences/home economics subject area or related disciplines. This program is considered to be a professional master’s degree. For students interested in further graduate study beyond the MFCS, the nonthesis degree program may mean additional requirements before completion of a Ph.D. or other terminal degree graduate program. Students select either a comprehensive option or a specialization option. The comprehensive option requires 36 credits covering a variety of family and consumer sciences subject matter. Off-campus courses are offered via the World Wide Web (WWW). Specializations are available in Nutrition; Dietetics; Human Development</td>

and Family Studies; Hospitality Management; and Apparel, Merchandising, and Design.

In addition, students may select a 42-credit specialization in Family Financial Planning (FFP), a 36-credit specialization in Gerontology, a 36-credit specialization in Dietetics, or a 36-credit specialization in Youth Development. The FFP, Gerontology, Dietetics, and Youth Development specializations, offered in collaboration with six to eight other universities in the Great Plains Interactive Distance Education Alliance, are offered exclusively through courses on the Web. The FFP program has been approved by the Board of Examiners of the Certified Financial Planner Board of Standards as a program with the competencies required to permit those completing the degree to sit for the CFP® Certification Examination. CFP® is a certification mark owned by the Certified Financial Planner Board of Standards.

The Program of Study committee, in consultation with the student, establishes the courses to be taken and the acceptability of transfer credits. The major professor is selected from the discipline in which the concentration of coursework will be taken. Written and oral final integrative examinations are required in lieu of a thesis or creative component. A thesis or creative component could be included on mutual agreement of the student and major professor, with approval of the Graduate College.

Admission requirements for the MFCS include a bachelor’s degree in a family and consumer sciences/home economics subject area or related disciplines, Graduate Record Examination (GRE) scores (not required for the FFP and Geron specializations), official transcripts, three letters of recommendation, a goal statement, and graduation in the upper one-half of class with a bachelor’s degree from a regionally accredited U.S. institution or graduation in the upper one-half of class from a recognized foreign institution. Non-English speaking international students are required to have a TOEFL score of at least 550 at time of admission.

**Graduate Certificates**

An 18-credit graduate certificate in Family Financial Planning is offered for students who do not need a master’s degree and want to obtain the educational requirements of the Certified Financial Planner Board of Standards CFP® Certification Examination.

A 21-credit graduate certificate in Gerontology is offered.

A 13-credit Youth Development Specialist graduate certificate is offered.

A 13-credit graduate certificate in Youth Program Management & Evaluation is offered.

For additional information, students should contact the Research and Graduate Education Office, E262 Lagomarcino, Ames, Iowa 50011-3191, mfcsinfo@iastate.edu.

**Family and Consumer Sciences Education and Studies**

**Undergraduate Study**

The curriculum in Family and Consumer Sciences Education and Studies offers one curriculum for the bachelor of science degree in Family and Consumer Sciences Education and Studies. (http://catalog.iastate.edu/collegeofhumanities/familyandconsumerscienceseducationandstudies)

Graduates in Family and Consumer Sciences Education and Studies have a broad understanding of individual and family well-being. Graduates apply knowledge and research in family and consumer sciences content in global professional settings. They work in an integrative fashion to improve well-being by addressing and acting on complex problems confronting individuals, families, and communities. The study of Family and Consumer Sciences Education incorporates the following 16 areas (http://www.nasafacs.org/national-standards--competencies.html): Career, Community and Family Connections; Consumer and Family Resources; Consumer Services; Education and Early Childhood; Facilities Management and Maintenance; Family; Family and Community Services; Food Production and Services; Food Science, Dietetics, and Nutrition; Hospitality, Tourism and Recreation; Housing and Interior Design; Human Development; Interpersonal Relationship; Nutrition and Wellness; Parenting; and Textiles, Fashion and Apparel.

Students in the curriculum choose one of three options, Teacher Licensure, Communications, or Professional Studies.

Graduates of the Teacher Licensure option may teach family and consumer sciences in middle, junior high, and senior high schools. Students who enroll in Teacher Licensure must apply and be accepted into the teacher education program prior to enrolling in advanced courses and must meet general education requirements for teacher licensure. Iowa State University is in compliance with the Iowa Department of Education’s mandate for a performance based system of teacher training. The State of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the twelve Iowa State University Teacher Education Standards and the eight State of Iowa Teaching Standards, along with other information about the University Teacher Education Program, can be found at www.education.iastate.edu/tei. This program option is approved by the Iowa Department of Education for the preparation of comprehensive and occupational career and technical education family and consumer sciences teachers.

Graduates of the Communications option have a broad-based knowledge of family and consumer sciences and the ability to communicate in a global and technologically changing society. They are able to plan, develop, creatively present and evaluate information. Students apply the principles of educational presentations, journalism, marketing, and public relations to the family and consumer sciences field within businesses, agencies, and organizations that work to empower individuals, families, and communities.

Graduates of the Professional Studies option pursue individualized career goals in family and consumer sciences that apply integrative knowledge of family and consumer sciences in diverse careers for global settings. Students are prepared to work in a variety of careers ranging from non-profit organizations to the private sector in a business or entrepreneurial venture working with family nutrition, financial planning, life planning, current issues or other topics from the 16 content areas that affect individuals, families and communities.

Students in FCEDS may choose coursework that leads to becoming a Certified Family Life Educator (CFLE), a program that has been approved by the National Council on Family Relations. These courses provide the basic education for students interested in working with families, including adolescents, parents, or adults working to strengthen relationships. The student takes courses that support the development of knowledge and skills in family life content areas selected by the National Council on Family Relations. The certification is a voluntary credential that requires the individual to complete a degree in an approved program and to have at least two years of work experience in family life education settings.

Graduates may also choose from one of several nationally recognized professional certifications available from the American Association for Family and Consumer Sciences (AAFCS) Council for Certification. This program measures competencies of FCS professionals using high-quality, rigorous assessments. Certifications that are currently available are (http://www.aafcs.org/CredentialingCenter/Certification.asp):

- **CFCS**: Certified in Family and Consumer Sciences; **CFCS-HDFS**: Certified in Human Development and Family Studies; **CFCS-HNFS**: Certified in Hospitality, Nutrition, and Food Science; and **CPFFE**: Certified Personal and Family Finance Educator.

Opportunities are available for obtaining a minor from other programs through careful selection of elective credits and consultation with an adviser. For example, students pursuing the Communications and Professional Studies options are encouraged to consider obtaining a minor in journalism and mass communications or in one of the content areas of family and consumer sciences such as family finance, housing, and policy. They also are encouraged to enhance their program by selecting relevant additional courses in their area of interest. Students in the Teacher Licensure option may choose to add an additional endorsement such as Health Education, Middle School, Multi-Occupations, or Coaching Interscholastic Athletics.

There is also an opportunity to obtain a family and consumer sciences-general endorsement or teacher licensure as a post baccalaureate student.

The program offers a minor in Educational Services in Family and Consumer Sciences. The minor is earned by successfully completing 15 credits. For additional details, see hdfs.hs.iastate.edu/undergraduate-majors/ecdcs/.

**Communication Proficiency Requirement:** C or better in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition.

**Graduate Study**

The program offers work for the degrees master of science, master of education, and doctor of philosophy, each with the major, family and consumer sciences education. The M.S. degree requires a thesis; the M.Ed. degree requires a creative component; the Ph.D. requires a dissertation. Minors are available.

Programs for advanced degrees with a major in family and consumer sciences education are tailored to fit the educational background, experience, and professional goals of the student. Areas of study provided by the department include program planning, curriculum, evaluation, research methods, supervision and administration, international education and development, and teacher education. Opportunities are available for strengthening one’s background in subject matter in other programs in the College of Human Sciences.
Students who complete a graduate program are professional family and consumer sciences educators and teacher educators who foster program planning, implementation, and evaluation at state, national, and international levels. They are producers and disseminators of research and scholarship in family and consumer sciences education and are leaders in programs and services for clientele in diverse settings. Currently, the graduate program is not accepting new admissions.

Curriculum in Family and Consumer Sciences Education and Studies

Administered by the Department of Human Development and Family Studies. Leading to a degree bachelor of science.

This curriculum provides a broad-based program of study focusing on preparation for professional careers related to education or community leadership. Courses are required in general education and the College core. Students select one program option.

There are three choices for this curriculum.

Option 1, teacher licensure, Option 2, communications, or Option 3, professional studies. In all options, students are prepared with a broad based understanding of family and consumer sciences.

Option 1, Teacher Licensure, is designed for students seeking careers as family and consumer sciences educators in a variety of settings such as middle, junior high, and senior high schools. Further information about licensure programs appears under Teacher Education.

Option 2, Communications, is designed for students seeking careers emphasizing the use of principles in journalism, marketing, communications, and public relations with diverse populations in business or social agency settings as well as extension, community agencies, community colleges, and youth and adult education programs in the global community.

Option 3, Professional Studies, is designed to provide students with the opportunity to pursue an individualized program which is planned with their academic advisors. Careers include working with diverse populations in extension, business, community agencies, and community colleges, or non-profit groups and organizations involving youth and adult education programs.

A minor in Educational Services in Family and Consumer Sciences is available to all Iowa State students. Minors consist of at least 15 credits, including 6 credits taken at Iowa State University in courses numbered 300 or above. A student may not apply the same course to different minors. The minor must include 9 credits that are not used to meet any other department, college or university requirement. For additional details, see http://www.hdfs.hs.iastate.edu/fceds.

Total Credits required: 122.5-123.5

Courses

Courses primarily for undergraduates:

FCEDS 206. Professional Roles in Family and Consumer Sciences. (1-1) Cr. 2. F.
Overview of various roles in professional settings, e.g., community agencies, secondary schools, business and industry, Cooperative Extension. Historical development of family and consumer sciences Includes a 12-hour arranged practicum.

FCEDS 280. Pre-Student Teaching Experience in Family and Consumer Sciences Education. (0-2) Cr. 1. Repeatable. F.S. Prereq: Admission to teacher education.
Laboratory experience in foods, textiles and human development in family and consumer sciences secondary programs. At least 2 hour blocks of time needed for field experience. Observation of family and consumer sciences laboratories in diverse classrooms. Planning, implementing, managing and assessing laboratory lessons in family and consumer sciences. Offered on a satisfactory-fail basis only.

FCEDS 280A. Pre-Student Teaching Experience in FCS Education: Practicum in FCS Labs (24 hours). (0-2) Cr. 1. Repeatable. F.S. Prereq: Admission to teacher education.
Laboratory experience in foods, textiles and human development in family and consumer sciences secondary programs. At least 2 hour blocks of time needed for field experience. Observation of family and consumer sciences laboratories in diverse classrooms. Planning, implementing, managing and assessing laboratory lessons in family and consumer sciences. Offered on a satisfactory-fail basis only.

FCEDS 280B. Pre-Student Teaching Experience in FCS Education: Practicum in Diverse Settings (24 hours). (0-2) Cr. 1. Repeatable. F.S. Prereq: Admission to teacher education.
Laboratory experience in foods, textiles and human development in family and consumer sciences secondary programs. At least 2 hour blocks of time needed for field experience. Observation of family and consumer sciences laboratories in diverse classrooms. Planning, implementing, managing and assessing laboratory lessons in family and consumer sciences. Offered on a satisfactory-fail basis only.

FCEDS 306. Educational Principles for Family and Consumer Sciences. (3-2) Cr. 4. F. Prereq: 15 credits in family and consumer sciences subject matter
Principles of teaching and learning applied to family and consumer sciences content, including family financial literacy; reading strategies. Instructional methods appropriate for formal and nonformal educational settings. Specific strategies for diverse audiences. Includes 24 hour arranged practicum. May be used for family life certification.
FCEDS 413. Planning and Assessment for Family and Consumer Sciences and Family Life Education.
(3-2) Cr. 4. S. Prereq: FCEDS 306
Development of curriculum and assessment tools for family and consumer sciences programs for school settings. Accommodating exceptional learners. Includes 12 hours of Career and Technical Student Organization Competitive Event Assessment. May be used for family life certification.

FCEDS 417. Supervised Teaching in Family and Consumer Sciences.
Cr. 3-8. Repeatable. F.S. Prereq: FCEDS 413; 24 credits in family and consumer sciences subject matter; cumulative grade point of 2.50; full admission to teacher education
Supervised teaching experience in secondary schools. Examination of ways to implement actions that reflect a professional philosophy of family and consumer sciences for teaching middle and high school level students. Reservation required.

FCEDS 417A. Supervised Teaching in Family and Consumer Sciences: Vocational family and consumer sciences.
Cr. 3-8. Repeatable. F.S. Prereq: FCEDS 413, 24 credits in family and consumer sciences subject matter, cumulative grade point of 2.50, full admission to teacher education
Supervised teaching experience in secondary schools. Examination of ways to implement actions that reflect a professional philosophy of family and consumer sciences for teaching middle and high school level students. Reservation required.

FCEDS 417B. Supervised Teaching in Family and Consumer Sciences: Family and consumer sciences.
Cr. 3-8. Repeatable. F.S. Prereq: FCEDS 413, 24 credits in family and consumer sciences subject matter, cumulative grade point of 2.50, full admission to teacher education
Supervised teaching experience in secondary schools. Examination of ways to implement actions that reflect a professional philosophy of family and consumer sciences for teaching middle and high school level students. Reservation required.

FCEDS 418. Occupational, Career and Technical Programs.
(Dual-listed with FCEDS 518). (3-0) Cr. 3. S. Prereq: FCEDS 206; 400 hours employment in a family and consumer sciences related field. Philosophy of career and technical education. Historical development of family and consumer sciences. Planning and implementing programs in family and consumer sciences including FCCLA. Impact of selected legislation on family and consumer sciences programs. Techniques for cooperative education, school-to-work, and work-based education programs. May be used toward Occupational Family and Consumer Sciences and Multioccupations Endorsements.

FCEDS 490. Independent Study.
Cr. arr. F.S.SS.

FCEDS 490A. Independent Study: Adult Education.
Cr. arr. F.S.SS.

FCEDS 490C. Independent Study: Curriculum.
Cr. arr. F.S.SS.

FCEDS 490D. Independent Study: Evaluation.
Cr. arr. F.S.SS.

FCEDS 490E. Independent Study: Cooperative Extension.
Cr. arr. F.S.SS.

FCEDS 490G. Independent Study: General.
Cr. arr. F.S.SS.

FCEDS 490H. Independent Study: Honors.
Cr. arr. F.S.SS.

Cr. arr. F.S.SS.

FCEDS 490K. Independent Study: Occupational Education.
Cr. arr. F.S.SS.

FCEDS 490N. Independent Study: Leadership and Human Relations.
Cr. arr. F.S.SS.

FCEDS 490P. Independent Study: Special Needs/Mainstreaming.
Cr. arr. F.S.SS.

FCEDS 490R. Independent Study: Vocational Education.
Cr. arr. F.S.SS.

FCEDS 490S. Independent Study: Technology and Distance Education.
Cr. arr. F.S.SS.

FCEDS 491. Supervised Experiences in a Professional Setting.
Cr. 3-8. Repeatable. F.S.SS. Prereq: HD FS 418B; 24 credits in family and consumer sciences; reservation required
Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency.

FCEDS 491A. Supervised Experiences in a Professional Setting: Communications.
Cr. 3-8. Repeatable, maximum of 8 credits. F.S.SS. Prereq: HD FS 418B; 24 credits in family and consumer sciences; reservation required
Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency.

FCEDS 491B. Supervised Experiences in a Professional Setting: Professional Studies.
Cr. 3-8. Repeatable, maximum of 8 credits. F.S.SS. Prereq: HD FS 418B; 24 credits in family and consumer sciences; reservation required
Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency.

Courses primarily for graduate students, open to qualified undergraduates:

FCEDS 500. Short Course: Current Family and Consumer Sciences Offerings.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500A. Short Course: Adult Education.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500B. Short Course: Supervision and Administration.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500C. Short Course: Curriculum.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500D. Short Course: Evaluation.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500E. Short Course: Teacher Education.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500F. Short Course: Occupational, Career and Technical Education.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500G. Short Course: General.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500H. Short Course: Research Methodology.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500I. Short Course: International Education.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500J. Short Course: Middle Level Education.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

FCEDS 500K. Short Course: Textile Selection and Apparel Construction Methods.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education

(3-0) Cr. 3. F. Prereq: Graduate classification
Exposure to a variety of selected readings that provide an intellectual foundation and framework for the family and consumer sciences profession. Connects the historical and philosophical structure of the profession with perspectives leading to innovative professional action.
FCEDS 507. Program Development in Family and Consumer Sciences. (3-0) Cr. 3. SS. Prereq: Professional experience in family and consumer sciences or related area
Application of principles of program development to formal and nonformal educational settings, e.g., secondary school family and consumer sciences programs, training positions in business, Cooperative Extension, human services agencies.

FCEDS 508. Models for Teaching Family and Consumer Sciences. (3-0) Cr. 3. S. Prereq: 6 credits in family and consumer sciences
Selecting teaching strategies and instructional materials based on theories of learning and human development that reflect a professional philosophy of family and consumer sciences. Application to formal and nonformal educational settings with diverse audiences.

FCEDS 511. Research Methods. (3-0) Cr. 3. F. Prereq: Graduate classification
An overview of diverse research approaches focusing on methods for collecting and analyzing quantitative and qualitative data. Critique of research reports and development of research proposals.

FCEDS 515. Assessment in Family and Consumer Sciences. (3-0) Cr. Alt. S., offered 2012. Prereq: Introductory statistical and program development skills
Role of assessment in family and consumer sciences education programs. Planning and constructing test items and other assessments of school and nonschool learning.

FCEDS 518. Occupational, Career and Technical Programs. (Dual-listed with FCEDS 418). (3-0) Cr. 3. S. Prereq: FCEDS 206; 400 hours employment in a family and consumer sciences related field.
Philosophy of career and technical education. Historical development of family and consumer sciences. Planning and implementing programs in family and consumer sciences including FCCLA. Impact of selected legislation on family and consumer sciences programs. Techniques for cooperative education, school-to-work, and work-based education programs. May be used toward Occupational Family and Consumer Sciences and Multioccupations Endorsements.

FCEDS 521. International Perspectives of Family and Consumer Sciences. (3-0) Cr. 3. Alt. SS., offered 2012. Prereq: 6 credits in family and consumer sciences
Examination of family and consumer sciences from an international perspective; focus on the roles and responsibilities of women in development. Application and adaptation of content to working with families in other countries and cultures. Student participation in cultural activities and critique of international research articles. Meets International Perspectives Requirement.

FCEDS 590. Special Topics. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590A. Special Topics: Adult Education. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590B. Special Topics: Administration. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590C. Special Topics: Curriculum. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590D. Special Topics: Evaluation. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590E. Special Topics: Teacher Education. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590F. Special Topics: Occupational, Career and Technical Education. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590G. Special Topics: General. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590H. Special Topics: Research Methodology. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590I. Special Topics: International Education. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590J. Special Topics: Educational Gerontology. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590K. Special Topics: Leadership and Human Relations. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590L. Special Topics: Special Needs. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590M. Special Topics: Family Life Education. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590N. Special Topics: Human Sexuality. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590O. Special Topics: Technology. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590P. Special Topics: Supervision. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590Q. Special Topics: Family/Individual Health. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590R. Special Topics: Consumer Education. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590S. Special Topics: Distance Education. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 590T. Special Topics: Professional Communications. Cr. arr. Repeatable. Prereq: 6 credits in family and consumer sciences or education

FCEDS 593. Workshop. Cr. 1-3. Repeatable. F.S.SS. Prereq: 6 credits in family and consumer sciences or education
Concentrated group study of new developments in family and consumer sciences education. Sections offered will vary from year to year.

FCEDS 599. Creative Component. Cr. arr. Prereq: 9 graduate credits in Family and Consumer Sciences Education

Courses for graduate students:

FCEDS 610. Seminar. Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Exploration of trends and issues in the profession. Offered on a satisfactory-fail basis only.

FCEDS 611. Program Evaluation in Family and Consumer Sciences. (3-0) Cr. 3. Alt. SS., offered 2012. Prereq: FCEDS 511, FCEDS 515
Application of program evaluation approaches and models to family and consumer sciences programs. Standards for program evaluation.

FCEDS 620. Theories of Administration in Family and Consumer Sciences. (3-0) Cr. 3. Alt. SS., offered 2012. Prereq: Professional Experience
Review of administrative theory; application to family and consumer sciences programs with emphasis on higher education. Administrative leadership roles and their interrelationships. Consideration of current issues.

FCEDS 690. Family and Consumer Sciences Education and Studies Advanced Topics. Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E

FCEDS 690A. Advanced Topics: Adult Education. Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E
Topics for the independent study will be in any of the following areas:

FCEDS 690B. Advanced Topics: Administration. Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E
Topics for the independent study will be in any of the following areas:

FCEDS 690C. Advanced Topics: Curriculum. Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E
Topics for the independent study will be in any of the following areas:

FCEDS 690D. Advanced Topics: Evaluation. Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E
Topics for the independent study will be in any of the following areas:

FCEDS 690E. Advanced Topics: Teacher Education. Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E
Topics for the independent study will be in any of the following areas:

FCEDS 690F. Advanced Topics: Occupational, Career and Technical Education. Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E
Topics for the independent study will be in any of the following areas:
Family Financial Planning

Interinstitutional Graduate Program

Participating Institutions: Iowa State University; Kansas State University; Montana State University; University of Nebraska; North Dakota State University; Oklahoma State University; South Dakota State University.

Family Financial Planning is an inter-institutional distance education program offered through the Web. The student selects a home institution, which grants the degree.

After admission at the home institution, the student takes courses from each of the seven institutions: Iowa State University, Kansas State University, Oklahoma State University, Montana State University, University of Nebraska, North Dakota State University, and South Dakota State University.

At Iowa State University, Family Financial Planning is a specialization within the Master of Family and Consumer Sciences degree program (MFCS-FFF) that consists of 42 semester credits. Neither a thesis nor a creative component is required. Students typically complete the program in three years while employed full time. A computer with minimum specifications, Web access, and an email address are required for completing the program.

**FFP Graduate Certificate Program**

The Graduate Certificate in Family Financial Planning consists of the six courses from the MFCS-FFF that contain the competencies required for the CFP® Certification Examination. Students interested in attaining the CFP® credential and not a master’s degree should enroll in the certificate program.

Courses included in the FFP graduate certificate program include:

**Courses**

- **FCEDS 690G. Advanced Topics: General.** Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E. Topics for the independent study will be in any of the following areas:
- **FCEDS 690L. Advanced Topics: Special Needs.** Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E. Topics for the independent study will be in any of the following areas:
- **FCEDS 690N. Advanced Topics: Human Sexuality.** Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E. Topics for the independent study will be in any of the following areas:
- **FCEDS 690O. Advanced Topics: Technology.** Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E. Topics for the independent study will be in any of the following areas:
- **FCEDS 690P. Advanced Topics: Professional Education.** Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E. Topics for the independent study will be in any of the following areas:
- **FCEDS 690Q. Advanced Topics: Family/Individual Health.** Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E. Topics for the independent study will be in any of the following areas:
- **FCEDS 690R. Advanced Topics: Consumer Education.** Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E. Topics for the independent study will be in any of the following areas:
- **FCEDS 690S. Advanced Topics: Distance Education.** Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E. Topics for the independent study will be in any of the following areas:
- **FCEDS 690T. Advanced Topics: Research Methodology.** Cr. arr. Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E. Topics for the independent study will be in any of the following areas:

**Registration**

Students choosing to receive their degree from Iowa State University complete all the admissions, registration and fee payment processes through ISU.

**Courses**

Courses primarily for graduate students, open to qualified undergraduates:

- **FCF 520. Family Systems.** (3-0) Cr. 3. F.S.S.S. Research and theory related to family functioning throughout the life cycle, especially financial decision making during crisis and conflict. Emphasis on factors that shape family values, attitudes, and behaviors from a multicultural perspective. New and emerging issues critical to family functioning are addressed.
- **FCF 525. Family Economics.** (3-0) Cr. 3. F.S.S.S. Major issues related to the economics of families including household production, and human capital development; the economics of crises, public policy and family life cycle spending, saving and borrowing; new and emerging issues in the field of family economics; special attention to the role of ethics in family economic issues. A theoretical and research perspective are used to illuminate the concepts in the course.
(3-0) Cr. 3. F.S.SS. 
The nature and functioning of financial systems, including currencies, markets, monetary and fiscal policy, and supply/demand for land, labor, and capital. Focus is on the impact of global financial interdependence on individuals and families in the U.S. Current and emerging issues, as well as current research and theory relative to financial systems.

FFP 535. Financial Counseling. 
(3-0) Cr. 3. F.S.SS. 
Theory and research regarding the interactive process between the client and the practitioner, including communication techniques, motivation and esteem building, the counseling environment, ethics, and methods of data intake, verification, and analysis. Other topics include legal issues, compensation, uses of technology to identify resources, information management, and current or emerging issues.

(3-0) Cr. 3. F.S.SS. 
Fundamentals of the estate planning process, including estate settlement, estate and gift taxes, property ownership and transfer, and powers of appointment. Tools and techniques used in implementing an effective estate plan, ethical considerations used in providing estate planning services, and new and emerging issues in the field. Case studies provide experience in developing estate plans suitable for varied family forms.

FFP 541. Housing and Real Estate in Family Financial Planning. 
(Cross-listed with HD FS). (3-0) Cr. 3. Alt. SS., offered 2014. 
The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate. (on-line course offering via Distance Education).

(3-0) Cr. 3. F.S.SS. 
Study of micro and macro considerations for retirement planning. Survey of various types of retirement plans, ethical considerations in providing retirement planning services, assessing and forecasting financial needs in retirement, and integration of retirement plans with government benefits.

(3-0) Cr. 3. F.S.SS. 
Overview of the topics relevant to the financial planning process that address the unique needs of military service members and their families.

(3-0) Cr. 3. F.S.SS. 
In-depth study of risk management concepts, tools, and strategies for individuals and families, including life insurance; property and casualty insurance; liability insurance; accident, disability, health, and long-term care insurance; and government-subsidized programs. Current and emerging issues and ethical considerations relative to risk management. Case studies provide experience in selecting insurance products suitable for individuals and family study of investment options for clients, including common stocks, fixed income securities, convertible securities, and related choices. Relationships between investment options and employee/employer benefit plan choices. Current and emerging issues and ethics are included.

(3-0) Cr. 3. F.S.SS. 
In-depth information on income tax practices and procedures including tax regulations, tax return preparation, the tax audit processes, the appeals process, preparation for an administrative or judicial forum, and ethical considerations of taxation. New and emerging issues related to taxation. Family/individual case studies provide practice in applying and analyzing tax information and recommending appropriate tax strategies.

(3-0) Cr. 3. F.S.SS. 
Challenges of managing financial planning practices including, but not limited to: business valuation, personnel, marketing, client services, ethics and technological applications. Relying both on a theoretical as well as an applied approach, students analyze case studies that provide relevant, practical exposure to practice management issues, with a strong emphasis on current research findings.

FFP 583. Investing for the Family’s Future. 
(Cross-listed with HD FS). (3-0) Cr. 3. F. Prereq: HD FS 483 
Evaluation of investment markets for the household. Analysis of how families choose where to put their savings. Emphasis is on using the family’s overall financial and economic goals to help inform investment choices. (on-line course offering via Distance Education).
food science and technology option. Students who wish to emphasize business, journalism, or special aspects of food science should elect food science and industry. Students interested in food product formulation and recipe development, food promotion and communication, and consumer services in government and industry should elect the consumer food science option.

Students who wish to combine education in engineering with food science may select additional courses in chemical or agricultural engineering. Double majors are available and may require an additional year.

Nutritional science offers two options: pre-health professional & research and nutrition & wellness. Students in the pre-health professional & research option gain a strong basic science education along with human nutrition expertise that enables them to apply the knowledge and skills necessary to work in research laboratories of colleges and universities, government agencies, industries, and foundations. The pre-health professional & research option can serve as a preprofessional program for medicine, dentistry, veterinary medicine, or for graduate study in nutrition or other biological sciences. Students in the nutrition & wellness option will learn about the role of nutrition and healthy eating for disease prevention and wellness with an emphasis on communication of nutrition messages to the public and community agencies and effective program planning and evaluation. Graduates will be prepared for employment opportunities in community and state agencies, nonprofit organizations and health promotion enterprises, public health and related programs and for graduate study.

Students graduating with degrees in culinary science, dietetics, diet and exercise, food science, or nutritional science will be able to: 1) demonstrate a high level of technical competence in their chosen field, perform successfully in a graduate program, supervised practice program or entry-level professional position; 2) communicate effectively as professionals; 3) successfully solve complex problems on their own and as members of a team; 4) correctly interpret and critically evaluate research literature as well as data from professional practice; 5) critically evaluate information related to food science and nutrition issues appearing in the popular press; 6) prepare and deliver effective presentations, orally and in writing, of technical information to professionals and to the general public; 7) thoughtfully discuss ethical, social, multicultural, and environmental dimensions of issues facing professionals in their chosen field.

Communication Proficiency is certified by a grade of C or better in 6 credits of coursework in composition (ENGL 150 Course ENGL 150 Not Found and ENGL 250 Course ENGL 250 Not Found or other communication-intensive courses) and a grade of C or better in 3 credits of coursework in oral communication.

A combined Bachelor of Science and Master of Science (B.S./M.S.) degree in diet and exercise is available. The program is jointly administered by the Department of Food Science and Human Nutrition (FSHN), the College of Agriculture and Life Sciences, and the Department of Kinesiology within the College of Human Sciences. Students interested in this program enroll as freshmen in the pre-diet and exercise program. In the fall of the junior year, students apply for admission to the B.S./M.S. program. Students not accepted into the program continue toward completion of a B.S. degree in dietetics or kinesiology and health. Coursework has been designed to facilitate a 4-year graduation date for those students not accepted into the program and electing to complete a single undergraduate degree. Students accepted into the program will progress toward completion of B.S./M.S. degrees in diet and exercise.

The department offers coursework for minors in culinary science, food science, and nutrition and participates in the interdepartmental minor in food safety. See department office or departmental website for more information about minors: http://www.fshn.hs.iastate.edu/undergraduate-programs/minors/.

**Minor - Food Safety**

The interdepartmental food safety minor is designed to provide undergraduate students with exposure to the principles of food safety to complement their current major and offer new opportunities for their future careers. Depending on the student’s major, the minor enhances the student’s expertise in food safety issues pertinent to the student’s major. Student learning outcomes include: awareness of food safety issues as they appear in each step of the food chain; ability to analyze a situation, identify food safety problems, use resources to gain additional information; develop a procedure or solution to identified problems; examine proposed solutions for viability and effectiveness; and to be able to speak and write about food safety issues. Graduates with a food safety minor are better prepared for employment in agricultural, medical, and veterinary medical agencies and with state, national and international businesses.

The food safety minor requires 15 credits of coursework with 9 credits from 3 core courses and elective courses to supplement the training in the minor. See approved list for minor courses from departmental website: http://www.fshn.hs.iastate.edu/undergraduate-programs/minors/.

**Postbaccalaureate Program**

The Iowa State University Dietetic Internship (DI) began as an AP4 program in 1989. It meets the performance requirements for experience programs for students who have completed the academic requirements of the Academy of Nutrition and Dietetics. The internship is administered through the Department of Food Science and Human Nutrition. Interns are admitted to Iowa State University as graduate students seeking a "Graduate Certificate in Dietetics Internship" which will be indicated on the final transcript. Successful completion of this program will result in the receipt of the DI Verification Statement which establishes eligibility to sit for the national standardized exam administered by the Commission on Dietetic Registration (CDR). Successful completion of the exam results in the Registered Dietitian (RD) credential. For more information, refer to Special Interest Programs listed under the College of Human Sciences or visit the website at www.dietetics.iastate.edu. There is a nonrefundable application fee of $75.

**Graduate Study**

The Food Science and Human Nutrition (FSHN) Department offers coursework for the degrees master of science and doctor of philosophy with majors in food science and technology and in nutritional sciences, and minors in food science and technology and in nutrition. Graduate work in meat science is offered as a co-major in animal science and food science and technology.

Prerequisite to major work is a baccalaureate degree in food science, nutrition, or other physical or biological sciences or engineering that is substantially equivalent to those at Iowa State University.

Students taking major work for the degree doctor of philosophy either in food science and technology or in nutritional sciences may choose minors from other fields including anthropology, biorenewable resources and technology, chemistry, biochemistry, economics, education, journalism, microbiology, psychology, physiology, statistics, toxicology, or other related fields.

The interdepartmental graduate program in nutritional sciences, administered through the Graduate College, under the auspices of the Chairs of FSNH and Animal Science, will provide the structure for coordinating and enhancing interdisciplinary nutrition research and graduate education. Graduate students will be able to select from three specializations: animal nutrition, human nutrition, or molecular/biochemical nutrition. The two main departments are FSNH and Animal Science, whereas other departments (such as Kinesiology; Biochemistry, Biophysics, and Molecular Biology; Agronomy; and Statistics) may also be involved. (See Nutritional Sciences interdepartmental graduate major.)

The department offers an online 12-credit Graduate Certificate in Food Safety and Defense, in conjunction with the University of Nebraska, Lincoln, Kansas State University and the University of Missouri through the Great Plains Interactive Distance Education Alliance. Students eligible for admission to the food science master’s degree program may be admitted.

The department participates in an online Master of Family and Consumer Sciences/Dietetics in conjunction with Colorado State University, Kansas State University, North Dakota State University, Oklahoma State University, South Dakota State University, University of Kansas Medical Center, and University of Nebraska through the Great Plains Interactive Distance Education Alliance. Students who are registered dietitians and are eligible for admission to the FSNH Master’s degree program may be admitted.

The department offers work for concurrent B.S. and M.S. degree programs that allow students to obtain both the B.S. and M.S. degrees in 5 years. The programs are available to students majoring in nutritional science or pre-diet and exercise, and students progress toward M.S. degrees in nutritional sciences or diet and exercise, respectively. Students interested in these programs should contact the department for details. Application for admission to the Graduate College should be made during the junior year. Students begin research for the M.S. thesis or creative component during the summer after their junior year and are eligible for research assistanships.

Students graduating with advanced degrees in nutritional sciences and in food science and technology will demonstrate competency in their chosen discipline. Measurable outcomes will include the ability to: 1) design, conduct, and interpret research; 2) apply theoretical information to solve practical problems; 3) prepare and communicate discipline-specific information in written and oral forms to scientific and lay audiences; 4) facilitate learning in the classroom; 5) submit a paper for publication in a peer-reviewed journal; and 6) secure professional-level positions in academia, industry, government, or health care.

**Courses**
Courses primarily for undergraduates:

FS HN 101. Food and the Consumer.  
(3-0) Cr. 3. F.S. Prereq: High school biology and chemistry or 3 credits each of biology and chemistry  

FS HN 104. Introduction to Professional Skills in Culinary Science.  
(0-6) Cr. 1. S.  
Introduction to culinary science. Students will develop fundamental culinary skills by arranged-on-campus work experience (100 hours). Sessions with instructor arranged.

FS HN 110. Professional and Educational Preparation.  
(1-0) Cr. 1. F.S.  
Introduction to professional and educational development within the food science and human nutrition disciplines. Focus is on university and career acclimation, enhancement of communication skills, and portfolio development. Offered on a satisfactory-fail basis only.

FS HN 111. Fundamentals of Food Preparation.  
(2-0) Cr. 2. F.S. Prereq: FS HN 101 or FS HN 167; high school chemistry or CHEM 160; concurrent enrollment in FSHN 115.  

FS HN 112. Orientation to Learning and Productive Team Membership.  
(Cross-listed with AER E, CON E, NREM, HORT). (2-0) Cr. 2. F.  
Introduction to developing intentional learners and worthy team members. Learning as the foundation of human enterprise; intellectual curiosity; ethics as a personal responsibility; everyday leadership; effective team and community interactions including team learning and the effects on individuals; and growth through understanding self, demonstrating ownership of own learning, and internalizing commitment to helping others. Intentional mental processing as a means of enhancing learning. Interconnectedness of the individual, the community, and the world.

FS HN 114. Developing Responsible Learners and Effective Leaders.  
(Cross-listed with CON E, NREM, HORT). (2-0) Cr. 2. S. Prereq: Hort 112 or NREM 112  
Focus on team and community. Application of fundamentals of human learning; evidence of development as a responsible learner; intentional mental processing as a habit of mind; planning and facilitating learning opportunities for others; responsibility of the individual to the community and the world; leading from within; holding self and others accountable for growth and development as learners and leaders.

FS HN 115. Food Preparation Laboratory.  
(0-3) Cr. 1. F.S. Prereq: Credit or enrollment in FS HN 111 or FS HN 214  
Practice standard methods of food preparation with emphasis on quality, nutrient retention, and safety.

FS HN 167. Introduction to Human Nutrition.  
(3-0) Cr. 3. F.S.SS. Prereq: High school biology or 3 credits of biology  
Understanding and implementing present day knowledge of nutrition. The role of nutrition in the health and well being of the individual and family.

FS HN 203. Contemporary Issues in Food Science and Human Nutrition.  
(1-0) Cr. 1. F.S.  
Introduction to published research and discussion of current issues in food science and human nutrition. Emphasis on sources of credible information, ethics, communication and portfolio development.

FS HN 214. Scientific Study of Food.  
(3-0) Cr. 3. F.S. Prereq: FS HN 167 or FS HN 265; CHEM 231 or CHEM 331  

FS HN 215. Advanced Food Preparation Laboratory.  
(0-6) Cr. 2. F.S. Prereq: Credit or enrollment in FS HN 214  
Practice standard methods of food preparation with emphasis on quality, nutrient retention, and safety. Development of culinary skills and advanced food preparation.

FS HN 242. Societal Impacts on Food Systems.  
(3-0) Cr. 3. S.  
Description of food systems from farming practices to global marketing. Exploration of the impacts of food system choices on personal health, the environment and global society.

FS HN 262. Special Topics in Health Professions.  
(1-0) Cr. 1. F.  
Careers and controversies in nutritional science. Discussion of current topics in health professions involving nutrition, such as "low-carb" diets, supplements for athletic performance, "food and mood," interviews with health professionals on how they use nutrition concepts in practice.

FS HN 264. Fundamentals of Nutritional Biochemistry and Metabolism.  
(3-0) Cr. 3. F. Prereq: FS HN 167; CHEM 163, CHEM 163L; BIOL 211  
Digestion, absorption, metabolism, and biochemical functions of nutrients. Biochemical aspects of nutrient deficiencies.

FS HN 265. Nutrition for Active and Healthy Lifestyles.  
(3-0) Cr. 3. S. Prereq: Credit or enrollment in BBMB 301 or credit in FS HN 264  

(3-0) Cr. 3. S.  
Course will address milk chemistry, microbiology, handling, processing, regulations, organic production, and nutrition; dispel myths about dairy foods; improve critical thinking and communication skills. Students will participate in structured controversies and debate.

FS HN 311. Food Chemistry.  
(3-0) Cr. 3. F. Prereq: TSM 115, CHEM 231 and CHEM 231L or CHEM 331 and CHEM 331L; credit or enrollment in BBMB 301  
The structure, properties, and chemistry of food constituents and animal and plant commodities. Nonmajor graduate credit.

FS HN 311L. Food Chemistry Laboratory.  
(0-3) Cr. 1. F. Prereq: Credit or concurrent enrollment in FSHN 311.  
The laboratory practices of structure, properties, and chemistry of food constituents. Nonmajor graduate credit.

(1-0) Cr. 1. F. Prereq: FSHN 104 or concurrent enrollment in FSHN 104  
Introduction to the roles culinary scientists hold within industry including product development, research, and quality assurance. Discussions focused on professional and educational development, enhancement of communication skills, ethics and emerging issues and trends in culinary science.

(1-0) Cr. 1. F. Prereq: Junior classification  
Introduction to the profession of dietetics and responsibilities associated with dietetic professional practice. Emphasis on development of a pre-professional portfolio, career options in dietetics and preparation for a dietetic internship. Leadership and professional career development for the dietitian is addressed through self reflection, creation of materials for post-baccalaureate programs and job shadowing experience. Professional issues related to dietetic practice include Code of Ethics, legal credentialing and standards of professional practice, leadership and future trends in the profession. Offered on a satisfactory-fail basis only.

(Cross-listed with ENV S, AGRON, T SC). (3-0) Cr. 3. F.S. Prereq: Junior classification  
Zdorkowski, Ford. Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects. Nonmajor graduate credit. Meets International Perspectives Requirement.

FS HN 342H. World Food Issues: Past and Present, Honors.  
(Cross-listed with ENV S, AGRON, T SC). (3-0) Cr. 3. F.S. Prereq: Junior classification  
Zdorkowski, Ford. Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects. Nonmajor graduate credit. Meets International Perspectives Requirement.
FS HN 351. Introduction to Food Engineering Concepts. (3-0) Cr. 3. S. Prereq: A course in calculus and physics (PHYS 111 or PHYS 115). Methodology for solving problems in food processing and introduction to food engineering concepts including food properties, material and energy balances, sources of energy, thermodynamics, fluid flow, heat transfer, and mass transfer. Nonmajor graduate credit. Only one of 351 or A E 451 and CH E 357 allowed toward graduation. Field trip.

FS HN 360. Advanced Human Nutrition and Metabolism. (3-0) Cr. 3. F. Prereq: FS HN 265; 3 credits in biochemistry; 3 credits in physiology recommended. Physiological and biochemical basis for nutrient needs; assessment of nutrient deficiency and toxicity; examination of nutrient functions and regulation of metabolism; nutrient-gene interactions. Nonmajor graduate credit.

FS HN 362. Nutrition in Growth and Development. (3-0) Cr. 3. S. Prereq: FS HN 360; credit or enrollment in a course in physiology. Nutrient needs throughout the life cycle. Interrelationships of genes, gene expression and nutrients with physiological outcomes during human development and aging. Nonmajor graduate credit.

FS HN 364. Nutrition and Prevention of Chronic Disease. (3-0) Cr. 3. F. Prereq: BIOL 256, BIOL 256L or BIOL 306. Overview of nutrients, their functions, metabolism, food sources and optimal choices for the promotion of health and wellness. Nutrition strategies for the prevention of chronic disease, including cancer, diabetes and obesity, as they apply to individuals or the wider population will be discussed.

FS HN 365. Obesity and Weight Management. (3-0) Cr. 3. Sd Multifactorial aspects of obesity, maintenance of healthy weight, and the relationship of weight status and chronic disease prevention. Traditional and novel nutrition and exercise theories as well as current popular diet and exercise trends will be discussed.

FS HN 366. Communicating Nutrition Messages. (3-0) Cr. 3. S. Prereq: FS HN 167 or FS HN 265. Theory and application of adult learning as it relates to the role of nutrition in health promotion and disease prevention. Discussion of nutrition education and interventions relative to the social-ecological model. Factors to consider in developing the nutrition education/intervention practive experience using the social-ecological model. Focus on communication strategies for providing nutrition messages to diverse community audiences using various forms of media and outreach (print, radio, TV, newspaper, consumer publications, websites, community venues). Development of nutrition messages using various forms of media for a target population.

FS HN 367. Medical Terminology for Health Professionals. (1-0) Cr. 1. S. An independent course focused on medical terminology, abbreviations, and simple clinical mathematical calculations.

FS HN 403. Food Laws, Regulations, and the Regulatory Process. (2-0) Cr. 2. S.SS. Prereq: 3 credits in food science coursework at 200 level or above. Review of federal legislative and regulatory processes and documents related to food and food ingredients. Discussion of federal food safety programs, food distribution programs, related programs, and key agencies. Exploration of analogous State of Iowa processes, programs, and agencies.

FS HN 405. Food Quality Assurance. (2-2) Cr. 3. S. Prereq: FS HN 214 or FS HN 471; STAT 101 or STAT 104. Basis of food quality control/assurance programs and establishment of decision-making processes using official (government and industry) instrumental, chemical, and sensory procedures. Statistical process and quality control procedures and their applications to various food systems. Development of hazard analysis procedures, specifications, grades, and standards. Nonmajor graduate credit.

FS HN 406. Sensory Evaluation of Food. (Dual-listed with FS HN 506). (2-3) Cr. 3. F. Prereq: FS HN 214 or FS HN 311 or AN S 360; 3 credits in statistics. Sensory test methods and procedures used to evaluate the flavor, color and texture of foods. Relationships between sensory and instrumental measurements of color and texture. Acceptance and preference testing.

FS HN 407. Microbiological Safety of Foods of Animal Origins. (Dual-listed with NUTRS 507); (Cross-listed with MICRO). (3-0) Cr. 3. S. Prereq: MICRO 420. Examination of the various factors in the production of foods of animal origin, from animal production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. The two modules of this course will be 1) the procedures and processes which can affect the overall microbiological safety of the food, and 2) the Hazard Analysis Critical Control Point (HACCP) system.

FS HN 410. Food Analysis. (2-3) Cr. 3. S. Prereq: FS HN 214 or FS HN 311 or CHEM 211; TSM 115. An introduction to the theory and application of physical and chemical methods for determining the constituents of food. Modern separation and instrumental analysis. Use of food composition data bases. Nonmajor graduate credit.

FS HN 411. Food Ingredient Interactions and Formulations. (3-0) Cr. 2. F.S. Prereq: FSHN 214 or FS HN 311 and FS HN 115, FS HN 215 or FS HN 311L. Application of food science principles to ingredient substitutions in food products. Laboratory procedures for standard formulations and instrumental evaluation, with emphasis on problem-solving and critical thinking. Nonmajor graduate credit.

FS HN 412. Food Product Development. (Dual-listed with FS HN 512). (1-6) Cr. 3. S. Prereq: FS HN 311 or FS HN 411, FSHN 471. Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, microbiology, and processing. Some pilot plant experiences. Electronic communication from web emphasized for class reports, notes and assignments. Nonmajor graduate credit.

FS HN 419. Foodborne Hazards. (Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: MICRO 201 or MICRO 302, a course in biochemistry. Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards. Nonmajor graduate credit. Only one of FS HN 419 and FS HN 519 may count toward graduation.

FS HN 420. Food Microbiology. (Cross-listed with MICRO, TOX). (3-0) Cr. 3. F. Prereq: MICRO 201 or MICRO 302. Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications. Nonmajor graduate credit.

FS HN 421. Food Microbiology Laboratory. (Cross-listed with MICRO). (0-6) Cr. 3. F. Prereq: MICRO 201 or MICRO 302; MICRO 201L or MICRO 302L. Credit or enrollment in FS HN/MICRO 420. Standard techniques used for the microbiological examination of foods. Independent and group projects on student-generated questions in food microbiology. Emphasis on oral and written communication and group interaction. Nonmajor graduate credit.

FS HN 429. Foodborne Toxins. (Dual-listed with FS HN 529). (Cross-listed with TOX). (2-0) Cr. 2. F. Prereq: A course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor. Mechanisms of action, metabolism, sources, remediation/detoxification, risk assessment of major foodborne toxins of current interest, design of HAACP plans for use in food industries targeting foodborne toxicants, discussion of toxicants from a food defense perspective. Offered online only.

FS HN 442. Issues in Food and Society. (1-0) Cr. 1. S. Prereq: Credit or enrollment in FS HN 101, FS HN 167, FS HN 242, and FS HN 342. Capstone seminar for Food and Society minor. Discussion and projects about current issues in society related to food and nutrition. Field trip.
FS HN 461. Medical Nutrition and Disease I. (4-0) Cr. 4. F. Prereq: FS HN 360, FS HN 361, FS HN 367, 3 credits in physiology at 300 level or above (Dual-listed with NutrS 561) Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state. Rationale section (1 cr.) will focus on refinement of assessment skills, diagnosis of nutritional problem, nutrition care, and documentation.

FS HN 463. Community Nutrition. (3-0) Cr. 3. F. Prereq: FS HN 265 or FS HN 360; FS HN 366 recommended Dual-listed with NutrS 563. Survey of current public health nutrition problems among nutritionally vulnerable individuals and groups. Discussion of the multidimensional nature of those problems and of community programs addressing them. Grant writing as a means for funding community nutrition program development. Significant emphasis on written and oral communication at the lay and professional level. Field trip. Nonmajor graduate credit. Meets U.S. Diversity Requirement

FS HN 464. Medical Nutrition and Disease II. (3-0) Cr. 3. S. Prereq: FS HN 360, FS HN 461, 3 credits in physiology at 300 level or above (Dual-listed with NutrS 564) Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state.

FS HN 466. Nutrition Counseling and Education Methods. (Dual-listed with FS HN 566). (Cross-listed with DIET). (2-2) Cr. 3. F. S. Prereq: Graduate student status Application of counseling and teaching theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

FS HN 467. Molecular Basis of Nutrition in Disease Prevention. (3-0) Cr. 3. F. Prereq: FS HN 360 or equivalent Understanding the molecular basis for the role of diet in the development and prevention of common diseases such as diabetes, cancer, and vascular diseases. Translating this understanding into practical approaches for improving the health of individuals and populations.

FS HN 471. Food Processing I. (Dual-listed with FS HN 571). (2-3) Cr. 3. F. Prereq: FS HN 351 or A E 451 or CH E 357; MICRO 201 or MICRO 302; CHEM 163 or CHEM 177 Principles and applications of food processing by application of heat (blanching, pasteurization, canning, extrusion, evaporation and distillation, extrusion and dehydration) and by removal of heat (refrigeration and freezing). Emphasis on solving problems in laboratory and recitation sessions.

FS HN 472. Food Processing II. (Dual-listed with FS HN 572). (2-3) Cr. 3. S. Prereq: FS HN 351 or A E 451 or CH E 357 Principles and applications of food processing by biological (fermentation, enzymes) and nontraditional (high pressure, irradiation, pulsed electric field) preservation methods. Includes packaging, waste water treatment, and sanitation. Emphasis on solving problems in laboratory and recitation sessions.

FS HN 480. Professional Communication in Food Science and Human Nutrition. (1-0) Cr. 1. F.S. Prereq: FS HN 203, senior classification in the department Presentation of current topics using written and oral communication to a lay audience. Emphasis on communication skills for the profession.

FS HN 489. Issues in Food Safety. (Cross-listed with AN S, HRI, VDPAM). (1-0) Cr. 1. S. Prereq: Credit or enrollment in FS HN 101 or FS HN 272 or HRI 233; FS HN 419 or FS HN 420; FS HN 403 Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

FS HN 490. Independent Study. Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S. Prereq: Permission of instructor Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490A. Independent Study: Dietetics. Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S. Prereq: Permission of instructor Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490B. Independent Study: Food Science. Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S. Prereq: Permission of instructor Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490C. Independent Study: Nutrition. Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S. Prereq: Permission of instructor Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490D. Independent Study: International Experience. Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S. Prereq: Permission of instructor Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490E. Independent Study: Entrepreneurship. Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S. Prereq: Permission of instructor Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490H. Independent Study: Honors. Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S. Prereq: Permission of instructor Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 491. Supervised Work Experience. Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S. Prereq: Advance approval of instructor and adviser Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491A. Supervised Work Experience: Dietetics. Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S. Prereq: Advance approval of instructor and adviser Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491B. Supervised Work Experience: Food Science. Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S. Prereq: Advance approval of instructor and adviser Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491C. Supervised Work Experience: Nutrition. Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S. Prereq: Advance approval of instructor and adviser Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491D. Supervised Work Experience: Culinary Science. Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S. Prereq: Advance approval of instructor and adviser Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 492. Research Concepts in Human Nutrition. (1-3) Cr. 2. F. Prereq: senior classification or permission of instructor; FS HN 360 Students will develop and implement research projects with faculty supervision, based on knowledge gained from nutrition, biology and chemistry courses. Students will prepare a research proposal, conduct research and report results. Students will gain appreciation for independent research and experience creative and innovative aspects of nutrition research.

FS HN 493. Food Preparation Workshop. (1-3) Cr. 1-3 Selected topics in food preparation including scientific principles, culture and culinary techniques. Variable format may include laboratory, recitation, and lecture. Offered on a satisfactory-fail basis only.

FS HN 494. Service Learning for Human Nutrition. (1-0) Cr. 1. Repeatable. F.S.S. Prereq: FS HN 360 Community education programs developed and presented by students around themes of health promotion through diet and exercise. Offered on a satisfactory-fail basis only.
FS HN 485. Practicum. (1-3) Cr. 2. F.S. Prereq: Senior classification in Nutritional Science-Nutrition and Wellness option or permission of instructor; FS HN 366; credit or enrollment in FS HN 463.
Service-learning in community activities. Students will develop, implement and assess a project that engages groups in learning and practicing concepts related to nutrition and wellness.
FS HN 496. Food Science and Human Nutrition Travel Course. (Dual-listed with FS HN 596B). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor
(One credit per week traveled.) Limited enrollment. Tour and study of food industry, culinary science, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.
FS HN 496A. Food Science and Human Nutrition Travel Course: International travel. (Dual-listed with FS HN 596). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor
(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.
Meets International Perspectives Requirement.
FS HN 496B. Domestic travel. (Dual-listed with FS HN 596). Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor
(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.
Required for students completing professional work periods in a cooperative education program. Students must register prior to commencing each work period. Offered on a satisfactory-fail basis only.
FS HN 499. Undergraduate Research. Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Permission of staff member with whom student proposes to work.
Research under staff guidance. A maximum of 6 credits of FS HN 499 may be used toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:
FS HN 503. Advanced Food Science-Processing. (1-0) Cr. 1. Alt. S., offered 2012.SS. Prereq: 3 credits each in physics and mathematics
Key principles and applications in the processing of food.
FS HN 505. Short Course in Food Science. Cr. arr. F.S.SS. Prereq: Permission of instructor
FS HN 507. Microbiological Safety of Foods of Animal Origins. (Dual-listed with FS HN 407). (Cross-listed with MICRO). (3-0) Cr. 3. S. Prereq: MICRO 420
Examination of the various factors in the production of foods of animal origin, from animal production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. The two modules of this course will be 1) the procedures and processes which can affect the overall microbiological safety of the food, and 2) the Hazard Analysis Critical Control Point (HACCP) system.
FS HN 511. Principles of Food Science-Chemistry. (2-0) Cr. 2. S. Prereq: 3 credits in organic chemistry
Key principles and applications in the chemistry of food. This course is designed for graduate students with no previous food chemistry background.
FS HN 513. Principles of Food Science-Processing. (2-0) Cr. 2. S. Prereq: 3 credits each in physics and mathematics
Key principles and applications in the processing of food. This course is designed for graduate students with no previous food processing background.
FS HN 514. Principles of Food Science-Microbiology. (2-0) Cr. 2-1. S. Prereq: 3 credits each in microbiology and organic chemistry
Key principles and applications in the microbiology of food. This course is designed for graduate students with no previous food microbiology background.
FS HN 515. Regulatory Toxicology. (Cross-listed with TOX). (1-0) Cr. 1. Alt. F., offered 2012. Prereq: BBMB 404 or FSHN 403
Survey of approaches used by toxicologists in government and industry for generating, enforcing and complying with laws and regulations. Examine policies from multiple regulatory agencies and how risk-based decisions are made. Perform simple risk assessments and suggest ways of dealing with data gaps. Explore new types of data used in risk assessments. Taught online only.
FS HN 519. Food Toxicology. (Cross-listed with TOX, NUTRS). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: A course in food microbiology
Basic principles of toxicology. Toxicants in the food supply; modes of action, toxicant defense systems, toxicant and nutrient interactions, risk assessment. Only one of FS HN 419 and FS HN 519 may count toward graduation.
FS HN 521. Microbiology of Food. (2-0) Cr. 2. F.S.SS. Prereq: A course in microbiology with laboratory; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
This course deals with the identification, enumeration, and characterization of bacteria, yeasts, and mold associated with foods and food processing. Effects of physical and chemical agents on micro-organisms will be studied. Microbiological problems in food spoilage, food preservation, food fermentation, and food-borne disease will be discussed. Offered online only.
FS HN 522. Advanced Food Microbiology and Biotechnology. (2-0) Cr. 2. Alt. S., offered 2013. Prereq: Food microbiology, a course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
This course will cover basic principles in biotechnology and applied food microbiology, including current topics of interest in food biotechnology. Students will be introduced to recombinant DNA techniques and how they are applied to genetically modify microorganisms, the use of nucleic acids as tools of rapid detection of microorganisms in foods, basic enzyme immobilization and down-stream processing techniques, and regulatory aspects of food biotechnology. Offered online only.
FS HN 523. A Multidisciplinary Overview of Food Safety and Security. (2-0) Cr. 2. F.S.SS. Prereq: A course in biology or chemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
Multidisciplinary food safety and security perspectives provided by numerous subject matter experts. Topics include food safety policy, ag bioterrorism, border security, animal ID, food defense and site security, risk analysis, crisis communication, epidemiology, HACCP, and more. Offered online only.
FS HN 524. Food Microbiology. (3-0) Cr. 3. F. Prereq: A course in microbiology with laboratory; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
Food Microbiology looks at the nature, physiology, and interactions of microorganisms in foods. The course is an introduction to food-borne diseases, the effect of food processing systems on the microbiota of foods, principles of food preservation, food spoilage, and foods produced by microorganisms. Additionally, the course looks at food plant sanitation and criteria for establishing microbial standards for food products. Offered online only.
FS HN 525. Principles of HACCP. (2-0) Cr. 2. F.S.SS. Prereq: Undergraduate biology and chemistry courses; enrollment in GP-IDEA Food Safety and Defense Certificate or permission of instructor.
A comprehensive study of the Hazard Analysis and Critical Control Point System and its application in the food industry. Offered online only.
FS HN 526. Ethnic Foods: Food Safety, Food Protection and Defense. (2-0) Cr. 2. SS. Prereq: Graduate standing; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
Understanding of the various factors that impact safety of ethnic and imported ethnic foods; knowledge about the handling, preparation, processing and storage of ethnic and imported foods and food products; science-based characterization of representative ethnic foods. Offered online only.
FS HN 527. Microbiology of Fermented Foods. (2-0) Cr. 2. SS. Prereq: Food microbiology; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
Microbiology of fermented foods covers the physiology, biochemistry, and genetics of microorganisms important in food fermentations. The course looks at how microorganisms are used in fermentations and the effects of processing and manufacturing conditions on production of fermented foods. Offered online only.
(2-0) Cr. 2. F.S.SS. Prereq: Enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
This course will provide students with an understanding of the principles required in a food defense program for a food manufacturing, warehousing or distribution center. The topics covered include: defining threats and aggressors; the Bioterrorism Act; food defense teams; vulnerability assessments; security programs; recall and traceability basics; security inspections; crisis management; emergency preparedness; and workplace violence. Offered online only.

FS HN 542. Introduction to Molecular Biology Techniques.
(Cross-listed with B M S, EEOB, GDCB, GDCB, HORT, NREM, NUTRS, V MPY, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

FS HN 542A. Introduction to Molecular Biology Techniques: DNA.
(Cross-listed with B M S, EEOB, GDCB, GDCB, HORT, NREM, NUTRS, V MPY, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

FS HN 542B. Introduction to Molecular Biology Techniques: Protein.
(Cross-listed with B M S, GDCB, EEOB, GDCB, HORT, NREM, NUTRS). Cr. 1. Repeatable. S.SS. Prereq: Graduate classification
Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

FS HN 542C. Introduction to Molecular Biology Techniques: Cell.
(Cross-listed with B M S, EEOB, GDCB, GDCB, HORT, NREM, NUTRS, V MPY, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

(Cross-listed with B M S, EEOB, GDCB, GDCB, HORT, NREM, NUTRS, V MPY, VDPAM). Cr. 1. Repeatable. S. Prereq: Graduate classification
Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

(Cross-listed with BBMB, B M S, EEOB, GDCB, HORT, NREM, NUTRS, V MPY, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

FS HN 542F. Techniques in Metabolomics, metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects.
(Cross-listed with BBMB, B M S, EEOB, GDCB, HORT, NREM, NUTRS, V MPY, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

FS HN 542G. Introduction to Molecular Biology Techniques: Genomic.
(Cross-listed with B M S, EEOB, GDCB, GDCB, HORT, NREM, NUTRS, V MPY, VDPAM). Cr. 1. Repeatable. S. Prereq: Graduate classification
Offered on a satisfactory-fail basis only.

FS HN 554. Dietetic Internship I.
(0-22) Cr. 5. S.SS.
For students enrolled in the Dietetic Internship program only. Supervised practice experience in operational management, medical nutrition therapy and community nutrition. Experiences and activities designed to meet accreditation standards.

FS HN 555. Dietetic Internship II.
(0-18) Cr. 4. F.S. Prereq: Concurrent enrollment or successful completion of FS HN 554
For students enrolled in the Dietetic Internship program only. Supervised practice experience in operational management, medical nutrition therapy and community nutrition. Experiences and activities designed to meet accreditation standards.

FS HN 556. Dietetic Internship III.
(0-22) Cr. 5. S.SS. Prereq: Concurrent enrollment or successful completion of FS HN 554 and FS HN 555
For students enrolled in the Dietetic Internship program only. Supervised practice experience in operational management, medical nutrition therapy and community nutrition. Experiences and activities designed to meet accreditation standards.

FS HN 575. Processed Foods.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: FS HN 214 or FS HN 311; a course in nutrition
This course will examine effect of industrial and domestic food processing on the nutrient content of food and risk of developing chronic disease.

FS HN 580. Orientation to Food Science and Nutrition Research.
(1-0) Cr. 1. F. Orientation to and discussion of research interests in food science and nutrition.
Discussion of policy and ethical issues in the conduct of research. Intended for entering students in FS HN and related disciplines. Offered on a satisfactory-fail basis only.

FS HN 581. Seminar.
(1-0) Cr. 1. S. Discussion and practice of oral presentation of scientific data in a professional setting. Discussion of issues related to data presentation. Offered on a satisfactory-fail basis only.

FS HN 590. Special Topics.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 590A. Special Topics: Nutrition.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 590B. Special Topics: Food Science.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 590C. Special Topics: Teaching.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 599. Creative Component.
Cr. arr. Nonthesis option only.

Courses for graduate students:

FS HN 606. Instrumental Measurement of Food Quality.
(2-3) Cr. 3. Alt. F., offered 2012. Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404
Principles of instrumental measurements of color, aroma, flavor, texture, and rheology. Techniques and instrumentation for measuring the quality of foods; relationship of these methods to food color, taste, flavor, texture, and rheological quality. Application of methods to various foods and biorenewable materials.

(Cross-listed with BRT). (2-3) Cr. 3. Alt. F., offered 2012. Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404
Properties of enzymes important in food processing including flavor, texture and color in biofuels & bioprocessing. Quantitative evaluation of substrates, enzyme inhibitors, pH, pressure and temperature on enzyme activity. Experimental determination of specificity and mechanisms important to food and bioprocessing biochemistry. Techniques to purify food and bioprocessing enzymes.

FS HN 612. Lipid Chemistry and Applications.
(3-0) Cr. 3. Alt. F., offered 2014. Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404
Structure and analysis of lipids; glyceride structure; crystal form and texture; autoxidation and chemical modification; extraction, refining and processing; applications of fats and oils in food, biofuel and biobased products.

FS HN 613. Food Proteins.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404
Properties of proteins found in milk, eggs, meat, legumes, and cereal grains. Effect of processing on food proteins.

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404
Study of chemical structures and physical properties of carbohydrates, applications of carbohydrates in foods and as biomaterial, and changes they undergo during processing and storage.
FS HN 626. Advanced Food Microbiology.
(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: FS HN 420 or FS HN 421 or FS HN 504
Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

FS HN 627. Rapid Methods in Food Microbiology.
(Cross-listed with MICRO, TOX). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: FS HN 420 or FS HN 421 or FS HN 504
Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

FS HN 681. Seminar.
(1-0) Cr. 1. F.S.SS.
Presentation of thesis or dissertation research. May be taken once for M.S. program and twice for the Ph.D. program.

FS HN 682. Seminar Reflection.
Cr. R. Repeatable. Active listening and critical thinking activities related to research seminars in food science and human nutrition. Required each semester for all FSHN graduate students except when presenting thesis or dissertation research seminar. Electronic documentation.

FS HN 690. Special Problems.
Cr. arr. Repeatable. F.S.SS. Prereq: FS HN 502 or FS HN 503 or FS HN 504 or FS HN 553 or FS HN 554
Offered on a satisfactory-fail basis only.

FS HN 695. Grant Proposal Writing.
(Cross-listed with NUTRIS). (1-0) Cr. 1. F. Prereq: 3 credits of graduate course work in food science and/or nutrition
Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Formation of grant writing teams in food science and/or nutrition. Offered on a satisfactory-fail basis only.

FS HN 699. Research in Food Science and Technology.
Cr. arr. Repeatable. F.S.SS.
Offered on a satisfactory-fail basis only.

Gerontology

Interdepartmental Minor and Interinstitutional Program
The gerontology program is designed for students desiring careers in aging-related fields and for students interested in improving their understanding of aging persons in American society. Students are expected to take courses to develop the necessary interdisciplinary breadth which, in combination with other disciplinary training, can prepare them to work with older adults.

Graduates understand the ways in which individual and societal aging influence, and are impacted by, developments in their major field of study. They have an appreciation and understanding of the cross-disciplinary aspects of human aging.

Gerontology courses are offered in the interdepartmental gerontology program in the following participating departments and programs: Architecture; Biochemistry, Biophysics, and Molecular Biology; Economics; Apparel, Educational Studies, and Hospitality Management, Food Science and Human Nutrition; Kinesiology; Human Development and Family Studies; Political Science; Psychology; and Sociology.

Undergraduate Study
Undergraduate study in this program provides the student with an opportunity to develop a minor in gerontology. A balanced grouping of courses assists the student in developing both a sensitivity to the issues and the ability to synthesize ideas from the variety of disciplines important to the study of the aging process.

Minor
Undergraduate students may minor in gerontology by taking 16 semester hours of gerontology related courses. Nine of these credits must come from the following courses:

GERON 373  Death as a Part of Living  3
GERON 377  Aging and the Family  3
GERON 378  Retirement Planning and Employee Benefits  3
GERON 483  Environments for the Aging  3

Students will participate in a prepracticum seminar, GERON 466 Gerontology Prepracticum Seminar, and will complete a supervised field practicum after all gerontology coursework is completed (GERON 467 Gerontology Practicum). A minimum of 3 semester credits must be selected from a list of supportive gerontology related courses. Supportive courses include units or topics related to aging and can be used to complement the student’s major interests. The student’s minor program must be approved by the undergraduate gerontology coordinator.

Graduate Study
A declared graduate minor in gerontology consists of a minimum of 12 credits taken from a list of acceptable courses, and from at least two departments. Nine of the 12 credits must be in courses that are focused specifically on aging. One 590 course (3 credits maximum) can be taken as part of the 12 credits. GERON 510 Survey of Gerontology is required for all minor students. At least one member of the gerontology faculty will be on a student’s advisory committee; this person must be a member of the Graduate Faculty. Contact the coordinator to determine whether courses other than those listed below are available.

Interinstitutional Program
Iowa State University offers a Master’s degree in Family and Consumer Sciences with specialization in gerontology. This is an interinstitutional distance education program offered through the Web. The student selects the home institution, which grants the degree. After admission at the home institution, the student takes courses from each of the six institutions: Iowa State University, Kansas State University, North Dakota State University, Oklahoma State University, Texas Tech University, and the University of Missouri.

The master’s degree consists of 36 semester hours, 24 of these hours are from the following courses:

GERON 530  Perspectives in Gerontology  3
GERON 534  Adult Development  3
GERON 540  Nutrition and Physical Activity in Aging  3
GERON 545  Economics, Public Policy, and Aging  3
GERON 563  Environments for the Aging  3
GERON 577  Aging in the Family Setting  3
GERON 584  Program Evaluation and Research Methods in Gerontology  3
GERON 594  Professional Seminar in Gerontology  3

The remaining 12 credits will include electives and specific courses needed to meet the requirements of the institution awarding the degree. Neither a thesis nor a creative component is required.

Gerontology Graduate Certificate Program
The 21-credit Graduate Certificate Program in Gerontology includes the following courses from the list of core courses:

GERON 530  Perspectives in Gerontology  3
GERON 534  Adult Development  3
GERON 540  Nutrition and Physical Activity in Aging  3
GERON 594  Professional Seminar in Gerontology  3

The additional six credits required for the certificate can be chosen from the remaining core courses or from other approved elective courses. A maximum of three credits of practicum also can be included in the elective credits.

Admission Procedures: Admission to the Gerontology Certificate Program requires exactly the same procedures as admission to the Graduate College. See Graduate College section of the catalog.

Registration: Students choosing to receive their degree from Iowa State University must complete all the admissions, registration, and fee payment processes through ISU.

Courses

Courses primarily for undergraduates:

GERON 373. Death as a Part of Living.
(Cross-listed with HD FS). (3-0) Cr. 3. F.S.Alt. SS., offered 2014. Prereq: HD FS 102
Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.
GERON 377. Aging and the Family.
(Cross-listed with HD FS). (3-0) Cr. 3. F. Alt. SS., offered 2013. Prereq: HD FS 102
Interchanges of the aged and their families. Emphasis on role changes, social
interaction, and independence as influenced by health, finances, life styles, and
community development.
Meets U.S. Diversity Requirement

GERON 378. Retirement Planning and Employee Benefits.
(Cross-listed with ECON, HD FS). (3-0) Cr. 3. S. Prereq: 3 credits in Principles of
Economics and 3 credits in Human Development and Family Studies
Economic well-being in the context of demographic change, the present and future
of Social Security, family retirement needs analysis, investment strategies and
characteristics of retirement plans, helping others to work towards financial security,
family economic issues for retired persons. Overview of employee and retirement
benefits.
Meets U.S. Diversity Requirement

GERON 414. Gerontechnology in Smart Home Environments.
(Dual-listed with GERON 514). (3-0) Cr. 3. F. Prereq: Com S 227 or (Com S 207 or
Geron 377) or equivalent.
An interdisciplined course designed for students who are interested in assistive
technology, pervasive computing, mobile computing and principles of universal
and inclusive design for end users, in particular, the elderly population. Students will work
in semester-long projects as interdisciplinary teams to apply knowledge obtained
from lectures and mutual presentations. For graduate credit students are required to
submit a research report and give an oral presentation.

GERON 415. Gerontechnology in Smart Home Environments.
(Cross-listed with COM S). (3-0) Cr. 3. F. Prereq: Com S 227 or (Com S 207 or
Geron 377)
An interdisciplined course designed for students who are interested in assistive
technology, pervasive computing, mobile computing and principles of universal
software design for end users, in particular, the elderly population. Students will have
the chance to learn both about the theories and principles about aging and assistive
technology, as well as to engage in the practical semester-long project while working
with students from other disciplines. Nonmajor graduate credit.

GERON 463. Environments for the Aging.
(Dual-listed with GERON 563). (Cross-listed with ARTD, HD FS). (3-0) Cr. 3. S.
Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation,
psychology, or human development and family studies
Emphasis on independent living within residential settings including specialized
shelter, supportive services, and housing management. Application of criteria
appropriate for accessibility and functional performance of activities; universal design
principles. Creative project provides service learning opportunities.
Meets U.S. Diversity Requirement

GERON 466. Gerontology Prepracticum Seminar.
(1-0) Cr. 1. F.S.SS. Prereq: 9 credits in core courses for the gerontology minor and
approval of the gerontology graduate coordinator
Prepracticum training for students planning a gerontology practicum. Exploration of
possible agencies for the practicum, in-depth study of a selected agency, and
development of goals and objectives for the practicum.

GERON 467. Gerontology Practicum.
Cr. 3-6. Repeatable. F.S.SS. Prereq: GERON 466, advance reservation
Supervised field experience related to aging. Offered on a satisfactory-fail basis only.

GERON 490. Independent Study.
Cr. arr.
Consult program coordinator for procedure.

Courses primarily for graduate students, open to
qualified undergraduates:

GERON 501. Seminar.
Cr. arr. Repeatable. F.S.SS.

GERON 510. Survey of Gerontology.
Cr. 1-3. Repeatable. S.
Provides an overview of important gerontological issues.

GERON 514. Gerontechnology in Smart Home Environments.
(Dual-listed with GERON 414). (3-0) Cr. 3. F. Prereq: Com S 227 or (Com S 207 or
Geron 377 or ArtGr 271) or equivalent.
An interdisciplinary course designed for students who are interested in assistive
technology, pervasive computing, mobile computing and principles of universal
and inclusive design for end users, in particular, the elderly population. Students will work
in semester-long projects as interdisciplinary teams to apply knowledge obtained
from lectures and mutual presentations. For graduate credit students are required to
submit a research report and give an oral presentation.

GERON 520. Women and Aging.
(3-0) Cr. 3. SS.
Women and Aging is the study of theory, research and application of issues related
to women and the aging experience. This course will examine gender differences
in areas such as health, mental health, income security, crime, and public policy.
Attention will be given to ways in which younger women can prepare to meet the
challenges and opportunities awaiting them as they age.

(3-0) Cr. 3. SS.
Basic biological principles of aging. Course modules include an introduction to the
aging process, body systems and normal aging, and environment and the biology
of aging. In addition, disorders and diseases of aging, prevention and treatment and
exercise and aging topics will be covered.

GERON 522. Long-Term Care.
(3-0) Cr. 3. F.
Administration principles involved in the planning, organizing and directing of long-
term care agencies. Includes an in-depth exposure to federal and state standards
and regulations governing long-term care.

GERON 523. Mental Health and Aging.
(3-0) Cr. 3. S.
Introduction to the range of issues involved in aging and mental health. From a
systems framework the major emotional and psychiatric problems encountered in old
age will be examined including mood, anxiety, adjustment and personality disorders,
dementia, cognitive problems, substance abuse, and suicide. Barriers to treatment
and cohort and cultural issues will be explored.

(3-0) Cr. 3. SS.
Cognitive skills form the foundation for functioning in everyday life and these skills
take on added importance in older adulthood. This course focuses on selected
theoretical approaches and current research related to cognitive aging. We will
review normative and non-normative cognitive changes, assessment techniques,
and prevention/intervention efforts. Throughout the course we will keep the role
of environment and life-span implications in the forefront of our discussion.

GERON 530. Perspectives in Gerontology.
(Cross-listed with HD FS), (3-0) Cr. 3. F.
WWW only. Overview of current aging issues including theory and research, critical
social and political issues in aging, the interdisciplinary focus of gerontology, career
opportunities, and aging in the future.

GERON 534. Adult Development.
(Cross-listed with HD FS). (3-0) Cr. 3. S.
Exploration of the biological, psychological and social factors associated with aging.
Although the focus is on the later years, information is presented from a life-span
developmental framework. Empirical studies are reviewed and their strengths,
limitations and implications for normative and optimal functioning are discussed. (on-
line course offering via Distance Education).

(Cross-listed with DIET), (3-0) Cr. 3. Alt. F., offered 2012.
WWW only. Basic physiologic changes during aging and their impacts in health and
disease. The focus will be on successful aging with special emphasis on physical
activity and nutrition. Practical application to community settings is addressed.

GERON 545. Economics, Public Policy, and Aging.
(Cross-listed with HD FS). (3-0) Cr. 3. F.
Policy development in the context of the economic status of the older adult
population. Retirement planning and the retirement decisions; social security and
public transfer programs; intra-family transfers to/from the aged; private pensions;
financing medical care; prospects and issues for the future.
GERON 563. Environments for the Aging.  (Dual-listed with GERON 463). (Cross-listed with ARTID, HD FS). (3-0) Cr. 3. S. Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies. Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities. Meets U.S. Diversity Requirement

GERON 571. Design for All People.  (Cross-listed with DSN S, ARCH). (3-0) Cr. 3. S. Prereq: Graduate or Senior classification. Principles and procedures of universal design in response to the varying ability level of users. Assessment and analysis of existing buildings and sites with respect to standards and details of accessibility for all people, including visually impaired, mentally impaired, and mobility restricted users. Design is neither a prerequisite nor a required part of the course. Enrollment open to students majoring in related disciplines. Credit counts toward fulfillment of Studies in Architecture and Culture requirements. Meets U.S. Diversity Requirement

GERON 577. Aging in the Family Setting.  (Cross-listed with HD FS). (3-0) Cr. 3. S. Prereq: 9 credits in social sciences. Theories and research related to personal and familial adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics also are examined through the use of current literature. Spring 2013: on-line via Distance Education; Spring 2014: on campus.

GERON 584. Program Evaluation and Research Methods in Gerontology.  (Cross-listed with HD FS). (3-0) Cr. 3. S. Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings. (on-line course offering via Distance Education).

GERON 590. Special Topics.  Cr. arr. Repeatable. Consult program coordinator for procedure.

GERON 594. Professional Seminar in Gerontology.  (Cross-listed with HD FS). (3-0) Cr. 3. SS. An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest. (on-line course offering via Distance Education).

Hospitality Management
Administered by the Department of Apparel, Educational Studies, and Hospitality Management.

Department name changed to Apparel, Events, and Hospitality Management (12-2011).

The Hospitality Management (HspM) program strives for excellence in professional and leadership development for the hospitality industry through education, research, and outreach with a mission of developing leaders in the hospitality industry. Educational experiences are planned to contribute to the graduate’s effectiveness as a career professional and as a person, family member, and citizen. Research and extension efforts are conducted with the purpose of improving management effectiveness and quality of services within hospitality organizations. Finally, the program is committed to serving the respective missions of Iowa State University and the College of Human Sciences and to serving the needs of the citizens of Iowa.

Undergraduate Study
The program offers work for the degree Bachelor of Science in hospitality management. Coursework is planned to provide students with a general education plus professional preparation for supervisory and executive positions in hospitality organizations. Principles of business management are presented, as well as fundamentals of hospitality operations. Graduates demonstrate leadership characteristics and make decisions based on integrating knowledge of financial, human resources, marketing, and operational principles for managing hospitality operations. They demonstrate best practices in meeting customer expectations and use of technology to achieve operational efficiency and effectiveness.

Learning experiences are provided in the quantity food production and service facility of the Hospitality Management program and other approved establishments. Students are required to have a total of at least 600 hours of relevant work experience prior to graduation. Of the 600 hours, 200 hours are required prior to completing one year in the program.

Minor
A minor in Hospitality Management may be earned by successfully completing at least 15 credits of AESHM/Hsp M courses. The minor must include at least six (6) credits in courses numbered 300 or above taken at ISU. All course prerequisites must be completed prior to taking the course. All minor courses must be taken for a grade.

HRI 101  Introduction to the Hospitality Industry  3
HRI 233  Hospitality Sanitation and Safety  3
Select 9 credits from:
- AESHM 287  Principles of Management in Human Sciences  3
- AESHM 438  Human Resource Management  3
- AESHM 474  Entrepreneurship in Human Sciences  3
- AESHM 477  Multi-channel Retailing  3
- HRI 260  Global Tourism Management  3
- HRI 289  Contemporary Club Operations  3
- HRI 315  Hospitality Law  3
- HRI 352  Lodging Operations Management I  3
- HRI 383  Introduction to Wine, Beer, and Spirits  3
- HRI 437  Hospitality Information Technology  3
- HRI 439  Advanced Hospitality Human Resource Management  3
- HRI 452  Lodging Operations Management II  3

Total Credits  15

Graduate Study
The Hospitality Management program offers work for the Master of Science and Doctor of Philosophy degrees in hospitality management. Graduates of the program are able to interpret trends and adapt operating practices of hospitality organizations to changing economic, social, political, technological, and environmental conditions. They can manage a hospitality enterprise successfully to achieve objectives of the operation or, at the doctoral level, successfully carry out responsibilities of a hospitality educator. Graduates will make positive contributions to the growth and improvement of the hospitality industry using current research in the decision-making process.

A degree in hospitality management is the usual background for graduate study; however, applicants with preparation in dietetics, business, or closely related fields are encouraged to apply. PhD applicants must have two (2) years of professional work experience in the field.

The Master of Science degree requires either a thesis or non-thesis (creative component) project. Students also are required to take three core courses out of the four offered in the core areas (human resources, financial management, marketing, and strategic management).

The PhD program requires a minimum of 72 credits, up to 30 of which may be applied from the Master’s degree. All PhD students take a minimum of 15 research/ dissertation credits.

Curriculum in Hospitality Management
Administered by the Apparel, Events, and Hospitality Management Department. Leading to the Bachelor of Science degree. The curriculum in Hospitality Management develops students as leaders for the hospitality professions. A minor in Hospitality Management is available; see requirements under Hospitality Management, Courses and Programs.

Students majoring in Hospitality Management are required to earn C- or better in all AESHM and HRI courses. Communication Proficiency Requirement: Grade of C or better in ENGL 150 Critical Thinking and Communication, and ENGL 250 Written, Oral, Visual, and Electronic Composition.
Degree Requirements

10 Communications and Library
ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, Visual, and Electronic Composition 3
LIB 160 Information Literacy 1
Select one from the following: 3
  COMST 102 Introduction to Interpersonal Communication
  COMST 214 Professional Communication
  SP CM 212 Fundamentals of Public Speaking
Total Credits 10

13 Natural Sciences and Mathematical Disciplines
Select one MATH course from: 3
  MATH 104 Introduction to Probability and Matrices
  MATH 105 Introduction to Mathematical Ideas
  MATH 140 College Algebra
  MATH 141 Trigonometry
  MATH 150 Discrete Mathematics for Business and Social Sciences
  MATH 160 Survey of Calculus
STAT 101 Principles of Statistics 4
Natural Sciences (see approved list) 6
Total Credits 13

9 Social Sciences
ECON 101 Principles of Microeconomics 3
HD FS 102 Individual and Family Life Development 3
Psychology or Sociology 3
Total Credits 9

9 Humanities

13 Supporting courses
ACCT 284 Financial Accounting 3
AESHM 111 Professional Development for AESHM 3
AESHM 311 Seminar on Careers and Internships 1
FS HN 111 Fundamentals of Food Preparation * 2
FS HN 115 Food Preparation Laboratory 1
FS HN 167 Introduction to Human Nutrition * 3
* A student who has not had high school chemistry is required to take CHEM 160 Chemistry in Modern Society

16-18 Electives
123.0 Total credits
**A student who has not had high school biology is required to take BIOL 101 Introductory Biology.

Courses

Courses primarily for undergraduates:
HRI 101. Introduction to the Hospitality Industry.
(3-0) Cr. 3. F.
Introduction to the foodservice, lodging, and tourism components of the hospitality industry. Background information, current issues, and future challenges in various segments of the industry.
HRI 189. Introduction to University Dining Services Management.
(1-0) Cr. 1. Alt. S., offered 2014.
Overview of management concepts and distinct features of university dining services.
HRI 233. Hospitality Sanitation and Safety.
(3-0) Cr. 3. F.S.
HRI 260. Global Tourism Management.
(3-0) Cr. 3. S.
Overview of the global tourism industry: hospitality and related services, destination attractions, and transportation. Introduction to travel behavior, tourism planning and research, and economic and social impacts of tourism development. Meets International Perspectives Requirement.
HRI 289. Contemporary Club Operations.
(Cross-listed with EVENT). (2-0) Cr. 2. F.S. Prereq: HRI 101
Organization and management of private clubs including city, country, and other recreational and social clubs. Field trip may be required.
HRI 315. Hospitality Law.
(3-0) Cr. 3. S. Prereq: HRI 101
Laws relating to ownership and operation of hospitality organizations. The duties and rights of both hospitality business operators and customers. Legal implications of various managerial decisions. Nonmajor graduate credit.
HRI 333. Hospitality Operations Cost Controls. 
(3-0) Cr. 3. F. Prereq: Credit or enrollment in HRI 380, HRI 380L; 3 credits MATH Introduction to revenue and cost systems in the hospitality industry. Application of principles related to procurement, production, and inventory controls.

HRI 352. Lodging Operations Management I. 
(3-0) Cr. 3. F. Prereq: Credit or enrollment in HRI 101, AESHM 287 Introduction to functional department activities and current issues of lodging organizations with emphasis on front office and housekeeping. Reservation activities and night audit exercises. Case studies.

HRI 380. Quantity Food Production Management. 
(3-0) Cr. 3. F. Prereq: HRI 233 or 2 cr MICRO; FS HN 111 or FS HN 214/215; at least junior classification; enrollment in HRI 380L Principles of and procedures used in quantity food production management including menu planning, food costing, work methods, food production systems, quality control, and service.

HRI 380L. Quantity Food Production and Service Management Experience. 
(0-6) Cr. 2. F. Prereq: HRI 233 or 2 cr MICRO; FS HN 111 or FS HN 214/215; at least junior classification; enrollment in 380; reservation with program required Application of quantity food production and service management principles and procedures in the program's foodservice operation.

(2-0) Cr. F. Prereq: Must be at least 21 years old Introduction to history and methods of production for a variety of wines, beers, spirits, and other beverages. Sensory analysis, product knowledge, service techniques, sales, and alcohol service related to the hospitality industry.

HRI 391. Foodservice Systems Management I. 
(3-0) Cr. 3. F. Prereq: Credit or enrollment in HRI 380, HRI 380L Principles and techniques related to basic management, leadership, and human resource management of foodservices in health care and other on-site foodservice settings. Food safety and sanitation for on-site foodservice operations. Credit for either HRI 391 or AESHM 287 and 436 may count toward graduation. Not accepted for credit toward a major in Hospitality Management.

HRI 392. Foodservice Systems Management II. 
(3-0) Cr. 3. S. Prereq: HRI 391 Introduction to cost control in foodservice departments: procedures for controlling food, labor, and other variable costs. Application of principles related to food product selection, specification, purchase, and storage in health care and other onsite operations. Credit for either HRI 392 or 233 and 333 may count toward graduation. Not accepted for credit toward a major in Hospitality Management.

(3-0) Cr. 3. S. Prereq: HRI 333; ACCT 284; ECON 101; credit or enrollment in STAT 101 Use of common financial statements, accounting ratios, and financial techniques to impact management decisions.

HRI 437. Hospitality Information Technology. 
(3-0) Cr. 3. F. Prereq: HRI 325 Introduction to hospitality information technology. Property management and point-of-sales system interfaces: customer relationship management, selecting and purchasing computer systems, electronic distribution systems, internet and its related application systems, managing internal and external communication networks. Case studies. Nonmajor graduate credit.

(3-0) Cr. 3. Alt. F., offered 2013. Prereq: AESHM 438 Emphasis on development of management personnel in hospitality organizations. Case studies.

HRI 452. Lodging Operations Management II. 
(3-0) Cr. 3. S. Prereq: HRI 352; credit or enrollment in HRI 333 Development of business plan and evaluation of business performance in a simulated environment. Operational decision making practices by applying concepts of management, operations, marketing, and finance for a computer-mediated environment. Nonmajor graduate credit.

HRI 455. Introduction to Strategic Management in Foodservice and Lodging. 
(3-0) Cr. 3. S. Prereq: AESHM 340; credit or enrollment in HRI 433 and AESHM 438 Introduction to strategic management principles and practices with an application of human resources, operations, marketing, and financial management concepts. Case studies.

HRI 487. Fine Dining Event Management. 
(Dual-listed with HRI 587) (2-3) Cr. 3. F. Prereq: HRI 380, 380L; AESHM 287; AESHM 287 for Hospitality Management majors; 3 credits of marketing for Culinary Science majors Creative experiences with U.S. and international foods. Application of management, marketing, and financial principles in food preparation and service in the planning and execution of fine dining events. Meets International Perspectives Requirement.

HRI 489. Issues in Food Safety. 
(Cross-listed with AN S, FS HN, VDPAM). (1-0) Cr. 1. S. Prereq: Credit or enrollment in FS HN 101 or FS HN 272 or HRI 233; FS HN 419 or FS HN 420; FS HN 403 Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

HRI 490. Independent Study. 
Cr. arr. Repeatable. Prereq: Sections B-E: Program approval; Section H: Full membership in Honors Program

HRI 490B. Independent Study: Hospitality Management. 
Cr. arr. Prereq: Sections B-E: Program approval; Section H: Full membership in Honors Program

HRI 490D. Independent Study: Lodging Operations. 
Cr. arr. Prereq: Sections B-E: Program approval; Section H: Full membership in Honors Program

HRI 490E. Independent Study: Foodservice Operations. 
Cr. arr. Prereq: Sections B-E: Program approval; Section H: Full membership in Honors Program

HRI 490H. Independent Study: Honors. 
Cr. arr. Prereq: Sections B-E: Program approval; Section H: Full membership in Honors Program

Courses primarily for graduate students, open to qualified undergraduates:

HRI 505. Hospitality Management Scholarship and Applications. 
(0-1) Cr. 1. F.S.S. Focus on teaching and research scholarship involving the hospitality industry.

(0-1) Cr. 1. Repeatable. S.S.S. Focus on current issues related to the hospitality industry.

(3-0) Cr. 3. Alt. F., offered 2014. Prereq: HRI 433 Concepts of financial management applied to strategic decision making.

HRI 538. Human Resources Development in Hospitality Organizations. 
(3-0) Cr. 3. Alt. F., offered 2014. Prereq: AESHM 438 Theories of human resources management. Practices and principles related to development of management personnel.

HRI 540. Strategic Marketing. 
(3-0) Cr. 3. Alt. F., offered 2013. Prereq: AESHM 340 Application of marketing principles in developing effective marketing strategies for hospitality, apparel, and retail organizations. Evaluation of multi-dimensional marketing functions in hospitality organizations.

HRI 555. Strategic Management in Hospitality Organizations. 
(3-0) Cr. 3. Alt. S., offered 2014. Prereq: Courses in MKT, FIN, MGMT, and HRI. Permission of instructor Strategic management process as a planning and decision-making framework; integration of human resources, operations, marketing, and financial management concepts.

HRI 587. Fine Dining Event Management. 
(Dual-listed with HRI 487) (2-3) Cr. 3. F. Prereq: HRI 380, 380L; AESHM 287; AESHM 287 for Hospitality Management majors; 3 credits of marketing for Culinary Science majors Creative experiences with U.S. and international foods. Application of management, marketing, and financial principles in food preparation and service in the planning and execution of fine dining events. Meets International Perspectives Requirement.

HRI 590B. Special Topics: Hospitality Management. 
Cr. arr. Repeatable. maximum of 3 credits. Prereq: 9 credits in HRI at 400 level or above; application process
Courses for graduate students:

**HRI 590C. Special Topics: Tourism.**
Cr. arr. Repeatable, maximum of 3 credits. F.S.SS. Prereq: Enrollment in PhD program
Advanced study of current topics in hospitality management.

**HRI 590D. Special Topics: Lodging Operations.**
Cr. arr. Repeatable, maximum of 3 credits. Prereq: HRI at 400 level or above; application process
Advanced study of current topics in hospitality management.

**HRI 590E. Special Topics: Commercial/Retail Foodservice Operations.**
Cr. arr. Repeatable, maximum of 3 credits. Prereq: 9 credits in HRI at 400 level or above; application process
Advanced study of current topics in hospitality management.

**HRI 590F. Special Topics: Onsite Foodservice Operations.**
Cr. arr. Repeatable, maximum of 3 credits. Prereq: 9 credits in HRI at 400 level or above; application process
Advanced study of current topics in hospitality management.

**HRI 599. Creative Component.**
Cr. arr.

**Undergraduate Study**

For undergraduate curricula in Human Development and Family Studies, leading to the degree bachelor of science, see Human Sciences, Curricula.

The Department of Human Development and Family Studies offers courses that focus on the interactions among individuals, families, their resources, and their environments throughout the life span. The department offers work for the Bachelor of Science degree in four curricula: Child, Adult, and Family Services; Early Childhood Education; Family and Consumer Sciences Education and Studies, and Family Finance, Housing, and Policy.

Students graduating in Human Development and Family Studies will

1. Communicate with clear purpose, workable organization and effective style in written, oral, visual and electronic (WOVE) formats to foster collaboration, provide information and advance knowledge related to child, adult, family, and community services.
2. Consistently and realistically analyze and evaluate one’s own knowledge, abilities and actions in comparison to professional standards and create action plans to enhance personal and professional efficacy related to working with children, adults, families and communities.
3. Understand content related to working with children, adults, families, and communities within chosen program. Use critical thinking skills to evaluate and utilize evidence-based practices. Use logical and ethical reasoning to make decisions and solve problems.
4. Understand the diverse needs of children, adults, and families. Ensure equitable access of children, adults and families to appropriate environments that support healthy living. Engage children, adults, and families with socially responsible and respectful behavior.

**Communication Proficiency requirement:** A student must achieve a grade of C or higher in ENGL 150, Critical Thinking and Communication, and ENGL 250, Written, Oral, Visual, and Electronic Composition. A student achieving a grade of C- or lower in 150 and/or 250 must either repeat the course(s), earning a minimum grade of C, or, in consultation with the adviser and the coordinator of freshman English, complete another appropriate English writing course with a minimum grade of C.

The Child, Adult and Family Services curriculum leads to work in the helping professions with employment opportunities in public and private agencies. Opportunities exist to observe and work with infants, preschoolers, school-age children, adolescents, adults, and families. Graduates of the program are prepared for employment in agencies and organizations serving children, youth, families, and adults as program development specialists, coordinators, directors, teachers, direct care staff, and administrators. This flexible program provides a broad emphasis in theory, research, and application in child, adult and family services including attention to community issues and public policy.

Students in Child, Adult, and Family Services may choose coursework that leads to becoming a Certified Family Life Educator (CFLE), a program that has been approved by the National Council on Family Relations. These courses provide the basic education for students interested in working with families, including adolescents, parents, or adults working to strengthen relationships. The student takes courses that support the development of knowledge and skills in family life content areas selected by the National Council on Family Relations. The certification is a voluntary credential that requires the individual to complete a degree in an approved program and to have at least two years of work experience in family life education settings.
The curriculum in Early Childhood Education-United is planned for students preparing to teach young children and work with their families. This program leads to careers in working with young children (both those who are typically developing and those with special needs) from birth through age eight. Graduates of this program may teach in early childhood (preschool and kindergarten-3rd grade) classrooms or home based programs, with emphasis on inclusive services. Graduates may be employed by either public or private agencies or schools. This curriculum has been approved by the Iowa Department of Education and meets requirements for the early childhood education-unified teacher license, which permits individuals to teach general and special education for children from birth through age eight. The program is an interdepartmental major administered by the the Department of Human Development and Family Studies and the School of Education within the College of Human Sciences.

Early childhood education majors must satisfy a world languages and cultures requirement for graduation (see below for more information on the world languages and cultures requirement).

Students who enroll in the early childhood education-unified program must apply and be accepted into the teacher education program prior to enrolling in advanced courses. All early childhood education-unified students, including those seeking a double major, must meet general education requirements for teacher licensure. Iowa State University is in compliance with the Iowa Department of Education’s mandate for a performance based system of teacher training. The State of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the twelve Iowa State University Teacher Education Standards and the eight State of Iowa Teaching Standards, along with other information about the University Teacher Education Program, can be found at www.education.iastate.edu/te. Additional information is also available from the student’s academic adviser.

Students in early childhood education-unified must meet the performance outcome standards for teacher licensure. Standards are assessed in coursework through artifacts such as assignments, projects, or practicum participation. These standards assessments are based on the early childhood content standards for endorsement 100 in the State of Iowa. These include competencies in
1. child growth, development, and learning
2. developmentally appropriate learning environment and curriculum implementation
3. health, safety, and nutrition
4. family and community collaboration
5. professionalism

Pre-student teaching field experiences and student teaching experience in a least two different settings are required. Students will receive both formative and summative evaluations of their progress toward meeting these outcomes throughout their program at ISU.

The curriculum in Family and Consumer Sciences Education and Studies offers one curriculum for the Bachelor of Science degree in Family and Consumer Sciences Education and Studies. (http://catalog.iastate.edu/collegeofhumanities/familyandconsumer/sciences/educationandstudies). Graduates in Family and Consumer Sciences Education and Studies have a broad understanding of individual and family well-being. Graduates apply knowledge and research in family and consumer sciences content in global professional settings. They work in an integrative fashion to improve well-being by addressing and acting on complex problems confronting individuals, families, and communities. The study of Family and Consumer Sciences Education incorporates the following 16 content areas (http://www.nasafs.org/infobriefs.html): Career, Community and Family Connections; Consumer and Family Resources; Consumer Services; Education and Early Childhood; Facilities Management and Maintenance; Family; Family and Community Services; Food Production and Services; Food Science, Dietetics, and Nutrition; Hospitality, Tourism and Recreation; Housing and Interior Design; Human Development; Interpersonal Relationship; Nutrition and Wellness; Parenting; and Textiles, Fashion and Apparel.

Students in the program choose one of three options, Teacher Licensure, Communications, or Professional Studies. Students in Family and Consumer Sciences Education and Studies may choose coursework that leads to becoming a Certified Family Life Educator (CFLE), a program that has been approved by the National Council on Family Relations. These courses provide the basic education for students interested in working with families, including adolescents, parents, or adults working to strengthen relationships. The student takes courses that support the development of knowledge and skills in family life content areas selected by the National Council on Family Relations. The certification is a voluntary credential that requires the individual to complete a degree in an approved program and to have at least two years of work experience in family life education settings.

Graduates may also choose from one of several nationally recognized professional certifications available from the American Association of Family and Consumer Sciences (AAFCS) Council for Certification. This program measures competencies of FCS professionals using high-quality, rigorous assessments. Certifications that are currently available are (http://www.aafcs.org/CredentialingCenter/Certification.asp):
- CFCS: Certified in Family and Consumer Sciences; CFCS-HDFS: Certified in Human Development and Family Studies; CFCS-HNFS: Certified in Hospitality, Nutrition, and Food Science; and CPFFE: Certified Personal and Family Finance Educator.

Opportunities are available for obtaining a minor from other programs through careful selection of elective credits and consultation with an adviser. For example, students pursuing the Communications and Professional Studies options are encouraged to consider obtaining a minor in journalism and mass communications or in one of the content areas of family and consumer sciences such as family finance, housing, and policy. They also are encouraged to enhance their program by selecting relevant additional courses in their area of interest. Students in the Teacher Licensure option may choose to add an additional endorsement such as Health Education, Middle School, ESL, Multi-Occupations, or Coaching Intercollegiate Athletics.

There is also an opportunity to obtain a family and consumer sciences-general endorsement or teacher licensure as a post baccalaureate student.

The program offers a minor in Educational Services in Family and Consumer Sciences. The minor is earned by successfully completing 15 credits. For additional details, see www.hdfs.hs.iastate.edu/undergraduate-majors/minors/.

The Family Finance, Housing and Policy curriculum prepares students for careers in family financial services, offering three emphasis areas: Financial Planning, Financial Counseling or Family Financial Studies. Family Finance is a growing career field and appeals to students who want to work with individuals and families to help them meet their financial goals and improve their financial capability to better meet financial challenges. Based on your specific career goals you can select a path that leads to fulfilling the education requirements for the leading designations and certifications in financial counseling and planning. Graduates of the program are prepared for employment within the public and private and not-for-profit organizations including working in the banking and insurance industry and financial counseling and human service agencies. Coursework provides students with the family resource management and interpersonal skills that they need to help families thrive. Laboratory and practicum opportunities exist in the Iowa State University Financial Counseling Clinic. A required internship encourages students to apply their studies and to experience the profession in real-world settings.

Family Finance and Housing Policy majors are also prepared to enter graduate programs in family financial planning, financial education, economics, finance, law.

Well qualified juniors and seniors in Family Finance, Housing and Policy who are interested in graduate study many apply for concurrent enrollment in the Graduate College to simultaneously pursue both a B.S. in Family Finance, Housing and Policy and an M.S. in Human Development and Family Studies or a B.S. in Family Finance, Housing and Policy and a Graduate Certificate in Family Financial Planning. Under concurrent enrollment, students simultaneously take undergraduate and graduate courses and may be eligible for assistantships. See Graduate Study for more information.

**Minors**

The department offers minors in Child, Adult, and Family Services, Educational Services in Family and Consumer Sciences, and Family Finance, Housing, and Policy. Minors consist of at least 15 credits including 6 credits taken at Iowa State University in courses numbered 300 or above.

The Child, Adult, and Family Services minor may be earned by completing 15 credits:
- **HD FS 102** Individual and Family Life Development
- **One of the following:**
  - **HD FS 224** Development in Young Children: Birth through Age 8
  - **HD FS 226** Development and Guidance in Middle Childhood
  - **HD FS 227** Adolescent and Emerging Adulthood
  - **HD FS 234** Adult Development and Aging
  - **HD FS 377** Aging and the Family
- **Three of the following:**
  - **HD FS 249** Parenting and Family Diversity Issues
  - **HD FS 270** Family Communications and Relationships
  - **HD FS 342** Guidance and Group Management in Early Childhood
  - **HD FS 344** Programming for Children in Early Care and Education
  - **HD FS 360** Housing and Services for Families and Children
  - **HD FS 367** Abuse and Illness in Families
**Graduate Study**

The department offers work for the Master of Science (thesis and non-thesis option) and Doctor of Philosophy degrees with the major in Human Development and Family Studies. Minor work for students taking major work in other departments is also available. Graduates of M.S. and Ph.D. programs in the department will understand and apply relevant theories to educational, research, and/or intervention or prevention programs. It is intended that they will produce and disseminate research results and provide leadership in human development and family studies professions.

Graduate study in Human Development and Family Studies at Iowa State University is multidisciplinary and focuses on research and practice in several content areas such as adolescent/youth development, adult development and aging, family studies and policy, family economic well-being and financial planning, infant and child development, health and well-being, and lifespan development. In addition, the Department of Human Development and Family Studies offers coursework and experiences leading to the National Council of Family Relations certification as a family life educator.

Prerequisite to work in the major is the completion of a related undergraduate program with basic courses in one or more of the following areas: child/human development, community and regional planning, economics, education, family studies, psychology, or sociology. Additional coursework or prerequisites may be required depending on the undergraduate program and program of study. Students may be admitted to our doctoral program with either a bachelor's (M.S/PhD Track, 5 years) or a master's degree (PhD Track only, 3 years). Students admitted without a prior master's degree complete requirements for a thesis-based master's degree as part of their doctoral program of study.

All students take a core set of courses; the program of study is then completed with a selection of courses that meet the individual needs of the student. Students may select coursework within or across the research and practice areas. The variety of and flexibility in the coursework allows a student to tailor a program to specific academic interests. Since HD FS graduate degree programs are research-focused students are required to take coursework in research methods and statistics.

The department offers a graduate minor in Human Development and Family Studies. To earn this minor, students in a Master's program must take 9 credits in HD FS graduate courses (500, 600 level) with a limit of 3 credits in seminar or workshop credit (credits in 591 or 691 not allowed). To earn a minor in HD FS students in a Doctoral program must take 12 credits in HD FS graduate courses (500, 600 level) with a limit of 3 credits in seminar or workshop credit (credits in 591 or 691 not allowed). The department also offers two Graduate Certificates including a Family Well-Being in Diverse Society (12 credits) and Developmental and Family Sciences Advanced Research Design and Methods (15 credits).

The department also participates in several Master of Family and Consumer Sciences degree programs (http://catalog.iastate.edu/collegeofhumanciences/ familyandconsumersciences/). Admission to the youth (YTH), family financial planning (FFP) and gerontology (GERON) specialization programs require submission of the Graduate College application form, transcripts, 2 letters of recommendation, resume and a goal statement. First, students selecting this option may choose Human Development and Family Studies as the focus of their studies.

Second, a 36-credit Master of Family and Consumer Sciences-Youth Development (MFCS-YD) or a 13-credit Youth Development Specialist Certificate or a 13-credit Youth Program Management and Evaluation Certificate are designed to prepare individuals who work directly with youth or are involved in education and research related to youth. The courses for this program are completely Web-based.

Third, a 42-credit Master of Family and Consumer Sciences-Family Financial Planning Program (MFCS-FFP), along with the 18-credit Graduate Certificate Program, is designed to prepare individuals to work in the financial planning field. The courses for the program are completely Web-based. Completion of course work in the Master degree and Graduate Certificate meets the educational requirements to sit for the Certified Financial Planner (CFP) Board of Standards Certification Exam.

The department offers well qualified students in Family Finance, Housing, and Policy concurrent degree programs that allow them to obtain a B.S. in FFHP and an M.S. in HD FS or a B.S. in FFHP and a Graduate Certificate in Family Financial Planning in 5 years. Application for admission to the Graduate College should be made near the end of the junior year. Under concurrent enrollment, students simultaneously take undergraduate and graduate courses and may be eligible for assistantships. Students interested in these programs should contact the department for details.

Finally, the department cooperates with the interdepartmental Gerontology program; students may declare a minor in Gerontology. The Master of Family and Consumer Sciences - Gerontology program (MFCS-GERON) and the Graduate Gerontology Certificate program are designed to prepare professionals who work directly with older people or are involved in education and research related to the elderly. Professionals offering direct services often are involved in health promotion programs, directing inter-generational activities, managing senior centers or retirement communities, counseling older people and their families, and helping people plan for retirement. Professionals involved in education and research may evaluate community-based services, teach others about the aging process, develop policies and programs to serve the needs of the elderly, and work with business and industry on issues related to an aging work force.

**Curricula:**

- **Child Adult, and Family Services**
- **Early Childhood Education— Unified**
- **Family and Consumer Sciences Education and Studies**
- **Family Finance, Housing, and Policy**

**Curriculum in Child, Adult, and Family Services**

Administered by the Department of Human Development and Family Studies. Leading to the degree bachelor of science.

Total credits required: 120. The child, adult, and family services curriculum, with options in child programs, youth programs, adult/family programs, leads to employment opportunities in the helping professions working with children, adults, and families in a variety of public and private human service agencies and organizations.

A minor in child, adult, and family services is available; see requirements under Human Development and Family Studies, Undergraduate programs.

The following requirements are for the child programs, youth programs, adult/family programs:

**Communications and Library: 13 credits**

### Electives: 25.5-26.5 credits

- Total credits: 120 credits

U.S. Diversity and International Perspectives Requirement: Students fulfill the U.S. Diversity and International Perspectives Requirement by choosing three credits of coursework from each of the university-approved lists.
Early childhood education majors must satisfy a world languages requirement for graduation (see below for more information on the world languages requirement).

Students in early childhood education—unified must apply and be accepted into the teacher education program prior to enrolling in advanced courses. All early childhood education-unified students, including those seeking a double major, must meet general education requirements for teacher licensure. Iowa State University is in compliance with the Iowa Department of Education’s mandate for a performance-based system of teacher training. The state of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the twelve Teacher Education Standards along with other information about the University Teacher Education Program, can be found at www.education.iastate.edu/te.

Additional information is also available from the student’s academic advisor. Students in early childhood education—unified must meet the performance outcome standards for teacher licensure. Standards are assessed in coursework through artifacts such as assignments, projects, or practicum participation. These standards assessments are based on the early childhood content standards for endorsement 100 in the State of Iowa. These include competencies in (1) child growth, development, and learning, (2) developmentally appropriate learning environment and curriculum implementation, (3) health, safety, and nutrition, (4) family and community collaboration, and (5) professionalism. Pre-student teaching field experiences and student teaching experiences in at least two different settings is required. Students will receive both formative and summative evaluations of their progress toward meeting these outcomes throughout their program at Iowa State University.

World Language and Culture Requirements

Early childhood education—unified majors must satisfy a graduation requirement equivalent to the first year of university-level study in one world language (normally, completion of a two-semester sequence in any one world language). The requirement may be met by completion of three or more years of high school study in one world language.

Students who have completed three or more years of French, German, or Spanish in high school may not receive graded credit for 101/102 in those languages; test-out credit (T credit) may be obtained by passing an appropriate examination or by completing an advanced sequence (200-level or higher) in that language. If these students choose to take 101-102 on a remedial basis, they will be graded S-F.

**Total Credits: 13**

**Emphasis: 18-19 credits**

Choose an emphasis of Family Financial Counseling, Family Financial Planning, or Family Financial Studies, see below for curriculum.

**Electives: 25-27 credits as needed to equal 120 total credits**

Courses from accounting, architecture, art, and design, community and regional planning, economics, family and consumer sciences education, finance, gerontology, interior design, journalism, management, marketing, political science, psychology, and sociology are suggested.

**Total credits: 120 credits**

**U.S. Diversity and International Perspectives Requirement: Students fulfill the U.S. Diversity and International Perspectives Requirement by choosing three credits of coursework from university-approved Humanities and Social Sciences included on the ECE approved options sheet.**

**Curriculum in Family Finance, Housing, and Policy**

Administered by the Department of Human Development and Family Studies. Leading to the degree bachelor of science.

The Family Finance, Housing, and Policy curriculum prepares students for careers in family financial services, offering three emphasis areas: Family Financial Planning, Family Financial Counseling or Family Financial Studies. Family Finance is a growing career field and appeals to students who want to work with individuals and families to help them meet their financial goals and improve their financial capability to better meet financial challenges. Coursework provides students with the family resource management and interpersonal skills that they need to help families thrive. Based on your specific career goals you can select a path that leads to fulfilling the education requirements for the leading designations and certifications in financial counseling and planning. Graduates of the program are prepared for employment within the public and private and not-for-profit including working in the banking and insurance industry and financial counseling and human service agencies. A minor in Family Finance, Housing and Policy is available; see requirements under Human Development and Family Studies Courses and Programs.

**Total credits required: 120**

**Electives: 1-3 credits to equal 126 total credits**

Total Credits: 126

**Total Credits: 126**

Courses

Courses primarily for undergraduates:

HD FS 102. Individual and Family Life Development. 
(3-0) Cr. 3. F.S.SS. 
Development of individuals, families, and their reciprocal relationships as affected by external factors; examined within a framework of life-span developmental tasks.

HD FS 103. Professional Principles for Child Programs. 
(0.5-0) Cr. 0.5. F.S. 
Introduction to professional principles and ethics, understanding of child abuse reporting, universal precautions. Completion of criminal background checks for ISU practica. Offered on a satisfactory-fail basis only.

HD FS 105. Professional Principles for Youth and Adult Programs. 
(0.5-0) Cr. 0.5. F.S. 
Introduction to professional principles and ethics, understanding of child, dependent adults and elder abuse reporting, working with aging adults, universal precautions. Offered on a satisfactory-fail basis only.

HD FS 110. Freshman Learning Community Orientation. 
(1-0) Cr. 1. F. Prereq: Membership in HD FS Learning Community 
Introduction to the Department of Human Development and Family Studies including academic requirements and opportunities, strategies for transitioning to college, learning and study strategies, reading and reflection, and career awareness.

HD FS 111. Transfer Student Orientation. 
(1-0) Cr. 1. F.S. Prereq: Restricted to CH FS, FFHP, FCEDS majors Orientation to HD FS curricula. Development of a long-term curriculum plan. Offered on a satisfactory-fail basis only.

HD FS 183. Personal Finance in Early Adulthood. 
(1-0) Cr. 1. F.S. 
Introduction to basic concepts and budgeting practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans. Offered on a satisfactory-fail basis only.

HD FS 208. Early Childhood Education Orientation. 
(Cross-listed with C I). Cr. 1. F.S. Prereq: Restricted to ECE majors Overview of early childhood education (birth-grade 3) teacher licensure requirements. Program planning and university procedures. Required of all students majoring in early childhood education. Offered on a satisfactory-fail basis only.

HD FS 218. Professional Orientation and Service Learning. 
(2-0) Cr. 2. F.S. Prereq: Credit or concurrent enrollment in HD FS 102. Restricted to CH FS majors. 
Ethics, professional development, and career exploration in child, adult and family services. Visits to and service learning with programs that serve children, adults and families with diverse needs. Participation in service learning project required. Offered on a satisfactory-fail basis only.

HD FS 224. Development in Young Children: Birth through Age 8. 
(3-1) Cr. 3. F.S. Prereq: HD FS 102 
Learning, growth, and development (typical and atypical) of children from birth through age eight. Explores importance of family, programs, and a diverse society. Strategies for observing, recording, and interpreting children’s cognitive, communication, motor, social, and emotional development. Practicum.

HD FS 226. Development and Guidance in Middle Childhood. 
(2-2) Cr. 3. F.S. Prereq: HD FS 102 or PSYCH 230 
Typical and atypical development from 5 to 12 years of age. Development in the contexts of family, school, and society. Guidance of children in family and group settings; practicum.

HD FS 227. Adolescent and Emerging Adulthood. 
(3-0) Cr. 3. F.S. Prereq: HD FS 102 or PSYCH 230 
Physical, cognitive, and socioemotional development of adolescents and young adults in the context of family, relationships, and culture.

HD FS 234. Adult Development and Aging. 
(3-0) Cr. 3. S. Prereq: HD FS 102 
Introductory exploration of the health, individual and social factors associated with adult development including young adulthood, middle age and older adulthood. Information is presented from a life-span developmental framework.

HD FS 239. Housing and Consumer Issues. 
(3-0) Cr. 3. F. 
Introduction to factors affecting housing consumption of individuals and families, including current housing consumer issues related to housing choices, housing context of neighborhoods and communities, housing structure types, and credit and housing finance. Issues such as homelessness, housing discrimination, indoor air quality, accessible design. Meets U.S. Diversity Requirement

HD FS 240. Literature for Children. 
(3-0) Cr. 3. F.S. 
Evaluation of literature for children, including emphasis on cultural, language, and ability diversity. Roles of literature in the total development of children. Literature selection and use. Meets U.S. Diversity Requirement

HD FS 249. Parenting and Family Diversity Issues. 
(3-0) Cr. 3. F.S. 
Parenting practices and family relationships across the lifespan. Practical knowledge and techniques about how to be an effective parent. Diverse families, discipline, and parent education programs. Meets U.S. Diversity Requirement

(3-0) Cr. 3. F.S. Prereq: HD FS 102 or PSYCH 230 
Understanding and evaluating research. Use of primary and secondary data to identify and study problems related to human development and family issues, including finance and housing. An introduction to statistical concepts and computer analysis. Research participation.

HD FS 270. Family Communications and Relationships. 
(3-0) Cr. 3. F.S. Alt. SS. offered 2013. Prereq: HD FS 102 or PSYCH 230 
Family communication and its functions to develop, maintain, enrich and limit family relationships. Family theories related to communication and ethical considerations when working with families.

(3-0) Cr. 3. F.S. S.S. 
Behavioral, biological, and psychological aspects of human sexuality within the social context of family, culture, and society. Role of sexuality in human development. Critical analysis of media and research. Communication and decision-making skills relating to sexuality issues and relationships. Meets U.S. Diversity Requirement

HD FS 283. Personal and Family Finance. 
(3-0) Cr. 3. F.S.SS. 
Introduction to basic principles of personal and family finance. Budgeting, record keeping, checking and savings accounts, consumer credit, insurance, investments, and taxes.

HD FS 317. Field Experiences. 
Cr. 1-6. Repeatable. F.S.SS. Prereq: Permission of instructor Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317A. Field Experiences: Early Childhood Education Programs. 

HD FS 317B. Field Experiences: Family Services Programs. 
Cr. 1-6. Repeatable, F.S.SS. Prereq: 9 credits in HD FS. Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317C. Field Experiences: Early Childhood Special Education Programs. 
Cr. 1-6. Repeatable, F.S.SS. Prereq: HD FS 224 Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.
HD FS 317D. Field Experiences: School-Age Child Care Programs.. 
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317E. Field Experiences: Infant/Toddler Programs.. 
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317F. Field Experiences: Research. 
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317G. Field Experiences: Family Finance Programs.. 
Cr. 1-6. Repeatable. F.S.SS.
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 317K. Field Experiences: Housing Programs.. 
Cr. 1-6. Repeatable. F.S.SS.
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

HD FS 340. Assessment and Curricula: Ages Birth through 2 Years. 
(3-3) Cr. 4. F.S. Prereq: HD FS 224; admission to teacher education program 
Assessment strategies for infants and toddlers, including those with special needs. Curricula, learning environments, teaching strategies, health and nutritional practices, and schedules that are developmentally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical, motor, cognitive, communication, and social emotional development; practicum.

HD FS 341. Housing Finance and Policy. 
(3-0) Cr. 3. F. Prereq: 6 credits in social sciences 
The social, economic, and governmental contexts of housing and financial decision-making at the household level. Financial considerations for residential property management.

HD FS 342. Guidance and Group Management in Early Childhood. 
(2-2) Cr. 3. F.S. Prereq: HD FS 224 Guiding prosocial development, self-regulation, and task engagement of children birth to age 8. Focus is on promoting prosocial behaviors through supportive relationships and environments within diverse home, center, or school settings. Functional behavior assessment and ongoing progress monitoring for targeted and intensive interventions. Practicum.

HD FS 343. Assessment and Programming: Ages 3 through 6 Years. 
(3-3) Cr. 4. F.S. Prereq: HD FS 224; HD FS 240; admission to teacher education program
Assessment strategies for preschool and kindergarten children, including those with special needs. Learning environments, schedules, activities, nutritional practices, and teaching strategies that are developmentally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical motor, cognitive, communication, and social emotional development; practicum.

HD FS 344. Programming for Children in Early Care and Education. 
(3-3) Cr. 4. F.S. Prereq: HD FS 224
Programming in inclusive child care centers and family child care homes, including those with special needs, aged birth through 8 years. Developing, implementing, and evaluating learning environments; activities and materials; behavioral guidance and classroom management practices; health and nutritional practices; and schedules to ensure developmental, individual, and cultural appropriateness. Monitoring children's development and behavior to promote physical, motor, cognitive, communication, and social emotional development. Collaborating effectively with parents and staff.

(3-0) Cr. 3. F.S. Prereq: Credit or concurrent enrollment in HD FS 340 or HD FS 343; SP ED 250 
Adapting instruction, materials, and equipment to meet developmental needs of young children birth through age 8 with diverse learning needs and multiple disabilities in inclusive settings. Addressing individualized education programs; special health care needs, challenging behavior, and positioning and handling techniques.

HD FS 360. Housing and Services for Families and Children. 
(3-0) Cr. 3. F. Prereq: 6 credits in social sciences 
Approaches to and assessment of housing and services that assist those with special needs including those with disabilities, low-income, children at risk, single-parents, and the homeless. Emphasis on community settings; e.g., residential facilities, group housing, shelters and transitional housing. Meets U.S. Diversity Requirement

HD FS 367. Abuse and Illness in Families. 
(3-0) Cr. 3. F.S. Alt. SS., offered 2014. Prereq: HD FS 102 or PSYCH 230
Causes and consequences of family stressors including physical, sexual, and emotional abuse; substance abuse; and mental and physical illness across the life span. Interplay between victims, offenders, and the treatment system.

HD FS 373. Death as a Part of Living. 
(Cross-listed with GERON). (3-0) Cr. 3. F.S. Alt. SS., offered 2014. Prereq: HD FS 102
Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.

(Cross-listed with GERON). (3-0) Cr. 3. F.S. Alt. SS., offered 2013. Prereq: HD FS 102
Interchanges of the aged and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community development. Meets U.S. Diversity Requirement

HD FS 378. Retirement Planning and Employee Benefits. 
(Cross-listed with ECON, GERON). (3-0) Cr. 3. S. Prereq: 3 credits in Principles of Economics and 3 credits in Human Development and Family Studies
Economic well-being in the context of demographic change, the present and future of Social Security, family retirement needs analysis, investment strategies and characteristics of retirement plans, helping others to work towards financial security, family economic issues for retired persons. Overview of employee and retirement benefits. Meets U.S. Diversity Requirement

(3-0) Cr. 3. F. Prereq: HD FS 283
Fundamental principles of the financial planning process, client/planner interactions, time value of money applications as well as analyses of ethics review, financial statements, cash flow and debt management, education planning, retirement planning, tax planning, and estate planning needs of families.

(3-0) Cr. 3. F.S. Alt. SS., offered 2013. Prereq: HD FS 102
Public policy and politics as they affect children and families. Examination of how individuals and groups influence policy. Investigation of current issues and programs influencing the well-being and welfare of children and families.

Cr. arr. Repeatable. F.S.SS. Prereq: 8 credits in human development and family studies
Intensive study of a selected topic in human development and family studies.

HD FS 417. Supervised Student Teaching. 
Cr. 8. Repeatable. Prereq: Reservation required

HD FS 418. Professional Practice Reflection/Discussion. 
(5-0) Cr. 5. Repeatable. F. Prereq: concurrent enrollment in HD FS 417 
Supervision and discussion of professional experience. Offered on a satisfactory-fail basis only.

HD FS 418A. Professional Practice Reflection/Discussion: Student Teachers. 
(2-0) Cr. 0.5. F.S. Prereq: Concurrently with HD FS 417 
Supervision and discussion of HD FS 417 student teaching field experience. Offered on a satisfactory-fail basis only.

HD FS 418B. Professional Practice Reflection/Discussion: Student Interns. 
(2-0) Cr. 2. F.S. Prereq: Junior classification 
Process and development of skills necessary for professional preparation and practice including career planning, resume writing, and interviewing. Strategies for successful career management. Offered on a satisfactory-fail basis only.
(3-0) Cr. 3. F.S. Prereq: HD FS 269 and HD FS 395
Theory and practice of program evaluation and proposal writing in human services including needs assessment, outcome development and measurement, and proposal components. Assessment of programs success in meeting goals.

HD FS 455. Curricula for Ages 3 through 6 Years.
(3-3) Cr. 4. F.S. Prereq: HD FS 343, HD FS 345, SP ED 355 and SP ED 455
Program models and methods leading to development and organization of appropriate curricula in preschool and kindergarten programs for young children with diverse learning needs. Government regulations and professional standards for child programming. Teamwork with parents, colleagues, and paraprofessionals to plan, implement, and evaluate developmentally and culturally appropriate individualized education plans in inclusive settings; practicum. Nonmajor graduate credit.

(3-0) Cr. 3. F.S. Prereq: HD FS 340, HD FS 345
Family systems and the application of family centered principles in early intervention and home-based services. Impact of disability on families with young children and strategies for delivering family-centered interventions and service coordination. Understanding and measuring family outcomes of early intervention. Understanding foundations of therapy and policy, establishing effective partnerships, and building family capacity through effective supports and services. Experiences with families. Nonmajor graduate credit.

HD FS 463. Environments for the Aging.
(Dual-listed with HD FS 563). (Cross-listed with ARTID, GERON). (3-0) Cr. 3. S. Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies
Emphasis on independent living within residential settings including specialized shelter, supportive services, and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities. Meets U.S. Diversity Requirement

HD FS 479. Family Interaction Dynamics.
(3-0) Cr. 3. F.S. Prereq: HD FS 102 or equivalent; HD FS 269 or equivalent; 9 hours in social sciences; junior or senior status
Analysis of research related to family interaction processes across the family life span. Emphasis on relationship dynamics and cultural differences. Nonmajor graduate credit.

HD FS 482. Family Savings and Investments.
(3-0) Cr. 3. F. Prereq: HD FS 283
Management of family financial resources; emphasis on savings and the investment planning process; issues facing financial managers who plan family assets. Identification of investment options including common stocks, fixed income securities, convertible securities, and related choices. Nonmajor graduate credit.

HD FS 484. Estate Planning for Families.
(3-0) Cr. 3. S. Prereq: HD FS 283
Study of estate planning focusing on efficient conservation and transfer of wealth, consistent with client's goals. Legal, tax, financial and non-financial aspects of estate planning process; trusts, wills, probate, advanced directives, charitable giving, wealth transfers and related taxes.

(3-0) Cr. 3. S. Prereq: HD FS 283, HD FS 378, HD FS 383, HD FS 484, HD FS 488, ACCT 485, FIN 361
Development and refinement of competencies required by personal financial planners to work with individuals and families in meeting financial objectives. Utilization of skills obtained in financial planning emphasis to complete one or more financial planning narratives.

HD FS 486. Administration of Programs for Children, Adults, and Families.
(3-0) Cr. 3. F.S. Prereq: Junior classification; 6 credits in HD FS at 300 level and above
Examination of purpose, policies, staffing, operations, and clientele of organizations serving children, adults and families with diverse needs. Management/leadership principles and techniques, including an introduction to financial management involved. Administrators/supervisors role in staff hiring, supervision, evaluation and development, as well as program evaluation, goal setting, strategic planning, and advocacy will be explored...

HD FS 489. Financial Counseling.
(Dual-listed with HD FS 589). (3-0) Cr. 3. F. Prereq: Graduate classification Personal, social/psychological and legal climates affecting family financial decisions. A life cycle approach to financial decision making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management.

HD FS 490L. Financial Counseling Laboratory.
(Dual-listed with HD FS 590L). (0-2) Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Instructor permission
Practical experience in remedial, preventative, and productive approaches to both financial and housing counseling in one-on-one and/or group settings.

HD FS 490. Independent Study.
Cr. arr. Prereq: 6 credits in human development and family studies Consult department office for procedure.

Cr. arr. Prereq: 6 credits in human development and family studies Consult department office for procedure.

HD FS 490B. Independent Study: Housing.
Cr. arr. Prereq: 6 credits in human development and family studies Consult department office for procedure.

HD FS 490C. Independent Study: Family Finance.
Cr. arr. Prereq: 6 credits in human development and family studies Consult department office for procedure.

HD FS 490F. Independent Study: Early Childhood Education.
Cr. arr. Prereq: 6 credits in human development and family studies Consult department office for procedure.

HD FS 490G. Independent Study: Early Childhood Special Education.
Cr. arr. Prereq: 6 credits in human development and family studies Consult department office for procedure.

HD FS 490H. Independent Study: Honors.
Cr. arr. Prereq: 6 credits in human development and family studies Consult department office for procedure. updated course title to reflect anchor: subtopic format

Cr. arr. Prereq: 6 credits in human development and family studies Consult department office for procedure.

HD FS 490J. Independent Study: Policy Programs.
Cr. arr. Prereq: 6 credits in human development and family studies Consult department office for procedure.

HD FS 491. Internship.
Cr. 4-9. Repeatable, maximum of 9 credits. F.S.S. Prereq: HD FS 418B; permission of instructor; senior classification; minimum 2.0 GPA; reservation required one semester before placement
Supervised work experience related to the student's curriculum. Offered on a satisfactory-fail basis only.

HD FS 493. Workshop.
Cr. arr. Repeatable. F.S.S. Prereq: Senior classification
(Dual-listed with 593).

HD FS 499. Research.
Cr. arr. Repeatable, maximum of 6 credits. F.S.S. Prereq: Consult department office for procedures. Supervised research experience.

Courses primarily for graduate students, open to qualified undergraduates:

HD FS 501. Graduate Study Orientation.
(2-0) Cr. 2. F. Prereq: Admission to HD FS Graduate program Orientation to graduate study, professional development and the field of human development and family studies. Curriculum, portfolios, faculty research interests, research ethics, dissemination of research, career planning, and teaching philosophies discussed.

(3-0) Cr. 3. S. Prereq: STAT 401 or RESEV 553; concurrent enrollment in HD FS 505 Concepts, methods, and strategies for research in human development and family studies. Topics include the nature of scientific research, measurement, types of research in human development and family studies, validity of research designs, methods of data gathering, and strategies for and issues in the study of change.

HD FS 504. Qualitative Research Methods.
(3-0) Cr. 3. F. Prereq: 9 credits of social sciences Introduction to qualitative research methodology. Application of fieldwork methods, analysis, interpretation, and writing through individual qualitative research projects.
(3-0) Cr. 3. S. Prereq: STAT 401 or RESEV 553; concurrent enrollment in HD FS 503 Coding, entry and manipulation of research data. Practical applications with interactive statistical software.

HD FS 510. Theories of Human Development.
(3-0) Cr. 3. F.SS. Prereq: 9 credits of social sciences Theoretical approaches and current research in child, adolescent, and adult development. Individual life span perspectives. Policy implications. (Summer course offering is on-line).

HD FS 511. Family Theory.
(3-0) Cr. 3. S. Prereq: 9 credits in social sciences Theoretical approaches and current research in family development. Review the nature and value of theory to the study of the family and evaluate the use of theory in empirical research. Policy implications.

HD FS 530. Perspectives in Gerontology.
(Cross-listed with GERON), (3-0) Cr. 3. F. WWW only. Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future.

HD FS 534. Adult Development.
(Cross-listed with GERON), (3-0) Cr. 3 S. Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed. (on-line course offering via Distance Education).

(Cross-listed with PSYCH), (3-0) Cr. 3. Alt. F., offered 2013. Prereq: 9 credits in human development and family studies or psychology Theories, research, and current issues regarding the intersection of development and disabilities. Investigation of interventions with individuals and families. (on-line course offering via Distance Education).

HD FS 541. Housing and Real Estate in Family Financial Planning.
(Cross-listed with FFP), (3-0) Cr. 3. Alt. S.S., offered 2014. The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate. (on-line course offering via Distance Education).

HD FS 545. Economics, Public Policy, and Aging.
(Cross-listed with GERON), (3-0) Cr. 3. F. Policy development in the context of the economic status of the older adult population. Retirement planning and the retirement decisions; social security and public transfer programs; intra-family transfers to/from the aged; private pensions; financing medical care; prospects and issues for the future.

(3-0) Cr. 3. Alt. F., offered 2014. Prereq: 9 credits in social sciences Analysis of contemporary and historical early childhood/early intervention/early childhood special education model programs and services. Examination of relationships among service systems and implementation. Program quality, teacher effectiveness, and outcomes for children with and without disabilities. (on-line course offering via Distance Education).

HD FS 563. Environments for the Aging.
(Dual-listed with HD FS 463). (Cross-listed with ARTID, GERON), (3-0) Cr. 3. S. Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies. Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities. Meets U.S. Diversity Requirement

HD FS 566. Family Policy.
(3-0) Cr. 3. Alt. F., offered 2014. Prereq: 9 credits in social sciences Explores current, enduring, and some controversial family policies and programs. Examines the effect of public policies on families and children, especially those at risk. Describes work roles in family policy and the interaction of family researchers and policymakers.

HD FS 567. Family Stress, Abuse, and Illness.
(3-0) Cr. 3. Alt. F., offered 2014. Prereq: 9 credits in social sciences Contemporary theory and research on the causes and consequences of family stressors including physical, sexual, and emotional abuse; substance abuse; and mental and physical illness across the life span. Interplay between victims, offenders, and the treatment system. Identification of barriers to services and supports and exploration of approaches to assist families in overcoming these barriers.

HD FS 586. Developmental Assessment.

HD FS 575. Cross-cultural Perspectives about Families and Children.
(3-0) Cr. 3. Alt. S., offered 2014. Prereq: 6 credits in social sciences Review about cultural influences on the development of children, youth, and family life here in the United States and internationally. Using various strategies including DVDs, readings, and interviews, students will reflect upon their own culture and the child rearing practices, family roles, values, and traditions in different cultures. Discussion may also include the impact on human rights and social justice of particular practices. Meets International Perspectives Requirement.

(Cross-listed with GERON), (3-0) Cr. 3. S. Prereq: 9 credits in social sciences Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics also are examined through the use of current literature. Spring 2013: on-line via Distance Education; Spring 2014: on campus.

HD FS 579. Family Well-being across the Lifespan.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 9 credits in social sciences Review of current research to provide a theoretical and practical understanding of the economic, social, and psychological factors that influence interpersonal relationships and individual well-being within the institution of the family system. Economic and policy effects considered.

HD FS 583. Investing for the Family’s Future.
(Cross-listed with FFP), (3-0) Cr. 3. F. Prereq: HD FS 483 Evaluation of investment markets for the household. Analysis of how families choose where to put their savings. Emphasis is on using the family’s overall financial and economic goals to help inform investment choices. (on-line course offering via Distance Education).

(Cross-listed with GERON), (3-0) Cr. 3. S. Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings. (on-line course offering via Distance Education).
HD FS 585. Program Evaluation.  
(3-0) Cr. 3. Alt. S., offered 2015. Prereq: 6 credits in graduate level social sciences. Theoretical and practical issues related to design and implementation of program evaluation. Includes theory, design, implementation, analysis and report writing to assist programs to be successful in meeting its goals.

HD FS 588. Family Economics.  
(3-0) Cr. 3. Alt. F., offered 2013. Prereq: 6 credits in sociology or economics. Analysis of family income, wealth, and economic well-being. Emphasis on effects of family behavior and public policies on the adequacy and security of income across the family life cycle. Implications of resource allocation within the family for adult and child well-being.

HD FS 589. Financial Counseling.  
(Dual-listed with HD FS 489L). (3-0) Cr. 3. F. Prereq: Graduate classification. Personal, social/psychological and legal climates affecting family financial decisions. A life cycle approach to financial decision making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management.

HD FS 589L. Financial Counseling Laboratory.  
(Dual-listed with HD FS 489L). (0-2) Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Instructor permission. Practical experience in remedial, preventative, and productive approaches to both financial and housing counseling in one-on-one and/or group settings.

HD FS 590. Special Topics.  
Cr. arr. Repeatable. Prereq: Permission of instructor. Consult department office on procedure for filing a written plan of study.

Cr. arr. Repeatable. Prereq: Permission of instructor. Consult department office on procedure for filing a written plan of study.

HD FS 591. Internship.  
Cr. arr. Repeatable. F.S.SS. Prereq: 10 graduate credits. Supervised experience in an area of human development and family studies.

Cr. arr. Repeatable. F.S.SS. Prereq: 10 graduate credits. Supervised experience in an area of human development and family studies.

HD FS 593. Workshop.  
Cr. arr. Repeatable. F.S.SS. Prereq: Senior classification. (Dual-listed with 493.).

(Cross-listed with GERON). (3-0) Cr. 3. SS. An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest. (on-line course offering via Distance Education).

HD FS 599. Creative Component.  
Cr. arr. F.S.SS. Prereq: 9 graduate credits in HD FS. Nonthesis students creative component (e.g., a special report, capstone course, integrated field experience, annotated bibliography, research project, design, or other creative endeavor). A minimum of five credits of independent work is required on the programs of study (POS). Creative component format determined cooperation with the POS committee.

Courses for graduate students:

HD FS 603. Advanced Quantitative Methods.  
(3-0) Cr. 3. S. Prereq: HD FS 503, HD FS 505; STAT 402 or STAT 404. Methodological and analytical issues in research in human development and family studies. Advanced research design and measurement, selection of statistical techniques, and issues in the interpretation of findings.

HD FS 604. Advanced Qualitative Methods.  
(3-0) Cr. 3. S. Prereq: HD FS 504. Research methodologies including phenomenology, grounded theory, ethnography, and case studies. Methods of data collection and analysis procedures. Issues of ethics and interpretation of findings.

HD FS 605. Multi-level Modeling.  
(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. F., offered 2013. Prereq: HD FS 503 and HD FS 505 or STAT 404. Rationale for and interpretation of random coefficient models. Strategies for the analysis of multi-level and panel data including models for random intercepts, random slopes, and growth curves. Applications including HLM, SAS, PROCMIX, and MPLUS.

(3-0) Cr. 3. Alt. S., offered 2014. Prereq: HD FS 603 or STAT 404. Rationale for and interpretation of advanced structural equation modeling for the analysis of longitudinal data. Emphasis will be placed on developing a working familiarity with some of the common statistical procedures, coupled with their application through the use of statistical software potentially including AMOS, LISREL, SAS, and MPLUS.

HD FS 607. Mixed-Methods and Observational Assessments.  
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: HD FS 503, HD FS 505 and HD FS 504. Rationale for and interpretation mixed approach designs. Strategies for the design and analysis of quantitative and qualitative research questions as well as the inclusion of observational assessments of individual and familial behaviors as well as contextual assessments.

HD FS 608. Grant Writing for Research.  
(3-0) Cr. 3. Alt. F., offered 2012 SS. Prereq: HD FS 503, HD FS 505, and HD FS 504. Understand how to identify funding sources as well as the fundamental components of a federal research grant proposal such as the abstract or summary, background and significance, specific aims/goals and objectives, project design and methods, sustainability, assessment, broader impacts, dissemination, budget, budget justification, and cover letter. (Summer course offering is on-line via Distance Education).

HD FS 616. Seminar.  
Cr. arr. May be repeated. F.S.SS.

HD FS 631. Child Development.  
(3-0) Cr. 3. Alt. F., offered 2014. Prereq: HD FS 510. Young children’s cognitive, physical, communication, and social-emotional development, typical and atypical, will be examined. Development for children ages prenatal through age 6.

HD FS 632. Support and Interventions in Early Childhood.  

HD FS 633. Infant Mental Health.  
(3-0) Cr. 3. Alt. S., offered 2014. Prereq: HD FS 510. Examination of the individual, interpersonal, and familial factors that influence infant (birth through age 3) mental health. Analysis of the risk and protective factors that influence these systems and their potential effects on social-emotional development. Current issues relating to effective programs for improving parent-infant interactions and additional supports available to families.

(3-0) Cr. 3. Alt. S., offered 2014. Prereq: HD FS 510. Theory and research on biopsychosocial, cognitive, physical and sexual development from early adolescence to emerging adulthood. Contexts of development including families, peers, schools, neighborhoods, romantic relationships, economics and public policies are considered.

HD FS 635. Adult Development and Aging.  
(3-0) Cr. 3. Alt. F., offered 2013. Prereq: HD FS 510. Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed. (on-line course offering via Distance Education).

HD FS 690. Advanced Topics.  
Cr. arr. Repeatable. Prereq: Permission of instructor and enrollment in Ph.D. program.

Cr. arr. Repeatable. Prereq: Permission of instructor and enrollment in Ph.D. program.

HD FS 691. Internship.  
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor. Supervised practice and experience in the following specified areas: Offered on a satisfactory-fail basis only.
within each specialization option builds upon personal and scholarly learning by

The Kinesiology & Health major includes four specialization options. Coursework

observation. The Athletic Training Program utilizes a competitive admission process

training. The Athletic Training education program at Iowa State University, accredited

examination. Many states also have licensure requirements to practice athletic

training education program and successfully pass the Board of Certification (BOC)

and disease.

introduction to the field and fundamental principles of physical activity, fitness, health

Through discovery, learning and engagement we improve the lives of citizens of Iowa, the United States and the world.

The department has identified the following goals to support this mission:

1. We seek to improve the lives of citizens of Iowa, the United States, and the

2. We prepare scholars and professionals in the study of physical activity at the

3. We educate the public and the University community in the scientific aspects

Undergraduate Study

The Department of Kinesiology offers two Bachelor of Science degrees: Athletic

Training and Kinesiology & Health. The undergraduate curriculum major/option is

comprised of three components: general education, required departmental courses

and the component courses. The intent of the general education component is to

promote intellectual and personal growth and to prepare students for success in

the basic, advanced and major/option components. Required courses provide an

introduction to the field and fundamental principles of physical activity, fitness, health

and disease.

B.S. degree in Athletic Training

Certified Athletic Trainers are allied medical health professionals who specialize in

the prevention, assessment, treatment and rehabilitation of injuries to athletes and

physically active individuals who are engaged in physical and athletic activities. To

gain certification, candidates must graduate from a CAATE accredited athletic

training education program and successfully pass the Board of Certification (BOC)

examination. Many states also have licensure requirements to practice athletic

training. The Athletic Training education program at Iowa State University, accredited

since 2001, includes various athletic training clinical rotations including high school,

physical therapy clinics, surgical observation experiences, and emergency room

observation. The Athletic Training Program utilizes a competitive admission process

for undergraduate students.

B.S. degree in Kinesiology & Health

The Kinesiology & Health major includes four specialization options. Coursework

within each specialization option builds upon personal and scholarly learning by

enabling students to master content and skills specific to career applications. Options

comprise a focused area of study within Kinesiology. Options available are:

1. Community and Public Health
2. Exercise Science
3. Pre-Health Professions
4. Physical Education/Teacher Education

Academic options within the Kinesiology & Health major

Students in the Community and Public Health option are prepared for professional

employment at local, state or national health agencies, medical centers, and other

public organizations that seek to promote health in the population. The curriculum

prepares students to take the Certified Health Education Specialist certification

examination upon graduation.

Students in the Exercise Science option are prepared for professional roles as health

and fitness leaders or program managers. Employment opportunities include work in

corporate fitness programs, health clubs, cardiac rehabilitation programs or personal

training. Graduates are able to plan, implement and supervise exercise programs

which will improve fitness and health. Graduates also have a basic understanding of

economic and management issues related to business applications in the health and

fitness field.

Students in the Pre-Health Professions option utilize an interdisciplinary approach to

the study of human movement. In so doing, they become prepared for graduate study

in Kinesiology or advanced study leading to careers in medicine, physical therapy, or

other allied health programs.

Students in the Physical Education/Teacher Education option are prepared to teach

physical education in grades K-12 and to meet the State of Iowa learning outcomes

for teachers. Graduates can plan developmentally appropriate physical education,

and individualize instruction and assessment for diverse audiences. Enrollment in the

Physical Education/Teacher Education option is limited because of accreditation

requirements and the provision of more individualized field experiences.

Learning outcomes for the undergraduate degree

Despite the diversity of options, the learning outcomes comprise a common

framework for each student as they matriculate through Iowa State University.

The learning outcomes emphasized in academic coursework in the Department of

Kinesiology are:

Communication

Uses clear and effective written, oral, visual, and electronic (WOVE) communication

techniques to foster inquiry, collaboration, and engagement in physical activity and

health related settings.

Lifelong learning, assessment, and self-reflection

Analyzes and evaluates one’s own knowledge, abilities and actions relative to

professional standards, seeks opportunities to grow professionally, and utilizes

self-assessment and assessment of others to foster physical, cognitive, social, and

emotional well-being.

Content knowledge, discovery, and critical thinking

Understands fundamental concepts of physical activity and health, conducts scientific

inquiry, and applies critical thinking to solve problems from personal, scholarly, and

professional perspectives.

Ethics, diversity, and social justice

Demonstrates leadership and social responsibility to improve quality of life for

others and ensures equitable access for diverse groups by creating appropriate

environments to initiate and maintain a physically active, healthy lifestyle.

Other Program Offerings:

Endorsement to coach interscholastic athletics

The State Department of Education has provided for the endorsement of licensed

teachers for the coaching of athletic teams in schools. The endorsement does not

lead to licensure to teach physical education. For requirements of the program,

leading to the coaching endorsement, see Teacher Education, Requirements for

Areas of Specialization.

Endorsement to teach health education

Those interested in teaching health education in the public schools may get a primary

endorsement or an additional endorsement. The State Department of Education has

approved the Health Teaching Licensure for grades 5-12.

Basic Activity Instruction Program

The department offers a wide selection of beginning, intermediate, and advanced

courses in the areas of aquatics, dance, and sports. These courses are designed to

serve general education purposes for all students.
B.S./M.S. degree in Diet and Exercise

A combined Bachelor of Science and Master of Science (B.S./M.S.) degree in Diet and Exercise is available. The program is jointly administered by the Department of Food Science and Human Nutrition (FS HN), within the College of Agriculture and Life Sciences and the College of Human Sciences, and the Department of Kinesiology, within the College of Human Sciences. Students interested in this program must enroll as freshmen in the Pre-Diet and Exercise program. In the fall of the junior year, students will apply for admission to the B.S./M.S. program. Students not accepted into the program will continue toward completion of a B.S. degree in Dietetics or Kinesiology & Health. Coursework has been designed to facilitate a 4-year graduation date for those students not accepted into the program and electing to complete a single undergraduate degree. Students accepted into the program will progress toward completion of B.S./M.S. degrees in Diet and Exercise.

Dance

Coursework in dance provides opportunities for students to develop an understanding and appreciation of dance as part of a liberal education. Those interested in teaching dance and Physical Education in the public schools may major in Kinesiology and Health (Teacher Licensure option) and minor in Dance.

An interdisciplinary Performing Arts major with a Dance emphasis is available through the College of Liberal Arts and Sciences. For further information see Index, Theatre and Performing Arts.

Graduate Study

The Department of Kinesiology graduate seeks to integrate discovery and learning by preparing graduate students to understand and create basic and applied knowledge in the study of physical activity, exercise and sport. The normal prerequisite to major graduate work is the satisfactory completion of a curriculum essentially equivalent to that required of undergraduate students in kinesiology at this university. However, it is possible for students to qualify for graduate study if undergraduate preparation has been in a related area.

Students in the M.S. and Ph.D. degrees are required to complete original research and write a thesis or dissertation. There is no-thesis degree option for M.S. students requiring more coursework and an internship experience or other creative component. Specific information about the requirements for these degree options is available from the department office or from the department web site (www.kin.hs.iastate.edu/graduate).

The department participates in the interdepartmental minor in gerontology (see Index).

Curriculum in Athletic Training

The athletic training major (http://catalog.iastate.edu/collegeofhumansciences/athletictraining#text) prepares students for a career as an athletic trainer in high school, college or professional settings or for work in other settings (such as sports medicine clinics, the military, industry, and fitness centers). See program details (http://catalog.iastate.edu/collegeofhumansciences/athletictraining#text) for course requirements. Admission procedures and technical standards can be found at www.cycloneathletictraining.com (http://www.cycloneathletictraining.com).

Curriculum in Kinesiology and Health

The curriculum in Kinesiology and Health is designed for students preparing to enter professional areas related to the health, exercise or sport science fields. Students majoring in Kinesiology & Health may select one of four options:

1. Community and Public Health
2. Exercise Science
3. Pre-Health Professions
4. Physical Education Teacher Education

Minors in dance, athletic coaching, exercise science, health promotion, kinesiology, and sport and recreation are available; see requirements under Kinesiology, Courses and Programs.

A major in Performing Arts with a dance emphasis is available; see requirements under Curriculum in Performing Arts in Theatre.

Communication Proficiency

In order to meet graduation requirements, all students must earn an average of C (2.0) or better in ENGL 150 and ENGL 250, with neither grade being lower than a C-. Students not meeting this condition must earn a C or better in an advanced writing course.

ENGL 220 Descriptive English Grammar 3
ENGL 302 Business Communication 3
ENGL 309 Report and Proposal Writing 3
ENGL 314 Technical Communication 3

U.S. Diversity and International Perspectives

In order to meet graduation requirements, all students must complete 3 cr. of course work in U.S. Diversity and 3 cr. in International Perspectives. See university approved list.

General Education: Minimum of 38.5 credits required

Physical and Life Sciences: 8 cr. min required
BIOL 255 Fundamentals of Human Anatomy 3
BIOL 255L Fundamentals of Human Anatomy Laboratory 1
BIOL 256 Fundamentals of Human Physiology 3
BIOL 256L Fundamentals of Human Physiology Laboratory 1

Additional option-specific requirements are:

Courses for Kinesiology and Health Major

Option 1. Community and Public Health

This option prepares students for careers in health promotion and disease prevention. Students are prepared for work in state and local health agencies, community and government programs, hospitals, industry, and not-for-profit organizations. Graduates are eligible to take the Certified Health Education Specialist (CHES) exam.

Electives: 11.5-18.5 credits

* A grade of C- or better is required.

Option 2. Exercise Science

This option prepares students for careers in exercise/fitness promotion. Students are prepared as health/fitness specialists, personal trainers, strength and conditioning specialists, and health coaches. Students find work in fitness centers, worksite health programs, medical facilities, cardiac rehabilitation centers, and other agencies that provide fitness services. Students are eligible to sit for certification exams offered by the American College of Sports Medicine and the National Strength & Conditioning Association.

KIN 458 Principles of Fitness Assessment and Exercise Prescription
KIN 462 Medical Aspects of Exercise
KIN 467 Exercise and Health: Behavior Change
KIN 472 Neural Basis of Human Movement
KIN 480 Functional Anatomy
KIN 481 Biomechanics Lab
KIN 482 Exercise Physiology Lab
KIN 483 Exercise Psychology Lab
KIN 484 Assessment and Control of Locomotion
KIN 495 Seminar in Exercise and Sport Science

Specialization Requirements: Sciences as required by professional schools. 26 credits

Electives: 17.5-18.5 credits
* A grade of C- or better is required.

Minors

Athletic Coaching
The minor requires a minimum of 17 credits and may be earned by completing the following:
A TR 220 Basic Athletic Training 2
KIN 315 Coaching Theory and Administrative Issues 3
KIN 365 Sport Psychology 3
BIOL 155 Human Biology 3
or BIOL 255 Fundamentals of Human Anatomy
PSYCH 230 Developmental Psychology 3
3 cr. from the following 3
KIN 355 Biomechanics
KIN 358 Physiology of Exercise

Dance
The minor requires a minimum of 21 credits and may be earned by completing the following:
DANCE 222 Modern Dance Composition 2
DANCE 222 Modern Dance I 1
DANCE 270 Dance Appreciation 3
DANCE 360 Sound and Movement 3
DANCE 360 History and Philosophy of Dance 3
DANCE 384 Teaching Children’s Dance 2
DANCE 385 Methods of Teaching Dance 2
DANCE 386 Teaching Dance Technique and Composition 2
3 additional credits selected from dance courses numbered 200 or above.*
*Participation in Orchesis I or II is recommended.

Exercise Science
The minor requires a minimum of 17 credits and may be earned by completing the following:
KIN 258 Physical Fitness and Conditioning 2
KIN 358 Physiology of Exercise 3
KIN 366 Exercise Psychology 3
3-6 cr. from the following 3-6
A TR 220 Basic Athletic Training 2
KIN 259 Leadership Techniques for Fitness Programs
KIN 266 Advanced Strength Training and Conditioning
KIN 345 Management of Health-Fitness Programs and Facilities
KIN 360 Sociology of Sport and Exercise
3-6 cr. from the following 3-6
KIN 458 Principles of Fitness Assessment and Exercise Prescription
KIN 462 Medical Aspects of Exercise
KIN 467 Exercise and Health: Behavior Change

Total Credits 16-22

Health Promotion
The minor requires a minimum of 18 credits and may be earned by completing the following:
H S 110 Personal and Consumer Health 3
H S 350 Human Diseases 3
H S 380 Worksite Health Promotion 3
3-6 cr. from the following 3
H S 215 Drug Education
H S 305 Instructor’s First Aid and Cardio-pulmonary Resuscitation
H S 310 Community and Public Health
3-6 cr. from the following 3
H S 430 Community Health Program Development
KIN 467 Exercise and Health: Behavior Change

Kinesiology
The minor requires a minimum of 15 credits and may be earned by completing the following: (For non-majors only.)
KIN 355 Biomechanics 3
KIN 358 Physiology of Exercise 3
KIN 360 Sociology of Sport and Exercise 3
KIN 372 Motor Control and Learning Across the Lifespan 3
KIN 385 Sport Psychology 3
or KIN 366 Exercise Psychology 3

Sport and Recreation
The minor requires a minimum of 18 credits and may be earned by completing the following:
KIN 355 Sport Psychology 3
KIN 360 Sociology of Sport and Exercise 3
KIN 399 Recreational Sport Management 3
MGMT 370 Management of Organizations 3
3 cr. from the following 3

ADVRT 230 Advertising Principles 3
HRI 260 Global Tourism Management 3
JL MC 220 Principles of Public Relations 3
JL MC 305 Publicity Methods 3
MGMT 310 Entrepreneurship and Innovation 3
MGMT 313 Feasibility Analysis and Business Planning 3
MGMT 371 Organizational Behavior 3
MGMT 471 Personnel and Human Resource Management 3

Athletic Training Courses

Courses primarily for undergraduates:
(0-2) Cr. 1. F.
Athletic training clinical experiences designed to review human anatomical structures including origin, insertion, action, innervations of muscles. Students will gain experience with palpation of these structures to help identify location of anatomical landmarks. Students will also gain experience identifying bones, ligaments, and tendons. Open to athletic training students only.

A TR 220. Basic Athletic Training.
(1-2) Cr. 2. Prereq: BIOL 155 or BIOL 255 and BIOL 256
Introduction to methods of prevention and immediate care of athletic injuries. Basic information concerning health supervision of athletes, and some basic wrapping and strapping techniques for common injuries. Non A TR majors only.

A TR 221. Pre-Athletic Training Clinical Practicum.
(0-3) Cr. 1. S. Prereq: Credit or enrollment in KIN 222 and permission of athletic training program director
Athletic training clinical observation experiences to accompany 222. Utilize knowledge to evaluate, analyze and demonstrate appropriate taping, wrapping and basic skill techniques. Open to students interested in the athletic training option. Offered on a satisfactory-fail basis only.

A TR 222. Basic Athletic Training for Athletic Trainers.
(2-2) Cr. 3. S. Prereq: BIOL 255, BIOL 255L
Provides pre-athletic training students with the knowledge of the profession of a certified athletic trainer, factors associated with injury prevention, treatment, emergency care of athletic injuries, protective equipment, basic organization, administrative, and legal concepts in the athletic training setting. To be taken concurrently with 221.

(0-3) Cr. 1. F. Prereq: Permission of Athletic Training Program Director
Athletic training clinical experiences for athletic training students during pre-season intercollegiate football. Clinical experiences include: Professional Rescuer CPR, AED certification, emergency splinting and spineboarding, medical record keeping and HIPPA regulations, environmental conditions, prevention of injury screening strategies, athletic training room and education program policies and procedures, review of athletic taping techniques, acute injury management, mouthpiece formation, and anatomy review. Offered on a satisfactory-fail basis only.

A TR 224. Evaluation of Athletic Injuries I.
(2-3) Cr. 3. F. Prereq: Permission of athletic training program director
Sport injury assessment procedures and evaluation techniques for lower body injuries. Includes an overview of mechanisms of injury, general musculoskeletal disorders, and spine or neurological dysfunction. Designed for students in the athletic training major.

(0-3) Cr. 1. F. Prereq: Permission of athletic training program director
Athletic training clinical experience to accompany 224. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 226. Evaluation of Athletic Injuries II.
(2-3) Cr. 3. S. Prereq: Permission of athletic training program director
Sport injury assessment procedures and evaluation techniques for lower body injuries. Includes an overview of common illnesses of athletes and sport specific injuries. Designed for students in the athletic training major.

A TR 227. Athletic Injuries II Clinical Practicum.
(0-3) Cr. 1. S. Prereq: Permission of athletic training program director
Athletic training clinical experience to accompany 226. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 240. Introduction to Taping, Equipment, and Bracing Techniques.
(0-3) Cr. 1. S. Prereq: Permission of athletic training program director
Basic information and laboratory instruction regarding basic taping techniques, athletic equipment fitting procedures, and the use and proper fitting of prophylactic braces. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 323. Therapeutic Modalities for Athletic Trainers.
(2-2) Cr. 3. F. Prereq: Permission of athletic training program director
Theory and technique of therapeutic modalities used in the management of injuries.

A TR 324. Therapeutic Modalities Clinical Practicum.
(0-3) Cr. 1. F. Prereq: Permission of athletic training program director
Athletic training clinical experience to accompany 323. Open to students in athletic training major. Offered on a satisfactory-fail basis only.

A TR 326. Rehabilitation of Athletic Injuries.
(2-3) Cr. 3. S. Prereq: Permission of athletic training program director
Theory and practical application of rehabilitation principles used in the management of athletic injuries.

A TR 327. Rehabilitation of Athletic Injuries Clinical Practicum.
(0-3) Cr. 1. S. Prereq: Permission of athletic training program director
Athletic training clinical experience to accompany 326. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

(3-0) Cr. 3. F. Prereq: Permission of athletic training program director, senior classification
Current administrative, professional, and legal issues pertaining to athletic training. Job search techniques and strategies including preparation of materials for athletic training students.

A TR 450. Medical Concerns for the Athlete.
(3-0) Cr. 3. F. Prereq: Permission of athletic training program director
Current medical issues and concerns, including pathology of illness and injury, dermatological conditions, exposure to allied health care professionals, and pharmacological indications in relation to the profession of athletic training and in patient/athlete care.

A TR 488. Evidence Based Medicine Discussion in Athletic Training.
Cr. 2. S. Prereq: Permission of athletic training program director
Clinical experiences in application of athletic training techniques under supervision of certified athletic trainers. Participation in monthly research journal discussion. Offered on a satisfactory-fail basis only.

Cr. 1. F.S. Prereq: Senior classification, permission of athletic training program director
Preparation for professional endorsement and certification by review of required competencies and clinical proficiencies. Required for endorsement or approval to sit for Board of Certification Exam. Offered on a satisfactory-fail basis only.
Dance Courses

Courses primarily for undergraduates:

DANCE 120. Modern Dance I.
(0-3) Cr. 1. F.S.
Introduction and practice of basic dance concepts, including preparatory techniques and guided creativity problems. No previous modern dance experience required. Offered on a satisfactory-fail basis only.

DANCE 130. Ballet I.
(0-3) Cr. 1. F.S.
Introduction to the basic skills, vocabulary, and tradition of ballet with concentration on control and proper alignment. No previous ballet experience required. Offered on a satisfactory-fail basis only.

DANCE 140. Jazz I.
(0-3) Cr. 1. F.S.
Introduction to the modern jazz style with concentration on isolation and syncopation. No previous jazz experience required. Offered on a satisfactory-fail basis only.

DANCE 150. Tap Dance I.
(0-3) Cr. 1. F.
Instruction and practice in basic tap technique and terminology. No previous tap experience required. Offered on a satisfactory-fail basis only.

DANCE 160. Ballroom Dance I.
(0-2) Cr. 1. F.S.
Instruction and practice in foxtrot, waltz, swing, cha cha, rhumba, tango, and selected contemporary dances. Offered on a satisfactory-fail basis only.

DANCE 199. Dance Continuum.
Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S. Prereq: Permission of instructor Advance registration required. Continued instruction and practice in either modern dance, recreational dance, ballet, jazz and/or compositional skills. Offered on a satisfactory-fail basis only.

DANCE 211. Fundamentals and Methods of Social and World Dance.
(1-3) Cr. 2. S.
Skill enhancement, teaching, progressions with emphasis on world and social dance. Designed for kinesiology and health majors, open to others.

DANCE 220. Modern Dance Composition.
(1-3) Cr. 2. F. Prereq: DANCE 120 or previous modern dance experience Theory and practice of the creative skills involved in solo and small group composition.

DANCE 222. Modern Dance II.
(0-3) Cr. 1. F. Prereq: DANCE 120 or previous modern dance experience Dance techniques emphasizing strength, balance, endurance, rhythmic activity and extended combinations.

DANCE 223. Modern Dance III.
(0-3) Cr. 1. S. Prereq: DANCE 222 Continued experience in dance techniques and extended combinations. Emphasis on maturation of skill and artistry. Exposure to a variety of modern dance technical styles.

DANCE 224. Concert and Theatre Dance.
(Cross-listed with THTRE). (0-3) Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S. Prereq: By audition only Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Offered on a satisfactory-fail basis only.

DANCE 232. Ballet II.
(0-3) Cr. 1. S. Prereq: Previous ballet experience Technical skills in the classical movement vocabulary. Emphasis on alignment, techniques, sequence development, and performing quality.

DANCE 233. Ballet III.
(0-3) Cr. 1. F. Prereq: DANCE 232 Concentration on technical proficiency at the intermediate level. Pointe work and partnering opportunities available.

DANCE 242. Jazz II.
(0-3) Cr. 1. S. Prereq: Previous jazz dance experience Dance concepts within the jazz idiom. Instruction in extended movement sequences and artistic interpretation.

DANCE 270. Dance Appreciation.
(3-0) Cr. 3. F.S.S.S.
Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required.

DANCE 320. Sound and Movement.
(2-2) Cr. 3. S. Prereq: DANCE 220 Intermediate composition based on the relationship of movement to improvised sounds, rhythmic scores, and the musical works of composers from various periods.

DANCE 360. History and Philosophy of Dance.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: DANCE 270 Study of the history of dance from early to modern times with emphasis on the theories and philosophies of contemporary modern dance, dancers, and dance educators.

DANCE 370. Advanced Studies in Dance.
Cr. 1-3. Repeatable, maximum of 8 credits. F.S. Prereq: 2 credits in dance Advance registration required. Designed to meet special interests and talents of students to include both group and independent study in various aspects of dance as a performing art including production, choreography, and performance.

DANCE 384. Teaching Children's Dance.
(1-3) Cr. 2. S.
Content, experiences, and methods of a comprehensive dance program at the elementary school level. Theories and practice in guiding elementary school children in expressive movement experiences.

DANCE 385. Methods of Teaching Dance.
(1-3) Cr. 2. F.
Methods and techniques of teaching social and world dance forms. Introduction to teaching educational modern dance.

DANCE 386. Teaching Dance Technique and Composition.
(1-3) Cr. 2. Prereq: DANCE 320 Teaching of dance as an expressive art form with emphasis on technique, rhythm, and the creative teaching process.

DANCE 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits in dance and permission of coordinator Independent study of problems or areas of interest in dance.

DANCE 490A. Independent Study: Dance.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S. Prereq: 6 credits in dance and permission of coordinator Independent study of problems or areas of interest in dance.

DANCE 490H. Independent Study in Dance - Honors.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S. Prereq: 6 credits in dance and permission of coordinator Independent study of problems or areas of interest in dance for those admitted to the honors program.

Health Studies Courses

Courses primarily for undergraduates:

H S 105. First Aid and Emergency Care.
(1-2) Cr. 2. F.S.
Discussion and application of the basic techniques of administering first aid and cardiopulmonary resuscitation. ARC certification available.

H S 110. Personal and Consumer Health.
(3-0) Cr. 3. F.S.
Physical, mental, and social aspects of health as a basis for understanding and preventing health problems. False and misleading advertising and effects of cultists and faddists on consumer health. Study of legislation and agencies concerned with consumer protection and health insurance.

H S 215. Drug Education.
(3-0) Cr. 3. F.S. Prereq: PSYCH 101 or PSYCH 230 Use and abuse of mood modifying substances in contemporary society. Includes study of tobacco, alcohol, and other drugs.

(3-0) Cr. 3. F.S. Prereq: HD FS 102 or HD FS 226 An overview of school health services, healthful school living, and health instruction for teachers at the elementary level. Credit for both H S 275 and 375 may not be applied toward graduation.
Kinesiology Courses

Courses primarily for undergraduates:

KIN 101. Swimming I. 
(0-3) Cr. 1. F.S.SS. 
Basic course for nonswimmers. Emphasis on two fundamental strokes and personal water safety skills. Offered on a satisfactory-fail basis only.

KIN 102. Swimming II. 
(0-3) Cr. 1. F.S. Prereq: KIN 101 or equivalent skill 
Intermediate course. Emphasis on learning and improving five basic strokes and personal water safety skills. Offered on a satisfactory-fail basis only.

KIN 108. Aquatic Fitness. 
(0-3) Cr. 1. F.S. Prereq: KIN 102 or equivalent skill 
Water related exercises, activities, and swimming workouts to improve physical fitness. Offered on a satisfactory-fail basis only.

KIN 114. Lifeguard Training. 
(0-3) Cr. 1. F.S.SS. 
Introduction to fundamental life-saving skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 126. Pocket Billiards. 
(0-2) Cr. 1. F.S.SS. 
Introduction to bowling skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 135. Golf. 
(0-2) Cr. 1. F.S.SS. 
Introduction to fundamental golf skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 144. Racquetball. 
(0-2) Cr. 1. F.S.SS. 
Introduction to fundamental racquetball skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 153. Ice Skating. 
(0-2) Cr. 1. F.S.SS. 
Introduction to fundamental ice skating skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 158. Tennis. 
(0-2) Cr. 1. F.S.SS. 
Introduction to basic skills (forehand, backhand, serve) and basic knowledge of game play. Offered on a satisfactory-fail basis only.

KIN 163. Physical Fitness. 
(0-3) Cr. 1. F.S.SS. 
Evaluation of fitness status. Exercises, activities, and programs to improve physical fitness. Improve physical fitness and weight control. Offered on a satisfactory-fail basis only. Credit for only KIN 163 or 258 may be applied toward graduation.

KIN 164. Walking for Fitness. 
(0-3) Cr. 1. F.S.SS. 
Fitness walking as an activity to improve health and fitness; values of this type of activity as a lifetime endeavor with knowledge and usage of pedometers. Offered on a satisfactory-fail basis only.

KIN 166. Weight Training. 
(0-3) Cr. 1. F.S.SS. 
Introduction to fundamental skills of weight training and strategic game play. Offered on a satisfactory-fail basis only.
KIN 170. Tae Kwon Do/Karate I. 
(0-2) Cr. 1. F.S.
Teaches fundamentals of self-defense, focusing on hand and foot striking and blocking techniques. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self-control and indomitable spirit. It will be emphasized that each student learns a way of life that promotes personal development, physical health and citizenship. Offered on a satisfactory-fail basis only.

KIN 171. Tae Kwon Do/Karate II. 
(0-2) Cr. 1. F.S.
Teaches advanced application of self-defense focusing on hand and foot striking and blocking techniques. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self-control and indomitable spirit. It will be emphasized that each student learns a way of life that promotes personal development, physical health and citizenship. Offered on a satisfactory-fail basis only.

(0-2) Cr. 1. F.S.
Teaches fundamentals of self-defense focusing on joint locks, pressure points and throwing techniques to escape from an attacker. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self-control and indomitable spirit. It will be emphasized that each student learns a way of life that promotes personal development, physical health and citizenship. Offered on a satisfactory-fail basis only.

KIN 182. Volleyball. 
(0-2) Cr. 1. F.S.SS.
Introduction to fundamental volleyball skills and strategic game play. Offered on a satisfactory-fail basis only.

KIN 185. Soccer. 
(0-2) Cr. 1. F.S.SS.
Introduction to fundamental soccer skills and strategic game play. Offered on a satisfactory-fail basis only.

(0-3) Cr. 1. S. Prereq: KIN 101 or equivalent. Eligibility for admission to KIN teacher education program
Basic water safety and emergency water safety. Skill enhancement, understanding, and progressions.

KIN 231. Fundamentals of Tumbling and Gymnastics. 
(0-3) Cr. 1. F. Prereq: Eligibility for admission to KIN teacher education program

KIN 232. Fundamentals of Indoor Team Sports. 
(0-3) Cr. 1. S. Prereq: Eligibility for admission to KIN teacher education program
Fundamentals of indoor team sports, for example basketball, volleyball, team handball. Skill enhancement, analysis, understanding practice and the development of progressions.

(0-3) Cr. 1. F. Prereq: Eligibility for admission to KIN teacher education program
Fundamentals of outdoor team sports, for example flag football, soccer, softball. Skill enhancement, analysis, understanding practice and the development of progressions.

(0-3) Cr. 1. S. Prereq: Eligibility for admission to KIN teacher education program
Fundamentals of racquet sports, for example tennis, badminton, racquetball. Skill enhancement, analysis, understanding practice and the development of progressions.

(0-3) Cr. 1. F. Prereq: Eligibility for admission to KIN teacher education program
Fundamentals of individual sports, for example track and field, golf, archery and bowling. Skill enhancement, analysis, understanding practice and the development of progressions.

KIN 238. Fundamentals of Outdoor and Adventure Activities. 
(0-3) Cr. 1. F. Prereq: Eligibility for admission to KIN teacher education program
Techniques of individual and group facilitation for initiatives involving outdoor adventure activity. Topics include ropes/challenge course events, activity presentation, and sequencing, safety techniques, preparation principles and new games philosophy. Participation is required in one weekend of fieldwork.

KIN 252. Disciplines and Professions in Kinesiology and Health. 
(1-0) Cr. 1. F.S.
Overview of the various disciplines and professions that comprise the field of Kinesiology (the study of human movement) and help students determine the career option that best fits their interests.

KIN 253. Orientation in Kinesiology and Health. 
(1-0) Cr. 1. F.S. Prereq: Concurrent enrollment or credit in KIN 252
Overview of ISU policies and procedures, academic advising operations, degree requirements, program of study planning, and campus resources. Kinesiology and Health majors only. Offered on a satisfactory-fail basis only.

KIN 254. Learning Communities in Kinesiology/Health. 
(0.5-0) Cr. 0.5. F.S. Prereq: Concurrent enrollment or credit in KIN 253
Semester long course for new students in the Kinesiology Learning Community to be taken concurrently with the general orientation class for Kinesiology majors. Students will take field trips and work with faculty, staff and mentors to explore careers in kinesiology and complete assignments related to identification & development of their skills and interests. Kinesiology and health majors only. Offered on a satisfactory-fail basis only.

KIN 258. Physical Fitness and Conditioning. 
(1-3) Cr. 2. F.S. Prereq: Kinesiology and health majors only
Development of personal fitness using a variety of conditioning and exercise techniques such as aerobics, weight training, and aquatic fitness. Introduction to acute and chronic responses to exercise, and the role of exercise in health promotion and weight management. Credit for only one of the following courses may be applied toward graduation: KIN 163, 258.

KIN 259. Leadership Techniques for Fitness Programs. 
(1-3) Cr. 2. F.S. Prereq: KIN 258
Development of exercise leadership skills for a variety of activities. Includes planning, promotion, and teaching techniques for developing fitness in others using a variety of exercise modalities including aerobics, weight training, and aquatic fitness. Kinesiology and health majors only.

KIN 266. Advanced Strength Training and Conditioning. 
(1-2) Cr. 2. F.S. Prereq: KIN 258
This course is designed to enhance the student's current level of knowledge and expertise to an advanced level in the area of strength training and conditioning. The course will prepare students interested in taking the National Strength and Conditioning Association Certified and Conditioning Specialist's exam. The course will focus on the assessment and implementation of training programs with strong emphasis on the areas of resistance training, metabolic training, flexibility, reaction time, speed, and agility. Kinesiology and health majors only and permission of instructor needed.

KIN 280. Directed Field Experience in Elementary Physical Education. 
(0-3) Cr. 1. F.S.
Observing, planning, and facilitating movement experiences of children in an elementary school setting. Offered on a satisfactory-fail basis only.

KIN 281. Directed Field Experience in Physical Education. 
(0-3) Cr. 1. F. Prereq: KIN 253
Observing, planning, and facilitating movement experiences of students in a public school setting. Offered on a satisfactory-fail basis only.

KIN 284. Elementary and Pre-school Movement Education. 
(2-3) Cr. 3. F.S.SS. Prereq: 3 credits in human development and family studies
Approaches to teaching movement skills to pre-school and elementary school age children. Emphasis on planning and conducting developmentally appropriate movement experiences for preschool and elementary aged children based upon motor development research. Practical experience provided. Credit in only one of the following courses may be applied toward graduation: KIN 284, 312.

KIN 285. Pre-Internship in Kinesiology. 
Cr. 1-2. F.S.SS. Prereq: Kinesiology and Health major and permission of internship coordinator
Pre-internship experience with a fitness organization. Offered on a satisfactory-fail basis only.

KIN 312. Movement Education in Elementary School Physical Education. 
(2-3) Cr. 3. F.S. Prereq: Concurrent enrollment in KIN 280
Planning for management and instruction of developmentally appropriate physical education for children pre-school through elementary grade 6. Laboratory experience required. Credit for only one in the following courses can be applied toward graduation: KIN 284, 312.
KIN 313. Secondary Physical Education Methods. (2-3) Cr. 3. S. Prereq: admission to University Teacher Education Program. Current theory, practice and research on teaching focusing on management, instructional, and learning styles of students in secondary schools.

KIN 315. Coaching Theory and Administrative Issues. (3-0) Cr. 3. F.S.S.S. Study in the theory, ethics, strategy, and mechanics of coaching various interscholastic and/or intercollegiate sports. Emphasis on formulating a philosophy, identifying goals and psychological aspects, teaching skills, and developing strategies.

KIN 345. Management of Health-Fitness Programs and Facilities. (3-0) Cr. 3. F.S. Application of management concepts to the fitness industry, e.g., understanding customers, marketing, program management, financial management, legal issues, and evaluation and planning.

KIN 355. Biomechanics. (3-0) Cr. 3. F.S.S.S. Prereq: PHYS 111 or PHYS 115. Mechanical basis of human performance; application of mechanical principles to exercise, sport and other physical activities. Nonmajor graduate credit.

KIN 358. Physiology of Exercise. (3-0) Cr. 3. F.S. Prereq: BIOL 255, BIOL 255L, BIOL 256 and BIOL 256L. Physiological basis of human performance; effects of physical activity on body functions. Nonmajor graduate credit.

KIN 360. Sociology of Sport and Exercise. (3-0) Cr. 3. F. Prereq: SOC 134 and one of STAT 101, STAT 104 or STAT 226/STAT 326, or KIN 471. Sport and exercise as social systems and as institutions related to other institutions such as the polity, the economy, mass media, and education. Nonmajor graduate credit.

KIN 365. Sport Psychology. (3-0) Cr. 3. F.S. Prereq: PSYCH 101 or PSYCH 230. Psychological factors that influence performance in sport settings. The influence of personality, anxiety, motivation, social factors, and psychological skills training. Nonmajor graduate credit.

KIN 372. Motor Control and Learning Across the Lifespan. (3-0) Cr. 3. F. S.S.S. Prereq: PSYCH 101 or PSYCH 230, BIOL 255, BIOL 256. Introduction to major concepts of neuromotor control, behavioral motor control and motor learning in the child, adult and older adult, with emphasis on the adult system. Nonmajor graduate credit.

KIN 385. Strategies for Professional School and Field Experience Opportunities. (Cross-listed with H S). Cr. R. F.S. Prereq: Junior classification; to be taken minimum of two semesters prior to graduation or field experience placement. Search techniques and preparation of relevant material for work and/or professional school admission. Information specifically related to health care and kinesiology fields. Field experience process and procedures will be reviewed.

KIN 395. Adapted Physical Education. (Dual-listed with KIN 595). (2-3) Cr. 3. F. Prereq: KIN 312. Specific disabling conditions in terms of etiology, characteristics, needs, and potential for movement experiences. Techniques of assessment, prescription, adaptation of activities, methods, and program planning. Laboratory experience required. KIN 595 may not be taken by students who have previously earned credit in KIN 395.

KIN 399. Recreational Sport Management. (3-0) Cr. 3. F. Prereq: SOC 134. The role of sport in developing fitness, recreational opportunities, and tourism, with special emphasis on issues related to youth sport, volunteerism, and the marketing of sport events and facilities.

KIN 418. Supervised Teaching in Physical Education in the Elementary School. Cr. 8. F.S. Prereq: KIN 280, KIN 312, KIN 355, KIN 358, KIN 395, KIN 471, KIN 475. Students must be fully admitted to Teacher Education and must apply for approval to enroll at the beginning of the semester prior to registering. Supervised teaching in the elementary schools.

KIN 445. Legal Aspects of Sport. (3-0) Cr. 3. S. Students will understand legal concepts and terminology relevant to sport/activity, identify strategies for limiting liability in sport/fitness programs, and identify solutions for elimination of discriminatory practices in sport and physical activity.

KIN 455. Research Topics in Biomechanics. (3-0) Cr. 3. Prereq: KIN 355 or permission of instructor. Examination of biomechanics and kinesiology research literature to evaluate the application of mechanical principles and analyses to human movement in exercise, sport, physical activity, and activities of daily living and to assess research outcomes and their implications for motor performance, movement energetic, musculoskeletal loading, and injury.

KIN 458. Principles of Fitness Assessment and Exercise Prescription. (3-2) Cr. 4. F.S. Prereq: KIN 358. Physiological principles of physical fitness; design and administration of fitness programs; testing, evaluation, and prescription; cardiac risk factor modification.

KIN 459. Internship in Exercise Leadership. (0-3) Cr. 1. Prereq: C- or better in KIN 259, CPR certification, concurrent enrollment in KIN 458. Observation and practice of exercise leadership techniques in an on-campus adult fitness program.

KIN 462. Medical Aspects of Exercise. (3-0) Cr. 3. F.S. Prereq: KIN 358. The role of exercise in preventive medicine. Impact of exercise on various diseases, and the effect of various medical conditions on the ability to participate in vigorous exercise and competitive sports. Principles of exercise testing and prescription for individuals with these conditions. Environmental and nutritional aspects of exercise. Nonmajor graduate credit.

KIN 467. Exercise and Health: Behavior Change. (Dual-listed with KIN 567). (3-0) Cr. 3. S. Prereq: Introductory course with emphasis on exercise psychology (i.e., KIN 366 or equivalent). Advanced analysis of theoretical health behavior models and their application to physical activity behavior. Includes practical techniques, tools and interventions (e.g., counseling skills, motivational interviewing) to enhance exercise prescription and motivation, and considerations for working with special populations.

KIN 471. Measurement in Physical Education. (Dual-listed with KIN 571). (3-0) Cr. 3. S. Study of grading, assessment and evaluation in physical education with a focus on measuring cognitive and psycho-motor achievement.

KIN 472. Neural Basis of Human Movement. (Dual-listed with KIN 572). (3-0) Cr. 3. S. Prereq: KIN 372 or PSYCH 310. Addresses the role of the central nervous system in the control of voluntary human movement, with the focus on the cerebral cortex, basal ganglia and cerebellum. Content organized around specific nervous system damage (such as stroke, apraxia, spasticity, or spinal cord damage) and functional movements (such as reaching and grasping, balance and gait). Converging evidence from human movement disorders, brain imaging, animal lesion and single cell studies provide the primary basis for the content. Nonmajor graduate credit.

KIN 475. Physical Education Curriculum Design and Program Organization. (Dual-listed with KIN 575). (3-0) Cr. 3. F. Prereq: Admission to University Teacher Education Program. Current theory, practices and principles applied to curriculum development for programs in physical education, K-12. Organizing for teaching in a variety of school settings.

KIN 480. Functional Anatomy. (3-0) Cr. 3. F.S. Prereq: KIN 355; BIOL 155 or BIOL 255 and BIOL 256. The structure and function of human muscular, skeletal and nervous systems. The relationship of these systems to efficient and safe human motion. Nonmajor graduate credit.

KIN 482. Exercise Physiology Lab.
(0-2) Cr. 1. Prereq: KIN 358
Learning lab techniques in Exercise Physiology and engaging in the experimental process.

KIN 483. Exercise Psychology Lab.
(0-2) Cr. 1. Prereq: KIN 366
Learning lab techniques in Exercise Psychology and engaging in the experimental process.

KIN 484. Assessment and Control of Locomotion.
(0-2) Cr. 1. Prereq: KIN 372
Learning lab techniques in Motor Control and engaging in the experimental process.

KIN 485. Internship in Exercise Science.
Cr. 1-16. Prereq: Senior classification and advance registration
Observation and practice in fitness agencies. Offered on a satisfactory-fail basis only.

KIN 485A. Internship in Exercise Science: Health/Fitness Management.
Cr. 1-16. Prereq: Prereq: C- or better in KIN 458 and KIN 459, Kinesiology and Health majors only. Cumulative GPA 2.0.
Observation and practice in selected sport and exercise science agencies. Offered on a satisfactory-fail basis only.

KIN 485B. Internship in Exercise Science: Sport and Physical Activity.
Cr. 1-16. Prereq: Prereq: Kinesiology and Health majors only. Cumulative GPA 2.0.
Observation and practice in selected sport and exercise science agencies. Offered on a satisfactory-fail basis only.

KIN 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits from KIN advanced core and permission of coordinator
Independent study of problems of areas of interest in exercise and sport science and related areas.

KIN 490A. Independent Study: Exercise and Sport Science.
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits from KIN advanced core and permission of coordinator
Independent study of problems of areas of interest in exercise and sport science and related areas.

KIN 490H. Independent Study: Honors.
Cr. 1-2. Repeatable, maximum of 4 credits. Prereq: 6 credits from KIN advanced core and permission of coordinator
Independent study of problems of areas of interest in exercise and sport science and related areas.

KIN 495. Seminar in Exercise and Sport Science.
Cr. 0.5-1. Prereq: Senior classification
Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

(3-0) Cr. 3. Repeatable. Prereq: Graduate classification in kinesiology and health Methods and techniques used in the design and interpretation of research involving physical activity. Emphasis on styles of writing, library use, and computer applications.

KIN 505. Research Laboratory Techniques in Exercise Physiology.
(0-4) Cr. 2. Prereq: KIN 358 or equivalent course with basic laboratory experience Application and use of laboratory research equipment in exercise physiology, including operation, calibration, and use in selected situations.

KIN 510. Advanced Medical Aspects of Exercise.
(2-0) Cr. 2. Prereq: KIN 358
The role of exercise in preventive medicine. Impact of exercise on various diseases, and the effect of various medical conditions on the ability to participate in vigorous exercise and competitive sports. Principles of exercise testing and prescription for individuals with these conditions.

KIN 512. Movement Education in Elementary School Physical Education.
(3-0) Cr. 3. F.
Study of learning and teaching in physical education for elementary schools.

KIN 516. Quantitative Analysis of Human Movement.
(3-1) Cr. 3. Prereq: KIN 355
Application of the principles of mechanics to the analysis of human motion. Investigation of the effects of kinematics and kinetics on the human body with special emphasis on exercise and sport applications. Includes consideration of two-dimensional and three-dimensional imaging techniques and force measurements.

KIN 517. Musculoskeletal Modeling.
(3-1) Cr. 3. F. Prereq: KIN 355 or permission from instructor
Systematic problem-solving approaches and design of computer programs for biomechanical analyses. Estimation of anthropometric parameters and mechanical properties of muscles, bones, and joints. Integration of anthropometrics, kinematics, and muscle mechanics into simulations of human movement.

KIN 518. Student Teaching in Elementary Physical Education.
(0-8) Cr. 8. F.S. Prereq: KIN 512, KIN 570, KIN 575
Student teaching for 8 weeks in an elementary school.

KIN 519. Student Teaching in Secondary Physical Education.
(0-8) Cr. 8. F.S. Prereq: KIN 512, KIN 570, KIN 575
Student teaching for 8 weeks in a middle or high school.

KIN 520. The Social Analysis of Sport.
(3-0) Cr. 3. Prereq: KIN 360; open to majors only or by permission of instructor Sociological analysis of sport with emphasis on sociological theory, sports structure, and function in modern industrialized society; the systems of sport in regard to their role structure; formal organization, and professionalization and its differentiation along social class, age, and sex.

KIN 521. Advanced Topics in Exercise and Sport Psychology.
(3-0) Cr. 3. Prereq: KIN 365 or KIN 366, 3 courses in psychology; open to majors only or by permission of instructor Aspects of psychology which form a basis for understanding and explaining behavior in the context of exercise and sport. Emphasis on evaluating published research, particularly theory and research methodology. Student presentations.

KIN 549. Advanced Vertebrate Physiology I.
(Cross-listed with AN S, NUTRS). (4-0) Cr. 4. F. Prereq: Biol 335; credit or enrollment in BBMB 404 or BBMB 420
Overview of mammalian physiology. Cell biology, endocrinology, cardiovascular, respiratory, immune, digestive, skeletal muscle and reproductive systems.

KIN 550. Advanced Physiology of Exercise I.
(2-3) Cr. 3. Prereq: KIN 505
Concepts and methods of assessing neurological, muscular, cardiovascular, and respiratory adjustments to exercise.

KIN 551. Advanced Physiology of Exercise II.
(2-3) Cr. 3. Prereq: KIN 505
Analysis of factors affecting work capacity and performance. Human energy metabolism concepts and measurement.

KIN 552. Advanced Vertebrate Physiology II.
(Cross-listed with AN S, NUTRS). (3-0) Cr. 3. S. Prereq: BIOL 335; credit or enrollment in BBMB 404 or BBMB 420
Cardiovascular, renal, respiratory, and digestive physiology.

KIN 558. Physical Fitness - Principles, Programs and Evaluation.
(2-3) Cr. 3. Prereq: KIN 358
Physiological principles of physical fitness, design and administration of fitness programs; testing, evaluation, and prescription; electrocardiogram interpretation.

(2-3) Cr. 3. Prereq: KIN 372
Theoretical perspectives of motor control and learning will be examined as well as factors that facilitate motor learning. Motor control and learning will also be addressed by studying functional tasks such as reach and grasp, posture and locomotor, handwriting, catching and/or speech.

(2-0) Cr. 2-3. Prereq: PSYCH 230
Addresses theories and underlying mechanisms of motor development and motor control applied to typically and atypically developing children. Developmental control of balance, locomotion, reach-to-grasp, and other functional skills will be discussed, as will the role of physical activity in a child’s life.

KIN 567. Exercise and Health: Behavior Change.
(Dual-listed with KIN 467). (3-0) Cr. 3. S. Prereq: Introductory course with emphasis on exercise psychology (i.e., KIN 366 or equivalent)
Advanced analysis of theoretical health behavior models and their application to physical activity behavior. Includes practical techniques, tools and interventions (e.g., counseling skills, motivational interviewing) to enhance exercise prescription and motivation, and considerations for working with special populations.
KIN 570. Physical Activity Assessment for Health Related Research. (2-2) Cr. 3. This course will cover the broad scope of research in physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques since accurate measures are needed to more accurately assess the health benefits from physical activity and to evaluate the effectiveness of behavioral interventions designed to promote physical activity.

KIN 571. Measurement in Physical Education. (Dual-listed with KIN 471). (3-0) Cr. 3. Study of grading, assessment and evaluation in physical education with a focus on measuring cognitive and psycho-motor achievement.

KIN 572. Neural Basis of Human Movement. (Dual-listed with KIN 472). (3-0) Cr. 3. Prereq: KIN 372 or PSYCH 310. Addresses the role of the central nervous system in the control of voluntary human movement, with the focus on the cerebral cortex, basal ganglia and cerebellum. Content organized around specific nervous system damage (such as stroke, apraxia, spasticity, or spinal cord damage) and functional movements (such as reaching and grasping, balance and gait). Converging evidence from human movement disorders, brain imaging, animal lesion and single cell studies provide the primary basis for the content.

KIN 575. Physical Education Curriculum Design and Program Organization. (Dual-listed with KIN 475). (3-0) Cr. 3. F. Current theory, practices and principles applied to curriculum development for programs in physical education, K-12. Organizing for teaching in a variety of school settings.

KIN 590A. Special Topics: Physical Education. Cr. 1-3. Repeatable.

KIN 591. Supervised Field Experience. Cr. 1-6. Prereq: 10 graduate credits in kinesiology and/or related areas. Supervised on-the-job field experience in special areas.

KIN 591A. Supervised Field Experience: Physical Education. Cr. 1-6. Prereq: 10 graduate credits in kinesiology and/or related areas. Supervised on-the-job field experience in special areas.

KIN 591B. Supervised Field Experience: Health and Exercise Promotion. Cr. 1-6. Prereq: 10 graduate credits in kinesiology and/or related areas. Supervised on-the-job field experience in special areas.

KIN 591D. Supervised Field Experience: Exercise Physiology. Cr. 1-6. Prereq: 10 graduate credits in kinesiology and/or related areas. Supervised on-the-job field experience in special areas.

KIN 595. Adapted Physical Education. (Dual-listed with KIN 395). (2-3) Cr. 3. F. Prereq: KIN 375. Specific disabling conditions in terms of etiology, characteristics, needs, and potential for movement experiences. Techniques of assessment, prescription, adaptation of activities, methods, and program planning. Laboratory experience required. KIN 595 may not be taken by students who have previously earned credit in KIN 395.

Courses for graduate students:

KIN 620. Advance Research Methods in Physical Activity. (3-0) Cr. 3. S. Prereq: KIN 501, STAT 401 and STAT 402. Doctoral students only. Cumulating seminar designed to synthesize statistical and design courses with practical research issues using data from physical activity.

Nutritional Science Undergraduate Program (H SCI)

Curriculum in Nutritional Science

Administered by the Department of Food Science and Human Nutrition

Pre-Health Professional and Research Option

Total Degree Requirement: 120 cr.

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

International Perspectives: 3 cr.

U.S. Diversity: 3 cr.

Communications and Library: 13 cr.

### Electives: 0-12 cr. Select from any university coursework to earn at least 120 total credits.

Students planning to apply to health professional programs should review entrance requirements and select appropriate courses as electives. Many health professional programs also require physics.

 Concurrent B.S. and M.S. Program: Well-qualified students in Nutritional Science, pre-health professional and research option, who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both a Bachelor of Science (B.S.) degree in Nutritional Science and a Master of Science (M.S.) degree in Nutritional Sciences. For more information, refer to [www.fshn.hs.iastate.edu](http://www.fshn.hs.iastate.edu).

Textiles and Clothing
Department name changed to Apparel, Events, and Hospitality Management (12-2011)
The program offers study for the degree of bachelor of science with a major in apparel, merchandising, and design (AMD) (http://catalog.iastate.edu/collegeofhumansciences/apparelmerchandisinganddesign).

College of Liberal Arts and Sciences
Beate Schmittmann, Dean
Zora D. Zimmerman, Associate Dean (half-time)
Arne Hallam, Associate Dean
Martin Spalding, Associate Dean
Amy Slagell, Interim Associate Dean (half-time)
Ruth W. Swenson, Associate Dean Emerita

Departments of the College
- Air Force Aerospace Studies
- Anthropology
- Biochemistry, Biophysics, and Molecular Biology
- Chemistry
- Computer Science
- Ecology, Evolution, and Organismal Biology
- Economics
- English
- Genetics, Development, and Cellular Biology
- Geological and Atmospheric Sciences
- Greenlee School of Journalism and Communication
- History
- Mathematics
- Military Science (Army Reserve Officers’ Training Corps)
- Music and Theatre
- Naval Science
- Philosophy and Religious Studies
- Physics and Astronomy
- Political Science
- Psychology
- Sociology
- Statistics
- World Languages and Cultures

The College of Liberal Arts and Sciences is the academic home, the foundation, for many essential learning disciplines. The college provides students with all the components of a modern liberal education. Students may choose to study in various fields of the physical, Biological, and social sciences; in mathematical disciplines; in methods and systems of communication; and in the arts and humanities.

Learning and Teaching Mission
The primary mission of the college is to promote learning in all its dimensions by providing the student with ample opportunities to acquire the requisite knowledge, abilities, and skills to succeed in the world beyond the university. Throughout coursework within the major and in general education, students will develop skills in reasoning, analysis, and communication; achieve an understanding of the intellectual, historical, and artistic foundations of culture; and work to strengthen their abilities to interact with people, cultures, and the environment in an ethical and sensitive manner. To achieve these learning goals, the college asks students to acquire depth in learning within disciplines of their own choosing, and to acquire breadth through general education courses and electives.

The Curriculum
A baccalaureate degree in liberal arts and sciences is the end result of a curriculum that connects and integrates study in a major with general education. Requirements for a degree are deliberately flexible. Students select programs of study suited to a variety of interests and goals. Students having academic interests not fully met by a departmental major may also pursue a major offered by one of the college’s interdisciplinary programs or may apply for an undergraduate major in interdisciplinary studies (See Index, Cross-Disciplinary Studies, Courses and Programs). The college participates in the University Honors Program; thus, students with exceptional academic promise can develop unique and challenging programs of study.

The college has four curricula: a curriculum in Liberal Arts and Sciences, leading to the bachelor of arts or the bachelor of science degree; a curriculum in music, leading to the bachelor of music degree; a curriculum in liberal studies, leading to the bachelor of liberal studies degree; and a curriculum in software engineering, leading to the bachelor of science degree.

High School Preparation/Admission Requirements
Students entering the college are required to present evidence of the following high school preparation:

4 years of English (Typically this preparation includes courses in British, American, and world literature in which critical reading and writing skills are emphasized and courses in speech and composition, including at least one senior-level writing course.)

3 years of social studies (Typically such preparation includes two semesters of world history, two semesters of American history, and a semester of American government. Electives can be chosen from areas such as economics, sociology, or psychology.)

2 years of a single world language (Three years or more of a single world language are strongly recommended for students who wish to continue their work in that language. A minimum of three years of a single world language is required to fulfill the world language graduation requirement in the College of Liberal Arts and Sciences.)

3 years of mathematics (Such preparation shall include two semesters of beginning algebra, two semesters of geometry, and two semesters of intermediate algebra. A fourth year of study involving analytic geometry, trigonometry, linear algebra, and/or calculus is strongly recommended for students who will major in mathematical or scientific disciplines.)

3 years of science (At least two years of such preparation shall be chosen from Biology, chemistry, and physics.)

Recommended but not required as a condition of admission to the College of Liberal Arts and Sciences is one semester of computer experience. (Such a course should stress problem-solving with computers and should not substitute for courses in mathematics. In schools where computer use is an integral part of most courses, separate instruction in computers is not necessary.)

Students who transfer from another college or university with at least 24 credits of satisfactory coursework may be exempt from most of these requirements. Students who do not meet the requirements listed here may be admitted with a limited number of deficiencies. Contact the college office for further information about resolving these deficiencies.

Transfer Students
To graduate from the College of Liberal Arts and Sciences, a transfer student must complete the general requirements of the college as well as those of the university. Students planning to transfer to Iowa State University for the purpose of enrolling in the College of Liberal Arts and Sciences are advised to contact the college office for information concerning degree program requirements. Prospective transfer students are urged to learn about the academic programs that are of interest to them well before arriving on campus so that pretransfer courses are appropriate to the planned major and transferable toward graduation from ISU. Additional information concerning transfer credit evaluation may be obtained through the Office of Admissions as well as the department in which a student is interested.

A transfer student in the College of Liberal Arts and Sciences may choose to graduate under the catalog in effect at the time of his or her graduation or under one of the two immediately preceding catalogs, provided that it covers the period of his or her enrollment either at Iowa State or any other accredited school. Full requirements of the chosen catalog must be met except that adjustments will be made in instances where courses are no longer available or where programs have been changed. A transfer student is responsible for reviewing his/her transfer credit evaluation with the academic adviser during the first semester of enrollment.
University Requirements

The university requirements for the bachelor's degree, including statements of academic standards, learning goals, the university residence requirement, the Communication proficiency requirement, U.S. diversity and international perspectives requirement, and the library requirement, appear in the Colleges and Curricula portion at the beginning of this catalog.

Curriculum in Liberal Arts and Sciences

To obtain a bachelor's degree from the College of Liberal Arts and Sciences, curriculum in liberal arts and sciences, an undergraduate student must earn a minimum of 120 semester credits including a minimum of 32 semester credits earned in residence at Iowa State University. In addition, the student must meet general education, communication proficiency, library proficiency, world language, and advanced credit requirements, as well as the requirements of a major. Courses taken on a pass/not pass basis may be counted toward the required total of 120 credits, and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement. No more than 9 credits of 490 (Independent Study) courses in a single discipline may be counted toward graduation.

General Education

Requirements and Learning Goals

The central importance of a general education is reflected in the learning goals of each of four disciplinary areas. Whereas the courses in a major are designed to develop mastery of a specific field or discipline, courses in general education are designed to establish a strong, intellectual foundation for all specialization. Students earn the minimum credits listed in each of the four general education areas in courses not required by the department of the first major listed on the degree program. Interdisciplinary courses may be used to satisfy requirements in any area for which they have been approved, but a student may not apply the same course to more than one area.

Credit by Examination Program

Individual departments may use CLEP Subject Tests for testout of specific courses. Students in the College of Liberal Arts and Sciences may use CLEP General Test credits as free electives but not toward any of the general education area requirements.

World Language Requirement

The faculty of the College of Liberal Arts and Sciences believes that undergraduate students should acquire elementary practical experience in a second language, should be introduced to the theoretical study of language structure, and should begin to develop an understanding of a second culture through study of that culture's language.

As a means of achieving this objective, a student must satisfy a graduation requirement equivalent to the first year of university-level study in one world language (normally, completion of a two-semester sequence in any one world language). Students who have completed three or more years of high-school world language study are deemed to have completed the LAS World Language Requirement. These students may not enroll in or receive credit for 101 or 102 in those languages; test-out credit may be obtained by passing an appropriate examination or by completing an advanced sequence (200-level or higher) in that language. 101 or 102 may not be taken on a remedial basis.

Students who have completed more than one year but less than three years of high-school world language study may not enroll in 101 in the same language. These students may enroll in either a 102 course in that language, or in the case of Spanish, SPAN 097 Accelerated Spanish Review. Before enrolling in either SPAN 097 Accelerated Spanish Review or a 102 language course, students are advised to take the on-line placement test available at www.language.iastate.edu. SPAN 097 Accelerated Spanish Review is designed for students who need additional remedial work in the language at the first-year level (101-102) and are not planning to continue their language study at the second-year 201-202 level. Students who complete SPAN 097 Accelerated Spanish Review with a passing grade will have fulfilled the LAS World Language Requirement. Students who have completed SPAN 097 Accelerated Spanish Review and wish to pursue further study in Spanish at the 201-202 level may enroll in 102.

Students who have completed more than one year but less than three years of high-school world language study may satisfy the World Language Requirement by (a) passing the exam for credit at the 102 level, (b) receiving a passing grade in a 102 world language course, or (c) receiving a passing grade in a world language course at the 200-level or higher. For more information see Department of World Languages and Cultures. (Courses taught in English do not satisfy the World Language Requirement). Iowa State University accepts a record of academic performance in American Sign Language as fulfillment of entrance or graduation requirements in world language for a baccalaureate degree.

Questions about the World Language Requirement and how to meet it should be directed to the Department of World Languages and Cultures. Credits applied toward the World Language Requirement cannot be used to satisfy the general education requirements, but students who have fulfilled the World Language Requirement may apply additional courses in world languages toward the appropriate general education areas. Majors in any world language are deemed to have fulfilled the college World Language Requirement. International students for whom English is a second language may satisfy the World Language Requirement by completion of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition at ISU with an average grade of C- or better. See World Languages and Cultures for additional information on international students.

Advanced Communication Skills

The continued development of communication skills following the sophomore year is the responsibility of the student's major department. The department promotes this development by adopting measures to certify the writing proficiency of its own majors. Certification occurs upon satisfactory completion of a designated course in which writing is evaluated and is a significant component. This designated course may be either a course required in the student's major program or an advanced writing course offered by the Department of English: ENGL 302 Business Communication, ENGL 305 Creative Writing - Nonfiction, ENGL 314 Technical Communication.

General Education Areas

The central importance of a general education is reflected in the learning goals of each of three disciplinary areas. Whereas the courses in a major are designed to develop mastery of a specific field or discipline, courses in general education are designed to establish a strong, intellectual foundation for all specialization. The general education areas with their minimum credit requirements for the College of Liberal Arts and Sciences are:

- Arts and Humanities—(Minimum 12 credits). The student should develop an understanding of human cultural heritage and history, and an appreciation of reasoning and the aesthetic value of human creativity.
- Natural Sciences and Mathematical Disciplines—(Minimum 11 credits, including 3 in the mathematical disciplines and 8 in the natural sciences). The student should experience science as a rational search for understanding the structure and behavior of the natural world, and should appreciate mathematics as a valuable tool of the sciences and as an intrinsically important way of thinking.
- Social Sciences—(Minimum 9 credits). The student should develop an appreciation of the principal methods of studying human behavior and an understanding of the structure and functioning of institutions.

Because students fulfill, in part, the learning goals of the area of their first major by taking courses in their programs of study, the minimum number of general education credits required in the area of the first major is reduced from that listed above by 3 credits. Students in Liberal Studies or Interdisciplinary Studies majors must complete the minimum requirements in all three areas. The list of majors falling within each area is available from the Office of the Dean, College of Liberal Arts and Sciences, and is posted on the web site of the College of Liberal Arts and Sciences.

Courses from the department of the first major may not be applied to general education requirements. Courses cross-listed with a course in the student's first major may be used to satisfy either major requirements or general education requirements, but may not be used more than once. Interdisciplinary courses may be used to satisfy requirements in any area for which they have been approved, but a student may not apply the same course more than once.

Lists of approved courses are available from the LAS College website.

Advanced Credit Requirements

To obtain a baccalaureate degree from the College of Liberal Arts and Sciences, curriculum in liberal arts and sciences, a student must earn at least 45 credits at the 300 level or above taken at a four-year college. All such credits, including courses taken on a pass/not pass basis, may be used to meet this requirement.

The major must contain at least 8 credits in courses taken at Iowa State University that are numbered 300 or above and in which the student's grade is C or higher. In addition, the average grade of all courses in the major (those courses listed under major on the degree audit) must be 2.0 or higher. Courses from the department of the first major listed on the degree program may not be counted in the general education areas.
The Major

Students must show they have achieved depth in a specialized area by completing successfully the requirements and learning goals of a major. A major is comprised of 24 to 48 credits in a specific discipline as determined by the faculty. Tracks within a major must have a common 24 credit core. Some courses outside the major discipline may also be required as supporting work for the major. (See Index for page reference to individual department and program requirements.)

The major must contain at least 8 credits in courses taken at Iowa State University that are numbered 300 or above and in which the student’s grade is C or higher. In addition, the average grade of all courses in the major (those courses listed under major on the degree audit) must be 2.0 or higher. Courses in the first major listed on the degree program may not be counted in the general education groups.

Courses meeting the requirement of additional majors may be counted in the general education groups. When choosing an additional major, students must confirm that the additional major is allowable (see list under “Double Majors”). The major is chosen from the following list, which also indicates the degree(s) offered in the respective majors.

Advertising, B.A.
Anthropology, B.A., B.S.
Biochemistry, B.S.
Bioinformatics and Computational Biology, B.S.
Biological/Pre-Medical Illustration, B.A.
Biological Chemistry, B.S.
Biophysics, B.S.
Chemistry, B.A., B.S.
Communication Studies, B.A.
Computer Science, B.S.
Earth Science, B.A., B.S.
Economics, B.S.
English, B.A., B.S.
Environmental Science, B.S.
Environmental Studies (may be taken as a second major with the degree to be determined by the first major)
Genetics, B.S.
Geology, B.S.
History, B.A., B.S.
Interdisciplinary Studies, B.A., B.S.
International Studies (may be taken as a second major with the degree to be determined by the first major)
Journalism and Mass Communication, B.S.
Linguistics, B.A.
Mathematics, B.S.
Meteorology, B.S.
Music, B.A., B.Mus.
Performing Arts, B.A.
Philosophy, B.A.
Physics, B.S.
Political Science, B.A.
Psychology, B.A., B.S.
Religious Studies, B.A.
Sociology, B.A., B.S.
Software Engineering, B.S.
Speech Communication, B.A.
Statistics, B.S.
Technical Communication, B.S.
Women’s Studies, B.A., B.S.
World Languages and Cultures, B.A. French, German, Spanish

The major in interdisciplinary studies (B.A., B.S.) is available for undergraduate students who have unique interdisciplinary educational goals. Such a major is designed by the faculty and the student and is approved only when the educational goals cannot be met by a reasonable combination of existing majors, minors, and electives. (See Index, Interdisciplinary Studies.)

A curriculum in liberal studies leading to a bachelor of liberal studies degree (B.L.S.) is also available. (See Index, Liberal Studies.) The LAS College offers certificate programs available for students seeking documentation of additional study in specialized academic topics. At present, certificates are available in Latin American Studies and in Community Leadership and Public Service. Information about the specific course requirements in these certificate programs may be found in their respective entries in the Courses and Programs section of this catalog.

Double Majors

Students may elect a second major from the departments and program areas listed above, or from a major field offered for the bachelor’s degree in another college of the university. Double majors between the following are not allowed: Chemistry with Biochemistry and Agricultural Biochemistry; Biology with Animal Ecology, Agricultural Biochemistry, Biochemistry, Genetics, and Microbiology.

The major departments must then approve the degree program, and if those majors involve two colleges, both deans must approve. Such programs must fulfill the general education requirements of the college of the primary major. If one major leads to the B.A. degree and the other to the B.S. degree, the degree awarded will be the one offered by the department of the primary major.

If the primary major may lead to either a B.A. or a B.S., a student may choose to receive either degree. In all cases, the student must satisfy the requirements of each major and of the degree that is chosen for the primary major. Students with a primary major in another college who wish to take a second major in the College of Liberal Arts and Sciences are not required to meet the Liberal Arts and Sciences General Education and World Language Requirements.

A student may earn two degrees in the Liberal Arts and Sciences curriculum with two appropriate majors and at least 30 additional credits. Either the B.A. or the B.S. in this curriculum may be earned with the Bachelor of Music. A major in Liberal Arts and Sciences may not be added to a Bachelor of Liberal Studies or a Bachelor of Music degree. Any degree offered by this college may be earned together with a degree in any other college of the university. For the requirements for two degrees, see Index, Bachelor’s Degree Requirements.

Minor

A minor, which is optional, must consist of at least 15 credits, with at least 6 credits in courses numbered 300 and above taken at ISU with a grade of C or higher. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. (See Index, Minors.)

The following minors are offered by the college of Liberal Arts and Sciences: Advertising
African American Studies
American Indian Studies
Anthropology
Astronomy
Biochemistry
Biological Illustration
Biology
Chemistry
Chinese Studies
Classical Studies
Communication Studies
Computer Science
Criminal Justice Studies
Economics
Emerging Global Disease
English
Entrepreneurial Studies
Environmental Studies
French
Genetics
Geology
German
Gerontology
History
International Studies
Journalism and Mass Communication
Latin
Linguistics
Mathematics
Meteorology
Military Studies (Army Reserve Officers’ Training Corps)
Music
Music Technology
Performing Arts
Philosophy
Physics
Political Science
Psychology
Religious Studies
Russian Studies
Sociology
Spanish
Speech Communication
Statistics
Sustainability (http://www.las.iastate.edu/sustainability)
Technical Communication
Technology and Social Change
U.S. Latino/a Studies
World Film Studies
Women’s Studies

Courses applied toward the general education groups may be used to meet the requirements of a minor. (For restrictions, see Index, Minors.)

If a student declares a minor and completes the requirements specified by the offering department/program, the minor will be recorded on the transcript.

Certificate Programs

The LAS College also administers certificate programs in Community Leadership and Public Service and in Latin American Studies. Students interested in pursuing these certificates are advised to consult with their academic adviser and with the relevant program that administers the certificate. Further information may also be obtained at: http://catalog.iastate.edu/interdisciplinaryprograms/certificates/

Electives

Students will take additional courses, freely elected, sufficient to accumulate a total of 120 credits. These additional courses together with the general education courses may be used to meet the requirements of a minor or of another major, provided that they are taken on a graded basis.

Planning the Program of Study

Careful, comprehensive planning is important for meeting graduation requirements and taking advantage of the resources offered by the university. Each student is encouraged to work with his or her academic adviser in developing a four-year plan as soon as possible after declaration of the major. A degree audit listing all completed courses and those remaining to be taken for fulfillment of the degree requirements in the student’s chosen major is provided to the student and the adviser each semester. The student should review the audit each semester and consult with the adviser when changes are required. Any changes to the audit must be approved by the academic adviser and by the dean’s office. It is essential that the audit be reviewed and updated in a timely fashion in order to avoid delay in the student’s graduation.

Students should meet proficiency requirements in English and in library. They should also make progress toward meeting the general education requirements, a large part of which should be completed by the end of the second year. The third and fourth years should emphasize completion of the major (and minor, if elected) and of general education requirements, and should give the student an opportunity to take electives.

Academic Advising Learning Outcomes

Through their experience with academic advising, students will:

Develop an understanding of the structure, application, and goals of a liberal arts education in relation to their academic development.

Be able to formulate appropriate questions, seek information, and evaluate and apply academic advice.

Know the requirements, policies and protocol of the university, college, and department as they relate to their educational experience.

Understand how degree programs can be enhanced by study and experiences tailored to their intellectual and personal goals.

Be able to identify and utilize university resources effectively to:

- Satisfy degree requirements
- Plan programs of study, including selection of appropriate courses and registration
- Discover how interests, skills and goals connect to fields of study and careers
- Link curricular and co-curricular activities
- Research and prepare for advanced study and/or careers

Share responsibility for a mentor-mentee relationship between advisee and adviser.

The Open Option

Many students entering Iowa State University are not ready to declare a major. They want time to become familiar with the academic opportunities that the university offers and to determine the best match between their academic interests and abilities. These students enter Iowa State University as Open Option majors.

The Open Option experience is designed to help students explore majors and careers, become acquainted with the entire university, and make successful adjustments to the academic expectations of Iowa State. Open Option students are assigned academic advisers in the Liberal Arts and Sciences Student Academic Services Office. These advisers help students with academic and career development.

During the first year, an orientation class introduces them to all of the colleges and majors on campus. A career development class in the second semester guides students in selecting a major and career that match their academic and personal goals. Open Option majors also have the opportunity to be members of a learning community with other Open Option students.

Aided by their adviser, Open Option students select courses that allow them to sample their academic interests before committing to a specific university major. Open Option students typically declare a major during their second or third semester.

In addition, students who may have started in a specific field and have discovered it is not meeting their needs may transfer into Open Option for a semester or two while they decide on a new major.

Honors Program

For information on the Honors Program in the College of Liberal Arts and Sciences, see Index, Liberal Arts and Sciences, Cross-Disciplinary Programs, Honors Program.

Reserve Officers’ Training Corps Programs (ROTC)

The College of Liberal Arts and Sciences also offers students the opportunity to combine their academic programs with ROTC programs in the Military Science (Army, Naval Science, and Air Force Aerospace Studies).

Teacher Licensure

Teaching licenses are issued by the Iowa Board of Educational Examiners. The Recommending Officer for the ISU University Teacher Education Program submits each candidate file after that candidate is determined to be eligible for licensure.

Teaching licenses are issued for a specific teaching level, e.g., K-6 or 7-12. A subject area endorsement is listed on the candidate’s license. The license may have multiple subject area endorsements listed.

Students in the College of Liberal Arts and Sciences who complete the approved licensure program in music education (BM degree with Vocal K-12 option or Instrumental K-12 option) may apply for a teaching license that allows them to teach music in grades K-12. Students who plan to teach in secondary schools (grades 7-12) may qualify for a license by completing an approved licensure program in one of the following LAS majors:

- Biology
- Chemistry
- Earth Science
There is no traditional major. Instead, students take coursework in three areas of distribution. These areas may be focused in a single discipline or diversified over several disciplines. With the assistance of a B.L.S. adviser, students can structure a program that meets their individual educational, vocational or personal goals. For specific degree requirements, see Liberal Studies (p. 558).

Curriculum for Software Engineering
A bachelor of science degree in software engineering is jointly administered by the Department of Electrical and Computer Engineering (College of Engineering) and the Department of Computer Science (College of Liberal Arts and Sciences). The program is aimed at creating high-quality software in a systematic, controlled, and efficient manner. The specific objective of the program is to educate students on principles, processes, techniques, and tools for producing, analyzing, specifying, designing and evolving software. A broader objective is to cultivate among students intellectual curiosity, problem solving skills, good learning habits, effective communication skills, leadership, and teamwork.

This interdepartmental program enables students to take a range of Software Engineering courses, as well as elective courses from both Computer Science and Computer Engineering as part of their degree program.

For specific degree requirements, see Software Engineering, Courses and Programs.

African and African American Studies

Interdepartmental Undergraduate Program

Undergraduate Study
African and African American Studies, a cross-disciplinary program in the College of Liberal Arts and Sciences, offers students the opportunity to explore the African Americans' experience and African American contributions to American culture. Students in the program analyze and learn about African American experiences through the study of history, literature, art, religion, and society. They gain knowledge and develop skills and sensitivities to help them function effectively in today's diverse society.

African and African American Studies at Iowa State University is an expanding program. Most of the courses in the program satisfy general education requirements in the College of Liberal Arts and Sciences, the human relations requirement for teachers, and the university's diversity requirement. Students can minor or even design their own Interdisciplinary Studies major with an emphasis in African American Studies. Relevant courses are offered through other departments.

A minor in African and African American Studies requires six courses in the program with a minimum of 18 credits, including AF AM 201 (https://nextcatalog.registrar.iastate.edu/collegeofliberalartsandsciences/africanandafricanamericanstudies) Introduction to African American Studies and AF AM 460 (https://nextcatalog.registrar.iastate.edu/collegeofliberalartsandsciences/africanandafricanamericanstudies) Seminar in African American Culture. The remaining credits must come from at least two departments, with at least two courses taken at the junior level or above. Independent study and internship opportunities are available for credit, but do not count in the minimum requirements for the minor.

Graduate Study
Several courses are open for nonprofit graduate study. See listings for more information.

Courses

Courses primarily for undergraduates:
AF AM 201. Introduction to African American Studies. (3-0) Cr. 3. F.S.
An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience. Meets U.S. Diversity Requirement

AF AM 330. Ethnic and Race Relations. (Cross-listed with SOC) (3-0) Cr. 3. F.S.SS. Prereq: SOC 130 or SOC 134
Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations. Meets U.S. Diversity Requirement

Curriculum for Bachelor of Liberal Studies
The LAS College administers a bachelors degree program in Liberal Studies. This degree, the bachelor of liberal studies (B.L.S.), was established by the three Iowa Regent universities to meet the needs of Iowans who want to earn a college degree but whose circumstances present obstacles to completing a traditional on-campus degree program. The B.L.S. is a general studies degree in the liberal arts.
AF AM 334. African American Religious Experience. (Cross-listed with RELIG). (3-0) Cr. 3. F. Prereq: Prior course work in Religious Studies or African American Studies recommended
Examination of African-American experience from the perspective of black religion with attention to political, economic, social, theological and artistic expressions, including music, that serve the life of African-American communities."
Meets U.S. Diversity Requirement

AF AM 347. Studies in African American Literature. (Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 251 or consent of instructor. Literature by African Americans, which may include study of individual authors, movements, themes, genres. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

AF AM 350. Women of Color in the U.S. (Cross-listed with W S). (3-0) Cr. 3. S. Prereq: 3 credits in Women's Studies or African American Studies
Economic, social, political and cultural roles of Women of Color in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored.
Nonmajor graduate credit.

AF AM 353. History of African Americans I. (Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification
Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.

AF AM 354. History of African Americans II. (Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification
Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.

AF AM 460. Seminar in African American Culture. (3-0) Cr. 3. S.
Intensive study of a selected topic in African-American Studies in one or more disciplines. Selected readings of various authors, movements, eras, or genres. Primary and secondary source materials. Nonmajor graduate credit.

Air Force Aerospace Studies

Undergraduate Study
The objectives of the Department of Air Force Aerospace Studies (AFAS) are to provide qualified students the opportunity to earn a commission as an active duty officer in the United States Air Force (USAF) and to build better citizens for those not interested in serving in the USAF. Entry into the Air Force Reserve Officer Training Corps (AFROTC) program is not dependent on departmental major or year in the university, and is open to all qualified students.

The curriculum is divided into two basic phases: the general military course (GMC) and the professional officer course (POC). The GMC is introductory and consists of four consecutive one-hour courses normally taken during the freshman and sophomore years. GMC completion is normally a prerequisite for entrance into the POC; however, exceptions may be made on a case-by-case basis through the AFAS Department Chair.

Selection for the POC is on a competitive basis, and cadets enrolling in this course must meet certain academic, mental, physical, and moral standards. Students who have completed the GMC will compete for selection for Air Force officers. For selection as an AFROTC officer, including the Air Force Reserve Officer Training Corps (AFROTC) program, interested students should contact the AFAS department.

Courses

Courses primarily for undergraduates:

AFAS 101. Introductory Leadership Laboratory I. (0-2) Cr. 1. F. Prereq: Membership as a cadet in AFROTC
Instructs and critiques freshmen cadets on Air Force customs and courtesies; drill and ceremonies, issuing military commands, physical training, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. Offered on a satisfactory-fail basis only.

AFAS 102. Introductory Leadership Laboratory II. (0-2) Cr. 1. S. Prereq: Membership as a cadet in AFROTC
A continuation of AFAS 101. Air Force customs and courtesies; drill and ceremonies, issuing military commands, physical training, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. Offered on a satisfactory-fail basis only.

AFAS 142. Foundations of the United States Air Force. (1-0) Cr. 1. S. A continuation of 141. Topics include Air Force installations, Air Force core values, leadership and team building, further study of interpersonal communication, the Oath of Office and Commissioning.

AFAS 151. Air Force Physical Training. (0-2) Cr. 1. F. Prereq: Membership as a cadet in AFROTC
Use of basic military training skills and instruction to develop confidence, leadership, communication skills and physical fitness. The team approach is utilized in the instruction and application of Air Force physical fitness requirements. Students will learn various Air Force physical fitness techniques as well as how to conduct physical fitness sessions. Full participation in all events will be determined based on student’s physical and medical eligibility. Offered on a satisfactory-fail basis only.

AFAS 201. Basic Leadership Laboratory I. (0-2) Cr. 1. F. Prereq: Membership as a cadet in AFROTC
Instructs and critiques freshmen cadets on Air Force customs and courtesies, drill and ceremonies, issuing military commands and physical training. Offered on a satisfactory-fail basis only.

AFAS 202. Basic Leadership Laboratory II. (0-2) Cr. 1. S. Prereq: Membership as a cadet in AFROTC
A continuation of AFAS 201, instructing and critiquing freshmen cadets on Air Force customs and courtesies, drill and ceremonies, issuing military commands and physical training. Offered on a satisfactory-fail basis only.
AFAS 241. The Evolution of USAF Air & Space Power I.
(1-0) Cr. 1. F.
Examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the first balloons and dirigibles to the Korean War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today's USAF air and space power.

AFAS 242. The Evolution of USAF Air & Space Power II.
(1-0) Cr. 1. S.
A continuation of AFAS 241 that examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the Korean War to the space-age global positioning systems of the Persian Gulf War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today's USAF air and space power.

AFAS 301. Intermediate Leadership Laboratory I.
(0-3) Cr. 1. F. Prereq: Membership as a cadet in AFROTC
Mid-level management of leadership experiences involving the planning and controlling of the military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of guidance, information, and knowledge that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 302. Intermediate Leadership Laboratory II.
(0-3) Cr. 1. S. Prereq: Membership as a cadet in AFROTC
A continuation of AFAS 301 that examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the Korean War to the space-age global positioning systems of the Persian Gulf War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today's USAF air and space power.

AFAS 341. Air Force Leadership Studies I.
(3-0) Cr. 3. F.
A look at the fundamental issues of leadership and management in the U.S Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 342. Air Force Leadership Studies II.
(3-0) Cr. 3. S. Prereq: AFAS 341
A continuation of AFAS 341, that looks at the advanced issues of leadership and management in the U.S Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 401. Advanced Leadership Laboratory I.
(0-3) Cr. 1. F. Prereq: Membership as a cadet in AFROTC
Advanced leadership experiences involving the planning and controlling of the upper level management of military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of guidance, information, and knowledge that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 402. Advanced Leadership Laboratory II.
(0-3) Cr. 1. S. Prereq: Membership as a cadet in AFROTC
A continuation of AFAS 401, advanced leadership experiences involving the planning and controlling of the military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 441. Preparation for Active Duty.
(3-0) Cr. 3. F.
Traces the source of military authority and responsibilities from the U.S. Constitution through the DoD to an Air Force officer. Examines the structure and capabilities of the other services and joint structures. Addresses the supervisory duties of an Air Force officer associated with administrative actions and military law as force management tools. Builds upon leadership and management skill learned in AFAS 341/342 and includes demonstrations of written and verbal communications processes.

(3-0) Cr. 3. S.
Examines the national security process through review of the Department of Defense's statutory administrative and operational relationships as context for this course's regional studies component. Reviews functions of air and space power as outlined in Air Force doctrine and introduces the concept of joint operations. Integrates these concepts with regional studies to survey issues of interest to professional military officers and governmental leaders. Selectively reviews and discusses Africa, Latin America, South Asia, East Asia, Europe, Russia and the Middle East. Meets International Perspectives Requirement.

Anthropology

Undergraduate Study

An undergraduate major in Anthropology can serve as the nucleus for a general liberal education, or as the prerequisite for graduate training qualifying a person for positions in (1) college and university teaching, (2) research, and (3) administrative and applied positions in government, development organizations, museums, and private businesses or corporations.

Anthropology students develop a well-rounded professional education in cultural anthropology, archaeology, and biological anthropology. They learn what it means to be human through the study of culture and society, the biology and evolution of humans and other primates, and through the study of past human communities and material culture. Students learn the important historical and contemporary issues of our subdisciplines, and they learn what it means to be an Anthropologist and acquire an anthropological perspective on global issues. Students develop an appreciation of the value of cultural difference at the local, national and global levels. Students may obtain experience in archaeological, ethnographic and biological research.

Anthropology majors may choose either a bachelor of arts or a bachelor of science degree, both of which require 33 credits in anthropology. A bachelor of arts degree is obtained by fulfilling the college general education requirements plus 6 additional credits in Groups I and III. A bachelor of science degree is obtained by fulfilling the college general education requirements plus 6 additional credits in Group II.

Undergraduate students with majors in anthropology are required to take the following anthropology core courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

Communication Proficiency requirement: The department requires that a student earn a grade of C or better in:
Graduate courses are offered in the areas of biological anthropology, archaeology, cultural anthropology, and anthropological history and theory. Competence in one foreign language and in statistics must be demonstrated. A thesis, based on original research, is required.

Courses

Courses primarily for undergraduates:

ANTHR 201. Introduction to Cultural Anthropology. (3-0) Cr. 3. F.S.S.S.
Comparative study of culture as key to understanding human behaviors in different societies. Using a global, cross-cultural perspective, patterns of family life, economic and political activities, religious beliefs, and the ways in which cultures change are examined.
Meets International Perspectives Requirement.

ANTHR 202. Introduction to Biological Anthropology and Archaeology. (3-0) Cr. 3. F.S.
Human biological and cultural evolution; survey of the evidence from fossil primates, the human fossil record and the archaeological record, as well as living primates; introduction to research methods in archaeology and biological anthropology.

ANTHR 220. Globalization and Sustainability. (Cross-listed with T SC, ENV S, GLOBE, MAT E, M E, SOC). (3-0) Cr. 3. F.S.
An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.
Meets International Perspectives Requirement.

ANTHR 230. Globalization and the Human Condition. (3-0) Cr. 3. F.S.
Survey of the major theoretical, methodological and empirical foundations of cultural anthropology. Participatory lab: focus on ethnographic methods through individual research projects.
Meets International Perspectives Requirement.

ANTHR 306. Cultural Anthropology. (2-2) Cr. 3. S. Prereq: ANTHR 201
Survey of the major theoretical, methodological and empirical foundations of cultural anthropology. Participatory lab: focus on ethnographic methods through individual research projects.
Meets International Perspectives Requirement.

ANTHR 307. Biological Anthropology. (2-2) Cr. 3. S. Prereq: ANTHR 202
Human evolution as known from fossil evidence, comparative primate studies, and genetic variations in living populations. Laboratory-tutorial sessions include study and discussion of human osteology, fossil hominids, simple Mendelian traits, and biological anthropology. Participatory lab: focus on ethnographic methods through individual research projects.
Meets International Perspectives Requirement.

ANTHR 308. Archaeology. (2-2) Cr. 3. F. Prereq: ANTHR 202
Methods and techniques for the recovery and interpretation of archaeological evidence, its role in reconstructing human behavior and past environments. Laboratory sessions include experience in the interpretation of archaeological evidence, the use of classification systems, and prehistoric technologies such as ceramics and stone tools.

ANTHR 309. Introduction to Culture and Language. (Cross-listed with LING). (3-0) Cr. 3. Prereq: ANTHR 201 recommended
Introduction to study of language, culture and society from an anthropological perspective. Focus on language and thought, ethnography of speaking, discourse and narrative, writing and literacy, and media communication. Discussion of key theories and methods of linguistic anthropology.
Meets International Perspectives Requirement.

ANTHR 313. Kinship and Marriage in a Global Perspective. (Dual-listed with ANTHR 513). (3-0) Cr. 3. S. Prereq: ANTHR 201 recommended
Comparative and historical overview of the family, marriage and kinship. Examination of cross-cultural differences in the construction and functioning of family and kin relations; role of kinship in structuring individual and collective activities; current critical and theoretical issues in kinship studies, especially integrating work on gender and sexuality.
Meets International Perspectives Requirement.

Graduate Study

The department offers a master of arts degree with a major in anthropology. Graduate courses are offered in the areas of biological anthropology, archaeology,
ANTHR 315. Archaeology of North America.
(Dual-listed with ANTHR 515). (Cross-listed with AM IN). (3-0) Cr. 3. S. Prereq: ANTHR 202
Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture-historical sequences of major culture areas; linkages of archaeological traditions with selected ethnographically known Native American groups. Meets U.S. Diversity Requirement

ANTHR 319. Skeletal Biology.
(Dual-listed with ANTHR 519). (2-2) Cr. 3. F. Prereq: ANTHR 307 or college level biology
Comprehensive study of the skeletal anatomy, physiology, genetics, growth, development and population variation of the human skeleton. Applications to forensic anthropology, paleopathology and bioarchaeology are introduced.

ANTHR 320. Great Plains Archaeology.
(Dual-listed with ANTHR 520). (Cross-listed with AM IN). (3-0) Cr. 3. F. Prereq: ANTHR 202
Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information. Meets U.S. Diversity Requirement

ANTHR 321. World Prehistory.
(Dual-listed with ANTHR 521). (3-0) Cr. 3. S. Prereq: ANTHR 202 recommended
An introduction to archaeological sites from around the world including the Near East, Africa, Europe, Mesoamerica, and North and South America. Emphasis is on the interpretation of material cultural remains in reconstructing past societies.

ANTHR 322. Peoples and Cultures of Native North America.
(Dual-listed with ANTHR 522). (Cross-listed with AM IN). (3-0) Cr. 3. Prereq: ANTHR 201 or AM IN 210
Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life. Meets U.S. Diversity Requirement

ANTHR 323. Topics in Latin American Anthropology.
(Dual-listed with ANTHR 523D). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement

ANTHR 323A. Latin American Anthropology: Violence and Memory.
(Dual-listed with ANTHR 523A). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement

ANTHR 323B. Latin American Anthropology: Social movements and Democracy.
(Dual-listed with ANTHR 523B). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement

ANTHR 323C. Latin American Anthropology: Race, Class and Gender.
(Dual-listed with ANTHR 523C). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement

ANTHR 323D. Latin American Anthropology: Regional Focus.
(Dual-listed with ANTHR 523D). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement

(Dual-listed with ANTHR 532). (Cross-listed with AM IN). (3-0) Cr. 3. S. Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Conditions and issues of contemporary American Indian peoples, historical background of contemporary life; federal policies, treaty rights, and sovereignty. Economic development and politics on reservations, family and gender roles, cultural innovation and revitalization, urbanization, recent social movements, and other current concerns. Meets U.S. Diversity Requirement

ANTHR 333. Asian American Material Cultures.
(Dual-listed with ANTHR 533). (3-0) Cr. 3.
A broad exposure to the cultural expressions of Asian Americans from the nineteenth century to the present. Analysis of everyday Asian American cultural experiences within the contexts of agency, power, and identity formation. Meets U.S. Diversity Requirement

ANTHR 336. Global Development.
(Dual-listed with ANTHR 536). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: ANTHR 201 or ANTHR 306
Cross-cultural analysis of current development practices from an anthropological perspective; focus on international aid, development institutions, agrarian reform, indigenous knowledge, humanitarianism and human rights; introduction to main theories of political and economic anthropology. Meets International Perspectives Requirement

(Dual-listed with ANTHR 540). (Cross-listed with RELIG). (3-0) Cr. 3. S. Prereq: ANTHR 201 or ANTHR 306
Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice. Meets International Perspectives Requirement

ANTHR 350. Primate Behavior.
(Dual-listed with ANTHR 550). (2-2) Cr. 3. F.S.SS. Prereq: ANTHR 202 and/or basic biology course recommended
An introduction to the Order Primates with a focus on their behavior. Biological and social adaptations of monkeys, apes, and prosimians; basic evolutionary concepts, current trends and theories in the field of Primatology and issues related to primate conservation.

ANTHR 354. War and the Politics of Humanitarianism.
(Cross-listed with POL S). (3-0) Cr. 3. S. Prereq: Pol S 235, Pol S 251, or Anthr 230
Humanitarianism as a system of thought and a system of intervention in conflict and post-conflict situations: role of humanitarian organizations and actors in addressing human suffering caused by conflict or war military action as a form of humanitarian intervention. Meets International Perspectives Requirement

ANTHR 376. Classical Archaeology.
(Cross-listed with CL ST, RELIG). (3-0) Cr. 3. S. Prereq: ANTHR 201 or ANTHR 306
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Requirement

ANTHR 376A. Classical Archaeology: Bronze Age and Early Iron Age Greece.
(Cross-listed with CL ST, RELIG). (3-0) Cr. 3. S. Prereq: ANTHR 201 or ANTHR 306
Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece. (ca 3000-700 BCE). Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Requirement

ANTHR 376B. Classical Archaeology: Archaic through Hellenistic Greece (ca 700-30 BCE).
(Cross-listed with CL ST, RELIG). (3-0) Cr. 3. S. Prereq: ANTHR 201 or ANTHR 306
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Requirement
(Dual-listed with ANTHR 511). (3-0) Cr. 3. F. Prereq: ANTHR 201 or ANTHR 306
Theoretical and practical considerations of applying anthropological knowledge to
temporary cultural, political and economic issues. Dynamics of directed change in
contemporary world cultures. Principles, theories, and ethics of international
development projects from a sociocultural perspective.
Meets International Perspectives Requirement.

ANTHR 418. Global Culture, Consumption and Modernity.
(Dual-listed with ANTHR 518). (3-0) Cr. 3. F. Prereq: ANTHR 201 or ANTHR 306
recommended
Cross-cultural study of the impact of globalization, with an emphasis on economic
consumption and the movement of goods, ideas, and peoples across cultural and
national boundaries.
Meets International Perspectives Requirement.

ANTHR 424. Forensic Anthropology.
(Dual-listed with ANTHR 524). (2-2) Cr. 3. S. Prereq: ANTHR 202 or ANTHR 307;
ANTHR 319 recommended
Comprehensive study of forensic anthropology, a specialized subfield of biological
anthropology. Emphasis is placed on personal identifications from extremely
fragmentary, commingled, burnt, cremated and incomplete skeletal remains. All
parameters of forensic study are included as they pertain to anthropology, including
human variation, taphonomy, entomology, archaeology, pathology, epidemiology;
genetics and the non-biological forensic disciplines. An appreciation for the wide
range of medicolegal and bioethical issues will also be gained.

ANTHR 425. Professional Preparation in Anthropology.
(2-0) Cr. 2. F. Prereq: Junior classification in anthropology or permission from the
instructor
Instruction and guidance in the development of professional skills needed for success
in academic and non-academic anthropological careers. Topics will include strategies
for internship and job searches, creating resumes and CVs, composing personal
statements and cover letters, and developing contacts and sources. Offered on a
satisfactory-fail basis only.

ANTHR 427I. Archaeology.
(Cross-listed with IA LL). Cr. 4. SS.
Nature of cultural and environmental evidence in archaeology and how they are used
to model past human behavior and land use; emphasis on Iowa prehistory; basic
reconnaissance surveying and excavation techniques. Nonmajor graduate credit.

ANTHR 428. Topics in Archaeological Laboratory Methods and Techniques: Lithics.
(Dual-listed with ANTHR 528D). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308
Laboratory processing, analysis, and interpretation of archaeological materials such
as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical
techniques including classification, data acquisition and organization, and computer
applications.

ANTHR 428A. Topics in Archaeological Laboratory Methods and Techniques: Lithics.
(Dual-listed with ANTHR 528A). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308
Laboratory processing, analysis, and interpretation of archaeological materials such
as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical
techniques including classification, data acquisition and organization, and computer
applications.

ANTHR 428B. Topics in Archaeological Laboratory Methods and Techniques: Ceramics.
(Dual-listed with ANTHR 528B). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308
Laboratory processing, analysis, and interpretation of archaeological materials such
as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical
techniques including classification, data acquisition and organization, and computer
applications.

ANTHR 428C. Topics in Archaeological Laboratory Methods and Techniques: Faunal remains.
(Dual-listed with ANTHR 528C). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308
Laboratory processing, analysis, and interpretation of archaeological materials such
as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical
techniques including classification, data acquisition and organization, and computer
applications.

ANTHR 428D. Topics in Archaeological Laboratory Methods and Techniques: General.
(Dual-listed with ANTHR 528D). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308
Laboratory processing, analysis, and interpretation of archaeological materials such
as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical
techniques including classification, data acquisition and organization, and computer
applications.

ANTHR 429. Topics in Archaeological Laboratory Methods and Techniques: Archaeological Field School.
(Dual-listed with ANTHR 529). Cr. 4-6. SS. Prereq: ANTHR 202 or ANTHR 308
Summer field school for training in archaeological reconnaissance and excavation
techniques; documentation and interpretation of archaeological evidence.

ANTHR 431. Ethnographic Field School.
(Dual-listed with ANTHR 531). Cr. 4-6.
Hands-on training in ethnographic field methods; students will carry out research
projects in socio-cultural anthropology, learning a variety of investigative research
techniques commonly used in social sciences.

ANTHR 434. Internship.
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations.
Offered on a satisfactory-fail basis only. Not more than 6 credits of internship
experience may count towards the major. No credits in Anthr 434 may be used to
satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434A. Internship: Archaeology.
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations.
Offered on a satisfactory-fail basis only. Not more than 6 credits of internship
experience may count towards the major. No credits in Anthr 434 may be used to
satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434B. Internship: Cultural Anthropology.
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations.
Offered on a satisfactory-fail basis only. Not more than 6 credits of internship
experience may count towards the major. No credits in Anthr 434 may be used to
satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434C. Internship: Biological Anthropology.
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations.
Offered on a satisfactory-fail basis only. Not more than 6 credits of internship
experience may count towards the major. No credits in Anthr 434 may be used to
satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434D. Internship: Linguistic Anthropology.
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations.
Offered on a satisfactory-fail basis only. Not more than 6 credits of internship
experience may count towards the major. No credits in Anthr 434 may be used to
satisfy Anthropology core courses for majors or for the Anthropology minor.

(Dual-listed with ANTHR 538). Cr. 3. S. Prereq: ANTHR 202 or ANTHR 307
Primate behavior and ecology in evolutionary perspective: biological and social
adaptations of prosimians, monkeys, and apes. Introduction to the Order Primates,
basic evolutionary concepts, and techniques of behavioral observation. Focus on
theory and methods current in Primatology, including applied conservation biology.

ANTHR 444. Sex and Gender in Cross-cultural Perspective.
(Dual-listed with ANTHR 544). (Cross-listed with W S). (3-0) Cr. 3. S. Prereq: ANTHR 201; ANTHR 306 recommended
Cross-cultural examination of the social construction of genders out of the biological
fact of sex. Emphasis on non-western societies. Topics, presented through
examination of ethnographic data, will include the range of gender variation, status
and roles, the institution of marriage, and symbols of gender valuation.

ANTHR 445. Biological Field School.
(Dual-listed with ANTHR 545). Cr. 4-6. SS. Prereq: ANTHR 202 or BIOL 101
Summer field school for training in behavioral and ecological methods for
primateologists. Proposal, data collection and analyses, and presentation of research
topic in primatology.
ANTHR 450. Historical and Theoretical Approaches in Anthropology.
(3-0) Cr. 3. F. Prereq: ANTHR 306
Survey of the historical foundations of anthropology and its interrelated four subfields; key figures in 19th and 20th century anthropology with a focus on major theoretical contributions.

ANTHR 451. Practicum in Anthropology.
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451A. Practicum in Anthropology: Archaeology.
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451B. Practicum in Anthropology: Cultural Anthropology.
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451C. Practicum in Anthropology: Biological Anthropology.
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451D. Practicum in Anthropology: Linguistic Anthropology.
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 482. Topics in Biological Anthropology: Paleoanthropology.
(Dual-listed with ANTHR 582D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482A. Topics in Biological Anthropology: Paleoanthropology.
(Dual-listed with ANTHR 582). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482B. Topics in Biological Anthropology: Primate Cognition.
(Dual-listed with ANTHR 582). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482C. Topics in Biological Anthropology: Population Conservation.
(Dual-listed with ANTHR 582). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482D. Topics in Biological Anthropology: Population Genetics and Human Evolution.
(Dual-listed with ANTHR 582). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 490. Independent Study.
Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490A. Independent Study: Archaeology.
Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490B. Independent Study: Cultural Anthropology.
Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490C. Independent Study: Biological Anthropology.
Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490D. Independent Study: Linguistic Anthropology.
(Cross-listed with LING). Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490H. Independent Study: Honors.
Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490I. Independent Study: Undergraduate Independent Study.
(Cross-listed with IA LL, NREM). Cr. 1-4. Repeatable. SS. Prereq: Junior or senior classification and permission of instructor

Courses primarily for graduate students, open to qualified undergraduates:

ANTHR 503. Biological Anthropology.
(3-0) Cr. 3. F. Prereq: ANTHR 307
Survey of the history of biological anthropology, current developments and theoretical issues in evolution, human variation and adaptation, population studies, primates and primate behavior, and paleoanthropology.

ANTHR 509. Agroecosystems Analysis.
(Cross-listed with AGRON, SOC, SUSAG). (3-4) Cr. 3. F. Prereq: Senior or above classification
Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing field visits, with some classroom activities. Focus on understanding multiple elements, perspectives (agronomic, economic, ecologic, social, etc.) and scales of operation.

(3-0) Cr. 3. F. Prereq: 6 credits in anthropology
Survey of historical and current developments in topical and theoretical approaches to sociocultural anthropology. Examination and assessment of controversies; new research directions and theoretical approaches.

ANTHR 511. Applied Anthropology.
(Dual-listed with ANTHR 411). (3-0) Cr. 3. F. Prereq: 6 credits in anthropology, ANTHR 201 or ANTHR 306
Theoretical and practical considerations of applying anthropological knowledge to contemporary cultural, political and economic issues. Dynamics of directed change in contemporary world cultures. Principles, theories, and ethics of international development projects from a sociocultural perspective. Meets International Perspectives Requirement.

(Dual-listed with ANTHR 313). (3-0) Cr. 3. S. Prereq: 6 credits in anthropology, ANTHR 201 recommended
Comparative and historical overview of the family, marriage and kinship. Examination of cross-cultural differences in the construction and functioning of family and kin relations; role of kinship in structuring individual and collective activities; current critical and theoretical issues in kinship studies, especially integrating work on gender and sexuality. Meets International Perspectives Requirement.

ANTHR 515. Archaeology of North America.
(Dual-listed with ANTHR 315). (Cross-listed with AM IN). (3-0) Cr. 3. S. Prereq: ANTHR 202
Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture-historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.
ANTHR 518. Global Culture, Consumption and Modernity.
(Dual-listed with ANTHR 418). (3-0) Cr. 3. F. Prereq: ANTHR 201 or ANTHR 306 recommended
Cross-cultural study of the impact of globalization, with an emphasis on economic consumption and the movement of goods, ideas, and peoples across cultural and national boundaries. Meets International Perspectives Requirement.

ANTHR 519. Skeletal Biology.
(Dual-listed with ANTHR 319). (2-2) Cr. 3. F. Prereq: ANTHR 307 or college level biology recommended
Comprehensive study of the skeletal anatomy, physiology, genetics, growth, development and population variation of the human skeleton. Applications to forensic anthropology, paeopathology, and bioarchaeology are introduced.

ANTHR 520. Great Plains Archaeology.
(Dual-listed with ANTHR 320). (Cross-listed with AM IN). (3-0) Cr. 3. F. Prereq: ANTHR 202
Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information. Meets U.S. Diversity Requirement

ANTHR 521. World Prehistory.
(Dual-listed with ANTHR 321). (3-0) Cr. 3. S. Prereq: ANTHR 202 recommended
An introduction to archaeological sites from around the world including the Near East, Africa, Europe, Mesoamerica, and North and South America. Emphasis is on the interpretation of material cultural remains in reconstructing past societies.

ANTHR 522. Peoples and Cultures of Native North America.
(Dual-listed with ANTHR 322). (Cross-listed with AM IN). (3-0) Cr. 3. Prereq: ANTHR 201 or AM IN 210
Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas: language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.

ANTHR 523. Topics in Latin American Anthropology.
(Dual-listed with ANTHR 323). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement.

ANTHR 523A. Latin American Anthropology: Violence and Memory.
(Dual-listed with ANTHR 323A). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.

ANTHR 523B. Latin American Anthropology: Social movements and Democracy.
(Dual-listed with ANTHR 323B). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement.

ANTHR 523C. Latin American Anthropology: Race, Class and Gender.
(Dual-listed with ANTHR 323C). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement.

ANTHR 523D. Latin American Anthropology: Regional Focus.
(Dual-listed with ANTHR 323D). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. Meets International Perspectives Requirement.

ANTHR 524. Forensic Anthropology.
(Dual-listed with ANTHR 424). (3-0) Cr. 3. S. Prereq: ANTHR 319
Comprehensive study of forensic anthropology, a specialized subfield of biological anthropology. Emphasis is placed on personal identifications from extremely fragmentary, comingled, burnt, cremated and incomplete skeletal remains. All parameters of forensic study are included as they pertain to anthropology, including human variation, taphonomy, entomology, archaeology, pathology, epidemiology; genetics and the non-biological forensic disciplines. An appreciation for the wide range of medicolegal and bioethical issues will also be gained.

ANTHR 528. Topics in Archaeological Laboratory Methods and Techniques: Lithics.
(Dual-listed with ANTHR 428D). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 308
Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.

ANTHR 528A. Topics in Archaeological Laboratory Methods and Techniques: Lithics.
(Dual-listed with ANTHR 428). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 308
Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition organization, and computer applications.

ANTHR 528B. Topics in Archaeological Laboratory Methods and Techniques: Ceramics.
(Dual-listed with ANTHR 428). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 308
Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition organization, and computer applications.

ANTHR 528C. Topics in Archaeological Laboratory Methods and Techniques: Faunal remains.
(Dual-listed with ANTHR 428). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 308
Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition organization, and computer applications.

ANTHR 528D. Topics in Archaeological Laboratory Methods and Techniques: General.
(Dual-listed with ANTHR 428). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 308
Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition organization, and computer applications.

ANTHR 529. Topics in Archaeological Laboratory Methods and Techniques: Archaeological Field School.
(Dual-listed with ANTHR 429). Cr. 4-6. SS. Prereq: ANTHR 202 or ANTHR 308
Summer field school for training in archaeological reconnaissance and excavation techniques; documentation and interpretation of archaeological evidence.

ANTHR 530. Ethnographic Field Methods.
Cr. 3. F. Prereq: 6 credits in anthropology, permission of instructor
Field training experience in ethnography. Problems emphasizing field studies in the contemporary societies of the world. Focus on techniques of data gathering and analysis.

ANTHR 531. Ethnographic Field School.
(Dual-listed with ANTHR 431). Cr. 4-6.
Hands-on training in ethnographic field methods; students will carry out research projects in socio-cultural anthropology, learning a variety of investigative research techniques commonly used in social sciences.
ANTHR 532. Current Issues in Native North America. (Dual-listed with ANTHR 332). (Cross-listed with AM IN 210 recommended) Conditions and issues of contemporary American Indian peoples, historical background of contemporary life; federal policies, treaty rights, and sovereignty. Economic development and politics on reservations, family and gender roles, cultural innovation and revitalization, urbanization, recent social movements, and other current concerns.

ANTHR 533. Asian American Material Cultures. (Dual-listed with ANTHR 333). (3-0) Cr. 3. A broad exposure to the cultural expressions of Asian Americans from the nineteenth century to the present. Analysis of everyday Asian American cultural experiences within the contexts of agency, power, and identity formation. Meets U.S. Diversity Requirement

ANTHR 536. Global Development. (Dual-listed with ANTHR 336). (3-0) Cr. 3. Prereq: ANTHR 201 or ANTHR 306 Cross-cultural analysis of current development practices from an anthropological perspective; focus on international aid, development institutions, agrarian reform, indigenous knowledge, humanitarianism and human rights; introduction to main theories of political and economic anthropology.

ANTHR 538. Primate Evolutionary Ecology and Behavior. (Dual-listed with ANTHR 438). (3-0) Cr. 3. S. Prereq: ANTHR 202 or ANTHR 307 Primate behavior and ecology in evolutionary perspective; biological and social adaptations of prosimians, monkeys, and apes. Introduction to the Order Primates, basic evolutionary concepts, and techniques of behavioral observation. Focus on theory and methods current in Primatology, including applied conservation biology.

ANTHR 540. Magic, Witchcraft, and Religion. (Dual-listed with ANTHR 340). (Cross-listed with RELIG). (3-0) Cr. 3. S. Prereq: ANTHR 201 or ANTHR 306 Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice. Meets International Perspectives Requirement.

ANTHR 541. Seminar in Forensic Sciences. (1-0) Cr. 1. Repeatable. S. Prereq: One 200-level science course or graduate classification Seminars by professional criminalists, research scientists, Certificate students, and educators. Emphasis on opportunities for research and development, citizen involvement, and educational outreach related to forensic science. Weekly report required.

ANTHR 544. Sex and Gender in Cross-cultural Perspective. (Dual-listed with ANTHR 444). (Cross-listed with W S). (3-0) Cr. 3. S. Prereq: ANTHR 201; ANTHR 306 recommended Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation.

ANTHR 545. Biological Field School. (Dual-listed with ANTHR 445). Cr. 4-6. SS. Prereq: ANTHR 202 or BIOL 101 and permission of instructor Summer field school for training in behavioral and ecological methods for primatologists: Proposal, data collection and analyses, and presentation of research topic in primatology.

ANTHR 550. Primate Behavior. (Dual-listed with ANTHR 350). (2-2) Cr. 3. F S.SS. Prereq: ANTHR 202 and/or basic biology course recommended. An introduction to the Order Primates with a focus on their behavior. Biological and social adaptations of monkeys, apes, and prosimians; basic evolutionary concepts, current trends and theories in the field of Primatology and issues related to primate conservation.

ANTHR 555. Seminar in Archaeology. (3-0) Cr. 3. S. Prereq: ANTHR 308 or ANTHR 429 Examination of the history of anthropological archaeology and current issues and debates concerning methods, theories and the ethics of modern archaeology.

ANTHR 582. Topics in Biological Anthropology: Paleoanthropology. (Dual-listed with ANTHR 482D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307 In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582A. Topics in Biological Anthropology: Primate Cognition. (Dual-listed with ANTHR 482). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307 In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582B. Topics in Biological Anthropology: Population Conservation. (Dual-listed with ANTHR 482). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307 In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582C. Topics in Biological Anthropology: Population Genetics and Human Evolution. (Dual-listed with ANTHR 482). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307 In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 590. Graduate Independent Study. (Cross-listed with IA LL, A ECL, EEOB, GDCB). Cr. 1-4. Repeatable. SS. Prereq: Graduate classification and permission of instructor

ANTHR 590I. Special Topics: Graduate Independent Study. (Cross-listed with A ECL, IA LL, EEOB). Cr. 1-4. Repeatable. SS. Prereq: Graduate classification and permission of instructor

ANTHR 591. Orientation to Anthropology. (1-0) Cr. 1. F. Prereq: Admission to the Anthropology Graduate Program Introduction to the Anthropology program, including the requirements for successful degree completion, department administrative procedures, ethics in anthropology and current trends in the four subfields of anthropology. Required of graduate students. Offered on a satisfactory-fail basis only.

Courses for graduate students:

ANTHR 610. Foundations of Sustainable Agriculture. (Cross-listed with AGRON, A E, SUSAG, SOC). (3-0) Cr. 3. F. Prereq: Graduate classification, permission of instructor Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

American Indian Studies

Interdepartmental Undergraduate Minor

The American Indian Studies Program is a cross-disciplinary program in the College of Liberal Arts and Sciences that emphasizes perspectives from American Indian Studies, Anthropology, art, history, literature, political science and sociology. The primary goal of the American Indian Studies program is to conduct interdisciplinary investigations of the intellectual practices, lived history, values, political Status, rights,
and responsibilities of tribal nations. Students have the opportunity to learn about the
cultural heritage of American Indians, their historical relationship with non-Indians,
and their participation in contemporary American society. They analyze the tropes
and techniques common to American Indian oral and written literatures; comparison/
contrast of American Indian cultures to mainstream and other world cultures; and,
articulation of the role American Indians are playing in approaches to modern social
and environmental issues.

The courses in the American Indian Studies Program provide added background
for students whose career interests may include multicultural education, human
Services, legal services, or public administration.

Within the College of Liberal Arts and Sciences, courses in American Indian Studies
can be used as electives, in a minor, or in an interdisciplinary studies major (for
details, see Index, Interdisciplinary Studies). Students majoring in another college
who wish to use these courses should consult with their advisers.

A minor in the College of Liberal Arts and Sciences must include at least 15 credits of
courses in the field. A minor in American Indian Studies must include:

AM IN 210 Introduction to American Indian Studies 3
Two courses chosen from the following:
AM IN 310 Topics in American Indian Studies
AM IN 322 Peoples and Cultures of Native North America
AM IN 332 Current Issues in Native North America
AM IN 346 American Indian Literature

And two additional courses chosen from the program courses listed below. The
American Indian Studies Program Committee will, upon application by the student
and review of the program, certify that the student has completed a minor in
American Indian Studies.

Because course offerings vary from year to year, any student interested in a minor
in American Indian Studies should contact the American Indian Studies office for
advising. (See Index, LAS Cross-Disciplinary Programs.)

Courses

Courses primarily for undergraduates:

AM IN 210. Introduction to American Indian Studies.
(3-0) Cr. 3. S.S.S.
Introduction to the multidisciplinary aspects of American Indian studies. Topics
include literature, the arts, history, anthropology, sociology, education, and
contemporary Indian politics. Guest lectures, media presentations, and discussion of
assigned readings.

Meets U.S. Diversity Requirement

AM IN 240. Introduction to American Indian Literature.
(Dual-listed with ENGL). (3-0) Cr. 3. F.S.S.
Appreciation of oral and written forms of American Indian literatures. Tropes and
techniques in oral, visual and written texts. Focus on the role of American Indians
in interdisciplinary approaches to modern social and environmental issues as
expressed in literary works.

Meets U.S. Diversity Requirement

AM IN 310. Topics in American Indian Studies.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.
Issues within specific topical areas of American Indian society and culture, such as
social work with Indian families, tribal government, and environmental policy.

Meets U.S. Diversity Requirement

AM IN 315. Archaeology of North America.
(Dual-listed with AM IN 515). (Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq:
ANTHR 202
Prehistory and early history of North America as reconstructed from archaeological
evidence; peopling of the New World; culture- historical sequences of major culture
areas; linkages of archaeological traditions with selected ethnohistorically known
Native American groups.

Meets U.S. Diversity Requirement

AM IN 320. Great Plains Archaeology.
(Dual-listed with AM IN 520). (Cross-listed with ANTHR). (3-0) Cr. 3. F. Prereq:
ANTHR 202
Prehistoric societies of the Great Plains region of North America, from initial
occupation to European contact; emphasis on sociocultural changes, continuities,
and adaptations to changing environments using archaeological, ecological,
ethnographic information.

Meets U.S. Diversity Requirement

AM IN 322. Peoples and Cultures of Native North America.
(Dual-listed with AM IN 522). (Cross-listed with ANTHR). (3-0) Cr. 3. Prereq: ANTHR
201 or AM IN 210
Origin, distribution, and, pre-contact life of the indigenous peoples of North America.
Survey of culture areas; language families, social and political systems, ecological
and economic adaptations, religion and spirituality; impact of European contact;
cultural resilience and revitalization in contemporary American Indian life.

Meets U.S. Diversity Requirement

AM IN 323. Topics in Latin American Anthropology.
(Dual-listed with AM IN 523D). (Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable,
maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American
Anthropology; discussion of current anthropological approaches to studying Latin
American social issues in a global context. Topics vary each time offered.

Meets International Perspectives Requirement.

AM IN 323A. Latin American Anthropology: Violence and Memory.
(Dual-listed with AM IN 523A). (Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable,
maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American
Anthropology; discussion of current anthropological approaches to studying Latin
American social issues in a global context. Topics vary each time offered.

AM IN 323B. Latin American Anthropology: Social movements and Democracy.
(Dual-listed with AM IN 523B). (Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable,
maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American
Anthropology; discussion of current anthropological approaches to studying Latin
American social issues in a global context. Topics vary each time offered.

Meets International Perspectives Requirement.

AM IN 323C. Latin American Anthropology: Race, Class and Gender.
(Dual-listed with AM IN 523C). (Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable,
maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American
Anthropology; discussion of current anthropological approaches to studying Latin
American social issues in a global context. Topics vary each time offered.

Meets International Perspectives Requirement.

AM IN 323D. Latin American Anthropology: Regional Focus.
(Dual-listed with AM IN 523D). (Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable,
maximum of 9 credits. S. Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American
Anthropology; discussion of current anthropological approaches to studying Latin
American social issues in a global context. Topics vary each time offered.

Meets International Perspectives Requirement.

AM IN 328. American Indian Religions.
(Cross-listed with RELIG). (3-0) Cr. 3.
An introduction to the beliefs and rituals of Native American religious traditions, with
attention to cultural and historical contexts and implications.

Meets U.S. Diversity Requirement

(Dual-listed with AM IN 532). (Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq:
ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Conditions and issues of contemporary American Indian peoples, historical
background of contemporary life; federal policies, treaty rights, and sovereignty.
Economic development and politics on reservations, family and gender roles, cultural
innovation and revitalization, urbanization, recent social movements, and other
current concerns.

Meets U.S. Diversity Requirement
AM IN 342. American Indian Women Writers.
(Cross-listed with W S). (3-0) Cr. 3. Prereq: ENGL 250
Literature of American Indian women writers which examines their social, political, and cultural roles in the United States. Exploration of American Indian women’s literary, philosophical, and artistic works aimed at recovering elements of identity, redescribing stereotypes, resisting colonization, and constructing femininity. Nonmajor graduate credit. Meets U.S. Diversity Requirement

AM IN 346. American Indian Literature.
(Cross-listed with ENGL). (3-0) Cr. 3. Prereq: ENGL 250
Survey of literature by Native Americans from pre-Columbian tales and songs to contemporary novels and poetry. Nonmajor graduate credit. Meets U.S. Diversity Requirement

AM IN 426. Topics in Native American Architecture.
(Cross-listed with ARCH, DSN S). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Junior classification
History, theory, and principles of Native American/American Indian architecture, landscape architecture and planning considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment of Studies in Architecture and Culture. Nonmajor graduate credit. A maximum of 6 credits of ARCH 426 may be applied to degree program. Meets U.S. Diversity Requirement

AM IN 490. Independent Study.
Cr. arr. Repeatable, maximum of 9 credits. Prereq: 6 credits in American Indian studies; permission of instructor
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits in Am In 490 may be counted toward graduation.

Biochemistry, Biophysics, and Molecular Biology

Undergraduate Study
The department offers majors in biochemistry or biophysics in the College of Liberal Arts and Sciences and a major in agricultural biochemistry in the College of Agriculture and Life Sciences.
Biochemistry and biophysicists seek to understand life processes in terms of chemical and physical principles. They conduct research in the frontiers of biology such as metabolic networking; structure and function of enzymes, membranes, and hormones; computational approaches; genomic and proteomic technology; protein engineering; plant biotechnology; muscle structure and function; and the design and evaluation of drugs for the treatment of disease. Biochemistry, biophysics and molecular biology provide the basis for much of modern biotechnology. Graduates have opportunities in industry, especially the biotechnology sector, in universities, veterinary and medical schools, and government laboratories. Students who meet the necessary high scholastic standards have the opportunity to continue their education to pursue advanced degrees in graduate school, medicine, pharmacy or veterinary medicine.
Graduates of biochemistry, agricultural biochemistry and biophysics understand the chemical principles of biological systems including molecular biology. They have developed laboratory expertise in modern biochemical techniques, including the ability to analyze data and prepare scientific reports. Most have participated in undergraduate research and have developed the skills necessary for both written and oral presentations at a level that will serve the student both within the university and in postgraduate professional life. Graduates have the experience of interacting with persons of different disciplines and cultures. Students have the training in biological and physical science and mathematics to solve problems of broad scope in biological, biomedical and environmental sciences and to provide leadership in diverse scientific and technological arenas.

Graduate Study
The department offers work for the degrees master of science and doctor of philosophy with majors in biochemistry and biophysics and with interdepartmental majors in genetics, immunobiology, MCDB (molecular, cellular, and developmental biology), plant physiology, and toxicology. Minor work is offered to students taking major work in other departments.
Prerequisite to graduate work is a sound undergraduate background in biology, chemistry, mathematics, and physics.

All graduate students are required by the department to teach as part of their training for an advanced degree.
The department offers a B.S./M.S. program in biochemistry that allows students to obtain both the B.S. and M.S. degrees in five years. The program is open to students in the College of Liberal Arts and Sciences and in the College of Agriculture. Students interested in this program should contact the department office for details.
Application for admission to the Graduate College should be made near the end of the junior undergraduate (third) year. Students would begin research for the M.S. thesis during the summer semester after their junior year and are eligible for research assistantships.

Agricultural Biochemistry Major in the College of Agriculture and Life Sciences
For the undergraduate curriculum leading to the degree bachelor of science, see College of Agriculture, Agricultural biochemistry (p. 175).

Biochemistry or Biophysics Majors in the College of Liberal Arts and Sciences
Biochemistry and biophysics are recommended to students whose career interests involve advanced graduate or medical study or employment in biochemistry or biophysics, or in related areas of the biological or medical sciences.

**Courses for Majors in Biochemistry, Agricultural Biochemistry, Biotechnology, Molecular Biology, Molecular Biophysics, and Biophysics**

- **Communication Proficiency (Minimum grade C-)**
  - Communication Proficiency: 4

- **Biological Science Electives from Biology, Genetics or Microbiology**
  - 4

- **Total Credits:** 73-81

**Communication Proficiency (Minimum grade C-)**
- **LIB 160** Information Literacy 1
- **ENGL 150** Critical Thinking and Communication 3
- **ENGL 250** Written, Oral, Visual, and Electronic Composition 3
- One course from the following:
  - **ENGL 305** Creative Writing – Nonfiction 3
  - **ENGL 309** Report and Proposal Writing 3
  - **ENGL 314** Technical Communication 3
  - **BBMB 411** Techniques in Biochemical Research 4

**Biophysics undergraduate major program of study**
- **BBMB 101** Introduction to Biochemistry 1
- **BBMB 102** Introduction to Biochemistry Laboratory 1
- **BBMB 404** Biochemistry I 3
- **BBMB 411** Techniques in Biochemical Research 4
- **BBMB 461** Molecular Biophysics 2
- **CHEM 177N** Laboratory in General Chemistry I 1
- **CHEM 177L** Laboratory in General Chemistry I 1

One of the following:
- **CHEM 201** Advanced General Chemistry 2
- **CHEM 177** General Chemistry I
- **CHEM 178** General Chemistry II
One of the following:
- **CHEM 211** Quantitative and Environmental Analysis 2
- **CHEM 211L** Quantitative and Environmental Analysis Laboratory 2
- **CHEM 322L** Laboratory in Physical Chemistry
- **CHEM 321L & BBMB 561L** Laboratory in Physical Chemistry and Laboratory in Molecular Biophysics
- **CHEM 324** Introductory Quantum Mechanics 3
- **CHEM 325** Chemical Thermodynamics 3
- **CHEM 331** Organic Chemistry I 3
- **CHEM 332** Organic Chemistry II 3
- **MATH 165** Calculus I 4
- **MATH 166** Calculus II 4
- **MATH 265** Calculus III 4
- **MATH 266** Elementary Differential Equations 3
- **MATH 207** Matrices and Linear Algebra 3
- **MATH 317** Theory of Linear Algebra 3

One course from the following:
- **MATH 481** Numerical Methods for Differential Equations and Interpolation
- **STAT 407** Methods of Multivariate Analysis
- **STAT 430** Empirical Methods for the Computational Sciences
- **PHYS 222** Introduction to Classical Physics II 5
- **COM S 207** Fundamentals of Computer Programming 3
- **STAT 305** Engineering Statistics 3-4
- **STAT 231** Probability and Statistical Inference for Engineers 3
- **BIOL 211** Principles of Biology I 3
- **BIOL 211L** Principles of Biology Laboratory I 1

**Biochemistry minor is offered in both the College of Liberal Arts and Sciences and Agriculture and Life Sciences**
- **BBMB 404** Biochemistry I 3
- **BBMB 405** Biochemistry II 3
- **BBMB 411** Techniques in Biochemical Research 4

One course from the following:
- **BBMB 461** Molecular Biophysics (2 crs)
- **BBMB 561** Molecular Biophysics (2 crs)
- **CHEM 325** Chemical Thermodynamics 3
- **CHEM 326** Laboratory in Physical Chemistry 15 or total 3-4

**Total Credits:** 15-17

These lists of courses should not be regarded as statements of fixed requirements or as complete outlines of the work necessary for the major. They are given solely for the convenience of students or advisers who wish to estimate the amount of basic study that may be needed.

See also the B.S./M.S. program under Graduate Study.

**Courses**

**Courses primarily for undergraduates:**
- **BBMB 101. Introduction to Biochemistry.**
  (1-0) Cr. 1. F. Research activities, career opportunities in biochemistry and biophysics, and an introduction to the structure of biologically important compounds. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

- **BBMB 102. Introduction to Biochemistry Laboratory.**
  (0-2) Cr. 1. S. Prereq: Credit or enrollment in CHEM 177 and CHEM 177L or CHEM 201L
  Topics in the scientific background of biochemistry, such as macromolecules, metabolism, and catalysis. Laboratory experimentation covers biochemical concepts and the study of bio-molecules including proteins, lipids and nucleic acids. A significant component is practice in scientific communication. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

- **BBMB 201. Chemical Principles in Biological Systems.**
  (2-0) Cr. 2. S. Prereq: Credit or enrollment in CHEM 332
  Survey of chemical principles as they apply in biological systems including: water, organic chemistry of functional groups in biomolecules and biochemical cofactors, weak bonds and their contribution to biomolecular structure, oxidation-reduction reactions and redox potential, thermodynamic laws and bioenergetics, chemical equilibria and kinetics, inorganic chemistry in biological systems, data presentation. The subjects will be taught using molecules from biological systems as examples. Intended for majors in biochemistry, biophysics, or agricultural biochemistry.

---

**Intended for majors in biochemistry, biophysics, or agricultural biochemistry.**

**The subjects will be taught using molecules from biological systems as examples.**

---

**Additional 300+ or higher level courses in biochemistry, biophysics, biological sciences, chemistry or physics.**

**Total Credits:** 78-79
BBMB 221. Structure and Reactions in Biochemical Processes.  
(3-0) Cr. 3. F. Prereq: CHEM 163, CHEM 167, or CHEM 177  
Fundamentals necessary for an understanding of biochemical processes. Primarily  
for students in agriculture. Not acceptable for credit toward a major in biochemistry,  
biophysics, or agricultural biochemistry. Credit for both BBMB 221 and Chem 231  
may not be applied toward graduation.

BBMB 301. Survey of Biochemistry.  
(3-0) Cr. 3. F.S.SS. Prereq: CHEM 231 or CHEM 331  
A survey of biochemistry: structure and function of amino acids, proteins,  
carbohydrates, lipids, and nucleic acids; enzymology; metabolism; biosynthesis; and  
selected topics. Not acceptable for credit toward a major in biochemistry, biophysics,  
or agricultural biochemistry.

(3-0) Cr. 3. F. Prereq: CHEM 231 or CHEM 331; BIOL 212  
Understanding biological systems at the molecular level; chemistry of biological  
macromolecules, enzyme function and regulation, metabolic pathways; integration  
of metabolism in diverse living systems. For students in biology and related majors who  
do not require the more rigorous treatment of biochemistry found in BBMB 404/405.  
Not acceptable for credit toward a major in biochemistry, biophysics, or  
agricultural biochemistry.

BBMB 404. Biochemistry I.  
(3-0) Cr. 3. F. Prereq: CHEM 332  
A general overview for graduate and advanced undergraduate students in  
agricultural, biological, chemical and nutritional sciences. Chemistry of amino  
acids, proteins, carbohydrates, and lipids; vitamins; protein structure; enzymology;  
carbohydrate metabolism. Nonmajor graduate credit. Credit for both BBMB 420 and  
the BBMB 404 - 405 sequence may not be applied toward graduation.

BBMB 405. Biochemistry II.  
(3-0) Cr. 3. S. Prereq: BBMB 404  
A general overview for graduate and advanced undergraduate students in  
agricultural, biological, chemical, and nutritional sciences. Metabolism of  
carbohydrates, amino acids, nucleotides and lipids; formation, turnover, and  
molecular relationships among DNA, RNA, and proteins; genetic code; regulation  
of gene expression; selected topics in the molecular physiology of plants and animals.  
Nonmajor graduate credit. Credit for both BBMB 420 and the BBMB 404 - BBMB 405  
sequence may not be applied toward graduation.

BBMB 411. Techniques in Biochemical Research.  
(2-8) Cr. 4. F. Prereq: Credit or enrollment in BBMB 404 or BBMB 501; CHEM 211  
Introduction to laboratory techniques for studying biochemistry, including:  
chromatographic methods; electrophoresis; spectrophotometry; enzyme purification;  
enzyme kinetics; and characterization of carbohydrates, proteins, lipids, and nucleic  
acids. Nonmajor graduate credit.

BBMB 420. Physiological Chemistry.  
(3-0) Cr. 3. F. Prereq: CHEM 332, BBMB 301 or BIOL 314  
Structure and function of proteins; enzymology; biological oxidation; chemistry  
and metabolism of carbohydrates, lipids, amino acids and nucleic acids; protein  
synthesis and the genetic code; relationship of biochemistry to selected animal  
diseases. Biochemistry of higher animals emphasized. Nonmajor graduate credit.  
Not acceptable for credit toward a major in agricultural biochemistry, biochemistry  
or biophysics. Credit for both BBMB 420 and the BBMB 404 - 405 sequence may not  
be applied toward graduation.

(Dual-listed with BBMB 530). (Cross-listed with MICRO). (3-0) Cr. 3. Alt. S., offered  
2013. Prereq: MICRO 302, MICRO 302L  
Survey of the diverse groups of procaryotes emphasizing important and  
distinguishing metabolic, phylogenetic, morphological, and ecological features of  
members of those groups.

BBMB 440. Laboratory in Microbial Physiology, Diversity, and Genetics.  
(Cross-listed with MICRO). (2-6) Cr. 4. F. Prereq: MICRO 302, MICRO 302L, CHEM 332, BIOL 313L  
Study of the fundamental techniques and theory of studying the cellular mechanisms  
and diversity of microbial life. Experimental techniques will include isolation and  
physiological characterization of bacteria that inhabit different environments.  
Also included are techniques for the phylogenetic characterization, and genetic  
manipulation of diverse species of bacteria.

BBMB 461. Molecular Biophysics.  
(Dual-listed with BBMB 561). (2-0) Cr. 2. S. Prereq: Credit or enrollment in CHEM 324 and CHEM 325  
Physical methods for the study of molecular structure and organization of biological  
materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and  
fluorescence spectroscopy. Registration for the graduate credit commits the student  
to graduate-level examinations, which differ from undergraduate-level examinations  
in the number and/or difficulty of questions.

BBMB 490. Independent Study.  
Cr. arr. Repeatable. F.S.SS. Prereq: College of Agriculture: junior or senior  
classification and permission of instructor; College of Liberal Arts and Sciences:  
permission of instructor  
College of Agriculture: a maximum of 6 credits of 490 may be applied toward  
graduation. College of Liberal Arts and Sciences: a maximum of 9 credits may be  
applied toward graduation.

BBMB 490H. Independent Study, Honors.  
Cr. arr. Repeatable. F.S.SS. Prereq: College of Agriculture: junior or senior  
classification and permission of instructor; College of Liberal Arts and Sciences:  
permission of instructor  
Independent study with a faculty mentor. College of Agriculture: a maximum of  
6 credits of 490 may be applied toward graduation. College of Liberal Arts and  
Sciences: a maximum of 9 credits of 490 may be applied toward graduation.

BBMB 499. Undergraduate Research.  
Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of faculty member with whom  
student proposes to work.  
Independent research under faculty guidance.

Courses primarily for graduate students, open to qualified undergraduates:

BBMB 501. Comprehensive Biochemistry I.  
(4-0) Cr. 4. F. Prereq: CHEM 211, CHEM 332; a previous course in biochemistry is  
strongly recommended  
Chemical composition of living matter and the chemistry of life processes. Chemical  
characterization of amino acids, proteins, carbohydrates and lipids; enzymology and  
coenzymes; metabolism of carbohydrates; biological oxidations.

BBMB 502. Comprehensive Biochemistry II.  
(4-0) Cr. 4. S. Prereq: BBMB 501  
Chemical composition of living matter and the chemistry of life processes.  
Metabolism of lipids, amino acids, and nucleotides; membrane biochemistry;  
biosynthesis of DNA, RNA, and proteins; gene regulation; selected topics.

BBMB 503. Bioinorganic Chemistry.  
(Cross-listed with CHEM). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: CHEM 402 or  
BBMB 405  
Essential elements: transport and storage of ions and of oxygen; metalloenzymes  
and metallocoenzymes; electron-transfer processes in respiration and  
photosynthesis; metabolism of nonmetals and redox processes involved in it;  
medicinal aspects of inorganic chemistry.

BBMB 520. Genetic Engineering.  
(Cross-listed with GDCB, MCDB). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: GEN 411  
or BBMB 405  
Independent study with a faculty mentor. College of Agriculture: a maximum of  
6 credits of 490 may be applied toward graduation. College of Liberal Arts and  
Sciences: a maximum of 9 credits of 490 may be applied toward graduation.

BBMB 541. Molecular Biophysics.  
(Dual-listed with BBMB 561). (2-0) Cr. 2. S. Prereq: Credit or enrollment in CHEM 324 and CHEM 325  
Physical methods for the study of molecular structure and organization of biological  
materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and  
fluorescence spectroscopy. Registration for the graduate credit commits the student  
to graduate-level examinations, which differ from undergraduate-level examinations  
in the number and/or difficulty of questions.

BBMB 542. Undergraduate Research.  
Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of faculty member with whom  
student proposes to work.  
Independent research under faculty guidance.

BBMB 542A. DNA Techniques.  
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM,  
VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification  
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered  
on a satisfactory-fail basis only.
Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting; NMR, introduction to high-performance computing, immunophenotyping, and monoclonal antibody production. Offered on a satisfactory-fail basis only.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

Includes metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

BBMB 542G. Genomic Techniques. Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

BBMB 552. Biomolecular NMR Spectroscopy. (2-0) Cr. 2. Alt. S., offered 2013. Prereq: CHEM 325 or permission of instructor
Advanced solution state Nuclear Magnetic Resonance spectroscopy as applied to biological systems. Topics include theoretical principles of NMR, practical aspects of experimental NMR, methodologies for protein structure determination, NMR relaxation, recent advances in NMR spectroscopy.

BBMB 561. Molecular Biophysics. (Dual-listed with BBMB 461). (2-0) Cr. 2. S. Prereq: Credit or enrollment in CHEM 324 and CHEM 325
Physical methods for the study of molecular structure and organization of biological materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy. Registration for graduate credit commits the student to graduate-level examinations, which differ from undergraduate-level examinations in the number and/or difficulty of questions.

BBMB 561L. Laboratory in Molecular Biophysics. (1-3) Cr. 2. S. Prereq: Credit or enrollment in BBMB 461/BBMB 561
Practice in methods of X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy as applied to macromolecules.

BBMB 569. Bioinformatics III (Structural Genome Informatics). (Cross-listed with BCB, COM S, CPR E). (3-0) Cr. 3. F. Prereq: BCB 567, GEN 411, STAT 430

BBMB 590. Special Topics. Cr. arr.
By arrangement.

BBMB 593. Workshop in Biochemistry and Biophysics. Cr. 1. Repeatable. F.S. Prereq: Permission and signature of course administrator required.
Workshops in selected topics in biochemistry and biophysics. Credit in this course does not meet the requirement for advanced graduate electives in Biochemistry. Spring only; BBMB Undergraduate Research Symposium participation. Scheduled class meetings are required in addition to attending the symposium.

Courses for graduate students:

Description of unique aspects of plant biochemistry including lipid metabolism, cell wall structure, secondary metabolism, phytoalexin biosynthesis, and plant defenses.

BBMB 615. Molecular Immunology. (Cross-listed with MICRO, V MPM). (3-0) Cr. 3. Alt. F., offered 2013. Prereq: BBMB 405 or BBMB 502
Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signaling pathways leading to expression of genes that control and activate immune function.

BBMB 622. Carbohydrate Chemistry. (2-0) Cr. 2. Alt. S., offered 2012. Prereq: BBMB 404 or BBMB 501
Structure, occurrence, properties, function, and chemical and enzymatic modifications of monosaccharides, oligosaccharides, polysaccharides, and glycoproteins.

Fundamental and advanced enzyme kinetics. Topics include integrated rate equations, methods for deriving initial-rate equations, inhibition, product effects, methods for verifying kinetic mechanisms, allostery, hysteresis, isotope effects, and complex kinetic mechanisms.

The chemical basis of enzymatic catalysis with emphasis on mechanisms of substrate recognition, general acid-base catalysis and stereo-electronic factors.

BBMB 645. Molecular Signaling. (2-0) Cr. 2. Alt. S., offered 2013. Prereq: BBMB 405, BBMB 420, or BBMB 502
Molecular mechanisms of cellular signaling including receptor activation, desensitization and cross talk, signal transduction pathways, and nuclear receptors. Discussion includes a variety of cell surface receptors and their hormone; growth factor and extracellular matrix activators; protein kinases; caspase and transcription factor downstream signals; lipids, gases and cyclic nucleotides as regulators of cell signaling. Course content includes current literature, student and instructor presentations and research proposal writing.

BBMB 652. Protein Chemistry - Chemical Methods. (2-0) Cr. 1. Alt. F., offered 2013. Prereq: BBMB 404 or BBMB 501
First 8 weeks. Chemical reactions as a means of determining protein structure and biological function.

BBMB 653. Protein Chemistry - Physical Methods. (2-0) Cr. 1. Alt. F., offered 2013. Prereq: BBMB 404 or BBMB 501
Second 8 weeks. Protein structure determination as a means of understanding biological function.

Protein and lipid constituents of biological membranes. Structure and topography of membrane proteins. Selected topics concerning the membrane proteins involved in diverse biochemical processes, such as energy transduction transport across membranes, neurotransmission and signal transduction.

BBMB 661. Current Topics in Neuroscience. (Cross-listed with NEURO, GDCB). (2-0) Cr. 2-3. Repeatable. Alt. S., offered 2014. Prereq: NEURO 556 (or comparable course) or permission of instructor
Topics may include molecular and cellular neuroscience, neurodevelopment, neuropasticity, neurodegenerative diseases, cognitive neuroscience, sensory biology, neural integration, membrane biophysics, neuroethology, techniques in neurobiology and behavior.

In-depth discussion of nucleic acid properties, structures and structure/function relationships. Interactions between nucleic acids and proteins will be emphasized.

BBMB 676. Biochemistry of Gene Expression in Eucaryotes. (Cross-listed with MCDIB). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: BBMB 404 or BBMB 501, BBMB 405 or BBMB 502 or GDCB 511
Analysis of the biochemical processes involved in expression of eucaryotic genes and the regulation thereof, including RNA polymerase, transcriptional regulatory proteins, enhancers and silencers, chromosome structure, termination, RNA processing, RNA transport, RNA turnover, small RNAs translational regulation, protein turnover.
Bioinformatics and Computational Biology Undergraduate

Undergraduate study

Undergraduate study in BCBio is jointly administered by the Department of Computer Science, the Department of Genetics, Development, and Cell Biology, and the Department of Mathematics. The undergraduate B.S. degree is offered through the College of Liberal Arts and Sciences.

Bioinformatics and Computational Biology is an interdisciplinary science at the interfaces of the biological, informational, and computational sciences. The science focuses on a variety of topics. These include gene identification, expression, and evolution; RNA, protein, and genome structure; and molecular and cellular systems and networks. The large group of participating faculty provides students with a multidimensional perspective on bioinformatics and computational biology and presents them with broad range of possibilities to get involved in research.

This major will prepare students for careers at the interfaces of biological, informational and computational sciences. BCBio graduates with a B.S. seeking direct employment will find ready markets for their talents in agricultural and medical biotechnology industries, as well as in academia, national laboratories, and clinics. Although some students find employment directly after their baccalaureate training, many students will continue their education in one of the many excellent graduate programs in bioinformatics and computational biology that now exist.

Participation in this field requires that students achieve a high level of competence not only in biology, but also in mathematics, computer science, and statistics. As a result, the program includes required courses from many different disciplines. Graduates demonstrate an above-average ability to synthesize methods from these different disciplines to solve problems.

In addition to basic degree requirements listed in the Curriculum in Liberal Arts and Sciences (www.las.iastate.edu/academics/generaleducation/), BCBio majors must satisfy the following requirements:

A. Complementary Courses for the BCBio Major (34 cr)

One of the following

Courses

Courses primarily for undergraduates:

BCBIO 110. BCBIO Orientation.
(1-0) Cr. 0.5. F.
First 8 weeks. Orientation to the area of bioinformatics and computational biology. For students considering a major in BCBIO. Specializations and career opportunities. Offered on a satisfactory-fail basis only.

BCBIO 211. Introduction to Bioinformatics and Computational Biology.
(3-0) Cr. 3. S.
Perl programming, molecular biology, biological databases, sequence alignment, homology search, identification of sequence patterns, construction of phylogenetic trees, gene function prediction, gene structure prediction, genomic annotation and comparative genomics.

BCBIO 401. Fundamentals of Bioinformatics and Computational Biology I.
(3-0) Cr. 3. F. Prereq: BCBIO 211 and basic programming experience (e.g. COM S 207, COM S 208, COM S 227 or permission of instructor)
Application of computer science to molecular biology. String algorithms, sequence alignments, indexing data structures, homology search methods, pattern recognition, fragment assembly, genome annotation, construction of bioinformatics databases, and gathering and distribution of biological information with the Internet.

BCBIO 402. Fundamentals of Bioinformatics and Computational Biology II.
(3-0) Cr. 3. S. Prereq: BCBIO 401

BCBIO 442. Bioinformatics and Computational Biology Techniques.
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS. Prereq: BIOL 314 recommended
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only. Nonmajor graduate credit.

BCBIO 442A. Bioinformatics and Computational Biology Techniques: Sequence Database Searching.
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS. Prereq: BIOL 314 recommended
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only. Nonmajor graduate credit.

BCBIO 442B. Bioinformatics and Computational Biology Techniques: Protein Structure Databases, Visualization, and Prediction.
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS. Prereq: BIOL 314 recommended
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only. Nonmajor graduate credit.

BCBIO 442C. Bioinformatics and Computational Biology Techniques: Phylogenetic Analysis.
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS. Prereq: BIOL 314 recommended
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only. Nonmajor graduate credit.

BCBIO 444D. Bioinformatics and Computational Biology Techniques: Microarray Analysis.
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS. Prereq: BIOL 314 recommended
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only. Nonmajor graduate credit.

BCBIO 490. Independent Study.
Cr. 1-5. Repeatable, maximum of 9 credits. F.S.S. Prereq: BCBIO 211, junior or senior classification, permission of instructor
Students in the College of Liberal Arts and Sciences may use no more than 9 credits of BCBIO 490 and 491 toward graduation.

BCBIO 491. Team Research Projects.
Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: BCBIO 211, junior or senior classification, permission of instructor
Research projects in bioinformatics and computational biology done by teams of students. Students in the College of Liberal Arts and Sciences may use no more than 9 credits of BCBIO 490 and 491 toward graduation.

Biological/Pre-Medical Illustration

Interdepartmental Undergraduate Program

Undergraduate Study

The interdepartmental undergraduate BPM I major is designed for students who want to combine their interests and aptitudes in science and art. Based on the theme of "communicating science through art," the major prepares students for careers in biological illustration or for graduate education in medical illustration elsewhere. Graduates enter fields such as biocommunications, environmental display design, free-lance illustration, museum display design, and various careers in the publishing industry. Entrance into the BPM I program is by application to the BPM I Advisory Committee. Eligibility is based on an academic standard of at least 2.00 CGPA on 30 credits of university level work and a consideration of artistic ability as demonstrated through submission of a portfolio of representative drawings or other art work. Freshman and transfer students usually declare pre-BPM I as their major while satisfying the conditions for entrance into the major, although other majors can be declared.

To earn the B.A. degree offered by the College of Liberal Arts and Sciences, students must complete the general education requirements in that college and take at least 41 credits in design and 32 credits in the biological sciences.

Biology

(Interdepartmental Undergraduate Program)

Iowa State University is a major center for research and education in the biological sciences. With over 200 faculty in the life sciences, students have the opportunity to learn from some of the nation's leaders in biological research and teaching and to participate in innovative, meaningful research projects that explore frontiers of biology. Few other universities have such a wealth of faculty expertise available to undergraduate students, making Iowa State's Biology Program the logical choice for those who want to participate in a thriving academic community.

The faculties of the Department of Ecology, Evolution and Organismal Biology and the Department of Genetics, Development and Cell Biology jointly offer the undergraduate biology major. This high quality academic program has the flexibility to accommodate a range of career goals while taking advantage of the university’s strengths in science and technology. A bachelor’s degree in biology provides excellent preparation for graduate study in biological disciplines ranging from the molecular to the ecological levels, and for entrance into various professional schools, such as human medicine, physical therapy, or veterinary medicine. The major is well suited for those who plan to teach biology, who wish to enter government or industrial employment in health or environmental professions, or who prefer educational breadth as an end in itself. By working with our professional and faculty advisers, it is possible to design a unique program of study that will meet student needs and objectives.

Students with special interests and aptitudes should consider combining biology with a minor or a second major in another subject, such as chemistry, environmental studies, journalism, mathematics, music, statistics, or many other subjects offered by the university.

Customizing a degree

Biology encompasses an amazing diversity of disciplines and scales of study ranging from molecules to the biosphere. The Biology major offers a rich variety of coursework addressing most of the areas of biology. The major’s curriculum requirements offer tremendous flexibility in creating an individualized program of study to facilitate achievement of a student’s career goals, while simultaneously assuring some exposure to all areas of biology and providing complementary knowledge from supporting courses in chemistry, physics, and math/statistics.

While flexibility is the hallmark of the Biology major, the breadth of the field can also be challenging. Thus, in an effort to provide more guidance to students who desire such, the major also provides five advising tracks, or areas of specialization, for students who wish to focus on subfields of biology or who have specific career goals in mind. Course plans for each area of specialization are listed on the Biology web site. The areas are:

Pre-medical and Human Health Professions—This area emphasizes preparation for further study in medical school or allied human health professions such as
dentistry, optometry, genetic counseling, physical therapy, occupational therapy, physician assistant, nursing, chiropractic, and others. It also will prepare students for a broad range of careers in the biological sciences. Students are urged to determine the specific entrance requirements for the professional schools where they might study and to plan a program of study accordingly, in addition to following the basic plan.

Pre-veterinary—An eventual degree in Veterinary Medicine can lead to a wide variety of careers, including private clinical practice in small animal medicine or agricultural animal production. But, pre-veterinary students can also prepare themselves for careers in animal research, public health, laboratory animal medicine, food safety, regulatory medicine, and education. Specific requirements for entrance to the Iowa State Veterinary College or other schools should be consulted as programs of study are planned, in addition to following the basic plan.

Molecular and Cellular Biology—Students specializing in this field will explore the structure, function, and interactions of the molecules and sub-cellular features that make up living cells. This area is particularly designed for those who plan to pursue a career in research in molecular or cell biology or in related areas such as biochemistry, genetics, microbiology, developmental biology, human medicine, or veterinary medicine. Many students in this area will choose to go on to graduate school.

Ecology and Conservation Biology—Ecologists examine the interactions and relationships that living organisms have with each other and their environment. Conservation biologists study the nature and status of Earth’s biodiversity with the aim of protecting species, their habitats, and ecosystems from excessive rates of extinction and loss. Students who choose this specialization may go on to work for a non-profit environmental group; an environmental consulting firm; a local, state, or federal agency; or other related organizations. Many students in this area will choose to go on to graduate school.

Evolution and Biodiversity—This area provides students with a sound understanding of evolutionary principles and the biological patterns that result from evolutionary change. Students have the opportunity to explore, in depth, the biodiversity found within a wide range of groups of organisms. Students who choose this specialization may go on to work for a non-profit environmental group; an environmental consulting firm; a local, state, or federal agency; or other related organizations. Many students in this area will choose to go on to graduate school.

Other opportunities

Teacher licensure—Biology majors seeking licensure to teach biology in secondary schools must meet requirements of the Teacher Education Program as well as those of the Biology Program. In addition, they must apply formally for admission to the teacher education program. See the section on Teacher Education for a list of licensure areas, degree requirements, and other information about this program.

Undergraduate research—Students who have interests in biological research are encouraged to become involved in the research projects of faculty members on campus. Those doing so may receive credit for the experience in BIOL 490 Independent Study. Making the effort to find a suitable research mentor and engaging in research work can be one of the most valuable experiences of an undergraduate education. Internship experiences are often available at other universities, zoos, museums, governmental and non-governmental entities focused on environmental issues, and at industrial or government laboratories. Students participating in such projects may receive internship credit in BIOL 494 Biology Internship.

Field trip courses—The Biology Program offers two field trip courses: BIOL 393 (North American Field Trips in Biology) and BIOL 394 (International Field Trips in Biology). In recent years, field trip opportunities to the Boundary Waters area of Minnesota, Honduras, and Spain have been available. These courses involve a pre-trip seminar followed by one-week to one-month long field trips at a time when academic year classes are not in session. The classes are low enrollment and allow extensive interaction between instructors and students in locations of biological interest.

International experience—Because major discoveries in science often result from global efforts, biology majors are encouraged to include an international or study abroad component in their degree programs. This can be done by participating in international field trips originating from the ISU campus in BIOL 394 International Field Trips in Biology. In addition, many students choose to study abroad, attending a university in another country for up to a year as an exchange student. Minors in a foreign language can also add an international emphasis to a degree in biology.

Courses offered at other locations

In addition to biological science courses taught on campus, students may take courses at various remote locations and arrange to have the credits count toward the advanced courses required in the biology major. Attending a summer field station adds an important component to an undergraduate program of study.

Gulf Coast Research Laboratory—The Gulf Coast Research Laboratory is affiliated with the University of Southern Mississippi. Iowa State students may register for marine biology courses and transfer credit to their degree programs under the number BIOL 480 Studies in Marine Biology. Written permission of the Biology Program Director is required for this arrangement. Courses that are available each summer are listed at www.coms.usm.edu.

Summer Biological Field Stations—Courses taken at summer field stations may be transferred to Iowa State University as credit in BIOL 481 Summer Field Studies. Such stations are found throughout the country and offer courses that emphasize the adaptation of plants and animals to unique environments. See www.biology.iastate.edu for links to Iowa Lakeside Laboratory and other field stations in different biomes, e.g. marine/coastal, Great Lakes, taiga, deciduous forests, deserts, Rocky Mts., etc.

Organization for Tropical Studies—Iowa State students may register for courses in tropical biology taught in Costa Rica by the Organization for Tropical Studies. Credit is transferred to Iowa State as BIOL 482 Tropical Biology. For further information see www.ots.duke.edu or contact the Biology Student Services Office in 103 Bessey Hall.

General requirements

Students may earn the B.S. degree in Biology from either the College of Liberal Arts and Sciences or from the College of Agriculture and Life Sciences. Students in the College of Liberal Arts and Sciences must fulfill the foreign language and general education requirements for that college. Students in the College of Agriculture and Life Sciences must meet the general education requirements for that college. Contact the Student Services Office for details regarding differences in general education and course requirements that are specific to these colleges.

Supporting course requirements—Understanding biology requires a basic understanding of the physical sciences and mathematics. Consequently, a minimum number of credits in general chemistry, organic chemistry, biochemistry, and physics is required. See the Biology Program Web Site for specific supporting science requirements.

The Math requirement is competency based. After demonstrating competency in algebra and trigonometry, biology majors must take two semesters of calculus; or two semesters of Statistics; or one semester of calculus and one semester of Statistics chosen from a list of approved courses available on the Biology Program Web Site and in the Biology Program Office.

Given the important role of writing in the modern sciences, biology majors must demonstrate communication competency by earning a minimum of C in both ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition or equivalent composition courses and in one advanced writing course numbered ENGL 302 through ENGL 316, or JLC 347.

Undergraduate Study

Biology majors start their studies in the biological sciences by taking a unified biology core curriculum consisting of six integrated courses, including four with labs. The first year provides a broad introduction to the nature of life.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 211</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 211L</td>

<tr>
<td>BIOL 212L</td>
<td>1</td>
</tr>
<tr>
<td>Total Credits</td>
<td>8</td>
</tr>
</tbody>
</table>

During the first year, students also take BIOL 110 Introduction to Biology and BIOL 111 Opportunities in Biology, which are half-semester courses designed to introduce the student to the discipline of biology and opportunities for careers in biology. Students transferring into the Biology major BIOL 112 in place of BIOL 110.

Students then explore concepts of ecology in BIOL 312; the principles of genetics in BIOL 313 and BIOL 313L; cell and molecular biology in BIOL 314; and evolutionary biology in BIOL 315. Biology majors must take an additional 21 credits of biological science at the 300 level, or above, from an approved list of courses. Of these, at least 9 credits must be taken as BIOL courses, and a minimum of two BIOL laboratory or field courses must also be included.

Biology majors should carefully consider their selection of upper-level courses to allow them to emphasize one, or more, of the sub-disciplines of Biology relevant to their post-baccalaureate objectives. Most biology courses numbered 300 or above can be used to satisfy the additional credit requirement. Some courses taught in other departments can also be applied to the biology major. Advanced students should consider including 500 level courses in their programs. The Biology Program’s web site has a complete listing of acceptable upper-level life science courses.

Biology majors must demonstrate competency in their understanding of the biological sciences. Thus, grades of C- or better in all biological science courses applied to
the major are required. Furthermore, in order to graduate, a student must have a cumulative average in the major of at least 2.00.

Minor

A minor in Biology is offered by the Biology Program. The minor requires 15 credits in Biology and includes the completion of the specific courses listed below:

<table>
<thead>

| BIOL 112    | Cell Biology; Neuroscience; Plant Biology; Toxicology; Computational Biology; Ecology and Evolutionary Biology; Genetics; Molecular, Cellular and Developmental Biology; Neuroscience; Plant Biology; Toxicology; Immunobiology; and Environmental Science are also available. (See Index.)

A non-thesis master’s degree in Interdisciplinary Graduate Studies (biological sciences) has been established particularly for those who wish to have a more diversified program of advanced study than that generally permitted by specific departments and programs.

Graduate Study

Biology is an undergraduate major only. Persons interested in graduate study in the biological sciences should apply directly to one of the life science graduate programs at Iowa State University. Interdepartmental graduate offerings in Bioinformatics and Computational Biology; Ecology and Evolutionary Biology; Genetics; Molecular, Cellular and Developmental Biology; Neuroscience; Plant Biology; Toxicology; Immunobiology; and Environmental Science are also available. (See Index.)

Curriculum in Biology

College of Liberal Arts and Sciences

Administered by the Departments of Ecology, Evolution, and Organismal Biology; and Genetics, Development and Cell Biology. Students should consult the Biology Student Services Office, 103 Bessey (or biology@iastate.edu) for the appropriate course selections for professional or graduate school preparation.

Total Degree Requirement: 120 cr.

Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

International Perspective: 3 cr.

U.S. Diversity: 3 cr.

Undergraduate Study

Students wishing to pursue an undergraduate degree in the basic plant sciences are encouraged to investigate the numerous possibilities available to them at Iowa State University. The undergraduate Biology Program, jointly administered by faculties of the departments of Ecology, Evolution, and Organismal Biology (EEOB) and Genetics, Cell and Developmental Biology (GDCB), includes a wide spectrum of opportunities for students to develop their academic interests through the study of plant biology. Students can major in Biology in the College of Liberal Arts and Sciences or in the College of Agriculture. Contact the Biology Student Services office in 103 Bessey Hall for general information about the Biology Program. For those students interested in applied plant sciences, undergraduate majors in Agronomy, Horticulture, and Forestry are also available through the College of Agriculture.

Graduate Study

The Botany Graduate Program offers work for the degrees Master of Science and Doctor of Philosophy with a graduate major in Botany, and minor work for students majoring in other departments or graduate programs. Within the Botany Graduate Major, one of the following areas of specialization may be designated: aquatic and wetland ecology, cytology, ecology, morphology, mycology, physiology and molecular biology, or systematics and evolution. Relevant graduate courses that may be counted toward completion of the degree are offered by both departments of EEOB and GDCB, and by other departments and programs. The specific requirements for each student’s course distribution and research activities are set by the Program of Study Committee established for each student individually, and must satisfy all requirements of the Graduate College (See Index). GRE (and if necessary, TOEFL) scores are required of all applicants; students are encouraged to contact faculty prior to application.

Related interdepartmental graduate majors in Ecology and Evolutionary Biology (EEOB); Environmental Science (EnSci); Genetics (IG); Molecular, Cellular and Developmental Biology (MCDB); Plant Physiology (IPPM); and Toxicology should also be investigated as possible graduate programs with specific disciplinary focus. At present, the Botany Graduate Program is under review and may change Status in the near future. Before applying for admission to the Botany Graduate Major, prospective students should contact the Botany Graduate Program Director of Graduate Education Dr. Robert Wallace (rwallace@iastate.edu) for specific details about the program’s Status and application procedures.

Chemistry

Undergraduate Study

For undergraduate curricula in liberal arts and sciences leading to the degrees Bachelor of Science and Bachelor of Arts, see Liberal Arts and Sciences, Curriculum. Graduates holding the B.S. degree in Chemistry qualify in many fields as: teachers of Chemistry, supervisors in industry, technical sales personnel, and research chemists in federal, state, municipal, academic, or industrial laboratories. Students with high scholastic standing often continue with graduate work, where they may explore more thoroughly the specialized areas of chemistry in which they are interested. The B.A. degree is useful for students who intend to pursue studies in parallel areas, such as secondary school teaching, or to obtain additional majors or strong minors. The B.A. degree does not prepare students as well for graduate study or professional employment in chemistry. Graduates have firm foundations in the fundamentals and application of current chemical theories. They are able to design, carry-out, record, and analyze the results of chemical experiments. They are able to use modern instrumentation and classical techniques to identify and solve chemical problems as well as explore new areas of research. Graduates are able to communicate the results of their work to chemists, as well as non-chemists. They understand the ethical and environmental dimensions of problems and issues facing chemists. They follow the proper procedures and regulations for safe storage, labeling, use of chemicals, and disposal of chemicals. Graduates are skilled in problem solving, critical thinking, and analytical reasoning. These skills may be applied to careers in education and industry; in professions such as law, medicine, environmental sciences, and forensic sciences. The curricula in Chemistry are approved by the American Chemical Society (ACS). Students who complete the program obtain an ACS certified baccalaureate degree provided they also take one Biochemistry course, typically BBMB 316 Survey of Biochemistry, BBMB 316 (http://catalog.iastate.edu/azcourses/bbmb) Principles of Biochemistry or BBMB 404 Biochemistry I and BBMB 405 (http://catalog.iastate.edu/azcourses/bbmb) Biochemistry II.

Liberal arts majors who wish to transfer into Chemistry at the end of their second year may still complete all degree requirements and graduate within five years.
Graduate Study
The Department offers work for the degrees Master of Science and Doctor of Philosophy with majors in Chemistry, Analytical, Inorganic, Organic, and Physical chemistry. Co-majors may be taken between areas within Chemistry or between one of the areas in Chemistry and another department. Courses in other areas of Chemistry as well as courses in other departments may be used to satisfy the requirement for coursework outside the major field. A Ph.D. student in Chemistry may choose an additional specialty in one of six areas: Materials Chemistry, Industrial Chemistry, Biomolecular Sciences, Chemistry Education, Chemical Instrumentation, and Forensic Chemistry. A minimum of ten credits is required for each additional specialty. A course which counts towards an additional specialty may also count toward the outside course requirement. A minor in Chemistry is available to students in other departments. The Department participates in the interdepartmental major in Toxicology.

The Department of Chemistry requires all graduate students majoring in Chemistry to teach as part of their training for an advanced degree. Prerequisite to major graduate work is the completion of undergraduate work in Chemistry, Mathematics, and Physics substantially equivalent to that required of undergraduate Chemistry majors at this institution.

The course numbers for general Chemistry courses include 163-178, and 201.

Undergraduate students seeking the B.S. degree in Chemistry usually take courses essential to the degree program according to the following schedule:

**First year**

<table>

Colleges and Curricula
CHEM 301  Inorganic Chemistry
CHEM 316 & 316L Instrumental Methods of Chemical Analysis and Instrumental Analysis Laboratory
CHEM 325 & CHEM 325L or CHEM 322L Chemical Thermodynamics Laboratory in Physical Chemistry
CHEM 332 & 332L Organic Chemistry II and Laboratory in Organic Chemistry II

The total minimum credits in Chemistry thus will be 20 to 23 depending on which advanced courses are selected.

Communication Proficiency requirement: The Department requires a grade of C– or better in each of:
ENGL 150 Critical Thinking and Communication 3-6
ENGL 250 or ENGL 250H Written, Oral, Visual, and Electronic Composition

Courses

Courses primarily for undergraduates:

CHEM 050. Preparation for College Chemistry. (3-0) Cr. F.S.SS. Prereq: 1 year high school algebra
An in-depth active learning experience designed to impart the fundamental concepts and principles of chemistry, with an emphasis on mathematics skills and logical thinking. For students intending to enroll in general chemistry and who have not taken high school chemistry or who have not had a high school college preparatory chemistry course who need a review of chemical problem solving and chemical concepts. Credit for Chem 50 does not count toward graduation.

CHEM 101. Chemistry Learning Community Orientation. (1-0) Cr. F.S. Prereq: Member of the Chemistry Learning Community.
Integration of first year and transfer students into the chemistry program. Introduction and overview of degree requirements and support services on campus, assistance with transition to college and community life, and team-building and leadership activities. Offered on a satisfactory-fail basis only.

CHEM 102L. Physical Sciences for Elementary Education. (Cross-listed with PHYS). (1-5) Cr. S. Prereq: MATH 195 or MATH 140
Introduction to physics and chemistry via weekly, guided-inquiry laboratories. Topics to include states of matter and changes in states of matter, sound, light, electricity, magnetism, heat, forces and how they are related to an object’s motion.

CHEM 110. Cutting-Edge Chemistry: Research and Career Opportunities. (1-0) Cr. 1. F.
Overview of careers in chemistry: industrial, governmental, and academic careers; literature and compound search instruction; professional ethics; and an introduction to joining a research lab. For students majoring or minoring in chemistry or chemistry-related fields. Offered on a satisfactory-fail basis only.

CHEM 160. Chemistry in Modern Society. (3-0) Cr. 3. F.S.
Aspects of chemistry visible to a non-scientist in our society. A survey of selected areas of chemistry with emphasis on the interface between chemistry and other fields of human activity.

CHEM 163. College Chemistry. (4-0) Cr. 4. F.S. Prereq: 1 year of high school algebra and geometry and Chem 50, or 1 year of high school chemistry; and credit or enrollment in CHEM 163L
A general survey of chemistry with an emphasis on conceptual problems for those who are not physical and biological science or engineering majors. Nomenclature, chemical reactions, stoichiometry, atomic structure, periodic properties, chemical bonding, states of matter, solutions, thermochemistry, acid-base theory, oxidation-reduction reactions, basic chemical kinetics, and chemical equilibrium. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 163L. Laboratory in College Chemistry. (0-3) Cr. 1. F.S. Prereq: Credit or enrollment for credit in CHEM 163 Laboratory to accompany CHEM 163. Must be taken with CHEM 163. Only one of Chem 163L, CHEM 167L, and CHEM 177L may count toward graduation.

CHEM 167. General Chemistry for Engineering Students. (4-0) Cr. 4. F.S. Prereq: MATH 140 or high school equivalent and 1 year of high school chemistry or CHEM 50
Principles of chemistry and properties of matter explained in terms of modern chemical theory with emphasis on topics of general interest to the engineer. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 167L. Laboratory in General Chemistry for Engineering. (0-3) Cr. 1. F.S. Prereq: Credit or enrollment for credit in CHEM 167 Laboratory to accompany 167. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177. General Chemistry I. (4-0) Cr. F.S.SS. Prereq: MATH 140 or high school equivalent, and CHEM 50 or 1 year high school chemistry, and credit or enrollment in CHEM 177L. Chemistry and biochemistry majors may consider taking CHEM 201
The first semester of a two semester sequence which explores chemistry at a greater depth and with more emphasis on concepts, problems, and calculations than 163. Recommended for physical and biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Principles and quantitative relationships, stoichiometry, chemical equilibrium, acid-base chemistry, thermochemistry, rates and mechanism of reactions, changes of state, solution behavior, atomic structure, periodic relationships, chemical bonding. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 177L. Laboratory in General Chemistry I. (0-3) Cr. F.S.SS. Prereq: Credit or enrollment for credit in CHEM 177 Laboratory to accompany 177. 177L must be taken with 177. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 178. General Chemistry II. (3-0) Cr. 3. F.S.SS. Prereq: CHEM 177, CHEM 177L
Continuation of 177. Recommended for physical or biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Credit by examination (test-out exams) for 178 is available only to students who are not currently enrolled in the course.

CHEM 178L. Laboratory in College Chemistry II. (0-3) Cr. 1. F.S.SS. Prereq: CHEM 177L and credit or enrollment for credit in CHEM 178 Laboratory to accompany 178. 178L is not a necessary co-requisite with 178.

CHEM 201. Advanced General Chemistry. (5-0) Cr. S. F. Prereq: MATH 140 or high school equivalent, one year of high school chemistry, and one year high school physics or advanced chemistry. Co-enrollment in CHEM 201L
A one-semester course in general chemistry designed to give students an in-depth, broad-based view of modern chemistry, and, in part, to facilitate participation in independent undergraduate research. Topics include stoichiometry, atomic and molecular structure, chemical bonding, kinetics, chemical equilibria, and thermodynamics. Discussion of current trends in various chemical disciplines, which may be given by guest experts in chemistry, biochemistry, and chemical engineering, will help the student appreciate the scope of the chemical sciences and how research is carried out. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 201L. Laboratory in Advanced General Chemistry. (0-3) Cr. 1. Prereq: Credit or enrollment for credit in CHEM 201 Laboratory to accompany 201. Introductory lab experience in synthesis and analysis to prepare students for research activities. 201L must be taken with 201. Only one of 163L, 167L, 177L, 177N or 201L may count toward graduation.

CHEM 211. Quantitative and Environmental Analysis. (2-0) Cr. 2. F.S. Prereq: CHEM 163 and CHEM 163L, credit or enrollment in CHEM 178, or CHEM 201 and CHEM 201L; and concurrent enrollment in CHEM 211L
Theory and practice of elementary volumetric, spectrometric, electrochemical and spectrometric methods of analysis. Chemical equilibrium, sampling, and data evaluation. Emphasis on environmental analytical chemistry; the same methods are widely used in biological and materials sciences as well.

CHEM 211L. Quantitative and Environmental Analysis Laboratory. (0-6) Cr. 2. F.S. Prereq: Credit or enrollment in CHEM 163 and CHEM 163L, or CHEM 178; and concurrent enrollment in CHEM 211
Introductory laboratory experience in volumetric, spectrometric, electrochemical and chromatographic methods of chemical analysis.
CHEM 231. Elementary Organic Chemistry. (3-0) Cr. 3. F.S.SS. Prereq: CHEM 163, CHEM 163L, or CHEM 177, CHEM 177L; credit or enrollment in CHEM 231L. A survey of modern organic chemistry including nomenclature, structure and bonding, and reactions of hydrocarbons and important classes of natural and synthetic organic compounds. For students desiring only an elementary course in organic chemistry. Students in physical or biological sciences and premedical or pre-veterinary curricula should take the full year sequence 331 and 332 (with the accompanying laboratories 331L and 332L). Only one of Chem 231 and 331 or BBMB 221 may count toward graduation.

CHEM 231L. Laboratory in Elementary Organic Chemistry. (0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in CHEM 231; CHEM 163L or CHEM 177L. Laboratory to accompany 231. 231L must be taken with 231L. Only one of Chem 231L and 331L may count toward graduation.

CHEM 298. Cooperative Education. Cr. R. F.S.SS. Prereq: Permission of the Department cooperative education coordinator; sophomore classification. Required of all cooperative education students. Students must register for this course prior to commencing each work period.

CHEM 299. Undergraduate Research (for Freshmen and Sophomores). Cr. arr. Repeatable, maximum of 6 credits. Prereq: Permission of staff member with whom student proposes to work.

CHEM 301. Inorganic Chemistry. (2-0) Cr. 2. S. Prereq: CHEM 324. Atomic and molecular structure and bonding principles; molecular shapes and symmetry; acids and bases; solid-state structures and properties; inorganic chemistry of H, B, C. Nonmajor graduate credit.

CHEM 316. Instrumental Methods of Chemical Analysis. (2-0) Cr. 2. F. Prereq: CHEM 211, CHEM 211L, Math 166, and concurrent enrollment in CHEM 316L; PHYS 222 recommended. Quantitative and qualitative instrumental analysis. Operational theory of instruments, atomic and molecular absorption and emission spectroscopy, electroanalysis, mass spectrometry, liquid and gas chromatography, electrophoresis, literature of chemical analysis. Nonmajor graduate credit.

CHEM 316L. Instrumental Analysis Laboratory. (0-6) Cr. 2. F. Prereq: Credit or enrollment in CHEM 316. Advanced laboratory experience in UV-visible spectrophotometry, atomic absorption and emission spectroscopy, electrochemistry, gas and liquid chromatography, electrophoresis, mass spectrometry, and other instrumental methods. Nonmajor graduate credit.

CHEM 321L. Laboratory in Physical Chemistry. (1-3) Cr. 3. S. Prereq: Credit or enrollment in CHEM 324 or CHEM 325. Error analysis; use of computers for interfacing to experiments and for data analysis; thermodynamics, infrared and optical spectroscopy, lasers. Not applicable towards the B.S. degree in Chemistry. Nonmajor graduate credit. Only one of Chem 321L and 322L may count toward graduation.

CHEM 322L. Laboratory in Physical Chemistry. (1-6) Cr. 3. S. Prereq: CHEM 324 or CHEM 325. Error analysis; use of computers for interfacing to experiments and for data analysis; thermodynamics, surface science, infrared and optical spectroscopy, lasers. Nonmajor graduate credit. Only one of Chem 321L and 322L may count toward graduation.

CHEM 324. Introductory Quantum Mechanics. (3-0) Cr. 3. F.S. Prereq: CHEM 178, MATH 166, PHYS 222 recommended. Quantum mechanics, atomic and molecular structure, spectroscopy, kinetic theory of gases, chemical kinetics. Nonmajor graduate credit.

CHEM 325. Chemical Thermodynamics. (3-0) Cr. 3. F.S. Prereq: CHEM 178, MATH 166, PHYS 222 recommended. Classical thermodynamics 1st, 2nd, and 3rd laws with applications to gases and interfacial systems, multicomponent, multiphase equilibrium of reacting systems, surface chemistry, and electrochemical cells. Students taking a two-semester physical chemistry sequence are advised to take 324 first; in the spring semester, a molecular-based section of this course, stressing statistical thermodynamics, is offered for which knowledge of 324 is useful. Nonmajor graduate credit.

CHEM 331. Organic Chemistry I. (3-0) Cr. 3. F.S.SS. Prereq: CHEM 178 or CHEM 201, enrollment in CHEM 331L highly recommended. The first half of a two semester sequence. Modern organic chemistry including nomenclature, synthesis, structure and bonding, reaction mechanisms. For students majoring in physical and biological sciences, premedical and pre-veterinary curricula, chemistry and biochemistry. Students desiring only one semester of organic chemistry should take 231 and 231L, not 331. Nonmajor graduate credit. Only one of Chem 231 and 331 may count toward graduation.

CHEM 331L. Laboratory in Organic Chemistry I. (0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in CHEM 331, CHEM 177L. Laboratory to accompany 331. Chemistry and biochemistry majors are encouraged to take 333L. Only one of Chem 231L and 331L may count toward graduation.

CHEM 332. Organic Chemistry II. (3-0) Cr. 3. F.S.SS. Prereq: CHEM 331, enrollment in CHEM 332L highly recommended. Continuation of 331. Modern organic chemistry including nomenclature, synthesis, structure and bonding, reaction mechanisms, natural products, carbohydrates and proteins. For students majoring in physical and biological sciences, premedical and pre-veterinary curricula, chemistry and biochemistry. Nonmajor graduate credit.

CHEM 332L. Laboratory in Organic Chemistry II. (0-3) Cr. 1. F.S.SS. Prereq: CHEM 331L, credit or enrollment for credit in CHEM 332 Laboratory to accompany 332. Chemistry and biochemistry majors are encouraged to take 334L.

CHEM 333L. Laboratory in Organic Chemistry I (for Chemistry and Biochemistry Majors). (0-6) Cr. 2. F. Prereq: Credit or enrollment for credit in CHEM 331 Laboratory to accompany 331 for chemistry and biochemistry majors.

CHEM 334L. Laboratory in Organic Chemistry II (for Chemistry and Biochemistry Majors). (0-6) Cr. 2. S. Prereq: CHEM 333L, credit or enrollment for credit in CHEM 332 Laboratory to accompany 332 for chemistry and biochemistry majors.

CHEM 398. Cooperative Education. Cr. R. F.S.SS. Prereq: Permission of the Department cooperative education coordinator; junior classification. Required of all cooperative education students. Students must register for this course prior to commencing each work period.

CHEM 399. Undergraduate Research. Cr. arr. Prereq: Permission of instructor with whom student proposes to work.

CHEM 399. Undergraduate Research. Cr. arr. Prereq: Permission of instructor with whom student proposes to work.

CHEM 399. Undergraduate Research. Cr. arr. Prereq: Permission of instructor with whom student proposes to work.

CHEM 399. Undergraduate Research. Cr. arr. Prereq: Permission of instructor with whom student proposes to work.

CHEM 399. Undergraduate Research. Cr. arr. Prereq: Permission of instructor with whom student proposes to work.

CHEM 401. Inorganic Chemistry Laboratory. (0-3) Cr. 1. F. Prereq: CHEM 301. Preparation and characterization of inorganic and organometallic compounds by modern techniques. For students majoring in chemistry or biochemistry. Nonmajor graduate credit.

CHEM 402. Advanced Inorganic Chemistry. (3-0) Cr. 3. F. Prereq: CHEM 301; CHEM 331 recommended. Chemistry of the d and f metals. Structure, bonding, electronic spectra, and reaction mechanisms. Aspects of organometallic solid state and bioinorganic chemistry. Nonmajor graduate credit.

CHEM 490. Independent Study. Cr. arr. Prereq: Completion of 6 credits in chemistry at the 300 level or higher and permission of instructor. No more than 9 credits of Chem 490 may count toward graduation.

CHEM 498. Cooperative Education. Cr. R. F.S.SS. Prereq: Permission of the Department cooperative education coordinator; senior classification. Required of all cooperative education students. Students must register for this course prior to commencing each work period.

CHEM 499. Senior Research. Cr. 2-3. Repeatable, maximum of 6 credits. Prereq: Permission of instructor with whom student proposes to work; B average in all chemistry, physics, and mathematics courses. Research in chosen area of chemistry, with final written report as senior thesis. This course should be elected for two consecutive semesters. For students majoring in chemistry. No more than six total credits for Chem 399 and 499 may count toward graduation.
Courses primarily for graduate students, open to qualified undergraduates:

CHEM 501L. Inorganic Preparations.
(0-3) Cr. 1. F. Prereq: CHEM 402
Preparation and characterization of inorganic and organometallic compounds by modern research techniques.

(3-0) Cr. 3. F. Prereq: CHEM 301; CHEM 331 recommended
Chemistry of the main group (s, p) and transition (d, f) metals. Structure, bonding, electronic spectra, and reaction mechanisms. Aspects of organometallic, solid state, bioinorganic, and nano chemistry.

CHEM 503. Bioinorganic Chemistry.
(Cross-listed with BBMB) (2-0) Cr. 2. Alt. S., offered 2012. Prereq: CHEM 402 or BBMB 405
Essential elements: transport and storage of ions and of oxygen; metalloenzymes and metallocoenzymes; electron-transfer processes in respiration and photosynthesis; metabolism of nonmetals and redox processes involved in it; medicinal aspects of inorganic chemistry.

CHEM 505. Physical Inorganic Chemistry.
(3-0) Cr. 3. S. Prereq: CHEM 402 or CHEM 502 and CHEM 324
Elementary group theory and molecular orbital theory applied to inorganic chemistry. Spectroscopic methods of characterization of inorganic compounds and organometallic compounds.

CHEM 511. Advanced Analytical Chemistry.
(3-0) Cr. 3. S. Prereq: CHEM 316 and CHEM 316L
General methods of quantitative inorganic and organic analysis. Aqueous and nonaqueous titrimetry; selective reagents; sampling and sample dissolution; modern instrumentation; sensors; atomic and molecular microscopy; bioanalytical methods; data evaluation; chemometrics; and analytical literature.

CHEM 512. Electrochemical Methods of Analysis.

CHEM 513. Analytical Molecular and Atomic Spectroscopy.
(3-0) Cr. 3. S. Prereq: CHEM 316 and CHEM 316L, CHEM 324, CHEM 322L
Introduction to physical optics and design of photometric instruments. Principles of absorption, emission, fluorescence, and Raman spectroscopy. Error and precision of optical methods. Ultraviolet, visible, and infrared methods of qualitative and quantitative organic and inorganic analysis.

CHEM 516. Analytical Separations.
(3-0) Cr. 3. F. Prereq: CHEM 316 and CHEM 316L, CHEM 324, CHEM 322L Principles and examples of inorganic and organic separation methods applied to analytical chemistry. Solvent extraction, volatilization, ion exchange, liquid and gas chromatography, and electrophoresis.

CHEM 531. Organic Synthesis I.
(2-0) Cr. 2. S. Prereq: CHEM 332
Survey of organic functional group transformations.

CHEM 532. Organic Synthesis II.
(2-0) Cr. 2. F. Prereq: CHEM 531
Synthesis of complex organic compounds including natural products.

CHEM 537. Physical Organic Chemistry I.
(3-0) Cr. 3. F. Prereq: CHEM 332
Molecular structure, stereochemistry, introduction to reaction mechanisms, thermodynamic and kinetic data, linear free energy relationships, isotope effects, orbital symmetry.

CHEM 538. Physical Organic Chemistry II.
(3-0) Cr. 3. S. Prereq: CHEM 537
Survey of reactive intermediates including cations, anions, carbenes, and radicals.

CHEM 550. Safety in the Chemical Laboratory.
(1-0) Cr. 1. S. Prereq: CHEM 332L
Introduction to laboratory safety and chemical hygiene. Use of engineering controls and personal protective equipment. Chemical storage and waste disposal practices. Handling hazardous chemicals. Radiation safety and laser safety. Offered on a satisfactory-fail basis only.

CHEM 555. Teaching College Chemistry.
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: Graduate or senior classification.
Methods of instruction, strategies and techniques for effective teaching and learning along with practice teaching in undergraduate chemistry recitation and laboratory courses. Cooperative learning, guided-inquiry, learning cycles, conceptual change, models and modeling, concept maps, visualization, computer simulations, web-based delivery systems, and learning theories.

(4-0) Cr. 4. F. Prereq: CHEM 324
Schrödinger equation and exact solutions; square wells and barriers; harmonic oscillator; the hydrogen atom; atomic orbitals; operators including angular momenta; time-independent and time-dependent perturbation theory; Schrödinger and Heisenberg representations; unitary operators; interaction picture, density matrix.

(3-0) Cr. 3. S. Prereq: CHEM 561, credit or enrollment in CHEM 583
Variational method, many electron atoms; addition of angular momentum, self-consistent field method for open and closed shells, linear combinations of atomic orbitals, origin of chemical bonding, many-electron diatomic and polyatomic molecules, treatments of electron correlation, approximation methods.

(3-0) Cr. 3. S. Prereq: CHEM 325
Microscopic and macroscopic properties, laws of thermodynamics, ensembles and distribution functions, applications to gases, solids, and chemical equilibrium.

CHEM 564. Molecular Spectroscopy and Structure.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: CHEM 505 or CHEM 562
Maxwell’s field equations, interaction of light with matter including time-dependent perturbation theory, microwave, vibrational (infra-red, Raman) and electronic spectroscopies, symmetry derived selection rules, special lineshapes and introduction to nonlinear and coherent laser spectroscopies.

CHEM 571. Solid-State Chemistry.
(2-0) Cr. 2. Alt. S., offered 2013. Prereq: CHEM 301, CHEM 324
A study of solid state materials including structures, bonding, defects, disorder, phase transitions, ionic mobility, metal-insulator transitions, band theory, synthesis and intercalation.

(2-3) Cr. 3. F. Prereq: CHEM 332
Principles of infrared, ultraviolet, nuclear magnetic resonance, and mass spectroscopy as applied to organic chemistry.

CHEM 574. Organometallic Chemistry of the Transition Metals.
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: CHEM 301, CHEM 332
Transition metal complexes of ligands such as cyclopentadienyl, olefins, acetylenes, benzenes, and carbon monoxide. Homogeneous catalysis.

CHEM 576. Surface Chemistry.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: CHEM 324
Gas-surface interactions and techniques of characterization. Idealized surface lattices, surface tension, Wulff plots, work function, adsorbate-adsorbate interactions, 2D phase diagrams, diffusion, thin film growth, adsorption and desorption mechanisms/energetics/kinetics, adsorption isotherms, vacuum techniques, electron- and ion-based spectroscopies for surface analysis (including AES, FIM, XPS, UPS, EXAFS, EELS, SIMS, LEED and STM).

(3-0) Cr. 3. S. Prereq: Permission of instructor
Basic physics, instrumentation, chemical and biological applications of mass spectrometry.

CHEM 578. Chemical Kinetics and Mechanisms.
(2-0) Cr. 2. Alt. F., offered 2012. Prereq: CHEM 324
Rates and mechanisms; reversible, consecutive, and competing reactions; chain mechanisms; kinetic isotope effects; very rapid reactions; acid-base catalysis, theories of unimolecular reactions; transition state and Marcus theories.

CHEM 579. Introduction to Research in Chemistry.
Cr. R. F.
Introduction to the various areas of research in chemistry at Iowa State University.

CHEM 580. Introduction to Computational Quantum Chemistry.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: CHEM 324
Basic principles of quantum mechanics, schrodinger equation. Hartree-Fock/ molecular orbital theory, introduction to group theory, introduction to modern methods of computational chemistry; applications include molecular structure, potential energy surfaces and their relation to chemical reactions; molecular spectroscopy, photochemistry, solvent effects and surface chemistry.
A student who wishes to declare a minor must successfully complete the following courses for graduate students:

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: CHEM 324, Phys 222
Students with weak background should take Chem 580. For students working with lasers and optics; stimulated adorption and emission based on the classical electron oscillator model; population inversion, laser amplification; laser pumping; oscillation and cavity modes; laser beam characterization; linear propagation; design of laser resonators, ray and wave optics; nonlinear optics.

CHEM 530. Chemical Group Theory.
(1-0) Cr. 1. F. Prereq: CHEM 324
Basic concepts and theorems, representation theory; point groups, molecular orbitals, molecular states, molecular vibrations, rotation group and angular momenta; space groups and crystals; permutation group, antisymmetry, and spin states.

CHEM 599. Nonthesis Research.
Cr. arr. Prereq: Permission of instructor concerned

Courses for graduate students:

CHEM 600. Seminar in Inorganic Chemistry.
(1-0) Cr. 1. Repeatable, maximum of 3 times. F. S. Prereq: Permission of instructor

CHEM 601. Selected Topics in Inorganic Chemistry.
(2-0) Cr. 1-2. F. S. Prereq: Permission of instructor
Topics such as molecular structure and bonding; organometallic compounds; physical techniques of structure determination; nonaqueous solutions; Zintl phases; transition-metal oxides; free-radical reactions; electron transfer reactions; metal-metal bonding; and bioinorganic chemistry of nucleic acids.

CHEM 611. Seminar in Analytical Chemistry.
(1-0) Cr. 1. Repeatable. F. S. Prereq: Permission of instructor

CHEM 619. Special Topics in Analytical Chemistry.
(2-0) Cr. 1-2. Repeatable. F. S. Prereq: Permission of instructor
Raman spectroscopy, sensors, spectroelectrochemistry, capillary electrophoresis, analytical plasmas, chemometrics and bioanalytical chemistry.

CHEM 631. Seminar in Organic Chemistry.
(1-0) Cr. 1. Repeatable. F. S. Prereq: Permission of instructor

CHEM 632. Selected Topics in Organic Chemistry.
(2-0) Cr. 1-2. Repeatable. F. S. Prereq: CHEM 537
Topics of current interest in organic chemistry such as spectroscopy, physical organic chemistry, photochemistry, organometallic chemistry, mechanisms of oxidations and reductions, modern organic synthesis, reactive intermediates, biorganic chemistry, and polymers.

CHEM 660. Seminar in Physical Chemistry.
(1-0) Cr. 1. Repeatable. S. Prereq: Permission of instructor

CHEM 667. Special Topics in Physical Chemistry.
(2-0) Cr. 1-2. F. S. Prereq: Permission of instructor
Advanced and recent developments in physical chemistry are selected for each offering.

CHEM 699. Research.
Cr. arr. Repeatable. Prereq: Permission of instructor

Classical Studies

Interdepartmental Undergraduate Program

The Classical Studies program is a cross-disciplinary program in the College of Liberal Arts and Sciences which offers an integrated curriculum of courses in the languages, literatures, history, and thought of ancient Greece and Rome from prehistoric times to the reign of the Emperor Constantine. Complete and current information about the Program may be found on-line at: www.iastate.edu/~classics/

Courses in Classical Studies provide background for students whose major fields of study or career interests include Anthropology, English, World Languages and Cultures, History, Music, Philosophy, Women’s Studies, law, medicine, material culture, political science, the life sciences and related fields. Students who wish to pursue an interdisciplinary major in Classical Studies should consult the Program Chair.

A student who wishes to declare a minor must successfully complete the following requirements:

a) One of the following sets of courses in ancient language:

<table>
<thead>
<tr>
<th>Course</th>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>GREEK 101 &amp; GREEK 102</td>
<td>Elementary Ancient Greek I and Elementary Ancient Greek II</td>
</tr>
</tbody>
</table>

or

<table>
<thead>
<tr>
<th>Course</th>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>LATIN 101 &amp; LATIN 102</td>
<td>Elementary Latin I and Elementary Latin II</td>
</tr>
</tbody>
</table>

or

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>CL ST 201 &amp; GREEK 101</td>
<td>Technical Terminologies in the Professions and Elementary Ancient Greek I</td>
</tr>
</tbody>
</table>

or

<table>
<thead>
<tr>
<th>Course</th>
<th>Language</th>
</tr>
</thead>
<tbody>
<tr>
<td>CL ST 201 &amp; LATIN 101</td>
<td>Technical Terminologies in the Professions and Elementary Latin I</td>
</tr>
</tbody>
</table>

b) One of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CL ST 273</td>
<td>Greek and Roman Mythology</td>
</tr>
<tr>
<td>or CL ST 275</td>
<td>The Ancient City</td>
</tr>
</tbody>
</table>

C) Three additional courses (not used to meet other requirements) from those listed below or approved by the program committee. Two of these classes (6 crs.) must be at the 300-level or above.

<table>
<thead>

</table>
Courses

Courses primarily for undergraduates:

CL ST 201. Technical Terminologies in the Professions.
(3-0) Cr. 3. F.S.
Essential vocabulary and concepts in English that are derived from Latin and Ancient Greek. Formation and usage of technical terminology. Cultural influence of the classical languages. Analysis of technical writing.

CL ST 273. Greek and Roman Mythology.
(3-0) Cr. 3. F.SS.
Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories. Meets International Perspectives Requirement.

CL ST 273H. Greek and Roman Mythology: Honors.
(4-0) Cr. 4. F.SS.
Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories. Meets International Perspectives Requirement.

CL ST 275. The Ancient City.
(3-0) Cr. 3. F.S.
Examination of ancient urban life, including historical context, physical space, material culture, religion, literature, and art; examination of civic identity (the "polis"); Contrast between the concepts of urban and rural. Examples drawn from specific ancient cities; some attention to modern methods of recovering the conditions of ancient urban life and the fundamental concept of the city in European history. Meets International Perspectives Requirement.

CL ST 275H. The Ancient City: Honors.
(4-0) Cr. 4. F.S.
Examination of ancient urban life, including historical context, physical space, material culture, religion, literature, and art; examination of civic identity (the "polis"); Contrast between the concepts of urban and rural. Examples drawn from specific ancient cities; some attention to modern methods of recovering the conditions of ancient urban life and the fundamental concept of the city in European history. Meets International Perspectives Requirement.

(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification
Historical examination of art, literature, thought, and religious beliefs of major civilizations of the ancient Mediterranean countries until the end of the 8th century.

CL ST 310. Ancient Philosophy.
(Cross-listed with PHIL). (3-0) Cr. 3. F. Prereq: PHIL 201
Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth. Nonmajor graduate credit.

CL ST 350. Rhetorical Traditions.
(Cross-listed with ENGL, SP CM). (3-0) Cr. 3. S. Prereq: ENGL 250
Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

CL ST 353. World Literature: Western Foundations through Renaissance.
(Cross-listed with ENGL). (3-0) Cr. 3. F.S. Prereq: ENGL 250
Representative works from the drama, epics, poetry, and prose of the Ancient World through the late sixteenth century. May include Homer, Aeschylyus, Sappho, Catullus, Dante, Marie de France, Boccaccio, Christine de Pizan, Cervantes, and others. Meets International Perspectives Requirement.

CL ST 367. Christianity in the Roman Empire.
(Cross-listed with RELIG). (3-0) Cr. 3.
An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries. Nonmajor graduate credit.

CL ST 372. Greek and Roman Tragedy and Comedy.
(3-0) Cr. 3. S. Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250
Greek and Roman drama from the beginnings until today. Readings in English from authors such as Aeschylus, Sophocles, Euripides, Aristophanes, Menander, Plautus, Terence, Seneca. Course may cover performance, theories of comedy and tragedy, recent and current expressions of the comic and tragic in film and other media. Meets International Perspectives Requirement.

CL ST 372H. Greek and Roman Tragedy and Comedy: Honors.
(4-0) Cr. 4. S. Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250
Greek and Roman drama from the beginnings until today. Readings in English from authors such as Aeschylus, Sophocles, Euripides, Aristophanes, Menander, Plautus, Terence, Seneca. Course may cover performance, theories of comedy and tragedy, recent and current expressions of the comic and tragic in film and other media. Meets International Perspectives Requirement.

(3-0) Cr. 3. F. Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250
Cultural and political significance of ancient epic, especially in Greece and Rome. Course may include study of the heroic code in antiquity and its modern expressions including in film. Readings in English from authors such as Homer and Vergil. Meets International Perspectives Requirement.

(4-0) Cr. 4. F. Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250
Cultural and political significance of ancient epic, especially in Greece and Rome. Course may include study of the heroic code in antiquity and its modern expressions including in film. Readings in English from authors such as Homer and Vergil. Meets International Perspectives Requirement.

(Cross-listed with HIST, W S). (3-0) Cr. 3. S. Prereq: Any one course in CL ST, W S, Latin, or Greek

CL ST 376. Classical Archaeology.
(Cross-listed with ANTHR, RELIG). (3-0) Cr. 3. S.
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Requirement.

CL ST 376A. Classical Archaeology: Bronze Age and Early Iron Age Greece.
(Cross-listed with ANTHR, RELIG). (3-0) Cr. 3. S.
Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece (ca 3000-700 BCE). Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Requirement.

CL ST 376B. Classical Archaeology: Archaic through Hellenistic Greece (ca 700-30 BCE).
(Cross-listed with ANTHR, RELIG). (3-0) Cr. 3. S.
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Requirement.

CL ST 376C. Roman Archaeology (ca 1000 BCE-400 CE).
(3-0) Cr. 3. S.
Chronological survey of the material culture of the ancient Roman world and the role of archaeological context in understanding the varied aspects of ancient Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Reqmt
Courses

Courses primarily for undergraduates:

CMDIS 170. Speech Improvement for Nonnative Speakers. (2-0) Cr. 2.
For nonnative speakers of English only. Development of effective English vowel and consonant productions, accommodation processes that occur in context, intelligibility in conversational English, and appropriate stress patterns. Offered on a satisfactory-fail basis only.

CMDIS 275. Introduction to Communication Disorders. (Cross-listed with LING). (3-0) Cr. 3.
Survey of nature, causes, and types of major communication disorders including phonological, adult and child language, voice, cleft palate, fluency, and hearing disorders.

CMDIS 296. Communicating with the Deaf. (Cross-listed with LING). (3-0) Cr. 3.
Learn to communicate with the deaf using Signed English and Signed Pidgin English. Other topics covered include types, causes, and consequences of hearing loss, hearing technology (hearing aids, assistive listening devices, and cochlear implants), education of hearing-impaired children, deaf culture, and the history of manual communication.

Meets U.S. Diversity Requirement

CMDIS 371. Phonetics and Phonology. (Cross-listed with LING). (3-0) Cr. 3. Prereq: ENGL 219
Analysis of speech through study of individual sounds, their variations, and relationships in context; English phonology; practice in auditory discrimination and transcription of sounds of American English; description of speech sounds in terms of their production, transmission, and perception.

CMDIS 471. Language Development. (Cross-listed with LING). (3-0) Cr. 3. Prereq: CMDIS 275 or PSYCH 230 or ENGL 219 or LING 219
Definition of components of language. Overview of theories and developmental processes related to each component of linguistic skill (semantics, lexicon, morphology, phonology, pragmatics). Overview of normative information available for infants, children, adolescents, and adults. Attention to metalinguistic skills and the complementary nonlinguistic and paralinguistic skills. Nonmajor graduate credit.

Communication Studies Major

www.comstudies.las.iastate.edu
The Communication Studies Program focuses on human communication, exploring the ways humans create and negotiate meaning. Communication Studies majors master a focused course of inquiry into interpersonal processes as they create and sustain relationships and impact individuals, groups, and organizations. The Communication Studies curriculum builds primarily on social science traditions in developing a liberal arts education emphasizing human communication. Students in the Communication Studies major study applied communication theory and research in interpersonal, small group, organizational, intercultural, and other contexts.

The Communication Studies (ComSt) major prepares students for careers in business and industry and graduate education. Students majoring in ComSt will find their career opportunities enhanced in professions requiring applied communication expertise, e.g., human resource management, public relations, training and development, sales management, recruitment, event planning, sales, management,
organizational development, business communication, law, and international and intercultural relations.

ComSt majors must earn at least 120 credits, with 45 credits at the 300-400 levels, and a minimum of 33 credits in ComSt.

**Communication Proficiency Requirement**

To meet the University’s Communication Proficiency requirement students are required to take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 150</td>
<td>Critical Thinking and Communication</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 250</td>
<td>Written, Oral, Visual, and Electronic Composition</td>
<td>3</td>
</tr>
<tr>
<td>or ENGL 250H</td>
<td>Written, Oral, Visual, and Electronic Composition: Honors</td>
<td></td>
</tr>
</tbody>
</table>

Plus one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 302</td>
<td>Business Communication</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 309</td>
<td>Report and Proposal Writing</td>
<td></td>
</tr>
<tr>
<td>ENGL 314</td>
<td>Technical Communication</td>
<td></td>
</tr>
<tr>
<td>ENGL 415</td>
<td>Business and Technical Editing</td>
<td></td>
</tr>
</tbody>
</table>

An average of C- is required in ENGL 150 Critical Thinking and Communication, ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors), and this additional writing course.

**The Communication Studies Major**

**Core Requirements (15 credits)**

<table>

**Additional Recommended Course**

**The Communication Studies Minor (18 credits)**

The requirements for a minor in ComSt may be fulfilled by credit in:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMST 101</td>
<td>Introduction to Communication Studies</td>
<td>3</td>
</tr>
<tr>
<td>COMST 102</td>
<td>Introduction to Interpersonal Communication</td>
<td>3</td>
</tr>
<tr>
<td>COMST 203</td>
<td>Introduction to Communication Research Methods</td>
<td>3</td>
</tr>
<tr>
<td>COMST 301</td>
<td>Human Communication Theory</td>
<td>3</td>
</tr>
</tbody>
</table>

Plus six credits in 300-level ComSt courses.

Credits in COMST 384 Applied Organizational Communication, may not be applied toward the minor. Students must earn an overall average of C (2.0) or better in all courses taken for the minor.

**Courses**

**Courses primarily for undergraduates:**

**COMST 101. Introduction to Communication Studies.**

(3-0) Cr. 3.

An introduction to communication theory, the development and functions of communication, and a survey of interpersonal, small group, organizational, and intercultural communication.

**COMST 102. Introduction to Interpersonal Communication.**

(3-0) Cr. 3.

Application of communication principles, theory, and research to the process of interpersonal communication; includes verbal, nonverbal, listening, conflict management, and communication skills most relevant to a broad range of interpersonal settings.

**COMST 203. Introduction to Communication Research Methods.**

(3-0) Cr. 3.

An introduction to analyzing and conducting communication research. Provides an overview of quantitative and qualitative approaches to communication research.

**COMST 214. Professional Communication.**

(3-0) Cr. 3.

Communication theory and skill development in organizational settings. Emphasis on: interpersonal skill development, team and meeting facilitation, informational interviewing, and team presentations and self-assessment.

**COMST 218. Conflict Management.**

(3-0) Cr. 3.

Exploration of communication theories, principles and methods associated with effective conflict management.

**COMST 301. Human Communication Theory.**

(3-0) Cr. 3. Prereq: COMST 101

Examination of the major theories related to human communication; with particular emphasis on theories underlying interpersonal, small group, organizational, and intercultural communication.

**COMST 310. Intercultural Communication.**

(3-0) Cr. 3. Prereq: COMST 101, COMST 102, COMST 203, COMST 301

Examines the theories, principles and research on intercultural communication to enhance cultural sensitivity and to recognize, accept, and adapt to cultural diversity. Interactive assignments. Meets International Perspectives Requirement.

**COMST 311. Studies in Interpersonal Communication.**

(3-0) Cr. 3. Prereq: COMST 101, COMST 102, COMST 203, COMST 301

This class focuses on studies of contemporary interpersonal communication concepts and theories. Emphasis on research that examines issues central to communication in interpersonal relationships.

**COMST 313. Leadership Communication Theories.**

(3-0) Cr. 3. F.S. Prereq: COMST 101, COMST 102, COMST 203, COMST 301

Investigation of theories, research and principles of leadership communication. Exploration of the contexts in which leadership and communication occurs, with emphasis on the connection between communication and leadership and the dyadic linkage of leader and follower.

**COMST 314. Organizational Communication.**

(3-0) Cr. 3. Prereq: COMST 101, COMST 102, COMST 203, COMST 301

Theory and research in organizational communication; strategies for assessing and improving individual and organizational communication effectiveness; an understanding of how organizational meaning is created and sustained through human communication.

**COMST 317. Small Group Communication.**

(3-0) Cr. 3. Prereq: COMST 101, COMST 102, COMST 203, COMST 301

Theory and research in small group communication; application to group decision-making and leadership. Includes communication analyses of groups and teams.
COM S 319. Communication Training and Development.  
(3-0) Cr. 3. Prereq: COMST 101, COMST 102, COMST 203, COMST 301  
Theories and approaches to communication training and development; includes 
adult learning theory. Emphasis on the design, presentation and assessment of 
communication skills in organizational contexts.

(3-0) Cr. 3. Prereq: COMST 101, COMST 102, COMST 203, COMST 301  
Approaches to studying nonverbal communication; nonverbal functions and aspects 
of social interaction such as facial affect, body language, touch, gaze, and use of 
space.

(3-0) Cr. 3. Prereq: COMST 101, COMST 102, COMST 203, COMST 301  
Theories and approaches related to mediated communication in interpersonal and 
organizational settings. Focus on how new technology will impact human interaction 
with computers as well as between and among humans.

(3-0) Cr. 3. Prereq: COMST 101, COMST 102 or equivalent course.  
Theory and research of micro-level organizational communication, including 
interpersonal and small group interactions taking place in a professional setting.  
Topics include interpersonal dynamics in such areas as conflict, generational 
negotiation, superior/subordinate communication, external 
communication, and virtual organizations. Not available for major credit.

(Dual-listed with COMST 504). (3-0) Cr. 3. Repeatable, maximum of 9 credits.  
Prereq: COMST 301 plus 3 additional communication studies classes from the 
following list: COMST 310, COMST 311, COMST 314, COMST 317, COMST 319, 
COMST 325, or COMST 330.  
Capstone communication studies course. Students develop an original research 
study linked to the study of communication. Data are collected and analyzed. Results 
are presented in a final research paper and a presentation.

COM S 490. Independent Study.  
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 9 credits in communication 
studies and junior classification.  
Application must be submitted for approval the semester prior to the independent study.

COM S 497. Professional Internship.  
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 12 hours in Communication 
Studies including COMST 203, COMST 301, and one other 300-level COMST class. 
Junior Classification. Application required.  
100 hours of on-site professional work per credit hour plus completion of the 
academic requirement set by the internship committee. Application should be 
submitted in the term prior to the term in which the internship will be served. 
Internship cannot be used to meet degree requirement in Communication Studies.

Courses primarily for graduate students, open to 
qualified undergraduates:

(Dual-listed with COMST 404). (3-0) Cr. 3. Repeatable, maximum of 9 credits.  
Prereq: Graduate standing and permission of instructor  
Students develop an original research study linked to the study of communication.  
Data are collected and analyzed. Results are presented in a final research paper and 
a presentation.

COM S 590. Special Topics.  
Cr. 1-4. Repeatable.  
Application must be submitted for approval the semester prior to the independent study.

Computer Science

Undergraduate Study  
The department offers curricula leading to the baccalaureate degree in computer science, a minor in computer science, and participates in curricula leading to the baccalaureate degree in software engineering.

Major in Computer Science  
The curriculum leading to the baccalaureate degree in computer science is designed to prepare students for positions as computer scientists with business, industry, or government, or for graduate study in computer science. The main educational objectives of the computer science program at Iowa State University are that its graduates demonstrate expertise, engagement, and learning within three to five years after graduation.

- Expertise: Graduated students should have the ability to establish peer-recognized expertise in the discipline. They should have the ability to articulate this expertise by formulating and solving problems of interest, by creating or deriving value through the application of technology, and by using mathematical foundations, algorithmic principles, and computer science theory in designing, implementing, and evaluating computer-based systems and processes which meet the desired needs of their employers.

- Engagement: Graduated students should have the ability to be engaged in the profession through the practice of computer science in industry, academia, or the public sector. They should demonstrate effective teaming and commitment to working with others by applying communications skills and professional knowledge.

- Learning: Graduated students should have the ability to engage in sustained learning through graduate work, professional improvement opportunities, and self study so that they can adapt to the role played by information processing in ever-changing areas of science, technology, and society.

Graduate Study  
The department offers work for the degrees of Master of Science and Doctor of Philosophy with a major in Computer Science. The Doctor of Philosophy degree may also be earned with computer science as a co-major with some other discipline. Additionally, the department offers a minor to students majoring in other disciplines.

Established research areas include algorithms, artificial intelligence, computational complexity, computer architecture, bioinformatics, computational biology, computer networks, database systems, formal methods, information assurance, machine learning and neural networks, multimedia, operating systems, parallel and distributed computing, programming languages, robotics, and software engineering. There are also numerous opportunities for interdisciplinary research.

Typically, students beginning graduate work in Computer Science have completed a bachelor’s degree or equivalent in Computer Science. However, some students with undergraduate majors in other areas, such as Mathematical, physical, or biological science or engineering become successful graduate students in Computer Science.

For the degree Master of Science, a minimum of 31 semester credits is required. A thesis demonstrating research and the ability to organize and express significant ideas in computer science is required.

The purpose of the doctoral program is to train students to do original research in Computer Science. Each student is also required to attain knowledge and proficiency commensurate with a leadership role in the field. The Ph.D. requirements are governed by the student’s program of study committee within established guidelines of the department and the graduate college. They include coursework, demonstrated proficiency in four areas of Computer Science, a research skills requirement, a preliminary examination, and a doctoral dissertation and final oral examination. The department recommends that all graduate students majoring in Computer Science teach as part of their training for an advanced degree.

Curriculum in Computer Science  
Students wishing to pursue the B.S. degree in computer science must first successfully complete the pre-major program consisting of Com S 227, Com S 228, and Math 165; all with a grade of C- or above.

A student seeking a B.S. degree in computer science must satisfy the requirements of the University and College of Liberal Arts and Sciences (see Liberal Arts and Sciences, Curriculum) and the departmental requirements.

The departmental requirements consist of a minimum of 44 credits in computer science and satisfaction of written and oral requirements. Students must earn at least a C- in each course taken to fulfill the Degree Program.

The following courses are required:

<table>

In addition, students are required to take two 400-level courses from the following groups:

**Group B** (courses in this group require oral as well as written reports):
- one from Group B and one from Group B, W, or N:
- One Statistics course from:
  - MATH 166
  - MATH 165
  - BIOL 258
- At least one Math course from:
  - STAT 341
  - STAT 330
  - STAT 231
  - GEN 313
- One of the following math courses:
  - MATH 166
  - MATH 165
- One of the following statistics courses:
  - STAT 341
  - STAT 330
  - STAT 231
- Total Credits: 14

In addition, courses from the following list can be taken to bring the natural science credits to a minimum of 13:
- ANTHR 202
- ANTHR 201
- BIOL 258
- CHEM 178
- CHEM 177
- ENGL 250
- GEN 260
- GEN 313
- GEN 313L
- GEN 320
- GEO 100
- GEO 101
- GEO 102
- GEO 105
- GEO 108
- GEO 201
- GEO 451
- MAT E 215
- MTEOR 206
- MTEOR 301
- PSYCH 310
- PHYS 221 or HIGHER

Footnotes:
- * CHEM 163-231
- ** GEO 100-108

The following courses meet the communication proficiency requirement:
- ENGL 150
- ENGL 250
- ENGL 302
- ENGL 305
- ENGL 309
- ENGL 314

**Undergraduate Minor in Computer Science**

</tbody>
</table>

13 credits of Natural Science:

This should include at least one of the following 2-course sequences and their labs:
- BIOL 211 & 211L
- BIOL 212 & 212L
- CHEM 177 & 177L
- CHEM 178 & 178L
- PHYS 221
- PHYS 222

In addition, students are required to take two 400-level courses from following groups:

- one from Group B and one from Group B, W, or N:

**Group B** (courses in this group require oral as well as written reports):
- COM S 401 | Projects in Computing Applications | 3 |
- S E 416 | Software Evolution and Maintenance | 3 |
- (Or CPR E 416) | Software Evolution and Maintenance | 3 |
- CPR E 416 | Software Evolution and Maintenance | 3 |
- (Or S E 416) | Software Testing | 3 |
- COM S 417 | High Performance Computing for Scientific and Engineering Applications | 3 |
- COM S 430 | Advanced Programming Tools | 3 |
- COM S 437 | Computer Game and Media Programming | 3 |
- COM S 455 | Simulation: Algorithms and Implementation | 3 |
- COM S 461 | Principles and Internals of Database Systems | 3 |
- COM S 472 | Principles of Artificial Intelligence | 3 |
- COM S 474 | Elements of Neural Computation | 3 |

**Group W** (courses in this group require written reports):
- COM S 418 | Introduction to Computational Geometry | 3 |
- MATH 421 | Logic for Mathematics and Computer Science | 3 |
- MATH 481 | Numerical Methods for Differential Equations and Interpolation | 3 |
- CPR E 431 | Basics of Information System Security | 3 |
- CPR E 458 | Real Time Systems | 3 |
- CPR E 489 | Computer Networking and Data Communications | 4 |

**Group N**:
- COM S 418 | Introduction to Computational Geometry | 3 |
- MATH 421 | Logic for Mathematics and Computer Science | 3 |
- MATH 481 | Numerical Methods for Differential Equations and Interpolation | 3 |
- CPR E 431 | Basics of Information System Security | 3 |
- CPR E 458 | Real Time Systems | 3 |
- CPR E 489 | Computer Networking and Data Communications | 4 |

Toward satisfying requirements of the College of Liberal Arts and Sciences, the following courses should be included:

- PHIL 343 | Philosophy of Technology | 3 |
- SP CM 212 | Fundamentals of Public Speaking | 3 |

14 credits of Math and Statistics

The Department of Computer Science offers an undergraduate minor in Computer Science. The minor requires at least 19 credits in computer science courses.

COM S 227 Introduction to Object-oriented Programming 4
COM S 228 Introduction to Data Structures 3
COM S 229 Advanced Programming Techniques 3
9 credits in courses 300 level or above 9

Undergraduate Curriculum in Software Engineering

The Department of Computer Science together with the Department of Electrical and Computer Engineering also offer a curriculum leading to an undergraduate degree in software engineering. The software engineering curriculum offers emphasis areas in software engineering principles, process, and practice. Students may also take elective courses in computer engineering and computer science.

See Index, Software Engineering. For curriculum information, see also College of Engineering and College of Liberal Arts and Sciences.

Courses

Courses primarily for undergraduates:

COM S 101. Orientation.
Cr. R. F.S.
Introduction to the procedures and policies of Iowa State University and the Department of Computer Science, test-outs, honorary societies, etc. Issues relevant to student adjustment to college life will also be discussed. Offered on a satisfactory-fail basis only.

COM S 103. Computer Applications.
Cr. 4. F.S.SS.
Introduction to computer literacy and applications. Applications: Windows, Internet browser/HTML, word processing, spreadsheets, database management and presentation software. Literacy: history of computing, structure of computers, telecommunications, computer ethics, computer crime, and history of programming languages. No prior computer experience necessary. Course is offered online only. Students must attend an orientation session the first week of class.

COM S 104. Introduction to Computers.
(1.5-1) Cr. 2. F.S.
Offered first 8 weeks and last 8 weeks. Use of personal computer and workstation operating systems and beginning programming. Project-oriented approach to computer operation and programming, including use of tools to aid in programming. Topics from computer history, using basic Windows and Unix tools, program structure, expression, variables, decision and logic, and iteration. No prior computer experience necessary.

(3-0) Cr. 3. F.S.
Introduction to computer programming for non-majors using a language such as the Visual Basic language. Basics of good programming and algorithm development. Graphical user interfaces.

COM S 201. Computer Programming in COBOL.
(3-0) Cr. 3. SS.
Computer programming in COBOL. Emphasis on the design, writing, debugging, and testing of business applications programs in a transaction-oriented environment.

COM S 203. Careers in Computer Science.
Cr. R. F.S.
Computer science as a profession. Introduction to career fields open to computer science majors. Relationship of coursework to careers. Presentations by computer science professionals. Offered on a satisfactory-fail basis only.

(Cross-listed with MIS). (3-1) Cr. 3. F.S. Prereq: MATH 150 or placement into MATH 140/MATH 141/MATH 142 or higher
An introduction to computer programming using an object-oriented programming language. Emphasis on the basics of good programming techniques and style. Extensive practice in designing, implementing, and debugging small programs. Use of abstract data types. Interactive and file I/O. Exceptions/error-handling. This course is not designed for computer science, software engineering, and computer engineering majors. Credit may not be applied toward graduation for both Com S 207/MIS 207 and Com S 227.

(3-1) Cr. 3. S. Prereq: MIS/COM S 207, credit or enrollment in MATH 151, MATH 160, or MATH 165
Intermediate-level programming techniques. Emphasis on designing, writing, testing, debugging, and documenting medium-sized programs. Data structures and their uses. Dynamic memory usage. Inheritance and polymorphism. Algorithm design and efficiency: recursion, searching, and sorting. Event-driven and GUI programming. The software development process. This course is not designed for computer science, software engineering and computer engineering majors. Credit may not be applied toward the major in computer science, software engineering, or computer engineering.

COM S 227. Introduction to Object-oriented Programming.
(3-2) Cr. 4. F.S.
An introduction to object-oriented design and programming techniques. Symbolic and numerical computation. Recursion and iteration. Modularity procedural and data abstraction, specifications and subtyping. Object-oriented techniques. Imperative programming. Emphasis on principles of programming and object-oriented design through extensive practice in design, writing, running, debugging, and reasoning about programs. This course is designed for majors. Credit may not be applied toward graduation for both Com S 207 and 227.

COM S 228. Introduction to Data Structures.
(3-1) Cr. 3. F.S. Prereq: C- or better in 227, credit or enrollment in MATH 165
An object-oriented approach to data structures and algorithms. Object-oriented analysis, design, and programming, with emphasis on data abstraction, inheritance and subtype polymorphism. Abstract data type specification and correctness. Collections and associated algorithms, such as stacks, queues, lists, trees. Searching and sorting algorithms. Graphs. Data on secondary storage. Analysis of algorithms. Emphasis on object-oriented design, writing and documenting medium-sized programs. This course is designed for majors.

(3-0) Cr. 3. F.S. Prereq: COM S 228, credit or enrollment in MATH 166
Object-oriented programming experience using a language suitable for exploring advanced topics in programming. Topics include memory management, parameter passing, inheritance, compiling, debugging, and maintaining programs. Significant programming projects.

COM S 252. Linux Operating System Essentials.
(3-0) Cr. 3. F. Prereq: COM S 107 or COM S 207 or COM S 227
Introduction to installation, utilization, and administration of Linux systems. Topics include open-source software, package installation and management, shell programming and command-line utilities, process and service management, account management, network configuration, file sharing, interoperation with other computers and operating systems, automation, and system security.

COM S 290. Independent Study.
Cr. arr. F.S.
Prereq: Permission of instructor
Offered on a satisfactory-fail basis only.

COM S 290H. Independent Study: Honors.
Cr. arr. F.S.
Prereq: Permission of instructor
Offered on a satisfactory-fail basis only.

(3-1) Cr. 3. F.S. Prereq: COM S 228 with C- or better
A practical introduction to methods for managing software development. Process models, requirements analysis, structured and object-oriented design, coding, testing, maintenance, cost and schedule estimation, metrics. Programming projects. Nonmajor graduate credit.

COM S 311. Design and Analysis of Algorithms.
(3-1) Cr. 3. F.S. Prereq: COM S 228 with C- or better, MATH 166, ENGL 250, and COM S 330 or CPR E 310
Basic techniques for design and analysis of efficient algorithms. Sorting, searching, graph algorithms, computational geometry, string processing and NP-completeness. Design techniques such as dynamic programming and the greedy method. Asymptotic, worst-case, average-case and amortized analyses. Data structures including heaps, hash tables, binary search trees and red-black trees. Programming projects. Nonmajor graduate credit.

COM S 319. Software Construction and User Interfaces.
(Cross-listed with S E). (3-0) Cr. 3. F. Prereq: COM S 228
(3-1) Cr. 3. F.S. Prereq: C- or higher in COM S 228, CPR E 281 and ENGL 250
Introduction to computer architecture and organization. Emphasis on evaluation of performance, instruction set architecture, datapath and control, memory-hierarchy design, and pipelining. Assembly language on a simulator. Nonmajor graduate credit.

(3-1) Cr. 3. F.S. Prereq: C- or higher in COM S 228, C- or higher in MATH 166 and ENGL 250
Concepts in discrete mathematics as applied to computer science. Logic, proof techniques, set theory, relations, graphs, combinatorics, discrete probability and number theory. Nonmajor graduate credit.

(Cross-listed with LING). (3-1) Cr. 3. F.S. Prereq: C- or higher in COM S 228, C- or higher in COM S 330 or CPR E 310, C- or higher in MATH 166, and ENGL 250

(3-0) Cr. 3. F. Prereq: COM S 229, Coreq MATH 307 or MATH 317
Basic algorithms, design, and programming of interactive computer graphics systems and hardware. Topics include 2D and 3D transformations, 3D viewing, visible surface algorithms, collision detection, illumination models, shading, ray tracing, shadows, transparency and texture mapping.

COM S 342. Principles of Programming Languages.
(Cross-listed with S E). (3-1) Cr. 3. F.S. Prereq: C- or better in COM S 228, COM S 330 or CPR E 310
Study of concepts in programming languages and major programming paradigms, especially functional programming. Special emphasis on design tradeoffs that enable students to make sound choices of programming languages for a given software development task. Programming projects. Nonmajor graduate credit.

(Cross-listed with MATH). (3-0) Cr. 3. S. Prereq: MATH 166
Divisibility, integer representations, primes and divisors, linear diophantine equations, congruences, and multiplicative functions. Applications to cryptography. Nonmajor graduate credit.

COM S 352. Introduction to Operating Systems.
(3-1) Cr. 3. F.S. Prereq: COM S 229, and COM S 321; ENGL 250
Survey of operating system issues. Introduction to hardware and software components including: processors, peripherals, interrupts, management of processes, threads and memory, deadlocks, file systems, protection, virtual machines and system organization, and introduction to distributed operating systems. Programming projects. Nonmajor graduate credit.

COM S 362. Object-Oriented Analysis and Design.
(3-0) Cr. 3. F.S. Prereq: COM S 228 with C- or better, ENGL 250
Object-oriented requirements analysis and systems design. Design notations such as the Unified Modeling Language. Design Patterns. Group design and programming with large programming projects. Nonmajor graduate credit.

COM S 363. Introduction to Database Management Systems.
(3-0) Cr. 3. F.S. Prereq: COM S 228 with C- or better, ENGL 250
Relational, object-oriented, and semistructured data models and query languages, SQL, ODMG, and XML standards. Database design using entity-relationship model, data dependencies and object definition language. Application development in SQL-like languages and general purpose host languages with application program interfaces. Information integration using data warehouses, mediators and wrappers. Programming Projects. Nonmajor graduate credit.

COM S 398. Cooperative Education.
Cr. 3. F. Prereq: Permission of department chair
Required of all cooperative students. Students must register for this course prior to commencing each work period.

(2-2) Cr. 3. F. Prereq: ENGL 250, SP CM 212, COM S 309, and either COM S 362 or COM S 363
Applications of software development methods (requirements collection and analysis, software design, project management, documentation and testing), programming techniques, database designs and administration, network application programming to solve computing needs in business settings. A study of practical applications of emerging technologies in computing. Emphasis on semester-long team programming projects. Lab assignments. Oral and written reports. Nonmajor graduate credit.

COM S 409. Software Requirements Engineering.
(Dual-listed with COM S 509). (Cross-listed with S E) (3-0) Cr. 3. F. Prereq: COM S 309, ENGL 250, SP CM 212
The requirements engineering process, including identification of stakeholders, requirements elicitation techniques such as interviews and prototyping, analysis fundamentals, requirements specification, and validation. Use of Models: State-oriented, Function-oriented, and Object-oriented. Documentation for Software Requirements. Informal, semi-formal, and formal representations. Structural, informational, and behavioral requirements. Non-functional requirements. Use of requirements repositories to manage and track requirements through the life cycle. Case studies, software projects, written reports, and oral presentations will be required. Nonmajor graduate credit.

(Cross-listed with CPR E. S E) (3-0) Cr. 3. S. Prereq: S E 319, COM S 309
Introduction to prepositional/predicate/temporal logic, program verification using theorem proving, model-based verification using model checking, and tools for verification. Nonmajor graduate credit.

COM S 414. Gerontology in Smart Home Environments.
(Dual-listed with COM S 514). (3-0) Cr. 3. F. Prereq: COM S 227 or (COM S 207 or Geron 377 or ArtGr 271) or equivalent.
An interdisciplinary course designed for students who are interested in assistive technology, pervasive computing, mobile computing and principles of universal and inclusive design for end users, in particular, the elderly population. Students will work in semester-long projects as interdisciplinary teams to apply knowledge obtained from lectures and mutual presentations. For graduate credit students are required to submit a research report and give an oral presentation.

COM S 415. Gerontology in Smart Home Environments.
(Cross-listed with GERON). (3-0) Cr. 3. F. Prereq: COM S 227 or (COM S 207 or Geron 377)
An interdisciplinary course designed for students who are interested in assistive technology, pervasive computing, mobile computing and principles of universal software design for end users, in particular the elderly population. Students will have the chance to learn both about the theories and principles about aging and assistive technology, as well as to engage in the practical semester-long project while working with students from other disciplines. Nonmajor graduate credit.

(Cross-listed with S E) (3-0) Cr. 3. S. Prereq: COM S 309, COM S 319, ENGL 250, SP CM 212
Comprehensive study of software testing, principles, methodologies, management strategies and techniques. Test models, test design techniques (black box and white box testing techniques), integration, regression, system testing methods, and software testing tools. Nonmajor graduate credit.

COM S 418. Introduction to Computational Geometry.
(Dual-listed with COM S 518). (3-0) Cr. 3. S. Alt. S., offered 2013. Prereq: COM S 311 or permission of instructor
Introduction to data structures, algorithms, and analysis techniques for computational problems that involve geometry. Line segment intersection, polygon triangulation, 2D linear programming, range queries, point location, arrangements and duality, Voronoi diagrams and Delaunay triangulation, convex hulls, robot motion planning, visibility graphs. Other selected topics. Programming assignments. Nonmajor graduate credit.

(Cross-listed with MATH). (3-0) Cr. 3. S. Prereq: MATH 301 or MATH 317 or COM S 330
Propositional and predicate logic. Topics selected from Horn logic, equational logic, resolution and unification, foundations of logic programming, reasoning about programs, program specification and verification, model checking and binary decision diagrams, temporal logic and modal logic. Nonmajor graduate credit.

(Cross-listed with CPR E). (3-1) Cr. 3. S. Prereq: COM S 311, COM S 330, ENGL 250, SP CM 212
Introduction to high performance computing platforms including parallel computers and workstation clusters. Discussion of parallel architectures, performance, programming models, and software development issues. Sample applications from science and engineering. Practical issues in high performance computing will be emphasized via a number of programming projects using a variety of programming models and case studies. Oral and written reports. Nonmajor graduate credit.
(3-1) Cr. 3. F. Prereq: COM S 311, COM S 362 or COM S 363, ENGL 250, SP CM 212
Topics in advanced programming techniques and tools widely used by industry (e.g., event-driven programming and graphical user interfaces, standard libraries, client/server architectures and techniques for distributed applications). Emphasis on programming projects in a modern integrated development environment. Oral and written reports. Nonmajor graduate credit.

COM S 433. Computational Models of Nanoscale Self-Assembly.
(Dual-listed with COM S 533). (3-0) Cr. 3. S. Prereq: C- or higher in COM S 331 or consent of the instructor.
Modeling and analysis of natural and engineered systems that spontaneously assemble themselves from small components. Topics include biomolecular self-assembly, tile assembly models, computation via self-assembly, distributed folding, origami models, and self-repair. Emphasis on mathematical methods of describing, simulating, programming, and verifying the behaviors of self-assembling systems. Graduate credit requires a written or oral report on current research. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: COM S 362, COM S 321, COM S 336
Students will learn video game programming using current game engine interfaces with real hardware. Particular attention is paid to the console architecture, development environment, tool chains, 2D graphics, 3D graphics, controllers, memory management, and audio systems. Students will complete the course by writing a simple game that runs on console hardware. Nonmajor graduate credit.

(Dual-listed with COM S 540). (3-1) Cr. 3. Alt. S., offered 2013. Prereq: COM S 331, COM S 342, ENGL 250, SP CM 212
Theory of compiling and implementation issues of programming languages. Programming projects leading to the construction of a compiler. Projects with different difficulty levels will be given for 440 and 540. Topics: lexical, syntax and semantic analyses, syntax-directed translation, runtime environment and library support. Written reports. Nonmajor graduate credit.

COM S 444. Introduction to Bioinformatics.
(Cross-listed with BCB, BCBIO, BIOL, CPR E, GEN). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology. Nonmajor graduate credit.

(Dual-listed with COM S 554). (Cross-listed with CPR E). (3-1) Cr. 3. Alt. S., offered 2013. Prereq: COM S 311, COM S 352
Laboratory course dealing with practical issues of design and implementation of distributed and network operating systems and distributed computing environments (DCE). The client server paradigm, inter-process communications, layered communication protocols, synchronization and concurrency control, and distributed file systems. Graduate credit requires additional in-depth study of advanced operating systems. Written reports.

(3-0) Cr. 3. Alt. F., offered 2012. Prereq: COM S 311 and COM S 330, STAT 330, ENGL 150, SP CM 212
Introduction to discrete-event simulation with a focus on computer science applications, including performance evaluation of networks and distributed systems. Overview of algorithms and data structures necessary to implement simulation software. Discrete and continuous stochastic models, random number generation, elementary statistics, simulation of queueing and inventory systems, Monte Carlo simulation, point and interval parameter estimation. Graduate credit requires additional in-depth study of concepts. Oral and written reports. Nonmajor graduate credit.

(Dual-listed with COM S 561). (3-1) Cr. 3. F. Prereq: COM S 311, ENGL 250, SP CM 212 and COM S 363

(3-0) Cr. 3. Cr. 3. F. Prereq: COM S 474 and either Math 265 or Math 266.
Introductions to the theory and implementation of artificial intelligence and cognitive science. Computational models of neurons and networks of neurons. Neural architectures for associative memory, knowledge representation, inference, pattern classification, function approximation, stochastic search, decision making, and behavior. Neural architectures and algorithms for learning including perceptions, support vector machines, kernel methods, bayesian learning, instance based learning, reinforcement learning, unsupervised learning, and related techniques. Applications in Artificial Intelligence and cognitive and neural modeling. Hands-on experience is emphasized through the use of simulation tools and laboratory projects. Oral and written reports. Nonmajor graduate credit.

COM S 471. Computational Linear Algebra and Fixed Point Iteration.
(Cross-listed with MATH). (3-0) Cr. 3. Alt. F., offered 2011. S. Prereq: Math 265 and either Math 266, or 267; knowledge of a programming language
Computational error, solutions of linear systems, least squares, similarity methods for eigenvalues, solution of nonlinear equations in one and several variables. Nonmajor graduate credit.

(Dual-listed with COM S 572). (3-1) Cr. 3. F. Prereq: COM S 330 or CPR E 310, STAT 330, ENGL 250, SP CM 212, COM S 342 or comparable programming experience
Introduction to theory and applications of neural network and computational neuroscience. Computational models of neurons and networks of neurons. Neural architectures for associative memory, knowledge representation, inference, pattern classification, function approximation, stochastic search, decision making, and behavior. Neural architectures and algorithms for learning including perceptions, support vector machines, kernel methods, bayesian learning, instance based learning, reinforcement learning, unsupervised learning, and related techniques. Applications in Artificial Intelligence and cognitive and neural modeling. Hands-on experience is emphasized through the use of simulation tools and laboratory projects. Oral and written reports. Nonmajor graduate credit.

COM S 474. Elements of Neural Computation. 
(3-1) Cr. 3. Alt. F., offered 2012. Prereq: COM S 311, COM S 330 or CPR E 310, STAT 330, MATH 165, ENGL 250, SP CM 212, COM S 342 or comparable programming experience
Introduction to theory and applications of neural network and computational neuroscience. Computational models of neurons and networks of neurons. Neural architectures for associative memory, knowledge representation, inference, pattern classification, function approximation, stochastic search, decision making, and behavior. Neural architectures and algorithms for learning including perceptions, support vector machines, kernel methods, bayesian learning, instance based learning, reinforcement learning, unsupervised learning, and related techniques. Applications in Artificial Intelligence and cognitive and neural modeling. Hands-on experience is emphasized through the use of simulation tools and laboratory projects. Oral and written reports. Nonmajor graduate credit.
(Dual-listed with COM S 587). (3-0) Cr. 3. F. Prereq: Com s 352 or Cpr E 489 or equivalent.
Programming paradigms for building distributed and networking applications, including multithreaded client-server programming, socket programming, distributed object frameworks and programming suites, and web computing and security. Introduction to some on-going research issues in distributed and networking applications, including peer-to-peer computing, multimedia communications, and mobile computing and networking. Graduate credit requires a written report and an oral presentation. Nonmajor graduate credit.

COM S 490. Independent Study.
Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in computer science, permission of instructor
Offered on a satisfactory-fail basis only. No more than 9 credits of Com S 490 may be counted toward graduation.

COM S 490H. Independent Study: Honors.
Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in computer science, permission of instructor
Offered on a satisfactory-fail basis only. No more than 9 credits of Com S 490H may be counted toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

(Cross-listed with CAS). (1-0) Cr. 1. F. Prereq: Admission to CAS minor
Understanding core techniques in artificial life is based on basic readings in complex adaptive systems. Techniques of complex system analysis methods including: evolutionary computation, neural nets, agent based simulations (agent based computational economics). Large-scale simulations are to be emphasized, e.g. power grids, whole ecosystems.

(Cross-listed with CAS). (3-0) Cr. 3. S. Prereq: Admission to CAS minor or related field
Survey of complex systems and their analysis. Examples are drawn from engineering, computer science, biology, economics and physics.

COM S 509. Software Requirements Engineering.
(Dual-listed with COM S 409). (Cross-listed with S E). (3-0) Cr. 3. F. Prereq: COM S 309
The requirements engineering process including identification of stakeholders requirements elicitation techniques such as interviews and prototyping, analysis fundamentals, requirements specification, and validation. Use of Models: State-oriented, Function-oriented, and Object-oriented. Documentation for Software Requirements. Informal, semi-formal, and formal representations. Structural, informational, and behavioral requirements. Non-functional requirements. Use of requirements repositories to manage and track requirements through the life cycle. Case studies, software projects, written reports, and oral presentations will be required.

COM S 510. Distributed Software Development.
(3-0) Cr. 3. F.
Team with students at a foreign university to develop a software application. Importance of distributed development. Design for distributed development, effective processes for distributed development, cultural issues in distributed development, organizing for distributed development, communication techniques and skills for distributed development.

(Cross-listed with CPR E). (3-0) Cr. 3. F. Prereq: COM S 311
A study of basic algorithm design and analysis techniques. Advanced data structures, amortized analysis and randomized algorithms. Applications to sorting, graphs, and geometry. NP-completeness and approximation algorithms.

(3-0) Cr. 3. S. Prereq: COM S 311, COM S 330
A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms and tools for automatic analysis of systems. Graduate credit requires in-depth study of concepts.

COM S 514. Gerontechnology in Smart Home Environments.
(Dual-listed with COM S 414). (3-0) Cr. 3. F. Prereq: Com S 227 or (Com S 207 or Geron 377 or ArtGr 271) or equivalent.
An interdisciplinary course designed for students who are interested in assistive technology, pervasive computing, mobile computing and principles of universal and inclusive design for end users, in particular, the elderly population. Students will work in semester-long projects as interdisciplinary teams to apply knowledge obtained from lectures and mutual presentations. For graduate credit students are required to submit a research report and give an oral presentation.

(3-0) Cr. 3. F. Prereq: COM S 309 or COM S 311, COM S 342
An introduction to the analysis, design, and testing of software for safety-critical and high-integrity systems. Analysis techniques, formal verification, fault identification and recovery, model checking, and certification issues. Emphasizes a case-based and systematic approach to software’s role in safe systems.

COM S 518. Introduction to Computational Geometry.
(Dual-listed with COM S 418). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: COM S 311 or permission of instructor
Introduction to data structures, algorithms, and analysis techniques for computational problems that involve geometry. Line segment intersection, polygon triangulation, 2D linear programming, range queries, point location, arrangement and duality, Voronoi diagrams and Delaunay triangulation, convex hulls, robot motion planning, visibility graphs. Other selected topics. Programming assignments. A scholarly report must be submitted for graduate credit.

(Cross-listed with MATH, CPR E). (3-0) Cr. 3. Alt. S., offered 2015. Prereq: CPR E 308 or MATH 481; experience in scientific programming; knowledge of FORTRAN or C
Introduction to parallelization techniques and numerical methods for state-of-the-art high performance computers. A major component will be a final project in an area related to each student’s research interests.

(Dual-listed with COM S 426). (Cross-listed with CPR E). (3-2) Cr. 4. F. Prereq: CPR E 308 or COM S 321, COM S 311
Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms.

(3-0) Cr. 3. S. Prereq: COM S 331
A systematic study of the fundamental models and analytical methods of theoretical computer science. Computability, the Church-Turing thesis, decidable and undecidable problems, and the elements of recursive function theory. Time complexity, logic, Boolean circuits, and NP-completeness. Role of randomness in computation.

(Dual-listed with COM S 433). (3-0) Cr. 3. S. Prereq: C- or higher in COM S 331 or consent of the instructor
Modeling and analysis of natural and engineered systems that spontaneously assemble themselves from small components. Topics include biomolecular self-assembly, tile assembly models, computation via self-assembly, distributed folding, origami models, and self-repair. Emphasis on mathematical methods of describing, simulating, programming, and verifying the behaviors of self-assembling systems. Graduate credit requires a written or oral report on current research.

COM S 540. Principles and Practice of Compiling.
(Dual-listed with COM S 440). (3-1) Cr. 3. Alt. S., offered 2013. Prereq: COM S 331, COM S 342, ENGL 250, SP CM 312
Theory of compiling and implementation issues of programming languages. Programming projects leading to the construction of a compiler. Projects with different difficulty levels will be given for 440 and 540. Topics: lexical, syntax and semantic analyses, syntax-directed translation, runtime environment and library support. Written reports.

COM S 541. Programming Languages.
(3-1) Cr. 3. F. Prereq: COM S 342 or COM S 440
Survey of the goals and problems of language design. Formal and informal studies of a wide variety of programming language features including type systems. Creative use of functional and declarative programming paradigms.
COM S 544. Introduction to Bioinformatics. 
(Cross-listed with BCB, CPR E, GDCB). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative, functional genomics, and systems biology.

(Cross-listed with CPR E), (3-0) Cr. 3. Alt. S., offered 2012. Prereq: COM S 311 and either COM S 228 or COM S 268
Design and analysis of algorithms for applications in computational biology, pairwise and multiple sequence alignments, approximation algorithms, string algorithms including in-depth coverage of suffix trees, semi-numerical string algorithms, algorithms for selected problems in fragment assembly, phylogenetic trees and protein folding. No background in biology is assumed. Also useful as an advanced algorithms course in string processing.

(3-0) Cr. 3. Alt. F., offered 2011. Prereq: COM S 311 and some knowledge of programming
Discussion and analysis of basic evolutionary principles and the necessary knowledge in computational biology to solve real world problems. Topics include character and distance based methods, phylogenetic tree distances, and consensus methods, and approaches to extract the necessary information from sequence-databases to build phylogenetic trees.

COM S 551. Computational Techniques for Genome Assembly and Analysis. 
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: COM S 311 and some knowledge of programming
Huang. Introduction to practical sequence assembly and comparison techniques. Topics include global alignment, local alignment, overlapping alignment, banded alignment, linear-space alignment, word hashing, DNA-protein alignment, DNA-cDNA alignment, comparison of two sets of sequences, construction of contigs, and generation of consensus sequences. Focus on development of sequence assembly and comparison programs.

(3-0) Cr. 3. Alt. S., offered 2012. Prereq: COM S 352
A comparative study of high-level language facilities for process synchronization and communication. Formal analysis of deadlock, concurrency control and recovery. Protection issues including capability-based systems, access and flow control, encryption, and authentication. Additional topics chosen from distributed operating systems, soft real-time operating systems, and advanced security issues.

(Dual-listed with COM S 454), (Cross-listed with CPR E), (3-1) Cr. 3. Alt. S., offered 2013. Prereq: COM S 311, COM S 352
Laboratory course dealing with practical issues of design and implementation of distributed and network operating systems and distributed computing environments (DCE). The client server paradigm, inter-process communications, layered communication protocols, synchronization and concurrency control, and distributed file systems. Graduate credit requires additional in-depth study of advanced operating systems. Written reports.

(Dual-listed with COM S 455), (3-0) Cr. 3. Alt. F., offered 2012. Prereq: COM S 311 and COM S 330; STAT 330
Introduction to discrete-event simulation with a focus on computer science applications, including performance evaluation of networks and distributed systems. Overview of algorithms and data structures necessary to implement simulation software. Discrete and continuous stochastic models, random number generation, elementary statistics, simulation of queueing and inventory systems, Monte Carlo simulation, point and interval parameter estimation. Graduate credit requires additional in-depth study of concepts. Oral and written reports.

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: COM S 331, MATH 307, and STAT 330
Introduction to the use of stochastic models to study complex systems, including network communication and distributed systems. Data structures and algorithms for analyzing discrete-state models expressed in high-level formalisms. State space and reachability graph construction, model checking, Markov chain construction and numerical solution, computation of performance measures, product-form models, approximations, and advanced techniques.

(Cross-listed with CPR E, M E). (3-0) Cr. 3. F.S. Prereq: M E 421, programming experience in C

COM S 558. Introduction to the 3D Visualization of Scientific Data. 
(Cross-listed with HCI, GEOL), (2-2) Cr. 3. Alt. S., offered 2013. Prereq: Graduate student standing in the mathematical or natural sciences
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, engineering). Class project in interactive 3D visualization using the OpenDX, VTK or a similar system.

(Dual-listed with COM S 461). (3-1) Cr. 3. F. Prereq: Graduate classification

(3-0) Cr. 3. F. Prereq: COM S 461 or COM S 561
Implementation topics and projects are chosen from the following: Storage architecture, buffer management and caching, access methods, design, parsing and compilation of query languages and update operations, application programming interfaces (APIs), user interfaces, query optimization and processing, and transaction management for relational, object-oriented, semistructured (XML), and special purpose database models; client-server architectures, metadata and middleware for database integration, web databases.

(Cross-listed with BCB, CPR E). (3-0) Cr. 3. F. Prereq: COM S 208; COM S 330; STAT 341; credit or enrollment in BIOL 315, STAT 430

COM S 568. Bioinformatics II (Advanced Genome Informatics). 
(Cross-listed with GDCB, STAT, BCB). (3-0) Cr. 3. S. Prereq: BCB 567, BBMB 301, BIOL 315, STAT 430, credit or enrollment in GEN 411

COM S 569. Bioinformatics III (Structural Genome Informatics). 
(Cross-listed with BCB, BBMB, CPR E). (3-0) Cr. 3. F. Prereq: BCB 567, GEN 411, STAT 430

COM S 570. Bioinformatics IV (Computational Functional Genomics and Systems Biology). 
(Cross-listed with CPR E, BCB, GDCB, STAT). (3-0) Cr. 3. S. Prereq: BCB 567, BIOL 315, COM S 311 and either 208 or 228, GEN 411, STAT 430
COM S 572. Principles of Artificial Intelligence. (Dual-listed with COM S 472). (3-1) Cr. 3. F. Prereq: COM S 311, COM S 331, STAT 330, COM S 342 or comparable programming experience
Specification, design, implementation, and selected applications of intelligent software agents and multi-agent systems. Computational models of intelligent behavior, including problem solving, knowledge representation, reasoning, planning, decision making, learning, perception, action, communication, and interaction. Reactive, deliberative, rational, adaptive, learning and communicative agents. Artificial intelligence programming. Graduate credit requires a research project and a written report. Oral and written reports.

COM S 573. Machine Learning. (3-1) Cr. 3. S. Prereq: COM S 311, COM S 362, STAT 330

COM S 574. Intelligent Multiagent Systems. (3-0) Cr. 3. Alt. F., offered 2011. Prereq: STAT 330; COM S 331; COM S 572, COM S 573, COM S 472, or COM S 474
Specification, design, implementation, and applications of multi-agent systems. Intelligent agent architectures; infrastructures, languages and tools for design and implementation of distributed multi-agent systems; Multi-agent organizations, communication, interaction, cooperation, team formation, negotiation, competition, and learning. Selected topics in decision theory, game theory, contract theory, bargaining theory, auction theory, and organizational theory. Selected topics in knowledge representation and ontologies. Agent-based systems and the Semantic Web. Applications in distributed intelligent information networks for information retrieval, information integration, inference, and discovery from heterogeneous, autonomous, distributed, dynamic information sources.

COM S 575. Computational Perception. (Cross-listed with HCI, CPR E). (3-0) Cr. 3. S. Prereq: Graduate standing or permission of instructor
This class covers statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. This semester we will focus on machine perception techniques that facilitate and augment human-computer interaction. The main goal of the class is to introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

COM S 577. Problem Solving Techniques for Applied Computer Science. (Dual-listed with COM S 477). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: COM S 228; COM S 330 or CPR E 310; MATH 168, MATH 307 or MATH 317, or consent of the instructor
Selected topics in applied mathematics and modern heuristics that have found applications in areas such as geometric modeling, graphics, robotics, vision, human machine interface, speech recognition, computer animation, etc. Homogeneous coordinates and transformations, perspective projection, quaternions and rotations, polynomial interpolation, roots of polynomials, resultants, solution of linear and nonlinear equations, approximation, data fitting, Fourier series and fast Fourier transform, linear programming, nonlinear optimization, Lagrange multipliers, parametric and algebraic curves, curvature, Frenet formulas, Bezier curves. Programming components. A scholarly report is required for graduate credit.

COM S 581. Computer Systems Architecture. (Cross-listed with CPR E). (3-0) Cr. 3. F. Prereq: CPR E 381
Quantitative principles of computer architecture design, instruction set design, processor architecture: pipelining and superscalar design, instruction level parallelism, memory organization: cache and virtual memory systems, multiprocessor architecture, cache coherence, interconnection networks and message routing, I/O devices and peripherals.

COM S 583. Reconfigurable Computing Systems. (Cross-listed with CPR E). (3-0) Cr. 3. Prereq: Background in computer architecture, design, and organization
Introduction to reconfigurable computing, FPGA technology and architectures, spatial computing architectures such as systolic and bit serial adaptive network architectures, static and dynamic rearrangeable interconnection architectures, processor architectures incorporating reconfigurability.

COM S 586. Computer Network Architectures. (3-0) Cr. 3. F. Prereq: COM S 511, COM S 552 or CPR E 489
Design and implementation of computer communication networks: layered network architectures, local area networks, data link protocols, distributed routing, transport services, network programming interfaces, network applications, error control, flow/congestion control, interconnection of heterogeneous networks, TCP/IP, ATM networks, multimedia communications, IP and application multicast, overlay networks, network security and web computing.

COM S 587. Principles of Distributed and Network Programming. (Dual-listed with COM S 487). (3-0) Cr. 3. F. Prereq: Com s 352 or Cpr E 489 or equivalent
Programming paradigms for building distributed and networking applications, including multithreaded client-server programming, socket programming, distributed object frameworks and programming suites, and web computing and security. Introduction to some on-going research issues in distributed and networking applications, including peer-to-peer computing, multimedia communications, and mobile computing and networking. Graduate credit requires a written report and an oral presentation. Nonmajor graduate credit.

COM S 590. Special Topics. Cr. arr. Repeatable. Prereq: Permission of instructor
Offered on a satisfactory-fail basis only.

COM S 592. Research Colloquia. Cr. 1. F.S. Prereq: Graduate classification
Attend Computer Science Research Colloquia. Written summary is required. Offered on a satisfactory-fail basis only.

COM S 596. Genomic Data Processing. (Cross-listed with GDCB, BCB). (3-0) Cr. 3. F. Prereq: Some experience in computation
Study the practical aspects of genomic data processing with an emphasis on hands-on projects. Topics include base-calling, sequence cleaning and contaminant removal, fragment assembly procedures and EST clustering methods; genome closure strategies and practices; sequence homology search and function prediction; and annotation and submission of GenBank reports. Next-generation sequencing topics like model genome resequencing, short-read assembly and transcriptome abundance measurement will also be covered.

COM S 598. Graduate Internship. Cr. R. Repeatable. F.S.SS. Prereq: Graduate Classification
Supervised internship working in professional settings appropriate to the student’s degree program. Academic work under faculty supervision.

Creative component for nonthesis option of Master of Science degree. Offered on a satisfactory-fail basis only.

Courses for graduate students:
COM S 610. Seminar. Cr. arr.
Offered on a satisfactory-fail basis only.

Advanced algorithm analysis and design techniques. Topics include graph algorithms, algebraic algorithms, number-theoretic algorithms, randomized and parallel algorithms. Intractable problems and NP-completeness. Advanced data structures.

COM S 612. Distributed Algorithms. (3-0) Cr. 3. Alt. S., offered 2012. Prereq: COM S 511 or COM S 531
COM S 625. Issues in Parallel Programming and Performance. (3-0) Cr. 3. Alt. S., offered 2013. Prereq: COM S 511
Parallel solutions of numerical and non-numerical problems, implementation of parallel programs on parallel machines, performance and other computational issues in parallel programming.

COM S 626. Parallel Algorithms for Scientific Applications. (Cross-listed with CPR E). (3-0) Cr. 3. Prereq: CPR E 526
Algorithm design for high-performance computing. Parallel algorithms for multidimensional tree data structures, space-filling curves, random number generation, graph partitioning and load balancing. Applications to grid and particle-based methods and computational biology.

Advanced study in the quantitative theory of computation. Time and space complexity of algorithmic problems. The structure of P, NP, PH, PSPACE, and other complexity classes, especially with respect to resource-bounded reducibilities and complete problems. Complexity relative to auxiliary information, including oracle computation and relativized classes, randomized algorithms, advice machines, Boolean circuits. Kolmogorov complexity and randomness.

Advanced study of the role of randomness in computation. Randomized algorithms, derandomization, and probabilistic complexity classes. Kolmogorov complexity, algorithmic information theory, and algorithmic randomness. Applications chosen from cryptography, interactive proof systems, computational learning, lower bound arguments, mathematical logic, and the organization of complex systems.

COM S 634. Theory of Games, Knowledge and Uncertainty. (3-0) Cr. 3. Alt. S., offered 2013. Prereq: COM S 330
Fundamentals of Game Theory: individual decision making, strategic and extensive games, mixed strategies, backward induction, Nash and other equilibrium concepts. Discussion of Auctions and Bargaining. Repeated, Bayesian and evolutionary games. Interactive Epistemology: reasoning about knowledge in multiagent environment, properties of knowledge, agreements, and common knowledge. Reasoning about and representing uncertainty, probabilities, and beliefs. Uncertainty in multiagent environments. Aspects and applications of game theory, knowledge, and uncertainty in other areas, especially Artificial Intelligence and Economics, will be discussed.

Operational and other mathematical models of programming language semantics. Type systems and their soundness. Applications of semantics on areas such as program correctness, language design or translation.

Concepts and techniques for network and distributed operating systems: Communications protocols, processes and threads, name and object management, synchronization, consistency and replications for consistent distributed data, fault tolerance, protection and security, distributed file systems, design of reliable software, performance analysis.

COM S 661. Advanced Topics in Database Systems. (3-0) Cr. 3. Repeatable. Alt. F., offered 2012. Prereq: COM S 461 or COM S 561
Advanced topics chosen from the following: database design, data models, query systems, query optimization, incomplete information, logic and databases, multimedia databases; temporal, spatial and belief databases, semistructured data, concurrency control, parallel and distributed databases, information retrieval, data warehouses, wrappers, mediators, and data mining.

COM S 672. Advanced Topics in Computational Models of Learning. (3-0) Cr. 3. Repeatable. Alt. S., offered 2012. Prereq: COM S 572 or COM S 573 or COM S 472 or COM S 474

COM S 673. Advanced Topics in Computational Intelligence. (3-0) Cr. 3. Repeatable. Alt. S., offered 2013. Prereq: COM S 572 or COM S 573 or COM S 472 or COM S 474
Advanced applications of artificial intelligence in bioinformatics, distributed intelligent information networks and the Semantic Web. Selected topics in distributed learning, incremental learning, multi-task learning, multi-strategy learning; Graphical models, multi-relational learning, and causal inference; statistical natural language processing; modeling the internet and the web; automated scientific discovery; neural and cognitive modeling.

Current topics in computer architecture design and implementation. Advanced pipelining, cache and memory design techniques. Interaction of algorithms with architecture models and implementations. Tradeoffs in architecture models and implementations.

COM S 686. Advanced Topics in High-Speed Networks. (3-0) Cr. 3. Alt. S., offered 2013. Prereq: COM S 586
Advanced topics in IP networks and optical networks. GCoS routing and scheduling, multicast, multiprotocol label switching (MPLS), traffic engineering. Optical network architectures, routing and wavelength assignment algorithms, optical multicast, traffic grooming, optical burst switching, lightpath protection/restoration schemes, and IP over WDM.

COM S 699. Research. Cr. arr. Repeatable. Prereq: Approval of instructor
Offered on a satisfactory-fail basis only.

Introduction to prepositional/predicate/temporal logic, program verification using theorem proving, model-based verification using model checking, and tools for verification. Nonmajor graduate credit.

Criminology

Interdepartmental Undergraduate Program

The criminal justice studies minor, a cross-disciplinary course of study in the College of Liberal Arts and Sciences, offers an opportunity for students to learn about the components of the criminal and juvenile justice systems, to become acquainted with the issues and problems affecting these systems, to apply theoretical concepts to real world problems, and to plan a career in criminal or juvenile justice.

Students who declare a minor in criminal justice studies are required to complete 15 credits of course work. Students must take five of the following six courses:

- CJ ST 240 Introduction to the U.S. Criminal Justice System 3
- CJ ST 241 Youth and Crime 3
- CJ ST 320 American Judicial Process 3
- CJ ST 332 Philosophy of Law 3
- CJ ST 340 Deviant and Criminal Behavior 3
- CJ ST 341 Criminology 3

Students are also required to complete a minimum of 3 credits of internship experience CJ ST 460 Criminal and Juvenile Justice Practicum. Completion of the minor requires 18 total credits.

Courses
Courses primarily for undergraduates:

CJ ST 240. Introduction to the U.S. Criminal Justice System. (3-0) Cr. 3. F.
Provides systematic overview of law, police organization and behavior, prosecution and defense, sentencing, the judiciary, community corrections, penology, and capital punishment. The course demonstrates the role of discretion in all of these agencies as well as the sociological influences of age, race, gender, and social class on criminal justice system processes.

CJ ST 241. Youth and Crime. (Cross-listed with SOC). (3-0) Cr. 3. F. Prereq: SOC 130 or SOC 134
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents’ rights, and traditional and alternative ways of dealing with juvenile crime.

CJ ST 320. American Judicial Process. (Cross-listed with POL S). (3-0) Cr. 3. S. Prereq: POL S 215
An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent.

CJ ST 332. Philosophy of Law. (Cross-listed with PHIL). (3-0) Cr. 3. F.S. Prereq: PHIL 201 or PHIL 230
Extent of our obligation to obey the law; what constitutes just punishment; how much of the immoral should be made illegal? Relation of these questions to major theories of law and the state. Discussion of such concepts as coercion, equality, and responsibility. Nonmajor graduate credit.

CJ ST 340. Deviant and Criminal Behavior. (Cross-listed with SOC). (3-0) Cr. 3. S.SS. Prereq: SOC 130 or SOC 134
Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior.

CJ ST 341. Criminology. (Cross-listed with SOC). (3-0) Cr. 3. F. Prereq: SOC 130 or SOC 134
The nature of crime and criminology; the concept of crime; statistics and theories of criminality; major forms of crime; official responses to crime and control of crime.

CJ ST 351. Police and Society. (Cross-listed with SOC). (3-0) Cr. 3. F. Prereq: SOC 241 or CJ ST 240
Introduction and overview of law enforcement in the United States. Theory and research on police history, function, and organization; constitutional issues of policing; and critical topics, such as community policing, officer discretion and decision-making, corruption, use of force, and racial profiling. The course illustrates the interconnections between communities, police organizations, citizens, and criminal offenders.

CJ ST 352. Punishment, Corrections, and Society. (Cross-listed with SOC). (3-0) Cr. 3. F. Prereq: SOC 241 or CJ ST 240
Introduction and overview of corrections in the United States. Theory and research on probation, parole, intermediate sanctions, prison, inmate society, inmate behavior and misconduct, capital punishment, recidivism, correctional treatment, rehabilitation, and offender reintegration into society.

CJ ST 402. White-Collar Crime. (Cross-listed with SOC). (3-0) Cr. 3. S. Prereq: SOC 241 or CJ ST 240
Introduction and overview of white-collar crime as a form of deviance. Theory and research on occupational, corporate, and organizational offending; prevalence, costs, and consequences of white-collar crime; predictors and correlates of white-collar crime; and political, business, and public policy responses to white-collar crime.

CJ ST 403. Criminal Offenders. (3-0) Cr. 3. F.S. Prereq: CJ ST 240 or CJ ST 241
Introduction and overview of criminal offenders. Theory and research on epidemiology, offender typologies, etiology of violence, recidivism, societal costs, correctional supervision, treatment, and prevention of serious antisocial behavior.

CJ ST 460. Criminal and Juvenile Justice Practicum. (Cross-listed with SOC). Cr. 3-12. Repeatable, maximum of 12 credits. F.S.SS. Prereq: Junior or senior classification; permission of criminal justice studies coordinator; major or minor in sociology, or criminal justice studies minor
Study of the criminal and juvenile justice systems and social control processes. Supervised placement in a police department, prosecutor’s office, court, probation and parole department, penitentiary, juvenile correctional institution, community-based rehabilitation program, or related agency. Offered on a satisfactory-fail basis only. Not more than a total of 12 credits of field experience (Soc 454 and 460) may be counted toward graduation. No credits in Soc 460 may be used to satisfy minimum sociology requirements for sociology majors.

Ecology, Evolution, and Organismal Biology

Undergraduate Study

Within the Biological Sciences, studies of ecology, evolution, and organismal biology are essential in understanding the complex relationships of life on Planet Earth. Ecology focuses on the interactions among organisms as well as the interactions between organisms and their physical environments. Evolutionary theory addresses the origins and interrelationships of species. Organismal biology studies both the diversity of biological organisms and the structure and function of individual organisms.

The EEOB Department offers several undergraduate majors with other departments. Students interested in the areas of ecology, evolution, and organismal biology should major in Biology, Environmental Science, or Genetics. The Biology Major is administered and offered jointly by the EEOB and GDCB departments. The faculty of EEOB, together with those in GDCB and BBMB, administer and offer the Genetics Major. Faculty in EEOB, in cooperation with faculty from other departments on campus, administer and offer the Environmental Science Major. Each of these majors is available through the College of Liberal Arts and Sciences or through the College of Agriculture and Life Sciences. Faculty in the EEOB Department also teach undergraduate courses at Iowa Lakeside Laboratory (see the Iowa Lakeside Laboratory listing).

The Biology Major, the Environmental Science Major, and the Genetics Major prepare students for a wide range of careers in biological sciences. Some of these careers include conservation of natural resources and biodiversity, human and veterinary medicine, and life science education. These majors are also excellent preparation for graduate study in systematics, ecology, biological diversity, physiology, and related fields. Faculty members in EEOB contribute to the undergraduate courses listed below. The titles and descriptions of these courses are in the Biology section of the catalog.

- BIOL 101 Introductory Biology 3
- BIOL 110 Introduction to Biology 3
- BIOL 111 Opportunities in Biology 1
- BIOL 155 Human Biology 3
- BIOL 173 Environmental Biology 3
- BIOL 204 Biodiversity 2
- BIOL 211 Principles of Biology I 3
- BIOL 211L Principles of Biology Laboratory I 1
- BIOL 212 Principles of Biology II 3
- BIOL 212L Principles of Biology Laboratory II 1
- BIOL 255 Fundamentals of Human Anatomy 3
- BIOL 255L Fundamentals of Human Anatomy Laboratory 1
- BIOL 256 Fundamentals of Human Physiology 3
- BIOL 256L Fundamentals of Human Physiology Laboratory 1
- BIOL 258 Human Reproduction 3
- BIOL 307 Women in Science and Engineering 3
- BIOL 312 Ecology 4
- BIOL 313 Principles of Genetics 3
- BIOL 313L Genetics Laboratory 1
- BIOL 315 Biological Evolution 3
- BIOL 335 Principles of Human and Other Animal Physiology 4
- BIOL 336 Ecological and Evolutionary Animal Physiology 3
- BIOL 351 Comparative Chordate Anatomy 5
- BIOL 352 Vertebrate Histology 4
Research activities, and to show adequate progress and professional development, postdoctoral affiliation are required to participate in departmental seminars, to participate in undergraduate teaching experience, and to pursue the Ph.D. degree. For both the M.S. and Ph.D. degrees, it is expected that research conducted by the student will culminate in the writing and presentation of a thesis or dissertation. Requirements and guidelines for study are provided by the Graduate College, the EEOB faculty, and the individual student’s major professor and Program of Study Committee. General information about graduate study requirements can be found at the web site for the Graduate College and requirements for the interdepartmental majors can be found by following the links from the EEOB web site above. Although not a formal requirement, the EEOB faculty recommends that students pursuing the Ph.D. include teaching experience in their graduate training.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

**EEOB 501I. Freshwater Algae.**
(Cross-listed with IA LL). Cr. 4. SS.
Structure and taxonomy of freshwater algae based on field collected material; emphasis on genus-level identifications, habitats visited include lakes, fens, streams, and rivers; algal ecology.

**EEOB 507. Advanced Animal Behavior.**
(3-0) Cr. 3. S. Prereq: BIOL 354, or permission of instructor
Analysis of current research in animal behavior. Topics covered may include behavioral ecology, mechanisms of behavior, evolution of behavior, applications of animal behavior to conservation biology, and applications of animal behavior to wild animals in captivity.

**EEOB 514. Evolutionary Ecology.**
(3-0) Cr. 3. F. Prereq: EEOB 589, BIOL 315; graduate standing
Evolution of ecological adaptations at the individual, population, community and landscape levels. Emphasis is on evolutionary mechanisms and adaptive strategies; units and mechanisms of evolution, life history strategies, species interactions and organization of communities, behavior, and patterns of distribution, speciation and macroevolution.

**EEOB 531. Conservation Biology.**
(Cross-listed with A ECL). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: BIOL 312; BIOL 313 or graduate standing
Examination of conservation issues from a population and a community perspective. Population-level analysis will focus on the role of genetics, demography, and environment in determining population viability. Community perspectives will focus on topics such as habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

**EEOB 531I. Conservation Biology.**
(Cross-listed with IA LL, A ECL). Cr. 4. Alt. SS., offered 2012. Prereq: IA LL 312I
Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.

**EEOB 534. Endocrinology.**
(3-0) Cr. 3. S. Prereq: BIOL 211, BIOL 212
Dual-listed with 434. Chemical integration of vertebrate organisms. The structure, development, and evolution of the endocrine glands and the function and structure of their hormones.

**EEOB 535. Restoration Ecology.**
(Cross-listed with ENSCI, NREM). (2-3) Cr. 3. F. Prereq: BIOL 366 or BIOL 474 or graduate standing
Theorization and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

**EEOB 535I. Restoration Ecology.**
(Cross-listed with A ECL, ENSCI, IA LL). Cr. 4. Alt. SS., offered 2012. Prereq: A course in ecology
Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.
EEOB 539. Environmental Physiology. (3-3) Cr. 3-4, Alt. S., offered 2012. Prereq: BIOL 335 or A ECL 311, physics recommended
Dual-listed with Biol 439. Graduate study in conjunction with Biol 439. Physiological adaptations to the environment with emphasis on vertebrates.

EEOB 542. Introduction to Molecular Biology Techniques. (Cross-listed with B M S, GDCB, HS FN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM), Cr. 1. Repeatable. F.S.S. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

EEOB 542A. Introduction to Molecular Biology Techniques: DNA. (Cross-listed with B M S, GDCB, HS FN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM), Cr. 1. Repeatable. F.S.S. Prereq: Graduate classification
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

EEOB 542B. Introduction to Molecular Biology Techniques: Protein. (Cross-listed with B M S, GDCB, GDCB, HS FN, HORT, NREM, NUTRS), Cr. 1. Repeatable. S.SS. Prereq: Graduate classification
Techniques includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

EEOB 542C. Introduction to Molecular Biology Techniques: Cell. (Cross-listed with B M S, GDCB, HS FN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM), Cr. 1. Repeatable. F.S. Prereq: Graduate classification
Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

EEOB 542D. Introduction to Molecular Biology Techniques: Plant Transformation. (Cross-listed with B M S, GDCB, HS FN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM), Cr. 1. Repeatable. S. Prereq: Graduate classification
Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

EEOB 542E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F.)
(Cross-listed with B M S, BBMB, HS FN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM), Cr. 1. Repeatable. F.S.S. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

EEOB 542F. Techniques in Metabolomics. metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects.
(Cross-listed with B M S, BBMB, HS FN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM), Cr. 1. Repeatable. F.S.S. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

EEOB 542G. Introduction to Molecular Biology Techniques: Genomic. (Cross-listed with B M S, BBMB, HS FN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM), Cr. 1. Repeatable. S. Prereq: Graduate classification
Offered on a satisfactory-fail basis only.

EEOB 551. Plant Evolution and Phylogeny. (Dual-listed with EEOB 451). (Cross-listed with EEOB), (3-3) Cr. 4. F. Prereq: BIOL 315 or equivalent
Survey of land plant evolution; phylogenetic comparison of anatomical, reproductive, and life history specializations. Relationships among bryophytes, lycophytes, pteridophytes, gymnosperms, and angiosperms emphasizing significant evolutionary changes documented by paleobotanical, morphological, and molecular studies.

Structure, identification, classification, phylogeny, and economic aspects of grasses and related families.

EEOB 555. Bryophyte and Lichen Biodiversity. (Dual-listed with EEOB 455), Cr. 3. Prereq: BIOL 212, BIOL 212L
Introduction to the biology and ecology of mosses, liverworts, and lichens. Emphasis on identification and diversity of local representatives of these three groups of organisms. Required field trips and service-learning.

EEOB 557. Herpetology. (Dual-listed with EEOB 457), (Cross-listed with A ECL), (2-3) Cr. 3. F. Prereq: A ECL 365 or BIOL 351
Biological, ecology, and evolution of amphibians (salamanders, frogs, caecilians) and reptiles (lizards, snakes, tuatara, turtles, crocodilians). Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of amphibians and reptiles in ecosystems, and conservation. Laboratory focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

EEOB 558. Ornithology. (Dual-listed with BIOL 458). (Cross-listed with A ECL), (2-3) Cr. 3. S. Prereq: A ECL 365 or BIOL 351
Dual-listed with BIOL 458. Biology, ecology, evolution, and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation. Laboratory exercises complement lecture topics, emphasize identification and distribution of Midwest birds, and include field trips.

EEOB 559. Mammalogy. (Dual-listed with BIOL 459). (Cross-listed with BIOL), (2-3) Cr. 3. S. Prereq: BIOL 351 or A ECL 365
Biological, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation. Laboratory focus on identification, distribution, habits, and habitats of mammals.

EEOB 560. Resource Ecology. (2-3) Cr. 3. Alt. S., offered 2012. Prereq: BIOL 212, BIOL 212L, BIOL 312; STAT 101 or STAT 144 or graduate standing
Ecological and economical management of sustainable biological resources. Unifying current management concepts and models in wildlife, fisheries, water quality, forestry, recreation, and agriculture. Research problems.

EEOB 562. Evolutionary Genetics. (3-0) Cr. 3. Alt. S., offered 2013. Prereq: Permission of instructor
Seminar/discussion course covering the genetic basis of evolutionary processes in multicellular organisms.

EEOB 563. Molecular Phylogenetics. (2-3) Cr. 3. F. Prereq: BIOL 313 and BIOL 315
An overview of the theory underlying phylogenetic analysis and the application of phylogenetic methods to molecular datasets. The course emphasizes a hands-on approach to molecular phylogenetics and combines lecture presentations with computer exercises and discussion of original scientific literature.

EEOB 564. Wetland Ecology. (Cross-listed with ENSCI). (3-0) Cr. 3. S. Prereq: 15 credits in biological sciences

EEOB 564L. Wetland Ecology. (Cross-listed with ENSCI), (3-0) Cr. 4. SS. Prereq: la LL 312L
Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.

Dual-listed with Biol 465. A comprehensive overview of the theory and methods for the analysis of biological shape with emphasis on data acquisition, standardization, statistical analysis, and visualization of results. Methods for both landmark and outline data will be discussed.

EEOB 566. Molecular Evolution. (3-0) Cr. 3. Alt. F., offered 2012. Prereq: Permission of instructor
Seminar/discussion course covering the fundamentals of molecular evolution. Emphasis is placed on original scientific literature and current topics, including rates and patterns of genetic divergence; nucleotide and allelic diversity; molecular clocks; gene duplications; genome structure; organellar genomes; polyploidy; transposable elements; and modes and mechanisms of gene and genome evolution.

EEOB 567. Empirical Population Genetics. (3-0) Cr. 3. F. Prereq: Permission of instructor
An overview of fundamental population genetic theory and the ecological and evolutionary factors underlying the distribution of genetic variation within and among natural populations. Emphasis on the analysis of inbreeding, breeding systems, parentage, relatedness, spatial autocorrelation, effective population size, hierarchical population models, and phylogeography.
EEOB 568. Advanced Systematics.
(Cross-listed with ENT). (2-3) Cr. 3. Alt. S., offered 2013. Prereq: Permission of instructor
Principles and practice of systematic biology; taxonomy, nomenclature and classification of plants and animals; sources and interpretation of systematic data; speciation; fundamentals of phylogenetic systematics.

EEOB 569. Biogeography.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: BIOL 315 or equivalent; permission of instructor
Principles underlying the geographic distribution of organisms throughout the world; biological influences of geological history and tectonic movements; role of climate, migration, dispersal, habitat, and phylogeny on past and present organismal distribution patterns; biogeographic methods.

EEOB 570. Landscape Ecology.
(Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered 2012. Prereq: Permission of instructor; EEOB 588; a course in calculus
The study of ecological and evolutionary processes within a spatial context with emphasis on behavior, population, and community dynamics.

EEOB 573. Techniques for Biology Teaching.
(Cross-listed with IA LL, A ECL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573A. Techniques for Biology Teaching : Animal Biology.
(Cross-listed with IA LL, A ECL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573B. Techniques for Biology Teaching: Plant Biology.
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573C. Techniques for Biology Teaching: Fungi and Lichens.
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573D. Techniques for Biology Teaching: Aquatic Ecology.
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573G. Techniques for Biology Teaching: Limnology.
(Cross-listed with IA LL, A ECL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573I. Techniques for Biology Teaching: Insect Ecology.
(Cross-listed with IA LL, A ECL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573J. Techniques for Biology Teaching: Biology of Invertebrates.
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573K. Techniques for Biology Teaching: Non-invasive Use of Living Organisms.
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573L. Techniques for Biology Teaching: Project WET.
(Cross-listed with IA LL, A ECL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 575I. Field Mycology.
(Cross-listed with IA LL). Cr. 4. Alt. SS., offered 2012. Identification and classification of the common fungi; techniques for identification, preservation, and culture practiced with members of the various fungi groups.

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: BIOL 312

(2-0) Cr. 1. Alt. F., offered 2012.
Readings and discussion of influential ideas in ecological and evolutionary theory, with an emphasis on how models are used as conceptual tools for building synthetic paradigms. Topics are chosen according to student interests; may include spatial ecology, behavioral theory, chaos, community assembly and biodiversity, and others.

(3-0) Cr. 3. Alt. S., offered 2014. Prereq: 1 semester of calculus or permission of instructor.
Quantitative exploration of classic models and results in ecological and evolutionary theory. Introduction to conceptual, mathematical, and programming tools needed to build and analyze models.

(Cross-listed with IA LL). Cr. 4. SS.
Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characters; project design and execution including construction of reference and voucher collections and data organization and analysis.

(Dual-listed with BIOL 381). (Cross-listed with BIOL, ENV S, MICRO). Cr. 3-4. F.
Prereq: 12 credits of natural science including biology and chemistry
Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.
EEOB 584. Ecosystem Ecology.  
(Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Combined 12 credits in biology and chemistry. 
Introduction to the study of ecosystems and the factors that influence their properties and dynamics. Conceptual foundations for ecosystem studies. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems.

Factors controlling species diversity, species abundance, and the structure and function of communities in space and time. Relationships between species diversity and ecosystem process rates and community stability.

EEOB 586. Aquatic Ecology.  
(Dual-listed with EEOB 486). (Cross-listed with ENSCI). (3-0) Cr. 3. F. Prereq: ENSCI 301 or ENSCI 312 or ENSCI 381 or ENSCI 402. 
(Dual-listed with Biol 486.) Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine and wetland ecology.

EEOB 586L. Aquatic Ecology Laboratory.  
(Dual-listed with EEOB 487). (Cross-listed with ENSCI). (0-3) Cr. 1. F. Prereq: Concurrent enrollment in EEOB 586. 
Field trips and laboratory exercises to accompany 586. Hands-on experience with aquatic research and monitoring techniques and concepts.

EEOB 587. Microbial Ecology.  
(Dual-listed with EEOB 487). (Cross-listed with ENSCI, MICRO). (3-0) Cr. 3. F. Prereq: Six credits in biology and 6 credits in chemistry. 
(Dual-listed with Biol 487.) Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural systems.

(Cross-listed with A ECL). (2-2) Cr. 3. F. Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing. 
Prereq: Combined 12 credits in biology, permission of instructor. 
Concurrent enrollment in EEOB 586. Hands-on experience with aquatic research and monitoring techniques and concepts.

EEOB 590. Graduate Independent Study.  
(Cross-listed with ANTHR, A ECL, IA LL). Cr. 1-4. Repeatable. SS. Prereq: Graduate classification and permission of instructor.

EEOB 590A. Special Topics: Current Topics in Ecology.  
Cr. 1-3. Repeatable. Prereq: 10 credits in biology, permission of instructor.

EEOB 590B. Special Topics: Current Topics in Evolutionary Biology.  
Cr. 1-3. Repeatable. Prereq: 10 credits in biology, permission of instructor.

EEOB 590C. Special Topics: Current Topics in Organismal Biology.  
Cr. 1-3. Repeatable. Prereq: 10 credits in biology, permission of instructor.

EEOB 590I. Graduate Independent Study.  
(Cross-listed with A ECL, ANTHR, IA LL). Cr. 1-4. Repeatable. SS. Prereq: Graduate classification and permission of instructor.

(Dual-listed with BIOL 496). (3-0) Cr. 3. Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology. 
Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.

EEOB 599. Creative Component.  
Cr. asr. Research toward nonsenior master’s degree.

Courses for graduate students:

EEOB 611. Analysis of Populations.  
(Cross-listed with A ECL). (2-2) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 312; STAT 401; a course in calculus. 
Quantitative techniques for analyzing vertebrate population data to estimate parameters such as density and survival. Emphasis on statistical inference and computing.

EEOB 679. Light Microscopy.  
(Cross-listed with MICRO, GDCB). (2-9) Cr. 5. Prereq: Permission of instructor. 
Current theories encompassing light optics and their applications for specimen preservation, paraffin and resin sectioning, general staining, histochemistry, cytophotometry, immunoocytochemistry, autoradiography, image digitization, processing and presentation, and digital macro- and micrography. Limit of 10 students.

(Cross-listed with MICRO, GDCB). (2-9) Cr. 5. Prereq: Permission of instructor. 
Current theories encompassing scanning electron optics and their applications for high and low vacuum microscopy, specimen chemical and cryopreservation methods, x-ray microanalysis, backscattered and topographic imaging, image digitization, processing and presentation. Limit of 10 students.

(Cross-listed with MICRO, GDCB). (2-9) Cr. 5. Prereq: GDCB 679 and permission of instructor. 
Current theories encompassing electron optics and their applications for chemical and physical specimen preservation, ultramicrotomy, general staining and cytochemistry, immunoocytochemistry, autoradiography, negative staining and shadowing, x-ray microanalysis, image digitization, processing and presentation.

EEOB 698. Seminar.  
Cr. arr. Repeatable. Meetings of graduate students and faculty to discuss recent literature and problems under investigation.

EEOB 699. Research.  
Cr. arr. Repeatable. Research for thesis or dissertation. Offered on a satisfactory-fail basis only.

EEOB 699L. Research.  
(Cross-listed with A ECL, ANTHR, IA LL, GDCB). Cr. 1-4. Repeatable.

Economics

1. Undergraduate Study

The department offers work for the degrees of bachelor of science with a major in agricultural business, bachelor of science with a major in business economics, and bachelor of science with a major in economics. The department also offers a minor in agricultural business and a minor in economics. In addition, the department participates in the interdepartmental programs in international agriculture and global resources systems offered by the College of Agriculture and Life Sciences, and the interdepartmental programs in international studies and women’s studies offered by the College of Liberal Arts and Sciences. For further discussion of programs in agricultural business, see the statement below under College of Agriculture and Life Sciences. For programs in business economics, see the statement below under College of Business. For programs in economics, see the statement below under College of Liberal Arts and Sciences. Visit our web site at www.econ.iastate.edu.

Graduates of the Department of Economics have unique skills that distinguish them from other graduates. They have the ability to think and reason clearly, and can address complex issues using tools and decision making models of economics, mathematics, statistics, as well as concepts from the biological, physical, and social sciences. Graduates develop human relations skills that are essential in the work place and the community. They are able to communicate economic and business concepts to other professionals, collective organizations, governments, and the general public using a variety of means. Graduates understand the interaction of technology, human activity, and the environment. They are able to apply concepts associated with making “optimal” choices among economic alternatives. Graduates are prepared for graduate work in law, economics, and business, as well as the world of work, having learned tools of critical analysis and skills essential to getting and keeping meaningful employment.

1.1. College of Agriculture and Life Sciences

1.1.1. Major - Agricultural Business

The major in agricultural business prepares students for advanced studies and for careers in agricultural finance, management in agricultural supply and marketing industries, commodity merchandising and research, business research and management, farm and ranch operations, commercial farm management and appraisal, agricultural sales and marketing, agricultural reporting and public relations, agricultural extension, international activities, and government service. A major in agricultural business with a minor in economics is not permitted; however, a double major in agricultural business and economics is permitted.
Students majoring in Agricultural Business often choose elective coursework leading to minors in the College of Business or in the College of Agriculture and Life Sciences, or emphasizing specific areas within agricultural business such as finance, management, commodity analysis, research, agricultural sales and marketing, environmental economics, farm and ranch operations, international economics, agricultural extension, or government service.

The major in agricultural business requires a minimum of 120 credits and a 2.00 minimum GPA. Only 65 credits from a two-year institution may apply, which may include up to 16 technical credits. In addition, at most 9 P-NP credits of free electives can be applied toward the degree, and a minimum of 15 credits must be earned from courses taught by the Department of Economics at ISU.

The major in agricultural business requires:

**International Perspective:** 3 cr. from approved course list.

**U.S. Diversity:** 3 cr. from approved course list.

**Communication/Library:** 12.5 cr.

**Agricultural, Food, or Natural Resources Sciences:** 6 cr. from approved course list.

**General Economics:** 9-10 cr.
Specifically, with respect to:

- Culturally and internationally aware. 
- Communicate effectively; to be ethical; to respect the environment, and to be multi-
- Able to use economic reasoning to think critically; to make decisions and to
- Two concepts of comparative advantage, specialization, and exchange to
- Identify the conditions under which markets allocate resources efficiently or
- Apply marginal economic analysis to solve problems
- Conduct comparative static analyses
- Pose and test hypotheses

2. Economic Reasoning:
- Distinguish positive (what is) and normative (what should be) economics
- Distinguish opportunity cost of alternatives
- Apply concepts of comparative advantage, specialization, and exchange to
- Identify the conditions under which markets allocate resources efficiently or
- Markets fail
- Identify economic and business concepts to professionals, organizations,
- Communicate clearly and succinctly, and document sources and methods
- Communicate clearly and persuasively
- Prepare and present visual information effectively

3. Decision Making/Problem Solving:
- Distinguish causal relationships from correlations
- Distinguish factual statements from opinions or value judgements
- Critical analysis of their own arguments and those of others
- Understand the usefulness of abstractions and models
- Distinguish simplifying and critical assumptions from unnecessary details
- Critically evaluate competing viewpoints to make reasoned judgments

4. Communications:
- Communicate economic and business concepts to professionals, organizations,
- Summarize research activities and analysis clearly and succinctly, and
- Communicate to professionals, organizations, governments, and the general public
- Write clearly and effectively
- Speak clearly and persuasively
- Prepare and present visual information effectively

5. Ethics:
- Understand the physical and biological properties of the environment and ecological systems
- Understand how economic activity, such as business or agriculture, impacts the environment
- Critically evaluate their own arguments and those of others

6. Environment Awareness:
- Have human relation skills essential in the work place and the community

7. International/Multi-Cultural Awareness:
- Understand cultural diversity within our own nation and around the world
- Know the different economic or agricultural systems in other countries
- Have human relation skills essential in the work place and the community

2. Graduate Study

The department offers a master of science and a doctor of philosophy in economics and agricultural economics. The department also offers minors to students with majors in other departments. Visit our web site at www.econ.iastate.edu.

Students do not need to have an undergraduate major in economics or agricultural economics in order to qualify for graduate work in the department. However, students must have completed undergraduate coursework in macroeconomics, microeconomics, statistics, calculus, and matrix algebra. Some background in mathematics courses emphasizing logic and proofs is preferred, particularly for the Ph.D. Candidates for the degree master of science (thesis option) are required to complete satisfactorily 30 credits of acceptable graduate work, including preparation of a thesis.
Candidates for the degree master of science (non-thesis option) may fulfill requirements by satisfactorily completing 32 credits of coursework, including preparation of a creative component.

Programs of study for the doctorate are organized by each student in consultation with the major professor and the individual’s committee. Subject to staffing constraints, the department offers coursework to support the following fields of concentration: applied econometrics, agricultural economics, financial economics, industrial organization, international economics, human resources, macroeconomics, and environmental and resource economics. Each student must complete advanced courses in microeconomic and macroeconomic theory, quantitative methods and econometrics, and two fields from the list above. Students must demonstrate competence in theory by passing qualifying examinations. Students must also participate in workshops.

The department cooperates in the interdepartmental graduate majors in transportation and sustainable agriculture, and the interdepartmental minor in gerontology.

Courses

Courses primarily for undergraduates:

**ECON 101. Principles of Microeconomics.**

(3-0) Cr. 3.

**ECON 101H. Principles of Microeconomics: Honors.**

(3-0) Cr. 3. Prereq: ECON 101 recommended

**ECON 101L. Laboratory in Principles of Microeconomics.**

(0-2) Cr. 1. Prereq: Concurrent enrollment in the appropriate section of ECON 101 Discussion of material typically covered in Econ 101. Application of economic principles to real world problems. Economic principles and basic business management concepts applied to decision-making in agribusiness operations.

**ECON 102. Principles of Macroeconomics.**

(3-0) Cr. 3. Prereq: ECON 101 recommended

**ECON 102H. Principles of Macroeconomics: Honors.**

(3-0) Cr. 3. Prereq: ECON 101 recommended; admission to the Honors program.

**ECON 110. Orientation in Agricultural Business.**

(1-0) Cr. 0.5.
Orientation course for freshman and new transfer students in agricultural business. Offered on a satisfactory-fail basis only.

**ECON 207. Applied Economic Optimization.**

(2-2) Cr. 3. Prereq: MATH 151, MATH 160, MATH 165 or equivalent Application of linear algebra, calculus and unconstrained and constrained optimization techniques to economic problems. Learning outcomes include the ability to (i) identify the objective, decision variables and constraints in economic decision problems, (ii) represent elements of an economic problem in simple mathematical models, (iii) identify and apply mathematical tools that can be used to solve the problems, (iv) identify the strengths and limitations of the solution method, and (v) interpret the economic meaning and implications of the solution.

**ECON 230. Farm Business Management.**

(2-2) Cr. 3. Prereq: ECON 101; ACCT 284
Business and economic principles applied to decision making and problem solving in the management of a farm business. Cash flow, partial, enterprise, and whole farm budgeting. Information systems for farm accounting, analysis, and control. Obtaining and managing land, capital, and labor resources. Alternatives for farm business organization and risk management.

**ECON 234. Small Business Management.**

(3-0) Cr. 3. Prereq: ECON 101
An introduction to small business management, entrepreneurship, and economics utilizing a series of case studies. Exploration of issues related to starting or acquiring a new business and development of knowledge and skills for successful management of a small business, with an emphasis on agricultural business.

**ECON 235. Introduction to Agricultural Markets.**

(3-0) Cr. 3. Prereq: ECON 101
Basic concepts and economics principles related to markets for agricultural inputs and products. Overview of current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. The implications of consumer preferences at the farm level. Introduction to hedging, futures, and other risk management tools.

**ECON 292. Career Seminar.**

(1-0) Cr. 1. Prereq: Classification in economics or agricultural business
Career opportunities in the various industries and government institutions. Required training and skills needed to perform successfully in different types of careers. Factors important in finding and obtaining employment either before or after graduation including personal resumes, interviewing, and letter writing.

**ECON 297. Internship.**

Cr. 2. Repeatable, maximum of 4 credits. Prereq: Permission of instructor and classification in agricultural business or economics
Students complete a research report, based on their internship or approved work experience, that examines chosen topics in management, marketing or finance. Offered on a satisfactory-fail basis only.

**ECON 298. Cooperative Education.**

Cr. R. Prereq: Permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**ECON 301. Intermediate Microeconomics.**

(3-0) Cr. 3-4. Prereq: ECON 101; ECON 207 or MATH 166
Theory of consumer and business behavior; optimal consumption choices and demand; theory of firm behavior; costs, production, and supply; competitive and imperfectly competitive markets; theory of demand for and supply of factors of production; general equilibrium analysis. Recitation required for 4 credits. Nonmajor graduate credit.

**ECON 301H. Intermediate Microeconomics: Honors.**

(3-0) Cr. 3-4. Prereq: ECON 101; ECON 207 or MATH 166
Theory of consumer and business behavior; optimal consumption choices and demand; theory of firm behavior; costs, production, and supply; competitive and imperfectly competitive markets; theory of demand for and supply of factors of production; general equilibrium analysis. Recitation required for 4 credits. Nonmajor graduate credit.

**ECON 302. Intermediate Macroeconomics.**

(3-0) Cr. 3. Prereq: ECON 101; ECON 102; MATH 160 or MATH 165
Theory of income, employment, interest rates, and the price level; fiscal and monetary policy; budget and trade deficits; money and capital inflows, interest rates, and inflation. Nonmajor graduate credit.

**ECON 302H. Intermediate Macroeconomics: Honors.**

(3-0) Cr. 3. Prereq: ECON 101; ECON 102; MATH 160 or MATH 165
Theory of income, employment, interest rates, and the price level; fiscal and monetary policy; budget and trade deficits; money and capital inflows, interest rates, and inflation. Nonmajor graduate credit.
ECON 308. Agent-Based Computational Economics. (3-0) Cr. 3. Prereq: ECON 101
Computational study of economies as evolving systems of autonomous interacting agents. Key ideas from game theory and complex adaptive systems theory for modeling the adaptation, learning, and co-evolution of economic agents in decentralized market economies. Evolution of behavioral norms and interaction networks. Building agent-based computational laboratories for the experimental study of market protocols and agent learning processes. Illustrative economic applications (e.g., financial markets, labor markets, agricultural markets, electricity markets, auction markets, automated Internet markets, collective usage of common-pool resources). Nonmajor graduate credit.

ECON 312. History of Economic Thought. (3-0) Cr. 3. Prereq: ECON 101
The logic and explanatory value of received economic doctrines since the middle of the eighteenth century. The reflection of past economic doctrines in contemporary theory and policy. Discussion of major works by Smith, Ricardo, Mill, Marx, Marshall, Walras, Hicks, and Keynes.

ECON 313. Economics of Sports. (3-0) Cr. 3. Prereq: ECON 101
Application of economics to issues in sports, including franchising, rival leagues and barriers to entry; cooperative, competitive, and collusive behavior; player productivity and compensation; contracts, unions, and discrimination; antitrust, taxation, and subsidies. Economic concepts include supply and demand, labor economics, pricing, public finance, production, game theory, and industrial organization. Nonmajor graduate credit.

ECON 320. Labor Economics. (3-0) Cr. 3. Prereq: ECON 101
Economic analysis of contemporary domestic and international labor market issues including labor supply and demand, unemployment, and employment in the U.S. and elsewhere; investments in and returns to education, training, health, immigration and migration; income inequality; labor productivity; out-sourcing and global competitiveness; work incentives; compensation including benefits; and labor policies such as minimum wages, over-time pay, discrimination, unions, and immigration. Examples drawn from the U.S. and other developed countries with reference to developing countries where relevant. Nonmajor graduate credit.

ECON 321. Economics of Discrimination. (Cross-listed with W S). (3-0) Cr. 3. Prereq: ECON 101
Economic theories of discrimination. Analysis of the economic problems of women and minorities in such areas as earnings, occupations, and unemployment. Public policy concerning discrimination. Poverty measurement and antipoverty programs in the U.S. Nonmajor graduate credit. Meets U.S. Diversity Requirement

ECON 325. Biorenewable Systems. (Cross-listed with A E, AGRON, AN S, BSE, BUSAD, TSM). (3-0) Cr. 3. F. Prereq: ECON 101, CHEM 163 or higher, MATH 140 or higher
Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, and transportation/logistics.

ECON 332. Cooperatives. (3-0) Cr. 3. Prereq: ECON 101
Survey of cooperative activities with emphasis on agricultural cooperatives, types of cooperatives, methods of organization and operation, principles, legal and tax aspects, cooperative finance, economic possibilities, and limitations of cooperation. Students will learn how to work together in teams to solve problems while playing directors of cooperative boards. Nonmajor graduate credit.

ECON 333. Advanced Farm Business Management. (3-2) Cr. 3-4. Prereq: ECON 230
Effective use of strategic planning, decision methods, and computer assistance for solving farm problems. Applications of economic and management theory to analyze farm business decisions using efficiency measures to assess current resource use and direct the farm business analysis, planning, and tax process. Computers as aids in the decision process. Three credits available only to students enrolled in AgPAQ. Laboratory required for 4 credits. Nonmajor graduate credit.

ECON 334. Entrepreneurship in Agriculture. (3-0) Cr. 3. Prereq: ECON 101
Introduction to the process of entrepreneurship within the agricultural and food sectors. Emphasis on opportunity recognition and assessment, resource acquisition and feasibility analysis for both private and social enterprises. Students will develop a comprehensive feasibility study for a new business or non-profit organization.
ECON 376. Rural, Urban and Regional Economics.
(Cross-listed with C R P). (3-0) Cr. 3. Prereq: ECON 101
Firm location with respect to regional resources, transport, scale economies, externalities, and policies. Measures of local comparative advantage and specialization. Spatial markets. Population location considering jobs, wages, commuting, and local amenities. Business, residential, and farm land use and value. Migration. Other topics may include market failure, regulation, the product cycle, theories of rural and urban development, developmental policy, firm recruiting, local public goods and public finance, schools, poverty, segregation, and crime. Nonmajor graduate credit.

ECON 378. Retirement Planning and Employee Benefits.
(Cross-listed with HD FS, GERON). (3-0) Cr. 3. Prereq: ECON 101, 3 credits in Principles of Economics and 3 credits in Human Development and Family Studies
Economic well-being in the context of demographic change, the present and future of Social Security, family retirement needs analysis, investment strategies and characteristics of retirement plans, helping others to work towards financial security, family economic issues for retired persons. Overview of employee and retirement benefits.
Meets U.S. Diversity Requirement

ECON 380. Environmental and Resource Economics.
(Cross-listed with ENV S). (3-0) Cr. 3. Prereq: ECON 101
Natural resource availability, use, conservation, and government policy, including energy issues. Environmental quality and pollution control policies.

ECON 385. Economic Development.
(Cross-listed with GLOBE). (3-0) Cr. 3. Prereq: ECON 101, ECON 102
Current problems of developing countries, theories of economic development, agriculture, and economic development, measurement and prediction of economic performance of developing countries, alternative policies and reforms required for satisfying basic needs of Third World countries, interrelationships between industrialized countries and the developing countries, including foreign aid. Nonmajor graduate credit.
Meets International Perspectives Requirement.

ECON 387. Economies of China and India.
(3-0) Cr. 3. Prereq: ECON 101
The economic development of China and India within the larger historical, political, and socioeconomic contexts. The characteristics of the development paths of major industries. The drivers of and impediments for future economic development. The two economies' connections with the world economy. Nonmajor graduate credit. Meets International Perspectives Requirement. Meets International Perspectives Requirement.

ECON 398. Cooperative Education.
Cr. R. Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

ECON 401. Topics in Microeconomics.
(3-0) Cr. 3. Prereq: ECON 301, STAT 226
Advanced treatment of selected topics from one or more of the following areas: household production models, factor markets, game theory and imperfect competition, general equilibrium, intertemporal choice, asset markets, income distribution, externalities and public goods, etc. Nonmajor graduate credit.

ECON 402. Topics in Macroeconomics.
(3-0) Cr. 3. Prereq: ECON 301, ECON 302, STAT 226
Advanced treatment of selected topics from one or more of the following areas: business cycle theory, growth theory, fiscal and monetary policy, coordination issues, open economy macroeconomics, and financial economics. Nonmajor graduate credit.

ECON 416. Industrial Organization.
(3-0) Cr. 3. Prereq: ECON 301
Study of the structure of firms and markets and of their interaction, with emphasis on imperfectly competitive markets. Behavior of firms in strategic settings and insights of basic game-theoretic models. Welfare implications of alternative market organizations, consequences of market power, and scope for government regulation and antitrust/competition policies. Topics include monopoly and price discrimination, oligopoly models, product quality, product differentiation, vertical integration, information and advertising, patents, R&D and innovation, and regulation. Nonmajor graduate credit.

ECON 418. Introduction to Game Theory.
(3-0) Cr. 3. Prereq: ECON 301
Systematic introduction to game theory and its uses in economics. Develops the basic framework, models and tools necessary to analyze games of strategy, including: Strategic and extensive-form representations of games; best response functions and Nash equilibrium, mixed strategies backward induction and subgame-perfect equilibrium, imperfect and incomplete information, Bayesian and sequential equilibria. Examples and applications taken from economics, business, political science, law and biology. Nonmajor graduate credit.

ECON 431. Managerial Economics.
(3-0) Cr. 3. Prereq: ECON 301
Theory of the firm; organizational incentives and efficiency; moral hazard; role of information and decision making under uncertainty; ownership and control; business investment. Nonmajor graduate credit.

ECON 437. Commodity Marketing and Risk Management.
(3-0) Cr. 3. Prereq: ECON 235, ECON 301, STAT 326

ECON 455. International Trade.
(3-0) Cr. 3. Prereq: ECON 301
Rigorous treatment of theories of international trade and international factor movements. Examination of the impact of trade and labor migration on domestic and world welfare and on the distribution of income. Theoretical analysis of government policies towards trade and factor movements, including quotas, tariffs, free trade areas and immigration restrictions. Discussion of contemporary issues and controversies concerning globalization, including multinational firms and labor migration. Nonmajor graduate credit.
Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: ECON 302
National income accounting and balance of payments; foreign exchange rates and exchange rate markets; money, interest rates, and exchange rate determination; prices, exchange rates, and output in the short run; international monetary arrangements; fixed versus flexible exchange rates; optimal currency areas; international capital flows; currency and financial crises in emerging markets. Nonmajor graduate credit.
Meets International Perspectives Requirement.

(Cross-listed with E E). (3-0) Cr. 3. Prereq: E E 303 or ECON 301

ECON 460. Agricultural, Food, and Trade Policy.
(Dual-listed with ECON 560). (3-0) Cr. 3. Prereq: ECON 301 or ECON 501
Description and analysis of economic problems of U.S. agriculture. Explanation and economic analysis of government policies and programs to develop agriculture, conserve agricultural resources, address consumer food concerns, stabilize farm prices, and raise farm incomes. The influence of macropolicy, world economy, international trade, and bioenergy on U.S. agriculture. Nonmajor graduate credit.

ECON 466. Agricultural Finance.
(3-0) Cr. 3. Prereq: ECON 301, STAT 226, FIN 301 and ECON 353 (recommended)
Financial analysis of agricultural businesses; liquidity, capital structure, and growth and risk of agricultural firms; capital budgeting methods; analysis of land investments, leasing, and costs of credit; financial intermediation and major financial institutions for agriculture; borrower-lender relationships, and asset-liability management techniques by financial intermediaries; public policies affecting agricultural credit markets. Nonmajor graduate credit.

ECON 480. Intermediate Environmental and Resource Economics.
(Dual-listed with ECON 580). (3-0) Cr. 3. Prereq: ECON 301 or ECON 501
ECON 490. Independent Study.  
Cr. 1-5. Repeatable, maximum of 6 credits. Prereq: Junior or senior classification, 14 credits in economics  
Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation  

ECON 490E. Independent Study: Entrepreneurship.  
Cr. 1-5. Repeatable, maximum of 6 credits. Prereq: Junior or senior classification, 14 credits in economics  
Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation  

ECON 490H. Independent Study: Honors.  
Cr. 1-5. Repeatable, maximum of 6 credits. Prereq: Junior or senior classification, 14 credits in economics  
Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation  

ECON 492. Graduating Senior Survey.  
Cr. R. Prereq: Graduating senior  
Final preparations for graduation. The final stages of job searching, interviewing, letter writing, and resume preparation. Outcomes assessment information from graduating seniors including opinion surveys, instructor/advisor/course evaluations, exit interviews, student accomplishment surveys, job placement surveys, and comprehensive skills examinations. Departmental recognition of graduating seniors. Life as an alumnus - expectations and obligations. Convocation and commencement information. Offered on a satisfactory-fail basis only.  

ECON 496. Economics International Travel Course.  
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: Sophomore status; permission of instructor.  
Tour and study of international agricultural and/or nonagricultural economies, markets, and institutions. Locations and duration of tours will vary. Limited enrollment. Meets International Perspectives Requirement. Meets International Perspectives Requirement.  

ECON 498. Cooperative Education.  
Cr. R. Prereq: Permission of the department cooperative education coordinator; senior classification  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.  

Courses primarily for graduate students, open to qualified undergraduates:  

ECON 500. Quantitative Methods in Economic Analysis I.  
(4-0) Cr. 4. Prereq: ECON 301, 1 year of calculus, STAT 401, and permission of Director of Graduate Education  
Economic applications of selected mathematical and statistical concepts: linear models and matrix algebra; differential calculus and optimization; integral calculus and economic dynamics; probability distributions, estimation, and hypothesis testing in the analysis of economic data.  

ECON 501. Microeconomics.  
(4-0) Cr. 4. Prereq: ECON 301, credit or enrollment in ECON 500 or equivalent background in calculus and statistics  
The theory of the consumer, theory of the firm, perfect and imperfect competition, welfare economics, and selected topics in general equilibrium and uncertainty.  

(4-0) Cr. 4. Prereq: ECON 302, credit or enrollment in ECON 500 or equivalent background in calculus and statistics  
Models of aggregate supply and demand, theories of consumption and investment, money supply and demand, inflation, rational expectations, stabilization policy, financial markets, and international finance.  

(2-2) Cr. 3. Prereq: ECON 500, ECON 501; or ECON 600, ECON 601  
Use of numerical techniques to solve economic problems. Numerical differentiation and integration numeric solutions of systems of equations, static and dynamic optimization problems including unconstrained optimization, maximum likelihood methods, general nonlinear programming methods, dynamic programming and optimal control, numerical methods for solving functional equations.  

ECON 510. Experimental Economics.  
(3-0) Cr. 3. Prereq: ECON 501 or ECON 601  
Introduction to experimental economics and major subject areas addressed by laboratory and field experiments. Exploration of experimental methods by concentrating on series of experiments. Applications include individual decision-making, behavioral game theory, markets, behavioral labor, public and development economics, social network, and neuroeconomics. Research project. Nonmajor graduate credit.  

ECON 520. Labor Supply and Human Capital Formation.  
(3-0) Cr. 3. Prereq: ECON 501 or ECON 601  
Labor supply decisions and empirical analysis for agricultural operators and other self-employed and wage-earning households; multiple job holding; resource allocation in productive households; human capital formation by households, firms, and public institutions, which includes schooling, on-the-job training, migration, health, research, raising of children, and implications for household income and welfare; applications to problems in rural areas of developing and developed countries.  

ECON 521. Labor Markets.  
(3-0) Cr. 3. Prereq: ECON 501 or ECON 601  
Analysis of labor demand and market determination of wages and employment; analysis of distortions in labor markets due to non-competitive forces, legislation, and discrimination; wage inequality, compensation and work incentives; compensating differentials; microeconomic analysis of unemployment and job search.  

ECON 530. Advanced Farm Management.  
(2-0) Cr. 2. Prereq: 6 credits in economics  
Offered off campus as demand warrants. Risk management principles applied to agriculture. Sources of risk and uncertainty. Attitudes toward risk. Techniques for analyzing and controlling production, marketing, financial, legal and human risk. Designed for master of agriculture program only.  

ECON 532. Managerial Economics for the Global Organization.  
(3-0) Cr. 3. Prereq: ECON 101 and enrollment in MBA or BAS program; not for economics majors  
Applications of microeconomic theory and decision analysis for firms operating in U.S. and internationally. Topics include demand & supply, consumer choice theory, production and cost theory, short run and long run business decisions, input cost and human capital differences across countries, empirical estimation of demand and supply, pricing, exchange rates, government and business, market structures and strategy.  

ECON 533. Economic and Business Decision Tools.  
(Cross-listed with BUSAD). (3-0) Cr. 3. Prereq: ECON 501 or ECON 532  
Team taught by faculty in the Department of Economics and the College of Business, this course focuses on applied economic and business tools for decision making. The topics include: Monte Carlo analysis with applications to option pricing and insurance mechanism design, portfolio analysis using existing standard spreadsheet software and add-ons, dynamic programming tools for inventory management and sequential decisions, discrete choice modeling and statistical bootstrapping, and financial performance evaluation using commercially available software.  

(2-0) Cr. 2. Prereq: 6 credits in economics  

(3-0) Cr. 3. Prereq: ECON 501 or ECON 532 or ECON 601, ECON 571 or STAT 326  

ECON 545. Public Economics.  
(3-0) Cr. 3. Prereq: ECON 501 or ECON 601  
Optimal taxation; excess burden; partial and general equilibrium analysis of tax incidence; social insurance; effects of taxation on labor supply and savings; economics of the health sector.  

ECON 553. Applied Research in Monetary and Macroeconomics.  
(3-0) Cr. 3. Prereq: ECON 502, ECON 571  
Application of economic theory to the analysis of contemporary issues in macroeconomics, monetary economics, and financial economics.
ECON 555. Issues in International Economics.  
(3-0) Cr. 3. Prereq: ECON 501, ECON 502  
Theories of international trade and finance. Emphasis on current policy issues in  
international economics.

(Dual-listed with ECON 460). (3-0) Cr. 3. Prereq: ECON 301 or ECON 501  
Description and analysis of economic problems of U.S. agriculture. Explanation and  
economic analysis of government policies and programs to develop agriculture,  
conserve agricultural resources, address consumer food concerns, stabilize farm  
prices, and raise farm incomes. The influence of macroeconomic policy, world  
economy, international trade, and bioenergy on U.S. agriculture.

(2-0) Cr. 2. Prereq: ECON 101  
Offered off campus. Offered as demand warrants. Government policy and the policy-  
making process as it affects food, agriculture, and trade. Description and analysis  
of government policies and programs designed to address production agriculture  
problems and consumer food concerns. Evaluation of the interaction of agriculture  
and world trade as affected by U.S. and foreign government policies. Designed for  
master of agriculture program only.

ECON 571. Intermediate Econometrics.  
(3-0) Cr. 3. Prereq: ECON 500  
Single and multiple equation regression models; dummy explanatory variables; serial  
correlation; heteroskedasticity; distributed lags; qualitative dependent variables;  
simultaneity. Use of econometric models for tests of economic theories and  
forecasting.

ECON 576. Spatial Economics.  
(3-0) Cr. 3. Prereq: ECON 501 or ECON 601  
Analysis of location choice by firms, employees, and households emphasizing the  
role of spatial variations in agglomeration economies, economies of scale, distance,  
transport, endowments, amenities, and local government. Models of land use, urban  
form, spatial competition, central place theory, and migration. Techniques of discrete  
choice analysis, statistical analysis of categorical data, urban system modeling, and  
interregional computable general equilibrium.

ECON 580. Intermediate Environmental and Resource Economics.  
(Dual-listed with ECON 480). (3-0) Cr. 3. Prereq: ECON 301 or ECON 501  
Theories of natural resource utilization and allocation. Externalities, public goods, and  
environmental quality. Renewable energy, biofuels, land use change and life cycle  
analysis of carbon, and sustainability and resource conservation. Methodologies for  
analyzing natural resource and environmental problems and evaluating resource  
policies.

ECON 581. Advanced Environmental Economics.  
(3-0) Cr. 3. Prereq: ECON 501 or ECON 601  
Interrelationships of natural resource use and the environment. Applied welfare and  
benefit-cost analyses. Externalities and pollution abatement. Nonmarket valuation of  
resources. Property rights. Legal and social constraints. Policy approaches.

ECON 590. Special Topics.  
Cr. 1-5. Repeatable.  
Offered on a satisfactory-fail basis only.

ECON 599. Creative Component.  
Cr. 1-5.  
Offered on a satisfactory-fail basis only.

Courses for graduate students:

ECON 600. Quantitative Methods in Economic Analysis II.  
(4-1) Cr. 4. Prereq: ECON 500  
Unconstrained and equality- and inequality-constrained optimization; the Kuhn-  
Tucker formulation; abstract spaces; dynamic programming; dynamical systems.

ECON 601. Microeconomic Analysis I.  
(4-1) Cr. 4. Prereq: ECON 301, previous or concurrent enrollment in 600 and  
permission of Director of Graduate Education  
Economic theory and methodology; theory of consumer behavior, theory of the  
competitive firm, supply and factor demand; duality relations in consumer and  
producer theory, welfare change measures; partial equilibrium analysis, perfect  
competition, monopoly; choice under uncertainty, the expected utility model, risk  
aversion; insurance, portfolio and production decisions under risk.

ECON 602. Macroeconomic Analysis.  
(4-1) Cr. 4. Prereq: ECON 301, ECON 302, previous or concurrent enrollment in 600  
and permission of Director of Graduate Education  
Neoclassical aggregate growth models; the overlapping generations model;  
endogenous growth models; equilibrium business cycle theories; equilibrium job  
search and matching; models of money; fiscal and monetary policy; income and  
wealth distribution.

ECON 603. Microeconomic Analysis II.  
(4-1) Cr. 4. Prereq: ECON 601, ECON 602 and permission of Director of Graduate Education  
General equilibrium analysis, efficiency, and welfare; market failures, externalities,  
and the theory of the second best; introduction to game theory; adverse selection,  
signaling, screening and moral hazard.

ECON 604. Advanced Macroeconomic Analysis.  
(4-1) Cr. 4. Prereq: ECON 601, ECON 602 and permission of Director of Graduate Education  
Topics will be selected from: new Keynesian approaches to business cycle  
theory; endogenously generated business cycles; models of credit and financial  
intermediation; mechanism design and time inconsistency issues; political economy  
models; heterogeneous-agent models with strategic interaction; path dependence,  
network effects, and lock-in; economies as evolving self-organizing systems.

ECON 605. Advanced Topics in Microeconomics.  
(3-0) Cr. 3. Prereq: ECON 603  
Selected topics in microeconomic theory of current significance to the profession.

ECON 606. Advanced Topics in Macroeconomics.  
(3-0) Cr. 3. Prereq: ECON 603, and credit or current enrollment in ECON 604  
Selected topics in macroeconomic theory of current significance to the profession.

ECON 615. Theoretical Industrial Organization.  
(3-0) Cr. 3. Prereq: ECON 603  
Theoretical analysis of traditional topics in industrial organization. Review of game  
theory. Monopoly and oligopoly theory, price discrimination, product differentiation,  
research and development, diffusion of innovation, network externalities, and  
asymmetric information.

(3-0) Cr. 3. Prereq: ECON 603, ECON 671  
Empirical methods in industrial organization. Measurement of market power. Discrete  
choice models of product differentiation. Empirical studies of price dynamics, entry,  
collusion, price discrimination, technology adoption, asymmetric information, and  
auctions.

ECON 618. Game Theory.  
(3-0) Cr. 3. Prereq: ECON 603, or ECON 501 and permission of instructor  
Theoretical analysis and applications of strategic games, extensive form games,  
and cooperative games. Nash equilibrium, correlated equilibrium, Bayesian games,  
subgame perfect equilibrium, the core, evolutionary equilibrium, repeated games with  
finitely automata, and common knowledge.

ECON 641. Agricultural Economics I.  
(3-0) Cr. 3. Prereq: ECON 603  
Advanced treatment of topics in agricultural economics with emphasis on  
Flexible representation of production and demand systems. Production efficiency and  
nonparametric analysis. Production models with risk. Part 2: The role of contracts  
in the organization and coordination of agricultural production. Distribution of asset  
ownership, allocation of risk among parties, and the structure of incentive systems.  
Rationale for cooperative efforts and information sharing. The role of information,  
insurance, and credit.

ECON 642. Agricultural Economics II.  
(3-0) Cr. 3. Prereq: ECON 603  
Advanced treatment of topics and models in agricultural economics with emphasis  
on equilibrium analysis. Part 1: Application of price theory to agricultural market  
analysis. Vertical market relations, product differentiation and quality in agri-food  
markets, storage, futures markets and commodity prices. Part 2: Market failures  
and the scope for government intervention in agriculture. Applied welfare analysis  
of agricultural and environmental policies. Issues and models in international trade  
of agricultural products.

ECON 654. Advanced Topics in Financial Economics. (3-0) Cr. 3. Repeatable. Prereq: ECON 603 Selected topics in financial economics of current significance to the profession.

ECON 655. International Trade. (3-0) Cr. 3. Prereq: ECON 603 Theories of international trade; welfare and distributional aspects of trade and commercial policies. Optimal trade policies in the presence of domestic distortions; strategic trade policy; international trade and economic growth.

ECON 657. International Finance. (3-0) Cr. 3. Prereq: ECON 602 The intertemporal approach to current account determination; non-traded goods and the real exchange rate; fiscal policy in the open economy; monetary approach to balance of payments and exchange rate determination; sticky price models of the open economy; exchange-rate based stabilizations; capital inflows; financial and balance of payments crises; international business cycles.

ECON 671. Econometrics I. (4-1) Cr. 4. Prereq: ECON 501 and STAT 447 or STAT 542 Probability and distribution theory for univariate and multivariate normal random variables, introduction to the theory of estimators for linear models, hypothesis testing and inferences, introduction to large sample properties of estimators; derivation of common estimators and their properties for the classical and general multiple regression models, hypothesis testing, forecasting, implications of specification errors - missing data, left-out regressors, measurement error, stochastic regressors.

ECON 672. Econometrics II. (4-1) Cr. 4. Prereq: ECON 671 Identification, estimation, and evaluation of systems of simultaneous equations; qualitative choice and limited dependent variable models; introduction to time series methods and applications, including alternative variance specifications.

ECON 673. Microeconometrics. (3-0) Cr. 3. Prereq: ECON 672, ECON 601 Econometric treatment of models arising in microeconometric applications. Methods are primarily concerned with the analysis of cross-section data. Topics may include: systems of demand equations in panel data settings, random utility models of discrete choices, production possibilities frontier estimation, and discrete/continuous models of participation and consumption.

ECON 674. Macroeconometrics. (3-0) Cr. 3. Prereq: ECON 672, ECON 602 Time-series econometric techniques and their application to macroeconomics and financial markets. Techniques may include GARCH and ARCH-M models, unit-root tests, nonlinear adjustment models, structural VARs, and cointegration tests.

ECON 675. Advanced Topics in Econometrics. (3-0) Cr. 3. Repeatable. Prereq: ECON 672 or STAT 543 Advanced treatment of issues important in econometrics. Topics chosen from asymptotic theory, nonlinear estimation, Bayesian and robust econometrics, econometric time series, limited dependent variables and censored regression models, nonparametric and semiparametric methods, bootstrapping and Monte Carlo techniques, etc.

ECON 680. Advanced Resource Economics. (3-0) Cr. 3. Prereq: ECON 603 Dynamic allocation of scarce, exhaustible, and renewable natural resources, including minerals and energy, soil, water, forests, and fish. Social versus private decisions. Market and nonmarket considerations. Technological change. Regulation. Dynamics and uncertainty.

ECON 689. Advanced Topics. Cr. 1-5. Repeatable. Offered on a satisfactory-fail basis only.

ECON 691. Third-Year Paper. Cr. 3. Under the direction of the major professor, Ph.D. students write a formal research paper as an introduction to the dissertation research process. Offered on a satisfactory-fail basis only.

ECON 693. Workshops. Cr. 1-3. Repeatable. Prereq: 6 graduate credits in chosen field Offered on a satisfactory-fail basis only.

English

Undergraduate Study

As one of the core disciplines of the liberal arts, English promotes an understanding of the way language functions and provides all students with fundamental skills needed to succeed in college, at work, and as citizens. Courses in the department foster critical thinking, leadership ability, and democratic engagement and prepare students to communicate effectively in college, in the workplace and in public forums. Students interested in majoring in English can choose a

- BA in English (with possible tracks in Literature, Creative Writing, Literary Editing, or Rhetoric)
- BA in English with an emphasis in Teacher Education (required courses for licensure are marked below)
- BS in Technical Communication.

Students interested in a BS degree in English will need to complete 12 extra credits beyond the general education requirements; these credits must be taken in Linguistics, natural science, mathematics, social science, or selected courses in Kinesiology. Those interested in civic discourse and oral communication can major in Speech Communication (see the catalog listing Speech Communication). Students in secondary education can also earn an ESL endorsement through classes in the English Department (courses are marked below).

An undergraduate major in English can be a solid basis for the professional study of law, medicine, theology, and business or careers in education, arts management, and publishing. An undergraduate major in technical communication can prepare students for careers in nonprofit and government communication, web design and communication consulting, software documentation, and scientific and technical writing and editing.

The department also provides communication courses for students across the disciplines through the ISUComm initiative. The goal of ISUComm is to strengthen student communication and enhance students’ critical thinking skills by creating opportunities for them to practice communication skills throughout their academic careers. These courses include ENGL 150 and 250 (ISUComm foundation courses) and ENGL 302, 309 and 314 (ISUComm advanced courses). These courses benefit all ISU undergraduates by addressing written, oral, visual, and electronic communication, or WOVE. WOVE prepares students for 21st-century communication activities.

As part of Iowa State’s commitment to interdisciplinary study and cultural inclusiveness, English also has strong ties with African American Studies, American Indian Studies, Classicial Studies, Latino/a Studies, Linguistics, Speech Communication, and Women’s Studies. In addition to course offerings in literature, creative writing, linguistics, speech communication, rhetoric, and technical communication, the field of English studies features strong connections with the technical, scientific, and environmental work that distinguishes Iowa State. International students and other non-native speakers of English can go to the Intensive English and Orientation Program (IEOP) in the department which offers special courses in English for both undergraduate and graduate students who are native speakers of other languages. (See catalog entries under English Courses for Native Speakers of Other Languages and English Requirement for International Students.)

English Major Requirements

English majors are required to have, in addition to ISUComm foundation courses (ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition), at least 37 credits in English. English majors transferring from other institutions must take at least 18 of their credits in English while in residence at Iowa State.

To graduate with a major in the English Department, a student must earn at least a C (not a C-) in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition as well as in each of the courses taken to fulfill the program of study. Earning at least a C in ISUComm foundation courses and...
in one advanced communication course also meets the departmental Communication Proficiency requirement.

</tbody>
</table>

** Total Credits: 37

** Additional course requirements outside of English for students seeking teacher licensure include the following:

- C I 202 Learning Technologies in the 7-12 Classroom
- C I 204 Social Foundations of Education in the United States
- C I 280A Pre-Student Teaching Experience: Teacher Aide
- C I 395 Teaching Reading in Middle and Secondary Schools
- C I 406 Multicultural Foundations of School and Society: Introduction
- C I 426 Principles of Secondary Education
- SP ED 401 Teaching Secondary Students with Exceptionalities in General Education
- PSYCH 230 Developmental Psychology
- PSYCH 333 Educational Psychology
- HIST or POL S American History or Government
- SP CM 212 Fundamentals of Public Speaking or THTR 358 Oral Interpretation

Some of these courses taken to meet licensure requirements may also meet General Education requirements for the college.

See also the 4-year plan of study grid for English Education showing courses by semester. (https://nextcatalog.registrar.iastate.edu/planofstudy/liberalartsandsciences/englishba-englisheducation)

** English Minor Requirements:

The minor in English prepares students in any discipline for which communication activities are needed to succeed in their professions. Minors in English will complete 15 credits beyond ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition, all with a grade of C (not C-) or higher, 9 of which will be at the 300 or 400 levels. Twelve of these hours must be taken at Iowa State. Up to 6 of the 15 credits taken for the minor may be used to meet other degree program requirements.

** ESL Endorsement Requirements:

At Iowa State University, ESL is an add-on endorsement, which means that students need to be certified in another area and to take all basic teacher preparation courses. The growing number of English learners in our public schools make the ESL endorsement a useful addition to a main teaching license.

To add English as a Second Language, students must earn credits in the following courses. In some cases, relevant special topics courses or experimental courses may be substituted. Some courses have prerequisites.

<table>
<thead>
<tr>

** Teacher Licensure Courses:

Students seeking teacher licensure in Teacher Education should consult their advisor for a complete list of courses that meet major requirements and specialized licensure requirements (see Teacher Education section in this catalog). Among those licensure requirements are the following additional courses in English:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 353</td>
<td>World Literature: Western Foundations through Renaissance</td>
</tr>
</tbody>
</table>

See also the 4-year plan of study grid for the English BA and BS showing suggested courses by semester. (https://nextcatalog.registrar.iastate.edu/planofstudy/liberalartsandsciences/englishba)
Appropriate curriculum and instruction substitutes for ENGL 524 (e.g., CI 378) will be considered.

ENGL 588 Supervised Practice Teaching in Teaching English as a Second Language 3

**Departmental Awards and Scholarships**

Each spring the English Department offers many scholarships and awards for both undergraduate and graduate students. Some undergraduate awards are for returning English and Technical Communication majors only; others are for returning students of any major who demonstrate excellence in some aspect of English or technical communication. Application forms and a list of current awards are available on the English Department website and in 206 Ross Hall early in the Spring Semester. Award winners are announced each year in April.

**Graduate Study**

The Master of Arts (MA) degree programs offer various possibilities for the advanced study of writing, language, and literature. The degree requires a minimum of 30 hours of graduate credits, including a final thesis or creative component (3 credits). Both the MA in English and the MA in TESL/Applied Linguistics have language requirements that may be fulfilled in a number of ways. Students whose native language is other than English are considered to have met the language requirement after satisfying the Graduate College English requirement. Prospective students must secure admission to the graduate studies program through the English Department.

Students admitted to the MA in English choose between two areas of specialization: The Literature specialization is designed to prepare students for a variety of career paths. These include going on for a PhD; teaching at the secondary, two- and four-year college, and university levels; and working in fields such as publishing, research and administration, or non-profit organizations. The Literature and Teaching of Reading specialization is designed for students with a teacher license who wish to take graduate literature courses and work toward a reading endorsement by taking three reading courses in Curriculum and Instruction.

The MA in Rhetoric, Composition, and Professional Communication (RPC) is designed to prepare students for careers in business, technical, and professional communication in the private and public sectors and in teaching writing and communication at the post-secondary level.

The MA in TESL/Applied Linguistics (TESL/AL) prepares students for careers in teaching English to nonnative speakers of English, either in the US or abroad. Students with MA degrees in TESL teach adults and younger learners in a wide variety of contexts, supervise language programs, work for testing organizations, and create language teaching materials. Students admitted to the degree program can choose among optional specializations: Computer-Assisted Language Learning (CALL); Language Assessment; English for Specific Purposes (ESP); Literacy; and Literature in ESL.

The Master of Fine Arts (MFA) program in Creative Writing and Environment (CWE) is unique in its effort to cultivate in its students an interdisciplinary approach to research and writing, as well as develop a heightened environmental imagination that finds expression in quality, publishable works of fiction, nonfiction, and poetry. The program is designed to prepare students for careers as writers, teachers at the college and university level, and editors. The MFA degree requires 54 hours of graduate credit: a core of creative writing courses, a book-length thesis (6 credits), a fieldwork experiential component (3 credits), and 12 credits in disciplines other than English (such as Landscape Architecture, Anthropology, Environmental Science, among many others) relevant to an individual student’s research interests and thesis project. Prospective students must secure admission to the graduate studies program through the English Department.

The Doctor of Philosophy (PhD) in Applied Linguistics and Technology (ALT) focuses on English language teaching and assessment with particular emphasis on issues and practices related to technology use in these areas. It prepares students for a variety of academic appointments in departments of applied linguistics and English and for professional opportunities in research and development foundations, international publishing enterprises, and government agencies in the US and around the world where English as a second language is taught and used for specific educational, vocational, and professional purposes. Candidates are required to complete 72 hours of graduate credit and a dissertation and to pass a portfolio assessment, a preliminary examination consisting of a dissertation proposal and pilot study and a written response to questions about the proposal or pilot study, and an oral defense of the dissertation. Prospective students must secure admission to the graduate studies program through the English Department.

The PhD in Rhetoric and Professional Communication (RPC) focuses on the rhetorical theory, history, pedagogy, and practice of written, oral, visual, and electronic communication (WOVE) in professional communities, such as business, industry, science, and government. The degree prepares graduates for academic positions in rhetoric, in multimodal composition, and in business, professional, and technical communication, as well as for work in the private and public sectors as professional communication specialists, editors, designers, and communications managers. Candidates are required to complete 72 hours of graduate credit and a dissertation and to pass a portfolio assessment, a preliminary examination consisting of a comprehensive examination and a special field examination, and an oral defense of the dissertation. Prospective students must secure admission to the graduate studies program through the English Department.

A Graduate Certificate in Teaching English as a Second Language/Teaching English as a Foreign Language (TESL/TEFL) prepares students to teach English to nonnative speakers of English either in the US or abroad. It offers students grounding in the linguistic understanding of English and a flexible program of study with courses in teaching methodology, language assessment, and the use of technology to address students' language needs. This 12-credit program requires two prerequisites, one core requirement, and three graduate courses. The following courses are cross-listed with courses in Linguistics.

**Two Prerequisites**

**Total Credits** 12

The department offers graduate students an opportunity to gain professional experience through fieldwork and internships, departmental research activities, the Intensive English and Orientation Program (IEOP), the ISUComm Foundation Courses Program, the Advanced Communication Program, and the Speech Communication Program. Teaching and research assistantships are available for qualified students. Teaching assistants are responsible for teaching, with faculty supervision, classes in ISUComm foundation courses, courses in public speaking, courses in English as a Second Language (ESL), and courses in business and technical communication. Research assistants may be assigned to faculty members engaged in research projects. One or more Pearl Hogrefe Fellowships in Creative Writing covering stipend and tuition are awarded each year to outstanding graduate students. Grannis Scholarships may be awarded to new students in the Applied Linguistics and Technology doctoral program. Freda Huncke Endowment Graduate Teaching Fellowships are available to first-year doctoral students.

With prior written approval from the School of Education, students may use selected courses to meet requirements for the ESL endorsement (K-12) for teachers. A graduate minor in the English Department at the MA level requires 9 credits of English at the 500 or 600 level in the respective major (English, RPC, TESL/AL). A graduate minor in the English Department at the MFA level requires 12 credits of creative writing courses at the graduate level with 3 of those credits being ENGL 550 Creative Writing: Craft and Professional Practice. A graduate minor in the English Department at the PhD level requires 12 credits at the 500 or 600 level in the respective major (ALT or RPC).

**Courses**

**Courses primarily for undergraduates:**

ENGL 099. Strategies for Non-native Speakers of English. Cr. arr. F.S. Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department's option

ENGL 099L. Strategies for Non-native Speakers of English: Strategies for Listening. Cr. arr. F.S. Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department's option

ENGL 099R. Strategies for Non-native Speakers of English: Strategies for Reading. Cr. arr. F.S. Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department's option

ENGL 099S. Strategies for Non-native Speakers of English: Academic Speaking and Pronunciation. Cr. arr. F.S. Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department's option

ENGL 101. English for Native Speakers of Other Languages. (3-0) Cr. 3. F.S. Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)

ENGL 101B. English for Native Speakers of Other Languages: Academic English. (3-0) Cr. 3. F.S. Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)

ENGL 101C. English for Native Speakers of Other Languages: Academic English II–Undergraduates. (3-0) Cr. 3. F.S. Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)

ENGL 101D. English for Native Speakers of Other Languages: Academic English II–Graduates. (3-0) Cr. 3. F.S. Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)

ENGL 120. Computers and Language. (Cross-listed with LING). (3-0) Cr. 3.
Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.

ENGL 150. Critical Thinking and Communication. (3-0) Cr. 3. F.S.SS. Prereq: Credit for or concurrent enrollment in LIB 160 Application of critical reading and thinking abilities to topics of civic and cultural importance. Introduction of basic oral, visual, and electronic communication principles to support writing development. Initiation of communication portfolio.

Placement based upon SPEAK/TEACH test results. Persons whose native language is English cannot take 180 for credit. No more than one section of 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for Engl 180 does not apply toward graduation.

ENGL 180A. Communication Skills for International Teaching Assistants: Speaking Skills. Cr. 3. Repeatable, maximum of 2 times. F.S.
Emphasis on pronunciation improvement and greater fluency in spoken English. Placement based upon SPEAK/TEACH test results. Persons whose native language is English cannot take 180 for credit. No more than one section of 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for Engl 180 does not apply toward graduation.

ENGL 180B. Communication Skills for International Teaching Assistants: Intermediate Spoken English. Cr. 3. Repeatable, maximum of 2 times. F.S.
Placement based upon SPEAK/TEACH test results. Persons whose native language is English cannot take 180 for credit. No more than one section of 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for Engl 180 does not apply toward graduation.

ENGL 180C. Communication Skills for International Teaching Assistants: Advanced Spoken English. Cr. 3. Repeatable, maximum of 2 times. F.S.
Placement based upon SPEAK/TEACH test results. Persons whose native language is English cannot take 180 for credit. No more than one section of 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for Engl 180 does not apply toward graduation.

ENGL 180D. Communication Skills for International Teaching Assistants: Presentation Skills. Cr. 3. Repeatable, maximum of 2 times. F.S.
Placement based upon SPEAK/TEACH test results. Persons whose native language is English cannot take 180 for credit. No more than one section of 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for Engl 180 does not apply toward graduation.

ENGL 201. Introduction to Literature. (3-0) Cr. 3.
Prereq: Credit in or exemption from 150 Study of selected examples of drama, poetry, short fiction, and the novel drawn from both British and American literature. Recommended for nonmajors.

ENGL 207. Introduction to Creative Writing. (3-0) Cr. 3.
Prereq: Credit in or exemption from 150 Course introduces students to the fundamentals of writing fiction, poetry, and creative nonfiction. Extensive readings in all three genres. Students learn creative processes through writing exercises, workshops, and conferences.

ENGL 219. Introduction to Linguistics. (Cross-listed with LING). (3-0) Cr. 3.
Prereq: Sophomore classification Introduction to linguistic concepts and principles of linguistic analysis with English as the primary source of data. Sound and writing systems, sentence structure, vocabulary, and meaning. Issues in the study of usage, regional and social dialects, language acquisition, and language change.

ENGL 220. Descriptive English Grammar. (Cross-listed with LING). (3-0) Cr. 3.
Prereq: ENGL 250 Overview of grammatical structures and functions. Parts of speech; phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

ENGL 225. Survey of British Literature to 1800. (3-0) Cr. 3.
Prereq: ENGL 250 Representative works of British literature from the origins to 1800 in historical, cultural, and literary contexts. Will include multiple genres.
ENGL 226. Survey of British Literature since 1800.  
(3-0) Cr. 3. Prereq: ENGL 250  
Representative works from 1800 to the present in historical, cultural, and literary contexts. Will include multiple genres and may include texts that reflect and/or critique the impact and legacy of the British empire on its former colonies, i.e., postcolonial literature.

ENGL 227. Survey of American Literature to 1865.  
(3-0) Cr. 3. Prereq: ENGL 250  
Representative works of American literature from its origins (including indigenous and conquest literatures) through the end of the Civil War in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 228. Survey of American Literature since 1865.  
(3-0) Cr. 3. Prereq: ENGL 250  
Representative works written in the United States since the Civil War in historical, cultural, and literary contexts, with attention to the cultural and ethnic diversity of Americans. Will include multiple genres.

ENGL 237. Survey of Film History.  
(3-0) Cr. 3. F. Prereq: Credit in or exemption from 150  
A survey of the history of film, both U.S. and international, from the beginnings in the late nineteenth century to the present.

ENGL 240. Introduction to American Indian Literature.  
(Cross-listed with AM IN). (3-0) Cr. 3. F. Prereq: Credit in or exemption from ENGL 150  
Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, written and visual texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works. Meets U.S. Diversity Requirement

ENGL 250. Written, Oral, Visual, and Electronic Composition.  
(3-0) Cr. 3. F.S.SS. Prereq: ENGL 150 or exemption from ENGL 150; sophomore classification or exemption from ENGL 150; credit for or concurrent enrollment in LIB 160  
Analyzing, composing, and reflecting on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on supporting a claim and using primary and secondary sources. Continued development of communication portfolio.

ENGL 250H. Written, Oral, Visual, and Electronic Composition: Honors.  
(3-0) Cr. 3. F. Prereq: Exemption from ENGL 150 and admission to Freshman Honors Program; credit for or concurrent enrollment in LIB 160  
In-depth analysis, composition, and reflection on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on argumentation: developing claims, generating reasons, providing evidence. Individual sections organized by special topics. Development of communication portfolio.

ENGL 260. Introduction to Literary Study.  
(3-0) Cr. 3. Prereq: Credit in or exemption from 150  
Basic principles of literary study. Emphasis on writing of interpretive and critical essays. Particular attention to poetry. Designed for English majors.

ENGL 275. Analysis of Popular Culture Texts.  
(Cross-listed with SP CM). (3-0) Cr. 3. F.S. Prereq: Credit in or equivalent of 250  
Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

(3-0) Cr. 3. F.S.SS. Prereq: ENGL 250, junior classification  
Theory, principles and processes of effective written, oral, visual, and electronic communication typically encountered in business and the professions. Extensive practice in many areas of workplace communication, including letter, memo, and email correspondence; short proposals and reports; policies and procedures; job packet including letters of application and resumes; website analysis; brochures; and individual and team presentations.

(3-0) Cr. 3. F.S.SS. Prereq: ENGL 250, junior classification  
Theory, principles and processes of effective written, oral, visual, and electronic communication typically encountered in business and the professions. Extensive practice in many areas of workplace communication, including letter, memo, and email correspondence; short proposals and reports; policies and procedures; job packet including letters of application and resumes; website analysis; brochures; and individual and team presentations.

(3-0) Cr. 3. S. Prereq: ENGL 250, not open to freshmen  
Practical workshop in writing nonfiction articles for popular magazines. Emphasis on writing, market research, preparation of manuscripts, methods of submission. Major goal of the course is production of marketable material.

ENGL 304. Creative Writing—Fiction.  
(Cross-listed with W S). (3-0) Cr. 3. F.S. Prereq: ENGL 250, not open to freshmen  
Progresses from practice in basic techniques of fiction writing to fully developed short stories. Emphasis on writing, analytical reading, workshop criticism, and individual conferences.

ENGL 305. Creative Writing—Nonfiction.  
(3-0) Cr. 3. F.S. Prereq: ENGL 250, not open to freshmen  
Workshop in writing imaginative essays, both critical and personal. Analytical reading, development of literary techniques. Individual and small group conferences.

ENGL 306. Creative Writing—Poetry.  
(3-0) Cr. 3. F.S. Prereq: ENGL 250, not open to freshmen  
Progresses from traditional to contemporary forms. Emphasis on writing, analytical reading, workshop criticism, and individual conferences.

ENGL 309. Report and Proposal Writing.  
(3-0) Cr. 3. F.S. Prereq: ENGL 250, junior classification  
Introduction to the theory and practice of preparing and analyzing reports and proposals intended for businesses, governmental agencies, and/or private and corporate foundations. Individual assignments and group projects include textual and visual elements of print and electronic documents as well as oral presentations.

ENGL 310. Rhetorical Analysis.  
(3-0) Cr. 3. F.S. Prereq: ENGL 250  
Fundamental principles of rhetorical criticism. Focus on selected theories for analyzing cultural texts, including essays, speeches, film, technical and scientific documents, and websites. Emphasis on identifying artifacts, formulating research questions, applying methodologies, and understanding and practicing critical analysis through discussion and in writing.

ENGL 312. Biological Communication.  
(3-0) Cr. 3. F.S. Prereq: ENGL 250  
Emphasis on effective writing and communication methods in the biological sciences, presentation of research data, methods of bibliographic citation, ethical communication, use of oral and visual presentation methods for biological information, manuscript and report preparation. For students in the biological and related life sciences.

ENGL 313. Rhetorical Website Design.  
(3-0) Cr. 3. F.S. Prereq: ENGL 250  
Rhetorical principles of multimodal composing in hypertextual environments. Focus on writing according to web style guidelines, employing cascading style sheets for layout and design, and using principles of information architecture to determine optimal site structure. Final project involves constructing interactive client site using latest web standards. Nonmajor graduate credit.

ENGL 314. Technical Communication.  
(3-0) Cr. 3. F.S.SS. Prereq: ENGL 250, junior classification  
Theories, principles, and processes of effective written, oral, visual, and electronic communication of technical information. Attention to major strategies for analyzing and adapting to audiences in various communication situations and composing technical discourse including organizing visual and verbal information. Extensive practice in many areas of technical communication, including instructions and procedures, proposals and reports, website analysis and design, and individual and team presentations.

(3-0) Cr. 3. F.S.SS. Prereq: ENGL 250, junior classification  
Theories, principles, and processes of effective written, oral, visual, and electronic communication of technical information. Attention to major strategies for analyzing and adapting to audiences in various communication situations and composing technical discourse including organizing visual and verbal information. Extensive practice in many areas of technical communication, including instructions and procedures, proposals and reports, website analysis and design, and individual and team presentations.

ENGL 315. Creative Writing—Screenplays.  
(3-0) Cr. 3. F. Prereq: ENGL 250, not open to freshmen  
Stresses master scene technique of writing fully developed screenplays. Emphasis on movie techniques, writing, workshop criticism, analytical reading and viewing, and individual conferences. Nonmajor graduate credit.
ENGL 316. Creative Writing—Playwriting. (Cross-listed with THTRE) (3-0) Cr. 3. S. Prereq: ENGL 250, not open to freshmen. Progresses from production of scenes to fully developed one-act plays. Emphasis on action, staging, writing, analytical reading, workshop criticism, and individual conferences. Nonmajor graduate credit.

ENGL 330. Science Fiction. (3-0) Cr. 3. Prereq: ENGL 250. Study of science fiction from its origins in nineteenth-century to the present. May include study of specific types of science fiction, such as classic, cyberpunk, feminist, or apocalyptic narratives; and may include consideration of science fiction film and/or theory. Nonmajor graduate credit.

ENGL 332. Visual Communication of Quantitative Information. (Cross-listed with STAT) (3-0) Cr. 3. Alt. S., offered 2012. Prereq: STAT 101, STAT 104, STAT 201 or STAT 226; ENGL 250. Communicating quantitative information using visual displays; visualizing data; interactive and dynamic data displays; evaluating current examples in the media; color, perception, and representation in graphs; interpreting data displays. Nonmajor graduate credit.

ENGL 335. Studies in Film. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250. Principles of film art and the traditional vocabulary of literature as applied to film. Influence of film on modes of thought and behavior. Nonmajor graduate credit.

ENGL 339. Literary Theory and Criticism. (3-0) Cr. 3. Prereq: ENGL 250 and 3 additional credits in literature. Study of selected texts of literary criticism, with attention to the purposes and practices of criticism.

ENGL 344. U.S. Latino/a Literature. (3-0) Cr. 3. S. Prereq: ENGL 250. An introduction to the literature of Mexican Americans, Puerto Ricans, Cuban Americans and other Latino/a sub-groups. Special emphasis on themes such as ethnic relations and comparisons with EuroAmerican literary traditions. Meets U.S. Diversity Requirement.

ENGL 345. Women and Literature: Selected Topics. (Cross-listed with W S) (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250. Literature by women and/or dealing with the images of women, e.g., study of individual authors or related schools of authors; exploration of specific themes or genres in women's literature; analysis of recurrent images of women in literature. Nonmajor graduate credit. Meets U.S. Diversity Requirement.

ENGL 346. American Indian Literature. (Cross-listed with AM IN) (3-0) Cr. 3. Prereq: ENGL 250. Survey of literature by Native Americans from pre-Columbian tales and songs to contemporary novels and poetry. Nonmajor graduate credit. Meets U.S. Diversity Requirement.

ENGL 347. Studies in African American Literature. (Cross-listed with AF AM) (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250. Literature by African Americans, which may include study of individual authors, movements, themes, genres. Nonmajor graduate credit. Meets U.S. Diversity Requirement.

ENGL 349. Topics in Multicultural Literatures of the United States. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250. Literature by writers from U.S. multicultural groups. May include literature of several groups or focus upon one of the following: Asian Americans, African Americans, Latino/a Americans, American Indians. Nonmajor graduate credit. Meets U.S. Diversity Requirement.

ENGL 350. Rhetorical Traditions. (Cross-listed with CL ST, SP CM) (3-0) Cr. 3. S. Prereq: ENGL 250. Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

ENGL 351. Scientific Thought and Literary Imagination. (3-0) Cr. 3. Study of texts across time periods and genres that may address the following topics: the influence of scientific thought on literature or literary imagination on science, representations of scientific discovery or disaster in literature, the origins of scientific thought as represented in literature, portrayals of scientific figures in literature. Nonmajor graduate credit.

ENGL 352. Gay and Lesbian Literature. (Cross-listed with W S) (3-0) Cr. 3. Prereq: ENGL 250. Literary portrayals of gay and lesbian lives and relationships from many different genres. Attention to changing definitions and representations of sexual orientation and gender identity over time. Nonmajor graduate credit. Meets U.S. Diversity Requirement.

ENGL 353. World Literature: Western Foundations through Renaissance. (Cross-listed with CL ST) (3-0) Cr. 3. F. S. Prereq: ENGL 250. Representative works from the drama, epic, poetry, and prose of the Ancient World through the late sixteenth century. May include Homer, Aeschylus, Sappho, Catullus, Dante, Marie de France, Boccaccio, Christine de Pizan, Cervantes, and others. Meets International Perspectives Requirement.

ENGL 354. World Literature: Seventeenth Century to the Present. (3-0) Cr. 3. F. Prereq: ENGL 250. Global literatures in their various cultural and aesthetic contexts. Representative works, oral and written literature, including poetry, fiction, nonfiction, and drama. Meets International Perspectives Requirement.

ENGL 355. Literature and the Environment. (Cross-listed with ENV S) (3-0) Cr. 3. Prereq: ENGL 250. Study of literary texts that address the following topics, among others: the relationship between people and natural/urban environments, ecocriticism, and the importance of place in the literary imagination. Nonmajor graduate credit.

ENGL 358. Myth and Fairytales. (3-0) Cr. 3. Prereq: ENGL 250. Study of traditional fairytales, myths, and legends from diverse cultures. Nonmajor graduate credit.

ENGL 359. Literature and the Arts. (3-0) Cr. 3. Prereq: ENGL 250. Study of texts that may include the following topics: the relationship between literature and other art forms (including painting, sculpture, dance, music, photography, and film); the representation of the arts in literature; the influences of other art forms on literature; the interrelation of art theory and literary theory. Nonmajor graduate credit.

ENGL 360. Studies in American Literature to 1800. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250; sophomore classification. Selected readings in American literature from its beginnings through the colonial period; may reflect themes, genres, or social and cultural contexts.

ENGL 362. Studies in 19th Century American Literature. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250; sophomore classification. Selected readings in American literature of the 19th century; may reflect themes, genres, or social and cultural contexts.

ENGL 364. Studies in American Literature: 1900 to the Present. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250; sophomore classification. Selected readings in American literature since 1900; may reflect themes, genres, or social and cultural contexts.

ENGL 370. Shakespeare. (3-0) Cr. 3. F. S. Prereq: ENGL 250. Reading and analysis of selected plays. Development of Shakespeare’s dramatic art in its social and intellectual context. Meets International Perspectives Requirement.

ENGL 373. Studies in British Literature: The Middle Ages. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250; sophomore classification. Selected readings in medieval literature from its beginnings through the fifteenth century; may reflect themes, genres, or social and cultural contexts.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250; sophomore classification
Selected readings in British literature from 1500 to 1660; may reflect themes, genres, or social and cultural contexts.
Meets International Perspectives Requirement.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250; sophomore classification
Selected readings in British literature from 1660 to 1800; may reflect themes, genres, or social and cultural contexts.
Meets International Perspectives Requirement.

ENGL 376. Studies in British Literature.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250; sophomore classification
Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.
Meets International Perspectives Requirement.

ENGL 376A. Studies in British Literature: Romantic.
(3-0) Cr. 3. Prereq: ENGL 250; sophomore classification
Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.
Meets International Perspectives Requirement.

ENGL 376B. Studies in British Literature: Victorian.
(3-0) Cr. 3. Prereq: ENGL 250; sophomore classification
Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.
Meets International Perspectives Requirement.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250; sophomore classification
Selected readings in British literature since 1900; may reflect themes, genres, or social and cultural contexts.
Meets International Perspectives Requirement.

ENGL 379. Postcolonial Literature.
(3-0) Cr. 3. Prereq: ENGL 250; sophomore classification
Historical, thematic and theoretical study of postcolonial literatures from one or more of the following areas: Africa, South Asia, the Caribbean, and the Middle East. Irish and immigrant British writers may also be included.
Meets International Perspectives Requirement.

ENGL 393. The History of Children’s Literature.
(3-0) Cr. 3. F. Prereq: ENGL 250
Origin and development of English and American children’s literature through the early twentieth century. Special emphasis on nature, structure, and enduring themes of fantasy literature. Nonmajor graduate credit.

ENGL 395. Study and Travel: Literature.
Cr. arr. SS. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.
Meets International Perspectives Requirement.

ENGL 395A. Study and Travel: Literature.
Cr. arr. SS. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 395B. Study and Travel: Creative Writing.
Cr. arr. SS. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 395C. Study and Travel: Linguistics.
Cr. arr. SS. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 395D. Study and Travel: Rhetoric and Professional Communication.
Cr. arr. SS. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 395E. Study and Travel: Teacher Education.
Cr. arr. SS. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 396. Teaching the Reading of Young Adult Literature.
(3-0) Cr. 3. S. Prereq: ENGL 250
Critical study and evaluation of themes, genres, and cultures found in young adult literature. Strategies of effective reading; instructional strategies including discussion techniques and use of technology; matching texts to reader needs and proficiencies. Evaluation of fiction, nonfiction, and media-based materials for use in school programs. Lesson planning. Nonmajor graduate credit.

ENGL 397. Practice and Theory of Teaching Writing in the Secondary Schools.
(3-0) Cr. 3. F.S. Prereq: ENGL 219 or ENGL 220; application process initiated for admission to university teacher education program; concurrent enrollment in C 1280 (cr. 2); and background check initiated with state of Iowa Department of Criminal Investigation

ENGL 404. Creative Writing Workshop—Fiction.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. Prereq: ENGL 304
Individual projects in short fiction on a workshop and conference basis. Readings in short fiction. Discussion of elements of narrative such as plot, point of view, characterization, theme, setting.

ENGL 405. Creative Writing Workshop—Nonfiction.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. Prereq: ENGL 305
Individual projects in memoir, immersion journalism, character studies, and/or the personal essay on a workshop and conference basis. Readings in creative nonfiction.

ENGL 406. Creative Writing Workshop—Poetry.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. Prereq: ENGL 306
Individual projects in poetry on a workshop and conference basis. Readings in poetry. Discussion of poetic elements such as image, sound, internal structure, rhythm, tone, figurative language.

(3-0) Cr. 3. Prereq: ENGL 310; ENGL 302, ENGL 309, ENGL 313, or ENGL 314; junior classification
Seminar course on the implication of technologies, especially computer technology, for the writing and reading of business, technical, and academic texts. Extensive reading, discussion, and writing on selected technology-related topics.

ENGL 415. Business and Technical Editing.
(3-0) Cr. 3. S. Prereq: ENGL 302, ENGL 309, or ENGL 314; junior classification
Editing journal articles, research reports, technical manuals, newsletters, and proposals. Attention to editorial levels and styles, project management, editor-author relationships, and electronic editing. Nonmajor graduate credit.

(3-0) Cr. 3. F. Prereq: ENGL 302, ENGL 309, or ENGL 314; junior classification
Rhetoric of visual elements in business and technical communication. Issues in the design of text, charts, graphs, diagrams, schematics, illustrations, and other visual displays. Nonmajor graduate credit.

ENGL 417. Student Teaching.
(Cross-listed with C I). Cr. arr. F.S. Prereq: 494, admission to teacher education, approval of coordinator the semester prior to student teaching
Full-time teaching in secondary English: long term and unit planning, lesson planning, classroom teaching practice in English language arts.

ENGL 417E. Student Teaching: English and Literature.
(Cross-listed with C I). Cr. arr. F.S. Prereq: 494, admission to teacher education, approval of coordinator the semester prior to student teaching
Full-time teaching in secondary English: long term and unit planning, lesson planning, classroom teaching practice in English language arts.

ENGL 418. Seminar in Argumentation.
(3-0) Cr. 3. S. Prereq: ENGL 310, junior classification
Advanced seminar in theory and analysis with extensive practice in various modes of argument. Nonmajor graduate credit.

ENGL 420. History of the English Language.
(Cross-listed with LING). (3-0) Cr. 3. F.S. Prereq: ENGL 219 or LING 219, ENGL 220 or LING 220
Comparison of English to other languages by family background and by type. Analysis of representative Old, Middle, Early Modern and present-day English texts, including both literary works and non-literary documents. Nonmajor graduate credit.
ENGL 422. Women, Men, and the English Language.  
(Cross-listed with LING, W S). (3-0) Cr. 3. S. Prereq: ENGL 219 or LING 219  
The ways men and women differ in using language in varied settings and the ways in  
which language both creates and reflects gender divisions. Nonmajor graduate credit.  
Meets U.S. Diversity Requirement

ENGL 425. Second Language Learning and Teaching.  
(Cross-listed with LING). (3-0) Cr. 3. S. Prereq: ENGL 219 or LING 219; junior  
classification  
The process of second language learning and principles and techniques of teaching  
second languages. Learning and teaching in specific situations and for particular  
purposes. Current applications of technology in teaching and assessment. Nonmajor  
graduate credit.

ENGL 437. Grammatical Analysis.  
(Cross-listed with LING). (3-0) Cr. 3. F. Prereq: ENGL 220 or LING 220; ENGL 219 or  
LING 219 or introductory course in linguistics; junior classification  
Theories and methods for analysis of syntax and morphology.

ENGL 440. Seminar in British Literature.  
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Completion of 9 credits of  
surveys; completion of or concurrent enrollment in ENGL 339; junior classification  
Selected authors, movements, eras, or genres in British literature. Readings in  
criticism; required research paper. Nonmajor graduate credit.

ENGL 441. Seminar in American Literature.  
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Completion of 9 credits of  
surveys; completion of or concurrent enrollment in ENGL 339; junior classification  
Selected authors, movements, eras, or genres in American literature. Readings in  
criticism; required research paper. Nonmajor graduate credit.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Completion of 9 credits of  
surveys; completion of or concurrent enrollment in ENGL 339; junior classification  
Intensive study of selected literature that bridges traditional genre, period, national,  
or disciplinary boundaries. Readings in criticism; required research paper. Nonmajor  
graduate credit.

ENGL 450. Seminar in Literary Genres.  
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Completion of 9 credits of  
surveys; completion of or concurrent enrollment in ENGL 339; junior classification  
Intensive study of a selected topic that bridges theory and practice in technical  
communication. Required project that contributes to the understanding of an  
emerging issue in the profession. Nonmajor graduate credit.

ENGL 460. Seminar in Gender and Ethnicity.  
(Cross-listed with W S). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq:  
Completion of 9 credits of surveys; completion of or concurrent enrollment in ENGL  
339; junior classification  
Selected readings of various authors, movements, eras, or genres. Readings in  
criticism; required research paper. Nonmajor graduate credit.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 302, ENGL 309, or  
ENGL 314  
Intensive study of a selected topic that bridges theory and practice in technical  
communication. Required project that contributes to the understanding of an  
emerging issue in the profession. Nonmajor graduate credit.

ENGL 487. Internship in Business, Technical, and Professional  
Communication.  
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: 9 credits in ENGL 302,  
ENGL 309, ENGL 313, ENGL 314, ENGL 415 (preferred), ENGL 416, or ENGL 477;  
junior classification; and permission of coordinator  
An opportunity to write, edit, and design business and technical documents in  
a professional setting. Projects include reports, proposals, manuals, brochures,  
newsletters.

ENGL 489. Undergraduate Seminar.  
(Cross-listed with LING). (3-0) Cr. 3. Repeatable. F. Prereq: 9 credits in English  
beyond 250  
Intensive study of a selected topic in literature, criticism, rhetoric, writing, or  
language. Cross-listing with linguistics acceptable only when offered as a course in  
linguistics. Nonmajor graduate credit.

ENGL 490. Independent Study.  
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in English  
beyond 250 appropriate to the section taken; junior classification, permission of  
Undergraduate Studies Committee  
Designed to meet the needs of students who wish to study in areas other than those  
in which courses are offered. No more than 9 credits of Engl 490 may be used toward  
graduation.

ENGL 490A. Independent Study: Literature.  
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in English  
beyond 250 appropriate to the section taken; junior classification, permission of  
Undergraduate Studies Committee  
Designed to meet the needs of students who wish study in areas other than those in  
which courses are offered. No more than 9 credits of Engl 490 may be used toward  
graduation.

ENGL 490B. Independent Study: Linguistics.  
(Cross-listed with LING). Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 9  
credits in English beyond 250 appropriate to the section taken, junior classification,  
permission of Undergraduate Studies Committee or Linguistics Adviser  
Designed to meet the needs of students who wish to study in areas other than those  
in which courses are offered. No more than 9 credits of Engl 490 may be used toward  
graduation.

ENGL 490C. Independent Study: Rhetoric, Teaching of Composition.  
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in English  
beyond 250 appropriate to the section taken, junior classification, permission of  
Undergraduate Studies Committee  
Designed to meet the needs of students who wish study in areas other than those in  
which courses are offered. No more than 9 credits of Engl 490 may be used toward  
graduation.

ENGL 490D. Independent Study: Criticism and Theory of Literature.  
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in English  
beyond 250 appropriate to the section taken, junior classification, permission of  
Undergraduate Studies Committee  
Designed to meet the needs of students who wish study in areas other than those in  
which courses are offered. No more than 9 credits of Engl 490 may be used toward  
graduation.

ENGL 490E. Independent Study: Instructional Methods and Research.  
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in English  
beyond 250 appropriate to the section taken, junior classification, permission of  
Undergraduate Studies Committee  
Designed to meet the needs of students who wish to study in areas other than those  
in which courses are offered. No more than 9 credits of Engl 490 may be used toward  
graduation.

ENGL 490F. Independent Study: Creative Writing.  
Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 9 credits in English  
beyond 250 appropriate to the section taken, junior classification, permission of  
Undergraduate Studies Committee  
Designed to meet the needs of students who wish study in areas other than those in  
which courses are offered. No more than 9 credits of Engl 490 may be used toward  
graduation.

Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 9 credits in English  
beyond 250 appropriate to the section taken, junior classification, permission of  
Undergraduate Studies Committee  
Designed to meet the needs of students who wish study in areas other than those in  
which courses are offered. No more than 9 credits of Engl 490 may be used toward  
graduation.

ENGL 490H. Independent Study: Honors.  
Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 9 credits in English  
beyond 250 appropriate to the section taken, junior classification, permission of  
Undergraduate Studies Committee  
Designed to meet the needs of students who wish study in areas other than those in  
which courses are offered, or who desire to integrate a study of literature or language  
with special problems in major fields. No more than 9 credits of Engl 490 may be  
used toward graduation.
(Cross-listed with C I), (3-0) Cr. 3. F. Prereq: ENGL 310, ENGL 397, 9 other credits in English beyond ENGL 250, PSYCH 333, admission to teacher education program Portfolio review. Current theories and practices in the teaching of literature to secondary school students. Integrating literary study and writing. Preparation and selection of materials. Classroom presentation. Unit planning. (Taken concurrently with C I 280, Cr. 2, and Sp Ed 450).

ENGL 497. Capstone Assessment.
Cr. 1. F. Prereq: Junior status
Must be taken in conjunction with a 400-level English course.

Courses primarily for graduate students, open to qualified undergraduates:

ENGL 500. Proseminar: Teaching English Composition.
(3-0) Cr. 3. F. Prereq: Graduate classification; must be teaching Engl 150 or Engl 250 concurrently.

ENGL 501. Writing and Rhetorical Analysis.
(3-0) Cr. 3. F. Prereq: Graduate classification
Introduction to the field of writing and rhetorical analysis. Issues and problems in applied linguistics related to computer methods. Use of applications software for language teaching, linguistic analysis, and statistical analysis. Issues and problems in applied linguistics related to computer methods.

(Cross-listed with LING). (3-0) Cr. 3. F.S.SS. Prereq: ENGL 510 or LING 510 Advanced practicum in language assessment.

ENGL 503. Theory and Research in Composition.
(3-0) Cr. 3. Prereq: 6 graduate credits in English
In-depth consideration of the theory and practice of critical composition pedagogy. Opportunities for actual classroom application.

ENGL 504. Teaching Business and Technical Communication.
(3-0) Cr. 3. F.S.SS. Prereq: MA in English or closely related field and must be teaching ENGL 302, ENGL 309, or ENGL 314 concurrently.
Practicum in teaching college courses in business and technical communication. Emphasis on curriculum planning, textbook selection, assignment design, materials development, and assessment of student work.

(3-0) Cr. 3. Prereq: Graduate classification
Seminar course examining the role of technology, especially computer technology, in communication practices within academic and workplace settings.

ENGL 506. Theory and Research in Professional Communication.
(3-0) Cr. 3. Prereq: Admission to English Department graduate degree program
Introduction to professional communication as a discipline, with emphasis on theories of communication and discourse that inform professional communication research and on trends and developments in that research and the field.

ENGL 507. Writing and Analyzing Professional Documents.
(3-0) Cr. 3. Prereq: Admission to English Department graduate degree program
Introduction to the theory and practice of planning, preparing, and presenting information in written, oral, and visual forms prepared for business, science, industry, and government. Guided readings. Team projects. Individual projects.

ENGL 508. Advanced Workshop in Academic Writing.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 graduate credits
Hands-on practice in writing academic discourse for publication; rhetorical analyses of student-selected academic journals; discussion of current trends in academic writing; professional perspectives on the referee process and on journal editorial decision making. Focus on the writing of selected short pieces (opinion essays, standard reviews, conference-length papers) and of article-length manuscripts.

ENGL 509. Writing Proposals and Grant Applications.
(3-0) Cr. 3. Prereq: Graduate classification
Introduction to the theory and practice of preparing and analyzing proposals and grant applications intended for businesses, governmental agencies, and/or private and corporate foundations. Individual assignments and group projects include text documents and oral presentations.

(Cross-listed with LING). (3-0) Cr. 3. F. Prereq: Graduate classification
Use of applications software for language teaching, linguistic analysis, and statistical analysis. Issues and problems in applied linguistics related to computer methods.

ENGL 511. Introduction to Linguistic Analysis.
(Cross-listed with LING). (3-0) Cr. 3. F. Prereq: Graduate classification
Principles and methods of linguistic analysis with emphasis on phonology, morphology, and syntax. Description of linguistic variation and current theoretical approaches to linguistics.

ENGL 512. Second Language Acquisition.
(Cross-listed with LING). (3-0) Cr. 3. F. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theory, methods, and results of second language acquisition research with emphasis on approaches relevant to second language teaching.

ENGL 513. Language Assessment Practicum.
(Cross-listed with LING). (3-0) Cr. 3. F.S.SS. Prereq: ENGL 519 or LING 519
Advanced practicum in language assessment.

ENGL 514. Sociolinguistics.
(Cross-listed with LING). (3-0) Cr. 3. S. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theories and methods of examining language in its social setting. Analysis of individual characteristics (e.g., age, gender, ethnicity, social class, region), interactional factors (e.g., situation, topic, purpose) and national policies affecting language use.

ENGL 515. Statistical Natural Language Processing.
(Cross-listed with LING, HCI). (3-0) Cr. 3. F. Prereq: STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL 511 or LING 511
Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line thesauri and markup languages, corpus analysis, and Python programming language.

ENGL 518. Teaching English as a Second Language Methods and Materials.
(Cross-listed with LING). (3-0) Cr. 3. F. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Introduction to approaches, methods, techniques, materials, curricular design, and assessment for various levels of ESL instruction. Attention to issues related to the teaching of listening, speaking, reading, writing, vocabulary, pronunciation, and culture.

ENGL 519. Second Language Assessment.
(Cross-listed with LING). (3-0) Cr. 3. S. Prereq: ENGL 511 or LING 511 Principles of second language assessment including reliability, validity, authenticity and practicality. Constructing, scoring, interpreting, and evaluating second language tests for a variety of situations.

ENGL 520. Computational Analysis of English.
(Cross-listed with LING, HCI). (3-0) Cr. 3. S. Prereq: ENGL 510 or LING 510, and ENGL 511 or LING 511 Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

ENGL 521. Teaching of Literature and the Literature Curriculum.
(3-0) Cr. 3. Prereq: 6 credits in literature
Examination of the roles of the literary work, reader, and teacher in literary study. Responses to literature. Place of literature in language arts. Study and development of curriculum materials for middle school, high school, and college levels of instruction.

ENGL 522. Literary Theory and Criticism.
(3-0) Cr. 3. Prereq: 6 credits in literature
Examination of the history, logic, and rhetoric of contemporary literary criticism and analysis.

ENGL 523. Introduction to Old English Language and Literature.
(3-0) Cr. 3. Prereq: Course in medieval literature or history or history of the English language recommended
Introductory study of Old English language and literature in prose and poetry, including extracts from Beowulf. Some attention to Anglo-Saxon culture.

(Cross-listed with LING). (3-0) Cr. 3. F. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theoretical and practical issues and techniques in the teaching of literacy in a variety of contexts, involving children and adults at basic skill levels and teens and adults in academic and vocational programs.
ENGL 525. Methods in Teaching Listening and Speaking Skills to Nonnative Speakers of English. (Cross-listed with LING). (3-0) Cr. 3. S. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theoretical and practical issues and techniques in the teaching of second language pronunciation, listening, and speaking skills. Topics will be relevant to those intending to teach in various contexts involving both K-12 and adult learners.

ENGL 526. Computer-Assisted Language Learning. (Cross-listed with LING). (3-0) Cr. 3. S. Prereq: ENGL 511 or LING 511 or equivalent Theory, research, and practice in computer use for teaching nonnative speakers of English. Methods for planning and evaluating computer-based learning activities.

ENGL 527. Discourse Analysis. (Cross-listed with LING). (3-0) Cr. 3. S. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Methods and theoretical foundations for linguistic approaches to discourse analysis. Applications of discourse analysis to the study of texts in a variety of settings, including academic and research contexts.

ENGL 528. English for Specific Purposes. (Cross-listed with LING). (3-0) Cr. 3. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Issues and techniques in analyzing, teaching, and assessing English for specific purposes. Topics include theories of specific purpose language use, analysis of learner needs in target language contexts, and syllabus and materials development for teaching and assessment.

ENGL 529. Multimedia Content Management. (3-0) Cr. 3. Prereq: ENGL 313 Strategies for developing and delivering multimodal content via digital media. Focus on the principles of database design, interface development, usability testing, and collaborative content management within professional communication settings.

ENGL 531. Topics in the Study of Literature. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Intensive study of literary genres, periods, movements, or themes; e.g., Literature and Historicism, Narrating the Feminine, Allegory.

ENGL 532. American Literature to 1865. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Selected texts in American literature from Beginnings to the Civil War. Study may include Native American literature, the literature of European conquest, Colonial and Revolutionary periods, Early Republic, and Jacksonian Era, in critical and cultural contexts.

ENGL 533. British Literature to 1830. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Selected texts from the Medieval, Renaissance, Restoration, Eighteenth-Century, and/or Romantic periods, in critical and cultural contexts.

ENGL 534. American Literature 1865 to the Present. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Selected texts in American literature from the Civil War to the present. Study may include Realism, Naturalism, Modernism, and Postmodernism, with significant attention to race/ethnicity, gender, and identity, and to contemporary critical views. Range of authors and genres.

ENGL 535. British Literature 1830 to the Present. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Selected texts from the Victorian, Edwardian, Modernist, and/or Contemporary periods, in critical and cultural contexts.

ENGL 537. Advanced Grammatical Analysis: Social, Individual, and Empirical Perspectives. (Cross-listed with LING). (3-0) Cr. 3. F. Prereq: ENGL 220 or LING 220; ENGL 219, LING 219, ENGL 511, LING 511, or an introductory course in linguistics; graduate classification
Analytic, functional, cognitive, corpus-based and pedagogical approaches to the analysis of syntax with emphasis on approaches used in applied linguistics.

ENGL 538. Fiction. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Selected fiction writers in English; range of authors and genres. Emphasis on both male and female writers; attention to the relationships between fiction and cultural change.

ENGL 539. Poetry. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Selected poets writing in English, considered in representative groups.

ENGL 540. Drama. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Primary texts in dramatic genres from various literary periods, in critical and cultural contexts. Frequently concentrates on the English Renaissance and the Shakespearean stage.

ENGL 541. Autobiography, Biography, Memoir. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Study of lifewriting, e.g., autobiography, biography, memoir, cross-genre writing, autobiographical criticism. Readings may be arranged by period, nationality, or subgenre (e.g., autobiography of childhood experience, celebrity autobiography).

ENGL 542. Production Processes for Technical Documents. (3-0) Cr. 3. Prereq: Senior classification Overview of the principles of desktop publishing as practiced in the field of technical communication. Focus on theories of print document design and project management, as well as as digital prepress techniques employed to produce documents using external print services. Requires extensive use of current desktop publishing software.

ENGL 543. Environmental Literature. (3-0) Cr. 3. Prereq: Graduate classification An exploration of the major genres that derive from literary encounters with the environment. Readings may come from various cultures and time periods, but about half of the texts will represent canonical American environmental literature from the 19th and 20th centuries.

ENGL 544. Postcolonial or Multicultural Literatures. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature U.S. multilingual literatures or colonial and postcolonial Anglophone literatures from various locations, in critical and cultural contexts. Development of literary traditions, discourses of race and gender, counter-storytelling, myths of origin, literary phases and movements. Readings in several genres.

ENGL 545. Women’s Literature. (Cross-listed with W S). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Study of lifewriting, e.g., autobiography, biography, memoir, cross-genre writing, autobiographical criticism. Readings may be arranged by period, nationality, or subgenre (e.g., autobiography of childhood experience, celebrity autobiography).

ENGL 546. Issues in the Study of Literature. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature Intensive study of current and emerging topics and problems concerning literature and its relationship to theory and to language study; e.g., Theory of Metaphor; Renegotiating the Canon; Feminist Theory.

ENGL 547. The History of Rhetorical Theory I: From Plato to Bacon. (Cross-listed with SP CM). (3-0) Cr. 3. Prereq: 6 credits in English Rhetorical theory from the classical period of ancient Greece and Rome through the Middle Ages to the early Renaissance; attention to its relation to the nature of knowledge, communication, practice, and pedagogy.

ENGL 548. The History of Rhetorical Theory II: From Bacon to the Present. (Cross-listed with SP CM). (3-0) Cr. 3. Prereq: 6 credits in English Rhetorical theory from the early modern period ( Bacon, Descartes, and Locke) to the present; attention to its relation to the nature of knowledge, communication practice, and pedagogy.

ENGL 549. Multimedia Design in Professional Communication. (3-0) Cr. 3. Prereq: Senior classification Rhetorical principles of information-based multimedia design. Practical understanding of computer applications used in multimedia development. Focus on theoretical and practical elements of producing multimedia training programs in both education and industry. Work with interactive hypertext, digital audio, and non-linear video editing.

ENGL 550. Creative Writing: Craft and Professional Practice. (3-0) Cr. 3. F. Prereq: Admission into MFA Program in Creative Writing and Environment A multigenre craft course required of all incoming students in the MFA Program in Creative Writing and Environment. Students develop an understanding of craft and environmental writing across genres (poetry, fiction, nonfiction) as well as learn about editing and publication practice through the lens of a working literary journal. Field: A Journal of Writing and Environment. Other course activities include presentations on the production practices of leading literary journals; individual editing projects; pragmatic tips for finding publication outlets for polished creative work; and a field trip to publishing houses.
ENGL 551. Advanced Multi-Genre Creative Writing Workshop.
(3-0) Cr. 3. S. Prereq: Fourth-semester or equivalent standing in the Creative Writing and Environment MFA program
Students develop book-length manuscripts of fiction, creative nonfiction, or poetry.

ENGL 553. Graduate Workshop: Writing The Long Project.
(3-0) Cr. 3. Repeatable, maximum of 12 credits. Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Individual long creative writing project ideas developed in course. Portions of long creative writing project workshop, revised, discussed in conferences.

ENGL 554. Graduate Fiction Workshop.
(3-0) Cr. 3. Repeatable, maximum of 12 credits. Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Individual projects in fiction on a workshop and conference basis. Readings in short fiction. Discussion of elements of narrative such as plot, point of view, characterization, theme, setting.

ENGL 555. Graduate Nonfiction Workshop.
(3-0) Cr. 3. Repeatable, maximum of 12 credits. Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Individual projects in nonfiction on a workshop and conference basis. Readings in nonfiction. Discussion of elements such as essay, argument, narrative, character, structure, language.

ENGL 556. Graduate Poetry Workshop.
(3-0) Cr. 3. Repeatable, maximum of 12 credits. Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Individual projects in poetry on a workshop and conference basis. Readings in poetry. Discussion of poetic elements such as image, sound, internal structure, rhythm, tone, figurative language.

ENGL 557. Studies in Creative Writing.
(3-0) Cr. 3. Repeatable, maximum of 12 credits. Prereq: Graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Special topics course on ideas, issues, and techniques in creative writing. Subject matter may include specific genres, aspects of the creative writing process, or themes of particular interest. Significant readings and written work required; previous workshop experience helpful.

ENGL 558. Teaching Creative Writing.
(3-0) Cr. 3. S. Prereq: Graduate classification
Pedagogical approaches that are effective for grade-school through college-level creative writing teaching. Writing exercises, workshops, text evaluation, and visits from creative writers.

ENGL 559. Creative Writing Teaching Internship.
Cr. 1-3. Repeatable. Prereq: Permission of participating instructor
Students assist in an introductory creative writing class. Some supervised teaching but mainly evaluation of submissions and individual conferences. Requirements and grades determined by participating instructors.

ENGL 560. Environmental Field Experience.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Students spend a term on a project that requires fieldwork. Projects might include working for a federal, state or private non-profit environmental organization or farm, or living and working in a specified natural area.

ENGL 582. Advanced Rhetorical Analysis.
(Cross-listed with SP CM). (3-0) Cr. 3.
Extended practice in close textual analysis of various kinds of rhetorical artifacts. Attention to important theoretical concepts used in rhetorical analysis and to historical controversies over the scope and function of rhetorical analysis.

(3-0) Cr. 3. Prereq: A course in professional communication
Rhetorical theory and research in graphics, document design, and related principles of visual communication. Methods of designing texts, data displays, illustrations, and other visual elements in business and technical communication.

(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: ENGL 507 plus 3 additional graduate credits in business and technical writing or composition and rhetoric, permission of instructor. Limited to master’s and doctoral degree candidates in the field of rhetoric and professional communication
An opportunity to write, edit, and design business and technical documents in a professional setting. Projects include reports, proposals, manuals, brochures, newsletters.

ENGL 588. Supervised Practice Teaching in English as a Second Language.
(3-0) Cr. 3. S. Prereq: ENGL 550, at least one graduate creative writing workshop, permission of instructor
Students assume editorial duties for Flyway, a nationally distributed literary journal; overseeing a staff, screening submissions; corresponding with authors; editing and proofing; assisting with layout; communicating with the printer; overseeing a contest; and promoting the magazine.

ENGL 589. Supervised Practicum in Literary Editing.
(3-0) Cr. 3. S. Prereq: ENGL 550, at least one graduate creative writing workshop, permission of instructor
Students assume editorial duties for Flyway, a nationally distributed literary journal; overseeing a staff; screening submissions; corresponding with authors; editing and proofing; assisting with layout; communicating with the printer; overseeing a contest; and promoting the magazine.

ENGL 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

ENGL 590A. Special Topics: Literature.
Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

ENGL 590B. Special Topics: Teaching English as a Second Language (TESL)/Applied Linguistics.
(Cross-listed with LING). Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

ENGL 590C. Special Topics: Composition and Rhetoric.
Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

ENGL 590D. Special Topics: Rhetoric and Professional Communication.
Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

ENGL 590E. Special Topics: Creative Writing.
Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

ENGL 590F. Special Topics: Teaching English as a Second Language (TESL)/Applied Linguistics.
(Cross-listed with LING). Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

ENGL 590G. Special Topics: Applied Linguistics and Technology.
(Cross-listed with LING). Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250 Seminar on topics central to the field of rhetoric and professional communication or composition.

ENGL 592A. Core Studies in Rhetoric and Professional Communication: Rhetoric of Science and Technology.
(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250 Seminar on topics central to the field of rhetoric and professional communication or composition.

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250 Seminar on topics central to the field of rhetoric and professional communication or composition.

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250 Seminar on topics central to the field of rhetoric and professional communication or composition.
ENGL 592D. Core Studies in Rhetoric and Professional Communication: Critical Cultural Rhetorics. (Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250. Seminar on topics central to the fields of rhetoric and professional communication or composition.

ENGL 595. Graduate Study and Travel. Cr. arr. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595A. Graduate Study and Travel: Literature. Cr. arr. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595B. Graduate Study and Travel: Creative Writing. Cr. arr. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595C. Graduate Study and Travel: Linguistics. Cr. arr. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595D. Graduate Study and Travel: Rhetoric and Professional Communication. Cr. arr. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595E. Graduate Study and Travel: Teacher Education. Cr. arr. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 599. Creative Component. Cr. 3. F.S.SS. Prereq: Graduate classification, permission of major professor

Courses for graduate students:

ENGL 601. Research Methods in Rhetoric and Professional Communication. (3-0) Cr. 3. Prereq: 6 graduate credits in English
Survey of the major qualitative and quantitative methods used in research on communication and language in academic and nonacademic settings.

ENGL 602. Research Design in Rhetoric and Professional Communication. (3-0) Cr. 3. Prereq: ENGL 501
A workshop for advanced graduate students in rhetoric and professional communication. Primary focus on qualitative methods.

ENGL 603. Seminar in Advanced Pedagogy in Rhetoric and Composition: Theory and Research. (3-0) Cr. 3. Prereq: ENGL 503
Exploration of relationships between theory and practice in current pedagogy. Intensive examination of contemporary theories of poststructuralism, new media, feminism, postcolonialism, or cultural studies and their impact on current pedagogical practice. Participation in pedagogical research and theory building.

ENGL 611. Topics in Rhetorical Theory. (3-0) Cr. 3. Repeatable. Prereq: ENGL 547 or ENGL 548
Rhetorical theory, criticism, and/or practice in relation to an historical period or a particular theoretical issue.

ENGL 623. Research Methods in Applied Linguistics. (Cross-listed with LING). (3-0) Cr. 3. F. Prereq: ENGL 511 or LING 511, ENGL 517 or LING 517, ENGL 519 or LING 519
Survey of research traditions in applied linguistics. Focus on theoretical and practical aspects of quantitative and qualitative approaches to applied linguistic study, including experimental and quasi-experimental methods, classroom observation and research, introspective methods, elicitation techniques, case studies, interactional analysis, ethnography, and program evaluation. Computational tools and resources for linguistic research will be highlighted.

ENGL 626. Computer-Assisted Language Testing. (Cross-listed with LING). (3-0) Cr. 3. F. Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511, ENGL 519 or LING 519
Principles and practice for the use and study of computers and the Internet in second language assessment.

ENGL 630. Seminar in Technology and Applied Linguistics. (Cross-listed with LING). (3-0) Cr. 3. Repeatable. Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511
Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feedback in CALL programs, technology and pronunciation, and advances in language assessment.

ENGL 631. Organization and Administration of Multimodal Writing Programs. (3-0) Cr. 3. Prereq: ENGL 500, ENGL 503, ENGL 504, or ENGL 603
Survey of the major components of writing instruction in academic and nonacademic settings. History, theory, organization, and evaluation of writing programs. Guided observation of writing program functions at various institutions and businesses.

ENGL 639. Practicum in Technology and Applied Linguistics. (Cross-listed with LING). (1-5) Cr. 3. F.S.SS. Prereq: ENGL 510 or LING 510, ENGL 626 or LING 626, or equivalent; at least 2nd year PhD student in Applied Linguistics and Technology
Focus on integrating theoretical knowledge with practical expertise. Assess client needs; develop, integrate, and evaluate solutions. Practical understanding of computer applications used in multimedia development. Create web-based or CD-ROM-based multimedia materials. Work with advanced authoring applications.

ENGL 699. Research. Cr. arr. Repeatable. F.S.SS. Prereq: Graduate classification, permission of major professor

Environmental Science

Interdepartmental Undergraduate Progams

Environmental Science provides an integrated, quantitative, and interdisciplinary approach to the study of environmental systems. The magnitude and complexity of environmental problems are creating a growing need for scientists with rigorous, interdisciplinary training in environmental science. The Environmental Science program is designed to prepare students for positions of leadership in this rapidly changing discipline. Environmental Science graduates have a solid foundation in biological and physical natural sciences and the specialized training necessary for integrated analysis of environmental systems.

Undergraduate Study

The Environmental Science undergraduate major is offered through both the College of Agriculture and Life Sciences and the College of Liberal Arts and Sciences. Environmental Science majors complete foundation courses in biology, chemistry, earth science, geology, physics and mathematics, plus a major consisting of an integrated core of Environmental Science courses and additional advanced course work in Environmental Science. Scientific rigor is stressed throughout the program, beginning with the foundation courses in the first two years of the curriculum. The upper level core courses emphasize a dynamic systems approach that provides a framework for integrating physical, chemical, and biological aspects of environmental systems.

Students seeking an Environmental Science major complete the following:

1. A foundation of approved supporting courses in science and mathematics including biology, chemistry, earth science, geology, physics, and mathematics, plus a major consisting of an integrated core of Environmental Science courses.

2. 30 credits of course work in the major, including a required core of 15 credits.

A combined average grade of C or higher is required in courses applied in the major.

A complete listing of curriculum requirements and sample 4-year plans can be found on the Environmental Science website: http://www.ensci.iastate.edu/undergrad/degree_info.html

Graduate Study

Environmental Science offers an interdisciplinary graduate program leading to the M.S. and Ph.D. degrees with a major in Environmental Science. Faculty from the colleges of Agriculture and Life Sciences, Engineering, and Liberal Arts and Sciences cooperate to offer courses and research opportunities covering a broad array of environmental topics.

Applicants should have completed an undergraduate or masters degree in one of the biological, chemical, physical, or engineering sciences or should have equivalent preparation.

The Environmental Science graduate program emphasizes fundamental concepts and research, which at the same time address major environmental issues. The curriculum is designed to provide the interdisciplinary approach needed in Environmental Science education and research. In addition, to work in their chosen area of specialization, students are afforded a broad exposure to the biological,
chemical and physical aspects of environmental systems and the specialized training necessary for integrated analysis of these systems.

Courses

Courses primarily for undergraduates:

ENSCI 110. Orientation to Environmental Science. (1-0) Cr. 1. F. Prereq: Freshman classification in EnSci Overview of Environmental Science curriculum and discussion of professional opportunities. Offered on a satisfactory-fail basis only.

ENSCI 201. Introduction to Environmental Issues. (Cross-listed with BIOL, ENV S). (2-0) Cr. 2. F.S. Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

ENSCI 250. Environmental Geography. (Cross-listed with ENV S). (3-0) Cr. 3. The distribution, origins and functions of the earth’s physical systems and the spatial relationship between human activity and the natural world.

ENSCI 301. Natural Resource Ecology and Soils. (Cross-listed with NREM). (3-3) Cr. 4. F. Prereq: BIOL 211, BIOL 211L; FOR 201 or a second course in biology Effects of environmental factors on ecosystem structure and function using forest, prairie and agricultural ecosystems as models. Special emphasis is given to soil-forming factors and the role of soil in nutrient and water cycling and ecosystem dynamics. Additional emphasis is given to human influences on natural ecosystems and the role of perennial plant communities in agricultural landscapes. Nonmajor graduate credit.

ENSCI 312. Ecology. (Cross-listed with A ECL, BIOL). (3-3) Cr. 4. F. Prereq: BIOL 211L and BIOL 212L Fundamental concepts and principles of ecology dealing with organisms, populations, communities and ecosystems. Laboratory and field exercises examine ecological principles and methods as well as illustrate habitats.

ENSCI 312I. Ecology. (Cross-listed with A ECL, IA LL). Cr. 4. SS. An introduction to the principles of ecology at the population, community and ecosystem level. Field studies of local lakes, wetlands and prairies are used to examine factors controlling distributions, interactions, and roles of plants and animals in native ecosystems.

ENSCI 360. Environmental Soil Science. (Cross-listed with AGRON). (2-3) Cr. 3. S. Prereq: AGRON 154 or ENSCI 250 or GEOL 201 Burras. Application of soil science to contemporary environmental problems; comparison of the impacts that different management strategies have on short- and long-term environmental quality and land development. Emphasis on participatory learning activities.

ENSCI 381. Environmental Systems I: Introduction to Environmental Systems. (Dual-listed with ENSCI 581). (Cross-listed with BIOL, ENV S, MICRO). Cr. 3-4. F. Prereq: 12 credits of natural science including biology and chemistry Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems. Nonmajor graduate credit.

ENSCI 382. Environmental Systems II: Analysis of Environmental Systems. (Dual-listed with ENSCI 582). (Cross-listed with BIOL). (2-2) Cr. 3. S. Prereq: ENSCI 381 Continuation of EnSci 381. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems. Nonmajor graduate credit.

ENSCI 389. Internship in Environmental Science. Cr. arr. Repeatable. F.S.SS. Prereq: Approval of the Environmental Science coordinator Supervised off-campus work experience in the field of environmental science. Offered on a satisfactory-fail basis only.

ENSCI 391. Apprenticeship. Cr. arr. Repeatable. F.S.SS. Prereq: Approval of the Environmental Science Coordinator Practical experience in an approved setting such as a research laboratory, government office, or private office. Offered on a satisfactory-fail basis only.

ENSCI 402. Watershed Hydrology. (Dual-listed with ENSCI 502). (Cross-listed with GEOL, MTEOR, NREM). (3-3) Cr. 4. F. Prereq: Four courses in physical or biological sciences or engineering Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

ENSCI 402I. Watershed Hydrology and Surficial Processes. (Cross-listed with AGRON, IA LL). Cr. 4. SS. Prereq: Four courses in physical or biological sciences or engineering Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

ENSCI 404. Global Change. (Dual-listed with ENSCI 504). (Cross-listed with AGRON, MTEOR, ENV S). (3-0) Cr. 3. S. Prereq: Four courses in physical or biological sciences or engineering Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Nonmajor graduate credit.

ENSCI 405. Environmental Biophysics. (Dual-listed with ENSCI 505). (Cross-listed with MTEOR, AGRON). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language) Hornbuckle. A description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities. Nonmajor graduate credit.

ENSCI 406. World Climates. (Cross-listed with MTEOR, AGRON). (3-0) Cr. 3. F. Prereq: AGRON 206/MTEOR 206 Aritt. Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Nonmajor graduate credit. Meets International Perspectives Requirement.

ENSCI 407. Watershed Management. (Dual-listed with ENSCI 507). (Cross-listed with NREM, ENV S). (3-3) Cr. 4. S. Prereq: A course in general biology Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

ENSCI 408. GIS and Natural Resources Management. (Dual-listed with ENSCI 508). (Cross-listed with A E). (2-2) Cr. 3. F. Prereq: Working knowledge of computers and Windows environment Introduction to fundamental concepts and applications of GIS in natural resources management with specific focus on watersheds. Topics include: basic GIS technology, data structures, database management, spatial analysis, and modeling; visualization and display of natural resource data. Case studies in watershed and natural resource management using ArcView GIS.
ENSCI 409. Field Methods in Hydrogeology.
(Dual-listed with ENSCI 509). (Cross-listed with GEOL). (0-4) Cr. 3. Alt. SS., offered 2012. Prereq: GEO/L/ENSCI 402 or GEO/L/ENSCI 411 or C E 473
Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

ENSCI 411. Hydrogeology.
(Dual-listed with ENSCI 511). (Cross-listed with GEOL). (3-2) Cr. 4. F. Prereq: Four courses in biological or physical sciences
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations. Nonmajor graduate credit.

(Dual-listed with ENSCI 514). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered 2012. Prereq: GEO/L 411 or C E 473; MATH 165 or MATH 181
Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course. Nonmajor graduate credit.

ENSCI 415. Paleoecology.
(Dual-listed with ENSCI 515). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in biological or physical science
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years). Nonmajor graduate credit.

ENSCI 416. Hydrologic Modeling and Analysis.
(Dual-listed with ENSCI 516). (Cross-listed with METEOR, GEOL). (2-3) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in Earth science, meteorology, or engineering: junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed. Nonmajor graduate credit.

(Dual-listed with ENSCI 518). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered 2011. Prereq: 486
Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

ENSCI 419. Environmental Geochemistry.
(Dual-listed with ENSCI 519). (Cross-listed with GEOL). (2-0) Cr. 3. F. Prereq: GEO/L 402 or GEO/L 411 or equivalent
Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling. Nonmajor graduate credit.

ENSCI 422. Prairie Ecology.
(Cross-listed with IA LL). Cr. 4. SS. Prereq: Familiarity with basic principles in biological sciences and ecology
Basic patterns and underlying physical and biotic causes of both regional and local distributions of plants and animals of North American prairies; field and laboratory analyses and projects. Nonmajor graduate credit.

ENSCI 424. Air Pollution.
(Dual-listed with ENSCI 524). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424A. Air Pollution: Air quality and effects of pollutants.
(Dual-listed with ENSCI 524A). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424B. Air Pollution: Climate change and causes.
(Dual-listed with ENSCI 524B). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424C. Air Pollution: Transportation constraints.
(Dual-listed with ENSCI 524C). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424D. Air Pollution: Off-gas treatment technology.
(Dual-listed with ENSCI 524D). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424E. Air Pollution: Agricultural sources of pollution.
(Dual-listed with ENSCI 524E). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

(Dual-listed with ENSCI 526). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: Four courses in biological or physical science
Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance. Nonmajor graduate credit.

ENSCI 434. Contaminant Hydrogeology.
(Dual-listed with ENSCI 534). (Cross-listed with GEOL). (3-0) Cr. 3. S. Prereq: GEO/L 411 or equivalent

ENSCI 446. Integrating GPS and GIS for Natural Resource Management.
(Dual-listed with ENSCI 546). (Cross-listed with NREM). (2-3) Cr. 3. S. Prereq: 12 credits in student's major at 300 level or above, NREM 345 or equivalent experience with ArcGIS
Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation.

(Dual-listed with ENSCI 551). (Cross-listed with GEOL). (2-3) Cr. 3. Alt. S., offered 2012. Prereq: GEO/L 100 or GEO/L 201, MATH 181 or equivalent experience
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar. Nonmajor graduate credit.

ENSCI 452. GIS for Geoscientists.
(2-2) Cr. 3. F. Prereq: GEO/L 100, GEO/L 201 or equivalent
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses. Nonmajor graduate credit.
ENSCI 459. Environmental Soil and Water Chemistry. 
(Dual-listed with ENSCI 559). (Cross-listed with AGRON). (3-3) Cr. 4. F. Prereq: Two semesters of college-level chemistry, MATH 140, AGRON 154 or AGRON 360; GEOL 100 and AGRON 354 recommended. Thompson. An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, and applications to contemporary environmental issues. Nonmajor graduate credit.

ENSCI 461. Introduction to GIS. 
(Cross-listed with IA LL, ENV S, L A). Cr. 4. SS. Descriptive and predictive GIS modeling techniques, spatial statistics, and map algebra. Application of GIS modeling techniques to environmental planning and resource management. Nonmajor graduate credit.

ENSCI 463. Soil Formation and Landscape Relationships. 
(Dual-listed with ENSCI 563). (Cross-listed with AGRON). (2-4) Cr. 4. S. Prereq: AGRON 154 or AGRON 260 Burras. Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. Nonmajor graduate credit. Credit for one of AGRON 463 or AGRON 463L may be applied for graduation.

ENSCI 463L. Soil Formation and Landscape Relationships. 
(Dual-listed with ENSCI 563L). (Cross-listed with AGRON, IA LL). Cr. 4. Alt. SS., offered 2012. Prereq: AGRON 154 or AGRON 260 Burras. Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only AGRON 563 or 563L may be applied for graduation.

ENSCI 477. Soil Physics. 
(Dual-listed with ENSCI 577). (Cross-listed with AGRON). (3-0) Cr. 3. S. Prereq: Recommended: AGRON 154 MATH 166 Horton. The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat.

ENSCI 479. Surficial Processes. 
(Dual-listed with ENSCI 579). (Cross-listed with GEOL). (2-2) Cr. 3. F. Prereq: GEOL 100 or GEOL 201 or equivalent experience The study of physical processes that shape Earth’s surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips. Nonmajor graduate credit.

ENSCI 480. Engineering Analysis of Biological Systems. 
(Cross-listed with BSE). (2-2) Cr. 3. F. Prereq: BSE 216; MATH 266; BIOL 211 or BIOL 212; M E 231 Systems-level engineering analysis of biological systems. Economic and life-cycle analysis of biosource production and conversion systems. Global energy and resource issues and the role of biologically derived materials in addressing these issues. Nonmajor graduate credit.

ENSCI 484. Ecosystem Ecology. 
(Cross-listed with BIOL). (3-0) Cr. 3. S. Prereq: Combined 12 credits in biology and chemistry. Introduction of the study of ecosystems and the factors that influence their properties and dynamics. Conceptual foundations for ecosystem studies. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems.

ENSCI 485. Soil and Environmental Microbiology. 
(Dual-listed with ENSCI 585). (Cross-listed with AGRON, MICRO). (2-3) Cr. 3. F. Prereq: AGRON 154 or AGRON 402, MICRO 201 (MICRO 201L recommended) Loyanachan. The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues. Nonmajor graduate credit.

ENSCI 486. Aquatic Ecology. 
(Dual-listed with ENSCI 586). (Cross-listed with BIOL). (3-0) Cr. 3. F. Prereq: BIOL 312 or EnSci 381 or EnSci 402 or NREM 301 Dual-listed with EEOB 586. Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology. Nonmajor graduate credit.

ENSCI 486L. Aquatic Ecology Laboratory. 
(Cross-listed with BIOL, A ECL). (3-3) Cr. 1. F. Prereq: Concurrent enrollment in BIOL 486 Dual-listed with EEOB 586L. Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts. Nonmajor graduate credit.

ENSCI 487. Microbial Ecology. 
(Dual-listed with ENSCI 587). (Cross-listed with BIOL, MICRO). (3-0) Cr. 3. F. Prereq: Six credits in biology and 6 credits in chemistry Dual-listed with EEOB 587. Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural systems. Nonmajor graduate credit.

ENSCI 488. GIS for Geoscientists II. 
(Dual-listed with ENSCI 588). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GES 588) a class project. Nonmajor graduate credit.

ENSCI 490. Independent Study. 
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of the instructor and approval of the Environmental Science Coordinator

Cr. 1-3. Prereq: Junior classification in Environmental Science, permission of instructor Current topics and case studies related to the analysis and management of environmental systems. Individual and/or group projects.

ENSCI 496. Travel Course. 
Cr. arr. Repeatable. Prereq: Permission of instructor Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings. A. International Tour B. Domestic Tour.

ENSCI 498. Cooperative Education. 
Cr. R. Repeatable. F.S.SS. Prereq: Permission of Environmental Science Coordinator Required of all cooperative education students. Students must register prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

ENSCI 502. Watershed Hydrology. 
(Dual-listed with ENSCI 402). (Cross-listed with GEOL, MTEOR, NREM). (3-3) Cr. 4. F. Prereq: Four courses in physical or biological sciences or engineering; junior standing Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

ENSCI 504. Global Change. 
(Dual-listed with ENSCI 404). (Cross-listed with AGRON, MTEOR, ENV S). (3-0) Cr. 3. S. Prereq: Four courses in physical or biological sciences or engineering; junior, senior, or graduate standing Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

ENSCI 505. Environmental Biophysics. 
(Dual-listed with ENSCI 405). (Cross-listed with MTEOR, AGRON). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language) Hornbuckle. A description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities. Nonmajor graduate credit.
ENSCI 507. Watershed Management. (Dual-listed with ENSCI 407). (Cross-listed with NREM, ENV S). (3-3) Cr. 4. S. Prereq: A course in general biology
Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

ENSCI 508. GIS and Natural Resources Management. (Dual-listed with ENSCI 408). (Cross-listed with A E). (2-2) Cr. 3. F. Prereq: Working knowledge of computers and Windows environment
Introduction to fundamental concepts and applications of GIS in natural resources management with specific focus on watersheds. Topics include: basic GIS technology, data structures, database management, spatial analysis, and modeling; visualization and display of natural resource data. Case studies in watershed and natural resource management using ArcView GIS. In addition to other assignments, graduate students will prepare research literature reviews on topics covered in class and develop enterprise applications.

ENSCI 508I. Aquatic Ecology. (Cross-listed with IA LL, NREM). Cr. 4. SS. Prereq: Courses in ecology, chemistry, and physics
Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.

ENSCI 509. Field Methods in Hydrogeology. (Dual-listed with ENSCI 409). (Cross-listed with GEOL). (0-4) Cr. 3. Alt. SS., offered 2012. Prereq: GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473
Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geophysical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

ENSCI 511. Hydrogeology. (Dual-listed with ENSCI 411). (Cross-listed with GEOL). (3-2) Cr. 4. F. Prereq: Four courses in biological or physical sciences
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and postaudit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

ENSCI 515. Paleoecology. (Dual-listed with ENSCI 415). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in biological or physical science
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth’s orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoecology and paleoecology of the late Quaternary (last ~1 million years).

ENSCI 516. Hydrologic Modeling and Analysis. (Dual-listed with ENSCI 416). (Cross-listed with MTEOR, GEOL). (2-3) Cr. 3. Alt. S., offered 2013. Prereq: A course in earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in water resources and hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

ENSCI 519. Environmental Geochemistry. (Dual-listed with ENSCI 419). (Cross-listed with GEOL). (2-2) Cr. 3. F. Prereq: GEOL 511 or equivalent
Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

ENSCI 520. Environmental Engineering Chemistry. (Dual-listed with ENSCI 420). (2-3) Cr. 3. Prereq: CHEM 177 and CHEM 178, MATH 166
Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions and mass transfer principles. Individual laboratory practicals and group projects required. Term paper and oral presentation for graduate level only.

ENSCI 521. Environmental Biotechnology. (Dual-listed with ENSCI 421). (2-2) Cr. 3. Prereq: C E 326
Fundamentals of biochemical and microbial processes applied to environmental engineering processes, role of microorganisms in wastewater treatment and bio.mediation, bioenergetics and kinetics, metabolism of xenobiotic compounds, waterborne pathogens and parasites, and disinfection. Term paper and oral presentation.

ENSCI 522. Water Pollution Control Processes. (Cross-listed with C E). (2-2) Cr. 3. Prereq: C E 521
Fundamentals of biochemical processes, aerobic growth in a single CSTR, multiple processes in complex systems, and techniques for evaluating kinetic parameters; unit processes of activated sludge system, attached growth systems, stabilization and aerated lagoon systems, biosolids digestion and disposal, nutrient removal, and anaerobic treatment systems.

ENSCI 523. Physical-Chemical Treatment Process. (Cross-listed with C E). (2-2) Cr. 3. Prereq: C E 520
Material and energy balances. Principles and design of physical-chemical unit processes; including screening, coagulation, flocculation, chemical precipitation, sedimentation, filtration, lime softening and stabilization, oxidation, adsorption, membrane processes, ion exchange and disinfection; recovery of resources from residuals and sludges; laboratory exercises and demonstrations; case studies in mineral processing and secondary industries.

ENSCI 524. Air Pollution. (Dual-listed with ENSCI 424). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 524A. Air Pollution: Air quality and effects of pollutants. (Dual-listed with ENSCI 424A). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 524B. Air Pollution: Climate change and causes. (Dual-listed with ENSCI 424B). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 524C. Air Pollution: Transportation constraints. (Dual-listed with ENSCI 424C). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 524D. Air Pollution: Off-gas treatment technology. (Dual-listed with ENSCI 424D). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 524E. Air Pollution: Agricultural sources of pollution. (Dual-listed with ENSCI 424E). (Cross-listed with C E, A E). (1-0) Cr. 1. Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.
**ENSCI 526. Stable Isotopes in the Environment.**
(Dual-listed with ENSCI 426). (Cross-listed with GEOl). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: Four courses in biological or physical science
Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

**ENSCI 527. Solid Waste Management.**
(Cross-listed with C E). (3-0) Cr. 3. Prereq: C E 326
Planning and design of solid waste management systems; includes characterization and collection of domestic, commercial, and industrial solid wastes, waste minimization and recycling, energy and materials recovery, composting, incineration, and landfill design.

**ENSCI 529. Hazardous Waste Management.**
(Cross-listed with C E). (3-0) Cr. 3. Prereq: C E 326
Regulatory requirements for the classification, transport, storage and treatment of hazardous wastes. Analysis and design of alternatives for treatment and disposal technologies, including physical, chemical, and biological treatment, solidification, incineration, and secure landfill design. Regulatory requirements and procedures for hazardous waste contaminated site investigations and risk analysis. Analysis and design of remedial action alternatives for site restoration.

**ENSCI 531. Design and Evaluation of Soil and Water Conservation Systems.**
(Dual-listed with ENSCI 431). (2-3) Cr. 3. F. Prereq: E M 378 or CH E 356
Hydrology and hydraulics in agricultural and urbanizing landscapes. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design; relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality. Graduate students will prepare several research literature reviews on topics covered in the class in addition to the other assignments.

**ENSCI 533. Erosion and Sediment Transport.**
(Cross-listed with A E). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: A E 422 or C E 372, MATH 206
Soil erosion processes, modified universal soil loss equation and its application to conservation planning, sediment properties, initiation of sediment motion and over land flow, flow in alluvial channels and theory of sediment transport, channel stability, reservoir sedimentation, wind erosion, BMPs for controlling erosion.

**ENSCI 534. Contaminant Hydrogeology.**
(Dual-listed with ENSCI 434). (Cross-listed with GEOl). (3-0) Cr. 3. S. Prereq: GEOl 511 or equivalent

**ENSCI 535. Restoration Ecology.**
(Cross-listed with NREM, EEOB). (2-3) Cr. 3. F. Prereq: BIOL 368 or BIOL 474 or graduate standing
Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

**ENSCI 535l. Restoration Ecology.**
(Cross-listed with A ECL, IA LL, EEOB). Cr. 4. Alt. SS., offered 2012. Prereq: A course in ecology
Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

**ENSCI 546. Integrating GPS and GIS for Natural Resource Management.**
(Dual-listed with ENSCI 446). (Cross-listed with NREM). (2-3) Cr. 3. S. Prereq: 12 credits in student's major at 300 level or above, NREM 345 or equivalent experience with ArcGIS
Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation.

**ENSCI 551. Applied and Environmental Geophysics.**
(Dual-listed with ENSCI 451). (Cross-listed with GEOl). (2-2) Cr. 3. Alt. S., offered 2012. Prereq: GEOl 100 or GEOl 201, MATH 181 or equivalent experience
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic and resistivity-imaging systems and radar. Nonmajor graduate credit.

**ENSCI 552. GIS for Geoscientists.**
(Dual-listed with ENSCI 452). (Cross-listed with AGRON). (2-2) Cr. 3. F. Prereq: GEOl 100, GEOl 201 or equivalent
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

**ENSCI 553. Soil-Plant Relationships.**
(Cross-listed with AGRON). (3-0) Cr. 3. F. Prereq: AGRON 354
Composition and properties of soils in relation to the nutrition and growth of plants.

**ENSCI 558. Laboratory Methods in Soil Chemistry.**
(Cross-listed with AGRON). (2-3) Cr. 3. Alt. F., offered 2012. Prereq: AGRON 354 and CHEM 211
Experimental and descriptive inorganic and organic analyses. Operational theory and principles of applicable instruments, including spectrophotometry, atomic and molecular absorption and emission spectroscopy, mass spectrometry, X-ray diffraction and fluorescence, gas and ion chromatography, and ion-selective electrodes.

**ENSCI 559. Environmental Soil and Water Chemistry.**
(Dual-listed with ENSCI 459). (Cross-listed with AGRON). (3-3) Cr. 4. F. Prereq: Two semesters of college-level chemistry, MATH 140, AGRON 154 or AGRON 360; GEOl 100 and AGRON 354 recommended.
Thompson. An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, and applications to contemporary environmental issues. Nonmajor graduate credit.

**ENSCI 563. Soil Formation and Landscape Relationships.**
(Dual-listed with ENSCI 463). (Cross-listed with AGRON). (2-4) Cr. 4. S. Prereq: AGRON 154 or AGRON 260
Burrs. Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. Credit for one of Agron 563 or 563I may be applied for graduation.

**ENSCI 563l. Soil Formation and Landscape Relationships.**
(Dual-listed with ENSCI 463l). (Cross-listed with AGRON, IA LL). Cr. 4. Alt. SS., offered 2012. Prereq: AGRON 154 or AGRON 260
Burrs. Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 563I may be applied for graduation.

**ENSCI 564. Wetland Ecology.**
(Cross-listed with EEB). (3-0) Cr. 3. S. Prereq: 15 credits in biological sciences Ecology, classification, creation and restoration, and management of wetlands. Emphasis on North American temperate wetlands.

**ENSCI 564l. Wetland Ecology.**
(Cross-listed with IA LL, EEOB). Cr. 4. SS. Prereq: IA LL 312I
Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.

**ENSCI 571. Surface Water Hydrology.**
(Cross-listed with C E). (3-0) Cr. 3. Prereq: C E 372
Analysis of hydrologic data including precipitation, infiltration, evapotranspiration, direct runoff and streamflow; theory and use of frequency analysis; theory of streamflow and reservoir routing; use of deterministic and statistical hydrologic models. Fundamentals of surface water quality modeling, point and nonpoint sources of contamination. Design project.

**ENSCI 572. Analysis and Modeling Aquatic Environments.**
(Cross-listed with C E). (3-0) Cr. 3. Prereq: C E 372
Principles of surface water flows and mixing. Introduction to hydrologic transport and water quality simulation in natural water systems. Advection, diffusion and dispersion, chemical and biologic kinetics, and water quality dynamics. Applications to temperature, dissolved oxygen, primary productivity, and other water quality problems in rivers, lakes and reservoirs. Deterministic vs. stochastic models.
(Dual-listed with ENSCI 473). (3-0) Cr. 3. Prereq: C E 372  

ENSCI 575. Soil Formation and Transformation.  
(Cross-listed with AGRON). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: AGRON 463 or equivalent  
Advanced study of soil formation, emphasizing relationships among soils, landscapes, environment, humans, and land use.

ENSCI 577. Soil Physics.  
(Dual-listed with ENSCI 477). (Cross-listed with AGRON). (3-0) Cr. 3. S. Prereq: Recommended: AGRON 154 and MATH 166  
Horton. The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat.

ENSCI 578. Laboratory Methods in Soil Physics.  
(Cross-listed with AGRON). (0-3) Cr. 1. S. Prereq: concurrent enrollment in AGRON 477 or 577  
Horton. Methods of measuring soil physical properties such as texture, density, water content, and transport of heat, water, and gases.

ENSCI 579. Surficial Processes.  
(Dual-listed with ENSCI 479). (Cross-listed with GEOL). (2-2) Cr. 3. F. Prereq: GEOL 100 or GEOL 201 or equivalent experience  
The study of physical processes that shape Earth’s surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

(Dual-listed with ENSCI 381). (Cross-listed with BIOL, ENV S, MICRO). Cr. 3-4. F. Prereq: 12 credits of natural science including biology and chemistry  
Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

ENSCI 582. Environmental Systems II: Analysis of Environmental Systems.  
(Dual-listed with ENSCI 382). (Cross-listed with BIOL). (2-2) Cr. 3. S. Prereq: ENSCI 581  
Continuation of EnSci 581. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

ENSCI 584. Ecosystem Ecology.  
(Cross-listed with EEEOB). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Combined 12 credits in biology and chemistry  
Introduction to the study of ecosystems and the factors that influence their properties and dynamics. Conceptual foundations for ecosystem studies. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems.

ENSCI 585. Soil and Environmental Microbiology.  
(Dual-listed with ENSCI 485). (Cross-listed with AGRON, MICRO). (2-3) Cr. 3. F. Prereq: AGRON 154 or AGRON 402, MICRO 201 (MICRO 201L recommended)  
Loynanchan. The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues.

ENSCI 586. Aquatic Ecology.  
(Dual-listed with ENSCI 496). (Cross-listed with EEOB). (3-0) Cr. 3. F. Prereq: ENSCI 301 or ENSCI 312 or ENSCI 381 or ENSCI 402  
(Dual-listed with Biol 486.) Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine and wetland ecology.

ENSCI 586L. Aquatic Ecology Laboratory.  
(Dual-listed with ENSCI 487). (Cross-listed with EEOB). (0-3) Cr. 1. F. Prereq: Concurrent enrollment in EEEOB 586  
(Dual-listed with Biol 486L.) Field trips and laboratory exercises to accompany 586. Hands-on experience with aquatic research and monitoring techniques and concepts.

ENSCI 587. Microbial Ecology.  
(Dual-listed with ENSCI 487). (Cross-listed with EEOB, MICRO). (3-0) Cr. 3. F. Prereq: Six credits in biology and 6 credits in chemistry  
(Dual-listed with Biol 487.) Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural systems.

ENSCI 588. GIS for Geoscientists II.  
(Dual-listed with ENSCI 488). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent  
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

ENSCI 590. Special Topics.  
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of major professor in Environmental Science faculty  
Literature reviews and conference in accordance with needs and interest of the student.

ENSCI 599. Creative Component.  
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of major professor in Environmental Science faculty  
Creative component for nonthesis master of science degree.

Courses for graduate students:

ENSCI 685. Advanced Soil Biochemistry.  
(Cross-listed with MICRO, AGRON). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: AGRON 585  
Chemistry of soil organic matter and biochemical transformations brought about by microorganisms and enzymes in soils.

ENSCI 690. Seminar in Environmental Science.  
Cr. R. Repeatable. F.S.  
Reports and discussion of recent research and literature.

ENSCI 699. Research.  
Cr. arr. Repeatable. F.S.SS.

Environmental Studies

Interdepartmental Undergraduate Program

Environmental Studies deals with the relationship and interactions between humans and the environment. Students in any college at ISU may elect to take a secondary major or minor in Environmental Studies. The curriculum is designed to give students an understanding of current and emerging environmental issues and an appreciation of different perspectives regarding these issues. Courses are provided for students pursuing careers related to the environment and for others who simply want to know more about environmental issues.

Secondary Major

The Environmental Studies secondary major is taken in addition to one's first major and provides the breadth of preparation and integrated perspective necessary to understand environmental issues. Students seeking a major in Environmental Studies complete 24 credits of Env S coursework including:

At least one general survey course chosen from:

- ENV S 101 Environmental Geology: Earth in Crisis  
- ENV S 120 Introduction to Renewable Resources  
- ENV S 173 Environmental Biology  
- ENV S 201 Introduction to Environmental Issues

At least one integrative/issues course chosen from:

- ENV S 160 Water Resources of the World  
- ENV S 204 Biodiversity  
- ENV S 324 Energy and the Environment  
- ENV S 342 World Food Issues: Past and Present  
- ENV S 404 Global Change  
- ENV S 424 Sustainable and Environmental Horticulture Systems  
- ENV S 450 Issues in Sustainable Agriculture

At least two human/societal perspectives courses chosen from:

- ENV S 293 Environmental Planning  
- ENV S 320 Ecofeminism  
- ENV S 334 Environmental Ethics  
- ENV S 345 Population and Society  
- ENV S 355 Literature and the Environment
Beyond these three requirements, any Environmental Studies course and up to six credits of approved environmental coursework outside of Environmental Studies may be applied toward the 24 credit total for the major. Regardless of their home college, Environmental Studies majors must complete at least 9 credits of approved coursework in natural science. Unless prohibited by program or college rules, courses used to fulfill requirements of the Environmental Studies major may also be used to satisfy general education and other requirements of departments and colleges. A combined average grade of C or higher is required in courses applied to the major.

Regardless of their primary major, Environmental Studies graduates have a broad foundation in science and humanities, an understanding of major environmental issues, and an appreciation of the varied and sometimes opposing perspectives regarding these issues.

**Minor**

Students seeking a minor in Environmental Studies complete 15 credits of approved Environmental Studies coursework including:

At least one general survey course chosen from:

- ENV S 101 Environmental Geology: Earth in Crisis
- ENV S 120 Introduction to Renewable Resources
- ENV S 173 Environmental Biology
- ENV S 201 Introduction to Environmental Issues

At least one integrative/issues course chosen from:

- ENV S 160 Water Resources of the World
- ENV S 204 Biodiversity
- ENV S 324 Energy and the Environment
- ENV S 342 World Food Issues: Past and Present
- ENV S 404 Global Change
- ENV S 424 Sustainable and Environmental Horticulture Systems
- ENV S 450 Issues in Sustainable Agriculture

At least two human/societal perspectives courses chosen from:

- ENV S 293 Environmental Planning
- ENV S 320 Ecofeminism
- ENV S 334 Environmental Ethics
- ENV S 345 Population and Society
- ENV S 355 Literature and the Environment
- ENV S 380 Environmental and Resource Economics
- ENV S 382 Environmental Sociology
- ENV S 384 Religion and Ecology
- ENV S 442 The Policy and Politics of Coastal Areas
- ENV S 472 U. S. Environmental History
- ENV S 484 Sustainable Communities
- ENV S 491 Environmental Law and Planning

A combined average grade of C or higher is required in courses applied to the minor, and the minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

**Courses**

**Courses primarily for undergraduates:**

**ENV S 101. Environmental Geology: Earth in Crisis.**
(Cross-listed with GEOL). (3-0) Cr. 3. F.S.
An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism.

**ENV S 108. Introduction to Oceanography.**
(Cross-listed with GEOL). (3-0) Cr. 3. F.

**ENV S 111. Geological Disasters.**
(Cross-listed with GEOL). (1-0) Cr. 1. F.S.SS.
Introduction to the catastrophic geologic processes that disrupt ecosystems and human activity. Includes a discussion on the role of plate tectonics, the hydrologic cycle, and humans as the driving forces behind selected case studies on volcanic eruptions, earthquakes, tsunamis, landslides, and floods. Summer - online only.

**ENV S 120. Introduction to Renewable Resources.**
(Cross-listed with AGRON, NREM). (3-0) Cr. 3. F.S.
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

**ENV S 130. Natural Resources and Agriculture.**
(Cross-listed with NREM). (3-0) Cr. 3. S.
Survey of the ecology and management of fish, forest, and wildlife resources in areas of intensive agriculture, with emphasis on Iowa. Conservation and management practices for private agricultural lands. Designed for nonmajors.

**ENV S 160. Water Resources of the World.**
(Cross-listed with GEOL, MTEOR, AGRON). (3-0) Cr. 3. S.
Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment.

**ENV S 173. Environmental Biology.**
(Cross-listed with BIOL). (3-0) Cr. 3. F.S.
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Intended primarily for non-majors; available to biology majors for elective credit.

**ENV S 201. Introduction to Environmental Issues.**
(Cross-listed with BIOL, ENSCI). (2-0) Cr. 2. F.S.
Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

**ENV S 204. Biodiversity.**
(Cross-listed with BIOL). (4-0) Cr. 2. S. Prereq: One course in life sciences
Survey of the major groups of organisms and biological systems. Definition, measurements, and patterns of distribution of organisms. Sources of information about biodiversity. Intended primarily for non-majors; available to biology majors for elective credit. Half semester course.

**ENV S 220. Globalization and Sustainability.**
(Cross-listed with ANTHR, T SC, GLOBE, MAT E, M E, SOC). (3-0) Cr. 3. F.S.
An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department. Meets International Perspectives Requirement.

**ENV S 250. Environmental Geography.**
(Cross-listed with ENSCI). (3-0) Cr. 3. F.
The distribution, origins and functions of the earth's physical systems and the spatial relationship between human activity and the natural world.

**ENV S 260. Soils and Environmental Quality.**
(Cross-listed with AGRON). (3-0) Cr. 3. F.S.
Burras. Role of soils in environmental quality and natural resources management. Emphasis on soil erosion and conservation, water quality, and environmental planning. Saturday field trip.
ENV S 270. Foundations in Natural Resource Policy and History. (Cross-listed with LA, NREM, (3-0) Cr. 3. Alt. S., offered 2014)

The development of natural resource conservation philosophy and policy from the Colonial Era to the present. North American wildlife, forestry, and environmental policy; national parks and other protected lands; federal and state agencies. Relationship to cultural contexts, including urban reform and American planning movement. Discussion of common pool resources, public and private lands.

ENV S 293. Environmental Planning. (Cross-listed with DSN S, C R P), (3-0) Cr. 3. F.

Comprehensive overview of the field of environmental relationships and the efforts being made to organize, control, and coordinate environmental, aesthetic, and cultural characteristics of land, air, and water.

ENV S 320. Ecofeminism. (Cross-listed with W S), (3-0) Cr. 3. Alt. F., offered 2011. Prereq: W S 201 or 3 credits in Women’s Studies at the 300 level or above

Women’s relationships with the earth, non-human nature, and other humans. The course explores the connections between society’s treatment of women and nature; origins of ecofeminism and how it relates to the science of ecology, conventional and sustainable agriculture as well as how ecofeminism relates to other branches of feminist philosophy. Evaluation and critique of modern science, technology, political systems and SOLUTIONS will be included. Nonmajor graduate credit.

ENV S 324. Energy and the Environment. (Cross-listed with GEOL, MTEOR), (3-0) Cr. 3. S.

Renevable and non-renewable energy resources, origin, occurrence, and extraction of fossil fuels. Nuclear, wind, geothermal, biomass, hydroelectric, and solar energy. Biofuels. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, coal ash, mountaintop removal mining, oil drilling, hydraulic fracturing, groundwater contamination, nuclear waste disposal, and global climate change. Carbon sequestration and geoengineering solutions for reducing atmospheric CO2 concentrations. GEOL 324 does not count toward credits required in the Geology major.

ENV S 334. Environmental Ethics. (Cross-listed with PHIL), (3-0) Cr. 3. F. Prereq: 3 credits in philosophy or junior classification.

Thorough study of some of the central moral issues arising in connection with human impact on the environment. e.g., human overpopulation, species extinction, forest and wilderness management, pollution. Several world views of the proper relationship between human beings and nature will be explored. Nonmajor graduate credit.

ENV S 342. World Food Issues: Past and Present. (Cross-listed with AGRON, FS HN, T SC), (3-0) Cr. 3. F.S. Prereq: Junior classification.

Zdorkowski, Ford. Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects. Nonmajor graduate credit. Meets International Perspectives Requirement.

ENV S 342H. World Food Issues: Past and Present, Honors. (Cross-listed with AGRON, FS HN, T SC), (3-0) Cr. 3. F.S. Prereq: Junior classification.

Zdorkowski, Ford. Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects. Nonmajor graduate credit. Meets International Perspectives Requirement.

ENV S 345. Population and Society. (Cross-listed with SOC), (3-0) Cr. 3. F. Prereq: SOC 130 or SOC 134

Human population growth and structure; impact on food, environment, and resources; gender issues; trends of births, deaths, and migration; projecting future population; population policies and laws; comparison of the United States with other societies throughout the world. Meets International Perspectives Requirement.

ENV S 355. Literature and the Environment. (Cross-listed with ENGL), (3-0) Cr. 3. Prereq: ENGL 250

Study of literary texts that address the following topics, among others: the relationship between people and natural/urban environments, ecocriticism, and the importance of place in the literary imagination. Nonmajor graduate credit.

ENV S 360. Environmental and Resource Economics. (Cross-listed with ECON), (3-0) Cr. 3. Prereq: ECON 101

Natural resource availability, use, conservation, and government policy, including energy issues. Environmental quality and pollution control policies.

ENV S 381. Environmental Systems I: Introduction to Environmental Systems. (Dual-listed with ENV S 581), (Cross-listed with BIOL, ENSCI, MICRO). Cr. 3-4. F. Prereq: 12 credits of natural science including biology and chemistry. Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems. Nonmajor graduate credit.

ENV S 382. Environmental Sociology. (Cross-listed with SOC), (3-0) Cr. 3. F.S. Prereq: SOC 130, SOC 134 or 3 credits of ENV S

Environment-society relations; social construction of nature and the environment; social and environmental impacts of resource extraction, production, and consumption; environmental inequality; environmental mobilization and movements; U.S. and international examples.

ENV S 384. Religion and Ecology. (Cross-listed with RELIG), (3-0) Cr. 3. Introduction to concepts of religion and ecology as they appear in different religious traditions, from both a historical and contemporary perspective. Special attention to religious response to contemporary environmental issues. Meets International Perspectives Requirement.

ENV S 390. Internship in Environmental Studies. Cr. arr. Repeatable. F.S.SS. Prereq: Approval of the Environmental Studies Coordinator. Practical experience with nature centers, government agencies, schools, private conservation groups, and other organizations. Offered on a satisfactory-fail basis only.

ENV S 404. Global Change. (Dual-listed with ENV S 504), (Cross-listed with AGRON, ENSCI, MTEOR), (3-0) Cr. 3. S. Prereq: Four courses in physical or biological sciences or engineering; junior standing

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Nonmajor graduate credit.

ENV S 407. Watershed Management. (Dual-listed with ENV S 507), (Cross-listed with ENSCI, NREM), (3-3) Cr. 4. S. Prereq: A course in general biology

Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

ENV S 417. Urban and Peri-urban Watershed Assessment. (Dual-listed with ENV S 517), (Cross-listed with LA). (2-3) Cr. 3. F. Prereq: Junior classification and 6 credits of natural science.

Assessment and reduction of impacts in urban and peri-urban watershed areas. Course prepares students to work with various analysis methods for vegetation, topography, stormwater and stream condition as well as work with data from other disciplines. Emphasis on communicating with the public. Introductory GIS and GPS technologies are utilized. Learning is largely field-based.

ENV S 424. Sustainable and Environmental Horticulture Systems. (Dual-listed with ENV S 524), (Cross-listed with HORT), (3-0) Cr. 3. Alt. S., offered 2013

Inquiry into ethical issues and environmental consequences of horticultural cropping systems, production practices and managed landscapes. Emphasis on systems that are resource efficient, environmentally sound, socially acceptable, and profitable.

ENV S 442. The Policy and Politics of Coastal Areas. (Dual-listed with ENV S 542), (Cross-listed with POL S), (3-0) Cr. 3. SS

Exploration of political implications of coastal policy. Issues include: “Carrying capacity,” zoning, regulation of human development activities, trade-offs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.
ENV S 460. Issues in Sustainable Agriculture.
(Cross-listed with AGRON). (3-0) Cr. 3. F.
Zdorkowski. Agricultural science as a human activity; contemporary agricultural issues from agroecological perspective. Comparative analysis of intended and actual consequences of development of industrial agricultural practices. Nonmajor graduate credit.
Meets International Perspectives Requirement.

(Cross-listed with NREM). (3-0) Cr. 3. S. F.
Prereq: NREM 120, and A ECL 312 or NREM 301, and Junior classification
Survey of the intersections of human communities with the North American environment. Focus on the period from pre-settlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies. Nonmajor graduate credit.

ENV S 484. Sustainable Communities.
(Dual-listed with ENV S 584). (Cross-listed with DSN S, C R P). (3-0) Cr. 3. S.
Prereq: Junior classification

ENV S 490. Independent Study.
Cr. arr. Repeatable. F.S.S. Prereq: Permission of instructor and approval of Environmental Studies coordinator

(Dual-listed with ENV S 591). (Cross-listed with DSN S, C R P, L A). (3-0) Cr. 3. S.
Prereq: 6 credits in natural sciences
Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

ENV S 496. Travel Course.
Cr. arr. Repeatable. F.S.S. Prereq: Permission of instructor
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

ENV S 496A. International Tour.
Cr. arr. Repeatable. Prereq: Permission of instructor
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

ENV S 496B. Domestic Tour.
Cr. arr. Repeatable. Prereq: Permission of instructor
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

Genetics
Curriculum in Genetics - Requirements
In addition to basic degree requirements listed in the Curricula in Liberal Arts and Sciences, genetics majors must satisfy the following requirements:
1. BIOL 211 Principles of Biology I 3
2. BIOL 212 Principles of Biology II 3
3. BIOL 211L Principles of Biology Laboratory I 1
4. BIOL 212L Principles of Biology Laboratory II 1
5. BIOL 313 Principles of Genetics 3
6. BIOL 314 Principles of Molecular Cell Biology 3
7. BIOL 315 Biological Evolution 3
8. MICRO 302 Biology of Microorganisms 3
9. GEN 110 Genetics Orientation 1
10. GEN 409 Molecular Genetics 3
11. GEN 410 Analytical Genetics 3
12. GEN 491 Undergraduate Seminar 1
13. GEN 462 Evolutionary Genetics 3
14. or EEOB 563 Molecular Phylogenetics 3
5. Eleven credits of calculus and Statistics including at least one course in each.
6. Three years of chemistry and biochemistry.
7. Eight credits of general college physics.
8. Six additional credits of biological science support electives chosen from an approved list.
9. Majors in the college of Liberal Arts ans Sciences must take one course that involves both humanities and biology such as history of science or bioethics. This course may also count toward a college group requirement. A list of acceptable courses is available from the program office.
10. The minor in genetics may be earned by completing:
   GEN 313 Principles of Genetics 3
   GEN 313L Genetics Laboratory 1
   BIOL 314 Principles of Molecular Cell Biology 3
   GEN 409 Molecular Genetics 3
   GEN 410 Analytical Genetics 3
   and a minimum of two additional credits in Genetics at the 300 level or above.
   At least nine of these credits must be used only to fulfill the requirement of the minor.

A Genetics major may not double major or minor in Biology.
Curriculum in Genetics - Undergraduate Study
Undergraduate study in genetics is jointly administered by the Department of Biochemistry, Biophysics, and Molecular Biology; the Department of Genetics, Development, and Cell Biology; and the Department of Ecology, Evolution, and Organismal Biology.
Total Degree Requirements: 120 cr.
Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P NP cr. of free electives; 2.00 minimum GPA.
International Perspective: 3 cr.
U.S. Diversity: 3 cr
Communication/Library:
With a C or better:
ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, Visual, and Electronic Composition 3
LIB 160 Information Literacy 1
Total Credits 7
Advanced English writing from department-approved list: 3 cr.
Choose 3 credits from the following:
ENGL 302 Business Communication 3
ENGL 303 Free-Lance Writing for Popular Magazines 3
ENGL 304 Creative Writing – Fiction 3
ENGL 305 Creative Writing – Nonfiction 3
ENGL 306 Creative Writing – Poetry 3
ENGL 309 Report and Proposal Writing 3
ENGL 310 Rhetorical Analysis 3
ENGL 312 Biological Communication 3
ENGL 313 Rhetorical Website Design 3
Humanities and Social Sciences: 21 cr.

- Humanities: 12 cr.
- Social Science: 9 cr.

*3 cr of Humanities from Science/Humanities Bridge course from department-approved list

Life Sciences: 6 cr.
- BIOL 211 Principles of Biology I 3 cr.
- Approved Life Sciences course 3 cr.

Mathematical Sciences: 11-12 cr

- Complete at least one calculus course from MATH, minimum of 4 credits. 4 cr.
  - MATH 160 Survey of Calculus
  - MATH 165 Calculus I
  - MATH 181 Calculus and Mathematical Modeling for the Life Sciences I
- Complete at least one course from STAT, minimum of 3 credits. 3-4 cr.
  - STAT 101 Principles of Statistics
  - STAT 104 Introduction to Statistics
- Complete one additional course from MATH or STAT, minimum of 4 credits. 4 cr.
  - MATH 166 Calculus II
  - MATH 182 Calculus and Mathematical Modeling for the Life Sciences II
  - STAT 401 Statistical Methods for Research Workers

Supporting Sciences 31-32 cr.

- CHEM 177 General Chemistry I 4 cr.
- CHEM 177L Laboratory in General Chemistry I 1 cr.
- CHEM 178 General Chemistry II 3 cr.
- CHEM 178L Laboratory in College Chemistry II 1 cr.
- CHEM 331 Organic Chemistry I 3 cr.
- CHEM 331L Laboratory in Organic Chemistry I 1 cr.
- CHEM 332 Organic Chemistry II 3 cr.
- CHEM 332L Laboratory in Organic Chemistry II 1 cr.
- PHYS 111 General Physics 5 cr.
- or PHYS 221 Introduction to Classical Physics I 5 cr.
- PHYS 112 General Physics 5 cr.
- or PHYS 222 Introduction to Classical Physics II 5 cr.

Choose one of the following options: 6-7 cr.

Option 1
- BBMB 404 Biochemistry I

Option 2
- BBMB 405 Biochemistry II
- BBMB 411 Techniques in Biochemical Research
- CHEM 211 Quantitative and Environmental Analysis & 211L and Quantitative and Environmental Analysis Laboratory
- CHEM 325 Chemical Thermodynamics

Total Credits 33-34

Genetics and Life Sciences 32 cr.

- GEN 110 Genetics Orientation 1 cr.
- BIOL 211 Principles of Biology I 3 cr.
- BIOL 211L Principles of Biology Laboratory I 1 cr.
- BIOL 212 Principles of Biology II 3 cr.
- BIOL 212L Principles of Biology Laboratory II 1 cr.
- MICRO 302 Biology of Microorganisms 3 cr.
- GEN 313 Principles of Genetics 3 cr.
- GEN 313L Genetics Laboratory 1 cr.
- BIOL 314 Principles of Molecular Cell Biology 3 cr.
- BIOL 315 Biological Evolution 3 cr.
- GEN 409 Molecular Genetics 3 cr.
- GEN 410 Analytical Genetics 3 cr.
- GEN 462 Evolutionary Genetics 3 cr.
- or EEOB 563 Molecular Phylogenetics 3 cr.
- GEN 491 Undergraduate Seminar 1 cr.

Total Credits 32 cr.

Advanced Science Electives: 6 cr.

C- minimum grade; 6 cr. of advanced electives from approved department list.

Genetics, Development, and Cell Biology

The Department of Genetics, Development and Cell Biology (GDCB) is dedicated to biological discovery and excellence in undergraduate and graduate education. The research and teaching mission of the department is to achieve a greater understanding of fundamental principles of life by focusing on basic cellular and subcellular processes, including genome dynamics, cell structure and function, cellular response to environmental and developmental signals, and molecular mechanisms of development. Recognizing that student education is of paramount importance, GDCB strives for excellence in teaching and research. GDCB plays a leading role in undergraduate and graduate training through a variety of activities including traditional courses, undergraduate internships in research laboratories, and advanced graduate seminar and literature-based courses. Innovative approaches to learning are emphasized throughout the curriculum.

Undergraduate Study

The GDCB Department offers undergraduate majors in conjunction with other departments. Students interested in the areas of genetics, development and cell biology should major in Biology, Genetics or Bioinformatics and Computational Biology (BCBio). The Biology Major is administered and offered jointly by the GDCB and EEB departments. The GDCB faculty, together with those in EEB and BBMB, administer and offer the Genetics Major. Each of these majors is available through the College of Liberal Arts and Sciences or through the College of Agriculture and Life Sciences. BCBio is administered by GDCB and the Departments of Computer Science and Mathematics, and is available through the college of Liberal Arts and Sciences.

The Biology Major and the Genetics Major prepare students for a wide range of careers in biological sciences. Training in Biology or Genetics may lead to employment in teaching, research, or any of a variety of health-related professions. Some of these careers include biotechnology, human and veterinary medicine, agricultural sciences and life science education. BCBio majors are prepared for careers at the interfaces of biological, informational and computational sciences in the above fields. These majors are also excellent preparation for graduate study in bioinformatics, molecular genetics, cell and developmental biology, neuroscience and related fields. Faculty members in GDCB contribute to the undergraduate courses listed below. The full descriptions of these courses can be found in the Biology, Genetics and BCBio sections of the catalog.

The Department of Genetics, Development and Cell Biology (GDCB) is dedicated to biological discovery and excellence in undergraduate and graduate education. of Graduate Record Examination (GRE) aptitude test scores. Advanced GRE scores are recommended. International students whose native language is other than English must also submit TOEFL scores with their application.

Students who are enrolled in the interdepartmental major and who have affiliations with GDCB are required to actively participate in seminars, research activities, and to show adequate progress and professional development while pursuing their degree. Completion of either the M.S. or Ph.D. degrees requires that research conducted by the student culminates in the writing and presentation of a thesis or dissertation. The Graduate College, the GDCB Faculty, and the individual student’s major professor and Program of Study Committee provide requirements and guidelines for study. General information about graduate study requirements can be found at the web site for the Graduate College (www.grad-college.iastate.edu) and requirements for the interdepartmental majors can be found by following the links from the GDCB website above. Although not a formal requirement, the GDCB faculty recommends that students pursuing the Ph.D. include teaching experience in their graduate training.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

GDCB 505. Entrepreneurship in Science and Technology. (3-0) Cr. 3. F.

High level success at modern science requires entrepreneurship both in and outside the laboratory. Scientists are in a unique position to not only think, but to thrive, "outside of the box" and take unorthodox approaches to research that lead to positive paradigm shifts in our lives. Exploration of many facets of science, technology, industry and commerce, with frequent guest lectures from entrepreneurs.

GDCB 508. Biotechnology in Agriculture, Food, and Human Health. (3-0) Cr. 3. Prereq: BIOL 211 and BIOL 212

Scientific principles and techniques in biotechnology. Products and applications in agriculture, food, and human health. Ethical, legal, and social implications of biotechnology. A research paper is required for graduate credit.

GDCB 510. Transmission Genetics. (Cross-listed with MCDB) (3-0) Cr. 3. S.

An in-depth investigation of the modern research practices of transmission genetics. Designed for students interested in genetic research. Topics include: Mendelian genetic analysis, analysis of genetic pathways, mutational analysis of gene function, chromosomal mechanics, gene mapping, extranuclear inheritance, human genetic analysis.

GDCB 511. Molecular Genetics. (Cross-listed with MCDB) (3-0) Cr. 3. S. Prereq: BIOL 313 and BBMB 405

The principles of molecular genetics: gene structure and function at the molecular level, including regulation of gene expression, genetic rearrangement, and the organization of genetic information in prokaryotes and eukaryotes.

GDCB 512. Plant Growth and Development. (Cross-listed with MCDB, PLBIO). (2-0) Cr. 2. S. Prereq: BIOL 330 or a course in developmental biology; GDCB 545 or BBMB 404, BBMB 405 or GDCB 520

GDCB 513. Plant Metabolism. (Cross-listed with PLBIO). (2-0) Cr. 2. F. Prereq: BIOL 330, PHYS 111, CHEM 331; one semester of biochemistry recommended

Photosynthesis, respiration, and other aspects of plant metabolism.

GDCB 520. Genetic Engineering. (Cross-listed with BBMB, MCDB). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: GEN 411 or BBMB 405

Strategies and rationale of recombinant DNA technologies. The methodology of genetic engineering in basic research and implications for applied research will be considered. Topics include: basic tools of molecular cloning, targeted mutagenesis, fluorescent proteins, protein expression systems, and transgenic model systems.

Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

Graduate Study

Understanding the genetic blueprint and the functions of cells is critical to virtually all aspects of biology. The basic mission of the Department of Genetics, Development and Cell Biology is to achieve a greater understanding of fundamental principles of life. The GDCB faculty and students conduct hypothesis-driven research into the biology of animals, plants and microbes. While research in GDCB is often based on discovery and analysis of molecular mechanisms of life processes, a true understanding of living organisms will ultimately require the integration of molecular biology to investigate the cellular basis of development, or combining biotechnology as complementary approaches. Examples include using genetics and conventional boundaries, and incorporating experimental and computational approaches to study systems at increasingly complex levels of organization.

GDCB faculty contribute to a broad but integrated array of cutting-edge research topics, implementing interactive and multidisciplinary approaches that bridge conventional boundaries, and incorporating experimental and computational biology as complementary approaches. Examples include using genetics and molecular biology to investigate the cellular basis of development, or combining biochemical and computational approaches to study basic subcellular functions, signal transduction or metabolism.

The faculty in the GDCB department train graduate students in several interdepartmental majors/programs including Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Genetics, Immunobiology, Plant Biology, Interdisciplinary Graduate Studies, Microbiology, Molecular, Cellular and Developmental Biology, Neuroscience and Toxicology. Graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees are available.

Prospective graduate students need a sound background in the physical and biological sciences, as well as Mathematics and English. Interested students should check the links on the GDCB website (www.gdcb.iastate.edu) for specific admissions procedures and the latest information about individual faculty and their research programs. The interdepartmental majors and programs require submission of Graduate Record Examination (GRE) aptitude test scores. Advanced GRE scores

Courses

Courses primarily for graduate students, open to qualified undergraduates:

GDCB 505. Entrepreneurship in Science and Technology. (3-0) Cr. 3. F.

High level success at modern science requires entrepreneurship both in and outside the laboratory. Exploration of many facets of science, technology, industry and commerce, with frequent guest lectures from entrepreneurs.

GDCB 508. Biotechnology in Agriculture, Food, and Human Health. (3-0) Cr. 3. Prereq: BIOL 211 and BIOL 212

Scientific principles and techniques in biotechnology. Products and applications in agriculture, food, and human health. Ethical, legal, and social implications of biotechnology. A research paper is required for graduate credit.

GDCB 510. Transmission Genetics. (Cross-listed with MCDB) (3-0) Cr. 3. S. Prereq: BIOL 313 and BBMB 405

An in-depth investigation of the modern research practices of transmission genetics. Designed for students interested in genetic research. Topics include: Mendelian genetic analysis, analysis of genetic pathways, mutational analysis of gene function, chromosomal mechanics, gene mapping, extranuclear inheritance, human genetic analysis.

GDCB 511. Molecular Genetics. (Cross-listed with MCDB) (3-0) Cr. 3. S. Prereq: BIOL 313 and BBMB 405

The principles of molecular genetics: gene structure and function at the molecular level, including regulation of gene expression, genetic rearrangement, and the organization of genetic information in prokaryotes and eukaryotes.

GDCB 512. Plant Growth and Development. (Cross-listed with MCDB, PLBIO). (2-0) Cr. 2. S. Prereq: BIOL 330 or a course in developmental biology; GDCB 545 or BBMB 404, BBMB 405 or GDCB 520

GDCB 513. Plant Metabolism. (Cross-listed with PLBIO). (2-0) Cr. 2. F. Prereq: BIOL 330, PHYS 111, CHEM 331; one semester of biochemistry recommended

Photosynthesis, respiration, and other aspects of plant metabolism.

GDCB 520. Genetic Engineering. (Cross-listed with BBMB, MCDB). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: GEN 411 or BBMB 405

Strategies and rationale of recombinant DNA technologies. The methodology of genetic engineering in basic research and implications for applied research will be considered. Topics include: basic tools of molecular cloning, targeted mutagenesis, fluorescent proteins, protein expression systems, and transgenic model systems.

Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

Graduate Study

Understanding the genetic blueprint and the functions of cells is critical to virtually all aspects of biology. The basic mission of the Department of Genetics, Development and Cell Biology is to achieve a greater understanding of fundamental principles of life. The GDCB faculty and students conduct hypothesis-driven research into the biology of animals, plants and microbes. While research in GDCB is often based on discovery and analysis of molecular mechanisms of life processes, a true understanding of living organisms will ultimately require the integration of molecular mechanisms in the context of dynamic structural components of the living cell. Thus, research efforts within GDCB use molecular, genetic, biochemical, computational and imaging techniques to study systems at increasingly complex levels of organization.

GDCB faculty contribute to a broad but integrated array of cutting-edge research topics, implementing interactive and multidisciplinary approaches that bridge conventional boundaries, and incorporating experimental and computational biology as complementary approaches. Examples include using genetics and molecular biology to investigate the cellular basis of development, or combining biochemical and computational approaches to study basic subcellular functions, signal transduction or metabolism.

The faculty in the GDCB department train graduate students in several interdepartmental majors/programs including Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Genetics, Immunobiology, Plant Biology, Interdisciplinary Graduate Studies, Microbiology, Molecular, Cellular and Developmental Biology, Neuroscience and Toxicology. Graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees are available.

Prospective graduate students need a sound background in the physical and biological sciences, as well as Mathematics and English. Interested students should check the links on the GDCB website (www.gdcb.iastate.edu) for specific admissions procedures and the latest information about individual faculty and their research programs. The interdepartmental majors and programs require submission of Graduate Record Examination (GRE) aptitude test scores. Advanced GRE scores
(Cross-listed with MCDB). (2-0) Cr. 2. Alt. F., offered 2011. Prereq: BIOL 313, BIOL 314, BIOL 330 or BBMB 405  
Organization, function, and development of plant cells and subcellular structures.

(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 314  
Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in classical studies and current literature.

GDCB 536. Statistical Genetics.  
(Cross-listed with STAT). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: STAT 401, STAT 447; GEN 320 or BIOL 313  
Statistical models and methods for genetics covering models of population processes: selection, mutation, migration, population structure, and linkage disequilibrium, and inference techniques: genetic mapping, linkage analysis, and quantitative trait analysis. Applications include genetic map construction, gene mapping, genome-wide association studies (GWAS), inference about population structure, phylogenetic tree construction, and forensic and paternity identification.

GDCB 542. Introduction to Molecular Biology Techniques.  
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.S. Prereq: Graduate classification  
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

GDCB 542A. Introduction to Molecular Biology Techniques: DNA.  
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.S. Prereq: Graduate classification  
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

GDCB 542B. Introduction to Molecular Biology Techniques: Protein.  
(Cross-listed with B M S, GDCB, EEOB, FS HN, HORT, NREM, NUTRS). Cr. 1. Repeatable. S.S.S. Prereq: Graduate classification  
Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

GDCB 542C. Introduction to Molecular Biology Techniques: Cell.  
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S. Prereq: Graduate classification  
Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S. Prereq: Graduate classification  
Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

GDCB 542E. Introduction to Molecular Biology Techniques: Proteomics..  
(Cross-listed with B M S, GDCB, EEOB, FS HN, HORT, NREM, NUTRS). Cr. 1. Repeatable. F. Prereq: Graduate classification  
Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

GDCB 542F. Introduction to Molecular Biology Techniques: Metabolomics.  
(Cross-listed with B M S, GDCB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.S. Prereq: Graduate classification  
Metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

GDCB 542G. Introduction to Molecular Biology Techniques: Genomic.  
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S. Prereq: Graduate classification  
Offered on a satisfactory-fail basis only.
The bachelor of science in Geology prepares the student for a professional career and/or graduate study in the geological sciences. Students selecting geology as a major will elect an option in traditional geology or environmental geology/hydrogeology. The traditional option prepares a student for employment in state and U.S. geological surveys, mineral and petroleum exploration, and graduate study in most aspects of geology. Required courses in this option include:

involves the description of the earth's atmosphere and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, teachers, writers, editors, and museum curators. Graduates are able to integrate field and laboratory data and to prepare reports. They are able to make presentations that include maps and diagrams that illustrate the results of their studies.

The study of Meteorology involves the description of the earth’s atmosphere and the processes responsible for its behavior. Students majoring in Meteorology earn the bachelor of science. The major satisfies guidelines specified by the American Meteorological Society and meets education requirements for employment with the National Weather Service and the World Meteorological Organization. Successful preparation for professional or graduate work in Meteorology requires that the student develop and integrate a diverse range of skills and knowledge bases. These include weather observing, the physics and dynamics of the global atmosphere, application of new weather technologies, advanced mathematical tools, computer programming and modeling, and effective oral and written communication. The faculty view the senior thesis (MTEOR 499 Senior Research), in particular, as a capstone experience in which students demonstrate they have achieved this integration. Also, contemporary meteorology is an earth-system science with ties to a variety of human experiences. The electives and general education requirements of the college are further experiences that the meteorology student must integrate with their core meteorology knowledge in order to function effectively in a globally-oriented profession. The program requires the following courses:

The Earth Science major

The Earth Science major is a broad program that typically emphasizes an interdisciplinary field. Programs leading to the bachelor of science may be individually designed but will include required courses in Geology and Meteorology, and required supporting work in chemistry, physics, and mathematics. Specific programs have been designed for students interested in a geology, meteorology, or an environmental earth science emphasis. Programs leading to the bachelor of arts for earth science teaching are available. The latter program must satisfy the requirements of the Teacher Education Program (see Index, Teacher Education). See Four-Year Graduation Plan: B.S. in Earth Science (p. ) See Four-Year Graduation Plan: B.A. in Earth Science (p. )

Communication Proficiency requirement: The department requires a grade of C or better in:

Critical Thinking and Communication
Written, Oral, Visual, and Electronic Composition
Written, Oral, Visual, and Electronic Composition: Honors
Report and Proposal Writing
Technical Communication
Business Communication
Science Communication

Graduate Study

The department offers a minor in Meteorology which may be earned by completing 15 credits including MTEOR 111 Synoptic Applications (only 1 credit may count toward the minor), MTEOR 206 Introduction to Weather and Climate and MTEOR 301 General Meteorology. Further information concerning programs of study, including sample degree programs, is available from the department.

Minor - Meteorology

The department offers programs leading to the master of science and doctor of philosophy with majors in Earth Science, Geology, and Meteorology. Program options are available for the M.S. and Ph.D. degrees in earth science leading to careers in teaching. The department also cooperates in the interdepartmental major in Water Resources (see Index). Students desiring a major in the above fields normally will have a strong undergraduate background in the physical and mathematical sciences. Individuals desiring to enter a graduate program are

One of the following sequences
CHEM 163 College Chemistry
or
CHEM 177 & 177L General Chemistry I and Laboratory in General Chemistry I

Total Credits

38

A grade of C or better (not C-) is required in each of the following courses to meet minimum graduation requirements for a bachelor of science degree in Meteorology:

MTEOR 206 Introduction to Weather and Climate
MTEOR 301 General Meteorology

Several co-op programs are available for upper division undergraduates. Although a range of opportunities exists for men and women who terminate their studies with a bachelor of science, students who meet the necessary academic standards are encouraged to continue their studies in a graduate program. For these students, additional coursework is recommended in a mathematical or physical science. Other students can choose a wide range of supporting courses that will contribute to their particular area of interest in meteorology.

Minor - Geology

A minor in Geology may be earned by taking 15 credits of geology coursework, including:

or GEOL 201 Geology for Engineers and Environmental Scientists

Total Credits

7-8

The remainder should be at the 300 level or above.

Graduates work to understand natural processes on Earth and other planets. They are able to apply their knowledge of forces and factors that shape the Earth to reconstruct the past and anticipate the future. Graduates provide essential information for solving problems for resource management, environmental protection, and public health, safety, and welfare. They work as consultants on engineering and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, teachers, writers, editors, and museum curators. Graduates are able to integrate field and laboratory data and to prepare reports. They are able to make presentations that include maps and diagrams that illustrate the results of their studies.

An additional 9 credits must be chosen from:

MTEOR 402 Watershed Hydrology
MTEOR 404 Global Change
MTEOR 405 Environmental Biophysics
MTEOR 406 World Climates
MTEOR 407 Mesoscale Meteorology
MTEOR 452 Climate Modeling
MTEOR 490 Independent Study
GEOL 415 Paleoclimatology
or C E 372 Engineering Hydrology and Hydraulics

Supporting work is required in areas at least equivalent to:
evaluated by considering their undergraduate background and performance and their expressed goals.

Programs of study are designed on an individual basis in accordance with requirements of the Graduate College and established requirements for each departmental major. Additional coursework is normally taken in aerospace engineering, agronomy (soil science), chemistry, civil and construction engineering, computer engineering, computer science, engineering mechanics, materials engineering, mathematics, mechanical engineering, microbiology, physics, or statistics. Departmental requirements provide a strong, broad background in the major and allow considerable flexibility in the program of each individual.

A dissertation is required of all Ph.D. candidates.

M.S. students in Geology are required to complete a thesis. The M.S. in Earth Science is available to students electing the non-thesis (Creative Component) option in Geology or Meteorology. A non-thesis option is also offered for the M.S. degree in Meteorology.

Graduates in Geology specialize in a subdiscipline, but they comprehend and can communicate the basic principles of geology and supporting sciences. They possess the capacity for critical and independent thinking. They are able to write a fundable research proposal, evaluate current relevant literature, carry out the proposed research, and communicate the results of their research to peers at national meetings and to the general public. They work as consultants on engineering and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, teachers, writers, editors, and museum curators.

All candidates for an advanced degree in Meteorology are expected to complete:

- MTEOR 542 Physical Meteorology 3
- MTEOR 543 Advanced Dynamic Meteorology I 3
- MTEOR 552 Climate Modeling 3

In addition, students without prior synoptic course-work must complete MTEOR 511 Synoptic Meteorology; other students must complete:

- MTEOR 507 Mesoscale Meteorology 3
- AGRON 507 Mesoscale Meteorology 3
- MTEOR 504 Global Change 3
  or AGRON 504 Global Change 3
- MTEOR 605 Boundary-Layer Meteorology 3
  or AGRON 505 Environmental Biophysics 3

Graduates in Meteorology have a good comprehension of basic principles, a capacity for critical and independent thought and an ability to communicate effectively with scientific colleagues. They have an appropriate breadth in their understanding of meteorology with a suitable specialization. Graduates are able to undertake thorough research and explain the results in a scientifically reasonable fashion.

**Geology Courses**

Courses primarily for undergraduates:

**GEOL 100. The Earth.**

(3-0) Cr. 3. F.S.SS.

How does the earth work, what is it made of, and how does it change through time? Plate tectonics, Earth materials, landforms, structures, climate, and natural resources. Emphasis on the observations and hypotheses used to interpret earth processes. Students may also enroll in Geol 100L.

**GEOL 100L. The Earth: Laboratory.**

(0-2) Cr. 1. F.S. Prereq: Credit or enrollment in GEOL 100

Students will gain understanding of how Earth processes affect their lives and how they affect the Earth, and of the complex nature of the Earth and its processes. They will gain a deep knowledge of the methods used to understand the time scales and rates of Earth processes also through an applied research experience on groundwater and surface water.

**GEOL 101. Environmental Geology: Earth in Crisis.**

(Cross-listed with ENV S). (3-0) Cr. 3. F.S.

An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism.

**GEOL 102. History of the Earth.**

(3-0) Cr. 3. S. Prereq: GEOL 100 or GEOL 201

The Earth's physical and biological evolution: concepts of global tectonics. Methods used to decipher earth history. Students majoring in geology must also enroll in Geol 102L.

**GEOL 102L. History of the Earth: Laboratory.**

(0-2) Cr. 1. S. Prereq: Credit or enrollment in GEOL 102

Introduction to the use of sedimentary rocks and fossils in reconstructing the Earth's history.

**GEOL 105. Gems and Gemstones.**

(2-0) Cr. 1. F.S.

Offered in second half of the semester. Introduction to gems and gemstones, physical and optical properties of gems and gemstones, explanation of where gems come from and how they are found, how to distinguish between synthetic and naturally occurring gems, how the value of gems are determined, and the history of famous gems.

**GEOL 106. Earth and Space Science for Elementary Education Majors.**

(Cross-listed with ASTRO). (2-0) Cr. 2. F. S. Prereq: Major in elementary or early childhood education.

Fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Online course format.

**GEOL 106L. Earth and Space Science for Elementary Education Majors: Laboratory.**

(Cross-listed with ASTRO). (0-2) Cr. 1. F.S. Prereq: Restricted to elementary and early childhood education majors; to be taken concurrently with GEOL 106/ASTRO 106

Inquiry-based lab exploring fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Must be taken concurrently with GEOL/ASTRO 106.

**GEOL 108. Introduction to Oceanography.**

(Cross-listed with ENV S). (3-0) Cr. 3. F.

Introduction to study of the oceans, ocean exploration, waves and currents, shape, structure, and origin of the ocean basins, Sedimentary record of oceanic life, Composition of seawater and its significance for life, Ocean circulation and its influence on climate, Life of the oceans, including coral reefs, Use and misuse of ocean resources. Anthropogenic impacts on the oceanic environment.

**GEOL 109. Exploring Iowa Geology.**

(1-0) Cr. 1. Repeatable, maximum of 2 times. F.

Introduction to Iowa geology through classroom lectures and up to four Saturday field trips to selected Iowa geological attractions. Students will learn basic geologic concepts such as geologic time, erosion and sedimentation, stratigraphy, glacial geology, and karst topography using Iowa examples.

**GEOL 111. Geological Disasters.**

(Cross-listed with ENV S). (1-0) Cr. 1. F.S.SS.

Introduction to the catastrophic geologic processes that disrupt ecosystems and human activity. Includes a discussion on the role of plate tectonics, the hydrologic cycle, and humans as the driving forces behind selected case studies on volcanic eruptions, earthquakes, tsunamis, landslides, and floods. Summer - online only.

**GEOL 112. Geoscience Orientation.**

(Cross-listed with MTEOR). (1-0) Cr. 1. F.

Orientation course for students enrolled in the Earth, Wind and Fire Learning Community. Provides an introduction to Iowa State University and meteorology, geology, and Earth science programs for students enrolled in the department’s learning community. Activities include academic and social activities, talks and presentations on academic success, resume writing, and study abroad, as well as research talks by faculty members.

**GEOL 160. Water Resources of the World.**

(Cross-listed with MTEOR, ENV S, AGRON). (3-0) Cr. 3. S.

Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment.

**GEOL 201. Geology for Engineers and Environmental Scientists.**

(2-2) Cr. 3. F.

Introduction to Earth materials and processes with emphasis on engineering and environmental applications.

**GEOL 290. Independent Study.**

Cr. 2-4. Repeatable. Prereq: Permission of instructor
GEOL 298. Cooperative Education.
Cr. R. F.S.SS. Prereq: GEOL 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; sophomore classification.
Required of all cooperative education students. Students must register for this course prior to commencing the work period.

GEOL 302. Summer Field Studies.
Cr. 6. SS. Prereq: GEOL 102, GEOL 356, GEOL 368
Geologic mapping; structural, stratigraphic, sedimentologic, metamorphic, geomorphic, and environmental analyses. Study areas in the Bighorn Basin and Wind River Range and excursions to Yellowstone and Grand Teton National Parks. A 6-week summer field course required of all geology majors. Nonmajor graduate credit.

GEOL 306. Geology Field Trip.
Cr. 1-2. Repeatable. F.S. Prereq: GEOL 100 or GEOL 201
Geology of selected regions studied by correlated readings followed by a field trip to points of geologic interest. Ten-day field trip required.

GEOL 315. Mineralogy and Earth Materials.
(3-0) Cr. 3. F. Prereq: GEOL 100 or GEOL 201, CHEM 177
Introduction to mineral classification, elementary crystal chemistry, crystal growth and morphology, mineral stability, and mineral associations. Nonmajor graduate credit.

GEOL 315L. Laboratory in Mineralogy and Earth Materials.
(0-3) Cr. 1. F. Prereq: GEOL 100 or GEOL 201
Mineral identification methods, especially hand-specimen identification. Nonmajor graduate credit.

GEOL 316. Optical Mineralogy.
(1-2) Cr. 2. F. Prereq: GEOL 100 or GEOL 201, CHEM 177, credit or enrollment in GEOL 315
Laboratory problems in mineral-identification methods utilizing optical microscopic techniques. Nonmajor graduate credit.

(Cross-listed with ENV S, MTEOR); (3-0) Cr. 3. S.
Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels. Nuclear, wind, geothermal, biomass, hydroelectric, and solar energy. Biofuels. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, coal ash, mountaintop removal mining, oil drilling, hydraulic fracturing, groundwater contamination, nuclear waste disposal, and global climate change. Carbon sequestration and geoengineering solutions for reducing atmospheric CO2 concentrations. GEOL 324 does not count toward credit required in the Geology major.

GEOL 356. Structural Geology.
(3-6) Cr. 5. S. Prereq: GEOL 100 or GEOL 201, PHYS 111
Principles of stress and strain. Brittle and ductile behavior of rocks. Description, classification, and mechanics of formation of fractures, faults, folds, foliation, and lineation. Plate tectonics and regional geology. Laboratory includes application of geometrical techniques to solve structural problems; emphasizes map interpretation and use of stereonet and computer methods. Nonmajor graduate credit.

GEOL 356. I.gneous and Metamorphic Petrology.
(2-3) Cr. 3. S. Prereq: GEOL 315, GEOL 315L, GEOL 316
Nature and origin of igneous and metamorphic rocks. Emphasis on important rock-forming environments and processes and their influence on rock characteristics. Laboratory includes thin section study of rock textures and mineralogy and the interpretation of these features. Nonmajor graduate credit.

GEOL 368. Stratigraphy and Sedimentation.
(3-2) Cr. 4. F. Prereq: GEOL 315, GEOL 315L, GEOL 316
Origin of sedimentary rocks and the characteristics of major depositional systems, geologic time, stratigraphic nomenclature, methods of correlation, facies and facies analysis, sequence stratigraphy, sedimentary tectonics and basin analysis. Required field and laboratory-based problem with a comprehensive written report. Nonmajor graduate credit.

GEOL 398. Cooperative Education.
Cr. R. F.S.SS. Prereq: GEOL 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; junior classification.
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

GEOL 402. Watershed Hydrology.
(Dual-listed with GEOL 502); (Cross-listed with ENSCI, MTEOR, NREM); (3-3) Cr. 4. F. Prereq: Four courses in physical or biological sciences or engineering; junior standing
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

GEOL 409. Field Methods in Hydrogeology.
(Dual-listed with GEOL 509); (Cross-listed with ENSCI); (0-4) Cr. 3. Alt. SS., offered 2012. Prereq: GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473
Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

GEOL 411. Hydrogeology.
(Dual-listed with GEOL 511); (Cross-listed with ENSCI); (3-2) Cr. 4. F. Prereq: Four courses in biological or physical sciences
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations. Nonmajor graduate credit.

(Dual-listed with GEOL 514); (Cross-listed with ENSCI); (2-2) Cr. 3. Alt. S., offered 2012. Prereq: GEOL 411 or C E 473; MATH 165 or MATH 181
Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course. Nonmajor graduate credit.

GEOL 415. Paleoclimatology.
(Dual-listed with GEOL 515); (Cross-listed with ENSCI); (3-0) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in biological or physical science
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years). Nonmajor graduate credit.

GEOL 416. Hydrologic Modeling and Analysis.
(Dual-listed with GEOL 516); (Cross-listed with MTEOR, ENSCI); (2-3) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in Earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed. Nonmajor graduate credit.

GEOL 419. Environmental Geochemistry.
(Dual-listed with GEOL 519); (Cross-listed with ENSCI); (2-3) Cr. 3. F. Prereq: GEOL 402 or GEOL 411 or equivalent
Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling. Nonmajor graduate credit.

GEOL 420. Mineral Resources.
(Dual-listed with GEOL 520); (2-3) Cr. 3. Alt. F., offered 2012. Prereq: GEOL 365
Geology and geochemistry of non-metallic and metallic ore deposits. Major processes that concentrate metals in the Earth. Geochemical conditions of ore formation using stable-isotope and fluid-inclusion studies. Laboratory emphasizes the study of metallic ores.
(Dual-listed with GEOL 526). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: Four courses in biological or physical science 
Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, tephrochronology, climate change, and human impact on isotopic systems. Investigation of coupled processes (diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance. 
Nonmajor graduate credit.

GEOL 434. Contaminant Hydrogeology. 
(Dual-listed with GEOL 534). (Cross-listed with ENSCI). (3-0) Cr. 3. S. Prereq: GEOL 411 or equivalent 

(Dual-listed with GEOL 551). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered 2012. Prereq: GEOL 100 or GEOL 201, MATH 181 or equivalent experience 
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic and resistivity-imaging systems and radar. Nonmajor graduate credit.

GEOL 452. GIS for Geoscientists. 
(Dual-listed with GEOL 552). (Cross-listed with AGRON). (2-2) Cr. 3. F. Prereq: GEOL 100, GEOL 201 or equivalent 
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses. Nonmajor graduate credit.

GEOL 457. Exploration Seismology. 
(Dual-listed with GEOL 557). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: GEOL 100 or GEOL 201, MATH 181 or equivalent experience or permission of instructor 

GEOL 474. Glacial and Quaternary Geology. 
(Dual-listed with GEOL 574). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: GEOL 100 or GEOL 201 or equivalent experience 
The study of glaciers and glacial processes. Discussion of glaciology, glacial sediment transport, glacial landforms, and Quaternary history. Laboratory emphasizes topographic map interpretation and the Quaternary landscapes of Iowa. Nonmajor graduate credit.

GEOL 479. Surficial Processes. 
(Dual-listed with GEOL 579). (Cross-listed with ENSCI). (2-2) Cr. 3. F. Prereq: GEOL 100 or GEOL 201 or equivalent experience 
The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landscape genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips. Nonmajor graduate credit.

GEOL 488. GIS for Geoscientists II. 
(Dual-listed with GEOL 588). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent 
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 488) a class project. Nonmajor graduate credit.

GEOL 490. Independent Study. 
Cr. 1-4. Repeatable, maximum of 9 credits. Prereq: 6 credits in geology and permission of instructor 
No more than 9 credits of GEOL 490 may be counted toward graduation.

GEOL 495. Undergraduate Seminar. 
Cr. 1. F.S. Prereq: Junior or senior classification 
Weekly seminar on topics of current research interest.

GEOL 498. Cooperative Education. 
Cr. R. F.S.SS. Prereq: GEOL 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; senior classification 
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

GEOL 502. Watershed Hydrology. 
(Dual-listed with GEOL 402). (Cross-listed with ENSCI, MTEOR, NREM). (3-3) Cr. 4. F. Prereq: Four courses in physical or biological sciences or engineering; junior standing 
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrologic processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

GEOL 506. Geology Field Trip. 
Cr. 1-2. Repeatable. F.S. Prereq: Graduate classification 
Geology of selected regions studied by correlated readings, followed by a field trip to points of geologic interest. Ten-day field trip.

GEOL 507. Midwestern Geology Field Trip. 
Cr. 1. Repeatable, maximum of 4 times. F. Prereq: GEOL 365 
On-site inspection of various ore deposits, mining operations, and terrains dominated by igneous or metamorphic rocks. Offered on a satisfactory-fail basis only.

GEOL 509. Field Methods in Hydrogeology. 
(Dual-listed with GEOL 409). (Cross-listed with ENSCI). (0-4) Cr. 3. Alt. SS., offered 2012. Prereq: GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473 
Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

GEOL 511. Hydrogeology. 
(Dual-listed with GEOL 411). (Cross-listed with ENSCI). (3-2) Cr. 4. F. Prereq: Four courses in biological or physical sciences 
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

(Dual-listed with GEOL 414). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered 2012. Prereq: GEOL 411 or C E 473; MATH 165 or MATH 181 
Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

GEOL 515. Paleoclimatology. 
(Dual-listed with GEOL 415). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in biological or physical science 
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~ 1 million years).

GEOL 516. Hydrologic Modeling and Analysis. 
(Dual-listed with GEOL 416). (Cross-listed with MTEOR, ENSCI). (2-3) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in earth science, meteorology, or engineering; junior standing 
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.
GEOL 519. Environmental Geochemistry. 
(Dual-listed with GEOL 419). (Cross-listed with ENSCI). (2-2) Cr. 3. F. Prereq: GEOL 511 or equivalent
Chemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

GEOL 520. Mineral Resources. 

(Dual-listed with GEOL 426). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: Four courses in biological or physical science
Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

GEOL 534. Contaminant Hydrogeology. 
(Dual-listed with GEOL 434). (Cross-listed with ENSCI). (3-0) Cr. 3. S. Prereq: GEOL 511 or equivalent

GEOL 542. Optical Mineralogy. 
(1-2) Cr. 2. F. Prereq: GEOL 311
Introduction to using the microscope for mineral identification. Optical properties of minerals in immersion oils and in thin section. Research project required.

(Dual-listed with GEOL 451). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered 2012. Prereq: GEOL 100 or GEOL 201, MATH 181 or equivalent experience
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar. Nonmajor graduate credit.

GEOL 552. GIS for Geoscientists. 
(Dual-listed with GEOL 452). (Cross-listed with AGRON). (2-2) Cr. 3. F. Prereq: GEOL 100, GEOL 201 or equivalent
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI’s ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

GEOL 555. Environmental Soil Mineralogy. 
(Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: AGRON 473, CHEM 178. Recommend: GEOL 311
Structure and behavior of clay minerals, humic substances and biochar in soil environments, with emphasis on reactions and environmental implications.

GEOL 555L. Soil Clay Mineralogy Laboratory. 
(Cross-listed with AGRON). (0-3) Cr. 1. Alt. S., offered 2013. Prereq: Credit or enrollment in AGRON 555
Laird. Application of X-ray diffraction, thermal analysis, infrared spectroscopy, and chemical analyses to identification and behavior of clay minerals in soils.

GEOL 557. Exploration Seismology. 
(Dual-listed with GEOL 457). (2-2) Cr. 3. Alt. F., offered 2013. Prereq: GEOL 100 or GEOL 201, MATH 181 or equivalent experience or permission of instructor
Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment.

GEOL 558. Introduction to the 3D Visualization of Scientific Data. 
(Cross-listed with HCI, COM 55). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: Graduate student standing in the mathematical or natural sciences
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, engineering). Class project in interactive 3D visualization using the OpenDX, VTK or a similar system.

GEOL 574. Glacial and Quaternary Geology. 
(Dual-listed with GEOL 474). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: GEOL 100 or GEOL 201
The study of glaciers and glacial processes. Discussion of glaciology, glacial sediment transport, glacial landforms, and Quaternary laboratory. Laboratory emphasizes topographic map interpretation and the Quaternary landscapes of Iowa.

GEOL 579. Surfacial Processes. 
(Dual-listed with GEOL 479), (Cross-listed with ENSCI). (2-2) Cr. 3. F. Prereq: GEOL 100 or GEOL 201 or equivalent experience
The study of physical processes that shape Earth’s surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

GEOL 588. GIS for Geoscientists II. 
(Dual-listed with GEOL 488), (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

GEOL 590. Special Topics. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590A. Special Topics: Surficial Processes. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590B. Special Topics: Stratigraphy. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590C. Special Topics: Sedimentation. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590D. Special Topics: Paleontology. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590E. Special Topics: Petrology. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590F. Special Topics: Structural Geology. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590G. Special Topics: Geochemistry. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590H. Special Topics: Hydrogeology. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590I. Special Topics: Earth Science. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590J. Special Topics: Mineral Resources. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590K. Special Topics: Geophysics. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590L. Special Topics: Mineralogy. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590M. Special Topics: Tectonics. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590N. Special Topics: Paleoecology and Paleoclimatology. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590O. Special Topics: Isotope Geochemistry. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590P. Special Topics: Computational Methods and GIS. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590R. Special Topics: Surface Hydrology. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor
GEOL 590S. Special Topics: Oceanography.
Cr. 1-3. Repeatable. Prereq: Permission of instructor

GEOL 595. Graduate Seminar.
(Cross-listed with MTEOR). Cr. 1. Repeatable. F.S. Prereq: Senior or graduate classification
Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

GEOL 595A. Graduate Seminar: Presentation Required.
(Cross-listed with MTEOR). (1-0) Cr. 1. Repeatable. F.S. Prereq: Senior or graduate classification
Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

GEOL 595B. Graduate Seminar: Attendance Only.
(Cross-listed with MTEOR). Cr. R. Repeatable. F.S. Prereq: Senior or graduate classification
Attendance only. Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

GEOL 599. Creative Component.
Cr. arr. Repeatable.

Courses for graduate students:

GEOL 610. Advanced Seminar.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610A. Advanced Seminar: Earth Materials.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610B. Advanced Seminar: Economic Geology.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610C. Advanced Seminar: Environmental Geochemistry.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610D. Advanced Seminar: Geophysics.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610E. Advanced Seminar: Geotectonics.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610F. Advanced Seminar: Hydrogeology.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610G. Advanced Seminar: Surficial Processes.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610H. Advanced Seminar: Stratigraphy.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610I. Advanced Seminar: Paleontology and Paleoclimatology.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610J. Advanced Seminar: Isotope Geochemistry.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 610K. Advanced Seminar: Computational Methods and GIS.
Cr. 1-3. Repeatable. F.S. Prereq: Graduate standing and permission of instructor

GEOL 699. Research.
Cr. arr. Repeatable.

GEOL 699A. Research: Surficial Processes.
Cr. arr. Repeatable.

GEOL 699B. Research: Stratigraphy.
Cr. arr. Repeatable.

GEOL 699C. Research: Sedimentation.
Cr. arr. Repeatable.

GEOL 699D. Research: Paleontology.
Cr. arr. Repeatable.

GEOL 699E. Research: Petrology.
Cr. arr. Repeatable.

GEOL 699F. Research: Structural Geology.
Cr. arr. Repeatable.

GEOL 699G. Research: Geochemistry.
Cr. arr. Repeatable.

GEOL 699H. Research: Hydrogeology.
Cr. arr. Repeatable.

Cr. arr. Repeatable.

GEOL 699J. Research: Mineral Resources.
Cr. arr. Repeatable.

GEOL 699K. Research: Geophysics.
Cr. arr. Repeatable.

GEOL 699L. Research: Mineralogy.
Cr. arr. Repeatable.

GEOL 699M. Research: Tectonics.
Cr. arr. Repeatable.

GEOL 699N. Research: Paleocology and Paleoecology.
Cr. arr. Repeatable.

GEOL 699O. Research: Isotope Geochemistry.
Cr. arr. Repeatable.

GEOL 699P. Research: Computational Geochemistry.
Cr. arr. Repeatable.

GEOL 699R. Research: Surface Hydrology.
Cr. arr. Repeatable.

Meteorology Courses

Courses primarily for undergraduates:

MTEOR 107. Severe and Hazardous Weather.
(2-0) Cr. 1. F.
Understanding of atmospheric processes that play a role in creating severe and hazardous weather. Focus on thunderstorms, tornadoes, hurricanes, floods, blizzards, ice storms, and temperature extremes. Impacts on lives and property.

MTEOR 111. Synoptic Applications.
(1-0) Cr. 1. Repeatable. F. Prereq: Credit or enrollment in MATH 165
Current weather discussions and introduction to synoptic-scale interpretation of meteorology. Application and use of calculus in meteorology. Course restricted to majors. Others with permission of instructor.

MTEOR 112. Geoscience Orientation.
(Cross-listed with GEOL). (1-0) Cr. 1. F.
Orientation course for students enrolled in the Earth, Wind and Fire Learning Community. Provides an introduction to Iowa State University and meteorology, geology, and Earth science programs for students enrolled in the department’s learning community. Activities include academic and social activities, talks and presentations on academic success, resume writing, and study abroad, as well as research talks by faculty members.

(Cross-listed with GEOL, ENV S, AGRON). (3-0) Cr. 3. S.
Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment.

MTEOR 201. Introductory Seminar.
(1-0) Cr. R. F. Prereq: Credit or enrollment in PHYS 221
An overview of the atmospheric sciences, the meteorology program at Iowa State, and the major research journals used in the discipline.

MTEOR 206. Introduction to Weather and Climate.
(Cross-listed with AGRON). (3-0) Cr. 3. F.S.
Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.
MTEOR 227. Computational Meteorology I.
(3-1) Cr. 3. F. Prereq: Credit or concurrent enrollment in MTEOR 206, credit or concurrent enrollment in PHYS 221
An introduction to computer programming using FORTRAN with focus on meteorological applications. Emphasis on basics of good programming techniques and style through extensive practice in top-down design, writing, running, and debugging small programs. Topics include operations and functions, selective execution, repetitive execution, arrays, input/output, file processing, and subprograms. This course is designed for majors.

MTEOR 265. Scientific Balloon Engineering and Operations.
(Cross-listed with AER E), (0-2) Cr. 1. Repeatable. F.
Engineering aspects of scientific balloon flights. Integration of science mission objectives with engineering requirements. Operations team certification. FAA and FCC regulations, communications, and command systems. Flight path prediction and control.

MTEOR 298. Cooperative Education.
Cr. R. F.S.SS. Prereq: Permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing the work period.

MTEOR 301. General Meteorology.
(4-0) Cr. 4. S. Prereq: MATH 166; credit or enrollment in PHYS 222
Global distribution of temperature, wind, and atmospheric constituents; atmospheric thermodynamics, radiative transfer, global energy balance, storms and clouds, introductory dynamics. Nonmajor graduate credit.

MTEOR 311. Introduction to Synoptic Meteorology.
(1-2) Cr. 2. F. Prereq: MTEOR 301
Concepts of weather map plotting and analysis. Introduction to forecasting and to the use of real-time UNIDATA computer products. Nonmajor graduate credit.

MTEOR 321. Meteorology Internship.
Cr. 1-2. Repeatable, maximum of 3 credits. F.S.SS. Prereq: MTEOR 311; junior or senior standing; permission of co-op program coordinator; acceptance by sponsoring agency
Supervised practical experience in a professional meteorological agency. Experiences may include providing weather information for radio, TV, utilities, government agencies, construction, or agribusiness.

(Cross-listed with ENV S, GEOL), (3-0) Cr. 3. S.
Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels, nuclear, wind, geothermal, biomass, hydroelectric, and solar energy. Biofuels. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, coal ash, mountaintop removal mining, oil drilling, hydraulic fracturing, groundwater contamination, nuclear waste disposal, and global climate change. Carbon sequestration and geoengineering solutions for reducing atmospheric CO2 concentrations. GEOL 324 does not count toward credits required in the Geology major.

MTEOR 341. Atmospheric Physics I.
(3-0) Cr. 3. F. Prereq: PHYS 222; credit or enrollment in MATH 266
Basic laws of thermodynamics, thermodynamics of water vapor, mixtures of gases, stability, hydrostatics, cloud physics. Nonmajor graduate credit.

MTEOR 342. Atmospheric Physics II.
(3-0) Cr. 3. S. Prereq: MTEOR 341
Precipitation physics, radar, atmospheric radiation, atmospheric optics, atmospheric electricity. Nonmajor graduate credit.

MTEOR 398. Cooperative Education.
Cr. R. F.S.SS. Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing the work period.

MTEOR 402. Watershed Hydrology.
(Dual-listed with MTEOR 502). (Cross-listed with ENSCI, GEOL, NREM). (3-3) Cr. 4. F. Prereq: Four courses in physical or biological sciences or engineering; junior standing
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

MTEOR 404. Global Change.
(Dual-listed with MTEOR 504). (Cross-listed with AGRON, ENSCI, ENV S), (3-0) Cr. 3. S. Prereq: Four courses in physical or biological sciences or engineering; junior standing
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Nonmajor graduate credit.

MTEOR 405. Environmental Biophysics.
(Dual-listed with MTEOR 505). (Cross-listed with AGRON, ENSCI), (3-0) Cr. 3. Alt. S., offered 2013. Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language)
Hornbuckle. A description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities. Nonmajor graduate credit.

MTEOR 406. World Climates.
(Cross-listed with AGRON, ENSCI), (3-0) Cr. 3. F. Prereq: AGRON 206/MTEOR 206 Arritt. Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Nonmajor graduate credit. Meets International Perspectives Requirement.

MTEOR 411. Synoptic Meteorology.
(Dual-listed with MTEOR 511), (1-4) Cr. 3. F. Prereq: MTEOR 311, Credit or enrollment in MTEOR 454
Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products.

(Dual-listed with MTEOR 516), (Cross-listed with GEOL, ENSCI), (2-3) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in Earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed. Nonmajor graduate credit.

MTEOR 417. Mesoscale Forecasting Laboratory.
(1-5) Cr. 3. S. Prereq: Credit or enrollment in MTEOR 411
Real-time computer analysis of current weather, with emphasis on small-scale features. Studies of severe weather, lake-effect snow, CSI, cold-air damming. Nonmajor graduate credit.

MTEOR 432. Instrumentation and Measurements.
(2-2) Cr. 3. S. Prereq: Credit or enrollment in STAT 105, MATH 266, PHYS 222 Measurement of meteorological variables and instruments used, including surface, upper air, and remote sensors; measurement errors, signal processing, recording and archiving; quality assurance. Nonmajor graduate credit.

MTEOR 443. Dynamic Meteorology I.
(3-0) Cr. 3. S. Prereq: MTEOR 341

MTEOR 452. Climate Modeling.
(Dual-listed with MTEOR 552). (3-0) Cr. 3. F. Prereq: Mteor 301 Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world. Nonmajor graduate credit.
MTEOR 454. Dynamic Meteorology II.
(3-0) Cr. 3. F. Prereq: MTEOR 443
Planetary boundary layer, linear perturbation theory, atmospheric wave motions, baroclinic and convective instability, mesoscale circulations. Nonmajor graduate credit.

MTEOR 471. History of Modern Meteorology.
(Dual-listed with MTEOR 571). (1-0) Cr. 1. Alt. S., offered 2012. Prereq: MTEOR 341, MTEOR 342, MTEOR 411, MTEOR 443, MTEOR 452
Development of meteorological theories and numerical weather prediction, discoveries of important meteorological phenomena, and impact of weather and climate on important historical events.

MTEOR 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: 6 credits in meteorology, permission of instructor
No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490A. Independent Study: Synoptic Meteorology.
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: 6 credits in meteorology, permission of instructor
No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490B. Independent Study: Dynamic Meteorology.
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: 6 credits in meteorology, permission of instructor
No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490C. Independent Study: Physical Meteorology.
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: 6 credits in meteorology, permission of instructor
No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490D. Independent Study: Hydrology.
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: 6 credits in meteorology, permission of instructor
No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 498. Cooperative Education.
Cr. R. F.S.S. Prereq: Permission of the department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

MTEOR 499. Senior Research.
(2-0) Cr. 2. F
Required of all senior meteorology majors. Research projects in collaboration with faculty. Written and oral presentations of results at the end of the semester.

Courses primarily for graduate students, open to qualified undergraduates:

MTEOR 502. Watershed Hydrology.
(Dual-listed with MTEOR 402). (Cross-listed with ENSCI, GEOL, NREM). (3-3) Cr. 4. F. Prereq: Four courses in physical or biological sciences or engineering; junior standing
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

MTEOR 504. Global Change.
(Dual-listed with MTEOR 404). (Cross-listed with AGRON, ENSCI, ENV S). (3-0) Cr. 3. S. Prereq: Four courses in physical or biological sciences or engineering; junior, senior, or graduate standing
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

MTEOR 505. Environmental Biophysics.
(Dual-listed with MTEOR 405). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language)
Hornbuckle. A description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities. Nonmajor graduate credit.

MTEOR 507. Mesoscale Meteorology.
(Dual-listed with MTEOR 407). (Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Math 166 and Mteor 443

MTEOR 511. Synoptic Meteorology.
(Dual-listed with MTEOR 411). (1-4) Cr. 3. F. Prereq: MTEOR 311, Credit or enrollment in MTEOR 454
Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products.

MTEOR 516. Hydrologic Modeling and Analysis.
(Dual-listed with MTEOR 416). (Cross-listed with GEOL, ENSCI). (2-3) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

(Cross-listed with AGRON, E E). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Math 265 or equivalent
Microwave remote sensing of Earth’s surface and atmosphere using satellite- or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.

MTEOR 542. Physical Meteorology.
(3-0) Cr. 3. F. Prereq: MTEOR 342, MATH 266, PHYS 222
Planetary atmospheres, radiative equilibrium models, radiative transfer, the upper atmosphere, remote sounding from satellites.

MTEOR 543. Advanced Dynamic Meteorology I.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: MTEOR 455
The first half of a two semester sequence. Governing equations, scale analysis, simple types of wave motion in the atmosphere, instability theory.

MTEOR 544. Advanced Dynamic Meteorology II.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: MTEOR 543
Continuation of 543. General circulation and dynamics of zonally symmetric circulations, atmospheric energetics, nonlinear dynamics of planetary waves.

MTEOR 552. Climate Modeling.
(Dual-listed with MTEOR 452). (3-0) Cr. 3. F. Prereq: Mteor 301
Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world.

MTEOR 571. History of Modern Meteorology.
(Dual-listed with MTEOR 471). (1-0) Cr. 1. Alt. S., offered 2012. Prereq: MTEOR 341, MTEOR 342, MTEOR 411, MTEOR 443, MTEOR 452
Development of meteorological theories and numerical weather prediction, discoveries of important meteorological phenomena, and impact of weather and climate on important historical events.

MTEOR 590. Special Topics.
Cr. 1-3. Repeatable. Prereq: Permission of instructor
Topics of current interest.

MTEOR 590A. Special Topics: Boundary-layer Meteorology.
Cr. 1-3. Repeatable. Prereq: Permission of instructor
Topics of current interest.

MTEOR 590B. Special Topics: Tropical Meteorology.
Cr. 1-3. Repeatable. Prereq: Permission of instructor
Topics of current interest.

MTEOR 590C. Special Topics: Mesoscale Meteorology.
Cr. 1-3. Repeatable. Prereq: Permission of instructor
Topics of current interest.
MTEOR 580D. Special Topics: Global Climate Systems. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 590E. Special Topics: Climate Modeling. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 590F. Special Topics: Numerical Weather Prediction. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 590G. Special Topics: Satellite Observations. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 590H. Special Topics: Statistical Methods in Meteorology. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 591I. Special Topics: Field Observations. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 590J. Special Topics: Low Frequency Modes. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 590K. Special Topics: Cloud Physics. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 591L. Special Topics: Atmospheric Radiation. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 590M. Special Topics: Hydrology. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 590N. Special Topics: Geophysical Fluid Dynamics. 
Cr. 1-3. Repeatable. Prereq: Permission of instructor. 
Topics of current interest.

MTEOR 595. Graduate Seminar. 
(Cross-listed with GEOE). Cr. 1. Repeatable. F.S. Prereq: Senior or graduate classification. 
Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail-basis only.

MTEOR 595A. Graduate Seminar: Presentation Required. 
(Cross-listed with GEOE). (1-0) Cr. 1. Repeatable. F.S. Prereq: Senior or graduate classification. 
Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail-basis only.

MTEOR 595B. Graduate Seminar: Attendance Only. 
(Cross-listed with GEOE). Cr. R. Repeatable. F.S. Prereq: Senior or graduate classification. 
Attendance only. Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail-basis only.

Courses for graduate students:

(3-0) Cr. 3. Alt. F., offered 2012. Prereq: MTEOR 443 or equivalent-level course in engineering fluids. 
Atmospheric boundary-layer structure and dynamics. Diurnal and seasonal variations, turbulent fluxes and turbulence kinetic energy. Measurements and empirical relations for wind and temperature near the ground. Numerical simulation and applications to wind energy.

MTEOR 699. Research. 
Cr. arr. Repeatable.

Greenlee School of Journalism and Communication

The Greenlee School of Journalism and Communication offers work for the bachelor of arts in advertising, and the bachelor of science degree in journalism and mass communication. The unit, founded in 1905, has been continuously accredited every six years since 1948 by the Accrediting Council on Education in Journalism and Mass Communications and was last reaccredited in 2010. Accreditation is based on the principle that students need a broad-based, liberal arts education, as well as a solid core of courses within the discipline.

Undergraduate Study

Students who complete degrees in advertising or journalism and mass communication are expected to develop competencies in 12 key areas:

- History/Role of professionals and institutions: Demonstrate an understanding of the history and role of professionals and institutions in shaping communications;
- First Amendment/Law: Understand and apply the principles and laws of freedom of speech and press, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances;
- Theory: Understand concepts and apply theories in the use and presentation of images and information;
- Research and evaluation: Conduct research and evaluate information by methods appropriate to the communications professions in which they work;
- Diversity: Demonstrate an understanding of the diversity of groups in a global society in relationship to communications;
- Ethics: Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity;
- Critical thinking: Think critically, creatively and independently;
- Writing: Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve;
- Visual Communication: Conceptualize, prepare or select appropriate methods to convey information in visual form, whether as a complement or supplement to words;
- Numeracy: Apply basic numerical and statistical concepts;
- Critical Evaluation/Editing: Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;
- Tools and technology: Apply tools and technologies appropriate for the communication profession in which they work.

To become an advertising or journalism and mass communication major, the student must have completed the pre-major core requirements (See majors). Until these requirements are successfully completed, advertising and journalism and mass communication students are designated as pre-majors.

Communication Proficiency Requirement

All majors in the School must earn a grade of C or better in ENGL 150 Critical Thinking and Communication (or be exempt) and ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors). These additional requirements apply:

Advising majors must earn a C- or better in:

JL MC 201 Reporting and Writing for the Mass Media 3
and one of
ADVRT 334 Advertising Creativity 3
ADVRT 336 Advertising Account Management 3

Journalism and mass communication majors must earn a C+ or better in:

JL MC 201 Reporting and Writing for the Mass Media 3
and one of
JL MC 202 Intermediate Reporting and Writing for the Mass Media 3
JL MC 206 Reporting and Writing for the Electronic Media 3
JL MC 321 Public Relations Writing 3

The Advertising Major

The advertising major prepares students for careers in business and industry or for graduate education. Students majoring in advertising find career opportunities in professions requiring applied communication expertise. Graduates are qualified for...
positions in the creative and account sides of advertising within businesses, agencies and media.

To become an advertising major, a student must successfully complete:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JL MC 101</td>
<td>Mass Media and Society</td>
<td>3</td>
</tr>
<tr>
<td>JL MC 110</td>

<tr>
<td>JL MC 201</td>
<td>Reporting and Writing for the Mass Media</td>
<td>3</td>
</tr>
<tr>
<td>ADVRT 230</td>
<td>Advertising Principles</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional recommended courses and requirements for the advertising major are available from the Greenlee School.

The School requires a Designated Area of Concentration (DAC) made up of 21 credits with at least 12 credits from the 300-level or above. All courses for the DAC must be taken outside of ADVRT and JL MC. The DAC is a secondary area of expertise made up of courses selected by the student, with adviser approval. A second major may substitute for the DAC.

Advertising majors may not pursue a second major or minor in advertising.

**Minors**

The Greenlee School offers a minor in advertising and a minor in journalism and mass communication.

For a minor in advertising or journalism and mass communication, students complete 15 credits, including JL MC 101 Mass Media and Society. The other 12 credits, at least 9 of which must be from Iowa State University, are selected from course offerings in the advertising and journalism and mass communication majors, including:

6 credits from the following:

<table>

<td>Special Topics in Communication</td>
</tr>
</tbody>
</table>

Journalism and mass communication majors may not minor in advertising, and advertising majors may not minor in journalism and mass communication.

**Graduate Study**

The Greenlee School of Journalism and Communication offers work for a master of science degree in journalism and mass communication.
Majors plan a program of study in one of two tracks:

I. Communication as theory and research -- The School offers advanced academic preparation in communication theory and research leading to the master of science degree. Graduate work prepares students for use and contribute to research and scholarship in the field of communication. The degree requires a thesis or creative component based on original research, which must be defended successfully before a committee at the end of the program.

Areas of research emphasis include: science and risk communication, media performance, media effects, advertising, public relations, political communication, communication technology, law and ethics, international communication, visual communication and emerging media.

II. Professional and Strategic Communication -- The School offers advanced professional study in journalism and mass communication leading to the master of science degree. Graduate work prepares students for professional careers in a variety of mass communication fields. Students with limited training or experience in journalism and mass communication may include skills courses in their programs, but the credits for those courses will not count toward the graduate degree. The degree requires either a creative component or thesis.

All students must complete four core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>JL MC 592</td>
<td>Introduction to Graduate Study in Journalism and Mass Communication</td>
<td>R</td>
<td></td>
</tr>
<tr>
<td>JL MC 501</td>
<td>Theories of Mass Communication</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>JL MC 502</td>
<td>Communication Research Methods</td>
<td>4</td>
<td></td>
</tr>
<tr>
<td>JL MC 598</td>
<td>Seminars in Mass Communication</td>
<td>1-3</td>
<td></td>
</tr>
</tbody>
</table>

Each student selects elective courses based on his/her area of emphasis and career goal, in consultation with the student’s major professor and Program of Study Committee.

The Greenlee School graduate program offers minor work for students majoring in other departments. The M.S. minor requires:

JL MC 501, JL MC 510 and one other course in journalism and mass communication for a total of 9 credits taken within the Greenlee School.

Advertising Courses

Courses primarily for undergraduates:

ADVRT 230. Advertising Principles. (3-0) Cr. 3. F.S.
Historical, social, economic and legal aspects of advertising. Evaluations of advertising research, media, strategy, and appeals. Study of the creation of advertising campaigns.

ADVRT 301. Research and Strategic Planning for Advertising and Public Relations. (Cross-listed with JL MC). (3-0) Cr. 3. F.S. Prereq: ADVRT 230 or JL MC 220; Sophomore classification
The use of primary and secondary research for prospect analysis, market segmentation, positioning, strategic planning, public opinion formation, communication strategy formation and development of critical thinking skills.

ADVRT 334. Advertising Creativity. (2-2) Cr. 3. Prereq: C+ or better in JL MC 201; ADVRT 301/JL MC 301
Development and execution of creative advertising materials. Copywriting, art direction and computer applications for print, broadcast and digital media. Creative strategy development, execution and evaluation.

ADVRT 335. Advertising Media Planning. (3-0) Cr. 3. F.S. Prereq: ADVRT/JL MC 301
Concepts of media planning and selection in the development, execution and evaluation of advertising campaigns. Characteristics and capabilities of the advertising media. Utilization of market segmentation, consumer buying and media audience databases.

ADVRT 336. Advertising Account Management. (3-0) Cr. 3. Prereq: C+ or better in JL MC 201; ADVRT/JL MC 301
Fundamentals of account management with emphasis on leadership, sales techniques, relationship building, presentation skills, and strategic thinking. Includes aspects of agency revenue growth, team building, client management, evaluating creative concepts and media plans, and developing strategic proposals and campaign recommendations.

ADVRT 390. Professional Skills Development. (Cross-listed with JL MC). Cr. 1-3. Repeatable, maximum of 3 credits. Prereq: C+ or better in JL MC 201; other vary by topic. Instructor permission
Check School for course availability.

ADVRT 434. Advertising Campaigns. (3-0) Cr. 3. F.S. Prereq: ADVRT/JL MC 301; C+ or better in ADVRT 334 or ADVRT 336, and major status
Development of advertising campaigns for business and social institutions. Projects involve budgeting, media selection, market analysis, campaign strategy, and creative execution.

ADVRT 435. Advertising Competition. Cr. 1-3. Repeatable, maximum of 3 credits. S. Prereq: Permission of instructor, Junior/senior standing strongly recommended
Preparation of materials for regional and national competitions.

ADVRT 436. Advertising Portfolio Practicum. (2-2) Cr. 3. Prereq: C+ or better in ADVRT 334, instructor permission
Advanced advertising writing and design. Emphasis on creative strategy, problem solving and execution of creative materials in print, broadcast and on-line media for a variety of clients.

Seminars or one-time classes on topics of relevance to students in communication.

Journalism and Mass Communication Courses

Courses primarily for undergraduates:

JL MC 101. Mass Media and Society. (3-0) Cr. 3. F.S.
Communication models and their application to the mass media; the mass communication process; organization, characteristics and responsibilities of the mass media; media-related professional operations.

JL MC 110. Orientation to Journalism and Communication. (1-0) Cr. 1. F.S.
Orientation to career opportunities, emphasis areas and requirements in the Greenlee School. Basic media writing preparation. Passage of School’s English writing test required for successful course completion. Offered on a satisfactory-fail basis only.

JL MC 201. Reporting and Writing for the Mass Media. (1-4) Cr. 3. F.S. Prereq: ENGL 250 (or testout) and JL MC 110.
Generating story ideas, exercising news judgment and gathering information via interviews, observation and documentary sources to produce news and informational material for the mass media. Emphasis on analyzing and organizing information, as well as accuracy and principles of good writing. Use of AP Style.

JL MC 202. Intermediate Reporting and Writing for the Mass Media. (2-2) Cr. 3. F.S. Prereq: C+ or better in JL MC 201
Designed for students interested in writing for newspapers, magazines and online media. Enhancing and refining skills in developing sources and generating story ideas. Information-gathering techniques, reporting and writing. Includes segments on local government and judiciary.

JL MC 206. Reporting and Writing for the Electronic Media. (2-3) Cr. 3. F.S. Prereq: C+ or better in JL MC 201
Researching, organizing, and writing for radio, television and online media. Basic principles of news, information and entertainment programming. An emphasis on development, content and structure.

JL MC 220. Principles of Public Relations. (3-0) Cr. 3. F.S.
Introduction to public relations in business, government and non-profit organizations; functions, processes, and management; attitudes, public opinion and persuasion; overview of theory.

JL MC 301. Research and Strategic Planning for Advertising and Public Relations. (Cross-listed with ADVRT). (3-0) Cr. 3. F.S. Prereq: ADVRT 230 or JL MC 220; Sophomore classification
The use of primary and secondary research for prospect analysis, market segmentation, positioning, strategic planning, public opinion formation, communication strategy formation and development of critical thinking skills.
JL MC 305. Publicity Methods.
(3-0) Cr. 3. Prereq: ENGL 250. Sophomore classification
Communication and publicity fundamentals and the use of media for publicity purposes. Preparing releases for print and broadcast; basics of publication layout. Publicity campaigns. Not available to JL MC and Advrt majors.

(2-2) Cr. 3. F.S. Prereq: C+ or better in JL MC 201
Introduction to studio production using professional equipment. Course focus on visual concepts, maintenance and practical operation of studio equipment.

(2-3) Cr. 3. Prereq: C+ or better in JL MC 201.
Field techniques in single-camera video production used to shoot and edit visual stories. Introduction to electronic news gathering.

(2-1) Cr. 3. Prereq: C+ or better in JL MC 201
Emphasis on using the camera as a reporting tool to prepare content for all types of media. Covers basic photojournalism techniques, including camera operation, lighting, composition, editing software and workflow for print and digital publication. Audio techniques, editing and slideshow production. Ethical and legal issues involving photojournalism, as well as the history of photojournalism. Access to a digital SLR camera is required.

JL MC 312. Advanced Techniques in Photojournalism.
(3-0) Cr. 3. Prereq: JL MC 310 or permission of instructor
Advanced techniques and problem solving, both ethical and technical, for photographers who seek to be members of news-gathering teams. Photographic storytelling using a combination of audio and still photography techniques to report stories for print and web publications. Hands on experience with latest digital imaging technology. A digital SLR camera is required.

(2-2) Cr. 3. Prereq: JL MC 306 or JL MC 342L or JL MC 343L or equivalent computer design proficiency
Concepts and principles for evaluating, constructing, and designing information for the Web and other computer-mediated communication systems. Explores the use of computer-generated animation and graphics, audio and video. Issues of ethics and ownership of work pertinent to the new media are discussed.

JL MC 321. Public Relations Writing.
(2-3) Cr. 3. Prereq: C+ or better in JL MC 201; JL MC 220 or ADVRT 230.
Recommended: JL MC 342 and JL MC 342L or computer design proficiency. May be taken concurrently with JL MC 301.
Developing and writing public relations materials with an emphasis on media relations and news. Techniques addressed include media kits, brochures, newsletters and speeches.

(Dual-listed with JL MC 541). (3-0) Cr. 3. Prereq: Junior classification
Analysis of magazine industry and specific audiences served by print and online magazines. Editorial procedures and policies, advertising, circulation, and history of the industry. Individual study of magazines.

(3-0) Cr. 3. Prereq: Sophomore classification
Understanding of the visual message. Visual perception, visual communication theory, design syntax, design elements and how they are applied in journalism and mass communication.

JL MC 342L. Laboratory in Basic Visual Principles.
(2-2) Cr. 3. Prereq: Credit or enrollment in JL MC 342
Introduction to digital publishing, beginning techniques in layout. Application of visual principles to design simple print projects.

(2-2) Cr. 3. Prereq: JL MC 342L or equivalent computer design proficiency
Application of more advanced features of digital publishing and other document-enhancing software. Production of newsletters, multi-page brochures and other documents.

JL MC 344. Feature Writing.
(2-2) Cr. 3. F. Prereq: C+ or better in JL MC 202 or JL MC 206 or JL MC 321
Reporting and writing short- and long-form stories for magazines, newspapers, corporate communication and the Web. Focus on departmental stories, personal essays, trend or conflict articles and personality profiles. Emphasis on immersion reporting. Majors may not apply both 344 and Engl 303 toward graduation.

(2-2) Cr. 3. S. Prereq: C+ or better in JL MC 202 or JL MC 206 or JL MC 321
Reporting on government, business, and other institutions; identification of and access to public records; investigative reporting techniques; developing major stories on government and non-profit organizations, and issues for print and broadcast media.

JL MC 347. Science Communication.
(Dual-listed with JL MC 547). (2-2) Cr. 3. S. Prereq: C+ or better in JL MC 202 or JL MC 206 or JL MC 321 for JL MC majors; C+ or better in JL MC 201 and ADVRT 334 or ADVRT 336 for Advrt majors. Nonmajors and minors by permission of instructor
Reporting and writing about science and technology topics for general audiences. Outlets for stories include print, broadcast and online media. Story topics include reporting about basic, applied sciences and social sciences, as well as ethical, political and policy issues related to science and technology.

JL MC 349. Print Media Editing.
(1-5) Cr. 3. Prereq: C+ or better in JL MC 202 or JL MC 206 or JL MC 321
Grammar, punctuation, usage, syntax and logic. Editing newspaper, magazine and online copy. Headline, title writing and visual presentation. Use of computer editing programs.

(2-5) Cr. 3. Prereq: JL MC 208
Application of advanced television techniques: writing, producing, and managing live and recorded information programs.

(Cross-listed with ADVRT). Cr. 1-3. Repeatable, maximum of 3 credits. Prereq: C+ or better in JL MC 201; other vary by topic. Instructor permission
Check School for course availability.

(3-0) Cr. 3. Prereq: Junior classification
Theory and research in mass communication processes and effects; the scientific process; methods of measuring, evaluating and reporting mass communication research.

(Dual-listed with JL MC 506). (3-0) Cr. 3. Prereq: Junior classification
Decision-making functions of media. Basic media market analysis, media organization and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

(3-0) Cr. 3. Prereq: JL MC 220, JL MC 301, and C+ or better in JL MC 321; junior classification.
Developing public relations and corporate communication campaigns for business and social institutions.

JL MC 449. Advanced Print Media Editing.
(3-0) Cr. 3. S. Prereq: JL MC 342. JL MC 342L, JL MC 349 or concurrent enrollment; junior classification.
Developing higher-level editorial skills needed for issue-planning, editorial management and decision making. Designing, developing, and repositioning existing and new magazines, newspapers, and new media. Editing complex manuscripts, with continued emphasis on grammar, punctuation, usage, syntax and logic. Use of computer publishing programs. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Junior classification
Issues and policies affecting historical, contemporary and future developments of electronic media and their technologies.

(3-0) Cr. 3. Prereq: Junior classification
Evolution of motion picture and television content and other visual technologies. Theories and techniques for evaluating and critiquing film and video. Nonmajor graduate credit.

(3-0) Cr. 3. F.S. Prereq: C+ or better in JL MC 201; junior classification. Non-majors by permission of instructor.
First Amendment law, libel, privacy, obscenity, contempt, copyright, trademark, the Federal Communications Act; laws affecting advertising, legal publication, and other business activities of the media, including the Internet. Nonmajor graduate credit.
(3-0) Cr. 3. Prereq: junior classification
Role of the mass media, including advertising and public relations, in shaping the social, economic and political history of America; impact of change in these areas on the development, traditions, and philosophies of the media. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Junior classification
Media ethics and performance; functions of the media in relation to the executive, judicial and legislative branches of government; agencies of media criticism; right to know versus right to privacy.

A study of journalism’s impact on literary writing and literature’s impact on journalism, as seen through the works of such American author-journalists as Ernest Hemingway, Truman Capote, Joan Didion, John McPhee, Tom Wolfe, Hunter Thompson. Nonmajor graduate credit.

(Cross-listed with T SC). (3-0) Cr. 3. Prereq: Junior classification
Examination of historical and current communication technologies, including how they shape and are shaped by the cultural and social practices into which they are introduced. Meets International Perspectives Requirement.

(Dual-listed with JL MC 576). (3-0) Cr. 3. Prereq: Junior classification
World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information and entertainment content on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media, and computer-mediated systems. Meets International Perspectives Requirement.

JL MC 477. Ethnicity, Gender, Class and the Media.
(3-0) Cr. 3. Prereq: Junior classification
Portrayals of ethnic groups, genders, and classes in the media in news, information, and entertainment; the effects of mass media on social issues and population groups. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

Cr. arr. Prereq: Junior classification and contract with supervising professor to register
Independent studies are research-based. Students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a reportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. See Greenlee School Student Services Office for more information. No more than 3 credits of JL MC 490 may be used toward a degree in journalism and mass communication or advertising.

JL MC 497. Special Topics in Communication.
(Cross-listed with ADVRT). Cr. 1-3. Repeatable.
Seminars or one-time classes on topics of relevance to students in communication.

JL MC 499. Professional Media Internship.
Cr. 3. Prereq: JL MC majors, C+ or better in JL MC 202 or JL MC 206 or JL MC 321; Advrt majors, C+ or better in JL MC 201; ADVRT 301; All students, junior classification, formal faculty adviser approval of written proposal
Required of all JL MC and Advrt majors. A 400-hour internship in the student’s journalism and mass communication or advertising specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to JL MC and Advrt majors. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

(3-0) Cr. 3. F. Prereq: 6 credits in social science or admission to the graduate program
Examination of major areas of research activity and theoretical development related to organization, functions, and effects of mass communication.

(3-2) Cr. 4. S. Prereq: JL MC 501 or equivalent communication theory course
Research methods in journalism and mass communication, including problem selection, sampling, hypothesis formulation, research design, data collection and analysis. Designing a research strategy appropriate for a variety of communication-related questions and assessing the appropriateness, validity, and generalizability of research results.

JL MC 506. Media Management.
(Dual-listed with JL MC 406). (3-0) Cr. 3. S. Prereq: 6 credits in social science (economics highly recommended) or admission to the graduate program
Decision-making functions of media. Basic media market analysis, media organization and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

(3-0) Cr. 3. Prereq: JL MC 501
The process of developing professional communication and persuasion strategies, with emphasis on problem definition, behavioral objectives, situation analysis, strategy formulation, and justification through application of communication theories and research results.

(3-0) Cr. 3. Prereq: 6 credits in social science.
Theories and research methods applied to the study and practice of public relations.

(2-2) Cr. 3. Prereq: 6 credits in social science
Introduction to the study of picture-based media (film, television, photography, advertising, etc.). Exploration of theoretical concepts of vision and perception, visual literacy, visual language, visual persuasion/manipulations, and the cultural implications of visual images.

(Dual-listed with JL MC 341). (3-3) Cr. 3. Prereq: JL MC 502 or Instructor permission
Analysis of magazine industry and specific audiences served by print and online magazines. Editorial procedures and policies, advertising, circulation, and history of the industry. Roundtable on research literature.

JL MC 547. Science Communication.
(Dual-listed with JL MC 347). (2-2) Cr. 3. S. Prereq: C+ or better in JL MC 202 or JL MC 206 or JL MC 321 for JL MC majors; C+ or better in JL MC 201 and ADVRT 334 or ADVRT 336 for Advrt majors. Nonmajors and minors by permission of instructor
Reporting and writing about science and technology topics for general audiences. Outlets for stories include print, broadcast and online media. Story topics include reporting about basic, applied sciences and social sciences, as well as ethical, political and policy issues related to science and technology.

(3-0) Cr. 3. F. Prereq: Graduate standing. 6 graduate social science credits.
Study of risk communication principles, models and theories applicable to any risk communication situation. Emphasis on science, technology and risk issues encountered in e.g., food, agriculture and veterinary medicine. Examines roles of scientists and communicators in cultivating a public informed about scientific and technological issues.

(3-0) Cr. 3. F. Prereq: 6 credits in social science
Media functions in a democratic society; conflicts between the media and social institutions; ethical and social controls on the media.

JL MC 574. Communication Technologies and Social Change.
(Cross-listed with T SC). (3-0) Cr. 3. Prereq: 6 credits in social science
Personal, organizational, and social implications of the use of communication technologies. Includes theories and empirical research across the continuum of perspectives, from techno-utopianism through an anti-technology stance. Meets International Perspectives Requirement.

(Dual-listed with JL MC 476). (3-0) Cr. 3.
World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information and entertainment content on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media and computer-mediated systems. Meets International Perspectives Requirement.

JL MC 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of instructor
Courses for graduate students:

Cr. arr. Repeatable. Prereq: Approved thesis proposal

History

The History department offers courses leading to the B.A. and B.S. degrees in history, the M.A. degree in history, the M.A. and Ph.D. degrees in the history of technology and science, and the Ph.D. degree in agricultural history and rural studies.

The department offers a variety of survey courses (200 series) for first- and second-year students as either general education courses or as introductions to advanced courses in history or other subject areas. In addition to 200-level survey courses, it offers advanced undergraduate courses in the history of Europe, Asia, Africa, Latin America, the United States, technology and science, agriculture, and other selected topics.

Undergraduate Study

The History major. For a description of the undergraduate curriculum with a major in History see Liberal Arts and Sciences, Curriculum. History majors may earn either a bachelor of arts or bachelor of science degree. The minimum required for a major in history is 36 credits, of which at least 24 must be in courses numbered 300 or above. Students may take a maximum of 12 credits at the 200-level, a maximum of 15 credits at the 300-level, and must take a minimum of 12 credits at the 400-level or above. A minimum of 15 credits numbered 300 or above must be taken in residence at Iowa State. The department will accept a maximum of 6 credits of cross-listed courses originating in another teaching department toward the major degree.

Candidates for the B.A. must complete two years of university-level study in one foreign language or the equivalent.

Objectives for History Majors

1. Display the appropriate level of cognitive knowledge of historical themes and events based upon the student’s course of study
2. Display an understanding of past cultures and social organizations, based on the course of study
3. Develop the fundamental methodological skills of the historical craft:- The ability to contextualize and analyze primary source evidence.- Familiarity with the concepts of historical argument and interpretation, and the ability to formulate effective argumentation in written and oral forms.- Awareness of the basic historiography in selected research area.- The ability to conduct research and to write a historical essay based upon primary and secondary source research
4. Display a sophisticated understanding of the relationship between past events and the present. For purposes of outcomes assessment, all History majors must complete three credits of HIST 495 Historiography and Research Writing or, if qualified and willing, one graduate level writing/research seminar.

Communication Proficiency requirement: History majors must receive a grade of C or better in each of ENGL 150 and ENGL 250 (or ENGL 250H), and HIST 495 or any graduate seminar.

For a description of the major in History as preparation for professional programs, see Preprofessional Study. Students majoring in History may also earn a second major in International Studies; see Inter-national Studies.

Majors must distribute their courses across geographic and chronological areas such that they take at least 3 credits at the 300-level or above in five of the following six areas:

- U.S. history, European history, African/Asian/Latin American history
- Ancient history (pre-500), medieval and early-modern history (ca. 500-1750), and modern history (post-1750)

Individual courses may fulfill both a geographic and a chronological area. For example, a course on nineteenth century France may count as both European history and modern history. No single course, however, may be used to fulfill more than one geographic and one chronological area. If a course stretches significantly across two or more areas, students will select which geographic and/or which chronological area they want the course to fulfill. The History Department undergraduate adviser should be consulted as to which courses fulfill what areas. HIST 495 Historiography and Research Writing may not be used to fulfill any area.

Minor

The department offers a minor in History, which may be earned with 15 credits in History courses, of which at least 9 must be in courses numbered 300 or above,
excluding HIST 490 Independent Study. A minimum of 9 credits numbered 300 or above must be taken at Iowa State. The College of Liberal Arts and Sciences requires students to earn a C or higher in at least 6 of the required 300-level credits. A student may count a maximum of 3 hours of cross-listed courses originating in another teaching department toward the minor in History. The History minor is most frequently chosen by students majoring in Political Science, English, Journalism, Computer Science, and Business.

Graduate Study

Graduate students may take any 400-level history course except 490 and 495 for graduate credit. There is a maximum of 12 credits of 400-level courses for a graduate degree in history. Additional work is required for graduate credit in 400-level courses. Most history graduate courses are either proseminars or seminars. Proseminars acquaint students with the historical literature of a field and prepare them for careers in teaching and research. Seminars require students to conduct original historical research and to write research papers reporting the results.

The M.A. in history includes three optionsSee the departmental website on the M.A. in History for a full description of the options and requirements. An M.A. in History serves as the basis for continued study in history, as well as preparation for careers in law, education, business, and government service. For international students, a TOEFL score of 600 is required at the time of admission.

The Ph.D. in agricultural history and rural studies is designed as a Ph.D. program, but students without an M.A. in history will be expected to qualify for the departmental M.A. in history while progressing toward the doctorate. In some cases, the M.A. may be recommended as the terminal degree. Thirty semester hours of graduate credit are required for the M.A. and 72 for the Ph.D. Students who continue beyond the M.A. are expected to pass preliminary examinations in four areas of specialization, complete a dissertation, and defend it orally in the Ph.D. final examination. See the departmental website on the program for a full description of requirements.

Courses

Courses primarily for undergraduates:

HIST 201. Introduction to Western Civilization I.
(3-0) Cr. 3. F.
Western civilization from ancient Mediterranean world to 1500. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.
Meets International Perspectives Requirement.

HIST 202. Introduction to Western Civilization II.
(3-0) Cr. 3. S.
Western civilization from 1500 to present. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.
Meets International Perspectives Requirement.

HIST 207. Chinese Civilization.
(3-0) Cr. 3.
Origins, development, decline and transformation of China from earliest times to present.
Meets International Perspectives Requirement.

HIST 221. Survey of United States History I.
(3-0) Cr. 3-5. F.
Colonial foundations: revolution, confederation, and constitution; nationalization and democracy; sectional disunity, Civil War, and reunion.

HIST 222. Survey of United States History II.
(3-0) Cr. 3. S.
Industrialization; emergence as a great power; boom and depression; war, internationalism and Cold War; modern industrial society.

HIST 240. Latina/o History.
(3-0) Cr. 3.
Historical and cultural heritage of Latinas/os in the United States. The histories of Mexican, Puerto Rican, Cuban, and other Latin American peoples in the U.S. emphasizing political and cultural convergence and congruencies.
Meets U.S. Diversity Requirement.

HIST 280. Introduction to History of Science I.
(3-0) Cr. 3. F.
Ideas of nature from ancient Greece to the seventeenth-century scientific revolution. Meets International Perspectives Requirement.

HIST 281. Introduction to History of Science II.
(3-0) Cr. 3. S.
Science from seventeenth-century scientific revolution to Darwin and Einstein. Meets International Perspectives Requirement.

HIST 284. Wonders of the World, Ancient to Early Modern.
(3-0) Cr. 3. F.
Starting from the classical “Seven Wonders of the World,” examines machines, structures, buildings, innovations, and technologies from Sumer, Egypt, Greece, and Rome, through China, Latin America, and the Islamic world, up to Europe’s Industrial Revolution. Topics include developments in warfare and weaponry, architecture, agriculture, printing, religious ceremony, entertainment, and major engineering achievements.
Meets International Perspectives Requirement.

(3-0) Cr. 3. S.
Examines machines, structures, buildings, innovations, and technologies from the Industrial Revolution to the twenty-first century, including the US, Europe, Asia, and Middle East. Topics include developments in manufacturing, communication, electrification, automobiles, airplanes, warfare, computers, the atom bomb, and major engineering achievements.

HIST 304. Cultural Heritage of the Ancient World.
(Cross-listed with CL ST.) (3-0) Cr. 3. Prereq: Sophomore classification
Historical examination of art, literature, thought, and religious beliefs of major civilizations of the ancient Mediterranean countries until the end of the 8th century.

(3-0) Cr. 3. Prereq: Sophomore classification
Social practices, beliefs and material traits of everyday life in America from the mid-19th century to the present. Includes literature, music, theater and other entertainments. Dime novels, vaudeville, rock and roll music, Hollywood and establishment of professional athletic leagues are among the cultural artifacts and phenomena considered.

HIST 316. History of Medieval Europe, 300-1500.
(3-0) Cr. 3. Prereq: Sophomore classification
Survey of political, social, and cultural developments in western Europe for the entire medieval period, 300-1500.

(3-0) Cr. 3. Prereq: Sophomore classification
Survey of major themes in the social, political, cultural, and religious history of early modern European history, including agriculture and lordship, riot and rebellion, Reformations, overseas discovery, Scientific Revolution, and Enlightenment.

(3-0) Cr. 3. Prereq: Sophomore classification
Southern Europe and North Africa, sixth century to the present: political, social, and cultural developments, including economic development, trade, and interaction of cultures, with focus on the rise and decline of early modern Mediterranean states.

HIST 323. Science and Religion.
(Cross-listed with RELIG) (3-0) Cr. 3. Prereq: Sophomore classification
History of changing interplay of science and religion in our understanding of nature, from the trial of Galileo to the reception of Darwin.
Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: Sophomore classification
Social, cultural, demographic, and economic experiences. Religious Reformations. Growth of the State (and Empire) and political institutions.

HIST 336. History of Modern China I.
(3-0) Cr. 3. Prereq: Sophomore classification
China from 1644 to 1912; internal and external stimuli on traditional structure leading to reform and revolution.
Meets International Perspectives Requirement.

HIST 337. History of Modern China II.
(3-0) Cr. 3. Prereq: Sophomore classification
China from 1912 to present; search for a new order and continuing Chinese revolution.
Meets International Perspectives Requirement.
HIST 338. Modern Japanese History.  (3-0) Cr. 3. Prereq: Sophomore classification
Japan 1600 to the present; emphasis on transformation of feudal Japan into a post-
industrial society.  Meets International Perspectives Requirement.

HIST 339. US-Asian Relations.  (3-0) Cr. 3. Prereq: Sophomore classification
A survey of US-East Asian (Japan, China, Korea) relations from the late 18th century
to the end of the Cold War.  Meets International Perspectives Requirement.

HIST 340. History of Latin America I.  (3-0) Cr. 3. Prereq: Sophomore classification
Colonial Latin America from European discovery and colonization to wars for independence.

HIST 341. History of Latin America II.  (3-0) Cr. 3. Prereq: Sophomore classification
Modern Latin America national origins from 1800 to present.  Meets International Perspectives Requirement.

HIST 353. History of African Americans I.  (Cross-listed with AF AM).  (3-0) Cr. 3. Prereq: Sophomore classification
Examines African roots of black culture and the African American experience in the
United States from the colonial period through the Civil War.  Topics include
Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.  Meets U.S. Diversity Requirement

HIST 354. History of African Americans II.  (Cross-listed with AF AM).  (3-0) Cr. 3. Prereq: Sophomore classification
Explores African American political thought and political action from Reconstruction to the present.  Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.  Meets U.S. Diversity Requirement

HIST 355. Slavery and the Crisis of Union.  (3-0) Cr. 3. Prereq: Sophomore classification
Examines causes and primary events of the sectional crisis over slavery leading up to the Civil War.  Missouri Crisis through Presidential Election of 1860.

HIST 356. U.S. Civil War and Reconstruction.  (3-0) Cr. 3. Prereq: Sophomore classification
Political, military, and social aspects of the Civil War and Southern Reconstruction.  Secession crisis through Reunion.

HIST 360. U.S. 1900 to 1945.  (3-0) Cr. 3. Prereq: Sophomore classification
America in transition and crisis: Progressivism, World War I, the twenties, the Great Depression, and World War II.

HIST 361. U.S. 1945 to the Present.  (3-0) Cr. 3. Prereq: Sophomore classification
From the Cold War to the Baby Boom to the liberal swing of the 1960s, back to the conservative counter-swing thereafter.

HIST 365. History of American Agriculture I.  (3-0) Cr. 3. Prereq: Sophomore classification
American agricultural development from colonial times: European background, colonial period to 1865.

HIST 366. History of American Agriculture II.  (3-0) Cr. 3. Prereq: Sophomore classification
American agricultural development from 1865 to present.

HIST 367. Topics in American Agriculture.  (3-0) Cr. 3. Prereq: Sophomore classification
Thematic approach to the development of the American agricultural system.  Topics vary; examples include food and agriculture, animals in agriculture, and systems of production.

HIST 370. History of Iowa.  (3-0) Cr. 3. Prereq: Sophomore classification
Survey of major social, cultural and economic developments in Iowa from the late 1700s.  Emphasis on minority groups, pioneer life, early economic development, industrial development, educational and religious development, and outstanding personalities.

HIST 374. Women and Men in the Ancient Mediterranean World.  (Cross-listed with CL ST, W S).  (3-0) Cr. 3. S. Prereq: Any one course in CL St, W S, Latin, or Greek

History of women’s relationship to the fields of science, technology, and medicine, as students and professionals, consumers, subjects and patients, family members, workers and citizens.  Concentrates especially on 19th and 20th century United States, concluding with an examination of current issues of special interest to women in science, technology, and medicine.

HIST 383. Technology, Public Science, and European Culture, 1715-Present.  (3-0) Cr. 3. Prereq: Sophomore classification
A survey from the Age of Enlightenment to the end of the twentieth century of the relationship between science, technology, and public or popular culture in a comparative European context (including Russia and the former Soviet Union).  Meets International Perspectives Requirement.

HIST 386. History of Women in America.  (Cross-listed with W S).  (3-0) Cr. 3. Prereq: Sophomore classification
A survey of social, economic, and political aspects of women’s role from colonial era to present; emphasis on employment, education, concepts of sexuality, and changing nature of the home.  Meets U.S. Diversity Requirement

HIST 388. History of Modern Astronomy.  (3-0) Cr. 3. Prereq: Sophomore classification
Changing conception of the universe from Galileo to Edwin Hubble and beyond.

HIST 389. American Military History.  (3-0) Cr. 3. Prereq: Sophomore classification
American military history from the colonial wars to the present, including Revolutionary War, Mexican War, Civil War, First and Second World Wars, Korean War, Vietnam War, and Gulf Wars.  Meets International Perspectives Requirement.

HIST 390. World Military History.  (3-0) Cr. 3. Prereq: Sophomore classification
Covers military history from the Napoleonic era through the mid- and late-19th century wars, the First and Second World Wars, and wars of national liberation and regional conflicts since 1945.  Meets International Perspectives Requirement.

HIST 391. American Diplomatic History.  (3-0) Cr. 3. Prereq: Sophomore classification
A study of US foreign relations during the twentieth century, including the rise to global power, the First World War, diplomacy during prosperity and depression, the Second World War, the Cold War, relations with Latin America, East and South Asia, and Africa, the search for markets, and the perceptions of American foreign policy held by the US, its allies and adversaries, and others.

HIST 396. Topics in History.  (3-0) Cr. 3. Prereq: Sophomore classification or permission of instructor
Specialized topics in history; topics vary each time offered.

HIST 396A. Topics in History: Europe.  (3-0) Cr. 3. Prereq: Sophomore classification or permission of instructor
Specialized topics in history; topics vary each time offered.

HIST 396B. Topics in History: U.S. and North America.  (3-0) Cr. 3. Prereq: Sophomore classification or permission of instructor
Specialized topics in history; topics vary each time offered.

HIST 396C. Topics in History: Global.  (3-0) Cr. 3. Prereq: Sophomore classification or permission of instructor
Specialized topics in history; topics vary each time offered.

HIST 402. Greek Civilization.  (Cross-listed with CL ST).  (3-0) Cr. 3. Prereq: Sophomore classification
Ancient Greece from the Bronze Age to the Hellenistic period; evolution of the Greek polis and its cultural contributions, with a particular emphasis on the writings of Herodotus and Thucydides.  Nonmajor graduate credit.
HIST 403. Roman Civilization.
(Cross-listed with CL ST). (3-0) Cr. 3. Prereq: Sophomore classification
Ancient Rome from the Regal Period to the fall of the Western Empire; evolution of Roman institutions and Rome's cultural contributions studied through original sources. Nonmajor graduate credit.

HIST 404. Roman Social History.
(Cross-listed with CL ST). (3-0) Cr. 3. Prereq: Sophomore classification
Examines major topics in Roman social history during the late Republic and early Empire, such as class, family, slavery, religion, and the economy. Nonmajor graduate credit.

HIST 405. History of the Early Middle Ages.
(3-0) Cr. 3. Prereq: Sophomore classification
General coverage of political, economic, social, and cultural developments in early medieval Europe, 300-1000; in-depth coverage of particular issues and topics. Nonmajor graduate credit.

HIST 406. History of the High Middle Ages.
(3-0) Cr. 3. Prereq: Sophomore classification
General coverage of political, economic, social, and cultural developments in high medieval Europe, 1000-1300; in-depth coverage of particular issues and topics. Nonmajor graduate credit.

HIST 407. History of the Late Middle Ages.
(3-0) Cr. 3. Prereq: Sophomore classification
General coverage of political, social, and cultural developments of high medieval Europe, 1300-1500; in-depth coverage of particular issues and topics, including the medieval origins of Renaissance and Reformation. Nonmajor graduate credit.

HIST 408. Europe, 1500-1648.
(3-0) Cr. 3. Prereq: Sophomore classification
Northern Renaissance; Church and Luther; Protestant reform and Roman-Catholic counter-reform; social, cultural, and economic changes; Spain in triumph and decline; religious wars and emergence of France. Nonmajor graduate credit.

HIST 411. European Economic History, 1450-1789.
(3-0) Cr. 3. Prereq: Sophomore classification
Survey of major themes in European economic history, including property rights, agriculture, and rural economic development; lordship and its consequences; demography and urbanization; consequences of war and fiscal policy; colonial empires and world trade; and Agricultural and First Industrial Revolutions. Nonmajor graduate credit.

HIST 414. European Cultural and Intellectual History.
(3-0) Cr. 3. Prereq: Sophomore classification
A study of the development of key themes in European thought: nature, man, God, society, history, and creativity from Rousseau to Post-Modernism. Nonmajor graduate credit.

HIST 419. History of Modern France.
(3-0) Cr. 3. Prereq: Sophomore classification
From absolutism to revolution and the rise of modern democracy. Nonmajor graduate credit.

HIST 420. France's Revolutionary Century, 1715-1815.
(3-0) Cr. 3. Prereq: Sophomore classification
An in-depth investigation of the French Revolution, its causes and consequences, beginning in the Ancien Regime and ending with the fall of Napoleon. Nonmajor graduate credit.

HIST 421. History of Russia I.
(3-0) Cr. 3. Prereq: Sophomore classification
Russia to 1850. Origins of Russian people; Byzantine influences; Mongol invasion; rise of Moscow; Westernization. Nonmajor graduate credit. Meets International Perspectives Requirement.

HIST 422. History of Russia II.
(3-0) Cr. 3. Prereq: Sophomore classification
Russia since 1850. Reform and revolution; transformation of society; USSR as a world power; recent changes. Nonmajor graduate credit. Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: Sophomore classification
Course examines different forms and ideas of criminality and the nature and development of law enforcement in England between 1550 and 1856. Significant issues will include the nature of criminal records and statistics, the legal system, the politics of the law and its links with social relations, policing, female crime, juvenile delinquency, organized crime, riots, "social crime," and the treatment of crime in creative literary texts. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Sophomore classification
Explores the history of punishing criminals in England and shows how interdisciplinary perspectives, ideas, and practices of punishment are related to mentalities, and socio-economic change. Issues of significance examined: violence, civility, manners, madness, public punishment, execution, imprisonment, transportation, mercy, the rise of asylums, and penal reform. Nonmajor graduate credit.

(3-1) Cr. 3-4. Prereq: Sophomore classification
Study of London's social, economic, cultural, political, and environmental history 1500-1800, using both quantitative and qualitative methods to examine contemporary and secondary sources. Course combines standard lecture and discussion format with one week of intensive study abroad for 4th hour of course credit. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Sophomore classification
England since 1850. Parliamentary and constitutional development; social reform and economic change; imperial Britain; welfare state. Nonmajor graduate credit.

HIST 450. Colonial America.
(3-0) Cr. 3. Prereq: Sophomore classification
Exploration, colonization, and development of political, economic, religious, and cultural institutions of North American colonies before 1754. Topics also include social history, emergence of African-American slavery, relations with American Indians. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Sophomore classification
Participants, ideas, and events leading to independence and the foundation of the United States, 1754 to 1789. Topics include political, military, social, cultural history, also issues of gender and race relations. Nonmajor graduate credit.

HIST 456. The Great Plains.
(3-0) Cr. 3. Prereq: Sophomore Classification
History of the Great Plains from prehistoric period. Emphasis on agricultural and rural development, Native Americans, cattle ranching, land policy, agrarian reform movements and federal policy. Nonmajor graduate credit.

HIST 461. The Rural South.
(3-0) Cr. 3. Prereq: Sophomore classification
History of the American South from colonial period to present. Emphasis on economic, social, and political change in this rural region. Nonmajor graduate credit.

HIST 465. The American West.
(3-0) Cr. 3. Prereq: Sophomore classification
History of trans-Mississippian West from 1800 to present, concentrating on settlement and regional identity. Emphasis on the state, the environment, urbanization, agriculture, Native Americans, and minority communities. Nonmajor graduate credit.

HIST 468. History of Rural America.
(3-0) Cr. 3. Prereq: Sophomore classification
History of rural America from the colonial period to the present. Emphasizes immigration, ethnicity, religion, social and cultural change, and agriculture in relation to rural settlement, institution building, demographic change, gender, class, and political and economic development. Nonmajor graduate credit.

HIST 472. U. S. Environmental History.
(Cross-listed with ENV S). (3-0) Cr. 3. Prereq: Sophomore classification
Survey of the interactions of human communities with the North American environment. Focus on the period from presettlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies. Nonmajor graduate credit.

HIST 473. Civil Rights and Ethnic Power.
(3-0) Cr. 3. Prereq: Sophomore classification
Comparative history of the civil rights and ethnic power movements (Chicano movement, American Indian movement, Puerto Rican civil rights, Asian movement) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights. Nonmajor graduate credit. Meets U.S. Diversity Requirement.
HIST 474. Tradition and Transformation of China’s Foreign Affairs.  
(3-0) Cr. 3. Prereq: Sophomore classification.  
Evolution of China’s external relations from the antiquities to our own times;  
conceptions, practices, and relationships that characterized the inter-state relations of  
the so-called “Chinese world order,” interactions between “Eastern” and “Western,”  
and “revolutionary” and “conventional” modes of international behaviors. Nonmajor  
graduate credit.

HIST 479. China and the Cold War.  
(3-0) Cr. 3. Prereq: Sophomore classification.  
Important events in China’s Cold War involvement, connections between domestic  
and foreign affairs, factors and rationales in China’s foreign policy making the  
relationship between China’s Cold War experience and recent developments.  
Nonmajor graduate credit.

HIST 480. Field Experience for Secondary Teaching Preparation.  
Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area  
coordinator required prior to enrollment  
Observation and participation in a variety of school settings after admission to the  
teacher preparation program. (S/F grading may be used in some offerings of some  
sections.).

HIST 480A. Field Experience for Secondary Teaching Preparation: History/  
Social Sciences.  
(Cross-listed with CI). Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq:  
Permission of area coordinator required prior to enrollment  
Observation and participation in a variety of school settings after admission to the  
teacher preparation program. (S/F grading may be used in some offerings of some  
sections.).

HIST 482. Birth, Death, Medicine, and Disease.  
(3-0) Cr. 3. Prereq: Sophomore classification.  
History of medicine, sickness, and public health from ancient times to the twenty-first  
century in the US, Europe, and around the world. Topics include changing ideas of  
health and illness, development of doctors and hospitals, social and ethical issues in  
health care, and epidemics from cholera to AIDS. Nonmajor graduate credit.

HIST 488. American Stuff, Colonial Times to the Present.  
(3-0) Cr. 3. Prereq: Sophomore classification.  
Examines inventions, machines, innovations, artifacts, and material culture in the US,  
from homespun cloth and the Colt revolver through the transcontinental railroad and  
Model T, to the Big Mac and iPod. Nonmajor graduate credit.

HIST 490. Independent Study.  
(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 9 credits in history;  
permission of department chair.  
Reading and reports on problems selected in conference with each student. No more  
than 6 credits of Hist 490 may be counted toward graduation with a major in History.  
No credits of Hist 490 may count toward a minor in History.

HIST 495. Historiography and Research Writing.  
(3-0) Cr. 3. F.S. Prereq: Senior history majors with at least 12 credits of 300+ level  
history courses  
Variable topics seminar that focuses on historiographical and research skills and  
writing. Required of majors.

HIST 496. Advanced Topics in History.  
(3-0) Cr. 3. Prereq: Sophomore classification or permission of instructor.  
Specialized topics in history, topics vary each time offered.

HIST 496A. Advanced Topics in History: Europe.  
(3-0) Cr. 3. Prereq: Sophomore classification or permission of instructor.  
Specialized topics in history, topics vary each time offered.

HIST 496B. Advanced Topics in History: U.S. and North America.  
(3-0) Cr. 3. Prereq: Sophomore classification or permission of instructor.  
Specialized topics in history, topics vary each time offered.

HIST 496C. Advanced Topics in History: Global.  
(3-0) Cr. 3. Prereq: Sophomore classification or permission of instructor.  
Specialized topics in history, topics vary each time offered.

HIST 498. Methods of Teaching History/Social Sciences.  
(Cross-listed with C S). (3-0) Cr. 3. F.S. Prereq: Concurrent enrollment in HIST 480A;  
Admission to teacher education and 30 credits in subject-matter field  
Concurrent enrollment in 480A; Admission to teacher education and 30 credits in  
subject-matter field. Theories and processes of teaching and learning secondary  
history/social sciences. Emphasis on development and enactment of current  
methods, assessments, and curriculum materials for providing appropriate learning  
experiences.

Courses primarily for graduate students, open to qualified undergraduates:

HIST 510. Proseminar in East Asian History.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in East Asian history. Topics vary each time offered.

HIST 511. Proseminar in American History.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in American history. Topics vary each time offered.

HIST 511A. Proseminar in American History: Colonial Period.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in American history. Topics vary each time offered.

HIST 511B. Proseminar in American History: Nineteenth Century.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in American history. Topics vary each time offered.

HIST 511C. Proseminar in American History: Twentieth Century.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in American history. Topics vary each time offered.

HIST 511D. Proseminar in American History: Environment.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in American history. Topics vary each time offered.

HIST 511E. Proseminar in American History: Social and Cultural.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in American history. Topics vary each time offered.

HIST 512. Proseminar in European History.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in European history.

HIST 512A. Proseminar in European History, Ancient.  
(Cross-listed with CL ST). (3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in European history.

HIST 512B. Proseminar in European History: Medieval and Early Modern.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in European history.

HIST 512C. Proseminar in European History: Modern.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in European history.

HIST 513. Proseminar in Latin American History.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in Latin American history. Topics vary each time offered.

HIST 530. Proseminar in Modern Russian/Soviet History.  
(3-0) Cr. 3. Repeatable. Prereq: HIST 422.  
Readings in modern Russian history. Topics vary each time offered.

HIST 550. Proseminar in European Rural and Agricultural History.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.  
Readings in European rural and agricultural history.

HIST 550A. Proseminar in European Rural and Agricultural History: Modern European Rural Life.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.

HIST 550B. Proseminar in European Rural and Agricultural History: Twentieth Century Europe.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.

HIST 552. Proseminar in American Rural and Agricultural History.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.

HIST 552A. Proseminar in American Rural and Agricultural History: American Agriculture.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.

HIST 552B. Proseminar in American Rural and Agricultural History: Agrarian Reform Movements.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.

HIST 552C. Proseminar in American Rural and Agricultural History: Midwestern Rural Society.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.

HIST 552D. Proseminar in American Rural and Agricultural History: Women in Rural Life.  
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor.
HIST 575. Seminar in General History of Technology.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Permission of instructor
The history of technology with emphasis on the historical literature, differing interpretations of major problems, and problems identified for college-level teaching and for further scholarly research.

HIST 583. Historical Methods.
(3-0) Cr. 3. Study of evidence, theory, and methods.

HIST 583A. Historical Narrative.
(3-0) Cr. 3. Prereq: Permission of instructor.
Study of evidence, theory, and methods.

HIST 583B. Historical Methods: Statistical Evidence and Analysis.
(3-0) Cr. 3. Prereq: Permission of instructor.
Study of evidence, theory, and methods.

HIST 583C. Issues in Historiography.
(3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: Permission of instructor.
Study of evidence, theory, and methods.

HIST 586. Proseminar in Women’s History and Feminist Theory.
(Cross-listed with W S). (3-0) Cr. 3. Prereq: Permission of instructor
Feminist theory from the 1960s to the present as it relates to the writing of women’s history. Analysis of interpretations of U.S. women’s history from patriarchal to postmodernist perspectives.

HIST 590. Special Topics.
Cr. 1-3. Repeatable. Prereq: Permission of instructor

HIST 593. Seminar in American History.
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Topics vary each time offered.

HIST 593A. Seminar in American History: Colonial Period.
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Topics vary each time offered.

HIST 593B. Seminar in American History: Nineteenth Century.
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Topics vary each time offered.

HIST 593C. Seminar in American History: Twentieth Century.
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Topics vary each time offered.

HIST 593D. Seminar in American History: Environmental.
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Topics vary each time offered.

HIST 594. Seminar in European History.
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Topics vary each time offered.

HIST 594A. Seminar in European History: Ancient.
(Cross-listed with CL ST). (3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Topics vary each time offered.

HIST 594B. Seminar in European History: Medieval and Early Modern.
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Topics vary each time offered.

HIST 594C. Seminar in European History: Modern.
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Topics vary each time offered.

Courses for graduate students:

HIST 610. Seminar on American Rural Life.
(3-0) Cr. 3. Prereq: Permission of instructor
Emphasis varies each time offered.

HIST 699. Research.
Cr. 1-6. Repeatable. Graduate student thesis research.

International Studies

The program of study is designed to reflect opportunities at Iowa State University as well as the academic, intellectual, and professional interests of the student.

Secondary Major
A student seeking a secondary major in International Studies must successfully complete two core courses plus courses in a selected Geographical Region and Topical Module; demonstrate proficiency in a language relevant to the selected geographic region (see below); and participate in a required study, service, or work abroad program (see below).

International Studies Core Courses:
INTST 235 Introduction to International Studies
INTST 430 Seminar in International Studies

Geographic Region:
Students must complete 9 credits of coursework (at least 6 of which are numbered 300 or above) from one of the following regions:
• Africa and the Middle East
• Asia
• Latin America
• Western Europe
• Russia, East Europe and Central Asia

Topical Module:
Students must complete 9 credits of coursework (at least 6 of which are numbered 300 or above) from one of the following topics:
• Global Environmental Issues
• Globalization and Economic Development
• International Issues in Science and Technology
• International Communication
• International Conflict
• Social and Cultural Change

The major must include a minimum of 12 credits not used to meet any other department, college, or university requirement.

Minor
A student seeking a minor in International Studies must successfully complete two core courses plus courses in a selected Geographical Region and Topical Module; demonstrate proficiency in a language relevant to the selected geographic region (see below); and participate in a required study, service, or work abroad program (see below).

International Studies Core Courses:
INTST 235 Introduction to International Studies
INTST 430 Seminar in International Studies

Geographic Region:
Students must complete 6 credits of coursework (at least 3 of which are numbered 300 or above) from one of the following regions:
• Africa and the Middle East
• Asia
• Latin America
• Western Europe
• Russia, East Europe and Central Asia

Topical Module:
Students must complete 6 credits of coursework (at least 3 of which are numbered 300 or above) from one of the following topics:

- Global Environmental Issues
- Globalization and Economic Development
- International Issues in Science and Technology
- International Communication
- International Conflict
- Social and Cultural Change

The minor must include a minimum of 9 credits not used to meet any other department, college, or university requirement.

Language Proficiency
Students with a major or minor in International Studies fulfill the Language Proficiency requirement through one of the following options:

- Completion of two years of university-level language instruction in a single world language that is relevant to the selected geographic region, as demonstrated by completion of a foreign language course numbered 202 or higher. Students whose first language is not English must still meet this requirement if their first language is not relevant to their selected geographic region.
- Passing an examination given by the Department of World Languages and Cultures in a language other than English. Students proficient in languages not offered at ISU may petition for special consideration.
- Intensive study abroad experience that includes in-the-field-use of a language other than English. Individual prior approval of the International Studies Director is required for this option.

Study/Service/Work Abroad Experience
Students with a major or minor in International Studies are required to complete an international experience (study, service, or internship) of a minimum of three weeks in duration. Longer experiences are recommended but not required. Up to 12 credits of coursework taken abroad can be applied to the major if it is approved by the International Studies Program Director.

Liberal Arts and Sciences Cross-Disciplinary Studies
Cross-disciplinary studies in the College of Liberal Arts and Sciences encompass a variety of interdisciplinary and cross-disciplinary areas of study as well as courses that cross established departmental lines. Students may enroll in Program courses; declare majors or minors where offered, or develop an Interdisciplinary Studies major built upon Program offerings. Certificates are also available as separate foci of studies beyond a student’s major or minor. (see Index for Program courses).

Cross-Disciplinary Programs
African and African American American Studies Program
(Minor only) African and African American Studies (p. 462)

American Indian Studies Program
(Minor only) American Indian Studies (p. 470)

Biological/Premedical Illustration Program
(Major or minor) Biological/Pre-Medical Illustration (p. 477)

Classical Studies
(Minor only) Classical Studies (p. 486)

Communication Studies
(Major or minor) Communication Studies (p. 488)

Criminal Justice Studies
(Minor only) Criminal Justice Studies (p. 498)

Environmental Science
(Major or minor) Environmental Science (p. 522)

Environmental Studies
(Secondary minor or major) Environmental Studies (p. 528)

Honors Program in Liberal Arts and Sciences
Honors Program (p. 697)

Interdisciplinary Studies Program (Major only)
(Degree Tracks: Criminology and Criminal Justice Studies; Classical Studies) Interdisciplinary Studies (p. 695)

International Studies Program
(Second major or minor) International Studies (p. 554)

Linguistics Program
(Major or minor; graduate minor) Linguistics (p. 558)

Premeical and Preprofessional Health Programs
Preprofessional Study (p. 37)

Sustainability Program
(Minor only) Interdisciplinary Minor in Sustainability (http://www.las.iastate.edu/sustainability)

Teacher Education Program
Teacher Education (p. 27)

Technology and Social Change
(Minor, graduate minor) Technology and Social Change (p. 703)

U.S. Latino/a Studies Program
U.S. Latino/a Studies is devoted to the study of Mexican Americans, Puerto Ricans, Cuban Americans and other groups of people living in the United States who trace their ancestry to the Spanish-speaking countries of Latin America, and who comprise the fastest growing ethnic groups in America. U.S. Latino/a Studies is to be distinguished from Latin American Studies, which focuses on people living in Latin America. The methodology of U.S. Latino/a Studies is cross-disciplinary, drawing from the methods established in anthropology, sociology, political science, economics, history, literary studies, and other fields.

In addition to the general requirements of a major in Interdisciplinary Studies, a major in Interdisciplinary Studies focusing on U.S. Latino/a Studies would require the completion of 24 credits related to U.S. Latino/a Studies such course to be approved by the program director. At least 15 of the 24 credits must be in courses numbered 300 and above. These 24 credits in the major focusing on U.S. Latino/a Studies must include the following courses, each of which is worth three credits:

- LAS 211 (Introduction to Latino/a Studies), Hist 240 (Latino/a History), Soc 332 (The Latino/Latina Experience in U.S. Society), and Hist 345 (U.S. Immigration). The student must have an average grade of C in the required courses of the major. Fulfillment of the foreign language requirement with Spanish is strongly recommended, but not required. For a list of other eligible courses and more information on the U.S. Latino/a Studies Program, contact the program director, Dr. Loreto Prieto.

Women’s and Gender Studies Program
(Major or minor) Women’s and Gender Studies Program (http://catalog.iastate.edu/collegeofliberalartsandsciences/womens_studies)

Certificate Programs
Community Leadership and Public Service
(Certificate only) Community Leadership and Public Service Certificate (p. 704)

Latin American Studies
(Certificate only) Latin American Studies Certificate (http://www.las.iastate.edu/international-study-abroad/latin-american-studies-certificate)

Courses
Courses primarily for undergraduates:

**LAS 101. Orientation for Open Option and Preprofessional Students.**
(1-0) Cr. 0.5. F.S.
First 8 weeks. Self-responsibility and university procedures. LAS general education requirements, ISU departments and programs, time management, academic study skills, adjustment to the university environment. Required of all first year students in the Open Option and Preprofessional Health Programs. Offered on a satisfactory-fail basis only.

**LAS 103. Frontiers of the Discipline.**
(1-0) Cr. 1. S.
Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

**LAS 103A. Frontiers of the Discipline: General.**
(1-0) Cr. 1. S.
Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

**LAS 103B. Frontiers of the Discipline: Humanities.**
(1-0) Cr. 1. S.
Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

**LAS 103C. Frontiers of the Discipline: Communication.**
(1-0) Cr. 1. S.
Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

**LAS 103D. Frontiers of the Discipline: Mathematics and Natural Sciences.**
(1-0) Cr. 1. S.
Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

**LAS 103E. Frontiers of the Discipline: Social Sciences.**
(1-0) Cr. 1. S.
Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only.

**LAS 125. Connections.**
(1-0) Cr. 1. F. Prereq: First year student
Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 125A. Connections: General.**
(1-0) Cr. 1. F. Prereq: First year student
Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 125B. Connections: Humanities.**
(1-0) Cr. 1. F. Prereq: First year student
Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 125C. Connections: Communication.**
(1-0) Cr. 1. F. Prereq: First year student
Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 125D. Connections: Mathematics and Natural Sciences.**
(1-0) Cr. 1. F. Prereq: First year student
Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 125E. Connections: Social Sciences.**
(1-0) Cr. 1. F. Prereq: First year student
Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 140. Advancing Citizenship Together Learning Community Seminar.**
(1-0) Cr. 1. Repeatable, maximum of 2 credits.
First semester of required seminar for participants in the ACT (Advancing Citizenship Together) Learning Community. Builds citizenship skills with a focus on women's issues and politics, and includes a service-learning component. Offered on a satisfactory-fail basis only.

**LAS 170. Leadership ISU.**
(0-2) Cr. 1. F. Prereq: Freshman or sophomore classification
An introductory leadership course for first-year and second-year students. Students will gain a basic understanding of leadership skill development and resources available to student leaders at Iowa State University. Course content will be delivered through a variety of methods such as guest speakers, team building exercises, and small group discussions. Students will be expected to complete several out of class assignments to apply the leadership skills they have learned. Offered on a satisfactory-fail basis only.

**LAS 201. Professional Employment Preparation.**
(1-0) Cr. 1. Prereq: 2nd semester freshman or transfer student within the College of Liberal Arts and Sciences.
Exploration, development, and practice of techniques utilized to develop and implement a comprehensive career plan and conduct a professional internship or employment search with emphasis on preparing resumes, cover letters, application materials, interviewing techniques, and overall professional behaviors throughout the recruiting process. Offered on a satisfactory-fail basis only.

**LAS 211. Introduction to U.S. Latino/a Studies.**
(3-0) Cr. 3. S.
In this course, students learn about the history and current lives of the Latino/a peoples in the United States, including Mexican, Cuban, Puerto Rican, Dominican, and South and Central Americans. Students will also learn information specific to Iowa Latino/as. Through readings, class discussions, writing assignments, guest speakers and community-based learning, students will acquire accurate information and a solid understanding of US Latino/as. Students will cover elements of Latino/a culture including historical, sociological, educational, psychological, economic, and political facets.
Meets U.S. Diversity Requirement
LAS 291. Service Learning. Cr. 1-4. Repeatable, maximum of 6 credits. Prereq: Permission of the dean of the College of Liberal Arts and Sciences 
Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Offered on a satisfactory-fail basis only.

LAS 291A. Service Learning: General. Cr. 1-4. Repeatable, maximum of 6 credits. Prereq: Permission of the dean of the College of Liberal Arts and Sciences 
Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Offered on a satisfactory-fail basis only.

LAS 291B. Service Learning: U.S. Diversity Project. Cr. 1-4. Repeatable, maximum of 6 credits. Prereq: Permission of the dean of the College of Liberal Arts and Sciences 
Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Offered on a satisfactory-fail basis only.

LAS 291C. Service Learning: International Perspectives Project. Cr. 1-4. Repeatable, maximum of 6 credits. Prereq: Permission of the dean of the College of Liberal Arts and Sciences 
Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Offered on a satisfactory-fail basis only.

LAS 298. Internship/Co-op. Cr. R. F.S.SS. Prereq: Permission of Liberal Arts and Sciences Career Services; sophomore classification 
Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student status. Offered on a satisfactory-fail basis only.

LAS 322. Leadership Styles and Strategies in a Diverse Society. (3-0) Cr. 3. Prereq: Sophomore classification 
Developing and practicing leadership skills through understanding personal leadership styles, leadership theory and communication theory, including how they relate to gender issues and cultural diversity; exploring personality types, communication styles, and leadership styles, networking and developing mentoring relationships; setting goals and participating in leadership opportunities and service. Meets U.S. Diversity Requirement

LAS 325. Introduction to Asian American Studies. (3-0) Cr. 3. 
A survey of the peoples in the United States who trace their origins to Asia, focusing primarily on the experiences of Chinese, Japanese, Korean, Filipino, South Asian and Pacific Islander Americans. Study and discussion of history, culture, literature, social relations, and political participation of these groups, with assigned readings, writings, and in-class presentations. Meets U.S. Diversity Requirement

LAS 350. Topics in Interdisciplinary Studies. (3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

LAS 350A. Topics in Interdisciplinary Studies: Interdisciplinary. (3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

LAS 350B. Topics in Interdisciplinary Studies: Humanities. (3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

LAS 350C. Topics in Interdisciplinary Studies: Mathematics and Nature Science. (3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

LAS 350D. Topics in Interdisciplinary Studies: Social Sciences. (3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

LAS 385. The Holocaust. (3-0) Cr. 3. F.S.SS. 
An examination of the religious, social, scientific, and historical contexts for the Nazi destruction of European Jewry. Topics covered include anti-Semitism, German volkish philosophy, eugenics, World War II, the Final Solution, rescuers, and contemporary issues. Meets International Perspectives Requirement.

LAS 398. Internship/Co-op. Cr. R. F.S.SS. Prereq: Permission of Liberal Arts and Sciences Career Services; junior classification 
Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student status.

LAS 490. Independent Study. Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: Permission of the instructor for LAS 490G; other topics need: permission of the dean of the College of Liberal Arts and Sciences 
No more than 9 credits of LAS 490 may be applied toward graduation.

LAS 490A. Independent Study: General. Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: Permission of the instructor for LAS 490G; other topics need: permission of the dean of the College of Liberal Arts and Sciences 
No more than 9 credits of LAS 490 may be applied toward graduation.

LAS 490E. Independent Study: Entrepreneurial Studies. Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: Permission of the instructor for LAS 490G; other topics need: permission of the dean of the College of Liberal Arts and Sciences 
No more than 9 credits of LAS 490 may be applied toward graduation.

LAS 491. Service Learning. Cr. 1-4. F.S.SS. Prereq: Permission of the dean of the College of Liberal Arts and Sciences 
Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading.

LAS 491A. Service Learning: General. Cr. 1-4. F.S.SS. Prereq: Permission of the dean of the College of Liberal Arts and Sciences 
Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Meets U.S. Diversity Requirement

LAS 491B. Service Learning: U.S. Diversity Project. Cr. 1-4. F.S.SS. Prereq: Permission of the dean of the College of Liberal Arts and Sciences 
Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Meets International Perspectives Requirement

LAS 491C. Service Learning: International Perspectives Project. Cr. 1-4. F.S.SS. Prereq: Permission of the dean of the College of Liberal Arts and Sciences 
Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading. Meets International Perspectives Requirement

LAS 498. Internship/Co-op. Cr. R. F.S.SS. Prereq: Permission of Liberal Arts and Sciences Career Services; senior classification 
Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student status.

LAS 499. Internship. Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of Liberal Arts and Sciences Career Services 
Work experience in professional setting appropriate to the student's degree program. Academic work under faculty supervision may include written projects, reports, and guided reading.

Liberal Studies

The bachelor of liberal studies degree (B.L.S.) was established by the three Iowa Regents universities to meet the needs of Iowans who want to earn a college degree but whose circumstances present obstacles to completing a traditional on-campus degree program. The degree may be earned from Iowa State University, the University of Iowa, or the University of Northern Iowa.

The B.L.S. is a general studies degree in the liberal arts. There is no traditional major. Instead, students take coursework in three areas of distribution. These areas
may be focused in a single discipline or diversified over several disciplines. With the assistance of a B.L.S. adviser, students can structure a program that meets their individual educational, vocational or personal goals.

Up to three-fourths of the total degree requirements can be transferred from accredited institutions. Work done in community colleges or other accredited colleges and universities can be applied toward the degree, as can applicable courses taken at any of the three Iowa Regent universities, whether on or off campus.

The B.L.S. program has no residence requirements. To complete the degree, students may earn credits through distance-learning formats as well as regular on-campus courses. Students may also earn credits by proficiency or test-out examinations.

**Admission**

Admission to the B.L.S. program is open to persons who meet either of the following levels of previous educational attainment:

Hold the associate in arts (A.A.) or associate in science (A.S.) degree from an accredited two-year college. (Holders of the associate in applied science or associate in applied arts degree are not automatically eligible, although some courses may be found applicable upon review.)

Have at least 60 semester credits of collegiate work acceptable toward graduation at ISU with a total cumulative grade point average of at least 2.00 (a C average).

**Requirements for the B.L.S. Degree**

The B.L.S. candidate must earn a total of 120 credits in accordance with requirements listed below. Courses taken at Iowa State University on a pass/not pass basis may be counted toward graduation only as electives. No more than 9 credits of 490 (Independent Study) courses in a single discipline may be counted toward graduation.

**General Education Requirements 46 cr.**

*The requirement may be met by completion of three or more years of high school study in one world language. A list of courses acceptable in the general education groups can be obtained from the college office.

**A minimum of 12 credits is required in each of the five distribution areas listed below.

**Humanities** (literature, philosophy, history, religion, art and music appreciation)

**Communications and arts** (journalism, speech, writing, drama, art, world language)

**Natural sciences and mathematical disciplines** (chemistry, physics, biology, geological and atmospheric sciences, mathematics, statistics, computer science)

**Social sciences** (sociology, psychology, economics, political science, anthropology, geography)

**Professional fields** (business, education, family and consumer sciences, social work, agriculture, engineering, nursing)

At least 24 upper-level credits are required in the three distribution areas with a minimum of 6 upper-level credits in each of the areas.

**Other Requirements**

Included in the total of 120 credits must be the following:

45 upper-level credits from a four-year college

30 credits from ISU earned during the junior/and or senior year.

Three credits of course work in U.S. Diversity and 3 credits in International Perspectives.

A grade average of at least 2.00 (a C average) in all coursework applied to the B.L.S. degree, in all upper-level coursework, and in all work completed after admission to the B.L.S. program.

Proficiency in communication demonstrated by completion of an approved composition course from a four-year college.

---

**Linguistics**

*(Interdepartmental Program)*

**Undergraduate Study**

Linguistics is a cross-disciplinary program in the College of Liberal Arts and Sciences designed to meet the needs of students interested in various aspects of language—its structure, history, varieties, meanings, and uses. The program includes courses in anthropology, communication disorders, computer science, English, psychology, and speech communication and world languages and cultures, thus providing a multidisciplinary approach to the study of human language.

Courses in linguistics serve as background for students interested in any career that involves working with language, such as teaching English both as a first and as a second language, second language studies, psycholinguistics, cross-cultural communication, linguistic anthropology, computational linguistics, speech-language pathology, and audiology.

In the College of Liberal Arts and Sciences, courses in linguistics can be applied as electives or as part of the group requirements. They may also be used in a minor or in a major.

Majors in linguistics complete a minimum of 36 hours in linguistics with a grade of C or better in each linguistics course. Courses specifically required are:

Additional courses in linguistics are available through study abroad, especially LING 396X. Majors in linguistics must show proficiency in a foreign language equivalent to that achieved after two years of university-level study. Alternatively, majors in linguistics can demonstrate university-level study in two foreign languages of at least one year each.

See also the 4-year plan grid for Linguistics showing courses by semester. (https://nextcatalog.registrar.iastate.edu/planofstudy/liberalartsandsciences/#linguisticsba)

Minors in linguistics are individually tailored to the interests of the student, who consults with the linguistics adviser to develop the minor program of study. All minors must have a minimum of 15 credits in linguistics, of which 6 must be in courses numbered over 300. All programs must include LING 219 Introduction to Linguistics. Communication Proficiency requirement: The linguistics program requires grades of C+ or better in each of the following:

- ENGL 150 Critical Thinking and Communication 3
- ENGL 250 Written, Oral, Visual, and Electronic Composition 3
- or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors 3
- LIB 160 Information Literacy 1

Continuing ENGLISH Proficiency is based on one course from ENGL 305, ENGL 314, a WLC 370-379 course, or a CL ST 370-379 course.

For information about using linguistics courses in an interdisciplinary studies major, see Liberal Arts and Sciences, Cross-Disciplinary Studies.

Graduate Study

A graduate minor in linguistics permits students to investigate various aspects of linguistics, emphasizing the ability to think about language in a systematic and disciplined way and to apply the methods of the field to research problems in their own disciplines. Graduate courses for the minor may be cross-listed with courses in Anthropology, Communication Disorders, Computer Science, English, Psychology, and World Languages and Cultures.

For the master’s degree, a declared minor consists of 9 credits in linguistics including two foundation courses:

- LING 511 Introduction to Linguistic Analysis 3
- One of the following: 3
  - LING 514 Sociolinguistics
  - LING 527 Discourse Analysis
  - LING 537 Advanced Grammatical Analysis: Social, Individual, and Empirical Perspectives

And one elective from the list of courses approved for graduate credit 3

Total Credits 9

For the Ph.D. degree, the minor consists of 12 credits in linguistics including:

- LING 511 Introduction to Linguistic Analysis 3
- LING 527 Discourse Analysis 3
- LING 537 Advanced Grammatical Analysis: Social, Individual, and Empirical Perspectives 3

And one elective from the list of courses approved for graduate credit 3

Total Credits 12

Additional courses beyond those listed below may be used as electives. The chair of the supervisory committee can provide information about these.

At least one member of the linguistics faculty will serve on a student’s program of study committee. A list of faculty members may be obtained from the Linguistics program website. Ph.D. candidates will write one section of the preliminary examination on an area of linguistics. Students in Teaching English as a Second Language/Applied Linguistics are not eligible for a graduate minor in linguistics.

Courses

Courses primarily for undergraduates:

LING 101. Introduction to the Study of Linguistics. (1-0) Cr. 1. S.

LING 119. Introduction to World Languages. (Cross-listed with WLC). (3-0) Cr. 3.

Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and language use, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy. Meets International Perspectives Requirement.

LING 120. Computers and Language. (Cross-listed with ENGL). (3-0) Cr. 3.

Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques and systems used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.

LING 207. Introduction to Symbolic Logic. (Cross-listed with PHIL). (3-0) Cr. 3. S.

Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Linguistics majors should take LING/PHIL 207 as early as possible.

LING 219. Introduction to Linguistics. (Cross-listed with ENGL). (3-0) Cr. 3. S.

Survey of nature, causes, and types of major communication disorders including phonological, adult and child language, voice, cleft palate, fluency, and hearing disorders.

LING 226. Communicating with the Deaf. (Cross-listed with CMDIS). (3-0) Cr. 3.

Learn to communicate with the deaf using Signed English and Signed Pidgin English. Other topics covered include types, causes, and consequences of hearing loss, hearing technology (hearing aids, assistive listening devices, and cochlear implants), education of hearing-impaired children, Deaf culture, and the history of manual communication. Meets U.S. Diversity Requirement.

LING 250. Language, Thought and Action. (Cross-listed with SP CM). (3-0) Cr. 3.

Overview of grammatical structures and functions. Parts of speech; phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

LING 275. Introduction to Communication Disorders. (Cross-listed with CMDIS). (3-0) Cr. 3.

Study of symbolic processes and how meaning is conveyed in words, sentences, and utterances; discussion of modern theories of meaning; and an exploration of relationships among language, thought and action. Nonmajor graduate credit.

LING 305. Language, Thought and Action. (Cross-listed with CMDIS). (3-0) Cr. 3.

Introduction to study of language, culture and society from an anthropological perspective. Focus on language and thought, ethnography of speaking, discourse and narrative, writing and literacy, and media communication. Discussion of key theories and methods of linguistic anthropology. Meets International Perspectives Requirement.

LING 331. Theory of Computing. (Cross-listed with COM S). (3-1) Cr. 3. F.S. Prereq: ANTHR 201 recommended

LING 352. Introduction to Spanish Phonology. (Cross-listed with SPAN). (3-0) Cr. 3. F.S. Prereq: SPAN 301, SPAN 303 or SPAN 304

LING 354. Introduction to Spanish-English Interpretation. (Dual-listed with LING 554). (Cross-listed with SPAN) (3-0) Cr. 3. F.S. Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

LING 371. Phonetics and Phonology. (Cross-listed with CMDIS) (3-0) Cr. 3. Prereq: ENGL 219
Analysis of speech through study of individual sounds, their variations, and relationships in context; English phonology; practice in auditory discrimination and transcription of sounds of American English; description of speech sounds in terms of their production, transmission, and perception.

LING 413. Psychology of Language. (Cross-listed with PSYCH) (3-0) Cr. 3. Prereq: PSYCH 101
Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes. Nonmajor graduate credit.

LING 420. History of the English Language. (Cross-listed with ENGL) (3-0) Cr. 3. F.S. Prereq: ENGL 219 or LING 219, ENGL 220 or LING 220
Comparison of English to other languages by family background and by type. Analysis of representative Old, Middle, Early Modern and present-day English texts, including both literary works and non-literary documents. Nonmajor graduate credit.

LING 422. Women, Men, and the English Language. (Cross-listed with ENGL, W S) (3-0) Cr. 3. S. Prereq: ENGL 219 or LING 219
The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

LING 425. Second Language Learning and Teaching. (Cross-listed with ENGL) (3-0) Cr. 3. F.S. Prereq: ENGL 219 or LING 219; junior classification
The process of second language learning and principles and techniques of teaching second languages. Learning and teaching in specific situations and for particular purposes. Current applications of technology in teaching and assessment. Nonmajor graduate credit.

LING 437. Grammatical Analysis. (Cross-listed with ENGL) (3-0) Cr. 3. F. Prereq: ENGL 220 or LING 220; ENGL 219 or LING 219 or introductory course in linguistics; junior classification
Theories and methods for analysis of syntax and morphology.

LING 486. Methods in Elementary School World Language Instruction. (Cross-listed with C I, WLC) (3-0) Cr. 3. F. Prereq: 25 credits in a world language Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on K-8 students' communicative skills, cultural knowledge, and content learning. Nonmajor graduate credit.

LING 487. Methods in Secondary School World Language Instruction. (Cross-listed with WLC, C I) (3-0) Cr. 3. F. Prereq: 25 credits in a world language admission to the teacher education program
Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning.

LING 489. Undergraduate Seminar. (Cross-listed with ENGL) (3-0) Cr. 3. Repeatable. F. Prereq: 9 credits in English beyond 250
Intensive study of a selected topic in literature, criticism, rhetoric, writing, or language. Cross-listing with linguistics acceptable only when offered as a course in linguistics. Nonmajor graduate credit.

LING 490B. Independent Study: Linguistics. (Cross-listed with ENGL) Cr. Arr. Repeatable. maximum of 9 credits. F.S. Prereq: 9 credits in English beyond 250 appropriate to the section taken. junior classification, permission of Undergraduate Studies Committee or Linguistics Advisor.
Designed to meet the needs of students who wish study in areas other than those in which courses are offered. No more than 9 credits of Engr 490 may be used toward graduation.

LING 490D. Independent Study: Linguistic Anthropology. (Cross-listed with ANTHR) Cr. 1-5. Repeatable. maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

LING 510. Introduction to Computers in Applied Linguistics. (Cross-listed with ENGL) (3-0) Cr. 3. F. Prereq: Graduate classification
Use of applications software for language teaching, linguistic analysis, and statistical analysis. Issues and problems in applied linguistics related to computer methods.

LING 511. Introduction to Linguistic Analysis. (Cross-listed with ENGL) (3-0) Cr. 3. F. Prereq: Graduate classification
Principles and methods of linguistic analysis with emphasis on phonology, morphology, and syntax. Description of linguistic variation and current theoretical approaches to linguistics.

LING 512. Second Language Acquisition. (Cross-listed with ENGL) (3-0) Cr. 3. F. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theory, methods, and results of second language acquisition research with emphasis on approaches relevant to second language teaching.

LING 513. Language Assessment Practicum. (Cross-listed with ENGL) (3-0) Cr. 3. F.S.SS. Prereq: ENGL 519 or LING 519
Advanced practicum in language assessment.

LING 514. Sociolinguistics. (Cross-listed with ENGL) (3-0) Cr. 3. S. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theories and methods of examining language in its social setting. Analysis of individual characteristics (e.g., age, gender, ethnicity, social class, region), interactional factors (e.g., situation, topic, purpose) and national policies affecting language use.

LING 515. Statistical Natural Language Processing. (Cross-listed with ENGL, HC). (3-0) Cr. 3. F. Prereq: STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL 511 or LING 511
Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

LING 518. Teaching English as a Second Language Methods and Materials. (Cross-listed with ENGL) (3-0) Cr. 3. F. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Introduction to approaches, methods, techniques, materials, curricular design, and assessment for various levels of ESL instruction. Attention to issues related to the teaching of listening, speaking, reading, writing, vocabulary, pronunciation, and culture.
LING 519. Second Language Assessment. (Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: ENGL 511 or LING 511 Principles of second language assessment including reliability, validity, authenticity and practicality. Constructing, scoring, interpreting, and evaluating second language tests for a variety of situations.

LING 520. Computational Analysis of English. (Cross-listed with ENGL, HCL). (3-0) Cr. 3. S. Prereq: ENGL 510 or LING 510, and ENGL 511 or LING 511 Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

LING 524. Literacy: Issues and Methods for Nonnative Speakers of English. (Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics Theoretical and practical issues and techniques in the teaching of literacy in a variety of contexts, involving children and adults at basic skill levels and teens and adults in academic and vocational programs.

LING 525. Methods in Teaching Listening and Speaking Skills to Nonnative Speakers of English. (Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics Theoretical and practical issues and techniques in the teaching of second language pronunciation, listening, and speaking skills. Topics will be relevant to those intending to teach in various contexts involving both K-12 and adult learners.

LING 526. Computer-Assisted Language Learning. (Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: ENGL 511 or LING 511 or equivalent Theory, research, and practice in computer use for teaching nonnative speakers of English. Methods for planning and evaluating computer-based learning activities.

LING 527. Discourse Analysis. (Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics Methods and theoretical foundations for linguistic approaches to discourse analysis. Applications of discourse analysis to the study of texts in a variety of settings, including academic and research contexts.

LING 528. English for Specific Purposes. (Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: ENGL 511 or LING 511 or an introductory course in linguistics Issues and techniques in analyzing, teaching, and assessing English for specific purposes. Topics include theories of specific purpose language use, analysis of learner needs in target language contexts, and syllabus and materials development for teaching and assessment.

LING 537. Advanced Grammatical Analysis: Social, Individual, and Empirical Perspectives. (Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: ENGL 220 or LING 220; ENGL 219, LING 219, ENGL 511, LING 511, or introductory course in linguistics; graduate classification Analytic, functional, cognitive, corpus-based and pedagogical approaches to the analysis of syntax with emphasis on approaches used in applied linguistics.

LING 554. Introduction to Spanish-English Interpretation. (Dual-listed with LING 354). (Cross-listed with SPAN). (3-0) Cr. 3. F.S. Prereq: SPAN 351 Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Nonmajor graduate credit. Meets International Perspectives Requirement.

LING 588. Supervised Practice Teaching in Teaching English as a Second Language. (Cross-listed with ENGL). (1-5) Cr. 3. F.S.SS. Prereq: 9 credits toward the TESL/TEFL Certificate, 15 credits toward the TESL/AL master's degree, or 18 credits completed toward the ESL Endorsement option Intensive observation of ESL instruction and supervised practice in teaching learners of English in a context appropriate to the student teacher's goals.

LING 590. Special Topics. (Cross-listed with ENGL). Cr. arr. Repeatable. Prereq: Permission of the English Department Graduate Studies Committee according to guidelines available in the department office

LING 590B. Special Topics: Teaching English as a Second Language (TESL)/Applied Linguistics. (Cross-listed with ENGL). Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

LING 590G. Special Topics: Applied Linguistics and Technology. (Cross-listed with ENGL). Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

LING 591. Studies in Applied Linguistics. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in TESL/Applied Linguistics Intensive study of applied linguistics theory as it relates to specific issues in language acquisition, teaching, or use.

Courses for graduate students:

LING 623. Research Methods in Applied Linguistics. (Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: ENGL 511 or LING 511, ENGL 517 or LING 517, ENGL 519 or LING 519 Survey of research traditions in applied linguistics. Focus on theoretical and practical aspects of quantitative and qualitative approaches to applied linguistic study, including experimental and quasi-experimental methods, classroom observation and research, introspective methods, elicitation techniques, case studies, interactional analysis, ethnography, and program evaluation. Computational tools and resources for linguistic research will be highlighted.

LING 626. Computer-Assisted Language Testing. (Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511, ENGL 519 or LING 519 Principles and practice for the use and study of computers and the Internet in second language assessment.

LING 630. Seminar in Technology and Applied Linguistics. (Cross-listed with ENGL). (3-0) Cr. 3. Repeatable. Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511 Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feedback in CALL programs, technology and pronunciation, and advances in language assessment.

LING 688. Practicum in Technology and Applied Linguistics. (Cross-listed with ENGL). (1-5) Cr. 3. F.S.SS. Prereq: ENGL 510 or LING 510, ENGL 628 or LING 626, or equivalent; at least 2nd year PhD student in Applied Linguistics and Technology Focus on integrating theoretical knowledge with practical expertise. Assess client needs; develop, integrate, and evaluate solutions. Practical understanding of computer applications used in multimedia development. Create web-based or CD-ROM-based multimedia materials. Work with advanced authoring applications.

Mathematics

Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in mathematics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum. The program in mathematics offers training suitable for students planning to enter secondary school teaching, to work in mathematics and computation for industry or government, or to continue their studies in graduate school. Students may satisfy the major requirements in several ways, suitable for various career objectives. Graduates can construct rigorous arguments to demonstrate mathematical facts. They can communicate their mathematical methods to others and can justify their assumptions. The traditional program of study for mathematics majors gives students a thorough grounding in mathematics. Graduates understand a broad range of mathematical topics and are familiar with a broad range of mathematical models. They have skills for solving problems in diverse situations. The program allows flexibility for specialization, and students are encouraged to steer their education according to career objectives. This traditional program of study requires:

MATH 301  Abstract Algebra I  3
MATH 414  Analysis I  3
MATH 266  Elementary Differential Equations or MATH 267  Elementary Differential Equations and Laplace Transforms
Mathematics courses at the 300 level or above  15
One of the following:  2
MATH 492  Undergraduate Seminar
C I 480C  Field Experience for Secondary Teaching Preparation: Mathematics *

Total Credits 45-47

* C I 480C is available only for students seeking secondary school certification.

The courses listed above must include one of the sequences:
MATH 301  Abstract Algebra I & MATH 302  Abstract Algebra II  6
MATH 414  Analysis I & MATH 415  Analysis II  6
MATH 435  Geometry I & MATH 436  Geometry II  6
MATH 373  Introduction to Scientific Computing and Numerical Methods for Differential Equations and Interpolation  6

Communication Proficiency requirement:
ENGL 150  Critical Thinking and Communication  **  3
One of the following:  3
ENGL 250  Written, Oral, Visual, and Electronic Composition  **  3
ENGL 250H  Written, Oral, Visual, and Electronic Composition: Honors  **  3

One of the following:  3
MATH 491  Undergraduate Thesis
ENGL 302  Business Communication
ENGL 305  Creative Writing—Nonfiction
ENGL 314  Technical Communication
JL MC 201  Reporting and Writing for the Mass Media

** The department requires a grade of C- or better

The department strongly recommends that each student majoring in mathematics include in the program substantial supporting work beyond the minimum general education requirement of the college in one or more areas of application of mathematics, such as other mathematical sciences, engineering, natural science, or social science. In particular, it recommends that each student take:

COM S 207  Fundamentals of Computer Programming  3
COM S 208  Intermediate Computer Programming  3
PHYS 221  Introduction to Classical Physics I  5
PHYS 222  Introduction to Classical Physics II  5
STAT 341  Introduction to the Theory of Probability and Statistics I  3
STAT 342  Introduction to the Theory of Probability and Statistics II  3

It also recommends that students contemplating graduate study in mathematics acquire a reading knowledge of French, German, or Russian.

Credits earned in the following cannot be counted toward graduation by mathematics majors:
MATH 104  Introduction to Probability and Matrices  3
MATH 105  Introduction to Mathematical Ideas  3
MATH 140  College Algebra  3
MATH 141  Trigonometry  2
MATH 142  Trigonometry and Analytic Geometry  3
MATH 150  Discrete Mathematics for Business and Social Sciences  3
MATH 151  Calculus for Business and Social Sciences  3
MATH 160  Survey of Calculus  4
MATH 181  Calculus and Mathematical Modeling for the Life Sciences I  4
MATH 182  Calculus and Mathematical Modeling for the Life Sciences II  4

MATH 195  Mathematics for Elementary Education I  3
MATH 196  Mathematics for Elementary Education II  3

The Mathematics Plus option is for students who wish to establish a clear strength in a field of application of mathematics. They obtain the mathematics major by pursuing study of mathematics, through the upper division level, complementary to their application area. This program makes double majors more feasible and is appropriate for students who plan on employment or graduate study in the application field. It is not intended for students who plan on graduate study in mathematics. For more information, see the mathematics department web site or consult an adviser in mathematics.

Minor in Mathematics
MATH 201  Introduction to Proofs  3
MATH 265  Calculus III  4
MATH 301  Abstract Algebra I  3
One of the following:  3
MATH 266  Elementary Differential Equations or MATH 267  Elementary Differential Equations and Laplace Transforms
MATH 317  Theory of Linear Algebra  4
MATH 407  Applied Linear Algebra  3

Graduate Study
The department offers programs leading to a master of science or doctor of philosophy degree in mathematics or applied mathematics, as well as minor work for students whose major is in another department. The department also offers a program leading to the degree of master of master of school mathematics (M.S.M.).

Students desiring to undertake graduate work leading to the M.S. or Ph.D. degree should have at least 12 semester credits of work in mathematics beyond calculus. It is desirable that these credits include advanced calculus and abstract algebra.

The M.S degree requires at least 30 credits and students must write a creative component or thesis and pass a comprehensive oral examination over their coursework and their creative component or thesis. See the department handbook for specific requirements.

The Ph.D. degree requires a student to take 48 hours of coursework in addition to research hours, pass written qualifying examinations, pass an oral preliminary exam, and perform an original research project culminating in a dissertation which is defended by an oral exam. Ph.D. candidates must have at least one year of supervised teaching experience. See the on-line Mathematics Graduate Handbook for specific requirements.

The M.S.M. degree is primarily for inservice secondary mathematics teachers. Students desiring to pursue the M.S.M. degree should present some undergraduate work in mathematics beyond calculus. Candidates for the M.S.M. degree must write an approved creative component and pass a comprehensive oral examination over their course work and their creative component.

Courses

Courses primarily for undergraduates:
MATH 010. High School Algebra.
(4-0) Cr. arr. F.S.S.S.
For students who do not have adequate facility with topics from high school algebra or do not meet the algebra admission requirement. The course is divided into tracks of one- and two-semester lengths. For most students a diagnostic exam will determine which track must be taken. Students will receive a grade in MATH 25 or MATH 30 respectively depending on the level of material covered. Satisfactory completion of MATH 30 is recommended for students planning to take MATH 140 or MATH 151, while MATH 25 is sufficient for MATH 104, MATH 105, MATH 150, MATH 195, STAT 101 or STAT 105. Students must complete MATH 30 to remove a deficiency in the algebra admission requirement. Topics include signed numbers, polynomials, rational and radical expressions, exponential and logarithmic expressions, and equations. Offered on a satisfactory-fail basis only.

MATH 025. High School Algebra.
(4-0) Cr. arr. F.S.S.S.
Students should initially enroll in MATH 10. See description of MATH 10. Offered on a satisfactory-fail basis only.
MATH 030. High School Algebra.  
(4-0) Cr. arr. F.S.SS.  
Students should initially enroll in MATH 10. See description of MATH 10. Offered on a satisfactory-fail basis only.

MATH 101. Orientation in Mathematics.  
(1-0) Cr. 1. F.S.  
For new majors. Academic policies and procedures. Campus resources and opportunities available to students. Careers and programs of study in mathematics. Mathematical reasoning, culture and resources. Description of main branches of mathematics. Offered on a satisfactory-fail basis only.

MATH 104. Introduction to Probability and Matrices.  
(3-0) Cr. 3. F.S. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra; 1 year of high school geometry  
Permutations, combinations, probability, binomial and multinomial theorems, matrices, expected value. Either MATH 104 or MATH 150 may be counted toward graduation, but not both.

MATH 105. Introduction to Mathematical Ideas.  
(3-0) Cr. 3. F.S. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry  
Topics from mathematics and mathematical applications with emphasis on their nontechnical content.

MATH 140. College Algebra.  
(3-1) Cr. 3. F.S.SS. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra; 1 year of high school geometry  
Coordinate geometry, quadratic and polynomial equations, functions, graphing, rational functions, exponential and logarithmic functions, inverse functions, quadratic inequalities. Students in the College of Liberal Arts and Sciences may not count MATH 140, MATH 141, MATH 142, or MATH 195 toward Group III of the General Education Requirements.

MATH 141. Trigonometry.  
(2-0) Cr. 2. F.S.SS. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry, or enrollment in MATH 140  
May be taken concurrently with MATH 140. Trigonometric functions and their inverses, solving triangles, trigonometric identities and equations, graphing. Students in the College of Liberal Arts and Sciences may not count MATH 140, MATH 141, MATH 142, or MATH 195 toward Group III of the General Education Requirements. Only one of MATH 140, MATH 141, MATH 142 may count toward graduation.

MATH 142. Trigonometry and Analytic Geometry.  
(2-1) Cr. 3. F.S.SS. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry, or enrollment in MATH 140  
May be taken concurrently with MATH 140. Trigonometric functions and their inverses, solving triangles, trigonometric identities and equations, graphing, polar coordinates, complex numbers, conic sections, parametric equations. Students in the College of Liberal Arts and Sciences may not count MATH 140, MATH 141, MATH 142, or MATH 195 toward Group III of the General Education Requirements. Only one of MATH 141, MATH 142 may count toward graduation.

MATH 150. Discrete Mathematics for Business and Social Sciences.  
(2-1) Cr. 3. F.S.SS. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry  
Linear equations and inequalities, matrix algebra, linear programming, discrete probability. Either MATH 104 or MATH 150 may be counted toward graduation, but not both.

MATH 151. Calculus for Business and Social Sciences.  
(2-1) Cr. 3. F.S.SS. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry  
Differential calculus, applications to max-min problems, integral calculus and applications. Will not serve as prerequisite for MATH 265 or MATH 266. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 160. Survey of Calculus.  
(4-0) Cr. 4. F.S. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of geometry  
Analytic geometry, derivatives and integrals of elementary functions, partial derivatives, and applications. Will not serve as a prerequisite for MATH 265 or MATH 266. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 165. Calculus I.  
(4-0) Cr. 4. F.S.SS. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry or enrollment in MATH 141 or MATH 142  
Differential calculus, applications of the derivative, introduction to integral calculus. Only one of MATH 151 or MATH 160 or the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 166. Calculus II.  
(4-0) Cr. 4. F.S.SS. Prereq: Grade of C- or better in MATH 165 or high math placement scores  
Integral calculus, applications of the integral, infinite series. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 166H. Calculus II, Honors.  
(4-0) Cr. 4. F. Prereq: Permission of instructor and MATH 165 or high math placement scores  
Integral calculus, applications of the integral, infinite series. Additional material of a theoretical, conceptual, computational, or modeling nature. Some of the work may require more ingenuity than is required for MATH 166. Preference will be given to students in the University Honors Program. Only one of MATH 151 or MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 181. Calculus and Mathematical Modeling for the Life Sciences I.  
(4-0) Cr. 4. F.S. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry, 1 semester of trigonometry or enrollment in MATH 141 or MATH 142  
Exponential and logarithm functions, difference equations, derivatives, and applications of the derivative. Examples taken from biology. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 182. Calculus and Mathematical Modeling for the Life Sciences II.  
(4-0) Cr. 4. S. Prereq: MATH 181  
Integration, first and second order differential equations, applications of the definite integral, introduction to multivariable calculus. Examples taken from biology. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or the sequence MATH 181-MATH 182 may be counted towards graduation.

MATH 195. Mathematics for Elementary Education I.  
(2-2) Cr. 3. F.S. Prereq: Satisfactory performance on placement exam, 2 years high school algebra, 1 year of high school geometry, enrollment in elementary education or early childhood education  
Theoretical and hands-on models, mathematical analysis of: elementary students’ thinking, standard and non-standard algorithms, and properties related to whole numbers and whole number operations; linear measurement, and two- and three-dimensional geometric shapes and spatial sense; algebra as it relates to elementary curricula. Students in the College of Liberal Arts and Sciences may not count MATH 140, MATH 141, MATH 142, or MATH 195 toward Group III of the General Education Requirements. Only one of MATH 140, MATH 141, MATH 142 or MATH 195 may count toward graduation.

MATH 196. Mathematics for Elementary Education II.  
(2-2) Cr. 3. F.S. Prereq: Grade of C- or better in MATH 195 and enrollment in elementary education or early childhood education  
Two- and three-dimensional measurement; probability, statistics, algebra as it relates to elementary curricula; theoretical and hands-on models, mathematical analysis of: elementary students’ thinking, standard and non-standard algorithms, and properties related to integer, fraction, and decimal operations.

MATH 201. Introduction to Proofs.  
(3-0) Cr. 3. S. Prereq: MATH 166 or MATH 166H  
Logic and techniques of proof including induction. Communicating mathematics. Writing proofs about sets, functions, real numbers, limits, sequences, infinite series and continuous functions.

MATH 207. Matrices and Linear Algebra.  
(3-0) Cr. 3. F.S.SS. Prereq: 2 semesters of calculus  
Systems of linear equations, determinants, vector spaces, linear transformations, orthogonality, least-squares methods, eigenvalues and eigenvectors. Emphasis on methods and techniques. Only one of MATH 207, MATH 307, MATH 317 may be counted toward graduation.

MATH 265. Calculus III.  
(4-0) Cr. 4. F.S.SS. Prereq: Grade of C- or better in MATH 165 or MATH 166H  
Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus.
MATH 265H. Calculus III, Honors.
(4-0) Cr. 4. F.S. Prereq: Permission of the instructor; and MATH 166 or MATH 166H
Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus. Additional material of a theoretical, conceptual, computational, or modeling nature. Some of the work may require more ingenuity than is required in MATH 265. Preference will be given to students in the University Honors Program.

MATH 266. Elementary Differential Equations.
(3-0) Cr. 3. F.S.SS. Prereq: Grade of C- or better in MATH 168 or MATH 168H

(4-0) Cr. 4. F.S.SS. Prereq: Grade of C- or better in MATH 166 or MATH 168H
Same as MATH 266 but also including Laplace transforms and series solutions to ordinary differential equations.

MATH 268. Laplace Transforms.
(1-0) Cr. 1. S. Prereq: MATH 266
Laplace transforms and series solutions to ordinary differential equations. Together, MATH 266 and MATH 268 are the same as MATH 267.

MATH 290. Independent Study.
Cr. 1-3. Repeatable.

MATH 290H. Independent Study, Honors.
Cr. 1-3. Repeatable.

MATH 297. Intermediate Topics for School Mathematics.
(2-2) Cr. 3. F. Prereq: Enrollment in elementary education and grade of C- or better in MATH 196
Mathematical reasoning, data fitting, and topics in Euclidean and non-Euclidean geometry. Discrete mathematics topics selected from graphs, networks, recurrence relations, probability, Markov chains. Use of technology to learn and teach mathematics.

MATH 298. Cooperative Education.
Cr. R. Repeatable, maximum of 2 times. F.S.SS. Prereq: Permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

MATH 301. Abstract Algebra I.
(3-0) Cr. 3. F.S. Prereq: MATH 168 or MATH 166H, MATH 317 or MATH 407, and grade of C- or better in MATH 201

MATH 302. Abstract Algebra II.
(3-0) Cr. 3. S. Prereq: MATH 301
Theory of rings and fields. Introduction to Galois theory. Emphasis on writing proofs. Nonmajor graduate credit.

MATH 304. Introductory Combinatorics.
(3-0) Cr. 3. F. Prereq: MATH 166 or MATH 166H; grade of C- or better in MATH 201 or experience with proofs; MATH 207 or MATH 317
Permutations, combinations, binomial coefficients, inclusion-exclusion principle, recurrence relations, generating functions. Additional topics selected from probability, random walks, and Markov chains. Nonmajor graduate credit.

MATH 314. Graphs and Networks.
(3-0) Cr. 3. S. Prereq: MATH 168 or MATH 166H; MATH 201 or experience with proofs
Structure and extremal properties of graphs. Topics are selected from: trees, networks, colorings, paths and cycles, connectivity, planarity, Ramsey theory, forbidden structures, enumeration, applications. Nonmajor graduate credit.

MATH 317. Theory of Linear Algebra.
(4-0) Cr. 4. F. Prereq: MATH 168; credit or enrollment in MATH 201
Systems of linear equations, determinants, vector spaces, inner product spaces, linear transformations, eigenvalues and eigenvectors. Emphasis on writing proofs and results. Nonmajor graduate credit. Only one of MATH 203, MATH 307, MATH 317 may be counted toward graduation.

MATH 331. Topology.
(3-0) Cr. 3. Prereq: MATH 317 or MATH 407
Topological properties of metric spaces, including Euclidean n-space, continuous functions, homeomorphisms, and topological invariants. Examples from surfaces, knots, links, and three-dimensional manifolds. Nonmajor graduate credit.

MATH 341. Introduction to the Theory of Probability and Statistics I.
(Cross-listed with STAT). (3-0) Cr. 3. F.S. Prereq: MATH 265 (or MATH 265H)
Probability; distribution functions and their properties; classical discrete and continuous distribution functions; multivariate probability distributions and their properties; moment generating functions; simulation of random variables and use of the R statistical package. Credit for both Stat 341 and 447 may not be applied toward graduation.

MATH 342. Introduction to the Theory of Probability and Statistics II.
(Cross-listed with STAT). (3-0) Cr. 3. F.S. Prereq: STAT 341; MATH 307 or MATH 317
Transformations of random variables; sampling distributions; confidence intervals and hypothesis testing; theory of estimation and hypothesis tests; linear model theory; use of the R statistical package for simulation and data analysis.

MATH 350. Number Theory.
(Cross-listed with COM S). (3-0) Cr. 3. S. Prereq: MATH 166
Divisibility, integer representations, primes and divisors, linear diophantine equations, congruences, and multiplicative functions. Applications to cryptography. Nonmajor graduate credit.

MATH 365. Complex Variables with Applications.
(3-0) Cr. 3. S. Prereq: MATH 265
Functions of a complex variable, including differentiation, integration and series expansions, residues, evaluation of integrals, conformal mapping. Nonmajor graduate credit.

MATH 373. Introduction to Scientific Computing.
(3-0) Cr. 3. F. Prereq: MATH 265

MATH 385. Introduction to Partial Differential Equations.
(3-0) Cr. 3. F.S. Prereq: MATH 265 and one of MATH 266, MATH 267

MATH 397. Teaching Secondary Mathematics Using University Mathematics.
(2-2) Cr. 3. S. Prereq: MATH 201, MATH 301
Coursework in university mathematics including calculus, abstract algebra, discrete mathematics, geometry, and other topics as it relates to teaching mathematics in grades 7-12.

MATH 398. Cooperative Education.
Cr. R. Repeatable, maximum of 2 times. F.S.SS. Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

(Dual-listed with MATH 507). (3-0) Cr. 3. F. Prereq: MATH 207 or MATH 317
Advanced topics in applied linear algebra including eigenvalues, eigenvalue localization, singular value decomposition, symmetric and Hermitian matrices, nonnegative and stochastic matrices, matrix norms, canonical forms, matrix functions. Applications to mathematical and physical sciences and engineering. Nonmajor graduate credit.

MATH 411. Analysis I.
(3-0) Cr. 3. S. Prereq: grade of C- or better in MATH 201; MATH 265
Introduction to properties and basic topology of the real numbers. A careful development of calculus of functions of a real variable: limits, continuity, differentiation, integration, series. Nonmajor graduate credit.

MATH 415. Analysis II.
(3-0) Cr. 3. S. Prereq: MATH 414; and MATH 317 or MATH 407
Sequences and series of functions of a real variable, uniform convergence, power series and Taylor series, Fourier series, topology of n-dimensional space, implicit function theorem, calculus of the plane and 3-dimensional space. Additional topics may include metric spaces or Steiljes or Lebesque integration. Nonmajor graduate credit.
MATH 421. Logic for Mathematics and Computer Science.
(Cross-listed with MATH). (3-0) Cr. 3. S. Prereq: MATH 301 or MATH 317 or COM S 330
Propositional and predicate logic. Topics selected from Horn logic, equational
logic, resolution and unification, foundations of logic programming, reasoning about
programs, program specification and verification, model checking and binary decision
diagrams, temporal logic and modal logic. Nonmajor graduate credit.

MATH 435. Geometry I.
(3-0) Cr. 3. F. Prereq: MATH 307 or MATH 317
Euclidean geometry. Points, lines, circles, triangles, congruence, similarity, properties
invariant under rigid motions. Synthetic, analytic, and axiomatic methods. Nonmajor
graduate credit.

MATH 436. Geometry II.
(3-0) Cr. 3. S. Prereq: MATH 435
Continuation of Euclidean geometry with topics from elliptic, projective, or hyperbolic
geometry. Emphasis on analytic methods. Nonmajor graduate credit.

MATH 439. Mathematics of Fractals and Chaos.
(3-0) Cr. 3. Prereq: MATH 265
Iterated function systems; periodic points; algorithms for generation of fractals; fractal
dimension; Julia sets and the Mandelbrot set; chaos. Nonmajor graduate credit.

MATH 471. Computational Linear Algebra and Fixed Point Iteration.
(Cross-listed with COM S). (3-0) Cr. 3. Alt. F., offered 2011.S. Prereq: MATH 265 and
either MATH 266, or 267; knowledge of a programming language
Computational error, solutions of linear systems, least squares, similarity methods for
eigenvalues, solution of nonlinear equations in one and several variables. Nonmajor
graduate credit.

(Cross-listed with COM S). (3-0) Cr. 3. S. Prereq: MATH 265 and either MATH 266 or
MATH 267; knowledge of a programming language
First order Euler method, high order Runge-Kutta method, and multistep method for
solving ordinary differential equations. Finite difference and finite element
methods for solving partial differential equations. Local truncation error, stability, and
convergence for finite difference methods. Numerical solution space, polynomial
approximation, and error estimate for finite element method. Nonmajor graduate
credit.

MATH 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: MATH 301 or MATH 317; 6
credits in mathematics
No more than 9 credits of Math 490 may be counted toward graduation.

MATH 490H. Independent Study: Honors.
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: MATH 301 or MATH 317; 6
credits in mathematics
No more than 9 credits of MATH 490 may be counted toward graduation.

MATH 491. Undergraduate Thesis.
Cr. 2-3.
Writing a formal mathematics paper. Upon approval by the department, the paper will
satisfy the departmental advanced English requirement.

MATH 492. Undergraduate Seminar.
(2-0) Cr. 2. S. Prereq: Consent of instructor
Introduction to mathematics research, a participating seminar on advanced topics in
mathematics. Mathematical literature search, reading a mathematical article with the
guidance of the instructor, mathematical presentation. Seminar content varies.

(Cross-listed with C I). (3-0) Cr. 3. F. Prereq: 15 credits in college mathematics and
admission to a teacher licensure program, concurrent enrollment in C I 426 or C I
526; C I 480C
Theory and methods for teaching mathematics in grades 7-12. Includes critical
examination of instructional strategies, curriculum materials, learning tools,
assessment methods, National Standards in Mathematics Education, and equity
issues.

MATH 498. Cooperative Education.
Cr. R. Repeatable, maximum of 2 credits. F.S.SS. Prereq: Permission of the
department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course
prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

MATH 501. Introduction to Real Analysis.
(3-0) Cr. 3. F. Prereq: MATH 265 and (MATH 307 or MATH 317)
A development of the real numbers. Study of metric spaces, completeness,
compactness, sequences, and continuity of functions. Differentiation and integration of
real-valued functions, sequences of functions, limits and convergence, equicontinuity.

MATH 504. Abstract Algebra I.
(3-0) Cr. 3. F. Prereq: MATH 302
Algebraic systems and their morphisms, with emphasis on groups and rings.

MATH 505. Abstract Algebra II.
(3-0) Cr. 3. S. Prereq: MATH 504
Continuation of Math 504. Algebraic systems and their morphisms, with emphasis on
modules and fields.

MATH 507. Applied Linear Algebra.
(Dual-listed with MATH 407). (3-0) Cr. 3. F. Prereq: MATH 207 or MATH 317
Advanced topics in applied linear algebra including eigenvalues, eigenvalue
localization, singular value decomposition, symmetric and Hermitian matrices,
nonnegative and stochastic matrices, matrix norms, canonical forms, matrix
functions. Applications to mathematical and physical sciences and engineering.

MATH 510. Linear Algebra.
(3-0) Cr. 3. F. Prereq: MATH 307 or MATH 317
Advanced topics in linear algebra including canonical forms; unitary, normal,
Hermitian and positive-definite matrices; variational characterizations of eigenvalues.

MATH 511. Functions of a Single Complex Variable.
(3-0) Cr. 3. S. Prereq: MATH 414 or MATH 501
Theory of analytic functions, integration, topology of the extended complex plane,
singularities and residue theory, maximum principle.

MATH 515. Real Analysis I.
(3-0) Cr. 3. F. Prereq: MATH 414 or MATH 501
Lebesgue measure and Lebesgue integral, one variable differentiation theory,
product integration, Lp spaces.

MATH 516. Real Analysis II.
(3-0) Cr. 3. S. Prereq: MATH 515

MATH 517. Finite Difference Methods.
(3-0) Cr. 3. S. Prereq: MATH 481 or MATH 561
Finite difference methods for partial differential equations, with emphasis on parabolic
and hyperbolic equations, and other partial differential equations from application
areas. Topics include convergence, stability and implementation issues.

MATH 519. Methods of Applied Mathematics I.
(3-0) Cr. 3. F. Prereq: MATH 414 or MATH 501
Techniques of classical and functional analysis with applications to partial differential
equations, integral equations. Vector spaces, metric spaces, Hilbert and Banach
spaces, Sobolev spaces and other function spaces, contraction mapping theorem,
distributions, Fourier series and Fourier transform, linear operators, spectral theory
of differential and integral operators, Green’s functions and boundary value problems,
weak solutions of partial differential equations and variational methods, calculus in
Banach spaces and applications.

MATH 520. Methods of Applied Mathematics II.
(3-0) Cr. 3. S. Prereq: MATH 519
Continuation of Math 519.

(Cross-listed with COM S, CPR E). (3-0) Cr. 3. Alt. S., offered 2015. Prereq: CPR E
308 or MATH 481; experience in scientific programming; knowledge of FORTRAN or
C
Introduction to parallelization techniques and numerical methods for state-of-the-art
high performance computers. A major component will be a final project in an area
related to each student’s research interests.

MATH 533. Cryptography.
(Cross-listed with CPR E, INFAS). (3-0) Cr. 3. S. Prereq: MATH 301 or CPR E 310 or
COM S 330
Basic concepts of secure communication, DES and AES, public-key cryptosystems,
elliptic curves, hash algorithms, digital signatures, applications. Relevant material on
number theory and finite fields.
MATH 535. Steganography and Digital Image Forensics. (Cross-listed with CPR E, INFS) (3-0) Cr. 3. S. Prereq: E E 524 or MATH 307 or COM S 330
Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.

MATH 540. Seminar in Mathematics Education. (1-0) Cr. 1. SS. Prereq: Enrollment in the Master of School Mathematics program or professional studies in education
Research studies in mathematics learning and teaching, exemplary practices in mathematics education, and current state and national trends in the mathematics curriculum in grades K-12. Topics are offered on a 3-year cycle.

MATH 540A. Seminar in Mathematics Education: Assessment, equity, and teaching of statistics. (1-0) Cr. 1. Alt., SS., offered 2014. Prereq: Enrollment in the Master of School Mathematics program or professional studies in education
Research studies in mathematics learning and teaching, exemplary practices in mathematics education, and current state and national trends in the mathematics curriculum in grades K-12. Topics are offered on a 3-year cycle.

MATH 540B. Seminar in Mathematics Education: Geometry and discrete mathematics, and problem solving. (1-0) Cr. 1. Prereq: Enrollment in the Master of School Mathematics program or professional studies in education
Offered on a 3-year cycle—Offered in 2015. Research studies in mathematics learning and teaching, exemplary practices in mathematics education, and current state and national trends in the mathematics curriculum in grades K-12.

MATH 540C. Seminar in Mathematics Education: Teaching of analysis, algebra, and the use of technology. (1-0) Cr. 1. SS. Prereq: Enrollment in the Master of School Mathematics program or professional studies in education
Offered SS 2013, 2016. Research studies in mathematics learning and teaching, exemplary practices in mathematics education, and current state and national trends in the mathematics curriculum in grades K-12. Topics are offered on a 3-year cycle.

MATH 545. Intermediate Calculus. (4-0) Cr. 4. Prereq: 3 semesters of calculus and enrollment in the master of school mathematics program
Offered on a 3-year cycle, offered SS 2013. Further development of the fundamental concepts of calculus and their applications with an emphasis on a constructivist approach to learning, cooperative groups, problem solving, the use of technology.

MATH 546. Algorithms in Analysis and Their Computer Implementation. (2-2) Cr. 3. Prereq: 3 semesters in calculus or concurrent enrollment in 545 and enrollment in the master of school mathematics program
Offered on a 3-year cycle, offered SS 2013, 2016. The use of technology in secondary mathematics with an emphasis on the exploration and implementation of algorithms.

MATH 547. Discrete Mathematics and Applications. (4-0) Cr. 4. Prereq: Enrollment in the master of school mathematics program
Offered on a 3-year cycle, offered SS 2015. Applications of graph theory, game theory, voting methods, recursion, and combinatorics. Issues in integrating discrete topics into the secondary curriculum. Use of the computer to explore discrete mathematics.

MATH 549. Intermediate Geometry. (3-0) Cr. 3. Prereq: MATH 435 or equivalent and enrollment in the master of school mathematics program
Offered on a 3-year cycle, offered SS 2015. A study of geometry which includes metrics, the group of isometries, and the group of similarities. Specific spaces studied normally include the Euclidean plane, the 2-sphere, projective 2-space, and hyperbolic geometry. Emphasis on analytical methods. Incorporation of geometry software.

MATH 554. Introduction to Stochastic Processes. (Cross-listed with STAT). (3-0) Cr. 3. F. Prereq: STAT 542
Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion.

MATH 557. Ordinary Differential Equations and Dynamical Systems. (3-0) Cr. 3. F. Prereq: MATH 415 or MATH 501
The initial-value problem, existence and uniqueness theorems, continuous dependence on parameters, linear systems, stability and asymptotic behavior of solutions, linearization, dynamical systems, bifurcations, and chaotic behavior.

MATH 561. Numerical Analysis I. (3-0) Cr. 3. F. Prereq: MATH 414 or MATH 501
Approximation theory, including polynomial spline interpolation and best approximation; numerical differentiation and integration; numerical methods for ordinary differential equations.

MATH 562. Numerical Analysis II. (3-0) Cr. 3. S. Prereq: MATH 317
Numerical linear algebra including eigenvalue problems; numerical solution of nonlinear equations and optimization problems.

MATH 566. Discrete Optimization. (3-0) Cr. 3. F. Prereq: MATH 317 or MATH 507 or MATH 510
Algorithms for linear programming, integer and combinatorial optimization. Linear programming, duality theory, simplex algorithm; the solution of the shortest-path, minimal spanning tree, max-flow/min-cut, minimal cost flow, maximum matching, and traveling salesman problems; integer linear programming, branch-and-bound, local and global search algorithms.

MATH 573. Random Signal Analysis and Kalman Filtering. (Cross-listed with E E, AER E, M E) (3-0) Cr. 3. F. Prereq: E E 324 or AER E 331 or M E 370 or M E 411 or MATH 341

MATH 574. Optimal Control. (Cross-listed with AER E, E E, M E) (3-0) Cr. 3. S. Prereq: E E 577

MATH 575. Introduction to Robust Control. (Cross-listed with E E, AER E, M E) (3-0) Cr. 3. S. Prereq: E E 577

MATH 576. Digital Feedback Control Systems. (Cross-listed with AER E, E E, M E) (3-0) Cr. 3. F. Prereq: E E 475 or AER E 432 or M E 411 or 414 or MATH 415; and MATH 267

MATH 577. Linear Systems. (Cross-listed with AER E, E E, M E) (3-0) Cr. 3. F. Prereq: E E 324 or AER E 331 or MATH 415; and MATH 307

MATH 578. Nonlinear Systems. (Cross-listed with AER E, E E, M E) (3-0) Cr. 3. S. Prereq: E E 577

MATH 590. Independent Study. Cr. arr. Repeatable.
Courses for graduate students:

MATH 601. Mathematical Logic I.  
(3-0) Cr. 3. Fall.  
Prereq: MATH 504  
First semester of full-year course. Completeness and compactness of propositional and predicate logic, incompleteness and undecidability of set theory and arithmetic, Goedel's theorems, recursive functions, computability, models, ultraproducts, and ultralimits.

MATH 602. Mathematical Logic II.  
(3-0) Cr. 3. Spring.  
Prereq: MATH 601  
Continuation of MATH 601.

MATH 605. Design Theory and Association Schemes.  
(3-0) Cr. 3. Fall.  
Prereq: MATH 504  

MATH 606. Enumerative Combinatorics and Ordered Sets.  
(3-0) Cr. 3. Spring.  
Prereq: MATH 504  
Ordered sets and lattices. Generating functions. Moebius inversion and other enumeration methods.

MATH 607. Modern (Structural) Graph Theory.  
(3-0) Cr. 3. Fall.  
Prereq: MATH 504  
Structural and extremal theory of graphs. Topics include basic structures (trees, paths and cycles, networks, colorings, connectivity, topological graph theory, Ramsey theory, forbidden graphs and minors, introduction to random graphs, applications.

MATH 608. Extremal Graph Theory.  
(3-0) Cr. 3. Spring.  
Prereq: MATH 607  
Study of extremal graph problems and methods. Topics include Szemeredi's regularity lemma, generalizations of the theorems of Turan and Ramsey, and the theory of random graphs.

MATH 610. Seminar.  
Cr. arr.

MATH 615. General Theory of Algebraic Structures I.  
(3-0) Cr. 3. Fall.  
Prereq: MATH 504  
First semester of full-year course. Subalgebras, homomorphisms, congruence relations, and direct products. Lattices and closure operators. Varieties and quasivarieties of algebras, free algebras, Birkhoff's theorems, clones, Malcev conditions. Advanced topics.

MATH 616. General Theory of Algebraic Structures II.  
(3-0) Cr. 3. Spring.  
Prereq: MATH 615  
Continuation of MATH 615.

MATH 617. Category Theory.  
(3-0) Cr. 3. Fall.  
Prereq: MATH 504  
Categories and functors and their applications.

MATH 618. Representation Theory.  
(3-0) Cr. 3. Spring.  
Prereq: MATH 504  
Representations of algebraic structures. Content varies by semester.

MATH 621. Topology.  
(3-0) Cr. 3. Fall.  
Prereq: Permission of instructor  
Introduction to general topology. Topological spaces, continuous functions, connectedness, compactness. Topics selected from countability and separation axioms, metrization, and complete metric spaces.

MATH 622. Algebraic Topology.  
(3-0) Cr. 3. Alt. S.  
Prereq: MATH 504  
Foundations of algebraic topology. The fundamental group, homology groups, relative homology groups, and long exact sequences.

(3-0) Cr. 3. Alt. S.  
Prereq: MATH 501 or MATH 515  

MATH 633. Functional Analysis I.  
(3-0) Cr. 3. Alt. F.  
Prereq: MATH 515  
Fundamental theory of normed linear spaces and algebras, such as topology and continuity, duality and spectral theory, emphasizing aspects that provide a framework for the study of boundary-value problems, eigenvalue problems, harmonic analysis, analytic function theory, and modern operator theory.

MATH 634. Functional Analysis II.  
(3-0) Cr. 3. Alt. S.  
Prereq: MATH 633  
Continuation of MATH 633.

MATH 642. Advanced Probability Theory.  
(Cross-listed with STAT). (3-0) Cr. 3.  
Prereq: MATH 641 or MATH 501 or equivalent course.  

(Cross-listed with STAT). (3-0) Cr. 3.  
Prereq: STAT 641 or STAT 543 and MATH 514.  

MATH 645. Advanced Stochastic Processes.  
(Cross-listed with STAT). (3-0) Cr. 3.  

(Cross-listed with PHYS). (3-0) Cr. 3.  
Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; coarse grained nonlinear dynamics, interface propagation and spatial pattern formation.

MATH 652. Advanced Mathematics.  
(3-0) Cr. 3. alt. S.  
Prereq: MATH 516 or MATH 520 or MATH 561 or MATH 656  
First order equations and systems, conservation laws, general theory of linear partial differential equations of elliptic, parabolic and hyperbolic types, maximum principles, fundamental solutions, Sobolev spaces, variational and Hilbert space methods.

MATH 593. Advanced Abstract Algebra.  
(3-0) Cr. 3.  
Prereq: MATH 504  
Continuation of MATH 592.  
Advanced topics in algebra, such as Galois theory, algebraic number theory, and algebraic geometry.

MATH 592. Orientation for Mathematics Graduate Students I.  
(0.5-0) Cr. 0.5.  
Fall semester orientation seminar. Required for graduate students in Mathematics and Applied Mathematics. Topics include teaching at the university level and communication of mathematics. Offered on a satisfactory-fail basis only.

MATH 599. Creative Component.  
Cr. arr. Repeatable.
MATH 680C. Advanced Topics: Applied Mathematics. Cr. 3. Repeatable.
MATH 680D. Advanced Topics: Combinatorics. Cr. 3. Repeatable.
MATH 680F. Advanced Topics: Linear Algebra. Cr. 3. Repeatable.
MATH 680L. Advanced Topics: Topology. Cr. 3. Repeatable.

Military Science

The Military Science Department does not offer an academic degree and is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program. The mission of the department is derived directly from regulations governing Army Reserve Officers’ Training Corps (AROTC), which are issued by the Army Cadet Command and Army Training and Doctrine Command and cannot be modified by this department.

Freshmen Year Learning Outcomes

The student will have a working knowledge of the following areas: The Role of the Army, Roles and Origins of the Army, Army Customs and Traditions, Branches (Jobs) in the Army and Military Operations and Tactics.

Sophomore Year Learning Outcomes

The student will have a working knowledge of the following areas: The Role of an Officer, Role of the Officer and Noncommissioned Officer, communications, code of conduct, first aid, principles of war and military operations and tactics.

Junior Year Learning Outcomes

The student will have a working knowledge of the following areas: Small Unit Training, Command and Staff Functions, Nuclear, Biological and Chemical Warfare, Law of War, Weapons, Human Behavior, Math Reasoning, Computer Science and Military Operations and Tactics.

Senior Year Learning Outcomes

The student will have a working knowledge of the following areas: Transition to Becoming an Officer, Military Justice, Intelligence and Electronic Warfare, Army Personnel Management, Army Logistics, Post and Installation Support and Military Operations and Tactics.

The mission of the Army Reserve Officers’ Training Corps (AROTC) is to commission the future leaders of the United States Army. Since ROTC produces over 65 percent of the Army’s Officer Corps, our task is one of the most important undertakings in the Army and our country today. We seek top quality college students. We train these potential leaders, assess their abilities, and challenge them with the highest standards of profession/professionalism. Those who successfully complete the program, receive a commission as a second lieutenant in the U.S. Army. A commission as an Army officer affords the opportunity to pursue a profession in one or several of the 300 different jobs held by Army officers. Students may request to serve as an officer in either the active army, or part time in the Army Reserve or National Guard. Regardless of the method of service, officers in today’s Army can be proud to know that they are doing their share in the defense of the United States of America.

The ISU Military Science program is divided into two segments, the basic program and the advanced program. The basic program (courses numbered 101-290) is designed primarily for freshmen and sophomores. No military obligation is incurred by a person participating in the basic program. The basic program is designed to be informative and to acquaint students with the military as a profession. The basic program or an allowed substitute is a prerequisite for the advanced program. Financial assistance is available on a competitive basis.

Persons interested in Military Science should visit the department located on the second floor of the Armory (east side).

Basic Program

These courses are primarily for freshmen and sophomore students and, except for persons with prior military service and basic training graduates, are required for entry into the advanced program. Each scholarship cadet in the Basic Program receives a monthly allowance (freshmen $300; sophomore $500) for up to 10 months. The curriculum is designed to train freshmen and sophomores in individual and team skills. It also helps the Professor of Military Science identify individual leader developmental needs.

Advanced Program

These courses are for students who have completed the basic program (or received equivalent credit) and are mandatory for potential commissioning upon contracting at the beginning of their junior year. Each cadet receives a monthly allowance (junior $450; senior $500) for up to 10 months. These courses are primarily taught to academic juniors and seniors.

Successful completion normally obligates the student to military service on active or reserve duty. In addition to the advanced program of study, a student (cadet) will be expected to pass the Army Physical Fitness Test (precondition for commissioning) each semester and continually maintain military appearance standards in both personal grooming and uniform. Physical fitness training is regularly conducted outside of class and laboratory hours in a separate course, M S 150 Army Physical Readiness. Students are encouraged to attend and participate in this class.

Professional Military Science Education (PME) coursework outside of the military science curriculum is also a precondition to commissioning. The PME component consists of Basic Academic proficiency standards. These standards are explained to prospective students as they consider enrollment in the advanced program. Army Uniforms will be worn at least once a week. The 300-level courses are designed to prepare cadets for the Leader Development and Assessment Course, which is a 52 day summer internship/training program where cadets are trained to Army standards, develop leadership skills, and have their officer potential evaluated. The 400-level courses are the final preparation for commissioning as a second lieutenant in the United States Army. Students must meet academic alignment criteria and receive basic program credit before entering the advanced program.

The College of Liberal Arts and Sciences offers a minor in Military Studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or a number of the ROTC programs. At least 6 credits must be in courses numbered 300 or above.

Courses

Courses primarily for undergraduates:

(1-0) Cr. 1. F. Prereq: Concurrent enrollment in M S 101L required
Examines the role of a Cadet in the Army Reserve Officer Training Corps and a Lieutenant in the United States Army. The course explores a military culture whose ultimate success is determined by the character and proficiency of its leaders. Instruction introduces students to the cultural heritage and history of the U.S. Army. Students will begin to understand the structure of the U.S. Army and how it functions as an organization and institution. The curriculum promotes the development of students’ communication skills to enhance their ability to transmit ideas. The class examines how the Army’s cultural values drive the development of leadership in the Officer Corps. Hands-on activities enable students to gain insight on the skills and abilities required of cadets and officers interacting with civilians and soldiers.
M S 101L. Basic Leadership Laboratory I.
(0-2) Cr. 1. F. Prereq: Concurrent enrollment in M S 101 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. This concept provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Marching, rifle firing, and tactical patrolling; students gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

(1-0) Cr. 1. S. Prereq: Concurrent enrollment in M S 102L required
Instructs students on the fundamental skills and proficiencies required of Cadets in the Army Reserve Officer Training Corps and Officers in the United States Army. Allows students to explore the Army culture whose ultimate success is determined by the character and proficiency of its leaders. Students will gain an insight to the effects of human behavior and communication on the function of the Army's basic unit structures. Special focus is given to the emphasis the Army puts on the development and character of the leader and how that affects the culture and operation of the Army as an institution. Students will develop an understanding of the role that morals and ethics play in becoming an Army Officer and leading American Soldiers. Introduction to basic officer/soldier skills will elucidate the complex role of the Officer in the modern Army.

M S 102L. Basic Leadership Laboratory II.
(0-2) Cr. 1. S. Prereq: Concurrent enrollment in M S 102 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 150. Army Physical Readiness.
(0-3) Cr. 1. Repeatable. F.S.
This lab is designed to use basic military skills and instruction to develop confidence, leadership, and physical fitness. The team approach is utilized in the instruction and application of Army physical fitness requirements. Students will learn various Army physical fitness techniques as well as how to conduct physical fitness sessions. Teaching locations include Lied Recreation Center, Beyer Hall, State Gym as well as around campus. Full participation in all events will be determined based on students' physical and medical eligibility.

(2-0) Cr. 2. F. Prereq: Concurrent enrollment in M S 201L required
Explores the development of leadership and communication skills by understanding and studying the principles, traits, and dynamics of leadership and effective communication techniques. These include: leadership dimensions, human behavior, time management skills, stress management, values and ethics, decision making process, problem solving skills, team building exercises, communication techniques, briefing skills, delegating, nutrition, fitness, and counseling. Leadership assessment programs, role playing, active class participation, speeches, country briefs, and video clips are used to enhance and reinforce the instruction.

M S 201L. Basic Leadership Laboratory III.
(0-2) Cr. 1. F. Prereq: Concurrent enrollment in M S 201 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

(2-0) Cr. 2. S. Prereq: Concurrent enrollment in M S 202L required
Class focuses on the characteristics and features of the Earth's land mass and how to apply different methods of conducting navigation on land. These methods include; by use of topographic maps, compasses, aerial photographs, military maps, symbols, and all their practical application. These navigation techniques are used in class in conjunction with patrolling techniques and squad movement exercises. Students will utilize verbal and non-verbal communication, communication techniques, and briefing techniques during this class. Students are also assigned to read one professional book from the Army Reading List and complete a written review of the book in the Army writing style.

M S 202L. Basic Leadership Laboratory IV.
(0-2) Cr. 1. S. Prereq: Concurrent enrollment in M S 202 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 250. Advanced Army Physical Readiness I.
(0-5) Cr. 2. F. Prereq: Successfully complete M S 150 and permission of Department Chair
Students learn to plan and conduct physical fitness sessions, following Army physical fitness readiness requirements. Development of physical fitness plan and leadership of training sessions. Participation determined by students' physical and medical eligibility.

M S 251. Advanced Army Physical Readiness II.
(0-5) Cr. 2. S. Prereq: Successfully complete M S 150 and M S 250
Students learn to plan and conduct physical fitness sessions, following Army physical fitness readiness requirements. Development of physical fitness plan, and leadership of training sessions. Participation determined by students' physical and medical eligibility.

M S 283. The U.S. Army in American Society to 1917.
(3-0) Cr. 3. F.
Survey of U.S. Army history focused on the Army's social and cultural interactions from colonial wars up to the First World War. Examines the roles of race and culture in Army structure and operations.

Cr. 1-3. Repeatable, maximum of 12 credits. F.S.SS. Prereq: Permission of the Chair of Military Science Department
Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development.
M S 301. Methods of Instructing Military Skills. 
(3-0) Cr. 3. F. Prereq: Completion of the basic Military Science program, concurrent enrollment in M S 301L, and permission of the Chair of the Military Science Department
Develops student’s proficiency in analyzing, planning, and executing complex operations within a military organizational structure. Students are given situational opportunities and then measured on their leadership abilities through systematic feedback. Student’s evaluations are based on sixteen leadership dimensions within the realms of values, attributes, skills, and actions. Students develop an understanding of human cultural heritage and history, as it pertains to the armed forces.

M S 301L. Advanced Leadership Laboratory I. 
(0-4) Cr. 1. F. Prereq: Completion of the basic program, concurrent enrollment in M S 301 and permission of the Chair of the Military Science Department
The lab compliments M S 301 by providing opportunities to practice the lessons from class. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Participating in the Water Survival test, Army Physical Fitness test and the Land Navigation test are required.

(3-0) Cr. 3. S. Prereq: Completion of the basic Military Science program, concurrent enrollment in M S 302L and permission of the Chair of the Military Science Department
Prepares students to attend the Leadership Develop and Assessment Course at Fort Lewis, Washington in which they will be assigned specific and situational tasks to accomplish by providing purpose, motivation, and direction to fellow students across the nation. Students will learn how to identify sixteen leadership dimensions in the under classmen and provide specific feedback on their leadership behaviors. Students will develop their oral communication skills about the plans developed by the class, through small group presentation settings. Students will develop methods of studying human behavior.

M S 302L. Advanced Leadership Laboratory II. 
(0-4) Cr. 1. S. Prereq: Completion of the basic program, concurrent enrollment in M S 302L and permission of the Chair of the Military Science Department
The lab compliments M S 302 by providing opportunities to practice the lessons from class. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Participating in the Water Survival Test, Army Physical Fitness Test and the Land Navigation test required.

(3-0) Cr. 3. F. Prereq: Completion of the basic program, concurrent enrollment in M S 401L and permission of the Chair of the Military Science Department
Develops student proficiency in analyzing and evaluating leadership behaviors, such as values, attributes, skills, and actions. Students are given situational opportunities to assess leadership and provide feedback to other students placed in leadership roles. Students will be measured by their ability to both give and receive systematic and specific feedback on leadership behaviors. Students will develop their ability to communicate thoughts and ideas orally through small group presentations and group discussions. Students will supervise and evaluate the planning and execution of complex operations within a military organizational structure.

M S 401L. Advanced Leadership Laboratory III. 
(0-4) Cr. 1. F. Prereq: Completion of the basic program, concurrent enrollment in M S 401L and permission of the Chair of the Military Science Department
The lab compliments the instruction from class by demonstrating the indelible link between personal values and successful leadership. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs.

(3-0) Cr. 3. S. Prereq: Completion of the basic program, concurrent enrollment in M S 402L and permission of the Chair of the Military Science Department
Explores the dynamics of leading in the complex situations of current military operations in a contemporary world. Students will examine the differences in customs, courtesies and operational principles in the face of international terrorism. Students will also explore aspects of interaction with nongovernmental organizations, civilians and media in a war zone and foreign national governments. The course uses case studies, scenarios, and practical exercises, which prepare the student to face complex ethical and practical demands of leading soldiers within a multifaceted military organizational structure.

M S 402L. Advanced Leadership Laboratory IV. 
(0-4) Cr. 1. S. Prereq: Completion of the basic program, concurrent enrollment in M S 402 and permission of the Chair of the Military Science Department
The lab compliments the instruction from class by demonstrating the indelible link between personal values and successful leadership. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs.

(1-0) Cr. 1. Repeatable, maximum of 4 credits. F.S.S. Prereq: M S 301, M S 302, M S 401 and M S 402 and permission of the Chair of the Military Science Department
Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development.

Military Studies
Interdepartmental Minor
The Military Studies program is designed for students interested in learning about military skills and careers. The mission of the Reserve Officers’ Training Corps (ROTC) programs is threefold. First, students are developed mentally, morally, and physically in order to make them strong leaders. Second, a desire for development in mind and character is instilled in students so they may assume the highest responsibilities of command, citizenship, and government. Finally, students are imbued with the highest ideals of duty, honor, and loyalty in order to graduate with a basic professional background and motivation toward their careers.

The Military Science, Naval Science and Air Force Aerospace departments accomplish this mission through detailed courses of instruction occurring throughout a typical student’s college career. All academic courses offered by these departments focus on the development of professional military skills and their application. Each department offers courses unique to its branch of the military. Students in Army ROTC classes gain an appreciation for ground warfare and doctrine, while the Naval Science program develops basic seamanship skills such as navigation and marine propulsion. The Air Force Aerospace Studies curriculum familiarizes students with Air Force structure and doctrine. On a broader scale, all three departments offer courses promoting leadership and sound management practices that investigate the military’s role in American domestic and foreign policy, and can be employed in any career path.

Military Science, Naval Science and Air Force Aerospace courses are offered in the interdepartmental Military Studies program in the following participating departments: Military Science, Naval Science and Air Force Aerospace.

Undergraduate Study
Undergraduate study in this program provides the student with an opportunity to develop a minor in Military Studies. The three Iowa State University ROTC programs offer over 64 credits of specialized coursework. The minor in Military Studies is open to any Iowa State University student.

Undergraduate students may minor in Military Studies by taking 15 credits of coursework from a combination of any of the three ROTC programs - regardless of whether or not a commission in the Armed Forces is tendered. At least 6 of the 15 credits must be in courses numbered 300 or above.

Music
Administered by the Department of Music and Theatre

Undergraduate Study
The Department of Music and Theatre offers a strong undergraduate music program, where students study with full-time faculty professionals in a supportive environment that encourages students to become their best.

The music curriculum provides:
1. A comprehensive program of professional studies for students who wish to prepare for careers in music, including teaching, performance, and composition, and for students who plan to pursue graduate studies in music.
2. Courses in music literature, theory and areas of performance for all students, regardless of major.
The department embodies the land-grant philosophy of service to the people of the state with a faculty of active scholars, teachers, and artists committed to excellence in teaching, creative/scholarly work, and arts outreach. The department is an accredited institutional member of the National Association of Schools of Music (NASM).

The Theatre Program is administered by the Department of Music and Theatre (see Index, Theatre and Performing Arts.)

Minor in Music

Candidates for the minor in music will complete 19 credits in music including:

At least six of the fifteen credits must be taken at Iowa State University in courses numbered 300 or above with a grade of C or higher. The minor must include at least nine credits not used to meet any other department, college, or university requirement. Students pursuing a minor in music technology must meet the audition requirements and/or prerequisites for all music courses they wish to take.

Curricula Available to Music Majors

Students interested in pursuing an emphasis in music theater should see Index, Theater and Performing Arts.

Bachelor of Music

This curriculum leads to the degree bachelor of music. This degree is more specialized and contains fewer general education requirements than the bachelor of arts degree with a major in music. Students in this curriculum choose between options in education, performance, and composition. To obtain a bachelor of music degree, a student must earn a minimum of 125-146.5 credits (depending on the option chosen) including a minimum of 32 credits in residence at Iowa State University and a minimum of 45 advanced credits in courses numbered 300 or above and must meet all of the requirements specified below.

Courses taken on a pass/not pass basis may be counted toward the required total credits, and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement.

**Bachelor of Arts—Music Major**

A more general degree than the bachelor of music, the bachelor of arts degree requires no formal specialization. It includes more general education requirements and provides a broader course of academic study.

For the undergraduate curriculum in Liberal Arts and Sciences, major in music, leading to the degree bachelor of arts, see Liberal Arts and Sciences, Curriculum.

Candidates for the degree bachelor of arts with a music major will normally complete 48 credits of music including the following required courses:

<table>

Total Credits 48

Bachelor of arts students whose chief professional interest lies in research are encouraged to minor in world languages and cultures, history, literature, or philosophy.

**General Requirements**

**Entrance Audition.**

In order to be accepted as a music major, a prospective student must pass an entrance audition for the applied faculty in his/her performance area (piano, organ, woodwinds, strings, percussion, brass, or voice). Passing the audition is dependent on the demonstration of performance skills appropriate for college level instruction and the potential to perform at a professional level. In addition, the number of students accepted must balance with the space available in the corresponding applied studios. Once accepted, a student must complete a placement examination in keyboard skills. This examination is normally given by members of the departmental faculty the week preceding the opening of classes for fall semester.

**Seminars and Recitals.**

All music majors enrolled for applied music courses will attend a weekly 1-hour seminar in their areas, departmental recitals, and 12 recitals of their choosing each semester.
Ensemble Requirement.
See the options above for additional ensemble requirements.

All Bachelor of Music students:
Enrollment in an ensemble course, chosen from the lists below, each semester of full-time enrollment (except during student teaching) is required.

Students in a music education options:
At least six semesters of large ensemble and one semester of chamber music ensemble, chosen from the lists below, are required. One semester of 114A may count as a large ensemble.

Bachelor of Music students in options other than education:
At least 2 semesters of large ensemble and one semester of chamber music ensemble, chosen from the lists below, are required.

Large Ensembles:

Continuation Examination
To be approved for continuation as a music major on the junior level, and enroll in Music 319, a student must pass a continuation examination taken normally at the end of the fourth semester as a music major. Before taking this examination, the student must complete the requisite forms as well as write an essay including:

1. his/her personal goals
2. a self-assessment of his/her progress thus far
3. an assessment of what he/she expects to accomplish before graduation

The student taking the Continuation Examination performs for a Continuation Examination Committee. Requirements include the performance of three works representing different periods or styles selected by, and studied with, the applied teacher, a self-prepared piece, and sight reading. The student must display acceptable solo ability and performance techniques in at least one of the applied areas. A written evaluation will be given each student following his/her performance. This evaluation will include a candid assessment of the student’s potential to achieve his/her goals. In addition, the student may arrange to meet with members of the Continuation Examination Committee at a later date to discuss the results of his/her Continuation Examination. See Piano Proficiency below. For details and forms go to: www.music.iastate.edu

Piano Proficiency Requirement
All music majors must demonstrate proficiency in functional skills at the piano. Beginning keyboard techniques, sight-reading, and ear training. Basic materials of music: notation, scales, intervals, key signatures, time signatures, transposition. Open to non-majors only.

Graduation Proficiency
To be recommended for graduation, a music student should demonstrate to the music faculty mature acquaintance with performance styles, technique, and repertoire. All music majors will participate in departmental recitals to the satisfaction of the department. Candidates for the bachelor of music degree will present a graduation recital.

Communication Proficiency requirement:
The department requires a grade of C– or better in each of ENGL 150 and ENGL 250 (or ENGL 250H). In addition the Communication Proficiency must be certified through one of the following options:

1. Certification of writing skills, by the instructor, after completion of one of the following:
   - MUSIC 383 History of Music I
   - MUSIC 384 History of Music II
   - MUSIC 472 History of American Music
   - MUSIC 473 Music of the Baroque and Classical Eras
   - MUSIC 475 Music of the Romantic Era

   (Passing one of these courses does not automatically satisfy the requirements for Communication Proficiency.)

2. Satisfactory completion of an advanced writing course:
   - ENGL 302 Business Communication
   - ENGL 305 Creative Writing—Nonfiction
   - ENGL 314 Technical Communication

Learning Outcomes and Assessment
Music graduates will understand and demonstrate:

1. Knowledge of music cultural heritage and history
2. Appreciation for musical creativity, reasoning, and the aesthetic value of music
3. Knowledge of organization and structures of music
4. Analytical skills necessary for listening, performing, and teaching
5. Skills necessary to perform music from a variety of periods, styles, and genres
6. Necessary abilities to communicate ideas musically, verbally, and in writing
7. Awareness of the diversity of musical ideas throughout the world’s cultures
8. For Music Education students: success in meeting the ISU Teaching Standards as outlined by the University Teacher Education Program

Assessment measures include the continuation examination, graduating senior surveys and exit interviews, public performances, senior projects, course grades, teacher certification (for music education students), and the National Association of Schools of Music accreditation review.

Courses

Courses primarily for undergraduates:

(1-2) Cr. 2. F.S. Prereq: Ability to read elementary musical notation
Notation, recognition, execution and analysis of scales, intervals, triads, and rhythm; key signatures; time signatures; transposition. Open to non-majors only.

MUSIC 102. Introduction to Music Listening.
(3-0) Cr. 3. F.S.SS.
Introduction to music listening experiences for the general student through greater awareness of differences in techniques of listening, performance media, and materials of the art. The course focuses on the elements of music: rhythm, melody, harmony, form, and style, and how these elements are used in musics of different cultures and time periods. Ability to read or perform music not required.

MUSIC 105. Basic Musicianship.
(1-4) Cr. 3. F.S. Prereq: Performing arts major status or permission of instructor.
Introduction to keyboard techniques, sight-reading, and ear training. Basic materials of music: notation, scales, intervals, key signatures, time signatures, rhythm, and harmony.

MUSIC 111. Wind Ensemble.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Emphasis on significant extended compositions for wind and percussion instruments.
Performances include formal concerts on campus and the annual tour.
MUSIC 112. Concert Band.
(0-2) Cr. 1. Repeatable. F.S. Prereq: Open to all students who have performed on a wind or percussion instrument in high school band or orchestra
Repertoire includes the broad spectrum of band music. Two concerts are presented each semester.

MUSIC 113. Jazz Ensemble.
(0-2) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Designed to explore various styles and trends in contemporary jazz.

MUSIC 114. Marching and Pep Bands.
(0-5) Cr. 1. Repeatable. Performances at athletic events.

MUSIC 114A. Marching and Pep Bands: Marching Band.
(0-5) Cr. 1. Repeatable. F.
Membership determined by audition and band application. Auditions held for woodwind, brass, percussion, flag, and twirler positions. Presentation of pre-game and half time shows at each home football game; additional performances are also scheduled on and off campus. Audition information is listed on the band website (www.music.iastate.edu/org/marching).

MUSIC 114B. Marching and Pep Bands: Pep Band.
(0-5) Cr. 1. Repeatable. S. Prereq: Students selected by audition from members of MUSIC 114A.
Performances at basketball games.

MUSIC 115. Symphonic Band.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Stresses high quality wind literature. Performances include formal concerts on campus.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118C. Applied Music: Non-majors: Organ.
(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 119. Applied Music for Majors.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
Applied music for music majors.

MUSIC 119A. Applied Music for Majors: Voice.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119B. Applied Music for Majors: Piano.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119C. Applied Music for Majors: Organ.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119D. Applied Music for Majors: Strings.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119E. Applied Music for Majors: Carillon.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119F. Applied Music for Majors: Woodwinds.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119G. Applied Music for Majors: Brass.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

(0.5-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 120. Introduction to Music Literature and Styles.
(3-0) Cr. 3. S. Prereq: MUSIC 221; music major status or permission of instructor
Direct studies via aural analysis for music majors with emphasis on the materials of music, form and aesthetic issues. Introduction to style and literature of the major performance media in context of historical chronology. Fundamentals of score reading and performance terminology. Only one of Music 120 and 302 can count toward graduation.

MUSIC 127. Class Study in Piano I.
(0-2) Cr. 1. F.S. Prereq: Music major status or permission of instructor
Beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills.

MUSIC 128. Class Study in Piano II.
(0-2) Cr. 1. F.S. Prereq: MUSIC 127 or permission of instructor
Continuation of beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills.

MUSIC 131. Vocal Jazz Ensemble: "Off the Record".
(0-2) Cr. 1. Repeatable. Prereq: Open by audition and permission of instructor; concurrent enrollment in one of the following: MUSIC 141, MUSIC 151, MUSIC 161 Small mixed chorus specializing in advanced vocal jazz techniques. Performances on and off campus.
MUSIC 141. Lyrica Women’s Choir.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all female students by audition
Large chorus; emphasis on fundamental vocal and choral skills, wide variety of
literature. Campus concerts each semester.

MUSIC 151. Oratorio Chorus.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Advanced skills required, high quality literature. Campus concerts each semester,
some concerts in conjunction with orchestras. Men’s and women’s choirs separately
and in combination.

MUSIC 151A. Oratorio Chorus: Cantamus Women’s Choir.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Advanced skills required, high quality literature. Campus concerts each semester,
some concerts in conjunction with orchestras. Men’s and women’s choirs separately
and in combination.

MUSIC 151B. Oratorio Chorus: Statesmen Men’s Choir.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Advanced skills required, high quality literature. Campus concerts each semester,
some concerts in conjunction with orchestras. Men’s and women’s choirs separately
and in combination.

MUSIC 161. Iowa State Singers.
(0-5) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Concert choir specializing in performance of advanced music literature, Renaissance
through contemporary. Campus concerts, annual spring tour.

MUSIC 181. Symphony Orchestra.
(0-4) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Reading, preparation, and performance of standard repertoire. Five or six concerts
annually plus occasional off-campus appearances.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to
music majors
Applied music for music majors.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to
music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
expected. Weekly seminar required.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to
music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
expected. Weekly seminar required.

MUSIC 219C. Applied Music: Majors: Organ.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to
music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
expected. Weekly seminar required.

MUSIC 219D. Applied Music: Majors: Strings.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to
music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
expected. Weekly seminar required.

MUSIC 219E. Applied Music: Majors: Carillon.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to
music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
expected. Weekly seminar required.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to
music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
expected. Weekly seminar required.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to
music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
expected. Weekly seminar required.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to
music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
expected. Weekly seminar required.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to
music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is
expected. Weekly seminar required.

MUSIC 221. Introduction to Music Theory.
(3-0) Cr. 3. F. Prereq: Major status or permission of instructor; concurrent
enrollment in MUSIC 222 recommended
Fluent identification and application of the elements of music and music notation. The
study of two-voice species counterpoint as an introduction to voice-leading principles
in common practice period music.

MUSIC 222. Introduction to Aural Theory and Music Technology.
(0-4) Cr. 2. F. Prereq: Major status or permission of instructor; credit or
enrollment in MUSIC 221
Aural discrimination of musical elements and patterns as demonstrated by proficiency
in ear training, sight singing, and related musicianship skills. Introduction to
technological equipment and software used in the study of music.

MUSIC 227. Class Study in Piano III.
(0-2) Cr. 1. F.S. Prereq: MUSIC 128 or permission of instructor
Intermediate keyboard technique, transposition, harmonization, improvisation,
repertory, and sight-reading skills. Introduction to score reading, hymn playing,
and accompanying at the piano.

MUSIC 228. Class Study in Piano IV.
(0-2) Cr. 1. F.S. Prereq: MUSIC 227 or permission of instructor
Continuation of intermediate keyboard technique, transposition, harmonization,
improvisation, repertory, score reading, hymn playing, and accompanying at the piano.

MUSIC 231. Materials of Music I.
(3-0) Cr. 3. S. Prereq: MUSIC 221; concurrent enrollment in MUSIC 232
Recommended
Harmonic, melodic, and rhythmic materials of the common practice period.
Application of these materials in analysis and writing. Techniques of melodic
construction, formal design, and harmonization.

MUSIC 232. Aural Theory I.
(0-3) Cr. 1. S. Prereq: MUSIC 222; credit or enrollment in MUSIC 231
Development of sight singing, ear training, and related musical skills with emphasis
on melodic, harmonic and rhythmic materials from the common practice period.

MUSIC 246. Introduction to Music Technology.
(2-0) Cr. 2. F.S. Prereq: MUSIC 101, MUSIC 105, or MUSIC 221, or permission of
instructor
Introduction to audio and MIDI applications using a digital audio workstation. Includes
fundamentals of audio editing and mixing, MIDI theory, practical projects in software-
based musical arrangements and composition.

MUSIC 248. Technology in Music Instruction.
(2-0) Cr. 2. S. Prereq: MUSIC 221 and MUSIC 222
Introduction to computer software applications used in musical arrangements
and presentations, practical introduction to audio and MIDI technologies in lab-
based music instruction, basic recording/sound reinforcement and music website
management. Intended for Music Education Majors.

MUSIC 265. Music in Elementary Education.
(2-0) Cr. 2. F.S. Prereq: HD FS 102 or PSYCH 230
Experiencing and understanding the fundamentals of music through singing, playing
classroom instruments, body movement, reading notation, listening, and creative
activities. Developing lesson plan strategies and sequence, exploring multicultural
musics, integrating music with other subjects in the elementary classroom, and
evaluating aspects of musical learning.

MUSIC 266. Introduction to Music Education.
(1-2) Cr. 2. F. Prereq: Concurrent enrollment (.5 cr.) in MUSIC 480K
Required for second-year majors in music education. Historical, philosophical, and
social foundations of music education; music curricula overview including goals of the
music program, and contemporary and international curriculum development;
psychology of teaching music including discipline techniques. Preparation for
required observations in area schools.
MUSIC 290. Special Problems.
Cr. arr. Repeatable. F.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent study.

MUSIC 290A. Special Problems: Education.
Cr. arr. Repeatable. F.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent study in music education.

MUSIC 290B. Special Problems: Theory.
Cr. arr. Repeatable. F.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent study in music theory.

MUSIC 290C. Special Problems: Composition.
Cr. arr. Repeatable. F.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent study in music composition.

MUSIC 290D. Special Problems: History.
Cr. arr. Repeatable. F.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent study in music history.

MUSIC 290E. Special Problems: Literature.
Cr. arr. Repeatable. F.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent study in music literature.

Cr. arr. Repeatable. F.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent study in applied music.

MUSIC 290G. Special Problems: Conducting.
Cr. arr. Repeatable. F.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent study in conducting.

MUSIC 290H. Special Problems, Honors.
Cr. arr. Repeatable. F.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent honors project in music.

MUSIC 290J. Special Problems: Business.
Cr. arr. Repeatable. F.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent study in music business.

MUSIC 301. Opera Studio.
Cr. 1-3. Repeatable. F.S. Prereq: Permission of instructor
Study of selected opera scenes, chamber operas, and works from contemporary and classical music theater. Basic stagecraft, role interpretation, production.

MUSIC 301A. Opera Studio: Opera/Operetta.
Cr. 1-3. Repeatable. F.S. Prereq: Permission of instructor
Study of selected opera scenes and chamber operas. Basic stagecraft, role interpretation, production.

MUSIC 301B. Opera Studio: Music Theater.
Cr. 1-3. Repeatable. F.S. Prereq: Permission of instructor
Study of selected works from contemporary and classical music theater. Basic stagecraft, role interpretation, production.

MUSIC 302. The History of Music in Western Culture.
(3-0) Cr. 3. S. S. Prereq: MUSIC 102
Study of the evolution of music styles through history with emphasis on listening. Primarily European music with some non-Western music providing a global perspective. Individual composer’s unique approaches to timbre, texture, rhythm and melody. General trends in the progress of style and form. Concert reports and papers in addition to examinations. Ability to read music recommended, but not required. Open to non-majors only. Only one of Music 120 and 302 can count toward graduation.

MUSIC 304. History of Rock ‘n Roll.
(3-0) Cr. 3. S. Prereq: MUSIC 101, MUSIC 102, MUSIC 221, or MUSIC 222
Rock ‘n Roll from the mid 1950s through the 1990s, focusing on the development of rock styles from its roots in blues, folk, country, and pop. Expansion of listening experience through study of song forms, musical instruments of rock, and the socio-political significance of song lyrics. Examinations, research paper or in class presentation required. Ability to read or perform music not required. Meets U.S. Diversity Requirement

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
Applied music for students other than music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(0.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(0.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318C. Applied Music: Non-majors: Organ.
(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(0.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(0.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(0.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(0.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(0.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(0.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(0.5-0) Cr. 1-2. Repeatable. F.S. Prereq: Audition, permission of instructor
(0.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
Applied music for music majors.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319B. Applied Music: Majors: Piano.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319C. Applied Music: Majors: Organ.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319D. Applied Music: Majors: Strings.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(1-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 321. Advanced Ensemble.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in chamber music ensembles that demand high proficiency.

MUSIC 321A. Advanced Ensemble: Voice.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321B. Advanced Ensemble: Piano.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321C. Advanced Ensemble: Organ.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321D. Advanced Ensemble: Strings.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321F. Advanced Ensemble: Woodwinds.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

(0-3) Cr. 1. Repeatable. F.S. Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

(0-3) Cr. 1. Repeatable. F.S. Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

(0-3) Cr. 1. Repeatable. F.S. Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 324. English and Italian Diction for Singing.
(2-0) Cr. 2. Alt. F., offered 2012. Prereq: Credit or enrollment in MUSIC 118A or MUSIC 119A
The international phonetic alphabet and its application to correct pronunciation of English and Italian in singing.

MUSIC 325. French and German Diction for Singing.
(2-0) Cr. 2. Alt. S., offered 2013. Prereq: Credit or enrollment in MUSIC 118A or MUSIC 119A
The international phonetic alphabet and its application to correct pronunciation of French and German in singing.

MUSIC 327. Functional Piano.
(0-3) Cr. 2.
Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.

MUSIC 327A. Functional Piano: Keyboard majors.
(0-3) Cr. 2. Prereq: MUSIC 228 or permission of instructor
Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.

MUSIC 327B. Functional Piano: Voice Majors.
(0-3) Cr. 2. S. Prereq: MUSIC 228 or permission of instructor
Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.

MUSIC 331. Materials of Music II.
(3-0) Cr. 3. F. Prereq: MUSIC 231; concurrent enrollment in 332 recommended
Harmonic, melodic, and rhythmical materials of the common practice period.
Application of these materials in analysis and writing. Techniques of melodic construction, formal design, and harmonization.

MUSIC 332. Aural Theory II.
(0-2) Cr. 1. F. Prereq: MUSIC 232; credit or enrollment in 331
Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmical materials from the eighteenth and nineteenth centuries.

MUSIC 337. Materials of Music III.
(3-0) Cr. 3. S. Prereq: MUSIC 331; concurrent enrollment in MUSIC 338 recommended
Writing and analysis based on musical styles since 1900.

MUSIC 338. Aural Theory III.
(0-2) Cr. 1. S. Prereq: MUSIC 332; credit or enrollment in MUSIC 337
Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmical materials from the nineteenth and twentieth centuries.

MUSIC 346. MIDI and Digital Audio Techniques.
(3-0) Cr. 3. S. Prereq: MUSIC 246 or permission of instructor
Advanced MIDI and digital audio programming applications for composition and live performance. Nonmajor graduate credit.

MUSIC 350. Instrumental Techniques: Strings.
(0-2) Cr. 1. F. Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 351. Instrumental Techniques: Clarinet, Flute, Saxophone.
(1-2) Cr. 2. S. Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 352. Instrumental Techniques: Oboe, Bassoon.
(0-2) Cr. 1. F. Prereq: MUSIC 351 or permission of instructor. Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 353. Instrumental Techniques: Trumpet, Horn.
(0-2) Cr. 1. F. Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 354. Instrumental Techniques: Trombone, Baritone, Tuba.
(0-2) Cr. 1. S. Prereq: MUSIC 353 or permission of instructor. Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.
(0-2) Cr. 1. S. Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B. Limited to music majors
Techniques and skills required to teach percussion instruments in the schools. Techniques for performing and teaching snare drum, keyboard percussion instruments, timpani, band and orchestral hand instruments, drum set, and Latin percussion. Intended for instrumental music education students.

MUSIC 358. Lab Ensemble.
Cr. R. Repeatable.
Review and selection of appropriate literature for ensembles of differing levels and abilities; conducting and rehearsal experience. Intended for music education students.

MUSIC 358A. Lab Ensemble: Choral.
Sight singing, conducting, and accompanying experience in conjunction with 362A. Required of all vocal music education majors every semester offered.

MUSIC 358B. Lab Ensemble: Instrumental.
Cr. R. Repeatable. F.S.
Performance on secondary instruments. Includes experiences with singing and vocal techniques. Required of all instrumental music education majors in those semesters when enrolled in 350, 351, 352, 353, 354, 355, or 362B.

MUSIC 360. Voice Pedagogy.
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: MUSIC 319A or vocal proficiency examination
Physical, acoustical, and musical properties of the vocal instrument, including a survey of important texts and articles on singing and voice production.

MUSIC 361. Conducting I.
(1-2) Cr. 2. F. Prereq: MUSIC 231, MUSIC 232, Music major status or permission of instructor
Introduction to conducting; score reading and analysis. Conveying musical ideas through appropriate gestures. Leadership role of the conductor.

MUSIC 362. Conducting II.
(1-2) Cr. 2.

MUSIC 362A. Conducting II: Choral Conducting Techniques.
(1-2) Cr. 2. Alt. S., offered 2013. Prereq: Music major status or permission of instructor; MUSIC 361; concurrent enrollment in MUSIC 358A and MUSIC 141, MUSIC 151, or MUSIC 161.
Advanced baton technique, score preparation and interpretation of choral repertoire.

MUSIC 362B. Conducting II: Instrumental Conducting Techniques.
(1-2) Cr. 2. S. Prereq: Music major status or permission of instructor; MUSIC 361; concurrent enrollment in MUSIC 358B
Advanced baton technique. Score preparation. Specific problems of large instrumental ensembles.

MUSIC 366. Methods of Music Education.
(2-0) Cr. 2. F. Prereq: Concurrent enrollment (1 cr.) in MUSIC 480K and SP ED 401; MUSIC 266 and admission into teacher education.
Music education strategies and materials including development of appropriate objectives and plans for general music classes utilizing traditional and multicultural musics, evaluating musical learning; overview of Orff Schulwerk, Kodaly, and Dalcroze approaches; music in special education; required teaching in lab settings and observations in area schools.

MUSIC 367. Choral Literature.
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: MUSIC 361 recommended
Overview of choral repertoire from the sixteenth century to the present, including accessible works for the young conductor.

MUSIC 368. Marching Band and Jazz Ensemble Techniques.
(2-0) Cr. 2. Alt. S., offered 2013. Prereq: Credit or enrollment in MUSIC 362B recommended
Techniques and materials for teaching marching band in the high school; philosophy, computer assisted drill design, music analysis, band set up, and other related skills. Jazz style, articulation, phrasing, materials and teaching techniques for secondary school jazz ensembles.

MUSIC 383. History of Music I.
(3-0) Cr. 3. F. Prereq: MUSIC 120; music major status or permission of instructor
History of the stylistic and cultural development of music: Middle Ages through Baroque.
Meets International Perspectives Requirement.

MUSIC 384. History of Music II.
(3-0) Cr. 3. S. Prereq: MUSIC 383; music major status or permission of instructor
History of the stylistic and cultural development of music: Classical through contemporary music.
Meets International Perspectives Requirement.

Cr. 1-4. Repeatable. F.S. Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

Cr. 1-4. Repeatable. F.S. Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

Cr. 1-4. Repeatable. F.S. Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

Cr. 1-4. Repeatable. F.S. Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 415D. Literature and Pedagogy in Applied Music: Strings.
Cr. 1-4. Repeatable. F.S. Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

Cr. 1-4. Repeatable. F.S. Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

Cr. 1-4. Repeatable. F.S. Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

Cr. 1-4. Repeatable. F.S. Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

Cr. 1-4. Repeatable. F.S. Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 417. Student Teaching.
Cr. 8-12. F.S. Prereq: Admission to teacher education, approval of coordinator during semester before student teaching.
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 417R. Student Teaching: Music-Elementary.
(Dual-listed with MUSIC 517R). (Cross-listed with C I). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching.
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 417S. Student Teaching: Music-Secondary.
(Dual-listed with MUSIC 517S). (Cross-listed with C I). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching.
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 419. Applied Music: Majors.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
Applied music for music majors.

MUSIC 419A. Applied Music: Voice.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419B. Applied Music: Piano.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.
MUSIC 419C. Applied Music: Organ.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: audition, permission of instructor; restricted to music majors
(.5-2 for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419D. Applied Music: Strings.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: audition, permission of instructor; restricted to music majors
(.5-2 for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419E. Applied Music: Carillon.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: audition, permission of instructor; restricted to music majors
(.5-2 for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419F. Applied Music: Woodwinds.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: audition, permission of instructor; restricted to music majors
(.5-2 for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419G. Applied Music: Brass.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: audition, permission of instructor; restricted to music majors
(.5-2 for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419H. Applied Music: Percussion.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: audition, permission of instructor; restricted to music majors
(.5-2 for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419K. Applied Music: Harpsichord.
(1-2) Cr. 1-3. Repeatable. F.S. Prereq: audition, permission of instructor; restricted to music majors
(.5-2 for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 420. Junior/Senior Recital.
Cr. R. Repeatable. F.S.S. Prereq: Advanced performing ability, permission of instructor, concurrent registration in Music 319 or 419.
Performance of advanced repertory in a public concert. Preparation of program notes. Offered on a satisfactory-fail basis only.

MUSIC 440. Seminar in Music Theory.
(3-0) Cr. 3. Repeatable. S. Prereq: MUSIC 337, MUSIC 338
Various topics in music theory including analysis, counterpoint, arranging, pedagogy, and psychology of music. Content will vary. Contact the Department of Music for the current year offering. Nonmajor graduate credit.

MUSIC 446. Electronic Music Synthesis.
(3-0) Cr. 3. F. Prereq: MUSIC 246 or permission of instructor
Techniques of digital sound synthesis, software synthesizer design, and electronic music composition. Nonmajor graduate credit.

MUSIC 446A. Instrumental Administration, Materials, and Methods.
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: Credit or enrollment in MUSIC 362B recommended
Instructional materials and methods appropriate for teaching instrumental music in elementary, middle school, and high school music programs. Required observations in area schools. Intended for instrumental music education students.

MUSIC 456. Choral Materials and Methods.
(2-0) Cr. 2. F. Prereq: Concurrent enrollment in MUSIC 358A and MUSIC 141, MUSIC 151, or MUSIC 161
Instructional materials and methods appropriate for teaching choral music in the secondary school. Emphasis on pedagogy and rehearsal techniques. Required observations in area schools. Intended for vocal music education students.

MUSIC 466. Program Development and Evaluation in Music Education.
(2-1) Cr. 2. F. Prereq: Continuation Examination passed; MUSIC 362, MUSIC 366, concurrent enrollment (1 cr.) in MUSIC 480K
Developing a rationale for music education; music program development; evaluation of music curricula, programs and facilities; professional growth of the teacher; preparation for student teaching and the job market. Required observations in area schools.

(3-0) Cr. 3. Prereq: Ability to read music; 9 credits from music, American literature, American history, art history
History and development of the sacred and secular music in North America from approximately 1600 to the present, exploring the diverse cultural backgrounds that have contributed to the variety of contemporary musical styles. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

(3-0) Cr. 3. Prereq: MUSIC 383, MUSIC 384
Offered F. 2011. Detailed survey of instrumental, vocal, choral, and keyboard music from 1600 to 1825. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: MUSIC 383, MUSIC 384
Offered F. 2012. Detailed survey of instrumental, vocal, choral, and keyboard music from 1825 to 1910. Nonmajor graduate credit.

MUSIC 476. Music of the Twentieth Century.
(3-0) Cr. 3. Prereq: MUSIC 383, MUSIC 384
Offered S 2013. Detailed survey of instrumental, vocal, choral, and keyboard music from 1900 to the present. Nonmajor graduate credit.

MUSIC 480. Field Experience for Secondary Teaching Preparation.
(Cross-listed with C I). Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq:
Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.).

(Cross-listed with C I). Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq:
Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.).

MUSIC 490. Independent Study.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490A. Independent Study: Education.
(Cross-listed with C I). Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490B. Independent Study: Theory.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490C. Independent Study: Composition.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490D. Independent Study: Literature.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490E. Independent Study: History.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head

Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490G. Independent Study: Conducting.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490H. Independent Study: Honors.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head

Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head
Courses primarily for graduate students, open to qualified undergraduates:

MUSIC 517R. Student Teaching: Music-Elementary.
(Dual-listed with MUSIC 417R). (Cross-listed with C I). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching.
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 517S. Student Teaching: Music-Secondary.
(Dual-listed with MUSIC 417S). (Cross-listed with C I). Cr. arr. F.S. Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching.
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 590. Special Topics.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor, approval of department head

MUSIC 590A. Special Topics: Education.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor, approval of department head

MUSIC 590B. Special Topics: Theory.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor, approval of department head

MUSIC 590C. Special Topics: Composition.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor, approval of department head

MUSIC 590D. Special Topics: History.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor, approval of department head

MUSIC 590E. Special Topics: Literature.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor, approval of department head

Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor, approval of department head

MUSIC 590G. Special Topics: Conducting.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor, approval of department head

Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor, approval of department head

Naval Science

The Department of Naval Science is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program but does not offer an academic degree. The courses offered by the Department are developed by the Department of the Navy. The Naval Science Department and Naval ROTC (NROTC) Program develop individuals mentally, morally, and physically, and imbue in them the highest ideals of duty and loyalty, in order to commission them upon graduation as Navy and Marine Corps officers. Program graduates possess a basic professional background, are motivated towards careers in the Naval Service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship, and government. Emphasis is placed on the core values of courage, honor and commitment.

Naval Science courses are open to any ISU student who has met the course prerequisites. To participate in the Naval ROTC Program, students must apply through one of two programs: the NROTC Scholarship Program (full scholarship; which includes a book stipend, tuition, laboratory fees, uniforms, and a monthly stipend), or the College Program (nonscholarship, with limited financial assistance). Applicants for the Scholarship Program are selected through a comprehensive nationwide competition. Applicants for the College Program are selected by the Professor of Naval Science from among students already in attendance at, or selected for admission by, the university. The College Program involves limited financial assistance for each of the last two academic years. Upon application, students choose between the Navy Option and Marine Corps Option, for the purposes of training focus. NROTC students pursue their studies like other university students except that they must meet certain additional requirements that will prepare them to serve as naval officers upon graduation.

A Marine Corps Option student incurs a minimum 4-year active duty military obligation as a commissioned officer after graduation; a Navy Option student incurs a minimum 5-year active duty obligation.

Further information is available from the Professor of Naval Science, Iowa State University.

While in the NROTC Program, Scholarship Program students will participate (with pay) in at-sea training cruises during the summer. College Program students will participate in at-sea training during the summer between their Junior and Senior year only. Students are also exposed to regular and extracurricular activities that teach leadership principles and help them decide which field of the Navy or Marine Corps they wish to enter. These activities also include weekly leadership laboratory periods and opportunities for involvement in several student societies.

Undergraduate Study

Naval science courses are primarily for those students in the NROTC program, however, other university students may also enroll. Students enrolled in the NROTC program must fulfill the following requirements:

<table>

1. All NROTC students must complete one course in American military history or national security policy. A course in non-western culture or religion is also required of all Navy-option students.
2. All Navy option scholarship students must successfully complete MATH 165 Calculus I and MATH 166 Calculus II by the end of the sophomore year and PHYS 221 and PHYS 222 by the end of the junior year.
3. In addition to the normal Naval Science courses, all NROTC students are required to participate in laboratory periods that supplement the various academic courses. The Leadership Lab emphasizes human relations principles, teaches basic military formations, movements, commands, courtesies, and honors, and provides practice in unit leadership. Non NROTC program students enrolled in Naval Science courses are not required to participate in laboratory periods.
4. Navy option scholarship students are encouraged to major in engineering and physical sciences to meet the technological requirements of the modern Navy, however Navy-option students and Marine Corps-option students may pursue any major leading to a Bachelor’s Degree.
5. The College of Liberal Arts and Sciences offers a minor in military studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from any of the three ROTC programs offered on campus. At least 6 credits must be in courses numbered 300 or above.

For basic undergraduate curriculum requirements, see Liberal Arts and Sciences, Curriculum; or Engineering, Curricula.

Courses
Courses primarily for undergraduates:

N S 111. Introduction to Naval Science.
(3-0) Cr. 3. F.
Introduction to the organization, regulations, and capabilities of the US Navy, with emphasis on mission and principal warfare components.

N S 212. Seapower and Maritime Affairs.
(3-0) Cr. 3. S.
An historical survey of sea power in terms of national domestic environments, foreign policy, and the evolution of maritime forces with trends in technology, doctrine, and tactics. The student will develop an understanding of the role the US Navy has played in the nation's history, both in peace and war. Naval events, forces and policies will be studied as elements in the shaping of the national consciousness and sense of purpose. Course content will include the development of the concept of sea power, the role of various warfare components of the Navy, the implementation of sea power as an instrument of national policy, the evolution of naval tactics, and the influence of maritime affairs around the world.

N S 220. Leadership and Management.
(3-0) Cr. 3. Alt. F., offered 2012.
Experiential approach to learning principles of leadership and management by examining various management theories and their applications. Skills are developed in the areas of communication, counseling, control, direction, management, and leadership through active guided participation.

(3-0) Cr. 3. S. Prereq: Sophomore classification
Study of the fundamentals of marine navigation used by ships at sea; includes practical exercises in piloting using visual and electronic means. In-depth discussion of laws that govern conduct of vessels in national and international waters. Course is supplemented with review and analysis of case studies involving actual navigation incidents.

(3-0) Cr. 3. F. Prereq: PHYS 221, sophomore classification
An introduction to naval engineering with emphasis on the equipment and machinery involved in the conversion of energy for propulsion and other purposes aboard the major ship types of the U.S. fleet. Basic concepts of the theory and design of steam, gas turbine, diesel, and nuclear propulsion. Introduction to ship design, stability, hydrodynamic forces, compartmentation, electrical and auxiliary systems.

N S 321. Evolution of Warfare.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: Sophomore classification
Evolution of warfare from 3500 B.C. to contemporary times; analysis of the impact of historical precedents on modern military thought and action; emphasis on the historical development of military tactics, strategy, and technology.

(3-0) Cr. 3. S. Prereq: PHYS 221, sophomore classification
Introduction to the theory and principles of operation of naval weapon systems. Included coverage of types of weapons and fire control systems, capabilities and limitations; theory of target acquisition, identification and tracking; basics of naval ordnance.

(3-0) Cr. 3. F. Prereq: Senior classification
Study of tactical naval operations; employs practical use of maneuvering boards together with shiphandling principles to arrive at tactical shipboard maneuvering solutions. Study also of naval command and control, communications, and the Naval Warfare Doctrine.

N S 412. Leadership and Ethics.
(3-0) Cr. 3. S. Prereq: Requirements for NROTC students - N S 111, N S 212 or HIST 389, N S 220, N S 230, N S 320, N S 330 and N S 410
Basic background concerning the duties and responsibilities of the junior naval officer and division officer in the areas of integrity and ethics, human resources management, personnel management, material management, and the administration of discipline. Preparation for responsibilities encountered immediately upon commissioning.

(3-0) Cr. 3. Alt. F., offered 2012. Prereq: Sophomore classification
Defines the concept of amphibious operations, origins, development from 600 B.C.

N S 440. Senior Naval Science Seminar.
(1-0) Cr. 1. F.S. Prereq: Senior classification
Current leadership issues in the US Navy which will challenge the newly commissioned officer. Opportunities to analyze, provide solutions, and discuss actions related to a variety of real world situations.

N S 480. Independent Study.
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: Senior classification and prior approval of Naval Science Department Chair, 6 credits in Naval Science
No more than 9 credits of N S 490 may be counted toward graduation.

Officer Education Programs
Iowa State University offers Reserve Officers Training Corps (ROTC) programs for the professional training of officers for the Army, Air Force, Navy and Marines.

The purpose of these programs is to provide an avenue for interested students to become reserve or regular officers in one of the United States military services, and the university regards this training as the foundation for possible careers in the military. The Air Force and the Navy require a period of active duty service upon completion of the ROTC program. Graduates from Army ROTC serve in either active Army, the Army Reserve, or the National Guard.

All students enrolled in advanced ROTC programs receive financial allowances, which are described under Student Financial Aid. Scholarships are also available for all services as outlined in the section on financial aid.

For specific courses and programs see also Air Force Aerospace Studies, Military Science, and Naval Science.

Philosophy and Religious Studies

Philosophy - Undergraduate Study

Philosophy tries to make sense of human experience and reality through critical reflection and argument. The questions it treats engage and provoke all of us, and they occupy an important place in our intellectual tradition: Are there objective standards for deciding what is right and wrong, or is morality merely a subjective matter? Is capitalism morally acceptable? Do I have a will, and is it free? How do my words and thoughts come to be about the world? Does God exist? Can machines think? How are mind and body related? Students in philosophy classes will be exposed to arguments on both sides of such questions, and they will be encouraged to develop and rationally defend their own positions.

Philosophy is not an isolated discipline. It enjoys mutually beneficial exchanges with many fields of study within the humanities and sciences. Philosophers develop tools that allow them to examine critically the assumptions and implications of the social and natural sciences, religion, and law.

The study of philosophy provides several benefits. It emphasizes rigorous understanding of problems, together with careful analysis of the strengths and weaknesses of the available solutions. It encourages clarity in the presentation of one’s own ideas, as well as sensitivity in the consideration of the ideas of others. The study of philosophy therefore encourages one to develop skills and habits that are useful not only in philosophy, but in other areas as well. Philosophy students historically do well, for example, in law and medical schools. However, one should not think that philosophy is only valuable in academic settings. Philosophical questions arise in many areas of family, business, and civic life. Philosophers strive to face these questions with the kind of intellectual honesty that leads to respect for the views of others, and continual reassessment of their own. In this way, the study of philosophy fosters values and attitudes that are helpful for responding to a lifetime of intellectual challenges.

The degree program in philosophy requires a minimum of 33 credits, plus the zero credit PHIL 492 course. The following courses compose the core program of the major from which 15 credits shall be chosen. Additionally, two courses at the 400 level or above (other than PHIL 490 and PHIL 492) are required.

Ethical theory: One course required.

PHIL 330 Ethical Theory 3
PHIL 335 Social and Political Philosophy 3
PHIL 535 Contemporary Political Philosophy 3

History: Two courses required.

PHIL 310 Ancient Philosophy 3
PHIL 314 17th Century Philosophy 3 or PHIL 315 18th Century Philosophy 3
Metaphysics and Epistemology: One course required.

PHIL 364 Metaphysics: God, Minds, and Matter 3
PHIL 366 Truth, Belief and Reason 3
PHIL 380 Philosophy of Science 3

Logic:

PHIL 207 Introduction to Symbolic Logic is required.

Minor in Philosophy

The department offers a minor in philosophy which may be earned by completing a total of 15 credits in philosophy. At least 9 credits must be in courses numbered 300 or above. Students may want to emphasize specific areas by taking 15 hours of courses chosen from the following:

Philosophy of Science:

PHIL 201 Introduction to Philosophy 3
PHIL 206 or PHIL 207 Introduction to Logic and Scientific Reasoning 3
PHIL 314 17th Century Philosophy 3
PHIL 315 18th Century Philosophy 3
PHIL 380 Philosophy of Science 3
PHIL 381 Philosophy of the Social and Behavioral Sciences 3
PHIL 480 Controversies in Science 3
PHIL 483 Philosophy of Biology 3
PHIL 485 Philosophy of Physics 3

History of Philosophy:

PHIL 201 Introduction to Philosophy 3
PHIL 310 Ancient Philosophy 3
PHIL 314 17th Century Philosophy 3
PHIL 315 18th Century Philosophy 3
PHIL 316 19th Century Continental Philosophy 3
PHIL 317 20th and 21st Century Continental Philosophy 3
PHIL 318 20th and 21st Century Anglo-American Philosophy 3
PHIL 460 Epistemology and Metaphysics 3

Law, Social Values and Policy:

PHIL 230 Moral Theory and Practice 3
PHIL 235 Ethical Issues in A Diverse Society 3
PHIL 331 Moral Problems in Medicine 3
PHIL 332 Philosophy of Law 3
PHIL 333 Family Ethics 3
PHIL 335 Social and Political Philosophy 3
PHIL 336 Bioethics and Biotechnology 3
PHIL 338 Feminist Philosophy 3
PHIL 343 Philosophy of Technology 3
PHIL 430 Value Theory 3
PHIL 535 Contemporary Political Philosophy 3

Communication Proficiency requirement: The department requires a grade of C or better in each of ENGL 150 and ENGL 250 (or ENGL 250H), and approval of writing by instructor of any philosophy course 300 level or above, to be designated by the student.

Religious Studies - Undergraduate Study

Religious studies gives students the opportunity to investigate and reflect on the world’s religions in an objective, critical, and appreciative manner. Though there is emphasis in religious studies on the wide variety of religious phenomena as well as on the various methods in the study of religion, the aim is to help students develop their own integrated understanding of the nature of religion and its role in individual and social life.

Graduates of the religious studies program have knowledge of the religious diversity in the United States and the world. They have the ability to interpret religion empathetically and critically and to compare and contrast historical and contemporary differences and similarities of religious systems. They understand ways in which religion influences and is influenced by the historical, social, and cultural contexts in which religious systems function. Graduates often pursue careers in non-profit, community organizations; apply to professional schools or graduate programs; or enter seminaries to prepare for ministry.

The program provides students with the following opportunities: to major or minor in religious studies, to fulfill group requirements, to take religious studies courses that are integrated into another major, to take religious studies courses as electives, and to develop an interdisciplinary studies major. (See the professor in charge of the religious studies program for advice.)

The major in religious studies seeks to provide both breadth and depth. Breadth is provided through the exploration of the world’s various religious traditions and through exposure to a variety of theoretical approaches and methodologies in the academic study of religion. Depth is achieved through specialized courses in particular religious traditions and particular issues in the study of religions, culminating in research seminars. The objective is to expose the student to various components of the discipline of Religious Studies and by doing so develop skills that are valuable in a number of careers and that provide the necessary foundation for pursuing graduate studies.

Students who select Religious Studies as a major usually do so with an interest in complementing another major. An inherently interdisciplinary field, Religious Studies is an ideal complement for another liberal arts major but can also complement other fields, such as natural sciences, business, and education.

Students pursuing a major in religious studies must complete a minimum of 33 credits, including the following requirements:

Total Credits: 33

The program offers a minor that may be earned by completing a total of 15 credits in religious studies including either RELIG 205 Introduction to World Religions or RELIG 210 Religion in America. Nine hours must be in courses at the 300 level or above (no more than 3 hours of seminar and no more than 3 hours of independent study).

Communication Proficiency requirement: The department requires a grade of C or better in each of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors), and requires one 300 level course in religious studies in which writing is evaluated as acceptable.

Students may choose to do a senior thesis under the supervision of a religious studies faculty adviser. This option may earn 3-6 credits toward the completion of the major.
Philosophy - Graduate Study

The department offers work for a graduate minor in philosophy. For those taking the M.A. or M.S., the minor requirement is two courses above 300 (but not PHIL 490) each taken in conjunction with PHIL 590. For those taking the Ph.D., the requirement is four courses above 300, at least one of which is above 400 (but not PHIL 490) each taken in conjunction with PHIL 590. Interested students should ask the chair to assign a minor adviser.

The department participates in the interdepartmental program in general graduate studies. (See Index.)

Religious Studies - Graduate Study

The program offers courses for nonmajor graduate credit in religious studies as supporting work in other fields. Religious studies may also be one of the three areas used for the interdisciplinary graduate studies master’s degree.

Philosophy Courses

Courses primarily for undergraduates:

PHIL 201. Introduction to Philosophy.
(3-0) Cr. 3. F.S.SS.
It has been rumored that the unexamined life is not worth living. Philosophy is an attempt to begin examining life by considering such questions as: What makes us human? What is the world ultimately like? How should we relate to other people? Is there a god? How can we know anything about these questions? Understanding questions of this kind and proposed answers to them is what this course is all about.

PHIL 206. Introduction to Logic and Scientific Reasoning.
(3-0) Cr. 3. F.S.SS.
Basic principles of critical reasoning and argument evaluation. A consideration of basic forms of argumentation in science and everyday life. Application to contemporary issues and controversies.

PHIL 207. Introduction to Symbolic Logic.
(Cross-listed with LING.) (3-0) Cr. 3. S.
Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Linguistics majors should take LING/PHIL 207 as early as possible.

(3-0) Cr. 3. F.S.SS.
Investigation of moral issues in the context of major ethical theories of value and obligation; e.g., punishment, abortion, economic justice, job discrimination, world hunger, and sexual morality. Emphasis on critical reasoning and argument analysis.

PHIL 235. Ethical Issues in A Diverse Society.
(3-0) Cr. 3. S.
This course will examine a range of arguments on diversity issues. Topics will include: the social status of women, the moral status of sexuality and homosexuality, the nature and role of racism in contemporary society, the relationship between biology, gender roles and social status, and various proposals for change from a variety of political perspectives. Meets U.S. Diversity Requirement

PHIL 310. Ancient Philosophy.
(Cross-listed with CL ST.) (3-0) Cr. 3. F. Prereq: PHIL 201
Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth. Nonmajor graduate credit.

PHIL 314. 17th Century Philosophy.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: PHIL 201
Readings from philosophers such as Hobbes, Descartes, Spinoza, Leibniz, and Locke. Changing conceptions of knowledge, self, and deity in response to Galileo’s new science and post-reformation challenge to ecclesiastical authority. Nonmajor graduate credit.

PHIL 315. 18th Century Philosophy.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: PHIL 201
Readings from philosophers such as Berkeley, Hume, and Kant. Development of Enlightenment thought. Issues include idealism, causation, freedom, and knowledge regarding science, ethics, and deities. Nonmajor graduate credit.

PHIL 316. 19th Century Continental Philosophy.
(3-0) Cr. 3. F. Prereq: PHIL 201
The thought of Hegel, Marx, Nietzsche, and their contemporaries. Various perspectives on the philosophy of history, the nature of reason and subjectivity, the contrast between dialectical and nondialectical philosophy, and the relationship between philosophy and society. Nonmajor graduate credit.

PHIL 317. 20th and 21st Century Continental Philosophy.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: PHIL 201
Major movements of 20th and 21st century thought, such as Phenomenology, Critical Theory, Post-structuralism, Postmodernism, and Feminism. Issues include the assumptions and limits of Western metaphysics, the nature of reason, the relationship between language and power. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: PHIL 201
Major movements in recent and contemporary philosophy such as realism, logical positivism, ordinary language philosophy, and naturalism. Russell, Wittgenstein, Quine and other leading figures. Topics include knowledge of the material world, mind, language, values, and philosophical method. Nonmajor graduate credit.

PHIL 320. Existentialism and Its Critics.
(3-0) Cr. 3. F. Prereq: PHIL 201

PHIL 330. Ethical Theory.
(3-0) Cr. 3. F. Prereq: PHIL 201 or PHIL 230
Study of major theories of morality and the good life. Includes such topics as moral psychology, practical reasoning, and virtue theory. Nonmajor graduate credit.

PHIL 331. Moral Problems in Medicine.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: PHIL 230 or junior classification
In-depth study of some of the central moral problems arising in medicine, e.g., abortion, euthanasia, patients’ rights, health care professionals’ duties and responsibilities, allocation of medical resources. Major moral theories will be examined and applied. Nonmajor graduate credit.

PHIL 332. Philosophy of Law.
(Cross-listed with CJ ST.) (3-0) Cr. 3. F.S. Prereq: PHIL 201 or PHIL 230
Extent of our obligation to obey the law; what constitutes just punishment; how much of the immoral should be made illegal? Relation of these questions to major theories of law and the state. Discussion of such concepts as coercion, equality, and responsibility. Nonmajor graduate credit.

PHIL 333. Family Ethics.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 3 credits in philosophy

PHIL 334. Environmental Ethics.
(Cross-listed with ENV S.) (3-0) Cr. 3. F. Prereq: 3 credits in philosophy or junior classification
Thorough study of some of the central moral issues arising in connection with human impact on the environment, e.g., human overpopulation, species extinction, forest and wilderness management, pollution. Several world views of the proper relationship between human beings and nature will be explored. Nonmajor graduate credit.

PHIL 335. Social and Political Philosophy.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: PHIL 201 or PHIL 230
Foundations of social and political life. The basis of political organization, the nature of social and political institutions, rights and authority, justice. Original texts. Nonmajor graduate credit.

PHIL 336. Bioethics and Biotechnology.
(3-0) Cr. 3. Prereq: PHIL 201 or PHIL 230 or PHIL 235
In-depth study of some central moral issues in the life sciences, e.g., genetic screening and testing, genetically engineered plants and animals, risk analysis, biotechnology patents, research ethics, biodiversity, the impact of biotechnology on society and the environment. Major moral theories will be discussed and applied. (Phil 336 contains almost no similarities to Phil 331.) Nonmajor graduate credit.
PHIL 338. Feminist Philosophy. (Cross-listed with W S). (3-0) Cr. 3. F. Prereq: 3 credits in philosophy or women’s studies recommended
A critical, theoretical examination of the oppression of women, especially as it relates to issues of race, class, and sexual orientation. How concepts such as sex and gender, self and other, nature and nurture, complicate our understanding of what it means to be a woman. Historical and contemporary feminist philosophers addressing issues such as violence, sexuality, pornography, political power, family structure and women’s paid and unpaid labor. Nonmajor graduate credit. Meets U.S. Diversity Requirement

PHIL 340. Aesthetics. (3-0) Cr. 3. F. Prereq: PHIL 201 or PHIL 230
Is liking all there is to appreciating works of art or natural beauty? We will examine our appreciative experiences, talk about such experiences (e.g., art criticism), and what makes them valuable. Do the different arts have common values? How are their differences important?. Nonmajor graduate credit.

PHIL 343. Philosophy of Technology. (Cross-listed with T SC). (3-0) Cr. 3. F.S. Prereq: 6 credits of social science or T SC 341 and 3 credits of social science
Moral and other philosophical problems related to developments in technology. Topics may include conditions under which technological innovations contribute to human emancipation, relationship of technology and democracy, utility and limits of technical rationality, and problems of ensuring that benefits of technological advance are communally shared. Topics discussed with reference to such issues as contemporary developments in microelectronics, technology transfer to the Third World, etc. Nonmajor graduate credit.

PHIL 350. Philosophy of Religion. (Cross-listed with RELIG). (3-0) Cr. 3. F. Prereq: PHIL 201
The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God’s existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings. Nonmajor graduate credit.

PHIL 364. Metaphysics: God, Minds, and Matter. (3-0) Cr. 3. S. Prereq: 3 credits in philosophy
A survey of classical and contemporary views on some basic metaphysical issues. Issues discussed include: Does God exist? Do you have a mind and, if so, how does it relate to your body? What is the nature of cause and effect? Do objects have any essential properties? How can we account for properties objects have in common?. Nonmajor graduate credit.

PHIL 366. Truth, Belief and Reason. (3-0) Cr. 3. F. Prereq: PHIL 201 or permission of instructor
This course focuses on significant topics in theory of knowledge, including the value of true beliefs, the role of sense experience in supporting our theoretical views, and the place of reason in human nature. Historical and contemporary views will be considered.

PHIL 380. Philosophy of Science. (3-0) Cr. 3. F. Prereq: PHIL 201 or 6 credits in a science
Introduction to the philosophy of science. A variety of basic problems common to the natural and social sciences: the nature of explanation, the structure of theories, the unity of science, and the distinction between science and nonscience. Nonmajor graduate credit.

PHIL 381. Philosophy of the Social and Behavioral Sciences. (3-0) Cr. 3. S. Prereq: PHIL 201 or 6 credits in the social sciences
Methodological, ideological, and doctrinal issues about the social and behavioral sciences against the background of influence of the natural sciences. Focus is on the historical and cultural background of 19th and 20th century western thought. Nonmajor graduate credit.

PHIL 398. Cooperative Education. Cr. R. F.S.SS. Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period. Nonmajor graduate credit.

PHIL 430. Value Theory. (3-0) Cr. 3. Repeatable, maximum of 6 credits. S. Prereq: PHIL 230
Theoretical and normative issues in ethics, aesthetics, religious thought, or political philosophy. Topics vary each time offered. Nonmajor graduate credit.

PHIL 450. Persons and Causes. (3-0) Cr. 3. Repeatable, maximum of 1 times. F. Prereq: 3 credits in philosophy; PHIL 207 strongly encouraged
Personal identity, agency, free will, moral responsibility, causation, future contingents, and time will be discussed. What makes a person the same person over time? Do humans have free will? Are we not morally responsible if our actions are inevitable consequences of the past and the laws of nature? What distinguishes causes from non-causes? Are there facts about the future?. Nonmajor graduate credit.

PHIL 460. Epistemology and Metaphysics. (3-0) Cr. 3. Repeatable, maximum of 6 credits. S. Prereq: 6 credits in philosophy
Issues in epistemology and metaphysics. Topics vary each time offered. Nonmajor graduate credit.

PHIL 465. Brains, Minds, and Computers. (3-0) Cr. 3. F. Prereq: PHIL 201
Examination of concepts such as computability, intelligence, programming, and free will; and of arguments about whether any human capacity is forever beyond realization in a machine. Nonmajor graduate credit.

PHIL 480. Controversies in Science. (3-0) Cr. 3. Repeatable. S. Prereq: 3 credits in philosophy or 6 credits in a natural or social science
Philosophical treatment of a branch of science that has (or has had) significant social, political, religious and/or moral implications. Possible topics include: the IQ debate, implications of Darwinism, the Galileo affair, the role of values in science, critical analysis of current science policy (e.g., the Human Genome Project). Topics will be arranged to meet the needs of interested students. Often team taught by a philosopher and a scientist from the relevant discipline. Nonmajor graduate credit.

PHIL 483. Philosophy of Biology. (3-0) Cr. 3. S. Prereq: 3 credits in philosophy or 3 credits in biology
Biology is powerful, both as a science and in its effects on our culture. Philosophy of biology evaluates this power. Possible topics include: What makes sciences such as evolutionary theory, ecology or molecular biology so good at explaining things? What is life? Can evolution account for design? What role does chance play in evolution? Has there been progress in the evolution of life on earth? What can sociobiology tell us about human nature, behavior and culture?. Nonmajor graduate credit.

PHIL 485. Philosophy of Physics. (3-0) Cr. 3. Prereq: 3 credits in Philosophy or 3 credits in Physics
S. Conceptual and philosophical issues relating to the interpretation of theories in classical and modern physics. May include one or more of the following topics: the relationship between mathematics and the physical world; Newtonian physics (determinism and predictability); thermodynamics and statistical physics (the nature of probability; entropy and the direction of time); relativistic physics (indeterminism; realism and nonlocality; consciousness and the role of the observer). Nonmajor graduate credit.

PHIL 490. Independent Study. Cr. 1-4. Repeatable, maximum of 9 credits. Prereq: 6 credits in philosophy; permission of instructor; approval of chair
Guided reading and research on special topics selected to meet needs of advanced students. No more than 9 credits of Phl 490 may be counted toward graduation.

PHIL 490H. Independent Study, Honors. Cr. 1-4. Repeatable, maximum of 9 credits. Prereq: 6 credits in philosophy; permission of instructor; approval of chair
Guided reading and research on special topics selected to meet needs of advanced students. No more than 9 credits of Phl 490 may be counted toward graduation.

PHIL 492. Graduating Senior Survey. Cr. R. F.S. Prereq: Graduating senior
Final presentation for graduation and the future. Outcomes assessment activities. Offered on a satisfactory-fail basis only.

PHIL 496. Ecology and Society. (Dual-listed with PHIL 596). (3-0) Cr. 3. Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology
Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues. Nonmajor graduate credit.
Courses primarily for graduate students, open to qualified undergraduates:

PHIL 535. Contemporary Political Philosophy.  
(Cross-listed with POL S). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 6 credits of philosophy or political science  
Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as liberalism, libertarianism, communitarianism, socialism, feminism. Normative assessments of socio-political institutions.

PHIL 548. Summer Bioethics Workshop for Teachers.  
Cr. 1. SS.  
Topics include moral theory, pedagogical issues in teaching bioethics, and substantive current issues in bioethics.

PHIL 590. Special Topics in Philosophy.  
Cr. 2-4. Repeatable. Prereq: Permission of instructor, 9 credits in philosophy

PHIL 590A. Special Topics in Philosophy: History of Philosophy.  
Cr. 2-4. Repeatable. Prereq: Permission of instructor, 9 credits in philosophy

PHIL 590B. Special Topics in Philosophy: Epistemology and Metaphysics.  
Cr. 2-4. Repeatable. Prereq: Permission of instructor, 9 credits in philosophy

PHIL 590C. Special Topics in Philosophy: Value Theory.  
Cr. 2-4. Repeatable. Prereq: Permission of instructor, 9 credits in philosophy

PHIL 590D. Special Topics in Philosophy: Logic and Philosophy of Science.  
Cr. 2-4. Repeatable. Prereq: Permission of instructor, 9 credits in philosophy

(Dual-listed with PHIL 496). (3-0) Cr. 3. Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.

Religious Studies Courses

Courses primarily for undergraduates:

RELIG 205. Introduction to World Religions.  
(3-0) Cr. 3. F.S.SS.  
An introduction to the academic study of religions, including myths, beliefs, rituals, values, social forms. Examples chosen from oral cultures and major religions of the world.  
Meets International Perspectives Requirement.

(3-0) Cr. 3. F.S.SS.  
Introductory study of the major beliefs, practices, and institutions of American Judaism, Catholicism, Protestantism, and Islam with emphasis on the diversity of religion in America, and attention to issues of gender, race, and class.  
Meets U.S. Diversity Requirement

RELIG 220. Introduction to the Bible.  
(3-0) Cr. 3. F.S.  
Basic overview of the contents of the Old and New Testament in light of their ancient socio-historical background, and with attention to a variety of interpretations and relevance to modern American society.

(3-0) Cr. 3. F.S.SS.  
A survey of the major historical developments in Christian thought and practice that shaped Christianity from the time of Jesus through the late medieval period. Attention given to significant persons and major events, including those involving relations with Judaism and Islam.  
Meets International Perspectives Requirement.

(3-0) Cr. 3. F.S.SS.  
A survey of the major events, issues, and persons that contributed to the Protestant Reformation, the Catholic Counter-Reformation, and the proliferation of Christian denominations. Attention to selected responses of churches to major sixteenth-early twenty-first century developments.

RELIG 280. Introduction to Catholicism.  
(3-0) Cr. 3. F.  
An explanation of the beliefs, spirit, and practices of Roman Catholicism, including its understanding of God, sacramentality, the human person, and community, and its relationship to other forms of Christianity and other world religions.

(3-0) Cr. 3. F.  
An in-depth study of the literature and religion of ancient Israel in light of recent archaeological discoveries, research about the ancient Near East, and a variety of interpretations.

(3-0) Cr. 3. S.  
A detailed survey of the sacred scriptures of Christianity in light of recent archaeological discoveries and historical research about their Greco-Roman and Jewish background.

RELIG 323. Science and Religion.  
(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification  
History of changing interplay of science and religion in our understanding nature, from the trial of Galileo to the reception of Darwin.  
Meets International Perspectives Requirement.

RELIG 324. Christianity and Science.  
(3-0) Cr. 3. S. Prereq: sophomore classification; RELIG 205 or RELIG 210; BIOL 101 or BIOL 173 (or higher)  
Examines major questions and challenges to Christianity’s understandings of creation posed by the sciences; surveys ways of conceiving the relations of Christianity and science with attention to their impact on American culture, and their implications for human interactions with nature and ecological ethics.

RELIG 328. American Indian Religions.  
(Cross-listed with AM IN). (3-0) Cr. 3.  
An introduction to the beliefs and rituals of Native American religious traditions, with attention to cultural and historical contexts and implications.  
Meets U.S. Diversity Requirement

RELIG 333. Introduction to Judaism.  
(3-0) Cr. 3.  
An introduction to basic Judaism. Special attention is given to Jewish sacred texts, rituals, social practices, and modern forms.  
Meets International Perspectives Requirement

(Cross-listed with AF AM). (3-0) Cr. 3. F. Prereq: Prior course work in Religious Studies or African American Studies recommended  
Examination of African-American experience from the perspective of black religion with attention to political, economic, social, theological and artistic expressions, including music, that serve the life of African-American communities.”

Meets U.S. Diversity Requirement

RELIG 336. Women and Religion.  
(Cross-listed with W S). (3-0) Cr. 3. F. Prereq: RELIG 205, RELIG 210 or W S 201 recommended  
Examines the status of women in various religions, feminist critiques of religious structures and belief systems, and contemporary women’s spirituality movements.  
Meets U.S. Diversity Requirement

(Dual-listed with RELIG 540). (Cross-listed with ANTH). (3-0) Cr. 3. S. Prereq: ANTHR 201 or ANTHR 306  
Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirit conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.  
Meets International Perspectives Requirement.

(3-0) Cr. 3. Alt. S., offered 2013.  
A study of the religious behavior and attitudes expressed in the literature of Mexican Americans, Puerto Ricans, Cuban Americans and other groups of people living in the U.S. who trace their ancestry to the Spanish-speaking countries of Latin America.  
Meets U.S. Diversity Requirement

RELIG 348. Psychology of Religion.  
(Cross-listed with PSYCH). (3-0) Cr. 3. Prereq: Nine credits in psychology  
Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.
RELIG 350. Philosophy of Religion.  
(Cross-listed with PHIL). (3-0) Cr. 3. F. Prereq: PHIL 201  
The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God’s existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings. Nonmajor graduate credit.

RELIG 352. Religious Traditions of India.  
(3-0) Cr. 3. Prereq: Prior course work in Asian, Asian-American or Religious Studies or Anthropology required  
Examines the religious traditions of India, including Hinduism, Jainism, and Sikhism, through text, ritual, and contemporary practice. Meets International Perspectives Requirement.

(3-0) Cr. 3. F.  
The Religious Traditions of China. Chinese religious traditions in ancient and modern expression; indigenous forms of religious practice; development of high/ deep traditions of Confucianism and Taoism; impact of religions such as Buddhism, Islam, and Christianity. Religious influences and changes in contemporary China. Meets International Perspectives Requirement.

RELIG 356. African Religions.  
(3-0) Cr. 3. Prereq: Prior course work in African, African-American or Religious Studies or Anthropology required  
An introduction to the teachings, practices, and history of the religions that originated in Africa and other religions that have gained substantial followings among African peoples. Meets International Perspectives Requirement.

RELIG 358. Introduction to Islam.  
(3-0) Cr. 3.  
An introduction to Islamic religion, culture, and society from 700 to the present. Nonmajor graduate credit. Meets International Perspectives Requirement.

RELIG 360. Religious Ethics.  
(3-0) Cr. 3.  
Investigates different religious ethical theories and traditions of reasoning about practical moral issues (e.g., abortion, the just distribution of wealth, environmental ethics). Explores in detail the relationships between religious beliefs and moral practice.

RELIG 367. Christianity in the Roman Empire.  
(Cross-listed with CL ST). (3-0) Cr. 3.  
An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries. Nonmajor graduate credit.

RELIG 370. Religion and Politics.  
(Cross-listed with POL S). (3-0) Cr. 3. Prereq: Sophomore classification.  
The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally. Nonmajor graduate credit.

RELIG 376. Classical Archaeology.  
(Cross-listed with ANTHR, CL ST). (3-0) Cr. 3. S.  
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Requirement.

RELIG 376A. Classical Archeology: Bronze Age and Early Iron Age Greece.  
(Cross-listed with ANTHR, CL ST). (3-0) Cr. 3. S.  
Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece. (ca 3000-700 BCE). Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Requirement.

RELIG 376B. Classical Archeology: Archaic through Hellenistic Greece (ca 700-300 BCE).  
(Cross-listed with ANTHR, CL ST). (3-0) Cr. 3. S.  
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored. Meets International Perspectives Requirement.

(Cross-listed with SOC). (3-0) Cr. 3. Prereq: Prior course work in Religious Studies recommended.  
The influence of religion in society, both as a conservator of values and as a force for social change. Nonmajor graduate credit.

RELIG 380. Catholic Social Thought.  
(3-0) Cr. 3. S.  
Examines biblical roots of and major developments in Catholic social thought. Contemporary issues such as human rights, economic justice, the environment, and war and peace will be treated using principles of Catholic ethics, social analysis, official church documents, and contributions of notable theologians and activists.

(Cross-listed with ENV S). (3-0) Cr. 3.  
Introduction to concepts of religion and ecology as they appear in different religious traditions, from both a historical and contemporary perspective. Special attention to religious responses to contemporary environmental issues. Meets International Perspectives Requirement.

RELIG 439. Goddess Religions.  
(Cross-listed with W S). (3-0) Cr. 3. Prereq: RELIG 205 recommended  
Exploration of the foundational myths of Goddess spirituality, including historical and cross-cultural female images of the divine and their modern usage by American women. Nonmajor graduate credit.

RELIG 453. Buddhism.  
(3-0) Cr. 3. S.  
The various Buddhist paths to realize enlightenment and freedom. Special attention to meditation and yoga and their relationship to altered states of consciousness and to social contexts. Nonmajor graduate credit. Meets International Perspectives Requirement.

(3-0) Cr. 3. Repeatable, maximum of 6 times. Prereq: 6 credits in religious studies  
Topic changes each time offered. Closed to freshmen. Sophomores must have approval of instructor. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: 6 credits in Religious Studies or permission of instructor  
Examines the variety of theories and methods employed in the study of religion. Application of these methods to various religions of the world. Nonmajor graduate credit.

RELIG 490. Independent Study.  
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: 6 credits in religious studies and permission of instructor, approval of chairman.  
Guided reading and research on special topics selected to meet the needs of advanced students. No more than 9 credits of Relig 490 may be counted toward graduation.

RELIG 490H. Independent Study: Honors.  
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: 6 credits in religious studies and permission of instructor, approval of chairman.  
Guided reading and research on special topics selected to meet the needs of advanced students. No more than 9 credits of Relig 490 may be counted toward graduation.

RELIG 491. Senior Thesis.  
Cr. 3.  
Written under the supervision of a Religious Studies faculty advisor.

RELIG 494. Special Studies in Religious Research Languages.  
Cr. 2-3. Repeatable. Prereq: 6 credits in Religious Studies and permission of instructor  

Courses primarily for graduate students, open to qualified undergraduates:

(Dual-listed with RELIG 340). (Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq: ANTHR 201 or ANTHR 306  
Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice. Meets International Perspectives Requirement.

RELIG 590. Special Topics in Religious Studies.  
Cr. 1-3. Repeatable. Prereq: Permission of instructor, 9 credits in religious studies
Physics and Astronomy

Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in physics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum. Physics and astronomy are basic natural sciences which attempt to describe and provide an understanding of both our world and our universe. Physics serves as the underpinning of many different disciplines including the other natural sciences and technological areas. Graduates are proficient in the methods of rigorous scientific analysis, relevant mathematical techniques, and modern computational and laboratory methods. They have a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, and modern physics. They are able to communicate clearly and effectively at general and technical levels. They are prepared to pursue a wide range of careers as a professional physicist, astronomer, or science educator. They are also prepared to pursue advanced studies and careers in areas as diverse as engineering, medicine, law, and business administration. Many opportunities exist for students who terminate their studies with a bachelor’s degree, especially when combined with technology studies in other areas. Students who meet the necessary scholastic standards often continue their studies in a graduate college, exploring and contributing to new developments in the field.

The department normally expects each student majoring in physics to complete at least the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 241</td>
<td>Principles and Symmetries in Classical Physics I</td>
<td>5</td>
</tr>
<tr>
<td>PHYS 242</td>
<td>Principles and Symmetries in Classical Physics II</td>
<td>5</td>
</tr>
<tr>
<td>PHYS 321</td>
<td>Introduction to Modern Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 321L</td>
<td>Introductory Laboratory in Modern Physics</td>
<td>1</td>
</tr>
<tr>
<td>PHYS 322</td>
<td>Introduction to Modern Physics II</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 322L</td>
<td>Introductory Laboratory in Modern Physics II</td>
<td>1</td>
</tr>
<tr>
<td>PHYS 304</td>
<td>Thermal Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 306</td>
<td>Physics of Wave Motion</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 361</td>
<td>Classical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 362</td>
<td>Intermediate Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 364</td>
<td>Electricity and Magnetism</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 365</td>
<td>Electricity and Magnetism</td>
<td>3</td>
</tr>
<tr>
<td>MATH 317</td>
<td>Theory of Linear Algebra</td>
<td>4</td>
</tr>
</tbody>
</table>

and 3 credits of laboratory work chosen from

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 301</td>
<td>Electronic Instrumentation for Experimental Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 311</td>
<td>Intermediate Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHYS 311T</td>
<td>Intermediate Laboratory for Secondary Physics Teachers</td>
<td></td>
</tr>
<tr>
<td>PHYS 470L</td>
<td>Applied Physics Laboratory</td>
<td></td>
</tr>
<tr>
<td>ASTRO 344L</td>
<td>Astronomy Laboratory</td>
<td></td>
</tr>
</tbody>
</table>

*PHYS 221 and PHYS 222 may be substituted for PHYS 241 and PHYS 242.

All students are required to earn at least 5 credits in laboratory work in physics in addition to the laboratory components of PHYS 241 and PHYS 242. These 5 credits must be in courses numbered 304 or higher or in approved substitutions. All students must earn at least 26 credits in physics and astronomy courses numbered 304 or higher. The basic list of expected courses is not a rigid requirement and changes in this basic list will be approved by the department curriculum committee on recommendation of the student’s adviser when such changes will better serve the student’s needs. In particular, students planning a physics major and also seeking certification for high school teaching may, with the approval of their adviser, follow a significantly different program designed to meet their particular needs; these students should consult the department for further information. Further information concerning programs of study, including sample degree programs, is available from the department.

Students majoring in physics who wish an emphasis in astronomy/astrophysics should consider a minor in astronomy (see below). Those planning graduate work in physics or astronomy/astrophysics should add to the basic list the courses PHYS 480 and PHYS 481. Other useful courses include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 365</td>
<td>Complex Variables with Applications</td>
<td>3</td>
</tr>
<tr>

<td>Particle and Nuclear Physics</td>
<td></td>
</tr>
<tr>
<td>PHYS 541</td>
<td>General Relativity</td>
<td></td>
</tr>
</tbody>
</table>

The department offers a minor in physics which may be earned by completing 20 credits in physics courses chosen as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 241</td>
<td>Principles and Symmetries in Classical Physics I</td>
<td>5</td>
</tr>
<tr>
<td>PHYS 242</td>
<td>Principles and Symmetries in Classical Physics II</td>
<td>5</td>
</tr>
<tr>
<td>PHYS 321</td>
<td>Introduction to Modern Physics I</td>
<td>3</td>
</tr>
</tbody>
</table>

One of the following

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 321L</td>
<td>Introductory Laboratory in Modern Physics I</td>
<td></td>
</tr>
<tr>
<td>PHYS 322L</td>

</tr>
</tbody>
</table>

* must include ASTRO 344L Astronomy Laboratory and may include one of the courses ASTRO 120 The Sky and the Solar System, ASTRO 150 Stars, Galaxies, and Cosmology or ASTRO 250 Astronomy Bizarre

12 or more credits must be at the 300 level or higher. Note that only ASTRO 344L may be used to satisfy both the requirements of a physics major and an astronomy minor.

Communication Proficiency requirement: The department requires a grade of C or better in each of ENGL 150 and ENGL 250 (or ENGL 250H), and a C– or better in ENGL 302, ENGL 305, ENGL 309 or ENGL 314. Students are also encouraged to study at least one foreign language.

The expected outcomes for students in these programs are:

1. a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, wave motion and modern physics
2. proficiency in laboratory methods
3. proficiency in modern scientific computational methods
4. a sound foundation in the liberal arts including proficiency in communication skills.

In addition to the performance on exams and course grades, information on evaluating the success in meeting these goals is obtained by:
1. an annual written survey of all students majoring in the program
2. an annual written survey of all graduating seniors
3. a periodic written survey of program alumni
4. student evaluations of all courses
5. adviser evaluations
6. a bimonthly meeting of program majors with the department chair

Graduate Study

The department offers studies for the degrees master of science and doctor of philosophy with majors at both levels in applied physics, astrophysics, condensed matter physics, high energy physics, nuclear physics, and physics; and minor credit courses for students majoring in other departments.

Facilities of various research groups of the department, the Ames Laboratory, and the Applied Science Center, including the Microelectronics Research Center, are available for research.

Students with bachelor's degrees in physics or astronomy from other institutions ordinarily will qualify for graduate study at Iowa State provided they have satisfactorily completed course work similar to that suggested for undergraduate majors here intending to go on to graduate school. In some cases additional instruction at the intermediate level may be required.

Graduates have a broad understanding of physical science, as well as mastery of state-of-the-art methods in their area of specialization. They are able to communicate effectively to a wide range of audiences, from the general public to research colleagues. Their skills in rigorous scientific thinking prepare them for leadership in the broader community. They are skilled in carrying out research, communicating research results, and soliciting research support. They have considerable teaching experience. They have developed problem solving skills that prepare them for careers in either industry or academia.

All candidates for an advanced degree in physics are expected to complete:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 531</td>
<td>Statistical Mechanics</td>

</table>

Astrophysics Ph.D. candidates must take at least three of the 580 level Astro courses, while candidates for the Research Masters must take at least two 580 level Astro courses.

Except for the applied physics major where a thesis is always required, the degree master of science is offered both with and without thesis. For all areas of study except applied physics the basic requirements for the M.S. are the same: at least 30 credits of acceptable graduate work must be completed, not less than 21 of which must be in physics or astronomy. Students must complete not less than 6 credits from outside their major area, with 3 credits being required from outside the department, and 3 credits from a 500 or 600 level course in another area of specialization. Students choosing a M.S. degree with thesis may apply up to 8 credits of 699 but no credits of 599 toward the minimum 30 credits. Students choosing a degree without thesis should apply 2 credits of 599, but may not apply any credits of 699 toward the minimum 30 credits. Students whose major area is applied physics must complete at least 30 credits of acceptable graduate work for the M.S. degree and not less than 19 credits of these must be in the required courses listed above; the remaining 11 credits of the 30 credit minimum may be chosen freely either from within the student’s major area or from without and either from the department or outside, but it should be noted that not more than 3 credits of PHYS 699 Research may be applied toward the 30 credit minimum.

In addition to course work in the major area of study, all candidates for the Ph.D. degree must complete 12 credits from outside this area. Of these 6 must be taken from other departments and 6 must be taken from the department with the additional constraint that this latter 6 must include at least one 500 or 600 level introductory course in another area of specialization. Each candidate for the Ph.D. degree is required to teach one year of elementary physics or astronomy.

Graduate students interested in a physics minor should contact the department for requirements.

Astronomy and Astrophysics Courses

Courses primarily for undergraduates:

ASTRO 102. North Star Astronomy.
Cr. 1. F.S.
An entirely web-based course covering topics in observing the sky and navigation by the stars for students with little or no previous experience. The course combines material on common naked-eye phenomena, such as daily and seasonal variations in the sky, with information on how these helped navigators determine where they are on Earth. The course “lectures” are on-line, interactive units with built-in exercises, hands-on (offline) activities and layers of help. Graded homework and quizzes are administered via Web-CT. Students who take Astro 120 may count credit in only one of Asto 102 or 103 toward graduation.

ASTRO 103. Evening Star.
Cr. 1. F.S.
An entirely web-based course covering topics in celestial mechanics (“Rocket science”) for students with little or no previous experience. It combines the geography of the solar system with discussion of methods of traveling to the other planets. The course “lectures” are on-line, interactive units with built-in exercises, hands-on (offline) activities, and layers of help. Graded homework and quizzes are administered via WebCT. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 106. Earth and Space Science for Elementary Education Majors.
(Cross-listed with GEOL). (2-0) Cr. 2. F.S. Prereq: Major in elementary or early childhood education.

Fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Online course format.

ASTRO 106L. Earth and Space Science for Elementary Education Majors: Laboratory.
(Cross-listed with GEOL). (0-2) Cr. 1. F.S. Prereq: Restricted to elementary and early childhood education majors; to be taken concurrently with GEOL 106/ASTRO 106

Inquiry-based lab exploring fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Must be taken concurrently with GEOL/ASTRO 106.

ASTRO 120. The Sky and the Solar System.
(3-0) Cr. 3. F.S.S.S.
For the nonscientist. The sky: constellations; motions of the sun, moon, and planets; seasons and the calendar; eclipses. The solar system: origin and evolution; characteristics of the sun, planets, satellites, comets, meteorites, and asteroids. Extensive use of the planetarium is included. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.
Courses primarily for graduate students, open to qualified undergraduates:

(Dual-listed with ASTRO 405). (3-0) Cr. 3. F. Prereq: ASTRO 346 or permission of instructor
Survey of astrophysical processes relating to stars, galaxies and the Universe. Radiation transport, radiation processes, scattering, kinetic description of plasma, hydrodynamics, magnetohydrodynamics, MHD waves, shocks, properties of systems in local thermodynamic equilibrium, non-thermal systems, astrophysical effects of general relativity.

ASTRO 510. Observational Astrophysics.
(2-3) Cr. 3. Alt. F., offered 2011. Prereq: ASTRO 405 or ASTRO 505
Techniques in optical and near-IR astronomy, including spectroscopy and CCD photometry. Emphasis on projects involving proficiency in the use of research telescopes and modern instrumentation. Project topics range from photometric studies of pulsating and binary star systems to deep CCD imaging of faint nebulae and galaxies.

ASTRO 580. Stellar Astrophysics.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: ASTRO 405 or ASTRO 505

ASTRO 582. High Energy Astrophysics.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: ASTRO 405 or ASTRO 505
Interactions of high-energy particles, non-thermal radiation processes, spectral evolution of non-thermal systems, cosmic rays, active galactic nuclei, pulsars, neutrinos, measurement techniques for relativistic charged particles, high energy photons, and neutrinos.

ASTRO 584. Galactic Astronomy.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: ASTRO 405 or ASTRO 505
Overall structure of our Galaxy and the interstellar medium. Physical processes in the interstellar medium (e.g., heating and cooling mechanisms, turbulence). Observational techniques for studying the interstellar medium. Kinematics and chemical evolution of the Galaxy.

ASTRO 586. Extragalactic Astronomy.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: ASTRO 405 or ASTRO 505
Galaxy evolution, dynamics of external galaxies, evolution and classification of galaxies, groups and clusters of galaxies, extragalactic radio sources, quasars, structure formation, cosmological models and their observational consequences.

ASTRO 590. Special topics.
Cr. arr. Repeatable.

ASTRO 599. Creative Component.
Cr. arr. Prereq: Permission of instructor
Individually directed study of research-level problems for students electing the nonthesis M.S. option in astronomy.

Courses for graduate students:

ASTRO 650. Advanced Seminar.
(1-0) Cr. 1. Repeatable. F.S.S.
Topics of current interest in astronomy and astrophysics. Offered on a satisfactory-fail basis only.

ASTRO 660. Advanced Topics in Astronomy and Astrophysics.
Cr. 1-3. Repeatable. F.S.
Topics in stellar, galactic, and extragalactic astronomy, including stellar evolution, solar physics, variable stars, compact objects, the interstellar medium, active galaxies and quasars, formation and evolution of galaxies, cosmology, high energy astrophysics, advanced observational techniques, and astrophysical applications of hydrodynamics.
ASTRO 675. Advanced Stellar Astrophysics.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: ASTRO 405 or ASTRO 505; and ASTRO 580
ASTRO 699. Research.
Cr. arr. Repeatable.

Physics Courses

Courses primarily for undergraduates:

(3-0) Cr. 3. F.S.
Survey of the principal areas of both classical and modern physics. Emphasis on the nature of the physical universe and the application of physical principles to life in the modern world. Not suitable to meet a general physics requirement for natural science majors.

PHYS 102L. Physical Sciences for Elementary Education.
(Cross-listed with CHEM). (1-5) Cr. 3. S. Prereq: MATH 195 or MATH 140
Introduction to physics and chemistry via weekly, guided-inquiry laboratories. Topics to include states of matter and changes in states of matter, sound, light, electricity, magnetism, heat, and forces that are related to an object’s motion.

PHYS 111. General Physics.
(4-2) Cr. 5. F.S.S. Prereq: 1 1/2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry
General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Mechanics, fluids, heat and thermodynamics, vibrations, waves, sound.

PHYS 112. General Physics.
(4-2) Cr. 5. F.S.S.S. Prereq: PHYS 111
General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Electricity and magnetism, ray and wave optics, topics in modern physics.

PHYS 115. Physics for the Life Sciences.
(4-0) Cr. 4. F.S. Prereq: high school: 1 1/2 yr. algebra, 1 yr. geometry, 1 semester trigonometry
Emphasis on basic physics principles applied to biological problems. Topics include mechanics, fluids, thermodynamics, heat, light, sound, electricity and magnetism. A coordinated laboratory, Physics 115 laboratory is available.

PHYS 115L. Laboratory in Physics for the Life Sciences.
(0-2) Cr. 1. F.S.
Experiments related to the elementary topics of physics for the life sciences. Mechanics, fluids, thermodynamics, heat, light, sound, electricity and magnetism.

(2-2) Cr. 3. F.
Introductory level course on sound for nonphysics majors. Properties of pure tones and harmonics; human perception of sound; room acoustics; scales; production, and analysis of musical by voice, string, woodwind, brass, and percussion instruments. Not suitable to meet a general physics requirement for natural science majors

PHYS 199. Introductory Seminar.
Cr. R. F.
(1-1) Gain experience in key skills that physicists/astronomers use routinely, but are rarely explicitly taught in formal courses. Participate in faculty-led discussions on frontier areas and careers. Offered on a satisfactory-fail basis only.

PHYS 221. Introduction to Classical Physics I.
(4.5-1) Cr. 5. F.S.S.S. Prereq: Credit or enrollment in MATH 166
For engineering and science majors. 3 hours of lecture each week plus 3 recitations and 1 laboratory every 2 weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound.

PHYS 221H. Introduction to Classical Physics I: Honors.
(4.5-1) Cr. 5. F.S. Prereq: Credit or enrollment in MATH 166
For engineering and science majors. 3 hours of lecture each week plus 3 recitations and 1 laboratory every 2 weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound.

PHYS 222. Introduction to Classical Physics II.
(4-2) Cr. 5. F.S.S.S. Prereq: PHYS 221, MATH 166
3 hours of lecture each week plus 1 recitation and 1 laboratory each week. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields: LR, LC, LCR circuits; Maxwell’s equations; ray optics and image formation; wave optics; topics in modern physics.

PHYS 222H. Introduction to Classical Physics II: Honors.
(4-2) Cr. 5. F.S. Prereq: PHYS 221, MATH 166
3 hours of lecture each week plus 1 recitation and 1 laboratory each week. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields: LR, LC, LCR circuits; Maxwell’s equations; ray optics and image formation; wave optics; topics in modern physics.

PHYS 241. Principles and Symmetries in Classical Physics I.
(4.5-1) Cr. 5. F. Prereq: Credit or enrollment in MATH 166
Covers all of mechanics; Kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation, and extremum principles. Topics in kinetic theory, thermodynamics, waves and sound.

(4.5-1) Cr. 5. F. Prereq: Credit or enrollment in MATH 166; non-physics majors must have permission
Covers all of mechanics; Kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation, and extremum principles. Topics in kinetic theory, thermodynamics, waves and sound.

PHYS 242. Principles and Symmetries in Classical Physics II.
(4-2) Cr. 5. S. Prereq: PHYS 221 or PHYS 241, MATH 166
Electrostatics, potentials and fields, currents, fields of moving charges, the magnetic field, electromagnetic induction, DC and AC circuits, Maxwell’s equations and electromagnetic waves, electric and magnetic fields in matter. Topics in optics, special relativity and modern physics.

PHYS 242H. Principles and Symmetries in Classical Physics II, Honors.
(Spring).
(4-2) Cr. 5. S. Prereq: PHYS 221 or 241, MATH 166
Electrostatics, potentials and fields, currents, fields of moving charges, the magnetic field, electromagnetic induction, DC and AC circuits, Maxwell’s equations and electromagnetic waves, electric and magnetic fields in matter. Topics in optics, special relativity and modern physics.

PHYS 290. Independent Study.
Cr. 1-4. Repeatable. Prereq: Permission of instructor

PHYS 298. Cooperative Education.
Cr. R. F.S.S. Prereq: Permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

PHYS 302. The Challenge of Contemporary Physics.
(3-0) Cr. 3. S. Prereq: Sophomore classification
A largely nonmathematical but intellectually challenging exploration of physics, which assumes no previous work in the field. Selected material from classical and modern physics establishes the conceptual framework for the study of major areas of contemporary physics, culminating in the discussion of topics at the frontier of present knowledge. Topics vary yearly and may include quarks, lasers, superconductivity, fission and fusion, solid state devices, gravitational waves, string theory, facilties, left handed materials, and quantum computing. Not suitable to meet a general physics requirement for natural science majors.

PHYS 304. Thermal Physics.
(3-0) Cr. 3. F. Prereq: PHYS 222, MATH 266
PHYS 306. Physics of Wave Motion. (3-0) Cr. 3. S. Prereq: PHYS 222, credit or enrollment in MATH 267
Oscillating systems including damped and forced oscillations; fluids, geometric optics, water waves, the wave equation, Fourier and Laplace transforms, non-uniform media, cylindrical and spherical waves, polarization, interference and diffraction, transmission lines, non-linear waves.

PHYS 310. Electronic Instrumentation for Experimental Physics. (2-4) Cr. 1. F. Prereq: PHYS 222; MATH 168
Common electrical instruments; power supplies; transducers; passive and active devices, analog integrated circuits, including filters and amplifiers; digital integrated circuits; signal transmission and enhancement. Nonmajor graduate credit.

PHYS 311. Intermediate Laboratory. Cr. 1-2. Repeatable. S. Prereq: PHYS 322
Experiments in classical and modern physics performed independently by each student. Nonmajor graduate credit.

PHYS 311T. Intermediate Laboratory for Secondary Physics Teachers. (0-6) Cr. 3. Repeatable. S. Prereq: PHYS 112 or PHYS 222
Experiments in classical and modern physics performed independently by each student. For students preparing for a career in high school teaching.

PHYS 321. Introduction to Modern Physics I. (3-0) Cr. 3. F. Prereq: PHYS 222, credit or enrollment in MATH 266
Quantum nature of matter; photons, de Broglie's postulate: wave-like properties of matter; Bohr's model of hydrogen atom; Schrodinger equations in one dimension: energy quantization; detailed solutions for potential steps, barriers and wells; one-electron atoms, spin and magnetic interactions; ground states, optical and x-ray excitations of multi-electron atoms.

PHYS 321L. Introductory Laboratory in Modern Physics I. (0-2) Cr. 1. F. Prereq: Credit or enrollment in PHYS 321

PHYS 322. Introduction to Modern Physics II. (3-0) Cr. 3. S. Prereq: PHYS 321
Quantum statistics; lasers; physics of molecules. Properties of solids, including electron band structure, superconductivity and magnetism. Nuclear physics, including nuclear sizes and masses, stability, decay modes, reactions, fission and fusion. Elementary particles, including strangeness, charm, and quarks. Fundamental forces of nature.

PHYS 322L. Introductory Laboratory in Modern Physics II. (0-2) Cr. 1. S. Prereq: Credit or enrollment in PHYS 321
Experiments related to the foundations of modern physics. Radioactive decay, elementary particles, Hall effect, quantization, spectroscopy, statistics and instrumentation.

PHYS 361. Classical Mechanics. (3-0) Cr. 3. F. Prereq: PHYS 222, MATH 265, MATH 266
Newtonian mechanics including forced oscillations, central forces and orbital motion, collisions, moving frames of reference, Lagrange's equations. Nonmajor graduate credit.

PHYS 362. Intermediate Mechanics. (3-0) Cr. 3. S. Prereq: PHYS 361
Rigid body motion; small oscillations, normal modes. Special relativity including length contraction, time dilation, simultaneity, Lorentz transformation, 4-vector covariant formalism, relativistic mechanics. Nonmajor graduate credit.

PHYS 364. Electricity and Magnetism I. (3-0) Cr. 3. F. Prereq: PHYS 222
Static electric and magnetic fields, potential theory; electromagnetism, Maxwell's equations. Nonmajor graduate credit.

PHYS 365. Electricity and Magnetism II. (3-0) Cr. 3. S. Prereq: PHYS 364
Relativistic electromagnetic theory; radiation and propagation of electromagnetic waves; interaction with matter. Nonmajor graduate credit.

PHYS 389. Junior Seminar. Cr. R. S.
Recommended for all junior physics majors. Career opportunities: graduate school programs and application, job placement, alternative careers, basic skills needed for the job market competition. Offered on a satisfactory-fail basis only.

PHYS 398. Cooperative Education. Cr. R. F.S.S.S. Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Review of materials and curricula for secondary school physics presented and discussed by members of the class. Required for approval to teach physics in secondary schools.

PHYS 421. Ultrafast Laser Science and Spectroscopy. (Dual-listed with PHYS 521). (3-0) Cr. 3. F. Prereq: PHYS 321, PHYS 365, or equivalent with permission of instructor
Introduction to ultrafast lasers, nonlinear optics, and their applications. Topics selected from: basic optics, atom-photon interactions, electrodynamics of condensed matter, laser physics, ultrafast and nonlinear optics, ultrashort pulse generation, broadband pulse generation, time-resolved spectroscopy and instrumentation. Nonmajor graduate credit.

PHYS 426. Mathematical Methods for the Physical Sciences. (3-0) Cr. 3. F. Prereq: Math 266 or 267

PHYS 432. Molecular and Cell Biophysics. (Dual-listed with PHYS 532). (3-0) Cr. 3. S. Prereq: PHYS 304 or CHEM 325
Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes. Nonmajor graduate credit.

PHYS 450. Undergraduate Research. Cr. 1-6. Repeatable. F.S.S.S. Prereq: Permission of instructor
Theoretical research under supervision of physics faculty.

PHYS 450L. Undergraduate Research. Cr. 1-6. Repeatable. F.S.S.S. Prereq: PHYS 311, permission of instructor
Laboratory project under supervision of physics faculty.

PHYS 461. Physics of Biomolecules. (Dual-listed with PHYS 561). (3-0) Cr. 3. F. Prereq: PHYS 304 or CHEM 325, BBMB 301, or permission of instructor
Cell and Molecular Biophysics. Physical techniques used to characterize the structure, dynamics and properties of biomolecules with emphasis on single molecule techniques.

PHYS 470L. Applied Physics Laboratory. Cr. 2-5. Repeatable. F.S.S.S. Prereq: PHYS 322 and permission of instructor
Studies in modern experimental techniques via experimentation and simulation in various areas of applied physics, e.g. superconductivity, optical spectroscopy, nuclear magnetic resonance, electron spin resonance, x-ray diffraction, and computation of electronic and structural properties of matter.

PHYS 480. Quantum Mechanics I. (3-0) Cr. 3. F. Prereq: PHYS 322, MATH 386
First semester of a full-year course. A systematic development of the formalism and applications of quantum mechanics. Solutions to the time independent Schrodinger equation for various one-dimensional potentials including the harmonic oscillator; operator methods; Heisenberg picture; angular momentum; the hydrogen atom; spin; symmetry properties. Nonmajor graduate credit.

PHYS 481. Quantum Mechanics II. (3-0) Cr. 3. S. Prereq: PHYS 480
Continuation of 480. Addition of angular momentum; charged particles in electromagnetic fields; time-independent perturbation theory; variational principles; WKB approximation; interaction picture; time-dependent perturbation theory; adiabatic approximation; scattering; selected topics in radiation theory; quantum paradoxes. Nonmajor graduate credit.

PHYS 490. Independent Study. Cr. 1-4. Repeatable, maximum of 9 credits. Prereq: 6 credits in physics, permission of instructor
No more than 9 credits of Phys 490 may be counted toward graduation.
PHYS 490H, Independent Study, Honors.
Cr. 1-4. Repeatable, maximum of 9 credits. Prereq: 6 credits in physics, permission of instructor
No more than 9 credits of Phys 490 may be counted toward graduation.

PHYS 496. Modern Optics.
(Cross-listed with E E). (3-0) Cr. 3. S. Prereq: Credit or enrollment in PHYS 322, PHYS 365, and PHYS 480
Review of wave and electromagnetic theory; topics selected from: reflection/ refraction, interference, geometrical optics, Fourier analysis, dispersion, coherence, Fraunhofer and Fresnel diffraction, holography, quantum optics, nonlinear optics. Nonmajor graduate credit.

PHYS 498. Cooperative Education.
Cr. R. F.S.S. Prereq: Permission of the department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

(2-0) Cr. 1. Repeatable. F.
A practical introduction to communication methods in physics and astronomy classrooms and professional settings. For graduate physics majors only. Offered on a satisfactory-fail basis only.

Cr. R. F.
(1-1) Discussion by research staff of their research areas, expected thesis research work, and opportunities in the field. For graduate physics majors only. Offered on a satisfactory-fail basis only.

PHYS 511. Condensed Matter Physics I.
(3-0) Cr. 3. S. Prereq: PHYS 304, credit or enrollment in PHYS 481
First semester of a full-year course. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

PHYS 512. Condensed Matter Physics II.
(3-0) Cr. 3. F. Prereq: PHYS 511
Continuation of 511. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

(Dual-listed with PHYS 421). Cr. 3. F. Prereq: PHYS 321, PHYS 365, or equivalent with permission of instructor
Introduction to ultrafast lasers, nonlinear optics, and their applications. Topics selected from: basic optics, atom-photon interactions, electrodynamics of condensed matter, laser physics, ultrafast and nonlinear optics, ultrashort pulse generation, broadband pulse generation, time-resolved spectroscopy and instrumentation.

PHYS 526. Particle and Nuclear Physics.
(4-0) Cr. 4. S. Prereq: Credit or enrollment in PHYS 481
Basic properties and structures of nuclei, hadrons, and elementary particles; weak and strong interactions; The Standard Model; accelerators and detectors; nuclear models; nuclear decay and stability; nuclear astrophysics; the Higgs mechanism; the CRM matrix; running coupling constants; relativistic heavy-ion collisions; selected topics beyond the standard model such as SUSY and grand unification.

PHYS 531. Statistical Mechanics.
(3-0) Cr. 3. S. Prereq: PHYS 304 and credit or enrollment in PHYS 481, MATH 465, credit or enrollment in MATH 365 or MATH 426
Thermodynamic properties of systems of many particles obeying Boltzmann, Fermi-Dirac, and Bose-Einstein statistics; microcanonical, canonical, and grand canonical ensembles and their application to physical problems; density matrices; introduction to phase transitions; renormalization group theory; kinetic theory and fluctuations.

PHYS 532. Molecular and Cell Biophysics.
(Dual-listed with PHYS 432). (3-0) Cr. 3. S. Prereq: PHYS 304 or CHEM 325.
Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes.

(3-0) Cr. 3. S. Prereq: Credit or enrollment in PHYS 481
Theory of groups and group representations; introduction to both point and continuous groups, and their applications in physics.

PHYS 535. Physics of Semiconductors.
(Cross-listed with E E). (3-3) Cr. 4. Prereq: E E 311 and E E 332
Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic structures, crystal structure, energy bands, equilibrium carrier concentration and doping, excess carriers and recombination, carrier transport at low and high fields, space charge limited current, photo-conductivity in solids, phonons, optical properties, amorphous semiconductors, heterostructures, and surface effects. Laboratory experiments on optical properties, carrier lifetimes, mobility, defect density, doping density, photo-conductivity, diffusion length of carriers.

(Cross-listed with E E). (3-0) Cr. 3. Prereq: E E 535
P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers, heterojunctions, bipolar transistors, field-effect transistors, negative-resistance devices and optoelectronic devices.

PHYS 541. General Relativity.
(3-0) Cr. 3. F. Prereq: PHYS 362, MATH 307 or MATH 317
Tensor analysis and differential geometry developed and used to formulate Einstein field equations. Schwarzschild and Kerr solutions. Other advanced topics may include gravitational radiation, particle production by gravitational fields, alternate gravitational theories, attempts at unified field theories, cosmology.

PHYS 551. Computational Physics.
(0-4) Cr. 2. S. Prereq: PHYS 365, credit or enrollment in PHYS 481
Use of modern computational techniques to analyze topics in classical and modern physics. Offered on a satisfactory-fail basis only.

PHYS 561. Physics of Biomolecules.
(Dual-listed with PHYS 461). (3-0) Cr. 3. F. Prereq: PHYS 304 or CHEM 325, BBMB 301, or permission of instructor; graduate student classification in Science/Engineering
Cell and Molecular Biophysics. Physical techniques used to characterize the structure, dynamics and properties of biomolecules with emphasis on single molecule techniques.

(3-0) Cr. 3. S. Prereq: PHYS 362, MATH 426, MATH 465
Variational principles, Lagrange’s equations, Hamilton’s canonical equations, canonical transformations, Hamilton-Jacobi theory, infinitesimal transformations, classical field theory, canonical perturbation theory, classical chaos.

PHYS 571. Electricity and Magnetism I.
(3-0) Cr. 3. F. Prereq: PHYS 365, MATH 426
Electrostatics, magnetostatics, boundary value problems, Maxwell’s equations, wave phenomena in macroscopic media, wave guides.

PHYS 572. Electricity and Magnetism II.
(3-0) Cr. 3. S. Prereq: PHYS 571
Special theory of relativity, least action and motion of charged particles in electromagnetic fields, radiation, collisions between charged particles, multipole fields, radiation damping.

PHYS 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of instructor
Topics of current interest.

PHYS 590A. Nuclear Physics.
Cr. arr. Repeatable. Prereq: Permission of instructor
Topics of current interest.

PHYS 590B. Condensed Matter Physics.
Cr. arr. Repeatable. Prereq: Permission of instructor
Topics of current interest.

PHYS 590C. High Energy Physics.
Cr. arr. Repeatable. Prereq: Permission of instructor
Topics of current interest.

PHYS 590D. Physics.
Cr. arr. Repeatable. Prereq: Permission of instructor
Topics of current interest.

PHYS 590E. Applied Physics.
Cr. arr. Repeatable. Prereq: Permission of instructor
Topics of current interest.
PHYS 590F. Biophysics.
Cr. arr. Repeatable. Prereq: Permission of instructor
Topics of current interest.

PHYS 591. Quantum Physics I.
(4-0) Cr. 4. F. Prereq: PHYS 481
First semester of a full-year course. Postulates of quantum mechanics; time-dependent and time-independent Schrodinger equations for one-, two-, and three-dimensional systems; theory of angular momentum; Rayleigh-Schrodinger time-independent perturbation theory.

PHYS 592. Quantum Physics II.
(4-0) Cr. 4. S. Prereq: PHYS 591
Continuation of 591. Variational theorem and WKB method; time-dependent perturbation theory and 2nd quantization of the EM field in Coulomb gauge; method of partial waves and Born approximation for scattering by central potentials; identical particles and symmetry; Dirac and Klein-Gordon equation for free particles; path integral formalism.

PHYS 599. Creative Component.
Cr. arr. Prereq: Permission of instructor
Individually directed study of research-level problems for students electing the nonthesis M.S. degree option.

Courses for graduate students:

PHYS 611. Quantum Theory of Condensed Matter.
(3-0) Cr. 3. S. Prereq: PHYS 512 and PHYS 681 or permission of instructor.
Quasiparticles in condensed matter: phonons, magnons, photons, electrons. Quantum theory of interacting many body systems: Green’s functions and diagrammatic techniques.

PHYS 624. Advanced Nuclear Physics.
(3-0) Cr. 3. Prereq: PHYS 526 and PHYS 592
Microscopic few-body and many-body theory; theory of effective Hamiltonians; relativistic nuclear physics; nuclear effects in hadron-nucleus, lepton-nucleus, and nucleus-nucleus reactions.

PHYS 625. Physics of Strong Interactions.
(3-0) Cr. 3. Prereq: PHYS 681
Quark model; Quantum Chromodynamics (QCD); perturbation methods for QCD; effective field theories for pions and nucleons; finite temperature field theories; quark-gluon plasma; phase transitions in QCD.

PHYS 637. Elementary Particle Physics I.
(3-0) Cr. 3. Prereq: PHYS 526 and PHYS 592
First semester of a full year course. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry; modern theoretical techniques and tests of the Standard Model.

PHYS 638. Elementary Particle Physics II.
(3-0) Cr. 3. Prereq: PHYS 637
Continuation of 637. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry, and superstring theory; modern theoretical techniques.

(Cross-listed with MATH). (3-0) Cr. 3. S.
Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; coarse grained nonlinear dynamics, interface propagation and spatial pattern formation.

PHYS 650. Advanced Seminar.
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650A. Nuclear Physics.
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650B. Condensed Matter Physics.
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650C. High Energy Physics.
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650D. Physics.
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650E. Applied Physics.
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650F. Biophysics.
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 660. Advanced Topics in Physics.
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 660A. Nuclear Physics.
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 660B. Condensed Matter Physics.
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 660C. High Energy Physics.
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 660D. Physics.
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 660E. Applied Physics.
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 660F. Biophysics.
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 681. Quantum Field Theory I.
(3-0) Cr. 3. F. Prereq: PHYS 564, PHYS 572, PHYS 592
Quantization of fields (canonical and path integral); Feynman rules; introduction to gauge theories; Quantum Electrodynamics; radiative corrections; renormalization and renormalization group.

PHYS 682. Quantum Field Theory II.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: PHYS 681
Continuation of 681. Systematics of renormalization; renormalization group methods; symmetries; spontaneous symmetry breaking; non-abelian gauge theories; the Standard Model and beyond; special topics.

PHYS 699. Research.
Cr. arr. Repeatable.

Political Science

Undergraduate Study

For the undergraduate curriculum in Liberal Arts and Sciences, with major in political science, leading to the degree of Bachelor of Arts, see Liberal Arts and Sciences, Curriculum.

The study of political science is designed to enable students to understand the nature of politics, public values, and the institutions and processes of politics in their various forms.

Students completing a major in political science will understand and be able to interrelate the leading theories, literature, and approaches in the subfields of American government, political theory and methods, international relations, and comparative politics. Graduates can analyze and formulate effective argumentation in written and oral forms, including the ability to appreciate and accommodate diverse political ideas, and the ability to collect and critique information and ideas of others in support of original arguments. Graduates appreciate the knowledge and civic responsibilities required for effective participation in political life.

The political science major is often chosen by students preparing for a career in law. Students with this goal should consult with the department in selecting courses. See also Preprofessional Study.

Several internship options are available to the political science major, offering students the opportunity to experience practical application of the knowledge learned in academic courses.
Requirements for the Major:
For the purpose of defining undergraduate requirements in the Department of Political Science, the Department employs four subfields within the discipline, with the following courses in each:

I. Theory and Methods

† Arranged with instructor.

To complete the major in Political Science a student must earn 33 semester credits of courses in Political Science subject to the following conditions:

1. Students must satisfactorily complete POL S 101, POL S 301.
2. Students must complete at least 3 credits in each of the four subfields listed above. Students may apply only one half-semester mini-course (POL S 312, POL S 313, POL S 314, POL S 315) in each group.
3. Political Science courses in which a student has a grade of D+ or lower will not count for the major but can be counted as electives.
4. At least 18 credits of Political Science courses must be numbered 300 or above.
5. Students must pass one statistics course from among STAT 101, STAT 104, STAT 226 or STAT 231.
6. No more than six credits of POL S 490 or POL S 499 (alone or in combination) can be used to fulfill any of these requirements. A maximum of three credits of POL S 490 can be applied to meet any of the four subfield requirements.
7. A maximum of six credits from half-semester mini-courses (POL S 312, POL S 313, POL S 314, POL S 315) can be applied to satisfy the above requirements.
8. At least 15 credits of Political Science coursework must be earned at Iowa State University.
9. Advanced Communication Skills: Majors must earn at least a C+ in each of ENGL 150 and ENGL 250. Those who do not must complete ENGL 309 or ENGL 314 with a grade of C or higher.

The department offers a minor in political science that may be earned by completing 15 credits beyond the 100-level of coursework in political science, nine of which must be at the 300 level or above. A student minoring in Political Science normally will be expected to take at least 9 credits in Political Science coursework at Iowa State University. Only 3 credits of POL S 490 or POL S 499, alone or in combination, and only 2 credits of POL S 312-315 may be included in the total of 15 credits required for the minor. All minors in the College of Liberal Arts and Science required a minimum of 6 credits in courses numbered 300 and above taken at ISU with a grade of C or higher. Credits earned in POL S 499, offered on a satisfactory/fail basis only, will not fulfill this requirement.

Graduate Study

Master of Arts (M.A.)

The department offers work for a Master of Arts degree (M.A.), with a major in political science, and minor for students in other departments. The department also offers work for a Master of Public Administration (MPA) degree or a Graduate Certificate of Public Management (GCPM) for those interested in an educational certificate program that requires less work than a full masters program. In addition, the Political Science Department offers work for the Master of Science in Information
Assurance. Information with detailed requirements for all graduate degrees may be obtained at the department’s web page at www.polis.iastate.edu/gradhome.shtml. The M.A. program is designed to enable its graduates to engage in governmental research, enter public service or private sector work, teach, or pursue further graduate study. Graduate students may also wish to work for certification for high school or junior college teaching. A thesis is required for this degree. The department also has a joint Master of Arts/Juris Doctor (M.A./J.D.) program with the Law School of Drake University. Detailed information for the M.A./J.D. can be found at the ISU Political Science webpage as well as the Drake Law School website (under Joint Degree): www.law.drake.edu/admissions/?pageId=jointDegrees (http://www.law.drake.edu/admissions/?pageId=jointDegrees). Students wishing to pursue this joint degree must submit separate applications to both Drake University and Iowa State University and be accepted by both institutions.

M.A. graduates have a broad substantive understanding of the political process and the academic study of politics. They also have in-depth knowledge of one or more subfields in political science. Graduates are skilled at conducting research and preparing thorough research summaries. They are able to identify and address complex political questions, taking into account related ethical, legal, economic, and social issues.

The prerequisites for major graduate work in the M.A. program normally are completion of at least 15 credits in political science, the GRE (Graduate Record Examination), one year of a foreign language (equivalent to 8 semester hours) and a course in basic statistics (equivalent to STAT 101). If the basic statistics requirement has not been met, the student may remedy the deficiency by passing equivalent courses, for which no graduate credit will be received. During their program of study, all students are expected to complete STAT 401, POL S 502, and a thesis. Students normally do concentrated course work in at least one of the following four areas: international relations, comparative politics, public policy, or American politics. The student’s program of study committee may require additional work.

Students in other graduate programs may obtain a minor in political science by completing at least 9 credits of political science courses, including one of the preminars. Interested students should consult the Graduate College Handbook for additional information on graduate minors.

Master of Science in Information Assurance (MSIA or InfAs)

The Master of Science in Information Assurance (MSIA, also referred to as InfAs) is a multi-disciplinary program designed to provide students with diverse backgrounds and interests the opportunity to obtain professional training in the emerging field of information assurance. The core of the MSIA program is built around a series of courses taught in Electrical and Computer Engineering, Mathematics, and Computer Science that introduce students to software and hardware aspects of cryptography and computer security. The program also recognizes, however, that information assurance-defined in terms of security, privacy, access, and reliability-is not simply a technical problem but also involves important societal dimensions, including policy, education, ethics, and management. Recognizing that political science offers many potential intersections with information assurance (e.g., public sector management of information technology; forensics and computer crime; information technology policy and law; international relations; public policy; etc.), students with interests in these areas are encouraged to select the Department of Political Science as their home department.

Students opting to pursue a MSIA degree through the Department of Political Science can expect to acquire skills and background knowledge relevant to a career in public policy or public sector management of information assurance technologies. The MSIA degree can also help prepare students who wish to go on to pursue a PhD in information politics and policy.

Students interested in the MSIA degree program should consider Political Science as a home department if their future career and/or educational interests lie in such areas as: institutional issues related to the Internet and information technologies; electronic government and electronic democracy; information technology, international security, and information warfare; information technology policy and law; and public administration and public sector management of information technology.

Admission requirements generally follow the same guidelines as the M.A. or M.P.A in Political Science. Degree requirements are specified by the InfAs program in cooperation with Political Science. More in-depth information on the program can be found at: http://www.polis.iastate.edu/infassur.shtml.

Public Policy and Administration

The Public Policy and Administration program offers work for the professional Master of Public Administration degree (MPA). The program is designed to educate and train students for careers in management and policy analysis at the federal, state, and local levels of government, and nonprofit sector management. The program serves a diverse student body, including pre-service students and in-service employees in government and nonprofit organizations. The curriculum covers a broad range of public administration and policy topics, including organizational and administrative processes, eGovernment, leadership, organizational change dynamics, human resource management, budgeting, cost benefit analysis, financial management, policy analysis, and ethics. The program offers three concentrations: Public Management, eGovernment and Management of Information Technology, and Policy Analysis.

The MPA degree requires 37 credits, which includes: (a) 15 credits in core competency, (b) 9 credits in one of the concentration areas, (c) 4 credits in other required courses, (d) up to 7 credits of electives, and (e) 3 credits of creative component (a capstone project) or a minimum of 3 credits of research (thesis). Pre-service students are encouraged to obtain an internship for 3 credits.

The Program also offers a Graduate Certificate of Public Management program (GCPM), which requires a completion of 15 credits: 9 credits in the core, and two additional courses in the area of student interest. Some classes are available via videoconferencing, streaming video, one week and executive weekend formats, and online.

The Program also offers joint master’s degrees with the Department of Community and Regional Planning (25 credits in each program plus a six credit thesis), and the interdisciplinary Information Assurance program (30 credits). The requirement for all double degrees consists of 22 credits from each discipline for a total of 54 credits. Under the rules of the Graduate College a graduate student may pursue a joint degree between any two disciplines of their interest. Interested students are encouraged to consult the ISU’s Graduate Handbook. The minimum requirements for all double degrees consist of 22 credits from each program.

Requirements for admission are a graduate school application, an essay stating purposes for study, college transcripts, the GRE (waived for those with five or more years of public or nonprofit sector experience), three letters of recommendation, and the TOEFL for international students.

The department cooperates in the interdepartmental majors in transportation and water resources, and an interdepartmental minor in gerontology (see Index). Refer to the Schedule of Classes (http://classes.iastate.edu/) or consult the Public Policy and Administration (MPA) web page (http://mpa.las.iastate.edu/) for up-to-date scheduling information.

Courses

Courses primarily for undergraduates:

POL S 101. Orientation to Political Science. (3-0) Cr. 1. F.S. Prereq: Political Science and Open Option majors only or permission of the instructor.

Introduction to the discipline and sub-fields of Political Science, including an introduction to analytical thinking, and research skills relevant to political science. Orientation to university, college, and departmental structure, policies, and procedures; student roles and responsibilities; degree planning and career awareness. Offered on a satisfactory-fail basis only.

POL S 215. Introduction to American Government. (3-0) Cr. 3. F.S.SS.

Fundamentals of American democracy; constitutionalism; federalism; rights and duties of citizens; executive, legislative, and judicial branches of government; elections, public opinion, interest groups, and political parties.

POL S 235. Introduction to Ethics and Politics. (3-0) Cr. 3. F.S.SS.

Introduction to moral controversies surrounding political issues such as violence, deception, corruption, civil disobedience, democracy, justice, equality, and freedom. Students will read classic and contemporary texts and consider political applications.

POL S 241. Introduction to Comparative Government and Politics. (3-0) Cr. 3. F.S.

Basic concepts and major theories; application to selected political systems, including non-western political systems. Meets International Perspectives Requirement.

POL S 251. Introduction to International Politics. (3-0) Cr. 3. F.S.

Dynamics of interstate relations pertaining to nationalism, the nation state; peace and war; foreign policy making; the national interest; military capability and strategy; case studies of transnational issues, such as population, food, energy, and terrorism. Meets International Perspectives Requirement.
POL S 298. Cooperative Education. 
Cr. R. F.S.SS. Prereq: Permission of department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

POL S 301. Introduction to Empirical Political Science Research. 
(3-0) Cr. 3. F.S.SS. Prereq: 3 credits in political science; one statistics course required; sophomore classification
Techniques of quantitative and qualitative political research and analysis. Development and analysis of concepts and theories. Methods of data collection, research design, and critical thinking. Applications of statistics to political research.

POL S 305. Political Behavior. 
(3-0) Cr. 3. F. Prereq: Sophomore classification
Empirical theories and descriptions of political behavior, including decision-making, opinion, and attitudes, with an emphasis on groups and political elites.

(3-0) Cr. 3. S. Prereq: 6 credits in political science or sophomore classification
The formation of political opinions and attitudes, political participation, and voting behavior of the general public, and their influences on American politics; polling as a means of assessing public opinions and behaviors.

POL S 310. State and Local Government. 
(3-0) Cr. 3. S. Prereq: 3 credits in political science

POL S 311. Municipal Government and Politics. 
(3-0) Cr. 3. F. Prereq: POL S 215
Legal position of municipal corporation; forms of organization; administration of municipal services; problem-solving in municipal government; urban and metropolitan political process; implications of federal urban policies.

POL S 312. Special Topics in American Government and Politics. 
(3-0) Cr. 3. F.S. Prereq: Sophomore classification
Half-semester courses on selected topical issues in American government and politics. Designated repeat in Pol S 312 is not permitted. Use of Pol S 312 credit in Pol S major and minor is limited. See Undergraduate Study for information.

POL S 313. Special Topics in Theory and Methods. 
(1.5-0) Cr. 2. F.S. Prereq: Sophomore classification
Half-semester course on selected topical issues in theory and methods in political science. Designated repeat in Pol S 313 is not permitted. Use of Pol S 313 credit in Pol S major and minor is limited. See Undergraduate Study for information.

POL S 314. Special Topics in Comparative Politics. 
(1.5-0) Cr. 2. F.S. Prereq: Sophomore classification
Half-semester course on selected topical issues in comparative politics. Designated repeat in Pol S 314 is not permitted. Use of Pol S 314 credit in Pol S major and minor is limited. See Undergraduate Study for information.

POL S 315. Special Topics in International Relations. 
(1.5-0) Cr. 2. F.S. Prereq: Sophomore classification
Half-semester course on selected topical issues in international relations. Designated repeat in Pol S 315 is not permitted. Use of Pol S 315 credit in Pol S major and minor is limited. See Undergraduate Study for information.

Meets International Perspectives Requirement.

POL S 319. Law and Politics. 
(3-0) Cr. 3. F.S. Prereq: Sophomore standing; POL S 215 recommended
An evaluation of the American judicial system as it relates to controversial topics emphasizing the relationship between law and politics. Primary emphasis on topics such as statutory construction, judicial review, the proper role of the judiciary, vagueness and ambiguity in law, competing constitutional philosophies, executive branch concerns, and relative power of different branches. Credit for both Pol S 319 and 230 may not be applied toward graduation.

(Cross-listed with CJ ST). (3-0) Cr. 3. S. Prereq: POL S 215
An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent.

POL S 333. Democracy and Diversity in America. 
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: Sophomore classification
Examination of competing Americans’ conceptions of democracy as strategies for responding to the racial, religious, ethnic, gender, and economic diversity of the inhabitants of America. Connections to contemporary debates about topics such immigration, affirmative action, multicultural education, religion, and minority representation. Meets U.S. Diversity Requirement

(Cross-listed with SOC). (3-0) Cr. 3. F. Prereq: A course in political science or sociology
The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism.

(3-0) Cr. 3. S.
Examines the history and political dynamics of public science and technology policies. Examines differences in political and technological orientations. Assessment of the roles of politics, media, engineering, science, and private business in the formation public policies that put heavy reliance on or seek to advance science and technology.

(3-0) Cr. 3. Alt. S., offered 2012
Examination of economic and political development as they relate to the political process of developing states. Impact of social and technological change on political systems of developing areas. Some case studies.

POL S 343. Latin American Government and Politics. 
(3-0) Cr. 3.
Political institutions, processes, and contemporary issues. Selected countries examined intensively to illustrate generalizations. Role of parties, military, church, human rights, women, environmental issues, interest groups, ideology, and globalization.

POL S 344. Public Policy. 
(3-0) Cr. 3.
How agendas come to be set in public policy; theories describing the policy-making process, forces molding policy choices and the impact of such choices.

POL S 345. Immigration Policy. 
(3-0) Cr. 3. Prereq: Junior or Senior classification
Political, economic, and social factors that affect immigration policy in the United States and abroad. Systematic analysis and implications of different types of immigration policies in countries sending and receiving immigrants. Nonmajor graduate credit.

POL S 346. European Politics. 
(3-0) Cr. 3.
Comparative study of political institutions of Europe and the European Union; emphasis on parties, elections, and governmental structures. Substance and process of public policies in selected problem areas.

POL S 347. African Politics. 
(3-0) Cr. 3.
Major trends in African politics over the last 150 years and current issues facing Africans today. Basic African geography. Topics include democratization, economic development, civil conflict, ethnic politics and foreign aid. Meets International Perspectives Requirement.

POL S 349. Politics of Russia and the Soviet Successor States. 
(3-0) Cr. 3. Alt. F., offered 2012
POL S 350. Politics of the Middle East.
(3-0) Cr. 3. S.
Introduction to the Middle East as a region and to issues of political importance to the Middle East and its place in the world. Topics covered include Islam, regional conflicts and alliances, local leaders, economic issues, and gender and social relations. Nonmajor graduate credit.
Meets International Perspectives Requirement.

POL S 354. War and the Politics of Humanitarianism.
(Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq: Pol S 235, Pol S 251, or Anthr 230 Humanitarianism as a system of thought and a system of intervention in conflict and post-conflict situations: role of humanitarian organizations and actors in addressing human suffering caused by conflict or war military action as a form of humanitarian intervention.
Meets International Perspectives Requirement.

POL S 356. Theories of International Politics.
(3-0) Cr. 3.
Introduction to essential theoretical concepts and approaches, both classical and contemporary on world politics including realism, empiricism, liberalism, and postpositivism; for example, war and conflict, peace and cooperation, political economy, crisis decision-making, systemic theory, dependence and interdependence.

(3-0) Cr. 3. F.
The major theoretical approaches in security policy – strategy and deterrence, game theory, bargaining theory, compliance, and coercive diplomacy, and crisis diplomacy. Illustration of these various approaches through historical and contemporary cases.

POL S 358. United States Foreign Policy.
(3-0) Cr. 3. F. Prereq: POL S 215 or POL S 251, or HIST 467 or HIST 470 or HIST 471
U.S. foreign policy since World War II with emphasis on changing American values in foreign policy, the role of the President, Congress, and the bureaucracy in policy making, and a survey of current foreign policy issues and problems.

POL S 359. Current Issues in American Foreign Policy.
(3-0) Cr. 3. S. Prereq: POL S 215, POL S 251, or POL S 358
Examination of contemporary U.S. foreign policy issues (e.g., U.S. policy in the Middle East; defense budgeting in the post-Cold War era; conventional and nuclear arms control policy). The course will explore alternate methods to analyze policy, survey the evolution of each issue, and discuss different policy alternatives.

POL S 360. American Institutions: Congress.
(3-0) Cr. 3. F. Prereq: POL S 215
Theory and practice of representation and deliberation in the legislative branch of the republic; operations of Congress in terms of its committees, leadership, legislative and oversight processes, partisan politics, electoral campaigns, service to local and special electoral campaigns, service to local and special interests, and interactions with the President.

(3-0) Cr. 3. F. Prereq: POL S 215
Creation and historical development of the office of chief executive; character and behavior of past chief executives; selection and control; powers, roles, functions; executive staff; relations with Congress, press, public opinion.

(3-0) Cr. 3. Prereq: Sophomore standing
Course surveys the influence of mass media organizations, forms, techniques, and technologies on the practices and expectations of American politics. Evaluates the role of media in the political process, exploring the extents to which media promotes or discourages political participation. Topics will examine the influence and political uses of news coverage, political advertising, political debates, talk radio, film, the Internet, and media spectacles.

POL S 364. Political Parties and Interest Groups.
(3-0) Cr. 3. F. Prereq: POL S 215; sophomore classification
Nature of political parties and interest groups, their relation to each other, and their effects on American politics. Topics include party identification, party organization and mobilization, factionalism, lobbying, campaign contributions and financing, and the effects of special interests on public law.

POL S 370. Religion and Politics.
(Cross-listed with RELIG). (3-0) Cr. 3. Prereq: Sophomore classification
The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally. Nonmajor graduate credit.

POL S 371. Introduction to Public Administration.
(3-0) Cr. 3. F. Prereq: Sophomore classification
A survey of the historic and contemporary administrative realities that contribute to the unique challenges of public governance at the administrative and managerial levels of international, national, state, and local government. This introductory course explores the essential issues and competencies involved in the efficient, effective, and ethical provision of public goods and services. Critical topics addressed in the course include crisis management, intergovernmental relations, social equity, public-private partnerships, and privatization.

POL S 381. International Political Economy.
(3-0) Cr. 3. S.
Introduction to the theoretical perspectives on international political economy. Exploration of specific issues such as the changing international trade regime, international finance, and Third World development under conditions of globalization.

(Cross-listed with ENV S). (3-0) Cr. 3. F. Prereq: sophomore classification
Major ideologies relation to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.

POL S 385. Women in Politics.
(Cross-listed with W S). (3-0) Cr. 3. S.
Examination of the entry and participation of women in politics in the United States and other countries including a focus on contemporary issues and strategies for change through the political process.
Meets U.S. Diversity Requirement

POL S 395. Advanced Writing in Political Science.
Cr. R. F.S.S.
Taken in conjunction with 300- or 400-level Political Science courses. Offered on a satisfactory-fail basis only.

POL S 398. Cooperative Education.
Cr. R. F.S.SS. Prereq: Permission of department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing work period.

POL S 413. Intergovernmental Relations.
(Dual-listed with POL S 513). (3-0) Cr. 3. S. Prereq: 6 credits in American government
Theories and practices of the American federal system. Politics and policy making among federal, state, and local governments. Nonmajor graduate credit.

POL S 420. Constitutional Law.
(3-0) Cr. 3. F. Prereq: POL S 215; junior classification
Development of the United States Constitution through judicial action; influence of public law and judicial interpretations upon American government and society. Nonmajor graduate credit.

POL S 421. Constitutional Freedoms.
(3-0) Cr. 3. S. Prereq: POL S 320 or POL S 420
Leading Supreme Court cases interpreting the Bill of Rights and the Fourteenth Amendment. Emphasis on religion, speech, privacy, due process, and equal protection. Nonmajor graduate credit.

POL S 422. International Law.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: POL S 215 or POL S 251; junior classification
Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: POL S 215; junior classification
Examination of contemporary international security policy issues such as the changing international trade regime, international finance, and Third World development under conditions of globalization.

POL S 430. Foundations of Western Political Thought.
(3-0) Cr. 3. F. Prereq: Sophomore classification
The study of 500 years of political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law. Nonmajor graduate credit.
POL S 431. Modern Political Thought. 
(Dual-listed with POL S 531). (3-0) Cr. 3. Prereq: 6 credits in political science, philosophy, or European history. Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, toleration, property, power, skepticism, and normative views of international politics. Nonmajor graduate credit.

POL S 442. The Policy and Politics of Coastal Areas. 
(Dual-listed with POL S 542). (Cross-listed with ENV S). (3-0) Cr. 3. SS. Exploration of political implications of coastal policy. Issues include: "Carrying capacity," zoning, regulation of human development activities, trade-offs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.

POL S 452. Comparative Foreign Policy. 
(Dual-listed with POL S 552). (3-0) Cr. 3. S. Prereq: POL S 251 Various theoretical approaches to explain foreign policy making and behavior through the use of case studies of selected nations. Nonmajor graduate credit. Meets International Perspectives Requirement.

POL S 453. International Organizations. 
(3-0) Cr. 3. S. Prereq: POL S 251 Private and public organizations such as the United Nations, other specialized agencies, and multinational organizations, and their influence on our daily lives. Nonmajor graduate credit.

POL S 470. Public Choice. 
(3-0) Cr. 3. Prereq: ECON 101 Application of economics to political science in the study of nonmarket decision-making. Behavior of bureaucrats, elected officials, and voters. Market failure, collective action, representative democracies, direct democracies, logrolling, voter paradoxes, and game theory. Nonmajor graduate credit.

POL S 475. Management in the Public Sector. 
(Dual-listed with POL S 575). (3-0) Cr. 3. F. Prereq: POL S 371 Literature and research on organizational behavior and management theory with emphasis on applied aspects of managing contemporary public sector organizations. Topics include distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change. Nonmajor graduate credit.

POL S 476. Administrative Law. 
(Dual-listed with POL S 576). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: POL S 215; junior classification Constitutional problems of delegation of governmental powers, elements of fair administrative procedures, judicial control over administrative determinations. Nonmajor graduate credit.

(Dual-listed with POL S 577). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: Junior classification Diverse perspectives on the changing roles and relationships of business, government and society so as to open the way for more effective policy decisions on corporate-government affairs. Topics may include the changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; and politics in the business-government relationship. Nonmajor graduate credit.

POL S 480. Ethics and Public Policy. 
(Dual-listed with POL S 580). (3-0) Cr. 3. Prereq: 6 credits in political science Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making. Nonmajor graduate credit.

POL S 485. Comparative Public Administration. 
(Dual-listed with POL S 585). (3-0) Cr. 3. F. Comparisons of government bureaucratic structures and processes in major world regions, trends and issues of administrative and management reforms, globalization and other contemporary challenges to state administrative structures and policies, skills needed to evaluate and implement public management reforms.

POL S 487. Electronic Democracy. 
(Dual-listed with POL S 587). (3-0) Cr. 3. Prereq: Sophomore standing or instructor approval The impact of computers, the Internet, and the World Wide Web on politics and policy. The positive and negative effects on information technology (IT) on selected topics such as freedom, power and control, privacy, civic participation, the sense of "community," "virtual cities," interest group behavior, the new media, campaigns, elections, and voting will be examined. Nonmajor graduate credit.

POL S 490. Independent Study. 
Cr. arr. Repeatable. upper 6 credits. F.S. Prereq: 6 credits in political science Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in political science Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in political science Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490C. Independent Study: Comparative Politics. 
Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in political science Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490D. Independent Study: International Relations. 
Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in political science Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490E. Independent Study: Extended credit. 
Cr. 1-2. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in political science Extra study for any 300-Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490G. Independent Study: Catt Center Project. 
Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in political science Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490H. Independent Study: Honors. 
Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in political science Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 491. Senior Thesis. 
Cr. 3. Prereq: 21 credits of POL S and permission of instructor Written under the supervision of a Political Science faculty advisor.

POL S 496. Teaching Internship in Political Science. 
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. Prereq: 12 credits in political science and permission of instructor Undergraduate teaching experience through assisting an instructor with an introductory course in political science. Offered on a satisfactory-fail basis only.

POL S 497. Research Internship in Political Science. 
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. Prereq: 12 credits in political science and permission of instructor Undergraduate research experience through assisting on a scholarly project with an instructor in political science. Offered on a satisfactory-fail basis only.
Courses primarily for graduate students, open to qualified undergraduates:

POL S 502. Political Analysis and Research.
(3-0) Cr. 3. F. Prereq: 6 credits in political science
Scope and methods of political science. Introduction to theoretical approaches and analytical reasoning in political science. Relationship of theory and data. Research design.

POL S 504. Proseminar in International Politics.
(3-0) Cr. 3. S. Prereq: 6 credits in political science or graduate standing
An overview of the major theoretical and empirical works in the study of international politics and foreign policy. Among the major theoretical approaches surveyed and applied to international politics are realism, neo-realism, liberalism, functionalism, rational choice theory, game theory, and decision-making theory. Seminar writings by leading scholars will be reviewed.

POL S 505. Proseminar in Comparative Politics.
(3-0) Cr. 3. F. Prereq: 6 credits in political science or graduate standing
Major theoretical approaches to the study of comparative politics -- varying concepts and definitions of society and policy, administrative traditions, institutional arrangements, political behavior, etc. Contrasting research method designs.

POL S 506. Proseminar in American Politics.
(3-0) Cr. 3. S. Prereq: 6 credits in political science or graduate standing
A presentation of the major theories and research on American government and politics. Substantive topics include modern democratic theory, institutional performance, and mass political behavior. A variety of research methodologies are examined, including normative theory, behavioralism, and rational choice analysis.

POL S 510. State Government and Politics.
(3-0) Cr. 3. Alt. F., offered 2012. Alt. S., offered 2013. Prereq: POL S 310
Comparative analysis of state political systems. Role of interest groups, political parties, legislatures, courts, and governors in state politics. Possible determinants of public policy outputs at the state level.

POL S 513. Intergovernmental Relations.
(Dual-listed with POL S 413). (3-0) Cr. 3. S. Prereq: 6 credits of American government
Theories and practices of the American federal system. Politics and policy making among federal, state, and local governments.

POL S 525. Mass Political Behavior.
(3-0) Cr. 3. Prereq: 6 credits in Political Science or graduate standing
An in-depth survey of the theoretical, empirical, and methodological works concerning mass political behavior in the United States. Substantive topics include political attitudes and ideologies, public opinion and voting behavior, and political psychology. Methods for studying mass behavior include survey research and experimental approaches.

POL S 531. Modern Political Thought.
(Dual-listed with POL S 431). (3-0) Cr. 3. Prereq: 6 credits in political science, philosophy, or European history
Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, tolerance, property, power, skepticism, and normative views of international politics. Nonmajor graduate credit.

POL S 533. E-government and Information Policy.
(3-0) Cr. 3. S. Overview of the legal and policy context of E-government development. Topics include the legal and regulatory policies on information management in governments, and public policies that use information technologies to address economic and social concerns and their impacts on citizens and governmental organizations.
POL S 573. Public Personnel Administration.  
(3-0) Cr. 3. F. Prereq: Graduate classification. 
Course discusses the history and development of high performance personnel administration in the public and nonprofit sectors regarding strategic planning, employee rights and responsibilities, performance assessment, collective bargaining, and civil service systems. Emphasized basic competencies in the essential human resource management tools in the areas of recruitment, retention, employee development, compensation, discipline, and conflict resolution.

POL S 574. Policy and Program Evaluation.  
(3-0) Cr. 3. F. Prereq: Graduate classification. 
Integration, application, and utilization of public administration and public policy concepts in the interpretation of results and effectiveness of public programs and the prediction of consequences for policymakers and administrators.

POL S 575. Management in the Public Sector.  
(Dual-listed with POL S 475). (3-0) Cr. 3. F. Prereq: POL S 371 
Literature and research on organizational behavior and management theory with emphasis on applied aspects of managing contemporary public sector organizations. Topics include distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change. Nonmajor graduate credit.

(Dual-listed with POL S 476). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: POL S 215; junior classification. 
Constitutional problems of delegation of governmental powers, elements of fair administrative procedures, judicial control over administrative determinations. Nonmajor graduate credit.

(Dual-listed with POL S 477). (3-0) Cr. 3. F. Prereq: Graduate classification. 
Diverse perspectives on the changing roles and relationships of business, government, and society as to open the way for more effective policy decisions on corporate-government affairs. Topics may include the changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; and politics in the business-government relationship.

POL S 580. Ethics and Public Policy.  
(Dual-listed with POL S 480). (3-0) Cr. 3. Prereq: 6 credits in political science. 
Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making. Nonmajor graduate credit.

(3-0) Cr. 3. F. Prereq: 6 credits in political science. 
An overview of the international political economy since the end of World War II. Special emphasis on national (primarily U.S.) development assistance and agricultural/food policies and policies, and those of the international food organizations, the World Bank, and the regional development banks.

POL S 582. Environmental Politics and Policies.  
(3-0) Cr. 3. F. Prereq: 3 credits in political science or 3 credits in Environmental Studies; graduate classification. 
Major ideologies relating to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.

POL S 585. Comparative Public Administration.  
(Dual-listed with POL S 485). (3-0) Cr. 3. 
Comparison of government bureaucratic structures and processes in major world regions; trends and issues of administrative and management reforms; globalization and other contemporary challenges to state administrative structures and policies; skills needed to evaluate and implement public management reforms.

POL S 587. Electronic Democracy.  
(Dual-listed with POL S 487). (3-0) Cr. 3. Prereq: Sophomore standing or instructor approval. 
The impact of computers, the Internet, and the World Wide Web on politics and policy. The positive and negative effects on information technology (IT) on selected topics such as freedom, power and control, privacy, civic participation, the sense of “community,” “virtual cities,” interest group behavior, the new media, campaigns, elections, and voting will be examined. Nonmajor graduate credit.

POL S 590. Special Topics.  
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor. 

POL S 590A. Special Topics: American Political Institutions.  
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor.

POL S 590B. Special Topics: Public Law.  
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor.

POL S 590C. Special Topics: Political Theory and Methodology.  
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor.

POL S 590D. Special Topics: Comparative Government.  
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor.

POL S 590E. Special Topics: International Relations.  
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor.

POL S 590F. Special Topics: Policy Process.  
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor.

POL S 590G. Special Topics: Public Administration and Public Policy.  
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor.

POL S 590H. Special Topics: Internship.  
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor.

POL S 590I. Special Topics: Teaching Preparation.  
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor.

POL S 590J. Graduate Student Internship.  
Cr. 2-6. Repeatable, maximum of 6 credits. F.S. Prereq: 15 credits in political science, permission of the instructor. 
Supervised internship with administrative agencies, legislative organizations, judicial branch offices, and nonprofit groups.

POL S 599. Creative Component.  
Cr. arr.

Courses for graduate students:

POL S 610. Graduate Seminars.  
(3-0) Cr. 3. Repeatable. F.S. Prereq: 15 credits in political science.

POL S 610A. Graduate Seminars: American Political Institutions.  
(3-0) Cr. 3. Repeatable. F.S. Prereq: 15 credits in political science.

POL S 610B. Graduate Seminars: Public Law.  
(3-0) Cr. 3. Repeatable. F.S. Prereq: 15 credits in political science.

POL S 610C. Graduate Seminars: Political Theory and Methodology.  
(3-0) Cr. 3. Repeatable. F.S. Prereq: 15 credits in political science.

POL S 610D. Graduate Seminars: Comparative Government.  
(3-0) Cr. 3. Repeatable. F.S. Prereq: 15 credits in political science.

POL S 610E. Graduate Seminars: International Relations.  
(3-0) Cr. 3. Repeatable. F.S. Prereq: 15 credits in political science.

(3-0) Cr. 3. Repeatable. F.S. Prereq: 15 credits in political science.

POL S 610G. Graduate Seminars: Public Administration and Public Policy.  
(3-0) Cr. 3. Repeatable. F.S. Prereq: 15 credits in political science.

Cr. arr. Repeatable.

Psychology

Undergraduate Study

For college-level requirements in undergraduate curricula leading to the degrees of bachelor of arts and bachelor of science, see Liberal Arts and Sciences, Curriculum. An undergraduate major in psychology may be taken as liberal arts education, as preparation for graduate study in psychology, or as background for professional education in law and in the health professions. A student with a bachelor’s degree in psychology may qualify for a variety of positions including those in social sciences,
mental health, corrections, rehabilitation, developmental disability centers, business, management, and public opinion surveying. Depending on professional goals, a minor in another discipline may be desirable. Students should consult with their academic advisers early in their undergraduate curriculum. The requirements of the program enable graduates to understand and apply the scientific principles, facts, and basic methods of psychology in their personal and professional activities. Graduates will demonstrate an understanding of the scientific method and will be able to apply that understanding to the study of human behavior and the study of mental processes. They will also demonstrate the ability to effectively communicate their knowledge of psychological concepts through both writing and speech. Graduates will demonstrate a respect for individual and cultural differences and for the ethical issues that relate to the practice of psychology in both research and clinical settings. Professional work with a job title of psychologist in academic, business, clinical, government, and school settings requires graduate degrees.

The major must include the following psychology courses each with a minimum grade of C- and an overall average of C or better:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 101</td>
<td>Introduction to Psychology *</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 102</td>
<td>Laboratory in Introductory Psychology *</td>
<td>1</td>
</tr>
<tr>
<td>PSYCH 111</td>
<td>Orientation to Psychology *</td>
<td>0.5</td>
</tr>
<tr>
<td>PSYCH 301</td>
<td>Research Design and Methodology *</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 440</td>
<td>Psychological Measurement I *</td>
<td>3</td>
</tr>
</tbody>
</table>

The major also must include at least one course from four of the following six areas:

**Area A**
- PSYCH 230 Developmental Psychology
- PSYCH 335 Abnormal Psychology of Children and Adolescents

**Area B**
- PSYCH 280 Social Psychology
- PSYCH 380 Social Cognition

**Area C**
- PSYCH 310 Brain and Behavior
- PSYCH 315 Drugs and Behavior

**Area D**
- PSYCH 312 Sensation and Perception
- PSYCH 313 Learning and Memory
- PSYCH 316 Cognitive Psychology

**Area E**
- PSYCH 360 Personality Psychology
- PSYCH 460 Abnormal Psychology

**Area F**
- PSYCH 250 Psychology of the Workplace
- PSYCH 350 Human Factors in Technology

Three additional 3-credit courses in psychology

Three additional 3-credit courses in psychology must be taken. Area courses may be used to meet this requirement, but variable credit courses (PSYCH 291, PSYCH 470, PSYCH 490, PSYCH 491, and PSYCH 492) may not.

In accordance with college requirements, a C or better average is required in the courses used to satisfy the major.

Departmental requirements for the B.A. and B.S. include the following supporting courses:

- 6 credits in Philosophy including
- PHIL 201 Introduction to Philosophy (not 207) 3

Two of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 101</td>
<td>Introductory Biology (or higher)</td>

</tr>
<tr>
<td>MATH 104</td>
<td>Introduction to Probability and Matrices (or 150 or higher) **</td>
<td>3</td>
</tr>
</tbody>
</table>

* minimum grade of C-

** excluding MATH 105 Introduction to Mathematical Ideas

Students electing a B.S. degree also must complete PSYCH 302 Research Methods in Psychology with a minimum grade of C- and a minimum of 10 additional supporting credits in supporting courses from the list of courses in the LAS Gen Ed Natural Sciences and Mathematical Disciplines Area (or approved departmental list) as follows: three credits in mathematics, six credits in natural sciences, and one additional credit in a laboratory course.

Students electing a B.A. degree also must complete an ISU approved minor.

The department offers a minor in psychology. The minor requires completing 18 credits in psychology, including PSYCH 101 Introduction to Psychology and PSYCH 301 Research Design and Methodology, each with a minimum grade of C-. At least 9 of the 18 credits must be in 300 level courses (or above), but no more than three credits total may be from PSYCH 291 Introductory Research Experience, PSYCH 490 Independent Study, PSYCH 491 Research Practicum, and PSYCH 492 Fieldwork Practicum. A C- or better is required in each course used to satisfy the minor and a C average or better is required in courses used to satisfy the minor. Contact the psychology advising office for more information.

**Communication Proficiency requirement**

The department requires a grade of:

C or better in:

- ENGL 150 Critical Thinking and Communication 3
- ENGL 250 Written, Oral, Visual, and Electronic Composition 3
- or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors 3

C- or better in one of the following:

- PSYCH 302 Research Methods in Psychology 3
- ENGL 302 Business Communication 3
- ENGL 309 Report and Proposal Writing 3
- ENGL 314 Technical Communication 3

Graduate Study

The department offers work for the degree of doctor of philosophy in psychology. A master of science may be earned as part of that degree.

The department offers a doctoral specialization in counseling psychology (APA accredited) and doctoral areas of concentration in cognitive psychology and social psychology.

A basic goal of graduate study in the Department of Psychology is to provide all students with a broad base of knowledge in psychological science, as well as exposure to the content and methodological skills necessary for effective performance in teaching, research and professional practice. Accordingly, graduates have an extensive knowledge of psychological principles and the conceptual and quantitative skills to conduct psychological research, communicating the results to the scientific community, students in the classroom, and the general public.

Graduates in applied programs have specialized knowledge in counseling and program development. They are skilled in delivering such programs and services to diverse clientele in a variety of settings.

The department also participates in the interdepartmental programs in human computer interaction and neuroscience (http://www.hci.iastate.edu/Academics/index.php), and in the interdepartmental minor in gerontology (http://www.gerontology.iastate.edu/?expand=graduate_program).

A formal class and a supervised practicum in the teaching of psychology is recommended for all doctoral students whose future plans may include teaching at the college level. A 12-month internship in a training site or agency approved by the faculty is required of all doctoral students in counseling psychology.

Total Credits: 122.5-124.5

^ Choose from approved departmental list

(0-2) Cr. 1 F.S.
Efficient methods of study and reading. Offered on a satisfactory-fail basis only.

(0-2) Cr. 1 Repeatable. F.S. Prereq: PSYCH 131
Continued development of academic learning skills with an emphasis on motivation and application of learning strategies. Satisfactory-fail only. Offered on a satisfactory-fail basis only.

PSYCH 230. Developmental Psychology.
(3-0) Cr. 3 F.S.S.S.
Life-span development of physical traits, cognition, intelligence, language, social and emotional behavior, personality, and adjustment.

PSYCH 250. Psychology of the Workplace.
(3-0) Cr. 3
Survey of theories and research methods of psychology applied to the workplace. Consideration of employee selection, training, performance evaluation, leadership, work groups, employee motivation, job attitudes and behaviors, organizational culture, organizational development, human factors, and job design from the scientist-practitioner approach.

PSYCH 280. Social Psychology.
(3-0) Cr. 3 F.S.S.S.
Individual human behavior in social contexts. Emphasis on social judgments and decisions, attitudes, perceptions of others, social influence, aggression, stereotypes, and helping.

PSYCH 291. Introductory Research Experience.
Cr. 1-4 Repeatable, maximum of 4 credits. F.S. Prereq: PSYCH 101, sophomore classification, and permission of instructor.
Beginning level supervised research experience in a faculty laboratory. Offered on a satisfactory-fail basis only.

PSYCH 301. Research Design and Methodology.
(3-0) Cr. 3 F.S.S.S. Prereq: STAT 101; 1 course in psychology
Overview of the principal research techniques used in psychology with an emphasis on the statistical analysis of psychological data.

(2-2) Cr. 3 F.S. Prereq: PSYCH 301, ENGL 250
Discussion of and experience in designing research studies, collecting and analyzing data, and preparing research reports in psychology.

PSYCH 310. Brain and Behavior.
(3-0) Cr. 3 F.S. Prereq: PSYCH 101
Survey of basic concepts in the neurosciences with emphasis on brain mechanisms mediating sensory processes, arousal, motivation, learning, and abnormal behavior.

PSYCH 312. Sensation and Perception.
(3-0) Cr. 3 F.S. Prereq: PSYCH 101
Survey of the physiology and psychology of human sensory systems including vision, audition, smell, taste, the skin senses, and the vestibular senses.

PSYCH 313. Learning and Memory.
(3-0) Cr. 3 F.S. Prereq: PSYCH 101
Survey of fundamental concepts and theories related to learning and memory derived from human and animal research.

PSYCH 314. Motivation.
(3-0) Cr. 3 F.S. Prereq: PSYCH 101
Theory and research on motivation at biological, environmental, and psychological levels. Topics include emotion, eating, sex, music, additions, incentives, goal performance, personality, coping, self-determination and purpose.

PSYCH 315. Drugs and Behavior.
(3-0) Cr. 3 F.S. Prereq: PSYCH 101
Effects of drug use, including biological effects of psychoactive substances; impact of drug use on society; and legal responses to drug use, including legal cases and policy initiatives.

PSYCH 316. Cognitive Psychology.
(3-0) Cr. 3 F.S. Prereq: PSYCH 101
Overview of human cognition, including sensation and perception, attention, memory, education, language, and judgment and decision making.

PSYCH 318. Thinking and Decision Making.
(3-0) Cr. 3 F.S. Prereq: PSYCH 101; STAT 101 or MATH 104 or equivalent
Understanding human reasoning and decision making, including evaluating evidence, judging probabilities, emotional influences, and social dilemmas, with emphasis on the mechanisms that underlie decision making.
PSYCH 333. Educational Psychology. (Cross-listed with C.I.). (3-0) Cr. 3. F.S. Prereq: PSYCH 230 or HD FS 102, application to the teacher education program or major in psychology. Classroom learning with emphasis on theories of learning and cognition, and instructional techniques. Major emphasis on measurement theory and the classroom assessment of learning outcomes.

PSYCH 335. Abnormal Psychology of Children and Adolescents. (3-0) Cr. 3. F.S. Prereq: PSYCH 101; PSYCH 230 or HDFS 102 Psychopathology of children and adolescents, including childhood depression and anxiety disorders. Consideration of multiple probable causes and corresponding therapies.

PSYCH 346. Psychology of Women. (Cross-listed with W S). (3-0) Cr. 3. S. Prereq: 2 courses in psychology including PSYCH 101 Survey of theory and research related to major biological, interpersonal, and cultural issues affecting girls' and women's psychological development and behavior. Meets U.S. Diversity Requirement

PSYCH 347. U.S. Latino/a Psychology. (3-0) Cr. 3. S. Prereq: Two courses in Psychology including PSYCH 101 Historical, political, and social contexts of psychological and mental health constructs in terms of their validity and utility for use in Latino/a people in the U.S. Unique aspects of psychological functioning particular to Latino/a peoples in the U.S. Meets U.S. Diversity Requirement

PSYCH 348. Psychology of Religion. (Cross-listed with RELIG). (3-0) Cr. 3. Prereq: Nine credits in psychology Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.

PSYCH 350. Human Factors in Technology. (3-0) Cr. 3. F. Prereq: PSYCH 101; junior classification Understanding human behavior and cognition in the context of modern technologies. Focus on emergent interactive technologies, human computer interaction, user centered design, usability analysis, and usability testing.

PSYCH 360. Personality Psychology. (3-0) Cr. 3. F.S.SS. Prereq: PSYCH 101 Historical and contemporary theory and research on development and expression of personality with a focus on normal functioning.

PSYCH 380. Social Cognition. (3-0) Cr. 3. Prereq: PSYCH 101 or PSYCH 280 How people understand themselves and others, including attribution, social categories and schemas, the self, social inference, stereotypes, and prejudice.

PSYCH 381. Social Psychology of Small Group Behavior. (Cross-listed with SOC). (3-0) Cr. 3. S. Prereq: SOC 305 or PSYCH 280 A survey of small group theory and research from an inter disciplinary, social psychological perspective.

PSYCH 383. Psychology and Law. (3-0) Cr. 3. F.S. Prereq: PSYCH 101 or PSYCH 280 Survey of topics in the interface between psychology and the legal system including but not limited to theories of crime, policing, eyewitness reliability, jury behavior, competence and insanity, and trial processes.

PSYCH 401. History of Psychology. (3-0) Cr. 3. F.S. Prereq: 4 courses in psychology Philosophy and science backgrounds of psychology. Development of theories and causes of events in academic and applied psychology. Nonmajor graduate credit.

PSYCH 410. Behavioral Neurology. (3-0) Cr. 3. F. Prereq: PSYCH 101; PSYCH 310 or equivalent Examination of the neuroanatomical foundation of cognition, affect, and action and on a neurological perspective. Focus on basic and applied research with neurological patients. Nonmajor graduate credit.

PSYCH 411. Evolutionary Psychology. (3-0) Cr. 3. S. Prereq: Junior classification, three courses in psychology; one course in biology Examination of the application of the principles of evolutionary biology to the understanding of human behavior. Evolutionary perspectives on brain development, cognition, language, mating behavior, sex differences, altruism, artistic behavior, and criminal behavior are explored. Arguments by those critical of the evolutionary approach to psychology are also examined.

PSYCH 413. Psychology of Language. (Cross-listed with LING). (3-0) Cr. 3. Prereq: PSYCH 101 Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes. Nonmajor graduate credit.

PSYCH 422. Counseling Theories and Techniques. (3-0) Cr. 3. F. Prereq: 3 courses in psychology Overview of the major counseling theories and techniques, with emphasis on the key concepts of each theory, the role of the counselor, therapeutic goals, and the main techniques derived from each theory. Nonmajor graduate credit.

PSYCH 422L. Laboratory in Counseling Theory and Techniques. (0-2) Cr. 1. F. Prereq: Three classes in psychology and credit or enrollment in PSYCH 422 Learn basic counseling skills such as active listening, reflecting feelings, empathy, confrontation, immediacy and self-disclosure. Supervised practice using basic counseling skills.

PSYCH 440. Psychological Measurement I. (2-2) Cr. 3. F.S.SS. Prereq: PSYCH 301 and 9 credits in psychology, STAT 101 Principles of psychological measurement, including concepts of reliability and validity; interpretation of scores; factors influencing performance; construction and use of measures of ability, achievement, and personality. Nonmajor graduate credit.

PSYCH 450. Industrial Psychology. (3-0) Cr. 3. F.S. Prereq: 2 courses in psychology including PSYCH 101, STAT 101 Theory, content and methods of industrial psychology related to the effective operation of organizations. Application of psychology principles to topics including different approaches used to select employees, how to conduct performance appraisals, and how to train and keep employees safe. Work attitudes and behaviors of employees as well as relevant legal issues. Statistics including regression and correlation are used. Nonmajor graduate credit.

PSYCH 470. Seminar in Psychology. (1-0) Cr. 1-3. Repeatable. Prereq: 12 credits in psychology Current topics in psychological research and practice in the following areas.

PSYCH 470A. Seminar in Psychology: Counseling. (1-0) Cr. 1-3. Repeatable. Prereq: 12 credits in psychology

PSYCH 470B. Seminar in Psychology: Experimental. (1-0) Cr. 1-3. Repeatable. Prereq: 12 credits in psychology

PSYCH 470C. Seminar in Psychology: Individual Differences. (1-0) Cr. 1-3. Repeatable. Prereq: 12 credits in psychology

PSYCH 470D. Seminar in Psychology: Social. (1-0) Cr. 1-3. Repeatable. Prereq: 12 credits in psychology

PSYCH 484. Psychology of Close Relationships. (3-0) Cr. 3. Prereq: 9 credits in psychology including PSYCH 280 Theories and research concerning the functions, development, and deterioration of close relationships. Influence of psychological processes on friendship, romantic, marital, and family relationships. Topics include mate selection, interdependence, trust and commitment, power and dominance in relationships, sexuality, divorce, gender roles, and family interaction. Nonmajor graduate credit.

PSYCH 485. Health Psychology. (3-0) Cr. 3. F. Prereq: Junior classification, 6 credits in psychology Application of psychological theory and research methods to issues in physical health. Psychological factors in illness prevention, health maintenance, treatment of illness, recovery from injury and illness, and adjustment to chronic illness.

PSYCH 487. Human Aggression. (3-0) Cr. 3. S. Prereq: PSYCH 230, PSYCH 301; PSYCH 313, PSYCH 316, or PSYCH 380 Theory and research on development and occurrence of human aggression; implications for prevention and treatment.

PSYCH 488. Cultural Psychology. (3-0) Cr. 3. Prereq: PSYCH 280 and PSYCH 301; junior classification Examination of the ways that cultural beliefs, values, and ideologies shape cognitive, developmental, social and other psychological phenomena. Nonmajor graduate credit. Meets International Perspectives Requirement.
PSYCH 490. Independent Study. Cr. 1-3. Repeatable, maximum of 9 credits. F.S.S.S. Prereq: Junior classification, 6 credits in psychology, and permission of instructor
Supervised reading in an area of psychology. Writing requirement. No more than 9 credits of Psych 490 may be counted toward a degree in psychology.

PSYCH 491. Research Practicum. Cr. arr. Repeatable, maximum of 9 credits. F.S.S.S. Prereq: Junior classification, permission of instructor, and credit or enrollment in PSYCH 301
Supervised research in an area of psychology. Primarily for students intending to pursue graduate education. No more than 9 credits of Psych 491 may be counted toward a degree in psychology.

PSYCH 492. Fieldwork Practicum. Cr. arr. Repeatable, maximum of 9 credits. F.S.S.S. Prereq: Junior classification, 12 credits in psychology, and permission of instructor
Supervised fieldwork in one of the following applied psychology settings. Offered on a satisfactory-fail basis only. No more than 9 credits of Psych 492 may be counted toward a degree in psychology.

PSYCH 492A. Fieldwork Practicum: Human Services. Cr. arr. Repeatable, maximum of 9 credits. F.S.S.S. Prereq: Junior classification, 12 credits in psychology and permission of instructor

PSYCH 492B. Fieldwork Practicum: I/O Psychology. Cr. arr. Repeatable, maximum of 9 credits. F.S.S.S. Prereq: Junior classification, 12 credits in psychology, credit or enrollment in PSYCH 450.

Courses primarily for graduate students, open to qualified undergraduates:

PSYCH 501. Foundations of Behavioral Research. (3-0) Cr. 3. F.S. Prereq: STAT 401 or equivalent
Ethical issues, research design, sampling design, measurement issues, power and precision analysis, interpretation of statistical results in non-experimental, quasi-experimental, and experimental research, use of statistical packages.

PSYCH 508. Research Methods in Applied Psychology. (3-0) Cr. 3. Prereq: PSYC 440 and PSYCH 501 or STAT 401
Methods and issues in applied psychological research. Role of theory in research, fidelity of measurement, selection of subjects, sampling, ethical issues, experimenter bias, data collection methods, power analysis, and professional standards for writing research articles. Emphasis on research methodological issues, not statistical issues.

PSYCH 516. Advanced Cognition. (3-0) Cr. 3. F.S. Prereq: PSYC 316
Theoretical models and empirical research in human cognition including perception, attention, memory, concepts/categorization, imagery, and judgment and decision making.

PSYCH 517. Psychopharmacology. (3-0) Cr. 3. Prereq: PSYC 310, PSYCH 315, or equivalent and permission of instructor
Fundamentals of drug-behavior interactions with emphasis on psychoactive drugs and their use in experimental, therapeutic, and social settings.

PSYCH 519. Cognitive Neuropsychology. (3-0) Cr. 3. Prereq: PSYC 310 and PSYCH 316 or PSYCH 313
Psychological models and related neurological substrates underlying cognition in normal and brain-damaged individuals.

PSYCH 521. Cognitive Psychology of Human Computer Interaction. (Cross-listed with HCI). (3-0) Cr. 3. Prereq: Graduate classification or instructor approval
Biological, behavioral, perceptual, cognitive and social issues relevant to human computer interactions.

PSYCH 522. Scientific Methods in Human Computer Interaction. (Cross-listed with HCI). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: PSYC 521 and STAT 101 or equivalent
Basics of hypothesis testing, experimental design, analysis and interpretation of data, and the ethical principles of human research as they apply to research in human computer interaction.

PSYCH 533. Educational Psychology of Learning, Cognition, and Memory. (Cross-listed with C I). (3-0) Cr. 3. F.
Learning, cognition, and memory in educational/training settings.

PSYCH 538. Developmental Disabilities. (Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered 2013. Prereq: 9 credits in human development and family studies or psychology
Theories, research, and current issues regarding the intersection of development and disabilities. Investigation of interventions with individuals and families. (on-line course offering via Distance Education).

PSYCH 542. Applied Psychological Measurement. (3-0) Cr. 3. F. Prereq: PSYCH 440
Principles of psychological measurement, including concepts of reliability and validity; interpretation of scores; factors influencing performance; test construction and use of measures of intelligence, ability, achievement, vocational interest, and personality. Ethical and multicultural issues in measurement.

PSYCH 544. Practicum in Assessment. (2-1) Cr. 2. F.S. Prereq: PSYCH 542 and admission into the PhD program in counseling psychology
Supervised practice in designing and implementing observational systems and in administering, scoring, interpreting, and reporting individual tests.

PSYCH 560. Advanced Personality Psychology. (3-0) Cr. 3. Prereq: 4 courses in psychology, including PSYCH 360
Advanced analysis of contemporary theory and research on personality measurement, development, heritability, and social expression.

PSYCH 561. Psychopathology and Behavior Deviations. (3-0) Cr. 3. Prereq: PSYCH 460
Examination of theoretical perspectives and current research pertinent to the major forms of adult dysfunction including: adjustment, anxiety, mood, somatof orm, dissociative, sexual and gender identity, personality, schizophrenic, eating, and substance abuse disorders.

PSYCH 562. Personality Assessment. (3-0) Cr. 3. Prereq: PSYCH 360, PSYCH 440, PSYCH 542, and PSYCH 501 or STAT 401 and admission to the PhD program in counseling psychology
Principles, concepts, and methods of personality assessment. Though not a practicum course, exposure is given to a variety of objective, projective, and situational tests.

PSYCH 580. Advanced Social Psychology: Psychological Perspectives. (3-0) Cr. 3. Prereq: 4 courses in psychology, including PSYCH 280
Current theories, methods, and research in social psychology with an emphasis on cognitive and interpersonal processes such as attribution, social cognition, attitude change, attraction, aggression, and social comparison.

PSYCH 590. Special Topics. Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor
Guided reading on special topics or individual research projects in the following areas.

PSYCH 590A. Special Topics: Counseling. Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor

PSYCH 590Q. Special Topics: Cognitive. Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor

PSYCH 590R. Special Topics: Social. Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor

PSYCH 590Z. Special Topics: General. Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor

PSYCH 592. Seminar in Psychology. (1-0) Cr. 1-3. Repeatable. Prereq: 12 hours in psychology or graduate classification. Seminar in the following areas.

PSYCH 592C. Seminar in Psychology: Developmental. (1-0) Cr. 1-3. Repeatable. F.S. Prereq: 12 hours in psychology or graduate classification.

PSYCH 592P. Seminar in Psychology: Research Methods and Psychometrics. (1-0) Cr. 1-3. Repeatable. Prereq: 12 hours in psychology or graduate classification.

PSYCH 592Z. Seminar in Psychology: General. (1-0) Cr. 1-3. Repeatable. Prereq: 12 hours in psychology or graduate classification.

PSYCH 594. Quantitative Behavioral Methods. (1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent
Specialized quantitative methods for social and behavioral research problems in the following areas.

PSYCH 594A. Quantitative Behavioral Methods: Classical psychometric theory. (1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent
PSYCH 594B. Quantitative Behavioral Methods: Modern psychometric methods.  
(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594C. Quantitative Behavioral Methods: Construct validation.  
(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594D. Quantitative Behavioral Methods: Multi-dimensional scaling.  
(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594E. Quantitative Behavioral Methods: Cluster Analysis.  
(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594F. Quantitative Behavioral Methods: Meta-analysis.  
(1-0) Cr. 1. F.S. Prereq: PSYCH 501 Specialized quantitative methods for social and behavioral research problems.

PSYCH 594G. Quantitative Behavioral Methods: Longitudinal analysis.  
(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 594I. Quantitative Behavioral Methods: Focus Groups.  
(1-0) Cr. 1. F.S. Prereq: PSYCH 501 or equivalent

PSYCH 595. Seminar in Social Psychology.  
Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology Seminar in the following areas in social psychology.

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology Nonmajor graduate credit.

PSYCH 595B. Seminar in Social Psychology: Aggression.  
Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology Nonmajor graduate credit.

PSYCH 595C. Seminar in Social Psychology: Culture.  
Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology Nonmajor graduate credit.

PSYCH 595D. Seminar in Social Psychology: Attitudes and Attitude Change.  
Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology

Cr. 1-3. Repeatable. F.S. Prereq: 12 credits in Psychology

Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology Seminar in the following areas in counseling psychology.

PSYCH 596. Seminar in Counseling Psychology.  
Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology Seminar in the following areas in counseling psychology.

PSYCH 596A. Seminar in Counseling Psychology: Supervision.  
Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 596B. Seminar in Counseling Psychology: Research.  
Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 596C. Seminar in Counseling Psychology: Multicultural.  
Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 596D. Seminar in Counseling Psychology: Professional Issues and Ethics.  
Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 596E. Seminar in Counseling Psychology: General.  
Cr. arr. Repeatable. F.S. Prereq: 12 credits in Psychology

PSYCH 597. Internship in Psychology.  
Cr. R. Prereq: M.S. degree candidacy; permission of instructor Full-time, non-clinical, supervised experience in a setting relevant to psychology. Intended for master's degree level interns.

PSYCH 598. Seminar in Cognitive Psychology.  
Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401 Seminar in the following areas in cognitive psychology.

PSYCH 598A. Seminar in Cognitive Psychology: Attention and Perception.  
Cr. arr. Repeatable. F.S. Prereq: PSYCH 516, PSYCH 501 or STAT 401
behavior to practical work situations and everyday life. Graduates can read critically, think independently, and communicate effectively about social issues and social policy.

**College of Liberal Arts and Sciences—Sociology**

A major in sociology can serve as a liberal arts education; as preparation for various positions in social service and related occupations in business and industry; as background for professional education in such areas as law and theology or as a basis for graduate professional training as a sociologist in academic, government, business, and industrial settings.

Departmental requirements for sociology majors include the following supporting course:

9 credits of upper level electives

Majors must receive grades of C or better in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition, and a grade of C or better in either ENGL 302 Business Communication or ENGL 309 Report and Proposal Writing or ENGL 314 Technical Communication. Programs leading to a bachelor of arts degree will emphasize additional coursework in groups I, II and IV of the general education requirements. Programs leading to a bachelor of science degree will emphasize additional coursework in groups III and IV of the general education requirements. Some of the possible fields of concentration are criminal justice systems, community (urban and rural) sociology, family sociology, sociology of work, social science teaching, research methods and statistics, social change and development, complex organizations, human population and ecology, social inequality, social psychology, and sociological theory.

In consultation with their advisers, students may gain work experience and develop their skills in their field of concentration through the field observation and practice options of 460.

The department offers a minor in sociology which may be earned by completing 15 credits in sociology including:

**Sociology**

**Undergraduate Study**

Sociology graduates will understand and demonstrate:

1. general knowledge of sociology
2. research methods in sociology
3. critical thinking skills
4. application of sociology to pressing social issues
5. sociological and professional values
6. information technology
7. communication skills
8. personal and career development

The department offers course work leading to either a bachelor of arts or bachelor of science in sociology. Additionally, a bachelor of science in Public Service and Administration in Agriculture is offered. The department offers course work for the Interdisciplinary Studies major in Criminal Justice and Criminal Justice and a minor in Criminal Justice Studies. Programs of study in sociology offered in both the College of Agriculture and the College of Liberal Arts and Sciences are outlined in this section. For the undergraduate curriculum in Liberal Arts and Sciences, with a major in sociology leading to the degrees of bachelor of arts and bachelor of science, see Liberal Arts and Sciences, Curricula. For the undergraduate curriculum in agriculture, with major in public service and administration in agriculture, leading to the degree in criminal justice studies, see Agriculture, Curriculum in Public Service and Administration in Agriculture. For the undergraduate curriculum in Liberal Arts and Sciences, with a minor in criminal justice studies, see Liberal Arts and Sciences, Curriculum.

Graduates understand how social institutions, communities, and organizations work and change; they can examine the causes and consequences of conformity, deviance, and inequality. They can apply sociological understanding of human
Communication/Library:

* Communications Proficiency (C or better): 6 cr.
  - ENGL 150 Critical Thinking and Communication 3
  - ENGL 250 Written, Oral, Visual, and Electronic Composition 3
  - SP CM 212 Fundamentals of Public Speaking 3

* U.S. Diversity: 3 cr.

* International Perspective: 3 cr.

* Technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

* Only 65 cr. from a two-year institution may apply which may include up to 16 credits from the two-year institution.

Total Degree Requirement: 128 cr.

College of Agriculture—Public Service and Administration in Agriculture

The curriculum in public service and administration in agriculture is designed for students who desire an interdisciplinary education to pursue a career with agriculturally related governmental and nonprofit agencies, or with businesses and industries that are concerned with public services in agriculture, natural resources or rural communities. Students will explore the planning and implementing of rural and agriculturally related programs in organizations, communities (town, city, or county), multicounty areas, states, regions, and at the federal level.

The curriculum has a broad base of general education subjects including credits in communications, mathematics, physical and biological sciences, social sciences, and humanities. The technical subjects represent a combination of sociology, economics, public administration and agriculture, with emphases on social and economic change, history of public services, complex organizations, interagency relationships, community leadership, community action, adoption and diffusion, group dynamics, and political and legal behavior as they relate to agriculture and rural areas. For the Interdisciplinary Studies major in Criminology and Criminal Justice, see Liberal Arts and Sciences, Curriculum.

Graduate Study

The department offers work for the degree master of science and doctor of philosophy with majors in sociology and rural sociology and minor work for students majoring in other departments. For M.S. and Ph.D. departmental requirements, see Program of Graduate Study for Degrees in Sociology and Rural Sociology, available from the department office. The department offers concentrations in a number of areas, e.g., community studies and development; sociology of families, inequality, food systems, agriculture and environment; methodology; social change and development; criminology; the economy, organizations and work; and social psychology. The Department of Sociology does not offer a nonthesis master’s program.

Graduates have a broad understanding of sociology, address complex societal problems, and communicate effectively with scientific colleagues and the general public in both formal and informal settings. They understand sociological theory, conduct research, and are prepared to educate college students and contribute to public policy. Although the department stipulates no language requirement for either the degree master of science or the degree doctor of philosophy, specifying competence in one or more languages may be desirable in some instances.

The department also participates in the interdepartmental program in interdepartmental majors in sustainable agriculture, transportation and water resources, and interdepartmental minors in gerontology (see Index).

Curriculum in Public Service and Administration in Agriculture

Administered by the Department of Sociology

Total Degree Requirement: 128 cr.

Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

International Perspective: 3 cr.

U.S. Diversity: 3 cr.

Communications Proficiency (C or better):

6 credits of English Composition

Three credits of Speech Fundamentals

Communication/Library:

- ENGL 150 Critical Thinking and Communication 3
- ENGL 250 Written, Oral, Visual, and Electronic Composition 3
- SP CM 212 Fundamentals of Public Speaking 3

Additional 6 credits in Sociology courses 6

At least 9 of the 15 credits must be at the 300 level or higher, 6 of these credits must be taken at ISU with a minimal grade of C.

Humanities and Social Sciences: 6 cr.

3 credits from approved humanities list

3 credits from approved social science list

Ethics: 3 cr.

3 cr. from approved list.

Life Sciences: 6 cr.

- BIOL 101 Introductory Biology 3
- or BIOL 211 Principles of Biology I 3
- Three credits from approved life sciences list 3

Total Credits 6

Mathematical and Physical Sciences: 12 cr.

- MATH 150 Discrete Mathematics for Business and Social Sciences 3
- STAT 101 Principles of Statistics 4
- Five credit hours from:
  - MTEOR 206 Introduction to Weather and Climate 3
  - AGRON 206 Introduction to Weather and Climate 3
  - or ASTRO, CHEM, GEOL, PHYS.

Total Credits 13

Sociology 15 cr.

- SOC 110 Orientation to Public Service and Administration in Agriculture R
- SOC 130 Rural Institutions and Organizations 3
- SOC 325 Transition in Agriculture 3
- or SOC 382 Environmental Sociology 3
- SOC 415 Dynamics of Social Change 3
- SOC 420 Complex Organizations 3
- or SOC 380 Sociology of Work 3
- SOC 464 Strategies for Community Engagement 3

Total Credits 15

Economics and Agricultural Education and Studies: 16 cr.

- ECON 101 Principles of Microeconomics 3
- ECON 102 Principles of Macroeconomics 3
- ECON 235 Introduction to Agricultural Markets 3
- or ECON 380 Environmental and Resource Economics 3
- ECON 344 Public Finance 3
- AGEDS 451 Agricultural Law 4

Total Credits 16

Political Sciences: 15 cr.

- POL S 215 Introduction to American Government 3
- POL S 310 State and Local Government 3
- POL S 371 Introduction to Public Administration 3
- POL S 475 Management in the Public Sector 3
- C R P course 3

Total Credits 15

Additional Pol S, Econ, or Soc at 300 level or above.

Agricultural Sciences: 9 cs.

Include 9 cr. from MTEOR 206 Introduction to Weather and Climate or Agron, An S, AST, Ent, FS, HN, Hort, or NREM.

Area of Concentration: 15 cr.

Complete 15 cr. from approved specialization area.
Courses

Courses primarily for undergraduates:

SOC 110. Orientation to Public Service and Administration in Agriculture.
Cr. R.F.
Survey of public service and administration in agriculture. Exploration of career tracks and career planning. Recommended during first semester of freshman year or as soon as possible after transfer into the department.

SOC 115. Orientation to Sociology.
Cr. R.F.S.
Orientation to sociology. A familiarization with University and LAS College requirements and procedures. Occupational tracks and career options open to sociology; introduction to career planning. Recommended during first semester of freshman year, or as soon as possible after transfer into the department. Offered on a satisfactory-fail basis only.

SOC 130. Rural Institutions and Organizations.
(3-0) Cr. 3. F.S.
An introductory analysis of sociological concepts and theories as they relate to rural institutions and organizations. Emphasis on the static structure and function of these institutions and organizations and on their dynamic adaptation to changing societal, environmental, and economic conditions. General sociological principles and perspectives. Credit for only Soc 130 or 134 may be applied toward graduation.

SOC 134. Introduction to Sociology.
(3-0) Cr. 3. F.S.S.S.
Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure. Credit for only Soc 130 or 134 may be applied toward graduation.

SOC 134H. Introduction to Sociology: Honors.
(3-0) Cr. 3. F.S.S.S.
Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure. Credit for only Soc 130 or 134 may be applied toward graduation.

(3-0) Cr. 3. F.S. Prereq: SOC 130 or SOC 134, credit in STAT 101 or concurrent enrollment in STAT 101
A survey of the principal research methods used in sociological analysis.

(3-0) Cr. 3. F.S.S.S. Prereq: SOC 130 or SOC 134
Analysis of intimate relationships among couples using a sociological perspective. Attention is given to singleness; dating and courtship; sexuality; mate selection, cohabitation, and marriage. Relationship quality, communication, conflict and dissolution of these types of relationship will also be explored.

SOC 220. Globalization and Sustainability.
(Cross-listed with ANTHR, ENV S, GLOBE, MAT E, M E, T SC). (3-0) Cr. 3. F.S.
An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.
Meets International Perspectives Requirement.

SOC 235. Social Problems and American Values.
(3-0) Cr. 3. F.S. Prereq: SOC 130 or SOC 134
Sociological concepts, theories and methods to analyze the causes and consequences of social problems. Social problems discussed may include crime, substance abuse, income inequalities, discrimination, poverty, race relations, health care, family issues, and the environment. How American culture and values shape societal conditions, public discourse and policy.
Meets U.S. Diversity Requirement

(Cross-listed with CJ ST). (3-0) Cr. 3. F. Prereq: SOC 130 or SOC 134
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents’ rights, and traditional and alternative ways of dealing with juvenile crime.

(3-0) Cr. 3. F.S. Prereq: SOC 130 or SOC 134; STAT 101; or concurrent enrollment in STAT 101
Introduction to the principal research methods used in sociology, including survey research, interviewing, content analysis, experiments, ethnographies, focus groups, historical analysis, and analysis of secondary data. Instruction on sampling and the principles of validity and reliability underlying quantitative and qualitative methods. Training in data analysis using statistical software packages.

(3-0) Cr. 3. F.S.S.S. Prereq: SOC 130 or SOC 134
Examination of human behavior in a social environment with emphasis on development of the self, interpersonal relations, attitudes, and small groups.

SOC 310. Community.
(3-0) Cr. 3. F.S. Prereq: SOC 130 or SOC 134
Analysis of evolving theory and research of community as an ideal type, an ecological system, a political economy, and an interactional field; examination of the impact of economic, cultural, social and political infrastructures on community power structures and change processes in a global era.

SOC 325. Transition in Agriculture.
(3-0) Cr. 3. S. Prereq: SOC 130 or SOC 134 or permission of instructor
The impacts of agricultural changes on farm families, rural communities, and consumers. Past, present, and future trends in family farms and their social implications.

SOC 327. Sex and Gender in Society.
(Cross-listed with W S). (3-0) Cr. 3. F.S.S.S. Prereq: SOC 130 or SOC 134
How the biological fact of sex is transformed into a system of gender stratification. The demographics and social positions of women and men in the family, education, media, politics, and the economy. Theories of the social-psychological and sociological bases for behavior and attitudes of women and men. The relationship between gender, class, and race.
Meets U.S. Diversity Requirement

SOC 328. Sociology of Masculinities and Manhood.
(Cross-listed with W S). (3-0) Cr. 3. S. Prereq: SOC 130, SOC 134, or W S 201
Examination of socially constructed and idealized images of manhood, the nature of social hierarchies and relations constructed on the basis of imagery, ideologies, and norms of masculinity. Theories on gender (sociological, psychological, and biological). Particular attention given to theory and research on gender variations among men by race, class, ethnicity, sexual orientation, physical ability and age.
Meets U.S. Diversity Requirement

SOC 330. Ethnic and Race Relations.
(Cross-listed with AF AM). (3-0) Cr. 3. F.S.S.S. Prereq: SOC 130 or SOC 134
Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations.
Meets U.S. Diversity Requirement

SOC 331. Social Class and Inequality.
(3-0) Cr. 3. F.S.S.S. Prereq: SOC 130 or SOC 134
Social stratification and processes resulting in social and economic inequalities; implications of status, class, and poverty for people of different races, ethnicities, and gender.
Meets U.S. Diversity Requirement

SOC 332. The Latino/Latina Experience in U.S. Society.
(3-0) Cr. 3. F. Prereq: SOC 130 or SOC 134
Examination of the social, historical, economic and political experience of varied Latino ethnic groups in the U.S. - primarily focusing on Mexican, Puerto Ricans, and Cubans.
Meets U.S. Diversity Requirement

SOC 334. Politics and Society.
(Cross-listed with POL S). (3-0) Cr. 3. F. Prereq: A course in political science or sociology
The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism.

SOC 340. Deviant and Criminal Behavior.
(Cross-listed with CJ ST). (3-0) Cr. 3. S.S.S. Prereq: SOC 130 or SOC 134
Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior.

SOC 341. Criminology.
(Cross-listed with CJ ST). (3-0) Cr. 3. F. Prereq: SOC 130 or SOC 134
The nature of crime and criminality; the concept of crime; statistics and theories of criminality; major forms of crime; official responses to crime and control of crime.
(Cross-listed with ENV S). (3-0) Cr. 3. F. Prereq: SOC 130 or SOC 134
Human population growth and structure; impact on food, environment, and
resources; gender issues; trends of births, deaths, and migration; projecting future
population; population policies and laws; comparison of the United States with other
societies throughout the world.
Meets International Perspectives Requirement.

SOC 351. Police and Society.
(Cross-listed with CJ ST). (3-0) Cr. 3. F.S. Prereq: SOC 241 or CJ ST 240
Introduction and overview of law enforcement in the United States. Theory and
research on police history, function, and organization; constitutional issues of
policing; and critical topics, such as community policing, officer discretion and
decision-making, corruption, use of force, and racial profiling. The course illustrates
the interconnections between communities, police organizations, citizens, and
criminal offenders.

SOC 352. Punishment, Corrections, and Society.
(Cross-listed with CJ ST). (3-0) Cr. 3. F.S. Prereq: SOC 241 or CJ ST 240
Introduction and overview of corrections in the United States. Theory and research
on probation, parole, intermediate sanctions, prison, inmate society, inmate behavior
and misconduct, capital punishment, recidivism, correctional treatment, rehabilitation,
and offender reintegration into society.

SOC 362. Applied Ethics in Agriculture.
(Cross-listed with ECON). (3-0) Cr. 3. Prereq: ECON 101 or SOC 130 or SOC 134,
junior or senior status in the College of Agriculture
Identify major ethical issues and dilemmas in the conduct of agricultural and
agribusiness management and decision making. Discuss and debate proper ethical
behavior in these issues and situations and the relationship between business and
personal ethical behavior.

(Cross-listed with RELIG). (3-0) Cr. 3. Prereq: Prior course work in Religious Studies
recommended.
The influence of religion in society, both as a conservator of values and as a force for
social change. Nonmajor graduate credit.

(3-0) Cr. 3. F.S. Prereq: SOC 130 or SOC 134
Inequalities (gender, race, class) related to jobs, occupations, firms, and industries.
Satisfactions, rewards, alienation, discrimination, and other topics of importance to
workers are examined.

(Cross-listed with PSYCH). (3-0) Cr. 3. Prereq: SOC 305 or PSYCH 280
A survey of small group theory and research from an interdisciplinary, social
psychological perspective.

SOC 382. Environmental Sociology.
(Cross-listed with ENV S). (3-0) Cr. 3. F.S. Prereq: SOC 130, Soc 134 or 3 credits of
ENV S
Environment-society relations; social construction of nature and the environment;
social and environmental impacts of resource extraction, production, and
consumption; environmental inequality; environmental mobilization and movements;
U.S. and international examples.

SOC 401. Contemporary Sociological Theories.
(3-0) Cr. 3. F.S.SS. Prereq: 9 credits in sociology
Both historical and modern social theories as applied to understanding and
researching the social world. Nonmajor graduate credit.

SOC 402. White-Collar Crime.
(Cross-listed with CJ ST). (3-0) Cr. 3. Prereq: SOC 241 or CJ ST 240
Introduction and overview of white-collar crime as a form of deviance. Theory and
research on occupational, corporate, and organizational offending; prevalence, costs,
and consequences of white-collar crime; predictors and correlates of white-collar
crime; and political, business, and public policy responses to white-collar crime.

SOC 411. Social Change in Developing Countries.
(3-0) Cr. 3. Prereq: SOC 130 or SOC 134 plus 3 credits in social sciences
Social change and development in developing countries; international
interdependence; causes and consequences of persistent problems in agriculture,
city growth, employment, gender equality, basic needs; local and worldwide efforts to
foster social change and international development. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SOC 412. Senior Seminar on Career Development.
(1-0) Cr. 1. F. Prereq: Most of major core courses; senior classification
Transition from student to professional. Career development procedures including
self-assessment, short- and long-term goals, strategies for the job search,
development of contacts and sources, resumes and interviews. Enrollment preferred
in first semester as senior. Offered on a satisfactory-fail basis only.

SOC 415. Dynamics of Social Change.
(3-0) Cr. 3. F. Prereq: SOC 130 or SOC 134 plus 3 credits in social sciences
Examination of public responses to complex and controversial innovations, such as
environmentalism, feminism, stem-cell research, same-sex marriage, large-
scale hog lots, and others. Strategies for gaining adoption/rejection of controversial
innovations. Applications to topics in agriculture, development, business, and
marketing. Nonmajor graduate credit. Credit for only Soc 415 or 515 may be applied
toward graduation.

SOC 420. Complex Organizations.
(3-0) Cr. 3. F.S.S. Prereq: SOC 130 or SOC 134 plus 3 credits in social sciences
Study of bureaucratic and other large organizations as social systems through the
perspective of basis social processes and structural variables. Incorporates topics of
organizational effectiveness, power and change. Nonmajor graduate credit.

(3-0) Cr. 3. Alt. S., offered 2012. Prereq: SOC 130 or SOC 134 plus 3 credits in social sciences
Development of cities and urban systems; human and spatial ecology; urban
transformation, decline, and revitalization; poverty; immigration; homelessness;
residential segregation; housing policy; urban social movements; local governance;
alternative solutions and planning for cities; international comparisons.

SOC 460. Criminal and Juvenile Justice Practicum.
(Cross-listed with CJ ST). Cr. 3-12. Repeatable, maximum of 12 credits. F.S.SS.
Prereq: Junior or senior classification; permission of criminal justice studies
instructor; major or minor in sociology, or criminal justice studies minor.
Study of the criminal and juvenile justice systems and social control processes.
Supervised placement in a police department, prosecutor’s office, court, probation
and parole department, penitentiary, juvenile correctional institution, community-
based rehabilitation program, or related agency. Offered on a satisfactory-fail basis
only. Not more than a total of 12 credits of field experience (Soc 454 and 460)
may be counted toward graduation. No credits in Soc 460 may be used to satisfy
minimum sociology requirements for sociology majors.

SOC 464. Strategies for Community Engagement.
(3-0) Cr. 3. S.SS. Prereq: 6 credits in sociology
Project-focused engagement in community issues and initiatives. A broad range of
strategies will be addressed, including popular education, applied research, network
analysis and mapping, policy focused work, action research, curriculum development,
community organizing, and organizational development.

SOC 484. Topical Studies in Criminal and Juvenile Justice.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 6 credits in sociology and permission from
instructor
Thematic or topical issues and studies dealing with the sociology of police,
judiciary, institutional and community-based corrections, gender/ethnicity and crime/
delinquency, criminal and delinquent gangs, and crime and delinquency prevention.

SOC 485. Sociology of the Family.
(3-0) Cr. 3. S. Prereq: 6 credits in sociology
The contemporary family in developing, industrial, and post-industrial societies.
Effects of modernization, cultural change, and family policies on family dynamics,
structures, and functions.

SOC 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits in sociology and
permission of instructor
Students in the College of Agriculture must be of junior or senior classification and
may use no more than 6 credits of Soc 490 toward the total of 128 credits required
for graduation. Students in the College of Liberal Arts and Sciences may count no
more than 9 credits of 490 toward graduation.

SOC 490A. Independent Study: General Sociology.
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits in sociology and
permission of instructor
Students in the College of Agriculture must be of junior or senior classification and
may use no more than 6 credits of Soc 490 toward the total of 128 credits required
for graduation. Students in the College of Liberal Arts and Sciences may count no
more than 9 credits of 490 toward graduation.
Agriculture program. Only one of Soc 415 or 515 may be counted toward graduation.

Strategies for gaining adoption/rejection of technology. Required in the Master of Technology Evaluation. Public responses to complex and controversial technologies. (3-0) Cr. 3.

SOC 515. Sociology of Technology.

Data gathering, analysis, and report writing. Interviewing or content analysis approaches. Laboratory emphasis on completion of research explored; applicability of theoretical models, concepts, and strategies to current national and international needs are evaluated. Qualitative data gathering techniques using observational, historical, in-depth interviewing or content analysis approaches. Laboratory emphasis on completion of data gathering, analysis, and report writing. (3-0) Cr. 3.

SOC 515. Sociology of Technology.

Courses primarily for graduate students, open to qualified undergraduates:

SOC 505. History of Social Thought.

Reviews the historical origins of social ideas about society how social thought has evolved throughout history, and how these affect modern sociological thinking.

The origins of the canonical works of sociology in the mid-Industrial Revolution period including Karl Marx, Max Weber, Emile Durkheim and others.

SOC 509. Agroecosystems Analysis.

(Cross-listed with AGRON, SUSTAV). Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing field visits, with some classroom activities. Focus on understanding multiple elements, perspectives (agronomic, economic, ecological, social, etc.), and scales of operation.

SOC 511. Research Methodology for the Social Sciences.

Covers the philosophy and the techniques of research methods in sociology and other social sciences, including the ethics and politics of social science, validity issues, conceptualization and operationalization, sampling strategies, appropriate research designs for different questions, survey construction, and various data collection and analysis techniques.

Applied techniques of multivariate analysis including cluster analysis, principal components and factor analysis, multivariate analysis of variance and covariance binomial and multinomial regression, multi-level random coefficient models, and spatial regression. Conceptual and mathematical grounding for nonstatisticians. Instruction in Mplus and SAS.

SOC 513. Qualitative Research Methods.

Applied qualitative research methods in sociology. Design and implementation of a course-based research project including data collection, analysis, and presentation of results. Qualitative data gathering techniques using observational, historical, in-depth interviewing or content analysis approaches. Laboratory emphasis on completion of data gathering, analysis, and report writing.

SOC 515. Sociology of Technology.

Off campus and non majors only - offered as demand warrants. Linkages among science, technology, and society. Physical, life, and social science approaches to technology evaluation. Public responses to complex and controversial technologies. Strategies for gaining adoption/rejection of technology. Required in the Master of Agriculture program. Only one of Soc 415 or 515 may be counted toward graduation credits.

Examination of cognitive, symbolic interaction, exchange, role-refernce group, and dramaturgical approaches. Assessment of contemporary issues in social psychology.

SOC 525. Seminar in Social Psychology.

SOC 525A. Seminar in Social Psychology: Small Groups.

SOC 525B. Seminar in Social Psychology: Attitudes and Attitude Change.

SOC 525C. Seminar in Social Psychology: Symbolic interactionism.

SOC 525D. Seminar in Social Psychology: Self and Identity.

SOC 527. Seminar in Social Inequality.

Analysis of racial and ethnic inequality in the United States and the world; focus on the implications of the changing world social and economic order for differences in racial and ethnic groups relative to wealth, status, and power; a critical examination of majority-group domination of minority groups in various societies.

SOC 527A. Seminar in Social Inequality: Sociology of Race and Ethnicity.

SOC 527B. Seminar in Social Inequality: Sociology of Gender.

SOC 527D. Seminar in Social Inequality: Sociology of Social Change and Development.

Iowa State University - DRAFT COPY 611
SOC 544. Sociology of Food and Agricultural Systems. (3-0) Cr. 3. Alt. F., offered 2011. Prereq: 6 credits in sociology
Social organization of food and fiber production, processing, and distribution systems. Sociological comparison of conventional and alternative production systems; gender roles in agriculture and food systems; local, national and global food systems; perspectives on food and agricultural research and policy.

SOC 549. Sociology of the Environment. (3-0) Cr. 3. Alt. F., offered 2012. Prereq: 6 credits in sociology

SOC 550. Sociology of Economic Life. (3-0) Cr. 3. Alt. S., offered 2014. Prereq: 6 credits in sociology
Social construction of economic activity in non-industrial and industrial societies with special attention on variations of industrial societies (capitalism and socialism), economic globalization, and economic development. Interaction of economic systems with human values, ideology, organizations, work and individual welfare.

SOC 551. Seminar in Economy, Organization, and Work. (3-0) Cr. 3. Alt. F., offered 2011. Prereq: 6 credits in sociology

SOC 551A. Seminar in Economy, Organization, and Work: Sociology of Work. (3-0) Cr. 3. F. Prereq: 6 credits in sociology

SOC 551B. Seminar in Economy, Organization, and Work: Complex Organizations. (3-0) Cr. 3. F. Prereq: 6 credits in sociology

SOC 582. Theories of Social Deviance. (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 6 credits in sociology
Theory and research regarding causes of and reactions to deviant behavior. Mental illness, homicide, family violence, and property crime are among the types of deviant behavior considered.

Discussion of current research and theory in crime and delinquency; topics include the purpose and role of law in social life; emerging theoretical directions in criminology; recent work on specific forms of criminality; controversies in the criminal justice system.

Course presents a general overview of the field of family sociology. Topics to be covered include demographic trends, family theory and empirical research, as well as current debates in the discipline.

SOC 590. Special Topics. Cr. 1-3. Repeatable. Prereq: 6 credits in sociology; senior or graduate classification

SOC 590A. Special Topics: General Sociology. Cr. 1-3. Repeatable. Prereq: 6 credits in sociology; senior or graduate classification

SOC 590B. Special Topics: Rural Sociology. Cr. 1-3. Repeatable. Prereq: 6 credits in sociology; senior or graduate classification

SOC 591. Orientation to Sociology. (1-0) Cr. 1. F. Prereq: Formal admission into the sociology graduate program
Introduction to the department, current graduate student policies at department and university levels, departmental administrative procedures. Required of graduate students. Offered on a satisfactory-fail basis only.

Courses for graduate students:

SOC 607. Contemporary Sociological Theory. (3-0) Cr. 3. S. Prereq: 6 graduate credits in sociology
Provides a review of modern sociological thought, issues, and controversies as they affect current research and discourse in the discipline.

SOC 610. Foundations of Sustainable Agriculture. (Cross-listed with AGRON, A E, ANTHR, SUSAG) (3-0) Cr. 3. F. Prereq: Graduate classification, permission of instructor
Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

SOC 613. Structural Equation Models for Social and Behavioral Research. (3-0) Cr. 3. Alt. S., offered 2012. Prereq: SOC 512 and STAT 404, or with instructors permission
Specification, identification, and interpretation of structural equation models. Techniques include structural or path models, measurement or confirmatory factor models, structural models with latent variables, and multi-level structural models. Conceptual and mathematical grounding for non-statisticians. Instruction in AMOS, MPLUS, and SAS.

Current developments in a selected field in the sociology of family and the life course.

SOC 698. Seminars in Sociology. (3-0) Cr. 3.

SOC 698L. Seminars in Sociology: Community Studies and Development. (3-0) Cr. 3.

SOC 698M. Seminars in Sociology: Criminology. (3-0) Cr. 3.

SOC 698N. Seminars in Sociology: The Economy, Organizations, and Work. (3-0) Cr. 3.

SOC 698O. Seminars in Sociology: Food Systems, Agriculture, and the Environment. (3-0) Cr. 3.

SOC 698P. Seminars in Sociology: Methodology. (3-0) Cr. 3.

SOC 698Q. Seminars in Sociology: Social Change and Development. (3-0) Cr. 3.

SOC 698R. Seminars in Sociology: Social Inequality. (3-0) Cr. 3.

SOC 698S. Seminars in Sociology: Sociology of Families. (3-0) Cr. 3.

SOC 698T. Seminars in Sociology: Sociology of Families. (3-0) Cr. 3.

SOC 698U. Seminars in Sociology: Theory. (3-0) Cr. 3.

Software Engineering

Undergraduate Study

For the undergraduate curriculum in Software Engineering (http://www.se.iastate.edu) leading to the degree Bachelor of Science

This curriculum is jointly administered by the Department of Computer Science and the Department of Electrical and Computer Engineering at Iowa State University. The Software Engineering program provides undergraduate students with the opportunity to learn software engineering fundamentals, to study applications of state-of-the-art software technologies and to prepare for the practice of software engineering. The student-faculty interaction necessary to realize this opportunity occurs within an environment motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research and outreach programs.

The software engineering curriculum offers emphasis areas in software engineering principles, process and practice. Students may also take elective courses in computer engineering and computer science.
Program Educational Objectives

Within five years of graduation, the graduates should:

1. attain a productive career in Software Engineering or related fields;
2. attain leadership roles and become effective collaborators to advance professional and organizational goals;
3. engage in continuous learning and professional development.

We expect that these objectives will be manifested in our graduates through the following five key attributes: (a) peer-recognized expertise, (b) engagement in professional practice, (c) sustained learning, (d) leadership and (e) teamwork.

Demonstration of expertise involves applying state-of-the-art practices for solving problems in the design, development, validation, evolution and sustainment of (software) products. Demonstration of professional engagement involves contributing locally and globally to the use of ethical, competent, and creative practices in industry, academia or the public sector. Demonstration of sustained learning involves the ability to adapt to rapid technological, environmental, and organizational changes through self-study and group study and through opportunities of professional development or graduate study. Demonstration of leadership involves the ability to take initiative, and to facilitate the advancements of individuals and the community by influencing others and by having a widespread, positive impact on critical issues and projects. Finally, demonstration of teamwork involves the ability to work with collaborators who have varied expertise, and with diverse cultural and interdisciplinary backgrounds.

As a complement to the instructional activity, the Department of Computer Science and the Department of Electrical and Computer Engineering provide opportunities for each student to have experience with broadening activities. Students have the opportunity to gain practical industry experience in the cooperative education internship program. Students have the opportunity to participate in advanced research activities. Through international exchange programs, students learn about engineering practices in other parts of the world.

Curriculum in Software Engineering

Administered by the Department of Electrical and Computer Engineering in the College of Engineering and the Department of Computer Science in the College of Liberal Arts and Sciences.

Leading to the degree bachelor of science.

Total credits required: 125 cr. See also Basic Program and Special Programs.

International Perspectives: 3 cr. ¹

U.S. Diversity: 3 cr. ¹

Transfer Credit Requirements

The degree program must include a minimum of 30 credits at the 300-level or above in professional and technical courses earned at ISU in order to receive a B.S. in software engineering. These 30 credits must include S E 491 Course S E 491 Not Found, S E 492 Course S E 492 Not Found, and credits in the core professional curriculum and/or in technical electives. The software engineering degree program requires a grade of C or better for any transfer credit course that is applied to the degree program.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.
2. Choose from department approved lists.

Note: International perspectives and U.S. diversity courses are used to meet the general education electives.

Courses

Courses primarily for undergraduates:

Cr. R.
Introduction to the procedures, policies, and resources of Iowa State University and the department of Computer Science and Electrical and Computer Engineering. Information on engineering and computer-based professions.

S E 166. Careers in Software Engineering.
Cr. R.
Overview of the nature and scope of the software engineering profession. Relationship of coursework to careers. Departmental rules, student services operations, degree requirements, program of study planning, career options, and student organizations.

(3-1) Cr. 3. Prereq: Credit or enrollment in MATH 142
Introduction to software engineering and computer programming. Systematic thinking process for problem solving in the context of software engineering. Group problem solving. Solving software engineering problems and presenting solutions through computer programs, written documents and oral presentations. Introduction to principles of programming, software design, and extensive practice in design, writing, running, debugging, and reasoning about programs.

S E 298. Cooperative Education.
Cr. R. F.S.S. Prereq: Permission of department and Career Services
First professional work period in the cooperative education program. Students must register for this course before commencing work.

S E 319. Software Construction and User Interfaces.
(Cross-listed with COM S). (3-0) Cr. 3. F. Prereq: COM S 228

S E 329. Software Project Management.
(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: COM S 309

(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: S E 319

S E 342. Principles of Programming Languages.
(Cross-listed with COM S). (3-1) Cr. 3. F.S. Prereq: COM S 321; COM S 330 or CPR 310; either COM S 309, COM S 362 or COM S 363; ENGL 250
Study of concepts in programming languages and major programming paradigms, especially functional programming. Special emphasis on design tradeoffs that enable students to make sound choices of programming languages for a given software development task. Programming projects. Nonmajor graduate credit.

S E 396. Summer Internship.
Cr. R. Repeatable. SS. Prereq: Permission of department and Career Services
Summer professional work period.

S E 397. Software Engineering Internship.
Cr. R. Repeatable. F.S. Prereq: Permission of department and Career Services
One semester maximum per academic year professional work period.

S E 398. Cooperative Education.
Cr. R. F.S.S. Prereq: S E 298, permission of department and Career Services
Second professional work period in the cooperative education program. Students must register for this course before commencing work.
Speech Communication

The Speech Communication major provides students opportunities to develop their understanding and appreciation of the human communication process and to enhance their oral and written communication practice. Speech Communication students develop an awareness of the importance of oral communication and listening for success in their personal, civic, and professional lives; become familiar with behavioral research in persuasion; understand how language is used to create social change; develop competent delivery skills; assess the quality of arguments; evaluate information found in research and public discourse; and cultivate rhetorical sensitivity in order to better connect with individuals and audiences. In this way, the program contributes to the humanistic, aesthetic, and critical development of liberally educated students in order to prepare them for full and effective participation in society.

Undergraduate Study

The cross-disciplinary program in speech communication offers courses designed for all students as part of their general education and as a complement to their professional training. It also offers a major or minor in speech communication as well as an additional endorsement for secondary teachers who already have an endorsement in another content area.

Students who major or minor in speech communication will prepare themselves for a wide variety of employment opportunities in business, industry and government, as well as in non-profit and educational organizations. With their effective oral communication, listening, teamwork, problem-solving and leadership skills, speech communication students find positions in general business management; human resources, benefits, financial services, retail, sales and marketing and serve various organizations as recruiters, trainers, promotions managers, communication specialists, community outreach personnel and event planners. The program also prepares students for the study of law, theology, and for graduate level work in speech communication and related disciplines.

The program participates in the following interdisciplinary undergraduate minor programs: the interdisciplinary program in linguistics and the interdisciplinary program in technology and social change. Speech Communication also offers a core course and several optional courses in the Undergraduate Certificate Program in Community Leadership and Public Service.

Speech Communication Major

A student electing to major in speech communication must earn at least 120 credits with 45 credits at the 300/400 level. A minimum of 33 of those credits must be earned in Speech Communication courses where the student earns a grade of C or better. Our flexible curriculum with few prerequisites can help you meet the 33 hour requirement in a timely way.

Core Requirements (18 credits)

SP CM 110  Listening  3
SP CM 212  Fundamentals of Public Speaking  3
SP CM 327  Persuasion  3
SP CM 412  Rhetorical Criticism  3
SP CM 416  History of American Public Address  3
SP CM 497  Capstone Seminar  3

Additional Coursework (Choose at least 5 of the following for 15 credits)

SP CM 275  Analysis of Popular Culture Texts  3
SP CM 305  Language, Thought and Action  3
SP CM 312  Business and Professional Speaking  3
SP CM 313  Communication in Classrooms and Workshops  3
SP CM 322  Argumentation, Debate, and Critical Thinking  3
SP CM 323  Gender and Communication  3
SP CM 324  Legal Communication  3
SP CM 350  Rhetorical Traditions  3
SP CM 404  Seminar  3
SP CM 417  Campaign Rhetoric  3

See also the 4-year plan of study grid showing suggested courses by semester. (https://nextcatalog.registrar.iastate.edu/plansofstudy/liberalartsandsciences/#speechcommunicationba)

Credits in SP CM 290 Special Projects or SP CM 499 Communication Internship cannot be applied toward the minimum required credits for the major.

The Communication Proficiency requirement may be met by (1) completion of ENGL 150 Critical Thinking and Communication, ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors), or its equivalent, with a grade in each of C or better; (2) one additional writing course beyond ENGL 250 Written, Oral, Visual, and Electronic Composition with a grade of C or better from the following approved list:

ENGL 302  Business Communication  3
ENGL 303  Free-Lance Writing for Popular Magazines  3
ENGL 304  Creative Writing—Fiction  3
ENGL 305  Creative Writing—Nonfiction  3
ENGL 309  Report and Proposal Writing  3
ENGL 314  Technical Communication  3
ENGL 415  Business and Technical Editing  3  
JL MC 201  Reporting and Writing for the Mass Media  3  

**Speech Communication Minor**

Students from any major can complement their studies with a Speech Communication Minor (http://www.speechcomm.iastate.edu/index.php?option=com_content&view=article&id=34&Itemid=29). The requirements for a minor in speech communication may be fulfilled by credit in SP CM 212 Fundamentals of Public Speaking plus at least 15 additional hours from the lists above, of which 9 credits are in courses numbered 300 or above.

**Speech Communication Education**

Students working toward a primary teaching endorsement in another discipline may add a speech communication endorsement as an additional area. Coursework prepares students to teach speech, dramatic arts, and media at the secondary school level. In addition, they prepare to direct co-curricular and extracurricular activities such as drama, speech and debate.

Each student seeking an additional endorsement in speech communication must meet a 29 hour requirement by taking the following courses:

<table>

The Program of Speech Communication also participates in the interdepartmental program leading to a master’s degree in Interdisciplinary Graduate Studies.

**Courses**

**Courses primarily for undergraduates:**

**SP CM 110. Listening.**

(3-0) Cr. 3. F.S.

Theory, principles, and competency development in comprehensive, therapeutic, critical, consumer, and appreciative listening. The impact of listening in relationships and partnerships.

**SP CM 212. Fundamentals of Public Speaking.**

(3-0) Cr. 3. F.S.SS.

Theory and practice of basic speech communication principles applied to public speaking. Practice in the preparation and delivery of extemporaneous speeches.

**SP CM 223. Intercollegiate Debate and Forensics.**

Cr. 1. Repeatable, maximum of 6 credits. F.S. Prereq: Permission of instructor Participation in intramural and intercollegiate debate and other forensic events.

**SP CM 275. Analysis of Popular Culture Texts.**

(Cross-listed with ENGL). (3-0) Cr. 3. F.S. Prereq: Credit in or equivalent of 250 Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

**SP CM 290. Special Projects.**

Cr. 1-2. Repeatable, maximum of 4 credits. F.S.SS. Prereq: 3 credits in speech communication; permission of department chair

**SP CM 305. Language, Thought and Action.**

(Cross-listed with LING). (3-0) Cr. 3. Prereq: ENGL 250 The study of symbolic processes and how meaning is conveyed in words, sentences, and utterances; discussion of modern theories of meaning; and an exploration of relationships among language, thought and action. Nonmajor graduate credit.

**SP CM 312. Business and Professional Speaking.**

(3-0) Cr. 3. F.S. Prereq: SP CM 212 Theory, principles, and competency development in the creation of coherent, articulate business and professional oral presentations.

**SP CM 313. Communication in Classrooms and Workshops.**

(3-0) Cr. 3. Prereq: SP CM 212 Principles of communicating information: training in classroom and workshop-oriented communication activities; use of recording for analysis of presentations.

**SP CM 322. Argumentation, Debate, and Critical Thinking.**

(2-2) Cr. 3. Prereq: SP CM 212 Practice in preparing and presenting arguments and debates; emphasis on critical thinking and ethical and logical duties of the advocate; analysis, evidence, reasoning, attack, defense, research, case construction, and judging.

**SP CM 323. Gender and Communication.**

(Cross-listed with W S). (3-0) Cr. 3. Examines how understanding and enactment of gender identity is shaped by communication. Verbal and nonverbal communication across various contexts including personal relationships and the media. Explores discourse of social movements aiming to transform cultural definitions of gender. Nonmajor graduate credit. Meets U.S. Diversity Requirement

**SP CM 324. Legal Communication.**

(3-0) Cr. 3. Prereq: SP CM 212 Speech communication in the legal system inside and outside the trial process: interviewing and counseling, negotiating and bargaining, voir dire, opening statements, examination of witnesses, closing arguments, judge’s instructions, jury behavior, and appellate advocacy. Nonmajor graduate credit.

**SP CM 327. Persuasion.**

(3-0) Cr. 3. F.S.SS. Prereq: SP CM 212 Examination of persuasive theories, strategies and research in persuasion. Emphasis on application and analysis; logical, emotional, and ethical proofs. Nonmajor graduate credit.

**SP CM 350. Rhetorical Traditions.**

(Cross-listed with CL ST, ENGL). (3-0) Cr. 3. S. Prereq: ENGL 250 Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

**SP CM 404. Seminar.**

(Dual-listed with SP CM 504B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: Junior or above classification Seminar on topics central to the field of speech communication.

**SP CM 412. Rhetorical Criticism.**

(3-0) Cr. 3. S. Prereq: SP CM 212 and 6 credits in speech communication Development of rhetorical theory and practice from Corax to modern times. Application of principles of criticism to current public speaking practices. Nonmajor graduate credit.
SP CM 415. History of American Public Address. (3-0) Cr. 3. S. Prereq: SP CM 212. Relationship between public discourse and social change; selected speakers and discourse as linked with political or historical events. Nonmajor graduate credit.

SP CM 417. Campaign Rhetoric. (Cross-listed with POL S). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: SP CM 212 Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers. Nonmajor graduate credit.

SP CM 490. Independent Study. Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 18 credits in speech communication, junior classification, permission of department chair
Only one independent study enrollment is permitted within the department per semester.

SP CM 495A. Independent Study: Directing Speech Activities. (1-0) Cr. 1. S. Prereq: C I 301; 9 credits in speech communication; minimum grade point of 2.5 in speech communication courses
Problems, methods, and materials related to directing speech activities in secondary schools.

SP CM 495B. Independent Study: Teaching Speech. (Cross-listed with C I). (3-0) Cr. 3. F. Prereq: SP CM 313; 9 credits in speech communication; minimum grade point average of 2.5 in speech communication courses
Problems, methods, and materials related to teaching speech, theatre, and media in secondary schools.

SP CM 497. Capstone Seminar. (3-0) Cr. 3. Prereq: 15 credits in speech communication; junior or senior classification
Students synthesize relevant theory and research about contemporary communication practice culminating in a multi-modal capstone project.

SP CM 499. Communication Internship. Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: 18 credits in speech communication courses, other courses deemed appropriate by faculty adviser; 2nd semester junior or senior standing; cumulative GPA of at least 2.5 overall and 3.0 in speech communication; and permission of the internship committee
Applications should be submitted in the term prior to the term in which the internship is desired. Supervised application of speech communication in professional settings.

Courses primarily for graduate students, open to qualified undergraduates:

SP CM 504. Seminar. (Dual-listed with SP CM 404B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: Junior or above classification
Seminar on topics central to the field of speech communication.

SP CM 513. Proseminar: Teaching Fundamentals of Public Speaking. (1-0) Cr. 1. Repeatable, maximum of 3 credits. F. Prereq: Permission of program chair
Required of all new Speech Communication 212 teaching assistants. Introduction to the teaching of public speaking. Support and supervision of teaching assistants of Sp Cm 212. Discussion of lesson planning, teaching methods, development of speaking assignments, and evaluation of student speaking.

SP CM 547. The History of Rhetorical Theory I: From Plato to Bacon. (Cross-listed with ENGL). (3-0) Cr. 3. Prereq: 6 credits in English
Rhetorical theory from the classical period of ancient Greece and Rome through the Middle Ages to the early Renaissance; attention to its relation to the nature of knowledge, communication, practice, and pedagogy.

SP CM 548. The History of Rhetorical Theory II: From Bacon to the Present. (Cross-listed with ENGL). (3-0) Cr. 3. Prereq: 6 credits in English
Rhetorical theory from the early modern period (Bacon, Descartes, and Locke) to the present; attention to its relation to the nature of knowledge, communication practice, and pedagogy.

SP CM 582. Advanced Rhetorical Analysis. (Cross-listed with ENGL). (3-0) Cr. 3. Extended practice in close textual analysis of various kinds of rhetorical artifacts. Attention to important theoretical concepts used in rhetorical analysis and to historical controversies over the scope and function of rhetorical analysis.

SP CM 590. Special Topics. Cr. 1-4. Repeatable, maximum of 12 credits. Prereq: Permission of program chair

SP CM 592. Core Studies in Rhetoric and Professional Communication. (Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

SP CM 592A. Core Studies in Rhetoric and Professional Communication: Rhetoric of Science and Technology. (Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

SP CM 592B. Core Studies in Rhetoric and Professional Communication: Visual Rhetoric. (Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

SP CM 592C. Core Studies in Rhetoric and Professional Communication: Multimodal Theory and Pedagogy. (Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

SP CM 592D. Core Studies in Rhetoric and Professional Communication: Critical Cultural Rhetorics. (Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

Statistics

Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in statistics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum.

The curriculum in liberal arts and sciences with a major in statistics is designed to prepare students for (1) entry level statistics positions requiring the B.S. degree in statistics in business, industry or commerce, nonprofit institutions, and in state or federal government; (2) graduate study in statistics. Entry-level positions include the following types of work: statistical design, analysis and interpretation of experiments and surveys; data processing and analysis using modern computation facilities and statistical computing systems; application of statistical principles and methods in commercial areas such as finance, insurance, industrial research, marketing, manufacturing, and quality control. Nonprofit organizations such as large health study institutions have entry-level positions for B.S. graduates in statistics. Also, there are opportunities for work in statistics that require a major in a subject-matter field and a minor in statistics.

Students completing the undergraduate degree in statistics should have a broad understanding of the discipline of statistics. They should have a clear comprehension of the theoretical basis of statistical reasoning and should be proficient in the use of modern statistical methods and computing. Such graduates should have an ability to apply and convey statistical concepts and knowledge in oral and written form. They should be aware of ethical issues associated with polling and surveys and in the summarization of the outcomes of statistical studies.

Undergraduate majors in this department usually include in their programs:

STAT 201 Introduction to Statistical Concepts and Methods 4

One of the following options

Option I
MATH 165 Calculus I
MATH 166 Calculus II
MATH 265 Calculus III

Option II
MATH 165 Calculus I
MATH 166H Calculus II, Honors
MATH 265H Calculus III, Honors

MATH 207 Matrices and Linear Algebra
or MATH 317 Theory of Linear Algebra 3-4
COM S 207 Fundamentals of Computer Programming 3
STAT 301 Intermediate Statistical Concepts and Methods 4
STAT 341 Introduction to the Theory of Probability and Statistics I 3
STAT 342 Introduction to the Theory of Probability and Statistics II 3
STAT 402 Statistical Design and the Analysis of Experiments 3
STAT 421 Survey Sampling Techniques 3
STAT 479 Computer Processing of Statistical Data 3
STAT 480 Statistical Computing Applications 3

These courses plus at least six additional credits in statistics at the 400 level or above constitute the major. With the permission of the department, I E 361 Statistical Quality Assurance/STAT 361 Statistical Quality Assurance may be substituted for three credits of 400 level courses. It is advisable to have a minor in a field of application. See also: A 4-year plan of study grid showing course template by semester (https://nextcatalog.registrar.iastate.edu/plandestudy/literalartandsciences/#statisticsbs).

Minor
The department offers a minor in statistics which may be earned by completing an introductory course in statistics plus additional courses from 301, 326, 341, 342, 361, and 400 level or above to yield a total of at least 15 credits in statistics courses.

English and Speech proficiency requirement: The department requires a grade of C- or better in each of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors), and completion of one of ENGL 302 Business Communication or ENGL 314 Technical Communication with a grade of C- or better. The department requires a passing grade in COMST 102 Introduction to Interpersonal Communication or SP CM 212 Fundamentals of Public Speaking.

Students intending to do graduate work in statistics normally will take additional courses in mathematics.

Graduate Study
The department offers work for the degrees master of science and doctor of philosophy with a minor in statistics, and for a minor for students majoring in other departments. Within the statistics major the student choose to emphasize topics such as experimental design, probability, statistical methods, statistical theory, statistical computing, survey sampling, quality control, spatial statistics, time series, reliability, or applied statistics (e.g., bioinformatics, biometrics, econometrics, environmental statistics, psychometrics, sociometrics, etc.). A major in operations research leading to a master of science degree is offered in cooperation with the Department of Industrial and Manufacturing Systems Engineering. The doctor of philosophy degree is offered as a co-major with other graduate programs. Such programs have included graduate majors in Agronomy, Animal Ecology, Animal Science, Bioinformatics, Chemical and Biological Engineering, Computer Science, Electrical Engineering, Ecology, Evolution and Organismal Biology (EEOB), Economics, Educational Leadership and Policy Studies, Food Science and Human Nutrition, Genetics, Development and Cell Biology (GDCB), Industrial and Manufacturing Systems Engineering, Mathematics, Meteorology, Psychology and Sociology.

M.S. graduates have a basic understanding of statistical theory and methods. Elective courses in statistics provide the opportunity for the student to emphasize particular areas within the field of statistics, based on interest and future career goals. Communication skills are developed through course projects, assistantship duties and creative components. Ph.D. graduates study advanced theory and methods and are able to do independent research in statistics and collaborative research outside of statistics.

Prerequisite to major graduate work is the completion of an undergraduate curriculum essentially equivalent to the curriculum in liberal arts and sciences at this institution including at least a year of calculus.

The degree master of science may be earned on either a thesis or nonthesis basis. The nonthesis option requires the completion of at least 34 credits of acceptable graduate work, including the completion of a creative component and satisfactory performance on a written examination. The thesis option requires the completion of 30 credits of acceptable graduate work, including the completion of a thesis and satisfactory performance on a written examination. Ph.D. candidates must complete at least 72 semester credits (half or more from Iowa State) with a minimum 3.0 (B) average and submit an original thesis representing a substantial contribution to statistics as a science.

The department encourages students to prepare themselves in foreign languages and in computer languages, but specific requirements for the degrees master of science and doctor of philosophy are at the discretion of the student’s advisory committee.

The department participates in the interdepartmental programs in bioinformatics and computational biology, ecology and evolutionary biology, forensic research, genetics, human computer interaction, and nutrition.

Courses
Courses primarily for undergraduates:

STAT 100. Orientation in Statistics.
(1-0) Cr. R. F. Opportunities, challenges, and the scope of the curriculum in statistics. For students planning or considering a career in this area.

(3-2) Cr. 4. F.S.SS. Prereq: 1 1/2 years of high school algebra Statistical concepts in modern society; descriptive statistics and graphical displays of data; the normal distribution; data collection (sampling and designing experiments); elementary probability; elements of statistical inference; estimation and hypothesis testing; linear regression and correlation; contingency tables. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 201, or 226.

STAT 104. Introduction to Statistics.
(2-2) Cr. 3. F.S.SS. Prereq: 1 1/2 years of high school algebra Statistical concepts and their use in science; collecting, organizing and drawing conclusions from data; elementary probability; binomial and normal distributions; regression; estimation and hypothesis testing. For students in the agricultural and biological sciences. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 201, 226.

STAT 105. Introduction to Statistics for Engineers.
(3-0) Cr. 3. F.S. Prereq: MATH 165 (or MATH 165H) Statistical concepts with emphasis on engineering applications. Data collection; descriptive statistics; probability distributions and their properties; elements of statistical inference; regression; statistical quality control charts; use of statistical software; team project involving data collection, description and analysis. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 201, 226. Credit for both Stat 105 and 305 may not be applied for graduation.

STAT 201. Introduction to Statistical Concepts and Methods.
(3-2) Cr. 4. S. Prereq: Credit or enrollment in MATH 165 Statistical thinking and applications of statistical concepts and methods in modern society. Display and summary of categorical and numerical data. Exploring relationships between variables, association, correlation, and regression. Observational studies and experiments. Probability concepts, random variables, discrete and continuous distributions. Elements of statistical inference; estimation and hypothesis testing. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 201, and 226.

STAT 226. Introduction to Business Statistics I.
(3-0) Cr. 3. F.S.SS. Prereq: MATH 150 or MATH 165 Obtaining, presenting, and organizing statistical data; measures of location and dispersion; the Normal distribution; sampling and sampling distributions; elements of statistical inference; estimation and confidence intervals; hypothesis testing; inference for simple linear regression analysis; use of computers to visualize and analyze data. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 201, 226.

STAT 231. Probability and Statistical Inference for Engineers.
(4-0) Cr. 4. F.S. Prereq: Credit or enrollment in MATH 265 Emphasis on engineering applications. Basic probability; random variables and probability distributions; joint and sampling distributions. Descriptive statistics; confidence intervals; hypothesis testing; simple linear regression; multiple linear regression; one way analysis of variance; use of statistical software.

(3-2) Cr. 4. F.S. Prereq: STAT 101 or STAT 104 or STAT 105 or STAT 201 Statistical concepts and methods used in the analysis of data. Statistical models. Analysis of single sample, two sample and paired sample data. Simple and multiple linear regression including polynomial regression. Analysis of residuals. Regression diagnostics. Model building. Regression with indicator variables. Credit for only one of the following courses may be applied toward graduation: STAT 301, STAT 326, and STAT 401
STAT 305. Engineering Statistics.  
(3-0) Cr. 3. F.S.SS. Prereq: MATH 165 or MATH 165H  
Statistics for engineering problem solving. Principles of engineering data collection; descriptive statistics; elementary probability distributions; principles of experimentation; confidence intervals and significance tests; one-, two-, and multi-sample studies; regression analysis; use of statistical software; team project involving engineering experimentation and data analysis. Credit for both Stat 105 and 305 may not be applied toward graduation.

STAT 322. Probabilistic Methods for Electrical Engineers.  
(Cross-listed with E E). (3-0) Cr. 3. F. S. Prereq: E E 224  
Introduction to probability with applications to electrical engineering. Sets and events, probability space, conditional probability, total probability and Bayes' rule. Discrete and continuous random variables, cumulative distribution function, probability mass and density functions, expectation, moments, moment generating functions, multiple random variables, functions of random variables. Elements of statistics, hypothesis testing, confidence intervals, least squares. Introduction to random processes.

STAT 326. Introduction to Business Statistics II.  
(2-2) Cr. 3. F. S. Prereq: STAT 226  
Multiple regression analysis; regression diagnostics; model building; applications in analysis of variance and time series; random variables; distributions; conditional probability; statistical process control methods; use of computers to visualize and analyze data.

(3-0) Cr. 3. F. S. Prereq: MATH 166  
Topics from probability and statistics applicable to computer science. Basic probability; Random variables and their distributions; Stochastic processes including Markov chains; Queuing models; Basic statistical inference; Introduction to regression. Nonmajor graduate credit.

STAT 332. Visual Communication of Quantitative Information.  
(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: STAT 101, STAT 104, STAT 201 or STAT 226; ENGL 250  
Communicating quantitative information using visual displays; visualizing data; interactive and dynamic data displays; evaluating current examples in the media; color, perception, and representation in graphs; interpreting data displays. Nonmajor graduate credit.

(Cross-listed with MATH). (3-0) Cr. 3. F. S. Prereq: MATH 265 or MATH 265H  
Probability; distribution functions and their properties; classical discrete and continuous distribution functions; multivariate probability distributions and their properties; moment generating functions; simulation of random variables and use of the R statistical package. Credit for both Stat 341 and 447 may not be applied toward graduation.

STAT 342. Introduction to the Theory of Probability and Statistics II.  
(Cross-listed with MATH). (3-0) Cr. 3. F. S. Prereq: STAT 341; MATH 307 or MATH 317  
Transformations of random variables; sampling distributions; confidence intervals and hypothesis testing; theory of estimation and hypothesis tests; linear model theory; use of the R statistical package for simulation and data analysis.

(Cross-listed with I E). (2-2) Cr. 3. F. S. Prereq: STAT 231, STAT 301, STAT 326 or STAT 401  

STAT 398. Cooperative Education.  
Cr. R. F. S. S. Prereq: Permission of department chair  
Off-campus work periods for undergraduate students in a field of statistics.

STAT 401. Statistical Methods for Research Workers.  
(3-2) Cr. 4. F. S. S S. Prereq: STAT 101 or STAT 104 or STAT 105 or STAT 201 or STAT 226  
Graduate students without an equivalent course should contact the department. Methods of analyzing and interpreting experimental and survey data. Statistical concepts and models; estimation; hypothesis tests with continuous and discrete data; simple and multiple linear regression and correlation; introduction to analysis of variance and blocking. Nonmajor graduate credit. Only one of STAT 301 and 401 may count toward graduation.

STAT 402. Statistical Design and the Analysis of Experiments.  
(3-0) Cr. 3. F. S. Prereq: STAT 301 or STAT 326 or STAT 401  
The role of statistics in research and the principles of experimental design. Experimental units, randomization, replication, blocking, subdividing and repeatedly measuring experimental units; factorial treatment designs and confounding; extensions of the analysis of variance to cover general crossed and nested classifications and models that include both classificatory and continuous factors. Determining sample size. Nonmajor graduate credit.

STAT 404. Regression for Social and Behavioral Research.  
(2-2) Cr. 3. F. S. Prereq: STAT 301 or STAT 326 or STAT 401  
Lorenz. Applications of generalized linear regression models to social science data. Assumptions of regression; diagnostics and transformations; analysis of variance and covariance; path analysis; logistic, multinomial and Poisson regression. Nonmajor graduate credit.

(3-0) Cr. 3. Alt. S., offered 2014. Prereq: Six hours of statistics at the 400-level  
The analysis of spatial data; geostatistical methods and spatial prediction; discrete index random fields and Markov random field models; models for spatial point processes. Emphasis on application and practical use of spatial statistical analysis. Nonmajor graduate credit.

(2-2) Cr. 3. F. Prereq: STAT 301 or STAT 326 or STAT 401, knowledge of matrix algebra  
Techniques for displaying and analyzing multivariate data including plotting high-dimensional data using interactive graphics, comparing group mean vectors using Hotelling’s T2, multivariate analysis of variance, reducing variable dimension with principal components, grouping/classifying observations with cluster analysis and discriminant analysis. Imputation of missing multivariate observations. Nonmajor graduate credit.

(6-0) Cr. 6. Alt. S., offered 2014. Prereq: STAT 341 or equivalent  
Descriptive statistics; data collection through experimentation and sampling; univariate statistical inference; contingency tables; design of experiments and ANOVA; simple linear regression; logistic regression; multiple linear regression; statistics pedagogy.

(1-0) Cr. 1. Repeatable, maximum of 3 credits. S. Prereq: STAT 301 or STAT 326 or STAT 401  
Advanced statistical methods for modeling and analyzing data. Taught as separate 1 cr. sections, each of 5 weeks. Three sections taught in one semester. Areas covered: Logistic and Poisson regression; Structural equation modeling; Smoothing and nonparametric regression; Nonparametric and distribution free methods; Bootstrapping and randomization tests; Visualization of high dimensional data; Analysis of species composition data; Missing data and measurement error. Nonmajor graduate credit.

STAT 416. Statistical Design and Analysis of Gene Expression Experiments.  
(3-0) Cr. 3. S. Prereq: STAT 301 or STAT 326 or STAT 401  
Introduction to two-color microarray technology and single-channel platforms (Affymetrix GeneChips); introduction to next-generation sequencing (especially RNA sequencing)technology; the role of blocking, randomization, and biological and technical replication in gene expression experiments; design of single-channel microarray experiments, two-color microarray experiments, and RNA sequencing experiments; normalization methods for microarray data and RNA sequencing data; methods for identifying differentially expressed genes including mixed linear model analysis, empirical Bayes analysis, and resampling based approaches; procedures for controlling false discovery rate for multiple testing; clustering and classification problems for gene expression data; testing gene categories; emphasis on practical use of methods. Nonmajor graduate credit.

STAT 421. Survey Sampling Techniques.  
(2-2) Cr. 3. S. Prereq: STAT 301 or STAT 326 or STAT 401  
Concepts of sample surveys and the survey process; methods of designing sample surveys, including: simple random, stratified, and multistate sampling designs; methods of analyzing sample surveys including ratio, regression, domain estimation and nonresponse. Nonmajor graduate credit.
(3-0) Cr. 3. F. Prereq: STAT 330 or an equivalent course, MATH 166, knowledge of linear algebra. 
Statistical methods for research involving computers; exploratory data analysis; selected topics from analysis of designed experiments - analysis of variance, hypothesis testing, interaction among variables; linear regression, logistic regression, Poisson regression; parameter estimation, prediction, confidence regions, dimension reduction techniques, model diagnostics and sensitivity analysis; Markov chains processes; simulation techniques and bootstrap methods; applications to computer science, bioinformatics, computer engineering - programs, models and systems as objects of empirical study; communicating results of empirical studies. Statistical software: R. Nonmajor graduate credit.  

(3-0) Cr. 3. F. Prereq: STAT 231 or STAT 341 or STAT 447  
Probabilistic models in biological, engineering and the physical sciences. Markov chains; Poisson, birth-and-death, renewal, branching and queuing processes; applications to bioinformatics and other quantitative problems. Nonmajor graduate credit.

STAT 444. Bayesian Data Analysis.  
(3-0) Cr. 3. S. Prereq: STAT 301 or STAT 326 or STAT 401 and either STAT 447 or enrollment in STAT 342  
Probability models and prior distributions; updating priors through the likelihood function. Computational and simulation-based methods for deriving posterior distributions and for estimating parameters. Basic statistical and hierarchical models. Model adequacy and posterior predictive checks. Markov Chain Monte Carlo methods and introduction to WinBUGS or similar software. Emphasis on applications and examples from the social, biological and physical sciences. Nonmajor graduate credit.

(4-0) Cr. 4. F.S.S.S. Prereq: MATH 151 and permission of instructor, or MATH 265  
Primarily for graduate students not majoring in statistics. Emphasis on aspects of the theory underlying statistical methods. Probability, probability density and mass functions, distribution functions, moment generating functions, sampling distributions, point and interval estimation, hypothesis testing, power, likelihood and likelihood ratio tests, linear model theory, conditional expectation and minimum mean square error estimation, introduction to posterior distributions and Bayesian analysis, use of simulation to verify and extend theory. Nonmajor graduate credit. Credit for both STAT 341 and STAT 447 may not be applied toward graduation.

(3-0) Cr. 3. S. Prereq: STAT 301 or STAT 326 or STAT 401  

STAT 457. Applied Categorical Data Analysis.  
(3-0) Cr. 3. F. Prereq: STAT 301 or STAT 326 or STAT 401  
Statistical methods for the analysis of categorical data: estimation of proportions, ch-square tests, sample size determination, measures of association and relative risk, measures of agreement, logistic regression, Poisson regression and log-linear models, matched-pair and repeated measures designs, conditional inference. Applications to social, behavioral, and health sciences. Nonmajor graduate credit.

STAT 479. Computer Processing of Statistical Data.  
(3-0) Cr. 3. F. Prereq: STAT 301 or STAT 326 or STAT 401  
Structure, content and programming aspects of the Statistical Analysis System (SAS) software package. Advanced techniques in the use of SAS for data analysis including statistical graphics, regression diagnostics, and complex analysis of variance models. The SAS graphical interfaces Enterprise Guide and Enterprise Miner will be introduced. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: STAT 301 or STAT 326 or STAT 401  

STAT 490. Independent Study.  
Cr. arr. Repeatable, maximum of 9 credits. Prereq: 10 credits in statistics  
No more than 9 credits in Stat 490 may be counted toward graduation.

STAT 490H. Independent Study: Honors.  
Cr. arr. Repeatable, maximum of 9 credits. Prereq: 10 credits in statistics  
No more than 9 credits in Stat 490 may be counted toward graduation.

STAT 495. Applied Statistics for Industry I.  
(3-0) Cr. 3. Alt. F. offered 2012. Prereq: STAT 101 or STAT 104 or STAT 105 or STAT 201 or STAT 226; MATH 166 (or MATH 166H)  
Graduate students without an equivalent course should consult the department. Statistical thinking applied to industrial processes. Assessing, monitoring and improving processes using statistical methods. Analytic/ enumerative studies; graphical displays of data; fundamentals of six sigma; process monitoring; control charts; capability analysis. Nonmajor graduate credit.

STAT 496. Applied Statistics for Industry II.  
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: STAT 495  
Statistical design and analysis of industrial experiments. Concepts of control, randomization and replication. Simple and multiple regression; factorial and fractional factorial experiments; application of ideas of six sigma; reliability; analysis of lifetime data. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduates:

STAT 500. Statistical Methods I.  
(3-2) Cr. 4. F. Prereq: STAT 447 or current enrollment in STAT 542; knowledge of matrix algebra. 
Analysis of data from designed experiments and observational studies. Randomization-based inference; inference on group means; nonparametric bootstrap; pairing/blocking and other uses of restricted randomization. Use of linear models to analyze data; least squares estimation; estimability; sampling distributions of estimators; general linear tests; inference for parameters and contrasts. Model assessment and diagnostics; remedial measures; alternative approaches based on ranks.

(3-0) Cr. 3. S. Prereq: STAT 500 or STAT 402; STAT 447 or STAT 542; STAT 579 or equivalent; knowledge of matrix algebra. 
Statistical methods for analyzing and displaying multivariate data; the multivariate normal distribution; inference in multivariate populations; simultaneous analysis of multiple responses, multivariate analysis of variance; summarizing high dimensional data with principal components, factor analysis, canonical correlations, classification methods, clustering, multidiemensional scaling; introduction to basic nonparametric multivariate methods. Statistical software: SAS or R.

STAT 503. Exploratory Methods and Data Mining.  
(2-2) Cr. 3. Alt. S., offered 2013. Prereq: STAT 401 or STAT 447  
Approaches to finding the unexpected in data; pattern recognition, classification, association rules, graphical methods, classical and computer-intensive statistical techniques, and problem solving. Emphasis is on data-centered, non-inferential statistical methods for large or high-dimensional data, topical problems, and building report writing skills.

STAT 505. Environmental Statistics.  
(3-0) Cr. 3. Alt. S., offered 2014. Prereq: STAT 341 or STAT 447; STAT 401  
The analysis of spatial data; geostatistical methods and spatial prediction; factorial experiments; application of ideas of six sigma; reliability; analysis of lifetime data. Nonmajor graduate credit.

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: STAT 401 or STAT 447  
The analysis of spatial data; geostatistical methods and spatial prediction; discrete index random fields and Markov random field models; models for spatial point processes.

STAT 510. Statistical Methods II.  
(3-0) Cr. 3. S. Prereq: STAT 500, STAT 447 or credit/enrollment in STAT 543  
Model selection and collinearity in linear regression. Likelihood analysis for general models and models with non-normal random components; linear model results in the context of likelihood; linear mixed models and their application; estimation, inference, and prediction. Computational issues in iterative algorithms; expectation-maximization algorithm and its use in mixed models. Case studies of applications including problem formulation, exploratory analysis, model development, estimation and inference, and model assessment.
STAT 512. Design of Experiments.  
(3-0) Cr. 3. F. Prereq: STAT 511  
Basic techniques of experimental design developed in the context of the general linear model; completely randomized, randomized complete block, and Latin Square designs; factorial experiments, confounding, fractional replication; split-plot and incomplete block designs.

STAT 513. Response Surface Methodology.  

(3-0) Cr. 3. Alt. F., offered 2013. Prereq: STAT 447 or STAT 543; STAT 510  
Construction of nonlinear statistical models; random and systematic model components, additive error nonlinear regression with constant and non-constant error variances, generalized linear models, transform both sides models. Iterative algorithms for estimation and asymptotic inference. Basic random parameter models, beta-binomial and gamma-Poisson mixtures. Requires use of instructor-supplied and student-written R functions.

STAT 516. Statistical Design and Analysis of Gene Expression Experiments.  
(3-0) Cr. 3. S. Prereq: STAT 500; STAT 447 or STAT 542  
Introduction to two-color microarray technology including cDNA and oligo microarrays; introduction to single-channel platforms (Affymetrix GeneChips); introduction to RNA sequencing technology; the role of blocking, randomization, and biological and technical replication in gene expression experiments; design of single-channel microarray experiments, two-color microarray experiments and RNA sequencing experiments; normalization methods; methods for identifying differentially expressed genes including mixed linear model analysis, empirical Bayes analysis, and resampling based approaches; adjustments for multiple testing; clustering and classification using gene expression data; emphasis on current research topics for statistical analysis of high dimensional gene expression data.

STAT 520. Statistical Methods III.  
(3-0) Cr. 3. F. Prereq: STAT 510, STAT 447 or STAT 543  
Nonlinear regression; generalized least squares; asymptotic inference. Generalized linear models; exponential dispersion families; maximum likelihood and inference. Designing Monte Carlo studies; bootstrap; cross-validation. Fundamentals of Bayesian analysis: data models, priors and posteriors; posterior prediction; credible intervals; Bayes Factors; types of priors; simulation of posteriors; introduction to hierarchical models and Markov Chain Monte Carlo methods.

STAT 521. Theory and Applications of Sample Surveys.  
(3-0) Cr. 3. S. Prereq: STAT 401; STAT 447 or STAT 542  

STAT 533. Reliability.  
(Cross-listed with I E). (3-0) Cr. 3. Alt. S., offered 2014. Prereq: STAT 342 or STAT 432 or STAT 447  
Meeker. Probabilistic modeling and inference in engineering reliability; lifetime models, product limit estimator, probability plotting, maximum likelihood estimation for censored data, Bayesian methods in reliability, system reliability models, competing risk analysis, acceleration models and analysis of accelerated test data; analysis of recurrence data; planning studies to obtain reliability data.

STAT 534. Ecological Statistics.  
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: STAT 447 or STAT 542  

STAT 536. Statistical Genetics.  
(Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: STAT 401, STAT 447; GEN 320 or BIOL 313  
Statistical models and methods for genetics covering models of population processes: selection, mutation, migration, population structure, and linkage disequilibrium, and inference techniques: genetic mapping, linkage analysis, and quantitative trait analysis. Applications include genetic map construction, gene mapping, genome-wide association studies (GWAS), inference about population structure, phylogenetic tree construction, and forensic and paternity identification.

STAT 543. Theory of Probability and Statistics II.  
(3-0) Cr. 3. S. Prereq: STAT 542  

STAT 544. Bayesian Statistics.  
(3-0) Cr. 3. S. Prereq: STAT 543  
Specification of probability models; subjective, conjugate, and noninformative prior distributions; hierarchical models; analytical and computational techniques for obtaining posterior distributions; model checking, model selection, diagnostics; comparison of Bayesian and traditional methods.

(3-0) Cr. 3. Alt. F., offered 2012. Prereq: STAT 510, STAT 542  
Overview of parametric versus nonparametric methods of inference; introduction to rank-based tests and/or nonparametric smoothing methods for estimating density and regression functions; smoothing parameter selection; applications to semiparametric models and goodness-of-fit tests of a parametric model.

STAT 551. Time Series Analysis.  
(3-0) Cr. 3. F. Prereq: STAT 447 or STAT 542  
Concepts of trend and dependence in time series data; stationarity and basic model structures for dealing with temporal dependence; moving average and autoregressive error structures; analysis in the time domain and the frequency domain; parameter estimation, prediction and forecasting; identification of appropriate model structure for actual data and model assessment techniques. Possible extended topics include dynamic models and linear filters.

STAT 554. Introduction to Stochastic Processes.  
(Cross-listed with MATH). (3-0) Cr. 3. F. Prereq: STAT 542  
Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion.
Courses for graduate students:

**STAT 601. Advanced Statistical Methods.**
(3-0) Cr. 3. S. Prereq: STAT 520, STAT 543 and MATH 414 or enrollment in STAT 641

Methods of constructing complex models including adding parameters to existing structures, incorporating stochastic processes and latent variables. Use of modified likelihood functions; quasi-likelihoods; profiles; composite likelihoods. Asymptotic normality as a basis of inference; Godambe information. Sample reuse; block bootstrap; resampling with dependence. Simulation for model assessment. Issues in Bayesian analysis.

**STAT 602. Modern Multivariate Statistical Learning.**
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: STAT 520, STAT 543, STAT 579
Statistical theory and methods for modern data mining and machine learning, inference, and prediction. Variance-bias trade-offs and choice of predictors; linear methods of prediction; basis expansions; smoothing, regularization, and reproducing kernel Hilbert spaces; kernel smoothing methods; neural networks and radial basis function networks; bootstrapping, model averaging, and stacking; linear and quadratic methods of classification; support vector machines; trees and random forests; boosting; prototype methods; unsupervised learning including clustering, principal components, and multi-dimensional scaling; kernel mechanics.

**STAT 606. Advanced Spatial Statistics.**
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: STAT 506, STAT 642
Consideration of advanced topics in spatial statistics, including areas of current research. Topics may include construction of nonstationary covariance structures including intrinsic random functions, examination of edge effects, general formulation of Markov random field models, spatial subsampling, use of pseudo-likelihood and empirical likelihood concepts in spatial analysis, the applicability of asymptotic frameworks for inference, and a discussion of appropriate measures for point processes.

**STAT 611. Theory and Applications of Linear Models.**
(3-0) Cr. 3. F. Prereq: STAT 510; STAT 542 or STAT 447; a course in matrix algebra Matrix preliminaries, estimability, theory of least squares and of best linear unbiased estimation, analysis of variance and covariance, distribution of quadratic forms, extension of theory to mixed and random models, inference for variance components.

**STAT 612. Advanced Design of Experiments.**
(3-0) Cr. 3. Alt. S., offered 2014. Prereq: STAT 512
General theory of factorial experiments. Design optimality criteria, approximate design and general equivalence theory, computational approaches to constructing optimal designs for linear models, and extensions to nonlinear models. Advanced topics of current interest in the design of experiments, including one or more of: distance based design criteria and construction of spatial process models, screening design strategies for high-dimensional problems, and design problems associated with computational experiments.

**STAT 615. Advanced Bayesian Methods.**
(3-0) Cr. 3. Alt. S., offered 2014. Prereq: STAT 544 and STAT 601

**STAT 621. Advanced Theory of Survey Statistics.**
(3-0) Cr. 3. Alt. F., offered 2013. Prereq: STAT 521
Advanced topics of current interest in the design of surveys and analysis of survey data, including: asymptotic theory for design and model-based estimators, use of auxiliary information in estimation, variance estimation techniques, small area estimation, non-response modeling and imputation.

**STAT 641. Foundations of Probability Theory.**
(Cross-listed with MATH). (3-0) Cr. 3. F. Prereq: MATH 414 or MATH 501 or equivalent course.
Technology Systems Management

(Administered by the Department of Agricultural and Biosystems Engineering)

Undergraduate Study

The Department of Agricultural and Biosystems Engineering offers work for the bachelor of science degree with majors in agricultural systems technology and industrial technology.

Missions

The mission of the Agricultural Systems Technology program is to prepare women and men for careers that integrate and apply agricultural and biosystems engineering technology to manage human and natural resource systems for producing, processing, and marketing food and other biological products worldwide.

The mission of the Industrial Technology is to prepare women and men for careers that integrate and apply industrial technology to lead and manage human, manufacturing, and safety systems.

Objectives

At two to five years after undergraduate graduation, through the professional practice in technology, graduates should:

1. Have demonstrated competence in methods of analysis involving use of mathematics, fundamental physical and biological sciences, technology, and computation needed for the professional practice in the field of agricultural systems technology or industrial technology.

2. Have developed skills necessary to contribute to the design process; including the abilities to think creatively, to formulate problem statements, to communicate effectively, to synthesize information, and to evaluate and implement problem solutions.

3. Be capable of addressing issues of ethics, safety, professionalism, cultural diversity, globalization, environmental impact, and social and economic impact in professional practice.

4. Have demonstrated continuous professional and technical growth, with practical experience, so as to be licensed in their field or achieve that level of expertise, as applicable.

5. Have demonstrated the ability to:
   a. be a successful leader of multi-disciplinary teams.
   b. efficiently manage multiple simultaneous projects.
   c. work collaboratively.
   d. implement multi-disciplinary systems-based solutions.
   e. to apply innovative solutions to problems through the use of new methods or technologies.
   f. contribute to the business success of their employer, and
   g. build community.

Outcomes

At the time of graduation, students of the Agricultural Systems Technology or Industrial Technology programs should have:

a) an ability to apply knowledge of mathematics, science, technology, and applied sciences;

b) an ability to design and conduct experiments, as well as to analyze and interpret data;

c) an ability to formulate or design a system, process or program to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;

d) an ability to function on multi-disciplinary teams;

f) an understanding of professional and ethical responsibility;

g) an ability to communicate effectively;

h) the broad education necessary to understand the impact of solutions in a global, economic, environmental, and societal context;

i) a recognition of the need for, and an ability to engage in life-long learning;

j) a knowledge of contemporary issues; and

k) an ability to use the techniques, skills, and modern scientific and technical tools necessary for professional practice.

Graduates have developed and demonstrated workplace competencies, and have completed a professional internship. They are able to communicate effectively, have problem-solving skills and awareness of global, economic, environmental, and societal issues.

Agricultural Systems Technology graduates have the ability to apply science and technology to problems related to agriculture; they manage complex agricultural...
systems for sustainability. They find careers within a variety of agriculturally-related industries, businesses, and organizations, including: agricultural machinery, environment, government, farm builders, grain, feed, seed, fertilizer, chemical, food, biorenewable resources, and production agriculture.

Industrial Technology graduates understand commonly-used manufacturing processes, lean manufacturing principles, continuous improvement, quality management, safety, regulatory issues affecting manufacturing, and the properties of manufacturing materials. They find careers within a variety of industries, businesses, and organizations focusing in manufacturing (e.g., quality control, production supervision, and process and facility planning) or occupational safety (e.g., development, management, and evaluation of safety programs and systems; and hazard identification and mitigation).

Certificate in occupational safety
The Department of Agricultural and Biosystems Engineering offers a undergraduate certificate in occupational safety which may be earned by completing a minimum of 20 credits of technology systems management courses, which includes:

- TSM 270 Principles of Injury Prevention 3
- TSM 370 Occupational Safety 3
- TSM 371 Occupational Safety Management 2
- TSM 372 Legal Aspects of Occupational Safety and Health 2
- TSM 470 Industrial Hygiene: Physical, Chemical, and Biological Hazards 3
- 6 credits from a departmentally approved list 6
- TSM 493D Workshop in Technology: Occupational Safety (Note: This course needs to be the last course taken toward completion of the Occupational Safety Certificate) 1-4

Graduate Study
The department offers work for the degrees master of science, and doctor of philosophy with a major in industrial and agricultural technology. It cooperates in the interdepartmental programs in professional agriculture, sustainable agriculture, environmental sciences, biorenewable resources and technology, and human computer interaction.

The master’s program prepares advanced practicing professionals for industrial and/or agricultural technology positions in industry, business, and public service; it also provides a sound foundation for further graduate study. The doctoral program prepares exemplary industrial and/or agricultural technology professionals for learning, discovery, engagement, and leadership roles in education, industry, business, and public service organizations.

The department also offers work for the degrees master of science, master of engineering, and doctor of philosophy with a major in agricultural engineering. See College of Engineering, Curricula.

Visit our departmental website at www.abe.iastate.edu

Courses
Courses primarily for undergraduates:

- TSM 110. Introduction to Technology. (1-0) Cr. 1. F. Prereq: AST and I Tec majors only or permission of instructor
  Team-oriented introduction to agricultural systems technology and industrial technology. Internships, careers, competencies, academic success strategies, industry visits, transition to academic life.

- TSM 111. Experiencing Technology. (0-2) Cr. 1. S. Prereq: AST or I Tec majors only or permission of instructor
  Laboratory-based, team-oriented experiences in a spectrum of topics common to the practice of technology. Report writing, internships, competencies, industry visits.

- TSM 115. Solving Technology Problems. (2-2) Cr. 3. F.S. Prereq: MATH 140 or higher (can be taken concurrently)
  Solving technology problems and presenting solutions through technical reports. Unit conversions, unit factor method, SI units, significant digits, graphing and curve fitting. Use of spreadsheet programs to solve and present technology problems. Solution of technology problems using computer programming languages.

- TSM 116. Introduction to Design in Technology. (2-2) Cr. 3. F.S.
  2D projections and 3D representations of objects, national and international standards for documentation, manufacturing processes, design projects, and teamwork. Free-hand sketching techniques and parametric solid modeling will be covered.

- TSM 201. Preparing for Workplace Seminar. (Cross-listed with BSE, A E). (1-0) Cr. 1. F.S. Prereq: Sophomore classification in A E, AST, BSE or ITec

- TSM 210. Fundamentals of Technology. (3-0) Cr. 3. F.S. Prereq: TSM 115 or equivalent, MATH 140 or higher
  Introduction to problem solving related to fundamental agricultural and/or industrial technology systems: Basic laws of energy, force, and mass, and their application in simple mechanical systems and thermal systems. Mathematical tools needed for data analysis. Introduction to modern information technology: GPS and Internet, their basic framework and implementations. Introduction to engineering economics: using the time value of money to make economic decisions.

- TSM 216. Advanced Technical Graphics, Interpretation, and CAD. (2-2) Cr. 3. F.S. Prereq: TSM 116
  Advanced design systems incorporating 2D and 3D design and productivity tools for use in manufacturing settings. Topics include: Geometric Dimensioning and Tolerancing, 3D models, welding symbols, advanced visualization, design modeling of parts and assemblies, feature based design. Use of AutoCAD and parametric modeling software.

- TSM 240. Introduction to Manufacturing Processes. (1-4) Cr. 3. F.S.
  A study of selected materials and related processes used in manufacturing. Lecture and laboratory activities focus on materials, properties, and processes. This includes plastics and metals.

- TSM 270. Principles of Injury Prevention. (3-0) Cr. 3. F.
  Basic foundations of injury causation and prevention in home, motor vehicle, public, and work environments.

- TSM 310. Total Quality Improvement. (3-0) Cr. 3. S. Prereq: STAT 101 or STAT 104, junior classification
  Introduction to the fundamental concepts of TQM - Deming style of management, statistical studies to understand the behavior of products, processes, or services, and how to define and document processes and customer focus. Introduction to continuous improvement tools and methods - DMAIC, Six Sigma, and JIT; emphasis on team work and problem solving skills.

- TSM 322. Preservation of Grain Quality. (2-0) Cr. 2. S. Prereq: MATH 140 or higher
  Principles and management for grain quality preservation. Quality measurement. Drying and storage. Fans and airflow through grain. Handling methods.

- TSM 322L. Preservation of Grain Quality Laboratory. (0-3) Cr. 1. S. Prereq: Credit or enrollment for credit in TSM 322

- TSM 324. Soil and Water Conservation Management. (2-2) Cr. 3. S. Prereq: MATH 140 or MATH 160
  Introduction to engineering and conservation principles applied to the planning of erosion control systems, water control structures, water quality management, and drainage and irrigation systems.

- TSM 325. Biorenewable Systems. (Cross-listed with A E, AGRON, AN S, BSE, BUSAD, ECON). (3-0) Cr. 3. F. Prereq: ECON 101, CHEM 163 or higher, MATH 140 or higher
  Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedback production, processes, products, co-products, economics, and transportation/logistics.
(3-0) Cr. 3. F. Prereq: TSM 210
Confined animal feeding operations. Environmental controls for animal production. Response of animals to the environment. Heat and moisture balance in animal housing. Ventilation, water, feed handling, air pollution, odor and waste management systems.

(2-3) Cr. 3. S. Prereq: TSM 210, MATH 142 or MATH 160
Selection, sizing, and operational principles of tractors and machinery systems. Cost analysis and computer techniques applied to planning and management of agricultural machine systems. Principles, operation, and application of agricultural machinery.

TSM 333. Precision Farming Systems.
(2-2) Cr. 3. F. Prereq: MATH 140 or MATH 142, junior or senior classification

TSM 335. Tractor Power.
(3-3) Cr. 4. F. Prereq: TSM 210, MATH 142
Theory and construction of tractor engines, mechanical power trains and hydraulic systems. Introduction to traction, chassis mechanics, and hydraulic power.

TSM 337. Fluid Power Systems Technology.
(2-2) Cr. 3. S. Prereq: TSM 210
Fundamental fluid power principles. Fluid properties. Function and performance of components such as pumps, valves, actuators, hydrostatic transmission. Analysis of fluid power circuits and systems. Introduction to electrohydraulics. Course includes lab using fluid power trainers.

(2-2) Cr. 3. F. Prereq: TSM 216, TSM 240, MATH 142
NC programming operations for CNC mills and lathes. Transfer of parts descriptions into detailed process plans, tool selection, and NC codes. Computer assisted CAD/CAM NC programming for 2D/3D machining.

TSM 363. Electric Power and Electronics for Agriculture and Industry.
(3-3) Cr. 4. S. Prereq: TSM 210
Basic electricity. Electrical safety, wiring, 3-phase service, controls, and motors for agricultural and industrial applications. Planning building lighting and electrical systems. Electronics to sense, monitor, and control mechanical processes. Nonmajor graduate credit.

TSM 370. Occupational Safety.
(3-0) Cr. 3. S. Prereq: TSM 270, junior standing
Identifies safety and health risks in industrial work environments. Focus on how managers and supervisors meet their responsibilities for providing a safe workplace for their employees. Includes the identification and remediation of workplace hazards. Nonmajor graduate credit.

(2-0) Cr. 2. S.
Introduction to occupational safety and health administration and management. Focus on development and management of safety programs and obtaining employee involvement in occupational safety programs.

TSM 372. Legal Aspects of Occupational Safety and Health.
(2-0) Cr. 2. Alt. F., offered 2013. Prereq: TSM 371
A review of the common legal issues facing safety practitioners in the workplace. Includes OSHA, EPA and DOT regulations; workers’ compensation, as well as common liability issues.

(3-0) Cr. 3. Alt. F., offered 2012.
An overview of the current problems and technology in the fields of fire protection and fire prevention, with emphasis on industrial needs, focusing on the individual with industrial safety responsibilities.

TSM 393. Topics in Technology.
Cr. 1-4. F.S.S.S.
Offered as demand warrants. Web-based instruction.

TSM 393A. Topics in Technology: Agriculture and Biosystems Management.
Cr. 1-4. F.S.S.S.
Offered as demand warrants. Web-based instruction.

Cr. 1-4. F.S.S.S.
Offered as demand warrants. Web-based instruction.

TSM 393C. Topics in Technology: Manufacturing.
Cr. 1-4. F.S.S.S.
Offered as demand warrants. Web-based instruction.

TSM 393D. Topics in Technology: Occupational Safety.
Cr. 1-4. F.S.S.S.
Offered as demand warrants. Web-based instruction.

TSM 393E. Topics in Technology: Chemical Application Systems.
Cr. 1-4. F.S.S.S.
Offered as demand warrants. Web-based instruction.

TSM 393F. Topics in Technology: Agricultural Safety and Health.
Cr. 1-4. F.S.S.S.
Offered as demand warrants. Web-based instruction.

TSM 393G. Topics in Technology: Electronic Integration for Agriculture and Production Systems.
Cr. 1-4. F.S.S.S.
Offered as demand warrants. Web-based instruction.

Cr. 1-4. F.S.S.S.
Offered as demand warrants. Web-based instruction.

TSM 393J. Topics in Technology: Machinery Management Using Precision Agriculture Technology.
Cr. 1-4. F.S.S.S.
Offered as demand warrants. Web-based instruction.

TSM 397. Internship in Technology.
Cr. R. F.S.S. Prereq: At least 45 credits of coursework, in AST or I Tec major, and approval of internship coordinator
A supervised work experience in an approved learning setting with application to technology practices and principles. Reporting during work experience and self and employer evaluation required. Minimum GPA requirement.

TSM 399. Work Experience in Technology.
Cr. 2. Repeatable, maximum of 4 credits. F.S.S. Prereq: TSM 397 the preceding semester and approval of internship coordinator
Written reports and reflection on work experience. A maximum of 4 credits of TSM 399 maybe be used toward the total credits required for graduation.

TSM 415. Technology Capstone I.
(0-2) Cr. 1. F.S. Prereq: senior classification with less than 32 credits remaining
Identification and proposal development of a current technological problem in agricultural or industrial systems. Formation of project teams and selection of faculty project mentor in preparation to complete project.

TSM 416. Technology Capstone II.
(1-8) Cr. 5. S. Prereq: TSM 415 in previous semester
Continued team development, communications, and responsibilities. Development of alternate solutions using creativity, critical analysis, and planning techniques. Selection of promising potential solutions to technology problems identified in TSM 415 for development and analysis by student teams. Presentation of project through oral presentations, written reports, and working prototypes.

(2-2) Cr. 3. F. Prereq: TSM 310
Introduction to lean tools and techniques that reduce costs and improve business performance: JIT, VSM, SMED, Kaizen, Standard Work, Cycle Time Reduction, Takt Time, A3, etc. Emphasis on lean thinking and competency development through application: simulations, case studies, industry guests and mentors, teamwork and industry-related lean projects.

TSM 443. Statics and Strength of Materials for Technology.
(2-2) Cr. 3. S. Prereq: PHYS 111, MATH 142 or MATH 165
Application of standard analytic and computer based techniques of solving problems related to force and moments. The properties of materials and how to select appropriate materials for a particular design is reviewed.

TSM 444. Facility Planning.
(3-0) Cr. 3. F. Prereq: TSM 216 and TSM 240; STAT 101 or STAT 104
Principles and practices in designing, evaluating, and organizing existing facilities or creating new facilities. Emphasis on AutoCAD-based new facility design project - product design, production flow analysis, activity relationship analysis, layout deployment, materials handling, office and other service requirement design, and the necessary cost analysis for the new facility.
TSM 465. Automation Systems. (2-2) Cr. 3. S. Prereq: TSM 363
Theory and applications of automation systems. Emphasizes features, capabilities, design and programming skills of Programmable Logic Controller (PLC) based industrial control systems. Introduction to industrial robots and sensors.

TSM 470. Industrial Hygiene: Physical, Chemical, and Biological Hazards. (3-0) Cr. 3. Alt. S., offered 2012. Prereq: MATH 160 or higher
A qualitative and quantitative introduction to health effects of chemical, biological, and physical hazards in a workplace. Nonmajor graduate credit.

TSM 471. Safety Laboratory. (0-2) Cr. 1. Alt. S., offered 2012. Prereq: TSM 470 (can be taken concurrently)
Introduction to equipment, methods, and strategies to measure, evaluate, control, and research hazards and risk in the workplaces.

TSM 477. Risk Analysis and Management. (Dual-listed with TSM 577). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: MATH 160, STAT 101 or STAT 104
Risk analysis and management focuses on developing a risk oriented pattern of thinking that is appropriate for today’s complex world. The tools that will be gained in this course will be helpful in recognizing, understanding, and analyzing hazards and risks in modern complex systems.

TSM 490. Independent Study. Cr. 1-4. Repeatable. Prereq: Junior or senior classification, permission of instructor, and completion of an independent study contract and approval by department
A maximum of 4 credits of TSM 490 may be used toward the total credits required for graduation.

TSM 490H. Independent Study: Honors. Cr. 1-4. Repeatable. Prereq: Junior or senior classification, permission of instructor, and completion of an independent study contract and approval by department
A maximum of 4 credits of TSM 490 may be used toward the total credits required for graduation.

TSM 490I. Independent Study: Manufacturing. Cr. 1-4. Repeatable. Prereq: Junior or senior classification, permission of instructor, and completion of an independent study contract and approval by department
A maximum of 4 credits of TSM 490 may be used toward the total credits required for graduation.

TSM 490J. Independent Study: Agriculture and Biosystems Management. Cr. 1-4. Repeatable. Prereq: Junior or senior classification, permission of instructor, and completion of an independent study contract and approval by department
A maximum of 4 credits of TSM 490 may be used toward the total credits required for graduation.

TSM 490M. Independent Study: Machine Systems. Cr. 1-4. Repeatable. Prereq: Junior or senior classification, permission of instructor, and completion of an independent study contract and approval by department
A maximum of 4 credits of TSM 490 may be used toward the total credits required for graduation.

TSM 490O. Independent Study: Occupational Safety. Cr. 1-4. Repeatable. Prereq: Junior or senior classification, permission of instructor, and completion of an independent study contract and approval by department
A maximum of 4 credits of TSM 490 may be used toward the total credits required for graduation.

Offered as demand warrants.

Offered as demand warrants.

Offered as demand warrants.

Offered as demand warrants.

Offered as demand warrants.

TSM 496. Technology Travel Course. Cr. 1-4. Repeatable. F.S.S.S. Prereq: Permission of instructor
Limited enrollment. Tour and study of international industrial technology and/or agricultural systems technology industries. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C; or option D.
Meets International Perspectives Requirement.

TSM 496A. Technology Travel Course: Pre-departure. Cr. 1-4. Repeatable. F.S.S.S. Prereq: Permission of instructor
Limited enrollment. Tour and study of international industrial technology and/or agricultural systems technology industries. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C; or option D.
Meets International Perspectives Requirement.

TSM 496B. Technology Travel Course: Travel. Cr. R. Repeatable. F.S.S.S. Prereq: Permission of instructor
Limited enrollment. Tour and study of international industrial technology and/or agricultural systems technology industries. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C; or option D.
Meets International Perspectives Requirement.

TSM 496C. Technology Travel Course: Post-travel. Cr. 1-4. Repeatable. F.S.S.S. Prereq: Permission of instructor
Limited enrollment. Tour and study of international industrial technology and/or agricultural systems technology industries. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C; or option D.
Meets International Perspectives Requirement.

TSM 496D. Technology Travel Course: Combination (Pre-departure, Travel, and Post-travel). Cr. 1-4. Repeatable. F.S.S.S. Prereq: Permission of instructor
Limited enrollment. Tour and study of international industrial technology and/or agricultural systems technology industries. Location and duration of tours will vary. Travel expenses paid by students. Course requires completion of options A, B, and C; or option D.
Meets International Perspectives Requirement.

Courses primarily for graduate students, open to qualified undergraduates:

TSM 540. Advanced Design and Manufacturing. (3-0) Cr. 3. S. Prereq: Permission of instructor
Application of six sigma philosophy to advance product design and process control. Application of value steam mapping to the existing manufacturing system to develop future continuous improvement plans. Application of Taguchi Design methodologies for optimizing the performance of manufacturing processes. Application of Taguchi Tolerance Design methodologies for product design.

TSM 557. Safety and Public Health Issues in Modern Society. (2-0) Cr. 2. Repeatable, maximum of 2 times.
Exploration and analysis of current safety and public health issues impacting society. The focus will be on topics that impact individuals in work, public, and home environments.

TSM 577. Risk Analysis and Management. (Dual-listed with TSM 477). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: MATH 160, STAT 101 or STAT 104
Risk analysis and management focuses on developing a risk oriented pattern of thinking that is appropriate for today’s complex world. The tools that will be gained in this course will be helpful in recognizing, understanding, and analyzing hazards and risks in modern complex systems.

TSM 590. Special Topics in Technology. Cr. 1-4. Repeatable, maximum of 4 credits. Prereq: Graduate classification in industrial and agricultural technology, permission of instructor, and completion of an independent study contract approved by major professor

TSM 590A. Special Topics in Technology: Agriculture and Biosystems Management. Cr. 1-4. Repeatable, maximum of 4 credits. Prereq: Graduate classification in industrial and agricultural technology, permission of instructor, and completion of an independent study contract approved by major professor
TSM 590B. Special Topics in Technology: Machine Systems.
Cr. 1-4. Repeatable, maximum of 4 credits. Prereq: Graduate classification in industrial and agricultural technology, permission of instructor, and completion of an independent study contract approved by major professor

TSM 590C. Special Topics in Technology: Manufacturing.
Cr. 1-4. Repeatable, maximum of 4 credits. Prereq: Graduate classification in industrial and agricultural technology, permission of instructor, and completion of an independent study contract approved by major professor

TSM 590D. Special Topics in Technology: Occupational Safety.
Cr. 1-4. Repeatable, maximum of 4 credits. Prereq: Graduate classification in industrial and agricultural technology, permission of instructor, and completion of an independent study contract approved by major professor

TSM 593. Workshop in Technology.
Cr. 1-3. Repeatable. Prereq: Permission of instructor

TSM 598. Technical Communications for a Master’s Degree.
(Cross-listed with A E). Cr. 1. F.S.SS.
A technical paper draft based on the M.S. thesis or creative component is required of all master’s students. The paper must be in a form that satisfies the requirements of some specific journal and be ready for submission. A technical presentation based on M.S. thesis or creative component is required of all master’s students. This presentation must be in a form that satisfies the normal presentation requirements of a professional society. The presentation itself (oral or poster) may be made at a professional society meeting or at any international, regional, state, or university conference/event as long as the presentation content and form conforms to normal expectations. Offered on a satisfactory-fail basis only.

TSM 599. Creative Component.
Cr. 1-3. Repeatable, maximum of 6 credits. A discipline-related problem to be identified and completed under the direction of the program adviser. Three credits required for all nont hesis master’s degree students.

Courses for graduate students:

TSM 601. Graduate Seminar.
(Cross-listed with A E). (1-0) Cr. 1. F.
Keys to writing a good MS thesis or PhD dissertation. How to begin formulating research problems. Discussion of research problems and broader impacts, review of literature, identifying knowledge gaps and needs, long-term goals, research hypotheses, objectives, rationale and significance, methods, procedures, data analysis, and reporting results. Presentation of research proposal in different formats. Using peer review and responding to feedback.

TSM 652. Program and Learner Evaluation.
(3-0) Cr. 3. Prereq: STAT 401 or equivalent
Techniques for evaluating learners, facilities, programs, and staff utilizing theories for developing measurement instruments. Outcomes assessment is emphasized.

(3-0) Cr. 3. Prereq: Permission of instructor
A definition of the faculty role in technology and engineering disciplines, including strategies for dealing with programs, personnel, and constituencies are presented. Leadership skills involving team formation, team operation, and conflict resolution are addressed.

(3-0) Cr. 3. Prereq: Permission of instructor
Basic concepts, trends, practices, and factors influencing curriculum development, techniques, organization and procedures. Emphasis will be given to program and course development.

TSM 694. Teaching Practicum.
(Cross-listed with A E). Cr. 1-3. Repeatable. F.S.SS. Prereq: Graduate classification and permission of instructor
Graduate student experience in the agricultural and biosystems engineering departmental teaching program.

TSM 697. Internship in Technology.
Cr. R. Prereq: permission of major professor and approval by department chair, graduate classification
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

TSM 698. Technical Communications for a Doctoral Degree.
(Cross-listed with A E). Cr. 1. F.S.SS.
A technical paper draft based on the dissertation is required of all Ph.D. students. This paper must be in a form that satisfies the requirements of some specific journal and be ready for submission. A technical presentation based on the dissertation is required of all Ph.D. students. This presentation must be in a form that satisfies the normal presentation requirements of a professional society. The presentation itself (oral or poster) may be made at a professional society meeting or at any international, regional, state, or university conference/event as long as the presentation content and form conforms to normal expectations. Offered on a satisfactory-fail basis only.

TSM 699. Research.
Cr. arr.

Theatre and Performing Arts
(Administered by the Department of Music)
Performing Arts graduates will understand and demonstrate:
1. Knowledge of the cultural heritage and history of the Performing Arts
2. A theoretical and experiential background in the areas of performance, theatrical design, music, and dance
3. Knowledge of creative problem solving and artistic collaboration
4. Skills necessary to perform in or design for a variety of periods, styles, and genres in theatre and dance
5. Awareness of the diversity of expression in the Performing Arts throughout the world’s cultures
6. A practical understanding of the rigors of the field.
Assessment measures include the semester exhibit of design work or audition pieces, graduating senior seminar and exit interviews, public performances or designs, course grades, exhibited convention work, and internship evaluations.

Undergraduate Study
Students interested in theatre as a major area of concentration declare a major in Performing Arts and select an emphasis in Theatrical Design or Acting/Directing. Students implement the theories and principles explored in the classroom by participating in production work. During the academic year, Iowa State University Theatre presents up to ten mainstage and second stage productions in Fisher Theater, and works in close collaboration with ISU Music and Dance.

The major in Performing Arts offers the undergraduate student a cross-disciplinary concentration in Music, Dance and Theatre. The core curriculum consists of 24 credits in the three areas. Students elect a 24-credit emphasis in either Dance, Theatrical Design or Acting/Directing. In addition to coursework, Performing Arts majors and minors participate in concert (Orchestriss, Footfalls), workshop (Opera Studio, Minority Theatre Workshop) and production (Barchje, Stars Over Veishea, ISU Theatre/Music Theatre/Second Stage and Studio) experiences.

Performing Arts graduates, in addition to a solid theoretical and experiential background in the areas of performance, theatrical design, dance and music, are prepared to meet the challenges of the work force or graduate school with their strengths in collaboration, creative problem solving, meeting deadlines and processing diverse input to yield cohesive output. Two required professional internships prior to graduation are vital to the student’s appreciation and practical understanding of the rigors of the field.

The theatre area offers a wide variety of courses. Students may select from courses in acting, design (costume, scenic, lighting/sound), make-up, stage direction, playwriting, stage management, and theatre history. Independent study and special topics courses supplement formal course offerings to provide opportunities to intensify study in a particular aspect of theatre.

Auditions for ISU Theatre productions are open to all students irrespective of academic major. Similarly, participation in areas of production other than acting is open to both majors and nonmajors. Qualified students also present experimental, laboratory, and minority theatre workshop productions. Student actors, directors, designers, and technical crew heads are required to maintain a grade point average of at least 2.0 to participate in productions.

Theatre scholarships are awarded on a yearly basis to students who make significant contributions to Iowa State University Theatre.

Graduate Study
The department offers graduate courses as supporting work in other fields.
Bachelor of Arts - Performing Arts Major (Perf)

The Core for the Performing Arts Major (24 cr)
(For individual Dance and Music course descriptions, see Index for individual department listing.)

MUSIC 101 Fundamentals of Music 2
MUSIC 102 Introduction to Music Listening 3
DANCE 120 Modern Dance I 1
DANCE 130 Ballet I 1
DANCE 220 Modern Dance Composition 2
DANCE 270 Dance Appreciation 3
THTRE 255 Introduction to Theatrical Production 4
THTRE 263 Script Analysis 3
THTRE 365 Theatrical Design I 3
PERF 105 Issues in the Performing Arts (six semesters) R
PERF 310 Performing Arts Internship R
PERF 401 Performing Arts Seminar 2

Emphasis in Theatrical Design (24 cr)
THTRE 250 Theatre Practicum 1-2
THTRE 360 Stagecraft 4
THTRE 366 Theatrical Design II 3
THTRE 455 Directing I 3
THTRE 461 Theatrical Design Studio 4
THTRE 465 History of Theatre I 3
THTRE 466 History of Theatre II 3

Emphasis in Dance (24 cr)
ART H 292 Introduction to Visual Culture Studies 3
DANCE 222 Modern Dance II 1
DANCE 224 Concert and Theatre Dance (take for 2 crs) 0.5-2
DANCE 232 Ballet II 1
DANCE 360 History and Philosophy of Dance 3
DANCE 370 Advanced Studies in Dance 1-3
KIN 355 Biomechanics 3
2 credits from the following 2
DANCE 140 Jazz I
DANCE 150 Tap Dance I
DANCE 160 Ballroom Dance I
DANCE 211 Fundamentals and Methods of Social and World Dance (instead of 160, 170) 2 credits from the following 2
DANCE 223 Modern Dance III
DANCE 233 Ballet III
DANCE 242 Jazz II
3 credits from the following 3
DANCE 320 Sound and Movement
DANCE 384 Teaching Children's Dance
DANCE 385 Methods of Teaching Dance
DANCE 386 Teaching Dance Technique and Composition
All students enrolled in the Dance Emphasis must register for one dance technique course every semester of residence up to a total of 8 credits

One computer course
COM S 103 Computer Applications
COM S 107 Applied Computer Programming
COM S 207 Fundamentals of Computer Programming
C I 201 Learning Technologies in the PK-6 Classroom

Emphasis in Acting/Directing (24 cr)
THTRE 151 The Actor's Voice 3
THTRE 250 Theatre Practicum (take for 2 crs) 1-2
THTRE 251 Acting I 3

Minor in Performing Arts (21 cr)
PERF 105 Issues in the Performing Arts (3 semesters) R
MUSIC 101 Fundamentals of Music 2
MUSIC 102 Introduction to Music Listening 3
DANCE 120 Modern Dance I 1
or DANCE 130 Ballet I
DANCE 270 Dance Appreciation 3
THTRE 255 Introduction to Theatre Production 4
THTRE 263 Script Analysis 3
or THTRE 251 Acting I
6 credits 300+ in DANCE, THTRE or PERF

Communication Proficiency requirement: Select one course from:
ENGL 302 Business Communication 3
ENGL 303 Free-Lance Writing for Popular Magazines 3
ENGL 304 Creative Writing--Fiction 3
ENGL 305 Creative Writing--Nonfiction 3
ENGL 306 Creative Writing--Poetry 3
ENGL 309 Report and Proposal Writing 3
ENGL 314 Technical Communication 3
ENGL 315 Creative Writing--Screenplays 3
ENGL 316 Creative Writing--Playwriting 3
ENGL 370 Shakespeare 3

Performing Arts Courses

Courses primarily for undergraduates:
PERF 105. Issues in the Performing Arts.
(1-0) Cr. R. F.S.
Cross-disciplinary analysis and discussion of topics in the performing arts. Six semesters required of performing arts majors.

PERF 310. Performing Arts Internship.
Cr. R. F.S.S.
Required of performing arts majors. A job or internship with a professional or semi-professional performing arts organization. Offered on a satisfactory-fail basis only.

PERF 401. Performing Arts Seminar.
(2-0) Cr. 2. S.
Intensive collaborative study and practice of topics in music, dance and theatre. Required of performing arts majors. Nonmajor graduate credit.

Theatre Courses

Courses primarily for undergraduates:
THTRE 106. Introduction to the Performing Arts.
(3-0) Cr. 3. F.S.S.S.
An audience oriented, broad-based, team-taught survey of the performing arts which emphasizes theatre and includes segments on television, radio, film, dance, and music.

THTRE 110. Theatre and Society.
(3-0) Cr. 3. F.S.
An introduction to Theatre focusing on its relationship with society throughout history.

THTRE 151. The Actor’s Voice.
(3-0) Cr. 3. S.
Study and practice of fundamentals of vocal production: breathing, quality, articulation, projection, and expressiveness for the performing artist.
THTRE 224. Concert and Theatre Dance.
(Cross-listed with DANCE). (0-3) Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S.
Prereq: By audition only
Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Offered on a satisfactory-fail basis only.

THTRE 250. Theatre Practicum.
Cr. 1-2. Repeatable, maximum of 6 credits. F.S. Prereq: Permission of instructor
Practice in various aspects of technical theatre production. Offered on a satisfactory-fail basis only.

THTRE 251. Acting I.
(3-0) Cr. 3. F.S.
Theory and practice in fundamentals of acting.

THTRE 255. Introduction to Theatrical Production.
(3-3) Cr. 4. F.S.
Standard structure and procedures, historical overview of performing arts production including the design and creation of scenery, costumes and lighting.

THTRE 263. Script Analysis.
(3-0) Cr. 3. F.S.
Theory, analysis, and interpretation of play scripts for production.

THTRE 290. Special Projects.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: 3 credits in theatre; permission of instructor; approval of written proposal

THTRE 316. Creative Writing—Playwriting.
(Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: ENGL 250, not open to freshmen
Progresses from production of scenes to fully developed one-act plays. Emphasis on action, staging, writing, analytical reading, workshop criticism, and individual conferences. Nonmajor graduate credit.

THTRE 351. Acting II.
(3-0) Cr. 3. S. Prereq: THTRE 251
Theory and practice of techniques of acting with emphasis on character and scene analysis.

THTRE 354. Musical Theatre I.
(2-2) Cr. 3. Prereq: THTRE 251 or MUSIC 232 or 3 credits in Dance
Theory, history and practice of musical theatre techniques. Designed to develop the musical theatre performance skills of singers, dancers, and actors.

THTRE 355. Musical Theatre II.
(2-2) Cr. 3. Prereq: THTRE 354
Theory, history and practice of musical theatre techniques. Designed to develop the musical theatre performance skills of singers, dancers, and actors.

THTRE 357. Stage Make-up.
(1-2) Cr. 2. F.
Theory and practice of make-up and hair-styling techniques for the performing arts:
Theatre, Opera, Dance, Television and Film. Lab required.

THTRE 358. Oral Interpretation.
(3-0) Cr. 3. F.
Principles of oral interpretation: practice in analysis, in reading aloud of literary selections, and in reader’s theatre.

THTRE 360. Stagecraft.
(3-2) Cr. 4. S. Prereq: THTRE 255
Tools, materials, and techniques of planning, constructing and painting of performing arts scenery. Basic principles of lighting technology. Technical drawing for performing arts production.

THTRE 365. Theatrical Design I.
(2-2) Cr. 3. F. Prereq: THTRE 255
An exploration of the elements, principles and art of theatrical design.

THTRE 366. Theatrical Design II.
(2-2) Cr. 3. S. Prereq: THTRE 365
Intensive application of the principles introduced in 365. In-depth study and practice of the graphic skills of rendering and drafting.

Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in Theatre Studies in Theatre Design and Production.

THTRE 393A. Studies in Theatre Design and Production Workshop: Costume Design.
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in theatre Special topics related to costume design.

THTRE 393B. Studies in Theatre Design and Production Workshop: Scenic Design.
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in theatre Special topics related to scenic design.

Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in theatre Special topics in lighting design.

THTRE 393D. Studies in Theatre Design and Production Workshop: Sound Design.
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in theatre Special topics in sound design.

Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in theatre Special topics in stagecraft.

Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in theatre Special topics in costume draping and patterning.

Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in Theatre Special topics related to advanced makeup.

Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in Theatre Special topics related to stage management.

Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in Theatre Special topics related to technical direction.

Cr. 3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 3 credits in Theatre Special topics related to Arts Management.

THTRE 451. Acting III.
(3-0) Cr. 3. F. Prereq: THTRE 351 and permission of instructor
Analysis and practice of period scenes.

THTRE 455. Directing I.
(3-0) Cr. 3. F. Prereq: THTRE 255; THTRE 263; THTRE 251 recommended
Theory, techniques, and practice of directing.

THTRE 456. Directing II.
(2-2) Cr. 3. S. Prereq: THTRE 455
Practical and theoretical experience in directing the stage play.

THTRE 461. Theatrical Design Studio.
(3-2) Cr. 4. S. Prereq: THTRE 255
Focuses on the art and craft of specific areas of theatrical design. Each semester the student will focus on one or two of the following: scenic, costume, or lighting design.

THTRE 465. History of Theatre I.
(3-0) Cr. 3. F. Prereq: HIST 201 or equivalent
Theatre history from ancient times to 1800. Nonmajor graduate credit.

THTRE 466. History of Theatre II.
(3-0) Cr. 3. S. Prereq: THTR 465
Theatre history from 1800 to present. Nonmajor graduate credit.

THTRE 469. Advanced Theatre Practicum.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: 9 credits in theatre courses; junior classification
Practicum in production with ISU Theatre, with opportunities for specialization within various areas. Required: Approval of written proposal.

THTRE 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 9 credits in theatre, approved written proposal, junior classification
Only one independent study enrollment within the department is permitted per semester. No more than 9 credits in Thtr 490 may be counted toward graduation.

THTRE 497. Senior Seminar.
(3-0) Cr. 3. S. Prereq: 15 credits in theatre courses; senior classification
Directed study of a theatre issue or problem identified by each student. Students synthesize relevant theory and research culminating in senior project or paper.
Women's and Gender Studies

Undergraduate Study

Women's Studies in the College of Liberal Arts and Sciences is a cross-disciplinary program in which students may elect a minor or a major. Women's Studies provides an opportunity for students to examine women's roles, contributions, and status in social and cultural context and to investigate a variety of disciplines from feminist perspectives. Women's Studies creates an understanding that interrelated factors — e.g., race, ethnicity, class, age, disability, religion, national origin, and sexual orientation — inform knowledge of women's history, culture, and social roles. Women's Studies seeks to improve critical thinking and to provide students with the intellectual means to question prevailing assumptions. It encourages students to explore the contexts and ideological origins of knowledge and to examine the relationships between knowledge and power in society. It promotes social responsibility by examining the connections between personal experience and political activity, and validates student contributions and voices. Women's Studies graduates are skilled in critical thinking, research methods, and effective communication. Because they have developed a thorough understanding of gender, race, and class, they can understand and work effectively with employers, colleagues, and clients to analyze and address complex social problems. Women's Studies graduates acquire strong backgrounds for careers in such areas as counseling, education, human resources, public policy, politics, business, or law.

The program includes core courses in Women's Studies and cross-listed courses in anthropology, art history, classical studies, economics, English, history, health and human performance, political science, psychology, religion, sociology, speech communication, and world languages and cultures. An undergraduate major requires 33 credits of core and cross-listed courses. Women's Studies majors must satisfy the following requirements:

1. 21 credits selected from women's studies core courses (W S).

A. Required core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>W S 201</td>
<td>Introduction to Women's Studies</td>
<td>3</td>
</tr>
<tr>
<td>W S 301</td>
<td>International Perspectives on Women and Gender</td>
<td>3</td>
</tr>
<tr>
<td>W S 401</td>
<td>Feminist Theories</td>
<td>3</td>
</tr>
<tr>
<td>W S 402</td>
<td>Feminist Research in Action</td>
<td>3</td>
</tr>
<tr>
<td>W S 499</td>
<td>Senior Thesis</td>
<td>3</td>
</tr>
<tr>
<td>or W S 491</td>
<td>Senior Internship</td>
<td></td>
</tr>
</tbody>
</table>

B. The remaining 6 credits should be chosen from the Women's Studies core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>W S 203</td>
<td>Introduction to Lesbian Studies</td>
<td>3</td>
</tr>
<tr>
<td>W S 205</td>
<td>Introduction to Queer Studies</td>
<td>3</td>
</tr>
<tr>
<td>W S 302</td>
<td>Issues in Women's Health and Reproduction</td>
<td>3</td>
</tr>
<tr>
<td>W S 320</td>
<td>Ecofeminism</td>
<td>3</td>
</tr>
<tr>
<td>W S 350</td>
<td>Women of Color in the U.S</td>
<td>3</td>
</tr>
<tr>
<td>W S 425</td>
<td>Intersections of Race, Class and Gender</td>
<td>3</td>
</tr>
<tr>
<td>W S 435</td>
<td>Women and Development</td>
<td>3</td>
</tr>
<tr>
<td>W S 450</td>
<td>Topics in Women's Studies (may be taken more than once)</td>
<td>3</td>
</tr>
</tbody>
</table>

2. 12 credits selected from W S cross-listed courses or W S core courses.

Women's Studies majors are encouraged to declare either a minor or a second major in a different program or department.

Communication Proficiency requirement:

The Women's Studies major requires an average grade of C- or better in ENGL 150 and ENGL 250 (or ENGL 250H) and W S 201.

Minor

Undergraduate students may minor in Women's Studies by taking 15 semester hours of Women's Studies classes, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>W S 201</td>
<td>Introduction to Women's Studies</td>
<td>3</td>
</tr>
<tr>
<td>W S 301</td>
<td>International Perspectives on Women and Gender</td>
<td>3</td>
</tr>
<tr>
<td>one 400 level core Women's Studies course</td>
<td></td>
<td></td>
</tr>
<tr>
<td>6 additional credits of core or cross-listed courses</td>
<td>6</td>
<td></td>
</tr>
</tbody>
</table>

Any student can declare a major or minor in Women's Studies or choose to co-major in another program. Students interested in a minor or major in Women's Studies should contact the Director of the program.

Graduate Study

The graduate minor in Women's Studies is designed to provide students with knowledge of theories and methods within a variety of approaches in feminist scholarship. The program seeks to integrate and synthesize knowledge from many disciplines and to offer students opportunities for systematic study of gender and women's experiences and perspectives in all knowledge fields. Students will be prepared to take leadership roles in supporting gender equity and diversity in their careers in education, social service work, business, law, public policy, governmental and non-governmental organizations, and research.

The graduate minor requires 12 credits for students enrolled in a master's or a doctoral degree program. Students are required to take either W S 501 Contemporary Feminist Theories or W S 502 Advanced Seminar in Feminist Research Methods; taking both is strongly recommended. Students will also take two or three electives selected from the list of core and cross-listed Women's Studies courses approved for graduate study. At least one member of the Women's Studies faculty will serve on the program of study for doctoral students. A list of eligible faculty members may be obtained from the Director of the Women's Studies program.

Courses

Courses primarily for undergraduates:

W S 160, Gender Justice.

<table>
<thead>
<tr>

</table>

Half semester course. Examines the socialization process in the United States and how our perspectives are formed. An introduction to patriarchy, sexism, and ally development are explored. Skills to enhance communication and understanding among women and men will be developed. Offered on a satisfactory-fail basis only. Meets U.S. Diversity Requirement.
W S 201. Introduction to Women’s Studies.  
(3-0) Cr. 3.  
Introduction to the interdisciplinary field of Women’s Studies. Contemporary status of women in the U.S. and worldwide from social, economic, historical, political, philosophical and literary perspectives. Analysis of intersection of gender, race, class, and sexuality. Subject matter includes work, health, sexuality, and violence. Foundation for the other courses in the program. 
Meets U.S. Diversity Requirement

W S 203. Introduction to Lesbian Studies.  
(3-0) Cr. 3. S.  
Study of contemporary and historic lesbian cultures and communities from a US and international perspective. Addresses issues of race, class, gender and sexuality as they intersect with the formation of lesbian identities. Explores who identifies as lesbian and how that dis/enables political resistance and formation of community. 
Meets U.S. Diversity Requirement

W S 205. Introduction to Queer Studies.  
(3-0) Cr. 3. F. Prereq: ENGL 150  
Interdisciplinary study of issues relating to lesbian, gay, bisexual, transgender, and queer identities in the U.S. Attention will be given to race and socioeconomic class. 
Meets U.S. Diversity Requirement

(Cross-listed with BIOL). (3-0) Cr. 3. F. Prereq: BIOL 101, or BIOL 155, or BIOL 211  
Anatomy and physiology of human reproductive systems, including fertility, pregnancy, and delivery. 

W S 301. International Perspectives on Women and Gender.  
(3-0) Cr. 3. F.S. Prereq: W S 201 or 3 credits in Women’s Studies at the 300 level or above  
Study of women in a range of cultures, depending on faculty specialization. Special emphasis on women in development seen in postcolonial context. Nonmajor graduate credit.  
Meets International Perspectives Requirement

(3-0) Cr. 3. Prereq: W S 201 or 3 credits in Women’s Studies at 300 level or above  
Current feminist scholarship in the social sciences and humanities on women’s health, health care, and reproduction. Intersections among race, gender, class, ability, and sexuality are emphasized. Nonmajor graduate credit. 
Meets U.S. Diversity Requirement

W S 304. Creative Writing—Fiction.  
(Cross-listed with ENGL). (3-0) Cr. 3. F.S. Prereq: ENGL 250, not open to freshmen  
Progresses from practice in basic techniques of fiction writing to fully developed short stories. Emphasis on writing, analytical reading, workshop criticism, and individual conferences. 

(Cross-listed with BIOL). (3-0) Cr. 3. F. Prereq: a 200 level course in science, engineering or women’s studies; ENGL 250  
The interrelationships of women and science and engineering examined from historical, sociological, philosophical, and biological perspectives. Factors contributing to underrepresentation; feminist critiques of science; examination of successful strategies. 
Meets U.S. Diversity Requirement

W S 320. Ecofeminism.  
(Cross-listed with ENV S). (3-0) Cr. 3. Alt., offered 2011. Prereq: W S 201 or 3 credits in Women’s Studies at the 300 level or above  
Women’s relationships with the earth, non-human nature, and other humans. The course explores the connections between society’s treatment of women and nature: origins of ecofeminism and how it relates to the science of ecology, conventional and sustainable agriculture as well as how ecofeminism relates to other branches of feminist philosophy. Evaluation and critique of modern science, technology, political systems and SOLUTIONS will be included. Nonmajor graduate credit. 

W S 321. Economics of Discrimination.  
(Cross-listed with ECON). (3-0) Cr. 3. Prereq: ECON 101  
Economic theories of discrimination. Analysis of the economic problems of women and minorities in such areas as earnings, occupations, and unemployment. Public policy concerning discrimination. Poverty measurement and antipoverty programs in the U.S. Nonmajor graduate credit.  
Meets U.S. Diversity Requirement

W S 323. Gender and Communication.  
(Cross-listed with SP CM). (3-0) Cr. 3.  
Examines how understanding and enactment of gender identity is shaped by communication. Verbal and nonverbal communication across various contexts including personal relationships and the media. Explores discourse of social movements aiming to transform cultural definitions of gender. Nonmajor graduate credit.  
Meets U.S. Diversity Requirement

W S 325. Portrayals of Gender and Sexualities in the Media.  
(3-0) Cr. 3. Prereq: Sophomore classification  
Survey of how the media and popular culture portray gender and sexualities and the impact on individuals and society. Images of women, men, transgender as well as heterosexual, non-heterosexual and others. Studies both historical and emerging images in the media in terms of stereotypes and positive images. 

W S 327. Sex and Gender in Society.  
(Cross-listed with SOC). (3-0) Cr. 3. F.S.SS. Prereq: SOC 130 or SOC 134  
How the biological fact of sex is transformed into a system of gender stratification. The demographics and social positions of women and men in the family, education, media, politics, and the economy. Theories of gender (sociological, psychological, and biological). Particular attention given to theory and research on gender variations among men by race, class, ethnicity, sexual orientation, physical ability and age. 
Meets U.S. Diversity Requirement

W S 333. Women and Leadership.  
(3-0) Cr. 3. Prereq: Sophomore classification  
This course will examine historical and contemporary barriers to and opportunities for women’s leadership in a variety of contexts, including professions and public service. It will examine theories of women’s leadership, gender differences in leadership styles, and the perceptions and expectations about women’s leadership. Multiple perspectives of women’s leadership will be highlighted through lectures, readings, videos, guest speakers and group work. 

(Cross-listed with RELIG). (3-0) Cr. 3. F. Prereq: RELIG 205, RELIG 210 or W S 201 recommended  
Examines the status of women in various religions, feminist critiques of religious structures and belief systems, and contemporary women’s spirituality movements. 
Meets U.S. Diversity Requirement

W S 338. Feminist Philosophy.  
(Cross-listed with PHIL). (3-0) Cr. 3. F. Prereq: 3 credits in philosophy or women’s studies recommended  
A critical, theoretical examination of the oppression of women, especially as it relates to issues of race, class, and sexual orientation. How concepts such as sex and gender, self and other, nature and nurture, complicate our understanding of what it means to be a woman. Historical and contemporary feminist philosophers addressing topics such as violence, sexuality, pornography, political power, family structure and women’s paid and unpaid labor. Nonmajor graduate credit. 
Meets U.S. Diversity Requirement

W S 340. Women’s Literature.  
(Cross-listed with ENGL). (3-0) Cr. 3. Prereq: ENGL 250  
Historical and thematic survey of literature by and about women. May include autobiographies, journals, letters, poetry, fiction, and drama. Nonmajor graduate credit. 
Meets U.S. Diversity Requirement

(Cross-listed with AM IN). (3-0) Cr. 3. Prereq: ENGL 250  
Literature of American Indian women writers which examines their social, political, and cultural roles in the United States. Exploration of American Indian women’s literary, philosophical, and artistic works aimed at recovering elements of identity, redescribing stereotypes, resisting colonization, and constructing femininity. Nonmajor graduate credit. 
Meets U.S. Diversity Requirement
W S 345. Women and Literature: Selected Topics.  
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: ENGL 250  
Literature by women and/or dealing with the images of women, e.g., study of individual authors or related schools of authors; exploration of specific themes or genres in women's literature; analysis of recurrent images of women in literature. Nonmajor graduate credit. 
Meets U.S. Diversity Requirement  

W S 346. Psychology of Women.  
(Cross-listed with PSYCH). (3-0) Cr. 3. S. Prereq: 2 courses in psychology including PSYCH 101.  
Survey of theory and research related to major biological, interpersonal, and cultural issues affecting girls’ and women’s psychological development and behavior. 
Meets U.S. Diversity Requirement  

W S 350. Women of Color in the U.S.  
(Cross-listed with AF AM). (3-0) Cr. 3. S. Prereq: 3 credits in Women's Studies or African American Studies  
Economic, social, political and cultural roles of Women of Color in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored. 
Nonmajor graduate credit. 
Meets U.S. Diversity Requirement  

(Cross-listed with ENGL). (3-0) Cr. 3. Prereq: ENGL 250  
Literary portrayals of gay and lesbian lives and relationships from many different genres. Attention to changing definitions and representations of sexual orientation and gender identity over time. Nonmajor graduate credit. 
Meets U.S. Diversity Requirement  

(3-0) Cr. 3.  
Readings, discussions, and papers in English. 
Meets International Perspectives Requirement.  

W S 370F. French Topics on Women or Feminism.  
(3-0) Cr. 3.  
Readings, discussions, and papers in English. 
Meets International Perspectives Requirement.  

W S 370G. German Topics on Women or Feminism.  
(3-0) Cr. 3.  
Readings, discussions, and papers in English. 
Meets International Perspectives Requirement.  

W S 370R. Russian Studies in English Translation: Russian topics on women or feminism.  
(Cross-listed with RUS). (3-0) Cr. 3. Repeatable. 
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. 
Meets International Perspectives Requirement.  

W S 370S. Hispanic Topics in English Translation: Hispanic topics on Women or Feminism.  
(Cross-listed with SPAN). (3-0) Cr. 3. Repeatable, maximum of 6 credits. 
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. 
May not be counted as a prerequisite. 
Meets International Perspectives Requirement.  

(Cross-listed with HIST, CL ST). (3-0) Cr. 3. S. Prereq: Any one course in CL St, W S, Latin, or Greek  
Chronological and topical survey of the status of women and men, focusing on sex/ gender issues in the Ancient Mediterranean world; study of constructs of the female and the feminine. Readings from ancient and modern sources. Emphasis on ancient Near East, Egypt, Greece, and Rome. 
Meets International Perspectives Requirement.  

(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification  
History of women’s relationship to the fields of science, technology, and medicine, as students and professionals, consumers, subjects and patients, family members, workers and citizens. Concentrates especially on 19th and 20th century United States, concluding with an examination of current issues of special interest to women in science, technology, and medicine. 
Meets U.S. Diversity Requirement  

W S 385. Women in Politics.  
(Cross-listed with POL S). (3-0) Cr. 3. S.  
Examination of the entry and participation of women in politics in the United States and other countries including a focus on contemporary issues and strategies for change through the political process. 
Meets U.S. Diversity Requirement  

W S 386. History of Women in America.  
(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification  
A survey of social, economic, and political aspects of women’s role from colonial era to present; emphasis on employment, education, concepts of sexuality, and changing nature of the home. 
Meets U.S. Diversity Requirement  

W S 401. Feminist Theories.  
(3-0) Cr. 3. Prereq: W S 201 or 3 credits in Women’s Studies at the 300 level or above  
Current theories of feminism, the feminine and sexual difference. Topics in race, class, sexuality, and ethnicity as they are addressed in diverse feminisms. May include readings in lesbian, Black, postcolonial, psychoanalytic and postmodern thought. Nonmajor graduate credit.  

(3-0) Cr. 3. S. Prereq: W S 201 and W S 301  
Feminist research methods and scholarship. Class collaborates on a community research and action project to improve women’s lives. Nonmajor graduate credit.  

W S 422. Women, Men, and the English Language.  
(Cross-listed with LING, ENGL). (3-0) Cr. 3. S. Prereq: ENGL 219 or LING 219  
The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions. Nonmajor graduate credit. 
Meets U.S. Diversity Requirement  

W S 425. Intersections of Race, Class and Gender.  
(Dual-listed with W S 525). (3-0) Cr. 3. Prereq: W S 201 and one additional W S course  
Race, ethnicity and class distinctions and intersections lead to inequitable distributions of power, social well-being, and resources. Explores how inequities are institutionalized and how multiple identities are experienced by women in daily life.  

W S 435. Women and Development.  
(Dual-listed with W S 535). (3-0) Cr. 3. Prereq: W S 301  
Cross-cultural study of development utilizing both case studies and theoretical works. Explores the nature of women's roles in developing countries and the ways women and their needs have been excluded/included in development approaches, policies, and projects. Includes discussion of actual development projects as well as women's organizing.  

W S 439. Goddess Religions.  
(Cross-listed with RELIG). (3-0) Cr. 3. Prereq: RELIG 205 recommended  
Exploration of the foundational myths of Goddess spirituality, including historical and cross-cultural female images of the divine and their modern usage by American women. Nonmajor graduate credit.  

W S 444. Sex and Gender in Cross-cultural Perspective.  
(Dual-listed with W S 544). (Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq: ANTHR 201; ANTHR 306 recommended  
Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation.  

W S 450. Topics in Women's Studies.  
(Dual-listed with W S 550). (3-0) Cr. 3. Repeatable, maximum of 6 credits. S. Prereq: W S 201 or 3 credits in Women’s Studies at the 300 level or above  
Special and/or experimental topics in a specific discipline, e.g., women and education, women and religion, women and the law, women and science.  

W S 460. Seminar in Gender and Ethnicity.  
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: Completion of 9 credits of surveys; completion of or concurrent enrollment in ENGL 339; junior classification  
Selected readings of various authors, movements, eras, or genres. Readings in criticism; required research paper. Nonmajor graduate credit.
W S 488. Interdisciplinary Research on Women and Leadership. (3-0) Cr. 3.
Research on women and leadership in selected content areas (e.g., athletics, business, education, politics and public service, and science and engineering).
Following an overview of quantitative and qualitative methods and critical analyses of journal articles on women and leadership. Students will work in groups in selected content areas to research, write and present paper. Nonmajor graduate credit.

Independent study on a topic in Women's Studies.

W S 491. Senior Internship. (3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Senior classification Internship designed to provide an application of Women’s Studies principles and methods in a workplace. To be arranged with an internal or external employer and conducted under the supervision of a member of the Women’s Studies faculty.

W S 494. Women/Gender in Art. (Dual-listed with W S 594). (Cross-listed with DSN S, ART H). (3-0) Cr. 3. Prereq: Graduate classification and permission of instructor
Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture.
Meets U.S. Diversity Requirement

W S 499. Senior Thesis. (3-0) Cr. 3. F.S.SS. Prereq: Senior classification
Senior thesis to be independently researched and written under the supervision of a member of the Women’s Studies faculty.

Courses primarily for graduate students, open to qualified undergraduates:

W S 501. Contemporary Feminist Theories. (3-0) Cr. 3. F.
Advanced study of current theoretical developments in Women’s Studies in the U.S. and around the world. Examination of the epistemological bases of feminist scholarship.

W S 502. Advanced Seminar in Feminist Research Methods. (3-0) Cr. 3. S.
Focus on feminist interdisciplinary research methods. Analysis of contemporary issues facing feminist scholars. Students conduct original research.

W S 525. Intersections of Race, Class and Gender. (Dual-listed with W S 425). (3-0) Cr. 3. Prereq: W S 201 and one additional W S course
Race, ethnicity, class and gender distinctions and intersections lead to inequitable distributions of power, social well-being, and resources. Explores how inequities are institutionalized and how multiple identities are experienced by women in daily life.

W S 535. Women and Development. (Dual-listed with W S 435). (3-0) Cr. 3. Prereq: W S 301
Cross-cultural study of development utilizing both case studies and theoretical works. Explores the nature of women’s roles in developing countries and the ways women and their needs have been excluded/included in development approaches, policies, and projects. Includes discussion of actual development projects as well as women’s organizing.

W S 544. Sex and Gender in Cross-cultural Perspective. (Dual-listed with W S 444). (Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq: ANTHR 201; ANTHR 306 recommended
Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through the examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation.

W S 545. Women’s Literature. (Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature
Primary texts by women writers; historical, thematic, formal, or theoretical approaches; secondary readings; e.g., Nineteenth-Century Women Writers; American Women’s Personal Narratives; Southern Women Writers of the U.S.

W S 550. Topics in Women’s Studies. (Dual-listed with W S 450). (3-0) Cr. 3. Repeatable, maximum of 6 credits. S. Prereq: W S 201 or 3 credits in Women’s Studies at the 300 level or above
Special and/or experimental topics in a specific discipline, e.g., women and education, women and religion, women and the law, women and science.

W S 556. Proseminar in Women’s History and Feminist Theory. (Cross-listed with HIST). (3-0) Cr. 3. Prereq: Permission of instructor
Feminist theory from the 1960s to the present as it relates to the writing of women’s history. Analysis of interpretations of U.S. women’s history from patriarchal to postmodernist perspectives.

W S 590. Special Topics. Cr. art. Prereq: Permission of Women’s Studies Program Director
Independent study on a topic in Women’s Studies.

W S 594. Women/Gender in Art. (Dual-listed with W S 494). (Cross-listed with DSN S, ART H). (3-0) Cr. 3. Prereq: Graduate classification and permission of instructor
Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture.
Meets U.S. Diversity Requirement

Courses for graduate students:

W S 621. Pedagogies of Dissent: Radical Theories of Education, Social Justice, and Economic Democracy. (Cross-listed with EL PS). (3-0) Cr. 3. S. Prereq: EL PS 620
Critical examination of the philosophical foundations of education that seek to challenge the status quo and advance radical educational change. Exploration of macro-level (and some micro-level) issues relevant to educational change, in relation to how they inform practices of dissent and every day social relations.

World Languages and Cultures

Undergraduate Study

Curriculum: World language study should be an integral part of an academic program for most students. The theoretical understanding of and practical experience in language underlie many intellectual disciplines that try to meet the complex problems of contemporary society. Courses offered by the Department of World Languages and Cultures are designed to develop students’ understanding of a second culture through the language spoken by that culture.

Upon the completion of their program of studies in the Department of World Languages and Cultures, majors with a concentration in French, German, or Spanish will demonstrate proficiency in five goal areas: Communication, Cultures, Connections, Comparisons, and Communities. Students will be able to:

1. use their concentration language to present and interpret information and to communicate both orally and in writing;
2. demonstrate an understanding of the relationships among the products, practices, and perspectives of the culture(s) in which their concentration language is spoken;
3. demonstrate their ability to acquire information and further their knowledge through their concentration language;
4. demonstrate an understanding of the nature of language and the concept of culture by making comparisons with their own language and culture(s); and
5. demonstrate a desire to become a life-long learner of their concentration language.

Graduates will achieve both linguistic proficiency and cultural literacy through the study of the language and culture of their program. Linguistic proficiency entails the ability to function effectively in the target language and the ability to communicate competently with native speakers of the target language. Students of Latin and Ancient Greek demonstrate proficiency by becoming able to read the languages and to translate from these languages into clear and idiomatic English. Cultural literacy includes a general knowledge of the culture’s history, familiarity with its literature, and basic knowledge of its social and political institutions.

The Department offers a major in World Languages and Cultures with two options, leading to the Bachelor of Arts degree:

1. Languages and Cultures with a Concentration in French, German, or Spanish;
2. Languages and Cultures for Professions (as a second major only) with a Concentration in French, German, or Spanish. The Department offers minors in Chinese Studies, French, German, Latin, Russian Studies, and Spanish;
and instruction in Arabic, Classical Greek, and Portuguese. The Department also houses the College of Liberal Arts and Sciences’ Program in Classical Studies.

A full statement of requirements for majors and minors may be obtained from the Department. For a complete statement of all the college degree requirements, see Liberal Arts and Sciences, Curriculum. Current and detailed information about the Department, including placement information, is available on-line at www.language.iastate.edu.

Policies

Students who have had formal training in world languages offered at Iowa State may obtain credit by passing appropriate examinations. Students with native fluency in languages taught at Iowa State may not enroll in or take the Exam for Credit in elementary or intermediate courses (100 and 200 level) in their native language. Students are considered to have native fluency if their ethnic first language as indicated on the matriculation form is the language in which they wish to enroll. Students are also considered to have native fluency if they have had substantial attendance at a secondary school or university where the language of instruction is the language in which they wish to enroll at ISU. Students with native fluency may be eligible to enroll in literature and civilization courses in their native language at the 300 level or above; such students must also consult the department office to determine eligibility for advanced composition and conversation courses (300 level and above). Students who have completed three or more years of high-school world language study may not enroll in or receive credit for 101-102 in those languages; credit may be obtained by passing the appropriate Exam for Credit or by completing an advanced sequence (200-level or higher) in that language. Students who complete an approved sequence of courses in a single language at the 200- or 300-level (e.g., 201 and 202 or 301 and 302) with a grade of C- or higher are eligible to receive credit for 101 and 102 in that same language if they have not received credit for a 101 or 102 course in that language. Students who wish to pursue further study in Spanish at the 201-202 level, Students who complete SPAN 097 Accelerated Spanish Review or a 102 language course, are recommended to take the on-line placement test available at www.language.iastate.edu. After completing the on-line placement test, students who believe that they have extenuating circumstances may appeal to the Department of World Languages and Cultures in order to request enrollment in a 101 language course.

SPAN 097 Accelerated Spanish Review is designed for students who need additional work in the language at the first-year level (101-102) and are not planning to continue their language study at the second-year 201-202 level. Students who complete SPAN 097 Accelerated Spanish Review with a passing grade will have fulfilled the LAS world language requirement. Students who have completed SPAN 097 Accelerated Spanish Review and wish to pursue further study in Spanish at the 201-202 level may enroll in 102.

Students with disabilities who need to satisfy the world language requirement may direct questions to their academic adviser, the Department of World Languages and Cultures, or the Disability Resources Office.

Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is not normally available.

The Department of World Languages and Cultures participates in the Iowa Regents’ world language summer study abroad programs in France, Morocco, Peru and Spain. The Department also offers summer programs in Greece, Russia, Spain and Mexico; and semester study abroad programs in Mexico and Spain. Information concerning these programs can be obtained directly from the Department.

Language and literature courses numbered 300 and above are principally taught in the target language; courses numbered in the 270s, 370s, and 470s are taught in English. For courses taught in English about Ancient Greek and Rome, see Classical Studies. Students may not take intermediate (200 level) courses for credit after successfully completing any advanced (300/400 level) course, except those in the 370 series or courses taught in English translation. Students who have successfully completed any course in the intermediate (200 level) sequence may not take a lower-numbered course in that sequence for a grade.

Students at all levels of world language study will have access to the Language Studies Resource Center, located in 3142 Pearson. The Resource Center contains an extensive collection of world language materials, including audio-visual materials, electronic resources, music, books, language specific software and hardware, and other course-related materials.

Materials fees: Each student enrolled in a 100- through 400- level world language course is assessed a materials and professional support fee of $25.00 per course. If a student drops a course subject to the fee by the 15th day of the semester the fee for that course will not be assessed.

Communication Proficiency requirement: The Department requires a grade of C- or better in each of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition (ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors), and a grade of C or better in any course numbered between 370 and 379 taught by the Department of World Languages and Cultures or the interdepartmental program in Classical Studies.

Languages and Cultures for Professions (LCP)

Students with primary majors in the College of Business or the College of Engineering are encouraged to complete an LCP second major option in World Languages and Cultures with a concentration in French, German, Spanish, or an LCP minor option in Chinese Studies or Russian. The primary objective of the LCP option is to provide learning environments within which students can achieve global literacy, linguistic proficiency, and inter-cultural competence. In the LCP curriculum, students will learn how professions are shaped by social and cultural forces and, alternatively, how professions shape society. In courses on contemporary culture and society, students will identify and analyze issues dealing with the complex interrelationships of languages and cultures and consider how they may affect their chosen profession. Students will experience living and working in diverse cultural settings through study abroad and internship opportunities offered through the LCP program and/or in collaboration with the Colleges of Business and Engineering.

Students enrolled in the LCP second major option may receive non-graded academic credit for the successful completion of internships (WLC courses numbered 499 in each language area).

For the LCP second major option, students will complete 30 credits within their language concentration beyond the fourth-semester level, selected from the list of approved LCP core courses and electives designated for their respective college curricula in either Business or Engineering. Students may only enroll in the LCP option as a second major and may not graduate with the LCP option in the WLC major alone.

Students in the College of Business may combine course work in the International Business (IB) Secondary Major with course work in LCP by selecting from a list of approved options. Students should consult their academic adviser in the College of Business and the WLC advisor for coursework and international experience that fulfill requirements in both the IB and LCP major options.

World Film Studies

The World Film Studies undergraduate minor is an interdisciplinary, cross-cultural program in the department of World Languages and Cultures that provides coursework in the history, theory, and aesthetics of cinemas of the non-English-speaking world. Upon completion of the World Film Studies minor students will

1) demonstrate solid skills of formal film analysis and knowledge of the essential theoretical concepts of cinema studies;

2) become familiar with prominent film directors, influential cinematic works, and cinematic traditions across the world;

3) gain an understanding of the evolution of cinema as an art form; understand the relations between cinema and other arts;

4) acquire knowledge and understanding of cinema as a mode of cultural expression and communication; develop new perspectives on U.S. culture and cinema through comparison with other non-English-speaking world cultures and cinemas.

A student seeking an undergraduate minor in World Film Studies must successfully complete a minimum of 15 credits, which must include WLC 278x (Introduction to Global Film) and 12 credits selected from the following list of electives. Of these, at least 6 credits must be from courses taught in the department of World Languages and Cultures.

Courses taught in WLC (at least 6 credits):

Chin 370: Contemporary Chinese Film and Fiction (3 cr.)

Frcnh 326: Studies in French or Francophone Art and Film (in French, 3 cr.)

Frcnh 378: French Film Studies in English (3 cr.)

Ger 378: German Film and Media Studies (3 cr.)

Rus 378: Russian Film Studies in English (3 cr.)

Span 326: Studies in Hispanic Art or Film (in Spanish, 3 cr.)

- 634 Colleges and Curricula
Courses outside of WLC:

- Engl 237: Survey of Film History (3 cr.)
- Engl 315: Creative Writing – Screenplays (3 cr.)
- Engl 335: Studies in Film (3 cr.)
- Engl 450B: Seminar in Film (3 cr.)
- JI MC 454: Critical Analysis and History of the Moving Image (3 cr.)
- Pol S 365x: Politics and Film (3 cr.)

Curricular note: no more than 6 credits of each repeatable course (Frnc 326 and Frnc 378) may be applied to the minor.

Graduate Study

The Department of World Languages and Cultures offers course work leading to a graduate minor in French, German, Latin, Russian Studies or Spanish. The graduate minor in each of these languages is designed to provide an opportunity for graduate students to further their knowledge of that language to complement work in their major disciplines. The graduate minor provides formal recognition of student achievement and expertise in one of the languages above. Graduate minor credits are also offered in Greek.

Graduate Minor

Program Requirements:

**Prerequisites**

Graduate students who wish to minor in one of the languages above must have 400-level proficiency in that language. When this is not the case, the student may be required to take a language course below the 400-level, which would not count towards the graduate minor requirements.

**Course Requirements**

For the M.A. or M.S.: Three courses in the language of the minor. No more than three credits may be in courses numbered 401, 402, and 403. For the Ph.D.: Four courses in the language of the minor which must include at least one three credit course at the 500 level. No more than three credits may be in courses numbered 401, 402, or 403. At least two courses for the M.A. and the Ph.D. minors must be taken in residence at Iowa State University. Papers written for these courses are expected to have a content and depth commensurate with the graduate status of the student.

**Special Courses in World Languages and Cultures (WLC)**

Courses primarily for undergraduate students

WLC 119. Introduction to World Languages.
(Cross-listed with WLC). (3-0) Cr. 3.
Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and language use, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy. Meets International Perspectives Requirement.

WLC 417. Student Teaching.
Cr. 8-12. F.S. Prereq: Admission to teacher education, approval of coordinator during semester before student teaching.
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

G. Student Teaching: World Language

WLC 484. Technology, Globalization and Culture.
(Dual-listed with WLC 584). (Cross-listed with M E). (3-0) Cr. 3. F. Prereq: senior classification for M E 484; graduate classification for M E 584
Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists. Meets International Perspectives Requirement.

WLC 486. Methods in Elementary School World Language Instruction.
(Cross-listed with C I, LING). (3-0) Cr. 3. F. Prereq: 25 credits in a world language Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on K-8 students’ communicative skills, cultural knowledge, and content learning. Nonmajor graduate credit.
**Courses primarily for undergraduate students**

**CHIN 101. Elementary Mandarin Chinese I.**
(5-0) Cr. 5. F.
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.

**CHIN 102. Elementary Mandarin Chinese II.**
(5-0) Cr. 5. S. Prereq: CHIN 101
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.
Meets International Perspectives Requirement.

**CHIN 201. Intermediate Mandarin Chinese I.**
(5-0) Cr. 5. S. F. Prereq: CHIN 102
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition.
Meets International Perspectives Requirement.

**CHIN 202. Intermediate Mandarin Chinese II.**
(5-0) Cr. 5. S. Prereq: CHIN 201
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition.
Meets International Perspectives Requirement.

**CHIN 301. Advanced Chinese Readings I.**
(3-0) Cr. 3. F. Prereq: CHIN 202 or equivalent
Continuing study of Chinese beyond intermediate level with a focus on communicative skills. Cultural literacy through a variety of texts from the humanities, social sciences, mass media and business.
Meets International Perspectives Requirement.

**CHIN 302. Advanced Chinese Readings II.**
(3-0) Cr. 3. S. Prereq: CHIN 301 or equivalent
Continuing study of Chinese beyond intermediate level with a focus on communicative skills. Cultural literacy through a variety of texts from the humanities, social sciences, mass media and business.
Meets International Perspectives Requirement.

**CHIN 304. Chinese for Business and Professionals.**
(4-0) Cr. 4. S. Prereq: CHIN 202 or equivalent
Introduction to professional language and culture in China and Chinese-speaking regions in Asia. Development of all four language skills, focusing on practical applications in the professional contexts. Development of global awareness and cross-cultural understanding. Preparation for internships.
Meets International Perspectives Requirement.

**CHIN 370. Chinese Literature in English Translation.**
(3-0) Cr. 3. F. Prereq: ENGL 150 or equivalent
Topics may include traditional prose, poetry, and drama; the Chinese novel; twentieth-century fiction and film; gender and cosmology in Chinese literature. All readings and class discussions in English.
Meets International Perspectives Requirement.

**CHIN 375. China Today.**
(3-2) Cr. 3-4. S. Prereq: ENGL 250 or equivalent
Topics may vary from year to year. Readings, discussions, and papers in English on contemporary society, culture, literature and the arts.
Meets International Perspectives Requirement.

**CHIN 403. Reading Chinese Texts.**
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F. Prereq: CHIN 302 or equivalent
Critical reading of authentic cultural and literary texts, consolidation of existing language skills, comprehension of in-depth cultural issues. Taught in Chinese.
Nonmajor graduate credit.

**CHIN 490. Independent Study.**
Cr. 1-6. Repeatable. Prereq: 6 credits in Chinese and permission of department chair
Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. Nonmajor graduate credit.
French (Frnch)

World Languages and Cultures majors with a concentration in French have two options:

**WLC Option I: French Studies**

Under WLC Option I, students with a concentration in French Studies must complete at least 30 credits beyond the intermediate (201-202) level.

**A. French Studies Required Core Courses (15 credits)**

Curricular Notes: Students may enroll in the Languages and Cultures for Professions (LCP) Option in French as a Second Major only. They may not graduate with the Second Major alone.
Courses primarily for undergraduate students

FRNCH 101. Elementary French I. (4-0) Cr. 4. F.S.S.
Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

FRNCH 102. Elementary French II. (4-0) Cr. 4. S.S.S. Prereq: FRNCH 101
Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available. Meets International Perspectives Requirement.

FRNCH 201. Intermediate French I. (4-0) Cr. 4. F. Prereq: FRNCH 102
Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available. Meets International Perspectives Requirement.

FRNCH 202. Intermediate French II. (4-0) Cr. 4. S. Prereq: FRNCH 201
Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available. Meets International Perspectives Requirement.

FRNCH 301. French Writing and Grammar. (3-0) Cr. 3. F. Prereq: FRNCH 202
Emphasis on developing functional language skills in reading and writing. Selective review of grammar within the context of cultural and literary prose. Meets International Perspectives Requirement.

FRNCH 302. Reading and Writing French. (3-0) Cr. 3. S. Prereq: FRNCH 301
Readings in French prose, theater and poetry. Introduction to close reading and analysis. Development of reading and writing skills for upper-level courses.

FRNCH 304. French for Business and Professions. (3-0) Cr. 3. S. Prereq: FRNCH 301

FRNCH 305. French Conversation. (3-0) Cr. 3. F. Prereq: FRNCH 202
Intensive conversational or listening practice emphasizing contemporary French or Francophone civilization.

FRNCH 320. France Today. (3-0) Cr. 3. F. Prereq: FRNCH 202
Selected topics dealing with contemporary French society and culture. Introduction to materials, resources, and forms of communication available on the Internet, and in other electronic and print media. Meets International Perspectives Requirement.

</table>
RUS 490. Independent Study.
Cr. 1-6. Repeatable. Prereq: 6 credits in Russian and permission of department chair
Designed to meet the needs of students who seek work in areas other than those in
which courses are offered, or who desire to integrate a study of literature or language
with special problems in major fields. No more than 9 credits of Rus 490 may be
counted toward graduation.

RUS 499. Internship in Russian.
Cr. 1-3. Repeatable. F.S.S.S. Prereq: 9 credits of Russian at the 300 level; permission
of advisor and WLC Internship Coordinator
Work experience using Russian language skills in the public or private sector
combined with academic work under faculty supervision. Available only to majors and
minors. No more than 3 credits may be applied to the major.

Courses primarily for graduate students, open
to qualified undergraduate students

RUS 590. Special Topics in Russian.
Cr. 2-4. Repeatable. Prereq: Permission of instructor; 6 credits of 400 level Russian
A. Special Topics in Russian: Literature or Literary Criticism
B. Special Topics in Russian: Linguistics
C. Special Topics in Russian: Language Pedagogy
D. Special Topics in Russian: Civilization

Spanish (Span)

World Languages and Cultures majors with a concentration in Spanish have two options:

WLC Option I: Hispanic Studies

Under WLC Option I, students with a concentration in Spanish must complete a
minimum of 33 credits beyond the intermediate (201-202) level.

A. Hispanic Studies Required Core Courses: (12 cr.)

<table>
<thead>
<tr>

</tr>
<tr>
<td>SPAN 499</td>
<td>Internship in Spanish</td>
<td>3</td>
</tr>
</tbody>
</table>

Students may apply up to 6 credits of SPAN 395 Study Abroad to section a, b, or c
above (appropriate section based upon course content and assigned by the WLC
adviser).

C. Students must take at least 6 credits of literature and/or culture at the 400 level,
chosen from the following (each repeatable to 6 cr.):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 440</td>
<td>Seminar on the Literatures and Cultures of Spain</td>
<td>3</td>

<td>Seminar on Cervantes and the Golden Age</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 445</td>
<td>Seminar on the Literatures and Cultures of Latin America</td>
<td>3</td>
</tr>
</tbody>
</table>

D. Study Abroad: The department strongly recommends that all students of Spanish
participate in an approved study abroad program based in a Spanish-speaking
country. Under Option I, any student who chooses not to participate in a department-
approved program will be required to take 3 additional elective credits of Spanish
at or above the SPAN 321 level (for a total of 36 credits beyond the intermediate
201-202 level).

E. Communication Proficiency Requirements: Degree-seeking students must earn
a grade of C- or better in a sequence of English composition courses, usually
ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral,
Visual, and Electronic Composition. The department will certify Communication
Proficiency for students who receive a C or better in a WLC or Classical Studies
course numbered 370-379. Such a course will also fill an LAS Group I (Arts and
Humanities) requirement.

WLC Option II: Language and Cultures for Professions

Under WLC Option II students with a concentration in Spanish must complete a
minimum of 30 credits beyond the intermediate (201-202) level.

A. Languages and Cultures for Professions (Business) Students with a primary major
in the College of Business may select from one of the following options:

Business Option 1

International Business Secondary Major and Languages and Cultures for Professions
Minor Emphasis (27 credits total)

I. International Business Secondary Major: (12 credits from approved CoB list)

II. LCP Minor Emphasis Courses: (15 credits)

<table>

</tr>
</tbody>
</table>

* Additional credit from an approved study abroad program may be applied to the
major.

Curricular Notes: SPAN 395 Study Abroad or SPAN 499 Internship in Spanish fulfills
the International Business 3-month international experience requirement. SPAN 304
Spanish for Business and Professions, SPAN 395 Study Abroad and SPAN 499
Internship in Spanish may be double counted under Option 1.

Business Option 2

International Business Secondary Major and Language and Cultures for Professions
Major (42 credits total)

I. International Business Secondary Major: (12 credits from approved CoB list)

II. LCP Second Major (30 credits)

</tr>
<tr>
<td>SPAN 322</td>
<td>Latin American Civilization</td>
</tr>
<tr>
<td>SPAN 323</td>
<td>Spain Today</td>
</tr>
<tr>
<td>SPAN 324</td>
<td>Latin America Today</td>
</tr>
</tbody>
</table>

Note: students taking either SPAN 321 Spanish Civilization or SPAN 323 Spain Today must take either SPAN 322 Latin American Civilization or SPAN 324 Latin America Today and must take either SPAN 321 Spanish Civilization or SPAN 323 Spain Today.
Courses primarily for undergraduate students

SPAN 097. Accelerated Spanish Review. (3-2) Cr. arr. F.S. Prereq: Two years but less than three years of high-school Spanish. For students who require additional review at the first year (101-102) level. Course components include a compact review of 101 and the essential elements of 102. Course completed with a passing grade fulfills the LAS foreign language requirement. Not recommended for students who wish to continue language at the second year (201-202) level without completing 102.

SPAN 101. Elementary Spanish I. (4-0) Cr. 4. F.SS. A communicative approach to grammar and vocabulary within the context of Hispanic culture.

SPAN 102. Elementary Spanish II. (4-0) Cr. 4. S.SS. Prereq: SPAN 101, SPAN 97 or placement by departmental exam. Continuation of Spanish 101. A communicative approach to grammar and vocabulary within the context of Hispanic culture. Meets International Perspectives Requirement.

SPAN 195. Study Abroad. Cr. 3. SS. Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student’s training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with SPAN 101 or 102. Meets International Perspectives Requirement.

SPAN 295. Study Abroad. Cr. 3. SS. Prereq: SPAN 102 or equivalent. Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student’s training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with SPAN 201 or 202. Meets International Perspectives Requirement.

SPAN 297. Intermediate Spanish. (4-0) Cr. 4. F.S. Prereq: 4 years of high school Spanish, two years of Spanish at a community college, Spanish 201, or equivalent by placement. Bridge course between 200- and 300-level Spanish courses to prepare students for 300 level courses. Focus on application of advanced grammatical concepts. Designed for students who want to continue at the 300 level. Taught in Spanish.

SPAN 301. Spanish Grammar and Composition. (3-0) Cr. 3. F.S. Prereq: SPAN 202 or placement by departmental exam. Review and application of grammatical concepts in the development of writing skills within the context of Hispanic culture. Taught in Spanish. Meets International Perspectives Requirement.

A. Spanish Grammar and Conversation: Conversation through Culture
B. Spanish Grammar and Conversation: Conversation for Professionals

SPAN 304. Spanish for Business and Professions. (3-0) Cr. 3. F.S. Prereq: SPAN 202 or placement by departmental exam (SPAN 301 recommended). Introduction to professional communication within a cultural context. Grammar review as needed. Individual projects will focus on special interests. Taught in Spanish. Nonmajor graduate credit. Meets International Perspectives Requirement.

SPAN 314. Introduction to Reading Hispanic Texts. (3-0) Cr. 3. F.S. Prereq: SPAN 301. Critical reading of Hispanic literary and cultural texts. Presentation of techniques and terminology of literary criticism. Study of basic genres such as: narrative, poetry, drama, essay. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 322. Latin American Civilization. (3-0) Cr. 3. Prereq: One course at the 300 level. A survey of the social, political, religious, and cultural history of Spanish America. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 323. Spain Today. (3-0) Cr. 3. Prereq: One course at the 300 level. A survey of social, political, economic, and cultural topics relevant to contemporary Spain. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 324. Latin America Today. (3-0) Cr. 3. Prereq: One course at the 300 level. A survey of social, political, economic, and cultural topics relevant to contemporary Latin America. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 326. Studies in Hispanic Art or Film. (Dual-listed with SPAN 526). (3-0) Cr. 3. Prereq: One course at the 300 level. Survey of major currents and figures in Spanish and Latin American art and/or film. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 331. Studies in Spanish Literature from 1700 to the Present. (3-0) Cr. 3. Prereq: SPAN 314. Introduction to Spanish literature from the eighteenth century to the present; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit. Meets International Perspectives Requirement.

SPAN 332. Studies in Latin American Literature from Pre-Columbian Times through the Nineteenth Century. (3-0) Cr. 3. Prereq: SPAN 314. Introduction to Latin American literature from the earliest times to circa 1900; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit. Meets International Perspectives Requirement.

SPAN 333. Studies in Latin American Literature from the Twentieth Century to the Present. (3-0) Cr. 3. Prereq: SPAN 314. Introduction to Latin American literature from the twentieth century to the present; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit. Meets International Perspectives Requirement.

Courses primarily for graduate students, open to qualified undergraduate students

SPAN 501. Advanced Composition and Grammar.  
(Dual-listed with SPAN 401). (3-0) Cr. 3. F. Prereq: SPAN 314 and one course at the 320-level or above  
Advanced study of Spanish grammar and syntax. Students’ writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish. Nonmajor graduate credit.  
Meets International Perspectives Requirement.

SPAN 526. Studies in Hispanic Art or Film.  
(Dual-listed with SPAN 326). (3-0) Cr. 3. Prereq: 6 credits in Spanish literature or culture at 400 level  
Survey of major currents and figures in Spanish and Latin American art and/or film.

College of Veterinary Medicine

Lisa K. Nolan, Dean  
Claire B. Andreasen, Associate Dean for Academic and Student Affairs  
vetmed.iastate.edu/

Departments of the College

• Biomedical Sciences  
• Veterinary Clinical Sciences  
• Veterinary Diagnostic and Production Animal Medicine  
• Veterinary Microbiology and Preventive Medicine  
• Veterinary Pathology  

Other units of the college include the Lloyd Veterinary Medical Center, Veterinary Diagnostic Laboratory, Veterinary Medical Research Institute, Veterinary Education and Technology Services and Office of Curricular and Student Assessment. The college participates in interdisciplinary graduate programs in genetics; molecular, cellular and developmental biology; toxicology; immunobiology; and neuroscience.

Objectives of the Curriculum

The instructional objective of the College of Veterinary Medicine is to enable students to assume vital roles in society as productive health care providers and
biomedical scientists. Such an education provides students with general learning, communication, and problem solving abilities; veterinary medical practice and research skills; and professional and ethical values.

The curriculum incorporates basic biomedical and clinical principles, clinical decision making skills, and exceptional clinical experience in small animal medicine and surgery, equine medicine and surgery, food animal medicine and surgery, and production animal medicine. Companion animal medicine and surgery are provided within the regionally recognized referral hospital through the community practice unit and equine field services. The college is located in one of the most intensive livestock producing areas in the United States. Because of this, students engage in extensive food supply veterinary medicine experiences and numerous diagnostic cases.

The professional curriculum is a four-year course of study leading to the doctor of veterinary medicine degree. Each of the first three years of the curriculum consists of two semesters while the fourth year has three semesters. Students are admitted into the professional curriculum after completing a minimum of 60 semester credits of required undergraduate coursework.

A strong and reputable basic science education during the first two years of the professional curriculum prepares veterinary students for a wide range of clinical experience during the last two years of the educational program. Fourth year students may choose to enhance their education by earning clinical elective credits at approved government agencies, research laboratories, veterinary practices and other university hospitals. Outstanding research programs in infectious diseases, food safety, neuroscience, immunoparasitology, evidence-based medicine, and many other areas provide opportunities for qualified students to participate in research.

Concurrent DVM/MS, DVM/PhD, DVM/MPH and DVM/MBA programs are available for qualified students who wish to obtain both veterinary and graduate degrees. Students must have a bachelor’s degree or a minimum of 128 semester credits in undergraduate and professional curricula in order to participate in the concurrent DVM/graduate degree program. Admission to the concurrent degree program is subject to the approval of the deans of the College of Veterinary Medicine and the Graduate College.

The college is an important recruiting center for employers seeking veterinarians for private practice; industry; educational institutions; international agencies; federal, state and local governments; the armed forces; departments of public health; zoological gardens; and other related fields of professional activity. Graduates are highly sought after and typically have multiple employment offers upon graduation. Career services and an online job board are available for students.

**Pre-veterinary Medicine Preparation**

**Admission Requirements**

The College of Veterinary Medicine seeks students with diverse backgrounds and encourages students to enroll in baccalaureate programs in the college of their choice.

Undergraduate students are strongly encouraged to complete a bachelor’s degree before applying to the College of Veterinary Medicine. Because veterinarians have varied career options, when deciding on an undergraduate major, the student should consider the area of veterinary medicine which interests them. For example, those who desire a career in clinical practice may wish to pursue a degree in biological science, animal science, agricultural economics, business, social science or humanities. Students with an interest in zoo or wildlife veterinary medicine may want to look at animal ecology, environmental studies or zoology. Future researchers may wish to consider genetics, molecular biology, microbiology, or biochemistry. Students who desire a career in public health (USDA, FDA, etc) or government (legislative/policy) may find benefit in any of the biological sciences or in political science. A degree in education may be valuable to those who envision themselves as educators in a College of Veterinary Medicine. These examples are only suggestions and are but a few of the many possibilities.

For the most current information regarding applications and admission to the College of Veterinary Medicine, please refer to the College web site at www.vetmed.iastate.edu/.

Applicants for admission to the College of Veterinary Medicine must have attended an accredited college or university, have completed 40 semester credits prior to the deadline for filing an application for admission, and have completed 60 semester credits prior to the end of the spring term of the year in which the applicant seeks to be admitted to the College of Veterinary Medicine.

All science requirements should be fulfilled by the time of application or scheduled for completion by the end of the fall term in which the applicant applies. However, if necessary, the applicant may complete up to two required science courses after the fall term providing a transcript with the courses and grades listed is postmarked by July 1 of the year the applicant would enter. There is no maximum number of non-science required courses that may be completed but the deadline of having a transcript with these course grades posted by July 1 also applies. The July 1 deadline for transcripts and grades is firm.

Required courses must be completed with a grade of C (2.00) or better. Credits earned must include the following Iowa State semester course offerings or their equivalents:

**English Composition 6 cr.**

One year of composition or writing emphasis courses. May include business or technical writing.

- *ENGL 150* Critical Thinking and Communication 3
- *ENGL 250* Written, Oral, Visual, and Electronic Composition 3
- *ENGL 302* Business Communication 3
- *ENGL 309* Report and Proposal Writing 3
- *ENGL 314* Technical Communication 3

**Oral Communications 3 cr.**

May include public speaking, interpersonal communication, group or organizational communication or speaking emphasis courses.

- *SP CM 212* Fundamentals of Public Speaking 3
- *SP CM 223* Intercollegiate Debate and Forensics 1
- *SP CM 312* Business and Professional Speaking 3
- *COMST 214* Professional Communication 3

**General Chemistry with Laboratory* 7 cr.**

One year series for science majors with one semester lab.

- *CHEM 177* General Chemistry I
- *177L* and Laboratory in General Chemistry I 5
- *CHEM 178* General Chemistry II 3

Total Credits 8

**Organic Chemistry with Laboratory* 7 cr.**

One year series with one semester lab.

- *CHEM 331* Organic Chemistry I 3
- *CHEM 331L* Laboratory in Organic Chemistry I 1
- *CHEM 332* Organic Chemistry II 3

Total Credits 7

**Biochemistry* 3 cr.**

One semester (no lab required)

- *BBMB 301* Survey of Biochemistry

**General Physics with Laboratory* 4 cr.**

First semester of a two-semester series with lab. Must include mechanics, fluids, heat and thermodynamics, vibrations, waves and sound.

- *PHYS 111* General Physics

**General Biology with Laboratory* 8 cr.**

Two semester series with lab each semester. A Bachelor’s degree in Biology fulfills this requirement.

- *BIOL 211* Principles of Biology I 3
- *BIOL 211L* Principles of Biology Laboratory I 1
- *BIOL 212* Principles of Biology II 3
- *BIOL 212L* Principles of Biology Laboratory II 1

Total Credits 8

**Genetics* 3 cr.**

Must include Mendelian and molecular genetics.

- *BIOL 313* Principles of Genetics 3
- or *GEN 320* Genetics, Agriculture and Biotechnology

Total Credits 3

**Mammalian Anatomy or Physiology* 3 cr.**

Human anatomy or physiology will also fulfill this requirement (no lab required).

- *AN S 214* Domestic Animal Physiology 3
- *BIOL 155* Human Biology 3
**Humanities or Social Sciences 8 cr.**

**Electives 8 cr.**

**Total Credits Required 60 cr.**

- Science requirement

Credits in the previously specified courses will normally be earned on the traditional four-letter grading system with A as the highest grade and D as the lowest passing grade. All required courses must be completed with a grade of C (2.0) or better. It is generally expected that required courses have been completed within the past eight (8) years. AP or CLEP credits must be documented by original scores submitted to the College of Veterinary Medicine. CLEP credits may be accepted only for arts, humanities and social sciences. Credits in the preceding specified courses will not be accepted if earned under the pass-not pass grading system or similar options.

**Application and Admission**

Applicants must apply using the Veterinary Medical College Application Service (VMCAS). The VMCAS application may be found online at the VMCAS website (www.avmc.org (http://www.avmc.org)) under VMCAS. Those applying through VMCAS also need to complete the ISU Supplemental Application found at the College of Veterinary Medicine website. The Iowa resident deadline for filing the VMCAS application, supplemental application, processing fee, GRE scores, evaluations and transcripts is September 1. The deadline for all other applicants is October 1.

Any student wishing to use international coursework (including study abroad) to fulfill a pre-veterinary requirement must provide a transcript from the foreign institution.

A list of courses in progress at the time of submission and/or scheduled for completion by the end of spring term should accompany the supplemental application. Undergraduate college credits must average at least 2.50 on a 4.00 marking system for the application to be eligible for review. The preceding scholastic requirements are minimum and do not assure admission even though these requirements have been fulfilled.

Admission to the College of Veterinary Medicine is on a competitive and selective basis. GPA, Graduate Record Exam (GRE) general test score (the GRE for Iowa residents must be received by September 1, for all other applicants, it must be received by October 1), animal and veterinary experience, essays, recommendations and personal development (leadership, citizenship, etc.) are given consideration in the selection of candidates. Final selection of candidates is made after an on-campus interview.

Approximately one-half of the positions available are reserved for residents of Iowa. The College of Veterinary Medicine has implemented a Professional Program in Veterinary Medicine with the University of Nebraska-Lincoln for Nebraska residents and contracts with the states of North Dakota, South Dakota and Connecticut. A number of positions are also available to residents of other states. A few highly qualified international students may be accepted and are considered in the non-resident/non-contract applicant pool. Consideration is given equally to all applicants without regard to race, color, national origin, gender, religion, disability, or age, political beliefs, or marital or familial status.

For further information on these programs and contracts, please visit the College of Veterinary Medicine at www.vetmed.iastate.edu and click on APPLY VET MED.

**Curriculum in Veterinary Medicine**

**Graduation Requirements**

To be awarded the degree doctor of veterinary medicine, candidates must have passed all required courses in the curriculum in veterinary medicine, have earned at least 4 elective credits on a graded basis of A, B, C, D while enrolled in the College of Veterinary Medicine, and have at least a 2.0 grade-point average in the veterinary medicine curriculum.

**Fourth Year**

The fourth year of the veterinary medical curriculum is designed to be flexible yet provide a broad based clinical education involving all domestic species of animals. All students participate in rotations that are considered fundamental to any species orientation that the student might choose. In addition, students choose one of four options for additional study, including the Small Animal, Equine, Mixed Animal, or Food Animal Options. Students may obtain clinical elective credits by repeating on-campus rotations or participating in approved off-campus preceptorships at government, private or public agencies; other universities; or private veterinary practices.

The following rotations are required of all fourth year students in addition to the requirements of the track they choose. A complete listing of track-specific requirements can be found at: http://vetmed.iastate.edu/academics/curriculum:

2 credits of V C S 473 Small Animal Surgery: 2
Reinstatement

Any student who voluntarily withdraws from the College of Veterinary Medicine or who is dismissed from the College of Veterinary Medicine, after having successfully completed one or more semesters forfeits his/her standing and must make written application for reinstatement to the college a minimum of 60 days prior to the opening of the semester for which they seek to re-enter. Any student who voluntarily withdraws from the College of Veterinary Medicine prior to completion of one semester must re-apply for admission to the college in the general applicant pool.

Biomedical Sciences

Professional Program of Study

For professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

A good foundation in anatomy, physiology, and pharmacology of animals is necessary to understand the mechanisms of animal disease processes and their treatment. Study of mammalian anatomy and physiology prepares students with a background in the structural and functional activities of cells, tissues, organs, and body systems relevant to veterinary medicine.

An understanding of drug action is essential for rational drug therapy. The general pharmacology courses provide students with a background in basic pharmacology to include pharmacodynamics, toxicology, and the clinical application of drugs. Special emphasis is placed on chemical agents and therapeutic practices specific to veterinary medicine.

Graduate Programs

The department offers Master of Science and Doctor of Philosophy degrees with a major in Biomedical Sciences and specializations in Anatomy, Physiology, Pharmacology, and Cell Biology. Up to 10 credits of dual-listed veterinary courses may be applied for major graduate credit. Departmental research facilities allow for training in experimental anatomy, pharmacology, and physiology. Graduate studies are supervised by faculty members recognized in their areas of expertise. Current areas of research include: Alzheimer’s disease, aquatic animal health, calcium and mineral homeostasis, diabetes mellitus, glia-neuron signaling, neurophysiology of pain, neurotoxicology, physiology and pharmacology of nematode ion-channels, Parkinson’s disease, pharmacology of schistosomiasis, pharmacology of salmonellosis, physiology and pharmacology of thalamic neurons, physiology of the retina, Spinal Muscular Atrophy, and study of neural stem cells. The objective of the department is to prepare graduate students for successful careers in biomedical research and professional service. The department is part of interdepartmental programs in neuroscience, toxicology, and molecular, cellular, and developmental biology. The combined Ph.D./DVM program is an option offered by the department.

Courses

Courses primarily for professional curriculum students:

(3-0) Cr. 3. S. Prereq: BIOL 212, BIOL 212L
Survey of body systems of domestic animals. Provides a medical science orientation particularly useful to students in a preveterinary medicine curriculum.

(Dual-listed with B M S 530). (3-6) Cr. 5. F. Prereq: First-year classification in veterinary medicine
Anatomy of the dog.

B M S 331. Principles of Morphology II.
(Dual-listed with B M S 531). (2-6) Cr. 4. S. Prereq: First-year classification in veterinary medicine. B M S 330
Comparative and topographic anatomy of horse, ruminants, pig, and chicken.

B M S 333. Biomedical Sciences I.
(Dual-listed with B M S 533). (5-3) Cr. 6. F. Prereq: First-year classification in veterinary medicine
Microscopic anatomy and physiology of cells, tissues, cardiovascular system, respiratory system, and urinary system.

B M S 334. Biomedical Sciences II.
(Dual-listed with B M S 534). (5-3) Cr. 6. S. Prereq: First-year classification in veterinary medicine
Microscopic anatomy of the immune system and integument. Microscopic anatomy and physiology of the digestive system, endocrine system, and reproductive system.

(1-0) Cr. 1. F.
Descriptions of molecular and cellular biology especially as it pertains to veterinary medicine. Discussions of cellular components, cellular functions and anomalies thereof. Emphasis placed on divergences relevant to companion animals and livestock.

(2-0) Cr. 2. F.
Introduce basic biochemical aspects of metabolism and function of energy, protein, fat, minerals and vitamins in the diet. Determine nutrient requirements of food animals, pets, and horses under various physiological states. Understand fate of various nutrients in simple stuffed animals, ruminants, and cecal fermenters. Discuss clinical nutrition problems specific to each species.

(Dual-listed with B M S 537). (2-2) Cr. 3. S. Prereq: First-year classification in veterinary medicine
Neuroanatomy of domestic animals.

(Cross-listed with V C S). (0-2) Cr. 1. F. Prereq: First-year classification in veterinary medicine
Canine physical examination; basic behavior, animal handling and restraint; medical record keeping.

B M S 345. Case Study I.
(0-2) Cr. 1. F. Prereq: First-year classification in veterinary medicine
Clinical applications of basic sciences taught concurrently in the fall semester of the first year curriculum in veterinary medicine.

B M S 346. Case Study II.
(0-1) Cr. 1. S. Prereq: First-year classification in veterinary medicine
Clinical applications of basic sciences taught concurrently in the spring semester of the first year curriculum in veterinary medicine.

B M S 353. Topics in Molecular Veterinary Medicine.
(Dual-listed with B M S 553). (1-0) Cr. 1. S. Prereq: Enrollment in or completion of B M S 354
Receptor and signal transduction anomalies and their diagnosis in veterinary medicine.

(Dual-listed with B M S 554). (Cross-listed with TOX). (3-0) Cr. 3. S. Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

B M S 401. Intro to Aquatic Animal Medicine.
(Cross-listed with A ECL). (1-2) Cr. 1. S.
8 week course. Introductory course with focus on fin fish production, health and medicine. Course content will help define future roles for veterinarians, producers, and service providers. Emphasis will be placed on anatomy, pathology, infectious diseases, nutrition, regulatory constraints in production, food safety, and current research. Field trip to aquaculture facility.

(1-0) Cr. 1. Alt. S., offered 2012. Prereq: Classification in veterinary medicine
Normal and abnormal behavior of domestic animals.

Gross and microscopic anatomy of laboratory animals.
Courses primarily for graduate students, open to qualified undergraduates:

(0-8) Cr. 3. F.S.SS. Prereq: Graduate classification, permission of a BMS faculty member

B M S 515. Anatomy of Laboratory Animals. 

B M S 530. Principles of Morphology I. 
(Dual-listed with B M S 330). (3-6) Cr. 5. F. Prereq: 10 credits in biological science and permission of the instructor

B M S 531. Principles of Morphology II. 
(Dual-listed with B M S 331). (2-6) Cr. 4. S. Prereq: B M S 530

B M S 533. Biomedical Sciences I. 
(Dual-listed with B M S 333). (5-3) Cr. 6. F. Prereq: First-year classification in veterinary medicine or graduate student status

B M S 534. Biomedical Sciences II. 
(Dual-listed with B M S 334). (5-3) Cr. 6. S. Prereq: First-year classification in veterinary medicine or graduate student status

B M S 537. Neuroanatomy. 
(Dual-listed with B M S 337). (2-2) Cr. 3. S. Prereq: 10 credits in biological science and permission of the instructor

(Cross-listed with GDCB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification

B M S 542A. Introduction to Molecular Biology Techniques: DNA. 
(Cross-listed with GDCB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification

B M S 542B. Introduction to Molecular Biology Techniques: Protein. 
(Cross-listed with GDCB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS). Cr. 1. Repeatable. F.S. Prereq: Graduate classification

B M S 490. Independent Study. 
Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of instructor

Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of instructor

B M S 496. International Preceptorship. 
(0-40) Cr. 1-12. Repeatable. S. Prereq: Second-year classification in veterinary medicine

(0-8) Cr. 3. F.S.SS. Prereq: Graduate classification, permission of a BMS faculty member

B M S 515. Anatomy of Laboratory Animals. 
(Dual-listed with B M S 415). (1-2) Cr. 2. Alt. S., offered 2012. Prereq: One year college biology and graduate classification

Gross and microscopic anatomy of domestic, exotic, and pet birds.

Gross and microscopic anatomy of laboratory animals.

Gross and microscopic anatomy of domestic, exotic, and pet birds.

B M S 530. Principles of Morphology I. 
(Dual-listed with B M S 330). (3-6) Cr. 5. F. Prereq: 10 credits in biological science and permission of the instructor

Anatomy of the dog.

B M S 531. Principles of Morphology II. 
(Dual-listed with B M S 331). (2-6) Cr. 4. S. Prereq: B M S 530

Comparative and topographic anatomy of horse, ruminants, pig, and chicken.

B M S 533. Biomedical Sciences I. 
(Dual-listed with B M S 333). (5-3) Cr. 6. F. Prereq: First-year classification in veterinary medicine or graduate student status

Microscopic anatomy and physiology of cells, tissues, cardiovascular system, respiratory system, and urinary system.

B M S 534. Biomedical Sciences II. 
(Dual-listed with B M S 334). (5-3) Cr. 6. S. Prereq: First-year classification in veterinary medicine or graduate student status

Microscopic anatomy of the immune system and integument. Microscopic anatomy and physiology of the digestive system, endocrine system, and reproductive system.

B M S 537. Neuroanatomy. 
(Dual-listed with B M S 337). (2-2) Cr. 3. S. Prereq: 10 credits in biological science and permission of the instructor

Neuroanatomy of domestic animals.

(Cross-listed with GDCB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

B M S 542B. Introduction to Molecular Biology Techniques: Protein. 
(Cross-listed with GDCB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS). Cr. 1. Repeatable. F.S. Prereq: Graduate classification

Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunohistochemistry, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

B M S 542C. Introduction to Molecular Biology Techniques: Cell. 
(Cross-listed with GDCB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S. Prereq: Graduate classification

Includes immunohistochemistry, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

(Cross-listed with GDCB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S. Prereq: Graduate classification

Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transormants. Offered on a satisfactory-fail basis only.

(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

B M S 542F. Techniques in Metabolomics. metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects.

(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

(Cross-listed with GDCB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S. Prereq: Graduate classification

Offered on a satisfactory-fail basis only.

B M S 543. Pharmacology and Therapeutics. 
(Dual-listed with B M S 443). (3-0) Cr. 3. F. Prereq: B M S 554

Pharmacology and therapeutic uses of fluids, antimicrobial and antiparasitic drugs, clinical use of veterinary drugs, and adverse drug reactions.

B M S 553. Topics in Molecular Veterinary Medicine. 
(Dual-listed with B M S 353). (1-0) Cr. 1. S. Prereq: Enrollment in or completion of B M S 554 and graduate classification

Receptor and signal transduction anomalies and their diagnosis in veterinary medicine.

B M S 554. General Pharmacology. 
(Dual-listed with B M S 354). (Cross-listed with TOX). (3-0) Cr. 3. S. Prereq: B M S 549 and B M S 552: BMB 404, BBMB 405

General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

B M S 556. Cellular, Molecular and Developmental Neuroscience. 
(Cross-listed with NEURO, GDCB). (3-0) Cr. 3. F. Prereq: BIOL 335 or BIOL 436; physics recommended

Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.

(Cross-listed with TOX). (3-0) Cr. 3. F. Prereq: 10 credits in biological science and permission of instructor

A multi-instructor course covering major topics in cell structure and function, including: universal features of prokaryotic and eukaryotic cells, types of utilization and conversion of energy, genetic control of cell shape and functionality, internal organization of cells, communication between cells and their environment, development of multicellular systems. Students have to write a term paper.
Clinical science, and minor work for students majoring in other departments. Within the veterinary clinical sciences major, the student may specialize in veterinary medicine, surgery, or theriogenology. The D.V.M. degree or equivalent is prerequisite to a major graduate work.

Both thesis and nonthesis options are available and require the completion of a minimum of 30 graduate credits and a final examination. World languages and cultures requirements may be established by the student’s program of study committee.

Courses

Courses primarily for professional curriculum students:

V C S 305. Shelter Medicine.
Cr. 1. S. Prereq: First-year classification in Veterinary Medicine or with permission of instructor
An elective course designed to educate the veterinary student about issues of relevance to companion animal population and shelter medicine and welfare.

V C S 311. Veterinarian in Society I.
Cr. R. F. Prereq: First-year classification in veterinary medicine
Introduction to the veterinary profession and the various career opportunities available.

V C S 313. Veterinarian in Society III.
(1-1) Cr. 1. F. Prereq: Second-year classification in veterinary medicine
A continuation of the Veterinarian in Society series. This course will emphasize topics on moral and ethical issues affecting the practice of veterinary medicine.

V C S 314. Veterinarian in Society IV.
(1-0) Cr. 1. F. Prereq: Third-year classification in veterinary medicine
A continuation of the Veterinarian in Society series. This course will focus on helping students develop their communication, leadership, team building and conflict resolution skills.

V C S 315. Veterinarian in Society V.
(1-0) Cr. 1. S. Prereq: Third-year classification in veterinary medicine
A continuation of the Veterinarian in Society series. This course will emphasize veterinary law.

V C S 339. Clinical Foundations I.
(Cross-listed with B M S). (0-2) Cr. 1. F.
An elective course designed to educate the veterinary student about issues of relevance to companion animal population and shelter medicine and welfare.

V C S 311. Veterinarian in Society I.
Cr. R. F. Prereq: First-year classification in veterinary medicine
Introduction to the veterinary profession and the various career opportunities available.

V C S 390. Special Topics.
Cr. 1-7. Repeatable. F.S.SS. Prereq: Permission of instructor

B M S 590A. Anatomy.
Cr. 1-7. Repeatable. F.S.SS. Prereq: Permission of instructor

B M S 590B. Physiology.
Cr. 1-7. Repeatable. F.S.SS. Prereq: Permission of instructor

B M S 590C. Pharmacology.
Cr. 1-7. Repeatable. F.S.SS. Prereq: Permission of instructor

B M S 599. Creative Component.
Cr. 1-3. F.S.SS. Prereq: Enrollment in BMS graduate program, and permission of instructor
Creative component for non-thesis Master of Science degree.

Courses for graduate students:

B M S 688. Research Review.
Cr. 1. Repeatable. F.S. Prereq: Enrollment in BMS graduate program.
A forum for B M S students to gain experience in the critical exchange of ideas through oral presentation and discussion of scientific information.

B M S 690. Advanced Topics.
Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of instructor

B M S 690A. Anatomy.
Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of instructor

B M S 690B. Physiology.
Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of instructor

B M S 690C. Pharmacology.
Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of instructor

B M S 690D. Cell biology.
Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of instructor

B M S 698. Seminar.
Cr. arr. Repeatable. F.S.SS. Prereq: Enrollment in BMS graduate program.

B M S 698A. Seminar: Attendance.
Cr. R. Repeatable. F.S. Prereq: Enrollment in BMS graduate program.

B M S 698B. Seminar: Attendance and Presentation.
(1-0) Cr. 1. Repeatable. F.S.SS. Prereq: Enrollment in B M S graduate program.
Attendance and presentation required. Offered on a satisfactory-fail basis only.

Cr. arr. Repeatable. F.S.SS. Prereq: Enrollment in BMS graduate program.

Cr. arr. Repeatable. F.S.SS. Prereq: Enrollment in BMS graduate program.

B M S 699B. Research: Physiology.
Cr. arr. Repeatable. F.S.SS. Prereq: Enrollment in BMS graduate program.

Cr. arr. Repeatable. F.S.SS. Prereq: Enrollment in BMS graduate program.

Cr. arr. Repeatable. F.S.SS. Prereq: Enrollment in BMS graduate program.

Veterinary Clinical Sciences

Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The curriculum of veterinary clinical sciences explores the preventive health care, and diagnosis and treatment of diseases of companion and competitive athletic animals. Veterinary specialists lead didactic and laboratory based learning in the clinical sciences. Experiential based courses conducted through the Veterinary Medical Center during the fourth year provide the student an opportunity to participate in the application of clinical skills and knowledge.

Graduate Study

The department offers work for the degree master of science with major in veterinary clinical science, and minor work for students majoring in other departments. Within
(1-0) Cr. 1. S. Prereq: Third year classification in veterinary medicine
Principles and techniques of medical and surgical ophthalmology.

V C S 402. Clinical Cardiology.
(1-0) Cr. 1. F. Prereq: Third or fourth-year classification in veterinary medicine; V C S 444 or concurrent enrollment in V C S 444
Elective course in diagnosis and management of cardiac diseases. Emphasis on interpretation of electrocardiography.

(1-3) Cr. 2. S. Prereq: third classification in veterinary medicine
Elective course in management and diseases of pet birds and exotic species.

V C S 407. Feline Internal Medicine.
(1-0) Cr. 1. F. Prereq: Third-year classification in veterinary medicine
Elective course in feline internal medicine.

V C S 409. Oncology.
Cr. 2-4. Repeatable, maximum of 4 credits. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in oncology.

(1-0) Cr. 1. S. Prereq: Third or fourth-year classification in veterinary medicine
Elective course in small animal and equine nutrition.

V C S 415. Advanced Small Animal Dermatology.
(1-2) Cr. 2. F. Prereq: Third or fourth-year classification in veterinary medicine
Elective course in dermatology.

V C S 419. Preceptorship in Companion Animal/Equine Veterinary Medical Practice.
Cr. 2-6. Repeatable, maximum of 6 credits. Prereq: Fourth-year classification in veterinary medicine, permission of department curriculum coordinator
Elective course in veterinary practice under the guidance of veterinarians in approved practice settings. Maximum of 6 credits in 2 credit increments.

V C S 422. Rotation at Blank Park Zoo.
Cr. 4. F.S.S. Prereq: Fourth-year classification in veterinary medicine and completion of V C S 405. Enrollment by permission of instructor.
Clinical experience in husbandry, nutrition and training of exotic animals in a zoo environment. Students will get instruction and learn the application of the clinical skills required when dealing with exotic animals, including the hands-off visual examination obtaining historical and clinical information from zookeepers, and the use of immobilization drugs for patient exams. Students will learn the common medical disorders of exotic species and treatment techniques.

V C S 436. Small Animal Internal Medicine.
(3-0) Cr. 3. F. Prereq: Third year classification in veterinary medicine
Clinical diagnosis and treatment of diseases of small animals.

(2-0) Cr. 2. Repeatable. Prereq: Fourth-year classification in Veterinary Medicine A 2-week elective rotation at an animal shelter/humane society that works with the public to place pets in homes. This rotation will encompass population medicine (medicine, surgery, intake, adoption, behavior and temperament, neglect and cruelty) that animal shelters deal with on a daily basis. The selected animal shelter/humane society must have a veterinarian(s) on staff and be approved by the course coordinator. More than one VCS 437 may be taken upon approval of the course coordinator.

V C S 440. Introduction to Clinics.
Cr. R. S. Prereq: Third year classification in veterinary medicine
Rotating assignments through multiple sections within the Veterinary Medical Center.

V C S 441. Canine Rehabilitation.
Cr. 2. Prereq: Fourth-year classification in veterinary medicine.
Elective clinical assignment in rehabilitation.

V C S 443. Equine Lameness.
(1-2) Cr. 2. S. Prereq: Second or third-year classification in veterinary medicine
Orthopedic diseases of the equine.

(4-0) Cr. 4. F.S. Prereq: Third-year classification in veterinary medicine
Clinical diagnosis and treatment of diseases of small animals.

(2-0) Cr. 2. F. Prereq: Third-year classification in veterinary medicine
Clinical diagnosis and treatment of diseases of equine.

V C S 446. Clinical Neurology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical rotation in neurology with an emphasis on neurolocalization, disease processes, use of diagnostics in medical and surgical neurology and treatment options. Exposure to neurosurgical techniques.

V C S 447. Equine Veterinary Diagnostic Skills.
(3-0) Cr. 2. S. Prereq: Third-year classification in veterinary medicine - preference to equine track student. Limited to 16 students.
Hands on experience with equine veterinary diagnostic skills related to theriogenology, medicine, surgery, radiology, and ophthalmology.

V C S 448. Diagnostic Imaging and Radiobiology.
(2-2) Cr. 3. F.S. Prereq: Third-year classification in veterinary medicine

V C S 449. Junior Surgery Laboratory.
(1-6) Cr. 3. F. Prereq: Third-year classification in veterinary medicine
Pre-laboratory presentations and laboratories introduce the student to anesthetic and surgical principles and techniques that can be applied to all animal species.

(1-6) Cr. 3. F. Prereq: Third-year classification in veterinary medicine
This laboratory introduces the student to anesthetic and surgical principles - and techniques that can be applied to all animal species. Consists of only neutering humane society animals throughout the laboratory.

(1-6) Cr. 3. F. Prereq: Third-year classification in veterinary medicine
This laboratory introduces the student to anesthetic and surgical principles and techniques that can be applied to all animal species. Provides a broader range of surgical experiences throughout the laboratory.

V C S 451. Advanced Junior Surgery Laboratory.
(1-6) Cr. 2. S. Prereq: V C S 449
8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species.

V C S 451A. Advanced Junior Surgery Laboratory: Alternative Curriculum.
(1-6) Cr. 2. S. Prereq: V C S 449
8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species. Consists of only neutering humane society animals throughout the laboratory.

V C S 451B. Advanced Junior Surgery Laboratory: Traditional Curriculum.
(1-6) Cr. 2. S. Prereq: V C S 449
8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species. Expose to more advanced surgical techniques with most surgical principles.

V C S 451C. Advanced Junior Surgery Laboratory: Traditional Curriculum.
(1-6) Cr. 2. S. Prereq: V C S 449
8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species. A second repeat for students with a special interest in small animal surgery.

V C S 452. Clinical Dermatology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine. Must have instructor permission to repeat this course.
Study of clinical dermatological problems via computer-aided instruction, case simulations, and/or lectures. Clinical management of cases presented to Veterinary Medical Center.

V C S 453. Small Animal Medicine I.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in small animal medicine.

V C S 454. Small Animal Medicine II.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in small animal medicine.

Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in soft tissue surgery.

Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in orthopedic surgery.

Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in equine medicine.
V C S 458. Equine Surgery.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in equine surgery.

Cr. 2. Prereq: Fourth-year classification in Veterinary Medicine
A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

V C S 459A. Small Animal Overpopulation Medicine and Surgery : Nebraska Humane Society, Omaha NE.
Cr. 2. Prereq: Fourth-year classification in Veterinary Medicine
A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

V C S 459B. Small Animal Overpopulation Medicine and Surgery: Animal Rescue League of Iowa, Des Moines IA.
Cr. 2. Prereq: Fourth year classification in Veterinary Medicine
A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

Cr. 2. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in veterinary radiology.

V C S 461. Advanced Small Animal Internal Medicine.
Cr. 1. S. Prereq: V C S 444 and V C S 436
A discussion of advanced topics in small animal internal medicine.

V C S 463. Primary Care.
Cr. 2. Repeatable, maximum of 4 credits. Prereq: Fourth-year classification in veterinary medicine
Clinical experience in hospital based general practice.

V C S 464. Equine Field Services.
Cr. 2. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in equine ambulatory practice.

V C S 465. Farrier.
Cr. 2. Prereq: Fourth-year classification in veterinary medicine; V C S 457 and V C S 458
Elective clinical assignment on the principles and practices of normal and therapeutic horseshoeing and equine foot care.

V C S 466. Anesthesiology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in small animal and large animal anesthesiology.

Cr. 1-2. Repeatable, maximum of 2 credits. Prereq: Fourth year classification in veterinary medicine
Elective clinical assignment with emphasis on pain management.

Cr. 4. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment to provide supervision of hospital cases requiring intensive care and including emergency cases.

V C S 469. Ophthalmology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in ophthalmology.

Cr. 2. Repeatable, maximum of 4 credits. Prereq: Fourth-year classification in veterinary medicine
Completion of V C S 460 is recommended.
Elective clinical assignment in veterinary radiology.

Cr. 2. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in animal reproduction. Equine, Small Animal, Comparative, and Food Animal reproduction only.

V C S 471C. Animal Reproduction: Comparative.
Cr. 2. SS. Prereq: Fourth-year classification in veterinary medicine.
Elective comparative clinical assignment in animal reproduction.

V C S 471E. Equine Reproduction.
Cr. 2. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in animal reproduction. Equine and small animal reproduction only.

V C S 471F. Food Animal Reproduction.
Cr. 2. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in animal reproduction. Equine and small animal reproduction only.

Cr. 1. Prereq: fourth-year classification in veterinary medicine
Clinical assignment in small animal surgery split between soft tissue surgery (one week) and orthopedic surgery (one week).

Cr. 1. Prereq: fourth-year classification in veterinary medicine
Clinical assignment in small animal surgery split between soft tissue surgery (one week) and orthopedic surgery (one week).

Cr. 1. Prereq: fourth-year classification in veterinary medicine
Clinical assignment in small animal surgery split between soft tissue surgery (one week) and orthopedic surgery (one week).

V C S 474S. Surgery.
Cr. arr. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in equine medicine or surgery.

V C S 475. Cardiology Rotation.
Cr. 1-2. Repeatable, maximum of 2 credits. Prereq: Fourth year classification in veterinary medicine
Elective clinical assignment in cardiology.

V C S 476. Veterinary Anesthesiology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Assignments in equine, small animal, and large animal anesthesiology. Experience includes case work-up, management and recovery. Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

V C S 476E. Equine Anesthesiology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Assignments in equine, small animal, and large animal anesthesiology. Experience includes case work-up, management and recovery. Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

V C S 476S. Small Animal Anesthesiology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Assignments in equine, small animal, and large animal anesthesiology. Experience includes case work-up, management and recovery. Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

V C S 480. Veterinary Dentistry.
Cr. 1. F. Prereq: Third or Fourth-year classification in veterinary medicine
All aspects of veterinary dentistry, prophylaxis, endodontics, and orthodontics. This course is an on-line course.

V C S 481. Advanced Equine Dentistry.
Cr. 2. S. Prereq: Fourth year classification in veterinary medicine
Clinical rotation in equine dentistry with an emphasis on routine equine dental examinations, specialized equipment, and corrective procedures. Offered only offered for one 2-week rotation. Enrollment is limited.

V C S 490. Independent Study.
Cr. arr. Repeatable. Prereq: Permission of instructor and the VCS Associate Chair for Academic Affairs
Independent Study in veterinary medicine.
Courses primarily for graduate students, open to qualified undergraduates:

V C S 590. Special Topics.
Cr. 1-3. Repeatable.
V C S 590A. Special Topics: Medicine.
Cr. 1-3. Repeatable.
V C S 590B. Special Topics: Surgery.
Cr. 1-3. Repeatable.
V C S 590C. Special Topics: Theriogenology.
Cr. 1-3. Repeatable.
V C S 590D. Special Topics: Radiology.
Cr. 1-3. Repeatable.
V C S 590E. Special Topics: Anesthesiology.
Cr. 1-3. Repeatable.
V C S 590F. Special Topics - Ophthalmology.
Cr. 1-3. Repeatable, maximum of 3 credits. F.S.
Special topics in Ophthalmology.
V C S 596. International Preceptorship.
(0-40) Cr. 1-12. Repeatable. F.S.SS. Prereq: Admission to graduate college
International Preceptorships and Study Abroad Group programs. Provides
opportunities for students to be involved in applied clinical, production, and/or
research experiences in international locations. The course consists of 40 hour per
week experiential learning opportunities. Offered on a satisfactory-fail basis only.

V C S 599. Creative Component.
Cr. arr. Prereq: Enrollment in nonthesis master’s degree program

Courses for graduate students:

V C S 604. Seminar.
Cr. 1. Repeatable. F.S.
(2-0) Cr. 2. Prereq: V C S 448
Detailed principles of clinical radiology with particular reference to radiographic
interpretation.
(1-3) Cr. 2. Prereq: Permission of instructor
Course designed to discuss and perform advanced surgical procedures in soft tissue,
orthopedic and neurological surgery. Minimally invasive surgical procedures and
organ transplantation will be included.
V C S 672. Advanced Special Surgery.
(1-3) Cr. 2. Prereq: Permission of instructor
Innovative techniques in microvascular, thoracic, gastrointestinal, neurological and
reconstructive surgery will be investigated.
V C S 676. Advanced Medicine.
(2-0) Cr. 2. Prereq: V C S 445
Principles of general medicine. A study in depth of factors that contribute to the
development of clinical signs as related to the pathogenesis of disease.
V C S 677. Advanced Medicine.
(2-0) Cr. 2. Prereq: V C S 445
An advanced study of metabolic diseases.

V C S 698. Research.
Cr. arr. Repeatable.
V C S 699A. Research: Medicine.
Cr. arr. Repeatable.
Cr. arr. Repeatable.
V C S 699C. Research: Theriogenology.
Cr. arr. Repeatable.
V C S 699E. Research: Anesthesiology.
Cr. arr. Repeatable.
Graduate Level Research.

Veterinary Diagnostic and Production Animal Medicine

Professional Program of Study

For the professional curriculum in veterinary medicine leading to the
degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum
(https://nextcatalog.registrar.iastate.edu/collageofveterinarymedicine/
#curriculumin veterinarymedicine).

Courses in veterinary diagnostic and production animal medicine provide students
with basic and advanced skills in diagnostics, reproduction, medicine, surgery,
production, welfare, and health management of the major livestock species. Students
in the fourth year of the curriculum in veterinary medicine may elect to take advanced
courses in beef, dairy, swine, poultry or small ruminant production medicine. Elective
courses may include preceptorships in private practices, at other veterinary schools,
and research and disease control laboratories, or in related agribusinesses.

Production animal medicine emphasizes the integration of veterinary medicine with
nutrition, genetics, economics, food safety, and other disciplines, enabling graduates
to acquire and use a broad knowledge base to support the health and improve the
production and efficiency of the food supply chain.

Graduate Study in Veterinary Preventive Medicine

Veterinary Preventive Medicine is a multidisciplinary program focused on the
study of health and disease in populations. The various disciplines represented
in the program are unified by a common approach based on the application of
epidemiological methods to problem solving in populations. Through their research
and course work, students will learn to understand and apply a variety of disciplines,
principles, and techniques to population health issues involving environmental,
ecological, nutritional, genetic, infectious, or non-infectious diseases.

Graduate study in Veterinary Preventive Medicine will provide valuable skills and
experience to persons interested in public health, food safety, emerging infectious
diseases, zoo or wildlife health, and livestock health. A degree in Veterinary
Preventive Medicine may be valuable for individuals considering a future in the
biological or pharmaceutical industries, government regulatory agencies, public
veterinary practice, international service agencies responsible for population health
or progressive private practice.

Veterinary Preventive Medicine is an interdepartmental major administered by the
Department of Veterinary Diagnostic and Production Animal Medicine (VDPAM)
with participating faculty from colleges and departments across the University and
 collaborators from the National Animal Disease Center (USDA:ARS) and the National
Veterinary Services Laboratories (USDA/APHIS) located in Ames, Iowa.

Both thesis and non-thesis options are available and require the completion of a
minimum of 30 graduate credits for thesis and 36 graduate credits for non-thesis and
a final examination.

Program of Study: Master of Science in Veterinary Preventive Medicine (Thesis Option) 30 credits

VDPAM 522 Principles of Epidemiology and Population Health 3
STAT 401 Statistical Methods for Research Workers 4
VDPAM 527 Applied Statistical Methods in Population Studies 3
VDPAM 529 Epidemiological Methods in Population Research 3
**Preventive Medicine (15 credits)**

**Program of Study: Graduate Certificate in Veterinary Preventive Medicine**

The program is available as a strictly on-line (off campus) delivery method or as a graduate students do with the same expectations for all assignments and exams.

A graduate certificate at ISU using a combination of on-line and transfer graduate level courses, the program is designed to enable DVM students to complete the certificate while studying for their veterinary students. The certificate enables professionals to gain recognition for a skill set that includes epidemiology, risk assessment, production medicine and animal welfare. A graduate certificate may be used to increase knowledge in a new or emerging area of interest to the candidate. As such, it may be used to formally gain recognition for retraining to meet the needs of today's food production systems.

A graduate certificate in Veterinary Preventive Medicine offers a graduate certificate for DVMs, concurrent DVM students and non-DVMs in allied animal industries in Veterinary Preventive Medicine.

Students in this program are able to select courses that focus in areas of animal welfare, diagnostics, food safety, evidence-based medicine, surgery, pathology, microbiology, epidemiology, public health, statistics and production medicine.

The purpose of the graduate certificate in Veterinary Preventive Medicine for industry professionals is to address the continued and advanced needs of animal health professionals. The certificate enables professionals to gain recognition for a skill set that includes epidemiology, risk assessment, production medicine and animal welfare. A graduate certificate may be used to increase knowledge in a new or emerging area of interest to the candidate. As such, it may be used to formally gain recognition for retraining to meet the needs of today's food production systems.

The graduate certificate for concurrent DVM students is designed to give additional skills to students planning on working with populations of animals. Using a combination of on-line and dual listed graduate level courses, the program is designed to enable DVM students to complete the certificate while studying for their DVM degree. Students enrolled in any US-based DVM program are able to complete a graduate certificate at ISU using a combination of on-line and transfer graduate level courses.

The graduate certificate is an additional qualification awarded by Iowa State University after successful completion of 15 graduate level credits. A graduate certificate is different from continuing education as the certificate includes an academic transcript from Iowa State University. Students complete the same courses graduate students do with the same expectations for all assignments and exams.

The program is available as a strictly on-line (off campus) delivery method or as a combination of classroom-based and on-line course offerings providing maximum flexibility in scheduling.

† Arranged with instructor.

**Courses**

Courses primarily for professional curriculum students:

VDPAM 308. Spanish for Veterinarians.
(2-0) Cr. 2. S. Prereq: Basic knowledge of Spanish
This course is designed to meet the needs of veterinary students who will practice in an environment in which the use of Spanish for accurate client communication is essential which includes much of our food animal industry in the state of Iowa. This is not a traditional Spanish language course. To be successful, students taking the course should have a basic knowledge of Spanish pronunciation, grammar and syntax.

VDPAM 309. Introduction to Production Animal Informatics.
(1-0) Cr. 1. S.
The fundamentals of how clinical, diagnostic, production and financial information is obtained and used by production animal operations will be presented. Students will acquire skills to create and use spreadsheets for manipulating and summarizing data. They will also acquire knowledge of where to find inexpensive and readily available resources with information on how to use spreadsheets and other software. Students will also have the opportunity to work with different record keeping programs used by swine, beef and dairy operations.

VDPAM 310. Introduction to Production Medicine.
Cr. 2. S. Prereq: Classification as second or third year veterinary student or permission of instructor.
The role of the veterinarian in the management of animal health and production in dairy and beef cattle herds, beef feedlots and swine herds will be described. Provides veterinary students with a starting point to understand the principles and techniques that are the basis of food-animal health management programs.

VDPAM 312. Introduction to Animal Welfare.
(1-0) Cr. 1. S. Prereq: Classification as a first year veterinary student

(0-30) Cr. 1. F.S. Prereq: Classification in veterinary medicine
One week course at Iowa State University. An introduction to Food Supply Veterinary Medicine covering overviews of major animal agriculture species (beef, dairy, pork, sheep and camelid), production systems, behavior, welfare, handling and restraint, examination techniques, biosecurity, epidemiology and food safety. Visits to production units are utilized to introduce the application of clinical skills. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.
VDPAM 351. Bovine Embryo Transfer and Related Technology. (2-0) Cr. 2. S. Prereq: Classification as a second or third year veterinary student. This course will meet for two hours once each week of the Spring Semester. The first hour will be traditional lecture and the second hour will be a combination of student projects, labs and demonstrations of applied clinical procedures. Bovine embryo transfer and closely related topics such as: female reproductive physiology, estrus synchronization, semen sexing and reproductive disease will be emphasized. In addition, several class periods will be devoted to the use of ultrasound for diagnosis of reproductive and non-reproductive conditions.

VDPAM 402. Advanced Dairy Production Informatics. (1-1) Cr. 2. Repeatable. F.S. Prereq: VDPAM 309 or permission of Instructor. Advanced coverage of concepts related to collection, manipulation, analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCDart as well as other dairy management and information software. Nonmajor graduate credit.

VDPAM 407. Evidence Based Clinical Decision Making. (Dual-listed with VDPAM 507). (1-0) Cr. 1. S. Prereq: Permission of instructor. Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations.

VDPAM 408. Poultry Diseases. (Dual-listed with VDPAM 508). Cr. 2. Alt. S., offered 2014. Prereq: Enrollment in College of Veterinary Medicine or permission of instructor. Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and gamebirds; biosecurity, immunization, and management procedures to prevent poultry diseases.

VDPAM 409. Veterinary Practice Management and Organization. (2-0) Cr. 2. F.S. An A to Z introduction to proven veterinary practice management methods and strategies. The student will follow a detailed hands-on workbook describing most of the processes and procedures of day to day veterinary practice. The class content will be composed of class room discussions, didactic presentations, a practical workbook, ancillary handouts, and both in and out of class assignments.

VDPAM 414. Veterinary Practice Entrepreneurship. (Dual-listed with VDPAM 514). Cr. 2. S. Formal exposure to the entrepreneurial and business skills necessary to own and operate a successful veterinary practice or other small business opportunity.

VDPAM 416. Bovine Reproduction Evaluation Laboratory. (0-4) Cr. 1. F.S. Prereq: Classification as a third year student in veterinary medicine. 10 students per section. Bovine rectal palpation techniques will be repetitively taught in 7 four-hour sessions. Students will also learn techniques of epidural anesthesia, artificial insemination, and ultrasonic imaging. University-owned cattle will be used. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred. No Wednesday section in Spring semester.

VDPAM 419. Advanced Swine Production Informatics. (1-0) Cr. 1. F.S. Prereq: VDPAM 309 or permission of instructor. Advanced coverage of concepts related to collection, manipulation, analysis and reporting of information used by swine production companies. Production, financial, diagnostic and clinical data will be covered in the course. Hands-on experience with computer software and information systems used in swine production will be provided. Students will learn to objectively evaluate the validity of information that is presented to them and also be able to make practical and useful recommendations regarding the types of information tools that can/should be used. The students will learn what software and information systems are available and be able to critically evaluate them. Nonmajor graduate credit.

VDPAM 420. Applied Production Animal Medicine Preceptorship. (0-30) Cr. 1-6. Repeatable. F.S.S. Prereq: Classification as a fourth year student in veterinary medicine. Advanced course in production animal medicine with emphasis on government, industry or veterinary school settings. Forty hours clinical experience per week. Assignments will be preceptorships with a practicing veterinarian, governmental agency and/or production unit. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 421. Great Plains Veterinary Educational Center. Cr. 1. F.S.S.S. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site. GPVEC, located in Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required.

VDPAM 421A. Calving at Great Plains Veterinary Educational Center. Cr. 1. F.S.S.S. Prereq: Fourth year classification in veterinary medicine; ability to provide own transportation to each site. GPVEC, located in Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required. The Calving Elective provides an opportunity to expand knowledge and experience in all phases of calving management. The program is structured around normal calving operations at U.S. MARC. The GPVEC and U.S. MARC veterinary staff will make an effort to include students in veterinary activities that take place during the Calving Elective. The opportunity exists for assistance in diagnosis, treatment, and management of many commonly encountered situations in the dam and calf. Students are encouraged to make every effort to become involved in U.S. MARC calving activities. Direct involvement includes routine husbandry activities beyond those involving traditional veterinary roles which are expected of the student.

VDPAM 421B. Bull Breeding Soundness at Great Plains Veterinary Educational Center. (0-40) Cr. 1. S. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site. The Bull Breeding Soundness Examination Elective involves training in all phases of the examination, collection, and semen evaluation for up to 200 herd bulls and/or sale bulls as recommended by the Society for Theriogenology. Culture for trichomoniasis and discussion of bull management and breeding season considerations.

VDPAM 421C. Clinical Calving at Great Plains Veterinary Educational Center. (0-40) Cr. 1. S. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required. This clinical rotation involves participation in veterinary field services at the U.S. MARC during calving season. Activities include examination, diagnosis, treatment, and intensive care of individual animals as well as occasional herd problems. Additional activities include clinical and/or microbiological diagnostic techniques, clinical pharmacology, record keeping, and health surveillance. Students will accompany the "on duty" veterinarian on all cases, including emergency, after-hours calls. The majority of clinical activities during calving season are related to peri-parturient, perinatal and neonatal problems. Students will assist in handling difficult calf deliveries and cesarean sections and will be involved with the necropsy examination of all animals lost during the previous 24 hours.

VDPAM 421D. Feedlot Management at Great Plains Veterinary Educational Center. (0-40) Cr. 1. S. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site. GPVEC, in Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required. Evaluation of production techniques and production efficiency including ration and feeding management, health management program development and evaluation, environmental management, quality assurance, feedlot necropsy and microbiology techniques, and break even analysis. Approaches to solve seasonal health problems within the management objectives for different feed yards are the strong emphasis of this elective. Students may have the opportunity to follow cattle to a packing plant to learn the methods for tracking animals into the food chain, identifying production problems that are not diagnosable at the feedlot level, and monitoring beef quality assurance. Biosecurity activities will be emphasized and practiced.
VDPAM 421E. Weaning Management at Great Plains Veterinary Educational Center.
(0-40) Cr. 1. F. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site.
GPVEC, located in Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required. This is a hands-on elective in which students participate in the weaning management at the U.S. Meat Animal Research Center. Students will be involved with processing, feeding, finding, and treating sick calves. Additionally, students will be introduced to developing weaning rationa and managing feed delivery. Students will also learn how to develop vaccination and treatment protocols and each student will have as an objective the development of their own vaccination and treatment protocol template. As time allows, students will visit commercial feed yards and cover production management topics.

VDPAM 421F. Pregnancy Examination at Great Plains Veterinary Educational Center.
(0-40) Cr. 1. F. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site.
GPVEC, located in Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required. This Pregnancy Examination Elective involves students in the GPVEC faculty, and U.S.MARC personnel during pregnancy examination. Activities involve rectal examinations for pregnancy, collecting data and entry into the CowHerd/CowCalf computer software program to evaluate the reproductive performance of the herd. This elective is designed for students who have some palpation experience and are interested in honing their skills. Some ultrasound technology will be utilized. Pregnancy Examination occurs during yearly fall herd work at the U.S. MARC, therefore, speed and accuracy will be stressed, rather than basic technique. Introduction into rectal examination for reproductive use is stressed during the Bovine Reproduction Elective.

VDPAM 421G. Bovine Reproduction at Great Plains Veterinary Educational Center.
Cr. 1. F. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site.
GPVEC, located in Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required. This elective involves some of the clinical techniques utilized in beef cattle reproductive management. The majority of time will be spent in the examination of cows for pregnancy and the collection of ovarian data from non-pregnant cows. Additional opportunities will involve hands on activities such as data collection and analysis, breeding herd nutrition, artificial insemination, and the use of ultrasound technology.

VDPAM 421J. Lambing at Great Plains Veterinary Educational Center.
(0-40) Cr. 1. S. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site.
GPVEC, located in Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required. The Lambing Elective involves students with the U.S. MARC lambing crew and GPVEC faculty in observations, assistance with delivery when necessary, and routine lambing duties. Students will work with veterinary personnel in sheep necropsy and health surveillance. Activities and objectives closely parallel to those listed in the Calving Elective. Self study material will be provided covering topics such as pre-breeding and breeding, pregnancy diagnosis, pregnant ewe management, pre-lambing ewe/lambing management, feeder lamb health and nutrition management, and replacement ewe and ram management.

VDPAM 421K. Equine Dentistry at Great Plains Veterinary Educational Center.
(20-20) Cr. 1. S. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site.
GPVEC, located in Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required. The Equine Dentistry Elective provides the opportunity for students to expand their knowledge and experience related to equine dentistry. The rotation consists of lectures on topics relevant to equine dental care and hands-on laboratories during which students practice routine dental care procedures on U.S.MARC horses. Equine Dentistry will involve both lecture and lab time at about equal shares.

VDPAM 421L. Preconditioning at Great Plains Veterinary Educational Center.
(0-40) Cr. 1. F.S.S. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site.
GPVEC, located in Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required. The Preconditioning Elective provides the opportunity for students to expand their knowledge and experience in the development and implementation of calf preweaning programs. Students will assist GPVEC and U.S.MARC personnel during routine processing of U.S.MARC spring-born calves prior to weaning. GPVEC faculty will also lead discussions related to vaccine and dewormer protocols, preweaning nutrition, and other topics related to preparing beef calves for weaning.

VDPAM 421M. Gomer Bull Surgery at Great Plains Veterinary Educational Center.
(0-40) Cr. 1. F. Prereq: Classification as a fourth year student in veterinary medicine; ability to provide own transportation to each site.
GPVEC, located in Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required. This Gomer Bull Surgery Elective is designed to give students interested in food animal surgery an opportunity to practice their surgical skills by performing gomer bull surgery and epididymectomies on USMARC teaser bull candidates. Lectures specific to gomer bull surgery as well as other topics related to food animal surgery will be presented during this elective.

VDPAM 422. Southern Plains States Beef Cattle Production Medicine.
Cr. 2. F.S.S.S. Prereq: VDPAM 310; ability to provide own transportation to each site.
VDPAM 422A. Southern Plains States Beef Cattle Production Medicine.
Cr. 2. F.S.S.S. Prereq: VDPAM 310; ability to provide own transportation to each site.
This elective is for students interested in getting “hands on” cattle working experience. The elective is based out of Oklahoma, but students will be working cattle at multiple locations in Oklahoma, Texas, Kansas, and Missouri (season/time of year dependent). Every attempt will be made to schedule calf/stocker/feedyard cattle processing as well as heifer/cow pregnancy examinations with and without ultrasound where season/weather and client compliance allow. The fundamentals of cattle working – BQA, proper product administration, chute operation, and cattle handling techniques will be reviewed, however, the majority of the elective will be conducted at client operations with work to get completed. Students need to provide their own transportation to the site and overnight stays at or near the production sites required. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 422C. Beef Feedlot-Southern Plains States Beef Cattle Production Medicine.
Cr. 2. F.S.S.S. Prereq: VDPAM 310; ability to provide own transportation to each site.
This elective is for students interested in getting “hands on” cattle working experience at a commercial feedyard in Oklahoma. This experience will consist of working with and assisting the feedyard crew in their daily activities including: detecting and treating sick cattle, processing newly arrived cattle, hospital pen management, performing necropsies, and overall cattle care in general. Other learning opportunities such as feeding (bunk management), feed mill operations, feedyard maintenance, pasture management, and feedyard management may be available if interested and timing of elective coincides with activities. Students need to provide their own transportation to the site and overnight stays at or near the production sites are required. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 422D. Cattle Client Consulting-Southern Plains States Beef Cattle Production Medicine.
Cr. 2. F.S.S.S. Prereq: VDPAM 310; ability to provide own transportation to each site.
This elective is for students interested in getting “hands on” cattle working experience at a commercial feedyard in Oklahoma. This experience will consist of working with and assisting the feedyard crew in their daily activities including: detecting and treating sick cattle, processing newly arrived cattle, hospital pen management, performing necropsies, and overall cattle care in general. Other learning opportunities such as feeding (bunk management), feed mill operations, feedyard maintenance, pasture management, and feedyard management may be available if interested and timing of elective coincides with activities. Students need to provide their own transportation to the site and overnight stays at or near the production sites are required. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.
VDPAM 422E. Beef Cattle Calving-Southern Plains States Beef Cattle Production Medicine.
Cr. 2. F.S. Prereq: VDPAM 310; ability to provide own transportation to each site. 
This elective provides students an opportunity to assist a cow-calf operation in northwest Missouri with calving. This operation typically calves between 400 and 600 head each spring. Calving experience is not required, but a good understanding of working around cattle is necessary. Students will be actively participating in the day to day, normal calving operation routine – including detecting and sorting off “springers”, calf “watch”, detecting when intervention is needed and assisting delivery, caring for and monitoring newborns and dams for good health and early disease detection, tagging/processing new calves, treating calves needing intervention and performing other routine calving event chores. Students need to provide their own transportation to the site and overnight stays at or near the production sites are required. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 422F. Stocker Experience-Southern Plains States Beef Cattle Production Medicine.
Cr. 2. F. Prereq: VDPAM 310; ability to provide own transportation to each site. 
This elective is for students interested in getting “hands on”, working experience at a stocker operation in Oklahoma. This experience will consist of working with and assisting the stocker client in their daily activities including: detecting and treating sick cattle, processing newly arrived cattle, performing necropsies, and overall cattle care in general. Other learning opportunities such as feeding (bunk management), and pasture and grazing management may be available if interested and timing of elective coincides with activities. Students need to provide their own transportation to the site and overnight stays at or near the production sites are required. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 426. Veterinary Toxicology.
(Dual-listed with VDPAM 528). (3-0) Cr. 3. S. Prereq: Classification as a third year student in veterinary medicine.
Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

(0-30) Cr. 1-2. Repeatable. F.S. Prereq: Classification in Veterinary Medicine, VM1-VM3 or special permission of instructor.
The class will have both a lecture and lab component and students can enroll in one or both. Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability. Each semester’s content builds on the material from the previous semester. Enrolling in the class for multiple semesters will be encouraged.

(7-33) Cr. 2. F.S.SS. Prereq: Fourth-year classification in veterinary medicine. Seven hours recitation/discussion and 33 hours clinical experience per week. Course taken for two weeks at University of Wisconsin, Madison, on a space-available basis. Learn to interpret DHI records and use them to identify and monitor herd problems of production, mastitis, reproduction, and replacement heifer management. Evaluate rates and treatment protocols of common dairy herd diseases. Assess dairy housing including ventilation and freestalls. Estimate costs of herd problems and develop partial-budgets.

(9-31) Cr. 2. F.S.SS. Prereq: Fourth-year classification in veterinary medicine. Nine hours recitation/discussion and 31 hours clinical experience per week. Course taken for two weeks at University of Wisconsin, Madison, on a space-available basis. Learn to evaluate rates of clinical mastitis using manual and computerized (DC305) record systems. Interpret somatic cell count records to target mastitis problems. Collect samples and interpret milk microbiology reports. Evaluate mastitis risks in housing systems (stalls, bedded packs, etc). Analyze milking systems and milker practices. Develop mastitis treatment protocols.

(3-37) Cr. 2. F.S.SS. Prereq: Fourth-year classification in veterinary medicine. Three hours lecture, 37 hours clinical experience per week. Course taken for two weeks at University of Wisconsin, Madison, on a space-available basis. Learn to evaluate calf and peri-parturient cow management practices. Develop an investigation strategy for ambiguous herd problems. Collect samples and interpret herd-based diagnostic tests for infectious and metabolic diseases. Assess environmental risk factors for metabolic and infectious disease including hygiene and housing. Assess nutritional status of herds via nutritional management, actual feed intake, particle length determination, etc.

(3-0) Cr. 3. S. Prereq: Third year classification in veterinary medicine. Clinical diagnosis and treatment of non-infectious diseases of swine, beef and dairy cattle, and small ruminants.

VDPAM 450. Disturbances of Reproduction.
(4-0) Cr. 4. F. Prereq: Third-year classification in veterinary medicine. General principles of normal reproductive functions in addition to environment, management and diseases causing disturbances in reproduction.

VDPAM 451. Clinical Embryo Transfer.
(0-40) Cr. 2. F.S.SS. Prereq: Fourth year classification in veterinary medicine. Elective clinical assignment in techniques of embryo transfer. Primary species studied will be bovine but equine and small ruminant embryo transfer will be covered during appropriate seasons. Enrollment is limited to four students per two week session. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 455. Diagnostic Laboratory Practicum.
Cr. 1. Repeatable. F.S. Prereq: Fourth-year classification in veterinary medicine. Practical experience in necropsy and test selection for the diagnosis of infectious and toxic diseases of livestock through exposure to cases in the ISU Veterinary Diagnostic Laboratory.

VDPAM 456. Veterinary Diagnostic Lab Methods & Applications.
(16-0) Cr. 1. F. Prereq: Classification as a second, third or fourth year student in veterinary medicine. Case materials are used to develop diagnostic questions and to better understand the value of diagnostic tests. Testing methods and interpretation of diagnostic tests are coupled with sampling strategy and objective assessment of available evidence to provide accurate diagnosis.

(2-0) Cr. 2. F.S. Prereq: VDPAM 310. Two week advanced clinical rotation in stocker/feedlot beef production medicine held in Oklahoma. The instructor will lead field trips as well as problem solving exercises where the student will apply concepts of stocker/feedlot health management, production and economic analysis, and disease control/prevention. Travel and overnight stays will be required. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 476. Food Animal and Camelid Field Service.
Cr. 2. F.S. Prereq: VDPAM 310. Four year classification in Veterinary Medicine. Elective course in food animal and camelid field services. Students will assist university veterinarians in delivering health care and production management services to the ISU livestock farms and other livestock farms in the local area. Focus will be on delivery of individual animal care and establishment of best practices for herd management of production systems at the university and in the region. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

Cr. 1-2. Repeatable. F.S.SS. Prereq: Fourth-year classification in veterinary medicine. Clinical assignment focused on the management of food animal and camelid medicine and surgery cases. Specific instruction in clinical evaluation of cases coupled with appropriate diagnostic testing and therapeutic intervention will be emphasized. Additional instruction will be provided in disease prevention, intensive care and management of food animal and camelid species. Particular emphasis will be placed on appropriate on-label and extra-label drug usage in food animal species. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.
VDPAM 481. Advanced Cow/Calf Production Medicine.  
(15-25) Cr. 2. Repeatable. F.S.S.S. Prereq: VDPAM 310 or permission of instructor  
Two week clinical rotation in swine production medicine. Students will be assigned to take the lead in investigating field based client cases with supervision of the instructors. Development of critical thinking skills that will allow students to apply concepts of herd management, production analysis, economic analysis, and disease prevention in addressing client cases. Variable amounts of travel to farm sites will be required with the potential for rare overnight stays. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 482. Applied Beef Production Medicine Preceptorship.  
(0-40) Cr. 1-6. Repeatable. F.S.S.S. Prereq: VDPAM 310 and permission of instructor: ability to provide transportation to each site  
Two-week senior elective that will focus on the economics of animal disease in cow/ calf operations and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

(15-20) Cr. 2. F.S.S.S. Prereq: VDPAM 310  
Two week advanced clinical rotation in beef production medicine. Fifteen hours recitation/discussion and 20 hours clinical experience per week. This course is designed to expose students to cow-calf and feedlot production concepts. The activities scheduled for the rotation depend greatly on the time of year. Whenever possible, the class incorporates field trips. Students should anticipate that travel, including overnight stays, may be required. These field trips can vary in length from several hours to several days and may include weekends. Typically, 3-4 days of the rotation are spent at the Great Plains Veterinary Education Center, Clay Center, NE. Students should, therefore, plan accordingly and contact the instructor, immediately, if they anticipate a conflict. Students should not schedule Grand Rounds during this rotation.

VDPAM 484. Dairy Production Medicine.  
(15-20) Cr. 2. F.S.S.S. Prereq: VDPAM 310; Fourth-year classification in veterinary medicine  
Two week course in dairy production medicine combining class time with multiple on-farm visits to learn various management aspects (DHA, DC305 & PC Dart record analysis, calf rearing through lactating cows, reproduction programs, udder health and milk quality, biosecurity, wellness, nutrition and cow comfort) for a wide variety of dairy operations. Students will learn the latest in dairy management by reviewing current topic articles and gain experience in farm evaluation through a group project. Fifteen hours recitation/discussion and 20 hours clinical experience per week. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

(0-30) Cr. 1-6. Repeatable. F.S.S.S. Prereq: VDPAM 310  
Advanced course in dairy production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or production unit. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 486. Introduction to Small Ruminant Production Medicine.  
(19-6) Cr. 1-5. S. Prereq: Classification as a third year veterinary student or permission of instructor  
Survey of small ruminant production systems, common management practices, and disease processes of small ruminants. This course is intended to give the student a background in small ruminant medicine. Herd health, disease monitoring and prevention, and typical management systems will be emphasized in lecture.

VDPAM 487. Livestock Disease Prevention.  
(3-0) Cr. 3. F.  
The course is designed for both the pre-veterinary and animal science majors who have an interest in production animal health, disease prevention methods, epidemiology of economically important agents, and the ecology of currently important pathogens found in North American livestock industries. It will focus on disease prevention principles for individuals and large production population systems.

VDPAM 488. Laboratory in Clinical Microbiology.  
Cr. 1. Repeatable. F.S. Prereq: Fourth-year classification in veterinary medicine  
Application of microbiological procedures to the diagnosis of infectious diseases.

VDPAM 489. Issues in Food Safety.  
(Cross-listed with AN S, HRI, FS HN). (1-0) Cr. 1. S. Prereq: Credit or enrollment in FS HN 101 or FS HN 272 or HRI 233; FS HN 419 or FS HN 420; FS HN 403 Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

VDPAM 490. Independent Study.  
Cr. 1-5. Repeatable. F.S.S.S. Prereq: Permission of department chair

VDPAM 491. Advanced Ruminant Nutrition.  
(30-10) Cr. 3. F.  
Focus on dairy nutrition from the calf to the adult, lactating cow. Balancing rations for dairy operations. Introduction to different feedstuffs and forage varieties to determine those that are best suited to bovine diets. This course is held the week immediately prior to the start of the spring semester. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred. Nonmajor graduate credit.

(2-0) Cr. 1. S. Prereq: Classification in veterinary medicine  
Predeparture orientation for group study abroad. Cultural considerations for the study abroad experience and a conversational language introduction. Out of class work will be assigned. Offered on a satisfactory-fail basis only.

(20-20) Cr. 2. S. Prereq: VDPAM 484 or permission of instructor  
Advanced course in investigating dairy herd problems relating to milk quality or nutrition. Milk quality and nutrition troubleshooting will be taught through the combination of lecture and on-farm investigations. Students will combine lecture knowledge, data acquired from on-farm investigations and record analysis to generate management plans. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred. Nonmajor graduate credit.

VDPAM 495. Advanced Small Ruminant Production Medicine.  
(15-20) Cr. 2. F.S.S. Prereq: VDPAM 486, fourth year classification in veterinary medicine, or permission of instructor  
Two week clinical rotation in small ruminant production medicine. Field trips (including overnight stays) will be incorporated when possible. Topics to be covered include small ruminant industries (milk, meat, and fiber), milk quality, nutrition, reproduction, and disease management of small ruminants. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 496. International Preceptorship.  
(Dual-listed with VDPAM 596). (0-40) Cr. 1-12. Repeatable. F.S.S.S. Prereq: Second-year classification in veterinary medicine  
International Preceptorships and Study Abroad Group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

VDPAM 507. Evidence Based Clinical Decision Making.  
(Dual-listed with VDPAM 407). (1-0) Cr. 1. S. Prereq: Permission of instructor  
Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations.
VDPAM 508. Poultry Diseases.
(Dual-listed with VDPAM 408). Cr. 2. Alt. S., offered 2014. Prereq: Permission of instructor
Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and gamebirds; biosecurity, immunization, and management procedures to prevent poultry diseases.

VDPAM 514. Veterinary Practice Entrepreneurship.
(Dual-listed with VDPAM 414). Cr. 2. S. Prereq: Graduate Veterinarian or DVM-dual graduate degree candidate
Provide a formal exposure to the entrepreneurial and business skills necessary to own and operate a successful veterinary business.

(Cross-listed with V MPM). (3-0) Cr. 3. S.
Epidemiology and ecology of disease in populations. Disease causality and epidemiologic investigations. Issues in disease prevention, control, and eradication.
This course is available on campus and by distance.

VDPAM 526. Veterinary Toxicology.
(Dual-listed with VDPAM 426). (3-0) Cr. 3. S. Prereq: Permission of instructor
Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications.
Supplemented with case-based materials.

(3-0) Cr. 3. Alt. F., offered 2013. Prereq: STAT 401
ANOVA, Linear Regression, Model Selection, Mixed Models, ANCOVA, Repeated Measurement Analysis, MANOVA, Nonparametric Methods, Diagnostic Test Evaluation, ROC Curve Analysis, Generalized Linear Models, Logistic Regression, Survival Analysis, Cox Proportional Hazards Regression. This course is available on campus and by distance.

(3-0) Cr. 3. Alt. F., offered 2014.
Designing, conducting, and analyzing outcomes from field-based studies, including cross-sectional, case-control, cohort, and clinical trials with categorical outcomes. This course is available on campus and by distance.

VDPAM 542. Introduction to Molecular Biology Techniques. DNA.
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, GDCB). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

VDPAM 542A. Introduction to Molecular Biology Techniques: Cell.
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, GDCB). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

VDPAM 542B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunohistochemistry, and monoclonal antibody production. (S.S.S.)
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, GDCB). Cr. 1. Repeatable. F. Prereq: Graduate classification
Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

VDPAM 542E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F.)
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

VDPAM 542F. Techniques in Metabolomics. metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects.
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

VDPAM 542G. Introduction to Molecular Biology Techniques: Genomic.
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, GDCB). Cr. 1. Repeatable. S. Prereq: Graduate classification
Offered on a satisfactory-fail basis only.

VDPAM 546. Clinical and Diagnostic Toxicology.
(Cross-listed with TOX). (0-3) Cr. 1-3. Repeatable. F.S.SS. Prereq: D.V.M. degree or VDPAM 526
Advanced study of current problems and issues in toxicology. Emphasis on problem solving utilizing clinical, epidemiological, and laboratory resources.

VDPAM 551. Advanced Veterinary Diagnostic Medicine.
(0-3) Cr. 1-3. Repeatable. F.S.SS. Prereq: VDPAM 455
Necropsy techniques of animals with emphasis on gross and microscopic lesion description and microbiological diagnosis of disease in food animals.

VDPAM 570. Risk Assessment for Food, Agriculture and Veterinary Medicine.
(Cross-listed with AGRON, TOX). (3-0) Cr. 3. F. Prereq: STAT 104 or consent of instructor
Wolt, Hurd. Risk assessment principles as applied to biological systems. Exposure and effects characterization in human and animal health and ecological risk assessment. Risk analysis frameworks and regulatory decision-making. Introduction to quantitative methods for risk assessment using epidemiological and distributional analysis. Uncertainty analysis. This course is available on campus and by distance.

(Dual-listed with VDPAM 481). (20-20) Cr. 2. S. Prereq: Completion of two semesters of VDPAM 436 or UNL equivalent (VMED 596 Cattle Production), 4th year classification in veterinary medicine, graduate classification or permission of instructor.
Two-week elective that will focus on the economics of animal disease in cow/calf operations. Evidence-based medicine and epidemiological principles will be used in investigation of disease outbreaks. Extensive partial budgeting will be used and field trips are expected. In order to obtain graduate credit, students will be required to produce a paper in a published manuscript format on a beef cattle disease topic of their choice. Biosecurity policies require documentation of your presence in the USA 5 days immediately prior to the start of class if international travel has occurred.

VDPAM 589. Creative Component.
Cr. arr. Repeatable. F.S.SS. Prereq: Enrollment in nonthesis master’s degree program

Courses for graduate students:
VDPAM 650. Swine Diagnostic Medicine.
Cr. 1-4. F. Prereq: Permission of instructor
A detailed study of swine diseases emphasizing the pathogenesis and diagnosis of swine respiratory, enteric, reproduction, metabolic, and septicemic diseases.

VDPAM 654. Comparative Antimicrobial Clinical Pharmacology.
Cr. 2. S. Prereq: Graduate student, resident, or intern in College of Veterinary Medicine
Initial antimicrobial selection for infectious diseases of domestic animals. The antimicrobial drug groups will be examined, stressing pharmacokinetics, minimal inhibitory concentrations, and the use of these parameters to select appropriate compounds and dosages for maximum efficacy.
VDPAM 655. Advanced Swine Production Medicine.
Cr. 1-4. S. Prereq: Permission of instructor
Detailed overview of applied techniques used in swine production medicine; production modeling and record analysis, production economics and financial analysis, therapeutic and vaccination strategies, quality control procedures and food safety.

VDPAM 699. Research.
Cr. arr. Repeatable.

Veterinary Microbiology and Preventive Medicine

Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The Department of Veterinary Microbiology and Preventive Medicine provides instruction on pathogenic bacteria, fungi, and viruses and their interaction with host animal species. Principles and applications of infectious diseases, immunity to disease, diagnostic methods for infectious diseases, and vaccinology are covered. Principles and applications of epidemiology, public health, preventive veterinary medicine, regulatory veterinary medicine and food safety are also emphasized.

Graduate Study

The department offers opportunities for the degree doctor of philosophy with a major in veterinary microbiology. A specialization in preventive medicine is an option for this degree. Graduates in the Veterinary Microbiology and Preventive Medicine programs have a broad understanding of the fundamental processes involved in infectious diseases, pathogenesis and immunology. They are able to effectively establish research programs, which involve complex biological systems and disease syndromes. They are also prepared to address microbial-based social, ethical and environmental problems. Graduates acquire effective written and oral communication skills which lead to successful research and teaching careers in the medical and veterinary sciences. The department also offers work towards the master of science with majors in veterinary microbiology or veterinary preventive medicine. A non-thesis master’s option is available for majors in preventive medicine. Courses are open for students majoring in other graduate programs.

Prerequisite to graduate study is completion of coursework in general microbiology, biology, biochemistry, mathematical sciences, and physics. Candidates for the majors in veterinary microbiology should possess an undergraduate degree in biomedical science with emphasis in medical microbiology or the D.V.M. degree. Candidates for the major in preventive medicine should possess the D.V.M. degree.

The department also participates in the interdepartmental majors and programs in genetics, immunobiology, and MCDB (molecular, cellular, and developmental biology; see Index).
Each graduate student must demonstrate proficiency in English composition within two semesters in residence.

Courses

Courses primarily for professional curriculum students:

V MPM 378. Veterinary Virology.
(3-0) Cr. 3. S. Prereq: Second-year classification in veterinary medicine
Basic principles of animal virology. Pathogenesis of viral infections. The nature and ecology of viruses of veterinary and zoonotic importance.

(3-0) Cr. 3. S. Prereq: Second-year classification in veterinary medicine
Fundamental epidemiology, zoonotic diseases, occupational health, food safety, other public health topics.

V MPM 390. Topics in Veterinary History.
(1-0) Cr. 1. F.
An overview of the history of veterinary medicine focused primarily on disease-specific events. A review of the historical aspects of the veterinary profession’s accomplishments in the discovery of the etiological origins of disease and their subsequent control will provide students with insights that are applicable to understanding and solving today’s animal and human health challenges.

V MPM 409. Infectious Diseases of Wild Animals.
(0-2) Cr. 1. F.S. Prereq: Second year classification in veterinary medicine
Infectious diseases (bacterial, viral, and mycotic) of non-human primates, birds, ruminants, cold-blooded animals, marine mammals, and carnivores.*Spring only offered to UNL students.

V MPM 437. Infectious Diseases and Preventive Medicine.
(3-0) Cr. 3. S. Prereq: Third-year classification in veterinary medicine
Etiology, epidemiology, laboratory diagnosis, regulatory control and preventive medicine aspects of the infectious diseases of swine, sheep, goats, cattle and horses.

V MPM 475. Immunology.
(Cross-listed with MICRO), (3-0) Cr. 3. S. Prereq: MICRO 310
An examination of humoral and cellular immune function as well as the interaction of the cells and factors of the immune system that result in health and disease. Micro 475L optional. Credit for either Micro 475 or V MPM 520, but not both, may be applied to graduation.

V MPM 486. Laboratory in Public Health.
Cr. 2. Repeatable. F.S.S.S. Prereq: Fourth-year classification in veterinary medicine
Discussions, lectures, exercises and field trips related to veterinary public health.

V MPM 490. Independent Study.
Cr. arr. Repeatable. F.S.S.S. Prereq: Permission of instructor and department chair

V MPM 491. CDC Epidemiology Elective Preceptorship.
Cr. 6. F.S.S.S. Prereq: Written permission of instructor
Introduction to preventive medicine, public health and the principles of applied epidemiology within the working atmosphere of the Centers for Disease Control and Prevention.

V MPM 494. Zoo Preceptorship.
Cr. 1-8. Repeatable. F.S.S.S. Prereq: Fourth year classification in veterinary medicine
Elective course in zoo veterinary practice under guidance of approved veterinarians.

V MPM 496. International Preceptorship.
(0-40) Cr. 1-12. Repeatable. F.S.S.S. Prereq: Second-year classification in veterinary medicine
International Preceptorships and Study Abroad group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

V MPM 502. Microbial Genetics and Genomics.
(Dual-listed with V MPM 402), (3-0) Cr. 3. Alt. F., offered 2012. Prereq: MICRO 302, BIOL 313
The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of both vertical and horizontal genetic information transfer, gene regulation, and genetic approaches to study complex cellular processes. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics.

V MPM 520. Medical Immunology I.
(4-0) Cr. 4. F. Prereq: MICRO 310 or V MPM 386, 3 credits in biochemistry
Nature of the immune system and its role in health and disease. Credit for either V MPM 520 or 575, but not both may be applied toward graduation.
(Cross-listed with VDPAM). (3-0) Cr. 3. S. 
Epidemiology and ecology of disease in populations. Disease causality and epidemiologic investigations. Issues in disease prevention, control, and eradication. This course is available on campus and by distance.

V MPM 536. Zoonoses and Environmental Health. 
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: V MPM 386, VMPM 387 and V MPM 388 or equivalent or permission of instructor 
Pathogenesis and control of zoonotic diseases. Factors influencing transmission and survival of pathogenic microorganisms in the environment.

V MPM 540. Livestock Immunogenetics. 
(Cross-listed with MICRO, AN S). (2-0) Cr. 2. Alt. S., offered 2013. Prereq: AN S 561 or MICRO 575 or V MPM 520 
Basic concepts and contemporary topics in genetic regulation of livestock immune response and disease resistance.

V MPM 542. Introduction to Molecular Biology Techniques. 
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, GDCB, VDPAM), Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification 
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

V MPM 542A. Introduction to Molecular Biology Techniques: DNA. 
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, GDCB, VDPAM), Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification 
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

V MPM 542C. Introduction to Molecular Biology Techniques: Cell. 
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, GDCB, VDPAM), Cr. 1. Repeatable. F.S. Prereq: Graduate classification 
Includes immunohistochemistry, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, GDCB, VDPAM), Cr. 1. Repeatable. S. Prereq: Graduate classification 
Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM), Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification 
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

V MPM 542F. Techniques in Metabolomics. metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. 
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM), Cr. 1. Repeatable. F.S. Prereq: Graduate classification 
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, GDCB, VDPAM), Cr. 1. Repeatable. S. Prereq: Graduate classification 
Offered on a satisfactory-fail basis only.

V MPM 557. Immunology. 
(3-0) Cr. 3. S. Prereq: MICRO 310 
An examination of humoral and cellular immune function as well as the interaction of the cells and factors of the immune system that result in health and disease. Micro 475L optional. Credit for either Micro 575 or V MPM 520, but not both, may be applied toward graduation.

V MPM 558. Medical Bacteriology. 
(Cross-listed with MICRO). (4-0) Cr. 4. F. Prereq: Permission of instructor 
Bacteria associated with diseases of vertebrates, including virulence factors and interaction of host responses.

V MPM 586L. Medical Bacteriology Laboratory. 
(0-6) Cr. 2. F. Prereq: credit or enrollment in V MPM 586 or V MPM 625 
Procedures used in isolation and identification of pathogenic bacteria, including molecular and genetic techniques used in research.

(4-0) Cr. 4. Prereq: Permission of instructor 
Principles of animal virology. Biology of viruses associated with diseases of veterinary importance, including mechanisms of pathogenesis.

V MPM 590. Special Topics. 
Cr. 1-5. Repeatable. F.S.SS. Prereq: Permission of instructor

V MPM 596. International Preceptorship. 
(0-40) Cr. 1-12. Repeatable. F.S.SS. Prereq: Admission to graduate college International Preceptorships and Study Abroad Group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities. Offered on a satisfactory-fail basis only.

V MPM 599. Creative Component. 
Cr. arr. Prereq: Nonthesis M.S. Option only 
A written report based on laboratory research, library reading, or topics related to the student’s area of specialization and approved by the student’s advisory committee.

Courses for graduate students:

V MPM 604. Seminar. 
(1-0) Cr. 1. Repeatable. F. 
Offered on a satisfactory-fail basis only.

V MPM 608. Molecular Virology. 
(Cross-listed with MICRO, PL P), (3-0) Cr. 3. Alt. F., offered 2014. Prereq: BBMB 405 or GDCB 511 
Advanced study of virus-host cell interactions. Molecular mechanisms of viral replication and pathogenesis.

V MPM 615. Molecular Immunology. 
(Cross-listed with MICRO, BBMB), (3-0) Cr. 3. Alt. F., offered 2013. Prereq: BBMB 405 or BBMB 502 
Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signaling pathways leading to expression of genes that control and activate immune function.

(Cross-listed with MICRO). (4-0) Cr. 4. Alt. S., offered 2013. Prereq: Credit in Biochemistry and Microbiology 
Review of current concepts in specific areas of microbial pathogenesis including the genetic basis for bacterial disease, genetic regulation and control of virulence factors and their mechanisms of action, and host-pathogen interactions at the cellular and molecular levels. The application of microbial genetics to understanding pathogenesis will be included.

V MPM 629. Advanced Topics in Cellular Immunology. 
(2-0) Cr. 2. Alt. S., offered 2014. Prereq: V MPM 520 or V MPM 575 
Current topics and literature in cellular immunology. Topics include thymocyte development and selection, T cell interactions with antigen presenting cells, and lymphocyte effector functions.

(Cross-listed with V PTH). (2-0) Cr. 2. Alt. S., offered 2015. Prereq: Permission of instructor 
Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites.

V MPM 690. Current Topics. 
Cr. 1-3. Repeatable. F.S.SS. Prereq: Permission of instructor 
Colloquia or advanced study of specific topics in a specialized field.

V MPM 690A. Current Topics: Immunology. 
Cr. 1-3. Repeatable. F.S.SS. Prereq: Permission of instructor 
Colloquia or advanced study of specific topics in a specialized field.

V MPM 690B. Current Topics: Infectious Diseases. 
Cr. 1-3. Repeatable. F.S.SS. Prereq: Permission of instructor 
Colloquia or advanced study of specific topics in a specialized field.

V MPM 698. Seminar in Molecular, Cellular, and Developmental Biology. 
(Cross-listed with BBMB, GDCB, MICRO, MCDIB). (2-0) Cr. 1-2. Repeatable. F.S. 
Student and faculty presentations.

V MPM 699. Research. 
Cr. arr. Repeatable.
Veterinary Pathology

Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree of veterinary medicine, see Veterinary Medicine, Curriculum.

The Department of Veterinary Pathology offers a systematic study of basic disease mechanisms with emphasis on the changes in gene expression, cells, tissues, organs, and body fluids associated with disease. The theory and practice of veterinary pathology, veterinary clinical pathology, veterinary parasitology, veterinary toxicology, and related disciplines provide the basis for accurate diagnosis and a rational approach to the treatment and prevention of animal diseases.

Graduate Study

The department offers work for the degree master of science and doctor of philosophy with a major in veterinary pathology. The majority of students choose an area of specialization in veterinary anatomic pathology, veterinary clinical pathology, or veterinary parasitology (http://vetmed.iastate.edu/vpath/academics/graduate-program). The master of science degree is available on a thesis or nonthesis basis in the veterinary pathology major with or without an area of specialization.

For the ACVP training track (residency) of the anatomic or clinical pathology graduate program designed to train veterinary pathologists, the student must have a funded position within the Department of Veterinary Pathology. If the student does not have a funded position or is not enrolled in the departmental degree program, enrollment in courses pertaining to the residency program and activities that support the residency program must have the approval of the Department Chair of Veterinary Pathology and the head of the departmental residency training program.

Graduates have a broad understanding of the mechanistic basis of disease pathogenesis. They are able to communicate with clinicians, other scientists, and other colleagues on scientific matters, and with the general public on related science policy matters. Graduates are able to address complex problems facing the agricultural and biomedical sciences, and comparative medicine, and are able to make appropriate diagnoses and investigations of animal diseases. They consider ethical, social, legal and environmental issues, and are skilled at carrying out research, communicating research results, and writing concise and competitive grant proposals.

Collaborative work is recommended in other departments in the College of Veterinary Medicine or departments or programs in other colleges. The department participates in the interdepartmental programs in Immunobiology (www.immunobiology.iastate.edu/), Toxicology (www.toxicology.iastate.edu/), Genetics (www.genetics.iastate.edu/), and Molecular, Cellular, and Developmental Biology (www.mcdb.iastate.edu/).

A veterinary degree (doctor of veterinary medicine or equivalent) is required for training in Veterinary Anatomic Pathology and Veterinary Clinical Pathology. Other specializations do not require the veterinary degree. A minimum score of 550 paper-based (213 computer-based; 79 internet based) is required on the TOEFL examination for students whose native language is not English. Scores on the standardized Graduate Record Examination (GRE) General Test are required of students not having a veterinary degree from the United States or Canada. The GRE General Test is strongly recommended for all other applicants. A foreign language requirement will be determined by the student’s program of study committee with the approval of the departmental chair. The Graduate English Examination is a graduate college requirement for native English speakers.

The M.S. thesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 30 graduate credits. Following completion of all other requirements, a comprehensive final examination is administered covering all graduate work including the thesis. The examination is typically oral, but a written component may be specified by the program of study committee. The degree candidate must submit a thesis, including at least one manuscript suitable for publication, to the committee members and departmental chair at least two weeks prior to the final examination. The departmental requirement for graduate courses includes:

- 3 credits of basic biological sciences (biochemistry, genetics, cell biology)
- 3 STAT 401 Statistical Methods for Research Workers
- 4 V PTH 570 Systemic Pathology I
- 4 or V PTH 571 Systemic Pathology II
- 1 V PTH 551 Postmortem Pathology Laboratory
- 1 V PTH 605 Current Topics Seminar

V PTH 599 Research

† Arranged with instructor.

The M.S. nonthesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 40 graduate credits including at least 10 graduate credits earned outside the department. Every nonthesis master’s degree program requires evidence of individual accomplishment demonstrated by completion of a creative component, special report, or scientific study. A minimum of 3 credits of such independent work (V PTH 599 Creative Component Research) and a practical diagnostic examination (V PTH 606 Diagnostic Interpretation) corresponding to the area of specialization are required on every program of study. The final examination is comprehensive and consists of written and oral questions. The departmental requirement for graduate courses includes those for the M.S. thesis degree plus additional courses corresponding to the area of degree emphasis of specialization. Contact the department for a more complete list of requirements and information on areas of specialization.

The Ph.D. degree in veterinary pathology, with or without an area of specialization, requires a minimum of 72 graduate credits including at least 12 graduate credits earned outside the department. The preliminary examination, consisting of written and oral components, is comprehensive and not restricted to the content of graduate courses. The degree candidate must submit a dissertation, including at least two manuscripts suitable for publication, to the committee members and departmental chair at least two weeks prior to the final examination. The final examination is primarily a defense of the dissertation, but it may include questions on other areas of specialized knowledge. The department also offers a combined DVM/Ph.D. program designed for completion of courses for the Ph.D. degree in Veterinary Pathology simultaneously with study in the professional curriculum in the College of Veterinary Medicine. Contact the department for a more complete list of requirements for the Ph.D. degree and information on areas of specialization.

Courses

Courses primarily for professional curriculum students:

V PTH 342. Anatomic Pathology I.
(Dual-listed with V PTH 542). (2-2) Cr. 3. S. Prereq: First-year classification in veterinary medicine
Basic pathology with emphasis on disease in animals and introduction to diseases by system.

V PTH 353. Introductory Parasitology.
(Cross-listed with BIOL, MICRO). (3-0) Cr. 3. S. Prereq: BIOL 212
Biological and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites.

V PTH 372. Anatomic Pathology II.
(Dual-listed with V PTH 572). (3-3) Cr. 4. F. Prereq: Graduate classification and V PTH 542
Response to injury by each body system.

V PTH 376. Veterinary Parasitology.
(Dual-listed with V PTH 576). (3-3) Cr. 4. F. Prereq: Graduate classification and V PTH 542
Parasitic diseases of domestic animals and their control.

V PTH 377. Case Study III.
(0-4) Cr. 2. F. Prereq: Second-year classification in veterinary medicine
Clinical applications of the basic sciences taught concurrently in the fall semester of the second year curriculum in veterinary medicine.

(1-0) Cr. 1. F.
8 weeks, offered first half semester only. Discussion of prefixes, suffixes, and roots (mostly from Latin and Greek) that comprise medical terms.

V PTH 409. Introduction to Veterinary Cytology and Laboratory Techniques.
(0-2) Cr. 1. S. Prereq: Third-year classification in veterinary medicine
Description, interpretation, and techniques for cellular preparations from tissues and body fluids.
V PTH 410. Llama Medicine.
(3-0) Cr. 1. S. Prereq: Second or third year classification in veterinary medicine
Offered first half semester only. Introduction to basic camelid medicine, including
anatomy, behavior, restraint, handling, husbandry, herd health, common diseases,
surgical conditions, and anesthesia protocols.

V PTH 425. Clinical Pathology.
(2-4) Cr. 4. S. Prereq: V PTH 372
Principles of clinical hematology, clinical chemistry, and urinalysis in domestic
animals.

V PTH 456. Necropsy Laboratory Practicum.
Cr. 1. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Practicum in postmortem examination and diagnosis.

V PTH 457. Clinical Pathology Laboratory Practicum.
Cr. 1. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Methodology in clinical chemistry, hematology and cytology; practice in interpretation
of laboratory data.

V PTH 478. Medical Protozoology.
(Dual-listed with V PTH 578). (Cross-listed with ENT, MICRO). (2-1) Cr. 3. F. Prereq: MICRO 302 or BIOL 314, or equivalent
Medically important protozoa: their ecology and biology and the diseases they cause
in humans and animals. Emphasis is on the protozoa, with some consideration of
parasitic nematodes. Topics include: infection and immunity, computational biology/
bioinformatics, unique/special subcellular systems (pathways and organelles), vector-
parasite-host interactions, disease prevention/treatment strategies, developmental
biology. Nonmajor graduate credit.

V PTH 490. Independent Study.
Cr. arr. Repeatable. Prereq: Permission of instructor and department chair

(2-0) Cr. 1. Repeatable. S. Prereq: Classification in veterinary medicine
8 weeks. Predeparture orientation for group study abroad. Cultural considerations for
the study abroad experience and a conversational language introduction. Out of class
work will be assigned. Offered on a satisfactory-fail basis only.

V PTH 496. International Preceptorship.
(0-40) Cr. 1-12. Repeatable. F.S.SS. Prereq: Second-year classification in veterinary medicine
International Preceptorships and Study Abroad Group programs. This course will
provide opportunities for students to be involved in applied clinical, production, and/
or research experience in international locations. The course consists of 40 hour per
week experiential learning opportunities. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

V PTH 530. Teaching and Learning in Veterinary Medical Education.
(3-0) Cr. 3. Alt. F., offered 2014.
Study of principles of teaching and learning as they relate to veterinary medical
education. These include: theories of learning, analyzing content/learners/context,
identifying goals, identifying appropriate instructional strategies (specific to medical
education), matching assessment processes to goals and strategies, common
curricular approaches and decision-making processes in medical education, and the
scholarship of teaching and learning for veterinary medical educators.

V PTH 542. Anatomic Pathology I.
(Dual-listed with V PTH 342). (2-2) Cr. 3. S. Prereq: Graduate classification and BIOL 352 or equivalent for graduate credit, permission of instructor
Basic pathology with emphasis on disease in animals and introduction to diseases by
system.

V PTH 548. Diagnostic Parasitology Laboratory.
Cr. 1-3. F.S.SS. Prereq: V PTH 376 or V PTH 576
Contact hours are (0-3 to 0-9). A laboratory experience in the technical and applied
aspects of veterinary parasitology.

V PTH 549. Clinical Pathology Laboratory.
(0-3) Cr. 1. Repeatable. F.S.SS. Prereq: V PTH 457; permission of instructor
Laboratory procedures and clinical interpretations with emphasis on hematology,
cytology, and chemical chemistry. Offered on a satisfactory-fail basis only.

V PTH 550. Surgical Pathology Laboratory.
Cr. 1-3. Repeatable. F.S.SS. Prereq: V PTH 570 or V PTH 571; permission of instructor
Contact hours are (0-3 to 0-9). Diagnosis of lesions in biopsy specimens;
classification of neoplasms. Course includes rotation through departmental biopsy
service and review of selected cases from departmental archives. Offered on a
satisfactory-fail basis only.

V PTH 551. Postmortem Pathology Laboratory.
Cr. 1-3. Repeatable. F.S.SS. Prereq: V PTH 542; permission of instructor
Contact hours are (0-3 to 0-9). Necropsy techniques of animals with emphasis on
gross and microscopic lesions and diagnosis. Offered on a satisfactory-fail basis only.

V PTH 554. Ethics in Scientific Research and Writing.
(1-0) Cr. 1. Alt. S., offered 2014. Prereq: Graduate classification
Ethical conduct in biomedical research, criticism, writing, and adherence to
regulations. Offered on a satisfactory-fail basis only.

V PTH 570. Systemic Pathology I.
(2-4) Cr. 4. Alt. F., offered 2014. Prereq: V PTH 342 or V PTH 542; permission of instructor
Pathology of the respiratory, reproductive, endocrine, musculoskeletal, and
cardiovascular systems. Emphasis on pathogenesis and anatomic pathology
related to intercellular pathology appropriate to the system.

V PTH 571. Systemic Pathology II.
(2-4) Cr. 4. Alt. F., offered 2013. Prereq: V PTH 342 or V PTH 542; permission of instructor
Pathology of the integumentary, urinary, digestive, lymphoid, and nervous systems
and special senses. Emphasis on pathogenesis and anatomic pathology correlated
with interpretive clinical pathology where appropriate.

V PTH 572. Anatomic Pathology II.
(Dual-listed with V PTH 372). (3-3) Cr. 4. F. Prereq: Graduate classification and V
PTH 542
Response to injury by each body system.

V PTH 576. Veterinary Parasitology.
(Dual-listed with V PTH 476). (Cross-listed with ENT, MICRO). (2-1) Cr. 3. F. Prereq: MICRO 302 or BIOL 314, or equivalent
Medically important protozoa: their ecology and biology and the diseases they cause
in humans and animals. Emphasis is on the protozoa, with some consideration of
parasitic nematodes. Topics include: infection and immunity, computational biology/
bioinformatics, unique/special subcellular systems (pathways and organelles), vector-
parasite-host interactions, disease prevention/treatment strategies, developmental
biology. Nonmajor graduate credit.

V PTH 590. Special Topics.
Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor

V PTH 590A. Special Topics: Veterinary Pathology.
Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor

V PTH 590B. Special Topics: Veterinary Parasitology.
Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor

V PTH 590C. Special Topics: Veterinary Toxicology.
Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor

V PTH 590D. Special Topics: Veterinary Clinical Pathology.
Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor

V PTH 590E. Special Topics: Other.
Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor

V PTH 596. International Preceptorship.
(0-40) Cr. 1-12. Repeatable. F.S.SS. Prereq: Admission to graduate college
International Preceptorships and Study Abroad Group programs. This course will
provide opportunities for students to be involved in applied clinical, production, and/
or research experiences in international locations. The course consists of 40 hour per
week experiential learning opportunities. Offered on a satisfactory-fail basis only.

V PTH 599. Creative Component Research.
Cr. arr. Repeatable.
Course for departmental graduate research.
V PTH 599A. Creative Component Research: Veterinary Pathology. Cr. arr. Repeatable. Course for departmental graduate research.

V PTH 599B. Creative Component Research: Veterinary Parasitology. Cr. arr. Repeatable. Course for departmental graduate research.

V PTH 599C. Creative Component Research: Veterinary Toxicology. Cr. arr. Repeatable. Course for departmental graduate research.

V PTH 599D. Creative Component Research: Veterinary Clinical Pathology. Cr. arr. Repeatable. Course for departmental graduate research.

Courses for graduate students:

V PTH 604. Pathology Case Seminar. Cr. 1-2. Repeatable. F.S. Prereq: permission of instructor Description and interpretation of microscopic lesions and clinical pathology data collected from cases of natural and experimental disease. Offered on a satisfactory-fail basis only.

V PTH 606. Diagnostic Interpretation. Cr. R. F.S.SS. Prereq: permission of instructor A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

V PTH 606A. Diagnostic Interpretation: Veterinary Pathology. Cr. R. F.S.SS. Prereq: permission of instructor A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

V PTH 606B. Diagnostic Interpretation: Veterinary Parasitology. Cr. R. F.S.SS. Prereq: permission of instructor A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

V PTH 606C. Diagnostic Interpretation: Veterinary Toxicology. Cr. R. F.S.SS. Prereq: permission of instructor A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

V PTH 606D. Diagnostic Interpretation: Veterinary Clinical Pathology. Cr. R. F.S.SS. Prereq: permission of instructor A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

V PTH 652. Pathologic Hematology. Cr. 3. Prereq: V PTH 425; permission of instructor Pathologic changes in blood constituents of domestic animals.

V PTH 655. Cellular and Molecular Pathology I. (3-0) Cr. 3. Alt. S., offered 2015. Prereq: Graduate course in biochemistry, genetics, or cell biology Cellular and molecular mechanisms of cell injury, cellular responses to injury, and inflammation.

V PTH 656. Cellular and Molecular Pathology II. (Cross-listed with TOX). (3-0) Cr. 3. Alt. S., offered 2014. Prereq: Graduate course in biochemistry, genetics, or cell biology Cellular and molecular mechanisms of carcinogenesis.

V PTH 683. Clinical Chemistry. (2-2) Cr. 3. Prereq: V PTH 425; permission of instructor The pathophysiology, methodology, and clinical application of laboratory medicine.

V PTH 679. Histopathology of Laboratory Animals. (0-4) Cr. 2. Alt. SS., offered 2014. Prereq: V PTH 570 or V PTH 571; permission of instructor Study of microscopic lesions in laboratory animals with emphasis on description, etiology, pathogenesis, and diagnosis.

V PTH 699. Research. Cr. arr. Repeatable. Course restricted to graduate program within the department.

V PTH 699A. Research: Veterinary Pathology. Cr. arr. Repeatable. Course restricted to graduate program within the department.

V PTH 699B. Research: Veterinary Parasitology. Cr. arr. Repeatable. Course restricted to graduate program within the department.

V PTH 699C. Research: Veterinary Toxicology. Cr. arr. Repeatable. Course restricted to graduate program within the department.

V PTH 699D. Research: Veterinary Clinical Pathology. Cr. arr. Repeatable. Course restricted to graduate program within the department.

Graduate College

www.grad-college.iastate.edu/

David K. Holger, Dean
William R. Graves, Associate Dean
Craig Ogilvie, Assistant Dean

The Graduate College and graduate faculty at Iowa State University are responsible for the quality of graduate education, for administering students’ graduate programs, and for promoting research support from various governmental, industrial, and private agencies.

The graduate faculty in various programs handle admission and classification of graduate students, establish requirements for advanced degrees, and have charge of instruction and research at the graduate level. Graduate faculty members also teach graduate courses, serve on program of study (POS) committees, and direct work of master’s and doctoral students. All graduate courses offered for major or nonmajor credit are taught by graduate faculty members or graduate lecturers.

Graduate study was offered soon after the university was founded, and the first graduate degree was conferred in 1877. Experimentation and research also started early, first in agriculture and shortly thereafter in home economics, engineering, science, and veterinary medicine. In 1913, the graduate faculty was organized formally and an executive graduate committee was appointed. In 1915, the graduate faculty held its first meeting, and in 1916, it granted the first doctor of philosophy degree.

Graduate education is vital to the quality of university teaching. The creative efforts of graduate faculty members and graduate students result in knowledge necessary to help society solve problems in educational, scientific, technological, and socio-economic areas. The Graduate College encourages educational exchange and contact with undergraduate areas of the university to promote improved teaching on both the undergraduate and graduate levels. A part of this exchange is accomplished by the publication of books and technical articles which are made possible by graduate research.

The degrees master of arts, master of science, and doctor of philosophy are research oriented. In many fields master’s degrees are also awarded without a thesis, but a written report of independent study, called a creative component, is generally required. Coursework only degrees are available for those individuals interested in advanced study directed toward meeting vocational or professional objectives. Information on other types of Master’s degrees can be found in the Graduate College Handbook, Appendix E, (www.grad-college.iastate.edu/publications/gchandbook/hompage.html)

The Graduate College Handbook lists policies and procedures of the Graduate College. It is available at the Graduate College’s Web site: www.grad-college.iastate.edu/.

Graduate Appointments

Graduate assistantships, fellowships, and research grants have been established at Iowa State University to encourage graduate work and to promote research. Such appointments and research opportunities are available through the various departments of instruction and the research centers on campus.
Graduate assistantships, the most common form of graduate student support, are available in three categories: the research assistantship, the teaching assistantship, or the administrative assistantship. A half-time graduate assistantship (20 hours per week) permits the holder to enroll for a maximum of 12 semester credits. Recipients of these assistantships are assessed fees at full Iowa resident rates regardless of the number of credits for which they register. These students may also be eligible for tuition scholarship awards (50% of in-state tuition for most master’s students and 100% of in-state tuition for most Ph.D. students and certain terminal masters students). Students who are graduates of a regionally accredited college or university in the United States or of a recognized institution in another country whose requirements for the bachelor’s degree are substantially equivalent to those of Iowa State University, who are admitted in the full or provisional admissions status, and who present the requisite undergraduate or graduate preparation, may apply for these appointments.

Students registered on a restricted basis or those placed on academic probation are eligible for assistantship appointment only on a term by term basis but are not normally eligible for a graduate tuition scholarship. Students admitted as nondegree students are not eligible for assistantship appointments. Further information may be obtained by contacting the appropriate graduate program.

The satisfactory completion of one appointment, plus satisfactory academic performance, will ordinarily make a student eligible for reappointment. After a period of three years of full time study for the master’s degree or five years for the doctorate, the student will not normally be continued on assistantship support (shorter periods may be stipulated by the student’s program or department).

Postdoctoral Study

Opportunities are provided for postdoctoral study through the extensive research programs of the university. Inquiries should be directed to the appropriate program, institute, or to the Dean of the Graduate College.

Graduate Study by Staff Members

Any full-time member of the research, instructional, or extension staff at the rank of instructor, research associate, or assistant scientist may carry up to six course credits per semester and three credits per summer session, subject to the approval of the head of the program or section, and provided it does not interfere with other duties. This privilege may be extended to members of the research, instructional, or extension staffs at the rank of assistant professor with approval of the college dean and the Dean of the Graduate College. Staff members at the rank of professor or associate professor cannot become candidates for graduate degrees from ISU.

Distance Education

Iowa State offers many graduate degree and certificate programs off-campus. For a listing of the degree programs, registrations for courses, and more information about distance education, consult the Iowa State University Web site at http://www.distance.iastate.edu. Other information about graduate requirements is available in the Graduate College Handbook at http://www.grad-college.iastate.edu/publications/gchandbook/homepage.html.

Doctoral Post Prelim (Continuous Registration)

Even when Ph.D. graduate students have completed course work and residency requirements, they are required to register and pay tuition and fees, whether or not university facilities and equipment are used or staff is consulted—either in person or in absentia.

After the preliminary oral examination is passed (with either full or conditional pass) and if university facilities, equipment, and staff time are used, the Ph.D. candidate must register for the appropriate number of credits in the major department or program and pay the appropriate graduate tuition and fees.

After the preliminary oral examination is passed (with either full or conditional pass) and if university facilities, equipment, and staff time are not used, the Ph.D. candidate may register for GR ST 680 Doctoral Post Prelim (Continuous) Registration and pay the Doctoral Post Prelim Registration fee. The Ph.D. candidate must be aware that registration for Gr ST 680 is allowed only after the Ph.D. candidate passes the preliminary oral examination; is required only in the fall and spring semesters, and not during the summer term; is not allowed after the completion of the final oral examination; and is not sufficient registration for the term the preliminary or final oral examination is taken; and does not defer student loans.

If students take the final examination during the interim between terms (including the first day of classes), registration can be for the term either before or after the examination is held.

Auditing

Audit registration means taking courses without receiving formal credit. Audit provisions are as follows: Instructors must approve ALL audits; students must register for audits by day 10 of the semester; changes to or from an audit must be made in the first 10 days of the semester; students are assessed tuition and fees as though they were taking the course for credit; and the course DOES NOT count in determining full-time student status.

Audited courses do not appear on the student’s permanent record unless the “Request for Audit(s) to Appear on Transcript” form is completed and signed by the student, course instructor, and major professor. Copies of this form, which are available from the Graduate College or from the Graduate College’s web site at www.grad-college.iastate.edu/forms/forms.html, must be filed with the Graduate College, 1137 Pearson Hall.

After the fifth class day, if a student changes a regular course to an audit, that course will appear on the student’s permanent record as a drop. Audits are not acceptable as registration for loan deferments or meeting visa requirements.

Graduate Courses Taken by Undergraduates

Certain graduate level courses listed in the ISU Catalog may be used in the program of study even though they were taken for graduate credit by the student as an undergraduate at Iowa State University.

The following conditions must be met:

1. The POS committee can request approval from the Dean of the Graduate College that up to nine hours of such credit be applied toward meeting advanced degree requirements (these courses must be clearly marked on the POS).
2. Credits earned in these courses must be in addition to those used to meet requirements for the bachelor’s degree and must have grades of B or better.
3. The student must be classified as an undergraduate and not a nondegree undergraduate (credits taken as a nondegree undergraduate student are not allowed).
4. The Graduation Office (10A Enrollment Services Center) should be contacted to determine that the courses were not taken as a nondegree undergraduate student, were not used toward fulfillment of the undergraduate degree program and were graded B or better.

Courses Taken as a Nondegree Undergraduate Student

A person classified as a “nondegree undergraduate” student may not use courses taken under that status in a graduate degree program. A student who has received the baccalaureate degree must register as a graduate student if he/she is to receive graduate credit for courses.

Graduate Majors

A complete list of all graduate majors can be found on the Graduate College website, http://www.grad-college.iastate.edu/academics/gradprograms/phd.php, with links to admission requirements and program websites.

Admission

All degree-seeking graduate students must have graduated with a bachelor’s or master’s degree from a regionally accredited U.S. institution or from a recognized foreign institution where the requirements for the bachelor’s degree or its equivalent are similar to those at ISU. Additionally, each applicant must be accepted at ISU by the major program, the Office of Admissions, and the Graduate College. For information concerning graduate study in a particular academic discipline, prospective students should correspond with the chair of the major program in which they wish to study.

Iowa State University has a shared application process, which means certain items are sent (electronically or in print form) to the Office of Admissions and other items are sent to the graduate program to which the prospective student is applying. Detailed instructions are available at http://www.admissions.iastate.edu/graduate/index.php. Students are also encouraged to check the Program Requirements Web page on the Graduate College Web site at http://www.grad-college.iastate.edu/programs/APPrograms.php for mailing instructions and deadlines for each program.

The nonrefundable application fee is $40 ($90 for international applicants). An electronic application is required to apply to ISU’s graduate programs; the form and necessary instructions are available at https://www.admissions.iastate.edu/apply/index.php. The application fee is required of all applicants except those who have attended Iowa State as undergraduates. Iowa State requires official academic
Categories of Graduate Admission

An applicant pursuing an advanced degree must be recommended by the program in which he/she will be pursuing an advanced degree and must be approved by the Dean of the Graduate College. There are three admission categories for students who wish to pursue an advanced degree:

- Full Admission status may be granted to an applicant who either has achieved a grade point average (GPA) of 3.0 or greater (on a 4.0 scale).
- Provisional admission status may be granted to applicants who meet the requirements for full admission but have academic or prerequisite deficiencies to remedy. Transfer from provisional admission to full admission status requires the completion of the graduate English requirement, completion of the coursework prescribed to remedy the background deficiencies with a grade average of B or better, and the written recommendation of the major professor and approval by the Dean of the Graduate College.

Restricted admission status may be granted to an applicant who does not satisfy the formal university requirements for full admission status and/or lacks undergraduate preparation in a field related to the graduate field of study. Restricted admission may also be granted to graduates of non-English-speaking foreign institutions, even if the student meets the university requirements for full admission status. Advancement from restricted to full admission status requires completion of 9 semester credits of graduate level coursework as a graduate student with a cumulative grade average of B or better and satisfaction of the Graduate College English requirement. A recommendation is submitted in writing to the Graduate College by the major professor and must be approved by the Dean of the Graduate College.

Nondegree Graduate Admission

Well-qualified applicants who do not intend to seek an advanced degree from Iowa State University may be considered for nondegree graduate admission. Such students usually include:

1. Those who intend to transfer graduate credit earned at Iowa State University to other institutions.
2. Those who intend to use graduate credits earned for professional certification.
3. Those who enroll for personal satisfaction.
4. Those who enroll occasionally in off-campus graduate courses. The nondegree application form is available from www.admissions.iastate.edu/nondegree.

Applications and schedules for nondegree students are processed directly by the Office of Admissions and the Graduate College office; no program approvals are prescribed to remedy the background deficiencies with a grade average of B or better, and the written recommendation of the major professor and approval by the Dean of the Graduate College.

Graduate Admission of International Students

An applicant who is a graduate of a recognized foreign institution is subject to the same criteria for admission as a graduate from an institution in the United States, and may be recommended for the same admission categories described above except that of the nondegree option. International applicants for nondegree status may be considered for admission at the discretion of the Graduate College dean. Application and admission deadlines for international students may be obtained from the Admissions web site at www.admissions.iastate.edu/apply/. International students are required to show evidence of financial support and to carry adequate health and accident insurance while in residence.

Admission Examinations

Graduate Record Examination. The Graduate Record Examination (GRE) is not a university-wide requirement for all applicants. However, many programs require or recommend submission of GRE scores; individual program statements at www.grad-college.iastate.edu/programs/APprograms.php should be consulted for this information.

Registration

Graduate students are encouraged to register for courses on the ISU web site (www.iastate.edu) via AccessPlus. Students who are unable or who choose not to register through this system may use a walk-through registration procedure. Students who do not register by the published deadline for initiation of a schedule through the AccessPlus systems must use the walk-through procedure. For complete information on registration, see the ISU Schedule of Classes or the Registration Web site at www.iastate.edu/~registrar/registration/.

Credit Limits

Registration is limited to a maximum of 15 credits per semester. Schedules for graduate assistants on one-half time appointments are limited to a maximum of 12 credits. For full-time staff members, the limit is 6 credits. (Different credit limits apply during the summer session; see the Graduate College Handbook at www.grad-college.iastate.edu/common/handbook for more details.)

Interim Registration

Registration for special work between semesters and during certain vacation periods cannot exceed one credit for each week that the student is in residence. For more information, consult the Graduate College Handbook.

Grading

Grades are the permanent official record of a student’s academic performance. Iowa State uses A through F grading for most courses. S, P, and NP grades are given in some courses. The standard four-point scale is used to calculate a grade point average.

Grade Point Average (GPA)

All courses (even if they are undergraduate courses) taken as a graduate student will be calculated into the graduate GPA. The GPA is determined by dividing the number of grade points earned by the total number of ISU cumulative hours. The grade achieved the last time the course is taken is used in computing the grade point average. Creative Component/Research (599 and 699) credits are not used in the calculation of the GPA. In the case of repeated courses, only the grade achieved the last time the course is taken is used in computing the grade point average. (However, grades in courses that are noted as repeatable courses in the catalog, such as certain repeatable seminars, will all be used in calculating the grade point average.)

Grading Research and Creative Component Credits

Creative Component/Research credits may be graded as A, B, C, D, I, S, or F. Plus and minus grades are optional. These credits are not calculated in a student’s GPA.

Pass (P)/Not Pass (NP) Course Credit

Pass/Not Pass courses are those that a student, with the approval of the major professor, may take for personal enrichment, but not for satisfying prerequisites or deficiencies in the undergraduate background. P/NP marks may not be used in a POS, nor do P/NP marks contribute to the student’s GPA. Full credit for P/NP courses is used in calculating tuition assessment and credit load limitations. For more information, see the Graduate College Handbook.

Satisfactory/Fail (S/F) Grading

S/F grading is not the same as P/NP grading. S/F grading is by instructor option; all students in a particular course receive S/F grading. P/NP grading is generally a student option. A P mark is equivalent to at least a D- grade whereas an S mark is equivalent to at least a B grade at the graduate level. No special registration procedures are required for S/F grading. An S mark in a course taken S/F is not counted in the grade point average, but an F mark in a course taken S/F is counted in the grade point average and is equivalent to an F in a regularly graded (A-F) course. No more than 20 percent of the total credits (excluding creative component, thesis or dissertation research) in the program of study may be earned on an S/F basis. S/F grading may be used only for approved courses offered as seminars, symposia, workshops, special topics, and research. Programs must submit requests for S/F grading to the Dean of the Graduate College. The Graduate College Curriculum and Catalog Committee reviews and approves or rejects all S/F courses.
Grievances about Grades
A graduate student who feels that a course grade has been unjustly assigned, and whose attempts to resolve the matter with the instructor have failed, may appeal through the grievance procedures described in the Graduate College Handbook.

Probation
If a graduate student does not maintain a cumulative 3.0 grade point average on all course work taken, exclusive of research credit, he or she may be placed on academic probation by the Dean of the Graduate College. Grades earned by graduate students in undergraduate courses are included in the calculation of the grade point average. Academic probation judgment are made on the basis of grades in course work only. New, first-term, degree-seeking graduate students who fall below a 3.0 GPA at the end of their first semester will be given a one term grace period to bring their grades back to a 3.0 GPA. These students will receive a warning letter from the Graduate College.

While on academic probation a student will not be admitted to candidacy for a degree and if appointed to a graduate assistantship, the student will not receive a Graduate tuition scholarship unless approval is given by the student’s academic college. If a student is to qualify for a tuition scholarship, he/she must be removed from probation by the tenth class day of the term.

To insure that registration does not take place without a review by the program, the Graduate College places a hold on future registrations by a student on probation. Before the student registers for each term, the program must review his or her record and recommend in writing if the Graduate College should permit further registration. Before graduation is approved, the student must complete all courses listed on the program of study with a minimum grade of C and have achieved a 3.0 GPA or greater.

English Requirements for Non-native Speakers
Applicants whose native language is not English and who have not earned a bachelor’s or master’s in a country where the only official language is English, are required to submit Test of English as a Foreign Language (TOEFL) scores as part of the admission process. A minimum score of at least 79 on the TOEFL internet-based test or 550 on the paper-based test is required by the Graduate College. International students may also submit IELTS (International English Language Testing System) scores in lieu of the TOEFL. The ISU Graduate College minimum is 6.5. Because many programs require higher TOEFL and/or IELTS scores, applicants should check directly with the program to which they desire admission or browse the Graduate College Web site at www.grad-college.iastate.edu/programs/APprograms.php.

Graduate students whose native language is not English and who did not graduate from a U.S. institution must take an English Placement Test at the beginning of their first semester of enrollment. This test is administered by the Department of English. A student who does not pass this examination is assigned to one or more courses in English 99 and 101 series. This course work must be completed during the first year of graduate study. (There is a developmental course fee for the English 99 course.) Non-native English speaking ISU graduate students who meet or exceed the TOEFL scores (640 or above on the paper-based test or 105 on the internet-based test) are exempted from taking the Enlish Placement Test. (Self-enrollment in English 099 or 101 courses remains possible.

A graduate student whose native language is not English but did graduate from a U.S. institution, may bring to the Graduate College the “Request for the Graduate College to Approve the Graduate English Requirement for a Student Whose Native Language is NOT English” form, available from the Graduate College or on the Graduate College’s Web site at www.grad-college.iastate.edu/common/forms/student_forms.php. Two conditions must be met: the student must have received a bachelor’s, master’s, or Ph.D. degree from a U.S. college or university and the language of instruction at that college or university must have been in English.

New teaching assistants whose native language is not English are evaluated for their ability to communicate effectively in English before their assistantship assignments are made. The Oral English Certification Tests (OECT) are given before the beginning of each semester. The testing dates are announced on the International Teaching Assistants (ITA) program website. Registration for the test is held on line through links posted on the ITA program homepage, http://www.grad-college.iastate/speaketech, two to three weeks before the test is administered. TAs and faculty with questions about OECT testing should call 515-294-1958 or 515-294-7996. A prospective teaching assistant who does not pass these tests is required to successfully complete course work and be retested. English 180 is a series of communication courses designed to help new teaching assistants. Students focus upon pronunciation, listening, question-handling, teaching and lecturing skills, and analyze the culture of U.S. university life. Because enrollment is restricted, TAs cannot register for the courses online through AccessPlus. TAs must go to the ITA Office, 1137 Pearson immediately after they receive the test scores to obtain permission to enter the course by completing a course add slip.

Department/Program Change
Transferring from One Major/Program/Department to Another
Students who have been admitted to a graduate program and to the Graduate College may request to transfer at a later date to another department or program. Because graduate students are admitted to particular programs, transfers require the approval of both the receiving program and the Graduate College. Lasting interest and need must be documented and must be approved by the new program/sponsor. When a student receives a favorable preliminary response from the new program, he or she should fill out the student portion of the form entitled “Request to Transfer from One Major/Program/ Department to Another” and submit this form to his or her current DOGE. The current DOGE will fill out the Current Program Information adding any comments he or she believes the new program should consider and forward the form to the proposed new program. This form is available from the department, the Graduate College, or the Graduate College web page.

The receiving program will generally give the student the same consideration and employ the same admissions standards that are used for original applications for admission and will expect the same application materials (transcripts, letters of recommendation, test scores, etc). During the process, the new and old programs and the Graduate College are authorized and encouraged to seek and disclose information related to the student’s overall fitness for studies in the receiving program. Programs are authorized to discuss the student’s prior conduct at the university, both with the prior department and with the Dean of Students. Upon departmental action (acceptance or denial), the request to transfer form must be sent to the Graduate College for approval. All parties will receive a copy of the completed form from the Graduate College.

Students desiring to transfer from a degree-seeking status to a nondegree-seeking status need to fill out the “Request to Transfer from One Major/Program/Department to Nondegree” form and bring it to the Graduate College.

Students desiring to transfer from nondegree-seeking status to a degree-seeking status must be admitted by a program through the regular graduate admission process.

Curriculum Change from Active Graduate to Active Undergraduate Status
Individuals who were admitted to the Graduate College more than one year previous and who do not have active graduate status but who wish to change their status from inactive graduate to active undergraduate, must follow the same procedures required of reentering undergraduate students and must begin the process by filing a completed “Undergraduate Reentry” form with the Office of the Registrar. When considering reinstatement, the undergraduate college may consider the student’s overall fitness for continued studies including information about the student’s conduct, employment and education since the student’s last enrollment.

Individuals who do not have active graduate status and who first enrolled less than one year previous should first see the classification officer (1137 Pearson Hall). The classification officer will consult with the student and determine the proper course of action.

Curriculum Change from Inactive Graduate to Active Undergraduate Status
Individuals who were admitted to the Graduate College more than one year previous and who do not have active graduate status but who wish to change their status from inactive graduate to active undergraduate, must follow the same procedures required of reentering undergraduate students and must begin the process by filing a completed “Undergraduate Reentry” form with the Office of the Registrar. When considering reinstatement, the undergraduate college may consider the student’s overall fitness for continued studies including information about the student’s conduct, employment and education since the student’s last enrollment.

Individuals who do not have active graduate status and who first enrolled less than one year previous should first see the classification officer in the Graduate College.

Time Limits. It is expected that work for the master’s degree shall be completed within five years. In special circumstances the student’s POS committee may recommend that the Dean of the Graduate College extend these degree time limits. Cases in which the student leaves Iowa State during his or her graduate career and later returns are dealt with individually by the student’s POS committee and the Graduate College. The inclusion in the student’s program of study course work that is beyond the time limits (“over-age” courses) must be justified by the POS committee in a statement accompanying the submission of the program of study.

Application for Graduation. Students planning to graduate must submit an “Application for Graduation” form (diploma slip) to the Graduate Office by the end of the third week of the semester (fall or spring) in which they expect to receive the degree, or by the last day of spring semester when wishing to graduate during summer.
Before submitting this form, a student must have submitted and had approved by the Graduate College a “Recommendation for Committee Appointment” form and a “Program of Study” form. Also the student must have been fully admitted to a program and have met the Graduate English requirement if he/she is a non-native English speaker. Graduation may be delayed if the “Application for Graduation” form filing deadline is not met. If it becomes apparent that a student cannot graduate during the indicated term, he/she should call the Graduate College (515-294-4531) and cancel the previously submitted “Application for Graduation” form. The student must then file a new form for the next planned term of graduation.

Thesis. A master’s thesis is a scholarly composition that demonstrates the ability of the author to do independent and creative work. A thesis is required in all fields in which a master’s degree is awarded, except where specific provision is made for a nonthesis degree program. A minimum of three research credits is required on every program of study for a thesis master’s degree.

Responsibility for writing and editing of the thesis rests with the student, under the supervision of the major professor, and not with the Graduate College. The Graduate College does not permit joint authorship of theses. It is the responsibility of the major professor to supervise the preparation of preliminary and final drafts of the thesis to assure the highest level of quality when the student presents the thesis to the committee for final approval.

Copies of the thesis must be submitted to the members of the POS committee at least two weeks before the final oral examination.

All theses and dissertations will be submitted electronically after the final oral examination is held. Please browse the Graduate College’s web site (http://www.grad-college.iastate.edu/current/thesis for requirements, revised fees, and other pertinent information.

Shortly after the submission of the “Application for Graduation” form, a one-time, nonrefundable thesis fee is billed by the university accounting system. In addition, a graduation fee will be assessed by the Registrar’s Office. This fee is nonrefundable if a student does not cancel his/her graduation by the Graduate College’s cancellation deadline.

Creative Component. Most nonthesis students must present substantial evidence of individual accomplishment (e.g., a special report, capstone course, integrated field experience, annotated bibliography, research project, design, or other creative endeavor). A minimum of two credits of such independent work is required on those programs of study for a nonthesis master’s degree. Some programs require more credits. (For more information, contact the individual program or consult the Specific Master’s Degrees section in this catalog.) The element of creative independent study must be explicitly identified on the program of study. The format of the creative component is determined in cooperation with the POS committee. As with a thesis, a creative component should be submitted to members of the POS committee two weeks before the final oral examination. However, no final submission of a creative component is turned in to the Graduate College for review and approval.

Final Oral Examination. Most master’s candidates must pass final oral examinations. The final oral examination must be held by the final examination deadline date for the semester in which the degree is granted. All coursework in the program of study must either be completed or in progress before the final examination can be scheduled. This examination is oral; it may also include a written component if specified by the student’s (POS) committee.

Graduate students must register at Iowa State for the equivalent of two credits, or for the R-credit course if no course work is needed, during the semester in which the final examination is taken. (Graduate students who are not required to take a final oral examination should complete all required coursework on the POS prior to or during the term of graduation. Any transfer credits must be completed the term before the graduation term and follow normal transfer rules.) Taking only an R-credit course where the fee is not equivalent to the 2-credit minimum charge is not acceptable for the term of the final oral examination. If the examination is taken during the interim between terms (including the first day of classes), registration can be for either the term before or the term after the examination is held.

The candidate is responsible for initiating the “Request for Final Oral Examination” form, which must be submitted to the Graduate College at least three weeks before the examination. This form can be obtained only from the student’s program/department. The entire POS committee must be convened for the final oral examination. For more information on the final oral examination, see the Graduate College Handbook.

Graduate Student Approval Slip for Graduation. Every candidate for an advanced degree is required to complete a “Graduate Student Approval Slip for Graduation” form. It is sent to the major professor or program to give to the student after the “Request for Final Examination” form is received and approved by the Graduate College. Signatures are required by the major program, the Graduate College Thesis specialist (for those completing a thesis), and the Graduate College.

Clearance of academic requirements will be made when current term grades have been submitted and evaluated by the Graduate College.

All incompletes from previous terms must be completed by the deadline for completion of the Graduate Student Approval Slip.

Undergraduate Admission to Concurrent Graduate Degree/Certificate Programs

Several programs provide opportunities for qualified ISU juniors and seniors majoring in those curricula to apply for admission to both a bachelor’s and master’s degree. The graduate degree will be awarded only at the same time as, or after, the undergraduate degree is conferred. For a complete listing of the concurrent degree programs, consult the Graduate College Handbook, “Concurrent Degree Programs” on page 27 of the Handbook, http://www.grad-college.iastate.edu/common/handbook/.

Students interested in a research career may apply for graduate research assistantships during their last two years of study. Students should contact the graduate programs about applying early in their undergraduate careers.

Undergraduate students seeking admission to concurrent graduate degree programs in field other than these, plus any student with an interdepartmental major, must submit the appropriate concurrent form completed and a written proposal for an individualized program, co-signed by their advisers, to the Graduate College for review and approval. For more information about the application process and transferring credits, consult the Graduate College Handbook.

Veterinary Medicine Students in Concurrent Graduate Degree/Certificate Programs

Students may be concurrently enrolled in the professional curriculum leading to the D.V.M. degree and in a graduate program leading to the M.S. or Ph.D. degree after completion of 90 semester credits. The graduate program may be in the College of Veterinary Medicine or in another college.

Interested students must adhere to the following process:

• Complete a “Concurrent Enrollment for Graduate/Veterinary Medicine Degrees” form available on the web site at www.grad-college.iastate.edu/common/forms/index.php. This is a combination application/concurrent form.

• Submit the “Concurrent Enrollment Request” form to the Graduate College after appropriate signatures are obtained.

• Signed approvals on the concurrent form are required from the graduate program, the College of Veterinary Medicine, and the Graduate College. On admittance, the student receives an admission notification from the Office of Admissions. For more information see the Graduate College Handbook.

Graduate Students in Concurrent Undergraduate Programs

Graduate students interested in enrolling in a concurrent undergraduate program should contact the Office of Admissions (100 Enrollment Services Center) to obtain admission information (even if the student has been previously admitted as an undergraduate). An “Application for Graduate Student Wishing to Pursue a Concurrent Undergraduate Degree” form should be obtained from the Graduate College Web site at www.grad-college.iastate.edu/common/forms/index.php and circulated for the appropriate approvals.

• Official enrollment and fee payment will be as a graduate student.

• The graduate degree or graduate certificate will be awarded only at the same time as, or after, the undergraduate degree is conferred.

• Students interested in a research career may be able to apply for a graduate research assistantship while in a concurrent degree or graduate certificate program.

• Students in concurrent degree programs may, subject to Program of Study Committee approval, double count up to 6 ISU credits of major or nonmajor graduate credits courses for both a Bachelor’s degree and a certificate or a Master’s degree.
• For students pursuing a concurrent undergraduate bachelor's degree and a graduate certificate, at least 12 graduate credits cannot be double counted and a maximum of 6 graduate credits can be double counted for both the bachelor's degree and the graduate certificate (when the graduate certificate requires more than 12 credits).
• A student in a bachelor's and master's concurrent degree program cannot be on a Ph.D. track during the concurrent program.

A complete list of Concurrent Bachelor and Master Programs or Graduate Certificate Programs can be found in the Graduate College Handbook, pages 30-31. http://www.grad-college.iastate.edu/common/handbook

Master's Degrees

General Requirements

The Graduate College Handbook outlines the general requirements for completion of a graduate degree at ISU. Faculty in a major field have the responsibility for establishing educational objectives for their graduate program, including specific course requirements and research requirements appropriate to the master's programs in the major. These requirements may place additional responsibilities on the student, the major professor, or the student's program of study (POS) committee beyond those listed in the Graduate College Handbook as deemed appropriate to the goals of the major program.

Faculty and graduate students are active participants in the academic programs of Iowa State University. As active participants, they have a collective impact on the success of those programs and of the university in fulfilling its mission. Each graduate program is encouraged to implement a mechanism for responding to feedback from graduate students as a valuable resource for continuing improvement.

Appointment of the Student’s Program of Study (POS) Committee

New graduate students at ISU may be assigned a temporary academic adviser by the major program in the first semester of the student’s residence. This faculty member guides the student in selection of a field of study and in development of a graduate program of study until the major professor and POS committee are selected. After the POS committee has been selected, it guides and evaluates the student during the remainder of graduate study.

A master’s POS committee consists of at least three members of the graduate faculty. It must include two members, including the major professor, from the major or program. The committee must include member(s) from different fields of emphasis so as to ensure diversity of perspectives. A term member of the graduate faculty may participate in the direction of a student’s master’s research as a co-major professor if a member of the graduate faculty serves as a co-major professor and jointly accepts responsibility for the direction of a program of study. For more information on duties and makeup of the committee as well as changes to the committee makeup, see the Graduate College Handbook.

Program of Study. The student and major professor develop the program of study with the consultation and approval of the POS committee. This agreement between the student and the Graduate College should be submitted as early as possible for approval. It is recommended that the committee be formed and the POS form submitted as early as the second semester of graduate study. In no case can the committee and program of study be formed later than the term before the preliminary oral exam for Ph.D. students, and the final oral examination for master’s students.

Residency. There is no on-campus residency requirement for the master’s degree.

Credits. Unless otherwise noted, at least 30 credits of acceptable graduate work must be completed in all master’s programs. At least 22 graduate credits must be earned from Iowa State University.

Transfer Credits. At the discretion of the POS committee, and with the approval of the program and the Graduate College, graduate credits earned as a graduate student at another institution or through a distance education program offered by another institution may be transferred if the grade was B or better. Such courses must have been acceptable toward an advanced degree at that institution and must have been taught by individuals having graduate faculty status at the institution. If a student wishes to transfer credits from graduate courses taken at or through another university as an undergraduate student, it is the student’s responsibility to provide verification by letter from that institution that these graduate courses were not used to satisfy undergraduate requirements for a degree.

A transcript must accompany the POS in order to transfer credits. The POS committee may ask for other materials, such as a course outline or accreditation of the institution, to evaluate the course. Transfer courses not completed when the POS is submitted must be completed the term before the student graduates. A transcript must then be submitted for review and final approval.

Research credits earned at another institution are generally not transferred. In rare circumstances, the transfer of S or P marks may be accepted for research credits only. It is the responsibility of the POS committee to obtain a letter from the responsible faculty member at the other institution stating that research credits recommended for transfer with S or P marks are considered to be worthy of a B grade or better. Audits may be listed on the program of study, but do not carry credit.

Major. A major is an approved area of study leading to a graduate degree. The exact number of credits in a major is not prescribed.

Minor. Students may request a minor in any program approved to grant a graduate degree and in programs approved to offer only a minor. A student may not minor and major in the same field. Requirements for declared minors are determined by the minor program and the faculty member representing the minor field on the student’s POS committee.

The minor subject area must be tested at the final oral examination and cannot be placed on the transcript after graduation unless it was approved on the program of study, listed on all examination reports, and recorded on the “Application for Graduation” form (diploma slip). A minor cannot be added to a degree that has already been received.

Specific Master’s Degrees

The number of credits in a major for a master’s degree will vary according to various degrees. General credit requirements for all master’s degrees include: a minimum of 30 graduate credits is required for all master’s programs at ISU; at least 22 graduate credits must be earned at ISU; any transfer of graduate credits from another institution must be recommended in the program of study by the POS committee; and graduate credit earned as a graduate student will be approved for transfer only if a B grade or better was earned. A transcript must accompany the POS form. A complete listing of specific master’s degrees can be found in the Graduate Handbook, section E, page 107, http://www.grad-college.iastate.edu/common/handbook/. A complete listing of all master’s degrees can also be found online, http://www.grad-college.iastate.edu/academics/gradprograms/index.php.

Master’s Double Degree Programs

A double degree requires fulfillment of the requirements for two graduate majors for which two differently named master’s degrees and two diplomas are granted at the same time. For double degrees the final project (thesis or creative component) must integrate subject areas from both departments. One final oral examination must be held covering the combined thesis or creative component. Students planning to pursue double degrees must complete a double degree request form and submit it to the Dean of Graduate College for approval. Just one “Recommendation for Committee Appointment” form and one “Program of Study (POS)” form need to be submitted for the two degrees. However, two “Application for Graduation” forms, one for each degree, will need to be submitted. All forms should show clearly that the student is enrolled in a double-degree program.

Like other master’s programs, three graduate faculty members can constitute a POS committee; however, POS committees for double degrees must include co-major professors from each of the majors. Although specific degree programs may require more, the program of study must include at least 44 hours of non-overlapping credit (22 for each major) in the two degrees.

A complete listing of the Double Degree Programs can be found in the Graduate College Handbook, page 35, http://www.grad-college.iastate.edu/common/handbook/.

If a student outside one of the named areas is interested in an individually-developed double degree program, a written proposal for a double degree to serve those interests and needs must be submitted to the Dean of the Graduate College for review. See the Graduate College Handbook for more information.

Drake University Law School/Iowa State University Combined Degree

To provide training in the complementary fields of law, political science, and economics with a minimum amount of academic duplication, special arrangements for combined degree programs have been approved with the Drake University Law School. ISU and Drake offer a combined J.D.-M.A. in political science and J.D.-Ph.D. in economics. Drake Law School students are permitted to transfer the equivalent of nine semester credits of specified law courses to ISU for nonmajor graduate credit. Because of the difference in grading systems, the Law School grades are transferred as passes, provided the student has achieved a grade of C or better in those courses at Drake for the political science program or a grade of B or better for the economics program.
Applicants for either of the combined programs must meet the regular entrance requirements of, and be admitted to, both the Drake Law School and the ISU Graduate College.

**Doctor of Philosophy**

**General Requirements**

The degree doctor of philosophy is strongly research oriented. The primary requirements for the degree are:

- high attainment and proficiency of the candidate in his or her chosen field
- development of a dissertation which is a significant contribution to knowledge and which shows independent and creative thought and work
- successful passing of detailed examinations over the field of the candidate’s major work, with a satisfactory showing of preparation in related courses. General requirements for Ph.D. candidates follow.

The Graduate College Handbook outlines the general requirements for completion of a graduate degree at ISU. Faculty in a major field have the responsibility for establishing educational objectives for their graduate program, including specific course requirements and research requirements appropriate to the major’s or Ph.D. programs in the major. These requirements may place additional responsibilities on the student, the major professor, or the student’s program of study (POS) committee.

The POS committee may request by letter that the Dean of the Graduate College extend these time limits. Cases in which the student leaves Iowa State during his or her graduate career and later returns are dealt with individually by the student’s POS committee.

**Residency**

At least 24 semester credits must be earned during two consecutive semesters or during a continuous period including two semesters and a summer session. This requirement does not apply to doctoral students who are employed at least half-time by Iowa State University and government laboratories located in Ames. Of the 72 graduate credits required for a Ph.D. at least 36 credits, including all dissertation research credits, must be earned under the supervision of the student’s POS committee.

**Major**

A major is the area of study or academic concentration in which a student chooses to qualify for the award of a graduate degree. Majors are listed at the end of this section of the bulletin. Opportunities also exist for majoring in more than one area of study (co-major or joint major programs).

**Minor**

Students may request a minor in any program approved to grant a graduate degree and in programs approved to offer only a minor. Requirements for declared minors are determined by the minor program and the faculty member representing the minor field on the student’s POS committee. The minor subject area must be tested for Graduation” form (diploma slip). A student may not minor and major in the same program of study, listed on all examination reports, and recorded on the "Application for Graduation" form. A student may not minor field on the student’s POS committee. The minor subject area must be tested for Graduation” form (diploma slip). A student may not minor and major in the same program of study, listed on all examination reports, and recorded on the "Application for Graduation" form. A student may not minor field on the student’s POS committee. The minor subject area must be tested for Graduation” form (diploma slip). A student may not minor and major in the same program of study, listed on all examination reports, and recorded on the "Application for Graduation" form. A student may not minor and major in the same program of study, listed on all examination reports, and recorded on the "Application for Graduation" form. A student may not minor and major in the same program of study, listed on all examination reports, and recorded on the "Application for Graduation" form.

**Preliminary Examination**

A student beginning a Ph.D. degree program at Iowa State with a master’s degree from another institution is expected to complete the Ph.D. within five years, while a student beginning a Ph.D. degree program without the master’s degree is expected to complete the program within seven years. If warranted, the Program of Study (POS) Committee may request by letter that the Dean of the Graduate College extend these time limits. In cases in which the student leaves Iowa State during his or her graduate career and later returns are dealt with individually by the student’s program of study committee and the Graduate College. The inclusion in the program of study coursework that is beyond the time limits (“over-age” courses) must be justified by the POS committee in a statement accompanying the submission of the program of study.

**Preliminary Examination**

The Graduate College requires a preliminary oral examination of Ph.D. degree students; most programs add a written portion to the preliminary oral examination. The Ph.D. degree preliminary oral examination rigorously tests a graduate student’s knowledge of major, minor, and supporting subject areas as well as the student’s ability to analyze, organize, and present subject matter relevant to the field. A “Request for Preliminary Examination” form must be submitted to the Graduate College by the major professor at least two weeks before the proposed date of the examination.

The following conditions should be met before the “Request for Preliminary Examination” form is submitted to the Graduate College: admitted to full admission status in a Ph.D. granting program, approved “Recommendation for Committee Appointment” form, approved POS form, English requirement met, not on probation, time limit not exceeded, qualifying examination (if required by program) passed, and
registration for at least the equivalent of 2 credits, or for the R-credit course if no course work is needed, during the term in which the preliminary oral examination is taken. (Taking only an R-credit course where the fee is not equivalent to the 2-credit minimum charge is not acceptable for the term of the preliminary oral examination.)

A preliminary oral examination will not be scheduled for a student on provisional or restricted admission or who is on academic probation. Upon successful completion of the preliminary oral examination, the student is admitted to candidacy for the Ph.D. degree. If the graduate student fails all or part of the preliminary oral examination, the committee provides two options: gives a not pass and allows the student to retake the examination after six months or gives a not pass and does not allow the student to retake the examination. Six months must elapse between the first attempt and the next. The entire POS committee must be convened for the preliminary oral examination. The preliminary oral examination must be passed at least six months prior to the final oral examination. An exception to the rule is allowed if a request signed by the major professor(s) and the program’s DOGE is approved by the Dean of the Graduate College.

Application for Graduation

Application for graduation should be made by the end of the third week of the semester (fall or spring) in which the student expects to receive the degree, or by the last day of the spring semester if graduation is planned during summer session. To apply for graduation, the student is required to submit to the Graduate College a signed “Application for Graduation” form, available in the program office or on the web at www.grad-college.iastate.edu/forms/forms.html. Before submitting this form, a student must have submitted and had approved by the Graduate College a “Recommendation for Committee Appointment” form and a “Program of Study” form in the previous semester. Also the student must have been fully admitted to a program and have met the Graduate English requirement. Graduation may be delayed if the “Application for Graduation” form filing deadline is not met. If it becomes apparent that a student cannot graduate during the indicated term, he/she should call the Graduate College (515-294-4531) and cancel the previously submitted “Application for Graduation” form. The student must then file a new form for the next planned term of graduation.

Dissertation

A doctoral dissertation must demonstrate conclusively the ability of the author to conceive, design, conduct, and interpret independent, original, and creative research. It must attempt to describe significant original contributions to the advancement of knowledge and must demonstrate the ability to organize, analyze, and interpret data. In most instances, a dissertation includes a statement of purpose, a review of pertinent literature, a presentation of methodology and results obtained, and a critical interpretation of conclusions in relation to the findings of others. When appropriate, it involves a defense of objectives, design, and analytical procedures. Dissertation research should be worthy of publication and should appear in appropriate professional journals or in book form.

Responsibility for writing and editing of the dissertation rests with the student, under the supervision of the major professor, and not with the Graduate College. The Graduate College does not permit joint authorship of dissertations. It is the responsibility of the major professor to supervise the preparation of preliminary and final drafts of the dissertation, so as to assure the highest level of quality when the student presents the dissertation to the committee for final approval. Copies of the dissertation must be submitted to the POS committee at least two weeks before the final oral examination.

All theses and dissertations will be submitted electronically after the final oral examination is held. Please browse the Graduate College’s web site (http://www.grad-college.iastate.edu/current/thesis/) for new requirements, revised fees, and other pertinent information.

Shortly after the submission of the “Application for Graduation” form, a one-time, nonrefundable thesis fee is billed by the university accounting system. In addition, a graduation fee will be assessed by the Registrar’s Office. This fee is nonrefundable if a student does not cancel his/her graduation by the Graduate College’s cancellation deadline.

Final Oral Examination

The Ph.D. final oral examination, conducted after the dissertation is finished, is oral and often limited to a defense of the dissertation. To receive the degree at the end of a given semester, the student must hold the final oral examination before the final oral examination deadline for the semester.

The candidate is responsible for initiating the “Request for Final Oral Examination” form, which must be submitted to the Graduate College at least three weeks before the examination. This form can be obtained only from the student’s program/department. The entire POS committee must be convened for the final oral examination. For more information on the final oral examination, see the Graduate College Handbook.

Graduate Student Approval Slip for Graduation

Every candidate for an advanced degree is required to complete a “Graduate Student Approval Slip for Graduation” form. It is sent to the major professor or program to give to the student after the “Request for Final Examination” form is received and approved by the Graduate College. Signatures are required by the major professor, the Graduate College Thesis specialist, and the Graduate College. Final clearance of academic requirements will be made when current term grades have been submitted and evaluated by the Graduate College.

All incompletes from previous terms must be completed by the deadline for completion of the Graduate Student Approval Slip. An incomplete, non-report, or grades lower than a C that a student receives for the term of graduation will result in removal from that term’s graduation list. The student will need to complete a new Application for Graduation and Graduate Student Approval Slip for the new term of graduation. If a conditional pass was recommended at the final oral examination, the major professor and the committee members, if so specified, must notify the Graduate College in writing no later than the due date for the Graduate Student Approval Slip for the term of graduation that the conditions have been met.

Interdisciplinary Programs

Interdepartmental programs are available at both graduate and undergraduate levels. An interdepartmental program is an administrative structure usually not functioning as a department, ordinarily headed by a supervisory committee, and offering a degree with major(s) in that subject area. Interdepartmental programs have been officially approved and may offer courses.

See individual programs for information regarding admission and academic requirements.

Interdisciplinary Graduate Programs

Interdepartmental programs are available at both graduate and undergraduate levels. An interdepartmental program is an administrative structure usually not functioning as a department, ordinarily headed by a supervisory committee, and offering a degree with major(s) in that subject area. Interdepartmental programs have been officially approved and may offer courses.

See individual programs for information regarding admission and academic requirements; or see the Graduate College or specific program page for more information.

Bioinformatics and Computational Biology Graduate Program

Undergraduate Study

Undergraduates seeking a B.S. in Bioinformatics and Computational Biology should enroll in the undergraduate major BCBio, which is described in a separate section of this catalog. See Index, BCBio.

Undergraduates wishing to prepare for graduate study in Bioinformatics and Computational Biology should consider the undergraduate major in BCBio. Alternatively, they should obtain solid undergraduate training in at least one of the foundation disciplines: molecular biology, computer science, mathematics, statistics, and physics. They should also elect courses in basic biology, basic transmission and molecular genetics, chemistry, physics, mathematics at least through calculus, statistics, and computer programming.

Graduate Study

Work is offered for the master of science and doctor of philosophy degrees with a major in Bioinformatics and Computational Biology (BCB). Faculty are drawn from several departments: Agronomy; Animal Science; Astronomy and Physics; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemical and Biological Engineering; Chemistry; Computer Science; Ecology, Evolution, and Organismal Biology; Electrical and Computer Engineering; Entomology, Genetics, Development and Cell Biology; Materials Science and Engineering; Mathematics; Plant Pathology; Statistics; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

The BCB program emphasizes interdisciplinary training in nine related areas of focus: Bioinformatics, Computational Molecular Biology, Structural and Functional
Courses

Courses primarily for undergraduates:

BCB 444. Introduction to Bioinformatics.
(Cross-listed with BIOL, BCBIO, COM S, CPR E, GEN). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative, functional genomics, and systems biology.

BCB 490. Independent Study.
Cr. 1-5. Repealable, maximum of 9 credits. F.S.S.S. Prereq: Permission of instructor

Courses primarily for graduate students, open to qualified undergraduates:

BCB 544. Introduction to Bioinformatics.
(Cross-listed with GDCB, CPR E, COM S). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative, functional genomics, and systems biology.

BCB 567. Bioinformatics I (Fundamentals of Genome Informatics).

BCB 566. Bioinformatics II (Advanced Genome Informatics).

BCB 569. Bioinformatics III (Structural Genome Informatics).
(Cross-listed with GDCB, BIOL 315, STAT 430, credit enrollment in GEN 411, STAT 430 Algorithmic and statistical approaches in structural genomics including protein, DNA and RNA structure. Structure determination, refinement, representation, comparison, visualization, and modeling. Analysis and prediction of protein secondary and tertiary structure, disorder, protein cores and surfaces, protein–protein and protein-nucleic acid interactions, protein localization and function.

BCB 570. Bioinformatics IV (Computational Functional Genomics and Systems Biology).

BCB 590. Special Topics. Cr. arr. Repeatable. Prereq: Permission of instructor

BCB 593. Workshop in Bioinformatics and Computational Biology.
(1-0) Cr. 1. Repeatable. F.S. Current topics in bioinformatics and computational biology research. Lectures by off-campus experts. Students read background literature, attend preparatory seminars, attend all lectures, meet with lecturers.

BCB 596. Genomic Data Processing.
(Cross-listed with COM S, GDCB). (3-0) Cr. 3. F. Prereq: Some experience in computation
Study the practical aspects of genomic data processing with an emphasis on hands-on projects. Topics include: base-calling, sequence cleaning and contaminant removal; fragment assembly procedures and EST clustering methods; genome closure strategies and practices; sequence homology search and function prediction; and annotation and submission of GenBank reports. Next-generation sequencing topics include: model genome resequencing, short-read assembly and transcriptome abundance measurement will also be covered.

BCB 598. Cooperative Education. Cr. R. Repeatable. F.S.S.S. Prereq: Permission of the program chair
Off-campus work periods for graduate students in the field of bioinformatics and computational biology.

BCB 599. Creative Component. Cr. arr.
Courses for graduate students:

**BCB 660. Selected Topics in Bioinformatics and Computational Biology.**
(3-0) Cr. 1-4. Repeatable, maximum of 4 times. F.S.SS. *Prereq: Permission of Instructor*
Topics of interest in the major research areas of computational molecular biology, including genomics, structural genomics, functional genomics, and computational systems biology.

**BCB 690. Student Seminar in Bioinformatics and Computational Biology.**
Cr. 1. Repeatable. S.
Student research presentations.

**BCB 691. Faculty Seminar in Bioinformatics and Computational Biology.**
(1-0) Cr. 1. Repeatable. Faculty research series.

**BCB 697. Graduate Research Rotation.**
Cr. arr. Repeatable. F.S.SS.
Graduate research projects performed under the supervision of selected faculty members in the Bioinformatics and Computational Biology major.

**BCB 699. Research.**
Cr. arr. Repeatable.

## Biorenewable Chemicals

**Administered by the Center for Biorenewable Chemicals (CBiRC)**

The core mission of the NSF Engineering Research Center for Biorenewable Chemicals (CBiRC) is to transform the chemical industry by integrating biological and chemical catalysis systems to create a generalized framework for producing biorenewable chemicals. The minor in Biorenewable Chemicals allows students from a variety of allied disciplines to understand the opportunities for developing biorenewable chemicals via a combination of biocatalytic and chemical catalysis steps. In addition to coursework in core technical areas, students in the minor get explicit entrepreneurial training, a background in the general issues related to production and processing of biorenewable resources, exposure to the economic and environmental realities of the chemical industry. Students in the minor are disciplinary experts (in programs such as Chemical Engineering, Chemistry, and Biochemistry, Biophysics, and Molecular Biology) who are interdisciplinary trained to become globally competitive graduates capable of developing integrated chemical/biological processing systems.

## Courses

### Courses primarily for graduate students, open to qualified undergraduates:

**BR C 506. The Evolving Chemical Industry.**
(1-0) Cr. 1.
An overview of the chemical industry including structure and its evolution. Discussion of the dynamics of recent introduction of biorenewable chemicals to the chemical industry.

**BR C 507. Entrepreneurship in Biorenewables.**
(Cross-listed with BRT). (1-0) Cr. 1. S. *Prereq: Graduate Standing or Permission of Instructor*
Develop an understanding of the relationship between discovery research, entrepreneurship and innovation in biorenewables. Understand critical technocommercial analyses and intellectual property. Learn critical skills needed to found a company, including how to define key assets, write a business plan, leverage local resources, and secure funding.

### Biorenewable Resources and Technology

(Interdisciplinary Graduate Program)

Dr. Jacqulyn A. Baughman, BRT Director of Graduate Education (DOGE)

Janice Meyer, BRT Secretary

Over 160 ISU faculty affiliated members, 29 departments in all seven colleges and 20 research centers and institutes are involved in this highly interdisciplinary graduate program. A complete and up-to-date listing is maintained at www.biorenew.iastate.edu.

## Graduate Study

The graduate program in Biorenewable Resources and Technology (BRT) offers students advanced study in utilizing plant and crop-based resources in the production of biobased products (fuels, chemicals, materials, and energy). The BRT program was the first graduate program in biorenewable resources established in the United States. This multi-disciplinary program offers the degrees of master of science and doctor of philosophy in Biorenewable Resources and Technology, and a minor to students taking major work in other departments. The curriculum is designed to encourage students to obtain co-major degrees in Biorenewable Resources and Technology and a more traditional science or engineering discipline. A thesis is required for the master of science degree.

Prerequisite to major graduate work is a bachelor’s degree or prior graduate training in engineering or a physical or biological discipline, including agricultural sciences.

### Core Required Courses: 501, 506B &C, 590, and 591L or BRT 507

The core required courses (6 credits min. required) for the Biorenewable Resources and Technology graduate program include:

- **BRT 501** Fundamental of Biorenewable Resources 3
- **BRT 506A** Biobased Products Seminar: Online (Certificate only) 1
- **BRT 506B** Biobased Products Seminar: Seminars and Research Symposium Attendance R
- **BRT 506C** Biobased Products Seminar: Research Presentations 1
- **BRT 590** Special Topics 1-3
- **BRT 591L** Biorenewable Resources Laboratory (OR) 1
- **BRT 507** Entrepreneurship in Biorenewables 1

Total Credits 8-10

Students must complete "approved" core elective courses from at least three of the four bioeconomic development barrier areas: plant science, production, processing, and utilization. These are selected in consultation with the student’s Program of Study (POS) committee. Additionally, students are to complete the determined amount of elective credits required for their degree, and in consultation with their POS committee, as well as research credits.

Graduates of the program will be equipped with skills to design, develop and/or manage cost effective and environmentally attractive technologies and systems for producing fuels, chemicals, materials, foods and energy from biorenewable resources.

Information on application procedures, specific requirements of the major and the online BRT Graduate Certificate can be obtained from the following Internet address: www.biorenew.iastate.edu

## Courses

### Courses primarily for graduate students, open to qualified undergraduates:

**BRT 501. Fundamentals of Biorenewable Resources.**
(Cross-listed with A E). (3-0) Cr. 3. S. *Prereq: Undergraduate training in an engineering or physical or biological discipline or degrees in agriculture or economics*
Introduction to the science and engineering of converting biorenewable resources into bioenergy and biobased products. Survey of biorenewable resource base and properties; description of biobased products; methods of biorenewable resource production; processing technologies for fuels, chemicals, materials, and energy; environmental impacts; economics of biobased products and bioenergy.
Courses for graduate students:

BRT 610. Food & Bioprocessing Enzymology. (Cross-listed with FS HN, (2-3) Cr. 3. Alt., offered 2012. Prereq: FS HN 311 or FS HN 411 or FS HN 502 or BBMB 404 Properties of enzymes important in food processing including flavor, texture and color and in biofuels & bioprocessing. Quantitative evaluation of substrates, enzyme inhibitors, pH, pressure and temperature on enzyme activity. Experimental determination of specificity and mechanisms important to food and bioprocessing biochemistry. Techniques to purify food and bioprocessing enzymes.

Dietetics - Graduate Program

Interinstitution Graduate program

Participating institutions: Iowa State University; Colorado State University; Kansas State University; Michigan State University; Montana State University; North Dakota State University; Oklahoma State University; South Dakota State University; University of Kansas Medical Center; University of Nebraska.

Dietetics is an interinstitutional distance education program offered through the Web. The student selects a home institution, which grants the degree. After admission at the home institution, the student takes courses from each of the ten institutions: Iowa State University; Colorado State University; Kansas State University; Michigan State University; Montana State University; North Dakota State University; Oklahoma State University; South Dakota State University; University of Kansas Medical Center, and University of Nebraska.

At Iowa State University, Dietetics is a specialization within the Master of Family and Consumer Sciences degree program (MFCS-Diet) that consists of 36 credits. This is a non-thesis option and a special project or creative component is required. Students typically complete the program in 6-8 semesters while employed full-time. Admission is limited to those who are Registered Dietitians or Registration-eligible Dietitians. A computer with minimum specifications, web access, and an email address are required for completing the program.

Admission procedures: Admission to the MFCS-Diet program requires exactly the same procedures as admission to the Graduate College. See Graduate College section of this catalog.

Registration: Students choosing to receive their degree from Iowa State University complete all the admissions, registration and fee payment processes through ISU. The department cooperates in the interinstitution Master of Family and Consumer Sciences program to offer a specialization in Dietetics. The Master of Family and Consumer Sciences-Dietetics is designed for the Registered Dietitian or Registration-eligible Dietitian. The 36 credit program is non-thesis and seeks to develop research skills, stimulate independent thought, and provide up-to-date knowledge in foods, nutrition, and foodservice/business management. This program prepares individuals to integrate and apply the principles from the biomedical sciences, human behavior, and management to design and lead effective food and nutrition programs in a variety of settings. Students may build a program of study from offerings of the partner institutions such as human nutrition, nutrient metabolism, biostatistics, health promotion/disease prevention, foodservice systems management, food science, lifespan nutrition, wellness, entrepreneurship, nutrition education, nutritional assessment and food safety. The online program is tailored for credentialed, practicing dietetics professionals who seek to enhance their knowledge in a specific area of dietetics practice or retool for new career opportunities in dietetics practice.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

DIET 511. Research Methods. (3-0) Cr. 3. F.S. Prereq: enrollment in GP-IDEA MFCS in Dietetics An overview of diverse research approaches focusing on methods for collecting and analyzing quantitative and qualitative data. www only. Only one of DIET 511 or FCEDS 511 may count toward graduation.
DIET 524. Financial Management and Cost Controls in Dietetics. (3-0) Cr. 3. SS. Prereq: Enrollment in GP-IDEA MFCS in Dietetics
Overview of the fundamental knowledge of financial management, managerial accounting, and operational cost controls for dietetics professionals. Topics include a review of managerial accounting concepts for not-for-profit organizations and for-profit organizations based on the Uniform System of Accounts, value and risk analysis, budgeting, asset management, franchising and management contracts, cost-volume-profit analyses, and operational applications for financial performance.

DIET 527. Food Writing. (3-0) Cr. 3. F. Prereq: Enrollment in GP-IDEA MFCS in Dietetics
Understanding and appreciating how to communicate effectively in writing about food and food-related topics. Hands-on experience in research and writing for various audiences and types of media.

DIET 530. Nutrition in Wellness. (3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Addresses wellness promotion through nutrition. Nutritional risk and protective factors will be examined in relation to public health and individual nutrition. www only.

DIET 532. Maternal and Child Nutrition. (3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Critical examination of behavioral, physiological, and public health issues impacting dietary and nutritional factors that support normal growth and development. Content focuses on early stages of the life cycle: gestation, lactation, infancy, preschool, school age, and adolescence. www only.

DIET 534. Nutrition Education in the Community. (3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Principles and practices of teaching individuals and groups to translate nutrition knowledge into action. Emphasis on research in and evaluation of nutrition education. www only.

DIET 538. Nutrition: A Focus on Life Stages. (3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Explores influence of normal physiological stresses on nutritional needs throughout the life span. Evaluates dietary intake and identification of appropriate community nutrition services in on-line discussions. Specific considerations, such as the influence of age and cultural heritage, are incorporated. www only.

DIET 540. Nutrition and Physical Activity in Aging. (Cross-listed with GERON). (3-0) Cr. 3. Alt. F., offered 2012. WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

DIET 544. Pediatric Clinical Nutrition. (3-0) Cr. 3. F. Prereq: enrollment in GP-IDEA MFCS in dietetics
Examines the physiological, biochemical and nutritional aspects of disease processes relevant to infants and children up to 18 years of age. Discussion of medical nutrition therapy for a variety of medical conditions in this population including inborn errors of metabolism, food hypersensitivity, obesity, and diseases of the major organ systems. www only.

DIET 546. Phytochemicals. (3-0) Cr. 3. F. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Overview of phytochemicals (non-nutritive biologically active compounds) from fruits, vegetables, cereals and oilseeds. Covers recent findings of chemistry, physiological functions, and potential health implications of phytochemicals. www only.

DIET 548. Professional Development Assessment. (1-0) Cr. 1. F.S.SS. Prereq: Enrollment in GPIDIA MFCS in Dietetics
Web-based course providing information and practice for student to assess and evaluate own professional development and continuing professional education needs. Completion of professional 5-year plan. Offered on a satisfactory-fail basis only.

DIET 550. Finance and Cost Controls. (3-0) Cr. 3. F. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Overview of the fundamental knowledge of hospitality managerial accounting, cost controls, and financial management. Important topics include financial statement analysis, cost concepts, cost-volume-profit analysis, calculating and controlling food and beverage costs, pricing, and capital budgeting. www only.

DIET 554. Statistics. (3-0) Cr. 3. SSS. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Tools used to make statistical decisions. Major emphasis on explanation and understanding of important concepts involved; basic theme is understanding of data and methods used to analyze such data. www only. Only one of DIET 554 or Stat 401, 495, 542 may count toward graduation by students in the GPIDEA Dietetics program.

DIET 555. Advanced Nutrition: Micronutrients. (3-0) Cr. 3. S. Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics
Integration of the molecular, cellular and physiological aspects of vitamins and minerals in mammalian systems. Interactions among nutrients, metabolic consequences of deficiencies or excesses, relevant polymorphisms, major research methodologies, and current topics related to micronutrients and non-nutrient components. www only. Only one of DIET 556 or NUTRS 502 may count toward graduation.

DIET 558. Advanced Nutrition: Macronutrients. (3-0) Cr. 3. F. Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics
Integration of the molecular, cellular and physiological aspects of macronutrients and energy metabolism in mammalian systems. Dietary energy, carbohydrates, fiber, lipids, proteins, their interactions, metabolic consequences, and major research methodologies. www only. Only one of DIET 558 or NUTRS 501 may count toward graduation.

DIET 560. Medical Nutrition and Disease. (3-0) Cr. 3. F.S.SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention directed to medical nutrition needs of patients in the treatment of each disease state. www only. Only two of DIET 560 or NUTRS 561, 564 may count toward graduation.

DIET 565. Malnutrition in Low-Income Countries. (3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Identification and assessment of malnutrition in low-income countries. Social, cultural, political, economic, and geographic determinants of malnutrition. Protein-energy malnutrition, vitamin and mineral deficiencies. Intervention approaches; international efforts and local sustainability. www only.

DIET 566. Nutrition Counseling and Education Methods. (Dual-listed with DIET 466). (Cross-listed with NUTRS). (2-2) Cr. 3. F.S. Prereq: Graduate student status
Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

DIET 567. Nutrition for Dietitians. (3-0) Cr. 3. Alt. F., offered 2011. Prereq: DIET 360; BBMB 301, undergraduate course in physiology; enrollment in GP-IDEA MFCS in Dietetics
Study of the current scientific literature to evaluate current trends and issues in nutrition science and dietetic practice. Emerging areas of research investigating the role of nutrients in health and disease in humans will be explored. Emphasis on the impact of emerging research on nutrition recommendations and interventions designed to promote human health. www only.

DIET 568. Entrepreneurship in Dietetics. (3-0) Cr. 3. F. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Definition and discussion of entrepreneurship and its importance to economic and business environment. www only.

DIET 569. Dietary and Herbal Supplements. (3-0) Cr. 3. SS. Prereq: Enrollment in GP-IDEA MFCS in Dietetics
Develop skills to partner with patients in making dietary supplement decisions. Explore the safe, efficacious use of botanicals and supplements in nutritional support of aging, maternal health and wellness. Discussions on supplementation in the prevention and treatment of chronic disease include: arthritis, cancer, cardiovascular, diabetes, digestive, liver and renal disorders.

DIET 570. Nutrition and Human Performance. (3-0) Cr. 3. S. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Develop an understanding of nutrition based on knowledge of the biochemical and physiological process and functions of specific nutrients in meeting nutritional requirements. Emphasis on the relationship of optimal nutrition and physical efficiency and performance. www only.

DIET 572. Environmental Scanning and Analysis of Current Issues in Dietetics. (3-0) Cr. 3. F.S. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Overview of current topics, issues, and trends in dietetics practice. www only.

DIET 573. Administration of Health Care Organizations. (3-0) Cr. 3. SS. Prereq: enrollment in GP-IDEA MFCS in Dietetics
A comprehensive review of today's health care institutions and their response to the economics, social, ethical, political, legal, technological, and ecological environments. www only.
**DIET 595. Proposal and Grant Writing for the Working Professional.**
(3-0) Cr. 3. F. Prereq: enrollment in GP-IDEA MFCS in Dietetics
Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Designed for the working professional. www only.

**DIET 599. Creative Component.**
Cr. arr. Repeatable. F.S.SS. Prereq: Enrollment in GPIDEA MS Dietetics
For non-thesis option only.

**Ecology and Evolutionary Biology**

**Interdepartmental Graduate Major**

The ecology and evolutionary biology (EEB) interdepartmental major is offered through a faculty in eleven different departments. Faculty from the departments of Agronomy, Anthropology; Ecology, Evolution & Organismal Biology; Entomology; Genetics, Development & Cell Biology; Geological & Atmospheric Sciences; Horticulture; Mathematics; Natural Resource Ecology & Management; Plant Pathology; and Statistics cooperate to offer courses and direct research leading to the MS and PhD degrees in ecology and evolutionary biology.

Applicants should have completed an undergraduate or master of science or arts degree in one of the biological, physical, or mathematical sciences. Applicants also should have taken undergraduate courses in both basic ecology and evolution.

The EEB major is designed for students interested in the study of mechanisms controlling the composition, structure, and functional processes of ecological systems and the mechanisms that regulate the pattern and rate of evolutionary change within and among species.

The EEB curriculum includes a core course, seminar courses, and an extended field trip. In addition, offerings are available in the ethics and practice of research in the biological sciences. Cooperating departments provide courses and research opportunities in population, community, and ecosystems ecology; landscape ecology, modeling, and spatial dynamics; systematics, biodiversity, and biogeography; physiological and behavioral ecology; conservation and restoration ecology; agroecology; natural resources ecology and management; evolutionary ecology; population, quantitative, and evolutionary genetics; and environmental statistics, stochastic modeling, and quantitative ecology and evolution.

Students majoring in EEB are trained for careers focused on basic or applied ecology and evolutionary biology in a variety of settings, including academia, government, industry, and private organizations. Graduates have a broad understanding of ecology and evolutionary biology, experience designing and conducting research, writing grant proposals, and communicating effectively with scientific colleagues at meetings and through publications.

Information on application procedures, research interests of the faculty, and specific requirements of the major may be obtained from the EEB web site www.grad-college.iastate.edu/EEB, or by contacting eeboffice@iastate.edu.

**Courses**

**Courses primarily for graduate students, open to qualified undergraduates:**

**EEB 511. Conceptual Foundations in Ecology and Evolutionary Biology.**
(3-2) Cr. 4. F. Prereq: Graduate classification
Introduction to key figures and ideas that have shaped the development of ecology and evolutionary biology. Covers major developments in ecology and evolutionary biology at five levels of biological organization: Genome, Organism, Population, Community, and Ecosystem. Impacts of these developments on current approaches to investigation and argument formulation. Effects of technological advances on the direction of scientific investigations. Introduction to analytical skills important for critical thinking in ecology and evolutionary biology and the impact of accepted lines of scientific reasoning on the objectives and conduct of research, such as explanation and prediction, design of studies as experimentation, and structured or unstructured observation.

**EEB 585. Extended Field Trip.**
(0-6) Cr. 2. Repeatable. S. Prereq: Graduate classification
Annual field trip to a region of North America to study the major terrestrial and aquatic ecosystem types. Report required.

**EEB 589. Special Topics.**
Cr. 1-3. Repeatable. F.S.SS. Prereq: Graduate classification and permission of instructor
For students wishing to conduct in-depth study of a particular topic in ecology and evolutionary biology.

**Courses for graduate students:**

**EEB 698. Seminar.**
(1-0) Cr. 1. Repeatable. F.S.
Reports and discussion of recent research and literature.

**EEB 699. Research.**
Cr. arr. Repeatable. F.S.SS.
Thesis and dissertation research.

**Genetics - Interdepartmental**

e-mail: genetics@iastate.edu

**Undergraduate Preparation**

Undergraduates wishing to prepare for graduate study in Genetics should elect courses in basic biology, chemistry at least through organic chemistry, one year of college-level physics, mathematics at least through calculus, at least one thorough course in basic transmission and molecular genetics, one semester of upper level statistics and one semester of upper level biochemistry. Incoming students who have not completed an upper level statistics course and an upper level biochemistry course prior to beginning in the program will take STAT 401 Statistical Methods for Research Workers and BBMB 404 Biochemistry I during their first year of graduate training. A waiver may be requested for these courses by providing appropriate documentation (catalog description and syllabus) to the curriculum committee showing completion of an upper level statistics and upper level biochemistry course equivalent to STAT 401 Statistical Methods for Research Workers and BBMB 404 Biochemistry I.

See Genetics - Undergraduate (p. 208) for information on a bachelor of science degree in Genetics.

**Graduate Study**

Work is offered for the master of science and doctor of philosophy degrees with a major in Genetics in fourteen cooperating departments: Agronomy; Animal Science; Biochemistry; Biophysics and Molecular Biology; Biomedical Sciences; Ecology, Evolution and Organismal Biology; Entomology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Horticulture; Plant Pathology and Microbiology; Natural Resource Ecology and Management; Statistics; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

The diversity of faculty in the Interdepartmental Genetics major ensures a broad, well-balanced education from the best instructors, while offering flexibility in choice of research area. Genetics faculty have strengths in many areas, from fundamental studies at the molecular, cellular, organismal, and population levels, to research with immediate practical application. Ongoing research projects span all the major areas of theoretical and experimental genetics, including genomics, molecular studies of gene regulation, gene mapping, genetics of disease, transposable element studies, developmental genetics, quantitative and statistical genetics, computational molecular biology, evolutionary genetics, and population genetics.

Students are admitted by the approval of the Chair after review by the Genetics Admissions Committee. Students are admitted either to participate in research rotations with several faculty before deciding on a major professor and laboratory, or by direct admission into a specific lab and department. First year students participating in rotations with Genetics faculty will take GENET 697 Graduate Research Rotation.

All Ph.D. candidates take a core curriculum comprising one course each from the following four categories and attend seminars and workshops as described:

**Transmission Genetics**
- GDCB 510
- Molecular Genetics

**Molecular Genetics**
- GDCB 511

**Quantitative, Population, and Evolutionary Genetics**
- AN S 551
- AGRON 561
- Population and Quantitative Genetics for Breeding
- EECB 562
- Evolutionary Genetics

"Colleges and Curricula" 678
Courses

EEOB 563 Molecular Phylogenetics
EEOB 566 Molecular Evolution
EEOB 567 Empirical Population Genetics
GDCB 536 Statistical Genetics
Genomics, Bioinformatics and Statistical Genetics
AN S 556 Current Topics in Genome Analysis
BCB 544 Introduction to Bioinformatics
STAT 516 Statistical Design and Analysis of Gene Expression Experiments
BCB 567 Bioinformatics I (Fundamentals of Genome Informatics)
BCB 568 Bioinformatics II (Advanced Genome Informatics)
BCB 569 Bioinformatics III (Structural Genome Informatics)
BCB 570 Bioinformatics IV (Computational Functional Genomics and Systems Biology)
BCB 596 Genomic Data Processing
EEOB 540X Evolution of Developmental Processes (experimental course)

Students will give three research presentations (GENET 690 Graduate Student Seminar in Genetics), attend two genetics faculty seminar series (GENET 691 Faculty Seminar in Genetics), and participate in three Workshops in Genetics (GENET 591 Workshop in Genetics) during their training period. First-year graduate students will also take GENET 692 Conceptual Foundations of Genetics.

Students may elect a computational molecular biology specialty within the genetics major. This requires that the research project be in the field of computational molecular biology. IG majors will be expected to complete all of the courses required for the major, except that one semester of BCB 690 Student Seminar in Bioinformatics and Computational Biology can be substituted for GENET 690 Graduate Student Seminar in Genetics. Students will be expected to take additional courses in the area of specialization.

M.S. students will take the above core courses and seminars with the following changes: participate in two of the Workshops in Genetics (GENET 591 Workshop in Genetics) and present their research once (GENET 690 Graduate Student Seminar in Genetics). Additional coursework may be selected to satisfy individual interests or departmental requirements.

The course designator Genet applies to graduate courses taught by the interdepartmental major in Genetics.

Students wishing to minor in genetics must submit a complete application to the graduate program. Requirements for the successful completion of a minor at the Ph.D. or M.S. levels are: completion of three of the four categories of the common-core required lecture courses listed above. One semester of seminar in Genetics is recommended.

GENET 690 Graduate Student Seminar in Genetics
GENET 691 Faculty Seminar in Genetics
GENET 692 Conceptual Foundations of Genetics

One member of the POS committee must be a Genetics faculty member.

Student Outcomes: Most students awarded doctoral degrees continue their training as postdoctoral associates at major research institutions in the U.S. or abroad in preparation for research and/or teaching positions in academia, industry, or government. A few go directly to permanent research positions in industry. Many students awarded master’s degrees continue their training as doctoral students; however, some choose research support positions in academia, industry, or government. A more thorough list of outcomes is available at our web site.

Courses primarily for graduate students, open to qualified undergraduates:

GENET 539. Ethics and Biological Sciences.
(2-0) Cr. 2. S.
Introduction to Bioethics through case study discussion and recent news events. Students will read and discuss contemporary issues in science ethics, including some of the following topics: ethics and responsible research practice, animal ethics and the use of animals in teaching and research, cloning, human reproductive and stem cell research, regulation of genetically modified crops and foods, plant biotechnology, gene patents. Students will be divided into groups to develop their own case study, to be presented in class at the end of the term. Offered on a satisfactory-fail basis only. Offered on a satisfactory-fail basis only.

(Cross-listed with AGRON, AN S, BBMB, BCB, CH E, CPR E, EEB, HORT, M E, MICRO). Cr. arr. Prereq: Graduate Classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

GENET 565A. Responsible Conduct of Research. (Cr. 1.0), F.
(Cross-listed with AGRON, AN S, BBMB, BCB, CH E, CPR E, EEB, HORT, M E, MICRO). Cr. arr. Prereq: Graduate Classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

GENET 565B. Working with Industry. (Cr. 0.5).
(Cross-listed with AGRON, AN S, BBMB, BCB, CH E, CPR E, EEB, HORT, M E, MICRO). Cr. arr. Prereq: Graduate Classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

GENET 565C. Communications in Science. (Cr. 0.5). Alt S., offered 2011. Reading and reviewing manuscripts; publishing papers; oral and poster presentations.
(Cross-listed with AGRON, AN S, BBMB, BCB, CH E, CPR E, EEB, HORT, M E, MICRO). Cr. arr. Prereq: Graduate Classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

GENET 565D. Time Management and Mentoring. (Cr. 0.5). Alt F., offered 2012. Balancing life and career; mentoring; lab management.
(Cross-listed with AGRON, AN S, BBMB, BCB, CH E, CPR E, EEB, HORT, M E, MICRO). Cr. arr. Prereq: Graduate Classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

GENET 565E. The Interview Process. (Cr. 0.5). Alt S., offered 2012. Applying and interviewing for academia, industry and government.
(Cross-listed with AGRON, AN S, BBMB, BCB, CH E, CPR E, EEB, HORT, M E, MICRO). Cr. arr. Prereq: Graduate Classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

GENET 565F. Grant Writing. (Cr. 1.0). Alt F., offered 2011. Writing a winning proposal.
(Cross-listed with AGRON, AN S, BBMB, BCB, CH E, CPR E, EEB, HORT, M E, MICRO). Cr. arr. Prereq: Graduate Classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

GENET 565G. Teaching. (Cr. 0.5).
(Cross-listed with AGRON, AN S, BBMB, BCB, CH E, CPR E, EEB, HORT, M E, MICRO). Cr. arr. Prereq: Graduate Classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

GENET 565S. Establishing productive collaborations with industry.
(Cross-listed with AGRON, AN S, BBMB, BCB, CH E, CPR E, EEB, HORT, M E, MICRO). Cr. arr. Prereq: Graduate Classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

GENET 590. Special Topics.
Cr. arr. Repeatable. F,S,SS.
Contact individual faculty for special projects or topics. Graded.
Courses for graduate students:

GENET 690. Graduate Student Seminar in Genetics.  
(1-0) Cr. 1. Repeatable. F.S.  
**Prereq:** Permission of instructor.  
Research presentations by students to improve their ability to: orally present scientific work in a clear and meaningful way, critically evaluate oral presentations, and give and receive constructive criticism. Students may enroll in one seminar per school year.

GENET 691. Faculty Seminar in Genetics.  
(1-0) Cr. 1. Repeatable. F.S.  
**Prereq:** Permission of instructor.  
Faculty research seminars that introduce students to the variety of genetics research projects on campus and provide an opportunity for students to become engaged in the scientific presentation to the point where they can think critically and ask meaningful questions.

(1-0) Cr. 1. F.  
**Prereq:** Permission of instructor.  
Landmark papers in the development of genetics concepts. Papers are presented and discussions led by students, guided and mentored by the instructors. Instructors provide a broad overview and history of the development of fundamental concepts in genetics.

GENET 697. Graduate Research Rotation.  
Cr. arr. Repeatable. F.S.S.S.  
Graduate research projects performed under the supervision of selected faculty members in the graduate Genetics major.

GENET 699. Research.  
Cr. arr. Repeatable. F.S.S.S.

Graduate Studies

No major is granted in Graduate Studies. At the recommendation of the major professor and/or the department chair, graduate students may enroll in the Graduate Studies (GR ST) courses to fulfill certain enrollment requirements.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

GR ST 565. Responsible Conduct of Research in Science and Engineering.  
(1-0) Cr. 1. F.S.  
**Prereq:** Graduate classification.  
Ethical and legal issues facing researchers in the sciences and engineering.

GR ST 566. Communications in Science.  
(0-5-0) Cr. 0.5. Alt. S., offered 2013.  
**Prereq:** graduate classification.  
Reading and reviewing manuscripts; publishing papers; oral and poster presentations.

GR ST 567. Time Management and Mentoring.  
(0-5-0) Cr. 0.5. Alt. F., offered 2012.  
**Prereq:** graduate classification.  
Balancing life and career; mentoring; lab management.

GR ST 568. The Interview Process.  
(0-5-0) Cr. 0.5. Alt. S., offered 2013.  
**Prereq:** graduate classification.  
Applying and interviewing for academia, industry and government.

GR ST 569. Grant Writing.  
(1-0) Cr. 1. Alt. F., offered 2013.  
**Prereq:** at least two prior years of graduate classification.  
Writing a winning proposal.

GR ST 570. Teaching Practices.  
(0-5-0) Cr. 0.5. Alt. S., offered 2012.  
**Prereq:** graduate classification.  
Preparation of a teaching portfolio and course materials; lecturing, technology.

GR ST 585. Preparing Future Faculty Introductory Seminar.  
Cr. 1.  
**Prereq:** One year of graduate course work; admission into PFF program.  
Introduction to faculty life issues such as hiring, tenure, teaching, and service at a variety of higher education institutions. Includes presentations from faculty at other institutions.

GR ST 586. Preparing Future Faculty Intermediate Seminar.  
Cr. 1-3.  
**Prereq:** Admission into PFF program; completion of 585 or permission of instructor.  
Consideration of a wide range of faculty life issues. Includes topics such as higher education trends, diversity issues, learning styles, assessment, grant and proposal writing, and legal and ethical issues. Written components include job and teaching portfolios.

GR ST 587. Preparing Future Faculty Teaching Practicum.  
Cr. 1.  
**Prereq:** Permission of instructor, GR ST 585, credit for or concurrent enrollment in GR ST 586.  
Students complete a stand-alone teaching assignment at Iowa State or another higher education institution. Written components include pedagogical documents.

GR ST 588. Preparing Future Faculty Special Topics.  
Cr. 1.  
**Prereq:** Permission of instructor, GR ST 585, credit for or concurrent enrollment in GR ST 586.  
In-depth study of topic providing academic professional development.

Courses for graduate students:

GR ST 600. Examination Only.  
Cr. R.  
Reserved for graduate students the term they take the final oral examination. Students must have completed all required coursework and not be registered for another non-R Credit course.

GR ST 601. Required Enrollment.  
Cr. R.  
Reserved for graduate students who must be registered for a particular term, but are not required to take additional coursework.

GR ST 633. Summer Graduate Assistant.  
Cr. R. SS.  
Only for students not registered in other courses in the summer term.

GR ST 680. Doctoral Post Prelim (Continuous) Registration.  
Cr. R. Repeatable.  
Reserved for Ph.D. candidates only. See the Graduate College Handbook for specific requirements.

GR ST 697. Curricular Practical Training.  
Cr. R. Repeatable. F.S.S.S.  
Professional work period.

Human Computer Interaction

Interdepartmental Graduate Program

Graduate Study

Human Computer Interaction is an interdepartmental graduate program that seeks to improve the way individuals and groups use computers through an understanding of the social and cognitive aspects of the design and use of computational devices. Students in the program learn about cognitive psychology, graphic design principles, the impacts of technology on society, evaluating system usability, and cutting edge computer programming for computational perception and language parsing.

Student research projects have explored the latest in virtual reality studies, improving natural interaction through touch screens and 3D camera gesture controls, virtual engineering using force feedback devices, and many other projects at the bleeding edge of technological innovation. Graduates of the program have gone to work at many of the largest technology firms in the US and abroad while others have gone on to positions in academia.

Degrees are offered for the Master of Science (MS) and Doctor of Philosophy (PhD) degrees with a major in Human Computer Interaction (HCI). A Graduate Certificate and an Online Master of Science degree in Human Computer Interaction are also offered; these degrees are especially targeted for the benefit of students working in business and industry wanting education in this field. The graduate program in Human Computer Interaction (HCI) welcomes applicants from a diverse collection of technical and creative fields whose unifying characteristic is the desire to develop new ways to bridge the gap between human and machine. The students must demonstrate skill in software development and proficiency in high-level, object-
oriented programming. These skills can be acquired after admission to the program. Other entrance requirements will include an undergraduate degree and transcripts, test scores and other indicators that the applicant can be successful at the graduate level. All students admitted to the MS or PhD program on campus must secure a graduate assistantship.

All programs of study for the PhD must include:
1. one core course of their choice from each of the categories of Implementation, Design, Evaluation and Phenomena, if not completed as part of the student’s Masters program
2. two more courses of their choice from a list of recommended electives
3. four semesters of HCI 591 Seminar in Human Computer Interaction
4. a minimum of nine research credits.

The MS degree calls for 30 credits of course work including appropriate credit for the Master’s thesis. MS students must take one core course of their choice from each of the categories of Implementation, Design, Evaluation and Phenomena. MS Students must also take two semesters of HCI 591 Seminar in Human Computer Interaction.

The Online HCI MS program is most appropriate for individuals with a bachelor’s degree in a scientific, engineering, business, or artistic discipline, who are pursuing a professional career and who already have a strong base of information technology skills. Requirements for the Online Master of Science Program include 27 credits of coursework, plus a three-credit capstone course, with a final presentation at the end of the degree program.

Requirements for the HCI Graduate Certificate program include three core HCI courses plus one elective.

Information on applications procedures and specific requirements of the major can be obtained from the following Internet address: www.hci.iastate.edu.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

HCI 504. Evaluating Digital Learning Environments. (Cross-listed with C I). (3-0) Cr. 3. S. Prereq: C I 501
Principles and procedures to plan, design, and conduct effective evaluation studies (formative, summative, usability) in different settings are studied. Opportunities to engage in real or simulated evaluation projects of substantial scope are provided. Create evaluation instruments, develop methods with which to evaluate a product or program, conduct try-outs or usability sessions, analyze the data, report the findings, and recommendations are some of the course activities.

HCI 507. Principles of 3D Character Animation. (Dual-listed with HCI 407). (0-6) Cr. 3. Repeatable, maximum of 9 credits. Prereq: ARTIS 308
Animation techniques using the computer and available software. Principles of character animation. Prior knowledge of modeling, lighting, texturing and rendering with available software is assumed. Nonmajor graduate credit.

HCI 509. Computer/Video Game Design and Development. (Dual-listed with HCI 409). (0-6) Cr. 3. Repeatable, maximum of 12 credits. Prereq: Permission of instructor. Programming emphasis: COM S 227, COM S 228, COM S 229 or equivalent in engineering; art or graphics emphasis: ARTIS 230 and ARTIS 308; writing emphasis: an English course in creative writing or writing screen plays; business or marketing students: Junior classification.

Independent project based creation and development of "frivolous and non-frivolous" computer games in a cross-disciplinary team. Projects require cross-disciplinary teams. Aspects of Indie development and computer/video game history will be discussed. Nonmajor graduate credit.

HCI 515. Statistical Natural Language Processing. (Cross-listed with ENGL, LING). (3-0) Cr. 3. F. Prereq: STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL 511 or LING 511
Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

HCI 520. Computational Analysis of English. (Cross-listed with LING, ENGL). (3-0) Cr. 3. S. Prereq: ENGL 510 or LING 510, and ENGL 511 or LING 511
Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

HCI 521. Cognitive Psychology of Human Computer Interaction. (Cross-listed with PSYCH). (3-0) Cr. 3. Prereq: Graduate classification or instructor approval
Biological, behavioral, perceptual, cognitive and social issues relevant to human computer interactions.

HCI 522. Scientific Methods in Human Computer Interaction. (3-0) Cr. 3. Alt. S., offered 2013. Prereq: PSYCH 521 and STAT 101 or equivalent
Basics of hypothesis testing, experimental design, analysis and interpretation of data, and the ethical principles of human research as they apply to research in human computer interaction.

HCI 525. Optimization Methods for Complex Designs. (Dual-listed with HCI 425). (Cross-listed with M E). (3-0) Cr. 3. S. Prereq: ENGR 160, MATH 265
Optimization involves finding the 'best' according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Students will also be exposed to numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques.

HCI 558. Introduction to the 3D Visualization of Scientific Data. (Cross-listed with GEOL, COM S). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: Graduate student standing in the mathematical or natural sciences
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, engineering). Class project in interactive 3D visualization using the OpenDX, VTK or a similar system.

HCI 572. Experimental Computer Game Prototyping. Cr. 3. SS. Prereq: Permission from instructor.
A discourse on interactive game design concepts through the rapid prototyping of video games. Topics discussed include interdisciplinary views on fundamentals of game play, emergence, emotional affect, behavioral learning, player progression, optimal experience and others. Discussions on interactivity as an art form and its implications to various fields of human computer interaction.

HCI 574. Computational Implementation and Prototyping in HCI. Cr. 3. S. Fundamental concepts of software programming and the practical use of the Python programming language. Assignments include user interaction and interface design, information visualization, as well as other computational HCI tools. Intended for graduate students without prior background in software development. Requires programming during class lectures.

HCI 575. Computational Perception. (Cross-listed with COM S, CPR E). (3-0) Cr. 3. S. Prereq: Graduate standing or permission of instructor
This class covers statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. This semester we will focus on machine perception techniques that facilitate and augment human-computer interaction. The main goal of the class is to introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

HCI 580. Virtual Environments, Virtual Worlds, and Application. (Cross-listed with M E). (3-0) Cr. 3. F. Prereq: Senior or Graduate status.
A systematic introduction to the underpinnings of Virtual Environments (VE), Virtual Worlds, advanced displays and immersive technologies; and an overview of some of the applications areas particularly virtual engineering.
HCl 585. Developmental Robotics.
An introduction to the emerging interdisciplinary field of Developmental Robotics, which crosses the boundaries between robotics, artificial intelligence, developmental psychology, and philosophy. The main goal of this field is to create autonomous robots that are more intelligent, more adaptable, and more useful than the robots of today, which can only function in very limited domains and situations.

HCl 589. Design and Ethics.
(Cross-listed with ARTGR). (3-0) Cr. 3. Prereq: Graduate classification or permission of instructor.
Issues in ethics and decision-making as they relate to technology, design, design research, HCI, and the design industry.

HCl 590. Special Topics.
Cr. arr. Repeatable.
Investigation of problems of special interest in human computer interaction.

Cr. 1-3. Repeatable.

HCl 592. Entrepreneurship Workshop.
(1-0) Cr. 1. F.
Students will be taken step-by-step through activities that must be undertaken when attempting to commercialize a technology or start their own company. Speakers will be brought in to introduce relevant topics, provide resources, answer questions, and provide working examples.

HCl 594. Managerial Application of Collaborative Technologies and Social Media.
Cr. 3. SS. Prereq. Graduate classification.
Building, managing, and using collaborative technologies. Collaborative uses of social media such as blogs, wikis, picture and video sharing, social networks, Second Life, and other new media. Exposure to concepts and hands on use and management of several collaborative technologies.

HCl 595. Visual Design of HCI.
Cr. 3. SS.
Human interaction design as it applies to HCI. Aspects of audience analysis, design methodologies for creating concepts and solutions, techniques of concept prototyping, and the fundamentals of visual design such as color, type, symbolism, and grid structure. Class discussions, tutorials, and hands-on projects.

Cr. 3. SS. Prereq: HCl 521
Usability evaluation with emphasis on requirements gathering, rapid prototyping, evaluation, and communicating results through report writing along with emerging practices.

HCl 597. Scientific Information Design.
Cr. 2. SS.
Use of principles of visual design such as color, typography, photography, graphs, charts, and layout to create effective poster and power point presentations. Experience with design software, create posters and presentations from their own data, and evaluate design solutions with regard to their visual and verbal communication. Principles of design and communication theory will be introduced.

HCl 598. HCI Design, Implementation and Implications.
Cr. 3. S. Prereq: 21 credits in human computer interaction or permission of the instructor
Capstone course in HCl. Through a significant team-based design project and open-book final exam, students demonstrate their mastery of core courses in HCI.

HCl 599. Creative Component.
(3-0) Cr. 3.
Creative component for nonthesis option of Master of Science degree. Offered on a satisfactory-fail basis only.

Courses for graduate students:

HCl 603. Advanced Learning Environments Design.
(Cross-listed with C I). (3-0) Cr. 3. S. Prereq: C I 503
Exploration of advanced aspects of the instructional design process. Application of analysis, design, development and production, evaluation, implementation, and project management principles. Focus on the production and use of instructional technology with an emphasis on the instructional design consulting process. Theory and research in instructional technology provides the foundation for design decisions.

HCl 655. Organizational and Social Implications of Human Computer Interaction.
(Cross-listed with MIS). (3-0) Cr. 3. Prereq: Graduate classification
Examine opportunities and implications of information technologies and human computer interaction on social and organizational systems. Explore ethical and social issues appurtenant to human computer interaction, both from a prescriptive and descriptive perspective. Develop informed perspective on human computer interaction. Implications on research and development programs.

(Cross-listed with I E). (3-0) Cr. 3. S. Prereq: IE 577 or PSYCH 516 or HCI/PSYCH 521 or equivalent or instructor's permission
Theoretical and methodological applications of cognitive engineering - literature evaluation, experimental analysis, study and application of bio and neurological information (electromyography (EMG) and electroencephalogram (EEG), data interpretation, statistical analysis and experimental design.

HCl 697. HCl Internship.
Cr. R. Repeatable. Prereq. Permission of Director of Graduate Education, graduate classification

HCl 699. Research.
Cr. arr. Repeatable.

Immunobiology

Immunobiology Interdepartmental Graduate Program

Program Chair & Director of Graduate Education: Dr. Jesse Hostetter
Program Coordinator: Katie Blair
Email: idgp@iastate.edu
Phone: (515) 294-7252

Graduate Study in Immunobiology

Work is offered for the master of science and doctor of philosophy degrees with a major in Immunobiology. Faculty are drawn from eight university departments along with researchers from the National Animal Disease Center. Participating departments include: Animal Science; Biochemistry, Biophysics, and Molecular Biology; Biomedical Sciences; Entomology; Kinesiology; Veterinary Diagnostic & Production Animal Medicine; Veterinary Microbiology & Preventative Medicine; and Veterinary Pathology. The diversity of faculty expertise ensures a broad education, while offering flexibility in choice of specialization. Ongoing research projects include areas such as: antibody and cell-mediated immunity, gene expression, immunechemistry, immunogenetics, immunomodulation, immunophysiology, mucosal immunity and nutritional immunology. Additional information about program faculty members is available at: www.immunobiology.iastate.edu.

Students may enter the Immunobiology program in one of two ways: prospective students may apply directly to the major, or current ISU graduate students may be admitted as a co-major or minor in Immunobiology. Ph.D. students admitted into the Interdepartmental Immunobiology major will take IMBIO 697 Graduate Research Rotation, during their first two semesters. From these rotations the student will select a major professor and join a home department. Affiliating with a major professor is done by the end of the second semester.

Before entering the Immunobiology program, prospective students should have a strong background in the biological sciences; typically including work in immunology, genetics and biochemistry. Prior research experience is highly encouraged. The submission of GRE General Test scores is required for admission.

Immunobiology students should include in their program of study a core of courses which will provide a broad coverage of the basic program in immunobiology. Formal courses should include immunology, biochemistry, and statistics. Additional coursework may be selected to satisfy individual interests or departmental requirements. The foreign language and teaching requirements are determined by the student’s home department. All students will take a minimum of one seminar course per fall and spring semester.

Graduates of the Immunobiology program will have a broad understanding of the interdisciplinary field of immunobiology, and will be able to effectively integrate the principles of immunology with related disciplines. They are able to effectively communicate with scientific colleagues and the general public in both formal and informal settings. Graduates are able to integrate theory and research to address complex problems facing scientific professionals studying animal and human health, taking into account related ethical, social, legal and environmental issues. They are skilled at carrying out research, communicating research results, and writing persuasive grant proposals.
Curriculum Requirements for Immunobiology Doctoral Students

Ph.D. candidates majoring in Immunobiology must take at least 72 graduate credits. This 72 credits includes the below core course requirements and applicable research credits earned. Credits taken during a student’s M.S. program in Immunobiology at Iowa State University will count towards their Ph.D. in Immunobiology.

Ph.D. students should take each of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BBMB 405</td>
<td>Biochemistry II</td>

† Arranged with instructor.

Curriculum Requirements for Immunobiology Master’s Students

All M.S. students majoring in Immunobiology are required to complete a minimum of 30 graduate credits. These 30 credits includes core course requirements and applicable research credits earned. The requirements for M.S. students are the same as that for Ph.D. students with the exception of the elective credits. M.S. students are required to take at least two credits of electives as opposed to the five credit minimum for Ph.D. students.

Curriculum Requirements for a Minor in Immunobiology at the PhD Level

Graduate students studying at Iowa State University with an interest in completing an Immunobiology minor for their Ph.D. studies are required to take a total of 12 credit hours of coursework including core courses and approved electives.

Students must be approved for the minor by the Immunobiology program and must follow Graduate College guidelines for POS Committee membership.

Graduate students wishing to seek a minor in Immunobiology are encouraged to contact the Immunobiology Interdepartmental Graduate Program Coordinator for further information. Inquiries can be submitted to: idgp@iastate.edu.

Immunobiology Minor Curriculum at the Ph.D. Level

Includes:

One course from each of the following two categories:

<table>
<thead>
<tr>
<th>Category A</th>

Courses

Courses for graduate students:

IMBIO 602. Current Topics Workshop in Immunology. (1-0) Cr. 1. Repeatable. F.

IMBIO 604. Seminar in Immunobiology. (1-0) Cr. 1. Repeatable. S.

IMBIO 609. Special Topics. Cr. arr. Repeatable.

IMBIO 697. Graduate Research Rotation. Cr. arr. Repeatable.

Information Assurance

Interdepartmental Graduate Major

Work is offered for the degree Master of Science with a major in information assurance under a cooperative arrangement with various departments including Electrical and Computer Engineering, Computer Science, Political Science, Supply Chain Management, and Mathematics.

The degree Master of Science with thesis is recommended for students who intend to continue toward the Doctor of Philosophy degree or to undertake a career in research and development. The non-thesis Master of Science degree requires a creative component. The Master of Engineering degree is coursework only.

Students graduating from the major will help to fill the need for well-educated system security specialists in the government, private sector, and academia. The program objectives identified as being critical to the accomplishment of this mission are:

1. Impart and enhance knowledge about information infrastructure security
2. Expand and develop ability to engineer complex systems
3. Instill and nurture social awareness, and the ability to function in a team
4. Instill and nurture a sense of ethics
5. Develop an understanding of strategic and policy issues

Students interested in the interdepartmental major apply and are admitted to both a home department (the department that is most closely aligned with the student’s research interest and background) and to the program. The home department sets the admission standards, course requirements, and thesis standards.

The program is broadly based and uses courses in the various departments. The program will consist of 24 course credits with 6 credits of research work for a Master of Science with thesis. A non-thesis Master of Science will consist of 27 credits of courses and 3 credits of creative component. The courses are divided into three categories: core, electives, and thesis research. A coursework only Master of Engineering degree in Information Assurance consisting of 30 credits is also offered.

A student’s Program of Study Committee, in consultation with the student, determines the elective courses to be taken and the acceptability of transfer credits. The major professor will be selected from the discipline where the student is admitted (home department).

The basic prerequisite for admission to this program is a baccalaureate degree in engineering, mathematics, computer science, management information systems, political science, or closely related field. The GRE or GMAT examination may be
Courses

Courses primarily for undergraduates:

Basic concepts of practical computer and Internet security: passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols, IP routing, network security issues. Emphasis on laboratory experiments.

INFAS 331. Information System Security. (Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: CPR E 489 or CPR E 530 or COM S 586 or MIS 525
Computer and network security: basic cryptography, security policies, multilevel security models, attack and protection mechanisms, legal and ethical issues.

INFAS 332. Information Warfare. (Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: CPR E 531

INFAS 333. Cryptography. (Cross-listed with CPR E, MATH). (3-0) Cr. 3.
Prereq: MATH 301 or CPR E 310 or COM S 320
Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

INFAS 334. Legal and Ethical Issues in Information Assurance. (Cross-listed with CPR E, POL S). (3-0) Cr. 3.
Prereq: Graduate classification; CPR E 531 or INFAS 531
Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.

INFAS 335. Steganography and Digital Image Forensics. (Cross-listed with CPR E, MATH). (3-0) Cr. 3.
Prereq: E E 524 or MATH 307 or COM S 330
Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.

INFAS 336. Computer and Network Forensics. (Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: CPR E 381 and CPR E 489 or CPR E 530
Fundamentals of computer and network forensics, forensic duplication and analysis, network surveillance, intrusion detection and response, incident response, anonymity and pseudonymity, privacy-protection techniques, cyber law, computer security policies and guidelines, court testimony and report writing, and case studies. Emphasis on hands-on experiments.

Projects or seminar in Information Assurance.

Courses for graduate students:

INFAS 532. Information Assurance Capstone Design. (Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: INFAS 531, INFAS 532, INFAS 534
Capstone design course which integrates the security design process. Design of a security policy. Creation of a security plan. Implementation of the security plan. The students will attach each other's secure environments in an effort to defeat the security systems. Students evaluate the security plans and the performance of the plans. Social, political and ethics issues. Student self-evaluation, journaling, final written report, and an oral report.

INFAS 697. Information Assurance Summer Internship. Cr. R. Prereq: Permission of department, graduate classification
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

Interdisciplinary Graduate Studies

www.grad-college.iastate.edu/igs/

Interdepartmental Graduate Program

The degree of master of science or master of arts with major in interdisciplinary graduate studies is available to graduate students who wish to have a more diversified program of advanced study than that generally permitted students who specialize in a single subject. Areas of specialization in arts and humanities, biological sciences, international development studies, physical sciences, social sciences, community development (see below) and a general area are designed to broaden and supplement a student's program. Students must take courses in three different graduate subject matter areas, each subject contributing a minimum of nine credits toward the 35 graduate credits required for this degree. The courses which may be used for credit toward this degree program are selected from those listed in the Graduate College Catalog for graduate credit.

Both thesis and nonthesis options are available except in arts and humanities in which a thesis is required. If the thesis option is chosen, a minimum of three credits of IGS 699 Thesis Research is required and a maximum of five credits of IGS 699 Thesis Research may be counted in the total of 35 required credits. If the nonthesis option is elected, evidence of original creative effort must be presented. This may be in the form of a demonstration of independent creativity such as a written report of laboratory, field, or library research; a project in fine arts; or some other original contribution acceptable to the student's committee. In the nonthesis option a minimum of three credits of IGS 599 Creative Component is required and a maximum of five credits of IGS 599 Creative Component may be counted toward the total of 35 graduate credits. The student, in consultation with the program of study committee, will decide on the option. The committee also aids the student in planning a program of study and in selecting appropriate courses. Graduates will have experience in designing their own program centered around issues they have identified. Because of the interdisciplinary nature of IGS, students are expected to synthesize knowledge from three different areas of study.

Students who wish to apply for admission to interdisciplinary graduate studies should communicate with the chair of the program, the chair of the supervisory committee or one of its members (see above). Students in IGS may select a 37-credit area of specialization in Community Development. The Community Development area of specialization, offered in collaboration with five other universities in the Great Plains Interactive Distance Education Alliance, is offered exclusively through courses on the Web.

Molecular, Cellular, and Developmental Biology

MCDB Interdepartmental Graduate Program
Program Chair & Director of Graduate Education: Dr. Clark Coffman
Program Coordinator: Katie Blair
Email: idgp@iastate.edu
Phone: (515) 294-7252

Undergraduate Study
A special program in Molecular, Cellular, and Developmental Biology is not offered for the baccalaureate. Undergraduates wishing to prepare for graduate study in molecular, cellular, and developmental biology should elect courses in biochemistry, biology, genetics, microbiology, and mathematics through calculus; chemistry through organic; and one year of physics.

The following are recommended to undergraduates desiring an introduction to this area:

- BIOL 313 Principles of Genetics 3
- BIOL 313L Genetics Laboratory 1
- BIOL 314 Principles of Molecular Cell Biology 3
- BIOL 423 Developmental Biology 3
- BIOL 423L Developmental Biology Laboratory 1

Graduate Study in MCDB
Work is offered for the master of science and doctor of philosophy degrees with a major in Molecular, Cellular, and Developmental Biology. Faculty are drawn from fourteen university departments along with researchers from the National Animal Disease Center. Participating departments include: Agronomy; Animal Science; Biochemistry, Biophysics & Molecular Biology; Biomedical Sciences; Chemistry; Chemical & Biological Engineering; Entomology; Food Science & Human Nutrition; Genetics; Development & Cell Biology; Horticulture; Physics & Astronomy; Plant Pathology; Veterinary Microbiology & Preventive Medicine; and Veterinary Pathology. Facilities and qualified faculty are available in these departments for conducting fundamental research in the various aspects of molecular, cellular, and developmental biology. Ongoing research projects include molecular and cellular studies of viral, prokaryotic, plant, and animal systems. Additional information about the program and faculty is available at: www.mcdb.iastate.edu.

Prospective students are admitted by the MCDB program following receipt of a complete application and after review by the MCDB Admissions Committee. Students are admitted either to participate in research rotations with several faculty before deciding on a major professor and laboratory, or by direct admission into a specific lab and department. Ph.D. students typically enter via rotation and M.S. students typically enter via a direct admit. Those students admitted through a rotation admit are required to complete a minimum of three research lab rotations with faculty of interest and take MCDB 697 Graduate Research Rotation, during their first two semesters. At the end of their second semester, students on rotation must select a major professor from the faculty participating in the program. Current ISU graduate students may be admitted as a co-major or minor with MCDB.

Before entering the MCDB program, prospective students should have a strong background in the biological sciences; typically including work in biological sciences (two years), organic chemistry (one year), physics (one year), and mathematics (through one year of calculus). Prior research experience is highly encouraged. The submission of GRE General Test scores is required for admission.

Curriculum Requirements for MCDB
Ph.D. candidates majoring in MCDB must take at least 72 graduate credits. These 72 credits include the core course requirements (below) and applicable research credits earned. Credits taken during a student’s M.S. program in MCDB at Iowa State University may count towards their Ph.D. in MCDB. Students seeking an M.S. degree must take a total of 30 credits, with not less than 22 credits earned at ISU. M.S. students must take the core curriculum but need to complete only two of the three components in molecular biology, cell biology, or developmental biology.

Additional coursework for both Ph.D. and M.S. degrees may be selected by the student in consultation with his/her Program of Study (POS) Committee to meet departmental requirements and to satisfactorily prepare the student for their research project.

Graduate credits of B or better earned at another institution may be transferred at the discretion of the POS Committee and with the approval of the MCDB Program and the ISU Graduate College.

Additional information relating to credits required for graduate degrees can be found in the ISU Graduate College Handbook (http://www.grad-college.iastate.edu/common/handbook).

MCDB Core Curriculum requirements include:
Two sequence semester of Biochemistry (either BBMB 404/BBMB 405 or BBMB 501/BBMB 502)
BBMB 404 Biochemistry I 3
BBMB 405 Biochemistry II 3
BBMB 501 Comprehensive Biochemistry I 4
BBMB 502 Comprehensive Biochemistry II 4

All Ph.D. students must take one course from each of the following areas: A) Cellular Biology, B) Developmental Biology, & C) Molecular Biology.

A. Cellular Biology
- GDCB 528 Advances in Molecular Cell Biology 3
- GDCB 529 Plant Cell Biology *See footnote 2
- B M S 575 Cell Biology 3
- BBMB 645 Molecular Signaling 2

B. Developmental Biology
- GDCB 512 Plant Growth and Development *See footnote 2
- GDCB 533 Principles of Developmental Biology 3

C. Molecular Biology
- MICRO 502 Microbial Genetics and Genomics 3
- GDCB 511 Molecular Genetics 3
- GDCB 520 Genetic Engineering 3
- GDCB 545 Plant Molecular Biology *See footnote 3
- V MPM 608 Molecular Virology 3
- BBMB 676 Biochemistry of Gene Expression in Eucaryotes 2

*Footnote: GDCB 545 - Plant Molecular, Cellular, and Developmental Biology may be used to fulfill any one of the required component areas.

In addition to the above course requirements, MCDB graduate students are required to take:
1. Two semesters of research seminar every year.
   One of these seminars must be MCDB 698, Seminar in Molecular, Cellular, and Developmental Biology. In seminar, students will make journal and research presentations and attend MCDB seminars. Subject to approval by the POS committee, acceptable alternatives to fulfill the second seminar requirement include 1) a “for credit” research seminar series offered by the student’s home department, 2) a workshop comprised of a research seminar series, or 3) another ISU research seminar series.

2. One credit hour of ethics training.
   Not required, but highly recommended for MCDB graduate students:
   BCB 544 Introduction to Bioinformatics 4

Non-native English speakers must pass the English Requirement as established by the university. Depending on the results of this exam additional courses may be required to meet English proficiency standards.
MCDB graduate students need to teach one semester as part of their training for an advanced degree. Students whose first language is not English must take and pass the SPEAK/TEACH test to be eligible to teach.

Curriculum Requirements for Graduate Students Seeking a MCDB Minor

Graduate students studying at Iowa State University with an interest in completing a MCDB minor for their Ph.D. are required to complete the following curriculum requirements.

Students must be approved for the minor by the MCDB program and must follow Graduate College guidelines for POS Committee membership.

Graduate students wishing to seek a minor in MCDB are encouraged to contact the MCDB Interdepartmental Graduate Program Coordinator for further information. Inquiries can be submitted to idgp@iastate.edu.

MCDB Minor Curriculum at the Ph.D. Level Includes:

Two semester sequence of Biochemistry (either BBMB 404/BBMB 405 or BBMB 501/BBMB 502)

*Footnote: GDCB 545 - Plant Molecular, Cellular, and Developmental Biology may be used to fulfill any one of the required component areas.

In addition to the above course requirements, MCDB graduate minors are required to register once for:

MCDB 698 Seminar in Molecular, Cellular, and Developmental Biology 1-2

Courses for graduate students:

MCDB 520. Genetic Engineering.
(Cross-listed with BBMB, GDCB). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: GEN 411 or BBMB 405
Strategies and rationale of recombinant DNA technologies. The methodology of genetic engineering in basic research and implications for applied research will be considered. Topics include: basic tools of molecular cloning, targeted mutagenesis, fluorescent proteins, protein expression systems, and transgenic model systems.

MCDB 528. Advances in Molecular Cell Biology.
(Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: Courses in general cell biology and biochemistry.
Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

(Cross-listed with GDCB). (2-0) Cr. 2. Alt. F., offered 2011. Prereq: BIOL 313, BIOL 314, BIOL 330 or BBMB 405
Organization, function, and development of plant cells and subcellular structures.

(Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 314
Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in classical studies and current literature.

MCDB 545. Plant Molecular Biology.
(Cross-listed with GDCB, PLBIO). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 314, BIOL 330

MCDB 590. Special Topics. Cr. arr. Repeatable.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

MCDB 511. Molecular Genetics.
(Cross-listed with GDCB). (3-0) Cr. 3. S. Prereq: BIOL 313 and BBMB 405
The principles of molecular genetics: gene structure and function at the molecular level, including regulation of gene expression, genetic rearrangement, and the organization of genetic information in prokaryotes and eukaryotes.

MCDB 512. Plant Growth and Development.
(Cross-listed with GDCB, PLBIO). (2-0) Cr. 2. S. Prereq: BIOL 330 or a course in developmental biology; GDCB 545 or BBMB 404, BBMB 405 or GDCB 520

MCDB 520. Genetic Engineering.
(Cross-listed with BBMB, GDCB). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: GEN 411 or BBMB 405
Strategies and rationale of recombinant DNA technologies. The methodology of genetic engineering in basic research and implications for applied research will be considered. Topics include: basic tools of molecular cloning, targeted mutagenesis, fluorescent proteins, protein expression systems, and transgenic model systems.

MCDB 528. Advances in Molecular Cell Biology.
(Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: Courses in general cell biology and biochemistry.
Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

(Cross-listed with GDCB). (2-0) Cr. 2. Alt. F., offered 2011. Prereq: BIOL 313, BIOL 314, BIOL 330 or BBMB 405
Organization, function, and development of plant cells and subcellular structures.

(Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 314
Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in classical studies and current literature.

MCDB 545. Plant Molecular Biology.
(Cross-listed with GDCB, PLBIO). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 314, BIOL 330

MCDB 590. Special Topics. Cr. arr. Repeatable.

Courses for graduate students:

MCDB 576. Biochemistry of Gene Expression in Eucaryotes.
(Cross-listed with BBMB). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: BBMB 404 or BBMB 501, BBMB 405 or BBMB 502 or GDCB 511
Analysis of the biochemical processes involved in expression of eucaryotic genes and the regulation thereof, including RNA polymerase, transcriptional regulatory proteins, enhancers and silencers, chromosome structure, termination, RNA processing, RNA transport, RNA turnover, small RNAs translational regulation, protein turnover.

MCDB 697. Graduate Research Rotation. Cr. 1-6. Repeatable. F.S.
Graduate research projects performed under the supervision of selected faculty members in the molecular, cellular, and developmental biology program.

MCDB 698. Seminar in Molecular, Cellular, and Developmental Biology.
(Cross-listed with BBMB, GDCB, MICRO, V MPM). (2-0) Cr. 1-2. Repeatable. F.S.
Student and faculty presentations.

Neuroscience

Neuroscience Interdepartmental Graduate Program
Program Chair & Director of Graduate Education: Dr. N. Matthew Ellinwood
Program Coordinator: Katie Blair
Email: idgp@iastate.edu
Phone: (515) 294-7252

Graduate Study in Neuroscience

Work is offered for the master of science and doctor of philosophy degrees with a major in neuroscience. Cooperating departments include Animal Science; Biochemistry; Biophysics and Molecular Biology; Biomedical Sciences; Chemical and Biological Engineering; Chemistry; Computer Science; Ecology, Evolution and Organismal Biology; Genetics, Development and Cell Biology; Kinesiology; Psychology; Veterinary Clinical Sciences; Veterinary Diagnostic and Production Animal Medicine; and Veterinary Pathology.

The diversity of faculty in the Interdepartmental Neuroscience major provides students with a variety of research opportunities and reflects the structure of
contemporary neuroscience which has become a diverse and inter-disciplinary field. Facilities and faculty are committed to research in the following areas: neuronal membrane functions, signal transduction, neuroanatomy, neurodegenerative diseases, neuroendocrinology, neurototoxicology, neuropathology, developmental neurobiology, neurogenetics, computational neuroscience, neural networks, behavioral neuroscience, tissue engineering, neuroregeneration and brain repair. Additional information about program faculty members is available at: www.neuroscience.iastate.edu.

An undergraduate or advanced degree in one of the basic or applied sciences is ordinarily a prerequisite for admission to the program. Typical program disciplines include majors in biochemistry, biology, biomedical sciences, human medicine, immunology, neurobiology, physiology, pharmacology, psychology, veterinary medicine, or zoology. Appropriate undergraduate coursework includes mathematics, chemistry, physics, and biological sciences. Prior research experience is highly encouraged. The submission of GRE General Test scores is required for admission.

Prospective students are admitted by the Neuroscience program following an internal application process and after review by the Neuroscience Admissions Committee. Students are admitted either to participate in research rotations with several faculty before deciding on a major professor or laboratory, or by direct admission into a specific lab and department. Ph.D. students typically enter via rotation and M.S. students typically enter via a direct admit. Those students entering through a rotation admit are required to complete a minimum of three research lab rotations with faculty of interest. At the end of their second semester students on rotation must select a major professor from the faculty participating in the program.

**Curriculum Requirements for Neuroscience Graduate Students**

Ph.D. candidates majoring in Neuroscience must take at least 72 graduate credits. These 72 credits includes the below core course requirements and applicable research credits earned. Credits taken during a student's M.S. program in Neuroscience at Iowa State University will count towards their Ph.D. in Neuroscience.

Students seeking an M.S. degree must take a total of 30 credits, with not less than 22 credits earned at ISU. M.S. students have the same core requirements as Ph.D. students.

Additional coursework for both Ph.D. and M.S. degrees is selected by the student in consultation with his/her POS Committee to meet departmental requirements and to satisfactorily prepare the student for their research project.

Graduate credits of B or better earned at another institution may be transferred at the discretion of the POS Committee and with the approval of the Neuroscience Program and the ISU Graduate College.

Additional information relating to credits required for graduate degrees can be found in the ISU Graduate College Handbook (http://www.grad-college.iastate.edu/common/handbook).

**All students majoring in Neuroscience are required to complete a core curriculum consisting of:**

<table>

**Curriculum Requirements for Graduate Students Seeking a Neuroscience Minor**

Graduate students interested in completing a Neuroscience minor are required to select 12 credits, with a minimum of 9 credits being from the list of approved courses (see below) and up to 3 credits of thesis/dissertation research (NEURO 699).

Students must be approved for the minor by the Neuroscience Program and must follow Graduate College guidelines for POS Committee membership. Graduate students wishing to seek a minor in Neuroscience are encouraged to contact the Neuroscience Interdepartmental Graduate Program Coordinator for further information. Inquiries can be submitted to idgp@iastate.edu.

**Courses**

**Courses primarily for graduate students, open to qualified undergraduates:**

**NEURO 556. Cellular, Molecular and Developmental Neuroscience.**
(Cross-listed with GDCB, B M S). (3-0) Cr. 3. F. Prereq: NEURO 556 or comparable course. (Cross-listed with GDCB, B M S). (2-0) Cr. 2-3. Repeatable. Alt. S., offered 2014. Prereq: NEURO 556 or comparable course. Topics may include cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.

**NEURO 557. Advanced Neuroscience Techniques.**
(Cross-listed with GDCB). (3-0) Cr. 3. Alt. S., offered 2015. Prereq: NEURO 556 or equivalent course. Research methods and techniques; lectures, laboratory exercises and/or demonstrations representing individual faculty specialties.

**Courses for graduate students:**

**NEURO 661. Current Topics in Neuroscience.**
(Cross-listed with GDCB, BBMB). (2-0) Cr. 2-3. Repeatable. Alt. S., offered 2014. Prereq: NEURO 556 or comparable course. Topics may include molecular and cellular neuroscience, neurodevelopment, neuroplasticity, neurodegenerative diseases, cognitive neuroscience, sensory biology, neural integration, membrane biophysics, neuroethology, techniques in neurobiology and behavior.

**NEURO 690. Journal Club in Neuroscience.**
(1-0) Cr. 1. Repeatable. F.S. Prereq: NEURO 556 Students are required to attend and make at least one presentation at a weekly journal club focusing on current topics.

**NEURO 696. Neuroscience Seminar.**
(1-0) Cr. 1. Repeatable. F.S. Prereq: NEURO 556 Presentations and discussion of research by students, faculty, and visiting scholars.

**NEURO 699. Research.**
Cr. arr. Repeatable.

**Nutritional Sciences**
Graduate Study

The Interdepartmental Graduate Program in Nutritional Sciences (IGPNS), administered through the Graduate College, under the auspices of the Chairs of Food Science and Human Nutrition (FS HN) and Animal Science, will provide the structure for coordinating and enhancing interdisciplinary nutrition research and graduate education. M.S. and Ph.D. degrees in Nutritional Sciences will be offered with three specializations: Animal Nutrition, Human Nutrition, or Biochemical & Molecular Nutrition.

The following undergraduate course work is recommended of all applicants who are applying to the IGPNS, but may be modified depending upon the student’s area of emphasis. Recommended course work includes organic chemistry with laboratory, physics, analytical chemistry, a nutrition course that requires biochemistry or organic chemistry as a prerequisite, and a course in biology/physiology or anatomy. Under certain circumstances students can be admitted or provisionally admitted with course work deficiencies. Students with an undergraduate degree will be generally admitted into the M.S. program and upon completion, they can then apply for admission into the Ph.D. program. However, exceptional students with experience can apply directly to the Ph.D. program.

The general requirements of the Nutritional Sciences degree at the MS level, in addition to those of Graduate College, are:

NUTRS 501 Biochemical and Physiological Basis of Nutrition: Macronutrients and Micronutrients 4
BBMB 404 Biochemistry I 3
BBMB 405 Biochemistry II 3
or BBMB 420 Physiological Chemistry

STAT 401 Statistical Methods for Research Workers 4
or FS HN 580 Orientation to Food Science and Nutrition Research 1
or AN S 501 Survey of Animal Disciplines
AN S 603 Seminar in Animal Nutrition 1
or FS HN 682X Seminar in Animal Nutrition (experimental course)
FS HN 581 Seminar (or AN S equivalent) 1
FS HN 681 Seminar (or AN S equivalent) 1
FS HN 590C Special Topics: Teaching 1-3
or AN S 590L Special Topics: Teaching

Successful completion and defense of thesis

Students are expected to complete the course work established by the Program of Study (POS) committee based on specialization with a minimum of 30 graduate-level semester credits, not less than 22 of which must be earned at Iowa State University.

The general requirements of the Nutritional Sciences degree at the PhD level, in addition to those of the Graduate College, are:

• Completion of all requirements of the MS degree in Nutritional Sciences
• 3 additional credits of graduate-level biochemistry (6 credits total including those for the M.S.), graduate-level statistics (STAT 402 Statistical Design and the Analysis of Experiments), and physiology (if not taken for the M.S.)
• Additional graduate-level courses in the field of study as deemed appropriate by the POS Committee and specialization, and additional teaching assistant requirements (FS HN 590C Special Topics: Teaching).

Satisfactory completion of a preliminary examination, a written dissertation, seminar presentation of dissertation research, and defense of the dissertation is also required. Overall a minimum of 72 graduate-level semester credits, no less than 36 of which must be earned at Iowa State University.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

NUTRS 501. Biochemical and Physiological Basis of Nutrition: Macronutrients and Micronutrients. (4-0) Cr. 4. F. Prereq: Credit or enrollment in BBMB 404 or BBMB 420
Integration of the molecular, cellular, and physiologic aspects of energy, macronutrient, and micronutrient metabolism in mammalian systems. Survey course that includes interactions among nutrients (dietary carbohydrate, fiber, lipid, protein, vitamins, and minerals) and non-nutrients, metabolic consequences of nutrient deficiencies or excesses, relevant polymorphisms, and major research methodologies.

NUTRS 503. Biology of Adipose Tissue. (2-0) Cr. 2. Alt. S., offered 2013. Prereq: Undergraduate: consent of instructor; Graduate: NutR 501
Principles regarding the development of adipose tissue and its role in energy balance, and will focus considerably on endocrine and immune actions of the adipocyte. Course material will be in lecture format, including handouts and selected journal articles. Students will be asked to lead critical discussions of key research findings as summary material for a given topic. Species differences will be highlighted, particularly as they relate to research models.

NUTRS 504. Nutrition and Epigenetic Regulation of Gene Expression. (1-0) Cr. 1. Alt. S., offered 2012. Prereq: graduate standing; undergraduate with consent of instructor
Discussion of epigenetic regulation of gene expression and the role that nutrition plays in this process. Examination of current research literature to understand how different nutrients and physiological states influence epigenetics, as well as, the research methodology used to address these relations.

NUTRS 505. Short Course. (1-0) Cr. 1. SS. Prereq: Permission of instructor

Principles of cancer biology and cancer etiology will be integrated with the impacts of diet on cancer development and prevention. Contributions of research with humans, animals, cultured cells and cell free systems will be included. The importance of dietary contaminants, macronutrients and micronutrients will be examined with an emphasis on the strength of the evidence and mechanisms of action.

NUTRS 512. Food Product Development. (Dual-listed with FS HN 412). (1-6) Cr. 3. S. Prereq: FS HN 311 or FS HN 411, FS HN 471
Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, microbiology, and processing. Some pilot plant experiences. Electronic communication from web emphasized for class reports, notes and assignments. Nonmajor graduate credit.

NUTRS 518. Digestive Physiology and Metabolism of Non Ruminants. (Cross-listed with AN S). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: AN S 419 or NUTRS 501
Digestion and metabolism of nutrients. Nutritional requirements and current research and feeding programs for poultry and swine.

NUTRS 519. Food Toxicology. (Cross-listed with TOX, FS HN). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: A course in biochemistry
Basic principles of toxicology. Toxins in the food supply: modes of action, toxicant defense systems, toxicant and nutrient interactions, risk assessment. Only one of FS HN 419 and FS HN 519 may count toward graduation.

NUTRS 520. Digestive Physiology and Metabolism of Ruminants. (Cross-listed with AN S). (2-2) Cr. 3. Alt. S., offered 2012. Prereq: AN S 419 or NUTRS 501
Digestive physiology and nutrient metabolism in ruminant and prernatitum animals.

NUTRS 529. Foodborne Toxins. (Dual-listed with FS HN 429). (Cross-listed with TOX), (2-0) Cr. 2. F. Prereq: A course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
Mechanisms of action, metabolism, sources, remediation/detoxification, risk assessment of major foodborne toxidants of current interest, design of HAACP plans for use in food industries targeting foodborne toxidants, discussion of toxidants from a food defense perspective. Offered online only.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

NUTRS 542F. Techniques in Metabolomics. metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. (Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, V MPM, VDPAM).  Cr. 1. Repeatable. F. Prereq: Graduate classification Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

NUTRS 542G. Introduction to Molecular Biology Techniques: Genomic.  (Cross-listed with KIN, AN S).  (4-0) Cr. 4. F. Prereq: Biol 335; credit or enrollment in BBMB 404 or BBMB 420 Overview of mammalian physiology. Cell biology, endocrinology, cardiovascular, respiratory, immune, digestive, skeletal muscle and reproductive systems.

NUTRS 552. Advanced Vertebrate Physiology II.  (Cross-listed with KIN, AN S).  (3-0) Cr. 3. S. Prereq: BIOL 335; credit or enrollment in BBMB 404 or BBMB 420 Cardiovascular, renal, respiratory, and digestive physiology.

NUTRS 561. Medical Nutrition and Disease I.  (4-0) Cr. 4. F. Prereq: FS HN 360, FS HN 361, 3 credits in physiology at 300 level or above (Dual listed with FS HN 461.) Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state. Recitation section (1 cr.) will focus on refinement of assessment skills, diagnosis of nutritional problems, nutrition care, and documentation. Course must be taken for 4 credits if Didactic Program in Dietetics (DPD) verification statement of completion is desired. Graduate students may take the lecture portion without the recitation section.

NUTRS 563. Community Nutrition.  (3-0) Cr. 3. F. Prereq: FS HN 265 or FS HN 360; FS HN 366 recommended Dual listed with FS HN 463. Survey of current public health nutrition problems among nutritionally vulnerable individuals and groups. Discussion of the multidimensional nature of those problems and of community programs addressing them. Grant writing as a means for funding community nutrition program development. Significant emphasis on written and oral communication at the lay and professional level. Field trip. Nonmajor graduate credit.

NUTRS 564. Medical Nutrition and Disease II.  (3-0) Cr. 3-4. S. Prereq: FS HN 360, FS HN 461, or NUTRS 561. 3 credits in physiology at 300 level or above (Dual listed with FS HN 464.) Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state.

NUTRS 566. Nutrition Counseling and Education Methods.  (Dual-listed with FS HN 466).  (Cross-listed with DIET).  (2-2) Cr. 3. F.S. Prereq: Graduate student status Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

NUTRS 571. Food Processing I.  (Dual-listed with FS HN 471).  (2-3) Cr. 3. F. Prereq: FS HN 351 or A E 451 or CH E 357; MICRO 201 or MICRO 302; CHEM 163 or CHEM 177. Principles and applications of food processing by application of heat (blanching, pasteurization, canning, extrusion, evaporation and distillation, extrusion and dehydration) and by removal of heat (refrigeration and freezing). Emphasis on solving problems in laboratory and recitation sessions.

NUTRS 572. Food Processing II.  (Dual-listed with FS HN 472).  (2-3) Cr. 3. S. Prereq: FS HN 351 or A E 451 or CH E 357. Principles and applications of food processing by biological (fermentation, enzymes) and nontraditional (high pressure, irradiation, pulsed electric field) preservation methods. Includes packaging, waste water treatment, and sanitation. Emphasis on solving problems in laboratory and recitation sessions.

NUTRS 596. Food Science and Human Nutrition Travel Course.  (Dual-listed with NUTRS 496B).  Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor (One credit per week traveled and 1 credit for pre-departure class, if offered.) Limited enrollment. Tour and study of food industry, culinary science, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

NUTRS 596A. Food Science and Human Nutrition Travel Course: International travel.  (Dual-listed with FS HN 496).  Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor (One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

NUTRS 596B. Food Science and Human Nutrition Travel Course: Domestic travel.  (Dual-listed with FS HN 496).  Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor (One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

Courses for graduate students:

NUTRS 610. Advanced Nutrition and Metabolism - Protein.  (Cross-listed with AN S).  (2-0) Cr. 2. F. Prereq: BBMB 405 Digestion, absorption, and intermediary metabolism of amino acids and protein. Regulation of protein synthesis and degradation. Integration of cellular biochemistry and physiology of mammalian protein metabolism.

NUTRS 690. Special Problems.  Cr. arr. Repeatable. F.S.SS.
NUTRS 695. Grant Proposal Writing.
(Cross-listed with FS HN) (1-0 Cr. 1. F. Prereq: 3 credits of graduate course work in food science and/or nutrition)
Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Formation of grant writing teams in food science and/or nutrition. Offered on a satisfy-fail basis only.

Cr. arr. F.S.S.S.
Offered on a satisfy-fail basis only.

Plant Biology
(Interdepartmental Graduate Major)
The Interdepartmental Plant Biology major (IPB) coordinates graduate education and research in the areas of plant biology including but not limited to plant biochemistry, plant cellular and molecular biology and plant physiology. Graduate study in IPB, leading to the M.S. and Ph.D. Degrees, is offered through eight participating departments: Agronomy, Biochemistry, Biophysics & Molecular Biology, Chemical and Biological Engineering, Chemistry, Ecology, Evolution and Organismal Biology, Genetics Development & Cell Biology, Horticulture, and Plant Pathology.

Research conducted by the faculty and students of the major represents both basic and applied aspects of plant physiology, biochemistry and molecular biology. The experimental approaches represented in the major span the range of complexity from molecular studies, to cellular, organismal and the ecological level (crop monocultures and natural populations). Graduates have a broad understanding of basic, functional plant biology with emphasis on fundamental biology, biochemistry, and molecular biology. They are able to address complex research and policy problems in agriculture, biotechnology, and basic plant biology.

All M.S. candidates take a core curriculum comprising courses recommended from the following four categories, attend research seminars, research credits (PLBIO 696 Research Seminar or its listed equivalent. The first seminar must be during the student’s first year and is a 20-minute seminar. The last presentation must be an exit seminar.

All Ph.D. candidates take a core curriculum comprising courses recommended from the following four categories, attend research seminars, research credits (PLBIO 699 Research), annual Loomis Distinguished Lecture in Plant Biology and mini-symposium and retreats. Students will take additional courses of interest as directed by their Program of Study (POS) Committee members.

A total of 72 credits including a minimum of 24 course credits are required for a Ph.D.

A total of 36 credits including a minimum of 16 course credits are required for a M.S.

(1) Complete the following core courses:

Requirements for students seeking Plant Biology as Minor:
Toxicology is the science of studying the adverse effects of substances on living organisms. Students observe, gather data and predict risks and outcomes in populations. Whole organism research and cellular and molecular approaches are used to determine toxicant exposure and mechanisms. Work is offered for the degrees doctor of philosophy and master of science. Students majoring in toxicology will be affiliated with one of the following cooperating departments: Agricultural and BioSystems Engineering; Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemistry; Entomology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Geological and Atmospheric Sciences; Natural Resource Ecology and Management; Physics; Plant Pathology and Microbiology; Veterinary Diagnostic and Production Animal Medicine; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

The prerequisites for entrance into the graduate toxicology major include an undergraduate degree in a relevant area of study; for example, chemical engineering, biology, biochemistry, chemistry, ecology, entomology, food science and technology, microbiology, nutritional science, zoology, or veterinary medicine. Minimum undergraduate coursework should include the following or their equivalent:

- 1 year of college mathematics, including calculus
- 1 year of inorganic chemistry with quantitative analysis
- 1 course in physics
- 1 year of organic chemistry
- 2 years of biological sciences including 1 course in physiology

Other courses that are considered desirable in undergraduate preparation include: biochemistry, physical chemistry, qualitative analysis, and some specialized courses such as histology or advanced physiology.

Facilities and faculty are available for fundamental research in such areas as agricultural toxicology, drug discovery and prevention, ecotoxicology, environmental fate and effects of chemicals, insect toxicology, aquatic toxicology, food safety, nutritional toxicology, mycotoxins, neurotoxicology, cellular and molecular toxicology, reproductive toxicology, and veterinary toxicology.

Ph.D. and M.S. Students should register for TOX 689X (R) every fall and spring semester during their training.

Students majoring in toxicology will be affiliated with a cooperating department. All Ph.D. students take a core curriculum consisting of:

<table>

</table>

One member of the student’s program of study committee will be a member of the toxicology faculty.

Most students awarded doctoral degrees continue their training as postdoctoral associates at major research institutions in the U.S. or abroad in preparation for research and/or teaching positions in academia, industry, the military, veterinary research, or government environmental and public health institutions.

Toxicology
	toxmajor@iastate.edu
directly to permanent research positions in industry. Many students awarded master’s degrees continue their training as doctoral students; however, some choose research support positions (i.e., technician, chemist, research associate) in academia, industry, or government. A more thorough list of outcomes is available at our Web site.

Graduates of the Toxicology major will be able to carefully design, execute and analyze experiments that extend the knowledge of toxicology and closely related sciences. They will be able to clearly communicate research findings, and thoroughly evaluate the literature of toxicology, contributing significantly to the advancement of the field.

Courses

Courses primarily for undergraduates:

TOX 354. General Pharmacology.
(Dual-listed with TOX 554). (Cross-listed with B M S). (3-0) Cr. 3. S. Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405

General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

TOX 419. Foodborne Hazards.
(Cross-listed with MICRO, FS HN). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: MICRO 201 or MICRO 302, a course in biochemistry.
Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxins in the food supply, governmental regulation of foodborne hazards. Nonmajor graduate credit. Only one of FS HN 419 and FS HN 519 may count toward graduation.

TOX 420. Food Microbiology.
(Cross-listed with MICRO, FS HN). (3-0) Cr. 3. F. Prereq: MICRO 201 or MICRO 302
Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications. Nonmajor graduate credit.

TOX 429. Foodborne Toxins.
(Dual-listed with TOX 529). (Cross-listed with FS HN). (2-0) Cr. 2. F. Prereq: A course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
Mechanisms of action, metabolism, sources, remediation/detoxification, risk assessment of major foodborne toxins of current interest, design of HAACP plans for use in food industries targeting foodborne toxins, discussion of toxins from a food defense perspective. Offered online only.

Courses primarily for graduate students, open to qualified undergraduates:

TOX 501. Principles of Toxicology.
(3-0) Cr. 3. F. Prereq: BBMB 404 or equivalent
Principles of toxicology governing entry, fate, and effects of toxicants on living systems. Includes toxicokinetics and foreign compound metabolism relative to toxification or detoxification. Fundamentals of foreign compound effects on metabolism, physiology, and morphology of different cell types, tissues, and organ systems.

TOX 502. Toxicology Methods.
(0-6) Cr. 3. Alt. S., offered 2012. Prereq: TOX 501
Provides demonstrations or laboratory experience in the application of methods used in toxicology, including safety procedures, calculation and data analysis, teratologic and morphologic evaluation, cellular/molecular toxicological techniques, electrophysiologic measures, in vitro enzyme induction/biotransformation, neural and behavioral toxicology testing.

TOX 504. Toxicology Seminar.
(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.SS. Prereq: Permission of instructor required
Presentation of a seminar about a current topic in toxicology as part of a weekly series of seminars by graduate students, faculty, and guest lecturers from off campus.

TOX 506. Diet and cancer prevention.
(Dual-listed with TOX 406). (1-0) Cr. 1. Alt. F., offered 2012. Prereq: BBMB 404 and BBMB 405 or BBMB 420
Principles of cancer biology and cancer etiology will be integrated with the impacts of diet on cancer development and prevention. Contributions of research with humans, animals, cultured cells and cell free systems will be included. The importance of dietary contaminants, macronutrients and micronutrients will be examined with an emphasis on the strength of the evidence and mechanisms of action.

TOX 515. Regulatory Toxicology.
(Cross-listed with FS HN). (1-0) Cr. 1. Alt. F., offered 2012. Prereq: BBMB 404 or FS HN 403
Survey of approaches used by toxicologists in government and industry for generating, enforcing and complying with laws and regulations. Examine policies from multiple regulatory agencies and how risk-based decisions are made. Perform simple risk assessments and suggest ways of dealing with data gaps. Explore new types of data used in risk assessments. Taught online only.

TOX 519. Food Toxicology.
(Cross-listed with FS HN, NUTRS). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: A course in biochemistry
Basic principles of toxicology. Toxicants in the food supply: modes of action, toxicant defense systems, toxicant and nutrient interactions, risk assessment. Only one of FS HN 419 and FS HN 519 may count toward graduation.

TOX 526. Veterinary Toxicology.
(Dual-listed with TOX 426). (3-0) Cr. 3. S. Prereq: Permission of instructor
Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

TOX 529. Foodborne Toxins.
(Dual-listed with TOX 429). (Cross-listed with NUTRS). (2-0) Cr. 2. F. Prereq: A course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
Mechanisms of action, metabolism, sources, remediation/detoxification, risk assessment of major foodborne toxins of current interest, design of HAACP plans for use in food industries targeting foodborne toxins, discussion of toxins from a food defense perspective. Offered online only.

TOX 546. Clinical and Diagnostic Toxicology.
(Cross-listed with VDPAM). (0-3) Cr. 1-3. Repeatable. F.S.SS. Prereq: D.V.M. degree or VDPAM 526
Advanced study of current problems and issues in toxicology. Emphasis on problem solving utilizing clinical, epidemiological, and laboratory resources.

(Cross-listed with ENT). (2-0) Cr. 2. S. Prereq: 9 credits of biological sciences
Coats. Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere.

TOX 554. General Pharmacology.
(Dual-listed with TOX 354). (Cross-listed with B M S). (3-0) Cr. 3. S. Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

(Cross-listed with STAT). (3-0) Cr. 3. Alt. F., offered 2013. Prereq: STAT 500 or STAT 401; STAT 543 or STAT 447
Statistical methods commonly used in epidemiology and human and animal health studies. Overview of cohort studies, case-control studies and randomized clinical trials. Topics include inference procedures for disease risk factors, analysis of time-to-event and survival data, analysis of longitudinal studies of disease progression and health status, approaches to handling missing data, and meta-analysis. Examples will come from recent studies of physical and mental health, nutrition and disease progression in human and animal populations. Use of statistical software: SAS or R.

TOX 570. Risk Assessment for Food, Agriculture and Veterinary Medicine.
(Cross-listed with VDPAM, AGRON). (3-0) Cr. 3. F. Prereq: STAT 104 or consent of instructor
Wolt, Hurd. Risk assessment principles as applied to biological systems. Exposure and effects characterization in human and animal health and ecological risk assessment. Risk analysis frameworks and regulatory decision-making. Introduction to quantitative methods for risk assessment using epidemiological and distributional analysis. Uncertainty analysis. This course is available on campus and by distance.
Courses for graduate students:

TOX 626. Advanced Food Microbiology. (Cross-listed with MICRO, FS HN). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: FS HN 420 or FS HN 421 or FS HN 504
Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

TOX 627. Rapid Methods in Food Microbiology. (Cross-listed with MICRO, FS HN). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: FS HN 420 or FS HN 421 or FS HN 504
Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

TOX 655. Cellular and Molecular Pathology II. (Cross-listed with V PTH). (3-0) Cr. 3. Alt. S., offered 2014. Prereq: Graduate course in biochemistry, genetics, or cell biology
Cellular and molecular mechanisms of carcinogenesis.

TOX 675. Insecticide Toxicology. (Cross-listed with ENT). (2-3) Cr. 3. Alt. F., offered 2013. Prereq: ENT 555 or TOX 501
Coats. Principles of insecticide toxicology; classification, mode of action, metabolism, and environmental effects of insecticides.

TOX 697. Graduate Research Rotation. (0-12) Cr. 1-12. Repeatable, maximum of 3 times. F.S.S.S. Prereq: Admission to Toxicology graduate program
Graduate research projects performed under the supervision of selected faculty members in the graduate Toxicology major.

Transportation

(Interdepartmental Graduate Major)
Work is offered for the degree master of science with a major in transportation under a cooperative arrangement with various departments including Civil, Construction and Environmental Engineering (CCEE), Community and Regional Planning (CRP), and Logistics, Operations and Management Information Systems (LOMIS). Opportunities are afforded for research in such areas as modeling and performance of transportation systems, highway safety and information systems, remote sensing, environmental analysis, techniques for urban and regional transportation system planning, environmental and social policy analysis of transportation systems, transportation policy analysis, analysis of transportation technologies, commodity distribution, public administration of the transportation planning process, regional development and transportation system interrelationships, transportation economics and finance, and planning for logistics management.

Students majoring in transportation will develop a program of study under the guidance of a program of study committee selected by the student in consultation with and approved by the chair of the faculty supervisory committee. For administrative purposes, the student's home department will be the department originally admitting the student. A major professor may be selected from any of the three participating departments. A student must designate at least one member of the POS committee from his or her home department, and at least one member from outside the home department.

A student must complete at least 54 credits of acceptable work including preparation of a 6 credit thesis or a 2-3 credit creative component. A structured minor requires 12 credits of approved transportation courses and a thesis or creative component on a transportation related topic.

A required core includes:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>C E 551</td>
<td>Urban Transportation Planning Models</td>
<td>3</td>
</tr>
<tr>
<td>TRANS 691</td>
<td>Seminar in Transportation Planning</td>
<td>1-3</td>
</tr>
<tr>
<td>STAT 401</td>
<td>Statistical Methods for Research Workers</td>
<td>4</td>
</tr>
</tbody>
</table>

Detailed requirements are available from the chair of the supervisory committee. Graduate students pursuing a major in any of the cooperating departments who have an interest in transportation are encouraged to consider a formal declared minor in transportation. Students considering a declared minor should consult with the chair of the supervisory committee about the requirements for it.

Students typically focus their program of study to support a career in one of five areas: transportation consulting, regional and statewide transportation planning, transportation service operations and management, transportation policy and economic analysis, and transportation planning and operation for local and state governments. Graduates will have specific knowledge in one or more of these focus areas and the skills to conduct research and analysis of transportation issues. These skills allow graduates to be productive immediately in positions related to a focus area or to continue in more advanced transportation graduate work.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

TRANS 655. Economic Analysis of Transportation Investments. (3-0) Cr. 3. F. Prereq: C E 350 or C E 355
Application of economic analysis methodologies to evaluate transportation projects. Multi-modal approaches to evaluate impacts of transportation investments and maximize economic efficiency while considering equity and other social issues related to investment options.

TRANS 599. Creative Component. Cr. 1-3. Prereq: Pre-enrollment contract required
Advanced topic for creative component report in lieu of thesis.

Courses for graduate students:

Provides an overview of current transportation issues; lecturers provide seminars on a variety of timely transportation topics.

Seed Technology and Business

(Interdepartmental Graduate Major)

On-Line Graduate Study

The Graduate Program in Seed Technology and Business offers students advanced study in the seed science and technology and business management appropriate for application in the seed sector. The program is offered by nine departments in the Colleges of Business and Agriculture and Life Sciences: Accounting; Agronomy; Finance; Horticulture; Logistics, Operations, and Management Information Systems; Management; Marketing; and Plant Pathology. This multidisciplinary program offers a focused on-line curriculum for a Master of Science in Seed Technology and Business, along with Graduate Certificates in Seed Science and Technology and in Seed Business Management. Courses are available to students in other majors.

The curriculum offers a set of scientific and technical courses that are focused on seed, with a set of basic management courses, similar to those in the core courses of an MBA program. The business courses will use examples drawn from the seed industry. A creative component is required for the Master of Science degree.

Prerequisite for the program is a bachelor’s degree in business, agriculture, other biological discipline, or related degrees. Graduate training in these disciplines will also be considered.
Graduates of the Graduate Program in Seed Technology and Business will be prepared for roles in management and leadership within private and public seed and seed-related organizations.

All of the courses listed below are required for the Master of Science degree, and the students are expected to go through the curriculum in order. The pace of the course sequence is designed to allow the students with work and other commitments to participate. Students will complete the creative component under the guidance of their Program of Study Committee. In many cases, the creative component topic will be associated with the student’s work.

Graduates of the Master of Science curriculum will be prepared for roles in management and leadership within seed related organizations, private and public.

The program offers two graduate certificates:

### Graduate certificate in Seed Science and Technology

Graduate certificate courses may be applied to the Master of Science in Seed Technology and Business. Those interested in these graduate certificates should contact the Program for details.

Information on application procedures and specific requirements of the major can be obtained from the following internet addresses: http://www.seedgrad.iastate.edu, or http://www.distance.iastate.edu or by writing to seedgrad@iastate.edu.

### Courses

Courses primarily for graduate students, open to qualified undergraduates:

**STB 501. Strategy and Planning.**
(Cross-listed with BUSAD). (2-0) Cr. 2. Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor

Critical analysis of current practice and case studies in strategic management with an emphasis on integrative decision making. Strategy formulation and implementation will be investigated in the context of complex business environments.

**STB 503. Information Systems.**
(Cross-listed with BUSAD). (2-0) Cr. 2. Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor

Introduction to a broad variety of information systems (IS) topics, including current and emerging developments in information technology (IT), IT strategy in the context of corporate strategy, and IS planning and development of enterprise architectures. Cases and discussions highlight the techniques and tactics used by managers to cope with strategic issues within an increasingly technical competitive environment.

**STB 504. Marketing and Logistics.**
(Cross-listed with BUSAD). (3-0) Cr. 3. Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor

Integration of the business functions concerned with the marketing and movement of goods along the supply chain with the primary goal of creating value for the ultimate customer. Coordination of marketing, production, and logistics activities within the firm and with outside suppliers and customers in the supply chain.

**STB 507. Organizational Behavior.**
(Cross-listed with BUSAD). (2-0) Cr. 2. Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor

Understanding human behavior in organizations, and the nature of organizations from a managerial perspective. Special emphasis on how individual differences, such as perceptions, personality, and motivation, influence individual and group behavior in organizations and on how behavior can be influenced by job design, leadership, groups, and the structure of organizations.

**STB 508. Accounting and Finance.**
(Cross-listed with BUSAD). (3-0) Cr. 3. Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor

Survey of fundamental topics in accounting and finance. Financial statement testing and analysis for agriculture firms, corporate governance issues related to financial reporting, (e.g., Sarbanes-Oxley). Basic tools and techniques used in financial management, including stock and bond valuation. How to assess and use capital budgeting methods to evaluate proposed firm investments.

**STB 509. Seed Trade, Policy and Regulation.**
(Cross-listed with BUSAD). (3-0) Cr. 3. Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor

**STB 534. Seed and Variety, Testing and Technology.**
(Cross-listed with AGRON). (2-0) Cr. 2. Prereq: Admission to the Seed Technology and Business Master’s Degree Program or approval of the instructor

Analysis of the relationship of reproductive characters and growth characteristics to selection. Analysis of the defining characteristics of the seed industry and introduction to the Master in Seed Technology and Business curriculum. The tasks of crop improvement and seed production will be analytically related to basic management functions and classifications of management activities that are used in the study of business administration. Management tasks and roles will be analyzed in related to the public policy issues that shape the seed industry, including ethical and economical approaches to biotechnology, intellectual property, and corporate responsibility.

**STB 536. Quantitative Methods for Seed.**
(Cross-listed with AGRON). (1-0) Cr. 1. F. Prereq: Admission to the Seed Technology and Business Master’s Degree Program or approval of the instructor

Quantitative Methods for analyzing and interpreting agronomic and business data. Use of statistical analysis of variance. Statistical inference and stratification for yield trials. Use of strip plot testing.

**STB 535. Introduction to the Seed Industry.**
(Cross-listed with AGRON). Cr. 1. Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor

An analysis of the defining characteristics of the seed industry and introduction to the Master in Seed Technology and Business curriculum. The tasks of crop improvement and seed production will be analytically related to basic management functions and classifications of management activities that are used in the study of business administration. Management tasks and roles will be analyzed in related to the public policy issues that shape the seed industry, including ethical and economical approaches to biotechnology, intellectual property, and corporate responsibility.

**STB 538. Seed Conditioning and Storage.**
(Cross-listed with AGRON). (2-0) Cr. 2. Prereq: Admission to the Seed Technology and Business Master’s Degree Program or approval of the instructor

The technical operations which may be carried out on a seed lot from harvest until it is ready for marketing and use. The opportunities for quality improvement and the risks of deterioration which are present during that time. Analysis of the costs of and benefits of operating. Evaluation of equipment based on benefits to the customer and producer. Interpretation of the role of the conditioning plant and store as a focal point in the marketing and use of a seed company.
STB 543. Seed Physiology.
(Cross-listed with HORT). (2-0) Cr. 2. Alt. F., offered 2012. Prereq: Admission to the Graduate Seed Technology and Business Program or approval of the instructor. Brief introduction to plant physiology. Physiological aspects of seed development, maturation, longevity, dormancy and germination. Links between physiology and seed quality.

STB 547. Seed Production.
(Cross-listed with AGRON). (2-0) Cr. 2. Prereq: Admission to the Seed Technology and Business Master’s Degree Program or approval of the instructor. Survey of crop production; including management of soil fertility, planting dates, populations, weed control, and insect control. Analysis of the principles of seed multiplication and the key practices which are used to ensure high quality in the products. Field inspection procedures and production aspects that differ from other crop production. Foundation seed production. Analysis of the typical organization of field production tasks. Resources and capabilities required. Survey of differences in seed production strategies between crops and impact of differences on management of seed production.

STB 592. Seed Health Management.
(Cross-listed with PL P). (2-0) Cr. 2. Alt. S., offered 2014. Prereq: Admission to the Graduate Program in Seed Technology and Business/Consent of instructor. Munkvold. Occurrence and management of diseases during seed production, harvest, conditioning, storage, and planting. Emphasis on epidemiology, disease management in the field, seed treatment, effects of conditioning on seed health, and seed health testing. Credit may not be obtained for both PL P/STB 592 and PL P 594.

STB 595. Seed Quality, Production, and Research Management.
(Cross-listed with AGRON), (3-0) Cr. 3. Prereq: Admission to the Seed Technology and Business Master’s Degree Program or approval of the instructor. Advanced survey of the organization, staff capabilities and management characteristics typical in seed production and crop improvement in seed enterprises. Analysis of the use of quality information in the management of seed operations and sales. Process management applications for seed. Production planning for existing capacity. Analysis of the manager’s tasks in the annual cycle and how the tasks of these managers relate to the general categories of business management roles. Difference in management strategies used with different situations and groups of employees.

STB 599. Creative Component.
Cr. 3-4. Prereq: Admission to the Master’s in Seed Technology and Business degree program and permission of the instructor. A written report based on research, library readings, or topics related to the student’s area of specialization and approved by the student’s advisory committee.

Undergraduate Interdisciplinary Programs

Undergraduate interdisciplinary programs are administered by more than one college and/or more than one department. See the program web sites for information about admission, academic requirements, and enrollment deadlines.

- Honors Program (http://catalog.iastate.edu/interdisciplinaryprograms/undergraduate/honorsprogram)
- University Studies (http://catalog.iastate.edu/interdisciplinaryprograms/graduate-undergraduate/universitystudies)
- Seed Science (p. 695)

Interdisciplinary Studies

Interdepartmental undergraduate major administered by the College of Liberal Arts and Sciences

A major in interdisciplinary studies is offered in the College of Liberal Arts and Sciences for undergraduate students who have unique interdisciplinary educational goals. The student, a faculty review board, and an academic advisor design the major. Leading to either the bachelor of arts or the bachelor of science degree, the major includes 36 to 48 credits of coursework chosen to provide a coherent, carefully planned program in an area of interest that bridges two or more departments. This specialized area is identified on the diploma. Learning goals are individually crafted for each proposed major.

A degree in Interdisciplinary Studies may be particularly attractive to students who wish to develop an area of interest based upon one of the College’s cross-disciplinary programs. Areas of interest in Interdisciplinary Studies have included Classical Studies, Criminology and Criminal Justice, International Relations, Ecology Studies, African American Cultural Studies, Asian Studies, and U.S. Latino/a Studies.

A student seeking admission to the program in interdisciplinary studies writes a letter of application that explains how the proposed major meets specific educational and learning goals. A faculty review board screens applications. Since students are expected to earn at least 30 credits after they are admitted into the program, the proposal is ordinarily submitted to the review board in the sophomore or junior year. The proposal will be considered if the area of interest properly falls within the College of Liberal Arts and Sciences and if the student’s educational goals cannot be met by a more traditional combination of existing majors, minors, and electives.

The interdisciplinary studies major must satisfy the requirements of the liberal arts and sciences curriculum in the College of Liberal Arts and Sciences. A major emphasizing the humanities or communicative arts normally leads to a B.A.; a major emphasizing the natural or social sciences normally leads to a B.S. Different requirements for the B.A. and B.S. degrees are determined by the nature of the chosen field of study. Courses listed in the individualized major may come from any department of the university with the following restrictions:

1. The selection of courses needs to focus on a single theme and be consistent with the career and educational goals of the student.
2. At least one half of the courses in the major will come from departments within the College of Liberal Arts and Sciences.
3. The courses will be chosen from at least two disciplines.

All courses in the major must be at the 200-level or higher. At least 15 credits must be at the 300-level or higher with at least 6 credits at the 400-level or higher. An average grade of C or better must be earned in 15 credits at the 300-level or higher in the major. To meet the English and communication proficiency requirement, a grade of C or better must be earned in either an advanced English composition course or a course in the major with a significant writing component.

Further information may be obtained from the college office.

Seed Science

Curriculum in Seed Science

Administered by the Departments of Agricultural and Biosystems Engineering, Agronomy, Horticulture, and Plant Pathology. Must be taken as a secondary major in conjunction with a primary major. The seed science program is designed for students with career interests in one or more aspects of the seed industry. Areas of study include: seed production, conditioning, pathology, physiology, quality control, and marketing, as well as seed plant designs.

ECON 235 Introduction to Agricultural Markets 3
Three credit hours from the following:
ACCT 284 Financial Accounting 3
ECON 102 Principles of Macroeconomics 3
ECON 230 Farm Business Management 3
ECON 336 Agricultural Selling 3
MGMT 370 Management of Organizations 3
MKT 340 Principles of Marketing 3
Total Credits 9

Seed Science: 10 cr.
AGRON 338 Seed Science and Technology 3
AGRON 421 Introduction to Plant Breeding 3
4 credits from 300-400 level from AGRON, PLP, TSM, or HORT 4
Total Credits 10

Typical Program for the First Year
Because seed science is a secondary major, the courses taken by the student during the first year will vary, depending on the primary major (see typical program for the primary major).

University Studies

Associate Provost for Academic Programs
Certain interdisciplinary courses are offered through university studies, at the discretion of the associate provost for academic programs and upon the advice of the Faculty Senate Curriculum Committee. No major is available in university studies, but credit obtained through university studies offerings may be applied toward a degree in any of the colleges, consistent with the stipulations of the student’s curriculum. Requests to make use of U ST 290, U ST 490, U ST 590 should be directed to the associate provost for academic programs and should be accompanied by a positive recommendation from the department heads and deans of the instructors making the request. The associate provost for academic programs will refer requests to the Faculty Senate Curriculum Committee which will make recommendations to the associate provost for academic programs regarding their disposition after consultation with appropriate college and university committees.

Courses

Courses primarily for undergraduates:

U ST 101A. First Year Seminar I: Hixson Scholars.
(1-0) Cr. 1. F.S. Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.

U ST 101B. First Year Seminar I: MVP Award.
(1-0) Cr. 1. F.S. Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.

U ST 101C. First Year Seminar I: Science Bound.
(1-0) Cr. 1. F.S. Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.

U ST 101D. First Year Seminar I: Student Athlete Experience.
(1-0) Cr. 1. F.S. Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.

U ST 101E. First Year Seminar I: Student Support Services Program.
(1-0) Cr. 1. F.S. Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.

U ST 102A. First Year Seminar II: MVP Award.
(1-0) Cr. 1. S. Prereq: U ST 101 or instructor permission.
Acceptance/participation in appropriate learning community. Continued exploration of university services, strategies for student success, leadership, and acclimation to university. Exploration of issues associated with learning community focus. Offered on a satisfactory-fail basis only.

U ST 102B. First Year Seminar II: Science Bound.
(1-0) Cr. 1. S. Prereq: U ST 101 or instructor permission.
Acceptance/participation in appropriate learning community. Continued exploration of university services, strategies for student success, leadership, and acclimation to university. Exploration of issues associated with learning community focus. Offered on a satisfactory-fail basis only.

U ST 104. Personal Career Development.
(2-0) Cr. 2. F.S.
Comprehensive approach to personal career development providing students with the skills and structure to make informed choices about their major and career path. Self-exploration of interests, skills, values, and personality as related to the world of work using a variety of techniques; exploration of majors and occupations; modeling for major and career decision-making and career goal implementation; exposure to effective job search and interviewing skills and resources.

U ST 105. Carver Academy Seminar: Freshmen.
(1-0) Cr. 1. F. Prereq: Acceptance in Carver Academy Program, George Washington Carver scholarship recipient
Orientation to the university for Carver Academy students focusing primarily on transition and acclimation to the university environment. Individual and group identity development. Life and legacy of George Washington Carver. Offered on a satisfactory-fail basis only. Meets U.S. Diversity Requirement
(1-0) Cr. 1. F. Prereq: U ST 106, intended primarily for sophomores  
Leadership and peer mentor training for Carver Academy students who will be serving as peer mentors in Carver Academy. Definitions and analysis of diversity in academia. Academic portfolio preparation and career exploration. Offered on a satisfactory-fail basis only.  
Meets U.S. Diversity Requirement

(1-0) Cr. 1. S. Prereq: U ST 106, intended primarily for sophomores  
Development of leadership and mentoring skills. Survey of leadership in diverse communities in the U.S. Offered on a satisfactory-fail basis only.  
Meets U.S. Diversity Requirement

U ST 290. Independent Study.  
Cr. arr. Prereq: Permission of the associate provost for academic programs  
Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores.  
Meets U.S. Diversity Requirement

U ST 301. McNair Scholars Seminar: Orientation to the McNair Program and to Academic Research.  
(0-2) Cr. 1. F. Prereq: New fall admit to the Ronald E. McNair Postbaccalaureate Achievement Program  
Covers program guidelines and requirements, the basics of preparing for the graduate admissions process, and the formulation of a research topic to begin the required research project. Offered on a satisfactory-fail basis only.

(0-2) Cr. 1. S. Prereq: U ST 301  
Covers the review of literature and the methodology components of the required research project. Offered on a satisfactory-fail basis only.

U ST 305. Carver Academy Seminar: Community Leaders.  
(1-0) Cr. 1. F. Prereq: Intended primarily for juniors  
Leadership development for Carver Academy students; frameworks for multicultural leadership. Students will research and assess needs for community enhancement projects under faculty supervision. Offered on a satisfactory-fail basis only.

(1-0) Cr. 1. S. Prereq: Intended primarily for juniors  
Leadership development for Carver Academy students; self-directed development of leadership abilities. Implement student-directed community enhancement projects under faculty supervision. Begin preparation for graduate and professional schools and career placement. Offered on a satisfactory-fail basis only.

U ST 311. Leaders Seminar I.  
(1-0) Cr. 1. Repeatable  
For students serving as peer mentor first-year seminar leaders under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.

U ST 311A. Leaders Seminar I: Leaders in Hixson Seminar.  
(1-0) Cr. 1. Repeatable  
For students serving as peer mentor first-year seminar leaders under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.

U ST 311B. Leaders Seminar I: Leaders in MVP Seminar.  
(1-0) Cr. 1. Repeatable  
For students serving as peer mentor first-year seminar leaders under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.

U ST 312. Leaders Seminar II.  
(1-0) Cr. 1. Repeatable. Prereq: U ST 311  
For students serving as leaders in Hixson Seminar or MVP Seminar under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.

U ST 312A. Leaders Seminar II: Leaders in Hixson Seminar.  
(1-0) Cr. 1. Repeatable. Prereq: U ST 311  
For students serving as leaders in Hixson Seminar or MVP Seminar under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.

U ST 312B. Leaders Seminar II: Leaders in MVP Seminar.  
(1-0) Cr. 1. Repeatable. Prereq: U ST 311  
For students serving as leaders in Hixson Seminar or MVP Seminar under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.

U ST 315. Cyclone Aide Leaders Seminar.  
(3-0) Cr. 2. S. Prereq: Selection as Cyclone Aide Student Leader  
Development of public speaking, group facilitation, and peer leadership skills. Exploration of issues associated with student transition to college, university organizational structures, and processes associated with student matriculation. Offered on a satisfactory-fail basis only.

U ST 321. NCORE Scholars: Race and Ethnicity in the U.S.  
(2-2) Cr. 3. F. Prereq: Selection as an NCORE Student Scholar and attendance at NCORE  
Exploration of issues of race and ethnicity in the United States.  
Meets U.S. Diversity Requirement

U ST 401. McNair Scholars Seminar: Data Collection and Data Analysis.  
(0-2) Cr. 1. F. Prereq: U ST 302  
Covers the data collection and data analysis sections of the required research project. Offered on a satisfactory-fail basis only.

(0-2) Cr. 1. S. Prereq: U ST 401  
Final course for second year scholars. Covers data analysis, data clean up, and the writing of the final project. Offered on a satisfactory-fail basis only.

U ST 405. Carver Academy Seminar: Fellows.  
(1-0) Cr. 1. S. Prereq: Intended primarily for seniors  
Continued preparation for graduate school, professional school and/or chosen profession. Research project experience with faculty mentor is required. Offered on a satisfactory-fail basis only.

(1-0) Cr. 1. S. Prereq: Intended primarily for seniors  
Oral and written presentation of research under faculty supervision. Offered on a satisfactory-fail basis only.

U ST 490. Independent Study.  
Cr. arr. Repeatable. Prereq: Permission of the associate provost for academic programs  
Independent study on topics of an interdisciplinary nature. Intended primarily for juniors and seniors.

Courses primarily for graduate students, open to qualified undergraduates:

U ST 590. Special Topics.  
Cr. arr. Repeatable. Prereq: Permission of graduate college  
Independent study on topics of an interdisciplinary nature. Intended primarily for graduate students.

Undergraduate and Graduate Interdisciplinary Programs

Interdisciplinary programs in this section are available for both undergraduate and graduate students. See information with each program for more details concerning courses.

Honors Program

The Honors Program provides a vehicle for highly motivated and able students to pursue an innovative and challenging undergraduate education. Oversight of
students’ progress is primarily the responsibility of the undergraduate colleges, each of which operates its own Honors Program. The college Honors Program committees approve programs of study and are responsible for program administration. The University Honors Program Committee, which includes the chairs of the college programs, is responsible for the general coordination of the college Honors Programs and the First-Year Honors Program.

Students in the Honors Program are offered a variety of academic opportunities to help them benefit fully from their undergraduate education. To enhance their individualized programs of study, students are offered Honors courses, seminars, and opportunities for independent research.

Honors courses and Honors sections of regular courses are offered by several departments and programs. These courses generally have limited enrollment. Most of these courses are listed by department or program. (See for example Economics, Engineering, English, Mathematics, Physics, and Speech Communication.)

In addition to established Honors courses, Honors students may designate a course as an Honors course by making appropriate arrangements with the course instructor and obtaining approval from the Honors Program director. Most departments offer opportunities for independent study and research under 290 and 490; when designated by an H, these courses also carry Honors credit.

Research grants are available to support Honors research.

Listed below are courses offered directly by the University Honors Program. Specific information about the full range of Honors courses and seminars for the current academic year, including the Honors courses offered by individual departments and programs, may be obtained from the Honors Program Office, 2130 Jischke Honors Building.

Courses

Courses primarily for undergraduates:

HON 121. First-Year Honors Seminar.
(0-2) Cr. 1. F. Prereq: Membership in the First-year Honors Program
Orientation to Iowa State University and to the University Honors Program. Orientation to Iowa State University and to the University Honors Program. Offered on a satisfactory-fail basis only.

HON 290. Special Problems.
Cr. arr. Prereq: Membership in and permission of the University Honors Program
Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores. Offered on a satisfactory-fail basis only.

HON 290H. Honors.
Cr. 1-2. F.S. Prereq: Membership in and permission of the University Honors Program
Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores. Offered on a satisfactory-fail basis only.

HON 290U. Undergraduate Research.
Cr. arr. F.S. Prereq: Membership in and permission of the University Honors Program
Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores. Offered on a satisfactory-fail basis only.

HON 302. Honors Leadership Seminar.
(1-2) Cr. 2. F. Prereq: Selection as a leader of a First-Year Honors Seminar
For students serving as leaders of First-Year Honors Seminars, under faculty supervision. Development of teaching and leadership skills within the context of an Honors education experience. Offered on a satisfactory-fail basis only.

HON 321. University Honors Seminars.
Cr. 1-2. F.S. Prereq: Membership in the University Honors Program
Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

HON 322. University Honors Seminars.
Cr. 1-2. F.S. Prereq: Membership in the University Honors Program
Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

HON 324. University Honors Seminars.
Cr. 1-2. F.S. Prereq: Membership in the University Honors Program
Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

HON 490. Independent Study.
Cr. arr. Repeatable. F.S. Prereq: Membership in and permission of the University Honors Program
Independent study on topics of an interdisciplinary nature. Intended primarily for juniors and seniors.

Iowa Lakeside Laboratory

Interinstitutional Program

Iowa Lakeside Laboratory is run cooperatively by the Iowa Lakeside Laboratory Consortium whose members include Drake University, Iowa State University, the University of Northern Iowa, and the University of Iowa. Lakeside courses can be taken for credit through all Consortium members. Students should check with their advisers to determine whether Lakeside courses can be used to satisfy major or minor requirements or college or university general education requirements.

The Laboratory was established in 1909 for the conservation and study of the rich flora and fauna of northwest Iowa, especially those of the Iowa Great Lakes region with its numerous lakes, wetlands, and prairies. Its campus is located on approximately 140 acres of restored prairie, wetland, and gallery forest along the west shore of West Okoboji Lake. Lakeside’s mission is to provide undergraduate and graduate students an opportunity to get hands-on experience working with a variety of natural and human environments through its field-oriented summer courses and to provide research facilities and support for graduate students and faculty working on research projects in northwestern Iowa. Each summer, Iowa Lakeside Laboratory offers students a unique educational experience: small, full-immersion, field-oriented courses in the natural sciences (archaeology, ecology, environmental science, hydrology, evolution, geology, soils, taxonomy). All courses meet daily from Monday through Friday. The majority of courses run for 4 weeks. Enrollments in most courses are limited to 8 to 10 students. Courses are taught at the undergraduate (sophomore and junior) and the senior/graduate level. Students obtain one credit for each week (40 hours) in class. One and two week courses are also available, including courses designed especially for teachers. Weather permitting, students normally spend at least part of each day doing field work, either as part of their class work or working on individual or group projects. Because some courses are offered intermittently, the current Iowa Lakeside Laboratory summer brochure or the Lakeside Lab Website (www.lakesidelab.org) should be consulted for the list of courses being offered in a given summer session. The Lakeside Lab Website (www.lakesidelab.org) also contains additional information about the Laboratory and about each course being offered.

Research projects by undergraduates, graduate students and faculty can be done either on the campus or at many nearby natural areas. Undergraduate and graduate students are strongly encouraged to do independent projects at Lakeside and graduate students are welcome to use it as a base for their thesis and dissertation research. Laboratory space and other facilities are available for long-term or short-term research projects.

Teaching and research facilities include eight laboratory buildings, a library, and a lecture hall. Living accommodations include cottages, motel-style units, and a large mess hall. All students are encouraged to stay at Lakeside while they are taking courses to take full advantage of its educational, professional, and social life.

Financial Aid

Iowa Lakeside Laboratory Scholarships are available to both undergraduates and graduate students. All scholarships cover room and board. Information about how to apply for Iowa Lakeside Laboratory Scholarships is included on the Website (www.lakesidelab.org). Students should also consult the Student Financial Aid Office for other scholarship, work study, and loan programs for which they are eligible.

Registration

Students can only enroll in Iowa Lakeside Lab courses by submitting an Iowa Lakeside Lab Registration and Scholarship form and Housing form to the Iowa Lakeside Laboratory Administrative Office. These forms are found on the Iowa Lakeside Laboratory Website (www.lakesidelab.org).
Courses

Courses primarily for undergraduates:

IA LL 293. Natural History Workshop.
Cr. 1-2. SS.
Offered as demand warrants. Five-day-long, nontechnical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 293G. Prairies.
Cr. 1-2. SS.
Offered as demand warrants. Five-day-long, nontechnical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

Cr. 4. Alt. SS., offered 2013. Prereq: One course in the biological sciences. Introduction to ecology and co-evolution of plants and animals; emphasis on dispersal, pollination, and plant-herbivore interactions; field and laboratory work, reading, discussion.

IA LL 303I. Undergraduate Internships.
(Cross-listed with NREM). Cr. 1-5. SS. Prereq: Permission of instructor and sophomore standing
Placement with county conservation boards, camps, parks, etc. for experience as interpreters, rangers, and technicians.

IA LL 312I. Ecology.
(Cross-listed with A ECL, ENSCI). Cr. 4. SS.
An introduction to the principles of ecology at the population, community and ecosystem level. Field studies of local lakes, wetlands and prairies are used to examine factors controlling distributions, interactions, and roles of plants and animals in native ecosystems.

IA LL 326I. Ornithology.
(Cross-listed with A ECL). Cr. 4. SS.
The biology, ecology, and behavior of birds with emphasis on field studies of local avifauna. Group projects stress techniques of population analysis and methodology for population studies.

IA LL 333. Animals and Their Ecosystems.
(4-0) Cr. 4. Prereq: Introductory biology
Vertebrate and invertebrate animals of the Midwest are observed in nature either through passive observational techniques or active trapping exercises. Once identified, animals are placed in their proper taxonomic position (e.g., put onto the "Tree of Life"). They also are put into ecological perspective, including habitat preferences (i.e., wetland, lake, prairie, forest, river, edge), trophic position, and activity patterns. Conservation status is discussed. Nonmajor graduate credit.

IA LL 364. Biology of Aquatic Plants.
Cr. 4. Alt. SS., offered 2012.
A field-oriented introduction to the taxonomy and ecology of aquatic plants in lakes, wetlands and rivers. Individual or group projects.

IA LL 367. Plant Taxonomy.
Cr. 4. SS.
Principles of classification and evolution of vascular plants; taxonomic tools and collection techniques; use of keys. Field and laboratory studies emphasizing identification of local flowering plants and recognition of major plant families.

IA LL 371I. Introduction to Insect Ecology.
(Cross-listed with ENT). (3-3) Cr. 4. Alt. SS., offered 2013.
Field and laboratory study of insects, their diversity, life history; emphasis on ecology and behavior.

IA LL 402I. Watershed Hydrology and Surficial Processes.
(Cross-listed with AGRON, ENSCI). Cr. 4. SS. Prereq: Four courses in physical or biological sciences or engineering
Effects of geomorphology, soils, and land use on transport of water and materials (nutrients, contaminants) in watersheds. Fieldwork will emphasize investigations of the Iowa Great Lakes watershed. Nonmajor graduate credit.

IA LL 403. Evolution.
Cr. 4. SS.
Mechanisms and patterns in microevolution and macroevolution. Field exercises will emphasize studies of natural selection, adaptation, genetic variation, and population genetics of local plant and animal populations. Nonmajor graduate credit.

IA LL 404I. Behavioral Ecology.
(Cross-listed with A ECL). Cr. 4. Alt. SS., offered 2012. Prereq: Two semesters of biology
Animal coloniality, courtship, territoriality, predator defense, habitat selection, foraging, mating systems, and parental care will be examined in the field in order to evaluate various ecological and evolutionary theories of animal behavior.

IA LL 415. Freshwater Invertebrates.
Cr. 4. SS. Prereq: One or more ecology courses

IA LL 419I. Vertebrate Ecology and Evolution.
(Cross-listed with A ECL). Cr. 4. SS.
Field and laboratory study of representative vertebrates of northwestern Iowa. Observations and experimentation emphasize ecological histories by integrating concepts of functional morphology, behavioral ecology, and evolutionary biology. Nonmajor graduate credit.

IA LL 420I. Amphibians and Reptiles.
(Cross-listed with A ECL). Cr. 4. Alt. SS., offered 2012. Prereq: Two semesters of biology
Ecology, behavior, and conservation biology of amphibians and reptiles with emphasis on their anatomy and morphology; temperature and water regulation; locomotion; life history; reproduction; population and community ecology; and conservation.

IA LL 422I. Prairie Ecology.
(Cross-listed with ENSCI). Cr. 4. SS. Prereq: Familiarity with basic principles in biological sciences and ecology
Basic patterns and underlying physical and biotic causes of both regional and local distributions of plants and animals of North American prairies; field and laboratory analyses and projects. Nonmajor graduate credit.

IA LL 425I. Aquatic Toxicology and Wetland Dynamics in Freshwater Systems.
Cr. 4. SS. Prereq: Introductory biology course and general chemistry course
Fundamental knowledge and understanding of the scientific concepts related to the physio-chemical and biological environment. Problems and issues (global, national, regional, and local) associated with freshwater systems and how wetland restoration can be used to ameliorate problems. Discussion and application of basic tools used to assess aquatic toxicological problems. Nonmajor graduate credit.

IA LL 427I. Archaeology.
(Cross-listed with ANTHR). Cr. 4. SS.
Nature of cultural and environmental evidence in archaeology and how they are used to model past human behavior and land use; emphasis on Iowa prehistory; basic reconnaissance surveying and excavation techniques. Nonmajor graduate credit.

IA LL 435I. Illustrating Nature I Sketching.
(Cross-listed with BPM I). Cr. 2. SS.
Beginning to intermediate technical and compositional aspects of color photography of natural areas and their plants and animals.
IA LL 461l. Introduction to GIS.
(Cross-listed with ENSCI, ENV S, L A). Cr. 4. SS.
Descriptive and predictive GIS modeling techniques, spatial statistics, and map algebra. Application of GIS modeling techniques to environmental planning and resource management. Nonmajor graduate credit.

IA LL 463l. Soil Formation and Landscape Relationships.
Burrs. Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 5631 may be applied for graduation.

IA LL 484. Plant Ecology.
Cr. 4. SS.
Principles of plant population, community, and ecosystem ecology illustrated through studies of native vegetation in local prairies, wetlands and forests. Group or individual projects. Nonmajor graduate credit.

IA LL 490l. Independent Study: Undergraduate Independent Study.
(Cross-listed with ANTHR, NREM). Cr. 1-4. Repeatable. SS. Prereq: Junior or senior classification and permission of instructor.
IA LL 493. Natural History Workshop.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493A. Amphibians and Reptiles.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493B. Birds and Birding.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493C. Nature Photography.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493D. Mushrooms and Other Fungi.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493E. Iowa’s Trees and Forests.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493F. Fish Biology.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493G. Prairies.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493H. Aquatic Plants.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493J. Aquatic Plants.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493K. Life in Rivers.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493L. Life in Lakes.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493M. Mosses and Liverworts.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493N. Natural History of Iowa Great Lakes Region.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493O. Scuba Diving.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493P. Field Archaeology.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493Q. Common Algae.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493S. Scuba Diving.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 493T. Astronomy.
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 494. Ecosystems of North America.
Cr. 2-4. SS. Prereq: A general ecology course and permission of the instructor.
An extended field trip to study a particular type of ecosystem (prairie, coastal wetland, forest, alpine, coral reefs, etc.) or the ecosystems of a specific region (Rocky Mountains, Gulf Coast, Appalachian Mountains, Deserts of the Southwest, Central America, etc.). Prior to the field trip, there will be an orientation period and after each field trip a review and synthesis period. A field trip fee will be assessed to cover travel expenses. Nonmajor graduate credit.

IA LL 499. Undergraduate Research.
Cr. 1-4. Prereq: Junior or senior classification and permission of instructor.

Courses primarily for graduate students, open to qualified undergraduates:

IA LL 501l. Freshwater Algae.
(Cross-listed with EEOB). Cr. 4. SS.
Structure and taxonomy of freshwater algae based on field collected material; emphasis on genus-level identifications, habitats visited include lakes, fens, streams, and rivers; algal ecology.

IA LL 503. Graduate Internships.
Cr. 1-5. SS. Prereq: Permission of instructor and graduate standing.
Placement with county conservation boards, camps, parks, schools, etc. for experience as interpreters, rangers, technicians, and teachers.
IA LL 508I. Aquatic Ecology.  
(Cross-listed with ENSCI, NREM). Cr. 4. SS. Prereq: Courses in ecology, chemistry, and physics. 
Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.

IA LL 523I. Fish Ecology.  
(Cross-listed with A ECL). Cr. 4. Alt. SS., offered 2012. 
Basic principles of fish interaction with the biotic and abiotic environment. Field methods, taxonomy, and biology of fish with emphasis on the fish fauna of northwestern Iowa.

IA LL 526I. Advanced Field Ornithology.  
(Cross-listed with A ECL). Cr. 2. SS. Prereq: Concurrent registration in IA LL 326I Field study of birds of the upper Midwest; extended field trip to Minnesota and Wisconsin; individual or group project.

IA LL 531I. Conservation Biology.  
(Cross-listed with EEOB, A ECL). Cr. 4. Alt. SS., offered 2012. Prereq: IA LL 312I Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.

IA LL 532. Analysis of Environmental Data.  
(2-0) Cr. 2. SS. Prereq: An undergraduate course in statistics, understanding of basic concepts such as correlation and regression, and familiarity with PC-based software for data analysis. 
Analysis of Environmental Data will provide students with training in the theory and application of a range of statistical techniques useful for the analysis of ecological and paleoecological data. Topics will include data management, exploratory data analysis, regression analysis, direct and indirect ordination methods, classification techniques, transfer functions and the analysis of temporal data. Practical classes will provide hands-on training in the use of statistical and graphical software including R, CANOCO, C2, and TWINSPAN. The course will be directed towards advanced undergraduate, graduate and working professionals in ecology and paleoecology.

IA LL 535I. Restoration Ecology.  
(Cross-listed with A ECL, ENSCI, EEOB). Cr. 4. Alt. SS., offered 2012. Prereq: A course in ecology 
Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

IA LL 563I. Soil Formation and Landscape Relationships.  
(Dual-listed with IA LL 463I). (Cross-listed with AGRON, ENSCI). Cr. 4. Alt. SS., offered 2012. Prereq: AGRON 154 or AGRON 260 Burras. Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 563I may be applied for graduation.

IA LL 564I. Wetland Ecology.  
(Cross-listed with ENSCI, EEOB). Cr. 4. SS. Prereq: IA LL 312I Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.

IA LL 573I. Techniques for Biology Teaching.  
(Cross-listed with EEOB, A ECL). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573A. Techniques for Biology Teaching: Animal Biology.  
(Cross-listed with EEOB, A ECL). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573B. Techniques for Biology Teaching: Plant Biology.  
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573C. Techniques for Biology Teaching: Fungi and Lichens.  
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573D. Techniques for Biology Teaching: Aquatic Ecology.  
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573G. Techniques for Biology Teaching: Limnology.  
(Cross-listed with EEOB, A ECL). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573I. Techniques for Biology Teaching: Insect Ecology.  
(Cross-listed with EEOB, A ECL). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573J. Techniques for Biology Teaching: Biology of Invertebrates.  
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573K. Techniques for Biology Teaching: Non-invasive Use of Living Organisms.  
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573W. Techniques for Biology Teaching: Project WET.  
(Cross-listed with EEOB, A ECL). Cr. 1-2. Repeatable. SS. 
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 575I. Field Mycology.  
(Cross-listed with EEOB, A ECL). Cr. 4. Alt. SS., offered 2012. 
Identification and classification of the common fungi; techniques for identification, preservation, and culture practiced with members of the various fungi groups.
Courses for graduate students:

IA LL 690I. Research.
(Cross-listed with A ECL, ANTHR, EEOB, GDCB). Cr. 1-4. Repeatable.

Interdisciplinary Programs-Minor

Interdisciplinary programs are administered by more than one college and/or more than one department.

Interdepartmental programs are available at both graduate and undergraduate levels. An interdepartmental program is an administrative structure usually not functioning as a department, ordinarily headed by a supervisory committee, and offering a degree with major(s) in that subject area. Interdepartmental programs have been officially approved and may offer courses.

Complex Adaptive Systems

Interdepartmental Graduate Minor

The Complex Adaptive Systems (CAS) minor provides graduate students with an understanding of the interrelationships among the various methodologies often collectively referred to as Artificial Life. Of special importance in the program is the interplay of biological principles and computer simulations in various fields including Economics, Engineering, Mathematics, and Biology.

Graduates understand the ways in which artificial life techniques may be applied to their major field of study. They have an appreciation and understanding of the cross-disciplinary aspects of artificial life techniques. Students who complete a minor in this graduate program are able to describe and report on various artificial life techniques as applied to many fields, even outside their own field of application.

Work in the CAS minor is offered for students pursuing any graduate degree. The primary cooperating departments are Economics; Computer Science; Electrical and Computer Engineering; Mechanical Engineering; Mathematics; Psychology; Ecology, Evolution, and Organismal Biology; and Genetics, Development and Cell Biology.

Each student’s Masters Program of Study (POS) must include at least 9 CAS relevant course credits chosen in consultation with the student’s POS committee and the CAS program, plus two credits (one credit each time taken) of the CAS seminar and three credits of CAS 503 Complex Adaptive Systems Concepts and Techniques. Each student’s Ph.D. POS must include at least 12 CAS relevant course credits chosen in consultation with the student’s POS committee and the CAS program, plus two credits (one credit each time taken) of the CAS seminar and three credits of CAS 503 Complex Adaptive Systems Concepts and Techniques. Ph.D. students who also minored in CAS at the master’s level must take one additional CAS relevant course (3 cr.) and two additional credits of CAS seminar. Courses that satisfy CAS requirements may also be used to satisfy major requirements if such “double counting” is acceptable to the major program.

Interested students may contact the chairperson of the advisory committee for complete lists of courses and of CAS faculty members.

Courses

Courses primarily for graduate students, open to qualified undergraduates:

(Cross-listed with COM S). (1-0) Cr. 1. F.S. Prereq: Admission to CAS minor
Understanding core techniques in artificial life is based on basic readings in complex adaptive systems. Techniques of complex system analysis methods including: evolutionary computation, neural nets, agent based simulations (agent based computational economics). Large-scale simulations are to be emphasized, e.g. power grids, whole ecosystems.

(Cross-listed with COM S). (3-0) Cr. 3. S. Prereq: Admission to CAS minor or related field
Survey of complex systems and their analysis. Examples are drawn from engineering, computer science, biology, economics and physics.

Entrepreneurial Studies

Interdepartmental Undergraduate Minor

Entrepreneurial Studies is an interdisciplinary program that provides opportunities to students to learn about entrepreneurship—the process of creating value through recognizing and developing opportunities. It serves to complement the student’s major area of study, in any college, by offering a means of putting theory and science into practice. The goal of the Entrepreneurial Studies program is to provide the knowledge and skills needed to create value through recognizing and developing opportunities. In addition to feasibility analysis and business planning, the program deals with the topics of innovation, opportunity recognition, technology transfer, industry analysis, and competitive strategy. Although the program introduces some fundamental concepts from accounting, finance, marketing, and management, it does not attempt to substitute for any business courses in these areas.

A minor in entrepreneurial studies is available to all undergraduate students at ISU. Students must follow college specific rules in selecting courses. The college representatives to the supervisory committee will be responsible for advising students in their college, and will inform students about the details of the college rules.

A student seeking a minor in entrepreneurial studies must successfully complete a minimum of 15 credits in courses approved for use in the entrepreneurial studies program, including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>

</thead>
<tbody>
<tr>
<td>MGMT 310</td>
<td>Entrepreneurship and Innovation</td>
<td>3</td>
</tr>
<tr>
<td>MGMT 313</td>
<td>Feasibility Analysis and Business Planning</td>
<td>3</td>
</tr>
<tr>
<td>Or MGMT 410X Social Entrepreneurship (Experimental Course)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

MGMT 310 Entrepreneurship and Innovation is the introductory course and provides an overview of the entire field.

MGMT 313 Feasibility Analysis and Business Planning emphasizes developing an idea for a new venture, conducting a feasibility study, researching the potential market, analyzing the competition, and preparing a formal business plan.

Students take two entrepreneurship-oriented electives (6 cr.) from an approved course list and must also take 3 cr. of experiential learning. Up to six of the 15 credits required for the minor may also be used in the student’s required program of study. Detailed information about the minor and the list of approved electives is available online at http://www.business.iastate.edu/undergraduate/minors/entrepreneurship.

Graduate Certificate

An interdisciplinary graduate certificate in entrepreneurship and innovation is available to post-graduate students from any discipline. The program provides students an opportunity to learn about entrepreneurship, innovation, and the new venture creation process and to develop business skills that can be used to start a business. The program is flexible so that students can design a program that provides core entrepreneurship education through one required business management course as well as discipline-specific training from entrepreneurship courses in other colleges. The certificate program is taught at a distance using computer-based instructional media.

Students seeking this Graduate Certificate must meet minimum university criteria for admission to graduate programs. Students interested in the Entrepreneurship and Innovation Certificate must successfully complete a minimum of 12 credits in courses approved for use in the certificate program, including one required course, MGMT 566 Entrepreneurship and New Business Creation and three entrepreneurship-oriented electives (9 cr.) chosen from an approved course list.

MGMT 566 Entrepreneurship and New Business Creation focuses on the essentials
of starting and operating a new business. Additional information as well as the list of approved electives can be found on the certificate website.

Technology and Social Change

Undergraduate Study

Technology and social change is a cross-disciplinary program examining the relationships between technologies and the social and cultural environments. The program has a national and international perspective, with courses addressing the interrelationships, policies, and impacts created by the international exchange of technologies. Through T SC, students will better understand the institutional and sociocultural consequences of technological change from differing perspectives and will become sensitive to the issues attending the use of technology to improve people’s lives. Work in the program can also serve as preparation for advanced study in this field.

Minor

The program requirement for a minor in technology and social change is a minimum of 15 credits.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>T SC 341 Technology: International, Social, and Human Issues</td>
<td>3</td>
</tr>
<tr>
<td>3 credits from T SC cross-listed courses</td>
<td>3</td>
</tr>
<tr>
<td>9 credits selected from T SC cross-listed courses or from the list of T SC approved courses</td>
<td>9</td>
</tr>
</tbody>
</table>

Total Credits 15

At least 9 of the 15 credits must be in courses numbered 300 or above. Because technology and social change is an interdisciplinary study, minor programs must include coursework in at least two departments. Students seeking a minor should develop a specific program of courses either with the T SC faculty representative in their department or with the T SC coordinator. The student’s minor program must be approved by the T SC program coordinator.

T SC courses are listed below. The list of T SC approved courses is available from the program coordinators. Through the program coordinator, students may petition for approval of courses not on the approved list that address matters relevant to technology and social change.

Graduate Study

The graduate minor in technology and social change is a cross-disciplinary program that enables students to study the interactions between technologies and their users, on both societal and individual levels. The minor strengthens the ability of students to apply differing perspectives in understanding the effects of the global exchange of technologies and to heighten their sensitivity to the institutional and sociocultural issues attending the use of technology to improve people’s lives.

Students choosing to minor in technology and social change will pursue a degree program in the major department. In consultation with their major professor, students are to identify a T SC Faculty member to serve on the committee guiding their program of study. This T SC Faculty member must be on the Graduate faculty and must be from a discipline outside the major field of study. With the agreement of the POS committee, the student declaring a minor in T SC will select a group of courses from the list of T SC approved courses available through the program coordinators. For the master’s degree, this group should be at least 9 credits; for a doctoral degree, the group should be at least 15 credits. In either case, T SC 543 Technological Innovation, Social Change, and Development is required. Students may not include in their minor any courses from their own major. All programs of study that include a T SC minor must be approved by the T SC Program coordinator.

Courses

Courses primarily for undergraduates:

**T SC 220. Globalization and Sustainability.**
(Cross-listed with ANTHR, ENV S, GLOBE, MAT E, M E, SOG). (3-0) Cr. 3. F.S.
An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.

Meets International Perspectives Requirement.

**T SC 341. Technology: International, Social, and Human Issues.**
(3-0) Cr. 3. F. Prereq: Junior classification
An interdisciplinary study of the international significance of technology and of the societal and human issues attending its development and adoption.

**T SC 342. World Food Issues: Past and Present.**
(Cross-listed with ENV S, FS HN, AGRON). (3-0) Cr. 3. F.S. Prereq: Junior classification
Zdorkowski, Ford. Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects. Nonmajor graduate credit.

Meets International Perspectives Requirement.

**T SC 342H. World Food Issues: Past and Present, Honors.**
(Cross-listed with ENV S, FS HN, AGRON). (3-0) Cr. 3. F.S. Prereq: Junior classification
Zdorkowski, Ford. Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects. Nonmajor graduate credit.

Meets International Perspectives Requirement.

**T SC 343. Philosophy of Technology.**
(Cross-listed with PHIL). (3-0) Cr. 3. F.S. Prereq: 6 credits of social science or T SC 341 and 3 credits of social science
Moral and other philosophical problems related to developments in technology. Topics may include conditions under which technological innovations contribute to human emancipation, relationship of technology and democracy, utility and limits of technical rationality, and problems of ensuring that benefits of technological advance are communally shared. Topics discussed with reference to such issues as contemporary developments in microelectronics, technology transfer to the Third World, etc. Nonmajor graduate credit.

**T SC 474. Communication Technology and Social Change.**
(Cross-listed with JL MC). (3-0) Cr. 3. Prereq: Junior classification
Examination of historical and current communication technologies, including how they shape and are shaped by the cultural and social practices into which they are introduced.

Meets International Perspectives Requirement.

**T SC 490. Independent Study.**
Cr. arr. Repeatable. Prereq: T SC 341, permission of instructor and of T SC coordinator

Courses primarily for graduate students, open to qualified undergraduates:

**T SC 543. Technological Innovation, Social Change, and Development.**
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 6 credits in social sciences
Sources, theories and models of technological innovation; social and institutional contexts of technology transfer; appropriate/intermediate technology; issues and methods of impact assessment; planning technology related social change; democratic control of technological innovations and application; local and international case studies.

**T SC 574. Communication Technologies and Social Change.**
(Cross-listed with JL MC). (3-0) Cr. 3. Prereq: 6 credits in social science
Personal, organizational, and social implications of the use of communication technologies. Includes theories and empirical research across the continuum of perspectives, from techno-utopianism through an anti-technology stance.

Meets International Perspectives Requirement.
Certificates

An interdisciplinary certificate program utilizes university courses offered in a variety of academic disciplines to provide a strong foundation and appropriate experiences for undergraduate students who plan to become community leaders and engage in public service—regardless of their profession—in the public, nonprofit or private sectors. The certificate will be awarded by the College of Liberal Arts and Sciences. Completion of the certificate will be noted on the student’s transcript and via a certificate provided by the Registrar.

Iowa State University also offers certificates from the Graduate College (p. 108) and certificates via distance education (p. 108).

Community Leadership and Public Service

(Certificate Only)

Interdisciplinary undergraduate program

This interdisciplinary certificate program utilizes university courses offered in a variety of academic disciplines to provide a strong foundation and appropriate experiences for undergraduate students who plan to become community leaders and engage in public service—regardless of their profession—in the public, nonprofit or private sectors. The certificate will be awarded by the College of Liberal Arts and Sciences. Completion of the certificate will be noted on the student’s transcript and via a certificate provided by the Registrar.

Objectives

• Provide opportunities for students to learn about leadership and organizational theories, ethics and decision-making, principles of public service, effective communication, leadership practices in groups and organizations, and diversity issues.
• Develop leadership skills—including written and oral communication, creative thinking, personal management, group and organizational effectiveness, and problem-solving—important to students’ careers, communities and personal development.
• Bring students into contact with faculty members from diverse academic departments, backgrounds and leadership experiences.
• Prepare students to undertake leadership roles in their careers and in service to their community through coursework and co-curricular activities.

Learning outcomes

Upon completion of the Certificate in Community Leadership and Public Service, students will:

• Demonstrate understanding of key concepts of leadership theories and effective practices within diverse groups, organizations and communities.
• Demonstrate understanding of key concepts of organizational theories, ethics and principles of public service.
• Demonstrate proficiency in written and oral communication.
• Demonstrate awareness of cultural values and diversity issues as they pertain to community leadership and public service.
• Demonstrate engagement as citizens through service to their communities.

Requirements

The Certificate in Community Leadership and Public Service requires 21 credits. At least 9 credits must be taken in courses numbered at the 300 level or above. At least 9 credits used for the certificate cannot be used to meet any other department, college or university requirement for the baccalaureate degree except to satisfy the total credit requirement for graduation and to meet credit requirements in courses numbered 300 or above. Courses for the certificate cannot be taken pass-fail. A cumulative grade point average of at least 2.0 is required in courses taken for the certificate. The program requires the completion of 21 credit hours through three three-hour required courses in leadership, speech communication and organizational theory. An additional 12 hours come from approved electives covering three hours in communication, six hours in leadership; and three hours of a capstone experience through a course, internship or study abroad experience. The capstone course should focus on the scholarship of leadership in the student’s field of study whereas an internship or study abroad should provide a leadership-in-practice experience.

Latin American Studies

Interdepartmental undergraduate program

The certificate in Latin American Studies is a cross-disciplinary course of study in the College of Liberal Arts and Sciences and is designed for undergraduates in any major who wish to enhance their degree and employment possibilities by adding expertise in Latin America and competence in the Spanish language.

Objectives
- Provide opportunities for students to develop skills and understanding about issues concerning Latin America by bringing them into contact with faculty members from many different academic backgrounds.
- Provide students with an international immersion experience where they gain cultural awareness and sensitivity.
- Prepare students for work or advanced study in Latin America, such as in foreign service, journalism, advocacy organizations, scientific or research institutions.
- Help students acquire proficiency in one of the principal languages of Latin America (Spanish).
- Guide students in interdisciplinary study leading to an understanding of the multi-faceted picture of the past, present, and future of Latin America.

Learning Outcomes
Upon completion of the Certificate in Latin American Studies, students will be able to:
- Demonstrate understanding of key concepts pertaining to Latin American cultural, historical and political events.
- Understand, interpret and articulate the major processes, theories and problems of selected contemporary and historical issues in Latin America.
- Demonstrate oral, aural, and written proficiency in Spanish equivalent to the mid-advanced level.
- Effectively communicate with persons of Latin American cultures.
- Become effective global citizens through knowledge and comparison of the cultures and issues of the United States and Latin American countries.
- Be able to read Latin American cultural, literary, and historical texts in the target language with comprehension and analytical insight.
- Demonstrate awareness of cultural values, beliefs, and ideologies of the various Latin American countries.
- Demonstrate a thorough knowledge of the geography of the Latin American countries.

General Requirements
Requirements for the Certificate in Latin American Studies are satisfied through formal language instruction and by completing a minimum of 21 credits at the 300 level or above. Students will take coursework in at least three different disciplines and departments (Spanish, Anthropology, and Political Science) with other possible course offerings in LAS, History, Agriculture, and Agronomy.

Course Requirements
Students will complete 12 credits of core courses:
- SPAN 332 Studies in Latin American Literature from Pre-Columbian Times through the Nineteenth Century
- ANTHR 323 Topics in Latin American Anthropology

Students should consult with their adviser for alternative courses in the event a course is not available.

Other Requirements
Students will complete an additional 9 credits selected from the approved list of courses in Latin American Studies or courses approved by the Latin American Studies Certificate adviser at the 300 level or above.
- No more than 3 credits may be taken as a 490, independent study, and the topic must deal with Latin America.
- A minimum of 9 credits applied toward the Certificate cannot be used to meet any other departmental, college, or university requirement.
- Students may receive credit on a pre-approved basis for internships completed in Latin America. No more than 3 credits from this area may be applied to the Certificate.
- A certificate is not awarded if the baccalaureate degree is not finished.
- For students earning an ISU baccalaureate degree, a certificate is awarded concurrent with or after the ISU baccalaureate degree.
- After receiving a baccalaureate degree from any accredited institution, a student may enroll at ISU to earn a certificate.
- A cumulative grade point average of at least 2.00 is required in courses taken at ISU for a certificate.

Language Requirement
The minimum requirement in formal language instruction is completion of two years or the equivalent of Spanish at the university level. At ISU the completion of Spanish 202 satisfies this requirement.
- Native speakers, or those with in-field experience of another Latin American language with a level equivalent to 202 or higher can have the language requirement waived. Equivalence will normally be assessed by a faculty member/ CLEP exam in the Dept. of World Languages and Cultures.
- While students are encouraged to enroll in language instruction courses (i.e., conversation and composition) above the 300 level, no more than 6 credits of language study (301,303, 304) may be applied toward fulfilling language requirements for the Certificate. Students should be aware that all 300-level literature and culture/civilization courses in the Dept. of World Languages and Cultures have pre requisites such as SPAN 303 (https://nextcatalog.registrar.iastate.edu/collegeofliberalartsandsciences/liberalartscrossdisciplinarystudies) Spanish Grammar and Conversation and SPAN 301 (https://nextcatalog.registrar.iastate.edu/collegeofliberalartsandsciences/liberalartscrossdisciplinarystudies) Spanish Grammar and Composition.

Study Abroad
Students are required to participate in an ISU-approved study abroad program in a Latin American country with a minimum duration of 4 consecutive weeks. The Study
Abroad Office has a list of ISU-approved programs. Students may elect to participate in other study abroad programs with the approval of the Latin American Studies Advisory Committee.

**Approved courses available toward the Certificate:**

The decision as to whether or not a course can be counted toward the certificate is based primarily on course title and description as it appears in the current ISU course catalog. Primarily with Hispanic or Latina/o cultures in the U.S. will not count toward credit for the Certificate in Latin American Studies. Courses which primarily deal with Spain or Portugal and their cultures also do not count toward the certificate. When in doubt students should consult with the adviser for the Latin American Studies Undergraduate Certificate program.

BAILEY, MICHAEL DAVID  

BAILEY, THEODORE B. JR.  
Emeritus Professor of Statistics. B.S., 1964, Iowa State; M.S., 1969, Ph.D., 1972, Minnesota.

BAIN, CARMEN M.  

BAKAC, ANDREJA  
Adjunct Professor of Chemistry. B.S., 1968, M.S., 1972, Ph.D., 1976, Zagreb.

BAKER, JAMES L.  
Emeritus Professor of Agricultural and Biosystems Engineering; University Professor. B.S., 1966, South Dakota School of Mines; Ph.D., 1971, Iowa State.

BAKER, JANICE A.  
Assistant Professor of Kinesiology; Assistant Professor of Music and Theatre. B.F.A., 1975, Utah; M.S., 1979, Kansas State.

BAKER, JENNY LYNN  

BAKER, RODNEY BURNS  

BAKOPOULOS, DEAN C.  

BAL, HARPAL S.  
Emeritus Professor of Biomedical Sciences. B.V.Sc., 1953, Punjab (India); M.S., 1966, Ph.D., 1969, Iowa State.

BALASSIANO, KATIA  
Assistant Professor of Community and Regional Planning. B.A., 1989, New York (Albany); M.C.R.P., 1992, Rhode Island; Ph.D., 2009, Hawaii (Manoa).

Baldwin, Claudia J.  

BALTZER, LYNNE E.  
Associate Professor of Apparel, Events and Hospitality Management. B.S., 1972, Wisconsin (Stout); Ph.D., 1983, Iowa State.

BANG, EUNJIN  
Assistant Professor of School of Education. B.S., 1997, Chun Chun (Korea); M.S., 2004, Ph.D., 2006, Arizona State.

BANNANTINE, JOHN P.  
Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1988, Wisconsin (Oshkosh); M.S., 1991, Ph.D., 1995, Iowa State.

BARAK, ROBERT J.  
Professor of School of Education (Collaborator). B.S., 1967, Michigan State; M.A., 1972, Missouri (Kansas City); Ph.D., 1976, New York (Buffalo).

BARB, ADAM  
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 2000, Purdue; M.S., 2002, North Carolina State; Ph.D., 2008, Duke.

BARB, JESSICA  

BARCLAY, SALLY L.  

BARKER, ANDREW  

BARNCORD, KRISTIN  

BARNES, RICHARD G.  

BARNES, WILFRED E.  

BARNHART, STEPHEN K.  
Professor of Agronomy. B.S., 1970, M.S., 1975, Ohio State; Ph.D., 1979, Iowa State.

BARRATT, MARY F.  
Senior Lecturer in English. A.B., 1973, California (Berkeley); M.A., 1975, Ohio; Ph.D., 1993, Iowa State.

BARTA, THOMAS ARNOLD  
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1957, Iowa State; M.S., 1962, Iowa; Ph.D., 1975, Iowa State.

BARTH, LAURA  

BARTHOLOMAY, LYRIC COLLEEN  

BARTON, TOMMY J.  
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1962, Lamar; Ph.D., 1967, Florida.

BASAK, TATHAGATA  
Assistant Professor of Mathematics. MSTAT, 2001, Indian Statistical Institute; Ph.D., 2006, California (Berkeley).

BASART, JOHN PHILIP  

BASMAJIAN, CARLTON WADE  
Assistant Professor of Community and Regional Planning. A.B., 1996, Chicago; M.C.P., 2000, Georgia Institute of Technology; Ph.D., 2008, Michigan.
BASSHAM, DIANE CLARE  

BASSLER, BRUCE LEE  
Associate Professor of Architecture. B.S., 1972, Iowa State; M.Arch., 1975, Texas A&M.

BASSLER, EUNICE M.  
Senior Lecturer in Food Science and Human Nutrition. B.A., 1974, Northern Iowa; M.S., 1979, Kansas State.

BASTAWROS, ASHRAF  

BASTAWROS, HALA FAROUK  
Lecturer in Genetics, Development and Cell Biology. M.D., 1992, Cairo University School of Medicine; M.S., 2007, Iowa State.

BASU, SAMIK  
Associate Professor of Computer Science. Associate Professor of Electrical and Computer Engineering. B.E., 1998, Jadavpur (India); M.S., 2001, Ph.D., 2003, New York (Stony Brook); Ph.D., 1970, Kansas.

BATES, LISA M.  

BATHIE, WILLIAM W.  

BAUGHMAN, JACQULYN  

BAUM, THOMAS J.  
Professor of Plant Pathology and Microbiology and Chair of the Department. B.A., 1985, Germany; M.S., 1989, Munich; Ph.D., 1993, Clemson.

BAUMANN, E. ROBERT  
Emeritus Professor of Civil, Construction and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S.E., 1944, Michigan; B.S., 1945, M.S., 1947, Ph.D., 1954, Illinois.

BAUMEL, PHILLIP  
Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, M.S., 1957, Ohio State; Ph.D., 1961, Iowa State.

BAUMGARD, LANCE HALL  

BAUMGARTEN, JOSEPH R.  
Emeritus Professor of Mechanical Engineering. B.S.M.E., 1950, Dayton; M.S.M.E., 1955, Ph.D., 1958, Purdue.

BAYOUTH, SHAWN  
Assistant Professor of Agricultural and Biosystems Engineering (Collaborator). B.A., 2002, Western Illinois; M.S., 2006, Indiana State; Ph.D., 2011, Iowa State.

BAYTAR, FATMA  
Assistant Professor of Apparel, Events and Hospitality Management. B.Sc., 2000, Uludag (Turkey); M.Sc., 2003, Istanbul Technical; Ph.D., 2011, Cornell.

BEAR, DONALD R.  

BEARSON, SHAWN  
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1990, Judson (Alabama); Ph.D., 1997, Southern Alabama.

BEATTIE, GWYN A.  
Professor of Plant Pathology and Microbiology. B.A., 1985, Carleton; Ph.D., 1991, Wisconsin.

BEAUVAIS, SHERYL L.  
Assistant Professor of Food Science and Human Nutrition (Collaborator). Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1984, M.S., 1993, Ph.D., 1997, Iowa State.

BEAVERS, IRENE  
Emeritus Professor of Human Development and Family Studies; Emeritus Professor of School of Education. B.S., 1948, George Peabody; M.S., 1953, Iowa State; Ph.D., 1962, Wisconsin.

BEAVIS, WILLIAM DALE  
Professor of Agronomy; Interim Director of the Plant Sciences Institute. B.S., 1978, Humboldt State; M.S., 1980, New Mexico State; Ph.D., 1985, Iowa State.

BECKMAN, SCOTT P.  
Assistant Professor of Materials Science and Engineering. B.S., 1999, Iowa State; M.S., 2003, Ph.D., 2005, California (Berkeley).

BECRAFT, PHILIP W.  
Professor of Genetics, Development and Cell Biology; Professor of Agronomy. B.A., 1980, Montana; M.S., 1987, Montana State; Ph.D., 1992, California (Berkeley).

BEELL, THOMAS LLOYD  

BEER, CRAIG E.  
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1950, M.S., 1957, Ph.D., 1962, Iowa State.

BEESEN, RICHARD  

BEETHAM, JEFFREY K.  
Associate Professor of Veterinary Pathology; Associate Professor of Entomology. B.S., 1989, Western Washington; Ph.D., 1994, California (Davis).

BEGHIN, JOHN C.  
Professor of Economics. M.Sc., 1984, North Carolina State; Ph.D., 1988, California (Berkeley).

BEHNKEN, BRIAN D.  

BEHNKEN, MONIC PRICE  
Assistant Professor of Sociology. B.A., 2000, Houston; J.D., 2004, Golden Gate; Ph.D., 2008, Pacific Graduate School.

BEIRMAN, ERICA ANNE  
BERNARD, ROBERT W.
Emeritus Professor of World Languages and Cultures. B.A., 1958, St. Thomas; M.A., 1962, Ph.D., 1968, Kansas.

BESSER, TERRY L.
Professor of Sociology. B.S., 1969, Iowa State; M.A., 1975, Northern Iowa; Ph.D., 1991, Kentucky.

BEST, LOUIS BROWN

BETCHER, GLORIA J.
Adjunct Associate Professor of English. B.A., 1985, St. Olaf; M.A., 1990, Ph.D., 1994, Minnesota.

BETS, DANIEL MORTON

BHANDARI, ALOK
Associate Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1990, Jawaharlal Nehru Tech; M.S., 1992, Ph.D., 1995, Virginia Polytechnic.

BHATTACHARYA, JOYDEEP
Professor of Economics. B.S., 1989, St. Xaviers College; M.A., 1991, Delhi School of Economics (India); Ph.D., 1996, Cornell.

BHATTACHARYYA, MADAN KUMAR
Associate Professor of Agronomy. B.Sc., 1975, Assam Agricultural (India); M.Sc., 1978, Punjab Agricultural (India); Ph.D., 1987, Western Ontario.

BIASSETTI, GIADA

BICKETT-WEDDLE, DANELLE A.

BIECHLER, DEAN W.

BIEDERMAN, LORI ANN
Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.A., 1995, Gustavus Adolphus College; M.S., 2000, Minnesota; Ph.D., 2007, Texas A&M.

BIGELOW, TIMOTHY
Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Mechanical Engineering. B.S., 1998, Colorado State; M.S., 2001, Ph.D., 2004, Illinois.

BIGGS, STEPHEN T.

BIRD, SHARON RAYE

BIRRELL, STUART J.
Associate Professor of Agricultural and Biosystems Engineering. B.Sc., 1984, Natal (South Africa); M.S., 1987, Ph.D., 1995, Illinois.

BIRT, DIANE FEICKERT
Professor of Food Science and Human Nutrition; Mary B. Welch Distinguished Professor in Human Sciences. B.A., 1972, Whittier College; Ph.D., 1975, Purdue.
BISHOP, STEPHEN H.

BISWAS, RANA
Adjunct Professor of Electrical and Computer Engineering; Adjunct Professor of Physics and Astronomy. B.Sc., 1976, Bombay; M.Sc., 1978, Indian Institute of Technology; M.S., 1981, Ph.D., 1984, Cornell.

BIVENS, GORDON E.
Emeritus Professor of Human Development and Family Studies; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1950, M.S., 1953, Ph.D., 1957, Iowa State.

BIX, AMY SUE
Associate Professor of History. A.B., 1987, Princeton; Ph.D., 1994, Johns Hopkins.

BJURSTROM, NEIL A.

BLACKBURN, VIRGINIA L.

BLACKHURST, JENNIFER JANE

BLAKE, J. HERMAN
Emeritus Professor of School of Education; Emeritus Professor of Sociology. B.A., 1960, New York (New York City); M.A., 1965, Ph.D., 1974, California (Berkeley).

BLAKELY, BARBARA JEAN

BLANCHONG, JULIE ANNE

BLANCO, MICHAEL
Assistant Professor of Agronomy (Collaborator). B.S., 1968, Georgia; M.S., 1973, Pennsylvania State; Ph.D., 1977, Missouri.

BLANKENSHIP, KEVIN L.
Assistant Professor of Psychology. B.A., 1998, M.S., 2001, Ball State; Ph.D., 2006, Purdue.

BLEYLE, CARL OTTO

BLITVICH, BRADLEY J.
Associate Professor of Veterinary Microbiology and Preventive Medicine. B.Sc., 1990, B.Sc., 1991, Ph.D., 1996, Western Australia.

BLOCK, CHARLES C.
Assistant Professor of Plant Pathology and Microbiology (Collaborator). B.S., 1974, Briar Cliff College; M.S., 1979, Ph.D., 1996, Iowa State.

BLOCK, DAVID ARTHUR

BLOODGETT, SUE
Professor of Entomology and Chair of the Department. B.S., 1974, Syracuse; M.S., 1980, Cornell; M.S., 1987, Ph.D., 1989, Kansas State.

BLOEBAUM, CHRISTINA L.

BLOEDEL, JAMES R.
Emeritus Professor of Biomedical Sciences; Emeritus Professor of Kinesiology. B.A., 1962, St. Olaf; Ph.D., 1967, M.D., 1969, Minnesota.

M. blessings
BORDEN, JEROME H.
Adjunct Instructor in Naval Science. B.S., 2006, Minnesota.

BORGENSEN, FRED H.

BORICH, TIMOTHY O.
Associate Professor of Community and Regional Planning; Associate Dean of the College of Design. B.S., 1975, South Dakota State; M.A., 1978, South Dakota; Ph.D., 1992, Iowa State.

BORISOVA, GINKA
Assistant Professor of Finance. B.S., 2000, National and World Economy (Bulgaria); M.B.A., 2004, Ph.D., 2008, Oklahoma.

BORKOWSKI, DOUGLAS KENT

BORSKA, FERDINANDO
Emeritus Professor of Physics and Astronomy. B.S., 1961, Ph.D., 1969, Pavia.

BOSSELIN, ROBERT
Professor of Apparel, Events and Hospitality Management and Chair of the Department. B.A., 1976, New York (Buffalo); M.S., 1982, Florida International; Ph.D., 1985, Oklahoma State.

BOURY, NANCY M.

BOUSSELOT, JENNIFER M.

BOVINETTE, JAMES T.

BOWEN, BONNIE SUE
Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1972, Cornell; Ph.D., 1978, California (Berkeley).

BOWER, DUSTIN T.
Adjunct Instructor in Military Science and Tactics.

BOWER, JOHN RICHARD F.

BOWERS, LARRY NEAL

BOWLER, JOHN R.

BOWLER, NICOLA
Professor of Materials Science and Engineering; Professor of Electrical and Computer Engineering. B.Sc., 1990, Nottingham (UK); Ph.D., 1994, Surrey (UK).

BOYD, MORTON MCKEE
Emeritus Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1954, Pennsylvania State; M.S., 1962, Massachusetts.

BOYDSTON, JEANNE M. K.

BOYLAN, DAVID RAY JR.
Emeritus Professor of Chemical and Biological Engineering. B.S., 1943, Kansas; Ph.D., 1952, Iowa State.

BOYLAN-ASHRAF, ANNE C.

BOYLES, NORMAN L.

BOYSLTON, TERRI DRUMM
Associate Professor of Food Science and Human Nutrition. B.S., 1982, M.S., 1984, Iowa State; Ph.D., 1988, Michigan State.

BRACHA, VLASTISLAV
Professor of Biomedical Sciences. BBS, 1981, Leningrad State (Russia); Ph.D., 1988, Czechoslovak Academy of Science (Czechos).

BRACKELSBERG, PAUL O.

BRADBURY, SUSAN LEE
Professor of Community and Regional Planning. B.A., 1984, McMaster (Canada); M.A., 1987, Waterloo (Canada); Ph.D., 1989, Florida.

BRAIDWOOD, ALEX

BRANDLE, JAMES

BRANT, GEORGE

BRATLIE, KAITLIN
Assistant Professor of Materials Science and Engineering; Assistant Professor of Chemical and Biological Engineering. B.S., 2003, Minnesota Institute of Technology; Ph.D., 2007, California (Berkeley).

BRATCHE-S-PRINC, DAWN
Professor of World Languages and Cultures; Associate Provost for Academic Personnel and Chief Diversity Officer. B.A., 1983, M.A., 1985, New York University; Ph.D., 1990, California (Berkeley).

BRAUN, EDWARD J.
Professor of Plant Pathology and Microbiology. B.A., 1972, Miami (Ohio); Ph.D., 1977, Cornell.

BREHM-STECHER, BYRON F.

BREITNER, JOAN C.
Emeritus Professor of School of Education. B.S., 1956, M.S., 1961, Mankato; Ed.D., 1968, Northern Colorado.

BREMEN, JEFF R.

BRENDEL, VOLKER

BREWER, KENNETH ALVIN
Emeritus Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1960, M.S., 1961, Kansas State; Ph.D., 1968, Texas A&M.

BRINKLEY, JEFFREY

BRINKMANN, JARRED A.
BRO, ADALU C.

BROCATO, ELISABETH D.

BROCKMAN, WILLIAM H.

BROCKMEIER, SUSAN
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). D.V.M., 1988, Missouri; Ph.D., 1996, Iowa State.

BROGDEN, KIM

BRONIKOWSKI, ANNE MARIE

BRONSON, CHARLOTTE R.
Professor of Plant Pathology and Microbiology; Associate Vice President for Research. B.S., 1969, New Mexico; M.S., 1974, Michigan; Ph.D., 1981, Michigan State.

BROOKE, CORLICE P.

BROOKS, JEFFREY

BROOKS, MELANIE

BROTHERS, DOMETA JO

BROTHERSON, MARY JANE
Professor of Human Development and Family Studies. B.A., 1973, M.S., 1976, Nebraska (Omaha); Ph.D., 1985, Kansas.

BROUCEK, JAMES R.

BROWN, ERIC A.
Assistant Professor of Apparel, Events and Hospitality Management. B.A., 2006, Iowa; M.S., 2008, Ph.D., 2011, Iowa State.

BROWN, FREDERICK G.
Emeritus Professor of Psychology; Emeritus Professor of School of Education; University Professor. B.A., 1954, M.A., 1955, Wisconsin; Ph.D., 1958, Minnesota.

BROWN, GAYLE B.

BROWN, GEORGE GORDON

BROWN, JAMES ROBERT

BROWN, MARTHA M.

BROWN, NANCY EVELYN
Emeritus Associate Professor of Apparel, Events and Hospitality Management. B.S., 1960, Vermont; M.S., 1964, Kansas State; Ph.D., 1972, Iowa State.

BROWN, ROBERT C.
Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering; Professor of Agricultural and Biosystems Engineering; Anson Marston Distinguished Professor in Engineering; Director of the Bioeconomy Institute. B.A., 1976, B.S., 1976, Missouri; M.S., 1977, Ph.D., 1980, Michigan State.

BROWN, ROBERT GROVER
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, M.S., 1951, Ph.D., 1956, Iowa State.

BRUENE, BARBARA JANE

BRUENE, ROGER J.
Emeritus Associate Professor of Agricultural Education and Studies. B.S., 1956, Iowa State.

BRUMM, THOMAS J.
Associate Professor of Agricultural and Biosystems Engineering. B.S., 1979, Iowa State; M.S., 1980, Purdue; Ph.D., 1990, Iowa State.

BRUN, JUDY KAY
Emeritus Professor of Human Development and Family Studies; Emeritus Professor of School of Education. B.S., 1964, Michigan State; M.S., 1967, Ph.D., 1970, Iowa State.

BRUNA, KATHERINE R.
Associate Professor of School of Education. B.A., 1988, Vassar College; M.A., 1994, Ph.D., 2002, California (Davis).

BRUNING, MONICA

BRUNNER, LORI A.

BRUNSCHEN, SUMMER

BRUSKI, PAUL R.

BRUTON, BRENT T.

BRYDEN, KENNETH MARK
Associate Professor of Mechanical Engineering; Associate Professor of Aerospace Engineering. B.S., 1977, Idaho State; M.S.M.E., 1993, Ph.D., 1997, Wisconsin.

BRYDEN, KRISTY

BUCHELE, WESLEY F.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1943, Kansas State; M.S., 1951, Arkansas; Ph.D., 1954, Iowa State.

BUCK, BRADLEY ALLEN
BUCK, PETER G.  

BUDKO, SERGUEI L.  

BUCEJA, DIANE FAYE  
Senior Lecturer in Greenlee School of Journalism and Communication. B.S., 1981, M.S., 1988, Oklahoma State.

BUCEJA, MICHAEL J.  
Professor of Greenlee School of Journalism and Communication and Director of the School. B.A., 1974, Saint Peters College; M.S., 1976, South Dakota State; Ph.D., 1985, Oklahoma State.

BUNDY, DWAIN S.  

BUNZEL, HELLE  

BURGER, STEWART LEE  
Lecturer in Apparel, Events and Hospitality Management. B.S., 1970, Cornell; M.S., 1972, Iowa State.

BURKART, MICHAEL R.  
Associate Professor of Geology and Atmospheric Sciences (Collaborator). B.S., 1964, Wisconsin; M.S., 1969, Northern Illinois; Ph.D., 1976, Iowa.

BURKE, BENJAMIN  
Assistant Professor of Geology and Atmospheric Sciences (Collaborator). Ph.D., 2006, Dartmouth College.

BURKE, BRIANNA R.  

BURKE, KATHY  

BURKETT, SUSAN JANINE  

BURKHALTER, N. L.  
Emeritus Professor of Music and Theatre; Emeritus Professor of School of Education. L.T.C.L., 1939, Trinity (London); B.S.M., 1947, Bluffton; M.M., 1949, Northwestern; Ph.D., 1961, Ohio State.

BURNET, GEORGE  
Emeritus Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, M.S., 1949, Ph.D., 1951, Iowa State.

BURNETT, JOSEPH W.  
Senior Lecturer in Chemistry. B.S., 1982, Allegheny (Pennsylvania); Ph.D., 1990, Pittsburgh.

BURNETT, REBECCA E.  

BURNLEY, ELIZABETH C. D.  

BURNS, ROBERT THOMAS  

BURRAS, CHARLES L.  
Professor of Agronomy; Professor of Geology and Atmospheric Sciences. B.S., 1981, M.S., 1984, Iowa State; Ph.D., 1992, Ohio State.
CAISSIE, BETH E.

CALDWELL, BARBARA A.

CALHOUN, GRAYSON FORD
Assistant Professor of Economics. B.A., 2001, Tufts; M.S., 2006, Ph.D., 2009, California (San Diego).

CALL, ANSON B.
Associate Professor of Graphic Design; Associate Professor of Architecture. B.F.A., 2000, M.F.A., 2003, Utah State.

CALLISON, MARK P.

CAMBARDELLA, CYNTHIA ANN
Associate Professor of Agronomy (Collaborator). B.S., 1975, Maryland; Ph.D., 1991, Colorado State.

CAMPBELL, ARDEN RAY

CAMPBELL, CAMERON T.
Associate Professor of Architecture; Associate Professor of Art and Design. B.Arch., 1997, M.Arch., 2003, Iowa State.

CAMPBELL, CHRISTINA

CAMPBELL, CYNTHIA J.

CAMPBELL, JOY M.

CANNFIELD, PAUL C.
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1983, Virginia; Ph.D., 1990, M.S., 1990, California (Los Angeles).

CANNON, JAMES

CANNON, STEVEN B.

CANTOR, DAVID EDWARD
Assistant Professor of Supply Chain and Information Systems. B.S., 1996, M.S., 1999, Ph.D., 2006, Maryland.

CARAGEA, PETRUTA CARMEN
Associate Professor of Statistics. B.S., 1997, Bucuresti (Romania); Ph.D., 2003, North Carolina.

CARDINAL-PETT, CLARE
Associate Professor of Architecture. B.A., 1975, Hollins; M.Arch., 1982, Utah.

CARITHERS, JEANINE R.
Emeritus Professor of Biomedical Sciences. B.S., 1956, M.S., 1965, Iowa State; Ph.D., 1968, Missouri.

CARITHERS, ROBERT W.
Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1956, Iowa State; M.S., 1968, Missouri; Ph.D., 1972, Iowa State.

CARLSON, BILLE C.

CARLSON, DAVID L.
Emeritus Associate Professor of Electrical and Computer Engineering. B.S., 1959, Minnesota; M.S., 1961, Ph.D., 1964, Iowa State.

CARLSON, IRVING

CARLSON, PATRICIA M.
Associate Professor of School of Education. B.S., 1975, Nebraska; M.S., 1977, Indiana; Ph.D., 1990, Nebraska.

CARLSON, RICHARD E.

CARLSON, STEVEN A.

CARLSON, SUSAN L.

CARPENTER, JAMES

CARPENTER, SHANA K.

CARPENTER, SUSAN LONG

CARRIQUIRY, ALICIA L.
Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1982, Universidad De La Republica (Uruguay); M.S., 1985, Illinois; M.S., 1986, Ph.D., 1989, Iowa State.

CARSON, THOMAS L.

CARSTENS, KERI LYNN

CARSTENS, ROBERT L.

CARTER, RICHARD B.

CARTER, RICHARD I.
Emeritus Professor of Agricultural Education and Studies; Emeritus Professor of School of Education. B.S., 1966, M.S., 1968, Oklahoma State; Ph.D., 1976, Iowa State.

CARTER, WILLIAM HOWARD
Assistant Professor of World Languages and Cultures. B.A., 1997, Virginia; M.A., 2000, Ph.D., 2005, California (Santa Barbara).

CARTER-LEWIS, DAVID A.
CASTELLANO, MICHAEL

CASTON, STEPHANIE S.
Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2002, Texas A&M.

CERFOGLI, JENNIFER ANNE

CERVATO, CINZIA

CEYLAN, HALIL

CHACKO, THOMAS I.
Professor of Management. B.Sc., 1968, Madras (India); M.A., 1972, St. Francis; Ph.D., 1977, Iowa.

CHAMBERLIN, DENNIS MATTHEW

CHAMBERLIN, JOAN BORSVOLD

CHANG, CHIU SHUI

CHANG, CHUN KIT
Assistant Professor of Psychology. B.S., 2000, Victoria (Canada); Ph.D., 2007, Washington (St. Louis).

CHAN, LYDIA SAU KUM

CHANDRA, ABHIJIT
Professor of Mechanical Engineering; Professor of Aerospace Engineering. B.Tech., 1979, Kanagpur; M.Engr., 1980, New Brunswick; Ph.D., 1983, Cornell.

CHANG, CARL KOCHAO
Professor of Computer Science and Chair of the Department. B.S., 1974, National Central (Taiwan); M.S., 1978, Northern Illinois; Ph.D., 1982, Northwestern.

CHANG, JIEN MORRIS
Associate Professor of Electrical and Computer Engineering; Associate Professor of Computer Science. B.S., 1983, Tatung (Taiwan); M.S., 1986, Ph.D., 1993, North Carolina State.

CHANG, SHU-HUI H.
Senior Lecturer in Computer Science. B.A., 1982, National Central (Taiwan); M.S., 1998, Ph.D., 2006, Iowa State.

CHAPELLE, CAROL A.

CHAPLIN, MICHAEL H.

CHASE, CHRISTOPHER WYATT

CHASE, GERALD W.
CHO-MACSWAIN, JENNY G.

CHOI, EUN KWAN

CHOOBINEH, FARHAD
Adjunct Instructor in Supply Chain and Information Systems. B.S., 1974, Management (Iran); M.E., 1983, Iowa State.

CHOU, HUI-HSIEN
Associate Professor of Genetics, Development and Cell Biology; Associate Professor of Computer Science. B.S., 1989, National Taiwan; Ph.D., 1996, Maryland.

CHRISTENSEN, GEORGE C.
Emeritus Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1949, M.S., 1950, Ph.D., 1953, Cornell; D.Sc., 1978, Purdue.

CHRISTENSEN, KAYLA E.

CHRISTENSEN, LOA

CHRISTIAN, ERIK J.

CHRISTIAN, MICHELE A.

CHRISTIANS, NICK E.
Professor of Horticulture; Professor of Agronomy. University Professor. B.S., 1972, Colorado State; M.S., 1977, Ph.D., 1979, Ohio State.

CHRISTOFFEL, REBECCA

CHU, CHRIS CHONG-NUEN
Associate Professor of Electrical and Computer Engineering. B.Sc., 1993, Hong Kong; M.S., 1994, Ph.D., 1999, Texas.

CHU, JIAN

CHUKHAREV-KHUDILAYNEN, EVGENY
Assistant Professor of English. B.Sc., 2006, M.Sc., 2006, Arkhangelsk State Technical (Russia); Ph.D., 2009, Herzen State Pedagogical (St. Petersburg, Russia).

CHUMBLEY, L. SCOTT

CHUNG, TELIN
Assistant Professor of Apparel, Events and Hospitality Management. B.S., 2005, National Chiao Tung (Taiwan); M.S., 2008, Ph.D., 2011, Purdue.

CIANZIO, SILVIA R.

CIHA, ALLAN

CIPRICH-CHRISTENSEN, M.

CLARK, LYNN G.

CLARK, STEPHANIE
Associate Professor of Food Science and Human Nutrition. B.S., 1990, M.S., 1993, Ph.D., 1997, Cornell.

CLARK, TRACY LARSEN
Emeritus Professor of Veterinary Clinical Sciences. B.S., 1958, D.V.M., 1960, Kansas State.

CLARK, WILLIAM R.
Professor of Ecology, Evolution and Organismal Biology. B.S., 1971, Rutgers; M.S., 1974, Ph.D., 1979, Utah State.

CLARKE, ALVIN E.

CLEASBY, JOHN L.
Emeritus Professor of Civil, Construction and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1950, M.S., 1951, Wisconsin; Ph.D., 1960, Iowa State.

CLEM, ANNE MARIE

CLEM, JOHN RICHARD
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1960, M.S., 1962, Ph.D., 1965, Illinois.

CLEMANS, JESSICA MARIE

CLIFFORD, ANNE
Associate Professor of Philosophy and Religious Studies. B.A., 1972, Carlow College; M.A., 1980, Catholic Theological Union; Ph.D., 1988, Catholic University of America.

CLOTTEY, TOYIN A.
Assistant Professor of Supply Chain and Information Systems. B.A., 2001, Ghana (West Africa); M.S., 2006, Ph.D., 2010, Ohio State.

CLOUD, MICHAEL P.
Associate Professor of School of Education. B.A., 1982, Drake; M.A.T., 1985, Ph.D., 1994, Iowa.

COADY, LARRY B.

COATES, BRAD S.

COATS, JOEL
Professor of Entomology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1970, Arizona State; M.S., 1972, Ph.D., 1974, Illinois.

COBERLEY, MARK C.

COCHRAN, ERIC W.
Assistant Professor of Chemical and Biological Engineering. B.Sc., 1998, Iowa State; Ph.D., 2004, Minnesota.

COCHRAN, JAMES

CODY, ROBERT
COETZEE, JOHANN
Associate Professor of Veterinary Diagnostic and Production Animal Medicine.
B.V.SC., 1996, Pretoria (South Africa); Ph.D., 2005, Iowa State.

COFFELT, TINA A.

COFFEY, DANIEL

COFFMAN, CLARK
Associate Professor of Genetics, Development and Cell Biology. B.S., 1986, Iowa State; Ph.D., 1993, California (La Jolla).

COHEN, HARRY

COINMAN, NANCY R.

COLBERT, JAMES T.
Associate Professor of Ecology, Evolution and Organismal Biology; Associate Professor of Genetics, Development and Cell Biology. B.S., 1978, Iowa State; M.S., 1981, Ph.D., 1985, Wisconsin.

COLBERT, KAREN K.

COLE, JIM E.

COLEY, MATTHEW W.

COLLETTI, JOE PAUL
Professor of Natural Resource Ecology and Management; Senior Associate Dean of the College of Agriculture and Life Sciences. B.S., 1972, Humboldt; M.S., 1974, Ph.D., 1978, Wisconsin.

COLVER, GERALD M.

COLWELL, PETER

COMPONATION, PAUL
Professor of Industrial and Manufacturing Systems Engineering. B.S., 1982, West Virginia; M.S., 1987, Troy State (Germany campus); Ph.D., 1995, West Virginia.

COMSTOCK, CHESTER JR.

CONGER, RAND DONALD

CONKLIN, NORRIS MASON

CONSIGNY, SCOTT P.

CONSTANT, ALAN P.

CONSTANT, KRISTEN P.
Professor of Materials Science and Engineering and Chair of the Department. B.S., 1986, Iowa State; Ph.D., 1990, Northwestern.

CONTENI, ANTHONY

COOK, CHRISTINE C.
Associate Professor of Human Development and Family Studies. B.A., 1972, Montclair; M.S., 1977, Cornell; Ph.D., 1982, Ohio State.

COOK, DIANNE H.
Professor of Statistics. B.S., 1979, New England (Australia); M.S., 1990, Ph.D., 1993, Rutgers.

COOK, WILLIAM JOHN

COON, STEPHEN C.
Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1967, Iowa; M.S., 1970, Iowa State.

COOPER, ERIC E.
Associate Professor of Psychology. B.S., 1988, Kansas; Ph.D., 1993, Minnesota.

COOPER, VICKIE LOU

COPERNOLL, ANN JEAN

COPPOC, JAMES

COPPOC, JENNIFER ANN

CORBETT, JOHN DUDLEY
Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1948, Ph.D., 1952, Washington.

CORDOBA, JUAN CARLOS

CORDRAY, JOSEPH C.

CORMICLE, LARRY W.

CORNELLE, JAMES L.
Emeritus Professor of Mathematics; University Professor. B.S., 1955, West Texas; M.A., 1959, Ph.D., 1962, Texas.

CORNICK, NANCY

CORREIA, ANA

COTOS, ELENA
Coulson, Roger W.
Emeritus Professor of Human Development and Family Studies; Emeritus Professor of School of Education. B.A., 1942, M.A., 1949, Ph.D., 1958, Iowa.

Countryman, David W.

Courteau, Joanna W. S.
Emeritus Professor of World Languages and Cultures; University Professor. B.A., 1960, Minnesota; M.A., 1962, Ph.D., 1970, Wisconsin.

Courtney, Gregory W.
Professor of Entomology; Professor of Ecology, Evolution and Organismal Biology. B.S., 1982, Oregon State; Ph.D., 1989, Alberta (Canada).

Courtwright, Julie
Assistant Professor of History. B.S.E., 1994, Emporia State; M.A., 2000, Wichita State; Ph.D., 2007, Arkansas.

Cowan, Arnold Richard

Cowan, Donna Lee

Cowles, Harold Andrew
Emeritus Professor of Industrial and Manufacturing Systems Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1949; M.S., 1953, Ph.D., 1957, Iowa State.

Cox, Elizabeth

Cox, Jane F.

Cox, Ronald Arthur
Adjunct Associate Professor of Aerospace Engineering. B.S., 1979, Iowa State; M.S., 1982, Texas (Arlington); Ph.D., 1989, Iowa State.

Coyer, Angela

Cozma, Raluca
Assistant Professor of Greenlee School of Journalism and Communication. B.A., 2003, School of Journalism (Romania); M.COM, 2005, Manship School of Mass Communication; Ph.D., 2009, Louisiana State.

Crabtree, Beverly J.

Crase, Sedahtlia J.
Emeritus Professor of Human Development and Family Studies; University Professor. B.S., 1967, Berea; M.S., 1969, Kentucky; Ph.D., 1972, Iowa State.

Crawens, Hamilton

Crawford, Harold R.

Crawley, Henry Bert
Emeritus Professor of Physics and Astronomy. B.S., 1962, Louisiana Tech; Ph.D., 1966, Iowa State.

Creswell, Mary

Croom, Natasha N.
Assistant Professor of School of Education. B.A., 2003, Texas A&M (Kingsville); M.S., 2005, Texas A&M; Ph.D., 2011, Iowa State.

Crosby, Richard Benjamin

Cross, Samantha N.
Assistant Professor of Marketing. B.Sc., 1993, University of the West Indies; M.B.A., 1995, Depaul; Ph.D., 2009, California (Irvine).

Cross, Susan Elaine

Croyle, Corydon A.

Crull, Sue R.

Crump, Michael Robert

Crump, Malcolm H.
Emeritus Associate Professor of Biomedical Sciences. B.S., 1951, Virginia Polytechnic Institute; D.V.M., 1958, Georgia; M.S., 1961, Ph.D., 1965, Wisconsin.

Crumpton, William G.

Cruse, Richard M.
Professor of Agronomy. B.S., 1972, Iowa State; M.S., 1975, Ph.D., 1978, Minnesota.

Cunnally, John
Associate Professor of Integrated Studio Arts. B.A., 1972, Temple; M.S., 1976, Drexel; Ph.D., 1984, Pennsylvania.

Cunnick, Joan E.
Professor of Animal Science; Professor of Psychology. B.S., 1979, McPherson; Ph.D., 1987, Kansas State.

Curlan, Paula J.

Currier, Russell

Curtis, Larry R.

Curtis, Michael B.
Clinician in Veterinary Clinical Sciences. B.S., 1977, New Mexico State; Ph.D., 1985, New Mexico; D.V.M., 1985, Colorado State.

Cutrona, Carolyn E.
Professor of Psychology and Chair of the Department. B.A., 1973, Stanford; M.A., 1974, New Mexico; Ph.D., 1981, California (Los Angeles).
D'ALESSANDRO, DOMENICO
Professor of Mathematics. Ph.D., 1996, Padua (Italy); Ph.D., 1999, California (Santa Barbara).

DAHIA, RAJBI R.

DAHLSTROM, MICHAEL F.

DAI, RAN
Assistant Professor of Aerospace Engineering. B.S., 2002, Beihang (China); M.S., 2005, Ph.D., 2007, Auburn.

DAIL, PAULA W.

DAKE, DENNIS MYRON

DALAL, VIKRAM L.
Professor of Electrical and Computer Engineering. B.S., 1964, Bombay; Ph.D., 1969, Princeton.

Daly, Brenda O.
Emeritus Professor of English; University Professor. B.A., 1963, North Dakota; Ph.D., 1985, Minnesota.

Daly, Norene F.

DAMHORST, MARY LYNN
Professor of Apparel, Events and Hospitality Management. B.S., 1972, Illinois; M.S., 1975, California (Davis); Ph.D., 1981, Texas.

DANIELS, THOMAS EARL

DANIELSON, BRENT J.

DANIELSON, JARED A.
Assistant Professor of Veterinary Pathology; Assistant Professor of School of Education. B.A., 1994, Brigham Young; M.S., 1996, Syracuse; Ph.D., 1999, Virginia Polytechnic.

DANILEVSKAYA, OLGA N.

DANOFSKY, RICHARD A.

DARK, FREDERICK H.
Associate Professor of Finance and Chair of the Department. B.S., 1971, Arkansas; Ph.D., 1987, Utah.

DARK, VERONICA JOY

DARLINGTON, MAHLON S.

DARR, MATTHEW JOHN
Assistant Professor of Agricultural and Biosystems Engineering. B.S., 2002, Ohio State; M.S., 2004, Kentucky; Ph.D., 2007, Ohio State.

DAS, BISWA
Assistant Professor of Community and Regional Planning. B.A., 1990, Ulkal (India); M.A., 1992, M.Phil, 1994, Hyderabad (India); Ph.D.; 2004, Texas Tech.

DAVID, CAROL S.

DAVID, HERBERT ARON
Emeritus Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.Sc., 1947, Sydney; Ph.D., 1953, London.

DAVID, HERBERT T.
Emeritus Professor of Statistics; Emeritus Professor of Industrial and Manufacturing Systems Engineering; University Professor. A.B., 1947, Harvard; M.A., 1948, Columbia; Ph.D., 1960, Chicago.

DAVID, WILLIAM MILLS

DAVIDSON, JENNIFER L.
Associate Professor of Mathematics; Associate Professor of Electrical and Computer Engineering. B.A., 1979, Mount Holyoke; Ph.D., 1989, Florida.

DAVIS, JAMES A.
Associate Professor of Electrical and Computer Engineering; Vice Provost for Information Technology and Chief Information Officer. B.S., 1975, M.S., 1981, Ph.D., 1984, Iowa State.

DAVIS, RADFORD G.

DAWSON, JANE P.

DAY, TIMOTHY A.
Professor of Biomedical Sciences. B.S., 1988, Kansas State; M.S., 1990, Ph.D., 1993, Michigan State.

DAYAL, VINAY
Associate Professor of Aerospace Engineering. B.Tech., 1972, Indian Institute of Technology; M.S., 1983, Missouri; Ph.D., 1987, Texas A&M.

DE LAPLANTE, KEVIN L.
Associate Professor of Philosophy and Religious Studies and Chair of the Department. B.Sc., 1991, Carleton; M.A., 1993, Ph.D., 1999, Western Ontario (Canada).

DEACON, RUTH ELINOR
Emeritus Professor of Human Development and Family Studies. B.S., 1944, Ohio State; M.S., 1948, Ph.D., 1954, Cornell.

DEAM, DIRK J.
Senior Lecturer in Political Science; Senior Lecturer in Aerospace Engineering. B.S., 1981, J.D., 1985, Kansas; Ph.D., 1999, Iowa.

DEARIN, RAY D.

DEBINSKI, DIANE M.

DECLERCK, JONATHAN CHARLES
DEHART, JOSEPH CRAIG  

DEIBLER, KYLA  

DEININGER, MELISSA ANN  
Assistant Professor of World Languages and Cultures. B.A., 1996, William and Mary; M.A., 2002, Ph.D., 2009, Pittsburgh.

DEITER, RONALD E.  

DEITZ, KRYSTA LEIGH  

DEJONG, PAUL S.  

DEKKER, JOHN HENRY  

DEKKERS, JACK C.  

DELATE, KATHLEEN  
Professor of Horticulture; Professor of Agronomy. B.S., 1977, M.S., 1986, Florida; Ph.D., 1991, California (Berkeley).

DELL, BRAD EDWARD  

DELLMANN, H. DIETER  
Emeritus Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. Dr. Vet., 1954, Alfort; Habil(PhD), 1961, Munich.

DEMARAY, KATHLEEN ELYSE  

DEMARIE, SAM  

DENEKAS, CHRISTINA M.  

DENISON, CHRISTINE ALICIA  

DENTON, DENISE C.  

DERRICK, TIM R.  

DEUTSCH, WILLIAM G.  

DEVITA, JAMES MICHAEL  

DEWALL, BRIAN S.  

DEWELL, GRANT ALAN  

DEWITT, JERALD RAY  

DHARMADHIKARI, MURLIDHAR R.  
Adjunct Associate Professor of Food Science and Human Nutrition. B.Sc., 1963, Vikram (India); M.Sc., 1965, New Delhi (India); Ph.D., 1972, Ohio State.

DICKERSON, JULIE A.  
Professor of Electrical and Computer Engineering. B.S., 1983, California (San Diego); M.S., 1987, Ph.D., 1993, Southern California.

DICKSON, JAMES S.  
Professor of Animal Science. B.S., 1977, Clemson; M.S., 1980, Georgia; Ph.D., 1984, Nebraska.

DIESSLIN, BRENDA ANN  

DILL, WILLIAM N.  
Associate Professor of Accounting. B.M., 1978, B.M.A., 1979, Syracuse; Ph.D., 1987, Texas.

DILTS, HAROLD E.  
Emeritus Professor of School of Education. B.S., 1951, M.A., 1958, Northern Iowa; Ph.D., 1963, Iowa.

DIMITROVA, DANIELA  
Associate Professor of Greenlee School of Journalism and Communication. B.A., 1997, American (Bulgaria); M.A., 1999, Oregon; Ph.D., 2003, Florida.

DINKELMAN, ANDREA L.  
Associate Professor, Library. B.S., 1984, Nebraska Wesleyan; PHARM, 1991, Nebraska Medical Center; M.S., 2003, Illinois.

DINSMORE, JAMES JAY  

DINSMORE, STEPHEN J.  

DISPIRITO, ALAN A.  

DIXON, PHILIP M.  
Professor of Statistics; University Professor. A.B., 1978, California (Berkeley); M.S., 1984, Ph.D., 1986, Cornell.

DOAK, PAUL D.  
Emeritus Associate Professor of Economics. B.S., 1957, M.S., 1960, Missouri; Ph.D., 1965, Iowa State.

DOBBS, CHARLES M.  
DOBBS, DRENA LEIGH
Professor of Genetics, Development and Cell Biology. B.S., 1977, Georgia; Ph.D., 1983, Oregon.

DOBILL, DANIEL R.

DOBROTZ, BETTY A.

DOBSON, CYNTHIA

DOBSON, IAN

DOBSON, JOHN M.
Emeritus Professor of History. B.S., 1962, Massachusetts Institute of Technology; M.S., 1964, Ph.D., 1966, Wisconsin.

DOGANDZIC, ALEKSANDAR

DOLLISSO, AWOKE DESTA

DOLPHIN, WARREN DEAN
Emeritus Professor of Genetics, Development and Cell Biology; University Professor. B.S., 1962, West Chester; Ph.D., 1968, Ohio State.

DOMINGUEZ-CASTELLANO, J.
Associate Professor of World Languages and Cultures. B.A., 1998, Extremadura (Spain); M.A., 2000, Michigan State; Ph.D., 2004, Arizona.

DOMOTO, PAUL ALAN
Professor of Horticulture. B.S., 1969, M.S., 1971, California State (Fresno); Ph.D., 1974, Maryland.

DONG, LIANG
Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Chemical and Biological Engineering. B.S., 1999, Xidian (China); Ph.D., 2004, Tsinghua (China).

DORMAN, KARIN
Associate Professor of Statistics; Associate Professor of Genetics, Development and Cell Biology. B.S., 1994, Indiana; Ph.D., 2001, California (Los Angeles).

DORN, JOHN O.

DORNEICH, MICHAEL

DOUGHERTY, BARBARA

DOUGLAS, DANNY

DOW, JAMES R.
Emeritus Professor of World Languages and Cultures. B.A., 1957, Mississippi College; M.A., 1961, Ph.D., 1966, Iowa.

DOWNING, JOHN A.
Professor of Ecology, Evolution and Organismal Biology; Professor of Agricultural and Biosystems Engineering. B.S., 1973, Hamline; M.S., 1975, North Dakota State; Ph.D., 1980, McGill.

DOWNING-MATIBAG, TERESA M.

DRAKE, SHARON KAY

DRAKER, DIANNE C.

DRAKER, DONALD D.

DREXLER, M. BURTON

DRINKWATER, JENNIFER D.

DUBISAR, ABBY
Assistant Professor of English. B.A., 2001, Missouri (Kansas City); M.A., 2005, Ohio State; Ph.D., 2010, Miami.

DUFFY, JAN M.

DUFFY, MICHAEL D.

DUKES, LISA MARIE

DUONG, TRUONG
Assistant Professor of Finance. B.S., 2002, Arizona; Ph.D., 2008, Minnesota.

DUPONT, JACQUELINE
Emeritus Professor of Food Science and Human Nutrition. B.S., 1955, Florida State; M.S., 1959, Iowa State; Ph.D., 1962, Florida State.

DURAND, DONALD P.
Emeritus Professor of Plant Pathology and Microbiology. A.B., 1955, Guilford; M.S., 1957, Ph.D., 1960, Kansas State.

DURBIN, PAUL
Professor of Aerospace Engineering. B.S.E., 1974, Princeton; Ph.D., 1979, Cambridge.

DUSSELIER, JANE E.
Assistant Professor of Anthropology. B.A., 1979, Avila; M.A., 1999, Sarah Lawrence; Ph.D., 2005, Maryland.

DUVICK, JONATHAN PAUL
Adjunct Associate Professor of Genetics, Development and Cell Biology. B.A., 1976, Earlham College; Ph.D., 1982, Wisconsin.

DYAS, ROBERT

DYER, DONALD CHESTER
Emeritus Professor of Biomedical Sciences. B.S., 1961, Ph.D., 1965, Kansas.

DYKE, ROBERT G.
EBBERS, LARRY H.
Professor of School of Education; University Professor. B.S., 1962, M.S., 1968, Ph.D., 1971, Iowa State.

EBERT, GLADYS M.
Emeritus Associate Professor of Human Development and Family Studies; Emeritus Associate Professor of School of Education. B.A., 1942, Northern Iowa; M.S., 1967, Ph.D., 1978, Iowa State.

EDELMAN, MARK ALAN
Professor of Economics. B.S., 1975, M.S., 1978, Kansas State; Ph.D., 1981, Purdue.

EDWARDS, DAVID C.

EDWARDS, JODE W.

EDWARDS, WILLIAM M.
Professor of Economics. B.S., 1969, M.S., 1971, Ph.D., 1979, Iowa State.

EIDE, ARVID RAY

EISENBERG, CARL E. JR.

EKBERG, CARL E. JR.

EKKEKAKIS, PANTELEIMON
Associate Professor of Kinesiology. B.S., 1992, Athens; M.S., 1996, Kansas State; Ph.D., 2000, Illinois.

ELIA, NICOLA
Associate Professor of Electrical and Computer Engineering. Ph.D., 1996, Massachusetts Institute of Technology.

ELLINGTON, JOSHUA

ELLINWOOD, NORMAN MATTHEW
Associate Professor of Animal Science; Associate Professor of Veterinary Clinical Sciences. B.A., 1985, Washington (St. Louis); D.V.M., 1997, Ph.D., 2000, Colorado State.

ELLIS, TIMOTHY G.
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1984, Drexel; M.S., 1988, Georgia Institute of Technology; Ph.D., 1995, Clemson.

ELMORE, ROGER

ELSTON, SCOTT E.
Senior Lecturer in Management. B.S., 1984, M.S., 1990, Iowa State.

ELVIK, KENNETH O.

EMMERSON, JAMES T.
Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1960, M.S., 1964, Iowa State; Ph.D., 1973, London School of Economics.

ENESS, PAUL G.

ENGEL, ROSALIND E.

ENGEL, ROSS A.
Emeritus Professor of School of Education. B.A., 1948, Northern Iowa; M.S., 1952, Drake; Ph.D., 1962, Iowa.

ENGELBRECHT, MARK C.
Professor of Architecture; Emeritus Dean of the College of Design. B.Arch., 1963, Iowa State; M.Arch., 1964, Columbia.

ENGELKEN, TERRY

ENGEN, RICHARD L.
Emeritus Professor of Biomedical Sciences. B.S., 1954, Iowa State; M.S., 1958, Colorado State; Ph.D., 1965, Iowa State.

enger, M. Duane

ENGLE, DAVID MICHAEL

ENGLEK, MIRIAM

ENGELIN, PETER D.

ENLOE, LISA L.

ENSLEY, STEVE MICHAEL

EPPELSER, DOUGLAS L.
Emeritus Professor of Psychology. B.S., 1973, M.S., 1976, Utah; Ph.D., 1979, Ohio State.

EPSTEIN, ABRAHAM H.
Emeritus Professor of Plant Pathology and Microbiology. B.S., 1962, Cornell; M.S., 1954, Rhode Island; Ph.D., 1969, Iowa State.

ERDMAN, MATTHEW M.

ESCH, KEVIN JAN

ESLINGER, BRIAN GLENN

ESPENSON, JAMES H.
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1958, California Institute of Technology; Ph.D., 1962, Wisconsin.

ESSNER, JEFFREY JEROME
Associate Professor of Genetics, Development and Cell Biology. B.S., 1987, Iowa; Ph.D., 1996, Minnesota.

ESTAPA, ANNE
Assistant Professor of School of Education. B.A., 2002, M.A., 2005, Northern Iowa; Ph.D., 2012, Missouri.
ESTES, SIMON  
Adjunct Professor of Music and Theatre. B.A., 1963, Iowa.

EULENSTEIN, OLIVER  
Associate Professor of Computer Science. Ph.D., 1998, Bonn (Germany).

EVANS, JAMES W.  
Professor of Physics and Astronomy. Professor of Mathematics. B.S., 1975, Melbourne; Ph.D., 1978, Adelaide.

EVANS, LAWRENCE E.  
Professor of Veterinary Clinical Sciences; Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Biomedical Sciences. D.V.M., 1963, M.S., 1967, Ph.D., 1973, Iowa State.

EVANS, NANCY J.  

EVANS, NORMAN CHARLES  

EVANS, PETER MCNEIL  

EVEN, JOHN C. JR.  

EWALD, HELEN R.  

EWING, ROBERT P.  
Research Assistant Professor in Agronomy. B.S., 1983, Maine; M.S., 1988, North Carolina State; Ph.D., 1992, Minnesota.

F  
FAABERG, KAY  
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1978, Concordia College; Ph.D., 1987, Rush.

FABER, CAROL H.  

FADEN, ARNOLD M.  
Emeritus Professor of Economics. B.A., 1954, City University of New York; Ph.D., 1961, Columbia.

FAIRBANKS, WENDELYN SUE  
Associate Professor of Natural Resource Ecology and Management. B.S., 1982, Nebraska Wesleyan; M.S., 1985, Colorado State; Ph.D., 1992, Kansas.

FAIRCHILD, ELLEN E.  
Senior Lecturer in School of Education. B.S., 1976, M.S., 1988, Iowa State; Ph.D., 2002, Iowa.

FALES, AMANDA JEAN  
Associate Professor of Veterinary Pathology. B.S., 1991, Kentucky; D.V.M., 1995, Missouri; Ph.D., 2000, Iowa State.

FALES, STEVEN L.  

FALK, BARRY L.  

FANG, NING  
Assistant Professor of Chemistry. B.S., 1998, Xiamen (China); M.S., 2001, Ph.D., 2006, British Columbia.

FANOUS, FOUAD S.  

FANSLOW, ALYC E. M.  
Emeritus Professor of Human Development and Family Studies; Emeritus Professor of School of Education; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1957, Minnesota; M.S., 1960, Ph.D., 1966, Iowa State.

FANSLOW, GLENN E.  
Emeritus Professor of Electrical and Computer Engineering. B.S., 1953, North Dakota State; M.S., 1957, Ph.D., 1962, Iowa State.

FARR, CHERYL ANN  
Professor of Apparel, Events and Hospitality Management. B.S., 1966, Houston; M.S., 1985, Ph.D., 1989, Iowa State.

FARRAR, DONALD R.  

FARRAR, EUGENIA SUE  
Emeritus Associate Professor of Ecology; Evolution and Organismal Biology. B.S., 1961, Illinois; Ph.D., 1972, Michigan.

FARRELL-BECK, JANE A.  
Emeritus Professor of Apparel, Events and Hospitality Management; University Professor. B.S., 1963, Georgian Court; M.S., 1969, Drexel; Ph.D., 1975, Ohio State.

FAYED, AYMAN ADEL  
Assistant Professor of Electrical and Computer Engineering. B.Sc., 1998, Cairo (Egypt); M.Sc., 2000, Ph.D., 2004, Ohio State.

FEHR, WALTER R.  
Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1961, M.S., 1962, Minnesota; Ph.D., 1967, Iowa State.

FEI, SHUIZHANG  
Associate Professor of Horticulture. B.S., 1986, M.S., 1989, Beijing Agricultural (China); Ph.D., 1997, Nebraska.

FELZ, CHARLES L.  

FENTON, THOMAS E.  

FERGEN, BRIAN  

FERNANDEZ-BACA, DAVID  
Professor of Computer Science. B.S., 1980, Mexico; M.S., 1983, Ph.D., 1986, California (Davis).

FERNANDO, ROHAN L.  

FERWERDA, NICOLE SUZANNE  
Lecturer in Animal Science. B.S., 2000, Nebraska; MNAS, 2002, Southwest Missouri State.

FEVE, SEBASTIEN  

FIHR, DAWN M.  

FINDLAY, ROBERT ALLEN  
FINK, ARLINGTON

FINEMORE, DOUGLAS
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1956, Pennsylvania State; Ph.D., 1962, Illinois.

FIORE, ANN MARIE

FIRESTONE, ALEXANDER

FITZPATRICK, JANET ELAINE

FITZPATRICK, KATIE F.

FLAHERTY, HEATHER A.

FLAVIAU, ALISON BEHRE

FLETCHER, CYNTHIA N.

FLETCHER, LEHMAN
Emeritus Professor of Economics. B.S., 1954, Florida; Ph.D., 1960, California (Berkeley).

FLORA, CORNELIA B.
Professor of Sociology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. A.B., 1985, California (Berkeley); M.S., 1986, Ph.D., 1970, Cornell.

FLORA, JAN L.

FLOROS, IOANNIS
Assistant Professor of Finance. B.Sc., 1998, Piraeus (Greece); M.Sc., 1999, Warwick (Poland); Ph.D., 2008, Pittsburgh.

FLORY, DAVID

FOEKEN, ANNE MARIE
Associate Professor of School of Education. B.S., 1986, Winona State; M.A., 1987, Ohio State; Ph.D., 1995, Minnesota.

FOLGER, TIMOTHY L.

FOLINSBEE, KAILA ERIN
Assistant Professor of Anthropology. B.A., 1999, Alberta (Canada); M.Sc., 2003, Ph.D., 2008, Toronto (Canada).

FONTAINE, LISA MARIE

FORD, CLARK FUGIER
Associate Professor of Food Science and Human Nutrition. B.A., 1975, California (Los Angeles); M.S., 1977, Ph.D., 1981, Iowa.

FOREMAN, CHARLES F.
Emeritus Professor of Animal Science. B.S., 1948, M.S., 1949, Kansas State; Ph.D., 1953, Missouri.

FOSS, MARY

FOSS, MATT

FOSTER, ALLISON

FOUAD, ABDEL-AZIZ A.
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1950, Cairo; M.S., 1953, Iowa; Ph.D., 1956, Iowa State.

FOWLER, CHRISTINE ANN

FOWLER, GILES MERRILL
Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1955, Westminster; M.S., 1956, Columbia.

FOWLES, DOROTHY L.

FOX, JONATHAN J.

FOX, LESLIE ELIZABETH
Associate Professor of Veterinary Clinical Sciences. B.A., 1972, Hollins College; D.V.M., 1984, Michigan State; M.S., 1989, Wisconsin.

FOX, RODNEY O.
Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1982, M.S., 1985, Ph.D., 1987, Kansas State.

FRANA, TIMOTHY S.

FRANCIS, SARAH LUCILLE
Assistant Professor of Food Science and Human Nutrition. B.S., 1998, Appalachian State; M.H.S., 2000, Western Carolina; Ph.D., 2004, North Carolina.

FRANK, MATTHEW CHARLES

FRANKE, TIMOTHY S.
Lecturer in Kinesiology. B.S., 1988, New York (Buffalo); M.S., 1995, Virginia Polytechnic.

FRANKE, WARREN D.

FRANKEL, DAVID M.

FRANZ, KRISTIE JEAN
Associate Professor of Geographical and Atmospheric Sciences. B.S., 1995, Wisconsin (Eau Claire); M.S., 2001, Arizona; Ph.D., 2006, California (Irvine).
FRANZ, NANCY KAY
Professor of School of Education; Associate Dean of the College of Human Sciences. B.S., 1981, Northland College; MEPD, 1985, Wisconsin (Superior); Ph.D., 2002, Cornell.

FRANZEN, HUGO F.
Emeritus Professor of Chemistry. B.S., 1957, California (Berkeley); Ph.D., 1962, Kansas.

FRATZKE, DARLENE M.
Adjunct Instructor in Apparel, Events and Hospitality Management. B.S., 1974, M.S., 1976, Iowa State.

FREED, RICHARD CURTIS

FREEMAN, ALBERT E.
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1952, M.S., 1954, West Virginia; Ph.D., 1957, Cornell.

FREEMAN, STEVEN A.
Professor of Agricultural and Biosystems Engineering. B.S., 1988, Colorado State; M.S., 1990, Texas A&M; Ph.D., 1993, Purdue.

FRETWELL, HELEN MARGARET

FREY, KENNETH J.
Emeritus Professor of Agronomy. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1944, M.S., 1945, Michigan State; Ph.D., 1948, Iowa State.

FRIEDEL, JANICE
Associate Professor of School of Education. B.A., 1972, M.A., 1976, Ph.D., 1980, Iowa.

FRIEDERICH, KARL H.
Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1954, M.S., 1961, South Dakota State.

FRINK, ORRIN

FRTISCH, JANE
Assistant Professor of Greenlee School of Journalism and Communication. B.S., 1974, Illinois (Urbana-Champaign); M.A., 1999, Illinois (Springfield).

FROEICH, AMY G.
Associate Professor of Statistics. B.S., 1994, Ph.D., 2000, Illinois.

FROMM, HERBERT J.
Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, Michigan State; M.S., 1952, Ph.D., 1954, Loyola (Chicago).

FRYE, CASEY
Associate Professor of Animal Science (Collaborator). B.A., 1982, Chadron State College; M.S., 1984, Nebraska; Ph.D., 1990, Iowa State.

FRYER, JANICE S.
Emeritus Assistant Professor, Library. B.S., 1968, Iowa State; M.A., 1971, Iowa.

FUCHS, RONALD
Emeritus Professor of Physics and Astronomy. B.S., 1954, California Institute of Technology; Ph.D., 1957, Illinois.

FULLER, WAYNE A.
Emeritus Professor of Statistics; Emeritus Professor of Economics. Distinguished Professor in Liberal Arts and Sciences. B.S., 1955, M.S., 1957, Ph.D., 1959, Iowa State.

FULTON, DONALD BRUCE
Lecturer in Biochemistry, Biophysics and Molecular Biology. B.S., 1982, Saskatchewan (Canada); Ph.D., 1988, Saskatchewan (Canada).

FURUKAWA, YUJI
Associate Professor of Physics and Astronomy. B.E., 1990, Wakayama (Japan); M.E., 1993, D.S., 1995, Kobe (Japan).

G

GABIAM, NELL
Assistant Professor of Anthropology; Assistant Professor of Political Science. B.A., 1998, Barnard; M.A., 2004, Ph.D., 2008, California (Berkeley).

GABLER, NICHOLAS
Assistant Professor of Animal Science. B.S., 1999, Ph.D., 2005, La Trobe (Australia).

GABRIEL, AARON JOSEPH

GADIA, SHASHI K.

GAHN, SANDRA WILEY

GALEJS, JOHN EDGAR

GALLAGHER, PAUL W.
Associate Professor of Economics. B.A., 1972, Ph.D., 1983, Minnesota.

GALLUS, WILLIAM A.

GALOW-KERSH, NYOMI LYN

GALYON, LINDA R.

GAMON, JULIA ANDREW

GANAPATHYSUBRAMANIAN, B.
Assistant Professor of Mechanical Engineering; Assistant Professor of Electrical and Computer Engineering. B.Tech., 2003, Indian Institute of Technology; Ph.D., 2008, Cornell.

GANSEMER-TOPF, ANN M.
Assistant Professor of School of Education. B.A., 1989, Loras; M.S., 1992, Ph.D., 2004, Iowa State.

GARCIA, PILAR A.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1949, Philippines; M.S., 1950, Michigan; M.S., 1952, Ph.D., 1955, Iowa State.

GARDNER, CANDICE A.
Assistant Professor of Agronomy (Collaborator). B.S., 1975, Iowa State; M.S., 1979, Ph.D., 1982, Missouri.

GARDNER, R. GENE

GARRICK, DORIAN J.
GASSMANN, AARON JOHN
Assistant Professor of Entomology. B.A., 1997, Saint Thomas; Ph.D., 2003, New York (Stony Brook).

GASTA, CHAD

GAUGER, CARLYLE J.
Emeritus Professor of Agricultural Education and Studies. B.S., 1939, M.S., 1955, Iowa State.

GAUGER, PHILLIP C.

GAUTESEN, ARTHUR
Emeritus Professor of Mathematics. B.E., 1965, Cooper Union; Ph.D., 1968, Northwestern.

GEHA, JOSEPH

GEIGER, RANDALL L.

GEIRSSON, HEIMIR

GEMMILL, DOUGLAS D.
Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1972, M.S., 1986, Iowa State; Ph.D., 1988, Wisconsin.

GENALO, LAWRENCE

GENSCHEL, ULRIKE
Assistant Professor of Statistics. M.S., 2000, Ph.D., 2005, Dortmund (Germany).

GENTILE, DOUGLAS A.

GEOFFROY, GREGORY L.
Professor of Chemistry; Emeritus President. B.S., 1968, Louisville; Ph.D., 1974, California Institute of Technology.

GEORGE, JOEY

GERHARD, KRISTIN H.

GERRARD, MEG

GERSTEIN, BERNARD C.
Emeritus Professor of Chemistry. B.S., 1953, Purdue; Ph.D., 1960, Iowa State.

GESKE, JOEL CARL
Associate Professor of Greenlee School of Journalism and Communication. B.A., 1978, Iowa State; M.A., 1982, Northern Iowa; Ph.D., 2005, Iowa State.

GHANDOUR, MARWAN
Professor of Architecture; Associate Dean of the College of Design. B.Arch., 1986, American (Beirut); M.S., 1988, Columbia.

GHOSH, ARKA P.

GHOSHAL, NANI GOPAL

GIBBONS, FREDERICK X.
Professor of Psychology (Collaborator). B.A., 1972, Colgate; Ph.D., 1976, Texas.

GIBBS, KATHERINE P.

GIBSON, DEBRA SOLBERG
Senior Clinician in Greenlee School of Journalism and Communication. B.S., 1981, Iowa State.

GILBERT, STEPHEN
Assistant Professor of Industrial and Manufacturing Systems Engineering. B.S.E., 1992, Princeton; Ph.D., 1997, Massachusetts Institute of Technology.

GILCHRIST, KJ

GILES, MICHAEL S.

GILES, SONJA

GILLESPIE, ARDYTH M.
Associate Professor of Food Science and Human Nutrition (Collaborator). B.S., 1967, M.S., 1975, Ph.D., 1978, Iowa State.

GILLETTE, JASON C.

GILLETTE, WILLARD E.

GILMOUR, LINDSEY
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2005, D.V.M., 2009, Texas A&M.

GINDER, ROGER

GIROUX, ADAM T.
Adjunct Instructor in Military Science and Tactics. B.S., 1999, Norwich.

GIRTON, JACK RICHARD

GIRTON, LOIS ELAINE

GKRITZA, KONSTANTINA
Assistant Professor of Civil, Construction and Environmental Engineering. M.S.C.E., 2003, Virginia Polytechnic; Ph.D., 2006, Purdue.

GLADON, RICHARD J.
Associate Professor of Horticulture. B.S., 1969, Ohio Northern; M.S., 1974, Ph.D., 1977, Ohio State.
GLANVILLE, THOMAS D.
Professor of Agricultural and Biosystems Engineering. B.S., 1972, M.S., 1975, Ph.D., 1987, Iowa State.

GLASS, EDYTHE K.

GLATZ, CHARLES E.
Professor of Chemical and Biological Engineering; University Professor. B.S., 1971, Notre Dame; Ph.D., 1975, Wisconsin.

GLEASON, MARK L.
Professor of Plant Pathology and Microbiology; Professor of Horticulture. B.A., 1972, Carleton; M.S., 1976, Ph.D., 1980, Virginia; Ph.D., 1985, Kentucky.

GLEHILL, JARED AYRES
Adjunct Instructor in Military Science and Tactics. B.S., 2005, Iowa State.

GLEESEN, BRIAN

GOBLE, JODI SUZANNE

GOCHE, PETER PAUL

GODBEY, EMILY

GOEDEKEN, EDWARD A.

GOFF, JESSE PAUL

GOGGI, ALCIRA S.
Associate Professor of Agronomy. B.S., 1982, De Buenos Aires (Argentina); M.S., 1987, Ph.D., 1990, Mississippi State.

GOLDMAN, ALAN I.
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1979, M.A., 1980, Ph.D., 1984, New York (Stony Brook).

GOLEMO, MICHAEL

GOLTZ, CLARK

GOODMAN, NEYSA LOUISE

GOODWIN, JEAN

GOPALAKRISHNAN, KASTHRURIRA

GORDEN, PATRICK J.

GORDILLO, MONICA

GORDON, MARK STEPHEN
Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1963, Rensselaer; Ph.D., 1968, Carnegie Mellon.

GORDY, MATTHEW

GOSSETT, KATHERINE E.
Assistant Professor of English. B.A., 1992, California (San Diego); M.A., 1998, California State (Hayward); Ph.D., 2008, Illinois.

GOTTESMAN, ISAAC

GOUDY, WILLIS J.
Emeritus Professor of Sociology; University Professor. B.A., 1964, St. Thomas; M.S., 1967, Ph.D., 1970, Purdue.

GOULD, CINDY L.

GOURAN, PATRICK D.

GOVINDARASU, MANIMARAN

GRADWOHL, DAVID MAYER

GRAHAM, LYNN M.

GRAHAM, MICHELLE A.
Assistant Professor of Agronomy (Collaborator). B.S., 1996, Wisconsin; Ph.D., 2001, Iowa State.

GRANSBERG, DOUGLAS DRAKE

GRANT, DAVID
Associate Professor of Agronomy (Collaborator). B.S., 1971, New York (Stony Brook); Ph.D., 1977, Chicago.

GRANT, MICHAIL
Assistant Professor. B.S., 1973, Seattle; M.S., 1976, Ph.D., 1979, Iowa State.

GRAPENTINE, TERRY

GRASS, SEAN C.

GRAVES, DONALD JOHN

GRAVES, WILLIAM R.
Professor of Horticulture; Associate Dean of the Graduate College. B.S., 1981, M.S., 1984, Iowa State; Ph.D., 1988, Purdue.

GRAWE, SCOTT JOSEPH
GRAY, BETHANY EKLE

GRAY, JOSEPH NAHUM

GRAY, TIMOTHY A.

GREDER, KIMBERLY ANN

GREENBOWE, THOMAS J.
Professor of Chemistry; Professor of School of Education. B.A., 1972, New Jersey; M.S., 1974, Indiana State; M.S., 1979, Ph.D., 1983, Purdue.

GREENLEE, JUSTIN J.
Assistant Professor of Veterinary Pathology (Collaborator). B.A., 1995, Northern Iowa; D.V.M., 1999, Ph.D., 2003, Iowa State.

GREENLEE, MARY WEST
Associate Professor of Biomedical Sciences. B.S., 1994, Ph.D., 1999, Iowa State.

GREENWALD, ALLISON R.

GREER, RAYMOND THOMAS

GREIMANN, LOWELL F.

GREINER, THOMAS H.
Emeritus Associate Professor of Agricultural and Biosystems Engineering; Associate Professor of Civil, Construction and Environmental Engineering. B.S.A.E., 1958, Ohio State; M.S., 1959, Michigan State; Ph.D., 1963, Purdue.

GREWELL, DAVID
Associate Professor of Agricultural and Biosystems Engineering; Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1969, M.S., 2002, Ph.D., 2005, Ohio State.

GRIER, RONALD LEE

GRIESDORN, TIMOTHY

GRIFFITH, RONALD W.

GRIFFITHS, PAUL D.

GROE, HARLEN D.

GRUDENS-SCHUCK, NANCY

GRUENEWALD, DOUGLAS K.
Adjunct Assistant Professor of School of Education. B.A., 1976, Wisconsin; M.Ed., 1978, Missouri; Ph.D., 1993, Iowa State.

GSCHNEIDNER, KARL A.
Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1952, Detroit; Ph.D., 1957, Iowa State.

GU, ROY RUOCHUAN

GU, XUN
Professor of Genetics, Development and Cell Biology. B.S., 1985, M.S., 1987, Fudan (China); Ph.D., 1996, Texas.

GUAN, YONG
Associate Professor of Electrical and Computer Engineering. B.S., 1990, M.S., 1996, Peking (China); Ph.D., 2002, Texas A&M.

GUDRUNSON, CLINTON G.

GUERRA-DE-CASTILLO, ZOILA
Assistant Professor of Industrial and Manufacturing Systems Engineering (Collaborator). B.S., 1987, M.S., 1999, Universidad Tecnologica De Panama; Ph.D., 2006, Iowa State.

GUNDERSEN, LISA
Lecturer in Economics. B.A., 1990, California State (San Bernardino); Ph.D., 1996, California (Riverside).

GUNDLACH, KATHRYN E.
Lecturer in Kinesiology. B.S., 1975, St. Olaf College; M.S., 1977, Wisconsin (Lacrosse).

GUNNING, KERRY B.
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1988, Minnesota; Ph.D., 1999, Texas.

GUNSETT, FIELDS
Associate Professor of Animal Science (Collaborator). B.S., 1975, California (Davis); M.S., 1977, Idaho; Ph.D., 1980, Wisconsin.

GUTHRIE, NANCY J. T.

GUTHRIE, WILBUR D.
Emeritus Professor of Entomology. B.S., 1950, M.S., 1951, Oklahoma State; Ph.D., 1958, Ohio State.

GUTOWSKI, WILLIAM J.
Professor of Geological and Atmospheric Sciences; Professor of Agronomy. B.S., 1976, Yale; Ph.D., 1984, Massachusetts Institute of Technology.

GUYLL, MAX E. JR.
Assistant Professor of Psychology. B.S., 1985, Lehigh; M.S., 1990, Utah; Ph.D., 1998, Rutgers.

GWIASDA, KARL ERIC

HAAG, ELIZABETH A.

HAAS, BARBARA L.
HADDAD, MONICA
Associate Professor of Community and Regional Planning. B.A., 1989, Federal De Minas Gerais (Brazil); M.U.P., 2000, Ph.D., 2003, Illinois.

HAGEDORN, LINDA

HAGEMOSER, WAYNE A.

HAGGARD, FRANK E.

HAGGE, JOHN H.

HAGGE, MATTHEW J.

HALBUR, PATRICK G.
Professor of Veterinary Diagnostic and Production Animal Medicine and Chair of the Department; D.V.M., 1986, M.S., 1992, Ph.D., 1995, Iowa State.

HALL, CHARLES VIRDUS
Emeritus Professor of Horticulture. B.S., 1950, M.S., 1953, Arkansas; Ph.D., 1960, Kansas State.

HALL, JERRY LEE

HALL, RICHARD BRIAN
Professor of Natural Resource Ecology and Management. B.S., 1969, Iowa State; Ph.D., 1974, Wisconsin.

HALLAM, J. ARNE
Professor of Economics; Associate Dean of the College of Liberal Arts and Sciences. B.S., 1977, Brigham Young; M.S., 1980, Ph.D., 1983, California (Berkeley).

HALLAUER, ARNEL ROY
Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1954, Kansas State; M.S., 1958, Ph.D., 1960, Iowa State.

HALLMARK, SHAUNA L.
Professor of Civil, Construction and Environmental Engineering. B.S., 1991, Brigham Young; M.S., 1996, Utah State; Ph.D., 1999, Georgia Institute of Technology.

HALVERSON, LARRY J.
Associate Professor of Plant Pathology and Microbiology. B.A., 1981, Luther College; M.S., 1983, Tennessee; Ph.D., 1991, Wisconsin.

HAMMER, CAROLYN JEAN

HAMMOND, EARL G.
Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; University Professor. B.S., 1948, M.A., 1950, Texas; Ph.D., 1953, Minnesota.

HAN, DONG
Research Associate Professor of Biomedical Sciences. Ph.D., 1998, Sogang (Seoul, South Korea).

HAN, GANG
Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1994, Nankai (China); M.A., 2000, Fudan (China); Ph.D., 2007, Syracuse.

HAN, SHUFENG
Associate Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1985, Zhejiang (China); B.S., 1992, Illinois.

HANSON, DAVID J.

HARBUR, MATTHEW M.

HARDING, CHRIS
Associate Professor of Geological and Atmospheric Sciences; Associate Professor of Computer Science. M.Sc., 1993, Free (Berlin); Ph.D., 2001, Houston.

HARGRAVE, CONNIE P.
Associate Professor of School of Education. B.S., 1987, Evangel; M.A., 1989, Northern Iowa; Ph.D., 1993, Iowa State.

HARGROVE, MARK S.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1992, Nebraska; Ph.D., 1995, Rice.

HARL, NEIL E.
Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1955, Iowa State; J.D., 1961, Iowa; Ph.D., 1965, Iowa State.

HARMON, BRUCE N.
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1968, Illinois Institute of Technology; M.S., 1969, Ph.D., 1973, Northwestern.

HARMON, JAY D.
Professor of Agricultural and Biosystems Engineering. B.S., 1984, Purdue; M.S., 1986, Minnesota; Ph.D., 1989, Virginia Polytechnic.

HARMON, KAREN M.

HARMS, JILL EMILY

HARPOLE, WILLIAM STANLEY
HARRINGTON, THOMAS C.
Professor of Plant Pathology and Microbiology; Professor of Natural Resource Ecology and Management. B.S., 1977, Colorado State; M.S., 1980, Washington State; Ph.D., 1983, California (Berkeley).

HARRIS, AMY

HARRIS, BETH
Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1984, Nebraska; M.S., 1986, Maryland; Ph.D., 2002, Nebraska.

HARRIS, DELBERT LINN

HARRIS, MARY A.
Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1977, California (Los Angeles); M.S., 1982, Montana; M.S., 1985, California (Riverside); Ph.D., 1995, Georgia.

HARRISON, JACOB GALLOWAY

HARROD, WENDY JEAN

HART, CHAD E.
Associate Professor of Economics. B.S., 1991, Southwest Missouri State; Ph.D., 1999, Iowa State.

HART, ELWOOD ROY
Emeritus Professor of Entomology; Emeritus Professor of Natural Resource Ecology and Management. B.A., 1959, Cornell College; M.Ed., 1965, Ph.D., 1972, Texas A&M.

HARTMANN, BETH LIN

HARTWIG, NOLAN R.

HARTZLER, ROBERT G.
Professor of Agronomy. B.S., 1971, Kansas State; M.S., 1972, Kentucky; Ph.D., 1975, Iowa State.

HAYASHI, SUE
Associate Professor of Chemical and Biological Engineering. B.S., 1978, Princeton; M.S., 1981, Ph.D., 1985, Illinois.

HECK, DONALD

HEDLUND, CHERYL SUE
Professor of Veterinary Clinical Sciences. D.V.M., 1977, Iowa State; M.S., 1981, Texas A&M.

HEERKENS, TAMMY MARY-JEAN

HEGELHEIMER, VOLKER H.

HEGGEN, RICHARD D.
HEGLAND, SUSAN M.
Associate Professor of Human Development and Family Studies. B.A., 1970, St. Olaf; M.S., 1972, Iowa State; Ph.D., 1977, Ohio State.

HEMES, KENNETH A.

HEINDEL, THEODORE JOHN
Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering. B.S.M.E., 1988, Wisconsin; M.S.M.E., 1990, Ph.D., 1994, Purdue.

HEINEN, JENNIFER MARIE
Assistant Professor of Chemical and Biological Engineering. B.S., 2001, Bucknell; Ph.D., 2007, Delaware.

HEISE, JAMES ARTHUR

HEISING, CAROLYN
Professor of Industrial and Manufacturing Systems Engineering. B.S., 1974, California (San Diego); Ph.D., 1978, Stanford.

HELD, SHIRLEY ELAINE
Emeritus Professor of Art and Design. B.S., 1945, M.S., 1952, Iowa State.

HELMICH, RICHARD II

HELMER, GUY GARY

HELMERS, MATTHEW JUSTIN
Associate Professor of Agricultural and Biosystems Engineering. B.S., 1995, Iowa State; M.S., 1997, Virginia Polytechnic; Ph.D., 2003, Nebraska.

HENDEE, JOHN
Emeritus Professor of Human Development and Family Studies. B.S., 1965, Wisconsin (Stout); M.S., 1971, Iowa State; Ph.D., 1978, Purdue.

HENDESS, DAVID A.

HENNESSY, HONGLI FENG
Adjunct Assistant Professor of Economics. B.S., 1995, Beijing Agricultural; Ph.D., 2001, Iowa State.

HENNEY, MARIBETH

HENNINGS, VALERIE M.

HENRY, MADELEINE M.

HENTZEL, IRVIN R.

HEPWORTH, KATE

HERMANN, JOSEPH R.

HERMANN, PAUL JACOB
Emeritus Associate Professor of Aerospace Engineering. B.S., 1947, M.S., 1951, Iowa State.

HERRERA-SIKLODY, PAULA
Senior Lecturer in Physics and Astronomy. B.Sc., 1993, Ph.D., 1999, Barcelona (Spain).

HERRIGES, JOSEPH A.

HERRMANN, POL

HERNSTADT, RICHARD L.
Emeritus Professor of English. B.S., 1948, M.S., 1950, Wisconsin; Ph.D., 1960, Maryland.

HERNSTADT, STEVEN M.
Professor of Industrial Design; University Professor. B.S., 1975, M.A., 1979, M.F.A., 1980, Iowa.

HERWIG, JOAN EMILY
Emeritus Associate Professor of Human Development and Family Studies. B.S., 1965, Wisconsin (Stout); M.S., 1971, Iowa State; Ph.D., 1978, Purdue.

HICKMAN, ROY DON

HICKMAN, TIMOTHY R.

HICKOK, KATHLEEN K.

HIGHTSHOE, GARY LYNN

HILL, BARBARA M.

HILL, CHRISTINA GISH

HILL, JAMES CHRISTIAN
Professor of Chemical and Biological Engineering. University Professor. B.S., 1962, Stanford; Ph.D., 1968, Washington.

HILL, JOHN C.
Professor of Physics and Astronomy. B.S., 1957, Davidson; Ph.D., 1966, Purdue.

HILL, JOHN HEMMINGSON
Professor of Plant Pathology and Microbiology. B.A., 1963, Carleton; M.S., 1966, Minnesota; Ph.D., 1971, California (Davis).

HILL, KEVIN D.

HILL, MATTHEW G.
HILL, THOMAS L.
Adjoint Assistant Professor of School of Education; Senior Vice President of Student Affairs. B.S., 1972, Arkansas State; M.S., 1976, Long Island; Ph.D., 1985, Florida.

HILLESLAND, GLENN G.
Emeritus Adjunct Professor of Electrical and Computer Engineering. B.S.E.E., 1947, Iowa State.

HILLIARD, JAMES P.

HILLIARD, KATHLEEN

HILLIER, ANDREW C.
Professor of Chemical and Biological Engineering. B.S., 1990, Nebraska; Ph.D., 1995, Minnesota.

HINDMAN, RICHARD G.

HINZ, PAUL NORMAN

HIRA, LABH S.
Professor of Accounting. B.S., 1969, M.S., 1971, Ludhiana; Ph.D., 1975, Missouri.

HIRA, TAHIRA K.

HO, KAI-MING
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Hong Kong; Ph.D., 1978, California (Berkeley).

HOBSON, KENNETH

HOCHSTETLER, ANDREW LEE

HOCKADAY, CATHERYN M.

HODGES, CLINTON
Emeritus Professor of Horticulture; Emeritus Professor of Agronomy; Emeritus Professor of Plant Pathology and Microbiology. B.S., 1962, M.S., 1964, Ph.D., 1967, Illinois.

HODGES, LAURENT

HODGSON, ERIN WHITNEE

HOEFLE, WILLIAM D.

HOERNER, THOMAS ALLEN
Emeritus Professor of Agricultural and Biosystems Engineering; Emeritus Professor of Agricultural Education and Studies; Emeritus Professor of School of Education. B.S., 1957, M.S., 1963, Ph.D., 1965, Iowa State.

HOFF, CURTIS

HOFF, STEVEN J.

HOFFMAN, DAVID K.
Emeritus Professor of Chemistry; University Professor. B.S., 1960, Illinois; Ph.D., 1964, Wisconsin.

HOFFMAN, ELIZABETH

HOFFMAN, LORRAINE J.

HOFFMAN, MARK PETER

HOFMANN, HEIKE

HOFMOCKEL, KIRSTEN

HOGBEN, LESLIE

HOGBERG, MAYNARD GORDON
Professor of Animal Science and Chair of the Department. B.S., 1966, M.S., 1972, Ph.D., 1976, Iowa State.

HOHMANN, HEIDI M.

HOIBERG, ERIC OTTO

HOLDEN, PALMER J.

HOLGER, DAVID KERMIT
Professor of Aerospace Engineering; Associate Provost for Academic Programs and Dean of the Graduate College. B.Aer.E., 1970, M.S., 1971, Ph.D., 1974, Minnesota.

HOLLAND, BRENT A.

HOLLAND, STEPHEN D.

HOLLANDER, DAVID B.

HOLLINGER, ROBERT

HOLLIS, JAMES
Assistant Professor of Food Science and Human Nutrition. B.Sc., 1999, Ph.D., 2003, Oxford Brookes (UK).

HOLME, THOMAS
Professor of Chemistry. B.S., 1983, Loras College; Ph.D., 1987, Rice.

HOLMGREN, MARGARET R.
Associate Professor of Philosophy and Religious Studies. B.A., 1974, Bryn Mawr; Ph.D., 1981, Texas.
HOLSCHER, KENNETH
Associate Professor of Entomology. B.S., 1972, Kearney; M.S., 1978, Ph.D., 1981, Oklahoma State.

HOLTER, JAMES A.

HOLT, KELVIN D.

HOLT, ROBERT A.

HORMAN, ROBERT

HOROWITZ, JACOB W.
Professor of Physics and Astronomy. A.B., 1949, M.S., 1950, Ph.D., 1953, Massachusetts Institute of Technology.

HOROWITZ, JACOB L.

HORNE, RALPH E.

HORNBY, PETER

HORNER, HARRY T. JR.

HOROWITZ, JAMIE L.

HOSTETLER, DOUG

HOSTETTER, JESSE M.

HOSTETTER, SHANNON JONES

HOTCHKISS, DONALD
Emeritus Professor of Statistics. B.S., 1950, Ph.D., 1960, Iowa State.

HOU, LISHEUNG STEVEN

HOUK, ROBERT S.
Professor of Chemistry. B.S., 1974, Slippery Rock; Ph.D., 1980, Iowa State.

HOUSE, JOHN B.

HOWARD, JOAN

HOWARD-MARTIN, MONICA

HOWELL, STEPHEN H.
Professor of Genetics, Development and Cell Biology. B.S., 1963, Grinnell College; Ph.D., 1967, Johns Hopkins.

HRABA, JOSEPH III

HSIEH, HSUNG-CHENG

HSU, DAVID KUEI-YU
Adjunct Professor of Aerospace Engineering. B.S., 1965, National Taiwan; Ph.D., 1971, Wayne State.

HSU, WALTER HAW
Professor of Biomedical Sciences. B.V.M., 1969, National Taiwan; Ph.D., 1975, North Carolina.
HUI, GUINING
Assistant Professor of Industrial and Manufacturing Systems Engineering. B.S., 2003, Science and Technology (China); Ph.D., 2008, Pittsburgh.

HUI, HUI
Associate Professor of Aerospace Engineering. B.S., 1990, M.S., 1993, Ph.D., 1996, Beijing (China); Ph.D., 2001, Tokyo (Japan).

HUI, QING
Professor of Supply Chain and Information Systems; Associate Dean of the College of Business. B.S., 1982, Gansu University of Technology (China); M.S., 1985, Chinese Academy of Machinery Science; M.S., 1991, Ph.D., 1994, Miami (Florida).

HUANG, MEI-HSUAN
Assistant Professor of Music and Theatre. B.Mus., National Taiwan Normal; D.M.A., Ohio State; M.Mus., Cleveland Institute of Music.

HUANG, SHU-MIN

HUANG, WENYU
Assistant Professor of Chemistry. B.S., 2000, M.S., 2002, Nanjing (China); Ph.D., 2007, Georgia Institute of Technology.

HUANG, XIAOQIU
Professor of Computer Science. B.S., 1982, Changshina Institute of Technology (China); M.S., 1989, Ph.D., 1990, Pennsylvania State.

HUBA, MARY ELEANOR

HUCK, JENNIFER LYNN
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 1999, Bates College.

HUFFMAN, SONYA K.
Adjunct Associate Professor of Economics. B.S., 1986, Moscow Cooperative Institute; Ph.D., 1999, Iowa State.

HUFFMAN, WALLACE E.
Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1966, Iowa State; M.A., 1971, Ph.D., 1972, Chicago.

HUGHES, JENE D.

HUGHES-BELDING, KERE

HUIATT, TED W.
Associate Professor of Animal Science; Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1972, Colorado; Ph.D., 1979, Iowa State.

HUNACEK, MARK

HUNGER, J. DAVID

HUNT, ANGELA MARIE

HUNTINGSTON, STUART H.
Emeritus Associate Professor of Community and Regional Planning. B.A., 1964, North Park; M.S., 1969, Missouri.

HURBURGH, CHARLES R.
Professor of Agricultural and Biosystems Engineering; Professor of Food Science and Human Nutrition. B.S., 1973, M.S., 1980, Ph.D., 1981, Iowa State.

HURBURGH, CHARLES R.

HURDY, JESSICA LYNN

HURT, TERA R.

HUSS, JAMES J.

HUTCISON, AMY CARTER
Assistant Professor of School of Education. B.A., 2002, Clemson; M.A., 2004, Columbia College; Ph.D., 2009, Clemson.

HUTCISON, WALLACE W.
Emeritus Professor of Kinesiology. B.S., 1959, M.S., 1966, Brigham Young; Ph.D., 1971, Utah.

HUTTON, WILBERT JR.
Emeritus Professor of Chemistry. B.S., 1950, Denver; Ph.D., 1959, Michigan State.

HYDE, WALTER G.

IASEVOLI, PAMELA SUE

IHEMELS, MICHELLE ANNE

ILES, JEFFERY KENNETH

IMERMAN, PAULA M.

IMSANDE, JOHN
Emeritus Professor of Agronomy; Emeritus Professor of Genetics, Development and Cell Biology. B.A., 1953, Montana; M.S., 1956, Montana State; Ph.D., 1960, Duke.

INGEBRITSEN, THOMAS S.
Emeritus Associate Professor of Genetics, Development and Cell Biology. B.S., 1968, Oregon State; Ph.D., 1979, Indiana.

INYANG, ANIEFIO D.
Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1976, Kansas; M.S., 1978, Ph.D., 1982, Oklahoma.

IRWIN, MICHAEL

ISAACSON, DEAN L.

ISEBRANDS, JUDSON G.
ISENHART, THOMAS M.

IVERSEN, JAMES D.
Emeritus Professor of Aerospace Engineering. B.S., 1956, M.S., 1958, Ph.D., 1964, Iowa State.

IVERSON, NEAL R.
Professor of Geological and Atmospheric Sciences and Chair of the Department. B.S., 1983, Iowa State; Ph.D., 1989, Minnesota.

JACKMAN, JOHN K.

JACKSON, CHRISTEN G.

JACKSON, LARRY L.

JACKSON, MICHAEL LEE

JACKSON, REBECCA
Assistant Professor of Economics. B.A., 1996, Coe College; Ph.D., 2010, North Carolina State.

JACOBSON, CARL ERNEST
Professor of Geological and Atmospheric Sciences. B.S., 1975, New York (Binghamton); Ph.D., 1980, California (Los Angeles).

JACOBSON, DOUG W.
Professor of Electrical and Computer Engineering; University Professor. B.S., 1980, Ph.D., 1985, Iowa State.

JACOBSON, JOHN BRUCE
Assistant Professor of Aerospace Engineering. B.S., 1971, M.S., 1979, Iowa State.

JACOBSON, NORMAN L.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1940, Wisconsin; M.S., 1941, Ph.D., 1947, Iowa State.

JACOBSON, ROBERT A.

JAHREN, CHARLES T.

JAMES, MARTHA GRAHAM

JANE, JAY-LIN
Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1973, National Chung-Hsing; Ph.D., 1984, Iowa State.

JANKE, BRUCE H.

JANNINK, JEAN-LUC

JANVRIN, JULIE ANN C.

JANZEN, FREDRIC J. II

JARBOE, LAURA
Assistant Professor of Chemical and Biological Engineering. B.S., 2000, Kentucky; Ph.D., 2006, California (Los Angeles).

JARVINEN, JULIE ANN C.

JAYNES, DAN

JEFFERY, NICHOLAS DAVID

JEFFREY, CYNTHIA G.
Associate Professor of Accounting. B.S., 1975, M.S., 1979, Iowa State; Ph.D., 1989, Minnesota.

JEFFRIES-EL, MALIKA

JEFTINJA, SRDIJA
Associate Professor of Biomedical Sciences; Associate Professor of Animal Science. D.V.M., 1973, M.S., 1976, Belgrade; Ph.D., 1982, Iowa State.

JELEN, BENJAMIN FELIX

JELLINGER, THOMAS C.

JENISON, ROLAND DUANE

JENKINS, MICHAEL ADRIAN

JENKS, TODD ALLEN

JENKS, WILLIAM S.
Professor of Chemistry and Chair of the Department. B.S., 1986, California (Los Angeles); Ph.D., 1991, Columbia.

JENNINGS, HEATHER

JENSEN, ALAN D.

JENSEN, HELEN HANNAY
Professor of Economics. B.A., 1968, Carleton; M.S., 1974, Minnesota; Ph.D., 1980, Wisconsin.
JEONG, HYUNG SEOK

JERGENS, ALBERT EARL

JERNIGAN, ROBERT L.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1963, California Institute of Technology; Ph.D., 1967, Stanford.

JESKA, EDWARD L.

JESKE, KAREN Q.

JEYAPALAN, KANDIAH

JIA, YAN-BIN
Associate Professor of Computer Science. B.S., 1988, Science and Technology (China); M.S., 1993, Ph.D., 1997, Carnegie Mellon.

JIANG, ZHENGRUI
Instructor in Veterinary Diagnostic and Production Animal Medicine (Collaborator).

JIAOCONG, MILES YAO
Instructor in Veterinary Diagnostic and Production Animal Medicine (Collaborator).

JIA, JING
Associate Professor of Supply Chain and Information Systems; Associate Dean of the College of Business. B.S., 1989, Moorhead State; M.B.A., 1991, Ph.D., 1998, Wisconsin (Madison).

JOHNSON, CHRISTOPHER C.
Emeritus Professor of Chemistry. Distinguished Professor in Liberal Arts and Sciences. B.A., 1963, Bethel; Ph.D., 1967, Minnesota.

JOHNSON, DUANE DOUGLAS
Professor of Materials Science and Engineering. Professor of Chemical and Biological Engineering. B.Sc., 1980, Ph.D., 1985, Cincinnati.

JOHNSON, HOWARD P.
Emeritus Professor of Agricultural and Biosystems Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1949, M.S., 1950, Iowa State; M.S., 1954, Iowa; Ph.D., 1959, Iowa State.

JOHNSON, JANET S.
Senior Clinician in Food Science and Human Nutrition. B.S., 1976, Iowa State; M.S., 1985, Delaware.

JOHNSON, JOHN K.

JOHNSON, LAWRENCE A.
Professor of Food Science and Human Nutrition. Professor of Agricultural and Biosystems Engineering. B.Sc., 1969, Ohio State; M.Sc., 1971, North Carolina State; Ph.D., 1978, Kansas State.

JOHNSON, MARGARET S.
Emeritus Assistant Professor of World Languages and Cultures. B.A., 1956, Oregon; M.A., 1974, Drake.

JOHNSON, STANLEY R.
Emeritus Professor of Economics. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1961, Western Illinois; M.S., 1962, Texas Tech; Ph.D., 1966, Texas A&M.

JOHNSON, WILLIE ROY

JOHNSON, DAVID C.
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1969, California (Santa Barbara); Ph.D., 1975, California (San Diego).

JOHNSON, DOUGLAS MARSHALL
Professor of Landscape Architecture and Interim Chair of the Department; Professor of Community and Regional Planning and Interim Chair of the Department. B.S., 1979, B.L.A., 1980, Suny; M.L.A., 1982, Harvard; Ph.D., 1986, Washington.

JOHNSON, ELGIN H.

JOHNSON, GAIL B.
Senior Lecturer in Mathematics. B.S., 1972, Santa Clara; M.S., 1975, Illinois.

JOLLS, KENNETH ROBERT

JOLLY, ROBERT WILLIAM

JONES, BERT LYNN
Emeritus Associate Professor of Agricultural Education and Studies. B.A., 1970, Missouri Southern; M.A., 1974, Central Missouri; Ph.D., 1985, Wisconsin.

JONES, BRENDA JOYCE

JONES, CHARLES W.
Emeritus Professor of School of Education. B.S., 1950, M.S., 1957, Ph.D., 1972, Iowa State.

JONES, CHRISTOPHER
Assistant Professor of Geological and Atmospheric Sciences (Collaborator). B.A., 1983, Simpson College; Ph.D., 1989, Montana State.
JONES, DOUGLAS E.

JONES, EDWIN C. JR.
Emeritus Professor of Electrical and Computer Engineering; University Professor. B.S.E.E., 1955, West Virginia; D.I.C., 1956, Imperial College; Ph.D., 1962, Illinois.

JONES, LADON CARLOS
Senior Lecturer in Civil, Construction and Environmental Engineering. B.S., 1981, California State (Humboldt); M.S., 1984, Ph.D., 1986, California (Los Angeles).

JONES, PHILLIP HARRELL

JONES, TYANEZ CAROL

JONES-JOHNSON, GLORIA

JUDGE, JAMES FRANCIS

JULIUS, MARVIN G.
Emeritus Professor of Economics. B.S., 1948, Ph.D., 1968, Iowa State.

JUNG, STEPHANIE
Associate Professor of Food Science and Human Nutrition. B.S., 1995, Metz (France); M.S., 1996, National Polytechnique De Lorraine; Ph.D., 2000, Nantes (France).

JUNGST, STEVEN E.

JUNKHAN, GEORGE H.

JURENKA, RUSSELL A.

JURGENS, MARSHALL H.

JURIK, THOMAS WAYNE

J

KADOLPH, SARA JEAN
Emeritus Professor of Apparel, Events and Hospitality Management. B.S., 1972, Iowa State; M.S., 1973, Kansas State; Ph.D., 1979, Minnesota.

KAEBERLE, MERLIN L.

KAISER, MARK STEVEN

KALEITA-FORBES,AMY LEIGH

KAMAL, AHMED EL-SAYED

KAMINSKI, ADAM

KAMRUD, KURT

KANE, KEVIN L.

KANG, SUNGHYUN RYOO

KANNEL, EDWARD J.

KANTHASAMY, ANUMANTHA G.
Professor of Biomedical Sciences and Chair of the Department; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. B.S., 1981, M.S., 1984, M.Phil., 1985, Ph.D., 1989, Madras (India).

KANTHASAMY, ARTHI
Associate Professor of Biomedical Sciences. B.S., 1990, Psg; Ph.D., 2001, Purdue.

KANWAR, RAMESHWAR S.
Professor of Agricultural and Biosystems Engineering; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1969, Pau Ludhiana; M.S., 1975, Pantnagar; Ph.D., 1981, Iowa State.

KAO, DAVID T.

KAPLAN, MURRAY LEE
Emeritus Professor of Food Science and Human Nutrition. B.A., 1962, Alfred; Ph.D., 1972, City University of New York.

KAPPMeyer, Lori Osmus

KARAS, GEORGE G.
Emeritus Professor of Psychology; Associate . B.A., 1956, Depauw; M.S., 1958, Ph.D., 1959, Purdue.

KARLEN, DOUGLAS LAWRENCE

KARPOVA, ELENA E.
Associate Professor of Apparel, Events and Hospitality Management. M.S., 1991, Omak State Technological Institute; Ph.D., 2005, North Carolina (Greensboro).

KARRIKER, LOCKE A.

KATZ, APRIL
Associate Professor of Integrated Studio Arts. B.S., 1977, New York (Buffalo); M.F.A., 1988, Arizona State.

KAUFFMAN, LINDA K.
Associate Professor of Integrated Studio Arts. B.S., 1977, New York (Buffalo); M.F.A., 1988, Arizona State.

KASPAR, THOMAS C.

KASPAR, CATHERINE N.
Emeritus Professor of Psychology; Associate . B.A., 1956, Depauw; M.S., 1958, Ph.D., 1959, Purdue.

KARLEN, DOUGLAS LAWRENCE

KARPVOYA, ELENA E.
Associate Professor of Apparel, Events and Hospitality Management. M.S., 1991, Omak State Technological Institute; Ph.D., 2005, North Carolina (Greensboro).

KARRIKER, LOCKE A.

KASPAR, CATHERINE N.

KASPAR, THOMAS C.

KATZ, APRIL
Associate Professor of Integrated Studio Arts. B.S., 1977, New York (Buffalo); M.F.A., 1988, Arizona State.

KAUFFMAN, LINDA K.
KAUFMANN, PAUL J.
Emeritus Assistant Professor of English. B.S., 1964, Nebraska (Omaha); M.A., 1967, Cincinnati; Ph.D., 1975, Iowa State.

KAUTZ, STEVEN MICHAEL

KAVANAGH, PATRICK

KAWALER, STEVEN D.

KEATING, AILEEN
Assistant Professor of Animal Science. B.Sc., 1998, National University of Ireland; M.Sc., 1999, Ulster (Ireland); Ph.D., 2003, National University of Ireland.

KEENEY, DENNIS R.
Emeritus Professor of Agronomy; Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1959, Iowa State; M.S., 1961, Wisconsin; Ph.D., 1965, Iowa State.

KEHRBERG, RICHARD F.

KEINERT, FRITZ

KELKAR, ATUL G.
Professor of Mechanical Engineering; Professor of Aerospace Engineering. B.E., 1984, Poona (India); M.S., 1990, Ph.D., 1993. Old Dominion.

KELLER, CLAIR

KELLER, J. TIMOTHY

KELLY, CHRISTOPHER K.

KELLY, CLINT DALE
Assistant Professor of Ecology, Evolution and Organismal Biology. B.Sc., 1995, Waterloo (Canada); M.Sc., 1999, Mount Allison; Ph.D., 2005, Toronto (Canada).

KELLY, JONATHAN
Assistant Professor of Psychology. B.A., 1998, California (Los Angeles); Ph.D., 2006, California (Santa Barbara).

KELLY, KRISTI A. COSTABILE

KELLY, WILLIAM HAROLD

KENDALL, RICK A.
Lecturer in Computer Science. B.S., 1983, Indiana State; Ph.D., 1988, Utah.

KENEALY, MICHAEL D.

KENNEDY, WILLIAM J. JR.
Emeritus Professor of Statistics. B.S., 1959, M.S., 1960, Oklahoma State; Ph.D., 1969, Iowa State.

KEREN, NIR
Associate Professor of Agricultural and Biosystems Engineering. B.Sc., 1990, M.Sc., 1998, Ben Gurion (Israel); Ph.D., 2003, Texas A&M.

KERR, BRIAN J.

KERSH, KEVIN DEWAYNE
Assistant Professor of Veterinary Clinical Sciences. B.S., 1997, Northeastern State; D.V.M., 2001, Oklahoma State.

KERTON, CHARLES R.
Associate Professor of Physics and Astronomy. B.Sc., 1992, Dalhousie (Canada); M.Sc., 1993, Toronto (Canada); M.S., 1996, Hawaii; Ph.D., 2000, Toronto (Canada).

KESSLER, MICHAEL RICHARD

KIANAL, SAMIR KUMAR

KIENZLER, DONNA STINE

KIEVES, NINA

KIH, YOUNG WHAN

KILLORN, RANDY JAY

KILMER, LEE HARRY

KIM, GAP-YONG
Assistant Professor of Mechanical Engineering. B.S., 1997, Yonsei (South Korea); M.S.E., 2003, Ph.D., 2005, Michigan.

KIM, JAE-KWANG

KIM, JAEYOUN
Associate Professor of Electrical and Computer Engineering. B.S., 1992, Kwangwoon (Korea); M.S., 1994, Arizona; Ph.D., 2003, Michigan.

KIM, SANG W.
Associate Professor of Electrical and Computer Engineering. B.S., 1981, Yonsei (Seoul); M.S., 1983, Korea Advanced Institute of Science; Ph.D., 1987, Michigan.

KIM, STEPHEN

KIM, TAE HYUN
Assistant Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1994, Han Yang- Seoul, Korea; Ph.D., 2004, Auburn.

KIMBER, MICHAEL JOHN
Associate Professor of Biomedical Sciences. B.Sc., 1998, Ph.D., 2001, Queens (Belfast).

KIME, KEVIN LEE

KING, ALEXANDER
Professor of Materials Science and Engineering; Director of the Ames Laboratory. B.MET, 1975, Sheffield (England); Ph.D., 1979, Oxford.
KING, CHRISTINE E.  
Associate Professor, Library; Associate Dean of Library Services. B.A., 1976, Sheffield (UK); M.S.L.S., 1983, Long Island.

KING, DOUGLAS S.  
Professor of Kinesiology; Professor of Biomedical Sciences. B.A., 1980, California (Berkeley); M.A., 1981, Wake Forest; Ph.D., 1984, Ball State.

KING, ROBERT RANDY  
Senior Clinician in Veterinary Clinical Sciences; B.S., 1974, Nevada (Reno); Ph.D., 1980, D.V.M., 1980, Washington State.

KINGSTON, JESUDOSS  
Lecturer in Chemistry. B.S., 1988, M.S., 1993, American College (India); Ph.D., 2000, Indian Institute of Technology.

KINKEAD, KAREN E.  

KINDE, KAREN H.  

KIRSCHENMANN, FREDERICK L.  

KISER, ALLISON MARIE  

KISER, JAMES JOY  
Emeritus Professor of Animal Science. B.S., 1942, Iowa State; M.S., 1951, South Dakota State.

KITZMAN, MARION JOHN  

KLAAS, ERWIN E.  

KLAIBER, FRED WAYNE  

KLAEVER, ROBERT W.  

KLIBENSTEIN, JAMES  

KLIEMANN, WOLFGANG H.  
Professor of Mathematics and Chair of the Department. Dr.rer.nat, 1980, Bremen.

KLING, CATHERINE L.  
Professor of Economics; Interim Director of Center for Agriculture and Rural Development. B.A.A., 1981, Iowa; Ph.D., 1986, Maryland.

KLONGLAN, GERALD E.  

KLUGE, JOHN PAUL  

KNAPP, ALLEN DALE  
KOZIEL, JACEK ADAM
Associate Professor of Agricultural and Biosystems Engineering; Associate Professor of Civil, Construction and Environmental Engineering. M.S., 1989, Warsaw Technological (Poland); M.S., 1993, Alaska; Ph.D., 1998, Texas.

KRAFSUR, ELLIOT S.
Emeritus Professor of Entomology. B.S., 1962, M.S., 1964, Maryland; Ph.D., 1972, London.

KRAMER, JOHN A. D.

KRAMER, MATTHEW J.
Adjunct Associate Professor of Materials Science and Engineering. B.S., 1979, M.S., 1983, Rochester; Ph.D., 1988, Iowa State.

KRAMER, RICHARD L.

KRAUS, BONNIE HAY
Assistant Professor of Veterinary Clinical Sciences. B.S., 1985, Rutgers; D.V.M., 1989, Missouri.

KRAUS, GEORGE A.
Professor of Chemistry; University Professor. B.S., 1972, Rochester; Ph.D., 1976, Columbia.

KRAUS, KARL

KREBS, ALEXANDER INGAR
Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2004, Colorado State.

KREBS, STEPHEN
Associate Professor of Horticulture (Collaborator). B.A., 1974, Chicago; M.S., 1985, California (Davis); Ph.D., 1989, Michigan State.

KREIDER, BRENT E.

KRENNRICH, FRANK

KRESS, CATHANN A.
Professor of School of Education; Vice President for Extension and Outreach. B.S., 1984, Iowa State; M.A., 1986, Ph.D., 1990, Iowa.

KREUDER-KRULL, AMANDA JO

KREYSSIG, ANDREAS
Adjunct Assistant Professor of Physics and Astronomy. Ph.D., 2001, Technische Universität Dresden Germany.

KRIER, DANIEL A.
Associate Professor of Sociology. B.S.B.A., 1987, South Dakota; M.A., 1992, Nebraska; Ph.D., 2001, Kansas.

KRIZAN, ZLATAN
Assistant Professor of Psychology. B.A., 2001, Winona State; Ph.D., 2007, Iowa.

KROGH, JACQUELINE S.

KRUEMPFL, KENNETH C.

KRUKNAS, SARAH K.

KREIDER, JOHN A. D.

KREIDER, RICHARD L.
Assistant Professor of Psychology. B.A., 2001, Winona State; Ph.D., 2007, Iowa.

KROLL, ANDREW

KROHMER, KURT
Emeritus Professor of Chemistry. B.S., 1957, Iowa State; M.S., 1958, Nebraska (Omaha); Ph.D., 1961, Iowa State.

KROHMER, RICHARD

KRITZ, BRIAN
Emeritus Professor of Materials Science and Engineering. B.S., 1974, Philadelphia; M.S., 1976, California Institute of Technology.

KRUH, KURT R.

KRUHN, WARREN BOEHM

KUDELM, CAROLYN J.
Emeritus Associate Professor of Apparel, Events and Hospitality Management. B.S., 1956, Iowa State; M.S., 1961, Nebraska (Omaha); Ph.D., 1969, Iowa State.

KUNERTH, WILLIAM F.

KUNES, JERRY P.

KUNZ, GRACE IRENE

KUO, MONLIN
Associate Professor of Natural Resource Ecology and Management. B.S., 1965, Taiwan; M.S., 1971, Missouri; Ph.D., 1977, California (Berkeley).

KUPFER, JOSEPH H.

KURTENBACH, JAMES M.
Associate Professor of Accounting. B.S., 1980, Iowa State; M.S., 1987, Tulsa; Ph.D., 1992, Missouri.

KUSHKOWSKI, JEFFREY D.

KUSHNER, MARK J.
Professor of Electrical and Computer Engineering (Collaborator). B.A., 1976, B.S., 1976, California (Los Angeles); M.S., 1977, Ph.D., 1979, California Institute of Technology.

KUSOW, ABDI

L

L'HEUREUX, DEBORAH
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 1985, Massachusetts; D.V.M., 2003, Louisiana State.

LAANAN, FRANKIE SANTOS

LACASA, JUDITH N.
Emeritus Professor of World Languages and Cultures. B.S., 1958, Ph.D., 1968, Louisiana State.
LACZNIAK, RUSSELL N.
Professor of Marketing and Chair of the Department. B.S., 1978, Marquette; M.B.A., 1979, Wisconsin; Ph.D., 1987, Nebraska.

LADD, GEORGE WELLS

LADJAHASAN, NORA M.
Lecturer in Community and Regional Planning. B.S., 1979, University of the Philippines; M.Sc., 1982, Asian Institute of Technology, Bangkok; M.Sc., 1988, Iowa State.

LAFFAMME, SIMON

LAFLEN, JOHN M.
Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1959, M.S., 1960, Missouri; Ph.D., 1972, Iowa State.

LAGE, KRISTIN J.

LAGRANGE, WILLIAM S.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1953, Ph.D., 1959, Iowa State.

LAIRD, DAVID ALAN
Professor of Agronomy. B.S., 1976, Kansas; M.S., 1982, Oregon State; Ph.D., 1987, Iowa State.

LAJOIE, JOHN G.

LAMB, RICHARD C.
Emeritus Professor of Physics and Astronomy. B.S., 1955, Massachusetts Institute of Technology; M.S., 1960, Ph.D., 1963, Kentucky.

LAMBOY-RUIZ, MELVIN A.
Assistant Professor of Accounting. B.B.A., 1996, Puerto-Rico (Mayaguez); M.H.S.A., 2001, Puerto-Rico (San Juan); Ph.D., 2011, Purdue.

LAMKEY, KENDALL RAYE

LAMM, MONICA HITCHCOCK
Associate Professor of Chemical and Biological Engineering. B.S., 1993, Syracuse; Ph.D., 2000, North Carolina State.

LAMONT, JOHN WILLIAM
Emeritus Professor of Electrical and Computer Engineering. B.S., 1964, Missouri (Rolla); M.S., 1966, Ph.D., 1970, Missouri.

LAMONT, SUSAN J.
Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1975, Trinity (Illinois); Ph.D., 1980, Illinois.

LAMOTTE, CLIFFORD E.
Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1953, Texas A&M; Ph.D., 1960, Wisconsin.

LAMSAL, BUDDHI P.
Assistant Professor of Food Science and Human Nutrition. Assistant Professor of Agricultural and Biosystems Engineering. B.E., 1992, Taminadu (India); M.E., 1994, Asian Institute of Technology (Thailand); Ph.D., 2004, Wisconsin.

LANE, KENNETH F.

LANGENBERG, CHRISTIANA
Lecturer in English. B.S., 1980, Nebraska; M.A., 1986, Minnesota.

LANNINGHAM-FOSTER, L.
Assistant Professor of Food Science and Human Nutrition; Assistant Professor of Kinesiology. B.S., 1994, M.S., 1995, North Carolina (Greensboro); Ph.D., 1999, Florida.

LAPAN, HARVEY E.

LAROCK, RICHARD C.
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1967, California (Davis); Ph.D., 1972, Purdue.

LARSON, KENNETH L.

LARSON, LISA M.

LARSON, SIDNER
Associate Professor of English. B.S., 1972, Northern Montana; M.A., 1982, South Dakota State; J.D., 1985, Minnesota Law; Ph.D., 1994, Arizona.

LASLEY, ROBERT P.
Professor of Sociology and Chair of the Department; Professor of Anthropology and Chair of the Department. B.S., 1974, M.A., 1976, Ph.D., 1981, Missouri.

LASSILA, KENNETH E.
Emeritus Professor of Physics and Astronomy. B.S., 1956, Wyoming; M.S., 1959, Ph.D., 1962, Yale.

LAUGERMAN, MARCIA R.

LAURY, ANGELA
Assistant Professor of Food Science and Human Nutrition. B.S., 2003, M.S., 2006, Iowa State; Ph.D., 2010, Texas Tech.

LAUTER, NICK
Assistant Professor of Plant Pathology and Microbiology (Collaborator). B.A., 1995, Grinnell College; Ph.D., 2001, Minnesota.

LAVROV, DENNIS V.

LAWRE, MARGARET R.

LAWRENCE, CAROLYN

LAWRENCE, JOHN D.
Professor of Economics; Associate Dean of the College of Agriculture and Life Sciences. B.S., 1984, M.S., 1986, Iowa State; Ph.D., 1989, Missouri.

LAWRENCE, ROGER LEE
Emeritus Professor of School of Education; Emeritus Professor of Agricultural Education and Studies. B.S., 1943, Ohio State; M.A., 1949, George Washington; Ph.D., 1958, Iowa State.

LAWSON, KAREN GRUBER
Associate Professor, Library; Associate Dean of Library Services. B.A., 1974, M.L.S., 1976, New York (Buffalo).
LAYTON, WILBUR L.
Emeritus Professor of Psychology. B.S., 1943, Iowa State; M.A., 1947, Ph.D., 1950, Ohio State.

LACIC, TATJANA
Assistant Professor of Veterinary Clinical Sciences (Collaborator). D.V.M., 2000, Belgrade (Serbia); M.S., 2002, Ph.D., 2009, Iowa State.

LEANDRO, LEONOR F. S.
Associate Professor of Plant Pathology and Microbiology. B.S., 1996, Universidade Tecnica De Lisboa; M.S., 1997, Nottingham (UK); Ph.D., 2002, Iowa State.

LEATH, STEVEN
Professor of Plant Pathology and Microbiology; President of the University. B.S., 1979, Pennsylvania State; M.S., 1981, Delaware; Ph.D., 1984, Illinois.

LEDET, ARLO ELMER

LEE, DAH-YINN
Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1958, Chen Kung; Ph.D., 1964, Iowa State.

LEE, DUCK-CHUL
Assistant Professor of Kinesiology. B.A., 2000, Hanyang (Seoul); M.S., 2004, Ph.D., 2007, Seoul National.

LEE, MICHAEL
Professor of Agronomy; Professor of Genetics, Development and Cell Biology. B.S., 1981, Rutgers; M.S., 1984, Ph.D., 1986, Minnesota.

LEE, MICHELE
Lecturer in Apparel, Events and Hospitality Management. B.S., 1992, South Dakota State; M.S., 1995, Purdue.

LEE, SOJUNG
Assistant Professor of Apparel, Events and Hospitality Management. B.A., 1999, B.S., 1999, Yonsei (South Korea); M.S., 2005, Ph.D., 2012, Nevada (Las Vegas).

LEE, SUMAN

LEE, YONG S.

LEE, YOUNG-A
Assistant Professor of Apparel, Events and Hospitality Management. B.S., 1997, Yeungname (South Korea); M.A., 2001, Ph.D., 2005, Michigan State.

LEE, YOUNG-JIN

LEHNER, EDWARD JOSEPH

LEIGH, PATRICIA
Associate Professor of School of Education. B.A., 1968, Ohio State; M.Ed., 1978, Arkansas; M.S., 1988, Oklahoma; Ph.D., 1997, Iowa State.

LEMPERS, JACOBUS D. L.
Emeritus Professor of Human Development and Family Studies. B.S., 1971, Nymegen; Ph.D., 1976, Minnesota.

LENCE, SERGIO H.

LENSSEN, ANDREW W.

LEONARD, KATHY S.
Professor of World Languages and Cultures. B.A., 1975, California (Riverside); M.A., 1979, Santa Clara; B.A., 1983, Nevada; Ph.D., 1991, California (Davis).

LERCH, ROBERT N.

LERSTEN, NELS R.

LESAR, RICHARD ALAN

LESLIE, THOMAS W.

LEUSCHEN, BRUCE

LEVINE, HOWARD A.

LEVIS, Greta M.

LEVIS, JOHN M.

LEVITAS, VALERY
Professor of Mechanical Engineering; Professor of Aerospace Engineering; Professor of Materials Science and Engineering. M.S., 1978, Kiev Polytechnic Institute (Russia); Ph.D., 1981, Institute for Superhard Materials (Russia); Sc.D., 1988, Institute for Electronic Machinebuilding (Russia); Eng.D., 1995, Hannover (Germany).

LEWIN, HEATHER S.

LEWIS, CALVIN F.
Professor of Architecture. B.Arch., 1969, Iowa State.

LEWIS, DONALD R.

LEWIS, EDWIN C.

LEWIS, LESLIE C.

LEWIS, ROBERT EARL

LEYSEN, JOAN MARIE

LI, GANwu
Research Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.V.Sc., 1994, M.V.Sc., 1999, Nanjing Agricultural (China); Ph.D., 2005, Free (Berlin).

LI, TONGLU
Assistant Professor of World Languages and Cultures. B.A., 1992, Hebei Normal (China); M.A., 1995, Beijing Normal (China); M.A., 2005, Ph.D., 2009, Illinois.
LI, YEHUA
Associate Professor of Statistics. B.S., 2000, Tsinghua (China); M.S., 2003, Ph.D., 2006, Texas A&M.

LICKLIDER, BARBARA L.
Professor of School of Education; University Professor. B.S., 1974, M.S., 1981, Ph.D., 1986, Iowa State.

LIEBERMAN, GARY M.

LIEBICH, MARY E. FRY

LIEBMAN, MATTHEW Z.

LILLIGREN, INGRID M.

LING, ZHEJIA

LINK, CHARLES J. JR.

LOIACONO, CHRISTINA MARIE
Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1990, Virginia Tech; D.V.M., 1994, Virginia-Maryland Regional College; Ph.D., 2002, Texas A&M.

LOMERGAN, ELISABETH J.

LONERGAN, STEVEN M.

LONG, LING
Associate Professor of Mathematics. B.S., 1997, Taiwan; Ph.D., 2002, Pennsylvania State.

LOONEY, MARK

LORD, WILLIAM
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.Sc., 1961, Ph.D., 1964, Nottingham.

LORENZ, FREDERICK O.
Professor of Statistics; Professor of Psychology; Professor of Sociology; University Professor. B.S., 1970, Mankato; M.S., 1972, South Dakota State; Ph.D., 1980, Iowa State.

LORIMOR, JEFFERY C.
Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S., 1967, Iowa State; M.S., 1970, Nebraska; Ph.D., 1996, Iowa State.

LOVE, ROBERT DALE
Emeritus Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1948, M.S., 1965, Iowa State.

LOVELAND, STEPHANIE D.

LOVING, CRYSTAL L.
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 2001, Ph.D., 2006, Iowa State.

LOWERY, JENNIFER
Senior Lecturer in English. B.S., 1974, Tennessee (Martin); M.A., 1981, South Carolina.

LOWITT, RICHARD
Emeritus Professor of History. B.S., 1943, City University of New York; M.A., 1945, Ph.D., 1950, Columbia.

LOY, DANIEL DWIGHT

LOY, JOHN DUSTIN
LOYNACHAN, TOM E.

LU, PING

LUBAN, MARSHALL

LUBBERSTEDT, THOMAS
Professor of Agronomy. Ph.D., 1993, Munich (Germany).

LUCHT, TRACY L.

LUCKETT, DUDLEY G.
Emeritus Professor of Economics; Distinguished Professor in Liberal Arts and Sciences. A.B., 1952, M.A., 1954, Missouri; Ph.D., 1958, Texas.

LUECKE, GLENN R.
Professor of Mathematics; Professor of Electrical and Computer Engineering. B.S., 1966, Michigan State; Ph.D., 1970, California Institute of Technology.

LUECKE, GREG R.
Associate Professor of Mechanical Engineering. B.S., 1979, Missouri; M.S., 1987, Yale; Ph.D., 1992, Pennsylvania State.

LUETH, PATIENCE LAMUNU

LUO, SONGTING
Assistant Professor of Mathematics. B.S., 2004, Science and Technology of China; M.S., 2006, Ph.D., 2009, California (Irvine).

LUTZ, JACK HAROLD
Professor of Computer Science; Professor of Mathematics. B.G.S., 1976, M.A., 1979, Missouri; M.S., 1981, Kansas; Ph.D., 1987, California Institute of Technology.

LUTZ, ROBYN R.

LUVAGA, EBBY S.

LUZE, GAYLE JOANNE

LYNCH, DAVID
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1954, Rensselaer; M.S., 1955, Ph.D., 1958, Illinois.

M
MAAS, SCOTT

MABRY, JOHN W.
Professor of Animal Science. B.S., 1972, Oklahoma State; M.S., 1974, Ph.D., 1977, Iowa State.

MACDONALD, ERIN FAITH
Assistant Professor of Mechanical Engineering; Assistant Professor of Art and Design. B.S., 1998, Brown; Ph.D., 2008, M.S., 2008, Michigan.

MACDONALD, JOHN T.
Adjunct Assistant Professor of Horticulture. Lecturer in Food Science and Human Nutrition. B.S., 1980, M.B.A., 1985, Minnesota; Ph.D., 1995, Missouri.

MACDONALD, RUTH SEAMAN
Professor of Food Science and Human Nutrition and Chair of the Department. B.S., 1979, Western Maryland College; M.S., 1981, Ph.D., 1985, Minnesota.

MACINTOSH, GUSTAVO
Associate Professor of Biochemistry, Biophysics and Molecular Biology. Ph.D., 1997, Buenos Aires (Argentina).

MADDEN, BEVERLY S.
Emeritus Associate Professor of Food Science and Human Nutrition. B.S., 1960, M.S., 1970, Iowa State.

MADDOX, ROGER D.
Emeritus Professor of Mathematics; Emeritus Professor of Computer Science. B.A., 1969, Pomona; Ph.D., 1978, California (Berkeley).

MADISON, KENNETH G.

MADISON, OLIVIA MARIE
Professor, Library; Dean of Library Services. B.S., 1972, Iowa State; M.A., 1975, Missouri.

MADON, STEPHANIE

MADRON, MATTHEW S.

MADSON, DARIN MICHAEL

MAHANNA, BILL
Associate Professor of Animal Science (Collaborator). B.S., Cornell; Ph.D., M.S., Wisconsin.

MAHAYNI, RIAD G.

MAHONEY, MARGARET A.

MAIN, RODGER GARY

MAITRA, RANJAN

MAKIELSKE, KELLY MARIE

MALDONADO-PABON, MARTA M.

MALLAPRAGADA, SURYA
Professor of Chemical and Biological Engineering and Chair of the Department; Professor of Materials Science and Engineering. B.S., 1993, Indian Institute of Technology; Ph.D., 1996, Purdue.

MALLARINO, ANTONIO P.

MALONE, ROB W.
Assistant Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1986, West Virginia Wesleyan; M.S., 1992, Ph.D., 1996, Kentucky.
MALONE, WILLIAM A.
Emeritus Associate Professor of Community and Regional Planning. B.S., 1947, M.S., 1950, Iowa State.

MALVEN, FREDERIC C.

MANATT, RICHARD P.
Emeritus Professor of School of Education; University Professor. B.S., 1953, M.S., 1956, Iowa State; Ph.D., 1964, Iowa.

MANEY, ARDITH LOUISE
Emeritus Professor of Political Science; Emeritus Professor of Agricultural and Biosystems Engineering. B.A., 1966, Colby; Ph.D., 1975, Columbia.

MANGOLD, DUANE W.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1958, M.S., 1960, Ph.D., 1965, Iowa State.

MANSBACH, RICHARD W.
Emeritus Professor of School of Education; University Professor. B.S., 1953, M.S., 1956, Iowa State; Ph.D., 1964, Iowa.

MANATT, RICHARD P.
Emeritus Professor of School of Education; University Professor. B.S., 1953, M.S., 1956, Iowa State; Ph.D., 1964, Iowa.

MANEY, ARDITH LOUISE
Emeritus Professor of Political Science; Emeritus Professor of Agricultural and Biosystems Engineering. B.A., 1966, Colby; Ph.D., 1975, Columbia.

MARGRETT, JENNIFER

MARENGO, MASSIMO
Assistant Professor of Physics and Astronomy. M.Sc., 1993, Universita Di Torino (Italy); Ph.D., 2000, International School for Advanced Studies.

MARTIN, RICHARD J.
Professor of Biomedical Sciences. B.V.Sc., 1972, Ph.D., 1977, Liverpool (UK); D.Sc., 1997, Edinburgh (UK).

MARTIN, ROBERT ALLEN
Professor of Agricultural Education and Studies; Professor of School of Education. B.S., 1968, M.S., 1974, Purdue; Ph.D., 1981, Pennsylvania State.

MARTIN, ROSE

MARTIN, RYAN
Associate Professor of Mathematics. B.Sc., 1995, Delaware; Ph.D., 2000, Rutgers.

MARTIN, STEVE WARTHEN
Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. University Professor. B.A., 1980, Capital; Ph.D., 1986, Purdue.

MARTINIC-JERCIC, BORIVOJ

MASINDE, DOROTHY M.
MASON, TERRY WAYNE
Adjunct Assistant Professor of Psychology. B.A., 1977, Cornell (Iowa); Ph.D., 1982, Texas Tech.

MATAVA, TOBIE ANN
Assistant Professor, Library. B.A., 1992, M.A., 1995, Missouri (Kansas City); M.L.S., 2006, Maryland.

MATHEWS, ELEANOR R.
Emeritus Associate Professor, Library. B.A., 1958, Wheaton (Massachusetts); M.A., 1975, Iowa.

MATHEWS, JEROLD C.

MATHUR, RENUKA
Adjunct Assistant Professor of Agronomy. B.S., 1986, M.S., 1990, Andhra Pradesh (Hyderabad); Ph.D., 1995, Texas A&M.

MATIBAG, EUGENIO D.

MATOS, BETHZAYDA

MATTHIES, BARBARA F.

MATTILA, JOHN PETER

MATZAVINOS, ANASTASIOS
Assistant Professor of Mathematics. B.Sc., 1998, Crete (Greece); M.Sc., 2001, Athens (Greece); Ph.D., 2006, Dundee (Scotland).

MAUDE, SUSAN P.

MAVERS, JOHN H.
Emeritus Assistant Professor of Architecture. B.Arch., 1968, Notre Dame; M.Arch., 1972, Minnesota.

MAXWELL, GREGORY M.

MAY, ELIZABETH RUSTEMEYER

MAYFIELD, JOHN ERIC

MAYORDOMO, ELVIRA
Associate Professor of Computer Science (Collaborator). B.S., 1990, Zaragoza (Spain); Ph.D., 1994, Politecnica (Spain).

MAZUR, ROBERT EDWARD
Professor of Sociology; B.S., 1976, Iowa; M.A., 1979, Ph.D., 1982, Brown.

McCALLEY, JAMES D.

McCALLUM, RALPH W.

McCANDLESS, CHARLES E.

McCARLEY, ROBERT E.
Emeritus Professor of Chemistry. B.S., 1953, Ph.D., 1956, Texas.

McCARTHY, WILLIAM P.

McCLELLAND, JOHN
Adjunct Associate Professor of Mechanical Engineering. B.S., 1965, Dickinson (North Dakota); Ph.D., 1976, Iowa State.

McCLOSKEY, MICHAEL A.
Associate Professor of Genetics, Development and Cell Biology. B.S., 1974, California (Riverside); Ph.D., 1979, California (Davis).

McCLURE, SCOTT R.
Associate Professor of Veterinary Clinical Sciences. B.S., 1986, D.V.M., 1990, Iowa State; Ph.D., 1996, Texas A&M.

McCOMBER, DIANE R.
Emeritus Associate Professor of Food Science and Human Nutrition. B.S., 1960, M.S., 1965, Iowa State.

McCONNELL, KENNETH G.

McCORMICK, JAMES M.

McCORMICK, THERESA M.

McCoy, Patrick T.
Professor of Civil, Construction and Environmental Engineering (Collaborator). B.S., 1963, M.S., 1964, Iowa State; Ph.D., 1971, Texas A&M.

McCULLY, JOHN R. JR.
Emeritus Assistant Professor of English. B.A., 1957, Mississippi College; M.A., 1960, Mississippi; Ph.D., 1976, Rice.

McDaniel, Thomas J.

McDONALD, E. DAWN
Emeritus Assistant Professor of Kinesiology. B.S., 1960, Boston University; M.S., 1968, Southern Illinois.

McDONELLA, LAWRENCE
Lecturer in History. B.A., 1979, Western Ontario (Canada); M.A., 1981, Johns Hopkins.

McELROY, JAMES C.
Professor of Management; University Professor. B.S., 1971, Jamestown; M.B.A., 1972, South Dakota; Ph.D., 1979, Oklahoma State.

McEOwen, Roger A.
Associate Professor of Agricultural Education and Studies. B.S., 1986, Purdue; M.S., 1990, Iowa State; J.D., 1991, Drake.

McGEE, DENIS C.
Emeritus Professor of Plant Pathology and Microbiology. B.S., 1964, Ph.D., 1967, Edinburgh.

McGEE, THOMAS D.
Emeritus Professor of Materials Science and Engineering; Emeritus Professor of Veterinary Clinical Sciences. B.S., 1948, M.S., 1958, Ph.D., 1961, Iowa State.
McGILL, JUSTIN
Lecturer in Agricultural and Biosystems Engineering. B.S., 2002, Iowa State; M.S., 2004, Purdue.

McGOUGH, SHERYL D.

McGRAIL, MAURA
Assistant Professor of Genetics, Development and Cell Biology. B.S., 1988, Massachusetts; Ph.D., 1996, Minnesota.

McJIMSEY, GEORGE T.

McKEAN, JAMES D.

McKEOWN, DONALD I.

McKIERAN, GERARD

McKINNON, NANCY JO-ANN

McMULLEN, CATHERINE MABRY

McNAMARA, DONALD J.
Professor of Food Science and Human Nutrition (Collaborator). B.A., 1966, Steubenville, Ph.D., 1972, Purdue.

McQUEEN, ROBERT JOHN

MEADOR, VINCENT P.

MEDINA, MARIANA
Assistant Professor of Political Science. B.S., 2004, Technologico Autonomo de Mexico (Mexico City); M.A., 2008, Ph.D., 2010, Washington (St. Louis).

MEEKER, WILLIAM Q. JR.
Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1972, Clarkson; M.S., 1973, Ph.D., 1975, Union.

MEHROTRA, OLGA M.
Associate Professor of World Languages and Cultures. B.A., 1996, M.A., 1996, Ph.D., 2000, St. Petersburg Hertzen.

MESSENGER, JOSEPH C.

METCALF, GARRETT

METZLER, DAVID E.
Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1948, California Institute of Technology; M.S., 1950, Ph.D., 1952, Wisconsin.

MEYER, TERRENCE

MEYER, TERRY

MEYERHOLZ, DAVID K.
Assistant Professor of Veterinary Pathology (Collaborator). D.V.M., 1994, M.S., 2001, Iowa State.

MEYERS, RACHEL LEE
MEYERS, WILLIAM H.

MICKELSON, ALAN C.

MICKELSON, STEVEN K.
Professor of Agricultural and Biosystems Engineering and Chair of the Department. B.S., 1982, M.S., 1984, Ph.D., 1991, Iowa State.

MICKLE, JACK L.

MIGUEZ, FERNANDO E.

MIKOVEC, AMY E.

MILES, KRISTINA G.

MILLER, CATHY
Associate Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1993, Ph.D., 2001, Missouri.

MILLER, DIANA LYNN

MILLER, ELIZABETH S.
Emeritus Professor of Art and Design; Distinguished Professor in Design. B.F.A., 1951, Nebraska; M.F.A., 1967, Drake.

MILLER, EMILY I.

MILLER, GERALD AREY

MILLER, GORDON J. JR.
Professor of Chemistry; University Professor. B.S., 1982, Rochester; Ph.D., 1986, Chicago.

MILLER, GREGORY SCOTT
Professor of Agricultural Education and Studies; Professor of School of Education. B.S., 1987, M.Ed., 1990, Auburn; Ph.D., 1992, Ohio State.

MILLER, JAMES R.

MILLER, KATHRYN M.
Emeritus Associate Professor of Human Development and Family Studies. B.S., 1959, Iowa State; M.S., 1964, Cornell.

MILLER, LESLIE L.

MILLER, LYLE DEVON

MILLER, MARTIN G.

MILLER, MICHAEL C.

MILLER, NANCY LYNN M.

MILLER, REBECCA J.

MILLER, RICHARD KEITH
Emeritus Professor of Mathematics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1961, Iowa State; M.S., 1962, Ph.D., 1964, Wisconsin.

MILLER, VICTOR J.

MILLER, WILLIAM G.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1957, M.S., 1961, Iowa State; Ph.D., 1967, Iowa.

MILLER, WILLIAM WADE
Professor of Agricultural Education and Studies and Interim Chair of the Department; Professor of School of Education. B.S., 1974, Texas A&M; M.Ed., 1976, Stephen F. Austin; Ph.D., 1980, Texas A&M.

MILLER, WYATT A.
Professor of Plant Pathology and Microbiology; Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1978, Carleton; Ph.D., 1984, Wisconsin.

MILLMAN, SUZANNE THERESA
Associate Professor of Veterinary Diagnostic and Production Animal Medicine; Associate Professor of Biomedical Sciences. B.Sc., 1990, Ph.D., 2000, Guelph (Canada).

MIN, KYUNG J.
Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1984, California (Los Angeles); M.S., 1985, Ph.D., 1990, California (Berkeley).

MINA, MANI

MINER, ANDREW S.
Associate Professor of Computer Science. B.S., 1993, Randolph-Macon College; M.S., 1995, Ph.D., 2000, College of William and Mary.

MINION, FRANK C.

MINNER, DAVID D.

MIRANOWSKI, JOHN A.

MIRKA, GARY A.
Professor of Industrial and Manufacturing Systems Engineering; Associate Dean of the College of Engineering. B.A., 1986, M.S., 1988, Ph.D., 1992, Ohio State.

MISCHKE, CHARLES R.

MISRA, MANJIT KUMAR
Professor of Agricultural and Biosystems Engineering. B.S., 1971, Orissa; M.S., 1973, Ph.D., 1978, Missouri.

MITRA, AMBAR K.
Associate Professor of Aerospace Engineering. B.S., 1969, M.S., 1972, Calcutta; Ph.D., 1979, Indian Institute of Science.
MITRA, SIMANTA

MOBIUS, MARKUS MICHAEL
Associate Professor of Economics. B.A., 1996, M.Phil., 1996, Oxford; Ph.D., 2000, Massachusetts Institute of Technology.

MOLGAARD, VIRGINIA K.

MOLIAN, PALANIAPPA A.
Professor of Mechanical Engineering. B.E., 1975, M.E., 1977, Indian Institute of Science; Ph.D., 1982, Oregon Graduate Center.

MOLISON, ROBERT W.

MOLL, EMILY L.
Professor of Sociology. B.S., 1972, Bowling Green; M.S., 1977, Syracuse; Ph.D., 2000, New York (Stony Brook); M.S., 2001, Marist College.

MONROE, JOHN W.

MONTABON, FRANK L.

MONTAG, GERALDINE M.

MONTAGAZAMI, REZA

MOOK, MARGARET SUSAN

MOORE, EMILY L.
Emeritus Professor of School of Education. B.S., 1968, George Williams; M.A.E., 1972, Washington (St. Louis); Ed.D., 1980, South Carolina.

MOORE, KENNETH J.
Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1979, Arizona State; M.S., 1981, Ph.D., 1983, Purdue.

MOORE, SARAH E.

MOORMAN, ROBERT B.
Emeritus Professor of Natural Resource Ecology and Management. B.S., 1939, M.S., 1942, Ph.D., 1953, Iowa State.

MOORMAN, THOMAS B.

MORGAN, EMILY KATHRYN

MORGAN, PAUL EMERSON
Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1944, M.S., 1956, Iowa State.

MORGAN, RONALD LEO

MORGAN, JOHN CHARLES
Assistant Professor of Agricultural Education and Studies. B.S., 1974, M.S., 1975, Ph.D., 1996, Iowa State.

MOSCHINI, GIANCARLO

MORTON, LOIS WRIGHT
Professor of Sociology. B.S., 1972, Bowling Green; M.S., 1977, Syracuse; Ph.D., 1998, Cornell.

MOSCHINI, GIANCARLO
Professor of Economics. B.S., 1978, Catholic (Italy); Ph.D., 1986, Guelph.

MOSER, ANDREW

MOSES, JOEL C.

MOSHER, GRETCHEN A.
Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1996, M.S., 2002, Ph.D., 2011, Iowa State.

MOYER, RUTH P.
Emeritus Professor of Human Development and Family Studies; Emeritus Professor of School of Education; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1941, M.S., 1949, Ph.D., 1969, Cornell.

MU, AILI
Associate Professor of World Languages and Cultures. B.A., 1982, M.A., 1984, Shandong (China); Ph.D., 1996, New York (Stony Brook); M.S., 2001, Marist College.

MUECKE, MICKAEL W.

MUELLER, DAREN S.
MUENCH, JOSEPH L.

MUKERJEA, RABINDRA

MULFORD, CHARLES L.
Emeritus Professor of Sociology. B.S., 1958, M.S., 1959, Ph.D., 1962, Iowa State.

MULHERIN, BRENDA L.

MULLEN, ELLEN JO

MULLEN, RUSSELL E.
Professor of Agronomy. B.S., 1971, M.S.Ed., 1972, Northwest Missouri; Ph.D., 1975, Purdue.

MUNKVOLD, GARY P.
Professor of Plant Pathology and Microbiology. B.S., 1986, M.S., 1988, Illinois; Ph.D., 1992, California (Davis).

MUNOZ, SUSANA MARIA

MUNSON, BRUCE R.

MURDOCH, ALAN JAMES

MURDOCK, JAMES A.

MURPHY, HADYN

MURPHY, JOHN S.

MURPHY, PATRICIA ANNE
Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1973, M.S., 1975, California (Davis); Ph.D., 1979, Michigan State.

MURPHY, ROGER P.
Emeritus Associate Professor of Accounting. B.S., 1966, M.S., 1969, Colorado State.

MUSZYNSKI, MICHAEL GERARD
Adjunct Assistant Professor of Genetics, Development and Cell Biology. B.A., 1985, Toledo; Ph.D., 1992, Iowa State.

MUTCHMOR, JOHN A.
Emeritus Professor of Ecology, Evolution and Organismal Biology; Emeritus Professor of Entomology. B.Sc., 1950, Alberta; M.S., 1955, Ph.D., 1961, Minnesota.

MUTHS, ERIN
Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1986, Wisconsin; M.S., 1990, Kansas State; Ph.D., 1997, Queensland (Australia).

MYERS, ALAN M.

MYERS, CYNTHIA L.
Adjunct Instructor in English. B.S., 1973, M.A., 1979, Kansas State.

MYERS, RONALD KEITH

N
NABROTZKY, RONALD

NADOLNY, LARYSA N.
Assistant Professor of School of Education. B.S., 2000, Virginia Tech; M.A.T., 2001, Boston College; Ed.D., 2008, Delaware.

NAEGELE, DANIEL J.

NAIR, AJAY
Assistant Professor of Horticulture. B.S., 2002, Kerala Agricultural (India); M.S., 2006, Maine; Ph.D., 2011, Michigan State.

NAKAGAWA, NORIO
Adjunct Professor of Aerospace Engineering. B.S., 1975, M.S., 1977, Ph.D., 1984, Tokyo Japan.

NAMISIAN, SHASHI SATHISAN
Professor of Civil, Construction and Environmental Engineering. B.Tech., 1984, Indian Institute of Technology; M.S., 1985, Virginia Polytechnic; Ph.D., 1989, California (Berkeley).

NAPINAI, RAMANUJAM

NARA, PETER LLOYD

NARASIMHAN, BALAJI
Professor of Chemical and Biological Engineering; Associate Dean of the College of Engineering. B.Tech., 1992, Indian Institute of Technology; Ph.D., 1996, Purdue.

NASON, JOHN DAVID
Professor of Ecology, Evolution and Organismal Biology. B.S., 1985, California (Davis); Ph.D., 1991, California (Riverside).

NATION, JEANNA

NEGREROS-CASTILLO, P.
Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1976, Puebla (Mexico); M.S., 1983, Inreb; Ph.D., 1991, Iowa State.

NEIHART, NATHAN MARK

NELSON, MARNA DARLENE
Lecturer in Biochemistry, Biophysics and Molecular Biology. B.S., 1998, Drake University; Ph.D., 2005, Iowa State.

NELSON, RON M.
NELSON, SCOTT W.
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1997, North Dakota State; Ph.D., 2002, Iowa State.

NEPPL, THOMAS GEORGE

NEPPL, TRICIA

NESPOR, JIM G.
Lecturer in Kinesiology. B.S., 1979, Nebraska; M.S., 1981, Arizona; B.S., 1989, New Mexico.

NETTLEYTON, DANIEL S.

NEVITT, BENJAMIN N.

NEWELL, JONATHAN J.

NEWTON, TERESA NAIMO

NG, SIU H.
Associate Professor of Mathematics. B.Sc., 1988, M.Phil., 1992, Hong Kong; Ph.D., 1997, Rutgers.

NGUYEN, TIEN NHUT
Associate Professor of Electrical and Computer Engineering. B.Sc., 1995, Hochiminh City (Vietnam); Ph.D., 2005, Wisconsin.

NGUYEN, XUAN HIEN
Assistant Professor of Mathematics. B.S., 2000, Free University of Brussels (Belgium); M.A., 2002, Ph.D., 2006, Wisconsin (Madison).

NICHOLS, GREGORY
Assistant Professor of School of Education (Collaborator). B.A., 1979, Iowa State; M.A., 1980, Rutgers; Ph.D., 2006, Iowa State.

NICHOLSON, ERIC
Instructor in Veterinary Diagnostic and Production Animal Medicine (Collaborator). B.S., 1993, Kansas State; Ph.D., 1999, Texas A&M.

NIDAY, DONNA M.

NIEDERHAUSER, DALE S.
Associate Professor of School of Education. B.S., 1982, New York (Fredonia); M.Ed., 1988, Ph.D., 1994, Utah.

NIEHM, LINDA S.
Associate Professor of Apparel, Events and Hospitality Management. B.S., 1980, Ashland; M.S., 1985, Ohio; Ph.D., 2002, Michigan State.

NIELSEN, STUART S.

NIEMI, JARAD

NIKOLAU, BASIL J.
Professor of Biochemistry, Biophysics and Molecular Biology. B.Sc., 1977, Ph.D., 1981, Massey (New Zealand).

NILAKANTA, SREEVATSA L
Associate Professor of Supply Chain and Information Systems and Chair of the Department. B.E., 1973, Madras (India); M.B.A., 1979, Ph.D., 1985, Houston.

NILSEN-HAMILTON, MARIT
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1969, Ph.D., 1973, Cornell.

NILSSON, JAMES W.
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, Iowa; M.S., 1952, Ph.D., 1958, Iowa State.

NISSEN, STEVEN LYNN

NIYI, YOSIYA

NO, WON G.
Assistant Professor of Accounting. B.S., 1994, M.S., 1996, Chonnam National (South Korea); MACC, 1999, Wisconsin; Ph.D., 2007, Waterloo (Canada).

NOGGLE, KAREN S.

NOLAN, LISA K.
Professor of Veterinary Microbiology and Preventive Medicine; Dean of the College of Veterinary Medicine. B.S., 1975, Valdosta State College; D.V.M., 1988, M.S., 1989, Ph.D., 1992, Georgia.

NONNECKE, BRIAN J.
Professor of Animal Science (Collaborator). B.S., 1974, M.S., 1976, Guelph; Ph.D., 1979, Ohio State.

NONNECKE, GAIL R.

NORDMAN, DANIEL JOHN

NORDMEYER, KEVIN ROBERT

NORRIS, DANIEL MILTON
Associate Professor of Supply Chain and Information Systems. B.S., 1973, Iowa State; M.S., 1976, Drake; Ph.D., 1982, Missouri; B.L.S., 2008, Iowa State.

NORTHUP, LARRY LEE

NORTHWAY, ERIC W.

NOSTWICH, THEODORE D.

NOVY, MICHAEL C.
Professor of Air Force Aerospace Studies and Chair of the Department. B.S., 1993, Iowa State; M.S., 2001, Air Force Institute of Technology.

NOXON, JAMES OWEN

NUSSER, SARAH M.
NUTTER, FORREST W. JR.
Professor of Plant Pathology and Microbiology. B.S., 1976, Maryland; M.S., 1978, New Hampshire; Ph.D., 1983, North Dakota State.

O

O'BRIEN, SUSAN E.
Associate Professor of Veterinary Clinical Sciences. B.S., 1972, D.V.M., 1973, Michigan State.

O'CONNOR, ANNETTE M.
Professor of Veterinary Diagnostic and Production Animal Medicine. B.V.Sc., 1993, Sydney (Australia); M.V.Sc., 1997, Queensland (Australia); DVSC, 2000, Guelph (Canada).

O'MARA, DENISE ANN

O'NEAL, MATTHEW ELLIOTT

OAKES, GREGORY WAYNE

OAKLEY, DAVID

OAKLAND, MARY JANE
Emeritus Associate Professor of Food Science and Human Nutrition. B.S., 1966, South Dakota State; M.S., 1970, Ph.D., 1985, Iowa State.

OESTERREICH, LESIA L.
Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1978, M.S., 1988, Texas Tech.

OGILVIE, CRAIG A.
Professor of Physics and Astronomy; Assistant Dean of the Graduate College. B.Sc., 1983, Canterbury (New Zealand); Ph.D., 1987, Birmingham (UK).

OKISHI, THEODORE H.

OLAFSSON, SIGURDUR

OLDEHOeft, ARTHUR E.

OLDHAM, ANNE M.

OLDS, JUNE ELIZABETH

OLES-ACEVEnO, DENISE

OLIVER, DAVID J.
Professor of Genetics, Development and Cell Biology; Interim Vice President for Research and Economic Development. B.S., 1971, M.S., 1973, New York (Syracuse); Ph.D., 1975, Cornell.

OLIVER, JAMES H.
Professor of Mechanical Engineering; University Professor; Director of Virtual Reality Applications Center. B.S., 1979, Union; M.S., 1981, Ph.D., 1986, Michigan State.

OLSEN, GAVIN LEIf

OLSEN, MICHAEL G.
Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering. B.S., 1992, M.S., 1995, Ph.D., 1998, Illinois.

OLSEN, SHERRLYN S.

OLSEN, STEVEN

OLSON, DENNIS GENE

OLSON, ERIC WAYNE
Adjunct Instructor in Naval Science. B.S., 2005, Iowa.

OLSON, JOANNE K.
Associate Professor of School of Education. B.A., 1991, California State Polytechnic; M.A., 1993, Claremont; Ph.D., 1999, Southern California.

OMIDVAR, LADAN R.

ONG, SAY K.
Professor of Civil, Construction and Environmental Engineering. B.E., 1980, Malaya (Malaysia); M.S., 1987, Vanderbilt; Ph.D., 1990, Cornell.

OPRIESSNIG, TANJA I.
Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2002, Veterinary Medicine (Austria); Ph.D., 2006, Iowa State.

ORAZEM, PETER FRANCIS
Professor of Economics; University Professor. B.A., 1977, Kansas; M.Phil., 1980, Ph.D., 1983, Yale.

ORGLER, LISA

OSBORN, BARB A.

OSBORN, WAYNE S.

OSEI-KOFI, NANA

OSTERBERG, ARVID ERIC

OSTOJIC, JELENA

OSWEILER, GARY D.

OTIS, DAVID L.

OTONI, CRISTIANE
Adjunct Instructor in Veterinary Clinical Sciences. MV, 2003, Sao Paulo State (Brazil).

OTTO, DANIEL M.
OULMAN, CHARLES S.

OULMAN, MOTOKO LEE
Emeritus Professor of Sociology. B.A., 1959, Nara Women’s University; M.A., 1963, Indiana; Ph.D., 1969, Iowa State.

OWEN, DAVID BISHOP

OWEN, MICHEL D.

PADGETT-WALSH, CULLEN

PADGETT-WALSH, SALLIE KATE

PADGITT, STEVEN C.
Emeritus Professor of Sociology. B.S., 1965, Iowa State; M.S., 1968, Missouri; Ph.D., 1971, Iowa State.

PAK, YONG CHIN

PALERMO, GREGORY S.
Professor of Architecture and Interim Chair of the Department. B.Arch., 1969, Carnegie Mellon; M.Arch., 1976, Washington (St. Louis).

PALIK, BRIAN

PALMER, MITCHELL VAN
Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1985, Utah State; D.V.M., 1989, Purdue; Ph.D., 1996, Iowa State.

PALMER, REID G.

PAN, JUN
Lecturer in Mathematics. M.S., 1984, Henan Normal (China); Ph.D., 2000, Magdeburg (Germany).

PANDEOY, SANTOSH

PAPPENHEIMER, DEBORAH

PARDON-BALLESTER, CRISTINA
Assistant Professor of World Languages and Cultures. B.A., 1996, University of Granada; M.A., 1999, Nevada (Reno); Ph.D., 2007, California (Davis).

PARKER, VALERIE J.

PARKIN, TIMOTHY B.

PARSONS, GERALD E.

PARSONS, KATHY A.

PASCHKE, TERESA A.

PASSALACQUA, ALBERTO

PASSE, ULRIKE
Assistant Professor of Architecture. B.A., 1990, Technische (Berlin); M.Arch., 1990, Technical (Berlin).

PASSENOUE, SARAH

PATE, MICHAEL BENCE

PATIENCE, JOHN FRANCIS
Professor of Animal Science. B.S., 1974, M.S., 1976, Guelph (Ontario); Ph.D., 1985, Cornell.

PATTEE, PETER ARTHUR
Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1955, Maine; M.S., 1957, Ph.D., 1961, Ohio State.

PATTERSON, JESSE

PATTERSON, JOHN W. JR.

PATTERSON, PATRICK E.
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1972, Springfield; M.S., 1978, Cleveland State; Ph.D., 1984, Texas A&M.

PATTON, LORI D.

PAULSEN, THOMAS

PAXSON, LYNN

PAYNE, WILLIAM DONALD
Emeritus Associate Professor of English; Emeritus Associate Professor of School of Education. B.A., 1967, Louisville; M.A., 1968, Ph.D., 1980, Illinois.

PEAKE, E. JAMES JR.
PEARCE, ROBERT BRENT
Emeritus Professor of Agronomy. B.S., 1963, California (Davis); M.S., 1965, Ph.D., 1967, Virginia Polytechnic Institute.

PEARSON, PHILLIP T.
Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1956, Ph.D., 1962, Iowa State.

PEASE, JAMES L.

PECHASZYK, VITALIJ K.
Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. M.S., 1976, Ph.D., 1979, L’viv State (Ukraine).

PEDERSEN, JOHN H.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1951, Cornell; M.S., 1952, Ph.D., 1955, Iowa State.

PEDERSEN, WAYNE A.
Associate Professor, Library. B.A., 1974, Iowa State; M.A., 1976, Iowa.

PEDIGO, LARRY
Emeritus Professor of Entomology; University Professor. B.S., 1963, Fort Hays; M.S., 1965, Ph.D., 1967, Purdue.

PEEL, SHANNON P.

PELLACK, LORRAINE J.

PELLEGRENO, DOMINICK

PELZER, NANCY L.

PERKINS, BRADLEY S.

PERKINS, JON DOUGLAS SR.

PERRY, RICHARD
Associate Professor of Veterinary Pathology (Collaborator). B.S., 1979, Columbus State; D.V.M., 1986, Ph.D., 1990, Georgia.

PERSIA, MICHAEL EDWARD

PESEK, JOHN T. JR.
Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1943, M.S., 1947, Texas A&M; Ph.D., 1950, North Carolina State.

PETERS, DAVID J.
Assistant Professor of Sociology. B.S., 1994, Minnesota; M.S., 1998, Ph.D., 2006, Missouri.

PETERS, FRANK E.

PETERS, JUSTIN
Professor of Mathematics. B.A., 1968, Reed; Ph.D., 1973, Minnesota.

PETERS, LEO C.

PETERS, REUBEN J.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1992, California (San Diego); Ph.D., 1998, California (San Francisco).

PETERS, RONALD H.

PETERS, CHRISTINE ANNE

PETERSON, ANNA DAGMAR

PETERSON, CARLA ANN
Professor of Human Development and Family Studies; Associate Dean of the College of Human Sciences. B.S., 1975, Iowa State; M.A., 1981, South Dakota; Ph.D., 1991, Minnesota.

PETERSON, DAVID
Professor of Political Science. B.A., 1995, Gustavus Adolphus College; Ph.D., 2000, Minnesota.

PETERSON, DIANA COOMES
Assistant Professor of Biomedical Sciences. B.S., 1997, Indiana; Ph.D., 2004, Louisville.

PETERSON, FRANCIS
Emeritus Professor of Physics and Astronomy. B.E.E., 1964, Rensselaer; Ph.D., 1968, Cornell.

PETERSON, JANE W.

PETERSON, PETER A.
Professor of Agronomy; Professor of Genetics, Development and Cell Biology. B.S., 1947, Tufts; Ph.D., 1953, Illinois.

PETERSON, THOMAS A.
Professor of Genetics, Development and Cell Biology; Professor of Agronomy. B.S., 1976, California (Davis); Ph.D., 1984, California (Santa Barbara).

PETRICH, JACOB W.
Professor of Chemistry. B.S., 1980, Yale; Ph.D., 1985, Chicago.

PETT, STEPHEN WILLARD

PHAES, BRENT M.

PHILLIPS, GREGORY J.

PHILLIPS, WARREN

PHYE, GARY D.
Professor of School of Education; Professor of Psychology. B.A., 1964, M.A., 1965, Wichita; Ph.D., 1970, Missouri.

PIERCE, CLAY L.
Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1980, Mankato; M.S., 1982, Kentucky; Ph.D., 1987, Maryland.

PIERCE, DAVID R.
Professor of School of Education (Collaborator). B.A., 1960, M.S., 1961, California State (Long Beach); M.S., 1965, Ph.D., 1969, Purdue.

PIEBLE, JAMES P.
PIERSON, BION LEE

PIGOZZI, DON LEONARD

PILLATZKI, ANGELA E.

PITA, FABIANO
Assistant Professor of Animal Science (Collaborator). M.S., 1999, Sao Paulo State (Brazil); Ph.D., 2003, Federal University of Vicosa (Brazil).

PLAKANS, ANDREJS

PLATT, KENNETH B.

PLEASANTS, BARBARA P.
Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1971, Cornell; Ph.D., 1977, California (Los Angeles).

PLEASANTS, JOHN M.
Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1971, Notre Dame; Ph.D., 1977, California (Los Angeles).

PLETCHER, RICHARD H.

PLUMMER, CASSANDRA LONG

PLUMMER, PAUL J.
Assistant Professor of Veterinary Diagnostic and Production Animal Medicine; Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1999, D.V.M., 2000, Tennessee; Ph.D., 2009, Iowa State.

PLYMES, CLIFF ALEX

POAGUE, LELAND A.
Professor of English. B.A., 1970, California State (San Jose); Ph.D., 1973, Oregon.

POHL, NICOLA
Professor of Chemical and Biological Engineering (Collaborator); Professor of Chemistry (Collaborator). A.B., 1991, Harvard; Ph.D., 1997, Wisconsin.

POHLMAN, LYNETTE L.
Adjunct Associate Professor of Art and Design. B.A., 1972, M.A., 1976, Iowa State.

POHM, ARTHUR V.
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.E.E., 1950, B.E.S., 1950, Cleveland State; M.S., 1953, Ph.D., 1954, Iowa State; POIST, RICHARD F. JR.

POLITO, THOMAS A.
Assistant Professor of Agricultural Education and Studies; Assistant Professor of Agronomy. B.S., 1976, M.S., 1982, Ph.D., 1987, Iowa State.

POLK, RICKS W.
Professor of Naval Science and Chair of the Department. B.S., 1993, West Florida; M.A., 1999, Troy State.

POLSON, DALE

POLSTER, NANCY L.
Emeritus Associate Professor of Art and Design. B.S., 1960, Iowa State; M.S., 1964, Syracuse.

POMETTO, ANTHONY III
Professor of Food Science and Human Nutrition (Collaborator). B.S., 1976, George Mason; M.S., 1983, Ph.D., 1987, Idaho.

POON, YIU TUNG
Professor of Mathematics. B.A., 1977, M.Phil., 1980, Hong Kong; Ph.D., 1985, California (Los Angeles).

POPE, CHRISTIE F.
Emeritus Associate Professor of History. A.B., 1959, North Carolina; Ph.D., 1977, Chicago.

POPILLION, AMY M.

PORTER, MARC DAVID
Professor of Chemistry (Collaborator). B.S., 1977, M.S., 1979, Wright State; Ph.D., 1984, Ohio State.

PORTER, MAX LEE
Emeritus Professor of Civil, Construction and Environmental Engineering; University Professor. B.S., 1965, M.S., 1968, Ph.D., 1974, Iowa State.

POST, CONSTANCE J.

POSTMA, NATHAN

POTTER, ALLAN GEORGE
Emeritus Professor of Electrical and Computer Engineering. B.S., 1955, Kansas State; M.S., 1959, Ph.D., 1966, Iowa State.

POTTER, LESLIE A.

POTTER, ROSANNE G.

POULIOT, SEBASTIEN
Assistant Professor of Economics. BACC, 2001, M.S., 2003, Universite Laval (Canada); Ph.D., 2008, California (Davis).

POWELL-COFFMAN, JO A.
Professor of Genetics, Development and Cell Biology and Chair of the Department. B.S., 1986, California (Davis); Ph.D., 1993, California (San Diego).

POWER, DEBRA LYNN

POWER, MARK L.
Professor of Finance; University Professor. B.S., 1974, Iowa State; M.B.A., 1977, Ph.D., 1981, Iowa.

PRABHU, GURPUR M.
PRATER, JEFFREY LYNN
PRELL, SOERAEN A.
Professor of Physics and Astronomy. Ph.D., 1996, Hamburg (Germany).
PREMKUMAR, SHOBA
PRENTE, DAVID
PRESTEMON, DEAN R.
Emeritus Professor of Natural Resource Ecology and Management. B.S., 1956, Iowa State; M.S., 1957, Minnesota; Ph.D., 1966, California (Berkeley).
PRICKETT, SALLY ANN
PRIETO, LORETO R.
PRIOR-MILLER, MARCIA R.
PRITCHARD, JAMES
Adjunct Assistant Professor of Landscape Architecture; Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1976, Miami (Ohio); M.A., 1991, Montana State; Ph.D., 1996, Kansas.
PROKOS, ANASTASIA HELENE
Associate Professor of Sociology. B.S., 1992, Ph.D., 2001, Florida State.
PROZOROV, RUSLAN
Associate Professor of Physics and Astronomy. M.Sc., 1992, Institute of Steel and Alloys (Moscow); Ph.D., 1998, Bar-Ilan (Israel).
PRUETZ, JILL D.
PRUSA, KENNETH JOHN
Professor of Food Science and Human Nutrition; Professor of Animal Science. B.S., 1979, Fort Hays; M.S., 1980, Ph.D., 1983, Kansas State.
PRUSKI, MAREK
Adjunct Professor of Chemistry. B.S., 1977, Ph.D., 1981, Nicholas Copernicus (Poland).
PURSEY, DEREK L.
Emeritus Professor of Physics and Astronomy. B.S., 1948, Ph.D., 1952, Glasgow.
Q
QIAO, DAIJ
Associate Professor of Electrical and Computer Engineering. B.S., 1994, Tsinghua (China); M.S., 1998, Ohio State; Ph.D., 2004, Michigan.
QIU, JIANWEI
QU, YONGMING
Assistant Professor of Statistics (Collaborator). B.S., 1994, M.S., 1997, Univ. of Science and Tech (China); Ph.D., 2002, Iowa State.
QUAM, ANDREA L.
QUIGLEY, JAMES
QUINLISK, M. PATRICIA
Assistant Professor. B.S., 1978, Wisconsin (Stevens Point); M.P.H., 1983, Johns Hopkins; M.D., 1988, Wisconsin.
QUIRMBACH, HERMAN C.
QUISENBERRY, SHARRON SUE
QUIST, MICHAEL CARL
R
RAICH, JAMES W.
RAJAGOPAL, LAKSHMAN
Assistant Professor of Apparel, Events and Hospitality Management. B.S., 1998, Sies College (India); M.S., 2004, Ph.D., 2007, Nebraska.
RAJAGOPALAN, R. GANESH
RAJAN, KRISHNA
RAJAN, HRIDESH
Associate Professor of Marketing. B.E., 1991, Bharathiar (India); M.B.A., 1994, Bharathidasan (India); M.A., 2001, Ph.D., 2002, Ohio State.
RAMAMOORTHY, ADITYA
Associate Professor of Electrical and Computer Engineering. B.Tech., 1999, Indian Institute of Technology; Ph.D., 2005, California (Los Angeles).
RAMAN, D. RAJ
Professor of Agricultural and Biosystems Engineering. B.A.Sc., 1974, Toronto; Sc.D., 1978, Massachusetts Institute of Technology.
RAJU, SEKAR
Associate Professor of Marketing. B.E., 1991, Bharathiar (India); M.B.A., 1994, Bharathidasan (India); M.A., 2001, Ph.D., 2002, Ohio State.
RAMASWAMI, SRIDHAR N.
RAMIREZ, ALEJANDRO
RAMSEY, JONATHAN DAVID
RANDALL, JESSE ALLEN
RANDIC, MIRJANA
Emeritus Professor of Biomedical Sciences. M.D., 1959, Ph.D., 1962, Zagreb.
RASU, ARAGULA GURURAJ
Professor of Biochemistry, Biophysics and Molecular Biology and Chair of the Department. M.Sc., 1974, Gauhati (India); Ph.D., 1981, Mysore (India).
RASMUSSEN, JORGEN S.
Emeritus Professor of Political Science; Emeritus Professor of School of Education; Distinguished Professor in Liberal Arts and Sciences. A.B., 1957, Indiana; M.A., 1958, Ph.D., 1962, Wisconsin.

RASMUSSEN, MARK A.

RASMUSSON, NINA KAY

RATHMACHER, JOHN A.

RAVENSCROFT, SUE P.

RAWSON, DON CARLOS

READ, ALVIN A.

REASON, ROBERT
Associate Professor of School of Education. B.S., 1992, Grinnell College; M.S., 1994, Mankato State; Ph.D., 2001, Iowa State.

RECTANUS, ELIZABETH S.
Lecturer in World Languages and Cultures. B.S., 1972, Mississippi; J.D., 1974, M.A., 1979, Mississippi State.

RECTANUS, MARK W.
Professor of World Languages and Cultures and Chair of the Department. B.A., 1975, Valparaiso; M.A., 1977, Ph.D., 1983, Washington (St. Louis).

REddy, manju B.
Professor of Food Science and Human Nutrition. B.S., 1976, M.S., 1978, Osmania (India); Ph.D., 1987, Texas A&M.

REMOND, JAMES R.

REMOND, MARK V.

REECE, WILLIAM O.
Emeritus Professor of Biomedical Sciences; University Professor. D.V.M., 1954, Ph.D., 1965, Iowa State.

REECY, JAMES M.
Professor of Animal Science; Director of Biotechnology. B.S., 1990, South Dakota State; M.S., 1992, Missouri; Ph.D., 1995, Purdue.

REGELE, JONATHAN D.
Assistant Professor of Aerospace Engineering. B.S., 2001, California (Irvine); M.S., 2003, Ph.D., 2008, Colorado.

REGER, RICHARD ALLEN

REGISTER, KAREN B.
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). BSMT, 1981, Western Carolina; Ph.D., 1986, North Carolina.

REHMANN, CHRIS ROBERT
Associate Professor of Civil, Construction and Environmental Engineering; Associate Professor of Agricultural and Biosystems Engineering. B.S., 1989, Massachusetts Institute of Technology; M.S., 1990, Ph.D., 1995, Stanford.

REIER, DANIELLE

REILLY, PETER J.
Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. A.B., 1960, Princeton; Ph.D., 1964, Pennsylvania.

REINERS, GARY
Lecturer in Community and Regional Planning. B.A., 1967, J.D., 1974, California (Berkeley).

REINERTSON, ERIC L.
Associate Professor of Veterinary Clinical Sciences. D.V.M., 1971, Iowa State; M.S., 1974, Cornell.

REINHARDT, SUZANNE N.

REINHARDT, TIMOTHY A.
Professor of Animal Science (Collaborator). B.S., 1974, M.S., 1976, Ph.D., 1979, Ohio State.

REITMEIER, CHERYLL A.
Professor of Food Science and Human Nutrition. B.S., 1973, Minnesota; M.S., 1975, Arkansas; Ph.D., 1988, Iowa State.

RETAILICK, MICHAEL STEVEN
Associate Professor of Agricultural Education and Studies. B.S., 1993, Wisconsin (Platteville); Ph.D., 2005, Iowa State.

REYNOLDS, RALPH

RICE, MARLIN E.
Professor of Entomology (Collaborator). B.S., 1977, Central Missouri; M.S., 1979, Missouri; Ph.D., 1987, Kansas State.

RICHARDS, CHARLES D.

RICO-GUTIERREZ, LUIS
Professor of Architecture; Dean of the College of Design. B.A., 1986, Itesm (Mexico); M.S., 1997, Carnegie Mellon.

RIDPATH, JULIA
Associate Professor of Veterinary Diagnostic and Production Animal Medicine (Collaborator). Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1977, Doane; Ph.D., 1983, Iowa State.

RIEDESEL, DEAN HAROLD
Professor of Veterinary Clinical Sciences; Professor of Biomedical Sciences. D.V.M., 1969, Ph.D., 1976, Iowa State.

RIEDESEL, ELIZABETH A.
Associate Professor of Veterinary Clinical Sciences. B.S., 1970, D.V.M., 1975, Iowa State.

RINEY-KEHRBERG, PAMELA

RINGHOLZ, DAVID ALLEN
Associate Professor of Industrial Design and Chair of the Department. B.A., 1994, New York (Buffalo); MID, 1997, North Carolina State.

RINGLEE, CONSTANCE J.
RIVERA, MARISA
Lecturer in School of Education. B.S., 1990, Pace; M.A., 1992, Northern Iowa; Ph.D., 1997, Iowa State.

RIVERO, IRIS V.

RIZO-ARBUCKLE, ELISA G.
Assistant Professor of World Languages and Cultures. B.A., 1993, Instituto Tecnologico De Estudios Superi; M.A., 1996, Ph.D., 2002, Missouri.

RIZZI, FRANK J.

ROBERTS, DAVID D.

ROBERTS, DONALD M.
Emeritus Professor of Mechanical Engineering. B.Sc., 1945, Alberta; M.Sc., 1949, Ph.D., 1953, Purdue.

ROBERTS, RONALD A.
Adjunct Associate Professor of Aerospace Engineering. B.S., 1979, Purdue; M.S., 1981, Ph.D., 1985, Northwestern.

ROBERTS, SARAH
Assistant Professor of School of Education. B.A., 1999, M.A., 2000, Stanford; Ph.D., 2009, Colorado.

ROBERTSON, ALAN P.
Associate Professor of Biomedical Sciences. B.Sc., 1991, Glasgow; Ph.D., 1997, Edinburgh.

ROBERTSON, ALISON E.
Associate Professor of Plant Pathology and Microbiology. B.Sc., 1991, Natal (South Africa); M.Phil., 1999, Zimbabwe (Africa); Ph.D., 2003, Clemson.

ROBERTSON, DONALD S.
Emeritus Professor of Genetics, Development and Cell Biology. A.B., 1947, Stanford; Ph.D., 1951, California Institute of Technology.

ROBERTSON, MALCOLM

ROBINSON, DAN

ROBINSON, JENNIFER

ROBINSON, WILLIAM

ROBSON, RICHARD M.
Professor of Animal Science; Professor of Biochemistry, Biophysics and Molecular Biology; Professor of Food Science and Human Nutrition. B.S., 1964, M.S., 1966, Ph.D., 1969, Iowa State.

ROBYT, JOHN F.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1958, St. Louis; Ph.D., 1962, Iowa State.

RODEE, JAMES F.

RODEE, KATHLEEN

RODERMEL, STEVEN R.

RODRIGUEZ, CHRISTOPHER R.

RODRIGUEZ, MA LULU A.
Professor of Greenlee School of Journalism and Communication. B.S., 1979, Philippines; MPS, 1987, Cornell; Ph.D., 1993, Wisconsin.

ROE, KEVIN J.
Adjunct Assistant Professor of Natural Resource Ecology and Management; Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1988, M.S., 1994, Georgia; Ph.D., 1999, Alabama.

ROETTGGER, CHRISTIAN G.
Lecturer in Mathematics. M.S., 1994, Augsburg (Germany); Ph.D., 2000, East Anglia (UK).

ROGE, AMANDA M.
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2005, Texas (Pan American); D.V.M., 2009, Texas A&M.

ROGERS, CARL A.
Associate Professor of Landscape Architecture. B.Arch., 1993, Kansas State; M.L.A., 1997, Rhode Island School of Design.

ROGGE, THOMAS RAY

ROHACH, ALFRED F.

ROITERCHEIN, ALEXANDER
Assistant Professor of Mathematics. M.B.A., 1996, Tel-Aviv (Israel); M.Sc., 1999, Ph.D., 2004, Technion-Israel Institute of Technology.

ROLLINS, DERRICK K.
Professor of Chemical and Biological Engineering; Professor of Statistics. B.S., 1979, Kansas; M.S., 1987, M.S., 1989, Ph.D., 1990, Ohio State.

RONGERUDE, JANE MARIE
Assistant Professor of Community and Regional Planning. B.S., 1998, Portland State; M.C.P., 2001, Ph.D., 2009, California (Berkeley).

ROOF, MICHAEL B.

ROSATI, MARZIA
Professor of Physics and Astronomy. B.S., 1985, La Sapienza (Italy); Ph.D., 1992, Mc Gill (Canada).

ROSENBERG, ELI IRA

ROSENBLAT, TANYA SOLIE

ROSENBUSCH, MARCIA H.
Adjunct Associate Professor of World Languages and Cultures; Adjunct Associate Professor of School of Education. B.S., 1965, Oregon State; M.S., 1966, Ph.D., 1987, Iowa State.

ROSENBUSCH, RICARDO F.
ROSENTRATER, KURT
Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1994, M.S., 1996, Ph.D., 2001, Iowa State.

ROSEHEIM, AARON S.
Adjunct Instructor in Military Science and Tactics. B.A., 2006, Iowa State.

ROSS, DALE H.

ROSS, DENNIS KENT
Emeritus Professor of Physics and Astronomy. B.S., 1964, California Institute of Technology; Ph.D., 1968, Stanford.

ROSS, JASON WAYNE
Assistant Professor of Animal Science. B.S., 2000, Iowa State; M.S., 2003, Ph.D., 2008, Oklahoma State.

ROSS, RICHARD FRANCIS

ROTH, JAMES ALLEN
Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1975, M.S., 1979, Ph.D., 1981, Iowa State.

ROTHMAYER, ALRIC PAUL
Professor of Aerospace Engineering; Professor of Mathematics. B.S., 1980, M.S., 1982, Ph.D., 1985, Cincinnati.

ROTHSCHILD, MAX F.
Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1974, California (Davis); M.S., 1975, Wisconsin; Ph.D., 1978, Cornell.

ROUSE, GENE

ROUSE, JON MATTHEWS

ROVER, DIANE THIEDE

ROWE, ERIC W.
Associate Professor of Biomedical Sciences. D.V.M., 1999, Ph.D., 2005, Iowa State.

ROWLEY, WAYNE ALLRED

ROWLING, MATTHEW J.
Assistant Professor of Food Science and Human Nutrition. B.S., 1999, Nebraska ( Kearney); Ph.D., 2004, Iowa State.

ROY, SUNANDA
Lecturer in Economics. B.A., 1980, Presidency College (India); M.A., 1982, Calcutta (India); Ph.D., 2002, Southern California.

ROY, VIVEKANANDA

RUA, PATRICIA PAYER
Instructor in Food Science and Human Nutrition (Collaborator). B.S., 1945, Kansas State.

RUAN, LU
Associate Professor of Computer Science. B.E., 1996, Tsinghua (China); M.S., 1999, Ph.D., 2001, Minnesota.

RUBEN, ROBERT A.

RUBLE, RACHEAL

RUDOLPH, WILLIAM B.
Emeritus Professor of Mathematics; Emeritus Professor of School of Education. B.A., 1960, Bethany (West Virginia); M.S., 1965, Ph.D., 1969, Purdue.

RUDOLPHI, THOMAS J.

RUEDENBERG, KLAUS
Emeritus Professor of Chemistry. Distinguished Professor in Liberal Arts and Sciences. M.S., 1944, Fribourg; Ph.D., 1950, Zurich; Ph.D., 1975 (Hon) Basel.

RULE, LITA C.
Associate Professor of Natural Resource Ecology and Management. B.S., 1975, M.S., 1982, Philippines; Ph.D., 1988, Texas A&M.

RUMBEIHA, WILSON

RUPERT, JERRY D.
Lecturer in Kinesiology. B.S., 1980, Lock Haven University; M.S., 1986, Utah.

RURSCH, JULIE
Lecturer in Electrical and Computer Engineering. B.S., 1985, Western Illinois; M.S., 1988, Iowa State; Ph.D., 1994, Wisconsin.

RUSSELL, ALAN MARK

RUSSELL, ANN E.

RUSSELL, DANIEL W.
Professor of Human Development and Family Studies. B.S., 1975, Tulsa; Ph.D., 1980, California (Los Angeles).

RUSSELL, DAVID R.

RUSSELL, JAMES R.

RUSSELL, MARTHA E.
Emeritus Adjunct Associate Professor of Chemistry. B.S., 1945, Rochester; M.A., 1947, New York (Buffalo); Ph.D., 1954, Purdue.

RUSSELL, STEVE F.

RUST, ROBERT E.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition. B.S., 1951, Wisconsin; M.S., 1954, Michigan State.

RYAN, SARAH M.
RYAN, VERNON DEAN

S

SACCO, RANDY E.
Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1981, M.S., 1983, Iowa State; Ph.D., 1987, Texas A&M.

SACKS, PAUL E.

SADO, AARON DAVID

SAGE, PRISCILLA K.

SAHAN, ORHAN

SAKAGUCHI, DONALD S.
Professor of Genetics, Development and Cell Biology; Professor of Biomedical Sciences. B.S., 1979, Ph.D., 1984, New York (Albany).

SAKAI, MARY R.
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2003, California (Berkeley); D.V.M., 2007, Kansas State.

SALAPAKA, MURTI V.

SALAS-FERNANDEZ, MARIA G.

SALOTTI, VALENTINA

SANchez, MayLY
Assistant Professor of Physics and Astronomy. B.Sc., 1995, Universidad De Los Andes (Venezuela); Ph.D., 2003, Tufts.

SANDERS, EULANDA

SANDERS, WALLACE W.

SANDERSON, DONALD E.
Emeritus Professor of Mathematics. B.A., 1949, Cornell College; M.S., 1951, California Institute of Technology; Ph.D., 1953, Wisconsin.

SANDOR, JONATHAN A.
Emeritus Professor of Astronomy; Professor of Geological and Atmospheric Sciences. B.A., 1974, California (Santa Barbara); M.S., 1979, Ph.D., 1983, California (Berkeley).

SANGER, NATALIE R.

SANTIAGO, ANTHONY

SAPP, STEPHEN GRAHAM
Professor of Sociology. B.A., 1974, M.A., 1980, Florida; Ph.D., 1984, Texas A&M.

SAPP, TRAVIS R. A.
Associate Professor of Finance. B.S., 1994, M.S., 1995, Iowa State; Ph.D., 2001, Iowa.

SAPPINGTON, THOMAS W.
Assistant Professor of Entomology (Collaborator). B.S., 1979, Central Missouri State; M.S., 1982, Iowa State; Ph.D., 1989, Kansas.

SAR, SELA
Associate Professor of Greenlee School of Journalism and Communication. B.A., 1998, Sofia (Bulgaria); M.S., 2002, Ph.D., 2006, Minnesota.

SARGENT, DANIEL J.

SARKAR, PARTHA
Professor of Aerospace Engineering; Professor of Civil, Construction and Environmental Engineering. B.Tech., 1985, Indian Institute of Technology; M.S., 1986, Washington State; Ph.D., 1992, Johns Hopkins.

SASSEMBELLE, VITO

SATTERFIELD, DEBRA JEAN
Associate Professor of Graphic Design and Interim Chair of the Department. B.S., 1986, Morningside College; M.F.A., 1991, Iowa State.

SATTERWHITE, MICHAEL

SAUER, GEOFFREY F. K.

SAUER, TOM
Associate Professor of Agronomy (Collaborator). B.S., 1982, Wisconsin (Stevens Point); M.S., 1985, Ph.D., 1993, Wisconsin.

SAUNDERS, KEVIN PATRICK

SAWYER, JOHN E.

SAWYER, MARY R.

SCANES, COLIN GUY
Professor of Animal Science (Collaborator). B.S., 1969, Hull; Ph.D., 1972, Wales.

SCHAAL, MICHIELE

SCHABEL, FRANK EDWARD
Assistant Professor of Kinesiology. B.S., 1965, New York (Buffalo); M.S., 1982, Ph.D., 1986, Eastern Illinois; M.S., 1979, Indiana.

SCHAEFER, JOSEPH A.
Senior Lecturer in Aerospace Engineering. B.S., 1962, Loras; Ph.D., 1972, Northwestern.

SCHAEFER, KELLY MARIE
SCHAEFER, VERNON R.

SCHAEFER, ELISABETH A.

SCHAEFER, JOHN WILLIAM

SCHAEFER, ROBERT

SCHALINSKE, KEVIN

SCHARRF, JAMES RICHARD

SCHIEEL, KAREN R.
Senior Lecturer in Psychology. B.A., 1987, California (Santa Cruz); Ph.D., 1999, Iowa.

SCHIEBE, KEVIN P.

SCHWE-E-MILLER, IRMGARD M.

SCHILLING, KEITH EDWIN
Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.A., 1985, Knox College; M.S., 1988, Iowa State; Ph.D., 2009, Iowa.

SCHILLING, KEVIN
Associate Professor of Music and Theatre; Associate Professor of School of Education. A.B., 1969, Southern California; M.M., 1971, D.M., 1985, Indiana.

SCHLOERKE, WALLACE C.

SCHLORHOLTZ, SCOTT M.

SCHMERR, LESTER W. JR.
Professor of Aerospace Engineering. B.S., 1965, Massachusetts Institute of Technology; Ph.D., 1970, Illinois Institute of Technology.

SCHMIDT, DENISE A.
Associate Professor of School of Education. B.S., 1982, M.S., 1991, Ph.D., 1995, Iowa State.

SCHMIDT, HELEN HOYT

SCHMIDT, STEFFEN W.

SCHMIDT-ROHR, KLAUS
Professor of Chemistry. Diplom, 1989, Ph.D., 1991, Mainz (Germany).

SCHMIDT-MANN, BEATE
Professor of Physics and Astronomy; Dean of the College of Liberal Arts and Sciences. B.Sc., 1981, RWTH Aachen (Germany); Ph.D., 1994, Edinburgh (UK).

SCHMIDT, STEFFEN W.
Professor of Chemistry. Diplom, 1989, Ph.D., 1991, Mainz (Germany).

SCHMIDT-ROHR, KLAUS

SCHMIDT, STEFFEN W.

SCHMIDT, STEFFEN W.

SCHMIDT-ROHR, KLAUS
Professor of Chemistry. Diplom, 1989, Ph.D., 1991, Mainz (Germany).

SCHMIDT, STEFFEN W.
Professor of Physics and Astronomy; Dean of the College of Liberal Arts and Sciences. B.Sc., 1981, RWTH Aachen (Germany); Ph.D., 1994, Edinburgh (UK).

SCHMIDT, STEFFEN W.
Professor of Chemistry. Diplom, 1989, Ph.D., 1991, Mainz (Germany).

SCHMIDT-ROHR, KLAUS

SCHMIDT, STEFFEN W.

SCHMIDT, STEFFEN W.

SCHMIDT-ROHR, KLAUS
Professor of Chemistry. Diplom, 1989, Ph.D., 1991, Mainz (Germany).

SCHMIDT, STEFFEN W.
Professor of Physics and Astronomy; Dean of the College of Liberal Arts and Sciences. B.Sc., 1981, RWTH Aachen (Germany); Ph.D., 1994, Edinburgh (UK).

SCHMIDT, STEFFEN W.

SCHMIDT, STEFFEN W.

SCHMIDT-ROHR, KLAUS
Professor of Chemistry. Diplom, 1989, Ph.D., 1991, Mainz (Germany).

SCHMIDT, STEFFEN W.

SCHMIDT, STEFFEN W.

SCHMIDT-ROHR, KLAUS
Professor of Chemistry. Diplom, 1989, Ph.D., 1991, Mainz (Germany).

SCHMIDT, STEFFEN W.
Professor of Physics and Astronomy; Dean of the College of Liberal Arts and Sciences. B.Sc., 1981, RWTH Aachen (Germany); Ph.D., 1994, Edinburgh (UK).

SCHMIDT-ROHR, KLAUS
Professor of Chemistry. Diplom, 1989, Ph.D., 1991, Mainz (Germany).

SCHMIDT, STEFFEN W.

SCHMIDT, STEFFEN W.

SCHMIDT-ROHR, KLAUS
Professor of Chemistry. Diplom, 1989, Ph.D., 1991, Mainz (Germany).
SCHWAB, ANDREAS

SCHWABA, CHARLES V.
Professor of Agricultural and Biosystems Engineering. B.S., 1979, M.S., 1982, Ph.D., 1989, Kentucky.

SCHWAB, CLINTON

SCHWARTZ, BARBARA S.

SCHWARTZ, CHRISTIAN J.

SCHWARTZ, KENT J.

SCHWEINGRUBER, DAVID SCOTT

SCHWEDER, DOROTHY A.
Emeritus Professor of History; University Professor. B.A., 1955, Dakota Wesleyan; M.S., 1966, Iowa State; Ph.D., 1981, Iowa.

SCOTT, LARRY R. JR.
Adjunct Instructor in Military Science and Tactics.

SCOTT, MARVIN PAUL
Associate Professor of Agronomy (Collaborator). B.S., 1986, Iowa State; Ph.D., 1992, Purdue.

SCOTT, NORMAN A.
Associate Professor of Psychology. B.S., 1965, Bucknell; M.A., 1967, Temple; Ph.D., 1971, Maryland.

SCOTT, THOMAS MARVIN
Emeritus Associate Professor of Electrical and Computer Engineering. B.S., 1953, Maryland; Ph.D., 1962, Wisconsin.

SEAGRAVE, RICHARD C.
Emeritus Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1957, Rhode Island; M.S., 1959, Ph.D., 1961, Iowa State.

SEATON, VAUGHN A.

SEBRANEK, JOSEPH G.
Professor of Animal Science; Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. University Professor. B.S., 1970, M.S., 1971, Ph.D., 1974, Wisconsin.

SEEEGER, CHRISTOPHER J.

SEIFERT, GEORGE

SEIFERT, KARL E.

SEIGNEUR, ASHLEIGH A.

SEILY, MARTHA ANN
Adjunct Assistant Professor of Materials Science and Engineering. B.S., 1981, M.S., 1988, Iowa State.

SELL, JERRY L.
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1957, M.S., 1958, Ph.D., 1960, Iowa State.

SELSBY, JOSHUA TAYLOR
Assistant Professor of Animal Science; Assistant Professor of Kinesiology. B.A., 1999, Wooster College; M.A., 2001, Ohio State; Ph.D., 2005, Florida.

SEN, TANER Z.

SENGHSA, DAVID S.
Assistant Professor of Kinesiology (Collaborator). B.A., 2000, Northern Iowa; Ph.D., 2006, Iowa State.

SEO, HILARY
Associate Professor, Library. B.A., 1991, California (Santa Barbara); M.A., 1993, Wisconsin.

SERB, JEANNE M.

SEROVY, GEORGE KASPAR
Emeritus Professor of Mechanical Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, M.S., 1950, Ph.D., 1958, Iowa State.

SEVERIN, MICHAEL J.

SEVERISKE, LEVERNE K.
Emeritus Associate Professor of Aerospace Engineering. B.S., 1958, M.S., 1961, Ph.D., 1964, Iowa State.

SHAHAN, JAMES CLINTON
Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1979, M.S., 1985, Iowa State.

SHANE, JENNIFER
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 2000, Colorado School of Mines; M.S., 2003, Ph.D., 2006, Colorado.

SHANK, WESLEY IVAN
Emeritus Professor of Architecture. B.A., 1951, California (Berkeley); M.Arch., 1965, McGill.

SHANKS, BRET H.
Professor of Chemical and Biological Engineering. B.S., 1983, Iowa State; M.S., 1985, Ph.D., 1988, California Institute of Technology.

SHANKS, JACQUELINE V.
Professor of Chemical and Biological Engineering. B.S., 1983, Iowa State; Ph.D., 1989, California Institute of Technology.

SHAO, PAUL

SHAO, ZENGYI

SHARMA, ANUPAM
SHARMA, JYOTNSA

SHARP, LISA
Lecturer in Human Development and Family Studies. B.A., 1975, California State University; M.S., 2001, Iowa State.

SHARP, RICKEY LEE
Professor of Kinesiology; Professor of Food Science and Human Nutrition. B.A., 1974, California State (Chico); M.Ed., 1976, Nevada; Ph.D., 1983, Ball State.

SHAW, KELLY B.

SHAW, KENNETH C.
Emeritus Associate Professor of Zoology. B.S., 1954, Cincinnati; M.S., 1958, Ph.D., 1966, Michigan.

SHEARER, JAN

SHEBLE, GERALD B.
Emeritus Professor of Electrical and Computer Engineering. B.S., 1971, M.S., 1974, Purdue; Ph.D., 1985, Virginia Polytechnic Institute.

SHECHTMAN, DAN
Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.Sc., 1968, M.Sc., 1968, Ph.D., 1972, Technion (Israel).

SHECHTMAN, ZIPORA
Professor of Psychology (Collaborator). B.A., 1968, Haifa (Israel); M.A., 1975, Dayton; Ph.D., 1983, American.

SHEDD, CELIA P.

SHEELEY, JOHN B.
Emeritus Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1956, Ph.D., 1956, Iowa State.

SHELLEY, MACK CLAYTON
Professor of Statistics; Professor of Political Science; University Professor. B.A., 1972, American; M.S., 1973, Ph.D., 1977, Wisconsin.

SHEN, SHELDON SHIH-TA
Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1969, Missouri; Ph.D., 1974, California (Berkeley).

SHEN, LINDA

SHERMAN, PETER JAMES
Associate Professor of Aerospace Engineering; Associate Professor of Statistics. B.S., 1974, M.S., 1975, Ph.D., 1984, Wisconsin.

SHIBLES, RICHARD M.
Emeritus Professor of Agronomy. B.S., 1956, Maine; M.S., 1958, Ph.D., 1961, Cornell.

SHIH, TOM I-PING

SHIHIABY, DIANE

SHIN, YEON-KYUN
Professor of Biochemistry. Biophysics and Molecular Biology. B.S., 1982, Seoul National (Korea); Ph.D., 1990, Cornell.

SHINAR, JOSEPH
Professor of Physics and Astronomy and Chair of the Department; Professor of Electrical and Computer Engineering. B.Sc., 1972, M.Sc., 1974, Ph.D., 1980, Hebrew (Israel).

SHINAR, RUTH
Adjunct Professor of Electrical and Computer Engineering. B.S., 1968, M.S., 1972, Ph.D., 1977, Hebrew (Israel).

SHIN, RICHARD DUANE

SHOEMAKER, RANDY C.
Professor of Agronomy (Collaborator); Professor of Genetics, Development and Cell Biology (Collaborator). B.S., 1977, Wisconsin (Stevens Point); M.S., 1980, Wisconsin (Green Bay); Ph.D., 1984, Iowa State.

SHOGREN-KNAAK, MICHAEL
Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1994, Stanford; Ph.D., 2000, California Institute of Technology.

SHONROCK, DIANA D.

SHOWERS, WILLIAM B. JR.

SHRADER, CHARLES B.

SHROTRIYA, PRANAV
Associate Professor of Mechanical Engineering. B.Tech., 1995, Indian Institute of Technology (India); Ph.D., 2000, Illinois.

SILET, CHARLES L.

SIMONS, RONALD L.
Professor of Sociology (Collaborator). Professor of Psychology (Collaborator). B.A., 1969, Northern Iowa; M.S.W., 1971, Wisconsin; Ph.D., 1974, Florida State.

SIMONSON, DONALD R.

SIMPKINS, WILLIAM W.

SINGER, SHIRLEE R.

SINGH, NATALIA N.
Adjunct Assistant Professor of Biomedical Sciences. M.S., 1988, Leningrad Lensovet Institute (Russia); Ph.D., 1995, Russian Academy of Science.

SINGH, RAJESH
Associate Professor of Economics. B.Tech., 1981, Bhuit (India); M.Tech., 1983, lit (India); Ph.D., 2002, California (Los Angeles).

SINGH, RAVINDRA N.
Professor of Biomedical Sciences. B.Sc., 1983, M.Sc., 1985, Banaras Hindu (India); Ph.D., 1993, Russian Academy of Sciences.

SIVASANKAR, SANJEEVI
Assistant Professor of Physics and Astronomy; Assistant Professor of Electrical and Computer Engineering. B.Sc., 1993, M.Sc., 1995, All India Institute of Medical Sciences; Ph.D., 2001, Illinois.
SIVILS, MATTHEW

SKAAR, BRAD RICHARD
Associate Professor of Animal Science. B.S., 1979, Colorado State; M.S., 1982, Ph.D., 1985, Iowa State.

SLAGELL, AMY R.
Associate Professor of English; Interim Associate Dean of the College of Liberal Arts and Sciences. B.S., 1983, Ohio; M.A., 1986, Ph.D., 1992, Wisconsin.

SLATER, TAMMY J.

SLEUGH, BYRON B.

SLUTZKI, GIORA
Professor of Computer Science. B.S., 1970, Hebrew (Jerusalem); M.S., 1973, Weizmann Institute; Ph.D., 1977, Tel-Aviv.

SLY, DAVID

SMARANDESCU, LAURA
Assistant Professor of Marketing. B.A., 2002, British Columbia; Ph.D., 2007, South Carolina.

SMAY, TERRY ALLEN

SMILEY, MICHAEL W.

SMILEY-OYEN, ANN

SMITH, AMY ERICA

SMITH, ARTHUR A. JR.
Professor of Philosophy and Religious Studies; Professor of Political Science. B.A., 1974, Boston College; Ph.D., 1980, New York (Story Brook).

SMITH, BRUCE E.

SMITH, CARL RAY

SMITH, CLIFFORD E.
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1949, M.S., 1958, Ph.D., 1964, Iowa State.

SMITH, EMILY

SMITH, FRANCES
Emeritus Professor of Human Development and Family Studies; Emeritus Professor of School of Education. B.S., 1952, Southwestern (Oklahoma); M.S., 1958, Oklahoma State; Ph.D., 1966, Iowa State.

SMITH, FREDERICK G.
Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1939, Chicago; M.S., 1941, Ph.D., 1943, Wisconsin.

SMITH, GERALD W.

SMITH, JENNIFER D.

SMITH, JOHN F.
Emeritus Professor of Materials Science and Engineering. B.A., 1948, Missouri (Kansas City); Ph.D., 1953, Iowa State.

SMITH, JONATHAN D. H.

SMITH, KELLI
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2003, Oregon; D.V.M., 2009, Kansas State.

SMITH, KIM ANTHONY

SMITH, MARY MARLA
Instructor in Food Science and Human Nutrition (Collaborator). B.A., 1948, Clarke; M.S., 1966, Iowa State.

SMITH, RICHARD F

SMITH, RICHARD JOHN
Emeritus Professor of Agricultural and Biosystems Engineering. B.Sc., 1962, Kings College; M.S., 1967, Ph.D., 1971, Iowa State.

SMITH, RICHARD LYNN

SMITH, ROGER A. P.
Emeritus Professor of School of Education. B.A., 1969, M.A., 1971, Northern Iowa; Ph.D., 1974, Iowa State.

SNELL, LLOYD D.

SOENKSEN, JOEL L.

SOJKA, NADINE

SOMANI, ARUN K.

SONG, GUANG
Associate Professor of Computer Science. B.S., 1992, Jiolin (China); M.S., 1998, Ph.D., 2003, Texas A&M.
SONG, JIHJUN

SONG, JIMING
Associate Professor of Electrical and Computer Engineering. B.S., 1983, M.S., 1988, Nanjing (China); Ph.D., 1993, Michigan State.

SONG, SUNG YELL
Associate Professor of Mathematics. B.S., 1974, Seoul; Ph.D., 1987, Ohio State.

SONG, XUEYU
Professor of Chemistry. B.S., 1984, Nankai (China); Ph.D., 1995, California Institute of Technology.

SONGER, JOSEPH GLENN
Research Professor of Veterinary Microbiology and Preventive Medicine; Research Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1972, Mid America Nazarene; M.A., 1974, Texas; Ph.D., 1976, Iowa State.

STANTON, THADDEUS BRIAN

STANGE, LISA GAYLE
Emeritus Professor of Horticulture. B.S., 1976, Peradeniya (Sri Lanka); M.E., 1989, Auckland (New Zealand); Ph.D., 1998, California (San Diego).

STARNS, GLORIA K.
Lecturer in Biomedical Sciences. D.V.M., 1975, Iowa State.

SPRY, DIANE MOODY
Associate Professor of Animal Science. B.S., 1992, Virginia Polytechnic; M.S., 1994, Oklahoma State; Ph.D., 1998, Nebraska.

SPURLOCK, MICHAEL EUGENE
Professor of Food Science and Human Nutrition; Professor of Animal Science. B.S., 1981, M.S., 1987, Ph.D., 1989, Missouri.

SQUIRE, MITCHELL J.

SRITHARAN, SIVALINGAM
Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1985, Peradeniya (Sri Lanka); M.E., 1989, Auckland (New Zealand); Ph.D., 1998, California (San Diego).

STABEL, JUDITH R.

STACY-BATES, KRISTINE

STADLER, JOAN K.
Emeritus Professor of Genetics, Development and Cell Biology; University Professor. B.A., 1951, Wellesley; Ph.D., 1954, Missouri.

STAHR, HENRY M.
Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1956, South Dakota State; M.S., 1960, Union; Ph.D., 1976, Iowa State.

STANFORD, JOHN L.

STANGE, LISA GAYLE
Emeritus Professor of Physics and Astronomy. B.S., 1960, Texas; Ph.D., 1965, Maryland.

STANLEY, LEVI M.
Assistant Professor of Chemistry. B.A., 2001, Augustana (Sioux Falls); Ph.D., 2008, North Dakota State.

STANLEY, MICHAEL C.

STANTON, THADDEUS BRIAN
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1972, Thomas More; Ph.D., 1980, Massachusetts.

STARLEAF, DENNIS R.
Emeritus Professor of Economics. B.A., 1959, California (Berkeley); M.A., 1960, California (Los Angeles); Ph.D., 1967, Vanderbilt.

STARLING, DAVID
Lecturer in Biomedical Sciences. D.V.M., 1975, Iowa State.

STANS, GLORIA K.
STAROBIN, SOKO

STATIA, HARRY F.
Adjunct Assistant Professor of Naval Science. B.S., 1982, Embry Riddle Aeronautical; M.S., 2005, Arkansas.

STAUD, WILLIAM III

STEELE, NATALIE A.

STEL, AARON

STEINER, ANNE K.

STEINER, EUGENE F.
Emeritus Professor of Mathematics. B.S., 1954, Missouri (Rolla); M.A., 1960, Ph.D., 1963, Missouri.

STEPSMITH, CLINTON

STEPSMITH, JAMES D.

STEPSMITH, LOREN C.

STEPHENS, DAVID T.

STEPHENS, JAMES A.

STEPHENS, W. ROBERT

STERLE, JODI

STEVEN, JUNE L.

STEVENSON, GREGORY W.

STEVEN, EMMETT J.

STEWARD, BRIAN LYN

STEWART, CECIL R.
Emeritus Professor of Genetics, Development and Cell Biology; Emeritus Professor of Plant Pathology and Microbiology. B.S., 1958, Illinois; M.S., 1963, Ph.D., 1967, Cornell.

STEWART, SUSAN DIANE
Associate Professor of Sociology. B.A., 1990, New York (Fredonia); M.A., 1996, Ph.D., 2000, Bowling Green State.

STEWART, TIMOTHY W.

STIEGLITZ, MARY

STIEHL, CORY KATHERINE
Senior Lecturer in Chemical and Biological Engineering. B.S., 1985, Rochester; Ph.D., 1990, Massachusetts.

STOKKE, DOUGLAS D.

STONE, JANIS FINLEY

STONE, KENNETH EUGENE

STONE, RICHARD T.
Assistant Professor of Industrial and Manufacturing Systems Engineering; Assistant Professor of Mechanical Engineering. B.S., 1999, M.S., 2001, Rochester Institute of Technology; Ph.D., 2008, New York (Buffalo).

STONE, VERNON F.
Emeritus Professor of Architecture. B.Arch., 1948, Washington (St Louis).

STOUT, JANEANN
Emeritus Associate Professor of Art and Design; Emeritus Associate Dean of the College of Human Sciences. B.S., 1971, M.A., 1974, Iowa State.

STOUT, THOMAS B.
Lecturer in Civil, Construction and Environmental Engineering. B.S.E., 1971, Sacramento State College; M.S., 1992, Nebraska; Ph.D., 2005, Iowa State.

STOVER, ROGER D.

STOTCHEV, ALEXANDER T.
Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Computer Science. B.A., 1997, American (Bulgaria); M.S., 2001, Ph.D., 2005, Georgia Institute of Technology.

STRAHAN, ROBERT F.
Emeritus Professor of Psychology; Emeritus Professor of Statistics. B.A., 1961, Kansas (Pittsburg); Ph.D., 1967, Minnesota.

STRAWN, GEORGE O.
Emeritus Associate Professor of Computer Science. B.A., 1962, Cornell College; Ph.D., 1969, Iowa State.

STROHBEHN, CATHERINE

STROHBEHN, CARY

STROHL, JOHN KENNETH
Lecturer in Food Science and Human Nutrition. B.S., 1981, Minnesota; Ph.D., 1988, Iowa State.
STROMER, MARVIN H.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1959, Ph.D., 1966, Iowa State.

STRONG, JOHN R.
Emeritus Associate Professor of Human Development and Family Studies. B.S., 1959, Brigham Young; M.S., 1962, Arizona State; Ph.D., 1974, Oregon State.

STRUCK, CURTIS J.
Professor of Physics and Astronomy. B.S., 1976, Minnesota; M.Phil., 1978, Ph.D., 1981, Yale.

STRUVE, WALTER SCOTT

STUART, DAVID H.

STURGES, LEROY DONALD

STURM, JONATHAN

STURM, JULIE

SUBRAMANIAN, SHANKAR
Associate Professor of Mechanical Engineering. B.Tech., 1988, Indian Institute of Technology (India); M.S., 1990, Notre Dame; Ph.D., 1997, Cornell.

SUKHATME, SHASHIKALA

SULLIVAN, JACOB PATRICK

SUMMERFELT, ROBERT C.
Emeritus Professor of Natural Resource Ecology and Management. B.S., 1957, Wisconsin (Stevens Point); M.S., 1959, Ph.D., 1964, Southern Illinois.

SUMMERS, JAMES

SUNDARARAJAN, SRIRAM
Associate Professor of Mechanical Engineering. B.E., 1995, Birla Institute of Technology and Science; M.S., 1997, Ph.D., 2001, Ohio State.

SUNDERMAN, ROBERT A.

SUNG, SHIHWW
Professor of Civil, Construction and Environmental Engineering. B.S., 1983, Tam Kang; M.S., 1988, Auburn; Ph.D., 1994, Iowa State.

SURAMPALLI, RAO
Professor of Civil, Construction and Environmental Engineering (Collaborator). M.Sc., 1975, Osmania; M.S., 1978, Oklahoma State; Ph.D., 1985, Iowa State.

SUZA, WALTER

SUZUKI, YOSHINORI

SVENDESEN, LINDA K.

SWAN, PATRICIA B.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1959, North Carolina (Greensboro); M.S., 1961, Ph.D., 1964, Wisconsin.

SWANSON, PATRICIA M.
Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1969, M.S., 1975, Ph.D., 1988, Iowa State.

SWEIGER, SHAUN H.

SWENSON, CLAYTON A.
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1944, Harvard; D.Phil., 1949, Oxford.

SWENSON, DAVID A.
Adjunct Assistant Professor of Community and Regional Planning. B.S., 1979, M.A., 1981, South Dakota; M.A., 1985, Iowa.

SWENSON, RUTH WILDMAN

SWIFT, ARTHUR G.

SWIFT, CURRAN STEWART

SWITZER, WILLIAM P.
Emeritus Professor of Veterinary Microbiology; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1948, Texas A&M; M.S., 1951, Ph.D., 1954, Iowa State; Dr.H.C., 1979, Vienna.

T

TABATABAI, LOUISA
Professor of Biochemistry, Biophysics and Molecular Biology (Collaborator); Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1962, California (Berkeley); M.S., 1966, Ph.D., 1976, Iowa State.

TABATABAI, M. ALI
Emeritus Professor of Agronomy. B.S., 1958, Baghdad; M.S., 1960, Oklahoma State; Ph.D., 1965, Iowa State.

TABER, HENRY GLENN

TAIT, JOHN LAWRENCE

TAKLE, GENE S.
Professor of Agronomy; Professor of Geological and Atmospheric Sciences; Professor of Aerospace Engineering. B.A., 1966, Luther; Ph.D., 1971, Iowa State.

TAM, TIN-SHI
TAMASHUNAS, VICTOR M.
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1950, M.S., 1959, Iowa State.
TAN, XIAOLI
TANG, LIANG
TANG, LIE
Associate Professor of Agricultural and Biosystems Engineering. B.S., 1989, Jiangsu; M.S., 1994, Zhejiang; Ph.D., 2002, Illinois.
TANNEHILL, JOHN C.
TANNER, RICHARD T.
Emeritus Professor of School of Education. B.S., 1958, Oregon College of Education; M.S., 1962, Oregon State; Ph.D., 1968, Stanford.
TAOUTEIL, JEAN-PIERRE
Senior Lecturer in World Languages and Cultures. B.A., 1989, Saint Joseph (Lebanon); M.A., 1993, Sorbonne Nouvelle (France).
TARARA, JULIE M.
TARTAKOV, CARLIE C.
Emeritus Assistant Professor of School of Education. B.A., 1963, California State (San Francisco); M.A., 1973, Massachusetts; Ph.D., 1995, Iowa State.
TARTAKOV, GARY M.
TAVANAPONG, WALLAPAK
Associate Professor of Computer Science. B.S., 1992, Thammasat (Thailand); M.S., 1995, Ph.D., 1999, Central Florida.
TAYLOR, ELANOR
TAYLOR, GARY D.
Associate Professor of Community and Regional Planning. B.S., 1985, Northwest Missouri State; J.D., 1988, Nebraska; M.C.R.P., 1996, Iowa State.
TAYLOR, ROD K.
Adjunct Instructor in Military Science and Tactics.
TAYLOR, STERLING E.
Professor of Agronomy. B.S., 1966, Utah State; Ph.D., 1970, Washington (St. Louis).
TEAS, ROY KENNETH
TEMPLETON, MEGAN
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2001, California (Davis); D.V.M., 2007, Western University of Health Sciences.
TENER, JAMES R.
TERPENNY, JANIS
Professor of Industrial and Manufacturing Systems Engineering and Chair of the Department. B.S., 1979, Virginia Commonwealth; M.S., 1981, Ph.D., 1996, Virginia Polytechnic.
TESFAGIORGIS, GEBRE H.
Adjunct Associate Professor of School of Education. B.B.A., 1971, Hsi (Ethiopia); M.S., 1975, Ph.D., 1978, J.D., 1988, Wisconsin.
TESFATSION, LEIGH S.
Professor of Economics; Professor of Mathematics; Professor of Electrical and Computer Engineering. B.A., 1968, Carleton; Ph.D., 1975, Minnesota.
TESHOME, YALEM
TESSONNIER, JEAN-PHILIPPE
Assistant Professor of Chemical and Biological Engineering. B.Sc., 1999, M.Sc., 2001, Ph.D., 2005, Strasbourg (France).
THACKER, BRAD J.
THACKER, EILEEN L.
THACKER, TYLER C.
Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1994, M.S., 1996, Ph.D., 2003, Brigham Young.
THANAWONGNUWECH, ROONGROJE
THERNEAU, TERRY M.
Professor of Statistics (Collaborator). B.A., 1975, St. Olaf College; Ph.D., 1983, Stanford.
THIEL, PATRICIA ANN
Professor of Chemistry; Professor of Materials Science and Engineering; Distinguished Professor in Liberal Arts and Sciences. B.A., 1975, Macalester; Ph.D., 1980, California Institute of Technology.
THIELEN, THOMAS B.
Emeritus Associate Professor of School of Education. B.S., 1957, Mankato; M.S., 1964, Wyoming; Ed.D., 1970, Indiana.
THIPPESWAMY, THIMMASETTAPP
Professor of Biomedical Sciences. Ph.D., 1998, Liverpool (United Kingdom).
THOEN, CHARLES O.
THOGMARTIN, CLYDE O.
THOGMARTIN, WAYNE
THOMAS, JAMES A.
THOMAS, JERRY R.
THOMAS, JOHN CHARLES
Lecturer in Greenlee School of Journalism and Communication. B.A., 1965, Northern Iowa; M.S., 2007, Iowa State.
THOMAS, REX ALLAN
Emeritus Professor of School of Education; Emeritus Professor of Computer Science. B.A., 1955, Iowa; M.A., 1961, Northern Iowa; Ph.D., 1970, Iowa State.

THOMPSON, ANGEL M.
Adjunct Instructor in Veterinary Clinical Sciences. B.A., 2000, Austin College; D.V.M., 2004, Texas A&M.

THOMPSON, DONALD O.
Emeritus Professor of Aerospace Engineering; Anson Marston Distinguished Professor in Engineering. B.A., 1949, M.S., 1950, Ph.D., 1953, Iowa.

THOMPSON, ELIZABETH A.

THOMPSON, JAMES R.

THOMPSON, JANETTE R.

THOMPSON, LINDA S.

THOMPSON, MICHAEL L.
Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.S., 1974, Illinois; Ph.D., 1980, Ohio State.

THOMPSON, NANCY LYNN

THOMSEN, BRUCE V.
Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1988, Northwest Missouri State; D.V.M., 1990, Missouri; Ph.D., 2001, Iowa State.

THOMSON, JOHN ULAN

THORIUS, JULIA L. M.

THORNBURG, ROBERT W.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, Tennessee; Ph.D., 1981, South Carolina.

THORNOCK, TODD

TIAN, JIN
Associate Professor of Computer Science. B.S., 1992, Tsinghua (China); M.S., 1997, Ph.D., 2002, California (Los Angeles).

TIDRIRI, MOULAY

TIM, UDPOYARA S.
Associate Professor of Agricultural and Biosystems Engineering. B.E., 1981, Ph.D., 1987, Concordia (Canada).

TIMMS, LEO LOUIS
Professor of Animal Science; Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1978, Cornell; M.S., 1982, Ph.D., 1984, Wisconsin.

TIPTON, CARL L.

TIRTHAPURA, SRIKANTA

TOFFLEMIRE, KYLE
Adjunct Instructor in Veterinary Clinical Sciences. D.V.M., 2009, Texas A&M.

TOLLEFSON, JON J.
Professor of Entomology. B.A., 1967, Gustavus Adolphus; Ph.D., 1975, Iowa State.

TOMAN, BETTY
Emeritus Professor of Kinesiology. Distinguished Professor. B.S., 1948, Wisconsin; M.S., 1957, Iowa State.

TOMER, MARK D.
Associate Professor of Natural Resource Ecology and Management (Collaborator); Associate Professor of Geological and Atmospheric Sciences (Collaborator). B.S., 1981, Montana; M.S., 1986, Montana State; Ph.D., 1994, Minnesota.

TONDRA, RICHARD J.

TOOMBS, JAMES PRITCHETT

TOPEL, DAVID GLEN
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition. B.S., 1960, Wisconsin; M.S., 1962, Kansas State; Ph.D., 1965, Michigan State.

TORREMORELL, MONTSERRAT
Associate Professor of Veterinary Diagnostic and Production Animal Medicine (Collaborator). D.V.M., 1994, Autonomous (Spain); Ph.D., 1999, Minnesota.

TORRIE, MARGARET C.
Associate Professor of Human Development and Family Studies; Associate Professor of School of Education. B.S., 1969, M.Ed., 1971, Wayne State; Ed.D., 1976, Illinois.

TOOTH, AMY LYNN
Assistant Professor of Ecology, Evolution and Organismal Biology; Assistant Professor of Entomology. B.A., 2000, Bard College; Ph.D., 2006, Illinois.

TOURTELOTTE, DALE R.

TOWNSEND, ANTHONY M.

TOWNSEND, CHARLES L.
Emeritus Professor of Electrical and Computer Engineering. B.S., 1953, Oklahoma; M.S., 1957, Ph.D., 1963, Iowa State.

TRACEY, ALEXANDRA K.

TRAHANOVSKY, KATHLEEN
Emeritus Adjunct Associate Professor of Chemistry. B.A., 1960, Emmanuel; M.S., 1962, Ph.D., 1969, Iowa State.

TRAHANOVSKY, WALTER S.
Emeritus Professor of Chemistry. B.S., 1960, Franklin and Marshall; Ph.D., 1963, Massachusetts Institute of Technology.

TRAMPEL, DARRELL W.
Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1969, D.V.M., 1974, Iowa State; Ph.D., 1979, Georgia.
TRAVESSET-CASAS, ALEJANDRO
Associate Professor of Physics and Astronomy. B.Sc., 1992, Ph.D., 1997, Barcelona.

TREDE, LARRY DEAN

TREMMEL, MICHELLE R.

TREMMEL, ROBERT A.

TRENBERTH, JAMES C.
Adjunct Assistant Professor of Music and Theatre. B.F.A., 1979, Santa Fe; M.F.A., 1982, Ohio.

TRENKLE, ALLEN H.
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1956, Nebraska; M.S., 1958, Ph.D., 1960, Iowa State.

TREWYN, BRIAN G.
Adjunct Assistant Professor of Chemistry (Collaborator). B.S., 2000, Wisconsin-La Crosse; Ph.D., 2006, Iowa State.

TRIMARCHI, JEFFREY
Assistant Professor of Genetics, Development and Cell Biology. B.A., 1993, Amherst College; Ph.D., 2002, Massachusetts Inst. of Technology.

TRINGIDES, MICHAEL

TRIVEDI, ROHIT K.

TROEHL, FREDERICK R.

TROST, BETTY CHAMNESS

TRUJILLO, JESSIE
Assistant Professor of Veterinary Microbiology and Preventive Medicine; Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1992, Southern Colorado; D.V.M., 1996, Colorado State; Ph.D., 2004, Washington State.

TRULIN, DARRYL JON
Emeritus Associate Professor of Aerospace Engineering. B.S., 1961, Iowa State; M.S., 1983, Oklahoma State; Ph.D., 1968, Iowa State.

TSAI, YU-MIN

TSOU, JONATHAN Y.
Assistant Professor of Philosophy and Religious Studies. B.A., 2000, Simon Fraser (Canada); M.A., 2001, Western Ontario (Canada); Ph.D., 2008, Chicago.

TSUKRUK, VLADIMIR V.

TUCHIN, KIRILL

TUCKER, ROBERT D.
Associate Professor of Genetics, Development and Cell Biology (Collaborator). B.S., 1969, Nebraska; Ph.D., 1976, Minnesota; M.D., 1978, Nebraska Medical Center.

TUCKNESS, ALEX

TUGGLE, CHRIS K.

TUTTLE, GARY L.
Associate Professor of Electrical and Computer Engineering. B.S., 1983, M.S., 1985, Iowa State; Ph.D., 1991, California (Santa Barbara).

TYAGI, AKHILESH

TYE-WILLIAMS, STACY ANN

TYLER, HOWARD DAVID

TYLKA, GREGORY L.
Professor of Plant Pathology and Microbiology. B.S., 1983, M.S., 1985, California (Pennsylvania); Ph.D., 1990, Georgia.

TYNDALL, JOHN CHARLES

U

UENMURA, ETSURO

UHLENHOPP, ELDON KARL
Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1972, M.S., 1986, Iowa State.

ULRICHSON, DEAN
Emeritus Professor of Chemical and Biological Engineering. B.S., 1962, Nebraska; M.S., 1963, Illinois; Ph.D., 1970, Iowa State.

UNDERHILL, WILLIAM R.

URBATSCH, ROBERT B.
Associate Professor of Political Science. B.S., 2000, Iowa State; Ph.D., 2006, Harvard.

URE, CHERI J.

USTUNDAG, ERSAN
Associate Professor of Materials Science and Engineering. B.S., 1990, Bogazici (Turkey); M.S., 1993, Ph.D., 1995, Cornell.

V

VAIDYA, UMESH

VAKNIN, DAVID
VALENCIA, GERMAN
Professor of Physics and Astronomy. B.S., 1983, University De Los Andes; M.S., 1985, Ph.D., 1988, Massachusetts.

VALENZUELA-CASTRO, MARIA N.

VALLIER, JANE E.

VAN GEELEN, ALBERT
Adjunct Assistant Professor of Veterinary Pathology. M.S., 1991, Rejks Universiteit Groninger; Ph.D., 1999, Nevada (Reno).

VAN LEEUWEN, JOHANNES
Professor of Civil, Construction and Environmental Engineering; Professor of Agricultural and Biosystems Engineering; Professor of Food Science and Human Nutrition. B.E., 1975, M.E., 1979, DENGRI, 1988, Pretoria (South Africa).

VAN METER, KARIN
Lecturer in Biomedical Sciences. Ph.D., 1978, Paris-Lodron University, Salzburg (Austria).

VANAST, JOHN
Emeritus Professor of School of Education. B.S., 1967, M.S., 1970, Western Michigan; Ph.D., 1976, Minnesota.

VANAUKEN, HOWARD E.
Professor of Management; University Professor. B.S., 1972, M.B.A., 1974, Ph.D., 1980, Oklahoma.

VANCE, JUDY MARIE

VANDER LUGT, KRISTIN T.

VANDERLEY, BRIAN L.

VANDERVALK, ARNOLD

VANDERVALK, SUZANNE C.
Senior Lecturer in English. B.A., 1971, Windsor (Ontario); M.A., 1994, Iowa State.

VANDERVEEN, RYAN
Assistant Professor of Animal Science (Collaborator). B.S., 2004, South Dakota State; Ph.D., 2011, Iowa State.

VANDWERFF, JUSTIN R.
Lecturer in Civil, Construction and Environmental Engineering. B.S., 2000, Dordt College; M.S., 2002, Iowa State.

VANDERZANDEN, ANN MARIE
Professor of Horticulture; Director of Center for Excellence in Learning and Teaching. B.S., 1988, Washington State; M.S., 1990, Cornell; Ph.D., 1994, Washington State.

VANDYK, JOHN K.

VANITEN, RICHARD J.

VANN, ROBERTA

VANWAARDHUIZEN, CAROL

VARDMAN, STEPHEN B.
Professor of Statistics; Professor of Industrial and Manufacturing Systems Engineering; University Professor. B.S., 1971, M.S., 1973, Iowa State; Ph.D., 1975, Michigan State.

VARY, JAMES P.

VASWANI, NAMRATA
Associate Professor of Electrical and Computer Engineering. B.Tech., 1999, Indian Institute of Technology (India); Ph.D., 2004, Maryland.

VAUGHN, ERIC MARTIN
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1986, M.S., 1990, Ph.D., 1994, Iowa State.

VAUGHN, RICHARD C.

VAZOU, SPYRIDOUA
Assistant Professor of Kinesiology. B.S., 1997, M.S., 2001, Athens (Greece); Ph.D., 2005, Birmingham (UK).

VEGA-GARCIA, SUSAN A.

VELA-BECERRA, JAVIER
Assistant Professor of Chemistry. B.Sc., 2001, National Autonomous (Mexico); M.Sc., 2003, Ph.D., 2005, Rochester.

VENKATA, SUBRAHMANYAM
Emeritus Professor of Electrical and Computer Engineering. B.S., 1963, Andhra (India); M.S., 1966, Indian Institute of Technology; Ph.D., 1971, South Carolina.

VENKATAGIRI, HORABAIL

VENNAPUSA, PAVANA KUMAR RE
Clinician in Civil, Construction and Environmental Engineering.

VER MULM, KRISTI JO

VERHOEVEN, JOHN

VERKADE, JOHN

VESSONI-DE-LENCE, MARTA A.

VIATORI, MAXIMILIAN S. III
Associate Professor of Anthropology. B.A., 1999, Missouri; M.A., 2000, Ph.D., 2005, California (Davis).

VIGIL, DENNIS R.
Associate Professor of Chemical and Biological Engineering. B.S., 1985, New Mexico; M.S., 1986, Ph.D., 1990, Michigan.

VINCENT, AMY LOUISE
VITTAL, VIJAY

VLECK, CAROL M.

VLECK, DAVID
Adjunct Associate Professor of Ecology, Evolution and Organismal Biology. B.A., 1972, Pomona; Ph.D., 1978, California (Los Angeles).

VOELKER, DONALD E.

VOGEL, DAVID L.

VOGEL, JERALD MILO

VOGEL, PAMELA K.
Lecturer in School of Education. B.S., 1976, Iowa; M.S., 2000, Drake; Ph.D., 2008, Iowa State.

WALDEMER, THOMAS PAUL

WALKER, DOUGLAS MARK

WALKER, THOMAS
Lecturer in English. B.A., 1988, Texas (Austin); M.A., 1999, California State.

WALLACE, ROBERT S.

WALLER, KENNETH

WALSH, PATRICIA

WALSH, THOMAS E.

WALTER, CLYDE K. JR.

WALTON, BARBARA JOYCE

WALTON, MARLEE A.

WANAMAKER, ALAN DAVID JR.

WANG, CHENG
Professor of Economics. B.A., 1984, M.A., 1987, Fudan (China); Ph.D., 1994, Western Ontario (Canada).

WANG, CHONG
Assistant Professor of Veterinary Diagnostic and Production Animal Medicine; Associate Professor of Statistics. B.S., 2001, Peking (China); Ph.D., 2006, Cornell.

WANG, JIGANG
Assistant Professor of Physics and Astronomy. B.S., 2000, Jilin (China); Ph.D., 2006, Rice.

WANG, KAN
Professor of Agronomy. B.S., 1982, Fudan (China); Ph.D., 1987, Ghent (Belgium).

WANG, KEJIN
Professor of Civil, Construction and Environmental Engineering. B.S., 1982, Hefei (China); M.S., 1985, Chinese Academy of Sciences (China); Ph.D., 1994, California (Berkeley).

WANG, LIZHI
Assistant Professor of Industrial and Manufacturing Systems Engineering; Assistant Professor of Electrical and Computer Engineering. B.Eng., 2003, B.S., 2003, University of Science and Technology (China); Ph.D., 2007, Pittsburgh.

WANG, QIAN
Assistant Professor of Accounting. B.S., 2000, M.A., 2004, Wuhan (China); Ph.D., 2009, Kansas.
WANG, QUN
Adjunct Assistant Professor in Chemical and Biological Engineering; Adjunct Assistant Professor in Civil, Construction and Environmental Engineering. B.S., 2000, Zhejiang University of Technology (China); M.S., 2004, Ph.D., 2007, Wuhan (China); Ph.D., 2010, Kansas.

WANG, TONG
Professor of Food Science and Human Nutrition. B.S., 1985, M.S., 1988, Shenyang College of Pharmacy (China); M.S., 1992, Arkansas; Ph.D., 1998, Iowa State.

WANG, XIAOLU
Assistant Professor of Finance. B.S., 1998, Fudan (China); M.Phil., 2000, Bergen (Norway); Ph.D., 2010, Toronto (Canada).

WANG, XINWEI
Professor of Mechanical Engineering. B.S., 1994, M.S., 1996, Science and Technology (China); Ph.D., 2001, Purdue.

WANG, YINGJUN

WANG, ZHENGDAO
Associate Professor of Electrical and Computer Engineering. B.E., 1996, Science and Technology (China); M.Sc., 1999, Virginia; Ph.D., 2002, Minnesota.

WANG, ZHI J.
Professor of Aerospace Engineering. Professor of Mathematics. B.Sc., 1985, National University of Defence Tech; Ph.D., 1990, Glasgow (Scotland).

WANNEMUEHLER, MICHAEL
Professor of Veterinary Microbiology and Preventive Medicine and Chair of the Department. B.S., 1974, Purdue; M.S., 1980, Idaho State; Ph.D., 1981, Louisville.

WARD, IRA J.
Emeritus Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1950, U.S. Military Academy; M.S., 1955, Iowa State.

WARD, THOMAS
Assistant Professor of Aerospace Engineering. B.S., 1998, Missouri (Rolla); M.S., 2000, Stanford; Ph.D., 2003, California (Santa Barbara).

WARE, WENDY ADAMS
Professor of Veterinary Clinical Sciences; Professor of Biomedical Sciences. B.Mus., 1975, Westminster Choir College; D.V.M., 1982, M.S., 1986, Ohio State.

WARME, LOIS J. N.
Emeritus Associate Professor of Art and Design. B.S., 1968, M.A., 1972, Iowa State.

WARREN, RICHARD D.
Emeritus Professor of School of Education; Distinguished Professor in Education. B.S., 1952, M.S., 1960, Ph.D., 1965, Iowa State.

WASS, WALLACE MILTON

WATANABE, OLENA
Assistant Professor of Accounting. B.S., 2007, M.S., 2007, Missouri.

WATERS, W. RAY
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1985, D.V.M., 1988, Auburn; Ph.D., 1996, Iowa State.

WATSON, KEVIN JAMES

WEBER, BETHANY JO

WEBER, ERIC

WEBER, MICHAEL JOHN

WEBER, ROBERT J.

WEBER, THOMAS A.
Emeritus Professor of Physics and Astronomy. B.S., 1956, De Paul; Ph.D., 1961, Notre Dame.

WEBER-FEVE, STACEY

WEERASINGHE, ANANDA
Professor of Mathematics. B.S., 1979, Colombo; Ph.D., 1986, Minnesota.

WEESNER, TIMOTHY D.

WEI, MEIFEN
Associate Professor of Psychology. B.A., 1983, Soochow (Taiwan); M.A., 1985, Tunghai (Taiwan); M.A., 1998, Ph.D., 2000, Missouri.

WEINER, CARLA A.

WEINSTEIN, AMANDA

WEISS, DAVID
Professor of Computer Science. B.S., 1964, Union College; M.S., 1974, Ph.D., 1981, Maryland.

WEISS, HARRY J.

WELK, GREGORY

WELLS, BETTY LYNN

WELLS, GARY L.
Professor of Psychology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Kansas State; Ph.D., 1977, Ohio State.

WELSHONS, WILLIAM J.

WEN, ZHIYOU
Associate Professor of Food Science and Human Nutrition; Associate Professor of Agricultural and Biosystems Engineering. B.S., 1994, M.S., 1997, East China; Ph.D., 2001, Hong Kong.

WENDEL, JONATHAN F.
Professor of Ecology, Evolution and Organismal Biology and Chair of the Department; Distinguished Professor in Liberal Arts and Sciences. B.S., 1976, Michigan; M.S., 1980, Ph.D., 1983, North Carolina.

WENDEL, MARA E.

WENDELL, DENNIS C.
WENINGER, QUINN R. A.
Associate Professor of Economics. B.Sc., 1989, Alberta (Canada); Ph.D., 1995, Maryland.

WERBEL, JAMES D.

WEST, JAMES K.

WEST, MARY H.

WEST, ROBERT

WESTERMAN-BEATTY, JAN M.

WESTGATE, MARK E.

WESTORT, CAROLINE

WHEELOCK, THOMAS D.
Emeritus Professor of Chemical and Biological Engineering; University Professor. B.S., 1949, Ph.D., 1958, Iowa State.

WHIGHAM, DAVID KEITH

WHISNANT, KERRY LEWIS
Professor of Physics and Astronomy. B.S., 1976, Missouri (Rolla); Ph.D., 1982, M.S., 1982, Wisconsin.

WHITAKER, FAYE P.

WHITE, BERNARD J.
Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; University Professor. B.S., 1958, Portland; M.A., 1961, Ph.D., 1963, Oregon.

WHITE, DAVID J.
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1997, Missouri; M.S., 1999, Ph.D., 2000, Iowa State.

WHITE, GARY C.

WHITE, KEVIN P.

WHITE, PAMELA JUNE
Professor of Food Science and Human Nutrition; University Professor; Dean of the College of Human Sciences. B.S., 1972, M.S., 1974, Washington; Ph.D., 1981, Iowa State.

WHITE, ROBERT ENSIGN

WHITE, WENDY S.

WHITEFORD, MICHAEL B.
Emeritus Professor of Anthropology; Emeritus Dean of the College of Liberal Arts and Sciences. B.A., 1967, Beloit; M.A., 1970, Ph.D., 1972, California (Berkeley).

WHITEHEAD, ROBERT
Assistant Professor of Architecture. B.Arch., 1993, Iowa State; M.Arch., 1997, Texas.

WHITHAM, STEVEN ALAN
Professor of Plant Pathology and Microbiology. B.S., 1990, Iowa State; M.S., 1992, Ph.D., 1995, California (Berkeley).

WHITLEY, ELIZABETH

WHITLEY, R. DAVID

WHITMER, JOHN M. JR.
Emeritus Associate Professor of Political Science. B.A., 1957, Wisconsin; M.A., 1959, Iowa; M.S., 1975, Ph.D., 1979, Iowa State.

WHITTLE, DIANNE L.

WICKERSHAM, THOMAS W.
Emeritus Professor of Animal Science. B.S., 1941, M.S., 1954, Iowa State.

WICKERT, JONATHAN ADAM
Professor of Mechanical Engineering; Senior Vice President and Provost. B.S., 1985, M.S., 1987, Ph.D., 1989, California (Berkeley).

WIDRLECHNER, MARK P.

WIE, BONG

WIEDENHOFT, MARY H.

WIERSEMA, JANICE A.
Senior Lecturer in World Languages and Cultures; Senior Lecturer in Electrical and Computer Engineering. B.S., 1977, M.S., 1984, Northwest Missouri; Ph.D., 2006, Iowa State.

WIGHTON, MICHAEL

WILDER, DAVID R.

WILGENBUSCH, CONRAD

WILGENBUSCH, ERIN E.

WILHEL, JULIE A.
Senior Lecturer in World Languages and Cultures. B.A., 1982, Central College; M.A., 1999, Northern Iowa.

WILLHAM, RICHARD L.
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1954, Oklahoma State; M.S., 1955, Ph.D., 1960, Iowa State.
WILLIAMS, DAVID LEWIS
Emeritus Professor of School of Education; Emeritus Professor of Agricultural Education and Studies; University Professor. B.S., 1959, Oklahoma State; M.S., 1965, Kansas State; Ed.D., 1969, Oklahoma State.

WILLIAMS, JACKIE

WILLIAMS, R. CHRISTOPHER

WILLIAMS, SALLY KEMP
Emeritus Professor of Human Development and Family Studies; Emeritus Professor of School of Education. B.S., 1962, M.A., 1966, Michigan State; Ph.D., 1975, Pennsylvania State.

WILLIAMS, STANLEY
Emeritus Professor of Physics and Astronomy. B.S., 1954, Nebraska Wesleyan; Ph.D., 1962, Rensselaer.

WILLSON, LEE ANNE

WILLSON, STEPHEN

WILSEY, BRIAN J.

WILSON, ALYSON

WILSON, DAVID BALL
Professor of History; Professor of Philosophy and Religious Studies. B.A., 1963, Wabash; Ph.D., 1968, Johns Hopkins.

WILSON, DOYLE EDWARD

WILSON, GREGORY DALE

WILSON, JAMES A.
Associate Professor of Mathematics. B.A., 1973, California (Los Angeles); M.S., 1975, Ph.D., 1978, Wisconsin.

WILSON, LENNOX N.

WILSON, LESTER A.
Professor of Food Science and Human Nutrition; University Professor. B.S., 1969, M.S., 1971, Oregon State; Ph.D., 1975, California (Davis).

WINDOM, KENNETH
Emeritus Associate Professor of Geological and Atmospheric Sciences. B.A., 1972, West Georgia; Ph.D., 1976, Pennsylvania State.

WINDUS, THERESA L.
Professor of Chemistry. B.S., 1988, Minot State; Ph.D., 1993, Iowa State.

WINER, ELIOT H.
Associate Professor of Mechanical Engineering. B.S., 1992, Ohio State; M.S., 1994, Ph.D., 1999, New York (Buffalo).

WINSOR, DOROTHY A.

WINTER, ARTHUR
Assistant Professor of Chemistry. B.S., 2002, Frostburg State; Ph.D., 2007, Maryland.

WINTER, MARY

WINTERSTEEN, WENDY
Professor of Entomology; Dean of the College of Agriculture and Life Sciences. B.S., 1978, Kansas State; Ph.D., 1988, Iowa State.

WIPF, TERRY J.
Professor of Civil, Construction and Environmental Engineering and Chair of the Department. B.S., 1974, M.S., 1979, Ph.D., 1983, Nebraska.

WIRTH, SHARON K.

WISE, CHRISTINE L. LEIRAN

WISE, ROGER P.
Professor of Plant Pathology and Microbiology (Collaborator). B.S., 1976, Ph.D., 1983, Michigan State.

WISNER, ROBERT NEWELL

WISSINK, MARSHA H.

WITHERS, JEREMY

WITHERSPOON, BRENDA L.

WITTHOEFT, BRIAN J.

WLEZIEN, RICHARD
Professor of Aerospace Engineering and Chair of the Department. B.S., 1974, M.S., 1976, Ph.D., 1981, Illinois Institute of Technology.

WOHLMUTH, DARIN R.

WOHLSDORF-ARENDT, SUSAN

WOHLF, NORMA H.
WOLINS, LEROY
Emeritus Professor of Psychology; Emeritus Professor of Statistics. B.A., 1951, M.A., 1953, Ph.D., 1956, Ohio State.

WOLT, JEFFREY D.

WOLTER, PETER T.
Assistant Professor of Natural Resource Ecology and Management. B.S., 1985, Wisconsin (Stevens Point); M.S., 1990, New Hampshire; Ph.D., 2009, Wisconsin.

WOLTERS, TIMOTHY S.

WONG, DAVID MICHAEL

WONG, JOHN KONG-FAH

WONG, JOHNNY S.

WOO, LEE KEITH
Professor of Chemistry. B.S., 1977, Harvey Mudd; Ph.D., 1984, Stanford.

WOOD, SHIRLEY JEAN
Emeritus Associate Professor of Kinesiology. B.S., 1957, M.S., 1959, Indiana; Ph.D., 1971, Illinois.

WOODMAN, WILLIAM F.
Emeritus Professor of Sociology; University Professor. B.S., 1968, M.A., 1970, West Texas; Ph.D., 1972, Oklahoma State.

WOOL, GREGORY J.

WORK, GEORGE PAUL

WRAY, PAUL H.

WRIGHT, FRED M.
Emeritus Professor of Mathematics. B.A., 1944, Denison; M.S., 1949, Ph.D., 1953, Northwestern.

WRIGHT, MARK

WU, HUAQING
Associate Professor of Statistics. B.S., 1988, M.S., 1991, Beijing (China); Ph.D., 1997, Michigan.

WU, XIAOQING
Professor of Geological and Atmospheric Sciences. B.S., 1983, Hanzhou (China); M.S., 1986, Chinese Academia Sinica; Ph.D., 1992, California (Los Angeles).

WU, ZHIJUN

WULFEKUHLE, ALLISON M.

WUNDER, WILLIAM W.

WURTELE, EVE S.
Professor of Genetics, Development and Cell Biology; Professor of Food Science and Human Nutrition. B.S., 1971, California (Santa Cruz); Ph.D., 1980, California (Los Angeles).

X

XIANG, CHUNHUI

XIN, HONGWEI
Professor of Agricultural and Biosystems Engineering; Professor of Animal Science. B.S., 1982, Shenyang Agricultural; M.S., 1985, Ph.D., 1989, Nebraska.

XIONG, PAYING A.

XIU, FAXIAN
Assistant Professor of Chemical Engineering. B.E., 2000, Harbin Institute of Technology (China); M.S., 2002, California (Los Angeles); Ph.D., 2006, California (Riverside).

Y

YADAV, ANAND

YAEGER, MICHAEL J.
Associate Professor of Veterinary Pathology. B.S., 1980, St. John’s (Minnesota); D.V.M., 1984, Minnesota; Ph.D., 1991, Michigan State.

YAGER, SUSAN F.

YAN, JUE

YANG, BING
Assistant Professor of Genetics, Development and Cell Biology. B.S., 1986, M.Sc., 1989, Southwest Forestry; Ph.D., 2000, Kansas State.

YANG, XIAO-BING

YARGER, DOUGLAS N.
Emeritus Professor of Geological and Atmospheric Sciences; Emeritus Professor of Agronomy. B.S., 1959, Iowa State; M.S., 1962, Ph.D., 1967, Arizona.

YATES, STANLEY MARTIN

YE, YIMIN
Lecturer in Economics. Bachelor of Law, 1998, Electronic Science and Technology (China); M.S., 2005, Ph.D., 2010, Texas (Dallas).

YEARNS, MARY HOLT

YEUNG, EDWARD S.
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. A.B., 1988, Cornell; Ph.D., 1972, California (Berkeley).
YILMAZ, SEDA

YIN, YANHAI
Associate Professor of Genetics, Development and Cell Biology. B.S., 1985, Sichuan; Ph.D., 1997, Scripps Research Institute.

YOOK, KYOUNG-JIN
Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1985, M.S., 1987, Korea; Ph.D., 1995, Iowa State.

YOST, BAMBI L.

YOUNG, BING-LIN
Emeritus Professor of Physics and Astronomy. B.S., 1959, National Taiwan; Ph.D., 1966, Minnesota.

YOUNG, DONALD F.
Emeritus Professor of Aerospace Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1951, M.S., 1952, Ph.D., 1956, Iowa State.

YOUNG, JERRY W.

YOUNG, JESSICA LYNN
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2000, Coe College; D.V.M., 2004, Iowa State.

YOUNQUIST, GORDON R.
Emeritus Professor of Chemical and Biological Engineering. B.S., 1958, Minnesota; M.S., 1960, Ph.D., 1962, Illinois.

YOUNGS, CURTIS R.
Associate Professor of Animal Science. B.S., 1981, Ph.D., 1985, Minnesota.

YU, CHENXU
Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1993, Nanjing (China); M.S., 1998, Dalian (China); Ph.D., 2003, Wisconsin.

YU, CINDY LONG
Associate Professor of Statistics. B.S., 1995, Sichuan (China); M.S., 2000, Minnesota; Ph.D., 2005, Cornell.

YU, EDWARD WA-ON

YU, JIANMING
Associate Professor of Agronomy. B.S., 1994, Northwestern Agriculture and Forestry (China); M.S., 2000, Kansas State; Ph.D., 2003, Minnesota.

Z

ZABOTINA, OLGA
Assistant Professor of Biochemistry. Biophysics and Molecular Biology. M.S., 1982, Kazan State (Russia); Ph.D., 1987, Kazan Institute of Biology (Russia).

ZACHARY, LOREN W.
Professor of Aerospace Engineering; Professor of Agricultural and Biosystems Engineering. B.S., 1966, M.S., 1974, Ph.D., 1976, Iowa State.

ZACHOVAL, FILIP
Lecturer of World Languages and Cultures. Magistr, 2003, Charles (Prague); Ph.D., 2011, Texas.

ZAFFARANO, BIANCA A.
Clinician in Veterinary Clinical Sciences. BSN, 1979, Iowa; D.V.M., 1986, Iowa State.

ZALESNY, RONALD JR.
Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1999, Minnesota; Ph.D., 2003, Iowa State.

ZAMBRANO, JOSEPH

ZAROS, KIMBERLY ELMAN

ZARING, PHILIP BREWER

ZBARACKI, RICHARD J.
Emeritus Professor of School of Education; Emeritus Professor of English. B.A., 1953, St. Thomas; M.A., 1954, Northwestern; Ph.D., 1970, Nebraska.

ZDORKOWSKI, GRETCHEN ANNE

ZEIGLER, LYNN JAY

ZHANG, JIANQIANG
Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. M.D., 1996, Beijing Medical University; M.S., 1999, Institute of Virology (Beijing); Ph.D., 2005, Kentucky.

ZHANG, QI JING
Professor of Veterinary Microbiology and Preventive Medicine; Associate Dean of the College of Veterinary Medicine. D.V.M., 1983, Shandong Agricultural (China); M.S., 1986, National Control Institute of Veterinary; Ph.D., 1994, Iowa State.

ZHANG, SHENG LAN

ZHANG, SONG
Assistant Professor of Mechanical Engineering. B.S., 2000, Sciences and Technology (China); M.S., 2003, Ph.D., 2005, Stony Brook.

ZHANG, TING
Assistant Professor of Computer Science. B.S., 1996, Peking (China); M.S., 2001, Ph.D., 2006, Stanford.

ZHANG, WEI

ZHANG, WENS HENG
Associate Professor of Computer Science. B.S., 1997, Tongji (China); M.S., 2000, Chinese Academy of Science; Ph.D., 2005, Pennsylvania State.

ZHANG, ZHAO
Associate Professor of Electrical and Computer Engineering. B.S., 1991, M.S., 1994, Huazhong (China); Ph.D., 2002, William and Mary.

ZHAO, YAN
Associate Professor of Chemistry. B.S., 1992, Lanzhou (China); Ph.D., 1996, Northwestern.

ZHENG, TIAN SHU

ZHU, JIANG PING
Assistant Professor of Community and Regional Planning. B.U.P., 1997, Tianjin (China); M.U.P., 2005, Illinois; Ph.D., 2010, Southern California.
ZHU, DAN
Associate Professor of Supply Chain and Information Systems; Associate Professor of Computer Science. B.E., 1985, Beijing Polytech; M.S., 1988, Academia Sinica (China); Ph.D., 1995, Carnegie-Mellon.

ZHU, ZHENGYUAN
Associate Professor of Statistics. B.S., 1997, Fudan (China); Ph.D., 2002, Chicago.

ZHYLEVSKYY, OLEKSANDR

ZIEMER, CHERIE
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1980, M.S., 1982, Wisconsin (Platteville); M.S., 1990, Pennsylvania State; Ph.D., 1997, Minnesota.

ZIMMERMAN, DAVID

ZIMMERMAN, JEFFREY J.
Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1978, Nebraska (Omaha); D.V.M., 1984, M.S., 1986, Ph.D., 1990, Iowa State.

ZIMMERMAN, ZORA DEVRNJA
Professor of English; Associate Dean of the College of Liberal Arts and Sciences. B.A., 1967, Ph.D., 1974, New York (Buffalo).

ZMOLEK, WILLIAM G.
Emeritus Professor of Animal Science. B.S., 1944, M.S., 1951, Iowa State.

ZOLA, JAROSLAW SYLWESTER
Research Assistant Professor of Electrical and Computer Engineering. M.Sc., 2001, Czestochowa (Poland); Ph.D., 2005, National Polytechnique De Grenoble.

ZURLINDEN, ROBIN ALEXANDER
Adjunct Instructor in Veterinary Clinical Sciences. B.Sc., 2003, Simon Fraser (Canada); D.V.M., 2008, Saskatchewan (Canada).

ZYTOWSKI, DONALD G.
