Agricultural Education and Studies

Undergraduate Study

For undergraduate curricula in agriculture and life sciences education, and agricultural studies, leading to the degree of bachelor of science, see College of Agriculture and Life Sciences, Curricula.

The department offers two curricula for students desiring to enter careers in agriculture and related fields. These curricula are agriculture and life sciences education, and agricultural studies. The agricultural and life sciences education curriculum prepares persons for careers as agricultural education instructors, and educational specialists for industry, nonprofit organizations, and governmental agencies. The agriculture and life sciences education curriculum has two options, teacher certification and communications. The agricultural studies curriculum prepares persons for careers in production agriculture and agricultural industry. Graduates of both curricula accept positions in agricultural business, industry, agencies, and production agriculture.

Graduates will have a broad base of agricultural knowledge, and will be skilled in decision making, planning, organizing, presenting, and evaluating information. Through the successful completion of the required coursework, active participation in clubs and organizations, and the acquisition of technical skills and experiences associated with work experiences, internships, and international travel, graduates of our baccalaureate programs meet the university, college, and departmental outcomes in the following nine areas:

1. professional, interpersonal, and cross-cultural communications
2. Problem solving and critical thinking
3. leadership
4. entrepreneurship
5. life-long learning
6. ethics
7. environmental awareness
8. U.S. diversity
9. international perspectives.

More information regarding the departmental learning outcomes can be found at www.ageds.iastate.edu/assessment/agedsindex.htm.

Minor - Agriculture and Life Sciences Education

The department offers a minor in agriculture and life sciences education which may be earned by completion of a minimum of 15 credits in agricultural education and studies courses, with a minimum of two courses at the 400 level. Courses that can be taken for a minor are:

Graduate Study

The department offers the degrees of master of science, and doctor of philosophy, with a major in agricultural education; master of agriculture, with a major in professional agriculture; a specialization in agricultural extension education; opportunities for emphasis in international agricultural education; and a minor for students majoring in other curricula. Graduate students who have earned a bachelor’s degree in an agricultural discipline may plan a course of study that leads to teacher certification. Candidates pursuing the master of science degree may do so by completing either a thesis or nonthesis program of study. The master of agriculture, professional agriculture degree is nonthesis only; this interdepartmental graduate program in professional agriculture is designed for off-campus students; see Off-Campus Credit Courses and Programs.

Students have an opportunity to develop competence in disciplinary foundations and ethics, program planning, learning theory, instructional methods, program leadership and administration, program evaluation, research methodologies, data analysis and interpretation, writing for publication, and grant proposal writing. The department also cooperates in the international development studies option of the General Graduate Studies Program. Courses and workshops are offered, both on and off campus, for extension educators, teachers, and industry and government personnel.

Curriculum in Agricultural and Life Sciences Education

Administered by the Department of Agricultural Education and Studies. Students majoring in Agricultural Education choose between two options: Teacher Certification or Communications.

Total Degree Requirement: 128 cr.

Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA. Teacher certification requires 2.5 GPA at particular points in the program of study, and C- in selected courses.

International Perspective: 3 cr.

U.S. Diversity: 3 cr.

Communications Proficiency:

6 cr. of English composition with a C or better and 3 cr. of speech fundamentals with a C or better.

Interpersonal and Public Communication 9.5 cr.:

AGEDS 311. Presentation and Sales Strategies for Agricultural Audiences. (3-0) Cr. 3. F.S. Utilizing instructional methods, techniques, and problem solving, presentation and sales strategies with agricultural audiences.

AGEDS 312. Science With Practice. (1-6) Cr. 3. Repeatable. F.S. Prereq: College of Agriculture and Life Sciences majors only A planned learning experience wherein each student and faculty mentor develops a learning agreement that encompasses specific activities and expectations. Students are engaged in reflective activities that include journals, micro-reflections, formal presentations, and a comprehensive portfolio.

AGEDS 315. Personal, Professional, and Entrepreneurial Leadership in Agriculture. (3-0) Cr. 3. F.S. Leadership principles and strategies to influence and motivate team members to achieve personal, professional, and entrepreneurial goals in production agriculture, agricultural education, and agricultural organizations.

AGEDS 327. Advanced Communications for Agriculture and Life Sciences (2-2) Cr. 3. F.S. Prereq: ENGL 250 or equivalent. Development of written, oral, visual and electronic communications relevant to agriculture and life sciences. Students develop skills and perspectives consistent ethical and democratic principles applicable to agriculture, natural resource, and life science issues. Provide explanations of scientific and technical concepts to rural, industry, and urban audiences. Field trips.
AGEDS 398. Cooperative Education.  
Cr. R. F.S.SS. Prereq: Permission of the department cooperative education coordinator; junior classification  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

AGEDS 401. Planning Agriculture and Life Sciences Education Programs.  
(Dual-listed with AGEDS 501). (3-0) Cr. 3. F. Prereq: AGEDS 310  
Responsibilities of an agricultural education teacher, curriculum development, experiential learning opportunities including FFA and SAE, and assessment and maintenance of program quality.

AGEDS 402. Methods of Teaching in Agriculture and Life Sciences.  
(Dual-listed with AGEDS 502). (3-0) Cr. 3. F. Prereq: Concurrent enrollment in AGEDS 401  
Topics include: principles of teaching and learning, individualized and group methods, application of learning, instructional management, special populations, and evaluation.

AGEDS 412. Internship in Agricultural Education and Studies.  
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: AGEDS 211, junior classification in AGEDS and permission of instructor  
A supervised two to twelve week learning experience in an approved learning setting with application to educational, agricultural and/or environmental practices and principles. Nonmajor graduate credit.

AGEDS 414. Developing Agricultural Education Programs in Non-Formal Settings.  
(2-0) Cr. 2. S. Prereq: AGEDS 211 and permission of instructor  
Basic concepts in planning, conducting, and evaluating educational programs in non-formal settings. Includes programming for youth and adults in Extension, agricultural industry, and related agencies. Nonmajor graduate credit.

AGEDS 416. Pre-Student Teaching Experience in Agricultural Education.  
Cr. 1. F.S. Prereq: AGEDS 211, AGEDS 402 and admission to teacher education program  
A forty hour field-based experience in an approved secondary agricultural education program. Concurrent enrollment in 417 is required.

AGEDS 417. Supervised Teaching in Agriculture and Life Sciences.  
Cr. 1-15. Repeatable. F.S. Prereq: AGEDS 211, AGEDS 402 and admission to teacher education program  
Supervised teaching in public schools.

AGEDS 450. Farm Management and Operation.
