

# Biological/Pre-Medical Illustration

## Undergraduate Study

The interdepartmental undergraduate BPM I major is designed for students who want to combine their interests and aptitudes in science and art. Based on the theme of "communicating science through art," the major prepares students for careers in biological illustration or for graduate education in medical illustration elsewhere. Graduates enter fields such as biocommunications, environmental display design, free-lance illustration, museum display design, and various careers in the publishing industry.

Entrance into the BPM I program is by application to the BPM I Advisory Committee. Eligibility is based on an academic standard of at least 2.00 CGPA on 30 credits of university level work and a consideration of artistic ability as demonstrated through submission of a portfolio of representative drawings or other art work. Freshman and transfer students usually declare pre-BPM I as their major while satisfying the conditions for entrance into the major, although other majors can be declared.

To earn the B.A. degree offered by the College of Liberal Arts and Sciences, students must complete the general education requirements in that college and take at least 41 credits in design and 32 credits in the biological sciences.

Design courses	29
DSN S 131	Design Representation
ARTIS 230	Drawing II
ARTIS 233	Watercolor Painting
ARTIS 308	Computer Modeling, Rendering and Virtual Photography
ARTIS 330	Drawing III: Life Drawing
BPM I 323	Scientific Illustration Principles and Techniques
BPM I 326	Illustration and Illustration Software
BPM I 327	Illustration as Communication
BPM I 337	Application of Scientific Illustration Techniques
BPM I 497	Illustration Internship
12 credits chosen from a list of approved upper level courses in art and design	12
Biological Science courses	24
LAS 101	Orientation for Open Option and Preprofessional Students
BIOL 211	Principles of Biology I
BIOL 211L	Principles of Biology Laboratory I
BIOL 212	Principles of Biology II
BIOL 212L	Principles of Biology Laboratory II
BIOL 255	Fundamentals of Human Anatomy
BIOL 256	Fundamentals of Human Physiology
BIOL 351	Comparative Chordate Anatomy
One of the following	3
BIOL 356	Dendrology
BIOL 366	Plant Systematics
BIOL 454	Plant Anatomy
9 credits chosen from a list of approved biological science courses	9

Chemistry and Mathematics are also required as supporting courses. Students must earn a grade of C- or better in all art and science courses included in the major and must earn a cumulative GPA of 2.00 in both categories. A brochure is available in 102 Catt Hall that gives a detailed listing of the requirements.

Communication Proficiency Requirement. Students must earn a minimum of C in both ENGL 150 and ENGL 250 or equivalent composition courses and in one advanced writing course numbered ENGL 302 through ENGL 316.

Students in BPM I must complete a senior project or an internship experience (BPM I 497) in which they design and produce artwork that is suitable for publication or public display.

## Minor

A minor in biological illustration is offered. A minimum of 17 credits must be taken, including 8 credits in biological science courses and 9 credits in art and design courses.

The biological sciences must include:

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1

The art and design courses must include:

BPM I 323	Scientific Illustration Principles and Techniques	3
BPM I 337	Application of Scientific Illustration Techniques	3
Advanced drawing, illustration, electronic media or painting course		

For more information, contact the BPM I adviser in 102 Catt Hall or view the website listed above.
