The Master of Arts (MA) degree programs offer advanced study of literature, language, and writing. The degree requires a minimum of 30 hours of graduate credit, including a final thesis or creative component (3 credits). Both the MA in English (https://www.engl.iastate.edu/english) and the MA in TESL/Applied Linguistics (https://apling.engl.iastate.edu/ma-program-in-teslapplied-linguistics) have language requirements that may be fulfilled in a number of ways (students whose native language is other than English are considered to have met the language requirement after satisfying the Graduate College English requirement).

Students admitted to the MA in English (https://www.engl.iastate.edu/english) choose between two areas of specialization. The Literature specialization is designed to prepare students for a variety of career paths. These include going on for a PhD; teaching at the secondary, two- and four-year college, and university levels; and working in fields such as publishing, research, and administration, or non-profit organizations. The Literature and the Teaching of Reading specialization is designed for students with a teaching license who wish to take graduate literature courses and work toward a reading endorsement by taking three reading courses in Curriculum and Instruction.

The MA in Rhetoric, Composition, and Professional Communication (RCPC) (https://www.engl.iastate.edu/rpc/graduate-programs/ma-rcpc) prepares students for careers in business, technical, and professional communication in the private and public sectors and for teaching writing and communication at the postsecondary level.

The MA in TESL/Applied Linguistics (TESL/AL) (https://apling.engl.iastate.edu/ma-program-in-teslapplied-linguistics) prepares students for careers in teaching English to non-native speakers of English, either in the U.S. or abroad. Students with MA degrees in TESL teach adults and younger learners in a wide variety of contexts, supervise language programs, work for testing organizations, and create language teaching materials. Students admitted to the degree program can choose among optional specializations: Computer-Assisted Language Learning (CALL); Language Assessment; English for Specific Purposes (ESP); Literacy; Literature in ESL; Teaching English to L1 Spanish Learners; and Corpus and Computational Linguistics.

The Master of Fine Arts (MFA) program in Creative Writing and Environment (CWE) (https://www.engl.iastate.edu/creative-writing/mfa-program-in-creative-writing-and-environment) cultivates in its students an interdisciplinary approach to research and writing. The program’s unique design allows writers to develop a heightened environmental imagination that finds expression in quality, publishable works of fiction, nonfiction, poetry, and drama. The program is designed to prepare students for careers as writers, teachers, editors, and environmental educators. The MFA degree requires 54 hours of graduate credit: a core of creative writing and other English courses, a book-length thesis (6 credits), experiential environmental fieldwork (3 credits), and 12 credits in disciplines other than English (such as Landscape Architecture, Anthropology, or Environmental Science, among many others) relevant to an individual student’s research interests and thesis project.
The Doctor of Philosophy (PhD) in Applied Linguistics and Technology (ALT) (https://apling.engl.iastate.edu/ph-d-in-applied-linguistics-and-technology) focuses on English language description, teaching, learning, and assessment, with particular emphasis on issues and practices related to technology: analysis of language using computational and corpus linguistic methods as well as the study of computer technology in English language teaching, learning, and assessment. The degree prepares students for a variety of academic appointments in departments of applied linguistics and English and for professional opportunities in research and development, international publishing, and government agencies in the U.S. and around the world where English is taught and used for specific educational, vocational, and professional purposes. Candidates are required to complete 72 hours of graduate credit including a dissertation; to meet a language requirement that may be fulfilled in a number of ways (students whose native language is other than English are considered to have met the language requirement after satisfying the Graduate College English requirement); and to pass a portfolio assessment, a preliminary examination (consisting of a dissertation proposal and pilot study and written response to questions about them), and an oral defense of the dissertation.

The PhD in Rhetoric and Professional Communication (RPC) (https://www.engl.iastate.edu/rpc/graduate-programs/phd-rpc) focuses on the rhetorical theory, history, pedagogy, and practice of written, oral, visual, and electronic communication (WOVE) in professional communities such as business, industry, science, and government. The degree prepares graduates for academic positions in rhetoric, in multimodal composition, and in business, professional, and technical communication, as well as for work in the private and public sectors as professional communication specialists, editors, designers, and communication managers. Candidates are required to complete 72 hours of graduate credit including a dissertation and to pass a portfolio assessment, a preliminary examination (consisting of a written comprehensive examination and a special field examination), and an oral defense of the dissertation.

A Graduate Certificate in Teaching English as a Second Language/Teaching English as a Foreign Language (TESL/TEFL) (https://apling.engl.iastate.edu/tesltefl-graduate-certificate) prepares students to teach English to non-native speakers of English either in the U.S. or abroad. It offers students grounding in the linguistic understanding of English and a flexible program of study with courses in teaching methodology, language assessment, and the use of technology to address students’ language needs. This 12-credit program has two prerequisites, one core requirement, and three graduate course electives.

The department offers graduate students an opportunity to gain professional experience through fieldwork and internships, departmental research activities, ISUCComm (https://www.engl.iastate.edu/isucomm), the Intensive English and Orientation Program (IEOP) (https://ieop.iastate.edu), and the Speech Communication Program. Teaching and research assistantships are available for qualified students. Teaching assistants are responsible for teaching, with faculty supervision, ISUCComm Foundation Courses, courses in public speaking, English as a Second Language (ESL), and business and technical communication. Research assistants may be assigned to faculty members engaged in research projects. One or more Pearl Hogrefe Fellowships in Creative Writing (https://www.engl.iastate.edu/creative-writing/how-to-apply/pearl-hogrefe-fellowship-in-creative-writing), covering stipend and tuition, are awarded each year to outstanding graduate students. Freda Huncke Endowment Graduate Teaching Fellowships are awarded to select first-year students.

With prior written approval from the School of Education, students may use selected courses to meet requirements for the ESL endorsement (K-12) for teachers.

The English Department offers minors in each of its graduate programs. A graduate minor at the MA level requires 9 credits of English at the 500 or 600 level in the respective major (English, RCPC, TESL/AL). A graduate minor at the MFA level requires 12 graduate credits of creative writing with 3 of those credits being ENGL 550 Creative Writing: Craft and Professional Practice. A graduate minor at the PhD level requires 12 credits at the 500 or 600 level in the respective major (ALT or RPC).

Environmental Science

From the College of Liberal Arts and Sciences

http://www.ensci.iastate.edu

Interdepartmental Undergraduate Programs

Environmental Science provides an integrated, quantitative, and interdisciplinary approach to the study of environmental systems. The magnitude and complexity of environmental problems are creating a growing need for scientists with rigorous, interdisciplinary training in environmental science. The Environmental Science program is designed to prepare students for positions of leadership in this rapidly changing discipline. Environmental Science graduates have a solid foundation in biological and physical natural sciences and the specialized training necessary for integrated analysis of environmental systems.

Undergraduate Study

The Environmental Science undergraduate major is offered through both the College of Agriculture and Life Sciences and the College of Liberal Arts and Sciences. Environmental Science majors complete foundation courses in biology, chemistry, earth science, geology, physics and mathematics, plus a major consisting of an integrated core of Environmental Science courses and additional advanced course work in Environmental Science. Scientific rigor is stressed throughout the program, beginning with the foundation courses in the first two years
of the curriculum. The upper level core courses emphasize a dynamic systems approach that provides a framework for integrating physical, chemical, and biological aspects of environmental systems.

Students seeking an Environmental Science major complete the following:

1. A foundation of approved supporting courses in science and mathematics including biology, chemistry, earth science, physics, calculus, and statistics.

2. 32 credits of coursework in the major, including a required core of 20 credits.

A combined average grade of C or higher is required in courses applied in the major.

### 1. Environmental Science: 32 credits

Students in all ISU majors must complete a 3 credits in U.S. diversity and a 3 credits in international perspectives. Check the Environmental Science website (http://www.ensci.iastate.edu) for a list of approved courses. Minimum of 120 credits required, including a minimum of 45 credits at the 300/400 level.

1. Students complete at least 2-7 credits in Environmental Science including ENSCI 110, 201, 250, 381, 382 and 15 additional credits of approved ENSCI coursework.
2. Students complete at least 12 credits in arts and humanities and 9 credits in social science from approved lists. These credits can also be used to meet the U.S. Diversity and International Perspectives requirements.
3. Students choose one course from the following Earth Science related courses: AGRON 182, BIOL 212, GEOL 100, GEOL 201, MTEOR 206. Students choose from one of the following Organic Chemistry options: CHEM 231 & 231L, BBMB 2221, or AGRON 259.
Graduate Study

Contact information for the graduate program:
Lynette Edsall
camelot@iastate.edu (mstolt@iastate.edu)
515-294-1191
https://enscigrad.iastate.edu/

The Environmental Science graduate program offers an interdepartmental curriculum leading to M.S. and Ph.D. degrees with a major in Environmental Science. Faculty from the colleges of Agriculture and Life Sciences, Engineering, and Liberal Arts and Sciences cooperate to offer courses and research opportunities covering a broad array of environmental topics. Cooperating departments include Agricultural and Biosystems Engineering; Agronomy; Animal Science; Civil, Construction and Environmental Engineering; Ecology, Evolution and Organismal Biology; and Geological and Atmospheric Sciences.

Applicants should have completed an undergraduate or master's degree in one of the biological, chemical, physical, or engineering sciences or should have equivalent preparation.

The Environmental Science Graduate Program emphasizes fundamental concepts and research, which at the same time address major environmental issues. The curriculum is designed to provide the interdisciplinary approach needed in environmental science education and research. In addition to work in their chosen area of specialization, students are afforded a broad exposure to the biological, chemical and physical aspects of environmental systems and the specialized training necessary for integrated analysis of these systems.

Information on application procedures, curriculum requirements, and faculty research areas is available on the Environmental Science Graduate Program website (https://enscigrad.iastate.edu/).

Environmental Studies

Interdepartmental Undergraduate Program

Environmental Studies deals with the relationship and interactions between humans and the environment. Students in any college at ISU may elect to take a secondary major or minor in Environmental Studies. The curriculum is designed to give students an understanding of current and emerging environmental issues and an appreciation of different perspectives regarding these issues. Courses are provided for students pursuing careers related to the environment and for others who simply want to know more about environmental issues.

Secondary Major

The Environmental Studies secondary major is taken in addition to a first major and provides the breadth of preparation and integrated perspective necessary to understand environmental issues. Students seeking a major in Environmental Studies complete 24 credits of ENV S coursework including:

At least one general survey course chosen from:
- ENV S 101 Environmental Geology: Earth in Crisis
- ENV S 120 Introduction to Renewable Resources
- ENV S 173 Environmental Biology
- ENV S 201 Introduction to Environmental Issues

At least one integrative/issues course chosen from:
- ENV S 160 Water Resources of the World
- ENV S 204 Biodiversity
- ENV S 324 Energy and the Environment
- ENV S 342 World Food Issues: Past and Present
- ENV S 404 Global Change
- ENV S 424 Sustainable and Environmental Horticulture Systems
- ENV S 450 Issues in Sustainable Agriculture

At least two human/societal perspectives courses chosen from:
- ENV S 293 Environmental Planning
- ENV S 320 Ecofeminism
- ENV S 334 Environmental Ethics
- ENV S 345 Population and Society
- ENV S 355 Literature and the Environment
- ENV S 363 U. S. Environmental History
- ENV S 380 Energy, Environmental and Resource Economics
- ENV S 382 Environmental Sociology
- ENV S 383 Environmental Politics and Policies
- ENV S 384 Religion and Ecology
- ENV S 442 The Policy and Politics of Coastal Areas
- ENV S 484 Sustainable Communities
- ENV S 491 Environmental Law and Planning

Beyond these three requirements, any Environmental Studies course and up to six credits of approved environmental coursework outside of Environmental Studies may be applied toward the 24 credit total for the major. Regardless of their home college, Environmental Studies majors must complete at least 9 credits of approved coursework in natural science. Unless prohibited by program or college rules, courses used to fulfill requirements of the Environmental Studies major may also be used to satisfy general education and other requirements of departments and colleges. A combined average grade of C or higher is required in courses applied to the major.
Minor

Students seeking a minor in Environmental Studies complete 15 credits of approved Environmental Studies coursework including:

At least one general survey course chosen from:

<table>
<thead>
<tr>
<th>Course</th>

</table>

A combined average grade of C or higher is required in courses applied to the minor, and the minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Genetics

Clark R. Coffman, Chair, Genetics Major Committee

Genetics is the scientific study of heredity. Understanding the basis of heredity is fundamental to all aspects of the life sciences, from the most basic molecular study to applied studies of agricultural species. At Iowa State University the study of the life sciences is interdepartmental, involving faculty in the basic, agricultural, and veterinary sciences.

Faculty in 20 different departments are involved in genetics research. This large group of faculty presents a broad range of possibilities for students to learn from faculty who are at the forefront of research in many areas of genetics.

Undergraduate Study

Undergraduate study in genetics is jointly administered by three departments: the Roy J. Carver Department of Biochemistry, Biophysics, and Molecular Biology; the Department of Genetics, Development, and Cell Biology; and the Department of Ecology, Evolution, and Organismal Biology. Undergraduate degrees are offered through both the College of Agriculture and Life Sciences and the College of Liberal Arts and Science. Programs of study for genetics majors leading to a B.S. degree are available.

Training in genetics may lead to employment in teaching, research, or a variety of health-related professions. Although some students find employment directly after their baccalaureate training, many students continue their education in graduate or professional programs. Students with the B.S. degree may find employment in the biotechnology, health, or food industries. Recent graduates have also developed careers in conservation biology, technical writing, science journalism, technical sales, and business.

The required course work and associated electives provide students with the foundation in basic life sciences, mathematics, chemistry, and physics that is essential for professions involving modern biological/biomedical sciences. As part of these courses students develop skills in problem solving, critical thinking, writing, and research-related activities in the biological sciences.

Specific entrance requirements for medical and health-related professions are established by the professional schools. Students interested in fulfilling pre-professional requirements for such professions as dentistry, human medicine, genetic counseling, optometry, pharmacy, physical therapy, physicians assistant, and veterinary medicine can major in genetics while fulfilling the pre-professional requirements.

Curriculum in Genetics - Requirements

Total Degree Requirement: 120 cr.

A maximum of 65 cr. from a two-year institution can be applied that may include up to 16 technical cr.; up to 9 Pass-Not Pass cr. of free electives can be applied; a cumulative GPA of at least 2.0 is required for graduation. Program-approved lists can be found on the Genetics website.

1. Genetics and Life Sciences

A grade of C– or better is required in all Genetics and Life Science courses.

[461x750]
### Genetics, Development and Cell Biology

The Department of Genetics, Development and Cell Biology (GDCB) is dedicated to biological discovery and excellence in undergraduate and graduate education. The research and teaching mission of the department is to achieve a greater understanding of fundamental principles of life by focusing on basic cellular and subcellular processes, including genome dynamics, cell structure and function, cellular response to environmental and developmental signals, and molecular mechanisms of development. Recognizing that student education is of paramount importance, GDCB strives for excellence in teaching and research. GDCB plays a leading role in undergraduate and graduate training through a variety of activities, including traditional courses, undergraduate internships in research laboratories, and advanced graduate seminar and literature-based courses. Innovative approaches to learning are emphasized throughout the curriculum.

### Undergraduate Study

The Department of GDCB offers undergraduate majors in conjunction with other departments. Students interested in the areas of genetics, development and cell biology should major in biology, genetics or bioinformatics and computational biology (BCBio). The biology major is administered and offered jointly by the GDCB and Ecology, Evolution and Organismal Biology (EEOB) departments. The GDCB faculty, together with those in EEOB and the Department of Biochemistry, Biophysics
and Molecular Biology (BBMB), administer and offer the genetics major. Each of these majors is available through the College of Liberal Arts and Sciences or through the College of Agriculture and Life Sciences. BCBio is administered by GDCB and the Departments of Computer Science and Mathematics, and it is available through the College of Liberal Arts and Sciences.

The biology major and the genetics major prepare students for a wide range of careers in biological sciences. Training in biology or genetics may lead to employment in teaching, research, or any of a variety of health-related professions. Some of these careers include biotechnology, human and veterinary medicine, agricultural sciences and life science education. BCBio majors are prepared for careers at the interfaces of biological, informational and computational sciences in the above fields. These majors are also excellent preparation for graduate study in bioinformatics, molecular genetics, cell and developmental biology, neuroscience and related fields. Faculty members in GDCB contribute to the undergraduate courses listed below. The full descriptions of these courses can be found in the biology, genetics and BCBio sections of the catalog.

### Graduate Study

Understanding the genetic blueprint and the functions of cells is critical to virtually all aspects of biology. The basic mission of the Department of GDCB is to achieve a greater understanding of fundamental principles of life. The GDCB faculty and students conduct hypothesis-driven research into the biology of animals, plants and microbes. While research in GDCB is often based on discovery and analysis of molecular mechanisms of life processes, a true understanding of living organisms will ultimately require the integration of molecular mechanisms in the context of dynamic structural components of the living cell. Thus, research efforts within GDCB use molecular, genetic, biochemical, computational and imaging techniques to study systems at increasingly complex levels of organization.

GDCB faculty contribute to a broad but integrated array of cutting-edge research topics. Faculty implement interactive and multidisciplinary approaches that bridge conventional boundaries, and they incorporate experimental and computational biology as complementary approaches. Examples include using genetics and molecular biology to investigate the cellular basis of development, or combining biochemical and computational approaches to study basic subcellular functions, signal transduction or metabolism.

The faculty in the GDCB Department train graduate students in several interdepartmental majors/programs, including bioinformatics.
and computational biology; ecology and evolutionary biology; genetics; immunobiology; plant biology; interdisciplinary graduate studies; microbiology; molecular, cellular and developmental biology; neuroscience; and toxicology. Graduate work leading to degrees in the master of science (M.S.) and doctor of philosophy (Ph.D.) is available.

Prospective graduate students need a sound background in the physical and biological sciences, as well as mathematics and English. Interested students should check the links on the GDCB website ([www.gdcb.iastate.edu/](http://www.gdcb.iastate.edu/)) for specific admissions procedures and the latest information about individual faculty and their research programs. The interdepartmental majors and programs require submission of Graduate Record Examination (GRE) aptitude test scores. Advanced GRE scores are recommended. International students whose native language is other than English must also submit TOEFL scores with their application.

Students who are enrolled in the interdepartmental graduate majors and who have affiliations with GDCB are required to actively participate in seminars and research activities, and they are required to show adequate progress and professional development while pursuing their degree. Completion of either the M.S. or Ph.D. requires that research conducted by the student culminates in the writing and presentation of a thesis or dissertation. The Graduate College, the GDCB faculty, and the individual student's major professor and Program of Study Committee provide requirements and guidelines for study. General information about graduate study requirements can be found at the website for the Graduate College ([www.grad-college.iastate.edu/](http://www.grad-college.iastate.edu/)), and requirements for the interdepartmental majors can be found by following the links from the GDCB website ([www.gdcb.iastate.edu/](http://www.gdcb.iastate.edu/)). Although not a formal requirement, the GDCB faculty recommends that students pursuing the Ph.D. include teaching experience in their graduate training.

**Geology**

The bachelor of science in Geology prepares the student for a professional career and/or graduate study in the geological sciences. Graduates work to understand natural processes on Earth and other planets. They are able to apply their knowledge of forces and factors that shape the Earth to reconstruct the past and anticipate the future. Graduates provide essential information for solving problems for resource management, environmental protection, and public health, safety, and welfare. They work as consultants on engineering and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, staff members in state and U.S. geological surveys, government regulators, teachers, writers, editors, and museum curators. Graduates are able to integrate field and laboratory data and to prepare reports. They are able to make presentations that include maps and diagrams that illustrate the results of their studies.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. At least 8 credits in the major from 300+ courses must earn grade C or better. The average grade of all courses in the major must be 2.0 or higher. You must also complete the LAS foreign-language requirement.

Choose from list of approved courses available from an adviser or the departmental office.
Graduate Study

The department offers programs leading to the master of science and doctor of philosophy with majors in Earth Science, Geology, and Meteorology. Program options are available for the M.S. and Ph.D. degrees in earth science leading to careers in teaching. The department also cooperates in the interdepartmental major in Water Resources (see Index). Students desiring a major in the above fields normally will have a strong undergraduate background in the physical and mathematical sciences. Individuals desiring to enter a graduate program are evaluated by considering their undergraduate background and performance and their expressed goals.

Programs of study are designed on an individual basis in accordance with requirements of the Graduate College and established requirements for each departmental major. Additional coursework is normally taken in aerospace engineering, agronomy (soil science), chemistry, civil and construction engineering, computer engineering, computer science, engineering mechanics, materials engineering, mathematics, mechanical engineering, microbiology, physics, or statistics. Departmental requirements provide a strong, broad background in the major and allow considerable flexibility in the program of each individual.

A dissertation is required of all Ph.D. candidates.

M.S. students in Geology are required to complete a thesis. The M.S. in Earth Science is available to students electing the non-thesis (Creative Component) option in Geology or Meteorology. A non-thesis option is also offered for the M.S. degree in Meteorology.

Graduates in Geology specialize in a subdiscipline, but they comprehend and can communicate the basic principles of geology and supporting sciences. They possess the capacity for critical and independent thinking. They are able to write a fundable research proposal, evaluate current relevant literature, carry out the proposed research, and communicate the results of their research to peers at national meetings and to the general public. They work as consultants on engineering and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, teachers, writers, editors, and museum curators.

Course requirements for the MS degree include MTEOR 542, 543, 507 or 518, 552 or 516x, and 502 or 504 or 505 or 605. In addition to the 5 required courses from this list, students must take at least 3 more credits of graduate course work in Meteorology, Agricultural Meteorology, or a field related to their research interests (students will work closely with their POS committee to determine the exact amount of structured course work required – typically this is 18-21 credits). Students without prior synoptic meteorology course work must complete MTEOR 511 and may substitute these credits in place of the required MTEOR 507 or 518 courses.

Graduates in Meteorology have a good comprehension of basic principles, a capacity for critical and independent thought and an ability to communicate effectively with scientific colleagues. They have an appropriate breadth in their understanding of meteorology with a suitable specialization. Graduates are able to undertake thorough research and explain the results in a scientifically reasonable fashion.

Greenlee School of Journalism and Communication

http://www.greenlee.iastate.edu/

The Greenlee School of Journalism and Communication prepares students for the field of communication. The school offers three majors:

- Advertising Bachelor of Arts (ADVRT)
- Journalism and Mass Communication Bachelor of Science (JL MC)
- Public Relations Bachelor of Science (P R)

Professional skills are taught and practiced alongside academic requirements using the latest technology and leading-edge communication trends and methods.

Founded in 1905, the unit was one of the first journalism programs to be accredited in 1948 and continues to be one of the longest continuously accredited programs in the country. Accreditation is based on the principle that students need a broad-based, liberal arts education and solid core courses within the discipline. Students taking one major at the school may not seek a second major or minor in the school. All students are required to take a second major or minor outside the school as an area of expertise.

Undergraduate Study

Students who major in advertising, journalism and mass communication, or public relations are expected to develop competencies in 12 key areas:

- understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances;
- demonstrate an understanding of the history and role of professionals and institutions in shaping communications;
- demonstrate an understanding of gender, race ethnicity, sexual orientation and, as appropriate, other forms of diversity in domestic society in relation to mass communications;
- demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of mass communications in a global society;
• understand concepts and apply theories in the use and presentation of images and information;
• demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity;
• think critically, creatively and independently;
• conduct research and evaluate information by methods appropriate to the communications professions in which they work;
• write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve;
• critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;
• apply basic numerical and statistical concepts;
• apply current tools and technologies appropriate for the communications professions in which they work, and to understand the digital world.

Communication Proficiency Requirement
All majors in the School must complete ENGL 150 Critical Thinking and Communication (or be exempt) and earn a grade of C or better in ENGL 250, Oral, Visual, and Electronic Composition (or ENGL 250H). These additional requirements apply:

Advertising majors must earn a C+ or better in:
- JL MC 201 Reporting and Writing for the Mass Media 3
- ADVRT 334 Advertising Creativity 3
- ADVRT 336 Advertising Account Management 3

Journalism and mass communication majors must earn a C+ or better in:
- JL MC 201 Reporting and Writing for the Mass Media 3
- JL MC 302 Intermediate Reporting and Writing for the Mass Media 3
- JL MC 303 Reporting and Writing for Broadcast Media 3

Public relations majors must earn a C+ or better in:
- JL MC 201 Reporting and Writing for the Mass Media 3
- P R 321 Public Relations Writing 3

History
The History department offers courses leading to the B.A. and B.S. degrees in history, an M.A. in History, and a Ph.D. in Rural, Agricultural, Technological and Environmental History.

The History Major
History majors may earn either a bachelor of arts or bachelor of science degree. The minimum required for a major in history is 37 credits, including HIST 195 and HIST 495. At least 24 credits of HIST must be in courses numbered 300 or above. Students may take a maximum of 12 credits at the 200-level, a maximum of 15 credits at the 300-level, and must take a minimum of 12 credits at the 400-level or above. A minimum of 15 credits of HIST numbered 300 or above must be taken in residence at Iowa State. The department will accept a maximum of 6 credits of cross-listed courses originating in another teaching department toward the major degree. Candidates for the B.A. must complete two years of university-level study in one foreign language or the equivalent. Many history majors also pursue a minor in another discipline, a second major, or teacher certification.

Objectives for History Majors
1. Display the appropriate level of cognitive knowledge of historical themes and events based upon the student’s course of study
2. Display an understanding of past cultures and social organizations, based on the course of study
3. Develop the fundamental methodological skills of the historical craft:- The ability to contextualize and analyze primary source evidence.- Familiarity with the concepts of historical argument and interpretation, and the ability to formulate effective argumentation in written and oral forms.- Awareness of the basic historiography in selected research area.- The ability to conduct research and to write a historical essay based upon primary and secondary source research. Students receive an introduction to these concepts in HIST 195 Introduction to History.
4. Display a sophisticated understanding of the relationship between past events and the present. For purposes of outcomes assessment, all History majors must complete three credits of HIST 495 Historiography and Research Writing or, if qualified and willing, one graduate level writing/research seminar.

Communication Proficiency requirement: History majors must receive a grade of C or better in ENGL 250 (or ENGL 250H), and HIST 495 or any graduate seminar.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check [http://www.registrar.iastate.edu/courses/div-ip-guide.html](http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. For a history major, 15 credits of history at the 300/400 level must be taken at ISU. You must also complete the LAS foreign language requirement.

Students seeking teacher certification should contact the History Department directly for the latest information on specific course work required for certification by the State of Iowa. Course work in addition to the degree minimums may be required.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. For a history major, 15 credits of history at the 300/400 level must be taken at ISU. You must also complete the LAS foreign language requirement.

The BA in History requires the equivalent of 2 years of college-level study in the same foreign language. Six credits of electives may be replaced by 6 additional credits of foreign language.

Students seeking teacher certification should contact the History Department directly for the latest information on specific course work required for certification by the State of Iowa. Course work in addition to the degree minimums may be required.

**Minor**

The department offers a minor in History, which may be earned with 15 credits in History courses, of which at least 9 must be in courses numbered 300 or above, excluding HIST 490 Independent Study. A minimum of 9 credits numbered 300 or above must be taken at Iowa State. The College of Liberal Arts and Sciences requires students to earn a C or higher in at least 6 of the required 300-level credits. A student may count a maximum of 3 hours of cross-listed courses originating in another teaching department toward the minor in History. The History minor is most frequently chosen by students majoring in Political Science, English, Journalism, Computer Science, and Business.

**Graduate Study**

The History Department offers two graduate degrees: a M.A. in History and a Ph.D. in Rural, Agricultural, Technological and Environmental History.

Most history graduate courses are either proseminars or seminars. Proseminars acquaint students with the historical literature of a field and prepare them for careers in teaching and research. Seminars require students to conduct original historical research and to write research papers reporting the results.

The M.A. in history includes three options. See the departmental website on the M.A. in History for a full discussion of the options and requirements. An M.A. in History serves as the basis for continued study in history, as well as preparation for careers in law, education, business, and government service. Throughout world history human beings have depended on rural and agricultural communities as well as on the technologies developed and employed by these communities to sustain lives. Iowa State’s Doctoral Program in Rural, Agricultural, Technological and Environmental History offers a scholarly community and learning environment dedicated to the close examination of pervasive and enduring questions about these basic aspects of human history. Such questions can best be answered through the multi-faceted perspectives provided by rural, agricultural, technological, and environmental history. The result is a dynamic learning experience that leads to comparative and transnational analysis shaped by a broad range of methods drawn from the humanities and social/physical sciences. The Program’s aim is to produce students who are excellent researchers and engaging teachers, capable of succeeding in a broad variety of professional positions, both inside and outside of academia.

The Ph.D. in Rural, Agricultural, Technological and Environmental History is designed for students who have completed an M.A. in history. Those who have not yet completed an M.A. will be expected to complete the degree while progressing toward the Ph.D. Thirty semester hours of graduate credit are required for the M.A. and 72 for the Ph.D. Students who continue beyond the M.A. are expected to pass preliminary examinations in four areas of specialization, complete a dissertation, and defend it orally in the Ph.D. final examination. See the departmental website on the program for a full description of requirements.

**International Studies**

*Interdepartmental Undergraduate Major and Minor, Administered by the College of Liberal Arts and Sciences*

Through a combination of coursework and study abroad, students who complete a secondary major or minor in International Studies can prepare for careers or advanced study in the international arena, such as foreign service, journalism, advocacy organizations, scientific or research institutions, business, nongovernmental development organizations (NGOs), humanitarian agencies, environmental organizations, human rights organizations, think tanks, international agriculture, and international engineering. Students in International Studies gain an understanding of global issues, learn to communicate across cultures, develop awareness of cultural ideas and attitudes, and are well positioned to become global leaders in their chosen field.

A secondary major and a minor in International Studies are available for undergraduates. The program requirements are structured around a combination of a designated Topical Module and a Geographic Region, both selected by the student. Each student’s program of study is designed to reflect opportunities at Iowa State University as well as the academic, intellectual, and professional interests of the student.
Secondary Major
A student seeking a secondary major in International Studies must successfully complete two core courses plus courses in a selected Geographic Region and Topical Module; demonstrate proficiency in a language relevant to the selected geographic region (see below); and participate in a required study, service, or work abroad program (see below).

Requirements for the Secondary Major in International Studies:

- INTST 235 Introduction to International Studies
- INTST 430 Seminar in International Studies
- 9 credits of coursework (at least 6 of which are numbered 300 or above) from one of the following Geographic Regions:
  - Africa and the Middle East
  - Asia
  - Latin America
  - Western Europe
  - Russia, East Europe and Central Asia
- 9 credits of coursework (at least 6 of which are numbered 300 or above) from one of the following Topical Modules:
  - Global Environmental Issues
  - Globalization and Economic Development
  - International Issues in Science and Technology
  - International Communication
  - International Conflict
  - Social and Cultural Change
- 3 additional credits of coursework selected from either the Geographic Region or Topical Module.

Language Proficiency
- Proficiency in a world language that is relevant to the selected geographic region. This can be achieved by completing the 202 level (or higher) of the language or by passing an approved exam. Students whose first language is not English must still meet this requirement if their first language is not relevant to their selected geographic region.

Study/Service/Work Abroad Experience
- Study, service, or internship abroad for a minimum of 3 weeks, earning a minimum of 3 credits. The credits must be transferable to Iowa State.

Minor
A student seeking a minor in International Studies must successfully complete two core courses plus courses in a selected Geographical Region and Topical Module; demonstrate proficiency in a language relevant to the selected geographic region (see below); and participate in a required study, service, or work abroad program (see below).

Requirements for the Minor in International Studies:

- INTST 235 Introduction to International Studies
- INTST 430 Seminar in International Studies
- 6 credits of coursework (at least 3 of which are numbered 300 or above) from one of the following Geographic Regions:
  - Africa and the Middle East
  - Asia
  - Latin America
  - Western Europe
  - Russia, East Europe and Central Asia
- 6 credits of coursework (at least 3 of which are numbered 300 or above) from one of the following Topical Modules:
  - Global Environmental Issues
  - Globalization and Economic Development
  - International Issues in Science and Technology
  - International Communication
  - International Conflict
  - Social and Cultural Change
- Proficiency in a world language that is relevant to the selected geographic region. This can be achieved by completing the 202 level (or higher) of the language or by passing an approved exam.
- Study, service, or internship abroad for a minimum of 3 weeks, earning a minimum of 3 credits. The credits must be transferable to Iowa State.

Language Proficiency
- Proficiency in a world language that is relevant to the selected geographic region. This can be achieved by completing the 202 level (or higher) of the language or by passing an approved exam. Students whose first language is not English must still meet this requirement if their first language is not relevant to their selected geographic region.
whose first language is not English must still meet this requirement if
their first language is not relevant to their selected geographic region.

**Study/Service/Work Abroad Experience**
Study, service, or internship abroad for a minimum of 3 weeks, earning a
minimum of 3 credits. The credits must be transferable to Iowa State.

**Journalism and Mass Communication**

**The journalism and Mass Communication Major**
The journalism and mass communication major prepares students for
careers that involve all aspects of news and information. Emphasis is
placed on generating ideas, organizing, writing, editing and presenting
information for various media platforms and audiences. Students work
with advisers to develop a program of study that prepares them for work
in communication-specific areas including broadcast media, magazines
and/or newspapers, photo journalism, science communication, visual
communication and digital media. The capstone professional internship
experience, coupled with coursework that focuses heavily on writing,
research and professional abilities, provide opportunities for students to
practice and refine their skills.

To receive a bachelor of science degree in journalism and mass
communication, a student must earn at least 120 credits. A minimum of
72 credits must come from courses other than ADVRT, JL MC or P R. At
least 50 of these credits must come from the liberal arts and sciences.
Overall, at least 45 credits must be from 300-level or above. Journalism
and mass communication majors are required to take:

- **STAT 101** Principles of Statistics (or another approved
  statistics course) 4

The degree requirements allow for a minimum of 34 credits and a
maximum of 48 credits to be taken in ADVRT, JL MC and P R. These
include:

- **JL MC 101** Mass Media and Society 3
- **JL MC 110** Orientation to Journalism and Communication 1
- **JL MC 240** Principles of Journalism 3
- **JL MC 201** Reporting and Writing for the Mass Media (C+ or
  better) 3

One of the following two courses:

- **JL MC 302** Intermediate Reporting and Writing for the Mass
  Media (C+ or better)
- **JL MC 303** Reporting and Writing for Broadcast Media (C+ or
  better)
- **JL MC 460** Law of Mass Communication 3
- **JL MC 462** Media Ethics, Freedom, Responsibility 3

**JL MC 499A** Professional Media Internship: Required 3

Additional recommended courses and requirements for the journalism
and mass communication major are available from the Greenlee School.

Students taking one major at the school may not seek a second major
or a minor in the school. All Greenlee School majors are required to take
a second major or minor outside the school as an area of expertise. All
Greenlee School majors are required to take 499A. Greenlee majors and
minors cannot take ADVRT, JL MC or P R courses pass/not pass.

**Minor in Journalism and Mass Communication**
Students cannot select more than one minor in the Greenlee School of
Journalism and Communication. Minors in the Greenlee School are not
available to Greenlee majors.

For a minor in journalism and mass communication, students complete
15 credits.

- **JL MC 101** Mass Media and Society 3
- **JL MC 240** Principles of Journalism 3
- **JL MC 242** Visual Principles for Mass Communicators 3
- **JL MC 307** Digital Video Production 3
- **JL MC 347** Science Communication 3
- **JL MC 390** Professional Skills Development 3
- **JL MC 401** Mass Communication Theory 3
- **JL MC 406** Media Management 3
- **JL MC 461** History of American Journalism 3
- **JL MC 464** Journalism and Literature 3
- **JL MC 474** Communication Technology and Social Change 3
- **JL MC 476** World Communication Systems 3
- **JL MC 477** Diversity in the Media 3
- **JL MC 497** Special Topics in Communication 3

**Total Credits 15**

* For 300 and 400-level choices, please choose from the list of selected courses available from an academic adviser. You may schedule an appointment with an adviser by either calling 515-294-4342 or visiting with Greenlee School office staff at 101 Hamilton Hall.

University Requirement: Students in all ISU majors must complete a three-credit course in U.S. Diversity, as well as a three-credit course in International Perspectives. The approved course lists are found at the following web addresses: (U.S. Diversity) http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses and (International Perspectives) http://www.registrar.iastate.edu/students/div-ip-guide/IntlPerspectives-current. Students must also demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

College of LAS Requirement: Minimum of 120 credits, including a minimum of 45 credits at the 300-level and above. You must also complete the LAS Foreign Language requirement and any unmet ISU admission requirements.

Minor or Second Major: Students are required to fulfill a secondary area of expertise. This requirement can be met by declaring a minor or a second major outside of the Greenlee School of Journalism and Communication.

Graduate Study

The Greenlee School of Journalism and Communication offers work for a master of science degree in journalism and mass communication.

Majors plan a program of study in one of two tracks:

I. Academic track – The School offers advanced academic preparation in communication theory and research, leading to the master of science degree. Graduate work prepares students to use and contribute to research and scholarship in the field of communication. This track requires a thesis based on original research, which must be defended successfully before a committee at the end of the program.

Areas of research emphasis include: science and risk communication, media effects, advertising, public relations, political communication, communication technology, law and ethics, international communication, visual communication and emerging media.

II. Professional track – The School offers advanced professional study in journalism and mass communication leading to the master of science degree. Graduate work prepares students for professional careers in a variety of mass communication fields. Students with limited training or experience in journalism and mass communication may include skills courses in their programs, but the credits for those courses may not count toward the graduate degree. This track requires either a creative component which must be defended successfully before a committee at the end of the program.

All graduate students must complete 32 credits for graduation, comprised of four core classes, at least two electives outside the Greenlee School, and at least four thesis or creative component credits. The following core courses account for 10 credits of the needed 32 credits.

</tbody>
</table>

Each student selects elective courses based on his/her area of emphasis and career goal, in consultation with the student’s major professor and Program of Study Committee.

The Greenlee School graduate program offers minor work for students majoring in other departments. The M.S. minor requires:

JL MC 501, JL MC 510 and one other course in journalism and mass communication for a total of 9 credits taken within the Greenlee School.

Liberal Studies

The Bachelor of Liberal Studies degree (B.L.S.) was established by the three Iowa Regent universities primarily to meet the needs of Iowans who want to earn a college degree but whose circumstances present obstacles to completing a traditional on-campus degree program. The degree may be earned from Iowa State University, the University of Iowa, or the University of Northern Iowa.

The B.L.S. is a general studies degree in the liberal arts. There is no traditional major. Instead, students take coursework in three areas of distribution. These areas may be focused in a single discipline or diversified over several disciplines. With the assistance of a B.L.S. adviser, students can structure a program that meets their individual educational, vocational or personal goals.

Up to three-fourths of the total degree requirements can be transferred from accredited institutions. Work done in community colleges or other accredited colleges and universities can be applied toward the degree, as can applicable courses taken at any of the three Iowa Regent universities, whether on or off campus.

The B.L.S. program has no residence requirements. To complete the degree, students may earn credits through distance-learning formats as well as regular on-campus courses. Students may also earn credits by proficiency or test-out examinations.
Admission

Admission to the B.L.S. program is open to persons who meet either of the following levels of previous educational attainment:

- Hold the associate in arts (A.A.) or associate in science (A.S.) degree from an accredited two-year college. (Holders of the associate in applied science or associate in applied arts degree are not automatically eligible, although some courses may be found applicable upon review.)

- Have at least 60 semester credits of collegiate work acceptable toward graduation at ISU with a total cumulative grade point average of at least 2.00 (a C average).

Requirements for the B.L.S. Degree

The B.L.S. candidate must earn a total of 120 credits in accordance with requirements listed below. Courses taken at Iowa State University on a pass/not pass basis may be counted toward graduation only as electives. No more than 9 credits of 490 (Independent Study) courses in a single discipline may be counted toward graduation.

General Education Requirements 46 cr.

</tbody>
</table>

*The requirement may be met by completion of three or more years of high school study in one world language. A list of courses acceptable in the general education groups can be obtained from the college website (http://www.las.iastate.edu/students/academics/general-education).

**A minimum of 12 credits is required in each of three of the five distribution areas listed below.

- **Humanities** (literature, philosophy, history, religion, art and music appreciation)

- **Communications and arts** (journalism, speech, writing, drama, art, world language)

- **Natural sciences and mathematical disciplines** (chemistry, physics, biology, geological and atmospheric sciences, mathematics, statistics, computer science)

Social sciences (sociology, psychology, economics, political science, anthropology, geography)

Professional fields (business, education, family and consumer sciences, agriculture, engineering)

At least 24 upper-level credits are required in the three distribution areas with a minimum of 6 upper-level credits in each of the areas.

Other Requirements

Included in the total of 120 credits must be the following:

- 45 upper-level credits from a four-year college

- 30 credits from ISU earned during the junior/and or senior year.

Three credits of course work in U.S. Diversity and 3 credits in International Perspectives.

A grade average of at least 2.00 (a C average) in all coursework applied to the B.L.S. degree, in all upper-level coursework, and in all work completed after admission to the B.L.S. program.

Proficiency in upper-level communication demonstrated by completion of an approved composition/communication course from a four-year college.

Linguistics

Linguistics is a cross-disciplinary program in the College of Liberal Arts and Sciences designed to meet the needs of students interested in various aspects of language—its structure, history, varieties, meanings, and uses. The program includes courses in anthropology, communication disorders, computer science, English, psychology, and speech communication and world languages and cultures, thus providing a multi-disciplinary approach to the study of human language.

Courses in linguistics serve as background for students interested in any career that involves working with language, such as teaching English both as a first and as a second language, second language studies, psycholinguistics, cross-cultural communication, linguistic anthropology, computational linguistics, speech-language pathology, and audiology.

In the College of Liberal Arts and Sciences, courses in linguistics can be applied as electives or as part of the group requirements. They may also be used in a minor or in a major.

Majors in linguistics complete a minimum of 36 hours in linguistics with a grade of C or better in each linguistics course. Courses specifically required are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LING 119</td>
<td>Introduction to World Languages</td>
<td>3</td>
</tr>
<tr>
<td>LING 120</td>
<td>Computers and Language</td>
<td>3</td>
</tr>
<tr>
<td>LING 207</td>
<td>Introduction to Symbolic Logic</td>
<td>3</td>
</tr>
</tbody>
</table>
In addition, linguistics majors must choose 9 credits of elective courses. Discuss choices with the adviser. Suggested areas of further study are:

**Communication Disorders**
- LING 275 Introduction to Communication Disorders
- LING 286 Communicating with the Deaf
- LING 471 Language and Reading Development in Children
- CMDIS 480B Topics in Communication Disorders: Articulation and Phonological Disorders

**Computers and Linguistics**
- LING 331 Theory of Computing
- LING 510 Introduction to Computers in Applied Linguistics
- LING 526 Computer-Assisted Language Learning

**Second Language Studies**
- ENGL 324X Introduction to Teaching ESL Literacy
- ENGL 325X Teaching Methods for ESL Learners: Oral Communication Skills
- LING 425 Second Language Learning and Teaching
- LING 518 Teaching English as a Second Language Methods and Materials
- LING 524 Literacy: Issues and Methods for Nonnative Speakers of English
- LING 525 Research and Teaching of Second Language Pronunciation

**Sociolinguistics and Language**
- LING 305 Language, Thought and Action
- ENGL 322X Language and Society
- LING 422 Women, Men, and the English Language
- LING 514 Sociolinguistics
- LING 527 Discourse Analysis

**Spanish Linguistics**
- LING 351 Introduction to Spanish-English Translation
- LING 352 Introduction to Spanish Phonology
- LING 354 Introduction to Spanish-English Interpretation
- LING 462 Contrastive Analysis of Spanish/English for Translators
- LING 463 21st Century Spanish

Additional courses in linguistics are available but not fully in the catalog yet. These include LING 319X, 320X, 322, 324, and 325. They also include courses for study abroad, especially LING 395X. Majors in linguistics must show proficiency in a foreign language equivalent to that achieved after two years of university-level study. Alternatively, majors in linguistics can demonstrate university-level study in two foreign languages of at least one year each.

Minors in linguistics are individually tailored to the interests of the student, who consults with the linguistics adviser to develop the minor program of study. All minors must have a minimum of 15 credits in linguistics, of which 6 must be in courses numbered over 300. All programs must include LING 219 Introduction to Linguistics.

Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

For information about using linguistics courses in an interdisciplinary studies major, see Liberal Arts and Sciences, Cross-Disciplinary Studies.

14 credits
**Mathematics**

**Graduate Study**

A graduate minor in linguistics permits students to investigate various aspects of linguistics, emphasizing the ability to think about language in a systematic and disciplined way and to apply the methods of the field to research problems in their own disciplines. Graduate courses for the minor may be cross-listed with courses in Anthropology, Communication Disorders, Computer Science, English, Psychology, and World Languages and Cultures.

For the master's degree, a declared minor consists of 9 credits in linguistics including two foundation courses:

- **LING 511** Introduction to Linguistic Analysis 3
- One of the following: 3
  - **LING 514** Sociolinguistics
  - **LING 527** Discourse Analysis
  - **LING 537** Corpus Approaches to Grammatical Analysis
- And one elective from the list of courses approved for graduate credit 3

**Total Credits** 9

For the Ph.D. degree, the minor consists of 12 credits in linguistics including:

- **LING 511** Introduction to Linguistic Analysis 3
- **LING 537** Corpus Approaches to Grammatical Analysis 3
- And two electives from the list of courses approved for graduate credit 6

**Total Credits** 12

Additional courses beyond those listed below may be used as electives. The chair of the supervisory committee can provide information about these.

At least one member of the linguistics faculty will serve on a student's program of study committee. A list of faculty members may be obtained from the Linguistics program website. Ph.D. candidates will write one section of the preliminary examination on an area of linguistics. Students in Teaching English as a Second Language/Applied Linguistics are not eligible for a graduate minor in linguistics.

**Mathematics**

**Undergraduate Study**

For the undergraduate curriculum in liberal arts and sciences, major in mathematics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum.

The program in mathematics offers training suitable for students planning to enter secondary school teaching, to work in mathematics and computation for industry or government, or to continue their studies in graduate school. Students may satisfy the major requirements in several ways, suitable for various career objectives. Graduates can construct rigorous arguments to demonstrate mathematical facts. They can communicate their mathematical methods to others and can justify their assumptions.

**Traditional Program**

The traditional program of study for mathematics majors gives students a thorough grounding in mathematics. Graduates understand a broad range of mathematical topics and are familiar with a broad range of mathematical models. They have skills for solving problems in diverse situations. The program allows flexibility for specialization, and students are encouraged to steer their education according to career objectives.

- **MATH 101** Orientation in Mathematics 1
- **MATH 165** Calculus I 4
- **MATH 166** Calculus II 4
- **MATH 201** Introduction to Proofs 3
- **MATH 265** Calculus III 4
- One of the following: 3-4
MATH 317  Theory of Linear Algebra
MATH 407  Applied Linear Algebra
MATH 301  Abstract Algebra I
MATH 414  Analysis I
One of the following:  3-4
MATH 266  Elementary Differential Equations
MATH 267  Elementary Differential Equations and Laplace Transforms
One of the following:  2
MATH 492  Undergraduate Seminar
C I 480C  Pre-Student Teaching Experience III: Mathematics
Additional Mathematics courses at the 300 level or above  15
Total Credits  45-47

1 C I 480C is available only for students seeking secondary school certification.

The courses listed above must include one of the sequences:
MATH 301  Abstract Algebra I
& MATH 302  and Abstract Algebra II
MATH 373  Introduction to Scientific Computing
& MATH 481  and Numerical Methods for Differential Equations
MATH 304  Combinatorics
& MATH 314  and Graph Theory
MATH 414  Analysis I
& MATH 415  and Analysis II
MATH 435  Geometry I
& MATH 436  and Geometry II

**Communication Proficiency Requirement:**
ENGL 150  Critical Thinking and Communication  3
ENGL 250  Written, Oral, Visual, and Electronic Composition  2  3
One of the following:  3
ENGL 302  Business Communication
ENGL 303  Free-Lance Writing for Popular Magazines
ENGL 305  Creative Writing: Nonfiction
ENGL 309  Proposal and Report Writing
ENGL 314  Technical Communication
MATH 491  Undergraduate Thesis  4

2 According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

3 with grade C- or better

4 with departmental approval

**Mathematics Plus**
The Mathematics Plus option is for students who wish to establish a clear strength in a field of application of mathematics. They obtain the mathematics major by pursuing study of mathematics, through the upper division level, complementary to their application area. This program makes double majors more feasible and is appropriate for students who plan on employment or graduate study in the application field. It is not intended for students who plan on graduate study in mathematics. For more information, see the mathematics department web site or consult an adviser in mathematics.

**Secondary Education**
For certification requirements for teaching of mathematics in grades 5-12, see the Mathematics Department and School of Education web sites or consult an adviser.

**Recommendations**
The department strongly recommends that each student majoring in mathematics include in the program substantial supporting work beyond the minimum general education requirement of the college in one or more areas of application of mathematics, such as other mathematical sciences, engineering, natural science, economics or finance. Particularly useful are:

COM S 207  Fundamentals of Computer Programming  3
COM S 208  Intermediate Computer Programming  3
PHIL 207  Introduction to Symbolic Logic  3
PHYS 221  Introduction to Classical Physics I  5
PHYS 222  Introduction to Classical Physics II  5
STAT 201  Introduction to Statistical Concepts and Methods  4

It also recommends that students contemplating graduate study in mathematics acquire a reading knowledge of French, German, or Russian.

**Credits Not Counted**
Credits earned in the following cannot be counted toward graduation by mathematics majors:
MATH 104  Introduction to Probability  3
MATH 105  Introduction to Mathematical Ideas  3
MATH 106  Discovering Mathematics  3
MATH 140  College Algebra  3
MATH 143  Preparation for Calculus  4
MATH 145  Applied Trigonometry  3
MATH 150  Discrete Mathematics for Business and Social Sciences  3
MATH 151  Calculus for Business and Social Sciences  3
Minor in Mathematics
The department offers a minor in mathematics, which may be earned by credit in the following:

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check http://www.registrar.iastate.edu/courses/div-ip-guide.html for a list of approved courses. These courses may be courses that apply to other requirements. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

The LAS General Education requirements for Mathematics majors are 12 credits Arts and Humanities, 8 credits Natural Science, and 9 credits Social Science from the approved lists. See https://las.iastate.edu/students/academics/general-education/.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level, and including at least 8 credits in the major at the 300/400 level with grade C or better. Three of the required 45 300+ level credits must be earned in a general educational group outside the group of the major. Students must also meet the LAS foreign-language requirement and complete any unmet admission requirements.
Every mathematics major must complete at least one of the following sequences:

- **a. Algebra** – MATH 301 and MATH 302
- **b. Analysis** – MATH 414 and MATH 415
- **c. Discrete** – MATH 304 and MATH 314
- **d. Geometry** – MATH 435 and MATH 436
- **e. Numerical** – MATH 373 and MATH 481

If you use 301/302 or 414/415, then add an additional MATH Elective (300+).

Note that some courses are taught only in fall or only in spring, so plan appropriately.

ENGL 302, 303, 305, 309, 314, or MATH 491 with departmental approval.

<sup>1</sup> ENGL 302, 303, 305, 309, 314, or MATH 491 with departmental approval.

<sup>2</sup> Recommended

### Graduate Study

The department offers programs leading to a Master of Science or Doctor of Philosophy degree in mathematics or applied mathematics, as well as minor work for students whose major is in another department. The department also offers a program leading to the degree of Master of School Mathematics (M.S.M.).
Students desiring to undertake graduate work leading to the M.S. or Ph.D. degree should prepare themselves by taking several upper division mathematics courses.

The M.S. degree requires a student to take at least 30 credit hours and to write a creative component or thesis. Additionally, students must pass a comprehensive oral examination over their coursework and their creative component or thesis. See the online Mathematics Graduate Handbook for specific requirements.

The Ph.D. degree requires a student to take 48 credit hours of coursework in addition to research hours, pass written qualifying examinations, pass an oral preliminary exam, and perform an original research project culminating in a dissertation which is defended by an oral exam. Ph.D. candidates must have at least one year of supervised teaching experience. See the on-line Mathematics Graduate Handbook for specific requirements.

The M.S.M. degree is primarily for in-service secondary mathematics teachers. Students desiring to pursue the M.S.M degree should present some undergraduate work in mathematics beyond calculus. Candidates for the M.S.M. degree must write an approved creative component and pass a comprehensive oral examination over their course work and their creative component.

**Meteorology**

Offered by the Department of Geological and Atmospheric Sciences. (https://ge-at.iastate.edu)

The study of Meteorology involves the description of the earth’s atmosphere and the processes responsible for its behavior. Students majoring in Meteorology earn the bachelor of science. The major satisfies guidelines specified by the American Meteorological Society and meets education requirements for employment with the National Weather Service and the World Meteorological Organization. Successful preparation for professional or graduate work in Meteorology requires that the student develop and integrate a diverse range of skills and knowledge bases. These include weather observing, the physics and dynamics of the global atmosphere, application of new weather technologies, advanced mathematical tools, computer programming and modeling, and effective oral and written communication. The faculty view the senior thesis (MTEOR 499 Senior Research), in particular, as a capstone experience in which students demonstrate they have achieved this integration. Also, contemporary meteorology is an earth-system science with ties to a variety of human experiences. The electives and general education requirements of the college are further experiences that the meteorology student must integrate with their core meteorology knowledge in order to function effectively in a globally-oriented profession.

**Minor - Meteorology**

The department offers a minor in Meteorology which may be earned by completing 15 credits including MTEOR 111 Synoptic Applications (only 1 credit may count toward the minor), MTEOR 206 Introduction to Weather and Climate and MTEOR 301 General Meteorology. Further information concerning programs of study, including sample degree programs, is available from the department.

The program requires the following courses:

<table>

Total Credits 38

A grade of C or better (not C-) is required in each of the following courses to meet minimum graduation requirements for a bachelor of science degree in Meteorology:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTEOR 206</td>
<td>Introduction to Weather and Climate</td>
<td>3</td>
</tr>
<tr>

<td>General Meteorology</td>
<td>4</td>
</tr>
</tbody>
</table>

Several co-op programs are available for upper division undergraduates. Although a range of opportunities exists for men and women who terminate their studies with a bachelor of science, students who meet the necessary academic standards are encouraged to continue their studies in a graduate program. For these students, additional coursework is recommended in a mathematical or physical science. Other students can choose a wide range of supporting courses that will contribute to their particular area of interest in meteorology.

Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250. The department requires a grade of C or better in ENGL 309.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the Communication Proficiency and LAS World Language Requirements. Six semesters of one foreign language in high school satisfies the World Language requirement.

Students in all ISU majors must complete a 3 credit course in U.S. diversity and a 3 -credit course in international perspectives. Discuss with your adviser how the two courses that you select can be applied to address general education requirements. Check for a list of approved courses at: http://www.registrar.iastate.edu/courses/div-ip-guide.html

1. Students taking CHEM 177 should plan to take CHEM 178 as well.
2. Student must select at least 9 credits from a list of optional courses.
3. Students should select a humanities or social science course based on need. If these LAS requirements have been satisfied, students may select a meteorology elective or alternate course. Students should discuss possible alternate course options with their adviser.

**Military Science Interdisciplinary Program**

The Military Science Department does not offer an academic degree and is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program. The mission of the department is derived directly from regulations governing Army Reserve Officers’ Training Corps (AROTC), which are issued by the U.S. Army Cadet Command and U.S. Army Training and Doctrine Command and cannot be modifiable by this department.
Freshmen Year Learning Outcomes
The student will have a working knowledge of the following areas: The Role of the Army, Roles and Origins of the Army, Army Customs and Traditions, Branches (Jobs) in the Army and Military Operations and Tactics, U.S. Army leadership and character development.

Sophomore Year Learning Outcomes
The student will have a working knowledge of the following areas: The Role of an Officer, Role of the Officer and Noncommissioned Officer, communications, code of conduct, first aid, principles of war and military operations and tactics, and begin to apply U.S. Army leadership through observed activities and demonstrate character development traits.

Junior Year Learning Outcomes
The student will have a working knowledge of the following areas: Small Unit Training, Command and Staff Functions, Nuclear, Biological and Chemical Warfare, Law of War, Weapons, Human Behavior, Math Reasoning, Computer Science and Military Operations and Tactics; Cadets will actively analyze character development and assess leadership skills.

Senior Year Learning Outcomes
The student will have a working knowledge of the following areas: Transition to Becoming an Officer, Military Justice, Intelligence and Electronic Warfare, Army Personnel Management, Army Logistics, Post and Installation Support and Military Operations and Tactics; Cadets will internalize and adhere to the U.S. Army’s profession through active leadership and congruence of character development.

The mission of the Army Reserve Officers’ Training Corps (AROTC) is to commission the future leaders of the United States Army. Since ROTC produces over 65 percent of the Army’s Officer Corps, our task is one of the most important undertakings in the Army and our country today. We seek top quality college students. We train these potential leaders, assess their abilities, and challenge them with the highest standards of profession/professionalism. Those who successfully complete the program, receive a commission as a second lieutenant in the U.S. Army. A commission as an Army officer affords the opportunity to pursue a profession in one or several of the 300 different jobs held by Army officers. Students may request to serve as an officer in either the active army, or part time in the Army Reserve or National Guard. Regardless of the method of service, officers in today’s Army can be proud to know that they are doing their share in the defense of the United States of America.

The ISU Military Science program is divided into two segments, the basic program and the advanced program. The basic program (courses numbered 101-290) is designed primarily for freshmen and sophomores. No military obligation is incurred by a person participating in the basic program. The basic program is designed to be informative and to acquaint students with the military as a profession. The basic program or an allowed substitute is a prerequisite for the advanced program. Financial assistance is available on a competitive basis.

Persons interested in Military Science should visit the department located on the second floor of the Armory (east side).

Basic Program
The basic program courses are primarily for freshmen and sophomore students and, except for persons with prior military service and basic training graduates, are required for entry into the advanced program. Each scholarship cadet in the Basic Program receives a monthly allowance (freshmen $300; sophomore $350) for up to 10 months. The curriculum is designed to train freshmen and sophomores in individual and team skills. It also helps the Professor of Military Science identify individual leader developmental needs.

Advanced Program
The advanced program courses are for students who have completed the basic program (or received equivalent credit) and are mandatory for potential commissioning upon contracting at the beginning of their junior year. Each cadet receives a monthly allowance (junior $450; senior $500) for up to 10 months. These courses are primarily taught to academic juniors and seniors.

Successful completion normally obligates the student to military service on active or reserve duty. In addition to the advanced program of study, a student (cadet) will be expected to pass the Army Physical Fitness Test (precondition for commissioning) each semester and continually maintain military appearance standards in both personal grooming and uniform. Physical fitness training is regularly conducted outside of class and laboratory hours in a separate course, M S 150 Army Physical Readiness. Students are encouraged to attend and participate in this class.

Professional Military Science Education (PME) coursework outside of the military science curriculum is also a precondition to commissioning. The PME component consists of Basic Academic proficiency standards. These standards are explained to prospective students as they consider enrollment in the advanced program. Army Uniforms will be worn at least once a week. The 300-level courses are designed to prepare cadets for the Advanced Course, which is a 32 day summer internship/training program where cadets are trained to Army standards, develop leadership skills, and have their officer potential evaluated. The 400-level courses are the final preparation for commissioning as a second lieutenant in the United States Army. Students must meet academic alignment criteria and receive basic program credit before entering the advanced program.

Military Studies Minor
The College of Liberal Arts and Science offers a minor in Military Studies. Requirements for the minor include taking a minimum of 15 credits of
ROTC instruction, which may be taken from one or a number of the ROTC programs. At least 6 credits must be in courses numbered 300 or above.

Military Studies

Interdepartmental Minor

The Military Studies program is designed for students interested in learning about military skills and careers. The mission of the Reserve Officers’ Training Corps (ROTC) programs is threefold. First, students are developed mentally, morally, and physically in order to make them strong leaders. Second, a desire for development in mind and character is instilled in students so they may assume the highest responsibilities of command, citizenship, and government. Finally, students are imbued with the highest ideals of duty, honor, and loyalty in order to graduate with a basic professional background and motivation toward their careers.

The Military Science, Naval Science and Air Force Aerospace departments accomplish this mission through detailed courses of instruction occurring throughout a typical student’s college career. All academic courses offered by these departments focus on the development of professional military skills and their application. Each department offers courses unique to its branch of the military. Students in Army ROTC classes gain an appreciation for ground warfare and doctrine, while students in Naval Science develop an appreciation for naval surface and maritime engineering. The Air Force Aerospace Studies curriculum familiarizes students with Air Force structure and doctrine. On a broader scale, all three departments offer courses promoting leadership and sound management practices that investigate the military’s role in American domestic and foreign policy, and can be employed in any career path.

Military Science, Naval Science and Air Force Aerospace courses are offered in the interdepartmental Military Studies program in the following participating departments: Military Science, Naval Science and Air Force Aerospace.

Undergraduate Study

Undergraduate study in this program provides the student with an opportunity to develop a minor in Military Studies. The three Iowa State University ROTC programs offer over 64 credits of specialized coursework. The minor in Military Studies is open to any Iowa State University student.

Undergraduate students may minor in Military Studies by taking 15 credits of coursework from a combination of any of the three ROTC programs - regardless of whether or not a commission in the Armed Forces is tendered. At least 6 of the 15 credits must be in courses numbered 300 or above.

Administered by the Department of Music and Theatre

Undergraduate Study

The Department of Music and Theatre offers a strong undergraduate music program, where students study with full-time faculty professionals in a supportive environment that encourages students to become their best.

The music curriculum provides:

1. A comprehensive program of professional studies for students who wish to prepare for careers in music, including teaching, performance, and composition, and for students who plan to pursue graduate studies in music.
2. Courses in music literature, theory and areas of performance for all students, regardless of major.

The department embodies the land-grant philosophy of service to the people of the state with a faculty of active scholars, teachers, and artists committed to excellence in teaching, creative/scholarly work, and arts outreach. The department is an accredited institutional member of the National Association of Schools of Music (NASM).

The Theatre Program is administered by the Department of Music and Theatre (see Index, Theatre and Performing Arts.)

Curricula Available to Music Majors

Students interested in pursuing an emphasis in music theater should see Index, Theater and Performing Arts.

Bachelor of Music

This curriculum leads to the degree bachelor of music. This degree is more specialized and contains fewer general education requirements than the bachelor of arts degree with a major in music. Students in this curriculum choose between options in education, performance, and composition. To obtain a bachelor of music degree, a student must earn a minimum of 122 credits, including a minimum of 32 credits in residence at Iowa State University and a minimum of 45 advanced credits in courses numbered 300 or above and must meet all of the requirements specified below.

Courses taken on a pass/not pass basis may be counted toward the required total credits, and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement.

Degree Requirements

GENERAL EDUCATION REQUIREMENTS (Students choosing the music education option should consult their advisers.) 32 cr.

**Bachelor of Arts—Music Major**

A more general degree than the bachelor of music, the bachelor of arts degree requires no formal specialization. It includes more general education requirements and provides a broader course of academic study.

For the undergraduate curriculum in Liberal Arts and Sciences, major in music, leading to the degree bachelor of arts, see Liberal Arts and Sciences, Curriculum.

Candidates for the degree bachelor of arts with a music major will normally complete 48 credits of music including the following required courses:

<table>

</table>
Bachelor of Music students in options other than education: At least 2 semesters of large ensemble and one semester of chamber music ensemble, chosen from the lists below, are required.

**Large Ensembles:**
- MUSIC 111  Wind Ensemble
- MUSIC 115  Symphonic Band
- MUSIC 141  Lyrica Women's Choir
- MUSIC 151  Oratorio Chorus
- MUSIC 161  Iowa State Singers
- MUSIC 181  Symphony Orchestra
- MUSIC 321  Advanced Ensemble
- MUSIC 301  Opera Studio

**Chamber music ensembles:**
- MUSIC 113  Jazz Ensemble
- MUSIC 161  Iowa State Singers
- MUSIC 301  Opera Studio
- MUSIC 321  Advanced Ensemble

**Continuation Examination**
To be approved for continuation as a music major on the junior level, and enroll in Music 319, a student must pass a continuation examination taken normally at the end of the fourth semester as a music major. Before taking this examination, the student must complete the requisite forms as well as write an essay including:

1. his/her personal goals
2. a self-assessment of his/her progress thus far
3. an assessment of what he/she expects to accomplish before graduation

The student taking the Continuation Examination performs for a Continuation Examination Committee. Requirements include the performance of three works representing different periods or styles selected by, and studied with, the applied teacher, a self-prepared piece, and sight reading. The student must display acceptable solo ability and performance techniques in at least one of the applied areas. A written evaluation will be given each student following his/her performance. This evaluation will include a candid assessment of the student's potential to achieve his/her goals. In addition, the student may arrange to meet with members of the Continuation Examination Committee at a later date to discuss the results of his/her Continuation Examination. See Piano Proficiency below. For details and forms go to: http://www.music.iastate.edu

**Piano Proficiency Requirement**
All music majors must demonstrate proficiency in functional skills at the piano. Keyboard music majors (students whose primary instrument is piano or organ) accomplish this through courses in their curricula. All other students accomplish this by satisfactorily completing Music
All entering non-keyboard music majors with previous piano experience meet with the class piano instructor, usually the week before classes start in the fall semester, to determine the appropriate piano class (127, 128, 227, 228) for their initial piano enrollment. Some students are deemed to have met the piano proficiency at this time. Non-keyboard music majors with no previous piano experience should enroll in Music 127, Class Piano I. Continuous enrollment in piano classes is REQUIRED until successful completion of the piano proficiency requirement. Important: The piano proficiency must be met, either through completion of Music 228 or demonstration of proficiency, to pass the continuation examination. Failure to do so could delay a student’s graduation. All students must fulfill the piano proficiency requirement in order to pass the continuation examination and enroll in Music 319.

**Graduation Proficiency**

To be recommended for graduation, a music student should demonstrate to the music faculty mature acquaintance with performance styles, technique, and repertoire. All music majors will participate in departmental recitals to the satisfaction of the department. Candidates for the bachelor of music degree will present a graduation recital.

* According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 (or ENGL 250H). In addition the Communication Proficiency must be certified through one of the following options:

1. Certification of writing skills, by the instructor, after completion of one of the following:

   - **MUSIC 120** Introduction to Music Literature and Styles 3
   - **MUSIC 383** History of Music I 3
   - **MUSIC 384** History of Music II 3
   - **MUSIC 472** History of American Music 3
   - **MUSIC 473** Music of the Baroque and Classical Eras 3
   - **MUSIC 475** Music of the Romantic Era 3
   - **MUSIC 476** Music of the Twentieth Century 3

   (Passing one of these courses does not automatically satisfy the requirements for Communication Proficiency.)

2. Satisfactory completion of an advanced writing course:

   - **ENGL 302** Business Communication 3
   - **ENGL 305** Creative Writing: Nonfiction 3
   - **ENGL 314** Technical Communication 3

**Learning Outcomes and Assessment**

Music graduates will understand and demonstrate:

1. Knowledge of music cultural heritage and history

2. Appreciation for musical creativity, reasoning, and the aesthetic value of music

3. Knowledge of organization and structures of music

4. Analytical skills necessary for listening, performing, and teaching

5. Skills necessary to perform music from a variety of periods, styles, and genres

6. Necessary abilities to communicate ideas musically, verbally, and in writing

7. Awareness of the diversity of musical ideas throughout the world’s cultures

8. For Music Education students: success in meeting the ISU Teaching Standards as outlined by the University Teacher Education Program

Assessment measures include the continuation examination, graduating senior surveys and exit interviews, public performances, senior projects, course grades, teacher certification (for music education students), and the National Association of Schools of Music accreditation review.

**Minor in Music**

Candidates for the minor in music will complete 17 credits in music including:

<table>

</tbody>
</table>

At least 6 of the 17 credits must be in courses numbered 300 and above taken at ISU with a grade of C or better. The minor must include at least
9 credits that are not used to meet any other department, college, or university requirement.

Students pursuing a music minor must meet the audition requirements and/or prerequisites for all courses they wish to take.

**Minor in Music Technology**

Candidates for the minor in music technology will complete 15 credits including:

- **MUSIC 246** Introduction to Creative Digital Music 2
- **MUSIC 346** Computer Music Programming Design 3
- **MUSIC 446** Sound Synthesis Design for Electronic Music 3
- 7 credits from the following 7
  - **COM S 107** Applied Computer Programming
  - **COM S 207** Fundamentals of Computer Programming
  - or **COM S 227** Introduction to Object-oriented Programming
  - **COM S 208** Intermediate Computer Programming
  - **COM S 228** Introduction to Data Structures
  - **COM S 309** Software Development Practices
  - **COM S 327** Advanced Programming Techniques
  - **CPR E 329** Software Project Management
  - **E E 201** Electric Circuits
  - **E E 224** Signals and Systems I
  - **E E 324** Signals and Systems II
  - **M 451** Engineering Acoustics
  - **PHYS 198** Physics of Music
  - **S E 319** Software Construction and User Interfaces
  - **MUSIC 101** Fundamentals of Music
  - or **MUSIC 10 Basic Musicianship**
  - **MUSIC 102** Introduction to Music Listening
  - **MUSIC 118** Applied Music: Non-majors
  - **MUSIC 120** Introduction to Music Literature and Styles
  - or **MUSIC 30 Masterpieces of Music and Art in Western Culture.**
  - **MUSIC 224** Music Theory I
  - **MUSIC 225** Aural Theory I
  - **MUSIC 234** Music Theory II
  - **MUSIC 235** Aural Theory II
  - **MUSIC 290F** Special Problems: Applied Music
  - **MUSIC 304** History of American Rock ‘n’ Roll
  - **MUSIC 318** Applied Music: Non-majors
  - **MUSIC 383** History of Music I
  - **MUSIC 384** History of Music II
  - **MUSIC 472** History of American Music

Music courses that may be taken by music majors to meet the requirements for the Music Technology minor are limited to the following:

- **MUSIC 246** Introduction to Creative Digital Music 2
- **MUSIC 346** Computer Music Programming Design 3
- **MUSIC 446** Sound Synthesis Design for Electronic Music 3
- **MUSIC 490I** Independent Study: Electronic Music arr
- **MUSIC 590I** Special Topics: Electronic Music arr

† Arranged with instructor.

At least six of the fifteen credits must be taken at Iowa State University in courses numbered 300 or above with a grade of C or higher. The minor must include at least nine credits not used to meet any other department, college, or university requirement. Students pursuing a minor in music technology must meet the audition requirements and/or prerequisites for all music courses they wish to take.

1 A placement examination in keyboard skills determines the student's placement in the Class Study in Piano courses. Students with a concentration in piano or organ do not take Class Study in Piano. Students not required to take four semesters of class piano will take additional music elective credits.

2 Four credits chosen from the following ensembles are required: 111, 113, 115, 141, 151, 161, 191, 321.

3 ENGL 150 requires concurrent enrollment in LIB 160.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. The LAS World Language requirements must be met. Courses which may be used for the General Education Requirements can be found at: (http://www.las.iastate.edu/academics/generaleducation/index.shtml) All ISU students must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. A list of approved courses can be found at: (http://www.registrar.iastate.edu/courses/div-ip-guide.html) The courses taken to meet these requirements may also be used to meet other requirements.

Scheduling of the general education requirements where specific courses are not indicated can be flexible. Music courses are best kept in the order/semesters indicated. (Most music courses are offered on semester each year.)

---

1. A placement examination in keyboard skills determines the student's placement in the Class Study in Piano courses. Students with a concentration in piano or organ do not take Class Study in Piano.

2. Students should take the major area (WW or brass) with which they are least familiar first to gain more experience in lab band. However, WW players planning to gain additional skills on a 2nd WW, might choose to take that area first. Non-WW players should take 351 before 352. 358B must be taken concurrently with each tech course (350-355).

3. Alternate year courses. String players take 490B and 464. WW and brass players take 368 and 464.

4. These courses which appear in the same semester must be taken concurrently.

The LAS world language requirement must be met. The U.S. diversity and international perspectives requirements are automatically met with courses required for this degree option (C I 406 and MUSIC 383).

ENGL 150 requires concurrent enrollment in LIB 160.

The BM degree requires a minimum of 124.5 credits, including a minimum of 45 credits at the 300/400 level. The LAS World Language requirements must be met. Courses which may be used for the General Education Requirements can be found at: (http://www.las.iastate.edu/academics/generaleducation/index.shtml) All ISU students must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives (which is satisfied with MUSIC 383). A list of approved courses can be found at: (http://www.registrar.iastate.edu/courses/div-ip-guide.html) The courses taken to meet these requirements may also be used to meet other requirements.

Flexibility in scheduling. Many general education courses can easily be taken in different semesters than indicated. Music courses are best kept in the order/semesters indicated. (Most music courses are offered on semester each year.)

* Some advanced theory and history courses (organ major requires 2 of each) are not offered every semester. Semesters of offerings are listed in the course descriptions in the catalog at: http://www.music.iastate.edu/info/advising.

### Notes

- A placement examination in keyboard skills determines the student's placement in the Class Study in Piano courses. Students with a concentration in piano or organ do not take Class Study in Piano.
- Lab Ensemble is required every semester offered: Fall and odd springs.
- These courses which appear in the same semester must be taken concurrently.
- Alternate year courses: The usual semester of offering is indicated by the calendar year (odd or even) of the semester. Consult the current catalog and the department web site for up-to-date information about semesters courses are offered. Psych 230 and C I 333 are offered every semester; when they are taken is determined by the schedules of the alternate year music courses.
- The LAS World Language requirements must be met. The U.S. diversity and international perspectives requirements are automatically met with courses required for this degree option (C I 406 and MUSIC 383).
- Advanced theory and history courses (music education major requires 1 history, 1 theory) are not offered every semester. Semesters of offerings are listed in the course descriptions in the catalog at: http://www.music.iastate.edu/info/advising.
- Flexibility in scheduling. Many general education courses can easily be taken in different semesters than indicated. Music courses are best kept in the order/semesters indicated (Most music courses are offered on semester each year).

*a placement examination in keyboard skills determines the student’s placement in the Class Study in Piano courses.

*b MUSIC 324 alternate Fall (even numbered years) / MUSIC 325 alternate Spring (odd number years – same academic year; MUSIC 360 alternate Spring (even numbered years) when 325 is not taught.

c ENGL 150 requires concurrent enrollment in LIB 160.

The BM degree requires a minimum of 124.5 credits, including a minimum of 45 credits at the 300/400 level. The LAS World Language requirements must be met. Courses which may be used for the General Education Requirements can be found at: [http://www.las.iastate.edu/academics/gerereducation/index.shtml](http://www.las.iastate.edu/academics/gerereducation/index.shtml) All ISU students must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives (which is satisfied with MUSIC 383). A list of approved courses can be found at: [http://www.registrar.iastate.edu/courses/div-ep-guide.html](http://www.registrar.iastate.edu/courses/div-ep-guide.html) The courses taken to meet these requirements may also be used to meet other requirements.

**Flexibility in scheduling.** Many general education courses can easily be taken in different semesters than indicated. Music courses are best kept in the order/semesters indicated. (Most music courses are offered on semester each year.)

* Some advanced theory and history courses (voice major requires 1 history, 2 theory) are not offered every semester. Semesters of offerings are listed in the course descriptions in the catalog at: [http://www.music.iastate.edu/info/advising](http://www.music.iastate.edu/info/advising).

Some advanced theory and history courses are not offered every semester. Semesters of offerings are listed in course descriptions in the catalog. The BM in composition requires one advanced history course (3 cr.) and 9 credits of advanced theory from the following courses: 346, 440, 446, 490B, 590l. Advanced theory courses must include 346 or 446.

* The BM degree requires a minimum of 124.5 credits, including a minimum of 45 credits at the 300/400 level. The LAS World Language requirements must be met. Courses which may be used for the General Education Requirements can be found at: (http://www.las.iastate.edu/academics/gereraleducation/index.shtml) All ISU students must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives (which is satisfied with MUSIC 383). A list of approved courses can be found at: (http://www.registrar.iastate.edu/courses/div-ip-guide.html) The courses taken to meet these requirements may also be used to meet other requirements.

Naval Science

The Department of Naval Science is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program but does not offer an academic degree. The courses offered by the Department are developed by the Department of the Navy. The Naval Science Department and Naval ROTC (NROTC) Program develop individuals mentally, morally, and physically, and imbue in them the highest ideals of duty and loyalty, in order to commission them upon graduation as Navy and Marine Corps officers. Program graduates possess a basic professional background, are motivated towards careers in the Naval Service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship, and government. Emphasis is placed on the core values of courage, honor and commitment.

Naval Science courses are open to any ISU student who has met the course prerequisites. To participate in the Naval ROTC Program, students...
must apply through one of two programs: the NROTC Scholarship Program (full scholarship; which includes a book stipend, tuition, laboratory fees, uniforms, and a monthly stipend), or the College Program (non-scholarship, with limited financial assistance). Applicants for the Scholarship Program are selected through a comprehensive nationwide competition. Applicants for the College Program are selected by the Professor of Naval Science from among students already in attendance at, or selected for admission by, the university. The College Program involves limited financial assistance by application for a 2 or 3-year scholarship. Upon application, students choose between the Navy Option and Marine Corps Option, for the purposes of training focus. NROTC students pursue their studies like other university students except that they must meet certain additional requirements that will prepare them to serve as naval officers upon graduation.

A Marine Corps Option student incurs a minimum 4-year active duty military obligation as a commissioned officer after graduation; a Navy Option student incurs a minimum 5-year active duty obligation.

Further information is available from the Professor of Naval Science, Iowa State University, isunrotc@iastate.edu, 515-294-6050.

While in the NROTC Program, Scholarship Program students will participate (with pay) in at-sea training cruises during the summer. College Program students, accepted to receive a 2 or 3-year scholarship, will participate in at-sea training during the summer between their Junior and Senior year based on the specifics of their scholarship. Students are also exposed to regular and extracurricular activities that teach leadership principles and help them decide which field of the Navy or Marine Corps they wish to enter. These activities also include weekly leadership laboratory periods and opportunities for involvement in several student societies.

**Undergraduate Study**

Naval Science courses are primarily for those students in the NROTC program, however, other university students may also enroll. Students enrolled in the NROTC program must fulfill the following requirements:

<table>
<thead>
<tr>

1. In addition to the normal Naval Science courses, all NROTC students are required to participate in laboratory periods that supplement the various academic courses. The Leadership Lab emphasizes human relations principles, teaches basic military formations, movements, commands, courtesies, and honors, and provides practice in unit leadership. Non NROTC program students enrolled in Naval Science courses are not required to participate in laboratory periods.

2. The College of Liberal Arts and Sciences offers a minor in military studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from any of the three ROTC programs offered on campus. At least 6 credits must be in courses numbered 300 or above.

For basic undergraduate curriculum requirements, see Liberal Arts and Sciences, Curriculum; or Engineering, Curricula.

**Officer Education Programs**

Iowa State University offers Reserve Officers Training Corps (ROTC) programs for the professional training of officers for the Army, Air Force, Navy and Marines.

The purpose of these programs is to provide an avenue for interested students to become reserve or regular officers in one of the United States military services, and the university regards this training as the foundation for possible careers in the military. The Air Force and the Navy require a period of active duty service upon completion of the ROTC program. Graduates from Army ROTC serve in either active Army, the Army Reserve, or the National Guard.

All students enrolled in advanced ROTC programs receive financial allowances, which are described under Student Financial Aid. Scholarships are also available for all services as outlined in the section on financial aid.

For specific courses and programs see also Air Force Aerospace Studies, Military Science, and Naval Science.

**Theatre and Performing Arts**

www.theatre.iastate.edu (http://www.theatre.iastate.edu)

(Administered by the Department of Music)
Performing Arts graduates will understand and demonstrate:

1. Knowledge of the cultural heritage and history of the Performing Arts
2. A theoretical and experiential background in the areas of performance, theatrical design, music, and dance
3. Knowledge of creative problem solving and artistic collaboration
4. Skills necessary to perform in or design for a variety of periods, styles, and genres in theatre and dance
5. Awareness of the diversity of expression in the Performing Arts throughout the world's cultures
6. A practical understanding of the rigors of the field.

Assessment measures include the semester exhibit of design work or audition pieces, graduating senior seminar and exit interviews, public performances or designs, course grades, exhibited convention work, and internship evaluations.

Undergraduate Study

Students interested in theatre as a major area of concentration declare a major in Performing Arts and select an emphasis in Theatrical Design or Acting/Directing. Students implement the theories and principles explored in the classroom by participating in production work. During the academic year, Iowa State University Theatre presents up to ten mainstage and second stage productions in Fisher Theater, and works in close collaboration with ISU Music and Dance.

The major in Performing Arts offers the undergraduate student a cross-disciplinary concentration in Music, Dance and Theatre. The core curriculum consists of 24 credits in the three areas. Students elect a 24-credit emphasis in either Dance, Theatrical Design or Acting/Directing. In addition to coursework, Performing Arts majors and minors participate in concert (Orchesis, Footfalls), workshop (Opera Studio, Minority Theatre Workshop) and production (Barchje, Stars Over Veishea, ISU Theatre/Music Theatre/Second Stage and Studio) experiences.

Performing Arts graduates, in addition to a solid theoretical and experiential background in the areas of performance, theatrical design, dance and music, are prepared to meet the challenges of the work force or graduate school with their strengths in collaboration, creative problem solving, meeting deadlines and processing diverse input to yield cohesive output. Two required professional internships prior to graduation are vital to the student’s appreciation and practical understanding of the rigors of the field.

The theatre area offers a wide variety of courses. Students may select from courses in acting, design (costume, scenic, lighting/sound), makeup, stage direction, playwriting, stage management, and theatre history. Independent study and special topics courses supplement formal course offerings to provide opportunities to intensify study in a particular aspect of theatre.

Auditions for ISU Theatre productions are open to all students irrespective of academic major. Similarly, participation in areas of production other than acting is open to both majors and nonmajors. Qualified students also present experimental, laboratory, and Minority Theatre Workshop productions. Student actors, directors, designers, and technical crew heads are required to maintain a grade point average of at least 2.0 to participate in productions.

Theatre scholarships are awarded on a yearly basis to students who make significant contributions to Iowa State University Theatre.

6 credits 300+ in DANCE, THTRE or PERF

**Philosophy**

Philosophy tries to make sense of human experience and reality through critical reflection and argument. The questions it treats engage and provoke all of us, and they occupy an important place in our intellectual tradition: Are there objective standards for deciding what is right and wrong, or is morality merely a subjective matter? Is capitalism morally acceptable? Do I have a will, and is it free? How do my words and thoughts come to be about the world? Does God exist? Can machines think? How are mind and body related? Students in philosophy classes will be exposed to arguments on both sides of such questions, and they will be encouraged to develop and rationally defend their own positions.

Philosophy is not an isolated discipline. It enjoys mutually beneficial exchanges with many fields of study within the humanities and sciences. Philosophers develop tools that allow them to examine critically the assumptions and implications of the social and natural sciences, religion, and law.

The study of philosophy provides several benefits. It emphasizes rigorous understanding of problems, together with careful analysis of the strengths and weaknesses of the available solutions. It encourages clarity in the presentation of one's own ideas, as well as sensitivity in the consideration of the ideas of others. The study of philosophy therefore encourages one to develop skills and habits that are useful not only in philosophy, but in other areas as well. Philosophy students historically do well, for example, in law and medical schools.

However, one should not think that philosophy is only valuable in academic settings. Philosophical questions arise in many areas of family, business, and civic life. Philosophers strive to face these questions with
the kind of intellectual honesty that leads to respect for the views of others, and continual reassessment of their own. In this way, the study of philosophy fosters values and attitudes that are helpful for responding to a lifetime of intellectual challenges.

The degree program in philosophy requires a minimum of 33 credits, plus the zero credit PHIL 492 course. The following courses compose the core program of the major from which 15 credits shall be chosen. Additionally, two courses at the 400 level or above (other than PHIL 490 and PHIL 492) are required.

**Ethical theory: One course required.**

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check http://www.registrar.iastate.edu/courses/div-ip-guide.html for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. Three of the required 45 300+ level credits must be earned in a general education group outside the group of the major. You must also complete the LAS foreign-language requirement.

According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

**Minor in Philosophy**

The department offers a minor in philosophy which may be earned by completing a total of 15 credits in philosophy. At least 9 credits must be in courses numbered 300 or above. Students may want to emphasize specific areas by taking 15 hours of courses chosen from the following:

**Philosophy of Science:**

PHIL 318  20th and 21st Century Anglo-American Philosophy  3

Law, Social Values and Policy:
PHIL 230  Moral Theory and Practice  3
PHIL 235  Ethical Issues in A Diverse Society  3
PHIL 331  Moral Problems in Medicine  3
PHIL 332  Philosophy of Law  3
PHIL 335  Social and Political Philosophy  3
PHIL 336  Bioethics and Biotechnology  3
PHIL 338  Feminist Philosophy  3
PHIL 343  Philosophy of Technology  3
PHIL 430  Value Theory  3
PHIL 535  Contemporary Political Philosophy  3

Philosophy - Graduate Study
The department offers work for a graduate minor in philosophy. For those taking the M.A. or M.S., the minor requirement is two courses above 300 (but not PHIL 490) each taken in conjunction with PHIL 590. For those taking the Ph.D., the requirement is four courses above 300, at least one of which is above 400 (but not PHIL 490), each taken in conjunction with PHIL 590. Interested students should ask the chair to assign a minor adviser.

The department participates in the interdepartmental program in general graduate studies.

Physics and Astronomy
Physics and astronomy are basic natural sciences which attempt to describe and provide an understanding of both our world and our universe. Physics serves as the underpinning of many different disciplines including the other natural sciences and technological areas. Graduates are proficient in the methods of rigorous scientific analysis, relevant mathematical techniques, and modern computational and laboratory methods. They have a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, and modern physics. They are able to communicate clearly and effectively at general and technical levels. They are prepared to pursue a wide range of careers as a professional physicist, astronomer, or science educator. They are also prepared to pursue advanced studies and careers in areas as diverse as engineering, medicine, law, and business administration. Many opportunities exist for students who terminate their studies with a bachelor's degree, especially when combined with technology studies in other areas. Students who meet the necessary scholastic standards often continue their studies in a graduate college, exploring and contributing to new developments in the field.

The department normally expects each student majoring in physics to complete at least the following courses:

PHYS 241  Principles and Symmetries in Classical Physics I  5
PHYS 242  Principles and Symmetries in Classical Physics II  5
PHYS 321  Introduction to Modern Physics I  3
PHYS 321L  Introductory Laboratory in Modern Physics I  1
PHYS 322  Introduction to Modern Physics II  3
PHYS 322L  Introductory Laboratory in Modern Physics II  1
PHYS 304  Thermal Physics  3
PHYS 310  Electronic Instrumentation for Experimental Physics  4
PHYS 361  Classical Mechanics  3
PHYS 362  Intermediate Mechanics  3
PHYS 364  Electricity and Magnetism I  3
PHYS 365  Electricity and Magnetism II  3
PHYS 480  Quantum Mechanics I  3
MATH 207  Matrices and Linear Algebra (or)  3
or
MATH 317  Theory of Linear Algebra  4
and 2 credits of laboratory work chosen from  2
PHYS 311  Intermediate Laboratory  
PHYS 311T  Intermediate Laboratory for Secondary Physics Teachers  
PHYS 470L  Applied Physics Laboratory  
or
ASTRO 344L  Astronomy Laboratory  
and at least 3 credits chosen from
ASTRO 342  Introduction to Solar System Astronomy  3
ASTRO 346  Introduction to Astrophysics  3
ASTRO 405  Astrophysical Cosmology  3
PHYS 421  Ultrafast Laser Science and Spectroscopy  3
PHYS 432  Molecular and Cell Biophysics  3
PHYS 461  Physics of Biomolecules  3
PHYS 481  Quantum Mechanics II  3
PHYS 496  Modern Optics  3
All students are required to earn at least 6 credits in laboratory work in physics in addition to the laboratory components of PHYS 241 and PHYS 242. These 6 credits must be in courses numbered 304 or higher or in approved substitutions. All students must earn at least 35 credits in physics and astronomy courses numbered 304 or higher. The basic list of expected courses is not a rigid requirement and changes in this basic list will be approved by the department curriculum committee on recommendation of the student’s adviser when such changes will better serve the student’s needs. In particular, students planning a physics major and also seeking certification for high school teaching may, with the approval of their adviser, follow a significantly different program designed to meet their particular needs; these students should consult the department for further information. Further information concerning programs of study, including sample degree programs, is available from the department.

Students majoring in physics who wish an emphasis in astronomy/astrophysics should consider a minor in astronomy. Those planning graduate work in physics or astronomy/astrophysics should choose the option PHYS 481 from the list above. Another useful course is:

STAT 341 Introduction to the Theory of Probability and Statistics I

The expected outcomes for students in these programs are:

1. a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, wave motion and modern physics
2. proficiency in laboratory methods
3. proficiency in modern scientific computational methods
4. a sound foundation in the liberal arts including proficiency in communication skills.

In addition to the performance on exams and course grades, information on evaluating of the success in meeting these goals is obtained by:

1. an annual written survey of all students majoring in the program
2. an annual written survey of all graduating seniors
3. a periodic written survey of program alumni
4. student evaluations of all courses
5. adviser evaluations
6. a bimonthly meeting of program majors with the department chair

Communication Proficiency Requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 (or ENGL 250H). The department requires a grade of C– or better in ENGL 302, ENGL 305, ENGL 309 or ENGL 314. Students are also encouraged to study at least one foreign language.

Physics Plus: The Physics Plus option is for students who wish to establish a clear strength in a field of application of physics. This program makes double majors more feasible and is appropriate for students who plan on employment in applied physics. It is not intended for students who plan on graduate study in physics. For more information, see the physics department web site or consult an adviser in physics.

The department offers a minor in physics which may be earned by completing 20 credits in physics courses chosen as follows:

<table>

17-15 16-15

1 Students must earn a minimum of two laboratory credits from PHYS 311, 311T, 450L, ASTRO 344L, or 450L.

2 Recommended by not required. Highly recommended for those students planning graduate study.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS foreign language requirement.

**Graduate Study**

The department offers studies for the degrees master of science and doctor of philosophy with majors at both levels in applied physics, astrophysics, condensed matter physics, high energy physics, nuclear physics, and physics; and minor credit courses for students majoring in other departments.

Facilities of various research groups of the department, the Ames Laboratory, and the Applied Science Center, including the Microelectronics Research Center, are available for research.
Students with bachelor’s degrees in physics or astronomy from other institutions ordinarily will qualify for graduate study at Iowa State provided they have satisfactorily completed course work similar to that suggested for undergraduate majors here intending to go on to graduate school. In some cases additional instruction at the intermediate level may be required.

Graduates have a broad understanding of physical science, as well as mastery of state-of-the-art methods in their area of specialization. They are able to communicate effectively to a wide range of audiences, from the general public to research colleagues. Their skills in rigorous scientific thinking prepare them for leadership in the broader community. They are skilled in carrying out research, communicating research results, and soliciting research support. They have considerable teaching experience. They have developed problem solving skills that prepare them for careers in either industry or academia.

All candidates for an advanced degree in physics are expected to complete:

<table>

</tr>
</tbody>
</table>

Astrophysics Ph.D. candidates must take at least three of the 580 level Astro courses, while candidates for the Research Masters must take at least two 580 level Astro courses.

Except for the applied physics major where a thesis is always required, the degree master of science is offered both with and without thesis. For all areas of study except applied physics the basic requirements for the M.S. are the same: at least 30 credits of acceptable graduate work must be completed, not less than 21 of which must be in physics or astronomy. Students must complete not less than 6 credits from outside their major area, with 3 credits being required from outside the department, and 3 credits from a 500 or 600 level course in another area of specialization. Students choosing a M.S. degree with thesis may apply up to 8 credits of 699 but no credits of 599 toward the minimum 30 credits. Students choosing a degree without thesis should apply 2 credits of 599, but may not apply any credits of 699 toward the minimum 30 credits.

Students whose major area is applied physics must complete at least 30 credits of acceptable graduate work for the M.S. degree and not less than 19 credits of these must be in the required courses listed above; the remaining 11 credits of the 30 credit minimum may be chosen freely either from within the student’s major area or from without and either from the department or outside, but it should be noted that not more than 3 credits of PHYS 699 Research may be applied toward the 30 credit minimum.

In addition to course work in the major area of study, all candidates for the Ph.D. degree must complete 12 credits from outside this area. Of these 6 must be taken from other departments and 6 must be taken from the department with the additional constraint that this latter 6 must include at least one 500 or 600 level introductory course in another area of specialization. Each candidate for the Ph.D. degree is required to teach one year of elementary physics or astronomy.

Graduate students interested in a physics minor should contact the department for requirements.

Political Science

The study of political science is designed to enable students to understand the nature of politics, public values, and the institutions and processes of politics in their various forms.

Students completing a major in political science will understand and be able to interrelate the leading theories, literature, and approaches in the subfields of American government, political theory, international relations, and comparative politics. Graduates can analyze and formulate effective argumentation in written and oral forms, with the ability to appreciate and accommodate diverse political ideas and to collect and critique information and ideas of others in support of original arguments.
Graduates appreciate the knowledge and civic responsibilities required for effective participation in political life.

The political science major is often chosen by students preparing for a career in law. Students with this goal should consult with the department in selecting courses. See also Preprofessional Study.

Several internship options are available to the political science major, offering students the opportunity to experience practical application of the knowledge learned in academic courses.

**Requirements for the Major:**
For the purpose of defining undergraduate requirements in the Department of Political Science, the Department employs four subfields within the discipline, with the following courses in each:

### I. Political Theory
- **POL S 235** Introduction to Ethics and Politics 3
- **POL S 333** Democracy and Diversity in America 3
- **POL S 339** Liberty and Law in America 3
- **POL S 409** Political Game Theory 3
- **POL S 430** Foundations of Western Political Thought 3
- **POL S 431** Modern Political Thought 3
- **POL S 480** Ethics and Public Policy 3

### II. American Government and Politics
- **POL S 215** Introduction to American Government 3
- **POL S 305** Political Behavior 3
- **POL S 306** Public Opinion and Voting Behavior 3
- **POL S 310** State and Local Government 3
- **POL S 318** Campaigns and Elections 3
- **POL S 319** Law and Politics 3
- **POL S 320** American Judicial Process 3
- **POL S 335** Science, Technology, and Public Policy 3
- **POL S 344** Public Policy 3
- **POL S 353** Immigration Policy 3
- **POL S 360** American Institutions: Congress 3
- **POL S 361** American Institutions: The Presidency 3
- **POL S 362** The Judiciary 3
- **POL S 363** American Institutions: Media 3
- **POL S 364** Political Parties and Interest Groups 3
- **POL S 371** Public Organizations and Leadership 3
- **POL S 385** Women in Politics 3
- **POL S 383** Environmental Politics and Policies 3
- **POL S 413** Intergovernmental Relations 3
- **POL S 420** Constitutional Law 3
- **POL S 421** Constitutional Freedoms 3
- **POL S 442** The Policy and Politics of Coastal Areas 3
- **POL S 475** Management in the Public Sector 3
- **POL S 487** Electronic Democracy 3

### III. Comparative Politics
- **POL S 241** Introduction to Comparative Government and Politics 3
- **POL S 340** Politics of Developing Areas 3
- **POL S 342** Chinese Politics 3
- **POL S 343** Latin American Government and Politics 3
- **POL S 346** European Politics 3
- **POL S 349** Politics of Russia and the Soviet Successor States 3
- **POL S 350** Politics of the Middle East 3
- **POL S 370** Religion and Politics 3

### IV. International Relations
- **POL S 251** Introduction to International Politics 3
- **POL S 354** War and the Politics of Humanitarianism 3
- **POL S 355** War and Politics 3
- **POL S 356** Theories of International Politics 3
- **POL S 357** International Security Policy 3
- **POL S 358** United States Foreign Policy 3
- **POL S 359** Current Issues in American Foreign Policy 3
- **POL S 381** International Political Economy 3
- **POL S 422** International Law 3
- **POL S 452** Comparative Foreign Policy 3
- **POL S 453** International Organizations 3

To complete the major in Political Science a student must earn 33 semester credits of courses in Political Science subject to the following conditions:

1. Students must satisfactorily complete POL S 101 and POL S 301.
2. Students must complete at least 3 credits in each of the four subfields listed above.
3. Political Science courses in which a student has a grade of D+ or lower will not count for the major but can be counted as electives.
4. At least 18 credits of Political Science courses must be numbered 300 or above.
5. At least 6 credits of Political Science courses must be numbered 400 through 489.
6. No more than nine credits of POL S 490, POL S 496, POL S 497, or POL S 499 (alone or in combination) can be used to fulfill any of these requirements.
7. At least 15 credits of Political Science coursework must be earned at Iowa State University.
8. Students must pass at least one Statistics course from among STAT 101, STAT 104, STAT 105, or STAT 226.

9. According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

10. Advanced Communication Skills: Majors must earn at least a C in one course from among ENGL 302, ENGL 309, or ENGL 314.

The department offers a minor in political science that may be earned by completing 15 credits beyond the 100-level of coursework in political science, nine of which must be at the 300 level or above. A student minor in Political Science normally will be expected to take at least 9 credits in Political Science coursework at Iowa State University. Only 3 credits of POL S 490, POL S 496, POL S 497, or POL S 499, alone or in combination, and only 2 credits of POL S 312, POL S 313, POL S 314, or POL S 315 may be included in the total of 15 credits required for the minor. All minors in the College of Liberal Arts and Science require a minimum of 6 credits in courses numbered 300 and above taken at ISU with a minimum grade of C. Credits earned in POL S 496, POL S 497, or POL S 499, or offered on a satisfactory/fail basis only, will not fulfill this requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level.

1. Meets international perspectives requirement.
2. Meets LAS College math requirement.
3. May be cross-listed to fulfill other requirements.

Graduate Study

The department offers work for a Master of Arts degree (MA) with a major in political science and minor for students in other departments.

The department also offers work for a Graduate Certificate of Public Management and Policy (GCPMP) for those interested in an educational certificate program that requires less work than a full masters program. In addition, the Department of Political Science offers work for a Master of Science in Information Assurance (MSIA) and a joint Master of Arts/Juris Doctor (MA/JD) program with the Law School of Drake University. Information with detailed requirements for all graduate degrees may be obtained at the department’s web page at https://www.pols.iastate.edu/academics/graduate/

Master of Arts (MA)

This is a 30-credit masters degree that gives students the opportunity to explore the field of political science in order to pursue a PhD, go to law school, improve research skills, or understand politics better. The three concentration areas are American Politics, Global Politics, and Public Policy. Although it is not a formal concentration, some students have worked heavily in the area of political theory. Top students are eligible for graduate assistantships that make graduate study much more affordable and provide opportunities for assisting faculty with teaching and research. These are awarded on a merit basis. A thesis
is required for this degree. The department also has a joint Master of Arts/Juris Doctorate (MA/JD) program with the Law School of Drake University. Students wishing to pursue this joint degree must submit separate applications to Drake University and Iowa State University and be accepted by both institutions.

MA graduates have a broad substantive understanding of the political process and the academic study of politics. They also have in-depth knowledge of one or more subfields in political science. Graduates are skilled at conducting research and preparing thorough research summaries. They are able to identify and address complex political questions, taking into account related ethical, legal, economic, and social issues.

The prerequisites for major graduate work in the MA program normally are completion of at least 15 credits in political science, the GRE (Graduate Record Examination), one year of a foreign language (equivalent to 8 semester hours), and a course in basic statistics (equivalent to STAT 101). If the basic statistics requirement has not been met, the student may remedy the deficiency by passing equivalent courses, for which no graduate credit will be received. During their program of study, all students are expected to complete STAT 587, 597, POL S 502, and a thesis. Additional information including detailed graduation requirements can be found at https://www.pols.iastate.edu/academics/graduate/#ma

Master of Science in Information Assurance (MSIA)

The Master of Science in Information Assurance (MSIA) is a multi-disciplinary program designed to provide students with diverse backgrounds and interests the opportunity to obtain professional training in the emerging field of information assurance. The core of the MSIA program is built around a series of courses taught in Electrical and Computer Engineering, Mathematics, and Computer Science that introduce students to software and hardware aspects of cryptography and computer security. The program also recognizes, however, that information assurance defined in terms of security, privacy, access, and reliability is not simply a technical problem but also involves important societal dimensions, including policy, education, ethics, and management. Recognizing that political science offers many potential intersections with information assurance (e.g., public sector management of information technology; forensics and computer crime; information technology policy and law; information technology and international relations; information warfare; etc.), students with interests in these areas are encouraged to select the Department of Political Science as their home department.

Students opting to pursue a MSIA degree through the Department of Political Science can expect to acquire skills and background knowledge relevant to a career in public policy or public sector management of information assurance technologies. The MSIA degree can also help prepare students who wish to go on to pursue a PhD in information politics and policy.

Students interested in the MSIA degree program should consider Political Science as a home department if their future career and/or educational interests lie in such areas as: institutional issues related to the Internet and information technologies; electronic government and electronic democracy; information technology, international security, and information warfare; information technology policy and law; and public administration and public sector management of information technology.

Admission requirements generally follow the same guidelines as the MA in Political Science. Degree requirements are specified by the MSIA program in cooperation with Political Science. More in-depth information on the program including detailed graduation requirements can be found at: https://www.pols.iastate.edu/academics/graduate/#msia

Master of Arts/Juris Doctorate Program (MA/JD)

The Drake Law School and the Department of Political Science at Iowa State University are co-sponsors of the Master of Arts/Juris Doctorate degree. This degree combines courses at both Iowa State University and the Drake Law School and follows most of the same requirements as a double degree. However, the student must have full admission to both schools. Detailed information for the MA/JD can be found at the ISU Political Science webpage as well as the Drake Law School website (under Joint Degree): http://www.law.drake.edu/.

The increasing attention being focused on the solution of social problems by state and federal governments has created a need for persons with advanced training in both law and political science. The Drake Law School and the ISU Department of Political Science jointly administer a MA/JD program to provide an opportunity for students at the Drake Law School to achieve, concurrently, a JD degree in law and a MA degree in political science, and for graduate students in political science at Iowa State University to achieve a degree in law.

Successful completion of this program will enable students at Drake Law School to receive both a JD and an MA degree within a three-year period, while graduate students in political science at Iowa State University will be able to transfer a substantial number of hours to the Drake Law School toward the fulfillment of the JD requirements in a similar amount of time. Additional information including detailed graduation requirements can be found at: https://www.pols.iastate.edu/academics/graduate/#majd

Minor

Students in other graduate programs may obtain a minor in political science by completing at least 9 credits of political science courses.
Interested students should consult the Graduate College Handbook for additional information on graduate minors.

The Graduate Certificate of Public MANAGEMENT AND POLICY (GCPMP)

The Political Science Department offers a Graduate Certificate of Public Management and Policy (GCPMP). The GCPMP is a 15-credit certificate. Students who are interested in public management and policy, but unsure about committing to a full master's degree, can aim for the certificate knowing that those courses will also count toward a master's degree if they choose to continue on. Iowa State graduate students in other fields may want to pursue the certificate to improve their credentials on the job market if their interest overlaps with public management and policy. For example, doctoral students in higher education and education administration can earn all 9 of their "outside" credits in the GCPMP coursework, add the 6 more elective credits, and earn a GCPMP along with their PhD.

Requirements for admission are a graduate school application, an essay stating purposes for study, college transcripts, the GRE (waived for those with five or more years of public or nonprofit sector experience), three letters of recommendation, and the TOEFL for international students. More information on the program including curricular requirements can be found at: https://www.pols.iastate.edu/academics/graduate/#gcpm/.

Psychology

For college-level requirements in undergraduate curricula leading to the degrees of bachelor of arts and bachelor of science, see Liberal Arts and Sciences, Curriculum.

An undergraduate major in psychology provides a liberal arts and science education, which also can serve as preparation for graduate study in psychology, law, or the health professions. The undergraduate major in psychology enables graduates to understand and apply the scientific principles, facts, and basic methods of psychology to their personal and professional activities. Students with a bachelor's degree (B.A./B.S.) in psychology may qualify for a variety of positions including those in social sciences, mental health, corrections, rehabilitation, developmental disability centers, and business (management, insurance, opinion polls). Professional work as a psychologist in academic, business, clinical, government, and school settings requires graduate degrees. Depending on professional goals, a minor in another discipline may be desirable.

Following the recommendations of the American Psychological Association, the undergraduate curriculum in psychology is designed to allow each student to:

1. Develop a detailed knowledge of psychology
2. Develop an understanding of scientific inquiry and demonstrate critical thinking
3. Understand the role of ethics and diversity in human behavior
4. Be able to communicate effectively in the discourse of psychology
5. Develop skills supporting employment or graduate/professional education

COMMUNICATION PROFICIENCY REQUIREMENT

According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 150</td>
<td>Critical Thinking and Communication</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 250</td>
<td>Written, Oral, Visual, and Electronic Composition</td>
<td>3</td>
</tr>
<tr>
<td>or ENGL 250H</td>
<td>Written, Oral, Visual, and Electronic Composition: Honors</td>
<td>3</td>
</tr>
</tbody>
</table>

The Department requires a C- or better in one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 302</td>
<td>Research Methods in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 302</td>
<td>Business Communication</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 309</td>
<td>Proposal and Report Writing</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 314</td>
<td>Technical Communication</td>
<td>3</td>
</tr>
</tbody>
</table>

The major must include the following psychology courses each with a minimum grade of C- and an overall average of C or better:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 101</td>
<td>Introduction to Psychology *</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 102</td>
<td>Laboratory in Introductory Psychology *</td>
<td>1</td>
</tr>
<tr>
<td>PSYCH 111</td>
<td>Orientation to Psychology * or Psych 112 Learning Community</td>
<td>0.5</td>
</tr>
<tr>
<td>PSYCH 301</td>
<td>Research Design and Methodology *</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 440</td>
<td>Psychological Measurement I *</td>
<td>3</td>
</tr>
</tbody>
</table>

The major also must include at least one course from four of the following six areas:

Area A

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 230</td>
<td>Developmental Psychology</td>
<td></td>
</tr>
<tr>
<td>PSYCH 335</td>
<td>Abnormal Psychology of Children and Adolescents</td>
<td></td>
</tr>
</tbody>
</table>

Area B

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 280</td>
<td>Social Psychology</td>
<td></td>
</tr>
<tr>
<td>PSYCH 380</td>
<td>Social Cognition</td>
<td></td>
</tr>
</tbody>
</table>

Area C

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 310</td>
<td>Brain and Behavior</td>
<td></td>
</tr>
<tr>
<td>PSYCH 315</td>
<td>Drugs and Behavior</td>
<td></td>
</tr>
</tbody>
</table>

Area D

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 312</td>
<td>Sensation and Perception</td>
<td></td>
</tr>
<tr>
<td>PSYCH 313</td>
<td>Learning and Memory</td>
<td></td>
</tr>
<tr>
<td>PSYCH 316</td>
<td>Cognitive Psychology</td>
<td></td>
</tr>
</tbody>
</table>
Three additional 3-credit courses in psychology must be taken. Area courses may be used to meet this requirement, but variable credit courses (PSYCH 291, PSYCH 470, PSYCH 490, PSYCH 491, and PSYCH 492) may not.

In accordance with college requirements, a C or better average is required in the courses used to satisfy the major.

Departmental requirements for the B.A. and B.S. include the following supporting courses:

6 credits in Philosophy including

PHIL 201 Introduction to Philosophy (not 207) 3

Two of the following

BIOL 101 Introductory Biology (or higher)

BIOL 155 Human Biology (or 255 or 256)

BIOL 313 Principles of Genetics

CHEM 160 Chemistry in Modern Society (or higher)

PHYS 101 Physics for the Nonscientist (or higher)

STAT 101 Principles of Statistics (or higher) * 4

MATH 104 Introduction to Probability (or 150 or higher) ** 3

* minimum grade of C-

** excluding MATH 105 Introduction to Mathematical Ideas

Students electing a B.S. degree also must complete PSYCH 302 Research Methods in Psychology with a minimum grade of C- and a minimum of 10 additional supporting credits in supporting courses from the list of courses in the LAS Gen Ed Natural Sciences and Mathematical Disciplines Area (or approved departmental list) as follows: three credits in mathematics, six credits in natural sciences, and one additional credit in a laboratory course.

Students electing a B.A. degree also must complete an ISU approved minor.

The department offers a minor in psychology. The minor requires completing 18 credits in psychology, including PSYCH 101 Introduction to Psychology and PSYCH 301 Research Design and Methodology, each with a minimum grade of C-. At least 9 of the 18 credits must be in 300 level courses (or above), but no more than three credits total may be from PSYCH 291 Introductory Research Experience, PSYCH 490 Independent Study, PSYCH 491 Research Practicum, and PSYCH 492 Fieldwork Practicum. In addition to an overall C average or better in courses used to satisfy the minor, a C- or better is required in each course. Contact the psychology advising office for more information.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. **Graduate Study**

The department offers work for the degree of doctor of philosophy in psychology. A master of science may be earned as part of that degree.

The department offers a doctoral specialization in counseling psychology (APA accredited) and doctoral areas of concentration in cognitive psychology and social psychology.

A basic goal of graduate study in the Department of Psychology is to provide all students with a broad base of knowledge in psychological science, as well as exposure to the content and methodological skills necessary for effective performance in teaching, research and professional practice. Accordingly, graduates have an extensive knowledge of psychological principles and the conceptual and quantitative skills to conduct psychological research and to communicate the results to the scientific community, students in the classroom, and the general public. Graduates in counseling psychology are skilled in delivering services to diverse clientele in a variety of settings.

The department also participates in the interdepartmental programs in human computer interaction (http://www.vrac.iastate.edu/hci/), neuroscience (http://www.neuroscience.iastate.edu/) and in the interdepartmental minor in gerontology (http://www.gerontology.iastate.edu/programs/).

A formal class and a supervised practicum in the teaching of psychology is recommended for all doctoral students whose future plans may include...
teaching at the college level. A 12-month internship in a training site or agency approved by the faculty is required of all doctoral students in counseling psychology.

Public Relations
The Public Relations Major
The public relations major provides students with the concepts, skills and expertise needed to help organizations build mutually beneficial relationships with diverse publics. The knowledge and tools students develop through the P R curriculum ensure they can enter fields such as corporate communication, government affairs and public relations firms. The capstone professional internship experience, coupled with coursework that focuses heavily on writing, research and professional abilities, provide opportunities for students to practice and refine their skills.

To receive a bachelor of science degree in public relations, a student must earn at least 120 credits. A minimum of 72 credits must come from courses other than ADVRT, JL MC or P R. At least 50 of these credits must come from the liberal arts and sciences. Overall, at least 45 credits must be from 300-level or above.

Public relations majors are required to take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 101</td>
<td>Principles of Statistics (or another approved statistics course)</td>
<td>4</td>
</tr>
</tbody>
</table>

The degree requirements allow for a minimum of 34 credits and a maximum of 48 credits to be taken in ADVRT, JL MC and P R. These include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JL MC 101</td>
<td>Mass Media and Society</td>
<td>3</td>
</tr>
<tr>

<td>Media Ethics, Freedom, Responsibility</td>
<td>3</td>
</tr>
<tr>
<td>P R 499A</td>
<td>Professional Media Internship: Required</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional recommended courses and requirements for the public relations major are available from the Greenlee School.

Students taking one major at the school may not seek a second major or a minor in the school. All Greenlee School majors are required to take a second major or minor outside the school as an area of expertise. All Greenlee School majors are required to take 499A. Greenlee majors and minors cannot take ADVRT, JL MC or P R courses pass/not pass.

Minor in Public Relations
Students cannot select more than one minor in the Greenlee School of Journalism and Communication. Minors in the Greenlee School are not available to Greenlee majors.

For a minor in public relations, students complete 15 credits.

University Requirement: Students in all ISU majors must complete a three-credit course in U.S. Diversity, as well as a three-credit course in International Perspectives. The approved course lists are found at the following web addresses: (U.S. Diversity) http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses) and (International Perspectives) http://www.registrar.iastate.edu/students/div-ip-guide/IntlPerspectives-current. Students must also demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

College of LAS Requirement: Minimum of 120 credits, including a minimum of 45 credits at the 300-level and above. You must also complete the LAS Foreign Language requirement and any unmet ISU admission requirements.

Minor or Second Major: Students are required to fulfill a secondary area of expertise. This requirement can be met by declaring a minor or a second major outside of the Greenlee School of Journalism and Communication.

### Religious Studies

Religious Studies - Undergraduate Study

Religious studies gives students the opportunity to investigate and reflect on the world’s religions in an objective, critical, and appreciative manner. Though there is emphasis in religious studies on the wide variety of religious phenomena as well as on the various methods in the study of religion, the aim is to help students develop their own integrated understanding of the nature of religion and its role in individual and social life.

Graduates of the religious studies program have knowledge of the religious diversity in the United States and the world. They have the
ability to interpret religion empathetically and critically and to compare
and contrast historical and contemporary differences and similarities
of religious systems. They understand ways in which religion influences
and is influenced by the historical, social, and cultural contexts in which
religious systems function. Graduates often pursue careers in non-profit,
community organizations; apply to professional schools or graduate
programs; or enter seminaries to prepare for ministry.

The major in religious studies seeks to provide both breadth and depth.
Breadth is provided through the exploration of the world’s various
religious traditions and through exposure to a variety of theoretical
approaches and methodologies in the academic study of religion. Depth
is achieved through specialized courses in particular religious traditions
and particular issues in the study of religions, culminating in research
seminars. The objective is to expose the student to various components
of the discipline of Religious Studies and by doing so develop skills
that are valuable in a number of careers and that provide the necessary
foundation for pursuing graduate studies.

Students pursuing a major in religious studies must complete a minimum
of 33 credits, including the following requirements:

<table>
<thead>
<tr>
<th>Two required introductory survey courses</th>

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS foreign-language requirement.

1. Laboratory science recommended.
2. According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

The program offers a minor that may be earned by completing a total of 15 credits in religious studies including either RELIG 205 Introduction to World Religions or RELIG 210 Religion in America. Nine hours must be in courses at the 300 level or above (no more than 3 hours of seminar and no more than 3 hours of independent study).

Students may choose to do a senior thesis under the supervision of a religious studies faculty adviser. This option may earn 3-6 credits toward the completion of the major.

**Religious Studies - Graduate Study**

Religious studies may be one of the three areas used for the interdisciplinary graduate studies master’s degree.

**Sociology**

**Undergraduate Study in Sociology**

The Department of Sociology offers course work leading to either a bachelor of arts, bachelor of science, or a minor in sociology. Additionally, a bachelor of science in Agriculture & Society is offered.

Graduates of all these programs will understand and demonstrate:

1. general knowledge of sociology
2. research methods in sociology
3. critical thinking skills
4. application of sociology to pressing social issues
5. sociological and professional values
6. information technology skills
7. communication skills
8. personal and career development

Graduates understand how social institutions, communities, and organizations work and change; they can examine the causes and consequences of conformity, deviance, and inequality. They can apply sociological understanding of human behavior to practical work situations and everyday life. Graduates can read critically, think independently, and communicate effectively about social issues and social policy.

**University Requirements:**

- **International Perspective**
  - 3 credits
- **US Diversity**
  - 3 credits
- **Total Credits**
  - 6 credits

**Communications:**

- **ENGL 150** Critical Thinking and Communication
  - 3 credits
- **ENGL 250** Written, Oral, Visual, and Electronic Composition
  - 3 credits
- **LIB 160** Information Literacy
  - 1 credit
- **Total Credits**
  - 7 credits

**World Languages and Culture:**

- 3 years H.S.
  - **SPAN 097** Accelerated Spanish Review
    - 0 credits
  - 2 semesters college
    - 8 credits
- **Total Credits**
  - 8 credits

**Departmental requirements for sociology majors include the following supporting courses:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 101</td>
<td>Principles of Statistics</td>
<td>3-4</td>
</tr>
<tr>
<td>STAT 104</td>
<td>Introduction to Statistics</td>
<td></td>
</tr>
<tr>
<td>ENGL 302</td>
<td>Business Communication</td>
<td></td>
</tr>
<tr>
<td>ENGL 309</td>
<td>Proposal and Report Writing</td>
<td></td>
</tr>
<tr>
<td>ENGL 314</td>
<td>Technical Communication</td>
<td></td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td></td>
<td><strong>6-7</strong></td>
</tr>
</tbody>
</table>

Majors must complete both ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition. According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250. In addition, majors must also take an advanced course in ENGL 302 Business Communication or ENGL 309 Proposal and Report Writing or ENGL 314 Technical Communication with a grade of C or better.

Programs leading to a bachelor of arts degree will emphasize additional coursework in groups I and III of the general education requirements. Programs leading to a bachelor of science degree will emphasize additional coursework in groups IIA and IIB of the general education requirements. Some of the possible areas of coursework include criminal justice, community (urban and rural) sociology, family sociology,
sociology of work, research methods and statistics, social change and development, social inequality, social psychology and sociological theory.

A program of study that meets the needs and interests of the student and department requirements will be developed in consultation with the major adviser. Students must maintain a GPA of 2.0 or higher in their core courses. Programs of study will include:

<table>

</tbody>
</table>

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses.

**Sociology Minor**

The department offers a minor in sociology which may be earned by completing 15 credits in sociology with a minimum 2.0 GPA:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 134</td>
<td>Introduction to Sociology</td>
<td>3</td>
</tr>
<tr>
<td>Additional 12 credits in Sociology courses</td>
<td></td>
<td>12</td>
</tr>
<tr>
<td>9 credits must be 300+</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>15</td>
</tr>
</tbody>
</table>
At least 9 of the 15 credits must be at the 300 level or higher with a minimum of 6 of those credits taken at ISU. 9 credits must stand alone in the minor.

**Graduate Study**

The department offers work for the degrees master of science and doctor of philosophy with majors in sociology and rural sociology and minor work for students majoring in other departments. The department offers concentrations in a number of areas, e.g., community studies and development; sociology of families, inequality, food systems, agriculture and environment; methodology; social change and development; criminology; the economy, organizations and work; and social psychology. The Department of Sociology does not offer a nonthesis master's program.

Graduates have a broad understanding of sociology, address complex societal problems, and communicate effectively with scientific colleagues and the general public in both formal and informal settings. They understand sociological theory, conduct research, and are prepared to educate college students and contribute to public policy. Although the department stipulates no language requirement for either the degree master of science or the degree doctor of philosophy, specifying competence in one or more languages may be desirable in some instances.

The department also participates in the interdepartmental program in interdepartmental majors in sustainable agriculture, transportation and water resources, and interdepartmental minors in gerontology.

Course requirements are listed below. Information about examinations, theses and dissertations, P.O.S. committees and other requirements are available on the Sociology Department web site.

**Ph.D. Core Degree Requirements**

Although responsibility for determining the student’s course work resides with the POS committee, the Sociology Department has core courses that must be taken by all students. A graduate course taken elsewhere can be substituted for the Ph.D. core requirements with approval by the Departmental Officer of Graduate Education (DOGE) in consultation with the faculty. A minimum of 72 semester credits (including master’s degree credits) is required for graduation.

**Co-Major Requirements for the Graduate Program in Sustainable Agriculture**

The Graduate Program in Sustainable Agriculture (GPSCA) develops student competence and expertise in the design, implementation, and
evaluation of sustainable agricultural systems. The program's curriculum satisfies the formal requirements for the MS and Ph.D. degrees, as established by the ISU Graduate College, and fosters transdisciplinary and systems-level thinking. The Department does not offer double majors in sociology. For admission to the co-major program contact the graduate program coordinator.

**M.S. Core Degree Requirements**

Although responsibility for determining the student's course work resides with the POS committee, the Sociology Department has core courses that must be taken by all students. A graduate course taken elsewhere can be substituted for the core requirements with approval by the Departmental Officer of Graduate Education (DOGE) in consultation with the faculty.

**Required Courses for the M.S. Degree**

<tr>
<td>SOC 511</td>
<td>Research Methodology for the Social Sciences</td>
<td>3</td>
</tr>
</tbody>
</table>

Three additional courses in sociology for a total of 19 credits.

The department does not offer double majors in sociology at the graduate level. Admission requirements to the co-major program are the same as for the major.

**Co-Major Requirements for the Graduate Program in Sustainable Agriculture**

The Graduate Program in Sustainable Agriculture (GPSA) develops student competence and expertise in the design, implementation, and evaluation of sustainable agricultural systems. The program's curriculum satisfies the formal requirements for the MS and PhD degrees, as established by the ISU Graduate College, and fosters transdisciplinary and systems-level thinking.

**Software Engineering**

For the undergraduate curriculum in Software Engineering (http://www.se.iastate.edu) leading to the degree Bachelor of Science. The Software Engineering Program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

The Bachelor of Science degree in software engineering is jointly administered by the College of Engineering and the College of Liberal Arts and Sciences. The Software Engineering program provides undergraduate students with the opportunity to learn software engineering fundamentals, to study applications of state-of-the-art software technologies and to prepare for the practice of software engineering. The student-faculty interaction necessary to realize this opportunity occurs within an environment motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research and outreach programs.

The software engineering curriculum offers emphasis areas in software engineering principles, process and practice. Students may also take elective courses in computer engineering and computer science.

**Program Educational Objectives**

Within five years of graduation, the graduates should:

1. attain a productive career in Software Engineering or related fields;
2. attain leadership roles and become effective collaborators to advance professional and organizational goals;
3. engage in lifelong learning and professional development.
4. encourage and support diversity and inclusiveness in their workplace.

We expect that these objectives will be manifested in our graduates through the following five key attributes: (a) peer-recognized expertise, (b) engagement in professional practice, (c) sustained learning, (d) leadership and (e) teamwork.

Demonstration of expertise involves applying state-of-the-art practices for solving problems in the design, development, validation, evolution and sustainment of (software) products. Demonstration of professional engagement involves contributing locally and globally to the use of ethical, competent, and creative practices in industry, academia or the public sector. Demonstration of sustained learning involves the ability to adapt to rapid technological, environmental, and organizational changes through self-study and group study and through opportunities of professional development or graduate study. Demonstration of leadership involves the ability to take initiative, and to facilitate the advancements.
of individuals and the community by influencing others and by having a widespread, positive impact on critical issues and projects. Finally, demonstration of teamwork involves the ability to work with collaborators who have varied expertise, and with diverse cultural and interdisciplinary backgrounds.

As a complement to the instructional activity, the College of Engineering and the College of Liberal Arts and Sciences provide opportunities for each student to have experience with broadening activities. Students have the opportunity to gain practical industry experience in the cooperative education and internship program. Students have the opportunity to participate in advanced research activities. Through international exchange programs, students learn about engineering practices in other parts of the world.

**Curriculum in Software Engineering**

The Software Engineering program is an interdisciplinary program delivered jointly by the College of Engineering and the College of Liberal Arts & Sciences.

Leading to the degree bachelor of science.

**Total credits required: 125 cr.** Any transfer credit courses applied to the degree program require a grade of C or better (but will not be calculated into the ISU cumulative GPA, Basic Program GPA or Core GPA). See also Basic Program and Special Programs. Note: Pass/Not Pass credits cannot be used to meet graduation requirements.

**International Perspectives: 3 cr.**

**U.S. Diversity: 3 cr.**

**Communication Proficiency/Library requirement:**

</table>

Co-op or internship (S E 396, S E 397, S E 398) is optional

Senior Design Project II and credits in the core professional curriculum and/or in technical electives. The software engineering degree program requires a grade of C or better for any transfer credit course that is applied to the degree program.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. Diversity and International Perspectives courses may not be taken Pass/Not Pass.

2. Choose from department approved lists. [http://www.se.iastate.edu/academics](http://www.se.iastate.edu/academics)

3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.

See also: A 4-year plan of study grid showing course template by semester.

Note: International perspectives and U.S. diversity courses are used to meet the general education electives [http://www.se.iastate.edu/academics](http://www.se.iastate.edu/academics).

Speech Communication

Speech Communication, a major in the Department of English, helps students develop their understanding and appreciation of the human communication process and enhances their oral and written communication practice. Speech Communication students develop an awareness of the importance of oral communication and listening for success in their personal, civic, and professional lives; become familiar with behavioral research in persuasion; understand how language is used to create social change; develop competent delivery skills; assess the quality of arguments; evaluate information found in research and public discourse; and cultivate rhetorical sensitivity in order to better connect with individuals and audiences. In this way, the program contributes to the humanistic, aesthetic, and critical development of liberally educated students in order to prepare them for full and effective participation in society.

Undergraduate Study

The cross-disciplinary program in speech communication offers courses designed for all students as part of their general education and as a complement to their professional training. It also offers a major or minor in speech communication as well as an additional endorsement for secondary teachers who already have an endorsement in another content area.

Students who major or minor in speech communication will prepare themselves for a wide variety of employment opportunities in business, industry and government, as well as in non-profit and educational organizations. With their effective oral communication, listening, teamwork, problem-solving and leadership skills, speech communication students find positions in general business management: human resources, benefits, financial services, retail, sales and marketing and serve various organizations as recruiters, trainers, promotions managers, communication specialists, community outreach personnel and event planners. The program also prepares students for the study of law, theology, and for graduate level work in speech communication and related disciplines.

The program participates in the following interdisciplinary undergraduate minor programs: the interdisciplinary program in Linguistics and the interdisciplinary program in Technology and Social Change. Speech Communication also offers a core course and several optional courses in the undergraduate certificate program in Leadership Studies.

Speech Communication Major

A student electing to major in speech communication must earn at least 120 credits with 45 credits at the 300/400 level. A minimum of 33 of those credits must be earned in Speech Communication courses where the student earns a grade of C or better. Our flexible curriculum with few prerequisites can help you meet the 33 hour requirement in a timely way.

Credits in SP CM 290 Special Projects or SP CM 499 Communication Internship cannot be applied toward the minimum required credits for the major.

Speech Communication Education

Students working toward a primary teaching endorsement in another discipline may add a speech communication endorsement as an additional area. Coursework prepares students to teach speech, dramatic arts, and media at the secondary school level. In addition, they prepare to direct co-curricular and extracurricular activities such as drama, speech and debate.

Each student seeking an additional endorsement in speech communication must meet a 29 hour requirement by taking the following courses:

<table>
<thead>
<tr>

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS foreign language requirement.

Speech Communication Choices include SP CM 205 (also ENGL 205), 305, 312, 313, 322, 323, 325 (also COMST 325 - has COMST prerequisites), 305 (also ENGL 350), and 417. Note: Students must earn a C or better in all Speech communication courses used to meet the 33 credits required for the major.

Speech Communication Minor

Students from any major can complement their studies with a Speech Communication Minor (http://www.speechcomm.iastate.edu/index.php?option=com_content&view=article&id=34&Itemid=29). The requirements for a minor in speech communication may be fulfilled by credit in SP CM 212 Fundamentals of Public Speaking plus at least 15 additional hours from the lists above, of which 9 credits are in courses numbered 300 or above.

Graduate Study

The program offers courses for a graduate minor in speech communication as well as supporting work for other disciplines. The requirements for a graduate minor (http://www.speechcomm.iastate.edu) in Speech Communication include:

<table>
<thead>
<tr>

</table>

The Program of Speech Communication also participates in the interdepartmental program leading to a master’s degree in Interdisciplinary Graduate Studies.

Statistics

Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in statistics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum.

The curriculum in liberal arts and sciences with a major in statistics is designed to prepare students for (1) entry level statistics positions requiring the B.S. degree in statistics in business, industry or commerce, nonprofit institutions, and in state or federal government; (2) graduate study in statistics. Entry-level positions include the following types of work: statistical design, analysis and interpretation of experiments and surveys; data processing and analysis using modern computation facilities and statistical computing systems; application of statistical principles and methods in commercial areas such as finance, insurance, industrial research, marketing, manufacturing, and quality control. Nonprofit organizations such as large health study institutions have entry-level positions for B.S. graduates in statistics. Also, there are opportunities for work in statistics that require a major in a subject-matter field and a minor in statistics.

Students completing the undergraduate degree in statistics should have a broad understanding of the discipline of statistics. They should have a clear comprehension of the theoretical basis of statistical reasoning and should be proficient in the use of modern statistical methods and
computing. Such graduates should have an ability to apply and convey statistical concepts and knowledge in oral and written form. They should be aware of ethical issues associated with polling and surveys and in summarizing the outcomes of statistical studies.

Undergraduate majors in this department usually include in their programs:

| STAT 100 | Orientation in Statistics |
| STAT 201 | Introduction to Statistical Concepts and Methods |

One of the following options

**Option I**

| MATH 165 | Calculus I |
| MATH 166 | Calculus II |
| MATH 265 | Calculus III |

**Option II**

| MATH 165 | Calculus I |
| MATH 166H | Calculus II, Honors |
| MATH 265H | Calculus III, Honors |

| MATH 207 | Matrices and Linear Algebra |
| or MATH 317 | Theory of Linear Algebra |
| COM S 107 | Applied Computer Programming |
| or COM S 207 | Fundamentals of Computer Programming |

| STAT 301 | Intermediate Statistical Concepts and Methods |
| STAT 341 | Introduction to the Theory of Probability and Statistics I |

| STAT 342 | Introduction to the Theory of Probability and Statistics II |
| STAT 402 | Statistical Design and the Analysis of Experiments |
| STAT 421 | Survey Sampling Techniques |
| STAT 479 | Computer Processing of Statistical Data |
| STAT 480 | Statistical Computing Applications |

These courses plus at least six additional credits in statistics at the 400 level or above (excluding STAT 401, 447, 495, 496) constitute the major. I E 361 Statistical Quality Assurance/STAT 361 Statistical Quality Assurance may be substituted for three credits of 400 level courses. It is advisable to have a minor in a field of application.

English and Speech proficiency requirement: The department requires a passing grade in ENGL 150 Critical Thinking and Communication, completion of ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors) with a grade of C or better, and completion of one of ENGL 302 Business Communication or ENGL 314 Technical Communication with a grade of C- or better. The department requires a passing grade in COMST 102 Introduction to Interpersonal Communication or SP CM 212 Fundamentals of Public Speaking.

Students intending to do graduate work in statistics normally will take additional courses in mathematics.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.
LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level.

You must also complete the LAS foreign language requirement.

**Minor**

The department offers a minor in statistics which may be earned by completing one introductory course in statistics (STAT 101, 104, 105, 201, 226, 231, 305, 322 or 330); STAT 301 or 326; plus 9 additional credits from STAT 341, 342, 361, and 400 level or above (excluding STAT 401, 447, 495, 496) to yield a total of at least 15 credits in statistics courses.

**Graduate Study**

The department offers graduate programs leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees with a major in statistics. Graduate work leading to a minor in statistics is available for students majoring in other programs, at both the M.S. and Ph.D. levels. The Ph.D. degree is also offered as a co-major with other graduate programs. The department participates in inter-disciplinary graduate programs in Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Genetics, Human Computer Interaction, Nutritional Sciences, and Wind Energy Science, Engineering, and Policy.

Graduates of the M.S. program have an understanding of basic statistical theory and methods. Elective courses in the M.S. program provide an opportunity for students to emphasize particular areas of statistical methods or application in their program. Students complete a minimum of 34 semester credits, including work on a capstone project resulting in a written creative component under the direction of an individual major professor and presented in a final oral examination.

Graduates of the Ph.D. program in statistics have studied advanced theory and methods, and have demonstrated the ability to conduct independent research resulting in an original contribution to the discipline. Candidates for the Ph.D. degree in statistics complete a minimum of 72 semester credits, including at least 18 credits given for research activity, pass an oral preliminary examination, and submit a written dissertation containing original research that is defended in a final oral examination. Dissertation research is typically conducted in close collaboration with a major professor and usually results in publishable material. The department does not offer specific program tracks or areas of emphasis, but the diversity of elective courses and research areas of faculty allow students to tailor their individual programs to reflect areas of particular interest.

Graduates of co-major Ph.D. programs in statistics and an applied scientific discipline have mastered basic statistical theory and have studied advanced methodology. Students complete a minimum of 72 semester credits for courses in statistics and the chosen scientific discipline. Students conduct research that is a combination of statistical methodology and the scientific discipline. Co-major professors work with the student to prepare for an oral preliminary examination and conduct research leading to a single dissertation project that produces an original contribution to at least one of the two disciplines that is defended in a final oral examination.

Graduates of co-major Ph.D. programs in statistics and an area of theoretical mathematics have mastered basic statistical methods and have studied advanced statistical theory. Students complete a minimum of 72 semester credits. Co-major professors assist the student in preparing a dissertation that represents original research that makes a contribution at the interface of statistical theory and a sub-discipline of mathematics. The dissertation is defended in a final oral examination.

**Teaching English as a Second Language (TESL)**

The Minor in TESL prepares students to teach English to nonnative speakers of English, either in community programs in the United States or in overseas locations. The Minor provides understanding of how English works (ENGL/LING 219) and practical and theoretical applications in how English is taught to those who do not speak English natively (ENGL/LING 322, ENGL/LING 324, ENGL/LING 325, and ENGL/LING 425). The TESL Minor prepares students to cross cultural boundaries to learn about, interact with, and assist speakers of other languages in learning English, the leading global language today. A TESL Minor will help students become global citizens through interacting with and teaching those from around the world who come to the United States and by giving students skills that will allow them to live and work in other countries. All classes listed are requirements for the Minor in TESL (15 credits). A C or better is required in each course used to satisfy the minor. Contact the Linguistics advising office for more information.

**Technical Communication**

The Technical Communication major (and minor) prepares students for workplace writing in careers that involve information—particularly scientific, workplace, and technical information. Emphasis is placed on researching, thinking critically, collaborating (often with subject matter experts), organizing, writing, editing, designing, and presenting information clearly. TComm is sometimes a second major for students in technical, scientific, or engineering fields, and often a second major.
or minor for students who major in English (http://catalog.iastate.edu/collegeofliberalartsandsciences/english).

**Technical Communication Major Requirements**

Technical Communication majors must take 34-36 credits within the major and 6 hours in a designated area of concentration related to technology, science, or design (an acceptable minor will also fulfill this requirement). Majors develop advanced skills in multiple aspects of technical communication and apply their knowledge of technical communication to a specific discipline.

Designated Area of Concentration (DAC) in technical, scientific, or design field 6 credits

Total Credits 40-42

**Designated Area of Concentration Courses**

The Designated Area of Concentration (DAC) is a student-designed grouping of related courses in a technical, scientific, or design field that will meet the student’s professional or academic interests. Courses for the 6-credit DAC must be taken outside the English Department and approved by the Technical Communication Program Adviser. A second major or a minor in areas such as computer science, social science, natural science, entrepreneurial studies, design studies, engineering studies, or another technical, scientific, or design field may substitute for the DAC.

15 credits
Technical Communication Major Requirements

Technical Communication majors are required to have, in addition to ISUComm foundation courses (ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition), at least 34 credits in TComm and 6 credits in a designated area of concentration. Majors transferring from other institutions must take at least 18 of their credits in TComm while in residence at Iowa State.

To graduate with a major in Technical Communication and meet the university-wide Communication Proficiency Grade Requirement, a student must have credit for ENGL 150 Critical Thinking and Communication and earn at least a C (not C-) in ENGL 250 Written, Oral, Visual, and Electronic Composition as well as in each of the courses taken to fulfill the program of study, including one advanced communication course.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check [http://www.registrar.iastate.edu/courses/div-ip-guide.html](http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS foreign language requirement.

Technical Communication Minor Requirements

The department offers a minor in Technical Communication, which students may earn by completing the following:

ENGL 314 Technical Communication 3

Choose 4: 12

- ENGL 214 Introduction to Technical Communication
- ENGL 302 Business Communication
- ENGL 309 Proposal and Report Writing
- ENGL 310 Rhetorical Analysis
- ENGL 312 Biological Communication

Total Credits 15

Nine of the 15 credits must be 300 level or above and students must earn a grade of C (not C-) or higher in each course taken in the minor.

Up to 6 of the 15 credits taken for the minor may be used to meet other degree program requirements. Students may design their minor programs around their own interests but are encouraged to work with the Technical Communication Program Adviser.

Note: Students should check the ISU catalog to be sure that they meet prerequisites if they intend to register for 400+ courses.

U.S. Latino/a Studies Program

Latinos/as/x are the largest and fastest growing culturally diverse population in the United States, representing dynamic and thriving American realities.

U.S. Latino/a Studies at Iowa State University is a cross-disciplinary, coalition-building program that offers well-structured and creative coursework to students interested in the arts, cultures, economies, histories, politics, religions, and literatures of Latino/a/x communities throughout the United States. It facilitates the study of a vast array of communities and individuals with roots in the Caribbean and Latin America, and long-established U.S. citizen communities such as Chicanos/as, Mexican Americans, Tejanos, Californios, Cuban-Americans, Dominican-Americans, and Puerto Ricans on the island and on the mainland.

The program aims to serve as a hub that connects classes, service and outreach opportunities across colleges, schools, and departments. Consequently, students can discover a stimulating field of critical and academic research, engage in an exciting platform on which to link different fields of study, and become part of outreach/community
networks in which they will grow to become outstanding, conscientious leaders in their respective careers.

The Program in U.S. Latino/a Studies is well suited to careers in Education, Psychology, History, Sociology, Business, Journalism, Spanish Language and Cultures, Women’s and Gender Studies, and Agriculture. A U.S. Latino/a Studies minor, or a double major with a Latino/a Studies track in Interdisciplinary Studies, strengthens student profiles as they compete for jobs on the global market because they have attained an in-depth experience of local and global experiences of Latin America and the Caribbean, as well as a sophisticated understanding of diversity and inclusion.

The US LS Program offers course work that meets the ISU U.S. Diversity requirement and also offers a 15 credit Minor (https://usls.las.iastate.edu/minor).

Interdisciplinary Studies Major, Track in U.S. Latino/a Studies

Students can work with the US LS program director and the Interdisciplinary Studies adviser to develop an individualized major program. In addition to meeting the general requirements for the Interdisciplinary Studies major, students wishing to complete a track in U.S. Latino/a Studies must complete a minimum of 36 credits in the area of U.S. Latino/a Studies including US LS 211 (Introduction to U.S. Latino/a Studies). At least 15 of the 36 credits must be in courses numbered 300 and above and 6 credit hours must be earned at the 400-level. Students must also meet the upper-level communication proficiency requirement by taking English 302 or 314.

Required Courses (36 credits)

**Prerequisite for all US LS courses:** (3 credit hours):

**Notes**

1. The list of acceptable courses may include courses not currently listed above. Contact the Director of US Latino/a Studies for information on eligible courses.
2. The student must have an average grade of C in the required courses of the major.
3. Fulfillment of the foreign language requirement with Spanish is strongly recommended, but not required. A limit of six (6) credits of approved Spanish courses (304, 322, 324, 445) may be used as supporting courses for the major. Spanish course credits counted toward the major may not be applied to any other degree requirement.

US Latino/a Studies Minor

The minor in US Latino/a Studies requires a minimum of 15 credit hours including US LS 211 (Introduction to U.S. Latino/a Studies). University policy indicates that minors must include at least 9 credits that are not applied to any other degree requirement.
Required course work in core courses (9 credits total):

Notes:

1. The list of acceptable courses may include courses not currently listed above. Contact the Director of US Latino/a Studies for information on eligible courses.

2. A limit of six (6) credits of approved Spanish courses (304, 322, 324, 445) may be used as supporting courses for the minor. Spanish course credits counted toward the minor may not be applied to any other degree requirement.

3. A maximum of 3 credit hours of US LS 490 (Independent Study) may be applied toward the minor.

World Languages and Cultures

Degree: World Languages and Cultures, B.A.

Curriculum: World language study should be an integral part of an academic program for most students. The theoretical understanding of and practical experience in language underlie many intellectual disciplines that try to meet the complex problems of contemporary society. Courses offered by the Department of World Languages and Cultures are designed to develop students' understanding of a second culture through the language spoken by that culture.

Upon the completion of their program of studies in the Department of World Languages and Cultures, majors with a concentration in French, German, or Spanish will demonstrate proficiency in five goal areas: Communication, Cultures, Connections, Comparisons, and Communities. Students will be able to:

1. use their concentration language to present and interpret information and to communicate both orally and in writing;

2. demonstrate an understanding of the relationships among the products, practices, and perspectives of the culture(s) in which their concentration language is spoken;

3. demonstrate their ability to acquire information and further their knowledge through their concentration language;

4. demonstrate an understanding of the nature of language and the concept of culture by making comparisons with their own language and culture(s); and

5. demonstrate a desire to become a life-long learner of their concentration language.

Graduates will achieve both linguistic proficiency and cultural literacy through the study of the language and culture of their program. Linguistic proficiency entails the ability to function effectively in the target language and the ability to communicate competently with native speakers of the target language. Students of Latin and Ancient Greek demonstrate proficiency by becoming able to read the languages and to translate from these languages into clear and idiomatic English. Cultural literacy includes a general knowledge of the culture's history, familiarity with its literature, and basic knowledge of its social and political institutions.

The Department offers a major in World Languages and Cultures with two options, leading to the Bachelor of Arts degree:

1. Languages and Cultures with a Concentration in French, German, or Spanish;
2. Languages and Cultures for Professions (as a second major only) with a Concentration in French, German, or Spanish.

The Department also houses ISU's program in Anthropology, leading to a Bachelor of Arts or Bachelor of Science degree (http://catalog.iastate.edu/collegeofliberalartsandsciences/anthropology/).

The Department offers minors in Anthropology, Chinese Studies, French, German, Russian Studies, Spanish, and World Film Studies; and instruction in American Sign Language, Arabic, Italian (see Experimental Course List), and Classical Greek and Latin. The Department also houses the College of Liberal Arts and Sciences' Cross Disciplinary Studies Programs in American Indian Studies, Classical Studies, International Studies, and U.S. Latino/a Studies.

A full statement of requirements for majors and minors may be obtained from the Department. For a complete statement of all the college degree requirements, see Liberal Arts and Sciences, Curriculum. Current and detailed information about the Department, including placement information, is available on-line at www.language.iastate.edu (http://www.language.iastate.edu).

Policies

Students who have had formal training in world languages offered at Iowa State may obtain credit by passing appropriate examinations. Students with native fluency in languages taught at Iowa State may not enroll in or take the Exam for Credit in elementary or intermediate courses (100 and 200 level) in their native language. Students are considered to have native fluency if their ethnic first language as indicated on the matriculation form is the language in which they wish to enroll. Students are also considered to have native fluency if they have had substantial attendance at a secondary school or university where the language of instruction is the language in which they wish to enroll at ISU. Students with native fluency may be eligible to enroll in literature and civilization courses in their native language at the 300 level or above; such students must also consult the department office to determine eligibility for advanced composition and conversation courses (300 level and above). Students who have completed three or more years of high-school world language study may not enroll in or receive credit for 101-102 in those languages; credit may be obtained by passing the appropriate Exam for Credit or by completing an advanced sequence (200-level or higher) in that language. Students who complete an approved sequence of courses in a single language at the 200- or 300-level (e.g., 201 and 202 or 301 and 302) with a grade of C- or higher are eligible to receive credit for 101 and 102 in that same language if they have not received credit for a 101 or 102 course in the language. Students who complete a 102 course with a grade of C- or higher are eligible to receive credit for 101 in that same language if they have not received credit for 101 in the same language. Students should contact the department after completion of the course sequence to receive credit. Courses in the 101-102 level may not be taken on a remedial basis.

Students who have completed two years but less than three years of a single high-school world language may not enroll in a 101 course in that language. These students may enroll in either a 102 course in that language, or in the case of Spanish, SPAN 097 Accelerated Spanish Review. Before enrolling in either SPAN 097 Accelerated Spanish Review or a 102 language course, students are recommended to take the on-line placement test available at www.language.iastate.edu (http://www.language.iastate.edu). After completing the online placement test, students who believe that they have extenuating circumstances may appeal to the Department of World Languages and Cultures in order to request enrollment in a 101 language course.

SPAN 097 Accelerated Spanish Review is designed for students who need additional work in the language at the first-year level (101-102) and are not planning to continue their language study at the second-year 201-202 level. Students who complete with a passing grade will have fulfilled the LAS world language requirement. Students who have completed SPAN 097 Accelerated Spanish Review and wish to pursue further study in Spanish at the 201-202 level may enroll in 102.

Students with disabilities who need to satisfy the world language requirement may direct questions to their academic adviser, the Department of World Languages and Cultures, or the Disability Resources Office.

Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is not normally available.

The Department also offers faculty-led summer study abroad programs in Costa Rica, France, Germany, Greece, Italy, and Spain; and semester study abroad programs in Spain. Programs and exchanges in other areas of the world are offered through study abroad providers. Information concerning these programs can be obtained directly from the Department.

Language and literature courses numbered 300 and above are principally taught in the target language; courses numbered in the 270s, 370s, and 470s are taught in English. For courses taught in English about Ancient Greek and Rome, see Classical Studies. Students may not take intermediate (200 level) courses for credit after successfully completing any advanced (300/400 level) course, except those in the 370 series or courses taught in English translation. Students who have successfully completed any course in the intermediate (200 level) sequence may not take a lower-numbered course in that sequence for a grade.
Students at all levels of world language study will have access to the Language Studies Resource Center, located in 3142 Pearson. The Resource Center contains an extensive collection of world language materials, including audio-visual materials, electronic resources, music, books, language specific software and hardware, and other course-related materials.

Materials fees: Each student enrolled in a 100- through 200- level world language course is assessed a materials and professional support fee of $25.00 per course. If a student drops a course subject to the fee by the 15th day of the semester the fee for that course will not be assessed.

Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors). In addition, the Department requires a grade of C or better in any course numbered between 370 and 379 taught by the Department of World Languages and Cultures or the interdepartmental program in Classical Studies.

Languages and Cultures for Professions (LCP)

Students with primary majors in the College of Business, the College of Engineering, or the College of Agriculture and Life Sciences are encouraged to complete an LCP second major option in World Languages and Cultures with a concentration in French, German, Spanish, or an LCP minor option in those languages plus Chinese Studies or Russian. The primary objective of the LCP option is to provide learning environments within which students can achieve global literacy, linguistic proficiency, and inter-cultural competence. In the LCP curriculum, students will learn how professions are shaped by social and cultural forces and, alternatively, how professions shape society. In courses on contemporary culture and society, students will identify and analyze issues dealing with the complex interrelationships of languages and cultures and consider how they may affect their chosen profession. Students will experience living and working in diverse cultural settings through study abroad and internship opportunities offered through the LCP program and/or in collaboration with the Colleges of Business, Engineering, and Agriculture and Life Sciences. Students enrolled in the LCP second major option may receive non-graded academic credit for the successful completion of internships (WLC courses numbered 499 in each language area).

For the LCP second major option, students will complete 30 credits within their language concentration beyond the fourth-semester level, selected from the list of approved LCP core courses and electives designated for their respective college curricula in either Business, Engineering, or Agriculture and Life Sciences. Students may only enroll in the LCP option as a second major and may not graduate with the LCP option in the WLC major alone.

Students in the College of Business may combine course work in the International Business (IB) Secondary Major with course work in LCP by selecting from a list of approved options. Students should consult their academic adviser in the College of Business and the WLC adviser for coursework and international experience that fulfill requirements in both the IB and LCP major options.

American Sign Language (ASL)
Courses primarily for undergraduate students

ASL 101: American Sign Language I
(4-0) Cr. 4. F.S.
Introduction to American Sign Language (ASL). Development of expressive and receptive skills including vocabulary, grammar, usage, and cultural information. Note: Distinct from "Signed English". ASL is a natural language with its own rules of grammar and usage.
Meets U.S. Diversity Requirement

ASL 102: American Sign Language II
(4-0) Cr. 4. S.
Prereq: ASL 101
Introduction to American Sign Language (ASL) II continues development of expressive and receptive skills introduced in American Sign Language I, including vocabulary, grammar, usage, and cultural information. Distinct from "Signed English". ASL is a natural language with its own rules of grammar and usage.
Meets U.S. Diversity Requirement

ASL 201: Intermediate American Sign Language I
(4-0) Cr. 4. F.
Prereq: ASL 102 or equivalent.
Development of fluency for intermediate conversational skills. Review of grammar and varying grammatical forms for both structured and unstructured social situations such as sharing opinions, discussing weekend activities, and exchanging views on current topics.

ASL 202: Intermediate American Sign Language II
(4-0) Cr. 4. S.
Prereq: ASL 201 or equivalent.
A continuation and further application of language principles learned in ASL 201, to deepen ability to actively engage in dialogue both in structured and unstructured social situations. Further fluency in intermediate conversational skills will be developed, particularly in the areas of semantic equivalence and dialogic/monologic register.
ASL 275: Topics in Deaf Culture  
(3-0) Cr. 3.  
Focus on contemporary topics in Deaf Culture, Communities, and History. Readings and discussion from a wide range of sources. Topics vary according to faculty interest. Meets U.S. Diversity Requirement.

ASL 490: Independent Study  
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.S.  
Prereq: 6 credits in ASL and permission of department chair.  
Designed to meet the needs of students in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 6 credits of ASL 490 may be counted towards graduation.

Arabic (Arabc) Courses primarily for undergraduate students

ARABC 101: Elementary Arabic I  
(4-0) Cr. 4. F.  
Beginning level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Attention to the use of the Arabic alphabet.

ARABC 102: Elementary Arabic II  
(4-0) Cr. 4. S.  
Prereq: ARABC 101 or placement by department exam.  
Continuation of ARABC 101. Beginning level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Meets International Perspectives Requirement.

ARABC 195: Study Abroad  
Cr. arr. Alt. SS., offered irregularly.  
Prereq: ARABC 102 or equivalent.  
Supervised instruction in Arabic language and culture, formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Arabic.

ARABC 201: Intermediate Arabic I  
(4-0) Cr. 4. F.  
Prereq: ARABC 102 or placement by department exam.  
Intermediate level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Meets International Perspectives Requirement.

ARABC 202: Intermediate Arabic II  
(4-0) Cr. 4.  
Prereq: ARABC 201 or placement by department exam.  
Continuation of Arabic 201. Intermediate level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Meets International Perspectives Requirement.

Courses primarily for undergraduate students

**CHIN 101: Elementary Mandarin Chinese I**
(4-0) Cr. 4. F.
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.

**CHIN 102: Elementary Mandarin Chinese II**
(4-0) Cr. 4. S.
*Prereq: CHIN 101*
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.
Meets International Perspectives Requirement.

**CHIN 201: Intermediate Mandarin Chinese I**
(4-0) Cr. 4. F.
*Prereq: CHIN 102*
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition.
Meets International Perspectives Requirement.

**CHIN 202: Intermediate Mandarin Chinese II**
(4-0) Cr. 4. S.
*Prereq: CHIN 201*
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition.
Meets International Perspectives Requirement.

**CHIN 272: Introduction to Chinese Culture**
(3-0) Cr. 3. S.
Interdisciplinary introduction to Chinese society and culture from earliest times to the present. Topics include ancient literature, philosophy, religion, art, architecture, customs, transition to a modern society, social changes, urban life, popular culture, and contemporary values and ideas.
Meets International Perspectives Requirement.

**CHIN 301: Advanced Mandarin Chinese I**
(3-0) Cr. 3. F.
*Prereq: CHIN 202 or equivalent*
Continuing development of speaking, writing, reading, and listening skills beyond intermediate level. Expansion of cultural literacy through a variety of texts from the humanities, social sciences, mass media and business.
Meets International Perspectives Requirement.

**CHIN 302: Advanced Mandarin Chinese II**
(3-0) Cr. 3. S.
*Prereq: CHIN 301 or equivalent*
Continuing development of speaking, writing, reading, and listening skills beyond intermediate level. Expansion of cultural literacy through a variety of texts from the humanities, social sciences, mass media and business.
Meets International Perspectives Requirement.

**CHIN 304: Chinese for Global Professionals**
(4-0) Cr. 4. S.
*Prereq: CHIN 202 or equivalent*
Introduction to professional language and culture in China and Chinese-speaking regions in Asia. Development of all four language skills, focusing on practical applications in the professional contexts. Development of global awareness and cross-cultural understanding. Preparation for internships.
Meets International Perspectives Requirement.

**CHIN 370: Chinese Literature in English Translation**
(3-0) Cr. 3. Repeatable. F.
*Prereq: ENGL 150 or equivalent*
Topics may include traditional prose, poetry, novel and drama; twentieth-century fiction and film. All readings and class discussions in English.
Meets International Perspectives Requirement.
CHIN 375: China Today  
(3-2) Cr. 3-4. Repeatable. S.  
Prereq: ENGL 250 or equivalent  
Focusing on contemporary society, culture, literature and the arts. All readings, discussions, and papers in English. Topics vary from year to year.  
Meets International Perspectives Requirement.

CHIN 403: Seminar in Chinese Language and Culture  
(3-0) Cr. 3.  
Prereq: CHIN 302 or equivalent  
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.  
Meets International Perspectives Requirement.

CHIN 403A: Seminar in Chinese Language and Culture: Translating Contemporary Chinese Texts  
(3-0) Cr. 3.  
Prereq: CHIN 302  
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.  
Meets International Perspectives Requirement.

CHIN 403B: Seminar in Chinese Language and Culture: Topics on Business and Professions  
(3-0) Cr. 3.  
Prereq: CHIN 302 or equivalent  
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.  
Meets International Perspectives Requirement.

CHIN 403C: Seminar in Chinese Language and Culture: Reading Chinese Texts  
(3-0) Cr. 3.  
Prereq: CHIN 302 or equivalent  
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.  
Meets International Perspectives Requirement.

CHIN 403A: Seminar in Chinese Language and Culture: Translating Contemporary Chinese Texts  
(3-0) Cr. 3.  
Prereq: CHIN 302  
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.  
Meets International Perspectives Requirement.

CHIN 490: Independent Study  
Cr. 1-6. Repeatable.  
Prereq: 6 credits in Chinese and permission of department chair  
Designed to meet student needs in areas beyond current course offerings or to accommodate the desire to integrate a study of literature or language with special issues in major fields.

CHIN 499: Internship in Chinese  
Cr. 1-3. Repeatable, maximum of 6 credits.  
Prereq: 9 credits of Chinese at the 300 level; permission of adviser and WLC Internship Coordinator  
Work experience using Chinese in the public or private sector, combined with academic work under faculty supervision. Offered on a satisfactory-fail basis only. No more than 3 credits may apply toward the Chinese minor or LCP minor.

French (Frnch)  
World Languages and Cultures majors with a concentration in French have two options:

WLC Option I: French Studies  
Under WLC Option I, students with a concentration in French Studies must complete at least 30 credits beyond the intermediate (FRNCH 201 Intermediate French I-FRNCH 202 Intermediate French II) level.

Major option in French Studies (30 credits total)

A. Required Core Courses (13 credits)
   FRNCH 301 French Writing and Grammar 3
   FRNCH 302 Reading and Writing French 3
   FRNCH 340 Studies in French or Francophone Literature 3
   FRNCH 476 French Culture and Society in English 3-4

B. Additional Courses (at least 17 credits)
   FRNCH 304 French for Global Professionals 3
   FRNCH 305 French Conversation 3
   FRNCH 320 France Today 3
   FRNCH 326 Studies in French or Francophone Film 3
   FRNCH 340 Studies in French or Francophone Literature 3
   FRNCH 370 French Studies in English 3-4
   FRNCH 378 French Film Studies in English 3-4

c. Communication Proficiency Requirements: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors). In addition, the Department requires a grade of C or better in any course numbered between 370 and 379 taught by the Department of World
Languages and Cultures or the interdepartmental program in Classical Studies.

Curricular Notes: no more than 8 credits from FRNCH 370 French Studies in English and/or FRNCH 378 French Film Studies in English may be counted toward the major. Majors must enroll in FRNCH 370, FRNCH 378, and FRNCH 476 for 4 credits. FRNCH 476 French Culture and Society in English and 3 credits of FRNCH 340 Studies in French or Francophone Literature must be completed on campus and may not be fulfilled through transfer or study abroad.

**Minor in French**

The French Minor requires 15 credits of courses taught in French. Six credits must be in the required core: French 301 and 302. At least three credits must be chosen from the list of approved additional courses. Courses instructed in English (French 370, 378, and 476) cannot count toward the French minor.

**Required core courses (6 credits):**

Curricular Notes: no more than 8 credits from FRNCH 370 French Studies in English and/or FRNCH 378 French Film Studies in English may be counted toward the major. Majors must enroll in FRNCH 370, FRNCH 378, and FRNCH 476 for 4 credits. Students may enroll in the Languages and Cultures for Professions (LCP) Option in French as a Second Major only. They may not graduate with the Second Major in LCP alone.

**Courses primarily for undergraduate students**

**FRNCH 101: Elementary French I**

(4-0) Cr. 4. F.SS.

Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture.

**FRNCH 102: Elementary French II**

(4-0) Cr. 4. S.SS.

**Prereq: FRNCH 101**

Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture. Meets International Perspectives Requirement.

**FRNCH 201: Intermediate French I**

(4-0) Cr. 4. F.

**Prereq: FRNCH 102**

Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture. Meets International Perspectives Requirement.

**FRNCH 202: Intermediate French II**

(4-0) Cr. 4. S.

**Prereq: FRNCH 201**

Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture. Meets International Perspectives Requirement.
FRNCH 301: French Writing and Grammar
(3-0) Cr. 3. F.
Prereq: FRNCH 202
Emphasis on developing functional language skills in reading and writing. Selective review of grammar within the context of cultural and literary prose. Meets International Perspectives Requirement.

FRNCH 302: Reading and Writing French
(3-0) Cr. 3. S.
Prereq: FRNCH 301
Readings in French prose, theater and poetry. Introduction to close reading and analysis. Development of reading and writing skills for upper-level courses. Meets International Perspectives Requirement.

FRNCH 304: French for Global Professionals
(3-0) Cr. 3.
Prereq: FRNCH 301

FRNCH 305: French Conversation
(3-0) Cr. 3.
Prereq: FRNCH 202
Intensive conversational and listening practice emphasizing contemporary France and the Francophone world. Native or near-native speakers are not eligible to enroll. Meets International Perspectives Requirement.

FRNCH 320: France Today
(3-0) Cr. 3.
Prereq: FRNCH 202
Selected topics dealing with contemporary French society and culture. Meets International Perspectives Requirement.

FRNCH 326: Studies in French or Francophone Film
(3-0) Cr. 3. Repeatable.
Prereq: FRNCH 302 or concurrent enrollment in FRNCH 302
In-depth study of a selected filmmaker, genre, or movement. Emphasis on analytical interpretation and relationship between film and French or Francophone culture, history, and society. Meets International Perspectives Requirement.

FRNCH 340: Studies in French or Francophone Literature
(3-0) Cr. 3. Repeatable.
Prereq: FRNCH 302 or concurrent enrollment in FRNCH 302
In-depth study of a selected topic, genre, movement or writer in French or Francophone literature, civilization or culture. Emphasis on close readings and discussion. Meets International Perspectives Requirement.

FRNCH 370: French Studies in English
(3-0) Cr. 3-4. Repeatable.
Prereq: For fourth credit, 6 credits in French at 300 level.
Author, genre, or period study in French or Francophone history, literature, or culture. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

FRNCH 370F: Studies in English Translation: French Topics on Women and Gender Studies
(Cross-listed with WGS). (3-0) Cr. 3. Repeatable.
Topics vary according to faculty interest. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

FRNCH 378: French Film Studies in English
(2-2) Cr. 3-4. Repeatable.
Prereq: For fourth credit, 6 credits in French at 300 level.
Analysis and interpretation of film in French society. Topics vary according to faculty interest. Film directors, genres, movements (e.g. The New Wave), historical survey, aesthetics, and cinematography. Readings, discussions and papers in English. Meets International Perspectives Requirement.

FRNCH 476: French Culture and Society in English
(3-0) Cr. 3-4. S.
Key moments and themes in French society and culture up to the modern era. Subjects vary according to faculty interest. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

FRNCH 490: Independent Study
Cr. 1-6. Repeatable, maximum of 9 credits.
Prereq: Permission of French staff and department chair
Designed to meet the needs of students who wish to focus on areas other than those in which courses are offered. No more than 9 credits in Frnch 490 may be counted toward graduation.
FRNCH 499: Internship in French
Cr. 1-3. Repeatable, maximum of 3 credits. F.S.S.
Prereq: 9 credits of French at the 300 level; permission of advisor and WLC Internship Coordinator. Work experience using French language skills in the public or private sector, combined with academic work under faculty supervision
Credits may be applied only to LCP major. Offered on a satisfactory-fail basis only. No more than 3 credits of Frnch 499 may be applied to the major.

FRNCH 590: Special Topics in French
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

FRNCH 590A: Special Topics in French: Literature or Literary Criticism
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

FRNCH 590B: Special Topics in French: Linguistics
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

FRNCH 590C: Special Topics in French: Language Pedagogy
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

FRNCH 590D: Special Topics in French: Civilization
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

Courses primarily for graduate students, open to qualified undergraduate students
FRNCH 590: Special Topics in French
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

German (Ger)
WLC Option I: German Studies
Under WLC Option I, students with a concentration in German must complete at least 30 credits beyond the intermediate (GER 201 (https://currentcatalog.registrar.iastate.edu/collegeofliberalartsandsciences/worldlanguagesandcultures) - GER 202 (https://currentcatalog.registrar.iastate.edu/collegeofliberalartsandsciences/worldlanguagesandcultures)) level. Students electing the German Studies option may count a maximum of two of the following courses towards the major:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GER 370</td>
<td>German Studies in English</td>
<td>3-4</td>
</tr>

</tbody>
</table>

C. Study Abroad: The department strongly recommends that all students of German participate in an approved study abroad program based in a German-speaking country. Credit from an approved study abroad program may be applied to the major.

D. Communication Proficiency Requirements: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors). In addition, the Department requires a grade of C or better in any course numbered between 370 and 379 taught by the Department of World Languages and Cultures or the interdepartmental program in Classical Studies.

Curricular Notes: GER 330 German Literature and Culture may be repeated once for major credit when offered with a different topic (6cr. total). GER 476 Topics in German Cultural Studies is required for the WLC major option in German Studies. Majors must enroll in GER 476 Topics in German Cultural Studies for 4 credits. Majors choosing the
German Studies option may select two additional courses for 4 cr. from
the following:

<table>

</table>

GER 101: Elementary German I
(4-0) Cr. 4. F.S.S.
Beginning level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. For beginning-level learners who have little or no prior exposure to German.

GER 102: Elementary German II
(4-0) Cr. 4. S.S.S.
Prereq: GER 101
Beginning level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. For beginning level learners with only one semester of German (or exposure equivalent to two years or less in high school.).
Meets International Perspectives Requirement.

GER 201: Intermediate German I
(4-0) Cr. 4. F.
Prereq: GER 102
Intermediate level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. Intensive review of basic grammar covered in the first-year German class (or equivalent high school courses) while exploring cultural topics and themes.
Meets International Perspectives Requirement.
GER 202: Intermediate German II
(4-0) Cr. 4. S.
Prereq: GER 201
Intermediate level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. Emphasis on intermediate level grammar and communication about topics and themes beyond the personal realm.
Meets International Perspectives Requirement.

GER 301: Reading: Problems of the Early Twentieth Century
(3-0) Cr. 3. F.
Prereq: GER 202
Emphasis on the development of reading skills through a variety of text types with a focus on German Culture from circa 1900 to 1933.
Meets International Perspectives Requirement.

GER 302: Composition
(3-0) Cr. 3. S.
Prereq: GER 202
Emphasis on writing skills, with further development of grammar and reading skills using a variety of current and historical materials.
Meets International Perspectives Requirement.

GER 304: German for Global Professionals
(3-0) Cr. 3. F.
Prereq: GER 202
Communication in business and professional contexts in German-speaking countries. Development of effective communication strategies and project management in the workplace. Cultural contexts of business and professional practice. Preparation for internships.
Meets International Perspectives Requirement.

GER 305: Conversation: The City in Contemporary Europe
(3-0) Cr. 3. S.
Prereq: GER 202 minimum, GER 301 recommended
Intensive conversational and listening practice in German with an emphasis on a major German-speaking city.
Meets International Perspectives Requirement.

GER 320: Germany Today
(3-0) Cr. 3. S.
Prereq: GER 301 or GER 304
Selected topics dealing with contemporary German society and culture. Introduction to materials, resources, and forms of communication available on the Internet, and in other electronic and print media.
Meets International Perspectives Requirement.

GER 330: German Literature and Culture
(3-0) Cr. 3. Repeatable. F.
Prereq: GER 301 or permission of instructor
Selected readings in German literature from Classicism to present. Emphasis on techniques of reading and analysis of literary texts. No more than six credits of Ger 330 may be counted toward the major.
Meets International Perspectives Requirement.

GER 370: German Studies in English
(3-0) Cr. 3-4. Repeatable, maximum of 6 credits.
Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Three credits: English, open to all students. Four credits: Required for German concentration credit, supplementary readings and compositions in German.
Meets International Perspectives Requirement.

GER 370G: Studies in English Translation: German Topics on Women or Feminism
(Cross-listed with WGS). (3-0) Cr. 3-4. Repeatable, maximum of 6 credits.
Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Three credits: English, open to all students. Four credits: Required for German concentration credit, supplementary readings and compositions in German.
Meets International Perspectives Requirement.

GER 371: The Holocaust in Text, Image, and Memory
(3-0) Cr. 3-4.
Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level
Examination of such topics as the origins and expressions of Anti-Semitism in central Europe, the political events and structures of the Holocaust, the reality of ghettos and concentration camps, the impact of technological modernization on the Final Solution, and resistance to the Nazis. Materials will include non-fictional texts, literature, art, and music. Three credits: English, open to all students. Four credits: required for German major credit, supplementary readings and compositions in German. Four credits: required for German concentration credit, supplementary readings and compositions in German.
Meets International Perspectives Requirement.
GER 375: Grimms' Tales
(3-0) Cr. 3-4.
Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level
Introduction to Germanic antiquities, mythology, and heroic legends; Herder’s concept of Naturpoesie. Emphasis on the Grimm tales: theoretical approaches to the tales from the late 19th and early 20th centuries; perversions of these traditional tales by the National Socialists (Nazis). Readings in contemporary Grimm scholarship. Taught in English. Three credits: English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German.
Meets International Perspectives Requirement.

GER 378: German Film and Media Studies
(3-0) Cr. 3-4. S.
Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level
Analysis and interpretation of film or media in German society. Study of media production and reception within multicultural and global contexts. Thematic emphases based on faculty and student interest including: 1) film directors, genres, movements (e.g. New German Cinema), aesthetics, and cinematography or 2) media studies (e.g. television, mass press, popular culture). Three credits: English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German.
Meets International Perspectives Requirement.

GER 395: Study Abroad
Cr. 1-10.
Prereq: 2 years university-level German
Supervised instruction in language and culture of Germany; formal class instruction at level appropriate to student’s training, augmented by practical living experience.
Meets International Perspectives Requirement.

GER 476: Topics in German Cultural Studies
(3-0) Cr. 3-4. S.
Prereq: Sophomore classification. For fourth credit, six credits in German at the 300-level courses instructed in German
Key topics and themes in German history and culture up to the modern era. Three credits: Taught in English, open to all students. Four credits: Required for German concentration credit, supplementary readings and compositions in German.
Meets International Perspectives Requirement.

GER 490: Independent Study
Cr. 1-6. Repeatable, maximum of 9 credits.
Prereq: 6 credits in German and permission of department chair
Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Ger 490 may be counted toward graduation.

GER 499: Internship in German
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: 9 credits of German at the 300 level; permission of advisor and the World Languages and Cultures Internship coordinator
Work experience using German language skills in the public or private sector, combined with academic work under faculty supervision. Available only to majors and minors. Offered on a satisfactory-fail basis only. Ger 499 may be repeated to a maximum of 6 credits. No more than 3 credits of Ger 499 may be applied to the major.

GER 590: Special Topics in German
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level German

GER 590A: Special Topics in German: Literature or Literary Criticism
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level German

GER 590B: Special Topics in German: Linguistics
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level German

GER 590C: Special Topics in German: Language Pedagogy
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level German

GER 590D: Special Topics in German: Civilization
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level German

Greek (Greek)
For courses in Greek literature taught in English, see Classical Studies.

Courses primarily for undergraduate students

GREEK 101: Elementary Ancient and New Testament Greek I
(5-0) Cr. 4-5.
Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical and New Testament works.
GREEK 102: Elementary Ancient and New Testament Greek II
(5-0) Cr. 4-5.
Prereq: GREEK 101
Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical and New Testament works.
Meets International Perspectives Requirement.

GREEK 201: Intermediate Classical Greek
Cr. arr. F.
Prereq: GREEK 102
Emphasis on grammatical principles, composition and reading classical or Hellenistic texts.
Meets International Perspectives Requirement.

GREEK 332: Introduction to Classical Greek Literature
Cr. arr. S.
Prereq: GREEK 201
Readings in ancient Greek Literature with emphasis on critical analysis of style, structure or thought.
Meets International Perspectives Requirement.

GREEK 490: Independent Study
Cr. 1-6. Repeatable, maximum of 9 credits.
Prereq: 6 credits in Greek and permission of department chair
Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits in Greek 490 may be counted toward graduation.

Latin (Latin)
For courses in Latin literature taught in English, see Classical Studies.

Courses primarily for undergraduate students

LATIN 101: Elementary Latin I
(4-0) Cr. 4. F.
Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.

LATIN 102: Elementary Latin II
(4-0) Cr. 4. S.
Prereq: LATIN 101
Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.
Meets International Perspectives Requirement.

LATIN 201: Intermediate Latin
Cr. arr. F.
Prereq: LATIN 102
Emphasis on grammatical principles, composition and reading Latin texts.
Meets International Perspectives Requirement.

LATIN 332: Introduction to Latin Literature
Cr. arr. S.
Prereq: LATIN 201
Readings in Latin Literature with emphasis on critical analysis of style, structure or thought.
Meets International Perspectives Requirement.

LATIN 490: Independent Study
Cr. 1-6. Repeatable, maximum of 9 credits.
Prereq: 6 credits in Latin and permission of department chair
Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits in Latin 490 may be counted toward graduation.

Portuguese (Port)
Courses primarily for undergraduate students

PORT 101: Elementary Portuguese I
Cr. 4.
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.

PORT 102: Elementary Portuguese II
Cr. 4.
Prereq: PORT 101
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.
Meets International Perspectives Requirement.

PORT 111: Elementary Portuguese, Accelerated I
Cr. 3.
Prereq: Four semesters of college Spanish or the equivalent. Students with four semesters at the college level or the equivalent of another Romance language may be admitted by permission of the instructor
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.
PORT 112: Elementary Portuguese, Accelerated II
Cr. 3.
Prereq: PORT 111
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture. Meets International Perspectives Requirement.

PORT 375: Brazil Today
Cr. 3. F.
Prereq: None
A survey of social, political, economic, and cultural topics relevant to contemporary Brazil. Includes an introduction to Portuguese language. None
Meets International Perspectives Requirement.

Russian Studies (Rus)
Minors in Russian Studies are required to complete RUS 201 and RUS 202. The remaining 9 credits must be at the 300 level and above, including at least 3 credits in the Russian curriculum (courses taught in English or Russian).

Russian Studies Minor Option 1: Russian Studies.
9 credits at the 300 level may be selected from the following courses:

RUS 201 Intermediate Russian I 4
RUS 202 Intermediate Russian II 4
9 credits must be at the 300 level and above * 9
RUS 301 Composition and Conversation
RUS 304 Russian for Global Professionals
RUS 314 Reading Russian Literary and Cultural Texts
RUS 370 Russian Studies in English Translation
RUS 375 Russia Today
RUS 378 Russian Film Studies in English
RUS 395 Study Abroad
RUS 490 Independent Study
RUS 499 Internship in Russian
RUS 590 Special Topics in Russian
HIST 421 History of Russia I
HIST 422 History of Russia II
HIST 530 Readings Seminar in Modern Russian/Soviet History
POL S 349 Politics of Russia and the Soviet Successor States

Russian Studies Minor Option 2: Languages and Cultures for Professions
A. Agriculture and Life Sciences, Business, or Engineering Major and Languages and Cultures for Professions Minor Emphasis in Russian Studies (17 credits)

Required Core Courses 11
RUS 201 Intermediate Russian I
RUS 202 Intermediate Russian II
RUS 304 Russian for Global Professionals
Electives 6
RUS 301 Composition and Conversation
RUS 314 Reading Russian Literary and Cultural Texts
RUS 370 Russian Studies in English Translation
RUS 375 Russia Today
RUS 378 Russian Film Studies in English
RUS 395 Study Abroad
RUS 490 Independent Study
RUS 499 Internship in Russian
RUS 590 Special Topics in Russian
HIST 421 History of Russia I
HIST 422 History of Russia II
HIST 530 Readings Seminar in Modern Russian/Soviet History
POL S 349 Politics of Russia and the Soviet Successor States

Courses primarily for undergraduate students

RUS 101: Elementary Russian I
(4-0) Cr. 4. F.
Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture.

RUS 102: Elementary Russian II
(4-0) Cr. 4. S.
Prereq: RUS 101
Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture. Meets International Perspectives Requirement.
RUS 201: Intermediate Russian I  
(4-0) Cr. 4. F.  
_Preq: RUS 102_  
Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills.  
Meets International Perspectives Requirement.

RUS 202: Intermediate Russian II  
(4-0) Cr. 4. S.  
_Preq: RUS 201_  
Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills.  
Meets International Perspectives Requirement.

RUS 301: Composition and Conversation  
(3-0) Cr. 3. F.  
_Preq: RUS 202_  
Thorough study of the Russian language, with emphasis on strengthening proficiency in writing, speaking, reading, and listening. Increased focus on syntax and word formation.  
Meets International Perspectives Requirement.

RUS 304: Russian for Global Professionals  
(3-0) Cr. 3. F.  
_Preq: RUS 202_  
Communication in business and professional contexts in Russian-speaking countries. Development of effective communication strategies and project management in the workplace. Cultural contexts of business and professional practice.  
Meets International Perspectives Requirement.

RUS 314: Reading Russian Literary and Cultural Texts  
(3-0) Cr. 3. Repeatable.  
_Preq: RUS 102_  
Selected readings in Russian literature and culture. Emphasis on techniques of reading and analysis of literary and cultural texts.  
Meets International Perspectives Requirement.

RUS 370: Russian Studies in English Translation  
(3-0) Cr. 3. Repeatable.  
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English.  
Meets International Perspectives Requirement.

RUS 370R: Studies in English Translation: Russian Topics on Women or Feminism  
(Cross-listed with WGS). (3-0) Cr. 3. Repeatable.  
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English.  
Meets International Perspectives Requirement.

RUS 375: Russia Today  
(3-0) Cr. 3. Repeatable.  
A survey of social, political, economic, and cultural topics relevant to contemporary Russia. Readings, discussions and papers in English.  
Meets International Perspectives Requirement.

RUS 378: Russian Film Studies in English  
(3-0) Cr. 3.  
Analysis and interpretation of cinema in Russia and the Soviet Union. Topics vary according to faculty interest. Film directors, genres, movements, historical survey, aesthetics, and cinematography. Readings, discussions and papers in English.  
Meets International Perspectives Requirement.

RUS 395: Study Abroad  
Cr. 1-6. Repeatable.  
Supervised instruction in language and culture of Russia; formal class instruction at level appropriate to student's training, augmented by practical living experience.  
Meets International Perspectives Requirement.

RUS 490: Independent Study  
Cr. 1-6. Repeatable.  
_Preq: 6 credits in Russian and permission of department chair_  
Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Rus 490 may be counted toward graduation.

RUS 499: Internship in Russian  
Cr. 1-3. Repeatable. F.S.SS.  
_Preq: 9 credits of Russian at the 300 level; permission of advisor and WLC Internship Coordinator_  
Work experience using Russian language skills in the public or private sector combined with academic work under faculty supervision. Available only to minors. No more than 3 credits may be applied to the minor.

RUS 590: Special Topics in Russian  
Cr. 2-4. Repeatable.  
_Preq: Permission of instructor; 6 credits of 400 level Russian_
**RUS 590A: Special Topics in Russian: Literature or Literary Criticism**  
Cr. 2-4. Repeatable.  
*Prereq: Permission of instructor; 6 credits of 400 level Russian*

**RUS 590B: Special Topics in Russian: Linguistics**  
Cr. 2-4. Repeatable.  
*Prereq: Permission of instructor; 6 credits of 400 level Russian*

**RUS 590C: Special Topics in Russian: Language Pedagogy**  
Cr. 2-4. Repeatable.  
*Prereq: Permission of instructor; 6 credits of 400 level Russian*

**RUS 590D: Special Topics in Russian: Civilization**  
Cr. 2-4. Repeatable.  
*Prereq: Permission of instructor; 6 credits of 400 level Russian*

Courses primarily for graduate students, open to qualified undergraduate students

**RUS 590: Special Topics in Russian**  
Cr. 2-4. Repeatable.  
*Prereq: Permission of instructor; 6 credits of 400 level Russian*

---

**Spanish (Span)**

Go to Spanish Minor

World Languages and Cultures majors with a concentration in Spanish have two options:

**WLC Option I: Hispanic Studies**

Under WLC Option I, students with a concentration in Spanish must complete a minimum of 30 credits beyond the intermediate (SPAN 201 Intermediate Spanish I - SPAN 202 Intermediate Spanish II) level.

**A. Hispanic Studies Required Core Courses: (12 cr.)**

**B. Additional Courses: Students must take at least 15 credits chosen from a, b, or c below (minimum of 3 credits from each section).**

- **a)** At least 3 credits of literary studies chosen from the following:
  - SPAN 330 Studies in Spanish Literature 3
  - SPAN 332 Studies in Latin American Literature 3

- **b)** At least 3 credits of cultural studies chosen from the following:
  - SPAN 351 Spanish for Global Professionals 3
  - SPAN 321 Spanish Civilization 3
  - SPAN 322 Latin American Civilization 3
  - SPAN 323 Spain Today 3
  - SPAN 324 Latin America Today 3
  - SPAN 326 Studies in Hispanic Art or Film 3
  - c) At least 3 credits of applied language and linguistics chosen from the following:
    - SPAN 351 Introduction to Spanish-English Translation 3
    - SPAN 354 Introduction to Spanish-English Interpretation 3
    - SPAN 401 Advanced Composition and Grammar 3
    - SPAN 462 Contrastive Analysis of Spanish/English for Translators 3
    - SPAN 463 21st Century Spanish 3
    - SPAN 499 Internship in Spanish 1-3

Students may apply up to 6 credits of SPAN 395 Study Abroad to section a, b, or c above (appropriate section based upon course content and assigned by the WLC adviser).

**C. Students must take at least 6 credits of literature and/or culture at the 400 level, chosen from the following (each repeatable to 6 credits):**

<table>

</tbody>
</table>

**D. Study Abroad:** The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Under Option I, any student who chooses not to participate in a department-approved program will be required to take 3 additional elective credits of Spanish at or above the SPAN 321 level (for a total of 33 credits beyond the intermediate 201-202 level).

**E. Communication Proficiency Requirements:** According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors). In addition, the Department requires a grade of C or better in any course numbered between 370 and 379 taught by the Department of World Languages and Cultures or the interdepartmental program in Classical Studies. Such a course will also fill an LAS Area I (Arts and Humanities) requirement.
WLC Option II: Language and Cultures for Professions

Under WLC Option II students with a concentration in Spanish must complete a minimum of 30 credits beyond the intermediate (SPAN 201 Intermediate Spanish I-SPAN 202 Intermediate Spanish II) level.

I. Languages and Cultures for Professions (Colleges of Agriculture and Life Sciences, Business, and Engineering)

Students with a primary major in the Colleges of Agriculture and Life Sciences, Business, or Engineering pursuing the second major option in Spanish are required to take at least 30 credits beyond the intermediate (SPAN 201 Intermediate Spanish I-SPAN 202 Intermediate Spanish II) level.

A. Required LCP Core Courses: (12 Credits)

<table>

</tbody>
</table>

D. Additional three credits taken at the 300-level or higher.

*Additional credit from an approved study abroad program may be applied to the major.

**SPAN 321 Spanish Civilization and SPAN 322 Latin American Civilization may be substituted.

Curricular Notes: students may only enroll in the Languages and Cultures for Professions (LCP) Option as a second major. They may not graduate with the second major in LCP alone.

Minor in Spanish

The Spanish minor: Option 1: Hispanic Studies, Option 2: Languages and Cultures for Professions

Option 1: The Spanish minor in Hispanic Studies requires at least 15 credits, 12 of which must be at the 300 level or higher. The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Any student who chooses not to participate in a department-approved study abroad program will be required to take 3 additional elective credits of Spanish at the 300 level or higher.

Option 2: Language and Cultures for Professions. The Spanish minor in Languages and Cultures for Professions requires the following courses (12 credits):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 303B</td>
<td>Spanish Conversation and Composition: for Professionals</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 304</td>
<td>Spanish for Global Professionals</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 351</td>
<td>Introduction to Spanish-English Translation</td>
<td>3</td>
</tr>
<tr>
<td>One of the following</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>SPAN 321</td>
<td>Spanish Civilization</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 322</td>
<td>Latin American Civilization</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 323</td>
<td>Spain Today</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 324</td>
<td>Latin America Today</td>
<td>3</td>
</tr>
</tbody>
</table>

The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Any student who chooses not to participate in a department-approved study abroad program will be required to take 3 additional credits in culture chosen from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 321</td>
<td>Spanish Civilization</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 322</td>
<td>Latin American Civilization</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 323</td>
<td>Spain Today</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 324</td>
<td>Latin America Today</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: students taking either SPAN 321 Spanish Civilization or SPAN 323 Spain Today must take either SPAN 322 Latin American Civilization or SPAN 324 Latin America Today; students taking either SPAN 322 Latin American Civilization or SPAN 324 Latin America Today must take either SPAN 321 Spanish Civilization or SPAN 323 Spain Today.
American Civilization or SPAN 324 Latin America Today must take either SPAN 321 Spanish Civilization or SPAN 323 Spain Today.

**Courses primarily for undergraduate students**

**SPAN 097: Accelerated Spanish Review**  
(3-2) Cr. 0. F.S.  
*Prereq: Two years but less than three years of high-school Spanish*  
For students who require additional review at the first year (101-102) level. Course components include a compact review of 101 and the essential elements of 102. Course completed with a passing grade fulfills the LAS foreign language requirement. Not recommended for students who wish to continue language at the second year (201-202) level without completing 102.

**SPAN 101: Elementary Spanish I**  
(4-0) Cr. 4. F.S.S.  
A communicative approach to grammar and vocabulary within the context of Hispanic culture. For students whose native language is not Spanish.

**SPAN 102: Elementary Spanish II**  
(4-0) Cr. 4. S.SS.  
*Prereq: SPAN 101, SPAN 97 or placement by departmental exam*  
Continuation of Spanish 101. A communicative approach to grammar and vocabulary within the context of Hispanic culture. For students whose native language is not Spanish.  
Meets International Perspectives Requirement.

**SPAN 195: Study Abroad**  
Cr. 3. SS.  
Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with SPAN 101 or 102.  
Meets International Perspectives Requirement.

**SPAN 201: Intermediate Spanish I**  
(4-0) Cr. 4. F.  
*Prereq: SPAN 102 or placement by departmental exam*  
Intensive review of basic grammar and conversation. For students whose native language is not Spanish. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature.  
Meets International Perspectives Requirement.

**SPAN 202: Intermediate Spanish II**  
(4-0) Cr. 4. S.  
*Prereq: SPAN 201 or placement by departmental exam*  
Continuation of Spanish 201. Intensive review of basic grammar. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature. For students whose native language is not Spanish.  
Meets International Perspectives Requirement.

**SPAN 295: Study Abroad**  
Cr. 3. SS.  
*Prereq: SPAN 102 or equivalent*  
Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with Span 201 or 202.  
Meets International Perspectives Requirement.

**SPAN 297: Intensive Intermediate Spanish**  
(4-0) Cr. 4. F.S.  
*Prereq: 4 years of high school Spanish, two years of Spanish at a community college, Spanish 201, or equivalent by placement*  
Bridge course between 200- and 300-level Spanish courses that focuses on application of advanced grammatical concepts within the context of Hispanic culture. Accelerated review of SPAN 201 and SPAN 202 designed for students who want to continue at the 300 level. Taught in Spanish for students whose native language is not Spanish.  
Meets International Perspectives Requirement.

**SPAN 301: Spanish Grammar and Composition**  
(3-0) Cr. 3. F.S.  
*Prereq: SPAN 202 or placement by departmental exam*  
Review and application of grammar concepts in the development of writing skills within the context of Hispanic culture. Taught in Spanish. For students whose native language is not Spanish.  
Meets International Perspectives Requirement.

**SPAN 303: Spanish Conversation and Composition**  
(3-0) Cr. 3. F.S.  
*Prereq: SPAN 202 or placement by departmental exam*  
Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational and writing skills within the context of Hispanic culture. Taught in Spanish.  
Meets International Perspectives Requirement.
SPAN 303A: Spanish Conversation and Composition: through Culture
(3-0) Cr. 3. F.S.
Prereq: SPAN 202 or placement by departmental exam
Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational and writing skills within the context of Hispanic culture. Taught in Spanish. For students whose native language is not Spanish. Meets International Perspectives Requirement.

SPAN 303B: Spanish Conversation and Composition: for Professionals
(3-0) Cr. 3. F.S.
Prereq: SPAN 202 or placement by departmental exam
Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational and writing skills within the context of Hispanic culture. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 304: Spanish for Global Professionals
(3-0) Cr. 3. F.S.
Prereq: SPAN 202 or placement by departmental exam (SPAN 301 recommended)
Introduction to professional communication within a cultural context. Grammar review as needed. Individual projects will focus on special interests. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 314: Textual and Media Analyses
(3-0) Cr. 3. F.S.
Prereq: SPAN 301

SPAN 321: Spanish Civilization
(3-0) Cr. 3.
Prereq: One course at the 300 level

SPAN 322: Latin American Civilization
(3-0) Cr. 3.
Prereq: One course at the 300 level

SPAN 323: Spain Today
(3-0) Cr. 3.
Prereq: One course at the 300 level
A survey of social, political, economic, and cultural topics relevant to contemporary Spain. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 324: Latin America Today
(3-0) Cr. 3.
Prereq: One course at the 300 level
A survey of social, political, economic, and cultural topics relevant to contemporary Latin America. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 326: Studies in Hispanic Art or Film
(Dual-listed with SPAN 526). (3-0) Cr. 3.
Prereq: One course at the 300 level

SPAN 330: Studies in Spanish Literature
(3-0) Cr. 3.
Prereq: SPAN 314
Introduction to Spanish literature from the earliest times through the present; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 332: Studies in Latin American Literature
(3-0) Cr. 3.
Prereq: SPAN 314
Introduction to Latin American literature from the earliest times to the present; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 351: Introduction to Spanish-English Translation
(Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: SPAN 301, SPAN 303 or SPAN 304
SPAN 352: Introduction to Spanish Phonology
(Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: SPAN 301, SPAN 303 or SPAN 304
An introductory study of the articulation, classification, distribution, and regional variations of the sounds of the Spanish language. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 354: Introduction to Spanish-English Interpretation
(Dual-listed with SPAN 554). (Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 370: Hispanic Topics in English Translation
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. May not be counted as a prerequisite.
Meets International Perspectives Requirement.

SPAN 370A: Hispanic Topics in English Translation: Agriculture
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Topics vary according to faculty interest. Knowledge and understanding of major cultural, ethical, sociopolitical and economic issues directly related to agriculture and agribusiness in Latin America, Spain, and/or Equatorial Guinea. Readings, discussions, and papers in English. May not be counted as a prerequisite.
Meets International Perspectives Requirement.

SPAN 370S: Studies in English Translation: Hispanic Topics on Women or Feminism
(Cross-listed with WGS). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. May not be counted as a prerequisite.
Meets International Perspectives Requirement.

SPAN 395: Study Abroad
Cr. 1-10. Repeatable.
Prereq: 2 years university-level Spanish or equivalent
Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to students’ training, enhanced by practical living experience.
Meets International Perspectives Requirement.

SPAN 401: Advanced Composition and Grammar
(Dual-listed with SPAN 501). (3-0) Cr. 3. F.
Prereq: SPAN 314 and one course at the 320-level or above
Advanced study of Spanish grammar and syntax. Students’ writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 440: Seminar on the Literatures and Cultures of Spain
(Dual-listed with SPAN 540). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (Recommended SPAN 330 and SPAN 331)
Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 441: Seminar on Cervantes and the Golden Age
(Dual-listed with SPAN 541). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (SPAN 330 recommended)
Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 445: Seminar on the Literatures and Cultures of Latin America
(Dual-listed with SPAN 545). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (SPAN 332 and SPAN 333 recommended)
Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial times to the Present. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 462: Contrastive Analysis of Spanish/English for Translators
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: SPAN 351
Linguistic study of the major differences between the Spanish and English grammatical systems and their applications in the translation of Spanish to English. Taught in Spanish.
SPAN 463: 21st Century Spanish
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: SPAN 352
Examination of the evolution of the Spanish language and linguistic variation across the Spanish-speaking world, including the dialects of Spain and Latin America and Spanish in contact with other languages. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 490: Independent Study
Cr. 1-6. Repeatable, maximum of 6 credits.
Prereq: 6 credits in Spanish and permission of department chair
Designed to meet the needs of students in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 6 credits in Span 490 may be counted toward graduation.

SPAN 499: Internship in Spanish
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.
Prereq: 9 credits of Spanish at the 300 level; permission of advisor and WLC Internship Coordinator
Work experience using Spanish language skills in the public or private sector, combined with academic work under faculty supervision. Up to 3 credits may apply toward the major. Available only to majors and minors.

SPAN 501: Advanced Composition and Grammar
(Dual-listed with SPAN 401). (3-0) Cr. 3. F.
Prereq: SPAN 314 and one course at the 320-level or above
Advanced study of Spanish grammar and syntax. Students’ writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 526: Studies in Hispanic Art or Film
(Dual-listed with SPAN 326). (3-0) Cr. 3.
Prereq: 6 credits in Spanish literature or culture at 400 level
Survey of major currents and figures in Spanish and Latin American art and/or film.

SPAN 540: Seminar on the Literatures and Cultures of Spain
(Dual-listed with SPAN 440). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (Recommended SPAN 330 and SPAN 331)
Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 541: Seminar on Cervantes and the Golden Age
(Dual-listed with SPAN 441). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (SPAN 330 recommended)
Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 545: Seminar on the Literatures and Cultures of Latin America
(Dual-listed with SPAN 445). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, SPAN or SPAN 333. (SPAN 332 and SPAN 333 recommended)
Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial times to the Present. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 554: Introduction to Spanish-English Interpretation
(Dual-listed with SPAN 354). (Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 590: Special Topics in Spanish
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish

SPAN 590A: Special Topics in Spanish: Literature or Literary Criticism
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish

SPAN 590B: Special Topics in Spanish: Linguistics
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish

SPAN 590C: Special Topics in Spanish: Language Pedagogy
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish

SPAN 590D: Special Topics in Spanish: Civilization
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish
Courses primarily for graduate students, open to qualified undergraduate students

**SPAN 501: Advanced Composition and Grammar**  
(Dual-listed with SPAN 401). (3-0) Cr. 3. F.  
**Prereq:** SPAN 314 and one course at the 320-level or above  
Advanced study of Spanish grammar and syntax. Students' writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish.  
Meets International Perspectives Requirement.

**SPAN 526: Studies in Hispanic Art or Film**  
(Dual-listed with SPAN 326). (3-0) Cr. 3.  
**Prereq:** 6 credits in Spanish literature or culture at 400 level  
Survey of major currents and figures in Spanish and Latin American art and/or film.

**SPAN 540: Seminar on the Literatures and Cultures of Spain**  
(Dual-listed with SPAN 440). (3-0) Cr. 3. Repeatable, maximum of 6 credits.  
**Prereq:** SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (Recommended SPAN 330 and SPAN 331)  
Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish.  
Meets International Perspectives Requirement.

**SPAN 541: Seminar on Cervantes and the Golden Age**  
(Dual-listed with SPAN 441). (3-0) Cr. 3. Repeatable, maximum of 6 credits.  
**Prereq:** SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (SPAN 330 recommended)  
Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish.  
Meets International Perspectives Requirement.

**SPAN 545: Seminar on the Literatures and Cultures of Latin America**  
(Dual-listed with SPAN 445). (3-0) Cr. 3. Repeatable, maximum of 6 credits.  
**Prereq:** SPAN 330, SPAN 331, SPAN 332, SPAN or SPAN 333. (SPAN 332 and SPAN 333 recommended)  
Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial times to the Present. Taught in Spanish.  
Meets International Perspectives Requirement.

**SPAN 554: Introduction to Spanish-English Interpretation**  
(Dual-listed with SPAN 354). (Cross-listed with LING). (3-0) Cr. 3. F.S.  
**Prereq:** SPAN 351  
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish.  
Meets International Perspectives Requirement.

**SPAN 590: Special Topics in Spanish**  
Cr. 1-4. Repeatable.  
**Prereq:** Permission of instructor; 6 credits of 400 level Spanish

**World Film Studies**

The World Film Studies undergraduate minor is an interdisciplinary, cross-cultural program in the department of World Languages and Cultures that provides coursework in the history, theory, and aesthetics of world cinemas. Upon completion of the World Film Studies minor students will

1) demonstrate solid skills of formal film analysis and knowledge of the essential theoretical concepts of cinema studies;  
2) become familiar with prominent film directors, influential cinematic works, and cinematic traditions across the world;  
3) gain an understanding of the evolution of cinema as an art form; understand the relations between cinema and other arts;  
4) acquire knowledge and understanding of cinema as a mode of cultural expression and communication; develop new perspectives on U.S. culture and cinema through comparison with other world cultures and cinemas.

A student seeking an undergraduate minor in World Film Studies must successfully complete a minimum of 15 credits, which must include WLC 278 Introduction to Global Film or ENGL 237 Survey of Film History and 12 credits selected from the following list of electives. Of these, at least 6 credits must be from courses taught in the department of World Languages and Cultures.

**Courses taught in WLC (at least 6 credits)**

### Graduate Study

The Department of World Languages and Cultures offers course work leading to a graduate minor in French, German, Latin, Russian Studies or Spanish. The graduate minor in each of these languages is designed to provide an opportunity for graduate students to further their knowledge of that language to complement work in their major disciplines. The graduate minor provides formal recognition of student achievement and expertise in one of the languages above. Graduate minor credits are also offered in Greek.

### Graduate Minor

Program Requirements:

#### Prerequisites

Graduate students who wish to minor in one of the languages above must have 400-level proficiency in that language. When this is not the case, the student may be required to take a language course below the 400-level, which would not count towards the graduate minor requirements.

#### Course Requirements

For the M.A. or M.S.: Three courses in the language of the minor. No more than three credits may be in courses numbered 401, 402, and 403.

For the Ph.D.: Four courses in the language of the minor which must include at least one three credit course at the 500 level. No more than three credits may be in courses numbered 401, 402, or 403. At least two courses for the M.A. and the Ph.D. minors must be taken in residence at Iowa State University. Papers written for these courses are expected to have a content and depth commensurate with the graduate status of the student.
The professional curriculum prepares veterinary students for a wide range of clinical experience during the last two years of the educational program. Fourth year students may choose to enhance their education by earning clinical elective credits at approved government agencies, research laboratories, veterinary practices and other university hospitals. Outstanding research programs in infectious diseases, food safety, neuroscience, immunoparasitology, evidence-based medicine, and many other areas provide opportunities for qualified students to participate in research.

Concurrent DVM/MS, DVM/PhD, DVM/MPH and DVM/MBA programs are available for qualified students who wish to obtain both veterinary and graduate degrees. Students must have a bachelor's degree or a minimum of 128 semester credits in undergraduate and professional curricula in order to participate in the concurrent DVM/graduate degree program. Admission to the concurrent degree program is subject to the approval of the deans of the College of Veterinary Medicine and the Graduate College.

The college is an important recruiting center for employers seeking veterinarians for private practice; industry; educational institutions; international agencies; federal, state and local governments; the armed forces; departments of public health; zoological gardens; and other related fields of professional activity. Graduates are highly sought after and typically have multiple employment offers upon graduation. Career services and an online job board are available for students.

Pre-veterinary Medicine Preparation

Admission Requirements

The College of Veterinary Medicine seeks students with diverse backgrounds and encourages students to enroll in baccalaureate programs in the college of their choice.

Undergraduate students are strongly encouraged to complete a bachelor's degree before applying to the College of Veterinary Medicine. Because veterinarians have varied career options, when deciding on an undergraduate major, the student should consider the area of veterinary medicine which interests them. For example, those who desire a career in clinical practice may wish to pursue a degree in biological science, animal science, agricultural economics, business, social science or humanities. Students with an interest in zoo or wildlife veterinary medicine may want to look at animal ecology, environmental studies or zoology. Future researchers may wish to consider genetics, molecular biology, microbiology, or biochemistry. Students who desire a career in public health (USDA, FDA, etc) or government (legislative/policy) may find benefit in any of the biological sciences or in political science. A degree in education may be valuable to those who envision themselves as educators in a College of Veterinary Medicine. These examples are only suggestions and are but a few of the many possibilities.
For the most current information regarding applications and admission to the College of Veterinary Medicine, please refer to the College web site at www.vetmed.iastate.edu/ (http://www.vetmed.iastate.edu).

Applicants for admission to the College of Veterinary Medicine must have attended an accredited college or university, have completed 40 semester credits prior to the deadline for filing an application for admission, and have completed 60 semester credits prior to the end of the spring term of the year in which the applicant seeks to be admitted to the College of Veterinary Medicine.

All science requirements should be fulfilled by the time of application or scheduled for completion by the end of the fall term in which the applicant applies. However, if necessary, the applicant may complete up to two required science courses after the fall term providing a transcript with the courses and grades listed is postmarked by July 1 of the year the applicant would enter. There is no maximum number of non-science required courses that may be completed but the deadline of having a transcript with these course grades posted by July 1 also applies. The July 1 deadline for transcripts and grades is firm.

Required courses must be completed with a grade of C (2.00) or better. A grade of C- (1.67) does not fulfill the requirement.

Credits earned must include the following Iowa State semester course offerings or their equivalents:

**English Composition 6 cr.**
One year of composition or writing emphasis courses. May include business or technical writing. Two of the following courses would fulfill the requirement.

<table>

Leadership, citizenship, etc. are given consideration in the selection of experience, essays, recommendations and personal development other applicants, it must be received by October 1). Animal and veterinary (the GRE for Iowa residents must be received by September 1, for all selective basis. GPA, Graduate Record Exam (GRE) general test score assures admission even though these requirements have been fulfilled.

Admission to the College of Veterinary Medicine is on a competitive and assure admission even though these requirements have been fulfilled. The preceding scholastic requirements are minimum and do not assure admission even though these requirements have been fulfilled.

Application and Admission

Applicants must apply using the Veterinary Medical College Application Service (VMCAS). The VMCAS application may be found online at the VMCAS website (www.aavmc.org) under VMCAS. Those applying through VMCAS also need to complete the ISU Supplemental Application found at the College of Veterinary Medicine website. The Iowa resident deadline for filing the VMCAS application, supplemental application, processing fee, GRE scores, evaluations and transcripts is September 1. The deadline for all other applicants is October 1.

Any student wishing to use international coursework (including study abroad) to fulfill a preveterinary requirement must provide a transcript from the foreign institution.

A list of courses in progress at the time of submission and/or scheduled for completion by the end of spring term should accompany the supplemental application. Undergraduate college credits must average at least 2.50 on a 4.00 marking system for the application to be eligible for review. The preceding scholastic requirements are minimum and do not assure admission even though these requirements have been fulfilled.

Admission to the College of Veterinary Medicine is on a competitive and selective basis. GPA, Graduate Record Exam (GRE) general test score (the GRE for Iowa residents must be received by September 1, for all other applicants, it must be received by October 1), animal and veterinary experience, essays, recommendations and personal development (leadership, citizenship, etc.) are given consideration in the selection of candidates. Final selection of candidates is made after an on-campus interview.

Approximately one-half of the positions available are reserved for residents of Iowa. The College of Veterinary Medicine has implemented a Professional Program in Veterinary Medicine with the University of Nebraska-Lincoln for Nebraska residents and contracts with the states of North Dakota, South Dakota and Connecticut. A number of positions are also available to residents of other states. A few highly qualified international students may be accepted and are considered in the non-resident/non-contract applicant pool. Consideration is given equally to all applicants without regard to race, color, national origin, gender, religion, disability, or age, political beliefs, or marital or familial status.

For further information on these programs and contracts, please visit the College of Veterinary Medicine at www.vetmed.iastate.edu (http://www.vetmed.iastate.edu) and click on APPLY VET MED.

Curriculum in Veterinary Medicine

Graduation Requirements

To be awarded the degree doctor of veterinary medicine, candidates must have passed all required courses in the curriculum in veterinary medicine, have earned at least 4 elective credits on a graded basis of A, B, C, D while enrolled in the College of Veterinary Medicine, and have at least a 2.0 grade-point average in the veterinary medicine curriculum.

Fourth Year
The fourth year of the veterinary medical curriculum is designed to be flexible yet provide a broad based clinical education involving all domestic species of animals. All students participate in rotations that are considered fundamental to any species orientation that the student might choose. In addition, students choose one of four options for additional study, including the Small Animal, Equine, Mixed Animal, or Food Animal Options. Students may obtain clinical elective credits by repeating on-campus rotations or participating in approved off-campus preceptorships at government, private or public agencies; other universities; or private veterinary practices.

The following rotations are required of all fourth year students in addition to the requirements of the track they choose. A complete listing of track-specific requirements can be found at: http://vetmed.iastate.edu/.

Reinstatement
Any student who voluntarily withdraws from the College of Veterinary Medicine or who is dismissed from the College of Veterinary Medicine, after having successfully completed one or more semesters forfeits his/her standing and must make written application for reinstatement to this college a minimum of 60 days prior to the opening of the semester for which they seek to re-enter. Any student who voluntarily withdraws from the College of Veterinary Medicine prior to completion of one semester must re-apply for admission to the college in the general applicant pool.
Anatomy, Physiology, Pharmacology, and Cell Biology. Up to 10 credits of dual-listed veterinary courses may be applied for major graduate credit. Departmental research facilities allow for training in experimental anatomy, pharmacology, and physiology. Graduate studies are supervised by faculty members recognized in their areas of expertise. Current areas of research include: Alzheimer’s disease, aquatic animal health, calcium and mineral homeostasis, diabetes mellitus, glia-neuron signaling, neurophysiology of pain, neurotoxicology, physiology and pharmacology of nematode ion-channels, Parkinson’s disease, pharmacology of schistosomiasis, pharmacology of salmonellosis, physiology and pharmacology of thalamic neurons, physiology of the retina, Spinal Muscular Atrophy, and study of neural stem cells. The objective of the department is to prepare graduate students for successful careers in biomedical research and professional service. The department is part of interdepartmental programs in neuroscience, toxicology, and molecular, cellular, and developmental biology. The combined Ph.D./DVM program is an option offered by the department.

Veterinary Clinical Sciences
Professional Program of Study
For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The curriculum of veterinary clinical sciences explores the preventive health care, and diagnosis and treatment of diseases of companion and competitive athletic animals. Veterinary specialists lead didactic and laboratory based learning in the clinical sciences. Experiential based courses conducted through the Veterinary Medical Center during the fourth year provide the student an opportunity to participate in the application of clinical skills and knowledge.

Graduate Study
The department offers work for the degree master of science with major in veterinary clinical science, and minor work for students majoring in other departments. Within the veterinary clinical sciences major, the student may specialize in veterinary medicine, surgery, or theriogenology. The D.V.M. degree or equivalent is prerequisite to a major graduate work.

Both thesis and nontthesis options are available and require the completion of a minimum of 30 graduate credits and a final examination. World languages and cultures requirements may be established by the student’s program of study committee.

Veterinary Diagnostic and Production Animal Medicine
Professional Program of Study
For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

Courses in veterinary diagnostic and production animal medicine provide students with basic and advanced skills in diagnostics, reproduction, medicine, surgery, production, welfare, and health management of the major livestock species. Students in the fourth year of the curriculum in veterinary medicine may elect to take advanced courses in beef, dairy, swine, poultry or small ruminant production medicine. Elective courses may include preceptorships in private practices, at other veterinary schools, in research and disease control laboratories, or in related agribusinesses.

Production animal medicine emphasizes the integration of veterinary medicine with nutrition, genetics, economics, food safety, and other disciplines, enabling graduates to acquire and use a broad knowledge base to support the health and improve the production and efficiency of the food supply chain.

Graduate Study in Veterinary Preventive Medicine
Veterinary Preventive Medicine is a multidisciplinary program focused on the study of health and disease in populations. The various disciplines represented in the program are unified by a common approach based on the application of epidemiological methods to problem solving in populations. Through their research and course work, students will learn to understand and apply a variety of disciplines, principles, and techniques to population health issues involving environmental, ecological, nutritional, genetic, infectious, or non-infectious diseases.

Graduate study in Veterinary Preventive Medicine will provide valuable skills and experience to persons interested in public health, food safety, emerging infectious diseases, zoo or wildlife health, and livestock health. A degree in Veterinary Preventive Medicine may be valuable for individuals considering a future in the biological or pharmaceutical industries, government regulatory agencies, public veterinary practice, international service agencies responsible for population health or progressive private practice.

Veterinary Preventive Medicine is an interdepartmental major administered by the Department of Veterinary Diagnostic and Production Animal Medicine (VDPM) with participating faculty from colleges and departments across the University and collaborators from the National...
Animal Disease Center (USDA:ARS) and the National Veterinary Services Laboratories (USDA:APHIS) located in Ames, Iowa.

Both thesis and non-thesis options are available and require the completion of a minimum of 30 graduate credits for thesis and 36 graduate credits for non-thesis and a final examination.

The purpose of the graduate certificate in Veterinary Preventive Medicine for industry professionals is to address the continued and advanced needs of animal health professionals. The certificate enables professionals to gain recognition for a skill set that includes epidemiology, risk assessment, production medicine and animal welfare. A graduate certificate may be used to increase knowledge in a new or emerging area of interest to the candidate. As such, it may be used to formally gain recognition for retraining to meet the needs of today’s food production systems.

The graduate certificate for concurrent DVM students is designed to give additional skills to students planning on working with populations of animals. Using a combination of on-line and dual listed graduate level courses, the program is designed to enable DVM students to complete the certificate while studying for their DVM degree. Students enrolled in any US-based DVM program are able to complete a graduate certificate at ISU using a combination of on-line and transfer graduate level courses.

The graduate certificate is an additional qualification awarded by Iowa State University after successful completion of 15 graduate level credits. A graduate certificate is different from continuing education as the certificate includes an academic transcript from Iowa State University. Students complete the same courses graduate students do with the same expectations for all assignments and exams.

The program is available as a strictly on-line (off campus) delivery method or as a combination of classroom-based and on-line course offerings providing maximum flexibility in scheduling.

5 elective credits from any approved ISU graduate course

Total Credits 15
Veterinary Microbiology and Preventive Medicine
Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The Department of Veterinary Microbiology and Preventive Medicine provides instruction on pathogenic bacteria, fungi, and viruses and their interaction with host animal species. Principles and applications of infectious diseases, immunity to disease, diagnostic methods for infectious diseases, and vaccinology are covered. Principles and applications of epidemiology, public health, preventive veterinary medicine, regulatory veterinary medicine and food safety are also emphasized.

Graduate Study

The department offers opportunities for the degree doctor of philosophy with a major in veterinary microbiology. A specialization in preventive medicine is an option for this degree. Graduates in the Veterinary Microbiology and Preventive Medicine programs have a broad understanding of the fundamental processes involved in infectious diseases, pathogenesis and immunology. They are able to effectively establish research programs, which involve complex biological systems and disease syndromes. They are also prepared to address microbial-based social, ethical and environmental problems. Graduates acquire effective written and oral communication skills which lead to successful research and teaching careers in the medical and veterinary sciences. The department also offers work towards the master of science with majors in veterinary microbiology or veterinary preventive medicine. A non-thesis master’s option is available for majors in preventive medicine. Courses are open for students majoring in other graduate programs.

Prerequisite to graduate study is completion of coursework in general microbiology, biology, biochemistry, mathematical sciences, and physics. Candidates for the majors in veterinary microbiology should possess an undergraduate degree in biomedical science with emphasis in medical microbiology or the D.V.M. degree. Candidates for the major in preventive medicine should possess the D.V.M. degree.

The department also participates in the interdepartmental majors and programs in genetics, immunobiology, and MCDB (molecular, cellular, and developmental biology; see Index).

Each graduate student must demonstrate proficiency in English composition within two semesters in residence.

Veterinary Pathology
Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The Department of Veterinary Pathology offers a systematic study of basic disease mechanisms with emphasis on the changes in gene expression, cells, tissues, organs, and body fluids associated with disease. The theory and practice of veterinary pathology, veterinary clinical pathology, veterinary parasitology, veterinary toxicology, and related disciplines provide the basis for accurate diagnosis and a rational approach to the treatment and prevention of animal diseases.

Graduate Study

The department offers work for the degree master of science and doctor of philosophy with a major in veterinary pathology. The majority of students choose an area of specialization in veterinary anatomic pathology, veterinary clinical pathology, or veterinary parasitology (http://vetmed.iastate.edu/vpath/academics/graduate-program). The master of science degree is available on a thesis or nonthesis basis in the veterinary pathology major with or without an area of specialization.

For the ACVP training track (residency) of the anatomic or clinical pathology graduate program designed to train veterinary pathologists, the student must have a funded position within the Department of Veterinary Pathology. If the student does not have a funded position or is not enrolled in the departmental degree program, enrollment in courses pertaining to the residency program and activities that support the residency program must have the approval of the Department Chair of Veterinary Pathology and the head of the departmental residency training program.

Graduates have a broad understanding of the mechanistic basis of disease pathogenesis. They are able to communicate with clinicians, other scientists, and other colleagues on scientific matters, and with the general public on related science policy matters. Graduates are able to address complex problems facing the agricultural and biomedical sciences, and comparative medicine, and are able to make appropriate diagnoses and investigations of animal diseases. They consider ethical, social, legal and environmental issues, and are skilled at carrying out research, communicating research results, and writing concise and competitive grant proposals.

Collaborative work is recommended in other departments in the College of Veterinary Medicine or departments or programs in other colleges. The department participates in the interdepartmental programs in Immunobiology (www.immunobiology.iastate.edu) (http://www.immunobiology.iastate.edu), Toxicology
A veterinary degree (doctor of veterinary medicine or equivalent) is required for training in Veterinary Anatomic Pathology and Veterinary Clinical Pathology. Other specializations do not require the veterinary degree. A minimum score of 550 paper-based (213 computer-based; 79 internet based) is required on the TOEFL examination for students whose native language is not English. Scores on the standardized Graduate Record Examination (GRE) General Test are required of students not having a veterinary degree from the United States or Canada. The GRE General Test is strongly recommended for all other applicants. A foreign language requirement will be determined by the student’s program of study committee with the approval of the departmental chair. The Graduate English Examination is a graduate college requirement for native English speakers.

The M.S. thesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 30 graduate credits. Following completion of all other requirements, a comprehensive final examination is administered covering all graduate work including the thesis. The examination is typically oral, but a written component may be specified by the program of study committee. The degree candidate must submit a thesis, including at least one manuscript suitable for publication, to the committee members and departmental chair at least two weeks prior to the final examination. The departmental requirement for graduate courses includes:

† Arranged with instructor.

The M.S. nonthesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 40 graduate credits including at least 10 graduate credits earned outside the department. Every nonthesis master’s degree program requires evidence of individual accomplishment demonstrated by completion of a creative component, special report, or scientific study. A minimum of 3 credits of such independent work (V PTH 599 Creative Component Research) and a practical diagnostic examination (V PTH 606 Diagnostic Interpretation) corresponding to the area of specialization are required on every program of study. The final examination is comprehensive and consists of written and oral questions. The departmental requirement for graduate courses includes those for the M.S. thesis degree plus additional courses corresponding to the area of degree emphasis of specialization. Contact the department for a more complete list of requirements and information on areas of specialization.

The Ph.D. degree in veterinary pathology, with or without an area of specialization, requires a minimum of 72 graduate credits including at least 12 graduate credits earned outside the department. The preliminary examination, consisting of written and oral components, is comprehensive and not restricted to the content of graduate courses. The degree candidate must submit a dissertation, including at least two manuscripts suitable for publication, to the committee members and departmental chair at least two weeks prior to the final examination. The final examination is primarily a defense of the dissertation, but it may include questions on other areas of specialized knowledge. The department also offers a combined DVM/Ph.D. program designed for completion of courses for the Ph.D. degree in Veterinary Pathology simultaneously with study in the professional curriculum in the College of Veterinary Medicine. Contact the department for a more complete list of requirements for the Ph.D. degree and information on areas of specialization.
INFORMATION ABOUT COURSES

A-Z Courses

Course Numbers
The courses in each department are numbered from 1 to 699, according to the following groups:

- 1-99 Courses not carrying credit toward a degree (zero credit).
- 100-299 Courses primarily for freshman and sophomore students.
- 300-499 Courses primarily for junior and senior students.
- 500-599 Courses primarily for graduate students, but open to qualified undergraduates.
- 600-699 Courses for graduate students.

Off-campus courses-Residential Credit
Iowa State University faculty teach distance learning courses online, by video conferencing, streaming media, and CD/DVD. Courses are the same as those offered on campus, carry residential credit, and are taught by Iowa State faculty. Credit earned becomes a part of the academic record at Iowa State University and may be used to meet degree requirements the same as credit earned on campus.

Priority Enrollment
High demand for courses in certain areas has necessitated enrollment management for some courses. When enrollment priority is established for a course, first consideration is given to students whose curriculum/major explicitly requires the course.

Special Course Fees
Courses for which special course fees are assessed are designated in the Schedule of Classes. Special course fees may be assessed for such extraordinary costs as materials fees (which may include consumable materials or equipment replacement), field trip expenses, developmental Math fees, and camp fees. In some cases, special course fee amounts vary from term to term. Additional information on camp fees and the developmental Math fee may be found in the fees and expenses section.

Independent Study
Most departments offer opportunities for independent study through a 490 course listing. Usually a minimum of 6 to 10 credits of coursework in the department is required before independent study is permitted. Students who are interested in this kind of experience in a particular department should check the catalog to determine the department’s prerequisites to register for 490. 490H sections are reserved for students in the University Honors Program.

Students should check with the department about procedures, in addition to meeting the prerequisites, for registering for 490. A written plan of study is prepared in advance with a faculty member who has agreed to supervise the student’s work, to evaluate progress and the final product, and to assign a grade. Initiation of the plan of study should occur prior to the semester in which enrollment is desired. Both the student and the instructor should agree on the number of credits for which the student will enroll, the amount and kind of work he or she will do for that credit, and the system by which she or he will be graded (A-F or S/F). Students should not expect to register for or add 490 credit without an instructor's permission. Some colleges and/or departments have limits on the number of credits of 490 that may be applied toward graduation.

Credits and Contact Hours
The academic value of each course is stated in semester credits. Each credit is normally earned by attending one (50-minute) hour of lecture or recitation per week for the entire 16-week semester, or by attending a laboratory or studio period of two or three hours per week. As a guideline, undergraduate students typically will be expected to spend two hours in preparation outside of class for each lecture or recitation hour; additional outside work may be required for laboratory or studio classes. The Office of the Registrar will maintain a table of faculty-approved credit-contact hour equivalencies for the types of instruction (e.g. lecture, studio, internships, research courses) offered by the institution.

Courses offered for less than a full semester (e.g. summer terms or compressed formats) will fulfill the same contact hour requirements as full-semester courses having the same credit hours. For example, a student enrolled in a one-credit course offered in an 8-week (half-semester) format should expect two hours of lecture and four hours of out of class preparation per week. Similarly, a course offered in hybrid, online, or distance education format is expected to meet the same contact hour requirement, and offer equivalent student-faculty/student-student interaction and class preparation time, as the same course taught in a traditional format.

Each course states the number of semester credits assigned to the course, preceded in parentheses by the number of hours in class (contact hours) expected of the student. The first of the two contact-hour numbers indicates the number of lecture or recitation class hours per week for the semester. The second is the number of laboratory or studio hours required per week. Laboratory and studio hours may include some time devoted to lectures and recitations. For example, COM S 227 Introduction to Object-oriented Programming is listed as (3-2) Cr. 4. In that case, the course is 4 semester credits, 3 hours of lecture and two hours of laboratory each week.

The term “Cr. arr.” means that the amount of credit is arranged in advance between the student and the instructor. The credit to be earned depends on the amount of work expected of the student, in accordance with the
policy that some combination of teacher-student contact and outside work by the student involving at least three hours per week for the semester is required for each credit.

The term “Cr. R.” means that the course is required in a certain curriculum or as cognate to one or more other courses. It is also used for cooperative education courses and for some optional inspection trips, study tours, and professional development courses for which numerical credit is not granted. An R credit course does not carry numerical credit toward a student’s degree, but it does apply toward the degree. The R credit course is generally listed on the degree program as a requirement for a specific curriculum/major that must be completed prior to graduation. R credit courses may be graded using the A-F grading scale or the satisfactory/fail grading scale. All R credit courses are assigned a numerical value for purposes of enrollment certification. Requests by students to drop an R credit course will be processed as an administrative drop during period 2 and thus will not be counted against the student’s drop limit and will not appear on the student’s transcript. (See Schedule Changes.)

Credit Involving a Paid Activity
Students may obtain credit for an activity, either on- or off-campus, for which they are also paid, provided the activity is academically relevant. This policy does not apply to registrations for R credit.

In order for an activity to be defined as academically relevant, prior arrangements for receiving credit must be made with a faculty member in an appropriate department.

The arrangements must include agreement on (1) the academic objectives which the activity is expected to achieve, and (2) the procedure by which the student’s learning will be assessed.

Semester of Offering
Within each course description may be found one or more of the following letters: F. S. SS., indicating which term—fall, spring, summer session—of the academic year the course is offered. “Alt.” is the abbreviation for alternate. If there is sufficient demand, courses may be offered more frequently than announced. Insufficient demand or unforeseen staffing problems may result in the cancellation of announced offerings. Students are advised to refer to the Schedule of Classes or consult with departments for up-to-date course schedule information.

Course Prerequisite
A prerequisite indicates the specific academic background or general academic maturity considered necessary for the student to be ready to undertake the course. Prerequisites are usually stated in terms of specific courses, but equivalent preparation is usually acceptable. An instructor may, however, direct a student whose background does not meet the stated prerequisite, or its equivalent, to drop the course. Conversely, an instructor may waive the prerequisite for a course for which he or she is responsible. Thus, permission of the instructor is understood to be an alternate to the stated prerequisites in all courses.

It is university policy that the department or instructor may inform students no later than the first day of class that students who have not met the prerequisite requirements must drop the course. Instructors have the right to neither accept, nor grade the work of a student who does not meet the stated prerequisite, or its equivalent (as determined by the process established in the department offering the course).

Some courses have been approved by their colleges to use administrative drops to enforce prerequisites. In such cases, the department shall inform enrolled students prior to the start of the semester that students who have not met the prerequisite requirements must drop the course or provide evidence of equivalent preparation to be reviewed by the department. After such notification (via email or Canvas announcement), students have 3 business days to either drop the course or initiate a review of their equivalent preparation. If a student neither drops the course nor initiates a review of equivalent preparation, the department or instructor may initiate an administrative drop to remove the student from the course. Students whose request to waive the prerequisite is denied will be administratively dropped from the course. Course prerequisites are listed in the Schedule of Classes as well as in the Courses and Programs section of this publication.

Cross-listed Courses
A course, including its complete description, may be listed in two or more departments. The participating department or departments are noted in parentheses. Credit for the course may be obtained through any of the cross-listed departments.

Dual-listed Courses
Dual-listed courses permit undergraduate and graduate students to be in the same class while receiving credit for either undergraduate or graduate level work.

Credit in the graduate course is not available to students who have received credit in the corresponding undergraduate course. Both graduates and undergraduates receive the same amount of credit for the course, but additional work is required of all graduate students taking the course under the graduate-level course number. This extra work may take the form of additional reading, projects, examinations, or other assignments as determined by the instructor. The instructor must be a member of the Graduate Faculty or a Graduate Lecturer. Each dual-listed course is designated in the catalog with the phrase “Dual-listed with,” although the student’s official transcript of credits, both graduate and undergraduate, does not identify dual-listed courses as such. There is a limit to the number of dual-listed course credits that may be used to meet the requirement for an advanced degree. (For information about
procedures for requesting permission to offer dual-listed courses, faculty should consult the Graduate Faculty Handbook.)
ENTRY LEVEL COURSES

Resources for Course Information

http://catalog.iastate.edu
http://classes.iastate.edu

Additional experimental courses: courses not published in the catalog.

The following courses are suitable for first year students. Course numbers that begin with 0 (e.g., MATH 010) may incur an additional "developmental course" fee. See the Tuition and Fees web site for more information about other fees (http://www.registrar.iastate.edu/fees/othfee).

A B E 160: Systematic Problem Solving and Computer Programming
(2-2) Cr. 3. S.
Prereq: Credit or enrollment in MATH 143 or MATH 165
Engineering approach to problem solution and presentation in the context of real world problems. Introduction to basic principles from statics, projectile motion, conservation of mass and energy and electricity and magnetism. Use of spreadsheet programs and computer programming language(s) to solve and present engineering problems.

A B E 170: Engineering Graphics and Introductory Design
(2-2) Cr. 3.
Applications of multi-view drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports.

A M D 131: Fashion Products and Markets
(3-0) Cr. 3. F.

A M D 165: Dress and Diversity in Society
(3-0) Cr. 3. F.S.
Examination of diversity among consumers and introduction to forecasting trends in dress. Introduction to social justice issues.
Meets U.S. Diversity Requirement

A M R E 160: Aerospace Engineering Problems With Computer Applications Laboratory
(2-2) Cr. 3. F.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

AF AM 201: Introduction to African American Studies
(3-0) Cr. 3. F.S.
An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience.
Meets U.S. Diversity Requirement

AFAS 141: Foundations of the United States Air Force
(1-0) Cr. 1. F.

AGR 100: Introduction to Renewable Resources
(Cross-listed with ENV S, NREM). (3-0) Cr. 3. F.S.
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

AGR 206: Introduction to Weather and Climate
(Cross-listed with MTEOR). (3-0) Cr. 3. F.S.
Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.

AM IN 210: Introduction to American Indian Studies
(3-0) Cr. 3. F.S.S.
Introduction to the multidisciplinary aspects of American Indian Studies. Topics include the relevant events and ideas defining the contemporary American Indian experience, on and off reservation, in the United States. Sovereignty, identity, jurisdiction, taxes, economic development, education, and other issues are addressed.
Meets U.S. Diversity Requirement

AN S 101: Working with Animals
(1-2) Cr. 2. F.S.
A hands-on introductory course in skills for proper care and management of domestic animals. Husbandry skills including health observation, animal movement, identification, management procedures, and environmental assessment are covered.

AN S 114: Survey of the Animal Industry
(2-0) Cr. 2. F.S.
Ways domestic animals serve the basic needs of humans for food, shelter, protection, fuel, and emotional well-being. Terminology, basic structures of the industries surrounding the production, care, and marketing of domestic animals in the U.S.
ANTHR 201: Introduction to Cultural Anthropology
(3-0) Cr. 3. F.S.SS.
Comparative study of culture as key to understanding human behaviors in different societies. Using a global, cross-cultural perspective, patterns of family life, economic and political activities, religious beliefs, and the ways in which cultures change are examined. Meets International Perspectives Requirement.

ANTHR 202: Introduction to Biological Anthropology and Archaeology
(3-0) Cr. 3. F.S.
Human biological and cultural evolution; survey of the evidence from fossil primates, the human fossil record and the archaeological record, as well as living primates; introduction to research methods in archaeology and biological anthropology.

ANTHR 230: Globalization and the Human Condition
(3-0) Cr. 3. F.S.
An introduction to understanding key global issues in the contemporary world. Focuses on social relations, cultural practices and political-economic linkages among Africa, the Americas, Asia, Europe and the Pacific. Meets International Perspectives Requirement.

ARCH 221: History of Pre-Modern Architecture
(3-0) Cr. 3. F.
Survey of pre-modern western architectural ideas and practices in their social, cultural, and representational contexts. Comparisons with global examples. Ancient through 1750. Meets International Perspectives Requirement.

ART H 280: History of Art I
(3-0) Cr. 3. F.
Development of the visual arts including painting, sculpture, architecture, and crafts, from the prehistoric through Gothic periods. Meets International Perspectives Requirement.

ART H 292: Introduction to Visual Culture Studies
(3-0) Cr. 3.
An introduction to various topics in visual culture studies. The lecture course will provide students with a creative and intellectual context in which to study historical and contemporary instances of the visual in culture. Individual lectures examine significant trends in the visual arts, mass media, scientific imagery, visual communications, and other areas related to visual literacy and visual representation in local and global contexts. Cross cultural viewpoints and issues of diversity will be presented in relation to visual culture and related fields. Meets U.S. Diversity Requirement

ASTRO 103: Evening Star
Cr. 1. F.S.
An entirely web-based course covering topics in celestial mechanics ("Rocket science!") for students with little or no previous experience. It combines the geography of the solar system with discussion of methods of traveling to the other planets. The course "lectures" are online, interactive units with built-in exercises, hands-on (offline) activities, and layers of help. Graded homework and quizzes are administered via Blackboard Learn. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 120: The Sky and the Solar System
(3-0) Cr. 3. F.S.SS.
For the nonscientist. A survey of our view of the universe, and the exploration of the solar system and beyond. The sky: constellations; motions of the Sun, Moon, and planets; seasons and the calendar; eclipses. The solar system: origin and evolution; characteristics of the Sun, planets, satellites, comets, meteorites, and asteroids. The detection and characterization of other solar systems, and the search for life in the universe. Extensive use of the planetarium is included. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 150: Stars, Galaxies, and Cosmology
(3-0) Cr. 3. F.S.
For the nonscientist. A survey of astronomy with a focus on the universe beyond our solar system. Basic observational astronomy and the history of astronomy. Stellar astronomy: motions, distances, sizes, spectra; types of stars; variability; binary systems. Stellar evolution: the birth, life, and death of stars, including supernovae, neutron stars, and black holes. The structure and evolution of the Milky Way Galaxy. Other galaxies, clusters of galaxies, quasars. Theories of the origin of the universe.

BBMB 101: Introduction to Biochemistry
(1-0) Cr. 1. F.
Research activities, career opportunities in biochemistry and biophysics, and an introduction to the structure of biologically important compounds. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

BIOL 101: Introductory Biology
(3-0) Cr. 3. F.S.SS.
Life considered at cellular, organism, and population levels. Function and diversity of the living world. Presentation of basic biological principles as well as topics and issues of current human interest. Does not satisfy biology major requirements.
**BIOL 155: Human Biology**
*(3-0) Cr. 3. F.S.*
A survey course of human biology, including principal structures and functions of the body systems and the diseases and disorders associated with them. Designed to meet general education requirements in natural science. Not recommended for those seeking a career in the allied health professions or for students majoring in life science. Does not satisfy biology major requirements.

**BIOL 173: Environmental Biology**
*(Cross-listed with ENV S). (3-0) Cr. 3. F.S.*
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Does not satisfy biology major requirements.

**BIOL 211: Principles of Biology I**
*(3-0) Cr. 3. F.S.*
Prereq: High school biology
Introduction to the nature of life, including the diversity of microbial, plant, and animal life; the nature of heredity; evolution; and principles of ecology. Intended for life science majors.

**BIOL 211L: Principles of Biology Laboratory I**
*(0-3) Cr. 1. F.S.*
Prereq: Credit or enrollment in BIOL 211
Laboratory to accompany 211.

**BIOL 212: Principles of Biology II**
*(3-0) Cr. 3. F.S.*
Prereq: High School Biology: high school chemistry or credit or enrollment in CHEM 163 or CHEM 177
Introduction to the chemical, molecular, and cellular basis of life; form and function of microbial, plant, and animal life. Intended for life science majors.

**BIOL 212L: Principles of Biology Laboratory II**
*(0-3) Cr. 1. F.S.*
Prereq: credit or enrollment in BIOL 212
Laboratory to accompany 212.

**BIOL 255: Fundamentals of Human Anatomy**
*(3-0) Cr. 3. F.*
Prereq: High School Biology and Chemistry, or BIOL 101
An introduction to human anatomy, beginning with cells and tissues, surveying all body systems, relating form to function. Systems covered include: integumentary, bones and joints, muscles, nervous, sensory, endocrine, circulatory, lymphatic, respiratory, digestive, urinary, and reproductive. Pre-Medical students should consider Biol 351 for their anatomy background. Does not satisfy biology major requirements.

**BIOL 255L: Fundamentals of Human Anatomy Laboratory**
*(0-3) Cr. 1. F.*
Prereq: Credit or enrollment in BIOL 255
Investigation of human anatomy using models and dissections of preserved organs and model mammals. Pre-Medical students should consider 351 for their anatomy background. Does not satisfy biology major requirements.

**BUSAD 102: Business Learning Team Orientation**
*(1-0) Cr. 1. F.S.*
A required orientation for all College of Business Students involved with a Business Learning Team. Review of college and university requirements, transfer credits, academic planning, university policies and deadlines and registration procedures. Includes a consideration of various business majors and careers, tools for success in college including writing skills and presentations from employers, alumni and current students. Only one of BusAd 101, 102, or 103X may be counted towards graduation.

**BUSAD 103: Orientation**
*(1-0) Cr. 1. F.S.*
A required orientation for all College of Business students. Review of college and university requirements, transfer credits, academic planning, university policies and deadlines, and registration procedures. Includes group advising for course selection and registration. Only one of BUSAD 101, 102, or 103 may be counted toward graduation.

**C E 160: Engineering Problems with Computational Laboratory**
*(2-2) Cr. 3. F.S.*
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165
Formulation of engineering problems using spreadsheets and Visual Basic for Application for solution. Presenting results using word processing, tables, and graphs. Introduction to engineering economics and statics. Civil engineering examples.

**C E 170: Graphics for Civil Engineering**
*(0-4) Cr. 2. F.S.*
Fundamental graphics. Introduction to computer aided drafting and modeling. Civil engineering applications.
C I 204: Social Foundations of Education in the United States: Secondary
(3-0) Cr. 3. F.S.SS.
Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis is placed on topics and tensions in the relationship between school and society (e.g., equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning at the secondary level in public schools. For prospective teachers in an ISU Secondary Education teacher preparation program; open to students who are considering teaching and/or work in education as a career path. Students in Early Childhood and Elementary Education programs should take C I 205.

C R P 201: The North American Metropolis
(3-0) Cr. 3. F.S.
Examination of the evolution of American urban centers from the colonial era to the present. Considers the demographic changes and social movements underway in urban America and explores how an understanding of the history of cities provides us with knowledge that we can use to improve our cities today.
Meets U.S. Diversity Requirement

CH E 160: Chemical Engineering Problems with Computer Applications Laboratory
(2-2) Cr. 3. F.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

CHEM 050: Preparation for College Chemistry
(3-0) Cr. 0. F.S.
Prereq: 1 year high school algebra
An in-depth active learning experience designed to impart the fundamental concepts and principles of chemistry, with an emphasis on mathematics skills and logical thinking. For students intending to enroll in general chemistry and who have not taken high school chemistry or who have not had a high school college preparatory chemistry course who need a review of chemical problem solving and chemical concepts. Credit for Chem 50 does not count toward graduation.

CHEM 163: College Chemistry
(4-0) Cr. 4. F.S.SS.
Prereq: 1 year of high school algebra and geometry and Chem 50 or 1 year of high school chemistry; and credit or enrollment in CHEM 163L
A general survey of chemistry with an emphasis on conceptual problems for those who are not physical and biological science or engineering majors. Nomenclature, chemical reactions, stoichiometry, atomic structure, periodic properties, chemical bonding, states of matter, solutions, thermochemistry, acid-base theory, oxidation-reduction reactions, basic chemical kinetics, and chemical equilibrium. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 163L: Laboratory in College Chemistry
(0-3) Cr. 1. F.S.SS.
Prereq: Credit or enrollment for credit in CHEM 163
Laboratory to accompany CHEM 163. Must be taken with CHEM 163. Only one of Chem 163L, CHEM 167L, and CHEM 177L may count toward graduation.

CHEM 167: General Chemistry for Engineering Students
(4-0) Cr. 4. F.S.
Prereq: 1 year of high school chemistry or CHEM 50 and Math 143 pre-calculus or high school equivalent.
Principles of chemistry and properties of matter explained in terms of modern chemical theory with emphasis on topics of general interest to the engineer. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 177: General Chemistry I
(4-0) Cr. 4. F.S.SS.
Prereq: MATH 140 or high school equivalent, and CHEM 50 or 1 year high school chemistry, and credit or enrollment in CHEM 177L. Chemistry and biochemistry majors may consider taking CHEM 201
The first semester of a two semester sequence which explores chemistry at a greater depth and with more emphasis on concepts, problems, and calculations than 163. Recommended for physical and biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Principles and quantitative relationships, stoichiometry, chemical equilibrium, acid-base chemistry, thermochemistry, rates and mechanism of reactions, changes of state, solution behavior, atomic structure, periodic relationships, chemical bonding. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 177L: Laboratory in General Chemistry I
(0-3) Cr. 1. F.S.SS.
Prereq: Credit or enrollment for credit in CHEM 177
Laboratory to accompany 177. 177L must be taken with 177. Only one of Chem 163L, 167L, and 177L may count toward graduation.
CHEM 177N: Laboratory in General Chemistry I
(0-3) Cr. 1. F.
Prereq: Credit or enrollment for credit in CHEM 177. For chemistry and biochemistry majors
Laboratory to accompany CHEM 177. CHEM 177N must be taken with CHEM 177. Only one of Chem 163L, CHEM 167L, and CHEM 177N may count toward graduation.

CHEM 178: General Chemistry II
(3-0) Cr. 3. F.S.S.
Prereq: CHEM 177, CHEM 177L
Continuation of 177. Recommended for physical or biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses.

CHEM 201: Advanced General Chemistry
(5-0) Cr. 5. F.
Prereq: Co-enrollment in MATH 165 or credit, one year of high school chemistry, and one year high school physics or advanced chemistry. Co-enrollment in CHEM 201L.
A one-semester course in general chemistry designed to give students an in-depth, broad-based view of modern chemistry, and, in part, to facilitate participation in independent undergraduate research. Topics include stoichiometry, atomic and molecular structure, chemical bonding, kinetics, chemical equilibria, and thermodynamics. Discussion of current trends in various chemical disciplines, which may be given by guest experts in chemistry, biochemistry, and chemical engineering, will help the student appreciate the scope of the chemical sciences and how research is carried out. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHIN 101: Elementary Mandarin Chinese I
(4-0) Cr. 4. F.
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.

CHIN 201: Intermediate Mandarin Chinese I
(4-0) Cr. 4. F.
Prereq: CHIN 102
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition. Meets International Perspectives Requirement.

CJ ST 240: Introduction to the U.S. Criminal Justice System
(3-0) Cr. 3. F.
Provides systematic overview of law, police organization and behavior, prosecution and defense, sentencing, the judiciary, community corrections, penology, and capital punishment. The course demonstrates the role of discretion in all of these agencies as well as the sociological influences of age, race, gender, and social class on criminal justice system processes.

CJ ST 241: Youth and Crime
(Cross-listed with SOC). (3-0) Cr. 3. F.
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents' rights, and traditional and alternative ways of dealing with juvenile crime.

CL ST 273: Greek and Roman Mythology
(3-0) Cr. 3.
Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories. Meets International Perspectives Requirement.

COM S 101: Orientation
Cr. R.
Introduction to the procedures and policies of Iowa State University and the Department of Computer Science, test-outs, honorary societies, etc. Issues relevant to student adjustment to college life will also be discussed. Offered on a satisfactory-fail basis only.

COM S 103: Computer Applications
Cr. 4.
Introduction to computer literacy and applications. Applications: Windows, Internet browser/HTML, word processing, spreadsheets, database management and presentation software. Literacy: history of computing, structure of computers, telecommunications, computer ethics, computer crime, and history of programming languages. No prior computer experience necessary. Offered online only. Attendance at an orientation session the first week of class is required. Only one of COM S 103 and COM S 113 may count toward graduation.
COM S 104: Introduction to Programming
(1.5-1) Cr. 2.
Offered first 8 weeks and last 8 weeks. Use of personal computer and workstation operating systems and beginning programming. Project-oriented approach to computer operation and programming, including use of tools to aid in programming. Topics from computer history, using basic Windows and Unix tools, program structure, expression, variables, decision and logic, and iteration. No prior computer experience necessary.

COM S 107: Applied Computer Programming
(3-0) Cr. 3.
Introduction to computer programming for non-majors using a language such as the Visual Basic language. Basics of good programming and algorithm development. Graphical user interfaces.

COM S 113: Introduction to Spreadsheets and Databases
(2-2) Cr. 3.
Using Microsoft Excel spreadsheets and Microsoft Access databases to input, store, process, manipulate, query, and analyze data for business and industrial applications. Credit in Com S 113 may not be applied toward graduation in the COM S, S E, and CPR E majors. Only one of COM S 103 and COM S 113 may count toward graduation.

COM S 207: Fundamentals of Computer Programming
(Cross-listed with MIS). (3-1) Cr. 3.
Prereq: MATH 150 or placement into MATH 140 or higher
An introduction to computer programming using an object-oriented programming language. Emphasis on the basics of good programming techniques and style. Extensive practice in designing, implementing, and debugging small programs. Use of abstract data types. Interactive and file I/O. Exceptions/error-handling. This course is not designed for computer science, software engineering, and computer engineering majors. Credit may not be applied toward graduation for both Com S 207/MIS 207 and Com S 227.

COM S 227: Introduction to Object-oriented Programming
(3-2) Cr. 4.
Prereq: Placement into MATH 143, 165, or higher; recommended: a previous high school or college course in programming or equivalent experience.
Introduction to object-oriented design and programming techniques. Symbolic and numerical computation, recursion and iteration, modularity procedural and data abstraction, and specifications and subtyping. Object-oriented techniques including encapsulation, inheritance and polymorphism. Imperative programming. Emphasis on principles of programming and object-oriented design through extensive practice in design, writing, running, debugging, and reasoning. Course intended for Com S majors. Credit may not be applied toward graduation for both Com S 207 and 227.

COM S 228: Introduction to Data Structures
(3-1) Cr. 3.
Prereq: Minimum of C- in COM S 227, credit or enrollment in MATH 165
An object-oriented approach to data structures and algorithms. Object-oriented analysis, design, and programming, with emphasis on data abstraction, inheritance and subtype polymorphism. Abstract data type specification and correctness. Collections and associated algorithms, such as stacks, queues, lists, trees. Searching and sorting algorithms. Graphs. Data on secondary storage. Analysis of algorithms. Emphasis on object-oriented design, writing and documenting medium-sized programs. This course is designed for majors.

COMST 101: Introduction to Communication Studies
(3-0) Cr. 3.
An introduction to communication theory, the development and functions of communication, and a survey of verbal, nonverbal, interpersonal, small group, organizational, and intercultural communication.

CPR E 131: Introduction to Computer Security Literacy
(Cross-listed with INFAS). (1-0) Cr. 1.
Basic concepts of practical computer and Internet security: passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

CPR E 185: Introduction to Computer Engineering and Problem Solving I
(2-2) Cr. 3.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

DANCE 270: Dance Appreciation
(3-0) Cr. 3. F.S.SS.
Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required. Meets International Perspectives Requirement.

DES 230: Design Thinking
(3-0) Cr. 3. F.S.
Introduction to the phenomenon of design thinking as it appears in various design fields, including methodologies of reasoning and problem solving; patterns of creativity and individual style; and the interaction of art, science, and technology.
**DSN S 102: Design Studio I**  
(1-6) Cr. 4.
A core design studio course exploring the interaction of two-and three-dimensional design. Emphasis on fundamental skills and ideas shared across design disciplines. Investigation of creative process, visual order and materials, and development of critical thinking through studio projects and lectures. Includes study of precedents, contemporary design practices and disciplines in their cultural contexts.

**DSN S 131: Design Representation**  
(1-6) Cr. 4.
An introduction to methods of visual thinking and drawing through studio experiences and lectures. All design fields utilize visual communication and drawing. Focus on the use of drawing as a method for creative problem solving, design development and visual communication. Explore, from observation and imagination, the use of fast sketching and in-depth drawing, using various scales, mediums and processes.

**DSN S 183: Design Cultures**  
(3-0) Cr. 3.
A broad-based exploration of the dynamic relationship between design and culture, employing case study method to investigate particular examples of cultural production in contemporary society. Design processes and design works are presented as culturally, economically, environmentally, historically, ideologically, politically, and socially grounded events and artifacts.

**DSN S 232: Digital Design Communications**  
(3-0) Cr. 3.
Introductory investigations of various digital design media to develop multi-dimensional problem solving, digital communication skills and perceptual sensitivity. Open to all university majors.

**E E 185: Introduction to Electrical Engineering and Problem-Solving I**  
(2-2) Cr. 3. F.S.  
*Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165*

**ECON 101: Principles of Microeconomics**  
(3-0) Cr. 3. F.S.S.

**ECON 101L: Laboratory in Principles of Microeconomics**  
(0-2) Cr. 1. F.  
*Prereq: Concurrent enrollment in the appropriate section of ECON 101*
Discussion of material typically covered in Econ 101. Application of economic principles to real world problems. Economic principles and basic business management concepts applied to decision-making in agribusiness operations.

**ECON 102: Principles of Macroeconomics**  
(3-0) Cr. 3. F.S.S.  
*Prereq: ECON 101 recommended*

**ECON 235: Introduction to Agricultural Markets**  
(3-0) Cr. 3. F.S.  
*Prereq: ECON 101*
Basic concepts and economics principles related to markets for agricultural inputs and products. Overview of current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. The implications of consumer preferences at the farm level. Introduction to hedging, futures, and other risk management tools.

**ENGL 101B: English for Native Speakers of Other Languages: Academic English**  
(3-0) Cr. 3. F.S.  
*Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)*
For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.
ENGL 099S: Strategies for Nonnative Speakers of English: Academic Speaking and Pronunciation
Cr. 0. F.S.
Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department’s option

ENGL 101C: English for Native Speakers of Other Languages: Academic English II—Undergraduates
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)

For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 150: Critical Thinking and Communication
(3-0) Cr. 3. F.S.S.
Prereq: Concurrent enrollment in LIB 160 is recommended.
Application of critical reading and thinking abilities to topics of civic and cultural importance. Introduction of basic oral, visual, and electronic communication principles to support writing development. Initiation of communication portfolio.

ENGL 201: Introduction to Literature
(3-0) Cr. 3.
Prereq: Credit in or exemption from 150
Study of selected examples of drama, poetry, short fiction, and the novel drawn from both British and American literature. Recommended for nonmajors.

ENGL 214: Introduction to Technical Communication
Cr. 3. F.
Prereq: ENGL 150
A broad introduction to the culture of professional work as a technical communicator, with particular emphasis on principles and best practices for developing and managing technical information and digital media. Examination of user-centered design, the history of the discipline, cross-cultural communication, and the ethics of communicating complex information to lay audiences. Study and practice of team-based collaboration, project management, and technical editing.

ENGL 225: Survey of British Literature to 1800
(3-0) Cr. 3.
Prereq: ENGL 250
Representative works of British literature from the origins to 1800 in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 226: Survey of British Literature since 1800
(3-0) Cr. 3.
Prereq: ENGL 250
Representative works from 1800 to the present in historical, cultural, and literary contexts. Will include multiple genres and may include texts that reflect and/or critique the impact and legacy of the British empire on its former colonies, i.e., postcolonial literature.

ENGL 237: Survey of Film History
(3-0) Cr. 3. F.
Prereq: Credit in or exemption from 150
A survey of the history of film, both U.S. and international, from the beginnings in the late nineteenth century to the present.

ENGL 240: Introduction to American Indian Literature
(Cross-listed with AM IN). (3-0) Cr. 3. F.
Prereq: Credit in or exemption from ENGL 150
Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works.

Meets U.S. Diversity Requirement

ENGL 250: Written, Oral, Visual, and Electronic Composition
(3-0) Cr. 3. F.S.S.
Prereq: ENGL 150 or exemption from ENGL 150; sophomore classification or exemption from ENGL 150; credit for or concurrent enrollment in LIB 160
Analyzing, composing, and reflecting on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on supporting a claim and using primary and secondary sources. Continued development of communication portfolio.

ENGL 275: Analysis of Popular Culture Texts
(Cross-listed with SP CM). (3-0) Cr. 3. F.S.
Prereq: Credit in or equivalent of 250
Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.
ENGR 160: Engineering Problems with Computer Applications Laboratory  
(2-2) Cr. 3. F.S.SS.  
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations  
Solving engineering problems and presenting solutions through technical reports. Significant figures. Use of SI units. Graphing and curve-fitting. Flowcharting. Introduction to mechanics, statistics and engineering economics. Use of spreadsheet programs to solve and present engineering problems. Solution of engineering problems using computer programming languages. (The honors section includes application of programming to mobile robotics).

ENT 201: Introduction to Insects  
(1-0) Cr. 1. F.S.SS.  
5 weeks. Classroom section spring only. World Wide Web section of course offered summer and fall semesters. Biological and ecological aspects of insects.

ENT 211: Insects and Society  
(2-0) Cr. 2. F.S.  
Prereq: ENT 201  

ENV S 101: Environmental Geology: Earth in Crisis  
(Cross-listed with GEOL). (3-0) Cr. 3. F.S.SS.  
An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism. Summer - online only.

ENV S 120: Introduction to Renewable Resources  
(Cross-listed with AGRON, NREM). (3-0) Cr. 3. F.S.  
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

ENV S 173: Environmental Biology  
(Cross-listed with BIOL). (3-0) Cr. 3. F.S.  
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Does not satisfy biology major requirements.

ENV S 201: Introduction to Environmental Issues  
(Cross-listed with BIOL, ENSCI). (2-0) Cr. 2. F.  
Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

FRNCH 101: Elementary French I  
(4-0) Cr. 4. F.SS.  
Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture.

FRNCH 201: Intermediate French I  
(4-0) Cr. 4. F.  
Prereq: FRNCH 102  
Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture.  
Meets International Perspectives Requirement.

FS HN 101: Food and the Consumer  
(3-0) Cr. 3. F.S.  
Prereq: High school biology and chemistry or 3 credits each of biology and chemistry  

FS HN 167: Introduction to Human Nutrition  
(3-0) Cr. 3. F.S.SS.  
Prereq: High school biology or 3 credits of biology  
Understanding and implementing present day knowledge of nutrition. The role of nutrition in the health and well being of the individual and family.

GEOL 100: The Earth  
(3-0) Cr. 3. F.S.SS.  
How does the earth work, what is it made of, and how does it change through time? Plate tectonics, Earth materials, landforms, structures, climate, and natural resources. Emphasis on the observations and hypotheses used to interpret earth system processes. Students may also enroll in Geol 100L.
GEOL 100L: The Earth: Laboratory
(0-2) Cr. 1. F.S.
Prereq: Credit or enrollment in GEOL 100
Students will gain understanding of how Earth processes affect their lives and how they affect the Earth, and of the complex nature of the Earth and its processes. They will gain a deep knowledge of the methods used to understand the time scales and rates of Earth processes also through an applied research experience on groundwater and surface water.

GEOL 101: Environmental Geology: Earth in Crisis
(Cross-listed with ENV S). (3-0) Cr. 3. F.S.S.
An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism. Summer - online only.

GEOL 105: Gems and Gemstones
(2-0) Cr. 1. F.
Offered in second half of the semester. Introduction to gems and gemstones, physical and optical properties of gems and gemstones, explanation of where gems come from and how they are found, how to distinguish between synthetic and naturally occurring gems, how the value of gems are determined, and the history of famous gems.

GEOL 108: Introduction to Oceanography
(Cross-listed with ENV S). (3-0) Cr. 3. F.

GEOL 111: Geological Disasters
(Cross-listed with ENV S). (1-0) Cr. 1. F.S.S.
Introduction to the catastrophic geologic processes that disrupt ecosystems and human activity. Includes a discussion on the role of plate tectonics, the hydrologic cycle, and humans as the driving forces behind selected case studies on volcanic eruptions, earthquakes, tsunamis, landslides, and floods. Summer and fall - online only.

GEOL 201: Geology for Engineers and Environmental Scientists
(2-2) Cr. 3. F.
Introduction to Earth materials and processes with emphasis on engineering and environmental applications.

GER 101: Elementary German I
(4-0) Cr. 4. F.S.S.
Beginning level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. For beginning-level learners who have little or no prior exposure to German.

GER 201: Intermediate German I
(4-0) Cr. 4. F.
Prereq: GER 102
Intermediate level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. Intensive review of basic grammar covered in the first-year German class (or equivalent high school courses) while exploring cultural topics and themes.
Meets International Perspectives Requirement.

GREEK 101: Elementary Ancient and New Testament Greek I
(5-0) Cr. 4-5.
Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical and New Testament works.

H S 105: First Aid and Emergency Care
(1-2) Cr. 2. F.S.S.
Discussion and application of the basic techniques of utilizing bloodborne pathogen safety measures, administering first aid and cardiopulmonary resuscitation. ARC layperson certification available.

H S 110: Personal and Consumer Health
(3-0) Cr. 3. F.S.
Physical, mental, emotional and social aspects of health as a basis for understanding and promoting health, and preventing poor health conditions. Study of personal responsibility on the long-term benefits of maintaining a high level of wellness and health. Identification and mitigation of negative lifestyle habits.

H SCI 110: Orientation and Human Sciences Career Exploration
(2-0) Cr. 2. F.S.
Orientation and adjustment to the university and college; review of policies and procedures; academic resources; and course selection and planning. Comprehensive approach to career development; intensive self-analysis; and in-depth examination of majors in Human Sciences. Required for all students declared as an Undecided major in the College of Human Sciences.

H SCI 150: Dialogues on Diversity
(1-0) Cr. 1. F.S.
An exploration of diversity within the context of the Iowa State University community through understanding human relations issues. Meets U.S. Diversity Requirement
Entry Level Courses

**HD FS 102:** Individual and Family Development, Health, and Well-being  
(3-0) Cr. 3. F.S.SS.  
Overview of life-span developmental tasks (physical, cognitive, language, social, emotional) examined from various theoretical perspectives. Discussion of topics related to family diversity, individual/family health and well-being and reciprocal relationships as affected by external factors.

**HD FS 183:** Personal Finance in Early Adulthood  
(1-0) Cr. 1. F.S.SS.  
Introduction to basic concepts and budgeting practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans. Offered on a satisfactory-fail basis only.

**HD FS 223:** Child Development and Health  
(3-0) Cr. 3. F.S.  
Typical and atypical development of children prenatal through middle childhood. Examination of healthy development and potential impact of health issues in children. Discussion of influence of the family and society on development. Either HD FS 223 or HD FS 224, but not both, may be applied toward graduation.

**HD FS 239:** Consumer Issues  
(3-0) Cr. 3. F.S.  
Introduction to factors affecting consumer decisions of individuals and families, including housing, healthcare, and personal finances. Emphasis on accessibility and affordability, community contexts for families; and consumer protection, legislation and regulation, and consumer fraud. Meets U.S. Diversity Requirement

**HD FS 240:** Literature for Children  
(3-0) Cr. 3. F.S.  
Evaluation of literature for children, including an emphasis on diversity and inclusion; cultural competence. Roles of literature in the overall development of children. Literature selection and use in the home and educational settings. Meets U.S. Diversity Requirement

**HD FS 276:** Human Sexuality  
(3-0) Cr. 3. F.S.SS.  
Behavioral, biological, and psychological aspects of human sexuality within the social context of family, culture, and society. Role of sexuality in human development. Critical analysis of media and research. Communication and decision-making skills relating to sexuality issues and relationships. Meets U.S. Diversity Requirement

**HIST 201:** Introduction to Western Civilization I  
(3-0) Cr. 3. F.  
Western civilization from ancient Mediterranean world to 1500. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity. Meets International Perspectives Requirement.

**HIST 207:** Chinese Civilization  
(3-0) Cr. 3.  
Origins, development, decline and transformation of China from earliest times to 1911. Meets International Perspectives Requirement.

**HIST 221:** Survey of United States History I  
(3-0) Cr. 3-5. F.  
Colonial foundations: revolution, confederation, and constitution; nationalism and democracy; sectional disunity, Civil War, and reunion.

**HIST 225:** Introduction to Asian American Studies  
(3-0) Cr. 3.  
An interdisciplinary and chronological examination of Asian American immigration experiences from the early 19th century to the 21st century. Focus on how these immigration histories are accompanied by changing racial constructions. Discussion of racial stereotyping, the model minority myth, identity development, and efforts for social justice. Meets U.S. Diversity Requirement

**HIST 280:** Introduction to History of Science I  
(3-0) Cr. 3.  
Ideas of nature from ancient Greece to the seventeenth-century scientific revolution. Meets International Perspectives Requirement.

**HORT 121:** Home Horticulture  
(2-0) Cr. 2. F.S.  
Growing plants in and around the home including requirements for growing house plants; plant propagation; designing and maintaining flower, fruit, and vegetable gardens; lawn, tree, and shrub maintenance.

**HORT 122:** Hands-On Home Horticulture  
(1-0) Cr. 1. F.S.  
Demonstration and activities that illustrate principles of growing plants for the home garden. Topics include floral and landscape design, plant identification, propagation, selection, and management for indoor and outdoor gardens.

**HSP M 101:** Introduction to the Hospitality Industry  
(3-0) Cr. 3. F.S.  
Introduction to the foodservice, lodging, and tourism components of the hospitality industry. Background information, current issues, and future challenges in various segments of the industry.
IE 148: Information Engineering
(2-2) Cr. 3. F.S.
Prereq: Credit or enrollment in MATH 143

JL MC 101: Mass Media and Society
(3-0) Cr. 3. F.S.SS.
Communication theory models and their application to the mass media; the mass communication process; organization, characteristics and responsibilities of the mass media; media literacy process.

JL MC 110: Orientation to Journalism and Communication
(1-0) Cr. 1. F.S. Alt. SS., offered irregularly.
Orientation to professional and pre-professional opportunities, writing for the mass media and curriculum requirements in the Greenlee School. Basic media writing preparation. Offered on a satisfactory-fail basis only.

KIN 252: Disciplines and Professions in Kinesiology and Health
(1-0) Cr. 1. F.S.
Overview of the various disciplines and professions that comprise the field of Kinesiology (the study of human movement) and help students determine the career option that best fits their interests.

KIN 253: Orientation and Learning Community in Kinesiology and Health
(1-0) Cr. 1. F.S.
Prereq: Concurrent enrollment or credit in KIN 252
Overview of ISU policies and procedures, academic advising operations, degree requirements, program of study planning, and campus resources. Students will have out-of-class activities and work with faculty, staff and mentors to explore careers in Kinesiology and complete assignments related to identification & development of their skills and interests. Department of Kinesiology students only. Offered on a satisfactory-fail basis only.

LAS 101: Orientation for Open Option and Preprofessional Students
(1-0) Cr. 1. F.
Introduction to all undergraduate colleges. Provides information about university resources and services, assists with a successful academic transition to the university, and helps initiate the process of identifying academic major(s) and eventual career paths. Required of all first-year students in Open Option and Preprofessional Programs. Offered on a satisfactory-fail basis only.

LATIN 101: Elementary Latin I
(4-0) Cr. 4. F.
Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.

LD ST 122: Leading with Purpose
(1-0) Cr. 1. F.S.
Designed for emerging student leaders. Basic leadership skills covering strengths identification, personal skills development, goal achievement, values-based behaviors and mission statement development.

LD ST 270: Campus Leadership Development
(3-0) Cr. 3. F.S.SS.
Theory and practice of effective leadership in a campus and community context. Study of effective leadership models and leadership in complex systems. Expectation of engagement in campus activities and community organizations. Assessed service-learning component.

LIB 160: Information Literacy
(1-0) Cr. 1. F.S.SS.
Prereq: For students whose native language is not English: Completion of ENGL 101 requirement.
Eight-week course required for undergraduate degree. Provides a solid understanding of information literacy and the research process with emphases on finding, evaluating, and using scholarly information; the ethical and legal framework related to information use; and utilization of library discovery tools. To be taken as early as possible in the student’s undergraduate career. See course descriptions of ENGL 150 and ENGL 250 for requirements related to LIB 160. Offered on a satisfactory-fail basis only.

LING 119: Introduction to World Languages
(Cross-listed with WLC). (3-0) Cr. 3.
Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and language use, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy. Meets International Perspectives Requirement.

LING 120: Computers and Language
(Cross-listed with ENGL). (3-0) Cr. 3.
Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.
ME 160: Mechanical Engineering Problem Solving with Computer Applications
(2-2) Cr. 3. F.S.
Prereq: M E majors only. MATH 142 or MATH 143 or MATH 145; credit or enrollment in MATH 165.
Introduction to the field of Mechanical Engineering through problem-solving in a range of topics including statics, mechanics of materials and thermo-fluids. Techniques to professionally present and communicate solutions. Use of MATLAB computer programming to aid problem solving, including curve fitting and graphing. Only one of M E 160, ENGR 160, Aer E 160, C E 160, CPR E 185, E E 185, S E 185 and I E 148 may count towards graduation.

ME 170: Engineering Graphics and Introductory Design
(2-2) Cr. 3. F.S.
Prereq: Satisfactory scores on mathematics placement assessments; credit or enrollment in MATH 142 or MATH 143 or MATH 145
Integration of fundamental graphics, computer modeling, and engineering design. Applications of multiview drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports. Freehand and computer methods.

MS 101: Introduction to Military Science
(1-0) Cr. 1. F.
Prereq: Concurrent enrollment in M S 101L required
Examines the role of a Cadet in the Army Reserve Officer Training Corps and a Lieutenant in the United States Army. The course explores a military culture whose ultimate success is determined by the character and proficiency of its leaders. Instruction introduces students to the cultural heritage and history of the U.S. Army. Students will begin to understand the structure of the U.S. Army and how it functions as an organization and institution. The curriculum promotes the development of students' communication skills to enhance their ability to transmit ideas. The class examines how the Army's cultural values drive the development of leadership in the Officer Corps. Hands-on activities enable students to gain insight on the skills and abilities required of cadets and officers interacting with civilians and soldiers.

MS 101L: Basic Leadership Laboratory I
(0-2) Cr. 1. F.
Prereq: Concurrent enrollment in M S 101 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. This concept provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Marching, rifle firing, and tactical patrolling; students gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

MS 150: Army Physical Readiness
(0-3) Cr. 1. Repeatable. F.S.
This lab is designed to use basic military skills and instruction to develop confidence, leadership, and physical fitness. The team approach is utilized in the instruction and application of Army physical fitness requirements. Students will learn various Army physical fitness techniques as well as how to conduct physical fitness sessions. Teaching locations include Lied Recreation Center, Beyer Hall, State Gym as well as around campus. Full participation in all events will be determined based on students physical and medical eligibility.

MATH 010: High School Algebra
(4-0) Cr. 0. F.S.
For students who do not have adequate facility with topics from high school algebra or do not meet the algebra admission requirement. The course is divided into tracks of one- and two-semester lengths. For most students a diagnostic exam will determine which track must be taken. Students will receive a grade in MATH 25 or MATH 30 respectively depending on the level of material covered. Satisfactory completion of MATH 30 is recommended for students planning to take MATH 140, MATH 143, MATH 145, MATH 150, or MATH 151, while MATH 25 is sufficient for MATH 104, MATH 105, MATH 195, STAT 101 or STAT 105. Students must complete MATH 30 to remove a deficiency in the algebra admission requirement. Topics include signed numbers, polynomials, rational and radical expressions, exponential and logarithmic expressions, and equations. Offered on a satisfactory-fail basis only.
MATH 101: Orientation in Mathematics  
(1-0) Cr. 1. F.S.  
For new majors. Campus resources and opportunities available to students. Careers and programs of study in mathematics. Mathematical reasoning, culture and resources. Description of main branches of mathematics. Offered on a satisfactory-fail basis only.

MATH 104: Introduction to Probability  
(3-0) Cr. 3. F.S.SS.  
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry  
Permutations, combinations, probability, expected value, and applications. Either MATH 104 or MATH 150 may be counted toward graduation, but not both.

MATH 105: Introduction to Mathematical Ideas  
(3-0) Cr. 3. F.S.SS.  
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry  
Introduction to contemporary mathematics with an emphasis on use of mathematics to solve real world problems. Typical topics are the mathematics of voting, methods of fair division and apportionment, and elementary game theory.

MATH 106: Discovering Mathematics  
(3-0) Cr. 3. F.S.  
Inquiry-based approach to mathematics, emphasizing the art, history, and beauty of the subject. Typical topics are mathematics from art, music, puzzles, patterns, and reasoning.

MATH 140: College Algebra  
(3-1) Cr. 3. F.S.SS.  
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry; or MATH 30.  
Coordinate geometry, quadratic and polynomial equations, functions, graphing, rational functions, exponential and logarithmic functions, inverse functions, quadratic inequalities, systems of linear equations. Prepares students for MATH 160. Students in the College of Liberal Arts and Sciences may not count MATH 140 toward the General Education Requirements.

MATH 143: Preparation for Calculus  
(4-0) Cr. 4. F.S.  
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry; or MATH 140.  
Preparation for MATH 160, MATH 165, and MATH 181. Functions, graphing, basic trigonometry, logarithms, exponentials. Emphasis on co-variational reasoning. Students in the College of Liberal Arts and Sciences may not count MATH 143 toward General Education Requirements. Only one of MATH 143 and MATH 145 may count toward graduation.

MATH 145: Applied Trigonometry  
(3-0) Cr. 3. F.S.  
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry; or minimum of C- in MATH 140.  
Mathematical ideas regarding the conception of space. General trigonometry, with an emphasis on the calculation of lengths, areas, and angles. The Law of Sines and the Law of Cosines. Polar, cylindrical, and spherical coordinate systems. Conic sections and quadric surfaces. Students in the College of Liberal Arts and Sciences may not count MATH 145 toward the General Education Requirements. Only one of MATH 143 and MATH 145 may count toward graduation.

MATH 150: Discrete Mathematics for Business and Social Sciences  
(2-1) Cr. 3. F.S.SS.  
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry  
Linear equations and inequalities, matrix algebra, linear programming, discrete probability. Either MATH 104 or MATH 150 may be counted toward graduation, but not both.

MATH 151: Calculus for Business and Social Sciences  
(2-1) Cr. 3. F.S.SS.  
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry  
Differential calculus, applications to max-min problems, integral calculus and applications. Will not serve as prerequisite for MATH 265 or MATH 266. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or MATH 181 may be counted towards graduation.
MATH 160: Survey of Calculus  
(4-0) Cr. 4. F.S.  
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of geometry, or minimum of C- in MATH 140; or minimum of C- in MATH 143  
Analytic geometry, derivatives and integrals of elementary functions, simple differential equations, and applications. Will not serve as a prerequisite for MATH 265 or MATH 266. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or MATH 181 may be counted towards graduation.

MATH 165: Calculus I  
(4-0) Cr. 4. F.S.S.  
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry; or minimum of C- in MATH 143  
Differential calculus, applications of the derivative, introduction to integral calculus. Only one of MATH 151 or MATH 160 or the sequence MATH 165-MATH 166, or MATH 181 may be counted towards graduation.

MATH 166: Calculus II  
(4-0) Cr. 4. F.S.S.  
Prereq: Minimum of C- in MATH 165 or high math placement scores  
Integral calculus, applications of the integral, infinite series, parametric curves and polar coordinates. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or MATH 181 may be counted towards graduation.

MATH 181: Calculus and Mathematical Modeling for the Life Sciences I  
(4-0) Cr. 4. F.S.  
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry, 1 semester of trigonometry; or minimum of C- in MATH 143  
Exponential and logarithm functions, difference equations, derivatives, and applications of the derivative. Examples taken from biology. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or MATH 181 may be counted towards graduation.

MATH 195: Mathematics for Elementary Education I  
(2-2) Cr. 3. F.S.  
Prereq: Satisfactory performance on placement assessment, 2 years high school algebra, 1 year of high school geometry, enrollment in elementary education or early childhood education  
Whole number operations through analysis of properties, theoretical and hands-on models, mathematical analysis of elementary students’ thinking; standard and non-standard algorithms; structure of the decimal system; linear measurement; two- and three-dimensional geometric shapes and spatial sense; number theory; algebra as it relates to elementary curricula/teaching profession. Students in the College of Liberal Arts and Sciences may not count MATH 195 toward General Education Requirements.

MATH 265: Calculus III  
(4-0) Cr. 4. F.S.S.  
Prereq: Minimum of C- in MATH 166 or MATH 166H  
Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus.

MATH 267: Elementary Differential Equations and Laplace Transforms  
(4-0) Cr. 4. F.S.S.  
Prereq: Minimum of C- in MATH 166 or MATH 166H  
Same as MATH 266 but also including Laplace transforms and power series solutions to ordinary differential equations.

MICRO 101: Microbial World  
(3-0) Cr. 3. F.  
Prereq: High school biology or equivalent  
Introduction to the importance of viruses, bacteria, fungi, archaea and parasites both to humans and to the biosphere. Topics include past and present microbial impact on humans and society, ecology and diversity of microbes, biotechnology and microbial impact on the biosphere.

MICRO 201: Introduction to Microbiology  
(2-0) Cr. 2. F.S.  
Prereq: One semester of college-level biology  
Selected topics in microbiology with emphasis on the relationship of microorganisms to human and animal health, agricultural technology, and the environment. With written petition to the chair of the supervisory committee, students who obtain a grade of B or better may substitute 201 for Micro 302 in advanced courses.

MICRO 201L: Introductory Microbiology Laboratory  
(0-3) Cr. 1. F.S.  
Prereq: Credit or enrollment in MICRO 201 or MICRO 302  
Basic microbiology laboratory techniques for non-microbiology majors. Credit for either Micro 201L or 302L, but not both, may be applied toward graduation.
MTEOR 107: Severe and Hazardous Weather
(2-0) Cr. 1. F.
Understanding of atmospheric processes that play a role in creating severe and hazardous weather. Focus on thunderstorms, tornadoes, hurricanes, floods, blizzards, ice storms, and temperature extremes. Impacts on lives and property.

MTEOR 206: Introduction to Weather and Climate
(Cross-listed with AGRON). (3-0) Cr. 3. F.S.
Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.

MUSIC 101: Fundamentals of Music
(1-2) Cr. 2. F.S.
Prereq: Ability to read elementary musical notation
Notation, recognition, execution and analysis of scales, intervals, triads, and rhythm; key signatures; time signatures; transposition. Open to non-majors only.

MUSIC 102: Introduction to Music Listening
(3-0) Cr. 3. F.S.SS.
Expansion of the music listening experiences for the general student through greater awareness of differences in techniques of listening, performance media, and materials of the art. The course focuses on the elements of music: rhythm, melody, harmony, form, and style, and how these elements are used in musics of different cultures and time periods. Ability to read or perform music not required.
Meets International Perspectives Requirement.

MUSIC 111: Wind Ensemble
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Emphasis on significant extended compositions for wind and percussion instruments. Performances include formal concerts on campus and the annual tour.

MUSIC 112: Concert Band
(0-2) Cr. 1. Repeatable. F.S.
Prereq: Open to all students who have performed on a wind or percussion instrument in high school band or orchestra
Repertoire includes the broad spectrum of band music. Two concerts are presented each semester.

MUSIC 113: Jazz Ensemble
(0-2) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Designed to explore various styles and trends in contemporary jazz.

MUSIC 114A: Marching and Pep Bands: Marching Band
(0-5) Cr. 1. Repeatable. F.
Membership determined by audition and band application. Auditions held for woodwind, brass, percussion, flag, and twirler positions. Presentation of pre-game and half time shows at each home football game; additional performances are also scheduled on and off campus. Audition information is listed on the band website (www.music.iastate.edu/org/marching). Students may not be concurrently enrolled in MUSIC 114A and 114C.

MUSIC 115: Symphonic Band
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Stresses high quality wind literature. Performances include formal concerts on campus.

MUSIC 118: Applied Music: Non-majors
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
Applied music for the general student.

MUSIC 141: Lyrica Women's Choir
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all female students by audition
Large chorus; emphasis on fundamental vocal and choral skills, wide variety of literature. Campus concerts each semester.

MUSIC 151A: Oratorio Chorus: Cantamus Women's Choir
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

MUSIC 151B: Oratorio Chorus: Statesmen Men's Choir
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

MUSIC 161: Iowa State Singers
(0-5) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Concert choir specializing in performance of advanced music literature, Renaissance through contemporary. Campus concerts, annual spring tour.
MUSIC 181: Symphony Orchestra  
(0-4) Cr. 1. Repeatable. F.S.  
Prereq: Open to all students by audition  
Reading, preparation, and performance of standard repertoire. Five or six concerts annually plus occasional off-campus appearances.

N S 111: Introduction to Naval Science  
(3-0) Cr. 3. F.  
Introduction to the organization, regulations, and capabilities of the US Navy, with emphasis on mission and principal warfare components.

NREM 120: Introduction to Renewable Resources  
(Cross-listed with AGRON, ENV S). (3-0) Cr. 3. F.S.  
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

PHIL 201: Introduction to Philosophy  
(3-0) Cr. 3. F.S.SS.  
It has been rumored that the unexamined life is not worth living. Philosophy is an attempt to begin examining life by considering such questions as: What makes us human? What is the world ultimately like? How should we relate to other people? Is there a god? How can we know anything about these questions? Understanding questions of this kind and proposed answers to them is what this course is all about.

PHIL 206: Introduction to Logic and Scientific Reasoning  
(3-0) Cr. 3. F.S.SS.  
Basic principles of critical reasoning and argument evaluation. A consideration of basic forms of argumentation in science and everyday life. Application to contemporary issues and controversies.

PHIL 207: Introduction to Symbolic Logic  
(Cross-listed with LING). (3-0) Cr. 3. S.  
Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Linguistics majors should take LING/PHIL 207 as early as possible.

PHIL 230: Moral Theory and Practice  
(3-0) Cr. 3. F.S.SS.  
Investigation of moral issues in the context of major ethical theories of value and obligation; e.g., punishment, abortion, economic justice, job discrimination, world hunger, and sexual morality. Emphasis on critical reasoning and argument analysis.

PHIL 235: Ethical Issues in A Diverse Society  
(3-0) Cr. 3. S.  
This course will examine a range of arguments on diversity issues. Topics will include: the social status of women, the moral status of sexuality and homosexuality, the nature and role of racism in contemporary society, the relationship between biology, gender roles and social status, and various proposals for change from a variety of political perspectives.  
Meets U.S. Diversity Requirement

PHYS 050: Preparation for Introductory Physics  
Cr. 0. F.S.  
Prereq: 1 year high school algebra  
An in-depth active learning experience designed to impart the fundamental concepts and principles of physics, with an emphasis on applied mathematical techniques and logical thinking. For students intending to enroll in classical physics (PHYS 221/222) who have not taken high school physics, who have not had a high school college preparatory physics course, or who need a review of physics problem solving and physics concepts. Credit for Phys 50 does not count toward graduation.

PHYS 101: Physics for the Nonscientist  
(3-0) Cr. 3. F.  
Survey of the principal areas of both classical and modern physics. Emphasis on the nature of the physical universe and the application of physical principles to life in the modern world. Not suitable to meet a general physics requirement for natural science majors.

PHYS 111: General Physics  
(4-2) Cr. 5. F.S.SS.  
Prereq: 1 1/2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry  
General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Mechanics, fluids, heat and thermodynamics, vibrations, sound.

PHYS 112: General Physics  
(4-2) Cr. 5. F.S.SS.  
Prereq: PHYS 111  
General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Electricity and magnetism, ray and wave optics, topics in modern physics.

PHYS 115: Physics for the Life Sciences  
(4-0) Cr. 4. F.S.  
Prereq: high school: 1 1/2 yr. algebra, 1 yr. geometry, 1 semester trigonometry  
Emphasis on basic physics principles applied to biological problems. Topics include mechanics, fluids, thermodynamics, heat, light, sound, electricity and magnetism. A coordinated laboratory, Physics 115 laboratory is available.
PHYS 198: Physics of Music  
(2-2) Cr. 3. F.  
Introductory level course on sound for nonphysics majors. Properties of pure tones and harmonics; human perception of sound; room acoustics; scales; production, and analysis of musical by voice, string, woodwind, brass, and percussion instruments. Not suitable to meet a general physics requirement for natural science majors.

PHYS 221: Introduction to Classical Physics I  
(4.5-1) Cr. 5. F.S.SS.  
Prereq: Proficiency in algebra, trigonometry, vector manipulation, and topics covered in Math 165, and credit or enrollment in MATH 166.  
For engineering and science majors. 3 hours of lecture each week plus 3 recitations and 1 laboratory every 2 weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound.

PHYS 222: Introduction to Classical Physics II  
(4-2) Cr. 5. F.S.SS.  
Prereq: PHYS 221 OR PHYS 241, MATH 166  
3 hours of lecture each week plus 1 recitation and 1 laboratory each week. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields: LR, LC, LCR circuits; Maxwell's equations; ray optics and image formation; wave optics; topics in modern physics.

POL S 215: Introduction to American Government  
(3-0) Cr. 3. F.S.SS.  
Fundamentals of American democracy; constitutionalism; federalism; rights and duties of citizens; executive, legislative, and judicial branches of government; elections, public opinion, interest groups, and political parties.

POL S 241: Introduction to Comparative Government and Politics  
(3-0) Cr. 3. F.S.  
Interactions between governments and citizens in countries outside the US. Causes of democracy, dictatorship, and economic and social development.  
Meets International Perspectives Requirement.

POL S 251: Introduction to International Politics  
(3-0) Cr. 3. F.S.  
Dynamics of interstate relations pertaining to nationalism, the nation state; peace and war; foreign policy making; the national interest; military capability and strategy; case studies of transnational issues, such as population, food, energy, and terrorism.  
Meets International Perspectives Requirement.

PSYCH 101: Introduction to Psychology  
(3-0) Cr. 3. F.S.SS.  
Fundamental psychological concepts derived from the application of the scientific method to the study of behavior and mental processes. Applications of psychology.

PSYCH 102: Laboratory in Introductory Psychology  
(0-2) Cr. 1. F.S.  
Prereq: Credit or enrollment in PSYCH 101  
Laboratory to accompany 101.

PSYCH 111: Orientation to Psychology  
Cr. 0.5. F.S.  
Program requirements and degree/career options. Required of psychology majors. Offered on a satisfactory-fail basis only.

PSYCH 131: Academic Learning Skills  
(0-2) Cr. 1. F.S.  
Evidence-based approach to learning and applying academic skills such as time management, note-taking, reading, test preparation, goal setting and motivation, and well-being. Hybrid course structured in a team-based learning format. Offered on a satisfactory-fail basis only.

PSYCH 230: Developmental Psychology  
(3-0) Cr. 3. F.S.SS.  
Life-span development of physical traits, cognition, intelligence, language, social and emotional behavior, personality, and adjustment.

PSYCH 250: Psychology of the Workplace  
(3-0) Cr. 3.  
Survey of theories and research methods of psychology applied to the workplace. Consideration of employee selection, training, performance evaluation, leadership, work groups, employee motivation, job attitudes and behaviors, organizational culture, organizational development, human factors, and job design from the scientist-practitioner approach.

PSYCH 280: Social Psychology  
(3-0) Cr. 3. F.S.SS.  
Individual human behavior in social contexts. Emphasis on social judgments and decisions, attitudes, perceptions of others, social influence, aggression, stereotypes, and helping.

RELIG 205: Introduction to World Religions  
(3-0) Cr. 3. F.S.SS.  
An introduction to the academic study of religions, including myths, beliefs, rituals, values, social forms. Examples chosen from oral cultures and major religions of the world.  
Meets International Perspectives Requirement.
**RELIG 210: Religion in America**  
(3-0) Cr. 3. F.S.S.S.  
Introductory study of the major beliefs, practices, and institutions of American Judaism, Catholicism, Protestantism, and Islam with emphasis on the diversity of religion in America, and attention to issues of gender, race, and class.  
Meets U.S. Diversity Requirement

**RELIG 220: Introduction to the Bible**  
(3-0) Cr. 3. F.S.  
Basic overview of the contents of the Old and New Testament in light of their ancient socio-historical background, and with attention to a variety of interpretations and relevance to modern American society.

**RELIG 280: Introduction to Catholicism**  
(3-0) Cr. 3. F.  
An explanation of the beliefs, spirit, and practices of Roman Catholicism, including its understanding of God, sacramentality, the human person, and community, and its relationship to other forms of Christianity and other world religions.

**RUS 101: Elementary Russian I**  
(4-0) Cr. 4. F.  
Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture.

**RUS 201: Intermediate Russian I**  
(4-0) Cr. 4. F.  
Prereq: RUS 102  
Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills.  
Meets International Perspectives Requirement.

**S E 101: Software Engineering Orientation**  
Cr. R.  
Introduction to the procedures, policies, and resources of Iowa State University and the department of Computer Science and Electrical and Computer Engineering. Information on engineering and computer-based professions.

**SOC 134: Introduction to Sociology**  
(3-0) Cr. 3. F.S.S.S.  
Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities.  
Analysis of relationships among the institutions of family, religion, political participation, work, and leisure.

**SOC 219: Sociology of Intimate Relationships**  
(3-0) Cr. 3. F.S.S.S.  
Prereq: SOC 134  
Analysis of intimate relationships among couples using a sociological perspective. Attention is given to singleness; dating and courtship; sexuality; mate selection, cohabitation, and marriage. Relationship quality, communication, conflict and dissolution of these types of relationship will also be explored.

**SOC 235: Social Problems and American Values**  
(3-0) Cr. 3. F.S.  
Prereq: SOC 134  
Sociological concepts, theories and methods to analyze the causes and consequences of social problems. Social problems discussed may include crime, substance abuse, income inequalities, discrimination, poverty, race relations, health care, family issues, and the environment.  
How American culture and values shape societal conditions, public discourse and policy.  
Meets U.S. Diversity Requirement

**SOC 241: Youth and Crime**  
(Cross-listed with CJ ST). (3-0) Cr. 3. F.  
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents’ rights, and traditional and alternative ways of dealing with juvenile crime.

**SP CM 110: Listening**  
(3-0) Cr. 3. F.S.  
Theory, principles, and competency development in comprehensive, therapeutic, critical, consumer, and appreciative listening. The impact of listening in relationships and partnerships.

**SP CM 212: Fundamentals of Public Speaking**  
(3-0) Cr. 3. F.S.S.S.  
Theory and practice of basic speech communication principles applied to public speaking. Practice in the preparation and delivery of extemporaneous speeches.
SP CM 216: America Speaks: Great Speakers and Speeches in US History
Cr. 3.
Survey of great speeches examined within their political and cultural contexts. Analysis of the rhetorical strategies of diverse speakers with an emphasis on texts from social movements in the United States.
Meets U.S. Diversity Requirement

SP CM 275: Analysis of Popular Culture Texts
(Cross-listed with ENGL). (3-0) Cr. 3. F.S.
Prereq: Credit in or equivalent of 250
Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

SP ED 250: Education of the Exceptional Learner in a Diverse Society
(3-0) Cr. 3. F.S.
Prereq: CI 204 or CI 205
An overview of students with diverse learning needs, including students with disabilities, English Learners, students who are at risk, and gifted learners. Emphasis is on early identification; educational programming and implications; and legal foundations.
Meets U.S. Diversity Requirement

SPAN 101: Elementary Spanish I
(4-0) Cr. 4. F.S.S.
A communicative approach to grammar and vocabulary within the context of Hispanic culture. For students whose native language is not Spanish.

SPAN 201: Intermediate Spanish I
(4-0) Cr. 4. F.
Prereq: SPAN 102 or placement by departmental exam
Intensive review of basic grammar and conversation. For students whose native language is not Spanish. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature.
Meets International Perspectives Requirement.

SPAN 297: Intensive Intermediate Spanish
(4-0) Cr. 4. F.S.
Prereq: 4 years of high school Spanish, two years of Spanish at a community college, Spanish 201, or equivalent by placement
Bridge course between 200- and 300-level Spanish courses that focuses on application of advanced grammatical concepts within the context of Hispanic culture. Accelerated review of SPAN 201 and SPAN 202 designed for students who want to continue at the 300 level. Taught in Spanish for students whose native language is not Spanish.
Meets International Perspectives Requirement.

STAT 101: Principles of Statistics
(3-2) Cr. 4. F.S.S.
Prereq: 1 1/2 years of high school algebra
Statistical concepts in modern society; descriptive statistics and graphical displays of data; the normal distribution; data collection (sampling and designing experiments); elementary probability; elements of statistical inference; estimation and hypothesis testing; linear regression and correlation; contingency tables. Credit for only one of the following courses may be applied toward graduation: STAT 101, STAT 104, STAT 105, STAT 201, or STAT 226.

STAT 104: Introduction to Statistics
(2-2) Cr. 3. F.S.S.
Prereq: 1 1/2 years of high school algebra
Statistical concepts and their use in science; collecting, organizing and drawing conclusions from data; elementary probability; binomial and normal distributions; regression; estimation and hypothesis testing. For students in the agricultural and biological sciences. Credit for only one of the following courses may be applied toward graduation: STAT 101, STAT 104, STAT 105, STAT 201, or STAT 226.

STAT 105: Introduction to Statistics for Engineers
(3-0) Cr. 3. F.S.S.
Prereq: MATH 165
Statistical concepts with emphasis on engineering applications. Data collection; descriptive statistics; probability distributions and their properties; elements of statistical inference; regression; statistical quality control charts; use of statistical software. Credit for only one of the following courses may be applied toward graduation: STAT 101, STAT 104, STAT 105, STAT 201, or STAT 226. Credit for both STAT 105 and STAT 305 may not be applied for graduation.

THTRE 106: Introduction to the Performing Arts
(3-0) Cr. 3. F.S.S.
An audience oriented, broad-based, team-taught survey of the performing arts which emphasizes theatre and includes segments on television, radio, film, dance, and music.

THTRE 110: Theatre and Society
(3-0) Cr. 3. F.S.
An introduction to Theatre focusing on its relationship with society throughout history.

THTRE 251: Acting I
(3-0) Cr. 3. F.S.
Theory and practice in fundamentals of acting.
TSM 115: Solving Technology Problems
(2-2) Cr. 3. F.S.
Prereq: Credit or enrollment for credit in MATH 140 or higher
Solving technology problems and presenting solutions through data
analysis and technical report writing. Problem solving cycle, unit
conversion, unit factor method, SI units, significant digits, graphing,
curve fitting and computer programming. Use of modern hardware and
software tools for applied data-driven problem solving.

TSM 116: Introduction to Design in Technology
(2-2) Cr. 3. F.S.
Use of parametric solid modeling software to create three dimensional
solid models and document parts and assemblies. Includes national
and international standards for documentation, design projects, and
teamwork. Rapid prototyping design creation, 3D printing, assemblies,
rendering, and detailing technical drawings.

UST 104: Personal Career Development
(2-0) Cr. 2. F.S.
Comprehensive approach to personal career development providing
students with the skills and structure to make informed choices about
their major and career path. Self-exploration of interests, skills, values,
and personality as related to the world of work using a variety of
techniques; exploration of majors and occupations; model for major and
career decision-making and career goal implementation; exposure to
effective job search and interviewing skills and resources.

US LS 211: Introduction to U.S. Latino/a Studies
(3-0) Cr. 3. F.S.
History and current lives of the Latino/a peoples in the United States,
including Mexican, Cuban, Puerto Rican, Dominican, and South and
Central Americans, as well as information specific to Iowa Latino/as, will
be covered. Through readings, class discussions, writing assignments,
and guest speakers, students will acquire accurate information and
a solid understanding of the US Latino/a population and cultural
perspectives. Elements of Latino/a culture to be covered include
historical, sociological, educational, psychological, economic, and
political facets.
Meets U.S. Diversity Requirement

WGS 160: Gender Justice
(2-0) Cr. 1. F.S.
Half semester course. Examines the socialization process in the
United States and how our perspectives are formed. An introduction to
patriarchy, sexism, and ally development are explored. Skills to enhance
communication and understanding among women and men will be
developed. Offered on a satisfactory-fail basis only.
Meets U.S. Diversity Requirement

WGS 201: Introduction to Women's and Gender Studies
(3-0) Cr. 3.
Introduction to the interdisciplinary field of Women's and Gender Studies.
Contemporary status of women in the U.S. and worldwide from social,
economic, historical, political, philosophical and literary perspectives.
Analysis of intersection of gender, race, class, and sexuality. Subject
matter includes work, health, sexuality, and violence. Foundation for the
other courses in the program.
Meets U.S. Diversity Requirement

WLC 278: Introduction to Global Film
(3-0) Cr. 3. F.
Introduction to the cinema of non-English speaking regions and cultures
of the world through representative subtitled films, lectures, and readings.
Topics vary according to faculty interest. Emphasis on selected national
cinemas and film as a mode of cultural expression as well as on diverse
cultural contexts of cinema.
Meets International Perspectives Requirement.

The following experimental courses (courses that are new and not yet
published in the catalog) are also available:

AGRON 106X. Global Agriculture in a Changing World. (3-0) Cr. 3. F.
Understanding climate and its effects on global distribution of food and
water resources. The nature of climate and its variability in space and
time. Use of satellites and related technology to monitor agricultural
production, water availability and climate. Influence of climate and
climate change on drought famine and other disruptions of essential
resources.

AM IN 201X. Native People in American Culture. (3-0) Cr. 3. F.S.SS.
Perceptions and the realities of Native people living in and responding
to American society and culture. Topics include representations,
contemporary native identity, literature, the arts, history, film, and issues
of diversity.

CRP 251X. Fundamentals of Geographic Information Systems. (3-0) Cr.
3. F. Fundamentals of the concepts, models, functions and operations of
Geographic Information Systems (GIS). Principals of spatial problems,
spatial questions and hypotheses and their solutions based on spatial
data, GIS tools and techniques. Integration of concepts and applications
through lectures and facilitated labs. Applications from a variety of areas
including design; physical, social, and human science; engineering;
agriculture; business and medicine, landscape architecture, architecture,
urban planning, geology, forestry, biology, and ecology.

ENT 214X. Insects in Forensic Science. (3-0) Cr. 3. F. Introduction to
the use of insects as evidence in court and how they can assist in
solving crimes. Topics covered include basic insect biology, systematics,
behavior, with emphasis on applications of forensic entomology.
**ENT 220X. Introduction to Forensic Science.** (3-0) Cr. 3 F. Study of fundamental forensic science techniques and procedures covering types of physical, chemical, and biological evidence and how this information is used in the legal system. Assessment of crime scenes and various forensic specialties will be introduced.

**IND D 101X. Everyday Creativity.** (3-0) Cr. 3 F. Conceptual and contextual foundation for understanding the creative impulse and the processes of creative work, drawing examples from multiple cultures, disciplines, and historical periods. Students will recognize the inherent creativity in themselves and others, identify characteristics of a creative person that relate to themselves, develop creative problem solving skills using the basic elements of the creative process, examine qualities of a creative environment in real world settings, and evaluate ideas from critical perspectives.

**Credits**
The academic value of each course is stated in semester credits. Each credit is normally earned by attending one (50-minute) hour of lecture or recitation per week for the entire semester, or by attending a laboratory or studio period of two or three hours per week. As a guideline, undergraduate students typically will be expected to spend two hours in preparation outside of class for each lecture or recitation hour; additional outside work may be required for laboratory or studio classes.

**Contact Hours**
Each course states the number of semester credits assigned to the course, preceded in parentheses by the number of hours in class (contact hours) expected of the student. The first of the two contact-hour numbers indicates the number of lecture or recitation class hours per week for the semester. The second is the number of laboratory or studio hours required per week. Laboratory and studio hours may include some time devoted to lectures and recitations. For example, COM S 227 Introduction to Object-oriented Programming is listed as (3-2) Cr. 4. In that case, the course is 4 semester credits, 3 hours of lecture and two hours of laboratory each week.

**Semester Offering**
The expected term a course is to be offered is indicated by the abbreviations F (Fall) S (Spring) SS (Summer). The notations are for planning purposes and do not guarantee a course will be offered in a particular term. Always check the Schedule of Classes (http://classes.iastate.edu) for availability and specific offering times.
A-Z COURSES

A
• Accounting (ACCT)
• Advertising (ADVRT)
• Aerospace Engineering (AER E)
• African American Studies (AF AM)
• Agricultural and Biosystems Engineering (A B E)
• Agricultural Education and Studies (AGEDS)
• Agronomy (AGRON)
• Air Force Aerospace Studies (AFAS)
• American Indian Studies (AM IN)
• American Sign Language (ASL)
• Animal Ecology (A ECL)
• Animal Science (AN S)
• Anthropology (ANTHR)
• Apparel, Events, and Hospitality Management (AESHM)
• Apparel, Merchandising and Design (A M D)
• Arabic (ARABC)
• Architecture (ARCH)
• Art Education (ARTED)

• Psychology (PSYCH)
• Public Relations (P R)
Courses primarily for undergraduates:

**ACCT 215: Legal Environment of Business**  
(3-0) Cr. 3. F.S.SS.  
*Prereq: Sophomore classification*  
General history, structure, and principles of the US legal system. The legal system, as an agency of social control and tool for resolving disputes. The court systems, Constitution, torts, crimes, intellectual property, contracts, property rights, employment law, basic business entity law, bankruptcy, administrative agencies, environmental law and agency law.

**ACCT 284: Financial Accounting**  
(3-0) Cr. 3. F.S.SS.  
Introduction to the basic concepts and procedures of financial accounting from a user perspective. The course examines the accounting cycle, business terminology, basic control procedures, and the preparation and evaluation of financial reports, with an emphasis on financial statement analysis.

**ACCT 285: Managerial Accounting**  
(3-0) Cr. 3. F.S.SS.  
*Prereq: ACCT 284*  
Understanding of fixed and variable costs and their role in planning, control and performance evaluation. Examination of alternative costing methods. Making decisions by identifying and developing relevant information. Development of spreadsheet skills.

**ACCT 301: The Accounting Cycle**  
(1-0) Cr. 1. F.S.SS.  
*Prereq: ACCT 284*  
Interactive computer-based analysis of the accounting cycle including transactions and financial statements. Preparation of journal entries and adjusting entries and completion of the closing process.

**ACCT 316: Business Law**  
(3-0) Cr. 3. F.S.  
*Prereq: ACCT 215*  
Continuation of 215. The Uniform Commercial Code as applied to sales contracts and negotiable instruments. Property law, wills and estates, insurance, secured transactions, corporation law, partnership law and antitrust law.
ACCT 383: Intermediate Managerial Accounting  
(3-0) Cr. 3. F.S.  
Prereq: ACCT 285 or ACCT 501; and ACCT 301  
Generation, communication and use of information to assist management with planning, control, and decision making in manufacturing and service organizations. Includes cost concepts and relevance to decision situations, operational and capital budgeting, and performance evaluation. Emphasis on developing effective teamwork skills as well as spreadsheet capabilities.

ACCT 384: Accounting Information Systems  
(3-0) Cr. 3.  
Prereq: ACCT 285 or ACCT 501; ACCT 301 and MIS 301  
Concepts and procedures underlying creating, sharing, reporting, storing, and analyzing accounting data. Information technology internal controls and audit techniques. Trends in accounting information systems.

ACCT 386: Intermediate Accounting I  
(3-0) Cr. 3. F.S.  
Prereq: ACCT 284 and ACCT 301  
The conceptual framework of financial accounting. Communication of financial information on the income and retained earnings statements, statement of cash flows, and the balance sheet. Accounting concepts relating to current and operational assets of the firm.

ACCT 387: Intermediate Accounting II  
(3-0) Cr. 3. F.S.  
Prereq: Minimum of C- in ACCT 386  

ACCT 483: Application and Communication in Managerial Accounting  
(Dual-listed with ACCT 583). Cr. 3.  
Prereq: ACCT 383 or ACCT 581  
Business simulation focusing on generation and communication of information to assist management with financial decision-making. Emphasis on developing teamwork, written communication, and oral presentation skills.

ACCT 484: Advanced Accounting Information Systems  
(Dual-listed with ACCT 584). (3-0) Cr. 3.  
Prereq: ACCT 384  
Advanced accounting information systems concepts; database design and information retrieval, internal controls within computerized accounting information systems, financial reporting in an electronic environment.

ACCT 485: Principles of Federal Income Tax  
(3-0) Cr. 3. F.S.  
Prereq: Minimum of C- in ACCT 386 or ACCT 501  
Introduction to the fundamentals of federal income taxation and concepts applicable to all tax entities. Addresses issues related to the measurement and recognition of income, deductions, gains, and losses, taxation of property transactions, and basis / cost recovery concepts. Includes coverage of tax law policy objectives, tax implications of business and investment decisions, tax versus financial reporting. treatment of common business transactions, and ethical issues related to tax compliance and planning.

ACCT 487: Volunteer Income Tax Assistance  
(Dual-listed with ACCT 587). (0-2) Cr. 1. Repeatable, maximum of 3 credits. S.  
Prereq: ACCT 285 or ACCT 501  
Introduction to and field work in the preparation of individual income tax returns (state and federal). Basic coverage of filing and residency status, taxable income, exemptions, deductions, and credits. Tax software usage and online filing.

ACCT 488: Governmental and Non-profit Institution Accounting  
(Dual-listed with ACCT 588). (3-0) Cr. 3.  
Prereq: ACCT 386  
Accounting and financial reporting principles of local and state governments, including universities, schools, and hospitals. In addition, accounting and financial reporting of non-profit organizations will be addressed. Financial statements of local governmental units and the university are explored.

ACCT 489: Corporate Social Responsibility Reporting  
(Dual-listed with ACCT 589). (3-0) Cr. 3. S.  
Prereq: ACCT 386 or ACCT 501  
Theory and practice of social and environmental reporting, the role of the corporation in society, and the mechanisms by which society might hold corporations accountable for their actions.

ACCT 490: Independent Study  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: ACCT 285, senior classification, permission of instructor

ACCT 495: Advanced Accounting Problems  
(Dual-listed with ACCT 595). (3-0) Cr. 3.  
Prereq: ACCT 387  
Accounting for business combinations and affiliated companies, intercompany transactions, and consolidated financial statements; Partnership accounting; Segment and Interim Reporting; Multinational accounting.
ACCT 496: Accounting in the Global Economy  
(Dual-listed with ACCT 596). (3-0) Cr. 3.  
*Prereq: ACCT 386 or ACCT 501*  
Financial reporting issues in a global environment, including introduction to International Financial Reporting Standards (IFRS) and the potential for the use of IFRS in the U.S. Accounting and managerial issues faced by multinational corporations. Technical issues such as transfer pricing, inflation accounting and taxation will be discussed.

ACCT 497: Introduction to Auditing  
(3-0) Cr. 3. F.S.  
*Prereq: ACCT 384, ACCT 387 and STAT 326*  
The conceptual framework of auditing. Professional ethics. External reporting concepts. Audit methodology including risk analysis, internal control, procedures for gathering evidence and the role of statistical sampling in auditing.

ACCT 498: Capstone in Accounting  
(2-0) Cr. 2. F.  
*Prereq: ACCT 383, ACCT 384, ACCT 387, credit or enrollment in ACCT 485.*  
Integrative studies in accounting. Development of critical thinking, ethical reasoning, professional research and teamwork skills. Written, visual, and oral communication with corporate stakeholders.

Courses primarily for graduate students, open to qualified undergraduates:

ACCT 501: Financial Accounting  
(3-0) Cr. 3.  
*Prereq: Enrollment in MBA program or departmental permission*  
A general introduction to financial accounting information. Topics covered include the use and analysis of financial information, the regulatory environment, the role of International Financial Reporting Standards (IFRS), and the use of the internet and electronic spreadsheets as a means of accessing and analyzing financial data.

ACCT 581: Accounting for Decision Making  
(3-0) Cr. 3.  
*Prereq: ACCT 501 or equivalent*  

ACCT 582: Corporate Governance and Top Management  
(Cross-listed with MGMT). (3-0) Cr. 3.  
*Prereq: MGMT 503 or permission*  
Duties, structure, and functioning of top management teams and corporate boards of directors. CEO/board tenure and succession planning, top management compensation, board committee composition, assessment of CEO and board performance, theories of corporate governance, management of the corporate strategic agenda, governance codes, international governance, and chairman/CEO duality. Case studies and contemporary issues discussed.

ACCT 583: Application and Communication in Managerial Accounting  
(Dual-listed with ACCT 483). Cr. 3.  
*Prereq: ACCT 383 or ACCT 581*  
Business simulation focusing on generation and communication of information to assist management with financial decision-making. Emphasis on developing teamwork, written communication, and oral presentation skills.

ACCT 584: Advanced Accounting Information Systems  
(Dual-listed with ACCT 484). (3-0) Cr. 3.  
*Prereq: ACCT 384*  
Advanced accounting information systems concepts; database design and information retrieval, internal controls within computerized accounting information systems, financial reporting in an electronic environment.

ACCT 585: Taxes and Business Strategy  
(3-0) Cr. 3.  
*Prereq: ACCT 485*  
Integration of concepts from accounting, finance, and economics to determine how taxes affect business decisions. Provides students with a conceptual framework for thinking about business tax planning and applies it to various common business decisions.

ACCT 586: Advanced Federal Taxation  
(3-0) Cr. 3.  
*Prereq: ACCT 485*  
Advanced coverage of federal taxation including issues related to the taxation of corporations, partnerships, estates and trusts, and their owners. Includes coverage of rules, concepts, background, and planning opportunities related to a number of common transactions involving these entities.
ACCT 587: Volunteer Income Tax Assistance
(Dual-listed with ACCT 487). (0-2) Cr. 1. Repeatable, maximum of 3 credits. S.
Prereq: ACCT 285 or ACCT 501
Introduction to and field work in the preparation of individual income tax returns (state and federal). Basic coverage of filing and residency status, taxable income, exemptions, deductions, and credits. Tax software usage and online filing.

ACCT 588: Governmental and Non-profit Institution Accounting
(Dual-listed with ACCT 488). (3-0) Cr. 3.
Prereq: ACCT 386
Accounting and financial reporting principles of local and state governments, including universities, schools, and hospitals. In addition, accounting and financial reporting of non-profit organizations will be addressed. Financial statements of local governmental units and the university are explored.

ACCT 589: Corporate Social Responsibility Reporting
(Dual-listed with ACCT 489). (3-0) Cr. 3. S.
Prereq: ACCT 386 or ACCT 501
Theory and practice of social and environmental reporting, the role of the corporation in society, and the mechanisms by which society might hold corporations accountable for their actions.

ACCT 590: Special Topics
Cr. 1-3. Repeatable. F.S.S.
Prereq: Permission of instructor
For students wishing to do individual research in a particular area of accounting.

ACCT 591: Fraud Examination and Prevention
(3-0) Cr. 3.
Prereq: ACCT 497 or ACCT 501
Principles and methodology of fraud detection and deterrence. Addresses the causes and elements of fraud, asset theft, corruption, financial statement mis-representation, internal controls for fraud prevention, investigative evidence gathering, and legal aspects of fraud.

ACCT 592: Financial Statement Analysis
(3-0) Cr. 3.
Prereq: ACCT 284 or ACCT 501
Presentation and analysis of financial statement information from the point of view of the primary users of such data: owners and creditors. Topics include the financial reporting system, the primary financial statements, effects of accounting method choice on reported financial data, and firm valuation.

ACCT 594: Business Valuation
(3-0) Cr. 3.
Prereq: ACCT 387 or ACCT 592
Using financial statement analysis to value the firm. Topics covered include assessing how well a firm’s financial statements reflect the economic effects of its resource management strategies and constructing pro forma financial information that will serve as inputs to valuation models.

ACCT 595: Advanced Accounting Problems
(Dual-listed with ACCT 495). (3-0) Cr. 3.
Prereq: ACCT 387
Accounting for business combinations and affiliated companies, intercompany transactions, and consolidated financial statements; Partnership accounting; Segment and Interim Reporting; Multinational accounting.

ACCT 596: Accounting in the Global Economy
(Dual-listed with ACCT 496). (3-0) Cr. 3.
Prereq: ACCT 386 or ACCT 501
Financial reporting issues in a global environment, including introduction to International Financial Reporting Standards (IFRS) and the potential for the use of IFRS in the U.S. Accounting and managerial issues faced by multinational corporations. Technical issues such as transfer pricing, inflation accounting and taxation will be discussed.

ACCT 597: Advanced Auditing and Assurance Services
(3-0) Cr. 3.
Prereq: ACCT 497
A study of advanced auditing and assurance issues. Topics include risk analysis, internal control, fraud detection, analytical procedures, evaluating operational and strategic objectives, and reporting and implementing audit findings.

(3-0) Cr. 3. F.
Prereq: ACCT 386 or ACCT 501

ACCT 599: Creative Component
Cr. 2.
Prereq: Admission to the Master of Accounting Program
This course prepares students to complete their creative component project option in the Master of Accounting degree.

Advertising (ADVRT)
Courses primarily for undergraduates:

**ADVRT 230: Advertising Principles**  
(3-0) Cr. 3.  
Historical, social, economic and legal aspects of advertising. Evaluations of advertising research, media, strategy and appeals. Study of the creation of advertising.

**ADVRT 301: Research and Strategic Planning for Advertising and Public Relations**  
(Cross-listed with P R). (3-0) Cr. 3.  
Prereq: ADVRT 230 or P R 220  
The use of primary and secondary research for situations, organizations and the public. Formation and development of strategic plans for public relations and advertising students.

**ADVRT 334: Advertising Creativity**  
(2-2) Cr. 3.  
Prereq: JL MC 110; Minimum of C+ in JL MC 201; ADVRT 301/P R 301  
Development and execution of creative advertising materials. Copywriting, art direction and computer applications. Creative strategy development, execution and evaluation.

**ADVRT 335: Advertising Media Planning**  
(3-0) Cr. 3.  
Prereq: ADVRT/P R 301  
Concepts of media planning and selection in the development, execution and evaluation of advertising campaigns. Characteristics and capabilities of the advertising media. Utilization of market segmentation, consumer buying and media audience databases.

**ADVRT 336: Advertising Account Management**  
(3-0) Cr. 3.  
Prereq: JL MC 110; Minimum of C+ in JL MC 201; ADVRT/P R 301  
Fundamentals of account management with emphasis on leadership, sales techniques, relationship building, presentation skills, and strategic thinking. Includes aspects of agency communications, team building, client management, evaluating creative concepts and media plans, and developing strategic proposals and campaign recommendations.

**ADVRT 390: Professional Skills Development**  
(Cross-listed with JL MC, P R). Cr. 1-3. Repeatable, maximum of 6 credits. F.S.  
Prereq: Minimum of C+ in JL MC 201; other vary by topic. Instructor permission for non-majors.  
Check with Greenlee School for course availability.

**ADVRT 434: Advertising Campaigns**  
(3-0) Cr. 3. F.S.  
Prereq: Minimum of C+ in ADVRT 334 or ADVRT 336, and major status  
Development of advertising campaigns for business and social institutions. Projects involve budgeting, media selection, market analysis, campaign strategy and creative execution.

**ADVRT 435: Advertising Competition**  
Prereq: Permission of instructor, Junior/senior standing strongly recommended  
Preparation of materials for regional and national competitions.

**ADVRT 436: Advertising Portfolio Practicum**  
(2-2) Cr. 3. S.  
Prereq: Minimum of C+ in ADVRT 334, non-majors with instructor permission  
Advanced advertising writing and design. Emphasis on creative strategy, problem solving and execution of creative materials in print, broadcast and online media for a variety of clients.

**ADVRT 490: Independent Study in Communication**  
Cr. arr.  
Prereq: Junior classification and contract with supervising professor to register  
Projects during which students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a reportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. No more than 3 credits of ADVRT/JLMC/PR 490 may be used toward a degree in the Greenlee School.

**ADVRT 497: Special Topics in Communication**  
Prereq: Junior classification. See Schedule of Classes for possible pre-requisites.  
Seminars or one-time classes on topics of relevance to students in communication.

**ADVRT 499: Professional Media Internship**  
Cr. 1-3. F.S.SS.  
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 202 or JL MC 206 or P R 321; ADVRT majors: JL MC 110 and minimum of C+ in JL MC 201 and ADVRT 301; P R majors: JLMC 110, PR 301 and minimum of C+ in P R 321. All students, formal faculty adviser approval.  
Required of all Greenlee School majors. A 400-hour (for 3 credits) internship in the student's journalism and mass communication or advertising or public relations specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.
ADVRT 499A: Professional Media Internship: Required
Cr. 3. F.S.S.
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 302 or JL MC 306; ADVRT majors: JLMC 110 and minimum of C+ in JL MC 201 and ADVRT 301; PR majors: JLMC 110, PR 301 and minimum of C+ in PR 321. All students, formal faculty adviser approval.
Initial, required internship. A 400-hour (for 3 credits) internship in the student's specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

ADVRT 499B: Professional Media Internship: Optional
Cr. 1-3. F.S.S.
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 302 or JL MC 306; ADVRT majors: JLMC 110 and minimum of C+ in JL MC 201 and ADVRT 301; PR majors: JLMC 110, PR 301 and minimum of C+ in PR 321. All students, formal faculty adviser approval.
Optional internship in the student's specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

Aerospace Engineering (AER E)

Courses primarily for undergraduates:

AER E 160: Aerospace Engineering Problems With Computer Applications Laboratory
(2-2) Cr. 3. F.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

AER E 160H: Aerospace Engineering Problems With Computer Applications Laboratory: Honors
(2-2) Cr. 3. F.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

AER E 161: Numerical, Graphical and Laboratory Techniques for Aerospace Engineering
(2-2) Cr. 3. F.S.
Prereq: Credit or enrollment in AER E 160 or equivalent course
Computer-based problem solving using Matlab(R), with emphasis on numerical methods. Introduction to solid modeling and aerospace design using SolidWorks.

AER E 161H: Numerical, Graphical and Laboratory Techniques for Aerospace Engineering: Honors
(2-2) Cr. 3. F.S.
Prereq: AER E 160 or equivalent course
Computer-based problem solving using Matlab(R), with emphasis on numerical methods. Introduction to solid modeling and aerospace design using SolidWorks.

AER E 192: Aerospace Seminar
Cr. R. S.
Vectors, differentiation, integration, matrices, and systems of linear equations.

Cr. R. S.
Vectors, differentiation, integration, matrices, and systems of linear equations.

AER E 261: Introduction to Performance and Design
(3-0) Cr. 3. F.S.
Prereq: MATH 166, PHYS 221, credit or enrollment in AER E 161
Aerodynamics of the airplane, lift and drag, drag polar, propulsion characteristics of turbojets and piston props, level flight, range, endurance, climbing flight, turning flight, take-off and landing, design examples.

AER E 265: Scientific Balloon Engineering and Operations
(Cross-listed with MTEOR). (0-2) Cr. 1. Repeatable. F.
Engineering aspects of scientific balloon flights. Integration of science mission objectives with engineering requirements. Operations team certification. FAA and FCC regulations, communications, and command systems. Flight path prediction and control.

AER E 290: Aerospace Engineering Independent Study: Independent Study
Cr. 1-2. Repeatable.
Prereq: Sophomore classification, approval of the department

AER E 290A: Aerospace Engineering Independent Study: Flight ground instruction
Cr. 1-2. Repeatable.
Prereq: Sophomore classification, approval of the department
AER E 290B: Aerospace Engineering Independent Study: In-flight training
Cr. 1-2. Repeatable.
Prereq: AER E 301

AER E 290C: Aerospace Engineering Independent Study: Other
Cr. 1-2. Repeatable.
Prereq: AER E 301

AER E 301: Flight Experience
Cr. R. F.S.
Prereq: Credit or enrollment in AER E 355
Two hours of in-flight training and necessary ground instruction. Course content prescribed by the Aerospace Engineering Department. Ten hours of flight training certified in a pilot log book can be considered by the course instructor as evidence of satisfactory performance in the course. Offered on a satisfactory-fail basis only.

AER E 310: Aerodynamics I: Incompressible Flow
(3-0) Cr. 3. F.S.
Prereq: Grade of C- or better in AER E 261 and MATH 265

AER E 311: Aerodynamics II: Compressible Flow
(3-0) Cr. 3. F.S.
Prereq: AER E 310, M E 231

AER E 321: Flight Structures Analysis
(3-0) Cr. 3. F.S.
Prereq: E M 324, Credit or enrollment in MATH 266 or 267

AER E 322: Aerospace Structures Laboratory
(1-2) Cr. 2. F.S.
Prereq: Credit or enrollment in AER E 321

AER E 331: Flight Control Systems I
(3-0) Cr. 3. F.S.
Prereq: AER E 355
Linear system analysis. Control system designs using root-locus and frequency response methods. Applications in flight control systems.

AER E 344: Aerodynamics and Propulsion Laboratory
(2-2) Cr. 3. F.S.
Prereq: AER E 310, Coreq: AER E 311

AER E 351: Astrodynamics I
(3-0) Cr. 3. F.S.
Prereq: E M 345

AER E 355: Aircraft Flight Dynamics and Control
(3-0) Cr. 3. F.S.
Prereq: AER E 261, MATH 267, E M 345
Aircraft rigid body equations of motion, linearization, and modal analysis. Longitudinal and lateral-directional static and dynamic stability analysis. Flight handling characteristics analysis. Longitudinal and lateral-directional open loop response to aircraft control inputs. Aircraft flight handling qualities.

AER E 361: Computational Techniques for Aerospace Design
(2-2) Cr. 3. F.S.
Prereq: AER E 310, MATH 267, E M 324, E M 345
Advanced programming, workstation environment, and development of computational tools for aerospace analysis and design. Technical report writing.
AER E 362: Aerospace Systems Integration
(3-0) Cr. 3. F.S.

Prereq: Junior standing in Aerospace Engineering or permission of instructor

Emphasis on impact of component interfaces in aerospace systems. Understand how changes in variables associated with individual components impact the performance of the aerospace system. Specific integration challenges include: capturing implicit disciplinary interactions (e.g. structures/aerodynamics, propulsion/aerodynamics, etc.), propagating tolerances through the system (i.e. uncertainty modeling), balancing component attributes in the system objective.

AER E 381: Introduction to Wind Energy
(3-0) Cr. 3. S.

Prereq: MATH 166, PHYS 221

Basic introduction to the fundamentals of Wind Energy and Wind Energy conversion systems. Topics include but not limited to various types of wind energy conversion systems and the aerodynamics, blade and tower structural loads, kinematics of the blades and meteorology.

AER E 396: Summer Internship
Cr. R. Repeatable. SS.

Prereq: Permission of department and Engineering Career Services

Professional work period of at least 10 weeks during the summer. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

AER E 398: Cooperative Education
Cr. R. Repeatable. F.S.

Prereq: Permission of department and Engineering Career Services.

Professional work period. One semester per academic or calendar year. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

AER E 411: Aerospace Vehicle Propulsion I
(3-0) Cr. 3. F.S.

Prereq: AER E 311, AER E 344

AER E 412: Aerospace Vehicle Propulsion II
(3-0) Cr. 3. S.

Prereq: AER E 311

AER E 417: Experimental Mechanics
(Dual-listed with AER E 517). (Cross-listed with E M). (2-2) Cr. 3. Alt. F., offered even-numbered years.

Prereq: E M 324; MAT E 273

Introduction to fundamental concepts for force, displacement, stress and strain measurements for structures and materials applications. Strain gage theory and application. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro- and nano-scale regimes. Selected laboratory experiments.

AER E 421: Advanced Flight Structures
(2-2) Cr. 3. F.S.

Prereq: AER E 321, MATH 266 or MATH 267

Analysis of indeterminate flight structures including finite element laboratory. Static analysis of complex structural components subject to thermal and aerodynamic loads. Analytical and finite element solutions for stresses and displacements of membrane, plane stress, plate structures. Buckling of beams, frames, and plate structures. Introduction to vibration of flight structures. Steady state and transient structural response using normal modal analysis.

AER E 422: Vibrations and Aeroelasticity
(3-0) Cr. 3. Alt. S., offered even-numbered years.

Prereq: E M 324 or AER E 321

AER E 423: Composite Flight Structures
(2-2) Cr. 3. S.

Prereq: E M 324; MAT E 273

Fabrication, testing and analysis of composite materials used in flight structures. Basic laminate theory of beams, plates and shells. Manufacturing and machining considerations of various types of composites. Testing of composites for material properties, strength and defects. Student projects required.

AER E 426: Design of Aerospace Structures
(Dual-listed with AER E 526). (2-2) Cr. 3. F.

Prereq: E M 324

Detailed design and analysis of aerospace vehicle structures. Material selection, strength, durability and damage tolerance, and validation analysis. Design for manufacturability.
AER E 432: Flight Control Systems II
(3-0) Cr. 3. F.
Prereq: AER E 331

AER E 433: Spacecraft Dynamics and Control
(3-0) Cr. 3. F.
Prereq: EM 345
Three-dimensional rotational kinematics and attitude dynamics of a rigid body in space. Stability analysis of a spinning spacecraft with or without energy dissipation. Attitude dynamics and stability of a satellite in circular orbit. Introduction to spacecraft attitude determination and control systems (ADCS). Simulation of spacecraft attitude-dynamics and control problems of practical interest using MATLAB.

AER E 442: V/STOL Aerodynamics and Performance
(3-0) Cr. 3. F.
Prereq: AER E 261
Introduction to the aerodynamics, performance, stability, control and critical maneuvering characteristics of V/STOL vehicles. Topics include hovercrafts, jet flaps, ducted fans and thrust vectored engines.

AER E 446: Computational Fluid Dynamics
(3-0) Cr. 3. F.
Prereq: AER E 311, AER E 361 and proficiency in at least one programming language

AER E 448: Fluid Dynamics of Turbomachinery
(Cross-listed with M E). (3-0) Cr. 3. S.
Prereq: AER E 311 or M E 335
Applications of principles of fluid mechanics and thermodynamics in performance analysis and design of turbomachines. Conceptual and preliminary design of axial and radial flow compressors and turbines using velocity triangles and through-flow approaches.

AER E 451: Astrodynamics II
(3-0) Cr. 3. F.S.
Prereq: AER E 351
Orbit determination and prediction using Gibb's and Gaus's methods. Advanced orbit maneuvers, triple-, and fixed-impulse; universal variables; Kepler's problem. Earth gravity field models and gravity harmonics, orbit perturbations, advanced dynamics, variational methods, relative orbital mechanics, and Clohessy-Wiltshire equations.

AER E 461: Modern Design Methodology with Aerospace Applications
(2-2) Cr. 3. F.S.
Prereq: AER E 361, AER E 311, AER E 321, AER E 322, AER E 344, AER E 351, AER E 355
Introduction to modern engineering design methodology. Computational constrained optimal design approach including selection of objective function, characterization of constraint system, materials and strength considerations, and sensitivity analyses.

AER E 462: Design of Aerospace Systems
(1-4) Cr. 3. F.S.
Prereq: AER E 461
Fundamental principles used in engineering design of aircraft, missile, and space systems. Preliminary design of aerospace vehicles. Engineering Ethics.

AER E 463: Introduction to Multidisciplinary Design Optimization
(Dual-listed with AER E 563). (3-0) Cr. 3. F.
Prereq: senior standing in College of Engineering or permission of instructor
Introduction to the theory and methods of Multidisciplinary Design Optimization (MDO), including system coupling, system sensitivity methods, decomposition methods, MDO formulations (such as multi-discipline feasible (MDF), individual discipline feasible (IDF) and all-at-once (AAO) approaches, and MDO search methods.

AER E 464: Spacecraft Systems
(3-0) Cr. 3. S.
Prereq: AER E 351
An examination of spacecraft systems including attitude determination and control, power, thermal control, communications, propulsion, guidance, navigation, command and data handling, and mechanisms. Explanation of space and operational environments as they impact spacecraft design. Includes discussion of safety, reliability, quality, maintainability, testing, cost, legal, and logistics issues.
AER E 466: Multidisciplinary Engineering Design  
(Cross-listed with A B E, B M E, CPR E, E E, ENGR, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S.  
Prereq: Student must be within two semesters of graduation; permission of instructor.  
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

AER E 467: Multidisciplinary Engineering Design II  
Prereq: Student must be within two semesters of graduation or receive permission of instructor.  
Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

AER E 468: Large-Scale Complex Engineered Systems (LSCES)  
(Dual-listed with AER E 568). (Cross-listed with I E). (3-0) Cr. 3. S.  
Prereq: senior standing in College of Engineering or permission of AER E 468 instructor  
Introduction to the theoretical foundation and methods associated with the design for large-scale complex engineered systems, including objective function formation, design reliability, value-driven design, product robustness, utility theory, economic factors for the formation of a value function and complexity science as a means of detecting unintended consequences in the product behavior.

AER E 480: Ultrasonic Nondestructive Evaluation  
(Cross-listed with E M). (3-0) Cr. 3. S.  
Prereq: E M 324, MATH 266 or MATH 267, PHYS 222  
Introduction to stress/strain, Hooke’s law, and elastic wave propagation in two dimensions in isotropic media. Ultrasonic plane-wave reflection and transmission; and simple straight-crested guided waves. Transducer construction, behavior, and performance. Simple signal analysis and discrete signal processing. The last few weeks of the course are devoted to case studies.

AER E 481: Advanced Wind Energy: Technology and Design  
(3-0) Cr. 3. S.  
Prereq: AER E 381 or senior classification in engineering or junior in engineering with a course in fluid mechanics  
Advanced topics in wind energy, emphasis on current practices. Theoretical foundations for horizontal and vertical axis wind turbine. Design codes for energy conversion systems design, aerodynamic and structural load estimation, wind resource characterization wind farm design, optimization.

AER E 490: Aerospace Engineering Independent Study  
Cr. 1-6. Repeatable.  
Prereq: Junior or senior classification, approval of the department

AER E 490A: Aerospace Engineering Independent Study: Aero and/or Gas Dynamics  
Cr. 1-6. Repeatable.  
Prereq: Junior or senior classification, approval of the department

AER E 490B: Aerospace Engineering Independent Study: Propulsion  
Cr. 1-6. Repeatable.  
Prereq: Junior or senior classification, approval of the department

AER E 490C: Aerospace Engineering Independent Study: Aerospace Structures  
Cr. 1-6. Repeatable.  
Prereq: Junior or senior classification, approval of the department

AER E 490D: Aerospace Engineering Independent Study: Flight Dynamics  
Cr. 1-6. Repeatable.  
Prereq: Junior or senior classification, approval of the department

AER E 490E: Aerospace Engineering Independent Study: Spacecraft Systems  
Cr. 1-6. Repeatable.  
Prereq: Junior or senior classification, approval of the department

AER E 490F: Aerospace Engineering Independent Study: Flight Control Systems  
Cr. 1-6. Repeatable.  
Prereq: Junior or senior classification, approval of the department

AER E 490G: Aerospace Engineering Independent Study: Independent Study, Honors  
Cr. 1-6. Repeatable.  
Prereq: Junior or senior classification, approval of the department
AER E 490I: Aerospace Engineering Independent Study: Design
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490K: Aerospace Engineering Independent Study: Wind Engineering
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490O: Aerospace Engineering Independent Study: Other
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 499: Senior Project
Cr. 1-2. Repeatable. F.S.
Prereq: Senior classification, credit or enrollment in AER E 491
Development of aerospace principles and concepts through individual research and projects. Written report.

Courses primarily for graduate students, open to qualified undergraduates:

AER E 501: Advanced Engineering Analysis
(3-0) Cr. 3. F.
Prereq: Math 267 or equivalent
Linear ordinary differential equations with variable coefficients; hyperbolic, parabolic, and elliptic equations; tensors. None

AER E 514: Advanced Mechanics of Materials
(Cross-listed with E M). (3-0) Cr. 3. F.
Prereq: E M 324

AER E 517: Experimental Mechanics
(Dual-listed with AER E 417). (Cross-listed with E M). (2-2) Cr. 3. Alt. F., offered even-numbered years.
Prereq: E M 324, MAT E 273
Introduction to fundamental concepts for force, displacement, stress and strain measurements for structures and materials applications. Strain gage theory and application. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro- and nano-scale regimes. Selected laboratory experiments.

AER E 521: Airframe Analysis
(3-0) Cr. 3. F.
Prereq: AER E 421 or E M 424
Analysis of static stresses and deformation in continuous aircraft structures. Various analytical and approximate methods of analysis of isotropic and anisotropic plates and shells.

AER E 522: Design and Analysis of Composite Materials
(3-0) Cr. 3. F.
Prereq: E M 324
Composite constituent materials, micro-mechanics, laminate analysis, hygro-thermal analysis, composite failure, joining of composites, design of composite beams and plates, honeycomb core, manufacturing of composites, short fiber composites, and demonstration laboratory.

AER E 524: Numerical Mesh Generation
(3-0) Cr. 3. F.
Prereq: MATH 385, proficiency in programming
Introduction to modern mesh generation techniques. Structured and unstructured mesh methods, algebraic and PDE methods, elliptic and hyperbolic methods, variational methods, error analysis, Delaunay triangulation, data structures, geometric modeling with B-spline and NURBS surfaces, surface meshing.
AER E 525: Finite Element Analysis
(Cross-listed with E M). (3-0) Cr. 3. S.
Prereq: E M 425, MATH 385
Variational and weighted residual approach to finite element equations. Emphasis on two- and three-dimensional problems in solid mechanics. Isoparametric element formulation, higher order elements, numerical integration, imposition of constraints and penalty, convergence, and other more advanced topics. Use of two- and three-dimensional computer programs. Dynamic and vibrational problems, eigenvalues, and time integration. Introduction to geometric and material nonlinearities.

AER E 526: Design of Aerospace Structures
(Dual-listed with AER E 426). (2-2) Cr. 3. F.
Prereq: E M 324
Detailed design and analysis of aerospace vehicle structures. Material selection, strength, durability and damage tolerance, and validation analysis. Design for manufacturability.

AER E 531: Automatic Control of Flight Vehicles
(3-0) Cr. 3. S.
Prereq: AER E 331
Applications of classical and modern linear control theory to automatic control of flight vehicles. Spacecraft attitude control. Control of flexible vehicles. Linear-quadratic regulator design applications.

AER E 532: Compressible Fluid Flow
(Cross-listed with M E). (3-0) Cr. 3. S.
Prereq: AER E 310, 311 or equivalent

AER E 541: Incompressible Flow Aerodynamics
(3-0) Cr. 3. F.
Prereq: AER E 310 or M E 335 or equivalent

AER E 545: Experimental Flow Mechanics and Heat Transfer
(3-0) Cr. 3. F.
Prereq: AER E 310 or M E 335 or E M 378
Similitude and dimensional analysis. Measurement uncertainty analysis; Fluid mechanical apparatus: wind tunnel and water tunnels. Various experimental techniques widely used for fluid mechanics, aerodynamics, heat transfer, and combustion studies: Pressure gauge and transducers; Pitot tube; hot wire anemometry; Shadowgraph and Schlieren Photography; laser Doppler velocimetry; particle image velocimetry (PIV); advanced PIV techniques (stereo PIV, 3-D PIV, Tomographic PIV, Holograph PIV and microscopic PIV); laser induced fluorescence; pressure sensitive painting, temperature sensitive painting; molecular tagging velocimetry; molecular tagging thermometry. Extensive applications and laboratory experiments will be included.

AER E 546: Computational Fluid Mechanics and Heat Transfer I
(Cross-listed with M E). (3-0) Cr. 3. F.
Prereq: AER E 310 or M E 335, and programming experience

AER E 547: Computational Fluid Mechanics and Heat Transfer II
(Cross-listed with M E). (3-0) Cr. 3. S.
Prereq: AER E 546 or equivalent
Application of computational methods to current problems in fluid mechanics and heat transfer. Methods for solving the Navier-Stokes and reduced equation sets such as the Euler, boundary layer, and parabolized forms of the conservation equations. Introduction to relevant aspects of grid generation and turbulence modeling.

AER E 551: Orbital Mechanics
(3-0) Cr. 3. F.
Prereq: AER E 351

AER E 556: Guidance and Navigation of Aerospace Vehicles
(3-0) Cr. 3. F.
Prereq: AER E 331
AER E 563: Introduction to Multidisciplinary Design Optimization
(Dual-listed with AER E 463). (3-0) Cr. 3. F.
**Prereq:** senior standing in College of Engineering or permission of instructor
Introduction to the theory and methods of Multidisciplinary Design Optimization (MDO), including system coupling, system sensitivity methods, decomposition methods, MDO formulations (such as multi-discipline feasible (MDF), individual discipline feasible (IDF) and all-at-once (AAO) approaches, and MDO search methods.

AER E 564: Fracture and Fatigue
(Cross-listed with E M, M E, M S E). (3-0) Cr. 3. Alt. F., offered even-numbered years.
**Prereq:** E M 324 and either MAT E 216 or MAT E 273 or MAT E 392.
Undergraduates: Permission of instructor
Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

AER E 565: Systems Engineering and Analysis
(Cross-listed with E E, I E). (3-0) Cr. 3.
**Prereq:** Coursework in basic statistics
Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life-cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test evaluation, and systems engineering planning and organization. Not available for degrees in industrial engineering

AER E 566: Avionics Systems Engineering
(Cross-listed with E E). (3-0) Cr. 3.
**Prereq:** E E 565
Avionics functions. Applications of systems engineering principles to avionics. Top-down design of avionics systems. Automated design tools.

AER E 568: Large-Scale Complex Engineered Systems (LSCES)
(Dual-listed with AER E 468). (Cross-listed with I E). (3-0) Cr. 3.
**Prereq:** senior standing in College of Engineering or permission of AER E 468 instructor
Introduction to the theoretical foundation and methods associated with the design for large-scale complex engineered systems, including objective function formation, design reliability, value-driven design, product robustness, utility theory, economic factors for the formation of a value function and complexity science as a means of detecting unintended consequences in the product behavior.

AER E 569: Mechanics of Composite and Combined Materials
(Cross-listed with E M, M S E). (3-0) Cr. 3. Alt. S., offered even-numbered years.
**Prereq:** E M 324

AER E 570: Wind Engineering
(Cross-listed with E M). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
**Prereq:** E M 378, E M 345
Atmospheric circulations, atmospheric boundary layer wind, bluff-body aerodynamics, aeroelastic phenomena, wind-tunnel and full-scale testing, wind-load code and standards, effect of tornado and thunderstorm winds, design applications.

AER E 572: Turbulence
(Cross-listed with CH E). (3-0) Cr. 3.
**Prereq:** AER E 541 or M E 538

AER E 573: Random Signal Analysis and Kalman Filtering
(Cross-listed with E E, M E). (3-0) Cr. 3.
**Prereq:** E E 324 or AER E 331 or M E 370 or M E 411 or MATH 341

AER E 574: Optimal Control
(Cross-listed with E E, M E). (3-0) Cr. 3.
**Prereq:** E E 577
AER E 575: Introduction to Robust Control  
(Cross-listed with E E, M E). (3-0) Cr. 3.  
**Prereq:** E E 577  

AER E 576: Digital Feedback Control Systems  
(Cross-listed with E E, M E). (3-0) Cr. 3. F.  
**Prereq:** E E 475 or AER E 432 or M E 411 or MATH 415; and MATH 267  

AER E 577: Linear Systems  
(Cross-listed with E E, M E, MATH). (3-0) Cr. 3. F.  
**Prereq:** E E 324 or AER E 331 or MATH 415; and MATH 207  

AER E 578: Nonlinear Systems  
(Cross-listed with E E, M E, MATH). (3-0) Cr. 3. S.  
**Prereq:** E E 577  

AER E 581: Perturbation Methods  
(3-0) Cr. 3. F.  
**Prereq:** MATH 267  

AER E 590A: Aerospace Engineering Independent Study: Aero and/or Gas Dynamics  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590B: Aerospace Engineering Independent Study: Propulsion  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590C: Aerospace Engineering Independent Study: Aerospace Structures  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590D: Aerospace Engineering Independent Study: Flight Dynamics  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590E: Aerospace Engineering Independent Study: Spacecraft Systems  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590F: Aerospace Engineering Independent Study: Flight Control Systems  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590G: Aerospace Engineering Independent Study: Aeroelasticity  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590H: Aerospace Engineering Independent Study: Viscous Aerodynamics  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590I: Aerospace Engineering Independent Study: Design  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590J: Aerospace Engineering Independent Study: Hypersonics  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590K: Aerospace Engineering Independent Study: Computational Aerodynamics  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590L: Aerospace Engineering Independent Study: Optimization  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590M: Aerospace Engineering Independent Study: Non Destructive Evaluation  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590N: Aerospace Engineering Independent Study: Wind Engineering  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 591: Graduate Student Seminar Series  
Cr. R. Repeatable.  
Presentation of professional topics by department graduate students. Development of presentation skills used in a professional conference setting involving question and answer format.

AER E 599: Creative Component  
Cr. 1-5. Repeatable.
Courses for graduate students:

**AER E 640: Stability of Fluid Flow**
(3-0) Cr. 3.
*Prereq: AerE 541*
Theoretical methods of stability analysis; linear analysis of exchange of stability and over stability; bifurcation of equilibria; most dangerous modes and pattern formation; shear flow stability theorems. Physical mechanisms. Tollmein-Schlichting waves, disintegration of capillary jets, Benard convection, Taylor-Couette flow, centrifugal instability, double diffusion.

**AER E 647: Advanced Computational Fluid Dynamics**
(Cross-listed with M E). (3-0) Cr. 3. S.
*Prereq: AER E 547*

**AER E 690: Aerospace Engineering Independent Study: Advanced Topics**
Cr. 1-5. Repeatable.

**AER E 690A: Aerospace Engineering Independent Study: Aero and/or Gas Dynamics**
Cr. 1-5. Repeatable.

**AER E 690B: Aerospace Engineering Independent Study: Propulsion**
Cr. 1-5. Repeatable.

**AER E 690C: Aerospace Engineering Independent Study: Aerospace Structures**
Cr. 1-5. Repeatable.

**AER E 690D: Aerospace Engineering Independent Study: Flight Dynamics**
Cr. 1-5. Repeatable.

**AER E 690E: Aerospace Engineering Independent Study: Spacecraft Systems**
Cr. 1-5. Repeatable.

**AER E 690F: Aerospace Engineering Independent Study: Flight Control Systems**
Cr. 1-5. Repeatable.

**AER E 690G: Aerospace Engineering Independent Study: Aeroelasticity**
Cr. 1-5. Repeatable.

**AER E 690H: Aerospace Engineering Independent Study: Viscous Aerodynamics**
Cr. 1-5. Repeatable.

**AER E 690I: Aerospace Engineering Independent Study: Design**
Cr. 1-5. Repeatable.

**AER E 690J: Aerospace Engineering Independent Study: Hypersonics**
Cr. 1-5. Repeatable.

**AER E 690K: Aerospace Engineering Independent Study: Computational Aerodynamics**
Cr. 1-5. Repeatable.

**AER E 690L: Aerospace Engineering Independent Study: Non Destructive Evaluation**
Cr. 1-5. Repeatable.

**AER E 690M: Aerospace Engineering Independent Study: Wind Engineering**
Cr. 1-5. Repeatable.

**AER E 697: Engineering Internship**
Cr. R. Repeatable.
*Prereq: Permission of DOGE (Director of Graduate Education), graduate classification*
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

**AER E 699: Research**
Cr. arr. Repeatable.

**African American Studies (AF AM)**

Courses primarily for undergraduates:

**AF AM 201: Introduction to African American Studies**
(3-0) Cr. 3. F.S.
An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience.
Meets U.S. Diversity Requirement

**AF AM 311: Africa under Colonial Rule**
(Cross-listed with HIST). (3-0) Cr. 3.
*Prereq: 3 credits of 200-level HIST at Iowa State, and sophomore classification.*
Development of Africa from imposition of colonial rule to independence, including processes of European domination, African reaction and resistance, emergence of nationalism, and dismantling of colonialism.
Meets International Perspectives Requirement.

**AF AM 325: Peoples and Cultures of Africa.**
(Cross-listed with ANTHR). (3-0) Cr. 3.
*Prereq: 201 or 306 recommended.*
Survey of diverse African culture areas across the continent and globally; local level description and analysis of individuals as members of African communities; regional, national and global scales of identification.
Meets International Perspectives Requirement.
AF AM 330: Ethnic and Race Relations
(Cross-listed with SOC). (3-0) Cr. 3. F.S.SS.
Prereq: SOC 134
Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations.
Meets U.S. Diversity Requirement

AF AM 334: African American Religious Experience
(Cross-listed with RELIG). (3-0) Cr. 3. F.
Prereq: Prior course work in Religious Studies or African American Studies recommended
Examination of African-American experience from the perspective of black religion with attention to political, economic, social, theological and artistic expressions, including music, that serve the life of African-American communities.
Meets U.S. Diversity Requirement

AF AM 347: Studies in African American Literature
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250
Literature by African Americans, which may include study of individual authors, movements, themes, genres.
Meets U.S. Diversity Requirement

AF AM 350: Women of Color in the U.S
(Cross-listed with WGS). (3-0) Cr. 3. S.
Prereq: 3 credits in WGS or AF AM
Economic, social, political and cultural roles of Women of Color in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored.
Meets U.S. Diversity Requirement

AF AM 353: History of African Americans I
(Cross-listed with HIST). (3-0) Cr. 3. S.
Prereq: Sophomore classification
Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.
Meets U.S. Diversity Requirement

AF AM 354: History of African Americans II
(Cross-listed with HIST). (3-0) Cr. 3. S.
Prereq: Sophomore classification
Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.
Meets U.S. Diversity Requirement

AF AM 360: Seminar in African American Culture
(Cross-listed with HIST, US LS). (3-0) Cr. 3.
Prereq: Sophomore classification
Intensive study of a selected topic in African-American Studies in one or more disciplines. Selected readings of various authors, movements, eras, or genres. Primary and secondary source materials.
Meets U.S. Diversity Requirement

AF AM 473: Civil Rights and Ethnic Power
(Cross-listed with HIST, US LS). (3-0) Cr. 3.
Prereq: Sophomore classification
Comparative history of the civil rights and ethnic power movements (African American, Chicano, American Indian, Puerto Rican, among others) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights.
Meets U.S. Diversity Requirement

AF AM 490: Independent Study
Cr. 1-3. Repeatable, maximum of 3 times.

Agricultural Education and Studies (AGEDS)

Courses primarily for undergraduates:

AGEDS 110: Orientation
(1-0) Cr. 1. F.S.
Orientation to the department. Careers in agriculture.

AGEDS 110A: Agriculture and Life Sciences Education (Fall only)
(1-0) Cr. 1. F.S.
Orientation to the department. Careers in agriculture.

AGEDS 110B: Agricultural Studies (Fall only)
(1-0) Cr. 1. F.S.
Orientation to the department. Careers in agriculture.

AGEDS 110C: Agricultural and Life Sciences Exploration
(1-0) Cr. 1. F.S.
Orientation to the department. Careers in agriculture.
AGEDS 111: Dean’s Leadership Seminar
(1-0) Cr. 1. F.
Prereq: Permission of the Associate Dean for Academic Programs, College of Agriculture and Life Sciences
Introduction to leadership in agriculture and the life sciences, problem solving applied to current case studies, global perspective required by leaders, and designing programs to respond to societal needs in the agricultural and life sciences.

AGEDS 112: Agriculture Biotechnology Colloquium
(1-0) Cr. 1. S.
Prereq: Enrollment as an agricultural excellence scholar
The scientific basis of biological and social sciences in agriculture.

AGEDS 113: Access to Success Seminar I
(1-0) Cr. 1. Repeatable. F.S.
Course provides career skills, learning strategies and social and academic integration techniques to student members of Step Forward Learning Community. Utilization of campus resources, encouragement of self-exploration, and development of academic skills. Offered on a satisfactory-fail basis only.

AGEDS 116: Initial Field Experience in Agricultural Education
(1-2) Cr. 1. F.
Prereq: AGEDS majors only.
Field experience in a formal education setting designed to explore teaching as a career through guided observation and interviews, reflection, and on-campus dialogue.

AGEDS 211: Early Field Based Experience
(1-0) Cr. 1. Repeatable, maximum of 3 credits. F.S.SS.
Prereq: AGEDS 110
Forty hours on-site in an agricultural setting. Students will have an opportunity outside the classroom for career guidance, role modeling, and reflection on their observations that they can apply to their courses and other educational experiences.

AGEDS 211A: High School Agriculture Programs
(1-0) Cr. 1. Repeatable, maximum of 3 credits. F.S.SS.
Prereq: AGEDS 110
Forty hours on-site in an agricultural setting. Students will have an opportunity outside the classroom for career guidance, role modeling, and reflection on their observations that they can apply to their courses and other educational experiences.

AGEDS 211C: Agricultural Industries and Agencies
(1-0) Cr. 1. Repeatable, maximum of 3 credits. F.S.SS.
Prereq: AGEDS 110
Forty hours on-site in an agricultural setting. Students will have an opportunity outside the classroom for career guidance, role modeling, and reflection on their observations that they can apply to their courses and other educational experiences.

AGEDS 215: Career Seminar
(1-0) Cr. 1. F.S.
Prereq: Sophomore classification

AGEDS 310: Foundations of Agricultural Education Programs
(3-0) Cr. 3. F.S.
Historical development of agricultural education programs. Philosophic premises, program goals and objectives. Educational and social issues impacting the implementation of agricultural education programs.

AGEDS 311: Presentation and Sales Strategies for Agricultural Audiences
(3-0) Cr. 3. F.S.
Utilizing instructional methods, techniques, and problem solving, presentation and sales strategies with agricultural audiences.

AGEDS 312: Science With Practice
(1-6) Cr. 3. Repeatable. F.S.
Prereq: College of Agriculture and Life Sciences majors only
A planned learning experience wherein each student and faculty mentor develops a learning agreement that encompasses specific activities and expectations. Students are engaged in reflective activities that include journals, micro-reflections, formal presentations, and a comprehensive portfolio.

AGEDS 315: Personal, Professional, and Entrepreneurial Leadership in Agriculture
(3-0) Cr. 3. F.S.
Leadership principles and strategies to influence and motivate team members to achieve personal, professional, and entrepreneurial goals in production agriculture, agricultural education, and agricultural organizations.

AGEDS 327: Survey of Agriculture and Life Sciences Communication
(2-2) Cr. 3. F.S.
Prereq: ENGL 250 or equivalent
Development of written, oral, visual and electronic communications relevant to agriculture and life sciences. Students develop a set of communication skills applicable to agriculture and life science contexts and for various audiences.
AGEDS 388: Agricultural Mechanics Applications  
(2-3) Cr. 3. Repeatable, maximum of 2 times. F.S.SS.  
Introduction to SMAW (Arc), GMAW (Mig), GTAW (Tig), Oxy-Fuel welding, Oxy-Fuel cutting, and Plasma cutting theories and applications. Emphasis will be on theoretical foundation of welding, safety, welding skill development, and management of equipment, and materials. Introduction to small engines and applications. Emphasis will be on theory of operating systems, maintenance, troubleshooting, failure analysis, and safety.

AGEDS 398: Cooperative Education  
Cr. R. F.S.SS.  
Prereq: Permission of the department cooperative education coordinator; junior classification  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

AGEDS 401: Planning Agriculture and Life Sciences Education Programs  
(Dual-listed with AGEDS 501). (3-0) Cr. 3. F.  
Prereq: AGEDS 310  
Responsibilities of an agricultural education teacher, curriculum development, experiential learning opportunities including FFA and SAE, and assessment and maintenance of program quality.

AGEDS 402: Methods of Teaching in Agriculture and Life Sciences  
(Dual-listed with AGEDS 502). (3-0) Cr. 3. F.  
Prereq: Concurrent enrollment in AGEDS 401  
Topics include: principles of teaching and learning, individualized and group methods, application of learning, instructional management, special populations, and evaluation.

AGEDS 412: Internship in Agricultural Education and Studies  
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS.  
Prereq: Junior classification in AGEDS and permission of instructor  
A supervised two to twelve week learning experience in an approved learning setting with application to educational, agricultural, communications and/or environmental practices and principles.

AGEDS 414: Developing Agricultural Education Programs in Non-Formal Settings  
(2-0) Cr. 2. S.  
Basic concepts in planning, conducting, and evaluating educational programs in non-formal settings. Includes programming for youth and adults in Extension, agricultural industry, and related agencies.

AGEDS 416: Pre-Student Teaching Experience in Agricultural Education  
Cr. 1. F.S.  
Prereq: AGEDS 211, AGEDS 402 and admission to teacher education program  
A forty hour field-based experience in an approved secondary agricultural education program. Concurrent enrollment in 417 is required.

AGEDS 417: Supervised Teaching in Agriculture and Life Sciences  
Cr. 1-16. Repeatable. F.S.  
Prereq: AGEDS 211, AGEDS 402 and admission to teacher education program  
Supervised teaching in public schools.

AGEDS 450: Farm Management and Operation  
(2-4) Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.  
Prereq: Econ 235, Econ 230, junior classification  
Participation in the management and operation of a diversified Iowa farm. The class is responsible for the plans, records, and decisions for buying and selling the farm’s livestock, crops, and equipment. Special speakers on current topics. May be taken for credit 3 times at different times of the year with permission of the instructor.

AGEDS 451: Agricultural Law  
(3-2) Cr. 4. S.  
Prereq: Senior classification  
The legal framework impinging upon decision-making by firms, families, and individuals, real and personal property, contracts, secured transactions, negotiable instruments, debtor-creditor relations, bankruptcy, farm income tax organization of firms, intergenerational property transfers, trusts and farm estate planning, civil and criminal liabilities, environmental law, federal and state regulatory powers.

AGEDS 461: Technology Transfer and the Role of Agricultural and Extension Education  
(Dual-listed with AGEDS 561). (3-0) Cr. 3. S.  
Impact of agricultural and extension education processes on development and their role in the transfer of agricultural technology. Utilizing situational analysis techniques to analyze and solve problems in international agricultural education programs. Meets International Perspectives Requirement.

AGEDS 475: Agri-Marketing and Communications Competition  
(2-0) Cr. 1-2. Repeatable, maximum of 6 credits. F.S.  
Prereq: Admission by invitation.  
Specialized training in communication and agricultural marketing knowledge and skills in preparation for intercollegiate competition. Maximum of 6 credits can be applied toward graduation.

AGEDS 488: Methods of Teaching Agricultural Mechanics  
(2-3) Cr. 3. F.S.  
Methods and management techniques in agricultural mechanics laboratories. Emphasis will be on safety, mechanical skills development and management of students, facilities, equipment, and materials.

AGEDS 490: Independent Study in Agricultural Education and Studies  
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.  
Prereq: Junior or senior classification, permission of instructor
AGEDS 490A: Philosophy, Curriculum, and Methods
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Junior or senior classification, permission of instructor

AGEDS 490B: Leadership, Evaluation, and Administration
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Junior or senior classification, permission of instructor

AGEDS 490C: Business, Industry, and Production Agriculture
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Junior or senior classification, permission of instructor

AGEDS 490D: Extension and International Agriculture
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Junior or senior classification, permission of instructor

AGEDS 490E: Instructional Technology
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Junior or senior classification, permission of instructor

AGEDS 490F: Environmental Issues
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Junior or senior classification, permission of instructor

AGEDS 490G: Entrepreneurship
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Junior or senior classification, permission of instructor

AGEDS 490H: Independent Study in Agricultural Education and Studies, Honors
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Junior or senior classification, permission of instructor

AGEDS 490I: Communications
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Junior or senior classification, permission of instructor

AGEDS 496: Agricultural Travel Course
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Permission of instructor
Limited enrollment. Extended field trips to study agriculture and education related topics. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students.

AGEDS 496A: International
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Permission of instructor
Limited enrollment. Extended field trips to study agriculture and education related topics. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students. Meets International Perspectives Requirement.

AGEDS 496B: Domestic
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Permission of instructor
Limited enrollment. Extended field trips to study agriculture and education related topics. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students.

AGEDS 499: Undergraduate Research
Cr. arr. F.S.S.S.
Prereq: Permission of instructor, adviser, and departmental chair
Research experience in agricultural education and studies with application to selected problems.

Courses primarily for graduate students, open to qualified undergraduates:

AGEDS 501: Planning Agriculture and Life Sciences Education Programs
(Dual-listed with AGEDS 401). (3-0) Cr. 3. F.
Prereq: AGEDS 310
Responsibilities of an agricultural education teacher, curriculum development, experiential learning opportunities including FFA and SAE, and assessment and maintenance of program quality.

AGEDS 502: Methods of Teaching in Agriculture and Life Sciences
(Dual-listed with AGEDS 402). (3-0) Cr. 3. F.
Prereq: Concurrent enrollment in AGEDS 401
Topics include: principles of teaching and learning, individualized and group methods, application of learning, instructional management, special populations, and evaluation.

AGEDS 510: Introduction to Research in Agricultural Education
(3-0) Cr. 3. S.
Prereq: Graduate classification
Determining your research focus; developing research problems and objectives; reviewing the literature and establishing a theoretical framework; establishing procedures for data collection and analysis; ethical issues.

AGEDS 511: Professional Agricultural Presentation Practices
(3-0) Cr. 3. F.S.S.
Prereq: Graduate Classification
The identification and use of key planning, delivery and evaluation of presentations using audience engagement techniques focused on research-based principles and field-based practices of professional presenters in agriculture and the life sciences.

AGEDS 593A: Curriculum
Cr. 1-3. Repeatable. F.S.S.
Prereq: 12 credits in agricultural education

AGEDS 593B: Methods
Cr. 1-3. Repeatable. F.S.S.
Prereq: 12 credits in agricultural education

AGEDS 593C: Evaluation
Cr. 1-3. Repeatable. F.S.S.
Prereq: 12 credits in agricultural education

AGEDS 593D: Administration
Cr. 1-3. Repeatable. F.S.S.
Prereq: 12 credits in agricultural education

AGEDS 593E: Leadership
Cr. 1-3. Repeatable. F.S.S.
Prereq: 12 credits in agricultural education

AGEDS 593F: Extension
Cr. 1-3. Repeatable. F.S.S.
Prereq: 12 credits in agricultural education

AGEDS 593G: Program Planning
Cr. 1-3. Repeatable. F.S.S.
Prereq: 12 credits in agricultural education

AGEDS 593H: Instructional Technology
Cr. 1-3. Repeatable. F.S.S.
Prereq: 12 credits in agricultural education

AGEDS 593M: Biotechnology Workshop
Cr. 1-3. Repeatable. F.S.S.
Prereq: 12 credits in agricultural education

AGEDS 599: Creative Component
Cr. arr. Repeatable. F.S.S.
For nonthesis masters degree programs.

Courses for graduate students:

AGEDS 615: Seminar in Agricultural Education
(1-0) Cr. 1. Repeatable. F.S.S.
Offered on a satisfactory-fail basis only.

AGEDS 615A: Writing for publication
(1-0) Cr. 1. Repeatable. F.S.S.
Offered on a satisfactory-fail basis only.

AGEDS 615B: Ethics
(1-0) Cr. 1. Repeatable. F.S.S.
Offered on a satisfactory-fail basis only.

AGEDS 615C: Grant writing
(1-0) Cr. 1. Repeatable. F.S.S.
Offered on a satisfactory-fail basis only.

AGEDS 615D: Career planning
(1-0) Cr. 1. Repeatable. F.S.S.
Offered on a satisfactory-fail basis only.

AGEDS 615E: Contemporary issues
(1-0) Cr. 1. Repeatable. F.S.S.
Offered on a satisfactory-fail basis only.

AGEDS 617: Professional Internship for Agricultural Educators
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.
Prereq: Permission of instructor
Analysis of the roles and activities of professionals in agricultural education. Supervised professional field-based experience in public and private settings. Offered on a satisfactory-fail basis only.

AGEDS 625: Leadership, Administration, Supervision and Management of Agricultural Education Programs
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: Graduate classification
Principles and best practices for leading, administering, supervising, and managing agricultural education programs. Analyzing selected case studies that apply theory to practice in agricultural situations.

AGEDS 699: Research
Cr. arr. Repeatable.

Agricultural and Biosystems Engineering (A B E)

Courses primarily for undergraduates:

A B E 110: Experiencing Agricultural and Biosystems Engineering
(0-2) Cr. 1. S.
Laboratory-based, team-oriented experiences in a spectrum of topics common to the practice of agricultural and biosystems engineering. Report writing, co-ops, internships, careers, registration planning.

A B E 160: Systematic Problem Solving and Computer Programming
(2-2) Cr. 3. S.
Prereq: Credit or enrollment in MATH 143 or MATH 165
Engineering approach to problem solution and presentation in the context of real world problems. Introduction to basic principles from statics, projectile motion, conservation of mass and energy and electricity and magnetism. Use of spreadsheet programs and computer programming language(s) to solve and present engineering problems.
A B E 170: Engineering Graphics and Introductory Design  
(2-2) Cr. 3.  
Applications of multi-view drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports.

A B E 201: Preparing for Workplace Seminar  
(Cross-listed with TSM). (1-0) Cr. 1. F.S.  
Prereq: Prereq: Sophomore classification in AE, AST, BSE, or I TEC  
8 week course. Professionalism in the context of the engineering/technical workplace. Development and demonstration of key workplace competencies: teamwork, initiative, communication, and engineering/technical knowledge. Resumes; Cover Letters; Behavioral Based Interviewing; Industry Speakers; Preparation for internship experiences.

A B E 216: Fundamentals of Agricultural and Biosystems Engineering  
(2-2) Cr. 3. F.  
Prereq: A B E 160 or permission of the instructor  
Application of mathematics and engineering sciences to mass and energy balances in agricultural and biological systems. Emphasis is on solving engineering problems in the areas of heat and mass transfer, air and water vapor systems; animal production systems, grain systems; food systems, hydrologic systems, and bioprocessing.

A B E 218: Project Management & Design in Agricultural and Biosystems Engineering  
(1-2) Cr. 2. S.  
Prereq: A B E 216  
Project management - critical path, Gantt charts, resource allocations, basic project budgeting, and project management software. Engineering design approaches. Open-ended design projects to demonstrate the preceding principles through application of technical concepts taught in prerequisite coursework.

A B E 271: Engineering Applications of Parametric Solid Modeling  
(1-2) Cr. 1. F.S.  
Prereq: A B E 170 or TSM 116 or equivalent  
8 week-course. Creating, editing, and documenting part and assembly models using Solidworks.

A B E 272: Parametric Solid Models, Drawings, and Assemblies Using Pro/ENGINEER  
(1-2) Cr. 1. F.S.  
Prereq: A B E 170 or TSM 116 or equivalent  
8 week-course. Applications of Creo Parametric software. Create solid models of parts and assemblies. Utilize the solid models to create design documentation (standard drawing views, dimensions, and notes) and for the geometric analysis of parts and assemblies.

A B E 273: CAD for Process Facilities and Land Use Planning  
(1-2) Cr. 1. F.S.  
Prereq: ENGR 170 or TSM 116 or equivalent  
8-week course. Application of 2-D AutoCAD software to create and interpret 2-D drawings and 3-D models of facilities. Topics include geometric construction, design documentation: (using views, dimension, notes), and AutoCAD specific features (i.e. Layers, Blocks, Standards, Styles).

A B E 316: Applied Numerical Methods for Agricultural and Biosystems Engineering  
(2-2) Cr. 3. F.S.  
Prereq: A B E 160; MATH 266 or MATH 267  
Computer aided solution of agricultural engineering problems by use of numerical techniques and mathematical models. Systems analysis and optimization applicable to agricultural and biological systems.

A B E 325: Biorenewable Systems  
(Cross-listed with TSM). (3-0) Cr. 3. F.  
Prereq: CHEM 163 or higher; MATH 140 or higher  
Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, and transportation/logistics.

A B E 340: Functional Analysis and Design of Agricultural Field Machinery  
(2-2) Cr. 3. F.  
Prereq: A B E 216  
Principles of operation, design, selection, testing and evaluation of agricultural field machinery and systems. Functional and mechanical performances. Crop and soil interaction with machines. Machine systems, including land preparation, crop establishment, crop protection, harvesting and post-harvest, materials handling systems.

A B E 342: Agricultural Tractor Power  
(2-3) Cr. 3. S.  
Prereq: Ch E 381 or M E 231  
Thermodynamic principles and construction of tractor engines. Fuels, combustion, and lubrication. Kinematics and dynamics of tractor power applications; drawbar, power take-off and traction mechanisms.

A B E 363: Agri-Industrial Applications of Electric Power and Electronics  
(3-2) Cr. 4. F.S.  
Prereq: A B E 216  
A B E 380: Principles of Biological Systems Engineering
(2-2) Cr. 3. S.
Prereq: A B E 316
Unit-operation analysis of biological systems, through the study of mass, energy, and information transport in biosource production and conversion systems. Quantification and modeling of biomass production, ecological interactions, and bioreactor operations.

A B E 388: Sustainable Engineering and International Development
(Cross-listed with C E, E E). (2-2) Cr. 3. F.
Prereq: Junior classification in engineering
Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report. Meets International Perspectives Requirement.

A B E 396: Summer Internship
Cr. R. Repeatable. SS.
Prereq: Permission of department and Engineering Career Services
Professional work period of at least 10 weeks during the summer. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

A B E 398: Cooperative Education
Cr. R. Repeatable. F.S.
Prereq: A B E 218 and permission of department and Engineering Career Services
Professional work period. One semester per academic or calendar year. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

A B E 403: Modeling, Simulation, and Controls for Agricultural and Biological Systems
(Dual-listed with A B E 503). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: A B E 316, and A B E 363, and MATH 266 or MATH 267
Modeling dynamic systems with ordinary differential equations. Introduction to state variable methods of system analysis. Analysis of mechanical, electrical, and fluid power systems. Analytical and numerical solutions of differential equations. Introduction to classical control theory. Feedback and stability examined in the s domain. Frequency response as an analytical and experimental tool. MATLAB will be used throughout the course for modeling. Individual and/or group projects required for graduate credit.

A B E 404: Instrumentation for Agricultural and Biosystems Engineering
(Dual-listed with A B E 504). (2-2) Cr. 3. F.
Prereq: A B E 316 and A B E 363
Interfacing techniques for computer-based data acquisition and control systems. Basic interfacing components including A/D and D/A conversion, signal filtering, multiplexing, and process control. Sensors and theory of operation applied to practical monitoring and control problems. Individual and group projects required for graduate credit.

A B E 410: Electronic Systems Integration for Agricultural Machinery & Production Systems
(Dual-listed with A B E 510). Cr. 3. S.
Prereq: A B E 363 or E E 230 or E E 442 or E E 448
System architecture and design of electronics used in agricultural machinery and production systems. Emphasis on information technology and systems integration for automated agriculture processes. Design of Controller Area Network (CAN BUS) communication systems and discussion of relevant standards (ISO 11783 and SAE J1939). Application of technologies for sensing, distribution control, and automation of agricultural machinery will be emphasized.

A B E 413: Fluid Power Engineering
(Cross-listed with M E). (2-2) Cr. 3. F.
Prereq: Credit or enrollment in E M 378 or M E 335, A B E 216 or M E 270

A B E 415: Agricultural & Biosystems Engineering Design I
(1-2) Cr. 2. F.S.
Prereq: A B E 316 (majors only)
Identification of current design problems in ag & biosystems engineering. Development of alternate solutions using creativity and engineering analysis and synthesis techniques.

A B E 416: Agricultural & Biosystems Engineering Design II
(1-2) Cr. 2. F.S.
Prereq: A B E 415 (majors only)
Selection of promising solutions to design problems identified in 415 for development by design teams. Presentation of designs through oral and written reports and prototypes.
A B E 418: Fundamentals of Engineering Review
(1-0) Cr. 1.
Prereq: senior classification.
8 week course. Review of core concepts covered in the Fundamentals of Engineering examination with emphasis on statics, dynamics, fluid mechanics, heat transfer, electric circuits, and engineering economics. Open to all College of Engineering seniors, however focus is on the general exam, not discipline specific exams.

A B E 424: Air Pollution
(Dual-listed with A B E 524). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 424A: Air Pollution: Air quality and effects of pollutants
(Dual-listed with A B E 524A). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 424B: Air Pollution: Climate change and causes
(Dual-listed with A B E 524B). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 424C: Air Pollution: Transportation Air Quality
(Dual-listed with A B E 524C). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: C E 524A; PHYS 221 or CHEM 178; MATH 166 or 3 credits in statistics. Senior classification or above.

A B E 424D: Air Pollution: Off-gas treatment technology
(Dual-listed with A B E 524D). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: C E 524A, C E 524B; Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above

A B E 424E: Air Pollution: Agricultural sources of pollution
(Dual-listed with A B E 524E). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 431: Design and Evaluation of Soil and Water Conservation Systems
(Dual-listed with A B E 531). (2-3) Cr. 3. F.
Prereq: E M 378 or CH E 356
Hydrology and hydraulics in agricultural and urbanizing watersheds. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design; relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality. Graduate students will prepare several research literature reviews on topics covered in the class in addition to the other assignments.

A B E 432: Nonpoint Source Pollution and Control
(Dual-listed with A B E 532). (3-0) Cr. 3.
Prereq: A B E 431 or C E 372
Characteristics and courses of non-point source (NPS) pollution in agricultural and urban watersheds, computer modeling and NPS pollution for terrestrial and aquatic systems, strategies to control and manage NPS pollution of water bodies, total maximum daily loads (TMDLs) and integrated watershed management. Graduate students are required to review research papers and develop/deliver lecture models on assigned topics.

A B E 436: Design and Evaluation of Soil and Water Monitoring Systems
(Dual-listed with A B E 536). (2-3) Cr. 3. Alt. S., offered even-numbered years.
Prereq: A B E 431
Development of monitoring systems that support effective planning, performance evaluation, modeling, or environmental impact assessment of soil-, water-, and waste-management systems. Typical soil and water pollutants and physical, chemical, and biological characteristics that affect sample location and timing. Sample collection, documentation, chain-of-custody, and quality assurance procedures. In addition to other assignments, graduate students will prepare several research literature reviews on topics covered in the class and develop monitoring plans.
A B E 437: Watershed Modeling and Policy
(Dual-listed with A B E 537). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: CE 372 or equivalent
A project-based course on watershed-scale models for improving water quality. Legislative and judicial basis of the Total Maximum Daily Load (TMDL) program; approaches to TMDL development; principles and techniques for implementation; stakeholder engagement strategies. Hands-on experiences with GIS-interfaced models, data sources, calibration/validation, statistical assessment of model results, and simulation using multiple tools. In addition to other assignments, graduate students will present case studies of TMDLs using different modeling tools.

A B E 451: Food and Bioprocess Engineering
(Dual-listed with A B E 551). (3-0) Cr. 3. S.
Prereq: A B E 216 and credit or enrollment in M E 436 or CH E 357; or FS HN 351 and MATH 266 or MATH 267
Application of engineering principles and mathematical modeling to the quantitative analysis of food and bioprocessing systems. Physical/chemical characteristics of foods and biological systems, flow processes, thermal processes and separation processes. Term paper required for graduate credit.

A B E 466: Multidisciplinary Engineering Design
(Cross-listed with AER E, B M E, CPR E, E E, ENGR, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S.
Prereq: Student must be within two semesters of graduation; permission of instructor.
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

A B E 469: Grain Processing and Handling
(Dual-listed with A B E 569). (Cross-listed with BSE). (2-3) Cr. 3. S.
Prereq: A B E 216
Cereal grain and oilseed properties, quality measurement, processing, and end-use value. Design of drying systems using computer simulation. Corn wet and dry milling. Soybean oil extraction. Grain handling systems.

A B E 472: Design of Environmental Modification Systems for Animal Housing
(Dual-listed with A B E 572). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: A B E 216, M E 231
Principles and design of animal environmental control systems. Insulation, heat and mass transfer, fans, ventilation, air distribution, heating and cooling equipment, and controls. Individual and group projects required for graduate credit.

A B E 475: Design in Animal Production Systems Engineering
(2-0) Cr. 2. F.S.
Prereq: A B E 271, A B E 272, or A B E 273; E M 324 and enrollment in APSE option of AE program.
Application of engineering fundamentals to the independent solution of an animal production systems engineering problem with well defined criteria and constraints in either environmental control, structural design, manure management, or air quality/mitigation.

A B E 478: Wood Frame Structural Design
(Dual-listed with A B E 578). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: M E 231, E M 324

A B E 480: Engineering Analysis of Biological Systems
(Dual-listed with A B E 580). (Cross-listed with ENSCI). (2-2) Cr. 3. F.
Prereq: A B E 380 or permission of the instructor
Systems-level quantitative analysis of biological systems, including applications in foods, feeds, biofuels, bioenergy, and other biological systems. Introduction to economic analysis and life-cycle assessment of these systems at multiple production scales. Applying these tools to evaluate and improve cost and sustainability performance of these biological systems. Students enrolled in ABE 580 will be required to answer additional exam questions and report on two journal articles.

A B E 490: A B E Independent Study
Cr. 1-5. Repeatable.
Independent Study.

Cr. 1-5. Repeatable.
Independent Study.
A B E 490B: A B E Independent Study: Biorenewable Resources
Cr. 1-5. Repeatable. F.S.SS.
Independent study.

A B E 490E: A B E Independent Study: Environmental Bioprocessing Engineering
Cr. 1-5. Repeatable. F.S.SS.
Independent study in environmental bioprocessing engineering.

A B E 490F: A B E Independent Study: Food Engineering
Cr. 1-5. Repeatable. F.S.SS.
Independent study in food engineering.

A B E 490G: A B E Independent Study: General Topics in A B E
Cr. 1-5. Repeatable. F.S.SS.
Independent study in general A B E topics.

A B E 490H: A B E Independent Study: Honors
Cr. 1-5. Repeatable.
Guided instructing in agricultural and biosystems engineering for honors students.

A B E 490L: A B E Independent Study: Land & Water Resources Engineering
Cr. 1-5. Repeatable.
Guided instruction in land and water resources engineering.

A B E 490M: A B E Independent Study: Advanced Machinery Systems Engineering
Cr. 1-5. Repeatable.
Guided instruction in advance machinery systems engineering.

A B E 495: Agricultural and Biosystems Engineering Department Study Abroad Preparation or Follow-up
(Cross-listed with TSM). Cr. 1-2. Repeatable. F.S.SS.

A B E 496: Agricultural and Biosystems Engineering Department Study Abroad
(Cross-listed with TSM). Cr. 1-4. Repeatable. F.S.SS.

Prereq: Permission of instructor
Tour and study at international sites relevant to disciplines of industrial technology, biological systems engineering, agricultural systems technology, and agricultural engineering. Location and duration of tours will vary. Trip expenses paid by students. Pre-trip preparation and/or post-trip reflection and reports arranged through 495. Meets International Perspectives Requirement.

Courses primarily for graduate students, open to qualified undergraduates:

A B E 503: Modeling, Simulation, and Controls for Agricultural and Biological Systems
(Dual-listed with A B E 403). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: A B E 316, and A B E 363, and MATH 266 or MATH 267
Modeling dynamic systems with ordinary differential equations. Introduction to state variable methods of system analysis. Analysis of mechanical, electrical, and fluid power systems. Analytical and numerical solutions of differential equations. Introduction to classical control theory. Feedback and stability examined in the s domain. Frequency response as an analytical and experimental tool. MATLAB will be used throughout the course for modeling. Individual and/or group projects required for graduate credit.

A B E 504: Instrumentation for Agricultural and Biosystems Engineering
(Dual-listed with A B E 404). (2-2) Cr. 3. F.
Prereq: A B E 316 and A B E 363
Interfacing techniques for computer-based data acquisition and control systems. Basic interfacing components including A/D and D/A conversion, signal filtering, multiplexing, and process control. Sensors and theory of operation applied to practical monitoring and control problems. Individual and group projects required for graduate credit.

A B E 506: Applied Computational Intelligence
(2-2) Cr. 3. Alt. F., offered even-numbered years.
Prereq: A B E 316 or equivalent, MATH 166, STAT 305
Applications of biologically inspired computational intelligence tools for data mining, system modeling, and optimization for agricultural, biological and other engineered systems. Introduction to Artificial Neural Networks, Support Vector Machines, Fuzzy Logic, Genetic Algorithms, Bayesian and Decision Tree learning. Fundamental Machine Vision techniques will be introduced in the first part of course and be integrated into the lab exercises for learning different computational intelligence techniques. MATLAB will be used throughout the course for algorithm implementation.
A B E 510: Electronic Systems Integration for Agricultural Machinery & Production Systems
(Dual-listed with A B E 410). Cr. 3. S.
Prereq: A B E 363 or E E 230 or E E 442 or E E 448
System architecture and design of electronics used in agricultural machinery and production systems. Emphasis on information technology and systems integration for automated agriculture processes. Design of Controller Area Network (CAN BUS) communication systems and discussion of relevant standards (ISO 11783 and SAE J1939). Application of technologies for sensing, distribution control, and automation of agricultural machinery will be emphasized.

A B E 511: Bioprocessing and Bioproducts
(3-0) Cr. 3. F.
Prereq: A B E 216 or equivalent, MATH 160 or MATH 165, one of CHEM 167 or higher, BIOL 173 or BIOL 211 or higher or BRT 501, senior or graduate classification

A B E 515: Integrated Crop and Livestock Production Systems
(Cross-listed with AGRON, AN S, SUSAG). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: SUSAG 509
Methods to maintain productivity and minimize the negative ecological effects of agricultural systems by understanding nutrient cycles, managing manure and crop residue, and utilizing multispecies interactions. Crop and livestock production within landscapes and watersheds is also considered. Course includes a significant field component, with student teams analyzing Iowa farms.

A B E 524: Air Pollution
(Dual-listed with A B E 424). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 524A: Air Pollution: Air quality and effects of pollutants
(Dual-listed with A B E 424A). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 524B: Air Pollution: Climate change and causes
(Dual-listed with A B E 424B). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 524C: Air Pollution: Transportation Air Quality
(Dual-listed with A B E 424C). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: C E 524A; PHYS 221 or CHEM 178; MATH 166 or 3 credits in statistics. Senior classification or above

A B E 524D: Air Pollution: Off-gas treatment technology
(Dual-listed with A B E 424D). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: C E 524A, C E 524B; Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above

A B E 524E: Air Pollution: Agricultural sources of pollution
(Dual-listed with A B E 424E). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 531: Design and Evaluation of Soil and Water Conservation Systems
(Dual-listed with A B E 431). (Cross-listed with ENSCI). (2-3) Cr. 3. F.
Prereq: E M 378 or CH E 356
Hydrology and hydraulics in agricultural and urbanizing watersheds. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design; relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality. Graduate students will prepare several research literature reviews on topics covered in the class in addition to the other assignments.

A B E 532: Nonpoint Source Pollution and Control
(Dual-listed with A B E 432). (Cross-listed with ENSCI). (3-0) Cr. 3. F.
Prereq: A B E 431 or C E 372
Characteristics and courses of non-point source (NPS) pollution in agricultural and urban watersheds, computer modeling and NPS pollution for terrestrial and aquatic systems, strategies to control and manage NPS pollution of water bodies, total maximum daily loads (TMDLs) and integrated watershed management. Graduate students are required to review research papers and develop/deliver lecture models on assigned topics.
A B E 533: Erosion and Sediment Transport
(Cross-listed with ENSCI, NREM). (2-3) Cr. 3. F.

**Prereq:** C E 372 or GEO/ENSCI/MTEOR 402, MATH 166 or equivalent

Soil erosion processes, soil loss equations and their application to conservation planning, sediment properties, initiation of sediment motion and over land flow, flow in alluvial channels and theory of sediment transport, channel stability, reservoir sedimentation, wind erosion, BMPs for controlling erosion.

A B E 536: Design and Evaluation of Soil and Water Monitoring Systems
(Dual-listed with A B E 436). (Cross-listed with ENSCI). (2-3) Cr. 3. Alt. S., offered even-numbered years.

**Prereq:** A B E 431

Development of monitoring systems that support effective planning, performance evaluation, modeling, or environmental impact assessment of soil-, water-, and waste-management systems. Typical soil and water pollutants and physical, chemical, and biological characteristics that affect sample location and timing. Sample collection, documentation, chain-of-custody, and quality assurance procedures. In addition to other assignments, graduate students will prepare several research literature reviews on topics covered in the class and develop monitoring plans.

A B E 537: Watershed Modeling and Policy
(Dual-listed with A B E 437). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. F., offered odd-numbered years.

**Prereq:** CE 372 or equivalent

A project-based course on watershed-scale models for improving water quality. Legislative and judicial basis of the Total Maximum Daily Load (TMDL) program; approaches to TMDL development; principles and techniques for implementation; stakeholder engagement strategies. Hands-on experiences with GIS-interfaced models, data sources, calibration/validation, statistical assessment of model results, and simulation using multiple tools. In addition to other assignments, graduate students will present case studies of TMDLs using different modeling tools.

A B E 551: Food and Bioprocess Engineering
(Dual-listed with A B E 451). (3-0) Cr. 3. S.

**Prereq:** A B E 216 and credit or enrollment in M E 436 or CH E 357, or FS HN 351 and MATH 266 or MATH 267

Application of engineering principles and mathematical modeling to the quantitative analysis of food and bioprocessing systems. Physical/chemical characteristics of foods and biological systems, flow processes, thermal processes and separation processes. Term paper required for graduate credit.

A B E 569: Grain Processing and Handling
(Dual-listed with A B E 469). (2-3) Cr. 3. S.

**Prereq:** A B E 216

Cereal grain and oilseed preservation, quality measurement, and end-use value. Design of drying systems using computer simulation. Corn wet and dry milling. Soybean oil extraction. Grain handling systems. Individual and group projects required for graduate credit.

A B E 572: Design of Environmental Modification Systems for Animal Housing
(Dual-listed with A B E 472). (3-0) Cr. 3. Alt. S., offered even-numbered years.

**Prereq:** A B E 216, M E 231

Principles and design of animal environmental control systems. Insulation, heat and mass transfer, fans, ventilation, air distribution, heating and cooling equipment, and controls. Individual and group projects required for graduate credit.

A B E 578: Wood Frame Structural Design
(Dual-listed with A B E 478). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

**Prereq:** M E 231, E M 324

A B E 580: Engineering Analysis of Biological Systems
(Dual-listed with A B E 480). (2-2) Cr. 3. F.

**Prereq:** A B E 380 or permission of the instructor

Systems-level quantitative analysis of biological systems, including applications in foods, feeds, biofuels, bioenergy, and other biological systems. Introduction to economic analysis and life-cycle assessment of these systems at multiple production scales. Applying these tools to evaluate and improve cost and sustainability performance of these biological systems. Students enrolled in ABE 580 will be required to answer additional exam questions and report on two journal articles.

A B E 590: Special Topics in Agricultural & Biosystems Engineering
Cr. 1-3. Repeatable.

Guided instruction and self-study on special topics relevant to agricultural and biosystems engineering.
A B E 598: Technical Communications for a Master’s Degree
(Cross-listed with TSM). Cr. 1. F.S.SS.
A technical paper draft based on the M.S. thesis or creative component is required of all master’s students. This paper must be in a form that satisfies the requirements of some specific journal and be ready for submission. A technical presentation based on M.S. thesis or creative component is required of all master’s students. This presentation must be in a form that satisfies the normal presentation requirements of a professional society. The presentation itself (oral or poster) may be made at a professional society meeting or at any international, regional, state, or university conference/event as long as the presentation content and form conforms to normal expectations. Offered on a satisfactory-fail basis only.

Courses for graduate students:

A B E 601: Graduate Seminar
(Cross-listed with TSM). (1-0) Cr. 1. F.
Keys to starting a good MS thesis or PhD dissertation project. Learning how to begin formulating research questions. Review of literature, research hypotheses, objectives, methods, making figures and tables, and discussing results. Discussion of appropriate outlets including peer-reviewed journals, patents and intellectual property rights, responsible conduct, plagiarism, authorship, and reproducible research. Using peer review, conducting a peer review, and responding to feedback. Other topics may include on-campus library resources, data management, and time management.

A B E 610: Foundations of Sustainable Agriculture
(Cross-listed with AGRON, ANTHR, SOC, SUSAG). (3-0) Cr. 3. F.
Prereq: Graduate classification, permission of instructor
Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

A B E 690: Advanced Topics
Cr. arr. Repeatable.
Advanced topics.

A B E 694: Teaching Practicum
(Cross-listed with TSM). Cr. 1-3. Repeatable. F.S.
Prereq: Graduate classification and permission of instructor
Graduate student experience in the agricultural and biosystems engineering departmental teaching program.

A B E 697: Engineering Internship
Cr. R. Repeatable.
Prereq: Permission of department chair, graduate classification
One semester and one summer maximum per academic year professional work period.

A B E 698: Technical Communications for a Doctoral Degree
(Cross-listed with TSM). Cr. 1. F.S.SS.
A technical paper draft based on the dissertation is required of all Ph.D. students. This paper must be in a form that satisfies the requirements of some specific journal and be ready for submission. A technical presentation based on the dissertation is required of all Ph.D. students. This presentation must be in a form that satisfies the normal presentation requirements of a professional society. The presentation itself (oral or poster) may be made at a professional society meeting or at any international, regional, state, or university conference/event as long as the presentation content and form conforms to normal expectations. Offered on a satisfactory-fail basis only.

A B E 699: Research
Cr. arr. Repeatable.
Research.

A B E 699B: Research: Biosystems Engineering
Cr. arr. Repeatable.
Guided graduate research in biosystems engineering.

A B E 699C: Research: Computer Aided Design
Cr. arr. Repeatable.
Guided graduate research in computer-aided design.

A B E 699E: Research: Environmental Systems
Cr. arr. Repeatable.
Guided graduate research in environmental systems.

A B E 699F: Research: Food Engineering
Cr. arr. Repeatable.
Guided graduate research in food engineering.

A B E 699O: Research: Occupational Safety
Cr. arr. Repeatable.
Guided graduate research in occupational safety.

A B E 699P: Research: Power and Machinery Engineering
Cr. arr. Repeatable.
Guided graduate research in power and machinery engineering.

A B E 699Q: Research: Structures
Cr. arr. Repeatable.
Guided graduate research in structures.
A B E 699R: Research: Process Engineering
Cr. arr. Repeatable.
Guided graduate research in process engineering.

A B E 699S: Research: Environment and Natural Resources
Cr. arr. Repeatable.
Guided graduate research in environment and natural resources.

A B E 699U: Research: Waste Management
Cr. arr. Repeatable.
Guided graduate research in waste management.

Agronomy (AGRON)

Courses primarily for undergraduates:

AGRON 105: Leadership Experience
Cr. R. F.S.S.
A participatory experience in activities or completion of a course that enhances the development of leadership and group-dynamic skills. See adviser for departmental requirements.

AGRON 110: Professional Development in Agronomy: Orientation
Cr. 1. F.
Orientation to college life, the profession of agronomy, and the agronomy curriculum.

AGRON 120: Introduction to Renewable Resources
(Cross-listed with ENV S, NREM), (3-0) Cr. 3. F.S.
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

AGRON 160: Water Resources of the World
(Cross-listed with ENV S, GEOL, MTEOR), (3-0) Cr. 3. S.
Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment. Meets International Perspectives Requirement.

AGRON 180: Global Agriculture in a Changing World
(3-0) Cr. 3. F.
The global distribution of climate and soils and the physical processes that connect natural resources to agriculture and the environment. How agricultural production is distributed among food, feed, fiber, and energy. The impact of global change on the increasing demand for agricultural production. Meets International Perspectives requirement. Meets International Perspectives Requirement.

AGRON 181: Introduction to Crop Science
(3-0) Cr. 3. F.S.
Basic structure and function of plants, origin and classification, growth and development. Fundamentals of photosynthesis, plant water use, plant nutrition and genetics that regulate plant growth, development and responses to the environment.

AGRON 182: Introduction to Soil Science
(3-0) Cr. 3. F.S.
Prereq: Chem 163
Introduction to physical, chemical, and biological properties of soils; soil formation, classification and global distribution; soil health, soils and humanity and sustainable land management.

AGRON 183: Basic Skills for Agronomists
(0-3) Cr. 1. F.
Developing the skills that agronomists employ in their work with crops, soil, and the environment through activities involving tools and methodologies used by agronomists. Enrollment is restricted to first-year students majoring in agronomy.

AGRON 206: Introduction to Weather and Climate
(Cross-listed with MTEOR), (3-0) Cr. 3. F.S.
Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.

AGRON 210: Professional Development in Agronomy: Career Planning
(1-0) Cr. 1. F.
Prereq: Sophomore classification
Career planning, résumé and cover letter preparation, and interviewing techniques. Career orientation through invited speakers.

AGRON 217: Weed Identification
(1-2) Cr. 1. F.S.
Prereq: BIOL 101 or equivalent

AGRON 259: Organic Compounds in Plants and Soils
(3-0) Cr. 3. S.
Prereq: CHEM 163, BIOL 212, MATH 140; AGRON 182 (or equivalent) or AGRON 282 or equivalent
Structure, function, and transformations of organic compounds significant in plant and soil environments.
AGRON 279: Field Exploration of Agronomy
(2-3) Cr. 3. F.
Prereq: AGRON 181 or equivalent and AGRON 182 or equivalent
Field-based investigation of Iowa's agronomic systems. Application of principles learned in introductory soils, crops and agronomy courses. For students majoring in Agronomy.

AGRON 280: Crop Development, Production and Management
(3-0) Cr. 3. F.S.
Prereq: AGRON 181 or equivalent and AGRON 182 or equivalent
Overview of crops and cropping systems in the context of global and US agriculture. Focus on agronomic principles, constraints and opportunities as they apply to various locations in Iowa, the USA and the world.

AGRON 281: Crop Physiology
(3-0) Cr. 3. S.
Prereq: Agron 181 or equivalent
Science governing plant growth and development in the context of cropping and genetic improvements.

AGRON 282: Soil Conservation and Land Use
(3-0) Cr. 3. F.S.
Prereq: Agron 182 or equivalent
Principles of soil conservation and land use with emphasis on best management practices and use of soil maps and databases such as Web Soil Survey.

AGRON 283: Pesticide Application Certification
(Cross-listed with ENT, FOR, HORT). (2-0) Cr. 2. S.
Core background and specialty topics in agricultural, and horticultural pesticide applicator certification. Students can select certification categories and have the opportunity to obtain pesticide applicator certification at the completion of the course. Commercial pesticide applicator certification is emphasized.

AGRON 298: Cooperative Education
Cr. R. F.S.S.
Prereq: Permission of department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

AGRON 310: Professional Development in Agronomy: Work Experience
Cr. R. F.S.S.
Professional work experience in agronomy. See adviser for departmental requirements. Offered on a satisfactory-fail basis only.
AGRON 338: Seed Science and Technology
(Cross-listed with HORT). (2-3) Cr. 3. F.
Prereq: AGRON 181 (or equivalent) or HORT 221; BIOL 212
Seed production, maturation, dormancy, vigor, deterioration, and related aspects of enhancement, conditioning, storage, and quality evaluation. Aspects of the seed industry and regulation of seed marketing.

AGRON 342: World Food Issues: Past and Present
(Cross-listed with ENV S, FS HN, T SC). (3-0) Cr. 3. F.S.
Prereq: Junior classification
Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects.
Meets International Perspectives Requirement.

AGRON 342H: World Food Issues: Past and Present, Honors
(Cross-listed with ENV S, T SC). (3-0) Cr. 3. F.S.
Prereq: Junior classification
Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects.
Meets International Perspectives Requirement.

AGRON 351: Turfgrass Establishment and Management
(Cross-listed with HORT). (3-0) Cr. 3. F.
Prereq: HORT 221 or AGRON 181 (or equivalent) or BIOL 211
Principles and practices of turfgrass propagation, establishment, and management. Specialized practices relative to professional lawn care, golf courses, athletic fields, highway roadsides, and seed and sod production. The biology and control of turfgrass pests.

AGRON 351L: Turfgrass Establishment and Management Laboratory
(Cross-listed with HORT). (0-3) Cr. 1. F.
Prereq: Credit or enrollment in HORT 351
Those enrolled in the horticulture curriculum are required to take 351L in conjunction with 351 except by permission of the instructor.

AGRON 354: Soils and Plant Growth
(Cross-listed with HORT). (3-0) Cr. 3. F.S.
Prereq: AGRON 182 or equivalent and BIOL 101
Effects of chemical, physical, and biological properties of soils on plant growth, with emphasis on nutritive elements, pH, organic matter maintenance, and rooting development.

AGRON 354L: Soils and Plant Growth Laboratory
(Cross-listed with HORT). (0-3) Cr. 1. F.S.
Prereq: Agron or Hort major with credit or enrollment in AGRON 354
Laboratory exercises in soil testing that assess a soil’s ability to support nutritive requirements for plant growth.

AGRON 360: Environmental Soil Science
(Cross-listed with ENSCI). (2-2) Cr. 3. S.
Prereq: AGRON 182 (or equivalent) or ENSCI 250 or GEOL 201
Application of soil science to contemporary environmental problems; comparison of the impacts that different management strategies have on short- and long-term environmental quality and land development. Emphasis on participatory learning activities.

AGRON 370: Field Experience in Soil Description and Interpretation
(0-3) Cr. 1. Repeatable, maximum of 4 times. F.S.
Prereq: AGRON 182 or equivalent and permission of instructor
Description and interpretation of soils in the field and laboratory, emphasizing hands-on experience. Evaluation of soil information for land use. Students may participate in intercollegiate judging contests.

AGRON 388: Agronomic Sciences in Theory and Practice
(1-0) Cr. 1. F.
Prereq: Junior or senior classification
How science works: Hypotheses, data integrity, classification, interpretations, ethics, and communications.

AGRON 392: Systems Analysis in Crop and Soil Management
(2-3) Cr. 3. F.S.
Prereq: AGRON 316 and AGRON 354
Management strategies at the level of the farm field. Emphasis will be on participatory learning activities.

AGRON 398: Cooperative Education
Cr. R. F.S.S.
Prereq: Permission of department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

AGRON 402I: Watershed Hydrology and Surficial Processes
(Cross-listed with ENSCI, IA LL). Cr. 4. SS.
Prereq: Four courses in physical or biological sciences or engineering
Effects of geomorphology, soils, and land use on transport of water and materials (nutrients, contaminants) in watersheds. Fieldwork will emphasize investigations of the Iowa Great Lakes watershed.
AGRON 404: Global Change
(Dual-listed with AGRON 504). (Cross-listed with ENSCI, ENV S, MTEOR). 
(3-0) Cr. 3. S.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.

AGRON 405: Environmental Biophysics
(Dual-listed with AGRON 505). (Cross-listed with ENSCI, MTEOR). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language)
Description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities.

AGRON 406: World Climates
(Cross-listed with ENSCI, MTEOR). (3-0) Cr. 3. S.
Prereq: AGRON 206/MTEOR 206
Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Meets International Perspectives Requirement.

AGRON 407: Mesoscale Meteorology
(Dual-listed with AGRON 507). (Cross-listed with MTEOR). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Math 166 and Mteor 443

AGRON 410: Professional Development in Agronomy: Senior Forum
(1-0) Cr. 1. F.S.
Prereq: Senior classification
Development of an appropriate content for professionalism. Topics include professional certification, ethics, and maintaining an active network of information sources and professional contacts in support of lifelong learning. Student interpretation, writings, presentations, and discussions.

AGRON 421: Introduction to Plant Breeding
(Cross-listed with HORT). (3-0) Cr. 3. F.
Prereq: GEN 320 or BIOL 313
Fundamental principles of plant breeding and cultivar development, breeding methods for self-pollinated, cross-pollinated and clonal crops.

AGRON 446: International Issues and Challenges in Sustainable Development
(Cross-listed with GLOBE, INTST). Cr. 3. F.S.
Prereq: 3-credit biology course, Sophomore or higher classification, permission of Instructor
Interdisciplinary study and analysis of agricultural systems, sustainable management, and impact on plants and animal biodiversity. International field experience in evaluating different agricultural systems and impact on biodiversity may be required. A program fee is charged to students for international study abroad. Meets International Perspectives Requirement.

AGRON 450: Issues in Sustainable Agriculture
(Cross-listed with ENV S). (3-0) Cr. 3. F.
Agricultural science as a human activity; contemporary agricultural issues from agroecological perspective. Comparative analysis of intended and actual consequences of development of industrial agricultural practices.

AGRON 452: GIS for Geoscientists
(Dual-listed with AGRON 552). (Cross-listed with ENSCI, GEOL). (2-2) Cr. 3. F.S.
Prereq: GEOL 100, GEOL 201 or equivalent
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI’s ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

AGRON 459: Environmental Soil and Water Chemistry
(Dual-listed with AGRON 559). (Cross-listed with ENSCI). (3-3) Cr. 4. F.
Prereq: Two semesters of college-level chemistry, MATH 140, AGRON 182 (or equivalent) or AGRON 360; GEOL 100 and AGRON 354 recommended
An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, and applications to contemporary environmental issues.
AGRON 463: Soil Formation and Landscape Relationships
(Dual-listed with AGRON 563). (Cross-listed with ENSCI). (3-0) Cr. 3. S.
Prereq: AGRON 182 (or equivalent) or AGRON 260
Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. Credit for one of AGRON 463 or AGRON 463I may be applied for graduation.

AGRON 463I: Soil Formation and Landscape Relationships
(Dual-listed with AGRON 563I). (Cross-listed with ENSCI, IA LL). Cr. 2. Alt. SS., offered even-numbered years.
Prereq: AGRON 182 (or equivalent)
Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 563I may be applied for graduation.

AGRON 463L: Soil Formation and Landscape Relationships Laboratory
(0-3) Cr. 1. S.
Prereq: Credit or enrollment in Agron 463
Laboratory exercise in soil formation with landscape relationships including pedon description with soil mapping.

AGRON 477: Soil Physics
(Dual-listed with AGRON 577). (Cross-listed with ENSCI). (3-0) Cr. 3. S.
Prereq: AGRON 182 or equivalent and MATH 166 recommended
The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat.

AGRON 484: Organic Agricultural Theory and Practice
(Dual-listed with AGRON 584). (Cross-listed with HORT). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: 9 cr. in biological or physical sciences
Understanding of the historical origins and ecological theories underpinning the practices involved in organic agriculture. Interdisciplinary examination of crop and livestock production and socio-economic processes and policies in organic agriculture from researcher and producer perspectives.

AGRON 485: Soil and Environmental Microbiology
(Dual-listed with AGRON 585). (Cross-listed with ENSCI, MICRO). (2-3) Cr. 3. F.
Prereq: AGRON 182 or equivalent; MICRO 201 and MICRO 201L recommended
The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues.

AGRON 488: GIS for Geoscientists II
(Dual-listed with AGRON 588). (Cross-listed with ENSCI, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

AGRON 490: Independent Study
Cr. 1-3. Repeatable, maximum of 4 credits. F.S.SS.
Prereq: Junior or senior classification with at least 8 credits in agronomy; permission of instructor in specialty area after consultation
Selected studies in crops, soils, or agricultural meteorology according to the needs and interests of the student.

AGRON 490E: Independent Study: Entrepreneurship
Cr. 1-3. Repeatable, maximum of 4 credits. F.S.SS.
Prereq: Junior or senior classification with at least 8 credits in agronomy; permission of instructor in specialty area after consultation
Selected studies in crops, soils, or agricultural meteorology according to the needs and interests of the student.

AGRON 490G: Independent Study: General
Cr. 1-3. Repeatable, maximum of 4 credits. F.S.SS.
Prereq: Junior or senior classification with at least 8 credits in agronomy; permission of instructor in specialty area after consultation
Selected studies in crops, soils, or agricultural meteorology according to the needs and interests of the student.

AGRON 490H: Independent Study: Honors
Cr. 1-3. Repeatable, maximum of 4 credits. F.S.SS.
Prereq: Junior or senior classification with at least 8 credits in agronomy; permission of instructor in specialty area after consultation
Selected studies in crops, soils, or agricultural meteorology according to the needs and interests of the student.

AGRON 490Z: Independent Study: Service Learning
Cr. 1-3. Repeatable, maximum of 4 credits. F.S.SS.
Prereq: Junior or senior classification with at least 8 credits in agronomy; permission of instructor in specialty area after consultation
Selected studies in crops, soils, or agricultural meteorology according to the needs and interests of the student.
AGRON 491: Seed Science Internship Experience
(Cross-listed with HORT). Cr. 1-2. Repeatable, maximum of 1 times.
F.S.S.S.
Prereq: Agron 338, advanced approval and participation of employer and instructor
A professional work experience and creative project for seed science secondary majors. The project requires the prior approval and participation of the employer and instructor. The student must submit a written report.

AGRON 493: Workshop in Agronomy
Cr. arr. Repeatable, maximum of 4 times.
Prereq: Permission of instructor
Workshop experience in crops, soils, or agricultural meteorology.

AGRON 496: Agricultural Travel Course
Cr. arr. Repeatable.
Prereq: Permission of instructor
Limited enrollment. Tour and study of production methods in major crop and livestock regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, and other factors on crop and livestock production. Location and duration of tours will vary. Tour expenses paid by students. Check with department for current offerings.

AGRON 496A: International Tour
Cr. arr. Repeatable.
Prereq: Permission of instructor
Limited enrollment. Tour and study of production methods in major crop and livestock regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, and other factors on crop and livestock production. Location and duration of tours will vary. Tour expenses paid by students. Check with department for current offerings. Meets International Perspectives Requirement.

AGRON 496B: Domestic Tour
Cr. arr. Repeatable.
Prereq: Permission of instructor
Limited enrollment. Tour and study of production methods in major crop and livestock regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, and other factors on crop and livestock production. Location and duration of tours will vary. Tour expenses paid by students. Check with department for current offerings.

AGRON 497: Agroecology Field Course
(3-0) Cr. 3. F.
Prereq: Jr. or Sr. classification with at least 8 credits in Agronomy
A one-week intensive class, offered off-campus. Student will visit farms within the Midwest and analyze the sustainability of each farm.

AGRON 498: Cooperative Education
Cr. R. F.S.S.S.
Prereq: Permission of department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

AGRON 500: Orientation Seminar
(2-0) Cr. 1. F.
Prereq: International agronomy graduate students only
An introduction to Iowa and U.S. agriculture for international scholars in agronomic majors. Field trips when possible. Departmental role in the functioning of research, teaching, and extension in fulfilling the charge given the land-grant university.

AGRON 501: Crop Growth and Development
(3-0) Cr. 3. F.S.
Prereq: AGRON 181 or equivalent, MATH 140, CHEM 163, BIOL 101
Physiological processes in crop growth, development and yield: photosynthesis, respiration, water relations, mineral nutrition, assimilate partitioning, seedling vigor, light interception and canopy growth, root growth, reproduction and yield. Required course for the Master of Science in Agronomy degree program and Agronomy Graduate Certificate program.

AGRON 502: Chemistry, Physics, and Biology of Soils
(3-0) Cr. 3. F.Alt. S., offered odd-numbered years.
Prereq: AGRON 181 or equivalent, AGRON 182 or equivalent, BIOL 101, CHEM 163, MATH 140
Soil chemical, physical, and biological properties that control processes within the soil, their influence on plant/soil interactions, and soil classification. Basic concepts in soil science and their applications. Required course for the Master of Science in Agronomy degree program and Agronomy Graduate Certificate program.

AGRON 503: Climate and Crop Growth
(3-0) Cr. 3. F.S.
Prereq: AGRON 181 or equivalent and MATH 140
Applied concepts in climate and agricultural meteorology with emphasis on the climate-agriculture relationship and the microclimate-agriculture interaction and crop risk management. Basic meteorological principles are also presented to support these applied concepts. Required course for the Master of Science in Agronomy degree program and Agronomy Graduate Certificate program.
AGRON 504: Global Change
(Dual-listed with AGRON 404). (Cross-listed with ENSCI, MTEOR). (3-0) Cr. 3. S.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.

AGRON 505: Environmental Biophysics
(Dual-listed with AGRON 405). (Cross-listed with ENSCI, MTEOR). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language)
Description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities.

AGRON 506: Crop Genetics
(Cross-listed with HORT). Cr. 3. F.
Introduction to genetics of reproductive systems, recombination, segregation and linkage analysis, inbreeding, quantitative inheritance, fertility regulation, and polyploidy to prepare students for subsequent courses in crop improvement. Enrollment is restricted to off-campus MS in Plant Breeding students.

AGRON 507: Mesoscale Meteorology
(Dual-listed with AGRON 407). (Cross-listed with MTEOR). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Math 166 and Mteor 454
The physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure. Semester project and in-class presentation required.

AGRON 508: Biophysical Crop Ecology
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: AGRON 505

AGRON 509: Agroecosystems Analysis
(Cross-listed with SOC, SUSAG). (3-4) Cr. 4. F.
Prereq: Senior or above classification; permission of instructor
Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing both field visits and classroom activities. Focus on understanding multiple elements, perspectives (agronomic, economic, ecological, social, etc.), and scales of operation.

AGRON 510: Crop Improvement
(Cross-listed with STB). (3-0) Cr. 3. F.
Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor

AGRON 511: Crop Improvement
(3-0) Cr. 3. F.S.
Prereq: AGRON 181 or equivalent, MATH 140, CHEM 163, BIOL 101
Basic principles in the genetic improvement of crop plants. Methods of cultivar development in self-pollinated and cross-pollinated crop species. Required course for the Master of Science in agronomy degree program and agronomy graduate certificate program.

AGRON 512: Soil-Plant Environment
(3-0) Cr. 3. S.
Prereq: AGRON 502. Recommended AGRON 501
Soil properties and their impact on soil/plant relationships. Soil structure, aeration, moisture, and nutrients will be discussed in the context of soil fertility and environmental quality management. Required course for the Master of Science in agronomy degree program and agronomy graduate certificate program.

AGRON 513: Quantitative Methods for Agronomy
(3-0) Cr. 3. F.S.
Prereq: AGRON 181 or equivalent, MATH 140, STAT 104
Quantitative methods for analyzing and interpreting agronomic information. Principles of experimental design, hypothesis testing, analysis of variance, regression, correlation, and graphical representation of data. Use of SAS and Excel for organization, analyzing, and presenting data. Required course for the Master of Science in Agronomy degree program.
AGRON 514: Integrated Pest Management  
(3-0) Cr. 3. F.S.  
Prereq: AGRON 181 or equivalent, AGRON 501, MATH 140, CHEM 163, BIOL 101; AGRON 502 and AGRON 503 recommended  
Principles and practices of weed science, entomology, and plant pathology applied to crop production systems. Biology, ecology and principles of integrated crop pest management. Required course for the Master of Science in Agronomy degree program and Agronomy Graduate Certificate program.

AGRON 515: Integrated Crop and Livestock Production Systems  
(Cross-listed with ABE, ANS, SUSAG). (3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: SUSAG 509  
Methods to maintain productivity and minimize the negative ecological effects of agricultural systems by understanding nutrient cycles, managing manure and crop residue, and utilizing multispecies interactions. Crop and livestock production within landscapes and watersheds is also considered. Course includes a significant field component, with student teams analyzing Iowa farms.

AGRON 516: Crop Physiology  
(3-0) Cr. 3. S.  
Investigation of Molecular, whole plant, and plant community processes essential to biomass production and seed formation, and analysis of molecular approaches to overcome the limitations imposed on these processes by the environment.

AGRON 518: Microwave Remote Sensing  
(Cross-listed with E E, MTEOR). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: Math 265 or equivalent  
Microwave remote sensing of Earth's surface and atmosphere using satellite-based or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.

AGRON 519: Herbicide Physiology and Biochemistry  
(2-0) Cr. 2. Alt. S., offered even-numbered years.  
Prereq: AGRON 316 (or equivalent) and AGRON 317  
Herbicide mechanisms of action, selectivity, uptake, and translocation. Specific sites of herbicide action as they affect plant physiology. Herbicide resistance in weeds and crops. Implications of herbicides on weed management.

AGRON 520: Plant Breeding Methods  
Cr. 3. S.  
Prereq: AGRON 506  
Breeding methods used in the genetic improvement of self-pollinated, cross-pollinated and asexually reproducing agronomic and horticultural crops. Application of biotechnology techniques in the development of improved cultivars.

AGRON 521: Principles of Cultivar Development  
(3-0) Cr. 3. F.  
Prereq: AGRON 421 and STAT 401  
Theoretical and practical exploration of breeding methods to develop clonal, pureline, inbred and hybrid cultivars. Principles and strategies to set breeding objectives, parental selection and germplasm management, population development, generation advancements, multiple trait selection, experimental designs in breeding programs; seed production and certification. Introduce tools available to a breeder.

AGRON 522: Field Methods in Plant Breeding  
(0-6) Cr. 1-2. Alt. SS., offered odd-numbered years.  
Prereq: AGRON 521  
Field experience in planning and conducting plant breeding research for germplasm and cultivar development. Offered on a satisfactory-fail basis only.

AGRON 523: Molecular Plant Breeding  
(2-2) Cr. 3. S.  
Prereq: AGRON 421 or AGRON 521, GDCB 542A  
Plant breeding in the era of sequenced genomes and transformation. High throughout genomic technologies will be presented in relation to various applications in plant breeding.

AGRON 524: Applied Plant Molecular Genetics & Biotechnology  
Cr. 3. F.  
Prereq: AGRON 506  
Basic principles and applied techniques used in the genetic improvement of crop plants. Discussion of structure and function of genes that control traits of value. Types of molecular markers, analysis of quantitatively inherited traits, genome mapping, analyses of databases.

AGRON 525: Crop and Soil Modeling  
(3-0) Cr. 3. F.  
Prereq: MATH 165 or Math 181 or equivalent; AGRON 316 or Agron 354 or equivalent.  
Understanding basic crop physiology and soil processes through the use of mathematical and statistical approaches. Structure of crop models, dynamics and relationship among components such as leaf-level photosynthesis, canopy architecture, root dynamics and soil carbon and nitrogen pools.
AGRON 526: Field Plot Technique  
(3-0) Cr. 3. S.  
*Prereq: STAT 401*  
Planning experiments for agricultural research, analysis of data, and concepts in data interpretation.

AGRON 528: Quantitative Genetics for Plant Breeding  
(3-0) Cr. 3. S.  
*Prereq: AGRON 506 or AGRON 513*  
An introduction to the application of quantitative genetics to plant breeding programs.

AGRON 530: Ecologically Based Pest Management Strategies  
(Cross-listed with ENT, PL P, SUSAG). (3-0) Cr. 3. Alt. F., offered even-numbered years.  
Durable, least-toxic strategies for managing weeds, pathogens, and insect pests, with emphasis on underlying ecological processes.

AGRON 531: Crop Ecology and Management  
(3-0) Cr. 3. F.  
*Prereq: AGRON 501, AGRON 502, AGRON 503; AGRON 512 and AGRON 514 recommended*  
Ecological principles underlying crop production systems. Crop production in the context of management approaches, system resources and constraints, and interactions. Emphasis on the ecology of row and forage crops common to the Midwest. Required course for the Master of Science in Agronomy degree program.

AGRON 532: Soil Management  
(3-0) Cr. 3. F.  
*Prereq: AGRON 501, AGRON 503, AGRON 512. Recommended AGRON 513*  
Evaluates the impact of various soil management practices on soil and water resources. Combines and applies basic information gained in Agron 502 and Agron 512. Emphasizes the agronomic, economic, and environmental effects of soil management strategies. Required course for the Master of Science in Agronomy degree program.

AGRON 533: Crop Protection  
(3-0) Cr. 3. F.S.S.  
*Prereq: AGRON 514*  
Integrated management systems for important crop pests. Cultural, biological and chemical management strategies applicable to major crops grown in the Midwest. Required course for the Master of Science in Agronomy degree program.

AGRON 534: Seed and Variety, Testing and Technology  
(Cross-listed with STB). (2-0) Cr. 2.  
*Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor*  
The components of seed quality and how they are assessed in the laboratory, including traits derived from modern biotechnology. The impact of new technologies on seed quality testing. Variety maintenance procedures and breeder seed. Variety identification: phenotype and grow-out trials, isozyme testing, and DNA marker testing. Procedures for evaluating varieties. The variance tests appropriate for fixed effects analysis of variance. Statistical inference and stratification for yield trials. Use of strip plot testing.

AGRON 535: Introduction to the Seed Industry  
(Cross-listed with STB). Cr. 1.  
*Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor*  
An analysis of the defining characteristics of the seed industry and introduction to the Master in Seed Technology and Business curriculum. The tasks of crop improvement and seed production will be analytically related to basic management functions and classifications of management activities. Management tasks and roles will be analyzed and related to the public policy issues that shape the seed industry. Current issues in the seed industry including ethical and economical approaches to biotechnology, intellectual property, and corporate responsibility will be discussed.

AGRON 536: Quantitative Methods for Seed  
(Cross-listed with STB). (2-0) Cr. 2. F.  
*Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor*  
Quantitative Methods for analyzing and interpreting agronomic and business information for the seed industry. Principles of experimental design and hypothesis testing, regression, correlation, analysis of variance, and graphical representation of data. Use of spreadsheets and statistical software for manipulating, analyzing and presenting data.

AGRON 538: Seed Physiology and the Environment  
(Cross-listed with HORT). (2-0) Cr. 2. Alt. F., offered even-numbered years.  
*Prereq: AGRON 316; CHEM 231 or CHEM 331*  
Physiological aspects of seed development, maturation, longevity, dormancy, and germination of agronomic and horticultural crops and their interactions with field and storage environments. Emphasis on current literature and advanced methodology.
AGRON 539: Seed Conditioning and Storage
(Cross-listed with STB). (2-0) Cr. 2. F.
Prereq: Admission to the Seed Technology and Business Master’s Degree Program or approval of the instructor
The technical operations which may be carried out on a seed lot from harvest until it is ready for marketing and use. The opportunities for quality improvement and the risks of deterioration which are present during that time. Analysis of the costs of and benefits of operations. Evaluation of equipment based on benefits to the customer and producer. Interpretation of the role of the conditioning plant and store as focal points within the overall operations of a seed company.

AGRON 541: Applied Agricultural Meteorology
Cr. 2-3. F.S.S.
Prereq: AGRON 206 or upper division Biological Science
Applied concepts in agricultural meteorology. Basic concepts of weather and of crop/climate relationships influencing production, protection, yield and associated production risk factors. Self study sections are available to resident and to distant education students all semesters. Credit for only one of Agron 503 or 541 may be applied toward graduation.

AGRON 544: Host-Pest Interactions
Cr. 3. F.
Prereq: AGRON 501
Incorporation of the principles of integrated pest management and crop protection. Management systems (biological, cultural, chemical) and strategies which practice principles of weed science, plant pathology, and entomology. Enrollment is restricted to off-campus students in Agronomy MS in Plant Breeding.

AGRON 546: Strategies for Diversified Farming Systems
(Cross-listed with HORT, SUSAG). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: SUSAG 509
Project-focused engagement in food and farming systems using tools and perspectives drawn from multiple disciplines. Includes a field component.

AGRON 547: Seed Production
(Cross-listed with STB). (2-0) Cr. 2.
Prereq: Admission to the Seed Technology and Business Master’s Degree Program or approval of the instructor
Survey of crop production; including management of soil fertility, planting dates, populations, weed control, and insect control. Analysis of the principles of seed multiplication and the key practices which are used to ensure high quality in the products. Field inspection procedures and production aspects that differ from other crop production. Foundation seed production. Analysis of the typical organization of field production tasks. Survey of the differences in seed production strategies between crops and the impact of these differences on seed production.

AGRON 551: Growth and Development of Perennial Grasses
(Cross-listed with HORT). (2-0) Cr. 2. Alt. S., offered even-numbered years.
Prereq: Junior or senior or graduate classification or permission of instructor
Selected topics on anatomy, morphology, and physiology relative to growth and development of perennial grasses. Emphasis on growth and development characteristics peculiar to grasses and variations of such characteristics under natural and managed conditions.

AGRON 552: GIS for Geoscientists
(Dual-listed with AGRON 452). (Cross-listed with ENSCI, GEOL). (2-2) Cr. 3.
F.S.
Prereq: GEOL 100, GEOL 201 or equivalent
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI’s ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

AGRON 553: Soil-Plant Relationships
(Cross-listed with ENSCI). (3-0) Cr. 3. S.
Prereq: AGRON 354
Composition and properties of soils in relation to the nutrition and growth of plants.

AGRON 554: Advanced Soil Management
(2-0) Cr. 2. Alt. F., offered odd-numbered years.
Prereq: AGRON 354; MATH 165
Implications of soil management on the soil environment and root activity. Effect of soil physical properties on soil erosion.

AGRON 555: Environmental Soil Mineralogy
(Cross-listed with GEOL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: AGRON 473, CHEM 178. Recommend: GEOL 311
Structure and behavior of clay minerals, humic substances and biochar in soil environments, with emphasis on reactions and environmental implications.

AGRON 556: Agroecosystem Nutrient Cycles
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: 3 credits in chemistry and 6 credits in biology; Recommended: ENSCI 382, ENSCI 553, or upper-level coursework in nutrient cycles
Major, biologically important agroecosystem nutrient cycles as linked to energy (carbon) and water. Effects of agricultural production and management on cycling within systems and transfer among system at local, regional and global scales will be emphasized.
AGRON 558: Laboratory Methods in Soil Chemistry
(Cross-listed with ENSCI). (2-3) Cr. 3. Alt. F., offered even-numbered years.
**Prereq:** AGRON 354 and CHEM 211
Experimental and descriptive inorganic and organic analyses. Operational theory and principles of applicable instruments, including spectrophotometry, atomic and molecular absorption and emission spectroscopy, mass spectrometry, X-ray diffraction and fluorescence, gas and ion chromatography, and ion-selective electrodes.

AGRON 559: Environmental Soil and Water Chemistry
(Dual-listed with AGRON 459). (Cross-listed with ENSCI). (3-3) Cr. 4. F.
**Prereq:** Two semesters of college-level chemistry, MATH 140, AGRON 182 (or equivalent) or AGRON 360; GEOL 100 and AGRON 354 recommended
An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, and applications to contemporary environmental issues.

AGRON 561: Population and Quantitative Genetics for Breeding
(Cross-listed with AN S). (4-0) Cr. 4. F.
**Prereq:** STAT 401
Population and quantitative genetics for plant and animal genetics. Study of the genetic basis and analysis of variation in quantitative traits in domestic or experimental populations using phenotypic and molecular marker data, including estimation of heritability and other genetic parameters, linkage analysis and mapping of quantitative trait loci, and the impact of inbreeding, heterosis, and genotype-by-environment interaction.

AGRON 563: Soil Formation and Landscape Relationships
(Dual-listed with AGRON 463). (Cross-listed with ENSCI). (3-0) Cr. 3. S.
**Prereq:** AGRON 182 (or equivalent) or AGRON 260
Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. Credit for one of AGRON 463 or AGRON 463I may be applied for graduation.

AGRON 563I: Soil Formation and Landscape Relationships
(Dual-listed with AGRON 463I). (Cross-listed with ENSCI, IA LL). Cr. 2. Alt. SS., offered even-numbered years.
**Prereq:** AGRON 182 (or equivalent)
Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 563I may be applied for graduation.

AGRON 570: Risk Assessment for Food, Agriculture and Veterinary Medicine
(Cross-listed with TOX, VDPAM). (3-0) Cr. 3. F.
**Prereq:** Statistics 300-level or higher.

AGRON 575: Soil Formation and Transformation
(Cross-listed with ENSCI). (3-0) Cr. 3. F.
**Prereq:** AGRON 463 or equivalent
Advanced study of soil formation, emphasizing relationships among soils, landscapes, environment, humans, and land use.

AGRON 577: Soil Physics
(Dual-listed with AGRON 477). (Cross-listed with ENSCI). (3-0) Cr. 3. S.
**Prereq:** AGRON 182 or equivalent and MATH 166 recommended
The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat.

AGRON 578: Laboratory Methods in Soil Physics
(Cross-listed with ENSCI). (0-3) Cr. 1. S.
**Prereq:** concurrent enrollment in AGRON 477 or AGRON 577
Methods of measuring soil physical properties such as texture, density, and water content, and transport of heat, water, and gases.

AGRON 584: Organic Agricultural Theory and Practice
(Dual-listed with AGRON 484). (Cross-listed with HORT, SUSAG). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
**Prereq:** 9 cr. in biological or physical sciences
Understanding of the historical origins and ecological theories underpinning the practices involved in organic agriculture. Interdisciplinary examination of crop and livestock production and socio-economic processes and policies in organic agriculture from researcher and producer perspectives.

AGRON 585: Soil and Environmental Microbiology
(Dual-listed with AGRON 485). (Cross-listed with ENSCI, MICRO). (2-3) Cr. 3. F.
**Prereq:** AGRON 182 or equivalent; MICRO 201 and MICRO 201L recommended
The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues.
AGRON 588: GIS for Geoscientists II
(Dual-listed with AGRON 488). (Cross-listed with ENSCI, GEOL). (2-2) Cr. 3.
Alt. S., offered odd-numbered years.
Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

AGRON 590: Special Topics
Cr. arr. Repeatable.
Prereq: 15 credits in agronomy
Literature reviews and conferences on selected topics in crops, soils, or agricultural meteorology according to needs and interest of student.

AGRON 591: Agronomic Systems Analysis
(3-0) Cr. 3. S.
Prereq: AGRON 511, AGRON 513, AGRON 531, AGRON 532, AGRON 533
Analysis of cropping systems from a problem-solving perspective. Case studies will be used to develop the students’ ability to solve agronomic problems. Required course for the Master of Science in Agronomy degree program.

AGRON 592: Current Issues in Agronomy
(3-0) Cr. 3. F.S.
Prereq: AGRON 501, AGRON 503, AGRON 511, AGRON 512, AGRON 513, AGRON 514
Critical analysis and discussion of agricultural practices, programs, and policies of current interest to the field of agronomy. Leadership skill development through consideration of technical, social, and ethical components underlying controversial topics. Enhancement of communication proficiency through debate and writing in order to define problems, articulate possible solutions, and propose appropriate courses of action. Required course for the Master of Science in agronomy degree program.

AGRON 593: Workshop in Agronomy
Cr. arr. Repeatable.
Prereq: Graduate classification

AGRON 594: Agronomy MS Practicum
(1-0) Cr. 1. SS.
Prereq: AGRON 501, AGRON 502, AGRON 503, AGRON 514 (or current enrollment. Recommended: AGRON 511, AGRON 512, AGRON 513
Practical field and laboratory experiences integrating coursework in climatology, crops, and soils. Includes lectures, labs and local agribusiness tours.

AGRON 595: Seed Quality, Production, and Research Management
(Cross-listed with STB). (3-0) Cr. 3.
Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor
Advanced survey of the organization, staff capabilities and management characteristics typical in seed production and crop improvement in seed enterprises. Analysis of the use of quality information in the management of seed operations and sales. Process management applications for seed. Production planning for existing capacity. Analysis of the manager’s tasks in the annual cycle and how the tasks of these managers relate to the general categories of business management roles. Difference in management strategies used with different situations and groups of employees.

AGRON 599: Creative Component
Cr. arr.
Prereq: Nonthesis M.S. option only
A written report based on research, library readings, or topics related to the student’s area of specialization and approved by the student’s advisory committee.

AGRON 599A: Agricultural Meteorology
Cr. arr.
Prereq: Nonthesis M.S. option only
A written report based on research, library readings, or topics related to the student’s area of specialization and approved by the student’s advisory committee.

AGRON 599B: Crop Production and Physiology
Cr. arr.
Prereq: Nonthesis M.S. option only
A written report based on research, library readings, or topics related to the student’s area of specialization and approved by the student’s advisory committee.

AGRON 599C: Plant Breeding
Cr. arr.
Prereq: Nonthesis M.S. option only
A written report based on research, library readings, or topics related to the student’s area of specialization and approved by the student’s advisory committee.

AGRON 599D: Soil Chemistry
Cr. arr.
Prereq: Nonthesis M.S. option only
A written report based on research, library readings, or topics related to the student’s area of specialization and approved by the student’s advisory committee.
AGRON 599E: Soil Fertility  
Cr. arr.  
Prereq: Nonthesis M.S. option only  
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

AGRON 599F: Soil Management  
Cr. arr.  
Prereq: Nonthesis M.S. option only  
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

AGRON 599G: Soil Microbiology and Biochemistry  
Cr. arr.  
Prereq: Nonthesis M.S. option only  
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

AGRON 599H: Soil Morphology and Genesis  
Cr. arr.  
Prereq: Nonthesis M.S. option only  
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

AGRON 599I: Soil Physics  
Cr. arr.  
Prereq: Nonthesis M.S. option only  
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

AGRON 599K: Seed Science  
Cr. arr.  
Prereq: Nonthesis M.S. option only  
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

AGRON 599L: Weed Science  
Cr. arr.  
Prereq: Nonthesis M.S. option only  
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

AGRON 599M: Agronomy  
Cr. arr.  
Prereq: Nonthesis M.S. option only  
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

Courses for graduate students:

AGRON 600: Seminar  
(1-0) Cr. 1. Repeatable, maximum of 6 times. F.S.  
Reports and discussion of recent literature and research.

AGRON 600A: Seminar: Plant Breeding  
(1-0) Cr. 1. Repeatable, maximum of 6 times. F.S.  
Instruction and practice in giving scientific presentations related to the fields of plant breeding, genetics, or genomics, with an emphasis on effective communication and presentation techniques. An oral seminar and a poster presentation are required, along with analyses of other seminars, and participation in planning and hosting invited speakers.

AGRON 600B: Seminar: Soils  
(1-0) Cr. 1. Repeatable, maximum of 6 times. S.  
Reports and discussion of recent literature and research.

AGRON 600C: Seminar: Crop Production and Physiology  
(1-0) Cr. 1. Repeatable, maximum of 6 times. F.S.  
Reports and discussion of recent literature and research.

AGRON 601: Agronomic Science Presentations  
(3-0) Cr. 2. S.  
Prereq: graduate status in agronomic science, permission of instructor.  
Experience in critical communications in exchange of ideas through oral and poster presentations and scientific questioning/evaluation.

AGRON 605: Boundary-Layer Meteorology  
(Cross-listed with MTEOR). (3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: MTEOR 443 or equivalent-level course in engineering fluids  
Atmospheric boundary-layer structure and dynamics. Diurnal and seasonal variations, turbulent fluxes and turbulence kinetic energy. Measurements and empirical relations for wind and temperature near the ground. Numerical simulation and applications to wind energy.

AGRON 610: Foundations of Sustainable Agriculture  
(Cross-listed with A B E, ANTHR, SOC, SUSAG). (3-0) Cr. 3. F.  
Prereq: Graduate classification, permission of instructor  
Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.
AGRON 621: Advanced Plant Breeding
(3-0) Cr. 3. S.
Prereq: AGRON 521, AGRON 526, AGRON 561, GEN 410
Genetics of breeding populations, means of genotypes and breeding populations, mapping quantitative trait loci, variation in breeding populations, genetic design, genotype by environment interaction, selection in breeding populations, recurrent selection, marker-assisted selection, best linear unbiased prediction, genome-wide association studies, genomic selection, heterosis and hybrid prediction, and multiple traits.

AGRON 625: Genetic Strategies in Plant Breeding
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: AGRON 521 and GDCB 510
Evaluation of genetic, molecular, and cellular approaches to crop improvement; gene transfer methods. Application and role of basic plant biology in breeding programs and processes; genome structure and function, gene isolation, expression, regulation, and modification. Integration of molecular and cellular methods in breeding strategies; analysis of alternative breeding methods, regulatory and ethical issues.

AGRON 655: Advanced Soil Fertility
(2-0) Cr. 2. Alt. S., offered odd-numbered years.
Prereq: AGRON 553
Evaluation of soil fertility and fertilizers; theory and applications.

AGRON 677: Advanced Soil Physics
(2-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: AGRON 577 and MATH 266; COM S 207 recommended
The flow and distribution of water, chemicals, and heat in soils. Physical principles and applications.

AGRON 685: Advanced Soil Biochemistry
(Cross-listed with ENSC, MICRO). (2-0) Cr. 2. Alt. S., offered even-numbered years.
Prereq: AGRON 585
Chemistry of soil organic matter and biochemical transformations brought about by microorganisms and enzymes in soils.

AGRON 696: Research Seminar
(Cross-listed with BBMB, FOR, GDCB, HORT, PLBIO). Cr. 1. Repeatable.
Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

AGRON 698: Agronomy Teaching Practicum
Cr. 1-2. Repeatable. F.S.SS.
Prereq: Graduate classification in agronomy and permission of instructor
Graduate student experience in the agronomy teaching program. Offered on a satisfactory-fail basis only.

AGRON 699: Research
Cr. arr. Repeatable.

AGRON 699A: Agricultural Meteorology
Cr. arr. Repeatable.

AGRON 699B: Crop Production and Physiology
Cr. arr. Repeatable.

AGRON 699C: Plant Breeding
Cr. arr. Repeatable.

AGRON 699D: Soil Chemistry
Cr. arr. Repeatable.

AGRON 699E: Soil Fertility
Cr. arr. Repeatable.

AGRON 699F: Soil Management
Cr. arr. Repeatable.

AGRON 699G: Soil Microbiology and Biochemistry
Cr. arr. Repeatable.

AGRON 699H: Soil Morphology and Genesis
Cr. arr. Repeatable.

AGRON 699I: Soil Physics
Cr. arr. Repeatable.

AGRON 699J: Plant Physiology
Cr. arr. Repeatable.

AGRON 699K: Seed Science
Cr. arr. Repeatable.

AGRON 699L: Weed Science
Cr. arr. Repeatable.

Air Force Aerospace Studies (AFAS)

Courses primarily for undergraduates:

AFAS 103: Introductory Leadership Laboratory with Physical Training
(0-4) Cr. 2. Repeatable, maximum of 4 credits. F.S.
Prereq: Membership as a cadet in AFROTC
Instruction for new cadets on Air Force customs and courtesies; drill and ceremonies, issuing military commands, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers while also using basic military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student’s physical and medical eligibility. Offered on a satisfactory-fail basis only.
AFAS 141: Foundations of the United States Air Force
(1-0) Cr. 1. F.

AFAS 142: Foundations of the United States Air Force
(1-0) Cr. 1. S.
A continuation of 141. Topics include Air Force installations, Air Force core values, leadership and team building, further study of interpersonal communication, the Oath of Office and Commissioning.

AFAS 203: Basic Leadership Laboratory with Physical Training
(0-4) Cr. 2. Repeatable, maximum of 4 credits. F.S.
Prereq: Membership as a cadet in AFROTC
Instruction and critique of cadets on Air Force customs and courtesies, drill and ceremonies, and issuing military commands in preparation for AFROTC summer Field Training while also using basic military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student's physical and medical eligibility. Offered on a satisfactory-fail basis only.

AFAS 241: The Evolution of USAF Air & Space Power I
(1-0) Cr. 1. F.
Examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the first balloons and dirigibles to the Korean War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today's USAF air and space power.

AFAS 242: The Evolution of USAF Air & Space Power II
(1-0) Cr. 1. S.
A continuation of AFAS 241 that examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the Korean War to the space-age global positioning systems of the Persian Gulf War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today's USAF air and space power.

AFAS 303: Intermediate Leadership Laboratory with Physical Training
(0-4) Cr. 2. Repeatable, maximum of 4 credits. F.S.
Prereq: Membership as a cadet in AFROTC
Mid-level management of leadership experience involving planning and controlling of most AFROTC military activities. Students will help senior leadership to prepare and present briefings and other oral and written communications; provide interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets; and use advanced military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student's physical and medical eligibility. Offered on a satisfactory-fail basis only.

AFAS 341: Air Force Leadership Studies I
(3-0) Cr. 3. F.
Prereq: AFAS 341
A look at the fundamental issues of leadership and management in the U.S Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 342: Air Force Leadership Studies II
(3-0) Cr. 3. S.
Prereq: AFAS 341
A continuation of AFAS 341, that looks at the advanced issues of leadership and management in the U.S. Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 403: Advanced Leadership Laboratory with Physical Training
(0-4) Cr. 2. Repeatable, maximum of 6 credits. F.S.
Prereq: Membership as a cadet in AFROTC
Advanced leadership experience involving the planning and controlling of all upper-level AFROTC military activities. Students will prepare and present briefings and other oral and written communications; provide interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets; and use advanced military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student's physical and medical eligibility. Offered on a satisfactory-fail basis only.
AFAS 441: Preparation for Active Duty
(3-0) Cr. 3. F.
Traces the source of military authority and responsibilities from the U.S. Constitution through the DoD to an Air Force officer. Examines the structure and capabilities of the other services and joint structures. Addresses the supervisory duties of an Air Force officer associated with administrative actions and military law as force management tools. Builds upon leadership and management skill learned in AFAS 341/342 and includes demonstrations of written and verbal communications processes.

AFAS 442: National Security Affairs
(3-0) Cr. 3. S.
Examines the national security process through review of the Department of Defense’s statutory administrative and operational relationships as context for this course’s regional studies component. Reviews functions of air and space power as outlined in Air Force doctrine and introduces the concept of joint operations. Integrates these concepts with regional studies to survey issues of interest to professional military officers and governmental leaders. Selectively reviews and discusses Africa, Latin America, South Asia, East Asia, Europe, Russia and the Middle East. Meets International Perspectives Requirement.

American Indian Studies (AM IN)

Courses primarily for undergraduates:

AM IN 205: American Indians in the Movies
(3-0) Cr. 3. Alt. SS., offered irregularly.
Examines the role of American Indians in the movie industry. Explores the development of American Indian characters and filmmaking, and the relevance for Native communities, through feature films and academic analysis. One focus is a comparison of non-Native and Native films in form, content, and message, and the changing character of Native representation in both.
Meets U.S. Diversity Requirement

AM IN 210: Introduction to American Indian Studies
(3-0) Cr. 3. F.S.SS.
Introduction to the multidisciplinary aspects of American Indian Studies. Topics include the relevant events and ideas defining the contemporary American Indian experience, on and off reservation, in the United States. Sovereignty, identity, jurisdiction, taxes, economic development, education, and other issues are addressed.
Meets U.S. Diversity Requirement

AM IN 225: American Indians of Iowa
(Cross-listed with ANTHR). Cr. 3. F.
Cultures and histories of Native people who have called the present state of Iowa home; primary focus on the period between 1700 CE and the present; Native interactions with Spanish, French, British, and American people.
Meets U.S. Diversity Requirement

AM IN 240: Introduction to American Indian Literature
(Cross-listed with ENGL). (3-0) Cr. 3. F.
Prereq: Credit in or exemption from ENGL 150
Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works.
Meets U.S. Diversity Requirement

AM IN 310: Contemporary Topics in American Indian Studies
(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.
Prereq: AM IN 210 recommended
Examines contemporary issues and important topics affecting Native communities overall.
Meets U.S. Diversity Requirement

AM IN 311: Federal Indian Law and Policy
(3-0) Cr. 3.
Prereq: AM IN 210 recommended
Examines the impact of federal American Indian policies on Native communities, especially contemporary Indian Country and communities. Topics include sovereignty, recognition, the role of the Supreme Court, specific policies like allotment, and other relevant issues.
Meets U.S. Diversity Requirement

AM IN 312: American Indian Education
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: AM IN 210 recommended
Examines current and historical issues in American Indian education. Topics include traditional education, changes to formal education, tribal colleges and universities, current school systems, and other relevant topics.
Meets U.S. Diversity Requirement
AM IN 313: Native Land, Water, and Resources  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
**Prereq: AM IN 210 recommended**  
Examines Native land rights, water rights, and natural resources. Topics may include Native relations to landscapes, cultural resources and infrastructure projects, land rights, water usage agreements, and resource policies as they apply to on- and off-reservation Native communities.  
Meets U.S. Diversity Requirement

AM IN 315: Archaeology of North America  
(Cross-listed with ANTHR). (3-0) Cr. 3. S.  
**Prereq: ANTHR 202**  
Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture-historical sequences of major culture areas; linkages of archaeological traditions with selected ethnographically known Native American groups.  
Meets U.S. Diversity Requirement

AM IN 320: Great Plains Archaeology  
(Cross-listed with ANTHR). (3-0) Cr. 3. F.  
**Prereq: ANTHR 202**  
Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.  
Meets U.S. Diversity Requirement

AM IN 322: Peoples and Cultures of Native North America  
(Cross-listed with ANTHR). (3-0) Cr. 3.  
**Prereq: ANTHR 201 or AM IN 210**  
Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.  
Meets U.S. Diversity Requirement

AM IN 332: Current Issues in Native North America  
(Dual-listed with AM IN 532). (Cross-listed with ANTHR). (3-0) Cr. 3.  
**Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended**  
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.  
Meets U.S. Diversity Requirement

AM IN 332A: Current Issues in Native North America: Gender and Family  
(Dual-listed with AM IN 532A). (Cross-listed with ANTHR). (3-0) Cr. 3.  
**Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended**  
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.  
Meets U.S. Diversity Requirement

AM IN 332B: Current Issues in Native North America: Indigenous Ecologies and Geographies  
(Dual-listed with AM IN 532B). (Cross-listed with ANTHR). (3-0) Cr. 3.  
**Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended**  
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.  
Meets U.S. Diversity Requirement

AM IN 332C: Current Issues in Native North America: Cultural and Political Movements  
(Dual-listed with AM IN 532C). (Cross-listed with ANTHR). (3-0) Cr. 3.  
**Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended**  
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.  
Meets U.S. Diversity Requirement

AM IN 332D: Current Issues in Native North America: Regional Focus  
(Dual-listed with AM IN 532D). (Cross-listed with ANTHR). (3-0) Cr. 3.  
**Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended**  
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.  
Meets U.S. Diversity Requirement

AM IN 346: American Indian Literature  
(Cross-listed with ENGL). (3-0) Cr. 3.  
**Prereq: ENGL 250**  
Survey of literature by Native Americans from pre-Columbian tales and songs to contemporary novels and poetry.  
Meets U.S. Diversity Requirement
AM IN 426: Topics in Native American Architecture  
(Cross-listed with ARCH). (3-0) Cr. 3. Repeatable, maximum of 6 credits.  
**Prereq:** Junior classification  
History, theory, and principles of Native American/American Indian architecture, landscape architecture and planning considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment History, Theory, Culture. A maximum of 6 credits of ARCH 426 may be applied to degree program. 
Meets U.S. Diversity Requirement  

AM IN 490: Independent Study  
Cr. arr. Repeatable, maximum of 9 credits.  
**Prereq:** 6 credits in American Indian studies; permission of instructor and program director  
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 6 credits in AM IN 490 may be counted toward graduation. If more than 3 credits in AM IN 490 are taken, they must be from different instructors.  

**American Sign Language (ASL)**  
Courses primarily for undergraduates:  

**ASL 101: American Sign Language I**  
(4-0) Cr. 4. F.S.  
Introduction to American Sign Language (ASL). Development of expressive and receptive skills including vocabulary, grammar, usage, and cultural information. Note: Distinct from "Signed English". ASL is a natural language with its own rules of grammar and usage.  
Meets U.S. Diversity Requirement  

**ASL 102: American Sign Language II**  
(4-0) Cr. 4. S.  
**Prereq:** ASL 101  
Introduction to American Sign Language (ASL) II continues development of expressive and receptive skills introduced in American Sign Language I, including vocabulary, grammar, usage, and cultural information. Distinct from "Signed English". ASL is a natural language with its own rules of grammar and usage.  
Meets U.S. Diversity Requirement  

**ASL 107: Introduction to the Deaf-World**  
(1-0) Cr. 1.  
Nature and significance of the Deaf-World as a cultural and linguistic minority.  
Meets U.S. Diversity Requirement  

**ASL 201: Intermediate American Sign Language I**  
(4-0) Cr. 4. F.  
**Prereq:** ASL 102 or equivalent.  
Development of fluency for intermediate conversational skills. Review of grammar and varying grammatical forms for both structured and unstructured social situations such as sharing opinions, discussing weekend activities, and exchanging views on current topics.  

**ASL 202: Intermediate American Sign Language II**  
(4-0) Cr. 4. S.  
**Prereq:** ASL 201 or equivalent.  
A continuation and further application of language principles learned in ASL 201, to deepen ability to actively engage in dialogue both in structured and unstructured social situations. Further fluency in intermediate conversational skills will be developed, particularly in the areas of semantic equivalence and dialogic/monologic register.  

**ASL 275: Topics in Deaf Culture**  
(3-0) Cr. 3.  
Focus on contemporary topics in Deaf Culture, Communities, and History. Readings and discussion from a wide range of sources. Topics vary according to faculty interest.  
Meets U.S. Diversity Requirement  

**ASL 305: ASL Classifiers and Depiction**  
(3-0) Cr. 3.  
**Prereq:** ASL 201  
Focused analysis, documentation, discussion, and increased development of classifiers and depiction in ASL. Investigation in how these grammatical features are deliberately incorporated into conversational, presentational, scientific, and artistic language production.  

**ASL 325: Deaf Peoples: Pre-World War II**  
(3-0) Cr. 3. F.  
**Prereq:** ASL 202 or instructor's permission.  
Perspectives on and treatment of deaf people as individuals and groups prior to World War II. Taught in American Sign Language.  
Meets U.S. Diversity Requirement  

**ASL 490: Independent Study**  
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.S.  
**Prereq:** 6 credits in ASL and permission of department chair  
Designed to meet the needs of students in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 6 credits of ASL 490 may be counted towards graduation.  

**Animal Ecology (A ECL)**  
Courses primarily for undergraduates:
A ECL 312: Ecology
(Cross-listed with BIOL, ENSCI). (3-3) Cr. 4. F.SS.
Prereq: BIOL 211, BIOL 211L, BIOL 212, and BIOL 212L
Fundamental concepts and principles of ecology dealing with organisms, populations, communities, and ecosystems. Laboratory and field exercises examine ecological principles and methods as well as illustrate habitats.

A ECL 312I: Ecology
(Cross-listed with ENSCI, IA LL). Cr. 4. SS.
An introduction to the principles of ecology at the population, community and ecosystem level. Field studies of local lakes, wetlands and prairies are used to examine factors controlling distributions, interactions, and roles of plants and animals in native ecosystems.

A ECL 321: Fish Biology
(2-3) Cr. 3. S.
Prereq: A ECL 365
Biology, ecology, and evolution of fishes. Emphasis on structure, physiology, and behavior, including a focus on the conservation and management of fishes and their habitats. Laboratory focus on fish morphology, survey methods, identification, distribution, habits, and habitats of fishes.

A ECL 326I: Ornithology
(Cross-listed with IA LL). Cr. 2. SS.
The biology, ecology, and behavior of birds with emphasis on field studies of local avifauna. Group projects stress techniques of population analysis and methodology for population studies.

A ECL 333: Fisheries Techniques
(Cross-listed with NREM). (1-3) Cr. 2. F.
Prereq: BIOL 212
Introduction to techniques used in the collection and interpretation of fish population data in the field and in the lab. Course objectives include an understanding of population survey methodology and improving student critical thinking and teamwork skills. Laboratory focuses on field trips and hands-on sampling experience.

A ECL 365: Vertebrate Biology
(Cross-listed with BIOL). (3-2) Cr. 4. F.
Prereq: BIOL 211, BIOL 211L, BIOL 212, BIOL 212L
Evolution, biology, and classification of fish, amphibians, reptiles, birds, and mammals. Emphasis on a comparative analysis of the structure and function of organ systems. Laboratory exercises concentrate on morphology and identification of orders of vertebrates.

A ECL 366: Natural History of Iowa Vertebrates
(2-3) Cr. 3. S.
Prereq: BIOL 211, BIOL 211L, BIOL 212, BIOL 212L
Vertebrate fauna of Iowa, including fishes, amphibians, reptiles, birds, and mammals. Species identification, habitat requirements, community structure and assessment, conservation issues that include historical population changes and value of wild animals to the region’s ecological and economic health.

A ECL 371: Ecological Methods
(Cross-listed with BIOL). (2-3) Cr. 3. F.
Prereq: A ECL 312; STAT 101 or STAT 104
Quantitative techniques used in management of natural resources with emphasis on inventory and manipulation of habitat and animal populations.

A ECL 401: Intro to Aquatic Animal Medicine
(Cross-listed with B M S). (1-2) Cr. 1. S.
8 week course. Introductory course with focus on fin fish production, health and medicine. Course content will help define future roles for veterinarians, producers, and service providers. Emphasis will be placed on anatomy, pathology, infectious diseases, nutrition, regulatory constraints in production, food safety, and current research. Field trip to aquaculture facility.

A ECL 404I: Behavioral Ecology
(Cross-listed with IA LL). Cr. 4. Alt. SS., offered even-numbered years.
Prereq: Two semesters of biology
Animal coloniality, courtship, territoriality, predator defense, habitat selection, foraging, mating systems, and parental care will be examined in the field in order to evaluate various ecological and evolutionary theories of animal behavior.

A ECL 415: Ecology of Freshwater Invertebrates, Plants, and Algae
(Dual-listed with A ECL 515). (2-3) Cr. 3. Alt. F., offered even-numbered years.
Prereq: A ECL 312
Identification, biology, and ecological requirements of freshwater invertebrates, plants and algae. Additional emphases on community sampling methods and analysis, and use of organisms as tools for aquatic ecosystem health assessment.

A ECL 418: Stream Ecology
(Dual-listed with A ECL 518). (Cross-listed with ENSCI). (2-3) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: A ECL 486
Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.
A ECL 419I: Vertebrate Ecology and Evolution
(Cross-listed with IA LL). Cr. 4. SS.
Field and laboratory study of representative vertebrates of northwestern Iowa. Observations and experimentation emphasize ecological histories by integrating concepts of functional morphology, behavioral ecology, and evolutionary biology.

A ECL 420I: Amphibians and Reptiles
(Cross-listed with IA LL). Cr. 2. Alt. SS., offered even-numbered years.
Prereq: Two semesters of biology
Ecology, behavior, and conservation biology of amphibians and reptiles with emphasis on their anatomy and morphology; temperature and water regulation; locomotion; life history; reproduction; population and community ecology; and conservation.

A ECL 425: Aquatic Insects
(Dual-listed with A ECL 525). (Cross-listed with ENT). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: BIOL 312 or equivalent
Morphology, ecology, diversity, and significance of aquatic insects, with emphasis on the collection, curation and identification of taxa in local streams and lakes.

A ECL 440: Fishery Management
(Dual-listed with A ECL 540). (2-3) Cr. 3. F.
Prereq: A ECL 312, A ECL 321, STAT 101 or STAT 104; credit or enrollment in A ECL 486
Biological basis of fishery management, fishery problems, and management practices for freshwater, anadromous, and marine fisheries.

A ECL 442: Aquaculture
(Dual-listed with A ECL 542). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: BIOL 211 and BIOL 212.
Concepts related to the culture of aquatic organisms including culture systems, water quality, nutrition, genetics, diseases, and marketing.

A ECL 451: Wildlife Ecology and Management
(2-3) Cr. 3. S.
Prereq: A ECL 371
Ecological theory and practice of wildlife management, including, population ecology, habitat management, and current issues in the field. Course involves a series of case studies addressing actual wildlife issues using field and quantitative methods.

A ECL 454: Principles of Wildlife Disease
(Dual-listed with A ECL 554). (3-0) Cr. 3. S.
Prereq: Junior standing and at least 10 credits in biological sciences at the 300+ level
Ecological and epidemiological aspects of diseases as they relate to wildlife populations. Topics to be covered include: major classes of disease; detection, description, monitoring, and management of disease; characteristics and interactions between disease agents and wildlife hosts; relationships among wildlife, domestic animal, and human health.

A ECL 455: International Wildlife Issues
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: A ECL 365, A ECL 312 or graduate standing; NREM 120
Biological, political, social, and economic factors affecting the management of international wildlife resources.
Meets International Perspectives Requirement.

A ECL 457: Herpetology
(Cross-listed with BIOL). (2-0) Cr. 2. F.
Prereq: BIOL 351 or BIOL 365
Biology, ecology, and evolution of amphibians (salamanders, frogs, caecilians) and reptiles (lizards, snakes, tuatara, turtles, crocodilians). Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of amphibians and reptiles in ecosystems, and conservation. Laboratory focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

A ECL 457L: Herpetology Laboratory
(Cross-listed with BIOL). (0-3) Cr. 1. F.
Prereq: BIOL 351 or BIOL 365. Concurrent enrollment in BIOL/A ECL 457 is required.
Laboratory complements lecture topics with emphasis on external anatomy, identification and distribution of Midwest birds, and field trips.

A ECL 458: Ornithology
(Cross-listed with BIOL). (2-0) Cr. 2. S.
Prereq: A ECL 365 or BIOL 351
Biology, evolution, ecology and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation.

A ECL 458L: Ornithology Laboratory
(Cross-listed with BIOL). (0-3) Cr. 1. S.
Prereq: BIOL 351 or AECL/BIOL 365. Concurrent enrollment in AECL/BIOL 458 is required.
Laboratory complements lecture topics with emphasis on external anatomy, identification and distribution of Midwest birds, and field trips.
A ECL 459: Mammalogy
(Cross-listed with BIOL). (2-0) Cr. 2. S.
Prereq: BIOL 351 or A ECL 365
Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation.

A ECL 459L: Mammalogy Laboratory
(Cross-listed with BIOL). (0-3) Cr. 1. S.
Prereq: BIOL 351 or BIOL/AECL 365; concurrent enrollment in AECL 459 or BIOL 459 required.
Laboratory focus on identification, survey methods, distribution, habits, and habitats of mammals. Several field trips.

A ECL 480: Studies in Marine Biology
Cr. 1-8. Repeatable. SS.
Courses taken at Gulf Coast Research Laboratory and other marine biological stations are transferred to Iowa State University under this number.

A ECL 486: Aquatic Ecology
(Dual-listed with A ECL 586). (Cross-listed with BIOL, ENSCI). (3-0) Cr. 3. F.
Prereq: Biol 312 or EnSci 381 or EnSci 402 or NREM 301
Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

A ECL 486L: Aquatic Ecology Laboratory
(Dual-listed with A ECL 586L). (Cross-listed with BIOL, ENSCI). (0-3) Cr. 1. F.
Prereq: Concurrent enrollment in BIOL 486
Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

A ECL 489: Population Ecology
(Dual-listed with A ECL 589). (Cross-listed with BIOL). (2-2) Cr. 3. F.
Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing
Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

Courses primarily for graduate students, open to qualified undergraduates:

A ECL 459: Mammalogy
(Cross-listed with BIOL). (2-0) Cr. 2. S.
Prereq: BIOL 351 or A ECL 365
Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation.

A ECL 459L: Mammalogy Laboratory
(Cross-listed with BIOL). (0-3) Cr. 1. S.
Prereq: BIOL 351 or BIOL/AECL 365; concurrent enrollment in AECL 459 or BIOL 459 required.
Laboratory focus on identification, survey methods, distribution, habits, and habitats of mammals. Several field trips.

A ECL 480: Studies in Marine Biology
Cr. 1-8. Repeatable. SS.
Courses taken at Gulf Coast Research Laboratory and other marine biological stations are transferred to Iowa State University under this number.

A ECL 486: Aquatic Ecology
(Dual-listed with A ECL 586). (Cross-listed with BIOL, ENSCI). (3-0) Cr. 3. F.
Prereq: Biol 312 or EnSci 381 or EnSci 402 or NREM 301
Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

A ECL 486L: Aquatic Ecology Laboratory
(Dual-listed with A ECL 586L). (Cross-listed with BIOL, ENSCI). (0-3) Cr. 1. F.
Prereq: Concurrent enrollment in BIOL 486
Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

A ECL 489: Population Ecology
(Dual-listed with A ECL 589). (Cross-listed with BIOL). (2-2) Cr. 3. F.
Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing
Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

Courses primarily for graduate students, open to qualified undergraduates:
A ECL 526I: Advanced Field Ornithology  
(Cross-listed with IA LL). Cr. 2. SS.  
Prereq: Concurrent registration in IA LL 326I  
Field study of birds of the upper Midwest; extended field trip to Minnesota and Wisconsin; individual or group project.

A ECL 531: Conservation Biology  
(Cross-listed with EEOB). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: BIOL 312; BIOL 313 or graduate standing  
Examination of conservation issues from a population and a community perspective. Population-level analysis will focus on the role of genetics, demography, and environment in determining population viability. Community perspectives will focus on topics such as habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

A ECL 531I: Conservation Biology  
(Cross-listed with EEOB, IA LL). Cr. 4. Alt. SS., offered even-numbered years.  
Prereq: IA LL 312I  
Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.

A ECL 535I: Restoration Ecology  
(Cross-listed with EEOB, ENSCI, IA LL). Cr. 4. Alt. SS., offered even-numbered years.  
Prereq: A course in ecology  
Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

A ECL 540: Fishery Management  
(Dual-listed with A ECL 440). (2-3) Cr. 3. F.  
Prereq: A ECL 312, A ECL 321, STAT 101 or STAT 104; credit or enrollment in A ECL 486  
Biological basis of fishery management, fishery problems, and management practices for freshwater, anadromous, and marine fisheries.

A ECL 542: Aquaculture  
(Dual-listed with A ECL 442). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: BIOL 211 and BIOL 212.  
Concepts related to the culture of aquatic organisms including culture systems, water quality, nutrition, genetics, diseases, and marketing.

A ECL 551: Behavioral Ecology  
(2-2) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: a course in ecology or animal behavior  
The study of how an animal’s behavior affects its ability to survive and reproduce in its environment. Course topics, such as foraging behavior, sexual selection, parental care, etc., represent the interface of ecology, evolution, and behavior.

A ECL 554: Principles of Wildlife Disease  
(Dual-listed with A ECL 454). (3-0) Cr. 3. S.  
Prereq: Graduate classification  
Ecological and epidemiological aspects of disease as they relate to wildlife populations. Topics to be covered include: major classes of disease; detection, description, monitoring, and management of disease; characteristics and interactions between disease agents and wildlife hosts; relationship among wildlife, domestic animal, and human health.

A ECL 570: Landscape Ecology  
(Cross-listed with EEOB). (2-3) Cr. 3. Alt. F, offered even-numbered years.  
Prereq: Permission of instructor; EEOB 588; a course in calculus  
The study of ecological and evolutionary processes within a spatial context with emphasis on behavior, population, and community dynamics.

A ECL 573: Techniques for Biology Teaching  
(Cross-listed with EEOB, IA LL). Cr. 1-2. Repeatable. SS.  
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

A ECL 573A: Techniques for Biology Teaching: Animal Biology  
(Cross-listed with EEOB, IA LL). Cr. 1-2. Repeatable. SS.  
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

A ECL 573G: Techniques for Biology Teaching: Limnology  
(Cross-listed with EEOB, IA LL). Cr. 1-2. Repeatable. SS.  
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.
A ECL 573I: Techniques for Biology Teaching: Insect Ecology  
(Cross-listed with EEOB, IA LL). Cr. 1-2. Repeatable. SS.  
The development and implementation of laboratory exercises suitable  
for inclusion in elementary, middle, high school, and community college  
biology and environmental courses. Exercises will be built around  
common organisms and ecosystems in Iowa. Field trips.

A ECL 573W: Techniques for Biology Teaching: Project WET  
(Cross-listed with EEOB, IA LL). Cr. 1-2. Repeatable. SS.  
The development and implementation of laboratory exercises suitable  
for inclusion in elementary, middle, high school, and community college  
biology and environmental courses. Exercises will be built around  
common organisms and ecosystems in Iowa. Field trips.

A ECL 586: Aquatic Ecology  
(Dual-listed with A ECL 486). (Cross-listed with EEOB, ENSCI). (3-0) Cr. 3. F.  
Prereq: Biol 312 or EnSci 381 or EnSci 402 or NREM 301  
Structure and function of aquatic ecosystems with application to fishery  
and pollution problems. Emphasis on lacustrine, riverine, and wetland  
ecology.

A ECL 586L: Aquatic Ecology Laboratory  
(Dual-listed with A ECL 486L). (Cross-listed with EEOB, ENSCI). (0-3) Cr. 1. F.  
Prereq: Concurrent enrollment in BIOL 486  
Field trips and laboratory exercises to accompany 486. Hands-on  
experience with aquatic research and monitoring techniques and  
concepts.

A ECL 589: Population Ecology  
(Dual-listed with A ECL 489). (Cross-listed with EEOB). (2-2) Cr. 3. F.  
Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate  
standing  
Concepts and theories of population dynamics with emphasis on models  
of growth, predation, competition, and regulation.

A ECL 590: Graduate Independent Study  
(Cross-listed with ANTHR, EEOB, IA LL). Cr. 1-4. Repeatable. SS.  
Prereq: Graduate classification and permission of instructor

A ECL 590I: Special Topics: Graduate Independent Study  
(Cross-listed with ANTHR, EEOB, IA LL). Cr. 1-4. Repeatable. SS.  
Prereq: Graduate classification and permission of instructor

A ECL 599: Creative Component  
Cr. arr.  
Prereq: Nonthesis M.S. option only

Courses for graduate students:

A ECL 611: Analysis of Populations  
(Cross-listed with EEOB). (2-2) Cr. 3. Alt. F, offered odd-numbered years.  
Prereq: BIOL 312; STAT 401; a course in calculus  
Quantitative techniques for analyzing vertebrate population data  
to estimate parameters such as density and survival. Emphasis on  
statistical inference and computing.

A ECL 698: Animal Ecology Teaching Practicum  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate classification in animal ecology and permission of instructor  
Graduate student experience in the animal ecology teaching program.  
Offered on a satisfactory-fail basis only.

A ECL 699: Research  
Cr. arr. Repeatable.

A ECL 699I: Research  
(Cross-listed with ANTHR, EEOB, GDCB, IA LL). Cr. 1-4. Repeatable.

Animal Science (AN S)

Courses primarily for undergraduates:

AN S 101: Working with Animals  
(1-2) Cr. 2. F.S.  
A hands-on introductory course in skills for proper care and management  
of domestic animals. Husbandry skills including health observation,  
animal movement, identification, management procedures, and  
environmental assessment are covered.

AN S 110: Orientation in Animal Science and ISU  
(2-0) Cr. 1. F.S.  
Orientation to the university and Department of Animal Science.  
Challenges and opportunities available to the professional animal  
agriculturalist. Professional goal setting, portfolio development, and  
development of interpersonal skills in the context of pursuing a career in  
animal science.

AN S 114: Survey of the Animal Industry  
(2-0) Cr. 2. F.S.  
Ways domestic animals serve the basic needs of humans for food,  
shelter, protection, fuel, and emotional well-being. Terminology, basic  
structures of the industries surrounding the production, care, and  
marketing of domestic animals in the U.S.
AN S 116: Practicum in Safe Equine Handling and Welfare  
(0-3) Cr. 1. F.S.S.  
Development of best practices for safe horse handling and practical equine health care tasks. Course will focus on equine welfare and human safety as well as provide training in necessary every day skills needed to own a horse or to work at a horse farm. Certificate of Safe Equine Handling and Welfare available upon course completion. Offered on satisfactory - fail grading basis only. Offered on a satisfactory-fail basis only.

AN S 190: Livestock Handling, Safety and Welfare  
Cr. 2.  
Prereq: AN S 101  
Understanding of animal perception to develop best care practices involved in handling of livestock species (beef, sheep, swine, dairy, equine, poultry). Intensive development of skills associated with handling and moving healthy and compromised livestock in respect to human and animal welfare. Integration of scientific and theoretical knowledge of biosecurity and animal-human interactions as it related to livestock handling and movement.

AN S 199: Marketing and Management of Livestock Events  
(0-2) Cr. 1. Repeatable. F.S.  
Prereq: Credit or enrollment in AN S 101 or AN S 114  
Management and coordination of livestock shows, sales and events, including program planning, staff and volunteer management, time management, publicity and promotion for fairs, shows, clinics, expos, and other events. Offered on a satisfactory-fail basis only. A maximum of two credits of AnS 199 may be applied toward the total credits required for graduation.

AN S 199A: Marketing and Management of Livestock Events: Beef  
(0-2) Cr. 1. Repeatable. F.S.  
Prereq: Credit or enrollment in AN S 101 or AN S 114  
Management and coordination of livestock shows, sales and events, including program planning, staff and volunteer management, time management, publicity and promotion for fairs, shows, clinics, expos, and other events. Offered on a satisfactory-fail basis only. A maximum of two credits of AnS 199 may be applied toward the total credits required for graduation.

AN S 199E: Marketing and Management of Livestock Events: Horses  
(0-2) Cr. 1. Repeatable. F.S.  
Prereq: Credit or enrollment in AN S 101 or AN S 114  
Management and coordination of livestock shows, sales and events, including program planning, staff and volunteer management, time management, publicity and promotion for fairs, shows, clinics, expos, and other events. Offered on a satisfactory-fail basis only. A maximum of two credits of AnS 199 may be applied toward the total credits required for graduation.

AN S 207: The Art and Heritage of Livestock  
(3-0) Cr. 3.  
Using art as a venue to understand the legacy and heritage of livestock production and livestock's contribution to civilization and society; livestock's contributions to warfare, social class, industry, economies, etc.; history of the impact of livestock on painting, poetry, music, sculpture, advertising, pop culture, movies, religion and sports in society.

AN S 210: Career Preparation in Animal Science  
(0-2) Cr. 1. F.S.  
Prereq: Sophomore classification in An S  
Life skill development emphasized in the context of career preparation. Assist students with career goal clarification, interview skills, resume and cover letter preparation. Internship development, job shadowing, and exploration of career option.

AN S 211: Issues Facing Animal Science  
(0-2) Cr. 1. F.S.  
Prereq: AN S 114, sophomore classification  
Overview of the factors that define contemporary ethical and scientifically based issues facing animal agriculture. Life skill development (including interactive skills, communication ability, organization, information gathering, and leadership skills) emphasized in the context of issues study. Offered on a satisfactory-fail basis only.

AN S 214: Domestic Animal Physiology  
(3-0) Cr. 3. F.S.  
Prereq: BIOL 212, CHEM 163 or CHEM 177  
Introduction to anatomy and physiology of the muscular, renal, skeletal, neural, mammary, cardiovascular, respiratory, immune, endocrine, reproductive, and digestive systems of domestic animals.

AN S 214L: Domestic Animal Anatomy and Physiology Lab  
(0-2) Cr. 1. F.S.  
Basic anatomy of domestic animals.

AN S 216: Equine Science  
(2-2) Cr. 3. F.S.SS.  
Prereq: AN S 101 or AN S 114; one course in biology  
Introduction to contemporary concepts, and basic practices and decisions necessary when managing horses through stages of their lives.

AN S 217: Equine Farm Practicum  
(1-2) Cr. 2. F.  
Prereq: Credit or experience equivalent to AnS 116 and credit or concurrent enrollment in AN S 216.  
Intensified management of the equine farm. Provide students with experiential learning in all phases of horse production and management. Students assist with general farm management, horse health care, weekly farm management, and related topics.
AN S 223: Poultry Science
(2-2) Cr. 3. F.
Prereq: AN S 101, AN S 114
Introduction to modern production trends with a focus on broiler, layer, and turkey industries. Topics covered include breeds, handling, management, physiology, nutrition, genetics, health & disease, and products. Weekly labs meet off campus.

AN S 224: Companion Animal Science
(2-2) Cr. 3. S.
Prereq: Course in biology
Introduction of students to contemporary concepts, and basic practices and decisions necessary when caring for the companion animal through stages of its life.

AN S 225: Swine Science
(2-2) Cr. 3. F.S.
Prereq: AN S 101, AN S 114
Introduction to principles, practices and decisions necessary when raising swine through the vertically integrated production cycle. Only AN S 280 and AN S 280L or AN S 225 may count toward graduation.

AN S 226: Beef Cattle Science
(2-2) Cr. 3. F.S.
Prereq: AN S 101, AN S 114
Introduction to principles, practices and decisions necessary when raising beef cattle through the vertically integrated production cycle.

AN S 229: Sheep Science
(2-2) Cr. 3. S.
Prereq: AN S 101, AN S 114
Introduction to principles, practices and decisions necessary when raising sheep through their production cycle.

AN S 235: Dairy Cattle Science
(2-2) Cr. 3. F.
Prereq: AN S 101, AN S 114
Introduction to principles, practices and decisions necessary when raising dairy cattle through the vertically integrated production cycle.

AN S 270: Foods of Animal Origin
(2-0) Cr. 2. F.S.SS.
Prereq: BIOL 212, CHEM 163 or CHEM 177
Principles, practices and issues impacting the production, processing and preservation of safe, wholesome, nutritious, and palatable meat, dairy, and egg products. Product evaluation, classification, value, and utilization.

AN S 270L: Foods of Animal Origin Laboratory
(0-2) Cr. 1. F.S.
Prereq: Credit or current enrollment in AN S 270
Determination of composition and quality of meat, eggs and milk based on industry and USDA standards. Fundamentals of processing foods of animal origin to add value, maintain quality and ensure safety.

AN S 280: Basic Swine Science
(2-0) Cr. 2.
Prereq: AN S 101 AN S 114
Basic disciplines and concepts involved in swine production including: industry structure, trends and statistics; production phases and buildings; genetic improvement; reproduction; nutrition; health and biosecurity; nutrient management; marketing and meat quality and career opportunities in the swine industry. Only AN S 280 and AN S 280L or AN S 225 may count toward graduation.

AN S 305: Livestock Evaluation
(0-6) Cr. 3. F.
Prereq: Junior classification; AN S 270L recommended
Fall semester leads to 475A or D. Breeding animal and market animal evaluation of beef, swine and sheep using contemporary techniques and tools. Communication and decision-making skills are practiced in the context of making selection decisions.

AN S 306: Equine Evaluation
(0-6) Cr. 3. F.
Prereq: sophomore classification or permission of instructor
Detailed visual evaluation of conformation and performance of the equine athlete. Decision-making skills are practiced in the context of making selection choices. Development of written and oral communication skills as students defend their judgments. Industry trends will be addressed.

AN S 313: Exercise Physiology of Animals
(2-0) Cr. 2. F.S.
Prereq: AN S 214, BIOL 211, one course in chemistry
Physiological adaptations to athletic training in canine and equine athletes. Topics of emphasis include exercise-related adaptations in metabolism, locomotion, the cardiovascular system, musculoskeletal system, and endocrine system. The roles of nutrition and conditioning programs are assessed.

AN S 317: Fundamentals of Equine Behavior and Training
(0-6) Cr. 1-3.
Modifying the behavior of the horse using systematic approaches to horse training emphasizing the psychology of training horses. Equipment and its use and preparation of horses for competition. A maximum of 4 credits of An S 317 may be applied toward graduation.
AN S 317A: Fundamentals of Equine Behavior and Training: Young Horses at Halter
(0-6) Cr. 1-3. F.
Modifying the behavior of the horse using systematic approaches to horse training emphasizing the psychology of training horses. Equipment and its use and preparation of horses for competition. A maximum of 4 credits of An S 317 may be applied toward graduation.

AN S 317B: Fundamentals of Equine Behavior and Training: Yearlings
(0-6) Cr. 3.
Prereq: Permission of instructor
Modifying the behavior of the horse using systematic approaches to horse training emphasizing the psychology of training horses. Equipment and its use and preparation of horses for competition. A maximum of 4 credits of An S 317 may be applied toward graduation.

AN S 317C: Fundamentals of Equine Behavior and Training: Two-year olds and older
(0-6) Cr. 3.
Modifying the behavior of the horse using systematic approaches to horse training emphasizing the psychology of training horses. Equipment and its use and preparation of horses for competition. A maximum of 4 credits of An S 317 may be applied toward graduation.

AN S 319: Animal Nutrition
(3-0) Cr. 3. F.S.
Prereq: AN S 214, course in organic chemistry or biochemistry
Structure and function of organic and inorganic nutrients. Digestion, absorption, metabolism and utilization of nutrients for maintenance and productive functions. Essential nutritive requirements of domestic livestock, poultry, and companion animals. Sources of nutrients, application of energy systems and concepts, and regulation of feed intake in animals.

AN S 320: Animal Feeds and Feeding
(2-2) Cr. 3. F.S.
Prereq: AN S 319
Composition, physical properties, and storage and processing of feedstuffs. Nutrient requirements of and diet formulation, and preparation systems for food and companion animal species at varying stages of age, activity or production. Manual and computer methodologies for diet formulation.

AN S 324: Food Processing for Companion Animals
(3-0) Cr. 3. F.
Prereq: AN S 319, Junior Classification
Food processing and nutrition for carnivorous companion animals. Topics covered include meat processing and meat preservation for companion animal diets, regulatory standards, cutting edge technologies for processing meat for companion animals, dietary needs of carnivorous companion animals, effect of different processing methods on safety and nutrient bioavailability.

AN S 331: Domestic Animal Reproduction
(3-0) Cr. 3. F.S.
Prereq: AN S 214 or BIOL 255 256 or BIOL 335 or B M S 329
Comparative anatomy, physiology, and endocrinology of domestic mammalian animal reproduction. Techniques for the control and manipulation of reproductive processes.

AN S 332: Laboratory Methods in Animal Reproduction
(0-2) Cr. 1. F.S.
Prereq: Credit or enrollment in AN S 331
Reproductive anatomy with emphasis on the physiology of normal reproductive function; ways to control and improve reproduction; principles of semen collection and artificial insemination; pregnancy testing.

AN S 332A: Laboratory Methods in Animal Reproduction: Livestock, Companion, and Laboratory Animals
(0-2) Cr. 1. F.S.
Prereq: Credit or enrollment in AN S 331.
Comparative reproductive anatomy with emphasis on the physiology of normal reproductive function; ways to control and improve reproduction; principles of semen collection and artificial insemination; pregnancy testing.

AN S 332E: Laboratory Methods in Animal Reproduction: Equine
(0-2) Cr. 1. S.
Prereq: Credit or enrollment in AN S 331.
Reproductive anatomy with emphasis on the physiology of normal reproductive function; breeding season management; ways to control and improve reproduction; semen collection, evaluation, and processing; artificial insemination; pregnancy testing; parturition in the mare, foal care.
AN S 333: Embryo Transfer and Related Technologies
(3-0) Cr. 3. F.
Prereq: AN S 331 or AN S 332
Application of embryo transfer and related technologies to genetic improvement of mammalian livestock. Techniques for control of female reproduction, embryo collection and transfer, embryo cryopreservation, and embryo manipulation. Gender selection. Economic and genetic aspects of embryo transfer.

AN S 334: Embryo Transfer Laboratory
(0-3) Cr. 1. F.
Prereq: Credit or concurrent enrollment in AN S 333; or AN S 332; permission of instructor
Selected laboratory exercises related to embryo transfer such as synchronization of estrus, superovulation, detection of estrus, artificial insemination, embryo collection, embryo evaluation, microscopy, embryo cryopreservation, in vitro fertilization, embryo sexing, rectal palpation, and ultrasonography will be demonstrated and/or performed.

AN S 335: Dairy Cattle Evaluation
(0-6) Cr. 3. S.
Prereq: Sophomore classification
Evaluation of breeding dairy replacement animals and lactating for dairy cows. Emphasis placed on familiarity with anatomical terms/structures, the use of comparative terminology, decision-making skills, and presentation of oral reasons. Trips to dairy cattle farms. Livestock handling. (Introduction and skills development course for AN S 475B.)

AN S 336: Domestic Animal Behavior and Well-Being
(2-2) Cr. 3. F.
Prereq: One course in physiology
Principles of behavior relative to animal care, management and environmental design to ensure animal well-being. Examination of basic neural-endocrine mechanisms involved in the animal’s response to its environment. Awareness of animal protection, law and legislation. Methods to objectively assess animal well-being.

AN S 337: Lactation
(3-0) Cr. 3. S.
Prereq: AN S 214

AN S 345: Growth and Development of Domestic Animals
(3-0) Cr. 3. S.
Prereq: AN S 214; BIOL 313 or GEN 320
Basic principles of animal growth and development covered at the tissue, cellular and molecular level. Emphasis placed on skeletal muscle, adipose, bone, and immune system growth and development. The effects of genetics, nutrition, and pharmaceuticals on growth.

AN S 352: Genetic Improvement of Domestic Animals
(2-2) Cr. 3. F.S.
Prereq: One course in statistics, BIOL 211, course in genetics
Principles of qualitative and quantitative genetics applied to creating change in domestic animals. Impact of selection and mating schemes in achieving breeding program goals. Applications and impacts of biotechnological advancements in genetic manipulation.

AN S 360: Fresh Meats
(3-0) Cr. 3. F.
Prereq: AN S 270; a course in organic or biochemistry
Impact of muscle structure, composition, rigor mortis, inspection, fabrication, handling, packaging and cooking on the palatability, nutritional value, yields, market value, and safety of fresh meat.

AN S 382: Swine Environment Management
(1-0) Cr. 1.
Prereq: AN S 225 or 280 and 280L. Recommended TSM 210.
Response of swine to thermal environment, ventilation system design and analysis, heating and cooling systems, and examples of various designs for all phases of production. Troubleshooting ventilation systems and energy analysis of production units.

AN S 383: Swine Manure and Nutrient Management
(1-0) Cr. 1.
Prereq: An S 225 or An S 280 and An S 280L.
Function, application, and advantages and disadvantages of nutrient management systems. Manure production rates, manure handling systems, storage and manure management planning for land application and odor mitigation strategies.

AN S 384: Swine Health and Biosecurity
(1-0) Cr. 1.
Prereq: AN S 225 or AN S 280 and AN S 280L. Recommended a course in microbiology.
Overview of standard biosecurity protocols and identification of behavior and clinical signs of illness in pigs. Treatment administration and prevention methods. Introduction to immune system function and basic swine disease transmission.

AN S 399: Animal Science Internship
Cr. arr. Repeatable. F.S.SS.
AN S 399A: Animal Science Internship: Graded Internship Experience  
Cr. 2-6. Repeatable. F.S.S.  
Prereq: Permission of the instructor  
Learning experience focused on professional development for a career related to animal science. Journal, presentation, and scientific component.

AN S 399B: Animal Science Internship: Supervised Internship Experience  
Cr. R. Repeatable. F.S.S.  
Prereq: Permission of the instructor  
Learning experience focused on professional development for a career related to animal science. Journal, presentation, and scientific component. This course is designed for those students who are completing a semester long internship located off campus.

AN S 411: Addressing Issues in Animal Science  
(0-2) Cr. 1. F.S.  
Prereq: Senior classification in An S  
Life skill development emphasized in the context of exploring one's perspective of the most pressing moral and scientific issues facing animal agriculture. Clarification and communication of personal conclusions in small and large group settings expected.

AN S 415: Equine Systems Management  
(2-2) Cr. 3. F.S.  
Prereq: AN S 216, AN S 319, AN S 320, AN S 331  
Identification and development of financial and production goals in a horse business. Scientific approach to make decisions in management of enterprises in the horse industry.

AN S 419: Advanced Animal Nutrition  
(2-0) Cr. 2. F.  
Prereq: AN S 214, AN S 319  
Detailed consideration of digestion, metabolism, and assimilation of nutrients. Recent advances and developments in basic nutrition.

AN S 424: Companion Animal Systems Management  
(2-2) Cr. 3. S.  
Prereq: AN S 224, AN S 319, AN S 320, AN S 331, AN S 352  
Decisions facing the administrator of a companion animal enterprise. Financial and business goal identification, problem clarification, and resource allocation to manage the companion animal system.

AN S 425: Swine Systems Management  
(2-2) Cr. 3. F.  
Prereq: AN S 225, AN S 270, AN S 270L, AN S 319, AN S 320, AN S 331, AN S 352; ECON 230 or equivalent recommended  
Decisions facing the administrator of a swine enterprise. Financial and production goal identification, problem clarification, and resource allocation to manage the swine enterprise.

AN S 426: Beef Feedlot Systems Management  
(2-2) Cr. 3. S.  
Prereq: AN S 226, AN S 270, AN S 270L, AN S 320; recommended: ECON 230 or equivalent  
Decisions facing the administrator of a feedlot enterprise. Financial and production goal identification, problem clarification, and resource allocation to manage the beef enterprise.

AN S 429: Sheep Systems Management  
(2-2) Cr. 3. S.  
Prereq: AN S 229, AN S 319, AN S 320, AN S 331, AN S 352; AGRON 334 recommended; ECON 230 or equivalent recommended  
Decisions facing the administrator of a sheep enterprise. Financial and production goal identification, problem clarification, and resource allocation to manage the sheep enterprise.

AN S 434: Dairy Systems Management  
(3-0) Cr. 3. F.  
Prereq: AN S 235, AN S 319, AN S 331, AN S 320, AN S 337, AN S 352; ECON 230 or equivalent recommended  
The scientific foundation of dairy cattle management. The impact of dairy farm management practices on the biological processes of the cow. Integrates concepts from the disciplines of lactation, reproduction, nutrition, genetics, and animal health.

AN S 435: Applied Dairy Farm Evaluation  
(2-2) Cr. 3. S.  
Prereq: AN S S 434; ECON 230  
Evaluate nutrition, reproduction, milk quality, breeding, and related management practices of commercial dairy herds in a case study format. Students will apply knowledge gained in the classroom to commercial dairy farm situations and develop skills in information gathering, decision making, problem solving, and interpersonal communications.

AN S 441: International Animal Agriculture  
(Cross-listed with GLOBE). (3-0) Cr. 3. S.  
Prereq: Two courses from AN S 223, AN S 225, AN S 226, AN S 229, AN S 235  
An overview of animal agriculture with emphasis in developing countries. Historical, economic, environmental, and political considerations will be assessed and evaluated. Issues related to gender, resilience and sustainability for different production systems including alternative livestock species, will be investigated. The role of animal source foods in attainment of global food security will be discussed. Meets International Perspectives Requirement.
AN S 460: Processed Meats
(Dual-listed with AN S 560). (2-2) Cr. 3. S.
Prereq: AN S 270
Physical, chemical and biological properties of meat important to processed meat product characteristics. Ingredients, technology and equipment used for cured meats, loaf products and fresh, cooked, dry and semi-dry sausage products.

AN S 475: Intercollegiate Judging Training and Competition
(0-4) Cr. 1-2. Repeatable. F.S.
Prereq: permission of instructor
Specialized training in evaluation and grading of livestock, livestock products, and livestock production management plans. Maximum of 6 credits may be applied toward graduation.

AN S 475A: Intercollegiate Judging Training and Competition: Meat Animals
(0-4) Cr. 1-2. Repeatable. F.S.
Prereq: permission of instructor
Specialized training in evaluation and grading of livestock. Maximum of 6 credits may be applied toward graduation.

AN S 475B: Intercollegiate Judging Training and Competition: Dairy Cattle
(0-4) Cr. 1-2. Repeatable. F.S.
Prereq: permission of instructor
Specialized training in evaluation and grading of dairy cattle, in particular heifers and lactating dairy cows. Development and advancement of decision-making skills, comparative techniques, and presentation of oral reasons. Maximum of 6 credits may be applied toward graduation.

AN S 475C: Intercollegiate Judging Training and Competition: Meats
(0-4) Cr. 1-2. Repeatable. F.S.
Prereq: permission of instructor
Specialized training in evaluation and grading of livestock/meat products. Maximum of 6 credits may be applied toward graduation.

AN S 475D: Intercollegiate Judging Training and Competition: Meat Animal Evaluation
(0-4) Cr. 1-2. Repeatable. F.S.
Prereq: permission of instructor
Specialized training in evaluation and grading of livestock, livestock products, and livestock production management plans. Maximum of 6 credits may be applied toward graduation.

AN S 475E: Intercollegiate Judging Training and Competition: Horses
(0-4) Cr. 1-2. Repeatable. F.S.
Prereq: permission of instructor
Specialized training in evaluation of horses. Emphasis placed on familiarity with anatomical terms/structures, the use of comparative terminology, and decision making skills. Maximum of 6 credits may be applied toward graduation.

AN S 475F: Intercollegiate Judging Training and Competition: Management Systems
(0-4) Cr. 1-2. Repeatable. F.S.
Prereq: permission of instructor
Specialized training in evaluation of livestock/domesticated animal production management plans. Maximum of 6 credits may be applied toward graduation.

AN S 480: Animal Industry Leadership Fellows
Cr. 1. Repeatable. F.S.
Prereq: A. AN S 226; permission of instructor C. AN S 225; permission of instructor
Students broaden their perspective of the livestock industry through site visits, case-study (Fellows) projects, and cooperative learning experiences that capitalize on interaction skills in the context of studying the structure of the U.S. livestock industry. This for-credit offering represents the central academic focus of the Iowa State University Animal Industry Leadership Fellows Program. Study is species specific, and enrollment is limited. Offered on a satisfactory-fail basis only.

AN S 480A: Animal Industry Leadership Fellows: Beef
Cr. 1. Repeatable. F.S.
Prereq: AN S 226; permission of instructor
Students broaden their perspective of the livestock industry through site visits, case-study (Fellows) projects, and cooperative learning experiences that capitalize on interaction skills in the context of studying the structure of the U.S. livestock industry. This for-credit offering represents the central academic focus of the Iowa State University Animal Industry Leadership Fellows Program. Study is species specific, and enrollment is limited. Offered on a satisfactory-fail basis only.

AN S 480C: Animal Industry Leadership Fellows: Pork
Cr. 1. Repeatable. F.S.
Prereq: AN S 225; permission of instructor
Students broaden their perspective of the livestock industry through site visits, case-study (Fellows) projects, and cooperative learning experiences that capitalize on interaction skills in the context of studying the structure of the U.S. livestock industry. This for-credit offering represents the central academic focus of the Iowa State University Animal Industry Leadership Fellows Program. Study is species specific, and enrollment is limited. Offered on a satisfactory-fail basis only.
AN S 480G: Animal Industry Leadership Fellows: Poultry
Cr. 1. Repeatable. F.S.
Prereq: AN S 223; permission of instructor
Students broaden their perspective of the livestock industry through site visits, case-study (Fellows) projects, and cooperative learning experiences that capitalize on interaction skills in the context of studying the structure of the U.S. livestock industry. Central academic focus of the Iowa State University Animal Industry Leadership Fellows Program. Study is species specific, and enrollment is limited. Offered on a satisfactory-fail basis only.

AN S 489: Issues in Food Safety
(Cross-listed with FS HN, HSP M, VDPAM). (1-0) Cr. 1. S.
Prereq: Credit or enrollment in FS HN 101 or FS HN 272 or HSP M 233; FS HN 419 or FS HN 420; FS HN 403
Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

AN S 490: Independent Study
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Permission of the instructor
Open to juniors and seniors in animal science and dairy science showing satisfactory preparation for problems chosen. Individual topic conference and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

AN S 490A: Independent Study: Animal Science
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Permission of the instructor
Open to juniors and seniors in animal science and dairy science showing satisfactory preparation for problems chosen. Individual topic conference and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

AN S 490B: Independent Study: Dairy Science
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Permission of the instructor
Open to juniors and seniors in animal science and dairy science showing satisfactory preparation for problems chosen. Individual topic conference and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

AN S 490C: Independent Study: Meat Science
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Permission of the instructor
Open to juniors and seniors in animal science and dairy science showing satisfactory preparation for problems chosen. Individual topic conference and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

AN S 490D: Independent Study: Companion Animal Science
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Permission of the instructor
Open to juniors and seniors in animal science and dairy science showing satisfactory preparation for problems chosen. Individual topic conference and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

AN S 490E: Independent Study: Equine Science
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Permission of the instructor
Open to juniors and seniors in animal science and dairy science showing satisfactory preparation for problems chosen. Individual topic conference and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

AN S 490F: Independent Study: Poultry Science
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Permission of the instructor
Open to juniors and seniors in animal science and dairy science showing satisfactory preparation for problems chosen. Individual topic conference and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

AN S 490G: Independent Study: Honors
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Permission of the instructor
Open to juniors and seniors in animal science and dairy science showing satisfactory preparation for problems chosen. Individual topic conference and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

AN S 490H: Independent Study: Entrepreneurship
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Permission of the instructor
Open to juniors and seniors in animal science and dairy science showing satisfactory preparation for problems chosen. Individual topic conference and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

AN S 493: Workshop in Animal Science
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Workshop in livestock production. Includes current concepts in breeding, nutrition, reproduction, meats, and technologies that impact the animal industry.
AN S 495: Agricultural Travel Course Preparation  
Cr. R. Repeatable. F.S.  
**Prereq:** Permission of instructor  
Limited enrollment. Students enrolled in this course will also register for Agron 495 and intend to register in Agron 496 and An S 496 the following term. Topics will include the agricultural industries, climate, crops, culture, history, livestock, marketing, soils, and preparation for travel to locations to be visited. Information normally available 9 months before departure.  

AN S 496: Agricultural Travel Course  
Cr. arr. Repeatable.  
**Prereq:** Permission of instructor, 30 college credits  
Limited enrollment. Students enroll in both An S 496 and Agron 496. Tour and study of production methods in major crop and livestock regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, and other factors on livestock and crop production. Locations and duration of tours will vary. Summer tour will usually visit a northern location and winter tour will usually visit a southern location. Information usually available 9 months before departure. Tour expenses paid by students.  

AN S 496A: Agricultural Travel Course: International Tour  
Cr. arr. Repeatable.  
**Prereq:** Permission of instructor, 30 college credits  
Limited enrollment. Students enroll in both An S 496 and Agron 496. Tour and study of production methods in major crop and livestock regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, and other factors on livestock and crop production. Locations and duration of tours will vary. Summer tour will usually visit a northern location and winter tour will usually visit a southern location. Information usually available 9 months before departure. Tour expenses paid by students.  

Meets International Perspectives Requirement.  

AN S 496B: Agricultural Travel Course: Domestic tour  
Cr. arr. Repeatable.  
**Prereq:** Permission of instructor, 30 college credits  
Limited enrollment. Students enroll in both An S 496 and Agron 496. Tour and study of production methods in major crop and livestock regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, and other factors on livestock and crop production. Locations and duration of tours will vary. Summer tour will usually visit a northern location and winter tour will usually visit a southern location. Information usually available 9 months before departure. Tour expenses paid by students.  

AN S 497: Undergraduate Teaching Experiences in Animal Science  
Cr. 1-2. Repeatable, maximum of 4 credits. F.S.SS.  
**Prereq:** Permission of instructor  
Development of oral and written communication skills of technical concepts in animal science. Emphasis on organizational skills, conducting activities and interpersonal communication skills. Responsibilities in a class under direct supervision of a faculty member. A maximum of 4 credits of An S 497 may be applied toward graduation.  

Courses primarily for graduate students, open to qualified undergraduates:  

AN S 500: Computer Techniques for Biological Research  
(2-0) Cr. 1. F.  
Introduction to UNIX and SAS for solving research problems, including organization of data files, transfer of files between workstations, developing models, and techniques for analysis of designed experiments. Introduction to matrix algebra for solving animal breeding problems using MATLAB and computer simulation.  

AN S 500A: Computer Techniques for Biological Research: UNIX and SAS  
(2-0) Cr. 1. F.  
First half semester course. Introduction to UNIX and SAS for solving research problems, including organization of data files, transfer of files between workstations, developing models, and techniques for analysis of designed experiments. Introduction to matrix algebra for solving animal breeding problems using MATLAB and computer simulation.  

AN S 500B: Computer Techniques for Biological Research: Problem solving using matrix algebra  
(2-0) Cr. 1. F.  
Second half semester course. Introduction to UNIX and SAS for solving research problems, including organization of data files, transfer of files between workstations, developing models, and techniques for analysis of designed experiments. Introduction to matrix algebra for solving animal breeding problems using MATLAB and computer simulation.  

AN S 501: Survey of Animal Disciplines  
(1-0) Cr. 1. F.  
Required for Animal Science graduate students. Orientation to departmental and graduate school policies and procedures. Discussion of programs of research and outreach in Animal Science. Issues impacting the animal industry. Offered on a satisfactory-fail basis only.  

AN S 503: Seminar in Animal Production  
(1-0) Cr. 1. Repeatable. F.  
**Prereq:** Permission of instructor  
Discussion and evaluation of current topics in animal production and management.
AN S 515: Integrated Crop and Livestock Production Systems
(Cross-listed with A B E, AGRON, SUSAG). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: SUSAG 509
Methods to maintain productivity and minimize the negative ecological effects of agricultural systems by understanding nutrient cycles, managing manure and crop residue, and utilizing multispecies interactions. Crop and livestock production within landscapes and watersheds is also considered. Course includes a significant field component, with student teams analyzing Iowa farms.

AN S 518: Digestive Physiology and Metabolism of Non Ruminants
(Cross-listed with NUTRS). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: AN S 419 or NUTRS 501
Digestion and metabolism of nutrients. Nutritional requirements and current research and feeding programs for poultry and swine.

AN S 520: Digestive Physiology and Metabolism of Ruminants
(Cross-listed with NUTRS). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: AN S 419 or NUTRS 501
Digestive physiology and nutrient metabolism in ruminant and preruminant animals.

AN S 533: Physiology and Endocrinology of Animal Reproduction
(2-0) Cr. 2. Alt. S., offered even-numbered years.
Prereq: General physiology course
Development of structure and function of the reproductive system. Physiologic and endocrine aspects including puberty, gametogenesis, estrous cycle, pregnancy, maternal recognition, fertilization and early embryonic development.

AN S 536: Perinatology
(2-0) Cr. 2. S.
Prereq: One course in physiology; one course in biochemistry
Regulation of metabolism and development in the mammalian fetus and neonate is explored in a comparative manner. Emphasis will be on the dynamic changes in these relationships occurring at birth.

AN S 537: Topics in Animal Behavior, Welfare
(3-0) Cr. 3.
Prereq: permission of instructor; M.S. or Ph.D. student
Each semester, the students’ focus is on different topics related to animal behavior, animal welfare and contemporary issues related to animal behavior and welfare. Each topic is separate and distinct, and students may enroll in multiple topics. This is an on-line course only. Each topic may be taken only one time for credit.

AN S 537A: Topics in Animal Behavior, Welfare: Animal Behavior
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: permission of instructor; M.S. or Ph.D. student
Each semester, the students’ focus is on different topics related to animal behavior, animal welfare and contemporary issues related to animal behavior and welfare. Each topic is separate and distinct, and students may enroll in multiple topics. This is an on-line course only. Each topic may be taken only one time for credit.

(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: permission of instructor; M.S. or Ph.D. student
Each semester, the students’ focus is on different topics related to animal behavior, animal welfare and contemporary issues related to animal behavior and welfare. Each topic is separate and distinct, and students may enroll in multiple topics. This is an on-line course only. Each topic may be taken only one time for credit.

AN S 537C: Topics in Animal Behavior, Welfare: Animal Welfare
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: permission of instructor; M.S. or Ph.D. student
Each semester, the students’ focus is on different topics related to animal behavior, animal welfare and contemporary issues related to animal behavior and welfare. Each topic is separate and distinct, and students may enroll in multiple topics. This is an on-line course only. Each topic may be taken only one time for credit.

AN S 537D: Topics in Animal Behavior, Welfare: Immune and Stress
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: permission of instructor; M.S. or Ph.D. student
Each semester, the students’ focus is on different topics related to animal behavior, animal welfare and contemporary issues related to animal behavior and welfare. Each topic is separate and distinct, and students may enroll in multiple topics. This is an on-line course only. Each topic may be taken only one time for credit.

AN S 540: Livestock Immunogenetics
(Cross-listed with MICRO, V MPM). (2-0) Cr. 2. Alt. S., offered odd-numbered years.
Prereq: AN S 561 or MICRO 575 or V MPM 520
Basic concepts and contemporary topics in genetic regulation of livestock immune response and disease resistance.

AN S 549: Advanced Vertebrate Physiology I
(Cross-listed with KIN, NUTRS). (4-0) Cr. 4. F.
Prereq: recommended: an undergraduate physiology course and a biochemistry course
Overview of mammalian physiology. Cell biology, endocrinology, cardiovascular, respiratory, immune, digestive, skeletal muscle and reproductive systems.
AN S 552: Advanced Vertebrate Physiology II
(Cross-listed with KIN, NUTRS). (3-0) Cr. 3. S.
Prereq: BIOL 335; credit or enrollment in BBMB 404 or BBMB 420
Cardiovascular, renal, respiratory, and digestive physiology.

AN S 556: Current Topics in Genome Analysis
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: BBMB 405 or GDCB 510
Introduction to principles and methodology of molecular genetics useful in analyzing and modifying large genomes.

AN S 560: Processed Meats
(Dual-listed with AN S 460). (2-2) Cr. 3. S.
Prereq: AN S 270
Physical, chemical and biological properties of meat important to processed meat product characteristics. Ingredients, technology and equipment used for cured meats, loaf products and fresh, cooked, dry and semi-dry sausage products.

AN S 561: Population and Quantitative Genetics for Breeding
(Cross-listed with AGRON). (4-0) Cr. 4. F.
Prereq: STAT 401
Population and quantitative genetics for plant and animal genetics. Study of the genetic basis and analysis of variation in quantitative traits in domestic or experimental populations using phenotypic and molecular marker data, including estimation of heritability and other genetic parameters, linkage analysis and mapping of quantitative trait loci, and the impact of inbreeding, heterosis, and genotype-by-environment interaction.

AN S 562: Methodologies for Population/Quantitative Genetics
(2-0) Cr. 2. S.
Prereq: AN S 561, STAT 402
Basic theory for genetic analysis of animal breeding data. Course A (1st half semester) covers linear models, selection index methods, and basic theory for best linear unbiased prediction. Course B (2nd half semester) best linear unbiased prediction, including genetic groups, environmental adjustment, repeated records, multiple trait models, maternal effects models, and theory for maximum likelihood estimation of genetic parameters.

AN S 562A: Methodologies for Population/Quantitative Genetics: Linear Models and Genetic Prediction
(2-0) Cr. 2. S.
Prereq: AN S 561, STAT 402
Basic theory for genetic analysis of animal breeding data. Course A (1st half semester) covers linear models, selection index methods, and basic theory for best linear unbiased prediction. Course B (2nd half semester) best linear unbiased prediction, including genetic groups, environmental adjustment, repeated records, multiple trait models, maternal effects models, and theory for maximum likelihood estimation of genetic parameters.

AN S 562B: Methodologies for Population/Quantitative Genetics: Advanced Genetic Prediction & Parameter Estimation
(2-0) Cr. 2. S.
Prereq: AN S 561, STAT 402
Basic theory for genetic analysis of animal breeding data. Course A (1st half semester) covers linear models, selection index methods, and basic theory for best linear unbiased prediction. Course B (2nd half semester) best linear unbiased prediction, including genetic groups, environmental adjustment, repeated records, multiple trait models, maternal effects models, and theory for maximum likelihood estimation of genetic parameters.

AN S 570: Advanced Meat Science and Applied Muscle Biology
(2-2) Cr. 3. S.
Prereq: AN S 460
Ante and postmortem factors impacting composition, structure, and chemistry of red meat and poultry muscle/meat, the conversion of muscle to meat, and the sensory and nutritional attributes of fresh meats. Oral research reports and a research proposal.

AN S 571: Advanced Meat Processing Principles and Technology
(2-2) Cr. 3. Alt. F., offered even-numbered years.
Prereq: AN S 460 or AN S 570
Physical/chemical relationships during processing. Effects of modern technology, non-meat additives and preservation techniques on quality and safety of processed meat. Laboratory demonstration of principles and technology.

AN S 590: Special Topics
Cr. 1-3. Repeatable. F.S.S.
Prereq: Permission of instructor
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.
AN S 590A: Special Topics: Animal Breeding  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590B: Special Topics: Animal Nutrition  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590C: Special Topics: Meat Animal Production  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590D: Special Topics: Dairy Production  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590E: Special Topics: Meat Science  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590F: Special Topics: Physiology of Reproduction  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590G: Special Topics: Muscle Biology  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590H: Special Topics: Poultry Nutrition  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590I: Special Topics: Poultry Products  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590J: Special Topics: Experimental Surgery  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590K: Special Topics: Professional Topics  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590L: Special Topics: Teaching  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590M: Special Topics: Molecular Biology  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 590N: Special Topics: Ethology  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

AN S 599: Creative Component  
Cr. 1-8. F.S.SS.  
Prereq: Nonthesis M.S  
A written report based on research, library readings, or topics related to the student’s area of specialization and approved by the student’s advisory committee.

AN S 599A: Creative Component: Animal Breeding and Genetics  
Cr. 1-8. F.S.SS.  
Prereq: Nonthesis M.S  
A written report based on research, library readings, or topics related to the student’s area of specialization and approved by the student’s advisory committee.
AN S 599B: Creative Component: Animal Nutrition
Cr. 1-8. F.S.S.
Prereq: Nonthesis M.S
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

AN S 599C: Creative Component: Animal Physiology
Cr. 1-8. F.S.S.
Prereq: Nonthesis M.S
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

AN S 599D: Creative Component: Animal Science
Cr. 1-8. F.S.S.
Prereq: Nonthesis M.S
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

AN S 599E: Creative Component: Meat Science
Cr. 1-8. F.S.S.
Prereq: Nonthesis M.S
A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

Courses for graduate students:

AN S 603: Seminar in Animal Nutrition
(1-0) Cr. 1. Repeatable. F.S.
Prereq: Permission of instructor
Discussion of current literature; preparation and submission of abstracts.

AN S 618: Vitamins and Minerals
(Cross-listed with NUTRS). Cr. 2. Alt. S., offered even-numbered years.
Prereq: Biochemistry, physiology, basic nutrition
Understanding molecular aspects of vitamin and mineral metabolism and homeostasis in humans and animals. An in-depth examination of the chemistry of vitamins and minerals, including genetic mutations, proteins involved in absorption and excretion, and their necessity in biological processes.

AN S 619: Advanced Nutrition and Metabolism - Protein
(Cross-listed with NUTRS). (2-0) Cr. 2. F.
Prereq: BBMB 405
Digestion, absorption, and intermediary metabolism of amino acids and protein. Regulation of protein synthesis and degradation. Integration of cellular biochemistry and physiology of mammalian protein metabolism.

AN S 620: Advanced Nutrition and Metabolism - Energy
(Cross-listed with NUTRS). (2-0) Cr. 2. Alt. S., offered even-numbered years.
Prereq: BBMB 405
Energy constituents of feedstuffs and energy needs of animals as related to cellular biochemistry and physiology. Interpretations of classical and current research.

AN S 633: Seminar in Animal Reproduction
(1-0) Cr. 1. Repeatable. F.
Prereq: Permission of instructor
Discussion of current literature and preparation of reports and seminars on selected topics concerning animal physiology.

AN S 652: Animal Breeding Strategies
(2-0) Cr. 2.
Prereq: AN S 561
Basic concepts and methods for design and evaluation of genetic improvement programs for livestock. Topic A. (1st half semester) Prediction of response to selection, selection index theory, multiple trait selection, inbreeding, crossbreeding, and marker-assisted selection. Topic B. (2nd half semester) Advanced concepts in design and evaluation of animal breeding programs, including modeling and optimization, derivation of economic values, gene-flow, and predicting rates of inbreeding. Each topic may be taken only one time for academic credit.

AN S 652A: Animal Breeding Strategies: Breeding Goals and Response to Selection
(2-0) Cr. 2.
Prereq: AN S 561
Basic concepts and methods for design and evaluation of genetic improvement programs for livestock. Topic A. (1st half semester) Prediction of response to selection, selection index theory, multiple trait selection, inbreeding, crossbreeding, and marker-assisted selection. Topic B. (2nd half semester) Advanced concepts in design and evaluation of animal breeding programs, including modeling and optimization, derivation of economic values, gene-flow, and predicting rates of inbreeding. Each topic may be taken only one time for academic credit.
AN S 652B: Animal Breeding Strategies: Design and Evaluation of Animal Breeding Programs
(2-0) Cr. 2.
Prereq: AN S 561
Basic concepts and methods for design and evaluation of genetic improvement programs for livestock. Topic A. (1st half semester) Prediction of response to selection, selection index theory, multiple trait selection, inbreeding, crossbreeding, and marker-assisted selection. Topic B. (2nd half semester) Advanced concepts in design and evaluation of animal breeding programs, including modeling and optimization, derivation of economic values, gene-flow, and predicting rates of inbreeding. Each topic may be taken only one time for academic credit.

AN S 653: Applied Animal Breeding Strategies
(2-0) Cr. 2. F.
Prereq: AN S 561 recommended
Industrial applications of breeding systems, selection methods, and new genetic technologies. One or more field trips to an industry breeding company.

AN S 653A: Applied Animal Breeding Strategies: Swine and Poultry
(2-0) Cr. 2. F.
Prereq: AN S 561 recommended
Industrial applications of breeding systems, selection methods, and new genetic technologies. One or more field trips to an industry breeding company.

AN S 653B: Applied Animal Breeding Strategies: Beef and Dairy
(2-0) Cr. 2. F.
Prereq: AN S 561 recommended
Industrial applications of breeding systems, selection methods, and new genetic technologies. One or more field trips to an industry breeding company.

AN S 655: Advanced Computational Methods in Animal Breeding and Genetics
(3-1) Cr. 2. Alt. F., offered odd-numbered years.
Prereq: AN S 500, AN S 562, COM S 207
Computational methods and strategies for analysis of large data sets with animal breeding data for use in research and industry applications. Strategies for handling large sets and for prediction using best linear unbiased prediction using a formal language and utility programs.

AN S 655A: Computational Strategies for Predicting Breeding Values
(3-1) Cr. 2. Alt. F., offered odd-numbered years.
Prereq: AN S 500, AN S 562, COM S 207
Computational methods and strategies for analysis of large data sets with animal breeding data for use in research and industry applications. Strategies for handling large sets and for prediction using best linear unbiased prediction using a formal language and utility programs.

AN S 655B: Computational Strategies for Genetic Parameter Estimation
(3-1) Cr. 2. Alt. F., offered odd-numbered years.
Prereq: AN S 500, AN S 562, COM S 207
Computational methods and strategies for analysis of large data sets with animal breeding data for use in research and industry applications. Strategies for estimation of genetic parameters and for use of non-linear models for genetic analysis of categorical and survival type data.

AN S 656: Statistical Methods for Mapping Quantitative Trait Loci
(2-0) Cr. 2. Alt. S., offered even-numbered years.
Prereq: AN S 562, STAT 447
Statistical methods for mapping quantitative trait loci in out-bred populations. Methods based on modeling covariances between relatives. Likelihood based methods using half-sib and full-sib families and extended pedigrees. Bayesian methods applied.

AN S 658: Seminar in Animal Breeding and Genetics
(1-0) Cr. 1. Repeatable. F.S.
Presentation of current research related to animal breeding and genetics.

AN S 670: Molecular Biology of Muscle
(Cross-listed with KIN). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: BBMB 405, BBMB 420, or BBMB 502
Ultrastructure of muscle; chemistry, structure, function, and molecular biology of muscle proteins. Molecular aspects of muscle contraction, development and turnover. Cytoskeletal proteins and dynamics.

AN S 684: Seminar in Meat Science
(1-0) Cr. 1. Repeatable. S.
Prereq: Permission of instructor
Discussion and evaluation of current topics in research publications in meat science.

AN S 685: Seminar in Muscle Biology
(1-0) Cr. 1. Repeatable. S.
Prereq: Permission of instructor
Reports and discussion of recent literature and current investigations.
AN S 695: Seminar in Animal Science  
(1-0) Cr. 1. Repeatable. S.  
Reports and discussion of current issues and research in animal science.  
One credit is required for all M.S. degree candidates with graduate majors  
in the Department of Animal Science, and two credits are required for  
all Ph.D. candidates with graduate majors in the Department of Animal  
Science. Offered on a satisfactory-fail basis only.

AN S 699: Research  
Cr. arr. Repeatable.

AN S 699A: Research: Animal Breeding  
Cr. arr. Repeatable.

AN S 699B: Research: Animal Nutrition  
Cr. arr. Repeatable.

AN S 699C: Research: Meat Animal Production  
Cr. arr. Repeatable.

AN S 699D: Research: Dairy Production  
Cr. arr. Repeatable.

AN S 699E: Research: Meat Science  
Cr. arr. Repeatable.

AN S 699F: Research: Physiology of Reproduction  
Cr. arr. Repeatable.

AN S 699G: Research: Muscle Biology  
Cr. arr. Repeatable.

AN S 699H: Research: Poultry Nutrition  
Cr. arr. Repeatable.

AN S 699I: Research: Poultry Products  
Cr. arr. Repeatable.

AN S 699J: Research: Animal Ethology  
Cr. arr. Repeatable.

Anthropology (ANTHR)

Courses primarily for undergraduates:

ANTHR 201: Introduction to Cultural Anthropology  
(3-0) Cr. 3. F.S.S.S.  
Comparative study of culture as key to understanding human behaviors in different societies. Using a global, cross-cultural perspective, patterns of family life, economic and political activities, religious beliefs, and the ways in which cultures change are examined. Meets International Perspectives Requirement.

ANTHR 202: Introduction to Biological Anthropology and Archaeology  
(3-0) Cr. 3. F.S.  
Human biological and cultural evolution; survey of the evidence from fossil primates, the human fossil record and the archaeological record, as well as living primates; introduction to research methods in archaeology and biological anthropology.

ANTHR 220: Globalization and Sustainability  
(Cross-listed with ENV S, GLOBE, M E, MAT E, SOC, T SC). (3-0) Cr. 3. F.S.  
An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department. Meets International Perspectives Requirement.

ANTHR 225: American Indians of Iowa  
(Cross-listed with AM IN). Cr. 3. F.  
 Cultures and histories of Native people who have called the present state of Iowa home; primary focus on the period between 1700 CE and the present; Native interactions with Spanish, French, British, and American people. Meets U.S. Diversity Requirement.

ANTHR 230: Globalization and the Human Condition  
(3-0) Cr. 3. F.S.  
An introduction to understanding key global issues in the contemporary world. Focuses on social relations, cultural practices and political-economic linkages among Africa, the Americas, Asia, Europe and the Pacific. Meets International Perspectives Requirement.

ANTHR 250: Primate Behavior  
(2-2) Cr. 3. F.S.S.S.  
Prereq: ANTHR 202 and/or basic biology course recommended  
An introduction to the Order Primates with a focus on their behavior. Biological and social adaptations of monkeys, apes, and prosimians; basic evolutionary concepts, current trends and theories in the field of Primatology and issues related to primate conservation.

ANTHR 306: Cultural Anthropology  
(2-2) Cr. 3. S.  
Prereq: ANTHR 201  
Survey of the major theoretical, methodological and empirical foundations of cultural anthropology. Participatory lab: focus on ethnographic methods through individual research projects. Meets International Perspectives Requirement.
ANTHR 307: Biological Anthropology  
(2-2) Cr. 3. S.  
Prereq: ANTHR 202  
Human evolution as known from fossil evidence, comparative primate studies, and genetic variations in living populations. Laboratory-tutorial sessions include study and discussion of human osteology, fossil hominids, simple Mendelian traits, and bio-ethics in applied biological anthropology.

ANTHR 308: Archaeology  
(2-2) Cr. 3. F.  
Prereq: ANTHR 202  
Methods and techniques for the recovery and interpretation of archaeological evidence, its role in reconstructing human behavior and past environments. Laboratory sessions include experience in the interpretation of archaeological evidence, the use of classification systems, and prehistoric technologies such as ceramics and stone tools.

ANTHR 309: Introduction to Culture and Language  
(Cross-listed with LING). (3-0) Cr. 3.  
Prereq: ANTHR 201 recommended  
Introduction to study of language, culture and society from an anthropological perspective. Focus on language and thought, ethnography of speaking, discourse and narrative, writing and literacy, and media communication. Discussion of key theories and methods of linguistic anthropology.  
Meets International Perspectives Requirement.

ANTHR 313: Kinship and Marriage in a Global Perspective  
(Dual-listed with ANTHR 513). (3-0) Cr. 3. S.  
Prereq: ANTHR 201 recommended  
Comparative and historical overview of the family, marriage and kinship. Examination of cross-cultural differences in the construction and functioning of family and kin relations; role of kinship in structuring individual and collective activities; current critical and theoretical issues in kinship studies, especially integrating work on gender and sexuality.  
Meets International Perspectives Requirement.

ANTHR 315: Archaeology of North America  
(Dual-listed with ANTHR 515). (Cross-listed with AM IN). (3-0) Cr. 3. S.  
Prereq: ANTHR 202  
Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture-historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.  
Meets U.S. Diversity Requirement.

ANTHR 319: Skeletal Biology  
(Dual-listed with ANTHR 519). (2-2) Cr. 3. F.  
Prereq: ANTHR 307 or college level biology  
Comprehensive study of the skeletal anatomy, physiology, genetics, growth, development and population variation of the human skeleton. Applications to forensic anthropology, paleopathology and bioarchaeology are introduced.

ANTHR 320: Great Plains Archaeology  
(Dual-listed with ANTHR 520). (Cross-listed with AM IN). (3-0) Cr. 3. F.  
Prereq: ANTHR 202  
Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.  
Meets U.S. Diversity Requirement

ANTHR 321: World Prehistory  
(Dual-listed with ANTHR 521). (3-0) Cr. 3. S.  
Prereq: ANTHR 202 recommended  
An introduction to archaeological sites from around the world including the Near East, Africa, Europe, Mesoamerica, and North and South America. Emphasis is on the interpretation of material cultural remains in reconstructing past societies.

ANTHR 322: Peoples and Cultures of Native North America  
(Dual-listed with ANTHR 522). (Cross-listed with AM IN). (3-0) Cr. 3.  
Prereq: ANTHR 201 or AM IN 210  
Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.  
Meets U.S. Diversity Requirement

ANTHR 323: Topics in Latin American Anthropology  
(Dual-listed with ANTHR 523). (Cross-listed with US LS). (3-0) Cr. 3.  
Repeatable, maximum of 9 credits. S.  
Prereq: ANTHR 201 or ANTHR 306 recommended  
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
ANTHR 323A: Latin American Anthropology: Violence and Memory
(Dual-listed with ANTHR 523A). (Cross-listed with US LS). (3-0) Cr. 3.
Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

ANTHR 323B: Latin American Anthropology: Social movements and Democracy
(Dual-listed with ANTHR 523B). (Cross-listed with US LS). (3-0) Cr. 3.
Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

ANTHR 323C: Latin American Anthropology: Race, Class and Gender
(Dual-listed with ANTHR 523C). (Cross-listed with US LS). (3-0) Cr. 3.
Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

ANTHR 323D: Latin American Anthropology: Regional Focus
(Dual-listed with ANTHR 523D). (Cross-listed with US LS). (3-0) Cr. 3.
Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

ANTHR 323E: Latin American Anthropology: Culture and Sport.
(Dual-listed with ANTHR 523E). (Cross-listed with US LS). (3-0) Cr. 3.
Repeatable, maximum of 9 credits.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

ANTHR 325: Peoples and Cultures of Africa.
(Cross-listed with AF AM). (3-0) Cr. 3.
Prereq: 201 or 306 recommended.
Survey of diverse African culture areas across the continent and globally; local level description and analysis of individuals as members of African communities; regional, national and global scales of identification.
Meets International Perspectives Requirement.

ANTHR 328: Archaeological Discovery and Analysis
(2-2) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 308
Identification, analysis, and interpretation of animal bones recovered from archaeological sites, emphasizing taphonomy, paleoecology, and faunal exploitation.

ANTHR 332: Current Issues in Native North America
(Dual-listed with ANTHR 532). (Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered.
Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement

ANTHR 332A: Current Issues in Native North America: Gender and Family
(Dual-listed with ANTHR 532A). (Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered.
Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement

ANTHR 332B: Current Issues in Native North America: Indigenous Ecologies and Geographies
(Dual-listed with ANTHR 532B). (Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement
ANTHR 332C: Current Issues in Native North America: Cultural and Political Movements
(Dual-listed with ANTHR 532C). (Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306, ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement

ANTHR 332D: Current Issues in Native North America: Regional Focus
(Dual-listed with ANTHR 532D). (Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306, ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement

ANTHR 333: Asian American Material Cultures
(Cross-listed with HIST). (3-0) Cr. 3.
Examination of material objects made and used by Asian Americans with both historical and contemporary focuses; transnational and interdisciplinary lenses to interpret the material world; contemporary approaches to analysis of artifacts.
Meets U.S. Diversity Requirement

ANTHR 336: Global Development
(Dual-listed with ANTHR 536). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: ANTHR 201 or ANTHR 306
Cross-cultural analysis of current development practices from an anthropological perspective; focus on international aid, development institutions, agrarian reform, indigenous knowledge, humanitarianism and human rights; introduction to main theories of political and economic anthropology.
Meets International Perspectives Requirement

ANTHR 340: Magic, Witchcraft, and Religion
(Dual-listed with ANTHR 540). (Cross-listed with RELIG). (3-0) Cr. 3. S.
Prereq: ANTHR 201 or ANTHR 306
Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.
Meets International Perspectives Requirement

ANTHR 354: War and the Politics of Humanitarianism
(Cross-listed with POL S). (3-0) Cr. 3. S.
Prereq: Pol S 235, Pol S 251, Anthr 210, or Anthr 230
Humanitarianism as a system of thought and a system of intervention in conflict and post-conflict situations. Role of humanitarian organizations and actors in addressing human suffering caused by conflict or war. Military action as a form of humanitarian intervention.
Meets International Perspectives Requirement.

ANTHR 376: Classical Archaeology
(Cross-listed with CL ST). (3-0) Cr. 3.
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
Meets International Perspectives Requirement.

ANTHR 376A: Classical Archeology: Bronze Age and Early Iron Age Greece
(Cross-listed with CL ST). (3-0) Cr. 3.
Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece. (ca 3000-700 BCE). Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
Meets International Perspectives Requirement.

ANTHR 376B: Classical Archeology: Archaic through Hellenistic Greece (ca 700-30 BCE)
(Cross-listed with CL ST). (3-0) Cr. 3.
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
Meets International Perspectives Requirement.

ANTHR 376C: Classical Archaeology: Roman Archaeology (ca 1000 BCE-400 CE)
(Cross-listed with CL ST). (3-0) Cr. 3.
Chronological survey of the material culture of the ancient Roman world and the role of archaeological context in understanding the varied aspects of ancient Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
Meets International Perspectives Requirement.
ANTHR 411: Anthropology for Global Professionals
(Dual-listed with ANTHR 511). (3-0) Cr. 3. F.
Prereq: ANTHR 201 or ANTHR 306
Theory and methods for conducting ethnographic research in academic and non-academic settings; application of anthropological knowledge to contemporary cultural, political, economic, environmental and spatial issues; development of skills necessary for professional practice as an anthropologist.
Meets International Perspectives Requirement.

ANTHR 418: Global Culture, Consumption and Modernity
(Dual-listed with ANTHR 518). (3-0) Cr. 3. F.
Prereq: ANTHR 201 or ANTHR 306 recommended
Cross-cultural study of the impact of globalization, with an emphasis on economic consumption and the movement of goods, ideas, and peoples across cultural and national boundaries.
Meets International Perspectives Requirement.

ANTHR 419: Topics in Cultural Anthropology
(3-0) Cr. 3.
Prereq: ANTHR 306
In-depth study of current topics in cultural anthropology, such as recent theoretical trends, new methodologies, or new research on a specific region. Topics vary each time offered. Each section may be taken once for credit up to 9 credits. No more than 9 credits of ANTHR 419 courses may be applied towards graduation.

ANTHR 419A: Topics in Cultural Anthropology: Theory
(3-0) Cr. 3.
Prereq: ANTHR 306
In-depth study of current topics in cultural anthropology, such as recent theoretical trends, new methodologies, or new research on a specific region. Topics vary each time offered. No more than 9 credits of ANTHR 419 courses may be applied towards graduation.

ANTHR 419B: Topics in Cultural Anthropology: Methods
(3-0) Cr. 3.
Prereq: ANTHR 306
In-depth study of current topics in cultural anthropology, such as recent theoretical trends, new methodologies, or new research on a specific region. Topics vary each time offered. No more than 9 credits of ANTHR 419 courses may be applied towards graduation.

ANTHR 419C: Topics in Cultural Anthropology: Regional Focus
(3-0) Cr. 3.
Prereq: ANTHR 306
In-depth study of current topics in cultural anthropology, such as recent theoretical trends, new methodologies, or new research on a specific region. Topics vary each time offered. No more than 9 credits of ANTHR 419 courses may be applied towards graduation.

ANTHR 419D: Topics in Cultural Anthropology: Others
(3-0) Cr. 3.
Prereq: ANTHR 306
In-depth study of current topics in cultural anthropology, such as recent theoretical trends, new methodologies, or new research on a specific region. Topics vary each time offered. No more than 9 credits of ANTHR 419 courses may be applied towards graduation.

ANTHR 424: Forensic Anthropology
(Dual-listed with ANTHR 524). (2-2) Cr. 3. S.
Prereq: ANTHR 202 or ANTHR 307; ANTHR 319 recommended
Comprehensive study of forensic anthropology, a specialized subfield of biological anthropology. Emphasis is placed on personal identifications from extremely fragmentary, comingled, burnt, cremated and incomplete skeletal remains. All parameters of forensic study are included as they pertain to anthropology, including human variation, taphonomy, entomology, archaeology, pathology, epidemiology; genetics and the non-biological forensic disciplines. An appreciation for the wide range of medicolegal and bioethical issues will also be gained.

ANTHR 425: Professional Preparation in Anthropology
(2-0) Cr. 2. F.
Prereq: Junior classification in anthropology or permission from the instructor
Instruction and guidance in the development of professional skills needed for success in academic and non-academic anthropological careers. Topics will include strategies for internship and job searches, creating resumes and CVs, composing personal statements and cover letters, and developing contacts and sources. Offered on a satisfactory-fail basis only.

ANTHR 427I: Field Archaeology
(Cross-listed with IA LL). Cr. 4. SS.
Nature of cultural and environmental evidence in archaeology and how they are used to model past human behavior and land use; emphasis on Iowa prehistory; basic reconnaissance surveying and excavation techniques.

ANTHR 429: Topics in Archaeological Laboratory Methods and Techniques: Archaeological Field School
(Dual-listed with ANTHR 529). Cr. 4-6. SS.
Prereq: ANTHR 202 or ANTHR 308
Summer field school for training in archaeological reconnaissance and excavation techniques; documentation and interpretation of archaeological evidence.

ANTHR 431: Ethnographic Field School
(Dual-listed with ANTHR 531). Cr. 4-6.
Hands-on training in ethnographic field methods; students will carry out research projects in socio-cultural anthropology, learning a variety of investigative research techniques commonly used in social sciences.
ANTHR 434: Internship
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.S.
Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434A: Internship: Archaeology
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.S.
Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434B: Internship: Cultural Anthropology
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.S.
Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434C: Internship: Biological Anthropology
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.S.
Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 434D: Internship: Linguistic Anthropology
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.S.
Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

ANTHR 438: Primate Evolutionary Ecology and Behavior
(Dual-listed with ANTHR 538). Cr. 3. S.
Prereq: ANTHR 202 or ANTHR 307
Primate behavior and ecology in evolutionary perspective: biological and social adaptations of prosimians, monkeys, and apes. Introduction to the Order Primates, basic evolutionary concepts, and techniques of behavioral observation. Focus on theory and methods current in Primatology, including applied conservation biology.

ANTHR 444: Sex and Gender in Cross-cultural Perspective
(Dual-listed with ANTHR 544). (Cross-listed with WGS). (3-0) Cr. 3. S.
Prereq: ANTHR 201; ANTHR 306 recommended
Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation. Meets International Perspectives Requirement.

ANTHR 445: Biological Field School
(Dual-listed with ANTHR 545). Cr. 4-6. SS.
Prereq: ANTHR 202 or BIOL 101
Summer field school for training in behavioral and ecological methods for primatologists. Proposal, data collection and analyses, and presentation of research topic in primatology.

ANTHR 450: Historical and Theoretical Approaches in Anthropology
(3-0) Cr. 3. F.
Prereq: ANTHR 306
Survey of the historical foundations of anthropology and its interrelated four sub-fields; key figures in 19th and 20th century anthropology with a focus on major theoretical contributions.

ANTHR 451: Practicum in Anthropology
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.S.
Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451A: Practicum in Anthropology: Archaeology
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.S.
Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451B: Practicum in Anthropology: Cultural Anthropology
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.S.
Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.
ANTHR 451C: Practicum in Anthropology: Biological Anthropology
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.S.S.
Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 451D: Practicum in Anthropology: Linguistic Anthropology
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.S.S.
Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

ANTHR 482: Topics in Biological Anthropology
(Dual-listed with ANTHR 582). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.
Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482A: Topics in Biological Anthropology: Paleanthropology
(Dual-listed with ANTHR 582A). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.
Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482B: Topics in Biological Anthropology: Primate Cognition
(Dual-listed with ANTHR 582B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.
Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482C: Topics in Biological Anthropology: Primate Conservation
(Dual-listed with ANTHR 582C). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.
Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 482D: Topics in Biological Anthropology: Population Genetics and Human Evolution
(Dual-listed with ANTHR 582D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.
Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 490: Independent Study
Cr. 1-5. Repeatable, maximum of 9 credits.
Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490A: Independent Study: Archaeology
Cr. 1-5. Repeatable, maximum of 9 credits.
Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490B: Independent Study: Cultural Anthropology
Cr. 1-5. Repeatable, maximum of 9 credits.
Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490C: Independent Study: Biological Anthropology
Cr. 1-5. Repeatable, maximum of 9 credits.
Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490D: Independent Study: Linguistic Anthropology
(Cross-listed with LING). Cr. 1-5. Repeatable, maximum of 9 credits.
Prereq: 9 credits in anthropology.
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490H: Independent Study: Honors
Cr. 1-5. Repeatable, maximum of 9 credits.
Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.

ANTHR 490I: Iowa Lakeside Laboratory
(Cross-listed with IA LL, NREM). Cr. 1-6. Repeatable, maximum of 9 credits.
Prereq: 8 credits in biology and permission of instructor
Research opportunities for undergraduate students in the biological sciences. No more than 9 credits in Biol 490 may be counted toward graduation and of those, only 6 credits may be applied to the major.

Courses primarily for graduate students, open to qualified undergraduates:
ANTHR 503: Biological Anthropology and Archaeology  
(3-0) Cr. 3.  
Prereq: ANTHR 307 and ANTHR 308  
History of biological anthropology and archaeology, current developments and theoretical issues related to major events in human biocultural evolution and world prehistory.

ANTHR 509: Agroecosystems Analysis  
(Cross-listed with AGRON, SOC, SUSAG). (3-4) Cr. 3. F.  
Prereq: Senior or above classification  
Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing field visits, with some classroom activities. Focus on understanding multiple elements, perspectives (agronomic, economic, ecologic, social, etc.) and scales of operation.

ANTHR 510: Theoretical Dimensions of Cultural Anthropology  
(3-0) Cr. 3. F.  
Prereq: 6 credits in anthropology  
Survey of historical and current developments in topical and theoretical approaches to sociocultural anthropology. Examination and assessment of controversies; new research directions and theoretical approaches.

ANTHR 511: Anthropology for Global Professionals  
(Dual-listed with ANTHR 411). (3-0) Cr. 3. F.  
Prereq: ANTHR 201 or ANTHR 306  
Theory and methods for conducting ethnographic research in academic and non-academic settings; application of anthropological knowledge to contemporary cultural, political, economic, environmental and spatial issues; development of skills necessary for professional practice as an anthropologist.  
Meets International Perspectives Requirement.

ANTHR 513: Kinship and Marriage in a Global Perspective  
(Dual-listed with ANTHR 313). (3-0) Cr. 3. S.  
Prereq: ANTHR 201 recommended  
Comparative and historical overview of the family, marriage and kinship. Examination of cross-cultural differences in the construction and functioning of family and kin relations; role of kinship in structuring individual and collective activities; current critical and theoretical issues in kinship studies, especially integrating work on gender and sexuality.  
Meets International Perspectives Requirement.

ANTHR 515: Archaeology of North America  
(Dual-listed with ANTHR 315). (3-0) Cr. 3. S.  
Prereq: ANTHR 202  
Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture- historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.  
Meets U.S. Diversity Requirement

ANTHR 518: Global Culture, Consumption and Modernity  
(Dual-listed with ANTHR 418). (3-0) Cr. 3. F.  
Prereq: ANTHR 201 or ANTHR 306 recommended  
Cross-cultural study of the impact of globalization, with an emphasis on economic consumption and the movement of goods, ideas, and peoples across cultural and national boundaries.  
Meets International Perspectives Requirement.

ANTHR 519: Skeletal Biology  
(Dual-listed with ANTHR 319). (2-2) Cr. 3. F.  
Prereq: ANTHR 307 or college level biology  
Comprehensive study of the skeletal anatomy, physiology, genetics, growth, development and population variation of the human skeleton. Applications to forensic anthropology, paleopathology and bioarchaeology are introduced.

ANTHR 520: Great Plains Archaeology  
(Dual-listed with ANTHR 320). (3-0) Cr. 3. F.  
Prereq: ANTHR 202  
Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.  
Meets U.S. Diversity Requirement

ANTHR 521: World Prehistory  
(Dual-listed with ANTHR 321). (3-0) Cr. 3. S.  
Prereq: ANTHR 202 recommended  
An introduction to archaeological sites from around the world including the Near East, Africa, Europe, Mesoamerica, and North and South America. Emphasis is on the interpretation of material cultural remains in reconstructing past societies.

ANTHR 522: Peoples and Cultures of Native North America  
(Dual-listed with ANTHR 322). (3-0) Cr. 3.  
Prereq: ANTHR 201 or AM IN 210  
Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.  
Meets U.S. Diversity Requirement

Meets U.S. Diversity Requirement
ANTHR 523: Topics in Latin American Anthropology
(Dual-listed with ANTHR 323). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.

ANTHR 523A: Latin American Anthropology: Violence and Memory
(Dual-listed with ANTHR 323A). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

ANTHR 523B: Latin American Anthropology: Social movements and Democracy
(Dual-listed with ANTHR 323B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

ANTHR 523C: Latin American Anthropology: Race, Class and Gender
(Dual-listed with ANTHR 323C). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

ANTHR 523D: Latin American Anthropology: Regional Focus
(Dual-listed with ANTHR 323D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

ANTHR 523E: Latin American Anthropology: Culture and Sport.
(Dual-listed with ANTHR 323E). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

ANTHR 524: Forensic Anthropology
(Dual-listed with ANTHR 424). (2-2) Cr. 3. S.
Prereq: ANTHR 202 or ANTHR 307; ANTHR 319 recommended
Comprehensive study of forensic anthropology, a specialized subfield of biological anthropology. Emphasis is placed on personal identifications from extremely fragmentary, comingled, burnt, cremated and incomplete skeletal remains. All parameters of forensic study are included as they pertain to anthropology, including human variation, taphonomy, entomology, archaeology, pathology, epidemiology; genetics and the non-biological forensic disciplines. An appreciation for the wide range of medicolegal and bioethical issues will also be gained.

ANTHR 529: Topics in Archaeological Laboratory Methods and Techniques: Archaeological Field School
(Dual-listed with ANTHR 429). Cr. 4-6. SS.
Prereq: ANTHR 202 or ANTHR 308
Summer field school for training in archaeological reconnaissance and excavation techniques; documentation and interpretation of archaeological evidence.

ANTHR 530: Ethnographic Field Methods
Cr. 3. F.
Prereq: 6 credits in anthropology, permission of instructor
Field training experience in ethnography. Problems emphasizing field studies in the contemporary societies of the world. Focus on techniques of data gathering and analysis.

ANTHR 531: Ethnographic Field School
(Dual-listed with ANTHR 431). Cr. 4-6.
Hands-on training in ethnographic field methods; students will carry out research projects in socio-cultural anthropology, learning a variety of investigative research techniques commonly used in social sciences.
ANTHR 532: Current Issues in Native North America
(Dual-listed with ANTHR 332). (Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement

ANTHR 532A: Current Issues in Native North America: Gender and Family
(Dual-listed with ANTHR 332A). (Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement

ANTHR 532B: Current Issues in Native North America: Indigenous Ecologies and Geographies
(Dual-listed with ANTHR 332B). (Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement

ANTHR 532C: Current Issues in Native North America: Cultural and Political Movements
(Dual-listed with ANTHR 332C). (Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement

ANTHR 532D: Current Issues in Native North America: Regional Focus
(Dual-listed with ANTHR 332D). (Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement

ANTHR 536: Global Development
(Dual-listed with ANTHR 336). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: ANTHR 201 or ANTHR 306
Cross-cultural analysis of current development practices from an anthropological perspective; focus on international aid, development institutions, agrarian reform, indigenous knowledge, humanitarianism and human rights; introduction to main theories of political and economic anthropology.
Meets International Perspectives Requirement.

ANTHR 538: Primate Evolutionary Ecology and Behavior
(Dual-listed with ANTHR 438). Cr. 3. S.
Prereq: ANTHR 202 or ANTHR 307
Primate behavior and ecology in evolutionary perspective: biological and social adaptations of prosimians, monkeys, and apes. Introduction to the Order Primates, basic evolutionary concepts, and techniques of behavioral observation. Focus on theory and methods current in Primatology, including applied conservation biology.

ANTHR 540: Magic, Witchcraft, and Religion
(Dual-listed with ANTHR 340). (Cross-listed with RELIG). (3-0) Cr. 3. S.
Prereq: ANTHR 201 or ANTHR 306
Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.
Meets International Perspectives Requirement.

ANTHR 541: Seminar in Forensic Sciences
(1-0) Cr. 1. Repeatable. S.
Prereq: One 200-level science course or graduate classification
Seminars by professional criminalists, research scientists, Certificate students, and educators. Emphasis on opportunities for research and development, citizen involvement, and educational outreach related to forensic science. Weekly report required.

ANTHR 542: Independent Research and Presentation in Forensic Science
(1-0) Cr. 1. S.
Prereq: Enrollment in the Graduate Certificate in Forensic Sciences
Research topic approved by course instructor. Written and oral reports required. Oral report given in forensics seminar, Chem 540.
ANTHR 544: Sex and Gender in Cross-cultural Perspective  
(Dual-listed with ANTHR 444). (Cross-listed with WGS). (3-0) Cr. 3. S.  
**Prereq:** ANTHR 201; ANTHR 306 recommended  
Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation. Meets International Perspectives Requirement.

ANTHR 545: Biological Field School  
(Dual-listed with ANTHR 445). Cr. 4-6. SS.  
**Prereq:** ANTHR 202 or BIOL 101  
Summer field school for training in behavioral and ecological methods for primatologists. Proposal, data collection and analyses, and presentation of research topic in primatology.

ANTHR 582: Topics in Biological Anthropology  
(Dual-listed with ANTHR 482). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.  
**Prereq:** ANTHR 307  
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582A: Topics in Biological Anthropology: Paleoanthropology  
(Dual-listed with ANTHR 482A). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.  
**Prereq:** ANTHR 307  
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582B: Topics in Biological Anthropology: Primate Cognition  
(Dual-listed with ANTHR 482B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.  
**Prereq:** ANTHR 307  
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582C: Topics in Biological Anthropology: Primate Conservation  
(Dual-listed with ANTHR 482C). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.  
**Prereq:** ANTHR 307  
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 582D: Topics in Biological Anthropology: Population Genetics and Human Evolution  
(Dual-listed with ANTHR 482D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.  
**Prereq:** ANTHR 307  
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

ANTHR 590: Graduate Independent Study  
(Cross-listed with AECL, EEOB, IA LL). Cr. 1-4. Repeatable. SS.  
**Prereq:** Graduate classification and permission of instructor

ANTHR 590I: Special Topics: Graduate Independent Study  
(Cross-listed with AECL, EEOB, IA LL). Cr. 1-4. Repeatable. SS.  
**Prereq:** Graduate classification and permission of instructor

ANTHR 591: Orientation to Anthropology  
(1-0) Cr. 1. F.  
**Prereq:** Admission to the Anthropology Graduate Program  
Introduction to the Anthropology program, including the requirements for successful degree completion, department administrative procedures, ethics in anthropology and current trends in the four subfields of anthropology. Required of graduate students. Offered on a satisfactory-fail basis only.

Courses for graduate students:

ANTHR 610: Foundations of Sustainable Agriculture  
(Cross-listed with AB E, AGRON, SOC, SUSAG). (3-0) Cr. 3. F.  
**Prereq:** Graduate classification, permission of instructor  
Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

ANTHR 699: Research  
Cr. arr. Repeatable.

ANTHR 699I: Iowa Lakeside Laboratory (Same as IA LL 699I.)  
(Cross-listed with AECL, EEOB, GDCB, IA LL). Cr. arr. Repeatable.
Apparel, Events, and Hospitality Management (AESHM)

Courses primarily for undergraduates:

AESHM 112: Orientation for AESHM
(1-0) Cr. 1. F.S.
Prereq: Concurrent enrollment with AESHM 113
Orientation policies and procedures of university and college. Guest speakers representing the university. Some online lectures.

AESHM 113: Professional Development for AESHM
(1-0) Cr. 1. F.S.
Career exploration, presentation and professional skills, teamwork and leadership, creativity, critical thinking, technology, and service learning components. Orientation to policies and procedures of college, department, and program.

AESHM 113E: Professional Development for AESHM: Event Management and Hospitality Management - Directions LC
(1-0) Cr. 1. F.S.
EVENT and HSP M career exploration, presentation and professional skills, teamwork and leadership, creativity, critical thinking, technology, and service learning components for first year students. Orientation to policies and procedures of CHS college; AESHM department; and Event Management and Hospitality Management programs. Field Trip.

AESHM 113N: Professional Development for AESHM: Apparel, Merchandising, and Design - Common Threads LC
(1-0) Cr. 1. F.S.
AMD career exploration, presentation and professional skills, teamwork and leadership, creativity, critical thinking, technology, and service learning components for first year students. Orientation to policies and procedures of CHS college, AESHM department, and AMD program.

AESHM 170: Supervised Work Experience I
Cr. 1. Repeatable, maximum of 2 times. F.S.SS.
Prereq: Adviser permission required; freshman classification or permission
Supervised work experience with a cooperating firm or organization. Offered on a satisfactory-fail basis only. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

AESHM 170D: Supervised Work Experience I: Hospitality
Cr. 1. Repeatable, maximum of 2 times. F.S.SS.
Prereq: Adviser permission required
Supervised work experience with a cooperating firm or organization. Offered on a satisfactory-fail basis only. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

AESHM 170F: Supervised Work Experience I: Event Management
Cr. 1. Repeatable, maximum of 2 times. F.S.SS.
Prereq: Adviser permission required
Supervised work experience with a cooperating firm or organization. Offered on a satisfactory-fail basis only. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

AESHM 170N: Supervised Work Experience I: Apparel
Cr. 1. Repeatable, maximum of 2 times. F.S.SS.
Prereq: Adviser permission required; freshman classification
Supervised work experience with a cooperating firm or organization. Offered on a satisfactory-fail basis only. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

AESHM 175: Financial Applications for Retail and Hospitality Industries
(2-0) Cr. 2. S.
Using an online delivery method, students will learn basic mathematical concepts, calculations and formulas commonly used in the apparel and hospitality industries. Emphasis on problem solving, critical/creative thinking, and mathematical interpretation of calculations and formulas used within the apparel and hospitality industries.

AESHM 175D: Financial Applications for Retail and Hospitality Industries: Hospitality Management
(2-0) Cr. 2. S.
Using an online delivery method, students will learn basic mathematical concepts, calculations and formulas commonly used in the apparel and hospitality industries. Emphasis on problem solving, critical/creative thinking, and mathematical interpretation of calculations and formulas used within the hospitality industries.

AESHM 175N: Financial Applications for Retail and Hospitality Industries: Retail Merchandising
(2-0) Cr. 2. S.
Using an online delivery method, students will learn basic mathematical concepts, calculations and formulas commonly used in the apparel and hospitality industries. Emphasis on problem solving, critical/creative thinking, and mathematical interpretation of calculations and formulas used within the apparel industries.

AESHM 180: First Year Student Field Study
Cr. 1-2. Repeatable, maximum of 2 times. F.S.
Prereq: Permission of instructor
Study of and tours of regional areas of interest to A M D, HSP M, or EVENT majors. Trip to regional location under supervision of faculty member. Locations vary; 2- to 3-day trip. Journal entries and final report/analysis are required. Cost associated with trip.
AESHM 180E: First Year Student Field Study: Hospitality and Event Management
Cr. 1-2. Repeatable, maximum of 2 times. F.S.
Prereq: Permission of instructor
Study of and tours of regional areas of interest to majors in the HSP M and EVENT majors. Trip to regional location under supervision of faculty member. Locations vary, 2- to 3-day trip. Journal entries and final report/analysis are required. Cost associated with trip.

AESHM 180N: First Year Student Field Study: Apparel, Merchandising, and Design
Cr. 1-2. Repeatable, maximum of 2 times. F.S.
Prereq: Permission of instructor
Study of and tours of regional areas of interest to A M D majors. Trip to regional location under supervision of faculty member. Locations vary; 2- to 3-day trip. Journal entries and final report/analysis are required. Cost associated with trip.

AESHM 211: Leadership Experiences and Development (LEAD)
(3-0) Cr. 3. S.
Introduction to leadership behaviors. Development and utilization of leadership behaviors to positively impact school life, community life, and work life.

AESHM 222: Creativity on Demand
(3-0) Cr. 3. S.
Learn to use creativity strategies to solve everyday problems related to personal and professional lives. Application of creative thinking techniques to view things from different perspectives; identify unique opportunities; and generate and evaluate original ideas.

AESHM 270: Supervised Work Experience II
Cr. 1-2. Repeatable, maximum of 2 times. F.S.SS.
Prereq: Minimum 2.0 GPA; Adviser permission required; sophomore classification
 Supervised work experience with a cooperating firm or organization. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

AESHM 270D: Supervised Work Experience II: Hospitality
Cr. 1-2. Repeatable, maximum of 2 times. F.S.SS.
Prereq: Minimum 2.0 GPA; Adviser permission required; sophomore classification; 6 cr in AESHM or HSP M, credits in AESHM 170
Supervised work experience with a cooperating firm or organization. No more than 12 credits total from AESHM 170, AESHM 270, and 470 may be applied toward graduation.

AESHM 270F: Supervised Work Experience II: Event Management
Cr. 1-2. Repeatable, maximum of 2 times. F.S.SS.
Prereq: Minimum 2.0 GPA; Adviser permission required; 6 cr in AESHM, HSP M, or EVENT; employer location should be different than employer location used for AESHM 170 and 470.
Supervised work experience with a cooperating firm or organization. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

AESHM 270N: Supervised Work Experience II: Apparel
Cr. 1-2. Repeatable, maximum of 2 times. F.S.SS.
Prereq: Minimum 2.0 GPA; Adviser permission required. Sophomore AMD classification
Supervised work experience with a cooperating firm or organization. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

AESHM 272: Fashion Show Production and Promotion
(2-2) Cr. 1-3. Repeatable, maximum of 4 credits. F.S.
Prereq: Application and instructor permission, application form available from the AESHM Department office
Planning and production of fashion show including developing budgets, public relations, advertising, fund-raising, choreography, staging, lighting, and food. Promotion of fashion show and similar events. Maximum of 4 credits can be applied to graduation

AESHM 280: Orientation to U.S. Field Study
Cr. R. Repeatable, maximum of 2 times. F.S.
Orientation to the field study location during the semester preceding the trip.

AESHM 281: Orientation to International Field Study
Cr. 1. Repeatable, maximum of 2 times. F.S.
Orientation to the field study location during the semester preceding the trip.

AESHM 287: Principles of Management in Human Sciences
(3-0) Cr. 3. S.
Introduction to management concepts and principles with application to human sciences-related businesses and organizations. Includes service quality management, professionalism, and social responsibility.

AESHM 311: Seminar on Careers and Internships
(1-0) Cr. 1. S.
Prereq: AESHM 113; Sophomore classification. Good academic standing
Internship and career planning, professional expectations and responsibilities. Résumé development, cover letters, interviewing techniques, and business etiquette.
AESHM 311E: Seminar on Careers and Internships: Event Management and Hospitality Management  
(1-0) Cr. 1. F.S.  
Prereq: AESHM 113E; Sophomore classification.  
Internship and career planning, professional expectations and responsibilities. Résumé development, business letters/professional correspondence, interviewing techniques, and business etiquette.

AESHM 311N: Seminar on Careers and Internships: Apparel, Merchandising, and Design  
(1-0) Cr. 1. F.S.  
Prereq: AESHM 113N; Sophomore classification.  
Internship and career planning, professional expectations and responsibilities. Résumé development, cover letters, interviewing techniques, and business etiquette.

AESHM 340: Hospitality and Apparel Marketing Strategies  
(3-0) Cr. 3. F.S.  
Prereq: ECON 101  
Application of marketing principles to the hospitality-, events-, and apparel-related industries. Emphasis on the role of marketing in an organization's overall strategic planning. Development and evaluation techniques available to hospitality, events, apparel, and related businesses, including advertising, sales promotion, packaging, and public relations.

AESHM 342: Aesthetics of Consumer Experience  
(3-0) Cr. 3. F.S.  
Prereq: Sophomore classification  
Design principles, aesthetic concepts, and research applied to consumer experiences, with an emphasis on hospitality and retail environments and events. Influence of individual differences and cultural patterns on aesthetic preferences.  
Meets U.S. Diversity Requirement

AESHM 380: U.S. Field Study  
(Dual-listed with AESHM 580). Cr. 1-3. Repeatable, maximum of 3 times. F.S.S.S.  
Prereq: 9 credits in A M D, AESHM, EVENT, and/or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application  
Study and tours of areas of interest to majors in the Hospitality Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

AESHM 380D: U.S. Field Study: Hospitality Management  
(Dual-listed with AESHM 580D). Cr. 1-3. Repeatable, maximum of 3 times. F.S.S.S.  
Prereq: 9 credits in AESHM or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application  
Study and tours of areas of interest to majors in the Hospitality Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

AESHM 380F: U.S. Field Study: Event Management  
(Dual-listed with AESHM 580F). Cr. 1-3. Repeatable, maximum of 3 times. F.S.S.S.  
Prereq: 9 credits in EVENT, AESHM, or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application  
Study and tours of areas of interest to majors in the Event Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

AESHM 380N: U.S. Field Study: Apparel, Merchandising, and Design  
(Dual-listed with AESHM 580N). Cr. 1-3. Repeatable, maximum of 3 times. F.S.S.S.  
Prereq: 9 credits in A M D or AESHM; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application  
Study and tours of areas of interest to majors in the Apparel, Merchandising, and Design program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

AESHM 381: International Field Study  
(Dual-listed with AESHM 581). Cr. 1-3. Repeatable. F.S.S.S.  
Prereq: 9 credits in A M D, AESHM, EVENT, and/or HSP M; sophomore classification; minimum 2.0 GPA. Permission by application  
Study and tours of areas of interest to majors in the AESHM Department. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281.  
Meets International Perspectives Requirement.
Prereq: 9 credits in AESHM and/or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by application
Study and tours of areas of interest to majors in the Hospitality Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281. Meets International Perspectives Requirement.

Prereq: 9 credits in AESHM, EVENT, and/or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by application
Study and tours of areas of interest to majors in the Event Management major. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281. Meets International Perspectives Requirement.

Prereq: 9 credits in A M D and/or AESHM; sophomore classification; minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by application
Study and tours of areas of interest to majors in the Apparel, Merchandising, and Design major. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281. Meets International Perspectives Requirement.

AESHM 398: Cooperative Education
Cr. R. Repeatable. F.S.SS.
Prereq: Permission of adviser; junior classification
Required of all cooperative education students seeking full-time status. Students register for this course prior to commencing each work period.

AESHM 411: Seminar on Current Issues
Cr. 1. F.S.
Prereq: Permission of instructor.
Trends, issues, research, and scholarship in apparel, events, and hospitality management.

AESHM 411E: Seminar on Current Issues: Events and Hospitality
Cr. 1. F.S.
Prereq: senior classification in AESHM.
Trends, issues, research, and scholarship in events and hospitality management.

AESHM 411N: Seminar on Current Issues: Apparel
(1-0) Cr. 1. Repeatable, maximum of 2 times. F.S.
Prereq: AESHM 470N
Trends, issues, research, and scholarship in apparel.

AESHM 421: Developing Global Leadership: Maximizing Human Potential
(3-0) Cr. 3. S.
Development of leadership in a global environment. Focus on global concerns that impact on the well-being of individuals, families, and communities. Strategies for working with individuals, families and communities in other countries and cultures. Taking local action on global issues. Participation in a service activity. Meets International Perspectives Requirement.

AESHM 438: Human Resource Management
(3-0) Cr. 3. F.S.
Prereq: AESHM 270, AESHM 275 or AESHM 287; junior classification
Principles and practices of human resource management relevant to human science-related organizations. Emphasis on the entry-level manager’s role.

AESHM 470: Supervised Professional Internship
Cr. 3-6. Repeatable. F.S.SS.
Supervised work experience with a cooperating firm or organization.

AESHM 470P: Supervised Professional Internship: Event Management
Cr. 3-6. Repeatable. F.S.SS.
Prereq: AESHM 311, EVENT 271; employer/location should be different than employer/location used for AESHM 170 and 270
Supervised work experience with a cooperating firm or organization. No more than 12 credits from AESHM 170, 270, and 470 may be applied toward graduation.

AESHM 470N: Supervised Professional Internship: Apparel
Cr. 3-6. Repeatable. F.S.SS.
Prereq: AESHM 311, 9 credits in A M D, and minimum 2.0 GPA; permission by application; junior or senior classification; employer/location should be different than employer/location for AESHM 170 and 270
Supervised work experience with a cooperating firm or organization. No more than 12 credits from AESHM 170, 270, and 470 may be applied toward graduation.
AESHM 472: Fashion Show Management  
(2-2) Cr. 2-3. Repeatable, maximum of 5 credits. F.S.  
Prereq: Permission of instructor  
Provide leadership and communicate direction for planning and production of fashion show, including developing budgets, publicity, advertising, fundraising, choreography, staging, lighting, and food. Maximum of 5 credits can be applied to graduation.

AESHM 474: Entrepreneurship in Human Sciences  
(3-0) Cr. 3. F.S.  
Prereq: A M D 275 or AESHM 287 or ACCT 284 or 3 cr in MKT or permission of instructor  
Comprehensive approach to entrepreneurship including concepts of innovation, creativity, opportunity assessment, and business planning. Focus on human sciences-related businesses: retail, service, hospitality, event, food-related, family-owned, rural, and community businesses. Interaction with entrepreneurs, market research, feasibility analysis, business proposals, and business/community outreach and consulting.

AESHM 497: Cooperative Education  
Cr. R. Repeatable. F.S.S.  
Prereq: Permission of adviser; senior or graduate classification  
Required of cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

AESHM 510: Quantitative Research Methods in Apparel and Hospitality  
Cr. 3. Alt. S., offered odd-numbered years. Alt. SS., offered odd-numbered years.  
Prereq: STAT 401 or equivalent; Graduate standing in the Department; Permission of instructor  
Overview of quantitative research methods in apparel and hospitality fields. Topics include types of quantitative research design, sampling design, measurement, validity issues, power and precision analysis, methods of data gathering and analysis techniques, and interpretation of statistical results. Use of statistical packages. Development of research plan.

AESHM 511: Seminar  
Cr. 1-3. Repeatable, maximum of 6 times.  
Prereq: 6 graduate credits in A M D, AESHM, or HSP M. Permission of instructor  
Discussion of scholarship and current issues. Topics vary.

AESHM 570: Practicum  
Cr. 1-3. Repeatable, maximum of 2 times. F.S.S.  
Prereq: 6 graduate credits in program area; permission of instructor  
Supervised experience related to career objective; Proposal must be approved semester before placement.

AESHM 570A: Apparel Merchandising and Design  
Cr. 1-3. Repeatable, maximum of 2 times. F.S.S.  
Prereq: 6 graduate credits in program area; permission of instructor  
Supervised experience related to career objective; Proposal must be approved semester before placement.

AESHM 570B: Hospitality Management  
Cr. 1-3. Repeatable, maximum of 2 times. F.S.S.  
Prereq: 6 graduate credits in program area; permission of instructor  
Supervised experience related to career objective; Proposal must be approved semester before placement.

AESHM 574: Entrepreneurship in Human Sciences  
(3-0) Cr. 3. F.S.  
Prereq: A M D 275 or AESHM 287 or ACCT 284 or 3 cr in MKT or permission of instructor  
Comprehensive approach to entrepreneurship including concepts of innovation, creativity, opportunity assessment, and business planning. Focus on human sciences-related businesses: retail, service, hospitality, event, food-related, family-owned, rural, and community businesses. Interaction with entrepreneurs, market research, feasibility analysis, business proposals, and business/community outreach and consulting.

AESHM 580: U.S. Field Study  
(Dual-listed with AESHM 380). Cr. 1-3. Repeatable, maximum of 3 times. F.S.S.  
Prereq: 9 credits in A M D, AESHM, EVENT, and/or HSP M; sophomore classification; minimum 2.0 GPA. Permission by application  
Study and tours of areas of interest to majors in the AESHM Department. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

AESHM 580D: U.S. Field Study: Hospitality Management  
(Dual-listed with AESHM 380D). Cr. 1-3. Repeatable, maximum of 3 times. F.S.S.  
Prereq: 9 credits in AESHM or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application  
Study and tours of areas of interest to majors in the Hospitality Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.
AESHM 580F: U.S. Field Study: Event Management
(Dual-listed with AESHM 380F). Cr. 1-3. Repeatable, maximum of 3 times.
F.S.S.S.
Prereq: 9 credits in EVENT, AESHM, or HSP M; sophomore classification;
minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by
application
Study and tours of areas of interest to majors in the majors in the Event
Management program. Trip to location under supervision of faculty
member. Locations and lengths of trip vary. Final projects, reports, journal
entries, and analysis are required. May be combined with AESHM 280.

AESHM 580N: U.S. Field Study: Apparel, Merchandising, and Design
(Dual-listed with AESHM 380N). Cr. 1-3. Repeatable, maximum of 3 times.
F.S.S.S.
Prereq: 9 credits in A M D or AESHM; sophomore classification; minimum 2.0
GPA; AESHM 280 or concurrent enrollment; permission by application
Study and tours of areas of interest to majors in the Apparel,
Merchandising, and Design program. Trip to location under supervision of
faculty member. Locations and lengths of trip vary. Final projects, reports,
journal entries, and analysis are required. May be combined with AESHM 280.

AESHM 581: International Field Study
(Dual-listed with AESHM 381). Cr. 1-3. Repeatable. F.S.S.S.
Prereq: 9 credits in A M D, AESHM, EVENT, and/or HSP M; sophomore
classification; minimum 2.0 GPA. Permission by application
Study and tours of areas of interest to majors in the AESHM Department.
Trip to location under supervision of faculty member. Locations and
lengths of trip vary. Final projects, reports, journal entries, and analysis
are required. May be combined with AESHM 281.
Meets International Perspectives Requirement.

AESHM 581D: International Field Study: Hospitality Management
(Dual-listed with AESHM 381D). Cr. 1-3. Repeatable. F.S.S.S.
Prereq: 9 credits in AESHM and/or HSP M; sophomore classification;
minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by
application
Study and tours of areas of interest to majors in the Hospitality
Management program. Trip to location under supervision of faculty
member. Locations and lengths of trip vary. Final projects, reports, journal
entries, and analysis are required. May be combined with AESHM 281.
Meets International Perspectives Requirement.

AESHM 581F: International Field Study: Event Management
(Dual-listed with AESHM 381F). Cr. 1-3. Repeatable. F.S.S.S.
Prereq: 9 credits in AESHM, EVENT, and/or HSP M; sophomore classification;
minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by
application
Study and tours of areas of interest to majors in the Event Management
major. Trip to location under supervision of faculty member. Locations
and lengths of trip vary. Final projects, reports, journal entries, and analysis
are required. May be combined with AESHM 281.
Meets International Perspectives Requirement.

AESHM 581N: International Field Study: Apparel, Merchandising, and Design
(Dual-listed with AESHM 381N). Cr. 1-3. Repeatable, maximum of 3 times.
F.S.S.S.
Prereq: 9 credits in A M D and/or AESHM; sophomore classification; minimum 2.0
GPA; AESHM 281 or concurrent enrollment; permission by application
Study and tours of areas of interest to majors in the Apparel,
Merchandising, and Design major. Trip to location under supervision of
faculty member. Locations and lengths of trip vary. Final projects, reports,
journal entries, and analysis are required. May be combined with AESHM 281.
Meets International Perspectives Requirement.

Courses for graduate students:

AESHM 611: Seminar
Cr. 1-3. Repeatable.
Prereq: 6 graduate credits in AESHM, A M D, or HSP M. Permission of
instructor
Scholarship and current issues. Topics vary.

AESHM 670: Teaching Practicum
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: 6 graduate credits in program area; permission of instructor
Supervised experience in the university classroom. Proposal must be
approved semester before placement.

AESHM 670A: Teaching Practicum: Apparel Merchandising and Design
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: 6 graduate credits in program area; permission of instructor
Supervised experience in the university classroom. Proposal must be
approved semester before placement.

AESHM 670B: Teaching Practicum: Hospitality Management
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: 6 graduate credits in program area; permission of instructor
Supervised experience in the university classroom. Proposal must be
approved semester before placement.
Apparel, Merchandising and Design (A M D)

Courses primarily for undergraduates:

A M D 120: Apparel Construction Techniques
(3-0) Cr. 3. SS.
Assemble components and completed garments with the use of basic sewing equipment. Learn basic construction techniques, applications and vocabulary. Students will need access to a home sewing machine, iron, computer and the internet. Not available for credit for A M D majors.

A M D 121: Apparel Assembly Processes
(1-4) Cr. 3. F.S.
Prereq: A M D 204 concurrent recommended
Principles of garment assembly. Use of mass production equipment and methods to analyze, develop and assemble garments.

A M D 131: Fashion Products and Markets
(3-0) Cr. 3. F.

A M D 165: Dress and Diversity in Society
(3-0) Cr. 3. F.S.
Examination of diversity among consumers and introduction to forecasting trends in dress. Introduction to social justice issues. Meets U.S. Diversity Requirement

A M D 178: Introduction to Apparel Design Studio
(1-4) Cr. 3. F.S.
Introduction to the elements and principles of design in fashion and apparel including skill development in fashion illustration, technical drawing, and fabric rendering using traditional media. Application of written and verbal presentations to communicate fashion and apparel design concepts and terminology. Fashion presentation and introduction to portfolio development.

A M D 204: Textile Science
(3-2) Cr. 4. F.S.
Prereq: A M D 131
Textile fibers, yarns, fabrication, coloration, and finishes. Quality and performance application to textile products. Lab work included.

A M D 206: Design Selective Advancement
Cr. R. Repeatable, maximum of 2 times. F.S.
Prereq: Completion or enrollment in A M D 121, A M D 131, A M D 178, and A M D 204 and enrollment in major
Project review and skill assessment related to 2-dimensional and 3-dimensional visualization, apparel assembly, basic product knowledge, design problem solving, illustration, textiles. Offered on a satisfactory-fail basis only.

A M D 210: Computer Applications in Digital Design and Data Management
(2-2) Cr. 3. F.S.
Prereq: A M D 131, A M D 245 or concurrent; AESHM 113N
Applications of basic skills in Photoshop, Illustrator, PLM-type software, Excel, and databases. Introduction to digital product design and line development. Focus on elements and principles of design. Introduction to digital portfolio development for design and merchandising. Online lectures.

A M D 225: Patternmaking I: Drafting and Flat Pattern
(1-4) Cr. 3. F.S.
Application of patternmaking tools and their functions, measurement techniques, pattern labeling, and patternmaking communication documents. Sloper drafting and flat pattern manipulation methods for women’s apparel. Design and construction of original garments using drafted slopers and flat pattern manipulation methods to enable the analysis of fit.

A M D 231: Product Development and Manufacturing
(3-2) Cr. 4. F.S.
Prereq: A M D 204
Analysis of apparel product development, sourcing, and manufacturing processes. Focus on materials and specifications relative to quality, performance, cost, and price. Applications of software for PLM.

A M D 245: Aesthetics and Brand Image
(3-0) Cr. 3. F.S.
Prereq: A M D 131, A M D 165, A M D 204 or concurrent
Elements and principles of design. Analysis of sensory, expressive, and symbolic aspects that build brand image, with a focus on fashion products and promotional settings.

A M D 257: Museum Studies
(3-0) Cr. 3. F.
Prereq: Sophomore standing
Overview of museums including history, functions, and philosophy. Collection and curatorial practices. Funding and governance issues. Hands-on object research and exhibit development. Required field trip.
A M D 275: Retail Merchandising  
(3-0) Cr. 3. F.S.  
**Prereq: 3 credits in Math**  
Principles of merchandising as applied to retail-, service-, events-, and hospitality-related businesses. Study of the planning, development, and presentation of apparel- and hospitality-related products, services, and experiences. Industry and market research, planning of new offerings, and development of promotional and competitive strategies for various retail formats.

A M D 278: Fashion Illustration  
(0-6) Cr. 3. F.S.  
**Prereq: A M D 178, A M D 210 or concurrent enrollment, A M D 245 or concurrent enrollment. Permission of instructor.**  
Development of fashion plates and focused apparel lines/collections. Proficiency in drawing the fashion figure, technical drawings/flats, and apparel using a variety of media. Continuation of fashion presentation and portfolio development.

A M D 290: Independent Study  
Cr. 1-2. Repeatable, maximum of 4 credits. F.S.SS.  
**Prereq: Freshmen or Sophomore Classification; Permission of instructor, adviser, and department chair.**  
Independent study on topics of special interest to the student, facilitated by approved faculty member. Total number of A M D 290 and A M D 490 credits applied to graduation cannot exceed 9 credits.

A M D 305: Quality Assurance of Textiles and Apparel  
(Dual-listed with A M D 505). (2-2) Cr. 3. F.  
**Prereq: A M D 231, one course in natural science (chemistry with lab preferred); STAT 101, STAT 226, or STAT 401**  

A M D 310: Computer Aided Apparel Patternmaking  
(0-6) Cr. 3. F.S.  
**Prereq: A M D 210, A M D 225; Permission of instructor.**  
Computer-aided patternmaking technology used in pattern drafting, grading, marker making, and 3-D virtual prototyping.

A M D 321: Computer Integrated Textile and Fashion Design  
(0-6) Cr. 3. F.S.  
**Prereq: A M D 210, A M D 278 or concurrent enrollment. Permission of instructor**  
Analysis and advanced use of computer-aided design software for textile and fashion design for various target markets. Digital presentation and portfolio development.

A M D 325: Patternmaking II: Draping  
(0-6) Cr. 3. F.S.  
**Prereq: A M D 206, A M D 225; permission of instructor.**  
Principles of patternmaking through basic draping techniques on industry standard body forms. Apparel design through analysis of fit and design; problem solving and interaction of fabric characteristics with style features.

A M D 328: Design Seminar  
(Dual-listed with A M D 528). Cr. arr. Repeatable. F.S.SS.  
**Prereq: Vary with topic.**  
Focus on artisanal textile, apparel, or surface and structural design techniques. Design processes for specialty fabrics and markets. Topics vary by term.

A M D 329: Digital Textile Printing for Apparel Design  
(2-2) Cr. 3. F.S.  
**Prereq: A M D 321; A M D 325 or concurrent**  
Overview of the use of digital printing in the textile and apparel industry, color matching, repeat print patterns, engineered prints, and creation of apparel prototypes.

A M D 354: History of European and North American Dress  
(3-0) Cr. 3. F.  
**Prereq: 3 credits from Hist or Art H**  
Survey of history of dress from ancient times up to the American Civil War; focus on European and North American dress. Emphasis on connection of dress to the social, cultural, environmental, and technological contexts of the Western world. Meets International Perspectives Requirement.

A M D 356: History of Twentieth Century Fashion  
(3-0) Cr. 3. S.  
**Prereq: 3 credits HIST or ART H; A M D 204 recommended.**  
Survey of major design and technological developments from the American Civil War through the 20th Century. Emphasis on fashion as a system of design and production, culture of consumption, fashion change, and trends in art, society, and culture.

A M D 362: Cultural Perspectives of Dress  
(3-0) Cr. 3. S.  
**Prereq: A M D 165 or 3 credits in anthropology, psychology, or sociology.**  
Analysis of multiple factors related to dress in selected societies, including technology, cultural identity, aesthetics, social organization, ritual, stability and change. Applications to fair trade and social responsibility. Meets International Perspectives Requirement.
A M D 372: Sourcing and Global Issues
(3-0) Cr. 3. F.S.
Prereq: A M D 231, A M D 275; ECON 101 or ECON 102 recommended
Evaluation of key issues facing textile and apparel industries in global markets considering ethical, economic, political, social, and professional implications. Sourcing strategies in a global environment. Corporate and consumer social responsibility and sustainability.
Meets International Perspectives Requirement.

A M D 376: Merchandise Planning and Buying
(3-2) Cr. 4. F.S.
Prereq: A M D 275; COM S 113; 3 credits from ACCT 284, MATH 104, MATH 105, MATH 140, MATH 150, or equivalent.
Calculations and computer application in the planning and control of merchandise. Emphasis on retail math as it pertains to assortment planning, the six-month buying plan process, and other buying concepts and strategies. Online modules.

A M D 377: Visual Presentation and Promotions
(3-0) Cr. 3. F.S.
Prereq: A M D 245 or AESHM 342; AESHM 340 or MKT 340
Principles of visual aspects of brand development and management; emphasis on branding, visual merchandising, design/layout of retail spaces. Includes applications such as visual communication and documentation using Adobe Creative Suite(R), hands-on display projects, and brand case studies.

A M D 393: Apparel, Merchandising, and Design Workshop
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.
Prereq: A M D Junior or Senior Classification and Permission of Instructor.
Intensive 2 to 8 week workshop exploration. Topics vary each time offered. Maximum of 6 credits applied to graduation.

A M D 404: Advanced Textile Science
(Dual-listed with A M D 504). (2-2) Cr. 3. S.
Prereq: A M D 204, CHEM 163 and CHEM 163L or equivalent

A M D 415: Technical Design Processes
(2-2) Cr. 3. F.
Prereq: A M D 225; A M D 231
Garment development and analysis of fit, performance, quality, cost. Exploration of alternative materials, construction methods, grading; specifications and portfolio development.

A M D 426: Creative Design Processes
(1-4) Cr. 3. Alt. F., offered irregularly. S.
Prereq: A M D 206, A M D 321, A M D 325 or concurrent
Exploration of the creative process and sources of inspiration with emphasis on wearable art; experimentation of advanced design problem solving, alternative materials, fabric manipulation, and pattern-making techniques.

A M D 431: Apparel Production Management
(3-0) Cr. 3. S.
Prereq: A M D 231; A M D 121 recommended; A M D 372 or concurrent.
 Procedures and experiences related to application and use of process controls: method analysis, work measurement, costing, pricing, and production planning. Resource management, technology applications, and quality assurance.

A M D 457: Textile Conservation and Collection Management
(Dual-listed with A M D 557). (3-0) Cr. 3. Alt. F., offered irregularly.
Prereq: A M D 204
Condition assessment, repair, and stabilization of textiles and apparel in museum collections. Dry and aqueous cleaning. Examination of storage and exhibition techniques, materials, and conditions. Experience with cataloging and management practices.

A M D 467: Consumer Studies in Apparel and Fashion Products
(3-0) Cr. 3. F.
Prereq: A M D 165; AESHM 340 or MKT 340; STAT 101 or STAT 104 or STAT 226;
Application of concepts and theories from the social sciences to the study of consumer behavior related to dress, textile and apparel products, and retail experiences. Experience in conducting consumer research.

A M D 475: Retail Information Analysis
(2-2) Cr. 3. S.
Prereq: A M D 376
Evaluation of information needed to make effective retail decisions. Use of technology in analyzing and interpreting retail systems data. Application of concepts related to forecasting, consumer demand, assortment planning, market research, data mining, database interface, pattern recognition, supply-chain/logistics management, retail technology applications such as Visual Retailing, PLM, and Sourcing Simulator.
A M D 477: Omni-Channel Retailing
(3-0) Cr. 3. S.
Prereq: 3 credits in marketing or A M D 275 or AESHM 287
A customer-centric view of marketing with a focus on the retailer-
customer relationship and omni-channel strategies. Analysis and
evaluation of integrated retail applications and strategies using
digital media, including store formats, e-commerce, catalog, mobile,
crowdsourcing, and social media.

A M D 490: Independent Study
Cr. arr. Repeatable. F.S.SS.
Prereq: 6 credits in A M D. Permission of the instructor, adviser, and
department chair
Independent Study. Maximum of 9 credits of both A M D 290 and A M D
490 can be applied toward graduation.

A M D 490A: Independent Study: Textile Science
Cr. arr. Repeatable. F.S.SS.
Prereq: 6 credits in A M D. Permission of the instructor, adviser, and
department chair

A M D 490B: Independent Study: Historical, Cultural, and Museum
Studies of Dress and Textiles
Cr. arr. Repeatable. F.S.SS.
Prereq: 6 credits in A M D. Permission of the instructor, adviser, and
department chair

A M D 490C: Independent Study: Textile and Apparel Design
Cr. arr. Repeatable. F.S.SS.
Prereq: 6 credits in A M D. Permission of the instructor, adviser, and
department chair

A M D 490E: Independent Study: Merchandising, Aesthetics, and
Entrepreneurship
Cr. arr. Repeatable. F.S.SS.
Prereq: 6 credits in A M D. Permission of the instructor, adviser, and
department chair

A M D 490F: Independent Study: Sociological, Psychological, and
Consumer Behavioral Aspects of Dress
Cr. arr. Repeatable. F.S.SS.
Prereq: 6 credits in A M D. Permission of the instructor, adviser, and
department chair

A M D 490H: Independent Study: Honors
Cr. arr. Repeatable. F.S.SS.
Prereq: 6 credits in A M D. Permission of the instructor, adviser, and
department chair

A M D 490J: Independent Study: Product Development, Innovation, and
Sourcing
Cr. arr. Repeatable. F.S.SS.
Prereq: 6 credits in A M D. Permission of the instructor, adviser, and
department chair

A M D 490S: Independent Study: Production and Quality Assurance
Cr. arr. Repeatable. F.S.SS.
Prereq: 6 credits in A M D. Permission of the instructor, adviser, and
department chair

and Marketing
Cr. arr. Repeatable. F.S.SS.
Prereq: Prereq: 6 credits in A M D. Permission of the instructor, adviser, and
department chair

A M D 495: Senior Design Studio
(Dual-listed with A M D 595). (0-6) Cr. 3. F.
Creation of an apparel line from target market research to prototypes
through the use of manual techniques and CAD technologies. The line is
to be included in a professional portfolio and pieces submitted to a juried
exhibition.

A M D 496: Fashion Product Development and Prototyping
(3-0) Cr. 3. S.
Prereq: A M D 231, A M D 245, A M D 275
Applying consumer, aesthetic, and quantitative trend information
to develop value-added fashion products and product lines with
merchandising/promotion campaigns for diverse target markets. Multi-
function team projects. Development of a prototype and presentation to
industry representatives.

A M D 499: Undergraduate Research
Cr. 1-3. Repeatable. F.S.SS.
Prereq: Senior classification, 15 credits in A M D. Permission of instructor,
adviser, and department chair
Research experience in textiles and clothing with application to a
selected problem.

Courses primarily for graduate students, open to qualified
undergraduates:

A M D 504: Advanced Textile Science
(Dual-listed with A M D 404). (2-2) Cr. 3. S.
Prereq: A M D 204, CHEM 163 and CHEM 163L or equivalent
Theories and principles of textile science. Textile product serviceability.
Effect of fiber structure on properties and performance. New
developments in textiles.
A M D 505: Quality Assurance of Textiles and Apparel
(Dual-listed with A M D 305). (2-2) Cr. 3. F.
Prereq: A M D 231, one course in natural science (chemistry with lab preferred), STAT 101, STAT 226, or STAT 401
Principles of product and materials evaluation and quality assurance.
Developing specifications and using standard practices for evaluating materials, product characteristics, performance, and quality.

A M D 510: Foundation of Scholarship in Apparel, Merchandising, and Design
Cr. 3. F.
Prereq: Graduate classification or permission of instructor
Overview of scholarship in apparel, merchandising, and design with emphasis on current and future directions. Fundamentals of writing literature reviews. Examination of ethical issues in scholarship and academic life. Introduction to creativity, sustainability, and entrepreneurship. Development of teaching units.

A M D 521: Digital Technologies in Textile and Apparel Design
Cr. 3. Alt. S., offered even-numbered years.
Prereq: Research Methods course. Permission of instructor.
Digital technologies in textile and apparel design. Theories and practices of mass customization and personalization, digital textile printing, 3D body scanning, creating avatars from body scans, and fitting digital apparel designs.

A M D 525: Experimental Patternmaking
Cr. 3. Alt. F., offered even-numbered years.
Prereq: AMD 121 or equivalent, AMD 225 or equivalent, AMD 510 or taking concurrently, permission of instructor
Research, analyze, and apply experimental patternmaking techniques to original garments suitable for entry into a juried competition/exhibitions. Compare, contrast, and organize a framework of research patternmaking principles through content analysis or other appropriate research techniques. Documentation of learning and design process.

A M D 528: Design Seminar
(Dual-listed with A M D 328). Cr. arr. Repeatable. F.S.SS.
Prereq: Vary with topic.
Focus on artisanal textile, apparel, or surface and structural design techniques. Design processes for specialty fabrics and markets. Topics vary by term.

A M D 545: Consumer Aesthetics and Retail Branding
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: One course in design elements and principles, psychology, consumer behavior, or marketing
Examination of hedonic nature of consumer experience and its application to experiential design and branding of retail/hospitality establishments. Emphasis on consumer behavior, environmental psychology, and marketing literature.

A M D 554: Dress History Research Methods
Cr. 3. Alt. S., offered odd-numbered years.
Using a variety of sources and methods of analysis, students will develop their ability to read and interpret primary and secondary sources and to understand the methodology underpinnings and process of constructing dress history.

A M D 557: Textile Conservation and Collection Management
(Dual-listed with A M D 457). (3-0) Cr. 3. Alt. F., offered irregularly.
Prereq: A M D 204
Condition assessment, repair, and stabilization of textiles and apparel in museum collections. Dry and aqueous cleaning. Examination of storage and exhibition techniques, materials, and conditions. Experience with cataloging and management practices.

A M D 565: Sustainability: Theory and Practical Application
Cr. 3. Alt. F., offered even-numbered years.
Prereq: 3 credits in research methods; basic knowledge of apparel industry and product development; permission of instructor.
Overview of current sustainability theory, research, and methodology. Emphasis on the evaluation and discussion of current sustainability literature and sustainable practice of apparel, textiles, and related products and services through people, processes, and the environment. Development and presentation of original scholarly and creative design work under various sustainability frameworks.

A M D 567: Consumer Behavior and Apparel
Cr. 3. Alt. F., offered odd-numbered years.
Prereq: A M D 467 or MKT 447; STAT 401
Application of concepts and theories from the social sciences to the study of consumer behavior. Experience in conducting research; manuscript writing.
A M D 572: Sourcing and Global Issues  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
**Prereq:** A course in merchandising, marketing, or economics  
Evaluation of textile and apparel industries in global markets considering ethical, economic, political, social, and professional implications.  
Sourcing strategies in a global environment. Corporate and consumer social responsibility and sustainability. Experience in conducting research using secondary data.  
Meets International Perspectives Requirement.

A M D 576: Industry Applications in Merchandising and Management  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
**Prereq:** A M D 376 or equivalent; A M D 275 or equivalent; or permission of instructor  
Using the case study method, students apply merchandising theory, principles, and practices to industry scenarios. Emphasis on problem solving, creative thinking, data analysis, and data interpretation involved in business operations. Focus on the development of leadership skills while functioning in small and large groups.

A M D 577: E-Commerce for Apparel and Hospitality Companies  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
**Prereq:** Course in marketing or permission of instructor  
Analysis of technology and consumer trends, industry practices, and marketing strategies for e-commerce including big data, data mining, and social media. Evaluation and development of apparel or hospitality company websites. Theory application to the development of multi-channel business strategies.

A M D 590: Special Topics  
Cr. arr. Repeatable.  
**Prereq:** Permission of director of graduate education, adviser, and instructor(s)  
Individually designed A M D-related projects that reflect the special interests of the student.

A M D 590A: Special Topics: Textile Science  
Cr. arr. Repeatable.  
**Prereq:** Permission of director of graduate education, adviser, and instructor(s)  
Individually designed A M D-related projects that reflect the special interests of the student.

A M D 590B: Special Topics: Historical, Cultural, and Museum Studies of Dress and Textiles  
Cr. arr. Repeatable.  
**Prereq:** Permission of director of graduate education, adviser, and instructor(s)  
Individually designed A M D-related projects that reflect the special interests of the student.

A M D 590C: Special Topics: Textile and Apparel Design  
Cr. arr. Repeatable.  
**Prereq:** Permission of director of graduate education, adviser, and instructor(s)  
Individually designed A M D-related projects that reflect the special interests of the student.

A M D 590E: Special Topics: Merchandising, Aesthetics, and Entrepreneurship  
Cr. arr. Repeatable.  
**Prereq:** Permission of director of graduate education, adviser, and instructor(s)  
Individually designed A M D-related projects that reflect the special interests of the student.

A M D 590F: Special Topics: Sociological, Psychological, and Consumer Behavioral Aspects of Dress  
Cr. arr. Repeatable.  
**Prereq:** Permission of director of graduate education, adviser, and instructor(s)  
Individually designed A M D-related projects that reflect the special interests of the student.

Cr. arr. Repeatable. F.S.SS.  
**Prereq:** Permission of director of graduate education, adviser, and instructor(s)  
Individually designed A M D-related projects that reflect the special interests of the student.

A M D 590S: Special Topics: Production and Quality Assurance  
Cr. arr. Repeatable. F.S.SS.  
**Prereq:** Permission of director of graduate education, adviser, and instructor(s)  
Individually designed A M D-related projects that reflect the special interests of the student.

A M D 590W: Special Topics: Fashion Show, Fashion Public Relations and Marketing  
Cr. arr. Repeatable. F.S.SS.  
**Prereq:** Permission of director of graduate education, adviser, and instructor(s)  
Individually designed A M D-related projects that reflect the special interests of the student.
A M D 595: Senior Design Studio
(Dual-listed with A M D 495). (0-6) Cr. 3. F.
Creation of an apparel line from target market research to prototypes through the use of manual techniques and CAD technologies. The line is to be included in a professional portfolio and pieces submitted to a juried exhibition.

A M D 599: Creative Component
Cr. arr. Repeatable.
Prereq: 9 graduate credits in A M D

Courses for graduate students:

A M D 611: Seminar
Cr. 1-3. Repeatable.
Prereq: 6 graduate credits in A M D. Permission of instructor
Discussion of scholarship and current issues. Topics vary.

A M D 625: Design Theory and Process
(2-4) Cr. 4. Alt. S., offered odd-numbered years.
Prereq: Permission of instructor.
Analysis and application of design theory and creative processes, including strategies for solving aesthetic, functional, and/or technology-focused design problems. Creation and dissemination of design scholarship.

A M D 665: Social Science Theories of Appearance
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: 6 credits in sociology or psychology
Analysis of social science theories and concepts applicable to appearance research. Emphasis on qualitative research and philosophy of knowledge, including postmodern, symbolic interaction, semiotic, and feminist theories. Collection and analysis of qualitative data.

A M D 676: Merchandising Theory and Research Applications
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: A M D 275 or equivalent; statistics course recommended.
Review of current merchandising theory, research, and methodology. Emphasis on the evaluation and discussion of current and seminal merchandising literature, understanding research processes, interpretation of findings, assessing implications of research for future directions in merchandising, and the development and presentation of original scholarly work.

A M D 690: Advanced Topics
Cr. arr. Repeatable.
Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E

A M D 699: Research
Cr. arr. Repeatable.

Arabic (ARABC)

Courses primarily for undergraduates:

ARABC 101: Elementary Arabic I
(4-0) Cr. 4. F.
Beginning level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Attention to the use of the Arabic alphabet.

ARABC 102: Elementary Arabic II
(4-0) Cr. 4. S.
Prereq: ARABC 101 or placement by department exam.
Continuation of ARABC 101. Beginning level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Meets International Perspectives Requirement.

ARABC 195: Study Abroad
Cr. arr. Alt. SS., offered irregularly.
Supervised instruction in Arabic language and culture, formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Arabic.

ARABC 201: Intermediate Arabic I
(4-0) Cr. 4. F.
Prereq: ARABC 102 or placement by department exam
Intermediate level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Meets International Perspectives Requirement.

ARABC 202: Intermediate Arabic II
(4-0) Cr. 4.
Prereq: ARABC 201 or placement by department exam
Continuation of Arabic 201. Intermediate level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Meets International Perspectives Requirement.

ARABC 295: Study Abroad
Cr. arr. Alt. SS., offered irregularly.
Supervised instruction in Arabic language and culture, formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Arabic.
ARABC 375: Arabic Culture
Cr. 3. S.
Survey of contemporary Arabic culture in the Middle East and North Africa as reflected in history, language, the arts, and social institutions with attention to the Arab Diaspora. Taught in English.

ARABC 490: Independent Study
Cr. 1-6. Repeatable.
Prereq: Permission of Arabic staff and department Chair.
Independent study with focus on areas other than those in which courses are offered. No more than 6 credits in ARABC 490 may be counted toward graduation.

Architecture (ARCH)

Courses primarily for undergraduates:

ARCH 201: Architectural Design I
(1-15) Cr. 6. F.
Prereq: Completion of the pre-professional program and admission into the professional program in Architecture
Introduction to architectural design. Introduction to architectural design, including precedent research, drawing conventions, model making, and diagramming. Studio projects focus on investigating the impact of specific site conditions on design, threshold conditions, and small-scale domestic space. Students will learn skills in problem solving, visualization, and written, oral, and graphic communication. Field trips to relevant architectural sites.

ARCH 201H: Architectural Design I, Honors
(1-15) Cr. 6-7. F.
Prereq: Completion of the pre-professional program and admission into the professional program in Architecture
Introduction to architectural design. Introduction to architectural design, including precedent research, drawing conventions, model making, and diagramming. Studio projects focus on investigating the impact of specific site conditions on design, threshold conditions, and small-scale domestic space. Students will learn skills in problem solving, visualization, and written, oral, and graphic communication. Field trips to relevant architectural sites.

ARCH 202: Architectural Design II
(1-15) Cr. 6. S.
Prereq: ARCH 201; MATH 142; PHYS 111
Continuation of fundamental architectural design exploration. Studio projects focus on the generation of ideas based on experience and an understanding of urban spaces. Emphasis on systematic analysis of urban culture, scale, materiality, and networks. Students work in groups and individually. Representational methods expand on architectural conventions through experimentation. Fieldtrips to relevant architectural sites.

ARCH 202H: Architectural Design II, Honors
(1-15) Cr. 6-7. S.
Prereq: ARCH 201, MATH 142 and PHYS 111
Continuation of fundamental architectural design exploration. Studio projects focus on the generation of ideas based on experience and an understanding of urban spaces. Emphasis on systematic analysis of urban culture, scale, materiality, and networks. Students work in groups and individually. Representational methods expand on architectural conventions through experimentation. Fieldtrips to relevant architectural sites.

ARCH 220: Contemporary Architecture
(3-0) Cr. 3. F.
Survey of global architectural ideas and practices from 1960 to the present. Emphasis will be given to recent movements and architectural manifestations, as well as close examinations of socio-cultural conditions for contemporary practice.

ARCH 221: History of Pre-Modern Architecture
(3-0) Cr. 3. F.
Survey of pre-modern western architectural ideas and practices in their social, cultural, and representational contexts. Comparisons with global examples. Ancient through 1750.
Meets International Perspectives Requirement.

ARCH 230: Design Communications I
(2-2) Cr. 3. F.
Prereq: Admission to the professional program in architecture
Investigations of various design media and their applications to design. Exercises to develop representational skills and perceptual sensitivity.

ARCH 301: Architectural Design III
(1-15) Cr. 6. F.
Prereq: ARCH 202
Consideration of landscape as a constructed, cultural artifact. Projects address the perceptual aspects and strategies of situation and location; examination of environmental phenomena and patterns of use and settlement as revealed and affected by the architectural artifact. Development of a critical design process is stressed.
ARCH 301H: Architectural Design III, Honors  
(1-15) Cr. 6-7. F.  
Prereq: ARCH 202  
Consideration of landscape as a constructed, cultural artifact. Projects address the perceptual aspects and strategies of situation and location; examination of environmental phenomena and patterns of use and settlement as revealed and affected by the architectural artifact. Development of a critical design process is stressed.

ARCH 302: Architectural Design IV  
(1-15) Cr. 6. S.  
Prereq: ARCH 301 and minimum 2.0 GPA in previous studio courses  
Continuation of ARCH 301, examining housing in the urban situation; diverse scales of use and occupation within the city as shaped by cultural tendencies. Projects examine collective and individual identities related by the condition of adjacency, the ability to consider varieties of scale within a project, and a further development of critical and technical methods.

ARCH 302H: Architectural Design IV, Honors  
(1-15) Cr. 6-7. S.  
Prereq: ARCH 301 and minimum 2.0 GPA in previous studio courses  
Continuation of ARCH 301, examining housing in the urban situation; diverse scales of use and occupation within the city as shaped by cultural tendencies. Projects examine collective and individual identities related by the condition of adjacency, the ability to consider varieties of scale within a project, and a further development of critical and technical methods.

ARCH 321: History of the American City  
(3-0) Cr. 3.  
Prereq: Sophomore classification  
Study of the development of the built environment and urban condition in the United States from the colonial period to today. Through the theme of infrastructure, primary attention is given to urban spatial organization, built form, technological change, regulatory and funding patterns, and social categories such as class, race, and gender. Credit counts toward fulfillment of History, Theory, Culture requirements. Meets U.S. Diversity Requirement

ARCH 322: Histories and Theories of Modern Architecture  
(3-0) Cr. 3. S.  
Prereq: Sophomore Classification  
Survey of global architectural ideas, theories and practices in their social, cultural and representational contexts from 1750 to 1960. Emphasis on European examples with additional material on the global spread of modernism.

ARCH 323: Theories of Architecture  
(3-0) Cr. 3.  
Prereq: ARCH 221, 222. Course restricted to ARCH majors only.  
Survey of theories impacting the production of architecture, historically and in contemporary practice. Emphasis will be given to recent movements and architectural manifestations, as well as close examinations of socio-cultural conditions. Weekly readings and an analytic term paper (3000 words minimum) are required.

ARCH 334: Computer Applications in Architecture  
(2-2) Cr. 3.  
Current and potential applications of digital computers in architecture. Projects employing computer graphics and modeling methods. Awareness of programming languages related to applications.

ARCH 335: Three-Dimensional Studio  
(Cross-listed with ARTIS). (1-4) Cr. 3. Repeatable, maximum of 6 credits.  
This course deals with three dimensional problems in visual invention, organization, and expression emphasizing creative manipulation of tools, materials, and techniques as means for three dimensional thinking. Projects cover the additive (modeling), subtractive (carving), substitutional (casting) as well as constructive techniques.

ARCH 345: Building Science and Technology I  
(Dual-listed with ARCH 545). (2-0) Cr. 2. F.  
Prereq: Undergraduate: Admission to the professional program in architecture; concurrent enrollment in ARCH 345L; graduate: Admission to the M. Arch. program and concurrent enrollment in ARCH 505 and ARCH 595; concurrent enrollment in ARCH 545L  
First course in a sequence focused on architectural building technologies. Lectures and labs cover: environmental forces and systems (solar orientation, climate, daylighting, natural ventilation, human comfort and occupancy patterns), materials and assemblies (drawing conventions, building codes, and physical properties of materials) and fundamental structural principles (forces/loads, equilibrium, and stability). Readings and project presentations.

ARCH 345L: Building Science and Technology I Lab  
(0-2) Cr. 1. F.  
Prereq: Admission to the professional program in architecture; concurrent enrollment in ARCH 345.  
Laboratory to accompany Arch 345 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.
ARCH 346: Building Science and Technology II
(Dual-listed with ARCH 546). (3-0) Cr. 3. S.
Prereq: Undergraduate: ARCH 345, ARCH 345L, MATH 145 and PHYS 111; concurrent enrollment in ARCH 346L. Graduate: ARCH 505, ARCH 545, ARCH 545L, and ARCH 595; concurrent enrollment in ARCH 506, ARCH 546L and ARCH 596.
Second course in a sequence focused on architectural building technologies. Lectures and labs cover: environmental systems (heat transfer in the building envelope, passive heating and cooling, daylighting, thermal comfort, analytical guidelines and building energy calculation methods), materials & assemblies (building envelope systems, accessibility, egress, and material properties), and structural systems (structural system selection/comparison, and design and analysis of “form-active” compression and tension structures). Readings and project presentations.

ARCH 346L: Building Science and Technology II Lab
(0-4) Cr. 2. S.
Prereq: ARCH 345, ARCH 345L, MATH 145 and PHYS 111; concurrent enrollment in ARCH 346.
Laboratory to accompany Arch 346 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

ARCH 347: Building Science and Technology III
(Dual-listed with ARCH 547). (3-0) Cr. 3. F.
Prereq: Undergraduate: ARCH 346, Arch 346L; concurrent enrollment in ARCH 347L. Graduate: ARCH 506, ARCH 546, ARCH 546L, and ARCH 596 or advanced standing in the M.Arch program; concurrent enrollment in ARCH 601 and ARCH 547L.
Third course in a sequence focused on architectural building technologies. Lectures and labs cover: multistory building framing, assembly, and enclosure systems, sizing and selecting structural framing components (foundations, columns, beams, etc.), and an environmental design process that demonstrates the ability to integrate climate into the control of thermal, luminous, ventilative and acoustic environments. Introduction to plumbing and rain water collection systems.

ARCH 347L: Building Science and Technology III Lab
(0-4) Cr. 2.
Prereq: ARCH 346, Arch 346L; concurrent enrollment in ARCH 347.
Laboratory to accompany Arch 347 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

ARCH 348: Building Science and Technology IV
(Dual-listed with ARCH 548). (3-0) Cr. 3. S.
Prereq: Undergraduate: ARCH 347, Arch 347L; concurrent enrollment in ARCH 348L. Graduate: ARCH 547, ARCH 547L and ARCH 601; concurrent enrollment in ARCH 548L.
Fourth course in a sequence focused on architectural building technologies. Lectures and labs cover: ability to demonstrate active environmental HVAC control systems design, use and design of mechanical, electrical, plumbing, fire safety, transportation, and conveying systems and subsystems, constructed building assemblies and details (building envelope details for waterproofing and enclosure, advanced material properties, costs, and serviceability), and structural design for multi-story structures (design and documenting various framing patterns, integration with other building systems, and lateral stability strategies for wind and seismic).

ARCH 348L: Building Science and Technology IV Lab
(0-4) Cr. 2.
Prereq: ARCH 347, Arch 347L; concurrent enrollment in ARCH 348.
Laboratory to accompany Arch 348 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

ARCH 351: Whole Building Energy Performance Modeling
(2-2) Cr. 3.
Prereq: ARCH 202, 245, 341. Open to non-majors by permission of instructor.
Architectural design, design evaluation and technical analysis using energy, daylighting, and natural ventilation performance modeling tools. Emphasis will be given to whole building energy efficiency including passive and active systems integration.

ARCH 371: Human Behavior and Environmental Theory
(3-0) Cr. 3.
Prereq: Completion of the pre-professional program and admission into the professional program in architecture
Exploration of theories that describe social structure and order and the manner in which individuals and societies organize themselves and structure their environment.

ARCH 401: Architectural Design V
(1-15) Cr. 6. F.
Prereq: ARCH 302
A rigorous examination of how buildings participate sustainably in socio-political and environmental systems. Student projects consider in a comprehensive proposal how issues of physical site, socio-economic context, programming, structure, form, materiality, and building systems are interconnected through the design process and within the built environment. Projects typically focus on a smaller scale urban public building that is closely connected to its physical, environmental, and social context.
ARCH 401H: Architectural Design V, Honors
(1-15) Cr. 6-7. F.
Prereq: ARCH 302
A rigorous examination of how buildings participate sustainably in socio-political and environmental systems. Student projects consider in a comprehensive proposal how issues of physical site, socio-economic context, programming, structure, form, materiality, and building systems are interconnected through the design process and within the built environment. Projects typically focus on a smaller scale urban public building that is closely connected to its physical, environmental, and social context.

ARCH 402: Architectural Design VI
(1-15) Cr. 6. S.
Prereq: ARCH 401 and minimum 2.0 GPA in previous studio courses
An examination of the relationship between architecture and the city. Studio projects stress analysis and interpretation of the diverse forces and conditions that impact and inform architecture in the urban environment. Urban design project. Study abroad option. Meets International Perspectives Requirement.

ARCH 402H: Architectural Design VI, Honors
(1-15) Cr. 6-7. S.
Prereq: 401 and minimum 2.0 GPA in previous studio courses
An examination of the relationship between architecture and the city. Studio projects stress analysis and interpretation of the diverse forces and conditions that impact and inform architecture in the urban environment. Urban design project. Study abroad option. Meets International Perspectives Requirement.

ARCH 403: Architectural Design VII
(1-15) Cr. 6. F.
Prereq: ARCH 402
A rigorous examination of architecture's relationship with culture and technology. Studio projects stress the interpretation and integration of contextual and historical considerations, as well as structural, environmental, and communication systems, in a comprehensive design proposal.

ARCH 403H: Architectural Design VII, Honors
(1-15) Cr. 6-7. F.
Prereq: ARCH 402
A rigorous examination of architecture's relationship with culture and technology. Studio projects stress the interpretation and integration of contextual and historical considerations, as well as structural, environmental, and communication systems, in a comprehensive design proposal.

ARCH 404: Architectural Design VIII
(1-15) Cr. 6. S.
Prereq: ARCH 403
Advanced forum for architectural research and/or design. Choice of thematic studios or student initiated research and design. Experimentation and innovation are encouraged. DSN S 446 or DSN S 546, for 6 cr. each time taken, can be substituted for this class and be taken up to a maximum of 12 credits.

ARCH 404H: Architectural Design VIII, Honors
(1-15) Cr. 6-7. S.
Prereq: ARCH 403
Advanced forum for architectural research and/or design. Choice of thematic studios or student initiated research and design. Experimentation and innovation are encouraged. DSN S 446 or DSN S 546, for 6 cr. each time taken, can be substituted for this class and be taken up to a maximum of 12 credits.

ARCH 420: Topics in American Architecture
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Junior classification
History, theory, and principles of American architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment of History, Theory, Culture requirements. A maximum of 6 credits of ARCH 420 may be applied to degree program. Meets U.S. Diversity Requirement

ARCH 422: Topics in Medieval Architecture
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Junior classification
History, theory, and principles of medieval architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment of History, Theory, Culture requirements. A maximum of 6 credits of ARCH 422 may be applied to degree program. Meets International Perspectives Requirement

ARCH 423: Topics in Renaissance to Mid-Eighteenth Century Architecture
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Junior classification
History, theory, and principles of renaissance to mid-eighteenth century architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment of History, Theory, Culture requirements. A maximum of 6 credits of ARCH 423 may be applied to degree program. Meets International Perspectives Requirement.
ARCH 424: Topics in Nineteenth Century Architecture  
(3-0) Cr. 3. Repeatable, maximum of 6 credits.  
Prereq: Junior classification  
History, theory, and principles of nineteenth century architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment History, Theory, Culture requirements. A maximum of 6 credits of ARCH 424 may be applied to degree program.

ARCH 425: Topics in Twentieth Century Architecture  
(3-0) Cr. 3. Repeatable, maximum of 6 credits.  
History, theory, and principles of twentieth century architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment History, Theory, Culture requirements. A maximum of 6 credits of ARCH 425 may be applied to degree program.

ARCH 426: Topics in Native American Architecture  
(Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 6 credits.  
Prereq: Junior classification  
History, theory, and principles of Native American/American Indian architecture, landscape architecture and planning considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment History, Theory, Culture requirements. A maximum of 6 credits of ARCH 426 may be applied to degree program.  
Meets U.S. Diversity Requirement

ARCH 427: History, Theory, and Criticism of Chinese Architecture  
(Dual-listed with ARCH 527). (3-0) Cr. 3. F.  
Prereq: Junior classification  
The history and theoretical concept of Chinese built environment with emphasis on the morphology of built form and its relationship to art, landscape design, and urban structure. Credit counts toward fulfillment History, Theory, Culture.  
Meets International Perspectives Requirement

ARCH 429: Topics in Italian Architecture and Urbanism  
(3-0) Cr. 3. S.  
History, theory and principles of Italian architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment of History, Theory, Culture requirements.

ARCH 431: Analytical Drawing  
(1-6) Cr. 3. Repeatable, maximum of 12 credits. F.S.  
Prereq: ARCH 230 and ARCH 302  
Exploration of 2- and 3-dimensional representations. Emphasis on on-site freehand sketching, perspective and orthographic drawing, rendering of shadows and textures, and use of diverse media.

ARCH 432: Advanced Computer Lighting and Rendering  
(3-0) Cr. 3. Repeatable, maximum of 6 credits.  
Prereq: ARCH 230 and ARCH 301  
Exploration of the computer as a design and communication tool. Emphasis on lighting and rendering techniques.

ARCH 433: Digital Fabrication  
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.  
Prereq: ARCH 230 and ARCH 301  
Exploration of the computer as a design and manufacturing tool. Emphasis on developing digital fabrication technologies and workflows.

ARCH 434: Computer-aided Architectural and Environmental Design  
(1-4) Cr. 3.  
Prereq: ARCH 334  
Emphasis on application of the computer as a design tool, topical applications and computer graphic methods, development of computer software for architectural and environmental problem solving.

ARCH 435: Advanced Design Media  
(2-2) Cr. 3. Repeatable. F.SS.  
Prereq: ARCH 230  
Special topics in design media applications.

ARCH 437: Architectural Photography  
(3-0) Cr. 3.  
Prereq: ARCH 202  
Emphasis on use of the camera and lighting in photographing drawings and interior and exterior building environments.

ARCH 439: Computational Design Theory  
(Dual-listed with ARCH 539). (3-0) Cr. 3.  
Prereq: Arch 221, Arch 222 or senior classification or graduate standing  
Seminar discussion of critical readings and theories surrounding computational design; This course surveys the history and development of digital computing and its use in design from early thought experiments, to computer-aided design systems, to present day artificial intelligences and robotics. The potentials and consequences of emerging computational design systems are discussed.
ARCH 445: Building Science and Technology V
(2-0) Cr. 2. F.
Prereq: ARCH 348, Arch 348L; concurrent enrollment in ARCH 445L.
Final course in a sequence of architectural building technology courses comprising environmental systems, materials/assembly, and building structures topics. Using both lectures and labs, the three interrelated modules each emphasize a particular building technology subject with an overall focus on synthesizing and integrating building technologies together in sustainable design strategies. Topics include: integration of active environmental control and service systems into the design of larger scale buildings, the development of construction details for building shell and interiors, and the design and analysis of various long-span structural systems.

ARCH 445L: Building Science and Technology V Lab
(0-2) Cr. 1. F.
Prereq: ARCH 348, Arch 348L; concurrent enrollment in ARCH 445.
Laboratory to accompany Arch 445 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

ARCH 482: Professional Practice
(Dual-listed with ARCH 582). (3-0) Cr. 3. F.
Emphasis on the circumstances and opportunities of the professional practice of architecture: practice as profession, process, organization, business, and evolving models of practice.

ARCH 486: Design: Made in Italy
(3-0) Cr. 3. S.
An investigation of the history of Italian design in its contemporary form as part of International study abroad program in Rome. Credit counts toward fulfillment of History, Theory, Culture requirements.

ARCH 490: Independent Study
Cr. 1-9. Repeatable.
Prereq: Written approval of instructor and department chair on required form Independent investigation.

ARCH 490A: Independent Study: Design Communications.
Cr. 1-9. Repeatable.
Prereq: Written approval of instructor and department chair on required form Independent investigation.

ARCH 490B: Independent Study: Design
Cr. 1-9. Repeatable.
Prereq: Written approval of instructor and department chair on required form Independent investigation.
ARCH 506: Architectural Design and Media II: Materiality and Representation
(0-10) Cr. 5. S.
Prereq: ARCH 505, ARCH 545, ARCH 545L, ARCH 595 and concurrent enrollment in ARCH 546, ARCH 546L, and ARCH 596
Small-scale architectural design projects that investigate design representation through analogue and digital means. The projects explore different representation strategies to help students develop an understanding of the particular modes of architectural representation that advance the designer's knowledge of space as a complex interaction between materials with inherent physical characteristics, mobile socializing bodies, and changing environmental cycles.

ARCH 507: Architectural Design and Media III: Design in Detail
(0-10) Cr. 5. SS.
Prereq: ARCH 506, ARCH 546, ARCH 546L, ARCH 596 and concurrent enrollment in ARCH 581
Design projects that emphasize the multi-faceted role of the architectural detail in the design process through first, understanding the historical specificity of building construction and detailing; second, utilizing working drawing as a mode of communication; and third, designing with details.

ARCH 517: Big and Tall: A History of Construction
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Junior classification
History, theory, and principles of construction from ancient times through today. Analytic project or term paper and weekly readings with discussion questions. Credit counts toward fulfillment of History, Theory, Culture requirements.

ARCH 519: Middle Eastern Cities
(Cross-listed with CRP). (3-0) Cr. 3.
Prereq: Graduate or Senior classification
Introduction to basic academic writings on Middle Eastern cities in addition to other contemporary cultural productions of the region. Study of various aspects of Middle Eastern life and the built environments that this life produces.
Meets International Perspectives Requirement.

ARCH 521: Celluloid Cities, Urbanism in Film
(3-0) Cr. 3.
Prereq: Junior classification
Urban theory and history as manifested in popular films and videos, both fiction and documentary. Term projects require students to make short videos. (Experience with video-making not necessary.) Credits counts towards fulfillment of History, Theory, Culture requirement.

ARCH 525: Meaning and Form in Architecture
(3-0) Cr. 3.
Prereq: Graduate or Junior or Senior classification
Seminar on critical analysis of meaning and form in architecture and human-made environment in various cultural contexts examined from historical and theoretical perspectives. Analytic term paper and weekly readings with discussion questions. Credit counts toward fulfillment of History, Theory, Culture requirements. Meets International Perspectives Requirement.

ARCH 527: History, Theory, and Criticism of Chinese Architecture
(Dual-listed with ARCH 427). (3-0) Cr. 3. F.
Prereq: Junior classification
The history and theoretical concept of Chinese built environment with emphasis on the morphology of built form and its relationship to art, landscape design, and urban structure. Credit counts toward fulfillment of History, Theory, Culture.
Meets International Perspectives Requirement.

ARCH 528: Topical Studies in Architecture
(3-0) Cr. 2-3. Repeatable, maximum of 6 times.
Prereq: ARCH 221, ARCH 222 or senior classification or graduate standing
Credit counts toward fulfillment of History, Theory, Culture requirements.

ARCH 528A: Studies in Architecture: Culture
(3-0) Cr. 2-3. Repeatable, maximum of 6 times.
Prereq: ARCH 221, ARCH 222 or senior classification or graduate standing

ARCH 528B: Studies in Architecture: Technology
(3-0) Cr. 2-3. Repeatable, maximum of 6 times.
Prereq: ARCH 221, ARCH 222 or senior classification or graduate standing
n/a.

ARCH 528C: Studies in Architecture: Communications
(3-0) Cr. 2-3. Repeatable, maximum of 6 times.
Prereq: ARCH 221, ARCH 222 or senior classification or graduate standing
n/a.

ARCH 528E: Studies in Architecture: Practice
(3-0) Cr. 2-3. Repeatable, maximum of 6 times.
Prereq: ARCH 221, ARCH 222 or senior classification or graduate standing
ARCH 529: Spatial Dialectics in the American Midwest  
(3-0) Cr. 3.  
Prereq: Graduate or Senior classification  
The American Midwest has witnessed dramatic transformation during the last two centuries which impacted its physical, environmental, economic and social characteristics. This course is an interdisciplinary study of the evolution and sustainability of Midwestern space in relationship to forces of flow shaped by the mobility of bodies, products, meanings, and symbols that are enforced, incorporated, reproduced or destroyed. Credit counts toward fulfillment of History, Theory, Culture requirements.  
Meets U.S. Diversity Requirement  

ARCH 531: Drawing Culture  
(3-0) Cr. 3.  
Prereq: Arch 221, Arch 222 or senior classification or graduate standing  
Exploration of theories and practices that center on drawing as a fundamental means of knowing.  

ARCH 534: Advanced Computer-aided Architectural Design  
(1-4) Cr. 3. Repeatable, maximum of 6 credits. F.  
Prereq: ARCH 434 and permission of instructor  
Emphasis on concepts, algorithms, data structures, advanced modeling, rendering, animation, and virtual reality applications in architectural design.  

ARCH 535: Advanced Three-Dimensional Studio  
(1-4) Cr. 3. Repeatable, maximum of 6 credits.  
Prereq: ARCH 335 or Graduate classification  
Advanced investigation of sculptural expression with emphasis on individual projects.  

ARCH 539: Computational Design Theory  
(Dual-listed with ARCH 439). (3-0) Cr. 3.  
Prereq: Arch 221, Arch 222 or senior classification or graduate standing  
Seminar discussion of critical readings and theories surrounding computational design; This course surveys the history and development of digital computing and its use in design from early thought experiments, to computer-aided design systems, to present day artificial intelligences and robotics. The potentials and consequences of emerging computational design systems are discussed.  

ARCH 545: Building Science and Technology I  
(Dual-listed with ARCH 345). (2-0) Cr. 2. F.  
Prereq: Undergraduate: Admission to the professional program in architecture; concurrent enrollment in ARCH 345L; graduate: Admission to the M. Arch. program and concurrent enrollment in ARCH 505 and ARCH 595; concurrent enrollment in ARCH 545L  
First course in a sequence focused on architectural building technologies. Lectures and labs cover: environmental forces and systems (solar orientation, climate, daylighting, natural ventilation, human comfort and occupancy patterns), materials and assemblies (drawing conventions, building codes, and physical properties of materials) and fundamental structural principles (forces/loads, equilibrium, and stability). Readings and project presentations.  

ARCH 545L: Building Science and Technology I Lab  
(0-6) Cr. 3. F.  
Prereq: Admission to the M. Arch. program and concurrent enrollment in ARCH 505 and ARCH 595; concurrent enrollment in ARCH 545.  
Laboratory to accompany Arch 545 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format. Readings and project presentations.  

ARCH 546: Building Science and Technology II  
(Dual-listed with ARCH 346). (3-0) Cr. 3. S.  
Prereq: Undergraduate: ARCH 345, ARCH 345L, MATH 145 and PHYS 111; concurrent enrollment in ARCH 346L. Graduate: ARCH 505, ARCH 545, ARCH 545L, and ARCH 595; concurrent enrollment in ARCH 506, ARCH 546L and ARCH 596.  
Second course in a sequence focused on architectural building technologies. Lectures and labs cover: environmental systems (heat transfer in the building envelope, passive heating and cooling, daylighting, thermal comfort, analytical guidelines and building energy calculation methods), materials & assemblies (building envelope systems, accessibility, egress, and material properties), and structural systems (structural system selection/comparison, and design and analysis of “form-active” compression and tension structures). Readings and project presentations.  

ARCH 546L: Building Science and Technology II Lab  
(0-4) Cr. 2. S.  
Prereq: ARCH 345, ARCH 345L, MATH 145 and PHYS 111; concurrent enrollment in ARCH 346.  
Laboratory to accompany Arch 546 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.
ARCH 547: Building Science and Technology III  
(Dual-listed with ARCH 347). (3-0) Cr. 3. F.  
Prereq: Undergraduate: ARCH 346, Arch 346L; concurrent enrollment in ARCH 347L. Graduate: ARCH 506, ARCH 546, ARCH 546L, and ARCH 596 or advanced standing in the M.Arch program; concurrent enrollment in ARCH 601 and ARCH 547L.  
Third course in a sequence focused on architectural building technologies. Lectures and labs cover: multistory building framing, assembly, and enclosure systems, sizing and selecting structural framing components (foundations, columns, beams, etc.), and an environmental design process that demonstrates the ability to integrate climate into the control of thermal, luminous, ventilative and acoustic environments. Introduction to plumbing and rain water collection systems.

ARCH 547L: Building Science and Technology III Lab  
(0-2) Cr. 1. F.  
Prereq: ARCH 506, ARCH 546, ARCH 546L, and ARCH 596 or advanced standing in the M.Arch program; concurrent enrollment in ARCH 547 and ARCH 601.  
Laboratory to accompany Arch 547 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

ARCH 548: Building Science and Technology IV  
(Dual-listed with ARCH 348). (3-0) Cr. 3. S.  
Prereq: Undergraduate: ARCH 347, Arch 347L; concurrent enrollment in ARCH 348L. Graduate: ARCH 547, ARCH 547L and ARCH 601; concurrent enrollment in ARCH 548L.  
Fourth course in a sequence focused on architectural building technologies. Lectures and labs cover: ability to demonstrate active environmental HVAC control systems design, use and design of mechanical, electrical, plumbing, fire safety, transportation, and conveying systems and subsystems, constructed building assemblies and details (building envelope details for waterproofing and enclosure, advanced material properties, costs, and serviceability), and structural design for multi-story structures (design and documenting various framing patterns, integration with other building systems, and lateral stability strategies for wind and seismic).

ARCH 548L: Building Science and Technology IV Lab  
(0-2) Cr. 1. S.  
Prereq: ARCH 547, ARCH 547L and ARCH 601; concurrent enrollment in ARCH 548.  
Laboratory to accompany Arch 548 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

ARCH 558: Sustainability and Green Architecture  
(3-0) Cr. 3.  
Prereq: Graduate or Senior classification  
Issues of sustainability as related to living patterns and city design, population, pollution and use and availability of natural resources for the built environment. Issues of green and sustainable architecture as related to critical thinking about methods of building material selection and systems, the environment of the United States and the world, and examples of green or sustainable building designs.

ARCH 567: Preservation, Restoration, and Rehabilitation  
(3-0) Cr. 3. S.  
Prereq: Senior classification  
Construction standards and procedures for preserving, restoring, reconstructing, and rehabilitating existing buildings following the guidelines of the National Park Service and the National Trust for Historic Preservation. Credit counts toward fulfillment of History, Theory, Culture requirements.

ARCH 568: Historic Preservation  
(3-0) Cr. 3. F.  
Prereq: Senior classification  
The history and theory of the Historic Preservation movement including an overview of the National Trust for Historic Preservation; the National Register of the Historic Places; the National Park Service; federal programs, funding sources, preservation law, national landmarks, and historic districts. Credit counts toward fulfillment of History, Theory, Culture requirements.

ARCH 571: Design for All People  
(Cross-listed with GERON). (3-0) Cr. 3. S.  
Prereq: Graduate or Senior classification  
Principles and procedures of universal design in response to the varying ability level of users. Assessment and analysis of existing buildings and sites with respect to standards and details of accessibility for all people, including visually impaired, mentally impaired, and mobility restricted users. Design is neither a prerequisite nor a required part of the course. Enrollment open to students majoring in related disciplines. Credit counts toward fulfillment of History, Theory, Culture requirements.  
Meets U.S. Diversity Requirement

ARCH 575: Contemporary Urban Design Theory  
(3-0) Cr. 3.  
Prereq: Graduate or Senior classification  
Current urban design theory and its application to urban problems. Credit counts toward fulfillment of History, Theory, Culture requirements.
ARCH 576: Study Abroad Options
Cr. 1-12. Repeatable, maximum of 12 credits. SS.
Special topics in environmental design, architectural history and contemporary practice. Travel to relevant countries. General cultural and historical studies, topical projects and individual inquiry. Courses may be taught by departmental faculty or faculty from approved Iowa State Study Abroad programs. See current offerings for detailed syllabus.
Meets International Perspectives Requirement.

ARCH 581: Making and Material Practice
(1-12) Cr. 5. SS.
Prereq: ARCH 506, ARCH 546, ARCH 546L, and ARCH 596
Planning and execution of a project serving a community need. Learning occurs through both theory and active involvement in on-site work. Projects connect previous coursework to practical applications and community involvement.

ARCH 582: Professional Practice
(Dual-listed with ARCH 482). (3-0) Cr. 3. F.
Emphasis on the circumstances and opportunities of the professional practice of architecture: practice as profession, process, organization, business, and evolving models of practice.

ARCH 583: Research in Practice
(3-0) Cr. 3. S.
Prereq: Graduate or Senior classification
Foundational course in the methods and conceptual tools of design research in the context of practice. Through team and individual guided projects, students generate, analyze and represent knowledge in design-related communications and contexts. Alternative models of practice, client groups and communities are addressed within projects that precede, feed, follow, or overlap with architectural contracts.

ARCH 590: Special Topics
Cr. 1-5. Repeatable.
Prereq: Written approval of instructor and department chair on approved form
Investigation of architectural issues having a specialized nature.

ARCH 595: Seminar on the Built Environment I: History
(5-0) Cr. 5. F.
Prereq: Admission to the M. Arch. program and concurrent enrollment in ARCH 505, ARCH 545, and ARCH 545L
Introduction to historical canons and traditions of architecture and urbanism. Discussion of the relationship between historical inquiry and contemporary practice. Students learn skills in critical thinking, visual analysis, and research methods. Course sessions develop thematically with interdisciplinary readings, group discussions, student presentations, and research projects.

ARCH 596: Seminar on the Built Environment II: Landscape and Society
(5-0) Cr. 5. S.
Prereq: ARCH 505, ARCH 545, ARCH 545L, ARCH 595 and concurrent enrollment in ARCH 506, ARCH 546, and ARCH 546L
Introduction to landscape as artifact and multi-disciplinary knowledge-base for design thinking. Literatures and methods of environmental psychology, cultural geography, landscape and architectural history and theory, site and circulation design as intersection of built infrastructural, natural, and social systems. Emphasis on sensory perception, and human movement; investigations of climate, environmental conditions, and values toward consumption and sustainability in everyday experience of the built environment.

ARCH 597: Seminar on the Built Environment III: Theory
(3-0) Cr. 3. F.
Prereq: Graduate or Senior classification
Multidisciplinary overview of contemporary theories concerned with the production of the built environment. Particular attention to urbanism as a discourse that relates social interactions and power structures to material space.
Meets International Perspectives Requirement.

ARCH 598: Seminar on the Built Environment IV: Topical Study
(3-0) Cr. 3. S.
Prereq: Graduate or Senior classification
A research seminar which considers a topic within contemporary discourses on the built environment outside of Europe and North America. The topic will be studied from multiple perspectives highlighting the historical and theoretical relationships between architecture, global cultures, geography, landscape, and urban planning. Credit counts toward fulfillment History, Theory, Culture requirements.

Courses for graduate students:

ARCH 601: Sustainable Building Design
(0-12) Cr. 6. F.
Prereq: ARCH 507, ARCH 546, ARCH 546L, and ARCH 596 and concurrent enrollment in ARCH 547 and ARCH 547L
Design projects that are developed through integrative design strategies that explore the relationship between buildings and environmental forces to maximize non-wasteful, efficient use of resources such as energy, water and building materials. Projects will include investigations of the impact of solar energy, airflow, building materials, passive and active systems and wall sections on spatial quality and form making. Design decisions will be quantitatively validated through energy modeling and performance simulation.
ARCH 602: Community, Building and the Environment
(0-12) Cr. 6. S.
Prereq: ARCH 601, ARCH 643, ARCH 597 and concurrent enrollment in ARCH 644
Design projects that explore the relationships between architectural, cultural, and environmental landscapes. Emphasis on regional sites, socio-economic conditions, and sustainable design and planning practices at multiple scales. Projects stress engagement with local circumstances and stakeholders; systemic interconnections and strategies; and the application of interdisciplinary research.

ARCH 603: Integrative Design
(0-12) Cr. 6. F.
Prereq: ARCH 601
Rigorous examination of architecture's relationship with culture and technology. Studio projects stress the interpretation of contextual and historical considerations while demonstrating broad integration and consideration of environmental stewardship, technical documentation, accessibility, site conditions, life safety, environmental systems, structural systems, and building envelope systems and assemblies. This course fulfills the Graduate College Creative Component Requirement.

ARCH 604: Design Studio Options
(0-12) Cr. 6. Repeatable, maximum of 12 credits. S.
Prereq: ARCH 602
Design studio selected by the students, which may include but is not limited to: independent design study, interdisciplinary design studio, study abroad, and design build. DSN S 546 for 6 cr. may be substituted for this course.

ARCH 690: Independent Design Study
(1-15) Cr. 6. Repeatable.
Prereq: Admission to the M. S. in Arch. program
Independent architectural design projects commensurate with student interests requiring approval of Architecture Graduate Committee.

ARCH 698: Graduate Seminar
Cr. R. Repeatable. F.S.
Prereq: Admission to the M. Arch. or M. S. in Arch. programs
Special topics and guest speakers.

ARCH 699: Research
(1-18) Cr. 3-9. Repeatable.
Research.

Art Education (ARTED)

Courses primarily for undergraduates:

ARTED 209: Methods of Teaching in and Through Art
(0-4) Cr. 2. F.S.
Prereq: Sophomore level
Methods of teaching in and through visual art are experienced and applied in this course. Art-centered and interdisciplinary art education methods for K-8 teaching are designed to develop creativity, authentic expression, collaboration, aesthetic sensitivity and pluralistic, global perspectives.

ARTED 211: Introduction to Art Education
(0-6) Cr. 3. F.S.
Prereq: Sophomore level
Teaching methods for K-12 art education. Hands-on discipline-specific and integrated art activities are experienced and designed; emphasis is on creativity, artistic and human diversity, community building, and development of thinking skills in holistic, pluralistic art education.

Art History (ART H)

Courses primarily for undergraduates:

ART H 280: History of Art I
(3-0) Cr. 3. F.
Development of the visual arts including painting, sculpture, architecture, and crafts, from the prehistoric through Gothic periods.
Meets International Perspectives Requirement.

ART H 281: History of Art II
(3-0) Cr. 3. S.
Development of the visual arts of western civilization including painting, sculpture, architecture, and crafts; from the Renaissance to the twentieth century.
Meets International Perspectives Requirement.

ART H 281H: History of Art II: Honors
(3-0) Cr. 3. S.
Development of the visual arts of western civilization including painting, sculpture, architecture, and crafts; from the Renaissance to the twentieth century.
Meets International Perspectives Requirement.
ART H 292: Introduction to Visual Culture Studies
(3-0) Cr. 3.
An introduction to various topics in visual culture studies. The lecture course will provide students with a creative and intellectual context in which to study historical and contemporary instances of the visual in culture. Individual lectures examine significant trends in the visual arts, mass media, scientific imagery, visual communications, and other areas related to visual literacy and visual representation in local and global contexts. Cross cultural viewpoints and issues of diversity will be presented in relation to visual culture and related fields.
Meets U.S. Diversity Requirement

ART H 293: Origins and Evolution of Modern Design
(3-0) Cr. 3. F.S.
History of designed artifacts, their creators, and their cultural environments in Western Europe and America from the beginning of the Industrial Revolution to the present.

ART H 382: Art and Architecture of Asia
(3-0) Cr. 3.
Introduction to the history of art and architecture in Asia before the modern era. Cultures may include China, Korea, Japan, and India. Visual materials selected based on important themes that are critical in understanding Asian cultures and art traditions.
Meets International Perspectives Requirement.

ART H 383: Greek and Roman Art
(Cross-listed with CL ST). (3-0) Cr. 3.
Greek art from Neolithic to Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.

ART H 383H: Greek and Roman Art: Honors
(Cross-listed with CL ST). (3-0) Cr. 3-4.
Greek art from Neolithic to Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.

ART H 384: Art of Islam
(3-0) Cr. 3.
Historical survey of the painting, sculpture, crafts, and architecture of the various civilizations of the Islamic world.
Meets International Perspectives Requirement.

ART H 384H: Art of Islam, Honors
(3-0) Cr. 3-4.
Historical survey of the painting, sculpture, crafts, and architecture of the various civilizations of the Islamic world.
Meets International Perspectives Requirement.

ART H 385: Renaissance Art
(3-0) Cr. 3.
European art including painting, sculpture, architecture, and crafts; thirteenth through sixteenth centuries.

ART H 385H: Renaissance Art, Honors
(3-0) Cr. 3.
European art including painting, sculpture, architecture, and crafts; thirteenth through sixteenth centuries.

ART H 386: American Art to 1945
(3-0) Cr. 3.
Survey of American art from the early colonial period to 1945, with emphasis on historical and cultural issues that underlie art production in the United States.
Meets U.S. Diversity Requirement

ART H 388: Modern Art and Theory
(3-0) Cr. 3.
Visual arts and critical theory of the early 20th century, including Expressionism, Cubism, Futurism, Suprematism, Dada, and Surrealism.

ART H 395: Art and Theory Since 1945
(3-0) Cr. 3.
Visual arts and critical theory after 1945, including Abstract Expressionism, Pop Art, and Performance Art.
Meets U.S. Diversity Requirement

ART H 396: History of Photography
(3-0) Cr. 3.
Survey of the evolution of photography and photojournalism from the 1830s to the present, seen from an art historical perspective, emphasizing causative factors, cultural influences, and major masters and schools.

ART H 481: Art and Architecture of India
(3-0) Cr. 3.
Survey of Indian-style art and architecture through history. Examination of how art and architecture developed in the Indian world has come to define the Indian identity religiously, culturally, socially, and politically.
Meets International Perspectives Requirement.

ART H 486: Art History Field Study
Cr. R. Repeatable.
Prereq: Concurrent enrollment in an art history course and permission of instructor
Study and tours of museums, galleries, artist and/or designer studios and other areas of interest within art history. Offered on a satisfactory-fail basis only.
ART H 487: Nineteenth-Century Art
(3-0) Cr. 3.
European and American art and architecture from 1780 to 1900 focusing on the major movements of western Europe, including: Neo-Classicism, Romanticism, Realism, Impressionism, and Post-Impressionism.

ART H 489: History of Comics
(Dual-listed with ART H 589). Cr. 3.
An art-historical survey of comic strips, comic books, and graphic novels from their origins in the 19th century to present.

ART H 489H: History of Comics: Honors
Cr. 3-4.
An art-historical survey of comic strips, comic books, and graphic novels from their origins in the 19th century to present.

ART H 490: Independent Study
Cr. 1-6. Repeatable.
Prereq: Written approval of instructor and department chair on required form before the semester of enrollment
Student must have completed art history coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

ART H 490H: Independent Study, Honors
Cr. 1-6. Repeatable.
Prereq: Written approval of instructor and department chair on required form before the semester of enrollment
Student must have completed art history coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

ART H 491: Art History in Europe Seminar
(1-0) Cr. 1.
Prereq: Permission of instructor and planned enrollment in ART H 492
Cultural and historical aspects of art and design in Western Europe in preparation for study abroad. Area of study varies each time offered. Offered on a satisfactory-fail basis only.
Meets International Perspectives Requirement.

ART H 492: Art History in Europe
(Dual-listed with ART H 592). (3-0) Cr. 3.
Prereq: For ART H 492: ART H 491 or equivalent, permission of instructor; For ART H 592: Graduate classification, permission of instructor
International study abroad program in western Europe. Visits to design studios, art museums, and educational facilities. Related activities depending on specific area of study which may vary each time offered.
Meets International Perspectives Requirement.

ART H 494: Women/Gender in Art
(Cross-listed with WGS). (3-0) Cr. 3.
Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture.
Meets U.S. Diversity Requirement

ART H 497: Museum/Gallery Internship
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.
Prereq: Advanced classification in a department curriculum
Written approval of supervising instructor on required form in advance of semester of enrollment. Supervised experience with a cooperating museum or gallery or art center. Offered on a satisfactory-fail basis only.

ART H 498: Selected Topics in Art History
(Dual-listed with ART H 598). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Specialized study in the history or criticism of art and/or design.

ART H 499: Visual Culture Studies Senior Capstone Seminar
(4-0) Cr. 4.
Prereq: Admission to the B.A. in Art and Design–Visual Culture Studies Concentration, and senior standing; or permission of instructor.
Sustained exploration of topics related to Visual Culture Studies. Course incorporates reading of major texts in the field of visual culture studies, writing exercises, and guided instruction in the process of conducting research and reporting results of the research process. Course will result in an original paper.

Courses primarily for graduate students, open to qualified undergraduates:

ART H 501: Issues in Visual and Material Culture Seminar
(3-0) Cr. 3.
Prereq: Permission of instructor
Issues and debates that pertain to the study of visual objects and material artifacts in their cultural context. Examination of the role of visual and material culture studies as both relate to allied disciplines including, but not limited to: anthropology, art history, design history, design studies, and new media studies.

ART H 586: Museum/Gallery Internship
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.
Prereq: Graduate classification and permission of instructor. Written approval in advance of semester of enrollment.
Supervised experience with a cooperating museum or gallery or art center. Offered on a satisfactory-fail basis only.
ART H 587: Nineteenth Century Art
(3-0) Cr. 3.
Prereq: Graduate classification or permission of instructor
European and American art and architecture from 1780 to 1900, focusing on the major movements of western Europe including: Neo-Classicism, Romanticism, Realism, Impressionism, and Post-Impressionism.

ART H 588: Modern Art and Theory
(3-0) Cr. 3.
Prereq: Graduate classification or permission of instructor
Visual arts and critical theory of the early 20th century, including Expressionism, Cubism, Futurism, Suprematism, Dada and Surrealism.

ART H 589: History of Comics
(Dual-listed with ART H 489). Cr. 3.
An art-historical survey of comic strips, comic books, and graphic novels from their origins in the 19th century to present.

ART H 590: Special Topics
Cr. arr.
Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area. Written approval of instructor and department chair on required form in advance of semester of enrollment.
Special Topics for Art History.

ART H 591: Independent Study
Cr. arr.
Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area. Written approval of instructor and department chair on required form in advance of semester of enrollment.
Independent Study in Art History.

ART H 592: Art History in Europe
(Dual-listed with ART H 492). (3-0) Cr. 3.
Prereq: For ART H 492: ART H 491 or equivalent, permission of instructor; For ART H 592: Graduate classification, permission of instructor
International study abroad program in western Europe. Visits to design studios, art museums, and educational facilities. Related activities depending on specific area of study which may vary each time offered. Meets International Perspectives Requirement.

ART H 594: Women/Gender in Art
(Cross-listed with WGS). (3-0) Cr. 3.
Prereq: Graduate classification or permission of instructor
Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture.

ART H 595: Art and Theory Since 1945
(3-0) Cr. 3.
Prereq: Graduate classification or permission of instructor
Visual arts and critical theory after 1945, including Abstract Expressionism, Pop Art, and Performance Art.

ART H 596: History of Photography
(3-0) Cr. 3.
Prereq: Graduate classification or permission of instructor
Survey of the evolution of photography and photojournalism from the 1830s to the present, seen from an art historical perspective, emphasizing causative factors, cultural influences, and major masters and schools.

ART H 597: Green Art: Earthworks and Beyond
(3-0) Cr. 3.
Prereq: Graduate classification or permission of instructor
Seminar covering aspects of art and design based on ecological principles, including earthworks, land-based art, recycled/reused objects, ecofeminism, ephemerality, and green design.

ART H 598: Selected Topics in Art History
(Dual-listed with ART H 498). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Specialized study in the history or criticism of art and/or design.

Astronomy and Astrophysics
(ART H 599)

Courses primarily for undergraduates:

ASTRO 102: North Star Astronomy
Cr. 1. F.S.
An entirely web-based course covering topics in observing the sky and navigation by the stars for students with little or no previous experience. The course combines material on common naked-eye phenomena, such as daily and seasonal variations in the sky, with information on how these helped navigators determine where they are on Earth. The course “lectures” are on-line, interactive units with build in exercises, hands-on (offline) activities and layers of help. Graded homework and quizzes are administered via Blackboard Learn. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.
ASTRO 103: Evening Star  
Cr. 1. F.S.  
An entirely web-based course covering topics in celestial mechanics ("Rocket science!") for students with little or no previous experience. It combines the geography of the solar system with discussion of methods of traveling to the other planets. The course "lectures" are online, interactive units with built-in exercises, hands-on (offline) activities, and layers of help. Graded homework and quizzes are administered via Blackboard Learn. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 106: Earth and Space Science for Elementary Education Majors  
(Cross-listed with GEOL). (2-0) Cr. 2. F.S.  
Prereq: Major in elementary or early childhood education.  
Fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Online course format.

ASTRO 106L: Earth and Space Science for Elementary Education Majors: Laboratory  
(Cross-listed with GEOL). (0-2) Cr. 1. F.S.  
Prereq: Restricted to elementary and early childhood education majors; to be taken concurrently with GEOL 106/ASTRO 106  
Inquiry-based lab exploring fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Must be taken concurrently with GEOL/ASTRO 106.

ASTRO 120: The Sky and the Solar System  
(3-0) Cr. 3. F.S.S.  
For the nonscientist. A survey of our view of the universe, and the exploration of the solar system and beyond. The sky: constellations; motions of the Sun, Moon, and planets; seasons and the calendar; eclipses. The solar system: origin and evolution; characteristics of the Sun, planets, satellites, comets, meteorites, and asteroids. The detection and characterization of other solar systems, and the search for life in the universe. Extensive use of the planetarium is included. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 125L: The Sky and the Solar System Laboratory  
(0-2) Cr. 1. F.S.  
Prereq: Concurrent or previous enrollment in ASTRO 120  
Laboratory course to accompany Astro 120. Students carry out practical exercises involving naked eye and telescopic observing to explore and reinforce ideas covered in Astro 120. Activities based on a sky-simulation computer program and other weather-independent exercises are also included.

ASTRO 150: Stars, Galaxies, and Cosmology  
(3-0) Cr. 3. F.S.  
For the nonscientist. A survey of astronomy with a focus on the universe beyond our solar system. Basic observational astronomy and the history of astronomy. Stellar astronomy: motions, distances, sizes, spectra; types of stars; variability; binary systems. Stellar evolution: the birth, life, and death of stars, including supernovae, neutron stars, and black holes. The structure and evolution of the Milky Way Galaxy. Other galaxies, clusters of galaxies, quasars. Theories of the origin of the universe.

ASTRO 250: Astronomy Bizarre  
(3-0) Cr. 3. S.  
Prereq: ASTRO 120 or ASTRO 150  

ASTRO 290: Independent Study  
Cr. 1-4. Repeatable.  
Prereq: Permission of instructor

ASTRO 342: Introduction to Solar System Astronomy  
(3-0) Cr. 3. F.  
Prereq: PHYS 222  
An introduction to the physics of the Solar System and the planetary systems discovered around other stars. General characteristics of planetary systems: dynamics, thermodynamics, internal and surface structure of planets and minor bodies, physics of their atmosphere. Discovery techniques and characterization of extrasolar planets, and planetary systems formation models. "Grand tour" of the Solar System, using data and imagery from probes and telescopes that have visited these worlds. The origin and evolution of life on Earth, and the ongoing search for life in the Solar System and elsewhere in the universe.

ASTRO 344L: Astronomy Laboratory  
(1-6) Cr. 3. F.  
Prereq: PHYS 222  
Experiments in optical astronomy. Observational techniques, ranging from stellar photometry to CCD imaging. Data processing and analysis techniques. Astronomical software packages and online databases and resources. Available instruments include a variety of small telescopes and astronomical CCD cameras.
ASTRO 346: Introduction to Astrophysics  
(3-0) Cr. 3. S.  
Prereq: PHYS 222  
An exploration of the universe beyond our Solar System, with emphasis on the astrophysics of stars and galaxies. Observable properties of stars, physics of stellar atmospheres and interiors. Birth, evolution and death of stars, to understand the past and future of our Sun, the Milky Way galaxy and the other galaxies in the universe. Basic concepts of cosmology, dark matter and dark energy. Use of computer models to calculate the structure and evolution of stars and protostars, and to analyze actual astronomical data obtained by professional astronomers.

ASTRO 405: Astrophysical Cosmology  
(Dual-listed with ASTRO 505). (3-0) Cr. 3. S.  
Prereq: ASTRO 346 or permission of instructor  
Introduction to modern cosmology and large-scale structure; mathematical and observational fundamentals associated with the origin, structure, and evolution of the Universe. Scale of the Universe, Hubble’s Law, the cosmic microwave background, Big Bang nucleosynthesis, the origin of elements, dark energy and the accelerating universe, and dark matter. For senior undergraduates and graduate students in all areas of physics.

ASTRO 450: Undergraduate Research  
Cr. 1-6. Repeatable. F.S.S.  
Prereq: Permission of instructor  
Research under supervision of astronomy faculty.

ASTRO 450L: Undergraduate Research  
Cr. 1-6. Repeatable. F.S.S.  
Prereq: ASTRO 344L and permission of instructor  
Laboratory or observational project under supervision of astronomy faculty.

ASTRO 490: Independent Study  
Cr. 1-4. Repeatable, maximum of 9 credits.  
Prereq: 6 credits in astronomy, permission of instructor  
No more than 9 credits of Astro 490 may be counted toward graduation.

ASTRO 490H: Independent Study: Honors  
Cr. 1-4. Repeatable, maximum of 9 credits.  
Prereq: 6 credits in astronomy, permission of instructor  
No more than 9 credits of Astro 490 may be counted toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

ASTRO 505: Astrophysical Cosmology  
(Dual-listed with ASTRO 405). (3-0) Cr. 3. S.  
Prereq: ASTRO 346 or permission of instructor  
Introduction to modern cosmology and large-scale structure; mathematical and observational fundamentals associated with the origin, structure, and evolution of the Universe. Scale of the Universe, Hubble’s Law, the cosmic microwave background, Big Bang nucleosynthesis, the origin of elements, dark energy and the accelerating universe, and dark matter. For senior undergraduates and graduate students in all areas of physics.

ASTRO 510: Observational Astrophysics  
(2-3) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: ASTRO 405 or ASTRO 505 or permission of instructor  
Techniques in optical and near-IR astronomy, including spectroscopy and CCD photometry. Emphasis on projects involving proficiency in the use of research telescopes and modern instrumentation. Project topics range from photometric studies of pulsating and binary star systems to deep CCD imaging of faint nebulae and galaxies.

ASTRO 580: Stellar Astrophysics  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: ASTRO 405 or ASTRO 505 or permission of the instructor  

ASTRO 582: High Energy Astrophysics  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: ASTRO 405 or ASTRO 505 or permission of the instructor  
Interactions of high-energy particles, non-thermal radiation processes, spectral evolution of non-thermal systems, cosmic rays, active galactic nuclei, pulsars, neutrinos, measurement techniques for relativistic charged particles, high energy photons, and neutrinos.

ASTRO 584: Galactic Astronomy  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: ASTRO 405 or ASTRO 505 or permission of instructor  
Overall structure of our Galaxy and the interstellar medium. Physical processes in the interstellar medium (e.g., heating and cooling mechanisms, turbulence). Observational techniques for studying the interstellar medium. Kinematics and chemical evolution of the Galaxy.
ASTRO 586: Extragalactic Astronomy
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: ASTRO 405 or ASTRO 505 or permission of the instructor
Galaxy evolution, dynamics of external galaxies, evolution and classification of galaxies, groups and clusters of galaxies, extragalactic radio sources, quasars, structure formation, cosmological models and their observational consequences.

ASTRO 590: Special topics
Cr. arr. Repeatable.

ASTRO 599: Creative Component
Cr. arr.
Prereq: Permission of instructor
Individually directed study of research-level problems for students electing the nonthesis M.S. option in astronomy.

Courses for graduate students:

ASTRO 650: Advanced Seminar
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest in astronomy and astrophysics. Offered on a satisfactory-fail basis only.

ASTRO 675: Advanced Stellar Astrophysics
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: ASTRO 580 or permission of instructor

ASTRO 699: Research
Cr. arr. Repeatable.

Athletic Training (A TR)
Courses primarily for undergraduates:

A TR 219: Clinical Practicum in Athletic Training
(0-2) Cr. 1. F.
Athletic training clinical experiences designed to review human anatomical structures including origin, insertion, action, innervations of muscles. Students will gain experience with palpation of these structures to help identify location of anatomical landmarks. Students will also gain experience identifying bones, ligaments, and tendons. Open to athletic training students only.

A TR 220: Basic Athletic Training
(1-2) Cr. 2.
Prereq: BIOL 155 or BIOL 255 and BIOL 256
Introduction to methods of prevention and immediate care of athletic injuries. Basic information concerning health supervision of athletes, and some basic wrapping and strapping techniques for common injuries. Non A TR majors only.

A TR 221: Pre-Athletic Training Clinical Practicum
(0-3) Cr. 1. S.
Prereq: Credit or enrollment in A TR 222
Athletic training clinical observation experiences to accompany A TR 222. Utilize knowledge to evaluate, analyze and demonstrate appropriate taping, wrapping and basic skill techniques. Open to students interested in the athletic training option. Offered on a satisfactory-fail basis only.

A TR 222: Basic Athletic Training for Athletic Trainers
(2-2) Cr. 3. S.
Prereq: BIOL 255, BIOL 255L
Provides pre-athletic training students with the knowledge of the profession of a certified athletic trainer, factors associated with injury prevention, treatment, emergency care of athletic injuries, protective equipment, basic organization, administrative, and legal concepts in the athletic training setting. To be taken concurrently with A TR 221.

A TR 223: Clinical Practicum in Athletic Training
(0-3) Cr. 1. F.
Prereq: Permission of Athletic Training Program Director
Athletic training clinical experiences for athletic training students during pre-season intercollegiate football. Clinical experiences include: Professional Rescuer CPR, AED certification, emergency splinting and spineboarding, medical record keeping and HIPPA regulations, environmental conditions, prevention of injury screening strategies, athletic training room and education program policies and procedures, review of athletic taping techniques, acute injury management, mouthpiece formation, and anatomy review. Offered on a satisfactory-fail basis only.
A TR 224: Evaluation of Athletic Injuries I
(2-3) Cr. 3. F.
Prereq: Permission of athletic training program director
Sport injury assessment procedures and evaluation techniques for lower body injuries. Includes an overview of mechanisms of injury, general musculoskeletal disorders, and spine or neurological dysfunction. Designed for students in the athletic training major.

A TR 225: Athletic Injuries I Clinical Practicum
(0-3) Cr. 1. F.
Prereq: Permission of athletic training program director
Athletic training clinical experience to accompany A TR 224. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 226: Evaluation of Athletic Injuries II
(2-3) Cr. 3. S.
Prereq: Permission of athletic training program director
Sport injury assessment procedures and evaluation techniques for lower body injuries. Includes an overview of common illnesses of athletes and sport specific injuries. Designed for students in the athletic training major.

A TR 227: Athletic Injuries II Clinical Practicum
(0-3) Cr. 1. S.
Prereq: Permission of athletic training program director
Athletic training clinical experience to accompany A TR 226. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 240: Introduction to Taping, Equipment, and Bracing Techniques
(0-3) Cr. 1. S.
Prereq: Permission of athletic training program director
Basic information and laboratory instruction regarding basic taping techniques, athletic equipment fitting procedures, and the use and proper fitting of prophylactic braces. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 323: Therapeutic Modalities for Athletic Trainers
(2-2) Cr. 3. F.
Prereq: Permission of athletic training program director
Theory and technique of therapeutic modalities used in the management of injuries.

A TR 324: Therapeutic Modalities Clinical Practicum
(0-3) Cr. 1. F.
Prereq: Permission of athletic training program director
Athletic training clinical experience to accompany A TR 323. Open to students in athletic training major. Offered on a satisfactory-fail basis only.

A TR 326: Rehabilitation of Athletic Injuries
(2-2) Cr. 3. S.
Prereq: Permission of athletic training program director
Theory and practical application of rehabilitation principles used in the management of athletic injuries.

A TR 327: Rehabilitation of Athletic Injuries Clinical Practicum
(0-3) Cr. 1. S.
Prereq: Permission of athletic training program director
Athletic training clinical experience to accompany A TR 326. Open to students in the athletic training major. Offered on a satisfactory-fail basis only.

A TR 425: Organization and Administration of Athletic Training
(3-0) Cr. 3. F.
Prereq: Permission of athletic training program director, senior classification
Current administrative, professional, and legal issues pertaining to athletic training. Job search techniques and strategies including preparation of materials for athletic training students.

A TR 450: Medical Concerns for the Athletic Trainer
(3-0) Cr. 3. F.
Prereq: Permission of athletic training program director
Current medical issues and concerns, including pathology of illness and injury, dermatological conditions, exposure to allied health care professionals, and pharmacological indications in relation to the profession of athletic training and in patient/athlete care.

A TR 488: Evidence Based Practice in Athletic Training
Cr. 2. F.S.
Prereq: Permission of athletic training program director
Clinical experiences in application of athletic training techniques under supervision of certified athletic trainers. Participation in monthly research journal discussion.

A TR 489: Review of Athletic Training Competencies and Clinical Proficiencies
Cr. 1. F.S.
Prereq: Senior classification, permission of athletic training program director
Preparation for professional endorsement and certification by review of required competencies and clinical proficiencies. Required for endorsement or approval to sit for Board of Certification Exam. Offered on a satisfactory-fail basis only.

Athletics (ATH)
Courses primarily for undergraduates:
ATH 101: Intercollegiate Athletics
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101B: Intercollegiate Athletics: Basketball (men)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101C: Intercollegiate Athletics: Basketball (women)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101D: Intercollegiate Athletics: Cross Country (men)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101E: Intercollegiate Athletics: Cross Country (women)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101F: Intercollegiate Athletics: Football (men)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101G: Intercollegiate Athletics: Golf (men)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101J: Intercollegiate Athletics: Gymnastics (women)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101K: Intercollegiate Athletics: Softball (women)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101M: Intercollegiate Athletics: Swimming/Diving (women)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101O: Intercollegiate Athletics: Tennis (women)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101P: Intercollegiate Athletics: Track and Field (men)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.
ATH 101Q: Intercollegiate Athletics: Track and Field (women)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101R: Intercollegiate Athletics: Volleyball (women)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101S: Intercollegiate Athletics: Wrestling (men)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101T: Intercollegiate Athletics: Golf (women)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

ATH 101U: Intercollegiate Athletics: Soccer (women)
Cr. 1. Repeatable, maximum of 4 credits. F.S.
Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

Biochemistry, Biophysics, and Molecular Biology (BBMB)

Courses primarily for undergraduates:

BBMB 101: Introduction to Biochemistry
(1-0) Cr. 1. F.
Research activities, career opportunities in biochemistry and biophysics, and an introduction to the structure of biologically important compounds. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

BBMB 102: Introduction to Biochemistry Laboratory
(0-2) Cr. 1. S.
Prereq: Credit or enrollment in CHEM 177 and CHEM 177L or CHEM 201 and CHEM 201L
Topics in the scientific background of biochemistry, such as macromolecules, metabolism, and catalysis. Laboratory experimentation covers biochemical concepts and the study of bio-molecules including proteins, lipids and nucleic acids. A significant component is practice in scientific communication. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

BBMB 110: Biochemistry Learning Community Orientation
Cr. 1. F.
Prereq: Co-enrollment with BBMB 101 highly recommended.
Overview of the program of study, academic planning, resources on campus for the successful transition to Iowa State, team building, leadership, and community focused activities. For members of the Biochemistry & Biophysics Learning Community. Offered on a satisfactory-fail basis only.

BBMB 111: Biochemistry Learning Community
Cr. 1. S.
Prereq: Enrollment in BBMB102 is highly recommended.
Overview of career-building and research resources within BBMB and across ISU, including internships, lab skills, independent research, and leadership opportunities. For members of the Biochemistry & Biophysics Learning Community. Offered on a satisfactory-fail basis only.

BBMB 120: The Biochemistry of Beer
(Cross-listed with FS HN). (2-0) Cr. 2. F.
An introduction to the major classes of biomolecules, basic biochemical concepts, enzymology, metabolism and genetic engineering as they apply to the production and flavor of beer. All aspects of the biochemistry of beer will be covered, including the malting of barley, starch conversion, yeast fermentation and the chemical changes that occur during the aging of beer. Intended for non-majors. Natural science majors are limited to elective credit only.
BBMB 121: Medicines, Drugs and You
Cr. 2. S.
Prereq: One year of high school chemistry or CHEM 50 and biology.
An introduction to how medicines treat disease, what drug molecules look like, how they function, how they can be toxic, modern therapeutics ranging from over-the-counter pain relievers, antibiotics and anti-depressants, to anti-cancer chemotherapies, a discussion of illegal drugs from toxicity to mechanism of action and potential therapeutic benefits. Intended for students of all majors.

BBMB 201: Chemical Principles in Biological Systems
(2-0) Cr. 2. S.
Prereq: Credit or enrollment in CHEM 332
Survey of chemical principles as they apply in biological systems including: water, organic chemistry of functional groups in biomolecules and biochemical cofactors, weak bonds and their contribution to biomolecular structure, oxidation-reduction reactions and redox potential, thermodynamic laws and bioenergetics, chemical equilibria and kinetics, inorganic chemistry in biological systems, data presentation. The subjects will be taught using molecules from biological systems as examples. Intended for majors in biochemistry, biophysics or agricultural biochemistry.

BBMB 221: Structure and Reactions in Biochemical Processes
(3-0) Cr. 3. F.S.
Prereq: CHEM 163, CHEM 167, or CHEM 177
Fundamentals necessary for an understanding of biochemical processes. Primarily for students in agriculture. Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry. Credit for both BBMB 221 and Chem 231 may not be applied toward graduation.

BBMB 301: Survey of Biochemistry
(3-0) Cr. 3. S.SS.
Prereq: CHEM 231 or CHEM 331
A survey of biochemistry: structure and function of amino acids, proteins, carbohydrates, lipids, and nucleic acids; enzymology; metabolism; biosynthesis; and selected topics. Course offered online. Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry.

BBMB 316: Principles of Biochemistry
(3-0) Cr. 3. F.
Prereq: CHEM 231 or CHEM 331; BIOL 212; BIOL 313 and BIOL 314 strongly recommended.
Understanding biological systems at the molecular level; chemistry of biological macromolecules, enzyme function and regulation, metabolic pathways; integration of metabolism in diverse living systems. For students in biology and related majors who do not require the more rigorous treatment of biochemistry found in BBMB 404/405. Course offered online. Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry.

BBMB 404: Biochemistry I
(3-0) Cr. 3. F.
Prereq: CHEM 332
A general overview for graduate and advanced undergraduate students in agricultural, biological, chemical and nutritional sciences. Chemistry of amino acids, proteins, carbohydrates, and lipids, vitamins; protein structure; enzymology; carbohydrate metabolism. Course offered online. Credit for both BBMB 420 and the BBMB 404 - 405 sequence may not be applied toward graduation.

BBMB 405: Biochemistry II
(3-0) Cr. 3. S.
Prereq: BBMB 404
A general overview for graduate and advanced undergraduate students in agricultural, biological, chemical, and nutritional sciences. Metabolism of carbohydrates, amino acids, nucleotides and lipids; formation, turnover, and molecular relationships among DNA, RNA, and proteins; genetic code; regulation of gene expression; selected topics in the molecular physiology of plants and animals. Course available online. Credit for both BBMB 420 and the BBMB 404 - BBMB 405 sequence may not be applied toward graduation.

BBMB 411: Techniques in Biochemical Research
(2-8) Cr. 4. F.
Prereq: Credit or enrollment in BBMB 404 or BBMB 504 and BBMB 505; CHEM 211
Laboratory experimentation and techniques for studying biochemistry, including: chromatographic methods; electrophoresis; spectrophotometry; enzyme purification; enzyme kinetics; and characterization of carbohydrates, proteins, lipids, and nucleic acids. Scientific communication and technical writing are emphasized.
BBMB 420: Mammalian Biochemistry
(3-0) Cr. 3. F.
Prereq: CHEM 332, BIOL 314
Structure and function of proteins; enzymology; biological oxidation; chemistry and metabolism of carbohydrates, lipids, amino acids and nucleic acids; protein synthesis and the genetic code; relationship of biochemistry to selected animal diseases. Biochemistry of higher animals emphasized. Not acceptable for credit toward a major in agricultural biochemistry or biochemistry. Acceptable for credit toward a major in biophysics. Credit for both BBMB 420 and the BBMB 404 - 405 sequence may not be applied toward graduation.

BBMB 430: Procaryotic Diversity and Ecology
(Dual-listed with BBMB 530). (Cross-listed with MICRO). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: MICRO 302, MICRO 302L
Survey of the diverse groups of procaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.

BBMB 440: Laboratory in Microbial Physiology, Diversity, and Genetics
(Cross-listed with MICRO). (2-6) Cr. 4. F.S.
Prereq: MICRO 302, MICRO 302L, CHEM 332, BIOL 313L
Fundamental techniques and theory for studying the cellular mechanisms, genetic processes and diversity of microbial life. Experimental techniques will include isolation and physiological characterization of bacteria that inhabit different environments as well as an emphasis on genetic and molecular techniques to understand antibiotic resistance processes and mechanisms. Also included are techniques for phylogenetic characterization, measuring gene expression, and genetic manipulation of bacteria. Essential components for the effective communication of scientific results are also emphasized.

BBMB 461: Molecular Biophysics
(Dual-listed with BBMB 561). (2-0) Cr. 2.
Prereq: Credit or enrollment in MATH 166 and CHEM 178 and PHYS 222 or PHYS 112.
Physical methods for the study of molecular structure and organization of biological materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy. Registration for the graduate credit commits the student to graduate-level examinations, which differ from undergraduate-level examinations in the number and/or difficulty of questions.

BBMB 490: Independent Study
Cr. 1-3. Repeatable. F.S.S.
Prereq: College of Agriculture: junior or senior classification and permission of instructor; College of Liberal Arts and Sciences: permission of instructor. Independent study with a faculty mentor. No more than 9 credits of BBMB 490 may count toward graduation.

BBMB 490H: Independent Study, Honors
Cr. 1-3. Repeatable. F.S.S.
Prereq: College of Agriculture: junior or senior classification and permission of instructor; College of Liberal Arts and Sciences: permission of instructor
Independent study with a faculty mentor. No more than 9 credits of BBMB 490 may count toward graduation.

BBMB 499: Undergraduate Research
Cr. 1-5. Repeatable. F.S.S.
Prereq: Permission of faculty member with whom student proposes to work.
Independent research under faculty guidance. Courses primarily for graduate students, open to qualified undergraduates:

BBMB 504: Amino Acids and Proteins
(2-0) Cr. 2. F.
Prereq: CHEM 332 or equivalent
Review of amino acids and proteins, including atomic interactions, thermodynamics, structure and properties of amino acids, post-translational modifications, protein expression, purification and analysis, protein secondary, tertiary and quaternary structure, protein folding, oxygen transport and hemoglobin, models for equilibrium binding, elementary reactions and enzyme kinetics, biosynthesis of amino acids: pathways and mechanisms.

BBMB 505: Bioenergetics and Metabolism
(2-0) Cr. 2. F.
Prereq: CHEM 211, CHEM 332; a previous course in biochemistry is strongly recommended
Examination of catabolic pathways involved in the oxidation of organic and inorganic molecules, and energy metabolism involving inputs from light or other non-light sources. Central metabolism and glycolysis, fermentation, aerobic and anaerobic respiration, photosynthesis.

BBMB 506: Membrane Biochemistry
(2-0) Cr. 2.
Prereq: CHEM 332 or equivalent
Analysis of the structure, function, and synthesis of membranes. Bacterial and eukaryotic membrane characteristics. Membrane transport and signaling mechanisms. Analysis of the structure and function of lipids and membrane proteins.

BBMB 507: Biochemistry of Nucleic Acids
(2-0) Cr. 2. S.
Prereq: CHEM 332 or equivalent
Analysis of the chemical structure, function, synthesis, and metabolism of nucleic acids. Chemical characterization of nucleotides, polynucleotides, DNA, and RNA. Analysis of transcription, translation, and the genetic code.
BBMB 510: Molecular Biology and Biochemistry of RNA
(2-0) Cr. 2. F.
Prereq: BIOL 313, BBMB 405, BBMB 502, BBMB 506 and 507 or Gen 409, or equivalent
Biochemical processes that define structure and function of nucleic acids. Emphasis on the molecular processes that take place during synthesis, processing, and function of different RNA species; review of recent advances in RNA research.

BBMB 530: Procaryotic Diversity and Ecology
(Dual-listed with BBMB 430). (Cross-listed with MICRO). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: MICRO 302, MICRO 302L
Survey of the diverse groups of procaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.

BBMB 532: Enzyme Kinetics and Mechanisms
Cr. 2. Alt. S., offered odd-numbered years.
Prereq: BBMB 504
Advanced concepts of enzyme kinetics and catalysis. Experimental methods for determining kinetic and chemical reaction mechanisms. Enzyme structure/function relationships and the role of dynamics in catalysis.

BBMB 542A: Introduction to Molecular Biology Techniques: DNA Techniques
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

BBMB 542B: Introduction to Molecular Biology Techniques: Protein
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.S.
Prereq: Graduate classification
Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

BBMB 542C: Introduction to Molecular Biology Techniques: Cell Techniques
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

BBMB 542D: Introduction to Molecular Biology Techniques: Plant Transformation
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.
Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

BBMB 542E: Introduction to Molecular Biology Techniques: Proteomics
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.
Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

BBMB 542F: Introduction to Molecular Biology Techniques: Metabolomics
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.
Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

BBMB 542G: Introduction to Molecular Biology Techniques: Genomic
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.
Offered on a satisfactory-fail basis only.

BBMB 561: Molecular Biophysics
(Dual-listed with BBMB 461). (2-0) Cr. 2. S.
Prereq: Credit or enrollment in MATH 166 and CHEM 178 and PHYS 222 or PHYS 112.
Physical methods for the study of molecular structure and organization of biological materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy. Registration for the graduate credit commits the student to graduate-level examinations, which differ from undergraduate-level examinations in the number and/or difficulty of questions.

BBMB 561L: Laboratory in Molecular Biophysics
(1-3) Cr. 2. S.
Prereq: Credit or enrollment in BBMB 461/BBMB 561
Practice in methods of X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy as applied to macromolecules.
BBMB 569: Bioinformatics III (Structural Bioinformatics)
(Cross-listed with BCB, COM S, CPR E, GDCB). (3-0) Cr. 3. F.
Prereq: BCB 567, BBMB 316, GEN 409, STAT 430

BBMB 590: Special Topics
Cr. arr.
By arrangement.

BBMB 593: Workshop in Biochemistry and Biophysics
Cr. 1. Repeatable. F.S.
Prereq: Permission and signature of course administrator required.
Workshops in selected topics in biochemistry and biophysics. Credit in this course does not meet the requirement for advanced graduate electives in Biochemistry. Spring only. BBMB Undergraduate Research Symposium participation. Scheduled class meetings are required in addition to attending the symposium.

Courses for graduate students:

BBMB 615: Molecular Immunology
(Cross-listed with MICRO, V MPM). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BBMB 405 or BBMB 506 and BBMB 507
Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signaling pathways leading to expression of genes that control and activate immune function.

BBMB 645: Molecular Signaling
(2-0) Cr. 2. Alt. S., offered odd-numbered years.
Prereq: BBMB 405 or BBMB 420; or BBMB 506 and BBMB 507
Molecular mechanisms of cellular signaling including receptor activation, desensitization and cross talk, signal transduction pathways, and nuclear receptors. Discussion includes a variety of cell surface receptors and their hormone; growth factor and extracellular matrix activators; protein kinases; caspase and transcription factor downstream signals; lipids, gases and cyclic nucleotides as regulators of cell signaling. Course content includes current literature, student and instructor presentations and research proposal writing.

BBMB 661: Current Topics in Neuroscience
(Cross-listed with GDCB, NEURO). (2-0) Cr. 2-3. Repeatable. Alt. S., offered even-numbered years.
Prereq: NEURO 556 (or comparable course) or permission of instructor
Topics may include molecular and cellular neuroscience, neurodevelopment, neuroplasticity, neurodegenerative diseases, cognitive neuroscience, sensory biology, neural integration, membrane biophysics, neuroethology, techniques in neurobiology and behavior.

BBMB 675: Nucleic Acid Structure and Function
(2-0) Cr. 2. Alt. F., offered even-numbered years.
Prereq: BBMB 405 or BBMB 506 and BBMB 507
In-depth discussion of nucleic acid properties, structures and structure/function relationships. Interactions between nucleic acids and proteins will be emphasized.

BBMB 676: Biochemistry of Gene Expression in Eucaryotes
(Cross-listed with MCDB). (2-0) Cr. 2. Alt. S., offered even-numbered years.
Prereq: BBMB 404 and BBMB 504; and BBMB 506 and BBMB 507; or BBMB 405 or BBMB 505 and GDCB 511
Analysis of the biochemical processes involved in expression of eucaryotic genes and the regulation thereof, including RNA polymerase, transcriptional regulatory proteins, enhancers and silencers, chromosome structure, termination, RNA processing, RNA transport, RNA turnover, small RNAs, translational regulation, protein turnover.

BBMB 681: Advanced Seminar
Cr. 1. Repeatable. F.S.
Prereq: Permission of instructor
Student presentations.

BBMB 682: Departmental Seminar
Cr. R. F.S.
Prereq: Permission of instructor
Faculty, staff and invited guest research seminar.

BBMB 696: Research Seminar
(Cross-listed with AGRON, FOR, GDCB, HORT, PLBIO). Cr. 1. Repeatable.
Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

BBMB 698: Seminar in Molecular, Cellular, and Developmental Biology
(Cross-listed with GDCB, MCDB, MICRO, V MPM). (2-0) Cr. 1-2. Repeatable. F.S.
Student and faculty presentations.

BBMB 699: Research
Cr. arr. Repeatable. F.S.
Prereq: Permission of instructor
Bioinformatics and Computational Biology (BCB)

Courses primarily for undergraduates:

**BCB 444: Bioinformatic Analysis**
(Cross-listed with BCBI, BIOL, COM S, CPR E, GEN). (4-0) Cr. 4. F.
*Prereq: MATH 165 or STAT 401 or equivalent.*
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: bioinformatic data processing, Perl programming, genome assembly, database search, sequence alignment, gene prediction, next-generation sequencing, comparative and functional genomics, and systems biology.

**BCB 490: Independent Study**
Cr. 1-5. Repeatable, maximum of 9 credits. F.S.SS.
*Prereq: Permission of instructor*

Courses primarily for graduate students, open to qualified undergraduates:

**BCB 544: Fundamentals of Bioinformatics**
(Cross-listed with COM S, CPR E, GDCB). (4-0) Cr. 4. F.
*Prereq: MATH 165 or STAT 401 or equivalent*
A practical, hands-on overview of how to apply bioinformatics to biological research. Recommended for biologists desiring to gain computational molecular biology skills. Topics include: sequence analysis, genomics, proteomics, phylogenetic analyses, ontology enrichment, systems biology, data visualization and emergent technologies.

**BCB 567: Bioinformatics I (Bioinformatics Algorithms)**
(Cross-listed with COM S, CPR E). (3-0) Cr. 3.
*Prereq: COM S 228; COM S 330; credit or enrollment in BIOL 315, STAT 430*
Biology as an information science. A review of the algorithmic principles that are driving the advances in bioinformatics and computational biology.

**BCB 568: Bioinformatics II (Statistical Bioinformatics)**
(Cross-listed with COM S, GDCB, STAT). (3-0) Cr. 3.
*Prereq: BCB 567 or (BIOL 315 and STAT 430), credit or enrollment in GEN 409*
Statistical models for sequence data, including applications in genome annotation, motif discovery, variant discovery, molecular phylogeny, gene expression analysis, and metagenomics. Statistical topics include model building, inference, hypothesis testing, and simple experimental design, including for big data/complex models.

**BCB 569: Bioinformatics III (Structural Bioinformatics)**
(Cross-listed with BBMB, COM S, CPR E, GDCB). (3-0) Cr. 3. F.
*Prereq: BCB 567, BBMB 316, GEN 409, STAT 430*

**BCB 570: Bioinformatics IV (Systems Biology)**
(Cross-listed with COM S, CPR E, GDCB, STAT). (3-0) Cr. 3. S.
*Prereq: BCB 567 or COM S 311, COM S 228, GEN 409, STAT 430*

**BCB 590: Special Topics**
Cr. arr. Repeatable.
*Prereq: Permission of instructor*

**BCB 593: Workshop in Bioinformatics and Computational Biology**
(1-0) Cr. 1. Repeatable. F.S.
Current topics in bioinformatics and computational biology research. Lectures by off-campus experts. Students read background literature, attend preparatory seminars, attend all lectures, meet with lecturers.

**BCB 598: Cooperative Education**
Cr. R. Repeatable. F.S.SS.
*Prereq: Permission of the program chair*
Off-campus work periods for graduate students in the field of bioinformatics and computational biology.

**BCB 599: Creative Component**
Cr. arr.

Courses for graduate students:

**BCB 560: Selected Topics in Bioinformatics and Computational Biology**
(3-0) Cr. 1-4. Repeatable, maximum of 4 times. F.S.SS.
*Prereq: Permission of Instructor*
Topics of interest in the major research areas of computational molecular biology, including genomics, structural genomics, functional genomics, and computational systems biology.
BCB 690: Student Seminar in Bioinformatics and Computational Biology
Cr. 1. Repeatable. S.
Student research presentations.

BCB 691: Faculty Seminar in Bioinformatics and Computational Biology
(1-0) Cr. 1. Repeatable.
Faculty research series.

BCB 697: Graduate Research Rotation
Cr. arr. Repeatable. F.S.S.
Graduate research projects performed under the supervision of selected faculty members in the Bioinformatics and Computational Biology major.

BCB 699: Research
Cr. arr. Repeatable.

**Bioinformatics and Computational Biology (BCBIO)**

Courses primarily for undergraduates:

**BCBIO 110: BCBIO Orientation**
(1-0) Cr. 0.5. F.
First 8 weeks. Orientation to the area of bioinformatics and computational biology. For students considering a major in BCBIO. Specializations and career opportunities. Offered on a satisfactory-fail basis only.

**BCBIO 322: Introduction to Bioinformatics and Computational Biology**
(Cross-listed with BIOL, GEN). (3-0) Cr. 3. F.
**Prereq: BIOL 212**
Genome sequencing, assembly, structural and functional annotation, and comparative genomics. Investigating these topics will develop skills in programming and scripting (Perl and/or Python), the use of biological databases, sequence alignment, similarity search, identification of sequence patterns, construction of phylogenetic trees, and comparative genomics.

**BCBIO 401: Fundamentals of Bioinformatics and Computational Biology**
(3-0) Cr. 3. F.
**Prereq: BCBIO 322 and basic programming experience (e.g. COM S 207, COM S 227 or permission of instructor)**
Application of computer science and engineering to molecular biology. String algorithms, sequence alignsments, data structures, homology search methods, pattern recognition, fragment assembly, genome annotation, construction of bioinformatics databases, and gathering and distribution of biological information with the Internet.

**BCBIO 402: Fundamentals of Systems Biology and Network Science**
(3-0) Cr. 3. S.
**Prereq: BIOL 212**
Technologies: transcriptome, proteome, metabolome; Networks: Gene regulatory network, Protein-protein interaction network, Literature network; Theories: Graph theory, random network, scale-free network, evolving network, network robustness; Tools: Jmol, MeV, Cytoscape, Citespace.

**BCBIO 442: Bioinformatics and Computational Biology Techniques**
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS.
**Prereq: BIOL 314 recommended**
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only.

**BCBIO 442A: Bioinformatics and Computational Biology Techniques: Sequence Database Searching**
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS.
**Prereq: BIOL 314 recommended**
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only.

**BCBIO 442B: Bioinformatics and Computational Biology: Protein Structure Databases, Visualization, and Prediction**
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS.
**Prereq: BIOL 314 recommended**
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only.

**BCBIO 442C: Bioinformatics and Computational Biology Techniques: Phylogenetic Analysis**
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS.
**Prereq: BIOL 314 recommended**
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only.
BCBIO 442D: Bioinformatics and Computational Biology Techniques: Microarray Analysis
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.S.
Prereq: BIOL 314 recommended
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only.

BCBIO 444: Bioinformatic Analysis
(Cross-listed with BCB, BIOL, COM S, CPR E, GEN). (4-0) Cr. 4. F.
Prereq: MATH 165 or STAT 401 or equivalent.
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: bioinformatic data processing, Perl programming, genome assembly, database search, sequence alignment, gene prediction, next-generation sequencing, comparative and functional genomics, and systems biology.

BCBIO 490: Independent Study
Cr. 1-5. Repeatable, maximum of 9 credits. F.S.S.
Prereq: BCBIO 322, junior or senior classification, permission of instructor
Independent research projects for undergraduate students in bioinformatics and computational biology. Students in the College of Liberal Arts and Sciences may use no more than 9 credits of BCBIO 490 and 491 toward graduation.

BCBIO 491: Team Research Projects.
Cr. 1-5. Repeatable, maximum of 9 credits. F.S.S.
Prereq: BCBIO 322, junior or senior classification, permission of instructor
Research projects in bioinformatics and computational biology done by teams of students. Students in the College of Liberal Arts and Sciences may use no more than 9 credits of BCBIO 490 and 491 toward graduation.

Biological/Pre-Medical Illustration (BPM I)
Courses primarily for undergraduates:

BPM I 323: Scientific Illustration Principles and Techniques
(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable.
Prereq: 6 credits in art and design and 3 credits in biological sciences
Studio basics and professional techniques in black & white, continuous tone, and color. Emphasis on tools, materials, and rendering.

BPM I 326: Illustration and Illustration Software
(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable.
Prereq: ARTIS 323
Application of painting, drawing, and image making techniques to communication. Development of technical abilities using illustration software. Digital and print production techniques.

BPM I 327: Illustration as Communication
(Cross-listed with ARTIS). (0-6) Cr. 3.
Prereq: ARTIS 326
Studio problems in illustration emphasizing composition and communication. Problem solving methodologies.

BPM I 337: Application of Scientific Illustration Techniques
(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable, maximum of 6 credits. S.
Prereq: ARTIS 327
Rendering techniques applied to different types of biological and scientific subjects emphasizing communication. The use of traditional and digital media. Term project required.

BPM I 395: Field Illustration
Cr. 1-3. Repeatable, maximum of 6 credits. S.S.
Prereq: Permission of instructor
A combination seminar and field trip course emphasizing nature interpretation, field sketching techniques and preparation of a final illustration based on field experience.

BPM I 398: Cooperative Education
Cr. R. F.S.S.
Prereq: Permission of the program cooperative education coordinator, junior classification
Required of all cooperative education students. Students must register for these courses prior to commencing each work period.

BPM I 435I: Illustrating Nature I Sketching
(Cross-listed with IA LL). Cr. 2. SS.
Sketching plants, animals and terrain. Visual communication, development of a personal style, and integration of typographic and visual elements on a page will be emphasized.

BPM I 436I: Illustrating Nature II Photography
(Cross-listed with IA LL). Cr. 2. SS.
Beginning to intermediate technical and compositional aspects of color photography of natural areas and their plants and animals.

BPM I 490: Independent Study
Cr. 1-3. Repeatable, maximum of 3 credits.
Prereq: Written approval of instructor and advisory committee chair on required form in advance of semester of enrollment
BPM I 494: Special Topics in Illustration
Cr. 1-3. Repeatable.
Intensive exploration of illustration techniques in a studio or field setting.

BPM I 497: Illustration Internship
Cr. 1-6. Repeatable, maximum of 6 credits.
Prereq: Junior or senior classification in BPM I, written approval of supervising instructor and advisory committee chair on required form in advance of semester of enrollment
Offered on a satisfactory-fail basis only.

Biology (BIOL)
Courses primarily for undergraduates:

BIOL 101: Introductory Biology
(3-0) Cr. 3. F.S.SS.
Life considered at cellular, organism, and population levels. Function and diversity of the living world. Presentation of basic biological principles as well as topics and issues of current human interest. Does not satisfy biology major requirements.

BIOL 110: Introduction to Biology
Cr. 1. F.
Orientation to the scope of the biological sciences, and discussion of professional opportunities. Required of first year biology majors. Offered on a satisfactory-fail basis only.

BIOL 111: Opportunities in Biology
(1-0) Cr. 0.5. S.
Introduction to biological science disciplines and professional opportunities through faculty presentations which examine a variety of current research topics. Offered on a satisfactory-fail basis only.

BIOL 112: Transfer Student Orientation
Cr. R. F.S.
Orientation to opportunities in Biology. Review of degree requirements and other information needed by students that have not participated in the first year Biology orientation courses. Offered on a satisfactory-fail basis only.

BIOL 155: Human Biology
(3-0) Cr. 3. F.S.
A survey course of human biology, including principal structures and functions of the body systems and the diseases and disorders associated with them. Designed to meet general education requirements in natural science. Not recommended for those seeking a career in the allied health professions or for students majoring in life science. Does not satisfy biology major requirements.

BIOL 173: Environmental Biology
(Cross-listed with ENV S). (3-0) Cr. 3. F.S.
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Does not satisfy biology major requirements.

BIOL 201: Introduction to Environmental Issues
(Cross-listed with ENSCI, ENV S). (2-0) Cr. 2. F.
Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

BIOL 204: Biodiversity
(Cross-listed with ENV S). (4-0) Cr. 2. S.
Prereq: One course in life sciences
Survey of the major groups of organisms and biological systems. Definition, measurements, and patterns of distribution of organisms. Sources of information about biodiversity. Does not satisfy biology major requirements. Half semester course.

BIOL 211: Principles of Biology I
(3-0) Cr. 3. F.S.
Prereq: High school biology
Introduction to the nature of life, including the diversity of microbial, plant, and animal life; the nature of heredity; evolution; and principles of ecology. Intended for life science majors.

BIOL 211L: Principles of Biology Laboratory I
(0-3) Cr. 1. F.S.
Prereq: Credit or enrollment in BIOL 211
Laboratory to accompany 211.

BIOL 212: Principles of Biology II
(3-0) Cr. 3. F.S.
Prereq: High School Biology; high school chemistry or credit or enrollment in CHEM 163 or CHEM 177
Introduction to the chemical, molecular, and cellular basis of life; form and function of microbial, plant, and animal life. Intended for life science majors.

BIOL 212L: Principles of Biology Laboratory II
(0-3) Cr. 1. F.S.
Prereq: credit or enrollment in BIOL 212
Laboratory to accompany 212.
BIOL 251: Biological Processes in the Environment
(Cross-listed with ENSCI). (3-0) Cr. 3. S.
Principles of Biology from the level of macromolecules to the biosphere. Biological processes that affect environmental systems: including metabolism, energy pathways, biochemical reactions in cells, plant and microbial structure and function, element and water cycles.

BIOL 255: Fundamentals of Human Anatomy
(3-0) Cr. 3. F.
Prereq: High School Biology and Chemistry, or BIOL 101
An introduction to human anatomy, beginning with cells and tissues, surveying all body systems, relating form to function. Systems covered include: integumentary, bones and joints, muscles, nervous, sensory, endocrine, circulatory, lymphatic, respiratory, digestive, urinary, and reproductive. Pre-Medical students should consider Biol 351 for their anatomy background. Does not satisfy biology major requirements.

BIOL 255L: Fundamentals of Human Anatomy Laboratory
(0-3) Cr. 1. F.
Prereq: Credit or enrollment in BIOL 255
Investigation of human anatomy using models and dissections of preserved organs and model mammals. Pre-Medical students should consider 351 for their anatomy background. Does not satisfy biology major requirements.

BIOL 256: Fundamentals of Human Physiology
(3-0) Cr. 3. S.
Prereq: High School Biology and Chemistry, or BIOL 101, or BIOL 255 (recommended)
An introduction to human physiology, studying the function of all body systems. Systems covered include: integumentary, bones and joints, muscles, nervous, sensory, endocrine, circulatory, lymphatic and immune, respiratory, digestive, urinary, and reproductive. Pre-Medical students should consider 351 for their physiology background. Does not satisfy biology major requirements.

BIOL 256L: Fundamentals of Human Physiology Laboratory
(0-3) Cr. 1. S.
Prereq: Credit or enrollment in BIOL 256
Student-conducted experiments investigating concepts of human physiology with computer data acquisition and analysis. Interpretation of experimental results and preparation of lab reports. Pre-Medical students should consider 351 for their anatomy and physiology background. Does not satisfy biology major requirements.

BIOL 307: Women in Science and Engineering
(Cross-listed with WGS). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: 200 level course in science, engineering or women’s studies; ENGL 250
The interrelationships of women and science and engineering examined from historical, sociological, philosophical, and biological perspectives. Factors contributing to under-representation; feminist critiques of science; examination of successful strategies. Does not satisfy biology major advanced credit requirements.
Meets U.S. Diversity Requirement

BIOL 312: Ecology
(Cross-listed with A ECL, ENSCI). (3-3) Cr. 4. F.S.S.
Prereq: BIOL 211, BIOL 211L, BIOL 212, and BIOL 212L
Fundamental concepts and principles of ecology dealing with organisms, populations, communities, and ecosystems. Laboratory and field exercises examine ecological principles and methods as well as illustrate habitats.

BIOL 313: Principles of Genetics
(Cross-listed with GEN). (3-0) Cr. 3. F.S.S.
Prereq: BIOL 211, BIOL 211L, BIOL 212, and BIOL 212L
Introduction to the principles of transmission and molecular genetics of plants, animals, and bacteria. Recombination, structure and replication of DNA, gene expression, cloning, quantitative genetics, and population genetics. Students may receive graduation credit for no more than one of the following: Gen 260, Gen 313 and 313L, Gen 320, Biol 313 and 313L, and Agron 320.

BIOL 313L: Genetics Laboratory
(Cross-listed with GEN). (0-3) Cr. 1. F.S.
Prereq: Credit or enrollment in BIOL 313
Laboratory to accompany 313. Students may receive graduation credit for no more than one of the following: Biol 313 and 313L, Gen 260, Gen 313, Gen 320, and Agron 320.

BIOL 314: Principles of Molecular Cell Biology
(3-0) Cr. 3. F.S.
Prereq: BIOL 211, BIOL 211L, BIOL 212, BIOL 212L
Integration of elementary principles of metabolism, bioenergetics, cell structure, and cell function to develop a molecular view of how the cell works.

BIOL 315: Biological Evolution
(3-0) Cr. 3. F.S.
Prereq: BIOL 211, BIOL 211L, BIOL 212, BIOL 212L.
The mechanisms of evolution. Topics in microevolution: population genetics, natural selection, genetic variation, and adaptation. Macroevolution: speciation, extinction, phylogeny, and major evolutionary patterns.
BIOL 322: Introduction to Bioinformatics and Computational Biology
(Cross-listed with BCBIO, GEN). (3-0) Cr. 3. F.
Prereq: BIOL 212
Genome sequencing, assembly, structural and functional annotation, and comparative genomics. Investigating these topics will develop skills in programming and scripting (Perl and/or Python), the use of biological databases, sequence alignment, similarity search, identification of sequence patterns, construction of phylogenetic trees, and comparative genomics.

BIOL 328: Molecular and Cellular Biology of Human Diseases
Cr. 3. F.
Prereq: BIOL 212
Survey of molecular, genetic, and cellular aspects of human diseases. Fundamental concepts of cell biology and how they are linked to the pathologies of different classes of human diseases. Recent scientific advances with an emphasis on new methods of diagnosis and treatment.

BIOL 335: Principles of Human and Other Animal Physiology
(3-0) Cr. 3. S.
Prereq: BIOL 211, BIOL 212
Introduction to physiology of metabolic function in mammals and other animals. Metabolic processes and their interactions with various subsystems, approached from an organismal perspective. Integration of cellular, gastrointestinal, cardiovascular, respiratory, and renal processes, relevant to their control and integration at the nervous and endocrine system levels. Functional aspects of organismal physiology, energy and water balances, physiology of rest exercise, and environmental stress.

BIOL 335L: Principles of Human and Other Animal Physiology Laboratory
(0-3) Cr. 1. S.
Optional laboratory to accompany Biology 335. Student-conducted experiments investigating concepts of physiology.

BIOL 336: Ecological and Evolutionary Animal Physiology
Cr. 3.
Prereq: BIOL 211, BIOL 212
Study of mechanisms by which animals perform life-sustaining functions; the evolution and adaptive significance of physiology traits, the diversity of physiological mechanisms, and how physiology and ecology interact.

BIOL 344: Human Reproduction
(Cross-listed with WGS). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: BIOL 212
Biology of human reproduction, including reproductive systems, hormones, and endocrinology of pregnancy, presented from a clinically-oriented perspective. Reviews health-related conditions such as infertility, sexually-transmitted diseases, and complicated pregnancy.

BIOL 349: The Genome Perspective in Biology
(Cross-listed with GEN). (2-2) Cr. 3. S.
Prereq: GEN 313 or GEN 320
Analysis of genome, RNA, and protein data using computer technology to answer biological questions on topics ranging from microbial diversity to human health. An introduction for students in the life sciences to the fields of genomics, bioinformatics and systems.

BIOL 350: Comprehensive Human Anatomy
(3-0) Cr. 3. F.
Prereq: Credit in BIOL 211 and BIOL 212
Comprehensive survey of human anatomy, emphasizing structural and functional relationships of major organ systems. Compartmental study of normal anatomy; practical clinical application of anatomical regions.

BIOL 351: Comparative Chordate Anatomy
(3-4) Cr. 5. S.
Prereq: BIOL 212, junior classification
The evolution of chordates as reflected in the anatomy of extinct and living forms. Lecture topics include the history and diversity of chordates, comparisons of anatomic structures among major groups, and the adaptive significance of anatomic structures. Laboratory involves dissection of representative species.

BIOL 352: Vertebrate Histology
(3-3) Cr. 4. S.
Prereq: BIOL 212
Microscopic structure of vertebrate tissues and organs, with an introduction to histological techniques.

BIOL 353: Introductory Parasitology
(Cross-listed with MICRO, V PTH). (3-0) Cr. 3. S.
Prereq: BIOL 212
Biology and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites.

BIOL 354: Animal Behavior
(3-0) Cr. 3. F.
Prereq: BIOL 212
Ethological and sociobiological approaches to animal behavior. Genetic and developmental aspects of behavior, biological rhythms, orientation (including navigation, migration), communication, and social behavior (mating, aggression, parental care).

BIOL 354L: Laboratory in Animal Behavior
(0-3) Cr. 1. F.
Prereq: Credit or enrollment in BIOL 354
Laboratory techniques for observation, description and analysis of animal activities; independent projects.
BIOL 355: Plants and People
(3-0) Cr. 3. S.
Prereq: Credit in BIOL 211 and BIOL 211L
Uses of plants and fungi by humans and the importance of plants in the past, present, and future. Discussion of fruits, vegetables, grains, herbs, spices, beverages, oils, fibers, wood, medicines, and drugs, in the context of their agricultural, cultural, and economic roles in modern societies. Emphasis on origins and worldwide diversity of culturally important plants, their characteristics, and uses.

BIOL 356: Dendrology
(Cross-listed with FOR). (2-2) Cr. 3. F.
Prereq: BIOL 211
Identification and ecology of North American woody plant species. Importance of woody plants in timber production and wildlife habitat. Natural disturbances, human impacts, management and restoration concerns for major North American forest regions will be addressed.

BIOL 364: Invertebrate Biology
Cr. 3-4. F.
Prereq: BIOL 211, 212
Emphasis on diversity, development, physiology, and behavior of invertebrate organisms- the "spineless wonders" of the world. Laboratory involves hands-on study and investigation of living invertebrates.

BIOL 365: Vertebrate Biology
(Cross-listed with A ECL). (3-2) Cr. 4. F.
Prereq: BIOL 211, 211L, BIOL 212, BIOL 212L
Evolution, biology, and classification of fish, amphibians, reptiles, birds, and mammals. Emphasis on a comparative analysis of the structure and function of organ systems. Laboratory exercises concentrate on morphology and identification of orders of vertebrates.

BIOL 366: Plant Systematics
(2-4) Cr. 4. S.
Prereq: BIOL 211
Introduction to plant phylogenetic systematics, plant classification, survey of flowering plant families, and identification and field study of local plants.

BIOL 370: GIS for Ecology and Environmental Science
(Cross-listed with ENSCI). Cr. 1-6. Repeatable. F.S.
Prereq: Six credits in biological and/or physical sciences, and permission of instructor.
Introduction to geographic information systems (GIS) with emphasis on ecological and environmental applications. No prior GIS experience required. Guided, individualized study of topics based on student background and interest. For students with prior experience, topics and activities are selected to build upon any previous experience and minimize duplication to previous GIS coursework. Potential topics include: basic concepts of GIS, data structures, database management, spatial analysis, modeling and visualization of ecological and environmental data. Case studies in ecological and environmental applications using ArcGIS. Offered on a satisfactory-fail basis only.

BIOL 371: Ecological Methods
(Cross-listed with A ECL). (2-3) Cr. 3. F.
Prereq: A ECL 312; STAT 101 or STAT 104
Quantitative techniques used in management of natural resources with emphasis on inventory and manipulation of habitat and animal populations.

BIOL 381: Environmental Systems I: Introduction to Environmental Systems
(Dual-listed with EEOB 581). (Cross-listed with ENSCI, ENV S). Cr. 3-4. F.
Prereq: 12 credits of natural science including biology and chemistry
Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

BIOL 382: Environmental Systems II: Analysis of Environmental Systems
(Dual-listed with EEOB 582). (Cross-listed with ENSCI). (2-2) Cr. 3. S.
Prereq: ENSCI 381
Continuation of EnSci 381. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

BIOL 393: North American Field Trips in Biology
Cr. 1-4. Repeatable.
Prereq: Two courses in the biological sciences and by approval of application
Extended field trips, usually during break periods, to North American locations of interest to biologists. Inquire in the Biology Program Office, 103 Bessey Hall, for trip schedule.
BIOL 393A: North American Field Trips in Biology: Pre-trip Seminar
(1-0) Cr. 1. Repeatable.
Prereq: Two courses in the biological sciences and by approval of application
Discussion of relevant biological and cultural topics during semester preceding extended field trips to North American locations of interest to biologists.

BIOL 393B: North American Field Trips in Biology: North American Field trip
Cr. 1-3. Repeatable.
Prereq: Two courses in the biological sciences and by approval of application
Extended field trip under supervision of faculty member, usually during break periods, to North American locations of interest to biologists. Inquire in the Biology Program Office, 103 Bessey Hall, for trip schedule. Report required.

BIOL 394: International Field Trips in Biology
Cr. 1-4. Repeatable.
Prereq: Two courses in the biological sciences and by approval of application
Extended field trips, usually during break periods, to international locations of interest to biologists. Inquire in the Biology Program Office, 103 Bessey Hall, for trip schedule.
Meets International Perspectives Requirement.

BIOL 394A: International Field Trips in Biology: Pre-trip Seminar
(1-0) Cr. 1. Repeatable.
Prereq: Two courses in the biological sciences and by approval of application
Discussion of relevant biological and cultural topics during semester preceding extended field trip to international locations of interest to biologists.
Meets International Perspectives Requirement.

BIOL 394B: International Field Trips in Biology: Field Trip to International Location
Cr. 1-3. Repeatable.
Prereq: Two courses in the biological sciences and by approval of application
Extended field trips, under supervision of faculty member, usually during break periods, to international locations of interest to biologists. Inquire in the Biology Program Office, 103 Bessey Hall, for trip schedule.
Meets International Perspectives Requirement.

BIOL 402: Introduction to Pathology
(Cross-listed with V PTH). (3-0) Cr. 3. F.
Prereq: BIOL 211 and BIOL 212 with labs
Introductory exploration of pathology as a medical discipline. This includes study of disease mechanisms via an introduction to general pathology topics (cell degeneration, necrosis, disturbances of growth, disturbances of blood flow, inflammation, neoplasia) and organ system-specific response to injury.

BIOL 414: Life History and Reproductive Strategies
(Dual-listed with EEOB 514). (3-0) Cr. 3. F.
Prereq: BIOL 315 or equivalent recommended.
Evolution of ecological adaptations at the individual, population, and species level. Emphasis is on evolutionary mechanisms and adaptive strategies related to life histories and reproduction; age and size at maturity; lifespan and senescence; offspring size/number trade-offs; sex and mating systems; sex determination and sex ratios.

BIOL 423: Developmental Biology
(3-0) Cr. 3. S.
Prereq: BIOL 313
Principles of embryogenesis and animal development. Establishment of body axes, organ and limb development, and specification of cell fates. Emphasis on cell signaling and the control of gene expression within the context of a developing organism. Medically relevant subjects will be discussed, including stem cells, cancer biology, fertilization, and cloning.

BIOL 423L: Developmental Biology Laboratory
(0-3) Cr. 1. S.
Prereq: Credit or enrollment in BIOL 423 or permission of the instructor.
Experiments and explorations illustrating fundamental principles of multicellular development.

BIOL 428: Topics in Cell Biology
(3-0) Cr. 3. S.
Prereq: BIOL 314
Selected topics on biological structure and function at the cellular level. Emphasis on dynamic nature and regulation of cellular organization and the integration of cellular processes (systems biology). Original research articles will demonstrate interdisciplinary research strategies and how scientific investigation leads to knowledge and understanding of cell biology.

BIOL 430: Principles of Plant Physiology
(3-0) Cr. 3.
Prereq: BIOL 313 or GEN 320; BIOL 314 or BBMB 301; CHEM 231 or CHEM 332; PHYS 106, PHYS 115, or PHYS 111
An overview of classical and current concepts, principles, and approaches regarding the basic mechanisms of plant function underlying growth, development, and survival of plants. Topics covered include environmental and developmental signals, plant hormone action, signal transduction, mineral nutrition, water relations, metabolism, and photosynthesis.
BIOL 434: Endocrinology
(Dual-listed with EEOB 534). (3-0) Cr. 3. S.
Prereq: BIOL 211, BIOL 212
Chemical integration of vertebrate organisms. The structure, development, and evolution of the endocrine glands and the function and structure of their hormones.

BIOL 436: Neurobiology
(3-0) Cr. 3. F.
Prereq: BIOL 212
Basic principles of brain function and development. Signaling of nerve cells, synaptic transmission, structure/function of ion channels and receptors, memory and synaptic plasticity, movement and central control, sensation and sensory processing, construction of neural circuits, early brain development, complex brain functions in health and disease.

BIOL 439: Environmental Physiology
(Dual-listed with EEOB 539). Cr. 3-4. Alt. S., offered even-numbered years.
Prereq: BIOL 335; physics recommended
Physiological adaptations to the environment with an emphasis on vertebrates.

BIOL 444: Bioinformatic Analysis
(Cross-listed with BCB, BCBIO, COM S, CPR E, GEN). (4-0) Cr. 4. F.
Prereq: MATH 165 or STAT 401 or equivalent.
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: bioinformatic data processing, Perl programming, genome assembly, database search, sequence alignment, gene prediction, next-generation sequencing, comparative and functional genomics, and systems biology.

BIOL 451: Plant Evolution and Phylogeny
(Dual-listed with EEOB 551). (3-3) Cr. 4. F.
Prereq: BIOL 315 or equivalent.
Survey of land plant evolution; phylogenetic comparison of anatomical, reproductive, and life history specializations. Relationships among bryophytes, lycophytes, pteridophytes, gymnosperms, and angiosperms emphasizing significant evolutionary changes documented by paleobotanical, morphological, and molecular studies.

BIOL 454: Plant Anatomy
(3-3) Cr. 4. F.
Prereq: BIOL 212L; BIOL 366 recommended
Characteristics of cell and tissue types in vascular plants. Anatomy of developing and mature stems, roots, and leaves, including secondary (woody) growth. Introduction to the special anatomy of flowers and seeds.

BIOL 455: Bryophyte and Lichen Biodiversity
(Dual-listed with EEOB 555). (2-3) Cr. 3.
Prereq: BIOL 211, BIOL 211L
Introduction to the biology and ecology of mosses, liverworts, and lichens. Emphasis on identification and diversity of local representatives of these three groups of organisms. Required field trips and service-learning.

BIOL 456: Principles of Mycology
(Cross-listed with MICRO). (2-3) Cr. 3. F.
Prereq: 10 credits in biological sciences
Morphology, diversity and ecology of fungi; their relation to agriculture and industry and human health.

BIOL 457: Herpetology
(Cross-listed with A ECL). (2-0) Cr. 2. F.
Prereq: BIOL 351 or BIOL 365
Biology, ecology, and evolution of amphibians (salamanders, frogs, caecilians) and reptiles (lizards, snakes, tuatara, turtles, crocodilians). Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of amphibians and reptiles in ecosystems, and conservation. Laboratory focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

BIOL 457L: Herpetology Laboratory
(Cross-listed with A ECL). (0-3) Cr. 1. F.
Prereq: BIOL 351 or BIOL/A ECL 365; concurrent registration in BIOL 457 or A ECL 457
Laboratory to accompany Biology/Animal Ecology 457. Focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

BIOL 458: Ornithology
(Cross-listed with A ECL). (2-0) Cr. 2. S.
Prereq: A ECL 365 or BIOL/A ECL 351
Biology, evolution, ecology and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation.

BIOL 458L: Ornithology Laboratory
(Cross-listed with A ECL). (0-3) Cr. 1. S.
Prereq: BIOL 351 or AECL/BIOL 365. Concurrent enrollment in AECL/BIOL 458 is required.
Laboratory complements lecture topics with emphasis on external anatomy, identification and distribution of Midwest birds, and field trips.
Biology (BIOL)

BIOL 459: Mammalogy
(Dual-listed with EEOB 559). (Cross-listed with A ECL). (2-0) Cr. 2. S.
Prereq: BIOL 351 or A ECL 365
Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation.

BIOL 459L: Mammalogy Laboratory
(Cross-listed with A ECL). (0-3) Cr. 1. S.
Prereq: BIOL 351 or BIOL/AECL 365; concurrent enrollment in AECL 459 or BIOL 459 required.
Laboratory focus on identification, survey methods, distribution, habits, and habitats of mammals. Several field trips.

BIOL 462: Evolutionary Genetics
(Cross-listed with GEN). (3-0) Cr. 3. F.
Prereq: BIOL 315
The genetic basis of evolutionary processes in higher organisms. The role of genetic variation in adaptation, natural selection, adaptive processes, and the influence of random processes on evolutionary change.

BIOL 464: Wetland Ecology
(Dual-listed with EEOB 564). (Cross-listed with ENSCI). (3-0) Cr. 3. S.
Prereq: 15 credits in biological sciences.

BIOL 471: Introductory Conservation Biology
Cr. 3.
Prereq: BIOL 312
Examination of conservation issues from a population and community perspective. The role of genetics, demography, and environment in determining population viability, habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

BIOL 472: Community Ecology
(3-0) Cr. 3. S.
Prereq: BIOL 312
The effect of interspecific interactions on the structure and dynamics of natural and managed communities; including concepts of guild structure and trophic web dynamics and their importance to the productivity, diversity, stability, and sustainability of communities. The implications of interspecific interactions in the management of wild species will be emphasized with illustrative case histories of interactions between plants, invertebrates, and vertebrates.

BIOL 474: Plant Ecology
(3-0) Cr. 3. S.
Prereq: BIOL 312
Principles of plant population and community ecology.

BIOL 476: Functional Ecology
(Dual-listed with EEOB 576). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: BIOL 312
The nature of adaptations to physical and biotic environments. Biophysical, biomechanical, and physiological bases of the structure, form, growth, distribution, and abundance of organisms.

BIOL 480: Studies in Marine Biology
Cr. 1-8. Repeatable.
Courses taken at Gulf Coast Research Laboratory and other marine biological stations are transferred to Iowa State University under this number.

BIOL 481: Summer Field Studies
Cr. 1-8. Repeatable.
Courses taken at summer biological field stations are transferred to Iowa State University under this number. See www.biology.iastate.edu for links to field stations located in different biomes: coastal, Great Lakes, taiga, deciduous forests, deserts, Rocky Mountains.

BIOL 482: Tropical Biology
Cr. 1-4. Repeatable, maximum of 8 credits.
Prereq: One year of college biology; knowledge of Spanish desirable but not required
Students registering for courses taught by the Organization for Tropical Studies will receive credit for this ISU course when requesting a transfer of credits.

BIOL 484: Ecosystem Ecology
(Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Combined 12 credits in biology, chemistry, and physics.
Introduction of the study of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations for ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

BIOL 486: Aquatic Ecology
(Dual-listed with EEOB 586). (Cross-listed with A ECL, ENSCI). (3-0) Cr. 3. F.
Prereq: Biol 312 or EnSci 381 or EnSci 402 or NREM 301
Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.
BIOL 486L: Aquatic Ecology Laboratory
(Dual-listed with EEOB 586L). (Cross-listed with A ECL, ENSCI). (0-3) Cr. 1. F.
Prereq: Concurrent enrollment in BIOL 486
Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

BIOL 487: Microbial Ecology
(Dual-listed with EEOB 587). (Cross-listed with ENSCI, GEOL, MICRO). (3-0) Cr. 3. F.
Prereq: Six credits in biology and 6 credits in chemistry
Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

BIOL 488: Identification of Aquatic Organisms
(0-3) Cr. 1. F.S.
On-line taxonomic and identification exercises to accompany 486. Instruction and practice in the identification of algae, aquatic macrophytes, zooplankton, and benthos.

BIOL 489: Population Ecology
(Dual-listed with EEOB 589). (Cross-listed with A ECL). (2-2) Cr. 3. F.
Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing
Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

BIOL 490: Independent Study
Cr. 1. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: Permission of instructor.
Independent study opportunities for undergraduate students in the biological sciences. No more than 9 credits in Biol 490 may be counted toward graduation and, of those, only 2 credits may be applied toward the Biology advanced course requirement.

BIOL 491: Undergraduate Teaching Experience
Cr. 1-2. Repeatable.
Prereq: Permission of supervising staff
For students registering to be undergraduate teaching assistants. Offered on a satisfactory-fail basis only. A maximum of 2 credits of BIOL 491 may be applied toward the Biology advanced course requirement.

BIOL 492: Preparing for Graduate School in the Biological Sciences
(1-0) Cr. 1. F.
Prereq: For life science majors; Minimum requirement: sophomore standing.
For students considering pursuing a graduate degree in the biological sciences. Professional development topics including the defining of academic and career areas of interest, finding and evaluating appropriate programs of graduate study, the graduate school application process, and developing a curriculum vita. Exploration of learning opportunities at field stations, research internships, and independent research activities.

BIOL 494: Biology Internship
Cr. 1-3. Repeatable. F.S.SS.
Prereq: 8 credits in biology and permission of instructor
Professional experiences in biological sciences. Intended for Biology majors. No more than 9 credits in BIOL 494 may be counted toward graduation and, of those, only 6 credits may be applied toward the Biology advanced course requirement.

BIOL 495: Undergraduate Seminar
Cr. 1-3. Repeatable. F.S.
Prereq: Permission of instructor
Content varies from year to year and may include detailed discussion of special topics in biology, current issues in biology, or careers in biology.

BIOL 496: Cooperative Education
Cr. R. Repeatable. F.S.SS.
Prereq: Permission of the Biology Program cooperative education coordinator
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

BIOL 499: Undergraduate Research Experience
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: Permission of instructor.
Research opportunities for undergraduate students in the biological sciences. Intended for Biology majors. No more than 9 credits in Biol 499 may be counted toward graduation and, of those, only 6 credits may be applied toward the Biology advanced course requirement.

Biomedical Engineering (B M E)
Courses primarily for undergraduates:
B M E 220: Introduction to Biomedical Engineering
(Cross-listed with CH E). (3-0) Cr. 3. S.
Prereq: BIOL 212, ENGR 160 or equiv, MATH 166, CHEM 167 or CHEM 178, PHYS 222
Engineering analysis of basic biology and engineering problems associated with living systems and health care delivery. The course will illustrate biomedical engineering applications in such areas as: biotechnology, biomechanics, biomaterials and tissue engineering, and biosignal and image processing, and will introduce the basic life sciences and engineering concepts associated with these topics.

B M E 341: BioMEMs and Nanotechnology
(3-0) Cr. 3.
Prereq: B M E 220
Overview of Micro-Electro-Mechanical-System (MEMS) technologies for bioengineering, fundamentals of microfluidic device design, fabrication, and characterization, survey of microfluidic functional building blocks for lab-on-a-chip applications including mixers, valves, channels, and chambers. Topics of nanotechnology in bioengineering, nanoscale building block technologies for bioengineering including self-assembling, surface chemical treatment, nano-imprinting, nano-particles, nano-tubes, nano-wires, and stimuli-responsive biomaterials.

B M E 341L: BioMEMS and Nanotechnology Laboratory
(0-3) Cr. 1.
Prereq: B M E 220, concurrent enrollment in B M E 341
Introductory laboratory course accompanying B M E 341. Design, fabrication, and characterization of BioMEMS lab-on-a-chip devices and nanoscale techniques for bioengineering. Student group projects.

B M E 352: Molecular, Cellular and Tissue Biomechanics
(3-0) Cr. 3.
Prereq: B M E 220, E M 324, MAT E 273
Introduction to the anatomy of the musculoskeletal system and connective tissue. Range of movement, joint dislocation, bone deformity and fracture. Application of continuum mechanics to both living and non-living systems. Laws of motion, free-body diagrams and simple force analysis of musculoskeletal system. Biomechanical response of soft and hard tissues with emphasis on microstructure and mechanical properties. Applications to bioengineering design.

B M E 428: Image Processing with Biomedical Applications
(3-0) Cr. 3.
Prereq: E E 324

B M E 440: Biomedical Applications of Chemical Engineering
(Cross-listed with CH E). (3-0) Cr. 3.
Prereq: CH E 210, MATH 266 or MATH 267, PHYS 222
Applications of material and energy balances, transport phenomena, chemical reaction engineering, and thermodynamics to problems in biomedical engineering and applied physiology; survey of biomedical engineering; biomaterials; biomedical imaging.

B M E 450: Biosensing
(Cross-listed with E E). (3-0) Cr. 3.
Prereq: B M E 220
Overview of biosensors and bioanalytical challenges; designing for performance including various analytical problems, ion-selective membranes, characteristics of enzymes and basics of bioaffinity sensing; fundamentals of bioselective layers including depositing films and membranes, surfaces for immobilization and bioselective agents; survey of different biosensing technologies including electroanalytical, biomembrane, optical, and acoustic-wave based sensors.

B M E 450L: Biosensing Laboratory
(Cross-listed with E E). (0-3) Cr. 1.
Prereq: B M E 220, concurrent enrollment in B M E 450
Laboratory course accompanying B M E 450. Design, fabrication, and characterization of various electrical, chemical, polymer, optical and acoustic sensors.

B M E 456: Biomaterials
(Cross-listed with MAT E). (3-0) Cr. 3. F.
Prereq: CHEM 178 and MAT E 216 or MAT E 273 or MAT E 392
Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

B M E 466: Multidisciplinary Engineering Design
(Cross-listed with A B E, AER E, CPR E, E E, ENGR, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S.
Prereq: Student must be within two semesters of graduation; permission of instructor.
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.
B M E 490: Independent Study
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.
Prereq: permission of chair for the bioengineering minor
Investigation of biomedical engineering topics of special interest to student and supervising faculty member with a final written report.

Biomedical Sciences (B M S)
Courses primarily for professional curriculum students:

B M S 329: Anatomy and Physiology of Domestic Animals
(3-0) Cr. 3. S.
Prereq: BIOL 212, BIOL 212L
Survey of body systems of domestic animals. Provides a medical science orientation particularly useful to students in a preveterinary medicine curriculum.

B M S 330: Principles of Morphology I
(Dual-listed with B M S 530). (4-6) Cr. 6. F.
Prereq: 10 credits in biological science and permission of the instructor
Anatomy of the dog and cat: from basics to clinical application.

B M S 331: Principles of Morphology II
(Dual-listed with B M S 531). (2-6) Cr. 4. S.
Prereq: First-year classification in veterinary medicine. B M S 330
Comparative and topographic anatomy of horse, ruminants, pig, and chicken.

B M S 333: Biomedical Sciences I
(Dual-listed with B M S 533). (5-3) Cr. 6. F.
Prereq: First-year classification in veterinary medicine
Microscopic anatomy and physiology of cells, tissues, cardiovascular system, respiratory system, and urinary system.

B M S 334: Biomedical Sciences II
(Dual-listed with B M S 534). (5-3) Cr. 6. S.
Prereq: First-year classification in veterinary medicine
Microscopic anatomy of the immune system and integument.
Microscopic anatomy and physiology of the digestive system, endocrine system, and reproductive system.

B M S 335: Molecular and Cellular Basis of Disease
(1-0) Cr. 1. F.
Descriptions of molecular and cellular biology especially as it pertains to veterinary medicine. Discussions of cellular components, cellular functions and anomalies thereof. Emphasis placed on divergences relevant to companion animals and livestock.

B M S 336: Veterinary Nutrition
(2-0) Cr. 2. F.
Introduce basic biochemical aspects of metabolism and function of energy, protein, fat, minerals and vitamins in the diet. Determine nutrient requirements of food animals, pets, and horses under various physiological states. Understand fate of various nutrients in simple stomached animals, ruminants, and cecal fermenters. Discuss clinical nutrition problems specific to each species.

B M S 337: Neuroanatomy
(Dual-listed with B M S 537). (2-2) Cr. 3. S.
Prereq: First-year classification in veterinary medicine
Neuroanatomy of domestic animals.

B M S 339: Clinical Foundations I
(Cross-listed with V C S). (0-2) Cr. 1. F.
Prereq: First-year classification in veterinary medicine
Canine physical examination; basic behavior, animal handling and restraint; medical record keeping.

B M S 345: Case Study I
(0-2) Cr. 1. F.
Prereq: First-year classification in veterinary medicine
Clinical applications of basic sciences taught concurrently in the fall semester of the first year curriculum in veterinary medicine.

B M S 346: Case Study II
(0-1) Cr. 1. S.
Prereq: First-year classification in veterinary medicine
Clinical applications of basic sciences taught concurrently in the spring semester of the first year curriculum in veterinary medicine.

B M S 354: General Pharmacology
(Dual-listed with B M S 554). (Cross-listed with TOX). (3-0) Cr. 3. S.
Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

B M S 401: Intro to Aquatic Animal Medicine
(Cross-listed with A ECL). (1-2) Cr. 1. S.
8 week course. Introductory course with focus on fin fish production, health and medicine. Course content will help define future roles for veterinarians, producers, and service providers. Emphasis will be placed on anatomy, pathology, infectious diseases, nutrition, regulatory constraints in production, food safety, and current research. Field trip to aquaculture facility.

B M S 403: Behavior of Domestic Animals
(1-0) Cr. 1. Alt. S., offered even-numbered years.
Prereq: Classification in veterinary medicine
Normal and abnormal behavior of domestic animals.
B M S 439: Principles of Pharmacology
(Dual-listed with B M S 539). (4-0) Cr. 4. S.
General principles of drug actions; drug disposition; drug acting on, cardiovascular, respiratory, renal, gastrointestinal, and endocrine systems; anti-inflammatory and antibiotic drug; anti-cancer drugs; anesthetics CNS stimulants; lifestyle drugs; drug addiction, abuse and dependence; drugs in sport; drugs for obesity; biopharmaceuticals and gene therapy; drug development.

B M S 443: Pharmacology and Therapeutics
(Dual-listed with B M S 543). (3-0) Cr. 3. F.
**Prereq:** B M S 354
Pharmacology and therapeutic uses of fluids, antimicrobial and antiparasitic drugs, clinical use of veterinary drugs, and adverse drug reactions.

B M S 447: Principles of Anatomy
(Dual-listed with B M S 547). (2.5-6) Cr. 4. F.
**Prereq:** Instructor permission required for undergraduate students.
Examination of gross anatomy and neuroanatomy of human and dog. Laboratories will include cadaveric and virtual dissection, clinical case studies, and problem based learning.

B M S 490: Independent Study
Cr. 1-5. Repeatable. F.S.S.S.
**Prereq:** Permission of instructor

B M S 490H: Independent Study, Honors
Cr. 1-5. Repeatable. F.S.S.S.
**Prereq:** Permission of instructor

B M S 496: International Preceptorship
(0-40) Cr. 1-12. Repeatable. S.
**Prereq:** Second-year classification in veterinary medicine
International Preceptorships and Study Abroad Group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

Courses primarily for graduate students, open to qualified undergraduates:

B M S 501: Selected Research Methods in Biomedical Sciences
(0-8) Cr. 3. F.S.S.S.
**Prereq:** Graduate classification, permission of a BMS faculty member
Experience in biomedical techniques in selected BMS laboratories that include but is not limited to cytochemical methods, molecular biological techniques, extracellular and intracellular unit recording, microiontophoresis, microinjection, spectrophotofluorometric analysis of chemicals, use of radioisotopes, radioimmunoassay, Ca2+ imaging, confocal microscopy, fluorescence microscopy, and immunocytochemistry.

B M S 502: Methods in Biomedical Sciences
(0-6) Cr. 3. S.
Provides laboratory experience in the application of methods in biomedical sciences, including animal physiology and pharmacology laboratory techniques; human physiology recordings and urinalysis; pharmacokinetics; basic techniques in analytical laboratory; basic pathology, immunology, bacteriology, and virology laboratory techniques.

B M S 530: Principles of Morphology I
(Dual-listed with B M S 330). (4-6) Cr. 6. F.
**Prereq:** 10 credits in biological science and permission of the instructor
Anatomy of the dog and cat: from basics to clinical application.

B M S 531: Principles of Morphology II
(Dual-listed with B M S 331). (2-6) Cr. 4. S.
**Prereq:** First-year classification in veterinary medicine. B M S 330
Comparative and topographic anatomy of horse, ruminants, pig, and chicken.

B M S 533: Biomedical Sciences I
(Dual-listed with B M S 333). (5-3) Cr. 6. F.
**Prereq:** First-year classification in veterinary medicine or graduate student status
Microscopic anatomy and physiology of cells, tissues, cardiovascular system, respiratory system, and urinary system.

B M S 534: Biomedical Sciences II
(Dual-listed with B M S 334). (5-3) Cr. 6. S.
**Prereq:** First-year classification in veterinary medicine or graduate student status
Microscopic anatomy of the immune system and integument.
Microscopic anatomy and physiology of the digestive system, endocrine system, and reproductive system.

B M S 537: Neuroanatomy
(Dual-listed with B M S 337). (2-2) Cr. 3. S.
**Prereq:** 10 credits in biological science and permission of the instructor
Neuroanatomy of domestic animals.
B M S 538: Principles of Physiology  
(4-0) Cr. 4. F.  
Principles of neurophysiology, endocrine and reproductive physiology, muscle physiology, cardiovascular, respiratory, renal, and digestive physiology, and regulation of body fluid.

B M S 539: Principles of Pharmacology  
(Dual-listed with B M S 439). (4-0) Cr. 4. S.  
General principles of drug actions; drug disposition; drug acting on, cardiovascular, respiratory, renal, gastrointestinal, and endocrine systems; anti-inflammatory and antibiotic drug; anti-cancer drugs; anesthetics CNS stimulants; lifestyle drugs; drug addiction, abuse and dependence; drugs in sport; drugs for obesity; biopharmaceuticals and gene therapy; drug development.

B M S 542: Introduction to Molecular Biology Techniques  
(Cross-listed with EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.S.S.  
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

B M S 542A: Introduction to Molecular Biology Techniques: DNA Techniques  
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.  
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

B M S 542B: Introduction to Molecular Biology Techniques: Protein  
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.S.S.  
Prereq: Graduate classification  
Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

B M S 542C: Introduction to Molecular Biology Techniques: Cell Techniques  
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.  
Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

B M S 542D: Introduction to Molecular Biology Techniques: Plant Transformation  
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.  
Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

B M S 542E: Introduction to Molecular Biology Techniques: Proteomics  
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.  
Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

B M S 542F: Introduction to Molecular Biology Techniques: Metabolomics  
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.  
Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

B M S 542G: Introduction to Molecular Biology Techniques: Genomic  
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.  
Offered on a satisfactory-fail basis only.

B M S 543: Pharmacology and Therapeutics  
(Dual-listed with B M S 443). (3-0) Cr. 3. F.  
Prereq: B M S 354  
Pharmacology and therapeutic uses of fluids, antimicrobial and antiparasitic drugs, clinical use of veterinary drugs, and adverse drug reactions.

B M S 547: Principles of Anatomy  
(Dual-listed with B M S 447). (2.5-6) Cr. 4. F.  
Prereq: Instructor permission required for undergraduate students.  
Examination of gross anatomy and neuroanatomy of human and dog. Laboratories will include cadaveric and virtual dissection, clinical case studies, and problem based learning.

B M S 554: General Pharmacology  
(Dual-listed with B M S 354). (Cross-listed with TOX). (3-0) Cr. 3. S.  
Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405  
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.
B M S 556: Cellular, Molecular and Developmental Neuroscience
(Cross-listed with GDCB, NEURO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BIOL 335 or BIOL 436; physics recommended
Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.

B M S 575: Cell Biology
(Cross-listed with TOX). (3-0) Cr. 3. F.
Prereq: 10 credits in biological science and permission of instructor
A multi-instructor course covering major topics in cell structure and function, including: universal features of prokaryotic and eukaryotic cells, types of utilization and conversion of energy, genetic control of cell shape and functionality, internal organization of cells, communication between cells and their environment, development of multicellular systems. Students have to write a term paper.

B M S 590: Special Topics
Cr. 1-7. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 590A: Anatomy
Cr. 1-7. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 590B: Physiology
Cr. 1-7. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 590C: Pharmacology
Cr. 1-7. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 590D: Cell biology
Cr. 1-7. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 599: Creative Component
Cr. 1-3. F.S.SS.
Prereq: Enrollment in BMS graduate program, and permission of instructor.
Creative component for non-thesis Master of Science degree.

Courses for graduate students:

B M S 688: Research Review
Cr. 1. Repeatable. F.S.
Prereq: Enrollment in BMS graduate program.
A forum for B M S students to gain experience in the critical exchange of ideas through oral presentation and discussion of scientific information.

B M S 690: Advanced Topics
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 690A: Anatomy
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 690B: Physiology
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 690C: Pharmacology
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 690D: Cell biology
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 698: Seminar
Cr. arr. Repeatable. F.S.SS.
Prereq: Enrollment in BMS graduate program.

B M S 698A: Seminar: Attendance
Cr. R. Repeatable. F.S.
Prereq: Enrollment in BMS graduate program.

B M S 698B: Seminar: Attendance and Presentation
(1-0) Cr. 1. Repeatable. F.S.SS.
Prereq: Enrollment in B M S graduate program.
Attendance and presentation required. Offered on a satisfactory-fail basis only.

B M S 698C: Seminar: Attendance and Report
Cr. 1. Repeatable. F.S.
Prereq: Enrollment in BMS graduate program.
Attendance to all B M S seminars and written reports are required.

B M S 699: Research
Cr. arr. Repeatable. F.S.SS.
Prereq: Enrollment in BMS graduate program.

B M S 699A: Research: Anatomy
Cr. arr. Repeatable. F.S.SS.
Prereq: Enrollment in BMS graduate program.

B M S 699B: Research: Physiology
Cr. arr. Repeatable. F.S.SS.
Prereq: Enrollment in BMS graduate program.
B M S 699C: Research: Pharmacology
Cr. arr. Repeatable. F.S.S.
Prereq: Enrollment in BMS graduate program.

B M S 699D: Research: Cell biology
Cr. arr. Repeatable. F.S.S.
Prereq: Enrollment in BMS graduate program.

Biorenewable Chemicals (BR C)
Courses primarily for graduate students, open to qualified undergraduates:

BR C 506: The Evolving Chemical Industry
(1-0) Cr. 1.
An overview of the chemical industry including structure and its evolution. Discussion of the dynamics of recent introduction of biorenewable chemicals to the chemical industry.

BR C 507: Technology-Led Entrepreneurship in Biorenewables
(Cross-listed with BRT). (1-0) Cr. 1. S.
Prereq: Graduate Standing or Permission of Instructor.
Develop an understanding of the relationship between discovery research entrepreneurship and innovation in biorenewables. Understand critical techno-commercial analyses and intellectual property. Learn critical skills needed to found a company, including how to define key assets, write a business plan, leverage local resources, and secure funding.

BR C 590: Special Topics
(2-0) Cr. 2.
Special topics in biorenewable chemicals.

BR C 590K: Special Topics: K-12 Science Education.
(2-0) Cr. 2. F.S.S.
Understanding of Discovery Research for sixth through 12th grade science teachers. Design, methods and analysis of research associated with biorenewable energy systems. Science teachers will be introduced to the value of scientific inquiry, elements of engineering design, 21st century careers in science, technology, engineering and math (STEM) and how high school students need to be prepared for these careers.

Courses for graduate students:

BR C 688: Catalysis and Catalytic Processes
(Cross-listed with CH E). (3-0) Cr. 3.
Prereq: CH E 382
Principles and applications of heterogeneous and homogeneous catalysis. Adsorption. Reaction kinetics and mass transfer effects. Catalyst characterization. Industrial catalytic processes.

Biorenewable Resources and Technology (BRT)
Courses primarily for graduate students, open to qualified undergraduates:

BRT 501: Fundamentals of Biorenewable Resources
(3-0) Cr. 3. S.
Prereq: Previous coursework in introductory physics and chemistry is recommended.
Introduction to the science and engineering of converting biorenewable resources into bioenergy and biobased products. Survey of biorenewable resource base and properties; description of biofuels and biobased products; production of biorenewable resources; processing technologies for fuels, chemicals, materials, and energy; environmental impacts; technoeconomic analysis of production and processing; and biofuels policy.

BRT 506C: Biobased Products Seminar: Research Presentations
(1-0) Cr. 1. F.S.
Research presentations throughout the semester as part of the course seminar series and during the course. Research Poster Symposium at the end of the semester. Typically taken in the last semester(s) when completing degree program. Offered on a satisfactory-fail basis only.

BRT 507: Technology-Led Entrepreneurship in Biorenewables
(Cross-listed with BR C). (1-0) Cr. 1. S.
Prereq: Graduate Standing or Permission of Instructor.
Develop an understanding of the relationship between discovery research entrepreneurship and innovation in biorenewables. Understand critical techno-commercial analyses and intellectual property. Learn critical skills needed to found a company, including how to define key assets, write a business plan, leverage local resources, and secure funding.

BRT 511: Bioprocessing and Bioproducts
(3-0) Cr. 3. F.
Prereq: A E 216 or equivalent, MATH 160 or MATH 165, one of CHEM 167 or higher, BIOL 173 or BIOL 211 or higher or BRT 501, senior or graduate classification
BRT 515: Biorenewables Law and Policy  
(Cross-listed with POL S). (3-0) Cr. 3. F.  
Evaluation of the biorenewables field as it relates to the areas of law and policy. Primary emphasis on the following topics: concerns that motivated the development and expansion of the biorenewables field, a history of the interactions between biorenewable pathways, U.S. law and policy and controversies that have arisen from these interactions and their effects.

BRT 516: International Biorenewables Law & Policy  
(Cross-listed with POL S). (3-0) Cr. 3. S.  
Evaluation of the international biorenewables field as it relates to the areas of law and policy. Primary emphasis on the following topics: concerns that motivated the development and expansion of the field by adopting countries, a history of the interactions between biorenewable pathways, Law and policy in adopting countries and international controversies that have arisen from these interactions and their effects.

BRT 535: Thermochemical Processing of Biomass  
(Cross-listed with M E). (3-0) Cr. 3. S.  
Prereq: Undergraduate course work in thermodynamics and transport phenomena  
Introduction to thermal and catalytic processes for the conversion of biomass to biofuels and other biobased products. Topics include gasification, fast pyrolysis, hydrothermal processing, syngas to synfuels, and bio-oil upgrading. Application of thermodynamics, heat transfer, and fluid dynamics to bioenergy and biofuels.

BRT 540: Bioprocessing and Bioproducts  
(Cross-listed with C E, FS HN). (3-0) Cr. 3. F.  
Prereq: C E 326 or equivalent, MATH 160 or MATH 165, CHEM 167 or higher, BIOL 173 or BIOL 211 or higher, senior or graduate classification  

BRT 590: Special Topics  
Cr. 1-3. Repeatable. F.S.SS.  
Prereq: Permission of instructor  
Investigation/study of an approved barrier area(s) topic on an individual basis. Course content and requirements designed and developed in consultation with the student's major professor/instructor to determine barrier areas covered, but in all cases a formal report should be written.

BRT 592L: Biorenewable Resources Laboratory  
(0-3) Cr. 1. F.S.S.  
Prereq: Graduate student status. Undergraduates with instructor approval  
An introduction to hands-on experimental laboratory techniques including laboratory safety, calibration, proper usage of chemistry apparatus, chemicals, analytical equipment, and fundamental techniques to ensure successful research.

Courses for graduate students:

BRT 611: Advanced Food Processing  
(Cross-listed with FS HN). (3-0) Cr. 3. F.  
Prereq: FS HN 311, or FS HN 471/472 or equivalent, or FS HN 511.  
Recent advances in the science and technology of food processing and preservation; examples include both thermal and non-thermal processes, including cold plasma, nanotechnology, food packaging, and extrusion. Advances in extraction and separation technologies, waste management, by-product utilization, biorenewables and sustainability in food processing industry will also be discussed. Students to research on select topics and present.

BRT 699: Research  
Cr. arr. Repeatable. F.S.SS.  
Prereq: Permission of student's major professor

Business Administration (BUSAD)

Courses primarily for undergraduates:

BUSAD 102: Business Learning Team Orientation  
(1-0) Cr. 1. F.S.  
A required orientation for all College of Business Students involved with a Business Learning Team. Review of college and university requirements, transfer credits, academic planning, university policies and deadlines and registration procedures. Includes a consideration of various business majors and careers, tools for success in college including writing skills and presentations from employers, alumni and current students. Only one of BusAd 101, 102, or 103X may be counted towards graduation.

BUSAD 103: Orientation  
(1-0) Cr. 1. F.S.  
A required orientation for all College of Business students. Review of college and university requirements, transfer credits, academic planning, university policies and deadlines, and registration procedures. Includes group advising for course selection and registration. Only one of BUSAD 101, 102, or 103 may be counted toward graduation.
BUSAD 203: Business Careers and Employment Preparation  
(1-0) Cr. 1.  
Prereq: BUSAD 101 or 102  
Careers in business and issues relevant to the workplace. Discussion of diversity and ethics issues in the workplace. Developing and implementing a professional job search, functioning professionally in the workplace setting, resume and profession correspondence, interviewing, evaluating offers, business etiquette, networking and transitioning from student to employee.

BUSAD 250: Introduction to Business  
(3-0) Cr. 3.  
Prereq: COM S 113X  
Introduction to the functional areas of business and how the functional areas are integrated for the purpose of implementing business strategy. Introduces students to decision making tools (spreadsheets and databases) that are integral to business decision making. Includes application exercises to all functional areas of business.

BUSAD 291: Experiential Learning  
Cr. 1-3. Repeatable.  
Prereq: Written approval of supervising instructor and department chair on required form prior to the learning experience  
Supervised work experience in a business related discipline. Offered on a satisfactory-fail basis only.

BUSAD 291A: Experiential Learning: Domestic Internship.  
Cr. 1-3. Repeatable.  
Prereq: Written approval of supervising instructor and department chair on required form prior to the learning experience  
Supervised work experience in a business related discipline. Offered on a satisfactory-fail basis only.

BUSAD 291B: Experiential Learning: International Internship.  
Cr. 1-3. Repeatable.  
Prereq: Written approval of supervising instructor and department chair on required form prior to the learning experience  
Supervised work experience in a business related discipline. Offered on a satisfactory-fail basis only.

BUSAD 291C: Experiential Learning: Domestic Travel and Study.  
Cr. 1-3. Repeatable.  
Prereq: Written approval of supervising instructor and department chair on required form prior to the learning experience  
Supervised travel and study experience in a business related discipline. Offered on a satisfactory-fail basis only.

BUSAD 291D: Experiential Learning: International Travel and Study.  
Cr. 1-3. Repeatable.  
Prereq: Written approval of supervising instructor and department chair on required form prior to the learning experience  
Supervised travel and study experience in a business related discipline. Offered on a satisfactory-fail basis only.

BUSAD 292: Entrepreneurship & Innovation Learning Community (EILC) Seminar  
(1-0) Cr. 1.  
Prereq: Current member of or have applied to be a member of Entrepreneurship and Innovation Learning Community (see www.isupcenter.org/ELC for more information)  
Topics related to entrepreneurship and entrepreneurial thinking. Presentations by entrepreneurs and faculty, field trips, business concept development.

BUSAD 398: Cooperative Education  
Cr. R. Repeatable, maximum of 3 times.  
Prereq: Permission of department  
Required of all cooperative education students engaged in full-time internship/co-op. Students must register for this course prior to commencing each work period. No more than three credits may be taken in addition to BusAd 398 during any given semester. Offered on a satisfactory-fail basis only.

BUSAD 490: Independent Study  
Cr. 1-3. Repeatable.  
Prereq: Professional program in Business; permission of instructor; for 490H: Admission to the Business Honors Program

BUSAD 490A: Independent Study: International Business  
Cr. 1-3. Repeatable.  
Prereq: Professional program in Business; permission of instructor

BUSAD 490E: Independent Study: Entrepreneurship  
Cr. 1-3. Repeatable.  
Prereq: senior classification, permission of instructor

BUSAD 490G: Independent Study: General  
Cr. 1-3. Repeatable.  
Prereq: Professional program in Business; permission of instructor

BUSAD 490H: Independent Study: Honors  
Cr. 1-3. Repeatable.  
Prereq: Admission to the Business Honors Program
BUSAD 491: Professional Experiential Learning
Cr. 1-3. Repeatable.
Prereq: Professional program, 12 credits from College of Business; written approval of supervising instructor and department chair on required form prior to the learning experience
Supervised work experience in a business related discipline. Offered on a satisfactory-fail basis only.

BUSAD 491A: Professional Experiential Learning: Domestic Internship
Cr. 1-3. Repeatable.
Prereq: Professional program, 12 credits from College of Business; written approval of supervising instructor and department chair on required form prior to the learning experience
Supervised work experience in a business related discipline. Offered on a satisfactory-fail basis only.

BUSAD 491B: Professional Experiential Learning: International Internship
Cr. 1-3. Repeatable.
Prereq: Professional program, 12 credits from College of Business; written approval of supervising instructor and department chair on required form prior to the learning experience
Supervised work experience in a business related discipline. Offered on a satisfactory-fail basis only.

BUSAD 491C: Professional Experiential Learning: Domestic Travel and Study
Cr. 1-3. Repeatable.
Prereq: Professional program, 12 credits from College of Business; written approval of supervising instructor and department chair on required form prior to the learning experience
Supervised travel and study in a business related discipline. Offered on a satisfactory-fail basis only.

BUSAD 491D: Professional Experiential Learning: International Travel and Study
Cr. 1-3. Repeatable.
Prereq: Professional program, 12 credits from College of Business; written approval of supervising instructor and department chair on required form prior to the learning experience
Supervised travel and study in a business related discipline. Offered on a satisfactory-fail basis only.

BUSAD 491E: Professional Experiential Learning: Other Experiential Learning Experience
Cr. 1-3. Repeatable.
Prereq: Professional program, 12 credits from College of Business; written approval of supervising instructor and department chair on required form prior to the learning experience
Supervised work experience in a business related discipline.

Courses primarily for graduate students, open to qualified undergraduates:

BUSAD 501: Strategic Management
(Cross-listed with STB). (2-0) Cr. 2.
Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor
Critical analysis of current practice and case studies in strategic management with an emphasis on integrative decision making. Strategy formulation and implementation will be investigated in the context of complex business environments.

BUSAD 502: Quantitative Business Analysis and Decision Making
(3-0) Cr. 3.
Prereq: Enrollment in MBA program or departmental permission
Introduction to the sources and statistical analysis of data as well as optimization models for use in making business decisions. Data collection, descriptive and inferential statistics including hypothesis testing, analysis of variance, multiple regression, linear programming and simulation.

BUSAD 503: Information Systems
(Cross-listed with STB). (2-0) Cr. 2.
Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor
Introduction to a broad variety of information systems (IS) topics, including current and emerging developments in information technology (IT), IT strategy in the context of corporate strategy, and IS planning and development of enterprise architectures. Cases, reading, and discussions highlight the techniques and tactics used by managers to cope with strategic issues within an increasingly technical and data-driven competitive environment.

BUSAD 504: Marketing and Logistics
(Cross-listed with STB). (3-0) Cr. 3.
Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor
Integration of the business functions concerned with the marketing and movement of goods along the supply chain with the primary goal of creating value for the ultimate customer. Coordination of marketing, production, and logistics activities within the firm and with outside suppliers and customers in the supply chain.
BUSAD 507: Organizational Behavior
(Cross-listed with STB). (2-0) Cr. 2.
Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor
Understanding human behavior in organizations, and the nature of organizations from a managerial perspective. Special emphasis on how individual differences, such as perceptions, personality, and motivation, influence individual and group behavior in organizations and on how behavior can be influenced by job design, leadership, groups, and the structure of organizations.

BUSAD 508: Accounting and Finance
(Cross-listed with STB). (3-0) Cr. 3.
Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor
Survey of fundamental topics in accounting and finance. Financial statement reporting and analysis for agriculture firms, corporate governance issues related to financial reporting, (e.g., Sarbanes-Oxley). Basic tools and techniques used in financial management, including stock and bond valuation. How to assess and use capital budgeting methods to evaluate proposed firm investments.

BUSAD 509: Seed Trade, Policy and Regulation
(Cross-listed with STB). (3-0) Cr. 3.
Prereq: Admission to MS in Seed Technology and Business program or by special arrangement with the instructor
Cultural, financial, economic, political, legal/regulatory environments shaping an organization’s international business strategy. Topics include entry (and repatriation) of people, firms, goods, services, and capital. Special attention to the institutions of seed regulation and policy. Ethical issues facing managers operating in an international context.

BUSAD 590: Special Topics in Business
(3-0) Cr. 3. Repeatable.
Prereq: Enrollment in MBA program or departmental permission.
A special topics course covering contemporary issues in business. Topics vary by semester.

BUSAD 591: Professional Experiential Learning
Cr. 1-3. Repeatable.
Prereq: Graduate standing; written approval of supervising instructor and department chair on required form prior to the learning experience
Academically supervised travel and/or work experiences in a business related discipline.

BUSAD 592: MBA Professional Skills Development
Cr. R.
Prereq: Admission to Full-time MBA Program
Provides first-year MBA students with tools necessary to develop and implement a successful internship and career search, and to develop professional skills critical for success in the competitive business environment. Topics include career search strategy, resume and cover letter development, interviewing, strategic networking, salary negotiation, impression management, team skills development, presentation skills development, and business etiquette. Required for all full-time MBA students. Offered on a satisfactory-fail basis only.

BUSAD 594: MBA Professional Skills Development II
Cr. R.
Prereq: BUSAD 592
A second course designed to improve the professional skills of first-year MBA students. Emphasis on building effective communications and networking skills. Students will participate in professional workshops, company visits, executive speaker seminars, service learning projects, business case competitions, and related activities. Offered on a satisfactory-fail basis only.

BUSAD 598: Cooperative Education
Cr. R.
Prereq: Permission of instructor
Professional work experience. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

BUSAD 599: Creative Component
Cr. 3.
Prereq: Graduate classification, permission of supervisory committee chair
Preparation and writing of creative component.

BUSAD 599A: Creative Component: Accounting
Cr. 3.
Prereq: Graduate classification, permission of supervisory committee chair
Preparation and writing of creative component.

BUSAD 599C: Creative Component: Finance
Cr. 3.
Prereq: Graduate classification, permission of supervisory committee chair
Preparation and writing of creative component.

BUSAD 599E: Creative Component: Management
Cr. 3.
Prereq: Graduate classification, permission of supervisory committee chair
Preparation and writing of creative component.
BUSAD 599F: Creative Component: Marketing  
Cr. 3.  
Prereq: Graduate classification, permission of supervisory committee chair  
Preparation and writing of creative component.

BUSAD 599I: Creative Component: Agribusiness  
Cr. 3.  
Prereq: Graduate classification, permission of supervisory committee chair  
Preparation and writing of creative component.

BUSAD 599J: Creative Component: General Business  
Cr. 3.  
Prereq: Graduate classification, permission of supervisory committee chair  
Preparation and writing of creative component.

BUSAD 599K: Creative Component: Management Information Systems  
Cr. 3.  
Prereq: Graduate classification, permission of supervisory committee chair  
Preparation and writing of creative component.

BUSAD 599M: Creative Component: Supply Chain Management  
Cr. 3.  
Prereq: Graduate classification, permission of supervisory committee chair  
Preparation and writing of creative component.

Courses for graduate students:

BUSAD 644: Business Research Methods  
(3-0) Cr. 3. F.  
Prereq: In PhD program in the College of Business or consent of instructor  
A survey of the wide variety of research methods used in business. Methods will be presented and discussed with emphasis on applicability in different research situations.

BUSAD 699: Research  
Cr. 3-6. Repeatable. F.S.S.  
Prereq: Graduate classification, permission of major professor  
Research.

Chemical Engineering (CH E)

Courses primarily for undergraduates:

CH E 104: Chemical Engineering Learning Community  
Cr. R. F.  
Prereq: Enrollment in Chemical Engineering Learning Team  
(1-0) Curriculum in career planning and academic course support for Freshmen learning team.

CH E 160: Chemical Engineering Problems with Computer Applications Laboratory  
(2-2) Cr. 3. F.S.  
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165  

CH E 202: Chemical Engineering Seminar  
(1-0) Cr. 1. F.  
Prereq: Credit or enrollment in CH E 210.  
Professionalism in the context of the engineering/technical workplace. Introduction to chemical engineering career opportunities. Process and workplace safety. Development and demonstration of key workplace competencies: teamwork, professionalism and ethical responsibility, ability to engage in life-long learning, and knowledge of contemporary issues. Resumes; professional portfolios; preparation for internship experiences. Restricted to CHE majors.

CH E 204: Chemical Engineering Continuing Learning Community  
Cr. R.  
Prereq: Enrollment in Chemical Engineering Learning Team  
Curriculum and career planning, academic course support for learning community.

CH E 205: Chemical Engineering Progress Assessment  
Cr. R. F.S.  
Prereq: CHEM 178, MATH 166; credit or enrollment in CH E 160 and CH E 210  
Assessment of proficiency in general chemistry, calculus (including infinite series and applications of derivatives and integrals), and material balances, and an ability to use the principles of science and mathematics to identify, formulate, and solve engineering problems. Offered on a satisfactory-fail basis only.

CH E 210: Material and Energy Balances  
(3-0) Cr. 3. F.S.  
Prereq: Chem 178, Math 166, CH E 160  
Introduction to chemical processes. Physical behavior of gases, liquids, and solids. Application of material and energy balances to chemical engineering equipment and processes.
CH E 220: Introduction to Biomedical Engineering  
(Cross-listed with B M E). (3-0) Cr. 3. S.  
Prereq: BIOL 212, ENGR 160 or equiv, MATH 166, CHEM 167 or CHEM 178, PHYS 222  
Engineering analysis of basic biology and engineering problems associated with living systems and health care delivery. The course will illustrate biomedical engineering applications in such areas as: biotechnology, biomechanics, biomaterials and tissue engineering, and biosignal and image processing, and will introduce the basic life sciences and engineering concepts associated with these topics.

CH E 310: Computational Methods in Chemical Engineering  
(3-0) Cr. 3. F.S.  
Prereq: CH E 160, CH E 205, CH E 210, MATH 265  
Numerical methods for solving systems of linear and nonlinear equations, ordinary differential equations, numerical differentiation and integration, and nonlinear regression using chemical engineering examples.

CH E 325: Chemical Engineering Laboratory I  
(0-4) Cr. 2. F.S.  
Prereq: CH E 357, CH E 381; credit or enrollment in ENGL 314 or ENGL 309 or ENGL 312 or JL MC 347  
Experiments covering fundamental material and energy balances, momentum and energy transport operations, and thermodynamics. Computer applications.

CH E 356: Transport Phenomena I  
(3-0) Cr. 3. F.S.  
Prereq: CH E 205, CH E 210, PHYS 221; credit or enrollment in MATH 267  
Momentum and mechanical energy balances. Incompressible and compressible fluid flow. Applications to fluid drag, piping system design, filtration, packed beds and settling.

CH E 357: Transport Phenomena II  
(3-0) Cr. 3. F.S.  
Prereq: CH E 356  
Conduction and diffusion, convective heat and mass transfer, boiling and condensation, radiation, and design of heat exchange equipment. Introduction to diffusion.

CH E 358: Separations  
(3-0) Cr. 3. F.S.  
Prereq: CH E 310, CH E 357, CH E 381  
Diffusion and mass transfer in fluids. Analysis and design of continuous contacting and multistage separation processes. Binary and multicomponent distillation, absorption, extraction, evaporation, membrane processes, and simultaneous heat and mass transfer.

CH E 381: Chemical Engineering Thermodynamics  
(3-0) Cr. 3. F.S.  
Prereq: MATH 267, PHYS 222, CHEM 325; credit or enrollment in CH E 310  
Application of thermodynamic principles to chemical engineering problems. Thermodynamic properties of fluids, phase equilibria, and chemical reaction equilibria.

CH E 382: Chemical Reaction Engineering  
(3-0) Cr. 3. F.S.  
Prereq: CH E 310, CH E 381; credit or enrollment in CH E 357  
Kinetics of chemical reactions. Design of homogeneous and heterogeneous chemical reactors.

CH E 391: Foreign Study Orientation  
(3-0) Cr. 3. S.  
Prereq: CH E 358, CH E 382, CH E 391  
Offered on a satisfactory-fail basis only. Credit for graduation allowable only upon completion of Ch E 392. Meets International Perspectives Requirement.

CH E 392: Foreign Study Program  
Cr. 4. SS.  
Prereq: CH E 358, CH E 382, CH E 391  
Study of chemical engineering including laboratories and lectures at collaborating international universities. Comparative study of U.S. and international manufacturing facilities. Expenses required. Meets International Perspectives Requirement.

CH E 396: Summer Internship  
Cr. R. Repeatable. SS.  
Prereq: Permission of department and Engineering Career Services  
Professional work period of at least 10 weeks during the summer. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

CH E 398: Cooperative Education  
Cr. R. Repeatable. F.S.  
Prereq: Permission of department and Engineering Career Services  
Professional work period. One semester per academic or calendar year. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

CH E 406: Environmental Chemodynamics  
(Dual-listed with CH E 506). (3-0) Cr. 3.  
Prereq: CHE 357, CH E 381  
Examines the mechanisms and rates of chemical transport across air, water, and soil interfaces. Applications of transport and thermodynamic fundamentals to movement of chemicals in the environment.
CH E 408: Surface and Colloid Chemistry  
(Dual-listed with CH E 508). (3-0) Cr. 3.  
Prereq: CH E 381  
Examines the factors underlying interfacial phenomena, with an emphasis on the thermodynamics of surfaces, structural aspects, and electrical phenomena. Application areas include emulsification, foaming, detergency, sedimentation, fluidization, nucleation, wetting, adhesion, flotation, and electrophoresis.

CH E 415: Biochemical Engineering  
(Dual-listed with CH E 515). (3-0) Cr. 3.  
Prereq: CH E 357, CHEM 331; BBMB 301 or BBMB 303 or BBMB 404  
Application of basic chemical engineering principles in biochemical and biological process industries such as enzyme technology and fermentation.

CH E 420: Chemical Process Safety  
(3-0) Cr. 3. F.S.  
Prereq: CH E 357, CH E 381  
Application of transport phenomena, thermodynamics, and chemical kinetics to the study of safety, health, and loss prevention. Government regulations, industrial hygiene, relief sizing, runaway reactions, toxic release, and dispersion models will be used. Fires, explosions, risk assessment, hazard identification, case studies, accident investigations, and design considerations will be studied.

CH E 421: Process Control  
(3-0) Cr. 3. F.S.  
Prereq: CH E 358, CH E 382, Math 267  
Control of industrial chemical processes. Device applications and limitations. Dynamics of chemical process components and process control systems.

CH E 426: Chemical Engineering Laboratory II  
(0-4) Cr. 2. F.S.  
Prereq: CH E 325, CH E 358, CH E 382  
Experiments in heat and mass transfer, staged operations, chemical reactor performance, unit processes. Computer applications. Only one of Ch E 426 or 427 may count toward graduation.

CH E 427: Biological Engineering Laboratory  
(0-4) Cr. 2. S.  
Prereq: CH E 325, CH E 358, CH E 382; BBMB 301 or BBMB 303 or BBMB 404  
Experiments on biological applications in chemical engineering. Only one of CH E 426 or CH E 427 may count toward graduation.

CH E 430: Process and Plant Design  
(2-4) Cr. 4. F.S.  
Prereq: CH E 358, CH E 382  
Synthesis of chemical engineering processes, equipment and plants. Cost estimation and feasibility analysis.

CH E 440: Biomedical Applications of Chemical Engineering  
(Dual-listed with CH E 540). (Cross-listed with B M E). (3-0) Cr. 3.  
Prereq: CH E 210, MATH 266 or MATH 267, PHYS 222  
Applications of material and energy balances, transport phenomena, chemical reaction engineering, and thermodynamics to problems in biomedical engineering and applied physiology; survey of biomedical engineering; biomaterials; biomedical imaging.

CH E 447: Polymers and Polymer Engineering  
(Dual-listed with CH E 547). (3-0) Cr. 3.  
Prereq: CHEM 331; CH E 382 or MAT E 351  
Chemistry of polymers, addition and condensation polymerization. Physical and mechanical properties, polymer rheology, production methods. Applications of polymers in the chemical industry.

CH E 490: Undergraduate Research/Independent Study  
(0-18) Cr. 1-6. Repeatable, maximum of 6 credits.  
Prereq: Permission of department  
Investigation of topics of special interest to student and faculty with a final written report or presentation. Election of course and topic must be approved in advance by Department with completion of Study Proposal. No more than 6 credits of ChE 490 may be counted towards technical electives.

CH E 490H: Undergraduate Research/Independent Study, Honors  
(0-18) Cr. 1-6. Repeatable, maximum of 6 credits.  
Prereq: Permission of Department  
Investigation of topics of special interest to student and faculty with a final written report or presentation. Election of course and topic must be approved in advance by Department with completion of Study Proposal. No more than 6 credits of ChE 490 may be counted towards technical electives.

Courses primarily for graduate students, open to qualified undergraduates:

CH E 506: Environmental Chemodynamics  
(Dual-listed with CH E 406). (3-0) Cr. 3.  
Prereq: CHE 357, CH E 381  
Examines the mechanisms and rates of chemical transport across air, water, and soil interfaces. Applications of transport and thermodynamic fundamentals to movement of chemicals in the environment.
CH E 508: Surface and Colloid Chemistry
(Dual-listed with CH E 408). (3-0) Cr. 3.
Prereq: CH E 381
Examines the factors underlying interfacial phenomena, with an emphasis on the thermodynamics of surfaces, structural aspects, and electrical phenomena. Application areas include emulsification, foaming, detergency, sedimentation, fluidization, nucleation, wetting, adhesion, flotation, and electrophoresis.

CH E 515: Biochemical Engineering
(Dual-listed with CH E 415). (3-0) Cr. 3.
Prereq: CH E 357, CHEM 331; BBMB 301 or BBMB 303 or BBMB 404
Application of basic chemical engineering principles in biochemical and biological process industries such as enzyme technology and fermentation.

CH E 540: Biomedical Applications of Chemical Engineering
(Dual-listed with CH E 440). (3-0) Cr. 3.
Prereq: CH E 210, MATH 266 or MATH 267, PHYS 222
Applications of material and energy balances, transport phenomena, chemical reaction engineering, and thermodynamics to problems in biomedical engineering and applied physiology; survey of biomedical engineering; biomaterials; biomedical imaging.

CH E 542: Polymeric Biomaterials
(3-0) Cr. 3.
Prereq: CHEM 331 or a polymers class
Polymeric biomaterials, overview of biomaterial requirements, different classes of polymers used as biomaterials, specific bioapplications of polymers.

CH E 545: Analytical and Numerical Methods
(3-0) Cr. 3. F.
Prereq: CH E 358, MATH 267
Analysis of equipment and processes by analytic and/or numerical solution of descriptive differential equations. Operational and series techniques, boundary value problems, numerical interpolation and approximation, integration techniques.

CH E 547: Polymers and Polymer Engineering
(Dual-listed with CH E 447). (3-0) Cr. 3.
Prereq: CHEM 331; CH E 382 or MAT E 351
Chemistry of polymers, addition and condensation polymerization. Physical and mechanical properties, polymer rheology, production methods. Applications of polymers in the chemical industry.

CH E 554: Integrated Transport Phenomena
(4-0) Cr. 4. F.
Prereq: CH E 357, CH E 381, Math 267, credit or enrollment in CH E 545
Conservation equations governing diffusive and convective transport of momentum, thermal energy and chemical species. Transport during laminar flow in conduits, boundary layer flow, creeping flow. Heat and mass transport coupled with chemical reactions and phase change. Scaling and approximation methods for mathematical solution of transport models. Diffusive fluxes; conservation equations for heat and mass transfer; scaling and approximation techniques; fundamentals of fluid mechanics; unidirectional flow; creeping flow; laminar flow at high Reynolds number; forced-convection heat and mass transfer in confined and unconfined laminar flows.

CH E 562: Bioseparations
(3-0) Cr. 3.
Prereq: CH E 357 or advanced standing in a science major
Principles and techniques for separation and recovery of biologically-produced molecules, especially proteins. Relationship between the chemistry of biological molecules and efficient separation and preservation of biological activity. Includes centrifugation and filtration, membrane processing, extraction, precipitation and crystallization, chromatography, and electrophoresis.

CH E 572: Turbulence
(Cross-listed with AER E). (3-0) Cr. 3.
Prereq: AER E 541 or M E 538

CH E 583: Advanced Thermodynamics
(3-0) Cr. 3. F.
Prereq: CH E 381
Application of thermodynamic principles to chemical engineering problems. Thermodynamic properties of non-ideal fluids and solutions; phase and chemical-reaction equilibria/stability.

CH E 587: Advanced Chemical Reactor Design
(3-0) Cr. 3. S.
Prereq: CH E 382
Analysis of complex reactions and kinetics. Fixed bed, fluidized bed, and other industrial reactors. Analysis and design of non-ideal flow mixing, and residence times. Heterogeneous reactors.
CH E 590: Independent Study
Cr. 2-6. Repeatable.
Investigation of an approved topic on an individual basis.

CH E 595: Special Topics
Cr. 2-3. Repeatable.

CH E 595A: Special Topics: Separations
Cr. 2-3. Repeatable.

CH E 595B: Special Topics: Advanced Control Theory
Cr. 2-3. Repeatable.

CH E 595C: Special Topics: Crystallization
Cr. 2-3. Repeatable.

CH E 595D: Special Topics: Thermodynamics
Cr. 2-3. Repeatable.

CH E 595E: Special Topics: Protein Engineering/Bioseparations
Cr. 2-3. Repeatable.

CH E 595F: Special Topics: Biological Engineering
Cr. 2-3. Repeatable.

CH E 595G: Special Topics: Materials and Biomaterials
Cr. 2-3. Repeatable.

CH E 595H: Special Topics: Surfaces
Cr. 2-3. Repeatable.

CH E 595I: Special Topics: Combinatorial Design
Cr. 2-3. Repeatable.

CH E 599: Creative Component
Cr. arr. Repeatable.

Courses for graduate students:

CH E 601: Seminar
Cr. R. Repeatable. F.S.
Offered on a satisfactory-fail basis only.

CH E 625: Metabolic Engineering
(3-0) Cr. 3.
Prereq: CH E 382, CHEM 331
Principles of metabolic engineering. Emphasis on emerging examples in biorenewables and plant metabolic engineering. Overview of biochemical pathways, determination of flux distributions by stoichiometric and labeling techniques; kinetics and thermodynamics of metabolic networks; metabolic control analysis; genetic engineering for overexpression, deregulation, or inhibition of enzymes; directed evolution; application of bioinformatics, genomics, and proteomics.

CH E 632: Multiphase Flow
(Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: M E 538
Single particle, multiparticle and two-phase flow phenomena (gas-solid, liquid-solid and gas-liquid mixtures); particle interactions, transport phenomena, wall effects; bubbles, equations of multiphase flow. Dense phase (fluidized and packed beds) and ducted flows; momentum, heat and mass transfer. Computer solutions.

CH E 642: Principles and Applications of Molecular Simulation
(3-0) Cr. 3.
Prereq: CH E 545

CH E 652: Advanced Transport
(3-0) Cr. 3.
Prereq: CH E 552 and CH E 553
Advanced topics in momentum transport, fluid mechanics, and mass transport including study of recent literature.

CH E 688: Catalysis and Catalytic Processes
(Cross-listed with BR C). (3-0) Cr. 3.
Prereq: CH E 382
Principles and applications of heterogeneous and homogeneous catalysis. Adsorption. Reaction kinetics and mass transfer effects. Catalyst characterization. Industrial catalytic processes.

CH E 692: Independent Study
Cr. 2-6. Repeatable.
Investigation of an approved topic on an individual basis. Election of course and topic must be approved in advance by Program of Study Committee.

CH E 695: Advanced Topics
Cr. arr. Repeatable.

CH E 695A: Advanced Topics: Separations
Cr. arr. Repeatable.

CH E 695B: Advanced Topics: Advanced Statistical Modeling and Control
Cr. arr. Repeatable.

CH E 695C: Advanced Topics: Crystallization
Cr. arr. Repeatable.

CH E 695D: Advanced Topics: Thermodynamics
Cr. arr. Repeatable.

CH E 695E: Advanced Topics: Protein Engineering/Bioseparations
Cr. arr. Repeatable.
CH E 695F: Advanced Topics: Biological Engineering  
Cr. arr. Repeatable.

CH E 695G: Advanced Topics: Materials and Biomaterials  
Cr. arr. Repeatable.

CH E 695H: Advanced Topics: Surfaces  
Cr. arr. Repeatable.

CH E 695I: Advanced Topics: Combinatorial Design  
Cr. arr. Repeatable.

CH E 695J: Advanced Topics: Polymeric and Nanostructured Materials  
Cr. arr. Repeatable.

CH E 695K: Advanced Topics: Biomaterials and Tissue Engineering  
Cr. arr. Repeatable.

CH E 695L: Advanced Topics: Catalysis, Reaction Engineering, and Renewable Energy  
Cr. arr. Repeatable.

CH E 697: Engineering Internship  
Cr. R. Repeatable. F.S.S.
Prereq: Permission of major professor; graduate classification.  
One semester and one summer maximum per academic year professional work period.

CH E 698: Chemical Engineering Teaching Practicum  
(1-0) Cr. 1. F.
Prereq: Graduate student classification and permission of instructor.  
Discussions intended to foster the development of graduate students as teaching assistants and future chemical engineering instructors. Topics include classroom and laboratory instruction, grading, and developing a teaching philosophy. Offered on a satisfactory-fail basis only.

CH E 698A: Chemical Engineering Teaching Practicum: Teaching Practicum  
(1-0) Cr. 1. F.
Prereq: Graduate student classification and permission of instructor.  
Discussions intended to foster the development of graduate students as teaching assistants and future chemical engineering instructors. Topics include classroom and laboratory instruction, grading, and developing a teaching philosophy. Offered on a satisfactory-fail basis only.

CH E 698B: Chemical Engineering Teaching Practicum: Teaching Experience  
(1-0) Cr. 1. Repeatable. F.S.S.
Prereq: CH E 698A  
Participation in the instruction of a CH E course under the mentorship of a CBE faculty member. Typical activities may include lecture preparation and delivery, laboratory instruction, design of assessments, problem-solving sessions, office hours, and grading. Offered on a satisfactory-fail basis only.

CH E 699: Research  
Cr. arr. Repeatable.  

Chemistry (CHEM)

Courses primarily for undergraduates:

CHEM 050: Preparation for College Chemistry  
(3-0) Cr. 0. F.S.
Prereq: 1 year high school algebra.  
An in-depth active learning experience designed to impart the fundamental concepts and principles of chemistry, with an emphasis on mathematics skills and logical thinking. For students intending to enroll in general chemistry and who have not taken high school chemistry or who have not had a high school college preparatory chemistry course who need a review of chemical problem solving and chemical concepts. Credit for Chem 50 does not count toward graduation.

CHEM 101: Chemistry Learning Community Orientation  
(1-0) Cr. 1. F.
Prereq: Member of the Chemistry Learning Community.  
Integration of first year and transfer students into the chemistry program. Introduction and overview of degree requirements and support services on campus, assistance with transition to college and community life, and team-building and leadership activities. Offered on a satisfactory-fail basis only.

CHEM 101A: Chemistry Learning Community Orientation: On-Campus Orientation  
(1-0) Cr. 1. F.
Prereq: Member of the Chemistry Learning Community.  
Integration of first year and transfer students into the chemistry program. Introduction and overview of degree requirements and support services on campus, assistance with transition to college and community life, and team-building and leadership activities. Offered on a satisfactory-fail basis only.

CHEM 101B: Chemistry Learning Community Orientation: Professional Development Opportunities  
(1-0) Cr. 1. S.
Prereq: Member of the Chemistry Learning Community.  
Integration of first year and transfer students into the chemistry program. Introduction and overview of degree requirements and support services on campus, assistance with transition to college and community life, and team-building and leadership activities. Offered on a satisfactory-fail basis only.
CHEM 102L: Physical Sciences for Elementary Education
(Cross-listed with PHYS). (1-4) Cr. 3. F.S.
Prereq: MATH 195 or MATH 140
Physical science principles for future elementary teachers. Emphasis on experiments that address current elementary science education standards and that are appropriate for their future students to do, such as measurements of mass, length, time, light from atoms, charge and current, motion due to forces, energy and work, heat, waves, optics, building bridges and making musical instruments, studying states of matter and chemical reactions.

CHEM 110: Cutting-Edge Chemistry: Research and Career Opportunities
(1-0) Cr. 1. F.
Overview of careers in chemistry: industrial, governmental, and academic careers; literature and compound search instruction; professional ethics; and an introduction to joining a research lab. For students majoring or minoring in chemistry or chemistry-related fields. Offered on a satisfactory-fail basis only.

CHEM 160: Chemistry in Modern Society
(3-0) Cr. 3. F.S.
Aspects of chemistry visible to a non-scientist in our society. A survey of selected areas of chemistry with emphasis on the interface between chemistry and other fields of human activity.

CHEM 163: College Chemistry
(4-0) Cr. 4. F.S.SS.
Prereq: 1 year of high school algebra and geometry and Chem 50 or 1 year of high school chemistry; and credit or enrollment in CHEM 163L
A general survey of chemistry with an emphasis on conceptual problems for those who are not physical and biological science or engineering majors. Nomenclature, chemical reactions, stoichiometry, atomic structure, periodic properties, chemical bonding, states of matter, solutions, thermochemistry, acid-base theory, oxidation-reduction reactions, basic chemical kinetics, and chemical equilibrium. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 163L: Laboratory in College Chemistry
(0-3) Cr. 1. F.S.SS.
Prereq: Credit or enrollment for credit in CHEM 163
Laboratory to accompany CHEM 163. Must be taken with CHEM 163. Only one of Chem 163L, CHEM 167L, and CHEM 177L may count toward graduation.

CHEM 167: General Chemistry for Engineering Students
(4-0) Cr. 4. F.S.
Prereq: 1 year of high school chemistry or CHEM 50 and Math 143 pre-calculus or high school equivalent.
Principles of chemistry and properties of matter explained in terms of modern chemical theory with emphasis on topics of general interest to the engineer. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 167L: Laboratory in General Chemistry for Engineering
(0-3) Cr. 1. F.S.
Prereq: Credit or enrollment for credit in CHEM 167
Laboratory to accompany 167. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177: General Chemistry I
(4-0) Cr. 4. F.S.SS.
Prereq: MATH 140 or high school equivalent, and CHEM 50 or 1 year high school chemistry, and credit or enrollment in CHEM 177L. Chemistry and biochemistry majors may consider taking CHEM 201
The first semester of a two semester sequence which explores chemistry at a greater depth and with more emphasis on concepts, problems, and calculations than 163. Recommended for physical and biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Principles and quantitative relationships, stoichiometry, chemical equilibrium, acid-base chemistry, thermochemistry, rates and mechanism of reactions, changes of state, solution behavior, atomic structure, periodic relationships, chemical bonding. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 177L: Laboratory in General Chemistry I
(0-3) Cr. 1. F.S.SS.
Prereq: Credit or enrollment for credit in CHEM 177
Laboratory to accompany 177. 177L must be taken with 177. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177N: Laboratory in General Chemistry I
(0-3) Cr. 1. F.
Prereq: Credit or enrollment for credit in CHEM 177
Laboratory to accompany CHEM 177. CHEM 177N must be taken with CHEM 177. Only one of Chem 163L, CHEM 167L, and CHEM 177N may count toward graduation.
CHEM 178: General Chemistry II
(3-0) Cr. 3. F.S.SS.
Prereq: CHEM 177, CHEM 177L
Continuation of 177. Recommended for physical or biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses.

CHEM 178L: Laboratory in College Chemistry II
(0-3) Cr. 1. F.S.SS.
Prereq: CHEM 177L and credit or enrollment for credit in CHEM 178
Laboratory to accompany 178. 178L is not a necessary co-requisite with 178.

CHEM 201: Advanced General Chemistry
(5-0) Cr. 5. F.
Prereq: Co-enrollment in MATH 165 or credit, one year of high school chemistry, and one year high school physics or advanced chemistry. Co-enrollment in CHEM 201L.
A one-semester course in general chemistry designed to give students an in-depth, broad-based view of modern chemistry, and, in part, to facilitate participation in independent undergraduate research. Topics include stoichiometry, atomic and molecular structure, chemical bonding, kinetics, chemical equilibria, and thermodynamics. Discussion of current trends in various chemical disciplines, which may be given by guest experts in chemistry, biochemistry, and chemical engineering, will help the student appreciate the scope of the chemical sciences and how research is carried out. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 201L: Laboratory in Advanced General Chemistry
(0-3) Cr. 1. F.
Prereq: Credit or enrollment for credit in CHEM 201
Laboratory to accompany 201. Introductory lab experience in synthesis and analysis to prepare students for research activities. 201L must be taken with 201. Only one of 163L, 167L, 177L, 177N or 201L may count toward graduation.

CHEM 211: Quantitative and Environmental Analysis
(2-0) Cr. 2. F.S.
Prereq: CHEM 163 and CHEM 163L, CHEM 201 and CHEM 201L; or credit or enrollment in CHEM 178; and concurrent enrollment in CHEM 211L
Theory and practice of elementary volumetric, chromatographic, electrochemical and spectrometric methods of analysis. Chemical equilibrium, sampling, and data evaluation. Emphasis on environmental analytical chemistry; the same methods are widely used in biological and materials sciences as well.

CHEM 211L: Quantitative and Environmental Analysis Laboratory
(0-6) Cr. 2. F.S.
Prereq: Credit or enrollment for credit in CHEM 211
Introductory laboratory experience in volumetric, spectrometric, electrochemical and chromatographic methods of chemical analysis.

CHEM 231: Elementary Organic Chemistry
(3-0) Cr. 3. F.S.SS.
Prereq: CHEM 163, CHEM 163L, or CHEM 177, CHEM 177L; credit or enrollment in CHEM 231L
A survey of modern organic chemistry including nomenclature, structure and bonding, and reactions of hydrocarbons and important classes of natural and synthetic organic compounds. For students desiring only an elementary course in organic chemistry. Students in physical or biological sciences and premedical or preveterinary curricula should take the full year sequence 331 and 332 (with the accompanying laboratories 331L and 332L). Only one of Chem 231 and 331 or BBMB 221 may count toward graduation.

CHEM 231L: Laboratory in Elementary Organic Chemistry
(0-3) Cr. 1. F.S.SS.
Prereq: Credit or enrollment for credit in CHEM 231; CHEM 163L or CHEM 177L
Laboratory to accompany 231. 231L must be taken with 231. Only one of Chem 231L and 331L may count toward graduation.

CHEM 298: Cooperative Education
Cr. R. Repeatable. F.S.SS.
Prereq: Permission of the Department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

CHEM 299: Undergraduate Research (for Freshmen and Sophomores)
Cr. arr. Repeatable, maximum of 6 credits.
Prereq: Permission of staff member with whom student proposes to work

CHEM 301: Inorganic Chemistry
(2-0) Cr. 2. S.
Prereq: CHEM 324
Atomic and molecular structure and bonding principles; molecular shapes and symmetry; acids and bases; solid-state structures and properties; inorganic chemistry of H, B, C.
CHEM 316: Instrumental Methods of Chemical Analysis
(2-0) Cr. 2. F.
Prereq: CHEM 211, CHEM 211L, Math 166, and concurrent enrollment in CHEM 316L; PHYS 222 recommended
Quantitative and qualitative instrumental analysis. Operational theory of instruments, atomic and molecular absorption and emission spectroscopy, electroanalysis, mass spectrometry, liquid and gas chromatography, electrophoresis, literature of chemical analysis.

CHEM 316L: Instrumental Analysis Laboratory
(0-6) Cr. 2. F.
Prereq: Credit or enrollment in CHEM 316
Advanced laboratory experience in UV-visible spectrophotometry, atomic absorption and emission spectroscopy, electrochemistry, gas and liquid chromatography, electrophoresis, mass spectrometry, and other instrumental methods.

CHEM 321L: Laboratory in Physical Chemistry
(1-3) Cr. 2. S.
Prereq: Credit or enrollment in CHEM 324 or CHEM 325.
Error analysis; use of computers for interfacing to experiments and for data analysis; thermodynamics, infrared and optical spectroscopy, lasers. Not applicable towards the B.S. degree in Chemistry. Only one of Chem 321L and 322L may count toward graduation.

CHEM 322L: Laboratory in Physical Chemistry
(1-6) Cr. 3. S.
Prereq: CHEM 324 or CHEM 325.
Error analysis; use of computers for interfacing to experiments and for data analysis; thermodynamics, surface science, infrared and optical spectroscopy, lasers. Only one of Chem 321L and 322L may count toward graduation.

CHEM 324: Introductory Quantum Mechanics
(3-0) Cr. 3. F.S.
Prereq: CHEM 178, MATH 166; PHYS 222 recommended.
Quantum mechanics, atomic and molecular structure, spectroscopy, kinetic theory of gases, chemical kinetics.

CHEM 325: Chemical Thermodynamics
(3-0) Cr. 3. F.S.
Prereq: CHEM 178, MATH 166; PHYS 222 recommended
Classical thermodynamics 1st, 2nd, and 3rd laws with applications to gases and interfacial systems, multicomponent, multiphase equilibrium of reacting systems, surface chemistry, and electrochemical cells. Students taking a two-semester physical chemistry sequence are advised to take 324 first; in the spring semester, a molecular-based section of this course, stressing statistical thermodynamics, is offered for which knowledge of 324 is useful.

CHEM 331: Organic Chemistry I
(3-0) Cr. 3. F.S.S.
Prereq: CHEM 178 or CHEM 201, enrollment in CHEM 331L highly recommended
The first half of a two semester sequence. Modern organic chemistry including nomenclature, synthesis, structure and bonding, reaction mechanisms. For students majoring in physical and biological sciences, premedical and pre-veterinary curricula, chemistry and biochemistry. Students desiring only one semester of organic chemistry should take 231 and 231L, not 331. Only one of Chem 231 and 331 may count toward graduation.

CHEM 331L: Laboratory in Organic Chemistry I
(0-3) Cr. 1. F.S.S.
Prereq: CHEM 177L; credit or enrollment for credit in CHEM 331
Laboratory to accompany 331. Chemistry and biochemistry majors are encouraged to take 333L. Only one of Chem 231L and 331L may count toward graduation.

CHEM 332: Organic Chemistry II
(3-0) Cr. 3. F.S.S.
Prereq: CHEM 331; enrollment in CHEM 332L highly recommended
Continuation of 331. Modern organic chemistry including nomenclature, synthesis, structure and bonding, reaction mechanisms, natural products, carbohydrates and proteins. For students majoring in physical and biological sciences, premedical and pre-veterinary curricula, chemistry and biochemistry.

CHEM 332L: Laboratory in Organic Chemistry II
(0-3) Cr. 1. F.S.S.
Prereq: CHEM 331L; credit or enrollment for credit in CHEM 332
Laboratory to accompany 332. Chemistry and biochemistry majors are encouraged to take 334L.

CHEM 333L: Laboratory in Organic Chemistry I (for Chemistry and Biochemistry Majors)
(0-6) Cr. 2. F.
Prereq: Credit or enrollment for credit in CHEM 331
Laboratory to accompany 331 for chemistry and biochemistry majors.

CHEM 334L: Laboratory in Organic Chemistry II (for Chemistry and Biochemistry Majors)
(0-6) Cr. 2. S.
Prereq: CHEM 333L, credit or enrollment for credit in CHEM 332
Laboratory to accompany 332 for chemistry and biochemistry majors.
CHEM 398: Cooperative Education
Cr. R. Repeatable. F.S.SS.
Prereq: Permission of the Department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

CHEM 399: Undergraduate Research
Cr. arr.
Prereq: Permission of instructor with whom student proposes to work and junior or senior classification
Undergraduate research. No more than six total credits of Chem 399 and Chem 499 may count toward graduation. Credits earned in 399/499/490 may only be used to meet one of the advanced course requirements for the B.S. degree.

CHEM 401L: Inorganic Chemistry Laboratory
(0-3) Cr. 1. S.
Prereq: CHEM 402
Preparation and characterization of inorganic and organometallic compounds by modern techniques. For students majoring in chemistry or biochemistry.

CHEM 402: Advanced Inorganic Chemistry
(3-0) Cr. 3. F.
Prereq: CHEM 301; CHEM 331 recommended
Chemistry of the d and f metals. Structure, bonding, electronic spectra, and reaction mechanisms. Aspects of organometallic solid state and bioinorganic chemistry.

CHEM 490: Independent Study
Cr. arr.
Prereq: Completion of 6 credits in chemistry at the 300 level or higher and permission of instructor
No more than 9 credits of Chem 490 may count toward graduation.

CHEM 498: Cooperative Education
Cr. R. F.S.SS.
Prereq: Permission of the Department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

CHEM 499: Senior Research
Cr. 2-3. Repeatable, maximum of 6 credits.
Prereq: Permission of instructor with whom student proposes to work; B average in all chemistry, physics, and mathematics courses
Research in chosen area of chemistry, with final written report as senior thesis. This course should be elected for two consecutive semesters. For students majoring in chemistry. No more than six total credits for Chem 399 and 499 may count toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

CHEM 501L: Inorganic Preparations
(0-3) Cr. 1. F.
Prereq: CHEM 402
Preparation and characterization of inorganic and organometallic compounds by modern research techniques.

CHEM 502: Advanced Inorganic Chemistry
(3-0) Cr. 3. F.
Prereq: CHEM 402; CHEM 331 recommended
Chemistry of the main group (s, p) and transition (d, f) metals. Structure, bonding, electronic spectra, and reaction mechanisms. Aspects of organometallic, solid state, bioinorganic, and nano chemistry.

CHEM 505: Physical Inorganic Chemistry
(3-0) Cr. 3. F.
Prereq: CHEM 402 or CHEM 502 and CHEM 324
Elementary group theory and molecular orbital theory applied to inorganic chemistry. Spectroscopic methods of characterization of inorganic compounds and organometallic compounds.

CHEM 511: Advanced Analytical Chemistry
(3-0) Cr. 3. F.
Prereq: CHEM 316 and CHEM 316L
General methods of quantitative inorganic and organic analysis. Aqueous and nonaqueous titrimetry; selective reagents; sampling and sample dissolution; modern instrumentation; sensors; atomic and molecular microscopy; bioanalytical methods; data evaluation; chemometrics; and analytical literature.

CHEM 512: Electrochemical Methods of Analysis
(3-0) Cr. 3. F.
Prereq: CHEM 316 and CHEM 316L; Recommended but not Required CHEM 324, and CHEM 322L
CHEM 513: Analytical Molecular and Atomic Spectroscopy  
(3-0) Cr. 3. S.  
Prereq: CHEM 316 and CHEM 316L, CHEM 324, CHEM 322L  
Introduction to physical optics and design of photometric instruments. Principles of absorption, emission, fluorescence, and Raman spectroscopy. Error and precision of optical methods. Ultraviolet, visible, and infrared methods of qualitative and quantitative organic and inorganic analysis.

CHEM 516: Analytical Separations  
(3-0) Cr. 3. F.  
Prereq: CHEM 316 and CHEM 316L, CHEM 324, CHEM 322L  
Principles and examples of inorganic and organic separation methods applied to analytical chemistry. Solvent extraction, volatilization, ion exchange, liquid and gas chromatography, and electrophoresis.

CHEM 531: Organic Synthesis I  
(2-0) Cr. 2. S.  
Prereq: CHEM 332  
Survey of organic functional group transformations.

CHEM 532: Organic Synthesis II  
(2-0) Cr. 2. F.  
Prereq: CHEM 531  
Synthesis of complex organic compounds including natural products.

CHEM 537: Physical Organic Chemistry I  
(3-0) Cr. 3. F.  
Prereq: CHEM 332  
Survey of reactive intermediates including cations, anions, carbenes, and radicals.

CHEM 538: Physical Organic Chemistry II  
(3-0) Cr. 3. S.  
Prereq: CHEM 537  
Molecular structure, stereochemistry, introduction to reaction mechanisms, thermodynamic and kinetic data, linear free energy relationships, isotope effects, orbital symmetry.

CHEM 550: Safety in the Chemical Laboratory  
(1-0) Cr. 1. S.  
Prereq: CHEM 332L  
Introduction to laboratory safety and chemical hygiene. Use of engineering controls and personal protective equipment. Chemical storage and waste disposal practices. Handling hazardous chemicals. Radiation safety and laser safety. Offered on a satisfactory-fail basis only.

CHEM 555: Teaching College Chemistry  
(2-0) Cr. 2. Alt. S., offered even-numbered years.  
Prereq: Graduate or senior classification.  
Methods of instruction, strategies and techniques for effective teaching and learning along with practice teaching in undergraduate chemistry recitation and laboratory courses. Cooperative learning, guided-inquiry, learning cycles, conceptual change, models and modeling, concept maps, visualization, computer simulations, web-based delivery systems, and learning theories.

CHEM 561: Fundamentals of Quantum Mechanics  
(4-0) Cr. 4. F.  
Prereq: CHEM 324  
Schroedinger equation and exact solutions; square wells and barriers; harmonic oscillator; the hydrogen atom; atomic orbitals; operators including angular momenta; time-independent and time-dependent perturbation theory; Schroedinger and Heisenberg representations; unitary operators; interaction picture, density matrix.

CHEM 562: Fundamentals of Atomic and Molecular Quantum Mechanics  
(3-0) Cr. 3. S.  
Prereq: CHEM 561, credit or enrollment in CHEM 583  
Variational method, many electron atoms; addition of angular momentum, self-consistent field method for open and closed shells, linear combinations of atomic orbitals, origin of chemical bonding, many-electron diatomic and polyatomic molecules, treatments of electron correlation, approximation methods.

CHEM 563: Statistical Mechanics  
(3-0) Cr. 3. S.  
Prereq: CHEM 325  
Microscopic and macroscopic properties, laws of thermodynamics, ensembles and distribution functions, applications to gases, solids, and chemical equilibrium.

CHEM 564: Molecular Spectroscopy and Structure  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: CHEM 505 or CHEM 562  
Maxwell's field equations, interaction of light with matter including time-dependent perturbation theory, microwave, vibrational (infra-red, Raman) and electronic spectroscopies, symmetry derived selection rules, special lineshapes and introduction to nonlinear and coherent laser spectroscopies.
CHEM 571: Solid-State Chemistry  
(2-0) Cr. 2. Alt. S., offered odd-numbered years.  
Prereq: CHEM 301, CHEM 324  
Structural principles, synthetic strategies, analytical methods, and chemical bonding issues applied to solids. Atomic packings and networks, short-range vs. long-range order, defects; phase diagrams, reactive fluxes, chemical transport; diffraction, spectroscopy; energy bands and their bonding interpretations.

CHEM 572: Spectrometric Identification of Organic Compounds  
(2-3) Cr. 3. F.  
Prereq: CHEM 332  
Principles of infrared, ultraviolet, nuclear magnetic resonance, and mass spectroscopy as applied to organic chemistry.

CHEM 573: Nanochemistry  
(2-0) Cr. 2. Alt. S., offered even-numbered years.  
Prereq: CHEM 301, CHEM 324  
Synthesis, characterization, properties and applications of nanoscale materials (~0.5-500 nm), relationship with molecular, meso and bulk compounds. Chemistry of solid surfaces, zero- and two-dimensional (0D, 1D) nanostructures, semiconductor quantum dots, plasmonic nanoparticles, carbon nanomaterials, porous nanomaterials, potential health and safety impacts.

CHEM 574: Organometallic Chemistry of the Transition Metals  
(2-0) Cr. 2. Alt. S., offered odd-numbered years.  
Prereq: CHEM 301, CHEM 324  
Transition metal complexes with ligands such as cyclopentadienyl, olefins, acetylenes, benzenes, and carbon monoxide. Coverage of structure, bonding, reactivity, fundamental mechanisms, and homogeneous catalysis.

CHEM 576: Surface Chemistry  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: CHEM 324  
Gas-surface interactions and techniques of characterization. Idealized surface lattices, surface tension, Wulff plots, work function, adsorbate-adsorbate interactions, 2D phase diagrams, diffusion, thin film growth, adsorption and desorption mechanisms/energetics/kinetics, adsorption isotherms, vacuum techniques, electron- and ion-based spectroscopies for surface analysis (including AES, FIM, XPS, UPS, EXAFS, EELS, SIMS, LEED and STM).

CHEM 577: Mass Spectrometry  
(3-0) Cr. 3. S.  
Basic physics, instrumentation, chemical and biological applications of mass spectrometry.

CHEM 578: Chemical Kinetics and Mechanisms  
(2-0) Cr. 2. Alt. S., offered even-numbered years.  
Prereq: CHEM 324  
Rates and mechanisms; reversible, consecutive, and competing reactions; chain mechanisms; kinetic isotope effects; very rapid reactions; acid-base catalysis, theories of unimolecular reactions; transition state and Marcus theories.

CHEM 579: Introduction to Research in Chemistry  
Cr. R. F.  
Introduction to the various areas of research in chemistry at Iowa State University.

CHEM 580: Introduction to Computational Quantum Chemistry  
(3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: CHEM 324  
Basic principles of quantum mechanics, schrodinger equation. Hartree-Fock/molecular orbital theory, introduction to group theory, introduction to modern methods of computational chemistry; applications include molecular structure, potential energy surfaces and their relation to chemical reactions; molecular spectroscopy, photochemistry, solvent effects and surface chemistry.

CHEM 583: Chemical Group Theory  
(1-0) Cr. 1. F.  
Prereq: CHEM 324  
Basic concepts and theorems, representation theory; point groups, molecular orbitals, molecular states, molecular vibrations, rotation group and angular momenta; space groups and crystals; permutation group, antisymmetry, and spin states.

CHEM 599: Nonthesis Research  
Cr. arr.  
Prereq: Permission of instructor concerned

Courses for graduate students:

CHEM 600: Seminar in Inorganic Chemistry  
(1-0) Cr. 1. Repeatable, maximum of 3 times. F.S.  
Prereq: Permission of instructor

CHEM 601: Selected Topics in Inorganic Chemistry  
(2-0) Cr. 1-2. F.S.  
Prereq: Permission of instructor  
Topics such as molecular structure and bonding; organometallic compounds; physical techniques of structure determination; nonaqueous solutions; Zintl phases; transition-metal oxides; free-radical reactions; electron transfer reactions; metal-metal bonding; and bioinorganic chemistry of nucleic acids.
CHEM 611: Seminar in Analytical Chemistry
(1-0) Cr. 1. Repeatable. F.S.
Prereq: Permission of instructor

CHEM 619: Special Topics in Analytical Chemistry
(2-0) Cr. 1-2. Repeatable. F.S.
Prereq: Permission of instructor
Raman spectroscopy, sensors, spectroelectrochemistry, capillary electrophoresis, analytical plasmas, chemometrics and bioanalytical chemistry.

CHEM 631: Seminar in Organic Chemistry
(1-0) Cr. 1. Repeatable. F.S.
Prereq: Permission of instructor

CHEM 632: Selected Topics in Organic Chemistry
(2-0) Cr. 1-2. Repeatable. F.S.
Prereq: CHEM 537
Topics of current interest in organic chemistry such as spectroscopy, physical organic chemistry, photochemistry, organometallic chemistry, mechanisms of oxidations and reductions, modern organic synthesis, reactive intermediates, bioorganic chemistry, and polymers.

CHEM 660: Seminar in Physical Chemistry
(1-0) Cr. 1. Repeatable. S.
Prereq: Permission of instructor

CHEM 667: Special Topics in Physical Chemistry
(2-0) Cr. 1-2. F.S.
Prereq: Permission of instructor
Advanced and recent developments in physical chemistry are selected for each offering.

CHEM 699: Research
Cr. arr. Repeatable.
Prereq: Permission of instructor

Chinese (CHIN)

Courses primarily for undergraduates:

CHIN 101: Elementary Mandarin Chinese I
(4-0) Cr. 4. F.
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.

CHIN 102: Elementary Mandarin Chinese II
(4-0) Cr. 4. S.
Prereq: CHIN 101
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.
Meets International Perspectives Requirement.

CHIN 201: Intermediate Mandarin Chinese I
(4-0) Cr. 4. F.
Prereq: CHIN 102
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition.
Meets International Perspectives Requirement.

CHIN 202: Intermediate Mandarin Chinese II
(4-0) Cr. 4. S.
Prereq: CHIN 201
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition.
Meets International Perspectives Requirement.

CHIN 272: Introduction to Chinese Culture
(3-0) Cr. 3. S.
Interdisciplinary introduction to Chinese society and culture from earliest times to the present. Topics include ancient literature, philosophy, religion, art, architecture, customs, transition to a modern society, social changes, urban life, popular culture, and contemporary values and ideas.
Meets International Perspectives Requirement.

CHIN 301: Advanced Mandarin Chinese I
(3-0) Cr. 3. F.
Prereq: CHIN 202 or equivalent
Continuing development of speaking, writing, reading, and listening skills beyond intermediate level. Expansion of cultural literacy through a variety of texts from the humanities, social sciences, mass media and business.
Meets International Perspectives Requirement.

CHIN 302: Advanced Mandarin Chinese II
(3-0) Cr. 3. S.
Prereq: CHIN 301 or equivalent
Continuing development of speaking, writing, reading, and listening skills beyond intermediate level. Expansion of cultural literacy through a variety of texts from the humanities, social sciences, mass media and business.
Meets International Perspectives Requirement.

CHIN 304: Chinese for Global Professionals
(4-0) Cr. 4. S.
Prereq: CHIN 202 or equivalent
Introduction to professional language and culture in China and Chinese-speaking regions in Asia. Development of all four language skills, focusing on practical applications in the professional contexts.
Development of global awareness and cross-cultural understanding.
Preparation for internships.
Meets International Perspectives Requirement.
CHIN 370: Chinese Literature in English Translation
(3-0) Cr. 3. Repeatable. F.
Prereq: ENGL 150 or equivalent
Topics may include traditional prose, poetry, novel and drama; twentieth-century fiction and film. All readings and class discussions in English. Meets International Perspectives Requirement.

CHIN 375: China Today
(3-2) Cr. 3-4. Repeatable. S.
Prereq: ENGL 250 or equivalent
Focusing on contemporary society, culture, literature and the arts. All readings, discussions, and papers in English. Topics vary from year to year.
Meets International Perspectives Requirement.

CHIN 403: Seminar in Chinese Language and Culture
(3-0) Cr. 3.
Prereq: CHIN 302 or equivalent
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.
Meets International Perspectives Requirement.

CHIN 403A: Seminar in Chinese Language and Culture: Translating Contemporary Chinese Texts
(3-0) Cr. 3.
Prereq: CHIN 302
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.
Meets International Perspectives Requirement.

CHIN 403B: Seminar in Chinese Language and Culture: Topics on Business and Professions
(3-0) Cr. 3.
Prereq: CHIN 302 or equivalent
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.
Meets International Perspectives Requirement.

CHIN 403C: Seminar in Chinese Language and Culture: Reading Chinese Texts
(3-0) Cr. 3.
Prereq: CHIN 302 or equivalent
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.
Meets International Perspectives Requirement.

CHIN 490: Independent Study
Cr. 1-6. Repeatable.
Prereq: 6 credits in Chinese and permission of department chair
Designed to meet student needs in areas beyond current course offerings or to accommodate the desire to integrate a study of literature or language with special issues in major fields.

CHIN 499: Internship in Chinese
Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: 9 credits of Chinese at the 300 level; permission of adviser and WLC Internship Coordinator
Work experience using Chinese in the public or private sector, combined with academic work under faculty supervision. Offered on a satisfactory-fail basis only. No more than 3 credits may apply toward the Chinese minor or LCP minor.

Civil Engineering (C E)

Courses primarily for undergraduates:

C E 105: Introduction to the Civil Engineering Profession
(1-0) Cr. 1. F.S.
Overview of the nature and scope of the civil engineering profession. Exploration of the various specialty areas within civil engineering. Bloom's Taxonomy and creativity. Departmental rules, student services operations, degree requirements, educational objectives, program of study planning, career options, and student organizations.

C E 111: Fundamentals of Surveying I
(2-3) Cr. 3. F.S.
Prereq: C E 160, credit or enrollment in ENGR 170 or C E 170, MATH 165
C E 120: Civil Engineering Learning Community  
Cr. R. Repeatable.  
Integration of first-year students into the Civil Engineering program. Assignments and activities involving teamwork, academic preparation, study skills, and preparation for entry into the Civil Engineering profession. Completed both individually and in learning teams under the direction of faculty and peer mentors. Offered on a satisfactory-fail basis only.

C E 160: Engineering Problems with Computational Laboratory  
(2-2) Cr. 3. F.S.  
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165  
Formulation of engineering problems using spreadsheets and Visual Basic for Application for solution. Presenting results using word processing, tables, and graphs. Introduction to engineering economics and statics. Civil engineering examples.

C E 170: Graphics for Civil Engineering  
(0-4) Cr. 2. F.S.  
Fundamental graphics. Introduction to computer aided drafting and modeling. Civil engineering applications.

C E 206: Engineering Economic Analysis and Professional Issues in Civil Engineering  
(3-0) Cr. 3. F.S.  
Prereq: MATH 166, ENGL 250; C E 105; ECON 101 recommended  
Engineering/managerial analysis of the economic aspects of project proposals. Alternative sources of funds; time value of money; expenditure of capital funds and methods of evaluating alternative projects. Professionalism, licensure, liability, ethics, leadership, social responsibility, creative and critical thinking, and applications/impacts of regulations in civil engineering.

C E 306: Project Management for Civil Engineers  
(2-3) Cr. 3. F.S.  
Prereq: ENGL 250, C E 105  
Project management, including work breakdown structures, cost estimating, scheduling, and project control. Civil engineering project life cycle, including planning, design, construction, and maintenance processes. Techniques in interpretation of contract documents, plan reading, and in estimating quantities.

C E 326: Principles of Environmental Engineering  
(2-2) Cr. 3. F.S.  
Prereq: CHEM 177 or CHEM 178, MATH 166, credit or enrollment in E M 378  
Introduction to environmental problems, water quality indicators and requirements, potable water quality and quantity objectives, water sources and treatment methods; water pollution control objectives and treatment methods; survey of solid and hazardous waste management and air pollution control.

C E 332: Structural Analysis I  
(2-2) Cr. 3. F.S.  
Prereq: E M 324  
Loads, shear, moment, and deflected shape diagrams for beams and framed structures. Deformation calculations. Approximate methods. Application of consistent deformation methods to continuous beams and frames. Application of displacement or slope deflection methods to continuous beams and frames without sway. Influence lines for determinate and indeterminate structures. Computer applications to analyze beams and frames. Validation of computer results.

C E 333: Structural Steel Design I  
(3-1) Cr. 3. F.S.  
Prereq: C E 332, E M 327  

C E 334: Reinforced Concrete Design I  
(2-2) Cr. 3. F.S.  
Prereq: C E 332, E M 327  
ACI design methods for structural concrete members. Emphasis on the analysis and design for flexure of singly reinforced and doubly reinforced sections, T-section, one-way slabs, short columns, and isolated footings. Analysis and design for shear, and serviceability. Bond, anchorage, and development of reinforcement.

C E 355: Principles of Transportation Engineering  
(3-0) Cr. 3. F.S.  
Prereq: C E 111  
Introduction to planning, design, and operations of transportation facilities. Road user, vehicle and roadway characteristics. Technological, economic and environmental factors. Asset management, transportation planning, capacity analysis, traffic control, geometric design, traffic safety.
C E 360: Geotechnical Engineering
(2-3) Cr. 3. F.S.
Prereq: E M 324, credit or enrollment in GEOL 201
Introduction to geotechnical engineering and testing. Identification and classification tests, soil water systems, principles of settlement, stresses in soils, and shear strength testing; slope stability, retaining walls, bearing capacity.

C E 372: Engineering Hydrology and Hydraulics
(3-0) Cr. 3. F.S.
Prereq: E M 378, a course in statistics from the approved department list
The hydrologic cycle: precipitation, infiltration, runoff, evapotranspiration, groundwater, and streamflow. Hydrograph analysis, flood routing, frequency analysis and urban hydrology. Applied hydraulics including pipe and channel flow with design applications in culverts, pumping, water distribution, storm and sanitary sewer systems. Design project required.

C E 382: Design of Concretes
(2-3) Cr. 3. F.S.
Prereq: E M 274
Physical and chemical properties of bituminous, portland, and other cements; aggregate properties and blending; mix design and testing of concretes; admixtures, mixing, handling, placing and curing; principles of pavement thickness design.

C E 383: Design of Portland Cement Concrete
(0-2) Cr. 1. F.S.
Prereq: E M 274
For Con E students only. Physical and chemical properties of portland cement and p.c. concrete. Mix design and testing of p.c. concrete. Credit for both C E 382 and C E 383 may not be applied for graduation.

C E 388: Sustainable Engineering and International Development
(Cross-listed with A B E, E E). (2-2) Cr. 3. F.
Prereq: Junior classification in engineering
Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report. Meets International Perspectives Requirement.

C E 395: Global Perspectives in Transportation
Cr. 3. Repeatable, maximum of 2 times. SS.
Prereq: CE 355 or equivalent
Background on historical civil engineering design and construction. Impacts of historical, cultural, social, economic, ethical, environmental, and political conditions on the design and construction of various infrastructure projects outside the United States. Global road safety and intermodal operations. Addressing transportation problems in a large metropolitan area. Meets International Perspectives Requirement.

C E 396: Summer Internship
Cr. R. Repeatable. SS.
Prereq: Permission of department and Engineering Career Services
Summer professional work period. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

C E 398: Cooperative Education (Co-op)
Cr. R. Repeatable. F.S.
Prereq: Permission of department and Engineering Career Services
Professional work period. One semester per academic or calendar year. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

C E 403: Program and Outcome Assessment
Cr. R. F.S.
Prereq: Verification of undergraduate application for graduation by the end of the first week of class. Permission of instructor for students who are scheduled for summer graduation
Assessment of C E Curriculum and educational objectives. Assessments to be reviewed by the CE Department to incorporate potential improvements. Offered on a satisfactory-fail basis only.

C E 417: Land Surveying
(2-3) Cr. 3. S.
Prereq: C E 111
Legal principles affecting the determination of land boundaries, public domain survey systems. Locating sequential and simultaneous conveyances. Record research, plat preparation, and land description. Study of selected court cases.

C E 420: Environmental Engineering Chemistry
(Dual-listed with C E 520). (Cross-listed with ENSCl). (2-3) Cr. 3. F.
Prereq: C E 326, CHEM 178
Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions, and mass transfer principles. Individual laboratory practicals and group projects required.
C E 421: Environmental Biotechnology (Dual-listed with C E 521). (2-2) Cr. 3. F.
Prereq: C E 326
Fundamentals of biochemical and microbial processes applied to environmental engineering processes, role of microorganisms in wastewater treatment and bioremediation, bioenergetics and kinetics, metabolism of xenobiotic compounds, waterborne pathogens and parasites, and disinfection. Term paper and oral presentation.

C E 424: Air Pollution (Dual-listed with C E 524). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 424A: Air Pollution: Air quality and effects of pollutants (Dual-listed with C E 524A). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 424B: Air Pollution: Climate change and causes (Dual-listed with C E 524B). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 424C: Air Pollution: Transportation Air Quality (Dual-listed with C E 524C). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.
Prereq: C E 524A; PHYS 221 or CHEM 178; MATH 166 or 3 credits in statistics. Senior classification or above.

C E 424D: Air Pollution: Off-gas treatment technology (Dual-listed with C E 524D). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.
Prereq: C E 524A, C E 524B; Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above.

C E 424E: Air Pollution: Agricultural sources of pollution (Dual-listed with C E 524E). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

C E 428: Water and Wastewater Treatment Plant Design (2-2) Cr. 3. S.
Prereq: C E 326
Physical, chemical and biological processes for the treatment of water and wastewater including coagulation and flocculation, sedimentation, filtration, adsorption, chemical oxidation/disinfection, fixed film and suspended growth biological processes and sludge management.

C E 440: Bioprocessing and Bioproducts (Dual-listed with C E 540). (Cross-listed with FS HN). (3-0) Cr. 3. F.
Prereq: C E 326 or equivalent, MATH 160 or MATH 165, CHEM 167 or higher, BIOL 173 or BIOL 211 or higher, senior or graduate classification

C E 446: Bridge Design (Dual-listed with C E 546). (2-2) Cr. 3. S., offered odd-numbered years.
Prereq: C E 333, C E 334
Bridge design in structural steel and reinforced concrete. Application of AASHTO Bridge Design Specifications. Analysis techniques for complex structures. Preliminary designs include investigating alternative structural systems and materials. Final designs include preparation of design calculations and sketches.

C E 448: Building Design (Dual-listed with C E 548). (2-2) Cr. 3. S., offered even-numbered years.
Prereq: C E 333, C E 334
C E 449: Structural Health Monitoring
(Dual-listed with C E 549). (Cross-listed with MAT E). (3-0) Cr. 3.
Prereq: Senior classification in Engineering or permission of instructor
Introductory and advanced topics in structural health monitoring (SHM) of aeronautical, civil, and mechanical systems. Topics include sensors, signal processing in time and frequency domains, data acquisition and transmission systems, design of integrated SHM solutions, nondestructive evaluation techniques, feature extraction methods, and cutting-edge research in the field of SHM. Graduate students will have a supervisory role to assist students in 449 and an additional design project or more in-depth analysis and design.

C E 451: Urban Transportation Planning Models
(Dual-listed with C E 551). (3-0) Cr. 3. F.
Prereq: C E 355, STAT 101 or STAT 105
Urban transportation planning context and process. Project planning and programming. Congestion, mitigation, and air quality issues. Transportation data sources. Travel demand and network modeling. Use of popular travel demand software and applications of geographic information systems.

C E 453: Highway Design
(2-2) Cr. 3. F.S.
Prereq: C E 306, C E 355
Introduction to highway planning and design. Design, construction, and maintenance of highway facilities. Level-of-service, stopping sight distance, highway alignment, earthwork and pavement design. Design project, oral reports and written reports. Computer applications.

C E 460: Foundation Engineering
(3-0) Cr. 3. F.S.
Prereq: C E 360

C E 467: Geomaterials Stabilization
(Dual-listed with C E 567). (2-2) Cr. 3. S.
Prereq: C E 360, C E 382 or C E 383
Soil and aggregate physical, chemical and biological stabilization procedures. Stabilization analysis and design. Ground modification and compaction methods. Geosynthetics application and design.

C E 473: Groundwater Hydrology
(Dual-listed with C E 573). (3-0) Cr. 3. F.
Prereq: C E 372

C E 483: Pavement Analysis and Design
(Dual-listed with C E 583). (3-0) Cr. 3. S.
Prereq: C E 360 and C E 382
Analysis, behavior, performance, and structural design of pavement systems. Topics include climate factors, rehabilitation, life cycle design economics, material and system response, pavement foundations and traffic loadings. Development of models for and analysis of pavement systems. Use of transfer functions relating pavement response to pavement performance. Evaluation and application of current and evolving pavement design practices and procedures. Mechanistic-based pavement design techniques and concepts. Analysis of the effects of maintenance activities on pavement performance and economic evaluation of pavement systems.

C E 484: Advanced Design of Concretes
(Dual-listed with C E 584). (2-3) Cr. 3.
Prereq: C E 382
Asphalt binder characterization, fundamentals of asphalt rheology, asphalt materials behavior under loading and temperature effects. High-strength, lightweight, fiber-reinforced, and self-consolidating portland cement concretes, mix design, properties, advanced performance testing. A term project is required for graduate level only.

C E 485: Civil Engineering Design
(2-2) Cr. 3. F.S.
Prereq: C E 206, C E 306, C E 326, C E 333 or C E 334, C E 355, C E 360, C E 372, C E 382, SP CM 212. Course enrollment limited to final graduating semester. The civil engineering design process, interacting with the client, identification of the engineering problems, development of a technical proposal, identification of design criteria, cost estimating, planning and scheduling, codes and standards, development of feasible alternatives, selection of best alternative, and oral presentation.

C E 488: Sustainable Horizontal Civil Infrastructure Systems
(Dual-listed with C E 588). (3-0) Cr. 3. F.
Prereq: Junior or higher classification in engineering or science Sustainable planning, life cycle analysis, appropriate engineering design, and overall rating assessment of horizontal civil infrastructure (i.e., versus 'vertical building') systems, including highway, bridge, airport, rail, and port facilities. Course readings and final project/design report.

C E 489: Pavement Preservation and Rehabilitation
(Dual-listed with C E 589). Cr. 3. F.S.
Prereq: C E 382
Overview of pavement preservation and pavement rehabilitation techniques. Overview and selection of materials used in pavement preservation and rehabilitation strategies. Evaluating suitability of pavement preservation and pavement rehabilitation strategies based on existing structure, pavement distresses and non-condition factors. Use of recycled pavement materials in pavement reconstruction techniques.
C E 490: Independent Study
Cr. 1-3. Repeatable. F.S.S.
Prereq: Permission of instructor
Independent study in any phase of civil engineering. Pre-enrollment contract required. No more than 6 credits of C E 490 may be counted towards engineering topics electives.

C E 490H: Independent Study: Honors
Cr. 1-3. Repeatable. F.S.S.
Prereq: Permission of instructor
Independent study in any phase of civil engineering. Pre-enrollment contract required. No more than 6 credits of C E 490H may be counted towards engineering topics electives.

Courses primarily for graduate students, open to qualified undergraduates:

C E 501: Preconstruction Project Engineering and Management
(3-0) Cr. 3. F.
Prereq: Credit or enrollment in CON E 422 or C E 306 or graduate standing
Application of engineering and management control techniques to construction project development from conceptualization to notice to proceed. Emphasis is on managing complex projects using 5-dimensional project management theory.

C E 502: Construction Project Engineering and Management
(3-0) Cr. 3. S.
Prereq: Credit or enrollment in CON E 422 or C E 594A or permission of instructor
Application of engineering and management control techniques to complex construction projects. Construction project control techniques, stochastic estimating and scheduling, equipment selection and utilization, project administration, construction process simulation, Quality Management, and productivity improvement programs.

C E 503: Construction Finance and Business Management
(3-0) Cr. 3. F.
Prereq: Credit or enrollment in CON E 422 or C E 594A or permission of instructor

C E 505: Design of Construction Systems
(3-0) Cr. 3. S.
Prereq: C E 333, C E 360, CON E 322, CON E 340 or graduate standing
Advanced design of concrete formwork and falsework systems. Design for excavation and marine construction including temporary retaining structures and cofferdams. Aggregate production operations, including blasting, crushing, and conveying systems. Rigging system design.

C E 506: Case Histories in Construction Documents
(3-0) Cr. 3.
Prereq: Graduate standing or permission of instructor
Study of cases involving disputes, claims, and responsibilities encountered by management in construction contract documents. Analysis of methods of resolving differences among the owner, architect, engineer, and construction contractor for a project.

C E 510: Information Technologies for Construction
(3-0) Cr. 3.
Prereq: Graduate standing or permission of instructor
Information technologies including microcomputer based systems, management information systems, automation technologies, computer-aided design, and expert systems and their application in the construction industry. Overview of systems acquisition, communications, and networking.

C E 520: Environmental Engineering Chemistry
(Dual-listed with C E 420). (Cross-listed with ENSCI). (2-3) Cr. 3. F.
Prereq: C E 326, CHEM 178
Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilbria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions, and mass transfer principles. Individual laboratory practicals and group projects required.

C E 521: Environmental Biotechnology
(Dual-listed with C E 421). (Cross-listed with ENSCI). (2-2) Cr. 3. F.
Prereq: C E 326
Fundamentals of biochemical and microbial processes applied to environmental engineering processes, role of microorganisms in wastewater treatment and bioremediation, bioenergetics and kinetics, metabolism of xenobiotic compounds, waterborne pathogens and parasites, and disinfection. Term paper and oral presentation.

C E 522: Water Pollution Control Processes
(Cross-listed with ENSCI). (2-2) Cr. 3.
Prereq: C E 521
Fundamentals of biochemical processes, aerobic growth in a single CSTR, multiple events in complex systems, and techniques for evaluating kinetic parameters; unit processes of activated sludge system, attached growth systems, stabilization and aerated lagoon systems, biosolids digestion and disposal, nutrient removal, and anaerobic treatment systems.
CE 523: Physical-Chemical Treatment Process
(Cross-listed with ENSCI). (2-2) Cr. 3.
Prereq: CE 520
Material and energy balances. Principles and design of physical-chemical unit processes; including screening, coagulation, flocculation, chemical precipitation, sedimentation, filtration, lime softening and stabilization, oxidation, adsorption, membrane processes, ion exchange and disinfection; recovery of resources from residuals and sludges; laboratory exercises and demonstrations; case studies in mineral processing and secondary industries.

CE 524: Air Pollution
(Dual-listed with CE 424). (Cross-listed with ABE, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

CE 524A: Air Pollution: Air quality and effects of pollutants
(Dual-listed with CE 424A). (Cross-listed with ABE, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

CE 524B: Air Pollution: Climate change and causes
(Dual-listed with CE 424B). (Cross-listed with ABE, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

CE 524C: Air Pollution: Transportation Air Quality
(Dual-listed with CE 424C). (Cross-listed with ABE, ENSCI). (1-0) Cr. 1.
Prereq: CE 524A; PHYS 221 or CHEM 178; MATH 166 or 3 credits in statistics. Senior classification or above.

CE 524D: Air Pollution: Off-gas treatment technology
(Dual-listed with CE 424D). (Cross-listed with ABE, ENSCI). (1-0) Cr. 1.
Prereq: CE 524A, CE 524B; Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above

CE 524E: Air Pollution: Agricultural sources of pollution
(Dual-listed with CE 424E). (Cross-listed with ABE, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

CE 528: Solid and Hazardous Waste Management
(Cross-listed with ENSCI). (3-0) Cr. 3.
Prereq: CE 326 or background courses in both environmental chemistry and microbiology; junior or higher standing
Evaluation, characterization, assessment, planning and design of solid and hazardous waste management systems, regulatory requirements, material characterization and collection, minimization and recycling, energy and materials recovery, composting, off-gas treatment, incineration, stabilization, and landfill design. Design of treatment and disposal systems, including physical, chemical, and biological treatment, solidification, incineration, secure landfill design, and final disposal site closure plus restoration.

CE 532: Structural Analysis II
(3-0) Cr. 3. F.
Prereq: CE 332
Analysis of indeterminate structural problems by the consistent deformation and generalized direct displacement methods. Direct stiffness method for 2-D frames, grids, 3-D frames. Special topics for the stiffness method.

CE 533: Structural Steel Design II
(3-0) Cr. 3.
Prereq: CE 333

CE 534: Reinforced Concrete Design II
(2-2) Cr. 3.
Prereq: CE 334

CE 535: Prestressed Concrete Structures
(3-0) Cr. 3.
Prereq: CE 334
Design of prestressed concrete structures, review of hardware, stress calculations, prestress losses, section proportioning, flexural design, shear design, deflections, and statically indeterminate structures.
C E 540: Bioprocessing and Bioproducts
(Dual-listed with C E 440). (Cross-listed with BRT, FS HN). (3-0) Cr. 3. F.
Prereq: C E 326 or equivalent, MATH 160 or MATH 165, CHEM 167 or higher, BIOL 173 or BIOL 211 or higher, senior or graduate classification

C E 541: Dynamic Analysis of Structures
(3-0) Cr. 3.
Prereq: E M 345 and credit or enrollment in C E 532

C E 542: Structural Analysis by Finite Elements
(3-0) Cr. 3.
Prereq: C E 532

C E 545: Seismic Design
(3-0) Cr. 3.
Prereq: C E 333, C E 334

C E 546: Bridge Design
(Dual-listed with C E 446). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: C E 333, C E 334
Bridge design in structural steel and reinforced concrete. Application of AASHO Bridge Design Specifications. Analysis techniques for complex structures. Preliminary designs include investigating alternative structural systems and materials. Final designs include preparation of design calculations and sketches.

C E 547: Analysis and Design of Plate and Slab Structures
(3-0) Cr. 3.
Prereq: C E 334, E M 514, MATH 266
Bending and buckling of thin plate components in structures utilizing classical and energy methods. Analysis of shell roofs by membrane and bending theories.

C E 548: Building Design
(Dual-listed with C E 448). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: C E 333, C E 334

C E 549: Structural Health Monitoring
(Dual-listed with C E 449). (Cross-listed with M S E). (3-0) Cr. 3.
Prereq: Senior classification in Engineering or permission of instructor
Introductory and advanced topics in structural health monitoring (SHM) of aeronautical, civil, and mechanical systems. Topics include sensors, signal processing in time and frequency domains, data acquisition and transmission systems, design of integrated SHM solutions, nondestructive evaluation techniques, feature extraction methods, and cutting-edge research in the field of SHM. Graduate students will have a supervisory role to assist students in 449 and an additional design project or more in-depth analysis and design.

C E 551: Urban Transportation Planning Models
(Dual-listed with C E 451). (3-0) Cr. 3. F.
Prereq: C E 355, STAT 101 or STAT 105
Urban transportation planning context and process. Project planning and programming. Congestion, mitigation, and air quality issues. Transportation data sources. Travel demand and network modeling. Use of popular travel demand software and applications of geographic information systems.

C E 552: Traffic Safety, Operations, and Maintenance
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: C E 355
Engineering aspects of highway traffic safety. Reduction of crash incidence and severity through highway design and traffic control. Accident analysis. Safety in highway design, maintenance, and operation.

C E 553: Traffic Engineering
(3-0) Cr. 3. F.
Prereq: C E 355
Driver, pedestrian, and vehicular characteristics. Traffic characteristics; highway capacity; traffic studies and analyses. Principles of traffic control for improved highway traffic service. Application of appropriate computing software and tools.
C E 556: Transportation Data Analysis  
(3-0) Cr. 3.  
Prereq: C E 355, a Statistics course at the 300 level or higher  
Analysis of transportation data, identification of data sources and limitations. Static and dynamic data elements such as infrastructure characteristics, flow and operations-related data elements. Spatial and temporal extents data for planning, design, operations, and management of transportation systems. Summarizing, analyzing, modeling, and interpreting data. Use of information technologies for highways, transit, and aviation systems.

C E 557: Transportation Systems Analysis  
(3-0) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: C E 355, 3 credits in statistics or probability  
Travel studies and analysis of data. Transportation systems forecasts and analyses. Statewide, regional, and local transportation system planning. Network level systems planning and operations. Optimization of systems.

C E 558: Transportation Systems Development and Management  
(3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: C E 355  
Study of designated problems in traffic engineering, transportation planning, and development. Forecasting and evaluation of social, economic, and environmental impacts of proposed solutions; considerations of alternatives. Formulation of recommendations and publication of a report. Presentation of recommendations in the host community.

C E 559: Transportation Infrastructure/Asset Management  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: C E 355  
Engineering management techniques for maintaining and managing infrastructure assets. Systematic approach to management through value engineering, engineering economics, and life cycle cost analysis. Selection and scheduling of maintenance activities. Analysis of network-wide resource needs. Project level analysis.

C E 560: Fundamentals of Soil Mechanics  
(3-0) Cr. 3.  
Prereq: C E 360  
Nature of soil deposits, seepage, settlement and secondary compression, consolidation theories and analysis, failure theories, stress paths, introduction to critical state soil mechanics, constitutive models, soil strength under various drainage conditions, liquefaction of soil, pore pressure parameters, selection of soil parameters.

C E 561: Applied Foundation Engineering  
(3-0) Cr. 3.  
Prereq: C E 460  
Analysis and design of shallow and deep foundations, lateral earth pressure theories and retaining structures, field investigations, in-situ testing, and foundations on problematic soils. Foundation engineering reports.

C E 562: Site Evaluations for Civil Engineering Projects  
(2-2) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: C E 360  
Identification and mapping of engineering soils from aerial photos, maps, and soil surveys. Planning subsurface investigations, geomaterials prospecting, geotechnical hazards, geomorphology, in situ testing and sampling, geophysical site characterization, instrumentation and monitoring, interpretation of engineering parameter values for design.

C E 563: Experimental Methods in Geo-Engineering  
(2-2) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: C E 360  
Principles of geo-engineering laboratory testing including the conduct, analysis, and interpretation of permeability, consolidation, triaxial, direct and ring shear, and direct simple shear tests. Issues regarding laboratory testing versus field testing and acquisition, transport, storage, and preparation of samples for geotechnical testing. Field and laboratory geotechnical monitoring techniques, including the measurements of deformation, strain, total stress and pore water pressure.

C E 564: Application of Numerical Methods to Geotechnical Design  
(3-0) Cr. 3.  
Prereq: C E 560  
Application of numerical methods to analysis and design of foundations, underground structures, and soil-structure interaction. Application of slope stability software. Layered soils, bearing capacity and settlement for complex geometries, wave equation for piles, and foundation vibrations.

C E 565: Fundamentals of Geomaterials Behavior  
(2-3) Cr. 3. S.  
Prereq: C E 382  
Atoms and molecules, crystal chemistry, clay minerals, structure of solids, phase transformations and phase equilibria. Surfaces and interfacial phenomena, colloid chemistry, mechanical properties. Applications to soils and civil engineering materials. Overview of state-of-the-art instrumental techniques for analysis of the physicochemical properties of soils and civil engineering materials.
C E 567: Geomaterials Stabilization
(Dual-listed with C E 467). (2-2) Cr. 3. S.
Prereq: C E 360, C E 382 or C E 383
Soil and aggregate physical, chemical and biological stabilization procedures. Stabilization analysis and design. Ground modification and compaction methods. Geosynthetics application and design.

C E 568: Dynamics of Soils and Foundations
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: C E 360, E M 345

C E 569: Ground Improvement
(3-0) Cr. 3.
Prereq: C E 360
Classification of ground improvement methods. Dynamic compaction, vibrocompaction, preloading using fill surcharge, vacuum or a combination of both and prefabricated vertical drains, vibro replacement or stone columns, dynamic replacement, sand compaction piles, geotextile confined columns, rigid inclusion, column supported embankment, microbial methods, particulate and chemical grouting, lime and cement columns, jet grouting, and deep cement mixing.

C E 570: Applied Hydraulic Design
(2-2) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: C E 372
Flow characteristics in natural and constructed channels; principles of hydraulic design of culverts, bridge waterway openings, spillways, hydraulic gates and gated structures, pumping stations, and miscellaneous water control structures; pipe networks, mathematical modeling. Design project.

C E 571: Surface Water Hydrology
(Cross-listed with ENSCI). (3-0) Cr. 3. S.
Prereq: C E 372
Analysis of hydrologic data including precipitation, infiltration, evapotranspiration, direct runoff and streamflow; theory and use of frequency analysis; theory of streamflow and reservoir routing; use of deterministic and statistical hydrologic models. Fundamentals of surface water quality modeling, point and non-point sources of contamination.

C E 572: Analysis and Modeling Aquatic Environments
(Cross-listed with ENSCI). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: C E 372
Principles of surface water flows and mixing. Introduction to hydrologic transport and water quality simulation in natural water systems. Advection, diffusion and dispersion, chemical and biologic kinetics, and water quality dynamics. Applications to temperature, dissolved oxygen, primary productivity, and other water quality problems in rivers, lakes and reservoirs. Deterministic vs. stochastic models.

C E 573: Groundwater Hydrology
(Dual-listed with C E 473). (3-0) Cr. 3. F.
Prereq: C E 372

C E 576: Environmental Flows
(3-0) Cr. 3.
Prereq: E M 378 or equivalent
Analysis and applications of flows in civil engineering, environmental engineering, and water resources. Primary topics include conservation laws, laminar flow, turbulence, mixing, diffusion, dispersion, water waves, and boundary layers. Associated applications include particle settling, transfer at air-water and water-sediment boundaries, flow and friction in pipes and open channels, contaminant transport, waves in lakes, jets, plumes, and salt wedges.

C E 581: Geotechnical and Materials Engineering Seminar
Cr. R. Repeatable.
Prereq: Graduate classification
(1-0) Students and outside/invited speakers give weekly presentations about the ongoing research work and Geotechnical and Materials Engineering issues. Offered on a satisfactory-fail basis only.

C E 583: Pavement Analysis and Design
(Dual-listed with C E 483). (3-0) Cr. 3. S.
Prereq: C E 360 and C E 382
Analysis, behavior, performance, and structural design of pavement systems. Topics include climate factors, rehabilitation, life cycle design economics, material and system response, pavement foundations and traffic loadings. Development of models for and analysis of pavement systems. Use of transfer functions relating pavement response to pavement performance. Evaluation and application of current and evolving pavement design practices and procedures. Mechanistic-based pavement design techniques and concepts. Analysis of the effects of maintenance activities on pavement performance and economic evaluation of pavement systems.
C E 584: Advanced Design of Concretes
(Dual-listed with C E 484). (2-3) Cr. 3.
Prereq: C E 382
Asphalt binder characterization, fundamentals of asphalt rheology, asphalt materials behavior under loading and temperature effects. High-strength, lightweight, fiber-reinforced, and self-consolidating portland cement concretes, mix design, properties, advanced performance testing. A term project is required for graduate level only.

C E 586: Advanced Asphalt Materials
(2-3) Cr. 3.
Prereq: C E 382

C E 587: Advanced Portland Cement Concretes
(2-3) Cr. 3.
Prereq: C E 382 or C E 383
Hydraulic cements, aggregates, admixtures, and concrete mix design; cement hydration and microstructure development; fresh, early-age, and mechanical properties of concrete; concrete distress examination, damage mechanism, and prevention.

C E 588: Sustainable Horizontal Civil Infrastructure Systems
(Dual-listed with C E 488). (3-0) Cr. 3. F.
Prereq: Junior or higher classification in engineering or science
Sustainable planning, life cycle analysis, appropriate engineering design, and overall rating assessment of horizontal civil infrastructure (i.e., versus ‘vertical building’) systems, including highway, bridge, airport, rail, and port facilities. Course readings and final project/design report.

C E 589: Pavement Preservation and Rehabilitation
(Dual-listed with C E 489). Cr. 3. F.S.
Prereq: C E 382
Overview of pavement preservation and pavement rehabilitation techniques. Overview and selection of materials used in pavement preservation and rehabilitation strategies. Evaluating suitability of pavement preservation and pavement rehabilitation strategies based on existing structure, pavement distresses and non-condition factors. Use of recycled pavement materials in pavement reconstruction techniques.

C E 590: Special Topics
Cr. 1-5. Repeatable. F.S.S.
Pre-enrollment contract required.

C E 591: Seminar in Environmental Engineering
Cr. R. Repeatable. F.S.
Prereq: Graduate classification
(1-0) Contemporary environmental engineering issues. Outside speakers. Review of ongoing research in environmental engineering. Offered on a satisfactory-fail basis only.

C E 594: Special Topics in Construction Engineering and Management
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:

C E 594A: Special Topics Construction Engineering and Mgt.: Planning and Scheduling
Cr. 3. F.
Prereq: C E 306 or graduate standing
Studies in planning and scheduling including scheduling and estimating.

C E 594B: Special Topics Construction Engineering and Mgt.: Computer Applications for Planning and Scheduling
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in computer applications for planning and scheduling.

C E 594C: Special Topics Construction Engineering and Mgt.: Cost Estimating
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in cost estimating.

C E 594D: Special Topics Construction Engineering and Mgt.: Computer Applications for Cost Estimating
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in computer applications for cost estimating.

C E 594E: Special Topics Construction Engineering and Mgt.: Project Controls
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in project controls.

C E 594F: Special Topics Construction Engineering and Mgt.: Computer Applications for Project Controls
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in computer applications for project controls.
C E 594G: Special Topics Construction Engr and Mgt: Integration of Planning, Scheduling and Project Controls
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in integration of planning, scheduling and project controls.

C E 594J: Special Topics Construction Engineering and Mgt.: Trenchless Technologies
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in trenchless technologies.

C E 594K: Special Topics Construction Engineering and Mgt.: Electrical and Mechanical Construction
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in electrical and mechanical construction.

C E 594L: Special Topics Construction Engineering and Mgt.: Advanced Building Construction Topics
Cr. 3. SS.
Prereq: CON E 352 or C E 306 or graduate standing or permission of instructor
Studies in advanced building construction topics including LEED.

C E 594M: Special Topics Construction Engineering and Mgt.: Design Build Construction
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in design build construction.

C E 594N: Special Topics Construction Engineering and Mgt.: Industrial Construction
Cr. 3.
Prereq: Graduate standing or permission of instructor
Studies in industrial construction.

C E 594O: Special Topics Construction Engineering and Mgt.: Highway and Heavy Construction
Cr. 3.
Prereq: CON E 322 or C E 306 or graduate standing
Studies in highway and heavy construction.

C E 594P: Special Topics Construction Engineering and Mgt.: Advanced Technologies
Cr. 3.
Prereq: CON E 352 or graduate standing or permission of instructor
Studies in advanced technologies including building energy modeling.

C E 594Q: Special Topics Construction Engineering and Mgt.: Construction Quality Control
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in construction quality control.

C E 594R: Special Topics Construction Engineering and Mgt.: Risk Management
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in risk management.

C E 594S: Special Topics Construction Engineering and Mgt.: Building Information Modeling
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Studies in building information modeling.

C E 595: Research Methods in Construction Engineering and Management
(1-0) Cr. 1.
Prereq: Graduate standing or permission of instructor
Assigned readings and reports on research methods to solve construction engineering and management problems such as alternative project delivery methods, asset management, data mining, construction procurement, robotics, project controls, automation, construction visualization, etc. Identification of research methods and priorities, selection and development of research design, and critique of research in construction engineering and management.

C E 595A: Research Methods Seminar in Construction Engineering and Management: Qualitative Methods
(1-0) Cr. 1.
Prereq: Graduate standing or permission of instructor
Assigned readings and reports on research methods to assess and solve qualitative construction engineering and management problems.

C E 595B: Research Methods Seminar in Construction Engineering and Management: Quantitative Methods
(1-0) Cr. 1.
Prereq: Graduate standing or permission of instructor
Assigned readings and reports on research methods to assess and solve quantitative construction engineering and management problems.
C E 595C: Research Methods Seminar in Construction Engineering and Management: Technical Reporting
(1-0) Cr. 1.
Prereq: Graduate standing or permission of instructor
Assigned readings and reports on research methods for planning and preparation of technical reports with construction engineering and management projects.

C E 596: Special Topics in Transportation Engineering
Cr. arr. Repeatable.
Prereq: C E 355

C E 596B: Special Topics in Transportation Engineering: Geographic Information Systems in Transportation
Cr. arr. Repeatable.
Prereq: C E 355

C E 596C: Special Topics in Transportation Engineering: Hazardous Materials Transportation
Cr. arr. Repeatable.
Prereq: C E 355

C E 596D: Special Topics in Transportation Engineering: Transportation and Public Works
Cr. arr. Repeatable.
Prereq: C E 355

C E 596E: Special Topics in Transportation Engineering: Sustainable Transportation
Cr. arr. Repeatable.
Prereq: C E 355

C E 596F: Special Topics in Transportation Engineering: Freight Transportation
Cr. arr. Repeatable.
Prereq: C E 355

C E 599: Creative Component
Cr. 1-3. Repeatable.
Pre-enrollment contract required. Advanced topic for creative component report in lieu of thesis.

Courses for graduate students:

C E 622: Advanced Topics in Environmental Engineering
(2-0) Cr. 2. Repeatable.
Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering. Emphasis for a particular offering will be selected from the following topics:

C E 622A: Advanced Topics in Environmental Engineering: Water Pollution Control
(2-0) Cr. 2. Repeatable.
Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering. Emphasis for a particular offering will be selected from the following topics:

C E 622B: Advanced Topics in Environmental Engineering: Water Treatment
(2-0) Cr. 2. Repeatable.
Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering. Emphasis for a particular offering will be selected from the following topics:

C E 622C: Advanced Topics in Environmental Engineering: Solid and Hazardous Waste
(2-0) Cr. 2. Repeatable.
Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering. Emphasis for a particular offering will be selected from the following topics:

C E 622D: Advanced Topics in Environmental Engineering: Water Resources
(2-0) Cr. 2. Repeatable.
Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering. Emphasis for a particular offering will be selected from the following topics:

C E 622E: Advanced Topics in Environmental Engineering: Instrumental Methods for Environmental Analyses
(2-0) Cr. 2. Repeatable.
Prereq: Permission of environmental engineering graduate faculty
Advanced concepts in environmental engineering.

C E 650: Advanced Topics in Transportation Engineering
(3-0) Cr. 3. Repeatable.
Prereq: Permission of Transportation Engineering graduate faculty

C E 650A: Advanced Topics in Transportation Engineering: Highway Design
(3-0) Cr. 3. Repeatable.
Prereq: Permission of Transportation Engineering graduate faculty

C E 650B: Advanced Topics in Transportation Engineering: Traffic Operations
(3-0) Cr. 3. Repeatable.
Prereq: Permission of Transportation Engineering graduate faculty
C E 650C: Advanced Topics in Transportation Engineering: Data Analysis  
(3-0) Cr. 3. Repeatable.  
Prereq: Permission of Transportation Engineering graduate faculty  
Topics in transportation engineering related to data analysis.

C E 690: Advanced Topics  
Cr. 1-3. Repeatable. F.S.S.  
Pre-enrollment contract required.

C E 697: Engineering Internship  
Cr. R. Repeatable.  
Prereq: Permission of coop advisor, graduate classification  
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

C E 699: Research  
Cr. 1-30. Repeatable.  
Prereq: Pre-enrollment contract required  

Classical Studies (CL ST)  
Courses primarily for undergraduates:

CL ST 273: Greek and Roman Mythology  
(3-0) Cr. 3.  
Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories.  
Meets International Perspectives Requirement.

CL ST 273H: Greek and Roman Mythology: Honors  
(4-0) Cr. 4.  
Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories.  
Meets International Perspectives Requirement.

CL ST 275: The Ancient City  
(3-0) Cr. 3.  
Examination of ancient urban life, including historical context, physical space, material culture, religion, literature, and art; examination of civic identity (the "polis"). Contrast between the concepts of urban and rural. Examples drawn from specific ancient cities; some attention to modern methods of recovering the conditions of ancient urban life and the fundamental concept of the city in European history.  
Meets International Perspectives Requirement.

CL ST 304: Cultural Heritage of the Ancient World  
(Cross-listed with HIST). (3-0) Cr. 3.  
Prereq: Sophomore classification  
Historical examination of art, literature, thought, and religious beliefs of major civilizations of the ancient Mediterranean countries until the end of the 8th century.

CL ST 310: Ancient Philosophy  
(Cross-listed with PHIL). (3-0) Cr. 3. F.  
Prereq: PHIL 201  
Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth.

CL ST 350: Rhetorical Traditions  
(Cross-listed with ENGL, SP CM). (3-0) Cr. 3. S.  
Prereq: ENGL 250  
Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

CL ST 353: World Literature: Western Foundations through Renaissance  
(Cross-listed with ENGL). (3-0) Cr. 3. F.S.  
Prereq: ENGL 250  
Representative works from the drama, epics, poetry, and prose of the Ancient World through the late sixteenth century. May include Homer, Aeschylus, Sappho, Catullus, Dante, Marie de France, Boccaccio, Christine de Pizan, Cervantes, and others.  
Meets International Perspectives Requirement.

CL ST 367: Christianity in the Roman Empire  
(Cross-listed with RELIG). (3-0) Cr. 3.  
An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries.

CL ST 368: Religions of Ancient Greece and Rome  
(Cross-listed with RELIG). Cr. 3. S.  
Nature, origins and development of religious beliefs and practices in ancient Greece and Rome from earliest times up to the rise of Christianity. Roles of divinities and rituals in lives of individuals and families and the governing of city-states and empires. Emphasis on historical contexts of the Graeco-Roman world and influences of neighboring cultures in Africa and Asia. None.  
Meets International Perspectives Requirement.
CL ST 372: Greek and Roman Tragedy and Comedy  
(3-0) Cr. 3.  
Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250  
Greek and Roman drama from the beginnings until today. Readings in English from authors such as Aeschylus, Sophocles, Euripides, Aristophanes, Menander, Plautus, Terence, Seneca. Course may cover performance, theories of comedy and tragedy, recent and current expressions of the comic and tragic in film and other media.  
Meets International Perspectives Requirement.

CL ST 372H: Greek and Roman Tragedy and Comedy: Honors  
(4-0) Cr. 4.  
Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250  
Greek and Roman drama from the beginnings until today. Readings in English from authors such as Aeschylus, Sophocles, Euripides, Aristophanes, Menander, Plautus, Terence, Seneca. Course may cover performance, theories of comedy and tragedy, recent and current expressions of the comic and tragic in film and other media.  
Meets International Perspectives Requirement.

CL ST 373: Heroes of Greece, Rome, and Today  
(3-0) Cr. 3.  
Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250.  
Cultural and political significance of ancient epic, especially in Greece and Rome. Course may include study of the heroic code in antiquity and its modern expressions including in film. Readings in English from authors such as Homer and Vergil.  
Meets International Perspectives Requirement.

CL ST 373H: Heroes of Greece, Rome, and Today: Honors  
(4-0) Cr. 4.  
Prereq: CL ST 273 or CL ST 275 or one course in Latin or Greek or ENGL 250.  
Cultural and political significance of ancient epic, especially in Greece and Rome. Course may include study of the heroic code in antiquity and its modern expressions including in film. Readings in English from authors such as Homer and Vergil.  
Meets International Perspectives Requirement.

CL ST 374: Sex, Gender, and Culture in the Ancient Mediterranean World  
(Cross-listed with HIST, WGS). (3-0) Cr. 3.  
Prereq: Any one course in Cl St, W S, Latin, or Greek  
Chronological and topical survey of the status of women and men, focusing on sex and gender issues in the Ancient Mediterranean world; study of constructs of the female and the feminine. Readings from ancient and modern sources. Emphasis on ancient Greece, Rome, and Egypt.  
Meets International Perspectives Requirement.

CL ST 376: Classical Archaeology  
(Cross-listed with ANTHR). (3-0) Cr. 3.  
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.  
Meets International Perspectives Requirement.

CL ST 376A: Classical Archeology: Bronze Age and Early Iron Age Greece  
(Cross-listed with ANTHR). (3-0) Cr. 3.  
Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece. (ca 3000-700 BCE). Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.  
Meets International Perspectives Requirement.

CL ST 376B: Classical Archeology: Archaic through Hellenistic Greece (ca 700-30 BCE)  
(Cross-listed with ANTHR). (3-0) Cr. 3.  
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.  
Meets International Perspectives Requirement.

CL ST 376C: Classical Archaeology: Roman Archaeology (ca 1000 BCE-400 CE)  
(Cross-listed with ANTHR). (3-0) Cr. 3.  
Chronological survey of the material culture of the ancient Roman world and the role of archaeological context in understanding the varied aspects of ancient Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.  
Meets International Perspectives Requirement.

CL ST 383: Greek and Roman Art  
(Cross-listed with ART H). (3-0) Cr. 3.  
Greek art from Neolithic to Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.  

CL ST 383H: Greek and Roman Art: Honors  
(Cross-listed with ART H). (3-0) Cr. 3-4.  
Greek art from Neolithic to Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.
CL ST 384: Roman Italy: An Introduction
(Cross-listed with HIST). Cr. 2. Repeatable, maximum of 4 credits.
Prereq: Enrollment limited to students participating in CL ST 385/HIST 385.
Instructor permission required.
Introduction to the topography, history, archaeology, monuments, and art of Rome from the Regal period through late Antiquity; attention given to the culture of modern Italy, preparatory to study abroad in Rome.
Meets International Perspectives Requirement.

CL ST 385: Study Abroad: Roman Italy: Building the Empire
(Cross-listed with HIST). Cr. 3. Repeatable, maximum of 6 credits.
Prereq: CL ST 384/HIST 384 and instructor’s permission.
Supervised on-site instruction in the history, archaeology, monuments, and art of Rome and environs from the 8th center BCE to the 5th century CE; attention given to the culture of modern Italy.
Meets International Perspectives Requirement.

CL ST 394: The Archaeology of Greece: An Introduction
(2-0) Cr. 2. Repeatable, maximum of 4 credits. S.
Introduction to the topography, history, archaeology, monuments and art of Greece from the Bronze Age through the Ottoman period; attention given to the culture of modern Greece, preparatory to study abroad in Greece (CL ST 395).
Meets International Perspectives Requirement.

CL ST 395: Study Abroad: The Archaeology of Greece
Cr. 2-6. Repeatable, maximum of 9 credits. SS.
Prereq: CL ST 394
Supervised on-site instruction in the archaeology, monuments, and art of Greece from the Bronze Age through the Ottoman period; attention given to the culture of modern Greece.
Meets International Perspectives Requirement.

CL ST 402: Greek Civilization.
(Cross-listed with HIST). (3-0) Cr. 3.
Prereq: Sophomore classification
Ancient Greece from the Bronze Age to the Hellenistic period; evolution of the Greek polis and its cultural contributions with a particular emphasis on the writings of Herodotus and Thucydides.

CL ST 403: Roman Civilization.
(Cross-listed with HIST). (3-0) Cr. 3.
Prereq: Sophomore classification
Ancient Rome from the Regal Period to the Fall of the Western Empire; evolution of Roman institutions and Rome’s cultural contributions studied through original sources.

CL ST 430: Foundations of Western Political Thought
(Dual-listed with CL ST 530). (Cross-listed with POL S). (3-0) Cr. 3.
Prereq: 6 credits in political science, philosophy, or European history
Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law.

CL ST 480: Seminar in Classical Studies
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: 30 credits in Classical Studies or related courses, permission of Program Chair
Advanced study of a selected topic in Classical Studies. Research paper or project selected by the student.

CL ST 490: Independent Study
Cr. 1-6. Repeatable, maximum of 9 credits.
Prereq: 7 credits in classical studies at the 200 level or higher; permission of the Program Chair
Designed to meet the needs of students who wish to study specific topics in classical civilization in areas where courses are not offered, or to pursue such study beyond the limits of existing courses.

Courses primarily for graduate students, open to qualified undergraduates:

CL ST 512: Proseminar in European History
(3-0) Cr. 3.
Prereq: Permission of instructor.
Readings in European history.

CL ST 512A: Readings Seminar in European History: Ancient
(Cross-listed with HIST). (3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Readings in European history.

CL ST 530: Foundations of Western Political Thought
(Dual-listed with CL ST 430). (Cross-listed with POL S). (3-0) Cr. 3.
Prereq: 6 credits in political science, philosophy, or European history
Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law.

CL ST 594: Seminar in European History
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Topics vary each time offered.
Communication Disorders (CMDIS)

Courses primarily for undergraduates:

CMDIS 275: Introduction to Communication Disorders
(Cross-listed with LING). (3-0) Cr. 3.
Survey of nature, causes, and types of major communication disorders including phonological, adult and child language, voice, cleft palate, fluency, and hearing disorders.

CMDIS 286: Communicating with the Deaf
(Cross-listed with LING). (3-0) Cr. 3.
Learn to communicate with the deaf using Signed English and Signed Pidgin English. Other topics covered include types, causes, and consequences of hearing loss, hearing technology (hearing aids, assistive listening devices, and cochlear implants), education of hearing-impaired children, Deaf culture, and the history of manual communication. Meets U.S. Diversity Requirement

CMDIS 371: Phonetics and Phonology
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: ENGL 219
Terminology, theory, research, and applications of the science of the sounds of spoken language. Emphasis on American English and International Phonetic Alphabet.

CMDIS 471: Language and Reading Development in Children
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: CMDIS 275 or PSYCH 230 or ENGL 219 or LING 219
Development of spoken language, reading and writing covering semantics, syntax, morphology, phonology, and pragmatics.

CMDIS 480: Topics in Communication Disorders
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: CMDIS/LING 275, CMDIS/LING 371, and BIOL 255; permission of instructor.
Guided examination of topics in preparation for graduate work in Speech-Language Pathology or Audiology. Primary course delivery by WWW.

CMDIS 480A: Topics in Communication Disorders: Anatomy and Physiology of Speech and Hearing
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: CMDIS/LING 275, CMDIS/LING 371, and BIOL 255; permission of instructor.
Structures and functions of respiratory, phonatory, articulatory, auditory, and nervous systems as they relate to speaking and listening.

CMDIS 480B: Topics in Communication Disorders: Articulation and Phonological Disorders
(Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: CMDIS/LING 275, CMDIS/LING 371, and BIOL 255; permission of instructor.
Children's acquisition of English speech sounds. Assessment and management of speech sound disorders in children and adults.

CMDIS 480C: Topics in Communication Disorders: Evaluation and diagnosis of communication disorders
(Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: CMDIS/LING 275, CMDIS/LING 371, and BIOL 255; permission of instructor.
Assessment and diagnosis of speech, language, and swallowing disorders. Preparation of clinical reports based on assessment data.

CMDIS 492: Fieldwork in Communication Disorders
(Cross-listed with LING). Cr. 1-2. Repeatable, maximum of 6 credits. F.S.S.
Prereq: CMDIS/LING 371;471; completion or concurrent enrollment in CMDIS/LING 480A or 480B or 480C
Guided observation of clinical evaluation and treatment in Communication Disorders on campus and in the community. Assessed service learning component.

Communication Studies (COMST)

Courses primarily for undergraduates:

COMST 101: Introduction to Communication Studies
(3-0) Cr. 3.
An introduction to communication theory, the development and functions of communication, and a survey of verbal, nonverbal, interpersonal, small group, organizational, and intercultural communication.

COMST 101L: Introduction to Communication Studies: Laboratory
(0-2) Cr. 1.
Prereq: Concurrent enrollment in COMST 101.
Laboratory component of COMST 101. Skill building, experiential activities, and in-depth discussions relevant to the study of communication.

COMST 102: Introduction to Interpersonal Communication
(3-0) Cr. 3.
Application of communication principles, theory, and research to the process of interpersonal communication; includes verbal and nonverbal communication, listening, and conflict management. Particular emphasis given to using communication to manage interpersonal relationships.
COMST 104: Orientation to Communication Studies  
(1-0) Cr. 1.  
Prereq: Available only for Communication Studies majors  
Orientation to Communication Studies discipline, program requirements and career opportunities. Required of communication studies majors. Offered on a satisfactory-fail basis only.

COMST 203: Introduction to Communication Research Methods  
(3-0) Cr. 3.  
Prereq: COMST 101  
An introduction to analyzing and conducting communication research. Provides an overview of quantitative and qualitative approaches to communication research.

COMST 210: Communication and U.S. Diversity  
(3-0) Cr. 3. F.S.S.  
Introduction to the role of diversity in communication. Developing competent communication with diverse social groups within interpersonal and organizational contexts in the United States. Topics may include structured reflection of one’s role in diverse communication experiences, cultural variations in communication mores, impacts of racial/ethnic/gender identities on communication, workplace policies regarding cultural diversity, the intersection of communication and cultural privilege, communication practices that can reduce prejudice/discrimination, and communication characteristics of advocates for diversity.  
Meets U.S. Diversity Requirement

COMST 214: Professional Communication  
(3-0) Cr. 3.  
Communication theory and skill development in organizational settings. Emphasis on interpersonal skill development, team and meeting facilitation, informational interviewing, individual and team presentations, and self-assessment.

COMST 218: Conflict Management  
(3-0) Cr. 3.  
Exploration of communication theories, principles and methods associated with effective conflict management.

COMST 301: Human Communication Theory  
(3-0) Cr. 3.  
Prereq: COMST 101  
Examination of the major theories related to human communication; with particular emphasis on theories underlying interpersonal, small group, organizational, and intercultural communication.

COMST 310: Intercultural Communication  
(3-0) Cr. 3.  
Prereq: COMST 102, COMST 203, COMST 301  
Examines the theories, principles and research on intercultural communication to enhance cultural sensitivity and to recognize, accept, and adapt to cultural diversity. Interactive assignments. Meets International Perspectives Requirement.

COMST 311: Studies in Interpersonal Communication  
(3-0) Cr. 3.  
Prereq: COMST 102, COMST 203, COMST 301  
This class focuses on studies of contemporary interpersonal communication concepts and theories. Emphasis on research that examines issues central to communication in interpersonal relationships.

COMST 313: Leadership Communication Theories  
(3-0) Cr. 3. F.S.  
Prereq: COMST 102, COMST 203, COMST 301  
Investigation of theories, research and principles of leadership communication. Exploration of the contexts in which leadership and communication occurs, with emphasis on the connection between communication and leadership and the dyadic linkage of leader and follower.

COMST 314: Organizational Communication  
(3-0) Cr. 3.  
Prereq: COMST 102, COMST 203, COMST 301  
Theory and research in organizational communication. Provides strategies for assessing and improving individual and organizational communication effectiveness. Addresses issues such as technology, diversity, work-life negotiation, emotional labor, conflict, socialization, and socially responsible organizations. Explores how organizational meaning is created and sustained through human communication.

COMST 317: Small Group Communication  
(3-0) Cr. 3.  
Prereq: COMST 102, COMST 203, COMST 301  
Theory and research in small group communication; application to group decision-making and leadership. Includes communication analyses of groups and teams.

COMST 319: Communication Training and Development  
(3-0) Cr. 3.  
Prereq: COMST 102, COMST 203, COMST 301  
Theories and approaches to communication training and development; includes adult learning theory. Emphasis on the design, presentation and assessment of communication skills in organizational contexts.
COMST 325: Nonverbal Communication
(3-0) Cr. 3.
Prereq: COMST 102, COMST 203, COMST 301
Approaches to studying nonverbal communication. Foci include topics such as emotion, gestures, gaze, use of space, and parsing intention in social interaction.

COMST 330: Computer Mediated Communication
(3-0) Cr. 3.
Prereq: COMST 102, COMST 203, COMST 301
Theories and approaches related to mediated communication in interpersonal and organizational settings. Focus on how new technology impacts human interaction and relationships.

COMST 384: Applied Organizational Communication
(3-0) Cr. 3.
Prereq: COMST 101, COMST 102 or equivalent course.
Theory and research of micro-level organizational communication, including interpersonal and small group interactions taking place in a professional setting. Topics include interpersonal dynamics in such areas as conflict, generational communication, negotiation, superior/subordinate communication, external communication, and virtual communication. Not available for major credit.

COMST 404: Research Seminar
(Dual-listed with COMST 504). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: COMST 301 plus 3 additional communication studies classes from the following list: COMST 310, COMST 311, COMST 313, COMST 314, COMST 317, COMST 319, COMST 325, or COMST 330.
Capstone communication studies course. Students develop an original research study linked to the study of communication. Data are collected and analyzed. Results are presented in a final research paper and a presentation.

COMST 450: Special Topics in Communication Studies
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.
Research and theory related to special topics and issues in communication studies.

COMST 490: Independent Study
Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: 9 credits in communication studies and junior classification
Application must be submitted for approval the semester prior to the independent study.

COMST 491: Research Practicum
Cr. arr. Repeatable, maximum of 6 credits. F.S.SS.
Prereq: COMST 203, COMST 301 plus permission of instructor.
Providing research assistance on projects conducted by Communication Studies faculty.

COMST 497: Professional Internship
Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: 12 hours in Communication Studies including COMST 203, COMST 301, and one other 300-level COMST class. Junior Classification. Application required.
100 hours of on-site professional work per credit hour plus completion of the academic requirement set by the internship committee. Application should be submitted in the term prior to the term in which the internship will be served. Internship cannot be used to meet degree requirement in Communication Studies.

Courses primarily for graduate students, open to qualified undergraduates:

COMST 504: Research Seminar
(Dual-listed with COMST 404). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: COMST 301 plus 3 additional communication studies classes from the following list: COMST 310, COMST 311, COMST 313, COMST 314, COMST 317, COMST 319, COMST 325, or COMST 330.
Capstone communication studies course. Students develop an original research study linked to the study of communication. Data are collected and analyzed. Results are presented in a final research paper and a presentation.

COMST 590: Special Topics
Cr. 1-4. Repeatable.
Application must be submitted for approval the semester prior to the independent study.

Community Development (C DEV)

Courses primarily for graduate students, open to qualified undergraduates:

C DEV 502: Community and Natural Resource Management
(3-0) Cr. 3.
Detailed introduction to community resource management. Theoretical frameworks, methodological investigation, applied practices. Enhancement of ability of community development professionals to work with communities to plan, develop and monitor conversation and development of natural resources with multiple functions.
C DEV 503: Community Development I: Principles and Strategies of Community Change
(3-0) Cr. 3.
Analysis of principles and practices of community change and development. Use of case studies to relate community development approaches to conceptual models from diverse disciplines. Exploration of professional practice principles, and student construction of their personal framework for practicing community development.

C DEV 504: Community Analysis: Introduction to Methods
(3-0) Cr. 3.
Introduction to research methods relevant to community development. Formulate and begin a research effort, methods of data collection and how conceptual frameworks are used to develop the questions and analyze data. Emphasis on strategies for reporting findings and applying findings in community action and methods of evaluating the entire research process. Significant attention paid to issues of research ethics and inclusiveness.

C DEV 505: Community Development II: Organizing for Community Change
(3-0) Cr. 3.
Examines role of civil society in community planning efforts. Comparative approach to planning theories and approaches. Focus on change within communities and the roles of government, planners, and citizens in reacting to or shaping change. Dimensions of social capital and the context of change covered.

C DEV 506: Community and Regional Economic Analysis I
(3-0) Cr. 3.
Introduction to concepts of communities and regions, theories of economic growth, drivers of economic growth, the economic base of a community, sources of growth or decline in the community, roles of local government and institutions, and analytical tools. Strategies for local economic development will also be explored.

C DEV 507: Introduction to Native Communities
(3-0) Cr. 3.
A base knowledge course. For students currently working within, in partnership with, or considering working with Native communities. Basic understanding within the context of community development of the diversity of the tribal structures and cultures and the unique history and jurisdictional considerations of these nations. Working with tribes, Federal and Indian relations, and governance and cultural issues.

C DEV 508: Ecological Economics
(3-0) Cr. 3.
Approaches economy and community by looking at the inherent interdependence, jointness, and potential complimentarity between ecology and economy (utility) of a place.

C DEV 509: Building Native Community and Economic Capacity
(3-0) Cr. 3.
Focus on non-western approaches to helping Native communities build their capacity. Students will learn to take a participatory, culture-centered, and strength-based approach to development.

C DEV 510: Indian Country Agriculture and Natural Resources
(3-0) Cr. 3.
Introduction to the historical and contemporary issues related to natural resource management on Native American lands. Philosophical and economic arguments concerning natural resource conservation, preservation and extraction will be explored.

C DEV 512: Sustainable Communities
(3-0) Cr. 3.
Students will learn the conceptual relationships among Community and Sustainable Development and Sustainable Communities and examine the social, environmental, and economic aspects of sustainable communities. The course includes analysis of public policy impacts on community sustainability, practical actions for enhancing sustainability, and changing power dynamics and reward structures involved in incorporating sustainability into Community Development.

C DEV 513: Economic Development Strategies and Programs
(3-0) Cr. 3.
Course explores theories of local economic development and addresses the development issues faced by communities in the 21st century. Students will understand and apply concepts from economic development planning, economic analysis, business development, human resource development, community-based development, and high-technology development.

C DEV 520: Community Development Orientation
(2-0) Cr. 2.
Introduction to the Community Development program. Focus on on-line delivery methods, graduate level research and writing, technology skills.

C DEV 521: Housing and Development
Cr. 3. S.
Prereq: None.
Review and evaluation of historical and current housing issues, production, and financial systems, including consideration of racial, ethnic, income, and gender issues as they relate to the role of housing developments and programs in community development.

C DEV 522: Community Leadership and Capacity Building
(3-0) Cr. 3.
Defining leadership and applying it to the workplace. Understanding of potential link between leadership and community capacity. Identifying strategies for leadership development in communities.
C DEV 523: Grantwriting for Community Development Professionals
(3-0) Cr. 3.
Basic Grant Development and Management will introduce students to
the grant-getting process and provide an overview of what happens after
a project is funded. The following topics will be covered: researching
funding sources, generating cutting edge ideas, assessing needs,
planning a project, establishing credibility, formulating a sustainable
budget, designing an evaluation plan, managing the funded project, and
disseminating project results.

C DEV 524: Non-Profit Management in Community Development
(3-0) Cr. 3.
Understanding of how non-profit organizations are run in order that
they may participate more fully in community development efforts.
Learning skills necessary to assist organizations to manage community
development projects and programs, such as, budgeting, planning,
personnel, facilities, volunteer management, and fundraising.

C DEV 525: Role of Tribal Colleges in Economic Development
(3-0) Cr. 3.
Focus on role of tribally-chartered colleges and universities in economic
development within Native communities. Social capital analytic
framework to examine and evaluate tribal college model of economic
development.

C DEV 526: Immigration and Community Inclusion
(3-0) Cr. 3.
Mechanisms for community inclusion and exclusion in relation to
immigration will be examined. Aspects of ethnicity, religion, occupation
and transnationalism are addressed in terms of community mechanism
for incorporating immigrants as community assets.

C DEV 527: Public and Non-Profit Budgeting
Cr. 3. SS.
Introduction to the fundamental theories and practices of budgeting in
the public and non-profit sectors. Topics covered include overview of
budgeting and budget reform, taxation, expenditures, budget preparation
and adoption, budget implementation, and performance budgeting.

C DEV 528: Evaluation of Organizations and Programs
(3-0) Cr. 3.
Prereq: C DEV 504 with grade of C or better
Introduction to the philosophy, techniques, and methodologies of
organizational and program evaluation. Overview of program evaluation
and theory, techniques to evaluate program processes and performance,
evaluation designs, assessing program efficiency, models to diagnose
organizations, and methods to assess organizational performance.

C DEV 530: Toward Ethical Engagement
(3-0) Cr. 3.
Understanding what ethics are and identify ethical dimensions of a
problem. Ability to employ ethical analysis and engagement strategies in
public problem-solving.

C DEV 532: Community and Regional Economic Analysis II
(3-0) Cr. 3.
Prereq: C DEV 506
Substantive grounding in the theories and practice of measuring
community economic dynamics; build solid foundation skills for applied
community economic analysis.

C DEV 542: The Policy and Politics of Coastal Areas
(Cross-listed with POL S). (3-0) Cr. 3.
Exploration of political implications of coastal policy. Issues include:
"Carrying capacity," zoning, regulation of human development activities,
tradeoff between conservation and jobs, the quality of coastal lifestyle,
ways in which citizens participate in policy for coastal areas.

C DEV 590: Special Topics in Community Development
Cr. 1-3. Repeatable, maximum of 4 times. F.S.SS.
Special topics in Community Development. Independent Study, must get
instructor approval.

C DEV 599: Creative Component
Cr. arr.
Students work with major professor to conduct research and carry out
work on their creative component. Instructor permission required.

Courses for graduate students:

C DEV 699: Thesis Research
Cr. 1-6. F.S.SS.
Thesis Research.

Community and Regional Planning (C R P)

Courses primarily for undergraduates:

C R P 201: The North American Metropolis
(3-0) Cr. 3. F.S.
Examination of the evolution of American urban centers from the
colonial era to the present. Considers the demographic changes and
social movements underway in urban America and explores how an
understanding of the history of cities provides us with knowledge that we
can use to improve our cities today.
Meets U.S. Diversity Requirement
C R P 291: World Cities and Globalization
(3-0) Cr. 3. F.S.
World cities and globalization in developed and developing countries. Topics include globalization, world cities and regions, uneven economic development, the international division of labor, multinational corporations, international environmentalism, tourism, popular culture and place-based identity.
Meets International Perspectives Requirement.

C R P 293: Environmental Planning
(Cross-listed with ENV S). (3-0) Cr. 3. F.S.
Comprehensive overview of the field of environmental relationships and the efforts being made to organize, control, and coordinate environmental, aesthetic, and cultural characteristics of land, air, and water.

C R P 301: Urban Analytical Methods
(3-2) Cr. 4. S.
Prereq: STAT 101
An introduction to the methods and analytical techniques used by planners to study community change. Course includes identification of key sources of planning information and data. Students learn to use quantitative methods for analysis of population, land use, economic and transportation data. Students learn to apply basic analytic methods to community problems and learn the art of effective written, graphic, and oral presentation of data.

C R P 320: Urban Geography
(3-0) Cr. 3. F.S.
An introduction to urban geography. Study of urban centers, including people and infrastructure. Investigation of the origin and evolution of urban areas and the processes that shape urban change. Topics include urban form, and the social, economic, political, cultural, and institutional factors that shape cities.

C R P 330: Practicum
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: Major in community and regional planning
Structured work experience under close supervision of a professional planner. Practical planning experience; relationships between theory and practice, professional responsibilities, and the scope of various planning roles.

C R P 331: Professional Practice Seminar
(2-0) Cr. 2. F.
Prereq: CRP 301 and junior classification
Preparation for working as a planning professional; development of resume and portfolio; discussion of professional ethics and expectations of employers and clients; presentations from planning professionals, and discussion of the range of career choices within the planning profession.

C R P 376: Rural, Urban and Regional Economics
(Cross-listed with ECON). (3-0) Cr. 3.
Prereq: ECON 101
Firm location with respect to regional resources, transport, scale economies, externalities, and policies. Measures of local comparative advantage and specialization. Spatial markets. Population location considering jobs, wages, commuting, and local amenities. Business, residential, and farm land use and value. Migration. Other topics may include market failure, regulation, the product cycle, theories of rural and urban development, developmental policy, firm recruiting, local public goods and public finance, schools, poverty, segregation, and crime.

C R P 383: Theory of the Planning Process
(3-0) Cr. 3. F.
Prereq: Junior classification
The nature of planning and its relation to social and economic planning; levels of planning, place of planning in decision making; steps in the planning process, uses and limitation of knowledge in planning, relation of facts and values.

C R P 391: Field Travel
Cr. 1-2. Repeatable. F.S.
Prereq: CRP major and permission of instructor
Observation of professional practice and community or regional problems and issues. Offered on a satisfactory-fail basis only.

C R P 410: Professional Work Experience
Cr. R. F.S.S.S.
Prereq: Permission of department chair
Approved professional work experience.

C R P 416: Urban Design and Practice
(Dual-listed with C R P 516). (3-6) Cr. 6. S.
Prereq: C R P 301
Principles of urban design and their application to residential and commercial development in studio projects.

C R P 417: Urban Revitalization
(Dual-listed with C R P 517). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Junior classification
Planning methods available to further revitalization and preservation efforts, with particular attention to housing and neighborhoods. Relationship between neighborhood change and urban development process; public policy implications.
C R P 429: Planning in Developing Countries
(Dual-listed with C R P 529). (3-0) Cr. 3. F.S.
Introduction to issues in planning and governance in an international setting. Problems and strategies may include population movement and change, economic globalization, urban growth, rural development, and housing.

C R P 432: Community Planning Studio
(1-6) Cr. 4-6. F.S.
Prereq: C R P 201, C R P 301, C R P 383, or permission of instructor.

C R P 435: Planning in Small Towns
(Dual-listed with C R P 535). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: Junior classification
Contemporary planning problems in small towns and the design of viable strategies to enhance their social and economic position in today's society.

C R P 436: Community Economic Development
(Dual-listed with C R P 536). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
The nature and process of economic development in the context of community development. Recent changes and trends and their implications for local and regional development. Selected case studies and applications. Contemporary community economic development issues.

C R P 442: Site Development
(Dual-listed with C R P 542). (3-0) Cr. 3. S.
Introduction to site development including site review. Studio project integrating concept, finance, selection, analysis, and design.

C R P 445: Transportation Policy and Planning
(Dual-listed with C R P 545). (3-0) Cr. 3. F.
Prereq: Junior classification; CRP 545 prerequisite: Graduate classification
Comprehensive overview of key policy issues related to transportation planning and investment in the United States and abroad. Policy issues explored include safety, environmental impact, sustainable communities, and economic development. Policy analysis and planning are studied in conjunction with each policy issue explored. Issues of concern to state, metropolitan, and local governments.

C R P 450: Geodesign
(3-0) Cr. 3. S.
Prereq: CRP 251 or equivalent or permission of the instructor
This course provides an opportunity for students to learn about the fundamental concepts of Geodesign. Geodesign focuses on using a set of techniques and technologies, which can enable stages of project conceptualization, data collection and visualization, spatial analysis, design creation, simulation and stakeholders participation and collaboration. Students read articles discussing Geodesign and watch lectures and presentations given at Geodesign Summits in the USA and Europe. They study applications and study cases in which Geodesign was used and applied. They select a study case and work in interdisciplinary teams to apply learned theoretical Geodesign methodologies and approaches. Students may use any GIS software, ESRI CityEngine, ESRI GeoPlanner and/or Agent-Based Modeling in their studies of the study case.

C R P 451: Introduction to Geographic Information Systems
(2-2) Cr. 3. F.S.SS.
Introduction to geographic information systems, including discussions of GIS hardware, software, data structures, data acquisition, data conversion, data presentation, analytical techniques, and implementation procedures. Laboratory emphasizes practical applications and uses of GIS.

C R P 452: Geographic Data Management and Planning Analysis
(Dual-listed with C R P 552). (2-2) Cr. 3. F.S.
Prereq: C R P 351 or equivalent
Extensive coverage of geo-relational database concept and design, GIS database creation and maintenance, geographic data manipulation and analysis. GIS output generation and geographic data presentation. Laboratory emphasizes practical applications and uses of GIS.

C R P 454: Fundamentals of Remote Sensing
(Dual-listed with C R P 554). (Cross-listed with L A). (3-0) Cr. 3. F.
Prereq: CRP 351 or equivalent or permission of the instructor
Introduction to remote sensing techniques needed for basic analysis of satellite images, including: filtering and conflation techniques, stacking, pan sharpening, image rectification, image enhancement, unsupervised and supervised classification. Practical applications in a variety of topics to understand how to interpret images.

C R P 456: GIS Programming and Automation
(Dual-listed with C R P 556). (2-2) Cr. 3. F.
Prereq: CRP 351 or CRP 551 or NREM 345 or NREM 546 or GEOL 552
Introduction to automated geoprocessing in Geographic Information Systems. Focus on learning scripting language and object-oriented programming, automation of custom-designed geoprocessing scripts, and application toward student research and/or interests.
C R P 458: Web Mapping/GIS
(Dual-listed with C R P 558). (Cross-listed with L A). (2-2) Cr. 3.
Prereq: CRP 451/551, LA 302. GEOL 452/552 or instructor permission.
Use and development of online mapping tools to support participatory GIS, Volunteered Geographic Information, information sharing, geodesign and decision making actions. Geoprocessing and Web Scripting/coding and user interface design. Laboratory emphasis practical applications and uses of Web GIS.

C R P 459: Digital Design Methods for Landscape Architecture
(Dual-listed with C R P 559). (Cross-listed with L A). (3-0) Cr. 3. S.
Introduction to digital tools used by landscape architects for design communication, visualization, and design development. Include 2D drafting, 3D modeling, image CAD, geospatial data handling (GIS), and animation. Emphasis on concepts and workflow interoperability.

C R P 460: Social Justice and Planning
(Dual-listed with C R P 560). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Investigation of the topic of social justice as it relates to the challenge of planning more socially just urban societies, emphasizing the importance of social justice issues to planning in a globalized world. Includes a range of issues and case studies of local social justice initiatives, both US and global. Students will complete individual service learning projects as part of the course requirement.

C R P 475: Grant Writing
(Dual-listed with C R P 575). (1-0) Cr. 1. F.
A short introduction to effective grant writing for the public and nonprofit sectors. Includes identifying appropriate funding sources for an organization, identifying goals and objectives, and budgeting.

C R P 479: Public Finance and Planning
(Dual-listed with C R P 579). (3-0) Cr. 3. S.
Effective management of state and local government finance critical to successful community and regional planning. Economic concepts, topics in budgeting, revenue, expenditure, and financing, analytical techniques, economic impact, and case studies. Understanding of economic assessment in planning and understanding of various linkages between planning and public finance.

C R P 484: Sustainable Communities
(Dual-listed with C R P 584). (Cross-listed with ENV S). (3-0) Cr. 3. S.
Prereq: Junior classification

C R P 490: Independent Study
Cr. 1-3. Repeatable. F.S.SS.
Prereq: Written approval of instructor and department chair on required form
Investigation of an approved topic commensurate with student’s interest and ability. Offered on a satisfactory-fail basis only.

C R P 490H: Independent Study: Honors
Cr. 1-3. Repeatable. F.S.SS.
Prereq: Written approval of instructor and department chair on required form
Investigation of an approved topic commensurate with student’s interest and ability. Offered on a satisfactory-fail basis only.

C R P 491: Environmental Law and Planning
(Dual-listed with C R P 591). (Cross-listed with ENV S, L A). (3-0) Cr. 3. S.
Prereq: 6 credits in natural sciences
Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

C R P 492: Planning Law, Administration and Implementation
(3-0) Cr. 3. F.
Prereq: Junior classification
The basis in constitutional, common, and statutory law for the powers of plan implementation. Problems of balancing public and private interests as revealed in the study of leading court cases. Administration of planning agencies and programs.

C R P 494: Senior Seminar in Planning
Cr. 1-3. Repeatable, maximum of 2 times. F.S.
Prereq: Senior classification
An advanced forum for seniors that focuses upon recent trends and important issues affecting planning today. Topics addressed will vary. A demonstration of understanding of current issues and their effects upon planning applications is expected.

Courses primarily for graduate students, open to qualified undergraduates:

C R P 510: Professional Work Experience
Cr. R. F.S.SS.
Prereq: Permission of department chair
Approved professional work experience.

C R P 516: Urban Design and Practice
(Dual-listed with C R P 416). (3-6) Cr. 6. S.
Prereq: C R P 301
Principles of urban design and their application to residential and commercial development in studio projects.
C R P 517: Urban Revitalization  
(Dual-listed with C R P 417). (3-0) Cr. 3. Alt. S., offered odd-numbered years.  
**Prereq: Junior classification**  
Planning methods available to further revitalization and preservation efforts, with particular attention to housing and neighborhoods. Relationship between neighborhood change and urban development process; public policy implications.

C R P 519: Middle Eastern Cities  
(Cross-listed with ARCH). (3-0) Cr. 3.  
**Prereq: Graduate or Senior classification**  
Introduction to basic academic writings on Middle Eastern cities in addition to other contemporary cultural productions of the region. Study of various aspects of Middle Eastern life and the built environments that this life produces. Meets International Perspectives Requirement.

C R P 529: Planning in Developing Countries  
(Dual-listed with C R P 429). (3-0) Cr. 3. F.S.  
Introduction to issues in planning and governance in an international setting. Problems and strategies may include population movement and change, economic globalization, urban growth, rural development, and housing.

C R P 530: Practicum  
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.  
**Prereq: Graduate classification in Community and Regional Planning**  
Practical planning experience. Structured work in range of tasks under close supervision of a professional planner. Relationships between theory and practice, exposure to variety of roles in functioning specialties. Offered on a satisfactory-fail basis only.

C R P 532: Community Planning Studio  
(3-6) Cr. 4-6. F.  
**Prereq: C R P 564 or equivalent**  
Comprehension and analysis of various geographic contexts pertinent to community planning and the use of planning theory, tools and techniques in an applied setting. Process of making a community plan: historical patterns, current conditions and strategies for planning.

C R P 535: Planning in Small Towns  
(Dual-listed with C R P 435). (3-0) Cr. 3. Alt. F., offered even-numbered years.  
**Prereq: Junior classification**  
Contemporary planning problems in small towns and the design of viable strategies to enhance their social and economic position in today’s society.

C R P 536: Community Economic Development  
(Dual-listed with C R P 436). (3-0) Cr. 3. Alt. F., offered odd-numbered years.  
The nature and process of economic development in the context of community development. Recent changes and trends and their implications for local and regional development. Selected case studies and applications. Contemporary community economic development issues.

C R P 542: Site Development  
(Dual-listed with C R P 442). (3-0) Cr. 3. S.  
**Prereq: Junior classification**  
Comprehensive overview of key policy issues related to transportation planning and investment in the United States and abroad. Policy issues explored include safety, environmental impact, sustainable communities, and economic development. Policy analysis and planning are studied in conjunction with each policy issue explored. Issues of concern to state, metropolitan, and local governments.

C R P 545: Transportation Policy and Planning  
(Dual-listed with C R P 445). (3-0) Cr. 3. F.  
**Prereq: Junior classification; CRP 545 prerequisite: Graduate classification**  
Comprehensive overview of key policy issues related to transportation planning and investment in the United States and abroad. Policy issues explored include safety, environmental impact, sustainable communities, and economic development. Policy analysis and planning are studied in conjunction with each policy issue explored. Issues of concern to state, metropolitan, and local governments.

C R P 550: Making Resilient Environments  
(Cross-listed with SUS E). (3-0) Cr. 3. S.  
**Prereq: senior or graduate standing.**  
Major theories and ideas revolving around the concept of resilience. Assessing the social and political processes associated with policy making for resilience. Application of the concept of resilience in order to understand and evaluate environments. Evaluate the different approaches toward resilience and develop an understanding of the relationship between sustainability and resilience. Case studies of communities that proactively prepare for, absorb, recover from, and adapt to actual or potential future adverse events.

C R P 551: Introduction to Geographic Information Systems  
(2-2) Cr. 3. F.S.S.  
Introduction to geographic information systems, including discussions of GIS hardware, software, data structures, data acquisition, data conversion, data presentation, analytical techniques, and implementation procedures. Laboratory emphasizes practical applications and uses of GIS.
C R P 552: Geographic Data Management and Planning Analysis  
(Dual-listed with C R P 452). (2-2) Cr. 3. F.S.  
Prereq: C R P 351 or equivalent  
Extensive coverage of geo-relational database concept and design, GIS database creation and maintenance, geographic data manipulation and analysis. GIS output generation and geographic data presentation. Laboratory emphasizes practical applications and uses of GIS.

C R P 553: Analytical Planning/GIS  
(2-2) Cr. 3. F.  
Prereq: C R P 451/C R P 551  
Integration of exploratory, participatory and predictive spatial analyses and 3D visualization into the planning process. GIS tools and techniques are used to automate decision analysis and facilitate future planning in analyzing and visualizing planning actions. Laboratory emphasizes practical uses of GIS tools and techniques.

C R P 554: Fundamentals of Remote Sensing  
(Dual-listed with C R P 454). (Cross-listed with L A). (3-0) Cr. 3. F.  
Prereq: CRP 351 or equivalent or permission of the instructor  
Introduction to remote sensing techniques needed for basic analysis of satellite images, including: filtering and conflation techniques, stacking, pan sharpening, image rectification, image enhancement, unsupervised and supervised classification. Practical applications in a variety of topics to understand how to interpret images.

C R P 556: GIS Programming and Automation  
(Dual-listed with C R P 456). (2-2) Cr. 3. F.  
Prereq: CRP 351 or CRP 551 or NREM 345 or NREM 546 or GEOL 552  
Introduction to automated geoprocessing in Geographic Information Systems. Focus on learning scripting language and object-oriented programming, automation of custom-designed geoprocessing scripts, and application toward student research and/or interests.

C R P 558: Web Mapping/GIS  
(Dual-listed with C R P 458). (Cross-listed with L A). (2-2) Cr. 3.  
Prereq: CRP 451/551, LA 302. GEOL 452/552 or instructor permission.  
Use and development of online mapping tools to support participatory GIS, Volunteered Geographic Information, information sharing, geodesign and decision making actions. Geoprocessing and Web Scripting/coding and user interface design. Laboratory emphasis practical applications and uses of Web GIS.

C R P 559: Digital Design Methods for Landscape Architecture  
(Dual-listed with C R P 459). (Cross-listed with L A). (3-0) Cr. 3. S.  
Introduction to digital tools used by landscape architects for design communication, visualization, and design development. Include 2D drafting, 3D modeling, image CAD, geospatial data handling (GIS), and animation. Emphasis on concepts and workflow interoperability.

C R P 560: Social Justice and Planning  
(Dual-listed with C R P 460). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
Investigation of the topic of social justice as it relates to the challenge of planning more socially just urban societies, emphasizing the importance of social justice issues to planning in a globalized world. Includes a range of issues and case studies of local social justice initiatives, both US and global. Students will complete individual service learning projects as part of the course requirement.

C R P 561: Planning Theory  
(3-0) Cr. 3. S.  
Use and development of theory/action relationship in planning practice. Competing normative theories of planning and their evolution, key components and fundamental critiques. Exploration of planning frameworks and approaches, including comprehensive planning; incrementalism; advocacy; communicative rationality; and others.

C R P 563: Planning the American Metropolis  
(3-0) Cr. 3. F.  
Focus on the historical role of planning in the shaping of American cities and regions, from the beginning of the Republic to the present. Examine the legacy of planning by exploring the intersection of design, politics and policy. Investigate the factors and the processes that produce the built environment.

C R P 564: Introduction to Analytical Methods for Planning  
(3-0) Cr. 3. F.  
Applications of analytical methods in planning with emphasis on the collection, description, analysis, presentation, and interpretation of planning data. Introduction to descriptive statistics. Sources of planning information and data including primary and secondary data types and sources. Demographic analysis, population projection techniques for planning at local and regional levels.

C R P 566: Policy Analysis and Planning  
(3-0) Cr. 3. F.  
Principles and methods for analyzing community problems and policies including forecasting, efficiency and equity measures, cost/benefit, political feasibility, and sensitivity analysis. Examination of social, political, economic, and environmental values and their manifestation in decision making methods used in planning. Application of tools used to analyze planning problems, project evaluation and public policies.
C R P 568: Planning and Development
(3-0) Cr. 3. S.
Prereq: C R P 564 or equivalent
Exploration and evaluation of the techniques, processes, and professional skills required to effectively manage land use change at various scales. Land classification systems; land supply and needs inventory for residential uses and commercial and employment centers; capacity and needs analysis for public infrastructure. Includes land use planning project(s) designed to apply the methods explored in this and other courses.

C R P 575: Grant Writing
(Dual-listed with C R P 475). (1-0) Cr. 1. F.
A short introduction to effective grant writing for the public and non-profit sectors. Includes identifying appropriate funding sources for an organization, identifying goals and objectives, and budgeting.

C R P 579: Public Finance and Planning
(Dual-listed with C R P 479). (3-0) Cr. 3. S.
Effective management of state and local government finance critical to successful community and regional planning. Economic concepts, topics in budgeting, revenue, expenditure, and financing, analytical techniques, economic impact, and case studies. Understanding of economic assessment in planning and understanding of various linkages between planning and public finance.

C R P 584: Sustainable Communities
(Dual-listed with C R P 484). (3-0) Cr. 3. S.
Prereq: Junior classification

C R P 590: Special Topics
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 590A: Special Topics: Planning Law, Administration and Implementation
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 590B: Special Topics: Economic Development
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 590C: Special Topics: Urban Design
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 590D: Special Topics: Housing and Urban Revitalization
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 590H: Special Topics: Environmental Planning
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 590J: Special Topics: Land Use and Transportation Planning
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 590N: Special Topics: International Planning
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 590Q: Special Topics: Spatial Analytical Methods
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 590R: Special Topics: Planning in Small Towns
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 590S: Special Topics: Diversity and Equity in Planning
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: Graduate classification and written approval of instructor and department chair on required form

C R P 591: Environmental Law and Planning
(Dual-listed with C R P 491). (Cross-listed with L A). (3-0) Cr. 3. S.
Prereq: 6 credits in natural sciences
Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.
C R P 592: Land Use and Development Regulation Law
(3-0) Cr. 3. F.
An in-depth analysis of the legal constructs that shape the practice of planning and plan implementation in the United States. An exploration of how land use regulations are applied to reconcile the competing needs and diverse uses of land. The positive and negative consequences of developing and implementing regulatory controls will be addressed.

C R P 595: Seminar in GIS Applications/Research
(1-0) Cr. 1. F.S.
Prereq: 9 credits in GIS Certificate program
Discussion and demonstration of current GIS applications and research in multiple disciplines. Offered on a satisfactory-fail basis only.

C R P 599: Professional Planning Report
Cr. arr. Repeatable.
Independent planning project with practical application, including research element.

Courses for graduate students:

C R P 698: Capstone Studio
(1-6) Cr. 4. S.
Prereq: Permission of instructor.
Synthesis and integration of core planning knowledge into professional work in a team setting.

C R P 699: Research
Cr. arr. Repeatable.

Complex Adaptive Systems (CAS)

Computer Engineering (CPR E)

Courses primarily for undergraduates:

CPR E 131: Introduction to Computer Security Literacy
(Cross-listed with INFAS). (1-0) Cr. 1.
Basic concepts of practical computer and Internet security: passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

CPR E 166: Professional Programs Orientation
(Cross-listed with E E). Cr. R. F.S.
(1-0) Overview of the nature and scope of electrical engineering and computer engineering professions. Overview of portfolios. Departmental rules, student services operations, degree requirements, program of study planning, career options, and student organizations.

CPR E 185: Introduction to Computer Engineering and Problem Solving I
(2-2) Cr. 3.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

CPR E 186: Introduction to Computer Engineering and Problem Solving II
(0-2) Cr. 1. S.
Prereq: CPR E 185
Project based examples from computer engineering. Group skills needed to work effectively in teams. Group problem solving. Computer-based projects. Technical reports and presentations. Students will work on 2 or 3 self-directed team based projects that are representative of problems faced by computer engineers.

CPR E 230: Cyber Security Fundamentals
(2-2) Cr. 3. F.
Prereq: COM S 107, COM S 207, COM S 227, or E E 285
Introduction to computer and network infrastructures used to support cyber security. Basic concepts of computer and network configuration used to secure environments. Computer virtualization, network routing and address translation, computer installation and configuration, network monitoring, in a virtual environment. Laboratory experiments and exercises including secure computer and network configuration and management.

CPR E 231: Cyber Security Concepts and Tools
(2-3) Cr. 3. S.
Prereq: CPR E 230
Basic concepts of practical computer and Internet security and the tools used to protect and attack systems and networks. Computer and network security methods including: user authentication, access control, firewalls, intrusion detection, use of vulnerability assessment tools and methods, and penetration testing. Ethics and legal issues in cyber security will also be covered. Laboratory experiments and exercises including evaluating systems for vulnerabilities, understanding potential exploits of the systems, and defenses for the systems.

CPR E 261: Transfer Orientation
(Cross-listed with E E). Cr. R.
Introduction to the College of Engineering and the engineering profession specifically for transfer students. Information concerning university and college policies, procedures, and resources. Offered on a satisfactory-fail basis only.
CPR E 281: Digital Logic
(3-3) Cr. 4. F.S.
Prereq: sophomore classification
Number systems and representation. Boolean algebra and logic minimization. Combinational and sequential logic design. Arithmetic circuits and finite state machines. Use of programmable logic devices. Introduction to computer-aided schematic capture systems, simulation tools, and hardware description languages. Design of simple digital systems.

CPR E 288: Embedded Systems I: Introduction
(3-2) Cr. 4. F.S.
Prereq: CPR E 281, COM S 207 or COM S 227 or E E 285
Embedded C programming. Interrupt handling. Memory mapped I/O in the context of an application. Elementary embedded design flow methodology. Timers, scheduling, resource allocation, optimization, state machine based controllers, real time constraints within the context of an application. Applications laboratory exercises with embedded devices.

CPR E 294: Program Discovery
(Cross-listed with E E). Cr. R.
Prereq: CPR E 166 or E E 166
The roles of professionals in computer and electrical engineering. Relationship of coursework to industry and academic careers. Issues relevant to today’s world. Offered on a satisfactory-fail basis only.

CPR E 308: Operating Systems: Principles and Practice
(3-3) Cr. 4. F.S.
Prereq: CPR E 381 or COM S 321
Operating system concepts, processes, threads, synchronization between threads, process and thread scheduling, deadlocks, memory management, file systems, I/O systems, security. Linux-based lab experiments.

CPR E 310: Theoretical Foundations of Computer Engineering
(3-1) Cr. 3. F.S.
Prereq: COM S 228
Propositional logic and methods of proof; set theory and its applications; mathematical induction and recurrence relations; functions and relations; and counting; trees and graphs; applications in computer engineering.

CPR E 315: Applications of Algorithms in Computer Engineering
(3-0) Cr. 3. F.S.SS.
Prereq: CPR E 310
Solving computer engineering problems using algorithms. Emphasis on problems related to the core focus areas in computer engineering. Real world examples of algorithms used in the computer engineering domain. Algorithm engineering. Prototyping of algorithms.

CPR E 329: Software Project Management
(Cross-listed with S E). (3-0) Cr. 3.
Prereq: COM S 309

CPR E 330: Integrated Electronics
(Cross-listed with E E). (3-3) Cr. 4.
Prereq: E E 201, credit or enrollment in E E 230, CPR E 281

CPR E 332: Cyber Defense Competition
(Cross-listed with INFAS). (0-2) Cr. 1. Repeatable. S.
Participation in cyber defense competition driven by scenario-based network design. Includes computer system setup, risk assessment and implementation of security systems, as well as defense of computer and network systems against trained attackers. Team based. Offered on a satisfactory-fail basis only.

CPR E 339: Software Architecture and Design
(Cross-listed with S E). (3-0) Cr. 3.
Prereq: S E 319
CPR E 370: Toying with Technology
(Cross-listed with MAT E). (2-2) Cr. 3. F.S.
Prereq: C I 201 or C I 202
A project-based, hands-on learning course. Technology literacy, appreciation for technological innovations, principles behind many technological innovations, hands-on laboratory experiences based upon simple systems constructed out of LEGOAs and controlled by small microcomputers. Future K-12 teachers will leave the course with complete lesson plans for use in their upcoming careers.

CPR E 381: Computer Organization and Assembly Level Programming
(3-2) Cr. 4. F.S.
Prereq: CPR E 288
Introduction to computer organization, evaluating performance of computer systems, instruction set design. Assembly level programming: arithmetic operations, control flow instructions, procedure calls, stack management. Processor design. Datapath and control, scalar pipelines, introduction to memory and I/O systems.

CPR E 388: Embedded Systems II: Mobile Platforms
(3-2) Cr. 4.
Prereq: CPR E 288
Contemporary programming techniques for event driven systems. Mobile platforms and operating systems. Location and motion sensors based user interfaces. Threading and scheduling. Resource management - measurement and control techniques - for memory and energy. Client-server application design. Distributed applications. Laboratory includes exercises based on a mobile platform.

CPR E 394: Program Exploration
(Cross-listed with E E). Cr. R.
Prereq: CPR E 294 or E E 294
Exploration of academic and career fields for electrical and computer engineers. Examination of professionalism in the context of engineering and technology with competencies based skills. Introduction to professional portfolio development and construction. Offered on a satisfactory-fail basis only.

CPR E 396: Summer Internship
Cr. R. Repeatable. SS.
Prereq: Permission of department and Engineering Career Services
Professional work period of at least 10 weeks during the summer. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

CPR E 398: Cooperative Education (Co-op)
Cr. R. Repeatable. F.S.
Prereq: Permission of department and Engineering Career Services
Professional work period. One semester per academic or calendar year. Offered on a satisfactory-fail basis only.

CPR E 412: Formal Methods in Software Engineering
(Cross-listed with COM S, S E). (3-0) Cr. 3.
Prereq: COM S 230 or CPR E 310; COM S 311, STAT 330; for graduate credit: graduate standing or permission of instructor
A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms and tools for automatic analysis of systems. Graduate credit requires in-depth study of concepts.

CPR E 416: Software Evolution and Maintenance
(Cross-listed with S E). (3-0) Cr. 3.
Prereq: COM S 309
Practical importance of software evolution and maintenance, systematic defect analysis and debugging techniques, tracing and understanding large software, impact analysis, program migration and transformation, refactoring, tools for software evolution and maintenance, experimental studies and quantitative measurements of software evolution. Written reports and oral presentation.

CPR E 418: High Speed System Engineering Measurement and Testing
(Cross-listed with E E). (3-2) Cr. 4. F.
Prereq: E E 230 and E E 311

CPR E 419: Software Tools for Large Scale Data Analysis
(Cross-listed with S E). (3-3) Cr. 4.
Prereq: CPR E 308 or COM S 352, COM S 309
Software tools for managing and manipulating large volumes of data, external memory processing, large scale parallelism, and stream processing, data interchange formats. Weekly programming labs that involve the use of a parallel computing cluster.

CPR E 424: Introduction to High Performance Computing
(Cross-listed with COM S, MATH). (2-2) Cr. 3. F.
Prereq: MATH 265; MATH 207 or MATH 317
UNIX, serial programming for high performance, OpenMP for high performance, shared memory parallelization. Semester project required.
CPR E 425: High Performance Computing for Scientific and Engineering Applications
(Cross-listed with COM S). (3-1) Cr. 3.
Prereq: COM S 311, COM S 230, ENGL 250, SP CM 212
Introduction to high performance computing platforms including parallel computers and workstation clusters. Discussion of parallel architectures, performance, programming models, and software development issues. Sample applications from science and engineering. Practical issues in high performance computing will be emphasized via a number of programming projects using a variety of programming models and case studies. Oral and written reports.

CPR E 426: Introduction to Parallel Algorithms and Programming
(Dual-listed with CPR E 526). (Cross-listed with COM S). (3-2) Cr. 4. F.
Prereq: CPR E 308 or COM S 321, CPR E 315 or COM S 311
Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms.

CPR E 430: Network Protocols and Security
(Dual-listed with CPR E 530). (Cross-listed with INFAS). (3-0) Cr. 3.
Prereq: CPR E 381 or equivalent
Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols. Network security issues, attack and mitigation techniques. Emphasis on laboratory experiments.

CPR E 431: Basics of Information System Security
(3-0) Cr. 3. S.
Prereq: credit or enrollment in CPR E 308 or COM S 352
Introduction to and application of basic mechanisms for protecting information systems from accidental and intentional threats. Basic cryptography use and practice. Computer security issues including authentication, access control, and malicious code. Network security mechanisms such as intrusion detection, firewalls, IPSEC, and related protocols. Ethics and legal issues in information security. Wireless security. Programming and system configuration assignments.

CPR E 435: Analog VLSI Circuit Design
(Cross-listed with E E). (3-3) Cr. 4. S.
Prereq: E E 324, E E 330, E E 332, and either E E 322 or STAT 330
Basic analog integrated circuit and system design including design space exploration, performance enhancement strategies, operational amplifiers, references, integrated filters, and data converters.

CPR E 444: Bioinformatic Analysis
(Cross-listed with BCB, BCBIO, BIOL, COM S, GEN). (4-0) Cr. 4. F.
Prereq: MATH 165 or STAT 401 or equivalent.
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: bioinformatic data processing, Perl programming, genome assembly, database search, sequence alignment, gene prediction, next-generation sequencing, comparative and functional genomics, and systems biology.

CPR E 450: Distributed Systems and Middleware
(Dual-listed with CPR E 550). (3-0) Cr. 3.
Prereq: CPR E 308 or COM S 352
Fundamentals of distributed computing, software agents, naming services, distributed transactions, security management, distributed object-based systems, web-based systems, middleware-based application design and development, case studies of middleware and internet applications.

CPR E 454: Distributed Systems
(Dual-listed with CPR E 554). (Cross-listed with COM S). (3-1) Cr. 3.
Prereq: CPR E 308 or COM S 352; for graduate credit: graduate standing or permission of instructor
Theoretical and practical issues of design and implementation of distributed systems. The client server paradigm, inter-process communications, synchronization and concurrency control, naming, consistency and replication, fault tolerance, and distributed file systems. Graduate credit requires additional in-depth study of concepts. Programming projects and written reports.

CPR E 458: Real Time Systems
(Dual-listed with CPR E 558). (3-0) Cr. 3.
Prereq: CPR E 308 or COM S 352

CPR E 465: Digital VLSI Design
(Cross-listed with E E). (3-3) Cr. 4. F.
Prereq: E E 330
Digital design of integrated circuits employing very large scale integration (VLSI) methodologies. Technology considerations in design. High level hardware design languages, CMOS logic design styles, area-energy-delay design space characterization, datapath blocks: arithmetic and memory, architectures and systems on a chip (SOC) considerations. VLSI chip hardware design project.
CPR E 466: Multidisciplinary Engineering Design
(Cross-listed with A B E, AER E, B M E, E E, ENGR, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S.
Prereq: Student must be within two semesters of graduation; permission of instructor.
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, and manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations, and computer models and engineering drawings.

CPR E 467: Multidisciplinary Engineering Design II
Prereq: Student must be within two semesters of graduation or receive permission of instructor.
Build and test of a conceptual design. Design and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations, and computer models and engineering drawings.

CPR E 480: Graphics Processing and Architecture
(3-3) Cr. 4. S.
Prereq: CPR E 381 or COM S 321
Introduction to hardware architectures for computer graphics and their programming models. System-level view, including framebuffers, video output devices, displays, 2D and 3D graphics acceleration, and device interfacing. Architectural design of GPUs, from 2D and 3D sprite engines to 3D rendering pipelines to unified shader architectures. Computing models for graphics processors. GPGPU and GPU computing.

CPR E 483: Hardware Software Integration
(3-3) Cr. 4. S.
Prereq: CPR E 381
Embedded system design using hardware description language (HDL) and field programmable gate array (FPGA). HDL modeling concepts and styles are introduced; focus on synthesizability, optimality, reusability and portability in hardware design description. Introduction to complex hardware cores for data buffering, data input/output interfacing, data processing. System design with HDL cores and implementation in FPGA. Laboratory-oriented design projects.

CPR E 488: Embedded Systems Design
(3-3) Cr. 4.
Prereq: CPR E 381 or COM S 321
Embedded microprocessors, embedded memory and I/O devices, component interfaces, embedded software, program development, basic compiler techniques, platform-based FPGA technology, hardware synthesis, design methodology, real-time operating system concepts, performance analysis and optimizations.

CPR E 489: Computer Networking and Data Communications
(3-2) Cr. 4. F.S.
Prereq: CPR E 381 or E E 324
Modern computer networking and data communications concepts. TCP/IP, OSI protocols, client/server programming, data link protocols, local area networks, and routing protocols.

CPR E 490: Independent Study
Cr. arr. Repeatable.
Prereq: Senior classification in computer engineering
Investigation of an approved topic.

CPR E 490H: Independent Study: Honors
Cr. arr. Repeatable.
Prereq: Senior classification in computer engineering
Investigation of an approved topic.

CPR E 491: Senior Design Project I and Professionalism
(Cross-listed with E E). (2-3) Cr. 3. F.S.
Prereq: E E 322 or CPR E 308, completion of 24 credits in the E E core professional program or 29 credits in the CPR E core professional program, ENGL 314
Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; design review presentation. First of two-semester team-oriented, project design and implementation experience.

CPR E 492: Senior Design Project II
(Cross-listed with E E). (1-3) Cr. 2. F.S.
Prereq: CPR E 491 or E E 491
Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in E E 491 or CPR E 491 and the evaluation of project results. Technical writing of final project report; oral presentation of project achievements, project poster.

CPR E 494: Portfolio Assessment
(Cross-listed with E E). Cr. R.
Prereq: CPR E 394 or E E 394, credit or enrollment in CPR E 491 or E E 491
Portfolio update and evaluation. Portfolios as a tool to enhance career opportunities.
Courses primarily for graduate students, open to qualified undergraduates:

CPR E 501: Analog and Mixed-Signal VLSI Circuit Design Techniques
(Cross-listed with E E). (3-3) Cr. 4. F.
Prereq: E E 435

CPR E 504: Power Management for VLSI Systems
(Cross-listed with E E). (3-3) Cr. 4.
Prereq: E E 435, Credit or Registration for E E 501
Theory, design and applications of power management and regulation circuits (Linear and switching regulators, battery chargers, and reference circuits) including: Architectures, Performance metrics and characterization, Noise and stability analysis, Practical implementation and on-chip integration issues, design considerations for portable, wireless, and RF SoCs.

CPR E 505: CMOS and BiCMOS Data Conversion Circuits
(Cross-listed with E E). (3-3) Cr. 4. Alt. S., offered even-numbered years.
Prereq: E E 501
Theory, design and applications of data conversion circuits (A/D and D/ A converters) including: architectures, characterization, quantization effects, conversion algorithms, spectral performance, element matching, design for yield, and practical comparators, implementation issues.

CPR E 506: Design of CMOS Phase-Locked Loops
(Cross-listed with E E). (3-3) Cr. 4.
Prereq: E E 435 or E E 501 or instructor approval
Analysis and design of phase-locked loops implemented in modern CMOS processes including: architectures, performance metrics, and characterization; noise and stability analysis; and design issues of phase-frequency detectors, charge pumps, loop filters (passive and active), voltage controlled oscillators, and frequency dividers.

CPR E 507: VLSI Communication Circuits
(Cross-listed with E E). (3-3) Cr. 4. Alt. S., offered odd-numbered years.
Prereq: E E 435 or E E 501
Phase-locked loops, frequency synthesizers, clock and data recovery circuits, theory and implementation of adaptive filters, low-noise amplifiers, mixers, power amplifiers, transmitter and receiver architectures.

CPR E 511: Advanced Design and Analysis of Algorithms
(Cross-listed with COM S). (3-0) Cr. 3.
Prereq: COM S 311
A study of algorithm design and analysis techniques. Advanced data structures, amortized analysis and randomized algorithms. Applications to sorting, graphs, and geometry. NP-completeness and approximation algorithms.

CPR E 522: Cognitive Radio Networks
(Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered irregularly.
Prereq: Permission of instructor
Topics on cognitive radio networks: Cognitive Radio Networks Architecture; Software Defined Radio Architecture; Spectrum Sensing; Spectrum Management; Spectrum Sharing; Spectrum Mobility; Applications of Cognitive Radio Networks.

CPR E 525: Numerical Analysis of High Performance Computing
(Cross-listed with COM S, MATH). (3-0) Cr. 3. S.
Prereq: CPR E 308 or MATH 481; experience in scientific programming; knowledge of FORTRAN or C
Introduction to parallelization techniques and numerical methods for distributed memory high performance computers. A semester project in an area related to each student's research interests is required.

CPR E 526: Introduction to Parallel Algorithms and Programming
(Dual-listed with CPR E 426). (Cross-listed with COM S). (3-2) Cr. 4. F.
Prereq: CPR E 308 or COM S 321, CPR E 315 or COM S 311
Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms.

CPR E 528: Probabilistic Methods in Computer Engineering
(3-0) Cr. 3.
Prereq: CPR E 315 or COM S 311
The application of randomization and probabilistic methods in the design of computer algorithms, and their efficient implementation. Discrete random variables in modeling algorithm behavior, with applications to sorting, selection, graph algorithms, hashing, pattern matching, cryptography, distributed systems, and massive data set algorithmics.

CPR E 529: Data Analytics in Electrical and Computer Engineering
(Cross-listed with E E). (3-0) Cr. 3. S.
Prereq: E E 322 or equivalent
Introduces a variety of data analytics techniques # particularly those relevant for electrical and computer engineers # from a foundational perspective. Topics to be covered include techniques for classification, visualization, and parameter estimation, with applications to signals, images, matrices, and graphs. Emphasis will be placed on rigorous analysis as well as principled design of such techniques.
CPR E 530: Network Protocols and Security
(Dual-listed with CPR E 430). (Cross-listed with INFAS). (3-0) Cr. 3.
Prereq: CPR E 381 or equivalent
Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols. Network security issues, attack and mitigation techniques. Emphasis on laboratory experiments.

CPR E 531: Information System Security
(Cross-listed with INFAS). (3-0) Cr. 3.
Prereq: CPR E 489 or CPR E 530 or COM S 586 or MIS 535
Computer, software, and data security: basic cryptography, security policies, multilevel security models, attack and protection mechanisms, legal and ethical issues.

CPR E 532: Information Warfare
(Cross-listed with INFAS). (3-0) Cr. 3. S.
Prereq: CPR E 531

CPR E 533: Cryptography
(Cross-listed with INFAS, MATH). (3-0) Cr. 3. S.
Prereq: MATH 301 or CPR E 310 or COM S 330
Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

CPR E 534: Legal and Ethical Issues in Information Assurance
(Cross-listed with INFAS, POL S). (3-0) Cr. 3. S.
Prereq: Graduate classification; CPR E 531 or INFAS 531
Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.

CPR E 535: Steganography and Digital Image Forensics
(Cross-listed with INFAS, MATH). (3-0) Cr. 3. S.
Prereq: E E 524 or MATH 317 or MATH 407 or COM S 330
Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.

CPR E 536: Computer and Network Forensics
(Cross-listed with INFAS). (3-0) Cr. 3.
Prereq: CPR E 489 or CPR E 530
Fundamentals of computer and network forensics, forensic duplication and analysis, network surveillance, intrusion detection and response, incident response, anonymity and pseudonymity, privacy-protection techniques, cyber law, computer security policies and guidelines, court testimony and report writing, and case studies. Emphasis on hands-on experiments.

CPR E 537: Wireless Network Security
(3-0) Cr. 3. S.
Prereq: Credit or enrollment in CPR E 489 or CPR E 530
Introduction to the physical layer and special issues associated with the security of wireless networks. The basics of wireless communication systems (antennas and propagation, modulation, multiple access, channel modeling, specific security issues of the wireless link), jamming and countermeasures (spread spectrum technologies, channel coding, interleaving), authentication and confidentiality (basics of classic cryptography, common authentication and encryption algorithms). Detailed case studies on authentication, encryption and privacy flaws, and good practices based on the most common wireless technologies, including WiFi, GSM/3G, Bluetooth, and RFID. Individual or team-based class projects.

CPR E 538: Reverse Engineering and Security Testing
(Cross-listed with INFAS). (2-3) Cr. 3. S.
Prereq: COM S 321 or CPR E 381, COM S 352 or CPR E 308
Techniques and tools for understanding the behavior of software/hardware systems based on reverse engineering. Flaw hypothesis, black, grey, and white box testing as well as other methods for testing the security of software systems. Discussion of counter-reverse engineering techniques.

CPR E 539: Cyber Physical System Security for the Smart Grid
(3-0) Cr. 3. S.
Introduction to cyber security, cyber physical system (CPS), and smart grid automation technologies; supervisor control and data acquisition (SCADA) systems; cyber risk modeling, vulnerability analysis, impact analysis, defense and mitigation techniques; cyber security of wide-area monitoring, protection, and control; security and privacy in advanced metering infrastructure (AMI), cyber security compliance and best practices, CPS security test-beds and attack-defense hands-on laboratory experiments.
CPR E 541: High-Performance Communication Networks
(3-0) Cr. 3.
Prereq: CPR E 489 or CPR E 530
Computer architectures and protocols designed for high-performance networking environments; software defined networking (SDN) and supporting protocols; cloud and data center networks; network traffic management and congestion control strategies; quality of service; high-speed access network protocols.

CPR E 542: Optical Communication Networks
(3-0) Cr. 3. S.
Prereq: CPR E 489
Optical components and interfaces; optical transmission and reception techniques; wavelength division multiplexing; network architectures and protocol for first generation, single and multihop optical network; routing and wavelength assignment in second generation wavelength routing networks; traffic grooming, optical network control; survivability; access networks; metro networks.

CPR E 543: Wireless Network Architecture
(3-0) Cr. 3.
Prereq: Credit or enrollment in CPR E 489 or CPR E 530
Introduction to the protocol architecture of the data link layer, network layer and transport layer for wireless networking. Operation and management of Medium Access Control in Wireless Local Area Networks (WLAN) and Wireless Metropolitan Area Networks (WMAN); recent developments in IEEE 802.11 & 802.16 and Bluetooth; Mobile IP; Mobile TCP.

CPR E 544: Fundamentals of Bioinformatics
(Cross-listed with BCB, COM S, GDCB). (4-0) Cr. 4. F.
Prereq: MATH 165 or STAT 401 or equivalent
A practical, hands-on overview of how to apply bioinformatics to biological research. Recommended for biologists desiring to gain computational molecular biology skills. Topics include: sequence analysis, genomics, proteomics, phylogenetic analyses, ontology enrichment, systems biology, data visualization and emergent technologies.

CPR E 545: Fault-Tolerant Systems
(3-0) Cr. 3.
Prereq: CPR E 381
Faults and their manifestations, errors, and failures; fault detection, location and reconfiguration techniques; time, space, and information (coding) redundancy management; design for testability; self-checking and fail-safe circuits; system-level fault diagnosis; Byzantine agreement; stable storage and RAID; clock synchronization; fault-tolerant networks; fault tolerance in real-time systems; reliable software design; checkpointing and rollback recovery; atomic actions; replica management protocols; and reliability evaluation techniques and tools.

CPR E 546: Wireless and Sensor Networks
(3-0) Cr. 3.
Prereq: CPR E 489 or CPR E 530
Fundamental and well-known protocols for wireless ad hoc and sensor networks at various layers, including physical layer issues, MAC (medium access control) layer protocols, routing protocols for wireless ad hoc and sensor networks, data management in sensor networks, coverage and connectivity, localization and tracking, security and privacy issues. Introduction to TinyOS and the nesC language. Hands-on experiments with Crossbow Mote sensor devices.

CPR E 547: Resource Allocation in Communication Networks
(3-0) Cr. 3.
Analytical approach to resource allocation on communication networks (e.g. the Internet, multihop wireless networks, etc.). Network utility maximization and the internet congestion control algorithm. Layering as optimization decomposition: a cross-layer design approach in multihop wireless networks. Capacity of ad hoc wireless networks.

CPR E 549: Advanced Algorithms in Computational Biology
(Cross-listed with COM S). (3-0) Cr. 3.
Prereq: COM S 311 and either COM S 228 or COM S 208
Design and analysis of algorithms for applications in computational biology, pairwise and multiple sequence alignments, approximation algorithms, string algorithms including in-depth coverage of suffix trees, semi-numerical string algorithms, algorithms for selected problems in fragment assembly, phylogenetic trees and protein folding. No background in biology is assumed. Also useful as an advanced algorithms course in string processing.

CPR E 550: Distributed Systems and Middleware
(Dual-listed with CPR E 450). (3-0) Cr. 3.
Prereq: CPR E 308 or COM S 352
Fundamentals of distributed computing, software agents, naming services, distributed transactions, security management, distributed object-based systems, web-based systems, middleware-based application design and development, case studies of middleware and internet applications.

CPR E 554: Distributed Systems
(Dual-listed with CPR E 454). (Cross-listed with COM S). (3-1) Cr. 3.
Prereq: COM S 311, COM S 352; for graduate credit: graduate standing or permission of instructor
Theoretical and practical issues of design and implementation of distributed systems. The client server paradigm, inter-process communications, synchronization and concurrency control, naming, consistency and replication, fault tolerance, and distributed file systems. Graduate credit requires additional in-depth study of concepts. Programming projects and written reports.
CPR E 556: Scalable Software Engineering
(3-0) Cr. 3.
Prereq: COM S 309
Design and analysis techniques scalable to large software, project-based learning of problem solving techniques, automation tools for high productivity and reliability of software, analysis-based measurement and estimation techniques for predictable software engineering.

CPR E 557: Computer Graphics and Geometric Modeling
(Cross-listed with COM S, M E). (3-0) Cr. 3. F.
Prereq: M E 421, programming experience in C

CPR E 558: Real Time Systems
(Dual-listed with CPR E 458). (3-0) Cr. 3.
Prereq: CPR E 308 or COM S 352

CPR E 566: Physical Design of VLSI Systems
(3-0) Cr. 3.
Prereq: CPR E 465

CPR E 567: Bioinformatics I (Bioinformatics Algorithms)
(Cross-listed with BCB, COM S). (3-0) Cr. 3.
Prereq: COM S 228; COM S 330; credit or enrollment in BIOL 315, STAT 430
Biology as an information science. A review of the algorithmic principles that are driving the advances in bioinformatics and computational biology.

CPR E 569: Bioinformatics III (Structural Bioinformatics)
(Cross-listed with BBMB, BCB, COM S, GDCB). (3-0) Cr. 3. F.
Prereq: BCB 567, BBMB 316, GEN 409, STAT 430

CPR E 570: Bioinformatics IV (Systems Biology)
(Cross-listed with BCB, COM S, GDCB, STAT). (3-0) Cr. 3. S.
Prereq: BCB 567 or COM S 311, COM S 228, GEN 409, STAT 430

CPR E 575: Computational Perception
(Cross-listed with COM S, HCI). (3-0) Cr. 3. S.
Prereq: Graduate standing or permission of instructor
Statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. Focuses on machine perception techniques that facilitate and augment human-computer interaction. Introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

CPR E 581: Computer Systems Architecture
(Cross-listed with COM S). (3-0) Cr. 3. F.
Prereq: CPR E 381
Quantitative principles of computer architecture design, instruction set design, processor architecture: pipelining and superscalar design, instruction level parallelism, memory organization: cache and virtual memory systems, multiprocessor architecture, cache coherency, interconnection networks and message routing, I/O devices and peripherals.
CPR E 582: Computer Systems Performance  
(3-0) Cr. 3.  
**Prereq:** CPR E 381, CPR E 310 and STAT 330  
Review of probability and stochastic processes concepts; Markovian processes; Markovian queues; renewal theory; semi-Markovian queues; queueing networks, applications to multiprocessor architectures, computer networks, and switching systems.

CPR E 583: Reconfigurable Computing Systems  
(Cross-listed with COM S). (3-0) Cr. 3.  
**Prereq:** Background in computer architecture, design, and organization  
Introduction to reconfigurable computing, FPGA technology and architectures, spatial computing architectures such as systolic and bit serial adaptive network architectures, static and dynamic rearrangeable interconnection architectures, processor architectures incorporating reconfigurability.

CPR E 584: Models and Techniques in Embedded Systems  
(3-0) Cr. 3.  
Industry-standard tools and optimization strategies; practical embedded platforms and technology (reconfigurable platforms, multi-core platforms, low-power platforms); instruction augmentation, memory-mapped accelerator design, embedded software optimization. Students will be encouraged to compete as teams in an embedded system design competition.

CPR E 585: Developmental Robotics  
(Cross-listed with HCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.  
**Prereq:** knowledge of C/C++ programming language  
An introduction to the emerging interdisciplinary field of Developmental Robotics, which crosses the boundaries between robotics, artificial intelligence, developmental psychology, and philosophy. The main goal of this field is to create autonomous robots that are more intelligent, more adaptable, and more useful than the robots of today, which can only function in very limited domains and situations.

CPR E 586: Pervasive Computing  
(3-0) Cr. 3.  
**Prereq:** CPR E 489 or CPR E 530  
Fundamentals of pervasive computing, including location and context awareness, mobile and location services, ubiquitous data access, low power computing and energy management, middleware, security and privacy issues.

CPR E 588: Embedded Computer Systems  
(3-0) Cr. 3.  
**Prereq:** CPR E 308  

CPR E 590: Special Topics  
Cr. 1-6. Repeatable.  
Formulation and solution of theoretical or practical problems in computer engineering.

CPR E 592: Seminar in Computer Engineering  
Cr. 1-4. Repeatable.  
**Prereq:** Permission of instructor  
Projects or seminar in Computer Engineering.

CPR E 594: Selected Topics in Computer Engineering  
(3-0) Cr. 3. Repeatable.

CPR E 599: Creative Component  
Cr. arr. Repeatable.

Courses for graduate students:

CPR E 626: Parallel Algorithms for Scientific Applications  
(Cross-listed with COM S). (3-0) Cr. 3.  
**Prereq:** CPR E 526  
Algorithm design for high-performance computing. Parallel algorithms for multidimensional tree data structures, space-filling curves, random number generation, graph partitioning and load balancing. Applications to grid and particle-based methods and computational biology.

CPR E 632: Information Assurance Capstone Design  
(Cross-listed with INFAS). (3-0) Cr. 3.  
**Prereq:** INFAS 531, INFAS 532, INFAS 534  
Capstone design course which integrates the security design process. Design of a security policy. Creation of a security plan. Implementation of the security plan. The students will attack each other’s secure environments in an effort to defeat the security systems. Students evaluate the security plans and the performance of the plans. Social, political and ethics issues. Student self-evaluation, journaling, final written report.
CPR E 681: Advanced Topics in Computer Architecture
(Cross-listed with COM S). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: CPR E 581. Repeatable with Instructor permission
Current topics in computer architecture design and implementation. Advanced pipelining, cache and memory design techniques. Interaction of algorithms with architecture models and implementations. Tradeoffs in architecture models and implementations.

CPR E 697: Engineering Internship
(Cross-listed with E E). Cr. R. Repeatable.
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

CPR E 699: Research
Cr. arr. Repeatable.

Computer Science (COM S)
Courses primarily for undergraduates:

COM S 101: Orientation
Cr. R.
Introduction to the procedures and policies of Iowa State University and the Department of Computer Science, test-outs, honorary societies, etc. Issues relevant to student adjustment to college life will also be discussed. Offered on a satisfactory-fail basis only.

COM S 103: Computer Applications
Cr. 4.
Introduction to computer literacy and applications. Applications: Windows, Internet browser/HTML, word processing, spreadsheets, database management and presentation software. Literacy: history of computing, structure of computers, telecommunications, computer ethics, computer crime, and history of programming languages. No prior computer experience necessary. Offered online only. Attendance at an orientation session the first week of class is required. Only one of COM S 103 and COM S 113 may count toward graduation.

COM S 104: Introduction to Programming
(1.5-1) Cr. 2.
Offered first 8 weeks and last 8 weeks. Use of personal computer and workstation operating systems and beginning programming. Project-oriented approach to computer operation and programming, including use of tools to aid in programming. Topics from computer history, using basic Windows and Unix tools, program structure, expression, variables, decision and logic, and iteration. No prior computer experience necessary.

COM S 105: Short Course in Computer Programming
Cr. 2.
Prereq: Com S 104
8-week course in programming, including instruction in syntax and semantics, of the following current programming languages.

COM S 105A: Short Course in Computer Programming: Perl
(1-2) Cr. 2.
Prereq: Com S 104
8-week course in programming using Perl.

COM S 105B: Short Course in Computer Programming: MATLAB
(2-0) Cr. 2.
Prereq: Com S 104
8-week course in programming using MATLAB.

COM S 106: Introduction to Web Programming
(3-0) Cr. 3.
Introduction to Web programming basics. Fundamentals of developing Web pages using a comprehensive Web development life cycle. In-depth experience with current Web design techniques such as HTML5 and cascading style sheets. Programming with JavaScript, jQuery, PHP, SQL, and MySQL. Strategies for accessibility, usability and search engine optimization.

COM S 107: Applied Computer Programming
(3-0) Cr. 3.
Introduction to computer programming for non-majors using a language such as the Visual Basic language. Basics of good programming and algorithm development. Graphical user interfaces.

COM S 108: Applied Computer Programming II
(3-0) Cr. 3.
Prereq: Com S 107 or equivalent
Advanced programming applications in Visual Basic for non-majors. Emphasis on programming projects including sorting, file processing, database processing, web programming, and graphics and animation. Students will learn problem solving techniques and advanced programming skills to build real-world applications.

COM S 113: Introduction to Spreadsheets and Databases
(2-2) Cr. 3.
Using Microsoft Excel spreadsheets and Microsoft Access databases to input, store, process, manipulate, query, and analyze data for business and industrial applications. Credit in Com S 113 may not be applied toward graduation in the COM S, S E, and CPR E majors. Only one of COM S 103 and COM S 113 may count toward graduation.
COM S 127: Introduction to Programming for Problem Solving  
(3-2) Cr. 4.  
**Prereq:** MATH 140  
Introduction to computer programming with an emphasis on problem solving. Topics include: program structures, expressions, variables, decision and logic, iteration, collections, input and output. Program construction and testing. Programming assignments including games and applications. No prior programming experience necessary. This course is intended for Computer Science majors.

COM S 203: Careers in Computer Science  
Cr. R.  
Computer science as a profession. Introduction to career fields open to computer science majors. Relationship of coursework to careers. Presentations by computer science professionals. Offered on a satisfactory-fail basis only.

COM S 207: Fundamentals of Computer Programming  
(Cross-listed with MIS). (3-1) Cr. 3.  
**Prereq:** MATH 150 or placement into MATH 140 or higher  
An introduction to computer programming using an object-oriented programming language. Emphasis on the basics of good programming techniques and style. Extensive practice in designing, implementing, and debugging small programs. Use of abstract data types. Interactive and file I/O. Exceptions/error-handling. This course is not designed for computer science, software engineering, and computer engineering majors. Credit may not be applied toward graduation for both Com S 207/ MIS 207 and Com S 227.

COM S 208: Intermediate Computer Programming  
(3-1) Cr. 3.  
**Prereq:** MIS/COM S 207, credit or enrollment in MATH 151, MATH 160, or MATH 165  
Intermediate-level programming techniques. Emphasis on designing, writing, testing, debugging, and documenting medium-sized programs. Data structures and their uses. Dynamic memory usage. Inheritance and polymorphism. Algorithm design and efficiency: recursion, searching, and sorting. Event-driven and GUI programming. The software development process. This course is not designed for computer science, software engineering and computer engineering majors. Credit may not be applied toward the major in computer science, software engineering, or computer engineering.

COM S 227: Introduction to Object-oriented Programming  
(3-2) Cr. 4.  
**Prereq:** Placement into MATH 143, 165, or higher; recommended: a previous high school or college course in programming or equivalent experience.  
Introduction to object-oriented design and programming techniques. Symbolic and numerical computation, recursion and iteration, modularity procedural and data abstraction, and specifications and subtyping. Object-oriented techniques including encapsulation, inheritance and polymorphism. Imperative programming. Emphasis on principles of programming and object-oriented design through extensive practice in design, writing, running, debugging, and reasoning. Course intended for Com S majors. Credit may not be applied toward graduation for both Com S 207 and 227.

COM S 228: Introduction to Data Structures  
(3-1) Cr. 3.  
**Prereq:** Minimum of C- in COM S 227, credit or enrollment in MATH 165  
An object-oriented approach to data structures and algorithms. Object-oriented analysis, design, and programming, with emphasis on data abstraction, inheritance and subtype polymorphism. Abstract data type specification and correctness. Collections and associated algorithms, such as stacks, queues, lists, trees. Searching and sorting algorithms. Graphs. Data on secondary storage. Analysis of algorithms. Emphasis on object-oriented design, writing and documenting medium-sized programs. This course is designed for majors.

COM S 230: Discrete Computational Structures  
(3-1) Cr. 3.  
**Prereq:** Minimum of C- in COM S 227 and MATH 165; ENGL 150  
Concepts in discrete mathematics as applied to computer science. Logic, proof techniques, set theory, relations, graphs, combinatorics, discrete probability and number theory.

COM S 252: Linux Operating System Essentials  
(3-0) Cr. 3.  
**Prereq:** COM S 107 or COM S 127 or COM S 207 or COM S 227  
Introduction to installation, utilization, and administration of Linux systems. Topics include open-source software, package installation and management, shell programming and command-line utilities, process and service management, account management, network configuration, file sharing, interoperation with other computers and operating systems, automation, and system security.

COM S 290: Independent Study  
Cr. arr. Repeatable, maximum of 6 credits.  
**Prereq:** Permission of instructor  
No more than 6 credits of Com S 290 or Com S 290H may be counted toward graduation.
COM S 290H: Independent Study: Honors
Cr. arr. Repeatable, maximum of 6 credits.
Prereq: Permission of instructor
No more than 6 credits of Com S 290 or Com S 290H may be counted toward graduation.

COM S 309: Software Development Practices
(3-1) Cr. 3.
Prereq: Minimum of C- in COM S 228 and MATH 165
A practical introduction to methods for managing software development. Process models, requirements analysis, structured and object-oriented design, coding, testing, maintenance, cost and schedule estimation, metrics. Programming projects.

COM S 311: Design and Analysis of Algorithms
(3-1) Cr. 3.
Prereq: Minimum of C- in COM S 228; MATH 166, ENGL 150, and COM S 230 or CPR E 310
Basic techniques for design and analysis of efficient algorithms. Sorting, searching, graph algorithms, computational geometry, string processing and NP-completeness. Design techniques such as dynamic programming and the greedy method. Asymptotic, worst-case, average-case and amortized analyses. Data structures including heaps, hash tables, binary search trees and red-black trees. Programming projects.

COM S 319: Software Construction and User Interfaces
(Cross-listed with S E). (3-0) Cr. 3.
Prereq: COM S 228

COM S 321: Introduction to Computer Architecture and Machine-Level Programming
(3-1) Cr. 3.
Prereq: Minimum of C- in COM S 228 and MATH 165; COM S 230 or CPR E 281; ENGL 250
Introduction to computer architecture and organization. Emphasis on evaluation of performance, instruction set architecture, datapath and control, memory-hierarchy design, and pipelining. Assembly language programming.

COM S 327: Advanced Programming Techniques
(3-0) Cr. 3.
Prereq: Minimum of C- in COM S 228 and MATH 165
Object-oriented programming experience using a language suitable for exploring advanced topics in programming. Topics include memory management, parameter passing, inheritance, compiling, debugging, and maintaining programs. Significant programming projects.

COM S 331: Theory of Computing
(Cross-listed with LING). (3-1) Cr. 3.
Prereq: Minimum of C- in COM S 228, MATH 166, and in COM S 230 or CPR E 310; ENGL 250

COM S 336: Introduction to Computer Graphics
(3-0) Cr. 3.
Prereq: COM S 327, CoReq MATH 207 or MATH 317
Basic algorithms, design, and programming of interactive computer graphics systems and hardware. Topics include 2D and 3D transformations, 3D viewing, visible surface algorithms, collision detection, illumination models, shading, ray tracing, shadows, transparency and texture mapping.

COM S 342: Principles of Programming Languages
(Cross-listed with S E). (3-1) Cr. 3.
Prereq: Minimum of C- in COM S 228 and MATH 165; COM S 230 or CPR E 310
Study of concepts in programming languages and major programming paradigms, especially functional programming. Special emphasis on design tradeoffs that enable students to make sound choices of programming languages for a given software development task. Programming projects.

COM S 350: Number Theory
(Cross-listed with MATH). (3-0) Cr. 3. S.
Prereq: MATH 201 or COM S 230
Divisibility, integer representations, primes and divisors, linear diophantine equations, congruences, and multiplicative functions. Applications to cryptography.

COM S 352: Introduction to Operating Systems
(3-1) Cr. 3.
Prereq: COM S 321, and COM S 327; ENGL 250
Survey of operating system issues. Introduction to hardware and software components including: processors, peripherals, interrupts, management of processes, threads and memory, deadlocks, file systems, protection, virtual machines and system organization, and introduction to distributed operating systems. Programming projects.
COM S 362: Object-Oriented Analysis and Design
(3-0) Cr. 3.
Prereq: Minimum of C- in COM S 228 and MATH 165; ENGL 250
Object-oriented requirements analysis and systems design. Design notations such as the Unified Modeling Language. Design Patterns. Group design and programming with large programming projects.

COM S 363: Introduction to Database Management Systems
(3-0) Cr. 3.
Prereq: Minimum of C- in COM S 228 and MATH 165; ENGL 250

COM S 398: Cooperative Education
Cr. R. Repeatable.
Prereq: Permission of department chair
Required of all cooperative students. Students must register for this course prior to commencing each work period.

COM S 402: Computer Science Senior Project
Cr. 2-3. Repeatable, maximum of 6 credits.
Students work as individuals and teams to complete the planning, design, and implementation of a significant project in the topic area. Oral and written reports. No more than 6 credits of 402A, 402B, and 402C may be used toward graduation.

COM S 402A: Computer Science Senior Project: Multimedia and Computer Gaming I
Cr. 2-3. Repeatable, maximum of 6 credits.
Prereq: COM S 437
Students conceive, plan, architect and design a computer game. Student registered in this course will work with students in ARTIS 409. Oral and written reports. No more than 6 credits of 402A, 402B, and 402C may be used toward graduation.

COM S 402B: Computer Science Senior Project: Multimedia and Computer Gaming II
Cr. 2-3. Repeatable, maximum of 6 credits.
Prereq: COM S 402A
Students implement, test, and present a completed production computer game. Students in this class will work with students in ARTIS 409. Oral and written reports. No more than 6 credits of 402A, 402B, and 402C may be used toward graduation.

COM S 402C: Computer Science Senior Project: Project in Computer Science
(0-6) Cr. 2-3. Repeatable, maximum of 6 credits.
Prereq: Permission of instructor
Students work as individuals and teams to complete the planning, design, and implementation of a significant project in the topic area. Oral and written reports. No more than 6 credits of 402A, 402B, and 402C may be used toward graduation.

COM S 409: Software Requirements Engineering
(Dual-listed with COM S 509). (3-0) Cr. 3.
Prereq: COM S 309; for graduate credit: graduate standing or permission of instructor
The requirements engineering process including identification of stakeholders requirements elicitation techniques such as interviews and prototyping, analysis fundamentals, requirements specification, and validation. Use of Models: State-oriented, Function-oriented, and Object-oriented. Documentation for Software Requirements. Informal, semi-formal, and formal representations. Structural, informational, and behavioral requirements. Non-functional requirements. Use of requirements repositories to manage and track requirements through the life cycle. Case studies and software projects will be required.

COM S 410: Distributed Development of Software
(Dual-listed with COM S 510). (3-0) Cr. 3.
Prereq: COMS 228, COMS 309, COMS 327; for graduate credit: graduate standing or permission of instructor
Team with students at foreign universities to develop a software application. Importance of distributed development. Design for distributed development, effective processes for distributed development, and cultural issues in distributed development, organizing for distributed development, communication techniques and skills for distributed development, including oral presentations. Graduate credit requires in-depth study of concepts.

COM S 412: Formal Methods in Software Engineering
(Dual-listed with COM S 512). (Cross-listed with CPR E, S E). (3-0) Cr. 3.
Prereq: COM S 230 or CPR E 310; COM S 311, STAT 330; for graduate credit: graduate standing or permission of instructor
A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms and tools for automatic analysis of systems. Graduate credit requires in-depth study of concepts.
COM S 414: Gerontechnology in Smart Home Environments
(Dual-listed with COM S 514). (3-0) Cr. 3.
Prereq: COM S 227 or (COM S 207 or GERON 377 or ARTGR 271) or equivalent;
for graduate credit: graduate standing or permission of instructor
An interdisciplinary course designed for students who are interested
in assistive technology, pervasive computing, mobile computing and
principles of universal and inclusive design for end users, in particular,
the elderly population. Students will work in semester-long projects as
interdisciplinary teams to apply knowledge obtained from lectures and
mutual presentations. For graduate credit students are required to submit
a research report and give an oral presentation.

COM S 415: Software System Safety
(Dual-listed with COM S 515). (3-0) Cr. 3.
Prereq: For graduate credit: graduate standing or permission of instructor
An introduction to the analysis, design, and testing of software for
safety-critical and high-integrity systems. Analysis techniques, formal
verification, fault identification and recovery, model checking, and
certification issues. Emphasizes a case-based and systematic approach
to software’s role in safe systems.

COM S 417: Software Testing
(Cross-listed with S E). (3-0) Cr. 3.
Prereq: COM S 309; COM S 230 or CPR E 310; ENGL 250, SP CM 212
Comprehensive study of software testing, principles, methodologies,
management strategies and techniques. Test models, test design
techniques (black box and white box testing techniques), test adequacy
criteria, integration, regression, system testing methods, and software
testing tools.

COM S 418: Introduction to Computational Geometry
(Dual-listed with COM S 518). (3-0) Cr. 3.
Prereq: COM S 311 or permission of instructor; for graduate credit: graduate
standing or permission of instructor
Introduction to data structures, algorithms, and analysis techniques
for computational problems that involve geometry. Line segment
intersection, polygon triangulation, 2D linear programming, range queries,
point location, arrangements and duality, Voronoi diagrams and Delaunay
triangulation, convex hulls, robot motion planning, visibility graphs. Other
selected topics. Programming assignments.

COM S 421: Logic for Mathematics and Computer Science
(Cross-listed with MATH). (3-0) Cr. 3.
Prereq: MATH 301 or MATH 207 or MATH 317 or COM S 230
Propositional and predicate logic. Topics selected from Horn logic,
equational logic, resolution and unification, foundations of logic
programming, reasoning about programs, program specification and
verification, model checking and binary decision diagrams, temporal logic
and modal logic.

COM S 424: Introduction to High Performance Computing
(Cross-listed with CPR E, MATH). (2-2) Cr. 3. F.
Prereq: MATH 265; MATH 207 or MATH 317
UNIX, serial programming for high performance, OpenMP for high
performance, shared memory parallelization. Semester project required.

COM S 425: High Performance Computing for Scientific and Engineering
Applications
(Cross-listed with CPR E). (3-1) Cr. 3.
Prereq: COM S 311, COM S 230, ENGL 250, SP CM 212
Introduction to high performance computing platforms including parallel
computers and workstation clusters. Discussion of parallel architectures,
performance, programming models, and software development issues.
Sample applications from science and engineering. Practical issues
in high performance computing will be emphasized via a number of
programming projects using a variety of programming models and case
studies. Oral and written reports.

COM S 426: Introduction to Parallel Algorithms and Programming
(Dual-listed with COM S 526). (Cross-listed with CPR E). (3-2) Cr. 4. F.
Prereq: CPR E 308 or COM S 321, CPR E 315 or COM S 311
Models of parallel computation, performance measures, basic parallel
constructs and communication primitives, parallel programming using
MPI, parallel algorithms for selected problems including sorting, matrix,
tree and graph problems, fast Fourier transforms.

COM S 430: Advanced Programming Tools
(3-1) Cr. 3.
Prereq: COM S 311, COM S 362 or COM S 363, ENGL 250, SP CM 212
Topics in advanced programming techniques and tools widely used by
industry (e.g., event-driven programming and graphical user interfaces,
standard libraries, client/server architectures and techniques for
distributed applications). Emphasis on programming projects in a modern
integrated development environment. Oral and written reports.

COM S 433: Computational Models of Nanoscale Self-Assembly
(Dual-listed with COM S 533). (3-0) Cr. 3.
Prereq: Minimum of C- in COM S 331 or consent of the instructor; for graduate
credit: graduate standing or permission of instructor
Modeling and analysis of natural and engineered systems that
spontaneously assemble themselves from small components. Topics
include biomolecular self-assembly, tile assembly models, computation
via self-assembly, distributed folding, origami models, and self-
repair. Emphasis on mathematical methods of describing, simulating,
programming, and verifying the behaviors of self-assembling systems.
Graduate credit requires a written or oral report on current research.
COM S 435: Algorithms for Large Data Sets: Theory and Practice
(Dual-listed with COM S 535). (3-0) Cr. 3.
Prereq: COM S 228, COM S 230 or CPR E 310, COM S 311 or equivalent
Challenges involved in solving computational problems on massive data sets. Discussion of computational problems that arise in the context of web search, social network analysis, recommendation systems, and online advertising etc. Theoretical aspects include modeling the computational problems using graphs, study of similarity measures and hash functions, and design of efficient algorithms for graphs. Practical aspects include implementation and performance evaluation of the algorithms on real world data sets. Graduate credit requires a written report on current research.

COM S 437: Computer Game and Media Programming
(3-0) Cr. 3.
Prereq: COM S 336 or permission of instructor
Students will learn video game programming using current game engine interfaces with real hardware. Particular attention is paid to the console architecture, development environment, tool chains, 2D graphics, 3D graphics, controllers, memory management, and audio systems. Students will complete the course by writing a simple game that runs on console hardware.

COM S 440: Principles and Practice of Compiling
(Dual-listed with COM S 540). (3-1) Cr. 3.
Prereq: COM S 331, COM S 342, ENGL 250, SP CM 212; for graduate credit: graduate standing or permission of instructor
Theory of compiling and implementation issues of programming languages. Programming projects leading to the construction of a compiler. Projects with different difficulty levels will be given for 440 and 540. Topics: lexical, syntax and semantic analyses, syntax-directed translation, runtime environment and library support. Written reports.

COM S 441: Programming Languages
(Dual-listed with COM S 541). (3-1) Cr. 3.
Prereq: COM S 342 or COM S 440; for graduate credit: graduate standing or permission of instructor
Survey of the goals and problems of language design. Formal and informal studies of a wide variety of programming language features including type systems. Creative use of functional and declarative programming paradigms.

COM S 444: Bioinformatic Analysis
(Cross-listed with BCB, BCBIO, BIOL, CPR E, GEN). (4-0) Cr. 4. F.
Prereq: MATH 165 or STAT 401 or equivalent.
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: bioinformatic data processing, Perl programming, genome assembly, database search, sequence alignment, gene prediction, next-generation sequencing, comparative and functional genomics, and systems biology.

COM S 454: Distributed Systems
(Dual-listed with COM S 554). (Cross-listed with CPR E). (3-1) Cr. 3.
Prereq: COM S 311, COM S 352; for graduate credit: graduate standing or permission of instructor
Theoretical and practical issues of design and implementation of distributed systems. The client server paradigm, inter-process communications, synchronization and concurrency control, naming, consistency and replication, fault tolerance, and distributed file systems. Graduate credit requires additional in-depth study of concepts. Programming projects and written reports.

COM S 455: Simulation: Algorithms and Implementation
(Dual-listed with COM S 555). (3-0) Cr. 3.
Prereq: COM S 311 and COM S 230, STAT 330, ENGL 150, SP CM 212; for graduate credit: graduate standing or permission of instructor
Introduction to discrete-event simulation with a focus on computer science applications, including performance evaluation of networks and distributed systems. Overview of algorithms and data structures necessary to implement simulation software. Discrete and continuous stochastic models, random number generation, elementary statistics, simulation of queuing and inventory systems, Monte Carlo simulation, point and interval parameter estimation. Graduate credit requires additional in-depth study of concepts. Oral and written reports.

COM S 461: Principles and Internals of Database Systems
(Dual-listed with COM S 561). (3-1) Cr. 3.
Prereq: COM S 311, ENGL 250, SP CM 212; for graduate credit: graduate standing or permission of instructor
Models for structured and semistructured data. Algebraic, first order, and user-oriented query languages. Database schema design. Physical storage, access methods, and query processing. Transaction management, concurrency control, and crash recovery. Database security. Information integration using data warehouses, mediators, wrappers, and data mining. Parallel and distributed databases, and special purpose databases. Students enrolling in Com S 561 will require additional study of advanced concepts in database systems.
COM S 472: Principles of Artificial Intelligence
(Dual-listed with COM S 572). (3-1) Cr. 3.
Prereq: COM S 311, COM S 230 or CPR E 310, STAT 330, ENGL 250, SP CM 212, COM S 342 or comparable programming experience; for graduate credit: graduate standing or permission of instructor
Specification, design, implementation, and selected applications of intelligent software agents and multi-agent systems. Computational models of intelligent behavior, including problem solving, knowledge representation, reasoning, planning, decision making, learning, perception, action, communication and interaction. Reactive, deliberative, rational, adaptive, learning and communicative agents and multiagent systems. Artificial intelligence programming. A research project and a written report is required for students enrolled in Com S 572.

COM S 474: Introduction to Machine Learning
(Dual-listed with COM S 574). (3-1) Cr. 3.
Prereq: COM S 311, COM S 230 or CPR E 310, STAT 330, MATH 165, ENGL 250, SP CM 212, COM S 342 or comparable programming experience
Basic principles, techniques, and applications of Machine Learning. Design, analysis, implementation, and applications of learning algorithms. Topics include: statistical learning, pattern classification, function approximation, Bayesian learning, linear models, artificial neural networks, support vector machines, decision trees, instance based learning, probabilistic graphical models, unsupervised learning, selected applications in automated knowledge acquisition, pattern recognition, and data mining.

COM S 477: Problem Solving Techniques for Applied Computer Science
(Dual-listed with COM S 577). (3-0) Cr. 3.
Prereq: COM S 228; COM S 230 or CPR E 310, MATH 166, MATH 207 or MATH 317, or consent of the instructor; for graduate credit: graduate standing or permission of instructor
Selected topics in applied mathematics and modern heuristics that have found applications in areas such as geometric modeling, graphics, robotics, vision, human machine interface, speech recognition, computer animation, etc. Homogeneous coordinates and transformations, perspective projection, quaternions and rotations, polynomial interpolation, roots of polynomials, resultants, solution of linear and nonlinear equations, approximation, data fitting, Fourier series and fast Fourier transform, linear programming, nonlinear optimization, Lagrange multipliers, parametric and algebraic curves, curvature, Frenet formulas, Bezier curves. Programming components. A scholarly report is required for graduate credit.

COM S 481: Numerical Methods for Differential Equations
(Cross-listed with MATH). (3-0) Cr. 3. S.
Prereq: MATH 265 and either MATH 266 or MATH 267

COM S 486: Fundamental Concepts in Computer Networking
(3-0) Cr. 3.
Prereq: COM S 352
An introduction to fundamental concepts in the design and implementation of computer communication in both the wired and wireless networks, their protocols, and applications. Layered network architecture in the Internet, applications, transport, Socket APIs, network, and data link layers and their protocols, multimedia networking, and network security.

COM S 487: Network Programming, Applications, and Research Issues
(Dual-listed with COM S 587). (3-0) Cr. 3.
Prereq: Com S 352 or CPR E 489 or equivalent; for graduate credit: graduate standing or permission of instructor
Programming paradigms for building distributed and networking applications, including multithreaded client-server programming, socket programming, distributed object frameworks and programming suites, and web computing and security. Introduction to some on-going research issues in distributed and networking applications, including peer-to-peer computing, multimedia communications, and mobile computing and networking. A written report and an oral presentation is required for students enrolling in Com S 587.

COM S 490: Independent Study
Cr. arr. Repeatable, maximum of 9 credits.
Prereq: 6 credits in computer science, permission of instructor
No more than 9 credits of Com S 490 or Com S 490H may be counted toward graduation.

COM S 490H: Independent Study: Honors
Cr. arr. Repeatable, maximum of 9 credits.
Prereq: 6 credits in computer science, permission of instructor
No more than 9 credits of Com S 490 or Com S 490H may be counted toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:
COM S 509: Software Requirements Engineering  
(Dual-listed with COM S 409). (3-0) Cr. 3.  
Prereq: COM S 309; for graduate credit: graduate standing or permission of instructor  
The requirements engineering process including identification of stakeholders requirements elicitation techniques such as interviews and prototyping, analysis fundamentals, requirements specification, and validation. Use of Models: State-oriented, Function-oriented, and Object-oriented. Documentation for Software Requirements. Informal, semi-formal, and formal representations. Structural, informational, and behavioral requirements. Non-functional requirements. Use of requirements repositories to manage and track requirements through the life cycle. Case studies and software projects will be required.

COM S 510: Distributed Development of Software  
(Dual-listed with COM S 410). (3-0) Cr. 3.  
Prereq: COMS 228, COMS 309, COMS 327; for graduate credit: graduate standing or permission of instructor  
Team with students at foreign universities to develop a software application. Importance of distributed development. Design for distributed development, effective processes for distributed development, and cultural issues in distributed development, organizing for distributed development, communication techniques and skills for distributed development, including oral presentations. Graduate credit requires in-depth study of concepts.

COM S 511: Advanced Design and Analysis of Algorithms  
(Cross-listed with CPR E). (3-0) Cr. 3.  
Prereq: COM S 311  
A study of algorithm design and analysis techniques. Advanced data structures, amortized analysis and randomized algorithms. Applications to sorting, graphs, and geometry. NP-completeness and approximation algorithms.

COM S 512: Formal Methods in Software Engineering  
(Dual-listed with COM S 412). (3-0) Cr. 3.  
Prereq: COM S 230 or CPR E 310; COM S 311, STAT 330; for graduate credit: graduate standing or permission of instructor  
A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms and tools for automatic analysis of systems. Graduate credit requires in-depth study of concepts.

COM S 514: Gerontechnology in Smart Home Environments  
(Dual-listed with COM S 414). (3-0) Cr. 3.  
Prereq: COM S 227 or (COM S 207 or GERON 377 or ARTGR 271) or equivalent; for graduate credit: graduate standing or permission of instructor  
An interdisciplinary course designed for students who are interested in assistive technology, pervasive computing, mobile computing and principles of universal and inclusive design for end users, in particular, the elderly population. Students will work in semester-long projects as interdisciplinary teams to apply knowledge obtained from lectures and mutual presentations. For graduate credit students are required to submit a research report and give an oral presentation.

COM S 515: Software System Safety  
(Dual-listed with COM S 415). (3-0) Cr. 3.  
Prereq: For graduate credit: graduate standing or permission of instructor  
An introduction to the analysis, design, and testing of software for safety-critical and high-integrity systems. Analysis techniques, formal verification, fault identification and recovery, model checking, and certification issues. Emphasizes a case-based and systematic approach to software's role in safe systems.

COM S 518: Introduction to Computational Geometry  
(Dual-listed with COM S 418). (3-0) Cr. 3.  
Prereq: COM S 311 or permission of instructor; for graduate credit: graduate standing or permission of instructor  
Introduction to data structures, algorithms, and analysis techniques for computational problems that involve geometry. Line segment intersection, polygon triangulation, 2D linear programming, range queries, point location, arrangements and duality, Voronoi diagrams and Delaunay triangulation, convex hulls, robot motion planning, visibility graphs. Other selected topics. Programming assignments.

COM S 525: Numerical Analysis of High Performance Computing  
(Cross-listed with CPR E, MATH). (3-0) Cr. 3. S.  
Prereq: CPR E 308 or MATH 481; experience in scientific programming; knowledge of FORTRAN or C  
Introduction to parallelization techniques and numerical methods for distributed memory high performance computers. A semester project in an area related to each student's research interests is required.

COM S 526: Introduction to Parallel Algorithms and Programming  
(Dual-listed with COM S 426). (Cross-listed with CPR E). (3-2) Cr. 4. F.  
Prereq: CPR E 308 or COM S 321, CPR E 315 or COM S 311  
Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms.
COM S 531: Theory of Computation
(3-0) Cr. 3.
Prereq: COM S 331
A systematic study of the fundamental models and analytical methods of theoretical computer science. Computability, the Church-Turing thesis, decidable and undecidable problems, and the elements of recursive function theory. Time complexity, logic, Boolean circuits, and NP-completeness. Role of randomness in computation.

COM S 533: Computational Models of Nanoscale Self-Assembly
(Dual-listed with COM S 433). (3-0) Cr. 3.
Prereq: Minimum of C- in COM S 331 or consent of the instructor; for graduate credit: graduate standing or permission of instructor
Modeling and analysis of natural and engineered systems that spontaneously assemble themselves from small components. Topics include biomolecular self-assembly, tile assembly models, computation via self-assembly, distributed folding, origami models, and self-repair. Emphasis on mathematical methods of describing, simulating, programming, and verifying the behaviors of self-assembling systems. Graduate credit requires a written or oral report on current research.

COM S 535: Algorithms for Large Data Sets: Theory and Practice
(Dual-listed with COM S 435). (3-0) Cr. 3.
Prereq: COM S 228, COM S 230 or CPR E 310, COM S 311 or equivalent
Challenges involved in solving computational problems on massive data sets. Discussion of computational problems that arise in the context of web search, social network analysis, recommendation systems, and online advertising etc. Theoretical aspects include modeling the computational problems using graphs, study of similarity measures and hash functions, and design of efficient algorithms for graphs. Practical aspects include implementation and performance evaluation of the algorithms on real world data sets. Graduate credit requires a written report on current research.

COM S 540: Principles and Practice of Compiling
(Dual-listed with COM S 440). (3-1) Cr. 3.
Prereq: COM S 331, COM S 342, ENGL 250, SP CM 212; for graduate credit: graduate standing or permission of instructor
Theory of compiling and implementation issues of programming languages. Programming projects leading to the construction of a compiler. Projects with different difficulty levels will be given for 440 and 540. Topics: lexical, syntax and semantic analyses, syntax-directed translation, runtime environment and library support. Written reports.

COM S 541: Programming Languages
(Dual-listed with COM S 441). (3-1) Cr. 3.
Prereq: COM S 342 or COM S 440; for graduate credit: graduate standing or permission of instructor
Survey of the goals and problems of language design. Formal and informal studies of a wide variety of programming language features including type systems. Creative use of functional and declarative programming paradigms.

COM S 544: Fundamentals of Bioinformatics
(Cross-listed with BCB, CPR E, GDCB). (4-0) Cr. 4. F.
Prereq: MATH 165 or STAT 401 or equivalent
A practical, hands-on overview of how to apply bioinformatics to biological research. Recommended for biologists desiring to gain computational molecular biology skills. Topics include: sequence analysis, genomics, proteomics, phylogenetic analyses, ontology enrichment, systems biology, data visualization and emergent technologies.

COM S 549: Advanced Algorithms in Computational Biology
(Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: COM S 311 and either COM S 228 or COM S 208
Design and analysis of algorithms for applications in computational biology, pairwise and multiple sequence alignments, approximation algorithms, string algorithms including in-depth coverage of suffix trees, semi-numerical string algorithms, algorithms for selected problems in fragment assembly, phylogenetic trees and protein folding. No background in biology is assumed. Also useful as an advanced algorithms course in string processing.

COM S 550: Evolutionary Problems for Computational Biologists
(3-0) Cr. 3.
Prereq: COM S 311 and some knowledge of programming
Discussion and analysis of basic evolutionary principles and the necessary knowledge in computational biology to solve real world problems. Topics include character and distance based methods, phylogenetic tree distances, and consensus methods, and approaches to extract the necessary information from sequence-databases to build phylogenetic trees.

COM S 551: Computational Techniques for Genome Assembly and Analysis
(3-0) Cr. 3.
Prereq: COM S 311 and some knowledge of programming
Introduction to practical sequence assembly and comparison techniques. Topics include global alignment, local alignment, overlapping alignment, banded alignment, linear-space alignment, word hashing, DNA-protein alignment, DNA-cDNA alignment, comparison of two sets of sequences, construction of contigs, and generation of consensus sequences. Focus on development of sequence assembly and comparison programs.
COM S 552: Principles of Operating Systems
(3-0) Cr. 3.
Prereq: For graduate credit: graduate standing or permission of instructor
A comparative study of high-level language facilities for process synchronization and communication. Formal analysis of deadlock, concurrency control and recovery. Protection issues including capability-based systems, access and flow control, encryption, and authentication. Additional topics chosen from distributed operating systems, soft real-time operating systems, and advanced security issues.

COM S 554: Distributed Systems
(Dual-listed with COM S 454). (Cross-listed with CPR E). (3-1) Cr. 3.
Prereq: COM S 311, COM S 352; for graduate credit: graduate standing or permission of instructor
Theoretical and practical issues of design and implementation of distributed systems. The client server paradigm, inter-process communications, synchronization and concurrency control, naming, consistency and replication, fault tolerance, and distributed file systems. Graduate credit requires additional in-depth study of concepts. Programming projects and written reports.

COM S 555: Simulation: Algorithms and Implementation
(Dual-listed with COM S 455). (3-0) Cr. 3.
Prereq: COM S 311 and COM S 230, STAT 330, ENGL 150, SP CM 212; for graduate credit: graduate standing or permission of instructor
Introduction to discrete-event simulation with a focus on computer science applications, including performance evaluation of networks and distributed systems. Overview of algorithms and data structures necessary to implement simulation software. Discrete and continuous stochastic models, random number generation, elementary statistics, simulation of queuing and inventory systems, Monte Carlo simulation, point and interval parameter estimation. Graduate credit requires additional in-depth study of concepts. Oral and written reports.

COM S 556: Analysis Algorithms for Stochastic Models
(3-0) Cr. 3.
Prereq: Graduate standing or permission of instructor
Introduction to the use of stochastic models to study complex systems, including network communication and distributed systems. Data structures and algorithms for analyzing discrete-state models expressed in high-level formalisms. State space and reachability graph construction, model checking, Markov chain construction and numerical solution, computation of performance measures, product-form models, approximations, and advanced techniques.

COM S 557: Computer Graphics and Geometric Modeling
(Cross-listed with CPR E, M E). (3-0) Cr. 3. F.
Prereq: M E 421, programming experience in C

COM S 558: Introduction to the 3D Visualization of Scientific Data
(Cross-listed with GEOL, HCI). (2-2) Cr. 3. Alt. F., offered even-numbered years.
Prereq: Graduate-student standing in the mathematical or natural sciences or engineering; basic programming knowledge
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, and engineering). Class project in interactive 3D visualization using the ParaView, Mayavi, TVTK, VTK or a similar system.

COM S 561: Principles and Internals of Database Systems
(Dual-listed with COM S 461). (3-1) Cr. 3.
Prereq: COM S 311, ENGL 250, SP CM 212; for graduate credit: graduate standing or permission of instructor
Models for structured and semistructured data. Algebraic, first order, and user-oriented query languages. Database schema design. Physical storage, access methods, and query processing. Transaction management, concurrency control, and crash recovery. Database security. Information integration using data warehouses, mediators, wrappers, and data mining. Parallel and distributed databases, and special purpose databases. Students enrolling in Com S 561 will require additional study of advanced concepts in database systems.

COM S 567: Bioinformatics I (Bioinformatics Algorithms)
(Cross-listed with BCB, CPR E). (3-0) Cr. 3.
Prereq: COM S 228; COM S 330; credit or enrollment in BIOL 315, STAT 430
Biology as an information science. A review of the algorithmic principles that are driving the advances in bioinformatics and computational biology.

COM S 568: Bioinformatics II (Statistical Bioinformatics)
(Cross-listed with BCB, GDCB, STAT). (3-0) Cr. 3. S.
Prereq: BCB 567 or (BIOL 315 and STAT 430), credit or enrollment in GEN 409
Statistical models for sequence data, including applications in genome annotation, motif discovery, variant discovery, molecular phylogeny, gene expression analysis, and metagenomics. Statistical topics include model building, inference, hypothesis testing, and simple experimental design, including for big data/complex models.
COM S 569: Bioinformatics III (Structural Bioinformatics)
(Cross-listed with BBMB, BCB, CPR E, GDCB). (3-0) Cr. 3. F.
Prereq: BCB 567, BBMB 316, GEN 409, STAT 430

COM S 570: Bioinformatics IV (Systems Biology)
(Cross-listed with BCB, CPR E, GDCB, STAT). (3-0) Cr. 3. S.
Prereq: BCB 567 or COM S 311, COM S 228, GEN 409, STAT 430

COM S 572: Principles of Artificial Intelligence
(Dual-listed with COM S 472). (3-1) Cr. 3.
Prereq: COM S 311, COM S 230 or CPR E 310, STAT 330, ENGL 250, SP CM 212, COM S 342 or comparable programming experience; for graduate credit: graduate standing or permission of instructor
Specification, design, implementation, and selected applications of intelligent software agents and multi-agent systems. Computational models of intelligent behavior, including problem solving, knowledge representation, reasoning, planning, decision making, learning, perception, action, communication and interaction. Reactive, deliberative, rational, adaptive, learning and communicative agents and multiagent systems. Artificial intelligence programming. A research project and a written report is required for students enrolled in Com S 572.

COM S 573: Machine Learning
(3-1) Cr. 3.
Prereq: Graduate standing or permission of instructor

COM S 574: Introduction to Machine Learning
(Dual-listed with COM S 474). (3-1) Cr. 3.
Prereq: COM S 311, COM S 230 or CPR E 310, STAT 330, MATH 165, ENGL 250, SP CM 212, COM S 342 or comparable programming experience
Basic principles, techniques, and applications of Machine Learning. Design, analysis, implementation, and applications of learning algorithms. Topics include: statistical learning, pattern classification, function approximation, Bayesian learning, linear models, artificial neural networks, support vector machines, decision trees, instance based learning, probabilistic graphical models, unsupervised learning, selected applications in automated knowledge acquisition, pattern recognition, and data mining.

COM S 575: Computational Perception
(Cross-listed with CPR E, HCI). (3-0) Cr. 3. S.
Prereq: Graduate standing or permission of instructor
Statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. Focuses on machine perception techniques that facilitate and augment human-computer interaction. Introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.
COM S 577: Problem Solving Techniques for Applied Computer Science
(Dual-listed with COM S 477). (3-0) Cr. 3.
Prereq: COM S 228; COM S 230 or CPR E 310, MATH 166, MATH 207 or MATH 317, or consent of the instructor; for graduate credit: graduate standing or permission of instructor
Selected topics in applied mathematics and modern heuristics that have found applications in areas such as geometric modeling, graphics, robotics, vision, human machine interface, speech recognition, computer animation, etc. Homogeneous coordinates and transformations, perspective projection, quaternions and rotations, polynomial interpolation, roots of polynomials, resultants, solution of linear and nonlinear equations, approximation, data fitting, Fourier series and fast Fourier transform, linear programming, nonlinear optimization, Lagrange multipliers, parametric and algebraic curves, curvature, Frenet formulas, Bezier curves. Programming components. A scholarly report is required for graduate credit.

COM S 581: Computer Systems Architecture
(Cross-listed with CPR E). (3-0) Cr. 3. F.
Prereq: CPR E 381
Quantitative principles of computer architecture design, instruction set design, processor architecture: pipelining and superscalar design, instruction level parallelism, memory organization: cache and virtual memory systems, multiprocessor architecture, cache coherency, interconnection networks and message routing, I/O devices and peripherals.

COM S 583: Reconfigurable Computing Systems
(Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: Background in computer architecture, design, and organization
Introduction to reconfigurable computing, FPGA technology and architectures, spatial computing architectures such as systolic and bit serial adaptive network architectures, static and dynamic rearrangeable interconnection architectures, processor architectures incorporating reconfigurability.

COM S 586: Computer Network Architectures
(3-0) Cr. 3.
Prereq: COM S 511, COM S 552 or CPR E 489
Design and implementation of computer communication networks: layered network architectures, local area networks, data link protocols, distributed routing, transport services, network programming interfaces, network applications, error control, flow/congestion control, interconnection of heterogeneous networks, TCP/IP, ATM networks, multimedia communications, IP and application multicast, overlay networks, network security and web computing.

COM S 587: Network Programming, Applications, and Research Issues
(Dual-listed with COM S 487). (3-0) Cr. 3.
Prereq: Com S 352 or CPR E 489 or equivalent; for graduate credit: graduate standing or permission of instructor
Programming paradigms for building distributed and networking applications, including multithreaded client-server programming, socket programming, distributed object frameworks and programming suites, and web computing and security. Introduction to some on-going research issues in distributed and networking applications, including peer-to-peer computing, multimedia communications, and mobile computing and networking. A written report and an oral presentation is required for students enrolling in COM S 587.

COM S 590: Special Topics
Cr. arr. Repeatable.
Prereq: Permission of instructor
Offered on a satisfactory-fail basis only.

COM S 592: Research Colloquia
Cr. 1.
Prereq: Graduate classification
Attend Computer Science Research Colloquia. Written summary is required. Offered on a satisfactory-fail basis only.

COM S 598: Graduate Internship
Cr. R. Repeatable.
Prereq: Graduate Classification
Supervised internship working in professional settings appropriate to the student's degree program. Academic work under faculty supervision.

COM S 599: Creative Component
Cr. 1-3.
Creative component for nonthesis option of Master of Science degree. Offered on a satisfactory-fail basis only.

Courses for graduate students:

COM S 610: Seminar
Cr. arr.
Offered on a satisfactory-fail basis only.

COM S 611: Advanced Topics in Analysis of Algorithms
(3-0) Cr. 3. Repeatable.
Prereq: COM S 511, COM S 531
Advanced algorithm analysis and design techniques. Topics include graph algorithms, algebraic algorithms, number-theoretic algorithms, randomized and parallel algorithms. Intractable problems and NP-completeness. Advanced data structures.
COM S 612: Distributed Algorithms
(3-0) Cr. 3.
Prereq: COM S 511 or COM S 531

COM S 626: Parallel Algorithms for Scientific Applications
(Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: CPR E 526
Algorithm design for high-performance computing. Parallel algorithms for multidimensional tree data structures, space-filling curves, random number generation, graph partitioning and load balancing. Applications to grid and particle-based methods and computational biology.

COM S 631: Advanced Topics in Computational Complexity
(3-0) Cr. 3. Repeatable.
Prereq: COM S 531
Advanced study in the quantitative theory of computation. Time and space complexity of algorithmic problems. The structure of P, NP, PH, PSPACE, and other complexity classes, especially with respect to resource-bounded reducibilities and complete problems. Complexity relative to auxiliary information, including oracle computation and relativized classes, randomized algorithms, advice machines, Boolean circuits. Kolmogorov complexity and randomness.

COM S 633: Advanced Topics in Computational Randomness
(3-0) Cr. 3. Repeatable.
Prereq: COM S 531
Advanced study of the role of randomness in computation. Randomized algorithms, derandomization, and probabilistic complexity classes. Kolmogorov complexity, algorithmic information theory, and algorithmic randomness. Applications chosen from cryptography, interactive proof systems, computational learning, lower bound arguments, mathematical logic, and the organization of complex systems.

COM S 634: Theory of Games, Knowledge and Uncertainty
(3-0) Cr. 3.
Prereq: COM S 330
Fundamentals of Game Theory: individual decision making, strategic and extensive games, mixed strategies, backward induction, Nash and other equilibrium concepts. Discussion of Auctions and Bargaining. Repeated, Bayesian and evolutionary games. Interactive Epistemology: reasoning about knowledge in multiagent environment, properties of knowledge, agreements, and common knowledge. Reasoning about and representing uncertainty, probabilities, and beliefs. Uncertainty in multiagent environments. Aspects and applications of game theory, knowledge, and uncertainty in other areas, especially Artificial Intelligence and Economics, will be discussed.

COM S 641: Advanced Topics in Programming Language Semantics
(3-0) Cr. 3. Repeatable.
Prereq: COM S 531, COM S 541
Operational and other mathematical models of programming language semantics. Type systems and their soundness. Applications of semantics on areas such as program correctness, language design or translation.

COM S 652: Advanced Topics in Distributed Operating Systems
(3-0) Cr. 3. Repeatable.
Prereq: COM S 552
Concepts and techniques for network and distributed operating systems: Communications protocols, processes and threads, name and object management, synchronization, consistency and replications for consistent distributed data, fault tolerance, protection and security, distributed file systems, design of reliable software, performance analysis.

COM S 657: Advanced Topics in Computer Graphics
(3-0) Cr. 3. Repeatable, maximum of 2 times.
Prereq: COM S 228, I E 557/M E 557/CPR E 557/COM S 557

COM S 661: Advanced Topics in Database Systems
(3-0) Cr. 3. Repeatable.
Prereq: COM S 461 or COM S 561
Advanced topics chosen from the following: database design, data models, query systems, query optimization, incomplete information, logic and databases, multimedia databases; temporal, spatial and belief databases, semistructured data, concurrency control, parallel and distributed databases, information retrieval, data warehouses, wrappers, mediators, and data mining.
COM S 672: Advanced Topics in Computational Models of Learning
(3-0) Cr. 3. Repeatable.
Prereq: COM S 572 or COM S 573 or COM S 472 or COM S 474

COM S 673: Advanced Topics in Computational Intelligence
(3-0) Cr. 3. Repeatable.
Prereq: COM S 572 or COM S 573 or COM S 472 or COM S 474
Advanced applications of artificial intelligence in bioinformatics, distributed intelligent information networks and the Semantic Web. Selected topics in distributed learning, incremental learning, multi-task learning, multi-strategy learning; Graphical models, multi-relational learning, and causal inference; statistical natural language processing; modeling the internet and the web; automated scientific discovery; neural and cognitive modeling.

COM S 681: Advanced Topics in Computer Architecture
(Cross-listed with CPR E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: CPR E 581. Repeatable with Instructor permission
Current topics in computer architecture design and implementation. Advanced pipelining, cache and memory design techniques. Interaction of algorithms with architecture models and implementations. Tradeoffs in architecture models and implementations.

COM S 699: Research
Cr. arr. Repeatable.
Prereq: Approval of instructor
Offered on a satisfactory-fail basis only.

Construction Engineering (CON E)

Courses primarily for undergraduates:

CON E 121: Cornerstone Learning Community: Orientation to Academic Life
(0-2) Cr. 1. F.
Integration of first-year and transfer students into the engineering profession and the Construction Engineering program. Assignments and activities completed both individually and in learning teams involving teamwork, academic preparation, and study skills. Introduction to construction industry professionals. Teamwork topics include interdisciplinary teamwork, skills for academic success, diversity issues and leadership. Introduction to organization of program, department, college, and university. Overview of faculty, staff, policies, procedures and resources.

CON E 122: Cornerstone Learning Community: Orientation to Professional Life
(0-2) Cr. 1. S.
Continuation of Con E 121. Integration of first-year and transfer students into the engineering profession. Career preparation, professional ethics, construction research, leadership. Introduction to construction industry professionals including how they interact with engineers in other disciplines. Continued introduction to program, department, college, and university organization. Overview of faculty, staff, policies, procedures and resources.

CON E 222: Contractor Organization and Management of Construction
(2-2) Cr. 3. F.S.
Prereq: Completion of basic program
Entry level course for construction engineering: integration of significant engineering and management issues related to construction company operations. Company organization and operations; construction and project administration; construction contracts; delivery systems; construction safety; contract documents.

CON E 241: Construction Materials and Methods
(2-3) Cr. 3. F.S.
Prereq: Completion of basic program
Introduction to materials and methods of building construction and to construction drawings. Foundation, structural framing, floor, roof, and wall systems. Blueprint reading and quantity takeoff techniques.

CON E 251: Mechanical/Electrical Materials and Methods
(0-3) Cr. 1. F.S.
Prereq: Credit or enrollment in CON E 241
Introduction to the materials and methods for mechanical and electrical construction systems and drawings. HVAC, water and waste water, power distribution, lighting, and fire protection. Blueprint reading and quantity takeoff.

CON E 322: Construction Equipment and Heavy Construction Methods
(2-2) Cr. 3. F.S.
Prereq: CON E 222 and CON E 241 or C E 306
Selection and acquisition of construction equipment. Application of engineering fundamentals and economics to performance characteristics and production of equipment. Heavy construction methods and economic applications.

CON E 340: Concrete and Steel Construction
(2-2) Cr. 3. F.S.
Prereq: E M 324, CON E 222
CON E 352: Mechanical Systems in Buildings  
(2-2) Cr. 3. F.S.  
Prereq: CON E 222, CON E 251, PHYS 222; or permission of instructor  
Comprehensive coverage of mechanical systems, plumbing, fire protection. Analysis techniques and design principles for each system. Required comprehensive design project for a major building project.

CON E 353: Electrical Systems in Buildings  
(2-2) Cr. 3. F.S.  
Prereq: PHYS 222 and credit or enrollment in CON E 352; or permission of instructor  
Comprehensive coverage of building electrical systems including power, lighting, fire alarm, security and communications. Analysis techniques and design principles for each system. Required comprehensive design project for a major building project.

CON E 354: Building Energy Performance  
Cr. arr. F.  
Prereq: CON E 352 or permission of instructor  
Energy performance of buildings, building shells, HVAC, electrical and other building systems. Analysis and evaluation of building performance, energy efficiency, environmental quality, first costs, and operating costs. Strategies to exceed energy code requirements through the ASHRAE Standard 90.1.

CON E 380: Engineering Law  
(3-0) Cr. 3. F.S.  
Prereq: Junior classification  
Introduction to law and judicial procedure as they relate to the practicing engineer. Contracts, professional liability, professional ethics, licensing, bidding procedures, intellectual property, products liability, risk analysis. Emphasis on development of critical thinking process, abstract problem analysis and evaluation.

CON E 381: Bidding Construction Projects I  
(0-3) Cr. 1.  
Prereq: Permission of the instructor  
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids.

CON E 381A: Bidding Construction Projects I: Heavy and Highway  
(0-3) Cr. 1. F.S.  
Prereq: Permission of the instructor  
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids.

CON E 381B: Bidding Construction Projects I: Building  
(0-3) Cr. 1.  
Prereq: Permission of the instructor  
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids.

CON E 381C: Bidding Construction Projects I: Mechanical  
(0-3) Cr. 1.  
Prereq: Permission of the instructor  
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids.

CON E 381D: Bidding Construction Projects I: Electrical  
(0-3) Cr. 1.  
Prereq: Permission of the instructor  
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids.

CON E 381E: Bidding Construction Projects I: Mechanical and Electrical  
(0-3) Cr. 1.  
Prereq: Permission of the instructor  
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids.

CON E 381F: Bidding Construction Projects I: Miscellaneous  
(0-3) Cr. 1.  
Prereq: Permission of the instructor  
Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids.

CON E 396: Summer Internship  
Cr. R. Repeatable. SS.  
Prereq: Permission of department and Engineering Career Services  
Professional work period of at least 10 weeks during the summer. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.
CON E 398: Cooperative Education (Co-op)
Cr. R. Repeatable. F.S.
Prereq: Permission of department and Engineering Career Services
Professional work period. One semester per academic or calendar year. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

CON E 422: Construction Cost Estimating and Cost Engineering
(2-2) Cr. 3. F.S.
Prereq: CON E 241, CON E 251, I E 305

CON E 441: Construction Planning, Scheduling, and Control
(2-2) Cr. 3. F.S.
Prereq: Credit or enrollment in CON E 422
Integration of previous construction coursework into the planning, scheduling, and management of time, costs, and other resources. Emphasis on preparation and analysis of network schedules. Comprehensive planning and scheduling project. Computer project management applications.

CON E 481: Bidding Construction Projects II
(0-3) Cr. 1.
Prereq: Permission of the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481A: Bidding Construction Projects II: Heavy and Highway
(0-3) Cr. 1. F.S.
Prereq: Permission of the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481B: Bidding Construction Projects II: Building
(0-3) Cr. 1.
Prereq: Permission of the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481C: Bidding Construction Projects II: Mechanical
(0-3) Cr. 1.
Prereq: Permission of the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481D: Bidding Construction Projects II: Electrical
(0-3) Cr. 1.
Prereq: Permission of the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481E: Bidding Construction Projects II: Mechanical and Electrical
(0-3) Cr. 1.
Prereq: Permission of the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 481F: Bidding Construction Projects II: Miscellaneous
(0-3) Cr. 1.
Prereq: Permission of the instructor
Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

CON E 487: Construction Engineering Design I
(2-2) Cr. 3. F.S.
Prereq: CON E 340 (B, H), CON E 352 (B, E, M), CON E 353 (B, E, M), CON E 422, CON E 441. Student must be within two semesters of graduation
The integrated delivery of project services as a team, including preliminary engineering design process, constructability review, interaction with the client, identification of engineering problems, developments of a proposal, identification of design criteria, cost estimating, planning and scheduling, application of codes and standards, development of feasible alternatives, selection of best alternative, and delivery of oral presentations.

CON E 488: Construction Engineering Design II
(1-5) Cr. 3. F.S.
Prereq: CON E 340 (B,H), CON E 352 (B,E,M), CON E 353 (B,E,M), CON E 422, CON E 441. Student must be within two semesters of graduation
Application of team design concepts to a construction engineering project. Project planning. Advanced construction and project management.

CON E 490: Independent Study
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor
Individual study in any phase of construction engineering. Pre-enrollment contract required.

Criminal Justice Studies (CJ ST)
Courses primarily for undergraduates:
CJ ST 220: Introduction to Forensic Science
(Cross-listed with ENT). (3-0) Cr. 3. S.
Prereq: none
Study of fundamental forensic science techniques and procedures covering types of physical, chemical, and biological evidence and how this information is used in the legal system. Assessment of crime scenes and various forensic specialties will be introduced.

CJ ST 240: Introduction to the U.S. Criminal Justice System
(3-0) Cr. 3. F.
Provides systematic overview of law, police organization and behavior, prosecution and defense, sentencing, the judiciary, community corrections, penology, and capital punishment. The course demonstrates the role of discretion in all of these agencies as well as the sociological influences of age, race, gender, and social class on criminal justice system processes.

CJ ST 241: Youth and Crime
(Cross-listed with SOC). (3-0) Cr. 3. F.
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents’ rights, and traditional and alternative ways of dealing with juvenile crime.

CJ ST 320: American Judicial Process
(Cross-listed with POL S). (3-0) Cr. 3. S.
Prereq: POL S 215
An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent.

CJ ST 332: Philosophy of Law
(Cross-listed with PHIL). (3-0) Cr. 3. F.S.
Prereq: PHIL 201 or PHIL 230
Extent of our obligation to obey the law; what constitutes just punishment; how much of the immoral should be made illegal? Relation of these questions to major theories of law and the state. Discussion of such concepts as coercion, equality, and responsibility.

CJ ST 339: Liberty and Law in America
(Cross-listed with PHIL, POL S). (3-0) Cr. 3. Alt. S., offered irregularly.
Prereq: Sophomore status
Competing conceptions of liberty in American political thought. Debates about how liberty should be protected by the law, in fields such as health care, drugs, property, speech, religion, and sex.

CJ ST 340: Deviant and Criminal Behavior
(Cross-listed with SOC). (3-0) Cr. 3. S.SS.
Prereq: SOC 134 or CJ ST 240
Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior.

CJ ST 341: Criminology
(3-0) Cr. 3. F.
Prereq: CJ ST 240
The nature of crime and criminology; the concept of crime; statistics and theories of criminality; major forms of crime; official responses to crime and control of crime.

CJ ST 351: Police and Society
(3-0) Cr. 3. F.S.
Prereq: CJ ST 241, SOC 241 or CJ ST 240
Introduction and overview of law enforcement in the United States. Theory and research on police history, function, and organization; constitutional issues of policing; and critical topics, such as community policing, officer discretion and decision-making, corruption, use of force, and racial profiling. The course illustrates the interconnections between communities, police organizations, citizens, and criminal offenders.

CJ ST 352: Punishment, Corrections, and Society
(3-0) Cr. 3. F.S.
Prereq: CJ ST 241, SOC 241 or CJ ST 240
Introduction and overview of corrections in the United States. Theory and research on probation, parole, intermediate sanctions, prison, inmate society, inmate behavior and misconduct, capital punishment, recidivism, correctional treatment, rehabilitation, and offender reintegration into society.

CJ ST 402: White-Collar Crime
(3-0) Cr. 3. S.
Prereq: CJ ST 241, SOC 241 or CJ ST 240
Introduction and overview of white-collar crime as a form of deviance. Theory and research on occupational, corporate, and organizational offending; prevalence, costs, and consequences of white-collar crime; predictors and correlates of white-collar crime; and political, business, and public policy responses to white-collar crime.

CJ ST 403: Criminal Offenders
(3-0) Cr. 3. F.S.
Prereq: CJ ST 240 or CJ ST 241
Introduction and overview of criminal offenders. Theory and research on epidemiology, offender typologies, etiology of violence, recidivism, societal costs, correctional supervision, treatment, and prevention of serious antisocial behavior.
CJ ST 410: Capital Punishment  
(3-0) Cr. 3.  
Prereq: CJ ST 240  
History, philosophy, demographics, administration, and punishment rationales of capital punishment in the United States from its founding to the present. Methods of execution and trends in public opinion about the death penalty. Examination of correlates of capital offending and criminological characteristics of persons who are sentenced to death.

CJ ST 460: Criminal and Juvenile Justice Practicum  
(Cross-listed with SOC). Cr. 3-12. Repeatable, maximum of 12 credits. F.S.SS.  
Prereq: Junior or senior classification; permission of criminal justice studies coordinator; major or minor in criminal justice or sociology  
Study of the criminal and juvenile justice systems and social control processes. Supervised placement in a police department, prosecutor’s office, court, probation and parole department, penitentiary, juvenile correctional institution, community-based rehabilitation program, or related agency. Assessed service learning component. Offered on a satisfactory-fail basis only. No more than a total of 9 credits of 460 can be counted toward graduation. No credits in Soc 460 may be used to satisfy minimum sociology requirements for sociology majors.

CJ ST 484: Topical Studies in Criminal and Juvenile Justice  
(3-0) Cr. 3. Repeatable, maximum of 9 credits.  
Prereq: 6 credits in CJ ST and permission from instructor  
Thematic or topical issues and studies dealing with the sociology of police, judiciary, institutional and community-based corrections, gender/ethnicity and crime/delinquency, criminal and delinquent gangs, and crime and delinquency prevention.

Curriculum and Instruction (C I)  
Courses primarily for undergraduates:

C I 201: Learning Technologies in the PK-6 Classroom  
(2-2) Cr. 3. F.S. Alt. SS., offered odd-numbered years.  
Overview of ways to use educational technologies to support instruction in PK-6 settings. Focus on pedagogical approaches that integrate technologies to support learning in the content areas. Laboratory experiences include development of activities to use web 2.0 tools, apps, multimedia, web page development, digital video and other technologies to facilitate learning and teaching.

C I 202: Learning Technologies in the 7-12 Classroom  
(2-2) Cr. 3. F.S. Alt. SS., offered even-numbered years.  
Overview of ways to use educational technologies to support instruction in 7-12 settings. Focus on pedagogical approaches that integrate technologies to support learning in the content areas. Laboratory experiences include development of activities to use tool software, multimedia, web page development, digital video and other technologies to facilitate learning and teaching.

C I 204: Social Foundations of Education in the United States: Secondary  
(3-0) Cr. 3. F.S. SS.  
Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis is placed on topics and tensions in the relationship between school and society (e.g. equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning at the secondary level in public schools. For prospective teachers in an ISU Secondary Education teacher preparation program; open to students who are considering teaching and/or work in education as a career path. Students in Early Childhood and Elementary Education programs should take C I 205.

C I 205: Social Foundations of Education in the United States: Early Childhood and Elementary Education  
Cr. 3. F.S.  
Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis on topics and tensions in the relationship between school and society (e.g., equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning in public schools.

C I 208: Early Childhood Education Teacher Orientation  
(Cross-listed with HD FS). Cr. 1. F.S.  
Prereq: classification as ECE major  
Overview of early childhood education (birth-grade 3) teacher licensure requirements. Program planning and university procedures. Required of all students majoring in early childhood education. Offered on a satisfactory-fail basis only.

C I 216: Learning Community Orientation to Teacher Education  
(1-0) Cr. 1. F.  
Prereq: All first semester freshman Elementary Education majors are automatically enrolled.  
Learning Community for Elementary Education majors to help with their transition to university life. Offers an overview of K-8 teacher certification in Iowa as well as degree and career planning. With the help of guest speakers and peer mentors, students learn about elementary teaching as a profession and are introduced to a social justice orientation to teaching. Offered on a satisfactory-fail basis only.
C I 219: Orientation to Teacher Education: Math, Science, FCS Education, and History/Social Science Majors
Cr. 1. F.S.
Prereq: Students seeking teacher licensure in mathematics, science family and consumer sciences, or history/social sciences in grades 5-12
Overview of mathematics, science, family and consumer sciences and history/social sciences secondary education (grades 5-12), teacher licensure requirements in Iowa and other states. Program and career planning. Offered on a satisfactory-fail basis only.

C I 245: Strategies in Teaching
(3-0) Cr. 3. F.S.
Prereq: C I 205; sophomore classification.
Introduction to instructional planning, curriculum organization, instructional strategies, and classroom management that provide equitable learning opportunities for all students, as well as teaching in culturally affirming ways. Open to students majoring in Elementary Education or Early Childhood Education.

C I 280: Pre-Student Teaching Experience I
(1-8) Cr. 0.5-2. Repeatable. F.S.
Prereq: Prereq: C I 201 or C I 202.Permission of instructor needed for 2 credits
Pre-Student teaching experience in learning technologies in various educational settings with K-12 technology leaders. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 280A: Pre-Student Teaching Experience I: Core Experience
(1-8) Cr. 1-2. Repeatable. F.S.
Prereq: Restricted to students with admission to teacher education.
Pre-Student teaching experience in school settings. 1/2 day of time needed. Clinical Experience Level 2. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280B: Pre-Student Teaching Experience I: Learning Technologies
(1-8) Cr. 1-2. Repeatable. F.S.
Prereq: C I 201 or C I 202. Permission of instructor needed for 2 credits.
Pre-Student teaching experience in learning technologies in various educational settings with K-12 technology leaders. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280C: Pre-Student Teaching Experience I: Native American Tutoring
(1-8) Cr. 1. Repeatable. F.S.
Pre-Student teaching experience in Native American tutoring in school settings. 2 1/2 hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280D: Pre-Student Teaching Experience I: Museum Education
(1-8) Cr. 1. Repeatable. F.S.
Prereq: Completion of or concurrent enrollment in C I 280A.
Pre-Student teaching experience in museum settings. 2 1/2-hour blocks of time needed. Supervision level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280E: Pre-Student Teaching Experience I: Multicultural Youth
(1-8) Cr. 1-2. Repeatable. F.S.
Prereq: C I 280A must be either a prerequisite or taken currently; permission of instructor for 2 credits.
Pre-Student teaching experience for multicultural youth in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280F: Pre-Student Teaching Experience I: Mild/Moderate Disabilities
(1-8) Cr. 1-2. Repeatable. F.
Prereq: Admission to teacher education; concurrent enrollment in SP ED 330 and SP ED 334.
Pre-Student teaching experience in mild/moderate disabilities in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 280J: Pre-Student Teaching Experience I: Mathematics Clinic
Cr. 1. Repeatable. S.
Early field experience where students explore and develop an understanding of research-based instructional practices that could be implemented with middle level students to teach mathematical concepts. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 280K: Pre-Student Teaching Experience I: Music
(Cross-listed with MUSIC). Cr. 0.5. Repeatable. S.
Pre-student teaching experience in music in school settings. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 280L: Pre-Student Teaching Experience I: Secondary Education
Cr. 0.5. Repeatable. F.S.
Pre-student teaching experience for secondary education students in school settings. 2 1/2 hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 280M: Pre-Student Teaching Experience I: Secondary Science
(1-8) Cr. 1-2. Repeatable. S.
Prereq: Permission of instructor for 2 credits.
Pre-student teaching experience in secondary science in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.
C I 280N: Pre-Student Teaching Experience I: Learning Community (1-8) Cr. 1. Repeatable. F.S.
Pre-student teaching experience for Preparing Tomorrow's Teachers learning community students in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280O: Pre-Student Teaching Experience 1: Art Education (1-8) Cr. 1. Repeatable. F.S.
Pre-student teaching experience in art education in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. C I 280 may be taken more than once for credit toward graduation.

C I 280S: Pre-Student Teaching Experience I: English as a Second Language (ESL) (0-4) Cr. 1. Repeatable, maximum of 2 times. F.S.
Prereq: Admission to teacher education.
Pre-student teaching experience in English as a Second Language. 1/2 day of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 280T: Pre-Student Teaching Experience I: Tutoring Cr. 1. Repeatable. F.S.
Pre-student teaching experience tutoring in a school setting focused on mathematics, literacy, and/or other content areas. Two, one-hour blocks of time per week needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

C I 290: Independent Study Cr. 1-3.
Prereq: 6 credits in education, permission of department chair
Independent study, under faculty supervision, of a topic in the field of education.

C I 302: Principles and Practices of Learning with Technology (2-2) Cr. 3. F.S.
Prereq: C I 201 or C I 202
Advanced integration of learning technologies into K-12 educational contexts. Examine current trends in using learning technologies with K-12 students; explore current applications used in formal and informal educational settings; and discuss issues focused on technology use in education. Required for Learning Technologies minor.

C I 315: Transfer Orientation Cr. 1. F.S.
Offers an overview of Elementary Education requirements, university procedures, K-8 certification in Iowa as well as degree and career planning. With the help of guest speakers and peer mentors, students learn about elementary teaching as a profession and are introduced to a social justice orientation to teaching. Learning community required of all transfer students and change of major students pursuing Elementary Education. Offered on a satisfactory-fail basis only.

C I 332: Educational Psychology of Young Learners (3-0) Cr. 3. F.S.
Prereq: PSYCH 230 or HD FS 102, open only to majors in Early Childhood Education or Elementary Education
Psychological theory relevant to classroom learning, cognition, motivation, classroom management and assessment for children from kindergarten to grade 8. Implications of theory for teaching children and for assessing learning in educational settings with primary and intermediate grade children.

C I 333: Educational Psychology (Cross-listed with PSYCH). (3-0) Cr. 3. F.S.
Prereq: PSYCH 230 or HD FS 102, application to the teacher education program or major in psychology
Classroom learning with emphasis on theories of learning and cognition, and instructional techniques. Major emphasis on measurement theory and the classroom assessment of learning outcomes.

C I 347: Nature of Science (Dual-listed with C I 547). (3-0) Cr. 3. F.
Prereq: C I 280M; concurrent enrollment in C I 418 or instructor permission
The intersection of issues in the history, philosophy sociology, and psychology of science and their application to and impact on science teaching and learning, science teacher education, and science education research.

C I 377: The Teaching of Reading and Language Arts in the Primary Grades (K-3) (4-0) Cr. 4. F.S.SS.
Prereq: Admission to teacher education program, C I 245, SP ED 250, HD FS 240 (ECCE majors); concurrent enrollment in C I 405, C I 448, C I 468A, and C I 468C (El Ed majors) or C I 438, C I 468F, C I 468G, SP ED 368. Theories, teaching strategies, and instructional materials pertinent to teaching reading, writing, listening, and speaking to children in kindergarten through third grade.
C I 378: The Teaching of Reading and Language Arts in the Intermediate Grades (4-6)  
(4-0) Cr. 4. F.S.SS.  
Prereq: C I 377; concurrent enrollment in C I 449, C I 468B, C I 468D, and C I 443  
Theories and processes of literacy. Application through reading and writing across the curriculum, integration of language arts, literature-based instruction, and metacognitive strategies.

C I 395: Teaching Disciplinary Literacy  
(Dual-listed with C I 595). (3-0) Cr. 3. F.S.  
Prereq: C I 204 and junior classification.  
Analysis and application of strategies to enhance students’ disciplinary literacy development in middle and secondary school setting. Research paper related to a course topic.

C I 405: Social Justice Education and Teaching: Early Childhood and Elementary  
Cr. 3. F.S.  
Prereq: C I 201, C I 332, junior classification, admission to teacher education program.  
Opportunity to expand understanding of issues related to educational and social justice at the levels of Self, Systems, and Teaching. Personal growth and awareness; education within a broader social and historical context; equity and justice-oriented teaching. Special attention is given to enacting culturally relevant teaching in grades PK through 6, along with curriculum transformation and social action in those grades. Restricted to those enrolled in Early Childhood and Elementary Education Programs. Elementary education majors should take CI405 with Block 1 practicum. Meets U. S. Diversity Requirement.

C I 406: Social Justice Education and Teaching: Secondary  
(3-0) Cr. 3. F.S.SS.  
Prereq: C I 201 or C I 202, C I 332 or C I 333, junior classification, admission to teacher preparation program. Restricted to those enrolled in Secondary and K-12 Education Programs.  
Awareness and nature of social justice in relation to the educational system; need for cultural competence; multicultural concepts and theories; awareness of context of cultural groups - their history, perspective, needs, and contributions; problems and issues regarding prejudice, and discrimination based on race, ethnicity, socioeconomic class, gender, sexual identity and language in the school environment. Special attention to culturally relevant teaching in grades 7 through 12, along with curriculum transformation and social action in those grades. Meets U.S. Diversity Requirement

C I 407: Principles and Practices of Distance Learning  
(Dual-listed with C I 507). (2-2) Cr. 3. F.S.SS.  
Prereq: C I 201 or C I 202; convenient access to the Web  
Review of flexible and distance learning (FDL) cases in a variety of contexts and pedagogic styles, identification of underlying principles and frameworks for best practice in this field. Required for the Learning Technologies minor.

C I 416: Supervised Student Teaching - Elementary  
Cr. arr. Repeatable. F.S.  
Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required  
Supervised teaching experience in the elementary grades.

C I 416A: Supervised Student Teaching - Elementary: Primary grades  
(K-3)  
Cr. arr. Repeatable. F.S.  
Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required  
Supervised teaching experience in the elementary grades.

C I 416B: Supervised Student Teaching - Elementary: Intermediate grades  
(4-6)  
Cr. arr. Repeatable. F.S.  
Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required  
Supervised teaching experience in the elementary grades.

C I 416C: Supervised Student Teaching - Elementary: World Language  
Cr. arr. Repeatable. F.S.  
Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required  
Supervised teaching experience in the elementary grades.

C I 416D: Supervised Student Teaching - Elementary: International Student Teaching - Primary Grades  
Cr. arr. Repeatable. F.S.  
Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required  
Supervised teaching experience in the elementary grades.

C I 416E: Supervised Student Teaching - Elementary: International Student Teaching - Intermediate Grades  
Cr. arr. Repeatable. F.S.  
Prereq: GPA 2.5; full admission to teacher education; senior classification; C I 378, C I 443, C I 448, C I 449; reservation required  
Supervised teaching experience in the elementary grades.
C I 416Z: Supervised Student Teaching - Elementary: English as a Second Language
Cr. arr. Repeatable. F.S.
Prereq: GPA 2.5; full admission to teacher education; senior classification;
ENGL 219; ENGL 220; ENGL 425; C I 280S; C I 480S; C I 378.
Supervised teaching experience in the elementary grades.

C I 417: Student Teaching
(Dual-listed with C I 517). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education or licensed teacher; approval of
coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching.

C I 417A: Student Teaching: Social Studies-Middle School
(Dual-listed with C I 517A). Cr. arr. Repeatable. F.S.
Prereq: GPA 2.5; Admission to teacher education, approval of coordinator
during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts
and sciences.

C I 417B: Student Teaching: Physical Sciences
(Dual-listed with C I 517B). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education, approval of coordinator
during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in physical
sciences grades 5-12.

C I 417C: Student Teaching: Mathematics
(Dual-listed with C I 517C). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education, approval of coordinator
during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in mathematics
grades 5-12.

C I 417D: Student Teaching: Biological Sciences
(Dual-listed with C I 517D). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education, approval of coordinator
during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in biological
sciences grades 5-12.

C I 417E: Student Teaching: English and Literature
(Cross-listed with ENGL). Cr. arr. Repeatable. F.S.
Prereq: ENGL 494, admission to teacher education, approval of coordinator
the semester prior to student teaching
Full-time teaching in secondary English: long term and unit planning,
lesson planning, classroom teaching practice in English language arts.

C I 417G: Student Teaching: World Language
(Dual-listed with C I 517G). (Cross-listed with WLC). Cr. arr. Repeatable.
F.S.
Prereq: minimum GPA of 2.5; Admission to teacher education, approval of
coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in world
languages, secondary grades.

C I 417J: Student Teaching: Earth Sciences
(Dual-listed with C I 517J). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education, approval of coordinator
during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in earth sciences
grades 5-12.

C I 417M: Student Teaching: Science - Basic
(Dual-listed with C I 517M). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education, approval of coordinator
during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in basic sciences
grades 5-12.

C I 417N: Student Teaching: International
(Dual-listed with C I 517N). Cr. arr. Repeatable. F.S.
Prereq: GPA 2.5; Admission to teacher education, approval of coordinator
during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts
and sciences.

C I 417P: Student Teaching: Social Studies-High School
(Dual-listed with C I 517P). Cr. arr. Repeatable. F.S.
Prereq: GPA 2.5; Admission to teacher education, approval of coordinator
during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts
and sciences.

C I 417R: Student Teaching: Music-Elementary
(Dual-listed with C I 517R). (Cross-listed with MUSIC). Cr. arr. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of
coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts
and sciences.

C I 417S: Student Teaching: Music-Secondary
(Dual-listed with C I 517S). (Cross-listed with MUSIC). Cr. arr. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of
coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts
and sciences.
C I 417Z: Student Teaching: English as Second Language
Cr. arr. Repeatable. F.S.
Prereq: GPA 2.5; Admission to teacher education, approval of coordinator
during semester before student teaching.
Evaluation of instruction, lesson planning, and teaching in English as a
Second Language grades 7-12.

C I 418: Secondary Science Methods I: A Research-Based Framework for
Teaching Science
(Dual-listed with C I 518). (3-0) Cr. 3. F.
Prereq: C I 280M or C I 514; undergraduate students must register
concurrently for C I 347 and C I 468J
Development of a research-based framework for teaching science that
includes student goals, congruent student actions, the character and
role of science inquiry, teaching behaviors and strategies, contemporary
learning theories, and self evaluation.

C I 419: Secondary Science Methods II: Advancing a Research-Based
Framework for Teaching Science
(Dual-listed with C I 519). (3-0) Cr. 3. S.
Prereq: C I 418 or C I 518, undergraduate students must register concurrently
for C I 468K
Advancing a research-based framework for teaching science in a variety
of school settings; emphasizing the teacher's role, content area reading
strategies, science safety and classroom management, issues in using
technology, and student assessment.

C I 420: Bilingualism, Bilingual Education, and U.S. Mexican Youth
(Dual-listed with C I 520). (Cross-listed with US LS). (3-0) Cr. 3. F.
Prereq: C I 405 or 406
Introduction to research on bilingualism and examination of the social,
historical, and political contexts of bilingual education in U.S. schools.
Attention to policy environment, school program structure, mode of
classroom instruction, family and community context, and attainment of
bilingualism and biculturalism for U.S. Mexican youth.

C I 426: Principles of Secondary Education
(Dual-listed with C I 526). (3-0) Cr. 3. F.S.SS.
Prereq: Senior classification and admission to teacher education program
Introduction to secondary education teaching strategies, lesson planning
that provides equitable learning opportunities for all students, classroom
management, legal aspects of schools, professional and ethical issues,
current educational issues, professional learning communities, and
social-justice oriented teaching.

C I 433: Teaching Social Studies in the Primary Grades
(2-0) Cr. 2. F.S.
Prereq: C I 377, HD FS 224; concurrent enrollment in C I 439, SP ED 355,
SP ED 455, and C I 468I
Emphasis is placed on providing equity and justice-oriented social
studies learning experiences (e.g. curriculum content, instructional
strategies, and assessment) for primary grade children.

C I 438: Teaching Mathematics in the Primary Grades
(2-0) Cr. 2. F.S.
Prereq: MATH 195 (minimum grade of C-), MATH 196 (minimum grade of C-);
 concurrent enrollment in C I 377, C I 468F, C I 468G and Sp Ed 368
Develop an understanding of effective mathematics teaching practices
situated in equitable pedagogies that support primary students’
mathematical understanding.

C I 439: Teaching Science in the Primary Grades
(2-0) Cr. 2. F.S.
Prereq: C I 377, HD FS 224; concurrent enrollment in C I 433, C I 468I, SP ED
355, SP ED 455
Development and application of current methods in the teaching and
learning of primary science. Emphasis is on research-based teaching
practices, developmental implications, and providing appropriate science
learning experiences in the early elementary grades.

C I 443: The Teaching of Social Studies
(3-0) Cr. 3. F.S.SS.
Prereq: C I 377, concurrent enrollment in C I 378, C I 449, C I 468B and C I 468D
(El Ed majors)
Emphasis is placed on providing equity and justice-oriented social
studies learning experiences (e.g. curriculum content, instructional
strategies, and assessment) for primary and intermediate grade children.

C I 448: Teaching Children Mathematics
(3-0) Cr. 3. F.S.SS.
Prereq: MATH 195 (minimum grade of C-), MATH 196 (minimum grade of C-);
 concurrent enrollment in C I 377, C I 468A, C I 468C, and C I 405 (El Ed majors)
or C I 377, C I 468F, C I 468G and Sp Ed 368 (ECE majors)
Develop an understanding of effective mathematics teaching practices
situated in equitable pedagogies that support elementary students’
mathematical understanding.

C I 449: The Teaching of Science
(3-0) Cr. 3. F.S.SS.
Prereq: C I 377, concurrent enrollment in C I 378, C I 468B, C I 468D and C I 443
Development and application of current methods in the teaching and
learning of elementary science. Emphasis is on research-based teaching
practices, developmental implications, and providing appropriate science
learning experiences in the elementary grades.
C I 450: Ethnicity and Learning  
(Dual-listed with C I 550). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: C I 332 or C I 333, C I 406  
Examination of cultural relevance in education. Development and  
application of strategies and techniques for implementing multicultural  
goals and multiethnic perspectives in PreK-12 school classroom settings.  
Meets U.S. Diversity Requirement  

C I 452: Assessment for Literacy and Learning  
(Dual-listed with C I 552). (3-0) Cr. 3. F.S.S.  
Prereq: C I 378 or equivalent  
Identification, analysis and correction of reading problems in five areas:  
print knowledge, integration of print knowledge, oral reading fluency,  
vocabulary, and comprehension.  

C I 454: Emerging Topics in Learning Technologies  
(2-2) Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.  
Prereq: C I 201 or C I 202  
Development and application of emerging technology topics related  
to digital learning. Series of 1-3 credit on-line learning modules on  
current technology being used in education and topics being addressed.  
These modules extend learning opportunities from other courses and  

C I 456: Integrating Technology into Literacy  
(Dual-listed with C I 556). (3-0) Cr. 3. F.S.S.  
Prereq: C I 201 or C I 202, C I 377  
Methods and strategies used to integrate technology into K-8 literacy.  
Examination of the use and evaluation of technology appropriate for  
elementary literacy classrooms.  

C I 468: Pre-Student Teaching Experience II  
Cr. 1-2. F.S.S.  
Prereq: Admission to teacher education program  
Application of current methods, and instructional experiences with  
children in a supervised elementary, middle, or high school classroom  
while engaged in other methods courses. Clinical Experience Level 3.  
Offered on a satisfactory-fail basis only.  

C I 468A: Pre-Student Teaching Experience II: Primary Grades, Reading and Language Arts  
Cr. 1. F.S.S.  
Prereq: Admission to teacher education program  
Application of current methods and instructional experiences with  
children in a supervised K-3 elementary classroom while engaged in other  
elementary methods courses. Clinical Experience Level 3. Offered on a  
satisfactory-fail basis only.  

C I 468B: Pre-Student Teaching Experience II: Intermediate Grades, Reading and Language Arts  
Cr. 1. F.S.S.  
Prereq: Admission to teacher education program  
Application of current methods and instructional experiences with  
children in a supervised 3-6 elementary classroom while engaged in other  
elementary methods courses. Clinical Experience Level 3. Offered on a  
satisfactory-fail basis only.  

C I 468C: Pre-Student Teaching Experience II: Primary Grades, Mathematics  
Cr. 1. F.S.S.  
Prereq: Admission to teacher education program  
Application of current methods, and instructional experiences with  
children in a supervised K-3 elementary classroom while engaged in other  
elementary methods courses. Clinical Experience Level 3. Offered on a  
satisfactory-fail basis only.  

C I 468D: Pre-Student Teaching Experience II: Intermediate Grades, Science  
Cr. 1. F.S.S.  
Prereq: Admission to teacher education program  
Application of current methods and instructional experiences with  
children in a supervised 3-6 elementary classroom while engaged in other  
elementary methods courses. Clinical Experience Level 3. Offered on a  
satisfactory-fail basis only.  

C I 468E: Pre-Student Teaching Experience II: World Languages  
Cr. 1. F.  
Prereq: Admission to teacher education program  
Application of current methods, and instructional experiences with  
children in a supervised K-6 elementary classroom while engaged in other  
elementary methods courses. Clinical Experience Level 3. Offered on a  
satisfactory-fail basis only.  

C I 468F: Pre-Student Teaching Experience II: Primary Grades Inclusive, Literacy  
Cr. 1. F.S.  
Prereq: Admission to teacher education program  
Application of current methods and instructional experiences with  
children in a supervised K-3 inclusive elementary classroom while  
engaged in other elementary methods courses. Clinical Experience Level 3.  
Offered on a satisfactory-fail basis only.
C I 468G: Pre-Student Teaching Experience II: Primary Grades Inclusive, Mathematics
Cr. 1. F.S.
Prereq: Admission to teacher education program
Application of current methods and instructional experiences with children in a supervised K-3 inclusive elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468I: Pre-Student Teaching Experience II: Primary Grades Inclusive, Science
Cr. 1. F.S.
Prereq: Admission to teacher education program
Application of current methods and instructional experiences with children in a supervised K-3 inclusive elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468J: Pre-Student Teaching Experience II: Secondary Science I
Cr. 2. F.
Prereq: Admission to teacher education program
Application of current methods and instructional experiences with children in a supervised grade 5-12 science classroom while engaged in other elementary methods courses. Clinical Supervision Level 3. Offered on a satisfactory-fail basis only.

C I 468K: Pre-Student Teaching Experience II: Secondary Science II
Cr. 2. S.
Prereq: Admission to teacher education program
Application of current methods and instructional experiences with children in a supervised 5-12 science classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 468R: Pre-Student Teaching Experience II: Intermediate Grades, Reading Endorsement
Cr. 1. F.S.SS.
Prereq: Admission to teacher education program. Permission of School of Education required; concurrent enrollment in C I 378
Application of current methods and instructional experiences with children in a supervised 3-6 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

C I 469: Pre-student Teaching Seminar
Cr. 1. Repeatable. F.S.
Prereq: Admission to teacher education program.
Future teachers learn about teaching as they connect theory, practice and classroom experiences. Learning is supported with video-based seminars focused on effective classroom practices. Offered on a satisfactory-fail basis only.

C I 480: Pre-Student Teaching Experience III
(Cross-listed with MUSIC). Cr. 0.5-2. Repeatable. F.S.
Prereq: Admission to Teacher Education
Observation and participation in a variety of school settings after admission to the teacher education program. Permission of area coordinator required prior to enrollment. (S/F grading may be used in some offerings of some sections.).

C I 480A: Pre-Student Teaching Experience III: History/Social Sciences
(Cross-listed with HIST). Cr. 2. Repeatable, maximum of 2 times. F.
Prereq: Admission to Teacher Education
Supervised participation in a 5-12 school setting. Permission of History/Social Sciences coordinator required prior to enrollment. 1/2 day of time needed. Clinical Supervision Level 3.

C I 480B: Field Experience for Secondary Teaching Preparation: Physical Sciences
Cr. 0.5. Repeatable, maximum of 2 times. F.S.
Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. Physical Sciences.

C I 480C: Pre-Student Teaching Experience III: Mathematics
Cr. 0.5-2. Repeatable, maximum of 2 times. F.S.
Prereq: Admission to teacher education
Supervised participation mathematics in a 5-12 school setting. Permission of mathematics coordinator required prior to enrollment. 1/2 day of time needed. Clinical Experience Level 3.

C I 480D: Field Experience for Secondary Teaching Preparation: Biological Sciences
Cr. 0.5. Repeatable, maximum of 2 times. F.S.
Prereq: Permission of area coordinator required prior to enrollment
D. Biological Sciences.

C I 480E: Pre-Student Teaching Experience III: English
Cr. 1-2. Repeatable, maximum of 2 times. F.S.
Prereq: Admission to teacher education
Supervised participation in a 5-12 school setting. Cross listed with English 480K. Permission of English coordinator required prior to enrollment. 1/2 day of time needed. Clinical Experience Level 3.
C I 480G: Pre-Student Teaching Experience III: World Languages and Cultures
Cr. 1-2. Repeatable, maximum of 2 times. F.
Prereq: Admission to teacher education
Supervised participation in a 5-12 school setting. Permission of World Languages and Cultures coordinator required prior to enrollment. 1/2 day of time needed. Clinical Experience Level 3.

C I 480J: Field Experience for Secondary Teaching Preparation: Earth Science
Cr. 0.5. Repeatable, maximum of 2 times. F.S.
J. Earth Science.

C I 480K: Pre-Student Teaching Experience III: Music
(Cross-listed with MUSIC). Cr. 1. Repeatable. F.S.
Prereq: Admission to teacher education
Participation in a K-12 school setting. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 2. Offered on a satisfactory-fail basis only.

C I 480S: Pre-Student Teaching Experience III: English as a Second Language (ESL)
(0-4) Cr. 2. Repeatable, maximum of 2 times.
Prereq: CI 280S; ENGL/LING 219; ENGL/LING 220; ENGL/LING 511; admission to teaching education.
Supervised participation in a school setting. Permission of ESL area coordinator required prior to enrollment. 1/2 day of time needed. Clinical experience level 3. Offered on a satisfactory-fail basis only.

C I 481: Philosophy of Education
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Introduction to Western philosophy of education. Emphasis is placed on enduring debates about the purposes(s) of education in a just society. Readings include classic and contemporary texts.

C I 486: Methods in Elementary School World Language Instruction
(Cross-listed with LING, WLC). (3-0) Cr. 3. F.
Prereq: 25 credits in a world language
Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on K-8 students’ communicative skills, cultural knowledge, and content learning.

C I 487: Methods in Secondary School World Language Instruction
(Cross-listed with LING, WLC). (3-0) Cr. 3. F.
Prereq: 25 credits in a world language, admission to the teacher education program, OPI
Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning.

C I 488: Supervised Tutoring in Reading
(Dual-listed with CI 588). (2-2) Cr. 3. F.S.S.
Prereq: concurrent enrollment in or completion of one course in corrective reading; diagnosis and correction of reading problems; graduate status required for CI 588
Using formal and informal diagnostic procedures to plan and implement individualized reading instruction. Field experience in tutoring and a related research project.

C I 490: Independent Study
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490A: Independent Study: Education
(Cross-listed with MUSIC). Cr. arr. Repeatable. F.S.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head

C I 490C: Independent Study: Curriculum Construction
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490D: Independent Study: Principles of Education
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490E: Independent Study: Methods of Teaching
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490F: Independent Study: Educational Psychology
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490G: Independent Study: Digital Learning
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490H: Independent Study: Honors
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490J: Independent Study: Multicultural Education
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490K: Independent Study: History/Social Sciences
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490L: Independent Study: Literacy Education
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester
C I 490M: Independent Study: Mathematics Education
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490N: Independent Study: World Language
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490O: Independent Study: Foundations of Education
Cr. 1-3. F.S.S.
Prereq: GPA of 2.5 or more for preceding semester

C I 490P: Independent Study: Science Education
Cr. 1-3. F.
Prereq: GPA of 2.5 or more for preceding semester

Independent Study in science education.

C I 494: Practice and Theory of Teaching Literature in the Secondary Schools
(Cross-listed with ENGL). (3-0) Cr. 3. F.S.
Prereq: ENGL 310, ENGL 397, 9 other credits in English beyond ENGL 250, PSYCH 333, admission to teacher education program

C I 495B: Independent Study: Teaching Speech
(Cross-listed with SP CM). (3-0) Cr. 3. F.
Prereq: C I 301; 9 credits in speech communication; minimum GPA of 2.5 in speech communication courses
Problems, methods, and materials related to teaching speech, theatre, and media in secondary schools.

C I 497: Teaching Secondary School Mathematics
(Cross-listed with MATH). (3-0) Cr. 3. F.
Prereq: 15 credits in college mathematics. If in a teacher licensure program, concurrent enrollment in C I 426 or C I 526.
Develop an understanding of instructional planning, lesson implementation, and assessment in grades 5-12 mathematics, with a focus on reform-based mathematics, equity, and conceptual understanding.

C I 498: Methods of Teaching History/Social Sciences
(Cross-listed with HIST). (3-0) Cr. 3. F.S.
Prereq: Concurrent enrollment in HIST 480A; Admission to teacher education and 30 credits in subject-matter field
Concurrent enrollment in 480A; Admission to teacher education and 30 credits in subject-matter field. Theories and processes of teaching and learning secondary history/social sciences. Emphasis on development and enactment of current methods, assessments, and curriculum materials for providing appropriate learning experiences.

Courses primarily for graduate students, open to qualified undergraduates:

C I 501: Foundations of Learning Technologies
(3-0) Cr. 3. F.S.
Prereq: Graduate classification
Educational philosophies and theories of teaching, learning, and learning technologies. Application of research to the production and use of learning technologies in various educational contexts. Equipment operation.

C I 503: Designing Effective Learning Environments
(3-0) Cr. 3. F.
Prereq: 501
Introduction to theories and models of instructional design. Design decision-making based on the analysis of performance problems and instructional inputs. Practical experience with the design and development of instruction and evaluation principles.

C I 504: Evaluating Digital Learning Environments
(Cross-listed with HCI). (3-0) Cr. 3. S.
Prereq: C I 501
Principles and procedures to plan, design, and conduct effective evaluation studies (formative, summative, usability) in different settings are studied. Opportunities to engage in real or simulated evaluation projects of substantial scope are provided. Create evaluation instruments, develop methods with which to evaluate a product or program, conduct try-outs or usability sessions, analyze the data, report the findings, and recommendations are some of the course activities.

C I 505: Using Technology in Learning and Teaching
(3-0) Cr. 3. F.S.S.
Prereq: Graduate classification
C I 506: Social Justice Education and Teaching: Advanced  
(3-0) Cr. 3. F.  
Prereq: 6 graduate credits in education  
Engage with justice-oriented multicultural frameworks for transformative education and education research, understand equity in education issues in historical and contemporary contexts, develop principled approaches to critical self-reflection, interpret educational situations in justice-oriented ways, and counter inequities in education through curriculum, pedagogy, and research.

C I 507: Principles and Practices of Distance Learning  
(Dual-listed with C I 407). (2-2) Cr. 3. F.S.  
Prereq: C I 201 or C I 202; convenient access to the Web  
Review of flexible and distance learning (FDL) cases in a variety of contexts and pedagogic styles, identification of underlying principles and frameworks for best practice in this field. Required for the Learning Technologies minor.

C I 508: Algebra in the K-12 Classrooms  
(3-0) Cr. 3. S.  
Prereq: 6 credits of mathematics; credit or concurrent enrollment in C I 448 or C I 497 or C I 597  
Focus on Algebraic reasoning, concepts, and associated procedures in K-12 classrooms. Learning trajectories in algebra, examination of representation, and analysis of mathematical situations are discussed. Attention is given to algebraic habits of mind, generalization, functions, and the transition from arithmetic to algebra.

C I 509: Geometry in the K-12 Classrooms  
(3-0) Cr. 3. F.  
Prereq: 6 credits of mathematics; credit or concurrent enrollment in C I 448 or C I 497 or C I 597  
Explore the fundamental mathematical theory underlying the content area of geometry and measurement through research-based pedagogies in K-12 classrooms. An investigative approach involving problem solving, reasoning and proof, connections, and communication are emphasized.

C I 510: Mathematical Problem Solving in K-12 Classrooms  
(3-0) Cr. 3. F.  
Prereq: 6 credits of mathematics; credit or concurrent enrollment in C I 448 or C I 497 or C I 597  
Develop problem solving strategies across all strands of mathematics (e.g., geometry, algebra, number theory). Issues surrounding the appropriate role of problem solving in K-12 mathematics classrooms are discussed, including distinctions among teaching "about," "for," and "through" problem solving.

C I 511: Technology Diffusion, Leadership and Change  
(3-0) Cr. 3. S.  
Prereq: Admission to graduate study, C I 501 or equivalent and C I 505 or equivalent  
Principles and practices of technology diffusion, leadership and school change. Readings and coursework focus on technology diffusion in a broad sense, and examine more closely how this has played out in educational contexts. Leadership is addressed relative to frameworks and strategies for professional development and organizational change.

C I 512: Research Trends in Digital Learning  
(3-0) Cr. 3. F.  
Prereq: Admission to graduate study and at least two courses in research and foundations of instructional technology  
Critical review of current research trends in educational technology. Designed to consolidate graduate students' knowledge of current trends, issues in research, and methods of conducting research in practice.

C I 513: Antiracist Curriculum Development and Implementation  
(2-2) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: 9 credits in education  
Introduction to historical, sociological, philosophical and pedagogical foundations of antiracist/multicultural education. Examination of causes of racism, other forms of discrimination, and intergroup conflict from different theoretical perspectives and experiential exercises.

C I 514: Action Research in Education  
(3-0) Cr. 3. S.  
Prereq: Admission to graduate study, one course in research methods, educational inquiry, statistics, educational psychology, or instructional design  
Philosophy and methods of conducting and communicating action research focused on improving educational practices. Designed specifically for practicing teachers.

C I 515: Student Teaching  
(Dual-listed with C I 417). Cr. arr. Repeatable. F.S.  
Prereq: Full admission to teacher education or licensed teacher; approval of coordinator during semester before student teaching  
Evaluation of instruction, lesson planning, and teaching.
C I 517A: Student Teaching: Social Studies-Middle School
(Dual-listed with C I 417A). Cr. arr. Repeatable. F.S.
Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517B: Student Teaching: Physical Sciences
(Dual-listed with C I 417B). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in physical sciences grades 5-12.

C I 517C: Student Teaching: Mathematics
(Dual-listed with C I 417C). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in mathematics grades 5-12.

C I 517D: Student Teaching: Biological Sciences
(Dual-listed with C I 417D). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in biological sciences grades 5-12.

C I 517G: Student Teaching: World Language
(Dual-listed with C I 417G). (Cross-listed with WLC). Cr. arr. Repeatable. F.S.
Prereq: minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in world languages, secondary grades.

C I 517J: Student Teaching: Earth Sciences
(Dual-listed with C I 417J). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in earth sciences grades 5-12.

C I 517M: Student Teaching: Science - Basic
(Dual-listed with C I 417M). Cr. arr. Repeatable. F.S.
Prereq: Full admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in basic sciences grades 5-12.

C I 517N: Student Teaching: International
(Dual-listed with C I 417N). Cr. arr. Repeatable. F.S.
Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517P: Student Teaching: Social Studies-High School
(Dual-listed with C I 417P). Cr. arr. Repeatable. F.S.
Prereq: GPA 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517R: Student Teaching: Music-Elementary
(Dual-listed with C I 417R). (Cross-listed with MUSIC). Cr. arr. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 517S: Student Teaching: Music-Secondary
(Dual-listed with C I 417S). (Cross-listed with MUSIC). Cr. arr. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

C I 518: Science Methods I: A Research-Based Framework for Teaching Science
(Dual-listed with C I 418). (3-0) Cr. 3. F.
Prereq: C I 514; concurrent enrollment in C I 547 and C I 591D
Development of a research-based framework for teaching science that includes student goals, congruent student actions, the character and role of science inquiry, teaching behaviors and strategies, contemporary learning theories, and self-evaluation.

C I 519: Secondary Science Methods II: Advancing a Research-Based Framework for Teaching Science
(Dual-listed with C I 419). (3-0) Cr. 3. S.
Prereq: C I 418 or C I 518, undergraduate students must register concurrently for C I 468K
Advancing a research-based framework for teaching science in a variety of school settings; emphasizing the teacher's role, content area reading strategies, science safety and classroom management, issues in using technology, and student assessment.
C I 520: Bilingualism, Bilingual Education, and U.S. Mexican Youth
(Dual-listed with C I 420). (3-0) Cr. 3. F.
Prereq: C I 405 or 406
Introduction to research on bilingualism and examination of the social, historical, and political contexts of bilingual education in U.S. schools. Attention to policy environment, school program structure, mode of classroom instruction, family and community context, and attainment of bilingualism and biculturalism for U.S. Mexican youth.

C I 523: Teaching Students who Struggle in Mathematics
(3-0) Cr. 3. S.
Prereq: C I 438 or C I 448
Explore and develop an understanding of research-based instructional practices that could be implemented with elementary students who are struggling with learning mathematical concepts.

C I 526: Principles of Secondary Education
(Dual-listed with C I 426). (3-0) Cr. 3. F.S.SS.
Prereq: Senior classification and admission to teacher education program
Introduction to secondary education teaching strategies, lesson planning that provides equitable learning opportunities for all students, classroom management, legal aspects of schools, professional and ethical issues, current educational issues, professional learning communities, and social-justice oriented teaching.

C I 529: Educational Psychology and the Secondary Classroom
(3-0) Cr. 3. SS.
Prereq: Bachelor's degree; admission into a graduate level teacher licensure program
Analysis of psychological research theory related to learning, cognition, motivation, individual differences, and teaching techniques. Student and classroom assessment to facilitate positive learning outcomes. Adaption and differentiation of instruction to meet individual learners' needs. This course can only be used for teacher licensure programs. It is not acceptable for use in meeting the non-licensure M.Ed., M.S. or Ph.D. requirements.

C I 533: Educational Psychology of Learning, Cognition, and Memory
(Cross-listed with PSYCH). (3-0) Cr. 3. F.
Learning, cognition, and memory in educational/training settings.

C I 541: How People Learn: Implications for Teaching Science and Mathematics
(3-0) Cr. 3.
Prereq: Bachelor's degree
Current theories of learning and motivation in science and mathematics education and their application to classrooms. Examination of teaching models congruent with learning theory and current research in science and mathematics education.

C I 546: Advanced Pedagogy in Science Education
(3-0) Cr. 3. S.SS.
Prereq: Bachelor's degree
Advanced examination of pedagogy, emphasizing teacher behaviors and strategies, methods of self-assessment, action research, and current issues and trends in science education.

C I 547: Nature of Science
(Dual-listed with C I 347). (3-0) Cr. 3. F.
Prereq: C I 280M; concurrent enrollment in C I 418 or instructor permission
The intersection of issues in the history, philosophy sociology, and psychology of science and their application to and impact on science teaching and learning, science teacher education, and science education research.

C I 548: Restructuring Science Activities
(3-0) Cr. 3. SS.
Prereq: Admission to teacher education or teaching license
Modification of laboratory activities and other everyday science activities so they are more congruent with how students learn, the nature of science, and national standards.

C I 550: Ethnicity and Learning
(Dual-listed with C I 450). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: C I 332 or C I 333, C I 406

C I 551: Foundations of Reading and Language Arts
(3-0) Cr. 3. Alt. F., offered irregularly.
Prereq: Teaching license
Analyzing, discussing, and researching the theory and practice of current literacy issues.

C I 552: Assessment for Literacy and Learning
(Dual-listed with C I 452). (3-0) Cr. 3. F.S.SS.
Prereq: C I 378 or equivalent
Identification, analysis and correction of reading problems in five areas: print knowledge, integration of print knowledge, oral reading fluency, vocabulary, and comprehension.

C I 553: Teaching Adolescent Readers with Reading Difficulties
(Cross-listed with SP ED). (3-0) Cr. 3. SS.
Prereq: Teaching license or senior status
Instructional strategies for enhancing the fluency, vocabulary and comprehension of adolescents with reading difficulties. Attention to content-area reading materials and strategies.
C I 554: Reading and Responding to Children's Literature
(3-0) Cr. 3. F.
Prereq: Senior status or teaching license
Research and discussion of issues surrounding the classroom use of literature for children and young adults including censorship, diversity, selection, and the influences of technology.

C I 555: Literacy, Leadership, and Advocacy
(3-0) Cr. 3. S.
Prereq: Graduate Standing
Examination of the roles of literacy specialists/coaches in diverse pre-K-12 schools and communities. Particular focus placed on current theories, research, standards, and policies relative to literacy processes and instruction, including culturally responsive literacy; processes of successful literacy coaching; and methods of supporting teachers and other school personnel in planning, implementing, and evaluating literacy instruction for all students.

C I 556: Integrating Technology into Literacy
(Dual-listed with C I 456). (3-0) Cr. 3. F.S.
Prereq: C I 201 or C I 202, C I 377
Methods and strategies used to integrate technology into K-8 literacy. Examination of the use and evaluation of technology appropriate for elementary literacy classrooms.

C I 558: Perspectives on Reading Comprehension
(3-0) Cr. 3. F.
Prereq: Graduate standing
Critical examination of the topics central to the study of reading comprehension, including processes, development, contexts, motivation, teaching and learning, and assessment. Reading and discussion of research literature in reading comprehension and comprehension instruction.

C I 565: Literacy: Connecting Research, Policy and Practice
(3-0) Cr. 3. F.S.
Prereq: Graduate standing
Critical examination of current policy initiatives and reform efforts that affect how literacy is viewed, assessed, and practiced, as well as how literacy professionals are prepared for their roles in public schools and colleges.

C I 567: Teaching Mathematics to Struggling Secondary Learners
(Cross-listed with SP ED). (3-0) Cr. 3.
Prereq: Secondary teaching experience
Instructional methods and assessment techniques for secondary students struggling to learn mathematics. Particular emphasis on current research, practices, and trends in mathematics interventions for at-risk students and students with disabilities.

C I 568: New Media Literacies: Understanding Research and Practice
(3-0) Cr. 3. F.
Prereq: Graduate Standing
Designed to increase awareness and understanding of critical issues surrounding the evolving concept of literacy and examine the effect that technology has on the literacy we use every day, teach in our schools, and need in order to function as 21st century citizens.

C I 577: Historical Perspectives on Technology Equity: Implications for Policy and Practice
(3-0) Cr. 3. S.
Prereq: Graduate Status
Exploration of the historical, political, sociological, and economic factors that engender global inequities. Examination of the definition and origin of the "digital divide" and its relationship to the histories of racism, sexism, classism, and imperialism/globalization. Exploration and analysis of research-based alternative approaches to alleviating technology inequities in educational settings.

C I 578: Pedagogy, Equality of Opportunity, and the Education of Blacks in the United States
(3-0) Cr. 3.
Prereq: Graduate or senior level status or permission of instructor
This course takes a nonlinear, reflective view of the historical, social, economic, political, and legal contexts of the education of African Americans in the U.S. Educational theories and philosophies, Critical Race Theory and Black Feminist Thought form the framework for investigating broad-based, multiple issues of education for African Americans in the U.S. as they are situated in the prevailing dominant views.

C I 588: Supervised Tutoring in Reading
(Dual-listed with C I 488). (2-2) Cr. 3. F.S.S.
Prereq: concurrent enrollment in or completion of one course in corrective reading; diagnosis and correction of reading problems; graduate status required for C I 588
Using formal and informal diagnostic procedures to plan and implement individualized reading instruction. Field experience in tutoring and a related research project.

C I 590: Special Topics
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 590A: Special Topics: Curriculum
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education
C I 590B: Special Topics: Digital Learning
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 590C: Special Topics: Science Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 590D: Special Topics: Secondary Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 590F: Special Topics in Education for Social Justice
Cr. 1-3. Repeatable. F.S.
Topics vary each time offered.

C I 590G: Special Topics: Mathematics Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 590I: Special Topics: Elementary Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 590J: Special Topics: World Language Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 590K: Special Topics: Educational Psychology
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 590L: Special Topics: Social Studies Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 590M: Special Topics: Literacy Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 591: Graduate Level Pre-Student Teaching Experience
(0-2) Cr. 1-4. Repeatable. F.S.
Prereq: 15 graduate credits in specialty area; admission to teacher education
Supervised pre-student teaching experience in secondary schools. Supervision level 3.

C I 591C: Supervised Field Experience: Elementary Education
(0-2) Cr. 1-6. F.S.SS.
Prereq: 15 graduate credits in special area
Supervised on-the-job field experience in special area.

C I 591D: Graduate Level Pre-Student Teaching Experience: Secondary Science
(0-2) Cr. 1-4. Repeatable. F.S.
Prereq: 15 graduate credits in specialty area; admission to teacher education
Supervised pre-student teaching experience in secondary science education. Supervision level 3.

C I 591G: Graduate Level Pre-Student Teaching Experience: Secondary Mathematics Education
(0-2) Cr. 1-4. Repeatable. F.S.
Prereq: 15 graduate credits in specialty area; admission to teacher education
Supervised pre-student teaching experience in mathematics education. Supervision level 3.

C I 591M: Supervised Field Experience: Literacy
(0-2) Cr. 1-6. F.S.SS.
Prereq: 15 graduate credits in special area
Supervised on-the-job field experience in special area.

C I 593: Workshops
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 593A: Workshops: Curriculum
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 593B: Workshops: Digital Learning
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 593C: Workshops: Science Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 593D: Workshops: Secondary Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 593F: Workshops: Multicultural Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 593G: Workshops: Mathematics Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education

C I 593I: Workshops: Elementary Education
Cr. 1-3. F.S.
Prereq: 9 graduate credits in education
C I 593J: Workshops: World Language Education  
Cr. 1-3. F.S.  
Prereq: 9 graduate credits in education

C I 593K: Workshops: Educational Psychology  
Cr. 1-3. F.S.  
Prereq: 9 graduate credits in education

C I 593L: Workshops: Social Studies Education  
Cr. 1-3. F.S.  
Prereq: 9 graduate credits in education

C I 593M: Workshops: Literacy Education  
Cr. 1-3. F.S.  
Prereq: 9 graduate credits in education

C I 594: Contemporary Curriculum Theory and Principles  
(3-0) Cr. 3. F.  
Prereq: Graduate standing  
Theoretical and historical perspectives of contemporary curriculum; social, cultural, and epistemological aspects of curriculum theory; diverse philosophical positions and approaches to understanding curriculum as it relates to educational settings.

C I 595: Teaching Disciplinary Literacy  
(Dual-listed with C I 395). (3-0) Cr. 3. F.S.  
Prereq: C I 204 and junior classification.  
Analysis and application of strategies to enhance students’ disciplinary literacy development in middle and secondary school setting. Research paper related to a course topic.

C I 597: Teaching Secondary School Mathematics  
(3-0) Cr. 3. F.  
Prereq: 15 credits in college mathematics; and either in a teacher licensure program or in the process of applying, concurrent enrollment in C I 426 or C I 526  
Develop an understanding of instructional planning, lesson implementation, and assessment in grades 5-12 mathematics, with a focus on reform-based mathematics, equity, and conceptual understanding.

C I 599: Creative Component  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599A: Creative Component: Curriculum  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599B: Creative Component: Digital Learning  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599C: Creative Component: Science Education  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599D: Creative Component: Secondary Education  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599F: Creative Component: Multicultural Education  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599G: Creative Component: Mathematics Education  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599I: Creative Component: Elementary Education  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599J: Creative Component: World Language Education  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599K: Creative Component: Educational Psychology  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599L: Creative Component: Social Studies Education  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

C I 599M: Creative Component: Literacy Education  
Cr. 1-3. F.S.SS.  
Prereq: 9 graduate credits in education

Courses for graduate students:

C I 601: Foundations of Educational Inquiry  
(3-0) Cr. 3. F.  
Prereq: Admission to a doctoral program.  
Required course for all School of Education PhD students that introduces students into the community of educational scholars with a focus on: 1) the history of education as an academic field of study; (2) the philosophical underpinnings of social scientific and educational inquiry; and (3) the contemporary methodological landscape of the field of education.
C I 602: Educational Inquiry in Action
(3-0) Cr. 3. S.
Prereq: C I 601
Opportunities to learn about a variety of faculty research in the School of Education, engage faculty in conversation about their research, and continue reflecting on the theory and practice of educational inquiry. Offered on a satisfactory-fail basis only.

C I 603: Advanced Learning Environments Design
(Cross-listed with HCI). (3-0) Cr. 3. S.
Prereq: C I 503
Exploration of advanced aspects of the instructional design process. Application of analysis, design, development and production, evaluation, implementation, and project management principles. Focus on the production and use of instructional technology with an emphasis on the instructional design consulting process. Theory and research in instructional technology provides the foundation for design decisions.

C I 610: Digital Learning in Teacher Education
(2-0) Cr. 2. F.
Prereq: C I 505
Research on using technology in teacher education programs. Application examples studied. Field component involving relating material from class to a teacher education situation.

C I 611: Philosophical Foundations of Digital Learning
(3-0) Cr. 3.
Prereq: 12 graduate credits in curriculum and instruction
Exploration of philosophies of science that serve as foundations for research and practice in instructional technology, including positivism, post-positivism, interpretivism/constructivism, and critical theory. The roles of language, nature of truth and reality, and acceptable ways of knowing are explored in terms of their implications for instructional technology design, delivery, research, and scholarship.

C I 612: Socio-psychological Foundations of Digital Learning
(3-0) Cr. 3.
Prereq: 12 graduate credits in curriculum and instruction
Exploration of theories of learning and associated instructional models that are the foundation for research and practice in education and educational technology, including behaviorism, information processing theory, and cognitive science. Emphasis on cognitive and social constructivist paradigms and the creation and use of constructivist learning environments supported by technology.

C I 615: Seminar
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615A: Seminar: Curriculum
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615B: Seminar: Digital Learning
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615C: Seminar: Science Education
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615D: Seminar: Secondary Education
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615F: Seminar: Multicultural Education
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615G: Seminar: Mathematics Education
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615I: Seminar: Elementary Education
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615J: Seminar: World Language Education
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.
C I 615K: Seminar: Educational Psychology
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615L: Seminar: Social Studies Education
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 615M: Seminar: Literacy Education
(0-2) Cr. 1. F.S.
Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

C I 690: Advanced Special Topics
Cr. arr. Repeatable.
Prereq: 9 graduate credits in education

C I 690A: Advanced Special Topics: Curriculum
Cr. arr. Repeatable.
Prereq: 9 graduate credits in education

C I 690B: Advanced Special Topics: Digital Learning
Cr. arr. Repeatable.
Prereq: 9 graduate credits in education

C I 690C: Advanced Special Topics: Science Education
Cr. arr. Repeatable.
Prereq: 9 graduate credits in education

C I 690D: Advanced Special Topics: Secondary Education
Cr. arr. Repeatable.
Prereq: 9 graduate credits in education

C I 690F: Advanced Special Topics in Education for Social Justice
Cr. arr. Repeatable.
Prereq: 9 graduate credits in education
Topics vary each time offered.

C I 690G: Advanced Special Topics: Mathematics Education
Cr. arr. Repeatable.
Prereq: 9 graduate credits in education

C I 690I: Advanced Special Topics: Elementary Education
Cr. arr. Repeatable.
Prereq: 9 graduate credits in education
**C I 699K: Research: Educational Psychology**
Cr. arr. Repeatable.
*Prereq: 9 graduate credits in education*

**C I 699L: Research: Social Studies Education**
Cr. arr. Repeatable.
*Prereq: 9 graduate credits in education*

**C I 699M: Research: Literacy Education**
Cr. arr. Repeatable.
*Prereq: 9 graduate credits in education*

---

### Dance (DANCE)

Courses primarily for undergraduates:

**DANCE 120: Modern Dance I**
(0-3) Cr. 1. F.S.
Introduction and practice of basic dance concepts, including preparatory techniques and guided creativity problems. No previous modern dance experience required. Offered on a satisfactory-fail basis only.

**DANCE 130: Ballet I**
(0-3) Cr. 1. F.S.
Introduction to the basic skills, vocabulary, and tradition of ballet with concentration on control and proper alignment. No previous ballet experience required. Offered on a satisfactory-fail basis only.

**DANCE 140: Jazz I**
(0-3) Cr. 1. F.S.
Introduction to the modern jazz style with concentration on isolation and syncopation. No previous jazz experience required. Offered on a satisfactory-fail basis only.

**DANCE 150: Tap Dance I**
(0-3) Cr. 1. F.
Instruction and practice in basic tap technique and terminology. No previous tap experience required. Offered on a satisfactory-fail basis only.

**DANCE 160: Ballroom Dance I**
(0-2) Cr. 1. F.S.
Instruction and practice in foxtrot, waltz, swing, cha cha, rhumba, tango, and selected contemporary dances. Offered on a satisfactory-fail basis only.

**DANCE 199: Dance Continuum**
Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S.
*Prereq: Permission of instructor*
Advance registration required. Continued instruction and practice in either modern dance, recreational dance, ballet, jass and/or compositional skills. Offered on a satisfactory-fail basis only.

**DANCE 211: Fundamentals and Methods of Social and World Dance**
(1-3) Cr. 1. S.
Skill enhancement, teaching, progressions with emphasis on world and social dance. Designed for kinesiology and health majors, open to others.

**DANCE 220: Modern Dance Composition**
(1-3) Cr. 2. F.
*Prereq: DANCE 120 or previous modern dance experience*
Theory and practice of the creative skills involved in solo and small group composition.

**DANCE 222: Modern Dance II**
(0-3) Cr. 1. F.
*Prereq: DANCE 120 or previous modern dance experience*
Dance techniques emphasizing strength, balance, endurance, rhythmic activity and extended combinations.

**DANCE 223: Modern Dance III**
(0-3) Cr. 1. S.
*Prereq: DANCE 222*
Continued experience in dance techniques and extended combinations. Emphasis on maturation of skill and artistry. Exposure to a variety of modern dance technical styles.

**DANCE 224: Concert and Theatre Dance**
(Cross-listed with THTRE). (0-3) Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S.
*Prereq: By audition only*
Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Offered on a satisfactory-fail basis only.

**DANCE 232: Ballet II**
(0-3) Cr. 1. S.
*Prereq: Previous ballet experience*
Technical skills in the classical movement vocabulary. Emphasis on alignment, techniques, sequence development, and performing quality.

**DANCE 233: Ballet III**
(0-3) Cr. 1. F.
*Prereq: DANCE 232*
Concentration on technical proficiency at the intermediate level. Pointe work and partnering opportunities available.

**DANCE 242: Jazz II**
(0-3) Cr. 1. S.
*Prereq: Previous jazz dance experience*
Dance concepts within the jazz idiom. Instruction in extended movement sequences and artistic interpretation.
DANCE 270: Dance Appreciation  
(3-0) Cr. 3. F.S.S.S.  
Introduction to the many forms and functions of dance in world cultures.  
Develop abilities to distinguish and analyze various dance styles. No dance experience required.  
Meets International Perspectives Requirement.

DANCE 320: Sound and Movement  
(2-2) Cr. 3. S.  
Prereq: DANCE 220  
Intermediate composition based on the relationship of movement to improvised sounds, rhythmic scores, and the musical works of composers from various periods.

DANCE 360: History and Philosophy of Dance  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: DANCE 270  
Study of the history of dance from early to modern times with emphasis on the theories and philosophies of contemporary modern dance, dancers, and dance educators.

DANCE 370: Advanced Studies in Dance  
Cr. 1-3. Repeatable, maximum of 8 credits. F.S.  
Prereq: 2 credits in dance  
Advance registration required. Designed to meet special interests and talents of students to include both group and independent study in various aspects of dance as a performing art including production, choreography, and performance.

DANCE 384: Teaching Children's Dance  
(1-3) Cr. 2. S.  
Content, experiences, and methods of a comprehensive dance program at the elementary school level. Theories and practice in guiding elementary school children in expressive movement experiences.

DANCE 385: Methods of Teaching Dance  
(1-3) Cr. 2. F.  
Methods and techniques of teaching social and world dance forms. Introduction to teaching educational modern dance.

DANCE 386: Teaching Dance Technique and Composition  
(1-3) Cr. 2.  
Prereq: DANCE 320  
Teaching yoga, body therapies, mindfulness and dance composition to enhance the physical and mental performance of the individual.

DANCE 490: Independent Study  
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.  
Prereq: 6 credits in dance and permission of coordinator  
Independent study of problems or areas of interest in dance.

DANCE 490A: Independent Study: Dance  
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.  
Prereq: 6 credits in dance and permission of coordinator  
Independent study of problems or areas of interest in dance.

DANCE 490H: Independent Study in Dance - Honors  
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.  
Prereq: 6 credits in dance and permission of coordinator  
Independent study of problems or areas of interest in dance for those admitted to the honors program.

Data Science (DS)

Courses primarily for undergraduates:

DS 201: Introduction to Data Science  
Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.  
Prereq: 1-1/2 Years of High School Algebra  
Data Science concepts and their applications; domain case studies with applications in various fields; overview of data analysis; major components of data analysis pipelines; computing concepts for data science; descriptive data analysis; hands-on data analysis experience; communicating findings to stakeholders, and ethical issues in data science.

DS 202: Data Acquisition and Exploratory Data Analysis  
Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.  
Prereq: DS 201  
Data acquisition: file structures, web-scraping, database access; ethical aspects of data acquisition; types of data displays; numerical and visual summaries of data; pipelines for data analysis: filtering, transformation, aggregation, visualization and (simple) modeling; good practices of displaying data; data exploration cycle; graphics as tools of data exploration; strategies and techniques for data visualizations; basics of reproducibility and repeatability; web-based interactive applets for visual presentation of data and results. Programming exercises.

DS 301: Applied Data Modeling and Predictive Analysis  
Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.  
Prereq: DS 201, one of STAT 101, 104, 105, 201, 226, 231, 305, 322, 330  
Elements of predictive analysis such as training and test sets; feature extraction; survey of algorithmic machine learning techniques, e.g. decision trees, Naive Bayes, and random forests; survey of data modeling techniques, e.g. linear model and regression analysis; assessment and diagnostics: overfitting, error rates, residual analysis, model assumptions checking; communicating findings to stakeholders in written, oral, verbal and electronic form, and ethical issues in data science. Participation in a multi-disciplinary team project.
DS 401: Data Science Capstone
Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.
Prereq: DS 202X; DS 301X
Students work as individuals and teams to complete the planning, design, and implementation of a significant multi-disciplinary project in data science. Oral and written reports.

Design (DES)

Courses primarily for undergraduates:

DES 230: Design Thinking
(3-0) Cr. 3. F.S.
Introduction to the phenomenon of design thinking as it appears in various design fields, including methodologies of reasoning and problem solving; patterns of creativity and individual style; and the interaction of art, science, and technology.

DES 240: Design Studio I
(0-8) Cr. 2. Repeatable.
Prereq: DSN S 102, DSN S 131 and DSN S 183
Half-semester course. Studio projects develop students’ ability to generate ideas and communicate those ideas visually, orally, and through writing. Emphasis on representation and conceptualization of interdisciplinary work.

DES 250: Design Forum
(2-0) Cr. 2. Repeatable, maximum of 6 credits. F.S.SS.
Prereq: DSN S 102, DSN S 131, DSN S 183 and credit or concurrent enrollment in DES 230
Introduction of themes and issues that are relevant to the design fields through theoretical readings, case studies, and visiting lecturers.

DES 259: Design Field Study
Cr. R. Repeatable.
Prereq: Enrollment in or 2 credits of DES 240.
Off-campus tours of areas of interest within the design professions such as design offices, museums, buildings, and neighborhoods. Offered on a satisfactory-fail basis only.

DES 330: Visual Literacy for Design Critique
(3-0) Cr. 3. S.
Prereq: DSN S 102 or DSN S 183 or 3 credits of ART H or equivalent.
Students will learn to interpret, analyze and evaluate visual materials, use images and text effectively to communicate ideas, and understand issues surrounding the creation and use of images and visual media for design critique. Precedent study and critique of sample student design work to understand principles of visual literacy and how to apply them to the presentation of design work. Emphasis on peer-to-peer discussion and in-class participation. Lecture and discussion format.

DES 340: Design Studio II
(0-8) Cr. 2. Repeatable.
Prereq: 4 credits of DES 240 or equivalent.
Half-semester course. Studio projects of increasing complexity requiring interdisciplinary approaches to contemporary challenges and opportunities. Continued development of students’ abilities to generate ideas and communicate those ideas visually, orally, and through writing. Field trip.

DES 491: Portfolio and Professional Preparation
(2-4) Cr. 4. F.
Prereq: classification as DES major; 4 credits of DES 240
Preparation of printed and online portfolio of student work and materials for job search and/or graduate school applications. Guidance for interviewing, professional networking, business etiquette, and resume writing. Workshops and lectures.

DES 495: Capstone Experience
(1-6) Cr. 4. S.
Prereq: classification as DES major; 2 credits of DES 340
Individual projects designed by students in consultation with faculty instructor and mentor. Demonstration of student skill sets and knowledge of project planning and development.

Design Studies (DSN S)

Courses primarily for undergraduates:

DSN S 102: Design Studio I
(1-6) Cr. 4.
A core design studio course exploring the interaction of two-and three-dimensional design. Emphasis on fundamental skills and ideas shared across design disciplines. Investigation of creative process, visual order and materials, and development of critical thinking through studio projects and lectures. Includes study of precedents, contemporary design practices and disciplines in their cultural contexts.

DSN S 110: Design Exchange Seminar I
(0-2) Cr. 1. F.
Prereq: Member of Design Exchange Learning Community
Orientation to the College of Design. Introduction to the design disciplines and studio pedagogy. Offered on a satisfactory-fail basis only.

DSN S 111: Design Exchange Seminar II
(0-2) Cr. 1. S.
Prereq: Member of the Design Exchange Learning Community
Development and clarification of career and academic plans. Offered on a satisfactory-fail basis only.
DSN S 115: Design Collaborative Seminar
(1-0) Cr. 0.5.
Prereq: Member of Design Collaborative Learning Community
Orientation to the College of Design. Introduction to the design disciplines and studio pedagogy. Offered on a satisfactory-fail basis only.

DSN S 131: Design Representation
(1-6) Cr. 4.
An introduction to methods of visual thinking and drawing through studio experiences and lectures. All design fields utilize visual communication and drawing. Focus on the use of drawing as a method for creative problem solving, design development and visual communication. Explore, from observation and imagination, the use of fast sketching and in-depth drawing, using various scales, mediums and processes.

DSN S 183: Design Cultures
(3-0) Cr. 3.
A broad-based exploration of the dynamic relationship between design and culture, employing case study method to investigate particular examples of cultural production in contemporary society. Design processes and design works are presented as culturally, economically, environmentally, historically, ideologically, politically, and socially grounded events and artifacts.

DSN S 232: Digital Design Communications
(3-0) Cr. 3.
Introductory investigations of various digital design media to develop multi-dimensional problem solving, digital communication skills and perceptual sensitivity. Open to all university majors.

DSN S 301: Study Abroad Preparation Seminar
(1-0) Cr. 1. Repeatable.
Cultural introduction to host country, introduction to faculty sponsor and program of study, the particulars of traveling and living abroad, and financial and logistical preparations. Guest lectures. Required of all students planning to participate in a College of Design study abroad program for 9 or more credits. Offered on a satisfactory-fail basis only.

DSN S 302: Design Leadership Seminar
(1-2) Cr. 2. Repeatable, maximum of 4 credits.
Prereq: Selection as a peer mentor for the Core Design program.
For students serving as peer mentors for the Core Design Program, under faculty supervision. Development of teaching and leadership skills within the context of design education experiences. Offered on a satisfactory-fail basis only.

DSN S 303: Design Ambassadors
(1-2) Cr. 1-2. Repeatable, maximum of 4 credits.
Prereq: Admittance into one of the professional programs in the College of Design
Opportunity to strengthen leadership, communication and presentation skills. Introduction to student development theory. Students participate in collaborative projects focused on prospective design students. Offered on a satisfactory-fail basis only.

DSN S 310: Practical Experience
Cr. R.
Prereq: Permission of adviser or Coordinator of Design Studies
Independent educational enrichment through practical experience. Available only to students taking course loads of eleven credits or less. Offered on a satisfactory-fail basis only.

DSN S 332: Multi-Dimensional Digital Design Communication
Cr. 3.
Prereq: Arch 230, ARTGR 275, DSN S 232, or permission of the instructor
Investigations if interoperable digital-design tools, techniques and methods directed at human scale interactive hybrid design from ideation to visualization, synthesis to analysis, and realization to fabrication.

DSN S 445: Public Art/Public Space
(3-0) Cr. 3.
Prereq: Junior Standing. DSN S 102, DSN S 131, DSN S 183
Exploration of the history, precedents, and practice of public art and public space with a focus on developments since 1970 in the United States and abroad. Course includes development of a proposal for a site specific work of art.
Meets U.S. Diversity Requirement

DSN S 446: Interdisciplinary Design Studio
(0-12) Cr. 4-6. Repeatable, maximum of 18 credits.
Prereq: Junior classification in a curriculum in the College of Design and permission of instructor
Advanced interdisciplinary design projects.

DSN S 446H: Interdisciplinary Design Studio: Honors
(0-12) Cr. 5-7. Repeatable, maximum of 18 credits.
Prereq: Junior classification in a curriculum in the College of Design and permission of instructor
Advanced interdisciplinary design projects.
DSN S 478D: Landscape Architecture: History/Theory/Criticism  
(Cross-listed with L A). Cr. 2-3. Repeatable, maximum of 3 times. F.S.S. 
Prereq: L A 202 or senior or graduate classification  
Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

DSN S 478E: Landscape Architecture: Landscape Planning  
(Cross-listed with L A). Cr. 2-3. Repeatable, maximum of 3 times. F.S.S. 
Prereq: L A 202 or senior or graduate classification  
Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

DSN S 478G: Landscape Architecture: Graphics  
(Cross-listed with L A). Cr. 2-3. Repeatable, maximum of 3 times. F.S.S. 
Prereq: L A 202 or senior or graduate classification  
Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

DSN S 478I: Landscape Architecture: Interdisciplinary Studies  
(Cross-listed with L A). Cr. 2-3. Repeatable, maximum of 3 times. F.S.S. 
Prereq: L A 202 or senior or graduate classification  
Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

DSN S 478J: Landscape Architecture: International Studies  
(Cross-listed with L A). Cr. 2-3. Repeatable, maximum of 3 times. F.S.S. 
Prereq: L A 202 or senior or graduate classification  
Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

DSN S 478K: Computer Applications  
(Dual-listed with DSN S 578). Cr. 2-3. Repeatable, maximum of 3 times. F.S.S. 
Prereq: L A 371 or senior classification or graduate standing  
Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

DSN S 490: Independent Study  
Cr. 1-4. Repeatable, maximum of 9 credits. 
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment  
Independent investigation of a topic of special interest to the student.

DSN S 490A: Independent Study: History  
Cr. 1-4. Repeatable, maximum of 9 credits. 
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment  
Independent investigation of a topic of special interest to the student.

DSN S 490B: Independent Study: Technology  
Cr. 1-4. Repeatable, maximum of 9 credits. 
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment  
Independent investigation of a topic of special interest to the student.

DSN S 490C: Independent Study: Communications  
Cr. 1-4. Repeatable, maximum of 9 credits. 
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment  
Independent investigation of a topic of special interest to the student.

DSN S 490D: Independent Study: Design  
Cr. 1-4. Repeatable, maximum of 9 credits. 
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment  
Independent investigation of a topic of special interest to the student.

DSN S 490E: Independent Study: Entrepreneurship  
Cr. 1-4. Repeatable, maximum of 9 credits. 
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment  
Independent investigation of a topic of special interest to the student.

DSN S 490F: Independent Study: Social/Behavioral  
Cr. 1-4. Repeatable, maximum of 9 credits. 
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment  
Independent investigation of a topic of special interest to the student.

DSN S 490G: Independent Study: Outreach  
Cr. 1-4. Repeatable, maximum of 9 credits. 
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment  
Independent investigation of a topic of special interest to the student.

DSN S 490H: Independent Study: Honors  
Cr. 1-4. Repeatable, maximum of 9 credits. 
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment  
Independent investigation of a topic of special interest to the student.
DSN S 490I: Independent Study: Sustainability
Cr. 1-4. Repeatable, maximum of 9 credits.
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment.
Independent investigation of a topic of special interest to the student. Offered on a satisfactory-fail basis only.

DSN S 492: Introduction to Italian Culture
(1-0) Cr. 1. Repeatable, maximum of 3 credits.
Prereq: Enrollment in the College of Design Rome Study Abroad Program
Introduction to Italian contemporary culture for design students, including food, religion, fashion, politics, media, and social mores.

Courses primarily for graduate students, open to qualified undergraduates:

DSN S 546: Interdisciplinary Design Studio
(0-12) Cr. 4-6. Repeatable, maximum of 18 credits.
Prereq: Graduate or senior standing in the College of Design and permission of instructor
Advanced interdisciplinary design projects.

DSN S 578: Topical Studies in Landscape Architecture
(Dual-listed with DSN S 478). (3-0) Cr. 2-3. Repeatable. F.S.SS.
Prereq: Senior Classification or graduate standing
Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

DSN S 578C: Construction
(Dual-listed with DSN S 478). (3-0) Cr. 2-3. Repeatable. F.S.SS.
Prereq: Senior Classification or graduate standing
Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

DSN S 578H: Landscape Architecture: Honors
Cr. 2-3. Repeatable. F.S.SS.
Prereq: Senior classification or graduate standing
Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

DSN S 585: Renaissance Art
(Cross-listed with ART H). (3-0) Cr. 3.
Prereq: Graduate classification and permission of instructor
European art including painting, sculpture, architecture, and crafts; thirteenth through sixteenth centuries.

DSN S 590: Special Topics
Cr. 1-4. Repeatable, maximum of 12 credits. F.S.SS.
Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment
Independent investigation of a topic of special interest to the student.

Dietetics (DIET)

Courses primarily for graduate students, open to qualified undergraduates:

DIET 511: Research Methods
(3-0) Cr. 3. F.S.
Prereq: Enrollment in GP-IDEA MFCS in Dietetics
An overview of diverse research approaches focusing on methods for collecting and analyzing quantitative and qualitative data. www only. Only one of DIET 511 or FCEDS 511 may count toward graduation.

DIET 524: Financial Management and Cost Controls
(3-0) Cr. 3. SS.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Overview of the fundamental knowledge of financial management, managerial accounting, and operational cost controls for dietetics professionals. Topics include a review of managerial accounting concepts for not-for-profit organizations and for-profit organizations based on the Uniform System of Accounts, value and risk analysis, budgeting, asset management, franchising and management contracts, cost-volume-profit analyses, and operational applications for financial performance.

DIET 526: Obesity Across the Lifespan
(3-0) Cr. 3. F.
Exploration of the affects that obesity has on public health, the healthcare system, and society in general. Overview of strategies to prevent obesity across the lifespan.

DIET 530: Nutrition in Wellness
(3-0) Cr. 3. S.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Addresses wellness promotion through nutrition. Nutritional risk and protective factors will be examined in relation to public health and individual nutrition. www only.

DIET 532: Maternal and Child Nutrition
(3-0) Cr. 3. Alt. SS., offered even-numbered years.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Critical examination of behavioral, physiological, and public health issues impacting dietary and nutritional factors that support normal growth and development. Content focuses on early stages of the life cycle: gestation, lactation, infancy, preschool, school age, and adolescence. www only.
DIET 538: Nutrition: A Focus on Life Stages
(3-0) Cr. 3. F.Alt. SS., offered odd-numbered years.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Explores influence of normal physiological stresses on nutritional needs throughout the life span. Evaluates dietary intake and identification of appropriate community nutrition services in on-line discussions. Specific considerations, such as the influence of age and cultural heritage, are incorporated. www only.

DIET 540: Nutrition and Physical Activity in Aging
(Cross-listed with GERON). (3-0) Cr. 3. F.
WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

DIET 544: Pediatric Clinical Nutrition
(3-0) Cr. 3. F.
Prereq: enrollment in GP-IDEA MFCS in dietetics
Examines the physiological, biochemical and nutritional aspects of disease processes relevant to infants and children up to 18 years of age. Discussion of medical nutrition therapy for a variety of medical conditions in this population including inborn errors of metabolism, food hypersensitivity, obesity, and diseases of the major organ systems. www only.

DIET 546: Phytochemicals
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Overview of phytochemicals (non-nutritive biologically active compounds) from fruits, vegetables, cereals and oilseeds. Covers recent findings of chemistry, physiological functions, and potential health implications of phytochemicals. www only.

DIET 547: Functional Foods in Chronic Disease Prevention
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Examines of nutritional science, food science, regulatory principles, and nutrient metabolism to understand and explain functional foods, nutraceuticals, and dietary supplements. Additionally students will evaluate the biochemical basis, technologies, legal requirements, and clinical assessment in the marketplace.

DIET 554: Statistics
(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly. Alt. SS., offered irregularly.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Tools used to make statistical decisions. Major emphasis on explanation and understanding of important concepts involved; basic theme is understanding of data and methods used to analyze such data. www only. Only one of DIET 554 or Stat 401, 495, 542 may count toward graduation by students in the GPIDEA Dietetics program.

DIET 558: Advanced Nutrition: Macronutrients
(3-0) Cr. 3. SS.
Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics
Integration of the molecular, cellular and physiological aspects of macronutrients and energy metabolism in mammalian systems. Dietary energy, carbohydrates, fiber, lipids, proteins, their interactions, metabolic consequences, and major research methodologies. www only. Only one of DIET 558 or NUTRS 501 may count toward graduation.

DIET 560: Advanced Medical Nutrition Therapy
(3-0) Cr. 3. SS.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention directed to medical nutrition needs of patients in the treatment of each disease state. www only. Only two of DIET 560 or NUTRS 561, 564 may count toward graduation.

DIET 565: International Nutrition and World Hunger
(3-0) Cr. 3. F.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Identification and assessment of malnutrition in low-income countries. Social, cultural, political, economic, and geographic determinants of malnutrition. Protein-energy malnutrition, vitamin and mineral deficiencies. Intervention approaches; international efforts and local sustainability. www only.

DIET 566: Nutrition Counseling and Education Methods
(Cross-listed with FS HN). (2-2) Cr. 3. F.
Prereq: FS HN 361 and FS HN 362
Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.
**DIET 568: Entrepreneurship Theory and Practice**  
(3-0) Cr. 3. Alt. SS., offered odd-numbered years.  
*Prereq: enrollment in GP-IDEA MFCS in Dietetics*  
Definition and discussion of entrepreneurship and its importance to economic and business environment. www only.

**DIET 569: Dietary and Herbal Supplements**  
(3-0) Cr. 3. SS.  
*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*  
Develop skills to partner with patients in making dietary supplement decisions. Explore the safe, efficacious use of botanicals and supplements in nutritional support of aging, maternal health and wellness. Discussions on supplementation in the prevention and treatment of chronic disease include: arthritis, cancer, cardiovascular, diabetes, digestive, liver and renal disorders.

**DIET 570: Nutrition and Human Performance**  
(3-0) Cr. 3. S.  
*Prereq: enrollment in GP-IDEA MFCS in Dietetics*  
Develop an understanding of nutrition based on knowledge of the biochemical and physiological process and functions of specific nutrients in meeting nutritional requirements. Emphasis on the relationship of optimal nutrition and physical efficiency and performance. www only.

**DIET 571: Leadership in Dietetics**  
(3-0) Cr. 3. SS.  
Using leadership theories to develop the fundamental concepts and skills to bridge the gap between theory and practice. Students will be able to successfully evaluate classic and contemporary leadership theories, investigate current leadership trends and identify positive applications in the dietetics community.

**DIET 572: Current Issues and Trends**  
(3-0) Cr. 3. F.S.  
*Prereq: enrollment in GP-IDEA MFCS in Dietetics*  
Overview of current topics, issues, and trends in dietetics practice. www only.

**DIET 573: Healthcare Administration**  
(3-0) Cr. 3. Alt. SS., offered even-numbered years.  
*Prereq: enrollment in GP-IDEA MFCS in Dietetics*  
A comprehensive review of today’s health care institutions and their response to the economics, social, ethical, political, legal, technological, and ecological environments. www only.

**DIET 574: Nutrition and Immunology**  
(3-0) Cr. 3. Alt. S., offered odd-numbered years.  
Principles and issues related to nutrition and immunology. Impact of nutrients and nutritional status on immune responses. Impact of disease states on nutritional status.

**DIET 595: Grant Writing for the Professional**  
(Cross-listed with FS HN). (3-0) Cr. 3. SS.  
*Prereq: enrollment in GP-IDEA MFCS in Dietetics*  
Grant writing, identifying external funding, managing grants, preparing manuscripts for peer-reviewed publication, and preparing papers and poster for presentation at professional meetings.

**DIET 597: Nutritional Aspects of Oncology**  
(Cross-listed with FS HN, NUTRS). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
*Prereq: B.S. in nutrition, dietetics, biology, or related discipline.*  
Understanding of basic cancer biology and methodology used to study nutrition and cancer relationships. Using current research as a basis, the role of nutrition in specific cancers will be explored. Students will learn about sources of information for cancer prevention programs, and how to apply this information to clinical patient management.

**DIET 598: Clinical Aspects of Nutrition Support**  
(3-0) Cr. 3. S.  
*Prereq: Enrollment in GPIDEA - Dietetics program*  

**DIET 599: Creative Component**  
Cr. arr. Repeatable. F.S.SS.  
*Prereq: Enrollment in GPIDEA MS Dietetics*  
For non-thesis option only.

---

**Early Childcare Education and Programming (E C P)**

Courses primarily for undergraduates:

**E C P 201: Child Development – Ages Birth to 3**  
(3-0) Cr. 3. F.S.  
*Prereq: HD FS 102*  
Development from birth to age three. Major theories and research on development will be covered including growth patterns, the influences of disabilities and risk factors, environmental factors and their effects on attachment styles, language acquisition, brain development, cognitive development, social-emotional development, and perceptual and sensory motor skills. (on-line course offering via Distance Education).
ECP 202: Child Development – Ages 4 to 8
(3-0) Cr. 3. F.S.
Prereq: HD FS 102
Development from ages four through eight. Major theories and research on development will be covered including growth patterns, the influences of disabilities and risk factors, environmental factors and their effects on attachment styles, language acquisition, brain development, cognitive development, social-emotional development, and perceptual and sensory motor skills. (on-line course offering via Distance Education).

ECP 305: Introduction to Early Care and Education for a Mobile Society
(3-0) Cr. 3. F.S.
Prereq: HD FS 102
Exploring the role of a professional as a teacher, administrator or advocate in early childhood programming. Students will learn about professionalism and ethics, identifying child abuse, and applying universal precautions. Discussion of qualities of the early childhood educator role, program models, and working with children and professional colleagues. (on-line course offering via Distance Education).

ECP 306: Health, Safety, and Nutrition
(3-0) Cr. 3. F.S.
Prereq: HD FS 102
Important elements for planning, promoting and maintaining healthy and safe learning/care environments, understanding childhood illnesses and establishing healthy lifestyles, first aid, and care providers maintaining their own health. Maintaining safe relationships with others, including identifying and reporting abuse, neglect, and exploitation of children. Exploration of nutrients for life and feeding, food preparation and safety policies and guidelines, food allergies and intolerances, appropriate feeding practices. (on-line course offering via Distance Education).

ECP 307: Child Guidance and Classroom Environments
(3-0) Cr. 3. F.S.
Prereq: HD FS 102
Working knowledge of developmentally appropriate practice in child guidance. This goal will be accomplished through review of current guidance methods and programs in order to familiarize students with successful guidance techniques. By the end of this course, students will develop their own approach to guidance based upon practices best suited to their own unique skills and strengths. (on-line course offering via Distance Education).

ECP 320: Practicum I – Child Observations in Classroom Environments
(0-6) Cr. 3.
Prereq: ECP 201, ECP 202, ECP 305, ECP 306, ECP 307, HD FS 103
Practicum in Early Childhood Education is an opportunity for ECP teacher candidates to have a guided learning experience in a professional agency that provides services to children and families. It is expected that learning experiences and projects at the practicum site will provide teacher candidates with the opportunity to utilize and implement theories and practices learned in other ECP classes. (on-line course offering via Distance Education).

ECP 322: Diversity in the Lives of Young Children and Families
(3-0) Cr. 3. F.S.
Prereq: HD FS 102
Exploration of cultural diversity in daily life and beliefs in families with young children. The focus is on U.S. families, with attention to the multiple cultures from which they come. (on-line course offering via Distance Education).
Meets U.S. Diversity Requirement

ECP 323: Working with Families
(3-0) Cr. 3. F.S.
Prereq: HD FS 102
Application of an ecological model to the understanding of variation in parental roles, perspectives, relationships, approaches, and challenges. (on-line course offering via Distance Education).

ECP 324: Technology and Young Children
(3-0) Cr. 3. F.S.
Prereq: HD FS 102
Impact of electronic technology on the development of young children in educational, home, and community environments, and how technology can be used to enhance teaching and learning. Students will be critical thinkers and informed consumers of technology related to young children. (on-line course offering via Distance Education).

ECP 412: Development of Curriculum for Children Ages Birth to 3
(3-0) Cr. 3. F.S.
Prereq: ECP 201, ECP 202, ECP 305, ECP 306, ECP 307, ECP 320
Curriculum development related to children from birth to age 3: (1) learn and utilize assessment and documentation to inform curriculum, (2) plan and evaluate developmentally appropriate activities, and (3) learn about effective ways to share curriculum information with families. All areas of developmental domains and content areas; issues related to diversity in family composition, culture, and individual abilities will also be addressed. (on-line course offering via Distance Education).
ECP 413: Development of Curriculum for Children Ages 4 to 8  
(3-0) Cr. 3. F.S.  
Prereq: ECP 201, ECP 202, ECP 305, ECP 306, ECP 307, ECP 320  
Development of curriculum for children ages 4 to 8 years: (1) learn and utilize assessment and documentation to inform curriculum, (2) plan and evaluate developmentally appropriate activities, and (3) learn about effective ways to share curriculum information with families. This course addresses all areas of developmental domains and content areas, and issues related to diversity in family composition, culture, and individual abilities will also be addressed. (on-line course offering via Distance Education).

ECP 424: Assessing Young Children and Their Environments to Enhance Development  
(3-0) Cr. 3. F.S.  
Prereq: ECP 201, ECP 202, ECP 305, ECP 306, ECP 307, ECP 320  
Students will learn to select, evaluate, and use appropriate assessment tools for children birth to age 8. Students will use assessment data to inform decisions about teaching (environments and practice) and intervention. There will be an emphasis on the ethical use of assessments, validity of assessments, multicultural sensitivity, and assessments for children with special needs. (on-line course offering via Distance Education).

ECP 425: Understanding and Adapting for Developmental Differences  
(3-0) Cr. 3. F.S.  
Prereq: ECP 201, ECP 202, ECP 305, ECP 306, ECP 307, ECP 320  
Knowledge of disability conditions, assessment and identification, interventions in inclusive environments, and collaborations among family members and service providers. (on-line course offering via Distance Education).

ECP 440: Practicum II – Curriculum Development and Implementation  
(0-6) Cr. 3. F.S.  
Prereq: ECP 412, ECP 413, ECP 424, ECP 425  
PRACTICUM IN EARLY CHILDHOOD EDUCATION IS AN OPPORTUNITY FOR ECE teacher candidates to have a guided learning experience in a professional agency that provides services to children and families. It is expected that learning experiences and projects at the practicum site will provide teacher candidates with the opportunity to utilize and implement theories and practices learned in other required classes. (on-line course offering via Distance Education).

ECP 442: Administration and Supervision in Early Childhood Settings  
(3-0) Cr. 3. F.S.  
Prereq: HD FS 102  
Exploration of issues surrounding the administration of early childhood programs including identification of community needs, analysis of business opportunities, the evaluation and appropriate use of space and quality programming, consideration of policy and legal responsibilities, and professionalism in the field. In addition, the course explores best practices in staff selection, training, coaching, and supervision. (on-line course offering via Distance Education).

ECP 460: Practicum III – Capstone Experience  
(0-12) Cr. 6. F.S.  
Prereq: ECP 322, ECP 323, ECP 324, ECP 440, ECP 442  
Professional practicum as a 15 week experience designed to allow the student to demonstrate practical application of developmentally appropriate early childhood teaching techniques and skills, actual teaching experience and developmental feedback. Practicum students will be involved in observation and evaluation of classroom experiences, environmental design, classroom management, and parent communication. (on-line course offering via Distance Education).

Ecology and Evolutionary Biology (EEB)  
Courses primarily for graduate students, open to qualified undergraduates:

EEB 511: Conceptual Foundations in Ecology and Evolutionary Biology  
(3-2) Cr. 4. F.  
Prereq: Graduate classification  
Introduction to key figures and ideas that have shaped the development of ecology and evolutionary biology. Covers major developments in ecology and evolutionary biology at five levels of biological organization: Genome, Organism, Population, Community, and Ecosystem. Impacts of these developments on current approaches to investigation and argument formulation. Effects of technological advances on the direction of scientific investigations. Introduction to analytical skills important for critical thinking in ecology and evolutionary biology and the impact of accepted lines of scientific reasoning on the objectives and conduct of research, such as explanation and prediction, design of studies as experimentation, and structured or unstructured observation.

EEB 585: Extended Field Trip  
Prereq: Graduate classification, permission of instructor  
Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.
EEB 585A: Extended Field Trip: Pre-Trip Lecture
Prereq: Graduate classification, permission of instructor
Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.

EEB 585B: Extended Field Trip: Travel
Prereq: Graduate classification, EEB 585A and permission of instructor
Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.

EEB 590: Special Topics
Cr. 1-3. Repeatable. F.S.S.
Prereq: Graduate classification and permission of instructor
For students wishing to conduct in-depth study of a particular topic in ecology and evolutionary biology.

Courses for graduate students:

EEB 698: Seminar
(1-0) Cr. 1. Repeatable. F.S.
Reports and discussion of recent research and literature.

EEB 699: Research
Cr. arr. Repeatable. F.S.S.
Thesis and dissertation research.

Ecology, Evolution, and Organismal Biology (EEOB)

The department offers graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees. Each EEOB faculty member is affiliated with one or more interdepartmental majors, and EEOB students major in one of these programs. These interdepartmental programs include:

- Bioinformatics and Computational Biology (http://www.bcb.iastate.edu)
- Ecology and Evolutionary Biology (http://www.eeb.iastate.edu)
- Environmental Science (https://enscigrad.iastate.edu)
- Genetics and Genomics (http://www.genetics.iastate.edu)
- Interdisciplinary Graduate Studies (http://www.grad-college.iastate.edu/igs/admission.html)
- Microbiology (http://www.micrograd.iastate.edu)
- Plant Biology (http://www.ipb.iastate.edu)
- Sustainable Agriculture (https://susag.iastate.edu)

The department offers graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees.

Courses primarily for graduate students, open to qualified undergraduates:

EEOB 507: Advanced Animal Behavior
(3-0) Cr. 3. S.
Prereq: Graduate standing, BIOL 354, or permission of instructor
Analysis of current research in animal behavior. Topics covered may include behavioral ecology, mechanisms of behavior, evolution of behavior, applications of animal behavior to conservation biology, and applications of animal behavior to wild animals in captivity.

EEOB 514: Life History and Reproductive Strategies
(Dual-listed with BIOL 414). (3-0) Cr. 3. F.
Prereq: BIOL 315 or equivalent recommended.
Evolution of ecological adaptations at the individual, population, and species level. Emphasis is on evolutionary mechanisms and adaptive strategies related to life histories and reproduction; age and size at maturity; lifespan and senescence; offspring size/number trade-offs; sex and mating systems; sex determination and sex ratios.

EEOB 531: Conservation Biology
(Cross-listed with A ECL). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: BIOL 312; BIOL 313 or graduate standing
Examination of conservation issues from a population and a community perspective. Population-level analysis will focus on the role of genetics, demography, and environment in determining population viability. Community perspectives will focus on topics such as habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

EEOB 531I: Conservation Biology
(Cross-listed with A ECL, IA LL). Cr. 4. Alt. SS., offered even-numbered years.
Prereq: IA LL 312I
Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.

EEOB 534: Endocrinology
(Dual-listed with BIOL 434). (3-0) Cr. 3. S.
Prereq: BIOL 211, BIOL 212
Chemical integration of vertebrate organisms. The structure, development, and evolution of the endocrine glands and the function and structure of their hormones.
EEOB 535: Restoration Ecology  
(Cross-listed with ENSCI, NREM). (2-3) Cr. 3. Alt. F., offered odd-numbered years.  
**Prereq:** BIOL 366 or BIOL 474 or graduate standing  
Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

EEOB 535I: Restoration Ecology  
(Cross-listed with A ECL, ENSCI, IA LL). Cr. 4. Alt. SS., offered even-numbered years.  
**Prereq:** A course in ecology  
Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

EEOB 539: Environmental Physiology  
(Dual-listed with BIOL 439). Cr. 3-4. Alt. S., offered even-numbered years.  
**Prereq:** BIOL 335; physics recommended  
Physiological adaptations to the environment with an emphasis on vertebrates.

EEOB 542: Introduction to Molecular Biology Techniques  
(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS.  
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

EEOB 542A: Introduction to Molecular Biology Techniques: DNA Techniques  
(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.  
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

EEOB 542B: Introduction to Molecular Biology Techniques: Protein Techniques  
(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.SS.  
**Prereq:** Graduate classification  
Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

EEOB 542C: Introduction to Molecular Biology Techniques: Cell Techniques  
(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.  
Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

EEOB 542D: Introduction to Molecular Biology Techniques: Plant Transformation  
(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.  
Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transormants. Offered on a satisfactory-fail basis only.

EEOB 542E: Introduction to Molecular Biology Techniques: Proteomics  
(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.  
Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

EEOB 542F: Introduction to Molecular Biology Techniques: Metabolomics  
(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.  
Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

EEOB 542G: Introduction to Molecular Biology Techniques: Genomic Techniques  
(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.  
Offered on a satisfactory-fail basis only.

EEOB 551: Plant Evolution and Phylogeny  
(Dual-listed with BIOL 451). (3-3) Cr. 4. F.  
**Prereq:** BIOL 315 or equivalent.  
Survey of land plant evolution; phylogenetic comparison of anatomical, reproductive, and life history specializations. Relationships among bryophytes, lycophytes, pteridophytes, gymnosperms, and angiosperms emphasizing significant evolutionary changes documented by paleobotanical, morphological, and molecular studies.

EEOB 553: Agrostology  
(2-3) Cr. 3. Alt. F., offered even-numbered years.  
**Prereq:** BIOL 366  
Structure, identification, classification, phylogeny, and economic aspects of grasses and related families.
EEOB 555: Bryophyte and Lichen Biodiversity  
(Dual-listed with BIOL 455). (2-3) Cr. 3.  
**Prereq:** BIOL 211, BIOL 211L  
Introduction to the biology and ecology of mosses, liverworts, and lichens. Emphasis on identification and diversity of local representatives of these three groups of organisms. Required field trips and service-learning.

EEOB 558: Ornithology  
(Cross-listed with A ECL). (2-0) Cr. 2. S.  
**Prereq:** A ECL 365 or BIOL 351  
Dual-listed with Biol 458. Biology, ecology, evolution, and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation.

EEOB 559: Mammalogy  
(Dual-listed with BIOL 459). (2-0) Cr. 2. S.  
**Prereq:** BIOL 351 or A ECL 365  
Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation.

EEOB 561: Evolutionary and Ecological Genomics  
(3-0) Cr. 3. S.  
**Prereq:** Permission of instructor; BCBIO 444 recommended.  
Use of genomic and other "omic" data in evolution and ecology. Review of data-generation platforms, computational methods, and examples of how phylogenomics, metagenomics, epigenomics, and population genomics are transforming the disciplines of evolution and ecology.

EEOB 562: Evolutionary Genetics  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
**Prereq:** Permission of instructor  
Seminar/discussion course covering the genetic basis of evolutionary processes in multicellular organisms.

EEOB 563: Molecular Phylogenetics  
(2-3) Cr. 3. F.  
**Prereq:** BIOL 313 and BIOL 315  
An overview of the theory underlying phylogenetic analysis and the application of phylogenetic methods to molecular datasets. The course emphasizes a hands-on approach to molecular phylogenetics and combines lecture presentations with computer exercises and discussion of original scientific literature.

EEOB 564: Wetland Ecology  
(Dual-listed with BIOL 464). (Cross-listed with ENSCI, IA LL). (3-0) Cr. 3. S.  
**Prereq:** 15 credits in biological sciences.  

EEOB 564I: Wetland Ecology  
(Cross-listed with ENSCI, IA LL). Cr. 4. SS.  
**Prereq:** IA LL 312I  
Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.

EEOB 566: Molecular Evolution  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
**Prereq:** Permission of instructor  
Seminar/discussion course covering the fundamentals of molecular evolution. Emphasis is placed on original scientific literature and current topics, including rates and patterns of genetic divergence; nucleotide and allelic diversity; molecular clocks; gene duplications; genome structure; organelar genomes; polyploidy; transposable elements; and modes and mechanisms of gene and genome evolution.

EEOB 567: Empirical Population Genetics  
(3-0) Cr. 3. F.  
**Prereq:** Permission of instructor  
An overview of fundamental population genetic theory and the ecological and evolutionary factors underlying the distribution of genetic variation within and among natural populations. Emphasis on the analysis of inbreeding, breeding systems, parentage, relatedness, spatial autocorrelation, effective population size, hierarchical population models, and phylogeography.

EEOB 568: Advanced Systematics  
(Cross-listed with ENT). (2-3) Cr. 3. Alt. S., offered odd-numbered years.  
**Prereq:** Permission of instructor  
Principles and practice of systematic biology; taxonomy, nomenclature and classification of plants and animals; sources and interpretation of systematic data; speciation; fundamentals of phylogenetic systematics.

EEOB 569: Biogeography  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
**Prereq:** BIOL 315 or equivalent; permission of instructor  
Principles underlying the geographic distribution of organisms throughout the world; biological influences of geological history and tectonic movements; role of climate, migration, dispersal, habitat, and phylogeny on past and present organismal distribution patterns; biogeographic methods.

EEOB 570: Landscape Ecology  
(Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered even-numbered years.  
**Prereq:** Permission of instructor; EEOB 588; a course in calculus  
The study of ecological and evolutionary processes within a spatial context with emphasis on behavior, population, and community dynamics.
EEOB 573: Techniques for Biology Teaching
(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573A: Techniques for Biology Teaching : Animal Biology
(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573B: Techniques for Biology Teaching: Plant Biology
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573C: Techniques for Biology Teaching: Fungi and Lichens
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573D: Techniques for Biology Teaching: Aquatic Ecology
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573E: Techniques for Biology Teaching: Prairie Ecology
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573F: Techniques for Biology Teaching: Wetland Ecology
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573G: Techniques for Biology Teaching: Limnology
(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573H: Techniques for Biology Teaching: Animal Behavior
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573I: Techniques for Biology Teaching: Insect Ecology
(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573J: Techniques for Biology Teaching: Biology of Invertebrates
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573K: Techniques for Biology Teaching: Non-invasive Use of Living
Organisms
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573W: Techniques for Biology Teaching: Project WET
(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 575I: Field Mycology
(Cross-listed with IA LL). Cr. 4. Alt. SS., offered even-numbered years.
Identification and classification of the common fungi; techniques for
identification, preservation, and culture practiced with members of the
various fungi groups.
EEOB 576: Functional Ecology  
(Dual-listed with BIOL 476). (3-0) Cr. 3. Alt. S., offered odd-numbered years.  
**Prereq:** BIOL 312  
The nature of adaptations to physical and biotic environments. Biophysical, biomechanical, and physiological bases of the structure, form, growth, distribution, and abundance of organisms.

EEOB 577: Concepts in Theoretical Ecology and Evolution  
(2-0) Cr. 1. Alt. F., offered even-numbered years.  
Readings and discussion of influential ideas in ecological and evolutionary theory, with an emphasis on how models are used as conceptual tools for building synthetic paradigms. Topics are chosen according to student interests; may include spatial ecology, behavioral theory, chaos, community assembly and biodiversity, and others.

EEOB 578: Foundations of Theoretical Ecology and Evolution  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
**Prereq:** 1 semester of calculus or permission of instructor.  
Quantitative exploration of classic models and results in ecological and evolutionary theory. Introduction to conceptual, mathematical, and programming tools needed to build and analyze models.

EEOB 580I: Ecology and Systematics of Diatoms  
(Cross-listed with IA LL). Cr. 4. SS.  
Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characters; project design and execution including construction of reference and voucher collections and data organization and analysis.

EEOB 581: Environmental Systems I: Introduction to Environmental Systems  
(Dual-listed with BIOL 381). (Cross-listed with ENSCI). Cr. 3-4. F.  
**Prereq:** 12 credits of natural science including biology and chemistry  
Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

EEOB 582: Environmental Systems II: Analysis of Environmental Systems  
(Dual-listed with BIOL 382). (Cross-listed with ENSCI). (2-2) Cr. 3. S.  
**Prereq:** ENSCI 381  
Continuation of EnSci 381. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

EEOB 584: Advanced Ecosystem Ecology  
(Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
**Prereq:** Combined 12 credits in biology, chemistry, and physics.  
Advanced studies of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations and modern approaches to ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

EEOB 585: Advanced Community Ecology  
(2-3) Cr. 3. Alt. F., offered even-numbered years.  
**Prereq:** BIOL 312  
Factors controlling species diversity, species abundance, and the structure and function of communities in space and time. Relationships between species diversity and ecosystem process rates and community stability.

EEOB 586: Aquatic Ecology  
(Dual-listed with BIOL 486). (Cross-listed with A ECL, ENSCI). (3-0) Cr. 3. F.  
**Prereq:** Biol 312 or EnSci 381 or EnSci 402 or NREM 301  
Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

EEOB 586L: Aquatic Ecology Laboratory  
(Dual-listed with BIOL 486L). (Cross-listed with A ECL, ENSCI). (0-3) Cr. 1. F.  
**Prereq:** Concurrent enrollment in BIOL 486  
Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

EEOB 587: Microbial Ecology  
(Dual-listed with BIOL 487). (Cross-listed with ENSCI, GEOL, MICRO). (3-0) Cr. 3. F.  
**Prereq:** Six credits in biology and 6 credits in chemistry  
Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

EEOB 589: Population Ecology  
(Dual-listed with BIOL 489). (Cross-listed with A ECL). (2-2) Cr. 3. F.  
**Prereq:** BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing  
Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.
EEOB 590: Special Topics
Cr. 1-3. Repeatable.
Prereq: 10 credits in biology, permission of instructor

EEOB 590A: Special Topics: Current Topics in Ecology
Cr. 1-3. Repeatable.
Prereq: 10 credits in biology, permission of instructor

EEOB 590B: Special Topics: Current Topics in Evolutionary Biology
Cr. 1-3. Repeatable.
Prereq: 10 credits in biology, permission of instructor

EEOB 590C: Special Topics: Current Topics in Organismal Biology
Cr. 1-3. Repeatable.
Prereq: 10 credits in biology, permission of instructor

EEOB 590I: Special Topics: Graduate Independent Study
(Cross-listed with A ECL, ANTHR, IA LL). Cr. 1-4. Repeatable. SS.
Prereq: Graduate classification and permission of instructor

EEOB 596: Ecology and Society
(Cross-listed with PHIL). (3-0) Cr. 3.
Prereq: Graduate classification in biological or environmental sciences/ studies with at least one course in ecology
Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.

EEOB 599: Creative Component
Cr. arr.
Research toward nonthesis master’s degree.

Courses for graduate students:

EEOB 611: Analysis of Populations
(Cross-listed with A ECL). (2-2) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BIOL 312; STAT 401; a course in calculus
Quantitative techniques for analyzing vertebrate population data to estimate parameters such as density and survival. Emphasis on statistical inference and computing.

EEOB 698: Seminar
Cr. 1. Repeatable.
Meetings of graduate students and faculty to discuss recent literature and problems under investigation.

EEOB 699: Research
Cr. arr. Repeatable.
Research for thesis or dissertation. Offered on a satisfactory-fail basis only.

ECON 101: Principles of Microeconomics
(3-0) Cr. 3. F.S.SS.

ECON 102: Principles of Macroeconomics
(3-0) Cr. 3.
Prereq: ECON 101; admission to the Honors program.

ECON 102H: Principles of Macroeconomics: Honors
(3-0) Cr. 3.
Prereq: Concurrent enrollment in the appropriate section of ECON 101
ECON 110: Orientation in Agricultural Business
(1-0) Cr. 1. F.
Orientation course for freshman and new transfer students in agricultural business.

ECON 207: Applied Economic Optimization
(2-2) Cr. 3. F.S.
Prereq: MATH 151, MATH 160, MATH 165 or equivalent
Application of linear algebra, calculus and unconstrained and constrained optimization techniques to economic problems. Learning outcomes include the ability to (i) identify the objective, decision variables and constraints in economic decision problems, (ii) represent elements of an economic problem in simple mathematical models, (iii) identify and apply mathematical tools that can be used to solve the problems, (iv) identify the strengths and limitations of the solution method, and (v) interpret the economic meaning and implications of the solution.

ECON 230: Farm Business Management
(2-2) Cr. 3. F.S.
Prereq: ECON 101, ACCT 284
Business and economic principles applied to decision making and problem solving in the management of a farm business. Cash flow, partial, enterprise, and whole farm budgeting. Information systems for farm accounting, analysis, and control. Obtaining and managing land, capital, and labor resources. Alternatives for farm business organization and risk management.

ECON 234: Small Business Management
(3-0) Cr. 3.
Prereq: ECON 101
An introduction to small business management, entrepreneurship, and economics utilizing a series of case studies. Exploration of issues related to starting or acquiring a new business and development of knowledge and skills for successful management of a small business, with an emphasis on agricultural business.

ECON 235: Introduction to Agricultural Markets
(3-0) Cr. 3. F.S.
Prereq: ECON 101
Basic concepts and economics principles related to markets for agricultural inputs and products. Overview of current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. The implications of consumer preferences at the farm level. Introduction to hedging, futures, and other risk management tools.

ECON 292: Career Seminar
(1-0) Cr. 1.
Prereq: Classification in economics or agricultural business
Career opportunities in the various industries and government institutions. Required training and skills needed to perform successfully in different types of careers. Factors important in finding and obtaining employment either before or after graduation including personal resumes, interviewing, and letter writing. Only one of ECON 292, 292A, and 292B can be used toward graduation.

ECON 292A: Career Seminar: Agricultural Business
(1-0) Cr. 1.
Prereq: Classification in economics or agricultural business
Career opportunities in the various industries and government institutions. Required training and skills needed to perform successfully in different types of careers. Factors important in finding and obtaining employment either before or after graduation including personal resumes, interviewing, and letter writing. Only one of ECON 292, 292A, and 292B can be used toward graduation.

ECON 292B: Career Seminar: Economics and Business Economics
(1-0) Cr. 1.
Prereq: Classification in economics or agricultural business
Career opportunities in the various industries and government institutions. Required training and skills needed to perform successfully in different types of careers. Factors important in finding and obtaining employment either before or after graduation including personal resumes, interviewing, and letter writing. Only one of ECON 292, 292A, and 292B can be used toward graduation.

ECON 297: Internship
Cr. 2. Repeatable, maximum of 4 credits.
Prereq: Permission of instructor and classification in agricultural business or economics
Students complete a research report, based on their internship or approved work experience, that examines chosen topics in management, marketing or finance. Offered on a satisfactory-fail basis only.

ECON 298: Cooperative Education
Cr. R. Repeatable.
Prereq: Permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.
ECON 301: Intermediate Microeconomics
(3-0) Cr. 3-4. F.S.S.
Prereq: ECON 101; ECON 207 or MATH 166
Theory of consumer and business behavior; optimal consumption choices and demand; theory of firm behavior; costs, production, and supply; competitive and imperfectly competitive markets; theory of demand for and supply of factors of production; general equilibrium analysis. Recitation required for 4 credits.

ECON 301H: Intermediate Microeconomics: Honors
(3-0) Cr. 3-4.
Prereq: ECON 101; ECON 207 or MATH 166
Theory of consumer and business behavior; optimal consumption choices and demand; theory of firm behavior; costs, production, and supply; competitive and imperfectly competitive markets; theory of demand for and supply of factors of production; general equilibrium analysis. Recitation required for 4 credits.

ECON 302: Intermediate Macroeconomics
(3-0) Cr. 3. F.S.
Prereq: ECON 101, ECON 102; MATH 160 or MATH 165
Theory of income, employment, interest rates, and the price level; fiscal and monetary policy; budget and trade deficits; money and capital inflows, interest rates, and inflation.

ECON 302H: Intermediate Macroeconomics: Honors
(3-0) Cr. 3.
Prereq: ECON 101, ECON 102; MATH 160 or MATH 165
Theory of income, employment, interest rates, and the price level; fiscal and monetary policy; budget and trade deficits; money and capital inflows, interest rates, and inflation.

ECON 313: Economics of Sports
(3-0) Cr. 3.
Prereq: ECON 101
Application of economics to issues in sports, including franchising; rival leagues and barriers to entry; cooperative, competitive, and collusive behavior; player productivity and compensation; contracts, unions, and discrimination; antitrust, taxation, and subsidies. Economic concepts include supply and demand, labor economics, pricing, public finance, production, game theory, and industrial organization.

ECON 320: Labor Economics
(3-0) Cr. 3.
Prereq: ECON 101
Economic analysis of contemporary domestic and international labor market issues including labor supply and demand, unemployment, and employment in the U.S. and elsewhere; investments in and returns to education, training, health, immigration and migration; income inequality; labor productivity; out-sourcing and global competitiveness; work incentives; compensation including benefits; and labor policies such as minimum wages, over-time pay, discrimination, unions, and immigration. Examples drawn from the U.S. and other developed countries with reference to developing countries where relevant. Meets International Perspectives Requirement.

ECON 321: Economics of Discrimination
(Cross-listed with WGS). (3-0) Cr. 3.
Prereq: ECON 101
Economic theories of discrimination. Analysis of the economic problems of women and minorities in such areas as earnings, occupations, and unemployment. Public policy concerning discrimination. Poverty measurement and antipoverty programs in the U.S. Meets U.S. Diversity Requirement

ECON 330: Advanced Farm Business Management
(3-0) Cr. 3.
Prereq: ECON 230
Effective use of strategic planning, decision methods, and computer assistance for solving farm problems. Applications of economic and management theory to analyze farm business decisions using efficiency measures to assess current resource use and direct the farm business analysis, planning, and tax process.

ECON 332: Cooperatives
(3-0) Cr. 3.
Prereq: ECON 101
Survey of cooperative business structure, including historical developments in the United States, principles of cooperation, state and federal authorization for cooperative activity, economic motivations and foundations, governance, marketing and pricing strategies, and financing, capitalization and taxation considerations. Students will learn how the cooperative model is applied in a variety of markets.

ECON 334: Entrepreneurship in Agriculture
(3-0) Cr. 3. F.S.
Prereq: ECON 101
Introduction to the process of entrepreneurship within the agricultural and food sectors. Emphasis on opportunity recognition and assessment, resource acquisition and feasibility analysis for both private and social enterprises. Students will develop a comprehensive feasibility study for a new business or non-profit organization.
ECON 335: The Economics of Global Agricultural Food and Bio-energy
(Cross-listed with GLOBE). (3-0) Cr. 3.
Prereq: ECON 101
Applied economic analysis of the determinants of world agricultural production, marketing, and use in feed, food, fiber, biofuel, and other applications, and global food processing and consumption. Analysis of market case studies and various data on global agricultural production and transformation, land and resource use, demography, economic activity, nutrition and health trends.
Meets International Perspectives Requirement.

ECON 336: Agricultural Selling
(3-0) Cr. 3.
Prereq: ECON 101
Principles of selling with application to agricultural and food related businesses. Attitudes, value systems, and behavioral patterns that relate to agricultural sales. Electronic marketing, selling strategies, preparing for sales calls, making sales presentations, handling objections, and closing sales. Analysis of the buying or purchasing process. Evaluation of agri-selling as a possible career choice.

ECON 337: Agricultural Marketing
(3-0) Cr. 3.
Prereq: ECON 101 required, ECON 235 recommended
Understanding of agricultural commodity markets for grain, livestock and dairy with emphasis on marketing decisions and risk management for farmers and processors. Hands-on applications of marketing and management tools via market simulations.

ECON 344: Public Finance
(3-0) Cr. 3.
Prereq: ECON 101

ECON 353: Money, Banking, and Financial Institutions
(3-0) Cr. 3. F.S.
Prereq: ECON 101, ECON 102
Theoretical and applied analysis of money, banking, and financial markets; interest rates and portfolio choice; the banking industry in transition; the money supply process; the Federal Reserve System and the conduct of monetary policy; macro implications of monetary policy; international finance.

ECON 355: International Trade and Finance
(3-0) Cr. 3.
Prereq: ECON 101, ECON 102
Explanations of causes of international trade and the impact of trade on welfare and employment patterns. Analysis of government policies towards trade, such as tariffs, quotas, and free trade areas. Theory of balance of payments and exchange rate determination, and the role of government policies. Examination of alternative international monetary arrangements.
Meets International Perspectives Requirement.

ECON 362: Applied Ethics in Agriculture
(Cross-listed with SOC). (3-0) Cr. 3.
Prereq: ECON 101 or SOC 134, junior or senior status in the College of Agriculture
Identify major ethical issues and dilemmas in the conduct of agricultural and agribusiness management and decision making. Discuss and debate proper ethical behavior in these issues and situations and the relationship between business and personal ethical behavior.

ECON 364: Rural Property Appraisal
(3-0) Cr. 3.
Prereq: ECON 101
Use of income capitalization, sales comparison and cost appraisal concepts in appraising agricultural resources. Application of underlying economic/business/management principles, especially present value, as they relate to farmland appraisal. Determination and estimation of economic impacts of special consideration and property use factors. Evaluate feasibility and profitability of investment in rural property.

ECON 371: Introductory Econometrics
(4-0) Cr. 4. F.S.
Prereq: ECON 301, ECON 302 OR ECON 353, STAT 326
Introduction to the models and methods used to estimate relationships and test hypotheses pertaining to economic variables. Among the topics covered in the course are: Single and multiple regression analysis; functional forms; omitted variable analysis; multicollinearity; heteroskedasticity; autocorrelation; simultaneous equations; and dynamic models.
ECON 376: Rural, Urban and Regional Economics
(Cross-listed with CRP). (3-0) Cr. 3.
Prereq: ECON 101
Firm location with respect to regional resources, transport, scale economies, externalities, and policies. Measures of local comparative advantage and specialization. Spatial markets. Population location considering jobs, wages, commuting, and local amenities. Business, residential, and farm land use and value. Migration. Other topics may include market failure, regulation, the product cycle, theories of rural and urban development, developmental policy, firm recruiting, local public goods and public finance, schools, poverty, segregation, and crime.

ECON 378: Retirement Planning and Employee Benefits
(Cross-listed with GERON, HD FS). (3-0) Cr. 3. S.
Prereq: 3 credits in introductory economics
Economic well-being in the context of demographic change, the present and future of Social Security, family retirement needs analysis, investment strategies and characteristics of retirement plans, helping others to work towards financial security, family economic issues for retired persons. Overview of employee and retirement benefits.
Meets U.S. Diversity Requirement

ECON 380: Energy, Environmental and Resource Economics
(Cross-listed with ENV S). (3-0) Cr. 3.
Prereq: ECON 101
Natural resource availability, use, conservation, and government policy, with emphasis on energy issues. Environmental quality and pollution control policies.

ECON 385: Economic Development
(Cross-listed with GLOBE). (3-0) Cr. 3.
Prereq: ECON 101, ECON 102
Current problems of developing countries, theories of economic development, agriculture, and economic development, measurement and prediction of economic performance of developing countries, alternative policies and reforms required for satisfying basic needs of Third World countries, interrelationships between industrialized countries and the developing countries, including foreign aid.
Meets International Perspectives Requirement

ECON 387: Economies of China and India
(3-0) Cr. 3.
Prereq: ECON 101
The economic development of China and India within the larger historical, political, and socioeconomic contexts. The characteristics of the development paths of major industries. The drivers of and impediments for future economic development. The two economies’ connections with the world economy.
Meets International Perspectives Requirement

ECON 398: Cooperative Education
Cr. R.
Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

ECON 401: Topics in Microeconomics
(3-0) Cr. 3.
Prereq: ECON 301, STAT 226
Advanced treatment of selected topics from one or more of the following areas: household production models, factor markets, game theory and imperfect competition, general equilibrium, intertemporal choice, asset markets, income distribution, externalities and public goods, etc.

ECON 402: Topics in Macroeconomics
(3-0) Cr. 3.
Prereq: ECON 301, ECON 302, STAT 226
Advanced treatment of selected topics from one or more of the following areas: business cycle theory, growth theory, fiscal and monetary policy, coordination issues, open economy macroeconomics, and financial economics.

ECON 416: Industrial Organization
(3-0) Cr. 3.
Prereq: ECON 301
Study of the structure of firms and markets and of their interaction, with emphasis on imperfectly competitive markets. Behavior of firms in strategic settings and insights of basic game-theoretic models. Welfare implications of alternative market organizations, consequences of market power, and scope for government regulation and antitrust/competition policies. Topics include monopoly and price discrimination, oligopoly models, product quality, product differentiation, vertical integration, information and advertising, patents, R&D and innovation, and regulation.

ECON 418: Introduction to Game Theory
(3-0) Cr. 3.
Prereq: ECON 301
Systematic introduction to game theory and its uses in economics. Develops the basic framework, models and tools necessary to analyze games of strategy, including: Strategic and extensive-form representations of games; best response functions and Nash equilibrium, mixed strategies backward induction and subgame-perfect equilibrium, imperfect and incomplete information, Bayesian and sequential equilibria. Examples and applications taken from economics, business, political science, law and biology.
ECON 431: Managerial Economics  
(3-0) Cr. 3.  
Prereq: ECON 301  
Theory of the firm; organizational incentives and efficiency; moral hazard; role of information and decision making under uncertainty; ownership and control; business investment.

ECON 437: Commodity Marketing and Risk Management  
(3-0) Cr. 3.  
Prereq: ECON 235, ECON 301, STAT 326  

ECON 455: International Trade  
(3-0) Cr. 3.  
Prereq: ECON 301  
Rigorous treatment of theories of international trade and international factor movements. Examination of the impact of trade and labor migration on domestic and world welfare and on the distribution of income. Theoretical analysis of government policies towards trade and factor movements, including quotas, tariffs, free trade areas and immigration restrictions. Discussion of contemporary issues and controversies concerning globalization, including multinational firms and labor migration.  
Meets International Perspectives Requirement.

ECON 457: International Finance  
(3-0) Cr. 3.  
Prereq: ECON 302  
National income accounting and balance of payments; foreign exchange rates and exchange rate markets; money, interest rates, and exchange rate determination; prices, exchange rates, and output in the short run; international monetary arrangements; fixed versus flexible exchange rates; optimal currency areas; international capital flows; currency and financial crises in emerging markets.  
Meets International Perspectives Requirement.

ECON 458: Economic Systems for Electric Power Planning  
(Cross-listed with E E). (3-0) Cr. 3.  
Prereq: E E 303 or ECON 301  

ECON 460: Agricultural, Food, and Trade Policy  
(Dual-listed with ECON 560). (3-0) Cr. 3.  
Prereq: ECON 301 or ECON 501  
Description and analysis of economic problems of U.S. agriculture. Explanation and economic analysis of government policies and programs to develop agriculture, conserve agricultural resources, address consumer food concerns, stabilize farm prices, and raise farm incomes. The influence of macropolicy, world economy, international trade, and bioenergy on U.S. agriculture.

ECON 466: Agricultural Finance  
(3-0) Cr. 3.  
Prereq: ECON 301, STAT 226, FIN 301 and ECON 353 (recommended)  
Financial analysis of agricultural businesses; liquidity, capital structure, and growth and risk of agricultural firms; capital budgeting methods; analysis of land investments, leasing, and costs of credit; financial intermediation and major financial institutions for agriculture; borrower-lender relationships, and asset-liability management techniques by financial intermediaries; public policies affecting agricultural credit markets.

ECON 480: Intermediate Environmental and Resource Economics  
(Dual-listed with ECON 580). (3-0) Cr. 3.  
Prereq: ECON 301 or ECON 501  

ECON 490: Independent Study  
Cr. 1-5. Repeatable, maximum of 6 credits.  
Prereq: Junior or senior classification, 14 credits in economics  
Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation

ECON 490E: Independent Study: Entrepreneurship  
Cr. 1-5. Repeatable, maximum of 6 credits.  
Prereq: Junior or senior classification, 14 credits in economics  
Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation

ECON 490H: Independent Study: Honors  
Cr. 1-5. Repeatable, maximum of 6 credits.  
Prereq: Junior or senior classification, 14 credits in economics  
Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation
ECON 492: Graduating Senior Survey
Cr. R.
Prereq: Graduating senior
Final preparations for graduation. The final stages of job searching, interviewing, letter writing, and resume preparation. Outcomes assessment information from graduating seniors including opinion surveys, instructor/advisor/course evaluations, exit interviews, student accomplishment surveys, job placement surveys, and comprehensive skills examinations. Departmental recognition of graduating seniors. Life as an alumnus - expectations and obligations. Convocation and commencement information. Offered on a satisfactory-fail basis only.

ECON 495: Economics Domestic Travel Course
Cr. 1-3.
Prereq: Sophomore status. Permission of instructor
Tour and study of domestic businesses, markets, and economic institutions located outside Iowa to expose students to the diversity of activities within the U.S. economy. Pre-trip sessions arranged. Locations and duration of tours will vary.

ECON 496: Economics International Travel Course
Cr. 1-3. Repeatable.
Prereq: Sophomore status; permission of instructor.
Tour and study of international agricultural and/or nonagricultural economies, markets, and institutions. Locations and duration of tours will vary. Limited enrollment. Meets International Perspectives Requirement.

ECON 498: Cooperative Education
Cr. R.
Prereq: Permission of the department cooperative education coordinator;
required classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

ECON 500: Quantitative Methods in Economic Analysis I
(4-0) Cr. 4. F.
Prereq: ECON 301, 1 year of calculus, STAT 401, and permission of Director of Graduate Education
Economic applications of selected mathematical and statistical concepts: linear models and matrix algebra; differential calculus and optimization; integral calculus and economic dynamics; probability distributions, estimation, and hypothesis testing in the analysis of economic data.

ECON 501: Microeconomics
(4-0) Cr. 4. F.
Prereq: ECON 301, credit or enrollment in ECON 500 or equivalent background in calculus and statistics
The theory of the consumer, theory of the firm, perfect and imperfect competition, welfare economics, and selected topics in general equilibrium and uncertainty.

ECON 502: Macroeconomics
(4-0) Cr. 4. F.
Prereq: ECON 302, credit or enrollment in ECON 500 or equivalent background in calculus and statistics
Models of aggregate supply and demand, theories of consumption and investment, money supply and demand, inflation, rational expectations, stabilization policy, financial markets, and international finance.

ECON 509: Applied Numerical Methods in Economics
(3-0) Cr. 3.
Prereq: ECON 500, ECON 501; or ECON 600, ECON 601
Use of numerical techniques to solve economic problems. Numerical differentiation and integration numeric solutions of systems of equations, static and dynamic optimization problems including unconstrained optimization, maximum likelihood methods, general nonlinear programming methods, dynamic programming and optimal control, numerical methods for solving functional equations.

ECON 510: Experimental Economics
(3-0) Cr. 3.
Prereq: ECON 501 or ECON 601
Introduction to experimental economics and major subject areas addressed by laboratory and field experiments. Exploration of experimental methods by concentrating on series of experiments. Applications include individual decision-making, behavioral game theory, markets, behavioral labor, public and development economics, social network, and neuroeconomics. Research project.

ECON 520: Labor Supply and Human Capital Formation
(3-0) Cr. 3.
Prereq: ECON 501 or ECON 601
Labor supply decisions and empirical analysis for agricultural operators and other self-employed and wage-earning households; multiple job holding; resource allocation in productive households; human capital formation by households, firms, and public institutions, which includes schooling, on-the-job training, migration, health, research, raising of children, and implications for household income and welfare; applications to problems in rural areas of developing and developed countries.
ECON 521: Labor Markets
(3-0) Cr. 3.
Prereq: ECON 501 or ECON 601
Analysis of labor demand and market determination of wages and employment; analysis of distortions in labor markets due to non-competitive forces, legislation, and discrimination; wage inequality, compensation and work incentives; compensating differentials; microeconomic analysis of unemployment and job search.

ECON 532: Managerial Economics for the Global Organization
(3-0) Cr. 3.
Prereq: ECON 101 and enrollment in MBA or BAS program; not for economics majors
Applications of microeconomic theory and decision analysis for firms operating in U.S. and internationally. Topics include demand & supply, consumer choice theory, production and cost theory, short run and long run business decisions, input cost and human capital differences across countries, empirical estimation of demand and supply, pricing, exchange rates, government and business, market structures and strategy.

ECON 537: Commodity Markets: Analysis and Strategy
(3-0) Cr. 3.
Prereq: ECON 501 or ECON 532 or ECON 601, ECON 571 or STAT 326

ECON 545: Public Economics
(3-0) Cr. 3.
Prereq: ECON 501 or ECON 601
Economic justifications for government activities; illustrative theoretical and empirical analyses of expenditure programs; foundations of excess burden, incidence analysis, and optimal taxation; effects of taxation on labor supply; public goods and externalities; social insurance; introduction to economics of the health sector with an emphasis on the role of market failures.

ECON 560: Agricultural, Food, and Trade Policy
(Dual-listed with ECON 460). (3-0) Cr. 3.
Prereq: ECON 301 or ECON 501
Description and analysis of economic problems of U.S. agriculture. Explanation and economic analysis of government policies and programs to develop agriculture, conserve agricultural resources, address consumer food concerns, stabilize farm prices, and raise farm incomes. The influence of macropolicy, world economy, international trade, and bioenergy on U.S. agriculture.

ECON 571: Intermediate Econometrics
(3-0) Cr. 3. S.
Prereq: ECON 500
Single and multiple equation regression models; dummy explanatory variables; serial correlation; heteroskedasticity; distributed lags; qualitative dependent variables; simultaneity. Use of econometric models for tests of economic theories and forecasting.

ECON 576: Spatial Economics
(3-0) Cr. 3.
Prereq: ECON 501 or ECON 601
Analysis of location choice by firms, employees, and households emphasizing the role of spatial variations in agglomeration economies, economies of scale, distance, transport, endowments, amenities, and local government. Models of land use, urban form, spatial competition, central place theory, and migration. Techniques of discrete choice analysis, statistical analysis of categorical data, urban system modeling, and interregional computable general equilibrium.

ECON 580: Intermediate Environmental and Resource Economics
(Dual-listed with ECON 480). (3-0) Cr. 3.
Prereq: ECON 301 or ECON 501

ECON 581: Advanced Environmental Economics
(3-0) Cr. 3.
Prereq: ECON 501 or ECON 601

ECON 590: Special Topics
Cr. 1-5. Repeatable.
Offered on a satisfactory-fail basis only.

ECON 599: Creative Component
Cr. 1-5.
Offered on a satisfactory-fail basis only.

Courses for graduate students:
ECON 600: Quantitative Methods in Economic Analysis II
(4-1) Cr. 4. F.
Prereq: ECON 500
Unconstrained and equality- and inequality-constrained optimization; the Kuhn-Tucker formulation; abstract spaces; dynamic programming; dynamical systems.

ECON 601: Microeconomic Analysis I
(4-1) Cr. 4. F.
Prereq: ECON 301, previous or concurrent enrollment in 600 and permission of Director of Graduate Education
Economic theory and methodology; theory of consumer behavior; theory of the competitive firm, supply and factor demand; duality relations in consumer and producer theory; welfare change measures; partial equilibrium analysis; perfect competition, monopoly; choice under uncertainty, the expected utility model, risk aversion; insurance, portfolio and production decisions under risk.

ECON 602: Macroeconomic Analysis
(4-1) Cr. 4. S.
Prereq: ECON 301, ECON 302, previous or concurrent enrollment in 600 and permission of Director of Graduate Education
Neoclassical aggregate growth models; the overlapping generations model; endogenous growth models; equilibrium business cycle theories; equilibrium job search and matching; models of money, fiscal and monetary policy; income and wealth distribution.

ECON 603: Microeconomic Analysis II
(4-1) Cr. 4. S.
Prereq: ECON 601, ECON 602 and permission of Director of Graduate Education
General equilibrium analysis; efficiency, welfare; market failures, externalities, and the theory of the second best; introduction to game theory; adverse selection, signaling, screening, and moral hazard.

ECON 604: Advanced Macroeconomic Analysis
(4-1) Cr. 4. F.
Prereq: ECON 601, ECON 602 and permission of Director of Graduate Education
Topics will be selected from: new Keynesian approaches to business cycle theory; endogenously generated business cycles; models of credit and financial intermediation; mechanism design and time inconsistency issues; political economy models; heterogeneous-agent models with strategic interaction; path dependence, network effects, and lock-in; economies as evolving self-organizing systems.

ECON 606: Advanced Topics in Macroeconomics
(3-0) Cr. 3.
Prereq: ECON 603, and credit or current enrollment in ECON 604
Selected topics in macroeconomic theory of current significance to the profession.

ECON 615: Theoretical Industrial Organization
(3-0) Cr. 3.
Prereq: ECON 603
Theoretical analysis of traditional topics in industrial organization. Review of game theory. Monopoly and oligopoly theory, price discrimination, product differentiation, research and development, diffusion of innovation, network externalities, and asymmetric information.

ECON 618: Game Theory
(3-0) Cr. 3.
Prereq: ECON 603, or ECON 501 and permission of instructor
Theoretical analysis and applications of strategic games, extensive form games, and cooperative games. Nash equilibrium, correlated equilibrium, Bayesian games, subgame perfect equilibrium, the core, evolutionary equilibrium, repeated games with finite automata, and common knowledge.

ECON 641: Agricultural Economics I
(3-0) Cr. 3.
Prereq: ECON 603
Demand and supply for agricultural products, market equilibrium models, implications of government policies on the agricultural sector, evaluation of research and development policies in agriculture, and biofuel and energy policy analysis. Commodity promotion programs, food safety and consumers’ valuation of product attributes.

ECON 642: Agricultural Economics II
(3-0) Cr. 3.
Prereq: ECON 603
Advanced treatment of topics and models in agricultural economics with emphasis on stochastic models. Topics will include analysis of risk in decision making by consumers, firms and farms; analysis of risk management strategies for farmers; the economics of commodity storage; analysis of the impact of biofuels on commodity prices; and models of agricultural inputs and outputs.
ECON 653: Financial Economics
(3-0) Cr. 3.
Prereq: ECON 603, ECON 672. Recommended: ECON 674, STAT 551
Review of decision-making under uncertainty. Portfolio Theory.
Theoretical foundations of asset valuation models: capital asset pricing
model (CAPM), arbitrage pricing theory (APT), representative agent
models, pricing of derivative securities. Complete and incomplete asset
markets, credit markets, financial intermediaries, the role of government
in the financial sector. Market frictions, crashes, bubbles. Applications of
asset valuation models, with emphasis on their testable implications.

ECON 655: International Trade
(3-0) Cr. 3.
Prereq: ECON 603
Theories of international trade; welfare and distributional aspects of
trade and commercial policies. Optimal trade policies in the presence
domestic distortions; strategic trade policy; international trade and
economic growth.

ECON 657: International Finance
(3-0) Cr. 3.
Prereq: ECON 602
The intertemporal approach to current account determination; non-
traded goods and the real exchange rate; fiscal policy in the open
economy; monetary approach to balance of payments and exchange rate
determination; sticky price models of the open economy; exchange-rate
based stabilizations; capital inflows; financial and balance of payments
crises; international business cycles.

ECON 671: Econometrics I
(4-1) Cr. 4. F.
Prereq: ECON 501 and STAT 447 or STAT 542
Probability and distribution theory for univariate and multivariate normal
random variables, introduction to the theory of estimators for linear
models, hypothesis testing and inference, introduction to large sample
properties of estimators; derivation of common estimators and their
properties for the classical and general multiple regression models,
hypothesis testing, forecasting, implications of specification errors
- missing data, left-out regressors, measurement error, stochastic
regressors.

ECON 672: Econometrics II
(4-1) Cr. 4. S.
Prereq: ECON 671
Identification, estimation, and evaluation of systems of simultaneous
equations; qualitative choice and limited dependent variable models;
introduction to time series methods and applications, including
alternative variance specifications.

ECON 673: Microeconometrics
(3-0) Cr. 3.
Prereq: ECON 672, ECON 601
Econometric treatment of models arising in microeconometric
applications. Methods are primarily concerned with the analysis of cross-
section data. Topics may include: systems of demand equations in panel
data settings, random utility models of discrete choices, production
possibilities frontier estimation, and discrete/continuous models of
participation and consumption.

ECON 674: Macroeconometrics
(3-0) Cr. 3.
Prereq: ECON 672, ECON 602
Time-series econometric techniques and their application to
macroeconomics and financial markets. Techniques may include GARCH
and ARCH-M models, unit-root tests, nonlinear adjustment models,
structural VARs, and cointegration tests.

ECON 677: Economic Development
(3-0) Cr. 3.
Prereq: ECON 672, ECON 602
Econometric treatment of models arising in microeconometric
applications. Methods are primarily concerned with the analysis of cross-
section data. Topics may include: systems of demand equations in panel
data settings, random utility models of discrete choices, production
possibilities frontier estimation, and discrete/continuous models of
participation and consumption.

ECON 677: Economic Development
(3-0) Cr. 3.
Prereq: ECON 672, ECON 602
Econometric treatment of models arising in microeconometric
applications. Methods are primarily concerned with the analysis of cross-
section data. Topics may include: systems of demand equations in panel
data settings, random utility models of discrete choices, production
possibilities frontier estimation, and discrete/continuous models of
participation and consumption.

ECON 680: Advanced Resource Economics
(3-0) Cr. 3.
Prereq: ECON 672, ECON 603
The intertemporal approach to current account determination; non-
traded goods and the real exchange rate; fiscal policy in the open
economy; monetary approach to balance of payments and exchange rate
determination; sticky price models of the open economy; exchange-rate
based stabilizations; capital inflows; financial and balance of payments
crises; international business cycles.

ECON 680: Advanced Resource Economics
(3-0) Cr. 3.
Prereq: ECON 672, ECON 603
Dynamic allocation of scarce, exhaustible, and renewable natural
resources, including minerals and energy, soil, water, forests, and fish.
Social versus private decisions. Market and nonmarket considerations.
Technological change. Regulation. Dynamics and uncertainty.

ECON 690: Advanced Topics
Cr. 1-5. Repeatable.
Offered on a satisfactory-fail basis only.

ECON 691: Third-Year Paper
Cr. 3.
Under the direction of the major professor, Ph.D. students write a formal
research paper as an introduction to the dissertation research process.
Offered on a satisfactory-fail basis only.

ECON 693: Workshops
Cr. 3.
Workshop in economics. Offered on a satisfactory-fail basis only.

ECON 699: Research for Thesis or Dissertation
Cr. arr. Repeatable.
Offered on a satisfactory-fail basis only.

Educational Administration (EDADM)
Courses primarily for graduate students, open to qualified
undergraduates:
EDADM 541: Principles of Inclusive Educational Leadership  
(3-0) Cr. 3. F.S.S.  
Prereq: Teacher licensure and permission of instructor  
Basic principles of educational organizations, including an understanding of organizational behavior and theoretical approaches to administration. Exploration of substantive elements related to school reform, such as the change process, current issues in education, and developing a shared vision and mission around inclusive leadership.

EDADM 551: Supervision for Learning Environments  
(3-0) Cr. 3. F.S.S.  
Prereq: EDADM 541  
Study of effective classroom instructional practices that reflect current principles of learning. Understanding and practice of supervisory techniques that support teachers in improving the teaching and learning process, including skills in observational data collection, data analysis, collaboration, and conferencing skills.

EDADM 552: Current Issues in Site-Level Leadership  
(3-0) Cr. 3. F.S.S.  
Prereq: EDADM 541  
Essential tasks of building-level leadership and management in contemporary school settings, including: curriculum and organizational structure, theory and practice of scheduling, financial management, roles and responsibilities of governance, communication and public relations skills, home/parental involvement and relationships, project and crisis management, technology integration, school climate and culture, effective student support programs such as counseling and guidance, attendance and discipline.

EDADM 554: Leading School Reform  
(3-0) Cr. 3. F.S.S.  
Prereq: EDADM 541  
Study of principles of transformational leadership and collaborative decision-making skills. Leadership activities that facilitate the development of a school culture that embraces change and school reforms that result in high quality schools dedicated to improved student achievement.

EDADM 556: Leading for Equitable Learning in School Systems  
(3-0) Cr. 3.  
Prereq: EDADM 541  
This course builds on Ed Admin 541, Principles of Educational Leadership, to explore more fully how a leader can establish a vision for equitable and excellent learning. It provides historical, practical and theoretical perspectives on the culture and systems of schools, particularly in an age of accountability.

EDADM 557: Human Resource Development for Learning  
(3-0) Cr. 3. F.S.S.  
Prereq: EDADM 541  
Leadership theory and practice that focuses on the professional development of school staff to promote improved student learning. Principles of school personnel evaluation; legal issues related to hiring, retention, and dismissal; evaluation models for professional and classified staff; and effective professional development models to support lifelong learning and reflective practice.

EDADM 558: Diverse Learning Needs  
(3-0) Cr. 3. F.S.S.  
Prereq: EDADM 541  
This course is designed to address practical and ethical dimensions of school leadership, especially related to disability status, race, gender, language status, and other minoritized statuses. Specific focus will be on the various ecological contexts of the school, the community, and the family as means of making effective use of multiple resources to enrich education.

EDADM 559: Curriculum Leadership  
(3-0) Cr. 3. F.S.S.  
Prereq: EDADM 541  
Generic administrative approaches to the design and delivery of elementary and secondary school curricula including the study of the organizations for learning; cognition and learning theories; validation; concepts of balance; school goals, student assessments and reporting of progress, alignment, and professional development; development of curriculum guides; mapping; employing national standards and benchmarks.

EDADM 575: Education Law and Ethics  
(3-0) Cr. 3. F.S.S.  
Prereq: EDADM 541  
Examination of constitutional, statutory, and judicial provisions as a basis for the legal operation of educational institutions. Rights and ethical responsibilities of school leaders are examined in relation to their roles and responsibilities with boards, other school personnel, and students.

EDADM 590: Special Topics  
Cr. 1-4. Repeatable.  
Prereq: 9 credits in education

EDADM 591: Supervised Field Experience  
Cr. 1-6. Repeatable.  
Prereq: EDADM 541 and admission to program and instructor’s approval  
Supervised on-the-job field experience in special areas.
EDADM 591A: Supervised Field Experience: Elementary Principal  
Cr. 1-6. Repeatable.  
Prereq: EDADM 541 and admission to program and instructor's approval  
Supervised on-the-job field experience in special areas.

EDADM 591B: Supervised Field Experience: Secondary Principal  
Cr. 1-6. Repeatable.  
Prereq: EDADM 541 and admission to program and instructor's approval  
Supervised on-the-job field experience in special areas.

EDADM 593: Workshops  
Cr. 1-4.  
Prereq: 9 credits in education

EDADM 599: Creative Component Development  
Cr. 1-3.  
Prereq: 9 credits in educational administration

Courses for graduate students:

EDADM 615: Seminar  
Cr. 1-3. Repeatable.  
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615A: Seminar: Client Focus  
Cr. 1-3. Repeatable.  
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615B: Seminar: Research  
Cr. 1-3. Repeatable.  
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615C: Seminar: Quality Improvement  
Cr. 1-3. Repeatable.  
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615D: Seminar: Special Services  
Cr. 1-3. Repeatable.  
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615E: Seminar: Assessment  
Cr. 1-3. Repeatable.  
In-depth study of administrative topics of contemporary interest and importance.

EDADM 615F: Seminar: Leadership  
Cr. 1-3. Repeatable.  
In-depth study of administrative topics of contemporary interest and importance.

EDADM 620: Program Induction Leadership Seminar  
(3-0) Cr. 3. SS.  
Prereq: EDADM 541  
Assessment of candidate skill areas, including communication, leadership, technology, and team facilitation for the development of an individualized learning plan for the program. Orientation to program expectations and leadership challenges in the context of schooling for a global society.

EDADM 621: Aligning the System for Student Achievement  
(5-0) Cr. 5. F.  
Prereq: EDADM 541  
Alignment of system goals and leadership theory with student achievement, governance, systems thinking, and communication and collaboration with various publics.

EDADM 622: Maximizing Human and Financial Resources for Student Achievement  
(3-0) Cr. 3. S.  
Prereq: EDADM 541  
Allocation of system resources to enhance student achievement; human resource development and negotiations; and coaching and evaluating the administrative team.

EDADM 623: Mid-Program Leadership Seminar  
(1-0) Cr. 1. SS.  
Prereq: EDADM 541  
Mid-program assessment of candidate progress and exploration of leadership strategies for working with diverse populations.

EDADM 624: School Finance  
(2-0) Cr. 2. SS.  
Prereq: EDADM 541  
General issues of school finance and managing a school district's financial responsibilities. Role of the federal, state and local governments in educational finance, tax issues, and structures; budgeting procedures; and financial analysis and accountability. Includes attendance at selected sessions of the Iowa School Business Management Academy in the spring and two additional class sessions during the summer.
EDADM 631: Achieving Results Through Accountability Strategies
(5-0) Cr. 5. F.
Prereq: EDADM 541
Accountability strategies for applying leadership theory to student achievement, governance, systems thinking, change agentry, and communication and collaboration with various publics.

EDADM 632: Using System Assets to Create a Culture of Learning
(3-0) Cr. 3. S.
Prereq: EDADM 541
Leadership strategies to promote a culture of high student achievement; effective human capital management, including recruitment and induction of new personnel; and effective communication with parents and other patrons.

EDADM 633: Career Induction Leadership Seminar
(1-0) Cr. 1. SS.
Prereq: EDADM 541
Development of entry plan for creating a culture of collaboration; professional growth plan for first year in new position; and authentic performance assessment of values and beliefs platform.

EDADM 634: School Business Management and Accountability
(2-0) Cr. 2. SS.
Prereq: EDADM 541
Management of school operations; accountability and ethical business practices; risk management; school plant operations, food service and student transportation. Includes attendance at selected sessions of the Iowa School Business Management Academy in the spring and two additional class sessions during the summer.

EDADM 651: Ethics, Spirituality, and Social Justice in Administrative Practice
(3-0) Cr. 3. Alt. SS., offered even-numbered years.
Exploration of ethical models and practice of educational administrators. Participants develop personal and professional codes of ethics: define concepts of care, spirituality, democracy, equity, diversity, and social justice; and explain how those concepts relate to students’ academic and social success. Case studies offer opportunities to consider moral and legal consequences of decision-making. Participants develop their own vision of leadership.

EDADM 690: Advanced Special Topics
Cr. 1-3. Repeatable.
Prereq: 9 credits in educational administration

EDADM 691: Clinical Dilemmas of Practice
Cr. 1-3. Repeatable, maximum of 3 credits.
Prereq: EDADM 541, admission to program, and instructor’s approval
Supervised on-the-job field leadership experience in clinical dilemmas of practice. Offered on a satisfactory-fail basis only.

EDADM 699: Dissertation Research
Cr. arr. Repeatable.
Prereq: 9 credits in education

Educational Leadership and Policy Studies (EL PS)
Courses primarily for graduate students, open to qualified undergraduates:

EL PS 591: Social Justice Field Experience
Cr. 1-3. F.S.SS.
Prereq: EL PS 620
Supervised field experience in equity and social justice inside/outside higher education.

Courses for graduate students:

EL PS 615: Thematic Seminars
Cr. 1. F.S.SS.
Prereq: Admission to educational leadership doctoral program
EL PS 615A: Thematic Seminars: Communication and Team Building
Cr. 1. F.S.SS.
Prereq: Admission to educational leadership doctoral program
EL PS 615B: Thematic Seminars: Governance, Politics and Policies
Cr. 1. F.S.SS.
Prereq: Admission to educational leadership doctoral program
EL PS 615C: Thematic Seminars: Law, Equity, Equality
Cr. 1. F.S.SS.
Prereq: Admission to educational leadership doctoral program
EL PS 615D: Thematic Seminars: Ethics, Justice, and Caring
Cr. 1. F.S.SS.
Prereq: Admission to educational leadership doctoral program
EL PS 615E: Thematic Seminars: Problem Solving and Planning
Cr. 1. F.S.SS.
Prereq: Admission to educational leadership doctoral program
EL PS 615F: Thematic Seminars: Critical and Creative Thinking
Cr. 1. F.S.SS.
Prereq: Admission to educational leadership doctoral program
EL PS 616: Capstone Experience
Cr. 3. F.S.
Prereq: 4 credits of EL PS 615
This experience is designed to explore a topic addressed in one of the thematic seminars. The product of the capstone experience is a written paper of sufficient quality to be submitted to a scholarly journal for review.

EL PS 620: Education for Social Justice
(3-0) Cr. 3. F.
Introduction to social justice theory, research, and practice from a variety of theoretical perspectives in the context of education and broader society.

EL PS 621: Pedagogies of Dissent
(Cross-listed with WGS). (3-0) Cr. 3. S.
Prereq: EL PS 620
Critical examination of the philosophical foundations of education that seek to challenge the status quo and advance radical educational change. Exploration of macro-level (and some micro-level) issues relevant to educational change, in relation to how they inform practices of dissent and every day social relations.

EL PS 622: Decolonizing Praxis
(3-0) Cr. 3. S.
Prereq: EL PS 620
Critically probes the philosophical and historical foundations of anti/post-colonial theory. Examination of policy, social, theoretical and educational issues from an anti/post-colonial perspective.

EL PS 624: Critical Race Theory in Education
(3-0) Cr. 3. SS.
Prereq: EL PS 615 or equivalent
Exploration of the central tenets of critical race theory. Examination of policy, social and educational issues from a critical race perspective.

EL PS 625: Gender and Sexuality in Education
(3-0) Cr. 3. SS.
Prereq: EL PS 621
An examination of how changes in the interest of social justice have occurred historically in education. Exploration of social movements and theories of social change.

EL PS 626: Social Justice and Social Change in Education
(3-0) Cr. 3. F.
Prereq: EL PS 621
An examination of how changes in the interest of social justice have occurred historically in education. Exploration of social movements and theories of social change.

Electrical Engineering (E E)

Courses primarily for undergraduates:

E E 166: Professional Programs Orientation
(Cross-listed with CPR E). Cr. R. F.S.
(1-0) Overview of the nature and scope of electrical engineering and computer engineering professions. Overview of portfolios. Departmental rules, advising center operations, degree requirements, program of study planning, career options, and student organizations.

E E 185: Introduction to Electrical Engineering and Problem-Solving I
(2-2) Cr. 3. F.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

E E 186: Introduction to Electrical Engineering and Problem Solving II
(0-2) Cr. 1. S.
Prereq: E E 185
Project based and hands on continuation of 185. Group skills needed to work effectively in teams. Individual interactive skills for small and large groups. Learning to use tools and methods for solving electrical engineering problems.

E E 188: Bio-Electrical Engineering Fundamentals Laboratory
(1-3) Cr. 2.
Prereq: E E 185 or equivalent
Fundamental laboratory based course in bio-electrical engineering with an emphasis on acquiring and analyzing biomedical signals to obtain relevant information. Topics covered include an overview of basic medical terminology and anatomy, labs illustrating data acquisition from different body systems, and an introduction to statistical significance and its relationship to biological variability.

E E 201: Electric Circuits
(3-3) Cr. 4. F.S.
Prereq: Credit or enrollment in MATH 267 and PHYS 222
Emphasis on mathematical tools. Circuit elements (resistors, inductors, capacitors) and analysis methods including power and energy relationships. Network theorems. DC, sinusoidal steady-state, and transient analysis. AC power. Frequency response. Two port models. Diodes, PSPICE. Laboratory instrumentation and experimentation. Credit for only E E 201 or 442 may be used towards graduation.
E E 224: Signals and Systems I
(3-3) Cr. 4. F.S.
Prereq: E E 201, MATH 267, PHYS 222

E E 230: Electronic Circuits and Systems
(3-3) Cr. 4. F.S.
Prereq: E E 201, MATH 267, PHYS 222

E E 261: Transfer Orientation
(Cross-listed with CPR E). Cr. R.
Introduction to the College of Engineering and the engineering profession specifically for transfer students. Information concerning university and college policies, procedures, and resources. Offered on a satisfactory-fail basis only.

E E 285: Problem Solving Methods and Tools for Electrical Engineering
(3-3) Cr. 4.

E E 294: Problem Discovery
(Cross-listed with CPR E). Cr. R.
Prereq: CPR E 166 or E E 166
The roles of professionals in computer and electrical engineering. Relationship of coursework to industry and academic careers. Issues relevant to today’s world. Offered on a satisfactory-fail basis only.

E E 303: Energy Systems and Power Electronics
(3-0) Cr. 3. F.S.
Prereq: MATH 267, PHYS 222; credit or enrollment in E E 230

E E 311: Electromagnetic Fields and Waves
(4-0) Cr. 4. F.S.
Prereq: E E 201, MATH 265, PHYS 222, credit or enrollment in MATH 267

E E 314: Electromagnetics for non Electrical Engineers
(3-0) Cr. 3.
Prereq: PHYS 222, PHYS 112, or equivalent
Conceptual study of electromagnetism and its application in engineering and related fields. EM fundamentals, EM spectrum, radiation, radiating systems, wireless, modern concepts of physics, quantum computing, transmission lines, high speed effects, waveguides, GPS and other related phenomena will be discussed and explained with the application in mind.

E E 321: Communication Systems I
(3-0) Cr. 3. F.
Prereq: E E 224

E E 322: Probabilistic Methods for Electrical Engineers
(Cross-listed with STAT). (3-0) Cr. 3. F.S.
Prereq: E E 224
Introduction to probability with applications to electrical engineers. Sets and events, probability space, conditional probability, total probability and Bayes’ rule. Discrete and continuous random variables, cumulative distribution function, probability mass and density functions, expectation, moments, moment generating function, multiple random variables, functions of random variables. Elements of statistics, hypothesis testing, confidence intervals, least squares. Introduction to random processes.
E E 324: Signals and Systems II
(3-3) Cr. 4. F.S.
Prereq: E E 224

E E 330: Integrated Electronics
(Cross-listed with CPR E). (3-3) Cr. 4.
Prereq: E E 201, credit or enrollment in E E 230, CPR E 281

E E 332: Semiconductor Materials and Devices
(Cross-listed with MAT E). (3-0) Cr. 3. S.
Prereq: PHYS 222; MAT E majors: MAT E 317; CPR E and E E majors: E E 230
Introduction to semiconductor material and device physics. Quantum mechanics and band theory of semiconductors. Charge carrier distributions, generation/recombination, transport properties. Physical and electrical properties and fabrication of semiconductor devices such as MOSFETs, bipolar transistors, laser diodes and LED's.

E E 333: Electronic Systems Design
(3-3) Cr. 4. F.
Prereq: E E 230, credit or enrollment in CPR E 288
Further topics in electronic systems design: Use of sensors and actuators. High-power amplifying and switching components. Linear and switched-mode power supplies. Linear and switched-mode amplifiers. Interfacing electronic components with programmable microcontrollers. Printed circuit board technology and design tools. Laboratory exercises and design projects incorporating printed circuit technology.

E E 336: Biomedical Instrumentation
(2-2) Cr. 3.
Prereq: E E 188, E E 224, E E 230
Principles and practices of biomedical instrumentation. Topics include: the physics and measurement of biopotentials including electrocardiography (EKG), electromyography (EMG) and electro-oculography (EOG), mechanical and chemical sensors, amplifiers and filters, recording and processing biological signals from nerve cells, muscles and human body, electrode polarization, surface electrodes, power line interference, heart sound sensors, respiratory gas concentration, blood-gas sensors, noninvasive blood-gas sensors.

E E 351: Analysis of Energy Systems
(3-0) Cr. 3.
Prereq: PHYS 222
Meets International Perspectives Requirement.

E E 388: Sustainable Engineering and International Development
(Cross-listed with A B E, C E). (2-2) Cr. 3. F.
Prereq: Junior classification in engineering
Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report.
Meets International Perspectives Requirement.

E E 391: Open Laboratory and Design Studio
(2-2) Cr. 2.
Prereq: E E 224
Studio-based activity (guided problem-based learning and design) focusing on elements of design, measurement, data capture, and data interpretation. Team building, engineering professionalism, engineering process of review and critique, and presentation. Open design activities that may include working with other studios.

E E 394: Program Exploration
(Cross-listed with CPR E). Cr. R.
Prereq: CPR E 294 or E E 294
Exploration of academic and career fields for electrical and computer engineers. Examination of professionalism in the context of engineering and technology with competencies based skills. Introduction to professional portfolio development and construction. Offered on a satisfactory-fail basis only.

E E 396: Summer Internship
Cr. R. Repeatable. SS.
Prereq: Permission of department and Engineering Career Services
Professional work period of at least 10 weeks during the summer. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.
E E 398: Cooperative Education (Co-op)
Cr. R. Repeatable. F.S.
Prereq: Permission of department and Engineering Career Services
Professional work period. One semester per academic or calendar year. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

E E 414: Microwave Engineering
(Dual-listed with E E 514). (3-3) Cr. 4. F.
Prereq: E E 230, E E 311
Principles, analyses, and instrumentation used in the microwave portion of the electromagnetic spectrum. Wave theory in relation to circuit parameters. S parameters, couplers, discontinuities, and microwave device equivalent circuits. RF amplifier design, microwave sources, optimum noise figure and maximum power designs. Microwave filters and oscillators.

E E 417: Electromagnetic Radiation, Antennas, and Propagation
(Dual-listed with E E 517). (3-3) Cr. 4. S.
Prereq: E E 311

E E 418: High Speed System Engineering Measurement and Testing
(Cross-listed with CPR E). (3-2) Cr. 4. F.
Prereq: E E 230 and E E 311

E E 419: Magnetism and Magnetic Materials
(Dual-listed with E E 519). (Cross-listed with MAT E). (3-0) Cr. 3. F.
Prereq: E E 311 or MAT E 317 or PHYS 364

E E 422: Communication Systems II
(3-0) Cr. 3.
Prereq: E E 321, E E 322, enrollment in E E 423
Introduction to probability and random processes; Performance of analog systems with noise; Performance of digital communication with noise; optimum receivers, transmission impairments, and error rates; Introduction to information theory and coding: source coding, channel coding, channel capacity.

E E 423: Communication Systems Laboratory
(0-3) Cr. 1.
Prereq: E E 321, enrollment in E E 422
Construction and evaluation of modulators, demodulators and other components for analog and digital communications. Design, simulate, and evaluate wireless communication systems and their key components. Noise measurement.

E E 424: Introduction to Digital Signal Processing
(3-3) Cr. 4.
Prereq: E E 224

E E 432: Microelectronics Fabrication Techniques
(Dual-listed with E E 532). (Cross-listed with MAT E). (2-4) Cr. 4.
Prereq: credit or enrollment in E E 332
Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).

E E 435: Analog VLSI Circuit Design
(Cross-listed with CPR E). (3-3) Cr. 4. S.
Prereq: E E 324, E E 330, E E 332, and either E E 322 or STAT 330
Basic analog integrated circuit and system design including design space exploration, performance enhancement strategies, operational amplifiers, references, integrated filters, and data converters.
E E 438: Optoelectronic Devices and Applications
(Dual-listed with E E 538). (3-0) Cr. 3.
Prereq: E E 311, E E 332

E E 439: Nanoelectronics
(3-0) Cr. 3. S.
Prereq: E E 332 or MAT E 334
Concepts of quantum mechanics relevant to nanoelectronic devices, including quantization, tunneling, and transport; overview of some of the leading technologies for nanoelectronics, including carbon nanotubes, quantum dots, and molecular transistors; fabrication methods for building nanoelectronic devices.

E E 442: Introduction to Circuits and Instruments
(3-2) Cr. 2. F.S.
Prereq: PHYS 222, MATH 267
Half-semester course. Basic circuit analysis using network theorems with time domain and Laplace transform techniques for resistive, resistive-inductive, resistive-capacitive, and resistive-inductive-capacitive circuits. Transient circuit behavior. Basic operational amplifiers and applications. Familiarization with common E E instrumentation and demonstration of basic principles. Credit for only 201 or 442 may be counted toward graduation; credit for 442 will not count toward graduation for E E or Cpr E majors.

E E 448: Introduction to AC Circuits and Motors
(3-2) Cr. 2. F.S.
Prereq: E E 442
Half-semester course. Basics of DC machines, stepper motors, AC induction motors, and synchronous generators. AC steady state analysis, transformers, and three-phase circuit analysis.

E E 450: Biosensing
(Cross-listed with B M E). (3-0) Cr. 3.
Prereq: B M E 220
Overview of biosensors and bioanalytical challenges; designing for performance including various analytical problems, ion-selective membranes, characteristics of enzymes and basics of bioaffinity sensing; fundamentals of bioselective layers including depositing films and membranes, surfaces for immobilization and bioselective agents; survey of different biosensing technologies including electroanalytical, biomembrane, optical, and acoustic-wave based sensors.

E E 450L: Biosensing Laboratory
(Cross-listed with B M E). (0-3) Cr. 1.
Prereq: B M E 220, concurrent enrollment in B M E 450
Laboratory course accompanying B M E 450. Design, fabrication, and characterization of various electrical, chemical, polymer, optical and acoustic sensors.

E E 451: Engineering Acoustics
(Cross-listed with E M, M E). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: PHYS 221 and MATH 266 or MATH 267
The basics of acoustic wave propagation in fluids with an emphasis on sound propagation in air. Topics include transmission and reflection of sound at a boundary; role of acoustic sources in directing sound fields; diffraction of sound around solid objects; reverberation of sound in a room; and the measurement of sound fields.

E E 452: Electrical Machines and Power Electronic Drives
(2-3) Cr. 3. S.
Prereq: E E 303, E E 324
Basic concepts of electromagnetic energy conversion. DC motors and three-phase induction motors. Basic introduction to power electronics. Adjustable speed drives used for control of DC, induction, and AC motors. Experiments with converter topologies, DC motors, AC motors and adjustable speed drives.

E E 455: Introduction to Energy Distribution Systems
(3-0) Cr. 3. F.
Prereq: E E 303, credit or registration in E E 324
Overhead and underground distribution system descriptions and characteristics, load descriptions and characteristics, overhead line and underground cable models, distribution transformers, power flow and fault analysis, overcurrent protection, power factor correction, system planning and automation, and economics in a deregulated environment.

E E 456: Power System Analysis I
(3-0) Cr. 3. F.
Prereq: E E 303, credit or registration in E E 324
Power transmission lines and transformers, synchronous machine modeling, network analysis, power system representation, load flow.

E E 457: Power System Analysis II
(3-0) Cr. 3. S.
Prereq: E E 303, credit or registration in E E 324
Power system protection, symmetrical components, faults, stability. Power system operations including the new utility environment.
E 458: Economic Systems for Electric Power Planning
(Cross-listed with ECON). (3-0) Cr. 3.
Prereq: E E 303 or ECON 301

E 459: Electromechanical Wind Energy Conversion and Grid Integration
(Dual-listed with E E 559). (3-0) Cr. 3.
Prereq: Credit or enrollment in E E 452, E E 456
Summary of industry status and expected growth; power extraction from the air stream; operation and modeling of electric machines, and power electronics topologies for wind energy conversion; analysis of machine-grid power electronic circuits, controller interface, and collector (distribution) networks; treatment of harmonics, flicker, over/under-voltages, filters, low-voltage ride-through, and reactive compensation; relaying; effects on transmission expansion, planning and grid operation and coordination including variability, frequency control, reserves, and electricity markets; overview of storage technologies and hybrid configurations.

E 465: Digital VLSI Design
(Cross-listed with CPR E). (3-3) Cr. 4. F.
Prereq: E E 330
Digital design of integrated circuits employing very large scale integration (VLSI) methodologies. Technology considerations in design. High level hardware design languages, CMOS logic design styles, area-energy-delay design space characterization, datapath blocks: arithmetic and memory, architectures and systems on a chip (SOC) considerations. VLSI chip hardware design project.

E 466: Multidisciplinary Engineering Design
(Cross-listed with A B E, AER E, B M E, CPR E, ENGR, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S.
Prereq: Student must be within two semesters of graduation; permission of instructor.
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

E 467: Multidisciplinary Engineering Design II
(Cross-listed with AER E, CPR E, ENGR, I E, M E, MAT E). (1-4) Cr. 3.
Prereq: Student must be within two semesters of graduation or receive permission of instructor.
Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

E 475: Automatic Control Systems
(3-0) Cr. 3. F.
Prereq: E E 324
Stability and performance analysis of automatic control systems. The state space, root locus, and frequency response methods for control systems design. PID control and lead-lag compensation. Computer tools for control system analysis and design.

E 476: Control System Simulation
(2-3) Cr. 3. S.
Prereq: E E 475
Computer aided techniques for feedback control system design, simulation, and implementation.

E 488: Eddy Current Nondestructive Evaluation
(Dual-listed with E E 588). (Cross-listed with MAT E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: MATH 265 and (MAT E 216 or MAT E 273 or MAT E 392 or E E 311 or PHYS 364)
Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

E 489: Survey of Remote Sensing Technologies
(Dual-listed with E E 589). (Cross-listed with GEOL, MTEOR, NREM). (3-0) Cr. 3. F.
Prereq: Four courses in physical or biological sciences or engineering
Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.
E E 489L: Satellite Remote Sensing Laboratory  
(Dual-listed with E E 589L). (Cross-listed with GEOL, MTEOR, NREM). (0-3)  
Cr. 1. F.  
Prereq: Completion or concurrent enrollment in MTEOR/GEOL/NREM/EE 489/589  
Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context.  

E E 490: Independent Study  
Cr. arr. Repeatable.  
Prereq: Senior classification in electrical engineering  
Investigation of an approved topic commensurate with the student’s prerequisites.  

E E 490H: Independent Study: Honors  
Cr. arr.  
Prereq: Senior classification in electrical engineering  
Investigation of an approved topic commensurate with the student’s prerequisites.  

E E 491: Senior Design Project I and Professionalism  
(Cross-listed with CPR E). (2-3) Cr. 3. F.S.  
Prereq: E E 322 or CPR E 308, completion of 24 credits in the E E core professional program or 29 credits in the CPR E core professional program, ENGL 314  
Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; design review presentation. First of two-semester team-oriented, project design and implementation experience.  

E E 492: Senior Design Project II  
(Cross-listed with CPR E). (1-3) Cr. 2. F.S.  
Prereq: CPR E 491 or E E 491  
Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in E E 491 or CPR E 491 and the evaluation of project results. Technical writing of final project report; oral presentation of project achievements; project poster.  

E E 494: Portfolio Assessment  
(Cross-listed with CPR E). Cr. R.  
Prereq: CPR E 394 or E E 394, credit or enrollment in CPR E 491 or E E 491  
Portfolio update and evaluation. Portfolios as a tool to enhance career opportunities.  

E E 496: Modern Optics  
(Cross-listed with PHYS). (3-0) Cr. 3. S.  
Prereq: Credit or enrollment in PHYS 322, PHYS 365, and PHYS 480  
Review of wave and electromagnetic theory; topics selected from: reflection/refraction, interference, geometrical optics, Fourier analysis, dispersion, coherence, Fraunhofer and Fresnel diffraction, holography, quantum optics, nonlinear optics.  

Courses primarily for graduate students, open to qualified undergraduates:  

E E 501: Analog and Mixed-Signal VLSI Circuit Design Techniques  
(Cross-listed with CPR E). (3-3) Cr. 4. F.  
Prereq: E E 435  

E E 504: Power Management for VLSI Systems  
(Cross-listed with CPR E). (3-3) Cr. 4.  
Prereq: E E 435, Credit or Registration for E E 501  
Theory, design and applications of power management and regulation circuits (Linear and switching regulators, battery chargers, and reference circuits) including: Architectures, Performance metrics and characterization, Noise and stability analysis, Practical implementation and on-chip integration issues, design considerations for portable, wireless, and RF SoCs.  

E E 505: CMOS and BiCMOS Data Conversion Circuits  
(Cross-listed with CPR E). (3-3) Cr. 4. Alt. S., offered even-numbered years.  
Prereq: E E 501  
Theory, design and applications of data conversion circuits (A/D and D/A converters) including: architectures, characterization, quantization effects, conversion algorithms, spectral performance, element matching, design for yield, and practical comparators, implementation issues.  

E E 506: Design of CMOS Phase-Locked Loops  
(Cross-listed with CPR E). (3-3) Cr. 4.  
Prereq: E E 435 or E E 501 or instructor approval  
Analysis and design of phase-locked loops implemented in modern CMOS processes including: architectures, performance metrics, and characterization; noise and stability analysis; and design issues of phase-frequency detectors, charge pumps, loop filters (passive and active), voltage controlled oscillators, and frequency dividers.
E E 507: VLSI Communication Circuits
(Cross-listed with CPR E). (3-3) Cr. 4. Alt. S., offered odd-numbered years.
Prereq: E E 435 or E E 501
Phase-locked loops, frequency synthesizers, clock and data recovery circuits, theory and implementation of adaptive filters, low-noise amplifiers, mixers, power amplifiers, transmitter and receiver architectures.

E E 508: Filter Design and Applications
(3-3) Cr. 4.
Prereq: E E 501

E E 509: Mixed-Signal IC Testing and Built In Self Test
(3-0) Cr. 3.
Prereq: E E 424 or equivalent and E E 435 or E E 501
Introduction to mixed-signal IC testing; measurement uncertainty and test validity; IEEE standard test algorithms; high performance test and built-in self test challenges; new mixed-signal test algorithms and techniques to reduce data acquisition to relax instrumentation requirements, to simplify test setup, to improve test validity, and/or to enable co-testing of heterogeneous functions.

E E 510: Topics in Electromagnetics
Cr. 1-3. Repeatable.
Prereq: E E 311

E E 511: Modern Optical Communications
(3-0) Cr. 3. S.
Prereq: E E 311

E E 512: Advanced Electromagnetic Field Theory I
(3-0) Cr. 3. F.
Prereq: E E 311

E E 513: Advanced Electromagnetic Field Theory II
(3-0) Cr. 3. S.
Prereq: E E 512

E E 514: Microwave Engineering
(Dual-listed with E E 414). (3-3) Cr. 4. F.
Prereq: E E 230, E E 311
Principles, analyses, and instrumentation used in the microwave portion of the electromagnetic spectrum. Wave theory in relation to circuit parameters. S parameters, couplers, discontinuities, and microwave device equivalent circuits. RF amplifier design, microwave sources, optimum noise figure and maximum power designs. Microwave filters and oscillators.

E E 516: Computational Methods in Electromagnetics
(3-0) Cr. 3. S.
Prereq: E E 311

E E 517: Electromagnetic Radiation, Antennas, and Propagation
(Dual-listed with E E 417). (3-3) Cr. 4. S.
Prereq: E E 311

E E 518: Microwave Remote Sensing
(Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Math 265 or equivalent
Microwave remote sensing of Earth's surface and atmosphere using satellite-based or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.
E E 519: Magnetism and Magnetic Materials  
(Dual-listed with E E 419). (Cross-listed with M S E). (3-0) Cr. 3. F.  
**Prereq:** E E 311 or MAT E 317 or PHYS 364  

E E 520: Selected Topics in Communications and Signal Processing  
(3-0) Cr. 3. Repeatable.

E E 521: Advanced Communications  
(3-0) Cr. 3. F.  
**Prereq:** E E 422, credit or enrollment in E E 523  

E E 522: Cognitive Radio Networks  
(Cross-listed with CPR E). (3-0) Cr. 3. Alt. F., offered irregularly.  
**Prereq:** Permission of instructor  
Topics on cognitive radio networks: Cognitive Radio Networks Architecture; Software Defined Radio Architecture; Spectrum Sensing; Spectrum Management; Spectrum Sharing; Spectrum Mobility; Applications of Cognitive Radio Networks.

E E 523: Random Processes for Communications and Signal Processing  
(3-0) Cr. 3.  
**Prereq:** E E 322, MATH 317  
Axioms of probability; Repeated trials; Functions of a random variable and multiple random variables: covariance matrix, conditional distribution, joint distribution, moments, and joint moment generating function; Mean square estimation; stochastic convergence; Some important stochastic processes: Random walk, Poisson, Wiener, and shot noise; Markov chains; Power spectral analysis; Selected applications.

E E 524: Digital Signal Processing  
(3-0) Cr. 3. F.  
**Prereq:** E E 322, E E 424, MATH 317  

E E 527: Detection and Estimation Theory  
(3-0) Cr. 3. S.  
**Prereq:** E E 422  

E E 528: Digital Image Processing  
(3-0) Cr. 3. S.  
**Prereq:** E E 322, E E 424  
Review of sampling, linear algebra and probability. Classical image processing topics such as image sampling and quantization, image transforms (2D Fourier, KLT, DCT, etc), image enhancement, restoration and filtering. Image analysis topics including edge detection, segmentation, registration and tracking (uses least squares estimation, EM, Kalman filter). Medical image reconstruction from tomographic projections (Radon transform, Fourier slice theorem and reconstruction algorithms using them) and Magnetic Resonance Imaging (MRI). Basic introduction to image and video compression methods.

E E 529: Data Analytics in Electrical and Computer Engineering  
(Cross-listed with CPR E). (3-0) Cr. 3. S.  
**Prereq:** E E 322 or equivalent  
Introduces a variety of data analytics techniques particularly those relevant for electrical and computer engineers from a foundational perspective. Topics to be covered include techniques for classification, visualization, and parameter estimation, with applications to signals, images, matrices, and graphs. Emphasis will be placed on rigorous analysis as well as principled design of such techniques.

E E 530: Selected Topics in Electronics, Microelectronics and Photonics  
(3-0) Cr. 3. Repeatable.  
**Prereq:** E E 332  
E E 532: Microelectronics Fabrication Techniques  
(Dual-listed with E E 432). (Cross-listed with M S E). (2-4) Cr. 4.  
**Prereq:** credit or enrollment in E E 332  
Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).
E E 535: Physics of Semiconductors
(Cross-listed with PHYS). (3-3) Cr. 4.
Prereq: E E 311 and E E 332
Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic structures, crystal structure, energy bands, equilibrium carrier concentration and doping, excess carriers and recombination, carrier transport at low and high fields, space charge limited current, photo-conductivity in solids, phonons, optical properties, amorphous semiconductors, heterostructures, and surface effects. Laboratory experiments on optical properties, carrier lifetimes, mobility, defect density, doping density, photo-conductivity, diffusion length of carriers.

E E 536: Physics of Semiconductor Devices
(Cross-listed with PHYS). (3-0) Cr. 3.
Prereq: E E 535
P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers, heterojunctions, bipolar transistors, field-effect transistors, negative-resistance devices and optoelectronic devices.

E E 538: Optoelectronic Devices and Applications
(Dual-listed with E E 438). (3-0) Cr. 3.
Prereq: E E 311, E E 332

E E 547: Pattern Recognition
(3-0) Cr. 3. F.
Prereq: E E 324

E E 552: Energy System Planning
(3-0) Cr. 3.
Prereq: E E 456, E E 457 or equivalent

E E 553: Steady State Analysis
(3-0) Cr. 3. F.
Prereq: E E 456, E E 457
Power flow, economic dispatch, unit commitment, electricity markets, automatic generation control, sparse matrix techniques, interconnected operation, voltage control.

E E 554: Power System Dynamics
(3-0) Cr. 3. S.
Prereq: E E 456, E E 457, E E 475
Dynamic performance of power systems with emphasis on stability. Modeling of system components and control equipment. Analysis of the dynamic behavior of the system in response to small and large disturbances.

E E 555: Advanced Energy Distribution Systems
(3-0) Cr. 3.
Prereq: E E 455
Transient models of distribution components, automated system planning and distribution automation, surge protection, reliability, power quality, power electronics and intelligent systems applications.

E E 556: Power Electronic Systems
(3-0) Cr. 3.
Prereq: E E 452
Converter topologies, AC/DC, DC/DC, DC/AC, AC/AC. Converter applications to do motor drives, power supplies, AC motor drives, power system utility applications (var compensators) and power quality.

E E 559: Electromechanical Wind Energy Conversion and Grid Integration
(Dual-listed with E E 459). (3-0) Cr. 3.
Prereq: Credit or enrollment in E E 452, E E 456
Summary of industry status and expected growth; power extraction from the air stream; operation and modeling of electric machines, and power electronics topologies for wind energy conversion; analysis of machine-grid power electronic circuits, controller interface, and collector (distribution) networks; treatment of harmonics, flicker, over/under-voltages, filters, low-voltage ride-through, and reactive compensation; relaying; effects on transmission expansion, planning and grid operation and coordination including variability, frequency control, reserves, and electricity markets; overview of storage technologies and hybrid configurations.
E E 565: Systems Engineering and Analysis
(Cross-listed with AER E, I E). (3-0) Cr. 3.
Prereq: Coursework in basic statistics
Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life-cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test, evaluation and systems engineering planning and organization. Not available for degrees in industrial engineering.

E E 566: Avionics Systems Engineering
(Cross-listed with AER E). (3-0) Cr. 3. S.
Prereq: E E 565
Avionics functions. Applications of systems engineering principles to avionics. Top down design of avionics systems. Automated design tools.

E E 570: Systems Engineering Analysis and Design
(3-0) Cr. 3.
Prereq: E E 475, E E 577
Selected topics in abstract algebra, linear algebra, real analysis, functional analysis, and optimization methods in electrical engineering.

E E 571: Introduction to Convex Optimization
(3-0) Cr. 3.
Introduction to convex optimization problems emerging in electrical engineering. Efficiently solving convex optimization problems with the use of interior point algorithms software. Review of linear algebra, convex functions, convex sets, convex optimization problems, duality, disciplined convex programming, applications to optimal filtering, estimation, control and resources allocations, sensor network, distributed systems.

E E 573: Random Signal Analysis and Kalman Filtering
(Cross-listed with AER E, M E). (3-0) Cr. 3. F.
Prereq: E E 324 or AER E 331 or M E 370 or M E 411 or MATH 341

E E 574: Optimal Control
(Cross-listed with AER E, M E). (3-0) Cr. 3. S.
Prereq: E E 577

E E 575: Introduction to Robust Control
(Cross-listed with AER E, M E). (3-0) Cr. 3.
Prereq: E E 577

E E 576: Digital Feedback Control Systems
(Cross-listed with AER E, M E). (3-0) Cr. 3. F.
Prereq: E E 475 or AER E 432 or M E 411 or MATH 415; and MATH 267

E E 577: Linear Systems
(Cross-listed with AER E, M E, MATH). (3-0) Cr. 3. F.
Prereq: E E 324 or AER E 331 or MATH 415; and MATH 207

E E 578: Nonlinear Systems
(Cross-listed with AER E, M E, MATH). (3-0) Cr. 3. S.
Prereq: E E 577

E E 588: Eddy Current Nondestructive Evaluation
(Dual-listed with E E 488). (Cross-listed with M S E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: MATH 265 and (MAT E 216 or MAT E 273 or MAT E 392 or E E 311 or PHYS 364)
E E 589: Survey of Remote Sensing Technologies
(Dual-listed with E E 489). (Cross-listed with GEOL, MTEOR, NREM). (3-0)
Cr. 3. F.
Prereq: Four courses in physical or biological sciences or engineering
Electromagnetic-radiation principles, active and passive sensors,
multispectral and hyperspectral sensors, imaging radar, SAR, thermal
imaging, lidar. Examples of applications. Also offered online S.

E E 589L: Satellite Remote Sensing Laboratory
(Dual-listed with E E 489L). (Cross-listed with GEOL, MTEOR, NREM). (0-3)
Cr. 1. F.
Prereq: Completion or concurrent enrollment in MTEOR/GEOL/NREM/EE
489/589
Processing and analysis of satellite sensor data (optical and radar).
Provides practical applications in an environmental context.

E E 590: Special Topics
Cr. 1-6. Repeatable.
Formulation and solution of theoretical or practical problems in electrical
engineering.

E E 590A: Special Topics: Electromagnetic Theory
Cr. 1-6. Repeatable.
Formulation and solution of theoretical or practical problems in electrical
engineering.

E E 590B: Special Topics: Control Systems
Cr. 1-6. Repeatable.
Formulation and solution of theoretical or practical problems in electrical
engineering.

E E 590C: Special Topics: Communication Systems
Cr. 1-6. Repeatable.
Formulation and solution of theoretical or practical problems in electrical
engineering.

E E 590E: Special Topics: Computer Engineering
Cr. 1-6. Repeatable.
Formulation and solution of theoretical or practical problems in electrical
engineering.

E E 590F: Special Topics: Electric Power
Cr. 1-6. Repeatable.
Formulation and solution of theoretical or practical problems in electrical
engineering.

E E 590G: Special Topics: Electrical Materials
Cr. 1-6. Repeatable.
Formulation and solution of theoretical or practical problems in electrical
engineering.

E E 590H: Special Topics: Electronic Devices and Circuits
Cr. 1-6. Repeatable.
Formulation and solution of theoretical or practical problems in electrical
engineering.

E E 590I: Special Topics: Signal Processing
Cr. 1-6. Repeatable.
Formulation and solution of theoretical or practical problems in electrical
engineering.

E E 591: Seminar in Electronics, Microelectronics, and Photonics
Cr. 1-3. Repeatable.

E E 594: Seminar in Electric Power
Cr. 1-3. Repeatable.

E E 596: Seminar in Control Systems
Cr. 1-3. Repeatable.

E E 597: Seminar in Communications and Signal Processing
Cr. 1. Repeatable.
Offered on a satisfactory-fail basis only.

E E 599: Creative Component
Cr. arr. Repeatable.

Courses for graduate students:

E E 621: Coding Theory
(3-0) Cr. 3.
Prereq: E E 521
Fundamentals of error-control coding techniques: coding gain,
linear block codes. Galois fields. Cyclic codes: BCH, Reed-Solomon.
Convolutional codes and the Viterbi algorithm. Trellis-coded modulation.
Iterative decoding. Recent developments in coding theory.

E E 622: Information Theory
(3-0) Cr. 3.
Prereq: E E 521, E E 523
Information system overview. Entropy and mutual information. Data
Compression and source encoding. Discrete memoryless channel
capacity. Noisy channel coding theorem. Rate distortion theory.
Waveform channels. Advanced topics in information theory.

E E 653: Advanced Topics in Electric Power System Engineering
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Advanced topics of current interest in electric power system engineering.

E E 674: Advanced Topics in Systems Engineering
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Advanced topics of current interest in the areas of control theory,
stochastic processes, digital signal processing, and image processing.
E E 697: Engineering Internship
(Cross-listed with CPR E). Cr. R. Repeatable.
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

E E 699: Research
Cr. arr. Repeatable.

Engineering (ENGR)

Courses primarily for undergraduates:

ENGR 101: Engineering Orientation
Cr. R. F.S.
Introduction to the College of Engineering and the engineering profession. Information concerning university and college policies, procedures, and resources. Undeclared sections: Considerations in choosing an engineering curriculum. Opportunities to interact with departments. Declared sections: Introduction to major-specific topics. Offered on a satisfactory-fail basis only.

ENGR 104: LEAD Program Orientation
(1-0) Cr. 1. F.
Orientation for LEAD Learning/Living Community participants. Introduction to college and university resources, tools and techniques to promote academic, professional and social/cultural development and success. Focus on building support networks with peers, faculty, and staff. Introduction to core engineering competencies including but not limited to initiative, communication, teamwork, and cultural adaptability. Offered on a satisfactory-fail basis only.

ENGR 105: LEAD Program Seminar
(1-0) Cr. 1. S.
Seminar for LEAD Learning/Living Community participants. Focus on professional development and exposure to various engineering disciplines through hands-on lab experiences, industry visits and networking opportunities with alumni, faculty, and staff. Development of core competencies: engineering/technical knowledge, communication and teamwork. Offered on a satisfactory-fail basis only.

ENGR 121: Learning Skills for Engineering
Cr. R. F.S.
Exploration of personal and academic strategies that promote academic and career success. Offered on a satisfactory-fail basis only.

ENGR 131: Learning Community Seminar
Cr. R. F.S.
Peer-mentored review of course topics in engineering undeclared learning communities. Offered on a satisfactory-fail basis only.

ENGR 150: Foundations of Leadership Development and Learning
(1-0) Cr. 1. F.S.
Prereq: ELP students only
Leadership development with focus on global context and awareness of events shaping the context. Exposure to theory of leadership with examples. Necessary characteristics of a leader, and strategies for leadership skills development. Exposure to non-traditional career paths for engineers. Outline of personalized leadership development. Offered on a satisfactory-fail basis only.

ENGR 155: Leadership in Engineering Student Organizations
(1-0) Cr. 1. F.S.
Development of leadership skills of student organization leaders in the College of Engineering. Introduction to organizational leadership concepts and analyze organization purpose and function. Students practice mentoring and learn how their campus leadership experiences transfer to the field of engineering.

ENGR 160: Engineering Problems with Computer Applications Laboratory
(2-2) Cr. 3. F.S.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations
Solving engineering problems and presenting solutions through technical reports. Significant figures. Use of SI units. Graphing and curve-fitting. Flowcharting. Introduction to mechanics, statistics and engineering economics. Use of spreadsheet programs to solve and present engineering problems. Solution of engineering problems using computer programming languages. (The honors section includes application of programming to mobile robotics).

ENGR 160H: Engineering Problems with Computer Applications Laboratory
(2-2) Cr. 3. F.S.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165
Solving engineering problems and presenting solutions through technical reports. Significant figures. Use of SI units. Graphing and curve-fitting. Flowcharting. Introduction to mechanics, statistics and engineering economics. Use of spreadsheet programs to solve and present engineering problems. Solution of engineering problems using computer programming languages. (The honors section includes application of programming to mobile robotics).
ENGR 250: Leadership in Engineering Teams  
(1-0) Cr. 1. F.S.  
Building and sustaining decision-making engineering teams. Students will explore the interrelated processes of discerning purpose, thinking systematically, developing reflective judgment, and exercising leadership by mobilizing and setting the direction for adaptive change within a team. Industry based examples and information from engineering and natural resource sciences will be infused into the course.

ENGR 260: Engineering: Getting from Thought to Thing  
(Cross-listed with IND D). (3-0) Cr. 3. F.S.  
What is engineering, technology and their roles in society? Investigation of engineering methods through case studies of everyday objects. Explore questions about the impact of technology in society. Apply engineering methods to design and failure analysis.

ENGR 265: Survey of the Impacts of Engineering Activity  
(3-0) Cr. 3. F.S.  
Survey of the economic, environmental, societal, and political benefits and problems resulting from engineering activity. Effects of engineering projects on human health, social structures, and the environment. Examination of improvements in economic opportunities and quality of life resulting from engineering activity. Case studies of the effects of engineering activity.

ENGR 270: Survey of How Things Work  
(Cross-listed with IND D). (3-0) Cr. 3. F.S.  
Removing mysteries surrounding science and technology. Identify key concepts from applied science and technology to obtain better understanding on how things work. Review and explain the principles behind the technologies which define our modern way of life. A survey of broad range of technology could include: cell phones, GPS, radio, television, computers, ultrasound, microwave ovens, automobile, bioengineering and other industrial and consumer technologies. Common day technology examples illustrating scientific knowledge and applications.

Cr. 3. F.S.  
Prereq: Satisfactory completion of international work experience of at least ten weeks or nine credits of approved course work taken abroad. Permission of student's department prior to departure  
Critique of work/study abroad experience as it relates to professional development. Taken the semester after completion of work abroad or study abroad. Written report and presentation. Offered on a satisfactory-fail basis only.  
Meets International Perspectives Requirement.

ENGR 327: Voices of Public Policy  
(3-0) Cr. 3. F.  
Prereq: Sophomore classification in engineering  
Role and impact of legislative process, partisan politics, government, lobbyists, the media, expert testimony and grassroots activism on public policy. Critical analysis of context; of claims, assumptions, premises, and evidence of both sides; represented and disenfranchised populations; the ethical issues to develop personal position and courses of action to impact public policy process.

ENGR 340: Introduction to Wind Energy: System Design & Delivery  
(3-0) Cr. 3. F.  
Prereq: MATH 166, PHYS 222  

ENGR 350: Dean's Leadership Seminar  
(1-0) Cr. 1. F.S.  
Prereq: Selection based on demonstrated commitment to leadership development; for junior status or above.  
Understanding the complexities of leadership in building an organization, decision-making styles, communication, managing change, building trust, shared responsibility leadership, creating legacy, prioritizing, effective use of authority, conflict, ethics, integrity, transparency, accountability.  
Offered on a satisfactory-fail basis only. May not apply toward a degree in Engineering.

ENGR 466: Multidisciplinary Engineering Design  
(Cross-listed with A B E, AER E, B M E, CPR E, E E, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S.  
Prereq: Student must be within two semesters of graduation; permission of instructor.  
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.
ENGR 467: Multidisciplinary Engineering Design II
(Cross-listed with AER E, CPR E, E E, I E, M E, MAT E). (1-4) Cr. 3.
Prereq: Student must be within two semesters of graduation or receive permission of instructor.
Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

ENGR 490E: Entrepreneurship
Cr. 1-3. Repeatable, maximum of 3 credits.
Prereq: Junior or senior classification in engineering, college approval.

ENGR 490L: Independent Study
Cr. 1-3. Repeatable, maximum of 3 credits. F.S.S.S.
Leadership.

Engineering Mechanics (E M)
Courses primarily for undergraduates:

E M 274: Engineering Statics
(3-0) Cr. 3. F.S.S.S.
Prereq: PHYS 221, credit or enrollment in MATH 166
Vector analysis; analysis of force systems; resultant in two and three dimensions; free-body diagrams; equilibrium; analysis of trusses, frames, and machines; friction, belts and pulleys; shear and bending moment in beams, centroid and center of mass; second moments of areas.

E M 324: Mechanics of Materials
(3-0) Cr. 3. F.S.S.S.
Prereq: E M 274
Plane stress, plane strain, stress-strain relationships, and elements of material behavior. Application of stress and deformation analysis to members subject to centric, torsional, flexural, and combined loadings. Elementary considerations of theories of failure, buckling.

E M 327: Mechanics of Materials Laboratory
(0-2) Cr. 1. F.S.S.S.
Prereq: E M 324
Experimental determination of mechanical properties of selected engineering materials. Experimental verification of assumptions made in 324. Use of strain measuring devices. Preparation of reports.

E M 345: Engineering Dynamics
(Cross-listed with M E). (3-0) Cr. 3. F.S.S.S.
Prereq: E M 274, credit or enrollment in MATH 266 or MATH 267
Particle and rigid body kinematics, Newton’s laws of motion, kinetics of plane motion, rigid body problems using work-energy, linear, and angular impulse-momentum principles, vibrations.

E M 362: Principles of Nondestructive Testing
(Cross-listed with MAT E). (3-0) Cr. 3. S.
Prereq: PHYS 112 or PHYS 222
Radiography, ultrasonic testing, magnetic particle inspection, eddy current testing, dye penetrant inspection, and other techniques. Physical bases of tests, materials to which applicable, types of defects detectable, calibration standards, and reliability safety precautions.

E M 362L: Nondestructive Testing Laboratory
(Cross-listed with MAT E). (0-3) Cr. 1. S.
Prereq: Credit or enrollment in MAT E 362
Application of nondestructive testing techniques to the detection and sizing of flaws in materials and to the characterization of material’s microstructure. Included are experiments in hardness, dye penetrant, magnetic particle, x-ray, ultrasonic and eddy current testing. Field trips to industrial laboratories.

E M 378: Mechanics of Fluids
(2-2) Cr. 3. F.S.S.S.
Prereq: E M 274

E M 417: Experimental Mechanics
(Dual-listed with E M 517). (Cross-listed with AER E). (2-2) Cr. 3. Alt. F., offered even-numbered years.
Prereq: E M 324; MAT E 273
Introduction to fundamental concepts for force, displacement, stress and strain measurements for structures and materials applications. Strain gage theory and application. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro- and nano-scale regimes. Selected laboratory experiments.

E M 424: Intermediate Mechanics of Materials
(3-0) Cr. 3. F.S.
Prereq: E M 324
**E M 425: Introduction to the Finite Element Method**  
(3-0) Cr. 3. S.  
*Prereq: E M 324, MATH 266 or MATH 267*

Introduction of finite element analysis through applications to one-dimensional, steady-state problems such as elastic deformation, heat and fluid flow, consolidation, beam bending, and mass transport. Transient heat conduction and wave propagation. Two-dimensional triangular and quadrilateral elements. Plane problems of torsion, thermal and potential flow, stress analysis. Simple computer programs for one- and two-dimensional problems.

**E M 451: Engineering Acoustics**  
(Cross-listed with E E, M E). (2-2) Cr. 3. Alt. S., offered even-numbered years.  
*Prereq: PHYS 221 and MATH 266 or MATH 267*

The basics of acoustic wave propagation in fluids with an emphasis on sound propagation in air. Topics include transmission and reflection of sound at a boundary; role of acoustic sources in directing sound fields; diffraction of sound around solid objects; reverberation of sound in a room; and the measurement of sound fields.

**E M 480: Ultrasonic Nondestructive Evaluation**  
(Cross-listed with AER E). (3-0) Cr. 3. S.  
*Prereq: E M 324, MATH 266 or MATH 267, PHYS 222*

Introduction to stress/strain, Hooke’s law, and elastic wave propagation in two dimensions in isotropic media. Ultrasonic plane-wave reflection and transmission; and simple straight-crested guided waves. Transducer construction, behavior, and performance. Simple signal analysis and discrete signal processing. The last few weeks of the course are devoted to case studies.

**E M 490: Independent Study**  
Cr. arr. Repeatable.  
*Prereq: Permission of instructor*

**E M 490H: Independent Study: Honors**  
Cr. arr. Repeatable.  
*Prereq: Permission of instructor*

Courses primarily for graduate students, open to qualified undergraduates:

**E M 510: Continuum Mechanics**  
(3-0) Cr. 3. F.  
*Prereq: MATH 385*

**E M 514: Advanced Mechanics of Materials**  
(Cross-listed with AER E). (3-0) Cr. 3. F.  
*Prereq: E M 324*

(3-0) Cr. 3. S.  
*Prereq: E M 510*

Fundamental mechanics of linear elasticity, formulation and solution of simple elastostatic boundary value problems. Kinematics of small deformations, constitutive equations for isotropic and anisotropic media. Field equations for elastic solids, plane strain/plane stress and some classic analytical solutions such as Boussinesq, Hertz, Kirsch, Lamé, and Mitchell. Stress functions and potential methods and introduction to finite elements.

**E M 517: Experimental Mechanics**  
(Dual-listed with E M 417). (Cross-listed with AER E). (2-2) Cr. 3. Alt. F., offered even-numbered years.  
*Prereq: E M 324; MAT E 273*

Introduction to fundamental concepts for force, displacement, stress and strain measurements for structures and materials applications. Strain gage theory and application. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro- and nano-scale regimes. Selected laboratory experiments.
E M 518: Waves in Elastic Solids with Applications to Ultrasonic Nondestructive Evaluation
(3-0) Cr. 3. F.
Prereq: MATH 385

E M 525: Finite Element Analysis
(Cross-listed with AER E). (3-0) Cr. 3. S.
Prereq: E M 425, MATH 385
Variational and weighted residual approach to finite element equations. Emphasis on two- and three-dimensional problems in solid mechanics. Isoparametric element formulation, higher order elements, numerical integration, imposition of constraints and penalty, convergence, and other more advanced topics. Use of two- and three-dimensional computer programs. Dynamic and vibrational problems, eigenvalues, and time integration. Introduction to geometric and material nonlinearities.

E M 526: Boundary Element Methods in Engineering
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: E M 514 or E M 516

E M 543: Introduction to Random Vibrations and Nonlinear Dynamics
(Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Vibrations of continuous systems. Nonlinear vibration phenomena, perturbation expansions; methods of multiple time scales and slowly-varying amplitude and phase. Characteristics of random vibrations; random processes, probability distributions, spectral density and its significance, the normal or Gaussian random process. Transmission of random vibration, response of simple single and two-degree-of-freedom systems to stationary random excitation. Fatigue failure due to random excitation.

E M 548: Advanced Engineering Dynamics
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: E M 345, MATH 266 or MATH 267
3-D kinematics and dynamics of particles and rigid bodies. Coordinate systems, calculus of variations. Lagrange's equations with constraints, modified Euler's equations, torque-free motion of rigid bodies in 3-D, moment equations with constraints.

E M 550: Nondestructive Evaluation
(Cross-listed with M S E). (3-2) Cr. 4. S.
Prereq: E M 324, MATH 385
Principles of five basic NDE methods and their application in engineering inspections. Materials behavior and simple failure analysis. NDE reliability, and damage-tolerant design. Advanced methods such as acoustic microscopy, laser ultrasonics, thermal waves, and computed tomography are analyzed. Computer-based experiments on a selection of methods: ultrasonics, eddy currents, x-rays are assigned for student completion.

E M 552: Advanced Acoustics
(Cross-listed with M E). (3-0) Cr. 3. Alt. F., offered irregularly.
Prereq: E M 451
Theoretical acoustics: wave propagation in fluids; acoustic radiation, diffraction and scattering; nonlinear acoustics; radiation force; cavitation; and ray acoustics.

E M 564: Fracture and Fatigue
(Cross-listed with AER E, M E, M S E). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: E M 324 and either MAT E 216 or MAT E 273 or MAT E 392.
Undergraduates: Permission of instructor
Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

E M 566: Phase Transformation in Elastic Materials
(Cross-listed with M E). (3-0) Cr. 3. S.
Prereq: EM 510 or EM 516 or EM 514
E M 569: Mechanics of Composite and Combined Materials
(Cross-listed with AER E, M S E). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: E M 324
Macromechanical behavior of lamina and laminates. Strength and
interlaminar stresses of laminates. Failure criteria. Stress analysis of
laminates. Thermal moisture and residual stresses. Joints in composites.

E M 570: Wind Engineering
(Cross-listed with AER E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: E M 378, E M 345
Atmospheric circulations, atmospheric boundary layer wind, bluff-body
aerodynamics, aeroelastic phenomena, wind-tunnel and full-scale testing,
wind-load code and standards, effect of tornado and thunderstorm winds,
design applications.

E M 590: Engineering Mechanics Special Topics
Cr. 1-4. Repeatable.
Prereq: Permission of instructor

E M 590P. Engineering Mechanics Special Topics: Introduction to
Dislocation and Plasticity
Cr. 1-4. Repeatable.
Prereq: Permission of instructor

E M 590H: Engineering Mechanics Special Topics: Mechanics of Thin
Films and Adhesives
Cr. 1-4. Repeatable.
Prereq: Permission of instructor

and Porous Media
Cr. 1-4. Repeatable.
Prereq: Permission of instructor

E M 590J: Engineering Mechanics Special Topics: Other
Cr. 1-4. Repeatable.
Prereq: Permission of instructor

E M 599: Creative Component
Cr. arr. Repeatable.

Courses for graduate students:

E M 690: Engineering Mechanics Special Topics: Advanced
Experimental Methods
Cr. 1-6. Repeatable.
Prereq: Permission of instructor

E M 690O: Engineering Mechanics Special Topics: Advanced Wave
Propagation
Cr. 1-6. Repeatable.
Prereq: Permission of instructor

E M 690P. Engineering Mechanics Special Topics: Advanced Materials
Cr. 1-6. Repeatable.
Prereq: Permission of instructor

E M 690Q: Engineering Mechanics Special Topics: Advanced
Computational Methods
Cr. 1-6. Repeatable.
Prereq: Permission of instructor

E M 690R: Engineering Mechanics Special Topics: Reliability and Failure
Cr. 1-6. Repeatable.
Prereq: Permission of instructor

E M 697: Engineering Internship
Cr. R. Repeatable.
Prereq: Permission of DOGE (Director of Graduate Education), graduate
classification
One semester and one summer maximum per academic year professional
work period. Offered on a satisfactory-fail basis only.

E M 699: Research
Cr. arr. Repeatable.

English (ENGL)

Courses primarily for undergraduates:

ENGL 011: Intensive English and Orientation Program Reading
(5-0) Cr. 0. F.S.SS.
Study of English for speakers of other languages. Brochure available from
the IEOEP Office, 102 Landscape Architecture, or at www.ieop.iastate.edu.

ENGL 011A: Intensive English and Orientation Program Reading:
Beginner
(5-0) Cr. 0. F.S.SS.
Academic reading classes for speakers of other languages. More
information available at www.ieop.iastate.edu.
ENGL 011B: Intensive English and Orientation Program Reading: Low Intermediate  
(5-0) Cr. 0. F.S.SS.  
Academic reading classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 011C: Intensive English and Orientation Program Reading: Intermediate  
(5-0) Cr. 0. F.S.SS.  
Academic reading classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 011D: Intensive English and Orientation Program Reading: High Intermediate  
(5-0) Cr. 0. F.S.SS.  
Academic reading classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 011E: Intensive English and Orientation Program Reading: High Intermediate  
(5-0) Cr. 0. F.S.SS.  
Academic reading classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 011F: Intensive English and Orientation Program Reading: Advanced  
(5-0) Cr. 0. F.S.SS.  
Academic reading classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 012: Intensive English and Orientation Program Writing  
(5-0) Cr. 0. F.S.SS.  
Academic writing classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 012A: Intensive English and Orientation Program Writing: Beginner  
(5-0) Cr. 0. F.S.SS.  
Academic writing classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 012B: Intensive English and Orientation Program Writing: Low Intermediate  
(5-0) Cr. 0. F.S.SS.  
Academic writing classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 012C: Intensive English and Orientation Program Writing: Intermediate  
(5-0) Cr. 0. F.S.SS.  
Academic writing classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 012D: Intensive English and Orientation Program Writing: High Intermediate  
(5-0) Cr. 0. F.S.SS.  
Academic writing classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 012E: Intensive English and Orientation Program Writing: High Intermediate  
(5-0) Cr. 0. F.S.SS.  
Academic writing classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 012F: Intensive English and Orientation Program Writing: Advanced  
(5-0) Cr. 0. F.S.SS.  
Academic writing classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 013: Intensive English and Orientation Program Listening and Speaking  
(5-0) Cr. 0.  
Academic listening and speaking classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 013A: Intensive English and Orientation Program Listening and Speaking: Beginner  
(5-0) Cr. 0.  
Academic listening and speaking classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 013B: Intensive English and Orientation Program Listening and Speaking: Low Intermediate  
(5-0) Cr. 0.  
Academic listening and speaking classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 013C: Intensive English and Orientation Program Listening and Speaking: Intermediate  
(5-0) Cr. 0.  
Academic listening and speaking classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 013D: Intensive English and Orientation Program Listening and Speaking: High Intermediate  
(5-0) Cr. 0.  
Academic listening and speaking classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 013E: Intensive English and Orientation Program Listening and Speaking: High  
(5-0) Cr. 0.  
Academic listening and speaking classes for speakers of other languages. More information available at www.ieop.iastate.edu.
ENGL 013F: Intensive English and Orientation Program Listening and Speaking: Advanced
(5-0) Cr. 0.
Academic listening and speaking classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 014: Intensive English and Orientation Program Grammar
(5-0) Cr. 0.

ENGL 014A: Intensive English and Orientation Program Grammar: Beginner
(5-0) Cr. 0.

ENGL 014B: Intensive English and Orientation Program Grammar: Low Intermediate
(5-0) Cr. 0.

ENGL 014C: Intensive English and Orientation Program Grammar: Intermediate
(5-0) Cr. 0.

ENGL 014D: Intensive English and Orientation Program Grammar: High Intermediate
(5-0) Cr. 0.

ENGL 014E: Intensive English and Orientation Program Grammar: High
(5-0) Cr. 0.

ENGL 014F: Intensive English and Orientation Program Grammar: Advanced
(5-0) Cr. 0.

ENGL 015: Intensive English and Orientation Program Exit Academic Skills
(10-0) Cr. 0.

ENGL 016: Intensive English and Orientation Program Exit Orientation
(5-0) Cr. 0.

ENGL 017: Intensive English and Orientation Program Exit Technology
(5-0) Cr. 0.
Academic Technology classes for speakers of other languages. More information available at www.ieop.iastate.edu.

ENGL 018: Intensive English Orientation Program Business Oral English Communication: Listening and Speaking
(5-0) Cr. 0.

ENGL 019: Intensive English Orientation Program Business Written English Communication: Reading and Writing
(10-0) Cr. 0.

ENGL 020: Intensive English and Orientation Program Optional Seminar
(5-0) Cr. 0.
Customized academic English and cultural orientation for speakers of other languages.

ENGL 099: Strategies for Nonnative Speakers of English
Cr. 0. F.S.
Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department’s option

ENGL 099L: Strategies for Nonnative Speakers of English: Strategies for Listening
Cr. 0. F.S.
Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department’s option

ENGL 099R: Strategies for Nonnative Speakers of English: Strategies for Reading
Cr. 0. F.S.
Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department’s option
ENGL 099S: Strategies for Nonnative Speakers of English: Academic Speaking and Pronunciation
Cr. 0. F.S.
Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department's option.

ENGL 101: English for Native Speakers of Other Languages
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101B: English for Native Speakers of Other Languages: Academic English
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101C: English for Native Speakers of Other Languages: Academic English II--Undergraduates
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101D: English for Native Speakers of Other Languages: Academic English II--Graduates
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
Available P/NP to graduate students at their department's option. For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101E: English for Native Speakers of Other Languages: Academic English II--Graduates
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
Available P/NP to graduate students at their department's option. For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101F: English for Native Speakers of Other Languages: Academic English III--Graduates
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
Available P/NP to graduate students at their department's option. For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101G: English for Native Speakers of Other Languages: Academic English IV--Graduates
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
Available P/NP to graduate students at their department's option. For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101H: English for Native Speakers of Other Languages: Academic English V--Graduates
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
Available P/NP to graduate students at their department's option. For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101I: English for Native Speakers of Other Languages: Academic English VI--Graduates
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
Available P/NP to graduate students at their department's option. For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101J: English for Native Speakers of Other Languages: Academic English VII--Graduates
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
Available P/NP to graduate students at their department's option. For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101K: English for Native Speakers of Other Languages: Academic English VIII--Graduates
(3-0) Cr. 3. F.S.
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)
Available P/NP to graduate students at their department's option. For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 150: Critical Thinking and Communication
(3-0) Cr. 3. F.S.S.
Prereq: Concurrent enrollment in LIB 160 is recommended.
Application of critical reading and thinking abilities to topics of civic and cultural importance. Introduction of basic oral, visual, and electronic communication principles to support writing development. Initiation of communication portfolio.

ENGL 180: Communication Skills for International Teaching Assistants
Cr. 1-3. Repeatable, maximum of 2 times. F.S.
Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 180A: Communication Skills for International Teaching Assistants: Speaking Skills
Cr. 3. Repeatable, maximum of 2 times. F.S.
Emphasis on pronunciation improvement and greater fluency in spoken English. Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.
ENGL 180B: Communication Skills for International Teaching Assistants: Intermediate Spoken English
Cr. 3. Repeatable, maximum of 2 times. F.S.
Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 180C: Communication Skills for International Teaching Assistants: Advanced Spoken English
Cr. 3. Repeatable, maximum of 2 times. F.S.
For students who have completed ENGL 180A or ENGL 180B but have not reached the passing level on the OECT test. Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 180D: Communication Skills for International Teaching Assistants: Presentation Skills
Cr. 3. Repeatable, maximum of 2 times. F.S.
Developing explanations, leading discussions and handling questions in a teaching environment. Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 180E: Communication Skills for International Teaching Assistants: Supervised Independent Study
Cr. 1-3. Repeatable, maximum of 2 times. F.S.
Seminar with individual observation and consultation. Placement based upon OECT test results. Persons whose native language is English cannot take ENGL 180 for credit. No more than one section of ENGL 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for ENGL 180 does not apply toward graduation.

ENGL 201: Introduction to Literature
(3-0) Cr. 3.
Prereq: Credit in or exemption from 150
Study of selected examples of drama, poetry, short fiction, and the novel drawn from both British and American literature. Recommended for nonmajors.

ENGL 207: Introduction to Creative Writing
(3-0) Cr. 3. F.S.
Prereq: Credit in or exemption from 150
Course introduces students to the fundamentals of writing fiction, poetry, and creative nonfiction. Extensive readings in all three genres. Students learn creative processes through writing exercises, workshops, and conferences.

ENGL 214: Introduction to Technical Communication
Cr. 3. F.
Prereq: ENGL 150
A broad introduction to the culture of professional work as a technical communicator, with particular emphasis on principles and best practices for developing and managing technical information and digital media. Examination of user-centered design, the history of the discipline, cross-cultural communication, and the ethics of communicating complex information to lay audiences. Study and practice of team-based collaboration, project management, and technical editing.

ENGL 219: Introduction to Linguistics
(Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: Sophomore classification
Introduction to linguistic concepts and principles of linguistic analysis with English as the primary source of data. Sound and writing systems, sentence structure, vocabulary, and meaning. Issues in the study of usage, regional and social dialects, language acquisition, and language change.

ENGL 220: Descriptive English Grammar
(Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: ENGL 250
Overview of grammatical structures and functions. Parts of speech; phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

ENGL 225: Survey of British Literature to 1800
(3-0) Cr. 3.
Prereq: ENGL 250
Representative works of British literature from the origins to 1800 in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 226: Survey of British Literature since 1800
(3-0) Cr. 3.
Prereq: ENGL 250
Representative works from 1800 to the present in historical, cultural, and literary contexts. Will include multiple genres and may include texts that reflect and/or critique the impact and legacy of the British empire on its former colonies, i.e., postcolonial literature.
ENGL 227: Survey of American Literature to 1865
(3-0) Cr. 3.
Prereq: ENGL 250
Representative works of American literature from its origins (including indigenous and conquest literatures) through the end of the Civil War in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 228: Survey of American Literature since 1865
(3-0) Cr. 3.
Prereq: ENGL 250
Representative works written in the United States since the Civil War in historical, cultural, and literary contexts, with attention to the cultural and ethnic diversity of Americans. Will include multiple genres.

ENGL 237: Survey of Film History
(3-0) Cr. 3. F.
Prereq: Credit in or exemption from 150
A survey of the history of film, both U.S. and international, from the beginnings in the late nineteenth century to the present.

ENGL 240: Introduction to American Indian Literature
(Cross-listed with AM IN). (3-0) Cr. 3. F.
Prereq: Credit in or exemption from ENGL 150
Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works.
Meets U.S. Diversity Requirement

ENGL 250: Written, Oral, Visual, and Electronic Composition
(3-0) Cr. 3. F.S.SS.
Prereq: ENGL 150 or exemption from ENGL 150; sophomore classification or exemption from ENGL 150; credit for or concurrent enrollment in LIB 160
Analyzing, composing, and reflecting on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on supporting a claim and using primary and secondary sources. Continued development of communication portfolio.

ENGL 250H: Written, Oral, Visual, and Electronic Composition: Honors
(3-0) Cr. 3. F.
Prereq: Exemption from ENGL 150 and admission to Freshman Honors Program; credit for or concurrent enrollment in LIB 160
In-depth analysis, composition, and reflection on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on argumentation: developing claims, generating reasons, providing evidence. Individual sections organized by special topics. Development of communication portfolio.

ENGL 260: Introduction to Literary Study
(3-0) Cr. 3.
Prereq: Credit in or exemption from 150
Basic principles of literary study. Emphasis on writing of interpretive and critical essays. Particular attention to poetry. Designed for English majors.

ENGL 275: Analysis of Popular Culture Texts
(Cross-listed with SP CM). (3-0) Cr. 3. F.S.
Prereq: Credit in or equivalent of 250
Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

ENGL 302: Business Communication
(3-0) Cr. 3. F.S.SS.
Prereq: ENGL 250, junior classification
Rhetorical concepts and processes to successfully communicate individually and collaboratively via written, oral, visual, and electronic modes across a range of business disciplines. Covers strategies for analyzing audiences internal and external to an organization in order to communicate positive, neutral, and negative messages clearly, completely, correctly, and ethically; save an audience's time; and create goodwill.

ENGL 302H: Business Communication: Honors
(3-0) Cr. 3. F.S.SS.
Prereq: ENGL 250, junior classification
Theory, principles and processes of effective written, oral, visual, and electronic communication typically encountered in business and the professions. Extensive practice in many areas of workplace communication, including letter, memo, and email correspondence; short proposals and reports; policies and procedures; job packet including letters of application and resumes; website analysis; brochures; and individual and team presentations.

ENGL 303: Free-Lance Writing for Popular Magazines
(3-0) Cr. 3. S.
Prereq: ENGL 250, not open to freshmen
Practical workshop in writing nonfiction articles for popular magazines. Emphasis on writing, market research, preparation of manuscripts, methods of submission. Major goal of the course is production of marketable material.
ENGL 304: Creative Writing: Fiction
(3-0) Cr. 3. F.S.
Prereq: ENGL 250, not open to freshmen
Progresses from practice in basic techniques of fiction writing to fully developed short stories. Emphasis on writing, analytical reading, workshop criticism, and individual conferences.

ENGL 305: Creative Writing: Nonfiction
(3-0) Cr. 3. F.S.
Prereq: ENGL 250, not open to freshmen
Workshop in writing imaginative essays, both critical and personal. Analytical reading, development of literary techniques. Individual and small group conferences.

ENGL 306: Creative Writing: Poetry
(3-0) Cr. 3. F.S.
Prereq: ENGL 250, not open to freshmen
Progresses from traditional to contemporary forms. Emphasis on writing, analytical reading, workshop criticism, and individual conferences.

ENGL 308: Write Like a Woman
(Cross-listed with WGS). (3-0) Cr. 3. F.
Prereq: ENGL 250
Writing and reading interpretive fiction written by women. Emphasis on stories that embody a female literary life, gender-specific ways of creating characters and conflicts, analytical reading and writing, workshop criticism and shared commentaries. Includes multi-modal projects.

ENGL 309: Proposal and Report Writing
(3-0) Cr. 3. F.S.
Prereq: ENGL 250, junior classification
Rhetorical concepts and processes to individually and collaboratively develop proposals for business, governmental, nonprofit, or other organizations and to report on the work completed both orally and in writing. Emphasizes the structure and classification of proposal and report types, qualitative and quantitative research methods, audience analysis, document design, and data visualization.

ENGL 310: Rhetorical Analysis
(3-0) Cr. 3. F.S.
Prereq: ENGL 250
Fundamental principles of rhetorical criticism. Focus on selected theories for analyzing cultural texts, including essays, speeches, film, technical and scientific documents, and websites. Emphasis on identifying artifacts, formulating research questions, applying methodologies, and understanding and practicing critical analysis through discussion and in writing.

ENGL 312: Biological Communication
(3-0) Cr. 3. F.S.
Prereq: ENGL 250
Rhetorical concepts and processes to successfully communicate individually and collaboratively via written, oral, visual, and electronic modes in disciplines in and related to biological sciences. Emphasizes the strategies for analyzing and adapting to audiences in the biological sciences. Covers developing and designing documentation, presenting scientific data visually, and communicating results orally.

ENGL 313: Rhetorical Website Design
(3-0) Cr. 3.
Prereq: ENGL 250
Rhetorical principles of multimodal composing in hypertextual environments. Focus on writing according to web style guidelines, employing cascading stylesheets for layout and design, and using principles of information architecture to determine optimal site structure. Final project involves constructing interactive client site using latest web standards.

ENGL 314: Technical Communication
(3-0) Cr. 3. F.S.S.
Prereq: ENGL 250, junior classification
Rhetorical concepts and processes to successfully communicate technical information individually and collaboratively via written, oral, visual, and electronic modes. Emphasizes the major strategies for analyzing expert and lay audiences and adapting information to those audiences. Covers developing and designing usable technical documentation, visualizing data, and presenting technical information orally.

ENGL 314H: Technical Communication: Honors
(3-0) Cr. 3. F.S.S.
Prereq: ENGL 250, junior classification
Theories, principles, and processes of effective written, oral, visual, and electronic communication of technical information. Attention to major strategies for analyzing and adapting to audiences in various communication situations and composing technical discourse including organizing visual and verbal information. Extensive practice in many areas of technical communication, including instructions and procedures, proposals and reports, website analysis and design, and individual and team presentations.

ENGL 315: Creative Writing: Screenplays
(3-0) Cr. 3. F.
Prereq: ENGL 250, not open to freshmen
Stresses master scene technique of writing fully developed screenplays. Emphasis on movie techniques, writing, workshop criticism, analytical reading and viewing, and individual conferences.
ENGL 316: Creative Writing: Playwriting
(Cross-listed with THTRE). (3-0) Cr. 3. S.
Prereq: ENGL 250, not open to freshmen
Progresses from production of scenes to fully developed one-act plays. Emphasis on action, staging, writing, analytical reading, workshop criticism, and individual conferences.

ENGL 322: Language and Society
(Cross-listed with LING). Cr. 3. S.
Prereq: ENGL/LING 219
Introduction to variation in language use in society. Survey of factors affecting language use, including background characteristics of language users, location, and purpose of interaction in addition to institutional, state, and national language policies.

ENGL 324: Introduction to Teaching ESL Literacy
(Cross-listed with LING). Cr. 3. F.
Prereq: ENGL/LING 219
Introduction to the issues and methods involved in teaching literacy skills to English as a second language (ESL) learners. The nature of literacy and materials and methods for developing ESL literacy at the middle school, high school, and adult ages across multiple levels of competency.

ENGL 325: Teaching Methods for ESL Learners: Oral Communication Skills
(Cross-listed with LING). Cr. 3. S.
Prereq: ENGL/LING 219
Issues and methods in teaching oral communication skills (listening, speaking, pronunciation) to English as a second language (ESL) learners. The nature of oral language ability. Materials and Methods for developing oral communication skills at middle school, high school, and adult contexts.

ENGL 330: Science Fiction
(3-0) Cr. 3.
Prereq: ENGL 250
Study of science fiction from its origins in nineteenth-century to the present. May include study of specific types of science fiction, such as classic, cyberpunk, feminist, or apocalyptic narratives; and may include consideration of science fiction film and/or theory.

ENGL 332: Visual Communication of Quantitative Information
(Cross-listed with STAT). (3-0) Cr. 3.
Prereq: STAT 101, STAT 104, STAT 201 or STAT 226; ENGL 250
Communicating quantitative information using visual displays; visualizing data; interactive and dynamic data displays; evaluating current examples in the media; color, perception, and representation in graphs; interpreting data displays.

ENGL 335: Studies in Film
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250
Principles of film art and the traditional vocabulary of literature as applied to film. Influence of film on modes of thought and behavior.

ENGL 339: Literary Theory and Criticism
(3-0) Cr. 3.
Prereq: ENGL 260 and 3 additional credits in literature
Study of selected texts of literary criticism, with attention to the purposes and practices of criticism.

ENGL 340: Women's Literature
(Cross-listed with WGS). (3-0) Cr. 3.
Prereq: ENGL 250
Historical and thematic survey of literature by and about women. May include autobiographies, journals, letters, poetry, fiction, and drama.
Meets U.S. Diversity Requirement

ENGL 344: U.S. Latino/a Literature
(Cross-listed with US LS). (3-0) Cr. 3. S.
Prereq: ENGL 250
An introduction to the literature of Mexican Americans, Puerto Ricans, Cuban Americans and other Latino/a sub-groups. Special emphasis on themes such as ethnic relations and comparisons with EuroAmerican literary traditions.
Meets U.S. Diversity Requirement

ENGL 345: Women and Literature: Selected Topics
(Cross-listed with WGS). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250
Literature by women and/or dealing with the images of women, e.g., study of individual authors or related schools of authors; exploration of specific themes or genres in women's literature; analysis of recurrent images of women in literature.
Meets U.S. Diversity Requirement

ENGL 346: American Indian Literature
(Cross-listed with AM IN). (3-0) Cr. 3.
Prereq: ENGL 250
Survey of literature by Native Americans from pre-Columbian tales and songs to contemporary novels and poetry.
Meets U.S. Diversity Requirement

ENGL 347: Studies in African American Literature
(Cross-listed with AF AM). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250
Literature by African Americans, which may include study of individual authors, movements, themes, genres.
Meets U.S. Diversity Requirement
ENGL 349: Topics in Multicultural Literatures of the United States
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250
Literature by writers from U.S. multicultural groups. May include literature of several groups or focus upon one of the following: Asian Americans, African Americans, Latino/a Americans, American Indians.
Meets U.S. Diversity Requirement

ENGL 350: Rhetorical Traditions
(Cross-listed with CL ST, SP CM). (3-0) Cr. 3. S.
Prereq: ENGL 250
Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

ENGL 352: Gay and Lesbian Literature
(Cross-listed with WGS). (3-0) Cr. 3.
Prereq: ENGL 250
Literary portrayals of gay and lesbian lives and relationships from many different genres. Attention to changing definitions and representations of sexual orientation and gender identity over time.
Meets U.S. Diversity Requirement

ENGL 353: World Literature: Western Foundations through Renaissance
(Cross-listed with CL ST). (3-0) Cr. 3. F.S.
Prereq: ENGL 250
Representative works from the drama, epics, poetry, and prose of the Ancient World through the late sixteenth century. May include Homer, Aeschylus, Sappho, Catullus, Dante, Marie de France, Boccaccio, Christine de Pizan, Cervantes, and others.
Meets International Perspectives Requirement.

ENGL 354: World Literature: Seventeenth Century to the Present
(3-0) Cr. 3. F.
Prereq: ENGL 250
Global literatures in their various cultural and aesthetic contexts. Representative works, oral and written literature, including poetry, fiction, nonfiction, and drama.
Meets International Perspectives Requirement.

ENGL 355: Literature and the Environment
(Cross-listed with ENV S). (3-0) Cr. 3.
Prereq: ENGL 250
Study of literary texts that address the following topics, among others: the relationship between people and natural/urban environments, ecocriticism, and the importance of place in the literary imagination.

ENGL 358: Myth and Fairytale
(3-0) Cr. 3.
Prereq: ENGL 250
Study of traditional fairytales, myths, and legends from diverse cultures.

ENGL 360: Studies in American Literature to 1800
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250; sophomore classification
Selected readings in American literature from its beginnings through the colonial period; may reflect themes, genres, or social and cultural contexts.

ENGL 362: Studies in 19th Century American Literature
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250; sophomore classification
Selected readings in American literature of the 19th century; may reflect themes, genres, or social and cultural contexts.

ENGL 364: Studies in American Literature: 1900 to the Present
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250; sophomore classification
Selected readings in American literature since 1900; may reflect themes, genres, or social and cultural contexts.

ENGL 370: Shakespeare
(3-0) Cr. 3. F.S.
Prereq: ENGL 250
Reading and analysis of selected plays. Development of Shakespeare’s dramatic art in its social and intellectual context.
Meets International Perspectives Requirement.

ENGL 373: Studies in British Literature: The Middle Ages
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250; sophomore classification
Selected readings in medieval literature from its beginnings through the fifteenth century; may reflect themes, genres, or social and cultural contexts.

ENGL 375: Studies in British Literature: The Restoration and 18th Century
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250; sophomore classification
Selected readings in British literature from 1660 to 1800; may reflect themes, genres, or social and cultural contexts.

ENGL 377: Studies in British Literature: The Early Modern Period
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250; sophomore classification
Selected readings in British literature from 1400 to 1660; may reflect themes, genres, or social and cultural contexts.

ENGL 378: Studies in British Literature: The Later Modern Period
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250; sophomore classification
Selected readings in British literature from 1660 to 1800; may reflect themes, genres, or social and cultural contexts.

ENGL 379: Studies in British Literature: The Postmodern Period
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250; sophomore classification
Selected readings in British literature since 1800; may reflect themes, genres, or social and cultural contexts.

ENGL 380: Studies in American Literature: Modernism and the Avant-Garde
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250; sophomore classification
Selected readings in American literature from 1890 to the present; may reflect themes, genres, or social and cultural contexts.

ENGL 381: Studies in American Literature: The Contemporary Period
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250; sophomore classification
Selected readings in American literature since 1960; may reflect themes, genres, or social and cultural contexts.
ENGL 376: Studies in British Literature  
(3-0) Cr. 3. Repeatable, maximum of 6 credits.  
*Prereq: ENGL 250; sophomore classification*  
Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.  
Meets International Perspectives Requirement.

ENGL 376A: Studies in British Literature: Romantic  
(3-0) Cr. 3.  
*Prereq: ENGL 250; sophomore classification*  
Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.  
Meets International Perspectives Requirement.

ENGL 376B: Studies in British Literature: Victorian  
(3-0) Cr. 3.  
*Prereq: ENGL 250; sophomore classification*  
Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.  
Meets International Perspectives Requirement.

ENGL 379: Postcolonial Literature  
(3-0) Cr. 3.  
*Prereq: ENGL 250; sophomore classification*  
Historical, thematic and theoretical study of postcolonial literatures from one or more of the following areas: Africa, South Asia, the Caribbean, and the Middle East. Irish and immigrant British writers may also be included.  
Meets International Perspectives Requirement.

ENGL 393: The History of Children's Literature  
(3-0) Cr. 3. F.  
*Prereq: ENGL 250*  
Origin and development of English and American children's literature through the early twentieth century. Special emphasis on nature, structure, and enduring themes of fantasy literature.

ENGL 395: Study and Travel  
Cr. arr. SS.  
*Prereq: Permission of instructor*  
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.  
Meets International Perspectives Requirement.

ENGL 395A: Study and Travel: Literature  
Cr. arr. SS.  
*Prereq: Permission of instructor*  
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.  
Meets International Perspectives Requirement.

ENGL 395B: Study and Travel: Creative Writing  
Cr. arr. SS.  
*Prereq: Permission of instructor*  
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.  
Meets International Perspectives Requirement.

ENGL 395C: Study and Travel: Linguistics  
Cr. arr. SS.  
*Prereq: Permission of instructor*  
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.  
Meets International Perspectives Requirement.

ENGL 395D: Study and Travel: Rhetoric and Professional Communication  
Cr. arr. SS.  
*Prereq: Permission of instructor*  
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.  
Meets International Perspectives Requirement.

ENGL 395E: Study and Travel: Teacher Education  
Cr. arr. SS.  
*Prereq: Permission of instructor*  
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.  
Meets International Perspectives Requirement.

ENGL 396: Teaching the Reading of Young Adult Literature  
(3-0) Cr. 3. F.S.  
*Prereq: ENGL 250*  
Critical study and evaluation of themes, genres, and cultures found in young adult literature. Strategies of effective reading; instructional strategies including discussion techniques and use of technology; matching texts to reader needs and proficiencies. Evaluation of fiction, nonfiction, and media-based materials for use in school programs. Lesson planning.
ENGL 397: Practice and Theory of Teaching Writing in the Secondary Schools
(3-0) Cr. 3. F.S.
Prereq: ENGL 219 or ENGL 220; application process initiated for admission to university teacher education program; concurrent enrollment in CI 280 (cr. 2); and background check initiated with state of Iowa Department of Criminal Investigation

ENGL 404: Creative Writing Workshop: Fiction
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.
Prereq: ENGL 304
Individual projects in short fiction on a workshop and conference basis. Readings in short fiction. Discussion of elements of narrative such as plot, point of view, characterization, theme, setting.

ENGL 405: Creative Writing Workshop: Nonfiction
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.
Prereq: ENGL 305
Individual projects in memoir, immersion journalism, character studies, and/or the personal essay on a workshop and conference basis. Readings in creative nonfiction.

ENGL 406: Creative Writing Workshop--Poetry
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.
Prereq: ENGL 306
Individual projects in poetry on a workshop and conference basis. Readings in poetry. Discussion of poetic elements such as image, sound, internal structure, rhythm, tone, figurative language.

ENGL 411: Technology, Rhetoric, and Professional Communication
(3-0) Cr. 3.
Prereq: ENGL 310, ENGL 302, ENGL 309, ENGL 313, or ENGL 314; junior classification
Seminar course on the implication of technologies, especially computer technology, for the writing and reading of business, technical, and academic texts. Extensive reading, discussion, and writing on selected technology-related topics.

ENGL 415: Business and Technical Editing
(3-0) Cr. 3. S.
Prereq: ENGL 302, ENGL 309, or ENGL 314; junior classification
Editing concepts and processes for choosing the appropriate level of editing for the particular rhetorical situation. Covers using editorial tools such as copy-marking symbols, developing style sheets and guides, and managing document production. Emphasizes developing an editorial eye for verbal and visual details in order to achieve accuracy, consistency, correctness, and completeness.

ENGL 416: Visual Aspects of Business and Technical Communication
(3-0) Cr. 3. F.
Prereq: ENGL 302, ENGL 309, or ENGL 314; junior classification
Rhetorical strategies and perceptual principles for designing print and digital visual elements such as diagrams and graphs and integrating those visual elements into business and technical communications. Covers strategies for employing visual elements such as typeface, page and screen layout, and illustrations in order to make communications more usable.

ENGL 417: Student Teaching
Cr. arr. F.S.
Prereq: admission to teacher education, approval of coordinator the semester prior to student teaching
Full-time teaching in content licensure area: long term and unit planning, lesson planning, classroom teaching practice.

ENGL 417E: Student Teaching: English and Literature
(Cross-listed with CI). Cr. arr. Repeatable. F.S.
Prereq: ENGL 494, admission to teacher education, approval of coordinator the semester prior to student teaching
Full-time teaching in secondary English: long term and unit planning, lesson planning, classroom teaching practice in English language arts.

ENGL 418: Seminar in Argumentation
(3-0) Cr. 3. S.
Prereq: ENGL 310, junior classification
Advanced seminar in theory and analysis with extensive practice in various modes of argument.

ENGL 420: History of the English Language
(Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: ENGL 219 or LING 219, ENGL 220 or LING 220
Comparison of English to other languages by family background and by type. Analysis of representative Old, Middle, Early Modern and present-day English texts, including both literary works and non-literary documents.
ENGL 422: Women, Men, and the English Language  
(Cross-listed with LING, WGS). (3-0) Cr. 3. S.  
**Prereq:** ENGL 219 or LING 219  
The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions.  
Meets U.S. Diversity Requirement

ENGL 425: Second Language Learning and Teaching  
(Cross-listed with LING). (3-0) Cr. 3. S.  
**Prereq:** ENGL 219 or LING 219; junior classification  
The process of second language learning and principles and techniques of teaching second languages. Learning and teaching in specific situations and for particular purposes. Current applications of technology in teaching and assessment.

ENGL 437: Grammatical Analysis  
(Cross-listed with LING). (3-0) Cr. 3. F.  
**Prereq:** ENGL 220 or LING 220; ENGL 219 or LING 219 or introductory course in linguistics; junior classification  
Theories and methods for analysis of syntax and morphology.

ENGL 440: Seminar in British Literature  
(3-0) Cr. 3. Repeatable, maximum of 6 credits.  
**Prereq:** Completion of 9 credits of surveys; junior classification  
Selected authors, movements, eras, or genres in British literature. Readings in criticism; required research paper.

ENGL 441: Seminar in American Literature  
(3-0) Cr. 3. Repeatable, maximum of 6 credits.  
**Prereq:** Completion of 9 credits of surveys; junior classification  
Selected authors, movements, eras, or genres in American literature. Readings in criticism; required research paper.

ENGL 445: Seminar: Literature Crossing Boundaries  
(3-0) Cr. 3. Repeatable, maximum of 6 credits.  
**Prereq:** Completion of 9 credits of surveys; junior classification  
Intensive study of selected literature that bridges traditional genre, period, national, or disciplinary boundaries. Readings in criticism; required research paper.

ENGL 450: Seminar in Literary Genres  
(3-0) Cr. 3. Repeatable, maximum of 6 credits.  
**Prereq:** Completion of 9 credits of surveys; junior classification  
Intensive study of drama, film, fiction, poetry, or prose. Selected movements, eras, or national traditions. Readings in criticism; required research paper.

ENGL 460: Seminar in Gender and Ethnicity  
(Cross-listed with WGS). (3-0) Cr. 3. Repeatable, maximum of 6 credits.  
**Prereq:** Completion of 9 credits of surveys; junior classification  
Selected readings of various authors, movements, eras, or genres. Readings in criticism; required research paper.

ENGL 477: Seminar in Technical Communication  
(3-0) Cr. 3. Repeatable, maximum of 6 credits.  
**Prereq:** ENGL 302, ENGL 309, or ENGL 314  
Intensive study of a selected topic that bridges theory and practice in technical communication. Required project that contributes to the understanding of an emerging issue in the profession.

ENGL 487: Internship in Business, Technical, and Professional Communication  
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.  
**Prereq:** 9 credits in ENGL 302, ENGL 309, ENGL 313, ENGL 314, ENGL 415 (preferred), ENGL 416, or ENGL 477; junior classification; and permission of coordinator  
An opportunity to write, edit, and design business and technical documents in a professional setting. Projects might include reports, proposals, manuals, brochures, newsletters.

ENGL 490: Independent Study  
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.  
**Prereq:** 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee  
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490A: Independent Study: Literature  
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.  
**Prereq:** 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee  
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490B: Independent Study: Linguistics  
(Cross-listed with LING). Cr. arr. Repeatable, maximum of 9 credits. F.S.  
**Prereq:** 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee or Linguistics Adviser  
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.
ENGL 490C: Independent Study: Rhetoric, Teaching of Composition
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490D: Independent Study: Criticism and Theory of Literature
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490E: Independent Study: Instructional Methods and Research
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490F: Independent Study: Creative Writing
Cr. arr. Repeatable, maximum of 9 credits. F.S.
Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490G: Independent Study: Business/Technical Communication
Cr. arr. Repeatable, maximum of 9 credits. F.S.
Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 490H: Independent Study: Honors
Cr. arr. Repeatable, maximum of 9 credits. F.S.
Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of ENGL 490 may be used toward graduation.

ENGL 492: Undergraduate Teaching Experience
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee
Teaching assistant experience.

ENGL 493: Advanced Creative Writing Workshop—Multi-Genre
Cr. 3. Repeatable, maximum of 6 credits. F.S.
Prereq: ENGL 304, ENGL 305, or ENGL 306 and junior standing
Advanced workshop of individual creative writing projects in short fiction, nonfiction, and poetry. Readings and discussion of published examples of short fiction, nonfiction, and poetry by authors of national and international note. Extensive discussion and written analysis of elements of craft across genres.

ENGL 494: Practice and Theory of Teaching Literature in the Secondary Schools
(Cross-listed with CI). (3-0) Cr. 3. F.S.
Prereq: ENGL 310, ENGL 397, 9 other credits in English beyond ENGL 250, PSYCH 333, admission to teacher education program

ENGL 497: Capstone Assessment
Cr. 1. F.S.
Prereq: Junior status
Must be taken in conjunction with a 400-level English course.

Courses primarily for graduate students, open to qualified undergraduates:

ENGL 500: Teaching Multimodal Composition
(3-0) Cr. 3. F.
Prereq: Graduate classification; must be teaching Engl 150 or Engl 250 concurrently
Required of all new English Department teaching assistants teaching ISUComm Foundation Courses. Introduction to the teaching of ISUComm Foundation Courses. Foundational and relevant newer composition theory and pedagogical methods related to ISUComm Foundation Courses objectives and their classroom enactment, including development of assignments and supporting activities, and evaluation of student projects.
ENGL 501: Introduction to Research in Rhetoric, Composition, and Professional Communication
(3-0) Cr. 3.
Prereq: 6 graduate credits in English
Survey of the major rhetorical, qualitative, and quantitative methods used in research on communication and language in academic and nonacademic settings.

ENGL 503: Composition Theory
(3-0) Cr. 3.
Prereq: 6 graduate credits in English
In-depth consideration of the theory and practice of composition pedagogy. Opportunities for actual classroom application.

ENGL 504: Teaching Advanced Communication
(3-0) Cr. 3. F.
Prereq: Graduate classification
Teaching business and technical communication in university, community college, and industry settings. Emphasizes curriculum planning, materials development, assignment design, responding to student work, assessment of student work, and distance (online) teaching.

ENGL 505: User Experience Architecture and Testing for Advanced Communication
(3-0) Cr. 3.
Prereq: Graduate classification
Seminar course examining user experience (UX) interface design and development in technical communication. Focus is on the UX project cycle: creating userfaces, conducting user research, system testing, and implementing data-driven results.

ENGL 506: Professional Communication Theory
(3-0) Cr. 3.
Prereq: Admission to English Department graduate degree program
Introduction to professional communication as a discipline, with emphasis on theories of communication and discourse that inform professional communication research and on trends and developments in that research and the field.

ENGL 508: Writing for Academic Publication
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: 6 graduate credits
Hands-on practice in writing academic discourse for publication; rhetorical analyses of student-selected academic journals; discussion of current trends in academic writing; professional perspectives on the referee process and on journal editorial decision making. Focus on the writing of selected short pieces (opinion essays, standard reviews, conference-length papers) and of article-length manuscripts.

ENGL 510: Introduction to Computers in Applied Linguistics
(Cross-listed with LING). (3-0) Cr. 3. F.
Prereq: Graduate classification
Use of software and web applications for language teaching, linguistic analysis, and statistical analysis. Issues and problems in applied linguistics related to computer methods.

ENGL 511: Introduction to Linguistic Analysis
(Cross-listed with LING). (3-0) Cr. 3. F.
Prereq: Graduate classification
Principles and methods of linguistic analysis with emphasis on phonology, morphology, and syntax. Description of linguistic variation and current theoretical approaches to linguistics.

ENGL 512: Second Language Acquisition
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theory, methods, and results of second language acquisition research with emphasis on approaches relevant to second language teaching.

ENGL 513: Language Assessment Practicum
(Cross-listed with LING). (3-0) Cr. 3. F.S.S.
Prereq: ENGL 519 or LING 519
Advanced practicum in language assessment.

ENGL 514: Sociolinguistics
(Cross-listed with LING). (3-0) Cr. 3. S.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theories and methods of examining language in its social setting. Analysis of individual characteristics (e.g., age, gender, ethnicity, social class, region), interactional factors (e.g., situation, topic, purpose) and national policies affecting language use.

ENGL 515: Statistical Natural Language Processing
(Cross-listed with HCI, LING). (3-0) Cr. 3.
Prereq: STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL 511 or LING 511
Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.
ENGL 516: Methods of Formal Linguistic Analysis
Cr. 3. Alt. S., offered even-numbered years.
Prereq: ENGL/LING 219 or equivalent.
Data and knowledge structures for formal representation of natural language and speech data. Designing and implementing algorithms for automating linguistic analysis tasks. Conceptual issues for natural language and speech processing programming.

ENGL 518: Teaching English as a Second Language Methods and Materials
(Cross-listed with LING). (3-0) Cr. 3. F.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Introduction to approaches, methods, techniques, materials, curricular design, and assessment for various levels of ESL instruction. Attention to issues related to the teaching of listening, speaking, reading, writing, vocabulary, pronunciation, and culture.

ENGL 519: Second Language Assessment
(Cross-listed with LING). (3-0) Cr. 3. S.
Prereq: ENGL 511 or LING 511
Principles of second language assessment including reliability, validity, authenticity and practicality. Constructing, scoring, interpreting, and evaluating second language tests for a variety of situations.

ENGL 520: Computational Analysis of English
(Cross-listed with HCI, LING). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: ENGL 510 or LING 510, and ENGL 511 or LING 511
Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

ENGL 521: Teaching of Literature and the Literature Curriculum
(3-0) Cr. 3.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Examination of the roles of the literary work, reader, and teacher in literary study. Responses to literature. Place of literature in language arts. Study and development of curriculum materials for middle school, high school, and college levels of instruction.

ENGL 522: Literary Theory and Criticism
(3-0) Cr. 3.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Examination of the history, logic, and rhetoric of contemporary literary criticism and analysis.

ENGL 523: Introduction to Old English Language and Literature
(3-0) Cr. 3.
Prereq: Course in medieval literature or history or history of the English language recommended
Introductory study of Old English language and literature in prose and poetry, including extracts from Beowulf. Some attention to Anglo-Saxon culture.

ENGL 524: Literacy: Issues and Methods for Nonnative Speakers of English
(Cross-listed with LING). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theoretical and practical issues and techniques in the teaching of literacy in a variety of contexts, involving children and adults at basic skill levels and teens and adults in academic and vocational programs.

ENGL 525: Research and Teaching of Second Language Pronunciation
(Cross-listed with LING). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theoretical and practical issues and techniques in the teaching of second language pronunciation as it relates to other areas of language, especially listening and speaking skills. Topics will include segmental and suprasegmental features; intelligibility; pronunciation in language assessment; classroom, technology and individual instruction; and research issues. Topics will be relevant to those intending to teach or research in various contexts.

ENGL 526: Computer-Assisted Language Learning
(Cross-listed with LING). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: ENGL 511 or LING 511 or equivalent
Theory, research, and practice in computer use for teaching nonnative speakers of English. Methods for planning and evaluating computer-based learning activities.

ENGL 527: Discourse Analysis
(Cross-listed with LING). (3-0) Cr. 3. S.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Methods and theoretical foundations for linguistic approaches to discourse analysis. Applications of discourse analysis to the study of texts in a variety of settings, including academic and research contexts.

ENGL 528: English for Specific Purposes
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Issues and techniques in analyzing, teaching, and assessing English for specific purposes. Topics include theories of specific purpose language use, analysis of learner needs in target language contexts, and corpus-informed syllabus and materials development for teaching and assessment.
ENGL 529: Content Management
(3-0) Cr. 3.
Prereq: ENGL 313
Strategies for developing and delivering multimodal content via digital media. Focus on the principles of database design, interface development, usability testing, and collaborative content management within professional communication settings.

ENGL 530: Technology and Oral Language
(Cross-listed with LING). Cr. 3. F.
Prereq: ENGL 219 or ENGL 511 or equivalent.
Structure and description of oral language and discourse. How spoken language is linguistically described, analyzed, and taught for research and for education. Using technology to record, transcribe, and analyze spoken language at all levels of linguistic structure.

ENGL 531: Topics in the Study of Literature
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Intensive study of literary genres, periods, movements, or themes; e.g., Literature and Historicism, Narrating the Feminine, Allegory.

ENGL 532: American Literature to 1865
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Selected texts in American literature from Beginnings to the Civil War. Study may include Native American literature, the literature of European conquest, Colonial and Revolutionary periods, Early Republic, and Jacksonian Era, in critical and cultural contexts.

ENGL 533: British Literature to 1830
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Selected texts from the Medieval, Renaissance, Restoration, Eighteenth-Century, and/or Romantic periods, in critical and cultural contexts.

ENGL 534: American Literature 1865 to the Present
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Selected texts in American literature from the Civil War to the present. Study may include Realism, Naturalism, Modernism, and Postmodernism, with significant attention to race/ethnicity, gender, and identity, and to contemporary critical views. Range of authors and genres.

ENGL 535: British Literature 1830 to the Present
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Selected texts from the Victorian, Edwardian, Modernist, and/or Contemporary periods, in critical and cultural contexts.

ENGL 536: Middle-age and Renaissance Literature
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification
Intensive study of middle-age and Renaissance literary genres, periods, figures, movements, or themes; e.g., Neo-Romanticism, Imagining the Natural World, Material Ecocriticism, Environmental Justice, Posthumanism.

ENGL 537: Corpus Approaches to Grammatical Analysis
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: ENGL 220 or LING 220; ENGL 219, LING 219, ENGL 511, LING 511, or introductory course in linguistics; graduate classification
Corpus-informed analysis of syntax in authentic writing and speech, with emphasis on approaches used in applied linguistics.

ENGL 538: Fiction
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Selected fiction writers in English; range of authors and genres. Emphasis on both male and female writers; attention to the relationships between fiction and cultural change.

ENGL 539: Poetry
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Selected poets writing in English, considered in representative groups.

ENGL 540: Drama
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Primary texts in dramatic genres from various literary periods, in critical and cultural contexts. Frequently concentrates on the English Renaissance and the Shakespearean stage.

ENGL 541: Autobiography, Biography, Memoir
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Study of lifewriting, e.g., autobiography, biography, memoir, cross-genre writing, autobiographical criticism. Readings may be arranged by period, nationality, or subgenre (e.g., autobiography of childhood experience, celebrity auto/biography).

ENGL 542: Document Design and Editing
(3-0) Cr. 3.
Prereq: Senior classification
Overview of the principles of desktop publishing as practiced in the field of technical communication. Focus on theories of print document design and project management, as well as digital prepress techniques employed to produce documents using external print services. Requires extensive use of current desktop publishing software.

ENGL 543: The Study of Environmental Literature
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification
Intensive study of environmental literary genres, periods, figures, movements, or themes: e.g., Ecofeminism, Imagining Natural Disaster, Material Ecocriticism, Environmental Justice, Posthumanism.
ENGL 545: Women's Literature
(Cross-listed with WGS). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Primary texts by women writers; historical, thematic, formal, or
theoretical approaches; secondary readings; e.g., Nineteenth-Century
Women Writers; American Women's Personal Narratives; Southern
Women Writers of the U.S.

ENGL 546: Issues in the Study of Literature
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Graduate classification or 6 credits in literature at 300 level or above
Intensive study of current and emerging topics and problems concerning
literature and its relationship to theory and to language study; e.g.,
Theory of Metaphor; Renegotiating the Canon; Feminist Theory.

ENGL 547: The History of Rhetorical Theory I: From Plato to Bacon
(Cross-listed with SP CM). (3-0) Cr. 3.
Prereq: 6 credits in English
Rhetorical theory from the classical period of ancient Greece and Rome
through the Middle Ages to the early Renaissance; attention to its relation
to the nature of knowledge, communication, practice, and pedagogy.

ENGL 548: The History of Rhetorical Theory II: From Bacon to the Present
(Cross-listed with SP CM). (3-0) Cr. 3.
Prereq: 6 credits in English
Rhetorical theory from the early modern period (Bacon, Descartes, and
Locke) to the present; attention to its relation to the nature of knowledge,
communication practice, and pedagogy.

ENGL 549: Multimedia and Interaction Design
(3-0) Cr. 3.
Prereq: Senior classification
Rhetorical principles of interactive multimedia design, such as those
in DVDs, Blu-Ray videos, and streaming web multimedia. Practical
understanding of computer applications used in interactive multimedia
development. Focus on theoretical and practical elements of producing
multimedia training in both education and industry. Work with interactive
hypertext, digital audio, and nonlinear video editing.

ENGL 550: Creative Writing: Craft and Professional Practice
(3-0) Cr. 3. F.
Prereq: Admission into MFA Program in Creative Writing and Environment
A multigenre craft course required of all incoming students in the MFA
Program in Creative Writing and Environment. Students develop an
understanding of craft and environmental writing across genres (poetry,
fiction, nonfiction) as well as learn about editing and publication practice
through the lens of a working literary journal, "Flyway: A Journal of Writing
and Environment." Other course activities include presentations on
the production practices of leading literary journals, individual editing
projects, pragmatic tips for finding publication outlets for polished
creative work, and a field trip to publishing houses.

ENGL 551: Master Workshop
(3-0) Cr. 3. F.
Prereq: Fifth-semester or equivalent standing in the Creative Writing and
Environment MFA program
An advanced multigenre creative writing workshop. Students work
intensively on book-length manuscripts of fiction, creative nonfiction,
scriptwriting, or poetry.

ENGL 554: Workshop: Fiction
(3-0) Cr. 3. Repeatable, maximum of 12 credits.
Prereq: ENGL 550 and graduate classification. Open to graduate students
outside MFA in Creative Writing and Environment with permission of
instructor
Individual projects in fiction on a workshop and conference basis.
Readings in short fiction. Discussion of elements of narrative such as
plot, point of view, characterization, theme, setting.

ENGL 555: Workshop: Nonfiction
Cr. arr. Repeatable, maximum of 12 credits.
Prereq: ENGL 550 and graduate classification. Open to graduate students
outside MFA in Creative Writing and Environment with permission of
instructor
Individual projects in memoir, immersion journalism, character studies,
and/or the personal essay on a workshop and conference basis.
Readings in creative nonfiction.

ENGL 556: Workshop: Poetry
(3-0) Cr. 3. Repeatable, maximum of 12 credits.
Prereq: ENGL 550 and graduate classification. Open to graduate students
outside MFA in Creative Writing and Environment with permission of
instructor
Individual projects in poetry on a workshop and conference basis.
Readings in poetry. Discussion of poetic elements such as image, sound,
internal structure, rhythm, tone, figurative language.
**ENGL 557: Studies in Creative Writing**  
(3-0) Cr. 3. Repeatable, maximum of 12 credits.  
*Prereq: Graduate classification. Open to graduate students outside MFA in Creative Writing and Environment with permission of instructor.*  
Special topics course on ideas, issues, and techniques in creative writing. Subject matter may include specific genres, aspects of the creative writing process, or themes of particular interest. Significant readings and written work required; previous workshop experience helpful.

**ENGL 558: Teaching Creative Writing**  
(3-0) Cr. 3.  
*Prereq: Graduate classification*  
Pedagogical approaches that are effective for grade-school through adult-education creative writing teaching. Writing exercises, workshops, text evaluation, and visits from creative writers.

**ENGL 559: Creative Writing Teaching Internship**  
Cr. 1-3. Repeatable.  
*Prereq: Permission of participating instructors*  
Students assist in an introductory creative writing class. Some supervised teaching but mainly evaluation of submissions and individual conferences. Requirements and grades determined by participating instructors.

**ENGL 560: Environmental Field Experience**  
(3-0) Cr. 3. Repeatable, maximum of 6 credits.  
*Prereq: ENGL 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment with permission of instructor*  
Students spend a term on a project that requires fieldwork. Projects might include working for a federal, state, or private non-profit environmental organization or farm, or living and working in a specified natural area.

**ENGL 561: Methods for Scholarship in Literature and the Humanities**  
Cr. 3.  
*Prereq: Graduate classification or permission from the instructor*  
Intensive study of research methods and perspectives concerning the study of literature and the humanities at the master’s level. Introduction to resources and techniques of research, the structure of academic articles, and strategies for argument in academic communication.

**ENGL 586: Visual Rhetoric in Professional Communication**  
(3-0) Cr. 3.  
*Prereq: A course in professional communication*  
Rhetorical theory and research in graphics, document design, and related principles of visual communication. Methods of designing texts, data displays, illustrations, and other visual elements in business and technical communication.

**ENGL 587: Internship in Business, Technical, and Professional Communication**  
(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.  
*Prereq: ENGL 507 plus 3 additional graduate credits in business and technical writing or composition and rhetoric, permission of instructor. Limited to master's and doctoral degree candidates in the field of rhetoric and professional communication*  
An opportunity to write, edit, and design business and technical documents in a professional setting.

**ENGL 588: Supervised Practice Teaching in Teaching English as a Second Language**  
(Cross-listed with LING). (1-5) Cr. 3. F.S.S.S.  
*Prereq: ENGL 507 plus 3 additional graduate credits in business and technical writing or composition and rhetoric, permission of instructor. Limited to master's and doctoral degree candidates in the field of rhetoric and professional communication*  
An opportunity to write, edit, and design business and technical documents in a professional setting.

**ENGL 589: Supervised Practicum in Literary Editing**  
(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.  
*Prereq: ENGL 550 and permission of instructor*  
An opportunity to edit literary texts and gain experience in a literary publishing setting.

**ENGL 590: Special Topics**  
(Cross-listed with LING). Cr. arr. Repeatable.  
*Prereq: Permission of the Director of Graduate Education according to guidelines available online*  

**ENGL 590A: Special Topics: Literature**  
Cr. arr. Repeatable.  
*Prereq: Permission of the Director of Graduate Education according to guidelines available online*  

**ENGL 590B: Special Topics: Teaching English as a Second Language (TESL)/Applied Linguistics**  
(Cross-listed with LING). Cr. arr. Repeatable.  
*Prereq: Permission of the Director of Graduate Education according to guidelines available online*  

**ENGL 590C: Special Topics: Composition and Rhetoric**  
Cr. arr. Repeatable.  
*Prereq: Permission of the Director of Graduate Education according to guidelines available online*
ENGL 590E: Special Topics: Rhetoric and Professional Communication
Cr. arr. Repeatable.
Prereq: Permission of the Director of Graduate Education according to guidelines available online

ENGL 590F: Special Topics: Creative Writing
Cr. arr. Repeatable.
Prereq: Permission of the Director of Graduate Education according to guidelines available online

ENGL 590G: Special Topics: Applied Linguistics and Technology
(Cross-listed with LING). Cr. arr. Repeatable.
Prereq: Permission of the Director of Graduate Education according to guidelines available online

ENGL 591: Directed Readings
Cr. arr. Repeatable.

ENGL 591A: Directed Readings: Literature
Cr. arr. Repeatable.

ENGL 591B: Directed Readings: Teaching English as a Second Language (TESL)/Applied Linguistics
(Cross-listed with LING). Cr. arr. Repeatable.

ENGL 591C: Directed Readings: Composition and Rhetoric
Cr. arr. Repeatable.

ENGL 591E: Directed Readings: Rhetoric and Professional Communication
Cr. arr. Repeatable.

ENGL 591F: Directed Readings: Creative Writing
Cr. arr. Repeatable.

ENGL 591G: Directed Readings: Applied Linguistics and Technology
(Cross-listed with LING). Cr. arr. Repeatable.

ENGL 592: Core Studies in Rhetoric, Composition, and Professional Communication
(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

ENGL 592A: Core Studies: Rhetoric
(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

ENGL 592B: Core Studies: Composition
(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

ENGL 592C: Core Studies: Professional Communication
(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

ENGL 595: Graduate Study and Travel
Cr. arr.
Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595A: Graduate Study and Travel: Literature
Cr. arr.
Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595B: Graduate Study and Travel: Creative Writing
Cr. arr.
Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595C: Graduate Study and Travel: Linguistics
Cr. arr.
Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595D: Graduate Study and Travel: Rhetoric and Professional Communication
Cr. arr.
Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

ENGL 595E: Graduate Study and Travel: Teacher Education
Cr. arr.
Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.
ENGL 599: Creative Component
Cr. 3. F.S.SS.
Prereq: Graduate classification, permission of major professor

Courses for graduate students:

ENGL 602: Research Methods in Rhetoric, Composition, and Professional Communication
(3-0) Cr. 3. S.
Prereq: ENGL 501
A workshop for advanced graduate students in rhetoric and professional communication. Focus on rhetorical analysis, qualitative methods, or quantitative methods.

ENGL 602A: Research Methods in Rhetoric, Composition, and Professional Communication: Qualitative Research
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: ENGL 501
A workshop for advanced graduate students in rhetoric and professional communication.

ENGL 602B: Research Methods in Rhetoric, Composition, and Professional Communication: Quantitative Research
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: ENGL 501
A workshop for advanced graduate students in rhetoric and professional communication.

ENGL 602C: Research Methods in Rhetoric, Composition, and Professional Communication: Rhetorical Analysis
(3-0) Cr. 3.
Prereq: ENGL 501
Extended practice in close textual analysis of various kinds of rhetorical artifacts. Attention to important theoretical concepts used in rhetorical analysis and to historical controversies over the scope and function of rhetorical analysis.

ENGL 603: Seminar in Composition Theory
(3-0) Cr. 3.
Prereq: ENGL 503
Exploration of relationships between theory and practice in current pedagogy. Intensive examination of contemporary theories of poststructuralism, new media, feminism, postcolonialism, or cultural studies and their impact on current pedagogical practice. Participation in pedagogical research and theory building.

ENGL 611: Seminar in Rhetorical Theory
(3-0) Cr. 3. Repeatable.
Prereq: ENGL 547 or ENGL 548
Rhetorical theory, criticism, and/or practice in relation to an historical period or a particular theoretical issue.

ENGL 623: Research Methods in Applied Linguistics
(Cross-listed with LING). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: ENGL 511 or LING 511, ENGL 517 or LING 517, ENGL 519 or LING 519
Survey of research traditions in applied linguistics. Focus on theoretical and practical aspects of quantitative and qualitative approaches to applied linguistic study, including experimental and quasi-experimental methods, classroom observation and research, introspective methods, elicitation techniques, case studies, interactional analysis, ethnography, and program evaluation. Computational tools and resources for linguistic research will be highlighted.

ENGL 626: Computer-Assisted Language Testing
(Cross-listed with LING). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511, ENGL 519 or LING 519
Principles and practice for the use and study of computers and the Internet in second language assessment.

ENGL 630: Seminar in Applied Linguistics
(Cross-listed with LING). (3-0) Cr. 3. Repeatable.
Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511
Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feedback in CALL programs, technology and pronunciation, and advances in language assessment.

ENGL 631: Administration and Organization of Multimodal Writing Programs
(3-0) Cr. 3.
Prereq: ENGL 500, ENGL 503, ENGL 504, or ENGL 603
Survey of the major components of writing instruction in academic and nonacademic settings. History, theory, organization, and evaluation of writing programs. Guided observation of writing program functions at various institutions and businesses.

ENGL 688: Practicum in Technology and Applied Linguistics
(Cross-listed with LING). (1-5) Cr. 3. F.S.SS.
Prereq: ENGL 510 or LING 510, ENGL 626 or LING 626, or equivalent; at least 2nd year PhD student in Applied Linguistics and Technology
Focus on integrating theoretical knowledge with practical expertise. Assess client needs; develop, integrate, and evaluate solutions. Practical understanding of computer applications used in multimedia development. Create web-based or CD-ROM-based multimedia materials. Work with advanced authoring applications.

ENGL 699: Research
Cr. arr. Repeatable. F.S.SS.
Prereq: Graduate classification, permission of major professor
Research.

Entomology (ENT)
Courses primarily for undergraduates:

**ENT 201: Introduction to Insects**
(1-0) Cr. 1. F.S.SS.
5 weeks. Classroom section spring only. World Wide Web section of course offered summer and fall semesters. Biological and ecological aspects of insects.

**ENT 211: Insects and Society**
(2-0) Cr. 2. F.S.
Prereq: ENT 201

**ENT 214: Insects in Forensic Science**
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: none
Introduction to the use of insects as evidence in court and how they can assist in solving crimes. Topics covered include basic insect biology, systematics, behavior, with emphasis on applications of forensic entomology.

**ENT 220: Introduction to Forensic Science**
(Cross-listed with CJ ST). (3-0) Cr. 3. S.
Prereq: none
Study of fundamental forensic science techniques and procedures covering types of physical, chemical, and biological evidence and how this information is used in the legal system. Assessment of crime scenes and various forensic specialties will be introduced.

**ENT 283: Pesticide Application Certification**
(Cross-listed with AGRON, FOR, HORT). (2-0) Cr. 2. S.
Core background and specialty topics in agricultural, and horticultural pesticide applicator certification. Students can select certification categories and have the opportunity to obtain pesticide applicator certification at the completion of the course. Commercial pesticide applicator certification is emphasized.

**ENT 370: Insect Biology**
(2-3) Cr. 3. F.
Prereq: BIOL 101 or BIOL 211

**ENT 371: Introduction to Insect Ecology**
(Cross-listed with IA LL). (3-3) Cr. 4. Alt. SS., offered odd-numbered years.
Field and laboratory study of insects, their diversity, life history; emphasis on ecology and behavior.

**ENT 372: Livestock Entomology**
(2-0) Cr. 2. Alt. S., offered odd-numbered years.
Classroom and off-campus videotape sections. 12 weeks. Recognition, biology, behavior, economic importance, and management of insects and other arthropods affecting livestock and poultry production.

**ENT 374: Insects and Our Health**
(Cross-listed with MICRO). (3-0) Cr. 3. S.
Prereq: 3 credits in biological sciences
Identification, biology, and significance of insects and arthropods that affect the health of humans and animals, particularly those that are vectors of disease.
Meets International Perspectives Requirement.

**ENT 374L: Insects and Our Health Laboratory**
(Cross-listed with MICRO). (0-3) Cr. 1. Alt. S., offered even-numbered years.
Prereq: Credit or enrollment in ENT 374
Laboratory and field techniques for studying medical or public health entomology, including: collection, identification and maintenance of medically significant arthropods and experimental design and execution related to the biology of arthropods or arthropod-pathogen interactions.

**ENT 375: Plant Protection Using Natural Enemies**
(Dual-listed with ENT 575). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: ENT 370 or ENT 376
Overview of the biology, ecology, and classification of insect pathogens, predators, and parasitoids. Discussion of the use of these organisms in plant protection, including an emphasis on genetic alteration of natural enemies.

**ENT 376: Fundamentals of Entomology and Pest Management**
(2-3) Cr. 3. S.
Prereq: BIOL 101 or BIOL 211
Introduction to entomology and insect-pest management, including life processes, ecology, economics, tactics of population suppression, and ecological backlash.

**ENT 410: Insect-Virus Interactions: a Molecular Perspective**
(Dual-listed with ENT 510). (Cross-listed with MICRO). (2-0) Cr. 2. Alt. F., offered odd-numbered years.
Prereq: Permission of an instructor
Overview of insect-virus interactions including insect immunity to viruses, genetic enhancement of viral insecticides, transgenic mosquitoes, disruption of virus transmission, and the role of insect and virus genomics in combating viral disease of both human and agricultural importance.
ENT 425: Aquatic Insects
(Dual-listed with ENT 525). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: BIOL 312 or equivalent
Morphology, ecology, diversity, and significance of aquatic insects, with emphasis on the collection, curation and identification of taxa in local streams and lakes.

ENT 450: Pesticides in the Environment
(Dual-listed with ENT 550). (2-0) Cr. 2. S.
Prereq: 9 credits of biological sciences
Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere.

ENT 452: Integrated Management of Diseases and Insect Pests of Turfgrasses
(Dual-listed with ENT 552). (Cross-listed with HORT, PL P). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: HORT 351
Identification and biology of important diseases and insect pests of turfgrasses. Development of integrated pest management programs in various turfgrass environments.

ENT 466: Ecosystem Service Management
(Dual-listed with ENT 566). (Cross-listed with ENSCI, NREM). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: permission of instructor
Land use and conservation techniques for improving ecosystem services including: pollination of crops, biological control of pests, prevention of erosion and water quality improvement.

ENT 471: Insect Ecology
(Dual-listed with ENT 571). (2-3) Cr. 3. Alt. F., offered even-numbered years.
Prereq: 9 credits biological sciences
The contribution of insects to ecosystem function is staggering. This course will focus on insect population ecology, predator-prey interaction and chemical ecology. The role of insects in nutrient cycling, pollination and pest management will be discussed with case studies used to highlight the applied nature of insect ecology and its relationship to agriculture.

ENT 490: Independent Study
Cr. 1-3. Repeatable, maximum of 9 credits.
Prereq: 15 credits in biological sciences, junior or senior classification
A maximum of 9 credits of all (university-wide) 490 credits may be applied toward graduation.

ENT 490E: Independent Study: Research or work experience.
Cr. 1-3. Repeatable, maximum of 9 credits.
Prereq: 15 credits in biological sciences, junior or senior classification
A maximum of 9 of all (university-wide) 490 credits may be used toward graduation.

ENT 490U: Independent Study: Laboratory teaching experience
Cr. 1-3. Repeatable, maximum of 9 credits.
Prereq: 15 credits in biological sciences, junior or senior classification. For students registering to be undergraduate laboratory assistants.
A maximum of 9 of all (university-wide) 490 credits may be used toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

ENT 510: Insect-Virus Interactions: a Molecular Perspective
(Dual-listed with ENT 410). (Cross-listed with MICRO). (2-0) Cr. 2. Alt. F., offered odd-numbered years.
Prereq: Permission of an instructor.
Overview of insect-virus interactions including insect immunity to viruses, genetic enhancement of viral insecticides, transgenic mosquitoes, disruption of virus transmission, and the role of insect and virus genomics in combating viral disease of both human and agricultural importance.

ENT 511: Integrated Management of Tropical Crops
(Cross-listed with HORT, PL P). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: PL P 408 or PL P 416 or ENT 370 or ENT 376 or HORT 221
Applications of Integrated Crop Management principles (including plant pathology, entomology, and horticulture) to tropical cropping systems. Familiarization with a variety of tropical agroecosystems and Costa Rican culture is followed by a 10-day tour of Costa Rican agriculture during spring break, then writeup of individual projects.
Meets International Perspectives Requirement.

ENT 525: Aquatic Insects
(Dual-listed with ENT 425). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: BIOL 312 or equivalent
Morphology, ecology, diversity, and significance of aquatic insects, with emphasis on the collection, curation and identification of taxa in local streams and lakes.

ENT 530: Ecologically Based Pest Management Strategies
(Cross-listed with AGRON, PL P, SUSAG). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Durable, least-toxic strategies for managing weeds, pathogens, and insect pests, with emphasis on underlying ecological processes.
ENT 550: Pesticides in the Environment
(Dual-listed with ENT 450). (Cross-listed with TOX). (2-0) Cr. 2. S.
*Prereq: 9 credits of biological sciences
Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere.

ENT 552: Integrated Management of Diseases and Insect Pests of Turfgrasses
(Dual-listed with ENT 452). (Cross-listed with HORT, PL P). (3-0) Cr. 3. Alt. S., offered even-numbered years.
*Prereq: HORT 351
Identification and biology of important diseases and insect pests of turfgrasses. Development of integrated pest management programs in various turfgrass environments.

ENT 555: Insect Physiology
(3-3) Cr. 4. Alt. S., offered even-numbered years.
*Prereq: ENT 370
Life processes of the insects, including reviews of current problems in insect physiology.

ENT 566: Ecosystem Service Management
(Dual-listed with ENT 466). (Cross-listed with ENSCI, NREM). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
*Prereq: permission of instructor
Land use and conservation techniques for improving ecosystem services including: pollination of crops, biological control of pests, prevention of erosion and water quality improvement.

ENT 568: Advanced Systematics
(Cross-listed with EEOB). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
*Prereq: Permission of instructor
Principles and practice of systematic biology; taxonomy, nomenclature and classification of plants and animals; sources and interpretation of systematic data; speciation; fundamentals of phylogenetic systematics.

ENT 570: Plant-Insect Interaction
(2-0) Cr. 2. Alt. F., offered odd-numbered years.
*Prereq: 9 credits in biological sciences
Physiological, behavioral, ecological, and evolutionary factors that govern interactions between insects and plants, applications of this knowledge to agriculture, and important results from the study of natural systems. Additional topics covered during the semester include: tritrophic interactions, biological control of plants by insects, and pollination biology. Student-led discussions and draws on both the primary and secondary literature.

ENT 571: Insect Ecology
(Dual-listed with ENT 471). (2-3) Cr. 3. Alt. F., offered even-numbered years.
*Prereq: 9 credits of biological sciences
The contribution of insects to ecosystem function is staggering. This course will focus on insect population ecology, predator-prey interaction and chemical ecology. The role of insects in nutrient cycling, pollination and pest management will be discussed with case studies used to highlight the applied nature of insect ecology and its relationship to agriculture.

ENT 574: Medical Entomology
(3-3) Cr. 4. Alt. S., offered even-numbered years.
*Prereq: 9 credits in biological sciences
Identification, biology, and significance of insects and other arthropods that attack people and animals, particularly those that are vectors of disease.

ENT 575: Plant Protection Using Natural Enemies
(Dual-listed with ENT 375). (3-0) Cr. 3. Alt. S., offered even-numbered years.
*Prereq: ENT 370 or ENT 376
Overview of the biology, ecology, and classification of insect pathogens, predators, and parasitoids. Discussion of the use of these organisms in plant protection, including an emphasis on genetic alteration of natural enemies.

ENT 576: Systematic Entomology
(3-6) Cr. 5. Alt. F., offered even-numbered years.
*Prereq: ENT 370
Classification, distribution, and natural history of insects, including fundamentals of phylogenetic systematics, biogeography, taxonomic procedures, and insect collection and curation.

ENT 578: Global Protozoology - Molecular Biology of Protozoa
(Dual-listed with ENT 478). (Cross-listed with V PTH). (2-1) Cr. 3. F.
*Prereq: Permission of instructor
Analysis of cellular systems, molecules, and organelles of pathogenic protozoan parasites. Emphasis is placed on processes and systems that are unique to protozoa, are important to understanding vector-parasite-host biology/ecology, or are targets of disease prevention/treatment programs for international disease control.

ENT 590: Special Topics
Cr. 1-3. Repeatable.
*Prereq: 15 credits in biological sciences.

ENT 590A: Special Topics: Biological Control and Pathology.
Cr. 1-3. Repeatable.
ENT 590B: Special Topics: Chemical Ecology and Behavior.
Cr. 1-3. Repeatable.

ENT 590C: Special Topics: Ecology and Pest Management.
Cr. 1-3. Repeatable.

ENT 590D: Special Topics: Evolution and Systematics.
Cr. 1-3. Repeatable.

ENT 590E: Special Topics: Special Research Topics.
Cr. 1-3. Repeatable.

ENT 590F: Special Topics: Medical and Veterinary Entomology.
Cr. 1-3. Repeatable.

ENT 590G: Special Topics: Molecular Entomology.
Cr. 1-3. Repeatable.

ENT 590H: Special Topics: Physiology and Biochemistry.
Cr. 1-3. Repeatable.

ENT 590I: Special Topics: Toxicology
Cr. 1-3. Repeatable.

ENT 590K: Special Topics: Teaching Experience.
Cr. 1-3. Repeatable.

ENT 590L: Special Topics: Extension Internship.
Cr. 1-3. Repeatable.

ENT 590M: Special Topics: Immature Insects.
Cr. 1-3. Repeatable.

Cr. 1-3. Repeatable.

**Entrepreneurship (ENTSP)**

Courses primarily for undergraduates:

(3-0) Cr. 3.
Prereq: MGMT 310; MGMT 313 or MGMT 320
Experiential learning through student-identified project. Students identify, propose and execute an experiential learning project that will be completed during the semester. The course provides application oriented learning of entrepreneurship. The course project must include a significant experiential learning activity, such as launching a venture or business, writing a business plan, or completing an internship in an entrepreneurial setting. Requires a field project.

ENTSP 485: Trends and Theories of Entrepreneurship
(3-0) Cr. 3. F.S.SS.
Prereq: MGMT 310; MGMT 313 or MGMT 320
A broad examination of historical, literary, and business perspectives on entrepreneurship. The entrepreneurial process is studied by examining the role of individuals, new ventures, and established organizations in the discovery, evaluation, and exploitation of economic opportunities. Emphasis is placed on tracing the evolution of entrepreneurship theories over time, as well as analyzing current trends related to the study of entrepreneurship.

**Environmental Science (ENSCI)**

Courses primarily for undergraduates:

ENSCI 110: Orientation to Environmental Science
(1-0) Cr. 1. F.
Prereq: Freshman classification in EnSci
Overview of Environmental Science curriculum and discussion of professional opportunities. Offered on a satisfactory-fail basis only.

ENSCI 201: Introduction to Environmental Issues
(Cross-listed with BIOL, ENV S). (2-0) Cr. 2. F.
Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

ENSCI 202: Exploration of Environmental and Sustainability Issues
(1-0) Cr. 1. F.
Prereq: Credit or enrollment in ENSCI 201
Exploration of specific environmental and sustainability issues; designed to complement ENSCI 201. Offered on a satisfactory-fail basis only.

ENSCI 203: Exploration of Environmental Science
(1-0) Cr. 1. S.
Prereq: ENSCI 202.
Continued exploration of specific environmental science issues developed in ENSCI 202. Topics may vary in different years. Offered on a satisfactory-fail basis only.
ENSCI 250: Environmental Geography  
(Cross-listed with ENV S). (3-0) Cr. 3. F.  
The distribution, origins and functions of the earth’s physical systems  
and the spatial relationship between human activity and the natural  
world.

ENSCI 251: Biological Processes in the Environment  
(Cross-listed with BIOL). (3-0) Cr. 3. S.  
Principles of Biology from the level of macromolecules to the biosphere.  
Biological processes that affect environmental systems: including  
metabolism, energy pathways, biochemical reactions in cells, plant  
and microbial structure and function, element and water cycles.

ENSCI 301: Natural Resource Ecology and Soils  
(Cross-listed with NREM). (3-3) Cr. 4. F.  
Prereq: BIOL 211, BIOL 211L; FOR 201 or a second course in biology  
Effects of environmental factors on ecosystem structure and function  
using forest, prairie and agricultural ecosystems as models. Special  
emphasis is given to soil-forming factors and the role of soil in nutrient  
and water cycling and ecosystem dynamics. Additional emphasis is given  
to human influences on natural ecosystems and the role of perennial  
plant communities in agricultural landscapes.

ENSCI 312: Ecology  
(Cross-listed with A ECL, BIOL). (3-3) Cr. 4. F.S.  
Prereq: BIOL 211, BIOL 211L, BIOL 212, and BIOL 212L  
Fundamental concepts and principles of ecology dealing with organisms,  
populations, communities, and ecosystems. Laboratory and field  
exercises examine ecological principles and methods as well as illustrate  
habitats.

ENSCI 312I: Ecology  
(Cross-listed with A ECL, IA LL). Cr. 4. SS.  
An introduction to the principles of ecology at the population, community  
and ecosystem level. Field studies of local lakes, wetlands and prairies  
are used to examine factors controlling distributions, interactions, and  
roles of plants and animals in native ecosystems.

ENSCI 324: Energy and the Environment  
(Cross-listed with ENV S, GEOL, MTEOR). (3-0) Cr. 3. S.  
Prereq: CHEM 163 or CHEM 177, MATH 140  
Exploration of the origin of Earth’s energy resources and the  
environmental and climatic impacts of energy acquisition and  
consumption. Renewable and non-renewable energy resources within  
an Earth-system context. Various environmentally-relevant topics  
such as water quality and availability, habitat destruction, greenhouse-gas  
emissions, and health and safety hazards to wildlife and human  
communities.

ENSCI 345: Natural Resource Photogrammetry and Geographic  
Information Systems  
(Cross-listed with NREM). (2-3) Cr. 3. S.  
Prereq: Junior classification  
Measurement and interpretation of aerial photos in resource  
management. Introduction to Geographic Information Systems (GIS)  
using ArcGIS including digitizing, development and query of attribute  
tables, georeferencing, and use of multiple GIS layers in simple spatial  
analyses.

ENSCI 360: Environmental Soil Science  
(Cross-listed with AGRON). (2-2) Cr. 3. S.  
Prereq: AGRON 182 (or equivalent) or ENSCI 250 or GEOL 201  
Application of soil science to contemporary environmental problems;  
comparison of the impacts that different management strategies have  
on short- and long-term environmental quality and land development.  
Emphasis on participatory learning activities.

ENSCI 370: GIS for Ecology and Environmental Science  
(Cross-listed with BIOL). Cr. 1-6. Repeatable. F.S.  
Prereq: Six credits in biological and/or physical sciences, and permission of  
instructor.  
Introduction to geographic information systems (GIS) with emphasis  
on ecological and environmental applications. No prior GIS experience  
required. Guided, individualized study of topics based on student  
background and interest. For students with prior experience, topics  
and activities are selected to build upon any previous experience  
and minimize duplication to previous GIS coursework. Potential  
topics include: basic concepts of GIS, data structures, database  
management, spatial analysis, modeling and visualization of ecological  
and environmental data. Case studies in ecological and environmental  
applications using ArcGIS. Offered on a satisfactory-fail basis only.

ENSCI 381: Environmental Systems I: Introduction to Environmental  
Systems  
(Dual-listed with ENSCI 581). (Cross-listed with BIOL, ENV S). Cr. 3-4. F.  
Prereq: 12 credits of natural science including biology and chemistry  
Introduction to the structure and function of natural environmental  
systems. Emphasis on the analysis of material and energy flows in  
natural environmental systems and the primary environmental factors  
controlling these systems.

ENSCI 382: Environmental Systems II: Analysis of Environmental  
Systems  
(Dual-listed with ENSCI 582). (Cross-listed with BIOL). (2-2) Cr. 3. S.  
Prereq: ENSCI 381  
Continuation of EnSci 381. Systems approach to the analysis of material  
and energy flows in natural environmental systems and the primary  
environmental factors controlling these systems.
ENSCI 384: Introduction to Ecosystems  
(3-0) Cr. 3. S.  
Prereq: 12 credits of natural science including biology and chemistry  
Biological and physical processes affecting material and energy flows in natural and managed ecosystems. Understanding and predicting climate and management impacts on ecosystem services and sustainability.

ENSCI 390: Internship in Environmental Science  
Cr. arr. Repeatable. F.S.S.S.  
Prereq: Approval of the Environmental Science coordinator  
Supervised off-campus work experience in the field of environmental science. Offered on a satisfactory-fail basis only.

ENSCI 391: Apprenticeship  
Cr. arr. Repeatable. F.S.S.S.  
Prereq: Approval of the Environmental Science Coordinator  
Practical experience in an approved setting such as a research laboratory, government office, or private office. Offered on a satisfactory-fail basis only.

ENSCI 402: Watershed Hydrology  
(Dual-listed with ENSCI 502). (Cross-listed with GEOL, MTEOR, NREM).  
(2-3) Cr. 3. F.  
Prereq: Four courses in physical or biological sciences or engineering; junior standing  
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

ENSCI 402I: Watershed Hydrology and Surficial Processes  
(Cross-listed with AGRON, IA LL). Cr. 4. SS.  
Prereq: Courses in ecology, chemistry, and physics  
Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.

ENSCI 403: Watershed Management  
(Dual-listed with ENSCI 503). (Cross-listed with ENV S, NREM). (3-3) Cr. 4. S.  
Prereq: A course in general biology  
Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

ENSCI 404: Global Change  
(Dual-listed with ENSCI 504). (Cross-listed with AGRON, MTEOR).  
(3-0) Cr. 3. S.  
Prereq: Four courses in physical or biological sciences or engineering; junior standing  
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.

ENSCI 405: Environmental Biophysics  
(Dual-listed with ENSCI 505). (Cross-listed with AGRON, MTEOR).  
(3-0) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language)  
Description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities.

ENSCI 406: World Climates  
(Cross-listed with AGRON, MTEOR).  
(3-0) Cr. 3. S.  
Prereq: AGRON 206/MTEOR 206  
Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Meets International Perspectives Requirement.

ENSCI 407: Watershed Management  
(Dual-listed with ENSCI 507). (Cross-listed with ENV S, NREM).  
(3-3) Cr. 4. S.  
Prereq: A course in general biology  
Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

ENSCI 408I: Aquatic Ecology  
(Dual-listed with ENSCI 508I ENSCI 408I). (Cross-listed with IA LL). Cr. 4. SS.  
Prereq: Courses in ecology, chemistry, and physics  
Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.

ENSCI 409: Field Methods in Hydrogeology  
(Dual-listed with ENSCI 509). (Cross-listed with GEOL). (0-4) Cr. 3. Alt. SS., offered even-numbered years.  
Prereq: GEOL/ENSCI 402 or GEOL/ENSCI 411 or CE 473  
Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.
ENSCI 411: Hydrogeology
(Dual-listed with ENSCI 511). (Cross-listed with GEOL). (3-2) Cr. 4. F.
Prereq: Four courses in biological or physical sciences
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

ENSCI 414: Applied Groundwater Flow Modeling
(Dual-listed with ENSCI 514). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: GEOL 411 or C E 473; MATH 165 or MATH 181
Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

ENSCI 415: Paleoclimate
(Dual-listed with ENSCI 515). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in biological or physical science
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods, utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years).

ENSCI 416: Hydrologic Modeling and Analysis
(Dual-listed with ENSCI 516). (Cross-listed with GEOL, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in Earth science, meteorology, or engineering; junior standing.
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

ENSCI 418: Stream Ecology
(Dual-listed with ENSCI 518). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: A ECL 486
Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

ENSCI 419: Aqueous and Environmental Geochemistry
(Dual-listed with ENSCI 519). (Cross-listed with GEOL). (2-2) Cr. 3. S.
Prereq: CHEM 178, CHEM 178L; junior classification
Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

ENSCI 420: Environmental Engineering Chemistry
(Dual-listed with ENSCI 520). (Cross-listed with C E). (2-3) Cr. 3. F.
Prereq: C E 326, CHEM 178
Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions, and mass transfer principles. Individual laboratory practicals and group projects required.

ENSCI 422I: Prairie Ecology
(Cross-listed with IA LL). Cr. 4. SS.
Prereq: Familiarity with basic principles in biological sciences and ecology
Basic patterns and underlying physical and biotic causes of both regional and local distributions of plants and animals of North American prairies; field and laboratory analyses and projects.

ENSCI 424: Air Pollution
(Dual-listed with ENSCI 524). (Cross-listed with A B E, C E). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 424A: Air Pollution: Air quality and effects of pollutants
(Dual-listed with ENSCI 524A). (Cross-listed with A B E, C E). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.
ENSCI 424B: Air Pollution: Climate change and causes  
(Dual-listed with ENSCI 524B). (Cross-listed with A B E, C E). (1-0) Cr. 1.  
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in  
statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D  
and E.

ENSCI 424C: Air Pollution: Transportation Air Quality  
(Dual-listed with ENSCI 524C). (Cross-listed with A B E, C E). (1-0) Cr. 1.  
Prereq: C E 524A; PHYS 221 or CHEM 178; MATH 166 or 3 credits in statistics.  
Senior classification or above.

ENSCI 424D: Air Pollution: Off-gas treatment technology  
(Dual-listed with ENSCI 524D). (Cross-listed with A B E, C E). (1-0) Cr. 1.  
Prereq: C E 524A, C E 524B; Either PHYS 221 or CHEM 178 and either MATH  
166 or 3 credits in statistics. Senior classification or above

ENSCI 424E: Air Pollution: Agricultural sources of pollution  
(Dual-listed with ENSCI 524E). (Cross-listed with A B E, C E). (1-0) Cr. 1.  
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics.  
Senior classification or above

ENSCI 426: Stable Isotopes in the Environment  
(Dual-listed with ENSCI 526). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. S.,  
offered even-numbered years.  
Prereq: Four courses in biological or physical science  
Introduction to the theory, methods and applications of stable isotopes.  
Primary focus on the origin, natural abundance, and fractionation of  
carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic  
occurrence for elucidation of physical, chemical, biological, and  
environmental processes. Effects of plant physiology, photosynthesis,  
trophic structure, diffusion, evaporation, chemical precipitation, soil  
and atmospheric processes, and environmental factors on isotope  
abundance.

ENSCI 437: Watershed Modeling and Policy  
(Dual-listed with ENSCI 537). (Cross-listed with A B E). (2-2) Cr. 3. Alt. F.,  
offered odd-numbered years.  
Prereq: CE 372 or equivalent  
A project-based course on watershed-scale models for improving water  
quality. Legislative and judicial basis of the Total Maximum Daily Load  
(TMDL) program; approaches to TMDL development; principles and  
techniques for implementation; stakeholder engagement strategies.  
Hands-on experiences with GIS-interfaced models, data sources,  
calibration/validation, statistical assessment of model results, and  
simulation using multiple tools. In addition to other assignments,  
graduate students will present case studies of TMDLs using different  
modeling tools.

ENSCI 446: Integrating GPS and GIS for Natural Resource Management  
(Dual-listed with ENSCI 546). (Cross-listed with NREM). (2-3) Cr. 3. F.  
Prereq: 12 credits in student’s major at 300 level or above, NREM 345 or  
equivalent experience with ArcGIS  
Emphasis on the use of GPS as a data collection tool for GIS. Basic  
theory of GPS. Use of Global Positioning System technology for spatial  
data collection and navigation. Post-processing and real-time correction  
of GPS data. GPS data transfer to GIS for mapping applications. Use of  
GIS to construct waypoints for use in GPS navigation.

ENSCI 451: Applied and Environmental Geophysics  
(Dual-listed with ENSCI 551). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S.,  
offered odd-numbered years.  
Prereq: GEOL 100 or GEOL 201, algebra and trigonometry  
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-  
penetrating radar techniques for shallow subsurface investigations  
and imaging. Data interpretation methods. Lab emphasizes computer  
interpretation packages. Field work with seismic - and resistivity-imaging  
systems and radar.

ENSCI 452: GIS for Geoscientists  
(Dual-listed with ENSCI 552). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3.  
F.S.  
Prereq: GEOL 100, GEOL 201 or equivalent  
Introduction to geographic information systems (GIS) with particular  
emphasis on geoscientific data. Uses ESRI’s ArcGIS Desktop Software  
and extension modules. Emphasizes typical GIS operations and analyses  
in the geosciences to prepare students for advanced GIS courses.

ENSCI 459: Environmental Soil and Water Chemistry  
(Dual-listed with ENSCI 559). (Cross-listed with GEO). (3-3) Cr. 4. F.  
Prereq: Two semesters of college-level chemistry, MATH 140, AGRON 182 (or  
equivalent) or AGRON 360; GEOL 100 and AGRON 354 recommended  
An introduction to the chemical properties of soils, chemical reactions  
and transformations in soils and surface waters, and their impact on  
the environment. Topics include solution chemistry in soils and surface  
waters, solid-phase composition of soils, reactions at the solid-solution  
interface, and applications to contemporary environmental issues.

ENSCI 461I: Introduction to GIS  
(Cross-listed with ENV S, IA LL, L A). Cr. 4. SS.  
Descriptive and predictive GIS modeling techniques, spatial statistics,  
and map algebra. Application of GIS modeling techniques to  
environmental planning and resource management.
ENSCI 463: Soil Formation and Landscape Relationships
(Dual-listed with ENSCI 563). (Cross-listed with AGRON). (3-0) Cr. 3. S.
Prereq: AGRON 182 (or equivalent) or AGRON 260
Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. Credit for one of AGRON 463 or AGRON 463I may be applied for graduation.

ENSCI 463I: Soil Formation and Landscape Relationships
(Dual-listed with ENSCI 563I). (Cross-listed with AGRON, IA LL). Cr. 2. Alt. SS., offered even-numbered years.
Prereq: AGRON 182 (or equivalent)
Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 563I may be applied for graduation.

ENSCI 464: Wetland Ecology
(Dual-listed with ENSCI 564). (Cross-listed with BIOL). (3-0) Cr. 3. S.
Prereq: 15 credits in biological sciences.

ENSCI 466: Ecosystem Service Management
(Dual-listed with ENSCI 566). (Cross-listed with ENT, NREM). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: permission of instructor
Land use and conservation techniques for improving ecosystem services including: pollination of crops, biological control of pests, prevention of erosion and water quality improvement.

ENSCI 477: Soil Physics
(Dual-listed with ENSCI 577). (Cross-listed with AGRON). (3-0) Cr. 3. S.
Prereq: AGRON 182 or equivalent and MATH 166 recommended
The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat.

ENSCI 479: Surficial Processes
(Dual-listed with ENSCI 579). (Cross-listed with GEOL). (2-3) Cr. 3. F.
Prereq: GEOL 100 and GEOL 100L; or GEOL 201; or equivalent experience.
The study of physical processes that shape Earth’s surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

ENSCI 480: Engineering Analysis of Biological Systems
(Cross-listed with A B E). (2-2) Cr. 3. F.
Prereq: A B E 380 or permission of the instructor
Systems-level quantitative analysis of biological systems, including applications in foods, feeds, biofuels, bioenergy, and other biological systems. Introduction to economic analysis and life-cycle assessment of these systems at multiple production scales. Applying these tools to evaluate and improve cost and sustainability performance of these biological systems. Students enrolled in ABE 580 will be required to answer additional exam questions and report on two journal articles.

ENSCI 484: Ecosystem Ecology
(Cross-listed with BIOL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Combined 12 credits in biology, chemistry, and physics.
Introduction of the study of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations for ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

ENSCI 485: Soil and Environmental Microbiology
(Dual-listed with ENSCI 585). (Cross-listed with AGRON, MICRO). (2-3) Cr. 3. F.
Prereq: AGRON 182 or equivalent; MICRO 201 and MICRO 201L recommended
The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues.

ENSCI 486: Aquatic Ecology
(Dual-listed with ENSCI 586). (Cross-listed with A ECL, BIOL). (3-0) Cr. 3. F.
Prereq: Biol 312 or EnSci 381 or EnSci 402 or NREM 301
Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

ENSCI 486L: Aquatic Ecology Laboratory
(Dual-listed with ENSCI 586L). (Cross-listed with A ECL, BIOL). (0-3) Cr. 1. F.
Prereq: Concurrent enrollment in BIOL 486
Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.
ENSCI 487: Microbial Ecology
(Dual-listed with ENSCI 587). (Cross-listed with BIOL, GEOL, MICRO). (3-0)
Cr. 3. F.
Prereq: Six credits in biology and 6 credits in chemistry
Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

ENSCI 488: GIS for Geoscientists II
(Dual-listed with ENSCI 588). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3.
Alt. S., offered odd-numbered years.
Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

ENSCI 490: Independent Study
Cr. arr. Repeatable. F.S.SS.
Prereq: Permission of the instructor and approval of the Environmental Science coordinator

ENSCI 490H: Independent Study: Honors
Cr. arr. Repeatable. F.S.SS.
Permission of instructor and approval of Environmental Science coordinator.

ENSCI 495: Current Topics and Case Studies in Environmental Science
Cr. 1-3.
Prereq: Junior classification in Environmental Science, permission of instructor
Current topics and case studies related to the analysis and management of environmental systems. Individual and/or group projects.

ENSCI 496: Travel Course
Cr. arr. Repeatable.
Prereq: Permission of instructor
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings. A. International Tour B. Domestic Tour.

ENSCI 496A: Travel Course: International Tour
Cr. arr. Repeatable.
Prereq: Permission of instructor
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

ENSCI 496B: Travel Course: Domestic Tour
Cr. arr. Repeatable.
Prereq: Permission of instructor
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

ENSCI 498: Cooperative Education
Cr. R. Repeatable. F.S.SS.
Prereq: Permission of Environmental Science Coordinator
Required of all cooperative education students. Students must register prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

ENSCI 502: Watershed Hydrology
(Dual-listed with ENSCI 402). (Cross-listed with GEOL, MTEOR, NREM). (2-3) Cr. 3. F.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

ENSCI 504: Global Change
(Dual-listed with ENSCI 404). (Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. S.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.
ENSCI 505: Environmental Biophysics
(Dual-listed with ENSCI 405). (Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: MATH 165 or MATH 182 or equivalent and some computer programming experience (any language)
Description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities.

ENSCI 507: Watershed Management
(Dual-listed with ENSCI 407). (Cross-listed with NREM). (3-3) Cr. 4. S.
Prereq: A course in general biology
Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

ENSCI 508I: Aquatic Ecology
(Cross-listed with IA LL, NREM). Cr. 4. SS.
Prereq: Courses in ecology, chemistry, and physics
Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.

ENSCI 509: Field Methods in Hydrogeology
(Dual-listed with ENSCI 409). (Cross-listed with GEOL). (0-4) Cr. 3. Alt. SS., offered even-numbered years.
Prereq: GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473
Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

ENSCI 511: Hydrogeology
(Dual-listed with ENSCI 411). (Cross-listed with GEOL). (3-2) Cr. 4. F.
Prereq: Four courses in biological or physical sciences
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

ENSCI 514: Applied Groundwater Flow Modeling
(Dual-listed with ENSCI 414). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: GEOL 411 or C E 473; MATH 165 or MATH 181
Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

ENSCI 515: Paleoclimatology
(Dual-listed with ENSCI 415). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in biological or physical science
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth’s orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~ 1 million years).

ENSCI 516: Hydrologic Modeling and Analysis
(Dual-listed with ENSCI 416). (Cross-listed with GEOL, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

ENSCI 518: Stream Ecology
(Dual-listed with ENSCI 418). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: A ECL 486
Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.
ENSCI 519: Aqueous and Environmental Geochemistry
(Dual-listed with ENSCI 419). (Cross-listed with GEOL). (2-2) Cr. 3. S.
Prereq: CHEM 178, CHEM 178L; junior classification
Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

ENSCI 520: Environmental Engineering Chemistry
(Dual-listed with ENSCI 420). (Cross-listed with C E). (2-3) Cr. 3. F.
Prereq: C E 326, CHEM 178
Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions, and mass transfer principles. Individual laboratory practicals and group projects required.

ENSCI 521: Environmental Biotechnology
(Cross-listed with C E). (2-2) Cr. 3. F.
Prereq: C E 326
Fundamentals of biochemical and microbial processes applied to environmental engineering processes, role of microorganisms in wastewater treatment and bioremediation, bioenergetics and kinetics, metabolism of xenobiotic compounds, waterborne pathogens and parasites, and disinfection. Term paper and oral presentation.

ENSCI 522: Water Pollution Control Processes
(Cross-listed with C E). (2-2) Cr. 3.
Prereq: C E 521
Fundamentals of biochemical processes, aerobic growth in a single CSTR, multiple events in complex systems, and techniques for evaluating kinetic parameters; unit processes of activated sludge system, attached growth systems, stabilization and aerated lagoon systems, biosolids digestion and disposal, nutrient removal, and anaerobic treatment systems.

ENSCI 523: Physical-Chemical Treatment Process
(Cross-listed with C E). (2-2) Cr. 3.
Prereq: C E 520
Material and energy balances. Principles and design of physical-chemical unit processes; including screening, coagulation, flocculation, chemical precipitation, sedimentation, filtration, lime softening and stabilization, oxidation, adsorption, membrane processes, ion exchange and disinfection; recovery of resources from residuals and sludges; laboratory exercises and demonstrations; case studies in mineral processing and secondary industries.

ENSCI 524: Air Pollution
(Dual-listed with ENSCI 424). (Cross-listed with A B E, C E). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 524A: Air Pollution: Air quality and effects of pollutants
(Dual-listed with ENSCI 424A). (Cross-listed with A B E, C E). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 524B: Air Pollution: Climate change and causes
(Dual-listed with ENSCI 424B). (Cross-listed with A B E, C E). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 524C: Air Pollution: Transportation Air Quality
(Dual-listed with ENSCI 424C). (Cross-listed with A B E, C E). (1-0) Cr. 1.
Prereq: C E 524A; PHYS 221 or CHEM 178; MATH 166 or 3 credits in statistics. Senior classification or above.

ENSCI 524D: Air Pollution: Off-gas treatment technology
(Dual-listed with ENSCI 424D). (Cross-listed with A B E, C E). (1-0) Cr. 1.
Prereq: C E 524A, C E 524B; Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above.

ENSCI 524E: Air Pollution: Agricultural sources of pollution
(Dual-listed with ENSCI 424E). (Cross-listed with A B E, C E). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

ENSCI 526: Stable Isotopes in the Environment
(Dual-listed with ENSCI 426). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Four courses in biological or physical science
Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.
ENSCI 528: Solid and Hazardous Waste Management
(Cross-listed with C E). (3-0) Cr. 3.
Prereq: C E 326 or background courses in both environmental chemistry and microbiology; junior or higher standing
Evaluation, characterization, assessment, planning and design of solid and hazardous waste management systems, regulatory requirements, material characterization and collection, minimization and recycling, energy and materials recovery, composting, off-gas treatment, incineration, stabilization, and landfill design. Design of treatment and disposal systems, including physical, chemical, and biological treatment, solidification, incineration, secure landfill design, and final disposal site closure plus restoration.

ENSCI 531: Design and Evaluation of Soil and Water Conservation Systems
(Cross-listed with A B E). (2-3) Cr. 3. F.
Prereq: E M 378 or CH E 356
Hydrology and hydraulics in agricultural and urbanizing watersheds. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design; relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality. Graduate students will prepare several research literature reviews on topics covered in the class in addition to the other assignments.

ENSCI 532: Nonpoint Source Pollution and Control
(Cross-listed with A B E). (3-0) Cr. 3.
Prereq: A B E 431 or C E 372
Characteristics and courses of non-point source (NPS) pollution in agricultural and urban watersheds, computer modeling and NPS pollution for terrestrial and aquatic systems, strategies to control and manage NPS pollution of water bodies, total maximum daily loads (TMDLs) and integrated watershed management. Graduate students are required to review research papers and develop/deliver lecture models on assigned topics.

ENSCI 533: Erosion and Sediment Transport
(Cross-listed with A B E, NREM). (2-3) Cr. 3. F.
Prereq: C E 372 or GEOL/ENSCI/MTEOR 402, MATH 166 or equivalent
Soil erosion processes, soil loss equations and their application to conservation planning, sediment properties, initiation of sediment motion and over land flow, flow in alluvial channels and theory of sediment transport, channel stability, reservoir sedimentation, wind erosion, BMPs for controlling erosion.

ENSCI 534: Contaminant Hydrogeology
(Cross-listed with GEOL). (3-0) Cr. 3. S.
Prereq: GEOL 511 or equivalent

ENSCI 535: Restoration Ecology
(Cross-listed with EEOB, NREM). (2-3) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BIOL 366 or BIOL 474 or graduate standing
Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

ENSCI 535I: Restoration Ecology
(Cross-listed with A ECL, EEOB, IALL). Cr. 4. Alt. SS., offered even-numbered years.
Prereq: A course in ecology
Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

ENSCI 536: Design and Evaluation of Soil and Water Monitoring Systems
(Cross-listed with A B E). (2-3) Cr. 3. Alt. S., offered even-numbered years.
Prereq: A B E 431
Development of monitoring systems that support effective planning, performance evaluation, modeling, or environmental impact assessment of soil-, water-, and waste-management systems. Typical soil and water pollutants and physical, chemical, and biological characteristics that affect sample location and timing. Sample collection, documentation, chain-of-custody, and quality assurance procedures. In addition to other assignments, graduate students will prepare several research literature reviews on topics covered in the class and develop monitoring plans.
ENSCI 537: Watershed Modeling and Policy
(Dual-listed with ENSCI 437). (Cross-listed with A B E). (2-2) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: CE 372 or equivalent
A project-based course on watershed-scale models for improving water quality. Legislative and judicial basis of the Total Maximum Daily Load (TMDL) program; approaches to TMDL development; principles and techniques for implementation; stakeholder engagement strategies. Hands-on experiences with GIS-interfaced models, data sources, calibration/validation, statistical assessment of model results, and simulation using multiple tools. In addition to other assignments, graduate students will present case studies of TMDLs using different modeling tools.

ENSCI 546: Integrating GPS and GIS for Natural Resource Management
(Dual-listed with ENSCI 446). (Cross-listed with NREM). (2-3) Cr. 3. F.
Prereq: 12 credits in student's major at 300 level or above, NREM 345 or equivalent experience with ArcGIS
Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation.

ENSCI 551: Applied and Environmental Geophysics
(Dual-listed with ENSCI 451). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GEOL 100 or GEOL 201, algebra and trigonometry
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar.

ENSCI 552: GIS for Geoscientists
(Dual-listed with ENSCI 452). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. F.S.
Prereq: GEOL 100, GEOL 201 or equivalent
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Use ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

ENSCI 553: Soil-Plant Relationships
(Cross-listed with AGRON). (3-0) Cr. 3. S.
Prereq: AGRON 354
Composition and properties of soils in relation to the nutrition and growth of plants.

ENSCI 558: Laboratory Methods in Soil Chemistry
(Cross-listed with AGRON). (2-3) Cr. 3. Alt. F., offered even-numbered years.
Prereq: AGRON 354 and CHEM 211
Experimental and descriptive inorganic and organic analyses.
Operational theory and principles of applicable instruments, including spectrophotometry, atomic and molecular absorption and emission spectroscopy, mass spectrometry, X-ray diffraction and fluorescence, gas and ion chromatography, and ion-selective electrodes.

ENSCI 559: Environmental Soil and Water Chemistry
(Dual-listed with ENSCI 459). (Cross-listed with AGRON). (3-3) Cr. 4. F.
Prereq: Two semesters of college-level chemistry, MATH 140, AGRON 182 (or equivalent) or AGRON 360; GEOL 100 and AGRON 354 recommended
An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, and applications to contemporary environmental issues.

ENSCI 563: Soil Formation and Landscape Relationships
(Dual-listed with ENSCI 463). (Cross-listed with AGRON). (3-0) Cr. 3. S.
Prereq: AGRON 182 (or equivalent) or AGRON 260
Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. Credit for one of AGRON 463 or AGRON 463I may be applied for graduation.

ENSCI 563I: Soil Formation and Landscape Relationships
(Dual-listed with ENSCI 463I). (Cross-listed with AGRON, IA LL). Cr. 2. Alt. SS., offered even-numbered years.
Prereq: AGRON 182 (or equivalent)
Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 563I may be applied for graduation.

ENSCI 564: Wetland Ecology
(Dual-listed with ENSCI 464). (Cross-listed with EEOB). (3-0) Cr. 3. S.
Prereq: 15 credits in biological sciences.

ENSCI 564I: Wetland Ecology
(Cross-listed with EEOB, IA LL). Cr. 4. SS.
Prereq: la LL 312I
Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.
ENSCI 566: Ecosystem Service Management
(Dual-listed with ENSCI 466). (Cross-listed with ENT, NREM). (3-0) Cr. 3.
Alt. S., offered odd-numbered years.
Prereq: permission of instructor
Land use and conservation techniques for improving ecosystem services including: pollination of crops, biological control of pests, prevention of erosion and water quality improvement.

ENSCI 571: Surface Water Hydrology
(Cross-listed with C E). (3-0) Cr. 3. S.
Prereq: C E 372
Analysis of hydrologic data including precipitation, infiltration, evapotranspiration, direct runoff and streamflow; theory and use of frequency analysis; theory of streamflow and reservoir routing; use of deterministic and statistical hydrologic models. Fundamentals of surface water quality modeling, point and non-point sources of contamination.

ENSCI 572: Analysis and Modeling Aquatic Environments
(Cross-listed with C E). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: C E 372
Principles of surface water flows and mixing. Introduction to hydrologic transport and water quality simulation in natural water systems. Advection, diffusion and dispersion, chemical and biologic kinetics, and water quality dynamics. Applications to temperature, dissolved oxygen, primary productivity, and other water quality problems in rivers, lakes and reservoirs. Deterministic vs. stochastic models.

ENSCI 573: Groundwater Hydrology
(3-0) Cr. 3. F.
Prereq: C E 372

ENSCI 575: Soil Formation and Transformation
(Cross-listed with AGRON). (3-0) Cr. 3. F.
Prereq: AGRON 463 or equivalent
Advanced study of soil formation, emphasizing relationships among soils, landscapes, environment, humans, and land use.

ENSCI 577: Soil Physics
(Dual-listed with ENSCI 477). (Cross-listed with AGRON). (3-0) Cr. 3. S.
Prereq: AGRON 182 or equivalent and MATH 166 recommended
The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat.

ENSCI 578: Laboratory Methods in Soil Physics
(Cross-listed with AGRON). (0-3) Cr. 1. S.
Prereq: concurrent enrollment in AGRON 477 or AGRON 577
Methods of measuring soil physical properties such as texture, density, and water content, and transport of heat, water, and gases.

ENSCI 579: Surficial Processes
(Dual-listed with ENSCI 479). (Cross-listed with GEOL). (2-3) Cr. 3. F.
Prereq: GEOL 100 and GEOL 100L; or GEOL 201; or equivalent experience.
The study of physical processes that shape Earth’s surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

ENSCI 581: Environmental Systems I: Introduction to Environmental Systems
(Dual-listed with ENSCI 381). (Cross-listed with EEOB). Cr. 3-4. F.
Prereq: 12 credits of natural science including biology and chemistry
Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

ENSCI 582: Environmental Systems II: Analysis of Environmental Systems
(Dual-listed with ENSCI 382). (Cross-listed with EEOB). (2-2) Cr. 3. S.
Prereq: ENSCI 381
Continuation of EnSci 381. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

ENSCI 584: Advanced Ecosystem Ecology
(Cross-listed with EEOB). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Combined 12 credits in biology, chemistry, and physics.
Advanced studies of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations and modern approaches to ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

ENSCI 585: Soil and Environmental Microbiology
(Dual-listed with ENSCI 485). (Cross-listed with AGRON, MICRO). (2-3) Cr. 3. F.
Prereq: AGRON 182 or equivalent; MICRO 201 and MICRO 201L recommended
The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues.
ENSCI 586: Aquatic Ecology
(Dual-listed with ENSCI 486). (Cross-listed with A ECL, EEOB). (3-0) Cr. 3. F.
Prereq: Biol 312 or EnSci 381 or EnSci 402 or NREM 301
Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

ENSCI 586L: Aquatic Ecology Laboratory
(Dual-listed with ENSCI 486L). (Cross-listed with A ECL, EEOB). (0-3) Cr. 1. F.
Prereq: Concurrent enrollment in BIOL 486
Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

ENSCI 587: Microbial Ecology
(Dual-listed with ENSCI 487). (Cross-listed with EEOB, GEOL, MICRO). (3-0) Cr. 3. F.
Prereq: Six credits in biology and 6 credits in chemistry
Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

ENSCI 588: GIS for Geoscientists II
(Dual-listed with ENSCI 488). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

ENSCI 590: Special Topics
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of major professor in Environmental Science faculty
Literature reviews and conference in accordance with needs and interest of the student.

ENSCI 599: Creative Component
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of major professor in Environmental Science faculty
Creative component for nonthesis master of science degree.

Courses for graduate students:

ENSCI 685: Advanced Soil Biochemistry
(Cross-listed with AGRON, MICRO). (2-0) Cr. 2. Alt. S., offered even-numbered years.
Prereq: AGRON 585
Chemistry of soil organic matter and biochemical transformations brought about by microorganisms and enzymes in soils.

ENSCI 698: Seminar in Environmental Science
Cr. 1-3. Repeatable. S.
Reports and discussion of recent research and literature.

ENSCI 699: Research
Cr. arr. Repeatable. F.S.S.S.

Environmental Studies (ENV S)
Courses primarily for undergraduates:

ENV S 101: Environmental Geology: Earth in Crisis
(Cross-listed with GEOL). (3-0) Cr. 3. F.S.S.S.
An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism. Summer - online only.

ENV S 108: Introduction to Oceanography
(Cross-listed with GEOL). (3-0) Cr. 3. F.

ENV S 111: Geological Disasters
(Cross-listed with GEOL). (1-0) Cr. 1. F.S.S.S.
Introduction to the catastrophic geologic processes that disrupt ecosystems and human activity. Includes a discussion on the role of plate tectonics, the hydrologic cycle, and humans as the driving forces behind selected case studies on volcanic eruptions, earthquakes, tsunamis, landslides, and floods. Summer and fall - online only.

ENV S 120: Introduction to Renewable Resources
(Cross-listed with AGRON, NREM). (3-0) Cr. 3. F.S.
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.
ENV S 130: Natural Resources and Agriculture
(Cross-listed with NREM). (3-0) Cr. 3. S.
Survey of the ecology and management of fish, forest, and wildlife resources in areas of intensive agriculture, with emphasis on Iowa. Conservation and management practices for private agricultural lands. Designed for nonmajors.

ENV S 160: Water Resources of the World
(Cross-listed with AGRON, GEOL, MTEOR). (3-0) Cr. 3. S.
Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment. Meets International Perspectives Requirement.

ENV S 173: Environmental Biology
(Cross-listed with BIOL). (3-0) Cr. 3. F.S.
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Does not satisfy biology major requirements.

ENV S 201: Introduction to Environmental Issues
(Cross-listed with BIOL, ENSCI). (2-0) Cr. 2. F.
Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

ENV S 204: Biodiversity
(Cross-listed with BIOL). (4-0) Cr. 2. S.
Prereq: One course in life sciences
Survey of the major groups of organisms and biological systems. Definition, measurements, and patterns of distribution of organisms. Sources of information about biodiversity. Does not satisfy biology major requirements. Half semester course.

ENV S 220: Globalization and Sustainability
(Cross-listed with ANTHR, GLOBE, M E, MAT E, SOC, T SC). (3-0) Cr. 3. F.S.
An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.
Meets International Perspectives Requirement.

ENV S 250: Environmental Geography
(Cross-listed with ENSCI). (3-0) Cr. 3. F.
The distribution, origins and functions of the earth’s physical systems and the spatial relationship between human activity and the natural world.

ENV S 270: Foundations in Natural Resource Policy and History
(Cross-listed with LA, NREM). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
The development of natural resource conservation philosophy and policy from the Colonial Era to the present. North American wildlife, forestry, and environmental policy; national parks and other protected lands; federal and state agencies. Relationship to cultural contexts, including urban reform and American planning movement. Discussion of common pool resources, public and private lands.

ENV S 293: Environmental Planning
(Cross-listed with CRP). (3-0) Cr. 3. F.S.
Comprehensive overview of the field of environmental relationships and the efforts being made to organize, control, and coordinate environmental, aesthetic, and cultural characteristics of land, air, and water.

ENV S 320: Ecofeminism
(Cross-listed with WGS). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: WGS 201 or 3 credits in WGS at the 300 level or above
Women’s relationships with the earth, non-human nature, and other humans. The course explores the connections between society’s treatment of women and nature; origins of ecofeminism and how it relates to the science of ecology, conventional and sustainable agriculture as well as how ecofeminism relates to other branches of feminist philosophy. Evaluation and critique of modern science, technology, political systems and SOLUTIONS will be included.

ENV S 324: Energy and the Environment
(Cross-listed with ENSCI, GEOL, MTEOR). (3-0) Cr. 3. S.
Prereq: CHEM 163 or CHEM 177, MATH 140
Exploration of the origin of Earth’s energy resources and the environmental and climatic impacts of energy acquisition and consumption. Renewable and non-renewable energy resources within an Earth-system context. Various environmentally-relevant topics such as water quality and availability, habitat destruction, greenhouse-gas emissions, and health and safety hazards to wildlife and human communities.
ENV S 334: Environmental Ethics
(Cross-listed with PHIL). (3-0) Cr. 3. F.
Prereq: Three credits in philosophy or junior classification
Thorough study of some of the central moral issues arising in connection with human impact on the environment, e.g., human overpopulation, species extinction, forest and wilderness management, pollution. Several world views of the proper relationship between human beings and nature will be explored.

ENV S 342: World Food Issues: Past and Present
(Cross-listed with AGRON, FS HN, T SC). (3-0) Cr. 3. F.S.
Prereq: Junior classification
Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects.
Meets International Perspectives Requirement.

ENV S 342H: World Food Issues: Past and Present, Honors
(Cross-listed with AGRON, T SC). (3-0) Cr. 3. F.S.
Prereq: Junior classification
Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects.
Meets International Perspectives Requirement.

ENV S 345: Population and Society
(Cross-listed with SOC). (3-0) Cr. 3. F.
Prereq: SOC 134
Human population growth and structure; impact on food, environment, and resources; gender issues; trends of births, deaths, and migration; projecting future population; population policies and laws; comparison of the United States with other societies throughout the world.
Meets International Perspectives Requirement.

ENV S 355: Literature and the Environment
(Cross-listed with ENGL). (3-0) Cr. 3.
Prereq: ENGL 250
Study of literary texts that address the following topics, among others: the relationship between people and natural/urban environments, ecocriticism, and the importance of place in the literary imagination.

ENV S 362: Global Environmental History
(Cross-listed with HIST). (3-0) Cr. 3. F.
Prereq: Either one of HIST 201, 202, or 207; or 3 credits of Environmental Studies; and sophomore classification.
Survey of the interactions of human communities with their environments from the beginnings of human history to the present. Topics include the domestication of animals, the agricultural revolution, industrialization, urbanization, deforestation, hydraulic management, fossil fuel consumption, and climate change.

ENV S 363: U. S. Environmental History
(Cross-listed with HIST). (3-0) Cr. 3.
Prereq: Sophomore classification
Survey of the interactions of human communities with the North American environment. Focus on the period from presettlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies.

ENV S 380: Energy, Environmental and Resource Economics
(Cross-listed with ECON). (3-0) Cr. 3.
Prereq: ECON 101
Natural resource availability, use, conservation, and government policy, with emphasis on energy issues. Environmental quality and pollution control policies.

ENV S 381: Environmental Systems I: Introduction to Environmental Systems
(Cross-listed with BIOL, ENSCI). Cr. 3-4. F.
Prereq: 12 credits of natural science including biology and chemistry
Introduction to the structure and function of natural environmental systems. Emphasis on the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

ENV S 382: Environmental Sociology
(Cross-listed with SOC). (3-0) Cr. 3. F.S.
Prereq: Soc 134 or 3 credits of ENV S
Environment-society relations; social construction of nature and the environment; social and environmental impacts of resource extraction, production, and consumption; environmental inequality; environmental mobilization and movements; U.S. and international examples.

ENV S 383: Environmental Politics and Policies
(Cross-listed with POL S). (3-0) Cr. 3. SS.
Prereq: Sophomore classification
Major ideologies' relations to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.
ENV S 384: Religion and Ecology
(Cross-listed with RELIG). (3-0) Cr. 3.
Introduction to concepts of religion and ecology as they appear in different religious traditions, from both a historical and contemporary perspective. Special attention to religious response to contemporary environmental issues.
Meets International Perspectives Requirement.

ENV S 390: Internship in Environmental Studies
Cr. arr. Repeatable. F.S.S.S.
Prereq: Approval of the Environmental Studies Coordinator
Practical experience with nature centers, government agencies, schools, private conservation groups, and other organizations. Offered on a satisfactory-fail basis only.

ENV S 404: Global Change
(Cross-listed with AGRON, ENSCI, MTEOR). (3-0) Cr. 3. S.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.

ENV S 407: Watershed Management
(Cross-listed with ENSCI, NREM). (3-3) Cr. 4. S.
Prereq: A course in general biology
Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

ENV S 417: Urban and Peri-urban Watershed Assessment
(Cross-listed with L A). (2-3) Cr. 3. F.
Prereq: Junior classification and 6 credits of natural science
Assessment and reduction of impacts in urban and peri-urban watershed areas. Course prepares students to work with various analysis methods for vegetation, topography, stormwater and stream condition as well as work with data from other disciplines. Emphasis on communicating with the public. Introductory GIS and GPS technologies are utilized. Learning is largely field-based.

ENV S 424: Sustainable and Environmental Horticulture Systems
(Cross-listed with HORT). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Inquiry into ethical issues and environmental consequences of horticultural cropping systems, production practices and managed landscapes. Emphasis on systems that are resource efficient, environmentally sound, socially acceptable, and profitable.

ENV S 442: The Policy and Politics of Coastal Areas
(Cross-listed with POL S). (3-0) Cr. 3. SS.
Exploration of political implications of coastal policy. Issues include: "Carrying capacity," zoning, regulation of human development activities, trade-offs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.

ENV S 450: Issues in Sustainable Agriculture
(Cross-listed with AGRON). (3-0) Cr. 3. F.
Agricultural science as a human activity; contemporary agricultural issues from agroecological perspective. Comparative analysis of intended and actual consequences of development of industrial agricultural practices.

ENV S 460: Controversies in Natural Resource Management
(Cross-listed with NREM). (3-0) Cr. 3. F.S.
Prereq: NREM 120, and A ECL 312 or NREM 301, and Junior classification
Analysis of controversial natural resource issues using a case approach that considers uncertainty and adequacy of information and scientific understanding. Ecological, social, political, economic, and ethical implications of issues will be analyzed.

ENV S 461I: Introduction to GIS
(Cross-listed with ENSCI, IA LL, L A). Cr. 4. SS.
Descriptive and predictive GIS modeling techniques, spatial statistics, and map algebra. Application of GIS modeling techniques to environmental planning and resource management.

ENV S 484: Sustainable Communities
(Cross-listed with C R P). (3-0) Cr. 3. S.
Prereq: Junior classification

ENV S 490: Independent Study
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor and approval of Environmental Studies coordinator

ENV S 490H: Independent Study: Honors
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor and approval of Environmental Studies coordinator.
ENV S 491: Environmental Law and Planning  
(Cross-listed with C R P L A). (3-0) Cr. 3. S.  
Prereq: 6 credits in natural sciences  
Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

ENV S 496: Travel Course  
Cr. arr. Repeatable.  
Prereq: Permission of instructor  
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

ENV S 496A: International Tour  
Cr. arr. Repeatable.  
Prereq: Permission of instructor  
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

ENV S 496B: Domestic Tour  
Cr. arr. Repeatable.  
Prereq: Permission of instructor  
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

Event Management (EVENT)  
Courses primarily for undergraduates:

EVENT 271: Introduction to Event Management  
(3-0) Cr. 3. F.S.  
Overview of the event management industries. Techniques and procedures required for producing successful and sustainable events.

EVENT 289: Contemporary Club Management  
(Cross-listed with HSP M). (3-0) Cr. 3. F.S.  
Prereq: HSP M 101  
Organization and management of private clubs including city, country, and other recreational and social clubs. Field trip may be required.

EVENT 290: Independent Study  
Cr. 1-2. Repeatable, maximum of 4 credits. F.S.SS.  
Prereq: Freshman or Sophomore Classification. Permission of instructor, adviser, and department chair.  
Independent study on topics of special interest to the student, facilitated by approved faculty member. No more than 9 credits of EVENT 290 and EVENT 490 may be applied towards graduation requirements.

EVENT 320: Attractions and Amusement Park Administration  
(Cross-listed with HSP M). (3-0) Cr. 3. S.  
Prereq: HSP M 101 or permission of instructor  
Examination of current issues in the attractions and amusement park industry. Emphasis will be placed on development and design along with the functional departments of modern amusement parks and themed attractions.

EVENT 328: Incentive Meeting Management  
Cr. 3. F.  
Prereq: EVENT 271, Event Management major  
Overview of the incentive meeting industry. Focus on incentive meeting planning, destination selection, program development, risk management, cultural aspects of international/national site selection and incentive meeting execution, and incentive meeting evaluation.

EVENT 333: Entertainment Venue Management  
(3-0) Cr. 3. F.S.  
Prereq: EVENT 271 or equivalent  
Organization and management of various types of entertainment venues including clubs, theaters, auditoriums, and arenas.

EVENT 371: Conference and Meeting Planning  
(3-0) Cr. 3. F.S.  
Prereq: EVENT 271 and junior standing  
Application of event management principles to conference and meeting planning. Providing a comprehensive introduction to the key elements of the global conference, convention and meetings focus on destination marketing and professional development.

EVENT 373: Wedding Planning and Management  
(3-0) Cr. 3. F.S.  
Prereq: EVENT 371 and Event Management major  
Overview of wedding event industry. Focus on wedding planning processes and implementation, design, and business planning and development.

EVENT 378: Sustainable Event Management  
Cr. 3. S.  
Prereq: EVENT 271, EVENT majors.  
Introduction to international sustainable event standards, and how to measure the environmental impact of an event. Topics include ethics, corporate social responsibility (CSR), and sustainability related practices. Students will be expected to complete written assignments and participate in group-based projects.
EVENT 379: Nonprofit Fundraising Event Planning
Cr. 3. F.
Prereq: EVENT 271, Instructor's permission.
The role of Nonprofit Organizations (NPOs) in the United States, and how NPOs secure essential income and help educate donors, guests, and volunteers of the organizational mission. Fundamentals of an event-based fundraising (e.g., a gala dinner) or community-based fundraising (e.g., runs, walks, and rides). Budgeting, marketing outreach, logistics management. Use of strategic tools, such as website and social media, to help increase financial success of a fundraising event. Grant-writing content.

EVENT 393: Event Management Workshop
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.
Prereq: EVENT Junior or Senior Classification and Permission of Instructor
Intensive 2 to 8 week workshop exploration. Topics vary each time offered. Maximum of 6 Event 393 credits can be applied to graduation.

EVENT 423: International Meetings and Conferences Management
Cr. 3. S.
Prereq: EVENT 271, EVENT 371
Strategies and tactics for planning a meeting, exposition, or convention that is held outside of the United States; and a meeting, exposition, or convention that attracts numerous international attendees to the United States.

EVENT 431: Case Studies in Event Management
(Dual-listed with EVENT 531). (Cross-listed with HSP M). Cr. 3. S.
Prereq: Graduate-level standing and permission by instructor.
Operational and strategic challenges in the event management industry through directed case studies, roundtable discussions, and industry-related readings. Students will critically evaluate case studies related to event management in areas of event strategy, financial management, event operations, stakeholder development, event design, marketing, and other event topics.

EVENT 471: Special Events Coordination
(3-0) Cr. 3. F.S.
Prereq: EVENT 371 and junior standing; permission of instructor.
Advanced application event management. Provide leadership and communicate direction for production of an event including developing event strategy, financial management, wayfinding, volunteer management, and marketing.

EVENT 490: Independent Study
Cr. arr. Repeatable.
Prereq: Sections B-D: Program approval; Section H: Full membership in Honors Program
Independent study.

EVENT 490B: Independent Study: Conferences
Cr. arr. Repeatable.
Prereq: Program approval
Independent study.

EVENT 490C: Independent Study: Special Events
Cr. arr. Repeatable.
Prereq: Program approval.
Independent study.

EVENT 490D: Independent Study: Event Management
Cr. arr. Repeatable.
Prereq: Sections B-D: Program approval; Section H: Full membership in Honors Program
Independent study.

Family Financial Planning (FFP)
Courses primarily for graduate students, open to qualified undergraduates:

FFP 520: Financial Theory and Research I
(3-0) Cr. 3. F.S.S.
Theories of family functioning, macroeconomic theory related to family resource allocation decisions, the family as an economic unit, and the interaction of the economy and families. (on-line course offering via Distance Education).

FFP 525: Financial Theory and Research II
(3-0) Cr. 3. F.S.S.
Microeconomic theory as it relates to family resource allocation decisions, theories of household behavior, the lifecycle hypothesis, behavioral economics, behavioral finance, theories of behavioral change, and psychological theories of family well-being. Focus on empirical research investigating household financial decision-making. (on-line course offering via Distance Education).

FFP 530: Fundamentals of Family Financial Planning
(3-0) Cr. 3. F.S.S.
The nature and functioning of financial systems, including currencies, markets, monetary and fiscal policy, and supply/demand for land, labor, and capital. Focus is on the impact of global financial interdependence on individuals and families in the U.S. Current and emerging issues, as well as current research and theory relative to financial systems. (on-line course offering via Distance Education).
FFP 535: Financial Counseling
(3-0) Cr. 3. F.S.S.
Theory and research regarding the interactive process between the client and the practitioner, including communication techniques, motivation and esteem building, the counseling environment, ethics, and methods of data intake, verification, and analysis. Other topics include legal issues, compensation, uses of technology to identify resources, information management, and current or emerging issues. (on-line course offering via Distance Education).

FFP 540: Estate Planning for Families
(3-0) Cr. 3. F.S.S.
Fundamentals of the estate planning process, including estate settlement, estate and gift taxes, property ownership and transfer, and powers of appointment. Tools and techniques used in implementing an effective estate plan, ethical considerations used in providing estate planning services, and new and emerging issues in the field. Case studies provide experience in developing estate plans suitable for varied family forms. (on-line course offering via Distance Education).

FFP 541: Housing and Real Estate in Family Financial Planning
(Cross-listed with HD FS). (3-0) Cr. 3. Alt. SS., offered even-numbered years.
The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate. (on-line course offering via Distance Education).

FFP 545: Retirement Planning, Employee Benefits, and the Family
(3-0) Cr. 3. F.S.S.
Study of micro and macro considerations for retirement planning. Survey of various types of retirement plans, ethical considerations in providing retirement planning services, assessing and forecasting financial needs in retirement, and integration of retirement plans with government benefits. (on-line course offering via Distance Education).

FFP 550: Military Personal Financial Readiness
(3-0) Cr. 3. F.S.S.
Overview of the topics relevant to the financial planning process that address the unique needs of military service members and their families. (on-line course offering via Distance Education).

FFP 555: Insurance Planning for Families
(3-0) Cr. 3. F.S.S.
In-depth study of risk management concepts, tools, and strategies for individuals and families, including life insurance; property and casualty insurance; liability insurance; accident, disability, health, and long-term care insurance; and government-subsidized programs. Current and emerging issues and ethical considerations relative to risk management. Case studies provide experience in selecting insurance products suitable for individuals and family, study of investment options for clients including common stocks, fixed income securities, convertible securities, and related choices. Relationships between investment options and employee/employer benefit plan choices. Current and emerging issues and ethics are included. (on-line course offering via Distance Education).

FFP 565: Personal Income Taxation
(3-0) Cr. 3. F.S.S.
In-depth information on income tax practices and procedures including tax regulations, tax return preparation, the tax audit processes, the appeals process, preparation for an administrative or judicial forum, and ethical considerations of taxation. New and emerging issues related to taxation. Family/individual case studies provide practice in applying and analyzing tax information and recommending appropriate tax strategies. (on-line course offering via Distance Education).

FFP 570: Professional Practices in Financial Planning
(3-0) Cr. 3. F.S.S.
Challenges of managing financial planning practices including, but not limited to: business valuation, personnel, marketing, client services, ethics and technological applications. Relying both on a theoretical as well as an applied approach, students analyze case studies that provide relevant, practical exposure to practice management issues, with a strong emphasis on current research findings. (on-line course offering via Distance Education).

FFP 583: Investing for the Family's Future
(Cross-listed with HD FS). (3-0) Cr. 3. F.
Prereq: HD FS 483
Evaluation of investment markets for the household. Analysis of how families choose where to put their savings. Emphasis is on using the family's overall financial and economic goals to help inform investment choices. (on-line course offering via Distance Education).

FFP 591: Practicum
Cr. 3-6. F.S.S.
Supervised experience in family financial planning.
**Family and Consumer Sciences Education and Studies (FCEDS)**

Courses primarily for undergraduates:

**FCEDS 206: Professional Roles in Family and Consumer Sciences**
(1-1) Cr. 2. F.
Prereq: HD FS 103 or concurrent enrollment in HD FS 103
Introduction to various roles in professional settings (community agencies, secondary schools, business and industry, and Cooperative Extension). Focus on factors that have influenced the development and mission of Family and Consumer Sciences programs nationwide. Includes 12 hours of observational practicum experience outside of the regular class schedule.

**FCEDS 301: Short Course: Current Family and Consumer Sciences Offerings**
Cr. 3. F.S.S.
Prereq: 6 credits in family and consumer sciences or education
Short course in current family and consumer sciences offerings.

**FCEDS 301F: Short Course: Housing**
(3-0) Cr. 3. SS.
Prereq: 6 credits in family and consumer sciences or education
Short course in housing.

**FCEDS 301G: Short Course: General**
(3-0) Cr. 3. SS.
Prereq: 6 credits in family and consumer sciences or education
General short course in FCEDS.

**FCEDS 301K: Short Course: Textile Selection and Apparel Construction Methods**
(3-0) Cr. 3. SS.
Prereq: 6 credits in family and consumer sciences or education
Short course in textile selection and apparel construction.

**FCEDS 306: Educational Principles for Family and Consumer Sciences**
(3-2) Cr. 4. F.
Prereq: FCEDS 206
Principles of teaching and learning applied to family and consumer sciences content incorporating literacy and STEM strategies for diverse audiences. Focus on providing a broad overview of effective instructional methods and substantial technological tools to meet varied learning needs. Includes 12 hours of arranged practicum and team teaching.

**FCEDS 413: Planning and Assessment for Family and Consumer Sciences**
(3-2) Cr. 4. S.
Prereq: FCEDS 306 and admission to Teacher Education
Development of curriculum and assessment tools for family and consumer sciences programs in school settings. Focus on accommodating exceptional learners and alignment of teaching standards for classroom assessment. Includes 12 hours of Career and Technical Student Organization Competitive Event Assessment at the state/national level.

**FCEDS 417: Supervised Teaching in Family and Consumer Sciences**
Cr. 3-8. Repeatable. F.S.
Prereq: FCEDS 413; 24 credits in family and consumer sciences subject matter; cumulative grade point of 2.50; admission to teacher education, reservation required.
Supervised teaching experience in secondary schools.

**FCEDS 417A: Supervised Teaching in Family and Consumer Sciences: Vocational family and consumer sciences.**
Cr. 3-8. Repeatable. F.S.
Prereq: FCEDS 413, 24 credits in family and consumer sciences subject matter, cumulative grade point of 2.50, admission to teacher education, reservation required.
Supervised teaching experience in secondary schools.

**FCEDS 417B: Supervised Teaching in Family and Consumer Sciences: Family and consumer sciences.**
Cr. 3-8. Repeatable. F.S.
Prereq: FCEDS 413, 24 credits in family and consumer sciences subject matter, cumulative grade point of 2.50, admission to teacher education, reservation required.
Supervised teaching experience in secondary schools.
FCEDS 418: Foundations of Career and Technical Education in Family and Consumer Sciences  
(3-0) Cr. 3. S.  
Prereq: Admission to teacher education, FCEDS 413 or concurrent enrollment in FCEDS 413.  
Investigation into the philosophy of Career and Technical Education (CTE). Historical development of family and consumer sciences. Planning and implementing programs in family and consumer sciences including FCCLA. Impact of selected legislation on family and consumer sciences programs. Techniques for cooperative education, school-to-work, and work-based education programs. Includes educational opportunities off campus for professional development and career advancement. May be used toward Multioccupations Endorsement.

FCEDS 480: Pre-Student Teaching Experience in Family and Consumer Sciences Education  
(0-2) Cr. 1. Repeatable. F.S.  
Prereq: Admission to teacher education.  
Laboratory experience in foods, textiles and human development in family and consumer sciences secondary programs. At least 2 hour blocks of time needed for field experience. Observation of family and consumer sciences laboratories in diverse classrooms. Planning, implementing, managing and assessing laboratory lessons in family and consumer sciences. Offered on a satisfactory-fail basis only.

FCEDS 480A: Pre-Student Teaching Experience in FCS Education: Practicum in FCS Labs (High School)  
(0-2) Cr. 1. Repeatable. F.S.  
Prereq: FCEDS 306 and admission to teacher education  
Laboratory experience in foods, hospitality management, culinary, prostart, textiles, fashion design, housing, and human development related to family and consumer sciences courses taught at the secondary level. Planning, implementing, managing, and assessing laboratory lessons in family and consumer sciences. Includes 24 hours practicum and supervised individual teaching. Offered on a satisfactory-fail basis only.

FCEDS 480B: Pre-Student Teaching Experience in FCS Education: Practicum in Diverse Settings (Middle School)  
(0-2) Cr. 1. Repeatable. F.S.  
Prereq: FCEDS 306 and admission to teacher education  
Laboratory experience in foods, textiles, and human development related to family and consumer sciences exploratory programs. Planning, implementing, managing and assessing laboratory lessons in family and consumer sciences. Includes 24 hours practicum and supervised individual teaching. Offered on a satisfactory-fail basis only.

FCEDS 490: Independent Study  
Cr. arr. F.S.S.S.

FCEDS 490G: Independent Study: General  
Cr. arr. F.S.S.S.

FCEDS 490H: Independent Study: Honors  
Cr. arr. F.S.S.S.

FCEDS 491: Supervised Experiences in a Professional Setting  
Cr. 3-8. Repeatable. F.S.S.S.  
Prereq: HD FS 418B; 24 credits in family and consumer sciences; reservation required  
Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency. Offered on a satisfactory-fail basis only.

FCEDS 491A: Supervised Experiences in a Professional Setting: Communications  
Cr. 3-8. Repeatable, maximum of 8 credits. F.S.S.S.  
Prereq: HD FS 418B; 24 credits in family and consumer sciences; reservation required  
Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency. Offered on a satisfactory-fail basis only.

FCEDS 491B: Supervised Experiences in a Professional Setting: Professional Studies  
Cr. 3-8. Repeatable, maximum of 8 credits. F.S.S.S.  
Prereq: HD FS 418B; 24 credits in family and consumer sciences; reservation required  
Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency. Offered on a satisfactory-fail basis only.

Finance (FIN)  
Courses primarily for undergraduates:

FIN 301: Principles of Finance  
(3-0) Cr. 3. F.S.S.S.  
Prereq: ACCT 284, ECON 101, STAT 226  
Introduction to financial management with emphasis on corporate financing and investment decision making, time value of money, asset valuation, capital budgeting decision methods, cash budgeting, and financial markets.

FIN 310: Corporate Finance  
(3-0) Cr. 3. F.S.S.S.  
Prereq: FIN 301  
Theory used in a firm's investment and financing decisions. Analysis of environment in which financial decisions are made; applications of analytical techniques to financial management problems.
FIN 320: Investments
(3-0) Cr. 3. F.S.SS.
Prereq: FIN 301
Introduction to securities and markets from the viewpoint of the individual investor. Emphasis on mechanics of trading, measurement of return and risk, behavior of security prices, valuation of stocks and bonds, mutual funds, portfolio selection techniques, and performance evaluation.

FIN 327: Fixed Income Securities
(3-0) Cr. 3.
Prereq: FIN 301
Valuation of fixed income securities, including pricing conventions, term structure of interest rates, default, duration, and hedging of interest rate risk with derivatives. Analysis of bond market sectors, including treasury, agency, corporate, sovereign, municipal, and residential mortgage bonds.

FIN 330: Financial Markets and Institutions
(3-0) Cr. 3. F.S.
Prereq: FIN 301
Introduction to the structure and operations of the United States financial system and its markets and institutions. Emphasis on developing an integrated understanding of markets and financial service providers including global linkages.

FIN 361: Personal Risk Management and Insurance
(3-0) Cr. 3. F.S.
Prereq: ECON 101
Risk concepts and the use of insurance by individuals and families. Emphasis on the insurance mechanism and methods of dealing with income, property, and liability risks.

FIN 371: Real Estate Principles
(3-0) Cr. 3. SS.
Prereq: ECON 101
Legal, economic, social and financial aspects of real estate, including property rights, contracts, mortgage instruments, tax factors, brokerage, valuation, risk and return analysis, financing techniques, and investments.

FIN 415: Business Financing Decisions
(3-0) Cr. 3.
Prereq: FIN 301
In depth study of the firm’s external financing decision. Emphasis on the development of cash flow statements, projected financing needs and the selection of the appropriate financing instrument. Focus on case studies and application of developed techniques on actual field project.

FIN 424: Financial Futures and Options
(3-0) Cr. 3.
Prereq: FIN 320 and STAT 326
Advanced study of pricing and using derivatives - instruments deriving value from fundamental items such as commodities, currency exchange rates, market indices, equities and bonds. Addresses basic building blocks of derivatives (i.e., forwards, futures, options and swaps) and relevant current topics and issues.

FIN 425: Security Analysis and Portfolio Management
(3-0) Cr. 3. F.S.
Prereq: FIN 320, STAT 326 and permission of instructor
Advanced study of security analysis, security selection techniques and portfolio management. Emphasis on the applications of methods learned via the selection and evaluation of a portfolio of actual securities purchased in securities markets in the U.S. or abroad. Tracking and periodic reporting of the portfolio’s performance relative to standard benchmarks is also required.

FIN 428: Advanced Fixed Income Analysis and Portfolio Management
(Dual-listed with FIN 528). (3-0) Cr. 3.
Prereq: FIN 327, FIN 320, STAT 326
Advanced analysis of fixed income markets and securities, including valuation and trading of treasury securities, corporate bonds, mortgage backed securities. Analysis of structured financial securities, including CDO, CMBS, and ABS. Analysis of active and passive investment strategies for managing fixed income portfolios. Students are required to manage a fixed income portfolio for an institutional investor. A top-down approach to portfolio management is assumed, with active bets taken on market direction, duration, yield curve, and credit spreads.

FIN 435: Venture Capital, Private Equity, and Mergers and Acquisitions
(3-0) Cr. 3. S.
Prereq: FIN 310, FIN 320, STAT 326
An advanced investments class that focuses on alternative investments. Topics include techniques for valuing public and private firms, venture capital finance, investment banking, private equity finance, leveraged buyouts, hedge funds, the structure and financing of mergers and acquisitions, and divestitures.

FIN 445: Bank Management Decisions
(3-0) Cr. 3. F.S.
Prereq: STAT 326; and FIN 330 or ECON 353
Analysis of operations of depository financial institutions from management viewpoint. Emphasis on evaluating performance, policy formation, asset and liability management, the role of capital, and the operating environment.
FIN 462: Corporate Risk Management and Insurance  
(3-0) Cr. 3. F.  
Prereq: FIN 301 and STAT 326  
Analysis of an organization’s approaches to the management of price, credit, and pure risk. Emphasis on the consideration and selection of risk control and financing treatments and the decision making framework underlying the alternatives selected. Covers commercial insurance, self-insurance, and alternative financing arrangements.

FIN 472: Real Estate Finance  
(3-0) Cr. 3.  
Prereq: FIN 301 and STAT 326  
Introduction to the techniques of assessing the value of real estate and real estate financing instruments.

FIN 474: Real Estate Investment  
(3-0) Cr. 3. F.S.  
Prereq: FIN 301, FIN 371  
Introduction to theories and methods of investment analysis applied to real estate. Studies cash flow analysis, alternative measures of investment performance, the impact of the financing decision on real estate investment risks and return, and various real estate financing techniques. Covers cases involving more complex financing and capital markets tools used in real estate.

FIN 480: International Finance  
(3-0) Cr. 3. F.S.  
Prereq: FIN 310, FIN 320 or FIN 330  
Advanced study of currency market equilibrium, use and analysis of currency derivatives, hedging currency risk, and additional topics, which could include multinational capital budgeting, taxation, raising capital internationally, international portfolio diversification, international capital market equilibrium, political and country risk, financing international trade, multinational corporate treasury management, and current issues.

FIN 490: Independent Study  
Cr. 1-3. Repeatable.  
Prereq: FIN 301, STAT 326 and permission of instructor

FIN 499: Finance Internship  
(3-0) Cr. 1-3. F.S.S.  
Prereq: GPA 2.5; permission of internship coordinator; STAT 326  
Supervised experience in a private sector banking, insurance, real estate, investments or corporate organization or in a governmental agency that regulates such organizations. Offered on a satisfactory-fail basis only.

FIN 499A: Finance Internship: Banking  
(3-0) Cr. 1-3. F.S.S.  
Prereq: GPA 2.5; permission of internship coordinator; STAT 326  
Supervised experience in a private sector banking, insurance, real estate, investments or corporate organization or in a governmental agency that regulates such organizations. Offered on a satisfactory-fail basis only.

FIN 499B: Insurance  
(3-0) Cr. 1-3. F.S.S.  
Prereq: GPA 2.5; permission of internship coordinator; FIN 361 and STAT 326  
Supervised experience in a private sector insurance organization or in a governmental agency that regulates such organizations. Offered on a satisfactory-fail basis only.

FIN 499C: Real Estate  
(3-0) Cr. 1-3. F.S.S.  
Prereq: GPA 2.5; permission of internship coordinator; FIN 301 plus 3 additional credits in finance and STAT 326  
Supervised experience in a private sector real estate organization or in a governmental agency that regulates such organizations. Offered on a satisfactory-fail basis only.

FIN 499D: Investments  
(3-0) Cr. 1-3. F.S.S.  
Prereq: GPA 2.5; permission of internship coordinator; FIN 320 and STAT 326  
Supervised experience in a private sector investment organization or in a governmental agency that regulates such organizations. Offered on a satisfactory-fail basis only.

FIN 499E: Corporate  
(3-0) Cr. 1-3. F.S.S.  
Prereq: GPA 2.5; permission of internship coordinator; FIN 310 and STAT 326  
Supervised experience in a private sector corporate organization or in a governmental agency that regulates such organizations. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

FIN 501: Financial Valuation and Corporate Financial Decisions  
(3-0) Cr. 3.  
Prereq: Enrollment in MBA program or departmental permission.  
Shareholder wealth maximization as the goal of the firm within a social responsibility context, financial Math, valuation of securities, the global financial market place as the test of value, estimation of cost of capital, global capital investment decisions, capital structure policy, working capital management.
FIN 510: Advanced Corporate Finance
(3-0) Cr. 3.
Prereq: FIN 501
Examines corporate financial decisions, including theory and associated empirical evidence. Topics include agency conflicts, corporate governance, executive compensation, becoming publicly traded, raising capital through public and private offerings, capital structure, financial distress and bankruptcy, leasing, dividend policy, corporate control, restructuring, and risk management.

FIN 515: Case Studies in Financial Decision Making
(3-0) Cr. 3.
Prereq: FIN 501
This course focuses on case studies to develop an integrated set of financial decisions. Topic areas include fixed asset, working capital, capital structure, dividend and merger/acquisition decisions. The objective of the course is to examine different firm settings and establish a framework within which to apply financial tools.

FIN 520: Investments
(3-0) Cr. 3.
Prereq: FIN 501
Analysis of risk and return for individual securities and portfolios of securities. Topics include the market environment, mechanics of trading, measurement of return and risk, valuation of stocks and bonds, mutual funds, optimal asset allocation, market efficiency, portfolio performance evaluation, and risk management.

FIN 528: Advanced Fixed Income Analysis and Portfolio Management
(Dual-listed with FIN 428). (3-0) Cr. 3.
Prereq: FIN 327, FIN 320, STAT 326
Advanced analysis of fixed income markets and securities, including valuation and trading of treasury securities, corporate bonds, mortgage backed securities. Analysis of structured financial securities, including CDO, CMBS, and ABS. Analysis of active and passive investment strategies for managing fixed income portfolios. Students are required to manage a fixed income portfolio for an institutional investor. A top-down approach to portfolio management is assumed, with active bets taken on market direction, duration, yield curve, and credit spreads.

FIN 530: Financial Analysis and Valuation
(3-0) Cr. 3.
Prereq: FIN 501
Valuation of public and private firms through analysis of financial statements and other information. Study of drivers of value creation, industry analysis, patterns of growth, models for forecasting and analyzing firm cash flows, estimating and adjusting cost of capital, alternative methods of cash flow valuation, the calculation and use of valuation multiples, and valuing mergers and acquisitions.

FIN 534: Financial Derivatives
(3-0) Cr. 3. F.
Prereq: Graduate classification
An applied course in derivative markets. Topics covered include futures and options markets, option pricing, swaps, use and rating of insurance products, and alternative forms of reinsurance. Emphasis will be placed on agricultural commodity markets, but energy, interest, currency and stock index contracts will also be covered.

FIN 535: Venture Capital, Private Equity, and Mergers and Acquisitions
(3-0) Cr. 3.
Prereq: FIN 501
Advanced investments class focusing on alternative investments. Topics include the nature and scope of investment banking, techniques for valuing public and private firms, venture capital finance, private equity finance, leveraged buyouts, hedge funds, the structure and financing of mergers and acquisitions, and divestitures.

FIN 550: Financial Econometrics
(3-0) Cr. 3.
Prereq: FIN 501, ECON 571
Analysis, modeling, and forecasting of time series data, volatility modeling and forecasting, maximum likelihood estimation, robust standard error computation, specification testing, estimation under alternative distributional assumptions, and Monte Carlo simulation. Applications include tests of asset pricing models, analysis of asset volatility, corporate event studies, and value at risk analysis.

FIN 564: Advanced Derivatives and Risk Management
(3-0) Cr. 3.
Prereq: FIN 501, FIN 534
Risk management tools and how they are applied within financial institutions and the corporate enterprise. Focus on measuring exposure to stock market risk, interest rate risk, currency risk, and credit risk and how these exposures may be managed. Topics include bank risk management regulations, volatility modeling, value at risk analysis, extreme value theory, credit default swaps, and portfolio simulation.

FIN 572: Real Estate Finance
(3-0) Cr. 3.
Prereq: MBA Core
Survey of techniques for assessing the value of real estate assets. Introduction to real estate financing instruments, their use and appropriateness.

FIN 590: Special Topics
Cr. 1-3. Repeatable. F.S.SS.
Prereq: Permission of instructor
For students wishing to do individual research in a particular area of finance.
Food Science and Human Nutrition (FS HN)

Courses primarily for undergraduates:

FS HN 101: Food and the Consumer
(3-0) Cr. 3. F.S.
Prereq: High school biology and chemistry or 3 credits each of biology and chemistry

FS HN 102: Nutrition for Sport Performance
(1-0) Cr. 1. F.S.
Analysis of the body's use of nutrients for energy. How to select a balanced diet to meet specific athletic performance needs and for lifelong wellness. Macronutrient needs before, during and after specific sport activities. Analysis of claims and evidence regarding dietary supplements for sport performance.

FS HN 104: Introduction to Professional Skills in Culinary Science
(0-6) Cr. 1. S.
Introduction to culinary science. Students will develop fundamental culinary skills by arranged on-campus work experience (100 hours). Sessions with instructor arranged.

FS HN 110: Professional and Educational Preparation
(1-0) Cr. 1. F.S.
Introduction to professional and educational development within the food science and human nutrition disciplines. Focus is on university and career acclimation as well as enhancement of communication skills. Offered on a satisfactory-fail basis only.

FS HN 111: Fundamentals of Food Preparation
(2-0) Cr. 2. F.S.
Prereq: FS HN 101 or FS HN 167; high school chemistry or CHEM 160; concurrent enrollment in FSHN 115.

FS HN 115: Food Preparation Laboratory
(0-3) Cr. 1. F.S.
Prereq: Credit or enrollment in FS HN 111 or FS HN 214
Practice standard methods of food preparation with emphasis on quality, nutrient retention, and safety.

FS HN 120: The Biochemistry of Beer
(Cross-listed with BBMB). (2-0) Cr. 2.
An introduction to the major classes of biomolecules, basic biochemical concepts, enzymology, metabolism and genetic engineering as they apply to the production and flavor of beer. All aspects of the biochemistry of beer will be covered, including the malting of barley, starch conversion, yeast fermentation and the chemical changes that occur during the aging of beer. Intended for non-majors. Natural science majors are limited to elective credit only.

FS HN 167: Introduction to Human Nutrition
(3-0) Cr. 3. F.S.S.
Prereq: High school biology or 3 credits of biology
Understanding and implementing present day knowledge of nutrition. The role of nutrition in the health and well being of the individual and family.

FS HN 203: Contemporary Issues in Food Science and Human Nutrition
(1-0) Cr. 1. F.S.
Introduction to presentation of published research and discussion of current issues in food science and human nutrition. Emphasis on sources of credible information, ethics, and communication.

FS HN 207: Processing of Foods: Basic Principles and Applications
(1-3) Cr. 2. F.
Prereq: FS HN 101
Lecture and lab-based instruction on principles of food processing for preservation, raw food materials and their impact on food processing, food product-based discussion and activities highlighting required unit operations and resulting food quality and safety; water, heat, acidity, and oxygen effect on processing, separation and mixing operations, packaging materials properties and methods, and cleaning and sanitation in processing plants.

FS HN 214: Scientific Study of Food
(3-0) Cr. 3. F.S.
Prereq: FS HN 167 or FS HN 265; CHEM 231 or CHEM 331; plus concurrent enrollment in FS HN 115 or 215

FS HN 215: Advanced Food Preparation Laboratory
(0-6) Cr. 2. F.S.
Prereq: Credit or enrollment in FS HN 214
Practice standard methods of food preparation with emphasis on quality, nutrient retention, and safety. Development of culinary skills and advanced food preparation.
FS HN 242: The US Food System
(3-0) Cr. 3. S.
Exploration of the components of our food system including food production, food processing, and food access and the social, political and ethical influences on these components. Controversial topics related to how food is produced, processed, marketed and consumed will be discussed.

FS HN 264: Fundamentals of Nutritional Biochemistry and Metabolism
(3-0) Cr. 3. F.
Prereq: FS HN 167; CHEM 163, CHEM 163L; BIOL 211
Digestion, absorption, metabolism, and biochemical functions of nutrients. Biochemical aspects of nutrient deficiencies.

FS HN 265: Nutrition for Active and Healthy Lifestyles
(3-0) Cr. 3. S.
Prereq: FS HN 167, plus credit or enrollment in BBMB 301 or credit in FS HN 264

FS HN 276: Understanding Grape and Wine Science
(Cross-listed with HORT). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: High school biology and chemistry.
A scientific introduction to viticulture (grape-growing) and enology (wine-making). Topics include grape species and varieties, viticulture practices, fruit quality, geography, history, principles of fermentation and aging, wine classification, appreciation, evaluation, storage and service, regulations, wine as food. No wine tasting.

FS HN 308: Dairy Products: Current Issues and Controversies
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Course will address milk chemistry, microbiology, handling, processing, regulations, organic production, and nutrition; dispel myths about dairy foods; improve critical thinking and communication skills. Students will participate in structured controversies.

FS HN 311: Food Chemistry
(3-0) Cr. 3. F.
Prereq: CHEM 231 or CHEM 331; credit or enrollment in BBMB 301
The structure, properties, and chemistry of food constituents and animal and plant commodities.

FS HN 311L: Food Chemistry Laboratory
(0-3) Cr. 1. F.
Prereq: Credit or concurrent enrollment in FSHN 311.
The laboratory practices of structure, properties, and chemistry of food constituents.

FS HN 314: Foundations of Culinary Food Science
(1-0) Cr. 1. S.
Introduction to the roles culinary scientists hold within industry including product development, research, and quality assurance. Discussions focused on professional and educational development, enhancement of communication skills, ethics and emerging issues and trends in culinary science.

FS HN 315: Professional Development for Food Science Majors
(2-0) Cr. 2. F.
Prereq: Food Science major with at least a junior level status
Preparation for internships and careers in Food Science. Importance of soft skills and application of those skills to potential job situations.

FS HN 340: Foundations of Dietetic Practice
(1-0) Cr. 1. F.
Prereq: DIET or PDEX classification
Introduction to the profession of dietetics and responsibilities associated with dietetic professional practice. Emphasis on exploring career options in dietetics and preparation for a dietetic internship. Leadership and professional career development for the dietitian is addressed through self reflection, creation of materials for post-baccalaureate programs and job shadowing experience. Professional issues related to dietetic practice include Code of Ethics, legal credentialing and standards of professional practice, leadership and future trends in the profession. Offered on a satisfactory-fail basis only.

FS HN 342: World Food Issues: Past and Present
(Cross-listed with AGRON, ENV S, T SC). (3-0) Cr. 3. F.S.
Prereq: Junior classification
Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects.
Meets International Perspectives Requirement.

FS HN 351: Introduction to Food Engineering Concepts
(3-0) Cr. 3. S.
Prereq: FS HN 207, MATH 160 or equivalent, and PHYS 111 or equivalent
Methodology for solving problems in food processing and introduction to food engineering concepts including food properties, material and energy balances, sources of energy, thermodynamics, fluid flow, heat transfer, and mass transfer.
FS HN 360: Advanced Nutrition and Regulation of Metabolism  
(3-0) Cr. 3. F.  
Prereq: FS HN 265; 3 credits in biochemistry; 3 credits in physiology recommended  
Physiological and biochemical basis for nutrient needs; assessment of nutrient deficiency and toxicity; examination of nutrient functions and regulation of metabolism; nutrient-gene interactions.

FS HN 361: Nutrition and Health Assessment  
(1-3) Cr. 2. S.  
Prereq: FS HN 265; 3 credits in statistics; 3 credits in physiology recommended  
The assessment of nutritional status in healthy individuals. Laboratory experiences in food composition and assessment of dietary intake, body composition, and biochemical indices of nutritional status.

FS HN 362: Nutrition in Growth and Development  
(3-0) Cr. 3. S.  
Prereq: FS HN 360; credit or enrollment in a course in physiology  
Molecular, biochemical and physiological basis to understand the nutritional aspects of human development and aging. Nutrient needs and various disease states at each stage of human life cycle.

FS HN 364: Nutrition and Prevention of Chronic Disease  
(3-0) Cr. 3. F.  
Prereq: FS HN 264 or FS HN 265  
Overview of nutrients, their functions, metabolism, food sources and optimal choices for the promotion of health and wellness. Nutrition strategies for the prevention of chronic disease, including cancer, diabetes and obesity, as they apply to individuals or the wider population will be discussed.

FS HN 365: Obesity and Weight Management  
(3-0) Cr. 3. S.  
Prereq: BIOL 256 and BIOL 256L, or BIOL 306  
Multifactorial aspects of obesity, maintenance of healthy weight, and the relationship of weight status and chronic disease prevention. Traditional and novel nutrition and exercise theories as well as current popular diet and exercise trends will be discussed.

FS HN 366: Communicating Nutrition Messages  
(3-0) Cr. 3. S.  
Prereq: FS HN 264 or FS HN 265  
Theory and application of adult learning and behavior change as it relates to the role of nutrition in health promotion and disease prevention. Discussion of nutrition education and interventions relative to various models. Factors to consider in developing the nutrition education/intervention practicum experience. Focus on communication strategies for providing nutrition messages to diverse community audiences using various forms of media and outreach (print, radio, TV, newspaper, consumer publications, websites, community venues). Development of nutrition messages using various forms of media for a target population.

FS HN 367: Medical Terminology for Health Professionals  
(1-0) Cr. 1. F.S.SS.  
An independent course focused on medical terminology, abbreviations, and simple clinical mathematical calculations. (offered online only).

FS HN 403: Food Laws and Regulations  
(2-0) Cr. 2. S.SS.  
Prereq: 3 credits in food science coursework at 200 level or above  

FS HN 405: Food Quality Assurance  
(Dual-listed with FS HN 505). (2-0) Cr. 2. S.  
Prereq: FS HN 214 or FS HN 311; STAT 101 or STAT 104  
Basis of food quality control/assurance programs and establishment of decision-making processes using official (government and industry) instrumental, chemical, and sensory procedures. Statistical process and quality control procedures and their applications to various food systems. Development of hazard analysis procedures, specifications, grades, standards, and the procedures and processes which can affect the overall microbiological safety of the food.

FS HN 406: Sensory Evaluation of Food  
(Dual-listed with FS HN 506). (2-3) Cr. 3. F.  
Prereq: FS HN 214 or FS HN 311 or AN S 360; 3 credits in statistics  
Sensory evaluation techniques used to evaluate the appearance, aroma, flavor, texture and acceptability of foods. Relationships between sensory and instrumental measurements of color and texture. Work independently and cooperatively (in a team) to identify sensory evaluation objectives, write hypotheses, design and conduct experiments, and analyze and interpret data.
FS HN 407: Microbiological Safety of Foods of Animal Origins
(Dual-listed with FS HN 507). (Cross-listed with MICRO). (3-0) Cr. 3. S.
Prereq: MICRO 420
Examination of the various factors in the production of foods, from production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. Upon successful completion of this class, the student will receive both the Preventive Controls for Human Foods certificate (FDA program) and the International HACCP Alliance certificate (USDA-FSIS program).

FS HN 408: Dairy Products Evaluation
(0-3) Cr. 1. S.
Prereq: Permission of instructor
Gain experience in identifying quality defects in dairy products including milk, cottage cheese, cheddar cheese, strawberry yogurt, butter, and vanilla ice cream. Intensive training for the National Collegiate Dairy Products Evaluation competition and for dairy product evaluation in the food industry.

FS HN 410: Food Analysis
(2-3) Cr. 3. F.
Prereq: FS HN 214 or FS HN 311 or CHEM 211
An introduction to the theory and application of chemical and instrumental methods for determining the constituents of food. Use of standard procedures for food analysis and food composition data bases.

FS HN 411: Food Ingredient Interactions and Formulations
(1-3) Cr. 2. F.S.
Prereq: FSHN 214 or FS HN 311 and FS HN 115, FS HN 215 or FS HN 311L
Application of food science principles to ingredient substitutions in food products. Laboratory procedures for standard formulations and instrumental evaluation, with emphasis on problem-solving and critical thinking.

FS HN 412: Food Product Development
(Dual-listed with FS HN 512). (1-6) Cr. 3. S.
Prereq: FS HN 311 or FS HN 411
Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, quality, sensory and processing. Some pilot plant experiences. Emphasis on teamwork and effective communication.

FS HN 419: Foodborne Hazards
(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: MICRO 201 or MICRO 302, a course in biochemistry
Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards. Assessed service learning component. Only one of FS HN 419 and FS HN 519 may count toward graduation.

FS HN 420: Food Microbiology
(Cross-listed with MICRO, TOX). (3-0) Cr. 3. F.
Prereq: MICRO 201 or MICRO 302
Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications.

FS HN 421: Food Microbiology Laboratory
(Cross-listed with MICRO). (0-6) Cr. 3. S.
Prereq: MICRO 201 or MICRO 302; MICRO 201L or MICRO 302L. Credit or enrollment in FS HN/MICRO 420
Standard techniques used for the microbiological examination of foods. Independent and group projects on student-generated questions in food microbiology. Emphasis on oral and written communication and group interaction.

FS HN 440: Bioprocessing and Bioproducts
(Dual-listed with FS HN 540). (Cross-listed with C E). (3-0) Cr. 3. F.
Prereq: C E 326 or equivalent, MATH 160 or MATH 165, CHEM 167 or higher, BIOL 173 or BIOL 211 or higher, senior or graduate classification

FS HN 442: Issues in Food and Society
(2-0) Cr. 2. F.
Prereq: FS HN 242, FS HN 342
In-depth discussion, synthesis, and analysis of domestic and international food issues including: food systems from farm to fork, poverty and world hunger, overnutrition, population, agriculture and the environment, ethics, biotechnology, and policy.
FS HN 460: Global Nutrition
(Dual-listed with NUTRS 560 FS HN 560). (3-0) Cr. 3.
Prereq: FS HN 361 or equivalent; senior or graduate standing
An overview of global nutrition issues, including the sociocultural, biological, economic, and environmental context of nutrition related topics. The etiology, epidemiology, and program/policy responses to issues will be presented. Areas to be covered include childhood malnutrition, growth stunting, micronutrient deficiencies, parasites and nutrition, sanitation, and obesity and chronic disease incidence in developing countries. Participatory course, students will engage in a series of class activities, discussions, and presentations.

FS HN 461: Medical Nutrition and Disease I
(4-0) Cr. 4. F.
Prereq: FS HN 360, FS HN 361, FS HN 367; plus BIOL 256 and 256L or BIOL 306 or BIOL 335
Dual-listed with NutrS 561 Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state.

FS HN 463: Community Nutrition
(3-0) Cr. 3. F.
Prereq: FS HN 265 or FS HN 360; FS HN 366 recommended
Dual-listed with NutrS 563. Survey of current public health nutrition problems among nutritionally vulnerable individuals and groups. Discussion of the multidimensional nature of those problems and of community programs addressing them. Grant writing as a means for funding community nutrition program development. Significant emphasis on written and oral communication at the lay and professional level. Field trip.
Meets U.S. Diversity Requirement

FS HN 464: Medical Nutrition and Disease II
(3-0) Cr. 3. S.
Prereq: FS HN 461
(Dual-listed with NutrS 564) Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state.

FS HN 466: Nutrition Counseling and Education Methods
(Dual-listed with FS HN 566). (2-2) Cr. 3. F.
Prereq: FS HN 361 and FS HN 362
Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

FS HN 467: Molecular Basis of Nutrition in Disease Prevention
(3-0) Cr. 3. S.
Prereq: FS HN 360 or equivalent
Understanding the molecular basis for the role of nutrients, nutrient-derivatives, and bioactive compounds in the development and prevention of common diseases including diabetes, cancer, vascular disease, obesity, neurological disease and autoimmune disease. Translating this understanding into practical approaches for improving the health of individuals and populations.

FS HN 471: Food Processing
(3-0) Cr. 3. F.
Prereq: FS HN 351 or A E 451 or CH E 357; MICRO 201 or 302.
Principles and application of food processing using both thermal (ex., blanching, pasteurization, canning, drying, freezing, evaporation,aseptic processing, extrusion) and non-thermal (ex., high pressure, irradiation, pulsed electric field) unit operations. Emphasis on process heat and mass transfer, numerical problem solving and equipment.

FS HN 472: Food Processing Laboratory
(1-3) Cr. 2. F.
Prereq: Credit or enrollment in FS HN 471 or A E 451 or CH E 357
Hands-on and demonstration laboratory activities related to food processing principles and applications using pilot-scale equipment. Laboratory experiences include important food processing operations, e.g., blanching/ pasteurization, canning, freezing, drying, corn wet milling, fermentation, baking etc. Emphasis on interpreting data, writing reports and presentations. Occasional field trips.

FS HN 480: Professional Communication in Food Science and Human Nutrition
(1-0) Cr. 1. F.S.
Prereq: FS HN 203, senior classification in the department
Presentation of current topics using written and oral communication to a lay audience. Emphasis on communication skills for the profession.

FS HN 489: Issues in Food Safety
(Cross-listed with AN S, HSP M, VDPAM). (1-0) Cr. 1. S.
Prereq: Credit or enrollment in FS HN 101 or FS HN 272 or HSP M 233; FS HN 419 or FS HN 420; FS HN 403
Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

FS HN 490: Independent Study
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.
Prereq: Permission of instructor
Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.
FS HN 490A: Independent Study: Dietetics  
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.  
Prereq: Permission of instructor  
Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490B: Independent Study: Food Science  
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.  
Prereq: Permission of instructor  
Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490C: Independent Study: Nutrition  
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.  
Prereq: Permission of instructor  
Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490D: Independent Study: International Experience  
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.  
Prereq: Permission of instructor  
Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490E: Independent Study: Entrepreneurship  
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.  
Prereq: Permission of instructor  
Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 490H: Independent Study: Honors  
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.  
Prereq: Permission of instructor  
Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

FS HN 491: Supervised Work Experience  
Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S.  
Prereq: Advance approval of instructor and adviser  
Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491A: Supervised Work Experience: Dietetics  
Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S.  
Prereq: Advance approval of instructor and adviser  
Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491B: Supervised Work Experience: Food Science  
Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S.  
Prereq: Advance approval of instructor and adviser  
Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491C: Supervised Work Experience: Nutrition  
Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S.  
Prereq: Advance approval of instructor and adviser  
Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 491D: Supervised Work Experience: Culinary Science  
Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S.  
Prereq: Advance approval of instructor and adviser  
Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

FS HN 492: Research Concepts in Human Nutrition  
(1-3) Cr. 2. F.  
Prereq: senior classification or permission of instructor; FS HN 360  
Students will develop and implement research projects with faculty supervision, based on knowledge gained from nutrition, biology and chemistry courses. Students will prepare a research proposal, conduct research and report results. Students will gain appreciation for independent research and experience creative and innovative aspects of nutrition research.

FS HN 493: Food Preparation Workshop  
(1-3) Cr. 1-3.  
Selected topics in food preparation including scientific principles, culture and culinary techniques. Variable format may include laboratory, recitation, and lecture. Offered on a satisfactory-fail basis only.

FS HN 495: Practicum  
(1-3) Cr. 2. F.S.  
Prereq: Senior classification in Nutritional Science-Nutrition and Wellness option or permission of instructor; FS HN 366; credit or enrollment in FS HN 463.  
Students will develop, implement and assess a community-based project that engages groups in learning and practicing concepts related to nutrition and wellness. Assessed service learning component.
FS HN 496: Food Science and Human Nutrition Travel Course
(Dual-listed with FS HN 596). Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor
(One credit per week traveled and 1 credit for pre-departure class, if offered.) Limited enrollment. Tour and study of food industry, culinary science, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

FS HN 496A: Food Science and Human Nutrition Travel Course:
International travel
(Dual-listed with FS HN 596A). Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor
(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students. Meets International Perspectives Requirement.

FS HN 496B: Food Science and Human Nutrition Travel Course: Domestic travel
(Dual-listed with FS HN 596B). Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor
(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

FS HN 498: Cooperative Education
Cr. R. Repeatable, maximum of 2 times. F.S.SS.
Prereq: Permission of department chair.
Required for students completing professional work periods in a cooperative education program. Students must register prior to commencing each work period. Offered on a satisfactory-fail basis only.

FS HN 499: Undergraduate Research
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.
Prereq: Permission of staff member with whom student proposes to work
Research under staff guidance. A maximum of 6 credits of FS HN 499 may be used toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

FS HN 505: Food Quality Assurance
(Dual-listed with FS HN 405). (2-0) Cr. 2. S.
Prereq: FS HN 214 or FS HN 311; STAT 101 or STAT 104
Basis of food quality control/assurance programs and establishment of decision-making processes using official (government and industry) instrumental, chemical, and sensory procedures. Statistical process and quality control procedures and their applications to various food systems. Development of hazard analysis procedures, specifications, grades, standards, and the procedures and processes which can affect the overall microbiological safety of the food.

FS HN 506: Sensory Evaluation of Food
(Dual-listed with FS HN 406). (2-3) Cr. 3. F.
Prereq: FS HN 214 or FS HN 311 or AN S 360; 3 credits in statistics
Sensory evaluation techniques used to evaluate the appearance, aroma, flavor, texture and acceptability of foods. Relationships between sensory and instrumental measurements of color and texture. Work independently and cooperatively (in a team) to identify sensory evaluation objectives, write hypotheses, design and conduct experiments, and analyze and interpret data.

FS HN 507: Microbiological Safety of Foods of Animal Origins
(Dual-listed with FS HN 407). (Cross-listed with MICRO). (3-0) Cr. 3. S.
Prereq: MICRO 420
Examination of the various factors in the production of foods, from production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. Upon successful completion of this class, the student will receive both the Preventive Controls for Human Foods certificate (FDA program) and the International HACCP Alliance certificate (USDA-FSIS program).

FS HN 511: Integrated Food Science
(3-0) Cr. 3. F.
Prereq: 3 credits in each of organic chemistry, physics, mathematics, and microbiology.
Critical review of the key principles of food science and applications in the chemistry, microbiology, and processing of food. Understanding of the impact of processing on the quality of foods with respect to composition, quality and safety.

FS HN 512: Food Product Development
(Dual-listed with FS HN 412). (1-6) Cr. 3. S.
Prereq: FS HN 311 or FS HN 411
Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, quality, sensory and processing. Some pilot plant experiences. Emphasis on teamwork and effective communication.
FS HN 516: Advanced Nutrition I  
(2-0) Cr. 2. F.S.S.  
Prereq: Acceptance in the Master’s of Professional Practice in Dietetics program.  
Examination of current literature relative to molecular, cellular, and physiologic aspects of macronutrient and micronutrient metabolism. Integration of current evidence-based information, including peer-reviewed literature, to inform advanced professional nutrition practice.

FS HN 518: Advanced Nutrition II  
(2-0) Cr. 2. F.S.S.  
Prereq: Acceptance in the Master’s of Professional Practice in Dietetics program.  
Principles of research design/methods and interpreting results/statistics in the current peer-reviewed scientific literature. Critical evaluation of the evidence-base to inform advanced professional nutrition practice.

FS HN 519: Food Toxicology  
(Cross-listed with NUTRS, TOX). (3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: A course in biochemistry  
Basic principles of toxicology. Toxicants in the food supply: modes of action, toxicant defense systems, toxicant and nutrient interactions, risk assessment. Assessed service learning component. Only one of FS HN 419 and FS HN 519 may count toward graduation.

FS HN 521: Microbiology of Food  
(2-0) Cr. 2. S.S.  
Prereq: A course in microbiology with laboratory; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.  
This course deals with the identification, enumeration, and characterization of bacteria, yeasts, and mold associated with foods and food processing. Effects of physical and chemical agents on microorganisms will be studied. Microbiological problems in food spoilage, food preservation, food fermentation, and food-borne disease will be discussed. Offered online only.

FS HN 522: Advanced Food Microbiology and Biotechnology  
(2-0) Cr. 2. Alt. S., offered odd-numbered years.  
Prereq: Food microbiology, a course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.  
This course will cover basic principles in biotechnology and applied food microbiology, including current topics of interest in food biotechnology. Students will be introduced to recombinant DNA techniques and how they are applied to genetically modify microorganisms, the use of nucleic acids as tools of rapid detection of microorganisms in foods, basic enzyme immobilization and down-stream processing techniques, and regulatory aspects of food biotechnology. Offered online only.

FS HN 523: A Multidisciplinary Overview of Food Safety and Security  
(2-0) Cr. 2. F.S.S.  
Prereq: A course in biology or chemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.  
Multidisciplinary food safety and security perspectives provided by numerous subject matter experts. Topics include food safety policy, ag bioterrorism, border security, animal ID, food defense and site security, risk analysis, crisis communication, epidemiology, HACCP, and more. Offered online only.

FS HN 524: Food Microbiology  
(3-0) Cr. 3. F.  
Prereq: A course in microbiology with laboratory; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.  
Food Microbiology looks at the nature, physiology, and interactions of microorganisms in foods. The course is an introduction to food-borne diseases, the effect of food processing systems on the microflora of foods, principles of food preservation, food spoilage, and foods produced by microorganisms. Additionally, the course looks at food plant sanitation and criteria for establishing microbial standards for food products. Offered online only.

FS HN 525: Principles of HACCP  
(2-0) Cr. 2. F.  
Prereq: Undergraduate biology and chemistry courses; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.  
A comprehensive study of the Hazard Analysis and Critical Control Point System and its application in the food industry. Offered online only.

FS HN 526: Ethnic Foods: Food Safety, Food Protection and Defense  
(2-0) Cr. 2. SS.  
Prereq: Graduate standing; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.  
Understanding of the various factors that impact safety of ethnic and imported ethnic foods; knowledge about the handling, preparation, processing and storage of ethnic and imported foods and food products; science-based characterization of representative ethnic foods. Offered online only.

FS HN 527: Microbiology of Fermented Foods  
(2-0) Cr. 2. SS.  
Prereq: Food microbiology; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.  
Microbiology of fermented foods covers the physiology, biochemistry, and genetics of microorganisms important in food fermentations. The course looks at how microorganisms are used in fermentations and the effects of processing and manufacturing conditions on production of fermented foods. Offered online only.
FS HN 528: Food Protection and Defense-Essential Concepts
(2-0) Cr. 2. S.
Prereq: Enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
This course will provide students with an understanding of the principles required in a food defense program for a food manufacturing, warehousing or distribution center. The topics covered include: defining threats and aggressors; the Bioterrorism Act; food defense teams; vulnerability assessments; security programs; recall and traceability basics; security inspections; crisis management; emergency preparedness; and workplace violence. Offered online only.

FS HN 529: Foodborne Toxicants
(Cross-listed with TOX). (2-0) Cr. 2. F.
Prereq: A course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.
Mechanisms of action, metabolism, sources, remediation/detoxification, risk assessment of major foodborne toxicants of current interest, design of HAACP plans for use in food industries targeting foodborne toxicants, discussion of toxicants from a food defense perspective. Offered online only.

FS HN 538: Advanced Medical Nutrition Therapy
(3-0) Cr. 3. F.S.SS.
Prereq: Acceptance in the Master's of Professional Practice in Dietetics program.
Nutritional biochemistry and physiology related to selected pathophysiology of disease with emphasis on treatment of complex medical problems. The nutrition care process will be utilized. Evidenced-based practice will be integrated into each disease state covered. Offered WWW only.

FS HN 540: Bioprocessing and Bioproducts
(Dual-listed with FS HN 440). (Cross-listed with BRT, C E), (3-0) Cr. 3. F.
Prereq: C E 326 or equivalent, MATH 160 or MATH 165, CHEM 167 or higher, BIOL 173 or BIOL 211 or higher, senior or graduate classification

FS HN 542: Introduction to Molecular Biology Techniques
(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

FS HN 542A: Introduction to Molecular Biology Techniques: DNA Techniques
(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

Prereq: Graduate classification
Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

FS HN 542C: Introduction to Molecular Biology Techniques: Cell Techniques
(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

FS HN 542D: Introduction to Molecular Biology Techniques: Plant Transformation
(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.
Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

FS HN 542E: Introduction to Molecular Biology Techniques: Proteomics
(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.
Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

FS HN 542F: Introduction to Molecular Biology Techniques: Metabolomics
(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.
Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.
FS HN 542G: Introduction to Molecular Biology Techniques: Genomic
(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. S.
Offered on a satisfactory-fail basis only.

FS HN 554: Dietetic Internship I
(0-22) Cr. 5. S.SS.
For students enrolled in the Dietetic Internship program only. Supervised practice experience in operational management, medical nutrition therapy and community nutrition. Capstone research project: Technology in Health Promotion. Experiences and activities designed to meet accreditation standards.

FS HN 555: Dietetic Internship II
(0-18) Cr. 5. F.S.
Prereq: Concurrent enrollment or successful completion of FS HN 554
For students enrolled in the Dietetic Internship program only. Supervised practice experience in operational management, medical nutrition therapy and community nutrition. Capstone research project: Leadership Challenge. Experiences and activities designed to meet accreditation standards.

FS HN 556: Dietetic Internship III
(0-22) Cr. 5. F.S.
Prereq: Concurrent enrollment or successful completion of FS HN 554 and FS HN 555
For students enrolled in the Dietetic Internship program only. Supervised practice experience in operational management, medical nutrition therapy and community nutrition. Capstone research project: Evidenced Analysis Based Clinical Presentation. Experiences and activities designed to meet accreditation standards.

FS HN 560: Global Nutrition
(Dual-listed with FS HN 460). (Cross-listed with NUTRS). (3-0) Cr. 3.
Prereq: FS HN 361 or equivalent; senior or graduate standing
An overview of global nutrition issues, including the sociocultural, biological, economic, and environmental context of nutrition related topics. The etiology, epidemiology, and program/policy responses to issues will be presented. Areas to be covered include childhood malnutrition, growth stunting, micronutrient deficiencies, parasites and nutrition, sanitation, and obesity and chronic disease incidence in developing countries. Participatory course, students will engage in a series of class activities, discussions, and presentations.

FS HN 566: Nutrition Counseling and Education Methods
(Dual-listed with FS HN 466). (Cross-listed with DIET). (2-2) Cr. 3. F.
Prereq: FS HN 361 and FS HN 362
Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

FS HN 575: Processed Foods
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: FS HN 214 or FS HN 311; a course in nutrition
This course will examine effect of industrial and domestic food processing on the nutrient content of food and risk of developing chronic disease.

FS HN 580: Orientation to Food Science and Nutrition Research
(1-0) Cr. 1. F.
Orientation to and discussion of research interests in food science and nutrition. Discussion of policy and ethical issues in the conduct of research. Intended for entering students in FS HN. Offered on a satisfactory-fail basis only.

FS HN 581: Seminar
(1-0) Cr. 1. S.
Discussion and practice of oral presentation of scientific data in a professional setting. Discussion of issues related to data presentation. Intended for graduate students in their first or second semester in FS HN.

FS HN 590: Special Topics
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 590A: Special Topics: Nutrition
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 590B: Special Topics: Food Science
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 590C: Special Topics: Teaching
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

FS HN 595: Grant Writing for the Professional
(Cross-listed with DIET). (3-0) Cr. 3. SS.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Grant writing, identifying external funding, managing grants, preparing manuscripts for peer-reviewed publication, and preparing papers and poster for presentation at professional meetings.
FS HN 596A: Food Science and Human Nutrition Travel Course: International travel
(Dual-listed with FS HN 496A). Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor
(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students. Meets International Perspectives Requirement.

FS HN 596B: Food Science and Human Nutrition Travel Course: Domestic travel
(Dual-listed with FS HN 496B). Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor
(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

FS HN 597: Nutritional Aspects of Oncology
(Cross-listed with DIET, NUTRS). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: B.S. in nutrition, dietetics, biology, or related discipline.
Understanding of basic cancer biology and methodology used to study nutrition and cancer relationships. Using current research as a basis, the role of nutrition in specific cancers will be explored. Students will learn about sources of information for cancer prevention programs, and how to apply this information to clinical patient management.

FS HN 599: Creative Component
Cr. arr.
Nonthesis option only.

Courses for graduate students:

FS HN 606: Advanced Food Analysis and Instrumentation
(2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: FS HN 311, or FS HN 410, or FS HN 511 or equivalent.
Instrumental methods for measuring chemical and physical properties of foods, food quality and functionality. Techniques for methods development, sample preparation, optimization of operating conditions, and data analysis needed to obtain accurate, reproducible results by means of instrumentation.

FS HN 611: Advanced Food Processing
(Cross-listed with BRT). (3-0) Cr. 3. F.
Prereq: FS HN 311, or FS HN 471/472 or equivalent, or FS HN 511.
Recent advances in the science and technology of food processing and preservation; examples include both thermal and non-thermal processes, including cold plasma, nanotechnology, food packaging, and extrusion. Advances in extraction and separation technologies, waste management, by-product utilization, biorenewables and sustainability in food processing industry will also be discussed. Students to research on select topics and present.

FS HN 612: Advanced Food Chemistry
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: FS HN 311, or FS HN 411, or FS HN 511, or BBMB 404, or equivalent.
Structure, chemical and physical properties of lipids, proteins and carbohydrates, and their food and industrial applications. Changes in functionalities during processing and storage.

FS HN 626: Advanced Food Microbiology
(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: FS HN 420 or FS HN 421 or FS HN 504.
Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

FS HN 627: Rapid Methods in Food Microbiology
(Cross-listed with MICRO, TOX). (2-0) Cr. 2. Alt. F., offered even-numbered years.
Prereq: FS HN 420 or FS HN 421 or FS HN 504.
Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

FS HN 681: Seminar
(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.SS.
Presentation of thesis or dissertation research. Must be taken once for each graduate program; once for the M.S. program and once for the Ph.D. program.

FS HN 682: Seminar Reflection
Cr. R. Repeatable. F.S.
Active listening and critical thinking activities related to research seminars in food science and human nutrition. Required each semester for all FSHN graduate students. Electronic documentation.
FS HN 690: Special Problems
Cr. arr. Repeatable. F.S.S.S.
Prereq: FS HN 502 or FS HN 503 or FS HN 504 or FS HN 553 or FS HN 554

FS HN 695: Grant Proposal Writing
(Cross-listed with NUTRS). (1-0) Cr. 1. F.
Prereq: 3 credits of graduate course work in food science and/or nutrition
Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Formation of grant writing teams in food science and/or nutrition.

FS HN 699: Research in Food Science and Technology
Cr. arr. Repeatable. F.S.S.S.
Offered on a satisfactory-fail basis only.

Forestry (FOR)
Courses primarily for undergraduates:

FOR 201: Forest Biology
(2-0) Cr. 2. F.
Prereq: Concurrent enrollment in FOR 202, FOR 203, FOR 204, FOR 205, and FOR 206
Discussion of ecological concepts, individual tree structure and growth, variation and diversity in tree populations. Physical environment of trees and forests, ecological processes in forest communities, and introduction to different regional forest communities.

FOR 202: Sustainable Materials: Wood Utilization
(2-0) Cr. 2. F.
Prereq: Concurrent enrollment in FOR 201, FOR 203, FOR 204, FOR 205, and FOR 206
Basis for use of wood as an industrial raw material for lumber, composites, pulp and paper, energy and chemicals. Implications of use of alternative renewable and non-renewable materials for societal infrastructure and consumer goods.

FOR 203: Resource Measurements/Evaluation
(2-0) Cr. 2. F.
Prereq: Concurrent enrollment in FOR 201, FOR 202, FOR 204, FOR 205, and FOR 206; MATH 140
Survey techniques involved in quantification, valuation, and evaluation of tree and stand growth and other variables in the forest environment (e.g., recreational use, wildlife habitat value, biomass, and solid wood).

FOR 204: Forest Ecosystem Decision-Making
(2-0) Cr. 2. F.
Prereq: Concurrent enrollment in FOR 201, FOR 202, FOR 203, FOR 205, and FOR 206
Methods of decision-making related to forest ecosystems including communications, teams and conflict resolution. Current issues relating to public, private, and urban forests; quantification of processes, services, and goods produced by the forest and expected by the public such as wildlife, water, range, recreation, wilderness, biodiversity, as well as wood and fiber products.

FOR 205: Integrated Forestry Laboratory
(0-8) Cr. 3. F.
Prereq: Concurrent enrollment in FOR 201, FOR 202, FOR 203, FOR 204, and FOR 205
Field and laboratory exercises integrating the evaluation and management of forest goods, services, and the processing of wood products.

FOR 206: Fall Forestry Camp
Cr. 4. F.
Prereq: Concurrent enrollment in FOR 201, FOR 202, FOR 203, FOR 204, and FOR 205
Three-week field camp to address topics and issues covered in 201, 202, 203, 204, and 205.

FOR 280: Wood Properties and Identification
(3-3) Cr. 4. S.
Properties of wood and how they relate to its successful use. Comparative anatomical characteristics, scientific nomenclature, and hand lens identification of commercially important North American woods.

FOR 283: Pesticide Application Certification
(Cross-listed with AGRON, ENT, HORT). (2-0) Cr. 2. S.
Core background and specialty topics in agricultural, and horticultural pesticide applicator certification. Students can select certification categories and have the opportunity to obtain pesticide applicator certification at the completion of the course. Commercial pesticide applicator certification is emphasized.

FOR 290: Special Problems
Cr. 1-4. Repeatable.
Prereq: Freshman or Sophomore classification, permission of instructor

FOR 290A: Special Problems: Leadership in Forestry Teams (LIFT)
Learning Community
Cr. 1-4. Repeatable.
Prereq: Freshman or Sophomore classification, permission of instructor
FOR 290B: Special Problems: Forest Ecosystem Management  
Cr. 1-4. Repeatable.  
Prereq: Freshman or Sophomore classification, permission of instructor

FOR 290C: Special Problems: Natural Resource Conservation  
Cr. 1-4. Repeatable.  
Prereq: Freshman or Sophomore classification, permission of instructor

FOR 290D: Special Problems: Urban and Community Forestry  
Cr. 1-4. Repeatable.  
Prereq: Freshman or Sophomore classification, permission of instructor

FOR 290E: Special Problems: Wood Science and Technology  
Cr. 1-4. Repeatable.  
Prereq: Freshman or Sophomore classification, permission of instructor

FOR 302: Silviculture  
(2-3) Cr. 3. S.  
Prereq: FOR 201, FOR 356, NREM 301  
Manipulation of forest vegetation based on ecological principles for the production of goods and services.

FOR 356: Dendrology  
(Cross-listed with BIOL). (2-2) Cr. 3. F.  
Prereq: BIOL 211  
Identification and ecology of North American woody plant species. Importance of woody plants in timber production and wildlife habitat. Natural disturbances, human impacts, management and restoration concerns for major North American forest regions will be addressed.

(Cross-listed with NREM). (0.5-1) Cr. 1. S.  
Prereq: BIOL 212  
Survey of the major plant families, general, and representative species of the forest herbaceous layer. Functional ecology and restoration.

FOR 416: Forest Insects and Diseases  
(Cross-listed with PL P). (3-0) Cr. 3. F.  
Prereq: 8 credits in biological sciences, including BIOL 211 or equivalent.  
Nature of insects and pathogens of forest and shade trees; their role in the dynamics of natural and managed forest ecosystems; and the management of indigenous and exotic pests.

FOR 416L: Forest Insects and Diseases Laboratory  
(Cross-listed with PL P). (0-3) Cr. 1. F.  
Prereq: 8 credits in biological sciences, including BIOL 211 or equivalent. Credit or enrollment in PL P 416.  
Laboratory experience working with insect and fungal pests of trees.

FOR 442: Dynamics of Forest Stands  
(Dual-listed with FOR 542). (2-3) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: NREM 301, FOR 302, STAT 101 or their equivalents  
Change in forest species composition and structure at the stand and landscape scales resulting from site quality, tree growth, competition, succession, and disturbance. Methods for assessing tree growth and reconstructing past stand development. Applications to forest and savanna management.

FOR 451: Forest Resource Economics and Quantitative Methods  
(3-3) Cr. 4. S.  
Prereq: FOR 203, MATH 150  
Application of economic principles to forest resource management considering both market and non-market goods and services. Methods of identifying and specifying problems in the management and use of forest resources. Application of mathematical and statistical models to the solution of managerial problems.

FOR 452: Ecosystem Management  
(Dual-listed with FOR 552). (Cross-listed with NREM). (2-3) Cr. 3. S.  
Prereq: Senior classification, and NREM 120 or its equivalent  
Principles of planning, regulating, and decision-making associated with public and private lands, with consideration of forest, grassland, wetland, and freshwater aquatic ecosystems. Integrated natural resources management within ecological, social, economic and policy constraints.

FOR 454: Forestry Practicum  
(1-4) Cr. 3. S.  
Prereq: 20 credits in student’s major at 300 level or above  
Integrated decision-making related to the conservation, management, and preservation of private and public forests, wildlands, urban/community forests, and/or the production and utilization of wood products. Student teams work with a client and develop management plans that incorporate ecological, social, economic, ethical, and institutional/political factors. Effective teamwork, written/oral/visual communication, and problem-solving stressed. Multiple trips to project site and client.

FOR 475: Urban Forestry  
(Cross-listed with HORT). (2-3) Cr. 3. F.  
Prereq: Junior or senior classification, 3 credits in biology  
Discussion of establishment and management of woody perennials in community-owned urban greenspaces, consideration of urban site and soil characteristics, plant physiology, plant culture, urban forest valuation, inventory methods, species selection, and urban forest maintenance (health care and pest management).
FOR 480: Wood Anatomy and Fiber Analysis
(2-3) Cr. 3. Alt. F., offered odd-numbered years.
*Prereq: FOR 280 or permission of instructor*
Microscopic anatomy and ultrastructure of wood and other industrial lignocellulosic materials. Microscopy techniques for fiber analysis. Comparison of fiber properties.

FOR 481: Conversion of Lignocellulosic Materials
(2-3) Cr. 3. Alt. F., offered even-numbered years.
*Prereq: FOR 280 or equivalent*

FOR 485: Wood and Natural Fiber Composites
(2-3) Cr. 3. Alt. F., offered even-numbered years.
*Prereq: FOR 280 or TSM 240*
Consolidation behavior of wood and other lignocellulosic materials. Principles of adhesion. Manufacturing processes for wood and lignocellulose composites such as plywood, oriented strand products, laminated lumber, particleboard, medium density fiberboard, and bast fiber products. Extrusion processing of natural fiber/plastic composites.

FOR 486: Drying Processes for Wood and Other Lignocellulosic Materials
(2-3) Cr. 3. Alt. S., offered even-numbered years.
*Prereq: FOR 280 or TSM 240*
Principles of moisture relations in hygroscopic materials; adsorption, desorption, equilibrium moisture content. Transport processes in natural materials such as wood. Drying processes for wood and other lignocellulosic materials. Influence of moisture on dimensional stability and durability of wood and lignocellulosic composites.

FOR 487: Physical Properties of Wood
(3-3) Cr. 4. Alt. S., offered even-numbered years.
*Prereq: FOR 280*
Mechanical, thermal, electrical, and acoustical properties of wood. Lumber grading and stress rating, nondestructive evaluation of wood and wood composite products.

Courses primarily for graduate students, open to qualified undergraduates:

FOR 542: Dynamics of Forest Stands
(Dual-listed with FOR 442). (2-3) Cr. 3. Alt. F., offered even-numbered years.
*Prereq: NREM 301, FOR 302, STAT 101 or their equivalents*
Change in forest species composition and structure at the stand and landscape scales resulting from site quality, tree growth, competition, succession, and disturbance. Methods for assessing tree growth and reconstructing past stand development. Applications to forest and savanna management.

FOR 552: Ecosystem Management
(Dual-listed with FOR 452). (Cross-listed with NREM). (2-3) Cr. 3. S.
*Prereq: Senior classification, and NREM 120 or its equivalent*
Principles of planning, regulating, and decision-making associated with public and private lands, with consideration of forest, grassland, wetland, and freshwater aquatic ecosystems. Integrated natural resources management within ecological, social, economic and policy constraints.

FOR 599: Creative Component
Cr. 1-12. Repeatable, maximum of 12 credits.

FOR 599A: Creative Component: Forest Biology
Cr. 1-12. Repeatable, maximum of 12 credits.

FOR 599B: Creative Component: Forest Biometry
Cr. 1-12. Repeatable, maximum of 12 credits.

FOR 599C: Creative Component: Forest and Recreation Economics
Cr. 1-12. Repeatable, maximum of 12 credits.

FOR 599D: Creative Component: Forest Management and Administration
Cr. 1-12. Repeatable, maximum of 12 credits.

Courses for graduate students:

FOR 696: Research Seminar
(Cross-listed with AGRON, BBMB, GDCB, HORT, PLBIO). Cr. 1. Repeatable. Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

FOR 699: Research
Cr. 1-12. Repeatable, maximum of 12 credits.

FOR 699A: Research: Forest Biology - Wood Science
Cr. 1-12. Repeatable, maximum of 12 credits.

FOR 699B: Research: Forest Biometry
Cr. 1-12. Repeatable, maximum of 12 credits.

FOR 699C: Research: Forest Economics
Cr. 1-12. Repeatable, maximum of 12 credits.

FOR 699D: Research: Forest Management and Administration
Cr. 1-12. Repeatable, maximum of 12 credits.
FOR 699E: Research: Wood Science
Cr. 1-12. Repeatable, maximum of 12 credits.

FOR 699F: Research: Plant Physiology
Cr. 1-12. Repeatable, maximum of 12 credits.

French (FRNCH)
Courses primarily for undergraduates:

FRNCH 101: Elementary French I
(4-0) Cr. 4. F.S.S.
Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture.

FRNCH 102: Elementary French II
(4-0) Cr. 4. S.S.S.
Prereq: FRNCH 101
Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture.
Meets International Perspectives Requirement.

FRNCH 201: Intermediate French I
(4-0) Cr. 4. F.
Prereq: FRNCH 101
Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture.
Meets International Perspectives Requirement.

FRNCH 202: Intermediate French II
(4-0) Cr. 4. S.
Prereq: FRNCH 201
Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture.
Meets International Perspectives Requirement.

FRNCH 301: French Writing and Grammar
(3-0) Cr. 3. F.
Prereq: FRNCH 202
Emphasis on developing functional language skills in reading and writing. Selective review of grammar within the context of cultural and literary prose.
Meets International Perspectives Requirement.

FRNCH 302: Reading and Writing French
(3-0) Cr. 3. S.
Prereq: FRNCH 301
Readings in French prose, theater and poetry. Introduction to close reading and analysis. Development of reading and writing skills for upper-level courses.
Meets International Perspectives Requirement.

FRNCH 304: French for Global Professionals
(3-0) Cr. 3.
Prereq: FRNCH 301
Meets International Perspectives Requirement.

FRNCH 305: French Conversation
(3-0) Cr. 3.
Prereq: FRNCH 202
Intensive conversational and listening practice emphasizing contemporary France and the Francophone world. Native or near-native speakers are not eligible to enroll.
Meets International Perspectives Requirement.

FRNCH 306: Studies in French or Francophone Film
(3-0) Cr. 3. Repeatable.
Prereq: FRNCH 302 or concurrent enrollment in FRNCH 302
In-depth study of a selected filmmaker, genre, or movement. Emphasis on analytical interpretation and relationship between film and French or Francophone culture, history, and society.
Meets International Perspectives Requirement.

FRNCH 340: Studies in French or Francophone Literature
(3-0) Cr. 3. Repeatable.
Prereq: FRNCH 302 or concurrent enrollment in FRNCH 302
In-depth study of a selected topic, genre, movement or writer in French or Francophone literature, civilization or culture. Emphasis on close readings and discussion.
Meets International Perspectives Requirement.
**FRNCH 370: French Studies in English**
(3-0) Cr. 3-4. Repeatable.
**Prereq:** For fourth credit, 6 credits in French at 300 level.
Author, genre, or period study in French or Francophone history, literature, or culture. Readings, discussions, and papers in English.
Meets International Perspectives Requirement.

**FRNCH 370P: Studies in English Translation: French Topics on Women and Gender Studies**
(Cross-listed with WGS). (3-0) Cr. 3. Repeatable.
Topics vary according to faculty interest. Readings, discussions, and papers in English.
Meets International Perspectives Requirement.

**FRNCH 378: French Film Studies in English**
(2-2) Cr. 3-4. Repeatable.
**Prereq:** For fourth credit, 6 credits in French at 300 level.
Analysis and interpretation of film in French society. Topics vary according to faculty interest. Film directors, genres, movements (e.g. The New Wave), historical survey, aesthetics, and cinematography. Readings, discussions and papers in English.
Meets International Perspectives Requirement.

**FRNCH 476: French Culture and Society in English**
(3-0) Cr. 3-4. S.
Key moments and themes in French society and culture up to the modern era. Subjects vary according to faculty interest. Readings, discussions, and papers in English.
Meets International Perspectives Requirement.

**FRNCH 490: Independent Study**
Cr. 1-6. Repeatable, maximum of 9 credits.
**Prereq:** Permission of French staff and department chair
Designed to meet the needs of students who wish to focus on areas other than those in which courses are offered. No more than 9 credits in Frnch 490 may be counted toward graduation.

**FRNCH 499: Internship in French**
Cr. 1-3. Repeatable, maximum of 3 credits. F.S.S.S.
**Prereq:** 9 credits of French at the 300 level; permission of advisor and WLC Internship Coordinator. Work experience using French language skills in the public or private sector, combined with academic work under faculty supervision
Credits may be applied only to LCP major. Offered on a satisfactory-fail basis only. No more than 3 credits of Frnch 499 may be applied to the major.

**FRNCH 590: Special Topics in French**
Cr. 2-4. Repeatable.
**Prereq:** Permission of instructor; 6 credits of 400 level French

**FRNCH 590A: Special Topics in French: Literature or Literary Criticism**
Cr. 2-4. Repeatable.
**Prereq:** Permission of instructor; 6 credits of 400 level French

**FRNCH 590B: Special Topics in French: Linguistics**
Cr. 2-4. Repeatable.
**Prereq:** Permission of instructor; 6 credits of 400 level French

**FRNCH 590C: Special Topics in French: Language Pedagogy**
Cr. 2-4. Repeatable.
**Prereq:** Permission of instructor; 6 credits of 400 level French

**FRNCH 590D: Special Topics in French: Civilization**
Cr. 2-4. Repeatable.
**Prereq:** Permission of instructor; 6 credits of 400 level French

**Genetics (GEN)**

Courses primarily for undergraduates:

**GEN 110: Genetics Orientation**
(1-0) Cr. 1. F.
This course is intended for first year students and others new to the genetics major. Discussion of university policies and resources, requirements of the major, career opportunities, and other topics related to the first year experience.

**GEN 112: Genetics Orientation for Transfer Students**
(0.5-0) Cr. 0.5. S.
Eight-week course for external transfer students and internal change of major students. Discussion of university policies and resources, requirements of the major, career opportunities. Only one of GEN 110 or 112 may count toward graduation.

**GEN 298: Cooperative Education**
Cr. R. F.S.S.S.
**Prereq:** Permission of department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.
GEN 313: Principles of Genetics  
(Cross-listed with BIOL). (3-0) Cr. 3. F.S.SS.  
**Prereq:** BIOL 211, BIOL 211L, BIOL 212, and BIOL 212L  
Introduction to the principles of transmission and molecular genetics of plants, animals, and bacteria. Recombination, structure and replication of DNA, gene expression, cloning, quantitative genetics, and population genetics. Students may receive graduation credit for no more than one of the following: Gen 260, Gen 313 and 313L, Gen 320, Biol 313 and 313L, and Agron 320.

GEN 313L: Genetics Laboratory  
(Cross-listed with BIOL). (0-3) Cr. 1. F.S.  
**Prereq:** Credit or enrollment in BIOL 313  
Laboratory to accompany 313. Students may receive graduation credit for no more than one of the following: Biol 313 and 313L, Gen 260, Gen 313, Gen 320, and Agron 320.

GEN 320: Genetics, Agriculture and Biotechnology  
(Cross-listed with AGRON). (3-0) Cr. 3. F.S.  
**Prereq:** BIOL 212  
Transmission and molecular genetics with an emphasis on applications in agriculture, the structure and expression of the gene, how genes behave in populations and how recombinant DNA technology can be used to improve agriculture. Credit for graduation will not be allowed for more than one of the following: Gen 260, 313, 313L, Gen 260, Gen 313, Gen 320, and Agron 320.

GEN 322: Introduction to Bioinformatics and Computational Biology  
(Cross-listed with BCBIO, BIOL). (3-0) Cr. 3. F.  
**Prereq:** BIOL 212  
Genome sequencing, assembly, structural and functional annotation, and comparative genomics. Investigating these topics will develop skills in programming and scripting (Perl and/or Python), the use of biological databases, sequence alignment, similarity search, identification of sequence patterns, construction of phylogenetic trees, and comparative genomics.

GEN 340: Human Genetics  
(3-0) Cr. 3. F.S.SS.  
**Prereq:** BIOL 313 or GEN 313  
Fundamental concepts and current issues of human genetics. Human chromosome analysis, pedigree analysis, gene mapping, the human genome project, sex determination, genetics of the immune system, genetics of cancer, gene therapy, the genetic basis of human diversity, eugenics.

GEN 349: The Genome Perspective in Biology  
(Cross-listed with BIOL). (2-2) Cr. 3. S.  
**Prereq:** GEN 313 or GEN 320  
Analysis of genome, RNA, and protein data using computer technology to answer biological questions on topics ranging from microbial diversity to human health. An introduction for students in the life sciences to the fields of genomics, bioinformatics and systems.

GEN 398: Cooperative Education  
Cr. R. F.S.SS.  
**Prereq:** Permission of department cooperative education coordinator; junior classification  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

GEN 402: Microbial Genetics and Genomics  
(Cross-listed with MICRO). (3-0) Cr. 3. Alt. F., offered even-numbered years.  
**Prereq:** MICRO 302, Biol 313  
The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of vertical and horizontal genetic information transfer and gene regulation are covered, along with genetic and genomic-based approaches to study these and other cellular processes of microorganisms. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics and genomics.

GEN 409: Molecular Genetics  
(3-0) Cr. 3. F.S.  
**Prereq:** BIOL 313  
The principles of molecular genetics. Gene structure and function; molecular mechanisms of DNA replication, recombination and repair, transcription and translation, regulation of gene expression.

GEN 410: Analytical Genetics  
(3-0) Cr. 3. F.S.  
**Prereq:** BIOL 313 or GEN 313  
**GEN 444: Bioinformatic Analysis**  
(Cross-listed with BCB, BCBIO, BIOL, COM S, CPR E). (4-0) Cr. 4. F.  
*Prereq: MATH 165 or STAT 401 or equivalent.*  
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: bioinformatic data processing, Perl programming, genome assembly, database search, sequence alignment, gene prediction, next-generation sequencing, comparative and functional genomics, and systems biology.

**GEN 462: Evolutionary Genetics**  
(Cross-listed with BIOL). (3-0) Cr. 3. F.  
*Prereq: BIOL 315*  
The genetic basis of evolutionary processes in higher organisms. The role of genetic variation in adaptation, natural selection, adaptive processes, and the influence of random processes on evolutionary change.

**GEN 490: Independent Study**  
Cr. 1-5. Repeatable, maximum of 9 credits.  
*Prereq: GEN 313, junior or senior classification, permission of instructor*  
Independent study in any area of genetics. Students may use no more than 9 credits of university-wide 490 credits (including Gen 490) toward the total of 120 credits required for graduation.

**GEN 491: Undergraduate Seminar, Professional Practice in Genetics Disciplines**  
(1-0) Cr. 1. F.S.  
*Prereq: BIOL/GEN 313; credit or enrollment in GEN 409 or GEN 410; Junior Classification*  
Intended to develop career objectives and obtain positions appropriate to the goals of students, in particular juniors, in preparation for position searches in the senior year. Discussion of various career paths in genetics disciplines; identification of experiences to enhance entry to specific careers; exposure to professional practices not covered elsewhere including literature database management, scientific figure preparation for publication, the peer-review journal system, the federal competitive grants system, laboratory budgets and management, authorship and collaborations, etc.; preparation of effective curricula vitae and application letters; and verbal scientific discourse appropriate to interview interactions and other professional settings.

**GEN 492: Laboratory Teaching Experience**  
Cr. 1-2. Repeatable, maximum of 9 credits. F.S.  
*Prereq: GEN 313, junior or senior classification, permission of instructor*  
For students registering to be undergraduate laboratory assistants. Offered on a satisfactory-fail basis only. No more than 2 credits of GEN 490U or GEN 492 may be applied toward the Genetics advanced course requirement.

**GEN 495: Special Topics in Genetics**  
(1-0) Cr. 1-3. Repeatable, maximum of 3 credits. F.S.  
*Prereq: GEN 313; permission of instructor*  
Content varies from year to year. Genetics students may use no more than 9 credits of university-wide 490-499 credits toward the total of 120 credits required for graduation.

**GEN 496: Attendance and Critique of Genetics Seminars**  
Cr. 1. Repeatable, maximum of 3 credits. F.S.  
*Prereq: GEN 313, junior or senior classification, permission of instructor*  
Attendance and critique of departmental seminars in BBMB, GDCB, or EEOB. Offered on a satisfactory-fail basis only. Genetics students may use no more than 9 credits of university-wide 490 - 499 credits toward the total of 120 credits required for graduation.

**GEN 498: Cooperative Education**  
Cr. R. F.S.SS.  
*Prereq: Permission of department cooperative education coordinator; senior classification*  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**GEN 499: Genetics Research**  
Cr. 1-5. Repeatable, maximum of 9 credits. F.S.SS.  
*Prereq: GEN 313, junior or senior classification, permission of instructor*  
Independent research in any area of genetics. Genetics students may use no more than 9 credits of university-wide 490-499 credits toward the total of 120 credits required for graduation.

**GEN 499H: Genetics Research for Honors**  
Cr. 1-5. Repeatable, maximum of 9 credits. F.S.SS.  
*Prereq: GEN 313, junior or senior classification, permission of instructor*  
Independent research in any area of genetics; for Honors students only. Genetics students may use no more than 9 credits of university-wide 490-499 credits toward the total of 120 credits required for graduation.

**Genetics (GENET)**

Courses primarily for graduate students, open to qualified undergraduates:
GENET 539: Ethics and Biological Sciences
(2-0) Cr. 2. S.
Introduction to Bioethics through case studies, discussion of contemporary work on central bioethics topics, and discussion of important emerging ethical issues associated with recent research or technological development. Issues covered will vary somewhat from year to year, but will include at least some of the following: ethics and responsible research practice, animal ethics and the use of animals in teaching and research, cloning, human reproductive and stem cell research, regulation of genetically modified crops and foods, plant biotechnology, gene patents. Students will be divided into groups to develop their own case study, to be presented in class at the end of the term. Offered on a satisfactory-fail basis only.

GENET 590: Special Topics
Cr. arr. Repeatable. F.S.SS.
Contact individual faculty for special projects or topics. Graded.

GENET 591: Workshop in Genetics
(1-0) Cr. 1. Repeatable. F.
Prereq: Permission of instructor
Current topics in genetics research. Lectures by off-campus experts.
Students read background literature, attend preparatory seminars, attend all lectures, meet with lecturers.

Courses for graduate students:

GENET 690: Graduate Student Seminar in Genetics
(1-0) Cr. 1. Repeatable. F.S.
Prereq: Permission of instructor
Research presentations by students to improve their ability to: orally present scientific work in a clear and meaningful way, critically evaluate oral presentations, and give and receive constructive criticism. Students may enroll in one seminar per school year.

GENET 691: Faculty Seminar in Genetics
(1-0) Cr. 1. Repeatable. F.
Prereq: Permission of instructor
Faculty research seminars that introduce students to the variety of genetics research projects on campus and provide an opportunity for students to become engaged in the scientific presentation to the point where they can think critically and ask meaningful questions.

GENET 692: Conceptual Foundations of Genetics
(1-0) Cr. 1. F.
Prereq: Permission of instructor
Landmark papers in the development of genetics concepts. Papers are presented and discussions led by students, guided and mentored by the instructors. Instructors provide a broad overview and history of the development of fundamental concepts in genetics.

GENET 697: Graduate Research Rotation
Cr. arr. Repeatable. F.S.SS.
Graduate research projects performed under the supervision of selected faculty members in the graduate Genetics major.

GENET 699: Research
Cr. arr. Repeatable. F.S.SS.
Research.

Genetics, Development and Cell Biology (GDCB)

Courses primarily for graduate students, open to qualified undergraduates:

GDCB 505: Entrepreneurship in Science and Technology
(3-0) Cr. 3. Alt. F., offered even-numbered years.
High level success at modern science requires entrepreneurship both in and outside the laboratory. Scientists are in a unique position to not only think, but to thrive, "outside of the box" and take unorthodox approaches to research that lead to positive paradigm shifts in our lives. Exploration of many facets of science, technology, industry and commerce, with frequent guest lectures from entrepreneurs.

GDCB 510: Transmission Genetics
(3-0) Cr. 3. F.
Prereq: GEN 410 or graduate standing
In-depth investigations of modern research practices of transmission genetics. Designed for students interested in genetic research. Topics include: Mendelian genetic analysis, analysis of genetic pathways, mutational analysis of gene function, chromosomal mechanics, genetic mapping, epigenetic inheritance, human genetic analysis.

GDCB 511: Advanced Molecular Genetics
(Cross-listed with MCDB). (3-0) Cr. 3. S.
Prereq: BIOL 313 and BBMB 405
Mechanisms of molecular genetic processes in eukaryotes and prokaryotes, including DNA replication and repair, transcription, translation and regulation of gene expression. Critical evaluation and discussion of current primary literature, methodologies and experimental data.

GDCB 513: Plant Metabolism
(Cross-listed with PLBIO). (2-0) Cr. 2. Alt. F., offered even-numbered years.
Prereq: BIOL 330, PHYS 111, CHEM 331; one semester of biochemistry recommended
Photosynthesis, respiration, and other aspects of plant metabolism.
GDCB 528: Advances in Molecular Cell Biology
(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: Courses in general cell biology and biochemistry
Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

GDCB 533: Advances in Developmental Biology
(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BIOL 314 or Biol 423
Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in the current literature.

GDCB 536: Statistical Genetics
(Cross-listed with STAT). (3-0) Cr. 3.
Prereq: STAT 401, STAT 447; GEN 320 or BIOL 313
Statistical models and methods for genetics covering models of population processes: selection, mutation, migration, population structure, and linkage disequilibrium, and inference techniques: genetic mapping, linkage analysis, and quantitative trait analysis. Applications include genetic map construction, gene mapping, genome-wide association studies (GWAS), inference about population structure, phylogenetic tree construction, and forensic and paternity identification.

GDCB 542: Introduction to Molecular Biology Techniques
(Cross-listed with BMS, BBMB, EEOB, FSHN, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. F.S.SS.
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

GDCB 542A: Introduction to Molecular Biology Techniques: DNA Techniques
(Cross-listed with BMS, BBMB, EEOB, FSHN, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

GDCB 542B: Introduction to Molecular Biology Techniques: Protein Techniques
(Cross-listed with BMS, BBMB, EEOB, FSHN, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. S.SS.
Prereq: Graduate classification
Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

GDCB 542C: Introduction to Molecular Biology Techniques: Cell Techniques
(Cross-listed with BMS, BBMB, EEOB, FSHN, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes: Immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

GDCB 542D: Introduction to Molecular Biology Techniques: Plant Transformation
(Cross-listed with BMS, BBMB, EEOB, FSHN, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. S.
Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

GDCB 542E: Introduction to Molecular Biology Techniques: Proteomics
(Cross-listed with BMS, BBMB, EEOB, FSHN, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. F.
Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

GDCB 542F: Introduction to Molecular Biology Techniques: Metabolomics
(Cross-listed with BMS, BBMB, EEOB, FSHN, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. F.
Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

GDCB 542G: Introduction to Molecular Biology Techniques: Genomic Techniques
(Cross-listed with BMS, BBMB, EEOB, FSHN, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. S.
Offered on a satisfactory-fail basis only.

GDCB 544: Fundamentals of Bioinformatics
(Cross-listed with BCB, COMS, CPR E). (4-0) Cr. 4. F.
Prereq: MATH 165 or STAT 401 or equivalent
A practical, hands-on overview of how to apply bioinformatics to biological research. Recommended for biologists desiring to gain computational molecular biology skills. Topics include: sequence analysis, genomics, proteomics, phylogenetic analyses, ontology enrichment, systems biology, data visualization and emergent technologies.
GDCB 545: Plant Molecular, Cell and Developmental Biology
(Cross-listed with MCDB, PLBIO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: Biol 313, BIOL 314, BIOL 330 or BBMB 405
Plant nuclear and organelle genomes; regulation of gene expression; hormone signaling; organization, function, and development of plant cells and subcellular structures; regulation of plant growth and development.

GDCB 556: Cellular, Molecular and Developmental Neuroscience
(Cross-listed with B M S, NEURO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BIOL 335 or BIOL 436; physics recommended
Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.

GDCB 557: Advanced Neuroscience Techniques
(Cross-listed with NEURO). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Neuro 556 or equivalent course
Research methods and techniques; lectures, laboratory exercises and/or demonstrations representing individual faculty specialties.

GDCB 558: Bioinformatics II (Statistical Bioinformatics)
(Cross-listed with BCB, COM S, STAT). (3-0) Cr. 3. S.
Prereq: BCB 567 or (BIOL 315 and STAT 430), credit or enrollment in GEN 409
Statistical models for sequence data, including applications in genome annotation, motif discovery, variant discovery, molecular phylogeny, gene expression analysis, and metagenomics. Statistical topics include model building, inference, hypothesis testing, and simple experimental design, including for big data/complex models.

GDCB 569: Bioinformatics III (Structural Bioinformatics)
(Cross-listed with BBMB, BCB, COM S, CPR E). (3-0) Cr. 3. F.
Prereq: BCB 567, BBMB 316, GEN 409, STAT 430

GDCB 570: Bioinformatics IV (Systems Biology)
(Cross-listed with BCB, COM S, CPR E, STAT). (3-0) Cr. 3. S.
Prereq: BCB 567 or COM S 311, COM S 228, GEN 409, STAT 430

GDCB 590: Special Topics
Cr. arr. Repeatable.
Prereq: Permission of instructor

Courses for graduate students:

GDCB 661: Current Topics in Neuroscience
(Cross-listed with BBMB, NEURO). (2-0) Cr. 2-3. Repeatable. Alt. S., offered even-numbered years.
Prereq: NEURO 556 (or comparable course) or permission of instructor
Topics may include molecular and cellular neuroscience, neurodevelopment, neuroplasticity, neurodegenerative diseases, cognitive neuroscience, sensory biology, neural integration, membrane biophysics, neuroethology, techniques in neurobiology and behavior.

GDCB 690: Seminar in GDCB
Cr. 1. Repeatable.
Research seminars by faculty, invited speakers, and graduate students. Offered on a satisfactory-fail basis only.

GDCB 696: Research Seminar
(Cross-listed with AGRON, BBMB, FOR, HORT, PLBIO). Cr. 1. Repeatable.
Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

GDCB 698: Seminar in Molecular, Cellular, and Developmental Biology
(Cross-listed with BBMB, MCDB, MICRO, V MPM). (2-0) Cr. 1-2.
Repeatable. F.S.
Student and faculty presentations.

GDCB 699: Research
Cr. arr. Repeatable.
Research for thesis or dissertation. Offered on a satisfactory-fail basis only.
GDCB 699I: Research
(Cross-listed with A ECL, ANTHR, EEOB, IA LL). Cr. 1-4. Repeatable.

Geology (GEOL)

Courses primarily for undergraduates:

GEOL 100: The Earth
(3-0) Cr. 3. F.S.SS.
How does the earth work, what is it made of, and how does it change through time? Plate tectonics, Earth materials, landforms, structures, climate, and natural resources. Emphasis on the observations and hypotheses used to interpret earth system processes. Students may also enroll in Geol 100L.

GEOL 100L: The Earth: Laboratory
(0-2) Cr. 1. F.S.
Prereq: Credit or enrollment in GEOL 100
Students will gain understanding of how Earth processes affect their lives and how they affect the Earth, and of the complex nature of the Earth and its processes. They will gain a deep knowledge of the methods used to understand the time scales and rates of Earth processes also through an applied research experience on groundwater and surface water.

GEOL 101: Environmental Geology: Earth in Crisis
(Cross-listed with ENV S). (3-0) Cr. 3. F.S.SS.
An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism. Summer - online only.

GEOL 102: History of the Earth
(3-0) Cr. 3. S.
Prereq: GEOL 100 or GEOL 201
The Earth’s physical and biological evolution; concepts of global tectonics. Methods used to decipher earth history. Students majoring in geology must also enroll in Geol 102L.

GEOL 102L: History of the Earth: Laboratory
(0-2) Cr. 1. S.
Prereq: Credit or enrollment in GEOL 102
Introduction to the use of sedimentary rocks and fossils in reconstructing the Earth's history.

GEOL 103: Age of Dinosaurs
Cr. 1. F.
Introduction to the diversity of dinosaur species. Discussion of basic evolutionary theory and interpretation of fossil evidence. Overview of Mesozoic Earth history including paleogeographic and paleoclimatic reconstructions. Course available via the World Wide Web.

GEOL 105: Gems and Gemstones
(2-0) Cr. 1. F.
Offered in second half of the semester. Introduction to gems and gemstones, physical and optical properties of gems and gemstones, explanation of where gems come from and how they are found, how to distinguish between synthetic and naturally occurring gems, how the value of gems are determined, and the history of famous gems.

GEOL 106: Earth and Space Science for Elementary Education Majors
(Cross-listed with ASTRO). (2-0) Cr. 2. F.S.
Prereq: Major in elementary or early childhood education.
Fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Online course format.

GEOL 106L: Earth and Space Science for Elementary Education Majors: Laboratory
(Cross-listed with ASTRO). (0-2) Cr. 1. F.S.
Prereq: Restricted to elementary and early childhood education majors; to be taken concurrently with GEOL 106/ASTRO 106
Inquiry-based lab exploring fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Must be taken concurrently with GEOL/ASTRO 106.

GEOL 108: Introduction to Oceanography
(Cross-listed with ENV S). (3-0) Cr. 3. F.

GEOL 111: Geological Disasters
(Cross-listed with ENV S). (1-0) Cr. 1. F.S.SS.
Introduction to the catastrophic geologic processes that disrupt ecosystems and human activity. Includes a discussion on the role of plate tectonics, the hydrologic cycle, and humans as the driving forces behind selected case studies on volcanic eruptions, earthquakes, tsunamis, landslides, and floods. Summer and fall - online only.
GEOL 112: Geoscience Orientation
(Cross-listed with MTEOR). (1-0) Cr. 1. F.
Orientation course for students enrolled in the Earth, Wind and Fire Learning Community. Provides an introduction to Iowa State University and meteorology, geology, and Earth science programs for students enrolled in the department’s learning community. Activities include academic and social activities, talks and presentations on academic success, resume writing, and study abroad, as well as research talks by faculty members.

GEOL 113: Spring Geoscience Orientation for Earth, Wind and Fire Learning Community
(Cross-listed with MTEOR). (1-0) Cr. 1. S.
Spring orientation course for students enrolled in the “Earth, Wind and Fire” Learning Community. Develop and apply quantitative, data-analysis, management, and communication skills on an authentic research project in a team to focus on professionalism and resilience. Introduction to interview strategies and the importance of creating a professional image on social media. Academic and social events, plus two field trips.

GEOL 160: Water Resources of the World
(Cross-listed with AGRON, ENV S, MTEOR). (3-0) Cr. 3. S.
Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment. Meets International Perspectives Requirement.

GEOL 201: Geology for Engineers and Environmental Scientists
(2-2) Cr. 3. F.
Introduction to Earth materials and processes with emphasis on engineering and environmental applications.

GEOL 290: Independent Study
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Independent study for freshman and sophomore students.

GEOL 298: Cooperative Education
Cr. R. F.S.S.
Prereq: GEOL 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing the work period.

GEOL 302: Summer Field Studies
Cr. 6. SS.
Prereq: GEOL 102, GEOL 356, GEOL 368
Geologic mapping; structural, stratigraphic, sedimentologic, metamorphic, geomorphic, and environmental analyses. Study areas in the Bighorn Basin and Wind River Range and excursions to Yellowstone and Grand Teton National Parks. A 6-week summer field course required of all geology majors.

GEOL 306: Geology Field Course
Cr. 1-2. Repeatable, maximum of 2 times. F.S.
Prereq: GEOL 100 or GEOL 201
Weekly seminar introduces students to a selected geological region or theme that is visited on a required ten-day field excursion. Introduction to field safety leadership.

GEOL 315: Mineralogy and Earth Materials
(3-0) Cr. 3. F.
Prereq: GEOL 100 or GEOL 201, CHEM 177
Introduction to mineral classification, elementary crystal chemistry, crystal growth and morphology, mineral stability, and mineral associations.

GEOL 315L: Laboratory in Mineralogy and Earth Materials
(0-3) Cr. 1. F.
Prereq: GEOL 100 or GEOL 201
Mineral identification methods, especially hand-specimen identification.

GEOL 316: Optical Mineralogy
(1-2) Cr. 2. F.
Prereq: GEOL 100 or GEOL 201, CHEM 177, credit or enrollment in GEOL 315
Laboratory problems in mineral-identification methods utilizing optical microscopic techniques.

GEOL 324: Energy and the Environment
(Cross-listed with ENSCI, ENV S, MTEOR). (3-0) Cr. 3. S.
Prereq: CHEM 163 or CHEM 177, MATH 140
Exploration of the origin of Earth’s energy resources and the environmental and climatic impacts of energy acquisition and consumption. Renewable and non-renewable energy resources within an Earth-system context. Various environmentally-relevant topics such as water quality and availability, habitat destruction, greenhouse-gas emissions, and health and safety hazards to wildlife and human communities.
GEOL 356: Structural Geology and Tectonics  
(3-3) Cr. 4. S.  
Prereq: GEOL 100 or GEOL 201; PHYS 111  
Principles of stress, strain, and rheology. Brittle and ductile behavior of rocks. Mechanics of formation, description, and classification of fractures, faults, folds, foliation, and lineation. From micro-structures to tectonic processes. Laboratory includes application of learned concepts to real-world scenarios, geometrical techniques to solve structural problems.

GEOL 365: Igneous and Metamorphic Petrology  
(2-3) Cr. 3. S.  
Prereq: GEOL 315, GEOL 315L, GEOL 316  
Nature and origin of igneous and metamorphic rocks. Emphasis on important rock-forming environments and processes and their influence on rock characteristics. Laboratory includes thin section study of rock textures and mineralogy and the interpretation of these features.

GEOL 368: Sedimentary Geology  
(3-3) Cr. 4. F.  
Prereq: GEOL 102  
Exploration of the interplay between weathering, sedimentation, sea-level change, tectonics, and life through time that creates sedimentary rocks and stratigraphic packages. Understanding of the historical development of sedimentary geology through the development of petrography, paleontology, deep earth sampling, geophysical technologies, and geochemistry. Field and laboratory problem sets illuminate lecture material.

GEOL 398: Cooperative Education  
Cr. R. F.S.S.  
Prereq: GEOL 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; junior classification  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

GEOL 402: Watershed Hydrology  
(Dual-listed with GEOL 502). (Cross-listed with ENSCI, MTEOR, NREM).  
(2-3) Cr. 3. F.  
Prereq: Four courses in physical or biological sciences or engineering; junior standing  
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

GEOL 409: Field Methods in Hydrogeology  
(Dual-listed with GEOL 509). (Cross-listed with ENSCI). (0-4) Cr. 3. Alt. SS., offered even-numbered years.  
Prereq: GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473  
Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

GEOL 411: Hydrogeology  
(Dual-listed with GEOL 511). (Cross-listed with ENSCI). (3-2) Cr. 4. F.  
Prereq: Four courses in biological or physical sciences  
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

GEOL 414: Applied Groundwater Flow Modeling  
(Dual-listed with GEOL 514). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: GEOL 411 or C E 473; MATH 165 or MATH 181  
Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

GEOL 415: Paleoclimatology  
(Dual-listed with GEOL 515). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: Four courses in biological or physical science  
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth’s orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years).
GEOL 416: Hydrologic Modeling and Analysis
(Dual-listed with GEOL 516). (Cross-listed with ENSCI, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in Earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

GEOL 419: Aqueous and Environmental Geochemistry
(Dual-listed with GEOL 519). (Cross-listed with ENSCI). (2-2) Cr. 3. S.
Prereq: CHEM 178, CHEM 178L; junior classification
Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

GEOL 420: Mineral Resources
(Dual-listed with GEOL 520). (2-3) Cr. 3. Alt. F., offered even-numbered years.
Prereq: GEOL 365
Geology and geochemistry of non-metallic and metallic ore deposits. Major processes that concentrate metals in the Earth. Geochemical conditions of ore formation using stable-isotope and fluid-inclusion studies. Laboratory emphasizes the study of metallic ores.

GEOL 426: Stable Isotopes in the Environment
(Dual-listed with GEOL 526). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Four courses in biological or physical science
Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

GEOL 444: Petroleum Geoscience and Engineering
(Dual-listed with GEOL 544). (2-2) Cr. 3. Alt. S., offered even-numbered years.
The geoscience and engineering aspects of exploration, development, and production of hydrocarbon resources around the world, as well as the historical and legal frameworks through which the industry has developed. Broader discussions of safety, risk, uncertainty, cost, and integrity as relevant to the petroleum industry.

GEOL 451: Applied and Environmental Geophysics
(Dual-listed with GEOL 551). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GEOL 100 or GEOL 201, algebra and trigonometry
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar.

GEOL 452: GIS for Geoscientists
(Dual-listed with GEOL 552). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. F.S.
Prereq: GEOL 100, GEOL 201 or equivalent
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

GEOL 457: Seismic Methods in Geology, Engineering, and Petroleum Exploration
(Dual-listed with GEOL 557). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: GEOL 100 or GEOL 201, algebra and trigonometry
Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment.

GEOL 474: Glacial and Quaternary Geology
(Dual-listed with GEOL 574). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GEOL 100 or GEOL 201 or equivalent experience
The study of glaciers and glacial processes. Discussion of glaciology, glacial sediment transport, glacial landforms, and Quaternary history. Laboratory emphasizes topographic map interpretation and the Quaternary landscapes of Iowa.
GEOL 479: Surficial Processes
(Dual-listed with GEOL 579). (Cross-listed with ENSCI). (2-3) Cr. 3. F.
Prereq: GEOL 100 and GEOL 100L; or GEOL 201; or equivalent experience.
The study of physical processes that shape Earth’s surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

GEOL 487: Microbial Ecology
(Dual-listed with GEOL 587). (Cross-listed with BIOL, ENSCI, MICRO). (3-0) Cr. 3. F.
Prereq: Six credits in biology and 6 credits in chemistry
Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

GEOL 488: GIS for Geoscientists II
(Dual-listed with GEOL 588). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

GEOL 489: Survey of Remote Sensing Technologies
(Dual-listed with GEOL 589). (Cross-listed with E E, MTEOR, NREM). (3-0) Cr. 3. F.
Prereq: Four courses in physical or biological sciences or engineering
Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

GEOL 489L: Satellite Remote Sensing Laboratory
(Dual-listed with GEOL 589L). (Cross-listed with E E, MTEOR, NREM). (0-3) Cr. 1. F.
Prereq: Completion or concurrent enrollment in MTEOR/GEOL/NREM/EE 489/589
Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context.

GEOL 490: Independent Study
Cr. 1-3. Repeatable, maximum of 9 credits.
Prereq: 6 credits in geology and permission of instructor
Independent study for senior students. No more than 9 credits of Geol 490 may be counted toward graduation.

GEOL 495: Undergraduate Seminar
Cr. 1. F.S.
Prereq: Junior or senior classification
Weekly seminar on topics of current research interest.

GEOL 498: Cooperative Education
Cr. R. F.S.S.
Prereq: Geol 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

GEOL 502: Watershed Hydrology
(Dual-listed with GEOL 402). (Cross-listed with ENSCI, MTEOR, NREM). (2-3) Cr. 3. F.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

GEOL 506: Geology Field Course
Cr. 1-2. Repeatable, maximum of 2 times. F.S.
Prereq: Graduate classification
Weekly seminar introduces students to a selected geological region or theme that is visited on a required ten-day field excursion. Graduate students are expected to assist in field teaching and safety leadership.

GEOL 507: Midwestern Geology Field Trip
Cr. 1. Repeatable, maximum of 4 times. F.
Prereq: GEOL 365
On-site inspection of various ore deposits, mining operations, and terrains dominated by igneous or metamorphic rocks. Offered on a satisfactory-fail basis only.
GEOL 509: Field Methods in Hydrogeology
(Dual-listed with GEOL 409). (Cross-listed with ENSCI). (0-4) Cr. 3. Alt. SS., offered even-numbered years.
Prereq: GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473
Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

GEOL 511: Hydrogeology
(Dual-listed with GEOL 411). (Cross-listed with ENSCI). (3-2) Cr. 4. F.
Prereq: Four courses in biological or physical sciences
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

GEOL 514: Applied Groundwater Flow Modeling
(Dual-listed with GEOL 414). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: GEOL 411 or C E 473; MATH 165 or MATH 181
Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

GEOL 515: Paleoclimatology
(Dual-listed with GEOL 415). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in biological or physical science
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth’s orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~ 1 million years).

GEOL 516: Hydrologic Modeling and Analysis
(Dual-listed with GEOL 416). (Cross-listed with ENSCI, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

GEOL 519: Aquatic and Environmental Geochemistry
(Dual-listed with GEOL 419). (Cross-listed with ENSCI). (2-2) Cr. 3. S.
Prereq: CHEM 178, CHEM 178L; junior classification
Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

GEOL 520: Mineral Resources
(Dual-listed with GEOL 420). (2-3) Cr. 3. Alt. F., offered even-numbered years.
Prereq: GEOL 365
Geology and geochemistry of non-metallic and metallic ore deposits. Major processes that concentrate metals in the Earth. Geochemical conditions of ore formation using stable-isotope and fluid-inclusion studies. Laboratory emphasizes the study of metallic ores.

GEOL 526: Stable Isotopes in the Environment
(Dual-listed with GEOL 426). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Four courses in biological or physical science
Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.
GEOL 544: Petroleum Geoscience and Engineering
(Dual-listed with GEOL 444). (2-2) Cr. 3. Alt. S., offered even-numbered years.
The geoscience and engineering aspects of exploration, development, and production of hydrocarbon resources around the world, as well as the historical and legal frameworks through which the industry has developed. Broader discussions of safety, risk, uncertainty, cost, and integrity as relevant to the petroleum industry.

GEOL 551: Applied and Environmental Geophysics
(Dual-listed with GEOL 451). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GEOL 100 or GEOL 201, algebra and trigonometry
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar.

GEOL 552: GIS for Geoscientists
(Dual-listed with GEOL 452). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. F.S.
Prereq: GEOL 100, GEOL 201 or equivalent
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

GEOL 555: Environmental Soil Mineralogy
(Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: AGRON 473, CHEM 178. Recommend: GEOL 311
Structure and behavior of clay minerals, humic substances and biochar in soil environments, with emphasis on reactions and environmental implications.

GEOL 557: Seismic Methods in Geology, Engineering, and Petroleum Exploration
(Dual-listed with GEOL 457). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: GEOL 100 or GEOL 201, algebra and trigonometry
Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment.

GEOL 558: Introduction to the 3D Visualization of Scientific Data
(Cross-listed with COM S, HCI). (2-2) Cr. 3. Alt. F., offered even-numbered years.
Prereq: Graduate-student standing in the mathematical or natural sciences or engineering, basic programming knowledge
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, and engineering). Class project in interactive 3D visualization using the ParaView, Mayavi, TVTK, VTK or a similar system.

GEOL 574: Glacial and Quaternary Geology
(Dual-listed with GEOL 474). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GEOL 100 or GEOL 201 or equivalent experience
The study of glaciers and glacial processes. Discussion of glaciology, glacial sediment transport, glacial landforms, and Quaternary history. Laboratory emphasizes topographic map interpretation and the Quaternary landscapes of Iowa.

GEOL 579: Surficial Processes
(Dual-listed with GEOL 479). (Cross-listed with ENSCI). (2-3) Cr. 3. F.
Prereq: GEOL 100 and GEOL 100L, or GEOL 201; or equivalent experience
The study of physical processes that shape Earth’s surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

GEOL 587: Microbial Ecology
(Dual-listed with GEOL 487). (Cross-listed with EEOB, ENSCI, MICRO). (3-0) Cr. 3. F.
Prereq: Six credits in biology and 6 credits in chemistry
Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

GEOL 588: GIS for Geoscientists II
(Dual-listed with GEOL 488). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.
GEOL 589: Survey of Remote Sensing Technologies
(Dual-listed with GEOL 489). (Cross-listed with E E, MTEOR, NREM). (3-0)
Cr. 3. F.
Prereq: Four courses in physical or biological sciences or engineering
Electromagnetic-radiation principles, active and passive sensors,
multispectral and hyperspectral sensors, imaging radar, SAR, thermal
imaging, lidar. Examples of applications. Also offered online S.

GEOL 589L: Satellite Remote Sensing Laboratory
(Dual-listed with GEOL 489L). (Cross-listed with E E, MTEOR, NREM). (0-3)
Cr. 1. F.
Prereq: Completion or concurrent enrollment in MTEOR/GEOL/NREM/EE
489/589
Processing and analysis of satellite sensor data (optical and radar).
Provides practical applications in an environmental context.

GEOL 590: Special Topics
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590A: Special Topics: Surficial Processes
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590B: Special Topics: Stratigraphy
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590C: Special Topics: Sedimentation
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590D: Special Topics: Paleontology
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590E: Special Topics: Petrology
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590F: Special Topics: Structural Geology
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590G: Special Topics: Geochemistry
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590H: Special Topics: Hydrogeology
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590I: Special Topics: Earth Science
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590J: Special Topics: Mineral Resources
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590K: Special Topics: Geophysics
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590L: Special Topics: Mineralogy
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590M: Special Topics: Tectonics
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590N: Special Topics: Paleoclimatology
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590O: Special Topics: Isotope Geochemistry
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590P: Special Topics: Computational Methods and GIS
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590R: Special Topics: Surface Hydrology
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 590S: Special Topics: Oceanography
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

GEOL 595: Graduate Seminar
(Cross-listed with MTEOR). Cr. 1. Repeatable. F.S.
Prereq: Senior or graduate classification
Weekly seminar on topics of current research interest. All students
seeking a graduate degree in geology must enroll during each semester
of residence. Students pursuing a non-thesis option for the M.S. in Earth
Science must enroll for one semester. Offered on a satisfactory-fail basis
only.
GEOL 595A: Graduate Seminar: Presentation Required  
(Cross-listed with MTEOR). (1-0) Cr. 1. Repeatable. F.S.  
Prereq: Senior or graduate classification  
Weekly seminar on topics of current research interest. All students  
seeking a graduate degree in geology must enroll during each semester  
of residence. Students pursuing a non-thesis option for the M.S. in Earth  
Science must enroll for one semester. Offered on a satisfactory-fail basis  
only.

GEOL 595B: Graduate Seminar: Attendance Only  
(Cross-listed with MTEOR). Cr. R. Repeatable. F.S.  
Prereq: Senior or graduate classification  
Attendance only. Weekly seminar on topics of current research interest.  
All students seeking a graduate degree in geology must enroll during  
each semester of residence. Students pursuing a non-thesis option for  
the M.S. in Earth Science must enroll for one semester. Offered on a  
satisfactory-fail basis only.

GEOL 599: Creative Component  
Cr. arr. Repeatable.

Courses for graduate students:

GEOL 610: Advanced Seminar  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  
GEOL 610A: Advanced Seminar: Earth Materials  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  
GEOL 610B: Advanced Seminar: Economic Geology  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  
GEOL 610C: Advanced Seminar: Environmental Geochemistry  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  
GEOL 610D: Advanced Seminar: Geophysics  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  
GEOL 610E: Advanced Seminar: Geotectonics  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  
GEOL 610F: Advanced Seminar: Hydrogeology  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  

GEOL 610G: Advanced Seminar: Surficial Processes  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  
GEOL 610H: Advanced Seminar: Sedimentation and Stratigraphy  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  
GEOL 610I: Advanced Seminar: Paleoecology and Paleoclimatology  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  
GEOL 610J: Advanced Seminar: Isotope Geochemistry  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  
GEOL 610K: Advanced Seminar: Computational Methods and GIS  
Cr. 1-3. Repeatable. F.S.  
Prereq: Graduate standing and permission of instructor  

GEOL 699: Research  
Cr. arr. Repeatable.  
GEOL 699A: Research: Surficial Processes  
Cr. arr. Repeatable.  
GEOL 699B: Research: Stratigraphy  
Cr. arr. Repeatable.  
GEOL 699C: Research: Sedimentation  
Cr. arr. Repeatable.  
GEOL 699D: Research: Paleontology  
Cr. arr. Repeatable.  
GEOL 699E: Research: Petrology  
Cr. arr. Repeatable.  
GEOL 699F: Research: Structural Geology  
Cr. arr. Repeatable.  
GEOL 699G: Research: Geochemistry  
Cr. arr. Repeatable.  
GEOL 699H: Research: Hydrogeology  
Cr. arr. Repeatable.  
GEOL 699I: Research: Earth Science  
Cr. arr. Repeatable.  
GEOL 699J: Research: Mineral Resources  
Cr. arr. Repeatable.  
GEOL 699K: Research: Geophysics  
Cr. arr. Repeatable.  
GEOL 699L: Research: Mineralogy  
Cr. arr. Repeatable.
GEOL 699M: Research: Tectonics  
Cr. arr. Repeatable.

GEOL 699N: Research: Paleocology and Paleoclimatology  
Cr. arr. Repeatable.

GEOL 699O: Research: Isotope Geochemistry  
Cr. arr. Repeatable.

GEOL 699P: Research: Computational Methods and GIS  
Cr. arr. Repeatable.

GEOL 699R: Research: Surface Hydrology  
Cr. arr. Repeatable.

GEOL 699S: Research: Geoscience Education  
Cr. arr. Repeatable.

**German (GER)**

Courses primarily for undergraduates:

**GER 101: Elementary German I**  
(4-0) Cr. 4. F.SS.  
Beginning level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. For beginning-level learners who have little or no prior exposure to German.

**GER 102: Elementary German II**  
(4-0) Cr. 4. S.SS.  
*Prereq: GER 101*  
Beginning level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. For beginning level learners with only one semester of German (or exposure equivalent to two years or less in high school.).
