Environmental Studies
Interdepartmental Undergraduate Program

Environmental Studies deals with the relationship and interactions between humans and the environment. Students in any college at ISU may elect to take a secondary major or minor in Environmental Studies. The curriculum is designed to give students an understanding of current and emerging environmental issues and an appreciation of different perspectives regarding these issues. Courses are provided for students pursuing careers related to the environment and for others who simply want to know more about environmental issues.

Student Learning Outcomes
Upon graduation, students should be able to:

- Demonstrate a broad understanding and appreciation for a range of environmental issues spanning natural and human systems
- Demonstrate an understanding and appreciation of different perspectives regarding environmental issues
- Demonstrate an understanding of approaches used in addressing environmental problems including data analysis and problem-solving

Secondary Major
The Environmental Studies secondary major is taken in addition to a first major and provides the breadth of preparation and integrated perspective necessary to understand environmental issues. Students seeking a major in Environmental Studies complete 24 credits of ENV S coursework including:
