ENVIRONMENTAL STUDIES

Environmental Studies
Interdepartmental Undergraduate Program

Environmental Studies deals with the relationship and interactions between humans and the environment. Students in any college at ISU may elect to take a secondary major or minor in Environmental Studies. The curriculum is designed to give students an understanding of current and emerging environmental issues and an appreciation of different perspectives regarding these issues. Courses are provided for students pursuing careers related to the environment and for others who simply want to know more about environmental issues.

Student Learning Outcomes

Upon graduation, students should be able to:

- Demonstrate a broad understanding and appreciation for a range of environmental issues spanning natural and human systems.
- Demonstrate an understanding and appreciation of different perspectives regarding environmental issues.
- Demonstrate an understanding of approaches used in addressing environmental problems including data analysis and problem-solving.

Secondary Major

The Environmental Studies secondary major is taken in addition to a primary major and provides the breadth of preparation and integrated perspective necessary to understand environmental issues. Students seeking a major in Environmental Studies complete 24 credits of ENVS coursework including:

At least one general survey course chosen from:
- **ENVS 1010** Environmental Geology: Earth in Crisis
- **ENVS 1200** Introduction to Renewable Resources
- **ENVS 1730** Environmental Biology
- **ENVS 2010** Introduction to Environmental Issues

At least one integrative/issues course chosen from:
- **ENVS 1600** Water Resources of the World
- **ENVS 1730** Environmental Biology
- **ENVS 3240** Energy and the Environment
- **ENVS 3420** World Food Issues: Past and Present
- **ENVS 4040** Global Change
- **ENVS 4240** Sustainable and Environmental Horticulture Systems
- **ENVS 4500** Issues in Sustainable Agriculture

At least two human/societal perspectives courses chosen from:
- **ENVS 2700** Foundations in Natural Resource Policy and History
- **ENVS 2830** Introduction to Environmental Politics and Policies
- **ENVS 2930** Environmental Planning
- **ENVS 3200** Ecofeminism
- **ENVS 3340** Environmental Ethics
- **ENVS 3450** Population and Society
- **ENVS 3550** Literature and the Environment
- **ENVS 3630** U. S. Environmental History
- **ENVS 3800** Energy, Environmental and Resource Economics
- **ENVS 3820** Environmental Sociology
- **ENVS 4840** Sustainable Communities
- **ENVS 4910** Environmental Law and Planning

Beyond these three requirements, any Environmental Studies course and up to six credits of approved environmental coursework outside of Environmental Studies may be applied toward the 24-credit total for the major. Regardless of their home college, Environmental Studies majors must complete at least 9 credits in natural sciences from the LAS General Education approved course list. Unless prohibited by program or college rules, courses used to fulfill requirements of the Environmental Studies major may also be used to satisfy general education and other requirements of departments and colleges. A combined average grade of C or higher is required in courses applied to the major.

Minor

Students seeking a minor in Environmental Studies complete 15 credits of approved Environmental Studies coursework including:

At least one general survey course chosen from:
- **ENVS 1010** Environmental Geology: Earth in Crisis
- **ENVS 1200** Introduction to Renewable Resources
- **ENVS 1730** Environmental Biology
- **ENVS 2010** Introduction to Environmental Issues

At least one integrative/issues course chosen from:
- **ENVS 1600** Water Resources of the World
- **ENVS 2040** Biodiversity
- **ENVS 3240** Energy and the Environment
- **ENVS 3420** World Food Issues: Past and Present
- **ENVS 4040** Global Change
- **ENVS 4240** Sustainable and Environmental Horticulture Systems
- **ENVS 4500** Issues in Sustainable Agriculture

At least two human/societal perspectives courses chosen from:
- **ENVS 2700** Foundations in Natural Resource Policy and History
- **ENVS 2830** Introduction to Environmental Politics and Policies
