Total Credits: 129

- * To complete degree program in 4 years students must maintain an average of 16 credits per semester.
- ** Initial math course is determined on the basis of high school math and placement test scores. A non-credit math course (MATH 10) may be required at additional course.
- *** In scheduling coursework, students should pay particular attention to courses with limited offerings (e.g., offered only on alternate years) and to course sequences (i.e., where a course serves as a prerequisite for another course).
- Note: In addition to coursework listed above, students must complete departmental requirements for Practical Work Experience requirement (NREM 104). See
