Geol 302. Summer Field Studies. Cr. 6. SS. *Prereq: 102, 356, 368.* Geologic mapping; structural, stratigraphic, sedimentologic, and geomorphic analyses. Study areas include world-class dinosaur localities. A 6-week summer field course required of all geology majors. Nonmajor graduate credit.

Geol 306. Geology Field Trip. Cr. arr. Repeatable. F.S. *Prereq: 100 or 201, permission of instructor.* Geology of selected regions studied by correlated readings followed by a field trip to points of geologic interest. Ten-day field trip required.

Geol 311. Mineralogy and Earth Materials. (3-6) Cr. 5. F. *Prereq: 100 or 201, Chem 163. Introduction to mineral classification, elementary crystal chemistry, crystal morphology, mineral stability, and associations.* Laboratory problems in mineral identification methods, including hand-specimen identification, optical microscopy, and x-ray diffraction. Nonmajor graduate credit.

Geol 324. Energy and the Environment. (Cross-listed with Env S, Mteor). (3-0) Cr. 3. S. Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels. Nuclear, wind, and solar energy. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, groundwater contamination, nuclear waste disposal, and global climate change. Geol 324 does not count toward credits required in the Geology major.

Geol 356. Structural Geology. (3-6) Cr. 5. S. *Prereq: 100 or 201; Phys 111, Math 165 or 181.* Principles of stress and strain. Brittle and ductile behavior of rocks. Description and classification of joints, faults, folds, fractures, foliation, and lineation. Plate tectonics and regional geology. Laboratory includes application of geometrical techniques to solve structural problems; emphasizes map interpretation and use of stereonet and computer methods. Nonmajor graduate credit.

Geol 365. Igneous and Metamorphic Petrology. (2-3) Cr. 3. S. *Prereq: 311.* Nature and origin of igneous and metamorphic rocks. Emphasis on important rock-forming environments and processes and their influence on rock characteristics. Laboratory includes thin section study of rock textures and mineralogy and the interpretation of these features. Field trips. Nonmajor graduate credit.

Geol 368. Stratigraphy and Sedimentation. (3-2) Cr. 4. F. *Prereq: 311.* Origin of sedimentary rocks and the characteristics of major depositional systems, geologic time, stratigraphic nomenclature, methods of correlation, facies and facies analysis, sequence stratigraphy, sedimentary tectonics and basin analysis. Required field and laboratory-based problem with a comprehensive written report. Nonmajor graduate credit.

Geol 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: 100 or 201, 100L, 102, 102L, and permission of the department cooperative education coordinator; junior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Geol 402. Watershed Hydrology. (Dual-listed with 502). (Cross-listed with Agron, EnSci, Mteor, NREM). (3-3) Cr. 4. F. *Prereq: Four courses in physical or biological sciences or engineering; junior standing.* Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

Geol 409. Field Methods in Hydrogeology. (Dual-listed with 509). (Cross-listed with EnSci). (0-4) Cr. 2. Alt. SS., offered 2010. *Prereq: 402 or 411 or C E 473.* Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, electronic instrumentation for data collection, and geophysics. Field trips to investigate water resource, water quality, and remediation projects.

Geol 411. Hydrogeology. (Dual-listed with 511). (Cross-listed with EnSci). (3-2) Cr. 4. F. *Prereq: Geol 100 or 201; Math 165 or 181; Phys 111 or 221.* Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations. Nonmajor graduate credit.

Geol 414. Applied Groundwater Flow Modeling. (Dual-listed with 514). (Cross-listed with EnSci). (2-2) Cr. 3. Alt. S., offered 2010. *Prereq: 411 or C E 473; Math 165 or 181.* Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course. Nonmajor graduate credit.

Geol 415. Paleoclimatology. (Dual-listed with 515). (Cross-listed with EnSci). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Four courses in biological or physical science.* Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years). Nonmajor graduate credit.

Geol 419. Environmental Geochemistry. (Dual-listed with 519). (Cross-listed with EnSci). (2-2) Cr. 3. F. *Prereq: 402 or 411 or equivalent.* Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling. Nonmajor graduate credit.

Geol 426. Stable Isotopes in the Environment. (Dual-listed with 526). (Cross-listed with EnSci). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Four courses in biological or physical science.* Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance. Nonmajor graduate credit.

Geol 434. Contaminant Hydrogeology. (Dual-listed with 534). (Cross-listed with EnSci). (3-0) Cr. 3. S. *Prereq: Geol 411 or equivalent.* Theory and practical considerations of fate and transport of solutes through porous geologic materials. Organic and inorganic contaminants in industrial and agricultural settings. Subsurface Microbiology and biodegradation of aromatic and chlorinated hydrocarbons. Investigation of coupled processes (diffusion, advection, dispersion, sorption, and biodegradation) using computer models. Soil and groundwater monitoring and remediation strategies. Nonmajor graduate credit.

Geol 451. Applied and Environmental Geophysics. (Dual-listed with 551). (Cross-listed with EnSci). (2-2) Cr. 3. S. *Prereq: 100 or 201, Math 181 or equivalent experience.* Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar. Nonmajor graduate credit.

Geol 452. GIS for Geoscientists. (Dual-listed with 552). (Cross-listed with Agron, EnSci). (2-2) Cr. 3. F. *Prereq: 100, 201 or equivalent.* Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses. Nonmajor graduate credit.

Geol 457. Exploration Seismology. (Dual-listed with 557). (2-2) Cr. 3. Alt. F., offered 2010. *Prereq: 100 or 201, Math 181 or equivalent experience.* Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment. Nonmajor graduate credit.

Geol 474. Glacial and Quaternary Geology. (Dual-listed with 574). (2-2) Cr. 3. Alt. S., offered 2011. *Prereq: 100 or 201 or equivalent experience.* The study of the depositional and erosional processes of glaciers using modern glacier analogs and landforms. Discussion of glaciology, glacier hydrology, Quaternary history and stratigraphy, paleoclimatology, and causes of glaciation. Laboratory emphasizes aerial photo and topographic map interpretation and the Quaternary stratigraphy of Iowa. Two required field trips. Nonmajor graduate credit.

Geol 479. Surficial Processes. (Dual-listed with 579). (Cross-listed with EnSci). (2-2) Cr. 3. F. *Prereq: 100 or 201 or equivalent experience.* Study of surficial processes in modern and ancient geological environments. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory emphasizes aerial photo and topographic map interpretation. Nonmajor graduate credit.

Geol 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in geology and permission of instructor.* No more than 9 credits of Geol 490 may be counted toward graduation.

Geol 495. Undergraduate Seminar. Cr. 1. F.S. *Prereq: Junior or senior classification.* Weekly seminar on topics of current research interest.

Geol 498. Cooperative Education. Cr. R. F.S.SS. *Prereq: Geol 100 or 201, 100L, 102, 102L, and permission of the department cooperative education coordinator; senior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduate students

Geol 502. Watershed Hydrology. (Dual-listed with 402). (Cross-listed with EnSci, Mteor). (3-3) Cr. 4. F. *Prereq: Four courses in physical or biological sciences or engineering; junior standing.* Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

Geol 506. Geology Field Trip. Cr. arr. Repeatable. F.S. *Prereq: Graduate classification.* Geology of selected regions studied by correlated readings, followed by a field trip to points of geologic interest. Ten-day field trip.

Geol 507. Midwestern Geology Field Trip. Cr. 1. Repeatable. F. *Prereq: Geol 365.* On-site inspection of various ore deposits, mining operations, and terrains dominated by igneous or metamorphic rocks. Satisfactory-fail only.

Geol 509. Field Methods in Hydrogeology. (Dual-listed with 409). (Cross-listed with EnSci). (0-4) Cr. 2. Alt. SS., offered 2010. *Prereq: 402 or 411 or C E 473.* Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, electronic instrumentation for data collection, and geophysics. Field trips to investigate water resource, water quality, and remediation projects.

Geol 511. Hydrogeology. (Dual-listed with 411). (Cross-listed with EnSci). (3-2) Cr. 4. F. *Prereq: Geol 100 or 201; Math 165 or 181; Phys 111 or 221.*

Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

Geol 514. Applied Groundwater Flow Modeling. (Dual-listed with 414). (Cross-listed with EnSci). (2-2) Cr. 3. Alt. S., offered 2010. *Prereq: 411 or C E 473; Math 165 or 181.* Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

Geol 515. Paleoclimatology. (Dual-listed with 415). (Cross-listed with EnSci). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Four courses in biological or physical science.* Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~ 1 million years).

Geol 519. Environmental Geochemistry. (Dual-listed with 419). (Cross-listed with EnSci). (2-2) Cr. 3. F. *Prereq: 511 or equivalent.* Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

Geol 526. Stable Isotopes in the Environment. (Dual-listed with 426). (Cross-listed with EnSci). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Four courses in biological or physical science.* Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

Geol 534. Contaminant Hydrogeology. (Dual-listed with 434). (Cross-listed with EnSci). (3-0) Cr. 3. S. *Prereq: Geol 511 or equivalent.* Theory and practical considerations of fate and transport of solutes through porous geologic materials. Organic and inorganic contaminants in industrial and agricultural settings. Subsurface Microbiology and biodegradation of aromatic and chlorinated hydrocarbons. Investigation of coupled processes (diffusion, advection, dispersion, sorption, and biodegradation) using computer models. Soil and groundwater monitoring and remediation strategies.

Geol 542. Optical Mineralogy. (1-2) Cr. 2. F. *Prereq: 311.* Introduction to using the microscope for mineral identification. Optical properties of minerals in immersion oils and in thin section. Research project required.

Geol 551. Applied and Environmental Geophysics. (Dual-listed with 451). (Cross-listed with EnSci). (2-2) Cr. 3. S. *Prereq: 100 or 201, Math 181 or equivalent experience.* Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic- and resistivity-imaging systems and radar.

Geol 552. GIS for Geoscientists. (Dual-listed with 452). (Cross-listed with Agron, EnSci). (2-2) Cr. 3. F. *Prereq: Geol 100, 201 or equivalent.* Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

Geol 555. Soil Clay Mineralogy. (Cross-listed with Agron). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Agron 473, Chem 178. Recommend: Geol 311.* Structure and behavior of clay minerals in soil environments, with emphasis on layer silicates and on Fe, Mn, and Al oxides.

Geol 555L. Soil Clay Mineralogy Laboratory. (Cross-listed with Agron). (0-3) Cr. 1. Alt. S., offered 2010. *Prereq: Credit or enrollment in 555.* Thompson. Application of X-ray diffraction, thermal analysis, infrared spectroscopy, and chemical analyses to identification and behavior of clay minerals in soils.

Geol 557. Exploration Seismology. (Dual-listed with 457). (2-2) Cr. 3. Alt. F., offered 2010. *Prereq: 100 or 201, Math 181 or equivalent experience.* Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment.

Geol 558. Introduction to the 3D Visualization of Scientific Data. (Cross-listed with HCI, Com S). (2-2) Cr. 3. Alt. S., offered 2011. *Prereq: Graduate-student standing in the Mathematical or natural sciences.* Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, engineering). Class project in interactive 3D visualization using the OpenDX, VTK or a similar system.

Geol 574. Glacial and Quaternary Geology. (Dual-listed with 474). (2-2) Cr. 3. Alt. S., offered 2011. *Prereq: 100 or 201.* The study of the depositional and erosional processes of glaciers using modern glacier analogs and landforms. Discussion of glaciology, glacier hydrology, Quaternary history and stratigraphy, paleoclimatology, and causes of glaciation. Laboratory emphasizes aerial photo and topographic map interpretation and the Quaternary stratigraphy of Iowa. Two required field trips.

Geol 579. Surficial Processes. (Dual-listed with 479). (Cross-listed with EnSci). (2-2) Cr. 3. F. *Prereq: Geol 100 or 201 or equivalent experience.* Study of surficial processes in modern and ancient geological environments. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory emphasizes aerial photo and topographic map interpretation.

Geol 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.*
A. Surficial Processes
B. Stratigraphy
C. Sedimentation
D. Paleontology
E. Petrology
F. Structural Geology
G. Geochemistry
H. Hydrogeology
I. Earth Science
J. Mineral Resources
K. Geophysics
L. Mineralogy
M. Tectonics
N. Paleoecology and Paleoclimatology
O. Isotope Geochemistry
P. Computational Methods and GIS
R. Surface Hydrology

Geol 595. Graduate Seminar. Cr. 1. Repeatable. F.S. *Prereq: Senior or graduate classification.* Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Satisfactory-fail only.
A. Cr. 1. Presentation required.
B. Cr. R. Attendance only.

Geol 599. Creative Component. Cr. arr. Repeatable.

Courses for graduate students

Geol 610. Advanced Seminar. Cr. arr. Repeatable. F.S. *Prereq: Graduate standing and permission of instructor.*
A. Earth Materials
B. Economic Geology
C. Environmental Geochemistry
D. Geophysics
E. Geotectonics
F. Hydrogeology
G. Surficial Processes
H. Sedimentation and Stratigraphy
I. Paleoecology and Paleoclimatology
J. Isotope Geochemistry
K. Computational Methods and GIS

Geol 699. Research. Cr. arr. Repeatable.
A. Surficial Processes
B. Stratigraphy
C. Sedimentation
D. Paleontology
E. Petrology
F. Structural Geology
G. Geochemistry
H. Hydrogeology
I. Earth Science
J. Mineral Resources
K. Geophysics
L. Mineralogy
M. Tectonics
N. Paleoecology and Paleoclimatology
O. Isotope Geochemistry
P. Computational Methods and GIS
R. Surface Hydrology

Meteorology (Mteor)

Courses primarily for undergraduate students

Mteor 111. Synoptic Applications. (1-0) Cr. 1. Repeatable. F. *Prereq: Credit or enrollment in Math 165.* Current weather discussions and introduction to synoptic-scale interpretation of meteorology. Application and use of calculus in meteorology. Course restricted to majors. Others with permission of instructor.

Mteor 160. Water Resources of the World. (Cross-listed with Geol, Env S, Agron). (3-0) Cr. 3. S. Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in Society and the environment.

Mteor 201. Introductory Seminar. (1-0) Cr. R. F. An overview of the atmospheric sciences, the meteorology program at Iowa State, and the major research journals used in the discipline.

Mteor 206. Introduction to Meteorology. (Cross-listed with Agron). (3-0) Cr. 3. F.S. Basic concepts in meteorology, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety. Self-study laboratory assignments utilize interactive computerized exercises, worksheets and computerized real-time forecasting. Self-study section may be available to distant education students.

Mteor 227. Computational Meteorology I. (3-1) Cr. 3. F. *Prereq: Credit or concurrent enrollment in Mteor 206, credit or concurrent enrollment in Phys 221.* An introduction to computer programming using FORTRAN with focus on meteorological applications. Emphasis on basics of good programming techniques and style through extensive practice in top-down design, writing, running, and debugging small programs. Topics include operations and functions, selective execution, repetitive execution, arrays, input/output, file processing, and subprograms. This course is designed for majors.

Mteor 265. Scientific Balloon Engineering and Operations. (Cross-listed with Aer E). (0-2) Cr. 1. F. Engineering aspects of scientific balloon flights. Integration of science mission objectives with engineering requirements. Operations team certification. FAA and FCC regulations, communications, and command systems. Flight path prediction and control.

Mteor 298. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; sophomore classification.* Required of all cooperative education students. Students must register for this course prior to commencing the work period.

Mteor 301. General Meteorology. (4-0) Cr. 4. S. *Prereq: Math 166, credit or enrollment in Phys 222.* Global distribution of temperature, wind, and atmospheric constituents; atmospheric thermodynamics, radiative transfer, global energy balance, storms and clouds, introductory dynamics. Nonmajor graduate credit.

Mteor 311. Introduction to Synoptic Meteorology. (1-2) Cr. 2. F. *Prereq: 301.* Concepts of weather map plotting and analysis. Introduction to forecasting and to the use of real-time UNIDATA computer products. Nonmajor graduate credit.

Mteor 321. Meteorology Internship. Cr. arr. Repeatable. F.S.SS. *Prereq: 311; junior or senior standing; permission of co-op program coordinator; acceptance by sponsoring agency.* Supervised practical experience in a professional meteorological agency. Experiences may include providing weather information for radio, TV, utilities, government agencies, construction, or agribusiness.

Mteor 324. Energy and the Environment. (Cross-listed with Env S, Geol). (3-0) Cr. 3. S. Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels. Nuclear, wind, and solar energy. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, groundwater contamination, nuclear waste disposal, and global climate change. Mteor 324 does not count toward credits required in the meteorology major.

Mteor 341. Atmospheric Physics I. (3-0) Cr. 3. F. *Prereq: Phys 222, credit or enrollment in Math 266.* Basic laws of thermodynamics, thermodynamics of water vapor, mixtures of gases, stability, hydrostatics, cloud physics. Nonmajor graduate credit.

Mteor 342. Atmospheric Physics II. (3-0) Cr. 3. S. *Prereq: 341.* Precipitation physics, radar, atmospheric radiation, atmospheric optics, atmospheric electricity. Nonmajor graduate credit.

Mteor 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; junior classification.* Required of all cooperative education students. Students must register for this course prior to commencing the work period.

Mteor 402. Watershed Hydrology. (Dual-listed with 502). (Cross-listed with Agron, EnSci, Geol, NREM). (3-3) Cr. 4. F. *Prereq: Four courses in physical or biological sciences or engineering; junior standing.* Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

Mteor 404. Global Change. (Dual-listed with 504). (Cross-listed with Agron, EnSci, Env S). (3-0) Cr. 3. S. *Prereq: Four courses in physical or biological sciences or engineering; junior standing.* Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Nonmajor graduate credit.

Mteor 405. Environmental Biophysics. (Dual-listed with 505). (Cross-listed with Agron, EnSci). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Math 166 or equivalent.* Hornbuckle. The physical microenvironment in which organisms live, with an emphasis on the processes of energy and mass (water and carbon) exchange between organisms and their environment and the quantitative models that are used to represent these processes. Temperature, water, and wind. Heat, mass, and radiative transport. Applications to animals, plants, and plant communities.

Mteor 406. World Climates. (Cross-listed with Agron, EnSci). (3-0) Cr. 3. F. *Prereq: Agron/Mteor 206.* Arritt. Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including Society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Nonmajor graduate credit.

Mteor 407. Mesoscale Meteorology. (Dual-listed with 507). (Cross-listed with Agron). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Math 166 and Mteor 454.* Gallus. Physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure.

Mteor 411. Synoptic Meteorology. (Dual-listed with 511). (1-4) Cr. 3. F. *Prereq: Credit or enrollment in 454.* Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products. Nonmajor graduate credit.

Mteor 417. Mesoscale Forecasting Laboratory. (Dual-listed with 517). (1-5) Cr. 3. S. *Prereq: Credit or enrollment in 411.* Real-time computer analysis of current weather, with emphasis on small-scale features. Studies of severe weather, lake-effect snow, CSI, cold-air damming. Nonmajor graduate credit.

Mteor 432. Instrumentation and Measurements. (3-0) Cr. 3. S. *Prereq: Credit or enrollment in Stat 105, Math 266, Phys 222.* Measurement of meteorological variables and instruments used, including surface, upper air, and remote sensors; measurement errors, signal processing, recording and archiving; quality assurance. Nonmajor graduate credit.

Mteor 443. Dynamic Meteorology I. (3-0) Cr. 3. S. *Prereq: 341.* Conservation laws, governing equations, circulation and vorticity. Development of quasi-geostrophic theory. Nonmajor graduate credit.

Mteor 452. Physics of Climate. (Dual-listed with 552). (3-0) Cr. 3. F. *Prereq: Mteor 301.* Exploration of the fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world. Nonmajor graduate credit.

Mteor 454. Dynamic Meteorology II. (3-0) Cr. 3. F. *Prereq: 443.* Planetary boundary layer, linear perturbation theory, atmospheric wave motions, baroclinic and convective instability, mesoscale circulations. Nonmajor graduate credit.

Mteor 471. History of Modern Meteorology. (Dual-listed with 571). (1-0) Cr. 1. Alt. S., offered 2010. *Prereq: Mteor 341, 342, 411, 443, 452* Development of meteorological theories and numerical weather prediction, discoveries of important meteorological phenomena, and impact of weather and climate on important historical events.

Mteor 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in meteorology, permission of instructor.* No more than 9 credits in Mteor 490 may be counted toward graduation.
A. Synoptic Meteorology.
B. Dynamic Meteorology.
C. Physical Meteorology.
D. Instrumentation.
E. Hydrology.

Mteor 498. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; senior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Mteor 499. Senior Research. (2-0) Cr. 2. F. Required of all senior meteorology majors. Research projects in collaboration with faculty. Written and oral presentations of results at the end of the semester.

Courses primarily for graduate students, open to qualified undergraduate students

Mteor 502. Watershed Hydrology. (Dual-listed with 402). (Cross-listed with EnSci, Geol). (3-3) Cr. 4. F. *Prereq: Four courses in physical or biological sciences or engineering; junior standing.* Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

Mteor 504. Global Change. (Dual-listed with 404). (Cross-listed with Agron, EnSci). (3-0) Cr. 3. S. *Prereq: Four courses in physical or biological sciences or engineering; junior, senior, or graduate standing.* Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

Mteor 505. Environmental Biophysics. (Dual-listed with 405). (Cross-listed with Agron, EnSci). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Math 166 or equivalent.* Hornbuckle. The physical microenvironment in which organisms live, with an emphasis on the processes of energy and mass (water and carbon) exchange between organisms and their environment and the quantitative models that are used to represent these processes. Temperature, water, and wind. Heat, mass, and radiative transport. Applications to animals, plants, and plant communities. Semester project required.

Mteor 507. Mesoscale Meteorology. (Dual-listed with 407). (Cross-listed with Agron). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Math 166 and Mteor 454.* Gallus. The physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure. Semester project and in-class presentation required.

Mteor 511. Synoptic Meteorology. (Dual-listed with 411). (1-4) Cr. 3. F. *Prereq: Credit or enrollment in 454.* Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products.

Mteor 517. Mesoscale Forecasting Laboratory. (Dual-listed with 417). (1-5) Cr. 3. S. *Prereq: Credit or enrollment in 411.* Real-time computer analysis of current weather, with emphasis on small-scale features. Studies of severe weather, lake-effect snow, CSI, cold-air damming.

Mteor 518. Microwave Remote Sensing. (Cross-listed with Agron, E E). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Math 265 or equivalent or permission of instructor.* Hornbuckle. Microwave remote sensing of Earth's surface and atmosphere. Overview of relevant electromagnetic theory and antenna theory. Planck emission and the radiative transfer equation. The electrical properties of natural materials at microwave frequencies. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, and soil and vegetation water content.

Mteor 542. Physical Meteorology. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 342, Math 266, Phys 222.* Planetary atmospheres, radiative equilibrium models, radiative transfer, the upper atmosphere, remote sounding from satellites.

Mteor 543. Advanced Dynamic Meteorology I. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 455.* The first half of a two semester sequence. Governing equations, scale analysis, simple types of wave motion in the atmosphere, instability theory.

Mteor 544. Advanced Dynamic Meteorology II. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 543.* Continuation of 543. General circulation and dynamics of zonally symmetric circulations, atmospheric energetics, nonlinear dynamics of planetary waves.

Mteor 552. Physics of Climate. (Dual-listed with 452). (3-0) Cr. 3. F. *Prereq: Mteor 301.* Exploration of the fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world.

Mteor 561. Geophysical Fluid Dynamics. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 455 or E M 378 or M E 335 or Phys 361.* Basic concept of rotating fluid dynamics, governing equations and boundary conditions, dynamics of vorticity, potential vorticity and geostrophic motion, wave motion in a rotating system, dynamics of Ekman and Stewartson layers, ocean circulation.

Mteor 571. History of Modern Meteorology. (Dual-listed with 471). (1-0) Cr. 1. Alt. S., offered 2010. *Prereq: Mteor 341, 342, 411, 443, 452.* Development of meteorological theories and numerical weather prediction, discoveries of important meteorological phenomena, and impact of weather and climate on important historical events.

Mteor 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.* Topics of current interest.
A. Boundary-layer Meteorology
B. Tropical Meteorology
C. Mesoscale Meteorology
D. Global Climate Systems
E. Climate Modeling
F. Numerical Weather Prediction
G. Satellite Observations
H. Statistical Methods in Meteorology
I. Field Observations
J. Low Frequency Modes
K. Cloud Physics
L. Atmospheric Radiation
M. Hydrology

Courses for graduate students

Mteor 605. Micrometeorology. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 443.* Atmospheric boundary layer, structure and dynamics. Turbulence, soil influences, measurements and empirical relations for wind and temperature profiles near the ground. Simulation of boundary layer structure and dynamics.

Mteor 699. Research. Cr. arr. Repeatable.

Gerontology

www.iastate.edu/~gerontology

(Interdepartmental Minor and Interinstitutional Program)

Advisory Committee: P. Martin, Director; L. Alekel, W. Franke, J. Lempers, Fred Lorenz, Jennifer Margrett, Mack Shelley, A. Smiley-Oyen, R. West

The gerontology program is designed for students desiring careers in aging-related fields and for students interested in improving their understanding of aging persons in American Society. Students are expected to take courses to develop the necessary interdisciplinary breadth which, in combination with other disciplinary training, can prepare them to work with older adults.

Graduates understand the ways in which individual and Societal aging influence, and are impacted by, developments in their major field of study. They have an appreciation and understanding of the cross-disciplinary aspects of human aging.

Gerontology courses are offered in the interdepartmental gerontology program in the following participating departments and programs: Architecture; Biochemistry, Biophysics, and Molecular Biology; Economics; Apparel, Educational Studies, and Hospitality Management, Food Science and Human Nutrition; Health and Human Performance; Human Development and Family Studies; Political Science; Psychology; and Sociology.

Undergraduate Study

Christine Cook, Coordinator

Undergraduate study in this program provides the student with an opportunity to develop a minor in gerontology. A balanced grouping of courses assists the student in developing both a sensitivity to the issues and the ability to synthesize ideas from the variety of disciplines important to the study of the aging process.

Undergraduate students may minor in gerontology by taking 16 semester hours of gerontology related courses. Nine of these credits must come from the following courses: Geron 373, 377, 378, 463. Students will participate in a prepracticum seminar, Geron 466, and will complete a supervised field practicum after all gerontology coursework is completed (Geron 467). A minimum of 3 semester credits must be selected from a list of supportive gerontology related courses. Supportive courses include units or topics related to aging and can be used to complement the student's major interests. The student's minor program must be approved by the undergraduate gerontology coordinator.

Graduate Study

Karen Bermann, Coordinator

A declared graduate minor in gerontology consists of a minimum of 12 credits taken from a list of acceptable courses, and from at least two departments. Nine of the 12 credits must be in courses that are focused specifically on aging. One 590 course (3 credits maximum) can be taken as part of the 12 credits. Geron 510 is required for all minor students. At least one member of the gerontology faculty will be on a student's advisory committee; this person must be a member of the Graduate Faculty. Contact the coordinator to determine whether courses other than those listed below are available.

Gerontology is an interinstitutional distance education program offered through the Web. The student selects the home institution, which grants the degree. After admission at the home institution, the student takes courses from each of the six institutions: Iowa State University, Kansas State University, North Dakota State University, Oklahoma State University, Texas Tech University, and the University of Missouri.

At Iowa State University, gerontology is an area of specialization in the Master of Family and Consumer Sciences degree program of 36 semester hours, 24 of these hours are from the following courses: Geron 530, 534, 540, 545, 563, 577, 584, 594. The remaining 12 credits will include electives and specific courses needed to meet the requirements of the institution awarding the degree. Neither a thesis nor a creative component is required. A computer with a CD-ROM drive, the capacity to access and download materials from the Internet, and a browser equivalent to Netscape/Explorer 4.0 or newer are required for completing the program. An e-mail address is essential as well, plus access to a VCR and a FAX.

Gerontology Graduate Certificate Program

The 21-credit Graduate Certificate Program in Gerontology includes five courses from the list of core courses: Geron 530, 534, 540, 585, 594. The additional six credits required for the certificate can be chosen from the remaining core courses or from other approved elective courses. A maximum of three credits of practicum also can be included in the elective credits.

Admission Procedures: Admission to the Gerontology Certificate Program requires exactly the same procedures as admission to the Graduate College. See *Graduate College* section of the catalog.

Registration: Students choosing to receive their degree from Iowa State University complete all the admissions, registration, and fee payment processes through ISU.

Courses primarily for undergraduate students

Geron 373. Death as a Part of Living. (Cross-listed with HD FS). (3-0) Cr. 3. F.S.Alt. SS., offered 2010. *Prereq: HD FS 102.* Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and Societal attitudes.

Geron 377. Aging and the Family. (Cross-listed with HD FS). (3-0) Cr. 3. *Prereq: HD FS 102.* Interchanges of the aged and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community development.

Geron 378. Economics of Aging. (Cross-listed with Econ, HD FS). (3-0) Cr. 3. S. *Prereq: 3 credits in principles of economics and 3 credits in human development and family studies.* Economic Status of the aging, retirement planning and the retirement decision, role of Social Security, public transfer programs for the elderly, intrafamily transfers to/from the elderly, private pensions, financing medical care and housing for the elderly, prospects and issues for the future.

Geron 463. Environments for the Aging. (Dual-listed with 563). (Cross-listed with HD FS, ArtID). (3-0) Cr. 3. S. *Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies.* Emphasis on independent living within residential settings including specialized shelter, supportive services, and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities.

Geron 466. Gerontology Prepracticum Seminar. (1-0) Cr. 1. F.S.SS. *Prereq: 9 credits in core courses for the gerontology minor and approval of the gerontology undergraduate coordinator.* Prepracticum training for students planning a gerontology practicum. Exploration of possible agencies for the practicum, in-depth study of a selected agency, and development of goals and objectives for the practicum.

Geron 467. Gerontology Practicum. Cr. arr. Repeatable. F.S.SS. *Prereq: 466, advance reservation.* Supervised field experience related to aging. Satisfactory-fail only.

Geron 490. Independent Study. Cr. arr. Consult program coordinator for procedure.

Courses primarily for graduate students, open to qualified undergraduate students

Geron 501. Seminar. Cr. arr. Repeatable. F.S.SS.

Geron 510. Survey of Gerontology. Cr. arr. Repeatable. S. Provides an overview of important gerontological issues.

Geron 530. Perspectives in Gerontology. (Cross-listed with HD FS). (3-0) Cr. 3. F. WWW only. Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future.

Geron 534. Adult Development. (Cross-listed with HD FS). (3-0) Cr. 3. F: on campus. S: WWW only. Exploration of the biological, psychological, and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed.

Geron 540. Nutrition and Physical Activity in Aging. (Cross-listed with Diet). (3-0) Cr. 3. Alt. F., offered 2010. WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

Geron 545. Economics, Public Policy, and Aging. (Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered 2010. WWW only. Policy development in the context of the economic Status of the older adult population. Retirement planning and the retirement decisions; social security and public transfer programs; intra-family transfers to/from the aged; private pensions; financing medical care; prospects and issues for the future.

Geron 563. Environments for the Aging. (Dual-listed with 463). (Cross-listed with HD FS). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies.* Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities.

Geron 571. Design for All People. (Cross-listed with Arch, Dsn S). (3-0) Cr. 3. S. *Prereq: Senior classification or graduate standing.* Principles and procedures of universal design in response to the varying ability level of users. Assessment and analysis of existing buildings and sites with respect to standards and details of accessibility for all people, including visually impaired, mentally impaired, and mobility restricted users. Design is neither a prerequisite nor a required part of the course. Enrollment open to students majoring in related disciplines. Credit counts toward fulfillment of Studies in Architecture and Culture requirements.

Geron 577. Aging in the Family Setting. (Cross-listed with HD FS). (3-0) Cr. 3. *Prereq: 9 credits in social sciences.* Alt. S., offered 2008: on campus. Alt. S. offered 2009: WWW only. Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics also are examined through the use of current literature.

Geron 584. Program Evaluation and Research Methods in Gerontology. (Cross-listed with HD FS). (3-0) Cr. 3. Alt. SS., offered 2010. WWW only. Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings.

Geron 590. Special Topics. Cr. arr. Repeatable. Consult program coordinator for procedure.

Geron 594. Professional Seminar in Gerontology. (Cross-listed with HD FS). (3-0) Cr. 3. Alt. SS., offered 2011. WWW only. An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest.

Global Resource Systems

www.globe.iastate.edu

Gail R. Nonnecke, Faculty Coordinator

Supervisory Committee: David Acker, Richard Hall, Arne Hallam, Jeffery Iles, Kendall Lamkey, Ruth MacDonald, and Robert Martin

Global Resource Systems is a cutting-edge, interdisciplinary, college-wide major that prepares students to make a difference in the world. This major is offered by the College of Agriculture and Life Sciences. The major emphasizes global and cross-cultural engagement while equipping students with a strong technical competency in a resource area of their choice. The interdisciplinary program is designed to prepare students to work on complex global resource issues through leadership positions in global businesses, governmental agencies engaged in international trade and development, non-governmental organizations and globally engaged foundations, educational institutions, and volunteer organizations. It aims to produce systemic thinkers and problem solvers with a global perspective who are trained in resource issues and able to lead teams representing high levels of cultural diversity. Students interested in this major are encouraged to contact the Faculty Coordinator at globe@iastate.edu.

Undergraduate Study

The Global Resource Systems undergraduate major employs a truly interdisciplinary and systemic approach to understanding complex global resource issues. The major allows students to develop a core set of technical competencies in a resource area selected from among the 23 minors and certificates offered by the College of Agriculture and Life Sciences. Students choose a world region in which to specialize, develop competency in a relevant world language, participate in a significant cross-cultural living and working immersion experience in their chosen world region, and carry out a senior project related to their resource specialization within the context of the world region.

Multidisciplinary themes will be developed in the context of the physical, biological and sociological factors affecting global resource systems. In this context, resource systems will include agricultural (including crops, livestock and aquaculture), food, fuel, natural, environmental, biological, financial, governmental, institutional, human, knowledge, and other resources. Graduates of this program will have developed transnational leadership skills and will be successful integrators of various specializations on a team. They will be skilled in developing a systemic perspective and accomplished at solving complex global resource systems problems.

Courses for undergraduate students

Globe 110. Orientation.. (1-0) Cr. 1. F. An introduction to Global Resource Systems (GRS) program, development of student and professional skills, participation in GRS Learning Community and service learning project.

Globe 201. Global Resource Systems. (3-0) Cr. 3. F.S. A comparative analysis of global resources and the various natural and human Systems affecting those resources.

Globe 211. Issues in Global Resource Systems. (1-0) Cr. 1. Repeatable. F.S. *Prereq: credit or enrollment in 201.* Discussion of topics of current importance in global resource systems. A maximum of 3 credits of 211 may be used towards degree requirements.

Globe 221. Apprenticeship. Cr. R. Repeatable. F.S.SS. *Prereq: Approval by the Global Resource Systems Faculty Coordinator.* Practical work experience in approved domestic or international settings such as with a company, research laboratory, governmental agency or non-governmental organization. Satisfactory-fail only.

Globe 290. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator.* Independent study on topics of special interest to the student. Comprehensive report required. Intended primarily for freshmen and sophomores. H. Honors

Globe 301. Resource Systems of Industrialized Nations. (2-2) Cr. 3. F. *Prereq: 201, Econ 101 or 102.* In-depth analysis of the opportunities, constraints and consequences of the resource systems common in industrialized nations. Topics integrate natural resources with land tenure, societal structure, food security, agriculture, shelter, energy and wealth dynamics.

Globe 302. Resource Systems of Developing Nations. (2-2) Cr. 3. S. *Prereq: 201, Econ 101 or 102.* In depth appraisal of resource systems common throughout the developing world. Topics integrate natural resources with land tenure, societal structure, food security, agriculture, shelter, energy and wealth dynamics.

Globe 321. Internship - Global. Cr. arr. Repeatable. *Prereq: Junior or Senior and enrollment in Global Resource Systems major; permission of the instructor and approval by the Global Resource Systems Faculty Coordinator.* A supervised learning experience including an analysis of an international location's resource system via immersion in a foreign culture lasting at least five weeks. The experience should focus on the region consistent with the student's degree track. A maximum of 12 credits of 321 and 322 may be used for degree requirements.

Globe 322. Internship - United States. Cr. arr. Repeatable. *Prereq: Junior or Senior and enrollment in Global Resource Systems major; permission of the instructor and approval by the Global Resource Systems Faculty Coordinator.* A supervised learning experience including an analysis of a domestic location's resource system via immersion in a different culture within the United States lasting at least five weeks. Designed for international students and for students who are not in a position to leave the United States. A maximum of 12 credits of 321 and 322 may be used for degree requirements.

Globe 401. Senior Project. Cr. 3. F.S. *Prereq: Senior classification in Global Resource Systems.* Research project in collaboration with faculty that complements and furthers a student's experiences from Globe 321 and 322 while simultaneously bringing into focus entire four-year experience. Student will write a research report and make either an oral or poster presentation
H. Honors

Globe 402. Responses to Global Resource System Challenges. (1-4) Cr. 3. S. Capstone analysis of critical challenges facing global resources and, especially, identification of alternative solutions.

Globe 446. International Issues and Challenges in Sustainable Development. (Cross-listed with Agron, IntSt). Cr. 4. S. *Prereq: 3-credit biology course, Sophomore or higher classification, permission of Instructor.* Mullen. Interdisciplinary study and analysis of agricultural, biophysical, environmental, sociological, economical, political, and historical factors affecting sustainable development of communities and countries from art and science perspectives. International field experience with foreign language training required. A program fee is charged to students for international study abroad.

Globe 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator.* Independent study on topics of special interest to the student. Comprehensive report required. Intended primarily for juniors and seniors. A maximum of 4 credits may be used for degree requirements.
E. Entrepreneurship
H. Honors
Z. Service Learning

Globe 495. Global Resource Systems Study Abroad Course Preparation. Cr. R. Repeatable. F.S. *Prereq: Permission of instructor.* Global resource systems topics will include the agricultural industries, climate, crops, culture, economics, food, geography, government, history, livestock, marketing, natural resources, public policies, soils, and preparation for travel to locations to be visited. Students enrolled in this course intend to register for Globe 496 or 497 the following term.

Globe 496. Global Resource Systems Study Abroad. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.* Extended field trips abroad to study global resource systems. Location and duration of trips will vary. Pre-trip sessions arranged through Globe 495. Trip expenses paid by students.

Globe 497. Deans Global Ag and Food Leadership Program. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.* An integrated agricultural and food production and policy program that allows students to assess, analyze and evaluate complex, country-specific situations and to develop their skills, knowledge and abilities via team-oriented projects that involve complex issues such as development of effective foreign food aid and agricultural and food production systems, drivers of world hunger, sustainable resource management and efficacy of policy, and the role of the USA and the United Nations and other development agencies in these systems. International location and duration of program will vary. Pre-trip sessions arranged through Globe 495. Trip expenses paid by students.

Globe 499. Undergraduate Research. Cr. arr. F.S. *Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator.* Research projects in collaboration with faculty.

Graduate Studies

No major is granted in Graduate Studies. At the recommendation of the major professor and/or the department chair, graduate students may enroll in the following graduate courses to fulfill certain enrollment requirements.

Courses for graduate students

Gr St 585. Preparing Future Faculty Introductory Seminar. Cr. 1. *Prereq: One year of graduate course work; admission into PFF program.* Introduction to faculty life issues such as hiring, tenure, teaching, and service at a variety of higher education institutions. Includes presentations from faculty at other institutions.

Gr St 586. Preparing Future Faculty Intermediate Seminar. Cr. 1-3. *Prereq: Admission into PFF program; completion of 585 or permission of instructor.* Consideration of a wide range of faculty life issues. Includes topics such as higher education trends, diversity issues, learning styles, assessment, grant and proposal writing, and legal and ethical issues. Written components include job and teaching portfolios.

Gr St 587. Preparing Future Faculty Teaching Practicum. Cr. 1. *Prereq: Permission of instructor, 585, credit for or concurrent enrollment in 586.* Students complete a stand-alone teaching assignment at Iowa State or another higher education institution. Written components include pedagogical documents.

Gr St 588. Preparing Future Faculty Special Topics. Cr. 1-3. *Prereq: Permission of instructor, 585, credit for or concurrent enrollment in 586.* In-depth study of topic providing academic professional development.

Gr St 600. Examination Only. Cr. R. Reserved for graduate students the term they take the final oral examination. Students must have completed all required coursework and not be registered for another course.

Gr St 601. Required Enrollment. Cr. R. Reserved for graduate students who must be registered for a particular term, but are not required to take additional coursework.

Gr St 680. Doctoral Post Prelim (Continuous) Registration. Cr. R. Repeatable. Reserved for Ph.D. candidates only. See the Graduate College Handbook for specific requirements.

Gr St 697. Curricular Practical Training. Cr. R. Repeatable. F.S.SS. Professional work period.

History

www.history.iastate.edu/

Charles Dobbs, Chair of Department

University Professors (Emeritus): Schwieder

Professors: Adeleke, Cravens, Dobbs, Goedeken, Liu, Riney-Kehrberg, Wilson

Professors (Emeritus): Bennett, Dobson, Geiger, Keller, Kottman, Lowitt, Marcus, McJimsey, Plakans, Rawson, Schofield

Associate Professors: Andrews, Bix, Griffiths, Hollander, Monroe

Associate Professors (Emeritus): Avraamides, Pope, Whitaker

Assistant Professors: Bailey, Byars, Delcastillo, Hilliard, Houghtby, Sadosky

Assistant Professors (Emeritus): Madison, Osborn, Zaring

Assistant Professor (Adjunct): Schneider

Lecturer: Hill

The History department offers curricula leading to the B.A. and B.S. degrees in history, the M.A. degree in history, the M.A. and Ph.D. degrees in the history of technology and science, and the Ph.D. degree in agricultural history and rural studies.

The department offers a variety of survey courses (200 series) designed to serve primarily first- and second-year students as either general education courses or as introductions to advanced courses in history or other subject areas. In addition to 200-level survey courses, it offers advanced undergraduate courses in the history of Europe, Asia, Latin America, the United States, technology and science, agriculture, and other selected topics.

Undergraduate Study

The History major. For a description of the undergraduate curriculum with a major in History see *Liberal Arts and Sciences, Curriculum*. History majors may earn either a bachelor of arts or bachelor of science degree. The minimum required for a major in history is 36 credits, of which at least 24 must be in courses numbered 300 or above. Students may take a maximum of 12 credits at the 200-level, a maximum of 15 credits at the 300-level, and must take a minimum of 12 credits at the 400-level or above. A minimum of 15 credits numbered 300 or above must be taken in residence at Iowa State. Candidates for the B.A. must complete two years of university-level study in one foreign language or the equivalent.

Objectives for History Majors

1. Display the appropriate level of cognitive knowledge of historical themes and events based upon the student's course of study.
2. Display an understanding of past cultures and social organizations, based on the course of study.
3. Develop the fundamental methodological skills of the historical craft:
- The ability to contextualize and analyze primary source evidence.
- Familiarity with the concepts of historical argument and interpretation, and the ability to formulate effective argumentation in written and oral forms.
- Awareness of the basic historiography in selected research area.
- The ability to conduct research and to write a historical essay based upon primary and secondary source research.

4. Display a sophisticated understanding of the relationship between past events and the present.

For purposes of outcomes assessment, all History majors must complete three credits of History 495 or, if qualified and willing, one graduate level writing/research seminar.

Communication Proficiency requirement: History majors must receive a grade of C or better in each of Engl 150 and 250 (or 250H), and Hist 495 or any graduate seminar.

For a description of the major in History as preparation for professional programs, see *Preprofessional Study*. Students majoring in History may also earn a second major in International Studies; see *International Studies*.

Majors must distribute their courses across geographic and chronological areas such that they take at least 3 credits at the 300-level or above in five of the following six areas:

• U.S. history, European history, African/Asian/Latin American history

• Ancient history (pre-500), medieval and early-modern history (ca. 500-1750), and modern history (post-1750)

It is expected that individual courses will fulfill both a geographic and a chronological area. For example, a course on nineteenth century France would count as both European history and modern history. No single course, however, may be used to fulfill more than one geographic and one chronological area. If a course stretches significantly across two or more areas, students will select which geographic and/or which chronological area they want the course to fulfill. The History Department undergraduate adviser should be consulted as to which courses fulfill what areas. History 495 may not be used to fulfill any area.

The department offers a minor in History, which may be earned with 15 credits in History courses, of which at least 9 must be in courses numbered 300 or above, excluding Hist 490. A minimum of 9 credits numbered 300 or above must be taken at Iowa State. The College of Liberal Arts and Sciences requires students to earn a C or higher in at least 6 of the required 300-level credits. The History minor is most frequently chosen by students majoring in Political Science, English, Journalism, Computer Science, and Business.

Graduate Study

Graduate students may take any 400-level history course except 490 and 495 for graduate credit. No more than 12 credits of 400-level courses, however, may be used toward the minimum credits required for a graduate degree in history. Additional work is required for graduate credit in 400-level courses.

Most history graduate courses are either proseminars or seminars. Proseminars acquaint students with the historical literature of a field and prepare them for careers in teaching and research. Seminars require students to conduct original historical research and to write extensive research papers reporting the results.

The M.A. in history. For the M.A. in history, students may elect a thesis or a nonthesis program. See the departmental website on the M.A. in History for a full discussion of the options and requirements. An M.A. in History serves as the basis for continued study in history, as well as preparation for careers in law, education, business, and government service. For international students, a TOEFL score of 600 is required at the time of admission.

The M.A. and Ph.D. in history of technology and science. The graduate program in the history of technology and science examines the role of technology and science in the formation of modern Societies and their attitudes toward people and the world. The program is structured in a sequence of courses leading to the M.A. and Ph.D. degrees. Since these courses approach their subject in the context of social and cultural change, they are also open to and appropriate for students in engineering, the sciences, science education, and science journalism. For a thorough description of the program requirements, see the department's website on the history of technology and science program.

The Ph.D. in agricultural history and rural studies. The program is designed as a Ph.D. program, but students without an M.A. in history will be expected to qualify for the departmental M.A. in history while progressing toward the doctorate. In some cases, the M.A. may be recommended as the terminal degree. Thirty semester hours of graduate credit are required for the M.A. and 72 for the Ph.D. Students who continue beyond the M.A. are expected to pass preliminary examinations in four areas of specialization, complete a dissertation, and defend it orally in the Ph.D. final examination. See the departmental website on the program for a full description of requirements.

Courses primarily for undergraduate students

Hist 201. Introduction to Western Civilization I. (3-0) Cr. 3. F. Western civilization from ancient Mediterranean world to 1500. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.

Hist 202. Introduction to Western Civilization II. (3-0) Cr. 3. S. Western civilization from 1500 to present. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.

Hist 207. Chinese Civilization. (3-0) Cr. 3. Origins, development, decline and transformation of China from earliest times to present.

Hist 221. Survey of United States History I. (3-0) Cr. 3. F. Colonial foundations: revolution, confederation, and constitution; nationalism and democracy; sectional disunity, Civil War, and reunion.

Hist 222. Survey of United States History II. (3-0) Cr. 3. S. Industrialization; emergence as a great power; boom and depression; war, internationalism and Cold War; modern industrial Society.

Hist 245. Introduction to Latin American History. (3-0) Cr. 3. Latin America from pre-conquest times to the present. Economic, social, political, and cultural developments; problems of historical change and continuity.

Hist 280. Introduction to History of Science I. (3-0) Cr. 3. F. Ideas of nature from ancient Greece to the seventeenth-century scientific revolution.

Hist 281. Introduction to History of Science II. (3-0) Cr. 3. S. Science from seventeenth-century scientific revolution to Darwin and Einstein.

Hist 284. Wonders of the World, Ancient to Early Modern. (3-0) Cr. 3. F. Starting from the classical "Seven Wonders of the World," examines machines, structures, buildings, innovations, and technologies from Sumer, Egypt, Greece, and Rome, through China, Latin America, and the Islamic world, up to Europe's Industrial Revolution. Topics include developments in warfare and weaponry, architecture, agriculture, printing, religious ceremony, entertainment, and major engineering achievements.

Hist 285. Modern Wonders of the World. (3-0) Cr. 3. S. Examines machines, structures, buildings, innovations, and technologies from the Industrial Revolution to the twenty-first century, including the US, Europe, Asia, and Middle East. Topics include developments in manufacturing, communication, electrification, automobiles, airplanes, warfare, computers, the atom bomb, and major engineering achievements.

Hist 304. Cultural Heritage of the Ancient World. (Cross-listed with Cl St). (3-0) Cr. 3. *Prereq: Sophomore classification.* Historical examination of art, literature, thought, and religious beliefs of major civilizations of the ancient Mediterranean countries until the end of the 8th century.

Hist 305. Cultural Heritage of the Modern World. (3-0) Cr. 3. *Prereq: Sophomore classification.* Examination of parallel formal and structural elements in scientific and social thinking, technological design, and composition in literature and the arts from the late medieval period to the 20th century.

Hist 307. American Popular Culture. (3-0) Cr. 3. *Prereq: Sophomore classification.* Social practices, beliefs and material traits of everyday life in America from the mid-19th century to the present. Includes literature, music, theater and other entertainments. Dime novels, vaudeville, rock and roll music, Hollywood and establishment of professional athletic leagues are among the cultural artifacts and phenomena considered.

Hist 316. History of Medieval Europe, 300-1500. (3-0) Cr. 3. *Prereq: Sophomore classification.* Survey of political, social, and cultural developments in western Europe for the entire medieval period, 300-1500.

Hist 323. Science and Religion. (Cross-listed with Relig). (3-0) Cr. 3. *Prereq: Sophomore classification.* History of changing interplay of science and religion in our understanding nature, from the trial of Galileo to the reception of Darwin.

Hist 325. Society and Politics in England, 1525-1700. (3-0) Cr. 3. *Prereq: Sophomore classification.* Social, cultural, demographic, and economic experiences. Religious Reformation. Growth of the State (and Empire) and political institutions.

Hist 336. History of Modern China I. (3-0) Cr. 3. *Prereq: Sophomore classification.* China from 1644 to 1912; internal and external stimuli on traditional structure leading to reform and revolution.

Hist 337. History of Modern China II. (3-0) Cr. 3. *Prereq: Sophomore classification.* China from 1912 to present; search for a new order and continuing Chinese revolution.

Hist 338. Modern Japanese History. (3-0) Cr. 3. *Prereq: Sophomore classification.* Japan 1600 to the present; emphasis on transformation of feudal Japan into a post-industrial Society.

Hist 339. US-Asian Relations. (3-0) Cr. 3. *Prereq: Sophomore classification.* A survey of US-East Asian (Japan, China, Korea) relations from the late 18th century to the end of the Cold War.

Hist 340. History of Latin America I. (3-0) Cr. 3. *Prereq: Sophomore classification.* Colonial Latin America from European discovery and colonization to wars for independence.

Hist 341. History of Latin America II. (3-0) Cr. 3. *Prereq: Sophomore classification.* Modern Latin America national origins from 1800 to present.

Hist 351. Social and Cultural History of American People I. (3-0) Cr. 3. *Prereq: Sophomore classification.* History of ordinary Americans since 1800; development of Society; dissemination of popular ideas; living conditions, work, and play; the arts, music, architectural styles, material culture; rural and urban lifestyles; majority-minority and gender relations; religion, mass culture, corporations, and technology in modern times from 1800.

Hist 352. Social and Cultural History of American People II. (3-0) Cr. 3. *Prereq: Sophomore classification.* History of ordinary Americans since 1900; development of Society; dissemination of popular ideas; living conditions, work, and play; the arts, music, architectural styles, material culture; rural and urban lifestyles; majority-minority and gender relations; religion, mass culture, corporations, and technology in modern times.

Hist 353. History of African Americans I. (Cross-listed with Af Am). (3-0) Cr. 3. *Prereq: Sophomore classification.* Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.

Hist 354. History of African Americans II. (Cross-listed with Af Am). (3-0) Cr. 3. *Prereq: Sophomore classification.* Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.

Hist 355. Slavery and the Crisis of Union. (3-0) Cr. 3. *Prereq: Sophomore classification.* Examines causes and primary events of the sectional crisis over slavery leading up to the Civil War. Missouri Crisis through Presidential Election of 1860.

Hist 356. The U.S. Civil War and Reconstruction. (3-0) Cr. 3. *Prereq: Sophomore classification.* Political, military, and social aspects of the Civil War and Southern Reconstruction. Secession crisis through Reunion.

Hist 360. U.S. 1900 to 1945. (3-0) Cr. 3. *Prereq: Sophomore classification.* America in transition and crisis: Progressivism, World War I, the twenties, the Great Depression, and World War II.

Hist 361. U.S. 1945 to the Present. (3-0) Cr. 3. *Prereq: Sophomore classification.* From the Cold War to the Baby Boom to the liberal swing of the 1960s, back to the conservative counter-swing thereafter.

Hist 365. History of American Agriculture I. (3-0) Cr. 3. *Prereq: Sophomore classification.* American agricultural development from colonial times: European background, colonial period to 1865.

Hist 366. History of American Agriculture II. (3-0) Cr. 3. *Prereq: Sophomore classification.* American agricultural development from 1865 to present.

Hist 367. Topics in American Agriculture. (3-0) Cr. 3. *Prereq: Sophomore classification.* Thematic approach to the development of the American agricultural system. Topics vary; examples include food and agriculture, animals in agriculture, and systems of production.

Hist 370. History of Iowa. (3-0) Cr. 3. *Prereq: Sophomore classification.* Survey of major social, cultural, and economic developments in Iowa from the late 1700s. Emphasis on minority groups, pioneer life, early economic development, industrial development, educational and religious development, and outstanding personalities.

Hist 374. Women in the Ancient Mediterranean World. (Cross-listed with Cl St, W S). (3-0) Cr. 3. Repeatable. S. *Prereq: Any one course in Cl St, W S, Latin, or Greek.* Chronological and topical survey of the Status of women in the Ancient Mediterranean world; study of constructs of the female and the feminine. Readings from ancient and modern sources. Emphasis on either the Greek world and Hellenistic Egypt, or Hellenistic Egypt and Rome.
A. Hellenic World and Hellenistic Egypt
B. Roman World including Roman Egypt

Hist 376. Classical Archeology. (Cross-listed with Cl St, Relig). (3-0) Cr. 3. Repeatable. Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
A. Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece. (ca 3000-700 BC).
B. Archaic through Hellenistic Greece (ca 700-30 BC).

Hist 380. History of Women in Science, Technology, and Medicine. (Cross-listed with W S). (3-0) Cr. 3. *Prereq: Sophomore classification.* History of women's relationship to the fields of science, technology, and medicine, as students and professionals, consumers, subjects and patients, family members, workers and citizens. Concentrates especially on 19th and 20th century United States, concluding with an examination of current issues of special interest to women in science, technology, and medicine.

Hist 383. Technology, Public Science, and European Culture, 1715-Present. (3-0) Cr. 3. *Prereq: Sophomore classification.* A survey from the Age of Enlightenment to the end of the twentieth century of the relationship between science, technology, and public or popular culture in a comparative European context (including Russia and the former Soviet Union).

Hist 386. History of Women in America. (Cross-listed with W S). (3-0) Cr. 3. *Prereq: Sophomore classification.* A survey of social, economic, and political aspects of women's role from colonial era to present; emphasis on employment, education, concepts of sexuality, and changing nature of the home.

Hist 388. History of Modern Astronomy. (3-0) Cr. 3. *Prereq: Sophomore classification.* Changing conception of the universe from Galileo to Edwin Hubble and beyond.

Hist 389. American Military History. (3-0) Cr. 3. *Prereq: Sophomore classification.* American military history from the colonial wars to the present, including Revolutionary War, Mexican War, Civil War, First and Second World Wars, Korean War, Vietnam War, and Gulf Wars.

Hist 390. World Military History. (3-0) Cr. 3. *Prereq: Sophomore classification.* Covers military history from the Napoleonic era through the mid- and late-19th century wars, the First and Second World Wars, and wars of national liberation and regional conflicts since 1945.

Hist 391. American Diplomatic History. (3-0) Cr. 3. *Prereq: Sophomore classification.* A study of US foreign relations during the twentieth century, including the rise to global power, the First World War, diplomacy during prosperity and depression, the Second World War, the Cold War, relations with Latin America, East and South Asia, and Africa, the search for markets, and the perceptions of American foreign policy held by the US, its allies and adversaries, and others.

Hist 402. Greek Civilization. (Cross-listed with Cl St). (3-0) Cr. 3. *Prereq: Sophomore classification.* Ancient Greece from the Bronze Age to the Hellenistic period; evolution of the Greek polis and its cultural contributions, with a particular emphasis on the writings of Herodotus and Thucydides. Nonmajor graduate credit.

Hist 403. Roman Civilization. (Cross-listed with Cl St). (3-0) Cr. 3. *Prereq: Sophomore classification.* Ancient Rome from the Regal Period to the fall of the Western Empire; evolution of Roman institutions and Rome's cultural contributions studied through original sources. Nonmajor graduate credit.

Hist 404. Roman Social History. (Cross-listed with Cl St). (3-0) Cr. 3. *Prereq: Sophomore classification.* Examines major topics in Roman social history during the late Republic and early Empire, such as class, family, slavery, religion, and the economy. Nonmajor graduate credit.

Hist 405. History of the Early Middle Ages. (3-0) Cr. 3. *Prereq: Sophomore classification.* General coverage of political, economic, social, and cultural developments in early medieval Europe, 300-1000; in depth coverage of particular issues and topics. Nonmajor graduate credit.

Hist 406. History of the High Middle Ages. (3-0) Cr. 3. *Prereq: Sophomore classification.* General coverage of political, economic, social, and cultural developments in high medieval Europe, 1000-1300; in-depth coverage of particular issues and topics. Nonmajor graduate credit.

Hist 408. Europe, 1500-1648. (3-0) Cr. 3. *Prereq: Sophomore classification.* Northern Renaissance; Church and Luther; Protestant reform and Roman-Catholic counter-reform; social, cultural, and economic changes; Spain in triumph and decline; religious wars and emergence of France. Nonmajor graduate credit.

Hist 414. European Cultural and Intellectual History. (3-0) Cr. 3. *Prereq: Sophomore classification.* A study of the development of key themes in European thought: nature, man, God, society, history, and creativity from Rousseau to Post-Modernism. Nonmajor graduate credit.

Hist 419. History of Modern France. (3-0) Cr. 3. *Prereq: Sophomore classification.* From absolutism to revolution and the rise of modern democracy. Nonmajor graduate credit.

Hist 420. France's Revolutionary Century, 1715-1815. (3-0) Cr. 3. *Prereq: Sophomore classification.* An in-depth investigation of the French Revolution, its causes and consequences, beginning in the Ancien Regime and ending with the fall of Napoleon. Nonmajor graduate credit.

Hist 421. History of Russia I. (3-0) Cr. 3. *Prereq: Sophomore classification.* Russia to 1850. Origins of Russian people; Byzantine influences; Mongol invasion; rise of Moscow; Westernization. Nonmajor graduate credit.

Hist 422. History of Russia II. (3-0) Cr. 3. *Prereq: Sophomore classification.* Russia since 1850. Reform and revolution; transformation of Society; USSR as a world power; recent changes. Nonmajor graduate credit.

Hist 424. History of Modern Germany. (3-0) Cr. 3. *Prereq: Sophomore classification.* Political, social, and cultural history of Germany from the 19th century to the present. Nonmajor graduate credit.

Hist 427. Crime and Policing in England 1550-1850. (3-0) Cr. 3. *Prereq: Sophomore classification.* Course examines different forms and ideas of criminality and the nature and development of law enforcement in England between 1550 and 1856. Significant issues will include the nature of criminal records and Statistics, the legal system, the politics of the law and its links with social relations, policing, female crime, juvenile delinquency, organized crime, riots, "social crime," and the treatment of crime in creative literary texts. Nonmajor graduate credit.

Hist 428. Punishment, Mentalities, and Society in England, 1550-1868. (3-0) Cr. 3. *Prereq: Sophomore classification.* Explores the history of punishing criminals in England and shows how interdisciplinary perspectives, ideas, and practices of punishment are related to mentalities, and Socio-economic change. Issues of significance examined: violence, civility, manners, madness, public punishment, execution, imprisonment, transportation, mercy, the rise of asylums, and penal reform. Nonmajor graduate credit.

Hist 429. "Monstrous London": London's Histories 1500-1800. (3-1) Cr. 4. *Prereq: Sophomore classification.* Study of London's social, economic, cultural, political, and environmental history 1500-1800, using both quantitative and qualitative methods to examine contemporary and secondary sources. Course combines standard lecture and discussion format with one week of intensive study abroad for 4th hour of course credit. Nonmajor graduate credit.

Hist 431. Modern England. (3-0) Cr. 3. *Prereq: Sophomore classification.* England since 1850. Parliamentary and constitutional development; social reform and economic change; imperial Britain; welfare state. Nonmajor graduate credit.

Hist 443. Science, Technology, and Medicine in Latin America. (3-0) Cr. 3. *Prereq: Sophomore classification.* Development of science, technology, and medicine in Latin America from pre-colonial times to the present. Themes include: intersection of science, medicine, and technology with colonization, impact of human populations on environments, formation of nation-states, spread of disease, and how perceptions of accepted scientific knowledge change over time. Nonmajor graduate credit.

Hist 450. Colonial America. (3-0) Cr. 3. *Prereq: Sophomore classification.* Exploration, colonization, and development of political, economic, religious, and cultural institutions of North American colonies before 1754. Topics also include social history, emergence of African-American Slavery, relations with American Indians. Nonmajor graduate credit.

Hist 451. American Revolutionary Era. (3-0) Cr. 3. *Prereq: Sophomore classification.* Participants, ideas, and events leading to independence and the foundation of the United States, 1754 to 1789. Topics include political, military, social, cultural history, also issues of gender and race relations. Nonmajor graduate credit.

Hist 456. American Family History. (3-0) Cr. 3. *Prereq: Sophomore classification.* The impact on American families from colonial times onward of agricultural change, industrialization, urbanization, and wars and depressions. Nonmajor graduate credit.

Hist 461. The Rural South. (3-0) Cr. 3. *Prereq: Sophomore classification.* History of the American South from colonial period to present. Emphasis on economic, social, and political change in this rural region. Nonmajor graduate credit.

Hist 462. History of American Thought I. (3-0) Cr. 3. *Prereq: Sophomore classification.* American religious, social, and political thought; development of democracy and nationalism and of the arts and sciences from colonial times to late nineteenth century. Nonmajor graduate credit.

Hist 463. History of American Thought II. (3-0) Cr. 3. *Prereq: Sophomore classification.* Religious, social, and political thought; development of democracy and nationalism, the arts and sciences from late nineteenth century to modern and post-modern times. Nonmajor graduate credit.

Hist 464. Nineteenth Century America. (3-0) Cr. 3. *Prereq: Sophomore classification.* Development of the modern American Nation. Examines social, political, and institutional transformation wrought by modern industrial Society. Nonmajor graduate credit.

Hist 465. The American West. (3-0) Cr. 3. *Prereq: Sophomore classification.* History of trans-Mississippi West from 1800 to present, concentrating on settlement and regional identity. Emphasis on the state, the environment, urbanization, agriculture, Native Americans, and minority communities. Nonmajor graduate credit.

Hist 466. Empires in North American. (3-0) Cr. 3. *Prereq: Sophomore classification.* Examines imperial contests to claim and settle interior of North American continent from 15th to 19th century. Focuses on growth of Spanish empire, experiences of various Plains Indian nations, expansion of United States. Nonmajor graduate credit.

Hist 468. History of Rural America. (3-0) Cr. 3. *Prereq: Sophomore classification.* History of rural America from the colonial period to the present. Emphasizes immigration, ethnicity, religion, social and cultural change, and agriculture in relation to rural settlement, institution building, demographic change, gender, class, and political and economic development. Nonmajor graduate credit.

Hist 472. U. S. Environmental History. (Cross-listed with Env S). (3-0) Cr. 3. *Prereq: Sophomore classification.* Survey of the interactions of human communities with the North American environment. Focus on the period from presettlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies. Nonmajor graduate credit.

Hist 473. Civil Rights and Black Power. (3-0) Cr. 3. *Prereq: Sophomore classification.* History of the civil rights and Black Power movements in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender dynamics, and the intersection of local grassroots organizing and national and international politics. Nonmajor graduate credit.

Hist 474. Tradition and Transformation of China's Foreign Affairs. (3-0) Cr. 3. *Prereq: Sophomore classification.* Evolution of China's external relations from the antiquities to our own times; conceptions, practices, and relationships that characterized the inter-state relations of the so-called "Chinese world order," interactions between "Eastern" and "Western," and "revolutionary" and "conventional" modes of international behaviors. Nonmajor graduate credit.

Hist 479. China and the Cold War. (3-0) Cr. 3. *Prereq: Sophomore classification.* Important events in China's Cold War involvement, connections between domestic and foreign affairs, factors and rationales in China's foreign policy making the relationship between China's Cold War experience and recent developments. Nonmajor graduate credit.

Hist 482. Birth, Death, Medicine, and Disease. (3-0) Cr. 3. *Prereq: Sophomore classification.* History of medicine, sickness, and public health from ancient times to the twenty-first century in the US, Europe, and around the world. Topics include changing ideas of health and illness, development of doctors and hospitals, social and ethical issues in health care, and epidemics from cholera to AIDS. Nonmajor graduate credit.

Hist 483. Modern Science and Human Nature. (3-0) Cr. 3. *Prereq: Sophomore classification.* History of the sciences of humankind since the 18th century: evolutionary natural and social science, the modern social sciences; anthropology, psychology, economics, law, psychiatry, human growth and development, political science, city planning, public administration, business administration, among others, and the uses of the human Sciences in education, politics, advertising, corporate functioning, warfare, psychotherapy, childrearing, and other pursuits in modern times, as well as the impact of postmodernism on the human Sciences. Nonmajor graduate credit.

Hist 486. History of Medicine, Gender, and the Body. (Cross-listed with W S). (3-0) Cr. 3. *Prereq: Sophomore classification.* History of medicine, history of science, and women's history combine for an intensive examination of topics related to health, the body, and medical care over the centuries. Topics include gender and sexuality, reproduction, historical interpretations of gender differences, and the politics of women's health. Nonmajor graduate credit.

Hist 488. American Stuff, Colonial Times to the Present. (3-0) Cr. 3. *Prereq: Sophomore classification.* Examines inventions, machines, innovations, artifacts, and material culture in the US, from homespun cloth and the Colt revolver through the transcontinental railroad and Model T, to the Big Mac and iPod. Nonmajor graduate credit.

Hist 489. History of American Science. (3-0) Cr. 3. *Prereq: Sophomore classification.* Science as a cultural and social activity in America from the eighteenth century to present. Scientific discovery; interaction of scientific and social ideas; science and war; science and health, environment; role of science as expertise in a nationalistic democracy. Nonmajor graduate credit.

Hist 490. Independent Study. (3-0) Cr. arr. Repeatable. *Prereq: 9 credits in history; permission of department chair.* Reading and reports on problems selected in conference with each student. No more than 6 credits of Hist 490 may be counted toward graduation with a major in History. No credits of Hist 490 may count toward a minor in History.

Hist 495. Historiography and Research Writing. (3-0) Cr. 3. F.S. *Prereq: Senior history majors with at least 12 credits of 300+ level history courses.* Variable topics seminar that focuses on historiographical and research skills and writing. Required of majors.

Courses primarily for graduate students, open to qualified undergraduate students

Hist 510. Proseminar in East Asian History. (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor.* Readings in East Asian history. Topics vary each time offered.

Hist 511. Proseminar in American History. (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor.* Readings in American history. Topics vary each time offered.
A. Colonial Period
B. Nineteenth Century
C. Twentieth Century
D. Environment
E. Social and Cultural

Hist 512. Proseminar in European History. (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor.* Readings in European history.
A. Ancient (Same as Cl St 512A)
B. Medieval
C. Modern

Hist 513. Proseminar in Latin American History. (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor.* Readings in Latin American history. Topics vary each time offered.

Hist 530. Proseminar in Modern Russian/Soviet History. (3-0) Cr. 3. Repeatable. *Prereq: Hist 422.* Readings in modern Russian history. Topics vary each time offered.

Hist 550. Proseminar in European Rural and Agricultural History. (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor.*
A. Modern European Rural Life
B. Twentieth Century Europe

Hist 552. Proseminar in American Rural and Agricultural History. (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor.*
A. American Agriculture
B. Agrarian Reform Movements
C. Midwestern Rural Society
D. Women in Rural Life

Hist 570. Seminar in General History of Science I. (3-0) Cr. 3. *Prereq: Permission of instructor.* The history of science from pre-classical civilizations to the Age of Isaac Newton with emphasis on the historical literature, varying interpretations of the period, and problems for continuing research.

Hist 571. Seminar in General History of Science II. (3-0) Cr. 3. *Prereq: Permission of instructor.* The history of science from Isaac Newton to modern times, with emphasis on the historical literature, varying interpretations of the period, and problems for continuing research.

Hist 575. Seminar in General History of Technology. (3-0) Cr. 3. *Prereq: Permission of instructor.* The history of technology from the 11th century to the present, with emphasis on the historical literature, differing interpretations of major problems, and problems identified for college-level teaching and for further scholarly research.

Hist 576. Colloquium in Historiography of Technology and Science. Cr. R. F. Topical lectures, reports, and discussion of methodology and research in history of technology and science. Required of all graduate students in history of technology and science program.

Hist 580. Museum or Archive Internship. (3-0) Cr. arr. *Prereq: 15 graduate credits in history and permission of instructor.* Introduction to work and research in either a museum or archive setting.

Hist 583. Historical Methods. (3-0) Cr. 3. Study of evidence, theory, and methods.
A. Historical Narrative
B. Statistical Evidence and Analysis

Hist 585. Teaching Methods. Cr. arr. Repeatable. *Prereq: Permission of instructor.* Topics vary each time offered.

Hist 586. Proseminar in Women's History and Feminist Theory. (Cross-listed with W S). (3-0) Cr. 3. *Prereq: Permission of instructor.* Feminist theory from the 1960s to the present as it relates to the writing of women's history. Analysis of interpretations of U.S. women's history from patriarchal to postmodernist perspectives.

Hist 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.*

Hist 592. Seminar in East Asian History. (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor.* Topics vary each time offered.

Hist 593. Seminar in American History. (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor.* Topics vary each time offered.
A. Colonial Period
B. Nineteenth Century
C. Twentieth Century
D. Environmental

Hist 594. Seminar in European History. (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor.* Topics vary each time offered.
A. Ancient (Same as Cl St 594A)
B. Medieval
C. Modern

Courses for graduate students

Hist 602. Seminar on History of Science and Technology. (3-0) Cr. 3. Repeatable. *Prereq: Permission of instructor.* Emphasis varies each time offered.

Hist 610. Seminar on American Rural Life. (3-0) Cr. 3. *Prereq: Permission of instructor.* Emphasis varies each time offered.

Hist 699. Research. Cr. arr. Repeatable. Graduate student thesis research.

Honors Program

http://www.honors.iastate.edu/

Susan Yager, Chair, University Honors Committee

The Honors Program provides a vehicle for highly motivated and able students to pursue an innovative and challenging undergraduate education. Oversight of students' progress toward this goal is primarily the responsibility of the undergraduate colleges, each of which operates its own Honors Program. The college Honors Program committees admit students into the Program, approve programs of study, and are responsible for the administration of their college Honors Program. The University Honors Program Committee, which includes the chairs of the college Programs, is responsible for the general coordination of the college Honors Programs and the First-year Honors Program.

Students in the Honors Program are offered a variety of academic opportunities designed to help them derive the fullest benefit from their undergraduate education. To enhance their individualized programs of study, students are offered numerous Honors courses, seminars, and independent research opportunities.

Honors courses and Honors sections of regular courses are offered by several departments and programs. These courses, open only to Honors Program members, have limited enrollment and are taught by specially selected instructors. Most of these courses are listed by department or program. (See *Economics, Engineering, English, Mathematics, Physics, Psychology, and Speech Communication*.)

In addition to established Honors courses, Honors students may designate any course as an Honors course by making appropriate arrangements with the course instructor and obtaining approval of the Honors Program Director. Most departments offer opportunities for independent study and research under 290 and 490; when designated by an H, these courses also carry Honors credit.

Research grants are available to support Honors research.

Listed below are those courses that are offered directly by the University Honors Program. Specific information about the full range of Honors courses and seminars for the current academic year, including the Honors courses offered by individual departments and programs, may be obtained from the Honors Program Office in Jischke Honors Building.

Courses primarily for undergraduate students

Hon 121. First-Year Honors Seminar. (0-2) Cr. 1. F. *Prereq: Membership in the First-year Honors Program.* Orientation to Iowa State University and to the University Honors Program. Satisfactory-fail only.

Hon 290. Special Problems. Cr. arr. *Prereq: Membership in and permission of the University Honors Program.* Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores. Satisfactory-fail only.
H. Honors.
U. Undergraduate Research

Hon 302. Honors Leadership Seminar. (1-2) Cr. 2. F. *Prereq: Selection as a leader of a First-year Honors Seminar. For students* serving as leaders of First-year Honors Seminars, under faculty supervision. Development of teaching and leadership skills within the context of an Honors education experience. Satisfactory-fail only.

Hon 321. University Honors Seminars. Cr. arr. F.S.SS. *Prereq: Membership in the University Honors Program.* Interdisciplinary seminars on topics to be announced in advance. Satisfactory-fail only.

Hon 322. University Honors Seminars. Cr. arr. F.S.SS. *Prereq: Membership in the University Honors Program.* Interdisciplinary seminars on topics to be announced in advance. Satisfactory-fail only.

Hon 323. University Honors Seminars. Cr. arr. F.S.SS. *Prereq: Membership in the University Honors Program.* Interdisciplinary seminars on topics to be announced in advance. Satisfactory-fail only.

Hon 324. University Honors Seminars. Cr. arr. F.S.SS. *Prereq: Membership in the University Honors Program.* Interdisciplinary seminars on topics to be announced in advance. Satisfactory-fail only.

Hon 490. Independent Study. Cr. arr. Repeatable. *Prereq: Membership in and permission of the University Honors Program.* Independent study on topics of an interdisciplinary nature. Intended primarily for juniors and seniors.

Horticulture

www.hort.iastate.edu

Jeffery Iles, Chair of Department

University Professors: Christians, Nonnecke

Professors: Arora, Domoto, Gleason, Graves, Hannapel, Iles, Minner, Taber

Professors (Emeritus): Chaplin, Hall, Hodges

Professor (Collaborator): Yadav

Associate Professors: Delate, Fei, Gladon, Haynes, Stephens, VanDerZanden

Associate Professors (Collaborators): Beeson, Krebs

Assistant Professor: Reinert

Assistant Professors (Collaborators): Sharma, Widrlechner

Senior Lecturers: Osborn, Rollenhagen

Lecturer: Nilles

Undergraduate Study

For undergraduate curriculum in Horticulture leading to the Bachelor of Science degree, see *Horticulture, Curriculum*.

To meet the educational needs of a student population with interests ranging from landscape design/installation to fruit and vegetable production to golf course construction and management, considerable flexibility is built into the Horticulture curriculum. And the diversity of interests and need for flexibility is reflected in our impressive array of Horticulture courses.

The Department of Horticulture offers nine options within the Horticulture major; (1) Environmental Horticulture, (2) Greenhouse Production and Management, (3) Fruit & Vegetable Production and Management, (4) Horticultural Communications and Public Education, (5) Nursery Crops Production and Garden Center Management, (6) Landscape Design, Installation and Management, (7) Public Garden Management and Administration, (8) Science, and (9) Turfgrass Management. Students considering graduate degrees should participate in the Science option.

Graduates possess the technical knowledge and skills to become professional Horticulturists. They understand plant growth and development and are familiar with cultural and management principles for a wide assortment of Horticultural crops. They are able to work and communicate effectively with fellow Horticultural professionals and with ordinary citizens who share an interest in Horticulture. Graduates also understand the ethical and environmental dimensions of problems and issues facing Horticultural professionals.

A degree in Horticulture opens the door to employment opportunities with production nurseries, seed companies, interior landscaping firms, greenhouses, garden centers, conservatories, landscape design/installation firms, public gardens and arboreta, orchards and vineyards, food processing companies, vegetable farms, golf courses, sports fields, sod production companies and lawn care businesses. Several industries closely related to Horticulture provide employment opportunities in the areas of sales, management, and communication. Opportunities also exist for careers in research, teaching, and business after obtaining advanced training in graduate school.

Undergraduate students have the option of selecting a secondary major in one of several interdepartmental programs including, seed science, agricultural education, environmental studies, or international agriculture (see *Index*).

The Department of Horticulture offers work for a minor in Horticulture that is earned by taking Hort 221 plus 12 additional credits with a maximum of 3 credits at the 200-level and a minimum of 9 credits at the 300-level or above.

Visit our departmental website at www.hort.iastate.edu

Graduate Study

The graduate major in Horticulture leads to the M.S. (thesis required) and Ph.D. A nonthesis master's degree is offered through the master of agriculture program. Some faculty members of the department serve as major professors for students in interdepartmental graduate majors in plant biology; genetics; molecular, cellular, and developmental biology; ecology and evolutionary biology; sustainable agriculture; and environmental science.

Graduate students majoring in Horticulture usually take minor course work in Agronomy, botany (cytology, morphology, or physiology), biochemistry, chemistry, entomology, food science and human nutrition, genetics, plant pathology, or Statistics. There is no uniform foreign language requirement for the Master of Science or Doctor of Philosophy degree.

Graduates possess a broad understanding of horticulture and the allied plant sciences. They are able to communicate effectively with members of the scientific community, industry groups, and other interested citizens. They are experienced in conducting research and communicating the results from that research. They are capable of addressing and solving complex problems that confront the many Horticultural, agricultural and plant science professions. They also understand the ethical, legal, social, and environmental issues associated with modern agricultural/horticultural practices.

Courses primarily for undergraduate students

Hort 110. Orientation in Horticulture. (1-0) Cr. 1. F. Introduction to the field of Horticulture.

Hort 112. Orientation to Learning and Productive Team Membership. (Cross-listed with Aer E, FS HN, TSM, NREM). (2-0) Cr. 2. F. Introduction to developing intentional learners and worthy team members. Learning as the foundation of human enterprise; intellectual curiosity; ethics as a personal responsibility; everyday leadership; effective team and community interactions including team learning and the effects on individuals; and growth through understanding self, demonstrating ownership of own learning, and internalizing commitment to helping others. Intentional mental processing as a means of enhancing learning. Interconnectedness of the individual, the community, and the world.

Hort 114. Developing Responsible Learners and Effective Leaders. (Cross-listed with NREM, FS HN, TSM). (2-0) Cr. 2. S. Focus on team and community. Application of fundamentals of human learning; evidence of development as a responsible learner; intentional mental processing as a habit of mind; planning and facilitating learning opportunities for others; responsibility of the individual to the community and the world; leading from within; holding self and others accountable for growth and development as learners and leaders.

Hort 121. Home Horticulture. (2-0) Cr. 2. F.S. Growing plants in and around the home including requirements for growing house plants; plant propagation; designing and maintaining flower, fruit, and vegetable gardens; lawn, tree, and shrub maintenance.

Hort 122. Hands-On Home Horticulture. (1-0) Cr. 1. F.S. Demonstration and activities that illustrate principles of growing plants for the home garden. Topics include plant identification, propagation, selection, and management for indoor and outdoor gardens.

Hort 193. Topics in Horticulture. Cr. arr. Repeatable. F.S.SS. Off Campus. Offered as demand warrants. Includes practical courses in the field of Horticulture. A maximum of 6 credits of Hort 193 may be used toward the total of 128 credits required for graduation.
A. Greenhouse Crops
B. Nursery Crops
C. Turfgrass
D. Fruit Crops
E. Vegetable Crops
F. Cross-Commodity
G. Landscape Horticulture

Hort 221. Principles of Horticulture. (2-2) Cr. 3. F.S. *Prereq: Biol 211.* Biological principles of growing Horticultural crops including anatomy, reproduction, light, temperature, water, nutrition, and growth and development. Laboratory exercises emphasize environmental factors and permit detailed observation of plant growth.

Hort 233. Foliage Plants for Interiorscapes. (2-2) Cr. 3. F. *Prereq: 221.* Identification, nomenclature, selection and culture of foliage plants for interior landscapes. Planning, cost-estimating, installation, and maintenance of foliage plants and flowering potted plants in homes, offices, and public buildings.

Hort 240. Trees, Shrubs, and Woody Vines for Landscaping. (3-0) Cr. 3. F. Students will learn to identify trees, shrubs, and woody vines. Factors influencing the horticultural use of woody plants also will be taught.

Hort 280. Landscape Graphics. (3-0) Cr. 3. S. Introduction to computer and hand rendering techniques of landscape graphics. Students will gain proficiency in plan view, section and elevation graphics. Intensive studio and computer based instruction.

Hort 282. Educating Youth Through Horticulture. (2-3) Cr. 3. Alt. S., offered 2010. Planning, developing, and implementing science-based educational programs in a public garden setting. Through hands-on experiences students will learn about Horticulture, learning theory, and the application of science principles as they pertain to educating youth.

Hort 283. Pesticide Application Certification. (Cross-listed with Ent, for, Agron). (2-0) Cr. 2. S. Holscher. Core background and specialty topics in agricultural, and Horticultural pesticide applicator certification. Students can Select certification categories and have the opportunity to obtain pesticide applicator certification at the completion of the course. Commercial pesticide applicator certification is emphasized.

Hort 321. Horticulture Physiology. (3-0) Cr. 3. F. *Prereq: 221 or Biol 211.* Principles of plant physiology relating to growth and development of Horticultural plants including plant water relations, membrane transport, photosynthesis, photomorphogenesis, respiration, and phytohormones. Emphasis on plant's responses to environmental factors (temperature, water, and light) including cellular and whole-plant physiology under stressful environments.

Hort 322. Plant Propagation. (2-2) Cr. 3. S. *Prereq: 221 or Biol 212.* Fundamental principles underlying sexual and asexual propagation of plants; practice in reproducing plants by use of seeds, leaves, stems, and roots.

Hort 330. Herbaceous Ornamental Plants. (2-2) Cr. 3. F. *Prereq: 221 or by permission of instructor.* Identification, botanical characteristics, origins, propagation, uses and general culture of herbaceous annual and perennial plants for Midwestern gardens and landscapes.

Hort 332. Greenhouse Operation and Management. (3-3) Cr. 4. S. *Prereq: 221.* Principles of greenhouse and other controlled environment operation and management. Methods of monitoring and manipulating environmental factors such as light, temperature, fertility, production media, etc., to maximize production rate and quality and minimize production costs and time. Field trip(s) outside scheduled class time required. Nonmajor graduate credit.

Hort 338. Seed Science and Technology. (Cross-listed with Agron). (2-3) Cr. 3. F. *Prereq: Agron 114 or Hort 221, Biol 211.* Goggi. Seed production, maturation, dormancy, vigor, deterioration, and related aspects of enhancement, conditioning, storage, and quality evaluation. Aspects of the seed industry and regulation of seed marketing.

Hort 341. Woody Plant Cultivars: Shade Trees. (1-0) Cr. 1. S. *Prereq: 240 or L A 221 or L A 222.* Students will learn how to identify and care for the most Horticulturally important shade tree taxa suitable for the Midwest. Cultivars of the most prevalent species also will be taught.

Hort 342. Landscape Installation and Establishment. (2-3) Cr. 3. F. *Prereq: 240 or L A 221 or L A 222.* Principles and practices involved with establishment of managed landscapes. Laboratory work involves site evaluation, installation techniques, postplant care, and maintenance of established landscape plants.

Hort 351. Turfgrass Establishment and Management. (Cross-listed with Agron). (3-0) Cr. 3. F. *Prereq: 221 or Agron 114 or Biol 211.* Principles and practices of turfgrass propagation, establishment, and management. Specialized practices relative to professional lawn care, golf courses, athletic fields, highway roadsides, and seed and sod production. The biology and control of turfgrass pests. Nonmajor graduate credit.

Hort 351L. Turfgrass Establishment and Management Laboratory. (Cross-listed with Agron). (0-3) Cr. 1. F. *Prereq: Credit or enrollment in 351.* Those enrolled in the Horticulture curriculum are required to take 351L in conjunction with 351 except by permission of the instructor. Nonmajor graduate credit.

Hort 354. Soils and Plant Growth. (Cross-listed with Agron). (3-0) Cr. 3. F.S. *Prereq: Biol 101 or 211.* Killorn or Loynachan. Effects of chemical, physical, and biological properties of soils on plant growth, with emphasis on nutritive elements, pH, organic matter maintenance, and rooting development. Nonmajor graduate credit.

Hort 354L. Soils and Plant Growth Laboratory. (Cross-listed with Agron). (0-3) Cr. 1. F.S. *Prereq: Credit or enrollment in 354.* Henning. Laboratory exercises in soil testing that assess a soil's ability to support nutritive requirements for plant growth.

Hort 380. Principles of Garden Composition. (2-0) Cr. 2. S. *Prereq: 240.* Not available as credit for L A majors. Functional and aesthetic aspects of landscape planning as a basis for design decisions; emphasis on plant selection. Includes site analysis, development process, and design principles.

Hort 381. Beginning Garden Composition Studio. (0-4) Cr. 2. S. *Prereq: 240, 330.* To be taken concurrently with 380. Not available as credit for L A majors. Development of landscape graphic techniques. Studio-based projects implementing principles of landscape design.

Hort 391. Horticultural Management Experience. Cr. 1. Repeatable. F.S.SS. *Prereq: 221, permission of instructor.* A structured work experience for the student to gain insight into management operations associated with production and management of Horticultural crops. A report of 10 or more pages describing the student's experience is required. One credit is given for each term the student is enrolled in the course. A maximum of two credits may be used toward the Horticultural sciences course requirements, and two additional credits may be used toward the 128 credits required for graduation.

Hort 398. Cooperative Education. Cr. R. Repeatable. F.S.SS. *Prereq: Permission of department resource and career center coordinator.* Students must register for this course before commencing each work period.

Hort 421. Introduction to Plant Breeding. (Cross-listed with Agron). (3-0) Cr. 3. F. *Prereq: Gen 320 or Biol 313.* Breeding methods used in the genetic improvement of self-pollinated, cross-pollinated, and asexually reproduced Agronomic and Horticultural crops. Applications of biotechnology techniques in the development of improved cultivars. Nonmajor graduate credit.

Hort 422. Postharvest Technology. (3-3) Cr. 4. Alt. F., offered 2009. *Prereq: 221, junior or senior classification.* Principles, methods, and techniques related to postharvest maintenance of quality of Horticultural commodities. Emphasis on the effects of handling, storage facilities and techniques, and quality evaluation. Field trips outside scheduled class time required. Weekend/overnight field trips may be required. Nonmajor graduate credit.

Hort 423. Plant Tissue, Cell, and Protoplast Culture. (Dual-listed with 523). (2-0) Cr. 2. Alt. F., offered 2009. *Prereq: Biol 313 and Hort 321 or Biol 330.* Theory and techniques of plant tissue culture, including organogenesis, somatic embryogenesis, micropropagation, anther and embryo culture, protoplast isolation and culture, and transformation. Applications to agriculture.

Hort 424. Sustainable and Environmental Horticulture Systems. (Dual-listed with 524). (Cross-listed with Env S). (2-0) Cr. 2. F. Inquiry into ethical issues and environmental consequences of Horticultural cropping systems and production practices. Emphasis on production systems that are resource efficient, environmentally sound, socially acceptable, and profitable.

Hort 434. Greenhouse Crop Production I. (3-3) Cr. 4. Alt. F., offered 2009. *Prereq: 330 and 332.* Principles and practices of greenhouse floricultural crop production. Emphasis is placed on production of common bulbous, cut flower, foliage, and containerized flowering species produced in greenhouses and other controlled environments. Field trips outside scheduled class time required. Weekend/overnight field trips may be required. Nonmajor graduate credit.

Hort 435. Greenhouse Crop Production II. (2-3) Cr. 3. Alt. S., offered 2010. *Prereq: 330 and 332.* Principles and practices of greenhouse floricultural crop production. Emphasis is placed on production of flowering annual and perennial crops, vegetative annuals, and species in hanging baskets. Field trips outside scheduled class time required. Weekend/overnight field trips may be required. Nonmajor graduate credit.

Hort 442. Nursery Production and Management. (2-0) Cr. 2. Alt. F., offered 2009. *Prereq: 221.* Theory, nursery layout and design, and cultural practices important for growing and shipping field and container-grown nursery crops. Overview of garden center design and retailing and marketing strategies. Field trip(s) outside scheduled class time may be required. Nonmajor graduate credit.

Hort 444. Landscape Construction. (2-3) Cr. 3. F. *Prereq: 240, junior or senior classification.* Principles and practices of residential landscape construction. Encompasses process from initial client contact, materials procurement, job sequencing, and installation of plant material and hardscapes. Laboratory work involves site evaluation and measurement and landscape installation using various landscape materials and techniques.

Hort 445. Horticulture Management and Administration. (2-0) Cr. 2. F. *Prereq: 221, junior or senior classification.* In-depth presentation and discussion of skills and strategies needed to manage a Horticultural enterprise. Topics include motivating employees, managing meetings, conducting performance appraisals, dealing with conflict, and managing an increasingly diverse work force.

Hort 446. Landscape Contracting and Estimating. (2-0) Cr. 2. F. *Prereq: 240 and credit or enrollment in 342; junior or senior classification.* Overview and implementation of landscape estimating and contracting. Includes estimating procedures (material, labor, equipment) and landscape business issues (contracts, insurance, personnel).

Hort 451. Professional Turfgrass Management. (2-0) Cr. 2. Alt. S., offered 2011. *Prereq: 351.* Turfgrass science including the study of (1) specific information on soil chemistry and soil modification as they relate to the development and maintenance of turfgrass areas, (2) specialized management practices used in athletic field care, professional lawn care, and golf course industries, and (3) construction methods for golf courses and sports fields. Nonmajor graduate credit.

Hort 452. Integrated Management of Diseases and Insect Pests of Turfgrasses. (Dual-listed with 552). (Cross-listed with Pl P, Ent). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Hort 351.* Gleason, D. Lewis. Identification and biology of important diseases and insect pests of turfgrasses. Development of integrated pest management programs in various turfgrass environments.

Hort 453. Sports Turf Management. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 351.* Management techniques for today's specialized athletic fields. The Horticultural and budgetary aspects of football, soccer, baseball, and softball fields will be presented. Field trips and laboratory exercises will develop a practical understanding of actual principles in field development, construction, and management. Nonmajor graduate credit.

Hort 454. Turf & Landscape Irrigation. (3-0) Cr. 3. Alt. F., offered 2009. Irrigation systems and principles for turf and landscape environments. Topics include design, installation, equipment, management, and trouble shooting of irrigation systems for golf, athletic fields, residential lawns and landscapes. Participation in practical exercises and local field trips to irrigation sites are required.

Hort 461. Fruit and Nut Crop Production and Management. (2-2) Cr. 3. Alt. S., offered 2011. *Prereq: 221.* Principles and practices of small fruit, tree fruit, and nut culture and production. Morphology, physiology of growth and development, plant establishment, pest management, pruning, training, harvesting, storage, and marketing. Emphasis on sustainable practices. Participation in practical exercises and local field trips is required. Nonmajor graduate credit.

Hort 471. Vegetable Production and Management. (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: 221 or Agron 114 and Agron 154 or 155.* Principles of vegetable production with emphasis on sustainable practices, market outlets, business aspects, and risk management. Organic techniques will be discussed. Major crop climatic conditions, physiological growth and development, harvesting, storage, and marketing. Nonmajor graduate credit.

Hort 471L. Vegetable Production and Management Laboratory. (0-2) Cr. 1. Alt. S., offered 2010. *Prereq: Credit or enrollment in Hort 471 is required, except by permission of the instructor.* Sequence planting techniques, seed and seedling identification, seed germination quality and requirements, earliness techniques, irrigation management, fertilizer and compost application, postharvest handling, high tunnel production, and pesticide application will be covered. Field trip required. Some laboratory projects will require time outside the regular scheduled class period. Nonmajor graduate credit.

Hort 475. Urban Forestry. (Cross-listed with For). (2-3) Cr. 3. F. *Prereq: Junior or senior classification, 3 credits in biology.* Discussion of establishment and management of woody perennials in community-owned urban greenspaces, consideration of urban Site and soil characteristics, plant physiology, plant culture, urban forest valuation, inventory methods, species selection, and urban forest maintenance (health care and pest management). Nonmajor graduate credit.

Hort 480. Contemporary Issues in the Green Industry. (3-0) Cr. 3. S. *Prereq: junior or senior classification.* Analysis and evaluation of contemporary issues facing the green industry including environmental regulations, labor, market share, landscape contracting business management and professionalism. Discussion format and interaction with green industry professionals.

Hort 481. Advanced Garden Composition. (0-5) Cr. 3. F. *Prereq: 240, 330, 380, 381.* Limited to Planting Design/Installation option students. Development of residential landscapes using design principles and the design process. Projects encompass site analysis, concept development, preliminary design, final design, and graphic presentation techniques. Techniques will include hand and computer rendering.

Hort 484. Organic Agricultural Theory and Practice. (Dual-listed with 584). (Cross-listed with Agron). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 9 cr in biological or physical sciences.* Delate & DeWitt. Understanding of the historical origins and ecological theories underpinning the practices involved in organic agriculture. Interdisciplinary examination of crop and livestock production and Socio-economic processes and policies in organic agriculture from researcher and producer perspectives.

Hort 490. Independent Study. Cr. arr. Repeatable. *Prereq: Junior or Senior classification in Horticulture, permission of instructor.* Investigation of topic holding special interest to the student. Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of Hort 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 128 credits required for graduation.
A. Greenhouse Crops
B. Nursery Crops
C. Turfgrass
D. Fruit Crops
E. Vegetable Crops
F. Cross-Commodity
G. Landscape Horticulture
H. Honors
I. International Study
J. Entrepreneurship
Z. Service Learning

Hort 491. Seed Science Internship Experience. (Cross-listed with Agron, TSM). Cr. arr. Repeatable. F.S.SS. *Prereq: Agron 338, advanced approval and participation of employer and instructor.* A professional work experience and creative project for seed science secondary majors. The project requires prior approval and participation of the employer and instructor. The student must submit a written report.

Hort 493. Workshop in Horticulture. Cr. arr. Repeatable. Off campus. Offered as demand warrants. Workshops in Horticulture. Nonmajor graduate credit.

Hort 495. Horticulture Travel Course Preparation. Cr. R. Repeatable. F.S.SS. *Prereq: Permission of instructor.* Limited enrollment. Students enrolled in this course also intend to register for Hort 496 the following term. Topics include preparation for safe international travel, the Horticultural/agricultural industries, climate, crops, economics, geography, history, marketing, soils, culture, traditions, and Horticultural/agricultural development of the country to be visited. Students enroll in this course the term immediately before travel to the foreign country.

Hort 496. Horticulture Travel Course. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.* Limited enrollment. Study and tour of production methods in major Horticultural regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, cultures, and history of Horticultural crops. Location and duration of tours will vary. Tour expenses paid by students.

Hort 497. Professional Development Seminar. (1-0) Cr. 1. S. *Prereq: Junior or senior classification.* Weekly series of lectures and workshops will help students better prepare for their professional career in Horticulture by developing the professional skills necessary to be successful in today's competitive workplace.

Courses primarily for graduate students, open to qualified undergraduate students

Hort 511. Integrated Management of Tropical Crops. (Cross-listed with Pl P, Ent). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Pl P 408 or 416 or Ent 370 or 376 or Hort 221.* Gleason, Lewis, Nonnecke. Applications of Integrated Crop Management principles (including plant pathology, entomology, and Horticulture) to tropical cropping systems. Familiarization with a variety of tropical agroecosystems and Costa Rican culture is followed by 10-day tour of Costa Rican agriculture during spring break, then writeup of individual projects. Tour expenses paid by students.

Hort 523. Plant Tissue, Cell, and Protoplast Culture. (Dual-listed with 423). (2-0) Cr. 2. Alt. F., offered 2009. *Prereq: Biol 313 and Hort 321 or Biol 330.* Theory and techniques of plant tissue culture, including organogenesis, somatic embryogenesis, micropropagation, anther and embryo culture, protoplast isolation and culture, and transformation. Applications to agriculture.

Hort 524. Sustainable and Environmental Horticulture Systems. (Dual-listed with 424). (2-0) Cr. 2. F. Inquiry into ethical issues and environmental consequences of Horticultural cropping systems and production practices. Emphasis on production systems that are resource efficient, environmentally sound, socially acceptable, and profitable.

Hort 529. Publishing in Biological Sciences Journals. (Cross-listed with Agron, NREM). (2-0) Cr. 2. S. *Prereq: Permission of instructor; evidence of a publishable unit of the student's research data.* Process of preparing a manuscript for submission to a refereed journal in the biological sciences. Emphasis on publishing self-generated data from thesis or dissertation research.

Hort 530. Research Orientation. (1-3) Cr. 2. F. Instruction in scientific methods and communication skills.

Hort 537. Plant Stress Biology. (Cross-listed with Agron, EEOB). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Biol 330A or equivalent and BBMB 404-405.* Physiology and molecular biology of plant responses to environmental stress. Emphasis on the role of hormones and hormone interactions in governing stress responses. Lectures are prepared from journal papers that elucidate key mechanisms controlling responses to drought, flooding, salt, nutrient deficiencies, freezing, pathogens and herbivores. Plants studied include genetic model systems and crops of Horticultural and Agronomic value.

Hort 542. Introduction to Molecular Biology Techniques. (Cross-listed with GDCB, BCB, FS HN, NutrS, VDPAM, BBMB, B M S, EEOB, NREM, V MPM). Cr. 1. Repeatable. F.S.SS. *Prereq: Graduate classification.* Workshops in basic molecular biology techniques and related procedures. Satisfactory-fail only.
A. DNA Techniques. Includes genetic engineering procedures, sequencing, PCR, and genotyping. (F.S.SS.)
B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonol antibody production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F.)

Hort 543. Seed Physiology. (Cross-listed with STB). (2-0) Cr. 2. Alt. F., offered 2010. *Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor.* Brief introduction to plant physiology. Physiological aspects of seed development, maturation, longevity, dormancy and germination. Links between physiology and seed quality.

Hort 546. Organizational Strategies for Diversified Farming Systems. (Cross-listed with Agron, Soc, SusAg). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: SusAg 509.* Examination of the organization and operation of complex, diversified farming systems using tools and perspectives drawn from ecology, Agronomy, and Sociology. The course contains a significant field component focused on an Iowa farm.

Hort 551. Growth and Development of Perennial Grasses. (Cross-listed with Agron). (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: Junior or senior or graduate classification or permission of instructor.* The grass plant. Selected topics on anatomy, morphology, and physiology relative to growth and development of perennial grasses. Emphasis on growth and development characteristics peculiar to grasses and variations of such characteristics under natural and managed conditions.

Hort 552. Integrated Management of Diseases and Insect Pests of Turfgrasses. (Dual-listed with 452). (Cross-listed with Ent, Pl P). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Hort 351.* Gleason, D. Lewis. Identification and biology of important diseases and insect pests of turfgrasses. Development of integrated pest management programs in various turfgrass environments.

Hort 565. Professional Practice in the Life Sciences. (Cross-listed with Pl P, An S, V MPM, Agron, BCB, Micro). Cr. arr. S. *Prereq: Graduate classification.* Professional discourse on the ethical and legal issues facing life science researchers. Offered in modular format; each module is four weeks.

A. Professional Practices in Research. (Cr. 1.0) Good scientific practices and professional ethics in the life sciences.

B. Intellectual Property and Industry Interactions. (Cr. 0.5) Ethical and legal issues facing life scientists involved in research interactions with industry.

Hort 584. Organic Agricultural Theory and Practice. (Dual-listed with 484). (Cross-listed with Agron, SusAg). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 9 cr in biological or physical sciences.* Delate & DeWitt. Understanding of the historical origins and ecological theories underpinning the practices involved in organic agriculture. Interdisciplinary examination of crop and livestock production and Socio-economic processes and policies in organic agriculture from researcher and producer perspectives.

Hort 590. Special Topics. Cr. arr. Repeatable. *Prereq: a major or minor in Horticulture.*

Hort 593. Workshop in Horticulture. Cr. arr. Repeatable. Workshops in Horticulture, with emphasis on off-campus instruction.
A. Greenhouse Crops
B. Nursery Crops
C. Turfgrass
D. Fruit Crops
E. Vegetable Crops
F. Cross-Commodity
G. Landscape Horticulture

Hort 599. Creative Component. Cr. arr. Repeatable.

Courses for graduate students

Hort 610. Graduate Seminar. Cr. 1. Repeatable. F.S. Satisfactory-fail only.

Hort 690. Advanced Topics. Cr. arr. Repeatable.

Hort 696. Research Seminar. (Cross-listed with GDCB, Agron, BBMB, PlBio, for). Cr. 1. Repeatable. Research seminars by faculty and graduate students. Satisfactory-fail only.

Hort 698. Horticulture Teaching Practicum. (1-0) Cr. 1. S. *Prereq: Graduate student classification.* Discussions are intended to foster the development of graduate students as teaching assistants and future Horticulture/plant science teachers. Topics include establishing a classroom presence, improving lectures, motivating students, dealing with difficult or disruptive students, and developing a teaching Philosophy. Satisfactory-fail only.

Hort 699. Thesis and Dissertation Research. Cr. arr. Repeatable.
A. Greenhouse Crops
B. Nursery Crops
C. Turfgrass
D. Fruit Crops
E. Vegetable Crops
F. Cross-Commodity
G. Landscape Horticulture
I. Biotechnology

Hotel, Restaurant, and Institution Management

(Administered by the Department of Apparel, Educational Studies, and Hospitality Management)

Robert Bosselman, Chair of Department

Distinguished Professors (Emeritus): Fanslow, Moyer, Winakor

University Professors (Emeritus): Farrell-Beck

Professors: Bosselman, Damhorst, Fiore, Kadolph

Professors (Emeritus): Anderson, Beavers, Brun, Burnet, Cowan, Crabtree, Gilmore, Smith, Stone, Williams

Associate Professors: Baltzer, Hausafus, Jeong, Niehm, Oh, Parsons

Associate Professors (Emeritus): Amos, Brackelsberg, Brown, Ebert, Huss, Kundel, Kunz, Walsh

Associate Professor (Adjunct): Strohbehn

Assistant Professors: Barker, Hurst, Karpova, Keino, Y. Lee, Marcketti, Rajagopal, Wohlsdorf-Arendt, Zheng

Assistant Professor (Adjunct): Glock

Instructor (Adjunct): Fratzke

Lecturers: Ackerman, Burger, Christensen, Fiihr, Fitzpatrick, Kramer, M. Lee, Sanger, Trost, Wirth, Wise

The Hotel, Restaurant, and Institution Management (HRIM) program aspires to excellence in professional and leadership development, economic development, and food safety for the hospitality industry through education, research, and outreach with a mission of developing leaders in practice, education, and research for the hospitality industry. Educational experiences are planned to contribute to the graduate's effectiveness as a career professional and as a person, family member, and citizen. Research and extension efforts are conducted with the purpose of improving management effectiveness and quality of services within hospitality organizations. Finally, the program is committed to serving the respective missions of Iowa State University and the College of Human Sciences and to serving the needs of the citizens of Iowa.

Undergraduate Study

The program offers work for the degree bachelor of science in hospitality management. Coursework is planned to provide students with a general education plus professional preparation for supervisory and executive positions in hospitality organizations. Principles of business management are presented, as well as fundamentals of hospitality operations.

Graduates demonstrate leadership characteristics and make decisions based on integrating knowledge of financial, human resources, marketing, and operational principles for managing hospitality operations. They demonstrate best practices in meeting customer expectations and use of technology to achieve operational efficiency.

Learning experiences are provided in the quantity food production and service facility of the HRIM program and other approved establishments. Students are required to have a total of at least 600 hours of relevant work experience prior to graduation. Of the 600 hours, 200 hours are required prior to completing one year in the program.

The HRIM program offers a minor that may be earned by successfully completing at least 15 credits of AESHM/HRIM courses in consultation with the advisor. The program also participates in food safety and entrepreneurship interdisciplinary minors.

Communication Proficiency Requirement: Grade of C or better in either Engl 150 and 250 or equivalent transfer courses

Graduate Study

The HRIM program offers work for the master of science and doctor of philosophy degrees in hospitality management. Graduates of the program are able to interpret trends and adapt operating practices of hospitality organizations to changing economic, social, political, technological, and environmental conditions. They can manage a hospitality enterprise successfully to achieve objectives of the operation or, at the doctoral level, successfully carry out responsibilities of a hospitality educator. Graduates will make positive contributions to the growth and improvement of the hospitality industry using current research in the decision-making process.

A degree in hotel, restaurant, and institution management is the usual background for graduate study; however, applicants with preparation in dietetics, business, or closely related fields are encouraged to apply. Ph.D. applicants must have two (2) years of professional work experience in the field.

The master of science degree requires either a thesis or non-thesis (creative component) project. Students also are required to take one course in three of four core areas (human resources, financial management, marketing, and strategic management).

The program participates in the Master of Family and Consumer Sciences degree by offering a specialization in Hospitality management. The program also participates in the Master of Family and Consumer Sciences degree with specialization in Dietetics, offered in cooperation with the Department of Food Science and Human Nutrition.The Ph.D. program requires 80 credits, up to 30 of which may be applied from the Master's degree. All Ph.D. students take a minimum of 15 research/dissertation credits.

Courses primarily for undergraduate students

HRI 101. Introduction to the Hospitality Industry. (3-0) Cr. 3. F. Introduction to the foodservice, lodging, and tourism components of the hospitality industry. Background information, current issues, and future challenges in various segments of the industry.

HRI 189. Introduction to University Dining Services Management. (1-0) Cr. 1. S. Overview of management concepts and distinct features of university dining services.

HRI 193. Hospitality Work Experience I. Cr. R. F.S.SS. Approved work experience in foodservice, lodging, or related operations. A minimum of 200 hours required prior to completing one year in the program. Satisfactory-fail only.

HRI 233. Hospitality Sanitation and Safety. (3-0) Cr. 3. F.S. Sanitation and safety principles in foodservice and lodging operations. Issues impacting consumers and operators. Application of HACCP. Preparation for national foodservice sanitation certification examination. Characteristics of food, supplies, and equipment as related to quality, sanitation and safety.

HRI 260. Global Tourism Management. (3-0) Cr. 3. S. Overview of the global tourism industry: hospitality and related services, destination/ attractions, and transportation. Introduction to travel behavior, tourism planning and research, and economic and social impacts of tourism development.

HRI 289. Private Club Operations. (2-0) Cr. 2. F.S. *Prereq: 101.* Organization and management of private clubs including city, country, and other recreational and social clubs. Field trip required.

HRI 315. Hospitality Law. (3-0) Cr. 3. S. *Prereq: 101.* Laws relating to ownership and operation of hospitality organizations. The duties and rights of both hospitality business operators and customers. Legal implications of various managerial decisions. Nonmajor graduate credit.

HRI 333. Hospitality Operations Cost Controls. (3-0) Cr. 3. F. *Prereq: Credit or enrollment in 380, 380L; Math 104 or 150; Com S 103.* Introduction to revenue and cost systems in foodservice and lodging operations. Application of principles related to procurement, production, and inventory controls.

HRI 352. Lodging Operations Management I. (3-0) Cr. 3. F. *Prereq: Credit or enrollment in 101.* Introduction to functional department activities and current issues of lodging organizations with emphasis on front office and housekeeping. Reservation activities and night audit exercises. Case studies.

HRI 380. Quantity Food Production Management. (3-0) Cr. 3. F.S. *Prereq: 233 or 2 cr Micro; FS HN 111 or 214; at least junior classification; enrollment in 380L.* Principles of and procedures used in quantity food production management including quality control, food costing, work methods, menu planning, food production systems, and service.

HRI 380L. Quantity Food Production and Service Management Experience. (0-6) Cr. 2. F.S. *Prereq: 233 or 2 cr Micro; FS HN 111 or 214; at least junior classification; enrollment in 380; reservation with program required.* Application of quantity food production and service management principles and procedures in the program's foodservice operation.

HRI 381. International Study in Hospitality. Cr. arr. Repeatable. SS. *Prereq: Permission by application.* Limited enrollment. Supervised study abroad of tourism and its impact on hospitality operations. Experiences include hospitality-related tourist attractions and opportunities related to different cultures. Required pre-study sessions arranged. Expenses paid by student.

HRI 382. Field Study. Cr. arr. F.S.SS. *Prereq: Permission by application.* Supervised study opportunity for students to observe and apply classroom theory to actual hospitality operations across the US. Hospitality operations may include hotels, restaurants, resorts, wineries, theme parks, clubs, hospitals, and tourism operations. Required pre-study sessions may be arranged. Expenses paid by student.

HRI 383. Introduction to Wines, Beers, and Spirits. (2-0) Cr. 2. F.S. *Prereq: Must be at least 21 years old.* Introduction to history and methods of production for a variety of wines, beers, spirits, and other beverages. Product knowledge, sales, and service techniques related to the hospitality industry.

HRI 391. Foodservice Systems Management I. (3-0) Cr. 3. F. *Prereq: Credit or enrollment in 380, 380L.* Principles and techniques related to basic management, leadership, and human resource management of foodservices in health care and other institutional settings. Food safety and sanitation for institutions. Credit for either HRI 391 or 287 and 438 may count toward graduation. Not accepted for credit toward a major in HRIM.

HRI 392. Foodservice Systems Management II. (3-0) Cr. 3. S. *Prereq: 391.* Introduction to cost control in foodservice departments: procedures for controlling food, labor, and other variable costs. Application of principles related to food product selection, specification, purchase, and storage in health care and other institutions. Credit for either HRI 392 or 233 and 333 may count toward graduation. Not accepted for credit toward a major in HRIM.

HRI 393. Hospitality Work Experience II. Cr. 2. F.S.SS. *Prereq: 101, 193, 233, 287; adviser approval.* Approved 400-hour work experience in foodservice, lodging, or related operations for HRIM majors. Open to minors. Satisfactory-fail only.

HRI 433. Hospitality Financial Management. (3-0) Cr. 3. S. *Prereq: 333; Acct 284; Econ 101; credit or enrollment in Stat 101.* Use of common financial statements, accounting ratios, and financial techniques to impact management decisions.

HRI 437. Hospitality Information Technology. (3-0) Cr. 3. F. *Prereq: 352.* Introduction to hospitality information technology. Property management and point-of-sales system interfaces: customer relationship management, selecting and purchasing computer systems, electronic distribution systems, internet and its related application systems, managing internal and external communication networks. Case studies. Nonmajor graduate credit.

HRI 439. Advanced Hospitality Human Resource Management. (3-0) Cr. 3. F. *Prereq: 438.* Emphasis on development of management personnel in hospitality organizations. Case studies.

HRI 452. Lodging Operations Management II. (3-0) Cr. 3. S. *Prereq: 352; Com S 103.* Development of business plan and evaluation of business performance in a simulated environment. Operational decision making practices by applying concepts of management, operations, marketing, and finance for a computer-mediated environment. Nonmajor graduate credit.

HRI 455. Introduction to Strategic Management in Foodservice and Lodging. (3-0) Cr. 3. S. *Prereq: 340; credit or enrollment in 433; 438.* Introduction to strategic management principles and practices with an application of human resources, operations, marketing, and financial management concepts. Case studies.

HRI 487. Fine Dining Management. (Dual-listed with 587). (2-3) Cr. 3. F. *Prereq: 380, 380L; credit or enrollment in 333.* Creative experiences with U.S. regional and international foods appropriate for fine dining. Application of management principles in food preparation and service in fine dining operations. Exploration of the historical and cultural development of the world food table.

HRI 489. Issues in Food Safety. (Cross-listed with An S, FS HN, VDPAM). (1-0) Cr. 1. S. *Prereq: Credit or enrollment in FS HN 101 or 272 or HRI 233; FS HN 419 or 420; FS HN 403.* Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

HRI 490. Independent Study. Cr. arr. *Prereq: Sections B-E: Program approval; Section H: Full membership in Honors Program.*
B. Hospitality Management
D. Lodging Operations
E. Foodservice Operations
H. Honors

HRI 491. Internship. Cr. 2. Repeatable. F.S.SS. *Prereq: 193, 287, 352 or 380, 380L; adviser approval.* Approved 400-hour experience in hospitality operations and supervisory responsibilities. Satisfactory-fail only.
A. Foodservice Operations
B. Lodging Operations
C. Hospitality Management

HRI 498. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of undergraduate coordinator.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduate students

HRI 504. Seminar. (0-1) Cr. 1. F. (A), S.(B). 504B may be taken more than once for credit.
A. Hospitality Research
B. Current Issues

HRI 511. Research Methods in Foodservice & Lodging Management. (3-0) Cr. 3. *Prereq: Graduate standing in the Department.* Overview of research methods. Methods for collecting and analyzing quantitative and qualitative data. Development of research plan.

HRI 533. Financial Decision Making in Foodservice and Lodging Organizations. (3-0) Cr. 3. S. *Prereq: 433.* Concepts of financial management applied to strategic decision making.

HRI 538. Human Resources Development in Foodservice and Lodging Organizations. (3-0) Cr. 3. *Prereq: 438.* Theories of human resources management. Practices and principles related to development of management personnel.

HRI 540. Marketing Strategy. (3-0) Cr. 3. S. *Prereq: 340.* Application of marketing principles in developing effective marketing strategies for hospitality, apparel, and retail organizations. Development of marketing plan.

HRI 555. Strategic Management in Foodservice and Lodging Organizations. (3-0) Cr. 3. *Prereq: Courses in Mkt. and Fin. Management.* Strategic management process as a planning and decision-making framework; integration of human resources, operations, marketing, and financial management concepts.

HRI 575. Professional Experience in Foodservice and Lodging Organizations. Cr. 2. F.S.SS. *Prereq: Accepted in HRIM graduate program.* Analysis and interpretation of professional functions or data, or design and implementation of a management project.

HRI 587. Fine Dining Management. (Dual-listed with 487). (2-3) Cr. 3. F. *Prereq: 380, 380L.* Creative experiences with U.S. regional and international foods. Application of management principles in food preparation and service. Exploration of the historical and cultural development of the world food table. Individual special problems.

HRI 590. Special Topics. Cr. arr. Repeatable. *Prereq: 9 credits in HRI at 400 level or above; permission of instructor.*
B. Hospitality Management
D. Lodging Operations
E. Foodservice Operations
F. Child Nutrition Program Management

HRI 599. Creative Component. Cr. arr.

Courses primarily for graduate students

HRI 604. Professional Writing. (2-0) Cr. 2. Development of professional written communication with emphasis on abstracts, proposals, manuscripts, and technical reports.

HRI 608. Administrative Problems. Cr. arr. Repeatable. *Prereq: Permission of instructor.* Advanced administrative problems; case studies in foodservice and lodging organizations.

HRI 633. Advanced Hospitality Financial Management. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 533.* Theories and research in financial management with emphasis on financial performance and financing decisions.

HRI 638. Advanced Human Resources Management in Foodservice and Lodging Organizations. (3-0) Cr. 3. F. *Prereq: 538.* Research in human resources management with an emphasis on organization or unit administration.

HRI 640. Seminar on Marketing Thoughts. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 540; Stat 401.* Conceptual and theoretical development of marketing strategies. Analytical and critical review of marketing research and industry practices.

HRI 652. Advanced Lodging Operations. (3-0) Cr. 3. *Prereq: Enrollment in PhD program.* Analysis and applications of concepts and theories of operations research for lodging operations.

HRI 675. HRIM Teaching Experience. Cr. 1. F.S.SS. *Prereq: Accepted in PhD program.* Development of objectives, teaching methods and materials, and test items for selected topics. Implementation in an HRIM course.

HRI 680. Analysis of Research in Foodservice Operations. (3-0) Cr. 3. *Prereq: Enrollment in PhD program.* Analysis and application of theories, research, and research methods in foodservice.

HRI 690. Advanced Topics. Cr. arr. Repeatable. F.S.SS. *Prereq: Enrollment in doctoral program.* Advanced study of current topics in foodservice and lodging management.
A. Leadership in Hospitality
B. Hospitality Management
C. Entrepreneurship
D. Lodging Operations
E. Foodservice Operations
F. Child Nutrition in Program Management

HRI 699. Research. Cr. arr. Repeatable.

Human Computer Interaction

www.hci.iastate.edu

(Interdepartmental Graduate Program)

Supervisory Committee: James Oliver, Chair; Chui Shui Chan; Julie Dickerson, Steven Hernstadt, Doug Gentile, Stephen Gilbert, Brian Mennecke

Graduate Study

Work is offered for the master of science and doctor of philosophy degrees with a major in Human Computer Interaction (HCI). A Graduate Certificate in Human Computer Interaction is also offered, targeted especially for the benefit of students working in business and industry wanting education in this field. The graduate program in Human Computer Interaction (HCI) welcomes applicants from a diverse collection of technical and creative fields whose unifying characteristic is the desire to develop new ways to bridge the gap between human and machine. The students must demonstrate skill in software development and proficiency in high-level, object-oriented programming. To accommodate students who lack exposure to programming, the HCI interdepartmental graduate major will offer an introductory course to provide a base of technical skills.

At the Masters level, entrance requirements will include an undergraduate degree and demonstrable software skills. The degree calls for 30 credits of course work including appropriate credit for the master's thesis. MS students must take one core course of their choice from each of the categories of Implementation, Design, Evaluation and Phenomena. MS Students must also take two semesters of HCI 591 Seminar in HCI.

All programs of study for the Ph.D. must include 1) one core course of their choice from each of the categories of Implementation, Design, Evaluation and Phenomena, if not completed as part of the student's masters program; 2) two more courses of their choice from a list of recommended electives; and 3) four semesters of HCI 591 Seminar in HCI.

Information on applications procedures and specific requirements of the major can be obtained from the following Internet address: www.hci.iastate.edu.

Courses for graduate students

HCI 407. Principles of 3D Character Animation. (Dual-listed with 507). (Cross-listed with ArtIS). (0-6) Cr. 3. Repeatable. F.S. *Prereq: 308.* Animation techniques using the computer and available software. Principles of character animation. Prior knowledge of modeling, lighting, texturing and rendering with available software is assumed. Nonmajor graduate credit.

HCI 409. Computer/Video Game Design and Development. (Dual-listed with 509). (Cross-listed with ArtIS). (0-6) Cr. 3. Repeatable. F.S. *Prereq: Permission of instructor. Programming emphasis: Com S 227, 228, 229 or equivalent in Engineering; art or graphics emphasis: Art 230 and ArtIS 308; writing emphasis: an English course in creative writing or writing screen plays; business or marketing students: junior classification.* Independent project based creation and development of "frivolous and non-frivolous" computer games in a cross disciplinary team. Projects require cross-disciplinary teams. Aspects of Indie development and computer/video game history will be discussed. Nonmajor graduate credit.

HCI 504. Managing and Evaluating Instructional Technology Interventions. (Cross-listed with C I). (3-0) Cr. 3. S. *Prereq: CI 501.* Principles and procedures for analysis, review, and assessment of instructional technology interventions in education and corporate settings. Methods for planning, organizing, and conducting evaluative studies are applied.

HCI 509. Computer/Video Game Design and Development. (Dual-listed with 409). (Cross-listed with ArtIS). (0-6) Cr. 3. Repeatable. F.S. *Prereq: Permission of instructor. Programming emphasis: Com S 227, 228, 229 or equivalent in Engineering; art or graphics emphasis: Art 230 and ArtIS 308; writing emphasis: an English course in creative writing or writing screen plays; business or marketing students: junior classification.* Independent project based creation and development of "frivolous and non-frivolous" computer games in a cross-disciplinary team. Projects require cross-disciplinary teams. Aspects of Indie development and computer/video game history will be discussed.

HCI 515. Statistical Natural Language Processing. (Cross-listed with Engl, Ling). (3-0) Cr. 3. F. *Prereq: Stat 330 or equivalent, recommended Ling 219 or Ling 511.* Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

HCI 520. Computational Analysis of English. (Cross-listed with Engl, Ling). (3-0) Cr. 3. F. *Prereq: Engl 510 or 511.* Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

HCI 521. Cognitive Psychology of Human Computer Interaction. (Cross-listed with Psych). (3-0) Cr. 3. *Prereq: Graduate classification or instructor approval.* Biological, behavioral, perceptual, cognitive and social issues relevant to human computer interactions.

HCI 522. Scientific Methods in Human Computer Interaction. (Cross-listed with Psych). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Psych 521 and Stat 101 or equivalent.* Basics of hypothesis testing, experimental design, analysis and interpretation of data, and the ethical principles of human research as they apply to research in human computer interaction.

HCI 525. Optimization Methods for Complex Designs. (Cross-listed with M E). (3-0) Cr. 3. S. *Prereq: Engr 160, Math 265.* Optimization techniques including unconstrained and constrained minimization, linear programming, and particle swarm optimization. Both the theory and methods and the application to complex designs will be presented.

HCI 558. Introduction to the 3D Visualization of Scientific Data. (Cross-listed with Geol, Com S). (2-2) Cr. 3. Alt. S., offered 2011. *Prereq: Graduate-student standing in the Mathematical or natural sciences.* Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, engineering). Class project in interactive 3D visualization using the OpenDX, VTK or a similar system.

HCI 575. Computational Perception. (Cross-listed with Com S, Cpr E). (3-0) Cr. 3. S. *Prereq: Graduate standing or permission of instructor.* This class covers Statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. This semester we will focus on machine perception techniques that facilitate and augment human-computer interaction. The main goal of the class is to introduce computational perception on both theoretical and practical levels. You will work in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

HCI 590. Special Topics. Cr. arr. Repeatable. Investigation of problems of special interest in human computer interaction.

HCI 591. Seminar in Human Computer Interaction. Cr. arr. Repeatable.

HCI 592. Entrepreneurship Workshop. (1-0) Cr. 1. F. Students will be taken step-by-step through activities that must be undertaken when attempting to commercialize a technology or start their own company. Speakers will be brought in to introduce relevant topics, provide resources, answer questions, and provide working examples.

HCI 603. Advanced Learning Environments Design. (Cross-listed with C I). (3-0) Cr. 3. S. *Prereq: CI 503.* Exploration of advanced aspects of the instructional design process. Application of analysis, design, development and production, evaluation, implementation, and project management principles. Focus on the production and use of instructional technology with an emphasis on the instructional design consulting process. Theory and research in instructional technology provides the foundation for design decisions.

HCI 655. Organizational and Social Implications of Human Computer Interaction. (Cross-listed with MIS). (3-0) Cr. 3. *Prereq: Graduate Classification.* Examine opportunities and implications of information technologies and human computer interaction on social and organizational systems. Explore ethical and social issues appurtenant to human computer interaction, both from a proscriptive and prescriptive perspective. Develop informed perspective on human computer interaction. Implications on research and development programs.

HCI 697. HCI Internship. Cr. R. Repeatable. *Prereq: Permission of Director of Graduate Education, graduate classification.*

HCI 699. Research. Cr. arr. Repeatable.

Human Development and Family Studies

Corlice Brooke, Interim Chair of Department

Distinguished Professors (Emeritus): Bivens, Meixner

Professors: Brooke, Brotherson, Crase, Draper, Fletcher, Garasky, Hira, Lempers, Macdonald, Martin, Peterson, Russell, Wickrama, Yearns

Professors (Emeritus): Coulson, Deacon, Engel, Joanning, Mercier, Pickett, Winter

Associate Professors: Cook, Greder, Hegland, Luze, Maude, Murphy, Torrie

Associate Professors (Emeritus): Crull, Dail, Herwig, K. Miller, N. Miller, Strong, Volker

Associate Professor (Adjunct): Melby

Assistant Professors: Hughes, Lohman, Margrett

Assistant Professors (Emeritus): Glass, Graham

Assistant Professors (Adjunct): Colbert, Hockaday, Oesterreich, Swanson

Senior Lecturer: Krogh

Lecturers: Borkowski, Enloe, Hensley, Kostelecky, Mahan, Mcclain, Popillion, Schrag, Shedd, Trudeau, Vanmeter, Walsh, Wetzler

Undergraduate Study

For undergraduate curricula in Human Development and Family Studies, leading to the degree bachelor of science, see *Human Sciences, Curricula.*

The Department of Human Development and Family Studies offers courses that focus on the interactions among individuals, families, their resources, and their environments throughout the life span. The department offers work for the Bachelor of Science degree in three curricula: Child, Adult, and Family Services; Early Childhood Education; and Family Finance, Housing and Policy.

The Child, Adult and Family Services curriculum leads to work in the helping professions with employment opportunities in public and private agencies, including Head Start. Opportunities exist to observe and work with infants, preschoolers, school-age children, adolescents, adults, and families. Graduates of the program are prepared for employment in agencies and organizations serving children, youth, families, and adults as program development specialists, coordinators, directors, teachers, direct care staff, and administrators. This flexible program provides a broad emphasis in theory, research, and application in child, adult and family services including attention to community issues and public policy.

Students in the Child, Adult and Family Services curriculum are eligible to participate in *Camp Adventure ™ Youth Services.* Administered by the University of Northern Iowa, Camp Adventure ™ offers students an opportunity to plan and implement school-age service and youth development, develop leadership and management skills, enhance one's global awareness and promote cultural sensitivity. Comprehensive school age and youth service programs directed primarily toward U.S. military installations, U.S. embassies, and corporate clubs and associations are offered. Students will earn 12 credits from the University of Northern Iowa, which can be transferred and applied to CAFS requirements. Students in the child program and youth program options may use Camp Adventure as HD FS 491 Internship if prerequisites are met before beginning the internship. See departmental advising coordinator for information and eligibility.

Students graduating in the Child, Adult, and Family Services major will 1) demonstrate competency in human development and family studies and their chosen field of emphasis; 2) demonstrate proficiency in interpersonal communication and in working with diverse groups to solve multidisciplinary problems; 3) effectively practice preparation and delivery of information to human Service and child care professionals as well as to the general public; 4) critically evaluate information and accurately interpret and use research, and 5) understand the complexity of issues facing professionals in the field, including ethical, cultural and environmental elements.

The Family Finance, Housing, and Policy curriculum prepares students for careers as financial counselors and planners, insurance agents, loan officers, mortgage originators, government housing authority administrators, housing advocates, housing planners, real estate agents, non-profit agency administrators, policy analysts and lobbyists, property managers, and consumer credit and financial aid counselors. The program focuses on financial resource management, housing services and administration, and family policy issues pertinent to children, adults and families. In addition, the program is designed to provide students with skills and background necessary to address the financial and housing related needs of vulnerable households including populations who experience discrimination due to poverty, minority Status, age, and/or disability Status. Laboratory and practicum opportunities exist in the ISU Financial Counseling Clinic, a HUD-approved financial and housing counseling service. Laboratory opportunities also exist in the Universal Design Learning Laboratory where students can complete class projects and investigations to better understand requirements of life span design and accessibility issues. A variety of service learning opportunities are available to familiarize students with public and not-for-profit community services and agencies. Well qualified juniors and seniors in Family Finance, Housing and Policy who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both a B.S. in FFHP and an M.S. in HDFS or a B.S. in FFHP and a Graduate Certificate in Family Financial Planning. Under concurrent enrollment, students simultaneously take undergraduate and graduate courses and may be eligible for assistantships. See *Graduate Study* for more information.

Students graduating in the Family Finance, Housing, and Policy major will 1) demonstrate competency in consumer science and policy and their chosen field of emphasis, 2) demonstrate proficiency in interpersonal communication and in working with diverse groups to solve multidisciplinary problems, 3) effectively practice preparation and delivery of information to family finance, housing, and policy professionals as well as to the general public, 4) critically evaluate information and accurately interpret and use research, and 5) understand the complexity of issues facing professionals in the field, including ethical, cultural and environmental elements.

The curriculum in Early Childhood Education is planned for students preparing to teach young children and work with their families. This program leads to careers in working with young children who are typically developing and those with special needs from birth through age eight. Graduates in this curriculum may teach in early childhood (preschool and primary) classrooms or home based programs, with emphasis on inclusive services; graduates may be employed by either public or private agencies or schools. This curriculum has been approved by the Iowa Department of Education and meets requirements for the early childhood education unified teacher license, which permits individuals to teach general and special education for children from birth through age eight. The program is an interdepartmental major administered by the Department of Curriculum and Instruction and the Department of Human Development and Family Studies within the College of Human Sciences.

Students who enroll in Early Childhood Education must make application to and be accepted into the teacher education program prior to enrolling in advanced courses. All early childhood education students, including those seeking a double major, must meet general education requirements for teacher licensure. Iowa State University is in compliance with the Iowa Department of Education's mandate for a performance based system of teacher training. Following this same type of system, the State of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the eleven Iowa State University Teacher Education Standards and the eight State of Iowa Teaching Standards, along with other information about the University Teacher Education Program, can be found at www.teacher.hs.iastate.edu/, the teacher education website. Information is also available from the student's academic adviser.

Students in early childhood education must meet the performance outcome standards for teacher licensure. Standards are assessed in coursework through designated performance indicators such as assignments, projects, or practicum participation. These standards assessments are based on the early childhood content standards for endorsement 100 in the State of Iowa. These include competencies in (1) child growth, development, and learning; (2) developmentally appropriate learning environment and curriculum implementation; (3) health, safety, and nutrition; (4) family and community collaboration; and (5) professionalism. Pre-student teaching field experiences and student teaching experience in a least two different settings are required. Students will receive both formative and summative evaluations of their progress toward meeting these outcomes throughout their program at ISU.

The department offers minors in Child, Adult, and Family Services, and Family Finance, Housing, and Policy.

The Child, Adult, and Family Services minor may be earned by completing 102; selecting 3 credits from 220, 221, 226, 227, or 377; and selecting 9 credits from 270, 344, 349, 360, 367, 373, 380, 395, 449, 463 or 479.

The Family Finance, Housing, and Policy minor may be earned by completing HD FS 239; 283; 395; and selecting 6 credits from HD FS 341, 360, 378, 463, 483, 488 or 489.

Communication Proficiency requirement: A student must achieve a grade of C or higher in English 150 and 250. A student achieving a grade of C– or lower in 150 and/or 250 must either repeat the course(s), earning a minimum grade of C, or, in consultation with the adviser and the coordinator of freshman English, complete another appropriate English writing course with a minimum grade of C.

Graduate Study

The department offers work for the degrees Master of Science and Doctor of Philosophy with the major in Human Development and Family Studies, and minor work for students taking major work in other departments. Graduates of M.S. and Ph.D. programs in the department will understand and apply relevant theories to educational, research, and/or intervention programs. It is intended that they will produce and disseminate research results and provide leadership in human development and family studies professions.

Within the major of Human Development and Family Studies, both M.S. and Ph.D candidates may choose to work primarily in one of three signature areas: early childhood, care and education; life-span development; or family policy and practice. The Department of Human Development and Family Studies offers coursework and experiences leading to National Council of Family Relations certification as a family life educator

Prerequisite to work in the major is the completion of a related undergraduate program with basic courses in one or more of the following areas: architecture, child/human development, community and regional planning, economics, education, family studies, interior design, psychology, or Sociology. Additional coursework or prerequisites may be required depending on the undergraduate program and program of study.

Core guidelines for graduate programs of study in Human Development and Family Studies have been developed, and the student's program of study committee has the major responsibility for determining additional requirements for an individual program.

The department also participates in the Master of Family and Consumer Sciences degree programs. Students selecting this option may choose Human Development and Family Studies as the focus of their studies. A 42-credit Master of Family and Consumer Sciences-Family Financial Planning program (MFCS-FFP), along with the 18-credit Graduate Certificate Program is designed to prepare individuals to work in the financial planning field. The courses for this program are completely Web-based. Completion of course work in the Master's degree and Graduate Certificate meets the educational requirements to sit for the Certified Financial Planner (CFP) Board of Standards Certification Examination.

The department offers well qualified students in Family Finance, Housing, and Policy concurrent degree programs that allow them to obtain a B.S. in FFHP and an M.S. in HD FS or a B.S. in FFHP and a Graduate Certificate in Family Financial Planning in 5 years. Application for admission to the Graduate College should be made near the end of the junior year. Under concurrent enrollment, students simultaneously take undergraduate and graduate courses and may be eligible for assistantships. Students interested in these programs should contact the department for details.

The department cooperates in the interdepartmental Gerontology program; students may declare a minor in Gerontology. The Master of Family and Consumer Sciences - Gerontology program (MFCS-Geron) and the Graduate Gerontology Certificate program are designed to prepare professionals who work directly with older people or are involved in education and research related to the elderly. Professionals offering direct services often are involved in health promotion programs, directing intergenerational activities, managing senior centers or retirement communities, counseling older people and their families, and helping people plan for retirement. Professionals involved in education and research may evaluate community-based services, teach others about the aging process, develop policies and programs to serve the needs of the elderly, and work with business and industry on issues related to an aging work force.

Courses primarily for undergraduate students

HD FS 102. Individual and Family Life Development. (3-0) Cr. 3. F.S.SS. Development of individuals, families, and their reciprocal relationships as affected by external factors; examined within a framework of life-span developmental tasks.

HD FS 110. Freshman Learning Community Orientation. (2-0) Cr. 2. F. *Prereq: Membership in HD FS Learning Community.* Introduction to the Department of Human Development and Family Studies including academic requirements and opportunities, strategies for transitioning to college, learning and study strategies, reading and reflection, and career awareness.

HD FS 111. Orientation. (1-0) Cr. 1. Orientation to HD FS curricula. Development of a long-term curriculum plan. Satisfactory-fail only.

HD FS 208. Early Childhood Education Orientation. (Cross-listed with C I). Cr. 1. F.S. Overview of early childhood education (birth-grade 3) teacher licensure requirements. Program planning and university procedures. Required of all students majoring in early childhood education. Satisfactory-fail only.

HD FS 218. Professional Orientation and Service Learning. Cr. 2. F.S. *Prereq: 102.* Restricted to CH FS majors. Ethics, professional development, and career exploration in child, adult and family services. Visits to and service learning with programs that serve children, adults and families with diverse needs. Participation in service learning project required. Satisfactory-fail only.

HD FS 220. Development and Guidance: Ages Birth through 2 Years. (2-2) Cr. 3. F.S. Alt. SS., offered 2011. *Prereq: 102.* Typical and atypical development from birth through two years of age. Development and guidance within the contexts of family, program, and Society. Guided observation of physical, motor, cognitive, communication, social, and emotional development; practicum.

HD FS 221. Development and Guidance: Ages 3 through 8 Years. (3-1) Cr. 3. F.S. Alt. SS., offered 2010. *Prereq: 102.* Typical and atypical development from 3 through 8 years of age. Development and guidance within the contexts of family, program, and Society. Guided observation of physical, motor, cognitive, communication, social, and emotional development; practicum

HD FS 223. Development and guidance Ages Birth though 8 Years. (3-0) Cr. 3. S. Typical and atypical development from birth through eight years of age. Development and guidance within the contexts of the family, program, and Society. Guided observation of physical, motor, cognitive, communication, social, and emotional development.

HD FS 226. Development and Guidance in Middle Childhood. (2-2) Cr. 3. F.S. *Prereq: 102 or Psych 230.* Typical and atypical development from 5 to 12 years of age. Development in the contexts of family, school, and Society. Guidance of children in family and group settings; practicum.

HD FS 227. Adolescent Development. (3-0) Cr. 3. F. *Prereq: 102 or Psych 101 or 230.* Physical, cognitive, and socioemotional development of adolescents and young adults in the context of family, relationships, and culture.

HD FS 239. Housing and Consumer Issues. (3-0) Cr. 3. F.S. Introduction to factors affecting housing consumption of individuals and families, including current housing consumer issues related to housing choices, housing context of neighborhoods and communities, housing structure types, and credit and housing finance. Issues such as homelessness, housing discrimination, indoor air quality, accessible design.

HD FS 240. Literature for Children. (3-0) Cr. 3. F.S. *Prereq: 102 or Psych 230.* Evaluation of literature for children. Roles of literature in the total development of children. Literature selection and use.

HD FS 269. Research in Human Development and Family Studies. (3-0) Cr. 3. F.S. *Prereq: 102 or Psych 230.* Understanding and evaluating research. Use of primary and secondary data to identify and study problems related to human development and family issues, including finance and housing. An introduction to Statistical concepts and computer analysis. Research participation.

HD FS 270. Family Relationships. (3-0) Cr. 3. F.S.Alt. SS., offered 2011. *Prereq: 102 or Psych 230.* Introduction to and application of family theories. Family communication and its functions to develop, maintain, enrich and limit family relationships.

HD FS 276. Human Sexuality. (3-0) Cr. 3. F.S.SS. Behavioral, biological, and psychological aspects of human sexuality within the social context of family, culture, and society. Role of sexuality in human development. Critical analysis of media and research. Communication and decision-making skills relating to sexuality issues and relationships.

HD FS 283. Personal and Family Finance. (3-0) Cr. 3. F.S.SS. Introduction to basic principles of personal and family finance. Budgeting, record keeping, checking and savings accounts, consumer credit, insurance, investments, and taxes.

HD FS 317. Field Experiences. Cr. arr. Repeatable. F.S.SS. Consult department office for procedure. Permission of instructor. Supervised field experience in human development and family studies programs. Satisfactory-fail only.
A. Early Childhood Education Programs. Prereq: 343.
B. Family Services Programs. Prereq: 9 credits in HD FS.

C. Early Childhood Special Education Programs. Prereq: 220, 221.
D. School-Age Child Care Programs. Prereq: 226.
E. Infant/Toddler Programs. Prereq: 340.
F. Research. Prereq: 269.
G. Family Finance Programs.
K. Housing Programs.
L. Policy Programs.

HD FS 340. Assessment and Curricula: Ages Birth through 2 Years. (3-3) Cr. 4. F.S. *Prereq: 220.* Assessment strategies for infants and toddlers, including those with special needs. Curricula, learning environments, teaching strategies, health and nutritional practices, and schedules that are developmentally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical, motor, cognitive, communication, and social emotional development; practicum.

HD FS 341. Housing Finance and Policy. (3-0) Cr. 3. F. *Prereq: 6 credits in social sciences.* The social, economic, and governmental contexts of housing and financial decision-making at the household level. Financial considerations for residential property management.

HD FS 343. Assessment and Programming: Ages 3 through 6 Years. (3-3) Cr. 4. F.S. *Prereq: 221; 240; 269 or Psych 332 or 333.* Assessment strategies for preschool and kindergarten children, including those with special needs. Learning environments, schedules, activities, nutritional practices, and teaching strategies that are developmentally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical motor, cognitive, communication, and social emotional development; practicum.

HD FS 344. Programming for Children in Early Care and Education. (3-3) Cr. 4. F.S. *Prereq: 220 or 221.* Programming in inclusive child care centers and family child care homes, including those with special needs, aged birth through 8 years. Developing, implementing, and evaluating learning environments; activities and materials; behavioral guidance and classroom management practices; health and nutritional practices; and schedules to ensure developmental, individual, and cultural appropriateness. Monitoring children s development and behavior to promote physical, motor, cognitive, communication, and social emotional development. Collaborating effectively with parents and staff.

HD FS 345. Adapting Programming in Inclusive Settings. (3-1) Cr. 3. F.S. *Prereq: Credit or concurrent enrollment in 340 or 343; Sp Ed 250.* Adapting instruction, materials, and equipment to meet developmental needs of young children birth through age 8 with diverse learning needs and multiple disabilities in inclusive settings. Addressing individualized education programs; special health care needs, challenging behavior, and positioning and handling techniques; practicum.

HD FS 349. Parenting and Family Diversity Issues. (3-0) Cr. 3. F.S.Alt. SS., offered 2010. *Prereq: 102 or Psych 230; 270.* Diversity issues as they affect families. Parenting practices and family relationships among diverse human populations. Understanding the family system and the relationship of that system to Societal systems.

HD FS 360. Housing and Services for Families and Children. (3-0) Cr. 3. F. *Prereq: 6 credits in social sciences.* Approaches to and assessment of housing and services that assist those with special needs including those with disabilities, low-income, children at risk, single-parents, and the homeless. Emphasis on community settings; e.g., residential facilities, group housing, shelters and transitional housing.

HD FS 367. Abuse and Illness in Families. (3-0) Cr. 3. F.S.Alt. SS., offered 2010. *Prereq: 102 or Psych 230; 270.* Causes and consequences of family stressors including physical, sexual, and emotional abuse; substance abuse; and mental and physical illness across the life span. Interplay between victims, offenders, and the treatment system.

HD FS 373. Death as a Part of Living. (Cross-listed with Geron). (3-0) Cr. 3. F.S.Alt. SS., offered 2010. *Prereq: 102.* Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and Societal attitudes.

HD FS 377. Aging and the Family. (Cross-listed with Geron). (3-0) Cr. 3. F.Alt. SS., offered 2011. *Prereq: 102.* Interchanges of the aged and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community development.

HD FS 378. Economics of Aging. (Cross-listed with Econ, Geron). (3-0) Cr. 3. S. *Prereq: 3 credits in principles of economics and 3 credits in human development and family studies.* Economic Status of the aging, retirement planning and the retirement decision, role of Social Security, public transfer programs for the elderly, intrafamily transfers to/from the elderly, private pensions, financing medical care and housing for the elderly, prospects and issues for the future.

HD FS 380. Family Law. (3-0) Cr. 3. S. *Prereq: Junior classification.* Family relationships, rights, and duties as prescribed by law. Investigation of sources and interpretations of law.

HD FS 395. Children, Families, and Public Policy. (3-0) Cr. 3. F.S.Alt. SS., offered 2011. *Prereq: 6 credits in social sciences.* Public policy and politics as they affect children and families. Examination of how individuals and groups influence policy. Investigation of current issues and programs influencing the well-being and welfare of children and families.

HD FS 416. Human Development and Family Studies Seminar. Cr. arr. Repeatable. F.S.SS. *Prereq: 8 credits in human development and family studies.* Intensive study of a selected topic in human development and family studies.

HD FS 417. Supervised Student Teaching. Cr. 8. Repeatable. Reservation required.
A. Kindergarten Programs. F. S. Prereq: GPA 2.5, full admission to teacher education program, 455. Teaching experience with young children in kindergarten settings.
B. Preschool Programs. F. S. Prereq: GPA 2.5, full admission to teacher education program, 455; 456. Teaching experience with young children from birth to 5 in group settings.

C. Early Childhood Special Education Programs. F. S. Prereq: GPA 2.5, full admission to teacher education program, 455; 456. Teaching experience with preschool children with disabilities.

HD FS 445. Administration of Programs for Children. (3-0) Cr. 3. S. *Prereq: 344.* Management principles and techniques, including an introduction to financial management involved in programs for children with diverse needs and their families. Staff development, supervision, and evaluation in programs for children and families. Government regulations concerning child and family programs; community relations; and advocacy for children and families.

HD FS 449. Linking Families and Communities. (3-0) Cr. 3. F.S. *Prereq: 269 or Psych 332 or 333, senior classification.* Assessing family needs and community resources across the lifespan. Characteristics of successful community-based family intervention and support programs. Strategies and skills needed by community-based professionals, including grant writing skills. Linking families to community resources. Nonmajor graduate credit.

HD FS 455. Curricula for Ages 3 through 6 Years. (3-3) Cr. 4. F.S. *Prereq: 343, 345; Sp Ed 355 and 455.* Program models and methods leading to development and organization of appropriate curricula in preschool and kindergarten programs for young children with diverse learning needs. Government regulations and professional standards for child programming. Teaming with parents, colleagues, and paraprofessionals to plan, implement, and evaluate developmentally and culturally appropriate individualized education plans in inclusive settings; practicum. Nonmajor graduate credit.

HD FS 456. Family-Centered Supports for Young Children and their Families. (3-1) Cr. 3. F.S. *Prereq: 340, 345.* Family systems and the application of family centered principles in early intervention and home-based services. Impact of disability on families with young children and strategies for delivering family-centered interventions and service coordination. Understanding and measuring family outcomes of early intervention. Understanding foundations of theory and policy, establishing effective partnerships, and building family capacity through effective supports and services. Experiences with families. Nonmajor graduate credit.

HD FS 463. Environments for the Aging. (Dual-listed with 563). (Cross-listed with ArtID, Geron). (3-0) Cr. 3. S. *Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies.* Emphasis on independent living within residential settings including specialized shelter, supportive services, and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities.

HD FS 479. Family Interaction Dynamics. (3-0) Cr. 3. F. *Prereq: 102 or equivalent; 269 or equivalent; 9 hours in social sciences and junior or senior Status.* Analysis of research related to family interaction processes across the family life span. Emphasis on relationship dynamics and cultural differences. Nonmajor graduate credit.

HD FS 483. Advanced Personal and Family Finance. (3-0) Cr. 3. S. *Prereq: 283.* Managerial approaches to achievement of short- or long-term financial goals for households. Investigation of different forms of investments and investment risks management in financing current and future consumption. Analyses of tax, estate, and retirement planning needs of the family. Nonmajor graduate credit.

HD FS 486. Administration of Human Service Programs. (3-0) Cr. 3. F. *Prereq: Junior classification; 6 credits in HD FS at 300 level and above.* An examination of purposes, staffing, operation, and clientele of organizations and agencies serving families. Analysis of issues in coordination and delivery of services.

HD FS 488. Families in the Economy. (3-0) Cr. 3. S. *Prereq: Econ 101.* Analysis of the family as an economic unit in Society. Structure and composition of the family. Patterns of resource use and activities pursued by the family. Family economic transitions such as marriage, divorce, and childbirth. Nonmajor graduate credit.

HD FS 489. Financial Counseling. (Dual-listed with 589). (3-0) Cr. 3. F. *Prereq: 283.* Personal, social/psychological, and legal climates affecting family financial decisions. A life-cycle approach to financial decision-making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management. Nonmajor graduate credit.

HD FS 489L. Financial Counseling Laboratory. (Dual-listed with 589L).(0-2) Cr. arr. Repeatable. F.S. *Prereq: Instructor permission.* Practical experience in remedial, preventative, and productive approaches to both financial and housing counseling in one-on-one and/or group settings.

HD FS 490. Independent Study. Cr. arr. *Prereq: 6 credits in human development and family studies.* Consult department office for procedure.
A. Child and Family Studies
B. Housing
C. Family Finance
F. Early Childhood Education
G. Early Childhood Special Education
H. Honors
I. Human Development and Family Studies
L. Policy Programs.

HD FS 491. Internship. Cr. arr. Repeatable. F.S.SS. *Prereq: 449; permission of instructor, senior classification.* Reservation required one semester before placement; minimum 2.0 GPA. Supervised work experience related to the student's curriculum. Satisfactory-fail only.

HD FS 493. Workshop. Cr. arr. Repeatable. F.S.SS. *Prereq: Senior classification.* (Dual-listed with 593).

HD FS 499. Research. Cr. arr. Repeatable. F.S.SS. *Prereq: Consult department office for procedures..* Supervised research experience.

Courses primarily for graduate students, open to qualified undergraduate students

HD FS 501. Graduate Study Orientation. (1-0) Cr. R. F. Orientation to graduate study and current research in the department.

HD FS 503. Quantitative Research Methodology. (3-0) Cr. 3. S. *Prereq: Stat 401 or ResEv 553, concurrent enrollment in HD FS 505.* Concepts, methods, and strategies for research in human development and family studies. Topics include the nature of scientific research, measurement, types of research in human development and family studies, validity of research designs, methods of data gathering, and strategies for and issues in the study of change.

HD FS 504. Qualitative Research Methods I. (3-0) Cr. 3. F. *Prereq: 9 credits of social sciences.* Introduction to qualitative research methodology. Application of fieldwork methods, analysis, interpretation, and writing through individual qualitative research projects.

HD FS 505. Application of Quantitative Research Methodology. (1-2) Cr. 2. S. *Prereq: Stat 401 or ResEv 553.* Coding, entry and manipulation of research data. Practical applications with interactive Statistical software.

HD FS 510. Theories of Human Development. (3-0) Cr. 3. F.SS. *Prereq: 9 credits of social sciences.* Theoretical approaches and current research in child, adolescent, and adult development. Individual life span perspectives. Policy implications.

HD FS 511. Family Theory. (3-0) Cr. 3. F. *Prereq: 9 credits in social sciences.* Theoretical approaches and current research in family development. Review the nature and value of theory to the study of the family and evaluate the use of theory in empirical research. Policy implications.

HD FS 521. Community Context of Individual and Family Well-being. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Graduate classification; 511 or 6 credits in social sciences.* Impact of community contextual influences on human development and families. Analysis of conceptual frameworks, methodological approaches, and current research. Socio-psychological and economic impact of housing and community on children and families.

HD FS 525. Theories and Research in Early Childhood Education. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 510 or 6 credits in social sciences.* Analysis of contemporary and historical models, including early intervention programs. Examination of relationships among physical environment, programming, teacher effectiveness, and child outcomes.

HD FS 530. Perspectives in Gerontology. (Cross-listed with Geron). (3-0) Cr. 3. F. WWW only. Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future.

HD FS 534. Adult Development. (Cross-listed with Geron). (3-0) Cr. 3. F: on campus. S: WWW only. Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed.

HD FS 538. Developmental Disabilities in Children. (Cross-listed with Psych). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 9 credits in human development and family studies or psychology.* Theories, research, and current issues regarding development in children with disabilities. Investigation of interventions with children and families.

HD FS 541. Housing and Real Estate in Family Financial Planning. (Cross-listed with FFP). (3-0) Cr. 3. Alt. SS., offered 2010. WWW only. The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate.

HD FS 545. Economics, Public Policy, and Aging. (Cross-listed with Geron). (3-0) Cr. 3. Alt. F., offered 2010. WWW only. Policy development in the context of the economic Status of the older adult population. Retirement planning and the retirement decisions, social security and public transfer programs, intra-family transfers to/from the aged, private pensions; financing medical care, prospects and issues for the future.

HD FS 547. Parent-Child Relations. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 510 or 511 or 6 credits in social sciences.* Analysis of theories and research related to parent-child interactions; examination of parenting as a developmental process. Current issues in child rearing.

HD FS 548. Parent Education. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 510 or 511 or 6 credits in social sciences.* Needs assessments, models, delivery systems, and evaluation procedures used in parent education programs for families with diverse needs, including single parents, adolescent parents, and parents of children with developmental disabilities. Developmental aspects of parenting. Effects of values, family structures, family goals, and parenting styles on parent education.

HD FS 555. Current Issues in ECSE. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 9 credits in social sciences.* Examination of research and current issues in early childhood special education with special emphasis on inclusion, activity-based intervention, and developmentally appropriate programming. Emphasis on continuum of strategies to embed learning opportunities that promote physical, language, cognitive, and social development.

HD FS 556. Families and Disability. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 9 credits in social sciences.* Review of research, policy, and practice regarding families of children with a disability. Educational, environmental, economic, and social issues faced by families. Communication and consultation skills to work collaboratively with interdisciplinary professionals and families to implement individualized family and educational programs.

HD FS 563. Environments for the Aging. (Dual-listed with 463). (Cross-listed with Geron). (3-0) Cr. 3. S. *Prereq: 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies.* Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities.

HD FS 566. Impact of Public Policy on the Family. (3-0) Cr. 3. S. *Prereq: 9 credits in social sciences.* The effect of public policies on families and children, especially those at risk. Examines poverty in the U.S.; the consequences of poverty; the programs used to alleviate the consequences of poverty; evaluation of the efficacy of these programs.

HD FS 567. Family Stress, Abuse, and Illness. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 9 credits in social sciences.* Contemporary theory and research on the causes and consequences of family stressors including physical, sexual, and emotional abuse; substance abuse; and mental and physical illness across the life span. Interplay between victims, offenders, and the treatment system. Identification of barriers to services and supports and exploration of approaches to assist families in overcoming these barriers.

HD FS 568. Developmental Assessment. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 510.* Techniques assessing cognitive, language, motor, emotional, and social skills of children in school, home and community settings using criterion-referenced, norm-referenced, and curriculum-based tests and screening tools. Techniques for interviewing families and including them in assessment. Opportunities to practice using different assessments.

HD FS 571. Marital Therapy and Assessment. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 9 credits in social sciences.* Theories and techniques of couple therapy across the life cycle.

HD FS 573. Ethics and Professional Studies in Marriage and Family Therapy. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 6 credits in graduate level social sciences.* Professional ethics and legal responsibilities relevant to family therapy. Professional socialization and the role of professional organizations and state licensure/certification.

HD FS 575. Cross-cultural Perspectives on Families and Children. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 6 credits in social sciences.* Review of methods and findings on cultural influences on the development of children and youth and on family life. Comparison of child rearing practices, family roles, values, and traditions in different cultures.

HD FS 576. Marriage Across the Life Course. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 511.* A developmental approach to exploring predictors of the formation, maintenance, and dissolution of intimate relationships across the life course. Understanding how intimate relationships develop and change over time, beginning with the development of early adolescent relationships and continuing through later life.

HD FS 577. Aging in the Family Setting. (Cross-listed with Geron). (3-0) Cr. 3. *Prereq: 9 credits in social sciences.* Alt. S., offered 2008: on campus. Alt. S. offered 2009: WWW only. Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics also are examined through the use of current literature.

HD FS 578. Models of Marriage and Family Therapy. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 9 credits in social sciences.* Major models of marriage, couple, and family therapy. Includes clinical assessment, intervention, and evaluation.

HD FS 579. Family Interaction Dynamics. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 9 credits in social sciences.* Current research and theory in family interaction, with emphasis on family dynamics and family change across the life course.

HD FS 581. International Study in Human Development and Family Studies. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission by application.* Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.
A. Practicum
B. Exchange
C. Group Study

HD FS 582. Contemporary Issues in Marriage and Family Therapy. (3-0) Cr. 3. Alt. SS., offered 2011. *Prereq: 9 credits in social sciences.* Focus on assessment, intervention, and treatment of issues marriage and family therapists routinely face, including suicidal/depressed clients, eating disorders, alcoholism and substance abuse, self-harm behaviors, and grief issues. Issues examined from a systemic, socio-cultural perspective.

HD FS 583. Investing for the Family's Future. (Cross-listed with FFP). (3-0) Cr. 3. F. *Prereq: 483.* Evaluation of investment markets for the household. Analysis of how families choose where to put their

savings. Emphasis is on using the family's overall financial and economic goals to help inform investment choices.

HD FS 584. Program Evaluation and Research Methods in Gerontology. (Cross-listed with Geron). (3-0) Cr. 3. Alt. SS., offered 2010. WWW only. Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings.

HD FS 585. Family Policy Analysis and Evaluation. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 6 credits in graduate level social sciences.* Theoretical and practical issues related to family policy analysis and program evaluation. Assessment of programs' success in meeting goals. Examination of concepts related to family policy development in the United States. Examination of how individuals and groups can influence family policy and evaluation.

HD FS 586. Sex Therapy. (3-0) Cr. 3. Alt. SS., offered 2010. *Prereq: 571 or 578.* Review of gender orientation and sexual functioning as well as assessment and treatment of sexual problems. Research regarding effectiveness of treatment is reviewed.

HD FS 587. Diversity Issues in Marriage and Family Therapy. (Cross-listed with W S). (3-0) Cr. 3. Alt. F., offered 2009. Review treatment implications associated with topics such as gender and power, race/ethnicity, family structure, and Socioeconomic Status. Discuss treatment implications of social oppression and discrimination on families.

HD FS 588. Family Economics and Public Policy. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 6 credits in Sociology or economics.* Analysis of family income, wealth, and economic well-being. Emphasis on effects of family behavior and public policies on the adequacy and security of income across the family life cycle. Implications of resource allocation within the family for adult and child well-being.

HD FS 589. Financial Counseling. (Dual-listed with 489). (3-0) Cr. 3. F. *Prereq: Graduate classification.* Personal, social/psychological and legal climates affecting family financial decisions. A life cycle approach to financial decision making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management.

HD FS 589L. Financial Counseling Laboratory. (Dual-listed with 489L).(0-2) Cr. arr. Repeatable. F.S. *Prereq: Instructor permission.* Practical experience in remedial, preventive, and productive approaches to both financial and housing counseling in one-on-one and/or group settings.

HD FS 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.* Consult department office on procedure for filing a written plan of study.
A. Family Studies
B. Housing
C. Family Finance
D. Human Development
E. Child Development
F. Early Childhood Education
G. Early Childhood Special Education
I. Human Development and Family Studies
M. Marriage and Family Therapy
N. Family Policy

HD FS 591. Internship. Cr. arr. Repeatable. F.S.SS. *Prereq: 10 graduate credits.* Supervised experience in an area of human development and family studies.
A. Family Studies
B. Housing
C. Family Finance
D. Human Development
E. Child Development
F. Early Childhood Education
G. Early Childhood Special Education
I. Human Development and Family Studies
M. Marriage and Family Therapy
N. Family Policy

HD FS 593. Workshop. Cr. arr. Repeatable. F.S.SS. *Prereq: Senior classification.* (Dual-listed with 493.)

HD FS 594. Professional Seminar in Gerontology. (Cross-listed with Geron). (3-0) Cr. 3. Alt. SS., offered 2011. WWW only. An integrative experience for gerontology students designed to be taken near the end of degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, and family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest.

Courses for graduate students

HD FS 603. Advanced Quantitative Methods. (3-0) Cr. 3. S. *Prereq: 503; Stat 402 or 404.* Methodological and analytical issues in research in human development and family studies. Advanced research design and measurement, selection of Statistical techniques, and issues in the interpretation of findings.

HD FS 604. Advanced Qualitative Research. (3-0) Cr. 3. F. *Prereq: 503. Qualitative methods and related theory in human development and family studies.* Research procedures, including phenomenology, grounded theory, ethnography, and case studies. Methods of data collection and analysis.

HD FS 605. Multi-level Modeling for social and Behavioral Sciences. (Cross-listed with Psych). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Stat 404.* Rationale for and interpretation of random coefficient models. Strategies for the analysis of multi-level and panel data including models for random intercepts, random slopes, and growth curves. Applications including HLM, SAS, PROCMIX, and MPLUS.

HD FS 616. Seminar. Cr. arr. May be repeated. F.S.SS.

HD FS 631. Learning and Cognitive Development in Children. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 510.* Theory and research emphasizing constructivist, Vygotskian, and information processing approaches to cognitive development. Concept, memory, and problem-solving development. Sources of individual differences in cognitive functioning of children and adolescents.

HD FS 632. Language and Literacy Development in Children. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 510.* Theory and research related to language and literacy development of children from birth to age 8. Exploration of the relationship between language and literacy development during the early childhood years. Discussion of current issues.

HD FS 633. Social and Emotional Development in Children. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 510.* Theory and research related to social and emotional development of infants, children, and adolescents. Dynamic socialization processes involving children, adolescents, parents, peers, and Society.

HD FS 634. Adolescent Development. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 510 or 511.* Theory and research on physical-motor, intellectual-cognitive, and social-personality development from early to late adolescence. Sources of developmental and individual differences in identity formation and attainment.

HD FS 650. Advanced Family Policy Theory. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 588.* Analysis of theories, research, and current issues related to family and household economics and policy. Emphasis on theory development and empirical analyses of macro and micro family economic problems. Future policy, economic and social trends, and their meaning for the family as an economic institution.

HD FS 690. Advanced Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor and enrollment in Ph.D. program.*
A. Family Studies
B. Housing
C. Family Finance
D. Human Development
E. Child Development
F. Early Childhood Education
G. Early Childhood Special Education
I. Human Development and Family Studies
M. Marriage and Family Therapy
N. Family Policy

HD FS 691. Internship. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.* Supervised practice and experience in the following specified areas: Satisfactory-fail only.
A. College Teaching
B. Research
C. Marriage and Family Therapy
D. Professional Experience

HD FS 699. Research. Cr. arr. Repeatable. Satisfactory-fail only.
A. Family Studies
B. Housing
C. Family Finance
D. Human Development
E. Child Development
F. Early Childhood Education
G. Early Childhood Special Education
I. Human Development and Family Studies
M. Marriage and Family Therapy
N. Family Policy

Human Sciences

David Whaley, Program Coordinator

Human Sciences courses provide integrative study and enriching experiences in areas that cut across the diverse curricula of the College of Human Sciences. These may include such areas as leadership, global understanding, social justice/responsibility, and ethics. Students in any college may take these courses.

Courses primarily for undergraduate students

H Sci 150. Dialogues on Diversity. (1-0) Cr. 1. F.S. An exploration of diversity within the context of the Iowa State University community through understanding human relations issues. Satisfactory-fail only.

H Sci 482. The Dean's International Leadership Seminar. (Dual-listed with 582). (3-0) Cr. 3. S.SS. *Prereq: Permission of the seminar leader.* Leadership strategies and effective use of leadership skills in an international setting. Compare leadership theories and practices in the U.S. and foreign countries. Construct individual leadership strategies to deal with complex issues in a global environment. Use discussion, personal assessment inventories, and simulated experiences to evaluate leadership strategies. Develop and improve skills in meeting the challenges of teamwork. Learn about the culture of a foreign country.

H Sci 490. Independent Study. Cr. arr.
E. Entrepreneurship

H Sci 582. The Dean's International Leadership Seminar. (Dual-listed with 482). (3-0) Cr. 3. S.SS. *Prereq: Permission of the seminar leader.* Leadership strategies and effective use of leadership skills in an international setting. Compare leadership theories and practices in the U.S. and foreign countries. Construct individual leadership strategies to deal with complex issues in a global environment. Use discussion, personal assessment inventories, and simulated experiences to evaluate leadership strategies. Develop and improve skills in meeting the challenges of teamwork. Learn about the culture of a foreign country.

Immunobiology

www.immunobiology.iastate.edu

(Interdepartmental Graduate Program)

Supervisory Committee: Marian Kohut, Chair; Mike Wannemuehler, Louisa Tabatabai, Jesse Hostetter, Bryan Bellaire

The Graduate Faculty: Marian Kohut, Chair; Ackermann, Mark, Andreasen; Claire, Andreotti, Amy; Bartholomay, Lyric; Bellaire, Bryan; Cunnick, Joan; Griffith, Ronald; Harris,DL; Hostetter, Jesse; Jarvinen, Julie; Jones, Doug; Kanthasamy, Anumantha; Lamont, Susan; Lippolis, John; Minion, F. Chris; Nilsen-Hamilton, Marit; Nonnecke, Brian; Nystrom, Evelyn; Opriessnig, Tanja; Palic, Dusan; Petersen, Christine; Platt, Ken; Reynolds, Don; Rosenbusch, Ricardo; Roth, James; Rothschild, Max; Sacco, Randy; Stabel, Judy; Tabatabai, Louisa; Thoen, Charles; Wannemuehler, Mike; Waters Ray; Zhang, Qijing

Graduate Study

Work is offered for the master of science and doctor of philosophy degrees with a major in Immunobiology. Faculty are drawn from eight departments: Animal Science; Biochemistry, Biophysics, and Molecular Biology; Biomedical Sciences; Entomology; Kinesiology; Veterinary Diagnostic & Production Animal Medicine; Veterinary Microbiology & Preventative Medicine; and Veterinary Pathology. The diversity of faculty expertise ensures a broad education, while offering flexibility in choice of specialization. Ongoing research projects include areas such as: antibody and cell-mediated immunity, immunochemistry, immunogenetics, immunomodulation, mucosal immunity and nutritional immunology.

Students may enter the Immunobiology major in one of two ways; they may apply to and be directly accepted into the major, or they may be admitted to a participating department followed by formal admission to the major. Students directly admitted into the Interdepartmental Immunobiology Major will take Imbio 697 (graduate research rotation) in their first two semesters, and by the end of the second semester, enter a department by choosing a major professor from the participating faculty. Students first admitted to a department will choose a major professor from the participating faculty in that department.

Students should have a strong background in the biological sciences, including work in immunology, genetics and biochemistry. Prior research experience is highly encouraged. Submission of scores of the GRE General Test is required.

Immunobiology students should include in their program of study a core of courses which will provide a broad coverage of the basic program in immunobiology. Formal courses should include immunology, biochemistry, and Statistics. Additional coursework may be selected to satisfy individual interests or departmental requirements. The foreign language and teaching requirements are determined by the student's department. All students will take a minimum of one seminar course per year.

Graduates have a broad understanding of the interdisciplinary field of immunobiology, and can effectively integrate the principles of immunology with related disciplines. They are able to effectively communicate with scientific colleagues and the general public in both formal and informal settings. Graduates are able to integrate theory and research to address complex problems facing scientific professionals studying animal and human health, taking into account related ethical, social, legal and environmental issues. They are skilled at carrying out research, communicating research results, and writing persuasive grant proposals.

Courses for graduate students

Imbio 602. Current Topics Workshop in Immunology. (1-0) Cr. 1. Repeatable. Lectures provided by off-campus experts. Students are required to participate in discussion sessions with lecturers.

Imbio 604. Seminar in Immunobiology. (1-0) Cr. 1. Repeatable. Student and faculty presentation.

Imbio 690. Special Topics. Cr. arr. Repeatable. Advanced study of specific topics in specialized field of immunobiology.

Imbio 697. Graduate Research Rotation. Cr. arr. Repeatable. Graduate research projects performed under the supervision of selected faculty members in the Interdepartmental Immunobiology major.

Imbio 699. Research. Cr. arr. Repeatable.

Industrial Engineering

(Administered by the Department of Industrial and Manufacturing Systems Engineering)

Gary Mirka, Chair of Department

Distinguished Professors (Emeritus): Cowles

University Professor: Vardeman

University Professor (Emeritus): David

Professors: Heising, Mirka, Morris, Ryan

Professors (Emeritus): Barta, Berger, Even, Mohr, Montag, Moore, Patterson, C. Smith, G. Smith, Tamashunas, Vaughn

Associate Professors: Gemmill, Jackman, Meeks, Min, Olafsson, Peters

Associate Professor (Emeritus): Love

Assistant Professors: Frank, Stone, Wang

Assistant Professor (Collaborator): Guerra-De-Castillo

Senior Lecturer: Potter

Lecturers: Sly

Undergraduate Study

For the undergraduate curriculum in industrial engineering leading to the degree bachelor of science, see *College of Engineering, Curricula.* This curriculum is accredited by the Engineering Accreditation Commission ABET.

Industrial engineers are employed to design, analyze, and improve systems and processes found in manufacturing, consulting, and service industries. Professional responsibilities are typically in design, management, analysis, optimization, and modeling of industrial systems. An industrial engineer is focused on human factors, operations research, engineering management, manufacturing engineering, and quality. Industrial engineers are typically found in organizations responsible for operations management, process engineering, automation, logistics, supply chain management, scheduling, plant engineering, quality control, and technical sales. The overall goal of the industrial engineering undergraduate curriculum is to produce technically qualified industrial engineers who are capable of successful professional practice in the field. To meet this goal, the curriculum includes in-depth instruction to accomplish the integration of systems using appropriate analytical, computational, and engineering practices. The curriculum also provides graduates with the necessary educational foundation to pursue advanced studies in industrial engineering or related fields.

The industrial engineering curriculum has the following objectives. The industrial engineering curriculum is preparing its graduates during their professional careers to:

1. Make decisions on system design or analysis with broad-based analytical tools and information technology.
2. Formulate and analyze problems in specific application areas including manufacturing, production, logistics, ergonomics, service industries, public policies, or information systems.
3. Develop and implement project solutions concerning designs, processes, operations, or systems.
4. Prepare and deliver professional communications in written and oral formats.
5. Achieve team goals in a multidisciplinary team environment and provide leadership in some capacity, based on an understanding of team dynamics and project management.
6. Acquire new skills and training for lifelong learning.

Details on industrial engineering program outcomes that foster the attainment of these objectives are available at appropriate sections of: www.imse.iastate.edu

The industrial engineering undergraduate curriculum provides students with fundamental knowledge in mathematics and science, engineering science, social science, and humanities as well as professional industrial engineering course work. Management electives provide students with an opportunity to become familiar with modern business practices that they will encounter in their career. A senior capstone design course provides students with an opportunity to solve open-ended industrial problems with an industrial partner. The cooperative education program provides students with real world experience in the profession and a good perspective on career choices. Students are encouraged to participate in international experiences through exchange programs and industrial internships. Qualified juniors and seniors interested in graduate studies may apply to the Graduate College to concurrently pursue both B.S. and M.S. degrees in Industrial Engineering or B.S. and M.B.A. degrees.

Graduate Study

The department offers work for the degrees master of science and doctor of philosophy with a major in industrial engineering. A formal minor is available to graduate students having a major in another department. Graduate study is designed to improve the student's capability to conduct research as well as improve professional expertise in industrial engineering.

The prerequisite to major graduate work is the completion of a curriculum similar to that required of undergraduate students in engineering at this institution.

With the help of a program of study committee, a graduate student develops an educational program in areas within industrial engineering. Typical areas of concentration include ergonomics, engineering management, human computer interfaces, manufacturing systems, operations research and optimization, and information engineering.

Courses primarily for undergraduate students

I E 101. Industrial Engineering Profession. Cr. R. F.S. (1-0) Introduce students to the industrial engineering profession, its scope, industrial engineering tools, and future trends.

I E 148. Information Engineering. (2-2) Cr. 3. F.S. *Prereq: Credit or enrollment in Math 142.* Development of information solutions for engineering problems. Fundamentals of the software development process. Engineering computations and the human/computer interface. Data models and database development. Program connectivity and network applications.

I E 248. Engineering System Design, Manufacturing Processes and Specifications. (2-2) Cr. 3. F. *Prereq: Credit or enrollment in 101 and Mat E 272.* Introduction to metrology, engineering drawings and specifications. Engineering methods for designing and improving systems. Theory, applications, and quality issues related to machining processes.

I E 271. Applied Ergonomics and Work Design. (3-0) Cr. 3. S. *Prereq: Phys 221.* Basic concepts of ergonomics and work design. Their impact on worker and work place productivity, and cost. Investigations of work physiology, biomechanics, anthropometry, work methods, and their measurement as they relate to the design of human-machine systems.

I E 298. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of department and Engineering Career Services.* First professional work period in the cooperative education program. Students must register for this course before commencing work.

I E 305. Engineering Economic Analysis. (3-0) Cr. 3. F.S.SS. *Prereq: Math 166.* Economic analysis of engineering decisions under uncertainty. Financial engineering basics including time value of money, cash flow estimation, and asset evaluation. Make versus buy decisions. Comparison of project alternatives accounting for taxation, depreciation, inflation, and risk. Nonmajor graduate credit. Nonmajor graduate credit.

I E 312. Optimization. (3-0) Cr. 3. F. *Prereq: Math 267.* Concepts, optimization and analysis techniques, and applications of operations research. Formulation of Mathematical models for systems, concepts, and methods of improving search, linear programming and sensitivity analysis, network models, and integer programming. Nonmajor graduate credit.

I E 341. Production Systems. (3-0) Cr. 3. F. *Prereq: Stat 231; credit or enrollment in I E 312.* Introduction of key concepts in the design and analysis of production systems. Topics include inventory control, forecasting, material requirement planning, project planning and scheduling, operations scheduling, and other production systems such as Just-In-Time (JIT), warehousing, and global supply chains. Nonmajor graduate credit.

I E 348. Solidification Processes. (2-2) Cr. 3. S. *Prereq: 248.* Theory and applications related to metal casting, welding, polymer processing, powder metallurgy, electronic assembly, and semi-conductor manufacturing. Nonmajor graduate credit.

I E 361. Statistical Quality Assurance. (Cross-listed with Stat). (2-2) Cr. 3. F.S. *Prereq: Stat 231 or 401.* Statistical methods for process improvement. Simple quality assurance principles and tools. Measurement system precision and accuracy assessment. Control charts. Process capability assessment. Experimental design and analysis for process improvement. Significant external project in process improvement. Nonmajor graduate credit.

I E 396. Summer Internship. Cr. R. Repeatable. SS. *Prereq: Permission of department and Engineering Career Services.* Summer professional work period.

I E 397. Engineering Internship. Cr. R. Repeatable. F.S. *Prereq: Permission of department and Engineering Career Services.* Professional work period for a maximum of one semester per academic year. Satisfactory-fail only.

I E 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: 298, permission of department and Engineering Career Services.* Second professional work period in the cooperative education program. Students must register for this course before commencing work. Satisfactory-fail only.

I E 403. Introduction to Sustainable Production Systems. (Dual-listed with 503). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Credit or enrollment in 341.* Quantitative introduction of sustainability concepts in production planning and inventory control. Review of material recovery (recycling) and product/component recovery (remanufacturing) from productivity perspectives. Sustainability rubrics ranging from design and process to systems. Application to multi-echelon networks subject to forward/backward flow of material and information. Closed-loop supply chains. Comparative study of sustainable vs traditional models for local and global production systems.

I E 408. Interdisciplinary Problem Solving. (Cross-listed with E E, TSM). (3-0) Cr. 3. F.S. *Prereq: Junior or senior classification.* Use of the Theory of Constraints as a way of approaching problem solving, win-win negotiation, project planning and effective delegation in the context of engineering/business systems. Team projects aimed at improving design outcomes. Nonmajor graduate credit.

I E 409. Interdisciplinary Systems Effectiveness. (Cross-listed with E E, TSM). (3-0) Cr. 3. F.SS. *Prereq: Junior or senior classification.* Focus on functions that determine the effectiveness of an entire organization. Generic Theory of Constraints solutions to production, distribution, and project management are compared to traditional solutions. Strategy for improvements discovered using simulations. Nonmajor graduate credit.

I E 413. Stochastic Modeling, Analysis and Simulation. (4-0) Cr. 4. F. *Prereq: Math 267, Stat 231.* Development and analysis of simulation models using a simulation language. Application to various areas of manufacturing and service systems such as assembly, material handling, and customer queues. Utilizing model output to make important business decisions. Fitting of data to Statistical distributions. Introduction to Markov processes and other queuing models. Nonmajor graduate credit.

I E 419. Manufacturing Systems Modeling. (3-0) Cr. 3. S. *Prereq: Stat 231.* Modeling material handling systems, inventory systems, and production systems for performance analysis. Introduction to analysis, simulation, and physical models of manufacturing systems. Simulation languages such as ARENA, AweSim, and ProModel. Not available for degrees in industrial engineering. Nonmajor graduate credit.

I E 441. Industrial Engineering Design. (1-6) Cr. 3. F.S. *Prereq: 248, 271, 361; credit or enrollment in 341, 413, and 448.* A large, open-ended design project related to an enterprise. Application of engineering design principles including problem definition, analysis, synthesis, and evaluation. Nonmajor graduate credit.

I E 446. Geometric Variability in Manufacturing. (Dual-listed with 546). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: I E 348, or Mat E 341, or M E 324.* Assessment, accommodation, and control of geometric variability of manufacturing processes. Use of CMMs, vision and scanning systems, and prolifometers. Techniques to successfully accommodate variation through design of product, tooling or process plan including plastic injection molding, metalcasting, welding, machining, powder metallurgy. Methodologies to control geometric variability. Nonmajor graduate credit.

I E 448. Manufacturing Systems Engineering. (3-0) Cr. 3. S. *Prereq: 248 or similar manufacturing experience, 305.* Fixturing and tooling requirements for manufacturing process planning, geometric dimensioning and tolerancing, computer aided inspection, cellular and flexible manufacturing, and facility layout. The role of these topics in supporting lean manufacturing will be integrated throughout the course. Nonmajor graduate credit. Nonmajor graduate credit.

I E 449. Computer Aided Design and Manufacturing. (Dual-listed with 549). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 248, some experience with theory of matrices.* Representation and interpretation of curves, surfaces and solids. Parametric curves and surfaces and solid modeling. Use of CAD software and CAD/CAM integration. Computer numerical control, CNC programming languages, and process planning.

I E 466. Multidisciplinary Engineering Design. (Cross-listed with A. E, Aer E, Cpr E, E E, Engr, Mat E, M E). (1-4) Cr. 3. Repeatable. F.S. *Prereq: Student must be within two semesters of graduation and receive permission of instructor.* Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

I E 481. e-Commerce Systems Engineering. (Dual-listed with 581). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 148.* Design, analysis, and implementation of e-commerce systems. Information infrastructure, enterprise models, enterprise processes, enterprise views. Data structures and algorithms used in e-commerce systems, SQL, exchange protocols, client/server model, web-based views.

I E 483. Knowledge Discovery and Data Mining. (Dual-listed with 583). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 148, 312, and Stat 231.* Introduction to data warehouses and knowledge discovery. Techniques for data mining, including probabilistic and Statistical methods, genetic algorithms and neural networks, visualization techniques, and Mathematical programming. Advanced topics include web-mining and mining of multimedia data. Case studies from both manufacturing and service industries. A computing project is required. Nonmajor graduate credit.

I E 490. Independent Study. Cr. arr. Repeatable. *Prereq: Senior classification, permission of instructor.* Independent study and work in the areas of industrial engineering design, practice, or research.
A. Manufacturing
B. Human Factors
C. Operations Research
D. Enterprise Computing and Information Management
E. Engineering Management
H. Honors

I E 498. Cooperative Education. Cr. R. Repeatable. F.S.SS. *Prereq: 298, permission of department and Engineering Career Services.* Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work. Satisfactory-fail only.

Courses primarily for graduate students, open to qualified undergraduate students

I E 501. M.S. Research Basics and Communications. Cr. R. Repeatable. Principles and practices for research tasks at the M.S. level including proposal writing, presentations, paper preparation, and project management.

I E 503. Introduction to Sustainable Production Systems. (Dual-listed with 403). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Credit or enrollment in 341.* Quantitative introduction of sustainability concepts in production planning and inventory control. Review of material recovery (recycling) and product/component recovery (remanufacturing) from productivity perspectives. Sustainability rubrics ranging from design and process to systems. Application to multi-echelon networks subject to forward/backward flow of material and information. Closed-loop supply chains. Comparative study of sustainable vs. traditional models for local and global production systems. A course project is required for graduate credit.

I E 508. Design and Analysis of Allocation Mechanisms. (3-0) Cr. 3. *Prereq: 312 or Math 307.* Market-based allocation mechanisms from quantitative economic systems perspective. Pricing and costing models designed and analyzed with respect to decentralized decision processes, information requirements, and coordination. Case studies and examples from industries such as regulated utilities, semiconductor manufacturers, and financial engineering services.

I E 510. Network Analysis. (3-0) Cr. 3. *Prereq: 312. Form*ulation and solution of deterministic network flow problems including shortest path, minimum cost flow, and maximum flow. Network and graph formulations of combinatorial problems including assignment, matching, and spanning trees. Introduction to deterministic and stochastic dynamic programming.

I E 513. Analysis of Stochastic Systems. (3-0) Cr. 3. *Prereq: Stat 231.* Introduction to modeling and analysis of manufacturing and service systems subject to uncertainty. Topics include the Poisson process, renewal processes, Markov chains, and Brownian motion. Applications to inventory systems, production system design, production scheduling, reliability, and capacity planning.

I E 514. Production Scheduling. (3-0) Cr. 3. *Prereq: 312, 341.* Introduction to the theory of machine shop systems. Complexity results for various systems such as job, flow and open shops. Applications of linear programming, integer programming, network analysis. Enumerative methods for machine sequencing. Introduction to stochastic scheduling.

I E 519. Simulation Modeling and Analysis. (3-0) Cr. 3. *Prereq: Com S 311, Stat 401.* Event scheduling, process interaction, and continuous modeling techniques. Probability and Statistics related to simulation parameters including run length, inference, design of experiments, variance reduction, and stopping rules. Aspects of simulation languages.

I E 531. Quality Control and Engineering Statistics. (Cross-listed with Stat). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Stat 401; Stat 342 or 447.* Wu. Statistical methods and theory applicable to problems of industrial process monitoring and improvement. Statistical issues in industrial measurement; Shewhart, CUSUM, and other control charts; feedback control; process characterization studies; estimation of product and process characteristics; acceptance sampling, continuous sampling and sequential sampling; economic and decision theoretic arguments in industrial Statistics.

I E 533. Reliability. (Cross-listed with Stat). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Stat 342 or 432 or 447.* Meeker. Probabilistic modeling and inference in reliability; analysis of systems; Bayesian aspects; product limit estimator, probability plotting, maximum likelihood estimation for censored data, accelerated failure time and proportional hazards regression models with applications to accelerated life testing; repairable system data; planning studies to obtain reliability data.

I E 534. Linear Programming. (3-0) Cr. 3. *Prereq: 312.* Develop linear models. Theory and computational aspects of the simplex method. Duality theory and sensitivity analysis. Introduction to interior point methods and column generation. Multiobjective linear programs.

I E 537. Reliability and Safety Engineering. (3-0) Cr. 3. *Prereq: Stat 231 or Stat 401.* Mathematical basics for dealing with reliability data, theory, and analysis. Bayesian reliability analysis. Engineering ethics in safety evaluations. Case studies of accidents in large technological systems. Fault and event tree analysis.

I E 541. Inventory Control and Production Planning. (3-0) Cr. 3. *Prereq: 341.* Economic Order Quantity, dynamic lot sizing, newsboy, base stock, and (Q,r) models. Material Requirements Planning, Just-In-Time (JIT), variability in production systems, push and pull production systems, aggregate and workforce planning, and capacity management.

I E 545. Rapid Prototyping and Manufacturing. (3-0) Cr. 3. *Prereq: 248 or similar manufacturing experience.* Introduction to rapid prototyping processes and other rapid manufacturing methodologies. Operating principles and characteristics of current and developing rapid prototyping processes. Use of rapid prototypes in product design, development, and service. Selection of rapid prototyping systems based on rapid methodologies used in manufacturing processes and rapid tooling approaches.

I E 546. Geometric Variability in Manufacturing. (Dual-listed with 446). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: I E 348, or Mat E 341, or M E 324.* Assessment, accommodation, and control of geometric variability of manufacturing processes. Use of CMMs, vision and scanning systems, and prolifometers. Techniques to successfully accommodate variation through design of product, tooling or process plan including plastic injection molding, metalcasting, welding, machining, powder metallurgy. Methodologies to control geometric variability.

I E 549. Computer Aided Design and Manufacturing. (Dual-listed with 449). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 248, some experience with theory of matrices.* Representation and interpretation of curves, surfaces and solids. Parametric curves and surfaces and solid modeling. Use of CAD software and CAD/CAM integration. Computer numerical control, CNC programming languages, and process planning.

I E 561. Continuous Quality Improvement of Process. (3-0) Cr. 3. *Prereq: 361.* Methods for continuous quality improvement in process analysis. The systems analysis for process improvement model based on W. Edwards Deming. Quality function deployment methods. Case studies of applications to manufacturing and other heavy industries. Use of process analysis computerized programs and tools for design analysis.

I E 565. Systems Engineering and Analysis. (Cross-listed with Aer E, E E). (3-0) Cr. 3. *Prereq: Coursework in basic Statistics.* Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test and evaluation, and systems engineering planning and organization. Not available for degrees in industrial engineering.

I E 566. Applied Systems Engineering. (3-0) Cr. 3. *Prereq: 565.* Design for reliability, maintainability, usability, supportability, producibility, disposability, and life cycle costs in the context of the systems engineering process. Students will be required to apply the principles of systems engineering to a project including proposal, program plan, systems engineering management plan, and test and evaluation plan. Not available for degrees in industrial engineering.

I E 570. Systems Engineering and Project Management. (3-0) Cr. 3. *Prereq: Coursework in basic Statistics.* Systems view of projects and the processes by which they are implemented. Focuses on qualitative and quantitative tools and techniques of project management. Specific systems concepts, methodologies, and tools for effective management of both simple and complex projects. Introduction of important performance parameters for planning, cost control, scheduling, and productivity, including discussions of traditional and state of the art tools and systems.

I E 571. Occupational Biomechanics. (3-0) Cr. 3. *Prereq: EM 274, Stat 231.* Anatomical, physiological, and biomechanical bases of physical ergonomics. Anthropometry, body mechanics, strength of biomaterials, human motor control. Use of bioinstrumentation, passive industrial surveillance techniques and active risk assessment techniques. Acute injury and cumulative trauma disorders. Static and dynamic biomechanical modeling. Emphasis on low back, shoulder and hand/wrist biomechanics.

I E 572. Design and Evaluation of Human-Computer Interaction. (3-0) Cr. 3. *Prereq: 577.* Human factors methods applied to interface design, prototyping, and evaluation. Concepts related to understanding user characteristics, usability analysis, methods and techniques for design and evaluation of the interface. The evaluation and design of the information presentation characteristics of a wide variety of interfaces: web sites (e-commerce), computer games, information presentation systems (cockpits, instrumentation, etc.), and desktop virtual reality.

I E 576. Human Factors in Product Design. (3-0) Cr. 3. *Prereq: 577.* Investigation of the human interface to consumer and industrial systems and products, providing a basis for their design and evaluation. Discussions of human factors in the product design process: modeling the human during product use; usability; human factors methods in product design evaluation; user-device interface; safety, warnings, and instructions for products; considerations for human factors in the design of products for international use.

I E 577. Human Factors. (3-0) Cr. 3. *Prereq: 271, Stat 231 or 401.* Physical and psychological factors affecting human performance in systems. Signal detection theory, human reliability modeling, information theory, and performance shaping applied to safety, reliability, productivity, stress reduction, training, and human/equipment interface design. Laboratory assignments related to system design and operation.

I E 581. e-Commerce Systems Engineering. (Dual-listed with 481). (3-0) Cr. 3. *Prereq: 148.* Design, analysis, and implementation of e-commerce systems. Information infrastructure, enterprise models, enterprise processes, enterprise views. Data structures and algorithms used in e-commerce systems. SQL, exchange protocols, client/server model, web-based views.

I E 582. Enterprise Modeling and Integration. (3-0) Cr. 3. *Prereq: 3 credits in information technology or information systems.* The design and analysis of enterprise models to support information engineering of enterprise-wide systems. Representation of system behavior and structure including process modeling, information modeling, and conceptual modeling. Applications in enterprise application integration, enterprise resource planning systems, product data management systems, and manufacturing execution systems.

I E 583. Knowledge Discovery and Data Mining. (Dual-listed with 483). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 148, 312, and Stat 231.* Introduction to data warehouses and knowledge discovery. Techniques for data mining, including probabilistic and Statistical methods, genetic algorithms and neural networks, visualization techniques, and Mathematical programming. Advanced topics include web-mining and mining of multimedia data. Case studies from both manufacturing and service industries. A computing project and an additional project with more theoretical content are required.

I E 585. Requirements Engineering. (3-0) Cr. 3. *Prereq: 3 credits in information technology or information systems.* Principles and practices for requirements engineering as part of the product development process with emphasis on software systems engineering. Problem definition, problem analysis, requirements analysis, requirements elicitation, validation, specifications. Case studies using requirements engineering methods and techniques.

I E 588. Information Systems for Manufacturing. (3-0) Cr. 3. *Prereq: 148, 448.* Design and implementation of systems for the collection, maintenance, and usage of information needed for manufacturing operations, such as process control, quality, process definition, production definitions, inventory, and plant maintenance. Topics include interfacing with multiple data sources, methods to utilize the information to improve the process, system architectures, and maintaining adequate and accurate data for entities internal and external to the enterprise to achieve best manufacturing practices.

I E 590. Special Topics. Cr. arr. Repeatable. Advanced study of a research topic in the field of industrial engineering.

I E 599. Creative Component. Cr. arr. Repeatable.

A. Industrial Engineering
C. Operations Research

Courses for graduate students

I E 601. Ph.D. Research Basics and Communications. Cr. R. Repeatable. Principles and practices for conducting research at the Ph.D. level, including problem definition, proposal writing, presentations, conference proceedings, paper preparation, and project management.

I E 613. Stochastic Production Systems. (3-0) Cr. 3. *Prereq: 513.* Modeling techniques to evaluate performance and address issues in design, control,

and operation of systems. Markov models of single-stage make-to-order and make-to-stock systems. Approximations for non-Markovian systems. Impact of variability on flow lines. Open and closed queuing networks.

I E 631. Nonlinear Programming. (3-0) Cr. 3. *Prereq: 534.* Develop nonlinear models, convex sets and functions, optimality conditions, Lagrangian duality, unconstrained minimization techniques. Constrained minimization techniques covering penalty and barrier functions, sequential quadratic programming, the reduced gradient method.

I E 632. Integer Programming. (3-0) Cr. 3. *Prereq: 534.* Integer programming including cutting planes, branch and bound, and Lagrangian relaxation. Introduction to complexity issues and search-based heuristics.

I E 642. Simultaneous Engineering in Manufacturing Systems. (3-0) Cr. 3. *Prereq: 549 or M E 415.* Current engineering methods for the product life cycle process. Feature-based design, computer-aided process planning, and data-driven product engineering.

I E 690. Advanced Topics. Cr. arr. Repeatable. *Prereq: Permission of the instructor.* Advanced topics related to Ph.D. research in industrial engineering under the direction of the instructor.

I E 697. Engineering Internship. Cr. R. Repeatable. F.S.SS. *Prereq: Permission of department.* Professional work period for a maximum of one semester per academic year. Satisfactory-fail only.

I E 699. Research. Cr. arr. Repeatable.
A. Industrial Engineering
C. Operations Research

Information Assurance

www.iac.iastate.edu

(Interdepartmental Graduate Major)

Supervisoy Committee: D. Jacobson (Chair), C. Bergman, J. McCormick, J. Wong.

Work is offered for the degree Master of Science with a major in information assurance under a cooperative arrangement with various departments including Electrical and Computer Engineering, Computer Science, Political Science, Logistics, Operations, and Management Information Systems, Mathematics, Industrial and Manufacturing Systems Engineering. Students graduating from the major will help to fill the need for well-educated system security specialists in the government, private sector, and academia. The program objectives identified as being critical to the accomplishment of this mission are: (1) Impart and enhance knowledge about information infrastructure security; (2) Expand and develop ability to engineer complex systems; (3) Instill and nurture social awareness, and the ability to function in a team; (4) Instill and nurture a sense of ethics; and (5) Develop an understanding of strategic and policy issues.

Students interested in the interdepartmental major apply and are admitted to both a home department (the department that is most closely aligned with the student's research interest and background) and to the program. The home department sets the admission standards, course requirements, and thesis standards.

The program is broadly based and uses courses in the various departments. The program will consist of 24 course credits with 6 credits of research work for a Master of Science with thesis. A non-thesis Master of Science will consist of 27 credits of courses and 3 credits of creative component. The courses are divided into three categories: core, electives, and thesis research.

A student's Program of Study Committee, in consultation with the student, determines the elective courses to be taken and the acceptability of transfer credits. The major professor will be selected from the discipline where the student is admitted (home department).

The basic prerequisite for admission to this program is a baccalaureate degree in engineering, mathematics, computer science, management information systems, political science, or closely related field. The GRE or GMAT examination may be required based on the standards of the home department. If the GRE or GMAT is not required it will be considered in admissions decisions if offered. Potential students with baccalaureate degrees in the physical sciences, statistics, or other related fields will be considered on an individual basis, possibly with provisional admission. The degree awarded is a master of science in information assurance.

A graduate certificate in Information Assurance is offered, which consists of four courses (12 credits) (InfAs 530, 531, 532, (533 or 535)).

For additional information students should contact the chair of the Supervisory Committee, 2215 Coover Hall, ISU, Ames, Iowa 50011, or www.iac.iastate.edu.

Courses for graduate students

InfAs 530. Advanced Protocols and Network Security. (Cross-listed with Cpr E). (3-0) Cr. 3. *Prereq: Cpr E 381.* Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols, IP routing, network security issues. Emphasis on laboratory experiments.

InfAs 531. Information System Security. (Cross-listed with Cpr E). (3-0) Cr. 3. *Prereq: Cpr E 489 or 530 or Com S 586 or MIS 535.* Computer and network security: basic cryptography, security policies, multilevel security models, attack and protection mechanisms, legal and ethical issues.

InfAs 532. Information Warfare. (Cross-listed with Cpr E). (3-0) Cr. 3. *Prereq: Cpr E 531.* Computer system and network security: implementation, configuration, testing of security software and hardware, network monitoring. Authentication, firewalls, vulnerabilities, exploits, countermeasures. Ethics in information assurance. Emphasis on laboratory experiments.

InfAs 533. Cryptography. (Cross-listed with Math, Cpr E). (3-0) Cr. 3. S. *Prereq: Math 301 or Cpr E 310 or Com S 330.* Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

InfAs 534. Legal and Ethical Issues in Information Assurance. (Cross-listed with Cpr E, Pol S). (3-0) Cr. 3. S. *Prereq: Graduate classification, Cpr E or InfAs 531.* Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.

InfAs 535. Steganography and Watermarking. (Cross-listed with Math, Cpr E). (3-0) Cr. 3. S. *Prereq: Cpr E 531 or E E 524 or Math 533/Cpr E 533/InfAs 533.* Basic principles of steganography and watermarking. Algorithms based on spatial domain approaches, transformations of data, statistical approaches. Techniques for images, video, and audio data. Communications models for data hiding. Analysis, detection and recovery of hidden data. Military, commercial and e-commerce applications. Known theoretical results. Software packages for data hiding. Social and legal issues, case studies, and digital rights management issues that affect technological development of steganography and watermarking. Current developments in the area.

InfAs 536. Computer and Network Forensics. (Cross-listed with Cpr E). (3-0) Cr. 3. *Prereq: Cpr E 381 and Cpr E 489 or 530.* Fundamentals of computer and network forensics, forensic duplication and analysis, network surveillance, intrusion detection and response, incident response, anonymity and pseudonymity, privacy-protection techniques, cyber law, computer security policies and guidelines, court testimony and report writing, and case studies. Emphasis on hands-on experiments.

InfAs 592. Seminar in Information Assurance. Cr. arr. Repeatable. *Prereq: Permission of instructor.* Projects or seminar in Information Assurance.

InfAs 632. Information Assurance Capstone Design. (Cross-listed with Cpr E). (3-0) Cr. 3. *Prereq: 531, 532, 534.* Capstone design course which integrates the security design process. Design of a security policy. Creation of a security plan. Implementation of the security plan. The students will attach each other's secure environments in an effort to defeat the security systems. Students evaluate the security plans and the performance of the plans. Social, political and ethics issues. Student self-evaluation, journaling, final written report, and an oral report.

InfAs 697. Information Assurance Summer Internship. Cr. R. *Prereq: Permission of department, graduate classification.* One semester and one summer maximum per academic year professional work period. Satisfactory-fail only.

Interdisciplinary Graduate Studies

www.grad-college.iastate.edu/igs/

(Interdepartmental Graduate Program)

Supervisory Committee: G. A. Jackson, Chair; J. Courteau (Arts and Humanities), J. Mayfield (Biological and Physical Sciences), G. A. Jackson (General), S. Freeman (International Development Studies), S. J. Crase, (Social Sciences), C. Flora (Community Development)

The degree of master of science or master of arts with major in interdisciplinary graduate studies is available to graduate students who wish to have a more diversified program of advanced study than that generally permitted students who specialize in a single subject. Areas of specialization in arts and humanities, biological sciences, international development studies, physical sciences, social sciences, community development (see below) and a general area are designed to broaden and supplement a student's program. Students must take courses in three different graduate subject matter areas, each subject contributing a minimum of nine credits toward the 35 graduate credits required for the degree. Courses which may be used for credit toward this degree program are selected from those listed in the Graduate College Catalog for graduate credit.

Both thesis and nonthesis options are available except in arts and humanities in which a thesis is required. If the thesis option is chosen, a minimum of three credits of IGS 699 (Research) is required and a maximum of five credits of IGS 699 may be counted in the total of 35 required credits. If the nonthesis option is elected, evidence of original creative effort must be presented. This may be in the form of a demonstration of independent creativity such as a written report of laboratory, field, or library research; a project in fine arts; or some other original contribution acceptable to the student's committee. In the nonthesis option a minimum of three credits of IGS 599 (Creative Component) is required and a maximum of five credits of IGS 599 may be counted toward the total of 35 graduate credits. The student, in consultation with the program of study committee, will decide on the option. The committee also aids the student in planning a program of study and in selecting appropriate courses. Graduates will have

experience in designing their own program centered around issues they have identified. Because of the interdisciplinary nature of IGS, students are expected to synthesize knowledge from three different areas of study.

Students who wish to apply for admission to interdisciplinary graduate studies should communicate with the chair of the program, the chair of the supervisory committee or one of its members (see above).

Students in IGS may select a 37-credit area of specialization in Community Development. The Community Development area of specialization, offered in collaboration with five other universities in the Great Plains Interactive Distance Education Alliance, is offered exclusively through courses on the Web.

Courses for graduate students

IGS 599. Creative Component. Cr. arr. Repeatable.

IGS 699. Thesis Research. Cr. arr. Repeatable.

Interdisciplinary Studies

www.las.iastate.edu/academics/interdisciplinarystudies.shtml

(Interdepartmental undergraduate major administered by the College of Liberal Arts and Sciences)

A major in interdisciplinary studies is offered in the College of Liberal Arts and Sciences for undergraduate students who have unique interdisciplinary educational goals. The student, a faculty review board, and an academic adviser design the major. Leading to either the bachelor of arts or the bachelor of science degree, the major includes 36 to 48 credits of coursework chosen to provide a coherent, carefully planned program in an area of interest that bridges two or more departments. This specialized area is identified on the diploma. Learning goals are individually crafted for each proposed major.

A degree in Interdisciplinary Studies may be particularly attractive to students who wish to develop an area of interest based upon one of the College's cross-disciplinary programs. Areas of interest in Interdisciplinary Studies have included Classical Studies, Criminology and Criminal Justice, International Relations, Ecology Studies, African American Cultural Studies, Asian Studies, and U.S. Latino/a Studies.

A student seeking admission to the program in interdisciplinary studies writes a letter of application that explains how the proposed major meets specific educational and learning goals. A faculty review board screens applications. Since students are expected to earn at least 30 credits after they are admitted into the program, the proposal is ordinarily submitted to the review board in the sophomore or junior year. The proposal will be considered if the area of interest properly falls within the College of Liberal Arts and Sciences and if the student's educational goals cannot be met by a more traditional combination of existing majors, minors, and electives.

The interdisciplinary studies major must satisfy the requirements of the liberal arts and sciences curriculum in the College of Liberal Arts and Sciences. A major emphasizing the humanities or communicative arts normally leads to a B.A.; a major emphasizing the natural or social sciences normally leads to a B.S. Different requirements for the B.A. and B.S. degrees are determined by the nature of the chosen field of study. Courses listed in the individualized major may come from any department of the university with the following restrictions:

1. The selection of courses needs to focus on a single theme and be consistent with the career and educational goals of the student.

2. At least one half of the courses in the major will come from departments within the College of Liberal Arts and Sciences.

3. The courses will be chosen from at least two disciplines.

All courses in the major must be at the 200-level or higher. At least 15 credits must be at the 300-level or higher with at least 6 credits at the 400-level or higher. An average grade of C or better must be earned in 15 credits at the 300-level or higher in the major. To meet the English and communication proficiency requirement, a grade of C or better must be earned in either an advanced English composition course or a course in the major with a significant writing component.

Further information may be obtained from the college office.

International Agriculture

www.ageds.iastate.edu/intrnlag/index.htm

(Interdepartmental Undergraduate Program)

Supervisory Committee: Robert A. Martin, Chair; Michael D. Kenealy, Ebby Luvaga

The international agriculture program provides opportunities to develop knowledge and skills related to the factors that interact to impact agricultural and environmental issues, production, processes, distribution and utilization worldwide. The program puts emphasis on international experience through structured internships and study abroad. The international agriculture program is appropriate for students seeking positions that require knowledge and experience related to global agricultural issues and their impact on local, regional, national and international policies and practices. Students preparing for careers in the following areas will benefit from the international agriculture program; governmental and non-governmental development agencies, agribusinesses, educational institutions, and non-profit assistance agencies. Outcomes from participation in this program include developing an awareness for the role of international agriculture in the career development process, analyzing international agricultural issues and policies, acquiring skills for solving problems in international development and agribusiness and experiencing real situations and gaining perspectives about agriculture in a global setting.

Secondary Major

International agriculture is an undergraduate secondary major that may be taken only in conjunction with a primary major in an agriculture and life sciences curriculum. Students choosing international agriculture will strengthen their career placement with a business or agency involved in international activities. Technical knowledge of a primary major discipline will be strengthened by a global awareness of agriculture and life sciences. A secondary major in international agriculture will give students practical insight into the role of agriculture in a world of increasing food and fiber needs. It is ideal for those who wish to broaden their international perspective or prepare for international work in agriculture. The secondary major includes an emphasis on international internship or study abroad and/or foreign languages, and selection of appropriate courses (from an approved list) to meet the needs and interests of the student.

Courses for the secondary major include Agron 342; six credits of study abroad, travel, or language courses or any combination thereof; and six credits in selected international agriculture courses in the College of Agriculture and Life Sciences. Fifteen credits of the secondary major cannot be used to meet requirements of the major or any other college or university requirement.

See *International Agriculture, Curriculum*, for the specific program. Students interested in earning a secondary major in international agriculture must contact a program adviser. The early indication of an interest in international agriculture allows for effective integration of the secondary major course requirements with those of the primary major.

Minor

A minor in international agriculture is available to interested students regardless of their major. Students selecting the minor should have at least minimal familiarity with agriculture and life sciences and agricultural systems.

Courses for the minor include Agron 342; 3 to 6 credits of study abroad and/or foreign language and 3 to 6 credits in selected international agriculture courses in the College of Agriculture and Life Sciences. Nine credits of the 15 credit total for the minor can not be used for meeting requirements for the major.

For more information about a secondary major or minor in international agriculture, see descriptions in the designated departments or the supervisory committee.

For more information about courses for either a secondary major or a minor in international agriculture, see descriptions in the designated departments.

International Business

Interdepartmental Undergraduate Secondary Major

Supervisory Committee: Dr. Ann Coppernoll-Farni (contact person) and others annually appointed by College.

The international business program is designed to provide students with information that will enable them to work for companies that are involved with international business. Students are expected to develop an understanding of international business issues applied to the different functional areas of business. They will also develop skills to prepare themselves for business positions with international responsibilities. The program is designed to prepare students for employment in multinational companies and for business assignments beyond the United States.

International business is an undergraduate secondary major that may be taken only in conjunction with a primary major in business. Technical knowledge of international business will strengthen the expertise acquired with the primary major. Business students pursuing this program should strengthen their placement opportunities with multinational corporations.

A student in the College of Business may earn a secondary major in International Business. The requirements for this major include 12 credits in international business courses, one year of the same university-level foreign language (minimum of 6 credits) and an approved international experience (minimum 3 months). Students who pursue this secondary major will be required to complete the requirements for a primary major in Business. Fifteen of the 18 credits required for the International Business major must not be used for the primary major.

International Studies

www.las.iastate.edu/international/major.shtml

(InterdepartmentalUndergraduate Major and Minor, Administered by the College of Liberal Arts and Sciences)

Director: Dawn Bratsch-Prince

Faculty Steering Committee: Charles Dobbs, Chad Gasta, Hsain Ilahaine, Olga Mesropova, Thomas Waldemer.

Undergraduates completing the International Studies major understand the interconnections between local and global issues and events. They can integrate their understanding of a selected global issue with knowledge of the major culture, values, and problems of a selected geographical area. They can communicate with persons of cultures other than their own and, in so doing, appreciate the impact of their own cultural and educational experience on their perception of the world. The international studies program provides opportunities for students to develop skills and understanding about international events and problems, and global issues. The program is designed for students who wish to prepare for work or advanced study in the international arena, such as in foreign service, journalism, advocacy organizations, scientific or research institutions, business, nongovernmental development organizations (NGOs), humanitarian agencies, environmental organizations, human rights organizations, think tanks, international agriculture, engineering, and other fields.

A secondary major and a minor in International Studies are available for undergraduates. The program requirements are structured around a combination of a designated Topical Module and a Geographic Regional Studies Component. Each student's program of study is designed to reflect programmatic opportunities at Iowa State University and the academic, intellectual, and professional interests of the student.

Secondary Major

A student seeking a secondary major in International Studies must successfully complete a minimum of 27 semester credits in courses approved for use in the International Studies program, including: IntSt 235, 430; 21 credits in courses approved for the International Studies program, with a minimum of 9 credits (at least 6 of which are numbered 300 or above) in a designated Topical Module and a minimum of 9 credits (at least 6 of which are numbered 300 or above) in a Geographic Regional Studies Component; Fulfillment of Language Proficiency (see below); study abroad.

The major must include a minimum of 12 credits not used to meet any other department, college, or university requirement.

Minor

A student seeking a minor in International Studies must successfully complete a minimum of 18 semester credits in courses approved for use in the International Studies program, including: IntSt 235, IntSt 430; 12 credits in courses approved for the International Studies program, with a minimum of 6 credits (at least 3 of which are numbered 300 or above) in a designated Topical Module and a minimum of 6 credits (at least 3 of which are numbered 300 or above) in a Geographic Regional Studies Component; Fulfillment of Language Proficiency (see below); study abroad.

The minor must include a minimum of 9 credits not used to meet any other department, college, or university requirement.

Language Proficiency

Students with a major or minor in International Studies fulfill the Language Proficiency requirement through one of the following options:

•Completion of two years of university-level language instruction in a single, appropriate foreign language, as demonstrated by a foreign language course numbered 202 or higher. Students whose first language is other than English fulfill Language Proficiency with Engl 250 at a grade of "C" or better.

•Passing an examination given by the Dept. of World Languages and Cultures or otherwise certifying proficiency equivalent to two years of college instruction. Students proficient in languages not offered at ISU may petition for special consideration.

•Intensive study abroad experience that includes in-the-field-use of a language other than English (individual prior approval of committee required for this option).

A. Topical Modules
•Global Environmental Issues
•Globalization and Economic Development
•International Issues in Science and Technology
•International Communication
•International Conflict
•Social and Cultural Change

B. Geographic Regional Studies Component
•Africa and Middle East
•Asia
•Latin America
•Western Europe
•Russia, East Europe and Central Asia

International Studies students are required to participate in study and/or work abroad programs. Students may petition to use up to 9 credits in the major (6 credits in the minor) earned in study abroad and/or international internship programs to substitute for courses within the Topical Module, Geographic Regional Studies Component, and/or Language Proficiency requirements.

Courses primarily for undergraduate students

IntSt 235. Introduction to International Studies. (3-0) Cr. 3. F.SS. Overview of international studies, emphasizing cultural, geographic, economic, and political characteristics of major world areas and nations.

IntSt 350. Topics in International Studies. Cr. arr.

IntSt 430. Seminar in International Studies. (3-0) Cr. 3. S. Capstone seminar in international studies focused on economic development, women's issues, war and ethnic conflict, population, the environment, globalization, human rights, international trade and business and other issues. Students develop a project on a subject linked to their area of professional interest or academic specialization.

IntSt 446. International Issues and Challenges in Sustainable Development. (Cross-listed with Agron, Globe). Cr. 4. S. *Prereq: 3-credit biology course, Sophomore or higher classification, permission of Instructor.* Mullen. Interdisciplinary study and analysis of agricultural, biophysical, environmental, sociological, economical, political, and historical factors affecting sustainable development of communities and countries from art and science perspectives. International field experience with foreign language training required. A program fee is charged to students for international study abroad.

IntSt 490. Independent Study. Cr. arr. Repeatable. *Prereq: Permission of International Studies Advisory Committee Chair and faculty supervisor.* Designed to meet the needs of students who wish to study in areas other than those in which courses are offered or to integrate areas of study appropriate to special problems with international foci. No more than 3 credits of IntSt 490 may be used in the International Studies major or minor..

Iowa Lakeside Laboratory

www.lakesidelab.org

(Interinstitutional Program)

Participating Faculty: Neil P. Bernstein (Biology, Mount Mercy College), Bonnie S. Bowen (Ecology, Evolution and Organismal Biology, Iowa State University), C. Lee Burras (Agronomy, Iowa State University), C. Arthur Croyle (Art and Design, Iowa State University), John F. Doershuk (Anthropology, University of Iowa, and State Archaeologist), Mark B. Edlund (Science Museum of Minnesota, St. Croix Watershed Research Station), Jim Heynen (English, St. Olaf College), Laura L. Jackson (Biology, University of Northern Iowa), Stephen Juggins, (School of Geography, Politics & Sociology, University of Newcastle, UK), Kenneth L. Lang (Biological Sciences, Humboldt State University), Michael J. Lannoo (Muncie Center for Medical Education, Ball State University), William R. Norris (Natural Sciences, Western New Mexico University), Clay L. Pierce (Natural Resource Ecology and Management, Iowa State University), Thomas R. Rosburg (Biology, Drake University), Daryl D. Smith (Native Roadside Vegetation Center, University of Northern Iowa), Sarah A. Spaulding (Inst. of Arctic & Alpine Research, University of Colorado), Lois H. Tiffany (Ecology, Evolution and Organismal Biology, Iowa State University), Arnold van der Valk (Ecology, Evolution, and Organismal Biology), James L. Wee (Biological Sciences, Loyola University).

Iowa Lakeside Laboratory is run cooperatively by the Iowa Lakeside Laboratory Consortium whose members include Drake University, Iowa State University, the University of Northern Iowa, and the University of Iowa. Lakeside courses can be taken for credit through all Consortium members. Students should check with their advisers to determine whether Lakeside courses can be used to satisfy major or minor requirements or college or university general education requirements.

The Laboratory was established in 1909 for the conservation and study of the rich flora and fauna of northwest Iowa, especially those of the Iowa Great Lakes region with its numerous lakes, wetlands, and prairies. Its campus is located on approximately 140 acres of restored prairie, wetland, and gallery forest along the west shore of West Okoboji Lake. Lakeside's mission is to provide undergraduate and graduate students an opportunity to get hands-on experience working with a variety of natural and human environments through its field-oriented summer courses and to provide research facilities and support for graduate students and faculty working on research projects in northwestern Iowa. Each summer, Iowa Lakeside Laboratory offers students a unique educational experience: small, full-immersion, field-oriented courses in the natural sciences (archaeology, ecology, environmental science, hydrology, evolution, geology, soils, taxonomy). All courses meet all day from Monday through Friday. The majority of courses run for 4 weeks. Enrollments in most courses are limited to 8 to 10 students. Courses are taught at the undergraduate (sophomore and junior) and the senior/graduate level. Students obtain one credit for each week (40 hours) in class. One and two week courses are also available, including courses designed especially for teachers. Weather permitting, students normally spend at least part of each day doing field work, either as part of their class work or working on individual or group projects. Because some courses are offered intermittently, the current Iowa Lakeside Laboratory summer brochure or the Lakeside Lab Website (www.lakesidelab.org) should be consulted for the list of courses being offered in a given summer session. The Lakeside Lab Website

(www.lakesidelab.org) also contains additional information about the Laboratory and about each course being offered.

Research projects by undergraduates, graduate students and faculty can be done either on the campus or at many nearby natural areas. Undergraduate and graduate students are strongly encouraged to do independent projects at Lakeside and graduate students are welcome to use it as a base for their thesis and dissertation research. Laboratory space and other facilities are available for long-term or short-term research projects.

Teaching and research facilities include eight laboratory buildings, a library, and a lecture hall. Living accommodations include cottages, motel-style units, and a large mess hall. All students are encouraged to stay at Lakeside while they are taking courses to take full advantage of its educational, professional, and social life.

Financial Aid

Iowa Lakeside Laboratory Scholarships are available to both undergraduates and graduate students. All scholarships cover room and board. Information about how to apply for Iowa Lakeside Laboratory Scholarships is included on the Website (www.lakesidelab.org). Students should also consult the Student Financial Aid Office for other scholarship, work study, and loan programs for which they are eligible.

Registration

Students can only enroll in Iowa Lakeside Lab courses by submitting an Iowa Lakeside Lab Registration and Scholarship form and Housing form to the Iowa Lakeside Laboratory Administrative Office. These forms are found on the Iowa Lakeside Laboratory Website: (www.lakesidelab.org) where they can be submitted online or downloaded. For further information, contact

Iowa Lakeside Laboratory
1838 Highway 86
Milford, IA 51351
Phone: (712) 337-3669
FAX: (712) 337-0361
E-Mail: peter-vanderlinden@uiowa.edu

Early registration is advisable. Because enrollment in Lakeside courses is limited, students should register before May 1 for the following summer session. Housing is also limited and students must apply for housing or indicate that they plan to live off campus at the time of registration.

Courses primarily for undergraduate students

Ia LL 302. Plant-Animal Interactions. Cr. 4. Alt. SS., offered 2011. *Prereq: One course in the biological sciences.* Introduction to ecology and co-evolution of plants and animals; emphasis on dispersal, pollination, and plant-herbivore interactions; field and laboratory work, reading, discussion.

Ia LL 303I. Undergraduate Internships. (Cross-listed with NREM). Cr. arr. SS. *Prereq: Permission of instructor and sophomore standing.* Placement with county conservation boards, camps, parks, etc. for experience as interpreters, rangers, and technicians.

Ia LL 312I. Ecology. (Cross-listed with A Ecl, EnSci). Cr. 4. SS. An introduction to the principles of ecology at the population, community and ecosystem level. Field studies of local lakes, wetlands and prairies are used to examine factors controlling distributions, interactions, and roles of plants and animals in native ecosystems.

Ia LL 326I. Ornithology. (Cross-listed with A Ecl). Cr. 4. SS. The biology, ecology, and behavior of birds with emphasis on field studies of local avifauna. Group projects stress techniques of population analysis and methodology for population studies.

Ia LL 364. Biology of Aquatic Plants. Cr. 4. Alt. SS., offered 2010. A field-oriented introduction to the taxonomy and ecology of aquatic plants in lakes, wetlands and rivers. Individual or group projects.

Ia LL 367. Plant Taxonomy. Cr. 4. SS. Principles of classification and evolution of vascular plants; taxonomic tools and collection techniques; use of keys. Field and laboratory studies emphasizing identification of local flowering plants and recognition of major plant families.

Ia LL 371I. Introduction to Insect Ecology. (Cross-listed with Ent). (3-3) Cr. 4. Alt. SS., offered 2011. Field and laboratory study of insects, their diversity, life history; emphasis on ecology and behavior.

Ia LL 402I. Watershed Hydrology and Surficial Processes. (Cross-listed with Agron, EnSci. Cr. 4. SS. *Prereq: Four courses in physical or biological sciences or engineering.* Effects of geomorphology, soils, and land use on transport of water and materials (nutrients, contaminates) in watersheds. Fieldwork will emphasize investigations of the Iowa Great Lakes watershed. Nonmajor graduate credit.

Ia LL 403. Evolution. Cr. 4. SS. Mechanisms and patterns in microevolution and macroevolution. Field exercises will emphasize studies of natural selection, adaptation, genetic variation, and population genetics of local plant and animal populations. Nonmajor graduate credit.

Ia LL 404I. Behavioral Ecology. (Cross-listed with A Ecl). Cr. 4. Alt. SS., offered 2010. *Prereq: Two semesters of biology.* Animal coloniality, courtship, territoriality, predator defense, habitat selection, foraging, mating systems, and parental care will be examined in the field in order to evaluate various ecological and evolutionary theories of animal behavior.

Ia LL 415. Freshwater Invertebrates. Cr. 4. SS. *Prereq: One or more ecology courses.* Field-oriented introduction to the identification, life-history, and ecology of common, free-living freshwater invertebrates of north-temperate lakes, rivers, and wetlands. Emphasis on the role of invertebrates in aquatic food chains and litter processing. Nonmajor graduate credit.

Ia LL 419I. Vertebrate Ecology and Evolution. (Cross-listed with A Ecl). Cr. 4. SS. Field and laboratory study of representative vertebrates of northwestern Iowa. Observations and experimentation emphasize ecological histories by integrating concepts of functional morphology, behavioral ecology, and evolutionary biology. Nonmajor graduate credit.

Ia LL 420I. Amphibians and Reptiles. (Cross-listed with A Ecl). Cr. 4. Alt. SS., offered 2010. *Prereq: Two semesters of biology.* Ecology, behavior, and conservation biology of amphibians and reptiles with emphasis on their anatomy and morphology; temperature and water regulation; locomotion; life history; reproduction; population and community ecology; and conservation.

Ia LL 422I. Prairie Ecology. (Cross-listed with EnSci). Cr. 4. SS. *Prereq: Familiarity with basic principles in biological sciences and ecology.* Basic patterns and underlying physical and biotic causes of both regional and local distributions of plants and animals of North American prairies; field and laboratory analyses and projects. Nonmajor graduate credit.

Ia LL 425I. Aquatic Toxicology and Wetland Dynamics in Freshwater Systems. Cr. 4. SS. *Prereq: Introductory biology course and general chemistry course.* Fundamental knowledge and understanding of the scientific concepts related to the physio-chemical and biological environment. Problems and issues (global, national, regional, and local) associated with freshwater systems and how wetland restoration can be used to ameliorate problems. Discussion and application of basic tools used to assess aquatic toxicological problems. Nonmajor graduate credit.

Ia LL 427I. Archaeology. (Cross-listed with Anthr). Cr. 4. SS. Nature of cultural and environmental evidence in archaeology and how they are used to model past human behavior and land use; emphasis on Iowa prehistory; basic reconnaissance surveying and excavation techniques. Nonmajor graduate credit.

Ia LL 435I. Illustrating Nature I Sketching. (Cross-listed with BPM I). Cr. 2. SS. Sketching plants, animals and terrain. Visual communication, development of a personal style, and integration of typographic and visual elements on a page will be emphasized.

Ia LL 436I. Illustrating Nature II Photography. (Cross-listed with BPM I). Cr. 2. SS. Beginning to intermediate technical and compositional aspects of color photography of natural areas and their plants and animals.

Ia LL 461I. Introduction to GIS. (Cross-listed with EnSci, Env S, L A). Cr. 4. SS. Descriptive and predictive GIS modeling techniques, spatial Statistics, and map algebra. Application of GIS modeling techniques to environmental planning and resource management. Nonmajor graduate credit.

Ia LL 463I. Soil formation and Landscape Relationships. (Dual-listed with 563I). (Cross-listed with Agron, EnSci). Cr. 4. Alt. SS., offered 2010. *Prereq: Agron 154 or 260.* Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Nonmajor graduate credit.

Ia LL 484. Plant Ecology. Cr. 4. SS. Principles of plant population, community, and ecosystem ecology illustrated through studies of native vegetation in local prairies, wetlands and forests. Group or individual projects. Nonmajor graduate credit.

Ia LL 490I. Undergraduate Independent Study. (Cross-listed with Anthr, NREM). Cr. arr. Repeatable. SS. *Prereq: Junior or senior classification and permission of instructor.*

Ia LL 493. Natural History Workshop. Cr. arr. SS. Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.
A. Amphibians and Reptiles
B. Birds and Birding
C. Nature Photography
D. Mushrooms and Other Fungi
E. Iowa's Trees and Forests
F. Fish Biology
G. Prairies
I. Common Insects
J. Aquatic Plants
K. Life in Rivers
L. Life in Lakes
M. Mosses and Liverworts
N. Natural History of Iowa Great Lakes Region
P. Field Archaeology
Q. Common Algae
S. Scuba Diving
T. Astronomy
U. Sketching Nature

Ia LL 494. Ecosystems of North America. Cr. arr. SS. *Prereq: A general ecology course and permission of the instructor.* An extended field trip to study a particular type of ecosystem (prairie, coastal wetland, forest, alpine, coral reefs, etc.) or the ecosystems of a specific region (Rocky Mountains, Gulf Coast, Appalachian Mountains, Deserts of the Southwest, Central America, etc.). Prior to the field trip, there will be an orientation period and after each field trip a review and synthesis period. A field trip fee will be assessed to cover travel expenses. Nonmajor graduate credit.

Ia LL 499. Undergraduate Research. Cr. arr. *Prereq: Junior or senior classification and permission of instructor.*

Courses primarily for graduate students, open to qualified undergraduate students

Ia LL 501I. Freshwater Algae. (Cross-listed with EEOB). Cr. 4. SS. Structure and taxonomy of freshwater algae based on field collected material; emphasis on genus-level identifications, habitats visited include lakes, fens, streams, and rivers; algal ecology.

Ia LL 503. Graduate Internships. Cr. arr. SS. *Prereq: Permission of instructor and graduate standing.* Placement with county conservation boards, camps, parks, schools, etc. For experience as interpreters, rangers, technicians, and teachers.

Ia LL 508I. Aquatic Ecology. (Cross-listed with EnSci, NREM). Cr. 4. SS. *Prereq: Courses in ecology, chemistry, and physics.* Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.

Ia LL 523I. Fish Ecology. (Cross-listed with A Ecl). Cr. 4. Alt. SS., offered 2010. Basic principles of fish interaction with the biotic and abiotic environment. Field methods, taxonomy, and biology of fish with emphasis on the fish fauna of northwestern Iowa.

Ia LL 526I. Advanced Field Ornithology. (Cross-listed with A Ecl). Cr. 2. SS. *Prereq: Concurrent registration in Ia LL 326I.* Field study of birds of the upper Midwest; extended field trip to Minnesota and Wisconsin; individual or group project.

Ia LL 531I. Conservation Biology. (Cross-listed with EEOB, A Ecl). Cr. 4. Alt. SS., offered 2010. *Prereq: Ia LL 312I.* Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.

Ia LL 532. Analysis of Environmental Data. (2-0) Cr. 2. SS. *Prereq: An undergraduate course in statistics, understanding of basic concepts such as correlation and regression, and familiarity with PC-based software for data analysis.* Analysis of Environmental Data will provide students with training in the theory and application of a range of Statistical techniques useful for the analysis of ecological and paleoecological data. Topics will include data management, exploratory data analysis, regression analysis, direct and indirect ordination methods, classification techniques, transfer functions and the analysis of temporal data. Practical classes will provide hands-on training in the use of Statistical and graphical software including R, CANOCO, C2, and TWINSPAN. The course will be directed towards advanced undergraduate, graduate and working professionals in ecology and paleoecology.

Ia LL 535I. Restoration Ecology. (Cross-listed with A Ecl, EnSci, EEOB). Cr. 4. Alt. SS., offered 2010. *Prereq: A course in ecology.* Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

Ia LL 563I. Soil formation and Landscape Relationships. (Dual-listed with 463I).(Cross-listed with Agron, EnSci). Cr. 4. Alt. SS., offered 2010. *Prereq: Agron 154 or 260.* Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use.

Ia LL 564I. Wetland Ecology. (Cross-listed with EnSci, EEOB). Cr. 4. SS. *Prereq: Ia LL 312I.* Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.

Ia LL 573. Techniques for Biology Teaching. (Cross-listed with EEOB, A Ecl). Cr. arr. Repeatable. SS. The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

A. Animal Biology (Same as A Ecl 573A)
B. Plant Biology
C. Fungi and Lichens
D. Aquatic Ecology
E. Prairie Ecology
F. Wetland Ecology
G. Limnology (Same as A Ecl 573G)
H. Animal Behavior (Same as A Ecl 573H)
I. Insect Ecology
J. Biology of Invertebrates
K. Non-invasive Use of Living Organisms
W. Project WET (Same as A Ecl 573W)

Ia LL 575I. Field Mycology. (Cross-listed with EEOB). Cr. 4. Alt. SS., offered 2010. Identification and classification of the common fungi; techniques for identification, preservation, and culture practiced with members of the various fungi groups.

Ia LL 580I. Ecology and Systematics of Diatoms. (Cross-listed with EEOB). Cr. 4. SS. Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characters; project design and execution including construction of reference and voucher collections and data organization and analysis.

Ia LL 590I. Graduate Independent Study. (Cross-listed with A Ecl, Anthr, EEOB). Cr. arr. Repeatable. SS. *Prereq: Graduate classification and permission of instructor.*

Ia LL 593. Natural History Workshop. Cr. arr. *Prereq: Permission of instructor.* Graduate workshop on some aspect of the natural history of the Upper Midwest or on techniques for studying natural history.

Courses for graduate students

Ia LL 699I. Research. (Cross-listed with A Ecl, Anthr, EEOB, GDCB). Cr. arr. Repeatable.

Journalism and Communication, The Greenlee School of

www.jlmc.iastate.edu

Michael Bugeja, Director

Professors: Abbott, Beell, Bugeja, Peterson, Rodriguez, Smith

Professors (Emeritus): Disney, Emmerson, Friederich, Gillette, Kunerth, Shelley, Wechsler

Associate Professors: Geske, Mack, Prior-Miller

Associate Professors (Emeritus): Coon, Fowler, Haws

Assistant Professors: Blevins, Bulla, Chamberlin, Cozma, Dahlstrom, Dimitrova, Groshek, Han, Harms, Lee, Newell, Sar

Senior Lecturers: Wilgenbusch

Lecturers: D. Bugeja, Haag, Monahan, Rouse, Thomas

Clinicians: Ames, Gibson

The Greenlee School of Journalism and Communication offers work for the bachelor of arts in advertising, and the bachelor of science degree in journalism and mass communication. The unit, founded in 1905, has been continuously accredited every six years since 1948 by the Accrediting Council on Education in Journalism and Mass Communications and was last reaccredited in 2004. Accreditation is based on the principle that students need a broad-based, liberal arts education, as well as a solid core of courses within the discipline.

Undergraduate Study

Students who complete degrees in advertising or journalism and mass communication will develop competencies in 12 key areas:

History/role of professionals and institutions: Demonstrate an understanding of the history and role of professionals and institutions in shaping communications;

First Amendment/Law: Understand and apply the principles and laws of freedom of speech and press, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances;

Theory: Understand concepts and apply theories in the use and presentation of images and information;

Research and evaluation: Conduct research and evaluate information by methods appropriate to the communications professions in which they work;

Diversity: Demonstrate an understanding of the diversity of groups in a global society in relationship to communications;

Ethics: Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity;

Critical thinking: Think critically, creatively and independently;

Writing: Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve;

Visual Communication: Conceptualize, prepare or select appropriate methods to convey information in visual form, whether as a complement or supplement to words;

Numeracy: Apply basic numerical and statistical concepts; ***Critical Evaluation/Editing:*** Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;

Tools and technology: Apply tools and technologies appropriate for the communications professions in which they work.

To become an advertising or journalism and mass communication major, the student must 1) have either achieved a score of 26 or higher on the ACT English exam, 590 or higher on the SAT verbal exam, or passed the School's English Usage Test as outlined in the Greenlee School's policy for meeting the English Usage Standard; and 2) have completed the pre-major core requirements (See majors). Until these requirements are successfully completed, advertising and journalism and mass communication students are designated as pre-majors. A copy of the EUT policy, including additional details and requirements, is available from the Greenlee School.

Communication Proficiency Requirement
To meet the University's Communication Proficiency requirement, all majors in the School must earn a grade of C or better in English 150 and 250 (or 250H). These additional requirements apply:

Advrt majors must earn a C+ or better in JI MC 201 and one of Advrt 334 or 336.

JI MC majors must earn a C+ or better in JI MC 201 and 202 or 206 or 321.

The Advertising Major

The advertising major prepares students for careers in business and industry or for graduate education. Students majoring in advertising find career opportunities in professions requiring applied communication expertise. Graduates are qualified for positions in the creative and account sides of advertising within businesses, agencies and media.

To become an advertising major, a student must successfully complete JI MC 101, 110, and 201 (with a C+ or better) and Advrt 230. Until the EUT standard is met and these courses are successfully completed, advertising students are designated as pre-majors. To receive a bachelor of arts degree in advertising, a student must earn at least 120 credits. A minimum of 80 credits must come from courses other than Advrt or JI MC and must include Principles of Marketing, Mkt 340. At least 65 of these credits must come from the liberal arts and sciences, and must include Principles of Statistics, Stat 101, or other approved statistics course, and Fundamentals of Public Speaking, Sp Cm 212. Overall, at least 45 credits must be from 300-level courses or above.

The degree requirements allow for a minimum of 33 and a maximum of 40 credits to be taken in Advrt and JI MC. These include the pre-major core requirements of 9 credits: Mass Media and Society, JI MC 101, 3 credits; Orientation to Journalism and Communication, JI MC 110, required; Reporting and Writing for the Mass Media, JI MC 201, 3 credits; and Principles of Advertising, Advrt 230, 3 credits.

Advrt 301, Strategic Planning for Advertising and Public Relations, JI MC 460 Law of Mass Communication, and JI MC 499 Professional Media Internship, are required of all Advrt majors. Additional recommended courses and requirements for the advertising major are available from the Greenlee School.

Advrt majors need a broad-based academic background that the School seeks to ensure by requiring a Designated Area of Concentration (DAC) made up of 21 credits with at least 12 credits from the 300-level or above. The DAC is a secondary area of expertise made up of courses selected and designed by the student, with adviser approval, to complement the student's professional and academic interests. A second major outside of Advrt or JI MC may substitute for the DAC.

The Journalism and Mass Communication Major

The major in journalism and mass communication prepares students for careers that involve all aspects of news and information. The emphasis is on generating ideas, organizing, writing, editing and presenting information for various media platforms and audiences. Graduates most likely will work in journalism (magazines, newspapers, electronic media or on-line media) and public relations and public information as well as related disciplines that expect articulate and informed writing and presentation. Students work with advisers to develop programs of study designed to prepare them for work in a variety of communication-specific areas: electronic media, print media (magazine and/or newspaper), public relations/public information, science communication or visual communication.

To be a JI MC major, a student must successfully complete JI MC 101, 110 and 201 (with a C+ or better). Until the EUT standard is met and these courses are successfully completed, journalism and mass communication students are designated as pre-majors. To receive a bachelor of science degree in journalism and mass communication, a student must earn at least 120 credits. A minimum of 80 credits must come from courses other than Advrt or JI MC. At least 65 of these credits must come from the liberal arts and sciences and must include Principles of Statistics, Stat 101, or other approved statistics course. Overall, at least 45 credits must be from 300-level or above.

The degree requirements allow for a minimum of 33 and a maximum of 40 credits to be taken in Advrt and JI MC. These include the pre-major core requirements of 6 credits: Mass Media and Society, JI MC 101, 3 credits; Orientation to Journalism and Communication, JI MC 110, required; Reporting and Writing for the Mass Media, JI MC 201, 3 credits.

JI MC 460 Law of Mass Communication and JI MC 499 Professional Media Internship are required of all JI MC majors. Additional recommended courses and requirements for the journalism and mass communication major are available from the Greenlee School.

JI MC majors need a broad-based academic background that the School seeks to ensure by requiring a Designated Area of Concentration (DAC) made up of 21 credits. All courses for the DAC must be taken outside of Advrt and JI MC. At least 12 credits must be from the 300-level or above. The DAC is a secondary area of expertise made up of courses selected and designed by the student, with adviser approval, to complement the student's professional and academic interests. A second major may substitute for the DAC.

Minors

The Greenlee School offers a minor in Advertising and a minor in Journalism and Mass Communication.

For a minor in Advertising or Journalism and Mass Communication, students complete 15 credits, beginning with JI MC 101. The remaining 12 credits, at least 9 of which must be from Iowa State University, are selected from course offerings in the advertising and journalism and mass communication majors, as follows: 6 credits from the following 200- and 300-level courses, Advrt 230, 301, and 335; JI MC 220, 301, 305, 341, and 342; and 6 credits from the following 400-level courses; JI MC 401, 406, 453, 454, 461, 462, 464, 474, 476 and 477 and Advrt or JI MC 497.

JI MC majors may not minor in Advrt and Advrt majors may not minor in JI MC.

Graduate Study

The Greenlee School of Journalism and Communication offers work for a master of science degree in journalism and mass communication. Two tracks are available: one for students who desire specialized study in communication theory and research; the second for students who wish to strengthen professional strategic skills.

Majors plan programs of study in one of two tracks:

I. Communication as theory and research – The School offers advanced academic preparation in communication theory and research leading to the master of science degree. Graduate work prepares students to use and contribute to research and scholarship in the field of communication. The degree requires a thesis or creative component based on original research, which must be defended successfully before a committee at the end of the program.

Areas of research emphasis include: science and risk communication, media performance, media effects, advertising, public relations, political communication, communication technology, law and ethics, international communication and visual communication.

II. Professional and Strategic Communication – The School offers advanced professional study in journalism and mass communication leading to the master of science degree. Graduate work prepares students for professional careers in a variety of mass communication fields. Students with limited training or experience in journalism and mass communication may include skills courses in their programs for no credit. The degree requires either a creative component or thesis.

All students must complete four core courses: Introduction to Graduate Study in Journalism and Mass Communication (JI MC 592), Theories of Mass Communication (JI MC 501), Communication Research Methods (JI MC 502) and Seminars in Mass Communication (JI MC 598). Each student selects elective courses based on his/her area of emphasis and career goal, in consultation with the student's major professor and Program of Study Committee.

The Greenlee School graduate program offers minor work for students majoring in other departments. The M.S. minor requires JI MC 501 (Communication Theory), JI MC 510 (Communication Strategies), and one other course in journalism and mass communication for a total of 9 credits taken within the Greenlee School.

Advertising (Advrt)

Courses primarily for undergraduate students

Advrt 230. Advertising Principles. (3-0) Cr. 3. F.S. Historical, social, economic and legal aspects of advertising. Evaluations of advertising research, media, strategy, and appeals. Study of the creation of print and broadcast advertising.

Advrt 301. Strategic Planning for Advertising and Public Relations. (Cross-listed with JI MC). (3-0) Cr. 3. F.S. *Prereq: 230 or JI MC 220; Sophomore classification.* Prospect analysis, market segmentation, positioning, strategic planning, public opinion formation, communication strategy formation and development of critical thinking skills.

Advrt 334. Advertising Creativity. (2-2) Cr. 3. *Prereq: C+ or better in JI MC 201; Advrt/JI MC 301.* Development and execution of creative advertising materials. Copywriting, art direction and computer applications for print, broadcast and digital media. Creative strategy development, execution and evaluation.

Advrt 335. Advertising Media Planning. (3-0) Cr. 3. *Prereq: Advrt/JI MC 301.* Concepts of media planning and selection in the development, execution and evaluation of advertising campaigns. Characteristics and capabilities of the advertising media. Utilization of market segmentation, consumer buying and media audience databases.

Advrt 336. Advertising Account Management. (3-0) Cr. 3. *Prereq: C+ or better in JI MC 201; Advrt/JI MC 301.* Fundamentals of account management with emphasis on leadership, sales techniques, relationship building, presentation skills, and strategic thinking. Includes aspects of agency revenue growth, team building, client management, evaluating creative concepts and media plans, and developing strategic proposals and campaign recommendations.

Advrt 390. Professional Skills Development. (Cross-listed with JI MC). Cr. arr. Repeatable. *Prereq: C+ or better in 201, other vary by topic; instructor permission.* Credit not given for working on student or professional media. Check School for course availability.

Advrt 434. Advertising Campaigns. (3-0) Cr. 3. F.S. *Prereq: Advrt/JI MC 301; C+ or better in 334 or 336, and major Status.* Development of advertising campaigns for business and social institutions. Projects

involve budgeting, media selection, market analysis, campaign strategy, and creative execution.

Advrt 435. Advertising Competition. Cr. arr. Repeatable. S. *Prereq: Permission of instructor, Junior/senior standing strongly recommended.* Preparation of materials for regional and national competitions.

Advrt 436. Advertising Portfolio Practicum. (2-2) Cr. 3. *Prereq: C+ or better in 334, instructor permission.* Advanced advertising writing and design. Emphasis on creative strategy, problem solving and execution of creative materials in print, broadcast and on-line media for a variety of clients.

Advrt 497. Special Topics in Communication. (Cross-listed with Jl MC). Cr. arr. Repeatable. Seminars or one-time classes on topics of relevance to students in communication.

Journalism and Mass Communication (Jl MC)

Courses primarily for undergraduate students

Jl MC 101. Mass Media and Society. (3-0) Cr. 3. F.S. Communication models and their application to the mass media; the mass communication process; organization, characteristics and responsibilities of the mass media; media-related professional operations.

Jl MC 110. Orientation to Journalism and Communication. Cr. R. F.S. Orientation to career opportunities, emphasis areas and requirements in the Greenlee School. Satisfactory-fail only.

Jl MC 201. Reporting and Writing for the Mass Media. (1-4) Cr. 3. F.S. *Prereq: Engl 250 (or testout) and either a score of 26 or higher on the ACT-English exam, 590 or higher on the SAT verbal exam or a passing score on the School's English Usage Test.* Generating story ideas, exercising news judgment and gathering information via interviews, observation and documentary sources to produce news and informational material for the mass media. Emphasis on analyzing and organizing information, as well as accuracy and principles of good writing.

Jl MC 202. Intermediate Reporting and Writing for the Mass Media. (2-2) Cr. 3. F.S. *Prereq: C+ or better in 201.* Designed for students interested in writing for newspapers, magazines and online media. Enhancing and refining skills in developing sources and generating story ideas. information-gathering techniques, reporting and writing. Includes segments on local government and judiciary.

Jl MC 206. Reporting and Writing for the Electronic Media. (2-3) Cr. 3. F.S. *Prereq: C+ or better in 201.* Researching, organizing, and writing for radio, television and online media. Basic principles of news, information and entertainment programming. An emphasis on development, content and structure.

Jl MC 220. Principles of Public Relations. (3-0) Cr. 3. F.S. Introduction to public relations in business, government and non-profit organizations; functions, processes, and management; attitudes, public opinion and persuasion; overview of theory.

Jl MC 301. Strategic Planning for Advertising and Public Relations. (Cross-listed with Advrt). (3-0) Cr. 3. F.S. *Prereq: Advrt 230 or Jl MC 220; Sophomore classification.* Prospect analysis, market segmentation, positioning, strategic planning, public opinion formation, communication strategy formation and development of critical thinking skills.

Jl MC 305. Publicity Methods. (3-0) Cr. 3. *Prereq: Engl 250, Sophomore classification.* Communication and publicity fundamentals and the use of media for publicity purposes. Preparing releases for print and broadcast; basics of publication layout. Publicity campaigns. Not available to Jl MC and Advrt majors.

Jl MC 306. Electronic Media Production. (2-2) Cr. 3. F.S. *Prereq: C+ or better in Jl MC 201.* Introduction to studio production using professional equipment. Course focus on visual concepts, maintenance and practical operation of studio equipment.

Jl MC 308. Electronic News Gathering and Production. (2-3) Cr. 3. *Prereq: C+ or better in 202 or 206 or 321; 306.* Field techniques in single-camera video production used to shoot and edit visual stories. Introduction to electronic news gathering.

Jl MC 310. Fundamentals of Photojournalism. (1-3) Cr. 3. *Prereq: C+ or better in 201.* Basic photojournalism techniques. Includes camera operation, lighting, composition, and photo reproduction techniques for print or computer-mediated applications. Emphasis on using the camera as a reporting tool. Basic use of digital imaging and editing software. Ethical issues involving photojournalism.

Jl MC 315. Multimedia Production. (2-2) Cr. 3. *Prereq: 306 or 342L or 343L or equivalent computer design proficiency.* Concepts and principles for evaluating, constructing, and designing information for the Web and other computer-mediated communication systems. Explores the use of computer-generated animation and graphics, audio and video. Issues of ethics and ownership of work pertinent to the new media are discussed.

Jl MC 321. Public Relations Writing. (2-3) Cr. 3. *Prereq: C+ or better in 201; 220 or Advrt 230; 342 and 342L or computer design proficiency recommended. May be taken concurrently with 301.* Developing and writing public relations materials with an emphasis on media relations and news. Techniques addressed include media kits, brochures, newsletters and speeches.

Jl MC 341. Contemporary Magazine Publishing. (Dual-listed with 541). (3-0) Cr. 3. *Prereq: Junior classification.* Analysis of magazine industry and specific audiences served by print and online magazines. Editorial procedures and policies, advertising, circulation, and history of the industry. Individual study of magazines.

Jl MC 342. Visual Principles for Mass Communicators. (3-0) Cr. 3. *Prereq: Sophomore classification.* Understanding of the visual message. Visual perception, visual communication theory, design syntax, design elements and how they are applied in journalism and mass communication.

Jl MC 342L. Laboratory in Basic Visual Principles. (2-2) Cr. 3. *Prereq: Credit or enrollment in 342.* Introduction to desktop publishing, beginning techniques in layout. Application of visual principles to design simple print projects.

Jl MC 343L. Laboratory in Intermediate Visual Principles. (2-2) Cr. 3. *Prereq: 342L or equivalent computer design proficiency.* Application of more advanced features of desktop publishing and other document-enhancing software. Production of newsletters, multi-page brochures and other documents.

Jl MC 344. Depth Reporting and Writing. (2-2) Cr. 3. F. *Prereq: C+ or better in 202 or 206 or 321.* Developing and writing comprehensive news features and magazine articles. Majors may not apply both 344 and Engl 303 toward graduation.

Jl MC 346. Public Affairs Reporting. (2-2) Cr. 3. S. *Prereq: C+ or better in 202 or 206 or 321.* Reporting on government, business, and other institutions; identification of and access to public records; investigative reporting techniques; developing major stories on government and non-profit organizations, and issues for print and broadcast media.

Jl MC 347. Science Communication. (Dual-listed with 547). (2-2) Cr. 3. S. *Prereq: C+ or better in 202 or 206 or 321 for Jl MC majors; C+ or better in Jl MC 201 and Advrt 334 or 336 for Advrt majors. Nonmajors by permission of instructor.* Reporting and writing about science and technology topics for general audiences. Outlets for stories include print, broadcast and online media. Story topics include reporting about basic, applied sciences and social sciences, as well as ethical, political and policy issues related to science and technology.

Jl MC 349. Print Media Editing. (1-5) Cr. 3. *Prereq: C+ or better in 202 or 206 or 321.* Grammar, punctuation, usage, syntax and logic. Editing newspaper, magazine and online copy. Headline, title writing and visual presentation. Use of computer editing programs.

Jl MC 354. Advanced Electronic Media Production. (2-3) Cr. 3. *Prereq: 306 and 308.* Application of advanced television techniques: producing, directing and managing live and recorded information programs.

Jl MC 390. Professional Skills Development. (Cross-listed with Advrt). Cr. arr. Repeatable. *Prereq: C+ or better in 201, other vary by topic. Instructor permission.* Credit not given for working on student or professional media. Check School for course availability.

Jl MC 401. Mass Communication Theory. (3-0) Cr. 3. *Prereq: Junior classification.* Theory and research in mass communication processes and effects; the scientific process; methods of measuring, evaluating and reporting mass communication research.

Jl MC 406. Media Management. (Dual-listed with 506). (3-0) Cr. 3. *Prereq: Junior classification.* Decision-making functions of media. Basic media market analysis, media organization and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

Jl MC 424. Public Relations Campaigns. (3-0) Cr. 3. *Prereq: 220, 301, and C+ or better in 321; junior classification. Section B: C+ or better in 202 or 206; instructor permission only.* Developing public relations and corporate communication campaigns for business and social institutions.

Jl MC 449. Advanced Print Media Editing. (3-0) Cr. 3. S. *Prereq: 342, 342L, 349 or concurrent enrollment; junior classification.* Developing higher-level editorial skills needed for issue-planning, editorial management and decision making. Designing, developing, and repositioning existing and new magazines, newspapers, and new media. Editing complex manuscripts, with continued emphasis on grammar, punctuation, usage, syntax and logic. Use of computer publishing programs. Nonmajor graduate credit.

Jl MC 453. Electronic Media Technology and Public Policy. (3-0) Cr. 3. *Prereq: Junior classification.* Issues and policies affecting historical, contemporary and future developments of electronic media and their technologies.

Jl MC 454. Critical Analysis and History of the Moving Image. (3-0) Cr. 3. *Prereq: Junior classification.* Evolution of motion picture and television content and other visual technologies. Theories and techniques for evaluating and critiquing film and video. Nonmajor graduate credit.

Jl MC 460. Law of Mass Communication. (3-0) Cr. 3. F.S. *Prereq: C+ or better in 201; junior classification.* First Amendment law, libel, privacy, obscenity, contempt, copyright, trademark, the Federal Communications Act; laws affecting advertising, legal publication, and other business activities of the media, including the Internet. Nonmajor graduate credit.

Jl MC 461. History of American Journalism. (3-0) Cr. 3. *Prereq: Junior classification.* Role of the mass media, including advertising and public relations, in shaping the social, economic and political history of America; impact of change in these areas on the development, traditions, and philosophies of the media. Nonmajor graduate credit.

Jl MC 462. Media Ethics, Freedom, Responsibility. (3-0) Cr. 3. *Prereq: Junior classification.* Media ethics and performance; functions of the media in relation to the executive, judicial and legislative branches of government; agencies of media criticism; right to know versus right to privacy.

Jl MC 464. Journalism and Literature. (3-0) Cr. 3. *Prereq: Junior classification.* A study of journalism's impact on literary writing and literature's impact on journalism, as seen through the works of such American author-journalists as Ernest Hemingway, Truman Capote, Joan Didion, John McPhee, Tom Wolfe, Hunter Thompson. Nonmajor graduate credit.

JI MC 474. Communication Technology and Social Change. (Cross-listed with T SC). (3-0) Cr. 3. *Prereq: Junior classification.* Examination of historical and current communication technologies, including how they shape and are shaped by the cultural and social practices into which they are introduced.

JI MC 476. World Communication Systems. (Dual-listed with 576). (3-0) Cr. 3. *Prereq: Junior classification.* World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information and entertainment content on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media, and computer-mediated systems.

JI MC 477. Ethnicity, Gender, Class and the Media. (3-0) Cr. 3. *Prereq: Junior classification.* Portrayals of ethnic groups, genders, and classes in the media in news, information, and entertainment; the effects of mass media on social issues and population groups. Nonmajor graduate credit.

JI MC 490. Independent Study in Communication. Cr. arr. *Prereq: Junior classification and contract with supervising professor to register.* Independent studies are research-based. Students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a reportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. See Greenlee School Student Services Office for more information. No more than 3 credits of JI MC 490 may be used toward a degree in journalism and mass communication or advertising.

JI MC 497. Special Topics in Communication. (Cross-listed with Advrt). Cr. arr. Repeatable. Seminars or one-time classes on topics of relevance to students interested in communication.

JI MC 499. Professional Media Internship. Cr. 3. *Prereq: JI MC majors, C+ or better in 202 or 206 or 321; Advrt majors, C+ or better in JI MC 201; Advrt 301; All students, junior classification, formal faculty adviser approval of written proposal.* Required of all JI MC and Advrt majors. A 400-hour internship in the student's journalism and mass communication or advertising specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to JI MC and Advrt majors. Satisfactory-fail only.

Courses primarily for graduate students, open to qualified undergraduate students

JI MC 501. Theories of Mass Communication. (3-0) Cr. 3. F. *Prereq: 6 credits in social science or admission to the graduate program.* Examination of major areas of research activity and theoretical development related to organization, functions, and effects of mass communication.

JI MC 502. Communication Research Methods. (3-2) Cr. 4. S. *Prereq: 501 or equivalent communication theory course.* Research methods in journalism and mass communication, including problem selection, sampling, hypothesis formulation, research design, data collection and analysis. Designing a research strategy appropriate for a variety of communication-related questions and assessing the appropriateness, validity, and generalizability of research results.

JI MC 506. Media Management. (Dual-listed with 406). (3-0) Cr. 3. S. *Prereq: 6 credits in social science (economics highly recommended) or admission to the graduate program.* Decision-making functions of media. Basic media market analysis, media organization and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

JI MC 510. Strategies of Communication. (3-0) Cr. 3. *Prereq: 501.* The process of developing professional communication and persuasion strategies, with emphasis on problem definition, behavioral objectives, situation analysis, strategy formulation, and justification through application of communication theories and research results.

JI MC 520. Persuasion Theory and Methods. (3-0) Cr. 3. *Prereq: 6 credits in social science.* Theories and research methods applied to the study and practice of public relations.

JI MC 521. Theories of Visual Communication. (2-2) Cr. 3. *Prereq: 6 credits in social science.* Introduction to the study of picture-based media (film, television, photography, advertising, etc.). Exploration of theoretical concepts of vision and perception, visual literacy, visual language, visual persuasion/manipulations, and the cultural implications of visual images.

JI MC 541. Contemporary Magazine Publishing. (Dual-listed with 341). (3-0) Cr. 3. *Prereq: 502 or Instructor permission.* Analysis of magazine industry and specific audiences served by print and online magazines. Editorial procedures and policies, advertising, circulation, and history of the industry. Roundtable on research literature.

JI MC 547. Science Communication. (Dual-listed with 347). (2-2) Cr. 3. S. *Prereq: 6 credits of social science or admission to the graduate program.* Reporting and writing about science and technology topics for general audiences. Outlets for stories include print, broadcast and online media. Story topics include reporting about basic, applied and social sciences, as well as ethical, political and policy issues related to science and technology. Nonmajors by permission of instructor.

JI MC 561. Media and Society: Interrelationships. (3-0) Cr. 3. F. *Prereq: 6 credits in social science.* Media functions in a democratic society; conflicts between the media and social institutions; ethical and social controls on the media.

JI MC 574. Communication Technologies and social Change. (Cross-listed with T SC). (3-0) Cr. 3. *Prereq: 6 credits in social science.* Personal, organizational, and social implications of the use of communication technologies. Includes theories and empirical research across the continuum of perspectives, from techno-utopianism through an anti-technology stance.

JI MC 576. World Communication Systems. (Dual-listed with 476). (3-0) Cr. 3. World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information and entertainment content on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media and computer-mediated systems.

JI MC 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.*
A. Media Studies
B. Professional Specialization
C. Research Problems and Methods
D. Technique and Style
E. Specialized Communication

JI MC 591. Professional Internship. Cr. arr. F.S.SS. *Prereq: Permission of instructor.* Supervised internship experience. Satisfactory-fail only.

JI MC 592. Introduction to Graduate Study in Journalism and Mass Communication. Cr. R. F. *Prereq: Graduate classification.* Overview of advanced study in journalism and mass communication with special emphasis on requirements for obtaining the master of science degree.

JI MC 598. Seminars in Mass Communication. Cr. arr. Repeatable.
A. Audiences and Effects
B. Communication Technology
C. Professional Communication
D. Development Communication
E. Evaluation Methods
F. International Communication
G. Mass Communication History
H. Mass Communication Law
I. Media Management
J. Research Methods
K. Society and Mass Communication
L. Journalism and Mass Communication Education
M. Visual Communication
N. Broadcast Communication
O. Communication Theory
P. Computer Mediated Communication
Q. Science, Technology and Risk Communication.

JI MC 599. Creative Component. Cr. arr. *Prereq: Approved creative component proposal.*

Courses for graduate students

JI MC 699. Thesis Research. Cr. arr. Repeatable. *Prereq: Approved thesis proposal.*

Kinesiology

(www.edu.iastate.edu/hhp/homepage.htm)

Philip Martin, Chair of Department Distinguished Professors (Emeritus): Forker, Toman

Professors: Anderson, Bloedel, Franke, King, Martin, Sharp

Professors (Emeritus): Frye, Hutchison, Schneider, J. Thomas

Professor (Emeritus Adjunct): Beran

Associate Professors: Derrick, Ekkekakis, Engelhorn, Gillette, Kohut, Smiley-Oyen, K. Thomas, Welk

Associate Professor (Emeritus): Wood

Assistant Professors: Baker, Murdoch, Schabel, Selsby, Welch

Assistant Professor (Emeritus): McDonald

Assistant Professors (Collaborators): Buck, Senchina

Instructors (Adjunct): Coberley, Meier, O'Mara, Pak

Senior Lecturers: Atkinson, Denton, Lipsey, Power

Lecturers: Dukes, Franke, Gundlach, Miller, Nespor, Norris, Packheiser, Peel, Spry-Knutson, Wissink

Mission

We promote health and well-being by creating and disseminating knowledge about physical activity and active living. Through discovery, learning and engagement we improve the lives of citizens of Iowa, the United States and the world.

Goals

The department has identified the following goals to support this mission:

1. We seek to improve the lives of citizens of Iowa, the United States, and the world by the creation and dissemination of knowledge about physical activity and its relationship to health and well-being.

2. We prepare scholars and professionals in the study of physical activity at the undergraduate and graduate levels.

3. We educate the public and the University community in the scientific aspects of physical activity especially exercise, sport, and the role of movement throughout the lifespan.

Overview of Programs

The Department Kinesiology provides opportunities for matriculation leading to the degrees of Bachelor of Science, Master of Science, and Doctor of Philosophy. At both the undergraduate and graduate level, there are opportunities for study in the department's two specializations: the behavioral and biological bases of physical activity.

Undergraduate Study

Dance. Coursework in dance provides opportunities for students to develop an understanding and appreciation of dance as part of a liberal education. Those interested in teaching dance and Physical Education in the public schools may major in

health and human performance (teacher licensure option) and minor in dance.

An interdisciplinary Performing Arts major with a dance emphasis is available through the College of Liberal Arts and Sciences. For further information see *Index, Theatre and Performing Arts*.

The department offers a minor in dance that may be earned by completing the following: Dance 220, 222, 270, 320, 360, 384, 385 or 386, and three additional credits selected from dance courses numbered 200 or above. Participation in Orchesis I or II is recommended.

Kinesiology. Kinesiology. The undergraduate curriculum in Kinesiology is comprised of four components: general education, the Basic Core, the Advanced Core, and the option component. The intent of the general education component is to promote intellectual and personal growth and to prepare students for success in the basic, advanced and option components. The Basic Core enables students to understand, define and explore their own health and physical activity through the cognitive, affective and psychomotor domains. The Advanced Core extends this learning to include disciplinary concepts and tools of inquiry that comprise scientific literacy associated with health and physical activity. Finally, coursework within each specialization option builds upon this personal and scholarly learning by enabling students to master content and skills specific to career applications. The specialization Options comprise a focused area of study within Kinesiology. Options available are 1) Athletic Training, 2) Community and Public Health, 3) Exercise Science, 4) General Studies, and 5) Health/Fitness Management and 6) Physical Education/Licensure. Enrollment in the Athletic Training and Physical Education Licensure options is limited because of accreditation requirements and the provision of more individualized field experiences.

Academic options within the undergraduate program. Students in the CAATE accredited Athletic Training option are prepared for the National Athletic Training Association Board of Certification examination or for graduate work in athletic training. Graduates of this option will effectively use their expertise to plan Strategies aimed at the prevention, treatment and rehabilitation of athletic injuries.

Academic options within the undergraduate program. Students in the CAAHEP accredited Athletic Training option are prepared for the National Athletic Training Association Board of Certification examination or for graduate work in athletic training. Graduates of this option will effectively use their expertise to plan Strategies aimed at the prevention, treatment and rehabilitation of athletic injuries.

Students in the Community and Public Health option are prepared for professional employment at local, state or national health agencies, medical centers, and other public organizations that seek to promote health in the population. The curriculum prepares students to take the Certified Health Education Specialist certification examination upon graduation.

Students in the Exercise Science option utilize an interdisciplinary approach to the study of human movement. In so doing, they become prepared for graduate study in Kinesiology or advanced study leading to careers in medicine, physical therapy, or other allied health programs.

Students in the General Studies option combine kinesiology with a concentration in another area of study to support an individualized program, such as community sport and recreation, dance, and other sport, exercise, or health related fields. Programs of study must be approved by the undergraduate program coordinator.

Students in the Health/Fitness Management option are prepared for professional roles as health and fitness leaders or program managers. Employment opportunities include work in corporate fitness programs, health clubs, cardiac rehabilitation programs or personal training. Graduates are able to plan, implement and supervise exercise programs which will improve fitness and health. Graduates also have a basic understanding of economic and management issues related to business applications in the health and fitness field.

Students in the Physical Education Licensure option are prepared to teach Physical Education in grades K-12 and to meet the State of Iowa learning outcomes for teachers. Graduates can plan developmentally appropriate physical education, and individualize instruction and assessment for diverse audiences.

Learning outcomes for the undergraduate degree. Despite the diversity in specialization Options, the Learning Outcomes comprise a common framework for each student as they matriculate through Iowa State University.

The learning outcomes emphasized in academic coursework in the Department of Kinesiology are:

Content knowledge. The student has a broad conceptual view of physical activity and health, recognizes its scientific underpinnings (e.g. history, content, disciplinary concepts, and tools of inquiry) and appreciates the interdisciplinary nature of the study of physical activity and health. Literacy will be gained from the personal, scholarly and professional perspectives.

Discovery and critical thinking. The student can use accepted techniques of discovery and apply critical thinking within and outside of the discipline area. The student will be able to solve problems independently and evaluate opinions and outcomes at the personal scholarly and professional level.

Communication. The student uses knowledge of effective verbal, nonverbal and media communication techniques to foster inquiry, collaboration, and engagement in physical activity and health related settings.

Numeracy. The student understands and uses qualitative and quantitative analysis through formal and informal assessment strategies.

Technology. The student understands and uses a variety of technological applications to improve personal understanding and to enhance scholarly pursuits and professional practice in their chosen area of study.

Learning in the following domains occurs both in and outside the Iowa State University experience. The department will foster development in these domains through its courses and other activities.

Citizenship. The student uses value and ethics based decision making to demonstrate personal, professional and world citizenship through fostering relationships, embracing leadership, accepting social responsibility, seeking and completing opportunities to improve the quality of life for others.

Lifelong learning. The student is a reflective professional who actively seeks to further self-knowledge and seeks opportunities to grow professionally.

Diversity. The student understands how individuals differ in their approaches to initiating and maintaining a physically active, healthy lifestyle, and creates appropriate environments for diverse participants.

The department offers a minor in athletic coaching. The minor may be earned by completing the following: Kin 220, 258, 315, 355, 358, 365; Biol 155; and Psych 230.

The department offers a minor in sport and culture. The minor may be earned by completing the following: Kin 360 and 365; and completing 9 credits from the following: Kin 242, 315, 331, 442, and 445.

Endorsement to Coach Interscholastic Athletics. The State Department of Education has provided for the endorsement of licensed teachers for the coaching of athletic teams in schools. The endorsement does not lead to licensure to teach physical education. For requirements of the program, leading to the coaching endorsement, see *Teacher Education, Requirements for Areas of Specialization*.

Basic Activity Instruction Program. The department offers a wide selection of beginning, intermediate, and advanced courses in the areas of aquatics, dance, and sports. These courses are designed to serve general education purposes for all students.

B.S./M.S. degree in Diet and Exercise. A combined Bachelor of Science and Master of Science (B.S./M.S.) degree in diet and exercise is available. The program is jointly administered by the Department of Food Science and Human Nutrition (FS HN), within the Colleges of Agriculture and Human Sciences, and the Department of Kinesiology, within the College of Human Sciences. Students interested in this program must enroll as freshmen in the pre-diet and exercise program In the fall of the junior year students will apply for admission to the B.S./M.S. program. Students not accepted into the program will continue toward completion of a B.S. degree in dietetics or kinesiology. Coursework has been designed to facilitate a 4-year graduation date for those students not accepted into the program and electing to complete a single undergraduate degree. Students accepted into the program will progress toward completion of B.S./M.S. degrees in diet and exercise.

Graduate Study

The Department of Kinesiology graduate seeks to integrate discovery and learning by preparing graduate students to understand and create basic and applied knowledge in the study of physical activity, exercise and sport. For all graduate degrees the department offers specializations in behavioral basis of physical activity and biological basis of physical activity. The normal prerequisite to major graduate work is the satisfactory completion of a curriculum essentially equivalent to that required of undergraduate students in kinesiology at this university. However, it is possible for students to qualify for graduate study if undergraduate preparation has been in a related area.

Students in the M.S. and Ph.D. degrees are required to complete original research and write a thesis or dissertation. There is a nonthesis degree option for M.S. students requiring more coursework and an internship experience or other creative component. Specific information about the requirements for these degree options is available from the department office or from the department web site (www.kin.hs.iastate.edu/graduate).

The department participates in the interdepartmental minor in gerontology (see *Index*).

Courses primarily for undergraduate students

Kin 101. Swimming I. (0-3) Cr. 1. F.S. Basic course for nonswimmers. Emphasis on two fundamental strokes and personal water safety skills. Satisfactory-fail only.

Kin 102. Swimming II. (0-3) Cr. 1. F.S. *Prereq: 101 or equivalent skill.* Intermediate course. Emphasis on learning and improving five basic strokes and personal water safety skills. Satisfactory-fail only.

Kin 108. Aquatic Fitness. (0-3) Cr. 1. *Prereq: 102 or equivalent skill.* Water related exercises, activities, and swimming workouts to improve physical fitness. Satisfactory-fail only.

Kin 114. Lifeguard Training. (0-3) Cr. 1. F.S. *Prereq: Ability to swim 500 yards continuously of front crawl, sidestroke, and breaststroke; perform a standing and surface dive; swim under water; and tread water for one minute. Minimum age 16.* Specific training for Red Cross Lifeguard certification. First aid and CPR included. Satisfactory-fail only.

Kin 116. Water Safety Instructor Practicum. (0-3) Cr. 1. *Prereq: H S 105, CPR certification, and permission of instructor.* Supervised teaching experience in swimming, aquatic fitness, lifeguard training, and WSI courses. Satisfactory-fail only.

Kin 117. Lifeguard Training Instructor. (0-2) Cr. 1. F.S. *Prereq: Minimum age 17; able to swim 500 yards; current lifeguard, first aid, and CPR certifications.* The students will learn skills (rescue skills and CPR for the Professional Rescuer) necessary to certify prospective Lifeguards in the American Red Cross Lifeguard Training Program. Satisfactory-fail only.

Kin 118. Water Safety Instructor. (1-3) Cr. 2. S. *Prereq: Minimum age 17; able to swim 500 yards; current first aid and CPR certification.* The students will learn the skills necessary to teach and certify individuals in the following American Red Cross courses. Learn to Swim Program (Levels 1-6), Parent and Child Aquatics (Level A 6 months-2 years; Level B 18 months-5 years), Safety Training for Swim Team Coaches, Community Water Safety, Home Pool Safety, Aquatic Leader Program, and Basic Water Rescue. Satisfactory-fail only.

Kin 119. Archery. (0-2) Cr. 1. F.S. Satisfactory-fail only.

Kin 122. Badminton. (0-2) Cr. 1. F.S. Satisfactory-fail only.

Kin 126. Pocket Billiards. (0-2) Cr. 1. F.S. Introduction to the basic strokes (stop, draw, follow) and contemporary game forms associated with pocket billiards. Satisfactory-fail only.

Kin 129. Bowling. (0-2) Cr. 1. F.S. Satisfactory-fail only.

Kin 135. Golf. (0-2) Cr. 1. F.S. Beginning skills only. Satisfactory-fail only.

Kin 144. Racquetball. (0-2) Cr. 1. F.S. Satisfactory-fail only.

Kin 153. Ice Skating. (0-2) Cr. 1. Satisfactory-fail only.

Kin 158. Tennis. (0-2) Cr. 1. F.S.SS. Introduction to basic skills (forehand, backhand, service) and basic knowledge of game play. Satisfactory-fail only.

Kin 162. Triathlon Training. (0-3) Cr. 1. F.S. *Prereq: 102 or equivalent skill.* Introduction to the sport of triathlon integrating the discipline(s) of running, cycling, and swimming. Emphasis on cross-training systems and skill enhancement. Satisfactory-fail only.

Kin 163. Physical Fitness. (0-3) Cr. 1. Evaluation of fitness Status. Exercises, activities, and programs to improve physical fitness. Relationship between physical activity and weight control. Credit for only Ex Sp 163 or 258 may be applied toward graduation. Satisfactory-fail only.

Kin 164. Walking for Fitness. (0-3) Cr. 1. F.S. Fitness walking as an activity to improve health and fitness; values of this type of activity as a lifetime endeavor. Satisfactory-fail only.

Kin 166. Weight Training. (0-3) Cr. 1. F.S. Satisfactory-fail only.

Kin 170. Tae Kwon Do/Karate I. (0-2) Cr. 1. F.S. Satisfactory-fail only.

Kin 171. Tae Kwon Do/Karate II. (0-2) Cr. 1. Satisfactory-fail only.

Kin 173. Hap Ki Do/Martial Self-Defense. (0-2) Cr. 1. F.S. Satisfactory-fail only.

Kin 182. Volleyball. (0-2) Cr. 1. Satisfactory-fail only.

Kin 185. Soccer. (0-2) Cr. 1. Satisfactory-fail only.

Kin 220. Basic Athletic Training. (1-2) Cr. 2. *Prereq: Biol 155 or 255 and 256.* Introduction to methods of prevention and immediate care of athletic injuries. Basic information concerning health supervision of athletes, and some basic wrapping and strapping techniques for common injuries.

Kin 221. Pre-Athletic Training Clinical Practicum. (0-3) Cr. 1. S. *Prereq: Credit or enrollment in 222 and permission of athletic training program director.* Athletic training clinical observation experiences to accompany 222. Utilize knowledge to evaluate, analyze and demonstrate appropriate taping, wrapping and basic skill techniques. Open to students interested in the athletic training option. Satisfactory-fail only.

Kin 222. Basic Athletic Training for Athletic Trainers. (2-2) Cr. 3. S. *Prereq: Biol 255, 255L.* Provides pre-athletic training students with the knowledge of the profession of a certified athletic trainer, factors associated with injury prevention, treatment, emergency care of athletic injuries, protective equipment, basic organization, administrative, and legal concepts in the athletic training setting. To be taken concurrently with 221.

Kin 223. Clinical Practicum in Athletic Training. (0-3) Cr. 1. F. *Prereq: Permission of Athletic Training Program Director.* Athletic training clinical experiences for athletic training students during pre-season intercollegiate football. Clinical experiences include: Professional Rescuer CPR, AED certification, emergency splinting and spineboarding, medical record keeping and HIPPA regulations, environmental conditions, prevention of injury screening strategies, athletic training room and education program policies and procedures, review of athletic taping techniques, acute injury management, mouthpiece formation, and anatomy review. Satisfactory-fail only.

Kin 224. Evaluation of Athletic Injuries I. (2-3) Cr. 3. F. *Prereq: Permission of athletic training program director.* Sport injury assessment procedures and evaluation techniques for lower body injuries. Includes an overview of mechanisms of injury, general musculoskeletal disorders, and dermatological conditions. Designed for students in the athletic training option or preprofessional health programs.

Kin 225. Athletic Injuries I Clinical Practicum. (0-3) Cr. 1. F. *Prereq: Permission of athletic training program director.* Athletic training clinical experience to accompany 224. Open to students in the athletic training option. Satisfactory-fail only.

Kin 226. Evaluation of Athletic Injuries II. (2-3) Cr. 3. S. *Prereq: Permission of athletic training program director.* Sport injury assessment procedures and evaluation techniques for upper body injuries. Includes an overview of common illnesses of athletes and sport specific injuries. Designed for students in the athletic training option or preprofessional health programs.

Kin 227. Athletic Injuries II Clinical Practicum. (0-3) Cr. 1. S. *Prereq: Permission of athletic training program director.* Athletic training clinical experience to accompany 226. Open to students in the athletic training option. Satisfactory-fail only.

Kin 230. Fundamentals of Aquatics. (0-3) Cr. 1. S. *Prereq: 101 or equivalent.* Eligibility for admission to Kin teacher education program. Basic water safety and emergency water safety. Skill enhancement, understanding, and progressions.

Kin 231. Fundamentals of Tumbling and Gymnastics. (0-3) Cr. 1. F. *Prereq: Eligibility for admission to Kin teacher education program.* Fundamentals of tumbling and gymnastics apparatus. Skill enhancement, analysis, understanding practice and the development of progressions.

Kin 232. Fundamentals of Indoor Team Sports. (0-3) Cr. 1. S. *Prereq: Eligibility for admission to Kin teacher education program.* Fundamentals of indoor team sports, for example basketball, volleyball, team handball. Skill enhancement, analysis, understanding practice and the development of progressions.

Kin 233. Fundamentals of Outdoor Team Sports. (0-3) Cr. 1. F. *Prereq: Eligibility for admission to Kin teacher education program.* Fundamentals of outdoor team sports, for example flag football, soccer, softball. Skill enhancement, analysis, understanding practice and the development of progressions.

Kin 235. Fundamentals of Racquet Sports. (0-3) Cr. 1. S. *Prereq: Eligibility for admission to Kin teacher education program.* Fundamentals of racquet sports, for example tennis, badminton, racquetball. Skill enhancement, analysis, understanding practice and the development of progressions.

Kin 236. Fundamentals of Individual Sports. (0-3) Cr. 1. F. *Prereq: Eligibility for admission to Kin teacher education program.* Fundamentals of individual sports, for example track and field, golf, archery and bowling. Skill enhancement, analysis, understanding practice and the development of progressions.

Kin 237. Fundamentals of Self-Defense. (0-3) Cr. 1. S. *Prereq: Eligibility for admission to Kin teacher education program.* Skill enhancement, analysis, understanding practice and the development of progressions.

Kin 238. Fundamentals of Outdoor and Adventure Activities. (0-3) Cr. 1. F. *Prereq: Eligibility for admission to Kin teacher education program.* Techniques of individual and group facilitation for initiatives involving outdoor adventure activity. Topics include ropes/challenge course events, activity presentation, and sequencing, safety techniques, preparation principles and new games Philosophy. Participation is required in one weekend of fieldwork.

Kin 240. Introduction to Taping, Equipment, and Bracing Techniques. (0-3) Cr. 1. S. *Prereq: Permission of athletic training program director.* Basic information and laboratory instruction regarding basic taping techniques, athletic equipment fitting procedures, and the use and proper fitting of prophylactic braces. Open to students in the athletic training option. Satisfactory-fail only.

Kin 242. Introduction to the Management of Community and Recreational Sport. (3-0) Cr. 3. F. Introduction to the study of the organization, structure, and management of community-based sport programs and facilities.

Kin 252. Disciplines and Professions in Kinesiology and Health. (2-0) Cr. 2. F.S. Overview of the various disciplines and professions that comprise the field of Kinesiology (the study of human movement) and help students determine the career option that best fits their interests.

Kin 253. Orientation in Kinesiology and Health. (1-0) Cr. 1. S. *Prereq: Concurrent enrollment or credit in 252.* Overview of ISU policies and procedures, academic advising operations, degree requirements, program of study planning, and campus resources. Satisfactory-fail only.

Kin 254. Learning Communities in Kinesiology/Health. (0.5-0) Cr. 0.5. F.S. *Prereq: Concurrent enrollment or credit in 253.* Semester long course for new students in the Kinesiology Learning Community to be taken concurrently with the general orientation class for Kinesiology majors. Students will take field trips and work with faculty, staff and mentors to explore careers in kinesiology and complete assignments related to identification & development of their skills and interests. Required for freshmen only. Satisfactory-fail only.

Kin 258. Physical Fitness and Conditioning. (1-3) Cr. 2. F.S. *Prereq: Kinesiology and health majors only.* Development of personal fitness using a variety of conditioning and exercise techniques such as aerobics, weight training, and aquatic fitness. Introduction to acute and chronic responses to exercise, and the role of exercise in health promotion and weight management. Credit for only one of the following courses may be applied toward graduation: Kin 163, 258.

Kin 259. Leadership Techniques for Fitness Programs. (1-3) Cr. 2. F.S. *Prereq: 258.* Development of exercise leadership skills for a variety of activities. Includes planning, promotion, and teaching techniques for developing fitness in others using a variety of exercise modalities including aerobics, weight training, and aquatic fitness.

Kin 266. Advanced Strength Training and Conditioning. (1-2) Cr. 2. F.S. *Prereq: 258, 259.* This course is designed to enhance the student's current level of knowledge and expertise to an advanced level in the area of strength training and conditioning. The course will prepare students interested in taking the National Strength and Conditioning Association Certified and Conditioning Specialist's exam. The course will focus on the assessment and implementation of training programs with strong emphasis on the areas of resistance training, metabolic training, flexibility, reaction time, speed, and agility.

Kin 280. Directed Field Experience in Elementary Physical Education. (0-3) Cr. arr. S. Observing, planning, and facilitating movement experiences of children in an elementary school setting. Satisfactory-fail only.

Kin 281. Directed Field Experience in Physical Education. (0-3) Cr. arr. *Prereq: Admission to University Teacher Education Program.* Observing, planning, and facilitating movement experiences of students in a public school setting. Satisfactory-fail only.

Kin 284. Elementary and Pre-school Movement Education. (2-3) Cr. 3. F.S.SS. *Prereq: 3 credits in human development and family studies.* Approaches to teaching movement skills to pre-school and elementary school age children. Emphasis on planning and conducting developmentally appropriate movement experiences for preschool and elementary aged children based upon motor development research. Practical experience provided. Credit in only one of the following courses may be applied toward graduation: Kin 284, 312.

Kin 285. Pre-Internship in Kinesiology. Cr. arr. F.S.SS. *Prereq: Kinesiology and Health major and permission of internship coordinator.* Pre-internship experience with a community sport and recreation or health fitness organization. Satisfactory-fail only.

Kin 312. Movement Education in Elementary School Physical Education. (2-3) Cr. 3. S. *Prereq: Concurrent enrollment in 280.* Planning for management and instruction of developmentally appropriate physical education for children pre-school through elementary grade 6. Laboratory experience required. Credit for only one in the following courses can be applied toward graduation: Kin 284, 312.

Kin 315. Coaching Theory and Administrative Issues. (3-0) Cr. 3. S. Study in the theory, ethics, strategy, and mechanics of coaching various interscholastic and/or intercollegiate sports. Emphasis on formulating a Philosophy, identifying goals and psychological aspects, teaching skills, and developing strategies.

Kin 323. Therapeutic Modalities for Athletic Trainers. (2-2) Cr. 3. F. *Prereq: Permission of athletic training program director.* Theory and technique of therapeutic modalities used in the management of injuries.

Kin 324. Therapeutic Modalities Clinical Practicum. (0-3) Cr. 1. F. *Prereq: Permission of athletic training program director.* Athletic training clinical experience to accompany 323. Open to students in athletic training option. Satisfactory-fail only.

Kin 326. Rehabilitation of Athletic Injuries. (2-2) Cr. 3. S. *Prereq: Permission of athletic training program director.* Theory and practical application of rehabilitation principles used in the management of athletic injuries.

Kin 327. Rehabilitation of Athletic Injuries Clinical Practicum. (0-3) Cr. 1. S. *Prereq: Permission of athletic training program director.* Athletic training clinical experience to accompany 326. Open to students in the athletic training option. Satisfactory-fail only.

Kin 331. Youth Sports. (Dual-listed with 531). (3-0) Cr. 3. S. The research findings from non-school related sport programs for children and adolescents and how these impact programs, parents and children including bio-physical, social, psycho-motor and cognitive factors.

Kin 345. Management of Health-Fitness Programs and Facilities. (3-0) Cr. 3. F.S. Application of management concepts to the fitness industry, e.g., understanding customers, marketing, program management, financial management, legal issues, and evaluation and planning.

Kin 355. Biomechanics. (2-2) Cr. 3. F.S. *Prereq: Phys 106 or 111.* Mechanical basis of human performance; application of mechanical principles to exercise, sport and other physical activities. Nonmajor graduate credit.

Kin 358. Physiology of Exercise. (2-2) Cr. 3. F.S. *Prereq: Biol 255, 255L, 256 and 256L.* Physiological basis of human performance; effects of physical activity on body functions. Nonmajor graduate credit.

Kin 360. Sociology of Sport and Exercise. (3-0) Cr. 3. F.S. *Prereq: Soc 134 and one of Stat 101, 104 or 226/326, or Kin 471.* Sport and exercise as social systems and as institutions related to other institutions such as the polity, the economy, mass media, and education.

Kin 365. Sport Psychology. (3-0) Cr. 3. F.S. *Prereq: Psych 101 or Psych 230.* Psychological factors that influence performance in sport settings. The influence of personality, anxiety, motivation, social factors, and psychological skills training.

Kin 366. Exercise Psychology. (3-0) Cr. 3. F.S. *Prereq: Psych 101 or Psych 230.* Psychological theories for understanding and predicting health-oriented exercise behavior. Psychological and psychobiological responses to exercise. Psychological interventions for increasing exercise participation and adherence rates.

Kin 372. Motor Control and Learning Across the Lifespan. (2-2) Cr. 3. F.S. *Prereq: Psych 101 or Psych 230, Biol 255, 256.* Introduction to major concepts of neuromotor control, behavioral motor control and motor learning in the child, adult and older adult, with emphasis on the adult system.

Kin 375. Teaching Physical Education. (2-3) Cr. 3. S. *Prereq: admission to University Teacher Education Program.* Current theory, practice and research on teaching focusing on management, instructional, and learning styles of students in secondary schools.

Kin 385. Search Strategies for Field Experiences and Employment. (Cross-listed with H S). Cr. R. F.S. *Prereq: Junior classification; to be taken minimum of two semesters prior to Kin 485.* Search techniques and preparation of materials utilized for acquisition of jobs and/or internships in kinesiology and health fields. Internship process and policies/procedures will be covered.

Kin 395. Adapted Physical Education. (Dual-listed with 595). (2-3) Cr. 3. F. *Prereq: 375.* Specific disabling conditions in terms of etiology, characteristics, needs, and potential for movement experiences. Techniques of assessment, prescription, adaptation of activities, methods, and program planning. Laboratory experience required. Kin 595 may not be taken by students who have previously earned credit in Kin 395.

Kin 417. Supervised Teaching in Physical Education in the Secondary School. Cr. 8. F.S. *Prereq: 355, 358, 375, 395, 471, 475. Students must be fully admitted to Teacher Education and must apply for approval to enroll at beginning of the semester prior to registering.* Supervised teaching in the secondary schools.

Kin 418. Supervised Teaching in Physical Education in the Elementary School. Cr. 8. F.S. *Prereq: 280, 312, 355, 358, 375, 395, 471, 475. Students must be fully admitted to Teacher Education and must apply for approval to enroll at the beginning of the semester prior to registering.* Supervised teaching in the elementary schools.

Kin 425. Organization and Administration of Athletic Training. (3-0) Cr. 3. F. *Prereq: Permission of athletic training program director, senior classification.* Current administrative, professional, and legal issues pertaining to athletic training. Job search techniques and strategies including preparation of materials for athletic training students.

Kin 442. Sport, Recreation, and Tourism. (3-0) Cr. 3. F. *Prereq: 242, 290; Soc 134.* The role of sport in developing fitness, recreational opportunities, and tourism, with special emphasis on issues related to youth sport, volunteerism, and the marketing of sport events and facilities.

Kin 445. Legal Aspects of Sport. (3-0) Cr. 3. S. Students will understand legal concepts and terminology relevant to sport/activity, identify strategies for limiting liability in sport/fitness programs, and identify solutions for elimination of discriminatory practices in sport and physical activity.

Kin 450. Medical Concerns for the Athletic Trainer. (3-0) Cr. 3. F. *Prereq: Permission of athletic training program director.* Current medical issues and concerns, including pathology of illness and injury, dermatological conditions, exposure to allied health care professionals, and pharmacological indications in relation to the profession of athletic training and in patient/athlete care.

Kin 458. Principles of Fitness Assessment and Exercise Prescription. (3-2) Cr. 4. F.S. *Prereq: 358.* Physiological principles of physical fitness; design and administration of fitness programs; testing, evaluation, and prescription; cardiac risk factor modification.

Kin 459. Internship in Exercise Leadership. (0-3) Cr. 1. *Prereq: C- or better in 259, CPR certification, concurrent enrollment in 458.* Observation and practice of exercise leadership techniques in an on-campus adult fitness program.

Kin 462. Medical Aspects of Exercise. (3-0) Cr. 3. F.S. *Prereq: 358.* The role of exercise in preventive medicine. Impact of exercise on various diseases, and the effect of various medical conditions on the ability to participate in vigorous exercise and competitive sports. Principles of exercise testing and prescription for individuals with these conditions. Environmental and nutritional aspects of exercise.

Kin 471. Measurement in Physical Education. (Dual-listed with 571). (3-0) Cr. 3. S. Study of grading, assessment and evaluation in physical education with a focus on measuring cognitive and psycho-motor achievement.

Kin 472. Neural Basis of Human Movement. (Dual-listed with 572). (3-0) Cr. 3. S. *Prereq: 372 or Psych 310.* Addresses the role of the central nervous system in the control of voluntary human movement, with the focus on the cerebral cortex, basal ganglia and cerebellum. Content organized around specific nervous system damage (such as stroke, apraxia, spasticity, or spinal cord damage) and functional movements (such as reaching and grasping, balance and gait). Converging evidence from human movement disorders, brain imaging, animal lesion and single cell studies provide the primary basis for the content. Nonmajor graduate credit.

Kin 475. Physical Education Curriculum Design and Program Organization. (Dual-listed with 575). (3-0) Cr. 3. F. *Prereq: Admission to University Teacher Education Program.* Current theory, practices and principles applied to curriculum development for programs in physical education, K-12. Organizing for teaching in a variety of school settings.

Kin 480. Functional Anatomy. (3-0) Cr. 3. S. *Prereq: 355; Biol 155 or 255 and 256.* The structure and function of human muscular, skeletal and nervous systems. The relationship of these systems to efficient and safe human motion. Nonmajor graduate credit.

Kin 485. Internship in Sport and Exercise Science. Cr. arr. *Prereq: Senior classification and advance registration.* Observation and practice in selected sport and exercise science agencies. Satisfactory-fail only.

A. Health/Fitness Management. Prereq: C- or better in 458 and 459, Kinesiology and Health majors only. Cumulative GPA 2.0.
B. Sport and Physical Activity. Prereq: Kinesiology and Health majors only. Cumulative GPA 2.0.

Kin 488. Research topics in Athletic Training. Cr. arr. Repeatable. F.S. *Prereq: Permission of athletic training program director.* Clinical experiences in application of athletic training techniques under supervision of certified athletic trainers. Participation in monthly research journal discussion. Satisfactory-fail only.

Kin 489. Review of Athletic Training Competencies and Clinical Proficiencies. Cr. R. F.S. *Prereq: Senior classification, permission of athletic training program director.* Preparation for professional endorsement and certification by review of required competencies and clinical proficiencies. Required for endorsement or approval to sit for Board of Certification Exam. Satisfactory-fail only.

Kin 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits from Kin advanced core and permission of coordinator.* Independent study of problems of areas of interest in exercise and sport science and related areas.
A. Exercise and Sport Science
B. Coaching
H. Honors

Kin 495. Seminar in Exercise and Sport Science. Cr. arr. *Prereq: Senior classification.* Satisfactory-fail only.

Kin 501. Research Methods in Physical Activity. (3-0) Cr. 3. Repeatable. *Prereq: Graduate classification in kinesiology and health.* Methods and techniques used in the design and interpretation of research involving physical activity. Emphasis on styles of writing, library use, and computer applications.

Kin 505. Research Laboratory Techniques in Exercise Physiology. (0-4) Cr. 2. *Prereq: Kin 358 or equivalent course with basic laboratory experience.* Application and use of laboratory research equipment in exercise physiology, including operation, calibration, and use in selected situations.

Kin 510. Advanced Medical Aspects of Exercise. (2-0) Cr. 2. *Prereq: Kin 358.* The role of exercise in preventive medicine. Impact of exercise on various diseases, and the effect of various medical conditions on the ability to participate in vigorous exercise and competitive sports. Principles of exercise testing and prescription for individuals with these conditions.

Kin 512. Methods in Physical Education. (3-0) Cr. 3. S. Study of learning and teaching in physical education for elementary and secondary schools.

Kin 516. Quantitative Analysis of Human Movement. (3-1) Cr. 3. *Prereq: Kin 355.* Application of the principles of mechanics to the analysis of human motion. Investigation of the effects of kinematics and kinetics on the human body with special emphasis on exercise and sport applications. Includes consideration of two-dimensional and three-dimensional imaging techniques and force measurements.

Kin 517. Musculoskeletal Modeling. (3-1) Cr. 3. F. *Prereq: 355 or permission from instructor.* Systematic problem-solving approaches and design of computer programs for biomechanical analyses. Estimation of anthropometric parameters and mechanical properties of muscles, bones, and joints. Integration of anthropometrics, kinematics, and muscle mechanics into simulations of human movement.

Kin 518. Student Teaching in Elementary Physical Education. (0-8) Cr. 8. F.S. *Prereq: 512, 570, 575.* Student teaching for 8 weeks in an elementary school.

Kin 519. Student Teaching in Secondary Physical Education. (0-8) Cr. 8. F.S. *Prereq: 512, 570, 575.* Student teaching for 8 weeks in a middle or high school.

Kin 520. The Social Analysis of Sport. (3-0) Cr. 3. *Prereq: 360; open to majors only or by permission of instructor.* Sociological analysis of sport with emphasis on Sociological theory, sports structure, and function in modern industrialized Society; the systems of sport in regard to their role structure; formal organization, and professionalization and its differentiation along social class, age, and sex.

Kin 521. Advanced Topics in Exercise and Sport Psychology. (3-0) Cr. 3. *Prereq: 365 or 366, 3 courses in psychology; open to majors only or by permission of instructor.* Aspects of psychology which form a basis for understanding and explaining behavior in the context of exercise and sport. Emphasis on evaluating published research, particularly theory and research methodology. Student presentations.

Kin 531. Youth Sports. (Dual-listed with 331). (3-0) Cr. 3. S. The research findings from non-school related sport programs for children and adolescents and how these impact programs, parents and children including bio-physical, social, psycho-motor and cognitive factors.

Kin 549. Advanced Vertebrate Physiology I. (Cross-listed with An S, B M S). (3-0) Cr. 3. F. *Prereq: Biol 335; credit or enrollment in BBMB 404 or 420.* Neurophysiology, sensory systems, muscle, neuroendocrinology, endocrinology.

Kin 550. Advanced Physiology of Exercise I. (2-3) Cr. 3. *Prereq: 505.* Concepts and methods of assessing neurological, muscular, cardiovascular, and respiratory adjustments to exercise.

Kin 551. Advanced Physiology of Exercise II. (2-3) Cr. 3. *Prereq: 505.* Analysis of factors affecting work capacity and performance. Human energy metabolism concepts and measurement.

Kin 552. Advanced Vertebrate Physiology II. (Cross-listed with An S, B M S, NutrS). (3-0) Cr. 3. *Prereq: Biol 335; credit or enrollment in BBMS 404 or 420.* Cardiovascular, renal, respiratory, and digestive physiology.

Kin 558. Physical Fitness - Principles, Programs and Evaluation. (2-3) Cr. 3. *Prereq: Kin 358.* Physiological principles of physical fitness, design and administration of fitness programs; testing, evaluation, and prescription; electrocardiogram interpretation.

Kin 560. Principles of Motor Control and Learning. (2-3) Cr. 3. *Prereq: Kin 372.* Theoretical perspectives of motor control and learning will be examined as well as factors that facilitate motor learning. Motor control and learning will also be addressed by studying functional tasks such as reach and grasp, posture and locomotor, handwriting, catching and/or speech.

Kin 561. Motor Development. (2-0) Cr. arr. *Prereq: Psych 230.* The physical development and characteristic reactions of children in relation to motor performance. Identification of special psychomotor needs of various age groups of children. All literature and theories applied to the physical education environment.

Kin 570. Physical Activity Assessment for Health Related Research. (2-2) Cr. 3. This course will cover the broad scope of research in physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques since accurate measures are needed to more accurately assess the health benefits from physical activity and to evaluate the effectiveness of behavioral interventions designed to promote physical activity.

Kin 571. Measurement in Physical Education. (Dual-listed with 471). (3-0) Cr. 3. S. Study of grading, assessment and evaluation in physical education with a focus on measuring cognitive and psycho-motor achievement.

Kin 572. Neural Basis of Human Movement. (Dual-listed with 472). (3-0) Cr. 3. *Prereq: Kin 372 or Psych 310.* Addresses the role of the central nervous system in the control of voluntary human movement, with the focus on the cerebral cortex, basal ganglia and cerebellum. Content organized around specific nervous system damage (such as stroke, apraxia, spasticity, or spinal cord damage) and functional movements (such as reaching and grasping, balance and gait). Converging evidence from human movement disorders, brain imaging, animal lesion and single cell studies provide the primary basis for the content.

Kin 575. Physical Education Curriculum Design and Program Organization. (Dual-listed with 475). (3-0) Cr. 3. F. Current theory, practices and principles applied to curriculum development for programs in physical education, K-12. Organizing for teaching in a variety of school settings.

Kin 590. Special Topics. Cr. arr. Repeatable.
A. Physical Education
B. Health and Exercise Promotion
D. Exercise Physiology
E. Sport Sociology
F. Sport/Exercise Psychology
G. Motor Behavior
H. Biomechanics
I. Human Growth and Puberty

Kin 591. Supervised Field Experience. Cr. arr. *Prereq: 10 graduate credits in health and human performance and/or related areas.* Supervised on-the-job field experience in special areas.
A. Physical Education
B. Health and Exercise Promotion
D. Exercise Physiology

Kin 595. Adapted Physical Education. (Dual-listed with 395). (2-3) Cr. 3. F. *Prereq: 375.* Specific disabling conditions in terms of etiology, characteristics, needs, and potential for movement experiences. Techniques of assessment, prescription, adaptation of activities, methods, and program planning. Laboratory experience required. Kin 595 may not be taken by students who have previously earned credit in Kin 395.

Kin 599. Creative Component. Cr. arr. Repeatable.

Kin 615. Seminar. Cr. arr. Repeatable.

Kin 620. Advance Research Methods in Physical Activity. (3-0) Cr. 3. S. *Prereq: 501, Stat 401 and 402. Doctoral students only.* Culminating seminar designed to synthesize Statistical and design courses with practical research issues using data from physical activity.

Kin 699. Research. Cr. arr. Repeatable.

Athletics (Ath)

Courses primarily for undergraduate students

Ath 101. Intercollegiate Athletics. Cr. 1. Repeatable. F.S. *Prereq: Permission of head coach.* Limited to 1 credit per year to a maximum of 4. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for Kin 166 or any skill technique course in the same sport. Satisfactory-fail only.
B. Basketball (men)
C. Basketball (women)
D. Cross Country (men)
E. Cross Country (women)
F. Football (men)
G. Golf (men)
J. Gymnastics (women)
K. Softball (women)
M. Swimming/Diving (women)
O. Tennis (women)
P. Track and Field (men)
Q. Track and Field (women)
R. Volleyball (women)
S. Wrestling (men)
T. Golf (women)
U. Soccer (women)

Dance (Dance)

Dance 120. Modern Dance I. (0-3) Cr. 1. F.S. Introduction and practice of basic dance concepts, including preparatory techniques and guided creativity problems. No previous modern dance experience required. Satisfactory-fail only.

Dance 130. Ballet I. (0-3) Cr. 1. F.S. Introduction to the basic skills, vocabulary, and tradition of ballet with concentration on control and proper alignment. No previous ballet experience required. Satisfactory-fail only.

Dance 140. Jazz I. (0-3) Cr. 1. F.S. Introduction to the modern jazz style with concentration on isolation and syncopation. No previous jazz experience required. Satisfactory-fail only.

Dance 150. Tap Dance I. (0-3) Cr. 1. F. Instruction and practice in basic tap technique and terminology. No previous tap experience required. Satisfactory-fail only.

Dance 160. Ballroom Dance I. (0-2) Cr. 1. F.S. Instruction and practice in foxtrot, waltz, swing, cha cha, rhumba, tango, and selected contemporary dances. Satisfactory-fail only.

Dance 199. Dance Continuum. Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor.* Advance registration required. Continued instruction and practice in either modern dance, recreational dance, ballet, jazz and/or compositional skills. Satisfactory-fail only.

Dance 211. Fundamentals and Methods of social and World Dance. (1-3) Cr. 2. S. Skill enhancement, teaching, progressions with emphasis on world and social dance. Designed for kinesiology and health majors, open to others.

Dance 220. Modern Dance Composition. (1-3) Cr. 2. F. *Prereq: 120 or previous modern dance experience.* Theory and practice of the creative skills involved in solo and small group composition.

Dance 222. Modern Dance II. (0-3) Cr. 1. F. *Prereq: 120 or previous modern dance experience.* Dance techniques emphasizing strength, balance, endurance, rhythmic activity and extended combinations.

Dance 223. Modern Dance III. (0-3) Cr. 1. S. *Prereq: 222.* Continued experience in dance techniques and extended combinations. Emphasis on maturation of skill and artistry. Exposure to a variety of modern dance technical styles.

Dance 224. Concert and Theatre Dance. (Cross-listed with Thtre). (0-3) Cr. arr. Repeatable. F.S. *Prereq: By audition only.* Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Satisfactory-fail only.

Dance 232. Ballet II. (0-3) Cr. 1. S. *Prereq: Previous ballet experience.* Technical skills in the classical movement vocabulary. Emphasis on alignment, techniques, sequence development, and performing quality.

Dance 233. Ballet III. (0-3) Cr. 1. F. *Prereq: 232.* Concentration on technical proficiency at the intermediate level. Pointe work and partnering opportunities available.

Dance 242. Jazz II. (0-3) Cr. 1. S. *Prereq: Previous jazz dance experience.* Dance concepts within the jazz idiom. Instruction in extended movement sequences and artistic interpretation.

Dance 270. Dance Appreciation. (3-0) Cr. 3. F.S.SS. Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required.

Dance 320. Sound and Movement. (2-2) Cr. 3. S. *Prereq: 220.* Intermediate composition based on the relationship of movement to improvised sounds, rhythmic scores, and the musical works of composers from various periods.

Dance 360. History and Philosophy of Dance. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 270.* Study of the history of dance from early to modern times with emphasis on the theories and Philosophies of contemporary modern dance, dancers, and dance educators.

Dance 370. Advanced Studies in Dance. Cr. arr. Repeatable. F.S. *Prereq: 2 credits in dance.* Advance registration required. Designed to meet special interests and talents of students to include both group and independent study in various aspects of dance as a performing art including production, choreography, and performance.

Dance 384. Teaching Children's Dance. (1-3) Cr. 2. S. Content, experiences, and methods of a comprehensive dance program at the elementary school level. Theories and practice in guiding elementary school children in expressive movement experiences.

Dance 385. Methods of Teaching Dance. (1-3) Cr. 2. F. Methods and techniques of teaching social and world dance forms. Introduction to teaching educational modern dance.

Dance 386. Teaching Dance Technique and Composition. (1-3) Cr. 2. *Prereq: 320.* Teaching of dance as an expressive art form with emphasis on technique, rhythm, and the creative teaching process.

Dance 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in dance and permission of coordinator.* Independent study of problems or areas of interest in dance.

Health Studies (H S)

H S 105. First Aid and Emergency Care. (1-2) Cr. 2. F.S. Discussion and application of the basic techniques of administering first aid and cardiopulmonary resuscitation. ARC certification available.

H S 110. Personal and Consumer Health. (3-0) Cr. 3. F.S. Physical, mental, and social aspects of health as a basis for understanding and preventing health problems. False and misleading advertising and effects of cultists and faddists on consumer health. Study of legislation and agencies concerned with consumer protection and health insurance.

H S 215. Drug Education. (3-0) Cr. 3. *Prereq: Psych 101 or 230.* Use and abuse of mood modifying substances in contemporary Society. Includes study of tobacco, alcohol, and other drugs.

H S 275. Health Education in the Elementary School. (3-0) Cr. 3. *Prereq: HD FS 102 or 226.* An overview of school health services, healthful school living, and health instruction for teachers at the elementary level. Credit for both H S 275 and 375 may not be applied toward graduation.

H S 305. Instructor's First Aid and Cardio-pulmonary Resuscitation. (1-2) Cr. 2. S. *Prereq: 105, current Standard First Aid and Community CPR Certification.* Discussion and practice of skills needed to teach first aid and cardiopulmonary resuscitation. ARC certification available.

H S 310. Community and Public Health. (3-0) Cr. 3. *Prereq: 110.* Introduction to community health problems, programs of prevention, environmental health agencies, and health services. Study of local, state, and national community health agencies, their purposes and functions.

H S 350. Human Diseases. (3-0) Cr. 3. *Prereq: 110 and Biol 255, 256.* Discussion of disease process and ill-health in the twentieth century. Emphasis on epidemiology, prevention, treatment, and the understanding of the etiology of communicable and noncommunicable diseases.

H S 375. Teaching-Learning Process in Health Education. (3-0) Cr. 3. *Prereq: 105, 110, 215.* Principles, methods, materials, and resources involved in the teaching of health. Includes organization and development of the health education curriculum (K-12). Credit for both H S 275 and 375 may not be applied toward graduation.

H S 380. Worksite Health Promotion. (3-0) Cr. 3. *Prereq: KIN 258, 366, FS HN 167.* The design and implementation of worksite health promotion programs and the benefits these programs have for both employees and employers. Review of various health risk appraisals and planning theory-based incentive programs designed to promote positive lifestyles.

H S 385. Search Strategies for Field Experience and Employment. (Cross-listed with Kin). Cr. R. F.S. *Prereq: Junior classification, to be taken minimum of two semesters prior to KIN 485.* Search techniques and preparation of materials utilized for acquisition of jobs and/or internships in kinesiology and health fields. Internship process and policies/procedures will be covered. Satisfactory-fail only.

H S 390. Administration of the School Health Program. (3-0) Cr. 3. F. *Prereq: 310.* History and legal basis of school health programs. Procedures for developing, organizing, administering, and evaluating a modern program of health services, healthful school living, and health instruction. Includes administration, community and school relationships.

H S 417. Supervised Teaching in Health Education in the Secondary School. Cr. 12. F.S. *Prereq: 375.* Advance registration required.

H S 430. Community Health Program Development. (3-0) Cr. 3. F. *Prereq: 380.* Techniques of needs assessment, program design, administration, and evaluation of community health education programs in various settings.

H S 485. Directed Field Experience in Health Education. Cr. arr. *Prereq: All required health studies courses and permission of coordinator.* Advance registration required. Supervised experience in health education. Satisfactory-fail only.

H S 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in health studies and permission of coordinator.*

Landscape Architecture

www.design.iastate.edu/LA/

Douglas Johnston, Chair of Depatment

Distinguished Professor (Emeritus): Dyas

Professors: Anderson, Engler, Hightshoe, Johnston, Keller

Professors (Emeritus): Boon, Harvey, Lane

Associate Professors: Badenhope, Grundmann, Hohmann, Martin, Wagner

Assistant Professors: Rogers, Seeger

Assistant Professors (Adjunct): Kane, M. Miller, Pritchard

Lecturers: Belkacemi, Groe

Undergraduate Study

Landscape architecture is an environmental design discipline. Landscape architects actively shape the human environment: they map, interpret, imagine, draw, build, conceptualize, synthesize, and project ideas that transform landscapes. The design process involves creative expression that derives from an understanding of the context of site (or landscape) ecosystems, cultural frameworks, functional systems, and social dynamics. Students in our program learn to change the world around them by re-imagining and re-shaping the landscape to enhance its aesthetic and functional dimensions, ecological health, cultural significance, and social relevance. The profession addresses a broad range of landscapes in urban, suburban, rural, and wilderness settings. The scale of landscape architecture projects varies from broad, regional landscape analysis and planning to detailed, individual site-scale designs. The curriculum at Iowa State prepares students for this challenge as they develop their abilities to design and communicate ideas through a sequence of foundational courses and studios.

Graduates draw upon scientific and historical/cultural knowledge in applying their creative and technical skills in the planned arrangement of natural and constructed elements on the land with a concern for the stewardship and conservation of natural, constructed, and human resources. The resulting environments serve useful, aesthetic,

safe, and enjoyable purposes. Graduates are able to communicate clearly and work effectively with others on complex land design and planning problems. They understand the ethical, social, and environmental/ecological dimensions of issues involving changes in the landscape.

The curriculum includes one year of the College's core design program followed by a four-year professional program. Admission to the professional program is subject to the approval of a faculty committee at the completion of the preprofessional program. Scholastic performance, aptitude, and personal development are the qualifications considered. The department also cooperates in the undergraduate minor in design studies.

Following admission to the professional program, students embark on the traveling studio during the fall semester of their second year. This studio is a full semester's credit of integrated departmental courses and involves extensive travel within and beyond the great midwest region of North America, to study regional natural systems and the cultural response to those systems.

To enhance the study of landscape architecture in off-campus settings, the department recommends that each student participate in optional College or Department-led international study opportunities such as the Rome or Pacific Rim summer offerings. In addition, the department requires students to choose from among the following three options during the spring and summer of their fourth year: a professional internship, an independent study abroad experience, or National Student Exchange. The department assists students with placement, and additional information through the department and the College of Design's Career Services Office.

Personal laptop/notebook computers and appropriate software are regularly used in classes starting with the second year. Refer to the college for options and recommendations.

The curriculum is accredited by the Landscape Architecture Accreditation Board and provides the education which, combined with experience, is necessary for professional licensure.

For undergraduate curriculum in landscape architecture leading to the degree bachelor of landscape architecture, see *College of Design, Curricula.*

Graduate Study

The department offers opportunities for post-professional study leading to the degree master of landscape architecture. Minor work is offered to students taking major work in other departments.

The M.L.A. degree is granted upon completion of 36 credits and the acceptance of a thesis or creative component. Typically, the program will require four semesters of study for students with a bachelor's degree in landscape architecture. Students with a bachelor's degree in landscape architecture may also enter a special program to earn both the M.L.A. and the master of community and regional planning (M.C.R.P.) degrees in three years. Graduate students who do not possess a bachelor's degree in landscape architecture may complete additional coursework in the fundamental skill areas of the profession. This is accomplished by concurrent enrollment in the undergraduate program to earn the B.L.A. degree before fully engaging in graduate study. The time necessary to earn the B.L.A. in addition to the M.L.A. will vary according to the student's background upon admission. Students interested in the concurrent B.L.A./M.L.A. and double degree M.L.A./M.C.R.P. programs should contact the department to receive a detailed description of requirements.

Graduates have a broad understanding of landscape architecture and related disciplines. They are able to communicate effectively with colleagues in the sciences and/or humanities as well as in the allied professions. Graduates are prepared to work individually and in multidisciplinary teams to address complex problems dealing with the cultural/ecological environment. They are skilled at undertaking research and/or creative activities and communicating the results of these efforts in a concise and persuasive manner. The department participates in the Graduate Certificate Program in Geographic Information Systems (GIS), administered by the Department of Community and Regional Planning.

Courses primarily for undergraduate students

L A 201. Studio: Landscape Interpretation and Representation. (1-15) Cr. 6. F. *Prereq: Enrollment in the professional program.* Reading and representing varied landscapes; development of aesthetic sensitivity to the geomorphology, vegetation and cultural influences on these landscapes. Small scale interventions and exploration of landscape phenomena and change. Emphasis on a variety of documentation and drawing techniques.

L A 202. Studio: Site Design I. (1-15) Cr. 6. S. *Prereq: 201.* Fundamental issues of landscape planning and design at a site scale. Projects introduce a variety of (objective and subjective) site inquiry methods, space and place making, and sensitive integration of architecture and landscape for specific land uses. User needs, precedent study, programming, site engineering, planting design, and outdoor space design expressed through a variety of three-dimensional modeling, graphic, and written media.

L A 221. Native Plants of the Savanna Ecotone. (2-3) Cr. 3. F. *Prereq: Enrollment in the professional program.* Observation and study of the wetland, prairie, and woodland vegetation native to the savanna ecotone. Emphasis on plant communities, their distribution, structure, habitat and aesthetics. Plant identification and use in landscape design. Precedent and case studies of vegetation preservation, restoration and use in built works.

L A 222. Introduced Plants of the Midwest. (2-3) Cr. 3. S. *Prereq: 221.* Identification, observation and study of plants introduced to cultivation in the Midwest region. Plant cultural requirements, including adaptations to climate changes, solar exposure and soil conditions. Investigation of history of plant introduction and use in designed landscape, including consequent impacts of plant introduction such as plant invasion. Introduction to planting design at the site scale, including matching plant cultural requirements to site conditions, functional uses of plants and expressive composition using plant form, texture and color.

L A 241. Developing Identity as a Landscape Architect. (1-0) Cr. 1. F. *Prereq: Enrollment in the professional program.* Designed to accompany L A 201, 221, 272, 281. Development of life skills for conflict resolution, effective interpersonal communication, and CPR/First Aid. Examination of personal values as they relate to the backgrounds, abilities, attitudes, and values of others; exploration of how these influence personal decision-making and group interaction. Reading, discussion, class activities, journal-keeping, writing.

L A 272. Cultural Landscape Studies. (3-0) Cr. 3. F. *Prereq: Enrollment in the professional program.* Exploration of cultural landscapes, from broad settlement patterns to individual sites, with an emphasis on the origins and evolution of landscapes. Investigation of relationships between vernacular and designed landscapes. Landscapes considered as modes of cultural production that shape and are shaped by social, political, and economic processes. Exploration of landscapes as persistent (yet ephemeral) repositories of culture. Lectures, reading, field studies, and writing.

L A 274. The Social and Behavioral Landscape. (Cross-listed with Dsn S). (3-0) Cr. 3. S. Exploration of social and behavioral factors pertinent to design of the domestic, civic, and commercial landscape. Focus on working familiarity with design principles as they relate to the behavior and activities of people across a broad demographic and cultural spectrum; application of these principles to design of outdoor environments. Lectures and discussions, including group exercises and field trips.

L A 281. Investigating Landscape form, Process, and Detail. (1-6) Cr. 3. F. *Prereq: Enrollment in professional program.* Exploration of the poetics and principles of landscape construction. Investigation and interpretation of landform and geomorphic processes such as the hydrologic cycle, erosion, and sedimentation. Close observation and representation of detail design, with an emphasis on material types, their connections and weathering. Readings, field studies, and drawings.

L A 285. The National Parks: Culture and Nature. (Cross-listed with NREM). (2-0) Cr. 2. Alt. F., offered 2010. Reviews cultural setting for park establishment and management, ideas about wilderness, and Philosophy of parks as types of land use. History of landscape architecture in the National Park Service, the development of American parks, the history of park wildlife management and nature interpretation. Recent initiatives in ecosystem management, community conservation, and international points of comparison. Readings, discussion, exercises.

L A 301. Site Design II. (1-15) Cr. 6. F. *Prereq: 202.* Development of half-acre to hundred-acre landscape design and planning proposals. Apply critical methodological frameworks to shape site systems while providing appropriate support for diverse user groups and creating culturally meaningful places. Assess and interpret a program of use, organize subjective and objective site inventory and analysis, develop functional and poetic design strategies for infrastructure and natural systems, and craft artistic and functionally explicit landscape architectural proposals. Development of appropriate technique and high level of craft in representations to support design thinking process and final scheme presentation.

L A 302. Ecological Design at the Regional Scale. (1-15) Cr. 6. S. *Prereq: 301, 381, 465 and Agronomy 156.* Application of ecological theories and processes in design and planning at the hundred plus-acre scale specifically focusing on urban and urban fringe landscapes. Apply advanced landscape analysis of soil, water, and vegetation utilizing geographic information systems. Particular focus on stream and wetland restoration, mitigation, and regulations and developing design representations for public use.

L A 309. Field Travel. Cr. 1. Repeatable. F.S.SS. *Prereq: Enrollment in the professional program and permission of instructor.* Observation of professional practice and landscapes in urban, rural, and wilderness areas. Satisfactory-fail only.

L A 322. Fundamentals of Planting Design. (2-6) Cr. 4. Alt. F., offered 2009. *Prereq: 221.* The art and techniques of creating plant compositions in the landscape that respond to cultural and biophysical contexts. Investigation of soil properties and plant/soil relationships relevant to the built environment. Methods of site inventory and analysis, developing plant palettes and composing plant assemblages that address expressive and functional needs. Introduction to the techniques of preparing planting plans, including standards for plant selection, plant lists and plant specification.

L A 341. Contemporary Landscape Architecture. (1-0) Cr. 1. S. *Prereq: 301.* Exploration of contemporary landscape architecture practice through individualized research into practicing firms. Preparation of paper and presentation outlining broad framework and specific parameters of a selected area of contemporary practice using specific projects as examples. Work may result in invitation of current practitioner(s) as a lecture series or event. Resume and portfolio preparation in advance of required off-campus semester (L A 451 A, B or C).

L A 371. Landscape Architectural History: 1750 to Present. (Cross-listed with Dsn S). (3-0) Cr. 3. S. Investigation of landscape design concepts and trends as observed over time, from approximately 1750 to the present, with emphasis on the United States and Europe. Examination of significant figures and outstanding works (sites, gardens, landscapes, monuments, subdivisions, city plans, etc.) of varied geographic regions. Analysis of the social, economic, political, and technical forces contributing to the development of landscape design styles, vocabulary, and literature. Lectures, readings, projects, research papers.

L A 373. Landscape Architectural History: Prehistory to 1750. (Cross-listed with Dsn S). (3-0) Cr. 3. F. Investigation of international landscape design concepts and trends as observed over time, from pre-history to the mid 18th century. Examination of significant figures and outstanding works (sites, gardens, landscapes, monuments, subdivisions, city plans, etc.) of varied geographic regions. Analysis of the social, economic, political, and technical forces contributing to the development of landscape design styles, vocabulary, and literature. Lectures, readings, projects, research papers.

L A 381. Shaping the Land. (3-0) Cr. 3. F. *Prereq: 281, Math 141.* Manipulation of the land form and its change through the use of contour maps and models. Transformation of the landform and its implications on the surrounding environment. Surface drainage and storm water runoff calculations, contour manipulation to insert swales, channels, ditches, walls, walks, steps, terraces, buildings, road layout and alignment and other constructed elements. Class exercises, case study precedents, and preliminary construction documents.

L A 401. Community Design. (1-15) Cr. 6. F. *Prereq: 402.* Design of urban and/or rural places utilizing participatory methods and techniques. Projects address midwestern community issues including reuse of abandoned sites, in-fill, recreation, and peri-urban agriculture. Emphasis on development of user-client relationship skills and design research.

L A 402. Urban Design. (1-15) Cr. 6. F. *Prereq: 302.* Comprehensive planning and design for urban Sites or for sites within urban contexts. Projects typically include planning for a variety of integrated land uses, and cover the full range of design scales from master planning to proposals for site details. Emphasis on written and verbal as well as graphic communications. Integrated seminar component.

L A 403. Senior Thesis Preparation Tutorial. Cr. 2. F. *Prereq: 402, permission of thesis advisor, enrollment in Honors program.* Preparation for senior thesis.

L A 404. Advanced Landscape Architectural Design. (Cross-listed with Dsn S). (1-15) Cr. 6. Repeatable. S. *Prereq: L A 401.* Advanced forum for the demonstration of sophistication in landscape architectural design. Experimentation and innovation are encouraged.

L A 405. Senior Thesis. (0-15) Cr. 6. S. *Prereq: 401, 402, 403, and enrollment in Honors program; permission of advisor, chair and thesis advisor.* Individual advanced forum for the demonstration of sophistication in landscape architectural design. Experimentation and innovation are expected.

L A 421. Advanced Planting Design. (2-6) Cr. 4. Alt. S., offered 2011. *Prereq: 221, 222 or equivalent.* Introduction to the theory and practice of planting design, with emphasis on the ecological, cultural and aesthetic factors affecting planting design and vegetation management in the built environment. Three venues for collaborative learning form the basis of the course: topical research inquiry, case history investigation and completion of one comprehensive project design.

L A 441. Professional Practice. (2-0) Cr. 2. S. *Prereq: 481.* Studies of conventional and developing forms of public and private practice. Explore relationships between professional life and the culture of the professional design firm; investigate firm identities and structures; understand design projects, their delivery process, and contractual agreements. Lecture and class discussion.

L A 451. Landscape Architecture Professional Internship, Study Abroad, or National Student Exchange. Cr. R. Repeatable. F.S.SS. *Prereq: L A 341, permission of adviser and chair.* Independent educational enrichment through exploration of landscape architectural practice in a professional internship (451A), international studies (451B), or out-of-region national study experience (451C)
A. Professional Internship.
B. Study Abroad.
C. National Student Exchange.

L A 461I. Introduction to GIS. (Cross-listed with la LL, EnSci, Env S). Cr. 4. SS. Descriptive and predictive GIS modeling techniques, spatial Statistics, and map algebra. Application of GIS modeling techniques to environmental planning and resource management. Nonmajor graduate credit.

L A 465. Landscape Change and Conservation. (Dual-listed with 565). (Cross-listed with NREM). (3-0) Cr. 3. F. *Prereq: 202.* Exploration of issues in landscape ecology and conservation biology relevant to landscape change, design, and planning. Examination of foundational principles and their applications across a continuum of land uses, from wilderness to urban areas.

L A 478. Topical Studies in Landscape Architecture. (Dual-listed with 578). (Cross-listed with Dsn S). Cr. arr. Repeatable. F.S.SS. *Prereq: L A 371 or senior classification or graduate standing.* Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.
A. Landscape Design
B. Planting Design
C. Construction
D. History/Theory/Criticism
E. Landscape Planning
F. Urban Design
G. Graphics
H. Honors
I. Interdisciplinary Studies
J. International Studies
K. Computer Applications
L. Ecological Design
M. Social/Behavioral
N. Natural Resources

L A 481. Landscape Construction. (1-4) Cr. 3. F. *Prereq: 381.* Development of construction details with emphasis on materials and their aesthetic and functional uses as building materials. Explore characteristics and uses of construction materials; investigate structural theory; application of wood systems, paving systems, retaining walls, masonry and concrete systems, and metals. Preliminary preparation of construction documents.

L A 482. Advanced Landscape Construction. (1-4) Cr. 3. S. *Prereq: 481.* Advanced site construction issues, with emphasis on water and irrigation systems, mechanical and electrical systems, site lighting, proposal preparation, project scheduling, project costing and estimating. Final construction document preparation including drawings and specifications.

L A 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: Written approval of instructor and department chair on required form.* Investigation of a topic of special interest to the student.
A. Landscape Design
B. Planting Design
C. Construction
D. History
E. Landscape Planning
F. Urban Design
G. Graphics
H. Honors
I. Interdisciplinary Studies
J. International Studies
K. Computer Applications
L. Ecological Design
M. Social/Behavioral
N. Natural Resources

Courses primarily for graduate students, open to qualified undergraduate students

L A 501. Landscape Architectural Theory. (3-0) Cr. 3. S. *Prereq: Admission to graduate program or permission of instructor.* Exploration of major theories of landscape architectural design and their relationships to broader cultural and theoretical practices. Examination of key texts and projects in landscape architecture, architecture, art, and related fields. Emphasis on developing critical ways of analyzing ideas. Lectures, readings, discussion, and writings.

L A 541. Principles of Research for Landscape Architects. (3-0) Cr. 3. F. *Prereq: Admission to graduate program or permission of instructor.* Examination of design inquiry and research methods appropriate to landscape architectural projects, including bibliographical, historical, numerical, statistical, survey, and geographical methods. Readings, discussions, and application problems. Preparation of a research proposal.

L A 562. Studio in Resource Conservation and Management. Cr. arr. Repeatable. S. *Prereq: 465 or 565, admission to graduate program or permission of instructor.* Developing plans and policies that feature ecological landscape description, planning, and resource conservation. Hands-on field experience with professional resource planners and managers. Contact hours (1-3) to (1-15) depending on number of credits.

L A 565. Landscape Change and Conservation. (Dual-listed with 465). (Cross-listed with NREM). (3-0) Cr. 3. F. *Prereq: 202.* Exploration of issues in landscape ecology and conservation biology relevant to landscape change, design, and planning. Examination of foundational principles and their applications across a continuum of land uses, from wilderness to urban areas.

L A 567. Advanced GIS Landscape Modeling. (0-6) Cr. 3. *Prereq: 302 or C R P 451/551.* Application of Geographic Information Systems (GIS) modeling techniques to landscape planning and management issues. Selection, acquisition, and conversion of digital landscape data. Modeling applications for studio projects, outreach projects, and research projects.

L A 572. Landscape Architectural History and Preservation. (3-0) Cr. 3. F. *Prereq: Admission to graduate program or permission of instructor.* Methods applied to preservation of historic landscapes, including current federal standards and regulations. Outstanding historic landscapes and recent landscape preservation projects of varied time periods and scales used to familiarize students with methods of archaeological and documentary research, Philosophical issues of significance and interpretation, and technical concerns of treatment, management, and maintenance. Lectures, readings, discussion, and independent and group research.

L A 578. Topical Studies in Landscape Architecture. (Dual-listed with 478). (Cross-listed with Dsn S). Cr. arr. Repeatable. F.S.SS. *Prereq: Senior classification or graduate standing.* Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.
A. Landscape Design
B. Planting Design
C. Construction
D. History/Theory/Criticism
E. Landscape Planning
F. Urban Design
G. Graphics
H. Honors
I. Interdisciplinary Studies
J. International Studies
K. Computer Applications
L. Ecological Design
M. Social/Behavioral
N. Natural Resources

L A 580. Thesis, Creative Component Tutorial. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of major professor.* Hands-on participation in a creative or research activity in the student's area of specialization. Development of a detailed prospectus that defines the thesis or creative component.

L A 582. Research Colloquium. (1-0) Cr. 1. Repeatable. F. *Prereq: Admission to graduate program or permission of instructor.* Examination and discussion of professional practice, research in landscape architecture, and environmental planning through research and projects by faculty and graduate students in landscape architecture and related fields.

L A 590. Special Topics. Cr. arr. Repeatable. F.S.SS.
A. Landscape Design
B. Planting Design
C. Construction
D. History
E. Landscape Planning
F. Urban Design
G. Graphics
H. Honors
I. Interdisciplinary Studies
J. International Studies
K. Computer Applications
L. Ecological Design
M. Social/Behavioral
N. Natural Resources

L A 591. Environmental Law and Planning. (Cross-listed with C R P, Dsn S). (3-0) Cr. 3. S. *Prereq: Graduate classification.* Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

L A 599. Creative Component. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of major professor.* Comprehensive study and original development of a project selected by the student and approved by the major professor. Completed project must be submitted to and approved by a graduate faculty committee as evidence of mastery of the principles of landscape architecture.

Course for graduate students, major or minor

L A 699. Thesis Research. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of major professor.*

Liberal Arts and Sciences Cross-Disciplinary Studies

Zora D. Zimmerman, Associate Dean for Academic Programs

Cross-disciplinary studies in the College of Liberal Arts and Sciences encompass a variety of interdisciplinary and cross-disciplinary areas of study as well as courses that cross established departmental lines. Students may enroll in Program courses; declare majors or minors where offered, or develop an Interdisciplinary Studies major built upon Program offerings. (see Index for Program courses).

Cross-Disciplinary Programs

African American Studies Program (Minor only) see *Index, African and African American Studies.*

American Indian Studies Program (Minor only) see *Index, American Indian Studies.*

Biological/Premedical Illustration Program (Major or minor) see *Index, Biological/Pre-Medical Illustration.*

Classical Studies (Minor only)
see *Index, Classical Studies.*

Communication Studies (Major or minor)
see *Index, Communication Studies.*

Criminal Justice Studies (Minor only) see *Index, Criminal Justice Studies.*

International Studies Program (Second major or minor) see *Index, International Studies.*

Latino/a Studies, U.S. Program

Program Director: H. Avalos

U.S. Latino/a Studies is devoted to the study of Mexican Americans, Puerto Ricans, Cuban Americans and other groups of people living in the United States who trace their ancestry to the Spanish-speaking countries of Latin America, and who comprise the fastest growing ethnic groups in America. U.S. Latino/a Studies is to be distinguished from Latin American Studies, which focuses on people living in Latin America. The methodology of U.S. Latino/a Studies is cross-disciplinary, drawing from the methods established inanthropology, sociology, political science, economics, history, literary studies, and other fields.

In addition to the general requirements of a major in Interdisciplinary Studies, (see Index, Interdisciplinary Studies) a major in Interdisciplinary Studies focusing on U.S. Latino/a Studies would require the completion of 24 credits. At least 15 of the 24 credits must be in courses numbered 300 and above. These 24 credits in the major focusing on U.S. Latino/a Studies must include the following courses, each of which is worth three credits: LAS 211 (Introduction to U.S. Latino/a Studies), Anthr 323 (Peoples and Cultures of Latin America), Engl 344 (U.S. Latino/a Literature); Hist 441 (History of Mexico and Central America) or a course in U.S. Latino/a history, Relig 338 (The Latino/a Religious Experience), and Soc 332 (The Latino/a Experience in U.S. Society). The student must have an average grade of C in the required courses of the major. Fulfillment of the foreign language requirement with Spanish is strongly recommended, but not required. For a list of other eligible courses and more information on the U.S. Latino/a Studies Program, contact the program committee chair.

Linguistics Program (Major or minor; graduate minor) *see Index, Linguistics.*

Speech Communication Program (Major or minor) see Index, Speech Communication.

Teacher Education Program
see Index, Teacher Education, Courses and Programs.

Technology and Social Change (Minor, graduate minor) *see Index, Technology and Social Change.*

Women's Studies Program (Major or minor)
see Index, Women's Studies.

Interdepartmental Degree Programs

(Administered by the College of Liberal Arts and Sciences)

Bioinformatics and Computational Biology (Major only) *see Index, Bioinformatics and Computational Biology.*

Emerging Global Disease (Minor only)
see Index, Emerging Global Disease.

Entrepreneurial Studies (Minor only)
see Index, Entrepreneurial Studies.

Environmental Science (Major or minor)
see Index, Environmental Science.

Environmental Studies (Secondary minor or major) *see Index, Environmental Studies.*

Gerontology (Minor only)
see Index, Gerontology.

Certificate Programs

Community Leadership and Public Service (Certificate Only)
Interdisciplinary undergraduate program
Dianne Bystrom, Director

This interdisciplinary certificate program utilizes university courses offered in a variety of academic disciplines to provide a strong foundation and appropriate experiences for undergraduate students who plan to become community leaders and engage in public service—regardless of their profession—in the public, nonprofit or private sectors.

The program requires the completion of 21 credits through three, three-hour core required courses in leadership, speech communication and public administration; a three-hour elective course in communication; six hours of elective courses in leadership; and a three-hour capstone experience through a course, internship or study abroad experience.

The certificate will be awarded by the College of Liberal Arts and Sciences. Completion of the certificate will be noted on the student's transcript and via a certificate provided by the Registrar.

Objectives:
- Provide opportunities for students to learn about leadership and organizational theories, ethics and decision-making, principles of public service, effective communication, leadership practices in groups and organizations, and diversity issues.
- Develop leadership skills—including written and oral communication, creative thinking, personal management, group and organizational effectiveness, and problem-solving—important to students' careers, communities and personal development.
- Bring students into contact with faculty members from diverse academic departments, backgrounds and leadership experiences.
- Prepare students to undertake leadership roles in their careers and in service to their community through course work and co-curricular activities.

Learning outcomes:
Upon completion of the Certificate in Community Leadership and Public Service, students will:
- Demonstrate understanding of key concepts of leadership theories and effective practices within groups and organizations and diverse communities.
- Demonstrate understanding of key concepts of organizational theories, ethics and principles of public service.
- Demonstrate proficiencies in written and oral communication.
- Demonstrate awareness of cultural values and diversity issues as they pertain to community leadership and public service.
- Become engaged citizens through service to the university and larger community.

General requirements:
The Certificate in Community Leadership and Public Service requires 21 credits. At least 9 credits must be taken in courses numbered at the 300 level or above. At least 9 credits used for the certificate cannot be used to meet any other department, college or university requirement for the baccalaureate degree except to satisfy the total credit requirement for graduation and to meet credit requirements in courses numbered 300 or above. Courses for the certificate cannot be taken pass-fail. A cumulative grade point average of at least 2.0 is required in courses taken for the certificate.

The 21 credits required for the certificate are fulfilled by:

• 9 credits of core required courses—LAS 222, Leadership Styles and Strategies in a Diverse Society, 3 credits; Sp Cm 312, Business and Professional Speaking, 3 credits; and Pol S 371, Introduction to Public Administration, 3 credits.
• 3-credit communication course chosen from the designated list.
• 6 credits of leadership courses chosen from the designated list.
• 3 credits of a capstone course or experience, which can be fulfilled by a 3-credit course from the list of approved capstone courses, or a 3-credit internship with a community leadership or public service focus, or a 3-credit study abroad experience. Capstone courses focus on the scholarship of leadership in particular fields of study whereas an internship or study abroad provides a leadership-in-practice experience.
Required courses (9 credits): LAS 222, Sp Cm 312, Pol S 371.

Additional communication course (3 credits), from: Engl 302, 309, 412; Jl MC 305; Sp Cm 212, 322, 323,327

Additional leadership topic courses (6 credits), from: AESHM 287, 379; A E/C E/E E 388; AgEds 315; Con E 380; C R P 291, 293 332. 425, 429, 435, 455, 481, 484, 491, 492; Engr 150, 327X, HD FS 395, 445; LAS/W S 333; LAS 381; M E 412; M E/Hist 488; Mgmt 371, 419, 472; Pol S 310, 311, 344, 385, 413. 477, 480, 487; Soc 310, 334, 420, 435; Sp Cm 416, 417; U St 170; W S 301, 435

Capstone Course, Internship or Study Abroad (3 credits), from: AESHM 421, C R P 432, 475; Engl 418; HD FS 449; LAS/W S 488; M E/WLC 484; Pol S 475, Psych 450, Soc 464

Instead of a capstone course, students may complete a 3-credit internship. The internship must have a public service or community leadership focus and must be approved by the department of the student's major and the Community Leadership and Public Service Advisory Committee. Information on internships is available through the participating colleges and departments, including career services offices. Examples: LAS 380, 382, 490G, 491, 499; Pol S 499; W S 491.

Instead of a capstone course or internship, students may participate in a study abroad experience that includes 3 hours of credit. The study abroad experience must include a public service or community leadership focus. It must be approved by the student's major department and by the Community Leadership and Public Service Advisory Committee. Information is available through the ISU Study Abroad Center and international programs offices in the participating colleges and departments. Examples: International Leadership Seminar in Sydney, Australia; International Leadership in Educational Technology Academy in Spain and England; International Partnership for Service Learning and Leadership; College of Design Programs in Rome: Community and Regional Planning; LAS 395, Interdisciplinary Study Abroad Series.

Additional courses may be proposed and approved for inclusion in the list of communication, leadership and capstone courses applicable to the certificate program. Students and advisers should contact the Carrie Chapman Catt Center for Women and Politics, 309 Catt Hall, 294-3181, cattcntr@iastate.edu, www.las.iastate.edu/Catt-Center/ for the current list of courses.

Application and selection process: Enrollment is limited to 20 entering students per academic year, with applications reviewed twice each year. Selection will be based on current and past leadership experiences; previous leadership education and training; academic performance; and, most important, how completion of the certificate program will add value to the student's major/minor areas of study and future leadership goals.

Applicants should meet with their adviser on course planning and questions regarding prerequisites and then submit an application packet consisting of a Application for Admission form, Leadership Involvement Worksheet, and Proposed Program of Study form (signed by the adviser) by March 1 or October 1 to the Community Leadership and Public Service Advisory Committee, 309 Catt Hall, Iowa State University, Ames, IA, 50011-1305. The committee will be comprised of one representative each from the Catt Center, Public Policy and Administration, Speech Communication and Student Affairs and one representative from another participating department.

Latin American Studies (Certificate only)
(Interdepartmental undergraduate program)
Kathy S. Leonard, Director

The certificate in Latin American Studies is a cross-disciplinary course of study in the College of Liberal Arts and Sciences and is designed for undergraduates in any major who wish to enhance their degree and employment possibilities by adding expertise in Latin America and linguistic competence in a primary and secondary foreign language.

Completion of the Certificate is noted on the student's transcript, and via a Certificate provided by the Registrar

Objectives:
• Provide opportunities for students to develop skills and understanding about issues concerning Latin America by bringing them into contact with faculty members from many different academic backgrounds
• Provide students with an international immersion experience where they gain cultural awareness and sensitivity
• Prepare students for work or advanced study in Latin America, such as in foreign service, journalism, advocacy organizations, scientific or research institutions
• Help students acquire proficiency in at least two of the languages of Latin America (Spanish and Portuguese)
• Guide students in interdisciplinary study leading to an understanding of the multi-faceted picture of the past, present, and future of Latin America
Learning Outcomes:
Upon Completion of the Certificate in Latin American Studies, students will be able to:
• Demonstrate understanding of key concepts pertaining to Latin American cultural, historical and political events
• Understand, interpret and articulate the major processes, theories and problems of selected contemporary and historical issues in Latin America
• Demonstrate oral, aural, and written proficiency in a primary foreign language (Spanish or Portuguese) equivalent to the mid advanced level
• Demonstrate oral, aural, and written proficiency in a secondary foreign language (Spanish or Portuguese) equivalent to the low Intermediate level
• Effectively communicate with persons of Latin American cultures
• Become effective global citizens through knowledge and comparison of the cultures and issues of the United States and Latin American countries
• Be able to read Latin American cultural, literary, and historical texts in the target language with comprehension and analytical insight
• Demonstrate awareness of cultural values, beliefs, and ideologies of the various Latin American countries
• Demonstrate a thorough knowledge of the geography of the Latin American countries
General Requirements:
Requirements for the Certificate in Latin American Studies are satisfied through formal language instruction and by completing a minimum of 24 credits at the 300 level or above. Students will take coursework in at least four different disciplines and departments (Spanish, Portuguese, Anthropology, and Political Science) with other possible course offerings in LAS, History, Agriculture, and Agronomy.

Course Requirements:
Students will complete 12 credits of core courses: Pol S, 343, Anthr 323

(Should one of the above courses not be offered, students should consult the adviser to find an appropriate substitute).

Choice of one of the following 3 –credit courses: Span 332, 333

Choice of one of the following 3- credit courses: Anthr 337; Span 324, 322

Other Requirements:
Students will complete an additional 12 credits selected from the approved list of courses in Latin American Studies at the 300 level or above. At least one of these courses must be at the 400 level and approved by the Latin American Studies Program adviser.

• In order to stress the interdisciplinary aspect of the Certificate no more than three courses from one single department will count toward the Certificate.
•No more than 3 credits may be taken as a 490, independent study, and the topic must deal with Latin America.
• A minimum of 12 credits applied toward the Certificate cannot be used to meet any other departmental, college, or university requirement.
• Students may receive credit on a pre-approved basis for internships completed in Latin America. No more than 3 credits from this area may be applied to the Certificate.
• Courses taken for the Certificate may not be taken on a pass not-pass basis.
• Credits for a Certificate may be used to satisfy the credit requirement for graduation and to meet the credit requirements for courses numbered 300 and above.
• A certificate is not awarded if the baccalaureate degree is not finished.
• for students earning an ISU baccalaureate degree, a certificate is awarded concurrent with or after the ISU baccalaureate degree.
• After receiving a baccalaureate degree from any accredited institution, a student may enroll at ISU to earn a certificate.
• A cumulative grade point average of at least 2.00 is required in courses taken at ISU for a certificate.
Language Requirement:
• The minimum requirement in formal language instruction is completion of two years or the equivalent of a primary language (Spanish or Portuguese) at the university level. At ISU the completion of 202 in the appropriate language satisfies this requirement.
• Students are required to take at least one year or the equivalent of a secondary language (Spanish or Portuguese) at the university level. At ISU the completion of 102 or 112 in the appropriate language satisfies this requirement.
• Native speakers, or those with in-field experience of another Latin American language with a level equivalent to 202 can have the primary language requirement waived. Equivalence will normally be assessed

by a faculty member/CLEP exam in the Dept. of World Languages and Cultures.
•While students are encouraged to enroll in language instruction courses (i.e., conversation and composition) above the 300 level, no more than 6 credits of language study (301,303, 304) may be applied toward fulfilling language requirements for the Certificate. Students should be aware that all 300-level literature and culture/civilization courses in the Dept. of World Languages and Cultures have pre requisites such as Spanish 303 and 301.

Study Abroad

Students are required to participate in an ISU-approved study abroad program in a Latin American country with a minimum duration of 4 consecutive weeks. The Study Abroad Office has a list of ISU-approved programs. Students may elect to participate in other study abroad programs with the approval of the Latin American Studies Program Advisory Committee.

Approved courses available toward the Certificate:

The decision as to whether or not a class can be counted toward the Certificate is based primarily on the course title and description as it appears in the ISU General Catalog. Courses which deal primarily with Hispanic or Latina/o cultures in the U.S. will not count towards credit for the Certificate in Latin American Studies. Courses which primarily deal with Spain or Portugal and their cultures also do not count toward the certificate. When in doubt students should consult with the Director of the Latin American Studies Program.

AgEds 496 (3 cr.); Agron 496; Anthr 323, 337, 445/545 3 cr.); Hist 340, 341, 441, 442; IntSt 420; LAS 320, 395; Port 370; Pol S 343; Span 322, 324, 326, 332, 333, 370, 395, 445, 463, 499 (3 cr.)

Note: Study Abroad courses must be in Latin America. No more than 6 credits from each study abroad program may apply to the Certificate.

Courses primarily for undergraduate students

LAS 101. Orientation for Open Option and Preprofessional Students. (1-0) Cr. 0.5. F.S. First 8 weeks. Self-responsibility and university procedures. LAS general education requirements, ISU departments and programs, time management, academic study skills, adjustment to the university environment. Required of all first year students in the Open Option and Preprofessional Health Programs. Satisfactory-fail only.

LAS 103. Frontiers of the Discipline. (1-0) Cr. 1. *Prereq: First-year student.* Seminar focusing entirely on the on "cutting edge" research activities of faculty members. Satisfactory-fail only.
A. General
B. Humanities
C. Communication.
D. Mathematics and Natural Sciences
E. Social Sciences

LAS 104. Personal Career Development. (2-0) Cr. 2. F.S. *Prereq: 12 credits of ISU coursework.* Comprehensive approach to personal career development; intensive self-analysis; utilization of a computerized career exploration system; contact with area professionals; examination of work in modern Society and the impact of technology on the future of work; exposure to job search skills necessary for career choice implementation.

LAS 125. Connections. (1-0) Cr. 1. Links a large lecture class with a small learning community / seminar session led by the same faculty member teaching the lecture. In each case the professor teaching the large lecture will facilitate a small weekly seminar. The seminar is designed to explore the connections between the lecture topic and issues and areas beyond the lecture discipline. Features informal discussions about critical issues of the day through films, public lectures and other events which students and the faculty leader attend. At the end of the semester all of the Connections seminars will have a joint event in conjunction with an exhibit at the Brunnier Museum entitled Shattered Earth.
A. General
B. Humanities
C. Communication.
D. Mathematics and Natural Sciences
E. Social Sciences

LAS 140. Advancing Citizenship Together Learning Community Seminar. (1-0) Cr. 1. Repeatable. Fowler. First semester of required seminar for participants in the ACT (Advancing Citizenship Together) Learning Community. Build citizenship skills with a focus on womens issues and politics, and includes a service-learning component. Linked with Introduction to Women's Studies and Speech Communication classes. Satisfactory-fail only.

LAS 160. Intro to Race and Ethnicity in America. (3-0) Cr. 3. *Prereq: Permission of Instructor.* One of two courses linked with the Multicultural Learning Community (MLC). Concepts and methods employed in understanding the social and cultural experiences of the major ethnic minority groups in the U.S. with explorations primarily of Native, African, Latino, and Asian Americans

LAS 161. Studies in Race and Ethnicity in America. (1-0) Cr. 1. *Prereq: 160. Permission of Instructor.* Second of two courses linked with the Multicultural Learning Community (MLC). Application of concepts and methods to understanding the social and cultural experiences of the major ethnic minority groups in the U. S. with explorations of Native, African, Latino, and Asian.

LAS 211. Introduction to U.S. Latino/a Studies. (3-0) Cr. 3. S. A survey of the people in the United States who trace their origin to the Spanish-speaking countries of Latin America, focusing principally on Mexican Americans, Puerto Ricans, and Cuban Americans. History, religion, social structure, political participation, literature, and other aspects of each group within the framework of various Sociological theories of ethnic identity and relationship.

LAS 222. Leadership Styles and Strategies in a Diverse Society. (Cross-listed with W S). (3-0) Cr. 3. *Prereq: Sophomore classification.* Develop and practice leadership skills through understanding personal leadership styles, leadership theory and communication theory, including how they relate to gender issues and cultural diversity; exploring personality types, communication styles, and leadership styles, networking and developing mentoring relationships; setting goals and participating in leadership opportunities and service.

LAS 250. Cultures in Transition. (3-0) Cr. 3. An interdisciplinary introduction to a world region in a state of rapid social and cultural transition. Discussion of the history, social and political institutions, arts, economy, agriculture, and environment of the new nations.

LAS 290. Special Problems. Cr. arr. Repeatable. F.S.SS. *Prereq: Freshman or sophomore classification; Permission of the director of the Catt Center for LAS 290G.: other topics need: permission of the dean of the College of Liberal Arts and Sciences..*
A. LAS Ambassadors.
B. Advising Project.
C. Pre-Law Project.
D. General.
G. Catt Center Project.

LAS 298. Internship/Co-op. Cr. R. F.S.SS. *Prereq: Permission of Liberal Arts and Sciences Career Services; sophomore classification.* Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student Status. Satisfactory-fail only.

LAS 325. Introduction to Asian American Studies. (3-0) Cr. 3. A survey of the peoples in the United States who trace their origins to Asia, focusing primarily on the experiences of Chinese, Japanese, Korean, Filipino, South Asian and Pacific Islander Americans. Study and discussion of history, culture, literature, social relations, and political participation of these groups, with assigned readings, writings, and in-class presentations.

LAS 333. Women and Leadership. (Cross-listed with W S). (3-0) Cr. 3. *Prereq: Sophomore classification.* Examine historical and contemporary barriers to and opportunities for women's leadership in a variety of contexts, including professions and public service. Examine theories of women's leadership, gender differences in leadership styles, and the perceptions and expectations about women's leadership. Multiple perspectives of women's leadership will be highlighted through lectures, readings, videos, guest speakers and group work.

LAS 350. Topics in Interdisciplinary Studies. (3-0) Cr. arr. Repeatable.
A. Interdisciplinary
B. Humanities
C. Mathematics and Nature Science
D. Social Sciences

LAS 381. Life in Iowa Seminar: Place and Purpose. (3-0) Cr. 3. F.S. Study of Midwestern culture and environments with emphasis on Iowa. Students will reflect on personal identity, vocation, and other life choices in relation to sustainable communities and natural landscapes. Writing intensive.

LAS 385. The Holocaust. (2-0) Cr. arr. F. An examination of the religious, social, scientific, and historical contexts for the Nazi destruction of European Jewry. Topics covered include anti-semitism, German volkish philosophy, eugenics, World War II, the Final Solution, rescuers, and contemporary issues. Optional third credit requires a term paper.

LAS 395. Interdisciplinary Study Abroad. Cr. arr. Repeatable. Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture's role in contemporary society.
A. Pre-Departure Seminar. Cr. 1.
B. Humanities. Cr. 1-4.
C. Communications. Cr. 1-4.
D. Mathematics and Natural Science. Cr. 1-4.
E. Social Sciences. Cr. 1-4.

LAS 398. Internship/Co-op. Cr. R. F.S.SS. *Prereq: Permission of Liberal Arts and Sciences Career Services; junior classification.* Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student Status.

LAS 488. Interdisciplinary Research on Women and Leadership. (Cross-listed with W S). (3-0) Cr. 3. Research on women and leadership in selected content areas (e.g., Athletics, Business, Education, Politics and Public Service, and Science and Engineering). Following overview of quantitative and qualitative methods and critical analyses of journal articles on women and leadership. Students will work with a faculty mentor in selected content areas to research, write and present paper.

LAS 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of the instructor for LAS 490G; other topics need: permission of the dean of the College of Liberal Arts and Sciences.* No more than 9 credits of LAS 490 may be applied toward graduation.
E. Entrepreneurial Studies.
G. Catt Center Project.

LAS 491. Service Learning. Cr. arr. F.S.SS. *Prereq: Permission of the dean of the College of Liberal Arts and Sciences.* Service work as appropriate to the student's degree program. Academic work under faculty supervision may include written project, report, and guided reading.

LAS 498. Internship/Co-op. Cr. R. F.S.SS. *Prereq: Permission of Liberal Arts and Sciences Career Services; senior classification.* Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student Status.

LAS 499. Internship. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of Liberal Arts and Sciences Career Services.* Work experience in professional setting appropriate to the student's degree program. Academic work under faculty supervision may include written projects, reports, and guided reading.

Liberal Studies

The bachelor of liberal studies degree (B.L.S.) was established by the three Iowa Regent universities to meet the needs of Iowans who want to earn a college degree but whose circumstances present obstacles to completing a traditional on-campus degree program. The degree may be earned from Iowa State University, the University of Iowa, or the University of Northern Iowa.

The B.L.S. is a general studies degree in the liberal arts. There is no traditional major. Instead, students take coursework in three areas of distribution. These areas may be focused in a single discipline or diversified over several disciplines. With the assistance of a B.L.S. adviser, students can structure a program that meets their individual educational, vocational or personal goals.

Up to three-fourths of the total degree requirements can be transferred from accredited institutions. Work done in community colleges or other accredited colleges and universities can be applied toward the degree, as can applicable courses taken at any of the three Iowa Regent universities, whether on or off campus.

The B.L.S. program has no residence requirements. To complete the degree, students may offer credits earned in various study formats: correspondence courses; telecourses; Saturday and evening courses; off-campus courses, including those with distance-learning formats; and regular on-campus courses. Students may also earn credits by proficiency or test-out examinations.

Admission

Admission to the B.L.S. program is open to persons who meet either of the following levels of previous educational attainment:

Hold the associate in arts (A.A.) or associate in science (A.S.) degree from an accredited two-year college. (Holders of the associate in applied science or associate in applied arts degree are not automatically eligible, although some courses may be found applicable upon review.)

Have at least 62 semester credits of collegiate work acceptable toward graduation at ISU with a total cumulative grade point average of at least 2.00 (a C average).

Library

Olivia Madison, Dean of Library Sciences

Professors: Cole, Gerhard, Goedeken, Madison

Professors (Emeritus): Dobson, Galejs, Kuhn, Morris, Yates

Associate Professors: Boydston, Christian, Coffey, Gregory, Jackson, Kappmeyer, King, Kushkowski, Lawson, Leysen, Marinko, McKiernan, Parsons, Pedersen, Pellack, Shonrock, Stacy-Bates, Vega-Garcia, Wool, Zanish-Belcher

Associate Professors (Emeritus): Mathews, Pelzer, Wendell

Assistant Professors: Arcand, Dinkelman, Kuruppu, Lewin, Matava, McMinn, Passonneau, Seo

Assistant Professor (Emeritus): Fryer

Assistant Professor (Adjunct): Lesar

Undergraduate Study

A foundation of library instruction is the Library 160 course, which is a requirement for undergraduate graduation. Library faculty also offer course-related instruction for undergraduate students in the effective use of library resources in all fields of study. Offered F.S.SS. For more information, call the Library at 294-3642.

Graduate Study

Library faculty offer course-related instruction for graduate students in the effective use of library resources. These sessions cover sources of information in all fields of study. Offered F.S.SS. For more information, call the Library at 294-3642.

Courses primarily for undergraduate students

Lib 160. Library Instruction. (1-0) Cr. 0.5. F.S.SS. *Prereq: for students whose native language is not English: Completion of English 101 requirement.* 8 week course required for undergraduate degree. Use of research libraries and information sources, including services of the University Library, with an emphasis on finding, evaluating, and using scholarly information. To be taken as early as possible in the student's undergraduate career. See course descriptions of Engl 150 and 250 for prerequisite related to Lib 160. Satisfactory-fail only.

Linguistics

www.public.iastate.edu/~apling/Lingprog.html

(Interdepartmental Program)
Program Committee: C.A. Chapelle (Chair), K.S. Leonard, J. M. Levis, Nick Pendar, W. S. Robinson, H. Venkatagiri

Undergraduate Study

Linguistics is a cross-disciplinary program in the College of Liberal Arts and Sciences designed to meet the needs of students interested in various aspects of language—its structure, history, varieties, meanings, and uses. The program includes courses in anthropology, English, computer science, psychology, and speech communication and world languages and cultures, thus providing a multi-disciplinary approach to the study of human language.

Courses in linguistics serve as background for students interested in any career that involves working with language, such as linguistic anthropology, computational linguistics, second language studies, teaching English both as a first and as a second language, psycholinguistics, cross-cultural communication, speech-language pathology and audiology.

In the College of Liberal Arts and Sciences, courses in linguistics can be applied as electives or as part of the group requirements. They may also be used in a minor or in a major.

Majors in linguistics complete a minimum of 36 hours in linguistics with a grade of C or better in each linguistics course. Courses specifically required are Ling 119, 120, 207, 219, 220, 309, 371, 413, 420, and 437. In addition, linguistics majors must choose 6 credits of courses from one or more of the following areas: communication disorders (Ling 275, 286, 471), computational linguistics (Ling 331, 520), second language studies (Ling 425, 486, 487, 519, 524, 525, 526), sociolinguistics and language use (Ling 305, 422, 514, 527), or world language (351, 352, 462, 463). Additional courses on world languages are available through study abroad. Majors in linguistics must show proficiency in a foreign language equivalent to that achieved after two years of university-level study.

Minors in linguistics are individually tailored to the interests of the student, who consults with the chair of the supervisory committee for linguistics. All minors must have a minimum of 15 credits in linguistics, of which 6 must be in courses numbered over 300. All programs must include Ling 219.

Communication Proficiency requirement: The linguistics program requires grades of C+ or better in each of the following: English 150; 250 (or 250H); and one of English 305, 314, or a World Languages and Cultures 370 course; or one of Cl St 372, 373, 374, or 376.

For information about using linguistics courses in an interdisciplinary studies major, see *Liberal Arts and Sciences, Cross-Disciplinary Studies.*

Graduate Study

A graduate minor in linguistics is offered through a cooperative agreement with the departments and programs of Anthropology, Computer Science, English, Psychology, Speech Communication, and World Languages and Cultures. The minor permits students to investigate a variety of aspects of linguistics, emphasizing the ability to think about language in a systematic and disciplined way and to apply the methods of the field to research problems in their own disciplines.

For the master's degree, a declared minor consists of 9 credits in linguistics including two foundation courses (511 and either 514, 527 or 537) and one elective from the list of courses approved for graduate credit. For the Ph.D. degree, the minor consists of 12 credits in linguistics including three foundation courses (511, 527, and 537) and one elective. Additional courses beyond those listed below may be used as electives. The chair of the supervisory committee can provide information about these.

At least one member of the linguistics faculty will serve on a student's program of study committee. A list of faculty members may be obtained from the Linguistics program website. Ph.D. candidates will write one section of the preliminary examination on an area of linguistics. All students in the minor are expected to attend linguistics lectures and colloquia. Students in Teaching English as a Second Language/Applied Linguistics are not eligible for a graduate minor in linguistics.

Courses primarily for undergraduate students

Ling 101. Introduction to the Study of Linguistics. (1-0) Cr. 1. S. Cross-disciplinary perspectives on the study of linguistics. Applications of linguistics to real world problems. Careers in linguistics.

Ling 119. Introduction to World Languages. (Cross-listed with WLC). (3-0) Cr. 3. Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and dialects, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy.

Ling 120. Computers and Language. (Cross-listed with Engl). (3-0) Cr. 3. Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.

Ling 207. Introduction to Symbolic Logic. (Cross-listed with Phil). (3-0) Cr. 3. S. Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to Philosophical issues. Majors should take Phil 207 as early as possible.

Ling 219. Introduction to Linguistics. (Cross-listed with Engl). (3-0) Cr. 3. F.S. *Prereq: Sophomore classification.* Introduction to linguistic concepts and principles of linguistic analysis with English as the primary source of data. Sound and writing systems, sentence structure, vocabulary, and meaning. Issues in the study of usage, regional and social dialects, language acquisition, and language change.

Ling 220. Descriptive English Grammar. (Cross-listed with Engl). (3-0) Cr. 3. F.S. *Prereq: Engl 250.* Overview of grammatical structures and functions. Parts of speech; phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

Ling 275. Introduction to Communication Disorders. (Cross-listed with CmDis). (3-0) Cr. 3. Survey of nature, causes, and types of major communication disorders including phonological, adult and child language, voice, cleft palate, fluency, and hearing disorders.

Ling 286. Basic Sign Language. (Cross-listed with CmDis). (3-0) Cr. 3. Development of basic skills in the use and understanding of signed English, a modification of American Sign Language. Overview of the types, causes and consequences of hearing impairment, deaf culture and the education of hearing-impaired children.

Ling 305. Language, Thought and Action. (Cross-listed with Sp Cm, ComSt). (3-0) Cr. 3. F.S.SS. *Prereq: Engl 250.* The study of symbolic processes and how meaning is conveyed in words, sentences, and utterances; discussion of modern theories of meaning; and an exploration of relationships among language, thought and action. Nonmajor graduate credit.

Ling 309. Linguistic Anthropology. (Cross-listed with Anthr). (2-2) Cr. 3. F. *Prereq: Anthr 201.* Language as a human attribute; language versus animal communication; human communication in cultural context; paralanguage, kinesics, proxemics, artifacts as communication; language and culture; cross-cultural Sociolinguistics; ethnoscience; and language policies. Participatory lab: focus on analysis of a non-Western language and communication system.

Ling 331. Theory of Computing. (Cross-listed with Com S). (3-1) Cr. 3. F.S. *Prereq: C- or higher in 228, C- or higher in Com S 330 or Cpr E 310, C- or higher in Math 166, and Engl 250..* Models of computation: finite state automata, pushdown automata and Turing machines. Study of grammars and their relation to automata. Limits of digital computation, unsolvability and Church-Turing thesis. Chomsky hierarchy and relations between classes of languages. Nonmajor graduate credit.

Ling 352. Introduction to Spanish Phonology. (Cross-listed with Span). (3-0) Cr. 3. F.S. *Prereq: Spanish 301, 303 or 304.* An introductory study of the articulation, classification, distribution, and regional variations of the sounds of the Spanish language. Taught in Spanish. Nonmajor graduate credit.

Ling 371. Phonetics and Phonology. (Cross-listed with CmDis). (3-0) Cr. 3. *Prereq: CmDis 275 or Engl 219.* Analysis of speech through study of individual sounds, their variations, and relationships in context; English phonology; practice in auditory discrimination and transcription of sounds of American English; description of speech sounds in terms of their production, transmission, and perception.

Ling 413. Psychology of Language. (Cross-listed with Psych). (3-0) Cr. 3. *Prereq: Psych 101.* Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes. Nonmajor graduate credit.

Ling 420. History of the English Language. (Cross-listed with Engl). (3-0) Cr. 3. F.S. *Prereq: Engl 219, 220.* Comparison of English to other languages by family background and by type. Analysis of representative Old, Middle, Early Modern and present-day English texts, including both literary works and non-literary documents. Nonmajor graduate credit.

Ling 422. Women, Men, and the English Language. (Cross-listed with Engl, W S). (3-0) Cr. 3. *Prereq: Engl 219.* The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions. Nonmajor graduate credit.

Ling 425. Second Language Learning and Teaching. (Cross-listed with Engl). (3-0) Cr. 3. S. *Prereq: Engl 219; junior classification.* The process of second language learning and principles and techniques of teaching second languages. Learning and teaching in specific situations and for particular purposes. Current applications of technology in teaching and assessment. Nonmajor graduate credit.

Ling 437. Grammatical Analysis. (Dual-listed with 537). (Cross-listed with Engl). (3-0) Cr. 3. *Prereq: Engl 220; junior classification.* Theories and methods for analysis of English syntax with emphasis on recent syntactic theory.

Ling 462. Contrastive Analysis of Spanish/English for Translators. (Cross-listed with Span). (3-0) Cr. 3. *Prereq: Spanish 351.* Linguistic study of the major differences between the Spanish and English grammatical systems and their applications in the translation of Spanish to English. Taught in Spanish. Nonmajor graduate credit.

Ling 463. Hispanic Dialectology. (Cross-listed with Span). (3-0) Cr. 3. *Prereq: Spanish 352.* Intensive study of the phonology, morphosyntax and lexicon of the Hispanic dialects of Spain and Latin America in their historical context. Taught in Spanish. Nonmajor graduate credit.

Ling 471. Language Development. (Cross-listed with CmDis). (3-0) Cr. 3. *Prereq: CmDis 275 or Psych 230 or Engl 219.* Definition of components of language. Overview of theories and developmental processes related to each component of linguistic skill (semantics, lexicon, syntax, morphology, phonology, pragmatics). Overview of normative information available for infants, children, adolescents, and adults. Attention to metalinguistic skills and the complementary nonlinguistic and paralinguistic skills. Nonmajor graduate credit.

Ling 486. Methods in Elementary School World Language Instruction. (Cross-listed with WLC, C I). (3-0) Cr. 3. F. *Prereq: 25 credits in a world language.* Current educational methods and their application in the elementary school classroom. Special emphasis on planning, evaluation, and teaching strategies. Nonmajor graduate credit.

Ling 487. Methods in Secondary School World Language Instruction. (Cross-listed with WLC, C I). (3-0) Cr. 3. F. *Prereq: 25 credits in a world language, admission to teacher education program.* Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning.

Ling 489. Undergraduate Seminar. (Cross-listed with Engl). (3-0) Cr. 3. Repeatable. F. *Prereq: 9 credits in English beyond 250.* Intensive study of a selected topic in literature, criticism, rhetoric, writing, or language. Cross-listing with linguistics acceptable only when offered as a course in linguistics. Nonmajor graduate credit.

Ling 490B. Independent Study. (Cross-listed with Engl). Cr. arr. Repeatable. F.S. *Prereq: 9 credits in English beyond 250 appropriate to the section taken, junior classification, permission of Undergraduate Studies Committee.* Designed to meet the needs of students who wish study in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields.
B. Linguistics, Semantics (Engl 490B)

Ling 490D. Independent Study: Linguistic Anthropology. (Cross-listed with Anthr). Cr. arr. Repeatable. *Prereq: 9 credits in anthropology.*
D. Linguistic Anthropology (Same as Anthr 490D)

Courses primarily for graduate students, open to qualified undergraduate students

Ling 500. Language and Culture. (Cross-listed with Anthr). (3-0) Cr. 3. S. *Prereq: Anthr 309 or 510.* Approaches to the study of the relationship between language structure, world view, and cognition; social and structural linguistic variation; cross-cultural aspects of verbal and non-verbal communication; linguistic change; contemporary applications of linguistic anthropology.

Ling 510. Introduction to Computers in Applied Linguistics. (Cross-listed with Engl). (3-0) Cr. 3. F. *Prereq: Graduate classification.* Use of applications software for language teaching, linguistic analysis, and Statistical analysis. Issues and problems in applied linguistics related to computer methods.

Ling 511. Introduction to Linguistic Analysis. (Cross-listed with Engl). (3-0) Cr. 3. F. *Prereq: Graduate classification.* Principles and methods of linguistic analysis with emphasis on phonology, morphology, and syntax. Description of linguistic variation and current theoretical approaches to linguistics.

Ling 512. Linguistic Change in English: Historical Analysis of Literary and Non-Literary Texts. (Cross-listed with Engl). (3-0) Cr. 3. S. *Prereq: Graduate classification.* Linguistic change in English, connections to literary and rhetorical history. Development of formal written English and its conventions. Historical survey of ideas about the English language.

Ling 514. Sociolinguistics. (Cross-listed with Engl). (3-0) Cr. 3. S. *Prereq: 511 or an introductory course in linguistics.* Theories and methods of examining language in its social setting. Analysis of individual characteristics (e.g., age, gender, ethnicity, social class, region), interactional factors (e.g., situation, topic, purpose) and national policies affecting language use.

Ling 515. Statistical Natural Language Processing. (Cross-listed with Engl, HCI). (3-0) Cr. 3. F. *Prereq: Stat 330 or equivalent; recommended 219 or 511.* Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

Ling 517. Second Language Acquisition. (Cross-listed with Engl). (3-0) Cr. 3. F. *Prereq: 511 or an introductory course in linguistics.* Theory, methods, and results of second language acquisition research with emphasis on approaches relevant to second language teaching.

Ling 518. Teaching English as a Second Language Methods and Materials. (Cross-listed with Engl). (3-0) Cr. 3. F. *Prereq: 511 or an introductory course in linguistics.* Introduction to approaches, methods, techniques, materials, curricular design, and assessment for various levels of ESL instruction. Attention to issues related to the teaching of listening, speaking, reading, writing, vocabulary, pronunciation, and culture.

Ling 520. Computational Analysis of English. (Cross-listed with Engl, HCI). (3-0) Cr. 3. F. *Prereq: Engl 510 or 511.* Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

Ling 524. Literacy: Issues and Methods for Non-native Speakers of English. (Cross-listed with Engl). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 511 or an introductory course in linguistics.* Theoretical and practical issues and techniques in the teaching of

literacy in a variety of contexts, involving children and adults at basic skill levels and teens and adults in academic and vocational programs.

Ling 525. Methods in Teaching Listening and Speaking Skills to Nonnative Speakers of English. (Cross-listed with Engl). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 511 or an introductory course in linguistics.* Theoretical and practical issues and techniques in the teaching of second language pronunciation, listening, and speaking skills. Topics will be relevant to those intending to teach in various contexts involving both K-12 and adult learners.

Ling 526. Computer-Assisted Language Learning. (Cross-listed with Engl). (3-0) Cr. 3. S. *Prereq: 511 or equivalent.* Theory, research, and practice in computer use for teaching non-native speakers of English. Methods for planning and evaluating computer-based learning activities.

Ling 527. Discourse Analysis. (Cross-listed with Engl). (3-0) Cr. 3. S. *Prereq: 511 or an introductory course in linguistics.* Methods and theoretical foundations for linguistic approaches to discourse analysis. Applications of discourse analysis to the study of texts in a variety of settings, including academic and research contexts.

Ling 537. Grammatical Analysis. (Dual-listed with 437). (Cross-listed with Engl). (3-0) Cr. 3. F. *Prereq: 219, 220, or 511; junior classification.* Theories and methods for analysis of English syntax with emphasis on recent syntactic theory.

Ling 588. Supervised Practicum in Teaching English as a Second Language. (Cross-listed with Engl). (1-5) Cr. 3. F.S.SS. *Prereq: 15 credits toward the TESL/Applied Linguistics master's degree.* Intensive observation of ESL instruction and supervised practice in teaching learners of English in a context appropriate to the practicum student's goals. Seminar discussion of observed practices in relation to language teaching theories and methods.

Ling 590. Special Topics: Teaching English as a Second Language (TESL)/Applied Linguistics. (Cross-listed with Engl). Cr. arr. Repeatable. *Prereq: Permission of the English Department Graduate Studies Committee according to guidelines available in the department office.*
B. Teaching English as a Second Language (TESL)/Applied Linguistics. (Cross-listed with Engl 590B)

Ling 591. Studies in Applied Linguistics. (Cross-listed with Engl). (3-0) Cr. 3. Repeatable. *Prereq: 6 credits in TESL/Applied Linguistics.* Intensive study of applied linguistic theory as it relates to specific issues in language acquisition, teaching, or use.

Ling 623. Research Methods in Applied Linguistics. (Cross-listed with Engl). (3-0) Cr. 3. F. *Prereq: 511, 517, 518, Engl 519.* Survey of research traditions in applied linguistics. Focus on theoretical and practical aspects of quantitative and qualitative approaches to applied linguistic study, including experimental and quasi-experimental methods, classroom observation and research, introspective methods, elicitation techniques, case studies, interactional analysis, ethnography, and program evaluation. Computational tools and resources for linguistic research will be highlighted.

Ling 630. Seminar in Technology and Applied Linguistics. (Cross-listed with Engl). (3-0) Cr. 3. F. *Prereq: Engl 510, 511, 517, 518, others depend on the topic.* Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feed back in CALL programs, and advances in language assessment.

Ling 671. Discourse in Classrooms. (Cross-listed with C I). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: graduate classification.* Explores both foundational and current literature on discourse in K-12 classrooms; focuses on both discourse as a classroom phenomenon and discourse as an analytic tool for doing research in classrooms; and provides a close look at enacted and hidden curricula through an examination of interactions and communication patterns.

Ling 688. Practicum in Technology and Applied Linguistics. (Cross-listed with Engl). (1-5) Cr. 3. F.S.SS. *Prereq: Engl 510, 626, or equivalent; 2nd year PhD student.* Focus on integrating theoretical knowledge with practical expertise. Assess client needs; develop, integrate, and evaluate solutions. Practical understanding of computer applications used in multimedia development. Create web-based or CD-ROM-based multimedia materials. Work with advanced authoring applications.

Courses for graduate students

Ling 623. Research Methods in Applied Linguistics. (Cross-listed with Engl). (3-0) Cr. 3. F. Prereq*: 511, 517, 518, Engl 519.* Survey of research traditions in applied linguistics. Focus on theoretical and practical aspects of quantitative and qualitative approaches to applied linguistic study, including experimental and quasi-experimental methods, classroom observation and research, introspective methods, elicitation techniques, case studies, interactional analysis, ethnography, and program evaluation. Computational tools and resources for linguistic research will be highlighted.

Ling 630. Seminar in Technology and Applied Linguistics. (Cross-listed with Engl). (3-0) Cr. 3. F. Prereq*: Engl 510, 511, 517, 518, others depend on the topic.* Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feed back in CALL programs, and advances in language assessment.

Ling 671. Discourse in Classrooms. (Cross-listed with C I). (3-0) Cr. 3. Alt. S., offered 2009. Prereq*: graduate classification.* Explores both foundational and current literature on discourse in K-12 classrooms; focuses on both discourse as a classroom phenomenon and discourse as an analytic tool for doing research in classrooms; and provides a close look at enacted and hidden curricula through an examination of interactions and communication patterns.

Ling 688. Practicum in Technology and Applied Linguistics. (Cross-listed with Engl). (1-5) Cr. 3. F.S.SS. *Prereq: Engl 510, 626, or equivalent; 2nd year PhD student.* Focus on integrating theoretical knowledge with practical expertise. Assess client needs; develop, integrate, and evaluate solutions. Practical understanding of computer applications used in multimedia development. Create web-based or CD-ROM-based multimedia materials. Work with advanced authoring applications.

Logistics and Supply Chain Management

(Administered by the Department of Logistics, Operations, and Management Information Systems)

Richard Poist, Chair of Department

Distinguished Professor (Emeritus): Baumel

Professors: Crum, Poist, Walter

Professors (Emeritus): Thompson, Voorhees

Associate Professors: Blackhurst, Johnson, Mennecke, Montabon, Nilakanta, Ruben, Suzuki, Tiwana, Townsend, Zhu

Assistant Professors: Jiang, Martens, Scheibe

Instructor (Adjunct): Choobineh

Lecturer: Helmer

Undergraduate Study

For the undergraduate curriculum in business, major in Logistics and Supply Chain Management, see *College of Business, Curricula.*

Logistics and Supply Chain Management is a program of study concerned with the efficient flow of materials, products, and information within and among organizations. Logistics management entails a wide variety of activities that have a significant influence on customer service, including inventory control, transportation, warehousing, facility location analysis, packaging, materials handling, parts and service support, and product returns. Supply chain management involves the integration of business processes across organizations, from material sources and suppliers through manufacturing and processing to the final customer. Logistics management is, thus, taught in the context and framework of inter-organizational supply chain systems.

The study of Logistics and Supply Chain Management prepares students for professional careers with shippers (e.g., manufacturers and distributors), transportation carriers, and logistics service providers. The curriculum provides the required theoretical/conceptual base and analytical methods for making sound operational and strategic business decisions.

The requirements for the Logistics and Supply Chain Management major are met by completion of the following courses: LSCM 460, 461, 485, 486, 487, plus one course from an approved list.

The department also offers a minor for non-Logistics and Supply Chain Management majors in the College of Business. The minor requires 15 credits from an approved list of courses, of which 9 credits must stand alone. Students with declared majors have priority over students with declared minors in courses with space constraints.

Graduate Study

For graduate study options, including the Ph.D. degree, see the Supply Chain Management listing

Courses primarily for undergraduate students

LSCM 360. Business Logistics. (3-0) Cr. 3. *Prereq: Econ 101.* Introduction and analysis of the logistics concept to include the management of transportation, inventory, packaging, warehousing, materials handling, order processing, facility location, and customer service.

LSCM 440. Supply Chain Information Systems. (Cross-listed with MIS, OSCM). (3-0) Cr. 3. *Prereq: MIS 330, OSCM 320, LSCM 360.* Internal and inter-organizational information systems necessary for a supply chain to achieve competitive advantage. Topics include: design, development, implementation, and maintenance of supply chain information systems; enterprise resource planning; advanced planning and scheduling, manufacturing execution systems; and the interface between manufacturing planning and control processes, logistics processes, and the information system.

LSCM 460. Decision Tools for Logistics and Operations Management. (3-0) Cr. 3. *Prereq: LSCM 360, OSCM 320.* Technical tools and skills required for problem solving and decision making in logistics and operations management. Transportation and network planning, inventory decision making, facility location planning, vehicle routing, scheduling, and production planning. Quantitative tools include linear and integer programming, non-linear programming, and simulation. Emphasis on the use of PC-based spreadsheet programs. Nonmajor graduate credit.

LSCM 461. Principles of Transportation. (3-0) Cr. 3. *Prereq: LSCM 360.* Economic, operating, and service characteristics of the various modes of transportation, with a special emphasis on freight transportation. Factors that influence transport demand, costs, market structures, carrier pricing, and carrier operating and service characteristics and their influence on other supply chain costs and supply chain performance. Nonmajor graduate credit.

LSCM 462. Transportation Carrier Management. (3-0) Cr. 3. *Prereq: Credit or enrollment in LSCM 461.* Analysis of transport users' requirements. Carrier management problems involving ownership and mergers, routes, competition, labor, and other decision areas. Nonmajor graduate credit.

LSCM 466. International Transportation and Logistics. (3-0) Cr. 3. *Prereq: LSCM 360.* Logistics systems and legal framework for the international movement of goods. Operational characteristics of providers of exporting and importing services. The effects of government trade policies on global logistics. Nonmajor graduate credit.

LSCM 469. Transportation and Logistics Issues. (3-0) Cr. 3. *Prereq: LSCM 460, 461.* An integrative course designed to study contemporary problems and issues in transportation and logistics. Nonmajor graduate credit.

LSCM 485. Demand Planning and Management. (Cross-listed with OSCM). (3-0) Cr. 3. *Prereq: LSCM 360, OSCM 320.* Demand planning process which synchronizes demand with manufacturing and distribution. Addresses linking business plans and demand forecasts both horizontally and vertically within the organization and collaboratively among supply chain partners. Forecasting, customer relationship management, sales and operations planning, customer service, distribution channels, e-fulfillment, and information systems requirements. Nonmajor graduate credit.

LSCM 486. Principles of Purchasing and Supply Management. (Cross-listed with OSCM). (3-0) Cr. 3. *Prereq: LSCM 360, OSCM 320.* Sourcing strategies, concepts, tools and dynamics in the context of the integrated supply chain. Make or buy decision, supplier evaluation and selection, global sourcing, the total cost of ownership, contracts and legal terms, negotiation, purchasing ethics, and information systems requirements. Nonmajor graduate credit.

LSCM 487. Strategic Supply Chain Management. (Cross-listed with OSCM). (3-0) Cr. 3. *Prereq: LSCM 460 or OSCM 422 or OSCM 424; LSCM 485 or LSCM 486.* Capstone course in supply chain management. Integrating and applying the theories, concepts, and methods covered in the prerequisite courses through the use of readings, case studies, projects, and industry speakers. Nonmajor graduate credit.

LSCM 490. Independent Study. Cr. arr. Repeatable. *Prereq: LSCM 360, senior classification, permission of instructor.*

Courses primarily for graduate students, open to qualified undergraduate students

The department offers graduate courses under the heading of Supply Chain Management. These courses include SCM 601, 602, 603, 604, 605, 650, 651, and 699. For descriptions of these courses, see Supply Chain Management.

Management

Thomas Chacko, Chair of Department

University Professors: McElroy, Morrow Shrader

Professors: Chacko, Van Auken, Werbel

Professor (Emeritus): Hunger

Associate Professors: Blackburn, Demarie, Herrmann, Johnson

Associate Professor (Emeritus): Aitchison

Assistant Professors: Anderson, Schwab, Zhang

Senior Lecturer: Elston, R. Smith

Lecturer: Mullen

Undergraduate Study

For undergraduate curriculum in business, major in management, see *College of Business, Curricula*.

The Department of Management offers a major in management. Students will complete the general education requirements (including business foundation courses), and business core requirements for the bachelor of science (B.S.) degree and 18 credits in the major. The instructional objective of the Department of Management is to provide students with knowledge of organizations and management functions within organizations. Management majors will demonstrate an understanding of (1) employee work-related attitudes and behaviors, (2) competitive strategy and advantage, (3) challenges and strategies in international business, and (4) human resource management practices in firms. Students will demonstrate an awareness of the role of diversity, ethics, and technology in business decisions, the impact of external forces and global issues on organizations, and an ability to think critically, to communicate effectively, and to work effectively as a member of a team.

Management is a broadly defined discipline and activity, which is neither industry nor function specific. Management concepts, theories, techniques, and skills are applicable to all business functional areas and are essential components for successful organizations. Management requires sound conceptual, technical, and human Skills for the effective utilization of organizational resources. In addition to the basic business foundation and core courses, management majors are required to complete 18 credits of management or department approved courses. Included in these 18 credits are four required courses: Mgmt 371, 377, 414, and 471.

The department also offers a minor for non-Management majors in the College of Business. The minor requires 15 credits from an approved list of courses, of which 9 credits must stand alone. Students with declared majors have priority over students with declared minors in courses with space constraints.

Graduate Study

The Department of Management participates in three graduate programs: the M.S. in Business, the M.B.A. full-time and part-time programs, and the Ph.D. program in Business and Technology. The M.S. in Business is a 30-credit curriculum culminating in a thesis. The M.B.A. program is a 48-credit curriculum. Twenty four of the 48 credits are core courses and the remaining 24 are graduate electives. The Ph.D. program is a 56 credit curriculum that culminates in a dissertation.

Courses primarily for undergraduate students

Mgmt 310. Entrepreneurship and Innovation. (3-0) Cr. 3. F.S. *Prereq: Sophomore classification.* Review of the entrepreneurial process with emphasis on starting a new business. How to analyze opportunities, develop an innovative product, organize, finance, market, launch, and manage a new venture. Deals with the role of the entrepreneur and the importance of a business plan. Speakers and field project.

Mgmt 313. Feasibility Analysis and Business Planning. (3-0) Cr. 3. S. *Prereq: 310 and Entrepreneurship Minor or Management Major.* Developing an idea for a new business venture, conducting a feasibility study, researching the potential market, analyzing the competition, and writing a formal business plan. Basic business functions are discussed in terms of their application to conducting feasibility analysis and writing a business plan for an entrepreneurial venture.

Mgmt 370. Management of Organizations. (3-0) Cr. 3. F.S.SS. *Prereq: Econ 101 or 102 or equivalent.*. A management functions approach is used to explain what managers do in organizations; how they deal with external constituents, how they structure their companies, and how they deal with employees. A contingency approach is used as a framework for understanding how to increase the effectiveness and efficiency of organizations in today's dynamic, highly competitive business environment.

Mgmt 371. Organizational Behavior. (3-0) Cr. 3. F.S. *Prereq: 370.* The study of individual attributes, interpersonal relations, and employee attitudes in organizations. Instructional emphasis is placed on how management concepts such as reward systems, job design, leadership, teams, etc., can be used to manage employee attitudes and behavior.

Mgmt 377. Competitive Strategy. (3-0) Cr. 3. F. *Prereq: Econ 101 and junior classification.* Developing competitive strategy and achieving competitive advantage in firms, including: industry analysis, generic strategies, hypercompetition, competing against time, and building distinctive capabilities.

Mgmt 414. International Management. (3-0) Cr. 3. F. The nature and economic role of the multinational firm and entrepreneurial ventures, including the impact of legal, political, and cultural variables upon firm performance and managerial activity; case studies illustrate interdependent nature of functional areas of business projected across national boundaries. Nonmajor graduate credit.

Mgmt 415. Managing New Ventures. (3-0) Cr. 3. F.S. *Prereq: 370; Mkt 340; Fin 301; LSCM 360, OSCM 320.* Examination of business problems and issues in new and growing firms. Emphasis is on analyzing existing businesses. Includes a field project. Nonmajor graduate credit.

Mgmt 419. Social Responsibility of Business. (3-0) Cr. 3. S. A consideration of the role of business in Society. Critical analysis of ethical, managerial, and public issues as they affect the corporation.

Mgmt 471. Personnel and Human Resource Management. (3-0) Cr. 3. F.S. *Prereq: Junior standing.* Recruitment and selection, utilization, and development of people in organizations. Examination of each personnel function; interrelationships among the functions.

Mgmt 472. Management of Diversity. (3-0) Cr. 3. F.S. *Prereq: Junior classification.* One of the most crucial problems in organizations today is the management of diversity. Attempts to define the difference between equal employment opportunity/affirmative action, which has a legal basis, and diversity which has an educational basis. Organized around the concepts of: (1) cultural diversity and cultural unity; (2) development of skills and tools to manage diversity; and (3) structure of diversity development programs in organizations. Nonmajor graduate credit.

Mgmt 478. Strategic Management. (3-0) Cr. 3. F.S.SS. *Prereq: 370; OSCM 320; Fin 301; Mkt 340; LSCM 360; Acct 285; graduating senior.* Strategy formulation, implementation, and evaluation and control in today's organizations. Emphasis is on strategic planning and decision making using the case method and/or projects.

Mgmt 490. Independent Study. Cr. arr. Repeatable. *Prereq: 370, senior classification, permission of instructor.*

Courses primarily for graduate students, open to qualified undergraduate students

Mgmt 501. Strategy Formation. (1-0) Cr. 1. F. *Prereq: Graduate classification.* An introduction to the strategic planning process. How to formulate strategy in context of environmental opportunities and threats, how to analyze industry competition and build competitive advantages.

Mgmt 507. Organizational Behavior. (2-0) Cr. 2. F. *Prereq: Graduate classification.* Understanding human behavior in organizations and the nature of organizations from a managerial perspective. Special emphasis is placed on how individual differences, such as perceptions, personality, and motivation, influence individual and group behavior in organizations and on how behavior can be influenced by job design, leadership, groups, and the structure of organizations.

Mgmt 511. Ethics and Social Responsibility. (1-0) Cr. 1. S. *Prereq: Graduate classification.* The ethical issues, moral dilemmas, and stakeholder responsibilities embraced by today's corporate decision makers. The morality of current management models and practices. Corporate governance and control, moral reasoning in groups, whistleblowing, employee safety, truth in advertising, environmental pollution, plant closings, insider trading, employee rights.

Mgmt 512. Strategic Management. (2-0) Cr. 2. S. *Prereq: 501, 507, OSCM 502, MIS 503, Mkt 504, Fin 505, Acct 508.* Critical analysis of case studies in strategic management with an emphasis on integrative decision making. Strategy implementation in light of the legal, regulatory, economic, social, and political contexts of business.

Mgmt 565. Technology Transfer and Feasibility Analysis. (3-0) Cr. 3. *Prereq: Graduate classification.* Commercialization of new technology. Topics covered include market analysis, intellectual property, product development, feasibility analysis, and new business evaluation.

Mgmt 566. Entrepreneurship and New Business Creation. (3-0) Cr. 3. *Prereq: Graduate classification or permission of instructor.*. The essentials of starting and operating a new business. Topics include current research on entrepreneurial perspective, starting and developing a new business, financing the venture, managing the growing firm, and special issues.

Mgmt 567. International Entrepreneurship. (3-0) Cr. 3. Essentials of operating an entrepreneurial firm in an international environment. Topics include international entrepreneurship, starting and developing a business in an international market, financing international ventures, international management issues, exchange rates, and culture.

Mgmt 570. Managing Employee Attitudes and Behaviors. (3-0) Cr. 3. F.SS. *Prereq: 371 or 507 or Psych 450.* Advanced topics germane to the management of individuals and groups over their work lives; sustained work commitment, motivation and job/career satisfaction, absenteeism, turnover, stress, leadership and career development (e.g., career ladders, mentoring).

Mgmt 571. Seminar in Personnel and Human Resources Management. (3-0) Cr. 3. S. *Prereq: 371 or 507 or Soc 420.* Topics and issues in personnel management with a focus on the management of human resources in organizations. Current personnel practices, Philosophies, and behavioral science research.

Mgmt 575. Compensation Management. (3-0) Cr. 3. F. *Prereq: 571.* Concepts, techniques, and issues dealing with remuneration of the work force. The impact of government legislation as well as organizational and Societal issues.

Mgmt 581. Strategic Planning and Environmental Analysis. (3-0) Cr. 3. F. *Prereq: 501 or permission of instructor.* Discussion of concepts and techniques used in long range strategic planning. Examination of planning practices in business and not-for-profit organizations. Topics include environmental scanning, industry analysis, forecasting, corporate and competitive strategies, and tactics.

Mgmt 582. Corporate Governance and Leadership. (Cross-listed with Acct). (3-0) Cr. 3. *Prereq: 502 or permission.* Examination of top managers and corporate boards of directors in terms of roles, responsibilities, and tasks. Examination of corporate governance structure and functioning. Topics include CEO tenure and compensation, board monitoring and composition, board responsibility and accountability, board structure and performance, CEO and board roles in strategic management, shareholder and stakeholder representation, corporate social responsibility, ethics and corporate governance, international governance, and executive leadership style.

Mgmt 583. Strategic Management of Innovation. (3-0) Cr. 3. *Prereq: 501 or permission of instructor.* Critical analysis and discussion of cases focused on strategic management of innovation. Assessment of a firm s innovative capabilities and competitive dynamics to manage innovative processes. Practical applications through emphasis on implementation including internal corporate venturing, management of the corporate R&D function, and institutionalization of innovation.

Mgmt 584. Management Consulting. (3-0) Cr. 3. *Prereq: 501 or permission of instructor.* Provides the opportunity for students to understand the role of the professional consultant, the issues facing the management consulting industry, the competencies of various management consulting firms, the nature and form of strategic consulting engagement, and the nature and scope of strategic change in business firms. Students will learn about management consulting functions and will practice the consultant role though cases and field studies.

Mgmt 590. Special Topics. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor. For students* wishing to do individual research in a particular area of management.

Courses for graduate students

Mgmt 601. Philosophy of Science. (3-0) Cr. 3. *Prereq: enrollment in the PhD program.* This course provides a Philosophical introduction to the theoretical and empirical development of scientific knowledge. It focuses on a variety of basic problems common to the social sciences: the nature of explanation, the structure of theories, forms of knowledge, scientific laws, nature of theory and ethics. The purpose of the course is to help doctoral students define a research context by addressing the purposes, assumptions and primary components of scientific inquiry.

Mgmt 602. Organizational Theory. (3-0) Cr. 3. *Prereq: enrollment in the PhD program.* This seminar involves the examination of the core theories and perspectives in organizational theory, as well as their applications and extensions. This material addresses the fundamental rationale for organizations in modern society, basic processes of organizing and organizational structure, a consideration of inter-organizational relationships and the external environment, and a variety of factors that help determine organizational effectiveness..

Mgmt 603. Strategic Management of Technology and Innovation. (3-0) Cr. 3. *Prereq: Mgmt 601.* This course will offer a critical review of organizational decision making with respect to technology and innovation. Students will learn how technological change can alter the basis of competition; how competitive strategy drives technology investment decisions; how market-orientation should be the other backbone of technological innovation; and best practices of organizing and managing the new product development process to achieve strategic goals.

Mgmt 604. Seminar in Organizational Behavior. (3-0) Cr. 3. *Prereq: enrollment in the PhD program.* The purpose of this seminar is to introduce behavioral science literature relevant to the study of behavior in organizational settings. The course will focus on the individual's role within organizations and cover topics such as individual differences, motivation, leadership, decision-making. Learning, risk taking, interpersonal relations, etc. Both theoretical and empirical contributions will be examined, with emphasis on integration of diverse theoretical perspectives.

Mgmt 650. Research Practicum I. (1-0) Cr. 1. *Prereq: enrollment in the PhD program.* Preparation of a research manuscript to be submitted to a peer-reviewed academic journal. Students will work with a faculty mentor on a research project.

Mgmt 651. Research Practicum. (1-0) Cr. 1. *Prereq: enrollment in the PhD program.* Preparation of a second research manuscript to be submitted to a peer-reviewed academic journal. Although students work under the supervision of a faculty mentor, the students will take independent responsibility for the research project.

Mgmt 699. Dissertation. Cr. arr. *Prereq: Graduate classification, permission of dissertation supervisor.* Research.

Management Information Systems

(Administered by the Department of Logistics, Operations and Management Information Systems)

Richard Poist, Chair of Department

Distinguished Professor (Emeritus): Baumel

Professors: Crum, Poist, Walter

Professors (Emeritus): Thompson, Voorhees

Associate Professors: Blackhurst, Johnson, Mennecke, Montabon, Nilakanta, Ruben, Suzuki, Tiwana, Townsend, Zhu

Assistant Professors: Jiang, Martens, Scheibe

Instructor (Adjunct): Choobineh

Lecturer: Helmer

Undergraduate Study

For undergraduate curriculum in business, major in management information systems, (MIS) see *College of Business, Curricula.*

The MIS Program is designed to provide students with a strong educational foundation that prepares them as information system (IS) professionals. The academic program consists of a specially designed curriculum that emphasizes conceptual, analytical, technical and interpersonal skills. The major offers students comprehensive training in the application, use and management of information systems to prepare them to provide effective information services and support to organizations. The coursework is designed to provide the technical and conceptual skills associated with the use of information technology in business organizations. The program will: impart knowledge on existing and emerging information technologies and their impact on the IS function; train to critically analyze business processes, identify inefficiencies and problems, assess information requirements, create business solutions and technical specifications for the supporting system; provide expertise to design and develop database applications using the latest database technologies; provide expertise in the latest telecommunication technologies; train in interpersonal and communication skills to effectively interact with various information systems' clients; and provide managerial skills to manage IS projects.

The MIS major requires students to take seven courses. The required courses are: MIS 331, 432, 433, 435, and 438. In addition they will take two courses from an approved list. These courses are designed to provide the conceptual, technical, and managerial skills necessary to design and develop systems in organizations

The department also offers a minor for non-Management information Systems majors in the College of Business. The minor requires 15 credits from an approved list of courses, of which 9 credits must stand alone. The 15 credits must include either MIS 423 or 433. Students with declared majors have priority over students with declared minors in courses with space constraints.

Graduate Study

The MIS area participates in four graduate programs in the College of Business—M.S. in Business, MSIS, full-time and part-time M.B.A. programs and Ph.D. in Business and Technology. The M.S. program is a 30-credit curriculum with a thesis. The Management of Information Technology specialization in the Ph.D. program is a 56-credit curriculum with a 12-credit dissertation.

The MIS area also participates in an interdepartmental MS program in Information Assurance, as well as in a Masters and Ph.D. program in Human Computer Interaction. Students in any of these programs can be enrolled through the College of Business.

The M.B.A. program is a 48-credit curriculum. Twenty-four of the 48 credits are core business courses and the remaining 24 credits are graduate electives. Students can obtain a MIS specialization in the M.B.A. program by taking 12 credits of graduate MIS courses from a selected list of courses.

The masters of science in information systems (MSIS) is a 32 credit (minimum) curriculum designed around three inter-related areas - Foundation, IS core, and electives. All students are expected to be familiar with basic computing skills before they enter the program. The MSIS will educate students on applying IS theory and concepts to modern IS development through classes that enable them to learn and use the latest software in application projects. Students graduating from the program will have advanced technical and managerial skills to develop and manage information systems projects.

The Ph.D. in Business and Technology with a MIT specialization is a 56 credit (minimum) curriculum designed around four inter-related areas—Core, MIT specialization, Minor, and Research Methods—and dissertation. The MIT area examines issues related to the development, building, management, and use of information and knowledge-based technologies. Such technologies enable users to collect organizational data, provide a platform for organizing and disseminating the data, and offer operational, decision support, and knowledge management tools through which users can leverage data and information for making better organizational decisions. Students in the MIT specialization will study areas such as information technology analysis and development, database and knowledge management systems, decision support and data mining, human computer interaction, system security and integrity, and project management and collaborative teamwork.

Courses primarily for undergraduate students

MIS 330. Management Information Systems. (3-0) Cr. 3. *Prereq: Com S 103.* The role of information technology in organizations. Overview of methodologies for design and development of systems including decision support systems, expert systems, data bases, end-user computing, etc. Computer applications relate concepts to practice. Lecture and laboratory work emphasizes the enabling role of IT in contemporary organizations.

MIS 331. File Structures and Programming. (3-0) Cr. 3. *Prereq: Credit or enrollment in Com S 207.* Introduction to the concepts and use of data structures, file accesses and object oriented programming methodologies in contemporary business environments. Application development environments will be covered.

MIS 423. Information Systems for Managerial Decision Making. (3-0) Cr. 3. *Prereq: MIS 330.* Design development, modeling, and implementation of critical business processes that support global managerial decision making. Transforming and enhancing student abilities to act on data derived from spreadsheets, databases, business intelligence, data mining, and knowledge management sources to develop alternative plans and comprehensive solutions to common business problems. Designed to complement a range of student business majors. Students will build a variety of business models, analyze case studies, and propose solutions to real world situations. Only one of MIS 423 or 433 may count towards graduation. Nonmajor graduate credit.

MIS 431. Software Development in Contemporary Languages. (3-0) Cr. 3. *Prereq: 331.* Advanced software development and topics in contemporary programming languages. Topics include basic syntax, advanced programming techniques, file structures and management, database access, algorithm design, web forms and graphical user interfaces.

MIS 432. Information Systems Analysis. (3-0) Cr. 3. *Prereq: 330.* Critical analysis of business processes, data and process modeling, feasibility studies, CASE tools, and developing system design specifications. Nonmajor graduate credit.

MIS 433. Database Management Systems. (3-0) Cr. 3. *Prereq: Credit or enrollment in 331.* Database design, development, and implementation. Focus on data models, both classical and object oriented. Uses relational and/or object oriented database management systems. Only one of MIS 423 and 433 may count towards graduation. Nonmajor graduate credit.

MIS 434. Electronic Commerce Strategy. (3-0) Cr. 3. *Prereq: 330, Mkt 340, LSCM 360.* Overview of business strategies and technologies used for electronic commerce. Emphasis is on the strategic, operational, and technical issues associated with global electronic commerce using class lecture/discussion and case studies. Nonmajor graduate credit.

MIS 435. Business Telecommunications. (3-0) Cr. 3. *Prereq: 330.* Overview of Internet and telecommunications technology used in business applications. Understand Internet and network protocols, network and application architectures, design, and implementation. Nonmajor graduate credit.

MIS 437. Project Management. (3-0) Cr. 3. Equips students to support team activities in the general project management environment and better manage their careers. Practical experience using project management techniques and tools. Course topics include project initiation and execution, risk assessment, estimating and contracts, planning, human factors, and standard methods. Nonmajor graduate credit.

MIS 438. Information Systems Development. (3-0) Cr. 3. *Prereq: 432, 433, credit or enrollment in 435.* Design of business systems using contemporary tools and methods such as SQL, CASE tools, OOD tools, etc. Focuses on synthesizing concepts from earlier MIS courses. Nonmajor graduate credit.

MIS 439. Topics in Management of Information Systems. (3-0) Cr. 3. Repeatable. *Prereq: 330, permission of instructor.* A variety of topics will be covered and topics may vary between semesters. Some of the topics are information resources management, electronic commerce, decision support systems, and expert systems.

MIS 440. Supply Chain Information Systems. (Cross-listed with LSCM, OSCM). (3-0) Cr. 3. *Prereq: MIS 330, OSCM 320, LSCM 360.* Internal and inter-organizational information systems necessary for a supply chain to achieve competitive advantage. Topics include: design, development, implementation, and maintenance of supply chain information systems; enterprise resource planning; advanced planning and scheduling, manufacturing execution systems; and the interface between manufacturing planning and control processes, logistics processes, and the information system.

MIS 445. Advanced Data Communication. (3-0) Cr. 3. *Prereq: 435.* Contemporary theories, concepts, and practices in network infrastructure, network design, and information security. Design, install, and administer a complex network infrastructure. Study security threats and attacks and countermeasures. Investigate exposure to attacks, firewalls, and development of intrusion detection systems. Other security topics such as risk management, IT audit, and security regulations will also be addressed.

MIS 490. Independent Study. Cr. arr. Repeatable. *Prereq: 330, senior classification, permission of instructor.*

Courses primarily for graduate students, open to qualified undergraduate students

MIS 503. Management Information Systems. (2-0) Cr. 2. *Prereq: Graduate classification.* Current theories and practices of information processing and decision making. Focus on information technology and its uses in improving work practices, products, and tools for decision support. Use of artificial intelligence and other developments in technology. Competitive pressures and risks of information technology (IT). Setting IT strategy, information system planning and development of enterprise architecture. Focus on systems development and implementation.

MIS 531. Business Intelligence and Software. (3-0) Cr. 3. *Prereq: 503.* Focus on IT-enabled business intelligence systems. Conceptualize, design, and implement software applications that transform data into intelligence.

MIS 532. Advanced Business Software Development. (3-0) Cr. 3. *Prereq: 531 or equivalent.* A survey of business-oriented programming languages with emphasis on state-of-the-art development techniques for business software. Topics include object-oriented and Internet programming issues and methods.

MIS 533. Data Management for Decision Makers. (Cross-listed with Acct. (3-0) Cr. 3. *Prereq: 503.* Addresses data needs of functions such as marketing, finance, and production. Advanced skills needed to design, develop and use database, data warehousing and data mining systems for effective decision support. Emphasis on importance of contemporary technologies.

MIS 534. Electronic Commerce. (3-0) Cr. 3. *Prereq: 503.* Overview of how modern communication technologies including the internet and world wide web have revolutionized the way we do business. Provides an understanding of various internet technologies and how companies are using the internet for commercial purposes. Explores future scenarios on the use of these technologies and their impact on various industries and the Society.

MIS 535. Telecommunications Management. (3-0) Cr. 3. *Prereq: 503.* Issues involved in the management of telecommunications function. Overview of communications technology used in various business applications, local area network, wide area network, broad band network, wireless and voice networks. Internet technologies and protocols. Analyzing the strategic impact of these technologies on organizations. Strategic planning for telecommunications, including network planning and analysis.

MIS 537. Information Resource Management. (3-0) Cr. 3. *Prereq: 503.* Information Resource Management (IRM) is a popular concept of viewing information systems resources from a strategic resource perspective. Discuss the IRM concept as well as provide pragmatic tools for implementing this approach within the organization. Topics will include: IS outsourcing, total cost of ownership, IS planning and strategic analysis, justification for IT investment, management of IT human resources, traditional project management theory, and project management techniques derived from the Theory of Constraints (TOC).

MIS 538. Business Process Systems. (3-0) Cr. 3. *Prereq: 503.* Examine current and historical perspectives on business process management. Topics include

process identification, mapping, and improvement. Additional topics will address business process automation and integration, business process outsourcing. Investigate current and potential tools and methods for business process management. Include process management projects.

MIS 539. Topics in Management of Information Systems. (3-0) Cr. 3. Repeatable. *Prereq: 503.* A variety of topics may be offered in different semesters. Topics may include electronic commerce, information resources management, decision support systems, and expert systems.

MIS 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.* For students wishing to do individual research in a particular area of MIS.

MIS 598. Research Seminar in Management Information Systems. (3-0) Cr. 3. *Prereq: Graduate classification.* Examines issues such as the nature and content of information systems research; aspects of starting and pursuing research topics in information systems; exploring and understanding relevant research methods and tools. Develop preliminary research proposals.

MIS 599. Creative Component. Cr. 3. *Prereq: Graduate classification, permission of supervisory committee chair.* Preparation and writing of creative component.

Courses for graduate students,

MIS 601. Behavioral Issues in IS Research. (3-0) Cr. 3. *Prereq: MIS 503 or equivalent, enrollment in PhD program.* The state of behavioral research in the IS function. MIS activities in an organization span the following three major areas: design and implementation of the MIS, use of the MIS, and management of the MIS function. Each of these processes is carried out at several levels: individual, group, organizational and inter-organizational. Identify behavioral issues of relevance for the cells defined by the process and level dimensions. Reading and discussion of the research literature surrounding the development, use, and implications of information technology.

MIS 602. Current Issues in IS Research. (3-0) *Prereq: MIS 503 or equivalent, enrollment in PhD program.* Three fundamental areas of information Systems, namely, infrastructure, management, and processes. Infrastructure studies examine the IT architecture including computing, communication, data, and application. Management focuses on addressing the value added notion of IT. Finally processing addresses topics related to enabling role of IT in myriad of areas.

MIS 603. Seminar on IT Strategy and Structure. (3-0) Cr. 3. *Prereq: MIS 601.* Strategic issues in IT management. Address issues such as aligning IT strategy with corporate strategy and functional strategies, IT structure, valuation, governance and control, and related topics. Provide students with research skills related to the boundary between IT and the firm's external environment.

MIS 604. Collaboration, Knowledge, and Intelligence in Organizations. (3-0) Cr. 3. *Prereq: MIS 601.* Research issues in the emerging areas of collaboration, knowledge management, and enterprise intelligence. Topics will include emerging and contemporary technologies of Data Mining, Knowledge Discovery from Databases, Web Mining, organizational memory, and knowledge management.

MIS 650. Research Practicum I. (1-0) Cr. 1. *Prereq: enrollment in the PhD program.* Preparation of a research manuscript to be submitted to a peer-reviewed academic journal. Students will work with a faculty mentor on a research project.

MIS 651. Research Practicum II. (1-0) Cr. 1. *Prereq: enrollment in the PhD program.* Preparation of a second research manuscript to be submitted to a peer-reviewed academic journal. Although students work under the supervision of a faculty mentor, the students will take independent responsibility for the research project.

MIS 655. Organizational and Social Implications of Human Computer Interaction. (Cross-listed with HCI). (3-0) Cr. 3. *Prereq: Graduate classification.* Examine opportunities and implications of information technologies and human computer interaction on social and organizational systems. Explore ethical and social issues appurtenant to human computer interaction, both from a proscriptive and prescriptive perspective. Develop informed perspective on human computer interaction. Implications on research and development programs.

MIS 699. Research. Cr. arr. Repeatable. *Prereq: Graduate classification, permission of dissertation supervisor.* Research.

Marketing

Thomas Chacko, Chair of Department

Distinguished Professor (Emeritus): Teas

Professors: Agarwal, Laczniak, Ramaswami

Professors (Emeritus): Zober

Associate Professors: Kim, Palan, Wong

Assistant Professors: Brocato, Raju, Roy, Smarandescu, Walker

Lecturer: Folger

Undergraduate Study

For undergraduate curriculum in business, major in marketing, see *College of Business, Curricula.*

The Department of Marketing offers a major in marketing. Students will complete the general education requirements (including business foundation courses), and business core requirements for the bachelor of science (B.S.) degree and 18 credits in the major.

Marketing is concerned with management decisions that deal with the satisfaction of customer needs and wants in the purchase and use of goods and services. The primary decision areas in marketing involve the identification of market segments and decisions dealing with product design, pricing, promotion (including personal selling and marketing communications), and distribution. A major in marketing prepares the student for careers in selling and sales management, marketing research, marketing management, retail management, marketing communications, promotion management, and/or international marketing. Each area of study may be applied to consumer, business-to-business, and/or services marketing environments in business and nonprofit organizations.

The instructional objective of the Marketing department is to provide knowledge of the marketing process and an understanding of its functions. The students are expected to develop decision-making skills, computational skills, and communication skills with appreciation for global marketplace and ethical concerns. In addition to the basic business foundation and core courses, marketing majors are required to complete 18 credits of marketing or department approved courses. Included in these 18 credits are three required courses: Mkt 443, 444, and 447.

The department also offers a minor for non-Marketing majors in the College of Business. The minor required 15 credits from an approved list of courses, of which 9 credits must stand alone. Students with declared majors have priority over students with declared minors in courses with space constraints.

Graduate Study

The Department of Marketing participates in the following graduate programs: the M.S. in Business, the M.B.A. full-time and part-time programs, and the Ph.D. program in Business and Technology. The M.S. in business is a 30-credit curriculum culminating in a thesis or creative component. The M.B.A. program is a 48-credit, nonthesis, noncreative-component curriculum. Twenty four of the 48 credits are core courses and the remaining 24 are graduate electives. Within the M.B.A. program, students may develop an area of specialization in marketing. This specialization requires that 12 of the 24 credits of graduate electives be from marketing.

The Ph.D. program in Business and Technology with a Customer Management (CM) major is a 56 credit (minimum) curriculum designed around four inter-related areas–Core, CM major, Minor, and Research Methods—and dissertation. The focus of the CM major will be on customer management issues—selection of target customers, design of individualized customer programs, maximizing satisfaction, loyalty and retention and getting the maximum ROI out of customer investments.

Courses primarily for undergraduate students

Mkt 340. Principles of Marketing. (3-0) Cr. 3. F.S.SS. *Prereq: credit or current enrollment in Econ 101.* The role of marketing in Society. Markets, marketing institutions, and marketing functions with emphases on product, price, marketing communication, and marketing channel decisions.

Mkt 343. Personal Sales. (3-0) Cr. 3. *Prereq: 340.* Analysis of the theory and practice of personal selling with the context of relationship marketing and sales force automation. Topics include: goal setting, prospecting, time/territory management, questioning, presentations, objections, commitment and customer service; simulations of selling situations.

Mkt 410. Promotional Strategy. (3-0) Cr. 3. F.S. *Prereq: Credit or enrollment in 447.* Principles, concepts, and problems involved in the development and implementation of promotional strategies. Coordination of a variety of promotional elements: advertising, sales promotion, direct marketing, public relations and publicity of web communications, and personal selling. Nonmajor graduate credit.

Mkt 442. Sales Management. (3-0) Cr. 3. F.S. *Prereq: 340.* Functional aspects of sales force management; personal selling methods; procedures for recruiting, selecting, and training new salespeople; compensation and expense control systems; problems of sales force motivation and supervision; methods of territorial and quota assignment; sales department budgets; distributor-dealer relations; other selected topics. Nonmajor graduate credit.

Mkt 443. Strategic Marketing Management. (3-0) Cr. 3. F.S. *Prereq: 444, 447.* Analysis of major elements of strategic marketing management. May include case studies or business simulations involving decision making using marketing tools from previous courses. (For marketing majors only.)

Mkt 444. Fundamentals of Marketing Research. (3-0) Cr. 3. F.S. *Prereq: 340, Stat 226.* Marketing research techniques: problem formulation, research design, questionnaire construction, sampling, data collection procedures, and analysis and interpretation of data related to marketing decisions. Nonmajor graduate credit.

Mkt 446. Retailing. (3-0) Cr. 3. F.S. *Prereq: 340.* Basic areas of retail management: buying, merchandising, retail promotion, store location, store layout, credit management, and inventory control. Emphasis on practical application of retail management principles.

Mkt 447. Fundamentals of Consumer Behavior. (3-0) Cr. 3. F.S. *Prereq: 340.* Study of how consumers select, purchase, use, and dispose of goods and services. Includes analyses of how markets and others influence these processes. Application of concepts and methods of the behavioral sciences to marketing management decision making. Nonmajor graduate credit.

Mkt 448. Fundamentals of International Marketing. (3-0) Cr. 3. F.S. *Prereq: 340.* Introduction to terms used in international marketing and sources of information on international markets. Development of sensitivity toward foreign business environment and familiarity with operations of multinational corporations. Nonmajor graduate credit.

Mkt 449. Marketing Seminar. (3-0) Cr. 3. *Prereq: 340.* Analysis of current issues and problems in marketing with emphasis on new theoretical and methodological developments. Additional seminars may be offered. Nonmajor graduate credit.

Mkt 451. Marketing Channels. (3-0) Cr. 3. F.S. *Prereq: 340.* Focuses on marketing channels, the downstream part of a value chain, companies that come together to bring products and services from their point of origin to the point of consumption. Topics include channel institutions, channel design, channel coordination and implementation. Highlights international and technological aspects of marketing channels so that students can Successfully develop and manage marketing channels in a contemporary business environment.

Mkt 453. Brand Management. (3-0) Cr. 3. F.S. *Prereq: 447* Examines the role of brands and branding in market environments characterized by intense competition and consumer power. Covers issues relating to why branding is important to firms, what brands represent to consumers, and what should be done to manage them effectively.

Mkt 490. Independent Study. Cr. arr. Repeatable. *Prereq: 340, senior classification; permission of instructor.*

Mkt 492. Comparative Marketing. (3-0) Cr. 3. SS. *Prereq: 340.* Provides experience to students in culture, social, economic, and political environment of marketing in a foreign country. Students complete a term project (e.g., a marketing plan) based on information collected in the foreign country. Students attend briefings by experts/officials of private and public organizations. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

Mkt 504. Marketing. (2-0) Cr. 2. *Prereq: Graduate classification.* The scope of marketing and the identification and assessment of marketing opportunities. Consumer behavior and decision making process, organizational buyer behavior, and the role of research in the marketing planning process. Market definition and analysis, segmentation, competitor analysis, targeting and strategic decisions involved in developing the marketing program. Developing marketing mix strategies and relating them to the overall strategic marketing plan. Organizational design for marketing strategy implementation and control, and effectiveness.

Mkt 509. International Business. (2-0) Cr. 2. *Prereq: Graduate classification.* Survey of the structure and environment of international business. Patterns of international trade, economic and monetary systems, cross-cultural and legal aspects of international business. Global dimensions of the functional disciplines of business. Tools for developing global strategies such as economic analysis and risk analysis.

Mkt 540. Marketing Management. (3-0) Cr. 3. F.S. *Prereq: 504.* Strategic marketing and decision making, with emphasis on cases utilizing qualitative and quantitative techniques and marketing models.

Mkt 541. International Marketing. (3-0) Cr. 3. F. *Prereq: 504, 509.* Scope and nature of global marketing operation; the context of international environment in which firms operate. Recent developments of international business activities, and a framework for better understanding of the basic forces driving international business and marketing operations. Development of market entry strategies and global marketing mix policies, as well as export operations. Organizational issues related to the globalization of the firm.

Mkt 542. New Product Development and Marketing. (3-0) Cr. 3. S. *Prereq: 504.* Principles and concepts of new product development and introduction; decision areas include market definition and structure, idea generation, concept evaluation, test marketing, launch tracking, and global product planning; models and techniques of new product evaluation used by consumer product companies.

Mkt 544. Marketing Research. (3-0) Cr. 3. S. *Prereq: 504, Stat 328 or 401.* Marketing research methods are examined with emphasis on the use of advanced research methods in business research. Application of advanced sampling, measurement, and data analysis methods in research on market segmentation, market structure, consumers' perceptions and decision processes, marketing communication, new product development, and pricing.

Mkt 545. Integrated Marketing Communication. (3-0) Cr. 3. *Prereq: 504.* Introduces the student to the field of marketing communications. Covers a number of topics and areas essential for understanding how to design and evaluate communication strategies necessary for the successful marketing of products and services. An integrated marketing communications (IMC) perspective is employed in covering material, with a corresponding focus on various elements of an IMC strategy, including advertising, promotions, point-of-purchase communications, direct marketing techniques, and other topics.

Mkt 546. Customer Relationship and Business-To-Business Marketing. (3-0) Cr. 3. *Prereq: 504.* Core concepts and issues involved in customer relationship strategy and management in consumer and business-to-business markets. Emphasis on customer opportunity analyses, customer relationship management tools and strategies.

Mkt 547. Consumer Behavior. (3-0) Cr. 3. S. *Prereq: 504.* The behavior of consumers. Intensive review of literature from relevant disciplines. Applications of concepts and methods of the behavioral sciences to marketing management decision making.

Mkt 549. Global Marketing Planning and Execution. (3-0) Cr. 3. *Prereq: 501, 504, 509.* Allows students to develop the ability to plan and execute a B2B business by integrating aspects of marketing with other business functions in the international context. Product strategy, innovation, foreign market entry, supply strategies for foreign markets, pricing strategy, market research, customer service, international payments, managing international subsidiaries, licensing, distribution strategy, and responding to changing international environmental conditions. Involves a simulation-based instruction in planning and managing an international B2B business.

Mkt 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.* For students wishing to do individual research in a particular area of marketing.

Courses for graduate students

Mkt 601. Seminar in Consumer Behavior. (3-0) Cr. 3. *Prereq: Mgmt 601.* A rigorous foundation of the major conceptual and methodological paradigms in the consumer-behavior literature. Seeks to aid students in understanding the psychological, sociological, and Anthropological roots of consumer behavior research. Read the latest research in the area reported in leading consumer behavior/psychology journals.

Mkt 602. Marketing Strategy. (3-0) Cr. 3. *Prereq: Mgmt 601.* Review major contributions and recent developments in marketing strategy research and practice. Review commonly used modeling approaches and research methods to study strategic interaction between firms seeking to build competitive advantages. Provide an overview of empirical research regarding measurement, level and persistence of business success and implications of findings for theory and strategy development.

Mkt 603. Customer Management Strategy and Implementation. (3-0) Cr. 3. *Prereq: Mkt 601.* Addresses key strategy and implementation issues behind customer management. Topics such as typology of CM strategies, antecedents and outcomes; environmental and managerial influences on strategy formation; technology and impact on CM strategy; and value of CM strategy. Examine theories and concepts behind important CM issues such as customer satisfaction, customer loyalty and customer profitability.

Mkt 604. Marketing Issues in Inter-Organizational Relations. (3-0) Cr. 3. *Prereq: Mgmt 602.* Inter-firm and network competition; relationship among suppliers, distributors, alliance partners, external employees, and internal employees. Theories including agency theory, network theory, relationship marketing, channels of distribution theories on cooperation versus competition, IOS theories.

Mkt 644. Research Methods. (3-0) Cr. 3. *Prereq: Knowledge of introductory Statistics, Stat 401, enrollment in the PhD program.* Introduction to methodological issues that arise when addressing a wide variety of research questions in organizational and consumer studies. Address measurement issues (scales, reliability and construct validity), design (for experiments, surveys, or qualitative studies), sampling, and analysis (univariate and multivariate Statistical procedures). Measurement issues in cross-cultural and international research will also be covered. It is assumed that students entering the course have knowledge of introductory Statistics.

Mkt 650. Research Practicum I. (1-0) Cr. 1. *Prereq: enrollment in the PhD program.* Preparation of a research manuscript to be submitted to a peer-reviewed academic journal. Students will work with a faculty mentor on a research project.

Mkt 651. Research Practicum II. (1-0) Cr. 1. *Prereq: enrollment in the PhD program.* Preparation of a second research manuscript to be submitted to a peer-reviewed academic journal. Although students work under the supervision of a faculty mentor, the students will take independent responsibility for the research project.

Mkt 699. Dissertation. Cr. 12. *Prereq: Graduate classification, permission of dissertation supervisor.* Research

Materials Engineering

(Administered by the Department of Materials Science and Engineering)

Richard Lesar, Chair of Department

Distinguished Professors: Gschneidner, Pecharsky, Thiel, Thompson, Trivedi

Distinguished Professors (Emeritus): Verhoeven

University Professors: S. Martin

Professors: Akinc, Chumbley, Genalo, Gleeson, King, Lesar, Levitas, Mallapragada, Rajan, Russell, Shechtman

Professors (Emeritus): Larsen, D. Martin, McGee, Patterson, J. Smith, Wechsler, Wilder

Professors (Adjunct): Anderson, McCallum

Professors (Collaborators): Jiles, Tsukruk

Associate Professors: Bowler, K. Constant, Napolitano, X. Tan, Ustundag

Associate Professors (Adjunct): Athreya, Biner, Kramer

Assistant Professors: Beckman, Chaudhary, Hong, Kessler, Lin

Assistant Professors (Adjunct): Selby

Lecturer: A. Constant, M. Martin

Undergraduate Study

For the undergraduate curriculum in materials engineering leading to the degree bachelor of science, see *College of Engineering, Curricula*. This curriculum is accredited by the Engineering Accreditation Committee of ABET. Materials engineering is a broadly-based discipline relating the composition, microstructure, and processing of materials to their properties, uses and performance. Materials engineering includes a variety of traditional and modern technologies involving metals, ceramics, polymers, composites, and electronic materials.

Because of its interdisciplinary nature, career opportunities for materials engineers bridge all industrial and government sectors including: materials based technologies (materials production), communication/information technologies (semiconducting materials, fiber optics), medical/environmental technologies (biomedical, energy production, waste containment), nanotechnolgies consumer products (building and construction, durable goods), and transportation industries (automotive, aerospace).

The objectives of the materials engineering program are to produce graduates who

•practice materials engineering in a broad range of industries including materials production, semiconductors, medical/environmental, consumer products, and transportation products

•respond to environmental, social, political, ethical and economic constraints to improve the quality of life in Iowa and the world

•work independently and in teams and are proficient in written, oral and graphical communication

•engage in lifelong learning in response to the rapidly expanding knowledge base and changing environment of our world

•engage in advanced study in materials and related or complementary fields.

Graduates in materials engineering are able to apply scientific and engineering principles to select or design the best materials to solve engineering problems. They are also able to control the microstructure of materials through processing to optimize properties and performance. They are skilled in creative, independent problem solving under time and resource constraints. Graduates will have gained experience in materials engineering practice through cooperative work experience or internships in industry, national laboratories, or other funded research work. They will have hands-on skills with a broad range of modern materials processing and characterization equipment and methods.

A degree in materials engineering relies on a strong foundation of math, chemistry and physics. The core materials courses include fundamentals of materials, kinetics and thermodynamics, mechanical properties, computational methods, design, and professional practice experience. Students tailor their programs to their goals and interests through the selection of two areas of specialization from the four available: ceramic materials, electronic materials, metallic materials and polymeric materials. In lieu of the second specialty from the four listed, a student may propose an individually designed, materials related technical specialty to meet specific career goals. Students must have a 3.00 gpa and a B+ in Mat E 215. Students may learn other requirements and procedures for applying in the Undergraduate Handbook or by speaking with their adviser. Approval of this proposal rests with the department's curriculum committee. Additional technical electives can be taken in other areas of interest. The breadth and depth of the program provide excellent preparation for both immediate entry into industry or further study in graduate school.

The department also offers a cooperative education program that combines classroom learning with work experience. (See *College of Engineering Cooperative Programs)*.

Well qualified juniors in materials engineering who are interested in graduate study may apply for concurrent enrollment during their senior year in the Graduate College to simultaneously pursue both bachelor of science and master of science degrees. See Materials Science and Engineering for more information.

Courses primarily for undergraduate students

Mat E 201. Materials Science and Engineering - Professional Planning. Cr. R. F. *Prereq: Sophomore classification in Mat E.* Preparation for a career in materials engineering; experiential learning, resumes, interviewing, Myers-Briggs Type Indicator, leadership, undergraduate research, international opportunities, graduate school preparation and opportunities, and alternative career paths. Satisfactory-fail only.

Mat E 214. Structural Characterization of Materials. (2-3) Cr. 3. S. *Prereq: 215, credit or enrollment in Phys 221.* Structural characterization of ceramic, electronic, polymeric and metallic materials. Techniques include optical and electron microscopy, x-ray diffraction, and thermal analysis. Identification of materials type, microstructure, and crystal structure.

Mat E 215. Introduction to Materials Science and Engineering I. (3-0) Cr. 3. F. *Prereq: Chem 177 or 167.* Materials Engineering majors only. Structure and properties of ceramic, electronic, polymeric and metallic materials, emphasizing differences based on structure and bonding. Phase equilibria and phase transformations. Only one of Mat E 215, 272, or 392 may count toward graduation.

Mat E 215L. Introduction to Materials Science and Engineering I - Lab. (0-3) Cr. 1. F. *Prereq: Credit or enrollment in 215 or 272 or 392.* Materials Engineering majors only. Laboratory exercise in materials.

Mat E 216. Introduction to Materials Science and Engineering II. (3-3) Cr. 4. S. *Prereq: 215, Credit or enrollment in Phys 222.* Materials Engineering majors only. Fundamentals of polymers and composite materials, degradation. Electronic, thermal, magnetic and optical properties of materials. Materials for energy, biomaterials and nanomaterials. Laboratory exercise in materials property measurements.

Mat E 272. Principles of Materials Science and Engineering. (2-0) Cr. 2. F.S.SS. *Prereq: Sophomore classification; Chem 167 or 177; Math 165.* Introduction to the structure of metals, polymers and ceramics. Crystal structure and imperfections in metals. Diffusion, mechanical properties, and failure mechanisms. Phase equilibrium diagrams and heat treatment principles for steels, composite materials, and aluminum alloys. Engineering applications. Only one of Mat E 215, 272, or 392 may count toward graduation.

Mat E 298. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of department and Engineering Career Services.* First professional work period in the cooperative education program. Students must register for this course before commencing work.

Mat E 311. Thermodynamics in Materials Engineering. (3-0) Cr. 3. F. *Prereq: 216, Chem 178, Phys 222, credit or enrollment in Math 267.* Basic laws of thermodynamics applied to materials systems. Thermodynamics of chemical reactions. Homogeneous and heterogeneous equilibrium. Phase diagrams for materials systems. Nonmajor graduate credit.

Mat E 314. Kinetics and Phase Equilibria in Materials. (3-0) Cr. 3. S. *Prereq: 216, 311.* Kinetic phenomena and phase equilibria relevant to the origins and stability of microstructure in metallic, ceramic and polymeric systems. Application of thermodynamics to the understanding of stable and metastable phase equilibria, interfaces and their effects on stability: defects and diffusion, empirical rate equations for transformation kinetics, driving forces and kinetics of nucleation, diffusional and diffusionless phase transformations. Nonmajor graduate credit.

Mat E 316. Computational Methods in Materials. (2-2) Cr. 3. S. *Prereq: 216.* Use of Mathematical and Statistical computer tools for materials design and analysis. Applications of Statistical principles to problems concerned with materials. Computer-assisted design of experiments. Nonmajor graduate credit.

Mat E 317. Introduction to Electronic Properties of Ceramic, Metallic, and Polymeric Materials. (3-0) Cr. 3. F. *Prereq: 216 and Phys 222.* Materials Engineering majors only. Introduction to electronic properties of materials and their practical applications. Classical conduction models and electronic properties of metallic and ceramic materials. Elementary quantum mechanics and band theory of electron states in solids. Quantum theory of metallic conduction. Elementary semiconductor theory and devices. Polarization and dielectric properties of materials. Electron conduction in polymeric systems. Magnetic properties and applications of metals and ceramics.

Mat E 321. Introduction to Ceramic Science. (3-0) Cr. 3. F. *Prereq: 216.* Ceramic crystal structures, defects, diffusion and transport. Phase equilibria and microstructures. Powder packing. Thermal, electronic, optical and magnetic properties of ceramics. Nonmajor graduate credit.

Mat E 322. Introduction to Ceramic Processing. (2-3) Cr. 3. S. *Prereq: 321.* Synthesis and characterization of ceramic powders. Colloidal phenomena, rheology of suspensions, ceramic forming methods, and drying. High temperature ceramic reactions, liquid and solid-state sintering, grain growth, microstructure development. Processing/microstructure/property relationships. Nonmajor graduate credit.

Mat E 332. Semiconductor Materials and Devices. (Cross-listed with E E). (3-0) Cr. 3. S. *Prereq: Phys 222, and for Mat E majors only Mat E 334.* Introduction to semiconductor material and device physics. Quantum mechanics and band theory of semiconductors. Charge carrier distributions, generation/recombination, transport properties. Physical and electrical properties and fabrication of semiconductor devices such as MOSFETs, bipolar transistors, laser diodes and LED's. Nonmajor graduate credit.

Mat E 334. Electronic Properties of Materials. (2-2) Cr. 3. S. *Prereq: 317.* Electronic properties of conductors, semiconductors and dielectric materials. Quantum mechanical description of electron wave-particle duality and solutions of Shrodinger equation for free and bound electrons. Development of band theory of electron states in solids. Statistical mechanics and the density-of-states in energy bands. Thermal properties of lattices. Quantum model for metallic conduction. Semiconductor theory and semiconductor device physics. Polarization phenomena and dielectric properties of materials. Superconductivity and BCS Theory. Nonmajor graduate credit.

Mat E 342. Structure/Property Relations in Nonferrous Metals. (2-3) Cr. 3. S. *Prereq: 216.* Processing of metals and alloys to obtain desired mechanical properties by manipulation of their microstructure and composition of constituent phase(s). Relevance of defects to mechanical properties, plastic flow. Strengthening mechanisms in metals and alloys. Microstructure, heat treatment and mechanical properties of engineering alloys. Metal-matrix composites. Nonmajor graduate credit.

Mat E 351. Introduction to Polymeric Materials. (3-0) Cr. 3. F. *Prereq: 216.* Introduction to polymeric materials, synthesis, structure and properties. Relationship between polymer composition, processing and properties. Nonmajor graduate credit.

Mat E 362. Principles of Nondestructive Testing. (Cross-listed with E M). (3-0) Cr. 3. S. *Prereq: Phys 112 or 222.* Radiography, ultrasonic testing, magnetic particle inspection, eddy current testing, dye penetrant inspection, and other techniques. Physical bases of tests; materials to which applicable; types of defects detectable; calibration standards, and reliability safety precautions. Nonmajor graduate credit.

Mat E 362L. Nondestructive Testing Laboratory. (Cross-listed with E M). (0-3) Cr. 1. S. *Prereq: Credit or enrollment in 362.* Application of nondestructive testing techniques to the detection and sizing of flaws in materials and to the characterization of material's microstructure. Included are experiments in hardness, dye penetrant, magnetic particle, x-ray, ultrasonic and eddy current testing. Field trips to industrial laboratories. Nonmajor graduate credit.

Mat E 370. Toying with Technology. (Cross-listed with Cpr E). (2-2) Cr. 3. F.S. *Prereq: C I 201, junior standing in non-engineering major.* A project-based, hands-on learning course. Technology literacy, appreciation for technological innovations, principles behind many technological innovations, hands-on laboratory experiences based upon simple systems constructed out of LEGOs and controlled by small microcomputers. Future K-12 teachers will leave the course with complete lesson plans for use in their upcoming careers.

Mat E 388. Sustainable Engineering and International Development. (Cross-listed with A E, C E, E E, M E). (2-2) Cr. 3. F. *Prereq: Junior classification in engineering.* Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report.

Mat E 391. Introduction to US Women's roles in Industry and Preparation for Summer Study. (3-0) Cr. 3. S. Introduction to the historical role of women as related to US industry, family and community with emphasis on the years 1830 - 1945, but also related to the current climate. Topics completed in 392 with arranged lectures at Brunel University. Orientation for Brunel summer study program. Credit for graduation allowable only upon completion of Mat E 392. Satisfactory-fail only.

Mat E 392. Principles of Materials Science and Engineering. (3-0) Cr. 3. SS. *Prereq: 391, Chem 167 or 177.* Structure and properties of ceramic, electronic, polymeric and metallic materials, emphasizing differences based on structure and bonding. Phase equilibria and phase transformations. Taught on Brunel University campus. Only one of Mat E 215, 272, or 392 may count toward graduation. Satisfactory-fail only.

Mat E 396. Summer Internship. Cr. R. Repeatable. SS. *Prereq: Permission of department and Engineering Career Services.* Summer professional work period.

Mat E 397. Engineering Internship. Cr. R. Repeatable. F.S. *Prereq: Permission of department and Engineering Career Services; junior classification.* Professional work period, one semester maximum per academic year.

Mat E 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: 298, permission of department and Engineering Career Services.* Second professional work period in the cooperative education program. Students must register for this course before commencing work.

Mat E 413. Materials Design and Professional Practice I. (2-2) Cr. 3. F. *Prereq: Senior Status in Mat E.* Fundamentals of materials engineering design, information sources, team behavior, professional preparation, quantitative design including finite-element analysis and computer aided design, materials selection, informatics and combinatorial methods. Analysis of design problems, development of solutions, selected case studies. Oral presentation skills. Preparations for spring project.

Mat E 414. Materials Design and Professional Practice II. (2-2) Cr. 3. S. *Prereq: Senior Status in Mat E.* Integration of materials processing, structure/composition, properties and performance principles in materials engineering problems. Multi-scale design of materials, materials processing, case studies including cost analysis, ethics, risk and safety. Team projects specified by either industry or academic partners. Written and oral final project reports.

Mat E 418. Mechanical Behavior of Materials. (2-3) Cr. 3. S. *Prereq: 216 and credit or enrollment in E M 324.* Mechanical behavior of ceramics, metals, polymers, and composites. Relationships between materials processing and atomic aspects of elasticity, plasticity, fracture, and fatigue. Life prediction, stress- and failure analysis. Nonmajor graduate credit.

Mat E 425. Glasses and Advanced Ceramics. (2-3) Cr. 3. F. *Prereq: 321.* Composition, structure, properties and manufacturing of inorganic glasses. Properties and applications of advanced ceramics. Structural, thermal, optical, electronic, magnetic and biological applications of ceramic materials. Contemporary topics in ceramic engineering. Laboratory exercises in preparation and characterization of glasses and advanced ceramics. Nonmajor graduate credit.

Mat E 432. Microelectronics Fabrication Techniques. (Cross-listed with E E). (2-4) Cr. 4. *Prereq: Phys 222, Math 267. E E 332 or Mat E 334 recommended.* Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS, ICs and micromechanical systems (MEMS). Nonmajor graduate credit.

Mat E 433. Advanced Electronic Materials. (2-3) Cr. 3. F. *Prereq: 334.* Advanced concepts in band theory of solids including chemical bonding in solids and the linear combination of atomic orbitals, phase transitions in electronic, magnetic, and optical materials. Dielectric materials, ferroelectricity, piezoelectricity, sensors, and non-stoichiometric conductors. Optical properties, optical spectra of materials, optoelectronic devices. Magnetic and superconducting materials. Nonmajor graduate credit.

Mat E 442. Polymers and Polymer Engineering. (Cross-listed with Ch E). (3-0) Cr. 3. S. *Prereq: Ch E 382 and Chem 331 or Mat E 351.* Chemistry of polymers, addition and condensation polymerization. Physical and mechanical properties, polymer rheology, production methods. Applications of polymers in the chemical industry. Nonmajor graduate credit.

Mat E 443. Physical Metallurgy of Ferrous Alloys. (2-3) Cr. 3. F. *Prereq: 214, 216, 311.* Production and processing of ferrous metals. Extraction of pig iron from ore. Steelmaking processes. Equilibrium and nonequilibrium phases in the Fe-C system. Properties and processing of cast irons, plain carbon and alloy steels, stainless and specialty steels. Transformation diagrams, hardenability, and surface treatments. Continuous casting, forging, hot rolling, quenching, and tempering as they apply to ferrous materials. Cost and mechanical performance considerations in cast iron and steel selection and heat treatment. Nonmajor graduate credit.

Mat E 444. Corrosion and Failure Analysis. (2-2) Cr. 3. S. *Prereq: 216 and credit or enrollment in 418.* Corrosion and corrosion control of metallic systems. Corrosion fundamentals, classification of different types of metallic corrosion, corrosion properties of various engineering alloys, corrosion control. Failure analysis. Characteristics of common types of metallic failures, case studies of failures, designing to reduce failure risk. Nonmajor graduate credit.

Mat E 453. Physical and Mechanical Properties of Polymers. (Dual-listed with M S E 553). (2-3) Cr. 3. F. *Prereq: 351.* Overview of polymer chemical composition, microstructure, thermal and mechanical properties, rheology, and principles of polymer materials selection. Intensive laboratory experiments include chemical composition studies, microstructural characterization, thermal analysis, and mechanical testing. Nonmajor graduate credit.

Mat E 454. Polymer Composites and Processing. (Dual-listed with M S E 554). (3-0) Cr. 3. S. *Prereq: 351.* Basic concepts in polymer composites, blends, and block copolymers. Phase separation and miscibility, microstructures and mechanical behavior. Fiber reinforced and laminated composites. Viscosity, rheology, viscoelasticity of polymers. Polymer melt processing methods such as injection molding and extrusion; selection of suitable processing methods and their applications. Nonmajor graduate credit.

Mat E 456. Biomaterials. (Dual-listed with M S E 556). (3-0) Cr. 3. S. *Prereq: 216 or 272 or 392.* Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

Mat E 466. Multidisciplinary Engineering Design. (Cross-listed with A E, Aer E, Cpr E, E E, Engr, I E, M E). (1-4) Cr. 3. Repeatable. F.S. *Prereq: Student must be within two semesters of graduation and receive permission of the instructor.* Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations, computer models and engineering drawings.

Mat E 488. Eddy Current Nondestructive Evaluation. (Dual-listed with M S E 588). (Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: Math 265 and (Mat E 216 or 272 or E E 311 or Phys 364).* Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

Mat E 490. Independent Study. Cr. arr. Repeatable. Investigation of individual research or special topics.

Mat E 498. Cooperative Education. Cr. R. Repeatable. F.S.SS. *Prereq: 398, permission of department and Engineering Career Services.* Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Materials Science and Engineering

Richard Lesar, Chair of Department

Distinguished Professors: Gschneidner, Pecharsky, Thiel, Thompson, Trivedi

Distinguished Professor (Emeritus): Verhoeven

University Professor: S. Martin

Professors: Akinc, Chumbley, Genalo, Gleeson, King, Lesar, Levitas, Mallapragada, Rajan, Russell, Shechtman

Professors (Emeritus): , D. Martin, McGee, Patterson, J. Smith, Wechsler, Wilder

Professors (Adjunct): Anderson, McCallum

Professors (Collaborators): Jiles, Tsukruk

Associate Professors: Bowler, Constant, Napolitano, X. Tan, Ustundag

Associate Professors (Adjunct): Athreya, Biner, Kramer

Assistant Professors: Beckman, Chaudhary, Hong, Kessler, Lin

Assistant Professors (Adjunct): Selby

Lecturer: A. Constant, M. Martin

Graduate Study

The department offers work toward the following advanced degrees: Master of Science in Materials Science and Engineering and Doctor of Philosophy in Materials Science and Engineering.

Built on a foundation of thermodynamics, kinetics of phase transformations, mechanical behavior, physical properties, solid state science, and the structure and chemistry of materials, the graduate program offers advanced studies in many areas of materials science and engineering, including the design and control of materials for structural, electronic, photonic, magnetic, optical, and biological functionality. Graduates of the program have a fundamental understanding of the critical aspects of the field and how they are applied to real materials systems. The program is highly flexible and research-oriented, where students work carefully with their major professor in tailoring the various academic and research components to meet their interests.

With the ability to address complex problems in materials science while considering the various constraints inherent to both academic and industrial environments, our graduates are well prepared for a wide range of academic and research-related careers. They are skilled in carrying out independent and collaborative research, able to communicate effectively in formal and informal settings, and are proficient at writing persuasive technical articles and grant proposals.

The department boasts excellent facilities for academic materials research, maintaining a wide range of faculty laboratories across the ISU campus. In addition, departmental research is highly integrated with the operation of several Research Centers, such as the Ames Laboratory, the Center for Nondestructive Evaluation, the Microelectronics Research Center, and the Center for Advanced Technology Development. These laboratories offer excellent resources and opportunities for graduate student research.

Prerequisite to major graduate work is completion of an undergraduate curriculum in physical science, biological science, or engineering discipline. Graduate students from disciplines other than materials science and engineering may expect that supplemental coursework will be needed, in addition to the required graduate coursework. Well qualified students (juniors) enrolled in the undergraduate materials engineering program at Iowa State University can apply to the Graduate College for admission to the concurrent enrollment program, where students may simultaneously pursue both master of science and bachelor of sciences degrees.

The requirements for the M.S. and Ph.D. degrees are established by the student's program of study committee within the established guidelines of the Graduate College. Minimum requirements include coursework, research, proposal, preliminary oral examination (Ph.D. only), dissertation, and a final oral examination. Academic coursework requirements include 18 credits for the M.S. degree and 26 credits for the Ph.D., with additional specific rules for choices available from the department.

There are no foreign language requirements for either of the graduate degrees administered by the Department of Materials Science and Engineering. Graduate students wishing to declare a formal minor in materials science and engineering will have at least one materials science and engineering faculty member serving on their program of study committee. For the M.S. and Ph.D. degrees, they will take a minimum of 8 and 12 materials science and engineering course credits, respectively.

Courses primarily for graduate students, open to qualified undergraduate students

M S E 510. Fundamentals of Structure and Chemistry of Materials. (3-0) Cr. 3. F. *Prereq: Math 165, Phys 221, and Chem 167.* Geometric and algebraic representations of symmetry. Pair distribution function. Structure, chemistry, and basic properties of covalent, ionic, and metallic solids, glasses and liquids, and polymers. Interactions of materials with particles and waves. Relationships between direct and reciprocal spaces. The kinematical theory of diffraction, with an introduction to the dynamical theory.

M S E 520. Thermodynamics and Kinetics in Multicomponent Materials. (3-0) Cr. 3. F. *Prereq: Mat E 311 or Chem 321, Math 266 or Math 267.* A review of the fundamental principles of heat, work, basic thermodynamic relations, and criteria for equilibrium. Analytical treatments for the thermodynamic description of multicomponent chemical solutions and reacting systems are developed and employed to predict phase equilibria in materials systems. Builds on the thermodynamic construction to treat the kinetics of chemical reactions and phase transformations. Topics include general first order and second order transitions, along with chemical diffusion. Detailed examples involving nucleation and diffusion limited growth, spinodal decomposition, martensitic transformations, magnetic and electric transitions, and glass formation will be considered.

M S E 521. Mechanical Behavior and Manufacturing of Polymers and Composites. (Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: ME 324 or Mat E 272 and E M 324.* Effect of chemical structure and morphology on properties. Linear viscoelasticity, damping and stress relaxation phenomena. Structure and mechanics of filler and fiber reinforced composites. Mechanical properties and failure mechanisms. Material selection and designing with polymers. Processing of polymer and composite parts.

M S E 530. Solid State Science. (3-0) Cr. 3. S. *Prereq: Mat E 334 or E E 332 or Phys 322.* Development of a quantitative description of the electronic structure of solids starting with fundamentals of atoms, atomic bonding, basic crystallography, and band theory of solids. Continuum properties of solids in response to electromagnetic fields and thermal gradients. Quantitative description of the atomistic properties of solids through electron-electron interactions, electron-phonon interactions, and dipole interactions.

M S E 540. Mechanical Behavior of Materials. (3-0) Cr. 3. F. *Prereq: Mat E 418, Math 266 or Math 267.* Mechanical behavior of materials with emphasis on micromechanics of deformation in three generic regimes: elasticity, plasticity, and fracture. A materials science approach is followed to understand and model the mechanical behavior that combines continuum mechanics, thermodynamics, kinetics, and microstructure. Some topics include elastic properties of materials, permanent deformation mechanisms at different temperatures (e.g., via dislocation motion and creep), and fracture in ductile and brittle materials. Specific classes of materials that are studied: metals, ceramics, polymers, glasses and composites.

M S E 550. Fundamentals of Nondestructive Evaluation. (Cross-listed with E M). (3-2) Cr. 4. S. *Prereq: E M 324, Math 385.* Principles of five basic NDE methods and their application in engineering inspections. Materials behavior and simple failure analysis. NDE reliability, and damage-tolerant design. Advanced methods such as acoustic microscopy, laser ultrasonics, thermal waves, computed tomography, and thermoelectrics are analyzed. Laboratory experiments on all basic methods: ultrasonics, eddy currents, x-ray, liquid penetrants, magnetic testing, and visual inspection are performed.

M S E 551. Characterization Methods in Materials Science. (2-3) Cr. 3. *Prereq: Mat E 214.* Characterization of ceramic, metal, polymer and glassy materials using modern analytical techniques. Spectroscopic (IR, Raman, UV/VIS/NIR, and NMR), thermal (DSC, DTA/TGA, and DMA) methods, mechanical and rheological testing, magnetic and electrical characterization, and powder characterization.

M S E 552. Scanning and Auger Electron Microscopy. (2-3) Cr. 3. *Prereq: Phys 222.* Characterization of materials using scanning electron microscope (SEM), electron microprobe, and auger spectrometer. Compositional determination using energy and wavelength dispersive x-ray and Auger spectroscopies. Specimen preparation. Laboratory covers SEM operation.

M S E 553. Physical and Mechanical Properties of Polymers. (Dual-listed with Mat E 453). (2-3) Cr. 3. F. *Prereq: Mat E 351.* Overview of polymer chemical composition, microstructure, thermal and mechanical properties, rheology, and principles of polymer materials selection. Intensive laboratory experiments include chemical composition studies, microstructural characterization, thermal analysis, and mechanical testing.

M S E 554. Polymer Composites and Processing. (Dual-listed with Mat E 454). (3-0) Cr. 3. S. *Prereq: Mat E 351.* Basic concepts in polymer composites, blends, and block copolymers. Phase separation and miscibility, microstructures and mechanical behavior. Fiber reinforced and laminated composites. Viscosity, rheology, viscoelasticity of polymers. Polymer melt processing methods such as injection molding and extrusion; selection of suitable processing methods and their applications.

M S E 555. Advanced Polymer Materials. (3-0) Cr. 3. *Prereq: Mat E 351.* Overview of basic principles of polymeric materials and the latest developments. Recently introduced polymeric materials (functional block-copolymers, biomedical, conductive, nanocomposites, electrooptical, non-linear optical polymers) and prospective applications in functional coatings, artificial implants, microelectronics, nanodevices, chemo/bio-sensors, and optical computing.

M S E 556. Biomaterials. (Dual-listed with Mat E 456). (3-0) Cr. 3. S. *Prereq: Mat E 216 or 272 or 392.* Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

M S E 564. Fracture and Fatigue. (Cross-listed with E M, M E). (3-0) Cr. 3. F. *Prereq: E M 324 and either Mat E 216 or 272 or 392. Undergraduates: Permission of instructor.* Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

M S E 569. Mechanics of Composite and Combined Materials. (Cross-listed with E M). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: E M 324.* Mechanics of fiber-reinforced materials. Micromechanics of lamina. Macromechanical behavior of lamina and laminates. Strength and interlaminar stresses of laminates. Failure criteria. Stress analysis of laminates. Thermal moisture and residual stresses. Joints in composites.

M S E 570. Toying With Technology for Practicing Teachers. (Cross-listed with C I). (2-0) Cr. 2. SS. *Prereq: C I 201, non-engineering major.* A project-based, hands-on learning course. Technology literacy, appreciation for technological innovations, principles behind many technological innovations, hands-on experiences based upon simple systems constructed out of LEGOs and controlled by small microcomputers. Other technological advances with K-12 applications will be explored. K-12 teachers will leave the course with complete lesson plans for use in their classrooms.

M S E 588. Eddy Current Nondestructive Evaluation. (Dual-listed with Mat E 488). (Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Math 265 and (Mat E 216 or 272 or E E 311 or Phys 364).* Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

M S E 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.*

M S E 599. Creative Component. Cr. arr. Repeatable.

Courses primarily for graduate students

M S E 610. Academic Teaching Practices. (2-0) Cr. 2. Repeatable. F.S. *Prereq: Permission of instructor.* Provides instruction and directed experience in undergraduate level teaching practices. Students engage in lesson planning, classroom/laboratory teaching, student and course assessment, web-based lessons, and other aspects of academic course delivery.

M S E 620. Fundamentals of Phase Transformations. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: M S E 520.* Explores various advanced theoretical treatments of the energetics and kinetics of multi-component materials. Topics include analytical and computational descriptions of thermodynamic quantities, experimental measurement of essential physical properties, analytical and computational treatments of kinetic processes, and the use of theoretical predictions of phase equilibria and evolution in materials systems.

M S E 630. Physical Properties of Solids. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: M S E 530.* Advanced course in the behavior of solids within the framework of solid state physics and chemistry. Includes magnetic, dielectric, transport, and optical phenomena in solids. Influence of phase transformations and crystal symmetry on the physical properties.

M S E 651. Powder Diffraction Methods. (3-0) Cr. 3. S. *Prereq: M S E 510.* Advanced structural characterization of materials using powder diffraction. Production of X-ray and neutron radiation. Review of symmetry, group and kinematical theories of diffraction. Mathematical and computational backgrounds of powder diffraction data. Introduction to single crystal diffraction methods, origin of powder diffraction pattern, history of the technique. Modern powder diffraction methods. Indexing of powder diffraction patterns, figures of merit, precise lattice parameters. Phase problem, determining crystal structures from symmetry and geometry, Patterson, direct and Fourier methods. Rietveled method, precise crystal structures: atomic parameters, qualitative and quantitative phase identification, preferred orientation, grain size, strain, residual stress, order-disorder. Powder diffraction at non-ambient conditions. Applications of powder diffraction: data bases, phase transformations, phase diagrams, local structures, magnetism.

M S E 652. Transmission Electron Microscopy. (3-3) Cr. 4. S. *Prereq: 534.* Characterization of inorganic materials using TEM. Selected area and convergent beam electron diffraction, bright field/dark field/high resolution imaging. Compositional analysis using x-ray and electron energy loss spectroscopy.

M S E 690. Advanced Topics in Materials Science. Cr. arr. Repeatable. *Prereq: Permission of instructor.*

M S E 697. Engineering Internship. Cr. R. Repeatable. F.S.SS. *Prereq: Permission of department, graduate classification.* One semester and one summer maximum per academic year professional work period. Satisfactory-fail only.

M S E 699. Research. Cr. arr. Repeatable.

Wolfgang Kliemann, Chair of Department

Distinguished Professors: Athreya, Levine

Distinguished Professors (Emeritus): R. Miller, Vinograde

University Professor (Emeritus): Cornette

Professors: Bergman, Dahiya, Evans, Hentzel, Hogben, Hou, E. Johnston, Kliemann, Lieberman, Liu, Luecke, J. Lutz, Maddux, Murdock, Peters, Rothmayer, Sacks, Sethuraman, Smiley, J. Smith, Tesfatsion, Weerasinghe, Willson, Wu

Professors (Emeritus): Barnes, Cain, Carlson, Colwell, Fink, Gautesen, Homer, Mathews, Pigozzi, Rudolph, Sanderson, Seifert, A. Steiner, E. Steiner, Tondra, Weiss, Wright

Professor (Collaborator): Driessel

Associate Professors: Alexander, Axenovich, D'Alessandro, Davidson, Hansen, Keinert, Ng, Poon, S. Song, Tidriri, J. Wilson

Associate Professor (Emeritus): Heimes

Associate Professor (Collaborators): Ashlock

Assistant Professors: Boushaba, Long, R. Martin, Matzavinos, Su, Weber, Yan

Assistant Professor (Emeritus): Peake

Senior Lecturers: Bolles, G. Johnston

Lecturers: Allen, Chan, Diesslin, Ellis, Gaalswyk, B. Hall, Kramer, Pan, Roettger, Schultz, Wagner

Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in mathematics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum.

The program in mathematics offers training suitable for students planning to enter secondary school teaching, to work in mathematics and computation for industry or government, or to continue their studies in graduate school. The requirements for an undergraduate major in mathematics are designed so that the student may have opportunity for appropriate specialization to meet one or more of the foregoing objectives and, at the same time, obtain a thorough introduction to the mathematics underlying all of them.

Graduates understand a broad range of mathematical topics and are familiar with a broad range of mathematical models. They have skills for solving problems in diverse situations. They can construct rigorous arguments to demonstrate mathematical facts. They can communicate their mathematical methods to others and can justify their assumptions.

The requirements for an undergraduate major include:

(a) Math 165, 166, 201, 265, 317, 301, 414, and either 266 or 267.

(b) 15 additional credits in mathematics courses at the 300 level or above.

(c) The courses used to satisfy a) and b) above must include one of the sequences 301, 302; 414, 415; 435, 436.

(d) In addition to the credits in (b), either Math 492 or 2 credits of C I/LAS 480C. (C I/LAS 480C is available only for students seeking secondary school certification).

(e) Communication Proficiency requirement: The department requires a grade of C– or better in each of English 150 and 250 (or 250H) and an upper-level communication skills requirement that may be met by writing an acceptable undergraduate thesis (Math 491) or by taking at least one of Engl 302, 305, 314 or JI MC 201. A grade of C- or better is required.

The department strongly recommends that each student majoring in mathematics include in the program substantial supporting work beyond the minimum general education requirement of the college in one or more areas of application of mathematics, such as other mathematical sciences, engineering, natural science, or social science. In particular, it recommends that each student take Com S 207, 208; Phys 221, 222; and Stat 341, 342 (or Math 304). It also recommends that students contemplating graduate study in mathematics acquire a reading knowledge of French, German, or Russian. Credits earned in Math 104, 105, 140, 141, 142, 150, 151, 160, 181, 182, 195, 196, cannot be counted toward graduation by mathematics majors.

The department offers a minor in mathematics which may be earned by credit in Math 201, 265, (266 or 267), (307 or 317), and 301.

Graduate Study

The department offers programs leading to a master of science or doctor of philosophy degree in mathematics or applied mathematics, as well as minor work for students whose major is in another department. The department also offers a program leading to the degree of master of school mathematics (M.S.M.).

Students desiring to undertake graduate work leading to the M.S. or Ph.D. degree should have at least 12 semester credits of work in mathematics beyond calculus. It is desirable that these credits include advanced calculus and abstract algebra.

The M.S. degree requires at least 30 credits and students must write a creative component or thesis and pass a comprehensive oral examination over their coursework and their creative component or thesis. See the department handbook for specific requirements.

The Ph.D. degree requires a student to take 54 hours of coursework in addition to research hours, pass written qualifying examinations, pass an oral preliminary exam, and perform an original research project culminating in a dissertation

which is defended by an oral exam. Ph.D. candidates must have at least one year of supervised teaching experience. See the on-line Mathematics Graduate Handbook for specific requirements.

The M.S.M. degree is primarily for inservice secondary mathematics teachers. Students desiring to pursue the M.S.M degree should present some undergraduate work in mathematics beyond calculus. Candidates for the M.S.M. degree must write an approved creative component and pass a comprehensive oral examination over their course work and their creative component.

Courses primarily for undergraduate students

Math 010. High School Algebra. (4-0) F.S.SS. For students who do not have adequate facility with topics from high school algebra or do not meet the algebra admission requirement. The course is divided into tracks of one- and two-semester lengths. For most students a diagnostic exam will determine which track must be taken. Students will receive a grade in Math 25 or 30 respectively depending on the level of material covered. Satisfactory completion of Math 30 is recommended for students planning to take Math 140 or 151, while Math 25 is sufficient for Math 104, 105, 150, 195, Stat 101 or 105. Students must complete Math 30 to remove a deficiency in the algebra admission requirement. Topics include signed numbers, polynomials, rational and radical expressions, exponential and logarithmic expressions, and equations. Satisfactory-fail only.

Math 025. High School Algebra. (4-0) F.S.SS. Students should initially enroll in Math 10. See description of Math 10. Satisfactory-fail only.

Math 030. High School Algebra. (4-0) F.S.SS. Students should initially enroll in Math 10. See description of Math 10. Satisfactory-fail only.

Math 101. Orientation in Mathematics. Cr. R. F. For new majors. Issues to consider in planning a program of study. Sources of general information and perspectives concerning mathematics. Discussion of possible areas of study and careers. Satisfactory-fail only.

Math 104. Introduction to Probability and Matrices. (3-0) Cr. 3. F.S. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry.* Permutations, combinations, probability, binomial and multinomial theorems, matrices, expected value. Either Math 104 or 150 may be counted toward graduation, but not both.

Math 105. Introduction to Mathematical Ideas. (3-0) Cr. 3. F.S. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry.* Topics from mathematics and mathematical applications with emphasis on their nontechnical content.

Math 140. College Algebra. (3-1) Cr. 3. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra; 1 year of high school geometry.* Coordinate geometry, complex numbers, quadratic and polynomial equations, functions, graphing, linear, polynomial and rational functions, exponential and logarithmic functions, inverse functions, linear inequalities, systems of equations. Students in the College of Liberal Arts and Sciences may not count Math 140, 141, 142, or 195 toward Group III of the General Education Requirements.

Math 141. Trigonometry. (2-0) Cr. 2. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra; 1 year of high school geometry, or enrollment in 140.* May be taken concurrently with 140. Trigonometric functions and their inverses, solving triangles, trigonometric identities and equations, graphing. Students in the College of Liberal Arts and Sciences may not count Math 140, 141, 142, or 195 toward Group III of the General Education Requirements. Only one of Math 141, 142 may count toward graduation.

Math 142. Trigonometry and Analytic Geometry. (2-1) Cr. 3. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry, or enrollment in 140.* May be taken concurrently with 140. Trigonometric functions and their inverses, solving triangles, trigonometric identities and equations, graphing, polar coordinates, complex numbers, standard equations of lines and conic sections, parametric equations. Students in the College of Liberal Arts and Sciences may not count Math 140, 141, 142, or 195 toward Group III of the General Education Requirements. Only one of Math 141, 142 may count toward graduation.

Math 150. Discrete Mathematics for Business and Social Sciences. (2-1) Cr. 3. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry.* Linear equations and inequalities, matrix algebra, linear programming, discrete probability. Either Math 104 or 150 may be counted toward graduation, but not both.

Math 151. Calculus for Business and Social Sciences. (2-1) Cr. 3. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry.* Differential calculus, applications to max-min problems, integral calculus and applications. Will not serve as prerequisite for 265 or 266. Only one of Math 151, 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

Math 160. Survey of Calculus. (4-0) Cr. 4. F.S. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of geometry.* Analytic geometry, derivatives and integrals of elementary functions, partial derivatives, and applications. Will not serve as a prerequisite for 265 or 266. Only one of Math 151, 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

Math 165. Calculus I. (4-0) Cr. 4. F.S.SS. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry or enrollment in 141 or 142.* Differential calculus, applications of the derivative, introduction to integral calculus. Only one of Math 151 or 160 or the sequence 165-166, or the sequence 181-182 may be counted towards graduation. **Math 166. Calculus II.** (4-0) Cr. 4. F.S.SS. *Prereq: Grade of C- or better in 165 or high math placement scores.* Integral calculus, applications of the integral, infinite series. Only one of Math 151, 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

Math 166H. Honors Calculus II. (4-0) Cr. 4. F.S. *Prereq: Permission of instructor and 165 or high math placement scores.* Integral calculus, applications of the integral, infinite series. Additional material of a theoretical, conceptual, computational, or modeling nature. Some of the work may require more ingenuity than is required for Math 166. Preference will be given to students in the University Honors Program. Only one of Math 151 or 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

Math 181. Calculus and Mathematical Modeling for the Life Sciences I. (4-0) Cr. 4. F.S. *Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry, 1 semester of trigonometry or enrollment in 141 or 142.* Exponential and logarithm functions, difference equations, derivatives, and applications of the derivative. Examples taken from biology. Only one of Math 151, 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

Math 182. Calculus and Mathematical Modeling for the Life Sciences II. (4-0) Cr. 4. S. *Prereq: 181.* Integration, differentiation and integration of transcendental functions, first and second order differential equations, applications of the definite integral. Examples taken from biology. Only one of 151, 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

Math 195. Mathematics for Elementary Education I. (2-2) Cr. 3. F.S. *Prereq: Satisfactory performance on placement exam, 2 years high school algebra, 1 year of high school geometry, enrollment in elementary education or early childhood education.* Theoretical and hands-on models; standard and non-standard algorithms and properties related to whole numbers and whole number operations. Students in the College of Liberal Arts and Sciences may not count Math 140, 141, 142, or 195 toward Group III of the General Education Requirements.

Math 196. Mathematics for Elementary Education II. (2-2) Cr. 3. F.S. *Prereq: Grade of C- or better in 195 and enrollment in elementary education.* Two-and three-dimensional measurement, probability, data fitting, statistics, operations and algorithms for computing with integers, fractions, and decimals.

Math 201. Introduction to Proofs. (3-0) Cr. 3. F.S. *Prereq: 166 or 166H.* Reading and writing simple proofs, using logical reasoning, including quantifiers and truth tables. Proof Techniques. Mathematical induction. Proofs in set theory, number theory, and calculus.

Math 265. Calculus III. (4-0) Cr. 4. F.S.SS. *Prereq: Grade of C- or better in 166 or 166H.* Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus.

Math 265H. Honors Calculus III. (4-0) Cr. 4. F.S. *Prereq: Permission of the instructor; and 166 or 166H.* Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus. Additional material of a theoretical, conceptual, computational, or modeling nature. Some of the work may require more ingenuity than is required in Math 265. Preference will be given to students in the University Honors Program.

Math 266. Elementary Differential Equations. (3-0) Cr. 3. F.S.SS. *Prereq: Grade of C- or better in 166 or 166H.* Solution methods for ordinary differential equations. First order equations, linear equations, constant coefficient equations. Eigenvalue methods for systems of first order linear equations. Introduction to stability and phase plane analysis.

Math 267. Elementary Differential Equations and Laplace Transforms. (4-0) Cr. 4. F.S.SS. *Prereq: Grade of C- or better in 166 or 166H.* Same as 266 but also including Laplace transforms and series solutions to ordinary differential equations.

Math 268. Laplace Transforms. (1-0) Cr. 1. Alt. F., offered 2009. *Prereq: 266.* Laplace transforms and series solutions to ordinary differential equations. Together, Math 266 and 268 are the same as 267.

Math 290. Independent Study. Cr. arr. Repeatable. H. Honors

Math 297. Intermediate Topics for School Mathematics. (2-2) Cr. 3. F.S. *Prereq: Enrollment in elementary education and grade of C- or better in 196.* Mathematical reasoning, data fitting, and topics in Euclidean and non-Euclidean geometry. Discrete mathematics topics selected from graphs, networks, recurrence relations, probability, Markov chains. Use of technology to learn and teach mathematics.

Math 298. Cooperative Education. Cr. R. Repeatable. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; sophomore classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Math 301. Abstract Algebra I. (3-0) Cr. 3. F.S. *Prereq: 166 or 166H, 307 or 317, and 201.* Theory of groups. Homomorphisms. Quotient groups. Introduction to rings. Emphasis on writing proofs. Nonmajor graduate credit.

Math 302. Abstract Algebra II. (3-0) Cr. 3. S. *Prereq: 301.* Theory of rings and fields. Introduction to Galois theory. Emphasis on writing proofs. Nonmajor graduate credit.

Math 304. Introductory Combinatorics. (3-0) Cr. 3. F. *Prereq: 166 or 166H; 201 or experience with proofs.* Permutations, combinations, binomial coefficients, inclusion-exclusion principle, recurrence relations, generating functions. Additional topics selected from probability, random walks, and Markov chains. Nonmajor graduate credit.

Math 307. Matrices and Linear Algebra. (3-0) Cr. 3. F.S.SS. *Prereq: 2 semesters of calculus.* Systems of linear equations, determinants, vector spaces, linear transformations, orthogonality, least-squares methods, eigenvalues and eigenvectors. Emphasis on methods and techniques. Only one of Math 307, 317 may be counted toward graduation. Nonmajor graduate credit.

Math 314. Graphs and Networks. (3-0) Cr. 3. S. *Prereq: 166 or 166H; 201 or experience with proofs.* Structure and extremal properties of graphs. Topics are selected from: trees, networks, colorings, paths and cycles, connectivity, planarity, Ramsey theory, forbidden structures, enumeration, applications. Nonmajor graduate credit.

Math 317. Theory of Linear Algebra. (4-0) Cr. 4. F.S. *Prereq: 166; credit or enrollment in 201.* Systems of linear equations, determinants, vector spaces, inner product spaces, linear transformations, eigenvalues and eigenvectors. Emphasis on writing proofs and results. Only one of Math 307, 317 may be counted toward graduation. Nonmajor graduate credit.

Math 331. Topology. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 307 or 317.* Topological properties of metric spaces, including Euclidean n-space, continuous functions, homeomorphisms, and topological invariants. Examples from surfaces, knots, links, and three-dimensional manifolds. Nonmajor graduate credit.

Math 341. Introduction to the Theory of Probability and Statistics I. (Cross-listed with Stat). (3-0) Cr. 3. F.S. *Prereq: Math 265 (or 265H).* Probability; distribution functions and their properties; classical discrete and continuous distribution functions; multivariate probability distributions and their properties; moment generating functions; simulation of random variables and use of the R statistical package.

Math 342. Introduction to the Theory of Probability and Statistics II. (Cross-listed with Stat). (3-0) Cr. 3. S. *Prereq: Stat 341; Math 307 or 317.* Transformations of random variables; sampling distributions; confidence intervals and hypothesis testing; theory of estimation and hypothesis tests; linear model theory, enumerative data; use of the R statistical package for simulation and data analysis.

Math 350. Number Theory. (Cross-listed with Com S). (3-0) Cr. 3. S. *Prereq: 166.* Divisibility, integer representations, primes and divisors, linear diophantine equations, congruences, and multiplicative functions. Applications to cryptography. Nonmajor graduate credit.

Math 365. Complex Variables with Applications. (3-0) Cr. 3. S. *Prereq: 265.* Functions of a complex variable, including differentiation, integration and series expansions, residues, evaluation of integrals, conformal mapping. Nonmajor graduate credit.

Math 373. Introduction to Scientific Computation. (3-0) Cr. 3. S. *Prereq: 265.* Vector, matrix and graphics programming in MATLAB for scientific applications. Algorithms for interpolation, systems of linear equations, least squares, nonlinear equations and optimization in one and several variables. Additional topics may include ordinary differential equations, symbolic calculation and the Fast Fourier Transform. Emphasis on effective use of mathematical software, and understanding of its strengths and limitations. Nonmajor graduate credit.

Math 385. Introduction to Partial Differential Equations. (3-0) Cr. 3. F.S. *Prereq: 265 and one of 266, 267.* Separation of variables methods for elliptic, parabolic, and hyperbolic partial differential equations. Fourier series, Sturm-Liouville theory, Bessel functions, and spherical harmonics. Nonmajor graduate credit.

Math 397. Teaching Secondary Mathematics Using University Mathematics. (2-2) Cr. 3. S. *Prereq: 201, 301.* Coursework in university mathematics including calculus, abstract algebra, discrete mathematics, geometry, and other topics as it relates to teaching mathematics in grades 7-12.

Math 398. Cooperative Education. Cr. R. Repeatable. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; junior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Math 414. Analysis I. (3-0) Cr. 3. F.S.SS. *Prereq: 201; 265; and 307 or 317.* A careful development of calculus of functions of a real variable: limits, continuity, differentiation, integration, series. Nonmajor graduate credit.

Math 415. Analysis II. (3-0) Cr. 3. S. *Prereq: 414.* Sequences and series of functions of a real variable, uniform convergence, power series and Taylor series, Fourier series, topology of n-dimensional space, implicit function theorem, calculus of the plane and 3-dimensional space. Additional topics may include metric spaces or Stieltjes or Lebesgue integration. Nonmajor graduate credit.

Math 421. Logic for Mathematics and Computer Science. (Cross-listed with Com S). (3-0) Cr. 3. S. *Prereq: Math 301 or 307 or 317 or Com S 330.* Propositional and predicate logic. Topics selected from Horn logic, equational logic, resolution and unification, foundations of logic programming, reasoning about programs, program specification and verification, model checking and binary decision diagrams, temporal logic and modal logic. Nonmajor graduate credit.

Math 426. Mathematical Methods for the Physical Sciences. (3-0) Cr. 3. F. *Prereq: 266 or 267.* A fast-paced course primarily for first-year graduate students in physics and chemistry. Emphasis on techniques needed for quantum mechanics and electrodynamics. Functions of a complex variable and contour integration, integral transforms and applications, series methods for ordinary differential equations, Green's functions, Sturm-Liouville problems and orthogonal functions, boundary-value problems for partial differential equations. Nonmajor graduate credit.

Math 435. Geometry I. (3-0) Cr. 3. F. *Prereq: 307 or 317.* Euclidean geometry. Points, lines, circles, triangles, congruence, similarity, properties invariant under rigid motions. Synthetic, analytic, and axiomatic methods. Nonmajor graduate credit.

Math 436. Geometry II. (3-0) Cr. 3. S. *Prereq: 435.* Continuation of Euclidean geometry with topics from elliptic, projective, or hyperbolic geometry. Emphasis on analytic methods. Nonmajor graduate credit.

Math 439. Mathematics of Fractals and Chaos. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 265.* Iterated function systems; periodic points; algorithms for generation of fractals; fractal dimension; Julia sets and the Mandelbrot set; chaos. Nonmajor graduate credit.

Math 471. Computational Linear Algebra and Fixed Point Iteration. (Cross-listed with Com S). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Math 265 and either Math 266, or 267; knowledge of a programming language.* Computational error, solutions of linear systems, least squares, similarity methods for eigenvalues, solution of nonlinear equations in one and several variables. Nonmajor graduate credit.

Math 481. Numerical Solution of Differential Equations and Interpolation. (Cross-listed with Com S). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Math 265 and either Math 266 or 267; knowledge of a programming language.* Polynomial and spline interpolation, orthogonal polynomials, least squares, numerical differentiation and integration, numerical solution of ordinary differential equations. Nonmajor graduate credit.

Math 489. History of Mathematics. (3-0) Cr. 3. S. *Prereq: 6 credits in mathematics at the 300 level or above. Recommended credit or enrollment in 301, 414 or 435.* History of mathematical ideas found in the undergraduate curriculum. It includes a discussion of the historical and cultural settings in which these ideas arose, and the influence of the culture on the type of mathematical ideas that developed. Some of the particular cultures and their mathematics that are studied include: Babylonian and Ancient Egyptian. Ancient Greek, Arabic, Indian, Western European and Chinese. Nonmajor graduate credit.

Math 490. Independent Study. Cr. arr. Repeatable. *Prereq: 301 or 317; 6 credits in mathematics.* No more than 9 credits of Math 490 may be counted toward graduation.
H. Honors

Math 491. Undergraduate Thesis. Cr. arr. Writing a formal mathematics paper. Upon approval by the department, the paper will satisfy the departmental advanced English requirement.

Math 492. Undergraduate Seminar. (2-0) Cr. 2. S. *Prereq: Consent of instructor.* Introduction to mathematics research, a participating seminar on advanced topics in mathematics. Mathematical literature search, reading a mathematical article with the guidance of the instructor, mathematical presentation. Seminar content varies.

Math 497. Teaching Secondary School Mathematics. (Cross-listed with C I). (3-0) Cr. 3. F. *Prereq: 15 credits in college mathematics; if in a teacher licensure program, concurrent enrollment in C I 426 or 526.* Theory and methods for teaching mathematics in grades 7-12. Includes critical examination of instructional strategies, curriculum materials, learning tools, assessment methods, National Standards in Mathematics Education, and equity issues.

Math 498. Cooperative Education. Cr. R. Repeatable. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; senior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduate students

Math 501. Introduction to Real Analysis. (3-0) Cr. 3. F. *Prereq: 265 and 307 or 317.* A development of the real numbers. Study of metric spaces, completeness, compactness, sequences, and continuity of functions. Differentiation and integration of real-valued functions, sequences of functions, limits and convergence, equicontinuity.

Math 504. Abstract Algebra I. (3-0) Cr. 3. F. *Prereq: 302.* Algebraic systems and their morphisms, including groups, rings, modules, and fields.

Math 505. Abstract Algebra II. (3-0) Cr. 3. S. *Prereq: 504.* Continuation of Math 504.

Math 510. Linear Algebra. (3-0) Cr. 3. F. *Prereq: 307 or 317.* Advanced topics in linear algebra including canonical forms; unitary, normal, Hermitian and positive-definite matrices; variational characterizations of eigenvalues, and applications to other branches of mathematics.

Math 511. Functions of a Single Complex Variable. (3-0) Cr. 3. S. *Prereq: 414 or 465 or 501.* Theory of analytic functions, integration, topology of the extended complex plane, singularities and residue theory, maximum principle.

Math 515. Real Analysis I. (3-0) Cr. 3. F. *Prereq: 414 or 501.* Lebesque measure and Lebesgue integral, one variable differentiation theory, product integration, Lp spaces.

Math 516. Real Analysis II. (3-0) Cr. 3. S. *Prereq: 515.* Metric spaces, topological spaces, compactness, abstract theory of measure and integral, differentiation of measures, Banach spaces.

Math 517. Finite Difference Methods. (3-0) Cr. 3. S. *Prereq: 481 or 503.* Finite difference methods for partial differential equations, with emphasis on parabolic and hyperbolic equations, and other partial differential equations from application areas. Topics include convergence, stability and implementation issues.

Math 519. Methods of Applied Mathematics I. (3-0) Cr. 3. F. *Prereq: 414 or 465 or 501.* Techniques of classical and functional analysis with applications to partial differential equations, integral equations. Vector spaces, metric spaces, Hilbert and Banach spaces, Sobolev spaces and other function spaces, contraction mapping theorem, distributions, Fourier series and Fourier transform, linear operators, spectral theory of differential and integral operators, Green s functions and boundary value problems, weak solutions of partial differential equations and variational methods, calculus in Banach spaces and applications.

Math 520. Methods of Applied Mathematics II. (3-0) Cr. 3. S. *Prereq: 519.* Continuation of Math 519.

Math 525. Numerical Analysis of High Performance Computing. (Cross-listed with Com S, Cpr E). (3-0) Cr. 3. S. *Prereq: Cpr E 308, or one of Math 471, 481; experience in scientific programming; knowledge of FORTRAN or C.* Development, analysis, and testing of efficient numerical methods for use on current state-of-the-art high performance computers. Applications of the methods to the students' areas of research.

Math 533. Cryptography. (Cross-listed with Cpr E, InfAs). (3-0) Cr. 3. S. *Prereq: Math 301 or Cpr E 310 or Com S 330.* Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

Math 535. Steganography and Watermarking. (Cross-listed with Cpr E, InfAs). (3-0) Cr. 3. S. *Prereq: Cpr E 531 or E E 524 or Math 533/Cpr E 533/InfAs 533.* Basic principles of steganography and watermarking. Algorithms based on spatial domain approaches, transformations of data, statistical approaches. Techniques for images, video, and audio data. Communications models for data hiding. Analysis, detection and recovery of hidden data. Military, commercial and e-commerce applications. Known theoretical results. Software packages for data hiding. Social and legal issues, case studies, and digital rights management issues that affect technological development of steganography and watermarking. Current developments in the area.

Math 540. Seminar in Mathematics Education. (1-0) Cr. 1. SS. *Prereq: Enrollment in the Master of School Mathematics program or professional studies in education.* Research studies in mathematics learning and teaching, exemplary practices in mathematics education, and current state and national trends in the mathematics curriculum in grades K-12.
A. Assessment, equity, and teaching of statistics.
B. Geometry and discrete mathematics, and problem solving.
C. Teaching of analysis, algebra, and the use of technology.

Math 542. Investigating the Teaching and Learning of Secondary Mathematics. (1-0) Cr. 1. Repeatable. Alt. F., offered 2010. *Prereq: Enrollment in master of school mathematics program, professional studies in education or by permission for secondary mathematics education majors.* Research, discussion and evaluation of efforts to improve instruction in the mathematics classroom.

Math 543. Topics in Mathematics Education. (1-0) Cr. 1. F. *Prereq: Teaching a mathematics course.* Selected topics in collegiate mathematics education including cooperative learning, instructional use of technology, writing in mathematics, and cognitive learning theories. Research studies, exemplar practices, and trends in mathematics education.

Math 545. Intermediate Calculus. (4-0) Cr. 4. *Prereq: 3 semesters of calculus and enrollment in the master of school mathematics program.* Offered on a 3-year cycle, offered SS. 2010. Further development of the fundamental concepts of calculus and their applications with an emphasis on a constructivist approach to learning, cooperative groups, problem solving, the use of technology.

Math 546. Algorithms in Analysis and Their Computer Implementation. (2-2) Cr. 3. *Prereq: 3 semesters in calculus or concurrent enrollment in 545 and enrollment in the master of school mathematics program.* Offered on a 3- year cycle, offered SS. 2010. The use of technology in secondary mathematics with an emphasis on the exploration and implementation of algorithms.

Math 547. Discrete Mathematics and Applications. (4-0) Cr. 4. *Prereq: Enrollment in the master of school mathematics program.* Offered on a 3-year cycle, offered SS. 2009. Applications of graph theory, game theory, linear programming, recursion, combinatorics and algebraic structures. Issues in integrating discrete topics into the secondary curriculum. Use of the computer to explore discrete mathematics.

Math 549. Intermediate Geometry. (3-0) Cr. 3. *Prereq: 435 or equivalent and enrollment in the master of school mathematics program.* Offered on a 3-year cycle, offered SS. 2009. A study of geometry with emphasis on metrics, the group of isometries, the group of similarities, and the affine group. Specific spaces studied normally include the Euclidean plane, the 2-sphere, and projective 2-space. Emphasis on analytical methods.

Math 554. Introduction to Stochastic Processes. (Cross-listed with Stat). (3-0) Cr. 3. F. *Prereq: Stat 542.* Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion.

Math 557. Ordinary Differential Equations I. (3-0) Cr. 3. F. *Prereq: 415 or 465 or 501.* The initial-value problem, existence and uniqueness theorems, continuous dependence on parameters, linear systems, stability and asymptotic behavior of solutions, linearization, topics from dynamical systems and two-point boundary-value problems.

Math 561. Numerical Analysis I. (3-0) Cr. 3. S. *Prereq: 414 or 501.* Approximation theory, including polynomial spline interpolation and best approximation; numerical differentiation and integration; numerical methods for ordinary differential equations.

Math 562. Numerical Analysis II. (3-0) Cr. 3. F. *Prereq: 414 or 501.* Numerical linear algebra including eigenvalue problems; numerical solution of nonlinear equations and optimization problems.

Math 569. Bioinformatics III (Structural Genome Informatics). (Cross-listed with BCB, Com S, BBMB, Cpr E). (3-0) Cr. 3. F. *Prereq: BCB 567, Gen 411, Stat 430.* Algorithmic and statistical approaches in structural genomics including protein, DNA and RNA structure. Structure determination, refinement, representation, comparison, visualization, and modeling. Analysis and prediction of protein secondary and tertiary structure, disorder, protein cores and surfaces, protein-protein and protein-nucleic acid interactions, protein localization and function.

Math 573. Random Signal Analysis and Kalman Filtering. (Cross-listed with Aer E, E E, M E). (3-0) Cr. 3. F. *Prereq: E E 324 or Aer E 331 or M E 370 or M E 411 or Math 341 or 395.* Elementary notions of probability. Random processes. Autocorrelation and spectral functions. Estimation of spectrum from finite data. Response of linear systems to random inputs. Discrete and continuous Kalman filter theory and applications. Smoothing and prediction. Linearization of nonlinear dynamics.

Math 574. Optimal Control. (Cross-listed with Aer E, E E, M E). (3-0) Cr. 3. S. *Prereq: E E 577.* The optimal control problem. Variational approach. Pontryagin's principle. Hamilton-Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum energy control systems. The regulator problem. Structures and properties of optimal controls.

Math 575. Introduction to Robust Control. (Cross-listed with E E, M E, Aer E). (3-0) Cr. 3. *Prereq: E E 577.* Introduction to modern robust control. Model and signal uncertainty in control systems. Uncertainty description. Stability and performance robustness to uncertainty. Solutions to the H2, Hoo, and l1 control problems. Tools for robustness analysis and synthesis.

Math 576. Digital Feedback Control Systems. (Cross-listed with Aer E, E E, M E). (3-0) Cr. 3. F. *Prereq: E E 475 or Aer E 432 or M E 411 or 414 or Math 415; and Math 267.* Sampled-data, discrete data, and the z-transform. Design of digital control systems using transform methods: root locus, frequency response and direct design methods. Design using state-space methods. Controllability, observability, pole placement, state estimators. Digital filters in control systems. Microcomputer implementation of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital control systems. Simulation of digital control systems.

Math 577. Linear Systems. (Cross-listed with Aer E, E E, M E). (3-0) Cr. 3. F. *Prereq: E E 324 or Aer E 331 or M E 414 or Math 415; and Math 307.* State variable and input-output descriptions of linear continuous-time and discrete-time systems. Solution of linear dynamical equations. Controllability and observability of linear dynamical systems. Canonical descriptions of linear equations. Irreducible realizations of rational transfer function matrices. Canonical form dynamical equations. State feedback. State estimators. Decoupling by state feedback. Design of feedback systems. Stability of linear dynamical systems.

Math 578. Nonlinear Systems. (Cross-listed with Aer E, E E, M E). (3-0) Cr. 3. S. *Prereq: E E 577.* Classification of nonlinear control systems. Existence and uniqueness of solutions. Approximate analysis methods. Periodic orbits. Concept of stability and Lyapunove stability theory. Absolute stability of feedback systems. Input-and output stability. Passivity.

Math 590. Special Topics. Cr. arr. Repeatable.

Math 597. Introductory Computational Structural Biology. (Cross-listed with BCB). (3-0) Cr. 3. S. *Prereq: 561 and 562.* Mathematical and computational approaches to protein structure prediction and determination. Topics include molecular distance geometry, potential energy minimization, and molecular dynamics simulation.

Math 599. Creative Component. Cr. arr.

Courses for graduate students

Math 601. Mathematical Logic I. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 504.* First semester of full-year course. Completeness and compactness of propositional and predicate logic, incompleteness and undecidability of set theory and arithmetic, Goedel's theorems, recursive functions, computability, models, ultraproducts, and ultralimits.

Math 602. Mathematical Logic II. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 601.* Continuation of Math 601.

Math 605. Design Theory and Association Schemes. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 504.* Combinatorial designs and Latin squares. Construction methods including finite fields. Error-correcting codes. Adjacency matrices and algebraic combinatorics.

Math 606. Enumerative Combinatorics and Ordered Sets. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 504 or permission of instructor.* Ordered sets and lattices. Generating functions. Moebius inversion and other enumeration methods.

Math 607. Modern (Structural) Graph Theory. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 504 or permission of instructor.* Structural and extremal theory of graphs. Topics include basic structures (trees, paths and cycles), networks, colorings, connectivity, topological graph theory, Ramsey theory, forbidden graphs and minors, introduction to random graphs, applications.

Math 610. Seminar. Cr. arr.

Math 615. General Theory of Algebraic Structures I. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 504.* First semester of full-year course. Subalgebras, homomorphisms, congruence relations, and direct products. Lattices and closure operators. Varieties and quasivarieties of algebras, free algebras, Birkhoff's theorems, clones, Mal'cev conditions. Advanced topics.

Math 616. General Theory of Algebraic Structures II. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 615.* Continuation of Math 615.

Math 617. Category Theory. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 504.* Categories and functors and their applications.

Math 618. Representation Theory. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 504.* Representations of algebraic structures. Content varies by semester.

Math 621. Topology. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: Permission of instructor.* Introduction to general topology. Topological spaces, continuous functions, connectedness, compactness. Topics selected from countability and separation axioms, metrization, and complete metric spaces.

Math 622. Algebraic Topology. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 504.* Foundations of algebraic topology. The fundamental group, simplicial homology groups, and singular homology groups.

Math 624. Manifolds, Tensors and Differential Geometry. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 501 or 515.* Topics selected from: Geometry of curves and surfaces. Manifolds, coordinate systems. Tensors, differential forms, Riemannian metrics. Connections, covariant differentiation, curvature tensors.

Math 633. Functional Analysis I. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Permission of instructor.* Fundamental theory of normed linear spaces and algebras emphasizing aspects that provide a framework for the study of boundary-value problems, eigenvalue problems, harmonic analysis, analytic function theory, and modern operator theory.

Math 634. Functional Analysis II. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 633.* Continuation of Math 633.

Math 642. Advanced Probability Theory. (Cross-listed with Stat). (4-0) Cr. 4. F. *Prereq: Stat 542.* Measure spaces, extension theorem and construction of Lebesgue-Stieljes measures on Euclidean spaces, Lebesgue integration and the basic convergence theorems, Lp-spaces, absolute continuity of measures and the Radon Nikodym theorem, absolute continuity of functions on R and the fundamental theorem of Lebesgue integration, product spaces and Fubini-Tonelli Theorems, convolutions. Fourier series and transforms, probability spaces; Kolmogorov's existence theorem for stochastic processes; expectation; Jensen's inequality and applications, independence, Borel-Cantelli lemmas; weak and strong laws of large numbers and applications, renewal theory.

Math 645. Advanced Stochastic Processes. (Cross-listed with Stat). (3-0) Cr. 3. S. *Prereq: Permission of instructor.* Weak convergence. Random walks and Brownian motion. Martingales. Stochastic integration and Ito's Formula. Stochastic differential equations and applications.

Math 646. Mathematical Modeling of Complex Physical Systems. (3-0) Cr. 3. S. *Prereq: Permission of instructor.* Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; macroscale non-linear dynamics and pattern formation.

Math 655. Partial Differential Equations I. (3-0) Cr. 3. F. *Prereq: 515 or 519.* First order equations and systems, conservation laws, general theory of linear partial differential equations of elliptic, parabolic and hyperbolic types, maximum principles, fundamental solutions, Sobolev spaces, variational and Hilbert space methods.

Math 656. Partial Differential Equations II. (3-0) Cr. 3. S. *Prereq: 655.* Continuation of Math 655.

Math 658. Dynamical Systems. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 501 or 515.* Smooth mappings and flows. Fixed points, stable, unstable and center manifolds, normal forms. Structural stability, bifurcations. Horseshoe maps, introduction to chaotic behavior.

Math 666. Finite Element Methods. (3-0) Cr. 3. F. *Prereq: 503 or 516 or 520 or 656.* Elements of functional analysis; Sobolev spaces; variational principles and weak formulations; approximation theory in finite element spaces; analysis of finite element methods; implementation issues; applications.

Math 690. Advanced Topics. Cr. 3. Repeatable.
A. Algebra
B. Functional Analysis
C. Control Theory
D. Approximation Theory
E. Linear Algebra
G. Number Theory
H. Harmonic Analysis
I. Combinatorics and Graph Theory
J. Mathematical Biology and Bioinformatics
K. Mathematics Education
L. Logic and Foundations
M. Complex Analysis
N. Numerical Analysis
O. Ordinary Differential Equations
P. Partial Differential Equations
Q. Group Theory
R. Applied Mathematics
S. Set Theory
T. Topology
U. Automata Theory
V. Optimization Theory
W. Probability and Stochastic Processes
Y. Special Functions
Z. Ring Theory

Math 699. Research. Cr. arr. Repeatable.

Mechanical Engineering

Jonathan Wickert, Chair of Department

Distinguished Professors: Bernard, R. Brown

Distinguished Professor (Emeritus): Serovy

University Professor (Emeritus): Bahadur

Professors: Chandra, Heindel, Kelkar, Levitas, Molian, Nelson, Oliver, Vance, Wickert

Professors (Emeritus): Bathie, Baumgarten, Colver, Cook, Danofsky, Dejong, Eide, Hall, Hendrickson, Henkin, Junkhan, Kavanagh, Mischke, Okiishi, Pate, Peters, Pletcher, Roberts, Shapiro, Spinrad, Wechsle

Associate Professors: Anex, Bastawros, Bryden, Luecke, Mann, Maxwell, Olsen, Subramaniam, Sundararajan, Wang

Associate Professors (Emeritus): Joensen, Vanmeter

Associate Professor (Adjunct): Gray

Assistant Professors: Bigelow, Faidley, Ganapathysubramanian, Kim, Kong, Meyer, Shrotriya, Stone, Winer, Zhang, Zou

Senior Lecturer: Starns

Lecturer: Feve, Heise

Undergraduate Study

For the undergraduate curriculum in mechanical engineering leading to the degree bachelor of science, see College of Engineering, Curricula. This curriculum is accredited by the Engineering Accreditation Commission of ABET.

Mechanical engineers are typically involved with such activities as

•generation, distribution, and use of energy

•development and application of manufacturing systems and processes

•automation and control of mechanical and thermal systems

•design of various products for consumer and commercial markets

About one-fifth of all engineers practicing today have been educated as mechanical engineers. Their activities include research, development, design, testing, production, technical sales, and technical management.

Mechanical engineers are characterized by personal creativity, breadth of knowledge, and versatility. For these reasons they are found to function and thrive as valuable members and leaders of multidisciplinary teams. Through clever use of analysis, modeling, design, synthesis, and interpersonal skills they solve important problems to improve our world.

To ensure the success of students completing the curriculum in mechanical engineering, the department has established the following educational objectives:
1. The department provides a sound foundation for graduates to pursue a variety of careers. Most graduates will find immediate employment in industry, government laboratories or consulting, but some will pursue graduate or professional studies in such fields as engineering, business, law or medicine.
2. Graduates will apply the problem solving skills they have learned at Iowa State University to meet the challenging demands and increasing responsibilities of a successful career.
3. Graduates will continue to learn as they grow in their profession, using modern technology and communication skills to contribute as team members or leaders in solving important problems for their employers and for society.

The mechanical engineering curriculum is organized to provide students with a broad foundation in mathematics and the sciences of physics and chemistry.

•Through courses in these subjects, students will attain the basic knowledge required to understand and analyze mechanical engineering systems. This background is extended and organized through studies in mechanics, dynamics, thermo-fluids, materials, manufacturing, and design.

•Upon completion of courses in these areas of the curriculum, students will be able to apply engineering principles to create, analyze or improve processes, devices or systems to accomplish desired objectives. A major focus throughout the mechanical engineering curriculum is a series of experiences that emphasize engineering design.

•Students will develop engineering judgment through open-ended problems that require establishment of reasonable engineering assumptions and realistic constraints.

In addition, a sequence of courses emphasizing engineering design begins in the first year and culminates with a capstone design experience.

•Students will not only be able to apply their engineering knowledge to real-life design problems but also to critically evaluate the solutions.

Development of skills needed to be independent, creative thinkers, effective communicators, and contributing team members is emphasized throughout the curriculum.

•Students will learn to effectively work in multidisciplinary teams to solve engineering problems subject to technical and business constraints through critical thinking that crosses content boundaries.

•Students will develop an understanding of the societal context in which they will practice engineering. They will include ethical, legal, and

aesthetic considerations in design of engineering components and systems. The curriculum provides flexibility to allow students to broaden their perspectives or to focus in more depth in areas of particular interest. Organized sequences of technical electives can be chosen from areas which represent major concentrations in the field of mechanical engineering. Optional areas of specialization include energy conversion and utilization, thermal system design, mechanical system design, materials and manufacturing, nuclear engineering, thermal and environmental engineering, and vehicle propulsion.

•Elective courses provide additional emphasis in terms of the student's unique educational goals, whether they include immediate entry into industry or further study at the graduate level. In addition, students elect courses in the humanities, social sciences, U.S. diversity and international perspectives.

•Through these courses, students develop an understanding of the societal context in which they will practice engineering, including environmental, legal, aesthetic, and human aspects. Students in mechanical engineering are encouraged to participate in the cooperative education program or to obtain engineering internships, both domestically and abroad. Study abroad is encouraged, and the department has exchange programs with several universities around the world. These experiences help students to round out their education and to better prepare for careers in the increasingly global practice of engineering.

Nuclear Engineering Minor

The nuclear engineering minor is multidisciplinary and open to undergraduates in the College of Engineering. The minor may be earned by completing 15 credits from a list of courses available through the Mechanical Engineering Advising Center.

The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Graduate Study

The department offers work for the degrees of master of science and doctor of philosophy with a major in mechanical engineering. The master of science degree may be earned with or without a thesis. Although co-major and formal minor programs are not offered in mechanical engineering, courses may be used for minor work by students taking major work in other departments.

The graduate program offers advanced study in a variety of thrust areas, including biological and nanoscale sciences, clean energy technologies, complex fluid systems, design and manufacturing innovation, and simulation and visualization.

The department offers students the opportunity to broaden their education by participating in minor programs in established departments, interdepartmental programs, or other experiences as approved by their program of study committees.

The requirements for advanced degrees are established by the student's program of study committee within established guidelines of the Graduate College. Graduate students who have not completed an undergraduate program of study substantially equivalent to that required of undergraduate students in the department can expect that additional supporting coursework will be required. A foreign language requirement exists for the degree of doctor of philosophy only if the student's program of study committee deems it appropriate to a specific program of study.

Courses primarily for undergraduate students

M E 102. Mechanical Engineering Orientation. Cr. R. F.S. (1-0) Information concerning university, college, and departmental policies and procedures. Information on cooperative, intern, summer and career placement. Review of degree audit and registration.

M E 190. Learning Communities. (1-0) Cr. 1. Repeatable. F.S. Enrollment in M E learning communities.

M E 202. Mechanical Engineering - Professional Planning. (1-0) Cr. R. F.S. *Prereq: Sophomore classification.* Preparation for a career in mechanical engineering; discussion of opportunities for leadership, undergraduate research, experiential learning.

M E 231. Engineering Thermodynamics I. (3-0) Cr. 3. F.S. *Prereq: Math 265, Chem 167, Phys 222.* Fundamental concepts based on zeroth, first and second laws of thermodynamics. Properties and processes for ideal gases and solid-liquid-vapor phases of pure substances. Applications to vapor power cycles. Credit for either M E 231 or 330, but not both, may be applied toward graduation.

M E 270. Introduction to Mechanical Engineering Design. (1-6) Cr. 3. F.S. *Prereq: Engr 170, Phys 221.* Introduction to fundamentals of mechanical engineering design with applications to thermal and mechanical systems. Examination of existing machines and systems. Team-based projects, open-ended problems and prototyping. Application of engineering tools. Oral and written reports required.

M E 298. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of department.* First professional work period in the cooperative education program. Students must register for this course before commencing work.

M E 324. Manufacturing Engineering. (3-2) Cr. 4. F.S. *Prereq: 270, E M 324, Mat E 272.* Plastic deformation and work hardening. Manufacturing processes including forming, machining, casting and welding with emphasis on manufacturing considerations in design. Modern manufacturing practices. Laboratory exercises will be an integral component of the course. Nonmajor graduate credit.

M E 325. Machine Design. (3-0) Cr. 3. F.S. *Prereq: Engr 170, E M 324, Stat 305.* Philosophy of design and design methodology. Consideration of stresses and failure models useful for static and fatigue loading. Analysis, selection and synthesis of machine elements. Nonmajor graduate credit.

M E 330. Thermodynamics. (3-0) Cr. 3. F.S. *Prereq: Phys 222.* For students electing one course in engineering thermodynamics. First and second laws of thermodynamics. Properties and processes for pure substances. Selected applications including cycles for power and refrigeration. Psychrometrics. Credit for either M E 231 or 330, but not both, may be applied toward graduation. Majors in mechanical engineering may not apply M E 330 toward a degree in mechanical engineering.

M E 332. Engineering Thermodynamics II. (3-0) Cr. 3. F.S. *Prereq: 231.* Gas power cycles. Fundamentals of gas mixtures, psychrometry, and thermochemistry. Applications to one-dimensional compressible flow, refrigeration, air conditioning and combustion processes. Nonmajor graduate credit.

M E 335. Fluid Flow. (3-2) Cr. 4. F.S. *Prereq: Credit or enrollment in 332 and 370, E M 345, Math 266 or 267.* Incompressible and compressible fluid flow fundamentals. Dimensional analysis and similitude. Internal and external flow applications. Lab experiments emphasizing concepts in thermodynamics and fluid flow. Written reports are required. Nonmajor graduate credit.

M E 370. Engineering Measurements and Instrumentation. (2-3) Cr. 3. F.S. *Prereq: E E 442, Stat 305.* Fundamentals of design, selection, and operation of components of measuring systems. Measurement processes, data acquisition systems, analysis of data, and propagation of measurement uncertainty. Nonmajor graduate credit.

M E 388. Sustainable Engineering and International Development. (Cross-listed with A E, C E, E E, Mat E). (2-2) Cr. 3. F. *Prereq: Junior classification in engineering.* Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as non-government organizations (NGOs). Course readings, final project/design report.

M E 396. Summer Internship. Cr. R. Repeatable. SS. *Prereq: Permission of department and Engineering Career Services.* Summer professional work period.

M E 397. Engineering Internship. Cr. R. Repeatable. F.S. *Prereq: Permission of department and Engineering Career Services.* Professional work period, one semester maximum per academic year.

M E 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: 298, permission of department and Engineering Career Services.* Second professional work period in the cooperative education program. Students must register for this course before commencing work.

M E 410. Mechanical Engineering Applications of Mechatronics. (2-2) Cr. 3. S. *Prereq: E E 442, 448, credit or enrollment in 421.* Fundamentals of sensor characterization, signal conditioning and motion control, coupled with concepts of embedded computer control. Digital and analog components used for interfacing with computer controlled systems. Mechanical system analysis combined with various control approaches. Focus on automation of hydraulic actuation processes. Laboratory experiences provide hands-on development of mechanical systems. Nonmajor graduate credit.

M E 411. Automatic Controls. (2-2) Cr. 3. F. *Prereq: 421.* Methods and principles of automatic control. Pneumatic, hydraulic, and electrical systems. Representative applications of automatic control systems. Mathematical analysis of control systems. Nonmajor graduate credit.

M E 412. Ethical Responsibilities of a Practicing Engineer. (3-0) Cr. 3. F. *Prereq: Credit or enrollment in 325, senior classification in engineering.* Failure modes associated with product environment. Interaction between the legal profession, legislative bodies, standards and the design engineer, using a case study approach in design applications. Litigation involving designs, standards, and laws applicable to specific designs surveyed. The influence of laws and standards upon design. Nonmajor graduate credit.

M E 413. Fluid Power Engineering. (Cross-listed with A E). (2-2) Cr. 3. F. *Prereq: Credit or enrollment in 335 or E M 378, A E 216 or M E 270.* Properties of hydraulic fluids. Performance parameters of fixed and variable displacement pumps and motors. Hydraulic circuits and systems. Hydrostatic transmissions. Characteristics of control valves. Analysis and design of hydraulic systems for power and control functions. Nonmajor graduate credit.

M E 414. Hydraulic Systems and Control. (3-0) Cr. 3. F. *Prereq: 421, 335.* Characteristics of hydraulic motors and pumps, system components, system analysis, feedback control and stability, control circuits, computer simulation. Nonmajor graduate credit.

M E 415. Mechanical Systems Design. (0-6) Cr. 3. F.S. *Prereq: 324, 325.* Solution of a total design problem involving a mechanical system, documenting decisions concerning form and function, material specification, manufacturing methods, safety, cost, and conformance with codes and standards. Solution description includes oral and written reports. Nonmajor graduate credit.

M E 417. Advanced Machine Design. (Dual-listed with 517). (3-0) Cr. 3. S. *Prereq: 325, Mat E 272.* Stress life, strain life, and linear elastic fracture mechanics approaches to fatigue life and design. Material processing to mitigate crack growth in the initiation and propagation stages of the fatigue process. Variable amplitude and multi-axial loadings, stress-strain response to cyclical loadings, and notch effects. Software development required for graduate credit. Nonmajor graduate credit.

M E 418. Mechanical Considerations in Robotics. (3-0) Cr. 3. S. *Prereq: Credit or enrollment in 421.* Three dimensional kinematics, dynamics, and control of robot manipulators, hardware elements and sensors. Laboratory experiments using industrial robots. Nonmajor graduate credit.

M E 419. Computer-Aided Design. (3-0) Cr. 3. F. *Prereq: 325.* Theory and applications of computer-aided design. Design theory, solid modeling and finite element modeling in CAD. Assembly modeling, rapid prototyping and mechanism analysis. Curves and surfaces and CAD/CAM data exchange. Nonmajor graduate credit.

M E 421. Mechanical Systems and Control. (3-2) Cr. 4. F.S. *Prereq: E E 442, E E 448, E M 345, Math 267.* Modeling and simulation of mechanical systems. Development of equations of motion and dynamic response characteristics. Fundamentals of classical control applications, including mathematical analysis and design for closed loop control systems. Introduction to computer interfacing for data acquisition and control. Laboratory exercises for hands-on motion and control implementation. Nonmajor graduate credit.

M E 423. Creativity and Imagination for Engineering and Design. (3-0) Cr. 3. *Prereq: Junior classification in mechanical engineering.* Historical examples of technical innovations based on creativity and imagination. Introduction to the psychology and theory of creativity and imagination. Background and simplified exercises in the creative arts, including poetry (both free verse and prose) and the visual arts (both two and three dimensional), for skill strengthening. Additional exercises in creative and imaginative thinking. Application of creative and imaginative skills for formulating conceptual design solutions. Additional applications related to technology including problem solving and inventing.

M E 425. Optimization Methods for Complex Designs. (Dual-listed with 525). (3-0) Cr. 3. S. *Prereq: Engr 160, Math 265.* Optimization techniques including unconstrained and constrained minimization, linear programming, and particle swarm optimization. Both the theory and methods and the application to complex designs will be presented. Nonmajor graduate credit.

M E 433. Alternative Energy Conversion. (3-0) Cr. 3. F. *Prereq: Phys 221/222 and Chem 167.* Basic principles, thermodynamics, and performance of alternative energy conversion technologies such as direct energy conversion (fuel cells, photovoltaics, magnetohydrodynamics), wind energy, biomass energy, non-combustion thermal sources (ocean gradients, geothermal and nuclear fusion), non-conventional environmental energy sources (ocean tides and currents), and finally other alternative approaches (molecular motors, cryo-engines, and solar sailing). Performance analysis and operating principles of systems and components, economic analysis for system design and operation. Nonmajor graduate credit.

M E 436. Heat Transfer. (3-2) Cr. 4. F.S. *Prereq: 335.* Heat transfer by conduction, convection, and radiation. Similarity concepts in heat, mass, and momentum transfer. Methods for determination of heat transfer coefficients. Combined modes of heat transfer. Heat exchangers. Lab experiments emphasizing concepts in thermodynamics and heat transfer. Written reports are required. Nonmajor graduate credit.

M E 441. Fundamentals of Heating, Ventilating, and Air Conditioning. (3-0) Cr. 3. F. *Prereq: Credit or enrollment in 436.* Space conditioning and moist air processes. Application of thermodynamics, heat transfer, and fluid flow principles to the analysis of heating, ventilating, and air conditioning components and systems. Performance and specification of components and systems. Nonmajor graduate credit.

M E 442. Heating and Air Conditioning Design. (1-5) Cr. 3. S. *Prereq: 441.* Design criteria and assessment of building environment and energy requirements. Design of heating, ventilating, and air conditioning systems. System control and economic analysis. Oral and written reports required. Nonmajor graduate credit.

M E 444. Elements and Performance of Power Plants. (3-0) Cr. 3. S. *Prereq: 332, credit or enrollment in 335.* Basic principles, thermodynamics, engineering analysis of power plant systems. Topics include existing power plant technologies, the advanced energyplex systems of the future, societal impacts of power production, and environmental and regulatory concerns. Nonmajor graduate credit.

M E 446. Power Plant Design. (2-2) Cr. 3. F. *Prereq: 332, credit or enrollment in 335.* Design of a power plant to meet regulatory, cost, fuel, and output needs. Selection and synthesis of principal components. Oral and written reports required. Nonmajor graduate credit.

M E 448. Fluid Dynamics of Turbomachinery. (Cross-listed with Aer E). (3-0) Cr. 3. *Prereq: M E 335 or equivalent.* Applications of principles of fluid mechanics and thermodynamics in performance analysis and design of turbomachines and related fluid system components. Nonmajor graduate credit.

M E 449. Internal Combustion Engine Design. (3-1) Cr. 3. F. *Prereq: 335.* Basic principles, thermodynamics, combustion, and exhaust emissions of spark-ignition and compression-ignition engines. Laboratory determination of fuel properties and engine performance. Thermodynamic and mechanical design of engine components to meet specified performance, fuel economy, and air pollution requirements. Oral and written reports required. Nonmajor graduate credit.

M E 450. Engineering Vibrations. (Cross-listed with E M). (3-0) Cr. 3. F. *Prereq: E M 324 and 345.* Elementary vibration analysis, single and multiple degrees of freedom, energy methods, free and forced vibrations, viscous and other forms of damping transform methods and response to periodic and random force inputs, numerical methods of solution, eigenvalues and modal analysis, energy methods, vibration isolation and suppression, string or cable dynamics, beam bending dynamics, application problems in aerospace and mechanical engineering (as relevant). Nonmajor graduate credit.

M E 451. Engineering Acoustics. (Cross-listed with E M). (2-2) Cr. 3. Alt. S., offered 2010. *Prereq: Phys 221 and Math 266 or 267.* Sound sources and propagation. Noise standards and effects of noise on people. Principles of noise and vibration control used in architectural and engineering design. Characteristics of basic noise measurement equipment. Experience in use of noise measuring equipment, sound power measurements, techniques for performing noise surveys, evaluation of various noise abatement techniques applied to common noise sources. Selected laboratory experiments. Nonmajor graduate credit.

M E 466. Multidisciplinary Engineering Design. (Cross-listed with A E, Aer E, Cpr E, E E, Engr, I E, Mat E). (1-4) Cr. 3. Repeatable. F.S. *Prereq: Student must be within two semesters of graduation and permission of instructor.* Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing and life cycle considerations. Application of design tools such as CAD, CAM and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations, computer models and engineering drawings.

M E 475. Modeling and Simulation. (3-0) Cr. 3. S. *Prereq: 421, credit or enrollment in 436.* Introduction to computer solution techniques required to simulate flow, thermal, and mechanical systems. Methods of solving ordinary and partial differential equations and systems of algebraic equations; interpolation, numerical integration; finite difference and finite element methods. Nonmajor graduate credit.

M E 484. Technology, Globalization and Culture. (Dual-listed with 584). (Cross-listed with WLC). (3-0) Cr. 3. F. *Prereq: senior classification for 484; graduate classification for 584.* Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

M E 486. Appropriate Technology Design. (3-0) Cr. 3. F. *Prereq: 231, current enrollment in 335.* Hands-on design experience utilizing knowledge acquired in core mechanical engineering courses. Emphasis with engineering problem formulation and solution, oral and written communication, team decision-making and ethical conduct. Design projects include engineering considerations in appropriate technology which have multidisciplinary components in economics and sociology.

M E 490. Independent Study. Cr. arr. Repeatable. *Prereq: Senior classification.* Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.
C. Engineering Measurements and Instrumentation
D. Heat Transfer
E. Fluid Power and Controls
F. Machines and Systems
G. Materials and Manufacturing Processes
H. Honors
J. Thermodynamics and Energy Utilization
K. Fluid Mechanics
L. Turbomachinery
M. Nuclear Engineering
N. CAD/CAM

M E 498. Cooperative Education. Cr. R. Repeatable. F.S.SS. *Prereq: 298, permission of department and Engineering Career Services.* Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Courses primarily for graduate students, open to qualified undergraduate students

M E 511. Advanced Control Design. (3-0) Cr. 3. S. *Prereq: 411.* Application of control design methods using continuous, discrete, and frequency-based models. Approaches include classical, pole assignment, model reference, internal model, and adaptive control methods. Mechanical design projects.

M E 517. Advanced Machine Design. (Dual-listed with 417). (3-0) Cr. 3. S. *Prereq: 325, Mat E 272.* Stress life, strain life, and linear elastic fracture mechanics approaches to fatigue life and design. Material processing to mitigate crack growth in the initiation and propagation stages of the fatigue process. Variable amplitude and multi-axial loadings, stress-strain response to cyclical loadings, and notch effects. Software development required for graduate credit.

M E 520. Material and Manufacturing Considerations in Design. (3-0) Cr. 3. F. *Prereq: 324, 325.* Advanced treatment of materials and manufacturing. Applications to design. Design and redesign to facilitate cost-effective manufacturing. Qualitative and quantitative comparisons of designs. Economic considerations.

M E 521. Mechanical Behavior and Manufacturing of Polymers and Composites. (Cross-listed with M S E). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 324 or Mat E 272 and E M 324.* Effect of chemical structure and morphology on properties. Linear viscoelasticity, damping and stress relaxation phenomena. Structure

and mechanics of filler and fiber reinforced composites. Mechanical properties and failure mechanisms. Material selection and designing with polymers. Processing of polymer and composite parts.

M E 525. Optimization Methods for Complex Designs. (Dual-listed with 425). (Cross-listed with HCI). (3-0) Cr. 3. S. *Prereq: Engr 160, Math 265.* Optimization techniques including unconstrained and constrained minimization, linear programming, and particle swarm optimization. Both the theory and methods and the application to complex designs will be presented.

M E 527. Mechanics of Machining and Finishing Processes. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 324.* Mechanics of material removal for ductile materials. Shear zone theory. Oblique cutting. Heat transfer in machining. Milling and grinding. Mechanics of material removal for brittle materials. Optimal selection and design of cutting parameters. Control of machining processes. Principles of precision finishing. Design considerations for machining and finishing processes.

M E 528. Micro/Nanomanufacturing. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 324.* Introduction and scaling laws; SEM/SPM/AFM microscopes; top-down-beam machining; top-down-mechanical and electrical machining; synthesis of powders, tubes, and wires; bottom-up molecular manufacturing; applications of molecular manufacturing.

M E 530. Advanced Thermodynamics. (3-0) Cr. 3. F. *Prereq: 332.* Fundamentals of thermodynamics from the classical viewpoint with emphasis on the use of the first and second laws for analysis of thermal systems. Generalized thermodynamic relationships. Computer applications of thermodynamic properties and system analysis. Selected topics.

M E 532. Compressible Fluid Flow. (Cross-listed with Aer E). (3-0) Cr. 3. S. *Prereq: M E 335 or Aer E 541.* Thermodynamics of compressible flow. Viscous and inviscid compressible flow equations. One dimensional steady flow; isentropic flow, normal shock waves oblique and curved shocks, constant area flow with friction and heat transfer. Linear theory and Prandtl-Glauert similarity. Method of characteristics. Subsonic, transonic, supersonic and hypersonic flows.

M E 535. Thermochemical Processing of Biomass. (Cross-listed with BRT). (3-0) Cr. 3. S. *Prereq: Undergraduate course work in thermodynamics and transport phenomena..* Introduction to thermal and catalytic processes for the conversion of biomass to biofuels and other biobased products. Topics include gasification, fast pyrolysis, hydrothermal processing, syngas to synfuels, and bio-oil upgrading. Application of thermodynamics, heat transfer, and fluid dynamics to bioenergy and biofuels.

M E 536. Advanced Heat Transfer. (3-0) Cr. 3. S. *Prereq: 436.* Advanced treatment of heat transmission by conduction, convection, and radiation.

M E 538. Advanced Fluid Flow. (3-0) Cr. 3. F. *Prereq: Credit or enrollment in 436.* Detailed analysis of incompressible/compressible, viscous/inviscid, laminar/turbulent, and developing fluid flows on a particle/point control volume basis.

M E 540. Solar Energy Systems. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 436.* Application of heat transfer, thermodynamics and photovoltaics to the design and analysis of solar energy collectors and systems.

M E 542. Advanced Combustion. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 332 or Ch E 381.* Thermochemistry and transport theory applied to combustion. Gas phase equilibrium. Energy balances. Reaction kinetics. Flame temperatures, speed, ignition, and extinction. Premixed and diffusion flames. Combustion aerodynamics. Mechanisms of air pollution.

M E 543. Introduction to Random Vibrations and Nonlinear Dynamics. (Cross-listed with E M). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: E M 444.* Vibrations of continuous systems. Nonlinear vibration phenomena, perturbation expansions; methods of multiple time scales and slowly-varying amplitude and phase. Characteristics of random vibrations; random processes, probability distributions, spectral density and its significance, the normal or Gaussian random process. Transmission of random vibration, response of simple single and two-degree-of-freedom systems to stationary random excitation. Fatigue failure due to random excitation.

M E 545. Thermal Systems Design. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 436.* Integrating thermodynamics, fluid mechanics, and heat transfer to model thermal equipment and to simulate thermal systems. Second law and parametric analysis; cost estimation, life cycle analysis and optimization.

M E 546. Computational Fluid Mechanics and Heat Transfer I. (Cross-listed with Aer E). (3-0) Cr. 3. F. *Prereq: Credit or enrollment in 538 or Aer E 541.* Introduction to finite difference and finite volume methods used in modern engineering. Basic concepts of discretization, consistency, and stability. Applications of numerical methods to selected model partial differential equations.

M E 547. Computational Fluid Mechanics and Heat Transfer II. (Cross-listed with Aer E). (3-0) Cr. 3. S. *Prereq: M E 546.* Application of computational methods to current problems in fluid mechanics and heat transfer. Methods for solving the Navier-Stokes and reduced equation sets such as the Euler, boundary layer, and parabolized forms of the conservation equations. Introduction to relevant aspects of grid generation and turbulence modeling.

M E 549. Vehicle Dynamics. (3-0) Cr. 3. F. *Prereq: E M 345, Math 266 or 267.* Analysis and evaluation of the performance of cars and trucks. Computer simulation of ride, braking, and directional response.

M E 552. Advanced Acoustics. (Cross-listed with E M). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 451.* Theoretical acoustics: wave propagation in fluids; acoustic radiation, diffraction and scattering; and architectural acoustics. Applications of basic acoustic theory in noise control and acoustic radiation. Introduction to selected numerical methods in acoustics.

M E 557. Computer Graphics and Geometric Modeling. (Cross-listed with Cpr E, Com S). (3-0) Cr. 3. F.S. *Prereq: 421, programming experience in C.* Fundamentals of computer graphics technology. Data structures. Parametric curve and surface modeling. Solid model representations. Applications in engineering design, analysis, and manufacturing.

M E 561. Scanning Probe Microscopy. (2-1) Cr. 3. Alt. F., offered 2010. *Prereq: First year physics, chemistry.* Introduction to the scanning probe microscope (SPM, also known as atomic force microscope or AFM) and associated measurement techniques. Overview or instrumentation system, basic principles of operation, probe-sample interaction and various operational modes to obtain micro/nanoscale structure and force spectroscopy of material surfaces. Examples of SPM significance and applications in science and engineering research, nanotechnology and other industries. Laboratory work involving use of a scanning probe microscope system is an integral part of the course.

M E 563. Micro and Nanoscale Mechanics. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: E M 324 and M E 325.* Review of Fundamentals: (Elasticity, Electromagnetism, Mechanical response), Mechanics of thermally, electrostatically and magnetically actuated microsystems, Mechanics and design of nanostructured materials, mechanics of surface stress engineering and its implications to sensors and thin film structures.

M E 564. Fracture and Fatigue. (Cross-listed with E M, M S E). (3-0) Cr. 3. F. *Prereq: E M 324 and either Mat E 216 or 272 or 392. Undergraduates: Permission of instructor.* Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

M E 573. Random Signal Analysis and Kalman Filtering. (Cross-listed with Aer E, E E, Math). (3-0) Cr. 3. F. *Prereq: E E 324 or Aer E 331 or M E 370 or 411 or Math 341 or 395.* Elementary notions of probability. Random processes. Autocorrelation and spectral functions. Estimation of spectrum from finite data. Response of linear systems to random inputs. Discrete and continuous Kalman filter theory and applications. Smoothing and prediction. Linearization of nonlinear dynamics.

M E 574. Optimal Control. (Cross-listed with Aer E, E E, Math). (3-0) Cr. 3. S. *Prereq: E E 577.* The optimal control problem. Variational approach. Pontryagin's principle. Hamilton-Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum energy control systems. The regulator problem. Structures and properties of optimal controls.

M E 575. Introduction to Robust Control. (Cross-listed with Aer E, E E, Math). (3-0) Cr. 3. *Prereq: E E 577.* Introduction to modern robust control. Model and signal uncertainty in control systems. Uncertainty description. Stability and performance robustness to uncertainty. Solutions to the H2, Hoo, and I1 control problems. Tools for robustness analysis and synthesis.

M E 576. Digital Feedback Control Systems. (Cross-listed with Aer E, E E, Math). (3-0) Cr. 3. F. *Prereq: E E 475 or Aer E 432 or M E 411 or 414 or Math 415; and Math 267.* Sampled data, discrete data, and the z-transform. Design of digital control systems using transform methods; root locus, frequency response and direct design methods. Design using state-space methods. Controllability, observability, pole placement, state estimators. Digital filters in control systems. Microcomputer implementation of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital control systems. Simulation of digital control systems.

M E 577. Linear Systems. (Cross-listed with Aer E, E E, Math). (3-0) Cr. 3. F. *Prereq: E E 324 or Aer E 331 or M E 414 or Math 415; and Math 307.* State variable and input-output descriptions of linear continuous-time and discrete-time systems. Solution of linear dynamical equations. Controllability and observability of linear dynamical systems. Canonical descriptions of linear equations. Irreducible realizations of rational transfer function matrices. Canonical form dynamical equations. State feedback. State estimators. Decoupling by state feedback. Design of feedback systems. Stability of linear dynamical systems.

M E 578. Nonlinear Systems. (Cross-listed with Aer E, E E, Math). (3-0) Cr. 3. S. *Prereq: E E 577.* Classification of nonlinear control systems. Existence and uniqueness of solutions. Approximate analysis methods. Periodic orbits. Concept of stability and Lyapunov stability theory. Absolute stability of feedback systems. Input-output stability. Passivity.

M E 584. Technology, Globalization and Culture. (Dual-listed with 484). (Cross-listed with WLC). (3-0) Cr. 3. F. *Prereq: senior classification for 484; graduate classification for 584.* Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

M E 590. Special Topics. Cr. arr. Repeatable.
A. Experimental Gas Dynamics
B. Fluid Mechanics
C. Heat Transfer
D. Thermodynamics and Energy Utilization
E. Turbomachinery
F. Vehicular Propulsion Systems
G. Advanced Machine Design
I. Automatic Controls
J. Operating and Environmental Considerations in Design
K. Mechanical Behavior of Materials
L. Manufacturing Processes
M. Tribology
N. Sensitivity Methods
O. Engineering Computation
P. Engineering Measurements and Instrumentation
Q. Independent Literature Investigation
R. Nuclear Engineering
S. CAD/CAM

M E 599. Creative Component. Cr. arr. Repeatable.

Courses primarily for graduate students

M E 600. Seminar. Cr. R. Repeatable. (1-0)

M E 625. Surface Modeling. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 557, programming experience in C.* Theory and implementation of contemporary parametric sculptured surface modeling technology. Non-uniform rational B-spline (NURBS) curves and surfaces. Fundamental computational algorithms. Construction techniques. Advanced modeling topics. Computer projects.

M E 632. Multiphase Flow. (Cross-listed with Ch E). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 538.* Single particle, mutliparticle and two-phase fluid flow phenomena (gas-solid, liquid-solid and gas-liquid mixtures); particle interactions, transport phenomena, wall effects; bubbles, equations of multiphase flow. Dense phase (fluidized and packed beds) and ducted flows; momentum, heat and mass transfer. Computer solutions.

M E 636. Conduction Heat Transfer. (3-0) Cr. 3. Alt. F, offered 2010. *Prereq: 436.* Techniques for analysis of problems involving steady-state and transient heat conduction in solids.

M E 637. Convection Heat Transfer. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 436.* Heat transfer to internal or external forced convection flows under laminar or turbulent conditions. Free convection. Heat exchanger design considerations, including augmentation.

M E 638. Radiation Heat Transfer. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 436.* Techniques for analysis of radiation in enclosures. Radiative properties of surfaces. Radiative transfer in participating media. Combined modes of transfer. Approximate methods of analysis.

M E 639. Two-Phase Flow and Heat Transfer. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 436.* Hydrodynamics of adiabatic two-phase flow. Pool boiling. Forced convection, boiling, and condensation. Dynamic behavior of two-phase systems. Augmentation of boiling and condensing heat transfer. Applications in the power and process industries.

M E 647. Advanced High Speed Computational Fluid Dynamics. (Cross-listed with Aer E). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 547.* An examination of current methods in computational fluid dynamics. Differencing strategies. Advanced solution algorithms. Grid generation. Construction of complex CFD algorithms. Current applications. Use of state of the art CFD codes.

M E 690. Advanced Topics. Cr. arr. Repeatable. Investigation of advanced topics of special interest to graduate students in mechanical engineering.
A. Experimental Gas Dynamics
B. Fluid Mechanics
C. Heat Transfer
D. Thermodynamics and Energy Utilization
E. Turbomachinery
F. Vehicular Propulsion Systems
G. Advanced Machine Design
I. Automatic Controls
J. Operating and Environmental Considerations in Design
K. Mechanical Behavior of Materials
L. Manufacturing Processes
M. Tribology
N. Sensitivity Methods
O. Engineering Computation
P. Engineering Measurements and Instrumentation
Q. Independent Literature Investigation
R. Nuclear Engineering
S. CAD/CAM

M E 697. Engineering Internship. Cr. R. Repeatable. *Prereq: Permission of Director of Graduate Education, graduate classification.* One semester and one summer maximum per academic year professional work period. Satisfactory-fail only.

M E 699. Research. Cr. arr. Repeatable. Satisfactory-fail only.

(Interdepartmental Undergraduate Major)

Supervisory Committee: J. Cunnick, Professor-in-Charge, J. Beetham, N. Boury, J. Dickson, E. Braun, M. Gleason, G. Phillips

(Interdepartmental Graduate Major)

Supervisory Committee: A. Bogdanove, Chair, Halverson, Vice Chair, N. Cornick, L. Bartholamy, B. Brehm-Stecher

Participating faculty: M. Allison, L. Bartholomay, G. Beattie, S. Beattie, J. Beetham, B. Bellaire, J. Blanchong, B. Blitvich, T. Bobik, A. Bogdanove, B. Bonning, T. Boylston, B. Brehm-Stecher, N. Cornick, J. Cunnick, J. Dickson, T. Ellis, M. Gleason, R. Griffith, L. Halverson, T. Harrington, D. H. Harris, J. Hill, K. Hofmockel, T. Loynachan, A. Mendonca, C. Miller, W. A. Miller, F. C. Minion, T. Moorman, G. Munkvold, L. Nolan, F. Nutter, E. Nystrom, S. Ong, T. Opriessnig, T. Parkin, G. Phillips, R. Rosenbusch, J. Roth, A. Scupham, J. Sebranek, V. Sharma, B. Sponseller, T. Stanton, E. Vaughn, D. Voytas, M. Wannemuehler, I. Wesley, S. Whitham, B. Yang, Q. Zhang, C. Ziemer, J. Zimmerman, R. Zuerner

Undergraduate Study

Undergraduate study for the bachelor of science degree with a major in microbiology. For the curriculum in microbiology, see Agriculture, Curricula. In this curriculum, principal emphasis is placed on understanding microorganisms and their interrelationships with other organisms in nature, the application of microbiology in medicine, agriculture and industry, and the study of fundamental life processes as exemplified by microorganisms. Some fields of microbiology, especially advanced research, may require further training. Undergraduate work in the program is designed to provide sound preparation for graduate study, training for bachelors-level employment, and admission to professional programs such as medicine, veterinary medicine and dentistry.

Graduates of the Interdepartmental Undergraduate Microbiology Program will learn about the diversity and complexity of microbial life represented by procaryotes, eucaryotes and viruses. In addition to being able to explain fundamental principles of microbial growth, physiology, genetics, biochemistry, and ecology, students will be able to evaluate the impact that the microbial world has on human, animal and plant health, as well as on environmental quality, industry and biotechnology. Graduates are able to design and implement experimental approaches to address specific questions. In addition, graduates are able to communicate scientifically, using a variety of media.

Students graduating in microbiology find career opportunities in a wide variety of areas including: hospital and clinical laboratories; federal, state, and local government agencies; research and development; dairy and food processing industries; and the pharmaceutical and fermentation industries.

The undergraduate program for the major in microbiology requires the following basic courses: 110, 302, 310, 320, 430 or 477, 450, 451, and labs including 302L, 310L, and 440. In addition, students must take 9 credits of elective microbiology courses from an approved list. Aspects of these courses emphasize communication skills, environmental issues, problem solving, and laboratory techniques. Courses in the following areas are required as supporting work: biology, chemistry, biochemistry, genetics, mathematics and physics. For additional details on the undergraduate curriculum in Microbiology see College of Agriculture, Curricula. Students are encouraged to participate in independent studies, internship opportunities, and international experiences.

Preveterinary preparation may be accomplished through the curriculum major in this program (see College of Veterinary Medicine, Admission Requirements).

The program offers a minor in microbiology which may be earned by accumulating a minimum of 15 credits of microbiology courses.

Graduate Study

The program offers work for the degrees master of science and doctor of philosophy in microbiology and for a minor for students majoring in other programs. The interdepartmental microbiology major is offered through faculty housed in twelve departments, including Agronomy; Animal Science; Biochemistry, Biophysics and Molecular Biology; Civil, Construction and Environmental Engineering; Entomology; Food Science and Human Nutrition; Genetics, Developmental and Cell Biology; Geological and Atmospheric Sciences; Plant Pathology; Veterinary Diagnostic and Production Animal Medicine; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology. Faculty coordinate graduate education and research in a wide range of topics fundamental to the discipline of microbiology. Specific information about individual faculty and their research areas is available at www.micro.iastate.edu.

Prerequisites to graduate study include a sound undergraduate background in chemistry, mathematics and biology, including microbiology and genetics.

All M.S. and Ph.D. students complete coursework that is comprised of one year of modular courses in microbiology (Micro 551, 552, 553, 554, 555, 556). Students also take at least 3 credits (M.S.) or 9 credits (Ph.D.) of coursework from an approved list of microbiology courses, one year of biochemistry (BBMB 404 and 405, or the equivalent), one course (0.5) credits in ethics (Micro 565A), and 3 credits (M.S.) or 5 credits (Ph.D.) of seminar (Micro 604).

Graduates in the Microbiology Graduate program have a broad-based knowledge in the fundamentals of microbiology as well as advanced knowledge in specific areas as determined by their areas of research focus. Students completing the thesis have the technical, research, critical-thinking, problem-solving, and computer skills to design, implement, and conduct research using a variety of current techniques and equipment. They are also able to communicate research results effectively with scientific peer groups in both oral and written formats.

Courses primarily for undergraduate students

Micro 110. Orientation in Microbiology. (1-0) Cr. 0.5. F. Orientation to the discipline of microbiology, the curriculum in microbiology, and educational research opportunities within the department. Satisfactory-fail only.

Micro 201. Introduction to Microbiology. (2-0) Cr. 2. F.S. *Prereq: One semester of college-level biology.* Selected topics in microbiology with emphasis on the relationship of microorganisms to human and animal health, agricultural technology, and the environment. With written petition to the chair of the supervisory committee, students who obtain a grade of B or better may substitute 201 for 302 in advanced courses.

Micro 201L. Introductory Microbiology Laboratory. (0-2) Cr. 1. F.S. *Prereq: Credit or enrollment in 201 or 302.* Basic microbiology laboratory techniques for non-microbiology majors. Credit for either Micro 201L or 302L, but not both, may be applied toward graduation.

Micro 302. Biology of Microorganisms. (3-0) Cr. 3. F.S. *Prereq: Biol 211, credit or enrollment in Biol 212; 1 semester of chemistry.* Basic cell biology, physiology, metabolism, genetics and ecology of microorganisms, with an emphasis on procaryotes and viruses, as well as the roles of microorganisms in the environment, disease, agriculture, and industry.

Micro 302L. Microbiology Laboratory. (0-3) Cr. 1. F.S. *Prereq: Credit or enrollment in 302.* Basic microbiology laboratory techniques for majors in microbiology, biological sciences and related fields. Credit for either Micro 201L or 302L, but not both, may be applied toward graduation.

Micro 310. Medical Microbiology. (3-0) Cr. 3. F. *Prereq: 302 (or 201 if a B or better was obtained).* Study of infection and immunity by bacterial and viral pathogenic agents of humans. Nonmajor graduate credit.

Micro 310L. Medical Microbiology Laboratory. (0-3) Cr. 1. F. *Prereq: 201 or 302; 201L or 302L, credit or enrollment in 310.* Isolation and identification of human bacterial pathogens using basic staining techniques and biochemical tests. Brief introduction to techniques in cell culture and virology.

Micro 320. Microbial Physiology and Genetics. (4-0) Cr. 4. S. *Prereq: 302, Biol 313, credit or enrollment in Chem 332.* Introductory course in microbial physiology and genetics with special emphasis on prokaryotes. Topics include the structure, function, and assembly of cell components, bioenergetics, metabolic diversity, environmental stress tolerance, regulation of gene expression, genetic adaptation, and growth and cellular differentiation.

Micro 353. Introductory Parasitology. (Cross-listed with Biol). (3-3) Cr. 4. F. *Prereq: Biol 212.* Biology and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites.

Micro 374. Insects and Our Health. (Cross-listed with Ent). (3-0) Cr. 3. S. *Prereq: 3 credits in biological sciences.* Bartholomay. Identification, biology, and significance of insects and arthropods that affect the health of humans and animals, particularly those that are vectors of disease. Nonmajor graduate credit.

Micro 374L. Insects and Our Health Laboratory. (Cross-listed with Ent). (0-3) Cr. 1. Alt. S., offered 2010. *Prereq: Credit or enrollment in Ent 374.* Bartholomay. Laboratory and field techniques for studying medical or public health entomology, including: collection, identification and maintenance of medically significant arthropods and experimental design and execution related to the biology of arthropods or arthropod-pathogen interactions.

Micro 381. Environmental Systems I: Introduction to Environmental Systems. (Cross-listed with Biol, EnSci, Env S). (2-4) Cr. 4. F. *Prereq: 12 credits of natural science including Biology and chemistry.* Introduction to the structure and function of natural environmental systems. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems. Nonmajor graduate credit.

Micro 402. Microbial Genetics. (Dual-listed with 502). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 302, Biol 313.* The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of both vertical and horizontal genetic information transfer, gene regulation, and genetic approaches to study complex cellular processes. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics.

Micro 407. Microbiological Safety of Foods of Animal Origins. (Dual-listed with 507). (Cross-listed with FS HN). (3-0) Cr. 3. S. *Prereq: 420.* Examination of the various factors in the production of foods of animal origin, from animal production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. The two modules of this course will be 1) the procedures and processes which can affect the overall microbiological safety of the food, and 2) the Hazard Analysis Critical Control Point (HACCP) system.

Micro 408. Virology. (Dual-listed with 508). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Biol 313 or BBMB 301, Biol 314 recommended.* The molecular virology and epidemiology of human, animal, plant and insect viruses.

Micro 410. Insect-Virus Interactions: a Molecular Perspective. (Dual-listed with 510). (Cross-listed with Ent). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Permission of an instructor.* Bonning, Bartholomay. Overview of insect-virus interactions including insect immunity to viruses, genetic enhancement of viral insecticides, transgenic mosquitoes, disruption of virus transmission, and the role of insect and virus genomics in combating viral disease of both human and agricultural importance.

Micro 419. Foodborne Hazards. (Cross-listed with FS HN, Tox). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Micro 201 or 302, a course in biochemistry.* Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards. Nonmajor graduate credit.

Micro 420. Food Microbiology. (Cross-listed with FS HN, Tox). (3-0) Cr. 3. F. *Prereq: 201 or 302.* Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications. Nonmajor graduate credit.

Micro 421. Food Microbiology Laboratory. (Cross-listed with FS HN). (0-6) Cr. 3. F. *Prereq: Micro 201 or 302; 201L. Credit or enrollment in Micro 420, FS HN 203.* Standard techniques used for the microbiological examination of foods. Independent and group projects on student-generated questions in food microbiology. Emphasis on oral and written communication and group interaction. Nonmajor graduate credit.

Micro 430. Procaryotic Diversity and Ecology. (Dual-listed with 530). (Cross-listed with BBMB). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 302, 302L.* Survey of the diverse groups of procaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.

Micro 440. Laboratory in Microbial Physiology, Diversity, and Genetics. (Cross-listed with BBMB). (1-7) Cr. 3. F. *Prereq: 302, 302L, Chem 332, Biol 313L.* Study of the fundamental techniques and theory of studying the diversity of microbial life. Experimental techniques will include isolation and physiological characterization of bacteria that inhabit different environments. Also included are techniques for the phylogenetic characterization, and genetic manipulation of diverse species of bacteria.

Micro 450. Undergraduate Seminar. Cr. 1. S. *Prereq: Sp Cm 212 and senior standing in Microbiology.* Required of all undergraduate majors in microbiology. Discussion of current papers in microbiology and immunology, issues in scientific conduct, and bioethics in microbiology. Students present current papers in a journal club format.

Micro 451. Senior Survey in Microbiology. Cr. R. F. *Prereq: Junior or Senior standing in Microbiology.* Preparations for graduation. Topics include job search strategies, career information, mock interviews, graduate and professional school application processes and guidelines as well as outcomes assessment activities.

Micro 456. Principles of Mycology. (Cross-listed with Biol). (2-3) Cr. 3. F. *Prereq: 10 credits in biological sciences.* Morphology, diversity, and ecology of fungi; their relation to agriculture, industry, and human health. Nonmajor graduate credit.

Micro 475. Immunology. (Dual-listed with 575). (3-0) Cr. 3. S. *Prereq: 310.* An examination of humoral and cellular immune function as well as the interaction of the cells and factors of the immune system that result in health and disease. Micro 475L optional. Credit for either Micro 475 or V MPM 520, but not both, may be applied to graduation.

Micro 475L. Immunology Laboratory. (1-4) Cr. 1. S. *Prereq: Credit or enrollment in 475 or 575.* Techniques in primary culture and tumor cell growth, measures of lymphocyte function, and flow cytometry. Half semester course.

Micro 477. Bacterial-Plant Interactions. (Dual-listed with 577). (Cross-listed with Pl P). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 3 credits in microbiology or plant pathology.* Focuses on plant-associated bacteria in terms of their ecology, diversity, and the physiological and molecular mechanisms involved in their interaction with plants; covers symbiotic nitrogen fixation, plant pathogenesis, plant growth promotion, and biological control.

Micro 485. Soil and Environmental Microbiology. (Dual-listed with 585). (Cross-listed with Agron, EnSci). (2-3) Cr. 3. F. *Prereq: Agron 154 or EnSci 402, Micro 201 (Micro 302 recommended).* Loynachan. The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues. Nonmajor graduate credit.

Micro 487. Microbial Ecology. (Dual-listed with 587) (Cross-listed with Biol, EnSci). (3-0) Cr. 3. F. *Prereq: Six credits in biology and 6 credits in chemistry.* Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural systems. Nonmajor graduate credit.

Micro 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: A minimum of 6 credits of 300-level or above coursework in microbiology, permission of instructor.* **A maximum of 6 credits of Micro 490 may be used toward the total of 128 credits required for graduation.**
H. Honors

Micro 495. Internship. Cr. arr. F.S. *Prereq: At least 6 credits of 300-level or above coursework in microbiology, approval of academic adviser.* Participation in the Cooperative Extension Intern Program or an equivalent work experience. Written report of activities required. Satisfactory-fail only.

Courses primarily for graduate students, open to qualified undergraduate students

Micro 502. Microbial Genetics. (Dual-listed with 402). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 302, Biol 313.* The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of both vertical and horizontal genetic information transfer, gene regulation, and genetic approaches to study complex cellular processes. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics.

Micro 507. Microbiological Safety of Foods of Animal Origins. (Dual-listed with 407). (Cross-listed with FS HN). (3-0) Cr. 3. S. *Prereq: 420.* Examination of the various factors in the production of foods of animal origin, from animal production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. The two modules of this course will be 1) the procedures and processes which can affect the overall microbiological safety of the food, and 2) the Hazard Analysis Critical Control Point (HACCP) system.

Micro 508. Virology. (Dual-listed with 408). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Biol 313 or BBMB 301, Biol 314 recommended.* The molecular virology and epidemiology of human, animal, plant, and insect viruses.

Micro 509. Plant Virology. (Cross-listed with Pl P). (2-6) Cr. 4. Alt. S., offered 2011. *Prereq: Pl P 408, Biol 454, BBMB 405, Chem 211.* Hill. Plant viruses and the diseases they cause. Emphasis on epidemiology and control. Structure, function, and biochemical-biophysical properties of plant viruses.

Micro 510. Insect-Virus Interactions: a Molecular Perspective. (Dual-listed with 410). (Cross-listed with Ent). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Permission of an instructor.* Bonning, Bartholomay. Overview of insect-virus interactions including insect immunity to viruses, genetic enhancement of viral insecticides, transgenic mosquitoes, disruption of virus transmission, and the role of insect and virus genomics in combating viral disease of both human and agricultural importance.

Micro 530. Procaryotic Diversity and Ecology. (Dual-listed with 430). (Cross-listed with BBMB). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 302, 302L.* Survey of the diverse groups of procaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.

Micro 540. Livestock Immunogenetics. (Cross-listed with An S, V MPM). (2-0) Cr. 2. Alt. S., offered 2011. *Prereq: An S 561 or Micro 575 or V MPM 520.* Basic concepts and contemporary topics in genetic regulation of livestock immune response and disease resistance.

Micro 551. Microbial Diversity and Phylogeny. (1-0) Cr. 1. F. *Prereq: 302, Biol 313.* Comparisons among the three kingdoms of life (Bacterica, Archaea, and Eukarya). Topics will include metabolism, adaptation, methods of phylogenetic analysis, and comparative genomics.

Micro 552. Bacterial Molecular Genetics and Physiology. (1-0) Cr. 1. F. *Prereq: 302, Biol 313.* Review of the molecular genetics and physiology of model organisms.

Micro 553. Pathogenic Microorganisms. (1-0) Cr. 1. F. *Prereq: 302, Biol 313.* Review and contrast/comparison of common bacterial pathogens of plants and animals and their mechanisms of virulence, including toxins, protein secretion, host invasion and iron acquisition strategies. An overview of eukaryotic cell biology that is relevant to pathogenesis will also be included.

Micro 554. Virology. (1-0) Cr. 1. S. *Prereq: 302, Biol 313.* Review and contrast/comparison of insect, animal and plant viruses and bacteriophage. Growth dynamics, replication of model viruses, and the role of specific viruses in disease will also be included.

Micro 555. Fungal Biology. (1-0) Cr. 1. S. *Prereq: 302, Biol 313.* Review of the biology, reproduction, genetics, physiology, and diversity of yeast and other fungi.

Micro 556. Microbial Ecology and Environmental Monitoring. (1-0) Cr. 1. S. *Prereq: 302, Biol 313.* Examination of microorganisms in their natural habitats, including aquatic, terrestrial and extreme environments, community and biofilm development, microbe-microbe interactions, and current and traditional methods of microbial analysis in natural environments.

Micro 565. Professional Practice in the Life Sciences. (Cross-listed with Pl P, Agron, An S, BCB, Hort, V MPM). Cr. arr. S. *Prereq: Graduate classification.* Professional discourse on the ethical and legal issues facing life science researchers. Offered in modular format; each module is four weeks.
A. Professional Practices in Research. (Cr. 1.0) Good scientific practices and professional ethics in the life sciences.
B. Intellectual Property and Industry Interactions. (Cr. 0.5) Ethical and legal issues facing life scientists involved in research interactions with industry.

Micro 575. Immunology. (Dual-listed with 475). (Cross-listed with V MPM). (3-0) Cr. 3. S. *Prereq: 310.* An examination of humoral and cellular immune function as well as the interaction of the cells and factors of the immune system that result in health and disease. Micro 475L optional. Credit for either Micro 575 or V MPM 520, but not both, may be applied toward graduation.

Micro 577. Bacterial-Plant Interactions. (Dual-listed with 477). (Cross-listed with Pl P). (3-1) Cr. 3. Alt. S., offered 2010. *Prereq: 3 credits in microbiology or plant pathology.* Focuses on plant-associated bacteria in terms of their ecology, diversity, and the physiological and molecular mechanisms involved in their interaction with plants; covers symbiotic nitrogen fixation, plant pathogenesis, plant growth and biological control.

Micro 585. Soil and Environmental Microbiology. (Dual-listed with 485). (Cross-listed with Agron, EnSci). (2-3) Cr. 3. F. *Prereq: Agron 154 or 402, Micro 201 (Micro 302 recommended).* Loynachan. The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues.

Micro 586. Medical Bacteriology. (Cross-listed with V MPM). (4-0) Cr. 4. F. *Prereq: 310.* Bacteria associated with diseases of vertebrates, including virulence factors and interaction of host responses.

Micro 587. Microbial Ecology. (Dual-listed with 487). (Cross-listed with EEOB, EnSci). (3-0) Cr. 3. F. *Prereq: Six credits in biology and 6 credits in chemistry.* Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural systems.

Micro 590. Special Topics. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.*

Courses for graduate students

Micro 604. Seminar. (1-0) Cr. 1. Repeatable. F.S. Course will expose students to the breadth of subdisciplines within microbiology, offer opportunities for direct interaction between the students and the faculty members within the Interdepartmental Microbiology Graduate Program, and promote interactions among the students within the program. Satisfactory-fail only.

Micro 608. Molecular Virology. (Cross-listed with V MPM, Pl P). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: BBMB 405 or GDCB 511.* C. Miller, Blitvich, A. Miller. Advanced study of virus host-cell interactions. Molecular mechanisms of viral replication and pathogenesis.

Micro 615. Molecular Immunology. (Cross-listed with BBMB, V MPM). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: BBMB 405 or 502.* Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signalling pathways leading to expression of genes that control and activate immune function.

Micro 625. Mechanisms of Bacterial Pathogenesis. (Cross-listed with V MPM). (4-0) Cr. 4. Alt. S., offered 2011. *Prereq: Credit in Biochemistry and Microbiology.* Review of current concepts in specific areas of microbial pathogenesis including the genetic basis for bacterial disease, genetic regulation and control of virulence factors and their mechanisms of action, and host-pathogen interactions at the cellular and molecular levels. The application of microbial genetics to understanding pathogenesis will be included.

Micro 626. Advanced Food Microbiology. (Cross-listed with FS HN, Tox). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: FS HN 420 or 421 or 504.* Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

Micro 627. Rapid Methods in Food Microbiology. (Cross-listed with FS HN, Tox). (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: FS HN 420 or 421 or 504.* Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

Micro 679. Light Microscopy. (Cross-listed with GDCB, EEOB). (2-9) Cr. 5. Alt. F., offered 2010. *Prereq: Permission of instructor.* Current theories encompassing light optics and their applications for specimen preservation, paraffin and resin sectioning, general staining, histochemistry, cytophotometry, immunocytochemistry, autoradiography, image digitization, processing and presentation, and digital macro- and micrography. Limit of 10 students.

Micro 680. Scanning Electron Microscopy. (Cross-listed with GDCB, EEOB). (2-9) Cr. 5. Alt. F., offered 2009. *Prereq: Permission of instructor.* Current theories encompassing scanning electron optics and their applications for high and low vacuum microscopy, specimen chemical and cryopreservation methods, x-ray microanalysis, backscattered and topographic imaging, image digitization, processing and presentation. Limit of 10 students.

Micro 681. Transmission Electron Microscopy. (Cross-listed with GDCB, EEOB). (2-9) Cr. 5. Alt. S., offered 2011. *Prereq: GDCB 679 and permission of instructor.* Current theories encompassing electron optics and their applications for chemical and physical specimen preservation, ultramicrotomy, general staining and cytochemistry, immunocytochemistry, autoradiography, negative staining and shadowing, x-ray microanalysis, image digitization, processing and presentation.

Micro 685. Advanced Soil Biochemistry. (Cross-listed with Agron, EnSci). (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: Agron 585.* Tabatabai. Chemistry of soil organic matter and biochemical transformations brought about by microorganisms and enzymes in soils.

Micro 690. Current Topics. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.* Colloquia or advanced study of specific topics in a specialized field.
A. Microbiology
B. Immunology
C. Infectious Diseases

Micro 692. Molecular Biology of Plant-Pathogen Interactions. (Cross-listed with Pl P). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: Pl P 506 or BBMB 405 or Gen 411 or Micro 402 or course in molecular biology.* Bogdanove, Whitham. Seminal and current research in molecular and physiological aspects of plant interactions with pathogens, including mechanisms of pathogenesis, host-pathogen recognition and host defense, with an emphasis on critical evaluation of primary literature. Students also complete an interinstitutional research proposal writing and peer review exercise.

Micro 697. Graduate Research Rotation. Cr. arr. Repeatable. F.S. Graduate research projects performed under the supervision of selected faculty members in the Interdepartmental Microbiology major.

Micro 698. Seminar in Molecular, Cellular, and Developmental Biology. (Cross-listed with MCDB, GDCB, BBMB, V MPM). (2-0) Cr. arr. Repeatable. F.S. Student and faculty presentations.

MICRO 699. Research. Cr. arr. Repeatable.

Military Science

www.public.iastate.edu/~armyrotc/

Lt. Col. John Soupene, Chair of Department

Professor: Soupene

Assistant Professor (Adjunct): Meyer

Instructors (Adjunct): Bower, Gledhill, Porter, Scott, Stephenson, Taylor, White

The Military Science Department does not offer an academic degree and is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program. The mission of the department is derived directly from regulations governing Army Reserve Officers' Training Corps (AROTC), which are issued by the Army Cadet Command and Army Training and Doctrine Command and cannot be modifiable by this department.

Freshmen Year Learning Outcomes: The student will have a working knowledge of the following areas: The Role of the Army, Roles and Origins of the Army, Army Customs and Traditions, Branches (Jobs) in the Army and Military Operations and Tactics.

Sophomore Year Learning Outcomes: The student will have a working knowledge of the following areas: The Role of an Officer, Role of the Officer and Noncommissioned Officer, communications, code of conduct, first aid, principles of war and military operations and tactics.

Junior Year Learning Outcomes: The student will have a working knowledge of the following areas: Small Unit Training, Command and Staff Functions, Nuclear, Biological and Chemical Warfare, Law of War, Weapons, Human Behavior, Math Reasoning, Computer Science and Military Operations and Tactics.

Senior Year Learning Outcomes: The student will have a working knowledge of the following areas: Transition to Becoming an Officer, Military Justice, Intelligence and Electronic Warfare, Army Personnel Management, Army Logistics, Post and Installation Support and Military Operations and Tactics.

The mission of the Army Reserve Officers' Training Corps (AROTC) is to commission the future leaders of the United States Army. Since ROTC produces over 65 percent of the Army's Officer Corps, our task is one of the most important undertakings in the Army and our country today. We seek top quality college students. We train these potential leaders, assess their abilities, and challenge them with the highest standards of profession/professionalism. Those who successfully complete the program, receive a commission as a second lieutenant in the U.S. Army. A commission as an Army officer affords the opportunity to pursue a profession in one or several of the 300 different jobs held by Army officers. Students may request to serve as an officer in either the active army, or part time in the Army Reserve or National Guard. Regardless of the method of service, officers in today's Army can be proud to know that they are doing their share in the defense of the United States of America.

The ISU Military Science program is divided into two segments, the basic program and the advanced program. The basic program (courses numbered 101-290) is designed primarily for freshmen and sophomores. No military obligation is incurred by a person participating in the basic program. The basic program is designed to be informative and to acquaint students with the military as a profession. The basic program or an allowed substitute is a prerequisite for the advanced program. Financial assistance is available on a competitive basis.

Persons interested in Military Science should visit the department located on the second floor of the Armory (east side).

Basic Program

These courses are primarily for freshmen and sophomore students and, except for persons with prior military service and basic training graduates, are required for entry into the advanced program. No more than 10 credits in 100- and 200-level courses may be applied toward graduation. Each scholarship cadet in the Basic Program receives a monthly allowance (freshmen $300; sophomore $350) for up to 10 months. The curriculum is designed to train freshmen and sophomores in individual and team skills. It also helps the Professor of Military Science identify individual leader developmental needs.

Advanced Program

These courses are for students who have completed the basic program (or received equivalent credit) and are mandatory for potential commissioning upon contracting at the beginning of their junior year. Each cadet receives a monthly allowance (junior $450; senior $500) for up to 10 months. This stipend is given during the junior and senior years. These courses are primarily taught to academic juniors and seniors.

Successful completion normally obligates the student to military service on active or reserve duty. In addition to the advanced program of study, a student (cadet) will be expected to pass the Army Physical Fitness Test (precondition for commissioning) each semester and continually maintain military appearance standards in both personal grooming and uniform. Physical fitness training is regularly conducted outside of class and laboratory hours in a separate course, M S 150 "Army Physical Readiness". Students are encouraged to attend and participate in this class.

Professional Military Science Education (PME) coursework outside of the military science curriculum is also a precondition to commissioning. The PME component consists of Basic Academic proficiency standards. These standards are explained to prospective students as they consider enrollment in the advanced program. Army Uniforms will be worn at least once a week. The 300-level courses are designed to prepare cadets for the Leader Development and Assessment Course, which is a 32 day summer internship/training program where cadets are trained to Army standards, develop leadership skills, and have their officer potential evaluated. The 400-level courses are the final preparation for commissioning as a second lieutenant in the United States Army. Students must meet academic alignment criteria and receive basic program credit before entering the advanced program.

The College of Liberal Arts and Science offers a minor in Military Studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or a number of the ROTC programs. At least 6 credits must be in courses numbered 300 or above.

Courses primarily for undergraduate students

Basic Program

M S 101. Introduction to Military Science. (1-0) Cr. 1. F. *Prereq: Concurrent enrollment in M S 101L required.* Examines the role of a Cadet in the Army Reserve Officer Training Corps and a Lieutenant in the United States Army. The course explores a military culture whose ultimate success is determined by the character and proficiency of its' leaders. Instruction introduces students to the cultural heritage and history of the U.S. Army. Students will begin to understand the structure of the U.S. Army and how it functions as an organization and institution. The curriculum promotes the development of students' communication skills to enhance their ability to transmit ideas. The class examines how the Army's cultural values drive the development of leadership in the Officer Corps. Hands-on activities enable students to gain insight on the skills and abilities required of cadets and officers interacting with civilians and soldiers.

M S 101L. Basic Leadership Laboratory I. (0-2) Cr. 1. F. *Prereq: Concurrent enrollment in M S 101 required.* Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. This concept provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Marching, rifle firing, and tactical patrolling; students gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 102. Structure and Function of the U.S. Army. (1-0) Cr. 1. S. *Prereq: Concurrent enrollment in M S 102L required.* Instructs students on the fundamental skills and proficiencies required of Cadets in the Army Reserve Officer Training Corps and Officers in the United States Army. Allows students to explore the Army culture whose ultimate success is determined by the character and proficiency of its' leaders. Students will gain an insight to the effects of human behavior and communication on the function of the Army's basic unit structures. Special focus is given to the emphasis the Army puts on the development and character of the leader and how that affects the culture and operation of the Army as an institution. Students will develop an understanding of the role that morals and ethics play in becoming an Army Officer and leading American Soldiers. Introduction to basic officer/soldier skills will elucidate the complex role of the Officer in the modern Army.

M S 102L. Basic Leadership Laboratory II. (0-2) Cr. 1. S. *Prereq: Concurrent enrollment in M S 102 required.* Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 150. Army Physical Readiness. (0-3) Cr. 1. Repeatable. F.S. *Prereq: None.* This lab is designed to use basic military skills and instruction to develop confidence, leadership, and physical fitness. The team approach is utilized in the instruction and application of Army physical fitness requirements. Students will learn various Army physical fitness techniques as well as how to conduct physical fitness sessions. Teaching locations include Lied Recreation Center, Beyer Hall, State Gym as well as around campus. Full participation in all events will be determined based on

students physical and medical eligibility. No more than 10 credits in MS 100 and 200- level courses may be applied toward graduation. Satisfactory-fail only.

M S 201. Principles of Leadership and Communication Skills. (2-0) Cr. 2. F. *Prereq: Concurrent enrollment in M S 201L required.* Explores the development of leadership and communication skills by understanding and studying the principles, traits, and dynamics of leadership and effective communication techniques. These include; leadership dimensions, human behavior, time management skills, stress management, values and ethics, decision making process, problem solving skills, team building exercises, communication techniques, briefing skills, delegating, nutrition, fitness, and counseling. Leadership assessment programs, role playing, active class participation, speeches, country briefs, and video clips are used to enhance and reinforce the instruction.

M S 201L. Basic Leadership Laboratory III. (0-2) Cr. 1. F. *Prereq: Concurrent enrollment in M S 201 required.* Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 202. Map Reading and Land Navigation. (2-0) Cr. 2. S. *Prereq: Concurrent enrollment in M S 202L required.* Class focuses on the characteristics and features of the earth's land mass and how to apply different methods of conducting navigation on land. These methods include; by use of topographical maps, compasses, aerial photographs, military maps, symbols, and all their practical application. These navigation techniques are used in class in conjunction with patrolling techniques and squad movement exercises. Students will utilize verbal and non-verbal communication, communication techniques, and briefing techniques during this class. Students are also assigned to read one professional book from the Army Reading List and complete a written review of the book in the Army writing style.

M S 202L. Basic Leadership Laboratory IV. (0-2) Cr. 1. S. *Prereq: Concurrent enrollment in M S 202 required.* Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 290. Independent Study: Basic Military Study. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of the Chair of Military Science Department.* Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development. No more than 10 credits in MS 100- and 200-level courses may be applied toward graduation.

M S 301. Methods of Instructing Military Skills. (3-0) Cr. 3. F. *Prereq: Completion of the basic Military Science program, concurrent enrollment in MS 301L, and permission of the Chair of the Military Science Department.* Develops student's proficiency in analyzing, planning, and executing complex operations within a military organizational structure. Students are given situational opportunities and then measured on their leadership abilities through systematic feedback. Student's evaluations are based on sixteen leadership dimensions within the realms of values, attributes, skills, and actions. Students develop an understanding of human cultural heritage and history, as it pertains to the armed forces.

M S 301L. Advanced Leadership Laboratory I. (0-4) Cr. 1. F. *Prereq: Completion of the basic program, concurrent enrollment in MS 301 and permission of the Chair of the Military Science Department.* The lab compliments M S 301 by providing opportunities to practice the lessons from class. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Participating in the Water Survival test, Army Physical Fitness test and the Land Navigation test are required.

M S 302. Applied Leadership. (3-0) Cr. 3. S. *Prereq: Completion of the basic Military Science program, concurrent enrollment in MS 302L and permission of the Chair of the Military Science Department.* Prepares students to attend the Leadership Develop and Assessment Course at Fort Lewis, Washington in which they will be assigned specific and situational tasks to accomplish by providing purpose, motivation, and direction to fellow students across the nation. Students will learn how to identify sixteen leadership dimensions in the under classmen and provide specific feedback on their leadership behaviors. Students will develop their oral communication skills about the plans developed by the class, through small group presentation settings. Students will develop methods of studying human behavior.

M S 302L. Advanced Leadership Laboratory II. (0-4) Cr. 1. S. *Prereq: Completion of the basic program, concurrent enrollment in MS 302 and permission of the Chair of the Military Science Department.* The lab compliments M S 302 by providing opportunities to practice the lessons from class. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Participating in the Water Survial Test, Army Physical Fitness Test and the Land Navigation test required.

M S 310. Practicum: Advanced Military Skills. (0-3) Cr. 1. Repeatable. S. *Prereq: Permission of the Chair of the Military Science Department.* An annual 72-hour military field training exercise that requires weeks of planning, participation, plus senior ROTC cadet evaluation. Designed to prepare basic cadets for military field training and MS III cadets for the Leadership Development and Assessment Course, held during the summer at Fort Lewis, Washington. Actual military conditions are simulated; detailed instruction in weapons training and execution of a simulated Operation Order in accomplishing a specific military mission. Conducted as a weekend exercise at Camp Dodge (National Guard Facility). Satisfactory-fail only.

M S 401. Seminar: The Military Team. (3-0) Cr. 3. F. *Prereq: Completion of the basic program, concurrent enrollment in MS 401L and permission of the Chair of the Military Science Department.* Develops student proficiency in analyzing and evaluating leadership behaviors, such as values, attributes, skills, and actions. Students are given situational opportunities to assess leadership and provide feedback to other students placed in leadership roles. Students will be measured by their ability to both give and receive systematic and specific feedback on leadership behaviors. Students will develop their ability to communicate thoughts and ideas orally through small group presentations and group discussions. Students will supervise and evaluate the planning and execution of complex operations within a military organizational structure.

M S 401L. Advanced Leadership Laboratory III. (0-4) Cr. 1. F. *Prereq: Completion of the basic program, concurrent enrollment in MS 401 and permission of the Chair of the Military Science Department.* The lab compliments the instruction from class by demonstrating the indelible link between personal values and successful leadership. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs.

M S 402. Seminar: The Professional Military Officer. (3-0) Cr. 3. S. *Prereq: Completion of the basic program, concurrent enrollment in M S 402L and permission of the Chair of the Military Science Department.* Explores the dynamics of leading in the complex situations of current military operations in a contemporary world. Students will examine the differences in customs, courtesies and operational principles in the face of international terrorism. Students will also explore aspects of interaction with nongovernmental organizations, civilians and media in a war zone and foreign national governments. The course uses case studies, scenarios, and practical exercises, which prepare the student to face complex ethical and practical demands of leading soldiers within a multifaceted military organizational structure.

M S 402L. Advanced Leadership Laboratory IV. (0-4) Cr. 1. S. *Prereq: Completion of the basic program, concurrent enrollment in MS 402 and permission of the Chair of the Military Science Department.* The lab compliments the instruction from class by demonstrating the indelible link between personal values and successful leadership. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs.

M S 410. Practicum: Military Skills Leadership. (0-3) Cr. 1. S. *Prereq: Permission of the Chair of the Military Science Department.* An annual 72-hour military field training exercise that requires weeks of planning, participation, and ROTC cadre evaluation. Designed for the advanced ROTC cadet in preparation for being commissioned as officers in the U.S. Army. Actual military conditions are simulated; detailed instruction in weapons training and execution of a simulated operation order in accomplishing a specific military mission. Conducted as a weekend exercise at Camp Dodge (National Guard Facility). Satisfactory-fail only.

M S 490. Independent Study: Advanced Military Study. (1-0) Cr. 1. Repeatable. F.S.SS. *Prereq: M S 301, 302, 401 and 402 and permission of the Chair of the Military Science Department.* Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development.

Military Studies

(Interdepartmental Minor)

Advisory Committee: Lieutenant Colonel Soupene, Captain Waring, Colonel Cramp

The Military Studies program is designed for students interested in learning about military skills and careers. The mission of the Reserve Officers' Training Corps (ROTC) programs is threefold. First, students are developed mentally, morally, and physically in order to make them strong leaders. Second, a desire for development in mind and character is instilled in students so they may assume the highest responsibilities of command, citizenship, and government. Finally, students are imbued with the highest ideals of duty, honor, and

loyalty in order to graduate with a basic professional background and motivation toward their careers.

The Military Science, Naval Science and Air Force Aerospace departments accomplish this mission through detailed courses of instruction occurring throughout a typical student's college career. All academic courses offered by these departments focus on the development of professional military skills and their application. Each department offers courses unique to its branch of the military. Students in Army ROTC classes gain an appreciation for ground warfare and doctrine, while the Naval Science program develops basic seamanship skills such as navigation and marine propulsion. The Air Force Aerospace Studies curriculum familiarizes students with Air Force structure and doctrine. On a broader scale, all three departments offer courses promoting leadership and sound management practices that investigate the military's role in American domestic and foreign policy, and can be employed in any career path.

Military Science, Naval Science and Air Force Aerospace courses are offered in the interdepartmental Military Studies program in the following participating departments: Military Science, Naval Science and Air Force Aerospace.

Undergraduate Study

Undergraduate study in this program provides the student with an opportunity to develop a minor in Military Studies. The three Iowa State University ROTC programs offer over 64 credits of specialized coursework. The minor in Military Studies is open to any Iowa State University student.

Undergraduate students may minor in Military Studies by taking 15 credits of coursework from a combination of any of the three ROTC programs - regardless of whether or not a commission in the Armed Forces is tendered. At least 6 of the 15 credits must be in courses numbered 300 or above.

Courses primarily for undergraduate students

Air Force Aerospace Studies - See Air Force Aerospace Studies.

AFAS 141. Foundations of the United States Air Force.
AFAS 142. Foundations of the United States Air Force.
AFAS 241. The Evolution of Air and Space Power.
AFAS 242. The Evolution of Air and Space Power.
AFAS 341. Air Force Leadership Studies.
AFAS 342. Air Force Leadership Studies.
AFAS 441. National Security Affairs and Preparation for Active Duty.
AFAS 442. National Security Affairs and Preparation for Active Duty.

Military Science - See Military Science.

M S 101. Introduction to Military Science
M S 102. Structure and Function of the U.S. Army
M S 201. Principles of Leadership and Communication Skills
M S 202. Map Reading and Land Navigation

Molecular, Cellular, and Developmental Biology

www.mcdb.iastate.edu

(Interdepartmental Graduate Major)

Program Executive Committee: Jeff Beetham, Chair; F. C. Minion Associate Chair; W. A. Miller, and James Reecy

Participating Faculty: J. Beetham, Chair; Ambrosio, Linda Anderson, Lloyd Andreotti, Amy Bartholomay, Lyric Bassham, Diane Bhattacharyya, Madan Baum, Thomas Beattie, Gwyn Becraft, Phil Beitz, Donald Bellaire, Bryan Birt, Diane Blitvich, Bradley Bogdanove, Adam Bonning, Bryony Brehm-Stecher, Byron Coffman, Clark Dobbs, Drena Ellinwood, Matthew Essner, Jeffrey Ford, Clark Hannapel, David Henderson, Eric Huiatt, Ted Johansen, Jorgen Johansen, Kristen Jones, Doug Jurenka, Russell Kanthasamy, Anumantha Lee, Michael Link, Charles Macintosh, Gustavo Martin, Richard McGrail, Maura Miller, Cathy Miller, W. Allen Minion, F. Chris Myers, Alan Nikolau, Basil Nilsen-Hamilton, Marit Nolan, Lisa K. Ourednik, Jitka Ourednik, Vaclav Peters, Reuben Petersen, Christine Phillips, Greg Powell-Coffman, Jo Anne Reecy, Jim Robson, Richard Ross, Jason Rowling, Matthew Sakaguchi, Donald Selsby, Joshua Schalinske, Kevin Schnable, Patrick Shin, Yeon-Kyun Shogren-Knaak, Michael Singh, Ravindra Spalding, Martin Tabatabai, Louisa Thornburg, Robert Tuggle, Christopher Vollbrecht, Erik Wang, Kan Whitham, Steve Wurtele, Eve Yang, Bing Yin, Yanhai Yu, Edward Zabotina, Olga Zhang, Qijing

Undergraduate Study

A special program in molecular, cellular, and developmental biology is not offered for the baccalaureate. Undergraduates wishing to prepare for graduate study in molecular, cellular, and developmental biology should elect courses in biochemistry, biology, genetics, microbiology; and mathematics through calculus; chemistry through organic; and one year of physics. Biol 313, 313L, 314, and 314L are recommended to undergraduates desiring an introduction to this area.

Graduate Study

Work is offered for the master of science and doctor of philosophy degrees with a major in molecular, cellular, and developmental biology in several cooperating departments: Agronomy; Animal Science; Biochemistry, Biophysics & Molecular Biology; Biomedical Sciences; Entomology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Horticulture; Physics & Astronomy; Plant Pathology; Veterinary Microbiology & Preventive Medicine; Veterinary Pathology. Facilities and qualified faculty are available in these departments for conducting fundamental research in the various aspects of molecular, cellular, and developmental biology. Ongoing research projects include molecular and cellular studies of viral, prokaryotic, plant, and animal systems.

Students may enter the MCDB major in one of two ways: they may apply to and be accepted into the major directly or they may formally apply to the major after being accepted by a participating department. Students admitted into MCDB will take MCDB 697 (Graduate Research Rotations) in their first two semesters and choose a major professor from the participating faculty by the end of their second semester. Students admitted by a department will choose a major professor from the participating faculty in that department. All Ph.D. students take a core curriculum consisting of the following courses: Molecular biology (MCDB 511, 520, or 545 or Micro 502 or MCDB 676 or V MPM 608). In seminar, students will make journal and research presentations and attend MCDB seminars. M.S. students take the above core but may delete either the molecular genetics, cell biology, or developmental biology component. Additional coursework is selected to meet departmental requirements and to satisfy individual student research interests. All graduate students are required to teach as part of their training for an advanced degree.

Students minoring in molecular, cellular, and developmental biology at the Ph.D. level must meet the following requirements: one year of biochemistry (BBMB 404, 405, or BBMB 501, 502; one course in each of two of the above three areas molecular biology (MCDB 511, 520, or 545 or Micro 502 or MCDB 676 or V MPM 608).

Courses primarily for graduate students

MCDB 511. Molecular Genetics. (Cross-listed with GDCB). (3-0) Cr. 3. S. *Prereq: Biol 313 and BBMB 405.* The principles of molecular genetics: gene structure and function at the molecular level, including regulation of gene expression, genetic rearrangement, and the organization of genetic information in prokaryotes and eukaryotes.

MCDB 512. Plant Growth and Development. (Cross-listed with GDCB, PlBio). (2-0) Cr. 2. S. *Prereq: Biol 330 or a course in developmental biology; GDCB 545 or BBMB 404, 405 or GDCB 520.* Plant growth and development and its molecular genetic regulation. Hormone biosynthesis, metabolism, and action. Signal transduction in plants.

MCDB 520. Genetic Engineering. (Cross-listed with GDCB, BBMB). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Gen 411 or BBMB 405.* Strategies and methods of gene cloning, restriction endonuclease mapping, southern hybridization, isolation and manipulation of plasmid DNA, and detection of specific genes in bacteria.

MCDB 528. Cellular Growth and Regulation. (Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: Courses in cell biology and BBMB 404, 405.* Cell cycle, regulation of cell growth, cell division, membranes, transport processes, and regulation of cellular activities.

MCDB 529. Plant Cell Biology. (Cross-listed with GDCB). (2-0) Cr. 2. F. *Prereq: Biol 313, 314, 330 or BBMB 405.* Organization, function, and development of plant cells and subcellular structures.

MCDB 533. Principles of Developmental Biology. (Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Biol 314.* Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in classical studies and current literature.

MCDB 545. Plant Molecular Biology. (Cross-listed with GDCB, PlBio). (3-0) Cr. 3. F. *Prereq: Biol 314, 330.* Organization and function of plant nuclear and organelle DNA; regulation of gene expression. Methods of generating novel genetic variation. Impact of plant biotechnology on agriculture.

MCDB 590. Special Topics. Cr. arr. Repeatable.

MCDB 640. Signal Transduction. (Cross-listed with GDCB, BBMB). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: GDCB 528, BBMB 404.* Mechanisms and components of cellular signal transduction including receptors, G-proteins, second messengers, protein phosphorylation, other post-translational protein modifications, and transcriptional regulation.

MCDB 676. Biochemistry of Gene Expression in Eucaryotes. (Cross-listed with BBMB). (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: BBMB 404 or 501, 405 or 502 or GDCB 511.* Analysis of the biochemical processes involved in expression of eucaryotic genes and the regulation thereof, including RNA polymerase, transcriptional regulatory proteins, enhancers and silencers, chromosome structure, termination, RNA processing, RNA transport, RNA turnover, translational regulation, protein turnover.

MCDB 697. Graduate Research Rotation. Cr. arr. Repeatable. F.S. Graduate research projects performed under the supervision of selected faculty members in the molecular, cellular, and developmental biology program.

MCDB 698. Seminar in Molecular, Cellular, and Developmental Biology. (Cross-listed with BBMB, GDCB, Micro, V MPM). (2-0) Cr. arr. Repeatable. F.S. Student and faculty presentations.

MCDB 699. Research. Cr. arr. Repeatable.

Music

www.music.iastate.edu

Michael Golemo, Chair of Department

Distinguished Professor (Emeritus): White

University Professor: David

Professors: Cox, Darlington, Prater, Rodde, Simonson, Stuart, Work, Zeigler

Professors (Emeritus): Bleyle, Brandt, Burkhalter, Drexler, Haug, Messenger, Molison, Swift, Vongrabow

Professor (Adjunct): Estes

Associate Professors: Bovinette, Creswell, Golemo, Larkin, Munsen, Schilling, Sturm, Sunderman, Tam

Associate Professors (Emeritus): Alcorn, Bjurstrom

Assistant Professors: Baker, Giles, Hopkins, Oakes

Assistant Professor (Emeritus): Waggoner

Assistant Professors (Adjunct): Bryden, Trenberth

Instructor (Collaborator): Foss

Senior Lecturers: Rodde, Smith, Tener

Lecturers: Conklin, Dell, Duckett, Foss, Giles, Grunmann, Heffernan, Kortenkamp, Lin, Schumacher, Steele, Zwick-Tapley

Undergraduate Study

The Department of Music offers a strong undergraduate music program, where students study with full-time faculty professionals in a supportive environment that encourages students to become their best.

The curriculum of the music department provides:

1. A comprehensive program of professional studies for students who wish to prepare for careers in music, including teaching, performance, and composition, and for students who plan to pursue graduate studies in music.

2. Courses in music literature, theory and areas of performance for all students, regardless of major.

The department embodies the land-grant philosophy of service to the people of the state with a faculty of active scholars, teachers, and artists committed to excellence in teaching, creative/scholarly work, and arts outreach. The department is an accredited institutional member of the National Association of Schools of Music (NASM).

The Theatre Program is administered by the Department of Music (see *Index, Theatre Courses*.)

Minor in Music. Candidates for the minor in music will complete 19 credits in music including:
a. 221 and 231
b. two of the following: 102, 120 or 302, 304, 383
c. four credits chosen from the following ensembles and applied music: 111, 113, 115, 141, 151, 161, 181, 321, 118, 318, 290F

At least 6 of the 19 credits must be in courses numbered 300 and above taken at ISU with a grade of C or better. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Students pursuing a music minor must meet the audition requirements and/or prerequisites for all courses they wish to take.

Minor in Music Technology. Candidates for the minor in music technology will complete 15 credits including:
a. eight credits: Music Technology Core—Music 246 (2 cr.), 346 (3 cr.), 446 (3 cr.)
b. seven credits from the following technology and music electives: Com S 107, 207, 208, 227, 228, 229, 309; Cpr E 329; E E 201, 224, 324, 424; M E 451; Phys 198; S E 319; Music 101 or 105, 102, 118, 120 or 302, 221, 222, 231, 232, 304, 318, 331, 332, 337, 338, 383, 384, 472, 490I, 593I.

Music majors may use the following music courses toward the music technology minor: 246, 346, 446, 490I, 590I.

Bachelor of Music students may not count Phys 198 in the Music Technology minor.

At least six of the fifteen credits must be taken at Iowa State University in courses numbered 300 or above with a grade of C or higher. The minor must include at least nine credits not used to meet any other department, college, or university requirement. Students pursuing a minor in music technology must meet the audition requirements and/or prerequisites for all music courses they wish to take.

Curricula Available to Music Majors

Students interested in pursuing an emphasis in music theater should see Index, Theater and Performing Arts.

Bachelor of Music

This curriculum leads to the degree bachelor of music. This degree is more specialized and contains fewer general education requirements than the bachelor of arts degree with a major in music. Students in this curriculum choose between options in education, performance, and composition. To obtain a bachelor of music degree, a student must earn a minimum of 124.5-146 credits (depending on the option chosen) including a minimum of 32 credits in residence at Iowa State University and a minimum of 45 advanced credits in courses numbered 300 or above and must meet all of the requirements specified below.

Courses taken on a pass/not pass basis may be counted toward the required total credits, and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement.

Cr. Degree Requirements

32 General Education Requirements
(Students choosing the music education option should consult their advisers regarding general education requirements)
- 6 Social sciences
- 6 Humanities
- 6 Music 383, 384
- 3 Phys 198
- 6 Mathematical, physical, and biological sciences
- 5 Electives

6.5-14.5 Other Requirements
- 6 Engl 150, 250 (average grade C- or better required)
- 0.5 Library 160
- 0-8 World language (one)

47 Music core
- 22 Music 120, 221, 222, 231, 232, 331, 332, 337, 338, 361
- 12 Music 119, 219, 319, 419
- 3 One of the following: Music 471, 472, 473, 475, 476
- 3 One of the following: Music 440, 446
- 7 Ensembles
- R 420

31-52.5 Area of concentration
(select one of the following options)

51.5-52.5 Music education - See Teacher Education Section of this catalog.

52.5 Vocal K-12 option
Music 248, 266, 327, 358A, 360, 362A, 366, 367, 417K, 417L, 465, 466, 480K (3.5 cr.); one of the following: Music 301 (3 cr.), Thtre 354, 355, 359; C I 204, 406, 426; Sp Ed 450

51.5-52.5 Instrumental K-12 option
Music 248, 266, 350, 351, 352, 353, 354, 355, 358B, 362B, 366, 368 or 490A (String pedagogy), 464, 466, 417K, 417L, 480K (3.5 cr.); C I 204, 406, 426; Sp Ed 450

31 Voice
- 2 Music 327
- 2 Music 119B, 119C, or 119K
- 8 Music 319A, 419A
- 6 Music 324, 325, 360
- 3 Music 440, or 446
- 2 Music 415A
- 8 Second world language

31 Piano
- 12 Music 119, 219, 319, 419
- 5 Music 321
- 5 Music 415B
- 2 Music 327
- 3 Music 440 or 446
- 4 Electives

31 Organ
- 4 Music 119B, 219B
- 8 Music 319C, 419C
- 5 Music 415C
- 3 Music 471, 472, 473, 475, or 476
- 3 Music 440, or 446
- 8 Second world language

31 String instruments
- 12 Music 119, 219, 319, 419
- 6 Music 181, 321
- 3 Music 440 or 446
- 4 Music 415D
- 6 Electives

31 Wind or percussion instrument
- 12 Music 119, 219, 319, 419
- 1-3 Music 351-352 or 353-354 or 355
- 3 Music 321
- 3 Music 440 or 446
- 4 Music 415
- 6-8 Electives

31 Composition
- 4 Music 290C
- 12 Music 490C
- 2 Music 246
- 4 Music 362A, 362B
- 6 From: Music 346, 440, 446, 490B, 490I
- 3 Electives

124.5-146 Total credits

Bachelor of Arts—Music Major

A more general degree than the bachelor of music, the bachelor of arts degree requires no formal specialization. It includes more general education requirements and provides a broader course of academic study.

For the undergraduate curriculum in Liberal Arts and Sciences, major in music, leading to the degree bachelor of arts, see Liberal Arts and Sciences, Curriculum.

Candidates for the degree bachelor of arts with a music major will normally complete 48 credits of music including the following required courses: 119, 120, 219, 221, 222, 231, 232, 319, 331, 332, 337, 338, 383, 384, 4 credits from: 111, 113, 115, 141, 151, 161, 181, 321.

Bachelor of arts students whose chief professional interest lies in research are encouraged to minor in world languages and cultures, history, literature, or philosophy.

General Requirements

Prior to being accepted as a music major, students are required to audition for applied faculty in their performance area (piano, organ, woodwinds, strings, percussion, brass, or voice), and must successfully demonstrate performance skills appropriate for college level instruction. Once accepted, a student must complete a placement examination in keyboard skills. This examination will be given by members of the departmental faculty during summer orientation, the week preceding the opening of classes for fall semester, or by appointment.

Seminars and Recitals. All music majors enrolled for applied music courses will attend a weekly 1-hour seminar in their areas and departmental recitals each semester.

Ensemble Requirement. All bachelor of music students must register for an ensemble course (111, 115, 141, 151, 161, 181, 113, 301, 321) each semester of full-time enrollment (except during student teaching). Students in a music education option must register for six semesters of large ensemble (111, 115, 141, 151, 161, 181) and one semester of chamber music ensemble (113, 161, 301, 321). Instrumental music education students may count one semester of 114A as a large ensemble. All full-time Bachelor of Music students in options other than music education must include among their ensembles at least two semesters of large ensemble (111, 115, 141, 151, 161, 181) and one semester of chamber ensemble (113, 161, 301, 321).

Continuation Examination. To be approved for continuation as a music major on the junior level, a student must pass a continuation examination taken normally at the end of the fourth semester. Before taking this examination, the student must fill out the requisite forms as well as write an essay including: (1) his/her personal goals, (2) a self-assessment of his/her progress thus far, and (3) an assessment of what he/she expects to accomplish before graduation.

The student taking the Continuation Examination performs for a Continuation Examination Committee. Requirements include the performance of three works representing different periods or styles selected by and studied with the applied teacher, a self-prepared piece, and sight reading. The student must display acceptable solo ability and performance techniques in at least one of the applied areas. A written evaluation will be given each student following his/her performance. This evaluation will include a candid assessment of the student's potential to achieve his/her goals.

In addition, the student may arrange to meet with members of the Continuation Examination Committee at a later date to discuss the results of his/her Continuation Examination.

All music majors must demonstrate proficiency in piano as a part of the continuation examination. Proficiency will normally be demonstrated by completing Music 228 or, for keyboard majors, by completing Music 327. The student must pass all parts of the continuation examination in order to enroll in Music 319 or 419, Applied Music. Details and forms available at: www.music.iastate.edu.

Graduation Proficiency. To be recommended for graduation, a music student should demonstrate to the music faculty mature acquaintance with performance styles, technique, and repertoire. All music majors will participate in departmental recitals to the satisfaction of the department. Candidates for the bachelor of music degree will present a graduation recital.

Communication Proficiency requirement: The department requires a grade of C– or better in each of Engl 150 and 250 (or 250H). In addition the Communication Proficiency must be certified through one of the following options:

1. Certification of writing skills, by the instructor, after completion of Music 120, 383, 384, 472, 473, or 475. (Passing one of these courses does not automatically satisfy the requirements for Communication Proficiency.)

2. Satisfactory completion of an advanced writing course (e.g., English 302, 305, or 314.)

Learning Outcomes and Assessment
Music graduates will understand and demonstrate: (1) Knowledge of music cultural heritage and history, (2) Appreciation for musical creativity, reasoning, and the aesthetic value of music, (3) Knowledge of organization and structures of music, (4) Analytical skills necessary for listening, performing, and teaching, (5) Skills necessary to perform music from a variety of periods, styles, and genres, (6) Necessary abilities to communicate ideas musically, verbally, and in writing, (7) Awareness of the diversity of musical ideas throughout the world's cultures, and (8) For Music Education students: success in meeting the ISU Teaching Standards as outlined by the University Teacher Education Program. Assessment measures include the continuation examination, graduating senior surveys and exit interviews, public performances, senior projects, course grades, teacher certification (for music education students), and the National Association of Schools of Music accreditation review.

Courses primarily for undergraduate students

Music 101. Fundamentals of Music. (1-2) Cr. 2. F.S. *Prereq: Ability to read elementary musical notation.* Notation, recognition, execution and analysis of scales, intervals, triads, and rhythm; key signatures; time signatures; transposition. Open to non-majors only.

Music 102. Introduction to Music Listening. (3-0) Cr. 3. F.S.SS. Expansion of the music listening experiences for the general student through greater awareness of differences in techniques of listening, performance media, and materials of the art. The course focuses on the elements of music: rhythm, melody, harmony, form, and style, and how these elements are used in musics of different cultures and time periods. Ability to read or perform music not required.

Music 105. Basic Musicianship. (1-4) Cr. 3. S. *Prereq: Performing arts major classification.* Beginning keyboard techniques, sight-reading, and ear training. Basic materials of music: notation, scales, intervals, key signatures, time signatures, rhythm, and harmony.

Music 111. Wind Ensemble. (0-3) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition.* Emphasis on significant extended compositions for wind and percussion instruments. Performances include formal concerts on campus and the annual tour.

Music 112. Concert Band. (0-2) Cr. 1. Repeatable. F.S. *Prereq: Open to all students who have performed on a wind or percussion instrument in high school band or orchestra.* Repertoire includes the broad spectrum of band music. Two concerts are presented each semester.

Music 113. Jazz Ensemble. (0-2) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition.* Designed to explore various styles and trends in contemporary jazz.

Music 114. Marching and Pep Bands. (0-5) Cr. 1. Repeatable.
A. Marching Band.
F. Membership determined by audition and band application. Auditions held for woodwind, brass, percussion, flag, and twirler positions. Presentation of pre-game and half time shows at each home football game; additional performances are also scheduled on and off campus. Audition information is listed on the band website (www.music.iastate.edu/org/marching).
B. Pep Band.
S. Prereq: Students selected by audition from current members of 114A. Performances at basketball games.

Music 115. Symphonic Band. (0-3) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition.* Stresses high quality wind literature. Performances include formal concerts on campus.

Music 118. Applied Music: Non-majors. (0.5-0) Cr. arr. Repeatable. F.S.SS. *Prereq: Audition, permission of instructor.* (.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

Music 119. Applied Music: Majors. (0.5-2) Cr. arr. Repeatable. F.S.SS. *Prereq: Audition, permission of instructor; restricted to music majors.* (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

Music 120. Introduction to Music Literature and Styles. (3-0) Cr. 3. S. *Prereq: 221.* Directed studies via aural analysis for music majors with emphasis on the materials of music, form and aesthetic issues. Introduction to style and literature of the major performance media in context of historical chronology. Fundamentals of score reading and performance terminology. Only one of Music 120 and 302 can count toward graduation.

Music 127. Class Study in Piano I. (0-2) Cr. 1. F.S. *Prereq: 101 or audition, and permission of instructor.* Beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills.

Music 128. Class Study in Piano II. (0-2) Cr. 1. F.S. *Prereq: 127 or audition, and permission of instructor.* Continuation of beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills.

Music 131. Vocal Jazz Ensemble: "Off the Record". (0-2) Cr. 1. Repeatable. *Prereq: Open by audition and permission of instructor; concurrent enrollment in one of the following: 141, 151, 161.* Small mixed chorus specializing in advanced vocal jazz techniques. Performances on and off campus.

Music 133. Basic Voice Techniques. (0-2) Cr. 1. Repeatable. F.S. *Prereq: Permission of instructor.* Class study in voice. Techniques of vocal production: respiration, phonation, resonation, articulation, and performance.

Music 141. Lyrica Women's Choir. (0-3) Cr. 1. Repeatable. F.S. *Prereq: Open to all female students by audition.* Large chorus; emphasis on fundamental vocal and choral skills, wide variety of literature. Campus concerts each semester.

Music 151. Oratorio Chorus. (0-3) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition.* Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.
A. Cantamus Women's Choir
B. Statesmen Men's Choir

Music 161. Iowa State Singers. (0-5) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition.* Concert choir specializing in performance of advanced music literature, Renaissance through contemporary. Campus concerts, annual spring tour.

Music 181. Symphony Orchestra. (0-4) Cr. 1. Repeatable. F.S. *Prereq: Open to all students by audition.* Reading, preparation, and performance of standard repertoire. Five or six concerts annually plus occasional off-campus appearances.

Music 219. Applied Music: Majors. (0.5-2) Cr. arr. Repeatable. F.S.SS. *Prereq: Audition, permission of instructor; restricted to music majors.* (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

Music 221. Introduction to Music Theory. (3-0) Cr. 3. F. *Prereq: Music major status or permission of instructor; concurrent enrollment in 222 recommended.* Fluent identification and application of the elements of music and music notation. The study of two-voice species counterpoint as an introduction to voice-leading principles in common practice period music.

Music 222. Introduction to Aural Theory and Music Technology. (0-4) Cr. 2. F. *Prereq: Music major status or permission of instructor; concurrent enrollment in 221 recommended.* Aural discrimination of musical elements and patterns as demonstrated by proficiency in ear training, sight singing, and related musicianship skills. Introduction to technological equipment and software used in the study of music.

Music 227. Class Study in Piano III. (0-2) Cr. 1. F.S. *Prereq: 128 or audition and permission of instructor.* Intermediate keyboard technique, transposition, harmonization, improvisation, repertory, and sight-reading skills. Introduction to score reading, hymn playing, and accompanying at the piano.

Music 228. Class Study in Piano IV. (0-2) Cr. 1. F.S. *Prereq: 227 or audition and permission of instructor.* Continuation of intermediate keyboard technique, transposition, harmonization, improvisation, repertory, score reading, hymn playing, and accompanying at the piano.

Music 231. Materials of Music I. (3-0) Cr. 3. S. *Prereq: 221.* Harmonic, melodic, and rhythmic materials of the common practice period. Application of these materials in analysis and writing. Techniques of melodic construction, formal design, and harmonization.

Music 232. Aural Theory I. (0-3) Cr. 1. S. *Prereq: 222.* Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the common practice period.

Music 246. Introduction to Music Technology. (2-0) Cr. 2. F.S. *Prereq: 101, 105, or 221, or permission of instructor.* Introduction to audio and MIDI in music and media applications, fundamentals of digital audio editing and mixing, software-based musical arrangements and composition.

Music 248. Technology in Music Instruction. (2-0) Cr. 2. S. *Prereq: 221 and 222.* Introduction to computer software applications used in musical arrangements and presentations, practical introduction to audio and MIDI technologies in lab-based music instruction, basic recording/sound reinforcement and music website management. Intended for Music Education Majors

Music 265. Music in Elementary Education. (3-0) Cr. 3. F.S. *Prereq: HD FS 226 or Psych 230.* Experiencing and understanding the fundamentals of music through singing, playing classroom instruments, body movement, reading notation, listening, and creative activities. Developing lesson plan strategies and sequence, exploring multicultural musics, integrating music with other subjects in the elementary classroom, and evaluating aspects of musical learning.

Music 266. Introduction to Music Education. (1-2) Cr. 2. F. *Prereq: Concurrent enrollment (.5 cr.) in 480K.* Required for second-year majors in music education. Historical, philosophical, and social foundations of music education; music curricula overview including goals of the music program, and contemporary and international curriculum development; psychology of teaching music including discipline techniques. Preparation for required observations in area schools.

Music 290. Special Problems. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor; 12 credits in music, approval of department head.*
A. Education
B. Theory
C. Composition
D. History
E. Literature
F. Applied Music
G. Conducting
H. Honors

Music 301. Opera Studio. Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor.* Study of selected opera scenes, chamber operas, and works from contemporary and classical music theater. Basic stagecraft, role interpretation, production.
A. Opera/Operetta
B. Music Theater

Music 302. The History of Music in Western Culture. (3-0) Cr. 3. S. *Prereq: 102.* Study of the evolution of music styles through history with emphasis on listening. Primarily European music with some non-Western music providing a global perspective. Individual composer's unique approaches to timbre, texture, rhythm and melody. General trends in the progress of style and form. Concert reports and papers in addition to examinations. Ability to read music recommended, but not required. Open to non-majors only. Only one of Music 120 and 302 can count toward graduation.

Music 304. History of Rock 'n' Roll. (3-0) Cr. 3. S. *Prereq: 101, 102, 221, or 222.* Rock 'n' Roll from the mid 1950s through the 1990s, focusing on the development of rock styles from its roots in blues, folk, country, and pop. Expansion of listening experience through study of song forms, musical instruments of rock, and the socio-political significance of song lyrics. Examinations, research paper or in class presentation required. Ability to read or perform music not required.

Music 318. Applied Music: Non-majors. (0.5-0) Cr. arr. Repeatable. F.S.SS. *Prereq: Audition, permission of instructor.* (.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

Music 319. Applied Music: Majors. (0.5-2) Cr. arr. Repeatable. F.S.SS. *Prereq: Audition, permission of instructor; restricted to music majors.* (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

Music 321. Advanced Ensemble. (0-3) Cr. 1. Repeatable. F.S. *Prereq: Advanced proficiency and performing ability, permission of instructor.* Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.
A. Voice
B. Piano
C. Organ
D. Strings
E. Musica Antiqua
F. Woodwinds
G. Brass
I. Percussion
J. Mixed

Music 324. English and Italian Diction for Singing. (2-0) Cr. 2. Alt. F., offered 2010. *Prereq: Credit or enrollment in 118A or 119A.* The international phonetic alphabet and its application to correct pronunciation of English and Italian in singing.

Music 325. French and German Diction for Singing. (2-0) Cr. 2. Alt. S., offered 2011. *Prereq: Credit or enrollment in 118A or 119A.* The international phonetic alphabet and its application to correct pronunciation of French and German in singing.

Music 327. Functional Piano. (0-3) Cr. 2. S. *Prereq: 228 or audition and permission of instructor.* Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.
A. Keyboard majors.
B. Vocal/choral majors.

Music 331. Materials of Music II. (3-0) Cr. 3. F. *Prereq: 231.* Harmonic, melodic, and rhythmic materials of the common practice period. Application of these materials in analysis and writing. Techniques of melodic construction, formal design, and harmonization.

Music 332. Aural Theory II. (0-2) Cr. 1. F. *Prereq: 232.* Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the eighteenth and nineteenth centuries.

Music 337. Materials of Music III. (3-0) Cr. 3. S. *Prereq: 331.* Writing and analysis based on musical styles since 1900.

Music 338. Aural Theory III. (0-2) Cr. 1. S. *Prereq: 332.* Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the nineteenth and twentieth centuries.

Music 346. MIDI and Digital Audio Techniques. (3-0) Cr. 3. S. *Prereq: 246 or permission of instructor.* MIDI theory and programming applications, sampling/synthesis control, digital signal processing techniques. Composition projects using integrated audio/MIDI sequencing applications. Nonmajor graduate credit.

Music 350. Instrumental Techniques: Strings. (0-2) Cr. 1. F. *Prereq: Concurrent enrollment in 358B. Limited to music majors.* Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

Music 351. Instrumental Techniques: Clarinet, Flute, Saxophone. (1-2) Cr. 2. S. *Prereq: Concurrent enrollment in 358B. Limited to music majors.* Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

Music 352. Instrumental Techniques: Oboe, Bassoon. (0-2) Cr. 1. F. *Prereq: 351 or permission of instructor. Concurrent enrollment in 358B. Limited to music majors.* Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

Music 353. Instrumental Techniques: Trumpet, Horn. (0-2) Cr. 1. S. *Prereq: Concurrent enrollment in 358B. Limited to music majors.* Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

Music 354. Instrumental Techniques: Trombone, Baritone, Tuba. (0-2) Cr. 1. F. *Prereq: 353 or permission of instructor. Concurrent enrollment in 358B. Limited to music majors.* Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

Music 355. Instrumental Techniques: Percussion. (0-2) Cr. 1. S. *Prereq: Concurrent enrollment in 358B. Limited to music majors.* Techniques and skills required to teach percussion instruments in the schools. Techniques for performing and teaching snare drum, keyboard percussion instruments, timpani, band and orchestral hand instruments, drum set, and Latin percussion. Intended for instrumental music education students.

Music 356. Instrument Maintenance and Repair. (0-2) Cr. 1. *Prereq: Permission of instructor. Limited to music majors.* Techniques and skills required for basic maintenance and repair of wind and percussion instruments. Examination of commercial repair methods and facilities. Intended for instrumental music education students.

Music 358. Lab Ensemble. Cr. R. Repeatable. Review and selection of appropriate literature for ensembles of differing levels and abilities; conducting and rehearsal experience.
A. Choral. F., Alt. S., offered 2009. Sight singing, conducting, and accompanying experience in conjunction with 362
A. Required of all vocal music education majors in every semester offered.
B. Instrumental. F. S. Performance on secondary instruments. Includes experiences with singing and vocal techniques. Required of all instrumental music education majors in those semesters when enrolled in 350, 351, 352, 353, 354, 355, or 362B.

Music 360. Voice Pedagogy. (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: 319A or vocal proficiency examination.* Physical, acoustical, and musical properties of the vocal instrument, including a survey of important texts and articles on singing and voice production.

Music 361. Conducting I. (1-2) Cr. 2. F. *Prereq: 231, 232.* Introduction to conducting; score reading and analysis. Conveying musical ideas through appropriate gestures. Leadership role of the conductor.

Music 362. Conducting II. (1-2) Cr. 2.
A. Choral techniques. Alt. S., offered 2011. Prereq: Concurrent enrollment in 358A and 141, 151, or 161. Advanced baton technique, score preparation and interpretation of choral repertoire.
B. Instrumental techniques. S. Prereq: Concurrent enrollment in 358B. Advanced baton technique. Score preparation. Specific problems of large instrumental ensembles.

Music 366. Methods of Music Education. (2-0) Cr. 2. F. *Prereq: Concurrent enrollment in 480K and Sp Ed 450; 266 and admission into teacher education..* Music education strategies and materials including development of appropriate objectives and plans for general music classes utilizing traditional and multicultural musics, evaluating musical learning; overview of Orff Schulwerk, Kodaly, and Dalcroze approaches; music in special education; required teaching in lab settings and observations in area schools.

Music 367. Choral Literature. (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: 361 recommended.* Overview of choral repertoire from the sixteenth century to the present, including accessible works for the young conductor.

Music 368. Marching Band and Jazz Ensemble Techniques. (2-0) Cr. 2. Alt. S., offered 2011. *Prereq: Credit or enrollment in 362B recommended.* Techniques and materials for teaching marching band in the high school; philosophy, computer assisted drill design, music analysis, band set up, and other related skills. Jazz style, articulation, phrasing, materials and teaching techniques for secondary school jazz ensembles.

Music 383. History of Music I. (3-0) Cr. 3. F. *Prereq: 120.* History of the stylistic and cultural development of music: Middle Ages through Baroque.

Music 384. History of Music II. (3-0) Cr. 3. S. *Prereq: 383.* History of the stylistic and cultural development of music: Classical through contemporary music.

Music 415. Literature and Pedagogy in Applied Music. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.* Includes experience in technology relative to the particular discipline.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
J. Jazz Pedagogy and Performance

Music 417. Student Teaching. (Cross-listed with C I). Cr. arr. F.S. *Prereq: Admission to teacher education, approval of coordinator during semester before student teaching.* Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.
K. Music - Secondary
L. Music - Elementary

Music 419. Applied Music: Majors. (0.5-2) Cr. arr. Repeatable. F.S.SS. *Prereq: Audition, permission of instructor; restricted to music majors.* (.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

Music 420. Junior/Senior Recital. Cr. R. Repeatable. F.S.SS. *Prereq: Advanced performing ability, permission of instructor, concurrent registration in Music 319 or 419..* Performance of advanced repertory in a public concert. Preparation of program notes. Satisfactory-fail only.

Music 440. Seminar in Music Theory. (3-0) Cr. 3. Repeatable. S. *Prereq: 337, 338.* Various topics in music theory including analysis, counterpoint, arranging, pedagogy, and psychology of music. Content will vary. Contact the Department of Music for the current year offering. Nonmajor graduate credit.

Music 446. Electronic Music Synthesis. (3-0) Cr. 3. F. *Prereq: 246 or permission of instructor.* Techniques of digital sound synthesis, software synthesizer design, and electronic music composition. Nonmajor graduate credit.

Music 464. Instrumental Administration, Materials, and Methods. (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: Credit or enrollment in 362B recommended.* Instructional materials and methods appropriate for teaching instrumental music in elementary, middle school, and high school music programs. Required observations in area schools. Intended for instrumental music education students.

Music 465. Choral Materials and Methods. (2-0) Cr. 2. F. *Prereq: Concurrent enrollment in 358A and 141, 151, or 161.* Instructional materials and methods appropriate for teaching choral music in the secondary school. Emphasis on pedagogy and rehearsal techniques. Required observations in area schools. Intended for vocal music education students.

Music 466. Program Development and Evaluation in Music Education. (2-1) Cr. 2. F. *Prereq: Continuation Examination passed; 362, 366, concurrent enrollment (1 cr.) in 480K..* Developing a rationale for music education; music program development; evaluation of music curricula, programs and facilities; professional growth of the teacher; preparation for student teaching and the job market. Required observations in area schools.

Music 471. The Tones of Florence - A Study of Humanism. Cr. 3. SS. *Prereq: Application through the Study Abroad Program; interview with instructor; sophomore classification.* A survey of the masterpieces of music, literature, painting, sculpture, architecture, mathematics and theology that made Florence the major European center of humanism in the Renaissance.

Music 472. History of American Music. (3-0) Cr. 3. *Prereq: Ability to read music; 9 credits from music, American literature, American history, art history.* Offered F. 2010. History and development of the sacred and secular music in North America from approximately 1600 to the present, exploring the diverse cultural backgrounds that have contributed to the variety of contemporary musical styles. Nonmajor graduate credit.

Music 473. Music of the Baroque and Classical Eras. (3-0) Cr. 3. *Prereq: 383, 384.* Detailed survey of instrumental, vocal, choral, and keyboard music from 1600 to 1825. Nonmajor graduate credit.

Music 475. Music of the Romantic Era. (3-0) Cr. 3. *Prereq: 383, 384.* Offered F. 2009. Detailed survey of instrumental, vocal, choral, and keyboard music from 1825 to 1910. Nonmajor graduate credit.

Music 476. Music of the Twentieth Century. (3-0) Cr. 3. *Prereq: 383, 384.* Offered S. 2010. Detailed survey of instrumental, vocal, choral, and keyboard music from 1900 to the present. Nonmajor graduate credit.

Music 480. Field Experience for Secondary Teaching Preparation. (Cross-listed with C I). Cr. arr. Repeatable. F.S. *Prereq: Permission of area coordinator required prior to enrollment.* Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.)
K. Music

Music 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor; 12 credits in music, approval of department head.*
A. Education (Same as C I 490A)
B. Theory
C. Composition
D. History
E. Literature
F. Applied Music
G. Conducting
H. Honors
I. Electronic Music

Courses primarily for graduate students, open to qualified undergraduate students

Music 590. Special Topics. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor, approval of department head.*
A. Education
B. Theory
C. Composition
D. History
E. Literature
F. Applied Music
G. Conducting
I. Electronic Music

Music 593. Workshops. Cr. arr. Repeatable.
A. Foundations of Music Learning
B. Music in Early Childhood
C. Junior High School Music Programs
D. Instrumental Teaching Techniques
E. Research in Music Education
F. Vocal/Choral Teaching Techniques
G. General & Contemporary Music Methodologies
I. Music and Technology

Natural Resource Ecology and Management

Richard Hall, Interim Chair of Department

University Professors (Emeritus): Atchison, Hinz, McNabb

Professors: Colletti, Hall, Harrington, Jungst, Payne, Schultz

Professors (Emeritus): M. Bachmann, R. Bachmann, Best, Countryman, J. Dinsmore, Hart, Klaas, Manwiller, Menzel, Moorman, Prestemon, Summerfelt, Wray

Professors (Collaborators): Brandle, Burger, Engle, Isebrands, Otis

Associate Professors: Asbjornsen, S. Dinsmore, Fairbanks, Isenhart, Kuo, Morris, Rule, Thompson

Associate Professors (Emeritus): Pease

Associate Professors (Collaborators): Deutsch, Guntenspergen, Manson, Palik, Rickenbach, Tomer

Assistant Professors: Blanchong, Kim, Quist, Randall, Schulte, Stewart, Tyndall

Assistant Professors (Adjunct): Harris, McMullen, Merrick, Pritchard, Roe

Assistant Professors (Collaborators): Koford, Kolka, Miller, Negreros-Castillo, Pierce, Thogmartin, Westphal

Senior Lecturer: Stokke, Wiersema

Lecturer: O'Brien

The department addresses a broad spectrum of natural resource and environmental issues in a holistic approach to learning, discovery and engagement. Our vision of natural resources is that informed protection and management of natural resources involves an integration of biological, economic, and social considerations. Such an integrated and comprehensive approach to the education of future generations of natural resource managers and scientists is needed in order to sustain viable landscapes, facilitate strong communities, and produce desired goods, services, and functions from our natural resources.

Our educational mission for the undergraduate and graduate programs is to provide those learning experiences and opportunities that will ensure students can learn to function effectively in their chosen fields.

Central to that effective functioning are the abilities to:

Identify, explain and critically evaluate their own beliefs, values and actions in relation to professional and societal standards of ethics.

Anticipate, analyze and evaluate natural resource issues and opportunities, explaining the ecological, economic, and social consequences of natural resource actions at various scales and over time.

Actively seek the input and perspectives of diverse stakeholders regarding natural resource problems and issues.

Assess, analyze, synthesize, and evaluate information fairly and objectively.

Work effectively, both individually and with others, on complex, value-laden natural resource problems that require holistic problem solving approaches.

Formulate and evaluate alternative solutions to complex problems and recommend and defend best alternatives.

Communicate clearly and effectively with all audiences using appropriate oral, visual, electronic, and written techniques.

Recognize and interpret resource problems and opportunities across spatial scales from local to global.

Appreciate cultural diversity and understand the impact of the global distribution of people and wealth on natural resource use and valuation.

Exercise leadership skills as professionals and engaged citizens.

Demonstrate creativity and innovation in identifying and pursuing opportunities that produce environmental, social, or economic value.

Exercise life-long learning skills developed before graduation.

Undergraduate Study

The Department of Natural Resource Ecology and Management offers work for the bachelor of science degree with majors in animal ecology or forestry (see College of Agriculture and Life Sciences, Curricula). The department participates in interdisciplinary programs in biology, environmental studies, international studies, and pest management. By proper selection of free and restricted elective courses, students can obtain a minor or a second major in these programs or other disciplines.

The Department provides numerous scholarships; application information is available in the departmental Student Services Center.

Animal Ecology (A Ecl)

The animal ecology curriculum provides its majors with an understanding of ecological principles and processes and their applications to natural resource management. It is oriented toward students desiring a general and flexible program in environmental biology and for those planning graduate study. Students may select from five options: Aquatic Sciences, Fisheries, Interpretation of Natural Resources, Preveterinary and Wildlife Care, or Wildlife. Graduates find employment as aquaculturists, aquatic ecologists, wildlife biologists, fisheries biologists, resource managers, and ecologists for industry, environmental consulting firms, natural resource and environmental agencies and organizations, zoos, and as educators.

Graduates of the Animal Ecology major understand the basic principles of animal biology, ecology and management, and relevant aspects of scientific communication, basic mathematics and sciences, computing applications, and personal and professional development. Five specific options prepare students for careers in aquatic sciences, fisheries, wildlife, interpretation of natural resources, wildlife care and veterinary sciences. Each option has specific outcomes expectations that include (1) the scope of the specialization and its relationships to broader aspects of animal ecology, biotic resource management, and other allied scientific disciplines and professions, (2) career opportunities and requirements, and (3) knowledge and skills appropriate for employment at technical and practitioner levels in each discipline. Graduates are able to communicate and work effectively in the multidisciplinary arena of ecology and natural resource management.

All options require three months of relevant work experience or study at a biological station prior to graduation. The latter may be accomplished at the university's affiliate field stations: Iowa Lakeside Laboratory at West Lake Okoboji, and Gulf Coast Research Laboratory at Ocean Springs, Mississippi. Information on these laboratories is available from the department's Student Services Center.

Preveterinary medicine preparation may be achieved while satisfying degree requirements in animal ecology.

Additional education and training can lead to other opportunities in such areas as research and management, natural resources planning and administration, teaching, and environmental consulting, among others. Graduate training is necessary for many specialized positions within the fields of animal ecology. Majors preparing for graduate study should consult with their academic adviser concerning appropriate coursework.

Students seeking certification to teach biology in secondary schools must meet requirements of the College of Human Sciences as well as those of the Animal Ecology curriculum. In addition, they must apply formally for admission to the teacher education program (see Index, Teacher Education Program). Students with an interest in careers in outdoor writing are encouraged to obtain a minor or a second major in journalism (see Index, Journalism and Communication, Courses and Programs). Students who wish to pursue a job as a conservation officer may wish to minor in criminal justice (see Index, Criminal Justice Studies).

The department offers a minor in animal ecology that may be earned by taking 15 credits in the department including 312, 365, NREM 120, plus four additional credits of Animal Ecology courses at the 300 level or above.

Forestry (For)

The forestry curriculum offers courses dealing with the management of forest ecosystems for multiple benefits including wood and fiber products, biodiversity, recreation, water, wilderness, and wildlife. Conservation and preservation of natural resources are emphasized. The department offers work for the bachelor of science degree with a major in forestry and options in forest ecosystem management, interpretation of natural resources, urban and community forestry, natural resource conservation and restoration, or sustainable materials science and technology. All options lead to a professional degree in

forestry (Bachelor of Science). The forestry major has been accredited by the Society of American Foresters (SAF) since 1935. The Council for Higher Education Accreditation recognizes SAF as the specialized accrediting body for forestry education in the United States. The primary goal of the undergraduate curriculum in forestry is to educate foresters to be capable of scientifically managing the nation's forest lands and related ecosystems - private and public.

Graduates understand and can apply scientific principles associated with forests, forest ecosystem management, and wood and non-wood products. Graduates are able to communicate effectively and work well in teams. They are capable of preparing and delivering effective oral and written communication of scientific and technical decisions to professional and lay audiences. They are proficient in technical skills such as measurements, computer usage, inventory, economic analysis, data and situation analysis, and ecosystem assessment. They recognize the importance of ethics in forestry and are sensitive to cultural diversity and broad environmental concerns.

Graduates of the forest ecosystem management option are skilled at understanding how forests function and how forests can be managed to produce desired goods (wood, fiber, recreation, wildlife habitat) and services (clean water, carbon sequestration, wilderness) in the long-run. They are skilled at interpretation of interactions and effects of abiotic and biotic factors in forests and quantification of bio-physical, social, and economic outputs from forest ecosystems. They are skilled at complex decision-making involving private and public forest resources where ethical, legal, social, economic, and ecological dimensions are explicitly considered.

Graduates of the interpretation of natural resources option are skilled at communicating with the public about the values associated with forest ecosystems and providing educational programs for all ages.

Graduates of the urban and community forestry option are able to combine biological, social, legal, and economic expertise to effectively manage trees or forests in an urban setting. They are skilled at decision-making related to site assessment, and long-term management of urban trees and forests to achieve multiple goals.

Graduates of the natural resource conservation and restoration option are skilled at assessing the natural functions of the environment and human impacts. They are skilled at interpretation of forest and other natural environments and making decisions relating to their conservation and preservation.

Graduates of the sustainable materials science and technology option understand the anatomical, physical, and chemical properties of wood and other bio-renewable materials and know wood processing operations involved in drying, composite materials manufacturing, and chemical treatment.

Elective courses related to the forest ecosystem management option can be selected to emphasize forest ecology; wildlife, wilderness, and recreation management; water quality and erosion protection; quantitative-analytical techniques; business and marketing; and other areas related to natural resource management. Elective courses in the urban and community forestry option can be selected to emphasize plant health, policy and planning, ecology, hydrology, sociology, business administration, or horticulture/design. Elective courses related to the natural resource conservation and restoration option can be selected to emphasize, ecology, wildlife, recreation, nature interpretation, landscape design, sociology and ethics of conservation and preservation. Similarly, elective courses in the sustainable materials science and technology option can be selected to emphasize wood production, bio-renewable materials, wood fiber, business and marketing, and quality assurance. Elective courses in the interpretation of natural resources option can be selected to emphasize natural history, animal ecology, and environmental education.

Many private firms as well as national, regional, state, and local agencies seek forestry graduates to fill positions in management of natural resources for commodity and non-commodity multiple benefits. Graduates in forestry are prepared to be involved with evolving forestry systems, such as agroforestry and urban forestry. Wood processing industries, such as composite products, plywood, particle board, lumber, and pulp and paper offer professional opportunities in production, product development, quality control, and marketing.

With advanced graduate study, the range of professional job opportunities for a person with a B.S. in forestry is expanded. Opportunities include research and education as well as more specialized managerial and administrative positions with private firms and public agencies.

During fall semester of the second year of study (sophomore year, typically), forestry students are required to enroll in the department's integrated forestry modules consisting of 201, 202, 203, 204, 205, and 206. That semester, consisting entirely of forestry coursework, is designed to give students an early understanding of the many aspects of forestry and how they are interrelated. In addition to work in the classroom, students will spend time in laboratory and field work each week. A 3-week off-campus fall camp during the semester will reinforce concepts learned both in the classroom and during laboratory/field sessions. Transfer students should check with the department for counsel on timing their completion of the integrated forestry modules.

The department offers a minor in forestry which can be earned by completion of a minimum of 15 credits in forestry courses. Students wishing to emphasize management and environmental aspects of forestry must select at least 15 credits from the following courses: 302, 356, 451, NREM 120, 301, 345, 390, 407, and 472. Students wishing to emphasize wood products and wood utilization must complete 280 and an additional 12 credits from the following courses: 480, 481, 483, 485, 486, 487, and 490B.

Graduate Study

The Department of Natural Resource Ecology and Management offers work for the degrees master of science and doctor of philosophy with majors in fisheries biology, forestry, and wildlife ecology. A non-thesis masters degree is available for students desiring a general degree program without thesis research. Students may also major in interdepartmental graduate majors in biorenewable resources technology, ecology and evolutionary biology, environmental science, genetics, plant physiology, sustainable agriculture, or toxicology (see Index). All students are required to teach and conduct research as part of their training for the Ph.D. degree.

Fisheries Biology and Wildlife Ecology

Graduates have a broad understanding of the basic principles of animal biology, ecology and management, and relevant aspects of basic mathematics and natural sciences, computing applications, and personal and professional development. They are able to execute rigorous independent research, have developed problem-solving and critical-thinking skills, and can communicate effectively with scientific colleagues and the general public in both formal and informal settings.

Personnel of the U.S. Geological Survey's Iowa Cooperative Fish and Wildlife Research Unit contribute significantly to the graduate program of the department through teaching and research. Governmental agencies such as the U.S. Fish and Wildlife Service, Natural Resources Conservation Service and the Iowa Department of Natural Resources, and non-governmental agencies such as The Nature Conservancy and the Iowa Natural Heritage Foundation also contribute to the graduate program by funding research, providing in-kind support, and providing numerous formal and informal mentoring relationships.

No more than two dual-listed animal ecology courses may be applied for major graduate credit. Additional work is expected of students taking a dual-listed course for credit at the 500 level.

Forestry

The department offers programs leading to the degrees of master of science and doctor of philosophy with a major in forestry and minor work to students taking major work in other departments.

Graduates are skilled at defining a research problem in forestry, applying scientific principles and appropriate methods, and analyzing the results. They are capable of understanding the many facets of forest and wood science and are very knowledgeable in specific areas in forestry. They are able to deal with complex forestry problems, and where appropriate, they are capable of blending ecological, social, ethical, legal, and economic factors in the research process. They are very skilled at communicating, both in written and oral form, research results to professional and lay audiences. They are sensitive to cultural diversity and work effectively with peers, natural resource professionals, and the public.

The graduate program is open to, and suitable for, students who have majored in forestry or related natural resource fields. A non-thesis master's option is available.

The department participates in the Masters in Business Administration (M.B.A.), with specialization in the agriculture program administered by the College of Business, providing an opportunity to obtain an M.B.A. degree while taking advanced courses in forestry and maintaining contact with the profession of forestry.

Animal Ecology (A Ecl)

Courses primarily for undergraduate students

A Ecl 312. Ecology. (Cross-listed with Biol, EnSci). (3-3) Cr. 4. F.SS. *Prereq: Biol 211L and 212L.* Fundamental concepts and principles of ecology dealing with organisms, populations, communities and ecosystems. Laboratory and field exercises examine ecological principles and methods as well as illustrate habitats.

A Ecl 312l. Ecology. (Cross-listed with Ia LL, EnSci). Cr. 4. SS. An introduction to the principles of ecology at the population, community and ecosystem level. Field studies of local lakes, wetlands and prairies are used to examine factors controlling distributions, interactions, and roles of plants and animals in native ecosystems.

A Ecl 321. Fish Biology. (2-3) Cr. 3. S. *Prereq: 365.* Biology, ecology, and evolution of fishes. Emphasis on structure, physiology, and behavior, including a focus on the conservation and management of fishes and their habitats. Laboratory focus on fish morphology, survey methods, identification, distribution, habits, and habitats of fishes.

A Ecl 326l. Ornithology. (Cross-listed with Ia LL). Cr. 4. SS. The biology, ecology, and behavior of birds with emphasis on field studies of local avifauna. Group projects stress techniques of population analysis and methodology for population studies.

A Ecl 365. Vertebrate Biology. (Cross-listed with Biol). (3-2) Cr. 4. F. *Prereq: Biol 212, 212L.* Evolution, biology, and classification of fish, amphibians, reptiles, birds, and mammals. Emphasis on a comparative analysis of the structure and function of organ systems. Laboratory exercises concentrate on morphology and identification of orders of vertebrates.

A Ecl 366. Natural History of Iowa Vertebrates. (2-3) Cr. 3. S. *Prereq: Biol 211, 211L, 212, 212L.* Vertebrate fauna of Iowa, including fishes, amphibians, reptiles, birds, and mammals. Species identification, habitat requirements, community structure and assessment, conservation issues that include historical population changes and value of wild animals to the region's ecological and economic health.

A Ecl 371. Ecological Methods. (Cross-listed with Biol). (2-2) Cr. 3. F. *Prereq: 312; Stat 101 or 104.* Quantitative techniques used in management of natural resources with emphasis on inventory and manipulation of habitat and animal populations. Nonmajor graduate credit.

A Ecl 401. Introductory Aquatic Animal Health and Medicine. (Cross-listed with B M S). (1-2) Cr. 1. S. 8 weeks. Introductory course with focus on fin fish production, health and medicine. Course content will help define future roles for veterinarians, producers, and service providers. Emphasis will be placed on anatomy, pathology, infectious diseases, nutrition, regulatory constraints in production, food safety, and current research. Field trip to aquaculture facility.

A Ecl 404l. Behavioral Ecology. (Cross-listed with Ia LL). Cr. 4. Alt. SS., offered 2010. *Prereq: Two semesters of biology.* Animal coloniality, courtship, territoriality, predator defense, habitat selection, foraging, mating systems, and parental care will be examined in the field in order to evaluate various ecological and evolutionary theories of animal behavior.

A Ecl 418. Stream Ecology. (Dual-listed with 518). (Cross-listed with EnSci). (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: 486.* Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

A Ecl 419l. Vertebrate Ecology and Evolution. (Cross-listed with Ia LL). Cr. 4. SS. Field and laboratory study of representative vertebrates of northwestern Iowa. Observations and experimentation emphasize ecological histories by integrating concepts of functional morphology, behavioral ecology, and evolutionary biology. Nonmajor graduate credit.

A Ecl 420l. Amphibians and Reptiles. (Cross-listed with Ia LL). Cr. 4. Alt. SS., offered 2010. *Prereq: Two semesters of biology.* Ecology, behavior, and conservation biology of amphibians and reptiles with emphasis on their anatomy and morphology; temperature and water regulation; locomotion; life history; reproduction; population and community ecology; and conservation.

A Ecl 425. Aquatic Insects. (Dual-listed with 525). (Cross-listed with Ent). (2-3) Cr. 3. Alt. S., offered 2011. *Prereq: Biol 312 or equivalent.* Courtney. Morphology, ecology, diversity, and significance of aquatic insects, with emphasis on the collection, curation and identification of taxa in local streams and lakes.

A Ecl 440. Fishery Management. (Dual-listed with 540). (2-3) Cr. 3. F. *Prereq: 312, 321, Stat 101 or 104; credit or enrollment in 441 and 486.* Biological basis of fishery management, fishery problems, and management practices for freshwater, anadromous, and marine fisheries.

A Ecl 441. Fisheries Techniques. (Dual-listed with 541). (2-3) Cr. 3. F. *Prereq: 321 and Stat 104.* Overview of field, laboratory, and analytical techniques associated with managing fisheries and aquatic resources. Specific topics include sampling design, fish and habitat sampling techniques, structural indices, age and growth, and biotelemetry.

A Ecl 442. Aquaculture. (Dual-listed with 542). (2-3) Cr. 3. Alt. S., offered 2010. *Prereq: 486, credit or enrollment in 321.* Concepts related to the culture of aquatic organisms including culture systems, water quality, nutrition, genetics, diseases, and marketing.

A Ecl 451. Wildlife Ecology and Management. (2-3) Cr. 3. F. *Prereq: 371.* Ecological theory and practice of wildlife management, including, population ecology, habitat management, and current issues in the field. Course involves a series of case studies addressing actual wildlife issues using field and quantitative methods. Nonmajor graduate credit.

A Ecl 455. International Wildlife Issues. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 365, 312 or graduate standing; NREM 120.* Biological, political, social, and economic factors affecting the management of international wildlife resources. Nonmajor graduate credit.

A Ecl 457. Herpetology. (Dual-listed with 557). (Cross-listed with Biol). (2-3) Cr. 3. F. *Prereq: A Ecl 365 or Biol 351.* Biology, ecology, and evolution of amphibians (salamanders, frogs, caecilians) and reptiles (lizards, snakes, tuatara, turtles, crocodilians). Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of amphibians and reptiles in ecosystems, and conservation. Laboratory focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

A Ecl 458. Ornithology. (Dual-listed with 558). (Cross-listed with Biol). (2-3) Cr. 3. S. *Prereq: A Ecl 365 or Biol 351.* Biology, evolution, ecology and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation. Laboratory exercises complement lecture topics, emphasize identification and distribution of Midwest birds, and include field trips.

A Ecl 459. Mammalogy. (Dual-listed with 559). (Cross-listed with Biol). (2-3) Cr. 3. S. *Prereq: Biol 351 or A Ecl 365.* Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation. Laboratory focus on identification, distribution, habits, and habitats of mammals.

A Ecl 480. Studies in Marine Biology. Cr. arr. Repeatable. SS. Courses taken at Gulf Coast Research Laboratory and other marine biological stations are transferred to Iowa State University under this number.

A Ecl 486. Aquatic Ecology. (Cross-listed with Biol, EnSci). (3-0) Cr. 3. F. *Prereq: Biol 312 or EnSci 381 or EnSci 402 or NREM 301.* Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology. Nonmajor graduate credit.

A Ecl 486L. Aquatic Ecology Laboratory. (Cross-listed with Biol, EnSci). (0-3) Cr. 1. F. *Prereq: Concurrent enrollment in 486.* Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

A Ecl 515. Ecology of Freshwater Invertebrates, Plants, and Algae. (2-3) Cr. 3. Alt. F., offered 2010. *Prereq: 312.* Identification, biology, and ecological requirements of freshwater invertebrates, plants and algae. Additional emphases on community sampling methods and analysis, and use of organisms as tools for aquatic ecosystem health assessment.

A Ecl 516. Avian Ecology. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 365, 312, or graduate standing.* Current topics and theories including avian breeding and foraging ecology, population biology, community structure, habitat selection, field methodologies, and data interpretation.

A Ecl 518. Stream Ecology. (Dual-listed with 418). (Cross-listed with EnSci). (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: 486.* Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

A Ecl 520. Fisheries Science. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 312, 321.* Concepts, approaches, and techniques for assessment of recreational and commercial fisheries. Scope will range from individual fish to entire ecosystems, both freshwater and marine.

A Ecl 523l. Fish Ecology. (Cross-listed with Ia LL). Cr. 4. Alt. SS., offered 2010. Basic principles of fish interaction with the biotic and abiotic environment. Field methods, taxonomy, and biology of fish with emphasis on the fish fauna of northwestern Iowa.

A Ecl 525. Aquatic Insects. (Dual-listed with 425). (Cross-listed with Ent). (2-3) Cr. 3. Alt. S., offered 2011. *Prereq: Biol 312 or equivalent.* Courtney. Morphology, ecology, diversity and significance of aquatic insects, with emphasis on the collection, curation and identification of taxa in local streams and lakes.

A Ecl 526l. Advanced Field Ornithology. (Cross-listed with Ia LL). Cr. 2. SS. *Prereq: Concurrent registration in Ia LL 326l.* Field study of birds of the upper Midwest; extended field trip to Minnesota and Wisconsin; individual or group project.

A Ecl 531. Conservation Biology. (Cross-listed with EEOB). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 312; Biol 313 or graduate standing.* Examination of conservation issues from a population and a community perspective. Population-level analysis will focus on the role of genetics, demography, and environment in determining population viability. Community perspectives will focus on topics such as habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

A Ecl 531l. Conservation Biology. (Cross-listed with Ia LL, EEOB). Cr. 4. Alt. SS., offered 2010. *Prereq: Ia LL 312l.* Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.

A Ecl 535l. Restoration Ecology. (Cross-listed with Ia LL, EEOB, EnSci). Cr. 4. Alt. SS., offered 2010. *Prereq: A course in ecology.* Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

A Ecl 540. Fishery Management. (Dual-listed with 440). (2-3) Cr. 3. F. *Prereq: 312, 321; credit or enrollment in 541 and Biol 586; Stat 401.* Biological basis of fishery management, fishery problems, and practices for management of freshwater, anadromous, and marine fisheries.

A Ecl 541. Fisheries Techniques. (Dual-listed with 441). (2-3) Cr. 3. F. *Prereq: 321 and Stat 104.* Overview of field, laboratory, and analytical techniques associated with managing fisheries and aquatic resources. Specific topics include sampling design, fish and habitat sampling techniques, structural indices, age and growth, and biotelemetry.

A Ecl 542. Aquaculture. (Dual-listed with 442). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 485, credit or enrollment in 321.* Concepts related to the culture of aquatic organisms including culture systems, water quality, nutrition, genetic, diseases, and marketing.

A Ecl 551. Wildlife Behavioral Ecology. (2-2) Cr. 3. Alt. S., offered 2010. *Prereq: a course in ecology or animal behavior.* The study of how an animal's behavior affects its ability to survive and reproduce in its environment. Topics represent the interface of ecology, evolution, and behavior. Wildlife defined broadly.

A Ecl 557. Herpetology. (Dual-listed with 457). (Cross-listed with EEOB). (2-3) Cr. 3. F. *Prereq: A Ecl 365 or Biol 351.* Biology, ecology, and evolution of amphibians (salamanders, frogs, caecilians) and reptiles (lizards, snakes, tuatara, turtles, crocodilians). Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of amphibians and reptiles in ecosystems, and conservation. Laboratory focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

A Ecl 558. Ornithology. (Dual-listed with 458). (Cross-listed with EEOB). (2-3) Cr. 3. S. *Prereq: A Ecl 365 or Biol 351.* Biology, evolution, ecology and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation. Laboratory exercises complement lecture topics, emphasize identification and distribution of Midwest birds, and include field trips.

A Ecl 559. Mammalogy. (Dual-listed with 459). (Cross-listed with EEOB). (2-3) Cr. 3. S. *Prereq: Biol 351 or A Ecl 365.* Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation. Laboratory focus on identification, distribution, habits, and habitats of mammals.

A Ecl 570. Landscape Ecology. (Cross-listed with EEOB). (2-3) Cr. 3. Alt. F., offered 2010. *Prereq: Permission of instructor; EEOB 588; a course in calculus.* The study of ecological and evolutionary processes within a spatial context with emphasis on behavior, population, and community dynamics.

A Ecl 573. Techniques for Biology Teaching. (Cross-listed with Ia LL, EEOB). Cr. arr. Repeatable. SS. The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.
A. Animal Biology (Same as Ia LL 573A)
G. Limnology (Same as Ia LL 573G)
H. Animal Behavior (Same as Ia LL 573H)
W. Project WET (Same as Ia LL 573W)

A Ecl 589. Population Ecology. (Cross-listed with EEOB). (2-2) Cr. 3. F. *Prereq: Biol 312, Stat 101 or 104, a course in calculus, or graduate standing.* Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

A Ecl 590I. Graduate Independent Study. (Cross-listed with Ia LL, EEOB, Anthr). Cr. arr. Repeatable. SS. *Prereq: Graduate classification and permission of instructor.*

A Ecl 599. Creative Component. Cr. arr. *Prereq: Nonthesis M.S. option only.*

Courses primarily for graduate students

A Ecl 600. Seminar. (2-0) Cr. 1. Repeatable. F.S. Current topics in ecological research, fish and wildlife management, and environmental problems related to fish or wildlife resources.

A Ecl 611. Analysis of Populations. (Cross-listed with EEOB). (2-2) Cr. 3. Alt. F., offered 2010. *Prereq: Biol 312; Stat 401; a course in calculus.* Quantitative techniques for analyzing vertebrate population data to estimate parameters such as density and survival. Emphasis on statistical inference and computing.

A Ecl 698. Animal Ecology Teaching Practicum. Cr. arr. Repeatable. F.S.SS. *Prereq: Graduate classification in animal ecology and permission of instructor.* Graduate student experience in the animal ecology teaching program. Satisfactory-fail only.

A Ecl 699. Research. Cr. arr. Repeatable.

A Ecl 699I. Research. (Cross-listed with Ia LL, Anthr, GDCB, EEOB). Cr. arr. Repeatable.

Forestry (For)

Courses primarily for undergraduate students

For 201. Forest Biology. (2-0) Cr. 2. F. *Prereq: Concurrent enrollment in 202, 203, 204, 205, and 206.* Discussion of ecological concepts, individual tree structure and growth, variation and diversity in tree populations. Physical environment of trees and forests, ecological processes in forest communities, and introduction to different regional forest communities.

For 202. Wood Utilization. (2-0) Cr. 2. F. *Prereq: Concurrent enrollment in 201, 203, 204, 205, and 206.* Processing of sustainable materials including wood into products and general properties and proper use of these products.

For 203. Resource Measurements/Evaluation. (2-0) Cr. 2. F. *Prereq: Concurrent enrollment in 201, 202, 204, 205, and 206; Math 140.* Survey techniques involved in quantification, valuation, and evaluation of tree and stand growth and other variables in the forest environment (e.g., recreational use, wildlife habitat value, biomass, and solid wood).

For 204. Forest Ecosystem Decision-Making. (2-0) Cr. 2. F. *Prereq: Concurrent enrollment in 201, 202, 203, 205, and 206.* Methods of decision-making related to forest ecosystems including communications, teams and conflict resolution. Current issues relating to public, private, and urban forests; quantification of processes, services, and goods produced by the forest and expected by the public such as wildlife, water, range, recreation, wilderness, biodiversity, as well as wood and fiber products.

For 205. Integrated Forestry Laboratory. (0-8) Cr. 3. F. *Prereq: Concurrent enrollment in 201, 202, 203, 204, and 206.* Field and laboratory exercises integrating the evaluation and management of forest goods, services, and the processing of wood products.

For 206. Fall Forestry Camp. Cr. 4. F. *Prereq: Concurrent enrollment in 201, 202, 203, 204, and 205.* Three-week field camp to address topics and issues covered in 201, 202, 203, 204, and 205.

For 280. Wood Properties and Identification. (3-3) Cr. 4. S. Properties of wood and how they relate to its successful use. Comparative anatomical characteristics, scientific nomenclature, and hand lens identification of commercially important North American woods.

For 283. Pesticide Application Certification. (Cross-listed with Ent, Agron, Hort). (2-0) Cr. 2. S. Holscher. Core background and specialty topics in agricultural, and horticultural pesticide applicator certification. Students can select certification categories and have the opportunity to obtain pesticide applicator certification at the completion of the course. Commercial pesticide applicator certification is emphasized.

For 290. Special Problems. Cr. arr. Repeatable. *Prereq: Freshman or Sophomore classification, permission of instructor.*
A. Leadership in Forestry Teams (LIFT) Learning Community
B. Forest Ecosystem Management
C. Natural Resource Conservation
D. Urban and Community Forestry
E. Wood Science and Technology

For 302. Silviculture. (2-3) Cr. 3. S. *Prereq: 201.* Manipulation of forest vegetation based on ecological principles for the production of goods and services. Nonmajor graduate credit.

For 342. Dynamics of Forest Stands. (2-3) Cr. 3. Alt. F., offered 2010. *Prereq: 203, Stat 101.* Change in forest species composition and structure at the stand and landscape scales resulting from site quality, tree growth, competition, succession, and disturbance. Methods for assessing tree growth and reconstructing past stand development. Applications to forest and savanna management. Nonmajor graduate credit.

For 356. Dendrology. (Cross-listed with Biol). (2-4) Cr. 4. F. *Prereq: Biol 211.* Identification and ecology of North American woody plant species. Importance of woody plants in timber production and wildlife habitat. Natural disturbances, human impacts, management and restoration concerns for major North American forest regions will be addressed. Nonmajor graduate credit.

For 416. Forest Insect and Disease Ecology. (Cross-listed with Pl P). (3-3) Cr. 4. S. *Prereq: 8 credits in biological sciences, including Biol 211.* Harrington. Nature of insects and pathogens of forest and shade trees; their role in the dynamics of natural and managed forest ecosystems; and the management of indigenous and exotic pests. Nonmajor graduate credit.

For 451. Forest Resource Economics and Quantitative Methods. (3-3) Cr. 4. S. *Prereq: 203, Econ 101, Math 150.* Application of economic principles to forest resource management considering both market and non-market goods and services. Methods of identifying and specifying problems in the management and use of forest resources. Application of mathematical and statistical models to the solution of managerial problems. Nonmajor graduate credit.

For 452. Ecosystem Management. (Cross-listed with NREM). (2-3) Cr. 3. F. *Prereq: Junior classification, and NREM 301 or A Ecl 312.* Principles of planning, regulating, and decision-making associated with public and private lands, with consideration of forest, grassland, wetland, and freshwater aquatic ecosystems. Integrated natural resources management within ecological, social, economic and policy constraints. Nonmajor graduate credit.

For 453. Forest Resource Policy and Administration. (3-0) Cr. 3. S. *Prereq: junior or senior classification.* Forest and related natural resource policies and contemporary policy issues. Integration of elements of policy development processes, various participants in these processes, and resulting programs. Ethics in professional forestry and natural resource conservation, and conflict resolution. Participation in the policy process involving communication with policy makers and natural resource professionals, study of current issues, promotion of issues with students as issue educators. Participation in policy meetings to identify/determine various elements and applications of strategies associated with the policy development process. Nonmajor graduate credit.

For 454. Forestry Practicum. (1-4) Cr. 3. S. *Prereq: 20 credits in student's major at 300 level or above.* Integrated decision-making related to the conservation, management, and preservation of private and public forests, wildlands, urban/community forests, and/or the production and utilization of wood products. Student teams work with a client and develop management plans that incorporate ecological, social, economic, ethical, and institutional/political factors. Effective teamwork, written/oral/visual communication, and problem-solving stressed. Multiple trips to project site and client. Nonmajor graduate credit.

For 475. Urban Forestry. (Cross-listed with Hort). (2-3) Cr. 3. F. *Prereq: Junior or senior classification, 3 credits in biology.* Discussion of establishment and management of woody perennials in community-owned urban greenspaces, consideration of urban site and soil characteristics, plant physiology, plant culture, urban forest valuation, inventory methods, species selection, and urban forest maintenance (health care and pest management). Nonmajor graduate credit.

For 480. Wood Anatomy and Fiber Analysis. (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: 280 or permission of instructor.* Microscopic anatomy and ultrastructure of wood and other industrial lignocellulosic materials. Microscopy techniques for fiber analysis. Comparison of fiber properties. Nonmajor graduate credit.

For 481. Conversion of Lignocellulosic Materials. (Cross-listed with TSM). (2-3) Cr. 3. F. *Prereq: 280 or TSM 210 or A E 216 or equivalent.* Chemical properties of lignocellulosic materials. Wood chemistry. Various conversion processes. Pulp and paper technology. Biobased products. Other fiber products. Cellulose derivatives. Term paper and/or student project required for graduate level. Nonmajor graduate credit.

For 483. Wood Deterioration and Preservation. (Cross-listed with Pl P). (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: For 280.* Deterioration of wood in use by biological and physical agents. Wood preservation and fire retardant treatments. Environmental impact of wood treating. Nonmajor graduate credit.

For 485. Lignocellulosic Composite Materials. (2-3) Cr. 3. Alt. F., offered 2010. *Prereq: 280 or permission of instructor.* Consolidation behavior of lignocellulosic materials. Principles of adhesion. Manufacturing processes for wood and lignocellulose composites such as plywood, oriented strand products, laminated lumber, particleboard, and medium density fiberboard. Extrusion processing of natural fiber/plastic composites. Nonmajor graduate credit.

For 486. Moisture Interactions of Lignocellulosic Materials. (2-3) Cr. 3. Alt. S., offered 2010. *Prereq: 280 or permission of instructor.* Principles of moisture relations in hygroscopic materials; adsorption, desorption, equilibrium moisture content. Transport processes in natural materials such as wood. Drying processes for wood and other lignocellulosic materials. Influence of moisture on dimensional stability and durability of lignocellulosics and composites. Nonmajor graduate credit.

For 487. Physical Properties of Wood. (3-3) Cr. 4. Alt. S., offered 2010. *Prereq: 280.* Mechanical, thermal, electrical, and acoustical properties of wood. Lumber grading and stress rating, nondestructive evaluation of wood and wood composite products. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

For 599. Creative Component. Cr. arr. Repeatable.
A. Forest Biology
B. Forest Biometry
C. Forest and Recreation Economics
D. Forest Management and Administration
E. Wood Science

Courses for graduate students

For 603. Plant Physiological Ecology. (4-0) Cr. 4. Alt. F., offered 2010. *Prereq: NREM 301 or a course in plant physiology.* Structural and functional adaptations in woody and herbaceous plant species to environmental variables, with and emphasis on understanding relationships between physiological processes at the whole plant scale with ecosystem processes related to nutrient, water, and carbon cycling. Plant physiological responses to natural disturbances, management practices, global climate change, and other forces of environmental change.

For 696. Research Seminar. (Cross-listed with GDCB, Agron, BBMB, Hort, PlBio). Cr. 1. Repeatable. Research seminars by faculty and graduate students. Satisfactory-fail only.

For 699. Research. Cr. arr. Repeatable.
A. Forest Biology - Wood Science
B. Forest Biometry
C. Forest Economics
D. Forest Management and Administration
E. Wood Science
F. Plant Physiology

Natural Resource Ecology and Management (NREM)

Courses primarily for undergraduate students

NREM 104. Practical Work Experience. Cr. R. Three months of relevant work experience in natural resources, animal ecology, or forestry. Study at a summer biological station may be applicable. See adviser for specific requirements and approval process.

NREM 110. Orientation in Natural Resource Ecology and Management. Cr. R. F. Orientation to the University and to the Department of Natural Resource Ecology and Management. Discussion of departmental learning outcomes, strategies for academic success and academic planning. Satisfactory-fail only.

NREM 111. NREM Transitions Learning Community Seminar. (1-0) Cr. 1. F.S. Enrollment limited to members of the NREM Transitions Learning Community. Designed to assist new transfer students and continuing sophomore students with their transition to the academic expectations and professional development aspects of the natural resource program. Satisfactory-fail only.

NREM 112. Orientation to Learning and Productive Team Membership. (Cross-listed with Aer E, FS HN, Hort, TSM). (2-0) Cr. 2. F. Introduction to developing intentional learners and worthy team members. Learning as the foundation of human enterprise; intellectual curiosity; ethics as a personal responsibility; everyday leadership; effective team and community interactions including team learning and the effects on individuals; and growth through understanding self, demonstrating ownership of own learning, and internalizing commitment to helping others. Intentional mental processing as a means of enhancing learning. Interconnectedness of the individual, the community, and the world.

NREM 114. Developing Responsible Learners and Effective Leaders. (Cross-listed with FS HN, Hort, TSM). (2-0) Cr. 2. S. Focus on team and community. Application of fundamentals of human learning; evidence of development as a responsible learner; intentional mental processing as a habit of mind; planning and facilitating learning opportunities for others; responsibility of the individual to the community and the world; leading from within; holding self and others accountable for growth and development as learners and leaders.

NREM 120. Introduction to Renewable Resources. (Cross-listed with Agron, Env S). (3-0) Cr. 3. F.S. Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

NREM 130. Natural Resources and Agriculture. (Cross-listed with Env S). (3-0) Cr. 3. S. Survey of the ecology and management of fish, forest, and wildlife resources in areas of intensive agriculture, with emphasis on Iowa. Conservation and management practices for private agricultural lands. Designed for nonmajors.

NREM 211. Careers in Natural Resources. Cr. 1. F.S. *Prereq: Sophomore classification.* Career planning exploration in natural resources. Discussion of the job application process, including techniques for successful interviewing and development of an effective resume. Satisfactory-fail only.

NREM 256. Midwestern Prairie Plants. (1-2) Cr. 1. F. Offered 1st half semester only. Survey of the major plant families, genera, and representative species of Midwestern prairies with emphasis on plant identification and use of keys. Prairie restoration, conservation, and management issues will also be considered.

NREM 285. The National Parks: Culture and Nature. (Cross-listed with L A). (2-0) Cr. 2. Alt. F., offered 2010. Reviews cultural setting for park establishment and management, ideas about wilderness, and philosophy of parks as types of land use. History of landscape architecture in the National Park Service, the development of American parks, the history of park wildlife management and nature interpretation. Recent initiatives in ecosystem management, community conservation, and international points of comparison. Readings, discussion, exercises.

NREM 301. Natural Resource Ecology and Soils. (Cross-listed with EnSci). (3-3) Cr. 4. F. *Prereq: Biol 211, 211L; For 201 or a second course in biology.* Effects of environmental factors on ecosystem structure and function using forest, prairie and agricultural ecosystems as models. Special emphasis is given to soil-forming factors and the role of soil in nutrient and water cycling and ecosystem dynamics. Additional emphasis is given to human influences on natural ecosystems and the role of perennial plant communities in agricultural landscapes. Nonmajor graduate credit.

NREM 303. Internship. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor and sophomore standing.* Placement with county conservation boards, camps, zoos, parks, etc., for experience as interpreters, rangers, and technicians.

NREM 303I. Undergraduate Internship. (Cross-listed with Ia LL). Cr. arr. Repeatable. SS. *Prereq: Permission of instructor and sophomore standing.* Placement with county conservation boards, camps, parks, etc. For experience as interpreters, rangers, and technicians.

NREM 305. Seminar. (2-0) Cr. 1. Repeatable. F.S. *Prereq: Permission of instructor.* Current topics in natural resources or related issues.

NREM 330. Interpretation of Natural Resources. (2-3) Cr. 3. S. *Prereq: 6 credits in biological sciences.* History, objectives, forms, and techniques of natural resources interpretation in the settings of county, state, national parks, and zoos.

NREM 345. Natural Resource Photogrammetry and Geographic Information Systems. (Cross-listed with EnSci). (2-3) Cr. 3. F. *Prereq: Junior classification.* Measurement and interpretation of aerial photos in resource management. Introduction to Geographic Information Systems (GIS) using ArcGIS including digitizing, development and query of attribute tables, georeferencing, and use of multiple GIS layers in simple spatial analyses. Nonmajor graduate credit.

NREM 385. Natural Resource Policy. (Dual-listed with 585). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Junior standing.* History, theory, and practice of natural resource policy. Integrative approach with topical studies in wildlife, forest, water, and other natural resources, mainly in North America. Examine roles and relationships in policy formulation between major policy actors, including legislative bodies, government agencies, and non-profits. The role of science and scientists in policy.

NREM 390. Fire Ecology and Management. (3-0) Cr. 3. F. Characteristics and role of fire in forest ecosystems. Major topics covered include fuels, fire weather, fire behavior, fire danger rating systems, fire control, prescribed burning, and fire dynamics in major ecosystem types. Nonmajor graduate credit.

NREM 402. Watershed Hydrology. (Cross-listed with Agron, EnSci, Geol, Mteor). (3-3) Cr. 4. F. *Prereq: Four courses in physical or biological sciences or engineering; junior standing.* Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

NREM 407. Watershed Management. (Dual-listed with 507). (Cross-listed with EnSci, Env S). (3-3) Cr. 4. S. *Prereq: A course in general biology.* Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

NREM 430. Media Techniques in Natural Resources Interpretation. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 330.* Media techniques used by interpreters for teaching the public about natural resources. Nonmajor graduate credit.

NREM 446. Integrating GPS and GIS for Natural Resource Management. (Dual-listed with 546). (Cross-listed with EnSci). (2-3) Cr. 3. S. *Prereq: 12 credits in student's major at 300 level or above, NREM 345 or equivalent experience with ArcGIS.* Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation.

NREM 452. Ecosystem Management. (Cross-listed with For). (2-3) Cr. 3. F. *Prereq: Junior classification, and NREM 301 or A Ecl 312.* Principles of planning, regulating, and decision-making associated with public and private lands, with consideration of forest, grassland, wetland, and freshwater aquatic ecosystems. Integrated natural resources management within ecological, social, economic and policy constraints. Nonmajor graduate credit.

NREM 460. Controversies in Natural Resource Management. (Cross-listed with Env S). (3-0) Cr. 3. F.S. *Prereq: 120, and A Ecl 312 or NREM 301, and Junior classification.* Analysis of controversial natural resource issues using a case approach that considers uncertainty and adequacy of information and scientific understanding. Ecological, social, political, economic, and ethical implications of issues will be analyzed. Nonmajor graduate credit.

NREM 465. Landscape Change and Conservation. (Dual-listed with 565). (Cross-listed with L A). (3-0) Cr. 3. F. *Prereq: L A 202.* Exploration of issues in landscape ecology and conservation biology relevant to landscape change, design, and planning. Examination of foundational principles and their applications across a continuum of land uses, from wilderness to urban areas.

NREM 471. Agroforestry Systems; Local and Global Perspectives. (Dual-listed with 571). (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: 6 credits in biological science at 300 level or above.* Concepts of sustainable land use, agroecological dynamics, and component interactions of agroforestry systems. Agroforestry systems in temperate and tropical regions. Design and evaluation techniques for agroforestry systems. Ecological, socioeconomic and political aspects of agroforestry.

NREM 472. Landscape Ecology and Natural Resource Management. (Dual-listed with 572). (2-2) Cr. 3. F. *Prereq: NREM 301 or A Ecl 312 or equivalent and NREM 345 or C R P 451 or equivalent.* Analysis and management of spatial patterns and processes in populations, communities, and ecosystems with emphasis on broad spatial scales. Human influences on natural systems are strongly considered.

NREM 490. Independent Study. Cr. arr. Repeatable. *Prereq: Junior or senior classification, permission of instructor.*
A. Animal Ecology
B. Forestry
E. Entrepreneurship
H. Honors Program

NREM 490I. Undergraduate Independent Study. (Cross-listed with Ia LL). Cr. arr. Repeatable. *Prereq: Junior or senior classification and permission of the instructor.*

NREM 493. Workshop. Cr. arr. Repeatable. *Prereq: Permission of instructor.* Ecological concepts and management practices for landowners, teachers and others. Not for students majoring in animal ecology or forestry. NREM 493 may be taken more than once for graduation credit.

NREM 496. Travel Course. (Dual-listed with 596). Cr. arr. Repeatable. *Prereq: Permission of instructor.* Limited enrollment. Extended field trips to study ecological and management topics in varied environments. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students.
A. International
B. Domestic

NREM 498. Cooperative Education. Cr. arr. *Prereq: Permission of departmental chair.* Required of all cooperative education students. Students must register prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduate students

NREM 501. Genecology. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Gen 320 or Biol 313.* Genecology principles as they apply to natural and improved populations of plants and animals. Genetic systems as they interact with long-term natural selection to produce clinal or ecotypic variation. The impact of current environments and genetic modifications of domesticated organisms on short-term selection pressures. Special coverage of species of interest to students enrolled in the course.

NREM 504. Forest Landscapes, Wildlife, and Silviculture. (3-3) Cr. 4. Alt. F., offered 2010. *Prereq: 301.* Detailed analysis of factors and processes underlying forest and stand growth and development. Applications of this knowledge to forest culture to support a diversity of use and protection objectives. Discussions of regional silviculture, tropical forests, and experimentation in forest biology.

NREM 505. Seminar. (2-0) Cr. 1. Repeatable. F.S. *Prereq: Permission of instructor or graduate classification.* Current topics in natural resources research and management.

NREM 507. Watershed Management. (Dual-listed with 407). (Cross-listed with EnSci). (3-3) Cr. 4. S. *Prereq: A course in general biology.* Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

NREM 508I. Aquatic Ecology. (Cross-listed with Ia LL, EnSci). Cr. 4. SS. *Prereq: Courses in ecology, chemistry, and physics.* Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.

NREM 529. Publishing in Biological Sciences Journals. (Cross-listed with Agron, Hort). (2-0) Cr. 2. S. *Prereq: Permission of instructor; evidence of a publishable unit of the student's research data.* Process of preparing a manuscript for submission to a refereed journal in the biological sciences. Emphasis on publishing self-generated data from thesis or dissertation research.

NREM 532. Human Dimensions of Natural Resource Management. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: A Ecl 312 or equivalent plus 6 credits of biological sciences; permission of instructor.* Exploration of institutions that help shape natural resource management and policies. Current research on interaction of humans with natural resources. Roles of social forces, politics and economics in natural resource management.

NREM 535. Restoration Ecology. (Cross-listed with EnSci, EEOB). (2-3) Cr. 3. F. *Prereq: Biol 366 or 474 or graduate standing.* Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

NREM 542. Introduction to Molecular Biology Techniques. (Cross-listed with GDCB, BBMB, BCB, B M S, FS HN, Hort, NutrS, VDPAM, EEOB, V MPM). Cr. 1. Repeatable. F.S.SS. *Prereq: Graduate classification.* Workshops in basic molecular biology techniques and related procedures. Satisfactory-fail only.
A. DNA Techniques. Includes genetic engineering procedures, sequencing, PCR, and genotyping. (F.S.SS.)
B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonol antibody production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F.)

NREM 546. Integrating GPS and GIS for Natural Resource Management. (Dual-listed with 446). (Cross-listed with EnSci). (2-3) Cr. 3. S. *Prereq: 12 credits in student's major at 300 level or above, NREM 345 or equivalent experience with ArcGIS.* Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation.

NREM 565. Landscape Change and Conservation. (Dual-listed with 465). (Cross-listed with L A). (3-0) Cr. 3. F. *Prereq: L A 202.* Exploration of issues in landscape ecology and conservation biology relevant to landscape change, design, and planning. Examination of foundational principles and their applications across a continuum of land uses, from wilderness to urban areas.

NREM 570. Advanced Decision-making in Natural Resource Allocation. (2-2) Cr. 3. Alt. S., offered 2010. *Prereq: For 451 or two courses in economics.* Analytical approach to economic aspects of forest resource management problems. Theory and application of economic decision-making criteria to traditional and modern forest resource management issues. Current problems in the allocation of forest resources.

NREM 571. Agroforestry Systems. (Dual-listed with 471). (Cross-listed with SusAg). (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: 6 credits in biological science at 300 level or above.* Concepts of sustainable land use, agroecological dynamics, and component interactions of agroforestry systems. Agroforestry systems in temperate and tropical regions. Design and evaluation techniques for agroforestry systems. Ecological, socioeconomic and political aspects of agroforestry.

NREM 572. Landscape Ecology and Natural Resource Management. (Dual-listed with 472). (2-2) Cr. 3. F. *Prereq: NREM 301 or A Ecl 312 or equivalent and NREM 345 or C R P 451 or equivalent.* Analysis and management of spatial patterns and processes in populations, communities, and ecosystems with emphasis on broad spatial scales. Human influences on natural systems are strongly considered.

NREM 580. Research Orientation. (2-0) Cr. 2. F. *Prereq: 20 credits in biological sciences and a course in statistics.* Research design, proposal preparation, and technical writing.

NREM 581. Methods for Presenting Scientific Results. (2-0) Cr. 2. S. *Prereq: Permission of instructor.* Techniques of proper platform presentation. Discussion of effective audio/visual techniques for presentation of research findings. Practice in development of overheads and slides. Use of computer generated and projected visuals. Practice in oral presentation with critical review. Development of effective posters for scientific presentation.

NREM 585. Natural Resource Policy. (Dual-listed with 385). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Graduate standing or permission of instructor. History, theory, and practice of natural resource policy.* Integrative approach with topical studies in wildlife, forest, water, and other natural resources, mainly in North America. Examine roles and relationships in policy

formulation between major policy actors, including legislative bodies, government agencies, and non-profits. The role of science and scientists in policy.

NREM 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.*
A. Animal Ecology
B. Forestry

NREM 593. Workshop. Cr. arr. Repeatable. *Prereq: Graduate classification.*

NREM 596. Travel Course. (Dual-listed with 496). Cr. arr. Repeatable. *Prereq: Permission of instructor.* Limited enrollment. Extended field trips to study ecological topics in varied environments. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students.
A. International
B. Domestic

NREM 599. Creative Component. Cr. arr.

Courses for graduate students

NREM 600. Seminar. Cr. 1. Repeatable. F.S. Current topics in natural resources research and management.

NREM 699. Research. Cr. arr. Repeatable.

Naval Science

www.iastate.edu/~navy

Captain Gary Waring, Chair of Department

Professors: Waring

Assistant Professors (Adjunct): Asjes

Instructors (Adjunct): Corbeill, Dienes, Kamp

The Department of Naval Science is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program but does not offer an academic degree. The courses offered by the Department are developed by the Department of the Navy. The Naval Science Department and Naval ROTC (NROTC) Program develop individuals mentally, morally, and physically, and imbue in them the highest ideals of duty and loyalty, in order to commission them upon graduation as Navy and Marine Corps officers. Program graduates possess a basic professional background, are motivated towards careers in the Naval Service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship, and government. Emphasis is placed on the core values of courage, honor and commitment.

Naval Science courses are open to any ISU student who has met the course prerequisites. To participate in the Naval ROTC Program, students must apply through one of two programs: the NROTC Scholarship Program (full scholarship; which includes a book stipend, tuition, laboratory fees, uniforms, and a monthly stipend), or the College Program (nonscholarship, with limited financial assistance). Applicants for the Scholarship Program are selected through a comprehensive nationwide competition. Applicants for the College Program are selected by the Professor of Naval Science from among students already in attendance at, or selected for admission by, the university. The College Program involves limited financial assistance for each of the last two academic years. Upon application, students choose between the Navy Option and Marine Corps Option, for the purposes of training focus. NROTC students pursue their studies like other university students except that they must meet certain additional requirements that will prepare them to serve as naval officers upon graduation.

A Scholarship Program student incurs a minimum 4 -year active duty military obligation as a commissioned officer after graduation; a College Program student incurs a 3-year active duty obligation.

Further information is available from the Professor of Naval Science, Iowa State University.

While in the NROTC Program, students will participate (with pay) in summer at-sea training cruises. Students are also exposed to regular and extracurricular activities that teach leadership principles and help them decide which field of the Navy or Marine Corps they wish to enter. These activities also include weekly leadership laboratory periods and opportunities for involvement in several student societies.

Undergraduate Study

Naval science courses are primarily for those students in the NROTC program, however, other university students may also enroll. Students enrolled in the NROTC program must fulfill the following requirements:

1. N S 111, N S 212, N S 220, N S 230, N S 320, N S 330, N S 410, N S 412 and N S 440. Marine option students will complete N S 111, N S 212, N S 220, N S 321, N S 412, N S 421, and N S 440.

2. All NROTC students must complete one course in American military history or national security policy. A course in non-western culture or religion is also required of all Navy-option students.

3. All Navy option scholarship students must successfully complete Math 165 and 166 by the end of the sophomore year and Phys 221 and 222 by the end of the junior year.

4. In addition to the normal Naval Science courses, all NROTC students are required to participate in laboratory periods that supplement the various academic courses. The Leadership Lab emphasizes human relations principles, teaches basic military formations, movements, commands, courtesies, and honors, and provides practice in unit leadership. Non NROTC program students enrolled in Naval Science courses are not required to participate in laboratory periods.

5. Navy option scholarship students are encouraged to major in engineering and physical sciences to meet the technological requirements of the modern Navy, however Navy-option students and Marine Corps-option students may pursue any major leading to a Bachelor's Degree.

6. The College of Liberal Arts and Sciences offers a minor in military studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from any of the three ROTC programs offered on campus. At least 6 credits must be in courses numbered 300 or above.

For basic undergraduate curriculum requirements, see *Liberal Arts and Sciences, Curriculum; or Engineering, Curricula.*

Courses primarily for undergraduate students

N S 111. Introduction to Naval Science. (3-0) Cr. 3. F. Introduction to the organization, regulations, and capabilities of the Navy, with emphasis on mission and principal warfare components.

N S 212. Seapower and Maritime Affairs. (3-0) Cr. 3. S. Requests to waive this prerequisite must be approved by Naval Science Department. Development of concept of seapower including the Merchant Marine; role of various warfare components of the Navy in supporting the Navy's mission; implementation of seapower as an instrument of national policy; evolution and network-centric warfare and review of Cold War naval strategy.

N S 220. Leadership and Management. (3-0) Cr. 3. S. Experiential approach to learning the principles of leadership and management by examining business management theories and their applications. Skills are developed in the areas of communication, counseling, control, direction, management, and leadership through active guided participation.

N S 230. Navigation. (3-0) Cr. 3. S. *Prereq: Sophomore classification.* Requests to waive this prerequisite must be approved by Naval Science Department. Study of the fundamentals of marine navigation used by ships at sea; includes practical exercises in piloting using visual and electronic means. In-depth discussion of laws that govern conduct of vessels in national/international waters. Course is supplemented with review/analysis of case studies involving actual navigation incidents.

N S 320. Naval Ship Systems I (Engineering). (3-0) Cr. 3. F. *Prereq: Physics 221, sophomore classification.* Requests to waive these prerequisite must be approved by Naval Science Department. An introduction to naval engineering with emphasis on the equipment and machinery involved in the conversion of energy for propulsion and other purposes aboard the major ship types of the U.S. fleet. Basic concepts of the theory and design of steam, gas turbine, diesel, and nuclear propulsion. Introduction to ship design, stability, hydrodynamic forces, compartmentation, electrical and auxiliary systems.

N S 321. Evolution of Warfare. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Sophomore classification. Requests to waive this prerequisite must be approved by Naval Science Department.* Evolution of warfare from 3500 B.C. to contemporary times; analysis of the impact of historical precedents on modern military thought and action; emphasis on the historical development of military tactics, strategy, and technology.

N S 330. Naval Ship Systems II (Weapons). (3-0) Cr. 3. S. *Prereq: Physics 221, sophomore classification. Requests to waive this prerequisite must be approved by Naval Science Department.* Introduction to the theory and principles of operation of naval weapon systems. Included coverage of types of weapons and fire control systems, capabilities and limitations; theory of target acquisition, identification and tracking; basics of naval ordnance.

N S 410. Naval Operations and Seamanship. (3-0) Cr. 3. F. *Prereq: Senior classification. Requests to waive this prerequisite must be approved by Naval Science Department.* Study of tactical naval operations; employs practical use of maneuvering boards together with shiphandling principles to arrive at tactical shipboard maneuvering solutions for single ship and formation operations. Study also of command and control, leadership, and ethics issues associated with surface naval operations.

N S 412. Leadership and Ethics. (3-0) Cr. 3. S. *Prereq: For NROTC students only - N S 111, N S 212 or Hist 389, N S 220, N S 230, N S 320, N S 330 and N S 410. Requests to waive this prerequisite must be approved by Naval Science Department.* Basic background concerning the duties and responsibilities of the junior naval officer and division officer in the areas of integrity and ethics, human resources management, personnel management, material management, and the administration of discipline. Preparation for responsibilities encountered immediately upon commissioning.

N S 421. Evolution of Amphibious Warfare. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: Sophomore classification. Requests to waive this prerequisite must be approved by Naval Science Department.* Defines the concept of amphibious operations, origins, development from 600 B.C.

N S 440. Senior Naval Science Seminar. (1-0) Cr. 1. F.S. *Prereq: Senior classification. Requests to waive this prerequisite must be approved by Naval Science Department.* Current leadership issues in the Navy which will challenge the newly commissioned officer. Opportunities to analyze, provide solutions, and discuss actions related to a variety of real world situations.

N S 490. Independent Study. Cr. arr. Repeatable. *Prereq: Senior classification and prior approval of Naval Science Department Chair, 6 credits in naval science.* No more than 9 credits of N S 490 may be counted toward graduation.

Neuroscience

www/neuroscience.iastate.edu/

(Interdepartmental Graduate Program)

Co-Chairs: D. Sakaguchi, R. Martin

Supervisory Committee: V. Bracha, S. Jeftinija, A. G. Kanthasamy, R. Martin, D. Sakaguchi

Participating Faculty: V. Anantharam, L. Anderson, J. Bloedel, V. Bracha, E Cooper, J. Cunnick, T. Day, N. M. Ellinwood, H. Greenlee, V. Honavar, W. Hsu, S. Jeftinija, A.G. Kanthasamy, A. Kanthasamy, M. Kimber, V.S. Lin, S. Mallapragada, R. J. Martin, M. Nilsen-Hamilton, J. Ourednik, V. Ourednik, A. Robertson, R. Robson, D. Sakaguchi, R. Singh, A. Smiley-Oyen, C. Tuggle, E. Uemura

Graduate Study

Work is offered for the master of science and doctor of philosophy degrees with a major in neuroscience. Cooperating departments include Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemical and Biological Engineering; Chemistry; Ecology, Evolution and Organismal Biology; Genetics, Development and Cell Biology; Kinesiology; and Psychology.

Facilities and faculty are committed to research in the following areas: neuronal membrane functions, signal transduction, neuroanatomy, neurodegenerative diseases, neuroendocrinology, neurotoxicology, neuropathology, developmental neurobiology, neurogenetics, computational neuroscience, neural networks, and behavioral neuroscience.

An undergraduate or advanced degree in the sciences is ordinarily a prerequisite for admission to the program. A student majoring in neuroscience will select a major professor from the faculty participating in the program.

All students take a core curriculum consisting of Neuro 556, 557, 661, 690, 696, BBMB 404, and Stat 401. All students are also expected to take elective neuroscience courses from the following: B M S 537, 575; Com S 474; E E 545; Psych 517, 519; and Tox 501.

Courses for graduate students

Neuro 556. Cellular, Molecular and Developmental Neuroscience. (Cross-listed with GDCB, B M S). Cr. arr. F. *Prereq: Biol 335 or Biol 436; physics recommended.* Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.

Neuro 557. Advanced Neuroscience Techniques. (Cross-listed with GDCB). (2-0) Cr. 2. Alt. S., offered 2011. *Prereq: Neuro 556 or equivalent course.* Research methods and techniques; exercises and/or demonstrations representing individual faculty specialties.

Neuro 661. Current Topics in Neurobiology. (Cross-listed with GDCB, BBMB). Cr. arr. Repeatable. *Prereq: Permission of instructor.* Topics may include communication, hormones and behavior, neural integration, membrane biophysics, molecular and cellular neuroscience, developmental neurobiology, neuroanatomy and ultrastructure, sensory biology, social behavior, techniques in neurobiology and behavior.

Neuro 690. Journal Club in Neuroscience. (1-0) Cr. 1. Repeatable. F.S. *Prereq: 556.* Students are required to attend and make at least one presentation at a weekly journal club focusing on current topics.

Neuro 696. Neuroscience Seminar. (1-0) Cr. 1. Repeatable. F.S. *Prereq: 556.* Presentations and discussion of research by students, faculty, and visiting scholars.

Neuro 699. Research. Cr. arr. Repeatable.

Nuclear Engineering

www.iastate.edu/~nuclearengineering

Minor administered by Mechanical Engineering

The nuclear engineering undergraduate minor allows engineering students to acquire a formal background in nuclear engineering topics that will not only benefit them, but also fulfill a societal need for future hiring of engineers. Through this program, students can enroll in a formal minor that enables them to acquire a basic and fundamental knowledge of nuclear sciences and engineering, thus enabling them to pursue employment in any one of a number of fields associated with the construction, operation or regulation of nuclear power generation.

Students completing this minor acquire a body of knowledge in the fundamentals of nuclear science and engineering. The required courses selected ensures that all graduates of the nuclear engineering minor obtain a minimum body of knowledge in nuclear science and engineering that would allow them to apply their specialized field of engineering knowledge to nuclear-related applications, such as nuclear plant and site construction, nuclear power plant operations, nuclear safety and radiation protection.

The supporting courses that are listed in this program provide an opportunity for students to build upon the knowledge gained in the required courses by taking either more advanced courses or more specialized courses dealing with specific areas of nuclear engineering.

Undergraduate Study

Students interested in completing the nuclear engineering minor must be enrolled in the College of Engineering at Iowa State University. They should complete and submit the "Request for Minor" form. The selection process is based on approval by the administering department, Mechanical Engineering.

The course requirements for the undergraduate minor in nuclear engineering are: Required courses (9 credits) – Nuc E 401, 3 cr., Nuc E 402, 3 cr., and Nuc E 405, 3 cr.; Supporting courses (select two for 6 credits) – Nuc E 410, 3 cr., Nuc E 411, 3 cr. Nuc E 490, 3 cr., or M E 433, 3 cr. The minor must include at least nine credits which are beyond the total used to meet curriculum requirements for the bachelors degree in engineering.

Nuclear engineering courses are provided through an inter-institutional distance education program offered through the Web. Some of the courses that comprise this minor are offered at Iowa State University, while others are offered through four of the Big 12 Engineering Consortium universities that have formal nuclear engineering departments or programs. The four universities offering an assortment of nuclear engineering courses via web-based distance education are Texas A & M (TAMU), the University of Missouri Columbia (UMC), Kansas State University (KSU) and the University of Texas at Austin (UTA).

Courses primarily for undergraduate students

Nuc E 401. Nuclear Radiation Theory and Engineering. (3-0) Cr. 3. F. *Prereq: Phys 222, Math 266 or 267.* Atomic and nuclear physics. Radioactivity and reaction rates. Cross sections. Introduction to neutron diffusion theory. Engineering applications of radiation theory. Nonmajor graduate credit.

Nuc E 402. Nuclear Reactor Engineering. (3-0) Cr. 3. S. *Prereq: 401.* WWW only. Fission and chain reactions. Neutron diffusion and moderation. Reactor equations. Fermi Age theory. Multigroup and multiregional analysis.

Nuc E 405. Radiation Protection and Shielding. (3-0) Cr. 3. *Prereq: 401.* WWW only. Basic principles and concepts of radiation protection and design: dosimetric units and response functions, hazards of radiation dose, radiation sources, basic methods for dose evaluation, and shielding design techniques for photons and neurons.

Nuc E 410. Nuclear Reactor Theory. (3-0) Cr. 3. F. *Prereq: 405.* WWW only. An introduction to neutron diffusion theory, neutron moderation, conditions for criticality of nuclear reactors.

Nuc E 411. Nuclear Reactor Analysis. (3-0) Cr. 3. S. *Prereq: 410.* WWW only. Group diffusion method. Multiregion reactors, heterogeneous reactors. Reactor kinetics, changes in reactivity.

Nuc E 490. Independent Study. Cr. arr. Repeatable. *Prereq: Junior Classification.* Investigation of nuclear engineering topics. Election of course and topic must be approved in advance by supervising faculty.

Nutritional Sciences

(Interdepartmental Graduate Major)

Advisory Committee: K. Schalinske, Chair; D. Beitz, M. Spurlock, M. Reddy, W. White

Participating Faculty: Faculty mainly from Food Science and Human Nutrition and Animal Science and also from other departments such as Kinesiology; Biochemistry, Biophysics, and Molecular Biology; Agronomy; Human Development and Family Studies, Sociology; Agricultural and Biosystems Engineering, and Statistics

Graduate Study

The Interdepartmental Graduate Program in Nutritional Sciences (IGPNS), administered through the Graduate College, under the auspices of the Chairs of Food Science and Human Nutrition (FS HN) and Animal Science, will provide the structure for coordinating and enhancing interdisciplinary nutrition research and graduate education. M.S. and Ph.D. degrees in Nutritional Sciences will be offered with three specializations: Animal Nutrition, Human Nutrition, or Molecular/Biochemical Nutrition.

The following undergraduate course work is recommended of all applicants who are applying to the IGPNS, but may be modified depending upon the student's area of emphasis. Recommended course work includes organic chemistry

with laboratory, physics, analytical chemistry, a nutrition course that requires biochemistry or organic chemistry as a prerequisite, and a course in biology/physiology or anatomy. Under certain circumstances students can be admitted or provisionally admitted with course work deficiencies. Students with an undergraduate degree will be generally admitted into the M.S. program and upon completion, they can then apply for admission into the Ph.D. program. However, exceptional students with experience can apply directly to the Ph.D. program.

The general requirements of the Nutritional Sciences degree at the MS level, in addition to those of Graduate College, are: NutrS 501; NutrS 502; a minimum of 4 additional credits of graduate-level advanced nutrition or nutritional physiology; 3-6 credits of graduate-level biochemistry; 3 credits of graduate-level statistics (STAT 401); graduate student orientation course (FS HN 580 or An S 501); seminar(s) attendance in Food Science and Human Nutrition (FS HN 581) or Animal Science (An S 603); seminar presentation course (FSHN 681 or An S equivalent); one semester credit of seminar pertaining to student's research; Teaching assistant requirement (FS HN 590C or AnS 590L), summer lectureship (NutrS 505) and successful completion of a thesis and defense of the thesis. They are expected to complete the course work established by the Program of Study (POS) committee based on specialization with a minimum of 30 graduate-level semester credits, not less than 22 of which must be earned at Iowa State University.

The general requirements of the Nutritional Sciences degree at the PhD level, in addition to those of the Graduate College, are: completion of all requirements of the MS degree in Nutritional Sciences; 3 additional credits in each of graduate-level biochemistry, graduate-level statistics (Stat 402), and systemic physiology; and one additional graduate-level courses in the field of study as deemed appropriate by the POS Committee and additional teaching assistant requirements (FS HN 590C or An S 690L). Satisfactory completion of a preliminary examination, a written dissertation, seminar presentation of dissertation research, and defense of the dissertation is also required. Overall a minimum of 72 graduate-level semester credits, no less than 36 of which must be earned at Iowa State University.

Courses for graduate students

NutrS 501. Biochemical and Physiological Basis of Nutrition: Macronutrients. (3-0) Cr. 3. F. *Prereq: Credit or enrollment in BBMB 404 or BBMB 420.* Integration of the molecular, cellular, and physiologic aspects of macronutrient and energy metabolism in mammalian systems. Dietary energy, carbohydrates, fiber, lipids, proteins, their interactions, metabolic consequences, and major research methodologies.

NutrS 502. Biochemical and Physiological Basis of Nutrition: Vitamins and Minerals. (3-0) Cr. 3. S. *Prereq: BBMB 404 or BBMB 420, and credit or enrollment in BBMB 405.* Integration of the molecular, cellular, and physiologic aspects of vitamin and mineral metabolism in mammalian systems. Interactions among nutrients, metabolic consequences of deficiencies or excesses, relevant polymorphisms, major research methodologies, and current topics related to micronutrients.

NutrS 503. Biology of Adipose Tissue. (2-0) Cr. 2. S. *Prereq: Undergraduate: consent of instructor; Graduate: NutrS 501.* Principles regarding the development of adipose tissue and its role in energy balance, and will focus considerably on endocrine and immune actions of the adipocyte. Course material will be in lecture format, including handouts and selected journal articles. Students will be asked to lead critical discussions of key research findings as summary material for a given topic. Species differences will be highlighted, particularly as they relate to research models.

NutrS 505. Short Course. Cr. arr. F.S.SS. *Prereq: Permission of instructor.*

NutrS 518. Digestive Physiology and Metabolism of Non Ruminants. (Cross-listed with AN S). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: An S 419 or NutrS 501.* Digestion and metabolism of nutrients. Nutritional requirements and current research and feeding programs for poultry and swine.

NutrS 519. Food Toxicology. (Cross-listed with FS HN, Tox). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: A course in biochemistry.* Basic principles of toxicology. Toxicants in the food supply: modes of action, toxicant defense systems, toxicant and nutrient interactions, risk assessment. Only one of NutrS 419 and 519 may count toward graduation.

NutrS 520. Digestive Physiology and Metabolism of Ruminants. (Cross-listed with AN S). (2-2) Cr. 3. Alt. S., offered 2010. *Prereq: An S 419 or NutrS 501.* Digestive physiology and nutrient metabolism in ruminant and preruminant animals

NutrS 542. Introduction to Molecular Biology Techniques. (Cross-listed with B M S, BCB, BBMB, EEOB, FS HN, GDCB, Hort, NREM, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. *Prereq: Graduate classification.* Workshops in basic molecular biology techniques and related procedures. Satisfactory-fail only.
A. DNA Techniques. Includes genetic engineering procedures, sequencing, PCR, and genotyping. (F.S.SS.)
B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonol antibody production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F.)

NutrS 552. Advanced Vertebrate Physiology II. (Cross-listed with B M S, Kin, An S). (3-0) Cr. 3. S. *Prereq: Biol 335; credit or enrollment in BBMB 404 or 420.* Cardiovascular, renal, respiratory, and digestive physiology.

NutrS 561. Medical Nutrition and Disease I. (4-0) Cr. arr. F. *Prereq: FS HN 360, 3 credits in physiology at 300 level or above.* (Dual listed with FS HN 461.) Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state. Recitation section (1 cr.) will focus on refinement of assessment skills, diagnosis of nutritional problems, nutrition care, and documentation. Course must be taken for 4 credits if Didactic Program in Dietetics (DPD) verification statement of completion is desired. Graduate students may take the lecture portion without the recitation section.

NutrS 562. Assessment of Nutritional Status. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: FS HN 461/NutrS 561 or NutrS 501.* Overview and practical applications of methods for assessing nutritional status, including: theoretical framework of nutritional health and disease, dietary intake, biochemical indices, clinical examination, and body composition.

NutrS 563. Community Nutrition. (3-0) Cr. 3. F. *Prereq: FSHN 203, 362.* Dual listed with FS HN 463. Survey of current public health nutrition problems among nutritionally vulnerable individuals and groups. Discussion of the multidimensional nature of those problems and community programs designed to help solve them. The role of community nutritionists in grant writing for project development. Significant emphasis on written and oral communication.

NutrS 564. Medical Nutrition and Disease II. (4-0) Cr. arr. S. *Prereq: FS HN 360, FS HN 461, or NutrS 561. 3 credits in physiology at 300 level or above.* (Dual listed with FS HN 464.) Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state. Recitation section (1 cr.) will focus on refinement of assessment skills, diagnosis of nutritional problems, nutrition care, and documentation. Course must be taken for 4 credits if Didactic Program in Dietetics (DPD) verification statement of completion is desired. Nutritional science undergraduates and graduate students may take the 3 credit lecture portion without the recitation section.

NutrS 619. Advanced Nutrition and Metabolism - Protein. (Cross-listed with An S). (2-0) Cr. 2. *Prereq: BBMB 405.* Digestion, absorption, and intermediary metabolism of amino acids and protein. Regulation of protein synthesis and degradation. Integration of cellular biochemistry and physiology of mammalian protein metabolism.

NutrS 680. Modern Views of Nutrition. Cr. R. Repeatable. S. Current concepts in nutrition and related fields. Required for all graduate students in nutrition.

NutrS 695. Grant Proposal Writing. (Cross-listed with FS HN). (1-0) Cr. 1. F. *Prereq: 3 credits of graduate course work in food science and/or nutrition.* Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Formation of grant writing teams in food science and/or nutrition. Satisfactory-fail only.

NutrS 699. Research in Nutritional Sciences. Cr. arr. F.S.SS. Satisfactory-fail only.

Officer Education Programs

Iowa State University offers Reserve Officers Training Corps (ROTC) programs for the professional training of officers for the Army, Air Force, Navy and Marines.

The purpose of these programs is to provide an avenue for interested students to become reserve or regular officers in one of the United States military services, and the university regards this training as the foundation for possible careers in the military. The Air Force and the Navy require a period of active duty service upon completion of the ROTC program. Graduates from Army ROTC serve in either active Army, the Army Reserve, or the National Guard.

All students enrolled in advanced ROTC programs receive financial allowances, which are described under Student Financial Aid. Scholarships are also available for all services as outlined in the section on financial aid.

For specific courses and programs see also Air Force Aerospace Studies, Military Science, and Naval Science.

Operations and Supply Chain Management

(Administered by the Department of Logistics, Operations and Management Information Systems)

Richard Poist, Chair of Department

Distinguished Professor (Emeritus): Baumel

Professors: Crum, Poist, Walter

Professors (Emeritus): Thompson, Voorhees

Associate Professors: Blackhurst, Johnson, Mennecke, Montabon, Nilakanta, Ruben, Suzuki, Tiwana, Townsend, Zhu

Assistant Professors: Jiang, Martens, Scheibe

Instructors (Adjunct): Choobineh

Lecturer: Helmer

Undergraduate Study

For undergraduate curriculum in business, major in Operations and Supply Chain Management, see *College of Business, Curricula.*

Operations and Supply Chain Management is a program of study concerned with the efficient and timely flow of materials, products, and information within and among organizations. Operations management encompasses the planning, control and implementation of the processes used to transform inputs into finished goods and services. Supply chain management involves the integration of business processes across organizations, from material sources and suppliers through manufacturing and processing to the final customer. Operations management is, thus, taught in the context and framework of inter-organizational supply chain systems.

The study of Operations and Supply Chain Management prepares students for professional careers with manufacturers, distributors, logistics service providers and consulting firms. The curriculum provides the required theoretical/conceptual base and analytical methods for making sound operational and strategic business decisions.

The requirements for the Operations and Supply Chain Management major are met by completion of the following courses: OSCM 422, 424, 485, 486, 487, plus one course from an approved list.

The department also offers a minor for non Operations and Supply Chain Management majors in the College of Business. The minor requires 15 credits from an approved list of courses, of which 9 credits must stand alone. Students with declared majors have priority over students with declared minors in courses with space constraints.

Graduate Study

For graduate study options, including the Ph.D. degree, see the Supply Chain Management listing.

Courses primarily for undergraduate students

OSCM 320. Production/Operations Management. (3-0) Cr. 3. *Prereq: Stat 226.* Introduction and analysis of the basic concepts in production/operations management. Topics include: applied forecasting, aggregate planning, scheduling, shop floor control, total quality management, inventory management, facility layout, and project management.

OSCM 422. Manufacturing Planning and Control. (3-0) Cr. 3. *Prereq: OSCM 320.* Advanced treatment of manufacturing planning and control procedures. Master production scheduling, material requirements planning, enterprise resource planning, capacity planning, shop floor control, just-in-time, and competitive analyses of modern manufacturing systems. Nonmajor graduate credit.

OSCM 424. Process Management, Analysis, and Improvement. (3-0) Cr. 3. *Prereq: OSCM 320.* The design, analysis, and management of production processes to improve performance. Performance measures and their relationships; process design and evaluation; and managerial levers for improving and controlling process performance. Nonmajor graduate credit.

OSCM 428. Special Topics in Operations Management. (3-0) Cr. 3. *Prereq: OSCM 320.* In-depth analysis of current issues, problems, and systems in operations management with emphasis on new theoretical and methodological developments. Topics may include in different semesters, supply chain management, productivity and quality improvement, management of technology and innovation, information technology in operations management, quick response manufacturing, and service operations management. Nonmajor graduate credit.

OSCM 440. Supply Chain Information Systems. (Cross-listed with MIS, LSCM). (3-0) Cr. 3. *Prereq: MIS 330, OSCM 320, LSCM 360.* Internal and inter-organizational information systems necessary for a supply chain to achieve competitive advantage. Topics include: design, development, implementation, and maintenance of supply chain information systems; enterprise resource planning; advanced planning and scheduling, manufacturing execution systems; and the interface between manufacturing planning and control processes, logistics processes, and the information system.

OSCM 485. Demand Planning and Management. (Cross-listed with LSCM). (3-0) Cr. 3. *Prereq: LSCM 360, OSCM 320.* Demand planning process which synchronizes demand with manufacturing and distribution. Addresses linking business plans and demand forecasts both horizontally and vertically within the organization and collaboratively among supply chain partners. Forecasting, customer relationship management, sales and operations planning, customer service, distribution channels, e-fulfillment, and information systems requirements. Nonmajor graduate credit.

OSCM 486. Principles of Purchasing and Supply Management. (Cross-listed with LSCM). (3-0) Cr. 3. *Prereq: LSCM 360, OSCM 320.* Sourcing strategies, concepts, tools and dynamics in the context of the integrated supply chain. Make or buy decision, supplier evaluation and selection, global sourcing, the total cost of ownership, contracts and legal terms, negotiation, purchasing ethics, and information systems requirements. Nonmajor graduate credit.

OSCM 487. Strategic Supply Chain Management. (Cross-listed with LSCM). (3-0) Cr. 3. *Prereq: OSCM 422 or OSCM 424 or LSCM 460; OSCM 485 or OSCM 486.* Capstone course in supply chain management. Integrating and applying the theories, concepts, and methods covered in the prerequisite courses through the use of readings, case studies, projects, and industry speakers. Nonmajor graduate credit.

OSCM 490. Independent Study. Cr. arr. Repeatable. *Prereq: OSCM 320, senior classification, permission of instructor.*

Courses primarily for graduate students, open to qualified undergraduate students

The department offers graduate courses under the heading of Supply Chain Management. These courses include SCM 502, 520, 522, 524, 560, 561, 563, 585, and 590. For descriptions of these courses, see *Supply Chain Management*.

Courses for graduate students

The department offers graduate courses under the heading of Supply Chain Management. These courses include SCM 601, 602, 603, 604, 605, 650, 651, and 699. For descriptions of these courses, see *Supply Chain Management*.

Philosophy and Religious Studies

Tony Smith, Chair of Department

University Professor: Kupfer

Professors: Avalos, Hollinger, Kirschenmann, Robinson, Sawyer, Smith, Wilson

Professors (Emeritus): Hollenbach, Vaniten

Associate Professors: Bado-Fralick, T. Butler, Clifford, De Laplante, Fehr, Geirsson, Holmgren, Wolf

Assistant Professors: Alexander, A. Butler, Kelley, Padgett-Walsh, Qu

Senior Lecturer: Northway

Lecturer: Bevin, Wirth

Philosophy

Undergraduate Study

Philosophy tries to make sense of human experience and reality through critical reflection and argument. The questions it treats engage and provoke all of us, and they occupy an important place in our intellectual tradition: Are there objective standards for deciding what is right and wrong, or is morality merely a subjective matter? Is capitalism morally acceptable? Do I have a will, and is it free? How do my words and thoughts come to be about the world? Does God exist? Can machines think? How are mind and body related? Students in philosophy classes will be exposed to arguments on both sides of such questions, and they will be encouraged to develop and rationally defend their own positions.

Philosophy is not an isolated discipline. It enjoys mutually beneficial exchanges with many fields of study within the humanities and sciences. Philosophers develop tools that allow them to examine critically the assumptions and implications of the social and natural sciences, religion, and law.

The study of philosophy provides several benefits. It emphasizes rigourous understanding of problems, together with careful analysis of the strengths and weaknesses of the available solutions. It encourages clarity in the presentation of one's own ideas, as well as sensitivity in the consideration of the ideas of others. The study of philosophy therefore encourages one to develop skills and habits that are useful not only in philosophy, but in other areas as well. Philosophy students historically do well, for example, in law and medical schools.

However, one should not think that philosophy is only valuable in academic settings. Philosophical questions arise in many areas of family, business, and civic life. Philosophers strive to face these questions with the kind of intellectual honesty that leads to respect for the views of others, and continual reassessment of their own. In this way, the study of philosophy fosters values and attitudes that are helpful for responding to a lifetime of intellectual challenges.

The degree program in philosophy requires a minimum of 33 credits, plus the zero credit 492 course. The following courses compose the core program of the major from which 15 credits shall be chosen. Additionally, two courses at the 400 level or above (other than 490 and 492) are required.

a. Ethical theory: One course required. Choose from 330 (Ethical Theory), 335 (Social and Political Philosophy), 535 (Contemporary Political Philosophy).

b. History: Two courses required, namely, 310 (Ancient Philosophy) and either 314 (17th Century Philosophy) or 315 (18th Century Philosophy).

c. Metaphysics and Epistemology: One course required. Choose from 364 (Metaphysics: God, Minds, and Matter), 366 (Truth, Belief, and Reason), 380 (Philosophy of Science).

d. Logic: 207 (Introduction to Symbolic Logic) is required.

The department offers a minor in philosophy which may be earned by completing a total of 15 credits in philosophy. At least 9 credits must be in courses numbered 300 or above. Students may want to emphasize specific areas by taking 15 hours of courses chosen from the following:

Philosophy of Science: 201, 206 or 207, 314, 315, 380, 381, 480, 483, 485

History of Philosophy: 201, 310, 314, 315, 316, 317, 318, 460

Law, Social Values and Policy: 230, 235, 331, 332, 333, 335, 336, 338, 343, 430, 535

Communication Proficiency requirement: The department requires a grade of C+ or better in each of Engl 150 and 250 (or 250H), and approval of writing by instructor of any philosophy course 300 level or above, to be designated by the student.

Graduate Study

The department offers work for a graduate minor in philosophy. For those taking the M.A. or M.S., the minor requirement is two courses above 300 (but not 490) each taken in conjunction with 590. For those taking the Ph.D., the requirement is four courses above 300, at least one of which is above 400 (but not 490) each taken in conjunction with 590. Interested students should ask the chair to assign a minor adviser.

The department participates in the interdepartmental program in general graduate studies. (See *Index*.)

Courses primarily for undergraduate students

Phil 201. Introduction to Philosophy. (3-0) Cr. 3. F.S.SS. It has been rumored that the unexamined life is not worth living. Philosophy is an attempt to begin examining life by considering such questions as: What makes us human? What is the world ultimately like? How should we relate to other people? Is there a god? How can we know anything about these questions? Understanding questions of this kind and proposed answers to them is what this course is all about.

Phil 206. Introduction to Logic and Scientific Reasoning. (3-0) Cr. 3. F.S.SS. Basic principles of critical reasoning and argument evaluation. A consideration of basic forms of argumentation in science and everyday life. Application to contemporary issues and controversies.

Phil 207. Introduction to Symbolic Logic. (Cross-listed with Ling). (3-0) Cr. 3. S. Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Majors should take Phil 207 as early as possible.

Phil 230. Moral Theory and Practice. (3-0) Cr. 3. F.S.SS. Investigation of moral issues in the context of major ethical theories of value and obligation; e.g., punishment, abortion, economic justice, job discrimination, world hunger, and sexual morality. Emphasis on critical reasoning and argument analysis.

Phil 235. Ethical Issues in A Diverse Society. (3-0) Cr. 3. S. This course will examine a range of arguments on diversity issues. Topics will include: the social status of women, the moral status of sexuality and homosexuality, the nature and role of racism in contemporary society, the relationship between biology, gender roles and social status, and various proposals for change from a variety of political perspectives.

Phil 310. Ancient Philosophy. (Cross-listed with Cl St). (3-0) Cr. 3. F. *Prereq: 201.* Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth. Nonmajor graduate credit.

Phil 314. 17th Century Philosophy. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 201.* Readings from philosophers such as Hobbes, Descartes, Spinoza, Leibniz, and Locke. Changing conceptions of knowledge, self, and deities in response to Galileo's new science and post-reformation challenge to ecclesiastical authority. Nonmajor graduate credit.

Phil 315. 18th Century Philosophy. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 201.* Readings from philosophers such as Berkeley, Hume, and Kant. Development of Enlightenment thought. Issues include idealism, causation, freedom, and knowledge regarding science, ethics, and deities. Nonmajor graduate credit.

Phil 316. 19th Century Continental Philosophy. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 201.* The thought of Hegel, Marx, Nietzsche, and their contemporaries. Various perspectives on the philosophy of history, the nature of reason and subjectivity, the contrast between dialectical and nondialectical philosophy, and the relationship between philosophy and society. Nonmajor graduate credit.

Phil 317. 20th and 21st Century Continental Philosophy. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 201.* Major movements of 20th and 21st century thought, such as Phenomenology, Critical Theory, Post-structuralism, Postmodernism, and Feminism. Issues include the assumptions and limits of Western metaphysics, the nature of reason, the relationship between language and power. Nonmajor graduate credit.

Phil 318. 20th and 21st Century Anglo-American Philosophy. (3-0) Cr. 3. S. *Prereq: 201.* Major movements in recent and contemporary philosophy such as realism, logical positivism, ordinary language philosophy, and naturalism. Russell, Wittgenstein, Quine and other leading figures. Topics include knowledge of the material world, mind, language, values, and philosophical method. Nonmajor graduate credit.

Phil 320. Existentialism and Its Critics. (3-0) Cr. 3. F. *Prereq: 201.* An investigation of Existentialism and its critics in historical and cultural context. Emphasis on existential phenomenology and French existentialism, and on criticisms. Existential Marxism and Heidegger's later philosophy. Nonmajor graduate credit.

Phil 330. Ethical Theory. (3-0) Cr. 3. F. *Prereq: 201 or 230.* Major theories in normative ethics and metaethics. Includes such views as relativism, emotivism, and absolutism. Comparison of ethics with science and how moral judgments are justified. Nonmajor graduate credit.

Phil 331. Moral Problems in Medicine. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 230 or junior classification.* In-depth study of some of the central moral problems arising in medicine, e.g., abortion, euthanasia, patients' rights, health care professionals' duties and responsibilities, allocation of medical resources. Major moral theories will be examined and applied. Nonmajor graduate credit.

Phil 332. Philosophy of Law. (Cross-listed with CJ St). (3-0) Cr. 3. F.S. *Prereq: 201 or 230.* Extent of our obligation to obey the law; what constitutes just punishment; how much of the immoral should be made illegal? Relation of these questions to major theories of law and the state. Discussion of such concepts as coercion, equality, and responsibility. Nonmajor graduate credit.

Phil 333. Family Ethics. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 3 credits in philosophy.* Moral dimensions of marriage and love, parent-child relations, domestic work, and moral education. Can parents and children be friends? What do children "owe" their parents? Is there a feminist mode of moral thinking? Nonmajor graduate credit.

Phil 334. Environmental Ethics. (Cross-listed with Env S). (3-0) Cr. 3. F. *Prereq: 3 credits in philosophy or junior classification.* Thorough study of some of the central moral issues arising in connection with human impact on the environment, e.g., human overpopulation, species extinction, forest and wilderness management, pollution. Several world views of the proper relationship between human beings and nature will be explored. Nonmajor graduate credit.

Phil 335. Social and Political Philosophy. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 201 or 230.* Foundations of social and political life. The basis of political organization, the nature of social and political institutions, rights and authority, justice. Original texts. Nonmajor graduate credit.

Phil 336. Bioethics and Biotechnology. (3-0) Cr. 3. *Prereq: Phil 201 or 230 or 235.* In-depth study of some central moral issues in the life sciences, e.g., genetic screening and testing, genetically engineered plants and animals, risk analysis, biotechnology patents, research ethics, biodiversity, the impact of biotechnology on society and the environment. Major moral theories will be discussed and applied. (Phil 336 contains almost no similarities to Phil 331.) Nonmajor graduate credit.

Phil 338. Feminist Philosophy. (Cross-listed with W S). (3-0) Cr. 3. F. *Prereq: 3 credits in philosophy or women's studies recommended.* A critical, theoretical examination of the oppression of women, especially as it relates to issues of race, class, and sexual orientation. How concepts such as sex and gender, self and other, nature and nurture, complicate our understanding of what it means to be a woman. Historical and contemporary feminist philosophers addressing topics such as violence, sexuality, pornography, political power, family structure and women's paid and unpaid labor. Nonmajor graduate credit.

Phil 340. Aesthetics. (3-0) Cr. 3. F. *Prereq: 201 or 230.* Is liking all there is to appreciating works of art or natural beauty? We will examine our appreciative experiences, talk about such experiences (e.g., art criticism), and what makes them valuable. Do the different arts have common values? How are their differences important? Nonmajor graduate credit.

Phil 343. Philosophy of Technology. (Cross-listed with T SC). (3-0) Cr. 3. F.S. *Prereq: 6 credits of social science or T SC 341 and 3 credits of social science.* Moral and other philosophical problems related to developments in technology. Topics may include conditions under which technological innovations contribute to human emancipation, relationship of technology and democracy, utility and limits of technical rationality, and problems of ensuring that benefits of technological advance are communally shared. Topics discussed with reference to such issues as contemporary developments in microelectronics, technology transfer to the Third World, etc. Nonmajor graduate credit.

Phil 350. Philosophy of Religion. (Cross-listed with Relig). (3-0) Cr. 3. F. *Prereq: 201.* The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God's existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings. Nonmajor graduate credit.

Phil 364. Metaphysics: God, Minds, and Matter. (3-0) Cr. 3. S. *Prereq: 3 credits in philosophy.* A survey of classical and contemporary views on some basic metaphysical issues. Issues discussed include: Does God exist? Do you have a mind and, if so, how does it relate to your body? What is the nature of cause and effect? Do objects have any essential properties? How can we account for properties objects have in common? Nonmajor graduate credit.

Phil 366. Truth, Belief and Reason. (3-0) Cr. 3. F. *Prereq: 201 or permission of instructor.* This course focuses on significant topics in theory of knowledge, including the value of true beliefs, the role of sense experience in supporting our theoretical views, and the place of reason in human nature. Historical and contemporary views will be considered.

Phil 380. Philosophy of Science. (3-0) Cr. 3. F. *Prereq: 201 or 6 credits in a science.* Introduction to the philosophy of science. A variety of basic problems common to the natural and social sciences: the nature of explanation, the structure of theories, the unity of science, and the distinction between science and nonscience. Nonmajor graduate credit.

Phil 381. Philosophy of the social and Behavioral Sciences. (3-0) Cr. 3. S. *Prereq: 201 or 6 credits in the social sciences.* Methodological, ideological, and doctrinal issues about the social and behavioral sciences against the background of influence of the natural sciences. Focus is on the historical and cultural background of 19th and 20th century western thought. Nonmajor graduate credit.

Phil 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; junior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period. Nonmajor graduate credit.

Phil 430. Value Theory. (3-0) Cr. 3. Repeatable. S. *Prereq: 230.* Theoretical and normative issues in ethics, aesthetics, religious thought, or political philosophy. Topics vary each time offered. Nonmajor graduate credit.

Phil 450. Persons and Causes. (3-0) Cr. 3. Repeatable. F. *Prereq: 3 credits in philosophy; 207 strongly encouraged.* Personal identity, agency, free will, moral responsibility, causation, future contingents, and time will be discussed. What makes a person the same person over time? Do humans have free will? Are we not morally responsible if our actions are inevitable consequences of the past and the laws of nature? What distinguishes causes from non-causes? Are there facts about the future? Nonmajor graduate credit.

Phil 460. Epistemology and Metaphysics. (3-0) Cr. 3. Repeatable. S. *Prereq: 6 credits in philosophy.* Issues in epistemology and metaphysics. Topics vary each time offered. Nonmajor graduate credit.

Phil 465. Brains, Minds, and Computers. (3-0) Cr. 3. F. *Prereq: 201.* Examination of concepts such as computability, intelligence, programming, and free will; and of arguments about whether any human capacity is forever beyond realization in a machine. Nonmajor graduate credit.

Phil 480. Controversies in Science. (3-0) Cr. 3. Repeatable. S. *Prereq: 3 credits in philosophy or 6 credits in a natural or social science.* Philosophical treatment of a branch of science that has (or has had) significant social, political, religious and/or moral implications. Possible topics include: the IQ debate, implications of Darwinism, the Galileo affair, the role of values in science, critical analysis of current science policy (e.g., the Human Genome Project). Topics will be arranged to meet the needs of interested students. Often team taught by a philosopher and a scientist from the relevant discipline. Nonmajor graduate credit.

Phil 483. Philosophy of Biology. (3-0) Cr. 3. S. *Prereq: 3 credits in philosophy or 3 credits in biology.* Biology is powerful, both as a science and in its effects on our culture. Philosophy of biology evaluates this power. Possible topics include: What makes sciences such as evolutionary theory, ecology or molecular biology so good at explaining things? What is life? Can evolution account for design? What role does chance play in evolution? Has there been progress in the evolution of life on earth? What can sociobiology tell us about human nature, behavior and culture? Nonmajor graduate credit.

Phil 485. Philosophy of Physics. (3-0) Cr. 3. *Prereq: 3 credits in Philosophy or 3 credits in Physics.* S. Conceptual and philosophical issues relating to the interpretation of theories in classical and modern physics. May include one or more of the following topics: the relationship between mathematics and the physical world; Newtonian physics (determinism and predictability); thermodynamics and statistical physics (the nature of probability; entropy and the direction of time); relativistic physics (indeterminism; realism and nonlocality; consciousness and the role of the observer). Nonmajor graduate credit.

Phil 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in philosophy; permission of instructor, approval of chairman.* Guided reading and research on special topics selected to meet needs of advanced students. No more than 9 credits of Phil 490 may be counted toward graduation.
H. Honors

Phil 492. Graduating Senior Survey. Cr. R. F.S. *Prereq: Graduating senior.* Final presentation for graduation and the future. Outcomes assessment activities. Satisfactory-fail only.

Phil 496. Ecology and Society. (Dual-listed with 596). (3-0) Cr. 3. *Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology.* Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

Phil 535. Contemporary Political Philosophy. (Cross-listed with Pol S). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 6 credits of philosophy or political science.* Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as liberalism, libertarianism, communitarianism, socialism, feminism. Normative assessments of socio-political institutions.

Phil 590. Special Topics in Philosophy. Cr. arr. Repeatable. *Prereq: Permission of instructor, 9 credits in philosophy.*
A. History of Philosophy
B. Epistemology and Metaphysics
C. Value Theory
D. Logic and Philosophy of Science

Phil 596. Ecology and Society. (Dual-listed with 496). (Cross-listed with EEOB). (3-0) Cr. 3. *Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology.* Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.

Religious Studies (Relig)

Undergraduate Study

Religious studies gives students the opportunity to investigate and reflect on the world's religions in an objective, critical, and appreciative manner. Though there is emphasis in religious studies on the wide variety of religious phenomena as well as on the various methods in the study of religion, the aim is to help students develop their own integrated understanding of the nature of religion and its role in individual and social life.

Graduates of the religious studies program have knowledge of the religious diversity in the United States and the world. They have the ability to interpret religion empathetically and critically and to compare and contrast historical and contemporary differences and similarities of religious systems. They understand ways in which religion influences and is influenced by the historical, social, and cultural contexts in which religious systems function. Graduates often pursue careers in non-profit, community organizations; apply to professional schools or graduate programs; or enter seminaries to prepare for ministry.

The program provides students with the following opportunities: to major or minor in religious studies, to fulfill group requirements, to take religious studies courses that are integrated into another major, to take religious studies courses as electives, and to develop an interdisciplinary studies major. (See the professor in charge of the religious studies program for advice.)

The major in religious studies seeks to provide both breadth and depth. Breadth is provided through the exploration of the world's various religious traditions and through exposure to a variety of theoretical approaches and methodologies in the academic study of religion. Depth is achieved through specialized courses in particular religious traditions and particular issues in the study of religions, culminating in research seminars. The objective is to expose the student to various components of the discipline of Religious Studies and by doing so develop skills that are valuable in a number of careers and that provide the necessary foundation for pursuing graduate studies.

Students pursuing a major in religious studies must complete a minimum of 33 credits, including the following requirements:

1. Either Relig 205, Introduction to World Religions or Relig 210, Religion in America.

2. One course from Judaism or Christianity:
Relig 220, Introduction to the Bible.
Relig 242, History of Christianity.
Relig 280, Introduction to Catholicism.
Relig 321, Old Testament.
Relig 322, New Testament.
Relig 333, Introduction to Judaism.

3. Either 356, African Religions or 358, Introduction to Islam.

4. Either 352, Religious Traditions of India or 353, Buddhism.

5. One course from Religion, Culture, and Society.
Relig 328, American Indian Religions.
Relig 334, African American Religious Experience.
Relig 336, Women and Religion.
Relig 339, Goddess Religions.
Relig 342, Religion and U.S. Lation/a Literature.
Relig 370, Religion and Politics.
Relig 377, Social Dimensions of Religion.
Relig 384, Religion and Ecology.

6. Relig 385, Theory and Methods in the Study of Religion.

7. Three hours of Relig 475, Seminar.

8. A minimum of 12 credits of elective Religious Studies courses.

The program offers a minor which may be earned by completing a total of 15 credits in religious studies including either Relig 205 or 210. Nine hours must be in courses at the 300 level or above (no more than 3 hours of seminar and no more than 3 hours of independent study).

Communication Proficiency requirement: The department requires a grade of C or better in each of English 150 and 250 (or 250H), and requires one 300 level course in religious studies in which writing is evaluated as acceptable.

Students may choose to do a senior thesis under the supervision of a religious studies faculty adviser. This option may earn 3-6 credits toward the completion of the major.

Graduate Study

The program offers courses for nonmajor graduate credit in religious studies as supporting work in other fields. Religious studies may also be one of the three areas used for the interdisciplinary graduate studies master's degree.

Courses primarily for undergraduate students

Relig 205. Introduction to World Religions. (3-0) Cr. 3. F.S.SS. An introduction to the academic study of religions, including myths, beliefs, rituals, values, social forms. Examples chosen from oral cultures and major religions of the world.

Relig 210. Religion in America. (3-0) Cr. 3. F.S.SS. Introductory study of the major beliefs, practices, and institutions of American Judaism, Catholicism, Protestantism, and Islam with emphasis on the diversity of religion in America, and attention to issues of gender, race, and class.

Relig 220. Introduction to the Bible. (3-0) Cr. 3. F.S. Basic overview of the contents of the Old and New Testament in light of their ancient socio-historical background, and with attention to a variety of interpretations and relevance to modern American society.

Relig 242. History of Christianity. (3-0) Cr. 3. F.S.SS. An introduction to Christian thought and practice from an historical point of view, stressing the development of belief, spirituality, and organization, and the continuities and changes involved in these developments.A. The Early Church through the Medieval period. B. The Reformation period to the present time.

Relig 280. Introduction to Catholicism. (3-0) Cr. 3. F. An explanation of the beliefs, spirit, and practices of Roman Catholicism, including its understanding of God, sacramentality, the human person, and community, and its relationship to other forms of Christianity and other world religions.

Relig 321. Old Testament. (3-0) Cr. 3. F. An in-depth study of the literature and religion of ancient Israel in light of recent archaeological discoveries, research about the ancient Near East, and a variety of interpretations. Nonmajor graduate credit.

Relig 322. New Testament. (3-0) Cr. 3. S. A detailed survey of the sacred scriptures of Christianity in light of recent archaeological discoveries and historical research about their Greco-Roman and Jewish background. Nonmajor graduate credit.

Relig 323. Science and Religion. (Cross-listed with Hist). (3-0) Cr. 3. *Prereq: Sophomore classification.* History of changing interplay of science and religion in our understanding nature, from the trial of Galileo to the reception of Darwin.

Relig 328. American Indian Religions. (Cross-listed with Am In). (3-0) Cr. 3. An introduction to the beliefs and rituals of Native American religious traditions, with attention to cultural and historical contexts and implications. Nonmajor graduate credit.

Relig 333. Introduction to Judaism. (3-0) Cr. 3. An introduction to basic Judaism. Special attention is given to Jewish sacred texts, rituals, social practices, and modern forms.

Relig 334. African American Religious Experience. (Cross-listed with Af Am). (3-0) Cr. 3. F. *Prereq: Prior course work in Religious Studies or African American Studies required.* Examination of the African American experience from the perspective of black religion and the black church, with attention to political, economic, and social, as well as spiritual, concerns. Nonmajor graduate credit.

Relig 336. Women and Religion. (Cross-listed with W S). (3-0) Cr. 3. F. *Prereq: 105, 210 or W S 201 recommended.* Examines the status of women in various religions, feminist critiques of religious structures and belief systems, and contemporary women's spirituality movements. Nonmajor graduate credit.

Relig 339. Goddess Religions. (Cross-listed with W S). (3-0) Cr. 3. *Prereq: Relig 205 recommended.* Exploration of the foundational myths of Goddess spirituality, including historical and cross-cultural female images of the divine and their modern usage by American women. Nonmajor graduate credit.

Relig 340. Magic, Witchcraft, and Religion. (Cross-listed with Anthr). (3-0) Cr. 3. S. *Prereq: Anthr 201 or 306.* Origin and development of indigenous magico-religious systems; myth and ritual; therapeutic aspects; symbols and meanings; religion and sociocultural change, including acculturation, nativistic, and revitalization movements.

Relig 342. Religion and U.S. Latino/a Literature. (3-0) Cr. 3. Alt. S., offered 2010. A study of the religious behavior and attitudes expressed in the literature of Mexican Americans, Puerto Ricans, Cuban Americans and other groups of people living in the U.S. who trace their ancestry to the Spanish-speaking countries of Latin America. Nonmajor graduate credit.

Relig 348. Psychology of Religion. (Cross-listed with PSYCH). (3-0) Cr. 3. *Prereq: Nine credits in psychology.* Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.

Relig 350. Philosophy of Religion. (Cross-listed with Phil). (3-0) Cr. 3. F. *Prereq: Phil 201.* The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God's existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings. Nonmajor graduate credit.

Relig 352. Religious Traditions of India. (3-0) Cr. 3. *Prereq: Prior course work in Asian, Asian-American or Religious Studies or Anthropology required.* Examines the religious traditions of India, including Hinduism, Jainism, and Skihism, through text, ritual, and contemporary practice. Nonmajor graduate credit.

Relig 353. Buddhism. (3-0) Cr. 3. S. The various Buddhist paths to realize enlightenment and freedom. Special attention to meditation and yoga and their relationship to altered states of consciousness and to social contexts. Nonmajor graduate credit.

Relig 356. African Religions. (3-0) Cr. 3. *Prereq: Prior course work in African, African-American or Religious Studies or Anthropology required.* An introduction to the teachings, practices, and history of the religions that originated in Africa and other religions which have gained substantial followings among African peoples. Nonmajor graduate credit.

Relig 358. Introduction to Islam. (3-0) Cr. 3. An introduction to Islamic religion, culture, and society from 700 to the present. Nonmajor graduate credit.

Relig 360. Religious Ethics. (3-0) Cr. 3. Investigates different religious ethical theories and traditions of reasoning about practical moral issues (e.g., abortion, the just distribution of wealth, environmental ethics). Explores in detail the relationship between religious beliefs and moral practice.

Relig 367. Christianity in the Roman Empire. (Cross-listed with Cl St). (3-0) Cr. 3. An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries. Nonmajor graduate credit.

Relig 370. Religion and Politics. (Cross-listed with Pol S). (3-0) Cr. 3. *Prereq: Relig 105 or 210 recommended.* The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally. Nonmajor graduate credit.

Relig 376. Classical Archaeology. (Cross-listed with Cl St, Hist). (3-0) Cr. 3. Repeatable. S. Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
A. Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece. (ca 3000-700 BC).
B. Archaic through Hellenistic Greece (ca 700-30 BC).

Relig 377. Social Dimensions of Religion. (Cross-listed with Soc). (3-0) Cr. 3. *Prereq: Prior course work in Religious Studies or Sociology required.* The influence of religion in society, both as a conservator of values and as a force for social change. Nonmajor graduate credit.

Relig 380. Catholic Social Thought. (3-0) Cr. 3. S. Examines biblical roots of and major developments in Catholic social thought. Contemporary issues such as human rights, economic justice, the environment, and war and peace will be treated using principles of Catholic ethics, social analysis, official church documents, and contributions of notable theologians and activists. Nonmajor graduate credit.

Relig 384. Religion and Ecology. (Cross-listed with Env S). (3-0) Cr. 3. Introduction to concepts of religion and ecology as they appear in different religious traditions, from both a historical and contemporary perspective. Special attention to religious response to contemporary environmental issues. Nonmajor graduate credit.

Relig 385. Theory and Method in Religious Studies. (3-0) Cr. 3. *Prereq: 6 credits in Religious Studies or permission of instructor.* Examines the variety of theories and methods employed in the study of religion. Application of these methods to various religions of the world. Nonmajor graduate credit.

Relig 475. Seminar: Issues in the Study of Religion. (3-0) Cr. 3. *Prereq: 6 credits in religious studies.* Topic changes each time offered. Closed to freshmen. Sophomores must have approval of instructor. Nonmajor graduate credit.

Relig 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in religious studies, and permission of instructor, approval of professor in charge of program.* Guided reading and research on special topics selected to meet the needs of advanced students. No more than 9 credits of Relig 490 may be counted toward graduation.
H. Honors

Relig 491. Senior Thesis. Cr. 3. Written under the supervision of a Religious Studies faculty advisor.

Relig 494. Special Studies in Religious Research Languages. Cr. arr. Repeatable. *Prereq: 6 credits in Religious Studies and permission of instructor.*

Relig 499. Peace and Justice Internship. Cr. arr. Repeatable. *Prereq: 3 credits in religious studies, permission of faculty internship coordinator.* Supervised placement with a peace and justice agency; structured reflection on the relation of religion and practical social issues. Satisfactory-fail only.

Courses primarily for graduate students, open to qualified undergraduate students

Relig 590. Special Topics in Religious Studies. Cr. arr. Repeatable. *Prereq: Permission of instructor, 9 credits in religious studies.*

Joseph Shinar, Chair of Department

Distinguished Professors: Canfield, Goldman, Harmon, Ho, Johnston, Soukoulis

Distinguished Professors (Emeritus): Clem, Finnemore, Lynch, Swenson

University Professor: Willson

Professors: Anderson, Carter-Lewis, Crawley, Hauptman, Hill, Kawaler, Krennrich, Lajoie, Luban, Ogilvie, Qiu, Rosenberg, Schmalian, Shinar, Struck, Tringides, Valencia, Vary, Whisnant, Wolford

Professors (Adjunct): Meyer, Vaknin

Professor (Collaborator): Womersley

Associate Professors: Cochran, Mcqueeney, Pohl, Prell, Rosati, Travesset-Casas

Associate Professors (Adjunct): Biswas, Budko, Kogan

Assistant Professors: Kaminski, Kerton, Prozorov, Sivasankar, Tuchin, Wang, Yu

Assistant Professor (Adjunct): Kreyssig

Senior Lecturers: Atwood, Herrera-Siklody

Lecturers: Fretwell, Frishman, Levin, Meyers, Schuler, Shirokov

Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in physics, leading to the degree bachelor of science, see *Liberal Arts and Sciences, Curriculum.*

Physics and astronomy are basic natural sciences which attempt to describe and provide an understanding of both our world and our universe. Physics serves as the underpinning of many different disciplines including the other natural sciences

and technological areas. Graduates are proficient in the methods of rigorous scientific analysis, relevant mathematical techniques, and modern computational and laboratory methods. They have a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, and modern physics. They are able to communicate clearly and effectively at general and technical levels. They are prepared to pursue a wide range of careers as a professional physicist, astronomer, or science educator. They are also prepared to pursue advanced studies and careers in areas as diverse as engineering, medicine, law, and business administration.

Many opportunities exist for students who terminate their studies with a bachelor's degree, especially when combined with technology studies in other areas. Students who meet the necessary scholastic standards often continue their studies in a graduate college, exploring and contributing to new developments in the field.

The department normally expects each student majoring in physics to complete at least the following courses: Phys 221, 222, 321, 321L, 322, 322L, 304, 306, 361, 362, 364, 365, and three credits of laboratory work chosen from 310, 311, 311T, 470L, or Astro 344L. All students are required to earn at least 5 credits in laboratory work in physics in addition to the laboratory components of Phys 221 and 222. These 5 credits must be in courses numbered 300 or higher or in approved substitutions. All students must earn at least 20 credits in physics and astronomy courses numbered 304 or higher. The basic list of expected courses is not a rigid requirement and changes in this basic list will be approved by the department curriculum committee on recommendation of the student's adviser when such changes will better serve the student's needs. In particular, students planning a physics major and also seeking certification for high school teaching may, with the approval of their adviser, follow a significantly different program designed to meet their particular needs; these students should consult the department for further information. Further information concerning programs of study, including sample degree programs, is available from the department.

Students majoring in physics who wish an emphasis in astronomy/astrophysics should consider a minor in astronomy (see below). Those planning graduate work in physics or astronomy/astrophysics should add to the basic list the courses Phys 480 and 481. Other useful courses include Phys 496, Math 365, 426, and 471, and Stat 447. One or more of Astro 405, Phys 511 or 526 may also be added according to interest.

The department offers a minor in physics which may be earned by completing 20 credits in physics courses chosen as follows: Phys 221, 222; 321; at least one credit of laboratory chosen from 321L, 322L, 310, 311, and 311T. Other acceptable courses are 304, 306, 322, 361, 362, 364, 365, 480, 481, and 496.

The department offers a minor in astronomy which may be earned by completing 15 credits chosen as follows: a total of 12 or more credits in Astro courses (must include Astro 344L and may include one of the courses Astro 120, Astro 150 or Astro 250), with the remaining 3 credits (if applicable) chosen from among Physics 304, 321, 361, 362, 364, 365, 480, 481, or 496; 12 or more credits must be at the 300 level or higher. Note that the same course may not be used to satisfy both the requirements of a physics major and an astronomy minor.

Communication Proficiency requirement: The department requires a grade of C or better in each of Engl 150 and 250 (or 250H), and a C– or better in Engl 302, 305, 309 or 314. Students are also encouraged to study at least one foreign language.

The expected outcomes for students in these programs are: (1) a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, wave motion and modern physics; (2) proficiency in laboratory methods; (3) proficiency in modern scientific computational methods; and (4) a sound foundation in the liberal arts including proficiency in communication skills.

In addition to the performance on exams and course grades, information on evaluating of the success in meeting these goals is obtained by: (1) an annual written survey of all students majoring in the program: (2) an annual written survey of all graduating seniors; (3) a periodic written survey of program alumni; (4) student evaluations of all courses; (5) adviser evaluations; and (6) a bimonthly meeting of program majors with the department chair.

Graduate Study

The department offers studies for the degrees master of science and doctor of philosophy with majors at both levels in applied physics, astrophysics, condensed matter physics, high energy physics, nuclear physics, and physics; and minor credit courses for students majoring in other departments.

Facilities of various research groups of the department, the Ames Laboratory, and the Applied Science Center, including the Microelectronics Research Center, are available for research.

Students with bachelor's degrees in physics or astronomy from other institutions ordinarily will qualify for graduate study at Iowa State provided they have satisfactorily completed course work similar to that suggested for undergraduate majors here intending to go on to graduate school. In some cases additional instruction at the intermediate level may be required.

Graduates have a broad understanding of physical science, as well as mastery of state-of-the-art methods in their area of specialization. They are able to communicate effectively to a wide range of audiences, from the general public to research colleagues. Their skills in rigorous scientific thinking prepare them for leadership in the broader community. They are skilled in carrying out research, communicating research results, and soliciting research support. They have considerable teaching experience. They have developed problem solving skills that prepare them for careers in either industry or academia.

All candidates for an advanced degree in physics are expected to complete Phys 531, 564, 571, 572, 591 and 592. Candidates for an advanced degree in applied physics are expected to complete Phys 571, 591, 470L (6 cr.), 699 (3 cr.), and either 572. Candidates for an advanced degree in astrophysics should complete Phys 531 and/or 564, Phys 571, Phys 591, Astro 505, and Astro 510. Astrophysics Ph.D. candidates must take at least three of the 580 level Astro courses, while candidates for the Research Masters must take at least two 580 level Astro courses.

Except for the applied physics major where a thesis is always required, the degree master of science is offered both with and without thesis. For all areas of study except applied physics the basic requirements for the M.S. are the same: at least 30 credits of acceptable graduate work must be completed, not less than 21 of which must be in physics or astronomy. Students must complete not less than 6 credits from outside their major area, with 3 credits being required from outside the department, and 3 credits from a 500 or 600 level course in another area of specialization. Students choosing a M.S. degree with thesis may apply up to 8 credits of 699 but no credits of 599 toward the minimum 30 credits. Students choosing a degree without thesis should apply 2 credits of 599, but may not apply any credits of 699 toward the minimum 30 credits.

Students whose major area is applied physics must complete at least 30 credits of acceptable graduate work for the M.S. degree and not less than 19 credits of these must be in the required courses listed above; the remaining 11 credits of the 30 credit minimum may be chosen freely either from within the student's major area or from without and either from the department or outside, but it should be noted that not more than 3 credits of Phys 699 may be applied toward the 30 credit minimum.

In addition to course work in the major area of study, all candidates for the Ph.D. degree must complete 12 credits from outside this area. Of these 6 must be taken from other departments and 6 must be taken from the department with the additional constraint that this latter 6 must include at least one 500 or 600 level introductory course in another area of specialization. Each candidate for the Ph.D. degree is required to teach one year of elementary physics or astronomy.

Graduate students interested in a physics minor should contact the department for requirements.

Astronomy and Astrophysics (Astro)

Courses primarily for undergraduate students

Astro 102. North Star Astronomy. Cr. 1. F.S. An entirely WEB-based course covering topics in observing the sky and navigation by the stars for students with little or no previous experience. The course combines material on common naked-eye phenomena, such as daily and seasonal variations in the sky, with information on how these helped navigators determine where they are on Earth. The course "lectures" are on-line, interactive units with build in exercises, hands-on (offline) activities and layers of help. Graded homework and quizzes are administered via Web-CT. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

Astro 103. Evening Star. Cr. 1. F.S. An entirely web-based course covering topics in celestial mechanics. ("Rocket science!") For students with little or no previous experience. It combines the geography of the solar system with discussion of methods of traveling to the other planets. The course "lectures" are on-line, interactive units with built-in exercises, hands-on (offline) activities, and layers of help. Graded homework and quizzes are administered via WebCT. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

Astro 120. The Sky and the Solar System. (3-0) Cr. 3. F.S.SS. For the nonscientist. The sky: constellations; motions of the sun, moon, and planets; seasons and the calendar; eclipses. The solar system: origin and evolution; characteristics of the sun, planets, satellites, comets, meteorites, and asteroids. Extensive use of the planetarium is included. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

Astro 125L. The Sky and the Solar System Laboratory. (0-2) Cr. 1. F.S. *Prereq: Concurrent or previous enrollment in Astro 120.* Laboratory course to accompany Astro 120. Students carry out practical exercises involving naked eye and telescopic observing to explore and reinforce ideas covered in Astro 120. Activities based on a sky-simulation computer program and other weather-independent exercises are also included.

Astro 150. Stars, Galaxies, and Cosmology. (3-0) Cr. 3. F.S. For the nonscientist. Observational aspects of stellar astronomy: motions, distances, sizes, spectra; types of stars; variability; binary systems. Stellar evolution: the birth, life, and death of stars, including supernovae, neutron stars, and black holes. The Milky Way Galaxy: clouds of matter in space, the structure and evolution of our galaxy. Other galaxies, clusters of galaxies, quasars. Theories of the origin of the universe.

Astro 250. Astronomy Bizarre. (3-0) Cr. 3. S. *Prereq: 120 or 150.* For the nonscientist. New and exciting topics in modern astronomy. Galaxy and star formation. Black holes and pulsars. Colliding galaxies. Quasars. Cosmology, the Big Bang and the future of the universe. Prospects and searches for extraterrestrial life.

Astro 290. Independent Study. Cr. arr. Repeatable. *Prereq: Permission of instructor.*

Astro 342. Introduction to Solar System Astronomy. (3-0) Cr. 3. F. *Prereq: Phys 222.* Analytical and comparative studies of solar system objects-planets, satellites, rings, asteroids, comets, meteoroids, and interplanetary dust-with emphasis on the physical processes affecting them, their interactions, and their evolution. Orbital mechanics, including perturbations, stability, and resonances. Tidal forces and effects. Radiation laws and thermal physics with applications. Brief study of the sun as a star, and of stellar evolution. Origin and evolution of the solar system. Detection of other planetary systems. Nonmajor graduate credit.

Astro 344L. Astronomy Laboratory. (1-6) Cr. 3. F. *Prereq: Phys 222.* Experiments in optical astronomy. Observational techniques, ranging from stellar photometry to CCD imaging. Available instruments include a variety of small telescopes up to 14-inch in size. Class meets at Fick Observatory south of Boone. Nonmajor graduate credit.

Astro 346. Introduction to Astrophysics. (3-0) Cr. 3. S. *Prereq: Phys 222.* Basic radiation theory; spectra. Observational determination of stellar properties; spectral classification. Binary systems. Stellar structure and evolution. White dwarfs, neutron stars, black holes. The Galaxy: structure and composition; the interstellar medium. Other galaxies; active galaxies; cosmology. Nonmajor graduate credit.

Astro 405. Astrophysical Processes. (Dual-listed with 505). (3-0) Cr. 3. F. *Prereq: 346 or permission of instructor.* Survey of astrophysical processes relating to stars, galaxies and the Universe. Radiation transport, radiation processes, scattering, kinetic description of plasma, hydrodynamics, magnetohydrodynamics, MHD waves, shocks, properties of systems in local thermodynamic equilibrium, non-thermal systems, astrophysical effects of general relativity.

Astro 450. Undergraduate Research. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.* Research under supervision of astronomy faculty.

Astro 450L. Undergraduate Research. Cr. arr. Repeatable. F.S.SS. *Prereq: 344L and permission of instructor.* Laboratory or observational project under supervision of astronomy faculty.

Astro 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in astronomy, permission of instructor.* No more than 9 credits of Astro 490 may be counted toward graduation.
H. Honors

Courses primarily for graduate students, open to qualified undergraduate students

Astro 505. Astrophysical Processes. (Dual-listed with 405). (3-0) Cr. 3. F. *Prereq: 346 or permission of instructor.* Survey of astrophysical processes relating to stars, galaxies and the Universe. Radiation transport, radiation processes, scattering, kinetic description of plasma, hydrodynamics, magnetohydrodynamics, MHD waves, shocks, properties of systems in local thermodynamic equilibrium, non-thermal systems, astrophysical effects of general relativity.

Astro 510. Observational Astrophysics. (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: 405 or 505.* Techniques in optical and near-IR astronomy, including spectroscopy and CCD photometry. Emphasis on projects involving proficiency in the use of research telescopes and modern instrumentation. Project topics range from photometric studies of pulsating and binary star systems to deep CCD imaging of faint nebulae and galaxies.

Astro 580. Stellar Astrophysics. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 405 or 505.* The interior structure and atmospheric properties of stars: Stellar structure equations and constitutive relations: energy generation, energy transport by radiation and convection; equation of state, nuclear energy generation and nucleosynthesis. Numerical and analytic solutions to the equations of structure and evolution. Observational connections through the theory of radiative transfer. Line and continuum processes and sources of opacity. Non-LTE and statistical equilibrium. Line profiles. Interpretation of stellar spectra: temperature, pressure, and abundance determinations. Stellar evolution from formation to final phases.

Astro 582. High Energy Astrophysics. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 405 or 505.* Interactions of high-energy particles, non-thermal radiation processes, spectral evolution of non-thermal systems, cosmic rays, active galactic nuclei, pulsars, neutrinos, measurement techniques for relativistic charged particles, high energy photons, and neutrinos.

Astro 584. Galactic Astronomy. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 405 or 505.* Overall structure of our Galaxy and the interstellar medium. Physical processes in the interstellar medium (e.g., heating and cooling mechanisms, turbulence). Observational techniques for studying the interstellar medium. Kinematics and chemical evolution of the Galaxy.

Astro 586. Extragalactic Astronomy. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 405 or 505.* Galaxy evolution, dynamics of external galaxies, evolution and classification of galaxies, groups and clusters of galaxies, extragalactic radio sources, quasars, structure formation, cosmological models and their observational consequences.

Astro 590. Special topics. Cr. arr. Repeatable.

Astro 599. Creative Component. Cr. arr. *Prereq: Permission of instructor.* Individually directed study of research-level problems for students electing the nonthesis M.S. option in astronomy.

Astro 650. Advanced Seminar. (1-0) Cr. 1. Repeatable. F.S. Topics of current interest in astronomy and astrophysics. Satisfactory-fail only.

Astro 660. Advanced Topics in Astronomy and Astrophysics. Cr. arr. Repeatable. F.S. Topics in stellar, galactic, and extragalactic astronomy, including stellar evolution, solar physics, variable stars, compact objects, the interstellar medium, active galaxies and quasars, formation and evolution of galaxies, cosmology, high energy astrophysics, advanced observational techniques, and astrophysical applications of hydrodynamics.

Astro 675. Advanced Stellar Astrophysics. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 405 or 505 and 580.* Advanced topics in stellar astrophysics. Dynamic and extended atmospheres, chromospheres, coronae, and stellar winds. MHD, stellar activity, and dynamo theory. Radiative transfer and the transition from extended atmospheres to the interstellar medium. Diffusive processes in stellar atmospheres and interiors. Techniques for quantitative analysis of planetary and stellar spectra including detailed modeling and spectrum synthesis. Evolution in interacting binaries. Nucleosynthesis II. Variable stars. Supernovae. Neutron stars and black holes.

Astro 699. Research. Cr. arr. Repeatable.

Physics (Phys)

Courses primarily for undergraduate students

Phys 101. Physics for the Nonscientist. (3-0) Cr. 3. F.S. Survey of the principal areas of both classical and modern physics. Emphasis on the nature of the physical universe and the application of physical principles to life in the modern world. Not suitable to meet a general physics requirement for natural science majors.

Phys 106. The Physics of Common Experience. (4-2) Cr. 4. F.S. Elementary topics from mechanics, heat, electricity, sound, and light, emphasizing the use of basic principles to understand everyday experience. Includes practical problem exercises and a coordinated laboratory. Not suitable to meet a general physics requirement for natural science majors.

Phys 111. General Physics. (4-2) Cr. 4. F.S.SS. *Prereq: 1 1/2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry.* General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Mechanics, fluids, heat and thermodynamics, vibrations, waves, sound.

Phys 112. General Physics. (4-2) Cr. 4. F.S.SS. *Prereq: 111.* General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Electricity and magnetism, ray and wave optics, topics in modern physics.

Phys 198. Physics of Music. (2-2) Cr. 3. F. Introductory level course on sound for nonphysics majors. Properties of pure tones and harmonics; human perception of sound; room acoustics; scales; production, and analysis of musical by voice, string, woodwind, brass, and percussion instruments. Not suitable to meet a general physics requirement for natural science majors.

Phys 199. Introductory Seminar. Cr. R. F. (1-1) Gain experience in key skills that physicists/astronomers use routinely, but are rarely explicitly taught in formal courses. Participate in faculty-led discussions on frontier areas and careers. Satisfactory-fail only.

Phys 221. Introduction to Classical Physics I. (4-1) Cr. 5. F.S.SS. *Prereq: Credit or enrollment in Math 166.* For engineering and science majors. 3 hours of lecture each week plus 3 recitations and 1 laboratory every 2 weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound.
H. Honors. F.S.

Phys 222. Introduction to Classical Physics II. (4-2) Cr. 5. F.S.SS. *Prereq: 221, Math 166.* 3 hours of lecture each week plus 1 recitation and 1 laboratory each week. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields: LR, LC, LCR circuits; Maxwell's equations; ray optics and image formation; wave optics: topics in modern physics.
H. Honors. F.S.

Phys 290. Independent Study. Cr. arr. Repeatable. *Prereq: Permission of instructor.*

Phys 298. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; sophomore classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Phys 302. The Challenge of Contemporary Physics. (3-0) Cr. 3. S. *Prereq: Sophomore classification.* A largely nonmathematical but intellectually challenging exploration of physics, which assumes no previous work in the field. Selected material from classical and modern physics establishes the conceptual framework for the study of major areas of contemporary physics, culminating in the discussion of topics at the frontier of present knowledge. Topics vary yearly and

may include quarks, lasers, superconductivity, fission and fusion, solid state devices, gravitational waves, string theory, facilities, left handed materials, and quantum computing. Not suitable to meet a general physics requirement for natural science majors.

Phys 304. Thermal Physics. (3-0) Cr. 3. F. *Prereq: 222, Math 266.* Concepts of temperature, entropy, and other characteristic thermodynamic functions, with application to macroscopic properties of matter. The laws of thermodynamics. Introduction to statistical mechanics, including quantum statistics. Application to black body radiation, crystalline vibrations, magnetic ions in solids, electronic heat capacity of metals. Phase transformations and chemical reactions. Nonmajor graduate credit.

Phys 306. Physics of Wave Motion. (3-0) Cr. 3. S. *Prereq: 222, credit or enrollment in Math 267.* Oscillating systems including damped and forced oscillations; fluids, geometric optics, water waves, the wave equation, Fourier and Laplace transforms, non-uniform media, cylindrical and spherical waves, polarization, interference and diffraction, transmission lines, non-linear waves.

Phys 310. Electronic Instrumentation for Experimental Physics. (2-4) Cr. 4. F. *Prereq: 222; Math 166.* Common electrical instruments; power supplies; transducers; passive and active devices, analog integrated circuits, including filters and amplifiers; digital integrated circuits; signal transmission and enhancement. Nonmajor graduate credit.

Phys 311. Intermediate Laboratory. Cr. arr. Repeatable. S. *Prereq: 322.* Experiments in classical and modern physics performed independently by each student. Nonmajor graduate credit.

Phys 311T. Intermediate Laboratory. (0-6) Cr. 3. Repeatable. S. *Prereq: 112 or 222.* Experiments in classical and modern physics performed independently by each student. For students preparing for a career in high school teaching.

Phys 321. Introduction to Modern Physics I. (3-0) Cr. 3. F. *Prereq: 222, credit or enrollment in Math 266.* Quantum nature of matter: photons, de Broglie's postulate: wave-like properties of matter; Bohr's model of hydrogen atom; Schrodinger equations in one dimension: energy quantization; detailed solutions for potential steps, barriers and wells; one-electron atoms, spin and magnetic interactions; ground states, optical and x-ray excitations of multi-electron atoms.

Phys 321L. Introductory Laboratory in Modern Physics. (0-2) Cr. 1. F. *Prereq: Credit or enrollment in 321.* Experiments related to the foundations of modern physics. The dual wave and particle character of electrons and photons, statistics, interferometry and x-ray spectroscopy.

Phys 322. Introduction to Modern Physics II. (3-0) Cr. 3. S. *Prereq: 321.* Quantum statistics; lasers; physics of molecules. Properties of solids, including electron band structure, superconductivity and magnetism. Nuclear physics, including nuclear sizes and masses, stability, decay modes, reactions, fission and fusion. Elementary particles, including strangeness, charm, and quarks. Fundamental forces of nature.

Phys 322L. Introductory Laboratory in Modern Physics II. (0-2) Cr. 1. S. *Prereq: Credit or enrollment in 322.* Experiments related to the foundations of modern physics. Radioactive decay, elementary particles, Hall effect, quantization, spectroscopy, statistics and instrumentation.

Phys 361. Classical Mechanics. (3-0) Cr. 3. F. *Prereq: 222, Math 265, 266.* Newtonian mechanics including forced oscillations, central forces and orbital motion, collisions, moving frames of reference, Lagrange's equations. Nonmajor graduate credit.

Phys 362. Intermediate Mechanics. (3-0) Cr. 3. S. *Prereq: 361.* Rigid body motion; small oscillations, normal modes. Special relativity including length contraction, time dilation, simultaneity, Lorentz transformation, 4-vector covariant formalism, relativistic mechanics. Nonmajor graduate credit.

Phys 364. Electricity and Magnetism I. (3-0) Cr. 3. F. *Prereq: 222, Math 385 or Math 395.* Static electric and magnetic fields, potential theory; electromagnetism, Maxwell's equations. Nonmajor graduate credit.

Phys 365. Electricity and Magnetism II. (3-0) Cr. 3. S. *Prereq: 364.* Relativistic electromagnetic theory; radiation and propagation of electromagnetic waves; interaction with matter. Nonmajor graduate credit.

Phys 389. Seminar. Cr. R. S. (1-0) Required of all junior physics majors. Career opportunities: graduate school programs and application, job placement, alternative careers, basic skills needed for the job market competition. Satisfactory-fail only.

Phys 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; junior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Phys 399. Seminar on Secondary School Physics. Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor.* Review of materials and curricula for secondary school physics presented and discussed by members of the class. Required for approval to teach physics in secondary schools.

Phys 432. Molecular and Cell Biophysics. (Dual-listed with 532). (3-0) Cr. 3. S. *Prereq: 304 or Chem 325..* Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes. Nonmajor graduate credit.

Phys 450. Undergraduate Research. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.* Theoretical research under supervision of physics faculty.

Phys 450L. Undergraduate Research. Cr. arr. Repeatable. F.S.SS. *Prereq: 311, permission of instructor.* Laboratory project under supervision of physics faculty.

Phys 470L. Applied Physics Laboratory. Cr. arr. Repeatable. F.S.SS. *Prereq: 322 and permission of instructor.* Studies in modern experimental techniques via experimentation and simulation in various areas of applied physics, e.g. superconductivity, optical spectroscopy, nuclear magnetic resonance, electron spin resonance, x-ray diffraction, and computation of electronic and structural properties of matter.

Phys 480. Quantum Mechanics I. (3-0) Cr. 3. F. *Prereq: 322, Math 385.* First semester of a full-year course. A systematic development of the formalism and applications of quantum mechanics. Solutions to the time independent Schrodinger equation for various one-dimensional potentials including the harmonic oscillator; operator methods; Heisenberg picture; angular momentum; the hydrogen atom; spin; symmetry properties. Nonmajor graduate credit.

Phys 481. Quantum Mechanics II. (3-0) Cr. 3. S. *Prereq: 480.* Continuation of 480. Addition of angular momentum; charged particles in electromagnetic fields; time-independent perturbation theory; variational principles; WKB approximation; interaction picture; time-dependent perturbation theory; adiabatic approximation; scattering; selected topics in radiation theory; quantum paradoxes. Nonmajor graduate credit.

Phys 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in physics, permission of instructor.* No more than 9 credits of Phys 490 may be counted toward graduation.
H. Honors

Phys 496. Modern Optics. (Cross-listed with E E). (3-0) Cr. 3. *Prereq: Credit or enrollment in Phys 322 and 365.* Review of wave and electromagnetic theory; topics selected from: reflection/refraction, interference, geometrical optics, Fourier analysis, dispersion, coherence, Fraunhofer and Fresnel diffraction, holography, quantum optics, nonlinear optics. Nonmajor graduate credit.

Phys 498. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of the department cooperative education coordinator; senior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduate students

Phys 501. Oral Communication of Physics Seminar. (2-0) Cr. 1. Repeatable. F. A practical introduction to communication methods in physics and astronomy classrooms and professional settings. For graduate physics majors only. Satisfactory-fail only.

Phys 502. Introductory Research Seminar. Cr. R. F. (1-1) Discussion by research staff of their research areas, expected thesis research work, and opportunities in the field. For graduate physics majors only. Satisfactory-fail only.

Phys 511. Condensed Matter Physics I. (3-0) Cr. 3. S. *Prereq: 304, credit or enrollment in 481.* First semester of a full-year course. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

Phys 512. Condensed Matter Physics II. (3-0) Cr. 3. F. *Prereq: 511.* Continuation of 511. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

Phys 526. Particle and Nuclear Physics. (4-0) Cr. 4. S. *Prereq: Credit or enrollment in 481.* Basic properties and structures of nuclei, hadrons, and elementary particles; weak and strong interactions; the Standard Model; accelerators and detectors; nuclear models; nuclear decay and stability; nuclear astrophysics; the Higgs mechanism; the CKM matrix; running coupling constants; relativistic heavy-ion collisions; selected topics beyond the standard model such as SUSY and grand unification.

Phys 531. Statistical Mechanics. (3-0) Cr. 3. S. *Prereq: 304 and credit or enrollment in 481, Math 465, credit or enrollment in Math 365 or 426.* Thermodynamic properties of systems of many particles obeying Boltzmann, Fermi-Dirac, and Bose-Einstein statistics; microcanonical, canonical, and grand canonical ensembles and their application to physical problems; density matrices; introduction to phase transitions; renormalization group theory; kinetic theory and fluctuations.

Phys 532. Molecular and Cell Biophysics. (Dual-listed with 432). (3-0) Cr. 3. S. *Prereq: 304 or Chem 325..* Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes.

Phys 534. Symmetry and Group Theory in Physics. (3-0) Cr. 3. S. *Prereq: Credit or enrollment in 481.* Theory of groups and group representations; introduction to both point and continuous groups, and their applications in physics.

Phys 535. Physics of Semiconductors. (Cross-listed with E E). (3-3) Cr. 4. *Prereq: E E 311 and E E 332.* Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic structures, crystal structure, energy bands, equilibrium carrier concentration and doping, excess carriers and recombination, carrier transport at low and high fields, phonons, optical properties, amorphous semiconductors, heterostructures, and surface effects. Laboratory experiments on optical properties, carrier lifetimes, mobility, defect density, doping density.

Phys 536. Physics of Semiconductor Devices. (Cross-listed with E E). (3-0) Cr. 3. *Prereq: E E 535.* P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers, heterojunctions, bipolar transistors, field-effect transistors, negative-resistance devices and optoelectronic devices.

Phys 541. General Relativity. (3-0) Cr. 3. F. *Prereq: 362 or Math 465.* Tensor analysis and differential geometry developed and used to formulate Einstein field equations. Schwarzschild and Kerr solutions. Other advanced topics may include gravitational radiation, particle production by gravitational fields, alternate gravitational theories, attempts at unified field theories, cosmology.

Phys 551. Computational Physics. (0-4) Cr. 2. S. *Prereq: 365, credit or enrollment in 481.* Use of modern computational techniques to analyze topics in classical and modern physics. Satisfactory-fail only.

Phys 564. Advanced Classical Mechanics. (3-0) Cr. 3. F. *Prereq: 362, Math 426, 465.* Variational principles, Lagrange's equations, Hamilton's canonical equations, canonical transformations, Hamilton-Jacobi theory, infinitesimal transformations, classical field theory, canonical perturbation theory, classical chaos.

Phys 571. Electricity and Magnetism I. (3-0) Cr. 3. F. *Prereq: 365, Math 426.* Electrostatics, magnetostatics, boundary value problems, Maxwell's equations, wave phenomena in macroscopic media, wave guides.

Phys 572. Electricity and Magnetism II. (3-0) Cr. 3. S. *Prereq: 571.* Special theory of relativity, least action and motion of charged particles in electromagnetic fields, radiation, collisions between charged particles, multipole fields, radiation damping.

Phys 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.* Topics of current interest.
A. Nuclear Physics
B. Condensed Matter Physics
C. High Energy Physics
D. Physics
E. Applied Physics
F. Biophysics

Phys 591. Quantum Physics I. (4-0) Cr. 4. F. *Prereq: 481.* First semester of a full-year course. Postulates of quantum mechanics; time-dependent and time-independent Schrodinger equations for one-, two-, and three-dimensional systems; theory of angular momentum; Rayleigh-Schrodinger time-independent perturbation theory.

Phys 592. Quantum Physics II. (4-0) Cr. 4. S. *Prereq: 591.* Continuation of 591. Variational theorem and WKB method; time-dependent perturbation theory; method of partial waves and Born approximation for scattering by central potentials; identical particles and symmetry; Dirac and Klein-Gordon equation for free particles; path integral formalism.

Phys 599. Creative Component. Cr. arr. *Prereq: Permission of instructor.* Individually directed study of research-level problems for students electing the nonthesis M.S. degree option.

Courses for graduate students

Phys 501. Oral Communication of Physics Seminar. (2-0) Cr. 1. Repeatable. F. A practical introduction to communication methods in physics and astronomy classrooms and professional settings. For graduate physics majors only. Satisfactory-fail only.

Phys 502. Introductory Research Seminar. Cr. R. F. (1-1) Discussion by research staff of their research areas, expected thesis research work, and opportunities in the field. For graduate physics majors only. Satisfactory-fail only.

Phys 511. Condensed Matter Physics I. (3-0) Cr. 3. S. *Prereq: 304, credit or enrollment in 481.* First semester of a full-year course. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

Phys 512. Condensed Matter Physics II. (3-0) Cr. 3. F. *Prereq: 511.* Continuation of 511. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

Phys 526. Particle and Nuclear Physics. (4-0) Cr. 4. S. *Prereq: Credit or enrollment in 481.* Basic properties and structures of nuclei, hadrons, and elementary particles; weak and strong interactions; the Standard Model; accelerators and detectors; nuclear models; nuclear decay and stability; nuclear astrophysics; the Higgs mechanism; the CKM matrix; running coupling constants; relativistic heavy-ion collisions; selected topics beyond the standard model such as SUSY and grand unification.

Phys 531. Statistical Mechanics. (3-0) Cr. 3. S. *Prereq: 304 and credit or enrollment in 481, Math 465, credit or enrollment in Math 365 or 426.* Thermodynamic properties of systems of many particles obeying Boltzmann, Fermi-Dirac, and Bose-Einstein statistics; microcanonical, canonical, and grand canonical ensembles and their application to physical problems; density matrices; introduction to phase transitions; renormalization group theory; kinetic theory and fluctuations.

Phys 532. Molecular and Cell Biophysics. (Dual-listed with 432). (3-0) Cr. 3. S. *Prereq: 304 or Chem 325.*. Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes.

Phys 534. Symmetry and Group Theory in Physics. (3-0) Cr. 3. S. *Prereq: Credit or enrollment in 481.* Theory of groups and group representations; introduction to both point and continuous groups, and their applications in physics.

Phys 535. Physics of Semiconductors. (Cross-listed with E E). (3-3) Cr. 4. *Prereq: E E 311 and E E 332.* Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic structures, crystal structure, energy bands, equilibrium carrier concentration and doping, excess carriers and recombination, carrier transport at low and high fields, phonons, optical properties, amorphous semiconductors, heterostructures, and surface effects. Laboratory experiments on optical properties, carrier lifetimes, mobility, defect density, doping density.

Phys 536. Physics of Semiconductor Devices. (Cross-listed with E E). (3-0) Cr. 3. *Prereq: E E 535.* P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers, heterojunctions, bipolar transistors, field-effect transistors, negative-resistance devices and optoelectronic devices.

Phys 541. General Relativity. (3-0) Cr. 3. F. *Prereq: 362 or Math 465.* Tensor analysis and differential geometry developed and used to formulate Einstein field equations. Schwarzschild and Kerr solutions. Other advanced topics may include gravitational radiation, particle production by gravitational fields, alternate gravitational theories, attempts at unified field theories, cosmology.

Phys 551. Computational Physics. (0-4) Cr. 2. S. *Prereq: 365, credit or enrollment in 481.* Use of modern computational techniques to analyze topics in classical and modern physics. Satisfactory-fail only.

Phys 564. Advanced Classical Mechanics. (3-0) Cr. 3. F. *Prereq: 362, Math 426, 465.* Variational principles, Lagrange's equations, Hamilton's canonical equations, canonical transformations, Hamilton-Jacobi theory, infinitesimal transformations, classical field theory, canonical perturbation theory, classical chaos.

Phys 571. Electricity and Magnetism I. (3-0) Cr. 3. F. *Prereq: 365, Math 426.* Electrostatics, magnetostatics, boundary value problems, Maxwell's equations, wave phenomena in macroscopic media, wave guides.

Phys 572. Electricity and Magnetism II. (3-0) Cr. 3. S. *Prereq: 571.* Special theory of relativity, least action and motion of charged particles in electromagnetic fields, radiation, collisions between charged particles, multipole fields, radiation damping.

Phys 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.* Topics of current interest.
A. Nuclear Physics
B. Condensed Matter Physics
C. High Energy Physics
D. Physics
E. Applied Physics
F. Biophysics

Phys 591. Quantum Physics I. (4-0) Cr. 4. F. *Prereq: 481.* First semester of a full-year course. Postulates of quantum mechanics; time-dependent and time-independent Schrodinger equations for one-,two-, and three-dimensional systems; theory of angular momentum; Rayleigh-Schrodinger time-independent perturbation theory.

Phys 592. Quantum Physics II. (4-0) Cr. 4. S. *Prereq: 591.* Continuation of 591. Variational theorem and WKB method; time-dependent perturbation theory; method of partial waves and Born approximation for scattering by central potentials; identical particles and symmetry; Dirac and Klein-Gordon equation for free particles; path integral formalism.

Phys 599. Creative Component. Cr. arr. *Prereq: Permission of instructor.* Individually directed study of research-level problems for students electing the nonthesis M.S. degree option.

Phys 611. Quantum Theory of Condensed Matter. (3-0) Cr. 3. S. *Prereq: 512, 681.* Quasiparticles in condensed matter: phonons, magnons, photons, electrons. Quantum theory of interacting many body systems: Green's functions and diagrammatic techniques.

Phys 624. Advanced Nuclear Physics. (3-0) Cr. 3. *Prereq: 526 and 592.* Microscopic few-body and many-body theory; theory of effective Hamiltonians; relativistic nuclear physics; nuclear effects in hadron-nucleus, lepton-nucleus, and nucleus-nucleus reactions.

Phys 625. Physics of Strong Interactions. (3-0) Cr. 3. *Prereq: 681.* Quark model; Quantum Chromodynamics IQCD); perturbation methods for QCD; effective field theories for pions and nucleons; finite temperature field theories; quark-gluon plasma; phase transitions in QCD.

Phys 637. Elementary Particle Physics I. (3-0) Cr. 3. *Prereq: 526 and 592.* First semester of a full year course. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry; modern theoretical techniques and tests of the Standard Model.

Phys 638. Elementary Particle Physics II. (3-0) Cr. 3. *Prereq: 637.* Continuation of 637. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry, and superstring theory; modern theoretical techniques.

Phys 650. Advanced Seminar. (1-0) Cr. 1. Repeatable. F.S. Topics of current interest. Satisfactory-fail only.
A. Nuclear Physics
B. Condensed Matter Physics
C. High Energy Physics
D. Physics
E. Applied Physics
F. Biophysics

Phys 660. Advanced Topics in Physics. Cr. arr. Repeatable. F.S. Courses on advanced topics and recent developments.
A. Nuclear Physics
B. Condensed Matter Physics
C. High Energy Physics
D. Physics
E. Applied Physics
F. Biophysics

Phys 681. Quantum Field Theory I. (3-0) Cr. 3. F. *Prereq: 564, 572, 592.* Quantization of fields (canonical and path integral); Feynman rules; introduction to gauge theories; Quantum Electrodynamics; radiative corrections; renormalization and renormalization group.

Phys 682. Quantum Field Theory II. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 681.* Continuation of 681. Systematics of renormalization; renormalization group methods; symmetries; spontaneous symmetry breaking; non-abelian gauge theories; the Standard Model and beyond; special topics.

Phys 699. Research. Cr. arr. Repeatable.

Plant Biology

(Interdepartmental Graduate Major)

www.agron.iastate.edu/ptf/ippm/home.asp

Supervisory Committee: K. Wang, Chair; D. Hannapel, Interim Associate Chair; M. Bhattacharyya, M. James, R. Thornburg (ex-officio), S. Whitham

The Interdepartmental Plant Physiology Major (IPPM) coordinates graduate education and research in the areas of plant biology including but not limit to plant biochemistry, plant cellular and molecular biology and plant physiology. Graduate study in IPPM, leading to the M.S. and Ph.D. Degrees, is offered through seven participating departments: Agronomy, Biochemistry, Biophysics & Molecular Biology, Chemical and Biological Engineering, Ecology, Evolution and Organismal Biology, Genetics Development & Cell Biology, Horticulture, and Plant Pathology.

Research conducted by the faculty and students of the major represents basic plant physiology, biochemistry and molecular biology. The experimental approaches represented in the major span the range of complexity from molecular studies, to cellular, organismal and the ecological level (crop monocultures and natural populations). Graduates have a broad understanding of basic, functional plant biology with emphases on fundamental biology, biochemistry, and molecular biology. They are able to address complex research and policy problems in agriculture, biotechnology, and basic plant biology.

All M.S. candidates take a core curriculum comprising courses recommended from the following four categories, attend research seminars, research credits (PlBio 699), annual Loomis Lecture and mini-symposium and retreats. Students will take additional courses of interest as directed by their Program of Study (POS) Committee members.

A total of 36 credits including a minimum of 16 course credits are required for a M.S.

(1) Complete the following core courses:

a) Stat 401; b) BBMB 404 or BBMB 501; c) GDCB 513; d) Agron/Gen/Pl P 565; e) Make two seminar presentations and enroll each term in the Interdepartmental Plant Physiology seminar PlBio 696P or its listed equivalent. The first seminar must be during the student's first year and is a 20 minutes seminar. The last presentation must be an exit seminar.

(2) Take one course from the following courses:

a) GDCB 512; b) GDCB 529;

(3) Take additional courses from the following list:

Agron 516; Agron 527; Agron/Hort/NREM 529; Agron 616; Agron 625; BBMB 405; BBMB 451; BBMB 502; BBMB 607; BBMB 645; BBMB 660; BBMB 675; BBMB 676; BCB 551; BCB 596; Biol 454; Biol 474; EEOB 563; EEOB 566; EEOB 595; GDCB 510; GDCB 511; GDCB 512; GDCB 528; GDCB 529; GDCB 545; GDCB 640; GDCB 679; GDCB 680; GDCB 681.

All Ph.D. candidates take a core curriculum comprising courses recommended from the following four categories, attend research seminars, research credits (PlBio 699), annual Loomis Lecture and mini-symposium and retreats. Students will take additional courses of interest as directed by their Program of Study (POS) Committee members.

A total of 72 credits including a minimum of 24 course credits are required for a Ph.D.

(1) Complete the following core courses:

a) Stat 401; b) BBMB 404 or BBMB 501; c) GDCB 513; d) Agron/Gen/Pl P 565; e) Make four seminar presentations and enroll each term in the Interdepartmental Plant Physiology seminar PlBio 696P or its listed equivalent. The first seminar must be during the student's first year and is a 20 minutes seminar. The last presentation must be an exit seminar.

(2) Take one course from the following courses:

a) BBMB 405; b) BBMB 502; c) GDCB 511; d) GDCB 545

(3) Take one course from the following courses:

a) GDCB 512; b) GDCB 529

(4) Take additional courses from the following list:

Agron 516; Agron 527; Agron/Hort/NREM 529; Agron 616; Agron 625; BBMB 405; BBMB 451; BBMB 502; BBMB 607; BBMB 645; BBMB 660; BBMB 675; BBMB 676; BCB 551; BCB 596; Biol 454; Biol 474; EEOB 563; EEOB 566; EEOB 595; GDCB 510; GDCB 511; GDCB 512; GDCB 528; GDCB 529; GDCB 545; GDCB 640; GDCB 679; GDCB 680; GDCB 681.

Requirements for students seeking Plant Physiology as Minor:

(1) Prerequisite courses:

Stat 401; BBMB 404 or BBMB 501.

(2) Take a minimum of nine credits from the following courses:

Agron 516; Agron 527; BBMB 607; Biol 454; GDCB 512; GDCB 513; GDCB 529; GDCB 545.

In addition to the required core courses, a wide selection of courses is available to IPPM graduate students for broadening their scientific education. Decisions about which courses are taken and when they are taken are made by the student, initially in consultation with his or her temporary advisor, and then with his or her major advisor and eventually with POS Committee, which also serves as the Thesis or Dissertation Committee.

Courses for graduate students

PLBio 512. Plant Growth and Development. (Cross-listed with GDCB, MCDB). (2-0) Cr. 2. S. *Prereq: Biol 330 or a course in developmental biology; GDCB 545 or BBMB 404, 405 or GDCB 520.* Plant growth and development and its molecular genetic regulation. Hormone biosynthesis, metabolism, and action. Signal transduction in plants.

PlBio 513. Plant Metabolism. (Cross-listed with GDCB). (2-0) Cr. 2. F. *Prereq: Biol 330, Phys 111, Chem 331; one semester of biochemistry recommended.* Photosynthesis, respiration, and other aspects of plant metabolism.

PlBio 545. Plant Molecular Biology. (Cross-listed with GDCB, MCDB). (3-0) Cr. 3. F. *Prereq: Biol 314, 330.* Organization and function of plant nuclear and organelle DNA; regulation of gene expression. Methods of generating novel genetic variation. Impact of plant biotechnology on agriculture.

PlBio 696. Research Seminar. (Cross-listed with Agron, BBMB, GDCB, Hort, For). Cr. 1. Repeatable. F.S. Research seminars by faculty and graduate students. Satisfactory-fail only.

PlBio 699. Research. Cr. arr. Repeatable.

Plant Pathology

www.plantpath.iastate.edu

Thomas Baum, Chair of Department

Distinguished Professors (Emeritus): Tiffany

University Professors (Emeritus): McNabb

Professors: Baum, Braun, Bronson, Gleason, Harrington, Hill, Miller, Nutter, Tylka, Yang

Professors (Emeritus): Durand, Epstein, Hodges, Mcgee, Stewart

Professor (Collaborator): Wise

Associate Professors: Beattie, Bogdanove, Munkvold, Whitham

Assistant Professors: Halverson, Leandro, Robertson

Assistant Professors (Collaborators): Block, Lauter

Undergraduate Study

The department participates in the interdepartmental undergraduate Microbiology major; see *Agriculture, Curricula.*

Graduate Study

The department offers studies for the degrees master of science and doctor of philosophy with a major in plant pathology, and minor work for students majoring in other departments or programs. A master of science nonthesis option is available. The department also participates in the interdepartmental majors in microbiology; toxicology; genetics; plant physiology; molecular, cellular, and developmental biology; ecology and evolutionary biology; and sustainable agriculture.

Students entering graduate programs in the department need a sound background in the physical, biological, and mathematical sciences as well as adequate preparation in English.

Graduates have a broad understanding of the biology and management of plant pathogenic microorganisms and the interactions of pathogens with their host plants. They understand the relationship between plant pathology and allied disciplines and are able to communicate effectively with scientific colleagues and the general public in both formal and informal settings. Graduates are able to address complex plant disease problems facing agricultural and bioscience professionals, taking into account the related ethical, social, legal, and environmental issues. They are skilled in research procedures, communicating research results, and writing concise and persuasive grant proposals.

Courses primarily for undergraduate students

Pl P 391. Practical Plant Health. (0-4) Cr. 2. F. *Prereq: 6 credits in biological sciences.* Diagnosis of all types of plant health problems caused by diseases, insects, weeds, nutrient deficiencies and toxicities, herbicide injury, and environmental stress. Emphasis is on acquiring practical skills. Students will gain experience in written and oral communication.

Pl P 408. Principles of Plant Pathology. (Dual-listed with 508). (2-3) Cr. 3. F.S. *Prereq: 8 credits in biological sciences, including Biol 212.* Braun. Principles underlying the nature, diagnosis, and management of plant diseases. Laboratory complements lecture topics and provides experience in plant disease diagnosis.

Pl P 416. Forest Insect and Disease Ecology. (Cross-listed with For). (3-3) Cr. 4. S. *Prereq: 8 credits in biological sciences, including Biol 211.* T. Harrington, M. Harris . Nature of insects and pathogens of forest and shade trees; their role in the dynamics of natural and managed forest ecosystems; and the management of indigenous and exotic pests. Nonmajor graduate credit.

Pl P 452. Integrated Management of Diseases and Insect Pests of Turfgrasses. (Dual-listed with 552). (Cross-listed with Ent, Hort). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Hort 351.* Gleason, D. Lewis. Identification and biology of important diseases and insect pests of turfgrasses. Development of integrated pest management programs in various turfgrass environments.

Pl P 477. Bacterial-Plant Interactions. (Dual-listed with 577). (Cross-listed with Micro). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 3 credits in microbiology or plant pathology.* Focuses on plant-associated bacteria in terms of their ecology, diversity, and the physiological and molecular mechanisms involved in their interaction with plants; covers symbiotic nitrogen fixation, plant pathogenesis, plant growth promotion, and biological control.

Pl P 483. Wood Deterioration and Preservation. (Cross-listed with For). (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: For 280.* Deterioration of wood in use by biological and physical agents. Wood preservation and fire retardant treatments. Environmental impact of wood treating. Nonmajor graduate credit.

Pl P 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: Junior or senior classification, 7 credits in biological sciences, permission of instructor.* A maximum of 6 credits of Pl P 490 may be used toward the total of 128 credits required for graduation.
A. Plant Pathology
H. Honors

Pl P 494. Seed Pathology. (Dual-listed with 594). (2-3) Cr. 3. Alt. S., offered 2011. *Prereq: 408.* Munkvold. Significance of diseases on the major phases of seed production; growing, harvesting, conditioning, storing, and planting seed. Pathogens considered include fungi, bacteria, viruses, nematodes, and abiotic agents. Emphasis on epidemiology, management, host-pathogen relationships, seed transmission, and seed health testing. Credit may not be obtained for both Pl P 494 and STB/Pl P 592.

Courses primarily for graduate students, open to qualified undergraduate students

Pl P 506. Plant-Pathogen Interactions. (2-0) Cr. 2. S. *Prereq: 408 or 416, Biol 313.* Baum, Whitham. Introduction to mechanisms of plant-parasite interaction. Genetics and molecular genetics of plant disease resistance and pathogenicity.

Pl P 508. Principles of Plant Pathology. (Dual-listed with 408). (2-3) Cr. 3. F.S. *Prereq: 8 credits in biological sciences, including Biol 212.* Braun. Principles underlying the nature, diagnosis, and management of plant diseases. Laboratory complements lecture topics and provides experience in plant disease diagnosis.

Pl P 509. Plant Virology. (Cross-listed with Micro). (2-6) Cr. 4. Alt. S., offered 2011. *Prereq: 408, Biol 454, BBMB 405, Chem 211.* Hill. Plant viruses and the diseases they cause. Emphasis on epidemiology and control. Structure, function, and biochemical-biophysical properties of plant viruses.

Pl P 511. Integrated Management of Tropical Crops. (Cross-listed with Ent, Hort). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Pl P 408 or 416 or Ent 370 or 376 or Hort 221.* Gleason, Lewis, Nonnecke. Applications of Integrated Crop Management principles (including plant pathology, entomology, and horticulture) to tropical cropping systems. Familiarization with a variety of tropical agroecosystems and Costa Rican culture is followed by 10-day tour of Costa Rican agriculture during spring break, then writeup of individual projects. Tour expenses paid by students.

Pl P 530. Ecologically Based Pest Management Strategies. (Cross-listed with Agron, Ent, SusAg). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: SusAg 509.* Durable, least-toxic strategies for managing weeds, pathogens, and insect pests, with emphasis on underlying ecological processes.

Pl P 543. Ecology and Epidemiology of Plant Diseases. (2-4) Cr. 4. Alt. F., offered 2009. *Prereq: 408 or 416.* Nutter. Theory and practice related to the ecology and epidemiology of plant disease epidemics. Interactions among host and pathogen populations as affected by the environment are quantified with respect to time and space. Analysis of ecological and host and pathogen genetic factors that alter the course of plant disease epidemics. Risk assessment theory, disease forecasting, and modeling the impact of biotic plant stresses on yield and quality are also emphasized.

Pl P 552. Integrated Management of Diseases and Insect Pests of Turfgrasses. (Dual-listed with 452). (Cross-listed with Ent, Hort). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Hort 351.* Gleason, D. Lewis. Identification and biology of important diseases and insect pests of turfgrasses. Development of integrated pest management programs in various turfgrass environments.

Pl P 565. Professional Practice in the Life Sciences. (Cross-listed with Agron, An S, BCB, Hort, V MPM, Micro). Cr. arr. S. *Prereq: Graduate classification.* Professional discourse on the ethical and legal issues facing life science researchers. Offered in modular format; each module is four weeks.
A. Professional Practices in Research. (Cr. 1.0). Good scientific practices and professional ethics in the life sciences.
B. Intellectual Property and Industry Interactions. (Cr. 0.5). Ethical and legal issues facing life scientists involved in research interactions with industry.

Pl P 574. Plant Nematology. (2-3) Cr. 3. Alt. F., offered 2010. *Prereq: 408 or 416.* Baum. Morphology, anatomy, identification, control, and life cycles of common plant-parasitic nematodes; host-parasite interactions; Caenorhabditis elegans.

Pl P 577. Bacterial-Plant Interactions. (Dual-listed with 477). (Cross-listed with Micro). (3-1) Cr. 3. Alt. S., offered 2010. *Prereq: 3 credits in microbiology or plant pathology.* Focuses on plant-associated bacteria in terms of their ecology, diversity, and the physiological and molecular mechanisms involved in their interaction with plants; covers symbiotic nitrogen fixation, plant pathogenesis, plant growth promotion, and biological control.

Pl P 590. Special Topics. Cr. arr. Repeatable. F.S.SS. *Prereq: 10 credits in biological sciences, permission of instructor.*

Pl P 592. Seed Health Management. (Cross-listed with STB). (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: Admission to the Graduate Program in Seed Technology and Business/Consent of instructor.* Munkvold. Occurrence and management of diseases during seed production, harvest, conditioning, storage, and planting. Emphasis on epidemiology, disease management in the field, seed treatment, effects of conditioning on seed health, and seed health testing. Credit may not be obtained for both Pl P/STB 592 and Pl P 594.

Pl P 594. Seed Pathology. (Dual-listed with 494). (2-3) Cr. 3. Alt. S., offered 2011. *Prereq: 408.* Munkvold. Significance of diseases on the major phases of seed production; growing, harvesting, conditioning, storing, and planting seed. Pathogens considered include fungi, bacteria, viruses, nematodes, and abiotic agents. Emphasis on epidemiology, management, host-pathogen relationships, seed transmission, and seed health testing. Credit may not be obtained for both Pl P 594 and STB/Pl P 592.

Courses for graduate students

Pl P 608. Molecular Virology. (Cross-listed with V MPM, Micro). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: BBMB 405 or GDCB 511.* C. Miller, B. Blitvich, A. Miller. Advanced study of virus host-cell interactions. Molecular mechanisms of viral replication and pathogenesis.

Pl P 691. Field Plant Pathology. (0-6) Cr. 2. Repeatable. Alt. SS., offered 2011. *Prereq: 408 or 416.* Diagnosis of plant diseases, plant disease assessment methods, and the integration of disease management into commercial crop production practices. Objectives are to familiarize students with common diseases of Midwest crops and landscape plants, and to provide experience in disease diagnosis. Field trips include commercial operations, agricultural research facilities, and ornamental plantings.

Pl P 692. Molecular Biology of Plant-Pathogen Interactions. (Cross-listed with Micro). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 506 or BBMB 405 or Gen 411 or Micro 402 or course in molecular biology.* Bogdanove, Whitham. Seminal and current research in molecular and physiological aspects of plant interactions with pathogens, including mechanisms of pathogenesis, host-pathogen recognition and host defense, with an emphasis on critical evaluation of primary literature. Students also complete an interinstitutional research proposal writing and peer review exercise.

Pl P 694. Colloquium in Plant Pathology. (2-0) Cr. 2. Repeatable. F.S. *Prereq: 408 or 416, permission of instructor.* Advanced topics in plant pathology, including biological control, cultural control, resistance gene deployment, genetic engineering for disease resistance, chemical control, integrated pest management, emerging diseases, fungal genetics, insect vector biology, professional communications, etc.

Pl P 698. Seminar. Cr. 1. Repeatable. F.S.

Pl P 699. Thesis and Dissertation Research. Cr. arr. Repeatable. F.S.SS.

James McCormick, Chair of Department

Distinguished Professors (Emeritus): Rasmussen

University Professors: Schmidt, Shelley

Professors: Dobratz, Mansbach, McCormick, Smith

Professors (Emeritus): Dearin, Kihl, Lee, Maney, Moses

Associate Professors: Hutter, Potoski, Tuckness, Wolf

Associate Professor (Emeritus): Whitmer

Associate Professor (Adjunct): Waggoner

Assistant Professors: Birskyte, Conger, D. Cunningham, K. Cunnigham, Urbatsch

Assistant Professor (Adjunct): Bystrom

Senior Lecturer: Deam

Undergraduate Study

For the undergraduate curriculum in Liberal Arts and Sciences, with major in political science, leading to the degree of Bachelor of Arts, see *Liberal Arts and Sciences, Curriculum.*

The study of political science is designed to enable students to understand the nature of politics, public values, and the institutions and processes of politics in their various forms.

Students completing a major in political science will understand and be able to interrelate the leading theories, literature, and approaches in the subfields of American government, political theory and methods, international relations, and comparative politics. Graduates can analyze and formulate effective argumentation in written and oral forms, including the ability to appreciate and

accommodate diverse political ideas, and the ability to collect and critique information and ideas of others in support of original arguments. Graduates appreciate the knowledge and civic responsibilities required for effective participation in political life.

The political science major is often chosen by students preparing for a career in law. Students with this goal should consult with the department in selecting courses. See also Preprofessional Study.

Several internship options are available to the political science major, offering students the opportunity to experience practical application of the knowledge learned in academic courses.

Requirements for the Major:

For the purpose of defining undergraduate requirements in the Department of Political Science, the Department employs four subfields within the discipline, with the following courses in each:

I. Theory and Methods (Pol S 235, 313, 334, 335, 356, 406, 430, 431, 433, 470, 480, 487, 490B).

II. American Government and Politics (Pol S 215, 305, 310, 311, 312, 318, 319, 320, 334, 335, 344, 358, 359, 360, 361, 363, 370, 371, 385, 413, 417, 420, 421, 442, 464, 475, 476, 477, 480, 482, 483, 490A).

III. Comparative Politics (Pol S 241, 314, 340, 341, 343, 346, 347, 349, 350, 442, 485, 490C).

IV. International Relations (Pol S 251, 315, 356, 357, 358, 359, 381, 422, 452, 453, 485, 487, 490D).

To complete the major in Political Science a student must earn 33 semester credits of courses in Political Science subject to the following conditions:

a. Students must satisfactorily complete Pol S 101, 301, and 302.

b. Students must complete at least 3 credits in each of the four subfields listed above. Students may apply only one half-semester mini-course (Pol S 312, 313, 314, 315) in each group.

c. Political Science courses in which a student has a grade of D+ or lower will not count for the major but can be counted as electives.

d. At least 18 credits of Political Science courses must be numbered 300 or above.

e. Students must pass one statistics course from among Stat 101, 104, 226 or 231.

f. No more than six credits of Pol S 490 or 499 (alone or in combination) can be used to fulfill any of these requirements. A maximum of three credits of Pol S 490 can be applied to meet any of the four subfield requirements.

g. A maximum of six credits from half-semester mini-courses (Pol S 312, 313, 314, 315) can be applied to satisfy the above requirements.

h. At least 15 credits of Political Science coursework must be earned at Iowa State University.

i. Advanced Communication Skills: Majors must earn at least a C+ in each of Engl 150 and 250. Those who do not must complete Engl 309 or 314 with a grade of C or higher. Majors must also complete Pol S 302.

The department offers a minor in political science that may be earned by completing 15 credits beyond the 100-level of coursework in political science, nine of which must be at the 300 level or above. A student minoring in Political Science normally will be expected to take at least 9 credits in Political Science coursework at Iowa State University. Only 3 credits of Pol S 490 or Pol S 499, alone or in combination, and only 2 credits of Pol S 312-315 may be included in the total of 15 credits required for the minor. All minors in the College of Liberal Arts and Science required a minimum of 6 credits in courses numbered 300 and above taken at ISU with a grade of C or higher. Credits earned in Pol S 499, offered on a satisfactory/fail basis only, will not fulfill this requirement.

Graduate Study

The department offers work for a Master of Arts degree (M.A.), with a major in political science, and minor for students in other departments. The department also offers work for a Master of Public Administration (MPA) degree or a Graduate Certificate of Public Management (GCPM) for those interested in an educational certificate program that requires less work than a full masters program. In addition, the Political Science Department offers work for the Master of Science in Information Assurance. Information with detailed requirements for all graduate degrees may be obtained at the department's web page at www.pols.iastate.edu/gradhome.shtml.

The M.A. program is designed to enable its graduates to engage in governmental research, enter public service or private industry, teach, or pursue further graduate study. Graduate students may also wish to work for certification for high school or junior college teaching. A thesis is required for this degree. The department also has a joint Master of Arts/Juris Doctor (M.A./J.D.) program with the Law School of Drake University. Detailed information for the M.A./J.D. can be found at the ISU Political Science webpage as well as the Drake Law School website (under Joint Degree): www.law.drake.edu/admissions/ specprograms.html. Students wishing to pursue this joint degree must submit separate applications to both Drake University and Iowa State University and be accepted by both institutions.

M.A. graduates have a broad substantive understanding of the political process and the academic study of politics. They also have in-depth knowledge of one or more subfields in political science. Graduates are skilled at conducting research and preparing thorough research summaries. They are able to identify and address complex political questions, taking into account related ethical, legal, economic, and social issues.

The usual prerequisites for major graduate work in the M.A. program normally are completion of at least 15 credits in political science, the GRE (Graduate Record Examination), one year of a foreign language (equivalent to 8 semester hours) and a course in basic statistics (equivalent to Stat 101). If the basic statistics requirement has not been met, the student may remedy the deficiency by passing equivalent courses, for which no graduate credit will be received. During their program of study, all students are expected to complete Stat 401, Pol S 502, and a thesis. Students normally do concentrated course work in at least one of the following three areas: international relations, comparative politics, or American politics. The student's program of study committee may require additional work.

Students in other graduate programs may obtain a minor in political science by completing at least 9 credits of political science courses, including one of the proseminars. Interested students should consult the Graduate College Handbook for additional information on graduate minors.

The Master of Science in Information Assurance (MSIA) is a multi-disciplinary program designed to provide students with diverse backgrounds and interests the opportunity to obtain professional training in the emerging field of information assurance. The core of the MSIA program is built around a series of courses taught in Electrical and Computer Engineering, Mathematics, and Computer Science that introduce students to software and hardware aspects of cryptography and computer security. The program also recognizes, however, that information assurance-defined in terms of security, privacy, access, and reliability-is not simply a technical problem but also involves important societal dimension, including policy, education, ethics, and management. Recognizing that political science offers many potential intersections with information assurance (e.g., public sector management of information technology; forensics and computer crime; information technology policy and law; information technology and international relations; information warfare; etc.), students with interests in these areas are encouraged to select the Department of Political Science as their home department.

Students opting to pursue a MSIA degree through the Department of Political Science can expect to acquire skills and background knowledge relevant to a career in public policy or public sector management of information assurance technologies. The InfAs degree can also help prepare students who wish to go on to pursue a PhD in information politics and policy.

Students interested in the InfAs degree program should consider Political Science as a home department if their future career and/or educational interests lie in such areas as: institutional issues related to the internet and information technologies; information technology, international security, and information warfare; information technology policy and law; and public administration and public sector management of information technology.

Admission requirements generally follow the same guidelines as the M.A. or MPA in Political Science. Degree requirements are specified by the InfAs program in cooperation with Political Science. More in-depth information on the program can be found at: http://www.issi.iastate.edu/infas.html.

Public Policy and Administration

The Public Policy and Administration program offers work for the professional Master of Public Administration degree (MPA). The program is designed to educate and train students for careers in management and policy analysis at the federal, state, and local levels of government, and nonprofit sector management. The program serves a diverse student body, including pre-service students and in-service employees in government and nonprofit organizations. The curriculum covers a broad range of public administration and policy topics, including organizational and administrative processes, eGovernment, leadership, organizational change dynamics, human resource management, budgeting, cost benefit analysis, financial management, policy analysis, and ethics. The program offers three concentrations: Public Management, eGovernment and Management of Information Technology, and Policy Analysis.

The MPA degree requires 37 credits, which includes (a) 15 credits in core competency, (b) 9 credits in one of the concentration areas, (c) 4 credits in other required courses, (d) up to 7 credits of electives, and (e) 3 credits of creative component (a capstone project) or a minimum of 3 credits of research (thesis). Pre-service students are encouraged to obtain an internship for 3 credits.

The Program also offers a Graduate Certificate of Public Management program (GCPM), which requires a completion of 15 credits: 9 credits in the core, and two additional courses in the area of student interest. Some classes are available via videoconferencing, streaming video, one week and executive weekend formats, and online.

The Program also offers joint master's degrees with the Department of Community and Regional Planning (25 credits in each program plus a six credit thesis), and the interdisciplinary Information Assurance program (30 credits). The requirement for all double degrees consists of 22 credits from each discipline for a total of 54 credits. Under the rules of the Graduate College a graduate student may pursue a joint degree between any two disciplines of their interest. Interested students are encouraged to consult the ISU's Graduate Handbook. The minimum requirements for all double degrees consist of 22 credits from each program.

Requirements for admission are a graduate school application, an essay stating purposes for study, college transcripts, the GRE (waived for those with five or more years of public or nonprofit sector experience), three letters of recommendation, and the TOEFL for international students.

The department cooperates in the interdepartmental majors in transportation and water resources, and an interdepartmental minor in gerontology (see Index).

Refer to the Schedule of Classes (www.iastate.edu/~catalog/) or consult the Public Policy and Administration (MPA) web page (http://mpa.las.iastate.edu for up-to-date scheduling information.

Courses primarily for undergraduate students

Pol S 101. Orientation to Political Science. (2-0) Cr. 1. F.S. *Prereq: Political Science and Open Option majors only or permission of the instructor.* Introduction to the discipline and sub-fields of Political Science, including an introduction to analytical thinking, and research skills relevant to political science. Orientation to university, college, and departmental structure, policies, and procedures; student roles and responsibilities; degree planning and career awareness. Satisfactory-fail only.

Pol S 215. Introduction to American Government. (3-0) Cr. 3. F.S.SS. Fundamentals of American democracy; constitutionalism; federalism; rights and duties of citizens; executive, legislative, and judicial branches of government; elections, public opinion, interest groups, and political parties.

Pol S 235. Introduction to Ethics and Politics. (3-0) Cr. 3. F.SS. *Prereq: Sophomore standing.* Introduction to moral controversies surrounding political issues such as violence, deception, corruption, civil disobedience, democracy, justice, equality, and freedom. Students will read classic and contemporary texts and consider political applications. This course serves as an introduction to advanced courses in political theory.

Pol S 241. Introduction to Comparative Government and Politics. (3-0) Cr. 3. F.S. Basic concepts and major theories; application to selected political systems, including non-western political systems.

Pol S 251. Introduction to International Politics. (3-0) Cr. 3. F.S. Dynamics of interstate relations pertaining to nationalism, the nation state; peace and war; foreign policy making; the national interest; military capability and strategy; case studies of transnational issues, such as population, food, energy, and terrorism.

Pol S 298. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of department cooperative education coordinator; sophomore classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Pol S 301. Introduction to Empirical Political Science Research. (3-0) Cr. 3. F.S.SS. *Prereq: 3 credits in political science; one statistics course required; sophomore classification.* Techniques of quantitative and qualitative political research and analysis. Development and analysis of concepts and theories. Methods of data collection, research design, and critical thinking. Applications of statistics to political research.

Pol S 302. Politics of Writing, Speaking, and Reading. (3-0) Cr. 3. F.S. *Prereq: English 250; 3 credits in Political Science. Political Science majors only.* Focus on the connections between communicative and rhetorical skill and effective civic understanding and participation. Techniques of effective communication and persuasion in writing and speaking. Development of skills of critical and rhetorical analysis in reading.

Pol S 305. Political Behavior. (3-0) Cr. 3. F. *Prereq: Sophomore classification.* Empirical theories and descriptions of political behavior, including decision-making, opinion, and attitudes, with an emphasis on groups and political elites.

Pol S 310. State and Local Government. (3-0) Cr. 3. S. *Prereq: 3 credits in political science.* Role of state and local governments in the American federal system. Structures of participation: political parties, elections, interest groups. Major governmental institutions: legislative, executive, and judicial. Structure and functions of local governments.

Pol S 311. Municipal Government and Politics. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 215.* Legal position of municipal corporation; forms of organization; administration of municipal services; problem-solving in municipal government; urban and metropolitan political process; implications of federal urban policies.

Pol S 312. Minicourse in American Government and Politics. (3-0) Cr. 2. F.S. *Prereq: Sophomore classification.* Half-semester courses on selected topical issues in American government and politics. Designated repeat in Pol S 312 is not permitted. Use of Pol S 312 credit in Pol S major and minor is limited. See Undergraduate Study for information.

Pol S 313. Minicourse in Theory and Methods. (3-0) Cr. 2. F.S. *Prereq: Sophomore classification.* Half-semester course on selected topical issues in theory and methods in political science. Designated repeat in Pol S 313 is not permitted. Use of Pol S 313 credit in Pol S major and minor is limited. See Undergraduate Study for information.

Pol S 314. Minicourse in Comparative Politics. (3-0) Cr. 2. F.S. *Prereq: Sophomore classification.* Half-semester course on selected topical issues in comparative politics. Designated repeat in Pol S 314 is not permitted. Use of Pol S 314 credit in Pol S major and minor is limited. See Undergraduate Study for information.

Pol S 315. Minicourse in International Relations. (3-0) Cr. 2. F.S. *Prereq: Sophomore classification.* Half-semester course on selected topical issues in international relations. Designated repeat in Pol S 315 is not permitted. Use of Pol S 315 credit in Pol S major and minor is limited. See Undergraduate Study for information.

Pol S 318. Campaign and Elections. (3-0) Cr. 3. Alt. F., offered 2010. Methods and techniques of political campaigns in general elections. Supervised participation in candidate and political party campaign activities required.

Pol S 319. Law and Politics. (3-0) Cr. 3. F.S. *Prereq: Sophomore standing; 215 recommended.* An evaluation of the American judicial system as it relates to controversial topics emphasizing the relationship between law and politics. Primary emphasis on topics such as statutory construction, judicial review, the proper role of the judiciary, vagueness and ambiguity in law, competing constitutional philosophies, executive branch concerns, and relative power of different branches. Credit for both Pol S 319 and 230 may not be applied toward graduation.

Pol S 320. American Judicial Process. (Cross-listed with CJ St). (3-0) Cr. 3. S. *Prereq: Pol S 215.* An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent.

Pol S 334. Politics and Society. (Cross-listed with Soc). (3-0) Cr. 3. F. *Prereq: A course in political science or sociology.* The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism.

Pol S 335. Science, Technology, and Public Policy. (3-0) Cr. 3. S. Examines the history and political dynamics of public science and technology policies. Examines differences in political and technological orientations. Assessment of the roles of politics, media, engineering, science, and private business in the formation public policies that put heavy reliance on or seek to advance science and technology.

Pol S 340. Politics of Developing Areas. (3-0) Cr. 3. Alt. S., offered 2010. Examination of economic and political development as they relate to the political process of developing states. Impact of social and technological change on political systems of developing areas. Some case studies.

Pol S 341. Politics of Asia. (3-0) Cr. 3. Alt. S., offered 2010. Political institutions, processes, and contemporary issues. Selected countries examined intensively to illustrate generalizations. Topics such as foreign policy, role of parties, military, religious groups, human rights, women, environmental issues, interest groups, ideology, and globalization.

Pol S 343. Latin American Government and Politics. (3-0) Cr. 3. Political institutions, processes, and contemporary issues. Selected countries examined intensively to illustrate generalizations. Role of parties, military, church, human rights, women, environmental issues, interest groups, ideology, and globalization.

Pol S 344. Public Policy. (3-0) Cr. 3. S. How agendas come to be set in public policy, theories describing the policy-making process, forces molding policy choices and the impact of such choices.

Pol S 346. European Politics. (3-0) Cr. 3. S. Comparative study of political institutions of Europe and the European Union; emphasis on parties, elections, and governmental structures. Substance and process of public policies in selected problem areas.

Pol S 347. African Politics. (3-0) Cr. 3. F. Major trends in African politics over the last 150 years and current issues facing Africans today. Basic African geography. Topics include democratization, economic development, civil conflict, ethnic politics and foreign aid.

Pol S 349. Politics of Russia and the Soviet Successor States. (3-0) Cr. 3. Alt. F., offered 2010. Nation-states of the former Soviet Union. Analysis of Soviet Communist system 1917-85 and the politics and revolutionary conflict leading to the dissolution of the Soviet Union from 1985 through 1991. Problems of post-Soviet nation-states of Russia and Central Eurasia since 1991.

Pol S 350. Politics of the Middle East. (3-0) Cr. 3. S. Introduction to the Middle East as a region and to issues of political importance to the Middle East and its place in the world. Topics covered include Islam, regional conflicts and alliances, local leaders, economic issues, and gender and social relations. Nonmajor graduate credit.

Pol S 356. Theories of International Politics. (3-0) Cr. 3. Introduction to essential theoretical concepts and approaches, both classical and contemporary on world politics including realism, empiricism, liberalism, and postpositivism; for example, war and

conflict, peace and cooperation, political economy, crisis decision-making, systemic theory, dependence and interdependence.

Pol S 357. International Security Policy. (3-0) Cr. 3. F. The major theoretical approaches in security policy – strategy and deterrence, game theory, bargaining theory, compellance, and coercive diplomacy, and crisis diplomacy. Illustration of these various approaches through historical and contemporary cases.

Pol S 358. United States Foreign Policy. (3-0) Cr. 3. F. *Prereq: 215 or 251, or Hist 467 or 470 or 471.* U.S. foreign policy since World War II with emphasis on changing American values in foreign policy, the role of the President, Congress, and the bureaucracy in policy making, and a survey of current foreign policy issues and problems.

Pol S 359. Current Issues in American Foreign Policy. (3-0) Cr. 3. S. *Prereq: 215, 251, or 358.* Examination of contemporary U.S. foreign policy issues (e.g., U.S. policy in the Middle East; defense budgeting in the post-Cold War era; conventional and nuclear arms control policy). The course will explore alternate methods to analyze policy, survey the evolution of each issue, and discuss different policy alternatives.

Pol S 360. American Institutions: Congress. (3-0) Cr. 3. *Prereq: 215.* Theory and practice of representation and deliberation in the legislative branch of the republic; operations of Congress in terms of its committees, leadership, legislative and oversight processes, partisan politics, electoral campaigns, service to local and special electoral campaigns, service to local and special interests, and interactions with the President.

Pol S 361. American Institutions: The Presidency. (3-0) Cr. 3. F. *Prereq: 215.* Creation and historical development of the office of chief executive; character and behavior of past chief executives; selection and control; powers, roles, functions; executive staff; relations with Congress, press, public opinion.

Pol S 363. American Institutions: Media. (3-0) Cr. 3. *Prereq: Sophomore standing.* Course surveys the influence of mass media organizations, forms, techniques, and technologies on the practices and expectations of American politics. Evaluates the role of media in the political process, exploring the extents to which media promotes or discourages political participation. Topics will examine the influence and political uses of news coverage, political advertising, political debates, talk radio, film, the Internet, and media spectacles.

Pol S 370. Religion and Politics. (Cross-listed with Relig). (3-0) Cr. 3. *Prereq: Relig 105 or 210 recommended.* The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally. Nonmajor graduate credit.

Pol S 371. Introduction to Public Administration. (3-0) Cr. 3. F. *Prereq: Sophomore classification.* A survey of the historic and contemporary administrative realities that contribute to the unique challenges of public governance at the administrative and managerial levels of international, national, state, and local government. This introductory course explores the essential issues and competencies involved in the efficient, effective, and ethical provision of public goods and services. Critical topics addressed in the course include crisis management, intergovernmental relations, social equity, public-private partnerships, and privatization.

Pol S 381. International Political Economy. (3-0) Cr. 3. S. Introduction to the theoretical perspectives on international political economy. Exploration of specific issues such as the changing international trade regime, international finance, and Third World development under conditions of globalization.

Pol S 385. Women in Politics. (Cross-listed with W S). (3-0) Cr. 3. S. Examination of the entry and participation of women in politics in the United States and other countries including a focus on contemporary issues and strategies for change through the political process.

Pol S 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of department cooperative education coordinator; junior classification.* Required of all cooperative education students. Students must register for this course prior to commencing work period.

Pol S 406. Public Opinion and Voting Behavior. (3-0) Cr. 3. S. *Prereq: 6 credits in political science or junior classification.* The formation of political opinions and attitudes, political participation, and voting behavior of the general public, and their influences on American politics; polling as a means of assessing public opinions and behaviors. Nonmajor graduate credit.

Pol S 413. Intergovernmental Relations. (Dual-listed with 513). (3-0) Cr. 3. S. *Prereq: 6 credits in American government.* Theories and practices of the American federal system. Politics and policy making among federal, state, and local governments. Nonmajor graduate credit.

Pol S 417. Campaign Rhetoric. (Cross-listed with Sp Cm). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: Sp Cm 212.* Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers. Nonmajor graduate credit.

Pol S 420. Constitutional Law. (3-0) Cr. 3. F. *Prereq: 215; junior classification.* Development of the United States Constitution through judicial action; influence of public law and judicial interpretations upon American government and society. Nonmajor graduate credit.

Pol S 421. Constitutional Freedoms. (3-0) Cr. 3. S. *Prereq: 320 or 420.* Leading Supreme Court cases interpreting the Bill of Rights and the Fourteenth Amendment. Emphasis on religion, speech, privacy, due process, and equal protection. Nonmajor graduate credit.

Pol S 422. International Law. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 215 or 251; junior classification.* Development of the principles of international law of peace and war; analysis of theories concerning its nature and fundamental conceptions; its relation to national law; problems of international legislation and codification. Nonmajor graduate credit.

Pol S 430. Foundations of Western Political Thought. (Cross-listed with Cl St). (3-0) Cr. 3. *Prereq: 6 credits in political science, philosophy, or European history.* Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law. Nonmajor graduate credit.

Pol S 431. Early Modern Political Thought. (Dual-listed with 531). (3-0) Cr. 3. *Prereq: 6 credits in political science, philosophy, or European history.* Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, toleration, property, power, skepticism, and normative views of international politics. Nonmajor graduate credit.

Pol S 433. American Political Thought. (3-0) Cr. 3. S. *Prereq: 6 credits in political science or in American history.* Review of major political concepts and theorists in American political history. Analysis of current concepts in U.S. political thought, and their possible impacts on our political institutions. Nonmajor graduate credit.

Pol S 442. The Policy and Politics of Coastal Areas. (Dual-listed with 542). (Cross-listed with Env S). (3-0) Cr. 3. SS. Exploration of political implications of coastal policy. Issues include: "Carrying capacity," zoning, regulation of human development activities, trade-offs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.

Pol S 452. Comparative Foreign Policy. (Dual-listed with 552). (3-0) Cr. 3. S. *Prereq: 251.* Various theoretical approaches to explain foreign policy making and behavior through the use of case studies of selected nations. Nonmajor graduate credit.

Pol S 453. International Organizations. (3-0) Cr. 3. S. *Prereq: 251.* Private and public organizations such as the United Nations, other specialized agencies, and multinational organizations, and their influence on our daily lives. Nonmajor graduate credit.

Pol S 464. Political Parties and Interest Groups. (3-0) Cr. 3. F. *Prereq: 215; junior classification.* Interest groups and American political parties, their principles, organizations and activities.

Pol S 470. Public Choice. (3-0) Cr. 3. *Prereq: Econ 101.* Application of economics to political science in the study of nonmarket decision-making. Behavior of bureaucrats, elected officials, and voters. Market failure, collective action, representative democracies, direct democracies, logrolling, voter paradoxes, and game theory. Nonmajor graduate credit.

Pol S 475. Management in the Public Sector. (Dual-listed with 575). (3-0) Cr. 3. F. *Prereq: 371.* Literature and research on organizational behavior and management theory with emphasis on applied aspects of managing contemporary public sector organizations. Topics include distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change. Nonmajor graduate credit.

Pol S 476. Administrative Law. (Dual-listed with 576). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 215; junior classification.* Constitutional problems of delegation of governmental powers, elements of fair administrative procedures, judicial control over administrative determinations. Nonmajor graduate credit.

Pol S 477. Government, Business, and Society. (Dual-listed with 577). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Junior classification.* Diverse perspectives on the changing roles and relationships of business, government and society so as to open the way for more effective policy decisions on corporate-government affairs. Topics may include the changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; and politics in the business-government relationship. Nonmajor graduate credit.

Pol S 480. Ethics and Public Affairs. (Dual-listed with 580). (3-0) Cr. 3. *Prereq: 6 credits in political science.* Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making. Nonmajor graduate credit.

Pol S 482. Environmental Politics and Policies. (Dual-listed with 582). (Cross-listed with Env S). (3-0) Cr. 3. F. *Prereq: 3 credits in political science or 3 credits in Environmental Studies; junior classification.* Major ideologies relation to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform. Nonmajor graduate credit.

Pol S 483. Law and Management. (Dual-listed with 583). (3-0) Cr. 3. Alt. F., offered 2009. Emerging constitutional/legal doctrines and requirements in public management: concept of new property rights in public employment/public service delivery; procedural due process requirement; scope of free speech and liberty protected in the conduct of public management; equal employment opportunity requirements; and the scope of official and personal immunities and liability in public affairs.

Pol S 485. Comparative Public Administration. (Dual-listed with 585). (3-0) Cr. 3. F. Comparisons of government bureaucratic in major world regions, trends and issues of administrative and management reforms, globalization and other contemporary challenges to state administrative structures and policies, skills needed to evaluate and implement public management reforms.

Pol S 487. Electronic Democracy. (2-1) Cr. 3. F. *Prereq: Sophomore standing or instructor approval.* The impact of computers, the Internet, and the World Wide Web on politics and policy. The positive and negative effects on information technology (IT) on selected topics such as freedom, power and control, privacy, civic participation, the sense of "community," virtual cities," interest group behavior, the new media, campaigns, elections, and voting will be examined. Nonmajor graduate credit.

Pol S 490. Independent Study. Cr. arr. Repeatable. F.S. *Prereq: 6 credits in political science.* Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

A. American Government and Politics
B. Theory and Method
C. Comparative Politics
D. International Relations
E. Extended credit. The student may earn an additional 1 or 2 credits for extra study done for any 300- or 400-level course, with instructor's approval.
G. Catt Center Project
H. Honors

Pol S 491. Senior Thesis. Cr. 3. *Prereq: 21 credits of Pol S and permission of instructor.* Written under the supervision of a Political Science faculty advisor.

Pol S 495. Capstone Project in Political Science. (3-0) Cr. 3. S. *Prereq: 21 credits in political science and permission of instructor.* Capstone project for political science majors; integrating research, analysis and participation.

Pol S 498. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of department cooperative education coordinator; senior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Pol S 499. Internship in Political Science. Cr. arr. F.S.SS. *Prereq: 6 credits in political science; junior or senior classification; and permission of internship coordinator.* Work experience with a specific nongovernmental or governmental agency at the local, state, national, or international level, combined with academic work under faculty supervision. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. Satisfactory-fail only.

Courses primarily for graduate students, open to qualified undergraduate students

Pol S 501. Quantitative Methods for Public Managers. (3-0) Cr. 3. S. *Prereq: Graduate classification.* Use of data in managerial decison-making and policy analysis. Research design and sampling methods. Statistical software use required.

Pol S 502. Political Analysis and Research. (3-0) Cr. 3. F. *Prereq: 6 credits in political science.* Scope and methods of political science. Introduction to theoretical approaches and analytical reasoning in political science. Relationship of theory and data. Research design.

Pol S 504. Proseminar in International Politics. (3-0) Cr. 3. S. *Prereq: 6 credits in political science or graduate standing.* An overview of the major theoretical and empirical works in the study of international politics and foreign policy. Among the major theoretical approaches surveyed and applied to international politics are realism, neo-realism, liberalism, functionalism, rational choice theory, game theory, and decision-making theory. Seminal writings by leading scholars will be reviewed.

Pol S 505. Proseminar in Comparative Politics. (3-0) Cr. 3. F. *Prereq: 6 credits in political science or graduate standing.* Major theoretic approaches to the study of comparative politics -- varying concepts and definitions of society and policy, administrative traditions, institutional arrangements, political behavior, etc. Contrasting research method designs.

Pol S 506. Proseminar in American Politics. (3-0) Cr. 3. S. *Prereq: 6 credits in political science or graduate standing.* A presentation of the major theories and research on American government and politics. Substantive topics include modern democratic theory, institutional performance, and mass political behavior. A variety of research methodologies are examined, including normative theory, behavioralism, and rational choice analysis.

Pol S 510. State Government and Politics. (3-0) Cr. 3. *Prereq: 310.* Comparative analysis of state political systems. Role of interest groups, political parties, legislatures, courts, and governors in state politics. Possible determinants of public policy outputs at the state level.

Pol S 513. Intergovernmental Relations. (Dual-listed with 413). (3-0) Cr. 3. S. *Prereq: 6 credits of American government.* Theories and practices of the American federal system. Politics and policy making among federal, state, and local governments.

Pol S 525. Mass Political Behavior. (3-0) Cr. 3. *Prereq: 6 credits in Political Science or graduate standing.*. An in-depth survey of the theoretical, empirical, and methodological works concerning mass political behavior in the United States. Substantive topics include political attitudes and ideologies, public opinion and voting behavior, and political psychology. Methods for studying mass behavior include survey research and experimental approaches.

Pol S 531. Early Modern Political Thought. (Dual-listed with 431). (3-0) Cr. 3. *Prereq: 6 credits in political science, philosophy, or European history.* Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, toleration, property, power, skepticism, and normative views of international politics.

Pol S 534. Legal and Ethical Issues in Information Assurance. (Cross-listed with Cpr E, InfAs). (3-0) Cr. 3. S. *Prereq: Graduate classification; Cpr E 531 or InfAs 531.* Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.

Pol S 535. Contemporary Political Philosophy. (Cross-listed with Phil). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 6 credits of philosophy or political science.* Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as liberalism, libertarianism, communitarianism, socialism, feminism. Normative assessments of socio-political institutions.

Pol S 541. Strategic Public Management. (40-0) Cr. 3. S. Theory and practice of strategic planning and implementation in the public sector. Alignment of planning with other strategic systems. Discussion of fundamental strategic management issues and concepts. Introduction of alternatives to the bureaucratic paradigm. Includes group exercises and guidance for strategic management facilitation. Course is one-week intensive format.

Pol S 542. The Policy and Politics of Coastal Areas. (Dual-listed with 442). (3-0) Cr. 3. SS. Exploration of political implications of coastal policy. Issues include: "Carrying capacity," zoning, regulation of human development activities, tradeoffs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.

Pol S 544. Comparative Public Policy. (3-0) Cr. 3. *Prereq: 6 credits in political science.* Examines how, why, and to what effect governments deal with substantive policy problems differently. Environmental factors, ideologies, cultures, domestic policy making processes, and interest groups.

Pol S 547. Political Leadership and Elites. (3-0) Cr. 3. *Prereq: 6 credits in political science.* Various forms of leadership and leader-follower relations. Obligations, exchanges, incentives, coercion, corruption, bossism in both the U.S. and foreign experience.

Pol S 552. Comparative Foreign Policy. (Dual-listed with 452). (3-0) Cr. 3. S. *Prereq: 251.* Various theoretical approaches to explain foreign policy making and behavior through the use of case studies of selected nations.

Pol S 559. International Relations Theory. (3-0) Cr. 3. F. *Prereq: 6 credits in international studies.* Selected theoretical writings, both classical and contemporary, on world politics. Realism, war and conflict, peace and cooperation, political economy, crisis decision making, and transnational relations.

Pol S 560. American Political Institutions. (3-0) Cr. 3. *Prereq: 6 credits in American government.* Examination of policy-making and governance in a separation of powers system. Interaction between the chief executive, the legislature, administrative agencies, and the public. How political and legal forces affect policy makers and are reflected in public policies and programs.

Pol S 569. Foundations of Public Administration. (3-0) Cr. 3. F. *Prereq: Graduate classification.* An examination of the social, political, intellectual, and environmental factors contributing to the historical development and central issues of American Public Administration. Exploration of classic and contemporary texts of public administration emphasizing constitutional and civic roles of public servants, administrative responsibility in democratic governance and justice, and essential frameworks to identify managerial skills, perspectives, and resources for effective, equitable public service.

Pol S 570. Politics and Management of Nonprofit Organizations. (3-0) Cr. 3. *Prereq: Graduate classification.* Discussion of contemporary issues and perspectives shaping the policy development and management of national and international nonprofit organizations. Topics include an historic overview of nonprofit and philanthropic perspectives; exploration of nonprofit organization roles in public service provision; review of the legal framework influencing nonprofit governance; and consideration of capacity building issues such as strategic planning, board development, fundraising, human resources, and volunteer management.

Pol S 571. Organizational Theory in the Public Sector. (3-0) Cr. 3. F. *Prereq: Graduate classification.* Major theories of administrative organization, including motivations of administrators and organizations, comparisons of organizational arrangements, factors affecting organizational arrangements, and formal and informal decision-making structures.

Pol S 572. Public Finance and Budgeting. (3-0) Cr. 3. S. *Prereq: Graduate classification.* Topics such as the fiscal role of government in a mixed economy; evaluation of sources of public revenue and credit; administrative, political, and institutional aspects of the budget and the budgetary process; alternative budget formats; skills required to analyze public revenue and spending. Spreadsheet use required.

Pol S 573. Public Personnel Administration. (3-0) Cr. 3. S. *Prereq: Graduate classification.* Course discusses the history and development of high performance personnel administration in the public and nonprofit sectors regarding strategic planning, employee rights and responsibilities, performance assessment, collective bargaining, and civil service systems. Emphasized basic competencies in the essential human resource management tools in the areas of recruitment, retention, employee development, compensation, discipline, and conflict resolution.

Pol S 574. Policy and Program Evaluation. (3-0) Cr. 3. F. *Prereq: Graduate classification.* Integration, application, and utilization of public administration and public policy concepts in the interpretation of results and effectiveness of public programs and the prediction of consequences for policymakers and administrators.

Pol S 575. Management in the Public Sector. (Dual-listed with 475). (3-0) Cr. 3. S. *Prereq: 6 credits in political science.* Literature and research on organizational behavior and management. Theory with emphasis on applied aspects of managing contemporary

public sector organizations. Topics include distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change.

Pol S 576. Administrative Law. (Dual-listed with 476). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Graduate classification.* Constitutional problems of delegation of governmental powers, elements of fair administrative procedures, judicial control over administrative determinations.

Pol S 577. Government, Business, and Society. (Dual-listed with 477). (3-0) Cr. 3. F. *Prereq: Graduate classification.* Diverse perspectives on the changing roles and relationships of business, government and society so as to open the way for more effective policy decisions on corporate-government affairs. Topics may include the changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; and politics in the business-government relationship.

Pol S 579. Public Revenues and Cost Analysis. (3-0) Cr. 3. S. *Prereq: Graduate classification.* Provides an overview of public revenue policies and administration, and concepts and techniques of cost analysis. Examines topics such as administration and policies of property taxes, income taxes, sales taxes, and user charges. Provides an introductory understanding of different cost analysis techniques such as average cost and marginal cost analysis and activity-based costing. Spreadsheet use required.

Pol S 580. Ethics and Public Affairs. (Dual-listed with 480). (3-0) Cr. 3. *Prereq: 6 credits in political science.* Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making.

Pol S 581. International Political Economy. (3-0) Cr. 3. F. *Prereq: 6 credits in political science.* An overview of the international political economy since the end of World War II. Special emphasis on national (primarily U.S.) development assistance and agricultural/food politics and policies, and those of the international food organizations, the World Bank, and the regional development banks.

Pol S 582. Environmental Politics and Policies. (Dual-listed with 482). (3-0) Cr. 3. F. *Prereq: 3 credits in political science or 3 credits in Environmental Studies; graduate classification.* Major ideologies relating to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.

Pol S 583. Law and Management. (Dual-listed with 483). (3-0) Cr. 3. F. Emerging constitutional/legal doctrines and requirements in public management: concept of new property rights in public employment/public service delivery; procedural due process requirement; scope of free speech and liberty protected in the conduct of public management; equal employment opportunity requirements; and the scope of official and personal immunities and liability in public affairs.

Pol S 585. Comparative Public Administration. (Dual-listed with 485). (3-0) Cr. 3. Comparison of government bureaucratic in major world regions; trends and issues of administrative and management reforms; globalization and other contemporary challenges to state administrative structures and policies; skills needed to evaluate and implement public management reforms.

Pol S 590. Special Topics. Cr. arr. Repeatable. F.S. *Prereq: 15 credits in political science, written permission of instructor.*
A. American Political Institutions
B. Public Law
C. Political Theory and Methodology
D. Comparative Government
E. International Relations
F. Political Parties and Policy Formation
G. Public Administration and Public Policy
I. Internship
T. Teaching Preparation

Pol S 598. Public Administration Internship. Cr. arr. F.S. *Prereq: 15 credits in political science, permission of the instructor.* Supervised internship with administrative agencies, legislative organizations, judicial branch offices, and nonprofit groups.

Pol S 599. Creative Component. Cr. arr.

Courses for graduate students

Pol S 610. Graduate Seminars. (3-0) Cr. 3. Repeatable. F.S. *Prereq: 15 credits in political science.*
A. American Political Institutions
B. Public Law
C. Political Theory and Methodology
D. Comparative Government
E. International Relations
F. Policy Process
G. Public Administration and Public Policy

Pol S 699. Research. Cr. arr. Repeatable.

Preprofessional Study

Requirements for admission to most professional academic programs can be met by study at Iowa State University. These requirements may be met in the course of obtaining a bachelor's degree from Iowa State or at a level below that of a degree, depending on the intended field of study. The specific courses taken in a preprofessional program will depend primarily upon the admission requirements of the professional schools to which a student wants to apply. In some programs requiring three years of preprofessional work, a student may, by careful planning, complete requirements for the bachelor's degree upon transferring to Iowa State up to 32 semester credits of professional coursework. Generally these credits will be counted as electives, but a maximum of 24 may be used as major credits in interdisciplinary studies and a smaller number as major credits in appropriate departments.

Students who have not declared a major upon entry should enter as preprofessional students, i.e., premedical, prelaw, PHP (preprofessional health programs), or GENPV (General Undergraduate Studies Pre Vet), until they choose a major or transfer to a professional school. All students, whether they have selected a major or not, are encouraged to identify their interest in a professional career by designating it on their application.

Information about preprofessional program admissions requirements and career opportunities in human health or law may be obtained in the Liberal Arts and Sciences Advising Center. Information about veterinary medicine admissions requirements and career opportunities may be obtained from the coordinator of the preveterinary program in the Office of the Dean of the College of Veterinary Medicine.

Clinical Laboratory Science/Medical Technology

Clinical laboratory scientists, still commonly referred to as medical technologists, are important members of health-care teams. They perform the chemical, microscopic, radio-assay, and microbiological tests that are necessary in disease diagnosis, and they type and cross-match blood samples to facilitate blood transfusions. They usually work under the supervision of a physician in a hospital or clinic laboratory, but may also be employed by a pharmaceutical company or by manufacturers of analytical instruments. The professional training requires 12 months in a hospital-based CLS/MT program following at least 3 years of college study that emphasizes chemistry and the biological sciences. Students may earn a bachelor's degree by completing the admissions requirements of the CLS/MT program and most of the degree requirements in 3 years on campus, then spending their fourth year in one of the hospital programs that are affiliated with Iowa State University. Before beginning the off-campus studies, students must earn at least 88 credits; the 32 most recent credits must have been earned in residence at ISU. A maximum of 32 semester credits earned in professional CLS/MT school can be used to partially fulfill the requirements for the bachelor's degree. Students who complete all degree requirements in residence at the university may apply to any school of medical technology for which the admission requirements have been met.

The following CLS/MT programs are affiliated with Iowa State University:

Mercy College of Health Sciences Clinical Laboratory Science Program, Des Moines, Iowa. Program Director: Kyla Deibler.

St. Luke's Methodist Hospital, Cedar Rapids, Iowa. Education Coordinator: Nadine Sojka. Medical Director: Dorryl Buck.

Dentistry

Dentists diagnose, treat, and try to prevent diseases and injuries of the teeth, jaws, and mouth. Usually a general practitioner will have spent 3 or 4 years taking preprofessional courses at the undergraduate level and 4 years in dental school earning the degree of doctor of dental surgery (D.D.S.) or doctor of dental medicine (D.M.D.). Learning a specialty requires at least 2 more years. The courses necessary for admission to most dental schools include English, biology, general and organic chemistry, and physics. Students may earn a degree in any major that Iowa State University offers as they meet the admission requirements; they should choose their major to reflect their own interests and abilities. Highly qualified students may be accepted into dental school after 3 years of preprofessional study without earning a baccalaureate degree.

Health Information Management

Health information managers serve as supervisors of medical records departments in hospitals, clinics, nursing homes, and other healthcare institutions. Certified registered record administrators (R.R.A.) must have completed a program leading to a bachelor's degree in medical record administration. Most professional programs are 2 years in length and follow 2 years of college study in chemistry, biology, the humanities, social sciences, languages, and philosophy. Students may take the preprofessional courses at Iowa State University and then transfer to a university offering the professional program or they may earn a bachelor's degree at Iowa State University before entering a health information management program.

Hospital and Health Administration

Administrators of health care organizations manage and guide the varied activities in hospitals, clinics, nursing homes, and mental health facilities. The professional requirement may be for a master's degree or a bachelor's degree, depending upon the size of the institution and whether an upper or middle entry-level position is desired. Students at Iowa State may take general education courses for two or more years and then transfer to a university offering a bachelor's degree in health administration, or they may spend four years earning a bachelor's degree in any department before entering a master's degree program at the University of Iowa or other university. Courses required for admission to master's degree programs in hospital and health administration vary, but may include introductory accounting, management, statistics, and economics.

Human Medicine

Physicians study, diagnose, and treat illness and injury. They may work in offices, clinics, hospitals, or laboratories, in private practice or for government or industry. Their professional training usually consists of 4 years of study in a college of medicine to earn the doctor of medicine (M.D.) degree, and then 3 or more years in hospital residency learning a specialty such as family medicine, pediatrics, surgery, obstetrics, or psychiatry. A degree of doctor of osteopathy (D.O.) is awarded to those students who complete 4 years in a college of osteopathic medicine before their residency. All medical schools recommend a broad preprofessional education that includes courses in biology, chemistry, physics, mathematics, English, the social sciences, arts and humanities. The degree of a premedical student can be from any college and in any curriculum or major offered by the university. The major should reflect the student's interests and provide appropriate preparation for an alternative career.

Law

An attorney offers assistance, often where a third-party neutral arbiter is required to resolve conflicts. Many attorneys work in private practice, but others secure positions in the public sector, e.g., federal or state governmental agencies. At least 3 years (a J.D. is completed in 3 years, with 90 credits. It may be completed earlier if the student attends summer school) are needed to complete a law degree, a Doctor of Jurisprudence (J.D.). A bachelor's degree is required for admission to all accredited law schools. A student planning to enter law school may major in any discipline. Courses taken as an undergraduate should be designed to assist the student in the development of critical thinking skills, including analytical written and oral skills. An understanding of social structures and institutions is invaluable. Perhaps most valuable are courses in philosophy, English language and literature, the social sciences, including political science, psychology, criminal justice, economics, and history. Courses in mathematics, particularly statistics, are also helpful in developing analytical skills.

Library and Information Science

Librarians are essential in educational institutions, medical facilities, government agencies, industries, and public information centers. The professional preparation for library administration is provided by master's degree programs. Admission requirements for the University of Iowa's program, for example, include a bachelor's degree with at least 85 semester credits in the arts and humanities and the natural and social sciences. Iowa State students may choose majors that reflect their own interests and that may provide a foundation for working in medical, law, or other specialized libraries.

Nursing

A professional nurse may do clinical nursing, teaching, or research, in hospitals, private practice, public health centers, schools, or industry. Although becoming a registered nurse (R.N.) does not require a bachelor's degree, the student who completes the bachelor of science degree in nursing (B.S.N.) has college-level preparation for clinical nursing and an essential base for graduate study. Iowa State University does not offer a nursing degree. Students may take prenursing courses for two years at Iowa State University and, if accepted, transfer to the BSN program at another college or university.

Occupational Therapy

Occupational therapists provide purposeful activities to help those who have been disabled by physical illness or injury, birth defects, emotional disorder, aging, drug abuse, or other problems to learn to cope with everyday living. Therapists treat patients in hospitals, school systems, and rehabilitation centers. Students may complete a bachelor's degree in a related area at Iowa State University, and then enter a certification, master's or doctoral degree program at another university; or they may complete 1 or 2 years of preoccupational therapy courses at Iowa State and then transfer to another university to complete the requirements for a bachelor's degree in occupational therapy. The prerequisites for admission to an occupational therapy program usually include

English, art, biology, chemistry, physics, psychology, sociology, anthropology, and statistics, but vary from one school to another.

Optometry

Optometrists examine, diagnose, treat and manage diseases of the visual system, the eye and associated structures. Treatment may include corrective glasses or contacts, vision therapy and therapeutic drugs. Optometrists usually set up their own offices or work in group practice. Professional study requires 4 years in a school or college of optometry and leads to the doctor of optometry (O.D.) degree. All optometry schools require at least 90 semester credits of preprofessional courses, including biology, chemistry, physics, mathematics, and English. Certain optometry schools require a bachelor's degree. Students wishing to earn the bachelor's degree from Iowa State University may choose any major and take the courses required for graduation with that major as they take the courses required for admission to a professional optometry program.

Pharmacy

Pharmacists prepare and dispense therapeutic drugs; educate health care professionals, patients and the general public about the appropriate use of drugs; conduct pharmaceutical research and work in industrial settings which involve the manufacture, marketing and advertising of pharmaceutical. Students may complete prepharmacy courses within two years at Iowa State University. Upon admission, the student will then transfer to a Pharm. D. program of study which will entail three or four years of study.

Physical Therapy

Physical therapists work with people who have been disabled by injury, illness, or birth defects. They assist in evaluating the physical problems and administer therapeutic agents such as massage and exercise, heat, baths, ultrasonics, and electricity; they work in hospitals, clinics, nursing homes, schools, rehabilitation centers, and private practice. Students may complete three years of undergraduate courses including prerequisites before transferring to a three-year professional curriculum such as the master's degree program at St. Ambrose University or the doctoral degree program at Creighton University. Usually, students earn a bachelor's degree in a related field at ISU before entering professional school to earn a master's degree or doctoral. Admission to the master's degree program at the University of Iowa requires a bachelor's degree. The bachelor's degree from ISU may be earned in any department, provided that the physical therapy prerequisites are completed. Earning a bachelor's degree prior to entering professional school allows a student to apply to a range of graduate level programs and builds a strong liberal arts foundation. Courses required for admission to a professional program include biology, chemistry, physics, psychology, mathematics, and statistics.

Physician Assistant

A physician assistant provides medical services under the supervision of a licensed physician. PAs conduct physical examinations, order and interpret laboratory tests, make diagnostic and treatment decisions, and are allowed to prescribe medication in most states. Certification as a physician assistant requires 2 years in a professional program at the master's or bachelor's degree level. Students applying to a bachelor's degree program must have completed at least 60 semester credits of college work including general and organic chemistry, zoology, behavioral science, and humanities. Applicants who have had health-care experience with direct patient contact are preferred. Admission to a master's degree program requires similar coursework and clinical experience in addition to a bachelor's degree.

Podiatry

Podiatrists diagnose, and treat diseases and disorders of the human foot and ankle. They treat patients in private and group practice, hospitals, and, increasingly, in industrial and sports-related positions. Professional training requires 4 years in a college of podiatric medicine and leads to the degree of doctor of podiatric medicine (D.P.M.). This is usually followed by 1 to 3 years in a hospital residency. All podiatric colleges require at least 3 years of preprofessional study, including courses in biology, general and organic chemistry, physics, and English. Most entrants have a bachelor's degree, which may be in any major. A few students may complete the admission requirements and most of the bachelor's degree requirements in 3 years. If so, a maximum of 32 semester credits may be transferred to Iowa State University from the first year in an accredited podiatric college in order to complete the requirements for the bachelor's degree.

Theology or Religious Studies

The professional education of a student of religion can follow one of two paths. The path to a profession as a pastor, priest, rabbi or other leadership position in a religious tradition usually requires 3 years in a program leading to the master of divinity (M.Div.) offered at a school of divinity or of theology. The path to a profession as a teacher of religious studies at the college level requires 4-7 years in a program leading to the Ph.D. at a graduate school of Religious Studies. Both seminaries and graduate schools require a bachelor's degree for admission. The American Association of Theological Schools recommends the following areas of study as the best preparation for theological studies: English language and literature; history, including non-Western culture; philosophy; natural sciences, social sciences, especially psychology, sociology and anthropology; the fine arts; Biblical and modern languages; and religion, both Western and Eastern. Although students in a variety of major fields may qualify for admission to a theological school, interested persons are advised to review their proposed programs with a representative of the Religious Studies Program in the Department of Philosophy and Religious Studies.

Veterinary Medicine

About 75% of all veterinarians are engaged in private practice. In a mixed practice, they diagnose and treat health problems among a variety of animals. Others specialize in one species (e.g., feline, pet bird) and still others specialize in a specific discipline within veterinary medicine (e.g., cardiology, ophthalmology). Veterinarians may also choose public and corporate practice (e.g., public health, education, research, food safety, industry, laboratory animal medicine, aquatic animal medicine, poultry medicine, and military veterinary medicine).

The professional program requires four years at a college of veterinary medicine and leads to the doctor of veterinary medicine degree (D.V.M.).

Admission to a veterinary college involves at least two years of preprofessional college education. Candidates must take courses in biology, chemistry, genetics, physics, English, humanities, social sciences, speech, anatomy and physiology, and biochemistry. (For Iowa State University see *Veterinary Medicine, Admission Requirements*; for most recent information, consult the College of Veterinary Medicine Web site: www.vetmed.iastate.edu.)

Students may pursue their preveterinary preparation in any college at Iowa State University. A major (preveterinary medicine is not a major) should be selected that is allied to each student's vocational interests in veterinary medicine or that otherwise offers vocational satisfaction in the event that plans for entry into the College of Veterinary Medicine change. Students are encouraged to pursue a bachelor's degree; the most effective progress toward a bachelor's degree is made when a major is selected upon entry and no change occurs before graduation. However, students who have not even considered a career other than veterinary medicine may need some time to explore possibilities before selection of a major.

To assist students who have indicated interest in the preveterinary program for the College of Veterinary Medicine and are undecided about a major, an advising category is available known as GENPV (General Undergraduate Studies Pre Vet). Orientation and advising services for these students are designed to help students fulfill preveterinary course requirements, to introduce available majors and careers allied to veterinary medicine, and to introduce career options in veterinary medicine. GENPV students must select a major by the end of their second semester. Some Iowa State University majors allow, by careful planning, the opportunity for a student to earn the bachelor's degree by combining credits from three years of preprofessional study and one year of professional study in the College of Veterinary Medicine.

Professional Agriculture

www.proag.iastate.edu/

(Interdepartmental Program administered by the Department of Agricultural Education and Studies)

Graduate Study

The Professional Agriculture major is an off-campus non-thesis program leading to the Master of Agriculture (M.Ag.) degree. It is available to students wishing to pursue graduate studies in agriculture, or natural resources through distance education. It is considered to be a professional degree and not preparation for a doctoral program. The program emphasizes agriculture/natural resource information and technology transfer in a variety of settings including education, extension, agencies, and industry training/development.

Graduates have a broad base of knowledge in one or more agriculture disciplines. They have the ability to communicate effectively and make decisions based on knowledge. To earn the 32 credits necessary for graduation, students must complete 28 semester credits of formal coursework, and 4 credits of creative component. Courses are delivered through distance education via the WWW and DVD. On-campus workshops are offered during summer sessions. Specific courses offered in the program are listed on the College of Agriculture's distance education website: www.agde.iastate.edu/.

Psychology

www.psychology.iastate.edu/

Douglas Bonett, Chair of Department

Distinguished Professors: Anderson, Wells

Distinguished Professor (Emeritus): Ahmann

University Professor: Lorenz

University Professor (Emeritus): Brown

Professors: Andre, D. Bonett, Cutrona, Dark, Larson, Phye, Prieto

Professors (Emeritus): Bath, Borgen, Charles, Edwards, Hannum, Hughes, Karas, Layton, Lewis, Peters, Strahan, Wolins, Zytowski

Professors (Collaborators): Conger, Gerrard

Associate Professors: Cooper, Cross, Cunnick, Madon, Scott, Venkatagiri, Vogel, Wei, West

Assistant Professors: Armstrong, Blankenship, Carpenter, Chan, Gentile, Guyll, Krizan, Morris, Wade, Weber

Assistant Professor (Adjunct): Mason

Assistant Professor (Collaborators): Day

Senior Lecturers: R. Bonett, Hanisch, Konar, Phillips, Scheel

Lecturers: Gilbert, Harms, Jenks, Shi, Sweet

Undergraduate Study

For college-level requirements in undergraduate curricula leading to the degrees of bachelor of arts and bachelor of science, see Liberal Arts and Sciences, Curriculum.

An undergraduate major in psychology may be taken as liberal arts education, as preparation for graduate study in psychology, or as background for professional education in law and in the health professions. A student with a bachelor's degree in psychology may qualify for a variety of positions including those in social sciences, mental health, corrections, rehabilitation, developmental disability centers, business, management, and public opinion surveying. Depending on professional goals, a minor in another discipline may be desirable. Students should consult with their academic advisers early in their undergraduate curriculum. The requirements of the program enable graduates to understand and apply the scientific principles, facts, and basic methods of psychology in their personal and professional activities. Graduates learn to think scientifically about human behaviors and mental processes. They can communicate effectively in speech and in writing, respect individual and cultural differences in behaviors, and appreciate ethical issues in both the science and practice of psychology. Professional work with a job title of psychologist in academic, business, clinical, government, and school settings requires graduate degrees.

The major must include the following psychology courses: 101, 102, 111, 201, 301, and 440, each with a minimum grade of C-. The major also must include four courses distributed across at least four of the following five areas: Area A – 230, 250; Area B – 280, 380; Area C – 310, 315; Area D – 312, 313, 316, 318(x); Area E – 360, 460. Three additional 3-credit courses in psychology must be taken. Area courses may be used to meet this requirement, but variable credit courses (470, 490, 491, and 492) may not. In accordance with college requirements, a C or better average is required in the courses used to satisfy the major.

Departmental requirements for the B.A. and B.S. include the following supporting courses: six credits in philosophy including 201; two of the following: Biol 101, 155 or 211; Chem 163; Gen 260 or Biol 258; one of the following: Stat 101, 104 or 226, with a minimum grade of C-; and a Math course, excluding 105, acceptable in LAS General Education Natural Sciences and Mathematics Discipline Area.

Students electing a B.S. degree also must complete Psych 302 with a minimum grade of C- and a minimum of 10 additional supporting credits in supporting courses from the list of courses in the LAS Gen Ed Natural Sciences and Mathematical Disciplines Area (or approved departmental list) as follows: three credits in mathematics, six credits in natural sciences, and one additional credit in a laboratory course.

Students electing a B.A. degree also must complete an ISU approved minor.

The department offers a minor in psychology. The minor requires completing 18 credits in psychology, including 101 and 301, each with a minimum grade of C-. At least 9 of the 18 credits must be in 300 level courses (or above), but no more than three credits total may be from Psych 490, 491, and 492. A C- or better is required in each course used to satisfy the minor and a C average or better is required in courses used to satisfy the minor. Contact the psychology advising office for more information.

Communication Proficiency requirement: The department requires a grade of C- or better in Engl 150 and in Engl 250 (or 250H) and a C- or better in Psych 302 or Psych 490 (2 credits minimum) or Engl 302, 309, or 314.

Graduate Study

The department offers work for the degrees master of science and doctor of philosophy in psychology, and for a minor for students with a major in other departments.

Within the major of psychology, the department offers a doctoral specialization in counseling psychology (APA accredited) and doctoral areas of concentration in cognitive psychology and social psychology.

Students seeking a graduate major in psychology must have graduated from an accredited college in a curriculum substantially equivalent to the undergraduate curriculum in Liberal Arts and Sciences at Iowa State University. Prerequisite to admission is at least 15 credits of basic psychology, which should include a laboratory course, a measurement course, and a statistics course.

Graduates function as academic psychologists in higher education or as professional psychologists in applied settings. They have an extensive knowledge of psychological principles and the conceptual and quantitative skills to conduct psychological research, communicating the results to the scientific community, students in the classroom, and the general public. Graduates in applied programs have specialized knowledge in counseling and program development. They are skilled in delivering such programs and services to diverse clientele in a variety of settings.

The department also participates in the interdepartmental programs in human computer interaction and neuroscience, and in the interdepartmental minor in gerontology (see Index).

A formal class and a supervised practicum in the teaching of psychology is recommended for all doctoral students whose future plans may include teaching at the college level. A 12-month internship in a training site or agency approved by the faculty is required of all doctoral students in counseling psychology.

Communication Disorders (CmDis)

(Administered by the Department of Psychology)

Courses primarily for undergraduate students

CmDis 170. Speech Improvement for Nonnative Speakers. (2-0) Cr. 2. For nonnative speakers of English only. Development of effective English vowel and consonant productions, accommodation processes that occur in context, intelligibility in conversational English, and appropriate stress patterns. Satisfactory-fail only.

CmDis 275. Introduction to Communication Disorders. (Cross-listed with Ling). (3-0) Cr. 3. Survey of nature, causes, and types of major communication disorders including phonological, adult and child language, voice, cleft palate, fluency, and hearing disorders.

CmDis 286. Basic Sign Language. (Cross-listed with Ling). (3-0) Cr. 3. Development of basic skills in the use and understanding of signed English, a modification of American Sign Language. Overview of the types, causes and consequences of hearing impairment, deaf culture and the education of hearing-impaired children.

CmDis 371. Phonetics and Phonology. (Cross-listed with Ling). (3-0) Cr. 3. *Prereq: 275 or Engl 219.* Analysis of speech through study of individual sounds, their variations, and relationships in context; English phonology; practice in auditory discrimination and transcription of sounds of American English; description of speech sounds in terms of their production, transmission, and perception.

CmDis 471. Language Development. (Cross-listed with Ling). (3-0) Cr. 3. *Prereq: 275 or Psych 230 or Engl 219.* Definition of components of language. Overview of theories and developmental processes related to each component of linguistic skill (semantics, lexicon, syntax, morphology, phonology, pragmatics). Overview of normative information available for infants, children, adolescents, and adults. Attention to metalinguistic skills and the complementary nonlinguistic and paralinguistic skills. Nonmajor graduate credit.

Courses primarily for undergraduate students

Psych 101. Introduction to Psychology. (3-0) Cr. 3. F.S.SS. Fundamental psychological concepts derived from the application of the scientific method to the study of behavior and mental processes. Applications of psychology.
H. Honors section. (2-2) F. (For students in the University Honors Program only.)

Psych 102. Laboratory in Introductory Psychology. (0-2) Cr. 1. F.S. *Prereq: Credit or enrollment in 101.* Laboratory to accompany 101.

Psych 111. Orientation to Psychology. Cr. 0.5. F.S. Program requirements and degree/career options. Required of psychology majors. Satisfactory-fail only.

Psych 131. Academic Learning Skills. (0-2) Cr. 1. F.S. Efficient methods of study and reading. Satisfactory-fail only.

Psych 230. Developmental Psychology. (3-0) Cr. 3. F.S.SS. Life-span development of physical traits, cognition, intelligence, social and emotional behavior, personality, and adjustment.

Psych 280. Social Psychology. (3-0) Cr. 3. F.S.SS. Individual human behavior in social contexts. Emphasis on social judgments and decisions, attitudes, perceptions of others, social influence, aggression, stereotypes, and helping.

Psych 301. Research Design and Methodology. (3-0) Cr. 3. F.S.SS. *Prereq: Stat 101; 1 course in psychology.* Survey of the principal research techniques used in psychology with an emphasis on the statistical analysis of psychological data.

Psych 302. Research Methods in Psychology. (2-2) Cr. 3. F.S. *Prereq: 301.* Discussion of and experience in designing research studies, collecting and analyzing data, and preparing research reports in psychology.

Psych 310. Brain and Behavior. (3-0) Cr. 3. F.S. *Prereq: 101.* Survey of basic concepts in the neurosciences with emphasis on brain mechanisms mediating sensory processes, arousal, motivation, learning, and abnormal behavior.

Psych 312. Sensation and Perception. (3-0) Cr. 3. F.S. *Prereq: 101.* Survey of the physiology and psychology of human sensory systems including vision, audition, smell, taste, the skin senses, and the vestibular senses.

Psych 313. Learning and Memory. (3-0) Cr. 3. F.S. *Prereq: 101.* Fundamental concepts and theories of learning and memory derived from human and animal research.

Psych 314. Motivation. (3-0) Cr. 3. F.S. *Prereq: 101.* Concepts and topics of motivation including curiosity, pain, emotion, sex, aggression, love, play, addiction, sleep, fatigue, and work.

Psych 315. Drugs and Behavior. (3-0) Cr. 3. F.S. *Prereq: 101, Biol 155 or 211.* A biological perspective on fundamentals of psychoactive drugs and their use in experimental, therapeutic, and social settings.

Psych 316. Cognitive Processes. (3-0) Cr. 3. F.S. *Prereq: 101.* The study of the human mind, addressing the processes by which people perceive the world, remember information, access and use knowledge, understand language, make decisions, reason, learn and solve problems.

Psych 333. Educational Psychology. (Cross-listed with C I). (3-0) Cr. 3. F.S. *Prereq: Psych 230 or HD FS 102, application to the teacher education program or major in psychology.* Classroom learning with emphasis on theories of learning and cognition, and instructional techniques. Major emphasis on measurement theory and the classroom assessment of learning outcomes.

Psych 346. Psychology of Women. (Cross-listed with W S). (3-0) Cr. 3. S. *Prereq: 2 courses in psychology including 101.* Survey of psychological literature relating to biological, developmental, interpersonal, and societal determinants of the behavior of women.

Psych 348. Psychology of Religion. (Cross-listed with Relig). (3-0) Cr. 3. *Prereq: Nine credits in psychology.* Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.

Psych 360. Psychology of Normal Personality. (3-0) Cr. 3. F.S.SS. *Prereq: 101.* Theories and research in the study of development and functioning of normal personality.

Psych 380. Social Cognition. (3-0) Cr. 3. *Prereq: 101 or 280.* How people understand themselves and others, including attribution, social categories and schemas, the self, social inference, stereotypes, and prejudice.

Psych 381. Social Psychology of Small Group Behavior. (Cross-listed with Soc). (3-0) Cr. 3. S. *Prereq: 280 or Soc 305.* A survey of small group theory and research from an interdisciplinary, social psychological perspective.

Psych 401. History of Psychology. (3-0) Cr. 3. F.S. *Prereq: 4 courses in psychology.* Philosophy and science backgrounds of psychology. Development of theories and causes of events in academic and applied psychology. Nonmajor graduate credit.

Psych 411. Evolutionary Psychology. (3-0) Cr. 3. S. *Prereq: Junior classification, three courses in psychology; biology 211.* This course examines the application of the principles of evolutionary biology to the understanding of human behavior. Evolutionary perspectives on brain development, cognition, language, mating behavior, sex differences, altruism, artistic behavior, and criminal behavior are explored. Arguments by those critical of the evolutionary approach to psychology are examined as well.

Psych 413. Psychology of Language. (Cross-listed with Ling). (3-0) Cr. 3. *Prereq: Psych 101.* Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes. Nonmajor graduate credit.

Psych 422. Counseling Theories and Techniques. (3-0) Cr. 3. F. *Prereq: 3 courses in psychology.* Overview of the major counseling theories and techniques, with emphasis on the key concepts of each theory, the role of the counselor, therapetuic goals, and the main techniques derived from each theory. Nonmajor graduate credit.

Psych 422L. Laboratory in Counseling Theory and Techniques. (0-2) Cr. 1. F. *Prereq: Three classes in psychology and credit or enrollment in Psych 422..* Learn basic counseling skills such as active listening, reflecting feelings, empathy, confrontation, immediacy and self-disclosure. Supervised practice using basic counseling skills.

Psych 440. Psychological Measurement I. (2-2) Cr. 3. F.S.SS. *Prereq: 301 and 9 credits in psychology, Stat 101.* Principles of psychological measurement, including concepts of reliability and validity; interpretation of scores; factors influencing performance; construction and use of measures of ability, achievement, and personality. Nonmajor graduate credit.

Psych 450. Industrial Psychology. (3-0) Cr. 3. F.S. *Prereq: 2 courses in psychology including 101, Stat 101.* Content and methods of industrial psychology including the different approaches used to select employees, how to conduct performance appraisals, and how to train employees in organizations. Work attitudes and behaviors of employees, work schedules, safety and human factors as well as relevant legal issues are discussed. Statistics including regression and correlation are used in the course. Nonmajor graduate credit.

Psych 460. Abnormal Psychology. (3-0) Cr. 3. F.S.SS. *Prereq: 3 courses in psychology including 101.* Description of major forms of maladaptation including anxiety, mood disorders, personality disorders, substance dependence, and schizophrenia. Factors in the development of behavior deviations. Research pertinent to the description, development, and maintenance of abnormal behavior. Nonmajor graduate credit.

Psych 470. Seminar in Psychology. (1-0) Cr. arr. Repeatable. *Prereq: 12 credits in psychology.* Current topics in psychological research and practice.
A. Counseling
B. Experimental
C. Individual Differences
D. Social

Psych 484. Psychology of Close Relationships. (3-0) Cr. 3. *Prereq: 9 credits in psychology including 280.* Theories and research concerning the functions, development, and deterioration of close relationships. Influence of psychological processes on friendship, romantic, marital, and family relationships. Topics include mate selection, interdependence, trust and commitment, power and dominance in relationships, sexuality, divorce, gender roles, and family interaction. Nonmajor graduate credit.

Psych 485. Health Psychology. (3-0) Cr. 3. F. *Prereq: Junior classification, 6 credits in psychology.* Application of psychological theory and research methods to issues in physical health. Psychological factors in illness prevention, health maintenance, treatment of illness, recovery from injury and illness, and adjustment to chronic illness. Nonmajor graduate credit.

Psych 488. Cultural Psychology. (3-0) Cr. 3. *Prereq: 280 and 301; junior classification.* Examination of the ways that cultural beliefs, values, and ideologies shape cognitive, developmental, social and other psychological phenomena. Nonmajor graduate credit.

Psych 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: Junior classification, 6 credits in psychology, and permission of instructor.* Supervised reading in an area of psychology. Writing requirement.

No more than 9 credits of Psych 490 may be counted toward a degree in psychology.

Psych 491. Research Practicum. Cr. arr. Repeatable. F.S.SS. *Prereq: Junior classification, permission of instructor, and credit or enrollment in 301.* Supervised research in an area of psychology. Primarily for students intending to pursue graduate education. No more than 9 credits of Psych 491 may be counted toward a degree in psychology.

Psych 492. Fieldwork Practicum. Cr. arr. Repeatable. F.S.SS. *Prereq: Junior classification, 12 credits in psychology, and permission of instructor.* Supervised fieldwork in a human service agency or other appropriate setting. No more than 9 credits of Psych 492 may be counted toward a degree in psychology. Satisfactory-fail only.

Courses primarily for graduate students, open to qualified undergraduate students

Psych 508. Research Methods in Applied Psychology. (3-0) Cr. 3. *Prereq: 440, Stat 401.* Methods and issues in applied psychological research. Role of theory in research, fidelity of measurement, selection of subjects, sampling, ethical issues, experimenter bias, data collection methods, power analysis, and professional standards for writing research articles. Emphasis on research methodological issues, not statistical issues.

Psych 512. Advanced Perception. (3-0) Cr. 3. *Prereq: 312.* Survey of current theory and research in perception with an emphasis on vision.

Psych 514. Advanced Human Learning and Memory. (3-0) Cr. 3. *Prereq: 313 or 316 and Stat 101.* Theoretical and empirical research in human learning and memory.

Psych 516. Advanced Cognition. (3-0) Cr. 3. F.S. *Prereq: 316.* Theoretical models and empirical research in human cognition within the domains of perception, attention, memory, language, concepts/categorization and spatial cognition.

Psych 517. Psychopharmacology. (3-0) Cr. 3. *Prereq: 310, 315, or equivalent and permission of instructor.* Fundamentals of drug-behavior interactions with emphasis on psychoactive drugs and their use in experimental, therapeutic, and social settings.

Psych 519. Cognitive Neuropsychology. (3-0) Cr. 3. *Prereq: 310 and 316 or 313.* Psychological models and related neurological substrates underlying cognition in normal and brain-damaged individuals.

Psych 521. Cognitive Psychology of Human Computer Interaction. (Cross-listed with HCI). (3-0) Cr. 3. *Prereq: Graduate classification or instructor approval.* Biological, behavioral, perceptual, cognitive and social issues relevant to human computer interactions.

Psych 522. Scientific Methods in Human Computer Interaction. (Cross-listed with HCI). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Psych 521 and Stat 101 or equivalent.* Basics of hypothesis testing, experimental design, analysis and interpretation of data, and the ethical principles of human research as they apply to research in human computer interaction.

Psych 530. Advanced Developmental Psychology. (3-0) Cr. 3. *Prereq: Psych 230, 301, 302 and Stat 401, or graduate classification.* Theory and research on infant and child development, with an emphasis on perceptual development, cognitive development and social development.

Psych 533. Educational Psychology of Learning Cognition, and Motivation. (Cross-listed with C I). (3-0) Cr. 3. F. *Prereq: 333 or teacher licensure.* Learning, cognition, and memory in educational/training settings.

Psych 538. Developmental Disabilities in Children. (Cross-listed with HD FS). (3-0) Cr. 3. F. *Prereq: 9 credits in human development and family studies or psychology.* Theories, research, and current issues regarding development in children with disabilities. Investigation of interventions with children and families.

Psych 542. Introduction to Psychological Assessment. (3-0) Cr. 3. F. *Prereq: 440.* Theory and research concerning assessment of intelligence and achievement with emphasis on developmental patterns and diagnosis of learning problems. Critical examination of current assessment practices in clinical and educational settings.

Psych 544. Practicum in Assessment. (2-1) Cr. 2. *Prereq: 542 and admission into the PhD program in counseling psychology.* Supervised practice in designing and implementing observational systems and in administering, scoring, interpreting, and reporting individual tests.
A. Behavioral Assessment
B. Individual Tests: Children
C. Testing: Adult Ages

Psych 550. Advanced Industrial and Organizational Psychology. (3-0) Cr. 3. *Prereq: 440, Stat 402.* Critical examination of theories, methods, and applications in industrial and organizational psychology. History and legal issues, predictor and criteria relationships, employee attitudes and behaviors, employee training and motivation, and human factors.

Psych 560. Advanced Personality Psychology. (3-0) Cr. 3. *Prereq: 4 courses in psychology, including 360.* Analysis of theories of personality, concepts, methods, and current research issues.

Psych 561. Psychopathology and Behavior Deviations. (3-0) Cr. 3. *Prereq: 460.* Examination of theoretical perspectives and current research pertinent to the major forms of adult dysfunction including: adjustment, anxiety, mood, somatoform, dissociative, sexual and gender identity, personality, schizophrenic, eating, and substance abuse disorders.

Psych 562. Personality Assessment. (3-0) Cr. 3. *Prereq: 360, 440, 542, and Stat 401 and admission to the PhD program in counseling psychology.* Principles, concepts, and methods of personality assessment. Though not a practicum course, exposure is given to a variety of objective, projective, and situational tests.

Psych 563. Developmental Psychopathology. (3-0) Cr. 3. *Prereq: 230 and 460 or graduate classification.* Theory and research related to major disorders of childhood and adolescence with an emphasis on assessment, etiology, and developmental processes, and multimodal interventions.

Psych 580. Advanced Social Psychology: Psychological Perspectives. (3-0) Cr. 3. *Prereq: 4 courses in psychology, including 280.* Current theories, methods, and research in social psychology with an emphasis on cognitive and interpersonal processes such as attribution, social cognition, attitude change, attraction, aggression, and social comparison.

Psych 581. Applications of social Psychology Theories. (3-0) Cr. 3. *Prereq: 12 credits in psychology, including 280.* Application of social psychological theory to various applied topics, including physical and mental health, stress, and coping.

Psych 586. Research Methods in Social Psychology. (3-0) Cr. 3. *Prereq: Stat 402 and permission of instructor.* Ethical issues, generating testable hypotheses, operationalizing independent and dependent variables, sampling and design issues, laboratory procedures, and interpretation of results in experimental research. Issues in analysis of variance, Bayesian reasoning, and effect size estimation will be emphasized, as will writing and publication strategies.

Psych 590. Special Topics. Cr. arr. Repeatable. *Prereq: 12 credits in psychology, and permission of instructor.* Guided reading on special topics or individual research projects.
A. Counseling
Q. Cognitive
R. Social
Z. General

Psych 592. Seminar in Psychology. (1-0) Cr. arr. Repeatable. *Prereq: 12 hours in psychology. Psych 592A also requires admission into the doctoral program in counseling psychology.*
A. Counseling
B. Industrial-Organizational
M. Professional Issues and Ethics
P. Research Methods and Psychometrics
Q. Cognitive
R. Social
Z. General

Psych 597. Internship in Psychology. Cr. R. *Prereq: M.S. degree candidacy; permission of instructor.* Full-time, non-clinical, supervised experience in a setting relevant to psychology. Intended for master's degree level internships.

Psych 599. Creative Component. Cr. arr. Satisfactory-fail only.

Courses for graduate students

Psych 601. History of Philosophy of Psychology. (3-0) Cr. 3. *Prereq: 4 courses in psychology.* Origins of psychology in philosophical, medical, and related thought. Development as an independent discipline in the nineteenth and twentieth centuries as a science and as a practice including traditional and contemporary theory and philosophy.

Psych 605. Multi-level Modeling for social and Behavioral Sciences. (Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Stat 404.* Rationale for and interpretation of random coefficient models. Strategies for the analysis of multi-level and panel data including models for random intercepts, random slopes, and growth curves. Applications including HLM, SAS, PROCMIX, and MPLUS.

Psych 621. Psychological Counseling: Theory and Process. (3-0) Cr. 3. F. *Prereq: Graduate classification.* Overview of major counseling theories with emphases upon: key concepts of theories, the role of the counselor, and applications of theory in fostering client change.

Psych 621L. Techniques in Counseling. (0-6) Cr. 3. F. *Prereq: 621 or concurrent enrollment in 621 and admission into the doctoral program in counseling psychology.* Development of basic counseling skills and techniques through observation, role-playing, case studies, and supervised counseling sessions.

Psych 623. Vocational Behavior. (3-0) Cr. 3. *Prereq: 3 courses in psychology and admission to the PhD program in counseling psychology.* Theoretical views, research, and issues in career development through the life span. Methods of career counseling, including appraisal interviewing, assessment, test interpretation, and use of information sources.

Psych 626. Group Counseling. (2-2) Cr. 3. *Prereq: 621L, 691A and admission to the PhD program in counseling psychology.* Theory, research, ethical issues, and therapeutic considerations relevant to group counseling. Participation in lab exercises for development of group counseling skills and observation of ongoing groups.

Psych 633. Teaching of Psychology. (3-0) Cr. 3. *Prereq: Enrollment in doctoral degree program in psychology, completion of at least 1 year of graduate study, permission of instructor.* Orientation to teaching of psychology at college level: academic issues and problems, instructional and evaluative techniques.

Psych 635. Interventions with Children and Adolescents. (3-0) Cr. 3. *Prereq: Graduate classification.* Research and theory underlying application of behavioral and cognitive psychology to the treatment of childhood and adolescent psychopathology with an emphasis on internalizing disorders, developmental processes, and multimodal interventions.

Psych 691. Practicum in Psychology. Cr. arr. *Prereq: Permission of instructor.* Supervised practice and experience in the following fields of specialization in applied psychology:
A. Counseling (Beginning).
B. Intermediate Counseling.
E. Group Counseling. Prereq: 626, 691A
F. Advanced Counseling. Prereq: 691A
T. Teaching. Prereq: 633 (satisfactory-fail basis grading only)
Z. General

Psych 692. Research Seminar. (1-0) Cr. arr. Repeatable. *Prereq: Permission of instructor.*

A. Counseling
Q. Cognitive
R. Social
Z. General

Psych 697. Internship in Counseling Psychology. Cr. R. *Prereq: Ph.D. candidacy in the Counseling Psychology program, approved dissertation proposal, and permission of instructor.* Full time supervised predoctoral internship experience in a setting relevant to counseling psychology.

Psych 699. Research. Cr. arr. Repeatable. Satisfactory-fail only.

Seed Technology and Business

(Interdepartmental Graduate Major)

www.seeds.iastate.edu/

Manjit Misra. Seed Science Center Director (Administration), Gary Munkvold, Program Chair; Paul Christensen, Program Coordinator

Advisory Committee: David Acker, Sanjeev Agarwal, Paul Christensen, Ana Correia, Michael Crum, Susana Goggi, Kendall Lamkey, Jeff Iles, Manjit Misra, Gary Munkvold, Gaylan Scofield

Faculty: Sanjeev Agarwal, Rajeev Arora, Jennifer Blackhurst, Paul Christensen, Anne Clem, Ana Correia, Michael Crum, Fredrick Dark, David Dornbos, Susana Goggi, Brian Mennecke, Manjit Misra, Gary Munkvold, Russell Mullen, Brad Shrader, James Werbel, John Wong

On-Line Graduate Study

The Graduate Program in Seed Technology and Business offers students advanced study in the seed science and technology and business management appropriate for application in the seed sector. The program is offered by nine departments in the Colleges of Business and Agriculture and Life Sciences: Accounting; Agronomy; Finance; Horticulture; Logistics, Operations, and Management Information Systems; Management; Marketing; and Plant Pathology. This multidisciplinary program offers a focused on-line curriculum for a Master of Science in Seed Technology and Business, along with Graduate Certificates in Seed Science and Technology and in Seed Business Management. Courses are available to students in other majors.

The curriculum offers a set of scientific and technical courses that are focused on seed, with a set of basic management courses, similar to those in the core courses of an MBA program. The business courses will use examples drawn from the seed industry. A creative component is required for the Master of Science degree.

Prerequisite for the program is a bachelor's degree in business, agriculture, other biological discipline, or related degrees. Graduate training in these disciplines will also be considered.

Graduates of the Graduate Program in Seed Technology and Business will be prepared for roles in management and leadership within private and public seed and seed-related organizations.

All of the courses listed below are required for the Master of Science degree, and the students are expected to go through the curriculum in order. The pace of the course sequence is designed to allow the students with work and other commitments to participate. Students will complete the creative component under the guidance of their Program of Study Committee. In many cases, the creative component topic will be associated with the student's work.

Graduates of the Master of Science curriculum will be prepared for roles in management and leadership within seed related organizations, private and public.

The program offers two graduate certificates: a graduate certificate in Seed Science and Technology, which consists of 9 courses (STB/Agron 535, STB/Agron 536, STB/Agron 510, STB/Hort 543, STB/Pl P 592, STB/Agron 547, STB/Agron 534, STB/Agron 539, and STB/Agron 595), and a graduate certificate in Seed Business Management, which consists of 7 courses (STB/Agron 535, BusAd 501, BusAd 503, BusAd 504, BusAd 507, BusAd 508, and BusAd 509). Graduate certificate courses may be applied to the Master of Science in Seed Technology and Business. Those interested in these graduate certificates should contact the Program for details.

Information on application procedures and specific requirements of the major can be obtained from the following internet addresses: http://www.seedgrad.iastate.edu, or http://www.distance.iastate.edu/ or by writing to seedgrad@iastate.edu.

Courses for graduate students

STB 510. Crop Improvement. (Cross-listed with Agron). (3-0) Cr. 3. *Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor.* A study of the basic principles and methods in the genetic improvement of crop plants. Methods used in manipulating genomes through the use of biotechnology. Methods of cultivar development. Quantitative procedures for describing response to selection. Analysis of the relationship of reproductive characters and growth characteristics to response to selection.

STB 534. Seed and Variety, Testing and Technology. (Cross-listed with Agron). (2-0) Cr. 2. *Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor.* The components of seed quality and how they are assessed in the laboratory, including traits derived from modern biotechnology. The impact of new technologies on seed quality testing. Variety maintenance procedures and breeder seed. Variety identification: phenotype and grow-out trials, isozyme testing, and DNA marker testing. Procedures for evaluating varieties. The variance tests appropriate for fixed effects analysis of variance. Statistical inference and stratification for yield trials. Use of strip plot testing.

STB 535. Introduction to the Seed Industry. (Cross-listed with Agron). Cr. 1. *Prereq: Curriculum requires undergraduate specialization in a business or biological science.* An analysis of the defining characteristics of the seed industry and introduction to the Master in Seed Technology and Business curriculum. The tasks of crop improvement and seed production will be analytically related to basic management functions and classifications of management activities that are used in the study of business administration. Management tasks and roles will be analyzed in related to the public policy issues that shape the seed industry, including ethical and economical approaches to biotechnology, intellectual property, and corporate responsibility.

STB 536. Quantitative Methods for Seed. (Cross-listed with Agron). (1-0) Cr. 1. F. *Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor.* Quantitative Methods for analyzing and interpreting agronomic and business information for the seed industry. Principles of experimental design and hypothesis testing, regression, correlation and graphical representation of data. Use of spreadsheets for manipulating, analyzing and presenting data.

STB 539. Seed Conditioning and Storage. (Cross-listed with Agron). (2-0) Cr. 2. *Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor.* The technical operations which may be carried out on a seed lot from harvest until it is ready for marketing and use. The opportunities for quality improvement and the risks of deterioration which are present during that time. Analysis of the costs of and benefits of operations. Evaluation of equipment based on benefits to the customer and producer. Interpretation of the role of the conditioning plant and store as a focal points within the overall operations of a seed company.

STB 543. Seed Physiology. (Cross-listed with Hort). (2-0) Cr. 2. Alt. F., offered 2010. *Prereq: Admission to the Graduate Seed Technology and Business Program or approval of the instructor.* Brief introduction to plant physiology. Physiological aspects of seed development, maturation, longevity, dormancy and germination. Links between physiology and seed quality.

STB 547. Seed Production. (Cross-listed with Agron). (2-0) Cr. 2. *Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor.* Survey of crop production; including management of soil fertility, planting dates, populations, weed control, and insect control. Analysis of the principles of seed multiplication and the key practices which are used to ensure high quality in the products. Field inspection procedures and production aspects that differ from other crop production. Foundation seed production. Analysis of the typical organization of field production tasks. Resources and capabilities required. Survey of differences in seed production strategies between crops and impact of differences on management of seed production.

STB 592. Seed Health Management. (Cross-listed with Pl P). (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: Admission to the Graduate Program in Seed Technology and Business/Consent of instructor.* Occurrence and management of diseases during seed production, harvest, conditioning, storage, and planting. Emphasis on epidemiology, disease management in the field, seed treatment, effects of conditioning on seed health, and seed health testing.

STB 595. Seed Quality, Production, and Research Management. (Cross-listed with Agron). (3-0) Cr. 3. *Prereq: Admission to the Seed Technology and Business Master's Degree Program or approval of the instructor.* Advanced survey of the organization, staff capabilities and management characteristics typical in seed production and crop improvement in seed enterprises. Analysis of the use of quality information in the management of seed operations and sales. Process management applications for seed. Production planning for existing capacity. Analysis of the manager's tasks in the annual cycle and how the tasks of these managers relate to the general categories of business management roles. Difference in management strategies used with different situations and groups of employees.

STB 599. Creative Component. Cr. arr. *Prereq: Admission to the Master's in Seed Technology and Business degree program and permission of the instructor.* A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

R. Paul Lasley, Chair of Department

Distinguished Professor: C. Flora

Distinguished Professor (Emeritus): Beal

University Professors: Lorenz, Woodman

University Professor (Emeritus): Goudy

Professors: Besser, Dobratz, J. Flora, Jones-Johnson, Keith, Korsching, Lasley, Sapp, Sawyer, Wells

Professors (Emeritus): Blake, Bruton, Butler, Cohen, Hoiberg, Hraba, Klonglan, Miller, Mulford, Oulman, Padgitt, Ryan, Schafer, Tait

Professor (Collaborator): Simons

Associate Professors: Allen, Bird, Cast, Delisi, Harrod, Hochstetler, Mazur, Morton, Roberts, Schweingruber, Stewart

Associate Professor (Adjunct): Waggoner

Assistant Professors: Arbuckle, Bain, Downing-Matibag, Krier, Maldonado-Pabon, Monahan, Peters, Prokos

Assistant Professor (Adjunct): Emery

Lecturer: Conis, Reger

Undergraduate Study

Sociology graduates will understand and demonstrate: 1) general knowledge of sociology; 2) research methods in sociology; 3) critical thinking skills; 4) application of sociology to pressing social issues; 5) sociological and professional values; 6) information technology; 7) communication skills; and 8) personal and career development.

The department offers course work leading to either a bachelor of arts or bachelor of science in sociology. Additionally, a bachelor of science in Public Service and Administration in Agriculture is offered. The department offers course work for the Interdisciplinary Studies major in Criminology and Criminal Justice and a minor in Criminal Justice Studies. Programs of study in sociology offered in both the College of Agriculture and the College of Liberal Arts and Sciences are outlined in this section. For the undergraduate curriculum in Liberal Arts and Sciences, with a major in sociology leading to the degrees of bachelor of arts and bachelor of science, see Liberal Arts and Sciences, Curricula. For the undergraduate curriculum in agriculture, with major in public service and administration in agriculture, leading to the degree bachelor of science, see Agriculture, Curriculum in Public Service and Administration in Agriculture. For the undergraduate curriculum in Liberal Arts and Sciences, with a minor in criminal justice studies, see Liberal Arts and Sciences, Curriculum.

Graduates understand how social institutions, communities, and organizations work and change; they can examine the causes and consequences of conformity, deviance, and inequality. They can apply sociological understanding of human behavior to practical work situations and everyday life. Graduates can read critically, think independently, and communicate effectively about social issues and social policy.

College of Liberal Arts and Sciences—Sociology

A major in sociology can serve as a liberal arts education; as preparation for various positions in social service and related occupations in business and industry; as background for professional education in such areas as law and theology or as a basis for graduate professional training as a sociologist in academic, government, business, and industrial settings.

Departmental requirements for sociology majors include the following supporting course: Philosophy including 230 and one upper level Philosophy course; English 302 or 309 or 314; One of the following courses: Statistics101 or 104; At least three additional credits with a Mathematics designator.

A program of study that meets the needs and interests of the student and department requirements will be developed in consultation with the major adviser. Programs of study will include 115; 130 or 134; 202; three credits from 310, 380 or 420; 302; 305; three credits from 327, 330, 331 or 332; 401; 9 credits of upper level electives. Majors must receive grades of C or better in Engl 150 and 250, and a grade of C or better in either Engl 302 or 309 or 314. Programs leading to a bachelor of arts degree will emphasize additional coursework in groups I, II and IV of the general education requirements. Programs leading to a bachelor of science degree will emphasize additional coursework in groups III and IV of the general education requirements. Some of the possible fields of concentration are criminal justice systems, community (urban and rural) sociology, family sociology, sociology of work, social science teaching, research methods and statistics, social change and development, complex organizations, human population and ecology, social inequality, social psychology, and sociological theory.

In consultation with their advisers, students may gain work experience and develop their skills in their field of concentration through the field observation and practice options of 460.

The department offers a minor in sociology which may be earned by completing 15 credits in sociology including: Sociology 130 or 134; 3 credits from 310, 380 or 420; 3 credits from 264, 305 or 381; an additional 6 credits in sociology courses. At least 9 of the 15 credits must be at the 300 level or higher, 6 of these credits must be taken at ISU with a minimal grade of C.

College of Agriculture—Public Service and Administration in Agriculture

The curriculum in public service and administration in agriculture is designed for students who desire an interdisciplinary education to pursue a career with agriculturally related governmental and nonprofit agencies, or with businesses and industries that are concerned with public services in agriculture, natural resources or rural communities. Students will explore the planning and implementing of rural and agriculturally related programs in organizations, communities (town, city, or county), multicounty areas, states, regions, and at the federal level.

The curriculum has a broad base of general education subjects including credits in communications, mathematics, physical and biological sciences, social sciences, and humanities. The technical subjects represent a combination of sociology, economics, public administration and agriculture, with emphases on social and economic change, history of public services, complex organizations, interagency relationships, community leadership, community action, adoption and diffusion, group dynamics, and political and legal behavior as they relate to agriculture and rural areas. For the Interdisciplinary Studies major in Criminology and Criminal Justice, see *Liberal Arts and Sciences, Curriculum*.

Graduate Study

The department offers work for the degrees master of science and doctor of philosophy with majors in sociology and rural sociology and minor work for students majoring in other departments. For M.S. and Ph.D. departmental requirements, see Program of Graduate Study for Degrees in Sociology and Rural Sociology, available from the department office. The department offers concentrations in a number of areas, e.g., community studies and development; sociology of families, inequality, food systems, agriculture and environment; methodology; social change and development; criminology; the economy, organizations and work; and social psychology. The Department of Sociology does not offer a nonthesis master's program.

Graduates have a broad understanding of sociology, address complex societal problems, and communicate effectively with scientific colleagues and the general public in both formal and informal settings. They understand sociological theory, conduct research, and are prepared to educate college students and contribute to public policy. Although the department stipulates no language requirement for either the degree master of science or the degree doctor of philosophy, specifying competence in one or more languages may be desirable in some instances.

The department also participates in the interdepartmental program in interdepartmental majors in sustainable agriculture, transportation and water resources, and interdepartmental minors in gerontology (see *Index*).

Courses primarily for undergraduate students

Soc 110. Orientation to Public Service and Administration in Agriculture. Cr. R. F. Survey of public service and administration in agriculture. Exploration of career tracks and career planning. Recommended during first semester of freshman year or as soon as possible after transfer into the department.

Soc 115. Orientation to Sociology. Cr. R. F.S. Orientation to sociology. A familiarization with University and LAS College requirements and procedures. Occupational tracks and career options open to sociology; introduction to career planning. Recommended during first semester of freshman year, or as soon as possible after transfer into the department. Satisfactory-fail only.

Soc 130. Rural Institutions and Organizations. (3-0) Cr. 3. F.S. An introductory analysis of sociological concepts and theories as they relate to rural institutions and organizations. Emphasis on the static structure and function of these institutions and organizations and on their dynamic adaptation to changing societal, environmental, and economic conditions. General sociological principles and perspectives. Credit for only Soc 130 or 134 may be applied toward graduation.

Soc 134. Introduction to Sociology. (3-0) Cr. 3. F.S.SS. Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure. Credit for only Soc 130 or 134 may be applied toward graduation.
H. Honors.

Soc 202. Introduction to Research Methods. (3-0) Cr. 3. F.S. *Prereq: 130 or 134, credit in Stat 101 or concurrent enrollment in Stat 101.* A survey of the principal research methods used in sociological analysis.

Soc 219. Sociology of Intimate Relationships. (3-0) Cr. 3. F.S.SS. *Prereq: 130 or 134.* Analysis of intimate relationships among couples using a sociological perspective. Attention is given to singlehood; dating and courtship; sexuality; mate selection, cohabitation, and marriage. Relationship quality, communication, conflict and dissolution of these types of relationship will also be explored.

Soc 235. Social Problems and American Values. (3-0) Cr. 3. F.S. *Prereq: 130 or 134.* Sociological concepts, theories and methods to analyze the causes and consequences of social problems. Social problems discussed may include crime, substance abuse, income inequalities, discrimination, poverty, race relations, health care, family issues, and the environment. How American culture and values shape societal conditions, public discourse and policy.

Soc 241. Youth and Crime. (Cross-listed with CJ St). (3-0) Cr. 3. F. *Prereq: 130 or 134.* An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents' rights, and traditional and alternative ways of dealing with juvenile crime.

Soc 264. Small Group Dynamics. (3-0) Cr. 3. F.S. *Prereq: 130 or 134.* An introduction to intra- and intergroup dynamics in small groups. Group decision-making, coalitions, conformity, intergroup relations, status and role effects, leadership, group development and group conflict. Includes student participation in small group processes.

Soc 302. Advanced Research Methods. (3-0) Cr. 3. F.S.Alt. SS., offered 2010. *Prereq: 202; Stat 101; Sociology or PSA Major.* Experience in designing research projects, collecting and analyzing data and reporting results.

Soc 305. Social Psychology: A Sociological Perspective. (3-0) Cr. 3. F.S.SS. *Prereq: 130 or 134.* Examination of human behavior in a social environment with emphasis on development of the self, interpersonal relations, attitudes, and small groups.

Soc 310. Community. (3-0) Cr. 3. F.S. *Prereq: 130 or 134.* Analysis of evolving theory and research of community as an ideal type, an ecological system, a political economy, and an interactional field; examination of the impact of economic, cultural, social and political infrastructures on community power structures and change processes in a global era.

Soc 325. Transition in Agriculture. (3-0) Cr. 3. S. *Prereq: 130 or 134 or permission of instructor.* The impacts of agricultural changes on farm families, rural communities, and consumers. Past, present, and future trends in family farms and their social implications.

Soc 327. Sex and Gender in Society. (Cross-listed with W S). (3-0) Cr. 3. F.S.SS. *Prereq: 130 or 134.* How the biological fact of sex is transformed into a system of gender stratification. The demographics and social positions of women and men in the family, education, media, politics, and the economy. Theories of the social-psychological and sociological bases for behavior and attitudes of women and men. The relationship between gender, class, and race.

Soc 328. Sociology of Masculinities and Manhood. (Cross-listed with W S). (3-0) Cr. 3. S. *Prereq: Soc 130, 134, or W S 201.* Examination of socially constructed and idealized images of manhood, the nature of social hierarchies and relations constructed on the basis of imagery, ideologies, and norms of masculinity. Theories on gender (sociological, psychological, and biological). Particular attention given to theory and research on gender variations among men by race, class, ethnicity, sexual orientation, physical ability and age.

Soc 330. Ethnic and Race Relations. (Cross-listed with Af Am). (3-0) Cr. 3. F.S.SS. *Prereq: 130 or 134.* Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations.

Soc 331. Social Class and Inequality. (3-0) Cr. 3. F.S.SS. *Prereq: 130 or 134.* Social stratification and processes resulting in social and economic inequalities; implications of status, class, and poverty for people of different races, ethnicities, and gender.

Soc 332. The Latino/Latina Experience in U.S. Society. (3-0) Cr. 3. F. *Prereq: 130 or 134.* Examination of the social, historical, economic and political experience of varied Latino ethnic groups in the U.S. - primarily focusing on Mexican, Puerto Ricans, and Cubans.

Soc 334. Politics and Society. (Cross-listed with Pol S). (3-0) Cr. 3. F. *Prereq: A course in political science or sociology.* The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism.

Soc 340. Deviant and Criminal Behavior. (Cross-listed with CJ St). (3-0) Cr. 3. S.SS. *Prereq: 130 or 134.* Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior.

Soc 341. Criminology. (Cross-listed with CJ St). (3-0) Cr. 3. F. *Prereq: 130 or 134.* The nature of crime and criminology; the concept of crime; statistics and theories of criminality; major forms of crime; official responses to crime and control of crime.

Soc 345. Population and Society. (Cross-listed with Env S). (3-0) Cr. 3. F. *Prereq: 130 or 134.* Human population growth and structure; impact on food, environment, and resources; gender issues; trends of births, deaths, and migration; projecting future population; population policies and laws; comparison of the United States with other societies throughout the world.

Soc 351. Police and Society. (Cross-listed with CJ St). (3-0) Cr. 3. F.S. *Prereq: Soc 241 or CJ St 240.* Introduction and overview of law enforcement in the United States. Theory and research on police history, function, and organization; constitutional issues of policing; and critical topics, such as community policing, officer discretion and decision-making, corruption, use of force, and racial profiling. The course illustrates the interconnections between communities, police organizations, citizens, and criminal offenders.

Soc 352. Punishment, Corrections, and Society. (Cross-listed with CJ St). (3-0) Cr. 3. F.S. *Prereq: Soc 241 or CJ St 240.* Introduction and overview of corrections in the United States. Theory and research on probation, parole, intermediate sanctions, prison, inmate society, inmate behavior and misconduct, capital punishment, recidivism, correctional treatment, rehabilitation, and offender reintegration into society.

Soc 362. Applied Ethics in Agriculture. (Cross-listed with Econ). (3-0) Cr. 3. F. *Prereq: Econ 101 or Soc 130 or Soc 134, junior or senior status in the College of Agriculture.* Identify major ethical issues and dilemmas in the conduct of agricultural and agribusiness management and decision making. Discuss and debate proper ethical behavior in these issues and situations and the relationship between business and personal ethical behavior.

Soc 377. Social Dimensions of Religion. (Cross-listed with Relig). (3-0) Cr. 3. *Prereq: Prior course work in Religious Studies or Sociology required.* The influence of religion in society, both as a conservator of values and as a force for social change. Nonmajor graduate credit.

Soc 380. Sociology of Work. (3-0) Cr. 3. F.S. *Prereq: 130 or 134.* Inequalities (gender, race, class) related to jobs, occupations, firms, and industries. Satisfactions, rewards, alienation, discrimination, and other topics of importance to workers are examined.

Soc 381. Social Psychology of Small Group Behavior. (Cross-listed with Psych). (3-0) Cr. 3. S. *Prereq: Soc 305 or Psych 280.* A survey of small group theory and research from an interdisciplinary, social psychological perspective.

Soc 382. Environmental Sociology. (Cross-listed with Env S). (3-0) Cr. 3. F.S. *Prereq: Soc 130, 134 or 3 credits of Env S.* Environment-society relations; social construction of nature and the environment; social and environmental impacts of resource extraction, production, and consumption; environmental inequality; environmental mobilization and movements; U.S. and international examples.

Soc 401. Contemporary Sociological Theories. (3-0) Cr. 3. F.S.SS. *Prereq: 9 credits in sociology.* Both historical and modern social theories as applied to understanding and researching the social world. Nonmajor graduate credit.

Soc 402. White-Collar Crime. (Cross-listed with CJ St). (3-0) Cr. 3. S. *Prereq: Soc 241 or CJ St 240.* Introduction and overview of white-collar crime as a form of deviance. Theory and research on occupational, corporate, and organizational offending; prevalence, costs, and consequences of white-collar crime; predictors and correlates of white-collar crime; and political, business, and public policy responses to white-collar crime.

Soc 411. Social Change in Developing Countries. (3-0) Cr. 3. S. *Prereq: 130 or 134 plus 3 credits in social sciences.* Social change and development in developing countries; international interdependence; causes and consequences of persistent problems in agriculture, city growth, employment, gender equality, basic needs; local and worldwide efforts to foster social change and international development. Nonmajor graduate credit.

Soc 412. Senior Seminar on Career Development. (1-0) Cr. 1. F. *Prereq: Most of major core courses, senior classification.* Transition from student to professional. Career development procedures including self-assessment, short- and long-term goals, strategies for the job search, development of contacts and sources, resumes and interviews. Enrollment preferred in first semester as senior. Satisfactory-fail only.

Soc 415. Sociology of Technology. (3-0) Cr. 3. F. *Prereq: 130 or 134 plus 3 credits in social sciences.* Review of physical, biological, and social approaches to technology evaluation. Examination of public responses to complex and controversial technology. Strategies for gaining adoption/rejection of technology. Applications to topics in agriculture, development, and marketing. Credit for only Soc 415 or 515 may be applied toward graduation. Nonmajor graduate credit.

Soc 420. Complex Organizations. (3-0) Cr. 3. F.SS. *Prereq: 130 or 134 plus 3 credits in social sciences.* Study of bureaucracies and other large organizations as social systems through the perspective of basis social processes and structural variables. Incorporates topics of organizational effectiveness, power and change. Nonmajor graduate credit.

Soc 431. Chicanos/Chicanas in Contemporary Society. (3-0) Cr. 3. S. *Prereq: 130 or 134.* An interdisciplinary examination of Chicanos/as, the largest U.S. Latino ethnic group. Special attention will be given to social conflict and social transformation as it relates to contemporary Chicano/a issues, particularly in the Midwest.

Soc 435. Urban Society. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 130 or 134 plus 3 credits in social sciences.* Development of cities and urban systems; human and spatial ecology; urban transformation, decline, and revitalization; poverty; immigration; homelessness; residential segregation; housing policy; urban social movements; local governance; alternative solutions and planning for cities; international comparisons.

Soc 460. Criminal and Juvenile Justice Practicum. (Cross-listed with CJ St). Cr. arr. Repeatable. F.S.SS. *Prereq: Junior or senior classification; permission of criminal justice studies coordinator; major or minor in sociology, or criminal justice studies minor.* Study of the criminal and juvenile justice systems and social control processes. Supervised placement in a police department, prosecutor's office, court, probation and parole department, penitentiary, juvenile correctional institution, community-based rehabilitation program, or related agency. Not more than a total of 12 credits of field experience (Soc 454 and 460) may be counted toward graduation. No credits in Soc 460 may be used to satisfy minimum sociology requirements for sociology majors. Satisfactory-fail only.

Soc 464. Community Action and Leadership. (3-0) Cr. 3. S.SS. *Prereq: 6 credits in sociology.* Methods of planning, organizing, and conducting planned social change and other action programs in communities. Strategies of change, change agent roles, client need identification, community organization strategies, citizen participation, leadership identification and development, program planning and evaluation.

Soc 484. Topical Studies in Criminal and Juvenile Justice. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 6 credits in sociology and permission from instructor.* Thematic or topical issues and studies dealing with the sociology of police, judiciary, institutional and community-based corrections, gender/ethnicity and crime/delinquency, criminal and delinquent gangs, and crime and delinquency prevention.

Soc 485. Sociology of the Family. (3-0) Cr. 3. S. *Prereq: 6 credits in sociology.* The contemporary family in developing, industrial, and post-industrial societies. Effects of modernization, cultural change, and family policies on family dynamics, structures, and functions.

Soc 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in sociology and permission of instructor.* Students in the College of Agriculture must be of junior or senior classification and may use no more than 6 credits of Soc 490 toward the total of

128 credits required for graduation. Students in the College of Liberal Arts and Sciences may count no more than 9 credits of 490 toward graduation.
A. General Sociology
B. Rural Sociology
H. Honors E. Senior Seminar

Courses primarily for graduate students, open to qualified undergraduate students

Soc 505. History of social Thought. (3-0) Cr. 3. F. *Prereq: 401.* Reviews the historical origins of social ideas about society how social thought has evolved throughout history, and how these affect modern sociological thinking.

Soc 506. Classical Sociological Theory. (3-0) Cr. 3. S. *Prereq: Soc 401 or 505.* The origins of the canonical works of sociology in the mid-Industrial Revolution period including Karl Marx, Max Weber, Emile Durkheim and others.

Soc 509. Agroecosystem Analysis. (Cross-listed with Agron, Anthr, SusAg). (3-4) Cr. 3. F. *Prereq: Senior or above classification.* Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing field visits, with some classroom activities. Focus on understanding multiple elements, perspectives (agronomic, economic, ecological, social, etc.), and scales of operation.

Soc 511. Intermediate Research Methods. (3-0) Cr. 3. S. *Prereq: 302 and Stat 401.* Research methods in sociology including problem selection, research design, hypothesis formulation, sampling, alternative data collection techniques. Designing a research strategy appropriate for a variety of social science questions, and assessing the appropriateness, validity, and generalizability of published sociological research.

Soc 512. Factor Analysis. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: Soc 511 and Stat 401.* Reliability and validity for observed and latent variables. Exploratory and confirmatory factor analysis in the construction and evaluation of measurement models. Second-level factor analysis; factor analysis with means and intercepts; multi-trait, multi-method models. Applications using SPSS, SAS, LSIREL, AMOS, R, and Mplus.

Soc 513. Qualitative Research Methods. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 511.* Applied qualitative research methods in sociology. Design and implementation of a course-based research project including data collection, analysis, and presentation of results. Qualitative data gathering techniques using observational, historical, in-depth interviewing or content analysis approaches. Laboratory emphasis on completion of data gathering, analysis, and report writing.

Soc 515. Sociology of Technology. (3-0) Cr. 3. *Prereq: 6 hours of social science.* Off campus and non majors only - offered as demand warrants. Linkages among science, technology, and society. Physical, life, and social science approaches to technology evaluation. Public responses to complex and controversial technologies. Strategies for gaining adoption/rejection of technology. Required in the Master of Agriculture program. Only one of Soc 415 or 515 may be counted toward graduation credits.

Soc 520. Social Psychology: A Sociological Perspective. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 305 or Psych 280.* Examination of cognitive, symbolic interaction, exchange, role-reference group, and dramaturgical approaches. Assessment of contemporary issues in social psychology.

Soc 525. Seminar in Social Psychology. (3-0) Cr. 3. Alt F., offered 2009. *Prereq: 305 or Psych 280.* Examination of alternative theoretical models and methods of studying small groups.
A. Small Groups
B. Attitudes and Attitude Change

Soc 527. Seminar in Social Inequality. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 6 credits in sociology.* Analysis of racial and ethnic inequality in the United States and the world; focus on the implications of the changing world social and economic order for differences in racial and ethnic groups relative to wealth, status, and power; a critical examination of majority-group domination of minority groups in various societies.
A. Sociology of Race and Ethnicity
B. Sociology of Gender

Soc 533. Models of Community. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 6 credits in sociology.* Emphasis on different models or frames of reference used in community analysis. Theoretical and methodological tools, current views of community problems, and explanation of social and cultural change are presented for each model.

Soc 534. Race, Class and Gender Inequality. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 6 credits in sociology.* Critical examination of the causes and consequences of social stratification and inequality; classical theories, contemporary frameworks, and recent empirical studies; international stratification patterns.

Soc 536. Seminar in Community Studies and Development. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 6 credits in sociology.*
A. Urban Sociology
B. Strategies of Community Engagement

Soc 540. Comparative Social Change. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 6 graduate credits in sociology.* Contemporary theories of social change, modernization, dependency, and development are critically examined; methodological issues identified; supporting research explored; applicability of theoretical models, concepts, and strategies to current national and international needs are evaluated.

Soc 543. Seminar in Social Change and Development. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 6 credits in sociology.*
A. Rural Development in Industrialized Countries
B. Sociology of Adoption and Diffusion
C. Technological Innovation, Social Change and Development

Soc 544. Sociology of Food and Agricultural Systems. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 6 credits in sociology.* Social organization of food and fiber production, processing, and distribution systems. Sociological comparison of conventional and alternative production systems; gender roles in agriculture and food systems; local, national and global food systems; perspectives on food and agricultural research and policy.

Soc 549. Sociology of the Environment. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 6 credits in sociology.* Social causes and social consequences of environmental problems. Interrelationship between social inequality and environmental inequality. Social construction and social experience of the environment. Contemporary developments in the social theory of the environment. International and domestic implications.

Soc 550. Sociology of Economic Life. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 6 credits in sociology.* Social construction of economic activity in non-industrial and industrial societies with special attention on variations of industrial societies (capitalism and socialism), economic globalization, and economic development. Interaction of economic systems with human values, ideology, organizations, work and individual welfare.

Soc 551. Seminar in Economy, Organization, and Work. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 6 credits in sociology.*
A. Sociology of Work
B. Complex Organizations

Soc 582. Theories of social Deviance. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 6 credits in sociology.* Theory and research regarding causes of and reactions to deviant behavior. Mental illness, homicide, family violence, and property crime are among the types of deviant behavior considered.

Soc 584. Current Issues in Crime and Justice. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 6 credits in sociology.* Discussion of current research and theory in crime and delinquency; topics include the purpose and role of law in social life; emerging theoretical directions in criminology; recent work on specific forms of criminality; controversies in the criminal justice system.

Soc 585. Current Research in Family Sociology. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 6 credits in sociology.* Course presents a general overview of the field of family sociology. Topics to be covered include demographic trends, family theory and empirical research, as well as current debates in the discipline.

Soc 590. Special Topics. Cr. arr. Repeatable. *Prereq: 6 credits in sociology; senior or graduate classification.*
A. General Sociology
B. Rural Sociology

Soc 591. Orientation to Sociology. (1-0) Cr. 1. F. *Prereq: Formal admission into the sociology graduate program.* Introduction to the department, current graduate student policies at department and university levels, departmental administrative procedures. Required of graduate students. Satisfactory-fail only.

Soc 599. Research for Master's Thesis. Cr. arr. Repeatable.
A. General Sociology
B. Rural Sociology

Courses for graduate students

Soc 607. Contemporary Sociological Theory. (3-0) Cr. 3. S. *Prereq: 6 graduate credits in sociology.* Provides a review of modern sociological thought, issues, and controversies as they affect current research and discourse in the discipline.

Soc 610. Foundations of Sustainable Agriculture. (Cross-listed with SusAg, A E, Agron, Anthr). (3-0) Cr. 3. F. *Prereq: Graduate classification, permission of instructor.* Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging systems of agriculture in terms of core concepts of sustainability and their theoretical contexts.

Soc 613. Advanced Theory Construction and Causal Modeling. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 512 and Stat 404.* Formal strategies of research design and analysis using structural equations with latent variables. Strategies for the analysis of multi-informant and panel data, with emphasis on distributional problems and diagnostics. Applications using SPSS, SAS, LISREL, AMOS, R, and Mplus.

Soc 675. Current Topics in Family Sociology. (3-0) Cr. 3. Repeatable. Alt. S., offered 2011. Current developments in a selected field in the sociology of family and the life course.

Soc 698. Seminars in Sociology. (3-0) Cr. 3.

L. Community Studies and Development
M. Criminology
N. The Economy, Organizations, and Work
O. Food Systems, Agriculture, and the Environment
P. Methodology
Q. Social Change and Development
R. Social Inequality
S. Social Psychology
T. Sociology of Families
U. Theory

Soc 699. Dissertation Research. Cr. arr. Repeatable.
A. General Sociology
B. Rural Sociology

Software Engineering

www.se.iastate.edu

(A joint program administered by the Department of Electrical and Computer Engineering and the Department of Computer Science.)

Undergraduate Study

For the undergraduate curriculum in software engineering leading to the degree bachelor of science, see College of Engineering and College of Liberal Arts and Sciences.

This curriculum is jointly administered by the Electrical and Computer Engineering Department and the Computer Science Department at Iowa State University and it provides undergraduate students with the opportunity to learn software engineering fundamentals, to study applications of the state-of-the art software technologies, and to prepare for the practice of software engineering. The student-faculty interaction necessary to realize this opportunity occurs within an environment that is motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research and outreach programs.

The software engineering curriculum offers emphasis areas in software engineering principles, process, and practice. Students may also take elective courses in computer engineering and computer science.

The objective of the software engineering program at Iowa State University is that its graduates should demonstrate expertise, engagement, learning, leadership, and teamwork within five years after graduation.

• Expertise: Graduates should establish peer-recognized expertise together with the ability to articulate that expertise and use it for problem solving in the planning, design, development, validation, and evolution of software using contemporary practices.

• Engagement: Graduates should be engaged in the professional practice, locally and globally, contributing through the ethical, competent, and creative practice of Software engineering in industry, academia, or the public sector, or graduates may use the program as a foundation for interdisciplinary careers in business, law, medicine, or public service.

• Learning: Graduates should demonstrate sustained learning through graduate work or professional improvement opportunities and through self study, and they should demonstrate the ability to adapt to rapid technological changes.

• Leadership: Graduates should exhibit leadership and initiative to advance professional and organizational goals, facilitate the achievements of others, and obtain results.

• Teamwork: Graduates should demonstrate effective teaming and commitment to working with others of diverse cultural and interdisciplinary background by applying software engineering abilities, communication skills, and knowledge of contemporary and global issues.

As a complement to the instructional activity, the Electrical and Computer Engineering and Computer Science Departments provide opportunities for each student to have experience with broadening activities. Through the cooperative education and internship program, students have the opportunity to gain practical industry experience. See College of Engineering, Cooperative Programs. Students have the opportunity to participate in advanced research activities; and through international exchange programs, students learn about engineering practices in other parts of the world.

Courses primarily for undergraduate students

S E 101. Software Engineering Orientation. Cr. R. Introduction to the procedures, policies, and resources of Iowa State University and the department of Computer Science and Electrical and Computer Engineering. Information on engineering and computer-based professions.

S E 166. Careers in Software Engineering. Cr. R. Overview of the nature and scope of the software engineering profession. Relationship of coursework to careers. Departmental rules, student services operations, degree requirements, program of study planning, career options, and student organizations.

S E 185. Problem Solving in Software Engineering. (3-1) Cr. 3. *Prereq: Credit or enrollment in Math 142.* Introduction to software engineering and computer programming. Systematic thinking process for problem solving in the context of software engineering. Group problem solving. Solving software engineering problems and presenting solutions through computer programs, written documents and oral presentations. Introduction to principles of programming, software design, and extensive practice in design, writing, running, debugging, and reasoning about programs.

S E 298. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of department and Career Services.* First professional work period in the cooperative education program. Students must register for this course before commencing work.

S E 319. Software Construction and User Interfaces. (Cross-listed with Com S). (3-0) Cr. 3. F. *Prereq: Com S 228.* Basic theory of grammars, parsing. Language paradigms. State-transition and table-based software design. Rapid system prototyping. Review of principles of object orientation, object oriented analysis using UML. Event-driven and clock-driven simulation. Software construction methods. Frameworks and APIs. User interface architecture, evaluation of user interface. Design of windows, menus, and commands. Introduction to format specification and model-based software design. Introduction to domain-specific software engineering. Nonmajor graduate credit.

S E 329. Software Project Management. (Cross-listed with Cpr E). (3-0) Cr. 3. *Prereq: Com S 309.* Process-based software development. Capability Maturity Model (CMM), Project planning, cost estimation, and scheduling. Project management tools. Factors influencing productivity and success. Productivity metrics. Analysis of options and risks. Version control and configuration management. Inspections and reviews. Managing the testing process. Software quality metrics. Modern software engineering techniques and practices. Nonmajor graduate credit.

S E 339. Software Architecture and Design. (Cross-listed with Cpr E). (3-0) Cr. 3. *Prereq: S E 319.* Modeling and design of software at the architectural level. Architectural styles. Basics of model-driven architecture. Object-oriented design and analysis. Iterative development and unified process. Design patterns. Design by contract. Component based design. Product families. Measurement theory and appropriate use of metrics in design. Designing for qualities such as performance, safety, security, reliability, reusability, etc. Analysis and evaluation of software architectures. Introduction to architecture definition languages. Basics of software evolution, reengineering, and reverse engineering. Case studies. Introduction to distributed system software. Nonmajor graduate credit.

S E 396. Summer Internship. Cr. R. Repeatable. SS. *Prereq: Permission of department and Career Services.* Summer professional work period.

S E 397. Software Engineering Internship. Cr. R. Repeatable. F.S. *Prereq: Permission of department and Career Services.* One semester maximum per academic year professional work period.

S E 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: 298, permission of department and Career Services.* Second professional work period in the cooperative education program. Students must register for this course before commencing work.

S E 409. Software Requirements Engineering. (Cross-listed with Com S). (3-0) Cr. 3. *Prereq: Com S 309, 319.* The requirements engineering process, including identification of stakeholders, requirements elicitation techniques such as interviews and prototyping, analysis fundamentals, requirements specification, and validation. Use of Models: State-oriented, Function-oriented, and Object-oriented. Documentation for Software Requirements. Informal, semi-formal, and formal representations. Structural, informational, and behavioral requirements. Non-functional requirements. Use of requirements repositories to manage and track requirements through the life cycle. Case studies, software projects, written reports, and oral presentations will be required. Nonmajor graduate credit.

S E 412. Formal Aspects of Specification and Verification. (Cross-listed with Com S, Cpr E). (3-0) Cr. 3. *Prereq: 319, Com S 309.* Introduction to prepositional/predicate/temporal logic, program verification using theorem proving, model-based verification using model checking, and tools for verification. Nonmajor graduate credit.

S E 416. Software Evolution and Maintenance. (Cross-listed with Cpr E). (3-0) Cr. 3. *Prereq: Com S 309, 319.* Fundamental concepts in software evolution and maintenance; practical software evolution processes; legacy systems, program comprehension, impact analysis, program migration and transformation, refactoring. Tools for software evolution and maintenance. Case studies, experimental software projects. Written reports and oral presentation. Nonmajor graduate credit.

S E 417. Software Testing. (Cross-listed with Com S). (3-0) Cr. 3. *Prereq: Com S 309, 319.* Comprehensive study of software testing, principles, methodologies, management strategies and techniques. Test models, test design techniques (black box and white-box testing techniques), integration, regression, system testing methods, and software testing tools. Nonmajor graduate credit.

S E 490. Independent Study. Cr. arr. Repeatable. *Prereq: Senior classification in software engineering.* Investigation of an approved topic.

S E 491. Senior Design Project I and Professionalism. (2-3) Cr. 3. *Prereq: 329, completion of 29 credits in the S E core professional program, Engl 314.* Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; project poster. First of two-semester team-oriented, project design and implementation experience.

S E 492. Senior Design Project II. (1-3) Cr. 2. *Prereq: 491.* Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in S E 491 and the evaluation of project results. Technical writing of final project report; oral presentation of project achievements.

S E 498. Cooperative Education. Cr. R. Repeatable. F.S.SS. *Prereq: 398, permission of department and Career Services.* Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.

Speech Communication

(Administered by the College of Liberal Arts and Sciences)

www/Engl.iastate.edu/programs/speech_comm

Program Faculty: Goodwin, LaWare, Ringlee, Slagell

As a unit within the LAS College, the Program in Speech Communication provides students opportunities to develop their understanding and appreciation of the human communication process and to enhance their oral and written communication practice. More specifically, speech communication students develop an awareness of the importance of oral communication and listening for success in their personal, civic, and professional lives; become familiar with behavioral research in persuasion; understand how language is used to create social change; develop competent delivery skills; assess the quality of arguments; evaluate information found in research and public discourse; and cultivate rhetorical sensitivity in order to better connect with individuals and audiences. In this way, the program contributes to the humanistic, aesthetic, and critical development of liberally educated students in order to prepare them for full and effective participation in society.

Undergraduate Study

The cross-disciplinary program in speech communication offers introductory courses designed for all students as part of their general education and as a complement to professional training. It also offers a major or minor in speech communication as well as an additional endorsement for secondary teachers who already have an endorsement in another content area.

Students who major or minor in speech communication will prepare themselves for a wide variety of employment opportunities in business, industry and government, as well as in non-profit and educational organizations. With their effective oral communication, listening, teamwork, problem-solving and leadership skills, speech communication students find positions in general business management: human resources, benefits, sales and marketing and serve various organizations as recruiters, trainers, promotions managers, communication specialists, community outreach personnel and event planners. The program also prepares students for the study of law, theology, and for graduate level work in speech communication or related disciplines.

The program participates in the following interdisciplinary undergraduate minor programs: the interdisciplinary program in linguistics and the interdisciplinary program in technology and social change.

Speech Communication Major

A student electing to major in speech communication must earn at least 120 credits with 45 credits at the 300/400 level. A minimum of 33 of those credits must be earned in Speech Communication courses where the student earns a grade of C or better. Our flexible curriculum with few prerequisites can help you meet the 33 hour requirement in a timely way.

Core Requirements (18 credits)
3 ComSt 101 Intro to Communication
3 Sp Cm 212 Fundamentals of Public Speaking
3 Sp Cm 305 Language, Thought and Action
3 Sp Cm 327 Persuasion
3 Sp Cm 412 Rhetorical Criticism
3 Sp Cm 497 Capstone Course

Additional Coursework (Choose at least 5 of the following for 15 credits)
3 Sp Cm 110 Listening
3 Sp Cm 205 Popular Culture Analysis
3 Sp Cm 213 Computers in the Study of English--NO LONGER OFFERED (2-09)
3 Sp Cm 312 Business and Professional Speaking
3 Sp Cm 313 Communication for the Classroom Teacher
3 Sp Cm 322 Argumentation, Debate and Critical Thinking
3 Sp Cm 323 Gender and Communication
3 Sp Cm 324 Legal Communication
3 Sp Cm 325 Nonverbal Communication
3 Sp Cm 350 Rhetoric and the History of Ideas
3 Sp Cm 410 Persuasion in the Athenian Democracy
3 Sp Cm 416 American Public Address
3 Sp Cm 417 Campaign Rhetoric

Credits in Sp Cm 290, 499, or 590 cannot be applied toward the minimum required credits for the major.

The Communication Proficiency requirement may be met by (1) completion of Engl 150, 250 (or 250H), or its equivalent, with a grade in each of C or better; (2) one additional writing course beyond Engl 250 with a grade of C or better from the following approved list: Engl 302, 303, 304, 305, 309, 314, 415; JI MC 201.

Speech Communication Minor

The area's courses also provide a minor concentration for students in various majors such as business, English, journalism, world languages and cultures, and the social sciences. The requirements for a minor in speech communication may be fulfilled by credit in Sp Cm 212 plus at least 15 additional hours from the lists above, of which 9 credits are in courses numbered 300 or above. No credits in 290, 490, 499, and 590 may apply toward the minor.

Speech Communication Education

Students seeking a secondary endorsement in speech communication as an additional area prepare to teach speech, dramatic arts, and media at the secondary school level. In addition, they prepare to direct co-curricular and extra curricular activities such as drama, speech and debate.

Each student seeking an additional endorsement in speech communication must meet a 29 hour requirement by taking the following courses: Sp Cm 110 or ComSt 102, Sp CM 212, Sp Cm 313, Sp Cm 322, Sp Cm 412, Sp Cm 495A, Sp Cm 495B, Thtre 255, Thtre 358 and JI MC 101.

Graduate Study

The program offers courses for a graduate minor in speech communication as well as supporting work for other disciplines. The Program of Speech Communication also participates in the interdepartmental program leading to a master's degree in Interdisciplinary Graduate Studies.

Courses open for nonmajor graduate credit: Sp Cm 305, 323, 324, 327, 412, 416, and 417.

Speech Communication (Sp Cm)

Courses primarily for undergraduate students

Sp Cm 110. Listening. (3-0) Cr. 3. F.S.SS. Theory, principles, and competency development in comprehensive, therapeutic, critical, consumer, and appreciative listening. The impact of listening in relationships and partnerships.

Sp Cm 205. Popular Culture Analysis. (Cross-listed with Engl). (3-0) Cr. 3. F.S. *Prereq: Credit in or exemption from Engl 150.* Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

Sp Cm 212. Fundamentals of Public Speaking. (3-0) Cr. 3. F.S.SS. Theory and practice of basic speech communication principles applied to public speaking. Practice in the preparation and delivery of extemporaneous speeches.

Sp Cm 223. Intercollegiate Debate and Forensics. Cr. 1. Repeatable. F.S. *Prereq: Permission of instructor.* Participation in intramural and intercollegiate debate and other forensic events.

Sp Cm 290. Special Projects. Cr. arr. Repeatable. F.S.SS. *Prereq: 3 credits in speech communication; permission of department chair.*

Sp Cm 305. Language, Thought and Action. (Cross-listed with Ling, ComSt). (3-0) Cr. 3. F.S.SS. *Prereq: Engl 250.* The study of symbolic processes and how meaning is conveyed in words, sentences, and utterances; discussion of modern theories of meaning; and an exploration of relationships among language, thought and action. Nonmajor graduate credit.

Sp Cm 312. Business and Professional Speaking. (3-0) Cr. 3. F.S.SS. *Prereq: 212.* Theory, principles, and competency development in the creation of coherent, articulate business and professional oral presentations.

Sp Cm 313. Communication for the Classroom Teacher. (3-0) Cr. 3. *Prereq: 212.* Communication in the teaching profession; training in classroom-oriented communication activities; use of video recorder for analysis of presentation.

Sp Cm 322. Argumentation, Debate, and Critical Thinking. (3-0) Cr. 3. *Prereq: 212.* Practice in preparing and presenting argumentative and debate speeches; emphasis on critical thinking and ethical and logical duties of the advocate; analysis, evidence, reasoning, attack, defense, research, case construction, and judging.

Sp Cm 323. Gender and Communication. (Cross-listed with W S, ComSt). (3-0) Cr. 3. *Prereq: 212.* The rhetorical strategies women and men use to succeed in oral communication; the theory, principles, and practice of effective gender communication in a variety of settings. Nonmajor graduate credit.

Sp Cm 324. Legal Communication. (3-0) Cr. 3. *Prereq: 212.* Speech communication in the legal system inside and outside the trial process: interviewing and counseling, negotiating and bargaining, voir dire, opening statements, examination of witnesses, closing arguments, judge's instructions, jury behavior, and appellate advocacy. Nonmajor graduate credit.

Sp Cm 325. Nonverbal Communication. (Cross-listed with ComSt). (3-0) Cr. 3. *Prereq: ComSt 101 or 102, 203, 301.* Theory and research in nonverbal communication; exploration of nonverbal subcodes; function of nonverbal communication in various contexts; student-designed investigations.

Sp Cm 327. Persuasion. (3-0) Cr. 3. F.S.SS. *Prereq: 212.* Examination of persuasive theories, strategies and research in persuasion. Emphasis on application and analysis; logical, emotional, and ethical proofs. Nonmajor graduate credit.

Sp Cm 350. Rhetorical Theories and Issues in Context. (Cross-listed with Engl, Cl St). (3-0) Cr. 3. S. *Prereq: Engl 250.* Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

Sp Cm 404. Seminar. (Dual-listed with 504). Cr. 3. Repeatable. *Prereq: 15 credits in speech communication.*
A. Speech Communication
B. Speech Education

Sp Cm 412. Rhetorical Criticism. (3-0) Cr. 3. S. *Prereq: 212 and 6 credits in speech communication.* Development of rhetorical theory and practice from Corax to modern times. Application of principles of criticism to current public speaking practices. Nonmajor graduate credit.

Sp Cm 416. American Public Address. (3-0) Cr. 3. S. Relationship between public persuasions and leaders; process of preparing major public addresses; selected speakers and speeches as linked with political or historical events. Nonmajor graduate credit.

Sp Cm 417. Campaign Rhetoric. (Cross-listed with Pol S). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: Sp Cm 212.* Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers. Nonmajor graduate credit.

Sp Cm 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: 18 credits in speech communication, junior classification, permission of department chair.* Only one independent study enrollment is permitted within the department per semester.

Sp Cm 495A. Directing Speech Activities. (1-0) Cr. 1. S. *Prereq: C I 301; 9 credits in speech communication; minimum grade point of 2.5 in speech communication courses.* Problems, methods, and materials related to directing speech activities in secondary schools.

Sp Cm 495B. Teaching Speech. (Cross-listed with C I). (3-0) Cr. 3. F. *Prereq: Sp Cm 313; 9 credits in speech communication; minimum grade point average of 2.5 in speech communication courses.* Problems, methods, and materials related to teaching speech, theatre, and media in secondary schools.

Sp Cm 497. Capstone Seminar. (3-0) Cr. 3. *Prereq: 15 credits in speech communication; junior or senior classification.* Students synthesize relevant theory and research culminating in a capstone project/paper.

Sp Cm 499. Communication Internship. Cr. arr. Repeatable. F.S.SS. *Prereq: 18 credits in speech communication courses, other courses deemed appropriate by faculty adviser; 2nd semester junior or senior standing; cumulative GPA of at least 2.5 overall and 3.0 in speech communication; and permission of the internship committee.* Applications should be submitted in the term prior to the term in which the internship is desired. Supervised application of speech communication in professional settings.

Courses primarily for graduate students, open to qualified undergraduate students

Sp Cm 504. Seminar. (Dual-listed with 404). (3-0) Cr. 3. Repeatable. F.S.SS. Topics may include the following:
A. Speech Communication
B. Speech Education

Sp Cm 513. Proseminar: Teaching Fundamentals of Public Speaking. (1-0) Cr. 1. Repeatable, maximum of 3 credits. F. Required of all new Speech Communication 212 teaching assistants. Introduction to the teaching of public speaking. Support and supervision of teaching assistants of Sp Cm 212. Discussion of lesson planning, teaching methods, development of speaking assignments, and evaluation of student speaking.

Sp Cm 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of department chair.*

Statistics

www.stat.iastate.edu

Kenneth Koehler, Chair of Department

Distinguished Professors: Athreya, Meeker

Distinguished Professors (Emeritus): H. A. David, Fuller

University Professors: Koehler, Lorenz, Shelley, Stephenson, Vardeman

University Professors (Emeritus): D. Cox, Herbert T. David, Groeneveld, Hinz

Professors: Bailey, Bonett, Brendel, Carriquiry, Chen, Cook, Dixon, Isaacson, Kaiser, Morris, Nettleton, Nusser, Rollins

Professors (Emeritus): C. Cox, Harville, Hickman, Hotchkiss, Kennedy, Pollak, Strahan, Wolins

Professor (Collaborator): Therneau

Associate Professors: Adams, Dorman, Froelich, Hofmann, Kim, Larsen, Maiti, Maitra, Marasinghe, Roberts, Shao, Sherman, Wilson, Wu

Associate Professor (Emeritus): Sukhatme

Assistant Professors: Caragea, Ghosh, Liu, Nordman, Roy, Yu

Assistant Professors (Collaborators): Sargent, Sloan

Lecturers: Bhattacharyya, Genschel, Meyers

Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in statistics, leading to the degree bachelor of science, see *Liberal Arts and Sciences, Curriculum*.

The curriculum in liberal arts and sciences with a major in statistics is designed to prepare students for (1) entry level statistics positions requiring the B.S. degree in statistics in business, industry or commerce, nonprofit institutions, and in state or federal government; (2) graduate study in statistics. Entry-level positions include the following types of work: statistical design, analysis and interpretation of experiments and surveys; data processing and analysis using modern computation facilities and statistical computing systems; application of statistical principles and methods in commercial areas such as finance, insurance, industrial research, marketing, manufacturing, and quality control. Nonprofit organizations such as large health study institutions have entry-level positions for B.S. graduates in statistics. Also, there are opportunities for work in statistics that require a major in a subject-matter field and a minor in statistics.

Students completing the undergraduate degree in statistics should have a broad understanding of the discipline of statistics. They should have a clear comprehension of the theoretical basis of statistical reasoning and should be proficient in the use of modern statistical methods and computing. Such graduates should have an ability to apply and convey statistical concepts and knowledge in oral and written form. They should be aware of ethical issues associated with polling and surveys and in the summarization of the outcomes of statistical studies.

Undergraduate majors in this department usually include in their programs: (a) Statistics 101 or an alternative introductory course (104 or 226), (b) Mathematics 165, 166, 265 (or 165H, 166H, 265H), 307 (or 317) and Computer Science 207, and (c) Statistics 341, 342, 401, 402, 421, 479, 480.

These courses plus at least two additional courses in statistics at the 400 level or above constitute the major. With the permission of the department, I E/Stat 361 may be substituted for one of these 400 level courses. It is advisable to have a minor in a field of application.

The department offers a minor in statistics which may be earned by completing an introductory course in statistics plus additional courses from 341, 342, 361, and 400 level or above to yield a total of at least 15 credits in statistics courses.

English and Speech proficiency requirement: The department requires a grade of C– or better in each of Engl 150 and 250 (or 250H), and completion of one of Engl 302 or 314 with a grade of C- or better. The department requires a passing grade in ComSt 102 or Sp Cm 212.

Students intending to do graduate work in statistics normally will take additional courses in mathematics.

Graduate Study

The department offers work for the degrees master of science and doctor of philosophy with a major in statistics, and for a minor for students majoring in other departments. Within the statistics major the student choose to emphasize topics such as experimental design, probability, statistical methods, statistical theory, statistical computing, survey sampling, quality control, spatial statistics, time series, reliability, or applied statistics (e.g., bioinformatics, biometrics, econometrics, environmental statistics, psychometrics, sociometrics, etc.). A major in operations research leading to a master of science degree is offered in cooperation with the Department of Industrial and Manufacturing Systems Engineering. The doctor of philosophy degree is offered as a co-major with other graduate programs. Such programs have included graduate majors in Agronomy, Animal Ecology, Animal Science, Bioinformatics, Chemical and Biological Engineering, Computer Science, Electrical Engineering, Ecology, Evolution and Organismal Biology (EEOB), Economics, Educational Leadership and Policy Studies, Food Science and Human Nutrition, Genetics, Development and Cell Biology (GDCB), Industrial and Manufacturing Systems Engineering, Mathematics, Meteorology, Psychology and Sociology.

M.S. graduates have a basic understanding of statistical theory and methods. Elective courses in statistics provide the opportunity for the student to emphasize particular areas within the field of statistics, based on interest and future career goals. Communication skills are developed through course projects, assistantship duties and creative components. Ph.D. graduates study advanced theory and methods and are able to do independent research in statistics and collaborative research outside of statistics.

Prerequisite to major graduate work is the completion of an undergraduate curriculum essentially equivalent to the curriculum in liberal arts and sciences at this institution including at least a year of calculus.

The degree master of science may be earned on either a thesis or nonthesis basis. The nonthesis option requires the completion of at least 34 credits of acceptable graduate work, including the completion of a creative component and satisfactory performance on a written examination. The thesis option requires the completion of 30 credits of acceptable graduate work, including the completion of a thesis and satisfactory performance on a written examination. Ph.D. candidates must complete at least 72 semester credits (half or more from Iowa State) with a minimum 3.0 (B) average and submit an original thesis representing a substantial contribution to statistics as a science.

The department encourages students to prepare themselves in foreign languages and in computer languages, but specific requirements for the degrees master of science and doctor of philosophy are at the discretion of the student's advisory committee.

The department participates in the interdepartmental programs in bioinformatics and computational biology, ecology and evolutionary biology, forensic research, genetics, human computer interaction, and nutrition.

Courses primarily for undergraduate students

Stat 100. Orientation in Statistics. (1-0) Cr. R. F. Opportunities, challenges, and the scope of the curriculum in statistics. For students planning or considering a career in this area.

Stat 101. Principles of Statistics. (3-2) Cr. 4. F.S.SS. *Prereq: 1 1/2 years of high school algebra.* Statistical concepts in modern society; descriptive statistics and graphical displays of data; the normal distribution; data collection (sampling and designing experiments); elementary probability; elements of statistical inference; estimation and hypothesis testing; linear regression and correlation; contingency tables. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226.

Stat 104. Introduction to Statistics. (2-2) Cr. 3. F.S.SS. *Prereq: 1 1/2 years of high school algebra.* Statistical concepts and their use in science; collecting, organizing and drawing conclusions from data; elementary probability; binomial and normal distributions; regression; estimation and hypothesis testing. For students in the agricultural and biological sciences. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226.

Stat 105. Introduction to Statistics for Engineers. (3-0) Cr. 3. F.S. *Prereq: Math 165 (or 165H).* Statistical concepts with emphasis on engineering applications. Data collection; descriptive statistics; probability distributions and their properties; elements of statistical inference; regression; statistical quality control charts; use of statistical software; team project involving data collection, description and analysis. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226. Credit for both Stat 105 and 305 may not be applied for graduation.

Stat 226. Introduction to Business Statistics I. (3-0) Cr. 3. F.S.SS. *Prereq: Math 150 or 165.* Obtaining, presenting, and organizing statistical data; measures of location and dispersion; the Normal distribution; sampling and sampling distributions; elements of statistical inference; estimation and confidence intervals; hypothesis testing; inference for simple linear regression analysis; use of computers to visualize and analyze data. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226.

Stat 231. Probability and Statistical Inference for Engineers. (4-0) Cr. 4. F.S. *Prereq: Credit or enrollment in Math 265.* Emphasis on engineering applications. Basic probability; random variables and probability distributions; joint and sampling distributions. Descriptive statistics; confidence intervals; hypothesis testing; simple linear regression; multiple linear regression; one way analysis of variance; use of statistical software.

Stat 305. Engineering Statistics. (3-0) Cr. 3. F.S.SS. *Prereq: Math 165 (or 165H).* Statistics for engineering problem solving. Principles of engineering data collection; descriptive statistics; elementary probability distributions; principles of experimentation; confidence intervals and significance tests; one-, two-, and multi-sample studies; regression analysis; use of statistical software; team project involving engineering experimentation and data analysis. Credit for both Stat 105 and 305 may not be applied for graduation.

Stat 322. Probabilistic Methods for Electrical Engineers. (Cross-listed with E E). (3-0) Cr. 3. F.S. *Prereq: E E 224.* Introduction to probability with applications to electrical engineering. Sets and events, probability space, conditional probability, total probability and Bayes' rule. Discrete and continuous random variables, cumulative distribution function, probability mass and density functions, expectation, moments, moment generating functions, multiple random variables, functions of random variables. Elements of statistics, hypothesis testing, confidence intervals, least squares. Introduction to random processes.

Stat 326. Introduction to Business Statistics II. (2-2) Cr. 3. F.S. *Prereq: 226.* Multiple regression analysis; regression diagnostics; model building; applications in analysis of variance and time series; random variables; distributions; conditional probability; statistical process control methods; use of computers to visualize and analyze data.

Stat 330. Probability and Statistics for Computer Science. (3-0) Cr. 3. F.S. *Prereq: Math 166.* Topics from probability and statistics applicable to computer science. Basic probability; Random variables and their distributions; Elementary probabilistic simulation; Queuing models; Basic statistical inference; Introduction to regression. Nonmajor graduate credit.

Stat 332. Visual Communication of Quantitative Information. (Cross-listed with Engl). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Stat 101, 104 or 226; Engl 250.* Communicating quantitative information using visual displays; visualizing data; interactive and dynamic data displays; evaluating current examples in the media; color, perception, and representation in graphs; interpreting data displays. Nonmajor graduate credit.

Stat 341. Introduction to the Theory of Probability and Statistics I. (Cross-listed with Math). (3-0) Cr. 3. F.S. *Prereq: Math 265 (or 265H).* Probability; distribution functions and their properties; classical discrete and continuous distribution functions; multivariate probability distributions and their properties; moment generating functions; simulation of random variables and use of the R statistical package. Credit for both Stat 341 and 447 may not be applied toward graduation.

Stat 342. Introduction to the Theory of Probability and Statistics II. (Cross-listed with Math). (3-0) Cr. 3. S. *Prereq: Stat 341; Math 307 or 317.* Transformations of random variables; sampling distributions; confidence intervals and hypothesis testing; theory of estimation and hypothesis tests; linear model theory; enumerative data; use of the R statistical package for simulation and data analysis.

Stat 361. Statistical Quality Assurance. (Cross-listed with I E). (2-2) Cr. 3. F.S. *Prereq: Stat 231 or 401.* Statistical methods for process improvement. Simple quality assurance principles and tools. Measurement system precision and accuracy assessment. Control charts. Process capability assessment. Experimental design and analysis for process improvement. Significant external project in process improvement. Nonmajor graduate credit.

Stat 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of department chair.* Off-campus work periods for undergraduate students in a field of statistics.

Stat 401. Statistical Methods for Research Workers. (3-2) Cr. 4. F.S.SS. *Prereq: 101 or 104 or 105 or 226.* Graduate students without an equivalent course should contact the department. Methods of analyzing and interpreting experimental and survey data. Statistical concepts and models; estimation; hypothesis tests with continuous and discrete data; simple and multiple linear regression and correlation; introduction to analysis of variance and blocking. Nonmajor graduate credit.

Stat 402. Statistical Design and the Analysis of Experiments. (3-0) Cr. 3. F.S. *Prereq: 401.* The role of statistics in research and the principles of experimental design. Experimental units, randomization, replication, blocking, subdividing and repeatedly measuring experimental units; factorial treatment designs and confounding; extensions of the analysis of variance to cover general crossed and nested classifications and models that include both classificatory and continuous factors. Determining sample size. Nonmajor graduate credit.

Stat 404. Regression for social and Behavioral Research. (2-2) Cr. 3. F. *Prereq: 401.* Lorenz, Roberts. Applications of generalized linear regression models to social science data. Assumptions of regression; diagnostics and transformations; analysis of variance and covariance; path analysis; logistic, multinomial and Poisson regression. Nonmajor graduate credit.

Stat 406. Statistical Methods for Spatial Data. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Six hours of statistics at the 400-level.* The analysis of spatial data; geostatistical methods and spatial prediction; discrete index random fields and Markov random field models; models for spatial point processes. Emphasis on application and practical use of spatial statistical analysis. Nonmajor graduate credit.

Stat 407. Methods of Multivariate Analysis. (2-2) Cr. 3. F. *Prereq: 401, knowledge of matrix algebra.* Carriquiry, Cook. Techniques for displaying and analyzing multivariate data including plotting high-dimensional data using interactive graphics, comparing group mean vectors using Hotelling's T2, multivariate analysis of variance, reducing variable dimension with principal components, grouping/classifying observations with cluster analysis and discriminant analysis. Imputation of missing multivariate observations. Nonmajor graduate credit.

Stat 415. Advanced Statistical Methods for Research Workers. (2-2) Cr. 3. Alt. S., offered 2010. *Prereq: 401.* Advanced statistical methods using modern computer methods for modeling and analyzing data. Examples from a wide variety of scientific and engineering disciplines. Nonmajor graduate credit.

Stat 416. Statistical Design and Analysis of Microarray Experiments. (3-0) Cr. 3. S. *Prereq: Stat 401.* Introduction to two-color microarray technology and single-channel platforms (Affymetrix GeneChips); the role of blocking, randomization, and biological and technical replication in microarray experiments; design of single-channel and two-color microarray experiments with factorial treatment structure; normalization methods for single-channel and two-color microarray data; methods for identifying differentially expressed genes including mixed linear model analyses, empirical Bayes analyses, and resampling based approaches; procedures for controlling false discovery rate for multiple testing; clustering and classification problems for microarray data; testing gene categories; emphasis on practical use of methods. Nonmajor graduate credit.

Stat 421. Survey Sampling Techniques. (2-2) Cr. 3. S. *Prereq: 231 or 328 or 401.* Concepts of sample surveys and the survey process; methods of designing sample surveys, including: simple random, stratified, and multistage sampling designs; methods of analyzing sample surveys including ratio, regression, domain estimation and nonresponse. Nonmajor graduate credit.

Stat 430. Empirical Methods for Computer Science. (3-0) Cr. 3. F. *Prereq: Stat 330 or an equivalent course, Math 166, knowledge of linear algebra..* Programs and systems as objects of empirical studies; exploratory data analysis; selected topics from analysis of designed experiments - analysis of variance, hypothesis testing, interaction among variables; linear regression, logistic regression, Poisson regression; parameter estimation, prediction, confidence regions, dimension reduction techniques, model diagnostics and sensitivity analysis; Markov chains and processes; simulation techniques and bootstrap methods; applications to performance assessment - comparison of multiple systems; communicating results of empirical studies. Statistical software: R. Nonmajor graduate credit.

Stat 432. Applied Probability Models. (3-0) Cr. 3. F. *Prereq: 231 or 341 or 447.* Probabilistic models in biological, engineering and the physical sciences. Markov chains; Poisson, birth-and-death, renewal, branching and queing processes; applications to bioinformatics and other quantitative problems. Nonmajor graduate credit.

Stat 447. Statistical Theory for Research Workers. (4-0) Cr. 4. F.S.SS. *Prereq: Math 151 and permission of instructor, or Math 265.* Primarily for graduate students not majoring in statistics. Emphasis on aspects of the theory underlying statistical methods. Probability, probability density and mass functions, distribution functions, moment generating functions, sampling distributions, point and interval estimation, maximum likelihood and likelihood ratio tests, introduction to posterior distributions and Bayesian analysis, linear model theory, use of simulation. Credit for both Stat 341 and 447 may not be applied toward graduation. Nonmajor graduate credit.

Stat 451. Applied Time Series. (3-0) Cr. 3. S. *Prereq: 231 or 328 or 401.* Meeker. Methods for analyzing data collected over time; review of multiple regression analysis. Elementary forecasting methods: moving averages and exponential smoothing. Autoregressive-moving average (Box-Jenkins) models: identification, estimation, diagnostic checking, and forecasting. Transfer function models and intervention analysis. Introduction to multivariate time series methods. Nonmajor graduate credit.

Stat 457. Applied Categorical Data Analysis. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Stat 401 (or equivalent).* Statistical methods for the analysis of categorical data: estimation of proportions, chi-square tests, sample size determination, measures of association and relative risk, measures of agreement, logistic regression, Poisson regression and log-linear models, matched-pair and repeated measures designs, conditional inference. Applications to social, behavioral, and health sciences. Nonmajor graduate credit.

Stat 479. Computer Processing of Statistical Data. (3-0) Cr. 3. F. *Prereq: 401.* Marasinghe. Structure, content and programming aspects of the Statistical Analysis System (SAS) software package. Advanced techniques in the use of SAS for data analysis including statistical graphics, regression diagnostics, and complex analysis of variance models. If time permits, the SAS macro programming language will be introduced. Nonmajor graduate credit.

Stat 480. Statistical Computing Applications. (3-0) Cr. 3. S. *Prereq: 231 or 328 or 401.* Modern statistical computing. Data management; spread sheets, verifying data accuracy, transferring data between software packages. Data and graphical analysis with statistical software packages. Algorithmic programming concepts and applications. Simulation. Software reliability. Nonmajor graduate credit.

Stat 490. Independent Study. Cr. arr. Repeatable. *Prereq: 10 credits in statistics.* No more than 9 credits in Stat 490 may be counted toward graduation. H. Honors.

Stat 493. Workshop in Statistics. (2-0) Cr. 2. Alt. S., offered 2011. *Prereq: 101 or 104 or 226.* Off-Campus only. Introduction to methods for analyzing data from surveys and experiments. Summarizing data, analysis of data from simple random samples and more complex survey designs, experimental design, estimation and hypothesis testing for data from simple experiments, good and bad graphical presentations of results. Designed for master of agriculture program only. Nonmajor graduate credit.

Stat 495. Applied Statistics for Industry I. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 101 or 104 or 105 or 226; Math 166 (or 166H).* Graduate students without an equivalent course should consult the department. Statistical thinking applied to industrial processes. Assessing, monitoring and improving processes using statistical methods. Analytic/enumerative studies; graphical displays of data; fundamentals of six sigma; process monitoring; control charts; capability analysis. Nonmajor graduate credit.

Stat 496. Applied Statistics for Industry II. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 495.* Statistical design and analysis of industrial experiments. Concepts of control, randomization and replication. Simple and multiple regression; factorial and fractional factorial experiments; application of ideas of six sigma; reliability; analysis of lifetime data. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

Stat 500. Statistical Methods. (3-2) Cr. 4. F. *Prereq: 101.* Introduction to methods for analyzing data from experiments and observational data. Design-based and model-based inference. Estimation, hypothesis testing, and model assessment for 2 group and k group studies. Experimental design and the use of pairing/blocking. Analysis of discrete data. Correlation and regression, prediction, model selection and diagnostics. Simple mixed models including nested random effects and split plot experimental designs. Use of the SAS statistical software.

Stat 501. Multivariate Statistical Methods. (3-0) Cr. 3. S. *Prereq: 500 or 402; 447 or 542; knowledge of matrix algebra.* Statistical methods for analyzing and displaying multivariate data: simultaneous analysis of multiple responses, multivariate analysis of variance; summarizing high dimensional data with principal components, factor analysis, canonical correlations, multidimensional scaling; grouping similar items with cluster analysis; classification methods; dynamic graphics. Statistical software: SAS, S-Plus or R, and GGobi.

Stat 503. Exploratory Methods and Data Mining. (2-2) Cr. 3. Alt. S., offered 2011. *Prereq: 401, 341 or 447.* Approaches to finding the unexpected in data; pattern recognition, classification, association rules, graphical methods, classical and computer-intensive statistical techniques, and problem solving. Emphasis is on data-centered, non-inferential statistics for large or high-dimensional data, topical problems, and building report writing skills.

Stat 505. Environmental Statistics. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 341 or 447; 401.* Statistical methods and models for environmental applications. Emphasis on environmental toxicology. Analysis of data with below detection-limit values. Dose-response curve modeling, including overdispersion and estimation of safe doses. Trend analysis; analysis of autocorrelated data. Equivalence testing.

Stat 506. Statistical Methods for Spatial Data. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 447 or 542.* The analysis of spatial data; geostatistical methods and spatial prediction; discrete index random fields and Markkov random field models; models for spatial point processes.

Stat 511. Statistical Methods. (3-0) Cr. 3. S. *Prereq: 500 or 402 or 404; 447 or 542 and current enrollment in 543; knowledge of matrix algebra.* Introduction to the general theory of linear models, least squares and maximum likelihood estimation, hypothesis testing, interval estimation and prediction, analysis of unbalanced designs. Models with both fixed and random factors. Introduction to non-linear and generalized linear models, bootstrap estimation, local smoothing methods. Requires use of R statistical software.

Stat 512. Design of Experiments. (3-0) Cr. 3. F. *Prereq: 511.* Basic ideas of experimental design and analysis; completely randomized, randomized complete block, and Latin Square designs; factorial experiments, confounding, fractional replication; split-plot and incomplete block designs.

Stat 513. Response Surface Methodology. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 402 or 512, knowledge of elementary matrix theory and matrix formulation of regression.* Morris. Analysis techniques for locating optimum and near-optimum operating conditions: standard experimental designs for first- and second-order response surface models; design performance criteria; use of data transformations; mixture experiments; optimization for multiple-response problems. Requires use of statistical software with matrix functions.

Stat 515. Theory and Applications of Nonlinear Models. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 447 or 543, 511.* Construction of nonlinear statistical models; random and systematic model components, additive error nonlinear regression with constant and non-constant error variances, generalized linear models, transform both sides models. Iterative algorithms for estimation and asymptotic inference. Basic random parameter models, beta-binomial and gamma-Poisson mixtures. Requires use of instructor-supplied and student-written R functions.

Stat 516. Statistical Design and Analysis of Microarray Experiments. (3-0) Cr. 3. S. *Prereq: Stat 500; 447 or 542.* Introduction to two-color microarray technology including cDNA and oligo microarrays; introduction to single-channel platforms (Affymetrix GeneChips); the role of blocking, randomization, and biological and technical replication in microarray experiments; design of single-channel and two-color microarray experiments with factorial treatment structure; normalization methods; methods for identifying differentially expressed genes including mixed linear model analyses, empirical Bayes analyses, and resampling based approaches; adjustments for multiple testing; clustering and classification problems for microarray data; emphasis on current research topics in microarray statistics.

Stat 521. Theory and Applications of Sample Surveys. (3-0) Cr. 3. S. *Prereq: 401; 447 or 542.* Practical aspects and basic theory of design and estimation in sample surveys for finite populations. Simple random, systematic, stratified, cluster multistage and unequal-probability sampling. Horvitz-Thompson estimation of totals and functions of totals: means, proportions, regression coefficients. Linearization technique for variance estimation. Model-assisted ratio and regression estimation. Two-phase sampling and sampling on two occasions. Non-response effects. Imputation.

Stat 522. Advanced Applied Survey Sampling. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Stat 521 or both Stat 421 and Stat 477.* Advanced topics in survey sampling and methodology: clustering and stratification in practice, adjustments and imputation for missing data, variance estimation in complex surveys, methods of panel and/or longitudinal surveys, procedures to increase response rates, and computing. Examples are taken from large, well-known surveys in various subject areas. Prior exposure to mathematical statistics, probability, and at least one course in survey sampling theory is assumed.

Stat 528. Applied Business Statistics. (2-2) Cr. 3. F.SS. *Prereq: enrollment in MBA program, not for STAT majors.* Application of statistical methods to problems in business and economics; simple and multiple linear regression; residual analysis; model building; analysis of variance; introduction to experimental design concepts; time series analysis and forecasting.

Stat 531. Quality Control and Engineering Statistics. (Cross-listed with I E). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Stat 401; 342 or 447.* Wu. Statistical methods and theory applicable to problems of industrial process monitoring and improvement. Statistical issues in industrial measurement; Shewhart, CUSUM, and other control charts; feedback control; process characterization studies; estimation of product and process characteristics; acceptance sampling, continuous sampling and sequential sampling; economic and decision theoretic arguments in industrial statistics.

Stat 533. Reliability. (Cross-listed with I E). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 342 or 432 or 447.* Meeker. Probabilistic modeling and inference in engineering reliability; lifetime models, product limit estimator, probability plotting, maximum likelihood estimation for censored data, Bayesian methods in reliability, system reliability models, competing risk analysis, acceleration models and analysis of accelerated test data; analysis of recurrence data; planning studies to obtain reliability data.

Stat 534. Ecological Statistics. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 447 or 542.* Dixon. Statistical methods for non-standard problems, illustrated using questions and data from ecological field studies. Specific topics include: Estimation of abundance and survival from mark-recapture studies. Deterministic and stochastic matrix models of population trends. Estimation of species richness and diversity. Ordination and analysis of complex multivariate data. Statistical methods discussed will include randomization and permutation tests, spatial point processes, bootstrap estimation of standard error, partial likelihood and Empirical Bayes methods.

Stat 536. Statistics for Population Genetics. (Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 401, 447; Gen 320 or Biol 313.* Statistical models for population genetics covering: selection, mutation, migration, population structure, and linkage disequilibrium. Applications to gene mapping (case-control, TDT), inference about population structure, DNA and protein sequence analysis, and forensic and paternity identification.

Stat 537. Statistics for Molecular Genetics. (Cross-listed with GDCB). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 401, 447; Gen 320 or Biol 313.* Statistical models, inference, and computational tools for linkage analysis, quantitative trait analysis, and molecular evolution. Topics include; quantitative trait models, variance component mapping, interval and composite-interval mapping, and phylogenetic tree reconstruction.

Stat 542. Theory of Probability and Statistics I. (4-0) Cr. 4. F. *Prereq: 341; Math 414 or 465.* Sample spaces, probability, conditional probability; Random variables, univariate distributions, expectation, median, and other characteristics of distributions, moment generating functions; Joint distributions, conditional distributions and independence, correlation and covariance; Probability laws and transformations; Introduction to the Multivariate Normal distribution; Sampling distributions, order statistics; Convergence concepts, the law of large numbers, the central limit theorem and delta method; Basics of stochastic simulation.

Stat 543. Theory of Probability and Statistics II. (3-0) Cr. 3. S. *Prereq: 542.* Point estimation including method of moments, maximum likelihood estimation, exponential family, Bayes estimators, Loss function and Bayesian optimality, unbiasedness, sufficiency, completeness, Basu s theorem; Interval estimation including confidence intervals, prediction intervals, Bayesian interval estimation; Hypothesis testing including Neyman-Pearson Lemma, uniformly most powerful tests, likelihood ratio tests; Bayesian tests; Nonparametric methods, bootstrap.

Stat 544. Bayesian Statistics. (3-0) Cr. 3. S. *Prereq: 543.* Specification of probability models; subjective, conjugate, and noninformative prior distributions; hierarchical models; analytical and computational techniques for obtaining posterior distributions; model checking, model selection, diagnostics; comparison of Bayesian and traditional methods.

Stat 546. Nonparametric Methods in Statistics. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 511, 542.* Chen, Opsomer. Overview of parametric versus nonparametric methods of inference; introduction to nonparametric smoothing methods for estimating density and regression functions; smoothing parameter selection; applications to semiparametric models and goodness-of-fit tests of a parametric model.

Stat 551. Time Series Analysis. (3-0) Cr. 3. F. *Prereq: 447 or 542.* Concepts of trend and dependence in time series data; stationarity and basic model structures for dealing with temporal dependence; moving average and autoregressive error structures; analysis in the time domain and the frequency domain; parameter estimation, prediction and forecasting; identification of appropriate model structure for actual data and model assessment techniques. Possible extended topics include dynamic models and linear filters.

Stat 554. Introduction to Stochastic Processes. (Cross-listed with Math). Cr. 3. F. *Prereq: Stat 542.* Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion.

Stat 557. Statistical Methods for Counts and Proportions. (3-0) Cr. 3. F. *Prereq: 500 or 401; 543 or 447.* Statistical methods for analyzing simple random samples when outcomes are counts or proportions; measures of association and relative risk, chi-squared tests, loglinear models, logistic regression and other generalized linear models, tree-based methods. Extensions to longitudinal studies and complex designs, models with fixed and random effects. Use of statistical software: SAS, S-Plus or R.

Stat 565. Methods in Biostatistics. (Cross-listed with Tox). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Stat 500 or 401; Stat 543 or 447.* Statistical methods useful for biostatistical problems. Topics include analysis of cohort studies, case-control studies and randomized clinical trials, techniques in the analysis of survival data and longitudinal studies, approaches to handling missing data, and meta-analysis. Examples will come from recent studies in cancer, AIDS, heart disease, psychiatry and other human and animal health studies. Use of statistical software: SAS, S-Plus or R.

Stat 566. Survival Analysis for Biomedical Applications. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: Stat 543 and Stat 511.* Statistical methods for analyzing time to event and survival data. Estimation of survivor and hazard functions, proportional hazards models, diagnostic procedures, time dependent covariates. Extensions to cases with multiple or correlated end points. Applications to medical studies involving cancer treatments, liver and bladder diseases, autoimmune disorders, bone fractures, surgery mortality rates. Implementation of SAS, S Plus, and R.

Stat 568. Bioinformatics II (Advanced Genome Informatics). (Cross-listed with BCB, GDCB, Com S). (3-0) Cr. 3. S. *Prereq: BCB 567, BBMB 301, Biol 315, Stat 430, credit or enrollment in Gen 411.* Advanced sequence models. Basic methods in molecular phylogeny. Hidden Markov models. Genome annotation. DNA and protein motifs. Introduction to gene expression analysis.

Stat 570. Bioinformatics IV (Computational Functional Genomics and Systems Biology). (Cross-listed with BCB, GDCB, Com S, Cpr E). (3-0) Cr. 3. S. *Prereq: BCB 567, Biol 315, Com S 311 and either 208 or 228, Gen 411, Stat 430.* Algorithmic and statistical approaches in computational functional genomics and systems biology. Analysis of high throughput gene expression, proteomics, and other datasets obtained using system-wide measurements. Topological analysis, module discovery, and comparative analysis of gene and protein networks. Modeling, analysis, simulation and inference of transcriptional regulatory modules and networks, protein-protein interaction networks, metabolic networks, cells and systems: Dynamic systems, Boolean, and probabilistic models. Ontology-driven, network based, and probabilistic approaches to information integration.

Stat 579. An Introduction to R. (0-2) Cr. 1. F. *Prereq: Enrollment in 500.* An introduction to the logic of programming, numerical algorithms, and graphics. The R statistical programming environment will be used to demonstrate how data can be stored, manipulated, plotted, and analyzed using both built-in functions and user extensions. Concepts of modularization, looping, vectorization, conditional execution, and function construction will be emphasized.

Stat 580. Statistical Computing. (3-0) Cr. 3. S. *Prereq: 579 and 447 or 542.* Introduction to scientific computing for statistics using tools and concepts in R: programming tools, modern programming methodologies, modularization, design of statistical algorithms. Introduction to C programming for efficiency; interfacing R with C. Building statistical libraries. Use of algorithms in modern subroutine packages, optimization and integration. Implementation of simulation methods; inversion of probability integral transform, rejection sampling, importance sampling. Monte Carlo integration.

Stat 590. Special Topics. Cr. arr. Repeatable.
A. Theory
B. Methods
C. Design of Experiments
D. Sample Surveys

Stat 598. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of the department chair.* Off-campus work periods for graduate students in a field of statistics.

Stat 599. Creative Component. Cr. arr.

Courses for graduate students

Stat 601. Advanced Statistical Methods. (3-2) Cr. 4. F. *Prereq: 511, 543.* Emphasis on the approaches statisticians take toward the statistical formulation of scientific problems. Students should develop an understanding of the way that various concepts of probability are used in problem formulation, analysis, and inference, and the ability to develop one or more appropriate analyses for a variety of problems. Specific methodological topics include permutation procedures and design-based analysis; model building with single and multiple stochastic components; estimation based on least-squares, likelihood functions, modified likelihood functions, sample reuse, and Bayesian analysis; inference in the sample space, parameter space, and belief space. Development of various analyses for real problems, including statistical formulation and necessary computations.

Stat 606. Advanced Spatial Statistics. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 506, 642.* Consideration of advanced topics in spatial statistics, including areas of current research. Topics may include construction of nonstationary covariance structures including intrinsic random functions, examination of edge effects, general formulation of Markov random field models, spatial subsampling, use of pseudo-likelihood and empirical likelihood concepts in spatial analysis, the applicability of asymptotic frameworks for inference, and a discussion of appropriate measures for point processes.

Stat 611. Theory and Applications of Linear Models. (3-0) Cr. 3. F. *Prereq: 500 or 402 or 404, 542 or 447, a course in matrix algebra.* Wu. Matrix preliminaries, estimability, theory of least squares and of best linear unbiased estimation, analysis of variance and covariance, distribution of quadratic forms, extension of theory to mixed and random models, inference for variance components.

Stat 612. Advanced Design of Experiments. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 512.* General theory of factorial experiments. Design optimality criteria, approximate design and general equivalence theory, computational approaches to constructing optimal designs for linear models. Advanced topics of current interest in the design of experiments, including one or more of: distance based design criteria and construction of spatial process models, screening design strategies for high-dimensional problems, and design problems associated with computational experiments.

Stat 615. Mixed Models: Theory, Methods and Applications. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Stat 601 and Stat 611.* The linear mixed effects (LME) model, the generalized linear mixed effects model (GLMM), quasilikelihood estimation, generalized estimating equations, nonlinear mixed effects (NLME) model, application in longitudinal data analysis, growth curve analysis and small area estimation, method of model diagnostics and influential analysis. The knowledge of general statistical inference is assumed.

Stat 621. Advanced Theory of Survey Statistics. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 521.* Advanced topics of current interest in the design of surveys and analysis of survey data, including: asymptotic theory for design and model-based estimators, use of auxiliary information in estimation, variance estimation techniques, small area estimation, non-response modeling and imputation.

Stat 642. Advanced Probability Theory. (Cross-listed with Math). (4-0) Cr. 4. F. *Prereq: 542.* Measure spaces, extension theorem and construction of Lebesgue-Stieljes measures on Euclidean spaces, Lebesgue integration and the basic convergence theorems, Lp-spaces, absolute continuity of measures and the Radon Nikodym theorem, absolute continuity of functions on R and the fundamental theorem of Lebesgue integration, product spaces and Fubini-Tonelli Theorems, convolutions. Fourier series and transforms, probability spaces; Kolmogorov's existence theorem for stochastic processes; expectation; Jensen's inequality and applications, independence, Borel-Cantelli lemmas; weak and strong laws of large numbers and applications, renewal theory.

Stat 643. Advanced Theory of Statistical Inference. (4-0) Cr. 4. S. *Prereq: 543, 642.* Weak convergence; characteristic functions; continuity theorem; Lindberg-Feller central limit theorem and its ramifications; conditional expectation and probability; Martingale central limit theorems; sufficiency, completeness; Elements of decision theory; Statistical information; Neyman-Pearson theory of testing hypotheses. Uniformly most powerful tests, likelihood ratio tests. Goodness of fit tests. Asymptotic theory of maximum likelihood estimation and likelihood ratio tests; Bayesian models; Invariance.

Stat 645. Advanced Stochastic Processes. (Cross-listed with Math). (3-0) Cr. 3. S. *Prereq: Permission of instructor.* Weak convergence. Random walks and Brownian motion. Martingales. Stochastic integration and Ito's Formula. Stochastic differential equations and applications.

Stat 647. Multivariate Analysis. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 543, knowledge of matrix algebra.* Multivariate normal distribution, estimation of the mean vector and the covariance matrix, multiple and partial correlation, Hotelling's T2 statistic, Wishart distribution, multivariate regression, principle components, discriminant analysis, high dimensional data analysis, latent variables.

Stat 648. Seminar on Theory of Statistics and Probability. Cr. arr. F. *Prereq: 643.*

Stat 651. Time Series. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 551, 642.* Stationary and nonstationary time series models, including ARMA, ARCH, and GARCH. Covariance and spectral representation of time series. Fourier and periodogram analyses. Predictions. CLT for mixing processes. Estimation and distribution theory. Long range dependence.

Stat 680. Advanced Statistical Computing. (3-0) Cr. 3. F. *Prereq: 543 and 580.* Normal approximations to likelihoods. The delta-method and propagation of errors. Topics in the use of the E-M algorithm including; its use in the exponential family, computation of standard errors, acceleration. Resampling methods: brief theory and application of the jackknife and the bootstrap. Randomization tests. Stochastic simulation: Markov Chain, Monte Carlo, Gibbs' sampling, Hastings-Metropolis algorithms, critical slowing-down and remedies, auxiliary variables, simulated tempering, reversible-jump MCMC and multi-grid methods.

Stat 690. Advanced Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.*
A. Theory
B. Methods
C. Design of Experiments
D. Sample Surveys
E. Statistical Computing
F. Graphics

Stat 699. Research. Cr. arr. Repeatable.

Supply Chain Management

(Administered by the Department of Logistics, Operations and Management Information Systems)

Graduate Study

The Department of Logistics, Operations, and Management Information Systems participates in three graduate degree programs: the M.S. in Business, the M.B.A. full-time and part-time programs and the Ph.D. program in Business and Technology. The M.S. degree in Business is a 30-credit curriculum culminating in a thesis. The M.B.A. program is a 48-credit, nonthesis, noncreative component curriculum. Twenty-four of the 48 credits are core courses and the remaining 24 are graduate electives. The Ph.D. program is a 56-credit curriculum that culminates in a dissertation. The department also participates in the interdepartmental transportation major.

Students can obtain a Specialization in Supply Chain Management in the MBA program by taking 12 credits of graduate courses from a selected set of courses.

Students can also obtain a Ph.D. in Business and Technology with Supply Chain Management as the major area of specialization. They need to take 9 credits of the Ph.D. core curriculum 12 credits of doctoral seminars in the area of specialization, 9 credits in a minor area of the student's choice, and 12 credits from a recommended list of research methods courses.

Supply chain management is a program of study concerned with the efficient and timely flow of materials, products, and information within and among organizations. It involves the integration of business processes across organizations, from material sources and suppliers through manufacturing and processing to the final customer. Supply chain management encompasses a wide variety of activities that have a significant influence on customer service, including the planning, control, and implementation of the processes used to transform inputs into finished goods and services, transportation, warehousing, facility location analysis, packaging, materials handling, parts and service support, and product returns.

The study of Supply Chain Management prepares students for professional careers with manufacturers, distributors, logistics service providers, transportation carriers, and consulting firms. The curriculum provides the required theoretical/conceptual base and analytical methods for making sound operational and strategic supply chain management decisions.

Courses primarily for graduate students, open to qualified undergraduate students

SCM 502. Supply Chain Management. (2-0) Cr. 2. Prereq*: Graduate classification.* Introduction to the fields of operations and logistics. The managerial issues and challenges of developing and implementing a firm's supply chain strategy. Inbound and outbound logistics, inventory, warehousing, manufacturing, materials handling, transportation and sourcing.

SCM 502. Supply Chain Management. (2-0) Cr. 2. *Prereq: Graduate classification.* Introduction to the fields of operations and logistics. The managerial issues and challenges of developing and implementing a firm's supply chain strategy. Inbound and outbound logistics, inventory, warehousing, manufacturing, materials handling, transportation and sourcing.

SCM 520. Decision Models for Supply Chain Management. (3-0) Cr. 3. *Prereq: SCM 502 or permission of instructor.* The application of decision models for supply chain management. Topics include business applications of decision theory, inventory theory, business forecasting, optimization models, transportation and network models, routing problems, and project management.

SCM 522. Supply Chain Planning and Control Systems. (3-0) Cr. 3. *Prereq: SCM 502 or permission of instructor.* An integrated analysis of planning and control systems for supply chains. Master production scheduling, material requirements planning, enterprise resource planning, capacity planning, shop floor control, competitive analyses of modern supply chain systems, and implementation of information technologies related to these topics.

SCM 524. Strategic Process Analysis and Improvement. (3-0) Cr. 3. *Prereq: SCM 502 or permission of instructor.* Analysis, management, and improvement of the business processes used to produce and deliver products and services that satisfy customer needs. Process attributes that managers can control to influence the key operational performance measures of throughput time, inventory, cost, quality, and flexibility are discussed. Topics such as theory of constraints, lean production, and six sigma are included.

SCM 560. Strategic Logistics Management. (3-0) Cr. 3. *Prereq: SCM 502 or permission of instructor.* Positions logistics vis-a-vis supply chain management (SCM). Presents different perspectives on SCM vs. logistics. Describes primary logistics functions: transportation, warehousing, facility location, customer service, order processing, inventory management and packaging. Benefits of and obstacles to the integration of these functions.

SCM 561. Transportation Management and Policy. (3-0) Cr. 3. *Prereq: SCM 502 or permission of instructor.* Analysis of contemporary issues and strategies in transportation management and policy. Emphasis on evaluation of the impacts of transportation policies, new technologies, and strategic carrier and shipper management practices on the freight transportation industry and logistics systems.

SCM 563. Purchasing and Supply Management. (3-0) Cr. 3. *Prereq: SCM 502 or permission of instructor.* Mechanics, procedures and tools used in purchasing. Recruiting, selecting, developing and managing supply chain partners in order to achieve competitive advantage via superior supply chain management. Factors and information needs for making supply management decisions.

SCM 585. Strategic Demand Planning. (3-0) Cr. 3. *Prereq: SCM 502 or permission of instructor.* Synchronizes demand with manufacturing and distribution. Emphasis on the strategic advantages of linking business plans and demand forecasts, both vertically within the organization and collaboratively among supply chain partners.

SCM 590. Special Topics. Cr. arr. Repeatable. *Prereq: Graduate classification and permission of instructor.* For students who wish to do individual research in a particular area of supply chain management.

SCM 601. Theoretical Foundations of Supply Chain Management. (3-0) Cr. 3. *Prereq: Mgmt 601 or permission of instructor.* An overview of the development of supply chain management (SCM) theory, including review of seminal articles in logistics, operations, and purchasing management and theories from allied disciplines (e.g., economics, marketing, sociology, strategic management). Analysis of trends in SCM research topics and methodologies. Identification of emerging and future areas for research and theory development.

SCM 602. Seminar in Supply Chain Strategy. (3-0) Cr. 3. *Prereq: SCM 601 or concurrent enrollment.* Review of research literature on supply chain strategy, including the impact of technology, global economic and social factors, and intra- and inter-organizational integration on supply chain strategy formation. The role of SCM in overall corporate strategy and the impact of SCM on firm performance will also be addressed.

SCM 603. Seminar in Purchasing. (3-0) Cr. 3. *Prereq: SCM 601 or concurrent enrollment.* Review of classic purchasing theories. Discussion of contemporary supply management strategy; the role of supply management and its relationship with other functional areas; its impact on logistics and transportation issues; management of supply uncertainties.

SCM 604. Seminar in Logistics Management. (3-0) Cr. 3. *Prereq: SCM 601 or concurrent enrollment.* Integration of network, economic, and systems theory in the design, management, and control of logistics systems in the context of integrated supply chain management. Functional areas addressed include transportation, inventory order fulfillment, distribution, and warehousing. Facility location analysis will also be covered.

SCM 605. Seminar in Operations Management. (3-0) Cr. 3. *Prereq: SCM 601 or concurrent enrollment.* Review of the research literature on methods of organizing, planning, controlling, and improving manufacturing systems to achieve the desired performance objectives related to cost, quality, speed, and flexibility. The relationship between the performance of the manufacturing system and the performance of the supply chain system will also be discussed.

SCM 650. Research Practicum I. (1-0) Cr. 1. *Prereq: enrollment in the PhD program.* Preparation of a research manuscript to be submitted to a peer-reviewed academic journal. Students will work with a faculty mentor on a research project.

SCM 651. Research Practicum II. (1-0) Cr. 1. *Prereq: enrollment in the PhD program.* Preparation of a second research manuscript to be submitted to a peer-reviewed academic journal. Although students work under the supervision of a faculty mentor, the students will take independent responsibility for the research project.

SCM 699. Dissertation. Cr. 12. *Prereq: Graduate classification, permission of dissertation supervisor.* Research.

Sustainable Agriculture

(Interdepartmental Graduate Major)

www.sust.ag.iastate.edu/gpsa/

Program Leadership: M. Duffy, Chair and Director of Graduate Education.

The Graduate Faculty Members in Sustainable Agriculture: Al-Kaisi, Allen, Anderson, Anex, Asbjornsen, Bain, Bhandari, Brumm, Cambardella, Clapp, Colletti, Cruse, Danielson, de Laplante, Delate, Deutsch, DeWitt, Duffy, C. Flora, J. Flora, Ford, Gardner, Gleason, Goggi, Grudens-Schuck, Hatfield, Hayes, Helmers, Honeyman, Hurburgh, Kaleita, Kanwar, Karlen, Kirschenmann, Kliebenstein, Liebman, Logsdon, Loynachan, Maldonado, Mallarino, Martin, Mazur, Miller, Miranowski, Morton, Mullen, Nutter, O'Neal, Owusu, Potoski, Randall, Robertson, Russell, Sandor, Sauer, Schulte, Schultz, Soupir, Steward, Thompson, Tyndall, Urbatsch, Wang, Wells, Wiedenhoeft, Wolf, Xin, Yang.

The graduate program in sustainable agriculture is an interdepartmental major offered through faculty in sixteen participating departments: Agricultural and Biosystems Engineering; Agricultural Education and Studies; Agronomy; Animal Science; Community and Regional Planning; Ecology, Evolution and Organismal Biology; Economics; Entomology; Food Science and Human Nutrition; Horticulture; Landscape Architecture; Natural Resource Ecology and Management; Philosophy and Religious Studies; Plant Pathology; Political Science; and Sociology. Both M.S. and Ph.D. degrees are offered within the major.

Master's students must have a bachelor's degree in one of the life, social, or engineering sciences, or a bachelor's degree plus equivalent experience in these areas. Doctoral students must have a master's degree and either an undergraduate or master's degree in one of the majors in the College of Agriculture and Life Sciences or its equivalent. Graduates of the program will be able to design and manage agricultural systems that increase food security, enhance human communities, and protect environmental quality. To acquire these abilities, students learn agroecological principles, study social relations underlying sustainable farming and food systems, and gain experience with practical techniques of sustainable agriculture. The program seeks to balance depth in disciplinary knowledge and perspectives with broader, system-level thinking. It integrates technical and social sciences through a sequence of team-taught interdisciplinary core courses emphasizing higher-order critical thinking skills and active, collaborative approaches to learning.

Graduates of the program are qualified to work in a variety of settings, including university research, education, extension, agribusiness, governmental and non-governmental organizations, and farming.

Information on applications procedures, research interests of the faculty, and specific requirements of the major may be obtained at http://www.sust.ag.iastate.edu/gpsa/ or by contacting gpsa@iastate.edu.

Courses for graduate students

SusAg 509. Agroecosystem Analysis. (Cross-listed with Agron, Anthr, Soc). (3-4) Cr. 4. F. *Prereq: Senior or above classification.* Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing field visits, with some classroom activities. Focus on understanding multiple elements, perspectives (agronomic, economic, ecological, social, etc), and scales of operation.

SusAg 515. Integrated Crop and Livestock Production Systems. (Cross-listed with A E, Agron, An S). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: SusAg 509.* Methods to maintain productivity and minimize the negative ecological effects of agricultural systems by understanding nutrient cycles, managing manure and crop residue, and utilizing multispecies interactions. Crop and livestock production within landscapes and watersheds is also considered. Course includes a significant field component, with student teams analyzing Iowa farms.

SusAg 530. Ecologically Based Pest Management Strategies. (Cross-listed with Agron, Ent, Pl P). (3-0) Cr. 3. Alt. F., offered 2010. Durable, least-toxic strategies for managing weeds, pathogens, and insect pests, with emphasis on underlying ecological processes.

SusAg 546. Organizational Strategies for Diversified Farming Systems. (Cross-listed with Agron, Hort, Soc). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: SusAg 509.* Examination of the organization and operation of complex, diversified farming systems using tools and perspectives drawn from ecology, agronomy, and sociology. The course includes a significant field component focused on an Iowa farm.

SusAg 571. Agroforestry Systems. (Cross-listed with NREM). (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: 6 credits in biological science at 300-level or above.* Concepts of sustainable land use, agroecological dynamics, and component interactions of agroforestry systems. Agroforestry systems in temperate and tropical regions. Design and evaluation techniques for agroforestry systems. Ecological, socioeconomic and political aspects of agroforestry.

SusAg 584. Organic Agricultural Theory and Practice. (Cross-listed with Agron, Hort). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 9 cr. in biological or physical sciences.* Delate & DeWitt. Understanding of the historical origins and ecological theories underpinning the practices involved in organic agriculture. Interdisciplinary examination of crop and livestock production and socio-economic processes and policies in organic agriculture from researcher and producer perspectives.

SusAg 590. Special Topics. Cr. arr. Repeatable. F.S.SS. *Prereq: Graduate classification, permission of instructor.* For students wishing to conduct in-depth study of a particular topic in sustainable agriculture.

SusAg 599. Creative Component. Cr. arr. F.S.SS. Pre-enrollment contract required. For MS students pursuing the non-thesis degree option. Final product is a creative component.

SusAg 600. Sustainable Agriculture Colloquium. (1-0) Cr. 1. Repeatable. F.S. Weekly seminar for graduate students in the Sustainable Agriculture program.

SusAg 610. Foundations of Sustainable Agriculture. (Cross-listed with Agron, A E, Anthr, Soc). (3-0) Cr. 3. F. *Prereq: Graduate classification, permission of instructor.* Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

SusAg 699. Research. Cr. arr. Repeatable. F.S.SS. MS and PhD thesis and dissertation research.

Systems Engineering

(Interdepartmental Graduate Major)

Supervisory Committee: D. Gemmill (Chair), D. Jacobson, and A. Mann

Work is offered for the master of engineering with a major in systems engineering. The graduate major in Systems Engineering is primarily an off-campus program. It is an interdisciplinary program that allows students to take courses across a variety of departments. Graduates of the program will possess the analytical abilities needed to design, evaluate, and build complex systems involving many components and demanding specifications. They will have the ability to work across disciplinary boundaries, as the practice of modern engineering often requires. Graduates will have developed management capabilities and extended their disciplinary knowledge.

The program is broadly based and uses courses in the various departments of the College of Engineering and courses in other departments of the university. The 30 credits necessary for graduation includes 27 semester credits of formal coursework and 3 credits for a creative component. Completion of the program requires two courses in systems engineering, two courses in the major discipline of the student, three engineering courses with a systems engineering emphasis, two courses outside of the college, and a creative component. Courses are delivered to off-campus students both with the instructor present and through various distance education systems, including video-streaming, podcasting, ftp downloading and CD-ROMs.

The program of study committee, in consultation with the student, determines the courses to be taken and the acceptability of transfer credits. The major professor should be selected from the discipline where a concentration of coursework will be taken.

Admission to the program requires a baccalaureate degree in engineering and admission to the graduate college. Students with degrees in other areas will be considered on an individual basis.

The degree awarded is a Master of Engineering in Systems Engineering.

For additional information students should contact the Chair of the Supervisory Committee, 2019 Black Engineering Building, ISU, Ames, Iowa 50011.

Teacher Education

David Whaley, Associate Dean, Teacher Education

Teacher Education Faculty: Geoff Abelson (C I), Linda Quinn Allen (WLC), Thomas Andre (C I), Alex Andreotti (C I), Janice Baker (KIN), EunJin Bang (CI), Leslie Bloom (C I), Jackie Blount (C I), Warren Blumenfield (C I), Mary Jane Brotherson (HD FS), Katherine Richardson Bruna (C I), Patricia Carlson (C I), Mike Clough (C I), James Colbert (BIO), Karen Colbert (HD FS), Ana Correia (C I), Sedahlia Crase (HD FS), Corey Drake (C I), Dianne Draper (HD FS), Rich Engelhorn (KIN), Levon Esters (AgEds), Anne Foegen (C I), Michael Golemo (Music), Thomas Greenbowe (Chem), Connie Hargrave (C I), Cheryl Hausafus (AESHM), Sue Hegland (HD FS), Beth Herbel-Eisenmann (C I), Kere Hughes (HD FS), Leah Keino (AESHM), Mimi Lee (CI), Patricia Leigh (C I), John Levis (Engl), Gayle Luze (HD FS), Robert Martin (AgEds), James McShay (C I), Donna Merkley (C I), Greg Miller (AgEds), Wade Miller (AgEds), Kouider Mokhtari (CI), Susan Maude (HD FS), Sylvia Munsen (Music), Donna Niday (Engl), Dale Niederhauser (C I), Lori Norton-Meier (C I), Joanne Olson (C I), Carla Peterson (HD FS), Gary Phye (C I), Mark Rectanus (WLC), Michael Retallick (Music), James Rodde (Music), Connie Ringlee (Engl), Marcia Rosenbusch (C I), Elizabeth Schabel (Engl), Frank Schabel (KIN), Kevin Schilling (Music), Denise Schmidt (C I), Jennifer Seymour (C I), Carl Smith (C I), Katherine Thomas (KIN), Ann Thompson (C I), Margaret Torrie (HD FS), Robert Tremmel (Engl), Michael Tremmel (Engl), Roberta Vann (Engl), Kerry Whisnant (Phys), Kenneth Windom (Geol)

The mission of University Teacher Education is to develop educators who are caring, competent, and certified. Students who successfully complete the requirements for any of the endorsement areas offered at ISU must demonstrate the skills and knowledge required of beginning teachers. (See Iowa Teaching Standards and Criteria section.)

University Teacher Education is a shared responsibility that spans three colleges. For most licensure areas, students major in a content area while taking additional education courses. All students who are recommended by Iowa State University for teacher licensure must meet the requirements of University Teacher Education and be recommended by their department, college, and the ISU recommending official.

Undergraduate Teacher Licensure Areas

An undergraduate student seeking a bachelor's degree must be enrolled in the department in which he or she plans to major and must meet the graduation requirements of that department and college.

Currently, there are sixteen undergraduate teacher licensure areas offered at Iowa State University. These areas and their corresponding grade levels are listed below:

Early Childhood Education (birth-grade 3)
Elementary Education (grades K-6)
Agricultural Education (grades 5-12)
Biology (grades 5-12)
Chemistry (grades 5-12)
Earth Science (grades 5-12)
English (grades 5-12)
Family and Consumer Sciences (grades 5-12)
Health Education (grades 5-12)
History-Social Sciences (grades 5-12)
Mathematics (grades 5-12)
Music (grades K-12)
Physical Education (grades K-12)
Physical Science (grades 5-12)
Physics (grades 5-12)
World Languages and Cultures (French, German, Latin, Russian, and Spanish) (grades 5-12)

Additional Endorsements

Students must fulfill the requirements for one of the licensure areas listed above to add any of the following endorsements:

Art (K-8)
Basic Science (K-8)
Coaching Interscholastic Athletics (grades K-12)
English and Language Arts (K-8)
English as a Second Language (grades K-12)
General Science (grades 5-12)
Health (K-8)
History (K-8)
Instructional Strategist I: Mild/Moderate Disabilities (grades K-8 or 5-12)
Instructional Strategist II: Behavior Disorders/Learning Disabilities (K-12)
Mathematics (K-8)
Middle School (5-8)
Reading (grades K-8 or 5-12)
Social Sciences (K-8)
Speech Communication (grades 5-12)
World Languages and Cultures (French, German, Latin, Russian, and Spanish) (grades K-8)

Post-Bachelor's Teacher Licensure Areas

Students already holding an appropriate bachelor's degree may pursue teacher licensure in any of the undergraduate licensure areas listed above. Interested students should consult with the coordinator of the area in which they plan to specialize so that an individualized program of study can be developed.

Graduate Teacher Licensure Areas

Currently, there are five graduate initial teacher licensure programs. These programs are designed for students who do not currently hold a teaching license. The programs are listed below:

Agricultural Education (M.S.)

Family and Consumer Sciences Education (M.Ed. or M.S.)

Mathematics Education (M.Ed.)

Physical Education (M.S.)

Secondary Sciences Education (M.A.T.)

Iowa State University also offers Master's programs for practicing teachers. The Mathematics Department offers a Masters in School Mathematics. (See Mathematics in Courses and Programs section of this catalog.) The Curriculum and Instruction Department offers a Master's degree program and a certificate program that lead to a special education endorsement. (See Curriculum and Instruction in Courses and Programs section of this catalog.)

Graduate programs are also available for those who seek licensure in Educational Administration as PK-12 school principals or PK-12 superintendents. (See Educational Administration in Courses and Programs section of this catalog.)

Standards

University Teacher Education has a rigorous standards-based curriculum. Two sets of standards are used throughout the program, one that is targeted for pre-service teachers (Standards for University Teacher Education Programs/Candidates which originates from the Iowa Administrative Code, Chapter 79, Standards for Practitioner Preparation Programs) and the other set that is targeted for in-service teachers (the Iowa Teaching Standards and Model Criteria adopted by the State Board of Education). Both are listed below in full.

Standards for University Teacher Education Programs/Candidates

a. Content/subject matter specialization. The candidate demonstrates an understanding of the central concepts, tools of inquiry, and structure of the discipline(s) the candidate teaches, and creates learning experiences that make these aspects of the subject matter meaningful for students. This is evidenced by a completion of a 30-semester-hour teaching major which must minimally include the requirements for at least one of the basic endorsement areas, special education teaching endorsements, or secondary level occupational endorsements. Each elementary candidate must also complete a field of specialization in a single discipline or a formal interdisciplinary program of at least twelve semester hours.

b. Student learning. The candidate demonstrates an understanding of human growth and development and of how students learn, and receives learning opportunities that support intellectual, career, social and personal development.

c. Diverse learners. The candidate demonstrates an understanding of how students differ in their approaches to learning and creates instructional opportunities that are equitable and adaptable to diverse learners.

d. Instructional planning. The candidate plans instruction based upon knowledge of subject matter, students, the community, curriculum goals, and state curriculum models.

e. Instructional strategies. The candidate demonstrates an understanding and use of a variety of instructional strategies to encourage students development of critical and creative thinking, problem-solving, and performance skills.

f. Learning environment/classroom management. The candidate uses an understanding of individual and group motivation and behavior; creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation; maintains effective classroom management; and is prepared to address behaviors related to substance abuse and other high-risk behaviors.

g. Communication. The candidate uses knowledge of effective verbal, nonverbal, and media communication techniques, and other forms of symbolic representation, to foster active inquiry, collaboration, and support interaction in the classroom.

h. Assessment. The candidate understands and uses formal and informal assessment strategies to evaluate the continuous intellectual, social, and physical development of the student, and effectively uses both formative and summative assessment of students, including student achievement data, to determine appropriate instruction.

i. Foundations, reflective practice and professional development. The candidate develops knowledge of the social, historical, and philosophical foundations of education. The candidate continually evaluates the effects of the candidate's choices and actions on students, parents, and other professionals in the learning community; actively seeks out opportunities to grow professionally; and demonstrates an understanding of teachers as consumers of research and as researchers in the classroom.

j. Collaboration, ethics and relationships. The candidate fosters relationships with parents, school colleagues, and organizations in the larger community to support students learning and development; demonstrates an understanding of

educational law and policy, ethics, and the profession of teaching, including the role of boards of education and education agencies; and demonstrates knowledge and dispositions for cooperation with other educators, especially in collaborative/co-teaching as well as in other educational team situations.

k. Technology. The candidate effectively integrates technology into instruction to support student learning.

Iowa Teaching Standards and Criteria

Standard 1: Demonstrates ability to enhance academic performance and support for implementation of the school district student achievement goals.

The teacher:

a. Provides evidence of student learning to students, families, and staff.

b. Implements strategies supporting student, building, and district goals.

c. Uses student performance data as a guide for decision-making.

d. Accepts and demonstrates responsibility for creating a classroom culture that supports the learning of every student.

e. Creates an environment of mutual respect, rapport, and fairness.

f. Participates in and contributes to a school culture that focuses on improved student learning.

g. Communicates with students, families, colleagues, and communities effectively and accurately.

Standard 2: Demonstrates competence in content knowledge appropriate to the teaching position.

The teacher:

a. Understands and uses key concepts, underlying themes, relationships, and different perspectives related to the content area.

b. Uses knowledge of student development to make learning experiences in the content area meaningful and accessible for every student.

c. Relates ideas and information within and across content areas.

d. Understands and uses instructional strategies that are appropriate to the content area.

Standard 3: Demonstrates competence in planning and preparing for instruction.

The teacher:

a. Uses student achievement data, local standards, and the district curriculum in planning for instruction.

b. Sets and communicates high expectations for social, behavioral, and academic success of all students.

c. Uses student developmental needs, background, and interests in planning for instruction.

d. Selects strategies to engage all students in learning.

e. Uses available resources, including technologies, in the development and sequencing of instruction.

Standard 4: Uses strategies to deliver instruction that meet the multiple learning needs of students.

The teacher:

a. Aligns classroom instruction with local standards and district curriculum.

b. Uses research-based instructional strategies that address the full range of cognitive levels.

c. Demonstrates flexibility and responsiveness in adjusting instruction to meet student needs.

d. Engages students in varied experiences that meet diverse needs and promote social, emotional, and academic growth.

e. Connects students' prior knowledge, life experiences, and interests in the instructional process.

f. Uses available resources, including technologies, in the delivery of instruction.

Standard 5: Uses a variety of methods to monitor student learning.

The teacher:

a. Aligns classroom assessment with instruction.

b. Communicates assessment criteria and standards to all students and parents.

c. Understands and uses the results of multiple assessments to guide planning and instruction.

d. Guides students in goal setting and assessing their own learning.

e. Provides substantive, timely, and constructive feedback to students and parents.

f. Works with other staff and building and district leadership in analysis of student progress.

Standard 6: Demonstrates competence in classroom management.

The teacher:

a. Creates a learning community that encourages positive social interaction, active engagement, and self-regulation for every student.

b. Establishes, communicates, models, and maintains standards of responsible student behavior.

c. Develops and implements classroom procedures and routines that support high expectations for student learning.

d. Uses instructional time effectively to maximize student achievement.

e. Creates a safe and purposeful learning environment.

Standard 7: Engages in professional growth.

The teacher:

a. Demonstrates habits and skills of continuous inquiry and learning.

b. Works collaboratively to improve professional practice and student learning.

c. Applies research, knowledge, and skills from professional development opportunities to improve practice.

d. Establishes and implements professional development plans based upon the teacher's needs aligned to the Iowa Teaching Standards and district/building student achievement goals.

Standard 8: Fulfills professional responsibilities established by the school district.

The teacher:

a. Adheres to board policies, district procedures, and contractual obligations.

b. Demonstrates professional and ethical conduct as defined by state law and individual district policy.

c. Contributes to efforts to achieve district and building goals.

d. Demonstrates an understanding of and respect for all learners and staff.

e. Collaborates with students, families, colleagues, and communities to enhance student learning.

Standards Assessments

The State Board of Education requires each teacher candidate to demonstrate acquisition of the knowledge, skills and dispositions designated by the standards above for an Iowa teaching license at a level appropriate for a novice teacher. See licensure area coordinator for requirements.

The General Education Requirement

All prospective teachers are required to meet general education requirements as a part of their preparation.

Undergraduate Students

Undergraduate students must complete studies in the following general education groups. General education courses may be found in many departments. Credits listed are minimum requirements. Specific departments and/or colleges may require additional credits. Credits used to satisfy these general education requirements typically satisfy department and college general education requirements. (See licensure area coordinator for more information.)

Cr.	
6	Natural sciences
3	Mathematics or Statistics
9	Social Sciences
6	Humanities
9	Communication Skills
0.5	Library Skills (Lib 160)
33.5	Total

The above requirements must include:

(1). Engl 150 and 250, or equivalent
(2). One course that develops interpersonal or group presentation
(3). HD FS 102 or Psych 230
(4). One course in American history or government (see approved list.)

Post-Bachelor's Students

Students holding an appropriate bachelor's degree who wish to pursue teaching licensure must have at least one course in each of the following five general education groups identified for undergraduate students in the preceding section: Natural Sciences, Mathematics or Statistics, Social Sciences, Humanities, and Communication Skills. Individual departments preparing teachers may require additional credits in general education. (See licensure area coordinator for more information.)

Master's Students

Each Master's program will determine what, if any, general education requirements Master's students must fulfill beyond a bachelor's degree from a regionally accredited institution. (See licensure area coordinator for more information.)

Professional Teacher Education Requirement (Professional Core)

Field Experience Requirement

All students must satisfactorily complete a minimum of 80 hours of pre-student teaching laboratory experience. This requirement may be met through a pre-student teaching course (e.g., C I 280, C I 480, C I 580) or, in certain endorsement areas, a course designated to provide an equivalent experience. Students complete a background check before initial placement in schools and other appropriate locations.

Undergraduate Students

Prospective teachers must complete certain studies related directly to the profession of teaching. All undergraduate students in teacher education must take the following courses prior to student

teaching, unless the student's licensure area has an approved content-area course deemed to be equivalent (see specific Licensure Area Requirements section below for details.)

Early Childhood Education and Elementary Education:

Cr.
3 CI 201-Digital Learning in the PK-6 Classroom
3 C I 204—Social Foundations of American Education
2 C I 245 —Strategies in Teaching
1 C I 268 —Strategies Practicum
3 C I 332 – Educational Psychology of Young Learners
3 CI 406-Multicultural Foundations of Schools and Society: Introduction
3 Sp Ed 250—Education of the Exceptional Learner in a Diverse Society
16 Student teaching (16 weeks)

Secondary Education and K-12:

Cr.

3 CI 202: Digital Learning in the 7-12 Classroom
3 C I 204—Social Foundations of American Education
3 C I 333 -- Educational Psychology
3 CI 406-Multicultural Foundations of Schools and Society: Introduction
3 Sp Ed 450 —Teaching Secondary Students with Exceptionalities in General Education Classrooms
14-16 Student teaching (minimum 14 weeks)
(See teacher licensure area coordinator for more information).

Students in K-12 licensure areas and secondary education (grades 5-12) licensure areas must also complete the course listed below unless the student's licensure area has an approved equivalent. Areas with approved equivalents include: Agricultural Education, Physical Education and all Secondary Sciences. (See licensure area coordinator for more information).

Cr.
3 C I 426—Principles of Secondary Education

Post-Bachelor's Students
Students who hold an appropriate bachelor's degree and seek a teaching license must complete the professional education requirements listed above through course work or examination.

Master's Students
Prospective teachers must complete certain studies related directly to the profession of teaching. All students enrolled in Master's programs that lead to initial licensure must take the following courses prior to student teaching, unless the student's licensure area has an approved content area course deemed to be equivalent. (See Master's Programs section below for details.)

Cr.
3 Sp Ed 501—Teaching Students with Exceptionalties in General Education
3 C I 505 —Using Technology in Learning and Teaching
3 HPC 504—Studies in the Foundations of American Education
3 C I 506—Multicultural Foundations of School and Society: Advanced
3 C I 526—Principles of Secondary Education
3 C I 529—Educational Psychology in the Secondary Classroom
14-16 Student teaching (minimum 14 weeks)
(See teacher licensure area coordinator for more information).

Admission to University Teacher Education (Checkpoint 1)

The University Teacher Education Office monitors the progress of teacher education students. Admission to University Teacher Education is the first of three checkpoints. At this time, the requirements listed below will be checked. Students will not be able to progress to Student Teaching (Checkpoint 2) and Licensure (Checkpoint 3) without full admission to University Teacher Education (Checkpoint 1). Departments may have higher eligibility requirements for each checkpoint (see licensure area coordinator for more information).

Students transferring from other institutions with a minimum of 2.50 GPA or above may be admitted tentatively; full admission may be granted upon completion of nine semester credits averaging 2.50 or above at Iowa State University. Students who receive tentative admission are required to reapply the following semester by using the application for admission. A minimum of 20 semester credits averaging 2.50 or above must be earned at Iowa State University to receive institution licensure approval (nine of the required 20 semester hours must precede student teaching).

A student seeking admission to University Teacher Education must be accepted by a selection committee for the specific licensure area which the student seeks to enter. Factors considered in evaluating applications (in addition to the requirements listed below) may include professional dispositions, scholarship, interest in teaching, character, interpersonal skills, and physical and mental health.

Recommendations by selection committees must be confirmed by the University Teacher Education Coordinating Council before admission is granted. Students may apply as early as four semesters before the one in which they plan to enroll for student teaching; however, they must be fully admitted into University Teacher Education at least one year prior to the semester they complete the Request for Student Teaching Placement. Students in accelerated graduate programs must be fully admitted by mid-semester prior to their planned student teaching semester.

Requirements for full admission to University Teacher Education as an undergraduate:

1. A minimum 2.5 cumulative grade point average.

2. Successful completion of one of the following basic skills tests:

A composite Praxis I (PPST) score of 522, with a minimum of 170 for each test (reading, writing, and mathematics.

Minimum scores for the basic skills tests may be subject to change. Details regarding the scores, dates and fees for these tests are available online: www.teacher.hs.iastate.edu.

3. Documented completion of ISU approved 10 hours of pre-student teaching field experience.

4. All Curriculum and Instruction (C I), Human Development and Family Studies (HD FS) and Special Education (Sp Ed) courses required for licensure have a minimum grade requirement of a C (pedagogy coursework). Courses in the department of the major specifically required for teacher licensure have a minimum grade requirement of a C- (content coursework).

5. A report from a criminal background check initiated by ISU's recommending official.

Requirements for full admission to University Teacher Education as a post-bachelor's student:

1. A bachelor's degree from a regionally accredited institution and a minimum 2.5 cumulative grade point average from that institution.

2. Successful completion of one of the following basic skills test:

—Minimum GRE scores (400 on each of the Verbal and Quantitative sections.)

OR

—A composite Praxis I (PPST) score of 522, with a minimum of 170 for each test (reading, writing, and mathematics.) Some licensure areas may require higher Praxis I scores.

Minimum scores for the basic skills tests may be subject to change. Details regarding the scores, dates and fees for these tests are available online: www.teacher.hs.iastate.edu

3. Documented completion of ISU approved 10 hours of pre-student teaching field experience.

4. All Curriculum and Instruction (C I), Human Development and Family Studies (HD FS) and Special Education (Sp Ed) courses required for licensure have a minimum grade requirement of a C (pedagogy coursework). Courses in the department of the major specifically required for teacher licensure have a minimum grade requirement of a C- (content coursework).

5. A report from a criminal background check initiated by ISU's recommending official.

Requirements for full admission to University Teacher Education as a Master's student:

1. Full admission to an appropriate Master's degree program.

2. Minimum GRE scores (400 on each of the Verbal and Quantitative sections).

3. Documented completion of ISU approved 10 hours of pre-student teaching field experience.

4. All Curriculum and Instruction (C I), Human Development and Family Studies (HD FS) and Special Education (Sp Ed) courses required for licensure have a minimum grade requirement of a C (pedagogy coursework). Courses in the department of the major specifically required for teacher licensure have a minimum grade requirement of a C- (content coursework).

5. A report from a criminal background check initiated by ISU's recommending official.

Students who do not meet the requirements for admission to University Teacher Education may choose to appeal to the University Teacher Education Coordinating Council. The description of the appeals process is available online: www. teacher.hs.iastate.edu.

Maintaining Program Eligibility

Standards Assessments: In order to be recommended for licensure, all students must have demonstrated satisfactory performance across the teacher education competencies, as defined by their specific area. (See the teacher licensure area coordinator for more information.) Students' progress is monitored throughout the program Standards are assessed multiple times. More information is available online: www.teacher.hs.iastate.edu.

GPA: All students admitted to the University Teacher Education Program must maintain a minimum of a 2.5 cumulative grade point average through completion of their licensure requirements.

Grades: For teacher education students, all Curriculum and Instruction (C I), Human Development and Family Studies (HD FS) and Special Education (Sp Ed) courses required for licensure have a minimum grade requirement of a C. Courses in the department of the major specifically required for teacher licensure have a minimum grade requirement of a C-. Note: Individual departments preparing teachers may have higher eligibility requirements (see teacher licensure area coordinator for more information).

Student Teaching (Checkpoint 2)

Student teaching is the culminating experience. To ensure that students are prepared for this experience, the following requirements must be met prior to submitting your "Request for Student Teaching Placement" form:

1. Full admission to University Teacher Education is required a minimum of 1 year before the start of the student teaching semester. Students in accelerated graduate programs must be fully admitted by mid-semester prior to the student teaching semester.

2. Completion of the "'Request for Student Teaching Placement" by the deadline in the fall semester for spring student teaching and by the deadline in the spring semester for fall student teaching. Details regarding this application are available in the University Teacher Education Office.

3. A minimum 2.5 cumulative grade point average.

4. A passing grade as determined by the licensure area must have been earned in all required professional teacher education requirement courses and selected courses in the student's licensure area. All Curriculum and Instruction (C I), Human Development and Family Studies (HD FS) and Special Education (Sp Ed) courses required for licensure have a minimum grade requirement of a C (pedagogy coursework). Courses in the department of the major specifically required for teacher licensure have a minimum grade requirement of a C- (content coursework).

Teacher Licensure (Checkpoint 3)

The Iowa Board of Educational Examiners issues teaching licenses that are valid for specific ages or grades (e.g., Birth-3 for early childhood teachers, K-6 for elementary teachers and 5-12 for secondary teachers). Endorsements on a teaching license indicate which subject areas a teacher is qualified to teach. Completion of student teaching and required coursework does NOT guarantee recommendation for a teaching license. The Iowa License may be recommended for students who hold a bachelor's degree from Iowa State University or another regionally accredited institution and who have completed the following:

1. All requirements of an approved licensure area, including the general education requirement and professional teacher education requirement listed above. Note: Specific courses to be used for licensure may not be taken pass/not pass.

2. Additional requirements as designated by the State of Iowa that include, but are not limited to, a special education component and 50 hours of pre-student teaching field experience, 40 of which are to be taken after admission to the University Teacher Education Program.

3. A minimum ISU cumulative grade point average of 2.50 or higher through graduation (or completion of the University Teacher Education Program). (Some licensure areas may require a higher cumulative grade point average.)

4. A minimum grade of C (not C-) must be earned in student teaching to be recommended for licensure.

5. Documentation from the student teaching supervisor that the student has successfully completed the final assessment documenting the student's mastery of the skills and knowledge included in the Iowa Teaching Standards.

Undergraduate and Post-Bachelor's (non-Master's) Teacher Licensure Area Requirements

Certain competencies are required of those who plan to teach at the early childhood, elementary or secondary level. Those preparing to teach at the secondary level must develop a depth of understanding in one or more subject matter areas. For full-time teaching in secondary schools a major in an endorsement area or an approved subject matter concentration of at least 30 semester hours is required. Students interested in adding an additional endorsement area should consult with the coordinator or adviser of the additional area (see the following website for the contact information for the adviser or coordinator that works with students on teacher licensure: www.teacher.hs.iastate.edu. Persons interested in teaching in one of the following endorsement areas should also consult with the appropriate adviser or coordinator. Specific requirements for each teacher licensure area are described below (these requirements are in addition to the General Education Requirements and the Professional Teacher Education Requirements that were listed earlier).

Agricultural Education

The Department of Agricultural Education and Studies is responsible for preparing Agricultural Education teachers for grades 5-12.

For specific content area requirements see Curriculum in Agricultural Education and Studies (Teacher Certification Option).

Required professional courses are: AgEdS 110A, 211A, 310, 401, 402, 416, 417 (14 Cr.)

Required content courses are: AgEdS 488; Agron 114 and 154; An S 101 and 114; Hort 221; Econ 101, 331; NREM 120; 6 credits in agriculture and life sciences; 6 credits in courses 300-level or above to be chosen from technology systems management, animal science, agronomy, agricultural economics, forestry, or horticulture.

Biology

The Biology Program and the Department of Curriculum and Instruction share the responsibility of preparing Biology teachers for grades 5-12.

Required professional courses are: C I 280M,

C I 347, C I 418, C I 419, C I 468J, C I 468K and C I/LAS 417D

Required content courses are: Biol 211, 211L, 212, 212L, 312, 313, 313L, 314, 314L, 315. Biol 366 or 330, or 454. Biol 335 or BMS 329, Micro 302.

Additional courses to obtain a total of 17 credits at the 300 level or above in a basic biological science. Supporting coursework must include 13 credits in chemistry, 8 in physics, and 6 in mathematics.

Chemistry

The Department of Chemistry and the Department of Curriculum and Instruction share the responsibility of preparing Chemistry teachers for grades 5-12.

Required professional courses are C I 280M, C I 347, C I 418, C I 419, C I 468J, C I 468K, and C I 417B.

Required content courses are: Chem 177, 177L, 178, 178L, 211, 211L, 301, 316, 316L, 324, 325, 321L or 322L, 331, 331L, 332, 332L; Phys 221, 222 or Phys 111, 112; Math 165, 166; a minimum of one course in Biol is required; Biol 211 and 211L are recommended.

Students with an endorsement in a natural science who seek approval to teach chemistry as an additional subject area must earn credits in the following courses (15 minimum credits):

Chem 177, 177L, 178, 178L, 211, 211L, 331, 331L, 332, 332L or Chem 163, 163L, 164, 164L, 211, 211L, 231, 231L.

Students with no natural science endorsement who seek approval to teach chemistry as an additional subject area must complete one of the two sets of courses listed above plus sufficient additional courses to total 24 chemistry credits chosen from:

Chem 316, 316L, 324, 325, 322L or BBMB 301, 311, 451.

Early Childhood Education

The Department of Curriculum and Instruction and the Department of Human Development and Family Studies in the College of Human Sciences share the responsibility for preparing teachers to work with children from birth to age 8 (PK-3 including special education).

For specific course requirements, see College of Human Sciences, Curriculum in Early Childhood Education.

Earth Sciences

The Department of Geological and Atmospheric Sciences and the Department of Curriculum and Instruction share the responsibility of preparing Earth Science teachers for grades.5-12

Required professional courses are: C I 280M, 347, 418, 419, 468J, 468K, C I 417J.

Required content courses are: Geol 100, 100L, 102, 102L, 302, 311, 356, 365, 368 and a three credit geology elective; Mteor 206; Astro 120, 150; Chem 177, 177L, 178, 178L; Phys 111, 112; Math 151 or 160 or 165 or 181; Stat 101 or 104 or Com S 107; and one three credit biology course.

Students with an endorsement in a natural science who seek approval to teach earth sciences as an additional subject area must earn credits in the following courses: Geol 100, 100L, 102, 102L, Mteor 206, Astro 120, Astro 150, and at least 3 credits at the 300-level or higher.

Students with no other natural science endorsement, but who seek endorsement in this area, must take Geol 100, 100L, 102, 102L, Mteor 206, Astro 120, Astro 150, plus any additional credits to produce a total of 24, at least 3 credits at the 300-level or higher. See licensure area coordinator for approval prior to taking courses.

Elementary Education

The Department of Curriculum and Instruction in the College of Human Sciences is responsible for preparing elementary (K-6) teachers.

For specific course requirements, see College of Human Sciences, Curriculum in Curriculum and Instruction. Several endorsements may be added to a K-6 teaching license. See an adviser for the most current list and the necessary additional requirements.

English

The Department of English prepares English teachers for grades 5-12

Required professional courses are: C I 280A, 395; Engl 396, 397, 417, and 494.

Required content courses are: see Curriculum, English.

Students seeking to add English as an additional endorsement area must earn 46 credits in the following courses:

3 Advanced Writing: Engl 302, 303, 304, 305, 306, 309, 314, 315, 316

3 Rhetoric: Engl 310

3 Language: Engl 220

18 Literature: Engl 260; Engl 225; Engl 226; Engl 227; Engl 228; Engl 340's OR Engl 353 OR Engl 354

19 English Education: CI 395; Engl 396; Engl 397 and CI 280a; Engl 494 and CI 280a; SpEd 450

Students must earn grades of C or better in all of the above courses.

Family and Consumer Sciences

The Family and Consumer Sciences Program in the Department of Apparel, Educational Studies and Hospitality Management prepares Family and Consumer Sciences teachers for grades 5-12

For specific content area course requirements, see Curriculum, Family and Consumer Sciences Education and Studies.

Required professional courses are: FCEdS 206, 306, 318, 403, 413, 417A, and 417B.

Required content courses are: HD FS 102; 220 or 221 or 223 or 226; 276, 349, 283, 341 or 483 or 488; FS HN 111 and 167; T C 121 or 131 or 165 or 204; HD FS 239 or T C 342.

Health Education

The Department of Kinesiology prepares Health teachers for grades 5-12.

Required professional courses are: H S 375 and 417.

Required content courses are: Kin 258; H S 105, 110, 215, 305, 310, 350, 390; FS HN 167; HD FS 276, 373 or 377; Biol 255, 255L.

Students seeking approval for health education as an additional endorsement area must earn credits in the following courses: FS HN 167, HD FS 276, H S 110, 215, 305, 310, 350, 375, 390; Biol 255, 255L.

History-Social Sciences

The Curriculum and Instruction Department and the History Department share the responsibility for preparing History-Social Sciences teachers for grades 5-12.

Contact the History Department for specific information.

History-Social Sciences Education students must earn grades of C or better in all content and pedagogical coursework required for teacher licensure.

Mathematics

The Mathematics Department and the Curriculum and Instruction Department share responsibility for the preparation of Mathematics teachers for grades 5-12

For specific content area course requirements, contact Curriculum and Instruction Advising Office. Required professional courses are: CI 219, 280L, 280A, 480C, 497, 417C

Required content courses are: Math 165, 166, 201, 265, 266 or 267, 301, 317, 341, 397, 435, 436, Com S 107 or 207 or 227, and Stat 101.

Students wishing to add mathematics as an additional endorsement area or as a non-mathematics major with a major in one of the mathematical sciences, physical sciences, or engineering seeking a license to teach mathematics must take the following:

Math 165, 166, 201, 301, 317, 341, 397, 435, 436, Com S 107 or 207 or 227, Stat 101 and CI 480C, and 497.

Music

The Music Department prepares Music teachers for grades K-12.

For specific content area course requirements, see Curriculum, in Music.

Required professional courses are: Music 248, 266, 366, 367 or 368 or 490A, 464 or 465, 466, Music/C I 417K and 417L, Music/C I 480K.

Required content courses are: see Curriculum, in Music.

Physical Education

The Kinesiology Department prepares Physical Education teachers for grades K-12.

Kinesiology and Health (instead of Health and Human Performance)

Required professional courses are: KIN 280, 281, 312, 355, 358, 365 or 366, 372, 375, 395, 417, 418, 470, 475.

Required content courses are: see Curriculum, Kinesiology and Health

Physics

The Physics and Astronomy Department and the Curriculum and Instruction Department share the responsibility for preparing Physics teachers for grades 5-12

For specific content area course requirements, see Curriculum, Physics.

Required professional courses are: C I 280M, 347, 418, 419, 468J, 468K, 417B.

Required content courses are: Phys 221, 222, 311T, 399, 321. Select 12 credits from the following: Phys 302, 304, 306, 310, 321, 321L, 322, 322L, 361, 364, 365, 496; Astro 342, 344L, 346; Chem 324, 325, E E 201, 230; E M 274, 345, 378; M E 330, 231.

Students with an endorsement in a natural science who seek approval to teach physics as an additional endorsement area must complete one of the following sets of courses:

Phys 221, 222, 311T, 321, 321L, 399 (2 cr.),

OR Phys 111, 112, 302, 311T, 399 (2 cr.)

Students with no other natural science endorsement who seek approval to teach physics as an additional endorsement area must complete one of the two sets of courses listed above plus sufficient additional credits from the following list of courses to total 24 credits:

Phys 221, 222, 302, 304, 306, 310, 321, 321L, 322, 322L; Astro 342, 344L, 346; Chem 321, 324, 325; E E 441; E M 274, 345, 378; M E 330, 332.

Physical Science

The Department of Physics and Astronomy and the Department of Curriculum and Instruction share the responsibility for preparing Physical Science teachers for grades 5-12

Required professional courses are: C I 280M, 347, 418, 419, 468J, 468K, 417B.

Required content courses are: Phys 111, 112 or Phys 221, 222; Chem 163, 163L, 231, 231L; Astro 120, 150 or 342, 346; Geol 100, 100L; Mteor 206; Math 151 or 160 or 165 or 181; one course in biology; one additional course numbered 300 and above in astronomy and astrophysics, chemistry, meteorology, physics, or geology.

Students with an endorsement in a natural science who seek approval to teach physical science as an additional area must earn credits in the courses listed below. Students with no other science endorsement, but who seek an additional endorsement in this area, must take the listed courses plus additional credits in the area to total at least 24. See coordinator for approval prior to taking additional courses.

Astro 120 or 150 or 342 or 346
Chem 163, 163L
Geol 100, 100L
Mteor 206
Phys 111, 112; or 221, 222

World Languages and Cultures

The Department of World Languages and Cultures prepares World Language teachers for grades 5-12

World Language teachers can earn an endorsement in French, German, Latin, Russian or Spanish.

For specific content area course requirements, see Curriculum, World Languages and Cultures.

Required professional courses are: C I 280L, WLC/C I 480, WLC 417 and WLC 487.

Students seeking approval to teach a world language as their first endorsement must have a major in the target language. For an additional endorsement in a world language, students must earn 25 credits in that language. Nine (9) credits must be at the 300 level or above with six (6) of these credits in composition and conversation. Courses at the 100 level are not counted in the 25 required credits. For an endorsement in Latin, 10 of the 25 credits must be at the 300 or 400 level and must include Hist 430 (Cl St 403). All students seeking to teach a world language must demonstrate their proficiency in the language by taking the ACTFL OPI (Oral Proficiency Interview). Students are responsible for the cost of the administration of the OPI and must request that their scores from the OPI be added to their transcript.

Requirements for Additional Endorsements

Students may elect to add additional endorsements to their teaching license by completing the necessary requirements. All "Undergraduate Teacher Licensure Areas" listed above can be pursued as an additional endorsement. Below are the additional endorsements only options that require students to pursue one of the undergraduate, post-bachelor's or graduate teacher licensure areas listed above. Detailed requirements for any endorsement may be obtained from the University Teacher Education Office.

Art (grades K-8)

Students seeking an additional endorsement in Art (K-8) should see an adviser in the Department of Curriculum and Instruction.

Basic Science (grades K-8)

Students seeking an additional endorsement in Basic Science (K-8) should see an adviser in the Department of Curriculum and Instruction.

Coaching Interscholastic Athletics (grades K-12)

The Department Kinesiology offers courses that can lead to a K-12 athletic coach endorsement.

Students seeking approval for the Iowa State University endorsement to coach interscholastic athletics must satisfy the requirements of an endorsement area listed above and earn credits in the following:

Biol 155, Psych 230, KIN 220, and KIN 315

English and Language Arts (grades K-8)

Students seeking an additional endorsement in English and Language Arts (K-8) should see an adviser in the Department of Curriculum and Instruction.

English as a Second Language (grades K-12)

The Department of English offers courses that can lead to a K-12 ESL Teacher endorsement.

To add a K-12 teaching endorsement in English as a Second Language, students must fulfill the requirements of an endorsement area listed above and earn credits in the following courses. In some cases, relevant special topics courses or experimental courses may be substituted. Some courses have prerequisites.

Engl/Ling 219 or Engl/Ling 511
Engl/Ling 220
Engl/Ling 425 or Engl/Ling 517
Engl/Ling 514 or C I 420/520
Engl/Ling 518 or Engl/Ling 524 and Engl/Ling 525
Engl/Ling 588

General Science (grades 5-12)

General Science is an interdepartmental additional area of endorsement for grades 5-12

Students seeking approval to teach general science must earn credits in the following courses:

Biol 211, 211L, 212, 212L
Chem 177, 177L, 178, 178L, 231, 231L
Geol 100, 100L
Phys 111, 112; or 221, 222
Math 151 or 160 or 165 or 181

At least 6 credits from courses numbered 300 or above in astronomy and astrophysics, biochemistry and biophysics, biology, botany, chemistry, genetics, geology, meteorology, microbiology, or physics.

Health (grades K-8)

Students seeking an additional endorsement in Health (K-8) should see an adviser in the Department of Curriculum and Instruction.

History (grades K-8)

Students seeking an additional endorsement in History (K-8) should see an adviser in the Department of Curriculum and Instruction.

Mathematics (grades K-8)

Students seeking an additional endorsement in mathematics (K-8) should see an adviser in the Department of Curriculum and Instruction.

Middle School (grades 5-8)

Students seeking an additional endorsement in Middle School (5-8) should see an adviser in the Department of Curriculum and Instruction.

Reading (grades K-8, 5-12)

The Curriculum and Instruction Department offers courses that can lead to a reading endorsement for grades K-8. This department collaborates with the English Department to offer the necessary coursework for a 5-12 reading endorsement.

Students seeking an additional endorsement to teach elementary reading (K-8) should see a Department of Curriculum and Instruction.adviser.

Students seeking endorsement to teach reading (5-12) as an additional endorsement must earn credits in the following courses:

Foundations of Reading and Reading in the Content Area: C I 395/595 or CI 551 and C I/Engl 494.

Practicum: C I 488/588

Language Development: Engl 219 or 511

Reading Assessment and Oral Communication: C I 452/552

Written Communication: C I 395/595 and Engl 397

Adolescent Nonfiction and Fiction: Engl 396 or C I 554

Reading Instructional Strategies: C I 456/556 or 553

Social Sciences (grades K-8)

Students seeking an additional endorsement in Social Sciences (K-8) should see an adviser in the Department of Curriculum and Instruction

Special Education (grades K-8, 5-12, K-12)

The Department of Curriculum and Instruction offers courses that can lead to special education endorsements (Instructional Strategist I: Mild/Moderate Disabilities (grades K-8 and grades 5-12) and Instructional Strategist II: Behavior Disorders/Learning Disabilities (K-12)). Students seeking 5-12 special education endorsement must have a current teaching license.

Students seeking an additional K-8 endorsement to teach special education should see an adviser in the Department of Curriculum and Instruction.

Speech Communication (grades 5-12)

The Department of Speech Communication offers courses that can lead to 5-12 speech/theatre endorsement.

Students seeking endorsement to teach speech as an additional area must earn credits in the following courses:

Sp Cm 110 or ComSt 102, Sp Cm 212, 313, 322, 412, 495A, 495B;

Thtre 255 or 360 or 455; Thtre 358; JI MC 101.

World Languages and Cultures (French, German, Latin, Russian, and Spanish) (grades K-8)

Students seeking an additional endorsement World Languages and Cultures (K-8) should see an adviser in the Department of Curriculum and Instruction.

Master's Programs that Lead to Initial Teacher Licensure

Agricultural Education

The Agricultural Education and Studies Department offers a Master's of Science program that prepares Agricultural Education teachers for grades 5-12

See coordinator for program requirements.

Mathematics

The Curriculum and Instruction Department offers a Master's of Education program that prepares Mathematics teachers for grades 5-12

See coordinator for program requirements.

Physical Education

The Department of Kinesiology offers a Master's of Science program that prepares Physical Education teachers for grades K-12.

See coordinator for program requirements.

Secondary Sciences

The Department of Curriculum and Instruction offers a Master's of Arts in Teaching program that prepares Secondary Science teachers for grades 5-12

See coordinator for program requirements.

Technology and Social Change

Advisory Committee: Eric Abbott, coordinator; Robert Mazur, graduate coordinator.

Undergraduate Study

Technology and social change is a cross-disciplinary program examining the relationships between technologies and the social and cultural environments. The program has a national and international perspective, with courses addressing the interrelationships, policies, and impacts created by the international exchange of technologies. Through T SC, students will better understand the institutional and sociocultural consequences of technological change from differing perspectives and will become sensitive to the issues attending the use of technology to improve people's lives. Work in the program can also serve as preparation for advanced study in this field.

The program requirement for a minor in technology and social change is a minimum of 15 credits. One of the courses must be T SC 341. An additional 3 credits must be taken from T SC cross-listed courses. The remaining 9 may be selected from T SC cross-listed courses or from the list of T SC approved courses. At least 9 of the 15 credits must be in courses numbered 300 or above. Because technology and social change is an interdisciplinary study, minor programs must include coursework in at least two departments. Students seeking a minor should develop a specific program of courses either with the T SC faculty representative in their department or with the T SC coordinator. The student's minor program must be approved by the T SC program coordinator.

T SC courses are listed below. The list of T SC approved courses is available from the program coordinators. Through the program coordinator, students may petition for approval of courses not on the approved list that address matters relevant to technology and social change.

Graduate Study

The graduate minor in technology and social change is a cross-disciplinary program that enables students to study the interactions between technologies and their users, on both societal and individual levels. The minor strengthens the ability of students to apply differing perspectives in understanding the effects of the global exchange of technologies and to heighten their sensitivity to the institutional and sociocultural issues attending the use of technology to improve people's lives.

Students choosing to minor in technology and social change will pursue a degree program in the major department. In consultation with their major professor, students are to identify a T SC Faculty member to serve on the committee guiding their program of study. This T SC Faculty member must be on the Graduate faculty and must be from a discipline outside the major field of study. With the agreement of the POS committee, the student declaring a minor in T SC will select a group of courses from the list of T SC approved courses available through the program coordinators. For the master's degree, this group should be at least 9 credits; for a doctoral degree, the group should be at least 15 credits. In either case, T SC 543 is required. Students may not include in their minor any courses from their own major. All programs of study that include a T SC minor must be approved by the T SC Program coordinator.

Courses primarily for undergraduate students

T SC 341. Technology: International, Social, and Human Issues. (3-0) Cr. 3. F. *Prereq: Junior classification.* An interdisciplinary study of the international significance of technology and of the societal and human issues attending its development and adoption.

T SC 342. World Food Issues: Past and Present. (Cross-listed with Agron, Env S FS HN). (3-0) Cr. 3. F.S. *Prereq: Junior classification.* Zdorkowski, Ford. Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects. Nonmajor graduate credit.
H. Honors Section. (Honors Program students only.)

T SC 343. Philosophy of Technology. (Cross-listed with Phil). (3-0) Cr. 3. F.S. *Prereq: 6 credits of social science or T SC 341 and 3 credits of social science.* Moral and other philosophical problems related to developments in technology. Topics may include conditions under which technological innovations contribute to human emancipation, relationship of technology and democracy, utility and limits of technical rationality, and problems of ensuring that benefits of technological advance are communally shared. Topics discussed with reference to such issues as contemporary developments in microelectronics, technology transfer to the Third World, etc. Nonmajor graduate credit.

T SC 474. Communication Technology and Social Change. (Cross-listed with JI MC). (3-0) Cr. 3. *Prereq: Junior classification.* Examination of historical and current communication technologies, including how they shape and are shaped by the cultural and social practices into which they are introduced.

T SC 490. Independent Study. Cr. arr. Repeatable. *Prereq: 341, permission of instructor and of T SC coordinator.*

Courses primarily for graduate students, open to qualified undergraduate students

T SC 543. Technological Innovation, Social Change, and Development. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 6 credits in social sciences.* Sources, theories and models of technological innovation; social and institutional contexts of technology transfer; appropriate/intermediate technology; issues and methods of impact assessment; planning technology related social change; democratic control of technological innovations and application; local and international case studies.

T SC 574. Communication Technologies and Social Change. (Cross-listed with JI MC). (3-0) Cr. 3. *Prereq: 6 credits in social science.* Personal, organizational, and social implications of the use of communication technologies. Includes theories and empirical research across the continuum of perspectives, from techno-utopianism through an anti-technology stance.

T SC 590. Special Topics: Technology and Social Change. Cr. arr. *Prereq: 541, permission of instructor and of T SC coordinator.* Individual study of topics concerning global and local implications of technological change.

Technology Systems Management

(Administered by the Department of Agricultural and Biosystems Engineering)

Rameshwar Kanwar, Chair of Department

Distinguished Professor: Brown

Distinguished Professor (Emeritus): H. Johnson

University Professor: Bern

University Professors (Emeritus): Baker

Professors: Chen, Downing, Glanville, Harmon, Hoff, Hurburgh, L. Johnson, Kanwar, Misra, Schwab, Van Leeuwen, Xin

Professors (Emeritus): Beer, Bekkum, Buchele, Bundy, Hazen, Hoerner, Keeney, Lovely, Maney, Mangold, Marley, Melvin, Miller, Pedersen, Riley, R. Smith

Professor (Collaborator): Laflen

Associate Professors: Anex, Bhandari, Birrell, Brumm, Burns, Freeman, Koziel, Mickelson, Raman, Steward, Tim

Associate Professors (Emeritus): Anderson, Greiner, Lorimor

Associate Professor (Collaborator): Han

Assistant Professors: , Grewell, Helmers, Kaleita-Forbes, Keren, Kim, Soupir, Tang, Yu

Assistant Professors (Emeritus): Boyd, Bradshaw

Assistant Professors (Adjunct): Inyang, Shahan, Tong

Assistant Professors (Collaborators): Dunn, Malone

Lecturer: Snell

Undergraduate Study

The Department of Agricultural and Biosystems Engineering offers work for the bachelor of science degree with majors in agricultural systems technology and industrial technology, (see *College of Agriculture, Curricula*).

Missions: The mission of the Agricultural Systems Technology program is to prepare women and men for careers that integrate and apply agricultural and biosystems engineering technology to manage human and natural resource systems for producing, processing, and marketing food and other biological products worldwide.

The mission of the Industrial Technology is to prepare women and men for careers that integrate and apply industrial technology to lead and manage human, manufacturing, and safety systems.

Objectives: At two to five years after undergraduate graduation, through the professional practice in technology, graduates should:
1. Have demonstrated competence in methods of analysis involving use of mathematics, fundamental physical and biological sciences, technology, and computation needed for the professional practice in the field of agricultural systems technology or industrial technology.

2. Have developed skills necessary to contribute to the design process; including the abilities to think creatively, to formulate problem statements, to communicate effectively, to synthesize information, and to evaluate and implement problem solutions.
3. Be capable of addressing issues of ethics, safety, professionalism, cultural diversity, globalization, environmental impact, and social and economic impact in professional practice.
4. Have demonstrated continuous professional and technical growth, with practical experience, so as to be licensed in their field or achieve that level of expertise, as applicable.
5. Have demonstrated the ability to:

a. be a successful leader of multi-disciplinary teams.
b. efficiently manage multiple simultaneous projects.
c. work collaboratively.
d. implement multi-disciplinary systems-based solutions.
e. to apply innovative solutions to problems through the use of new methods or technologies.
f. contribute to the business success of their employer, and
g. build community.

Outcomes: At the time of graduation, students of the Agricultural Systems Technology or Industrial Technology programs should have:

a) an ability to apply knowledge of mathematics, science, technology, and applied sciences;
b) an ability to design and conduct experiments, as well as to analyze and interpret data;
c) an ability to formulate or design a system, process or program to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability;
d) an ability to function on multi-disciplinary teams;
f) an understanding of professional and ethical responsibility;
g) an ability to communicate effectively;
h) the broad education necessary to understand the impact of solutions in a global, economic, environmental, and societal context;
i) a recognition of the need for, and an ability to engage in life-long learning;
j) a knowledge of contemporary issues; and
k) an ability to use the techniques, skills, and modern scientific and technical tools necessary for professional practice.

Graduates have developed and demonstrated workplace competencies, and have completed a professional internship. They are able to communicate effectively, have problem-solving skills and awareness of global, economic, environmental and societal issues.

Agricultural Systems Technology graduates have the ability to apply science and technology to problems related to agriculture; they manage complex agricultural systems for sustainability. They find careers within a variety of agriculturally-related industries, businesses, and organizations, including: agricultural machinery, environment, government, farm builders, grain, feed, seed, fertilizer, chemical, food, biorenewable resources, and production agriculture.

Industrial Technology graduates understand commonly-used manufacturing processes, lean manufacturing principles, continuous improvement, quality management, safety, regulatory issues affecting manufacturing, and the properties of manufacturing materials. They find careers within a variety of industries, businesses, and organizations focusing in manufacturing (e.g., quality control, production supervision, and process and facility planning) or occupational safety (e.g., development, management, and evaluation of safety programs and systems; and hazard identification and mitigation).

Certificate: The Department of Agricultural and Biosystems Engineering offers a undergraduate certificate in occupational safety which may be earned by completing a minimum of 20 credits of technology systems management courses, which includes TSM 27, 272,370, 372, 470, and 493D, plus an additional 6 credits from a departmentally approved list.

Minors: The Department of Agricultural and Biosystems Engineering offers a minor in agricultural systems technology which may be earned by completing a minimum of 15 credits of technology systems management courses, which includes TSM 115 and 210, plus an additional 9 credits from a departmentally approved list.

The Department of Agricultural and Biosystems Engineering also offers a minor in industrial technology which may be earned by completing a minimum of 18 credits of technology systems management courses, which includes TSM 115 and 210, plus an additional 12 credits from a departmentally approved list.

For the undergraduate curriculum in agricultural systems technology leading to the degree of bachelor of science or for the undergraduate curriculum in industrial technology leading to the degree of bachelor of science, see *College of Agriculture, Curricula*.

The department also offers an undergraduate curricula and courses in agricultural engineering, biological systems engineering, see *College of Engineering, Curricula*.

Graduate Study

The department offers work for the degrees master of science, and doctor of philosophy with a major in industrial and agricultural technology. It cooperates in the interdepartmental programs in professional agriculture, sustainable agriculture, environmental sciences, biorenewable resources and technology, and human computer interaction.

The master's program prepares advanced practicing professionals for industrial and/or agricultural technology positions in industry, business, and public service; it also provides a sound foundation for further graduate study. The doctoral program prepares exemplary industrial and/or agricultural technology professionals for learning, discovery, engagement, and leadership roles in education, industry, business, and public service organizations.

The department also offers work for the degrees master of science, master of engineering, and doctor of philosophy with a major in agricultural engineering. See *College of Engineering, Curricula*.

Visit our departmental website at www.abe.iastate.edu.

Courses primarily for undergraduate students.

TSM 110. Introduction to Technology. (1-0) Cr. 1. F. *Prereq: AST and I Tec majors only or permission of instructor.* Team-oriented introduction to agricultural systems technology and industrial technology. Report writing, internships, careers, competencies, academic success strategies, industry visits, transition to academic life.

TSM 111. Experiencing Technology. (0-2) Cr. 1. S. *Prereq: AST or I Tec majors only or permission of instructor.* Laboratory-based, team-oriented experiences in a spectrum of topics common to the practice of technology. Report writing, internships, competencies, portfolios, industry visits.

TSM 112. Orientation to Learning and Productive Team Membership. (Cross-listed with Aer E, FS HN, Hort, NREM). (2-0) Cr. 2. F. Introduction to developing intentional learners and worthy team members. Learning as the foundation of human enterprise; intellectual curiosity; ethics as a personal responsibility; everyday leadership; effective team and community interactions including team learning and the effects on individuals; and growth through understanding self, demonstrating ownership of own learning, and internalizing commitment to helping others. Intentional mental processing as a means of enhancing learning. Interconnectedness of the individual, the community, and the world.

TSM 114. Developing Responsible Learners and Effective Leaders. (Cross-listed with FS HN, Hort, NREM). (2-0) Cr. 2. S. Focus on team and community. Application of fundamentals of human learning; evidence of development as a responsible learner; intentional mental processing as a habit of mind; planning and facilitating learning opportunities for others; responsibility of the individual to the community and the world; leading from within; holding self and others accountable for growth and development as learners and leaders.

TSM 115. Solving Technology Problems. (2-2) Cr. 3. F.S. *Prereq: Math 140 or higher (can be taken concurrently).* Solving technology problems and presenting solutions through technical reports. Unit conversions, unit factor method, SI units, significant digits, graphing and curve fitting. Use of spreadsheet programs to solve and present technology problems. Solution of technology problems using computer programming languages.

TSM 116. Introduction to Design in Technology. (2-2) Cr. 3. F.S. 2D projections and 3D representations of objects, national and international standards for documentation, manufacturing processes, design projects, and teamwork. Free-hand sketching techniques and parametric solid modeling will be covered.

TSM 201. Entrepreneurship and Internship Seminar. (Cross-listed with A E, BSE). (1-0) Cr. 1. F.S. *Prereq: Sophomore classification in AE, AST, or I Tec.* 8 week course. Overview of the entrepreneurial process and its importance in the economy and the engineering/ technical workplace. Preparation for internship experiences. Relationship of workplace competencies to entrepreneurship, intrapreneurship, and internships; portfolios.

TSM 210. Fundamentals of Technology. (3-0) Cr. 3. F.S. *Prereq: 115 (may be taken concurrently) or equivalent, Math 140 or higher.* Introduction to problem solving related to fundamental agricultural and/or industrial technology systems. Basic laws of energy, force, and mass applied to technology systems such as: mechanical power transmission; equipment calibration; environmental and natural resources; heating, ventilation and air conditioning; electrical circuits. Using the time value of money to make economic decisions.

TSM 216. Advanced Technical Graphics, Interpretation, and CAD. (2-2) Cr. 3. F.S. *Prereq: 116.* Advanced design systems incorporating 2D and 3D design and productivity tools for use in manufacturing settings. Topics include: Geometric Dimensioning and Tolerancing, 3D models, welding symbols, advanced visualization, design modeling of parts and assemblies, feature based design. Use of AutoCAD and parametric modeling software.

TSM 240. Introduction to Manufacturing Processes. (1-4) Cr. 3. F. A study of selected materials and related processes used in manufacturing. Lecture and laboratory activities focus on materials, properties, and processes. This includes plastics and metals.

TSM 270. Principles of Injury Prevention. (3-0) Cr. 3. F. Basic foundations of injury causation and prevention in home, motor vehicle, public, and work environments.

TSM 272. Occupational Safety Management. (2-0) Cr. 2. F. Introduction to occupational safety and health administration and management. Focus on development and management of safety programs and obtaining employee involvement in occupational safety programs.

TSM 276. Fire Protection and Prevention. (3-0) Cr. 3. F. An overview of the current problems and technology in the fields of fire protection and fire prevention, with emphasis on industrial needs, focusing on the individual with industrial safety responsibilities.

TSM 301. Leadership and Ethics Seminar. (Cross-listed with A E, BSE). (1-0) Cr. 1. F.S. *Prereq: 201.* 8 week course. Leadership and ethics experiences through case studies and seminar presentations by practitioners. Relationship of workplace competencies to leadership and ethics; portfolios.

TSM 310. Total Quality Improvement. (3-0) Cr. 3. S. *Prereq: Stat 101 or 104, junior classification.* Introduction to the fundamental concepts of TQM - Deming style of management, statistical studies to understand the behavior of products, processes, or services, and how to define and document processes and customer focus. Introduction to continuous improvement tools and methods - DMAIC, SPC, and Design of experiments; emphasis on team work and problem solving skills.

TSM 322. Preservation of Grain Quality. (2-3) Cr. 3. S. *Prereq: Math 140 or higher.* Principles and management for grain quality preservation. Grain drying and storage. Fans and airflow through grain. Grain handling methods and system planning. Grain quality measurement and end-use value analysis.

TSM 324. Soil and Water Conservation Management. (2-3) Cr. 3. S. *Prereq: Math 140 or 160.* Introduction to engineering and conservation principles applied to the planning of erosion control systems, water control structures, water quality management, and drainage and irrigation systems.

TSM 325. Biorenewable Systems. (Cross-listed with A E, Agron, An S, BusAd, Econ). (3-0) Cr. 3. F. *Prereq: Econ 101, Chem 155 or higher, Math 140 or higher.* Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, transportation/logistics, and marketing.

TSM 327. Animal Production Systems. (3-0) Cr. 3. F. *Prereq: 210.* Confined animal feeding operations. Environmental controls for animal production. Response of animals to the environment. Heat and moisture balance in animal housing. Ventilation, water, feed handling, air pollution, odor and waste management systems.

TSM 330. Agricultural Machinery and Power Management. (2-3) Cr. 3. F.S. *Prereq: 210, Math 142 or 160.* Selection, sizing, and operational principles of tractors and machinery systems. Cost analysis and computer techniques applied to planning and management of agricultural machine systems. Principles, operation, and application of agricultural machinery.

TSM 333. Precision Farming Systems. (2-2) Cr. 3. F. *Prereq: Math 140 or 160, junior or senior classification.* Geographic information systems and global positioning systems. Sampling strategies for precision farming. Building prescriptions and recommendations. Systems for precision farming, equipment, software uses, legal and social issues, and economics. Only one of TSM 333 and 433 may count toward graduation.

TSM 335. Tractor Power. (3-3) Cr. 4. F. *Prereq: 210, Math 142.* Theory and construction of tractor engines, mechanical power trains and hydraulic systems. Introduction to traction, chassis mechanics, and hydraulic power.

TSM 337. Fluid Power Systems Technology. (2-2) Cr. 3. S. *Prereq: 210.* Fundamental fluid power principles. Fluid properties. Function and performance of components such as pumps, valves, actuators, hydrostatic transmission and continuously variable transmissions. Basic analysis of fluid power systems. Introduction to electrohydraulics.

TSM 340. Advanced Automated Manufacturing Processes. (2-2) Cr. 3. F. *Prereq: 216, 240.* NC programming operations for CNC mills and lathes. Transfer of parts descriptions into detailed process plans, tool selection, and NC codes. Computer assisted CAD/CAM NC programming for 2D/3D machining.

TSM 363. Electric Power and Electronics for Agriculture and Industry. (3-3) Cr. 4. F. *Prereq: 210, Physics 112.* Basic electricity. Electrical safety, wiring, 3-phase service, controls, and motors for agricultural and industrial applications. Planning building electrical systems. Electronics to sense, monitor, and control mechanical processes: semiconductors, digital logic circuits; speed, pressure, position, temperature, and moisture sensors. Nonmajor graduate credit.

TSM 370. Occupational Safety. (3-0) Cr. 3. S. *Prereq: 270, junior standing.* Identifies safety and health risks in industrial work environments. Focus on how managers and supervisors meet their responsibilities for providing a safe workplace for their employees. Includes the identification and remediation of workplace hazards. Nonmajor graduate credit.

TSM 372. Legal Aspects of Occupational Safety and Health. (2-0) Cr. 2. F. *Prereq: 272.* Legal implications of legislation as it applies to health and safety in the workplace. Includes OSHA regulations, worker's compensation, and workplace liability.

TSM 397. Internship in Technology. Cr. R. F.S.SS. *Prereq: At least 45 credits of coursework, in AST or I Tec major, and approval of internship coordinator.* A supervised work experience in an approved learning setting with application to technology practices and principles. Reporting during work experience and self and employer evaluation required. Minimum GPA requirement.

TSM 399. Work Experience in Technology. Cr. 2. Repeatable. F.S.SS. *Prereq: 397 and approval of instructor.* Written reports and reflection on work experience. A maximum of 4 credits of TSM 399 maybe be used toward the total credits required for graduation.

TSM 401. Professionalism Seminar. (Cross-listed with A E, BSE). (1-0) Cr. 1. F.S. *Prereq: 301.* 8 week course. Examination of professionalism in the context of engineering and technology. Time, project and personnel management. Communications and professional portfolios. Professional licensure. Transition to professional careers.

TSM 408. Interdisciplinary Problem Solving. (Cross-listed with I E, E E). (3-0) Cr. 3. F.S. *Prereq: Junior or senior classification.* Use of the Theory of Constraints as a way of approaching problem solving, win-win negotiation, project planning and effective delegation in the context of engineering/business systems. Team projects aimed at improving design outcomes. Nonmajor graduate credit.

TSM 409. Interdisciplinary Systems Effectiveness. (Cross-listed with I E, E E). (3-0) Cr. 3. F.SS. *Prereq: Junior or senior classification.* Focus on functions that determine the effectiveness of an entire organization. Generic Theory of Constraints solutions to production, distribution, and project management are compared to traditional solutions. Strategy for improvements discovered using simulations. Nonmajor graduate credit.

TSM 415. Technology Capstone I. (1-2) Cr. 2. F.S. *Prereq: senior classification.* Team development, communications, and responsibilities. Identification of current technological problems in agricultural and industrial systems. Development of alternate solutions using creativity, critical analysis, and planning techniques.

TSM 416. Technology Capstone II. (1-2) Cr. 2. F.S. *Prereq: 415.* Selection of promising potential solutions to technology problems identified in 415 for development and analysis by student teams. Presentation of project through oral presentations, written reports, and working prototypes.

TSM 424. Impacts of Agriculture on Water Quality. (3-0) Cr. 3. F. *Prereq: Math 140 or 160, one of the following: 324, Agron 154.* Water use and water quality standards; characteristics of surface and groundwater resources; types of agricultural water pollutants and their impacts on water quality; how agricultural pollutants move and enter water resources; management practices to reduce ag pollutant movement and protect water resources. Nonmajor graduate credit.

TSM 433. Precision Farming Systems Advanced Concepts and Applications. (3-0) Cr. 3. F. *Prereq: Math 140 or equivalent, admission to Master of Agriculture program.* Technologies for precision resource management. Geospatial information technologies for precision agriculture (geographic information systems, global positioning systems, remote sensing systems). Sensing and sampling strategies in precision agriculture. Building input recommendations. Systems for precision agriculture, equipment, software uses, legal and social issues, and production economics. Advanced concepts and the future of precision agriculture. Only one of TSM 333 and 433 may count toward graduation. Nonmajor graduate credit.

TSM 440. Cellular Lean Manufacturing Systems. (2-2) Cr. 3. F.S. *Prereq: 310, 340.* Reviews principles and concepts required for cellular manufacturing system design to meet customer demand in production, quality, on-time delivery, and continuously reducing manufacturing cost. Emphasis on applying lean manufacturing principles, simulation techniques, and Kaizen methodologies with hands-on projects.

TSM 443. Statics and Strength of Materials for Technology. (2-2) Cr. 3. F. *Prereq: AE 271 or 272; Phys 111.* Application of standard analytic and computer based techniques of solving problems related to force and moments. The properties of materials and how to select appropriate materials for a particular design is reviewed.

TSM 444. Facility Planning. (3-0) Cr. 3. F. *Prereq: 216 and 240; Stat 101 or 104.* Principles and practices in designing, evaluating, and organizing existing facilities or creating new facilities. Emphasis on AutoCAD-based new facility design project - product design, production flow analysis, activity relationship analysis, layout deployment, materials handling, office and other service requirement design, and the necessary cost analysis for the new facility.

TSM 445. Polymer and Composite Processing. (2-2) Cr. 3. S. *Prereq: 240 or equivalent.* Design and production of plastic parts including thermoplastics and thermoset/composites. A study of plastic properties and their relationships to processing parameters and control techniques. Applying advanced CAE technology to check process feasibility, determine optimal process conditions, evaluate part and mold designs, and estimate the cost of plastic injection processes.

TSM 465. Automation Systems. (2-2) Cr. 3. S. *Prereq: 363.* Theory and applications of automation systems. Emphasizes features, capabilities, design and programming skills of Programmable Logic Controller (PLC) based industrial control systems. Introduction to industrial robots and sensors.

TSM 470. Industrial Hygiene: Physical, Chemical, and Biological Hazards. (3-0) Cr. 3. S. *Prereq: 272; Math 160 or higher.* A qualitative and quantitative introduction to health effects of chemical, biological, and physical hazards in a workplace. Nonmajor graduate credit.

TSM 471. Safety Laboratory. (0-2) Cr. 1. S. *Prereq: 470 (can be taken concurrently).* Introduction to equipment, methods, and strategies to measure, evaluate, control, and research hazards and risk in the workplaces.

TSM 477. System Safety Analysis. (Dual-listed with 577). (3-0) Cr. 3. F. *Prereq: Math 160, Stat 101 or 104.* System safety focuses on developing a safety oriented pattern of thinking that is appropriate for today's complex systems. The tools that will be gained in this course will be helpful in recognizing, understanding, and analyzing hazards and risks in modern complex systems.

TSM 481. Conversion of Lignocellulosic Materials. (Cross-listed with FOR). (2-3) Cr. 3. F. *Prereq: For 280 or TSM 210 or A E 215 or equivalent.* Conversion of Lignocellulosic Materials. (Cross-listed with TSM.) (2-3) Cr. 3. F. Prereq: 280 or TSM 210 or A E 216 or equivalent. Chemical properties of lignocellulosic materials. Wood chemistry. Various conversion processes. Pulp and paper technology. Biobased products. Other fiber products. Cellulose derivatives. Term paper and/or student project required for graduate level. Nonmajor graduate credit.

TSM 490. Independent Study. Cr. arr. Repeatable. *Prereq: Junior or senior classification, permission of instructor, and completion of an independent study contract and approval by department.* A maximum of 4 credits of TSM 490 may be used toward the total credits required for graduation.
H. Honors
I. Manufacturing
J. Agriculture and Biosystems Management
M. Machine Systems
O. Occupational Safety

TSM 491. Seed Science Internship Experience. (Cross-listed with Agron, Hort). Cr. arr. Repeatable. F.S.SS. *Prereq: Agron 338, advanced approval and participation of employer and instructor.* A professional work experience and creative project for seed science secondary majors. The project requires prior approval and participation of the employer and instructor. The student must submit a written report.

TSM 493. Workshop in Technology. Cr. arr. Repeatable. Offered as demand warrants.
A. Agriculture and Biosystems Management
B. Machine Systems
C. Manufacturing
D. Occupational Safety

Courses primarily for graduate students, open to qualified undergraduate students

TSM 540. Advanced Design and Manufacturing. (3-0) Cr. 3. S. *Prereq: Permission of instructor.* Application of six sigma philosophy to advance product design and process control. Application of value steam mapping to the existing manufacturing system to develop future continuous improvement plans. Application of Taguchi Parameter design methodologies for optimizing the performance of manufacturing processes. Application of Taguchi Tolerance Design methodologies for product design.

TSM 541. Comprehensive Modern Manufacturing Systems. (3-0) Cr. 3. SS. *Prereq: Permission of instructor.* The study, design, and implementation of PULL manufacturing systems and their integration with functions of the production system for the manufacture of superior quality, low cost products. Topics include lean manufacturing system design, cost estimation/justification, JIT manufacturing, integrated quality and process control, automation, and CAD/CAM.

TSM 545. Manufacturability of Plastics. (2-2) Cr. 3. *Prereq: Permission of instructor.* Overview of current business environment and issues related to design for manufacturability of plastic products. Provide understanding of available materials and processes in manufacturing plastic parts. Utilize injection molding for an in-depth study of five elements for making successful plastic products; consumer input, part design, mold design, material selection, and manufacturing process. Computer-aided engineering exercises and laboratory practices included.

TSM 575. Safety and Public Health Issues in Modern Society. (2-0) Cr. 2. Exploration and analysis of current safety and public health issues impacting society. The focus will be on topics that impact individuals in work, public, and home environments.

TSM 577. System Safety Analysis. (Dual-listed with 477). (3-0) Cr. 3. F. *Prereq: Math 160, Stat 101 or 104.* System safety focuses on developing a safety oriented pattern of thinking that is appropriate for today's complex systems. The tools that will be gained in this course will be helpful in recognizing, understanding, and analyzing hazards and risks in modern complex systems.

TSM 590. Special Topics in Technology. Cr. arr. Repeatable. *Prereq: Graduate classification in industrial and agricultural technology, permission of instructor, and completion of an independent study contract approved by major professor.*
A. Agriculture and Biosystems Management
B. Machine Systems

C. Manufacturing
D. Occupational Safety

TSM 593. Workshop in Technology. Cr. arr. Repeatable. *Prereq: Permission of instructor.*

TSM 598. Technical Communications for a Master's Degree. (Cross-listed with A E). Cr. 1. F.S.SS. A technical paper draft based on the M.S. thesis or creative component is required of all master's students. This paper must be in a form that satisfies the requirements of some specific journal and be ready for submission. A technical presentation based on M.S. thesis or creative component is required of all master's students. This presentation must be in a form that satisfies the normal presentation requirements of a professional society. The presentation itself (oral or poster) may be made at a professional society meeting or at any international, regional, state, or university conference/event as long as the presentation content and form conforms to normal expectations. Satisfactory-fail only.

TSM 599. Creative Component. Cr. arr. Repeatable. A discipline-related problem to be identified and completed under the direction of the program adviser. Three credits required for all nonthesis master's degree students.

Courses for graduate students

TSM 601. Graduate Seminar. (Cross-listed with A E). (1-0) Cr. 1. F. Keys to writing a good MS thesis or PhD dissertation. How to begin formulating research problems. Discussion of research problems, review of literature, research hypothesis, objectives, methods, procedures, and reports. Research grant proposals, patents and intellectual property rights, and international research centers of excellence will be discussed.

TSM 652. Program and Learner Evaluation. (3-0) Cr. 3. *Prereq: Stat 401 or equivalent.* Techniques for evaluating learners, facilities, programs, and staff utilizing theories for developing measurement instruments. Outcomes assessment is emphasized.

TSM 655. Academic Leadership in Technology and Engineering. (3-0) Cr. 3. *Prereq: Permission of instructor.* A definition of the faculty role in technology and engineering disciplines, including strategies for dealing with programs, personnel, and constituencies are presented. Leadership skills involving team formation, team operation, and conflict resolution are addressed.

TSM 657. Curriculum Development in Technology and Engineering. (3-0) Cr. 3. *Prereq: Permission of instructor.* Basic concepts, trends, practices, and factors influencing curriculum development, techniques, organization and procedures. Emphasis will be given to program and course development.

TSM 694. Teaching Practicum. (Cross-listed with A E). Cr. arr. Repeatable. F.S.SS. *Prereq: Graduate classification and permission of instructor.* Graduate student experience in the agricultural and biosystems engineering departmental teaching program.

TSM 697. Internship in Technology. Cr. R. *Prereq: permission of major professor and approval by department chair, graduate classification.* One semester and one summer maximum per academic year professional work period. Satisfactory-fail only.

TSM 698. Technical Communications for a Doctoral Degree. (Cross-listed with A E). Cr. 1. F.S.SS. A technical paper draft based on the dissertation is required of all Ph.D. students. This paper must be in a form that satisfies the requirements of some specific journal and be ready for submission. A technical presentation based on the dissertation is required of all Ph.D. students. This presentation must be in a form that satisfies the normal presentation requirements of a professional society. The presentation itself (oral or poster) may be made at a professional society meeting or at any international, regional, state, or university conference/event as long as the presentation content and form conforms to normal expectations. Satisfactory-fail only.

TSM 699. Research. Cr. arr.

TSM 698. Technical Paper for a Doctoral Degree. (Cross-listed with A E). Cr. 1. F.S.SS. A technical paper draft based on dissertation is required of all Ph.D. students. This paper must be in a form that satisfies the requirements of some specific journal. Satisfactory-fail only.

TSM 699. Research. Cr. arr.

Textiles and Clothing

(Administered by the Department of Apparel, Educational Studies, and Hospitality Management)

Robert Bosselman, Chair of Department

Distinguished Professors (Emeritus): Fanslow, Moyer, Winakor

University Professor (Emeritus): Farrell-Beck

Professors: Bosselman, Damhorst, Fiore, Kadolph

Professors (Emeritus): Anderson, Beavers, Brun, Burnet, Cowan, Crabtree, Gilmore, Smith, Stone, Williams

Associate Professors: Baltzer, Hausafus, Niehm, Parsons

Associate Professors (Emeritus): Amos, Brackelsberg, Brown, Ebert, Huss, Kundel, Kunz, Walsh

Associate Professor (Adjunct): Strohbehn

Assistant Professors: Barker, Hurst, Karpova, Keino, Y. Lee, Marcketti, Rajagopal, Wohlsdorf-Arendt, Zheng

Assistant Professor (Adjunct): Glock

Instructor (Adjunct): Fratzke

Lecturers: Ackerman, Burger, Christensen, Fiihr, Fitzpatrick, Kramer, M. Lee, Sanger, Trost, Wirth, Wise

Undergraduate Study

The program offers study for the degree of bachelor of science with a major in apparel merchandising, design, and production (AMDP). The program offers students a broad understanding of textile and apparel products, merchandising and marketing strategies, technical and creative design, product development, production processes, and business practices leading to a wide range of careers at state, national, and international levels in business and industry. Courses in the program provide scientific, technical, and humanistic knowledge about textiles, apparel, and related products basic to career preparation. Courses also provide knowledge applicable to the development and use of apparel and textile products by individuals, families, and institutions. The program provides a foundation for graduate study. Graduates understand the production, distribution, and use of textiles and apparel, aesthetic expression, and communication. They are prepared to plan, develop, and present textile and apparel products to meet the needs of consumers. They understand the issues involved in textile and apparel production and marketing, both nationally and internationally. Graduates appreciate the interdependence of nations and cultures as producers and consumers of textile products.

The AMDP major provides a broad-based program of study with flexibility in creating an individualized program. To complete the program, a student combines general education, AMDP core classes, and structured clusters of courses to form an option in merchandising, creative design, technical design, product development, or production and sourcing management.

An option in merchandising prepares students for the planning, development, and presentation of market-oriented product lines and events. Career opportunities are in product development, buying, promotion, and management in both manufacturing and retailing sectors with a focus on the textile and apparel industry. An option in creative design is appropriate for those interested in the aesthetic and creative aspects of design, product or line development, or promotion of textiles and apparel. The option in technical design prepares students for careers in technical design, product development, and quality assurance. An option in product development is appropriate for those interested in both designing and merchandising products or lines for consumer groups. Students in design have a review of their design skills after T C 225 and T C 278.

An option in production and sourcing management prepares students for positions related to apparel engineering, plant management, quality assurance, costing, product development, sourcing, and buying piece goods or trim for apparel manufacturing or retailing firms.

In addition, a student in merchandising or production and sourcing management selects a secondary option from business and entrepreneurship, consumer behavior/marketing, communications/publications, history/museum studies, human resource management, international trade, or public relations/event management. The combinations of primary and secondary options allow students to individualize their programs.

For additional courses of interest, see Apparel, Educational Studies, and Hospitality Management.

The program offers a minor in apparel merchandising, design, and production. The minor can be earned by taking T C 131 or 165; 204; 231, 245, or 275; 6 credits at the 300-400 level; for a total of 16 to 17 credits.

Grade point requirement: All students majoring in apparel merchandising, design, and production are required to earn a C– or better in all AESHM and T C courses applied toward the degree, including transfer credits.

Graduate Study

The program offers work for the master of science and doctor of philosophy with a major in textiles and clothing. The program also participates in the Master of Family and Consumer Sciences degree by offering a specialization within that program. For all programs the field of study is highly interdisciplinary; programs of study are tailored to students' background and interests.

Graduates understand how textiles and apparel are essential in meeting individual and societal needs and understand the interdependence of nations and cultures as producers and consumers. Graduates understand diverse philosophies of scholarship and apply multiple methods to creative activity, research, and teaching. Strong writing and oral communication skills help graduates disseminate scholarship and compete successfully for awards and grants.

Graduates accept positions relevant to their academic experience. All doctoral graduates have teaching experience. Masters and doctoral graduates have experience working in team-oriented and interactive environments. Graduates are prepared to adapt to future changes in their professions and to provide leadership in professional and public practice. They bring a strong sense of ethics to research, teaching, and business endeavors.

Program emphases for graduate study include consumer behavior; entrepreneurship; merchandising and marketing aspects of textiles and clothing; acquisition and use of textiles and apparel within cultures; U.S. dress and textiles from the 19th into the 21st centuries; textiles; social/psychological aspects of dress; aesthetics and design; product quality and development; textile conservation; and computer-aided design.

The program participates in the interdepartmental gerontology minor.

Courses primarily for undergraduate students.

T C 131. Overview of the Fashion Industry. (3-0) Cr. 3. F.S. Introduction to fashion industry, industry structure from concept to consumer. Focus on fashion-driven consumer goods.

T C 165. Dress and Diversity in Society. (3-0) Cr. 3. F.S.SS. Examination of diversity among consumers and forecasting future trends in consumer behavior. Social responsibility issues related to appearance.

T C 204. Textile Science I. (3-3) Cr. 4. F.S.SS. *Prereq: 131.* WWW lectures. Textile fibers, yarns, fabrication, coloration, and finishes. Quality and performance application to consumer soft goods and industrial textiles.

T C 210. Computer Applications in Textiles and Clothing. (0-2) Cr. 1. F.S.SS. *Prereq: 111, 131; 245 or concurrent.* Applications of basic skills in Photoshop, Illustrator, PDM, Excel, and databases.

T C 221. Apparel Assembly Processes. (1-4) Cr. 3. F.S.SS. *Prereq: 204 or concurrent.* Principles of garment assembly. Use of mass production equipment and methods to analyze, develop and assemble garments.

T C 225. Patternmaking I. (2-4) Cr. 4. F.S. *Prereq: 131, 204, 221. Permission of instructor.* Basic flat pattern and draping methods for women's, men's and children's wear. Patternmaking by computer.

T C 231. Product Development and Manufacturing. (3-2) Cr. 4. F.S. *Prereq: 204.* Analysis of apparel product development, sourcing, and manufacturing processes. Focus on materials and specifications relative to quality, performance, and cost.

T C 245. Aesthetics and Brand Image. (3-0) Cr. 3. F.S. *Prereq: 131, 165; 204 or concurrent.* Elements and principles of design. Analysis of fashion products and promotional settings affecting the consumer. Analysis of experiential aesthetic aspects of brand.

T C 257. Museum Studies. (3-0) Cr. 3. F. *Prereq: Sophomore standing.* Overview of museums in contemporary American society. Museum history, functions, philosophy. Collection and curatorial practices. Funding and governance issues. Object research and exhibit development.

T C 278. Fashion Illustration. (0-6) Cr. 3. F.S. *Prereq: 131, 245 or concurrent enrollment. Permission of instructor.* Development of drawing skills, including line, shape, perspective and value. Introduction to drawing the fashion figure and apparel using a variety of media. Fashion presentation and introduction to portfolio development.

T C 301. Basic Design Concepts Review. Cr. 1. Repeatable maximum of 2 credits. F.S. *Prereq: Completion or enrollment in 225, 278. Permission of instructor.* Project review and skill assessment related to 2-dimensional and 3-dimensional visualization, apparel assembly, basic product knowledge, design problem solving. Review of fashion illustration, textiles, flat pattern, basic apparel assembly, design problem solving. Satisfactory-fail only.

T C 305. Quality Assurance of Textiles and Apparel. (Dual-listed with 505). (2-2) Cr. 3. F.S. *Prereq: 231, one course in natural science; Stat 101, 226, or 401.* Principles of product and materials evaluation and quality assurance. Developing specifications and using standard practices for evaluating materials, product characteristics, performance, and quality.

T C 321. Computer Integrated Textile and Fashion Design. (0-6) Cr. 3. F.S. *Prereq: 278 or concurrent enrollment. Permission of instructor.* Analysis and advanced use of computer-aided design software for textile and fashion design for various markets. Digital presentation and portfolio development.

T C 325. Patternmaking II. (2-4) Cr. 3. F.S. *Prereq: 301. Permission of instructor.* Principles of advanced patternmaking by flat pattern and draping techniques. Interaction of fabric characteristics with style features. Analysis of fit and design; problem solving. Patternmaking by computer.

T C 326. Creative Design Processes. (Dual-listed with 526). (2-2) Cr. 3. F.S. *Prereq: 325 or concurrent enrollment. Permission of instructor.* Exploration of the creative process and sources of inspiration with emphasis on fashion presentation and design development for a variety of markets. Continued development of fashion illustration techniques. Use of traditional and non-traditional materials to create innovative garments.

T C 328. Design Seminar. (Dual-listed with 528). Cr. arr. Repeatable. F.S.SS. *Prereq: Vary with topic.* Focus on artisanal textile, apparel, or surface design techniques. Topics vary by term.

T C 354. History of European and North American Dress. (3-0) Cr. 3. F. *Prereq: 3 credits from Hist or Art H.* Survey of history of dress from ancient times through present; focus on European and North American dress. Emphasis on connection of dress to the social, cultural, environmental, and technological contexts of the Western world. Nonmajor graduate credit.

T C 356. History of Twentieth Century Fashion. (Dual-listed with 556). (3-0) Cr. 3. S. *Prereq: 3 credits Hist or Art H; T C 204 recommended.* Survey of major design and technological developments in 20th Century fashion. Emphasis on fashion as a system of design and production, culture of consumption, fashion change, and trends in art, society, and culture.

T C 362. Cultural Perspectives in Dress. (3-0) Cr. 3. S. *Prereq: 165 or 3 credits in anthropology, psychology, or sociology.* Analysis of multiple factors related to dress in selected societies, including technology, aesthetics, social organization, ritual, stability and change. Applications to apparel business.

T C 372. Sourcing and Global Issues. (3-0) Cr. 3. F.S. *Prereq: 231, AESHM 275; Econ 101 or 102 recommended.* Evaluation of key issues facing textile and apparel businesses in global markets considering ethical, economic, political, social, and professional implications. Sourcing strategies in a global environment. Corporate and consumer social responsibility.

T C 376. Merchandise Planning and Control. (2-2) Cr. 3. F.S. *Prereq: AESHM 275; Acct 284.* Assortment planning, model stocks, budget development, retail math, buying concepts and strategies.

T C 377. Brand Management and Promotions. (3-0) Cr. 3. F.S. *Prereq: 245; AESHM 340 or Mkt 340.* Principles of brand image development and management; focus on experiential marketing, promotions, store design/layout, visual merchandising components.

T C 380. Field Study. Cr. arr. Repeatable. F.S.SS. *Prereq: 9 credits in T C, junior classification, minimum 2.0 GPA. Permission by application.* Study of and tours of textile and apparel manufacturers, forecasting firms, design studios, showrooms, markets, retailers, museums, testing laboratories, trade seminars and exhibitions, and other areas of interest within the textile and apparel industry.
A. Pre-trip Orientation. Cr.
R. Orientation to the field study location during semester preceding trip. B. Field trip. Cr. 1-2. Trip to location under supervision of faculty member. Reports required.

T C 381. International Field Study. Cr. arr. Repeatable. Alt. S., offered 2010. SS. *Prereq: 9 credits in T C, junior classification, minimum 2.0 GPA. Permission by application.* Study of and tours of textile and apparel manufacturers, forecasting firms, design studios, showrooms, markets, retailers, museums, testing laboratories, trade seminars and exhibitions, and other areas of interest within the textile and apparel industry. Countries vary.
A. Pre-trip Orientation. Cr.
R. Orientation to the international locations during semester preceding trip. B. Field trip. Cr. 1-3. Trip to international location under supervision of faculty member. Reports required.

T C 398. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of department chair; junior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

T C 404. Textile Science II. (Dual-listed with 504). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 204, 245; one natural science course.* Theories and principles of textile science; emphasis on fiber chemistry, performance and smart textiles, dyeing, and detergency.

T C 411. Seminar on Current Issues. Cr. arr. Repeatable. *Prereq: Senior classification, 12 credits in T C.* Trends, issues, and scholarship in textiles and apparel.

T C 415. Technical Design Processes. (2-2) Cr. 3. F. *Prereq: 231, 301. Permission of instructor.* Garment development and analysis of fit, performance, quality, cost. Exploration of alternative materials, construction methods, grading markers; develop specifications.

T C 431. Apparel Production Management. (2-3) Cr. 3. S. *Prereq: 231; T C 221 recommended.* Procedures and experiences related to application and use of process controls: method analysis, work measurement, costing, and production planning. Resource management, technology applications, and quality assurance.

T C 467. Consumer Behavior. (3-0) Cr. 3. F. *Prereq: Stat 101 or 104 or 226; T C 165.* Application of concepts and theories from the social sciences to the study of consumer behavior related to appearance. Experience in conducting market and consumer research.

T C 470. Supervised Experience. Cr. 3. Repeatable. F.S.SS. *Prereq: 311 and minimum 2.0 GPA; permission by application; junior or senior classification.* Supervised work experience with a cooperating firm or organization.
A. Textile Industry. Prereq: 305.
B. History of Dress and Textiles. Prereq: 6 credits from 257, 354, 356 or 362; 3 credits in anthropology or history recommended.
C. Textile and Apparel Design. Prereq: 210, 225, 231, 245; 278 recommended.
E. Entrepreneurship. Prereq: AESHM 275, 474.
I. Merchandising. Prereq: AESHM 275.
M. Museum. Prereq: 257.
N. Apparel Production Management. Prereq: 431
O. Technical Design. Prereq: 231, 225; 305, 415 and 431 recommended.
Q. Quality Assurance. Prereq: 305.
T. Public Relations and Publishing. Prereq: T C 275 and Advrt 230; JI MC 220 or JI MC 305.
U. Product Development. Prereq: 231, 245.
V. Sourcing and Global Issues. Prereq: TC 372

T C 475. Retail Information Analysis. (2-2) Cr. 3. F.S. *Prereq: 376.* Forecasting, customer demand, assortment planning, market research, analysis of customer databases, data mining, database interface, pattern recognition, retail technology applications and supply-chain/logistics management.

T C 490. Independent Study. Cr. arr. Repeatable. F.S. *Prereq: 6 credits in textiles and clothing. Permission of the instructor, adviser, and department chair.*
A. Textile Science
B. History of Dress and Textiles
C. Textile and Apparel Design
D. Aesthetics
E. Entrepreneurship
F. Sociological and Psychological Aspects of Dress and Textiles
G. Consumer Behavior
H. Honors
I. Merchandising
K. Cultural Analysis of Dress and Textiles
M. Museums
N. Apparel Production Management
O. Technical Design
Q. Quality Assurance
T. Public Relations and Publishing
U. Product Development
V. Sourcing and Global Issues

T C 495. Senior Design Studio. (1-5) Cr. 3. F.S. *Prereq: 321, 325, 326. Permission of instructor.* Creation of a line of apparel from concept through completion. Development of portfolio using manual and computer-aided techniques. Line must be submitted to juried competition.

T C 496. Fashion Forecasting and Product Development. (3-0) Cr. 3. *Prereq: 231, 245, AESHM 275.* Applying consumer, aesthetic, and quantitative trend information to develop value-added apparel/textile products and product lines with merchandising/promotion campaigns for diverse target markets. Multi-function team projects. Presentation to industry representatives.

T C 498. Cooperative Education. Cr. R. F.S.SS. *Prereq: Permission of department chair; senior classification.* Required of all cooperative education students. Students must register for this course prior to commencing each work period.

T C 499. Undergraduate Research. Cr. arr. Repeatable. F.S.SS. *Prereq: Senior classification, 15 credits in T C. Permission of instructor, adviser, and department chair.* Research experience in textiles and clothing with application to a selected problem.

Courses primarily for graduate students, open to qualified undergraduate students

T C 504. Textile Science II. (Dual-listed with 404). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 204, 245; one natural science course.* Theories and principles of textile science; emphasis on fiber chemistry, performance and smart textiles, dyeing, and detergency.

T C 505. Quality Assurance of Textiles and Apparel. (Dual-listed with 305). (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: 231; Stat 226 or 401; one natural science course.* Principles of product and materials evaluation and quality assurance. Developing specifications and using standard practices for evaluating materials, product characteristics, performance, and quality. Proposal and research project.

T C 510. Foundation of Scholarship in Textiles and Clothing. (3-0) Cr. 3. F. *Prereq: Graduate classification.* Overview of scholarship in textiles and clothing with emphasis on current and future directions. Fundamentals of writing literature reviews. Examination of ethical issues in scholarship and academic life. Introduction to creativity and an entrepreneurial perspective.

T C 521. Digital Textile and Apparel Design. (1-4) Cr. 3. Alt. SS., offered 2010. *Prereq: Experience with flat pattern or draping techniques and image manipulation software. Permission of instructor.* Design development, analysis and application of digital textile printing to textile products and garment forms.

T C 526. Creative Design Processes. (Dual-listed with 326). (2-2) Cr. 3. Repeatable. Alt. S., offered 2010. *Prereq: Permission of instructor.* Exploration of the creative process and sources of inspiration with emphasis on fashion presentation and design development for a variety of markets. Continued development of fashion illustration techniques. Use of traditional and non-traditional materials to create innovative garments.

T C 528. Design Seminar. (Dual-listed with 328). Cr. arr. Repeatable. F.S.SS. *Prereq: Vary with topic.* Focus on artisanal textile, apparel, or surface design techniques. Topics vary by term.

T C 556. History of Twentieth Century Fashion. (Dual-listed with 356). (3-0) Cr. 3. S. *Prereq: Graduate standing.* Survey of major design and technological developments in 20th Century fashion. Emphasis on fashion as a system of design and production, culture of consumption, fashion change, and trends in art, society, and culture.

T C 557. Textile Conservation and Collection Management. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: 204.* Condition assessment, repair, and stabilization of textiles and apparel in museum collections. Dry, aqueous, and solvent cleaning. Examination of storage and exhibition techniques, materials, and conditions. Experience with cataloging and management practices.

T C 562. Dress and Culture. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 362 or 6 credits in social science or cultural anthropology.* Analysis of dress as artifact, behavior, and symbol from cultural perspectives. Focus on construction of cultural identity. Examination of ethnographic approaches and field research methods to the study of dress as material culture.

T C 567. Consumer Behavior and Apparel. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 467 or Mkt 447; Stat 401.* Application of concepts and theories from the social sciences to the study of consumer behavior. Experience in conducting research; manuscript writing.

T C 570. Practicum in Textiles and Clothing. Cr. arr. Repeatable. F.S.SS. *Prereq: 510, 6 graduate credits in textiles and clothing. Permission of instructor.* Supervised experience related to career objective. Proposal must be approved semester before placement.
A. Teaching practicum
B. Internship

T C 572. Sourcing and Global Issues. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: a course in merchandising, Econ 101.* Evaluation of key issues facing textile and apparel businesses in global markets considering ethical, economic, political, social, and professional implications. Experience in conducting research using secondary data.

T C 581. International Study. Cr. arr. Repeatable. S.SS. *Prereq: 9 credits in T C. Permission by application.* Study abroad of apparel and textile design, merchandising, forecasting firms, production, distribution, consumption, history, and museums. Countries vary.
A. Pre-trip Orientation. Cr.
R. Orientation to the international locations during semester preceding trip B. Field trip. Cr. 1-3. Trip to international location under supervision of faculty member. Report required.

T C 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of department chair and instructor(s).* Individually designed textile and clothing-related projects that reflect the special interests of the student.
A. Textile Science
B. History of Dress and Textiles
C. Textile and Apparel Design
D. Aesthetics
E. Entrepreneurship
F. Sociological and Psychological Aspects
G. Consumer Behavior
I. Merchandising
K. Cultural Analysis of Dress and Textiles
L. Conservation
M. Museums
N. Apparel Production Management
O. Technical Design
P. Interdisciplinary
Q. Quality Assurance
T. Public Relations and Publishing
U. Product Development
V. Sourcing and Global Issues

Courses for graduate students

T C 610. Philosophical Issues of Textiles and Clothing Scholarship. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 2 courses in research methods, 6 graduate credits in textiles and clothing.* Models, theory, alternative philosophies, and ethics of science as applied in textiles and clothing scholarship. Grant writing and research program development.

T C 611. Seminar. Cr. arr. Repeatable. *Prereq: 6 graduate credits in textiles and clothing. Permission of instructor.* Discussion of scholarship and current issues. Topics vary.

T C 625. Design Theory and Process. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Permission of instructor.* Analysis of design theory and creative processes, including strategies for solving aesthetic, functional, and technology-focused design problems. Design criticism and frameworks for practice-based design research.

T C 650. Historic Research Methods in Dress and Textiles. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Permission of instructor.* Current methods, interpretive strategies, and diverse academic approaches to research in history of dress and textiles, including material culture approach. Emphasis on historical research, writing, and evaluation of sources.

T C 665. Social Science Theories of Appearance. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: 6 credits in sociology or psychology.* Analysis of social science theories and concepts applicable to clothing and appearance research. Emphasis on qualitative research and philosophy of knowledge, including postmodern, symbolic interaction, semiotic, and feminist theories.

T C 675. Research in Merchandising. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: AESHM 275 or equivalent.* Merchandising and related marketing theory, research processes, and methods. Experience in conducting research; prepare manuscripts for academic, industry and lay audiences.

T C 690. Advanced Topics. Cr. arr. Repeatable. *Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E.*

T C 699. Research. Cr. arr. Repeatable.

Theatre and Performing Arts

www.theatre.iastate.edu

(Administered by the Department of Music)

Performing Arts graduates will understand and demonstrate: 1) Knowledge of the cultural heritage and history of the Performing Arts 2) A theoretical and experiential background in the areas of performance, theatrical design, music, and dance 3) Knowledge of creative problem solving and artistic collaboration 4) Skills necessary to perform in or design for a variety of periods, styles, and genres in theatre and dance 5) Awareness of the diversity of expression in the Performing Arts throughout the world's cultures 6) A practical understanding of the rigors of the field.

Assessment measures include the semester exhibit of design work or audition pieces, graduating senior seminar and exit interviews, public performances or designs, course grades, exhibited convention work, and internship evaluations.

Undergraduate Study

Students interested in theatre as a major area of concentration declare a major in Performing Arts and select an emphasis in Theatrical Design or Acting/Directing. Students implement the theories and principles explored in the classroom by participating in production work. During the academic year, Iowa State University Theatre presents up to ten mainstage and second stage productions in Fisher Theater, and works in close collaboration with ISU Music and Dance.

The major in Performing Arts offers the undergraduate student a cross-disciplinary concentration in Music, Dance and Theatre. The core curriculum consists of 24 credits in the three areas. Students elect a 24-credit emphasis in either Dance, Theatrical Design or Acting/Directing. In addition to coursework, Performing Arts majors and minors participate in concert (Orchesis, Footfalls), workshop (Opera Studio, Minority Theatre Workshop) and production (Barchje, Stars Over Veishea, ISU Theatre/Music Theatre/Second Stage and Studio) experiences.

Performing Arts graduates, in addition to a solid theoretical and experiential background in the areas of performance, theatrical design, dance and music, are prepared to meet the challenges of the work force or graduate school with their strengths in collaboration, creative problem solving, meeting deadlines and processing diverse input to yield cohesive output. Two required professional internships prior to graduation are vital to the student's appreciation and practical understanding of the rigors of the field.

The theatre area offers a wide variety of courses. Students may select from courses in acting, design (costume, scenic, lighting/sound), make-up, stage direction, playwriting, stage management, and theatre history. Independent study and special topics courses supplement formal course offerings to provide opportunities to intensify study in a particular aspect of theatre.

Auditions for ISU Theatre productions are open to all students irrespective of academic major. Similarly, participation in areas of production other than acting is open to both majors and nonmajors. Qualified students also present experimental, laboratory, and Minority Theatre Workshop productions. Student actors, directors, designers, and technical crew heads are required to maintain a grade point average of at least 2.0 to participate in productions.

Theatre scholarships are awarded on a yearly basis to students who make significant contributions to Iowa State University Theatre.

Bachelor of Arts - Performing Arts Major (Perf)

The Core for the Performing Arts Major (24 cr)

(For individual Dance and Music course descriptions, see *Index* for individual department listing.)

Music 101, 102

Dance 120-Modern Dance, 130–Ballet I, 220–Modern Dance Composition

Dance 270–Dance Appreciation

Thtre 255, 263, 365

Perf 105–(six semesters), Perf 310 (2), Perf 401

Emphasis in Theatrical Design (24 cr)

Thtre 250 (2 cr), 360, 366, 455, 461, 465, 466, Music 133

Emphasis in Dance (24 cr)

Art 292, Music 133, Ex Sp 355

Dance 222, 224 (2 cr), 232, 360, 370

Select 2 credits from: Dance 140, 150, 160, 170, 211 (instead of 160, 170)

Select 2 credits from: Dance 223, 233, 242, 243, 262

Select 3 credits from: Dance 320, 384, 385, 386

All students enrolled in the Dance Emphasis must register for one dance technique course every semester of residence up to a total of 8 credits and must complete one computer course (Com S 103, 107, 207, C I 201).

Emphasis in Acting/Directing (24 cr)

Thtre 151, 250 (2 cr), 251, 351, 451, 455, 465, 466

Music 133

Minor in Performing Arts (21 cr)

Perf 105 (three semesters)

Music 101, 102

Dance 120 or 130, 270

Thtre 255, 263 or 251

plus six credits 300+ in Dance, Thtre or Perf

Communication Proficiency requirement: Select one course from Engl 302, 303, 304, 305, 306, 307, 309, 314, 315, 316, 366, 370.

Graduate Study

The department offers graduate courses as supporting work in other fields.

Performing Arts

Courses primarily for undergraduate students.

Perf 105. Issues in the Performing Arts. (1-0) Cr. R. F.S. Cross-disciplinary analysis and discussion of topics in the performing arts. Six semesters required of performing arts majors.

Perf 310. Performing Arts Internship. Cr. R. F.S.SS. Required of performing arts majors. A job or internship with a professional or semi-professional performing arts organization. Satisfactory-fail only.

Perf 401. Performing Arts Seminar. (2-0) Cr. 2. S. Intensive collaborative study and practice of topics in music, dance and theatre. Required of performing arts majors. Nonmajor graduate credit.

Theatre

Courses primarily for undergraduate students.

Thtre 106. Introduction to the Performing Arts. (3-0) Cr. 3. F.S.SS. An audience oriented, broad-based, team-taught survey of the performing arts which emphasizes theatre and includes segments on television, radio, film, dance, and music.

Thtre 110. Theatre and Society. (3-0) Cr. 3. F.S. An introduction to Theatre focusing on its relationship with society throughout history.

Thtre 151. The Actor's Voice. (3-0) Cr. 3. S. Study and practice of fundamentals of vocal production: breathing, quality, articulation, projection, and expressiveness for the performing artist.

Thtre 224. Concert and Theatre Dance. (Cross-listed with DANCE). (0-3) Cr. arr. Repeatable. F.S. *Prereq: By audition only.* Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Satisfactory-fail only.

Thtre 250. Theatre Practicum. Cr. arr. Repeatable. F.S. *Prereq: Permission of instructor.* Practice in various aspects of technical theatre production. Satisfactory-fail only.

Thtre 251. Acting I. (3-0) Cr. 3. F.S. Theory and practice in fundamentals of acting.

Thtre 255. Introduction to Theatrical Production. (3-3) Cr. 4. F.S. Standard structure and procedures, historical overview of performing arts production including the design and creation of scenery, costumes and lighting.

Thtre 263. Script Analysis. (3-0) Cr. 3. F.S. Theory, analysis, and interpretation of play scripts for production.

Thtre 290. Special Projects. Cr. arr. Repeatable. F.S.SS. *Prereq: 3 credits in theatre; permission of instructor; approval of written proposal.*

Thtre 316. Creative Writing -- Playwriting. (Cross-listed with Engl). (3-0) Cr. 3. S. *Prereq: Engl 250, not open to freshmen.* Progresses from production of scenes to fully developed one-act plays. Emphasis on action, staging, writing, analytical reading, workshop criticism, and individual conferences. Nonmajor graduate credit.

Thtre 351. Acting II. (3-0) Cr. 3. S. *Prereq: 251, Dance 120 recommended.* Theory and practice of techniques of acting with emphasis on character and scene analysis.

Thtre 352. Stage Combat. (1-2) Cr. 2. Alt. S., offered 2010. *Prereq: 351.* Theory, history, and practice of theatrical combat. Includes tumbling, hand-to-hand, quarterstaff, broadsword, rapier, and dagger.

Thtre 354. Musical Theatre I. (2-2) Cr. 3. *Prereq: 251 or Music 232 or 3 credits in Dance.* Theory, history and practice of musical theatre techniques. Designed to develop the musical theatre performance skills of singers, dancers, and actors.

Thtre 355. Musical Theatre II. (2-2) Cr. 3. *Prereq: 354.* Theory, history and practice of musical theatre techniques. Designed to develop the musical theatre performance skills of singers, dancers, and actors.

Thtre 357. Stage Make-up. (1-2) Cr. 2. F. Theory and practice of make-up and hair-styling techniques for the performing arts: Theatre, Opera, Dance, Television and Film. Lab required.

Thtre 358. Oral Interpretation. (3-0) Cr. 3. F. Principles of oral interpretation: practice in analysis, in reading aloud of literary selections, and in reader's theatre.

Thtre 359. Theatre for Children and Youth. (3-0) Cr. 3. Study and practice of directing, acting, and the production of theatre for children and youth.

Thtre 360. Stagecraft. (3-2) Cr. 4. S. *Prereq: 255.* Tools, materials, and techniques of planning, constructing and painting of performing arts scenography. Basic principles of lighting technology. Technical drawing for performing arts production.

Thtre 365. Theatrical Design I. (2-2) Cr. 3. F. *Prereq: 255.* An exploration of the elements, principles and art of theatrical design.

Thtre 366. Theatrical Design II. (2-2) Cr. 3. S. *Prereq: 365.* Intensive application of the principles introduced in 365. In-depth study and practice of the graphic skills of rendering and drafting.

Thtre 367. Stage Management. (3-0) Cr. 3. F. *Prereq: 255.* The responsibilities and techniques of stage management for the performing arts.

Thtre 393. Workshop. Cr. 3. Repeatable. F.S.SS. *Prereq: 3 credits in theatre.* Offered to explore special topics.
A. Minority Theatre
B. Repertory
C. Children's Theatre
D. Musical Theatre
E. Creative Dramatics
F. International Storytelling

Thtre 451. Acting III. (3-0) Cr. 3. F. *Prereq: 351 and permission of instructor.* Analysis and practice of period scenes.

Thtre 455. Directing I. (3-0) Cr. 3. F. *Prereq: 255; 263; 251 recommended.* Theory, techniques, and practice of directing.

Thtre 456. Directing II. (2-2) Cr. 3. S. *Prereq: 455.* Practical and theoretical experience in directing the stage play.

Thtre 461. Theatrical Design Studio. (3-2) Cr. 4. Repeatable. F.S. *Prereq: Permission of instructor.* Focuses on the art and craft of specific areas of theatrical design. Each semester the student will focus on one or two of the following: scenic, costume, or lighting design.

Thtre 465. History of Theatre I. (3-0) Cr. 3. F. *Prereq: Hist 201 or equivalent.* Theatre history from ancient times to 1800. Nonmajor graduate credit.

Thtre 466. History of Theatre II. (3-0) Cr. 3. S. *Prereq: 465.* Theatre history from 1800 to present. Nonmajor graduate credit.

Thtre 469. Advanced Theatre Practicum. Cr. arr. Repeatable. F.S.SS. *Prereq: 9 credits in theatre courses; junior classification.* Practicum in production with ISU Theatre, with opportunities for specialization within various areas. Required: Approval of written proposal.

Thtre 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: 9 credits in theatre, approved written proposal, junior classification.* Only one independent study enrollment within the department is permitted per semester. No more than 9 credits in Thtre 490 may be counted toward graduation.

Thtre 497. Senior Seminar. (3-0) Cr. 3. S. *Prereq: 15 credits in theatre courses; senior classification.* Directed study of a theatre issue or problem identified by each student. Students synthesize relevant theory and research culminating in senior project or paper.

Thtre 499. Theatre Internship. Cr. arr. Repeatable. F.S.SS. *Prereq: 18 credits in theatre, other courses deemed appropriate by faculty adviser; 2nd semester junior or senior standing; cumulative GPA of at least 2.5 overall and 3.0 in theatre courses.* Supervised application of theatre in professional settings.

Courses primarily for graduate students, open to qualified undergraduate students

Thtre 504. Seminar. Cr. arr. Repeatable. F.S.SS. *Prereq: 9 credits in theatre.* Topics may include the following:
A. Musical Theatre
B. Acting Techniques
C. Acting Styles
D. Design and Technical Theatre
E. Arts Management

Thtre 590. Special Topics. Cr. arr. Repeatable. *Prereq: Approved written proposal.*

Toxicology

www.toxicology. iastate.edu

toxmajor@iastate.edu

(Interdepartmental Graduate Major)

Supervisory Committee: A. Kanthasamy, Chair; J. Coats, A. Kanthasamy, R. Martin, P. Murphy, G. Osweiler

Toxicology is the science of studying the adverse effects of substances on living organisms. Students observe, gather data and predict risks and outcomes in populations. Whole organism research and cellular and molecular approaches are used to determine toxicant exposure and mechanisms. Work is offered for the degrees doctor of philosophy and master of science. Students majoring in toxicology will be affiliated with one of the following cooperating departments: Agricultural and Biosystems Engineering; Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemistry; Entomology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Geological and Atmospheric Sciences; Natural Resource Ecology and Management; Physics; Plant Pathology; Veterinary Diagnostic and Production Animal Medicine; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

The prerequisites for entrance into the graduate toxicology major include an undergraduate degree in a relevant area of study; for example, chemical engineering, biology, biochemistry, chemistry, ecology, entomology, food science and technology, microbiology, nutritional science, zoology, or veterinary medicine. Minimum undergraduate coursework should include the following or their equivalent: 1 year of college mathematics, including calculus; 1 year of inorganic chemistry with quantitative analysis; 1 course in physics; 1 year of organic chemistry; 2 years of biological sciences including 1 course in physiology.

Other courses that are considered desirable in undergraduate preparation include: biochemistry, physical chemistry, qualitative analysis, and some specialized courses such as histology or advanced physiology.

Facilities and faculty are available for fundamental research in such areas as environmental fate and effects of chemicals, insect toxicology, aquatic toxicology, food safety, nutritional toxicology, mycotoxins, neurotoxicology, cellular and molecular toxicology and veterinary toxicology.

Students majoring in toxicology will be affiliated with a cooperating department. All Ph.D. students take a core curriculum consisting of Tox 501 and 502, Tox 504 (Toxicology Seminar, taken twice); 7 additional credits in toxicology; 8 credits in biochemistry from BBMB 404, 405, 420, 451, 542; 3 graduate credits in physiology, histology, pathology, neuroscience, immunobiology or cellular and molecular biology; and Stat 401 and 402. M.S. students take a core of Tox 501, 502, 504; 3 additional credits in toxicology; BBMB 404, 405; and Stat 401. Additional coursework is selected to meet departmental requirements and to satisfy individual student research interests.

A graduate minor in toxicology is available for students enrolled in other majors. A minor for an M.S. degree includes Tox 504 and 501 and 3 credits in other toxicology courses. A minor at the Ph.D. level includes Tox 504, 501, and 6 credits in other toxicology course work. One member of the student's program of study committee will be a member of the toxicology faculty.

Most students awarded doctoral degrees continue their training as postdoctoral associates at major research institutions in the U.S. or abroad in preparation for research and/or teaching positions in academia, industry, the military, veterinary research, or government environmental and public health institutions. A few go directly to permanent research positions in industry. Many students awarded master's degrees continue their training as doctoral students; however, some choose research support positions (i.e., technician, chemist, research associate) in academia, industry, or government. A more thorough list of outcomes is available at our Web site.

Graduates of the Toxicology major will be able to carefully design, execute and analyze experiments that extend the knowledge of toxicology and closely related sciences. They will be able to clearly communicate research findings, and thoroughly evaluate the literature of toxicology, contributing significantly to the advancement of the field.

Courses primarily for undergraduate students.

Tox 419. Foodborne Hazards. (Cross-listed with FS HN, Micro). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Micro 201 or 302, a course in biochemistry.* Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards. Only one of Tox 419 and 519 may count towards graduation. Nonmajor graduate credit.

Tox 420. Food Microbiology. (Cross-listed with FS HN, Micro). (3-0) Cr. 3. F. *Prereq: Micro 201 or 302.* Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

Tox 501. Principles of Toxicology. (3-0) Cr. 3. F. *Prereq: BBMB 404 or equivalent.* Principles of toxicology governing entry, fate, and effects of toxicants on living systems. Includes toxicokinetics and foreign compound metabolism relative to toxification or detoxification. Fundamentals of foreign compound effects on metabolism, physiology, and morphology of different cell types, tissues, and organ systems.

Tox 502. Toxicology Methods. (0-6) Cr. 3. Alt. S., offered 2010. *Prereq: Tox 501.* Provides demonstrations or laboratory experience in the application of methods used in toxicology, including safety procedures, calculation and data analysis, teratologic and morphologic evaluation, electrophysiologic measures, in vitro enzyme induction/biotransformation, neural and behavioral toxicology testing.

Tox 504. Toxicology Seminar. (1-0) Cr. 1. Repeatable. F.S.SS. *Prereq: Permission of instructor required.* Presentation of a seminar about a current topic in toxicology as part of a weekly series of seminars by graduate students, faculty, and guest lecturers from off campus.

Tox 515. Regulatory Toxicology. (Cross-listed with FS HN). (1-0) Cr. 1. Alt. F., offered 2010. *Prereq: BBMB 404 or FSHN 403.* Regulatory toxicology in the real world. Approaches used by toxicologists in regulatory agencies for generating, enforcing and complying with laws and regulations in an unambiguous, defensible manner. Different obligations of scientists in research and regulatory settings. Perform simple risk assessments and suggest ways of dealing with data gaps. Examine strengths and weaknesses of common approaches used by regulatory agencies.

Tox 519. Food Toxicology. (Cross-listed with FS HN, NutrS). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: A course in biochemistry.* Basic principles of toxicology. Toxicants in the food supply: modes of action, toxicant defense systems, toxicant and nutrient interactions, risk assessment. Only one of Tox 419 and 519 may count toward graduation.

Tox 526. Veterinary Toxicology. (Cross-listed with VDPAM). (3-0) Cr. 3. S. *Prereq: Permission of instructor.* A study of disease processes in animals caused by toxicants and the use of differential diagnostic and therapeutic procedures. Emphasis is on use of clinical cases to define mechanism of poisoning, diagnostic and management procedures and public health and food safety issues.

Tox 546. Clinical and Diagnostic Toxicology. (Cross-listed with VDPAM). (0-3) Cr. arr. Repeatable. F.S.SS. *Prereq: D.V.M. degree or 526.* Advanced study of current problems and issues in toxicology. Emphasis on problem solving utilizing clinical, epidemiological, and laboratory resources.

Tox 550. Pesticides in the Environment. (Cross-listed with Ent). (2-0) Cr. 2. S. *Prereq: 9 credits of biological sciences.* Coats. Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere.

Tox 554. General Pharmacology. (Cross-listed with B M S). (3-0) Cr. 3. S. *Prereq: BMS 549 and 552; BBMB 404, 405.* General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

Tox 565. Methods of Biostatistics. (Cross-listed with STAT). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Stat 500 or 401; Stat 543 or 447.* Statistical methods useful for biostatistical problems. Topics include analysis of cohort studies, case-control studies and randomized clinical trials, techniques in the analysis of survival data and longitudinal studies, approaches to handling missing data, and meta-analysis. Examples will come from recent studies in cancer, AIDS, heart disease, psychiatry and other human and animal health studies. Use of statistical software: SAS, S-Plus or R.

Tox 570. Risk Assessment for Food, Agriculture and Veterinary Medicine. (Cross-listed with Agron, VDPAM). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Stat 104 or consent of instructor: Wolt, Hurd.* Risk assessment principles as applied to biological systems. Exposure and effects characterization in human and animal health and ecological risk assessment. Risk analysis frameworks and regulatory decision-making. Introduction to quantitative methods for risk assessment using epidemiological and distributional analyses. Uncertainty analysis.

Tox 575. Cell Biology. (Cross-listed with B M S). (3-0) Cr. 3. F. *Prereq: 10 credits in biological science and permission of instructor.* A multi-instructor course covering major topics in cell structure and function, including: universal features of prokaryotic and eukaryotic cells, types of utilization and conversion of energy, genetic control of cell shape and functionality, internal organization of cells, communication between cells and their environment, development of multicellular systems. Students have to write a term paper.

Tox 590. Special Topics. Cr. arr. Repeatable. Contact individual faculty for special projects or topics. Graded.

Courses for graduate students

Tox 626. Advanced Food Microbiology. (Cross-listed with FS HN, Micro). (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: FS HN 420 or 421 or 504.* Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

Tox 627. Rapid Methods in Food Microbiology. (Cross-listed with FS HN, Micro). (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: FS HN 420 or 421 or 504.* Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

Tox 656. Cellular and Molecular Pathology II. (Cross-listed with V PTH). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Graduate course in biochemistry, genetics, or cell biology.* Cellular and molecular mechanisms of carcinogenesis.

Tox 675. Insecticide Toxicology. (Cross-listed with ENT). (2-3) Cr. 3. Alt. F., offered 2009. *Prereq: 501 or Ent 555.* Coats. Principles of insecticide toxicology; classification, mode of action, metabolism, and environmental effects of insecticides.

Tox 697. Graduate Research Rotation. (0-12) Cr. arr. Repeatable. F.S.SS. *Prereq: Admission to Toxicology graduate program.* Graduate research projects performed under the supervision of selected faculty members in the graduate Toxicology major.

Tox 699. Research. Cr. arr. Repeatable.

Transportation

www.ctre.iastate.edu/mstrans/

(Interdepartmental Graduate Major)

Supervisory Committee: K. Gkritza, Chair; D. Johnston, M. Crum

Work is offered for the degree master of science with a major in transportation under a cooperative arrangement with various departments including Civil, Construction and Environmental Engineering (CCEE), Community and Regional Planning (CRP), and Logistics, Operations and Management Information Systems (LOMIS). Opportunities are afforded for research in such areas as modeling and performance of transportation systems, highway safety and information systems, remote sensing, environmental analysis, techniques for urban and regional transportation system planning, environmental and social policy analysis of transportation systems, transportation policy analysis, analysis of transportation technologies, commodity distribution, public administration of the transportation planning process, regional development and transportation system interrelationships, transportation economics and finance, and planning for logistics management.

Students majoring in transportation will develop a program of study under the guidance of a program of study committee selected by the student in consultation with and approved by the chair of the faculty supervisory committee. For administrative purposes, the student's home department will be the department originally admitting the student. A major professor may be selected from any of the three participating departments. A student must designate at least one member of the POS committee from his or her home department, and at least one member from outside the home department.

A student must complete at least 36 credits of acceptable work including preparation of a 6 credit thesis or a 2-3 credit creative component. A structured minor requires 12 credits of approved transportation courses and a thesis or creative component on a transportation related topic.

A required core includes C E 551, Trans 691, Stat 401 and at least one course from all three cooperating departments (CRP, CCEE and LOMIS). Detailed requirements are available from the chair of the supervisory committee.

Graduate students pursuing a major in any of the cooperating departments who have an interest in transportation are encouraged to consider a formal declared minor in transportation. Students considering a declared minor should consult with the chair of the supervisory committee about the requirements for it.

Students typically focus their program of study to support a career in one of five areas: transportation consulting, regional and statewide transportation planning, transportation service operations and management, transportation policy and economic analysis, and transportation planning and operation for local and state governments. Graduates will have specific knowledge in one or more of these focus areas and the skills to conduct research and analysis of transportation issues. These skills allow graduates to be productive immediately in positions related to a focus area or to continue in more advanced transportation graduate work.

Courses primarily for graduate students

Trans 555. Economic Analysis of Transportation Investments. (3-0) Cr. 3. F. *Prereq: C E 350 or 355.* Application of economic analysis methodologies to evaluate transportation projects. Multi-modal approaches to evaluate impacts of transportation investments and maximize economic efficiency while considering equity and other social issues related to investment options.

Trans 599. Creative Component. Cr. arr. *Prereq: Pre-enrollment contract required.* Advanced topic for creative component report in lieu of thesis.

Trans 691. Seminar in Transportation Planning. Cr. arr. Repeatable. S. Provides an overview of current transportation issues; lecturers provide seminars on a variety of timely transportation topics.

Trans 699. Research. Cr. arr. Repeatable.

University Studies

Associate Provost for Academic Programs

Certain interdisciplinary courses are offered through university studies, at the discretion of the associate provost for academic programs and upon the advice of the Faculty Senate Curriculum Committee. No major is available in university studies, but credit obtained through university studies offerings may be applied toward a degree in any of the colleges, consistent with the stipulations of the student's curriculum.

Requests to make use of U St 290, 490, 590 should be directed to the associate provost for academic programs and should be accompanied by a positive recommendation from the department heads and deans of the instructors making the request. The associate provost for academic programs will refer requests to the Faculty Senate Curriculum Committee which will make recommendations to the associate provost for academic programs regarding their disposition after consultation with appropriate college and university committees.

Courses primarily for undergraduate students.

U St 105. Carver Academy Seminar: Freshmen. (1-0) Cr. 1. F. *Prereq: Acceptance in Carver Academy Program, George Washington Carver scholarship recipient.* Orientation to the university for Carver Academy students focusing primarily on transition and acclimation to the university environment. Individual and group identity development. Life and legacy of George Washington Carver. Satisfactory-fail only.

U St 106. Carver Academy Seminar: Freshmen. (1-0) Cr. 1. S. *Prereq: Acceptance in Carver Academy Program, George Washington Carver scholarship recipient.* Introduction for Carver Academy students to resources at ISU to supplement classroom learning. Exploration of multicultural communities and leadership opportunities at ISU. Satisfactory-fail only.

U St 111. Hixson Scholars Seminar. (1-0) Cr. 1. F. *Prereq: Recipient of the Hixson Opportunity Award.* Orientation to Iowa State University and the Hixson Opportunity Awards Program. Satisfactory-fail only.

U St 115. MVP Seminar. (1-0) Cr. 1. F. *Prereq: Recipient of the MVP Award.* Orientation to Iowa State University and the MVP Program. Satisfactory-fail only.

U St 116. MVP Seminar. (1-0) Cr. 1. S. *Prereq: Recipient of the MVP Award, 115 or consent of instructor.*. A continuation of the introduction to life and resources at Iowa State University and to the functions of the Multicultural Vision Program focusing individually in areas of personal development, ethnic and racial identity, and leadership. Satisfactory-fail only.

U St 120. Student Support Services Program Seminar. (1-0) Cr. 1. S. *Prereq: Acceptance in Student Support Services Learning Community.* Designed to assist students in developing successful academic strategies to meet demands of college and achieve desired goals. Satisfactory-fail only.

U St 160. Gender Justice. (2-0) Cr. 1. F.S. Half semester course. Examines the socialization process in the United States and how our perspectives are formed. An introduction to patriarchy, sexism, and ally development are explored. Skills to enhance communication and understanding among women and men will be developed. Satisfactory-fail only.

U St 170. Leadership ISU. (0-2) Cr. 1. F. *Prereq: Freshman or sophomore classification.* An introductory leadership course for first-year and second-year students. Students will gain a basic understanding of leadership skill development and resources available to student leaders at Iowa State University. Course content will be delivered through a variety of methods such as guest speakers, team building exercises, and small group discussions. Students will be expected to

complete several out of class assignments to apply the leadership skills they have learned. Satisfactory-fail only.

U St 205. Carver Academy Seminar: Peer Mentors. (1-0) Cr. 1. F. *Prereq: 106, intended primarily for sophomores.* Leadership and peer mentor training for Carver Academy students who will be serving as peer mentors in Carver Academy. Definitions and analysis of diversity in academia. Academic portfolio preparation and career exploration. Satisfactory-fail only.

U St 206. Carver Academy Seminar: Peer Mentors. (1-0) Cr. 1. S. *Prereq: 106, Intended primarily for sophomores.* Development of leadership and mentoring skills. Survey of leadership in diverse communities in the U.S. Satisfactory-fail only.

U St 290. Independent Study. Cr. arr. *Prereq: Permission of the associate provost for academic programs.* Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores.

N. Ncore. The Ncore Course: Forum on Race and Ethnicity in the United States. Cr. 3. Prereq: Selection as an Ncore student scholar. Attendance at Ncore. Exploration of issues of race and ethnicity in the United States.

U St 301. McNair Scholars Seminar: Orientation to the McNair Program and to Academic Research. (0-2) Cr. 1. F. *Prereq: New fall admit to the Ronald E. McNair Postbaccalaureate Achievement Program.* Covers program guidelines and requirements, the basics of preparing for the graduate admissions process, and the formulation of a research topic to begin the required research project. Satisfactory-fail only.

U St 302. McNairs Scholars Seminar: The Review of Literature and the Methodology. (0-2) Cr. 1. S. *Prereq: 301.* Covers the review of literature and the methodology components of the required research project. Satisfactory-fail only.

U St 305. Carver Academy Seminar: Community Leaders. (1-0) Cr. 1. F. *Prereq: Intended primarily for juniors.* Leadership development for Carver Academy students; frameworks for multicultural leadership. Students will research and assess needs for community enhancement projects under faculty supervision. Satisfactory-fail only.

U St 306. Carver Academy Seminar: Community Leaders. (1-0) Cr. 1. S. *Prereq: Intended primarily for juniors.* Leadership development for Carver Academy students; self-directed development of leadership abilities. Implement student-directed community enhancement projects under faculty supervision. Begin preparation for graduate and professional schools and career placement. Satisfactory-fail only.

U St 311. Leadership Seminar I. (1-0) Cr. 1. Repeatable. *Prereq: 111, 115.* For students serving as peer mentor first-year seminar leaders under faculty supervision. Development of course facilitation and peer leadership skills. Satisfactory-fail only.
A. Leaders in Hixson Seminar
B. Leaders in MVP Seminar

U St 312. Leadership Seminar II. (1-0) Cr. 1. Repeatable. *Prereq: 311.* For students serving as leaders in Hixson Seminar or MVP Seminar under faculty supervision. Development of course facilitation and peer leadership skills. Satisfactory-fail only.
A. Leaders in Hixson Seminar
B. Leaders in MVP Seminar

U St 336. International Perspectives in Career Development. (3-0) Cr. 3. Students will examine the career development process in the context of pursuing an international career. Topics will include career exploration, the job search, and cultural differences from international points of view. Faculty members will guest lecture on culture, history, economics, environment, and art of the selected country. Following the spring seminar students will participate in a study tour of the selected country where they will visit international employers and historical and cultural sites. Satisfactory-fail only.

U St 401. McNair Scholars Seminar: Data Collection and Data Analysis. (0-2) Cr. 1. F. *Prereq: 302.* Covers the data collection and data analysis sections of the required research project. Satisfactory-fail only.

U St 402. McNair Scholars Seminar: Findings, Conclusions, and the Writing of the Final Report. (0-2) Cr. 1. S. *Prereq: 401.* Final course for second year scholars. Covers data analysis, data clean up, and the writing of the final project. Satisfactory-fail only.

U St 405. Carver Academy Seminar: Fellows. (1-0) Cr. 1. F. *Prereq: Intended primarily for seniors.* Continued preparation for graduate school, professional school and/or chosen profession. Research project experience with faculty mentor is required. Satisfactory-fail only.

U St 406. Carver Academy Seminar: Fellows. (1-0) Cr. 1. S. *Prereq: Intended primarily for seniors.* Oral and written presentation of research under faculty supervision. Satisfactory-fail only.

U St 490. Independent Study. Cr. arr. Repeatable. *Prereq: Permission of the associate provost for academic programs.* Independent study on topics of an interdisciplinary nature. Intended primarily for juniors and seniors.

Courses primarily for graduate students, open to qualified undergraduate students

U St 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of graduate college.* Independent study on topics of an interdisciplinary nature. Intended primarily for graduate students.

Veterinary Clinical Sciences

Claire Andreasen, Interim Chair of Department

Professors: Andreasen, Betts, Evans, Hoefle, Hopkins, Jergens, Kraus, Merkley, Noxon, D. Riedesel, Toombs, Ware, Whitley

Professors (Emeritus): Carithers, Clark, Eness, Grier, Jackson, McGee

Professor (Collaborator): Carpenter

Associate Professors: Baldwin, Booth, Fox, McClure, Miles, O'Brien, Reinertson, E. Riedesel, Wagner

Assistant Professors: Christensen, Deitz, Ellinwood, Grozdanic, Kersh, May, Brett Sponseller, Wong

Instructors (Adjunct): Alcott, Claude, Clemans, Dujowich, Gerber, Ginman, Gross, Koshino, Krebs, L'Heureux, Madron, E. Miller, Morgan, Olsen, Parker, Sakai, Schoeffler, Schutte, Severin, Waller, Willmore, Wynne

Senior Clinician: King

Lecturer: Howard-Martin

Clinicians: Berryessa, Buttrick, Caston, Cerfogli, Galow-Kersh, Howard, Kauffman, Kraus, D. Miller, Morrison, Prickett, Beatrice Sponseller, Thompson, Zacharias

Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see *Veterinary Medicine, Curriculum.*

The curriculum of veterinary clinical sciences explores the preventive health care, and diagnosis and treatment of diseases of companion and competitive athletic animals. Veterinary specialists lead didactic and laboratory based learning in the clinical sciences. Experiential based courses conducted through the Veterinary Medical Center during the fourth year provide the student an opportunity to participate in the application of clinical skills and knowledge.

Graduate Study

The department offers work for the degree master of science with major in veterinary clinical science, and minor work for students majoring in other departments. Within the veterinary clinical sciences major, the student may specialize in veterinary medicine, surgery, or theriogenology. The D.V.M. degree or equivalent is prerequisite to a major graduate work.

Both thesis and nonthesis options are available and require the completion of a minimum of 30 graduate credits and a final examination.

World languages and cultures requirements may be established by the student's program of study committee.

Courses primarily for professional curriculum students

V C S 305. Shelter Medicine. Cr. 1. S. *Prereq: First year classification in Veterinary Medicine or with permission of instructor.* An elective course designed to educate the veterinary student about issues of relevance to companion animal population and shelter medicine and welfare. Students may concurrently be enrolled in VCS 306X.

V C S 311. Veterinarian in Society I. Cr. R. F. *Prereq: First-year classification in veterinary medicine.* Introduction to the veterinary profession and the various career opportunities available.

V C S 312. Veterinarian in Society II. (Cross-listed with VDPAM). (1-0) Cr. 1. S. *Prereq: First-year classification in veterinary medicine.* A continuation of the Veterinarian in Society series. This course is designed to provide an introduction to the topics of animal behavior, animal welfare, and the human animal bond.

V C S 313. Veterinarian in Society III. (1-1) Cr. 1. F. *Prereq: Second-year classification in veterinary medicine.* A continuation of the Veterinarian in Society series. The course covers selected topics on moral and ethical issues affecting the practice of veterinary medicine.

V C S 314. Veterinarian in Society IV. (1-0) Cr. 1. F. *Prereq: Third-year classification in veterinary medicine.* A continuation of the Veterinarian in Society series. This course will focus on helping students develop their communication, leadership, team building and conflict resolution skills.

V C S 315. Veterinarian in Society V. (1-0) Cr. 1. S. *Prereq: Third-year classification in veterinary medicine.* A continuation of the Veterinarian in Society series. This course will emphasize veterinary law.

V C S 339. Clinical Foundations I. (Cross-listed with B M S). (0-2) Cr. 1. F. *Prereq: First-year classification in veterinary medicine.* Canine physical examination; basic behavior, animal handling and restraint; medical record keeping.

V C S 385. Seminar. Cr. R. Repeatable. F.S. *Prereq: Classification in veterinary medicine.* Seminars and case discussions on selected clinical subjects by staff and fourth-year students of the College of Veterinary Medicine. Attendance is required for a passing grade Satisfactory-fail only.

V C S 391. Clinical Imaging. (1-0) Cr. 1. F. *Prereq: First-year classification in veterinary medicine.* Evaluation of morphologic anatomy of the dog and cat utilizing clinical imaging methods - radiography, ultrasonography, computed tomography, magnetic resonance imaging and nuclear imaging. Emphasis will be placed on normal radiographic anatomy.

V C S 393. Principles of Surgery. (3-0) Cr. 3. F. *Prereq: Second year classification in veterinary medicine.* General principles of surgery of companion animals

V C S 394. Principles of Surgery Laboratory. (0-3) Cr. 1. S. *Prereq: Second year classification in veterinary medicine.* General principles of surgery of companion animals.

V C S 395. Small Animal Surgery. (2-0) Cr. 2. S. *Prereq: V C S 394.* Small animal surgery.

V C S 396. Equine Surgery. (2-0) Cr. 2. S. *Prereq: 394.* Elective course in equine surgery.

V C S 398. Anesthesiology. (1-0) Cr. 1. S. *Prereq: Second-year classification in veterinary medicine.* Anesthetic equipment, agents, and procedures for domestic animals.

V C S 399. Ophthalmology. (1-0) Cr. 1. S. *Prereq: Third year classification in veterinary medicine.* Principles and techniques of medical and surgical ophthalmology.

V C S 401. Advanced Small Animal Orthopedics. (1-0) Cr. 1. S. *Prereq: Third or Fourth-year classification in veterinary medicine.* Lecture course covering advanced diagnosis and treatment of small animal orthopedic conditions. Medical and surgical options are covered.

V C S 402. Clinical Cardiology. (1-0) Cr. 1. F. *Prereq: Third or fourth-year classification in veterinary medicine; 444 or concurrent enrollment in 444.* Elective course in diagnosis and management of cardiac diseases. Emphasis on interpretation of electrocardiography.

V C S 405. Pet Bird and Exotic Species Medicine. (1-3) Cr. 2. Alt. S., offered 2010. *Prereq: Second-, third- or fourth-year classification in veterinary medicine.* Elective course in management and diseases of pet birds and exotic species.

V C S 407. Feline Internal Medicine. (1-0) Cr. 1. F. *Prereq: Third-year classification in veterinary medicine.* Elective course in feline internal medicine.

V C S 414. Companion Animal Nutrition. (1-0) Cr. 1. S. *Prereq: Third or fourth -year classification in veterinary medicine.* Elective course in small animal and equine nutrition.

V C S 415. Advanced Small Animal Dermatology. (1-2) Cr. 2. F. *Prereq: Third or Fourth-year classification in veterinary medicine.* Elective course in dermatology.

V C S 419. Preceptorship in Companion Animal/ Equine Veterinary Medical Practice. (0-40) Cr. arr. Repeatable. *Prereq: Fourth-year classification in veterinary medicine, permission of department chair.* Elective course in veterinary practice under the guidance of veterinarians in approved practice settings.

V C S 421. Husbandry and Diseases of Non-traditional Species. (2-0) Cr. 1. Alt. F., offered 2010. *Prereq: Second-, third-, or fourth-year classification in veterinary medicine.* Husbandry, management, and common diseases of rabbits, guinea pigs, hamsters, gerbils, rats, and mice.

V C S 436. Small Animal Internal Medicine. (3-0) Cr. 3. F. *Prereq: Third year classification in veterinary medicine.* Clinical diagnosis and treatment of diseases of small animals.

V C S 440. Introduction to Clinics. (Cross-listed with VDPAM). Cr. R. F. *Prereq: Third-year classification in veterinary medicine.* Rotating assignments through multiple sections within the Veterinary Teaching Hospital.

V C S 443. Equine Lameness. (1-2) Cr. 2. S. *Prereq: Second or third-year classification in veterinary medicine.* Orthopedic diseases of the equine.

V C S 444. Small Animal Medicine. (4-0) Cr. 4. F.S. *Prereq: Third-year classification in veterinary medicine.* Clinical diagnosis and treatment of diseases of small animals.

V C S 445. Equine Medicine. (2-0) Cr. 2. F. *Prereq: Third-year classification in veterinary medicine.* Clinical diagnosis and treatment of diseases of equine.

V C S 446. Clinical Neurology. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Clinical rotation in neurology with an emphasis on neurolocalization, disease processes, use of diagnostics in medical and surgical neurology and treatment options. Exposure to neurosurgical techniques.

V C S 448. Diagnostic Imaging and Radiobiology. (2-2) Cr. 3. F.S. *Prereq: Third-year classification in veterinary medicine.* Essentials of diagnostic image interpretation. Essentials of radiobiology, radiation therapy and protection from radiation.

V C S 449. Junior Surgery Laboratory. (1-6) Cr. 3. F. *Prereq: Third-year classification in veterinary medicine.* Pre-laboratory presentations and laboratories introduce the student to surgical technique principles that can be applied to all animal species.
A. Alternative Curriculum - consists of only neutering humane society animals throughout the laboratory experience.
B. Traditional Curriculum - provides a broader range of surgical experiences throughout the laboratory experience, including humane society neutering.

V C S 450. Disturbances of Reproduction. (Cross-listed with VDPAM). (4-0) Cr. 4. F. *Prereq: Third-year classification in veterinary medicine.* General principles of diseases causing disturbances in reproduction.

V C S 451. Advanced Junior Surgery Laboratory. (1-6) Cr. 2. S. *Prereq: 449. 8 weeks.* Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species.
A. Alternative Curriculum - consists of only neutering humane society animals throughout the laboratory experience.
B. Traditional Curriculum - exposure to more advanced surgical techniques with most surgical principles useful in all animal species. Also includes some humane society neutering.
C. Traditional Curriculum - a second repeat for students with a special interest in small animal surgery. Limited space is available.

V C S 452. Clinical Dermatology. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine, small animal option.* Study of clinical dermatological problems via computer-aided instruction, case simulations, and/or lectures. Clinical management of cases presented to Veterinary Teaching Hospital.

V C S 453. Small Animal Medicine I. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment in small animal medicine.

V C S 454. Small Animal Medicine II. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment in small animal medicine.

V C S 455. Small Animal Soft Tissue Surgery. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment in soft tissue surgery.

V C S 456. Small Animal Orthopedic Surgery. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment in orthopedic surgery.

V C S 457. Equine Medicine. Cr. 4. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment in equine medicine.

V C S 458. Equine Surgery. Cr. 4. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment in equine surgery.

V C S 459. Small Animal Overpopulation Medicine and Surgery. Cr. 2. *Prereq: Fourth year classification in Veterinary Medicine.* A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.
A. Nebraska Humane Society, Omaha NE
B. Animal Rescue League of Iowa, Des Moines IA.
C. WaySide Waifs, Kansas City MO

V C S 460. Radiology. Cr. 3. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment in veterinary radiology.

V C S 463. Community Practice. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Clinical experience in hospital based general practice.

V C S 464. Equine Field Services. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment in equine ambulatory practice.

V C S 465. Farrier. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine; 457 and 458.* Elective clinical assignment on the principles and practices of normal and therapeutic horseshoeing and equine foot care.

V C S 466. Anesthesiology. Cr. 3. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment in small animal and large animal anesthesiology.

V C S 468. Intensive Care. Cr. 4. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment to provide supervision of hospital cases requiring intensive care and including emergency cases.

V C S 469. Ophthalmology. Cr. 2. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment in ophthalmology.

V C S 470. Radiology. Cr. arr. Repeatable. *Prereq: Fourth-year classification in veterinary medicine. Completion of VCS 460 recommended.* Elective clinical assignment in veterinary radiology.

V C S 471. Animal Reproduction. Cr. arr. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Elective clinical assignment in animal reproduction. Equine and small animal reproduction only.
E. Equine Reproduction
S. Small Animal Reproduction

V C S 472. Small Animal Medicine. Cr. arr. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Elective clinical assignment in small animal medicine.

V C S 473. Small Animal Surgery. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Elective clinical assignment in small animal surgery split between soft tissue surgery (one week) and orthopedic surgery (one week).

V C S 474. Equine Medicine and Surgery. Cr. arr. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Elective clinical assignment in equine medicine or surgery.
M. Medicine
S. Surgery

V C S 476. Anesthesiology. Cr. arr. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Elective clinical assignment in small animal and large animal anesthesiology.

V C S 478. Intensive Care. Cr. arr. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Elective clinical assignment in intensive care.

V C S 479. Ophthalmology. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine and V C S 469.* Elective clinical assignment in ophthalmology.

V C S 480. Veterinary Dentistry. Cr. 1. F. *Prereq: Third or Fourth-year classification in veterinary medicine.* All aspects of veterinary dentistry, prophylaxis, endodontics, and orthodontics.

V C S 483. Advanced Small Animal Surgery. Cr. 2. Repeatable. *Prereq: Fourth-year classification in veterinary medicine and V C S 473.* Elective clinical assignment in small animal surgery. One or both sections offered can be taken more than once.
O. Orthopedic surgery
S. Soft tissue surgery

V C S 490. Independent Study. Cr. arr. Repeatable. *Prereq: Permission of instructor.*

V C S 492. Orientation for International Experience. (2-0) Cr. 1. Repeatable. S. *Prereq: Classification in veterinary medicine.* 8 weeks. Predeparture orientation for group study abroad. Cultural considerations for the study abroad experience and a conversational language introduction. Out of class work may be assigned.

V C S 495. Seminar. Cr. R. S. *Prereq: Fourth-year classification in veterinary medicine.* Seminars and case discussions on selected subjects by staff of the College of Veterinary Medicine and others, including student presentations. Completion of the seminar is required for graduation. Satisfactory-fail only.

V C S 496. International Preceptorship. (0-40) Cr. arr. Repeatable. *Prereq: Second-year classification in veterinary medicine.* International Preceptorships and Study Abroad Group programs. Provides opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

Courses primarily for graduate students, open to qualified undergraduate students

V C S 590. Special Topics. Cr. arr. Repeatable.
A. Medicine
B. Surgery
C. Theriogenology
D. Radiology
E. Anesthesiology

V C S 596. International Preceptorship. (0-40) Cr. arr. Repeatable. F.S.SS. *Prereq: Admission to graduate college.* International Preceptorships and Study Abroad Group programs. Provides opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

V C S 599. Creative Component. Cr. arr. *Prereq: Enrollment in nonthesis master's degree program.*

Courses for graduate students

V C S 604. Seminar. Cr. 1. Repeatable. F.S.

V C S 640. Advanced Radiology. (2-0) Cr. 2. *Prereq: 448.* Detailed principles of clinical radiology with particular reference to radiographic interpretation.

V C S 671. Advanced General Surgery. (1-3) Cr. 2. *Prereq: Permission of instructor.* Course designed to discuss and perform advanced surgical procedures in soft tissue, orthopedic and neurological surgery. Minimally invasive surgical procedures and organ transplantation will be included.

V C S 672. Advanced Special Surgery. (1-3) Cr. 2. *Prereq: Permission of instructor.* Innovative techniques in microvascular, thoracic, gastrointestinal, neurological and reconstructive surgery will be investigated.

V C S 676. Advanced Medicine. (2-0) Cr. 2. *Prereq: 445.* Principles of general medicine. A study in depth of factors that contribute to the development of clinical signs as related to the pathogenesis of disease.

V C S 677. Advanced Medicine. (2-0) Cr. 2. *Prereq: 445.* An advanced study of metabolic diseases.

V C S 699. Research. Cr. arr. Repeatable.
A. Medicine
B. Surgery
C. Theriogenology
E. Anesthesiology

Veterinary Diagnostic and Production Animal Medicine

Patrick Halbur, Chair of Department

University Professor: McKean

Professors: Evans, Halbur, Harris, Hoffman, Hopkins, Hyde, Janke, Osweiler, Shearer, Thomson, Trampel, Uhlenhopp, Yoon, Zimmerman

Professors (Emeritus): Carson, Hartwig, Hopper, Kunesh, Wass

Professor (Collaborator): Thacker

Associate Professors: Engelken, Frana, Hurd, Kersting, Main, Millman, O'Connor, Thompson, Timms, Youngs

Associate Professors (Collaborators): Apley, Polson

Assistant Professors: G. Dewell, Holtkamp, Karriker, Opriessnig, Ramirez, Wang

Assistant Professors (Adjunct): Harmon, Imerman, Kinyon

Assistant Professors (Collaborators): Erdman

Instructors (Adjunct): Clothier, Irwin, Madson, Patterson, Vander Ley

Senior Clinicians: Baker, Cooper, Gorden

Lecturers: Bickett-Weddle, C. Plummer, Sweiger

Clinicians: R. Dewell, Ensley, Gauger, Johnson, Kim, Leuschen, P. Plummer, Ramamoorthy, Rathje, Schwartz, Strait, West

Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see V*eterinary Medicine, Curriculum.*

Courses in veterinary diagnostic and production animal medicine provide students with basic and advanced skills in diagnostics, reproduction, medicine, surgery, production, and health management of the major livestock species. Students in the fourth year of the curriculum in veterinary medicine may elect to take advanced courses in beef, dairy, swine, poultry or sheep production medicine. Elective courses may include preceptorships in private practices, at other veterinary schools, in research and disease control laboratories, or in related agribusinesses.

Production animal medicine emphasizes the integration of veterinary medicine with nutrition, genetics, economics, food safety, and other disciplines, enabling graduates to acquire and use a broad knowledge base to support the health and improve the production and efficiency of the food supply chain.

Graduate Study in Veterinary Preventive Medicine

Veterinary Preventive Medicine is a multidisciplinary program focused on the study of health and disease in populations. The various disciplines represented in the program are unified by a common approach based on the application of statistical methods to problem solving in populations. Through their research and course work, students will learn to understand and apply a variety of disciplines, principles, and techniques to population health issues involving environmental, ecological, nutritional, genetic, infectious, or non-infectious diseases.

Graduate study in Veterinary Preventive Medicine will provide valuable skills and experience to persons interested in public health, food safety, emerging infectious diseases, zoo or wildlife health management, and livestock health. A degree in Veterinary Preventive Medicine may be valuable for individuals considering a future in the biological or pharmaceutical industries, government regulatory agencies, public veterinary practice, or international service agencies responsible for population health.

Veterinary Preventive Medicine is an interdepartmental major administered by the Department of Veterinary Diagnostic and Production Animal Medicine (VDPAM) with participating faculty from colleges and departments across the University and collaborators from the National Animal Disease Center (USDA:ARS) and the National Veterinary Services Laboratories (USDA:APHIS) located in Ames, Iowa.

Both thesis and nonthesis options are available and require the completion of a minimum of 30 graduate credits for thesis and 36 graduate credits for nonthesis and a final examination.

Graduate Study in Veterinary Diagnostic and Production Animal Medicine

Veterinary Diagnostic and Production Animal Medicine masters degree is a program focused on the assessment of health and disease in populations of animals and the development of methods to study populations of animals. The various disciplines represented in the program are unified by a common approach based on the application of epidemiological and statistical methods to enable quantitative evaluation and critical appraisal of clinical and research data to continuously establish best production practices for health assurance; further to provide the principles and tools for design and execution of hypothesis-based research in production animal units or in research trials supporting animal health issues. Through their research and course work, students will learn to understand and apply a variety of disciplines, principles, and techniques to population health issues involving environmental, ecological, nutritional, genetic, infectious, or non-infectious diseases. This includes gaining knowledge of current principles of diagnostic evaluation and critical to best support decisions about animal health programs and practices.

Graduate students will be provided experiences in production animal medicine by involvement in the animal health and food supply decision making processes of modern production systems.

Graduate study in Veterinary Diagnostic and Production Animal Medicine will provide valuable skills and experience to persons interested in public health, food safety, food policy, emerging infectious diseases, wildlife health management, and livestock health assurance. A degree in Veterinary Diagnostic and Production Animal Medicine may be valuable for individuals considering leadership positions in food supply veterinary medicine.

Veterinary Diagnostic and Production Animal Medicine is administered by the Department of Veterinary Diagnostic and Production Animal Medicine (VDPAM) with participating faculty from colleges and departments across the University and collaborators from the National Animal Disease Center (USDA:ARS) and the National Veterinary Services Laboratories (USDA:APHIS) located in Ames, Iowa.

Both thesis and nonthesis options are available and require the completion of a minimum of 30 graduate credits for thesis and 36 graduate credits for nonthesis and a final examination.

Courses primarily for professional curriculum students

VDPAM 309. Intro to Production Animal Informatics. (1-0) Cr. 1. S. The fundamentals of how clinical, diagnostic, production and financial information is obtained and used by production animal operations. Students will acquire skills to create and use spreadsheets for manipulating and summarizing data. They will also acquire knowledge of where to find inexpensive and readily available resources with information on how to use spreadsheets and other software. Students will also have the opportunity to work with different record keeping programs used by swine, beef and dairy operations.

VDPAM 310. Intro to Production Medicine. Cr. 2. S. *Prereq: Currently enrolled in Vet Med III.* The role of the veterinarian in the management of animal health and production in dairy and beef cattle herds, beef feedlots and swine herds. Provides veterinary students with a starting point to understand the principles and techniques that are the basis of food-animal health management programs.

VDPAM 311. Introduction to Food Animal Clinics. (1-1) Cr. 1. Repeatable. S. *Prereq: Vaccinated for rabies, enrollment in Veterinary Medicine.* A one hour per week discussion of current cases in the food animal hospital and topics of interest. Student will learn physical examination of the food animal as well as animal handling techniques and record keeping procedures. Students will be able to participate in activities related to cases in the food animal hospital and the VDPAM Department. Satisfactory-fail only.

VDPAM 312. Veterinarian in Society II. (Cross-listed with V C S). (1-0) Cr. 1. S. *Prereq: First-year classification in veterinary medicine.* A continuation of the Veterinarian in Society series. An introduction to the topics of animal behavior, animal welfare, and the human animal bond.

VDPAM 340. Clinical Foundations I. (0-40) Cr. 1. F.S.SS. *Prereq: Classification in veterinary medicine.* One week course at Great Plains Veterinary Educational Center in Clay Center, Nebraska. An introduction to Food Supply Veterinary Medicine covering industry (beef, dairy, pork, sheep) overviews, production systems, behavior, welfare, handling and restraint and examination techniques, biosecurity, epidemiology and food safety.

VDPAM 350. Basic Livestock Nutrition and Feeding. (1-0) Cr. 1. S. *Prereq: Classification in Veterinary Medicine.* Introductory course on livestock (beef, dairy, swine, sheep, and equine) nutrition and feeding principles. Students will apply scientific facts and principles to problem-solving procedures in determining nutritious and economical livestock feeding programs.

VDPAM 402. Advanced Dairy Production Informatics. (1-1) Cr. 2. Repeatable. S. *Prereq: 309 or permission of instructor.* Advanced coverage of concepts related to collection, manipulation, analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCDart as well as other dairy management and information software. Integrates this data with dairy operations' financial situations.

VDPAM 402L. Advanced Dairy Production Informatics Lab. Cr. arr. Repeatable. S. *Prereq: Permission of instructor.* Continued practice in computer dairy records. Experience in tracking sample herd performance and providing written report with graphs/tables as the final assignment

VDPAM 407. Evidence Based Clinical Decision Making. (Dual-listed with 507). (1-0) Cr. 1. S. *Prereq: Permission of instructor.* Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations.

VDPAM 408. Poultry Diseases. (Dual-listed with 508). Cr. 2. Alt. S., offered 2010. *Prereq: Enrollment in College of Veterinary Medicine.* Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and gamebirds; biosecurity, immunization, and management procedures to prevent poultry diseases.

VDPAM 414. Veterinary Practice Entrepreneurship. (Dual-listed with 514). Cr. 2. S. *Prereq: Graduate Veterinarian.* To provide a formal exposure to the entrepreneurial and business skills necessary to own and operate a successful veterinary practice.

VDPAM 416. Bovine Reproduction Evaluation Laboratory. (0-4) Cr. 1. F.S. *Prereq: Third year classification in veterinary medicine. 10 students per section.* Bovine rectal palpation techniques will be repetitively taught in 7 four-hour sessions. Students will also learn techniques of epidural anesthesia, artificial insemination, and ultrasonic imaging. University-owned cattle will be used.

VDPAM 419. Advanced Swine Production Informatics. (1-0) Cr. 1. F. *Prereq: 309.* Advanced coverage of concepts related to collection, manipulation, analysis and reporting of information used by swine production companies. Production, financial, diagnostic and clinical data will be covered in the course. Hands-on experience with computer software and information systems used in swine production will be provided. Students will learn to objectively evaluate the validity of information that is presented to them and also be able to make practical and useful recommendations regarding the types of information tools that can/should be used. The students will learn what software and information systems are available and be able to critically evaluate them.

VDPAM 420. Preceptorship in Veterinary Medical Practice. Cr. arr. Repeatable. F.S.SS. *Prereq: Fourth-year classification in veterinary medicine.*. Elective course in veterinary practice under the guidance of veterinarians in approved practice settings.

VDPAM 426. Veterinary Toxicology. (Dual-listed with 526). (3-0) Cr. 3. S. *Prereq: Third-year classification in veterinary medicine.* Study of toxicological diseases of domestic animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

VDPAM 436. Beef Records Analysis. (0-30) Cr. arr. F.S. *Prereq: Classification in Veterinary Medicine, VM1-VM3 or special permission of instructor.* The class will have both a lecture and lab component and students can enroll in one or both. Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability. Enrolling in the class for multiple semesters will be encouraged.

VDPAM 437. Basic Clinical Skills for Production Medicine (MS 623-701): Dairy Herd Problem Identification. (7-33) Cr. 2. F.S.SS. *Prereq: Fourth-year classification in veterinary medicine.* Seven hours recitation/discussion and 33 hours clinical experience per week. Course taken for two weeks at University of Wisconsin, Madison, on a space-available basis. Learn to interpret DHI records and use them to identify and monitor herd problems of production, mastitis, reproduction, and replacement heifer management. Evaluate rates and treatment protocols of common dairy herd diseases. Assess dairy housing including ventilation and freestalls. Estimate costs of herd problems and develop partial-budgets.

VDPAM 438. Mastitis Problem Investigations (MS 623-703): Mastitis/Milk Quality. (9-31) Cr. 2. F.S.SS. *Prereq: Fourth-year classification in veterinary medicine.* Nine hours recitation/discussion and 31 hours clinical experience per week. Course taken for two weeks at University of Wisconsin, Madison, on a space-available basis. Learn to evaluate rates of clinical mastitis using manual and computerized (DC305) record systems. Interpret somatic cell count records to target mastitis problems. Collect samples and interpret milk microbiology reports. Evaluate mastitis risks in housing systems (stalls, bedded packs, etc). Analyze milking systems and milker practices. Develop mastitis treatment protocols.

VDPAM 439. Clinical Investigations of Fresh Cow and Calf Problems (MS 623-705): Applied Dairy Nutrition. (3-37) Cr. 2. F.S.SS. *Prereq: Fourth-year classification in veterinary medicine.* Three hours lecture, 37 hours clinical experience per week. Course taken for two weeks at University of Wisconsin, Madison, on a space-available basis. Learn to evaluate calf and peri-parturient cow management practices. Develop an investigation stragegy for ambiguous herd problems. Collect samples and interpret herd-based diagnostic tests for infectious and metabolic diseases. Assess environmental risk factors for metabolic and infectious disease including hygiene and housing. Assess nutritional status of herds via nutritional management, actual feed intake, particle length determination, etc.

VDPAM 440. Introduction to Clinics. (Cross-listed with V C S). Cr. R. F. *Prereq: Third-year classification in veterinary medicine.* Rotating assignments through multiple sections within the Veterinary Teaching Hospital.

VDPAM 445. Clinical Medicine. (3-0) Cr. 3. S. *Prereq: Third year classification in veterinary medicine.* Clinical diagnosis and treatment of diseases of swine, beef, dairy, and sheep.

VDPAM 450. Disturbances of Reproduction. (Cross-listed with V C S). (4-0) Cr. 4. F. *Prereq: Third-year classification in veterinary medicine.* General principles of diseases causing disturbances in reproduction.

VDPAM 451. Clinical Embryo Transfer. (0-40) Cr. 2. F.S.SS. *Prereq: Fourth year classification in veterinary medicine.* Elective clinical assignment in techniques of embryo transfer. Primary species studied will be bovine but equine and small ruminant embryo transfer will be covered during appropriate seasons. Enrollment is limited to four students per two week session.

VDPAM 455. Diagnostic Laboratory Practicum. Cr. 2. Repeatable. F.S. *Prereq: Fourth-year classification in veterinary medicine.* Practical experience in diagnosis of infectious and toxic diseases of livestock through exposure to cases in the ISU Veterinary Diagnostic Laboratory.

VDPAM 456. Veterinary Diagnostic Lab Methods & Applications. (16-0) Cr. 1. F. *Prereq: VM 2, VM 3 or VM 4.* Cases materials are used to develop diagnostic questions and to better understand the value of diagnostic tests. Testing methods and interpretation of diagnostic tests are coupled with sampling strategy and objective assessment of available evidence to provide accurate diagnosis.

VDPAM 476. Food Animal Field Service. (40-0) Cr. 2. F.S. *Prereq: Fourth year classification in Veterinary Medicine or Permission of Instructor.* Elective course in food animal field services. Students will assist the University veterinarian in delivering health care production management services to the ISU livestock farms and other selected farms in the region. Focus will be on delivery of individual animal care and establishment of best practices for herd management of dairy production systems at the university and in the region.

VDPAM 477. Food Animal Medicine and Surgery. Cr. arr. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Clinical assignment focused on the management of food animal medicine and surgery cases. Specific instruction in clinical evaluation of cases coupled with appropriate diagnostic testing and therapeutic intervention will be emphasized. Additional instruction will be provided in disease prevention, intensive care and management of food animal species. Particular emphasis will be placed on appropriate on-label and extra-label drug usage in food animal species.

VDPAM 479. Applied Swine Production Medicine. (0-40) Cr. arr. Repeatable. F.S.SS. *Prereq: 310.* Advanced course in swine production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit.

VDPAM 480. Swine Production Medicine. (15-25) Cr. 2. Repeatable. F.S.SS. *Prereq: 310 or permission of instructor.* Two week clinical rotation in swine production medicine. Students will be assigned to take the lead in investigating field based client cases with supervision of the instructors. Develop critical thinking skills that will allow students to apply concepts of herd management, production analysis, economic analysis, and disease prevention in addressing client cases. Variable amounts of travel to farm sites will be required with the potential for rare overnight stays.

VDPAM 482. Applied Beef Production Medicine. (0-40) Cr. arr. Repeatable. F.S.SS. *Prereq: 310.* Advanced course in beef production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week.
A. Assignment with practicing veterinarian and/or production unit
B. Bull Breeding Soundness at Great Plains Veterinary Educational Center (GPVEC)
C. Calving at GPVEC
D. Feedlot Management at GPVEC
E. Weaning Management at GPVEC
F. Pregnancy Examination at GPVEC
G. Bovine Reproduction at GPVEC
I. Stocker/Feedlot Management

VDPAM 483. Beef Production Medicine. (15-20) Cr. 2. F.S. *Prereq: 310.* Two week advanced clinical rotation in beef production medicine. Fifteen hours recitation/discussion and 20 hours clinical experience per week. This course is designed to expose students to cow-calf and feedlot production concepts. The activities scheduled for the rotation depend greatly on the time of year. When ever possible, the class incorporates field trips. Students should anticipate that travel is required and overnight stays may be required. These field trips can vary in length from several hours to several days and may include weekends. As of 2006, one week of the rotation is spent at the Great Plains Veterinary Education Center, Clay Center, NE. Students should, therefore, plan accordingly and contact the instructor, immediately, if they anticipate a conflict. Students should not schedule Grand Rounds during this rotation.

VDPAM 484. Dairy Production Medicine. (15-20) Cr. 2. F.SS. *Prereq: Fourth-year classification in veterinary medicine; 310.* Two week course in dairy production medicine combining class time with multiple on-farm visits to learn various management aspects (DHIA, DC305 & PC Dart record analysis, calf rearing through lactating cows, reproduction programs, udder health and milk quality, biosecurity, welfare, nutrition and cow comfort) for a wide variety of dairy operations. Students will learn the latest in dairy management by reviewing current topic articles and gain experience in farm evaluation through a group project. Fifteen hours recitation/discussion and 20 hours clinical experience per week.

VDPAM 485. Applied Dairy Production Medicine. (0-40) Cr. arr. Repeatable. F.S.SS. *Prereq: VDPAM 484.* Advanced course in dairy production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit.

VDPAM 486. Introduction to Small Ruminant Production Medicine. (13-6) Cr. 1. S. *Prereq: Classification in Veterinary Medicine.* Herd health, disease monitoring and prevention, and typical management systems will be emphasized in lecture. Students will be required to learn and demonstrate proficiency at typical veterinary procedures such as blood collection, breeding soundness exams and parasite evaluations. Students will also be expected to develop herd health programs for individual producers. Field trip required.

VDPAM 487. Livestock Disease Prevention. (3-0) Cr. 3. F. A survey of diseases of large domestic animals, including discussion of causes, transmission, and control. Designed for students majoring in agricultural sciences.

VDPAM 488. Laboratory in Clinical Microbiology. Cr. 1. Repeatable. F.S.SS. *Prereq: Fourth-year classification in veterinary medicine.* Application of microbiological procedures to the diagnosis of infectious diseases.

VDPAM 489. Issues in Food Safety. (Cross-listed with An S, FS HN, HRI). (1-0) Cr. 1. S. *Prereq: Credit or enrollment in FS HN 101 or 272 or HRI 233; FS HN 419 or 420; FS HN 403.* Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

VDPAM 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of department chair.*

VDPAM 491. Advanced Ruminant Nutrition. (30-10) Cr. 3. F. *Prereq: 350 recommended.* Beef and dairy nutrition from the calf to the adult, lactating cow. Balanced rations for beef cow-calf, feedlot & dairy operations. Introduces different feedstuffs and forage varieties to determine those that are best suited for bovine diets.

VDPAM 492. Orientation for International Experience. (2-0) Cr. 1. S. *Prereq: Classification in veterinary medicine.* Predeparture orientation for group study abroad. Cultural considerations for the study abroad experience and a conversational language introduction. Out of class work will be assigned.

VDPAM 494. Advanced Dairy Production Medicine II. (20-20) Cr. 2. S. *Prereq: 484 or permission of instructor.* Advanced coverage in investigating dairy herd problems relating to milk quality or nutrition. Milk quality and nutrition troubleshooting will be taught through the combination of lecture and on-farm investigations. Students will combine lecture knowledge, data acquired from on-farm investigations and record analysis to generate management plans.

VDPAM 496. International Preceptorship. (0-40) Cr. arr. Repeatable. F.S.SS. *Prereq: Second-year classification in veterinary medicine.* International Preceptorships and Study Abroad Group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

Courses primarily for graduate students, open to qualified undergraduate students

VDPAM 507. Evidence Based Clinical Decision Making. (Dual-listed with 407). (1-0) Cr. 1. S. *Prereq: Permission of instructor.* Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations.

VDPAM 508. Poultry Diseases. (Dual-listed with 408). Cr. 2. Alt. S., offered 2010. *Prereq: Permission of instructor.* Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and gamebirds; biosecurity, immunization, and management procedures to prevent poultry diseases.

VDPAM 514. Veterinary Practice Entrepreneurship. (Dual-listed with 414). Cr. 2. S. To provide a formal exposure to the entrepreneurial and business skills necessary to own and operate a successful veterinary practice.

VDPAM 522. Principles of Epidemiology and Population Health. (Cross-listed with V MPM). (3-0) Cr. 3. S. *Prereq: Micro 310 or equivalent.* Epidemiology and ecology of disease in populations. Disease causality and epidemiologic investigations. Issues in disease prevention, control, and eradication.

VDPAM 526. Veterinary Toxicology. (Dual-listed with 426). (Cross-listed with Tox). (3-0) Cr. 3. S. *Prereq: Permission of instructor.* A study of the disease processes in animals caused by toxicants and the use of differential diagnostic and therapeutic procedures. Emphasis is on use of clinical cases to define mechanism of poisoning, diagnostic and management procedures and public health and food safety issues.

VDPAM 527. Applied Statistical Methods in Population Studies. (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Stat 401.* Measures of agreement, assessment of diagnostic tests, correlated data analysis, bioinformatics, linear models, comparison of multiple groups.

VDPAM 529. Epidemiological Methods in Population Research. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: Stat 401.* Designing, conducting, and analyzing data from field-based studies, including cross-sectional, case-control, cohort, and ecological studies. Clinical trials. Modeling disease in populations.

VDPAM 542. Introduction to Molecular Biology Techniques. (Cross-listed with GDCB, B BMB, BCB, B M S, FS HN, Hort, NutrS, EEOB, NREM,V MPM). Cr. 1. Repeatable. F.S.SS. *Prereq: Graduate classification.* Workshops in basic molecular biology techniques and related procedures. Satisfactory-fail only.
A. DNA Techniques. Includes genetic engineering procedures, sequencing, PCR, and genotyping. (F.S.SS.)
B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonol antibody production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F.)

VDPAM 546. Clinical and Diagnostic Toxicology. (Cross-listed with Tox). (0-3) Cr. arr. Repeatable. F.S.SS. *Prereq: D.V.M. degree or 526.* Advanced study of current problems and issues in toxicology. Emphasis on problem solving utilizing clinical, epidemiological, and laboratory resources.

VDPAM 551. Advanced Veterinary Diagnostic Medicine. (0-3) Cr. arr. Repeatable. F.S.SS. *Prereq: 455.* Necropsy techniques of animals with emphasis on gross and microscopic lesion description and microbiological diagnosis of disease in food animals.

VDPAM 570. Risk Assessment for Food, Agriculture and Veterinary Medicine. (Cross-listed with Agron, Tox). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: Stat 104 or consent of instructor: Wolt, Hurd.* Risk assessment principles as applied to biological systems. Exposure and effects characterization in human and animal health and ecological risk assessment. Risk analysis frameworks and regulatory decision-making. Introduction to quantitative methods for risk assessment using epidemiological and distributional analyses. Uncertainty analysis.

VDPAM 590. Special Topics. Cr. arr. Repeatable. *Prereq: Permission of instructor.* Topics in medicine, surgery, theriogenology; beef, swine, dairy, or sheep production medicine.

VDPAM 596. International Preceptorship. (0-40) Cr. arr. Repeatable. F.S.SS. *Prereq: Admission to graduate college.* International Preceptorships and Study Abroad Group programs. Provides opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

VDPAM 599. Creative Component. Cr. arr. Repeatable. *Prereq: Enrollment in nonthesis master's degree program.*

Courses for graduate students

VDPAM 650. Swine Diagnostic Medicine. Cr. arr. SS. *Prereq: Permission of instructor.* A detailed study of swine diseases emphasizing the pathogenesis and diagnosis of swine respiratory, enteric, reproduction, metabolic, and septicemic diseases.

VDPAM 655. Advanced Swine Production Medicine. Cr. arr. S. *Prereq: Permission of instructor.* Detailed overview of applied techniques used in swine production medicine; production modeling and record analysis, production economics and financial analysis, therapeutic and vaccination strategies, quality control procedures and food safety.

VDPAM 699. Research. Cr. arr. Repeatable.

Veterinary Microbiology and Preventive Medicine

Michael Wannemuehler, Interim Chair of Department

Distinguished Professors: Roth

Distinguished Professors (Emeritus): Beran, Cheville, Kaeberle, Ross, Switzer

Professors: Minion, Nolan, Phillips, Platt, Reynolds, Rosenbusch, Thoen, Uhlenhopp, Wannemuehler, Yoon, Zhang, Zimmerman

Professors (Emeritus): Hogle, Kramer, Moon

Professors (Collaborators): Carpenter, Kehrli, Nystrom-Dean, Schultz, Tabatabai, Thacker

Associate Professors: Cornick, Davis, Griffith

Associate Professors (Collaborators): Frey, Harp, Panigrahy, Richt, Sacco, Sharma, Zuerner

Assistant Professors: Bellaire, Blitvich, Miller, Sponseller

Assistant Professors (Collaborators): Anderson, Bannantine, Brockmeier, Faaberg, Halling, Lager, Register, Roof, Scupham, Stabel, Stanton, Vaughn, Vincent, Waters, Wesley

Instructor (Collaborator): Schlater

Lecturer: Brown

Clinician: Plummer

The Department of Veterinary Microbiology and Preventive Medicine offers instruction in the areas of bacteriology, mycology, virology, immunology, epidemiology and public health at the graduate level.

Microbiologic, immunologic, regulatory, and preventive medical aspects of infectious diseases of animals are emphasized in courses for students in the veterinary curriculum.

Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see *Veterinary Medicine, Curriculum*.

The Department of Veterinary Microbiology and Preventive Medicine provides instruction on pathogenic bacteria, fungi, and viruses and their interaction with host animal species. Principles and applications of infectious diseases, immunity to disease, diagnostic methods for infectious diseases, and vaccinology are covered. Principles and applications of epidemiology, public health, preventive veterinary medicine, regulatory veterinary medicine and food safety are also emphasized.

Graduate Study

The department offers opportunities for the degree doctor of philosophy with a major in veterinary microbiology. A specialization in preventive medicine is an option for this degree. Graduates in the Veterinary Microbiology and Preventive Medicine programs have a broad understanding of the fundamental processes involved in infectious diseases, pathogenesis and immunology. They are able to effectively establish research programs, which involve complex biological systems and disease syndromes. They are also prepared to address microbial-based social, ethical and environmental problems. Graduates acquire effective written and oral communication skills which lead to successful research and teaching careers in the medical and veterinary sciences. The department also offers work towards the master of science with majors in veterinary microbiology or veterinary preventive medicine. A non-thesis master's option is available for majors in preventive medicine. Courses are open for students majoring in other graduate programs.

Prerequisite to graduate study is completion of coursework in general microbiology, biology, biochemistry, mathematical sciences, and physics. Candidates for the majors in veterinary microbiology should possess an undergraduate degree in biomedical science with emphasis in medical microbiology or the D.V.M. degree. Candidates for the major in preventive medicine should possess the D.V.M. degree.

The department also participates in the interdepartmental majors and programs in genetics, immunobiology, and MCDB (molecular, cellular, and developmental biology; see Index).

Each graduate student must demonstrate proficiency in English composition within two semesters in residence.

Courses primarily for professional curriculum students

V MPM 378. Case Study IV. (2-0) Cr. 2. S. *Prereq: Second-year classification in veterinary medicine.* Case-based applied learning that relates to the basic science courses. Emphasis on early integration of basic and clinical science concepts.

V MPM 380. Veterinary Immunology. (2-0) Cr. 2. S. *Prereq: First-year classification in veterinary medicine.* Structure and function of the immune system in animals.

V MPM 386. Veterinary Microbiology. (3-5) Cr. 5. F. *Prereq: Second-year classification in veterinary medicine.* Bacteria and fungi of veterinary importance with emphasis on mechanisms of disease production and laboratory diagnostic procedures.

V MPM 387. Veterinary Virology. (3-0) Cr. 3. S. *Prereq: Second-year classification in veterinary medicine.* Basic principles of animal virology. Pathogenesis of viral infections. The nature and ecology of viruses of veterinary and zoonotic importance.

V MPM 388. Public Health and the Role of the Veterinary Profession. (3-0) Cr. 3. S. *Prereq: Second-year classification in veterinary medicine.* Fundamental epidemiology, zoonotic diseases, occupational health, food safety, other public health topics.

V MPM 390. Topics in Veterinary History. (2-0) Cr. 1. S. 8 weeks. Significant persons, noteworthy events, and pivotal scientific discoveries in the course of the development and advancement of veterinary medicine from ancient times to the present.

V MPM 409. Infectious Diseases of Captive Wild Animals. (1-0) Cr. 1. F. *Prereq: Second year classification in veterinary medicine.* Infectious diseases (bacterial, viral, and mycotic) of non-human primates, birds, ruminants, cold-blooded animals, marine mammals, and carnivores.

V MPM 437. Infectious Diseases and Preventive Medicine. (3-0) Cr. 3. S. *Prereq: Third-year classification in veterinary medicine.* Etiology, epidemiology, laboratory diagnosis, regulatory control and preventive medicine aspects of the infectious diseases of swine, sheep, goats, cattle and horses.

V MPM 486. Laboratory in Public Health. Cr. 1. Repeatable. F.S. *Prereq: Fourth-year classification in veterinary medicine.* Discussions, lectures, exercises and field trips related to veterinary public health.

V MPM 490. Independent Study. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor and department chair.*

V MPM 491. CDC Epidemiology Elective Preceptorship. Cr. 6. F.S.SS. Introduction to preventive medicine, public health and the principles of applied epidemiology within the working atmosphere of the Centers for Disease Control.

V MPM 494. Zoo Preceptorship. Cr. arr. Repeatable. F.S.SS. *Prereq: Fourth year classification in veterinary medicine.* Elective course in zoo veterinary practice under guidance of approved veterinarians.

V MPM 496. International Preceptorship. (0-40) Cr. arr. Repeatable. F.S.SS. *Prereq: Second-year classification in veterinary medicine.* International Preceptorships and Study Abroad group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

Courses primarily for graduate students, open to qualified undergraduate students

V MPM 520. Medical Immunology I. (4-0) Cr. 4. F. *Prereq: Micro 310 or V MPM 386, 3 credits in biochemistry.* Nature of the immune system and its role in health and disease. Credit for either V MPM 520 or 575, but not both may be applied toward graduation.

V MPM 522. Principles of Epidemiology and Population Health. (Cross-listed with VDPAM). (3-0) Cr. 3. S. *Prereq: Micro 310 or equivalent.* Epidemiology and ecology of disease in populations. Disease causality and epidemiologic investigations. Issues in disease prevention, control, and eradication.

V MPM 536. Zoonoses and Environmental Health. (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: 386, 387 and 388 or equivalent or permission of instructor.* Pathogensis and control of zoonotic diseases. Factors influencing transmission and survival of pathogenic microorganisms in the environment.

V MPM 540. Livestock Immunogenetics. (Cross-listed with An S, Micro). (2-0) Cr. 2. Alt. S., offered 2011. *Prereq: An S 561 or Micro 575 or V MPM 520.* Basic concepts and contemporary topics in genetic regulation of livestock immune response and disease resistance.

V MPM 542. Introduction to Molecular Biology Techniques. (Cross-listed with GDCB, BBMB, BCB, B M S, EEOB, FS HN, Hort, NREM, NutrS, VDPAM). Cr. 1. Repeatable. F.S.SS. *Prereq: Graduate classification.* Workshops in basic molecular biology techniques and related procedures. Satisfactory-fail only.

A. DNA Techniques. Includes genetic engineering procedures, sequencing, PCR, and genotyping. (F.S.SS.)
B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonol antibody production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F.)

V MPM 565. Professional Practice in the Life Sciences. (Cross-listed with Pl P, Agron, An S, BCB, Hort, Micro). Cr. arr. Repeatable. S. *Prereq: Graduate classification.* Professional discourse on the ethical and legal issues facing life science researchers. Offered in modular format; each module is four weeks.
A. Professional Practices in Research. (Cr. 1.0) Good scientific practices and professional ethics in the life sciences.
B. Intellectual Property and Industry Interactions. (Cr. 0.5) Ethical and legal issues facing life scientists involved in research interactions with industry.

V MPM 575. Immunology. (Cross-listed with MICRO). (3-0) Cr. 3. S. *Prereq: 310.* Humoral and cellular immune functions. Interactions between cells and factors of the immune system that result in health and disease. Micro 475L optional. Credit for either V MPM 575 or V MPM 520, but not both, may be applied toward graduation.

V MPM 586. Medical Bacteriology. (Cross-listed with MICRO). (4-0) Cr. 4. F. *Prereq: Permission of instructor.* Bacteria associated with diseases of vertebrates, including virulence factors and interaction of host responses.

V MPM 586L. Medical Bacteriology Laboratory. (0-6) Cr. 2. F. *Prereq: credit or enrollment in 586 or 625.* Procedures used in isolation and identification of pathogenic bacteria, including molecular and genetic techniques used in research.

V MPM 587. Animal Virology. (4-0) Cr. 4. *Prereq: Permission of instructor.* The biology of animal viruses and pathgenic mechanisms in viral diseases.

V MPM 587L. Laboratory in Animal Virology. (0-3) Cr. 1. *Prereq: Permission of the instructor.* Basic laboratory techniques in virology.

V MPM 590. Special Topics. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.*

V MPM 596. International Preceptorship. (0-40) Cr. arr. Repeatable. F.S.SS. *Prereq: Admission to graduate college.* International Preceptorships and Study Abroad Group programs. This course will provide opportunties for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunties.

V MPM 599. Creative Component. Cr. arr. *Prereq: Nonthesis M.S. Option only.* A written report based on laboratory research, library reading, or topics related to the student's area of specialization and approved by the student's advisory committee.

Courses for graduate students

V MPM 604. Seminar. (1-0) Cr. 1. Repeatable. F. Satisfactory-fail only.

V MPM 608. Molecular Virology. (Cross-listed with Micro, Pl P). (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: BBMB 405 or GDCB 511.* C. Miller, B. Blitvich, A. Miller. Advanced study of virus host-cell interactions. Molecular mechanisms of viral replication and pathogenesis.

V MPM 615. Molecular Immunology. (Cross-listed with BBMB, Micro). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: BBMB 405 or 502.* Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signalling pathways leading to expression of genes that control and activate immune function.

V MPM 625. Mechanisms of Bacterial Pathogenesis. (Cross-listed with Micro). (4-0) Cr. 4. Alt. S., offered 2011. *Prereq: Credit in Biochemistry and Microbiology.* Review of current concepts in specific areas of microbial pathogenesis including the genetic basis for bacterial disease, genetic regulation and control of virulence factors and their mechanisms of action, and host-pathogen interactions at the cellular and molecular levels. The application of microbial genetics to understanding pathogenesis will be included.

V MPM 629. Advanced Topics in Cellular Immunology. (2-0) Cr. 2. Alt. S., offered 2010. *Prereq: 520 or 575.* Current topics and literature in cellular immunology. Topics include thymocyte development and selection, T cell interactions with antigen presenting cells, and lymphocyte effector functions.

V MPM 660. Pathogenesis of Persistent Infections. (Cross-listed with V Pth). (2-0) Cr. 2. Alt. S., offered 2011. *Prereq: Permission of instructor.* Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites.

V MPM 690. Current Topics. Cr. arr. Repeatable. F.S.SS. *Prereq: Permission of instructor.* Colloquia or advanced study of specific topics in a specialized field.
A. Immunology
B. Infectious Diseases

V MPM 698. Seminar in Molecular, Cellular, and Developmental Biology. (Cross-listed with MCDB, BBMB, GDCB, MIcro). (2-0) Cr. arr. Repeatable. F.S. Student and faculty presentations.

V MPM 699. Research. Cr. arr. Repeatable.

Veterinary Pathology

www.vetmed.iastate.edu/departments/vetpath/

Claire Andreasen, Chair of Department

Distinguished Professor (Emeritus): Cheville

University Professor (Emeritus): Kluge

Professors: Ackermann, Andreasen, Bender, Halbur, Haynes, Hyde, Janke, Myers, Osweiler

Professors (Emeritus): Carson, Greve, Hagemoser, Holter, Hopper, Jeska, Ledet, Miller, Moon, Niyo, Seaton, Stahr

Professors (Collaborators): Arp, Brogden, Meador, Sasseville

Associate Professors: Beetham, Jarvinen, Jones, Yaeger

Associate Professors (Collaborators): Olsen, Perry

Assistant Professors: Danielson, Fales, Garcia-Tapia, Hostetter, Petersen

Assistant Professors (Adjunct): van Geelen

Assistant Professors (Collaborators): Greenlee, Harris, Meyerholz, Palmer, Thacker, Thomsen

Instructors (Adjunct): Burrough, Johnson, Olivier, Ostojic, Pillatzki, Plattner

Lecturer: Flaherty

Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see *Veterinary Medicine, Curriculum*.

The Department of Veterinary Pathology offers a systematic study of basic disease mechanisms with emphasis on the changes in gene expression, cells, tissues, organs, and body fluids associated with disease. The theory and practice of veterinary pathology, veterinary clinical pathology, veterinary parasitology, veterinary toxicology, and related disciplines provide the basis for accurate diagnosis and a rational approach to the treatment and prevention of animal diseases.

Graduate Study

The department offers work for the degree master of science and doctor of philosophy with a major in veterinary pathology. As an option, students may choose an area of specialization in pathology, veterinary anatomic pathology, veterinary clinical pathology, veterinary toxicology, or veterinary parasitology (www.vetmed.iastate.edu/departments/vetpath/default.aspx?id=2562&ekmensel=c57dfa7b_166_170_2562_1). The master of science degree is available on a thesis or nonthesis basis in the veterinary pathology major with or without an area of specialization.

For the ACVP training track (residency) of the anatomic or clinical pathology graduate program designed to train veterinary pathologists, the student must have a funded position within the Department of Veterinary Pathology. If the student does not have a funded position or is not enrolled in the departmental degree program, enrollment in courses pertaining to the residency program and activities that support the residency program must have the approval of the Department Chair of Veterinary Pathology and the head of the departmental residency training program.

Graduates have a broad understanding of the mechanistic basis of disease pathogenesis. They are able to communicate with clinicians, other scientists, and other colleagues on scientific matters, and with the general public on related science policy matters. Graduates are able to address complex problems facing the agricultural and biomedical sciences, and comparative medicine, and are able to make appropriate diagnoses and investigations of animal diseases. They consider ethical, social, legal and environmental issues, and are skilled at carrying out research, communicating research results, and writing concise and competitive grant proposals.

Collaborative work is recommended in other departments in the College of Veterinary Medicine or departments or programs in other colleges. The department participates in the interdepartmental program in immunobiology (www.immunobiology.iastate.edu/) and the interdepartmental major in toxicology (www.toxicology.iastate.edu). (See Index.)

A veterinary degree (doctor of veterinary medicine or equivalent) is required for training in Veterinary Anatomic Pathology and Veterinary Clinical Pathology. Other specializations do not require the veterinary degree. A minimum score of 550 paper-based (213 computer-based; 79 internet based) is required on the TOEFL examination for students whose native language is not English. Scores on the standardized Graduate Record Examination (GRE) General Test are required of students not having a veterinary degree from the United States or Canada. The GRE General Test is strongly recommended for all other applicants. A foreign language requirement will be determined by the

student's program of study committee with the approval of the departmental chair. The Graduate English Examination is a graduate college requirement for native English speakers.

The M.S. thesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 30 graduate credits. Following completion of all other requirements, a comprehensive final examination is administered covering all graduate work including the thesis. The examination is typically oral, but a written component may be specified by the program of study committee. The degree candidate must submit a thesis, including at least one manuscript suitable for publication, to the committee members and departmental chair at least two weeks prior to the final examination. The departmental requirement for graduate courses includes 3 credits of basic biological sciences (biochemistry, genetics, cell biology), 4 credits of statistics (Stat 401), 4 credits of systemic pathology (from V Pth 570 or 571), 1 credit of postmortem pathology (V Pth 551), 1 credit of seminar (V Pth 605), and a significant number of research credits (V Pth 699).

The M.S. nonthesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 40 graduate credits including at least 10 graduate credits earned outside the department. Every nonthesis master's degree program requires evidence of individual accomplishment demonstrated by completion of a creative component, special report, or scientific study. A minimum of 3 credits of such independent work (V Pth 599) and a practical diagnostic examination (V Pth 606) corresponding to the area of specialization are required on every program of study. The final examination is comprehensive and consists of written and oral questions. The departmental requirement for graduate courses includes those for the M.S. thesis degree plus additional courses corresponding to the area of degree emphasis of specialization. Contact the department for a more complete list of requirements and information on areas of specialization.

The Ph.D. degree in veterinary pathology, with or without an area of specialization, requires a minimum of 72 graduate credits including at least 12 graduate credits earned outside the department. The preliminary examination, consisting of written and oral components, is comprehensive and not restricted to the content of graduate courses. The degree candidate must submit a dissertation, including at least two manuscripts suitable for publication, to the committee members and departmental chair at least two weeks prior to the final examination. The final examination is primarily a defense of the dissertation, but it may include questions on other areas of specialized knowledge. The department also offers a combined DVM/Ph.D. program designed for completion of courses for the Ph.D. degree in Veterinary Pathology simultaneously with study in the professional curriculum in the College of Veterinary Medicine. Contact the department for a more complete list of requirements for the Ph.D. degree and information on areas of specialization.

Courses primarily for professional curriculum students

V Pth 342. Anatomic Pathology I. (Dual-listed with 542). (2-2) Cr. 3. S. *Prereq: First-year classification in veterinary medicine.* Basic pathology with emphasis on disease in animals and introduction to diseases by system.

V Pth 372. Anatomic Pathology II. (3-3) Cr. 4. F. *Prereq: 342.* Response to injury by each body system.

V Pth 376. Veterinary Parasitology. (Dual-listed with 576). (3-3) Cr. 4. F. *Prereq: Second-year classification in veterinary medicine.* Parasitic diseases of domestic animals and their control.

V Pth 377. Case Study III. (0-4) Cr. 2. F. *Prereq: Second-year classification in veterinary medicine.* Clinical applications of the basic sciences taught concurrently in the fall semester of the second year curriculum in veterinary medicine.

V Pth 401. Basics of Medical Terminology. (1-0) Cr. 1. F. 8 weeks, offered first half semester only. Discussion of prefixes, suffixes, and roots (mostly from Latin and Greek) that comprise medical terms.

V Pth 409. Introduction to Veterinary Cytology and Laboratory Techniques. (0-2) Cr. 1. S. *Prereq: Third-year classification in veterinary medicine.* Description, interpretation, and techniques for cellular preparations from tissues and body fluids.

V Pth 410. Llama Medicine. (1-0) Cr. 1. S. *Prereq: Second or third year classification in veterinary medicine.* Offered first half semester only. Introduction to basic camelid medicine, including anatomy, behavior, restraint, handling, husbandry, herd health, common diseases, surgical conditions, and anesthesia protocols.

V Pth 425. Clinical Pathology. (2-4) Cr. 4. S. *Prereq: 372.* Principles of clinical hematology, clinical chemistry, and urinalysis in domestic animals.

V Pth 456. Necropsy Laboratory Practicum. Cr. 1. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Practicum in postmortem examination and diagnosis.

V Pth 457. Clinical Pathology Laboratory Practicum. Cr. 1. Repeatable. *Prereq: Fourth-year classification in veterinary medicine.* Methodology in clinical chemistry, hematology and cytology; practice in interpretation of laboratory data.

V Pth 478. Global Protozoology - Molecular Biology of Protozoa. (Dual-listed with 578). (Cross-listed with Ent). (2-1) Cr. 3. F. *Prereq: Permission of instructor.* Analysis of cellular systems, molecules, and organelles of pathogenic protozoan parasites. Emphasis is placed on processes and systems that are unique to protozoa, are important to understanding vector-parasite-host biology/ecology, or are targets of disease prevention/treatment programs for international disease control. Nonmajor graduate credit.

V Pth 490. Independent Study. Cr. arr. Repeatable. *Prereq: Permission of instructor and department chair.*

V Pth 492. Orientation for International Experience. (2-0) Cr. 1. Repeatable. S. *Prereq: Classification in veterinary medicine.* 8 weeks. Predeparture orientation for group study abroad. Cultural considerations for the study abroad experience and a conversational language introduction. Out of class work will be assigned.

V Pth 496. International Preceptorship. (0-40) Cr. 1-12. Repeatable. F.S.SS. *Prereq: Second-year classification in veterinary medicine.* International Preceptorships and Study Abroad Group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experience in international locations. The course consists of 40 hour per week experiential learning opportunities.

Courses primarily for graduate students, open to qualified undergraduate students

V Pth 530. Teaching and Learning in Veterinary Medical Education. (3-0) Cr. 3. F. Study of principles of teaching and learning as they relate to veterinary medical education. These include: theories of learning, analyzing content/learners/context, identifying goals, identifying appropriate instructional strategies (specific to medical education), matching assessment processes to goals and strategies, common curricular approaches and decision-making processes in medical education, and the scholarship of teaching and learning for veterinary medical educators.

V Pth 542. Anatomic Pathology I. (Dual-listed with 342). (2-2) Cr. 3. S. *Prereq: Graduate classification and Biol 352 or equivalent for graduate credit, permission of instructor.* Basic pathology with emphasis on disease in animals and introduction to diseases by system.

V Pth 548. Diagnostic Parasitology Laboratory. Cr. 1-3. F.S.SS. *Prereq: 376 or 576.* Contact hours are (0-3 to 0-9). A laboratory experience in the technical and applied aspects of veterinary parasitology.

V Pth 549. Clinical Pathology Laboratory. (0-3) Cr. 1. Repeatable. F.S.SS. *Prereq: 457; permission of instructor.* Laboratory procedures and clinical interpretations with emphasis on hematology, cytology, and clinical chemistry. Satisfactory-fail only.

V Pth 550. Surgical Pathology Laboratory. Cr. 1-3. Repeatable. F.S.SS. *Prereq: 570 or 571; permission of instructor.* Contact hours are (0-3 to 0-9). Diagnosis of lesions in biopsy specimens; classification of neoplasms. Course includes rotation through departmental biopsy service and review of selected cases from departmental archives. Satisfactory-fail only.

V Pth 551. Postmortem Pathology Laboratory. Cr. 1-3. Repeatable. F.S.SS. *Prereq: 542; permission of instructor.* Contact hours are (0-3 to 0-9). Necropsy techniques of animals with emphasis on gross and microscopic lesions and diagnosis. Satisfactory-fail only.

V Pth 554. Ethics in Scientific Research and Writing. (1-0) Cr. 1. Alt. SS., offered 2010. *Prereq: Graduate classification.* Ethical conduct in biomedical research, criticism, writing, and adherence to regulations. Satisfactory-fail only.

V Pth 570. Systemic Pathology I. (2-4) Cr. 4. Alt. F., offered 2010. *Prereq: 342 or 542; permission of instructor.* Pathology of the respiratory, reproductive, endocrine, musculoskeletal, and cardiovascular systems. Emphasis on pathogenesis and anatomic pathology correlated with interpretive clinical pathology where appropriate.

V Pth 571. Systemic Pathology II. (2-4) Cr. 4. Alt. F., offered 2009. *Prereq: 342 or 542; permission of instructor.* Pathology of the integumentary, urinary, digestive, lymphoid, and nervous systems and special senses. Emphasis on pathogenesis and anatomic pathology correlated with interpretive clinical pathology where appropriate.

V Pth 576. Veterinary Parasitology. (Dual-listed with 376). (3-3) Cr. 4. F. *Prereq: Graduate classification and 542.* Parasitic diseases of domestic animals and their control.

V Pth 578. Global Protozoology - Molecular Biology of Protozoa. (Dual-listed with 478). (Cross-listed with Ent). (2-1) Cr. 3. F. *Prereq: Permission of instructor.* Analysis of cellular systems, molecules, and organelles of pathogenic protozoan parasites. Emphasis is placed on processes and systems that are unique to protozoa, are important to understanding vector-parasite-host biology/ecology, or are targets of disease prevention/treatment programs for international disease control.

V Pth 590. Special Topics. Cr. 1-4. Repeatable. F.S.SS. *Prereq: Permission of instructor.*
A. Veterinary Pathology
B. Veterinary Parasitology
C. Veterinary Toxicology

D. Veterinary Clinical Pathology
E. Other

V Pth 596. International Preceptorship. (0-40) Cr. 1-12. Repeatable. F.S.SS. *Prereq: Admission to graduate college.* International Preceptorships and Study Abroad Group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

V Pth 599. Creative Component Research. Cr. arr. Repeatable. Course for departmental graduate research.
A. Veterinary Pathology
B. Veterinary Parasitology
C. Veterinary Toxicology
D. Veterinary Clinical Pathology

Courses for graduate students

V Pth 604. Pathology Case Seminar. Cr. 1-2. Repeatable. F.S. *Prereq: permission of instructor.* Description and interpretation of microscopic lesions and clinical pathology data collected from cases of natural and experimental disease. Satisfactory-fail only.

V Pth 605. Current Topics Seminar. Cr. 1. Repeatable. F.S.SS. A seminar of graduate research at the time of thesis or dissertation defense.

V Pth 606. Diagnostic Interpretation. Cr. R. F.S.SS. *Prereq: permission of instructor.* A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.
A. Veterinary Pathology
B. Veterinary Parasitology
C. Veterinary Toxicology
D. Veterinary Clinical Pathology

V Pth 652. Pathologic Hematology. (2-2) Cr. 3. Alt. S., offered 2010. *Prereq: 425; permission of instructor.* Pathologic changes in blood constituents of domestic animals.

V Pth 655. Cellular and Molecular Pathology I. (3-0) Cr. 3. Alt. S., offered 2011. *Prereq: Graduate course in biochemistry, genetics, or cell biology.* Cellular and molecular mechanisms of cell injury, cellular responses to injury, and inflammation.

V Pth 656. Cellular and Molecular Pathology II. (Cross-listed with Tox). (3-0) Cr. 3. Alt. S., offered 2010. *Prereq: Graduate course in biochemistry, genetics, or cell biology.* Cellular and molecular mechanisms of carcinogenesis.

V Pth 660. Pathogenesis of Persistent Infections. (Cross-listed with V MPM). (2-0) Cr. 2. Alt. S., offered 2011. *Prereq: Permission of instructor.* Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites.

V Pth 663. Clinical Chemistry. (2-2) Cr. 3. Alt. S., offered 2011. *Prereq: 425; permission of instructor.* The pathophysiology, methodology, and clinical application of laboratory medicine.

V Pth 679. Histopathology of Laboratory Animals. (0-4) Cr. 2. Alt. SS., offered 2010. *Prereq: 570 or 571; permission of instructor.* Study of microscopic lesions in laboratory animals with emphasis on description, etiology, pathogenesis, and diagnosis.

V Pth 699. Research. Cr. arr. Repeatable. Course restricted to graduate program within the department.
A. Veterinary Pathology
B. Veterinary Parasitology
C. Veterinary Toxicology
D. Veterinary Clinical Pathology

Women's Studies

www.public.iastate.edu/~wsprogram/homepage.html

(Interdepartmental Program)

Diane Price Herndl, Program Director
Julie Snyder-Yuly, Assistant Director

Core Faculty: Leslie Bloom (Curriculum & Instruction), Chrisy Moutsatsos (Anthropology), Anastasia Prokos (Sociology).

Undergraduate Study

Women's Studies in the College of Liberal Arts and Sciences is a cross-disciplinary program in which students may elect a minor or a major. Women's Studies provides an opportunity for students to examine women's roles, contributions, and status in social and cultural context and to investigate a variety of disciplines from feminist perspectives. Women's Studies creates an understanding that interrelated factors —e.g., race, ethnicity, class, age, disability, religion, national origin, and sexual orientation — inform knowledge of women's history, culture, and social roles. Women's Studies seeks to improve critical thinking and to provide students with the intellectual means to question prevailing assumptions. It encourages students to explore the contexts and ideological origins of knowledge and to examine the relationship between knowledge and power in society. It promotes social responsibility by examining the connections between personal experience and political activity, and validates student contributions and voices. Women's Studies graduates are skilled in critical thinking, research methods, and effective communication. Because they have developed a thorough understanding of gender, race, and class, they can understand and work effectively with employers, colleagues, and clients to analyze and address complex social problems. Women's Studies graduates acquire strong backgrounds for careers in such areas as counseling, education, human resources, public policy, politics, business, or law. The program includes core courses in Women's Studies and cross-listed courses in anthropology, art history, classical studies, economics, English, history, health and human performance, political science, psychology, religion, sociology, speech communication, and world languages and cultures. An undergraduate major requires 33 credits of core, cross-listed, and independent study courses. Women's Studies majors must satisfy the following requirements:

1. 21 credits selected from women's studies core courses (W S).
   A. Required core courses: W S 201, 301, 401 and 402. Students must also choose between a thesis, W S 499 (3 cr.) or an internship, W S 491 (3 cr.)
   B. The remaining 6 credits should be chosen from the Women's Studies core courses: W S 203, 205, 302, 320, 350, 425, 435, 450 (may be taken more than once), and 490.
   C. No more than 6 credits of W S 490 may be counted toward the W S major.
2. 12 credits selected from W S cross-listed courses or W S core courses.

Women's Studies majors must also declare either a minor or a second major in a different program or department. Communication Proficiency requirement: The Women's Studies major requires an average grade of C- or better in English 150 and 250 (or 250H) and W S 301.

Undergraduate students may minor in Women's Studies by taking 15 semester hours of Women's Studies classes, including W S 201, 301 and one 400 level core Women's Studies course, plus 6 additional credits of core or cross-listed courses.

Any student interested in a minor or major in Women's Studies should contact the Assistant Director of the program.

Graduate Study

The graduate minor in Women's Studies is designed to provide students with knowledge of theories and methods within a variety of approaches in feminist scholarship. The program seeks to integrate and synthesize knowledge from many disciplines and to offer students opportunties for systematic study of gender and women's experiences and perspectives in all knowledge fields. Students will be prepared to take leadership roles in supporting gender equity and diversity in their careers in education, social service work, business, law, public policy, governmental and non-governmental organizations, and research.

The graduate minor requires 12 credits for students enrolled in a master's or a doctoral degree program. Students are required to take either W S 510 or W S 620; taking both is strongly recommended. Students will also take two or three electives selected from the list of core and cross-listed Women's Studies courses approved for graduate study. At least one member of the Women's Studies faculty will serve on the program of study for doctoral students. A list of eligible faculty members may be obtained from the Director of the Women's Studies program. Women's Studies has 70 affiliated faculty members from departments and programs throughout the University.

Courses primarily for undergraduate students

W S 201. Introduction to Women's Studies. (3-0) Cr. 3. Introduction to the interdisciplinary field of Women's Studies. Contemporary status of women in the U.S. and worldwide from social, economic, historical, political, philosophical and literary perspectives. Analysis of intersection of gender, race, class, and sexuality. Subject matter includes work, health, sexuality, and violence. Foundation for the other courses in the program.

W S 203. Introduction to Lesbian Studies. (3-0) Cr. 3. S. Study of contemporary and historic lesbian cultures and communities from a US and international perspective. Addresses issues of race, class, gender and sexuality as they intersect with the formation of lesbian identities. Explores who identifies as lesbian and how that dis/enables political resistance and formation of community.

W S 205. Introduction to Queer Studies. (3-0) Cr. 3. F. *Prereq: Engl 150.* Interdisciplinary study of issues relating to lesbian, gay, bisexual, transgender, and queer identities in the U.S. Attention will be given to race and socioeconomic class.

W S 222. Leadership Styles and Strategies in a Diverse Society. (Cross-listed with LAS). (3-0) Cr. 3. *Prereq: Sophomore classification.* Develop and practice leadership skills through understanding personal leadership styles, leadership theory and communication theory, including how they relate to gender issues and cultural diversity; exploring personality types, communication styles, and leadership styles, networking and developing mentoring relationships; setting goals and participating in leadership opportunities and service.

W S 258. Human Reproduction. (Cross-listed with Biol). (3-0) Cr. 3. F. *Prereq: Biol 101, or 155, or 211.* Anatomy and physiology of human reproductive systems, including fertility, pregnancy, and delivery.

W S 301. International Perspectives on Women and Gender. (3-0) Cr. 3. Repeatable. F. *Prereq: 201 or 3 credits in Women's Studies at the 300 level or above.* Study of women in a range of cultures, depending on faculty specialization. Special emphasis on women in development seen in postcolonial context. Nonmajor graduate credit.

W S 302. Issues in Women's Health and Reproduction. (3-0) Cr. 3. *Prereq: Women's Studies 201 or 3 credits in Women's Studies at 300 level or above.* Current feminist scholarship in the social sciences and humanities on women's health, health care, and reproduction. Intersections among race, gender, class, ability, and sexuality are emphasized. Nonmajor graduate credit.

W S 304. Creative Writing - Fiction. (Cross-listed with Engl). (3-0) Cr. 3. F.S. *Prereq: Engl 250, not open to freshmen.* Progresses from practice in basic techniques of fiction writing to fully developed short stories. Emphasis on writing, analytical reading, workshop criticism, and individual conferences.

W S 307. Women in Science and Engineering. (Cross-listed with Biol). (3-0) Cr. 3. F. *Prereq: A 200 level course in science, engineering or women's studies; Engl 250.* The interrelationships of women and science and engineering examined from historical, sociological, philosophical, and biological perspectives. Factors contributing to underrepresentation; feminist critiques of science; examination of successful strategies.

W S 320. Ecofeminism. (Cross-listed with Env S). (3-0) Cr. 3. Alt. F., offered 2009. *Prereq: W S 201 or 3 credits in Women's Studies at the 300 level or above.* Women's relationships with the earth, non-human nature, and other humans. The course explores the connections between the mastery of women and the mastery of nature; origins of ecofeminism and its relation to the science of ecology and to other branches of feminist philosophies. Critique of modern science, technology, political systems as well as solutions will be included.

W S 321. Economics of Discrimination. (Cross-listed with Econ). (3-0) Cr. 3. F. *Prereq: Econ 101.* Economic theories of discrimination. Analysis of the economic problems of women and minorities in such areas as earnings, occupations, and unemployment. Public policy concerning discrimination. Poverty measurement and antipoverty programs in the U.S. Nonmajor graduate credit.

W S 323. Gender and Communication. (Cross-listed with Sp Cm, ComSt). (3-0) Cr. 3. *Prereq: Sp Cm 212.* The rhetorical strategies women and men use to succeed in oral communication; the theory, principles, and practice of effective gender communication in a variety of settings. Nonmajor graduate credit.

W S 327. Sex and Gender in Society. (Cross-listed with Soc). (3-0) Cr. 3. F.S.SS. *Prereq: Soc 130 or 134.* How the biological fact of sex is transformed into a system of gender stratification. The demographics and social positions of women and men in the family, education, media, politics, and the economy. Theories of the social-psychological and sociological bases for behavior and attitudes of women and men. The relationship between gender, class, and race.

W S 328. Sociology of Masculinities and Manhood. (Cross-listed with Soc). (3-0) Cr. 3. S. *Prereq: Soc 130, 134, or W S 201.* Examination of socially constructed and idealized images of manhood, the nature of social hierarchies and relations constructed on the basis of imagery, ideologies, and norms of masculinity. Theories on gender (sociological, psychological, and biological). Particular attention given to theory and research on gender variations among men by race, class, ethnicity, sexual orientation, physical ability and age.

W S 333. Women and Leadership. (Cross-listed with LAS). (3-0) Cr. 3. *Prereq: Sophomore classification.* This course will examine historical and contemporary barriers to and opportunities for women's leadership in a variety of contexts, including professions and public service. It will examine theories of women's leadership, gender differences in leadership styles, and the perceptions and expectations about women's leadership. Multiple perspectives of women's leadership will be highlighted through lectures, readings, videos, guest speakers and group work.

W S 336. Women and Religion. (Cross-listed with Relig). (3-0) Cr. 3. F. *Prereq: Relig 105, 210 or W S 201 recommended.* Examines the status of women in various religions, feminist critiques of religious structures and belief systems, and contemporary women's spirituality movements. Nonmajor graduate credit.

W S 338. Feminist Philosophy. (Cross-listed with Phil). (3-0) Cr. 3. F. *Prereq: 3 credits in philosophy or women's studies recommended.* A critical, theoretical examination of the oppression of women, especially as it relates to issues of race, class, and sexual orientation. How concepts such as sex and gender, self and other, nature and nurture, complicate our understanding of what it means to be a woman. Historical and contemporary feminist philosophers addressing topics such as violence, sexuality, pornography, political power, family structure and women's paid and unpaid labor. Nonmajor graduate credit.

W S 339. Goddess Religions. (Cross-listed with Relig). (3-0) Cr. 3. *Prereq: Relig 205 recommended.* Exploration of the foundational myths of Goddess spirituality, including historical and cross-cultural female images of the divine and their modern usage by American women. Nonmajor graduate credit.

W S 340. Women's Literature. (Cross-listed with Engl). (3-0) Cr. 3. F. *Prereq: Engl 250.* Historical and thematic survey of literature by and about women. May include autobiographies, journals, letters, poetry, fiction, and drama. Nonmajor graduate credit.

W S 342. American Indian Women Writers. (Cross-listed with Am In). (3-0) Cr. 3. *Prereq: Engl 250.* Literature of American Indian women writers which examines their social, political, and cultural roles in the United States. Exploration of American Indian women's literary, philosophical, and artistic works aimed at recovering elements of identity, redescribing stereotypes, resisting colonization, and constructing femininity. Nonmajor graduate credit.

W S 345. Women and Literature: Selected Topics. (Cross-listed with Engl). (3-0) Cr. 3. S. *Prereq: Engl 250.* Literature by women and/or dealing with the images of women, e.g., study of individual authors or related schools of authors; exploration of specific themes or genres in women's literature; analysis of recurrent images of women in literature. Nonmajor graduate credit.

W S 346. Psychology of Women. (Cross-listed with PSYCH). (3-0) Cr. 3. S. *Prereq: 2 courses in psychology including 101.* Survey of psychological literature relating to biological, developmental, interpersonal, and societal determinants of the behavior of women.

W S 350. African American Women. (Cross-listed with Af Am). (3-0) Cr. 3. S. *Prereq: 3 credits in Women's Studies or African American Studies.* Economic, social, political and cultural roles of African American women in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored. Nonmajor graduate credit.

W S 352. Gay and Lesbian Literature. (Cross-listed with Engl). (3-0) Cr. 3. *Prereq: Engl 250.* Literary portrayals of gay and lesbian lives and relationships from many different genres. Attention to changing definitions and representations of sexual orientation and gender identity over time.

W S 370. Studies in English Translation. (3-0) Cr. 3. Readings, discussions, and papers in English.
F. French topics on women or feminism (cross listed to Frnch 370F)
G. German topics on women or feminism (cross listed to Ger 370G)
R. Russian topics on women or feminism (cross listed to Rus 370R)
S. Hispanic topics on women or feminism (cross listed to Span 370S)

W S 374. Women in the Ancient Mediterranean World. (Cross-listed with Cl St, Hist). (3-0) Cr. 3. Repeatable. S. *Prereq: Any one course in Cl St, W S, Latin, or Greek.* Chronological and topical survey of the status of women in the Ancient Mediterranean world; study of constructs of the female and the feminine. Readings from ancient and modern sources. Emphasis on either the Greek world and Hellenistic Egypt, or Hellenistic Egypt and Rome.
A. Hellenic World and Hellenistic Egypt
B. Roman World including Roman Egypt

W S 380. History of Women in Science, Technology, and Medicine. (Cross-listed with Hist). (3-0) Cr. 3. *Prereq: Sophomore classification.* History of women's relationship to the fields of science, technology, and medicine, as students and professionals, consumers, subjects and patients, family members, workers and citizens. Concentrates especially on 19th and 20th century United States, concluding with an examination of current issues of special interest to women in science, technology, and medicine.

W S 385. Women in Politics. (Cross-listed with Pol S). (3-0) Cr. 3. S. Examination of the entry and participation of women in politics in the United States and other countries including a focus on contemporary issues and strategies for change through the political process.

W S 386. History of Women in America. (Cross-listed with Hist). (3-0) Cr. 3. *Prereq: Sophomore classification.* A survey of social, economic, and political aspects of women's role from colonial era to present; emphasis on employment, education, concepts of sexuality, and changing nature of the home.

W S 401. Feminist Theories. (3-0) Cr. 3. *Prereq: 201 or 3 credits in Women's Studies at the 300 level or above.* Current theories of feminism, the feminine and sexual difference. Topics in race, class, sexuality, and ethnicity as they are addressed in diverse feminisms. May include readings in lesbian, Black, postcolonial, psychoanalytic and postmodern thought. Nonmajor graduate credit.

W S 402. Feminist Research in Action. (3-0) Cr. 3. S. *Prereq: 201 and 301.* Feminist research methods and scholarship. Class collaborates on a community research and action project to improve women's lives. Nonmajor graduate credit.

W S 422. Women, Men, and the English Language. (Cross-listed with Engl, Ling). (3-0) Cr. 3. S. *Prereq: Engl 219.* The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions. Nonmajor graduate credit.

W S 425. Intersections of Race, Class and Gender. (Dual-listed with 525). (3-0) Cr. 3. *Prereq: W S 201 and one additional W S course.* Race, ethnicity, class and gender distinctions and intersections lead to inequitable distributions of power, social well-being, and resources. Explores how inequities are institutionalized and how multiple identities are experienced by women in daily life.

W S 435. Women and Development. (Dual-listed with 535). (3-0) Cr. 3. *Prereq: 201 or 3 credits in Women's Studies at the 300 level or above.* Cross-cultural study of development utilizing both case studies and theoretical works. Explores the nature of women's roles in developing countries and the ways women and their needs have been excluded/included in development approaches, policies, and projects. Includes discussion of actual development projects as well as women's organizing.

W S 444. Sex and Gender in Cross-cultural Perspective. (Dual-listed with 544). (Cross-listed with Anthr). (3-0) Cr. 3. S. *Prereq: Anthr 201; Anthr 306*

recommended. Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation.

W S 450. Topics in Women's Studies. (Dual-listed with 550). (3-0) Cr. 3. Repeatable. S. *Prereq: 201 or 3 credits in Women's Studies at the 300 level or above.* Special and/or experimental topics in a specific discipline, e.g., women and education, women and religion, women and the law, women and science.

W S 460. Seminar in Gender and Ethnicity. (Cross-listed with Engl). (3-0) Cr. 3. Repeatable. F. *Prereq: Completion of 9 credits of surveys; completion of or concurrent enrollment in 339; junior classification.* Selected readings of various authors, movements, eras, or genres. Readings in criticism; required research paper. Nonmajor graduate credit.

W S 486. History of Medicine, Gender, and the Body. (Cross-listed with Hist). (3-0) Cr. 3. *Prereq: Sophomore classification.* History of medicine, history of science, and women's history combine for an intensive examination of topics related to health, the body, and medical care over the centuries. Topics include gender and sexuality, reproduction, historical interpretations of gender differences, and the politics of women's health. Nonmajor graduate credit.

W S 488. Interdisciplinary Research on Women and Leadership. (Cross-listed with LAS). (3-0) Cr. 3. Research on women and leadership in selected content areas (e.g., Athletics, Business, Education, Politics and Public Service, and Science and Engineering). Following overview of quantitative and qualitative methods and critical analyses of journal articles on women and leadership. Students will work with a faculty mentor in selected content areas to research, write and present paper.

W S 490. Independent Study. Cr. arr. Repeatable. *Prereq: Any two courses in Women's Studies, permission of instructor, consultation with the Women's Studies Program Director.* Independent study on a topic in Women's Studies.

W S 491. Senior Internship. (3-0) Cr. 3. Repeatable. F.S.SS. *Prereq: Senior classification. Permission of department.* Internship designed to provide an application of Women's Studies principles and methods in a workplace. To be arranged with an internal or external employer and conducted under the supervision of a member of the Women's Studies faculty.

W S 499. Senior Thesis. (3-0) Cr. 3. F.S.SS. *Prereq: Senior classification.* Senior thesis to be independently researched and written under the supervision of a member of the Women's Studies faculty.

Courses primarily for graduate students, open to qualified undergraduate students

W S 510. Contemporary Feminist Theories. (3-0) Cr. 3. F. Advanced study of current theoretical developments in Women's Studies in the U.S. and around the world. Examination of the epistemological bases of feminist scholarship.

W S 525. Intersections of Race, Class and Gender. (Dual-listed with 425). (3-0) Cr. 3. *Prereq: W S 201 and one additional W S course.* Race, ethnicity, class and gender distinctions and intersections lead to inequitable distributions of power, social well-being, and resources. Explores how inequities are institutionalized and how multiple identities are experienced by women in daily life.

W S 535. Women and Development. (Dual-listed with 435). (3-0) Cr. 3. Cross-cultural study of development utilizing both case studies and theoretical works. Explores the nature of women's roles in developing countries and the ways women and their needs have been excluded/included in development approaches, policies, and projects. Includes discussion of actual development projects as well as women's organizing.

W S 544. Sex and Gender in Cross-cultural Perspective. (Dual-listed with 444). (Cross-listed with Anthr). (3-0) Cr. 3. *Prereq: Anthr 201; Anthr 306 recommended.* Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation.

W S 545. Women's Literature. (Cross-listed with Engl). (3-0) Cr. 3. Repeatable. Alt. F., offered 2010. *Prereq: 6 credits in literature.* Primary texts by women writers; historical, thematic, formal, or theoretical approaches; secondary readings; e.g., Nineteenth-Century Women Writers; American Women's Personal Narratives; Southern Women Writers of the U.S.

W S 550. Topics in Women's Studies. (Dual-listed with 450). (3-0) Cr. 3. Repeatable. *Prereq: 201 or 3 credits in Women's Studies at the 300 level or above.* Special and/or experimental topics in a specific discipline, e.g., women and education, women and religion, women and the law, women and science.

W S 586. Proseminar in Women's History and Feminist Theory. (Cross-listed with Hist). (3-0) Cr. 3. *Prereq: Permission of instructor.* Feminist theory from the 1960s to the present as it relates to the writing of women's history. Analysis of interpretations of U.S. women's history from patriarchal to postmodernist perspectives.

W S 587. Diversity Issues in Marriage and Family Therapy. (Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered 2009. Review treatment implications associated with topics such as gender and power, race/ethnicity, family structure, and socioeconomic status. Discuss treatment implications of social oppression and discrimination on families.

W S 590. Special Topics. Cr. arr. *Prereq: Permission of Women's Studies Program Director.* Independent study on a topic in Women's Studies.

W S 594. Women/Gender in Art. (Dual-listed with 394). (Cross-listed with ART H, Dsn S). (3-0) Cr. 3. *Prereq: Graduate classification, permission of instructor.* Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture.

Courses for graduate students

W S 620. Advanced Seminar in Feminist Research Methods. (3-0) Cr. 3. S. Focus on feminist interdisciplinary research methods. Analysis of contemporary issues facing feminist scholars. Students conduct original research in their disciplinary areas.

World Languages and Cultures

Mark Rectanus, Chair of Department

University Professor (Emeritus): Joanna Courteau

Professors: Bratsch-Prince, Henry, Leonard, Matibag, M. Rectanus

Professors (Emeritus): Bernard, Dow, Frink, J. N. Lacasa

Associate Professors: Allen, Amidon, Gasta, Mariner, Mook, Mu

Associate Professors (Emeritus): Dial, Nabrotzky, Thogmartin

Associate Professor (Adjunct): Rosenbusch

Assistant Professors: Dominguez-Castellano, Haywood-Ferreira, L'Hote, Mesropova, Pardo-Ballester, Rizo-Arbuckle, Vander Lugt, Weber-Feve

Assistant Professors (Emeritus): Chatfield, Johnson

Assistant Professor (Adjunct): Rodriguez

Instructor (Adjunct): Kottman

Senior Lecturers: Martin, Taoutel, Waldemer

Lecturers: Amling, Baszczynski, Cai, Galarraga-Oropeza, Goodman, Guthrie, Looney, Meyers, E. Rectanus, Rosenstock, Shi, Wilhelm, Zwanziger

Undergraduate Study

Curriculum: World language study should be an integral part of an academic program for most students. The theoretical understanding of and practical experience in language underlie many intellectual disciplines that try to meet the complex problems of contemporary society. Courses offered by the Department of World Languages and Cultures are designed to develop students' understanding of a second culture through the language spoken by that culture.

Upon the completion of their program of studies in the Department of World Languages and Cultures, majors with a concentration in French, German, Russian Studies, or Spanish will demonstrate proficiency in five goal areas: Communication, Cultures, Connections, Comparisons, and Communities. Students will be able to: (a) use their concentration language to present and interpret information and to communicate both orally and in writing; (b) demonstrate an understanding of the relationships among the products, practices, and perspectives of the culture(s) in which their concentration language is spoken; (c) demonstrate their ability to acquire information and further their knowledge through their concentration language; (d) demonstrate an understanding of the nature of language and the concept of culture by making comparisons with their own language and culture(s); and (e) demonstrate a desire to become a life-long learner of their concentration language.

Graduates will achieve both linguistic proficiency and cultural literacy through the study of the language and culture of their program. Linguistic proficiency entails the ability to function effectively in the target language and the ability to communicate competently with native speakers of the target language. Students of Latin and Ancient Greek demonstrate proficiency by becoming able to read the languages and to translate from these languages into clear and idiomatic English. Cultural literacy includes a general knowledge of the culture's history, familiarity with its literature, and basic knowledge of its social and political institutions.

The Department offers a major in World Languages and Cultures with two options, leading to the Bachelor of Arts degree: 1) Languages and Cultures with a Concentration in French, German, Russian Studies, or Spanish; 2) Languages and Cultures for Professions (as a second major only) with a Concentration in French, German, Russian Studies, or Spanish. The Department offers minors in Chinese Studies, French, German, Latin, Russian Studies, and Spanish; and instruction in Arabic, Classical Greek, and Portuguese. The Department also houses the College of Liberal Arts and Sciences' Program in Classical Studies.

A full statement of requirements for majors and minors may be obtained from the Department. For a complete statement of all the college degree requirements, *see Liberal Arts and Sciences, Curriculum.* Current and detailed information about the Department, including placement information, is available on-line at www.language.iastate.edu.

Policies

Students who have had formal training in world languages offered at Iowa State may obtain credit by passing appropriate examinations. Students with native fluency in languages taught at Iowa State may not enroll in or take the Exam for Credit

in elementary or intermediate courses (100 and 200 level) in their native language. Students are considered to have native fluency if their ethnic first language as indicated on the matriculation form is the language in which they wish to enroll. Students are also considered to have native fluency if they have had substantial attendance at a secondary school or university where the language of instruction is the language in which they wish to enroll at ISU. Students with native fluency may be eligible to enroll in literature and civilization courses in their native language at the 300 level or above; such students must also consult the department office to determine eligibility for advanced composition and conversation courses (300 level and above). Students who have completed *three or more years* of high-school world language study may not enroll in or receive credit for 101-102 in those languages; credit may be obtained by passing the appropriate Exam for Credit or by completing an advanced sequence (200-level or higher) in that language. 101-102 may not be taken on a remedial basis.

Students who have completed two years but less than three years of a single high-school world language may not enroll in a 101 course in that language. These students may enroll in either a 102 course in that language, or in the case of Spanish, Span 97. Before enrolling in either Span 97 or a 102 language course, students are recommended to take the on-line placement test available at www.language.iastate.edu. Span 97 is designed for students who need additional remedial work in the language at the first-year level (101-102) and are not planning to continue their language study at the second-year 201-202 level. Students who complete Span 97 with a passing grade will have fulfilled the LAS world language requirement. Students who have completed Span 97 and wish to pursue further study in Spanish at the 201-202 level may enroll in 102.

Students with disabilities who need to satisfy the world language requirement may direct questions to their academic adviser and the Disability Resource Office.

Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is not normally available.

The Department of World Languages and Cultures participates in the Iowa Regents' world language summer study abroad programs in France, Peru and Spain. The Department also offers summer programs in Greece, Russia, Spain and Mexico; and semester study abroad programs in Mexico and Spain. Information concerning these programs can be obtained directly from the Department.

Language and literature courses numbered 300 and above are principally taught in the target language; courses numbered in the 270s, 370s, and 470s are taught in English. For courses taught in English about Ancient Greek and Rome, see *Classical Studies*. Students may not take intermediate (200 level) courses for credit after successfully completing any advanced (300/400 level) course, except those in the 370 series or courses taught in English translation. Students who have successfully completed any course in the intermediate (200 level) sequence may not take a lower-numbered course in that sequence for a grade.

Students at all levels of foreign language study will have access to the Language Studies Resource Center, located in 3142 Pearson. The Resource Center contains an extensive collection of world language materials, including audio-visual materials, electronic resources, music, books, language specific software and hardware, and other course-related materials.

Materials fees: Each student enrolled in a 100- through 400- level world language course is assessed a materials and professional support fee of $25.00 per course. No student will be charged more than $50.00 per semester, regardless of the number of world language courses in which she or he is enrolled for the semester. If a student drops a course subject to the fee by the 15th day of the semester the fee for that course will not be assessed.

Communication Proficiency requirement: The Department requires a grade of C- or better in each of Engl 150 and 250 (250H), and a grade of C or better in any course numbered between 370 and 379 (with the exception of Rus 375) taught by the Department of World Languages and Cultures or the interdepartmental program in Classical Studies.

Languages and Cultures for Professions (LCP)

Students with primary majors in the College of Business or the College of Engineering are encouraged to complete an LCP second major option in World Languages and Cultures with a concentration in French, German, Russian Studies, Spanish, or Chinese Studies (minor only). The primary objective of the LCP option is to provide learning environments within which students can achieve global literacy, linguistic proficiency, and inter-cultural competence. In the LCP curriculum, students will learn how professions are shaped by social and cultural forces and, alternatively, how professions shape society. In courses on contemporary culture and society, students will identify and analyze issues dealing with the complex interrelationships of languages and cultures and consider how they may affect their chosen profession. Students will experience living and working in diverse cultural settings through study abroad and internship opportunities offered through the LCP program and/or in collaboration with the Colleges of Business and Engineering. Students enrolled in the LCP second major option may receive non-graded academic credit for the successful completion of internships (WLC courses numbered 499 in each language area).

For the LCP second major option, students will complete 30 credits within their language concentration beyond the fourth-semester level, selected from the list of approved LCP core courses and electives designated for their respective college curricula in either Business or Engineering. Students may only enroll in the LCP option as a second major and may not graduate with the LCP option in the WLC major alone.

Students in the College of Business may combine course work in the International Business (IB) Secondary Major with course work in LCP by selecting from a list of approved options. Students should consult their academic adviser in the College of Business and the WLC advisor for coursework and international experience that fulfill requirements in both the IB and LCP major options. (IB) Major

Graduate Study

The Department of World Languages and Cultures offers course work leading to a graduate minor in French, German, Latin, Russian Studies or Spanish. The graduate minor in each of these languages is designed to provide an opportunity for graduate students to further their knowledge of that language to complement work in their major disciplines. The graduate minor provides formal recognition of student achievement and expertise in one of the languages above. Graduate minor credits are also offered in Greek.

Graduate Minor

Program Requirements:

a. Prerequisites: Graduate students who wish to minor in one of the languages above must have 400-level proficiency in that language. When this is not the case, the student may be required to take a language course below the 400-level, which would not count towards the graduate minor requirements.

b. Course Requirements: For the M.A. or M.S.: Three courses in the language of the minor. No more than three credits may be in courses numbered 401, 402, and 403. For the Ph.D.: Four courses in the language of the minor which must include at least one three credit course at the 500 level. No more than three credits may be in courses numbered 401, 402, or 403. At least two courses for the M.A. and the Ph.D. minors must be taken in residence at Iowa State University. Papers written for these courses are expected to have a content and depth commensurate with the graduate status of the student.

Arabic (Arabc)

Arabc 101. Elementary Arabic I. (4-0) Cr. 4. F. Introduction to modern standard Arabic. Development of reading, writing, listening comprehension, and speaking skills. Attention to use of the Arabic alphabet. Presentation of culture and social customs in Arabic-speaking countries.

Arabc 102. Elementary Arabic II. (4-0) Cr. 4. S. Introduction to modern standard Arabic. Development of reading, writing, listening comprehension, and speaking skills. Attention to use of the Arabic alphabet. Presentation of culture and social customs in Arabic-speaking countries.

Chinese Studies (Chin)

Chinese Studies Minor Option 1: Chinese Studies

Minors in Chinese Studies are required to take Chin 202-202 (Intermediate Chinese), and 9 credits at the 300 level; of these at least 3 additional credits are in Chinese (courses taught in Chinese or English) and 3 credits in one of the following:

Chin 375 (China Today, 3 cr.)
Hist 337 (History of Modern China II, 3 cr.)

The remaining 3 credits are chosen from:
Anthr 326 (Peoples and Cultures of East and Southeast Asia, 3 cr.)
Arch 427 (History, Theory, and Criticism of Chinese Architecture, 3 cr.)
Chin 301 (Advanced Chinese Readings I, 3 cr.)
Chin 302 Advanced Chinese Readings II, 3 cr.)
Chin 370 (Contemporary Chinese Film & Fiction, 3 cr.)
Chin 375 (China Today, 3 cr.)
Chin 490 (Independent Study, 1-6 cr.)
Hist 336 (History of Modern China I, 3 cr.)
Hist 337 (History of Modern China II, 3 cr.)

Chinese Studies Minor Option 2: Languages and Cultures for Professions

A. International Business Secondary Major and Languages and Cultures for Professions Minor Emphasis in Chinese Studies (18 credits)
Required Core Courses: (12 cr.)
Chin 202 (Intermediate Chinese, 5 cr.)
Chin 304 (Chinese for Business and Professions, 4 cr.)
Chin 499 (Internship, 3 cr.)
Electives: (6 cr. – choose from only one of the following categories)

Category 1
Chin 272 (Chinese Cultural Tradition, 3 cr.)
Chin 370 (Contemporary Chinese Film & Fiction, 3 cr.)
Chin 375 (China Today, 3 cr.)
Category 2
Chin 272 (Chinese Cultural Tradition, 3 cr.)
Chin 337 (Modern China II, 3 cr.)
Hist 336 (History of Modern China I, 3 cr.)
Hist 337 (History of Modern China II, 3 cr.)
Hist 479 (China and the Cold War, 3 cr.)
Pol S. 341 (Politics of Asia, 3 cr.)

B. Languages and Cultures for Professions (Business without International Business Secondary Major) (30 credits)
Required Core Courses: (12 cr.)
Chin 202 (Intermediate Chinese, 5cr.)
Chin 304 (Chinese for Business and Professions, 4 cr.)
Chin 499 (Internship, 3 cr.)

Electives (6 cr. –choose from onlyone of the following categories)

Category 1
Chin 272 (Chinese Cultural Tradition, 3 cr.)
Chin 370 (Contemporary Chinese Film & Fiction, 3 cr.)
Chin 375 (China Today, 3 cr.)

Category 2
Chin 272 (Chinese Cultural Tradition, 3 cr.)
Chin 337 (Modern China, 3 cr.)
Hist 336 (History of Modern China I , 3 cr.)
Hist 337 (History of Modern China II, 3 cr.)
Hist 479 (China and the Cold War, 3 cr.)
Pol S. 341 (Politics of Asia, 3 cr.)

C. Engineering Major and Languages and Cultures for Professions Minor Emphasis in Chinese Studies (18 credits)
Required Core Courses: (12 cr.)
Chin 202 (Intermediate Chinese, 5cr.)
Chin 304 (Chinese for Business and Professions, 4 cr.)
Chin 499 (Internship, 3 cr.)

Electives (6 cr. –choose from onlyone of the following categories)

Category 1
Chin 272 (Chinese Cultural Tradition, 3 cr.)
Chin 370 (Contemporary Chinese Film & Fiction, 3 cr.)
Chin 375 (China Today, 3 cr.)

Category 2
Chin 272 (Chinese Cultural Tradition, 3 cr.)
Chin 337 (Modern China, 3 cr.)
Hist 336 (History of Modern China I, 3 cr.)
Hist 337 (History of Modern China II, 3 cr.)
Hist 479 (China and the Cold War, 3 cr.)
Pol S. 341 (Politics of Asia, 3 cr.)

Courses primarily for undergraduate students

Chin 101. Elementary Mandarin Chinese I. (5-0) Cr. 5. F. Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Chin 102. Elementary Mandarin Chinese II. (5-0) Cr. 5. S. *Prereq: 101.* Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Chin 201. Intermediate Mandarin Chinese I. (5-0) Cr. 5. F. *Prereq: 102.* Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, introduction to traditional characters and dictionaries; intensification of character acquisition. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Chin 202. Intermediate Mandarin Chinese II. (5-0) Cr. 5. S. *Prereq: 201.* Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, introduction to traditional characters and dictionaries; intensification of character acquisition. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is not normally available.

Chin 272. Introduction to Chinese Culture. (3-0) Cr. 3. F. Interdisciplinary introduction to Chinese society and culture from earliest times to the present. Part one: ancient literature, philosophy, religion, art, architecture, customs. Part two: transition to a modern society, social changes, urban life, popular culture, and contemporary values and ideas. Cultural traditions of Hong Kong, Taiwan, and Tibet are also included.

Chin 301. Advanced Chinese Readings I. (3-0) Cr. 3. F. *Prereq: 202 or equivalent.* Continuing study of Chinese beyond intermediate level with a focus on reading and writing skills. Cultural literacy through a variety of texts from the humanities, social sciences, mass media and business.

Chin 302. Advanced Chinese Readings II. (3-0) Cr. 3. S. *Prereq: 301 or equivalent.* Continuing study of Chinese beyond intermediate level with a focus on reading and writing skills. Cultural literacy through a variety of texts from the humanities, social sciences, mass media and business.

Chin 304. Chinese for Business and Professions. (4-0) Cr. 4. S. *Prereq: Chin 202 or equivalent.* Introduction to professional language and culture in China and Chinese-speaking regions in Asia. Development of all four language skills, focusing on practical applications in the professional contexts. Development of global awareness and cross-cultural understanding. Preparation for internships.

Chin 370. Chinese Literature in English Translation. (3-0) Cr. 3. F. *Prereq: Engl 150 or equivalent.* Topics may include traditional prose, poetry, and drama; the Chinese novel; twentieth-century fiction and film; gender and cosmology in Chinese literature. All readings and class discussions in English.

Chin 375. China Today. (3-2) Cr. arr. S. *Prereq: Engl 250 or equivalent*. Topics may vary from year to year. Readings, discussions, and papers in English on contemporary society, culture, literature and the arts.

Chin 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in Chinese and permission of department chair.* Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. Nonmajor graduate credit.

Czech (Czech)

Courses primarily for undergraduate students

Czech 101. Elementary Czech I. (3-2) Cr. 4. F. Introduction to the Czech language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Czech culture. Offered as part of Russian, Eurasian, and East European Distance Learning Consortium via electronic technology and extensive use of Internet and digital materials. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Czech 102. Elementary Czech II. (3-2) Cr. 4. S. *Prereq: Czech 101.* Continued introduction to the Czech language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Czech culture. Offered as part of Russian, Eurasian, and East European Distance Learning Consortium via electronic technology and extensive use of Internet and digital materials. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Czech 201. Intermediate Czech I. (3-2) Cr. 4. F. *Prereq: Czech 102 or permision of instructor.* Review of first year principles and expanded study of grammar. Development of reading, writing, listening comprehension, and speaking in Czech within the context of Czech culture. Offered as part of Russian, Eurasian, and East European Distance Learning Consortium via electronic technology and extensive use of Internet and digital materials. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Czech 202. Intermediate Czech II. (3-2) Cr. 4. S. *Prereq: Czech 201 or permission of the instructor.* Review of first year principles and expanded study of grammar. Development of reading, writing, listening comprehension, and speaking in Czech within the context of Czech culture. Offered as part of Russian, Eurasian, and East European Distance Learning Consortium via electronic technology and extensive use of Internet and digital materials. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

French (Frnch)

World Languages and Cultures majors with a concentration in French have two options:

WLC Option I: French Studies
Under WLC Option I, students with a concentration in French Studies must complete at least 30 credits beyond the intermediate (201-202) level.

A. French Studies Required Core Courses (24 credits)

Frnch 301 (Reading and Writing French I, 3 cr.)
Frnch 302 (Reading and Writing French II, 3 cr.)
Frnch 310 (French Pronunciation and Phonetics, 1 cr.)
Frnch 326 (Studies in French and Francophone Art or Film, 3 cr.) or Frnch 333 (Topics in Contemporary French and Francophone Literature, 3 cr.)
Frnch 334 (Topics in Early Modern and Modern French Literature, 3 cr.)
Frnch 440 (Seminar in French or Francophone Studies, 3 cr.)
Frnch 471 (Foundations of French Civilization, 4 cr.)
Frnch 472 (Modern France and French Civilization, 4 cr.)

B. Electives (6 credits) Six additional credits at the 300 or 400 level in courses instructed in French.

Curricular Notes: Frnch 440 and either Frnch 471 or Frnch 472 must be completed on campus and may not be fulfilled through transfer or study abroad.

Minor in French
The French Minor requires a total of 16 credits in French beyond the 102 level, 10 credits of which must be at the 300-level.

Option 1: 16 credits in French, at least 10 of which at the 300-level, including 301, 302, 310 and one of the following courses: 304, 333, 334.

Option 2: 16 credits in French, at least 10 of which at the 300-level, including 395.

Curricular Notes: Frnch 395 (8 credits) counts towards the minor and may be allocated as follows: generic 300-level credits (1-8 cr.), Frnch 310 (1 cr.), Frnch 320 (3 cr.). French courses instructed in English, including Frnch 370, 375, 378, 471, 472, do not count toward the minor.

WLC Option II: Languages and Cultures for Professions
Under WLC Option II, students with a concentration in French must complete at least 30 credits beyond the intermediate (Frnch 201-202) level.

A. Languages and Cultures for Professions (Business)
Students with a primary major in the College of Business may select from one of the following options:

Business Option 1
International Business Secondary Major and French LCP Minor Emphasis (27 credits total)

I. International Business Secondary Major
(12 credits from approved list)

II. LCP Minor Emphasis Courses (15 credits)
Frnch 301 (Reading and Writing French I, 3 cr.)
Frnch 302 (Reading and Writing French II, 3 cr.)
Frnch 304 (French for Business and Professions, 3 cr.)
Frnch 320 (France Today, 3 cr.)
Frnch 499 (Internship, 3 cr.) or Frnch 395 (Study Abroad, 3 cr.) or other study abroad program (3 cr.)

Curricular Notes: Frnch 395 or 499 fulfills the IB 3-month international experience requirement. Frnch 304, 395 and 499 may be double counted under Business Option 1.

Business Option 2
International Business Secondary Major and LCP Major Option (42 credits total)

I. International Business Secondary Major
(12 credits from approved list)

II. LCP Second Major (30 credits)
A. Required Core Courses (24 cr.)
Frnch 301 (Reading and Writing French I, 3 cr.)
Frnch 302 (Reading and Writing French II, 3 cr.)
Frnch 304 (French for Business and Professions, 3 cr.)
Frnch 320 (France Today, 3 cr.)
Frnch 333 (Topics in Contemporary French and Francophone Literature, 3 cr.) or Frnch 334 (Topics in Early Modern and Modern Frnch Literature, 3 cr.)
Frnch 440 (Seminar in French or Francophone Studies, 3 cr.) (May be repeated once for 6 credits maximum.)
Frnch 471 (Foundations of French Civilization, 3 or 4 cr.) or Frnch 472 (Modern French Civilization, 3 or 4 cr.)
Frnch 499 (Internship, 3 cr.) or Frnch 395 (Study Abroad, 3 cr.) or other study abroad program (3 cr.)

B. Electives (6 credits)
Six additional credits at the 300 or 400 level including 471, 472 or courses instructed in French.

*Additional credit from an approved study abroad program may be applied to the major.

Curricular Notes: Students may enroll in the Languages and Cultures for Professions (LCP) Option in French as a Second Major only. They may not graduate with the Second Major alone.

Business Option 3
III. Languages and Cultures for Professions (without International Business Secondary Major) (30 credits)
A. Required Core Courses (24 cr.)
Frnch 301 (Reading and Writing French I, 3cr.)
Frnch 302 (Reading and Writing French II, 3cr.)
Frnch 304 (French for Business and Professions, 3 cr.)
Frnch 320 (France Today, 3 cr.)
Frnch 333 (Topics in Contemporary French and Francophone Literature, 3 cr.) or Frnch 334 (Topics in Early Modern and Modern Frnch Literature, 3 cr.)
Frnch 440 (Seminar in French or Francophone Studies, 3 cr.) (May be repeated once for 6 credits maximum.)
Frnch 471 (Foundations of French Civilization, 3 or 4 cr.) or Frnch 472 (Modern French Civilization, 3 or 4 cr.)
Frnch 499 (Internship, 3 cr.) or Frnch 395 (Study Abroad, 3 cr.) or other study abroad program (3 cr.)
B. Electives (6 credits)
Six additional credits at the 300 or 400 level including 471, 472 or courses instructed in French.

*Additional credit from an approved study abroad program may be applied to the major.
Curricular Notes: Students may enroll in the Languages and Cultures for Professions (LCP) Option in French as a Second Major only. They may not graduate with the Second Major alone.

IV. Languages and Cultures for Professions (Engineering)
Engineering students pursuing the second major option in French are required to take at least 30 credits beyond the intermediate (French 201-202) level.
A. LCP Required Core Courses (24 credits)
Frnch 301 (Reading and Writing French I, 3cr.)
Frnch 302 (Reading and Writing French II, 3cr.)
Frnch 304 (French for Business and Professions, 3 cr.)
Frnch 320 (France Today, 3 cr.)
Frnch 333 (Topics in Contemporary French and Francophone Literature, 3 cr.) or Frnch 334 (Topics in Early Modern and Modern Frnch Literature, 3 cr.)
Frnch 440 (Seminar in French or Francophone Studies, 3 cr.) (May be repeated once for 6 credits maximum.)
Frnch 471 (Foundations of French Civilization, 3 or 4 cr.) or Frnch 472 (Modern French Civilization, 3 or 4 cr.)
Frnch 499 (Internship, 3 cr.) or Frnch 395 (Study Abroad, 3 cr.) or other study abroad program (3 cr.)

B. Electives (6 credits)
Six additional credits at the 300 or 400 level including 471, 472 or courses instructed in French.

*Additional credit from an approved study abroad program may be applied to the major.
Curricular Notes: Students may enroll in the Languages and Cultures for Professions (LCP) Option in French as a Second Major only. They may not graduate with the Second Major alone.

Courses primarily for undergraduate students

Frnch 101. Elementary French I. (4-0) Cr. 4. F.SS. Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Frnch 102. Elementary French II. (4-0) Cr. 4. S.SS. *Prereq: 101.* Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Frnch 201. Intermediate French I. (4-0) Cr. 4. F. *Prereq: 102.* Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Frnch 202. Intermediate French II. (4-0) Cr. 4. S. *Prereq: 201.* Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Frnch 301. Reading and Writing French I. (3-0) Cr. 3. F. *Prereq: 202.* Emphasis on developing functional language skills in reading and writing. Selective review of grammar within the context of cultural and literary prose. Concurrent enrollment in Frnch 310 is encouraged.

Frnch 302. Reading and Writing French II. (3-0) Cr. 3. S. *Prereq: 301.* Readings in French prose, theater and poetry. Introduction to close reading and analysis. Development of reading and writing skills for upper-level courses. Concurrent enrollment in 310 is encouraged.

Frnch 304. French for Business and Professions. (3-0) Cr. 3. S. *Prereq: Credit or concurrent enrollment in 302.* Communication in business and professional contexts in French-speaking countries. Development of effective communication strategies and project management in the workplace. Cultural contexts of business and professional practice. Emphasis on working across French-American cultures. Preparation for internships. Nonmajor graduate credit.

Frnch 310. French Pronunciation and Phonetics. (1-0) Cr. 1. F.S. *Prereq: Credit or concurrent enrollment in 301.* Practice and theory of correct pronunciation of sounds in French. Techniques of teaching French pronunciation. Correlation between sound and spelling in French. Relationship between pronunciation and grammar.

Frnch 320. France Today. (3-0) Cr. 3. F. *Prereq: Credit or concurrent enrollment in 301.* Intensive conversational and listening practice. Communicative study of contemporary French culture. Introduction to materials, resources, and forms of communication available on the Internet, and in other electronic and print media.

Frnch 326. Studies in French or Francophone Art and Film. (3-0) Cr. 3. Repeatable. F. *Prereq: 302.* Offered F 2009 and F 2011. In-depth study of a selected artist, filmmaker, genre, medium, or movement. Emphasis on analytical interpretation and relationship between art or film and French or Francophone culture, history, and society.

Frnch 333. Topics in Contemporary French or Francophone Literatures. (3-0) Cr. 3. Alt. F., offered 2010. *Prereq: 302.* Repeatable. In-depth study of a selected topic, genre, movement, or writer in 19th-, 20th, and/or 21st century literature, civilization or culture. Emphasis on close reading and discussion.

Frnch 334. Topics in Early Modern and Modern French Literature. (3-0) Cr. 3. S. *Prereq: 302.* Repeatable. In-depth study of a selected topic, genre, movement, or writer in French literature, civilization or culture from the late 15th to the early 19th century. Emphasis on close reading and discussion.

Frnch 370. French Studies in English. (3-0) Cr. 3. Repeatable. Topics vary according to faculty interest. Author, genre or period study in French or Francophone literature, women writers, or contemporary theory. Readings, discussions, and papers in English. F. French topics on women or feminism (cross listed with W S 370F)

Frnch 375. Contemporary France and the Francophone World in English. (3-0) Cr. 3. Readings, discussions, and papers in English on contemporary French or Francophone thought, politics, history, anthropology, arts, etc.

Frnch 378. French Film Studies in English. (3-0) Cr. 3. Repeatable. Analysis and interpretation of film in twentieth-century French society. Topics vary according to faculty interest. Film directors, genres, movements (e.g. The New Wave), historical survey, aesthetics, and cinematography. Readings, discussions and papers in English.

Frnch 395. Study Abroad. Cr. arr. *Prereq: 2 years university-level French.* Supervised instruction in language and culture of France; formal class instruction at level appropriate to student's training, augmented by practical living experience.

Frnch 440. Seminar in French or Francophone Studies. (3-0) Cr. 3. Repeatable. F. *Prereq: 333 or 334.* Seminar in French or Francophone literature, civilization, or cultural studies. Nonmajor graduate credit.

Frnch 471. Foundations of French Civilization. (3-1) Cr. 3-4. F. *Prereq: for fourth credit, six credits in 300-level courses instructed in French.* Study of French history and culture (e.g. art, architecture, music) from Charlemagne to the French Revolution. Readings, discussions and papers in English. Fourth credit: taught in French; supplementary readings and compositions. Nonmajor graduate credit.

Frnch 472. Modern France and French Civilization. (3-1) Cr. 3-4. S. *Prereq: for fourth credit, six credits in 300-level courses instructed in French.* Study of French history and culture (e.g. art, architecture, music) from the Napoleonic era to the present. Readings, discussions and papers in English. Fourth credit: taught in French; supplementary readings and compositions. Nonmajor graduate credit.

Frnch 490. Independent Study. Cr. arr. Repeatable. *Prereq: Permission of French staff and department chair.* Designed to meet the needs of students who wish to focus on areas other than those in which courses are offered. No more than 9 credits in Frnch 490 may be counted toward graduation.

Frnch 499. Internship in French. Cr. arr. Repeatable. F.S.SS. *Prereq: 9 credits of French at the 300 level; permission of advisor and WLC Internship Coordinator. Work experience using French language skills in the public or private sector, combined with academic work under faculty supervision.* Credits may be applied only to LCP major. No more than 3 credits of Frnch 499 may be applied to the major. Satisfactory-fail only.

Courses primarily for graduate students, open to qualified undergraduate students

Frnch 590. Special Topics in French. Cr. 2-4. Repeatable. *Prereq: Permission of instructor; 6 credits of 400 level French.*
A. Literature or Literary Criticism
B. Linguistics
C. Language Pedagogy
D. Civilization

German (Ger)

WLC Option I: German Studies
Under WLC Option I, students with a concentration in German must complete at least 30 credits beyond the intermediate (Ger 201-202) level. Students electing the German Studies option may count only one of the following courses towards the major: Ger 370, Ger 371, Ger 375, Ger 378.

A. German Studies Required Core Courses: (24 credits)
Ger 301 (Reading: Problems of the Early Twentieth Century, 3 cr.)
or Ger 304 (German for Business and Professions, 3 cr.)
Ger 302 (Composition, 3 cr.)
Ger 305 (Conversation: The City in Contemporary Europe, 3 cr.)
Ger 320 (Germany Today, 3 cr.)
or Ger 330 (Introduction to German Literature, 3 cr.)
Ger 440 (Colloquium in German Studies, 4 cr.)
Ger 475 (Foundations of German Civilization, 4 cr.)
Ger 476 (Topics in German Cultural Studies, 4 cr.)

B. Electives:

The remaining 6 credits may be chosen from the following courses:

Ger 301 (Reading: Problems of the Early Twentieth Century, 3 cr.)
Ger 304 (German for Business and Professions, 3 cr.)
Ger 320 (Germany Today, 3 cr.)
Ger 330 (Introduction to German Literature, 3 cr.)
Ger 370 (German Studies in English, 4 cr.)
Ger 371 (The Holocaust in Text, Image, and Memory, 4 cr.)
Ger 375 (Grimms' Tales, 4 cr.)
Ger 378 (German Film and Media Studies, 4 cr.)
Ger 395 (Study Abroad, 1-10 cr.)
Ger 440 (Colloquium in German Studies, 4 cr.)

C. Study Abroad: The department strongly recommends that all students of German participate in an approved study abroad program based in a German-speaking country.

Curricular Notes: Ger 475 (4 cr.) and Ger 476 (4cr.) are required for the WLC major option in German Studies. Majors must enroll in each of these courses for 4 credits. Majors choosing the German Studies option may select one additional course for 4 cr. from the following: Ger 370, 371, 375, or 378.

Minor in German
The minor in German requires at least 15 credits, nine of which must be at the 300 level or higher, of these, three credits must be in literature or culture taught in German (320, 330 or 440). Eligible courses for the minor are: Ger 301, 302, 304, 305, 320, 330, and 440.

WLC Option II: Languages and Cultures for Professions
Under WLC Option II students with a concentration in German must complete a minimum of 30 credits beyond the intermediate (Ger 201-202) level. Students electing the LCP option may not count the following courses toward the major:
Ger 370, Ger 371, Ger 375, Ger 378.

I. Languages and Cultures for Professions (Business)
Students with a primary major in the College of Business may select from one of the following options:

Business Option 1
International Business Secondary Major and German LCP Minor Emphasis (27 credits total)

A. International Business Secondary Major
(12 credits from approved list)

B. LCP Minor Emphasis Courses (15 credits):
Ger 304 (German for Business & Professions, 3 cr.)
Ger 305 (Conversation: The City in Contemporary Europe, 3 cr.)
Ger 320 (Germany Today, 3 cr.)
Ger 440 (Colloquium in German Studies, 4 cr.)
Ger 475 (Foundations of German Civilization, 4 cr.)
or Ger 476 Topics in German Cultural Studies, 4 cr.
Ger 499 (Internship, 3 cr.)

Business Option 2
International Business Secondary Major and LCP Major Option (42 credits total)

A. International Business Secondary Major
(12 credits from approved list)

B. LCP Second Major (30 cr.)
I. LCP Required Core Courses (20 credits)
Ger 304 (German for Business & Professions, 3 cr.)
Ger 305 (Conversation: The City in Contemporary Europe, 3 cr.)
Ger 320 (Germany Today, 3 cr.)
Ger 440 (Colloquium in German Studies, 4 cr.)
Ger 475 (Foundations of German Civilization, 4 cr.)
or Ger 476 (Topics in German Cultural Studies, 4 cr.)
Ger 499 (Internship, 3 cr.)

II. Electives (10 credits)
Ger 301 (Reading: Problems of the Early Twentieth Century, 3 cr.)
Ger 302 (Composition, 3 cr.)
Ger 330 (Introduction to German Literature, 3 cr.)

Ger 395 (Study Abroad, 2-6 cr.)*

* Additional credit from an approved study abroad program may be applied to the major.

Curricular Notes: students may only enroll in the Languages and Cultures for Professions (LCP) Option as a Second Major. They may not graduate with the Second Major in LCP alone.

Business Option 3
Languages and Cultures for Professions (without International Business Major) (30 credits total)

I. LCP Required Core Courses (20 credits)
Ger 304 (German for Business & Professions, 3 cr.)
Ger 305 (Conversation: The City in Contemporary Europe, 3 cr.)
Ger 320 (Germany Today, 3 cr.)
Ger 440 (Colloquium in German Studies, 4 cr.)
Ger 475 (Foundations of German Civilization, 4 cr.)
or Ger 476 (Topics in German Cultural Studies, 4 cr.)
Ger 499 (Internship, 3 cr.)

II. Electives (10 credits)
Ger 301 (Reading: Problems of the Early Twentieth Century, 3 cr.)
Ger 302 (Composition, 3 cr.)
Ger 330 (Introduction to German Literature, 3 cr.)
Ger 395 (Study Abroad, 2-6 cr.)*

* Additional credit from an approved study abroad program may be applied to the major.

II. Languages and Cultures for Professions (Engineering)
Engineering students pursuing the second major option in German are required to take at least 30 credits beyond the intermediate (Ger 201-202) level.

Engineering LCP: Second Major Option in German (30 credits total)
A. Required Core Courses (20 credits)
Ger 304 (German for Business & Professions, 3 cr.)
Ger 305 (Conversation: The City in Contemporary Europe, 3 cr.)
Ger 320 (Germany Today, 3 cr.)
Ger 440 (Colloquium in German Studies, 4 cr.)
Ger 475 (Foundations of German Civilization, 4 cr.)
or Ger 476 (Topics in German Cultural Studies, 4 cr.)
Ger 499 (Internship, 3 cr.)

B. Electives (10 credits)
Ger 301 (Reading: Problems of the Early Twentieth Century, 3 cr.)
Ger 302 (Composition, 3 cr.)
Ger 330 (Introduction to German Literature, 3 cr.)
Ger 395 (Study Abroad, 2-6 cr.)*

* Additional credit from an approved study abroad program may be applied to the major.

Curricular Notes: students may only enroll in the Languages and Cultures for Professions (LCP) Option as a Second Major. They may not graduate with the Second Major in LCP alone.

Courses primarily for undergraduate students

Ger 101. Elementary German I. (4-0) Cr. 4. F.SS. Introduction to German language within the context of German culture; practice in the basic skills. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Ger 102. Elementary German II. (4-0) Cr. 4. S.SS. *Prereq: 101.* Continuation of German 101. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Ger 201. Intermediate German I. (4-0) Cr. 4. F. *Prereq: 102.* Review of grammar, selected readings, further practice in oral and written communication. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Ger 202. Intermediate German II. (4-0) Cr. 4. S. *Prereq: 201.* Continuation of German 201. One section will emphasize the use of German in professional contexts. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Ger 301. Reading: Problems of the Early Twentieth Century. (3-0) Cr. 3. F. *Prereq: 202.* Emphasis on the development of reading skills through a variety of text types with a focus on German Culture from circa 1900 to 1933.

Ger 302. Composition. (3-0) Cr. 3. S. *Prereq: 202.* Emphasis on writing skills, with further development of grammar and reading skills using a variety of current and historical materials.

Ger 304. German for Business and Professions. (3-0) Cr. 3. F. *Prereq: 202.* Communication in business and professional contexts in German-speaking countries. Development of effective communication strategies and project management in the workplace. Cultural contexts of business and professional practice. Preparation for internships. Nonmajor graduate credit.

Ger 305. Conversation: The City in Contemporary Europe. (3-0) Cr. 3. S. *Prereq: 202 minimum, 301 recommended.* Intensive conversational and listening practice in German with an emphasis on a major German-speaking city.

Ger 320. Germany Today. (3-0) Cr. 3. S. *Prereq: 301 or 304.* Selected topics dealing with contemporary German society and culture. Introduction to materials, resources, and forms of communication available on the Internet, and in other electronic and print media.

Ger 330. Introduction to German Literature. (3-0) Cr. 3. F. *Prereq: 301 or permission of instructor.* Selected readings in German literature from Classicism to present. Emphasis on techniques of reading and analysis of literary texts.

Ger 370. German Studies in English. (3-0) Cr. arr. Repeatable. *Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level.* Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Three credits: English, open to all students. Four credits: Required for German concentration credit, supplementary readings and compositions in German.
G. German topics on women or feminism (cross listed to W S 370G)

Ger 371. The Holocaust in Text, Image, and Memory. (3-0) Cr. arr. *Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level.* Examination of such topics as the origins and expressions of Anti-Semitism in central Europe, the political events and structures of the Holocaust, the reality of ghettos and concentration camps, the impact of technological modernization on the Final Solution, and resistance to the Nazis. Materials will include nonfictional texts, literature, art, and music. Three credits: English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German.

Ger 375. Grimms' Tales. (3-0) Cr. arr. *Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level.* Introduction to Germanic antiquities, mythology, and heroic legends; Herder's concept of Naturpoesie. Emphasis on the Grimm tales: theoretical approaches to the tales from the late 19th and early 20th centuries; perversions of these traditional tales by the National Socialists (Nazis). Readings in contemporary Grimm scholarship. Taught in English. Three credits: English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German.

Ger 378. German Film and Media Studies. (3-0) Cr. arr. S. *Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level.* Analysis and interpretation of film or media in German society. Study of media production and reception within multicultural and global contexts. Thematic emphases based on faculty and student interest including: 1) film directors, genres, movements (e.g. New German Cinema), aesthetics, and cinematography or 2) media studies (e.g. television, mass press, popular culture). Three credits: English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German.

Ger 395. Study Abroad. Cr. arr. *Prereq: 2 years university-level German.* Supervised instruction in language and culture of Germany; formal class instruction at level appropriate to student's training, augmented by practical living experience.

Ger 440. Colloquium in German Studies. Cr. arr. Repeatable. *Prereq: 302, and either 320 or 330.* Fourth credit required for the major. Emphasis on student research in a colloquium format. Nonmajor graduate credit.

Ger 475. Foundations of German Civilization. (3-0) Cr. arr. F. *Prereq: Sophomore classification. For fourth credit, six credits in 300-level courses instructed in German.* Study of various aspects of German history and culture from the Germanic tribes and Christianization to 1870. Three credits: English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German. Nonmajor graduate credit.

Ger 476. Topics in German Cultural Studies. (3-0) Cr. arr. S. *Prereq: Sophomore classification. For fourth credit, six credits in 300-level courses instructed in German.* Continuation of 475 and will cover German history and culture up to the modern era. Three credits: English, open to all students. Four credits: required or German concentration credit, supplementary readings and compositions in German. Nonmajor graduate credit.

Ger 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in German and permission of department chair.* Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Ger 490 may be counted toward graduation.

Ger 499. Internship in German. Cr. arr. Repeatable. F.S.SS. *Prereq: 9 credits of German at the 300 level; permission of advisor and the World Languages and Cultures Internship coordinator.* Work experience using German language skills in the public or private sector, combined with academic work under faculty supervision. Available only to majors and minors. Ger 499 may be repeated to a maximum of 6 credits. No more than 3 credits of Ger 499 may be applied to the major. Satisfactory-fail only.

Courses primarily for graduate students, open to qualified undergraduate students

Ger 590. Special Topics in German. Cr. arr. Repeatable. *Prereq: Permission of instructor; 6 credits of 400 level German.*
A. Literature or Literary Criticism
B. Linguistics
C. Language Pedagogy
D. Civilization

Greek (Greek)

For courses in Greek literature taught in English, see *Classical Studies.*

Courses primarily for undergraduate students

Greek 101. Elementary Ancient Greek I. (4-0) Cr. 4. F. Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical authors. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, and 201 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Greek 102. Elementary Ancient Greek II. (4-0) Cr. 4. S. *Prereq: 101.* Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical and later authors. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102 and 201 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Greek 201. Intermediate Classical Greek. (4-0) Cr. 4. F. *Prereq: 102.* Emphasis on grammatical principles, composition and reading classical or Hellenistic texts. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102 and 201 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the department is normally not available.

Greek 332. Introduction to Classical Greek Literature. (3-0) Cr. 3. S. *Prereq: 201.* Readings in ancient Greek Literature with emphasis on critical analysis of style, structure or thought.

Greek 441. Advanced Readings in Greek Literature. (3-0) Cr. 3. Repeatable. F. *Prereq: 332.* Study of individual authors or genres; intensive reading in the original supplemented by modern criticism and analysis in English. Authors and genres will vary; courses may be repeated to a maximum of 6 credits each. Nonmajor graduate credit.

Greek 442. Advanced Topics in Greek Literature. (3-0) Cr. 3. Repeatable. S. *Prereq: 332.* Advanced study of authors or topics relating to Greek literature. Authors and topics will vary; courses may be repeated to a maximum of 6 credits each. Nonmajor graduate credit.

Greek 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in Greek and permission of department chair.* Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Greek 490 may be counted toward graduation.

Latin (Latin)

For courses in Latin literature taught in English, see *Classical Studies.*

Minor requirements
Minors are required to complete 9 credits at the 300 level or higher.

Courses primarily for undergraduate students

Latin 101. Elementary Latin I. (4-0) Cr. 4. F. Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102 and 201 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Latin 102. Elementary Latin II. (4-0) Cr. 4. S. *Prereq: 101.* Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge

through texts adapted from classical authors. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102 and 201 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Latin 201. Intermediate Latin. (4-0) Cr. 4. F. *Prereq: 102.* Emphasis on grammatical principles, composition and reading Latin texts. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102 and 201 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Latin 332. Introduction to Latin Literature. (3-0) Cr. 3. S. *Prereq: 201.* Readings in Latin Literature with emphasis on critical analysis of style, structure or thought.

Latin 441. Advanced Readings in Latin Literature. (3-0) Cr. 3. Repeatable. F. *Prereq: 332.* Study of individual authors or genres; intensive readings in the original supplemented by modern criticism and analysis in English. Authors and genres will vary; courses may be repeated to a maximum of 6 credits each. Nonmajor graduate credit.

Latin 442. Advanced Topics in Latin Literature. (3-0) Cr. 3. Repeatable. S. *Prereq: 332.* Advanced study of authors or topics relating to Latin literature. Authors and topics will vary; courses may be repeated to a maximum of 6 credits each. Nonmajor graduate credit.

Latin 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in Latin and permission of department chair.* Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits in Latin 490 may be counted toward graduation.

Polish (Polsh)

Courses primarily for undergraduate students

Polsh 101. Elementary Polish I. (3-2) Cr. 4. F. Introduction to the Polish language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Polish culture. Offered as part of Russian, Eurasian, and East European Distance Learning Consortium via electronic technology and extensive use of Internet and digital materials. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Polsh 102. Elementary Polish II. (3-2) Cr. 4. S. *Prereq: Polish 101.* Continued introduction to the Polish language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Polish culture. Offered as part of Russian, Eurasian, and East European Distance Learning Consortium via electronic technology and extensive use of Internet and digital materials. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Polsh 201. Intermediate Polish I. (3-2) Cr. 4. F. *Prereq: Polish 102 or permission of instructor.* Review of first year principles and expanded study of grammar. Development of reading, writing, listening comprehension, and speaking in Polish within the context of Polish culture. Offered as part of Russian, Eurasian, and East European Distance Learning Consortium via electronic technology and extensive use of Internet and digital materials. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Polsh 202. Intermediate Polish II. (3-2) Cr. 4. S. *Prereq: Polish 201 or permission of instructor.* Development of reading, writing, listening comprehension, and speaking in Polish within the context of Polish culture. Offered as part of Russian, Eurasian, and East European Distance Learning Consortium via electronic technology and extensive use of Internet and digital materials. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Portuguese (Port)

Courses primarily for undergraduate students

Port 101. Elementary Portuguese I. (4-0) Cr. 4. F. An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101-202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available. Enrollment not open to students who have completed Port 111.

Port 102. Elementary Portuguese II. (4-0) Cr. 4. S. *Prereq: 101.* An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101-202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available. Enrollment not open to students who have completed Port 112.

Port 111. Elementary Portuguese, Accelerated I. (3-0) Cr. 3. F. *Prereq: Four semesters of college Spanish or the equivalent. Students with four semesters at the college level or the equivalent of another Romance language may be admitted by permission of the instructor.* An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture. Prepares for Port 112. Enrollment not open to students who have completed Port 101.

Port 112. Elementary Portuguese, Accelerated II. (3-0) Cr. 3. S. *Prereq: Portuguese 111.* An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture. Prepares for Port 201. Enrollment not open to students who have completed Port 102.

Port 201. Intermediate Portuguese I. (4-0) Cr. 4. F. *Prereq: 102 or equivalent.* Intensive review of basic grammar and conversation. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature. Credit by examination in the Department of World Languages and Cultures for courses numbered 101-202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Port 202. Intermediate Portuguese II. (4-0) Cr. 4. S. *Prereq: 201 or equivalent.* Intensive review of basic grammar and conversation. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature. Credit by examination in the Department of World Languages and Cultures for courses numbered 101-202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Port 370. Luso-Brazilian Topics in English Translation. (3-0) Cr. 3. Repeatable. Study of a selected period, theme, genre, or author. Readings, discussion, and written work in English. Port 370 may be repeated for a maximum of 6 credits.

Port 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in Portuguese and permission of department chair.* Designed to meet the needs of students who seek to work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Port 490 may be counted toward graduation.
D. Language Pedagogy
E. Civilization

Courses primarily for graduate students, open to qualified undergraduate students

Port 590. Special Topics in Portuguese. Cr. arr. Repeatable. *Prereq: Permission of instructor; 6 credits of 300-level Portuguese.*
A. Literature or Literary Criticism
B. Linguistics

Russian Studies (Rus)

World Languages and Cultures majors with a concentration in Russian Studies have two options:

WLC Option 1: Russian Studies
Required Core Courses: (12 credits)
Rus 301 (Composition and Conversation, 3 cr.)
Rus 314 (Reading Russian Literary and Cultural Texts, 3 cr.)
Rus 401 (Advanced Composition and Conversation, 3 cr.)
Rus 440 (Seminar in Russian Studies, 3 cr.)
Electives: (18 credits)
Hist 421 (History of Russia I, 3 cr.)
Hist 422 (History of Russia II, 3 cr.)
Hist 530 (Proseminar in Modern Russia/Soviet History, 3 cr.)
Pol S 349 (Politics of Russia and Soviet Successor States, 3 cr.)
Rus 304 (Russian for Business and Professions, 3 cr.)
Rus 320 (Russia Today, 3 cr.)
Rus 370 (Russian Studies in English Translation, 3 cr.)
Rus 378 (Russian Film Studies in English, 3 cr.)
Rus 395 (Study Abroad, 1-6 cr.)
Rus 401 (Advanced Composition and Conversation, 3 cr.)
Rus 490 (Independent Study, 1-6 cr.)
Rus 590 (Special Topics in Russian, 2-4 cr.)
Of these courses at least three credits must be taken outside the Russian curriculum.

Minor in Russian Studies

Minors in Russian Studies are required to complete 201 and 202. The remaining 9 credits must be at the 300 level and above, including at least 3 additional credits in Russian (courses taught in English or Russian) and at least 3 credits outside the Russian curriculum.

WLC Option II: Languages and Cultures for Professions
Business Option 1
International Business Secondary Major and Languages and Cultures for Professions Minor Emphasis (27 cr. total)

I. International Business Secondary Major (12 credits from approved list)
II. LCP Courses (15 credits)
Rus 301 (Advanced Composition and Conversation, 3 cr.)
Rus 304 (Russian for Business and Professions, 3 cr.)
Rus 320 (Russia Today, 3 cr.)
Rus 370 (Russian Studies in English Translation, 3 cr.)
Rus 395 (Study Abroad, 3 cr.)
or Rus 499 (Internship 3 cr.)
Curricular notes: Rus 395 or 499 fulfills the IB 3-month international experience requirement. Rus 304, 395 and 499 may be double counted under

OPTION 1. Students may only enroll in the LCP Option as a Second Major. They may not graduate with the Second Major in LCP alone.

Business Option 2
International Business Secondary Major and Language and Cultures for Professions Major
(42 credits)

I. International Business Secondary Major (12 credits from approved list)
II. LCP Core Courses: (15 credits)
Rus 301 (Advanced Composition and Conversation, 3 cr.)
Rus 304 (Russian for Business and Professions, 3 cr.)
Rus 320 (Russia Today, 3 cr.)
Rus 370 (Russian Studies in English Translation, 3 cr.)
Rus 395 (Study Abroad, 3 cr.)*
or Rus 499 (Internship 3, cr.)

*Additional credit from approved study abroad program may be applied to the major

III. Electives: (15 credits)
Rus 314 (Reading Russian Literary and Cultural Texts, 3 cr.)
Rus 378 (Russian Film Studies in English, 3 cr.)
Rus 395 (Study Abroad, 3 cr.)
Rus 401 (Advanced Composition and Conversation, 3 cr.)
Hist 421 (History of Russia I, 3 cr.)
Hist 422 (History of Russia II, 3 cr.)
Pol S 349 (Politics of Russia and Soviet Successor States, 3 cr.)

Curricular Notes: Rus 395 or 499 fulfills the IB 3 month international experience requirement. Students may only enroll in the LCP Option as a Second Major. They may not graduate with the Second Major in LCP alone.Business Option 3

Languages and Cultures for Professions (without International Business Major) (30 Credits)

I. LCP Core Courses (15 credits)
Rus 301 (Composition and Conversation, 3 cr.)
Rus 304 (Russian for Business and Professions, 3 cr.)
Rus 320 (Russia Today, 3 cr.)
Rus 370 (Russian Studies in English Translation, 3 cr.)
Rus 395 (Study Abroad, 1-6 cr.)* or
Rus 490 (Internship in Russian, 1-3 cr.)

*Additional credit from an approved study abroad program may be applied to the major

II. Electives: (15 credits)
Rus 314 (Reading Russian Literary and Cultural Texts, 3 cr.)
Rus 378 (Russian Film Studies in English, 3 cr.)
Rus 395 (Study Abroad, 1-6 cr.)
Rus 401 (Advanced Composition and Conversation, 3 cr.)
Hist 421 (History of Russia I, 3 cr.)
Hist 422 (History of Russia II, 3 cr.)
Pol S 349 (Politics of Russia and Soviet Successor States, 3 cr.)

Curricular Notes: Rus 395 or 499 fulfills the IB 3 month international experience requirement. Students may only enroll in the LCP Option as a Second Major. They may not graduate with the Second Major in LCP alone.

B. Languages and Cultures for Professions (Engineering) (30 credits)

I. LCP Core Courses (15 credits)
Rus 301 (Composition and Conversation, 3 cr.)
Rus 304 (Russian for Business and Professions, 3 cr.)
Rus 320 (Russia Today, 3 cr.)
Rus 370 (Russian Studies in English Translation, 3 cr.)
Rus 395 (Study Abroad, 1-6 cr.) or
Rus 490 (Internship in Russian, 1-3 cr.)

II. LCP Electives: (15 credits)
Rus 314 (Reading Russian Literary and Cultural Texts, 3 cr.)
Rus 378 (Russian Film Studies in English, 3 cr.)
Rus 395 (Study Abroad, 1-6 cr.)
Rus 401 (Advanced Composition and Conversation, 3 cr.)
Rus 440 (Seminar in Russian Studies, 3 cr.)
Rus 590 (Special Topics in Russian, 2-4 cr.)
Hist 421 (History of Russia I, 3 cr.)
Hist 422 (History of Russia II, 3 cr.)
Hist 530 (Proseminar in Modern Russia/Soviet History, 3 cr.)
Pol S 349 (Politics of Russia and Soviet Successor States, 3 cr.)

Curricular Notes: Students may only enroll in the LCP Option as a Second Major. They may not graduate with the Second Major in LCP alone.

Courses primarily for undergraduate students

Rus 101. Elementary Russian I. (4-0) Cr. 4. F. Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Rus 102. Elementary Russian II. (4-0) Cr. 4. S. *Prereq: 101.* Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Rus 201. Intermediate Russian I. (4-0) Cr. 4. F. *Prereq: 102.* Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Rus 202. Intermediate Russian II. (4-0) Cr. 4. S. *Prereq: 201.* Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Rus 301. Composition and Conversation. (3-0) Cr. 3. F. *Prereq: 202.* Thorough study of the Russian language, with emphasis on strengthening proficiency in writing, speaking, reading, and listening. Increased focus on syntax and word formation.

Rus 304. Russian for Business and Professions. (3-0) Cr. 3. F. *Prereq: 202.* Communication in business and professional contexts in Russian-speaking countries. Development of effective communication strategies and project management in the workplace. Cultural contexts of business and professional practice. Nonmajor graduate credit.

Rus 314. Reading Russian Literary and Cultural Texts. (3-0) Cr. 3. Repeatable, maximum of 6 credits. *Prereq: 301.* Selected readings in Russian literature and culture. Emphasis on techniques of reading and analysis of literary and cultural texts.

Rus 320. Russia Today. (3-0) Cr. 3. A survey of social, political, economic, and cultural topics relevant to contemporary Russia. Taught in Russian.

Rus 370. Russian Studies in English Translation. (3-0) Cr. 3. Repeatable. Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English.
R. Russian topics on women or feminism (cross listed to W S 370R)

Rus 375. Topics in Russian, East European, and Eurasian Studies. (3-0) Cr. 3. Repeatable. F. Selected topics dealing with a particular area, period, or cultural pattern. Readings, discussions, and papers in English. May be offered by the Russian, East European, and Eurasian Studies Distance Learning Consortium. Rus 375 does not fulfill the English proficiency requirement for WLC majors.

Rus 378. Russian Film Studies in English. (3-0) Cr. 3. Analysis and interpretation of cinema in Russia and the Soviet Union. Topics vary according to faculty interest. Film directors, genres, movements, historical survey, aesthetics, and cinematography. Readings, discussions and papers in English.

Rus 395. Study Abroad. Cr. arr. Supervised instruction in language and culture of Russia; formal class instruction at level appropriate to student's training, augmented by practical living experience.

Rus 401. Advanced Composition and Conversation. (3-0) Cr. 3. *Prereq: 314.* Intensive practice in composition and conversation with emphasis on mastery of speaking and writing skills; development of idiomatic usage and effective expression of ideas. Increased emphasis on vocabulary building, grammatical correctness, and compatibility of style and content. Nonmajor graduate credit.

Rus 440. Seminar in Russian Studies. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq*: 314.* Study of a selected topic in history, politics, Russian Orthodox religion, literature, art, theater, and/or cinema. Nonmajor graduate credit.

Rus 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in Russian and permission of department chair.* Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Rus 490 may be counted toward graduation.

Rus 499. Internship in Russian. Cr. arr. Repeatable. F.S.SS. *Prereq: 9 credits of Russian at the 300 level; permission of advisor and WLC Internship Coordinator.* Work experience using Russian language skills in the public or private sector combined with academic work under faculty supervision. Available only to majors and minors. No more than 3 credits may be applied to the major.

Courses primarily for graduate students, open to qualified undergraduate students

Rus 590. Special Topics in Russian. Cr. arr. Repeatable. *Prereq: Permission of instructor; 6 credits of 400 level Russian.*
A. Literature or Literary Criticism
B. Linguistics
C. Language Pedagogy
D. Civilization

Serbo-Croatian (SerbC)

Courses primarily for undergraduate students

Serbc 101. Elementary Serbo-Croatian I. (3-2) Cr. 4. Introduction to the Serbo-Croatian language, grammar, and syntax. Basic language communication skills in reading, writing, speaking and listening. Offered as part of Russian, Eurasian, and East European Distance Learning Consortium via electronic technology and extensive use of Internet and digital materials. Credit by examination in the Department of World Languages and Cultures for courses numbered 101,

102, 201, and 202 is available only to student who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Serbc 102. Elementary Serbo-Croatian II. (3-2) Cr. 4. Introduction to the Serbo-Croatian language, grammar, and syntax. Basic language communication skills in reading, writing, speaking and listening. Offered as part of Russian, Eurasian, and East European Distance Learning Consortium via electronic technology and extensive use of Internet and digital materials. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to student who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Spanish (Span)

World Languages and Cultures majors with a concentration in Spanish have two options:
WLC Option I: Hispanic Studies
Under WLC Option I, students with a concentration in Spanish must complete a minimum of 33 credits beyond the intermediate (201-202) level.

A. Hispanic Studies Required Core Courses: (12 cr.)
Span 301 (Spanish Grammar and Composition, 3 cr.)
Span 303 A or B (Spanish Grammar and Conversation, 3 cr.)
Span 314 (Introduction to Reading Hispanic Texts, 3 cr.)
Span 352 (Introduction to Spanish Phonology, 3 cr.)

B. Electives:
Students must take at least 15 credits chosen from a, b, and c below (minimum of 3 credits from each section).

a) At least 3 credits of literary studies chosen from the following:

Span 330 (Studies in Spanish Literature to 1700, 3 cr.)
Span 331 (Studies in Spanish Literature from 1700 to the Present, 3 cr.)
Span 332 (Studies in Latin American Literature from Pre-Columbian Times through the Nineteenth Century, 3 cr.)
Span 333 (Studies in Latin American Literature from the Twentieth Century to the Present, 3 cr.)

b) At least 3 credits of cultural studies chosen from the following:

Span 304 (Spanish for Business and Professions, 3 cr.)
Span 321 (Spanish Civilization, 3 cr.)
Span 322 (Latin American Civilization, 3 cr.)
Span 323 (Spain Today, 3 cr.)
Span 324 (Latin America Today, 3 cr.)
Span 326 (Studies in Hispanic Art or Film, 3 cr.)

c) At least 3 credits of applied language and linguistics chosen from the following:

Span 351 (Introduction to Spanish-English Translation, 3 cr.)
Span 401 (Advanced Composition and Grammar, 3 cr.)
Span 462 (Contrastive Analysis of Spanish/English for Translators, 3 cr.)
Span 463 (Hispanic Dialectology, 3 cr.)
Span 499 (Internship in Spanish, 3 cr.)

Students may apply up to 6 credits of Span 395 (Study Abroad) to section a, b, or c above (appropriate section based upon course content and assigned by the WLC adviser).

C. Students must take at least 6 credits of literature and/or culture at the 400 level, chosen from the following:

Span 440 (Seminar on the Literatures and Cultures of Spain, 3 cr., repeatable to 6 cr.)
Span 441 (Seminar on Cervantes and the Golden Age, 3 cr., repeatable to 6 cr.)
Span 445 (Seminar on the Literatures and Cultures of Latin America, 3 cr., repeatable to 6 cr.)

D. Study Abroad: The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Under Option I, any student who chooses not to participate in a department-approved program will be required to take 3 additional elective credits of Spanish at or above the Span 321 level (for a total of 36 credits beyond the intermediate 201-202 level).

E. **Communication Proficiency Requirements:** Degree-seeking students must earn a grade of C- or better in a sequence of English composition courses, usually Engl 150 and 250. The department will certify Communication Proficiency for students who receive a C or better in a WLC or Classical Studies course numbered 370-379. Because of the cultural affinities, historical traditions and geographic boundaries shared between the Spanish-speaking and Portuguese speaking-populations of the Iberian Peninsula and in the Americas Spanish majors are strongly encouraged to fulfill the requirement through Port 370. Such a course will also fill an LAS Group I (Arts and Humanities) requirement.

WLC Option II: Language and Cultures for Professions
Under WLC Option II students with a concentration in Spanish must complete a minimum of 30 credits beyond the intermediate (201-202) level.

A. Languages and Cultures for Professions (Business)
Students with a primary major in the College of Business may select from one of the following options:

Business Option 1
International Business Secondary Major And Languages And Cultures For Professions Minor Emphasis (27 credits total)

I. International Business Secondary Major: (12 credits from approved CoB list)

II. LCP Minor Emphasis Courses: (15 credits)

Span 303 B (Spanish Conversation for Professionals, 3 cr.)
Span 304 (Spanish for Business and Professions, 3 cr.)
Span 351 (Introduction to Spanish-English Translation, 3 cr.)
Span 323 (Spain Today, 3 cr.) or Span 324 (Latin America Today, 3 cr.)*
Span 499 Internship or Span 395 (Study Abroad, 3 cr.)**
* Span 321 Spanish Civilization and Culture and Span 322 Latin American Civilization and Culture may be substituted.
** Additional credit from an approved study abroad program may be applied to the major.
Curricular Notes: Span 395 or Span 499 fulfills the International Business 3-month international experience requirement. Span 304, Span 395 and Span 499 may be double counted under Option 1.

Business Option 2
International Business Secondary Major And Language And Cultures For Professions Major (42 credits total)

I. International Business Secondary Major: (12 credits from approved CoB list)

II. LCP Second Major (30 credits)

A. Required LCP Core Courses: (12 credits)
Span 303 B (Spanish Conversation for Professionals, 3 cr.)

Span 304 (Spanish for Business and Professions, 3 cr.)
Span 351 (Introduction to Spanish-English Translation, 3 cr.)
Span 499 (Internship, 3 cr.) or Span 395 (3 cr.)**

B. Literature and Culture Courses: (12 credits)
Span 301 (Spanish Grammar and Composition, 3 cr.)
Span 314 (Introduction to Reading Hispanic Texts, 3 cr.)
Span 323 (Spain Today, 3 cr.) or Span 322 (Spanish Civilization and Culture, 3 cr.)
Span 324 (Latin America Today, 3 cr.) or Span 322 (Latin American Civilization, 3 cr.)

C. Electives: (6 credits)
Select one course from each of the following two categories:

Category 1:
Span 330 (Studies in Spanish Literature to 1700, 3 cr.)
Span 331 (Studies in Spanish Literature 1700 to the Present, 3 cr.)
Span 332 (Studies in Latin American Literature from Pre-Columbian Times through the Nineteenth Century, 3 cr.)
Span 333 (Studies in Latin American Literature from the Twentieth Century to the Present , 3 cr.)

Category 2:
Span 440 (Seminar on Literatures and Cultures of Spain, 3 cr.)
Span 441 (Seminar on Cervantes and the Golden Age, 3 cr.)
Span 445 (Seminar on Literatures and Cultures of Latin American, 3 cr.)

*Students taking Span 330 or 331 in Category 1 should choose Span 440 or 441 from Category 2; students taking Span 332 or 333 in Category 1 should choose Span 445 from Category 2.

** Additional credit from an approved study abroad program may be applied to the major.

Business Option 3
Languages and Cultures for Professions (Business without International Business Secondary Major) (30 credits)

A. Required LCP Core Courses: (12 credits)
Span 303B (Spanish Conversations for Professionals, 3 cr.)
Span 304 (Spanish for Business and Professionals)
Span 351 (Introduction to Spanish-English Translation, 3 cr.)
Span 499 (Internship, 3 cr.)

B. Literature and Cultural Courses: (12 credits)
Span 301 (Spanish Grammar and Composition, 3 cr.)
Span 314 (Introduction to Reading Hispanic Texts, 3 cr.)
Span 323 (Spain Today, 3 cr.) or Span 322 (Latin American Civilization, 3 cr.)
Span 324 (Latin America Today, 3 cr.) or Span 322 (Latin American Civilization, 3 cr.)

C. Electives: (6 credits)
Select one course from each of the following two categories

Category 1:
Span 330 (Studies in Spanish Literature to 1700, 3 cr.)
Span 331 (Studies in Spanish Lit 1700 to the Present, 3 cr.)

Span 332 (Studies in Latin American Literature from Pre-Columbian Times through the Nineteenth Century, 3 cr.)
Span 333 (Studies in Latin American Literature from the Twentieth Century to the Present, 3 cr.)

Category 2:
Span 440 (Seminar on the Literatures and Cultures of Spain, 3 cr.)
Span 441 (Seminar on Cervantes and the Golden Age, 3 cr.)
Span 445 (Seminar on the Literatures and Cultures of Latin America. 3 cr.)

Curricular Notes: students may only enroll in the Languages and Cultures for Professions (LCP) Option as a second major. They may not graduate with the second major in LCP alone.

B. Languages and Cultures for Professions (Engineering) (30 credits total)
A. Required LCP Core Courses: (12 credits)
Span 303 B (Conversation for Professionals, 3 cr.)
Span 304 (Spanish for Business & Professions, 3 cr.)
Span 351 (Introduction Spanish-English Translation, 3 cr.)
Span 499 Internship (3 cr.) or Span 395 (3 cr.)**

B. Literature and Culture Courses: (12 credits)
Span 301 (Spanish Grammar and Composition, 3 cr.)
Span 314 (Introduction to Reading Hispanic Texts, 3 cr.)
Span 323 (Spain Today, 3 cr.) or Span 322 (Spanish Civilization, 3 cr.)
Span 324 (Latin America Today, 3 cr.) or Span 322 (Latin American Civilization, 3 cr.)

C. Electives: (6 credits)
Select one course from each of the following two literature categories:

Category 1:
Span 330 (Studies in Spanish Literature to 1700, 3 cr.)
Span 331 (Studies in Spanish Lit 1700 to the Present, 3 cr.)
Span 332 (Studies in Latin American Literature from Pre-Columbian Times through the Nineteenth Century, 3 cr.)
Span 333 (Studies in Latin American Literature from the Twentieth Century to the Present, 3 cr.)

Category 2:
Span 440 (Seminar on the Literatures and Cultures of Spain, 3 cr.)
Span 441 (Seminar on Cervantes and the Golden Age, 3 cr.)
\Span 445 (Seminar on the Literatures and Cultures of Latin America, 3 cr.)

Curricular Notes: students may only enroll in the Languages and Cultures for Professions (LCP) Option as a second major. They may not graduate with the second major in LCP alone.

The Spanish minor: Option 1: Hispanic Studies, Option 2: Languages and Cultures for Professions

Option 1: The Spanish minor in Hispanic Studies requires at least 15 credits, 12 of which must be at the 300 level or higher. The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Any student who chooses not to participate in a department-approved study abroad program will be required to take 3 additional elective credits of Spanish at the 300 level or higher.

Option 2: Language and Cultures for Professions. The Spanish minor in Languages and Cultures for Professions requires the following courses (12 credits): 303B, 304, 351 and one culture course chosen from the following: 321, 322, 323, or 324. The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Any student who chooses not to participate in a department-approved study abroad program will be required to take 3 additional credits in culture chosen from the following: 321, 322, 323, or 324. Note: students taking either 321 or 323 must take either 322 or 324; students taking either 322 or 324 must take either 321 or 323.

Courses primarily for undergraduate students

Span 097. Accelerated Spanish Review. (3-2) F.S. *Prereq: Two years but less than three years of high-school Spanish.* For students who require additional review at the first year (101-102) level. Course components include a compact review of 101 and the essential elements of 102. Course completed with a passing grade fulfills the LAS foreign language requirement. Not recommended for students who wish to continue language at the second year (201-202) level without completing 102.

Span 101. Elementary Spanish I. (4-0) Cr. 4. F.SS. A communicative approach to grammar and vocabulary within the context of Hispanic culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Span 102. Elementary Spanish II. (4-0) Cr. 4. S.SS. *Prereq: 101, 97 or placement by departmental exam.* Continuation of Spanish 101. A communicative approach to grammar and vocabulary within the context of Hispanic culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Span 195. Study Abroad. Cr. 3. SS. Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with SPAN 101 or 102.

Span 201. Intermediate Spanish I. (4-0) Cr. 4. F. *Prereq: 102 or placement by departmental exam.* Intensive review of basic grammar and conversation. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Span 202. Intermediate Spanish II. (4-0) Cr. 4. S. *Prereq: 201 or placement by departmental exam.* Continuation of Spanish 201. Intensive review of basic grammar. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course.

Span 295. Study Abroad. Cr. 3. SS. *Prereq: 102 or equivalent.* Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with Span 201 or 202.

Span 301. Spanish Grammar and Composition. (3-0) Cr. 3. F.S. *Prereq: 202 or placement by departmental exam.* Review and application of grammar concepts in the development of writing skills within the context of Hispanic culture. Taught in Spanish.

Span 303. Spanish Grammar and Conversation. (3-0) Cr. 3. F.S. *Prereq: 202 or placement by departmental exam.* Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational skills within the context of Hispanic culture. Taught in Spanish.
A. Conversation through Culture
B. Conversation for Professionals

Span 304. Spanish for Business and Professions. (3-0) Cr. 3. F.S. *Prereq: 202 or placement by departmental exam (301 recommended).* Introduction to professional communication within a cultural context. Grammar review as needed. Individual projects will focus on special interests. Taught in Spanish. Nonmajor graduate credit.

Span 314. Introduction to Reading Hispanic Texts. (3-0) Cr. 3. F.S. *Prereq: 301.* Critical reading of Hispanic literary and cultural texts. Presentation of techniques and terminology of literary criticism. Study of basic genres such as: narrative, poetry, drama, essay. Taught in Spanish. Required as prerequisite for 330, 331, 332 and 333.

Span 321. Spanish Civilization. (3-0) Cr. 3. F. *Prereq: One course at the 300 level.* A survey of the social, political, religious, and cultural history of Spain. Taught in Spanish.

Span 322. Latin American Civilization. (3-0) Cr. 3. S. *Prereq: One course at the 300 level.* A survey of the social, political, religious, and cultural history of Spanish America. Taught in Spanish.

Span 323. Spain Today. (3-0) Cr. 3. *Prereq: One course at the 300 level.* A survey of social, political, economic, and cultural topics relevant to contemporary Spain. Taught in Spanish.

Span 324. Latin America Today. (3-0) Cr. 3. *Prereq: One course at the 300 level.* A survey of social, political, economic, and cultural topics relevant to contemporary Latin America. Taught in Spanish.

Span 326. Studies in Hispanic Art or Film. (Dual-listed with 526). (3-0) Cr. 3. *Prereq: One course at the 300 level.* Survey of major currents and figures in Spanish and Latin American art and/or film. Taught in Spanish.

Span 330. Studies in Spanish Literature to 1700. (3-0) Cr. 3. F. *Prereq: 314.* Introduction to Spanish literature from the earliest times through the Golden Age; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit.

Span 331. Studies in Spanish Literature from 1700 to the Present. (3-0) Cr. 3. S. *Prereq: 314.* Introduction to Spanish literature from the eighteenth century to the present; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit.

Span 332. Studies in Latin American Literature from Pre-Columbian Times through the Nineteenth Century. (3-0) Cr. 3. F. *Prereq: 314.* Introduction to Latin American literature from the earliest times to circa 1900; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit.

Span 333. Studies in Latin American Literature from the Twentieth Century to the Present. (3-0) Cr. 3. S. *Prereq: 314.* Introduction to Latin American literature from the twentieth century to the present; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit.

Span 351. Introduction to Spanish-English Translation. (3-0) Cr. 3. F. *Prereq: 301, 303 or 304.* Introduction to the theory, methods, techniques, and problems of translation. Consideration of material from business, literature, and the social sciences. Taught in Spanish. Nonmajor graduate credit.

Span 352. Introduction to Spanish Phonology. (Cross-listed with LING). (3-0) Cr. 3. F.S. *Prereq: 301, 303 or 304.* An introductory study of the articulation, classification, distribution, and regional variations of the sounds of the Spanish language. Taught in Spanish. Nonmajor graduate credit.

Span 370. Hispanic Topics in English Translation. (3-0) Cr. 3. Repeatable. Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. May not be counted as a prerequisite.
S. Hispanic topics on women or feminism (cross listed to W S 370S)

Span 395. Study Abroad. Cr. arr. *Prereq: 2 years university-level Spanish or equivalent.* Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to students' training, enhanced by practical living experience.

Span 401. Advanced Composition and Grammar. (Dual-listed with 501). (3-0) Cr. 3. F. *Prereq: 314 and one course at the 320-level or above.* Advanced study of Spanish grammar and syntax. Students' writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish. Nonmajor graduate credit.

Span 440. Seminar on the Literatures and Cultures of Spain. (Dual-listed with 540). (3-0) Cr. 3. Repeatable. *Prereq: 330, 331, 332, or 333. (Recommended 330 and 331).* Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish. Nonmajor graduate credit.

Span 441. Seminar on Cervantes and the Golden Age. (Dual-listed with 541). (3-0) Cr. 3. Repeatable. *Prereq: 330, 331, 332, or 333. (330 recommended).* Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish. Nonmajor graduate credit.

Span 445. Seminar on the Literatures and Cultures of Latin America. (Dual-listed with 545). (3-0) Cr. 3. Repeatable. *Prereq: 330, 331, 332, or 333. (332 and 333 recommended).* Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial times to the Present. Taught in Spanish. Nonmajor graduate credit.

Span 462. Contrastive Analysis of Spanish/ English for Translators. (Cross-listed with LING). (3-0) Cr. 3. *Prereq: 351.* Linguistic study of the major differences between the Spanish and English grammatical systems and their applications in the translation of Spanish to English. Taught in Spanish. Nonmajor graduate credit.

Span 463. Hispanic Dialectology. (Cross-listed with LING). (3-0) Cr. 3. *Prereq: 352.* Intensive study of the phonology, morphosyntax and lexicon of the Hispanic dialects of Spain and Latin America in their historical context. Taught in Spanish. Nonmajor graduate credit.

Span 490. Independent Study. Cr. arr. Repeatable. *Prereq: 6 credits in Spanish and permission of department chair.* Designed to meet the needs of students in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 6 credits in Span 490 may be counted toward graduation.

Span 499. Internship in Spanish. Cr. arr. Repeatable. F.S.SS. *Prereq: 9 credits of Spanish at the 300 level; permission of advisor and WLC Internship Coordinator.* Work experience using Spanish language skills in the public or private sector, combined with academic work under faculty supervision. Up to 3 credits may apply toward the major. Available only to majors and minors.

Courses primarily for graduate students, open to qualified undergraduate students

Span 501. Advanced Composition and Grammar. (Dual-listed with 401). (3-0) Cr. 3. F. *Prereq: 314 and one course at the 320-level or above.* Advanced study of Spanish grammar and syntax. Students' writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish.

Span 526. Studies in Hispanic Art or Film. (Dual-listed with 326). (3-0) Cr. 3. *Prereq: 6 credits in Spanish literature or culture at 400 level.* Survey of major currents and figures in Spanish and Latin American art and/or film.

Span 540. Seminar on the Literatures and Cultures of Spain. (Dual-listed with 440). (3-0) Cr. 3. *Prereq: Six credits in Spanish literature or culture at 400 level..* Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish.

Span 541. Seminar on Cervantes and the Golden Age.. (Dual-listed with 441). (3-0) Cr. 3. *Prereq: Six credits in Spanish literature of culture at 400 level.* Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish.

Span 545. Seminar on the Literatures and Cultures of Latin America.. (Dual-listed with 445). (3-0) Cr. 3. *Prereq: Six credits in Spanish literature or culture at 400 level..* Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial Times to the Present. Taught in Spanish.

Span 580. Graduate Seminar in Hispanic Literature or Culture. Cr. arr. Repeatable. *Prereq: 6 credits of 400 level Spanish.* Topics may include a particular period, a genre, an author, a theme, or a particular type of cultural production. Taught in Spanish.

Span 590. Special Topics in Spanish. Cr. arr. Repeatable. *Prereq: Permission of instructor; 6 credits of 400 level Spanish.*
A. Literature or Literary Criticism
B. Linguistics
C. Language Pedagogy
D. Civilization

Special Courses in World Languages and Cultures (WLC)

Courses primarily for undergraduate students

WLC 119. Introduction to World Languages. (Cross-listed with Ling). (3-0) Cr. 3. Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and dialects, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy.

WLC 417. Student Teaching. (Cross-listed with C I). Cr. arr. F.S. *Prereq: Admission to teacher education, approval of coordinator during semester before student teaching.* Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

G. Foreign Language (Same as C I 417G.)

WLC 484. Technology, Globalization and Culture. (Dual-listed with 584). (Cross-listed with M E). (3-0) Cr. 3. F. *Prereq: senior classification for 484; graduate classification for 584.* Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

WLC 486. Methods in Elementary School World Language Instruction. (Cross-listed with C I, Ling). (3-0) Cr. 3. F. *Prereq: 25 credits in a world language.* Current educational methods and their application in the elementary school classroom. Special emphasis on planning, evaluation, and teaching strategies. Nonmajor graduate credit.

WLC 487. Methods in Secondary School World Language Instruction. (Cross-listed with Ling, C I). (3-0) Cr. 3. F. *Prereq: 25 credits in a world language, admission to the teacher education program.* Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning.

WLC 491. Language in Motion. (1-0) Cr. 1. Repeatable. *Prereq: Minimum of six ISU credits for study abroad and/or internship abroad and completion of at least a fourth-semester (202 level) foreign language course or equivalent.* First 8 weeks of semester only. Enrollment by instructor permission only. Students returning from study abroad prepare presentations about an aspect of the culture they experienced and spend one day in a high school where they give their presentations to multiple classes. Satisfactory/fail only.

Courses primarily for graduate students, open to qualified undergraduate students

WLC 584. Technology, Globalization and Culture. (Dual-listed with 484). (Cross-listed with M E). (3-0) Cr. 3. F. *Prereq: senior classification for 484; graduate classification for 584.* Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

Zoology

Interdepartmental Graduate Major

John E. Mayfield, Director of Graduate Education

Undergraduate Study

The undergraduate major in zoology is no longer available to new students. Those wishing to pursue an undergraduate degree in basic animal study are encouraged to investigate the numerous possibilities available to them at Iowa State University. The undergraduate Biology Program, jointly administered by faculties of the departments of Ecology, Evolution, and Organismal Biology (EEOB) and Genetics, Development and Cell Biology (GDCB), includes a wide spectrum of opportunities for students to develop their academic interests through the study of animal biology. Contact the Biology Program office for more information, or see www.biology.iastate.edu for more information. For those students interested in applied animal study, undergraduate majors in Animal Science and Entomology are available.

Graduate Study

The Zoology Graduate Program is closed to new students. Prospective students should contact the Genetics, Development and Cell Biology (GDCB) Graduate Program Director of Graduate Education for specific details about the program's status.

Related interdepartmental graduate majors in Ecology and Evolutionary Biology, Genetics, Immunobiology, Molecular, Cellular, and Developmental Biology, Neuroscience, and Toxicology should be investigated as possible alternative graduate programs.

The Faculty

Distinguished Professor denotes those faculty members who have been recognized for having attained outstanding national and international reputations within their professional disciplines.

University Professor denotes those faculty members who have been recognized for having made outstanding contributions to the quality of education at Iowa State University.

Inquiries concerning the faculty list should bedirected to the Office of the Provost, 1550 Beardshear Hall.

ABBOTT, ERIC ALAN, Professor of Greenlee School of Journalism and Communication. B.S., 1967, Iowa State; M.S., 1970, Ph.D., 1974, Wisconsin.

ABELSON, ABRAHAM G., Professor of Curriculum and Instruction. B.A., 1964, M.Ed., 1970, Pennsylvania State; Ph.D., 1976, Michigan.

ABENDROTH, ROBERT E., Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1966, M.S., 1968, Ph.D., 1983, Wisconsin.

ABRAHAM, ROBERTA G., Emeritus Professor of English. B.A., 1953, Cornell; M.A., 1976, Iowa State; Ph.D., 1981, Illinois.

ABRAHAM, WILLIAM H., Emeritus Professor of Chemical and Biological Engineering. B.Ch.E., 1952, Cornell; Ph.D., 1957, Purdue.

ACHTER, CHARLES T., Lecturer in Curriculum and Instruction. B.A., 1969, St. John's; M.S., 1975, St. Cloud State.

ACKER, DAVID G., Professor of Agricultural Education and Studies; Associate Dean of the College of Agriculture and Life Sciences. B.A., 1975, Wilmington; M.Ed., 1980, M.S., 1980, California (Davis); Ph.D., 1989, Oregon State.

ACKERMAN, BRENDA P., Lecturer in Apparel, Educational Studies and Hospitality Management. B.S., 2005, M.S., 2008, Iowa State.

ACKERMAN, RALPH A., Professor of Ecology, Evolution and Organismal Biology. B.A., 1967, Rutgers; Ph.D., 1975, Florida.

ACKERMANN, MARK R., Professor of Veterinary Pathology. D.V.M., 1986, Ph.D., 1990, Iowa State.

ADAMS, DEAN, Associate Professor of Ecology, Evolution and Organismal Biology; Associate Professor of Statistics. B.A., 1992, Franklin and Marshall College; M.Sc., 1994, Louisiana; Ph.D., 1999, New York (Stony Brook).

ADAMS, DONALD R., Emeritus Professor of Biomedical Sciences; University Professor. A.B., 1960, California (Davis); M.A., 1967, Chico State; Ph.D., 1970, California (Davis).

ADAMS, JEAN W., Emeritus Professor of Economics. B.A., 1969, M.A., 1971, Ph.D., 1973, Illinois.

ADAMS, ROY DEAN, Emeritus Professor of Economics. B.A., 1968, M.A., 1971, Ph.D., 1972, Illinois.

ADELEKE, RAIMI OLATUNJI, Professor of History. B.A., 1978, Ife (Nigeria); M.A., 1981, Ph.D., 1985, Western Ontario.

ADURI, PAVANKUMAR R., Associate Professor of Computer Science. B.Tech., 1993, Jawaharlal Nehru Technological; M.S., 1995, Indian Institute of Technology; Ph.D., 2001, New York (Buffalo).

AGARWAL, SANJEEV, Professor of Marketing. B.E., 1979, Roorkee (India); M.S., 1980, California (Davis); Ph.D., 1986, M.A., 1986, Ohio State.

AHN, DONG UK, Professor of Animal Science. B.S., 1978, M.S., 1983, Seoul National; Ph.D., 1988, Wisconsin.

AHRENS, FRANKLIN A., Emeritus Professor of Biomedical Sciences. B.S., 1959, D.V.M., 1959, Kansas State; M.S., 1965, Ph.D., 1968, Cornell.

AITCHISON, GARY L., Emeritus Associate Professor of Management. B.A., 1956, Northern Iowa; M.A., 1961, Northern Colorado; Ph.D., 1972, Iowa State.

AJJARAPU, VENKATARAMANA, Professor of Electrical and Computer Engineering. B.Tech., 1979, Jawaharal Nehru Tech; M.Tech., 1981, Indian Institute of Technology; Ph.D., 1986, Waterloo.

AKERS, ARTHUR, Emeritus Professor of Aerospace Engineering. B.Sc., 1953, London; M.Sc., 1955, Cranfield; Ph.D., 1969, London.

AKINC, MUFIT, Professor of Materials Science and Engineering. B.S., 1970, M.S., 1973, Middle East Technical (Turkey); Ph.D., 1977, Iowa State.

AKKURT, CIGDEM T., Associate Professor of Art and Design. B.A., 1961, Cornell College; M.A., 1970, Iowa; M.S., 1982, Massachusetts.

AL-KAISI, MAHDI, Associate Professor of Agronomy. B.S., 1974, Baghdad; M.S., 1982, Ph.D., 1986, North Dakota State.

ALCORN, JANET W., Emeritus Associate Professor of Music. B.Mus., 1958, Northwestern; M.Mus., 1960, Boston University.

ALCOTT, CODY J., Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2000, California State Polytechnic; D.V.M., 2004, Iowa State.

ALEKEL, D. LEE, Professor of Food Science and Human Nutrition. B.S., 1979, Cornell; M.S., 1985, Pennsylvania State; Ph.D., 1993, Illinois.

ALEXANDER, DAVID, Assistant Professor of Philosophy and Religious Studies. B.A., 1999, M.A., 2001, Toronto; Ph.D., 2008, Washington.

ALEXANDER, ROGER K., Associate Professor of Mathematics. B.A., 1968, Kansas; M.A., 1974, Ph.D., 1975, California (Berkeley).

ALEXANDER, TERRY J., Senior Lecturer in Economics. B.A., 1980, M.A., 1984, Ph.D., 1989, Maryland.

ALIPRANTIS, DIONYSIOS, Assistant Professor of Electrical and Computer Engineering. B.S., 1999, National Technical-Athens, Greece; Ph.D., 2003, Purdue.

ALLEMAN, JAMES EDWARD, Professor of Civil, Construction and Environmental Engineering and Chair of the Department. B.S.C.E., 1971, M.S., 1972, Ph.D., 1978, Notre Dame.

ALLEN, ALISON JO, Lecturer in Mathematics. B.S., 2004, North Carolina; M.S., 2006, Iowa State.

ALLEN, BEVERLYN LUNDY, Associate Professor of Sociology. BSW, 1975, M.S.W., 1977, Temple; Ph.D., 1995, Iowa State.

ALLEN, LINDA QUINN, Associate Professor of World Languages and Cultures; Associate Professor of Curriculum and Instruction. B.A., 1978, Purdue; M.A., 1982, Ball State; Ph.D., 1994, Purdue.

ALLEN, PHILIP MANNING, Emeritus Professor of Art and Design. B.F.A., 1960, M.F.A., 1961, Drake.

ALREAD, JASON, Associate Professor of Architecture. B.A., 1988, Florida; M.Arch., 1991, Yale.

ALURU, SRINIVAS, Professor of Electrical and Computer Engineering; Professor of Computer Science. B.Tech., 1989, Indian Institute of Technology; M.S., 1991, Ph.D., 1994, Iowa State.

AMARASINGHE, GAYA, Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1997, City University of New York; Ph.D., 2001, Maryland (Baltimore County).

AMBROSIO, LINDA, Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, New York (Stony Brook); Ph.D., 1985, Princeton.

AMES, JEFFREY KNOWTON, Clinician in Greenlee School of Journalism and Communication. B.A., 1970, Drake.

AMIDON, KEVIN SCOTT, Associate Professor of World Languages and Cultures. M.A., 1995, Ph.D., 2001, Princeton.

AMIN, VIREN R., Adjunct Assistant Professor of Electrical and Computer Engineering. B.S., 1987, NHL Medical College; M.S., 1989, Ph.D., 1992, Iowa State.

AMLING, STACY LYNN, Lecturer in World Languages and Cultures. B.A., 1999, Northern Iowa; M.A., 2002, Michigan State.

AMOS, ROSALIE JEANNE, Emeritus Associate Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Associate Professor of Curriculum and Instruction. B.S., 1953, Iowa State; M.S., 1960, Ph.D., 1976, Cornell.

ANDERSON, CARL E., Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S.A.E., 1962, Pennsylvania State; M.S.A.E., 1965, Arizona; Ph.D., 1975, Kansas State.

ANDERSON, CRAIG A., Professor of Psychology; Distinguished Professor in Liberal Arts and Sciences. B.A., 1976, Butler; M.A., 1978, Ph.D., 1980, Stanford.

ANDERSON, DEAN, Professor of Kinesiology. B.S., 1968, M.A., 1972, Ph.D., 1978, Minnesota.

ANDERSON, E. WALTER, Professor of Physics and Astronomy. A.B., 1959, Harvard; M.A., 1961, Ph.D., 1965, Columbia.

ANDERSON, IVER ERIC, Adjunct Professor of Materials Science and Engineering. B.S., 1975, Michigan Tech; M.S., 1977, Ph.D., 1982, Wisconsin.

ANDERSON, JEAN A., Senior Clinician in Food Science and Human Nutrition. B.S., 1981, M.S., 1989, Iowa State.

ANDERSON, JULIA F., Emeritus Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1941, Iowa State; M.S., 1947, Washington.

ANDERSON, KEVIN F., Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1975, Iowa Wesleyan; M.S., 1983, Western Illinois.

ANDERSON, LLOYD LEE, Professor of Animal Science; Professor of Biomedical Sciences; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1957, Ph.D., 1961, Iowa State.

ANDERSON, MARC, Assistant Professor of Management. B.S., 1991, Carnegie Mellon; M.B.A., 1993, Michigan; Ph.D., 2002, Minnesota.

ANDERSON, MARVIN A., Emeritus Professor of Agronomy. B.S., 1939, M.S., 1949, Ph.D., 1955, Iowa State.

ANDERSON, NADIA, Lecturer in Architecture. B.A., 1988, Yale; M.Arch., 1994, Pennsylvania.

ANDERSON, PAUL F., Professor of Landscape Architecture; Professor of Agronomy. B.S.L.A., 1972, M.L.A., 1974, Iowa State.

ANDERSON, ROBERT M., Emeritus Professor of Electrical and Computer Engineering. B.S.E., 1961, M.S.E., 1963, M.S., 1965, Ph.D., 1967, Michigan.

ANDERSON-HSIEH, JANET, Emeritus Professor of English. BPH, 1967, Northwestern; M.A., 1972, Ph.D., 1976, Illinois.

ANDRE, THOMAS, Professor of Curriculum and Instruction; Professor of Psychology. B.S., 1967, Massachusetts; M.A., 1970, Ph.D., 1971, Illinois.

ANDREASEN, CLAIRE B., Professor of Veterinary Pathology and Chair of the Department; Professor of Veterinary Clinical Sciences and Interim Chair of the Department. B.S., 1979, D.V.M., 1982, Texas A&M; M.S., 1987, Ph.D., 1990, Georgia.

ANDREOTTI, ALEJANDRO, Adjunct Assistant Professor of Curriculum and Instruction. B.A., 1989, Brandeis; Ph.D., 1994, Princeton.

ANDREOTTI, AMY, Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1989, Bowdoin; Ph.D., 1994, Princeton.

ANDREWS, JAMES T., Associate Professor of History. B.S., 1982, M.A., 1983, Tufts; Ph.D., 1994, Chicago.

ANEX, ROBERT P. JR., Associate Professor of Agricultural and Biosystems Engineering; Associate Professor of Mechanical Engineering. B.S., 1981, M.S., 1983, Ph.D., 1995, California (Davis).

ANGELICI, ROBERT JOE, Emeritus Professor of Chemistry. Distinguished Professor in Liberal Arts and Sciences. B.S., 1959, St. Olaf; Ph.D., 1962, Northwestern.

APLEY, MICHAEL D., Associate Professor of Veterinary Diagnostic and Production Animal Medicine (Collaborator). B.S., 1981, D.V.M., 1987, Ph.D., 1992, Kansas State.

APPLEQUIST, JON BARR, Emeritus Professor of Biophysics. B.S., 1954, California (Berkeley); Ph.D., 1959, Harvard.

ARBUCKLE, J. GORDON JR., Assistant Professor of Sociology. B.A., 1991, Guilford College; M.S., 2002, Ph.D., 2007, Missouri.

ARCAND, JANET L., Assistant Professor, Library. B.A., 1979, California (Los Angeles); M.L.S., 1980, California (Berkeley).

ARMSTRONG, PATRICK IAN, Assistant Professor of Psychology. B.A., 1998, Ottawa (Canada); M.A., 2002, Ph.D., 2005, Illinois.

ARNDT, GRANT, Assistant Professor of Anthropology. A.B., 1994, Ph.D., 2004, Chicago.

ARORA, RAJEEV, Professor of Horticulture. B.S., 1975, Meerut (India); M.S., 1979, G.B. Pant (India); Ph.D., 1990, Wisconsin.

ARP, LAWRENCE H., Professor of Veterinary Pathology (Collaborator). D.V.M., 1970, Ph.D., 1981, Iowa State.

ARRITT, RAYMOND W., Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.A., 1979, M.S., 1982, Virginia; Ph.D., 1985, Colorado State.

ARTHUR, VIRGINIA C., Adjunct Assistant Professor of Educational Leadership and Policy Studies. B.A., 1970, Washington (Maryland); M.S., 1972, Syracuse; Ph.D., 1988, Iowa State.

ASBJORNSEN, HEIDI, Associate Professor of Natural Resource Ecology and Management. B.A., 1989, Carleton; MFS, 1993, DF, 1999, Yale.

ASHLOCK, DANIEL A., Associate Professor of Mathematics (Collaborator); Associate Professor of Electrical and Computer Engineering (Collaborator). B.S., 1984, Kansas; Ph.D., 1990, California Institute of Technology.

ASHLOCK, JERAMY, Assistant Professor of Civil, Construction and Environmental Engineering. B.S., 1997, M.S., 2000, Ph.D., 2006, Colorado.

ASJES, DAVID C., Adjunct Assistant Professor of Naval Science. B.S., 1985, U S. Naval Academy; M.S., 1992, U S. Naval Postgraduate School; M.A., 1998, U S. Naval War College.

ATCHISON, GARY JAMES, Emeritus Professor of Natural Resource Ecology and Management; University Professor. B.S., 1965, Michigan State; M.S., 1967, Iowa State; Ph.D., 1970, Michigan State.

ATHERLY, ALAN G., Emeritus Professor of Genetics, Development and Cell Biology; Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1959, Western Michigan; Ph.D., 1964, North Carolina.

ATHREYA, KRISHNA B., Professor of Mathematics; Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.A., 1959, Loyola (India); Ph.D., 1967, Stanford.

ATHREYA, KRISHNA S., Adjunct Associate Professor of Materials Science and Engineering. Ph.D., 1986, Iowa State.

ATKINS, RICHARD E., Emeritus Professor of Agronomy. B.S., 1941, Kansas State; M.S., 1942, Ph.D., 1948, Iowa State.

ATKINSON, DEBRA JO, Senior Lecturer in Kinesiology. B.S., 1986, M.S., 1991, Iowa State.

ATWOOD, DAVID M., Senior Lecturer in Physics and Astronomy. B.S., 1984, Toronto (Canada); M.S., 1987, Ph.D., 1989, McGill.

AUNE, JEANINE ELISE, Senior Lecturer in English. B.A., 1992, Concordia College; M.A., 1997, Wisconsin.

AUWERDA, PEGGY A., Associate Professor of Animal Science. B.S., 1982, Illinois State; M.S., 1986, Ph.D., 1988, Illinois.

AVALOS, HECTOR I., Professor of Philosophy and Religious Studies. B.A., 1982, Arizona; MTS, 1985, Harvard Divinity; Ph.D., 1991, Harvard.

AVRAAMIDES, ACHILLES, Emeritus Associate Professor of History. B.A., 1957, Bob Jones; M.A., 1963, Ph.D., 1971, Minnesota.

AXENOVICH, MARIA, Associate Professor of Mathematics. M.S., 1995, Ph.D., 1999, Illinois.

BAAS, THOMAS J., Professor of Animal Science. B.S., 1972, M.S., 1989, Ph.D., 1990, Iowa State.

BABCOCK, BRUCE A., Professor of Economics. B.S., 1980, M.S., 1981, California (Davis); Ph.D., 1987, California (Berkeley).

BACHMANN, MARILYN D., Emeritus Professor of Natural Resource Ecology and Management. B.S., 1955, Ball State; M.A., 1960, Ph.D., 1964, Michigan.

BACHMANN, ROGER W., Emeritus Professor of Natural Resource Ecology and Management. B.S., 1956, Michigan; M.S., 1958, Idaho; Ph.D., 1962, Michigan.

BADENHOPE, JULIA M., Associate Professor of Landscape Architecture. B.S., 1987, Tennessee; M.L.A., 1992, Harvard.

BADO-FRALICK, NIKKI, Associate Professor of Philosophy and Religious Studies. B.A., 1977, M.A., 1988, Ohio; Ph.D., 2000, Ohio State.

BAENZIGER, MARDITH A., Associate Professor of Civil, Construction and Environmental Engineering. B.Arc.E., 1968, M.S., 1969, Iowa State; M.S., 1979, Ph.D., 1981, Wisconsin.

BAER, ROGER EDWARD, Professor of Art and Design and Chair of the Department. B.A., 1968, California State (Long Beach); M.F.A., 1978, Illinois.

BAHADUR, SHYAM, Emeritus Professor of Mechanical Engineering; University Professor. B.E., 1957, M.E., 1962, Roorkee (India); Ph.D., 1970, Michigan.

BAILEY, MICHAEL DAVID, Assistant Professor of History. B.A., 1993, Duke; Ph.D., 1998, Northwestern.

BAILEY, THEODORE B. JR., Professor of Statistics. B.S., 1964, Iowa State; M.S., 1969, Ph.D., 1972, Minnesota.

BAIN, CARMEN M., Assistant Professor of Sociology. M.A., 2001, Canterbury (New England); Ph.D., 2007, Michigan State.

BAKAC, ANDREJA, Adjunct Professor of Chemistry. B.S., 1968, M.S., 1972, Ph.D., 1976, Zagreb.

BAKER, JAMES L., Emeritus Professor of Agricultural and Biosystems Engineering; University Professor. B.S., 1966, South Dakota School of Mines; Ph.D., 1971, Iowa State.

BAKER, JANICE A., Assistant Professor of Kinesiology; Assistant Professor of Music. B.F.A., 1975, Utah; M.S., 1979, Kansas State.

BAKER, JENNY LYNN, Lecturer in Civil, Construction and Environmental Engineering. B.S., 2001, M.S., 2001, Kansas State.

BAKER, RODNEY BURNS, Senior Clinician in Veterinary Diagnostic and Production Animal Medicine. B.S., 1974, Western Kentucky; D.V.M., 1978, Auburn; M.S., 1999, Iowa State.

BAL, HARPAL S., Emeritus Professor of Biomedical Sciences. B.V.Sc., 1953, Punjab (India); M.S., 1966, Ph.D., 1969, Iowa State.

BALASUBRAMANIAM, SHANKER, Assistant Professor of Electrical and Computer Engineering (Collaborator). B.Tech., 1989, Indian Institute of Technology; M.S., 1992, Ph.D., 1993, Pennsylvania State.

BALDWIN, CLAUDIA J., Associate Professor of Veterinary Clinical Sciences. D.V.M., 1982, Michigan State; M.S., 1983, Wisconsin.

BALTZER, LYNNE E., Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1972, Wisconsin (Stout); Ph.D., 1983, Iowa State.

BANG, EUNJIN, Assistant Professor of Curriculum and Instruction. B.S., 1997, Chun Chun (Korea); M.S., 2004, Ph.D., 2008, Arizona State.

BANNANTINE, JOHN P., Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1988, Wisconsin (Oshkosh); M.S., 1991, Ph.D., 1995, Iowa State.

BARAK, ROBERT J., Professor of Educational Leadership and Policy Studies (Collaborator). B.S., 1967, Michigan State; M.A., 1972, Missouri (Kansas City); Ph.D., 1976, New York (Buffalo).

BARCLAY, SALLY L., Clinician in Food Science and Human Nutrition. B.S., 1978, Iowa State; M.S., 1980, Purdue.

BARKER, JESSICA, Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.S., 2000, Louisiana State; M.S., 2003, Ph.D., 2007, Florida State.

BARNES, RICHARD G., Emeritus Professor of Physics and Astronomy. B.S., 1948, Wisconsin; M.A., 1949, Dartmouth; Ph.D., 1952, Harvard.

BARNES, WILFRED E., Emeritus Professor of Mathematics. S.B., 1949, S.M., 1950, Chicago; Ph.D., 1954, British Columbia.

BARNHART, RUTH S., Emeritus Professor of Curriculum and Instruction. B.S., 1960, M.A., 1964, Western Michigan; Ph.D., 1975, Michigan State.

BARNHART, STEPHEN K., Professor of Agronomy. B.S., 1970, M.S., 1975, Ohio State; Ph.D., 1979, Iowa State.

BARRATT, MARY F., Adjunct Instructor in English. A.B., 1973, California (Berkeley); M.A., 1975, Ohio; Ph.D., 1993, Iowa State.

BARTA, THOMAS A., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1957, Iowa State; M.S., 1962, Iowa; Ph.D., 1975, Iowa State.

BARTHOLOMAY, LYRIC, Assistant Professor of Entomology. B.S., 1998, Colorado State; Ph.D., 2004, Wisconsin.

BARTON, CHARLES, Assistant Professor of Biomedical Sciences (Collaborator). B.S., 1992, M.S., 1993, Ph.D., 1998, Louisiana.

BARTON, TOMMY J., Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1962, Lamar; Ph.D., 1967, Florida.

BASART, JOHN PHILIP, Emeritus Professor of Electrical Engineering. B.S., 1962, M.S., 1963, Ph.D., 1967, Iowa State.

BASMAJIAN, CARLTON, Assistant Professor of Community and Regional Planning. A.B., 1996, Chicago; M.C.P., 2000, Georgia Institute of Technology; Ph.D., 2008, Michigan.

BASSHAM, DIANE C., Associate Professor of Genetics, Development and Cell Biology. B.Sc., 1990, Birmingham (England); Ph.D., 1994, Warwick (England).

BASSLER, BRUCE LEE, Associate Professor of Architecture. B.S., 1972, Iowa State; M.Arch., 1975, Texas A&M.

BASSLER, EUNICE M., Senior Lecturer in Food Science and Human Nutrition. B.A., 1974, Northern Iowa; M.S., 1979, Kansas State.

BASTAWROS, ASHRAF, Associate Professor of Aerospace Engineering; Associate Professor of Mechanical Engineering. B.Sc., 1988, M.Sc., 1991, Cairo (Egypt); M.S., 1995, Ph.D., 1997, Brown.

BASTAWROS, HALA FAROUK, Lecturer in Genetics, Development and Cell Biology. M.D., 1992, Cairo University School of Medicine; M.S., 2007, Iowa State.

BASU, SAMIK, Assistant Professor of Computer Science. B.E., 1998, Jadavpur (India); M.S., 2001, Ph.D., 2003, New York (Stony Brook).

BASZCZYNSKI, MARILYN J., Lecturer in World Languages and Cultures. B.A., 1979, M.A., 1981, Ph.D., 1990, Western Ontario (Canada).

BATAILLE, ROBERT R., Emeritus Professor of English. B.A., 1962, Rutgers; M.A., 1965, Ph.D., 1970, Kansas.

BATH, JOHN A., Emeritus Professor of Psychology; Emeritus Professor of Curriculum and Instruction. A.B., 1932, Peru State; M.A., 1933, Ph.D., 1942, Nebraska.

BATHIE, WILLIAM W., Emeritus Professor of Mechanical Engineering. B.S., 1957, M.E., 1967, Iowa State.

BAUM, DALE DELBERT, Emeritus Professor of Curriculum and Instruction. B.S., 1954, Ohio State; M.Ed., 1967, Missouri; Ed.D., 1970, Kansas.

BAUM, THOMAS J., Professor of Plant Pathology and Chair of the Department. B.A., 1985, Germany; M.S., 1989, Munich; Ph.D., 1993, Clemson.

BAUMANN, E. ROBERT, Emeritus Professor of Civil, Construction and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S.E., 1944, Michigan; B.S., 1945, M.S., 1947, Ph.D., 1954, Illinois.

BAUMEL, PHILLIP, Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, M.S., 1957, Ohio State; Ph.D., 1961, Iowa State.

BAUMGARTEN, JOSEPH R., Emeritus Professor of Mechanical Engineering. B.S.M.E., 1950, Dayton; M.S.M.E., 1955, Ph.D., 1958, Purdue.

BEAL, GEORGE M., Emeritus Professor of Sociology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1943, M.S., 1947, Ph.D., 1953, Iowa State.

BEATTIE, GWYN A., Associate Professor of Plant Pathology. B.A., 1985, Carleton; Ph.D., 1991, Wisconsin.

BEATTIE, SAM, Assistant Professor of Food Science and Human Nutrition. B.S., 1980, Iowa State; M.S., 1985, South Dakota State; Ph.D., 1990, Oregon State.

BEAUVAIS, SHERYL L., Assistant Professor of Food Science and Human Nutrition (Collaborator). B.S., 1984, M.S., 1993, Ph.D., 1997, Iowa State.

BEAVERS, IRENE, Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Professor of Educational Leadership and Policy Studies. B.S., 1948, George Peabody; M.S., 1953, Iowa State; Ph.D., 1962, Wisconsin.

BEAVIS, WILLIAM DALE, Professor of Agronomy. B.S., 1978, Humboldt State; M.S., 1980, New Mexico State; Ph.D., 1985, Iowa State.

BECKMAN, SCOTT P., Assistant Professor of Materials Science and Engineering. B.S., 1999, Iowa State; Ph.D., 2005, M.S., 2005, California (Berkeley).

BECRAFT, PHILIP W., Associate Professor of Genetics, Development and Cell Biology;Associate Professor of Agronomy. B.A., 1980, Montana; M.S., 1987, Montana State; Ph.D., 1992, California (Berkeley).

BEELL, THOMAS LLOYD, Professor of Greenlee School of Journalism and Communication. B.A., 1965, Washington; M.A., 1972, Wisconsin.

BEER, CRAIG E., Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1950, M.S., 1957, Ph.D., 1962, Iowa State.

BEESON, RICHARD, Associate Professor of Horticulture (Collaborator). B.S., 1981, North Carolina State; Ph.D., 1986, Oregon State.

BEETHAM, JEFFREY K., Associate Professor of Veterinary Pathology; Associate Professor of Entomology. B.S., 1989, Western Washington; Ph.D., 1994, California (Davis).

BEGHIN, JOHN C., Professor of Economics. M.Sc., 1984, North Carolina State; Ph.D., 1988, California (Berkeley).

BEHRENS, TED H., Lecturer in English. B.A., 1972, Wartburg College; M.A., 1977, Northern Iowa.

BEIRMAN, ERICA ANNE, Lecturer in Food Science and Human Nutrition. B.S., 1995, M.S., 1998, Iowa State.

BEITZ, DONALD C., Professor of Animal Science; Professor of Biochemistry, Biophysics and Molecular Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1962, M.S., 1963, Illinois; Ph.D., 1967, Michigan State.

BEKKUM, VICTOR A., Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1964, M.S., 1968, Wisconsin; Ph.D., 1978, Iowa State.

BELKACEMI, BRIDGET CLAIRE, Lecturer in Landscape Architecture. B.L.A., 1995, Iowa State; M.L.A., 2006, Virginia.

BELLAIRE, BRYAN, Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1995, Northern Arizona; Ph.D., 2001, Louisiana State.

BENDER, HOLLY S., Professor of Veterinary Pathology. B.S., 1976, D.V.M., 1979, Michigan State; Ph.D., 1987, Virginia Polytechnic.

BENNER, SUSAN E., Senior Lecturer in English. B.A., 1980, Earlham; M.A., 1994, Iowa State; M.F.A., 1999, Iowa.

BENNETT, ADRIAN A. III, Emeritus Professor of History. B.A., 1964, Antioch; M.A., 1966, Ph.D., 1970, California (Davis).

BENSON, GARREN O., Emeritus Professor of Agronomy. B.S., 1961, M.S., 1963, Minnesota; Ph.D., 1971, Iowa State.

BERAN, GEORGE W., Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1954, Iowa State; Ph.D., 1959, Kansas; L.H.D., 1973, Silliman (Philippines).

BERAN, JANICE ANN, Emeritus Adjunct Professor of Kinesiology. A.B., 1953, Central; M.S., 1970, Drake; Ph.D., 1976, Iowa State.

BERESNEV, IGOR, Professor of Geological and Atmospheric Sciences. M.S., 1981, Ph.D., 1986, Moscow (Russia).

BERGER, P. JEFFREY, Professor of Animal Science. B.S., 1965, Delaware Valley; M.S., 1967, Ph.D., 1970, Ohio State.

BERGER, ROGER W., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S.M.E., 1958, Nebraska; M.S.I.E., 1962, Kansas State; Ph.D., 1968, Oklahoma State.

BERGESON, KENNETH L., Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1969, M.S., 1972, Ph.D., 1985, Iowa State.

BERGMAN, CLIFFORD, Professor of Mathematics; Professor of Computer Science. B.S., 1975, Brown; Ph.D., 1982, California (Berkeley).

BERGQUIST, ERIN E., Lecturer in Food Science and Human Nutrition. M.P.H., 2007, Des Moines.

BERMANN, KAREN R., Associate Professor of Architecture. B.Arch., 1983, Cooper Union; M.F.A., 1991, San Francisco Art Institute.

BERN, CARL JOSEPH, Professor of Agricultural and Biosystems Engineering; University Professor. B.S., 1963, M.S., 1964, Nebraska; Ph.D., 1973, Iowa State.

BERNARD, JAMES EDWARD, Professor of Mechanical Engineering; Anson Marston Distinguished Professor in Engineering; Interim Dean of the College of Engineering. B.S., 1966, M.S., 1968, Ph.D., 1971, Michigan.

BERNARD, ROBERT W., Emeritus Professor of World Languages and Cultures. B.A., 1958, St. Thomas; M.A., 1962, Ph.D., 1968, Kansas.

BERRYESSA, NICOLAS A., Clinician in Veterinary Clinical Sciences. B.S., 2000, California (Davis); D.V.M., 2004, Cornell.

BESSER, TERRY L., Professor of Sociology. B.S., 1969, Iowa State; M.A., 1975, Northern Iowa; Ph.D., 1991, Kentucky.

BEST, LOUIS BROWN, Emeritus Professor of Natural Resource Ecology and Management. B.S., 1968, Weber State; M.S., 1970, Montana State; Ph.D., 1974, Illinois.

BETCHER, GLORIA J., Adjunct Associate Professor of English. B.A., 1985, St. Olaf; M.A., 1990, Ph.D., 1994, Minnesota.

BETTS, DANIEL MORTON, Professor of Veterinary Clinical Sciences. D.V.M., 1965, Iowa State; M.S., 1979, Illinois.

BEVIN, NANCY LEA, Lecturer in Philosophy and Religious Studies. B.A., 1981, Buena Vista; M.A., 1986, Ph.D., 1989, Iowa State.

BHANDARI, ALOK, Associate Professor of Agricultural and Biosystems Engineering; Associate Professor of Civil, Construction and Environmental Engineering. B.Tech., 1990, Jawaharlal Nehru Tech; M.S., 1992, Ph.D., 1995, Virginia Polytechnic.

BHATTACHARYA, JOYDEEP, Associate Professor of Economics. B.S., 1989, St. Xaviers College; M.A., 1991, Delhi School of Economics (India); Ph.D., 1996, Cornell.

BHATTACHARYYA, JAHNABIMALA, Lecturer in Statistics. B.Sc., 1976, Colton College; M.Sc., 1979, Gauhati (India); M.Sc., 1984, Western Ontario.

BHATTACHARYYA, MADAN KUMAR, Associate Professor of Agronomy. B.Sc., 1975, Assam Agricultural (India); M.Sc., 1978, Punjab Agricultural (India); Ph.D., 1987, Western Ontario.

BICKETT-WEDDLE, DANELLE A., Lecturer in Veterinary Diagnostic and Production Animal Medicine. B.S., 1995, South Dakota State; D.V.M., 1999, Iowa State; M.P.H., 2003, Iowa.

BIECHLER, DEAN W., Lecturer in Art and Design. B.A., 1973, M.A., 1998, Iowa State.

BIGELOW, TIMOTHY, Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Mechanical Engineering. B.S., 1998, Colorado State; M.S., 2001, Ph.D., 2004, Illinois.

BILLINGS, CHRISTOPHER O., Lecturer in Curriculum and Instruction. B.A., 1990, M.Ed., 1994, Brigham Young.

BINER, SULEYMAN B., Adjunct Associate Professor of Materials Science and Engineering; Adjunct Associate Professor of Aerospace Engineering. M.Sc., 1973, Istanbul Technical Institute; Ph.D., 1981, Aston (England); M.B.A., 1996, Iowa State.

BIRD, SHARON R., Associate Professor of Sociology. B.A., 1987, M.A., 1989, Oklahoma; Ph.D., 1998, Washington State.

BIRRELL, STUART J., Associate Professor of Agricultural and Biosystems Engineering. B.Sc., 1984, Natal (South Africa); M.S., 1987, Ph.D., 1995, Illinois.

BIRSKYTE, LIUCIJA, Assistant Professor of Political Science. B.A., 1988, Latvian State (Latvia); M.P.P., 2001, Minnesota; Ph.D., 2008, Indiana.

BIRT, DIANE FEICKERT, Professor of Food Science and Human Nutrition; Mary B. Welch Distinguished Professor in Family and Consumer Sciences. B.A., 1972, Whittier College; Ph.D., 1975, Purdue.

BISHOP, STEPHEN H., Emeritus Professor of Genetics, Development and Cell Biology. B.A., 1958, Gettysburg; M.S., 1960, Duke; Ph.D., 1964, Rice.

BISWAS, RANA, Adjunct Associate Professor of Electrical and Computer Engineering; Adjunct Associate Professor of Physics and Astronomy. B.Sc., 1976, Bombay; M.Sc., 1978, Indian Institute of Technology; M.S., 1981, Ph.D., 1984, Cornell.

BIVENS, GORDON E., Emeritus Professor of Human Development and Family Studies; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1950, M.S., 1953, Ph.D., 1957, Iowa State.

BIX, AMY SUE, Associate Professor of History. A.B., 1987, Princeton; Ph.D., 1994, Johns Hopkins.

BJURSTROM, NEIL A., Emeritus Associate Professor of Music. B.M.Ed., 1953, M.M., 1954, Northwestern; Ph.D., 1972, Iowa.

BLACKBURN, VIRGINIA L., Associate Professor of Management. B.S., 1977, Kentucky; M.B.A., 1980, Missouri; D.B.A., 1987, Kentucky.

BLACKHURST, JENNIFER JANE, Associate Professor of Logistics, Operations and Management Information Systems. B.S., 1995, M.S., 1997, Ohio; Ph.D., 2002, Iowa.

BLAKE, J. HERMAN, Emeritus Professor of Educational Leadership and Policy Studies; Emeritus Professor of Sociology. B.A., 1960, New York (New York City); M.A., 1965, Ph.D., 1974, California (Berkeley).

BLAKELY, BARBARA JEAN, Associate Professor of English. B.S.E., 1978, M.A., 1982, Drake; Ph.D., 1999, Iowa State.

BLANCHONG, JULIE ANNE, Assistant Professor of Natural Resource Ecology and Management. B.S., 1995, Bowling Green State; M.S., 1999, Ph.D., 2003, Michigan State.

BLANCO, MICHAEL, Assistant Professor of Agronomy (Collaborator). B.S., 1968, Georgia; M.S., 1973, Pennsylvania State; Ph.D., 1977, Missouri.

BLANKENSHIP, KEVIN L., Assistant Professor of Psychology. B.A., 1998, M.S., 2001, Ball State; Ph.D., 2006, Purdue.

BLEVINS, JEFFREY L., Assistant Professor of Greenlee School of Journalism and Communication. B.S., 1995, M.S., 1998, Southern Illinois; Ph.D., 2001, Ohio.

BLEYLE, CARL OTTO, Emeritus Professor of Music. B.Mus., 1957, Kentucky; M.M., 1960, Wisconsin; Ph.D., 1969, Minnesota.

BLITVICH, BRADLEY, Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.Sc., 1990, B.Sc., 1991, Ph.D., 1996, Western Australia.

BLOCK, CHARLES C., Assistant Professor of Plant Pathology (Collaborator). B.S., 1974, Briar Cliff College; M.S., 1979, Ph.D., 1996, Iowa State.

BLOCK, DAVID ARTHUR, Professor of Architecture. B.Arch., 1967, M.Arch., 1972, M.S., 1974, Iowa State.

BLOEDEL, JAMES R., Professor of Biomedical Sciences; Professor of Kinesiology; Associate Dean of the College of Veterinary Medicine. B.A., 1962, St. Olaf; Ph.D., 1967, M.D., 1969, Minnesota.

BLOOM, LESLIE R., Associate Professor of Curriculum and Instruction. B.A., 1979, Boston University; M.A., 1985, Delaware; Ph.D., 1993, Indiana.

BLOUNT, JACKIE MARIE, Professor of Curriculum and Instruction. B.M.Ed., 1983, M.A.T., 1989, Ph.D., 1993, North Carolina.

BLUMENFELD, WARREN JAY, Assistant Professor of Curriculum and Instruction. B.A., 1969, San Jose State; M.Ed., 1974, M.Ed., 1977, Boston College; Ed.D., 2001, Massachusetts.

BLUNCK, DOREEN M., Instructor in Food Science and Human Nutrition (Collaborator). B.S., 1977, Simmons; M.S., 1978, Case Western Reserve.

BLYLER, NANCY LOUISE, Emeritus Professor of English. B.A., 1964, Wellesley; Ph.D., 1976, Iowa.

BOBIK, THOMAS A., Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1979, Indiana; M.S., 1986, Ph.D., 1990, Illinois.

BODE, BRETT M., Adjunct Assistant Professor of Electrical and Computer Engineering. B.S., 1993, Illinois State; Ph.D., 1998, Iowa State.

BOEHM, N. JOHN, Lecturer in English. B.A., 1973, Iowa; M.A., 1979, Iowa State.

BOEHMER, JOANN L., Senior Lecturer in Art and Design. B.S., 1980, M.F.A., 1990, Arizona State.

BOGDANOVE, ADAM J., Associate Professor of Plant Pathology. B.S., 1987, Yale; Ph.D., 1997, Cornell.

BOHNENKAMP, JEANNETTE, Emeritus Associate Professor of Food Science and Human Nutrition. B.A., 1953, Clarke; M.S., 1956, Iowa State.

BOLLES, HEATHER ANNE, Senior Lecturer in Mathematics. B.S., 1995, Ph.D., 2000, Iowa State.

BOLLUYT, JAMES EDWARD, Assistant Professor of Civil, Construction and Environmental Engineering. B.A., 1968, Northwestern (Iowa); B.A., 1974, M.S., 1980, Iowa State.

BOLSER, KARL W., Senior Lecturer in Biomedical Sciences. D.V.M., 1990, Iowa State.

BONACCORSI, CRISTINA, Lecturer in Chemistry. LD, 2001, Universita Degli Studi Di Pisa (Italy); Ph.D., 2005, Swiss Federal Institute of Technology.

BOND, PAUL RILEY, Emeritus Associate Professor of Electrical and Computer Engineering. B.S., 1952, John Brown; M.S., 1958, Ph.D., 1963, Iowa State.

BONETT, DOUGLAS G., Professor of Psychology and Chair of the Department; Professor of Statistics. B.A., 1974, California State (Fresno); M.A., 1978, California State (Long Beach); M.A., 1980, Ph.D., 1983, California (Los Angeles).

BONETT, RHONDA, Senior Lecturer in Psychology. B.A., 1975, California State (Fresno); M.S., 1979, California State (Long Beach); Ph.D., 1990, Wyoming.

BONNER, JOHN M., Assistant Professor of Animal Science (Collaborator). B.S., 1968, M.S., 1971, Ph.D., 1974, Iowa State.

BONNING, BRYONY C., Professor of Entomology. B.S., 1985, Durham; Ph.D., 1989, London School of Hygiene and Tropical Medicine.

BOOK, MICHAEL D., Clinician in Educational Leadership and Policy Studies. B.A., 1972, Northern Iowa; Ed.D., 1982, Drake; M.A., 1994, Northern Iowa; Ed.S., 1997, Drake.

BOON, WILLIAM C., Emeritus Professor of Landscape Architecture. B.S., 1955, B.S.L.A., 1960, Kansas State; M.L.A., 1977, Iowa State.

BOOTH, LARRY C. JR., Associate Professor of Veterinary Clinical Sciences. D.V.M., 1973, Iowa State; M.S., 1976, Michigan State.

BORGEN, FRED H., Emeritus Professor of Psychology. B.A., 1963,Ph.D., 1970, Minnesota.

BORICH, TIMOTHY O., Associate Professor of Community and Regional Planning; Associate Dean of the College of Design. B.S., 1975, South Dakota State; M.A., 1978, South Dakota; Ph.D., 1992, Iowa State.

BORISOVA, GINKA, Assistant Professor of Finance. B.S., 2000, National and World Economy (Bulgaria); M.B.A., 2004, Ph.D., 2008, Oklahoma.

BORKOWSKI, DOUGLAS KENT, Lecturer in Human Development and Family Studies. B.S., 1983, MFCS, 2005, Iowa State.

BORSA, FERDINANDO, Emeritus Professor of Physics and Astronomy. B.S., 1961, Ph.D., 1969, Pavia.

BOSSARD, HOPE, Lecturer in Curriculum and Instruction. B.A., 1979, Iowa State; M.S.E., 1993, Ed.Sp., 2000, Drake.

BOSSELMAN, ROBERT, Professor of Apparel, Educational Studies and Hospitality Management and Chair of the Department. B.A., 1976, New York (Buffalo); M.S., 1982, Florida International; Ph.D., 1985, Oklahoma State.

BOUILLON, MARVIN L., Associate Professor of Accounting and Chair of the Department. B.A., 1974, M.B.A., 1982, Northern Iowa; M.S., 1984, Ph.D., 1986, Kansas.

BOURY, NANCY M., Senior Lecturer in Animal Science. B.A., 1991, Wartburg College; M.S., 1993, Wisconsin; Ph.D., 1997, Iowa State.

BOUSHABA, KHALID, Assistant Professor of Mathematics. B.S., 1995, Meknes (Morocco); Ph.D., 2001, Marradzech (Morocco).

BOVINETTE, JAMES T., Associate Professor of Music. B.A., 1982, M.M., 1983, Southern Illinois; D.M.A., 2001, Illinois.

BOWEN, BONNIE SUE, Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1972, Cornell; Ph.D., 1978, California (Berkeley).

BOWEN, GEORGE H., Emeritus Professor of Physics and Astronomy. B.S., 1949, Ph.D., 1953, California Institute of Technology.

BOWER, DUSTIN T., Adjunct Instructor in Military Science and Tactics.

BOWER, JOHN RICHARD F., Emeritus Professor of Anthropology. B.A., 1957, Harvard; M.A., 1968, Ph.D., 1973, Northwestern.

BOWERS, LARRY NEAL,Emeritus Professor of English.Distinguished Professor in Liberal Arts and Sciences.B.A., 1970,M.A., 1971, Austin Peay;Ph.D., 1976, Florida.

BOWLER, JOHN R., Professor of Electrical and Computer Engineering. B.Sc., 1971, Leicester (England); M.Sc., 1980, Keele (England); Ph.D., 1984, Surrey (England).

BOWLER, NICOLA, Associate Professor of Materials Science and Engineering;Associate Professor of Electrical and Computer Engineering. B.Sc., 1990, Nottingham (UK); Ph.D., 1994, Surrey (UK).

BOYD, MORTON MCKEE, Emeritus Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1954, Pennsylvania State; M.S., 1962, Massachusetts.

BOYDSTON, JEANNE M. K., Associate Professor, Library. B.A., 1975, Washburn; M.A., 1979, Wichita; M.S., 1985, Illinois.

BOYLAN, ANNE CHRISTIE, Lecturer in Aerospace Engineering. B.S., 2000, M.E., 2003, Iowa State.

BOYLAN, DAVID RAY JR., Emeritus Professor of Chemical and Biological Engineering. B.S., 1943, Kansas; Ph.D., 1952, Iowa State.

BOYLE, LINDA NG, Assistant Professor of Civil, Construction and Environmental Engineering (Collaborator). BSIE, 1986, New York (Buffalo); M.S.E., 1994, Ph.D., 1998, Washington.

BOYLES, NORMAN L., Emeritus Professor of Educational Leadership and Policy Studies.B.A., 1954, Tusculum; M.S., 1957, Ed.D., 1963, Tennessee.

BOYLSTON, TERRI, Associate Professor of Food Science and Human Nutrition. B.S., 1982, M.S., 1984, Iowa State; Ph.D., 1988, Michigan State.

BRACHA, VLASTISLAV, Associate Professor of Biomedical Sciences. BBS, 1981, Leningrad State (Russia); Ph.D., 1988, Czechoslovak Academy of Science.

BRACKELSBERG, PAUL O., Emeritus Professor of Animal Science. B.S., 1961, North Dakota State; M.S., 1963, Connecticut; Ph.D., 1966, Oklahoma State.

BRACKELSBERG, PHYLLIS, Emeritus Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1961, North Dakota State; M.A., 1963, Connecticut.

BRADBURY, SUSAN L., Associate Professor of Community and Regional Planning. B.A., 1984, McMaster (Canada); M.A., 1987, Ph.D., 1989, Waterloo (Canada).

BRADLEY, CAROL M., Lecturer in Educational Leadership and Policy Studies. B.A., 1967, Iowa; M.A., 1972, South Dakota; Ph.D., 1982, Iowa.

BRADSHAW, LARRY LEROY, Emeritus Assistant Professor of Agricultural and Biosystems Engineering. B.A., 1964, M.A., 1970, Northern Iowa; Ph.D., 1984, Iowa State.

BRAKE, SANDRA, Associate Professor of Geological and Atmospheric Sciences (Collaborator). B.S., 1980, Winona State; M.S., 1983, Tulsa; Ph.D., 1989, Colorado School of Mines.

BRANDLE, JAMES, Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1966, Tennessee; M.S., 1969, Ph.D., 1974, Missouri.

BRANDT, FRANK E., Emeritus Professor of Music/Theatre. B.A., 1938, Northern Iowa; M.S., 1948, Iowa State.

BRANT, GEORGE, Professor of Animal Science. B.S., 1963, M.S., 1965, Oklahoma State; Ph.D., 1971, California (Davis).

BRATSCH-PRINCE, DAWN, Professor of World Languages and Cultures; Associate Dean of the College of Liberal Arts and Sciences. B.A., 1983, M.A., 1985, New York University; Ph.D., 1990, California (Berkeley).

BRAUN, EDWARD J., Professor of Plant Pathology. B.A., 1972, Miami (Ohio); Ph.D., 1977, Cornell.

BREARLEY, HARRINGTON, Emeritus Professor of Computer Science; Emeritus Professor of Electrical and Computer Engineering. B.E.E., 1946, Georgia Institute of Technology; M.S., 1950, Ph.D., 1954, Illinois.

BREHM-STECHER, BYRON F., Assistant Professor of Food Science and Human Nutrition. B.S., 1995, M.S., 1996, Ph.D., 2002, Wisconsin.

BREITER, JOAN C., Emeritus Professor of Curriculum and Instruction. B.S., 1956, M.S., 1961, Mankato; Ed.D., 1968, Northern Colorado.

BREITSPRECKER, CORRINE, Lecturer in Curriculum and Instruction. B.A., 1989, M.A., 2002, Northern Iowa.

BRENDEL, VOLKER, Professor of Genetics, Development and Cell Biology; Professor of Statistics. M.Sc., 1980, Oxford; Ph.D., 1986, Weizmann Institute (Israel).

BREWER, KENNETH ALVIN, Emeritus Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1960, M.S., 1961, Kansas State; Ph.D., 1968, Texas A&M.

BRO, ADALU C., Emeritus Professor of Art and Design. B.S., 1955, McPherson; M.A., 1967, M.F.A., 1969, Iowa.

BROCATO, ELISABETH D., Assistant Professor of Marketing. B.A., 1995, Grinnell; M.B.A., 2001, M.S., 2001, Ph.D., 2006, Texas (Arlington).

BROCKMAN, WILLIAM H., Emeritus Professor of Electrical and Computer Engineering. B.S., 1960, M.S., 1962, Ph.D., 1966, Purdue.

BROCKMEIER, SUSAN, Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). D.V.M., 1988, Missouri; Ph.D., 1996, Iowa State.

BROGDEN, KIM, Professor of Veterinary Pathology (Collaborator). B.S., 1975, M.S., 1977, Ph.D., 1981, Iowa State.

BRONIKOWSKI, ANNE, Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1987, Marquette; M.S., 1994, Ph.D., 1997, Chicago.

BRONSON, CHARLOTTE R., Professor of Plant Pathology; Associate Vice Provost. B.S., 1969, New Mexico; M.S., 1974, Michigan; Ph.D., 1981, Michigan State.

BROOKE, CORLICE P., Professor of Human Development and Family Studies and Interim Chair of the Department. B.S., 1968, Iowa State; M.A., 1973, Ph.D., 1979, Minnesota.

BROTHERSON, MARY JANE, Professor of Human Development and Family Studies. B.A., 1973, M.S., 1976, Nebraska (Omaha); Ph.D., 1985, Kansas.

BROTTMAN, DAVID MICHAEL, Lecturer in English. B.A., 1973, Minnesota; M.A., 1984, Ph.D., 1990, Iowa.

BROWN, DONALD WAYNE, Emeritus Professor of Accounting. B.S., 1942, Kansas State; M.B.A., 1946, Denver.

BROWN, FREDERICK G., Emeritus Professor of Psychology; Emeritus Professor of Curriculum and Instruction; University Professor. B.A., 1954, M.A., 1955, Wisconsin; Ph.D., 1958, Minnesota.

BROWN, GAYLE B., Lecturer in Veterinary Microbiology and Preventive Medicine. B.S., 1982, Denver; D.V.M., 1986, Illinois; M.S., 1989, Ph.D., 1999, Iowa State.

BROWN, GEORGE GORDON, Emeritus Professor of Ecology, Evolution and Organismal Biology. B.S., 1959, M.S., 1961, Virginia Polytechnic Institute; Ph.D., 1966, Miami (Florida).

BROWN, MARTHA M., Lecturer in Agricultural Education and Studies. B.S., 1972, M.S., 1977, Arizona State; Ph.D., 1992, Iowa State.

BROWN, NANCY EVELYN, Emeritus Associate Professor of Hotel Restaurant and Institution Management. B.S., 1960, Vermont; M.S., 1964, Kansas State; Ph.D., 1972, Iowa State.

BROWN, ROBERT C., Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering; Professor of Agricultural and Biosystems Engineering; Anson Marston Distinguished Professor in Engineering. B.A., 1976, B.S., 1976, Missouri; M.S., 1977, Ph.D., 1980, Michigan State.

BROWN, ROBERT GROVER, Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, M.S., 1951, Ph.D., 1956, Iowa State.

BRUENE, BARBARA JANE, Emeritus Associate Professor of Art and Design. B.A., 1958, Northern Iowa; M.A., 1978, Iowa State; M.F.A., 1986, Drake.

BRUENE, ROGER J., Emeritus Associate Professor of Agricultural Education and Studies. B.S., 1956, Iowa State.

BRUMM, THOMAS J., Associate Professor of Agricultural and Biosystems Engineering. B.S., 1979, Iowa State; M.S., 1980, Purdue; Ph.D., 1990, Iowa State.

BRUN, JUDY KAY, Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Professor of Curriculum and Instruction. B.S., 1964, Michigan State; M.S., 1967, Ph.D., 1970, Iowa State.

BRUNA, KATHERINE R., Assistant Professor of Curriculum and Instruction. B.A., 1988, Vassar College; M.A., 1994, Ph.D., 2002, California (Davis).

BRUNNER, LORI A., Assistant Professor of Art and Design. B.S.A., 1993, M.U.P., 1998, Illinois (Urbana-Champaign); M.F.A., 2004, Iowa State.

BRUSKI, PAUL R., Assistant Professor of Art and Design. B.F.A., 1996, College of Visual Arts; M.F.A., 2005, Minnesota.

BRUTON, BRENT T., Emeritus Professor of Sociology. B.A., 1964, M.A., 1966, Ph.D., 1970, Missouri.

BRYAN, RAY JAMES, Emeritus Professor of Educational Leadership and Policy Studies. B.S., 1933, M.S., 1937, Kansas State; Ph.D., 1940, Nebraska.

BRYDEN, KENNETH, Associate Professor of Mechanical Engineering; Associate Professor of Aerospace Engineering. B.S., 1977, Idaho State; M.S.M.E., 1993, Ph.D., 1997, Wisconsin.

BRYDEN, KRISTY, Adjunct Assistant Professor of Music. B.M., 1979, Idaho State; M.M., 1993, Ph.D., 2001, Wisconsin.

BUCHELE, WESLEY F., Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1943, Kansas State; M.S., 1951, Arkansas; Ph.D., 1954, Iowa State.

BUCK, PETER G., Assistant Professor of Kinesiology (Collaborator). B.A., 1974, Colorado; M.D., 1978, Iowa; M.A., 1980, Minnesota.

BUDKO, SERGUEI L., Adjunct Associate Professor of Physics and Astronomy. M.S., 1982, Ph.D., 1986, Moscow Physical Technical Institute.

BUELL, C. ROBIN, Assistant Professor of Genetics, Development and Cell Biology (Collaborator). B.S., 1985, Maryland; M.S., 1988, Washington State; Ph.D., 1992, Utah State.

BUGEJA, DIANE FAYE, Lecturer in Greenlee School of Journalism and Communication. B.S., 1981, M.S., 1988, Oklahoma State.

BUGEJA, MICHAEL J., Professor of Greenlee School of Journalism and Communication and Director of the School. B.A., 1974, Saint Peters College; M.S., 1976, South Dakota State; Ph.D., 1985, Oklahoma State.

BULLA, DAVID W., Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1983, North Carolina; M.A., 2001, Indiana; Ph.D., 2004, Florida.

BUNDY, DWAINE S., Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1965, Eastern Illinois; B.S., 1968, M.S., 1969, Missouri; Ph.D., 1974, Iowa State.

BUNZEL, HELLE, Associate Professor of Economics. B.A., 1993, Aarhus (Denmarck); M.A., 1997, Ph.D., 1999, Cornell.

BURGER, LOREN W. JR., Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1985, Murray State; M.S., 1988, Ph.D., 1993, Missouri.

BURGER, STEWART LEE, Lecturer in Apparel, Educational Studies and Hospitality Management. B.S., 1970, Cornell; M.S., 1972, Iowa State.

BURKART, MICHAEL R., Associate Professor of Geological and Atmospheric Sciences (Collaborator). B.S., 1964, Wisconsin; M.S., 1969, Northern Illinois; Ph.D., 1976, Iowa.

BURKE, BENJAMIN, Assistant Professor of Geological and Atmospheric Sciences (Collaborator). Ph.D., 2006, Dartmouth College.

BURKHALTER, N. L., Emeritus Professor of Music; Emeritus Professor of Curriculum and Instruction. L.T.C.L., 1939, Trinity (London); B.S.M., 1947, Bluffton; M.M., 1949, Northwestern; Ph.D., 1961, Ohio State.

BURNET, AGATHA H., Emeritus Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1952, Indiana; M.S., 1956, Iowa State; Ph.D., 1969, Ohio State.

BURNET, GEORGE, Emeritus Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, M.S., 1949, Ph.D., 1951, Iowa State.

BURNETT, JOSEPH W., Senior Lecturer in Chemistry. B.S., 1982, Allegheny (Pennsylvania); Ph.D., 1990, Pittsburgh.

BURNETT, REBECCA E., Emeritus Professor of English; University Professor. B.A., 1968, Massachusetts; M.Ed., 1974, Lowell; M.A., 1989, Ph.D., 1991, Carnegie Mellon.

BURNS, ROBERT THOMAS, Associate Professor of Agricultural and Biosystems Engineering. B.S., 1990, M.S., 1992, Ph.D., 1995, Tennessee.

BURRAS, CHARLES L., Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.S., 1981, M.S., 1984, Iowa State; Ph.D., 1992, Ohio State.

BURRIS, JOSEPH S., Emeritus Professor of Agronomy. B.S., 1964, Iowa State; M.S., 1965, Ph.D., 1967, Virginia Polytechnic Institute.

BURROUGH, ERIC R., Adjunct Instructor in Veterinary Pathology. D.V.M., 1997, Iowa State.

BUSS, JANICE E., Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1970, Iowa State; Ph.D., 1983, California (San Diego).

BUTLER, ANNEMARIE, Assistant Professor of Philosophy and Religious Studies. B.A., 1996, Trinity College; Ph.D., 2005, Iowa.

BUTLER, LORNA MICHAEL, Emeritus Professor of Sociology; Emeritus Professor of Anthropology. B.Sc., 1961, Manitoba; M.Ed., 1967, Colorado State; Ph.D., 1976, Washington State.

BUTLER, TRAVIS L., Associate Professor of Philosophy and Religious Studies. B.A., 1990, California (San Diego); M.A., 1992, Washington; M.A., 1995, Ph.D., 1999, Cornell.

BUTTERS-JOHNSON, ANNA KERR, Assistant Professor of Animal Science. B.Sc., 1995, Reading (England); M.Sc., 1997, Edinburgh (UK); Ph.D., 2001, Texas Tech.

BUTTREY, BENTON W., Emeritus Professor of Ecology, Evolution and Organismal Biology. B.S., 1947, M.S., 1949, Idaho; Ph.D., 1953, Pennsylvania.

BUTTRICK, MARTHA LEE, Clinician in Veterinary Clinical Sciences. B.S., 1978, D.V.M., 1982, Iowa State.

BYARS, JANA LENA, Assistant Professor of History. B.A., 1995, M.A., 1997, Western Michigan; Ph.D., 2006, Pennsylvania State.

BYRD, WILLIAM J., Adjunct Assistant Professor of Aerospace Engineering. B.S., 1975, Iowa State; M.S., 1982, Southern California; Ph.D., 1999, Kennedy Western.

BYSTROM, DIANNE G., Adjunct Assistant Professor of Political Science. B.A., 1975, Kearney State; M.A., 1982, Ph.D., 1995, Oklahoma.

CACKLER, ELLS THOMAS, Lecturer in Civil, Construction and Environmental Engineering. B.S., 1969, Iowa State.

CAI, LING, Lecturer in World Languages and Cultures. B.A., 1988, Beijing Normal (China); M.A., 2007, Iowa State.

CAI, YING, Assistant Professor of Computer Science. B.S., 1990, M.S., 1993, Xian Jiaotong; Ph.D., 2002, Central Florida.

CAIN, BRYAN EDMUND, Emeritus Professor of Mathematics. B.S., 1963, Massachusetts Institute of Technology; M.S., 1964, Ph.D., 1968, Wisconsin.

CALDWELL, BARBARA A., Associate Professor of Art and Design; Associate Professor of Curriculum and Instruction. B.F.A., 1973, Illinois Wesleyan; M.S., 1980, B.S., 1987, Ed.D., 1991, Illinois State.

CALL, ANSON B., Assistant Professor of Art and Design; Assistant Professor of Architecture. B.F.A., 2000, M.F.A., 2003, Utah State.

CAMBARDELLA, CYNTHIA ANN, Associate Professor of Agronomy (Collaborator). B.S., 1975, Maryland; Ph.D., 1991, Colorado State.

CAMPBELL, ARDEN RAY, Emeritus Professor of Agronomy. B.S., 1965, M.S., 1967, Purdue; Ph.D., 1970, Iowa State.

CAMPBELL, CAMERON T., Assistant Professor of Architecture; Assistant Professor of Art and Design. B.Arch., 1997, M.Arch., 2003, Iowa State.

CAMPBELL, CHRISTINA, Associate Professor of Food Science and Human Nutrition. B.S., 1989, Puget Sound; M.S., 1993, Ph.D., 1996, Washington State.

CAMPBELL, CYNTHIA J., Associate Professor of Finance. B.A., 1977, Gordon College; M.A., 1981, M.B.A., 1985, Ph.D., 1987, Michigan.

CAMPBELL, JOY M., Assistant Professor of Animal Science (Collaborator). B.S., 1989, Iowa State; M.S., 1992, Ph.D., 1996, Illinois.

CANFIELD, PAUL C., Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1983, Virginia; Ph.D., 1990, M.S., 1990, California (Los Angeles).

CANNON, STEVEN B., Assistant Professor of Agronomy (Collaborator). B.S., 1990, Utah State; M.A., 1992, Bowling Green State; MPUP, 1994, Ph.D., 2003, Minnesota.

CARAGEA, PETRUTA CARMEN, Assistant Professor of Statistics. B.S., 1997, Bucuresti (Romania); Ph.D., 2003, North Carolina.

CARDINAL-PETT, CLARE, Associate Professor of Architecture. B.A., 1975, Hollins; M.Arch., 1982, Utah.

CARITHERS, JEANINE R., Emeritus Professor of Biomedical Sciences. B.S., 1956, M.S., 1965, Iowa State; Ph.D., 1968, Missouri.

CARITHERS, ROBERT W., Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1956, Iowa State; M.S., 1968, Missouri; Ph.D., 1972, Iowa State.

CARLSON, BILLE C., Emeritus Professor of Mathematics. B.A., 1947, M.A., 1947, Harvard; Ph.D., 1950, Oxford.

CARLSON, DAVID L., Emeritus Associate Professor of Electrical Engineering. B.S., 1959, Minnesota; M.S., 1961, Ph.D., 1964, Iowa State.

CARLSON, IRVING, Emeritus Professor of Agronomy. B.S., 1950, M.S., 1952, Washington State; Ph.D., 1955, Wisconsin.

CARLSON, PATRICIA M., Associate Professor of Curriculum and Instruction. B.S., 1975, Nebraska; M.S., 1977, Indiana; Ph.D., 1990, Nebraska.

CARLSON, RICHARD E., Emeritus Professor of Agronomy. B.S., 1967, Nebraska; M.S., 1969, Ph.D., 1971, Iowa State.

CARLSON, STEVEN A., Associate Professor of Biomedical Sciences. B.Sc., 1986, D.V.M., 1990, Iowa State; Ph.D., 1997, Iowa.

CARLSON, SUSAN LYNN, Professor of English; Associate Provost. B.A., 1975, Iowa; M.A., 1976, Ph.D., 1980, Oregon.

CARPENTER, JAMES, Professor of Veterinary Clinical Sciences (Collaborator). B.S., 1967, Cornell; M.S., 1970, D.V.M., 1974, Oklahoma State.

CARPENTER, SHANA K., Assistant Professor of Psychology. B.A., 2000, Southern Colorado; M.A., 2003, Ph.D., 2004, Colorado State.

CARPENTER, SUSAN LONG, Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1973, Denison; M.S., 1981, Ph.D., 1985, Massachusetts.

CARRIQUIRY, ALICIA L., Professor of Statistics. B.S., 1982, Universidad De La Republica (Uruguay); M.S., 1985, Illinois; M.S., 1986, Ph.D., 1989, Iowa State.

CARSON, THOMAS L., Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine; Emeritus Professor of Veterinary Pathology. D.V.M., 1970, M.S., 1973, Ph.D., 1976, Iowa State.

CARSTENS, ROBERT L., Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1943, M.S., 1964, Ph.D., 1966, Iowa State.

CARTER, RICHARD B., Professor of Finance. B.A., 1971, New York (Potsdam); M.B.A., 1985, Ph.D., 1987, Utah.

CARTER, RICHARD I., Emeritus Professor of Agricultural Education and Studies; Emeritus Professor of Curriculum and Instruction. B.S., 1966, M.S., 1968, Oklahoma State; Ph.D., 1976, Iowa State.

CARTER-LEWIS, DAVID A., Professor of Physics and Astronomy. B.S., 1969, M.S., 1970, Ph.D., 1974, Michigan.

CAST, ALICIA DEANNE, Associate Professor of Sociology. B.A., 1990, Beloit College; M.A., 1992, Ph.D., 1998, Washington State.

CASTON, STEPHANIE S., Clinician in Veterinary Clinical Sciences. D.V.M., 2002, Texas A&M.

CERFOGLI, JENNIFER ANNE, Clinician in Veterinary Clinical Sciences. B.S., 1999, South Dakota State; D.V.M., 2001, Iowa State.

CERVATO, CINZIA, Associate Professor of Geological and Atmospheric Sciences. Ph.D., 1990, Swiss Federal Institute of Technology.

CEYLAN, HALIL, Assistant Professor of Civil, Construction and Environmental Engineering. B.Sc., 1989, M.Sc., 1993, Dokuz Eylul (Turkey); M.Sc., 1995, Ph.D., 2002, Illinois.

CHACKO, THOMAS I., Professor of Management and Chair of the Department. B.Sc., 1968, Madras (India); M.A., 1972, St. Francis; Ph.D., 1977, Iowa.

CHAMBERLIN, DENNIS MATTHEW, Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1983, M.F.A., 2005, Indiana.

CHAMBERLIN, JOAN BORSVOLD, Lecturer in English. B.A., 1980, Oregon; M.A., 1985, Monterey Institute of International Studies.

CHAN, CHIU SHUI, Professor of Architecture. B.S., 1974, University of Chinese Culture; M.Arch., 1982, Minnesota; Ph.D., 1990, Carnegie Mellon.

CHAN, CHUN KIT, Assistant Professor of Psychology. B.S., 2000, Victoria (Canada); Ph.D., 2007, Washington (St. Louis).

CHAN, LYDIA SAU KUM, Lecturer in Mathematics. B.A., 1980, Hong Kong; B.Sc., 1994, M.Sc., 2000, Iowa State.

CHANDRA, ABHIJIT, Professor of Mechanical Engineering; Professor of Aerospace Engineering. B.Tech., 1979, Khanagpur; M.Engr., 1980, New Brunswick; Ph.D., 1983, Cornell.

CHANG, CARL KOCHAO, Professor of Computer Science and Chair of the Department. B.S., 1974, National Central (Taiwan); M.S., 1978, Northern Illinois; Ph.D., 1982, Northwestern.

CHANG, JIEN MORRIS, Associate Professor of Electrical and Computer Engineering; Associate Professor of Computer Science. B.S., 1983, Tatung (Taiwan); M.S., 1986, Ph.D., 1993, North Carolina State.

CHANG, SHU-HUI H., Lecturer in Computer Science. B.A., 1982, National Central (Taiwan); M.S., 1998, Ph.D., 2006, Iowa State.

CHAPELLE, CAROL ANN, Professor of English. B.A., 1977, Michigan State; A.M., 1979, Ph.D., 1983, Illinois.

CHAPLIN, MICHAEL H., Emeritus Professor of Horticulture. B.S., 1965, Kentucky; M.S., 1966, Rutgers; Ph.D., 1968, Michigan State.

CHARLES, DON C., Emeritus Professor of Psychology; Emeritus Professor of Curriculum and Instruction. B.A., 1941, Northern Iowa; M.A., 1947, Ph.D., 1951, Nebraska.

CHASE, GERALD W., Emeritus Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1957, U.S. Military Academy; M.S., 1962, Illinois; Ph.D., 1983, Iowa State.

CHATFIELD, WALTER L., Emeritus Assistant Professor of World Languages and Cultures; Emeritus Assistant Professor of Curriculum and Instruction. B.A., 1956, Augustana (Illinois); M.A., 1958, Iowa.

CHAUDHARY, SUMIT, Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Materials Science and Engineering. B.Tech., 2001, Indian Technological (India); Ph.D., 2006, California (Riverside).

CHAUDHURI, SOMA, Associate Professor of Computer Science. B.S., 1984, Massachusetts Institute of Technology; M.S., 1987, Ph.D., 1990, Washington.

CHAVEZ, FRANK R., Assistant Professor of Aerospace Engineering (Collaborator). B.S., 1987, M.S., 1993, Arizona State; Ph.D., 2000, Maryland.

CHEN, CHING-SHIHN, Professor of Agricultural and Biosystems Engineering. B.S., 1982, Tunghai (Taiwan); M.S., 1988, Ph.D., 1994, Auburn.

CHEN, DEGANG, Associate Professor of Electrical and Computer Engineering. B.S., 1984, Tsinghua (China); M.S., 1988, Ph.D., 1992, California (Santa Barbara).

CHEN, SONG XI, Professor of Statistics. B.Sc., 1983, M.Sc., 1988, Beijing (China); M.Sc., 1990, Victoria (New Zealand); Ph.D., 1992, Australian National.

CHEN, TSING-CHANG, Professor of Geological and Atmospheric Sciences. B.A., 1965, Taiwan Normal; M.S., 1968, National Central (Taiwan); M.A., 1972, Johns Hopkins; Ph.D., 1975, Michigan.

CHEVILLE, NORMAN F., Emeritus Professor of Veterinary Pathology; Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Emeritus Dean of the College of Veterinary Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1959, Iowa State; M.S., 1963, Ph.D., 1964, Wisconsin; Dr.H.C., 1986, Liege.

CHIDISTER, MARK J., Associate Professor of Art and Design. B.S., 1977, Ball State; M.S.L.A., 1981, Wisconsin.

CHIMENTI, DALE E., Professor of Aerospace Engineering. B.A., 1968, Cornell College; M.S., 1972, Ph.D., 1974, Cornell.

CHOI, EUN KWAN, Professor of Economics. B.A., 1971, Seoul National; M.A., 1974, Houston; Ph.D., 1978, Iowa.

CHOOBINEH, FARHAD, Adjunct Instructor in Logistics, Operations and Management Information Systems. B.S., 1974, Management (Iran); M.E., 1983, Iowa State.

CHOU, HUI-HSIEN, Associate Professor of Genetics, Development and Cell Biology; Associate Professor of Computer Science. B.S., 1989, National Taiwan; Ph.D., 1996, Maryland.

CHRISTENSEN, BRUCE WILLIAM, Assistant Professor of Veterinary Clinical Sciences. B.S., 1998, Brigham Young; D.V.M., 2002, Cornell; M.S., 2007, Florida.

CHRISTENSEN, GEORGE C., Emeritus Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1949, M.S., 1950, Ph.D., 1953, Cornell; D.Sc., 1978, Purdue.

CHRISTENSEN, KAYLA E., Lecturer in Accounting. B.S., 2006, MACC, 2007, Iowa State.

CHRISTENSEN, LOA, Lecturer in Apparel, Educational Studies and Hospitality Management. B.S., 1972, Iowa State; M.A., 2005, Vitterbo.

CHRISTENSEN, PAUL JAY, Lecturer in Agronomy. B.S., 1970, Stanford; M.S., 1976, Ph.D., 1978, Purdue.

CHRISTIAN, MICHELE A., Associate Professor, Library. B.A., 1995, Northern Iowa; M.L.S., 1998, Wisconsin (Milwaukee).

CHRISTIANS, NICK E., Professor of Horticulture; University Professor. B.S., 1972, Colorado State; M.S., 1977, Ph.D., 1979, Ohio State.

CHU, CHRIS CHONG-NUEN, Associate Professor of Electrical and Computer Engineering. B.Sc., 1993, Hong Kong; M.S., 1994, Ph.D., 1999, Texas.

CHUMBLEY, LEONARD S., Professor of Materials Science and Engineering. B.S., 1981, Ph.D., 1986, Illinois.

CHUNG, SOON-JO, Assistant Professor of Aerospace Engineering; Assistant Professor of Electrical and Computer Engineering. B.S., 1998, Korea Advanced Institute of Science and Tech; S.M., 2002, Sc.D., 2007, Massachusetts Institute of Technology.

CIANZIO, SILVIA R., Professor of Agronomy. B.S., 1968, Uruguay; M.S., 1970, Ph.D., 1978, Iowa State.

CIHA, ALLAN, Lecturer in Agronomy. B.S., 1971, Iowa State; M.S., 1973, Ph.D., 1976, Minnesota.

CLAPP, AARON, Assistant Professor of Chemical and Biological Engineering. B.S., 1996, Minnesota; M.S., 2000, Ph.D., 2001, Florida.

CLAPP, TARA LYNNE, Assistant Professor of Community and Regional Planning. B.E.S., 1985, Manitoba (Canada); M.E., 1995, Calgary (Canada); Ph.D., 2003, Southern California.

CLARK, LYNN G., Professor of Ecology, Evolution and Organismal Biology. B.S., 1979, Michigan State; Ph.D., 1986, Iowa State.

CLARK, TRACY LARSEN, Emeritus Professor of Veterinary Clinical Sciences. B.S., 1958, D.V.M., 1960, Kansas State.

CLARK, WILLIAM R., Professor of Ecology, Evolution and Organismal Biology. B.S., 1971, Rutgers; M.S., 1974, Ph.D., 1979, Utah State.

CLARKE, ALVIN E., Senior Lecturer in English. B.A., 1995, M.A., 1998, Iowa State.

CLAUDE, ANDREW, Adjunct Instructor in Veterinary Clinical Sciences. B.A., 1988, Loras College; D.V.M., 1992, Iowa State.

CLEASBY, JOHN L., Emeritus Professor of Civil, Construction and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1950, M.S., 1951, Wisconsin; Ph.D., 1960, Iowa State.

CLEM, ANNE MARIE, Senior Lecturer in Accounting. B.B.A., 1990, Iowa State; Ph.D., 1997, Texas.

CLEM, JOHN RICHARD, Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1960, M.S., 1962, Ph.D., 1965, Illinois.

CLEMANS, JESSICA MARIE, Adjunct Instructor in Veterinary Clinical Sciences. B.A., 2000, Portland; D.V.M., 2006, Iowa State.

CLIFFORD, ANNE, Associate Professor of Philosophy and Religious Studies. B.A., 1972, Carlow College; M.A., 1980, Catholic Theological Union; Ph.D., 1988, Catholic University of America.

CLOTHIER, KRISTIN ANNE, Adjunct Instructor in Veterinary Diagnostic and Production Animal Medicine. B.S., 1987, D.V.M., 1991, California (Davis).

CLOUGH, MICHAEL P., Associate Professor of Curriculum and Instruction. B.A., 1982, Drake; M.A.T., 1985, Ph.D., 1994, Iowa.

CLUTTER, ARCHIE C., Professor of Animal Science (Collaborator). B.S., 1981, Iowa State; M.S., 1984, Ph.D., 1986, Nebraska.

COADY, LARRY B., Emeritus Associate Professor of Electrical Engineering. B.S., 1959, M.S., 1963, Ph.D., 1965, Iowa State.

COATES, PAUL MOORE, Associate Professor of Community and Regional Planning. B.A., 1969, M.P.A., 1971, Wyoming; Ph.D., 1980, Iowa State.

COATS, JOEL, Professor of Entomology. B.S., 1970, Arizona State; M.S., 1972, Ph.D., 1974, Illinois.

COBERLEY, MARK C., Adjunct Instructor in Kinesiology. B.S., 1988, Iowa State; M.S., 1990, Arizona.

COCHRAN, ERIC W., Assistant Professor of Chemical and Biological Engineering. B.Sc., 1998, Iowa State; Ph.D., 2004, Minnesota.

COCHRAN, JAMES, Associate Professor of Physics and Astronomy. B.S., 1985, Georgia Institute of Technology; M.A., 1987, Ph.D., 1993, New York (Stony Brook).

CODY, ROBERT, Emeritus Associate Professor of Geological and Atmospheric Sciences. B.S., 1960, St. Louis; M.A., 1962, Wyoming; Ph.D., 1968, Colorado.

COFFEY, DANIEL, Associate Professor, Library. B.A., 1995, M.L.S., 1999, New York (Buffalo).

COFFMAN, CLARK, Assistant Professor of Genetics, Development and Cell Biology. B.S., 1986, Iowa State; Ph.D., 1993, California (La Jolla).

COHEN, HARRY, Emeritus Professor of Sociology. B.B.A., 1956, M.A., 1959, City University of New York; Ph.D., 1962, Illinois.

COINMAN, NANCY R., Associate Professor of Anthropology. B.A., 1966, New Mexico State; M.A., 1984, Ph.D., 1990, Arizona State.

COLBERT, JAMES T., Associate Professor of Ecology, Evolution and Organismal Biology; Associate Professor of Genetics, Development and Cell Biology. B.S., 1978, Iowa State; M.S., 1981, Ph.D., 1985, Wisconsin.

COLBERT, KAREN K., Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1978, Iowa State; M.S., 1980, Ph.D., 1984, Wisconsin.

COLDIRON, JUDY M., Lecturer in Curriculum and Instruction. B.S., 1959, M.S., 1993, Drake.

COLE, JIM E., Professor, Library. B.A., 1970, M.A., 1971, Iowa.

COLLETTI, JOE PAUL, Professor of Natural Resource Ecology and Management; Senior Associate Dean of the College of Agriculture and Life Sciences. B.S., 1972, Humboldt; M.S., 1974, Ph.D., 1978, Wisconsin.

COLLINS, BETH A., Lecturer in English. B.A., 1991, M.A., 1993, Iowa State.

COLLINS, EDGAR V. JR., Emeritus Associate Professor of Chemical and Biological Engineering. B.S., 1944, Louisiana State; M.S., 1947, Iowa State.

COLVER, GERALD M., Emeritus Professor of Mechanical Engineering. B.S., 1962, Bradley; M.S., 1964, Ph.D., 1969, Illinois.

COLWELL, PETER, Emeritus Professor of Mathematics. B.S., 1958, Wooster; M.A., 1960, Ohio; Ph.D., 1965, Minnesota.

COMSTOCK, CHESTER JR., Emeritus Professor of Electrical Engineering. B.E.E., 1959, Union; M.S., 1964, Ph.D., 1969, Iowa State.

CONGER, KIMBERLY HORN, Assistant Professor of Political Science. B.A., 1996, Wheaton College; M.A., 2000, Ph.D., 2003, Ohio State.

CONGER, RAND DONALD, Professor of Sociology (Collaborator). B.S., 1972, Arizona State; M.A., 1974, Ph.D., 1976, Washington.

CONIS, PETER JOHN, Lecturer in Sociology. B.S., 1986, M.S., 1990, Ph.D., 1997, Iowa State.

CONKLIN, NORRIS MASON, Lecturer in Music. B.M., 1998, M.M., 2000, Baylor.

CONSIGNY, SCOTT P., Associate Professor of English. B.A., 1969, Harvard; Ph.D., 1974, Chicago.

CONSTANT, ALAN P., Lecturer in Materials Science and Engineering. B.S., 1981, Cornell; Ph.D., 1987, Northwestern.

CONSTANT, KRISTEN P., Associate Professor of Materials Science and Engineering. B.S., 1986, Iowa State; Ph.D., 1990, Northwestern.

COOK, CHRISTINE C., Associate Professor of Human Development and Family Studies. B.A., 1972, Montclair; M.S., 1977, Cornell; Ph.D., 1982, Ohio State.

COOK, DIANNE H., Professor of Statistics. B.S., 1979, New England (Australia); M.S., 1990, Ph.D., 1993, Rutgers.

COOK, WILLIAM JOHN, Emeritus Professor of Mechanical Engineering. B.S., 1957, M.S., 1959, Ph.D., 1964, Iowa State.

COON, STEPHEN C., Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1967, Iowa; M.S., 1970, Iowa State.

COOPER, ERIC E., Associate Professor of Psychology. B.S., 1988, Kansas; Ph.D., 1993, Minnesota.

COOPER, ROBYN MARY, Lecturer in Educational Leadership and Policy Studies. B.S., 1996, M.Ed., 2002, Nevada (Las Vegas); Ph.D., 2005, Iowa State.

COOPER, VICKIE LOU, Senior Clinician in Veterinary Diagnostic and Production Animal Medicine. B.S., 1987, D.V.M., 1991, Kansas State; M.S., 1994, Ph.D., 1997, Nebraska.

COPPERNOLL, ANN JEAN, Lecturer in Educational Leadership and Policy Studies. B.A., 1973, M.S., 1976, Western Illinois; Ph.D., 1987, Iowa State.

COPPOC, JAMES, Lecturer in English. B.A., 2000, Buena Vista; M.A., 2004, Iowa State.

CORBEILL, THEODORE D., Adjunct Instructor in Naval Science. B.S., 2002, Virginia.

CORBETT, JOHN DUDLEY, Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1948, Ph.D., 1952, Washington.

CORDRAY, JOSEPH C., Professor of Animal Science. B.S., 1971, Iowa State; M.S., 1976, Ph.D., 1983, Auburn.

COREY, ROBERT C., Lecturer in English. B.A., 1974, M.S.E., 1998, Drake; M.A., 2001, Iowa State.

CORMICLE, LARRY W., Senior Lecturer in Civil, Construction and Environmental Engineering. B.S., 1978, Iowa State.

CORNETTE, JAMES L., Emeritus Professor of Mathematics; University Professor. B.S., 1955, West Texas; M.A., 1959, Ph.D., 1962, Texas.

CORNICK, NANCY, Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1980, Colorado; M.S., 1991, Ph.D., 1995, Iowa State.

CORREIA, ANA, Assistant Professor of Curriculum and Instruction. B.A., 1989, M.A., 1996, Minho; M.S., 2001, Ph.D., 2005, Indiana.

COULSON, ROGER W., Emeritus Professor of Human Development and Family Studies; Emeritus Professor of Curriculum and Instruction. B.A., 1942, M.A., 1949, Ph.D., 1958, Iowa.

COUNTRYMAN, DAVID W., Emeritus Professor of Natural Resource Ecology and Management. B.S., 1966, M.S., 1968, Iowa State; Ph.D., 1973, Michigan.

COURTEAU, JOANNA W. S., Emeritus Professor of World Languages and Cultures; University Professor. B.A., 1960, Minnesota; M.A., 1962, Ph.D., 1970, Wisconsin.

COURTNEY, GREGORY W., Professor of Entomology; Professor of Ecology, Evolution and Organismal Biology. B.S., 1982, Oregon State; Ph.D., 1989, Alberta (Canada).

COWAN, ARNOLD RICHARD, Professor of Finance. B.A., 1977, Augustana (Illinois); M.A., 1980, M.S., 1985, Ph.D., 1988, Iowa.

COWAN, DONNA LEE, Emeritus Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1962, M.S., 1968, Ph.D., 1973, Wisconsin.

COWLES, HAROLD A., Emeritus Professor of Industrial and Manufacturing Systems Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1949, M.S., 1953, Ph.D., 1957, Iowa State.

COX, CHARLES PHILIP, Emeritus Professor of Statistics. B.A., 1940, M.A., 1947, Oxford.

COX, DAVID FRAME, Emeritus Professor of Statistics; University Professor. B.S., 1953, Cornell; M.S., 1957, North Carolina State; Ph.D., 1959, Iowa State.

COX, JANE F., Professor of Music/Theatre. B.S., 1962, Iowa State; M.A., 1964, Drake.

COX, RONALD ARTHUR, Adjunct Associate Professor of Aerospace Engineering. B.S., 1979, Iowa State; M.S., 1982, Texas (Arlington); Ph.D., 1989, Iowa State.

COZMA, RALUCA, Assistant Professor of Greenlee School of Journalism and Communication. B.A., 2003, Bucharest (Romania); M.A., 2005, Ph.D., 2009, Louisiana State.

CRABTREE, BEVERLY J., Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Dean of the College of Human Sciences. B.S.Ed., 1959, M.Ed., 1962, Missouri; Ph.D., 1965, Iowa State.

CRAMP, JAMES G., Professor of Air Force Aerospace Studies and Chair of the Department. B.A., 1979, East Stroudsburg State; M.A.S., 1986, Embry-Riddle Aeronautical; M.B.A., 1994, California State; M.S., 2003, Air War College.

CRASE, SEDAHLIA J., Professor of Human Development and Family Studies. B.S., 1967, Berea; M.S., 1969, Kentucky; Ph.D., 1972, Iowa State.

CRAVENS, HAMILTON, Professor of History. B.A., 1960, M.A., 1962, Washington; Ph.D., 1969, Iowa.

CRAWFORD, HAROLD R., Emeritus Professor of Agricultural Education and Studies. B.S., 1950, M.S., 1955, Ph.D., 1969, Iowa State.

CRAWLEY, HENRY BERT, Professor of Physics and Astronomy. B.S., 1962, Louisiana Tech; Ph.D., 1966, Iowa State.

CRESWELL, MARY, Associate Professor of Music. B.M., 1980, Western Michigan; M.M., 1982, Michigan.

CROSS, SUSAN ELAINE, Associate Professor of Psychology. B.S., 1979, Texas A&M; M.A., 1982, Ohio State; Ph.D., 1990, Michigan.

CROSS, VIDA, Lecturer in English. B.A., 1988, Knox College; M.A., 1991, Iowa State; M.F.A., 1995, MFAW, 2003, Art Institute (Chicago).

CROYLE, CORYDON A., Associate Professor of Art and Design. B.A., 1976, B.F.A., 1976, Akron; M.F.A., 1982, Indiana.

CRULL, SUE R., Emeritus Associate Professor of Human Development and Family Studies. B.S., 1963, M.S., 1968, Illinois; Ph.D., 1978, Iowa State.

CRUM, MICHAEL ROBERT, Professor of Logistics, Operations and Management Information Systems; Associate Dean of the College of Business. B.S., 1975, M.B.A., 1978, D.B.A., 1983, Indiana.

CRUMP, MALCOLM H., Emeritus Associate Professor of Biomedical Sciences. B.S., 1951, Virginia Polytechnic Institute; D.V.M., 1958, Georgia; M.S., 1961, Ph.D., 1965, Wisconsin.

CRUMPTON, WILLIAM G., Associate Professor of Ecology, Evolution and Organismal Biology. B.S., 1975, M.S., 1978, West Florida; Ph.D., 1980, Michigan State.

CRUSE, RICHARD M., Professor of Agronomy. B.S., 1972, Iowa State; M.S., 1975, Ph.D., 1978, Minnesota.

CUNNALLY, JOHN, Associate Professor of Art and Design. B.A., 1972, Temple; M.S., 1976, Drexel; Ph.D., 1984, Pennsylvania.

CUNNICK, JOAN E., Associate Professor of Animal Science; Associate Professor of Psychology. B.S., 1979, McPherson; Ph.D., 1987, Kansas State.

CUNNINGHAM, DAVID E., Assistant Professor of Political Science. B.A., 1998, Wake Forest; M.S., 2001, George Mason; Ph.D., 2006, California (San Diego).

CUNNINGHAM, KATHLEEN G., Assistant Professor of Political Science. B.A., 1999, M.A., 2002, Ph.D., 2007, California (San Diego).

CURRAN, PAULA J., Associate Professor of Art and Design. B.A., 1976, Westfield; B.F.A., 1982, Parsons Design; M.F.A., 1993, Illinois.

CURTIS, LARRY R., Adjunct Assistant Professor of Accounting. B.S., 1968, Iowa State; M.B.A., 1973, J.D., 1973, Iowa.

CUTRONA, CAROLYN E., Professor of Psychology. B.A., 1973, Stanford; M.A., 1974, New Mexico; Ph.D., 1981, California (Los Angeles).

D'ALESSANDRO, DOMENICO, Associate Professor of Mathematics. Ph.D., 1996, Padua (Italy); Ph.D., 1999, California (Santa Barbara).

DAHIYA, RAJBIR S., Professor of Mathematics. B.S., 1960, M.S., 1962, Ph.D., 1967, Birla Institute of Technology (India).

DAHLSTROM, ELIZABETH C., Lecturer in Food Science and Human Nutrition. B.S., 2006, M.S., 2007, Iowa State.

DAHLSTROM, MICHAEL F., Assistant Professor of Greenlee School of Journalism and Communication. B.A., 2002, M.S., 2004, Iowa State; Ph.D., 2008, Wisconsin.

DAIL, PAULA W., Emeritus Associate Professor of Human Development and Family Studies. B.S., 1963, Colorado; M.S., 1980, Ph.D., 1983, Wisconsin.

DAKE, DENNIS MYRON, Emeritus Professor of Art and Design.B.A., 1966, Upper Iowa; M.A., 1969, Northern Iowa.

DALAL, VIKRAM L., Professor of Electrical and Computer Engineering. B.S., 1964, Bombay; Ph.D., 1969, Princeton.

DALY, BRENDA O., Emeritus Professor of English; University Professor. B.A., 1963, North Dakota; Ph.D., 1985, Minnesota.

DALY, NORENE F., Emeritus Professor of Curriculum and Instruction; Emeritus Dean of the College of Human Sciences. B.A., 1967, Madonna; M.Ed., 1968, Ed.D., 1977, Wayne State.

DAMHORST, MARY LYNN, Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1972, Illinois; M.S., 1975, California (Davis); Ph.D., 1981, Texas.

DANIELS, THOMAS EARL, Assistant Professor of Electrical and Computer Engineering. B.S., 1995, Southwest Missouri State; M.S., 1999, Ph.D., 2002, Purdue.

DANIELSON, BRENT J., Professor of Ecology, Evolution and Organismal Biology. B.S., 1980, Michigan State; Ph.D., 1986, Kansas.

DANIELSON, JARED A., Assistant Professor of Veterinary Pathology. B.A., 1994, Brigham Young; M.S., 1996, Syracuse; Ph.D., 1999, Virginia Polytechnic.

DANILEVSKAYA, OLGA N., Associate Professor of Genetics, Development and Cell Biology (Collaborator). B.Sc., 1970, M.Sc., 1970, Moscow State; Ph.D., 1975, Russian Academy of Science.

DANOFSKY, RICHARD A., Emeritus Professor of Mechanical Engineering. B.S., 1955, M.S., 1960, Ph.D., 1963, Iowa State.

DARK, FREDERICK H., Associate Professor of Finance. B.S., 1971, Arkansas; Ph.D., 1987, Utah.

DARK, VERONICA JOY, Professor of Psychology. B.A., 1971, Arkansas; Ph.D., 1977, Washington.

DARLINGTON, MAHLON S., Professor of Music. B.Mus., 1970, Baldwin-Wallace; M.A., 1973, Columbia.

DARR, MATTHEW JOHN, Assistant Professor of Agricultural and Biosystems Engineering. B.S., 2002, Ohio State; M.S., 2004, Kentucky; Ph.D., 2007, Ohio State.

DAVID, CAROL S., Emeritus Professor of English. B.A., 1952, Beloit; M.A., 1970, Ph.D., 1981, Iowa State.

DAVID, HERBERT ARON, Emeritus Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.Sc., 1947, Sydney; Ph.D., 1953, London.

DAVID, HERBERT T., Emeritus Professor of Statistics; Emeritus Professor of Industrial and Manufacturing Systems Engineering; University Professor. A.B., 1947, Harvard; M.A., 1948, Columbia; Ph.D., 1960, Chicago.

DAVID, WILLIAM MILLS, Professor of Music; University Professor. B.Mus., 1969, M.Mus., 1970, D.M.A., 1972, Michigan.

DAVIDSON, JENNIFER L., Associate Professor of Mathematics; Associate Professor of Electrical and Computer Engineering. B.A., 1979, Mount Holyoke; Ph.D., 1989, Florida.

DAVIS, JAMES A., Associate Professor of Computer Engineering; Vice Provost and Chief Information Officer. B.S., 1975, M.S., 1981, Ph.D., 1984, Iowa State.

DAVIS, RADFORD G., Associate Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1991, Colorado State; M.P.H., 1997, Arizona.

DAWSON, JANE P., Senior Lecturer in Geological and Atmospheric Sciences. B.S., 1983, M.S., 1986, Iowa State; Ph.D., 1995, New Mexico.

DAY, SUSAN X., Assistant Professor of Psychology (Collaborator). B.S., 1972, M.S., 1973, M.S., 1994, Illinois State; Ph.D., 1999, Illinois.

DAY, TIMOTHY A., Associate Professor of Biomedical Sciences. B.S., 1988, Kansas State; M.S., 1990, Ph.D., 1993, Michigan State.

DAYAL, VINAY, Associate Professor of Aerospace Engineering. B.Tech., 1972, Indian Institute of Technology; M.S., 1983, Missouri; Ph.D., 1987, Texas A&M.

DE LAPLANTE, KEVIN L., Associate Professor of Philosophy and Religious Studies. B.Sc., 1991, Carleton; M.A., 1993, Ph.D., 1999, Western Ontario (Canada).

DEACON, RUTH ELINOR, Emeritus Professor of Human Development and Family Studies. B.S., 1944, Ohio State; M.S., 1948, Ph.D., 1954, Cornell.

DEAM, DIRK J., Senior Lecturer in Political Science; Senior Lecturer in Aerospace Engineering. B.S., 1981, J.D., 1985, Kansas; Ph.D., 1999, Iowa.

DEARIN, RAY DEAN, Emeritus Professor of English; Emeritus Professor of Political Science. B.A., 1963, Harding; M.A., 1965, Ph.D., 1970, Illinois.

DEBINSKI, DIANE M., Professor of Ecology, Evolution and Organismal Biology. B.A., 1984, Maryland; M.S., 1986, Michigan; Ph.D., 1991, Montana State.

DEBOEST, JENNIFER LYNN M., Lecturer in English. B.S., 1998, M.A., 2006, Iowa State.

DEITER, RONALD E., Professor of Economics. B.S., 1971, M.S., 1973, Wisconsin; Ph.D., 1979, Illinois.

DEITZ, KRYSTA LEIGH, Assistant Professor of Veterinary Clinical Sciences. B.S., 1998, D.V.M., 2002, Florida; M.S., 2008, Iowa State.

DEJONG, PAUL S., Emeritus Professor of Mechanical Engineering. B.S., 1960, M.S., 1965, Iowa State.

DEKKER, JOHN HENRY, Associate Professor of Agronomy. B.A., 1974, Michigan State; B.S., 1977, Minnesota; M.S., 1978, Ph.D., 1980, Michigan State.

DEKKERS, JACK C., Professor of Animal Science. B.S., 1982, M.S., 1985, Wageningen Agricultural (The Netherlands); Ph.D., 1989, Wisconsin.

DELATE, KATHLEEN, Associate Professor of Horticulture; Associate Professor of Agronomy. M.S., 1986, B.S., 1988, Florida; Ph.D., 1991, California (Berkeley).

DELCASTILLO, LINA MARIA, Assistant Professor of History. B.A., 1997, Cornell; M.A., 2004, Ph.D., 2007, Miami.

DELISI, MATTHEW J., Associate Professor of Sociology. B.A., 1995, Syracuse; Ph.D., 2000, Colorado.

DELL, BRAD EDWARD, Lecturer in Music. B.A., 2002, Westminster College; M.F.A., 2005, Western Illinois.

DELLMANN, H. DIETER, Emeritus Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. Dr. Vet., 1954, Alfort; Habil(PhD), 1961, Munich.

DEMARAY, KATHLEEN ELYSE, Senior Lecturer in English. B.A., 1977, Transylvania; M.A., 1986, Kentucky; Ph.D., 1996, Indiana; MFS, 2001, Iowa State.

DEMARIE, SAMUEL, Associate Professor of Management. B.S., 1981, Northern Arizona; M.B.A., 1993, Nevada (Las Vegas); Ph.D., 1995, Arizona State.

DEMARTINO, PATRICIA, Adjunct Associate Professor of Art and Design. B.A., 1963, Sarah Lawrence College; Ph.D., 1990, Bryn Mawr College.

DENISON, CHRISTINE ALICIA, Assistant Professor of Accounting. B.A., 1991, MACC, 1999, Oklahoma; Ph.D., 2006, Iowa.

DENTON, DENISE C., Senior Lecturer in Kinesiology. B.S., 1977, M.S., 1983, Iowa State.

DERRICK, TIM R., Associate Professor of Kinesiology. B.S., 1988, M.S., 1991, Oregon; Ph.D., 1996, Massachusetts.

DEUTSCH, WILLIAM G., Associate Professor of Natural Resource Ecology and Management (Collaborator).B.S., 1972, Houghton College; M.A., 1974, New York (Binghamton); B.A., 1983, Bloomsburg; Ph.D., 1988, Auburn.

DEWALL, BRIAN S., Senior Lecturer in English. B.S., 1991, M.A., 1993, Iowa State.

DEWELL, GRANT, Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1990, D.V.M., 1993, M.S., 1998, Ph.D., 2008, Colorado State.

DEWELL, RENEE, Clinician in Veterinary Diagnostic and Production Animal Medicine. B.S., 1990, Texas A&M; D.V.M., 1996, Colorado State; M.S., 2001 Nebraska.

DEWITT, JERALD RAY, Professor of Entomology. B.S., 1967, M.S., 1970, Ph.D., 1972, Illinois.

DIAL, ELEANORE M., Emeritus Associate Professor of World Languages and Cultures. B.A., 1951, Bridgeport; M.A., 1955, Mexico City; Ph.D., 1968, Missouri.

DICKERSON, JULIE A., Associate Professor of Electrical and Computer Engineering. B.S., 1983, California (San Diego); M.S., 1987, Ph.D., 1993, Southern California.

DICKSON, JAMES S., Professor of Animal Science. B.S., 1977, Clemson; M.S., 1980, Georgia; Ph.D., 1984, Nebraska.

DIENES, SAMUEL A., Adjunct Instructor in Naval Science. B.S., 2003, Purdue.

DIESSLIN, BRENDA ANN, Lecturer in Mathematics. B.A., 1989, Winona State; M.S., 1992, Ph.D., 1994, Iowa State.

DILLA, WILLIAM N., Associate Professor of Accounting. B.M., 1978, M.B.A., 1979, Syracuse; Ph.D., 1987, Texas.

DILTS, HAROLD E., Emeritus Professor of Curriculum and Instruction. B.S., 1951, M.A., 1958, Northern Iowa; Ph.D., 1963, Iowa.

DIMITROVA, DANIELA, Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1997, American (Bulgaria); M.A., 1999, Oregon; Ph.D., 2003, Florida.

DINKELMAN, ANDREA L., Assistant Professor, Library. B.S., 1984, Nebraska Wesleyan; PHARM, 1991, Nebraska Medical Center; M.S., 2003, Illinois.

DINSMORE, JAMES JAY, Emeritus Professor of Natural Resource Ecology and Management. B.S., 1964, Iowa State; M.S., 1967, Wisconsin; Ph.D., 1970, Florida.

DINSMORE, STEPHEN J., Associate Professor of Natural Resource Ecology and Management. B.S., 1990, Iowa State; M.S., 1994, North Carolina State; Ph.D., 2001, Colorado State.

DISALVO, JENNIFER T., Lecturer in English. B.S., 1987, M.A., 1991, Iowa State.

DISNEY, RICHARD L., Emeritus Professor of Greenlee School of Journalism and Communication. B.A., 1937, Oklahoma.

DISPIRITO, ALAN A., Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1977, Providence; M.S., 1980, Ph.D., 1983, Ohio State.

DIXON, PHILIP M., Professor of Statistics. A.B., 1978, California (Berkeley); M.S., 1984, Ph.D., 1986, Cornell.

DOAK, PAUL D., Emeritus Associate Professor of Economics. B.S., 1957, M.S., 1960, Missouri; Ph.D., 1965, Iowa State.

DOBBS, CHARLES M., Professor of History and Chair of the Department. B.A., 1972, Connecticut; M.A., 1974, Ph.D., 1978, Indiana.

DOBBS, DRENA LEIGH, Professor of Genetics, Development and Cell Biology. B.S., 1977, Georgia; Ph.D., 1983, Oregon.

DOBILL, DANIEL R., Lecturer in Agronomy. B.S., 1992, M.S., 1994, Southern Illinois.

DOBRATZ, BETTY A., Professor of Sociology. B.A., 1969, M.A., 1973, Northern Illinois; Ph.D., 1982, Wisconsin.

DOBSON, CYNTHIA, Emeritus Professor, Library. B.A., 1963, M.A., 1964, M.A., 1966, Wisconsin; Ph.D., 1979, Iowa State.

DOBSON, JOHN M., Emeritus Professor of History. B.S., 1962, Massachusetts Institute of Technology; M.S., 1964, Ph.D., 1966, Wisconsin.

DOGANDZIC, ALEKSANDAR, Associate Professor of Electrical and Computer Engineering. M.S., 1997, Ph.D., 2001, Illinois (Chicago).

DOLLISSO, AWOKE DESTA, Assistant Professor of Agricultural Education and Studies. B.S., 1995, M.S., 1998, Ph.D., 2002, Iowa State.

DOLPHIN, WARREN DEAN, Emeritus Professor of Genetics, Development and Cell Biology; University Professor. B.S., 1962, West Chester; Ph.D., 1968, Ohio State.

DOMINGUEZ-CASTELLANO, J., Assistant Professor of World Languages and Cultures. B.A., 1998, Extremadura (Spain); M.A., 2000, Michigan State; Ph.D., 2004, Arizona.

DOMOTO, PAUL ALAN, Professor of Horticulture. B.S., 1969, M.S., 1971, California State (Fresno); Ph.D., 1974, Maryland.

DONG, LIANG, Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Chemical and Biological Engineering. B.S., 1999, Xidian (China); Ph.D., 2004, Tsignhua (China).

DORAISWAMY, L., Emeritus Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1946, Nizam (India); M.S., 1950, Ph.D., 1952, Wisconsin.

DORAN, BENJAMIN M., Associate Professor of Accounting. B.S., 1968, M.S., 1978, Iowa State; Ph.D., 1984, Iowa.

DORMAN, KARIN, Associate Professor of Statistics; Associate Professor of Genetics/Development and Cell Biology. B.S., 1994, Indiana; Ph.D., 2001, California (Los Angeles).

DOUGLAS, DANNY, Emeritus Professor of English. B.A., 1966, Culver-Stockton; M.A., 1968, Missouri; M.A., 1972, Hawaii; Ph.D., 1977, Edinburgh.

DOW, JAMES R., Emeritus Professor of World Languages and Cultures. B.A., 1957, Mississippi College; M.A., 1961, Ph.D., 1966, Iowa.

DOWNING, JOHN A., Professor of Ecology, Evolution and Organismal Biology; Professor of Agricultural and Biosystems Engineering. B.S., 1973, Hamline; M.S., 1975, North Dakota State; Ph.D., 1980, McGill.

DOWNING-MATIBAG, TERESA M., Assistant Professor of Sociology. B.A., 1985, Wright State; B.A., 1992, M.A., 1998, Ph.D., 2005, Washington State.

DOWNS, GARY EUGENE, Emeritus Professor of Curriculum and Instruction. B.S., 1964, M.S., 1969, Western Illinois; Ed.D., 1972, Northern Colorado.

DRAKE, COREY JEFFRIES, Assistant Professor of Curriculum and Instruction. B.A., 1994, Chicago; M.S., 1996, Rosary College; Ph.D., 2000, Northwestern.

DRAKE, SHARON KAY, Lecturer in Educational Leadership and Policy Studies. B.S., 1964, M.S., 1983, Ph.D., 1990, Iowa State.

DRAPER, DIANNE C., Professor of Human Development and Family Studies. B.S., 1961, Denison; M.A., 1964, Ph.D., 1968, Missouri.

DRAPER, DONALD D., Professor of Biomedical Sciences; University Professor. D.V.M., 1966, Iowa State; M.S., 1969, Ph.D., 1971, Missouri; M.B.A., 1997, Iowa State.

DREXLER, M. BURTON, Emeritus Professor of Music. B.A., 1949, Johns Hopkins; M.A., 1951, Minnesota; Ph.D., 1964, Illinois.

DRIESSEL, KENNETH, Professor of Mathematics (Collaborator). B.S., 1962, Chicago; M.S., 1965, Ph.D., 1967, Oregon State.

DUCKETT, GREGORY K., Lecturer in Music. B.A., 1990, Western Illinois; M.F.A., 2002, Illinois State.

DUFFELMEYER, FREDERIC, Emeritus Professor of Curriculum and Instruction. B.A., 1968, M.A., 1970, Ed.S., 1975, Ph.D., 1976, Missouri (Kansas City).

DUFFY, JAN M., Adjunct Instructor in Accounting. B.A., 1977, Nebraska; M.S., 1980, Pennsylvania State.

DUFFY, MICHAEL D., Professor of Economics. B.S., 1975, M.S., 1977, Nebraska; Ph.D., 1981, Pennsylvania State.

DUJOWICH, MAURICIO, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2000, California (San Diego); D.V.M., 2004, California (Davis).

DUKES, LISA MARIE, Lecturer in Kinesiology. B.A., 1999, Buena Vista; M.Ed., 2003, Iowa State.

DUNN, LARSON B. JR.., Assistant Professor of Agricultural and Biosystems Engineering (Collaborator). B.A., 1977, Miami (Ohio); Ph.D., 1983, Texas A&M.

DUPONT, JACQUELINE, Emeritus Professor of Food Science and Human Nutrition. B.S., 1955, Florida State; M.S., 1959, Iowa State; Ph.D., 1962, Florida State.

DURAND, DONALD P., Emeritus Professor of Plant Pathology. A.B., 1955, Guilford; M.S., 1957, Ph.D., 1960, Kansas State.

DURBIN, PAUL, Professor of Aerospace Engineering. B.S.E., 1974, Princeton; Ph.D., 1979, Cambridge.

DUREE, CHRISTOPHER ALAN, Lecturer in Educational Leadership and Policy Studies. B.A., 1978, Iowa; M.S.E., 1986, Drake; Ed.S., 1996, Northwest Missouri State; Ph.D., 2007, Iowa State.

DUSSELIER, JANE, Assistant Professor of Anthropology. B.A., 1979, Avila; M.A., 1999, Sarah Lawrence; Ph.D., 2005, Maryland.

DUVICK, JONATHAN PAUL, Adjunct Associate Professor of Genetics, Development and Cell Biology. B.A., 1976, Earlham College; Ph.D., 1982, Wisconsin.

DYAS, ROBERT, Emeritus Professor of Landscape Architecture; Distinguished Professor in Design. B.S.L.A., 1950, M.L.A., 1954, Iowa State.

DYER, DONALD CHESTER, Emeritus Professor of Biomedical Sciences. B.S., 1961, Ph.D., 1965, Kansas

EBBERS, LARRY H., Professor of Educational Leadership and Policy Studies; University Professor. B.S., 1962, M.S., 1968, Ph.D., 1971, Iowa State.

EBERT, GLADYS M., Emeritus Associate Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Associate Professor of Curriculum and Instruction. B.A., 1942, Northern Iowa; M.S., 1967, Ph.D., 1978, Iowa State.

EDELMAN, MARK ALAN, Professor of Economics. B.S., 1975, M.S., 1978, Kansas State; Ph.D., 1981, Purdue.

EDWARDS, DAVID C., Emeritus Professor of Psychology. B.S., 1959, Wisconsin; M.A., 1961, Ph.D., 1962, Iowa.

EDWARDS, JODE W., Assistant Professor of Agronomy (Collaborator). B.S., 1992, M.S., 1994, Wisconsin; Ph.D., 1999, Iowa State.

EDWARDS, WILLIAM M., Professor of Economics. B.S., 1969, M.S., 1971, Ph.D., 1979, Iowa State.

EIDE, ARVID RAY, Emeritus Professor of Mechanical Engineering. B.S., 1962, M.E., 1967, Ph.D., 1973, Iowa State.

EISMAN, APRIL ANGELIQUE, Assistant Professor of Art and Design. B.A., 1994, Lawrence; M.A., 1998, Courtauld Institute of Art (London); Ph.D., 2007, Pittsburgh.

EKKEKAKIS, PANTELEIMON, Associate Professor of Kinesiology. B.S., 1992, Athens; M.S., 1996, Kansas State; Ph.D., 2000, Illinois.

ELIA, NICOLA, Associate Professor of Electrical and Computer Engineering. Ph.D., 1996, Massachusetts Institute of Technology.

ELLINWOOD, NORMAN MATTHEW, Assistant Professor of Animal Science; Assistant Professor of Veterinary Clinical Sciences. B.A., 1985, Washington (St. Louis); D.V.M., 1997, Ph.D., 2000, Colorado State.

ELLIS, JAMES STARK, Lecturer in Mathematics. B.S., 1987, Wisconsin; M.S., 1989, Wisconsin (Milwaukee).

ELLIS, TIMOTHY G., Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1984, Drexel; M.S., 1988, Georgia Institute of Technology; Ph.D., 1995, Clemson.

ELMORE, ROGER, Professor of Agronomy. B.S., 1972, Illinois State; M.S., 1978, Ph.D., 1981, Illinois.

ELSTON, SCOTT E., Senior Lecturer in Management. B.S., 1984, M.S., 1990, Iowa State.

ELVIK, KENNETH O., Emeritus Professor of Accounting. B.S., 1957, Morningside; M.A., 1960, Ph.D., 1970, Nebraska.

EMERY, MARY E., Adjunct Assistant Professor of Sociology. B.A., 1974, Livingston College; M.A., 1976, Ph.D., 1986, Rutgers.

EMMERSON, JAMES T., Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1960, M.S., 1964, Iowa State; Ph.D., 1973, London School of Economics.

ENESS, PAUL G., Emeritus Professor of Veterinary Clinical Sciences. B.S., 1956, D.V.M., 1963, Iowa State.

ENGEL, ROSALIND E., Emeritus Professor of Human Development and Family Studies. B.A., 1956, Iowa Wesleyan; M.A., 1964, Iowa.

ENGEL, ROSS A., Emeritus Professor of Educational Leadership and Policy Studies. B.A., 1948, Northern Iowa; M.S., 1952, Drake; Ph.D., 1962, Iowa.

ENGELBRECHT, MARK C., Professor of Architecture; Dean of the College of Design. B.Arch., 1963, Iowa State; M.Arch., 1964, Columbia.

ENGELHORN, RICHARD, Associate Professor of Kinesiology. B.S., 1969, Illinois; M.S., 1974, Washington State; Ph.D., 1979, Illinois.

ENGELKEN, TERRY, Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1984, D.V.M., 1987, M.S., 1994, Kansas State.

ENGEN, RICHARD L., Emeritus Professor of Biomedical Sciences. B.S., 1954, Iowa State; M.S., 1958, Colorado State; Ph.D., 1965, Iowa State.

ENGER, M. DUANE, Professor of Genetics/Development and Cell Biology. B.S., 1959, M.S., 1961, North Dakota State; Ph.D., 1964, Wisconsin.

ENGLE, DAVID MICHAEL, Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1972, M.S., 1975, Abilene Christian; Ph.D., 1978, Colorado State.

ENGLER, MIRIAM, Professor of Landscape Architecture. B.L.A., 1983, Institute of Technology (Israel); M.L.A., 1989, California (Berkeley).

ENGLIN, PETER D., Lecturer in Educational Leadership and Policy Studies. B.S., 1982, M.S., 1987, North Dakota State; Ph.D., 2001, Iowa State.

ENLOE, LISA L., Lecturer in Human Development and Family Studies. B.S., 1982, Illinois State; M.S., 1986, Iowa State.

ENSLEY, STEVE MICHAEL, Clinician in Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1981, Kansas State; M.S., 1998, Ph.D., 2000, Iowa State.

EPSTEIN, ABRAHAM H., Emeritus Professor of Plant Pathology. B.S., 1952, Cornell; M.S., 1954, Rhode Island; Ph.D., 1969, Iowa State.

ERDMAN, MATTHEW M., Assistant Professor of Veterinary Diagnostic and Production Animal Medicine (Collaborator). B.S., 2000, D.V.M., 2004, Ph.D., 2005, Iowa State.

ERICKSON, ELIZABETH, Lecturer in Curriculum and Instruction. B.A., 1976, Luther; M.S., 1982, Minnesota State; Ed.D., 2006, Drake.

ESPENSON, JAMES H., Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1958, California Institute of Technology; Ph.D., 1962, Wisconsin.

ESSNER, JEFFREY JEROME, Assistant Professor of Genetics, Development and Cell Biology. B.S., 1987, Iowa; Ph.D., 1996, Minnesota.

ESTERS, LEVON T., Assistant Professor of Agricultural Education and Studies; Assistant Professor of Curriculum and Instruction. B.S., 1995, Florida A&M; M.S., 2000, North Carolina A&T State; Ph.D., 2003, Pennsylvania State.

ESTES, SIMON, Adjunct Professor of Music. B.A., 1963, Iowa.

EULENSTEIN, OLIVER, Associate Professor of Computer Science. Ph.D., 1998, Bonn (Germany).

EVANS, JAMES W., Professor of Mathematics. B.S., 1975, Melbourne; Ph.D., 1978, Adelaide.

EVANS, LAWRENCE E., Professor of Veterinary Clinical Sciences; Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Biomedical Sciences. D.V.M., 1963, M.S., 1967, Ph.D., 1973,Iowa State.

EVANS, NANCY J., Professor of Educational Leadership and Policy Studies. B.A., 1970, State University of New York (Potsdam); M.S., 1972, Southern Illinois; Ph.D., 1978, Missouri; M.F.A., 1991, Western Illinois.

EVANS, NORMAN CHARLES, Emeritus Professor of Art and Design. B.F.A., 1971, M.F.A., 1972, Rochester Institute of Technology.

EVEN, JOHN C. JR., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1957, M.S., 1959, Northwestern; Ph.D., 1969, Oklahoma State.

EWALD, HELEN R., Professor of English. B.A., 1969, Valparaiso; M.A., 1971, Arizona; Ph.D., 1977, Indiana.

EWAN, RICHARD C., Emeritus Professor of Animal Science. B.S., 1956, M.S., 1957, Illinois; Ph.D., 1966, Wisconsin.

FAABERG, KAY, Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1978, Concordia College; Ph.D., 1987, Rush.

FABER, CAROL H., Assistant Professor of Art and Design. B.A., 1987, Morningside College; M.A., 1990, M.F.A., 2004, Iowa State.

FADEN, ARNOLD M., Emeritus Professor of Economics. B.A., 1954, City University of New York; Ph.D., 1967, Columbia.

FAIDLEY, LEANN E., Assistant Professor of Mechanical Engineering. B.S., 1999, M.S., 2001, Iowa State; M.S., 2005, Ph.D., 2006, Ohio State.

FAIRBANKS, WENDELYN SUE, Associate Professor of Natural Resource Ecology and Management. B.S., 1982, Nebraska Wesleyan; M.S., 1985, Colorado State; Ph.D., 1992, Kansas.

FAIRCHILD, ELLEN E., Lecturer in Curriculum and Instruction. B.S., 1976, M.S., 1988, Iowa State; Ph.D., 2002, Iowa.

FALES, AMANDA JEAN, Assistant Professor of Veterinary Pathology. B.S., 1991, Kentucky; D.V.M., 1995, Missouri; Ph.D., 2000, Iowa State.

FALES, STEVEN L., Professor of Agronomy. B.A., 1969, M.S., 1977, Rhode Island; Ph.D., 1980, Purdue.

FALK, BARRY L., Emeritus Professor of Economics. B.A., 1974, Pennsylvania; Ph.D., 1982, Minnesota.

FANG, NING, Assistant Professor of Chemistry. B.S., 1998, Xiamen (China); M.S., 2001, Ph.D., 2006, British Columbia.

FANOUS, FOUAD S., Professor of Civil, Construction and Environmental Engineering. B.S., 1969, Cairo; M.S., 1980, Ph.D., 1982, Iowa State.

FANSLOW, ALYCE M., Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Professor of Educational Leadership and Policy Studies; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1957, Minnesota; M.S., 1960, Ph.D., 1966, Iowa State.

FANSLOW, GLENN E., Emeritus Professor of Electrical Engineering. B.S., 1953, North Dakota State; M.S., 1957, Ph.D., 1962, Iowa State.

FARRAR, DONALD R., Emeritus Professor of Ecology, Evolution and Organismal Biology. B.S., 1963, Southeast Missouri; M.S., 1966, Ph.D., 1971, Michigan.

FARRAR, EUGENIA SUE, Emeritus Associate Professor of Ecology, Evolution and Organismal Biology. B.S., 1961, Illinois; Ph.D., 1972, Michigan.

FARRELL-BECK, JANE A., Emeritus Professor of Apparel, Educational Studies and Hospitality Management; University Professor. B.S., 1963, Georgian Court; M.S., 1969, Drexel; Ph.D., 1975, Ohio State.

FAYED, AYMAN ADEL, Assistant Professor of Electrical and Computer Engineering. B.Sc., 1998, Cairo (Egypt); M.Sc., 2000, Ph.D., 2004, Ohio State.

FEHR, CARLA J., Associate Professor of Philosophy and Religious Studies. B.Sc., 1993, Saskatchewan (Canada); M.S., 1998, Ph.D., 1999, Duke.

FEHR, WALTER R., Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1961, M.S., 1962, Minnesota; Ph.D., 1967, Iowa State.

FEI, SHUIZHANG, Associate Professor of Horticulture. B.S., 1986, M.S., 1989, Beijing Agricultural (China); Ph.D., 1997, Nebraska.

FENTON, THOMAS E., Emeritus Professor of Agronomy. B.S., 1959, M.S., 1960, Illinois; Ph.D., 1966, Iowa State.

FERNANDEZ-BACA, DAVID, Professor of Computer Science. B.S., 1980, Mexico; M.S., 1983, Ph.D., 1986, California (Davis).

FERNANDO, ROHAN L., Professor of Animal Science. B.S., 1978, California State (Fresno); Ph.D., 1989, Illinois.

FERWERDA, NICOLE SUZANNE, Lecturer in Animal Science. B.S., 2000, Nebraska; MNAS, 2002, Southwest Missouri State.

FEVE, SEBASTIEN, Lecturer in Mechanical Engineering. B.S., 1996, M.S., 1998, Ecole Nationale Dingenieurs (France).

FIIHR, DAWN M., Lecturer in Apparel, Educational Studies and Hospitality Management. B.S., 1995, M.S., 2001, Iowa State.

FINDLAY, ROBERT ALLEN, Emeritus Professor of Architecture. B.A., 1963, B.Arch., 1967, Minnesota; M.Arch., 1975, Iowa State; Ph.D., 1998, Oxford Brookes (England).

FINK, ARLINGTON, Emeritus Professor of Mathematics. B.A., 1956, Wartburg; M.S., 1958, Ph.D., 1960, Iowa State.

FINNEMORE, DOUGLAS, Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1956, Pennsylvania State; Ph.D., 1962, Illinois.

FIORE, ANN MARIE, Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1981, Rutgers; M.A., 1984, Ph.D., 1988, Minnesota.

FIRESTONE, ALEXANDER, Emeritus Professor of Physics and Astronomy. B.S., 1962, Columbia; M.A., 1964, Ph.D., 1966, Yale.

FISHER, MATTHEW W., Lecturer in Architecture. B.Arch., 1984, Carleton (Canada); M.Arch., 1992, McGill.

FITZPATRICK, JANET ELAINE, Lecturer in Apparel, Educational Studies and Hospitality Management. B.L.S., 2004, M.S., 2007, Iowa State.

FLAHERTY, HEATHER A., Lecturer in Veterinary Pathology. B.A., 1991, Assumption College; D.V.M., 1995, Tufts.

FLATAU, ALISON BEHRE, Associate Professor of Aerospace Engineering (Collaborator). B.S.E., 1978, Connecticut; M.S.E., 1986, Ph.D., 1990, Utah.

FLETCHER, CYNTHIA N., Professor of Human Development and Family Studies. B.A., 1971, Simpson; M.S., 1973, Ph.D., 1983, Iowa State.

FLETCHER, LEHMAN, Emeritus Professor of Economics. B.S., 1954, Florida; Ph.D., 1960, California (Berkeley).

FLORA, CORNELIA B., Professor of Sociology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. A.B., 1965, California (Berkeley); M.S., 1966, Ph.D., 1970, Cornell.

FLORA, JAN L., Professor of Sociology. B.A., 1964, Kansas; M.S., 1967, Ph.D., 1971, Cornell.

FLOROS, IOANNIS, Assistant Professor of Finance. B.Sc., 1998, Piraeus (Greece); M.Sc., 1999, Warwick (Poland); Ph.D., 2008, Pittsburgh.

FLORY, DAVID, Lecturer in Geological and Atmospheric Sciences. B.A., 1992, Michigan (Flint); M.S., 2003, Iowa State.

FOEGEN, ANNE MARIE, Associate Professor of Curriculum and Instruction. B.S., 1986, Winona State; M.A., 1987, Ohio State; Ph.D., 1995, Minnesota.

FOLGER, TIMOTHY L., Lecturer in Marketing. B.S., 1979, B.A., 1984, M.B.A., 2006, Iowa State.

FOLINSBEE, KAILA ERIN, Lecturer in Anthropology; Lecturer in Ecology, Evolution and Organismal Biology. B.A., 1999, Alberta (Canada); M.Sc., 2003, Ph.D., 2008, Toronto (Canada).

FONTAINE, LISA MARIE, Associate Professor of Art and Design. B.F.A., 1980, M.F.A., 1983, Boston University.

FORD, CLARK FUGIER, Associate Professor of Food Science and Human Nutrition. B.A., 1975, California (Los Angeles); M.S., 1977, Ph.D., 1981, Iowa.

FOREMAN, CHARLES F., Emeritus Professor of Animal Science. B.S., 1948, M.S., 1949, Kansas State; Ph.D., 1953, Missouri.

FORKER, BARBARA E., Emeritus Professor of Kinesiology; Distinguished Professor in Education. B.S., 1942, Eastern Michigan; M.S., 1950, Iowa State; Ph.D., 1957, Michigan.

FORSYTHE, LESLEY KAY, Lecturer in Educational Leadership and Policy Studies. B.S., 1971, Southwest Missouri State; M.S., 1986, Ph.D., 1994, Iowa State.

FOSS, MARY, Lecturer in Music. B.M., 1988, New England Conservatory.

FOUAD, ABDEL-AZIZ A., Emeritus Professor of Electrical Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1950, Cairo; M.S., 1953, Iowa; Ph.D., 1956, Iowa State.

FOWLER, GILES MERRILL, Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1955, Westminster; M.S., 1956, Columbia.

FOWLES, DOROTHY L., Emeritus Professor of Art and Design. B.A., 1961, Northwestern; M.A., 1964, Cornell; Ph.D., 1979, Missouri.

FOX, LESLIE ELIZABETH, Associate Professor of Veterinary Clinical Sciences. B.A., 1972, Hollins College; D.V.M., 1984, Michigan State; M.S., 1989, Wisconsin.

FOX, RODNEY O., Professor of Chemical and Biological Engineering. B.S., 1982, M.S., 1985, Ph.D., 1987, Kansas State.

FRANA, TIMOTHY S., Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1985, Iowa State; M.S., 1996, Arizona State; M.P.H., 1999, Arizona; Ph.D., 2004, Iowa State.

FRANK, MATTHEW C., Assistant Professor of Industrial and Manufacturing Systems Engineering. B.S., 1996, M.S., 1998, Ph.D., 2003, Pennsylvania State.

FRANKE, LIBBY G., Lecturer in Kinesiology. B.S., 1988, New York (Buffalo); M.S., 1995, Virginia Polytechnic.

FRANKE, WARREN D., Professor of Kinesiology; Professor of Biomedical Sciences. B.S., 1983, East Carolina; M.A., 1985, Wake Forest; Ph.D., 1991, Virginia Polytechnic Institute.

FRANKEL, DAVID M., Associate Professor of Economics. A.B., 1987, Harvard; M.Sc., 1989, Oxford; Ph.D., 1993, Massachusetts Institute of Technology.

FRANZ, KRISTIE JEAN, Assistant Professor of Geological and Atmospheric Sciences. B.S., 1995, Wisconsin (Eau Claire); M.S., 2001, Arizona; Ph.D., 2006, California (Irvine).

FRANZEN, HUGO F., Emeritus Professor of Chemistry. B.S., 1957, California (Berkeley); Ph.D., 1962, Kansas.

FRATZKE, DARLENE M., Adjunct Instructor in Apparel, Educational Studies and Hospitality Management. B.S., 1974, M.S., 1976, Iowa State.

FREED, RICHARD CURTIS, Professor of English. B.A., 1972, M.A., 1976, Ph.D., 1979, Illinois.

FREEMAN, ALBERT E., Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1952, M.S., 1954, West Virginia; Ph.D., 1957, Cornell.

FREEMAN, STEVEN A., Associate Professor of Agricultural and Biosystems Engineering. B.S., 1988, Colorado State; M.S., 1990, Texas A&M; Ph.D., 1993, Purdue.

FRETWELL, HELEN MARGARET, Lecturer in Physics and Astronomy. B.Sc., 1990, Ph.D., 1993, Bristol (UK).

FREY, KENNETH J., Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1944, M.S., 1945, Michigan State; Ph.D., 1948, Iowa State.

FRIEDERICH, KARL H., Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1954, M.S., 1961, South Dakota State.

FRINK, ORRIN, Emeritus Professor of World Languages and Cultures. B.A., 1954, Haverford; M.A., 1955, Middlebury; Ph.D., 1961, Harvard.

FRISHMAN, ANATOLI, Lecturer in Physics and Astronomy. M.Sc., 1970, Ph.D., 1977, Kharkov State (Russia).

FRITZ, JAMES SHERWOOD, Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1945, James Millikin; M.S., 1946, Ph.D., 1948, Illinois.

FROELICH, AMY G., Associate Professor of Statistics. B.S., 1994, Ph.D., 2000, Illinois.

FROMM, HERBERT J., Professor of Biochemistry, Biophysics and Molecular Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, Michigan State; M.S., 1952, Ph.D., 1954, Loyola (Chicago).

FROMM, KATHERINE B., Lecturer in English. A.B., 1963, California (Los Angeles); M.A., 1983, Ph.D., 2000, Iowa State.

FRYE, CASEY, Associate Professor of Animal Science (Collaborator). B.A., 1982, Chadron State College; M.S., 1984, Nebraska; Ph.D., 1990, Iowa State.

FRYE, M. VIRGINIA, Emeritus Professor of Kinesiology. B.A., 1940, Bradley; M.S., 1955, Ph.D., 1964, Illinois.

FRYER, JANICE S., Emeritus Assistant Professor, Library. B.S., 1968, Iowa State; M.A., 1971, Iowa.

FU, YAN, Adjunct Assistant Professor of Agronomy. B.S., 1995, Wuhan (China); M.S., 1998, South China Agricultural; Ph.D., 2005, Iowa State.

FUCHS, RONALD, Emeritus Professor of Physics and Astronomy. B.S., 1954, California Institute of Technology; Ph.D., 1957, Illinois.

FUHLER, CAROL J., Associate Professor of Curriculum and Instruction. B.S.Ed., 1967, M.S.Ed., 1982, Ed.D., 1992, Northern Illinois.

FULLER, WAYNE A., Emeritus Professor of Statistics; Emeritus Professor of Economics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1955, M.S., 1957, Ph.D., 1959, Iowa State.

FULTON, DONALD BRUCE, Lecturer in Biochemistry, Biophysics and Molecular Biology. B.S., 1982, Saskatchewan (Canada); Ph.D., 1988, Saskatshewan (Canada).

GAALSWYK, TERRY BURDELL, Lecturer in Mathematics. B.A., 1992, Northwestern; M.Ed., 1993, South Dakota State.

GABLER, NICHOLAS, Assistant Professor of Animal Science. B.S., 1999, Ph.D., 2005, La Trobe (Australia).

GADIA, SHASHI K., Associate Professor of Computer Science. B.S., 1969, M.Sc., 1970, Birla Institute; Ph.D., 1978, Illinois; M.S., 1980, Ohio State.

GALARRAGA-OROPEZA, VICTOR, Lecturer in World Languages and Cultures. B.A., 2002, Universidad Central De Venezuela; M.A., 2004, Iowa.

GALEJS, JOHN EDGAR, Emeritus Professor, Library. B.A., 1953, M.A., 1955, M.A.L.S., 1958, Minnesota.

GALLAGHER, PAUL W., Associate Professor of Economics. B.A., 1972, Ph.D., 1983, Minnesota.

GALLUS, WILLIAM A., Professor of Geological and Atmospheric Sciences; Professor of Agronomy. B.S., 1987, Pennsylvania State; M.S., 1989, Ph.D., 1993, Colorado State.

GALOW-KERSH, NYOMI LYN, Clinician in Veterinary Clinical Sciences. B.A., 2000, Concordia College; D.V.M., 2005, Iowa State.

GALYON, LINDA R., Emeritus Associate Professor of English. B.A., 1956, M.A., 1962, Indiana; Ph.D., 1974, Iowa.

GAMON, JULIA ANDREW, Emeritus Professor of Agricultural Education and Studies. B.S., 1954, Iowa State; M.A., 1977, Iowa; Ph.D., 1984, Iowa State.

GANAPATHYSUBRAMANIAN, B., Assistant Professor of Mechanical Engineering. B.Tech., 2003, Indian Institute of Technology; Ph.D., 2008, Cornell.

GANSEMER-TOPF, ANN M., Lecturer in Educational Leadership and Policy Studies. B.A., 1989, Loras; M.S., 1992, Ph.D., 2004, Iowa State.

GARASKY, STEVEN BRIAN, Professor of Human Development and Family Studies; Professor of Economics. B.A., 1980, Wittenberg; M.A., 1984, Ph.D., 1987, Ohio State.

GARCIA, PILAR A., Emeritus Professor of Food Science and Human Nutrition. B.S., 1949, Philippines; M.S., 1950, Michigan; M.S., 1952, Ph.D., 1955, Iowa State.

GARCIA-TAPIA, DAVID, Assistant Professor of Veterinary Pathology. D.V.M., 1993,Universidad Nacional Autonoma De Mexico; M.Sc., 1998, National Polytechnic Institute (Mexico); Ph.D., 2006, Missouri.

GARDNER, CANDICE A., Assistant Professor of Agronomy (Collaborator). B.S., 1975, Iowa State; M.S., 1979, Ph.D., 1982, Missouri.

GARDNER, R. GENE, Professor of Educational Leadership and Policy Studies (Collaborator). B.A., 1959, B.S., 1959, Northeast Missouri State; M.S., 1969, Winona State; Ph.D., 1975, Iowa State.

GARRICK, DORIAN J., Professor of Animal Science. B.A., 1982, Massey; Ph.D., 1988, Cornell.

GARY, ROBERT FRANK, Assistant Professor of Accounting. B.S.E.E., 1968, New Mexico State; M.S.E.E., 1971, Southern Methodist; M.B.A., 2000, New Mexico; Ph.D., 2005, Arizona State.

GASSMANN, AARON JOHN, Assistant Professor of Entomology. B.A., 1997, Saint Thomas; Ph.D., 2003, New York (Stony Brook).

GASTA, CHAD, Associate Professor of World Languages and Cultures. B.A., 1993, M.A., 1996, Ph.D., 2000, Michigan State.

GAUGER, CARLYLE J., Emeritus Professor of Agricultural Education and Studies. B.S., 1939, M.S., 1955, Iowa State.

GAUGER, PHILLIP C., Clinician in Veterinary Diagnostic and Production Animal Medicine. B.S., 1990, D.V.M., 1994, M.S., 2008, Iowa State.

GAUNT, JAMES A., Adjunct Instructor in Civil, Construction and Environmental Engineering. B.S., 1970, Connecticut; M.S., 1971, Iowa State.

GAUTESEN, ARTHUR, Emeritus Professor of Mathematics. B.E., 1965, Cooper Union; Ph.D., 1968, Northwestern.

GEHA, JOSEPH, Emeritus Professor of English. B.A., 1966, M.A., 1968, Toledo.

GEIGER, LOUIS G., Emeritus Professor of History. B.S., 1934, Central Missouri; M.A., 1940, Ph.D., 1948, Missouri.

GEIGER, RANDALL L., Professor of Electrical and Computer Engineering. B.S., 1972, M.S., 1973, Nebraska; Ph.D., 1977, Colorado State.

GEIRSSON, HEIMIR, Associate Professor of Philosophy and Religious Studies. B.A., 1981, Iceland; M.A., 1983, Ph.D., 1988, Nebraska.

GEMMILL, DOUGLAS D., Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1972, M.S., 1986, Iowa State; Ph.D., 1988, Wisconsin.

GENALO, LAWRENCE, Professor of Materials Science and Engineering. B.A., 1971, Hofstra; M.S., 1974, Ph.D., 1977, Iowa State.

GENSCHEL, ULRIKE, Lecturer in Statistics. M.S., 2000, Ph.D., 2005, Dortmund (Germany).

GENTILE, DOUGLAS A., Assistant Professor of Psychology. B.A., 1986, New York (Buffalo); M.A., 1993, Ph.D., 1998, Minnesota.

GEOFFROY, GREGORY L., Professor of Chemistry; President of the University. B.S., 1968, Louisville; Ph.D., 1974, California Institute of Technology.

GERBER, LISA ELLEN, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2004, California (Davis); D.V.M., 2008, Kansas State.

GERHARD, KRISTIN H., Professor, Library. B.A., 1982, Wesleyan; M.S.L.S., 1988, North Carolina.

GERRARD, MEG, Professor of Psychology (Collaborator). B.A., 1970, Ph.D., 1974, Texas.

GERSTEIN, BERNARD C., Emeritus Professor of Chemistry. B.S., 1953, Purdue; Ph.D., 1960, Iowa State.

GESKE, JOEL CARL, Associate Professor of Greenlee School of Journalism and Communication. B.A., 1978, Iowa State; M.A., 1982, Northern Iowa; Ph.D., 2005, Iowa State.

GHANDOUR, MARWAN, Associate Professor of Architecture. B.Arch., 1986, American (Beirut); M.S., 1988, Columbia.

GHOSH, ARKA P., Assistant Professor of Statistics. BSTAT, 1998, MSTAT, 2000, Indian Statistical Institute; Ph.D., 2005, North Carolina.

GHOSHAL, NANI GOPAL, Emeritus Professor of Biomedical Sciences. G.V.Sc., 1955, Bengal Veterinary College; D.T.V.M., 1961, Edinburgh; Dr.Med.Vet, 1962, Hanover; Ph.D., 1966, Iowa State.

GIBBONS, FREDERICK X., Professor of Psychology (Collaborator); Distinguished Professor in Liberal Arts and Sciences. B.A., 1972, Colgate; Ph.D., 1976, Texas.

GIBBS, KATHERINE P., Associate Professor of Art and Design. B.S., 1968, M.S., 1976, M.F.A., 1978, Wisconsin.

GIBSON, DEBRA SOLBERG, Clinician in Greenlee School of Journalism and Communication. B.S., 1981, Iowa State.

GILBERT, STEPHEN, Lecturer in Psychology. B.S.E., 1992, Princeton; Ph.D., 1997, Massachusetts Institute of Technology.

GILCHRIST, KJ, Senior Lecturer in English. B.A., 1983, Covenant; M.A., 1985, Iowa State; Ph.D., 1995, Kansas.

GILDERSLEEVE, RYAN E., Assistant Professor of Educational Leadership and Policy Studies. B.A., 2000, Occidental; M.A., 2003, Ph.D., 2006, California (Los Angeles).

GILES, MICHAEL S., Lecturer in Music. B.M., 1998, M.A., 2000, Iowa.

GILES, SONJA, Assistant Professor of Music. B.M., 1995, Alabama; M.A., 1999, Iowa; D.M.A., 2005, Minnesota.

GILLETTE, JASON C., Associate Professor of Kinesiology. B.S., 1991, M.E., 1993, Ph.D., 1999, Iowa State.

GILLETTE, WILLARD E., Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1958, New York (Albany); M.A., 1967, Colorado; Ph.D., 1971, Colorado State.

GILMORE, SHIRLEY,Emeritus Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1967, North Dakota State; M.S., 1980, Ph.D., 1983, Iowa State.

GINDER, ROGER, Professor of Economics. B.S., 1968, M.S., 1969, Southern Illinois; Ph.D., 1978, Kentucky.

GINMAN, ADAM, Adjunct Instructor in Veterinary Clinical Sciences. B.A., 1992, New Hampshire; BVS, 2003, Liverpool.

GIRTON, JACK RICHARD, Professor of Biochemistry, Biophysics and Molecular Biology; University Professor. B.A., 1973, Oregon; Ph.D., 1979, Alberta.

GIRTON, LOIS ELAINE, Lecturer in Biochemistry, Biophysics and Molecular Biology. B.S., 1974, M.S., 1977, Alberta; Ph.D., 1986, Nebraska.

GKRITZA, KONSTANTINA, Assistant Professor of Civil, Construction and Environmental Engineering. M.S.C.E., 2003, Virginia Polytechnic; Ph.D., 2006, Purdue.

GLADON, RICHARD J., Associate Professor of Horticulture. B.S., 1969, Ohio Northern; M.S., 1974, Ph.D., 1977, Ohio State.

GLANVILLE, THOMAS D., Professor of Agricultural and Biosystems Engineering. B.S., 1972, M.S., 1975, Ph.D., 1987, Iowa State.

GLASS, EDYTHE K., Emeritus Assistant Professor of Human Development and Family Studies. B.S., 1947, M.S., 1962, Iowa State.

GLATZ, BONITA ANN, Emeritus Professor of Food Science and Human Nutrition; University Professor. B.A., 1971, Cornell; M.S., 1973, Ph.D., 1975, Wisconsin.

GLATZ, CHARLES E., Professor of Chemical and Biological Engineering. B.S., 1971, Notre Dame; Ph.D., 1975, Wisconsin.

GLEASON, MARK L., Professor of Plant Pathology; Professor of Horticulture. B.A., 1972, Carleton; M.S., 1976, Ph.D., 1980, Virginia; Ph.D., 1985, Kentucky.

GLEDHILL, JARED AYRES, Adjunct Instructor in Military Science and Tactics. B.S., 2005, Iowa State.

GLEESON, BRIAN, Professor of Materials Science and Engineering. B.E.S., 1985, M.E., 1987, Western Ontario; Ph.D., 1989, California (Los Angeles).

GLOCK, RUTH ELIZABETH, Adjunct Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1958, Nebraska; M.S., 1979, Iowa State.

GOCHE, PETER P., Lecturer in Architecture. B.Arch., 1991, MAR, 2005, Iowa State.

GODBEY, EMILY, Assistant Professor of Art and Design. B.A., 1989, Princeton; M.F.A., 1993, Rhode Island School of Design; M.A., 1995, Ph.D., 2005, Chicago.

GOEDEKEN, EDWARD A., Professor, Library; Professor of History. B.A., 1975, William Penn; M.A., 1978, Iowa State; Ph.D., 1984, Kansas; M.L.S., 1984, Iowa.

GOFF, JESSE PAUL, Professor of Biomedical Sciences. B.S., 1977, Cornell; M.S., 1980, D.V.M., 1984, Ph.D., 1986, Iowa State.

GOGGI, ALCIRA S., Assistant Professor of Agronomy. B.S., 1982, De Buenos Aires (Argentina); M.S., 1987, Ph.D., 1990, Mississippi.

GOLDMAN, ALAN I., Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1979, M.A., 1980, Ph.D., 1984, New York (Stony Brook).

GOLEC, MICHAEL J., Assistant Professor of Art and Design. B.F.A., 1991, M.A., 1997, Illinois; Ph.D., 2003, Northwestern.

GOLEMO, MICHAEL, Associate Professor of Music and Chair of the Department. B.Mus., 1982, M.Mus., 1983, Northwestern; D.M.A., 1994, Michigan State.

GOODMAN, NEYSA LOUISE, Lecturer in World Languages and Cultures. B.A., 1995, Drake; M.A., 2001, Minnesota.

GOODWIN, JEAN, Associate Professor of English. B.A., 1979, J.D., 1984, Chicago; Ph.D., 1996, Wisconsin.

GOPALAKRISHNAN, KASTHURIRA, Clinician in Civil, Construction and Environmental Engineering. B.E., 1997, Birla Institute of Technology (India); M.S., 1999, Louisiana State; Ph.D., 2004, Illinois.

GORDEN, PATRICK J., Senior Clinician in Veterinary Diagnostic and Production Animal Medicine. B.S., 1989, D.V.M., 1993, Iowa State.

GORDON, MARK STEPHEN, Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1963, Rensselaer; Ph.D., 1968, Carnegie Mellon.

GOUDY, WILLIS J., Emeritus Professor of Sociology; University Professor. B.A., 1964, St. Thomas; M.S., 1967, Ph.D., 1970, Purdue.

GOULD, CINDY L., Associate Professor of Art and Design. B.F.A., 1992, M.A., 1994, Iowa State; M.F.A., 1998, Iowa.

GOVINDARASU, MANIMARAN, Associate Professor of Electrical and Computer Engineering. B.E., 1989, Bharathidasan (India); M.Tech., 1994, Ph.D., 1998, Indian Institute of Technology.

GRADWOHL, DAVID MAYER, Emeritus Professor of Anthropology. B.A., 1955, Nebraska; Ph.D., 1967, Harvard.

GRAHAM, LYNN M., Emeritus Assistant Professor of Human Development and Family Studies. B.S., 1970, M.S., 1972, Iowa State.

GRAHAM, MARGARET ANN, Professor of English. A.B., 1972, Drury; Ph.D., 1982, M.A., 1982, North Carolina.

GRAHAM, MICHELLE A., Assistant Professor of Agronomy (Collaborator). B.S., 1996, Wisconsin; Ph.D., 2001, Iowa State.

GRANT, DAVID, Associate Professor of Agronomy (Collaborator). B.S., 1971, New York (Stony Brook); Ph.D., 1977, Chicago.

GRANT, MICHAEL, Assistant Professor. B.S., 1973, Seattle; M.S., 1976, Ph.D., 1979, Iowa State.

GRAVES, DONALD JOHN, Emeritus Professor of Biochemistry; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1955, Illinois; Ph.D., 1959, Washington.

GRAVES, WILLIAM R., Professor of Horticulture. B.S., 1981, M.S., 1984, Iowa State; Ph.D., 1988, Purdue.

GRAY, JOSEPH NAHUM, Adjunct Associate Professor of Mechanical Engineering. B.A., 1977, Colorado; M.S., 1980, Pennsylvania State; Ph.D., 1985, Michigan.

GRAY, TIMOTHY A., Adjunct Assistant Professor of Aerospace Engineering. B.A., 1973, Wyoming; M.S., 1977, Ph.D., 1981, Iowa State.

GREDER, KIMBERLY ANN, Associate Professor of Human Development and Family Studies. B.S., 1986, M.S., 1991, Ph.D., 2000, Iowa State.

GREEN, DETROY E., Emeritus Professor of Agronomy; Associate . B.S., 1954, M.S., 1961, Ph.D., 1965, Missouri.

GREENBOWE, THOMAS J., Professor of Chemistry; Professor of Curriculum and Instruction. B.A., 1972, New Jersey; M.S., 1974, Indiana State; M.S., 1979, Ph.D., 1983, Purdue.

GREENLEE, JUSTIN J., Assistant Professor of Biomedical Sciences (Collaborator); Assistant Professor of Veterinary Pathology (Collaborator). B.A., 1995, Northern Iowa; D.V.M., 1999, Ph.D., 2003, Iowa State.

GREENLEE, MARY WEST, Assistant Professor of Biomedical Sciences. B.S., 1994, Ph.D., 1999, Iowa State.

GREENWALD, ALLISON R., Lecturer in English. B.A., 1982, Luther College; M.A., 1987, Iowa; M.A., 2007, Iowa State.

GREER, RAYMOND THOMAS, Emeritus Professor of Aerospace Engineering. B.S., 1963, Rensselaer; Ph.D., 1968, Pennsylvania State.

GREGORY, DAVID JAMES, Associate Professor, Library; Associate Dean, Library. B.A., 1977, Iowa; M.A., 1979, Yale; M.A., 1986, Iowa.

GREIMANN, LOWELL F., Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1964, Iowa State; M.S., 1966, Ph.D., 1968, Colorado.

GREINER, THOMAS H., Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S.A.E., 1967, Iowa State; M.S., 1972, Minnesota; Ph.D., 1980, Iowa State.

GREVE, JOHN HENRY, Emeritus Professor of Veterinary Pathology. B.S., 1956, D.V.M., 1958, M.S., 1959, Michigan State; Ph.D., 1963, Purdue.

GREWELL, DAVID, Assistant Professor of Agricultural and Biosystems Engineering; Assistant Professor of Civil, Construction and Environmental Engineering. B.S., 1989, M.S., 2002, Ph.D., 2005, Ohio State.

GRIER, RONALD LEE, Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1965, Iowa State; Ph.D., 1970, Colorado State.

GRIFFITH, RONALD W., Associate Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1973, Michigan State; M.S., 1980, Ph.D., 1983, Iowa State.

GRIFFITHS, PAUL D., Associate Professor of History. B.A., 1987, York (England); Ph.D., 1992, Cambridge (England).

GROE, HARLEN D., Lecturer in Landscape Architecture. B.L.A., 1978, M.L.A., 1995, Iowa State.

GROENEVELD, RICHARD, Emeritus Professor of Statistics; University Professor. B.A., 1956, Dartmouth; M.A., 1963, Ph.D., 1967, Boston University.

GROSHEK, CHRISTOPHER JACOB, Assistant Professor of Greenlee School of Journalism and Communication. B.S., 2000, Wisconsin (Stout); M.A., 2003, Marquette; Ph.D., 2008, Indiana.

GROSS, WILLIAM, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 1990, Nebraska; M.S., 1997, M.S., 2000, California (Davis); D.V.M., 2005, Colorado State.

GROZDANIC, SINISA, Assistant Professor of Veterinary Clinical Sciences. D.V.M., 1998, Belgrade (Serbia); Ph.D., 2002, Iowa State.

GRUDENS-SCHUCK, NANCY, Associate Professor of Agricultural Education and Studies. B.S., 1982, M.A.T., 1986, M.S., 1996, Ph.D., 1998, Cornell.

GRUENEWALD, DOUGLAS K., Adjunct Assistant Professor of Educational Leadership and Policy Studies. B.A., 1976, Wisconsin; M.Ed., 1978, Missouri; Ph.D., 1993, Iowa State.

GRUNDMANN, WILLIAM J., Associate Professor of Landscape Architecture. B.S.L.A., 1967, Iowa State; M.L.A., 1973, Harvard.

GRUNMANN, JOSHUA, Lecturer in Music. M.Mus., 1992, Montreal (Quebec); B.A., 1993, Western Ontario.

GSCHNEIDNER, KARL A., Professor of Materials Science and Engineering; Distinguished Professor in Liberal Arts and Sciences. B.S., 1952, Detroit; Ph.D., 1957, Iowa State.

GU, ROY RUOCHUAN, Associate Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1982, Wuham; M.S., 1987, Ph.D., 1991, Minnesota.

GU, XUN, Professor of Genetics, Development and Cell Biology. B.S., 1985, M.S., 1987, Fudan (China); Ph.D., 1996, Texas.

GUAN, HANPING, Assistant Professor of Agronomy (Collaborator). B.S., 1983, Hua-Zhong Agricultural; M.S., 1986, Beijing Agricultural; Ph.D., 1990, Rutgers.

GUAN, YONG, Associate Professor of Electrical and Computer Engineering. B.S., 1990, M.S., 1996, Peking (China); Ph.D., 2002, Texas A&M.

GUERRA-DE-CASTILLO, ZOILA, Assistant Professor of Industrial and Manufacturing Systems Engineering (Collaborator). B.S., 1987, M.S., 1999, Universidad Technologica De Panama; Ph.D., 2006, Iowa State.

GUNDLACH, KATHRYN E., Lecturer in Kinesiology. B.S., 1975, St. Olaf College; M.S., 1977, Wisconsin (Lacrosse).

GUNSETT, FIELDS, Associate Professor of Animal Science (Collaborator). B.S., 1975, California (Davis); M.S., 1977, Idaho; Ph.D., 1980, Wisconsin.

GUNTENSPERGEN, GLENN, Associate Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1974, M.S., 1977, Illinois; Ph.D., 1984, Wisconsin.

GUTHRIE, NANCY J. T., Lecturer in World Languages and Cultures. B.A., 1976, Goshen College; M.S., 2007, Iowa State.

GUTHRIE, WILBUR D., Emeritus Professor of Entomology. B.S., 1950, M.S., 1951, Oklahoma State; Ph.D., 1958, Ohio State.

GUTOWSKI, WILLIAM J., Professor of Geological and Atmospheric Sciences; Professor of Agronomy. B.S., 1976, Yale; Ph.D., 1984, Massachusetts Institute of Technology.

GUYLL, MAX E. JR., Assistant Professor of Psychology. B.S., 1985, Lehigh; M.S., 1990, Utah; Ph.D., 1998, Rutgers.

GWIASDA, KARL ERIC, Emeritus Associate Professor of English. B.S., 1959, Illinois Institute of Technology; B.A., 1964, Butler; M.A., 1966, Ph.D., 1969, Northwestern.

HAAG, ELIZABETH A., Lecturer in Greenlee School of Journalism and Communication. B.A., 1989, M.S., 1995, Iowa State.

HAAS, BARBARA L., Associate Professor of English. B.A., 1980, Southern Indiana; M.F.A., 1982, California (Irvine).

HADDAD, MONICA, Assistant Professor of Community and Regional Planning. B.A., 1989, Federal De Minas Gerais (Brazil); M.U.P., 2000, Ph.D., 2003, Illinois.

HAGEDORN, LINDA, Professor of Educational Leadership and Policy Studies. B.A., 1973, Elmhurst College; M.Ed., 1990, National Louis; Ph.D., 1995, Illinois.

HAGEMOSER, WAYNE A., Emeritus Professor of Veterinary Pathology. B.S., 1961, D.V.M., 1963, Kansas State; M.S., 1976, Ph.D., 1979, Iowa State.

HAGGARD, FRANK E., Emeritus Professor of English. B.A., 1955, M.A., 1965, Ph.D., 1966, Kansas.

HAGGE, JOHN H., Associate Professor of English. B.A., 1974, St. Olaf; M.A., 1977, Ph.D., 1983, Minnesota.

HAGGE, LINDA L., Lecturer in English. B.A., 1976, Northern Illinois.

HALBUR, PATRICK G., Professor of Veterinary Diagnostic and Production Animal Medicine and Chair of the Department; Professor of Veterinary Pathology. D.V.M., 1986, M.S., 1992, Ph.D., 1995, Iowa State.

HALE, HARRY W., Emeritus Professor of Electrical and Computer Engineering. B.S., 1942, M.S., 1949, Ph.D., 1953, Purdue.

HALL, BONNIE J., Lecturer in Mathematics. B.S., 1981, Iowa State.

HALL, CHARLES VIRDUS, Emeritus Professor of Horticulture. B.S., 1950, M.S., 1953, Arkansas; Ph.D., 1960, Kansas State.

HALL, JERRY LEE, Emeritus Professor of Mechanical Engineering. B.S., 1959, M.S., 1963, Ph.D., 1967, Iowa State.

HALL, RICHARD BRIAN, Professor of Natural Resource Ecology and Management and Interim Chair of the Department. B.S., 1969, Iowa State; Ph.D., 1974, Wisconsin.

HALLAM, J. ARNE, Professor of Economics and Chair of the Department. B.S., 1977, Brigham Young; M.S., 1980, Ph.D., 1983, California (Berkeley).

HALLAUER, ARNEL ROY, Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1954, Kansas State; M.S., 1958, Ph.D., 1960, Iowa State.

HALLING, SHIRLEY M., Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1965, M.S., 1967, South Dakota State; Ph.D., 1975, Iowa.

HALLMARK, SHAUNA L., Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1991, Brigham Young; M.S., 1996, Utah State; Ph.D., 1999, Georgia Institute of Technology.

HALVERSON, LARRY J., Assistant Professor of Plant Pathology. B.A., 1981, Luther College; M.S., 1983, Tennessee; Ph.D., 1991, Wisconsin.

HAMMOND, EARL G., Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; University Professor. B.S., 1948, M.A., 1950, Texas; Ph.D., 1953, Minnesota.

HAMOUCHE, NICOLAS G., Associate Professor of Biomedical Sciences (Collaborator). M.D., 1986, American University of Beirut.

HAMRICK, FLORENCE A., Associate Professor of Educational Leadership and Policy Studies. B.A., 1981, North Carolina; M.A., 1983, Ohio State; Ph.D., 1995, Indiana.

HAN, GANG, Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1994, Namkai (China); M.A., 2000, Fudan (China); Ph.D., 2007, Syracuse.

HAN, SHUFENG, Associate Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1985, Zhejiang (China); B.S., 1992, Illinois.

HANDY, CHARLES B., Emeritus Professor of Accounting. B.A., 1947, Westminster; M.A., 1956, Iowa; Ph.D., 1970, Iowa State.

HANDY, RICHARD L., Emeritus Professor of Civil, Construction and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1951, M.S., 1953, Ph.D., 1956, Iowa State.

HANISCH, KATHY A., Senior Lecturer in Psychology. B.A., 1985, Northern Iowa; M.A., 1988, Ph.D., 1990, Illinois.

HANNAPEL, DAVID J., Professor of Horticulture. B.S., 1978, Illinois; M.S., 1981, Georgia; Ph.D., 1985, Purdue.

HANNEMAN, LARRY F., Adjunct Associate Professor of Chemical and Biological Engineering. B.S., 1966, Iowa State; M.S., 1972, Kansas State.

HANNUM, THOMAS E., Emeritus Professor of Psychology. B.S., 1941, M.S., 1949, Iowa State; Ph.D., 1952, Nebraska.

HANSEN, SCOTT W., Associate Professor of Mathematics. B.S., 1983, Southwest Missouri; Ph.D., 1988, Wisconsin.

HANSON, KATHY BURK, Lecturer in Food Science and Human Nutrition. B.S., 1971, M.S., 1978, Ph.D., 1993, Iowa State.

HARDING, CHRIS, Assistant Professor of Geological and Atmospheric Sciences; Assistant Professor of Computer Science. M.Sc., 1993, Free (Berlin); Ph.D., 2001, Houston.

HARDY, ROLLAND LEE, Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1947, Illinois; B.S., 1950, C.E., 1956, Missouri (Rolla); Dr.Ing., 1963, Karlsruhe.

HARGRAVE, CONNIE P., Associate Professor of Curriculum and Instruction. B.S., 1987, Evangel; M.A., 1989, Northern Iowa; Ph.D., 1993, Iowa State.

HARGROVE, MARK S., Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1992, Nebraska; Ph.D., 1995, Rice.

HARL, NEIL E., Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1955, Iowa State; J.D., 1961, Iowa; Ph.D., 1965, Iowa State.

HARMON, BRUCE N., Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1968, Illinois Institute of Technology; M.S., 1969, Ph.D., 1973, Northwestern.

HARMON, JAY D., Professor of Agricultural and Biosystems Engineering. B.S., 1984, Purdue; M.S., 1986, Minnesota; Ph.D., 1989, Virginia Polytechnic.

HARMON, KAREN M., Adjunct Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1981, Wisconsin; Ph.D., 1986, Minnesota.

HARMS, CHAD MARTIN, Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1995, Iowa State; M.A., 2000, Ph.D., 2003, Michigan State.

HARMS, JILL EMILY, Lecturer in Psychology. B.A., 1997, M.A., 2003, Michigan State.

HARP, JAMES A., Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1967, Illinois; M.A., 1969, Southern Illinois; Ph.D., 1983, Montana State.

HARPOLE, WILLIAM STANLEY, Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1997, Washington; Ph.D., 2005, Minnesota.

HARRINGTON, THOMAS C., Professor of Plant Pathology; Professor of Natural Resource Ecology and Management. B.S., 1977, Colorado State; M.S., 1980, Washington State; Ph.D., 1983, California (Berkeley).

HARRIS, AMY, Senior Lecturer in Art and Design. B.F.A., 1993, M.F.A., 1995, Drake.

HARRIS, BETH, Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1984, Nebraska; M.S., 1986, Maryland; Ph.D., 2002, Nebraska.

HARRIS, DELBERT LINN, Professor of Animal Science; Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1967, Ph.D., 1970, Iowa State.

HARRIS, MARY A., Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1977, California (Los Angeles); M.S., 1982, Montana; M.S., 1985, California (Riverside); Ph.D., 1995, Georgia.

HARROD, WENDY JEAN, Associate Professor of Sociology. B.A., 1972, Arizona State; M.A., 1974, Ph.D., 1977, Washington State. HART, CHAD E., Assistant Professor of Economics. B.S., 1991, Southwest Missouri State; Ph.D., 1999, Iowa State.

HART, ELWOOD ROY, Emeritus Professor of Entomology; Emeritus Professor of Natural Resource Ecology and Management. B.A., 1959, Cornell College; M.Ed., 1965, Ph.D., 1972, Texas A&M.

HARTWIG, NOLAN R., Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1964, Iowa State; M.S., 1973, Ohio State.

HARTZLER, ROBERT G., Professor of Agronomy. B.S., 1978, Purdue; M.S., 1982, Virginia Polytechnic Institute; Ph.D., 1987, Iowa State.

HARVEY, ROBERT R., Emeritus Professor of Landscape Architecture. B.S.L.A., 1961, Iowa State; M.L.A., 1964, Pennsylvania.

HARVILLE, DAVID A., Emeritus Professor of Statistics. B.S., 1962, Iowa State; M.S., 1964, Ph.D., 1965, Cornell.

HASHMI, FERZANA, Lecturer in Accounting; B.A., 1997, Virginia; M.B.A., 2002, Darden; J.D., 2004, Virginia.

HASIOTIS, STEVEN T., Associate Professor of Geological and Atmospheric Sciences (Collaborator). B.S., 1985, M.S., 1991, Buffalo; Ph.D., 1997, Colorado.

HATFIELD, JERRY L., Professor of Agronomy (Collaborator). B.S., 1971, Kansas State; M.S., 1972, Kentucky; Ph.D., 1975, Iowa State.

HAUG, SUE ELLEN, Emeritus Professor of Music. B.Mus., 1969, M.M., 1970, M.M., 1975, Wisconsin; D.M.A., 1984, Iowa.

HAUGLI, DANA G., Senior Lecturer in Aerospace Engineering. B.S., 1987, Oklahoma State; M.S., 1998, Iowa State.

HAUPTMAN, JOHN M., Professor of Physics and Astronomy. B.A., 1968, Ph.D., 1974, California (Berkeley).

HAUSAFUS, CHERYL O., Associate Professor of Apparel, Educational Studies and Hospitality Management; Associate Professor of Curriculum and Instruction. B.S., 1968, Florida State; M.S., 1971, Pennsylvania State; Ph.D., 1978, Iowa State.

HAWKINS, NEAL R., Lecturer in Civil, Construction and Environmental Engineering. B.S., 1988, Oklahoma; M.S., 1990, Iowa State.

HAWS, RICHARD H., Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1966, Nebraska Wesleyan; M.S.J., 1970, Northwestern.

HAYENGA, MARVIN L., Emeritus Professor of Economics. B.S., 1962, M.S., 1963, Illinois; Ph.D., 1967, California (Berkeley).

HAYES, DERMOT JAMES, Professor of Economics. B.S., 1981, Dublin; Ph.D., 1986, California (Berkeley).

HAYNES, CYNTHIA L., Associate Professor of Horticulture. B.S., 1988, Louisiana Tech; M.S., 1991, Ph.D., 1996, Georgia.

HAYNES, EMMIT HOWARD, Emeritus Professor of Animal Science. B.S., 1951, M.S., 1953, Kentucky; Ph.D., 1959, Cornell.

HAYNES, JOSEPH S., Professor of Veterinary Pathology. D.V.M., 1979, Missouri; Ph.D., 1986, Minnesota.

HAYWOOD-FERREIRA, RACHEL H., Assistant Professor of World Languages and Cultures. B.A., 1992, Williams College; M.A., 1998, M.Phil., 2000, Ph.D., 2003, Yale.

HAZEN, THAMON EDSON, Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1947, Oklahoma State; M.S., 1950, Purdue; Ph.D., 1956, Iowa State.

HEATON, EMILY, Assistant Professor of Agronomy. B.Sc., 2001, Ph.D., 2006, Illinois.

HEBERT, KURT ROBERT, Professor of Chemical and Biological Engineering. B.S., 1978, Princeton; M.S., 1981, Ph.D., 1985, Illinois.

HEEMSTRA, HOWARD C., Emeritus Professor of Architecture. B.Arch., 1952, Iowa State; M.Arch., 1958, Cranbrook.

HEFFERNAN, ADAM, Lecturer in Music. B.A., 1996, New Hampshire; M.F.A., 2008, Tennessee (Knoxville).

HEGELHEIMER, VOLKER H., Associate Professor of English. M.A., 1995, Ph.D., 1998, Illinois.

HEGGEN, RICHARD D., Emeritus Professor of Art and Design; Distinguished Professor in Design. B.F.A., 1958, M.F.A., 1962, Drake.

HEGLAND, SUSAN M., Associate Professor of Human Development and Family Studies. B.A., 1970, St. Olaf; M.S., 1972, Iowa State; Ph.D., 1977, Ohio State.

HEIMES, KENNETH A., Emeritus Associate Professor of Mathematics. B.S., 1957, Creighton; M.A., 1962, Ph.D., 1965, Nebraska.

HEINDEL, THEODORE JOHN, Professor of Mechanical Engineering. B.S.M.E., 1988, Wisconsin; M.S.M.E., 1990, Ph.D., 1994, Purdue.

HEISE, JAMES ARTHUR, Lecturer in Mechanical Engineering. B.S., 1986, M.S., 2005, Iowa State.

HEISING, CAROLYN D., Professor of Industrial and Manufacturing Systems Engineering. B.S., 1974, California (San Diego); Ph.D., 1978, Stanford.

HELD, SHIRLEY ELAINE, Emeritus Professor of Art and Design. B.S., 1945, M.S., 1952, Iowa State.

HELLMICH, RICHARD II, Assistant Professor of Entomology (Collaborator). B.A., 1977, Depauw; M.S., 1981, Ph.D., 1983, Ohio State.

HELMER, GUY GARY, Lecturer in Logistics, Operations and Management Information Systems. B.S., 1989, South Dakota School of Mines; M.S., 1998, Ph.D., 2000, Iowa State.

HELMERS, MATTHEW JUSTIN, Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1995, Iowa State; M.S., 1997, Virginia Polytechnic; Ph.D., 2003, Nebraska.

HENDERSON, ERIC R., Professor of Genetics, Development and Cell Biology. B.A., 1979, Ph.D., 1984, California (Los Angeles).

HENDRICH, SUZANNE, Professor of Food Science and Human Nutrition. B.A., 1976, California (Los Angeles); Ph.D., 1985, California (Berkeley).

HENDRICKSON, RICHARD, Emeritus Professor of Mechanical Engineering. B.S., 1955, M.S., 1962, Ph.D., 1966, Iowa State.

HENKIN, ALEXANDER, Emeritus Professor of Mechanical Engineering. B.S., 1954, Dipl., 1955, Israel Institute of Technology; M.S., 1957, Ph.D., 1962, Michigan.

HENNESSY, DAVID A., Professor of Economics. B.S., 1983, Ireland; M.S., 1987, Ph.D., 1993, Dublin.

HENNESSY, HONGLI FENG, Adjunct Assistant Professor of Economics. B.S., 1995, Beijing Agricultural; Ph.D., 2001, Iowa State.

HENNEY, MARIBETH, Emeritus Professor of Curriculum and Instruction. B.Ed., 1957, M.Ed., 1965, Washburn; Ph.D., 1968, Kent State.

HENNING, STANLEY J., Assistant Professor of Agronomy. B.S., 1966, Iowa State; M.S., 1971, Ph.D., 1975, Oregon State.

HENRY, MADELEINE M., Professor of World Languages and Cultures. B.A., 1971, M.A., 1974, Ph.D., 1983, Minnesota.

HENSLEY, AMY KATHRYN, Lecturer in Human Development and Family Studies. B.S., 2001, Iowa State; M.P.A., 2005, Drake.

HENTZEL, IRVIN R., Professor of Mathematics. B.A., 1964, M.A., 1966, Ph.D., 1968, Iowa.

HERMANN, PAUL JACOB, Emeritus Associate Professor of Aerospace Engineering. B.S., 1947, M.S., 1951, Iowa State.

HERNDL, CARL G., Professor of English. B.A., 1977, North Carolina; Ph.D., 1986, Minnesota.

HERRERA-SIKLODY, PAULA, Senior Lecturer in Physics and Astronomy. B.Sc., 1993, Ph.D., 1999, Barcelona (Spain).

HERRIGES, JOSEPH A., Professor of Economics. B.S., 1978, Marquette; M.S., 1982, Ph.D., 1983, Wisconsin.

HERRMANN, POL, Associate Professor of Management. M.S., 1981, Southern Methodist; Ph.D., 1999, Kansas.

HERRNSTADT, RICHARD L., Emeritus Professor of English. B.S., 1948, M.S., 1950, Wisconsin; Ph.D., 1960, Maryland.

HERRNSTADT, STEVEN M., Professor of Art and Design. B.S., 1975, M.A., 1979, M.F.A., 1980, Iowa.

HERWIG, JOAN EMILY, Emeritus Associate Professor of Human Development and Family Studies. B.S., 1965, Wisconsin (Stout); M.S., 1971, Iowa State; Ph.D., 1978, Purdue.

HICKMAN, ROY DON, Emeritus Professor of Statistics. B.S., 1954, M.Ed., 1960, Texas A&M; Ph.D., 1967, Iowa State.

HICKOK, KATHLEEN K., Professor of English. B.A., 1968, Tulane; M.A., 1970, Southwestern Louisiana; Ph.D., 1977, Maryland.

HIGHTSHOE, GARY LYNN, Professor of Landscape Architecture. B.S.L.A., 1969, M.L.A., 1970, Iowa State.

HILL, JAMES CHRISTIAN, Professor of Chemical and Biological Engineering and Chair of the Department; University Professor. B.S., 1962, Stanford; Ph.D., 1968, Washington.

HILL, JOHN C., Professor of Physics and Astronomy. B.S., 1957, Davidson; Ph.D., 1966, Purdue.

HILL, JOHN HEMMINGSON, Professor of Plant Pathology. B.A., 1963, Carleton; M.S., 1966, Minnesota; Ph.D., 1971, California (Davis).

HILL, KEVIN D., Lecturer in History. B.A., 1989, M.A., 1994, Ph.D., 2002, Iowa State.

HILL, MATTHEW G., Assistant Professor of Anthropology. B.A., 1991, Wisconsin (La Crosse); M.A., 1994, Wyoming; Ph.D., 2001, Wisconsin.

HILL, THOMAS L., Adjunct Assistant Professor of Educational Leadership and Policy Studies; Vice President for Student Affairs. B.S., 1972, Arkansas State; M.S., 1976, Long Island; Ph.D., 1985, Florida.

HILLESLAND, GLENN G., Emeritus Adjunct Professor of Electrical and Computer Engineering. B.S.E.E., 1947, Iowa State.

HILLIARD, JAMES P., Associate Professor of Aerospace Engineering. B.S., 1967, M.E., 1974, Ph.D., 1980, Iowa State.

HILLIARD, KATHLEEN, Assistant Professor of History. B.A., 1997, Wake Forest; M.A., 2000, Ph.D., 2006, South Carolina.

HILLIER, ANDREW C., Associate Professor of Chemical and Biological Engineering; Associate Professor of Chemistry. B.S., 1990, Nebraska; Ph.D., 1995, Minnesota.

HINDMAN, RICHARD G., Associate Professor of Aerospace Engineering. B.S., 1974, M.S., 1977, Ph.D., 1980, Iowa State.

HINZ, PAUL NORMAN, Emeritus Professor of Statistics; Emeritus Professor of Natural Resource Ecology and Management; University Professor. B.S., 1957, Pennsylvania State; M.S., 1960, North Carolina State; M.S., 1963, Ph.D., 1967, Wisconsin.

HIRA, LABH S., Professor of Accounting; Dean of the College of Business. B.S., 1969, M.S., 1971, Ludhiana; Ph.D., 1975, Missouri.

HIRA, TAHIRA K., Professor of Human Development and Family Studies; Executive Assistant to the President. B.A., 1963, Lahore; M.A., 1966, Panjab; M.S., 1974, Ph.D., 1976, Missouri.

HO, KAI-MING, Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Hong Kong; Ph.D., 1978, California (Berkeley).

HOCHSTETLER, ANDREW LEE, Associate Professor of Sociology. B.A., 1991, M.A., 1994, Ph.D., 1999, Tennessee.

HOCKADAY, CATHERYN M., Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1989, Virginia Polytechnic Institute; M.S., 1992, Ph.D., 1998, Iowa State.

HODGES, CLINTON, Emeritus Professor of Horticulture; Emeritus Professor of Agronomy; Emeritus Professor of Plant Pathology. B.S., 1962, M.S., 1964, Ph.D., 1967, Illinois.

HODGES, LAURENT, Emeritus Professor of Physics and Astronomy. A.B., 1960, A.M., 1961, Ph.D., 1966, Harvard.

HOEFLE, WILLIAM D., Professor of Veterinary Clinical Sciences. D.V.M., 1966, M.S., 1974, Iowa State.

HOERNER, THOMAS ALLEN, Emeritus Professor of Agricultural and Biosystems Engineering; Emeritus Professor of Agricultural Education and Studies; Emeritus Professor of Curriculum and Instruction. B.S., 1957, M.S., 1963, Ph.D., 1965, Iowa State.

HOFF, CURTIS, Lecturer in Finance. B.A., 1984, Northern Iowa; M.B.A., 2001, Iowa State.

HOFF, STEVEN J., Professor of Agricultural and Biosystems Engineering. B.S., 1983, Wisconsin (River Falls); B.A.E., 1985, M.S., 1987, Ph.D., 1990, Minnesota.

HOFFMAN, DAVID K., Professor of Chemistry; University Professor. B.S., 1960, Illinois; Ph.D., 1964, Wisconsin.

HOFFMAN, ELIZABETH, Professor of Economics; Executive Vice President and Provost. A.B., 1968, Smith; M.A., 1969, Ph.D., 1972, Pennsylvania; Ph.D., 1979, California Institute of Technology.

HOFFMAN, LORRAINE J., Professor of Veterinary Diagnostic and Production Animal Medicine B.A., 1964, Wartburg; M.S., 1968, Ph.D., 1974, Iowa State.

HOFFMAN, MARK PETER, Professor of Animal Science. B.S., 1963, Delaware Valley; M.S., 1967, Ph.D., 1969, Iowa State.

HOFMANN, HEIKE, Associate Professor of Statistics. B.Sc., 1993, M.Sc., 1998, Ph.D., 2000, Augsburg (Germany).

HOFMOCKEL, KIRSTEN, Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1994, Pennsylvania State; M.S., 1999, Ph.D., 2005, Duke.

HOGBEN, LESLIE, Professor of Mathematics. B.A., 1974, Swarthmore; Ph.D., 1978, Yale.

HOGBERG, MAYNARD GORDON, Professor of Animal Science and Chair of the Department. B.S., 1966, M.S., 1972, Ph.D., 1976, Iowa State.

HOGLE, ROGER M., Emeritus Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1958, M.S., 1967, Iowa State.

HOHMANN, HEIDI M., Associate Professor of Landscape Architecture. B.S., 1986, Yale; M.L.A., 1993, Harvard Graduate School of Design.

HOIBERG, ERIC OTTO, Emeritus Professor of Sociology. B.A., 1966, M.A., 1969, Ph.D., 1973, Nebraska.

HOLCOMB, TODD R., Lecturer in Educational Leadership and Policy Studies. B.S., 1984, Truman State; M.Ed., 1987, Texas Tech; Ed.D., 1992, Georgia.

HOLDEN, PALMER J., Emeritus Professor of Animal Science. B.S., 1965, North Dakota State; M.S., 1967, Ph.D., 1970, Iowa State.

HOLGER, DAVID KERMIT, Professor of Aerospace Engineering; Associate Provost for Academic Programs and Dean of the Graduate College. B.Aer.E., 1970, M.S., 1971, Ph.D., 1974, Minnesota.

HOLLAND, BRENT A., Assistant Professor of Art and Design. B.F.A., 2001, Southwest Missouri State; M.F.A., 2004, Washington.

HOLLAND, STEPHEN D., Assistant Professor of Aerospace Engineering. B.S., 1997, Ph.D., 2002, Cornell.

HOLLANDER, DAVID B., Associate Professor of History. B.A., 1992, Chicago; M.A., 1994, M.Phil., 1997, Ph.D., 2002, Columbia.

HOLLENBACH, PAUL W., Emeritus Professor of Philosophy and Religious Studies. B.A., 1949, Wheaton; M.A., 1952, Rochester; B.D., 1954, Union Theological Seminary; Ph.D., 1965, Drew.

HOLLINGER, ROBERT, Professor of Philosophy and Religious Studies. B.A., 1966, Brooklyn; Ph.D., 1972, Wisconsin.

HOLLIS, JAMES, Assistant Professor of Food Science and Human Nutrition. B.Sc., 1999, Ph.D., 2003, Oxford Brookes (UK).

HOLME, THOMAS, Professor of Chemistry. B.S., 1983, Loras College; Ph.D., 1987, Rice.

HOLMGREN, MARGARET R., Associate Professor of Philosophy and Religious Studies. B.A., 1974, Bryn Mawr; Ph.D., 1981, Texas.

HOLSCHER, KENNETH, Associate Professor of Entomology. B.S., 1972, Kearney; M.S., 1978, Ph.D., 1981, Oklahoma State.

HOLTER, JAMES A., Emeritus Professor of Veterinary Pathology. B.S., 1952, North Dakota State; D.V.M., 1957, M.S., 1975, Iowa State.

HOLTKAMP, DERALD J., Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1985, M.S., 1990, D.V.M., 1997, Iowa State.

HOMER, ROGER HARRY, Emeritus Professor of Mathematics. A.B., 1951, Southern California; Ph.D., 1959, California (Berkeley).

HONAVAR, VASANT G., Professor of Computer Science. B.E., 1982, India; M.S.E.E., 1984, Pennsylvania; M.S., 1989, Ph.D., 1990, Wisconsin.

HONEYCUTT, LEE B., Associate Professor of English. B.S., 1982, Tennessee; M.A., 1994, North Carolina (Charlotte); Ph.D., 1998, Rensselaer Polytechnic Institute.

HONEYMAN, MARK S., Professor of Animal Science; Professor of Agricultural Education and Studies. B.S., 1977, M.S., 1983, Ph.D., 1989, Iowa State.

HONG, MEI, Professor of Chemistry. B.A., 1992, Mount Holyoke College; Ph.D., 1996, California (Berkeley).

HONG, WEI, Assistant Professor of Aerospace Engineering; Assistant Professor of Materials Science and Engineering. B.S., 2000, M.S., 2002, Tsinghua (China); Ph.D., 2006, Harvard.

HONZATKO, RICHARD B., Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, Michigan; Ph.D., 1982, Harvard.

HOPKINS, CHRISTOPHER, Assistant Professor of Music. B.M., 1979, Nebraska; M.M., 1985, Cleveland Institute of Music; D.M.A., 1992, Cornell.

HOPKINS, MARIANNE T., Assistant Professor of Genetics, Development and Cell Biology (Collaborator). B.S., 1999, Ph.D., 2006, Waterloo (Canada).

HOPKINS, STEVEN M., Professor of Veterinary \ Diagnostic and Production Animal Medicine; Professor of Veterinary Clinical Sciences. D.V.M., 1974, Michigan State.

HOPPER, DAVID L., Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine; Emeritus Professor of Veterinary Pathology. B.S., 1971, M.S., 1972, Wisconsin (Oshkosh); Ph.D., 1976, Iowa State.

HOPPER, GORDON CLYDE, Emeritus Professor of Educational Leadership and Policy Studies. B.S., 1954, M.S., 1955, Western Illinois; Ed.S., 1964, Illinois; Ed.D., 1966, Northern Illinois.

HORNBUCKLE, BRIAN KIRK, Assistant Professor of Agronomy; Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Geological and Atmospheric Sciences. B.Sc., 1994, Brown; M.A., 1996, Mississippi (Oxford); M.S.E., 1997, Ph.D., 2003, Michigan.

HORNER, HARRY T. JR., Professor of Genetics, Development and Cell Biology; Professor of Ecology, Evolution and Organismal Biology; University Professor. B.A., 1959, M.S., 1961, Ph.D., 1964, Northwestern.

HOROWITZ, JACK, Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; University Professor. B.S., 1952, City University of New York; Ph.D., 1957, Indiana.

HORST, RONALD L., Professor of Animal Science (Collaborator); B.S., 1971, West Virginia; M.S., 1972, Ph.D., 1976, Wisconsin.

HORTON, RICHARD E., Emeritus Professor of Computer Engineering. B.S., 1962, M.S., 1963, Ph.D., 1967, Iowa State.

HORTON, ROBERT JR., Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1975, M.S., 1977, Texas A&M; Ph.D., 1982, New Mexico State.

HORWITZ, JAMIE L., Associate Professor of Architecture. B.F.A., 1972, Kansas City Art Institute; Ed.M., 1977, Harvard; Ph.D., 1986, City University of New York.

HOSTETTER, JESSE M., Assistant Professor of Veterinary Pathology. D.V.M., 1991, Ph.D., 2000, Iowa State.

HOTCHKISS, DONALD, Emeritus Professor of Statistics. B.S., 1950, Ph.D., 1960, Iowa State.

HOU, LISHENG STEVEN, Professor of Mathematics. B.S., 1983, Peking (China); Ph.D., 1989, Carnegie Mellon.

HOUGHTBY, JEFFREY L., Assistant Professor of History. B.A., 1994, M.A., 1996, Northern Illinois; Ph.D., 2006, Emory.

HOUK, ROBERT S., Professor of Chemistry. B.S., 1974, Slippery Rock; Ph.D., 1980, Iowa State.

HOUSE, JOHN B., Lecturer in English. B.B.A., 1980, Hawaii; M.A., 1988, San Francisco State.

HOWARD, JOAN, Clinician in Veterinary Clinical Sciences. B.A., 1985, Albright College; D.V.M., 1989, Pennsylvania.

HOWARD-MARTIN, MONICA, Lecturer in Veterinary Clinical Sciences. B.S., 1982, D.V.M., 1982, Tuskegee; Ph.D., 1990, Oklahoma State.

HOWELL, STEPHEN H., Professor of Genetics, Development and Cell Biology. B.S., 1963, Grinnell College; Ph.D., 1967, Johns Hopkins.

HRABA, JOSEPH III, Emeritus Professor of Sociology. B.A., 1965, M.A., 1968, Ph.D., 1972, Nebraska.

HSIEH, HSUNG-CHENG, Emeritus Professor of Electrical Engineering. A.B., 1954, Dartmouth; M.S., 1955, California Institute of Technology; E.E., 1957, Stanford; Ph.D., 1960, California (Berkeley).

HSU, DAVID KUEI-YU, Adjunct Professor of Aerospace Engineering. B.S., 1965, National Taiwan; Ph.D., 1971, Wayne State.

HSU, WALTER HAW, Professor of Biomedical Sciences. B.V.M., 1969, National Taiwan; Ph.D., 1975, North Carolina.

HU, HUI, Assistant Professor of Aerospace Engineering. B.S., 1990, M.S., 1993, Ph.D., 1996, Beijing (China); Ph.D., 2001, Tokyo (Japan).

HUANG, SHU-MIN, Emeritus Professor of Anthropology. B.A., 1967, National Taiwan; M.A., 1973, Ph.D., 1977, Michigan State.

HUANG, XIAOQIU, Professor of Computer Science. B.S., 1982, Changsha Institute of Technology (China); M.S., 1989, Ph.D., 1990, Pennsylvania State.

HUBA, MARY ELEANOR, Emeritus Professor of Educational Leadership and Policy Studies. B.A., 1969, St. Rose; M.A., 1973, Ph.D., 1977, New York (Albany).

HUFFMAN, SONYA K., Adjunct Assistant Professor of Economics. B.S., 1986, Moscow Cooperative Institute; Ph.D., 1999, Iowa State.

HUFFMAN, WALLACE E., Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1966, Iowa State; M.A., 1971, Ph.D., 1972, Chicago.

HUGHES, JENE D., Lecturer in English. B.M.E., 1965, M.M., 1966, Drake; M.A., 2001, Iowa State.

HUGHES, KERE POND, Assistant Professor of Human Development and Family Studies. B.A., 1992, Washburn; M.A., 1995, Ph.D., 1999, Kansas.

HUGHES, RICHARD A. II, Emeritus Professor of Psychology. B.A., 1964, M.S., 1966, Ph.D., 1968, Rutgers.

HUIATT, TED W., Associate Professor of Animal Science; Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1972, Colorado; Ph.D., 1979, Iowa State.

HUNACEK, MARK, Lecturer in Civil, Construction and Environmental Engineering. B.S., 1972, Brooklyn; M.S., 1974, New York; Ph.D., 1978, Rutgers; J.D., 1981, Drake.

HUNGER, J. DAVID, Emeritus Professor of Management. B.A., 1963, Bowling Green; M.B.A., 1966, Ph.D., 1973, Ohio State.

HUNTER, WILLIAM A., Emeritus Professor of Curriculum and Instruction. B.S., 1936, Wilberforce; M.S., 1948, Ph.D., 1952, Iowa State.

HUNTINGTON, STUART H., Emeritus Associate Professor of Community and Regional Planning. B.A., 1964, North Park; M.S., 1969, Missouri.

HURBURGH, CHARLES R., Professor of Agricultural and Biosystems Engineering; Professor of Food Science and Human Nutrition. B.S., 1973, M.S., 1980, Ph.D., 1981, Iowa State.

HURD, HOWARD SCOTT, Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1978, Virginia Tech; D.V.M., 1982, Iowa State; Ph.D., 1990, Michigan State.

HURST, JESSICA LYNN, Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1999, M.S., 2004, Iowa State; Ph.D., 2007, Michigan State.

HUSS, JAMES J., Emeritus Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1964, M.S., 1980, Ph.D., 1990, Iowa State.

HUTCHISON, WALLACE W., Emeritus Professor of Kinesiology. B.S., 1959, M.S., 1966, Brigham Young; Ph.D., 1971, Utah.

HUTTER, JAMES L., Associate Professor of Political Science. B.A., 1961, University of the South; M.A., 1963, Ph.D., 1968, Oregon.

HUTTON, WILBERT JR., Emeritus Professor of Chemistry. B.S., 1950, Denver; Ph.D., 1959, Michigan State.

HYDE, WALTER G., Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Pathology. B.S., 1973, M.S., 1980, Ph.D., 1985, Iowa State.

IASEVOLI, PAMELA SUE, Assistant Professor of Art and Design. B.A., 1974, M.S., 1978, D.V.M., 1998, Iowa State.

ILAHIANE, HSAIN, Associate Professor of Anthropology. B.A., 1987, Catholic University of America; M.A., 1989, George Washington; Ph.D., 1998, Arizona.

ILARSLAN, HILAL INCI, Adjunct Assistant Professor of Genetics, Development and Cell Biology. B.S., 1984, Ph.D., 1990, Ankara.

ILES, JEFFERY KENNETH, Professor of Horticulture and Chair of the Department. B.S., 1977, Michigan State; M.S., 1985, Pennsylvania State; Ph.D., 1993, Iowa State.

IMERMAN, PAULA M., Adjunct Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1977, St. Francis; M.S., 1982, Ph.D., 1994, Iowa State.

IMSANDE, JOHN, Emeritus Professor of Agronomy; Emeritus Professor of Genetics, Development and Cell Biology. B.A., 1953, Montana; M.S., 1956, Montana State; Ph.D., 1960, Duke.

INGEBRITSEN, THOMAS S., Associate Professor of Genetics, Development and Cell Biology. B.S., 1968, Oregon State; Ph.D., 1979, Indiana.

INGER, GEORGE ROE, Emeritus Professor of Aerospace Engineering. B.S., 1954, M.S., 1956, Wayne State; Ph.D., 1960, Michigan.

INYANG, ANIEFIOK D., Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1976, Kansas; M.S., 1978, Ph.D., 1982, Oklahoma.

IRWIN, CHRISTA, Adjunct Instructor in Veterinary Diagnostic and Production Animal Medicine. B.A., 1989, Colgate; D.V.M., 1998, Kansas State.

ISAACSON, DEAN L., Professor of Statistics. B.A., 1963, Macalester; M.S., 1966, Ph.D., 1968, Minnesota.

ISEBRANDS, JUDSON G., Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1965, Ph.D., 1969, Iowa State.

ISENHART, THOMAS M., Associate Professor of Natural Resource Ecology and Management. B.S., 1983, M.S., 1988, Ph.D., 1992, Iowa State.

IVERSEN, JAMES D., Emeritus Professor of Aerospace Engineering. B.S., 1956, M.S., 1958, Ph.D., 1964, Iowa State.

IVERSON, NEAL R., Professor of Geological and Atmospheric Sciences. B.S., 1983, Iowa State; Ph.D., 1989, Minnesota.

JACKMAN, JOHN K., Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1975, Rensselaer; M.E., 1983, Ph.D., 1986, Pennsylvania State.

JACKSON, GEORGE A., Adjunct Assistant Professor of Educational Leadership and Policy Studies; Assistant Dean of the Graduate College. B.A., 1963, Bethune Cookman; M.A., 1968, North Carolina A&T; Ph.D., 1976, Michigan State.

JACKSON, LARRY L., Emeritus Professor of Veterinary Clinical Sciences. B.S., 1964, D.V.M., 1966, Michigan State; M.S., 1971, Iowa State.

JACKSON, MIKE L., Lecturer in Architecture. B.A., 1987, M.Arch., 1991, Iowa State.

JACKSON, REBECCA, Associate Professor, Library. B.A., 1971, Pennsylvania State; M.L.S., 1975, New York (Albany); M.A., 1984, Pennsylvania State.

JACOBSON, CARL ERNEST, Professor of Geological and Atmospheric Sciences and Chair of the Department. B.S., 1975, New York (Binghamton); Ph.D., 1980, California (Los Angeles).

JACOBSON, DOUG W., Professor of Electrical and Computer Engineering; University Professor. B.S., 1980, Ph.D., 1985, Iowa State.

JACOBSON, JOHN BRUCE, Assistant Professor of Aerospace Engineering. B.S., 1971, M.S., 1979, Iowa State.

JACOBSON, NORMAN L., Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1940, Wisconsin; M.S., 1941, Ph.D., 1947, Iowa State.

JACOBSON, ROBERT A., Emeritus Professor of Chemistry. B.A., 1954, Connecticut; Ph.D., 1959, Minnesota.

JAHREN, CHARLES T., Associate Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1977, M.B.A., 1981, Minnesota; Ph.D., 1987, Purdue.

JAMES, MARTHA GRAHAM, Adjunct Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1968, Colorado; M.A., 1985, Drake; Ph.D., 1989, Ph.D., 1990, Iowa State.

JANE, JAY-LIN, Professor of Food Science and Human Nutrition. B.S., 1973, National Chung-Hsing; Ph.D., 1984, Iowa State.

JANKE, BRUCE H., Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Pathology. B.S., 1970, D.V.M., 1975, Iowa State; M.S., 1981, Ph.D., 1984, Missouri.

JANVRIN, DIANE J., Assistant Professor of Accounting. B.A., 1983, Central College; M.A., 1986, Ph.D., 2001, Iowa.

JANZEN, FREDRIC J. II, Professor of Ecology, Evolution and Organismal Biology. B.A., 1985, North Central (Illinois); M.S., 1987, Colorado State; Ph.D., 1992, Chicago.

JARBOE, LAURA, Assistant Professor of Chemical and Biological Engineering. B.S., 2000, Kentucky; Ph.D., 2006, California (Los Angeles).

JARVINEN, JULIE ANN C., Associate Professor of Veterinary Pathology. B.A., 1966, M.A., 1968, Ph.D., 1976, D.V.M., 1981, Minnesota.

JASELSKIS, EDWARD J., Professor of Civil, Construction and Environmental Engineering. B.S., 1980, Illinois; M.S., 1982, Massachusetts Institute of Technology; Ph.D., 1988, Texas.

JAYNES, DAN, Professor of Agronomy (Collaborator). B.A., 1974, Monmouth; M.S., 1978, Wisconsin; Ph.D., 1983, Pennsylvania State.

JEFFREY, CYNTHIA G., Associate Professor of Accounting. B.S., 1975, M.S., 1979, Iowa State; Ph.D., 1989, Minnesota.

JEFFRIES-EL, MALIKA, Assistant Professor of Chemistry. B.A., 1996, Wellesley; M.Phil., 1999, Ph.D., 2002, George Washington.

JEFTINIJA, SRDIJA, Associate Professor of Biomedical Sciences; Associate Professor of Animal Science. D.V.M., 1973, M.S., 1976, Belgrade; Ph.D., 1982, Iowa State.

JELLINGER, THOMAS C., Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1949, Illinois; B.S., 1963, Iowa State.

JENISON, ROLAND DUANE, Emeritus Professor of Aerospace Engineering. B.S., 1961, M.S., 1965, Iowa State.

JENKS, TODD ALLEN, Lecturer in Psychology. B.A., 1987, M.Div., 1991, Concordia; Ph.D., 1996, Bowling Green State.

JENKS, WILLIAM S., Professor of Chemistry. B.S., 1986, California (Los Angeles); Ph.D., 1991, Columbia.

JENSEN, ALAN D., Lecturer in Community and Regional Planning. B.S., 1975, M.C.R.P., 1993, Iowa State.

JENSEN, HELEN HANNAY, Professor of Economics. B.A., 1968, Carleton; M.S., 1974, Minnesota; Ph.D., 1980, Wisconsin.

JERGENS, ALBERT EARL, Professor of Veterinary Clinical Sciences. B.S., 1977, B.S., 1981, D.V.M., 1983, Texas A&M; M.S., 1994, Ph.D., 2005, Iowa State.

JERNIGAN, ROBERT L., Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1963, California Institute of Technology; Ph.D., 1967, Stanford.

JESKA, EDWARD L., Emeritus Professor of Ecology, Evolution and Organismal Biology. B.A., 1952, Gannon; M.S., 1954, Marquette; Ph.D., 1966, Pennsylvania.

JIA, YAN-BIN, Associate Professor of Computer Science. B.S., 1988, Science and Technology (China); M.S., 1993, Ph.D., 1997, Carnegie Mellon.

JIANG, ZHENGRUI, Assistant Professor of Logistics, Operations and Management Information Systems. B.A., 1992, Qingdao (China); M.B.A., 2000, M.S., 2000, Louisiana (Lafayette); Ph.D., 2005, Texas (Dallas).

JILES, DAVID C., Professor of Electrical and Computer Engineering (Collaborator); Professor of Materials Science and Engineering (Collaborator). B.S., 1975, Exeter; M.S., 1976, Birmingham; Ph.D., 1979, Hull.

JOANNING, HARVEY H., Emeritus Professor of Human Development and Family Studies. B.A., 1969, Briar Cliff; M.A., 1972, Ph.D., 1973, Iowa.

JOENSEN, ALFRED W., Emeritus Associate Professor of Mechanical Engineering. B.S., 1957, M.S., 1966, Iowa State.

JOHANSEN, JORGEN, Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, M.Phil., 1980, Ph.D., 1988, Copenhagen.

JOHANSEN, KRISTEN M., Professor of Biochemistry, Biophysics and Molecular Biology; Professor of Genetics, Development and Cell Biology. B.A., 1982, Pennsylvania; M.Phil., 1985, Ph.D., 1989, Yale.

JOHNSEN, NANCY OSBORN, Lecturer in Anthropology. B.S., 1968, M.S., 1976, Iowa State.

JOHNSON, CHARLES S., Adjunct Instructor in Veterinary Pathology. B.S., 1996, M.S., 2000, D.V.M., 2003, Minnesota.

JOHNSON, CHRISTOPHER RYAN, Lecturer in Computer Science. B.S., 2003, Northern Iowa; M.S., 2005, Tennessee.

JOHNSON, DANNY J., Associate Professor of Logistics, Operations and Management Information Systems. B.S., 1989, Moorhead State; M.B.A., 1991, Ph.D., 1998, Wisconsin (Madison).

JOHNSON, DENNIS C., Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.A., 1963, Bethel; Ph.D., 1967, Minnesota.

JOHNSON, HOWARD P., Emeritus Professor of Agricultural and Biosystems Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1949, M.S., 1950, Iowa State; M.S., 1954, Iowa; Ph.D., 1959, Iowa State.

JOHNSON, JANET S., Clinician in Food Science and Human Nutrition. B.S., 1976, Iowa State; M.S., 1985, Delaware.

JOHNSON, JOHN K., Clinician in Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1978, Iowa State.

JOHNSON, LAWRENCE A., Professor of Food Science and Human Nutrition. B.Sc., 1969, Ohio State; M.Sc., 1971, North Carolina State; Ph.D., 1978, Kansas State.

JOHNSON, MARGARET S., Emeritus Assistant Professor of World Languages and Cultures. B.A., 1956, Oregon; M.A., 1974, Drake.

JOHNSON, STANLEY R., Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1961, Western Illinois; M.S., 1962, Texas Tech; Ph.D., 1966, Texas A&M.

JOHNSON, WILLIE ROY, Associate Professor of Management. B.S., 1974, M.A., 1976, Chicago State; M.A., 1980, Ph.D., 1986, Bowling Green.

JOHNSTON, DAVID C., Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1969, California (Santa Barbara); Ph.D., 1975, California (San Diego).

JOHNSTON, DOUGLAS MARSHALL, Professor of Landscape Architecture and Chair of the Department; Professor of Community and Regional Planning and Chair of the Department. B.S., 1979, B.L.A., 1980, SUNY; M.L.A., 1982, Harvard; Ph.D., 1986, Washington.

JOHNSTON, ELGIN H., Professor of Mathematics. B.S., 1972, Santa Clara; M.S., 1973, Ph.D., 1977, Illinois.

JOHNSTON, GAIL B., Senior Lecturer in Mathematics. B.S., 1972, Santa Clara; M.S., 1975, Illinois.

JOLLS, KENNETH ROBERT, Professor of Chemical and Biological Engineering. A.B., 1958, Duke; B.S., 1961, North Carolina State; M.S., 1963, Ph.D., 1966, Illinois.

JOLLY, ROBERT WILLIAM, Professor of Economics. B.S., 1968, M.S., 1974, Ph.D., 1976, Minnesota.

JONES, BERT LYNN, Emeritus Associate Professor of Agricultural Education and Studies. B.A., 1970, Missouri Southern; M.A., 1974, Central Missouri; Ph.D., 1985, Wisconsin.

JONES, BRENDA JOYCE, Associate Professor of Art and Design. B.F.A., 1982, M.F.A., 1986, Drake.

JONES, CHARLES W., Emeritus Professor of Educational Leadership and Policy Studies. B.S., 1950, M.S., 1957, Ph.D., 1972, Iowa State.

JONES, CHRISTOPHER, Assistant Professor of Geological and Atmospheric Sciences (Collaborator). B.A., 1983, Simpson College; Ph.D., 1989, Montana State.

JONES, DOUGLAS E., Associate Professor of Veterinary Pathology. B.S., 1980, M.S., 1985, Connecticut; M.D.Vet., 1989, Ph.D., 1993, Pennsylvania.

JONES, EDWIN C. JR., Emeritus Professor of Electrical and Computer Engineering; University Professor. B.S.E.E., 1955, West Virginia; D.I.C., 1956, Imperial College; Ph.D., 1962, Illinois.

JONES, LADON CARLOS, Senior Lecturer in Civil, Construction and Environmental Engineering. B.S., 1981, California State (Humboldt); M.S., 1984, Ph.D., 1986, California (Los Angeles).

JONES, PHILLIP HARRISON, Assistant Professor of Electrical and Computer Engineering. B.S., 1999, M.S., 2002, Illinois; Ph.D., 2008, Washington (St. Louis).

JONES-JOHNSON, GLORIA, Professor of Sociology. B.A., 1978, Talladega; M.A., 1980, Bowling Green; Ph.D., 1986, Michigan.

JUDGE, JAMES FRANCIS, Lecturer in English. B.S., 1980, M.A., 1987, Iowa State.

JULIEN, MARIA, Lecturer in Architecture. B.A., 1990, York (Canada); M.Arch., 1996, Houston.

JULIUS, MARVIN G., Emeritus Professor of Economics. B.S., 1948, Ph.D., 1968, Iowa State.

JUNG, STEPHANIE, Assistant Professor of Food Science and Human Nutrition. B.S., 1995, Metz (France); M.S., 1996, National Polytechnique De Lorraine; Ph.D., 2000, Nantes (France).

JUNGST, STEVEN E., Professor of Natural Resource Ecology and Management. B.S., 1969, M.S., 1976, Ph.D., 1978, Iowa State.

JUNKHAN, GEORGE H., Emeritus Professor of Mechanical Engineering. B.S., 1955, M.S., 1959, Ph.D., 1964, Iowa State.

JURENKA, RUSSELL A., Professor of Entomology. B.S., 1979, M.S., 1982, Montana State; Ph.D., 1987, Nevada (Reno).

JURGENS, MARSHALL H., Emeritus Professor of Animal Science. B.S., 1964, M.S., 1966, Ph.D., 1969, Nebraska.

JURIK, THOMAS WAYNE, Associate Professor of Ecology, Evolution and Organismal Biology. B.A., 1974, Texas; Ph.D., 1980, Cornell.

KADOLPH, SARA JEAN, Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1972, Iowa State; M.S., 1973, Kansas State; Ph.D., 1979, Minnesota.

KAEBERLE, MERLIN L., Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. A.B., 1950, South Dakota; B.S., 1952, D.V.M., 1954, Colorado State; M.S., 1961, Ph.D., 1962, Illinois.

KAISER, MARK STEVEN, Professor of Statistics. B.S., 1979, M.S., 1982, M.A., 1984, Ph.D., 1990, Missouri.

KALAHER, NATHANIEL S., Lecturer in Architecture. B.Arch., 2002, B.S., 2002, Iowa State; M.Arch., 2006, Cornell.

KALEITA-FORBES, AMY LEIGH, Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1997, Pennsylvania State; M.S., 1999, Ph.D., 2003, Illinois.

KAMAL, AHMED EL-SAYED, Professor of Electrical and Computer Engineering. B.Sc., 1978, M.Sc., 1980, Cairo (Egypt); M.A.Sc., 1982, Ph.D., 1986, Toronto (Canada).

KAMINSKI, ADAM, Assistant Professor of Physics and Astronomy. M.Sc., 1991, Skldorsya (Poland); Ph.D., 2001, Illinois (Chicago).

KAMP, KORRIE R., Adjunct Instructor in Naval Science. B.S., 2004, Rochester Institute of Technology.

KANDIL, AMR, Assistant Professor of Civil, Construction and Environmental Engineering. B.Sc., 1999, M.Sc., 2001, American (Egypt); Ph.D., 2005, Illinois.

KANE, KEVIN L., Adjunct Assistant Professor of Landscape Architecture. B.A., 1982, B.S., 1982, M.L.A., 1986, Ph.D., 2007, Iowa State.

KANG, SUNGHYUN RYOO, Associate Professor of Art and Design. B.F.A., 1980, Ewha Womans; M.F.A., 1986, Houston; M.A., 1999, Iowa State.

KANGAS, TRACY A., Associate Professor of Biomedical Sciences (Collaborator). B.S., 1983, Wisconsin (Eau Claire); Ph.D., 1989, M.D., 1990, Medical College of Wisconsin.

KANNEL, EDWARD J., Professor of Civil, Construction and Environmental Engineering. B.S., 1966, M.S., 1967, Wisconsin; Ph.D., 1972, Purdue.

KANTHASAMY, ANUMANTHA G., Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. B.S., 1981, M.S., 1984, M.Phil., 1985, Ph.D., 1989, Madras (India).

KANTHASAMY, ARTHI, Assistant Professor of Biomedical Sciences. B.S., 1990, Psg; Ph.D., 2001, Purdue.

KANWAR, RAMESHWAR S., Professor of Agricultural and Biosystems Engineering and Chair of the Department. B.S., 1969, Pau Ludhiana; M.S., 1975, Pantnagar; Ph.D., 1981, Iowa State.

KAO, DAVID T., Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1959, National Cheng-Kung; M.S., 1965, Ph.D., 1967, Duke.

KAPLAN, MURRAY LEE, Emeritus Professor of Food Science and Human Nutrition. B.A., 1962, Alfred; Ph.D., 1972, City University of New York.

KAPPMEYER, LORI OSMUS, Associate Professor, Library. B.A., 1977, St. Francis; M.S., 1978, Illinois; M.A., 2000, Iowa State.

KARAS, GEORGE G., Emeritus Professor of Psychology; Associate . B.A., 1956, Depauw; M.S., 1958, Ph.D., 1959, Purdue.

KARLEN, DOUGLAS LAWRENCE, Professor of Agronomy (Collaborator). B.S., 1973, Wisconsin; M.S., 1975, Michigan State; Ph.D., 1978, Kansas State.

KARPOVA, ELENA EGOROVNA, Assistant Professor of Apparel, Educational Studies and Hospitality Management. M.S., 1991, Dmsk State Technological Institute; Ph.D., 1995, St. Petersburg State (Russia).

KARRIKER, LOCKE, Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1995, North Carolina; D.V.M., 1999, M.S., 2000, Mississippi State.

KASPAR, THOMAS C., Professor of Agronomy (Collaborator). B.S., 1976, M.S., 1979, Ph.D., 1982, Iowa State.

KATO, CHIAKI, Professor of Geological and Atmospheric Sciences (Collaborator). Ph.D., 1984, Tokyo.

KATZ, APRIL, Associate Professor of Art and Design. B.S., 1977, New York (Buffalo); M.F.A., 1988, Arizona State.

KAUFFMAN, LINDA K., Clinician in Veterinary Clinical Sciences. B.S., 1998, Wilson College; D.V.M., 2003, Iowa State.

KAUFMANN, PAUL J., Emeritus Assistant Professor of English. B.S., 1964, Nebraska (Omaha); M.A., 1967, Cincinnati; Ph.D., 1975, Iowa State.

KAUTZ, STEVEN M., Lecturer in Computer Science. B.A., 1985, California State (Sacramento); M.S., 1990, Ph.D., 1991, Cornell.

KAVANAGH, PATRICK, Emeritus Professor of Mechanical Engineering. B.S., 1952, M.S., 1960, Ph.D., 1964, Iowa State.

KAWALER, STEVEN D., Professor of Physics and Astronomy. B.A., 1980, Cornell; Ph.D., 1986, Texas.

KEENEY, DENNIS R., Emeritus Professor of Agronomy; Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1959, Iowa State; M.S., 1961, Wisconsin; Ph.D., 1965, Iowa State.

KEHRLI, MARCUS E. JR., Professor of Animal Science (Collaborator); Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1978, D.V.M., 1982, Ph.D., 1989, Iowa State.

KEINERT, FRITZ, Associate Professor of Mathematics. B.S., 1978, Stuttgart; M.S., 1981, Ph.D., 1985, Oregon State.

KEINO, LEAH CHEPNG'ENO, Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.Ed., 1985, Nairobi (Kenya); M.Ed., 1993, British Columbia (Canada); Ph.D., 1998, M.Ed., 2000, Iowa State.

KEITH, PATRICIA M., Professor of Sociology. B.S., 1960, Southwest Missouri; M.S., 1960, Missouri; Ph.D., 1969, St. Louis.

KELKAR, ATUL G., Professor of Mechanical Engineering; Professor of Aerospace Engineering. B.E., 1984, Poona (India); M.S., 1990, Ph.D., 1993, Old Dominion.

KELLER, CLAIR, Emeritus Professor of History; Emeritus Professor of Curriculum and Instruction. A.B., 1957, M.A., 1962, Ph.D., 1967, Washington.

KELLER, J. TIMOTHY, Professor of Landscape Architecture. B.A., 1972, M.L.A., 1975, Virginia.

KELLEY, DENNIS, Assistant Professor of Philosophy and Religious Studies. B.A., 1996, Fresno State; M.A., 2002, Ph.D., 2007, California (Santa Barbara).

KELLEY, KATE STOCKTON, Lecturer in English. B.A., 2002, California (Santa Barbara); M.Phil., 2003, Stirling (UK); M.A., 2006, Missouri.

KELLY, CLINT DALE, Assistant Professor of Ecology, Evolution and Organismal Biology. B.Sc., 1995, Waterloo (Canada); M.Sc., 1999, Mount Allison; Ph.D., 2005, Toronto (Canada).

KELLY, WILLIAM HAROLD, Emeritus Professor of Physics and Astronomy. B.S.E., 1950, M.S., 1951, Ph.D., 1955, Michigan.

KENEALY, MICHAEL D., Professor of Animal Science; University Professor. B.S., 1969, Ph.D., 1974, Iowa State.

KENNEDY, WILLIAM J. JR., Emeritus Professor of Statistics. B.S., 1959, M.S., 1960, Oklahoma State; Ph.D., 1969, Iowa State.

KEREN, NIR, Assistant Professor of Agricultural and Biosystems Engineering. B.Sc., 1990, M.Sc., 1998, Ben Gurion (Israel); Ph.D., 2003, Texas A&M.

KERR, BRIAN, Associate Professor of Animal Science (Collaborator). B.S., 1981, M.S., 1982, Ph.D., 1988, Illinois.

KERSH, KEVIN D., Assistant Professor of Veterinary Clinical Sciences. B.S., 1997, Northeastern State; D.V.M., 2001, Oklahoma State.

KERSTING, KARL W., Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1974, New Mexico State; D.V.M., 1978, Purdue; M.S., 1985, Ohio State.

KERTON, CHARLES R., Assistant Professor of Physics and Astronomy. B.Sc., 1992, Dalhousie (Canada); M.Sc., 1993, Toronto (Canada); M.S., 1996, Hawaii; Ph.D., 2000, Toronto (Canada).

KESL, LYLE D., Assistant Professor of Biomedical Sciences (Collaborator). B.S., 1978, M.S., 1984, Ph.D., 1993, D.V.M., 1998, Iowa State.

KESSLER, MICHAEL RICHARD, Assistant Professor of Materials Science and Engineering. B.S., 1996, Letourneau; M.S., 1998, Ph.D., 2002, Illinois.

KHANAL, SAMIR KUMAR, Assistant Professor of Civil, Construction and Environmental Engineering (Collaborator). B.Eng., 1993, Malayiya National Institute; MENG, 1997, Asian Institute of Technology; Ph.D., 2002, Hongkong.

KIBBEL, BRYCE W., Lecturer in Biomedical Sciences. D.V.M., 1999, Iowa State.

KIENZLER, DONNA STINE, Professor of English; A.B., 1968, Gettysburg; A.M., 1970, Ph.D., 1975, Illinois.

KIHL, YOUNG WHAN, Emeritus Professor of Political Science. B.A., 1959, Grinnell; M.A., 1960, Ph.D., 1963, New York University.

KILLORN, RANDY JAY, Professor of Agronomy. B.S., 1971, M.S., 1979, Montana State; Ph.D., 1983, Idaho.

KILMER, LEE HARRY, Professor of Animal Science. B.S., 1971, Cornell; M.S., 1978, Ph.D., 1980, Pennsylvania State.

KIM, GAP-YONG, Assistant Professor of Mechanical Engineering. B.S., 1997, Yonsei (South Korea); M.S.E., 2003, Ph.D., 2005, Michigan.

KIM, JAE-KWANG, Associate Professor of Statistics. B.S., 1991, M.S., 1993, Seoul National (Korea); Ph.D., 2000, Iowa State.

KIM, JAEYOUN, Assistant Professor of Electrical and Computer Engineering. B.S., 1992, Kwangwoon (Korea); M.S., 1994, Arizona; Ph.D., 2003, Michigan.

KIM, SANG W., Associate Professor of Electrical and Computer Engineering. B.S., 1981, Yonsei (Seoul); M.S., 1983, Korea Advanced Institute of Science; Ph.D., 1987, Michigan.

KIM, STEPHEN, Associate Professor of Marketing. B.A., 1984, M.B.A., 1986, Korea; Ph.D., 1993, Southern California.

KIM, TAE HYUN, Assistant Professor of Agricultural and Biosystems Engineering; Assistant Professor of Natural Resource Ecology and Management. B.S., 1994, Han Yang- Seoul, Korea; Ph.D., 2004, Auburn.

KIM, WON-IL, Clinician in Veterinary Diagnostic and Production Animal Medicine. B.S., 1999, M.S., 2001, Kyoungpook National (Korea); Ph.D., 2007, Iowa State.

KIMBER, MICHAEL JOHN, Assistant Professor of Biomedical Sciences. B.Sc., 1998, Ph.D., 2001, Queens (Belfast).

KIMPSTON, BRUCE A., Lecturer in Educational Leadership and Policy Studies. B.A., 1986, Iowa Wesleyan; M.S., 1991, Iowa State; M.S.E., 1995, Ed.D., 2001, Drake.

KING, ALEXANDER, Professor of Materials Science and Engineering. BMET, 1975, Sheffield (England); Ph.D., 1979, Oxford.

KING, CHRISTINE E., Associate Professor, Library. B.A., 1976, Sheffield (UK); M.S.L.S., 1983, Long Island.

KING, DOUGLAS S., Professor of Kinesiology; Professor of Biomedical Sciences. B.A., 1980, California (Berkeley); M.A., 1981, Wake Forest; Ph.D., 1984, Ball State.

KING, ROBERT RANDY, Senior Clinician in Veterinary Clinical Sciences. B.S., 1974, Nevada (Reno); Ph.D., 1980, D.V.M., 1980, Washington State.

KINGSTON, JESUDOSS, Lecturer in Chemistry. Ph.D., 2000, Indian Institute of Technology.

KINLEY, JOHN FRANCIS, Lecturer in Curriculum and Instruction. B.S., 1975, M.S., 1984, Iowa State.

KINYON, JOANN H., Adjunct Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1971, M.S., 1974, Iowa State.

KIRSCHENMANN, FREDERICK L., Professor of Philosophy and Religious Studies. B.A., 1957, Yankton College; M.A., 1962, Ph.D., 1964, Chicago.

KISER, JAMES JOY, Emeritus Professor of Animal Science. B.S., 1942, Iowa State; M.S., 1951, South Dakota State.

KITZMAN, MARION JOHN, Emeritus Professor of Architecture. B.F.A., 1950, Drake; M.A., 1957, San Francisco State.

KIZER, GEORGE A., Emeritus Professor of Educational Leadership and Policy Studies. B.F.A., 1942, Oklahoma State; M.M.E., 1951, Michigan; Ph.D., 1965, Oklahoma.

KLAAS, ERWIN E., Emeritus Professor of Natural Resource Ecology and Management. B.S., 1956, Missouri; M.A., 1963, Ph.D., 1970, Kansas.

KLAIBER, FRED WAYNE, Professor of Civil, Construction and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1962, M.S., 1964, Ph.D., 1968, Purdue.

KLIEBENSTEIN, JAMES, Professor of Economics. B.S., 1969, Wisconsin; M.S., 1970, Ph.D., 1972, Illinois.

KLIEMANN, WOLFGANG H., Professor of Mathematics and Chair of the Department. Dr.rer.nat, 1980, Bremen.

KLING, CATHERINE L., Professor of Economics. B.B.A., 1981, Iowa; Ph.D., 1986, Maryland.

KLONGLAN, GERALD E., Emeritus Professor of Sociology. B.S., 1958, M.S., 1962, Ph.D., 1963, Iowa State.

KLUCINEC, JEFFERY, Assistant Professor of Food Science and Human Nutrition (Collaborator). B.S., 1995, M.S., 1997, Ph.D., 2000, Pennsylvania State.

KLUGE, JOHN PAUL, Emeritus Professor of Veterinary Pathology; University Professor. B.S., 1962, D.V.M., 1962, Missouri; M.S., 1965, Iowa State; Ph.D., 1968, George Washington.

KNAPP, ALLEN DALE, Associate Professor of Agronomy. B.S., 1974, M.S., 1976, Montana State; Ph.D., 1981, Washington State.

KNOX, JERRY, Emeritus Associate Professor of Community and Regional Planning. B.A., 1962, Iowa; M.U.P., 1968, Michigan State.

KOCH, STEVEN, Professor of Geological and Atmospheric Sciences (Collaborator). B.S., 1972, M.S., 1974, Wisconsin; Ph.D., 1979, Oklahoma.

KOEHLER, KENNETH J., Professor of Statistics and Chair of the Department; University Professor. B.S., 1972, Wisconsin (Parkside); Ph.D., 1977, Minnesota.

KOFORD, ROLF R., Assistant Professor of Ecology, Evolution and Organismal Biology (Collaborator); Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1970, California (Davis); Ph.D., 1979, California (Berkeley).

KOGAN, VLADIMIR G., Adjunct Associate Professor of Physics and Astronomy. B.S., 1956, M.S., 1961, State Pedagogical Institute (Russia); Ph.D., 1977, Israel Institute of Technology.

KOHUT, MARIAN L., Associate Professor of Kinesiology. B.A., 1982, Chicago; M.S., 1986, Pennsylvania State; Ph.D., 1995, South Carolina.

KOLKA, RANDALL, Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1990, Wisconsin; M.S., 1993, Ph.D., 1996, Minnesota.

KOLMER, LEE ROY, Emeritus Professor of Economics. B.S., 1952, Southern Illinois; M.S., 1952, Ph.D., 1954, Iowa State.

KONAR, ARTHUR H., Senior Lecturer in Psychology. B.A., 1979, Oberlin College; M.A., 1980, Teachers College; Ph.D., 1985, Missouri.

KONG, SONG-CHARNG, Assistant Professor of Mechanical Engineering. B.S., 1987, National Tsing-Hua (Taiwan); M.S., 1992, Ph.D., 1994, Wisconsin.

KOPPLIN, JULIUS O., Emeritus Professor of Electrical and Computer Engineering. B.S., 1949, Wisconsin; M.S., 1954, Ph.D., 1958, Purdue.

KORSCHING, PETER F., Professor of Sociology. B.A., 1970, Chadron; M.A., 1972, Ph.D., 1977, Kentucky.

KORTENKAMP, PETER, Lecturer in Music. B.M., 1996, Wisconsin; M.M., 1998, Akron; Ph.D., 2005, Iowa.

KOSHINO, AKIKO, Adjunct Instructor in Veterinary Clinical Sciences. B.V.Sc., 2005, Tokyo (Japan); D.V.M., 2008, Louisiana State.

KOSTELECKY, KYLE L., Lecturer in Human Development and Family Studies. B.A., 1991, Washington State; M.S., 1994, Ph.D., 1997, Iowa State.

KOSTELNICK, CHARLES J., Professor of English and Chair of the Department. B.Arch., 1973, M.A., 1975, Ph.D., 1981, Illinois.

KOTHARI, SURAJ C., Professor of Electrical and Computer Engineering; Professor of Computer Science. B.S., 1970, Poona; Ph.D., 1977, Purdue.

KOTTMAN, NELLE HUTTER, Adjunct Instructor in World Languages and Cultures. B.A., 1961, Southwestern (Tennessee); M.A., 1985, Middlebury.

KOTTMAN, RICHARD N., Emeritus Professor of History. B.A., 1953, M.A., 1954, Iowa; Ph.D., 1958, Vanderbilt.

KOVAR, JOHN L., Associate Professor of Agronomy (Collaborator). B.S., 1981, Illinois; M.S., 1985, Ph.D., 1989, Purdue.

KOZIEL, JACEK ADAM, Associate Professor of Agricultural and Biosystems Engineering; Associate Professor of Civil, Construction and Environmental Engineering. M.S., 1989, Warsaw Technological (Poland); M.S., 1993, Alaska; Ph.D., 1998, Texas.

KRAFSUR, ELLIOT S., Emeritus Professor of Entomology. B.S., 1962, M.S., 1964, Maryland; Ph.D., 1972, London.

KRAFT, ALLEN ABRAHAM, Emeritus Professor of Food Science and Human Nutrition. B.S., 1947, M.S., 1949, Cornell; Ph.D., 1953, Iowa State.

KRAMER, JOHN A. D., Lecturer in Apparel, Educational Studies and Hospitality Management. B.S., 1992, M.S., 1997, Iowa State.

KRAMER, MATTHEW J., Adjunct Associate Professor of Materials Science and Engineering. B.S., 1979, M.S., 1982, Rochester; Ph.D., 1988, Iowa State.

KRAMER, RICHARD L., Lecturer in Mathematics. M.A., 1988, Ph.D., 1990, Johns Hopkins.

KRAMER, THEODORE T., Emeritus Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1952, Ecole Veterinaire; Ph.D., 1965, Colorado State.

KRAUS, BONNIE HAY, Clinician in Veterinary Clinical Sciences. B.S., 1985, Rutgers; D.V.M., 1989, Missouri.

KRAUS, GEORGE A., Professor of Chemistry; University Professor. B.S., 1972, Rochester; Ph.D., 1976, Columbia.

KRAUS, KARL, Professor of Veterinary Clinical Sciences. B.S., 1981, D.V.M., 1985, Kansas State; M.S., 1989, Missouri.

KREBS, ALEXANDER INGAR, Adjunct Instructor in Veterinary Clinical Sciences. D.V.M., 2004, Colorado State.

KREBS, STEPHEN, Associate Professor of Horticulture (Collaborator). B.A., 1974, Chicago; M.S., 1985, California (Davis); Ph.D., 1989, Michigan State.

KREIDER, BRENT E., Associate Professor of Economics. B.A., 1988, Hope College; M.S., 1993, Ph.D., 1994, Wisconsin.

KRENNRICH, FRANK, Professor of Physics and Astronomy. B.A., 1986, Friedrich-Alexander (Bavaria); M.A., 1991, Ph.D., 1996, Ludwig-Maximilians (Bavaria).

KREYSSIG, ANDREAS, Adjunct Assistant Professor of Physics and Astronomy. Ph.D., 2001, Technische Univeitaet Dresden (Germany).

KRIER, DANIEL A., Assistant Professor of Sociology. B.S.B.A., 1987, South Dakota; M.A., 1992, Nebraska; Ph.D., 2001, Kansas.

KRIZAN, ZLATAN, Assistant Professor of Psychology. B.A., 2001, Winona State; Ph.D., 2007, Iowa.

KROGH, JACQUELINE S., Senior Lecturer in Human Development and Family Studies. B.S., 1978, Iowa State; M.ED, 1979, Missouri (Columbia).

KRUMHARDT, BARBARA A., Lecturer in Genetics, Development and Cell Biology. B.S., 1974, Iowa State; M.T., 1979, Mercy Medical Center; Ph.D., 1989, Iowa State.

KUHLMAN, JULIE A., Assistant Professor of Genetics, Development and Cell Biology. B.SC., 1989, Illinois; Ph.D., 1999, Cornell.

KUHN, WARREN BOEHM, Emeritus Professor, Library. B.A., 1948, New York University; M.L.S., 1950, Columbia.

KUMAR, RATNESH, Professor of Electrical and Computer Engineering. B.Tech., 1987, Indian Institute of Technology (India); M.S., 1989, Ph.D., 1991, Texas (Austin).

KUNDEL, CAROLYN J., Emeritus Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1956, Iowa State; M.S., 1961, Nebraska (Omaha); Ph.D., 1969, Iowa State.

KUNERTH, WILLIAM F., Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1950, Wyoming; M.S.J., 1952, Northwestern.

KUNESH, JERRY P., Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1961, M.S., 1966, Ph.D., 1969, Iowa State.

KUNZ, GRACE IRENE, Emeritus Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1962, M.S., 1970, Ph.D., 1985, Iowa State.

KUO, MONLIN, Associate Professor of Natural Resource Ecology and Management. B.S., 1965, Taiwan; M.S., 1971, Missouri; Ph.D., 1977, California (Berkeley).

KUPFER, FERN L., Associate Professor of English. B.S., 1968, New York (Cortland); M.S., 1975, Iowa State.

KUPFER, JOSEPH H., Professor of Philosophy and Religious Studies; University Professor. B.A., 1967, Queens; M.A., 1970, Ph.D., 1971, Rochester.

KURTENBACH, JAMES M., Associate Professor of Accounting. B.S., 1980, Iowa State; M.S., 1987, Tulsa; Ph.D., 1992, Missouri.

KURUPPU, PALI U., Assistant Professor, Library. B.Sc., 1976, Sri Lanka; M.Sc., 1989, Arizona; Ph.D., 1998, MLIS, 2003, Louisiana State.

KUSHKOWSKI, JEFFREY D., Associate Professor, Library. B.A., 1985, Houghton; M.L.S., 1990, M.P.A., 1990, Indiana.

KUSHNER, MARK J., Professor of Electrical and Computer Engineering; Professor of Chemical and Biological Engineering; B.A., 1976, B.S., 1976, California (Los Angeles); M.S., 1977, Ph.D., 1979, California Institute of Technology.

KWON, YOUNG H., Assistant Professor of Biomedical Sciences (Collaborator). B.S., 1984, Ph.D., 1991, Massachusetts Institute of Technology; M.D., 1991, Yale.

L'HEUREUX, DEBORAH, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 1985, Massachusetts; D.V.M., 2003, Louisiana State.

L'HOTE, LELAND JOHN, Assistant Professor of World Languages and Cultures. B.A., 1990, Washington; M.A., 1994, Ph.D., 1999, Kentucky.

LAANAN, FRANKIE SANTOS, Associate Professor of Educational Leadership and Policy Studies. B.A., 1993, M.A., 1994, Ph.D., 1998, California (Los Angeles).

LACASA, JUDITH N., Emeritus Professor of World Languages and Cultures. B.S., 1958, Ph.D., 1968, Louisiana State.

LACZNIAK, RUSSELL N., Professor of Marketing. B.S., 1978, Marquette; M.B.A., 1979, Wisconsin; Ph.D., 1987, Nebraska.

LADD, GEORGE WELLS, Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, South Dakota State; M.A., 1951, Michigan State; Ph.D., 1955, Illinois.

LAFLEN, JOHN M., Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1959, M.S., 1960, Missouri; Ph.D., 1972, Iowa State.

LAGER, KELLY M., Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1985, D.V.M., 1988, Missouri; Ph.D., 1998, Iowa State.

LAGOMARCINO, VIRGIL S., Emeritus Professor of Educational Leadership and Policy Studies; Emeritus Dean of the College of Human Sciences. B.A., 1943, Coe; M.S., 1948, Drake; Ph.D., 1955, Iowa State.

LAGRANGE, WILLIAM S., Emeritus Professor of Food Science and Human Nutrition. B.S., 1953, Ph.D., 1959, Iowa State.

LAIRD, DAVID ALAN, Professor of Agronomy (Collaborator). B.S., 1976, Kansas; M.S., 1982, Oregon State; Ph.D., 1987, Iowa State.

LAJOIE, JOHN G., Professor of Physics and Astronomy. B.S., 1989, Iowa State; M.S., 1990, M.Phil., 1991, Ph.D., 1996, Yale.

LAMB, RICHARD C., Emeritus Professor of Physics and Astronomy. B.S., 1955, Massachusetts Institute of Technology; M.S., 1960, Ph.D., 1963, Kentucky.

LAMKEY, KENDALL RAYE, Professor of Agronomy and Chair of the Department. B.S., 1980, M.S., 1982, Illinois; Ph.D., 1985, Iowa State.

LAMM, MONICA HITCHCOCK, Assistant Professor of Chemical and Biological Engineering. B.S., 1993, Syracuse; Ph.D., 2000, North Carolina State.

LAMONT, SUSAN J., Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1975, Trinity (Illinois); Ph.D., 1980, Illinois.

LAMOTTE, CLIFFORD E., Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1953, Texas A&M; Ph.D., 1960, Wisconsin.

LAMSAL, BUDDHI, Assistant Professor of Food Science and Human Nutrition. B.E., 1992, Tamilnadu (India); M.E., 1994, Asian Institute of Technology (Thailand); Ph.D., 2004, Wisconsin.

LAND, TONIA JO, Lecturer in Curriculum and Instruction. B.S., 1995, M.S., 2007, Iowa State.

LANE, KENNETH F., Emeritus Professor of Landscape Architecture. B.S.L.A., 1953, Michigan State; M.L.A., 1961, Harvard.

LANGENBERG, C., Lecturer in English. B.S., 1980, Nebraska; M.A., 1986, Minnesota.

LANNINGHAM-FOSTER, LORRAINE, Assistant Professor of Food Science and Human Nutrition. B.S., 1994, M.S., 1995, North Carolina (Greensboro); Ph.D., 1999, Florida.

LAPAN, HARVEY E., Professor of Economics; University Professor. B.S., 1969, M.S., 1969, Ph.D., 1971, Massachusetts Institute of Technology.

LARKIN, BARRY, Associate Professor of Music. B.Mus., 1981, Arizona State; M.A., 1986, Stephen F. Austin; D.M.A., 1990, Southern California.

LAROCK, RICHARD C., Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1967, California (Davis); Ph.D., 1972, Purdue.

LARSEN, MICHAEL D., Associate Professor of Statistics. A.B., 1991, M.A., 1993, Ph.D., 1996, Harvard.

LARSEN, WILLIAM L., Emeritus Professor of Materials Science and Engineering. B.M.E., 1948, Marquette; M.S., 1950, Ph.D., 1956, Ohio State.

LARSON, KENNETH L., Emeritus Professor of Agronomy. B.S., 1954, Iowa State; M.S., 1959, Ph.D., 1961, Wisconsin.

LARSON, LISA M., Professor of Psychology. B.E.S., 1981, M.S., 1984, Ph.D., 1986, Missouri.

LARSON, SIDNER, Associate Professor of English. B.S.Ed., 1972, Northern Montana; M.A., 1982, South Dakota State; J.D., 1985, Minnesota Law; Ph.D., 1994, Arizona.

LASLEY, ROBERT P., Professor of Sociology and Chair of the Department. B.S., 1974, M.A., 1976, Ph.D., 1981, Missouri.

LASSILA, KENNETH E., Emeritus Professor of Physics and Astronomy. B.S., 1956, Wyoming; M.S., 1959, Ph.D., 1962, Yale.

LATHROP, JAMES I., Senior Lecturer in Computer Science. B.S., 1983, California State (Longbeach); M.S., 1987, California (Irvine); M.S., 1994, Ph.D., 1996, Ph.D., 1997, Iowa State.

LAUTER, NICK, Assistant Professor of Plant Pathology (Collaborator). B.A., 1995, Grinnell College; Ph.D., 2001, Minnesota.

LAVROV, DENNIS, Assistant Professor of Ecology, Evolution and Organismal Biology. MMIN, 1995, Bethel College; Ph.D., 2001, Michigan.

LAWARE, MARGARET R., Associate Professor of English. B.A., 1985, New York (Stony Brook); M.A., 1988, Ph.D., 1993, Northwestern.

LAWRENCE, CAROLYN, Assistant Professor of Genetics, Development and Cell Biology (Collaborator). B.A., 1996, Hendrix College; M.S., 1997, Texas Tech; Ph.D., 2003, Georgia.

LAWRENCE, JOHN D., Professor of Economics. B.S., 1984, M.S., 1986, Iowa State; Ph.D., 1989, Missouri.

LAWRENCE, ROGER LEE, Emeritus Professor of Educational Leadership and Policy Studies; Emeritus Professor of Agricultural Education and Studies. B.S., 1943, Ohio State; M.A., 1949, George Washington; Ph.D., 1958, Iowa State.

LAWS, JANET, Lecturer in Curriculum and Instruction. B.A., 1981, Northern Iowa; M.Ed., 1992, Iowa State.

LAWSON, KAREN GRUBER, Associate Professor, Library; Associate Dean, Library. B.A., 1974, M.L.S., 1976, New York (Buffalo).

LAYTON, WILBUR L., Emeritus Professor of Psychology. B.S., 1943, Iowa State; M.A., 1947, Ph.D., 1950, Ohio State.

LEANDRO, LEONOR F. S., Assistant Professor of Plant Pathology. B.S., 1996, Universidade Tecnica De Lisboa; M.S., 1997, Nottingham (UK); Ph.D., 2002, Iowa State.

LEDET, ARLO ELMER, Emeritus Professor of Veterinary Pathology. D.V.M., 1962, M.S., 1966, Ph.D., 1970, Iowa State.

LEE, DAH-YINN, Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1958, Chen Kung; Ph.D., 1964, Iowa State.

LEE, GYUNGHO, Professor of Electrical and Computer Engineering (Collaborator). B.S., 1977, Sogang (Korea); M.S., 1979, Korean Institute of Science and Technology; Ph.D., 1986, Illinois.

LEE, MICHAEL, Professor of Agronomy; Professor of Genetics, Development and Cell Biology. B.S., 1981, Rutgers; M.S., 1984, Ph.D., 1986, Minnesota.

LEE, MICHELE, Lecturer in Apparel, Educational Studies and Hospitality Management. B.S., 1992, South Dakota State; M.S., 1995, Purdue.

LEE, MIMI HAEIM, Assistant Professor of Curriculum and Instruction. B.A., 1997, M.A., 2000, Seoul National (Korea); Ph.D., 2006, Michigan.

LEE, SUMAN, Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1993, Yonsei; M.A., 2001, San Diego State; Ph.D., 2004, Syracuse.

LEE, YONG S., Emeritus Professor of Political Science. B.A., 1966, Hankuk; M.A., 1971, California State (Sacramento); Ph.D., 1975, Colorado.

LEE, YOUNG-A, Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1997, Yeungname (South Korea); M.A., 2001, Ph.D., 2005, Michigan State.

LEE, YOUNG-JIN, Assistant Professor of Chemistry. B.S., 1991, M.S., 1993, Ph.D., 1997, Seoul National (Korea).

LEHNER, EDWARD JOSEPH, Emeritus Associate Professor of Art and Design. B.A., 1977, Mount Mercy; M.A., 1982, Iowa State.

LEIGH, PATRICIA, Associate Professor of Curriculum and Instruction. B.A., 1968, Ohio State; M.Ed., 1978, Arkansas; M.S., 1988, Oklahoma; Ph.D., 1997, Iowa State.

LEMPERS, JACOBUS D. L., Professor of Human Development and Family Studies. B.S., 1971, Nymegen; Ph.D., 1976, Minnesota.

LENCE, SERGIO H., Professor of Economics. B.S., 1984, B.S., 1985, Buenos Aires; M.S., 1988, Ph.D., 1991, Iowa State.

LEONARD, KATHY S., Professor of World Languages and Cultures. B.A., 1975, California (Riverside); M.A., 1979, Santa Clara; B.A., 1983, Nevada (Las Vegas); Ph.D., 1991, California (Davis).

LERSTEN, NELS R., Emeritus Professor of Ecology, Evolution and Organismal Biology. B.S., 1958, M.S., 1960, Chicago; Ph.D., 1963, California (Berkeley).

LESAR, RICHARD ALAN, Professor of Materials Science and Engineering and Chair of the Department. B.S., 1975, Michigan; Ph.D., 1981, Harvard.

LESAR, SUZANNE K. O., Adjunct Assistant Professor, Library. B.A., 1976, Michigan; M.S., 1981, Simmons College.

LESLIE, THOMAS W., Associate Professor of Architecture. B.S., 1989, Illinois; M.Arch., 1992, Columbia.

LEUSCHEN, BRUCE, Clinician in Veterinary Diagnostic and Production Animal Medicine; Clinician in Animal Science. D.V.M., 1983, Iowa State.

LEVIN, EVGENII M., Lecturer in Physics and Astronomy. B.S., 1972, Lviv Technical (Ukraine); Ph.D., 1980, Lviv State (Ukraine); Sc.D., 1990, Institute of Materials Science (Ukraine).

LEVINE, HOWARD A., Professor of Mathematics; Distinguished Professor in Liberal Arts and Sciences. B.A., 1964, Minnesota; M.A., 1967, Ph.D., 1969, Cornell.

LEVIS, GRETA M., Senior Lecturer in English. B.M., 1980, Wyoming; M.M., 1983, Temple; M.A., 1990, Illinois.

LEVIS, JOHN MICHAEL, Associate Professor of English. B.S., 1978, California Polytechnic; B.A., 1986, Wyoming; M.A., 1989, Ph.D., 1996, Illinois.

LEVITAS, VALERY, Professor of Mechanical Engineering; Professor of Aerospace Engineering; Professor of Materials Science and Engineering. M.S., 1978, Kiev Polytechnic Institute (USSR); Ph.D., 1981, Institute For Superhard Materials (USSR); Sc.D., 1988, Institute For Electronic Machinebuilding; Eng.D., 1995, Hannover (Germany).

LEWIN, HEATHER S., Assistant Professor, Library. B.A., 2001, Spring Arbor; MLIS, 2005, Southern Mississippi.

LEWIS, CALVIN F., Professor of Architecture and Chair of the Department. B.Arch., 1969, Iowa State.

LEWIS, DONALD R., Professor of Entomology. A.B., 1971, Wilmington; M.S., 1973, Ph.D., 1977, Ohio State.

LEWIS, EDWIN C., Emeritus Professor of Psychology. B.A., 1954, Wittenberg; M.A., 1955, Ph.D., 1957, Ohio State.

LEWIS, LESLIE C., Professor of Entomology and Chair of the Department. B.S., 1961, M.S., 1963, Vermont; Ph.D., 1970, Iowa State.

LEWIS, ROBERT EARL, Emeritus Professor of Entomology. A.B., 1952, Earlham; M.S., 1956, Ph.D., 1959, Illinois.

LEYSEN, JOAN MARIE, Associate Professor, Library. B.S., 1970, M.S.L.S., 1972, Wayne State.

LICKLIDER, BARBARA L., Professor of Educational Leadership and Policy Studies; University Professor. B.S., 1974, M.S., 1981, Ph.D., 1986, Iowa State.

LIEBERMAN, GARY M., Professor of Mathematics. B.A., 1974, M.S., 1974, Northwestern; Ph.D., 1979, Stanford.

LIEBICH, MARY E. FRY, Senior Lecturer in English. B.A., 1964, Simpson; M.A., 1966, Iowa; Ph.D., 1986, Southern California.

LIEBMAN, MATTHEW Z., Professor of Agronomy. B.A., 1978, Harvard; Ph.D., 1986, California (Berkeley).

LILLIGREN, INGRID M., Professor of Art and Design. B.F.A., 1980, Wisconsin (River Falls); M.F.A., 1986, Claremont.

LIN, RUTH, Lecturer in Music. B.A., 2002, M.A., 2005, Northwestern.

LIN, SHANG-YI, Professor of Chemistry; Professor of Biomedical Sciences. B.S., 1989, National Chung-Hsing (Taiwan); Ph.D., 1996, Pennsylvania.

LIN, ZHIQUN, Assistant Professor of Materials Science and Engineering. B.S., 1995, Xiamen (China); M.S., 1998, Fudan (China); Ph.D., 2003, Massachusetts.

LIND, LINDA SUE, Lecturer in Curriculum and Instruction. B.S., 1975, M.S., 2000, Ph.D., 2004, Iowa State.

LINDUSKA, STEVEN ALAN, Lecturer in Curriculum and Instruction. B.A., 1974, M.A., 1998, Iowa State.

LINK, CHARLES J. JR., Professor of Genetics, Development and Cell Biology (Collaborator). A.B., 1982, M.D., 1985, Stanford.

LIPPOLIS, JOHN, Assistant Professor of Animal Science (Collaborator). B.S., 1988, Brigham Young; Ph.D., 1994, Pennsylvania State.

LIPSEY, HOLLY J., Senior Lecturer in Kinesiology. B.A., 1993, Southwest State (Minnesota); M.S., 1995, South Dakota State.

LITCHFIELD, RUTH E., Assistant Professor of Food Science and Human Nutrition. B.A., 1984, Northern Iowa; M.S., 1986, Kansas State; Ph.D., 2000, Iowa State.

LIU, CHEN-CHING, Professor of Electrical and Computer Engineering. B.S.E.E., 1976, M.S.E.E., 1978, National Taiwan; Ph.D., 1983, California (Berkeley).

LIU, HAILIANG, Professor of Mathematics. B.Sc., 1984, Henan Normal (China); M.S., 1988, Tshinghua (China); Ph.D., 1995, Academia Sinira (Beijing).

LIU, PENG, Assistant Professor of Statistics. B.M.Ed., 1998, Beijing (China); M.S., 2001, Ph.D., 2006, Cornell.

LIU, XIAOYUAN, Professor of History. M.A., 1984, Ph.D., 1990, Iowa.

LOGSDON, SALLY D., Professor of Agronomy (Collaborator). B.A., 1979, Ohio; M.S., 1981, Michigan State; Ph.D., 1985, Virginia Polytechnic Institute.

LOHMAN, BRENDA J., Assistant Professor of Human Development and Family Studies. B.A., 1994, Augustana College; M.S., 1996, Illinois State; Ph.D., 2000, Ohio State.

LOHNES, ROBERT, Emeritus Professor of Civil, Construction and Environmental Engineering; University Professor. B.S., 1959, Ohio State; M.S., 1961, Ph.D., 1964, Iowa State.

LONERGAN, ELISABETH J., Professor of Animal Science. B.S., 1988, Missouri; M.S., 1991, Ph.D., 1995, Iowa State.

LONERGAN, STEVEN M., Professor of Animal Science. B.S., 1988, M.S., 1991, Iowa State; Ph.D., 1995, Nebraska.

LONG, LING, Assistant Professor of Mathematics. B.S., 1997, Tsinghua; Ph.D., 2002, Pennsylvania State.

LOONEY, MARK, Lecturer in World Languages and Cultures. B.A., 2000, Middle Tennessee State; M.A., 2004, Vanderbilt.

LOPES, JOHN A., Assistant Professor of Food Science and Human Nutrition (Collaborator). B.S., 1960, M.S., 1963, Bombay (India); Ph.D., 1969, Waterloo (Canada).

LORD, WILLIAM, Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.Sc., 1961, Ph.D., 1964, Nottingham.

LORENZ, FREDERICK O., Professor of Statistics; Professor of Psychology; Professor of Sociology; University Professor. B.S., 1970, Mankato; M.S., 1972, South Dakota State; Ph.D., 1980, Iowa State.

LORIMOR, JEFFERY C., Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S., 1967, Iowa State; M.S., 1970, Nebraska; Ph.D., 1996, Iowa State.

LOVE, MARK HOWARD, Associate Professor of Food Science and Human Nutrition. B.S., 1967, Ohio State; M.S., 1969, Ph.D., 1975, Michigan State.

LOVE, ROBERT D., Emeritus Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1948, M.S., 1965, Iowa State.

LOVELAND, STEPHANIE D., Senior Lecturer in Chemical and Biological Engineering. B.S., 1998, M.S., 2002, Ph.D., 2008, Iowa State.

LOVELY, WALTER G., Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1949, Maine.

LOWERY, JENNIFER, Senior Lecturer in English. B.S., 1974, Tennessee (Martin); M.A., 1981, South Carolina.

LOWITT, RICHARD, Emeritus Professor of History. B.S.S., 1943, City University of New York; M.A., 1945, Ph.D., 1950, Columbia.

LOY, DANIEL DWIGHT, Professor of Animal Science. B.S., 1978, Western Illinois; Ph.D., 1982, Pennsylvania State.

LOYNACHAN, ALAN THOMAS, Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2001, D.V.M., 2003, Ph.D., 2005, Iowa State.

LU, PING, Professor of Aerospace Engineering. B.E., 1982, Beijing; M.S.E., 1984, Ph.D., 1988, Michigan.

LUBAN, MARSHALL, Professor of Physics and Astronomy. B.A., 1957, Yeshiva; M.Sc., 1958, Ph.D., 1962, Chicago.

LUBBERSTEDT, THOMAS, Associate Professor of Agronomy. Ph.D., 1993, Munich (Germany).

LUCKETT, DUDLEY G., Emeritus Professor of Economics; Distinguished Professor in Liberal Arts and Sciences. A.B., 1952, M.A., 1954, Missouri; Ph.D., 1958, Texas.

LUECKE, GLENN R., Professor of Mathematics; Professor of Electrical and Computer Engineering. B.S., 1966, Michigan State; Ph.D., 1970, California Institute of Technology.

LUECKE, GREG R., Associate Professor of Mechanical Engineering. B.S., 1979, Missouri; M.S., 1987, Yale; Ph.D., 1992, Pennsylvania State.

LUETH, PATIENCE LAMUNU, Lecturer in Architecture. B.Arch., 2001, M.S., 2003, Ph.D., 2008, Iowa State.

LUTZ, JACK HAROLD, Professor of Computer Science; Professor of Mathematics. B.G.S., 1976, M.A., 1979, M.S., 1981, Kansas; Ph.D., 1987, California Institute of Technology.

LUTZ, ROBYN R., Professor of Computer Science. B.A., 1974, M.A., 1976, Ph.D., 1980, Kansas; M.S., 1990, Iowa State.

LUVAGA, EBBY S., Senior Lecturer in Economics. B.A., 1988, Berea College; M.A., 1990, Ph.D., 1996, Ohio.

LUZE, GAYLE JOANNE, Associate Professor of Human Development and Family Studies. B.S., 1982, Iowa State; M.A., 1984, Michigan State; Ph.D., 1997, Iowa State.

LYNCH, DAVID, Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1954, Rensselaer; M.S., 1955, Ph.D., 1958, Illinois.

MA, YAO, Assistant Professor of Electrical and Computer Engineering. B.S., 1993, Anhui (China); M.S., 1996, Science and Technology (China); Ph.D., 2000, National (Singapore).

MABRY, JOHN W., Professor of Animal Science. B.S., 1972, Oklahoma State; M.S., 1974, Ph.D., 1977, Iowa State.

MACDONALD, MAURICE M., Professor of Human Development and Family Studies; Professor of Economics. B.A., 1969, California (Santa Cruz); M.S., 1971, Ph.D., 1974, Michigan.

MACDONALD, RUTH SEAMAN, Professor of Food Science and Human Nutrition and Chair of the Department. B.S., 1979, Western Maryland College; M.S., 1981, Ph.D., 1985, Minnesota.

MACINTOSH, GUSTAVO, Assistant Professor of Biochemistry, Biophysics and Molecular Biology. Ph.D., 1997, Buenos Aires (Argentina).

MACK, BARBARA M., Associate Professor of Greenlee School of Journalism and Communication. B.S., 1974, Iowa State; J.D., 1977, Drake.

MADDEN, BEVERLY S., Emeritus Associate Professor of Food Science and Human Nutrition. B.S., 1960, M.S., 1970, Iowa State.

MADDUX, ROGER D., Professor of Mathematics; Professor of Computer Science. B.A., 1969, Pomona; Ph.D., 1978, California (Berkeley).

MADISON, KENNETH G., Emeritus Assistant Professor of History. A.B., 1962, A.M., 1963, Ph.D., 1968, Illinois.

MADISON, OLIVIA MARIE, Professor, Library; Dean of the Library. B.S., 1972, Iowa State; M.A., 1975, Missouri.

MADON, STEPHANIE, Associate Professor of Psychology. B.A., 1987, Rutgers; M.Ed., 1990, Utah; Ph.D., 1998, Rutgers.

MADRON, MATTHEW, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 1998, Oklahoma State; M.S., 2001, Cornell; D.V.M., 2006, Oklahoma State.

MADSON, DARIN, Adjunct Instructor in Veterinary Diagnostic and Production Animal Medicine. B.S., 2002, D.V.M., 2004, Minnesota.

MAHAN, ROBERT E., Lecturer in Human Development and Family Studies. B.S., 1969, Iowa State; J.D., 1973, Iowa

MAHANNA, BILL, Associate Professor of Animal Science (Collaborator). B.S., , Cornell; Ph.D., , M.S., , Wisconsin.

MAHAYNI, RIAD G., Professor of Community and Regional Planning. B.S., 1966, Oregon State; M.U.P., 1969, Oregon; Ph.D., 1972, Washington.

MAHONEY, MARGARET ANN, Adjunct Instructor in English. B.A., 1973, Washburn; M.S., 1978, Emporia; Ph.D., 1981, Iowa State.

MAIN, RODGER G., Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1991, D.V.M., 1996, Iowa State; Ph.D., 2005, Kansas State.

MAITI, TAPABRATA, Associate Professor of Statistics. B.Sc., 1988, M.Sc., 1990, Ph.D., 1996, Kalyani (India).

MAITRA, RANJAN, Associate Professor of Statistics. B.S., 1990, M.S., 1992, Indian Statistical Institute; Ph.D., 1996, Washington.

MALDONADO-PABON, MARTA M., Assistant Professor of Sociology. B.A., 1992, Puerto Rico (Mayaguez); M.A., 1996, Ph.D., 2004, Washington State.

MALLAPRAGADA, S., Professor of Chemical and Biological Engineering; Professor of Materials Science and Engineering. B.Tech., 1993, Indian Institute of Technology; Ph.D., 1996, Purdue.

MALLARINO, ANTONIO P., Professor of Agronomy. B.S., 1968, Uruguay; M.S., 1981, Ph.D., 1988, Iowa State.

MALONE, ROB W., Assistant Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1986, West Virginia Wesleyan; M.S., 1992, Ph.D., 1996, Kentucky.

MALONE, WILLIAM A., Emeritus Associate Professor of Community and Regional Planning. B.S., 1947, M.S., 1950, Iowa State.

MALVEN, ELLEN MITCHELL, Lecturer in English. B.S., 2005, Iowa State; M.A., 2008, San Diego State.

MALVEN, FREDERIC C., Associate Professor of Art and Design. B.S., 1969, M.A., 1970, Missouri; Ph.D., 1981, Wisconsin.

MANATT, RICHARD P., Emeritus Professor of Educational Leadership and Policy Studies; University Professor. B.S., 1953, M.S., 1956, Iowa State; Ph.D., 1964, Iowa.

MANEY, ARDITH LOUISE, Emeritus Professor of Political Science; Emeritus Professor of Agricultural and Biosystems Engineering. B.A., 1966, Colby; Ph.D., 1975, Columbia.

MANGOLD, DUANE W., Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1958, M.S., 1960, Ph.D., 1965, Iowa State.

MANN, JULIAN ADIN III, Associate Professor of Mechanical Engineering. B.S., 1984, Iowa State; Ph.D., 1988, Pennsylvania State.

MANSBACH, RICHARD W., Professor of Political Science. B.A., 1964, Swarthmore; Ph.D., 1967, Oxford.

MANSON, ROBERT H., Associate Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1989, Washington and Lee; M.S., 1994, Ph.D., 1999, Rutgers.

MANU, ANDREW, Associate Professor of Agronomy. B.S., 1975, Ghana; M.S., 1979, Ph.D., 1984, Iowa State.

MANWILLER, FLOYD G., Emeritus Professor of Natural Resource Ecology and Management. B.S., 1961, Ph.D., 1966, Iowa State.

MARASINGHE, MERVYN G., Associate Professor of Statistics. B.S., 1971, Sri Lanka; M.S., 1977, Ph.D., 1980, Kansas State.

MARCKETTI, SARA BETH, Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCUS, ALAN I., Emeritus Professor of History. B.A., 1972, Wisconsin; M.A., 1975, Ph.D., 1979, Cincinnati.

MARGARITIS, DIMITRIS, Assistant Professor of Computer Science. B.S., 1991, Athens (Greece); M.S., 1995, New York (Stony Brook); Ph.D., 2002, Carnegie Mellon.

MARGRETT, JENNIFER, Assistant Professor of Human Development and Family Studies. B.A., 1992, Minnesota; M.A., 1995, Dayton; Ph.D., 1999, Wayne State.

MARINER, FRANCIS R., Associate Professor of World Languages and Cultures. A.B., 1974, Bowdoin; M.A., 1977, Ph.D., 1982, Johns Hopkins; Ph.D., 1986, Paris.

MARINKO, RITA ANN, Associate Professor, Library. B.A., 1980, California (San Diego); M.S., 1990, Texas; M.S., 1998, Minnesota State.

MARLEY, STEPHEN J., Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1959, M.S., 1960, Ph.D., 1965, Iowa State.

MARPLE, DENNIS N., Emeritus Professor of Animal Science. B.S., 1967, M.S., 1968, Iowa State; Ph.D., 1971, Purdue.

MARQUART, DEBRA K., Professor of English. BSW, 1984, M.L.A., 1990, Moorhead State; M.A., 1993, Iowa State.

MARQUIS, GRACE S., Associate Professor of Food Science and Human Nutrition (Collaborator). B.A., 1980, Indiana; M.S., 1984, Michigan State; Ph.D., 1996, Cornell.

MARSHALL, JOANNE, Assistant Professor of Educational Leadership and Policy Studies. B.A., 1990, Illinois; M.A.T., 1991, Chicago; M.S., 1995, Illinois; M.Ed., 1996, Ed.D., 2000, Harvard.

MARTENS, BOBBY J., Assistant Professor of Logistics, Operations and Management Information Systems. B.S., 1996, M.S., 1999, North Dakota State; Ph.D., 2006, Purdue.

MARTIN, BETH ANN, Senior Lecturer in World Languages and Cultures. B.A., 1979, Wartburg; M.A., 1985, Pennsylvania State.

MARTIN, CHRISTOPHER J., Associate Professor of Art and Design. B.F.A., 1990, Iowa State; M.F.A., 1994, Rhode Island School of Design.

MARTIN, DAVID M., Emeritus Professor of Materials Science and Engineering. B.S., 1962, Alfred; Ph.D., 1966, Iowa State.

MARTIN, MICHAEL, Associate Professor of Landscape Architecture. B.L.A., 1982, Georgia; M.L.A., 1995, Oregon.

MARTIN, MICHAEL E., Lecturer in Materials Science and Engineering. B.S., 1986, Iowa State; M.S., 1989, Ph.D., 1993, Cornell.

MARTIN, PAUL ALBERT, Emeritus Associate Professor of Biomedical Sciences. B.S., 1968, D.V.M., 1970, M.S., 1971, Ph.D., 1976, Illinois.

MARTIN, PETER, Professor of Human Development and Family Studies. B.A., 1979, Wartburg; Ph.D., 1985, Pennsylvania State.

MARTIN, PHILIP EDWARD, Professor of Kinesiology and Chair of the Department. B.S., 1977, M.S., 1979, Illinois; Ph.D., 1983, Pennsylvania State.

MARTIN, RICHARD J., Professor of Biomedical Sciences. B.V.Sc., 1972, Ph.D., 1977, Liverpool (UK); D.Sc., 1997, Edinburgh (UK).

MARTIN, ROBERT ALLEN, Professor of Agricultural Education and Studies and Chair of the Department; Professor of Curriculum and Instruction. B.S., 1968, M.S., 1974, Purdue; Ph.D., 1981, Pennsylvania State.

MARTIN, ROSE, Senior Lecturer in Food Science and Human Nutrition. B.S., 1978, Illinois; M.S., 1983, Pennsylvania State.

MARTIN, RYAN, Assistant Professor of Mathematics. B.Sc., 1995, Delaware; Ph.D., 2000, Rutgers.

MARTIN, STEVE WARTHEN, Professor of Materials Science and Engineering; University Professor. B.A., 1980, Capital; Ph.D., 1986, Purdue.

MASHAW, LANE HICKS, Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1946, Illinois; M.S., 1966, Iowa.

MASON, TERRY WAYNE, Adjunct Assistant Professor of Psychology. B.A., 1977, Cornell College; Ph.D., 1982, Texas Tech.

MASTERS, ROBERT A., Professor of Agronomy (Collaborator). B.S., 1978, M.S., 1981, Texas A&M; Ph.D., 1985, Texas Tech.

MASTERSON, CHARLES P., Adjunct Associate Professor of Architecture. B.Arch., 1969, Boston Architectural Center; M.Arch., 1971, New York (Buffalo).

MATAVA, TOBIE, Assistant Professor, Library. B.A., 1992, M.A., 1995, Missouri (Kansas City); M.L.S., 2006, Maryland.

MATHEWS, ELEANOR R., Emeritus Associate Professor, Library. B.A., 1958, Wheaton (Massachusetts); M.A., 1975, Iowa.

MATHEWS, JEROLD C., Emeritus Professor of Mathematics. B.S., 1955, M.S., 1957, Ph.D., 1959, Iowa State.

MATIBAG, EUGENIO D., Professor of World Languages and Cultures. B.A., 1977, Redlands; M.A., 1980, Ph.D., 1986, California (Irvine).

MATTHIES, BARBARA F., Emeritus Associate Professor of English. A.B., 1961, Oberlin; M.A., 1967, Ohio; Ph.D., 1983, Illinois.

MATTILA, JOHN PETER, Emeritus Professor of Economics. B.A., 1965, Michigan; Ph.D., 1969, Wisconsin.

MATZAVINOS, ANASTASIOS, Assistant Professor of Mathematics. B.Sc., 1998, Crete (Greece); M.Sc., 2001, Athens (Greece); Ph.D., 2006, Dundee (Scotland).

MAUDE, SUSAN P., Associate Professor of Human Development and Family Studies. B.A., 1977, Saint Mary's College; M.Ed., 1980, Ph.D., 1990, Illinois.

MAVES, JOHN H., Assistant Professor of Architecture. B.Arch., 1968, Notre Dame; M.Arch., 1972, Minnesota.

MAXWELL, GREGORY M., Associate Professor of Mechanical Engineering. B.S., 1973, M.S., 1977, Ph.D., 1984, Purdue.

MAY, ELIZABETH RUSTEMEYER, Assistant Professor of Veterinary Clinical Sciences. B.A., 1992, B.S., 1994, D.V.M., 1997, Texas A&M.

MAYFIELD, JOHN ERIC, Professor of Genetics, Development and Cell Biology. B.A., 1963, Wooster; M.S., 1965, Ph.D., 1968, Pittsburgh.

MAYORDOME, ELVIRA, Associate Professor of Computer Science (Collaborator). B.S., 1990, Zaragoza (Spain); Ph.D., 1994, Polytechnic (Spain).

MAZE, THOMAS H., Professor of Civil, Construction and Environmental Engineering. B.S., 1975, Iowa State; M.E., 1977, California (Berkeley); Ph.D., 1982, Michigan State.

MAZUR, ROBERT EDWARD, Associate Professor of Sociology. B.S., 1976, Iowa; M.A., 1979, Ph.D., 1982, Brown.

MAZZITELLI, JAMES R., Adjunct Instructor in Accounting. B.S., 1970, M.B.A., 1971, Drake.

McANDREWS, GINA M., Lecturer in Agronomy. B.S., 1987, B.L.S., 1992, M.S., 1995, Ph.D., 2001, Iowa State.

McCALLEY, JAMES D., Professor of Electrical and Computer Engineering. B.S., 1982, M.S., 1986, Ph.D., 1992, Georgia Institute of Technology.

McCALLUM, RALPH W., Adjunct Professor of Materials Science and Engineering. B.A., 1969, Carleton; Ph.D., 1977, California (San Diego).

McCANDLESS, CHARLES E., Emeritus Professor of Educational Leadership and Policy Studies. B.S., 1956, M.Ed., 1965, Texas A&M; Ed.D., 1966, North Texas.

McCARLEY, ROBERT E., Emeritus Professor of Chemistry. B.S., 1953, Ph.D., 1956, Texas.

McCARTHY, WILLIAM P., Emeritus Professor of English. B.A., 1964, Hobart; M.A., 1969, Ph.D., 1974, Rutgers.

McCLAIN, MICHAEL PATRICK, Lecturer in Human Development and Family Studies. B.A., 1992, M.A., 1994, Iowa; Ph.D., 2005, Iowa State.

McCLOSKEY, MICHAEL A., Associate Professor of Genetics, Development and Cell Biology. B.S., 1974, California (Riverside); Ph.D., 1979, California (Davis).

McCLURE, SCOTT R., Associate Professor of Veterinary Clinical Sciences. B.S., 1986, D.V.M., 1990, Iowa State; Ph.D., 1996, Texas A&M.

McCOMBER, DIANE R., Emeritus Associate Professor of Food Science and Human Nutrition. B.S., 1960, M.S., 1965, Iowa State.

McCONNELL, KENNETH G., Emeritus Professor of Aerospace Engineering. B.A., 1957, St. Thomas; B.S., 1957, Notre Dame; M.S., 1960, Ph.D., 1963, Iowa State.

McCORMICK, JAMES M., Professor of Political Science and Chair of the Department. B.A., 1968, Aquinas; M.A., 1969, Ph.D., 1973, Michigan State.

McCORMICK, THERESA M., Emeritus Professor of Curriculum and Instruction. B.S., 1961, Oklahoma State; M.A., 1967, Ed.D., 1981, West Virginia.

McCOY, PATRICK T., Professor of Civil, Construction and Environmental Engineering (Collaborator). B.S., 1963, M.S., 1964, Iowa State; Ph.D., 1971, Texas A&M.

McCULLOUGH, RUSSEL K., Lecturer in Economics; Lecturer in Finance. B.A., 1993, St. Cloud State; Ph.D., 2003, Iowa State.

McCULLY, JOHN R. JR., Emeritus Assistant Professor of English. B.A., 1957, Mississippi College; M.A., 1960, Mississippi; Ph.D., 1976, Rice.

McDANIEL, THOMAS J., Emeritus Professor of Aerospace Engineering. B.S., 1962, M.S., 1964, Ph.D., 1968, Illinois.

McDONALD, E. DAWN, Emeritus Assistant Professor of Kinesiology. B.S., 1960, Boston University; M.S., 1968, Southern Illinois.

McELROY, JAMES C., Professor of Management; University Professor. B.S., 1971, Jamestown; M.B.A., 1972, South Dakota; Ph.D., 1979, Oklahoma State.

McEOWEN, ROGER A., Associate Professor of Agricultural Education and Studies.

B.S., 1986, Purdue; M.S., 1990, Iowa State; J.D., 1991, Drake.

McGEE, DENIS C., Emeritus Professor of Plant Pathology. B.S., 1964, Ph.D., 1967, Edinburgh.

McGEE, THOMAS D., Emeritus Professor of Materials Science and Engineering; Emeritus Professor of Veterinary Clinical Sciences. B.S., 1948, M.S., 1958, Ph.D., 1961, Iowa State.

McGOUGH, SHERYL D., Senior Lecturer in English. B.A., 1996, M.A., 1998, Iowa State.

McGRAIL, MAURA, Adjunct Assistant Professor of Genetics, Development and Cell Biology. B.S., 1988, Massachusetts; Ph.D., 1996, Minnesota.

McILRATH, TIMOTHY J., Emeritus Associate Professor of Art and Design. B.A., 1966, Dominican (Wisconsin); M.S., 1969, Wisconsin.

McJIMSEY, GEORGE T., Emeritus Professor of History. B.A., 1958, Grinnell; M.A., 1959, Columbia; Ph.D., 1968, Wisconsin.

McKEAN, JAMES D., Professor of Veterinary Diagnostic and Production Animal Medicine; University Professor. B.S., 1969, D.V.M., 1970, Illinois; M.S., 1973, Michigan State; J.D., 1988, Drake.

McKEOWN, DONALD I., Emeritus Professor of Architecture. B.S., 1947, Illinois; M.S., 1952, Iowa State.

McKIERNAN, GERARD, Associate Professor, Library. A.B., 1973, Herbert H. Lehman; M.S., 1975, Illinois.

McLEOD, SCOTT CHRISTOPHER, Associate Professor of Educational Leadership and Policy Studies. B.A., 1990, M.Ed., 1992, William and Mary; J.D., 1998, Ph.D., 2000, Iowa.

McMILLAN, THELMA J., Emeritus Professor of Food Science and Human Nutrition. B.S., 1940, Arizona; M.S., 1942, Nebraska; Ph.D., 1951, Cornell.

McMINN, HOWARD STEPHEN, Assistant Professor, Library. BSAAE, 1984, Purdue; M.L.S., 1993, Indiana.

McMULLEN, CATHERINE MABRY, Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1981, Drake; M.T., 1990, Harvard; Ph.D., 2000, Iowa State.

McNABB, HAROLD S. JR., Emeritus Professor of Plant Pathology; Emeritus Professor of Natural Resource Ecology and Management; University Professor. B.S., 1949, Nebraska; M.S., 1951, Ph.D., 1954, Yale.

McQUEENEY, ROBERT JOHN, Associate Professor of Physics and Astronomy. B.S., 1991, Connecticut; Ph.D., 1996, Pennsylvania.

McSHAY, JAMES C., Adjunct Assistant Professor of Curriculum and Instruction. B.A., 1993, New York (Oswego); M.S., 1996, Ph.D., 2000, Iowa State.

McVICKER, JERRY KIM, Assistant Professor of Animal Science (Collaborator). B.S., 1988, M.S., 2000, Ph.D., 2004, Iowa State.

MEADOR, VINCENT P., Professor of Veterinary Pathology (Collaborator). B.S., 1977, D.V.M., 1981, M.S., 1986, Ph.D., 1988, Iowa State.

MEEKER, WILLIAM Q. JR., Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1972, Clarkson; M.S., 1973, Ph.D., 1975, Union.

MEEKS, HOWARD D., Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1960, Iowa State; M.S., 1966, Ph.D., 1970, Ohio State.

MEHROTRA, NEHA, Lecturer in Community and Regional Planning. B.Arch., 1999, TVB School of Habitat Studies; M.C.P., 2001, Auburn.

MEIER, MARY E., Adjunct Instructor in Kinesiology. B.S., 1992, Nebraska; M.S., 1995, M.S., 1996, Iowa State.

MEIXNER, MARY L., Emeritus Professor of Human Development and Family Studies; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.A., 1938, Milwaukee-Downer; M.A., 1945, Iowa.

MELBY, JANET NIEUWSMA, Adjunct Associate Professor of Human Development and Family Studies. BS/BA, 1972, M.S., 1974, North Dakota State; Ph.D., 1988, Ph.D., 1989, Iowa State.

MELSA, JAMES L., Emeritus Professor of Electrical and Computer Engineering; Emeritus Dean of the College of Engineering. B.S., 1960, Iowa State; M.S., 1962, Ph.D., 1965, Arizona.

MELVIN, STEWART W., Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1964, M.S., 1967, Ph.D., 1970, Iowa State.

MENDELSON, MICHAEL T., Professor of English; University Professor. B.A., 1967, California (Irvine); M.A., 1969, California State (San Francisco); Ph.D., 1981, Washington State.

MENDONCA, AUBREY F., Associate Professor of Food Science and Human Nutrition. B.S., 1985, M.S., 1987, Ph.D., 1992, Iowa State.

MENNECKE, BRIAN E., Associate Professor of Logistics, Operations and Management Information Systems. B.A., 1982, Knox College; M.B.A., 1985, M.A., 1987, Miami (Ohio); Ph.D., 1993, Indiana.

MENSCHNER, ANDREW, Adjunct Assistant Professor of Air Force Aerospace Studies. B.A., 2001, Drake; M.S., 2003, Texas (San Antonio).

MENZEL, BRUCE WILLARD, Emeritus Professor of Natural Resource Ecology and Management. B.S., 1964, Wisconsin; M.S., 1966, Marquette; Ph.D., 1970, Cornell.

MERCIER, CLETUS R., Emeritus Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1957, M.S., 1973, Iowa State; Ph.D., 1985, Iowa.

MERCIER, JOYCE, Emeritus Professor of Human Development and Family Studies. B.S., 1971, M.S., 1973, Ph.D., 1980, Iowa State.

MERICLE, MORRIS H., Emeritus Associate Professor of Electrical Engineering. B.S., 1947, M.S., 1956, Ph.D., 1963, Iowa State.

MERKLEY, DAVID F., Professor of Veterinary Clinical Sciences. B.A., 1967, South Dakota; D.V.M., 1971, Iowa State; M.S., 1974, Michigan State.

MERRICK, LAURA C., Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1978, Harvard; M.S., 1983, Ph.D., 1991, Cornell.

MESCHER, PHILLIP J., Lecturer in Civil, Construction and Environmental Engineering. B.S., 1994, M.S., 1996, Iowa State.

MESROPOVA, OLGA M., Assistant Professor of World Languages and Cultures. B.A., 1996, M.A., 1996, Ph.D., 2000, St. Petersburg Hertzen.

MESSENGER, ALZIRE S., Senior Lecturer in English. B.S., 1993, M.A., 1996, Iowa State.

MESSENGER, JOSEPH C., Emeritus Professor of Music; Emeritus Professor of Curriculum and Instruction. B.S.E., 1961, Bowling Green; M.A., 1967, D.M.A., 1971, Iowa.

METZLER, DAVID E., Emeritus Professor of Biochemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1948, California Institute of Technology; M.S., 1950, Ph.D., 1952, Wisconsin.

MEYER, CHARLES W., Emeritus Professor of Economics. B.A., 1954, M.A., 1955, Illinois; Ph.D., 1961, Johns Hopkins.

MEYER, HAROLD L. JR., Adjunct Assistant Professor of Military Science and Tactics. B.S., 1984, B.A., 1990, Iowa State; M.S., 1999, Troy State; B.S., 2001, Upper Iowa.

MEYER, NATALIE LOUISE, Lecturer in English. B.A., 2006, M.A., 2008, Iowa State.

MEYER, TERRENCE, Assistant Professor of Mechanical Engineering. B.M.E., 1993, Minnesota; M.S., 1997, Ph.D., 2001, Illinois.

MEYER, TERRY, Professor of Biochemistry, Biophysics and Molecular Biology (Collaborator). B.A., 1981, Gustavus Adolphus; Ph.D., 1987, Ph.D., 1988, Iowa State.

MEYER, WALTER THOMAS, Adjunct Professor of Physics and Astronomy. B.A., 1965, Wesleyan; Ph.D., 1971, Cornell.

MEYERHOLZ, DAVID K., Assistant Professor of Veterinary Pathology (Collaborator). D.V.M., 1994, M.S., 2001, Ph.D., 2004, Iowa State.

MEYERS, ARTHUR C., Lecturer in Physics and Astronomy. B.S., 1962, M.S., 1966, Ph.D., 1972, St. Louis.

MEYERS, RACHEL LEE, Lecturer in World Languages and Cultures. B.A., 1999, Yale; Ph.D., 2006, Duke.

MEYERS, TROY, Lecturer in Statistics. B.S., 1993, Northern Iowa; Ph.D., 2002, Iowa.

MEYERS, WILLIAM H., Emeritus Professor of Economics. B.A., 1963, Goshen; M.S., 1972, Philippines; Ph.D., 1977, Minnesota.

MICKELSON, ALAN C., Associate Professor of Art and Design. B.F.A., 1979, Utah; M.F.A., 1981, Virginia Commonwealth.

MICKELSON, STEVEN K., Associate Professor of Agricultural and Biosystems Engineering. B.S., 1982, M.S., 1984, Ph.D., 1991, Iowa State.

MICKLE, JACK L., Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1952, M.S., 1955, Ph.D., 1960, Iowa State.

MIKOVEC, AMY E., Senior Lecturer in Art and Design. B.S., 1989, East Carolina; M.F.A., 1992, Virginia Commonwealth.

MILES, KRISTINA G., Associate Professor of Veterinary Clinical Sciences. B.S., 1981, D.V.M., 1983, Texas A&M; M.S., 1987, Missouri.

MILLEN, PAMELA W., Lecturer in Curriculum and Instruction. B.S., 1969, Iowa State; MST, 1971, Drake.

MILLER, CATHY, Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1993, Ph.D., 2001, Missouri.

MILLER, DIANA LYNN, Clinician in Veterinary Clinical Sciences. B.S., 1985, Indiana Weslyan; D.V.M., 1998, Iowa State.

MILLER, ELIZABETH S., Emeritus Professor of Art and Design; Distinguished Professor in Design. B.F.A., 1951, Nebraska; M.F.A., 1967, Drake.

MILLER, EMILY I., Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2002, Virginia Polytechnic; D.V.M., 2006, Virginia Maryland Regional College.

MILLER, GERALD AREY, Professor of Agronomy; Associate Dean of the College of Agriculture and Life Sciences. B.S., 1965, Virginia Polytechnic Institute; M.S., 1971, Ph.D., 1974, Iowa State.

MILLER, GORDON J. JR., Professor of Chemistry. B.S., 1982, Rochester; Ph.D., 1986, Chicago.

MILLER, GREGORY SCOTT, Professor of Agricultural Education and Studies; Professor of Curriculum and Instruction. B.S., 1987, M.Ed., 1990, Auburn; Ph.D., 1992, Ohio State.

MILLER, KATHRYN M., Emeritus Associate Professor of Human Development and Family Studies. B.S., 1959, Iowa State; M.S., 1964, Cornell.

MILLER, LESLIE L., Professor of Computer Science. B.A., 1967, M.A., 1974, South Dakota; Ph.D., 1980, Southern Methodist.

MILLER, LYLE DEVON, Emeritus Professor of Veterinary Pathology. B.S., 1961, D.V.M., 1963, Kansas State; M.S., 1969, Ph.D., 1971, Wisconsin.

MILLER, MARTIN G., Emeritus Professor of Sociology. B.A., 1960, Coe; M.S., 1963, Ph.D., 1971, Michigan State.

MILLER, MICHAEL C., Adjunct Assistant Professor of Landscape Architecture. B.A., 1992, Kansas State; M.L.A., 1995, Iowa State.

MILLER, NANCY LYNN M., Emeritus Associate Professor of Human Development and Family Studies. B.S., 1962, M.S., 1969, Ph.D., 1972, Iowa State.

MILLER, RICHARD KEITH, Emeritus Professor of Mathematics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1961, Iowa State; M.S., 1962, Ph.D., 1964, Wisconsin.

MILLER, VICTOR J., Lecturer in Kinesiology. B.A., 1993, Purdue; M.A., 1995, Minnesota.

MILLER, WILLIAM G., Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1957, M.S., 1961, Iowa State; Ph.D., 1967, Iowa.

MILLER, WILLIAM WADE, Professor of Agricultural Education and Studies; Professor of Curriculum and Instruction. B.S., 1974, Texas A&M; M.Ed., 1976, Stephen F. Austin; Ph.D., 1980, Texas A&M.

MILLER, WILMER JAY, Emeritus Professor of Genetics, Development and Cell Biology. B.A., 1948, Oklahoma; Ph.D., 1954, Wisconsin.

MILLER, WYATT A., Professor of Plant Pathology; Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1978, Carleton; Ph.D., 1984, Wisconsin.

MILLMAN, SUZANNE, Associate Professor of Veterinary Diagnostic and Production Animal Medicine; Associate Professor of Biomedical Sciences. B.Sc., 1990, Ph.D., 2000, Guelph (Canada).

MIN, KYUNG J., Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1984, California (Los Angeles); M.S., 1985, Ph.D., 1990, California (Berkeley).

MINA, MANI, Senior Lecturer in Electrical and Computer Engineering. B.S., 1982, M.S., 1985, M.S., 1987, Ph.D., 1989, Iowa State.

MINER, ANDREW S., Associate Professor of Computer Science. B.S., 1993, Randolph-Macon College; M.S., 1995, Ph.D., 2000, College of William and Mary.

MINION, FRANK C., Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1972, M.S., 1977, Memphis; Ph.D., 1983, Alabama (Birmingham).

MINNER, DAVID D., Professor of Horticulture. B.S., 1978, Delaware; M.S., 1981, Maryland; Ph.D., 1984, Colorado State.

MIRANOWSKI, JOHN A., Professor of Economics. B.S., 1966, Iowa State; A.M., 1969, Ph.D., 1975, Harvard.

MIRKA, GARY A., Professor of Industrial and Manufacturing Systems Engineering and Chair of the Department. B.A., 1986, M.S., 1988, Ph.D., 1992, Ohio State.

MISCHKE, CHARLES R., Emeritus Professor of Mechanical Engineering. B.S.M.E., 1947, M.M.E., 1950, Cornell; Ph.D., 1953, Wisconsin.

MISRA, MANJIT KUMAR, Professor of Agricultural and Biosystems Engineering. B.S., 1971, Orissa; M.S., 1973, Ph.D., 1978, Missouri.

MITRA, AMBAR K., Associate Professor of Aerospace Engineering. B.S., 1969, M.S., 1972, Calcutta; Ph.D., 1979, Indian Institute of Science.

MITRA, SIMANTA, Senior Lecturer in Computer Science. B.E., 1987, Calcutta (India); M.S., 1991, Ph.D., 1997, Iowa State.

MOHR, LORAN E., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.A., 1951, Northern Iowa; B.S., 1956, M.S., 1966, Iowa State.

MOKHTARI, KOUIDER, Professor of Curriculum and Instruction. B.A., 1981, Universite Mohamed V; M.A., 1984, Ph.D., 1987, Ohio.

MOLIAN, PALANIAPPA A., Professor of Mechanical Engineering. B.E., 1975, M.E., 1977, Indian Institute of Science; Ph.D., 1982, Oregon Graduate Center.

MOLISON, ROBERT W., Emeritus Professor of Music. A.B., 1958, Mu.B.Ed., 1958, Oberlin; M.M., 1960, Yale; D.M.A., 1971, Illinois.

MOLONEY, KIRK A., Associate Professor of Ecology, Evolution and Organismal Biology. B.A., 1975, Pomona; M.S., 1982, Vermont; Ph.D., 1986, Duke.

MONAHAN, BRIAN ALBERT, Assistant Professor of Sociology. B.S., 1997, Radford; M.S., 2000, Virginia Commonwealth; Ph.D., 2006, Delaware.

MONAHAN, LAUREN, Lecturer in Greenlee School of Journalism and Communication. B.S., 1999, Virginia Polytechnic; M.S., 2001, Virginia Commonwealth.

MONROE, JOHN W., Associate Professor of History. A.B., 1995, Princeton; Ph.D., 2002, Yale.

MONTABON, FRANK L., Associate Professor of Logistics, Operations and Management Information Systems. B.B.A., 1991, Notre Dame; Ph.D., 2001, Michigan State.

MONTAG, GERALDINE M., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.A., 1947, Western Ontario; M.S., 1963, Ph.D., 1966, Iowa State.

MOOK, MARGARET SUSAN, Associate Professor of World Languages and Cultures. B.A., 1983, Wooster; M.A., 1988, Ph.D., 1993, Minnesota.

MOON, HARLEY WILLIAM, Emeritus Professor of Veterinary Pathology; Emeritus Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1958, D.V.M., 1960, Ph.D., 1965, Minnesota.

MOORE, EMILY L., Emeritus Professor of Educational Leadership and Policy Studies. B.S., 1968, George Williams; M.A.E., 1972, Washington (St. Louis); Ed.D., 1980, South Carolina.

MOORE, KENNETH J., Professor of Agronomy. B.S., 1979, Arizona State; M.S., 1981, Ph.D., 1983, Purdue.

MOORE, WAYNE R., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1942, Iowa State.

MOORMAN, ROBERT B., Emeritus Professor of Natural Resource Ecology and Management. B.S., 1939, M.S., 1942, Ph.D., 1953, Iowa State.

MOORMAN, THOMAS B., Associate Professor of Agronomy (Collaborator). B.S., 1976, M.S., 1978, Colorado State; Ph.D., 1983, Washington State.

MORGAN, DEAN, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 1996, Montana State; D.V.M., 2002, Missouri.

MORGAN, EMILY, Lecturer in Art and Design. B.A., 2000, Tufts; B.F.A., 2000, School of the Museum of Fine Art; M.A., 2006, Arizona.

MORGAN, KEITH W., Adjunct Assistant Professor of Air Force Aerospace Studies. B.S., 1985, Us Air Force Academy; M.S., 1990, Central Michigan; M.A., 2005, Kings College (London).

MORGAN, PAUL EMERSON, Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1944, M.S., 1956, Iowa State.

MORRICAL, DANIEL GENE, Professor of Animal Science. B.S., 1977, Purdue; M.S., 1982, Ph.D., 1984, New Mexico State.

MORRIS, ALISON L., Assistant Professor of Psychology. B.S., 1980, M.S., 1982, Wisconsin; Ph.D., 2000, Boston.

MORRIS, DILYS E., Emeritus Professor, Library; B.A., 1964, M.S., 1965, Illinois.

MORRIS, JOHN CHARLES, Assistant Professor of Agricultural Education and Studies. B.S., 1974, M.S., 1975, Ph.D., 1996, Iowa State.

MORRIS, JOSEPH E., Associate Professor of Natural Resource Ecology and Management. B.S., 1979, Iowa State; M.S., 1982, Texas A&M; Ph.D., 1988, Mississippi State.

MORRIS, MAX D., Professor of Statistics; Professor of Industrial and Manufacturing Systems Engineering. B.S., 1973, Oklahoma State; M.S., 1974, Ph.D., 1977, Virginia Polytechnic.

MORRISON, JO ANN, Clinician in Veterinary Clinical Sciences. D.V.M., 1993, Purdue; M.S., 2007, Iowa State.

MORROW, PAULA C., Professor of Management; University Professor. B.A., 1973, Maryland; M.S., 1975, Virginia Polytechnic Institute; Ph.D., 1978, Iowa State.

MORTON, LOIS WRIGHT, Associate Professor of Sociology. B.S., 1972, Bowling Green; M.S., 1977, Syracuse; Ph.D., 1998, Cornell.

MOSCHINI, GIANCARLO, Professor of Economics. B.S., 1978, Catholic (Italy); Ph.D., 1986, Guelph.

MOSES, JOEL C., Emeritus Professor of Political Science. B.A., 1966, Beloit; M.A., 1968, Ph.D., 1972, Wisconsin.

MOUTSATSOS, CHRISY, Assistant Professor of Anthropology. B.A., 1991, Nevada (Reno); M.A., 1994, Ph.D., 2001, California (Irvine).

MOYER, RUTH P., Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Professor of Curriculum and Instruction; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1941, M.S., 1949, Ph.D., 1969, Cornell.

MU, AILI, Associate Professor of World Languages and Cultures. B.A., 1982, M.A., 1984, Shandong (China); Ph.D., 1996, New York (Stony Brook); M.S., 2001, Marist College.

MUECKE, MICKAEL W., Associate Professor of Architecture. B.A., 1989, M.Arch., 1991, Florida; Ph.D., 1999, Princeton.

MUENCH, JOSEPH L., Associate Professor of Art and Design. B.A., 1984, Iowa State; M.F.A., 1987, Washington (St. Louis).

MUKERJEA, RABINDRA, Emeritus Professor of Architecture. B.Arch., 1966, Indian Institute of Technology; M.A.Sc., 1969, Waterloo.

MULFORD, CHARLES L., Emeritus Professor of Sociology. B.S., 1958, M.S., 1959, Ph.D., 1962, Iowa State.

MULLEN, ELLEN JO, Lecturer in Management. B.S., 1987, M.S., 1990, Iowa State; Ph.D., 1994, Minnesota.

MULLEN, RUSSELL E., Professor of Agronomy. B.S., 1971, M.S.Ed., 1972, Northwest Missouri; Ph.D., 1975, Purdue.

MUNKVOLD, GARY P., Associate Professor of Plant Pathology. B.S., 1986, M.S., 1988, Illinois; Ph.D., 1992, California (Davis).

MUNSEN, SYLVIA C., Associate Professor of Music; Associate Professor of Curriculum and Instruction. B.A., 1973, St. Olaf; M.S., 1977, Ed.D., 1986, Illinois.

MUNSON, BRUCE R., Emeritus Professor of Aerospace Engineering. B.S., 1962, M.S., 1964, Purdue; Ph.D., 1970, Minnesota.

MURDOCH, ALAN JAMES, Assistant Professor of Kinesiology. B.A., 1969, Bemidji; M.S., 1970, Ph.D., 1984, Iowa State.

MURDOCK, JAMES A., Professor of Mathematics. Sc.B., 1966, Brown; M.S., 1969, Ph.D., 1970, New York University.

MURPHY, MEGAN J., Associate Professor of Human Development and Family Studies. B.A., 1994, New York (Geneseo); M.S., 1997, Colorado State; Ph.D., 2001, Georgia.

MURPHY, PATRICIA ANNE, Professor of Food Science and Human Nutrition; University Professor. B.S., 1973, M.S., 1975, California (Davis); Ph.D., 1979, Michigan State.

MURPHY, ROGER P., Emeritus Associate Professor of Accounting. B.S., 1966, M.S., 1969, Colorado State.

MUSZYNSKI, MICHAEL GERARD, Adjunct Assistant Professor of Genetics, Development and Cell Biology. B.A., 1985, Toledo; Ph.D., 1992, Iowa State.

MUTCHMOR, JOHN A., Emeritus Professor of Ecology, Evolution and Organismal Biology; Emeritus Professor of Entomology. B.Sc., 1950, Alberta; M.S., 1955, Ph.D., 1961, Minnesota.

MYERS, ALAN M., Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1977, Carnegie Mellon; Ph.D., 1983, Duke.

MYERS, CYNTHIA L., Adjunct Instructor in English. B.S., 1973, M.A., 1979, Kansas State.

MYERS, RONALD KEITH, Professor of Veterinary Pathology. B.S., 1970, D.V.M., 1977, Ph.D., 1982, Kansas State.

NABROTZKY, RONALD, Emeritus Associate Professor of World Languages and Cultures. B.A., 1965, Utah; M.A., 1966, Ph.D., 1973, Northwestern.

NAEGELE, DANIEL J., Associate Professor of Architecture. B.Arch., 1977, Cincinnati; Ph.D., 1996, M.S., 1996, Pennsylvania.

NAKADATE, NEIL EDWARD, Professor of English; University Professor. A.B., 1965, Stanford; M.A., 1968, Ph.D., 1972, Indiana.

NAKAGAWA, NORIO, Adjunct Professor of Aerospace Engineering. B.S., 1975, M.S., 1977, Ph.D., 1984, Tokyo (Japan).

NAMBISAN, SHASHI SATHISAN, Professor of Civil, Construction and Environmental Engineering. B.Tech., 1984, Indian Institute of Technology; M.S., 1985, Virginia Polytechnic; Ph.D., 1989, California (Berkeley).

NAPOLITANO, RALPH EDWARD, Associate Professor of Materials Science and Engineering. B.S., 1989, Florida; M.S., 1994, Ph.D., 1996, Georgia Institute of Technology.

NAPPINNAI, RAMANUJAM, Lecturer in Finance. M.S., 1989, Iowa State.

NARA, PETER LLOYD, Professor of Biomedical Sciences. B.S., 1977, Colorado State; M.Sc., 1979, D.V.M., 1984, Ph.D., 1986, Ohio State.

NARASIMHAN, BALAJI, Professor of Chemical and Biological Engineering; Associate Dean of the College of Engineering. B.Tech., 1992, Indian Institute of Technology; Ph.D., 1996, Purdue.

NASON, JOHN DAVID, Professor of Ecology, Evolution and Organismal Biology. B.S., 1985, California (Davis); Ph.D., 1991, California (Riverside).

NEGREROS-CASTILLO, P., Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1976, Puebla (Mexico); M.S., 1983, Inireb; Ph.D., 1991, Iowa State.

NEIHART, NATHAN MARK, Assistant Professor of Electrical and Computer Engineering. B.S., 2004, M.S., 2004, Utah; Ph.D., 2008, Washington.

NELSON, CHRISTOPHER C., Lecturer in English. B.A., 1997, California (Santa Barbara); M.A., 2001, Washington State.

NELSON, RON M., Professor of Mechanical Engineering; B.S., 1970, M.S., 1972, Iowa State; Ph.D., 1980, Stanford.

NELSON, SARA D., Lecturer in Curriculum and Instruction. B.A., 1996, Luther College; M.Ed., 2006, Iowa State.

NESPOR, JIM G., Lecturer in Kinesiology. B.S., 1979, Nebraska; M.S., 1981, Arizona; B.S., 1989, New Mexico.

NETTLETON, DANIEL S., Professor of Statistics. B.A., 1991, Wartburg College; M.S., 1993, Ph.D., 1996, Iowa.

NEWELL, JONATHAN J., Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1977, North Carolina; Ph.D., 2003, Michigan State.

NEWGAARD, GENE LEE, Lecturer in English. B.A., 1988, M.A., 2004, Iowa State.

NEWTON, TERESA NAIMO, Associate Professor of Ecology, Evolution and Organismal Biology (Collaborator). B.S., 1985, Central Michigan; M.S., 1987, Tennessee Tech; Ph.D., 1990, Iowa State.

NG, SIU H., Associate Professor of Mathematics. B.Sc., 1988, M.Phil., 1992, Hong Kong; Ph.D., 1997, Rutgers.

NGUYEN, TIEN NHUT, Assistant Professor of Electrical and Computer Engineering. B.Sc., 1995, Hochiminh City (Vietnam); Ph.D., 2005, Wisconsin.

NIDAY, DONNA MAE, Associate Professor of English. B.S.E., 1973, Northeast Missouri; M.S., 1984, Iowa State; M.A., 1990, Middlebury; Ph.D., 1996, Iowa.

NIEDERHAUSER, DALE S., Associate Professor of Curriculum and Instruction. B.S., 1982, New York (Fredonia); M.Ed., 1988, Ph.D., 1994, Utah.

NIEHM, LINDA S., Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1980, Ashland; M.S., 1985, Ohio; Ph.D., 2002, Michigan State.

NIEVES, MARY ANN, Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1978, Colorado; D.V.M., 1984, Oklahoma State; M.S., 1993, Iowa State.

NIKOLAU, BASIL J., Professor of Biochemistry, Biophysics and Molecular Biology. B.Sc., 1977, Ph.D., 1981, Massey (New Zealand).

NILAKANTA, SREEVATSAL, Associate Professor of Logistics, Operations and Management Information Systems. B.E., 1973, Madras (India); M.B.A., 1979, Ph.D., 1985, Houston.

NILLES, YVONNE JOY, Lecturer in Horticulture. B.L.S., 2000, M.S., 2002, Iowa State.

NILSEN-HAMILTON, MARIT, Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1969, Ph.D., 1973, Cornell.

NILSSON, JAMES W., Emeritus Professor of Electrical Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, Iowa; M.S., 1952, Ph.D., 1958, Iowa State.

NISSEN, STEVEN LYNN, Professor of Animal Science. D.V.M., 1976, M.S., 1977, Ph.D., 1981, Iowa State.

NIYO, YOSIYA, Emeritus Professor of Veterinary Pathology. D.V.M., 1968, Tuskegee; M.S., 1971, Ph.D., 1975, Iowa State.

NO, WON G., Assistant Professor of Accounting. B.S., 1994, M.S., 1996, Chonnam National (South Korea); MACC, 1999, Wisconsin; Ph.D., 2007, Waterloo (Canada).

NOGGLE, KAREN S., Lecturer in Geological and Atmospheric Sciences. B.A., 1981, Tennessee; M.S., 1986, Iowa State.

NOLAN, LISA K., Professor of Veterinary Microbiology and Preventive Medicine; Associate Dean of the College of Veterinary Medicine. B.S., 1975, Valdosta State College; D.V.M., 1988, M.S., 1989, Ph.D., 1992, Georgia.

NOLAND, JAMES CARROLL, Adjunct Instructor in English. B.A., 1968, Drake; M.A., 1974, Ph.D., 1984, Iowa.

NONNECKE, BRIAN J., Professor of Animal Science (Collaborator). B.S., 1974, M.S., 1976, Guelph; Ph.D., 1979, Ohio State.

NONNECKE, GAIL R., Professor of Horticulture; University Professor. B.S., 1975, M.S., 1977, Pennsylvania State; Ph.D., 1980, Ohio State.

NORDMAN, DANIEL JOHN, Assistant Professor of Statistics. B.A., 1996, St. John's; M.S., 1999, Ph.D., 2002, Iowa State.

NORRIS, ELIZABETH J., Lecturer in Curriculum and Instruction. BA1, 1987, Iowa; M.S., 1997, Iowa State.

NORRIS, MICHAEL, Lecturer in Kinesiology. B.A., 1993, Central Michigan; M.A., 1998, M.Ed., 1998, Ohio State.

NORTHUP, LARRY LEE, Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1962, M.S., 1963, Ph.D., 1967, Iowa State.

NORTHWAY, ERIC W., Senior Lecturer in Philosophy and Religious Studies. B.A., 1996, Iowa State; M.A., 1998, Reformed Theological Seminary.

NORTON-MEIER, LORI ANN, Assistant Professor of Curriculum and Instruction. B.S., 1986, Iowa State; M.A., 1996, Ph.D., 1998, Iowa.

NOSTWICH, THEODORE D., Emeritus Professor of English. B.A., 1948, M.A., 1950, Ohio State; Ph.D., 1968, Texas.

NOXON, JAMES OWEN, Professor of Veterinary Clinical Sciences. B.S., 1973, D.V.M., 1976, Colorado State.

NUSSER, SARAH M., Professor of Statistics. B.S., 1980, Wisconsin; M.S., 1983, North Carolina State; M.S., 1987, Ph.D., 1990, Iowa State.

NUTTER, FORREST W. JR., Professor of Plant Pathology. B.S., 1976, Maryland; M.S., 1978, New Hampshire; Ph.D., 1983, North Dakota State.

NYSTROM-DEAN, EVELYN, Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1970, Colorado State; M.P.H., 1979, Ph.D., 1984, Michigan.

O'BRIEN, JASON P., Lecturer in Natural Resource Ecology and Management. B.S., 1996, M.S., 2000, Iowa State.

O'CONNOR, ANNETTE M., Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.V.Sc., 1993, Sydney (Australia); M.V.SC., 1997, Queensland (Australia); DVSC, 2000, Guelph (Canada).

O'DONNELL, JENNIFER, Assistant Professor of Chemical and Biological Engineering. B.S., 2001, Bucknell; Ph.D., 2007, Delaware.

O'MARA, DENISE ANN, Adjunct Instructor in Kinesiology. B.A., 1985, Northern Iowa; M.S., 1986, Illinois State.

OAKES, GREGORY WAYNE, Assistant Professor of Music. B.Mus., 1993, Michigan State; M.Mus., 1995, Depaul; D.M.A., 2004, Colorado.

OAKLAND, MARY JANE, Emeritus Associate Professor of Food Science and Human Nutrition. B.S., 1966, South Dakota State; M.S., 1970, Ph.D., 1985, Iowa State.

OBRIEN, SUSAN E., Associate Professor of Veterinary Clinical Sciences. B.S., 1972, D.V.M., 1973, Michigan State.

OESTERREICH, LESIA L., Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1978, M.S., 1988, Texas Tech.

OGILVIE, CRAIG A., Professor of Physics and Astronomy. B.Sc., 1983, Canterbury (New Zealand); Ph.D., 1987, Birmingham (UK).

OKIISHI, THEODORE H., Emeritus Professor of Mechanical Engineering. B.S., 1960, M.S., 1963, Ph.D., 1965, Iowa State.

OLAFSSON, SIGURDUR, Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1994, Iceland; M.S.I.E., 1996, Ph.D., 1998, Wisconsin.

OLDEHOEFT, ARTHUR E., Emeritus Professor of Computer Science. B.A., 1957, M.S., 1959, Oklahoma State; Ph.D., 1970, Purdue.

OLDHAM, ANNE M., Lecturer in Food Science and Human Nutrition. B.S., 1995, M.S., 2000, Iowa State.

OLIVER, DAVID J., Professor of Genetics, Development and Cell Biology; Associate Dean of the College of Liberal Arts and Sciences. B.S., 1971, M.S., 1973, New York (Syracuse); Ph.D., 1975, Cornell.

OLIVER, JAMES H., Professor of Mechanical Engineering; Professor of Aerospace Engineering; Professor of Electrical and Computer Engineering. B.S., 1979, Union; M.S., 1981, Ph.D., 1986, Michigan State.

OLIVIER, ALICIA, Adjunct Instructor in Veterinary Pathology. B.S., 2002, D.V.M., 2005, Mississippi State.

OLSEN, GAVIN LEIF, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2004, D.V.M., 2007, Mississippi State.

OLSEN, MICHAEL G., Associate Professor of Mechanical Engineering; Associate Professor of Chemical and Biological Engineering. B.S., 1992, M.S., 1995, Ph.D., 1998, Illinois.

OLSEN, SHERRLYN S., Lecturer in Animal Science. B.S., 1982, Missouri; M.S., 2006, Iowa State.

OLSEN, STEVEN, Associate Professor of Veterinary Pathology (Collaborator). B.S., 1979, M.S., 1981, D.V.M., 1985, Ph.D., 1991, Kansas State.

OLSON, DENNIS G., Professor of Animal Science. B.S., 1969, Ph.D., 1975, Iowa State.

OLSON, JEANNETTE RAE, Lecturer in Curriculum and Instruction. B.S., 1979, M.S., 1980, M.S., 1986, Oregon.

OLSON, JOANNE K., Associate Professor of Curriculum and Instruction. B.A., 1991, California State Polytechnic; M.A., 1993, Claremont; Ph.D., 1999, Southern California.

ONEAL, MATTHEW ELLIOTT, Assistant Professor of Entomology. B.S., 1992, M.S., 1998, Illinois; Ph.D., 2002, Michigan State.

ONG, SAY K., Professor of Civil, Construction and Environmental Engineering. B.E., 1980, Malaya (Malayria); M.S., 1987, Vanderbilt; Ph.D., 1990, Cornell.

OPRIESSNIG, TANJA I., Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2002, Veterinary Medicine (Austria); Ph.D., 2006, Iowa State.

ORAZEM, PETER FRANCIS, Professor of Economics; University Professor. B.A., 1977, Kansas; M.Phil., 1980, Ph.D., 1983, Yale.

OSBORN, BARB A., Senior Lecturer in Horticulture. B.S., 1983, M.S., 1988, Iowa State.

OSBORN, WAYNE S., Emeritus Assistant Professor of History. B.A., 1959, Simpson; M.A., 1963, Ph.D., 1970, Iowa.

OSEI-KOFI, NANA, Assistant Professor of Educational Leadership and Policy Studies. B.A., 1994, Phoenix; M.Ed., 1996, Arizona State; Ph.D., 2003, M.A., 2003, Claremont.

OSTERBERG, ARVID ERIC, Professor of Architecture. B.Arch., 1969, M.Arch., 1972, Illinois; D.Arch., 1980, Michigan.

OSTOJIC, JELENA, Adjunct Instructor in Veterinary Pathology. D.V.M., 1998, Belgrade; Ph.D., 2006, Iowa State.

OSWEILER, GARY D., Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Pathology. D.V.M., 1966, M.S., 1968, Ph.D., 1973, Iowa State.

OTIS, DAVID L., Professor of Ecology, Evolution and Organismal Biology (Collaborator); Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1971, M.S., 1974, Ph.D., 1976, Colorado State.

OTTO, DANIEL M., Professor of Economics. B.A., 1976, M.S., 1978, Minnesota; Ph.D., 1981, Virginia Polytechnic Institute.

OULMAN, CHARLES S., Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1955, Ph.D., 1963, Iowa State.

OULMAN, MOTOKO LEE, Emeritus Professor of Sociology. B.A., 1959, Nara Women's University; M.A., 1963, Indiana; Ph.D., 1969, Iowa State.

OVIEDO, PEDRO MARCELO, Assistant Professor of Economics. B.S., 1993, M.S., 1995, Nacional De La Plata (Argentina); Ph.D., 2003, North Carolina State.

OWEN, DAVID BISHOP, Professor of Curriculum and Instruction; Professor of English. B.A., 1964, Harvard; M.A., 1966, M.A., 1980, Ph.D., 1984, Chicago.

OWEN, MICHEAL D., Professor of Agronomy. B.S., 1974, M.S., 1975, Iowa State; Ph.D., 1982, Illinois.

OWINGS, WILLIAM J., Emeritus Professor of Animal Science. B.S., 1953, M.S., 1958, Ph.D., 1960, Iowa State.

OWUSU, FRANCIS Y., Associate Professor of Community and Regional Planning. B.A., 1987, M.A., 1990, Ghana; M.A., 1992, Carleton (Canada); Ph.D., 2000, Minnesota.

OZSOY, HAVVA DUYGU, Assistant Professor of Civil, Construction and Environmental Engineering (Collaborator). B.S., 1997, M.S., 2001, Ph.D., 2007, Mersin (Turkey).

PACKHEISER, TARYN ANN, Lecturer in Kinesiology. B.F.A., 1997, North Carolina; M.F.A., 2003, Colorado.

PADGETT-WALSH, KATE, Assistant Professor in Philosophy and Religious Studies. B.A., 1999, Middleburg College; M.A., 2001, Wisconsin (Milwaukee).

PADGITT, STEVEN C., Emeritus Professor of Sociology. B.S., 1965, Iowa State; M.S., 1968, Missouri; Ph.D., 1971, Iowa State.

PAK, YONG CHIN, Adjunct Instructor in Kinesiology. B.A., 1971, Korean Judo College.

PALAN, KAY MARIE, Associate Professor of Marketing; Associate Dean of the College of Business. B.S., 1976, Winona; M.B.A., 1990, Moorhead; Ph.D., 1994, Texas Technical.

PALERMO, GREGORY S., Professor of Architecture. B.Arch., 1969, Carnegie Mellon; M.Arch., 1976, Washington (St. Louis).

PALIC, DUSAN, Assistant Professor of Biomedical Sciences. D.V.M., 1997, M.S., 2002, Belgrade University (Serbia); Ph.D., 2005, Iowa State.

PALIK, BRIAN, Associate Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1983, Alma College; M.S., 1988, Ph.D., 1992, Michigan State.

PALMER, MITCHELL VAN, Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1985, Utah State; D.V.M., 1989, Purdue; Ph.D., 1996, Iowa State.

PALMER, REID G., Professor of Agronomy (Collaborator). M.S., 1965, Illinois; Ph.D., 1970, Indiana.

PAN, JUN, Lecturer in Mathematics. M.S., 1984, Henan Normal (China); Ph.D., 2000, Magdeburg (Germany).

PANDEY, SANTOSH, Assistant Professor of Electrical and Computer Engineering. B.Tech., 1999, Indian Institute of Technology; M.S., 2001, Ph.D., 2006, Lehigh.

PANIGRAHY, BRUNDABAN, Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.V.Sc., 1962, Orissa Veterinary College; M.S., 1968, Minnesota; Ph.D., 1972, Texas A&M.

PAPPENHEIMER, DEBORAH, Senior Lecturer in Art and Design. B.F.A., 1978, Ny Studio Kansas City Art Institute; M.F.A., 1981, Boston School For the Arts.

PARDO-BALLESTER, CRISTINA, Assistant Professor of World Languages and Cultures. B.A., 1996, University of Granada; M.A., 1999, Nevada (Reno); Ph.D., 2007, California (Davis).

PARKER, VALERIE J., Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2003, Massachusetts; D.V.M., 2007, Tufts.

PARKIN, TIMOTHY B., Assistant Professor. B.A., 1976, Wabash; M.S., 1978, Ph.D., 1980, Wisconsin.

PARRISH, FREDERICK C., Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1959, M.S., 1960, Ph.D., 1965, Missouri.

PARSONS, GERALD E., Emeritus Professor of Agricultural Education and Studies. B.S., 1952, M.S., 1959, Ph.D., 1970, Iowa State.

PARSONS, JEAN LOUISE, Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1974, Pennsylvania State; M.S., 1989, Ph.D., 1998, Maryland.

PARSONS, KATHY A., Associate Professor, Library. B.A., 1980, North Carolina (Greensboro); M.A., 1981, Iowa.

PASCHKE, TERESA A., Associate Professor of Art and Design. B.F.A., 1985, Minneapolis College of Art and Design; M.F.A., 1998, Kansas.

PASSE, ULRIKE, Assistant Professor of Architecture. B.A., 1990, Technische (Berlin); M.Arch., 1990, Technical (Berlin).

PASSONNEAU, SARAH, Assistant Professor, Library. B.A., 1992, Minnesota; M.S., 2000, Saint Cloud State; MLIS, 2007, Dominican.

PATE, MICHAEL BENCE, Emeritus Professor of Mechanical Engineering; B.S., 1970, U.S. Naval Academy; M.S., 1978, Arkansas; Ph.D., 1982, Purdue.

PATIENCE, JOHN FRANCIS, Associate Professor of Animal Science. B.Sc., 1974, M.Sc., 1976, Guelph (Ontario); Ph.D., 1985, Cornell.

PATTEE, PETER ARTHUR, Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1955, Maine; M.S., 1957, Ph.D., 1961, Ohio State.

PATTERSON, ABBY RAE, Adjunct Instructor in Veterinary Diagnostic and Production Animal Medicine. B.S., 2004, M.S., 2007, D.V.M., 2007, Iowa State.

PATTERSON, JOHN W. JR., Emeritus Professor of Materials Science and Engineering. B.E.M., 1962, M.S., 1962, Ph.D., 1966, Ohio State.

PATTERSON, PATRICK E., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1972, Springfield; M.S., 1978, Cleveland State; Ph.D., 1984, Texas A&M.

PATTON, LORI D., Assistant Professor of Educational Leadership and Policy Studies. B.S., 1995, Southern Illinois; M.A., 1999, Bowling Green State; Ph.D., 2004, Indiana.

PAULSEN, ARNOLD ALLEN, Emeritus Professor of Economics. B.S., 1951, Ph.D., 1959, Iowa State.

PAULSEN, THOMAS, Lecturer in Agricultural Education and Studies. B.S., 1987, Northwest Missouri; M.S., 2001, Iowa State.

PAULSON, MARI ANNE, Lecturer in English. B.A., 1998, M.A., 2001, Iowa State.

PAVLAT, JOHN R., Emeritus Associate Professor of Electrical and Computer Engineering. B.S., 1955, South Dakota School of Mines; M.S.E.E., 1961, Iowa State.

PAXSON, LYNN, Associate Professor of Architecture. B.A., 1978, B.E., 1978, Colorado; M.Phil., 1981, Ph.D., 2007, City University of New York.

PAYNE, CAROLYN S., Adjunct Assistant Professor of Educational Leadership and Policy Studies. B.A., 1967, Louisville; M.A., 1968, Illinois; M.L.S., 1972, Kentucky; Ph.D., 1992, Iowa State.

PAYNE, JACK, Professor of Natural Resource Ecology and Management; Vice President . B.A., 1969, Temple; M.S., 1979, Ph.D., 1983, Utah State.

PAYNE, WILLIAM DONALD, Associate Professor of English; Associate Professor of Curriculum and Instruction. B.A., 1967, Louisville; M.A., 1968, Ph.D., 1980, Illinois.

PEAKE, E. JAMES JR., Emeritus Assistant Professor of Mathematics. B.S., 1960, M.S., 1962, Ph.D., 1963, New Mexico State.

PEARCE, ROBERT BRENT, Emeritus Professor of Agronomy. B.S., 1963, California (Davis); M.S., 1965, Ph.D., 1967, Virginia Polytechnic Institute.

PEASE, JAMES L., Emeritus Associate Professor of Natural Resource Ecology and Management. B.S., 1972, M.S., 1977, Wisconsin; Ph.D., 1992, Iowa State.

PECHARSKY, VITALIJ K., Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. M.S., 1976, Ph.D., 1979, USSR.

PEDERSEN, JOHN H., Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1951, Cornell; M.S., 1952, Ph.D., 1955, Iowa State.

PEDERSEN, PALLE, Assistant Professor of Agronomy. B.S., 1995, Royal Veterinary and Agricultural (Denmarck); M.S., 1997, London (England); M.S., 1999, Royal Veterinary and Agricultural (Denmarck); Ph.D., 2002, Wisconsin.

PEDERSEN, WAYNE A., Associate Professor, Library. B.A., 1974, Iowa State; M.A., 1976, Iowa.

PEDIGO, LARRY, Emeritus Professor of Entomology; University Professor. B.S., 1963, Fort Hays; M.S., 1965, Ph.D., 1967, Purdue.

PEEL, SHANNON P., Lecturer in Kinesiology. B.S., 1986, Iowa State; M.A., 1997, Northern Colorado.

PELLACK, LORRAINE J., Associate Professor, Library. B.S., 1981, Upper Iowa; M.L.S., 1982, Emporia State.

PELLEGRENO, DOMINICK, Emeritus Professor of Educational Leadership and Policy Studies. B.M.E., 1958, A.M., 1959, Michigan; Ed.D., 1968, Toledo.

PELZER, NANCY L., Emeritus Associate Professor, Library. B.S., 1967, Arizona State; M.A., 1983, Iowa.

PENDAR, NICK, Assistant Professor of English. B.A., 1993, Azad (Iran); M.A., 2000, Ph.D., 2005, Toronto (Canada).

PERCY, BENJAMIN, Assistant Professor of English. B.A., 2001, Brown; M.F.A., 2004, Southern Illinois.

PERKINS, BRADLEY S., Lecturer in Civil, Construction and Environmental Engineering. B.S., 1997, Iowa State.

PERRY, RICK, Associate Professor of Veterinary Pathology (Collaborator). B.S., 1979, Columbus State; D.V.M., 1986, Ph.D., 1990, Georgia.

PESEK, JOHN T. JR., Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1943, M.S., 1947, Texas A&M; Ph.D., 1950, North Carolina State.

PETERS, DAVID J., Assistant Professor of Sociology. B.S., 1994, Minnesota; M.S., 1998, Ph.D., 2006, Missouri.

PETERS, FRANK E., Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1991, M.S., 1994, Ph.D., 1996, Pennsylvania State.

PETERS, JUSTIN, Professor of Mathematics. B.A., 1968, Reed; Ph.D., 1973, Minnesota.

PETERS, LEO C., Emeritus Professor of Mechanical Engineering. B.S., 1953, Kansas State; M.S., 1963, Ph.D., 1967, Iowa State.

PETERS, REUBEN J., Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1992, California (San Diego); Ph.D., 1998, California (San Francisco).

PETERS, RONALD H., Emeritus Professor of Psychology. B.A., 1960, M.A., 1962, Ph.D., 1963, Iowa.

PETERSEN, CHRISTINE ANNE, Assistant Professor of Veterinary Pathology. B.A., 1994, Johns Hopkins; D.V.M., 1998, Cornell; Ph.D., 2004, Harvard.

PETERSON, CARLA ANN, Professor of Human Development and Family Studies; Associate Dean of the College of Human Sciences. B.S., 1975, Iowa State; M.A., 1981, South Dakota; Ph.D., 1991, Minnesota.

PETERSON, FRANCIS, Emeritus Professor of Physics and Astronomy. B.E.E., 1964, Rensselaer; Ph.D., 1968, Cornell.

PETERSON, JANE W., Professor of Greenlee School of Journalism and Communication. B.A., 1972, Iowa; M.S., 1982, Ph.D., 1987, Iowa State.

PETERSON, PETER A., Professor of Agronomy; Professor of Genetics, Development and Cell Biology. B.S., 1947, Tufts; Ph.D., 1953, Illinois.

PETERSON, THOMAS A., Professor of Genetics, Development and Cell Biology; Professor of Agronomy. B.S., 1976, California (Davis); Ph.D., 1984, California (Santa Barbara).

PETRICH, JACOB W., Professor of Chemistry and Chair of the Department. B.S., 1980, Yale; Ph.D., 1985, Chicago.

PETT, STEPHEN WILLARD, Associate Professor of English. B.A., 1971, Colorado College; M.A., 1974, Hollins; Ph.D., 1980, Utah.

PHARES, BRENT M., Adjunct Assistant Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1994, M.S.C.E., 1996, Ph.D., 1998, Iowa State.

PHILLIPS, GREGORY J., Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1979, M.A., 1981, Southern Illinois; Ph.D., 1987, Georgia.

PHILLIPS, WARREN, Senior Lecturer in Psychology. B.A., 1989, Maryland; Ph.D., 1996, M.A., 1996, Illinois.

PHYE, GARY D., Professor of Curriculum and Instruction; Professor of Psychology. B.A., 1964, M.A., 1965, Wichita; Ph.D., 1970, Missouri.

PICKETT, MARY S., Emeritus Professor of Human Development and Family Studies; Emeritus Professor of Art and Design. B.S., 1944, M.S., 1951, Tennessee; Ph.D., 1958, Iowa State.

PIERCE, CLAY L., Assistant Professor of Ecology, Evolution and Organismal Biology (Collaborator); Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1980, Mankato; M.S., 1982, Kentucky; Ph.D., 1987, Maryland.

PIERCE, DAVID R., Professor of Educational Leadership and Policy Studies (Collaborator). B.A., 1960, M.S., 1961, California State (Long Beach); M.S., 1965, Ph.D., 1969, Purdue.

PIERSON, BION LEE, Emeritus Professor of Aerospace Engineering. B.S., 1961, M.S., 1963, Iowa State; Ph.D., 1967, Michigan.

PIGOZZI, DON LEONARD, Emeritus Professor of Mathematics. A.B., 1959, M.A., 1964, Ph.D., 1970, California (Berkeley).

PILLATZKI, ANGELA E., Adjunct Instructor in Veterinary Pathology. D.V.M., 1995, Kansas State; M.S., 2007, South Dakota State.

PITA, FABIANO, Assistant Professor of Animal Science (Collaborator). M.S., 1999, Sao Paulo State (Brazil); Ph.D., 2003, Federal University of Vicosa (Brazil).

PLAKANS, ANDREJS, Emeritus Professor of History. B.A., 1963, Franklin and Marshall; M.A., 1964, Ph.D., 1969, Harvard.

PLATT, KENNETH B., Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1963, Pennsylvania State; D.V.M., 1966, Cornell; M.S., 1974, Texas A&M; Ph.D., 1977, Iowa State.

PLATTNER, BRANDON, Adjunct Instructor in Veterinary Pathology. B.S., 2000, D.V.M., 2002, Kansas State.

PLEASANTS, BARBARA P., Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1971, Cornell; Ph.D., 1977, California (Los Angeles).

PLEASANTS, JOHN M., Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1971, Notre Dame; Ph.D., 1977, California (Los Angeles).

PLETCHER, RICHARD H., Emeritus Professor of Mechanical Engineering. B.S., 1957, Purdue; M.S., 1962, Ph.D., 1966, Cornell.

PLUMMER, CASSANDRA LONG, Lecturer in Veterinary Diagnostic and Production Animal Medicine. B.S., 1998, Georgia; D.V.M., 2002, Tennessee.

PLUMMER, PAUL J., Clinician in Veterinary Diagnostic and Production Animal Medicine; Clinician in Veterinary Microbiology and Preventive Medicine. B.S., 1999, D.V.M., 2000, Tennessee.

POAGUE, LELAND A., Professor of English. B.A., 1970, California State (San Jose); Ph.D., 1973, Oregon.

POHL, MARTIN KARL WILHELM, Associate Professor of Physics and Astronomy. Ph.D., 1991, Bonn (Germany).

POHL, NICOLA, Associate Professor of Chemistry. A.B., 1991, Harvard; Ph.D., 1997, Wisconsin.

POHLMAN, LYNETTE L., Adjunct Associate Professor of Art and Design. B.A., 1972, M.A., 1976, Iowa State.

POHM, ARTHUR V., Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.E.E., 1950, B.E.S., 1950, Cleveland State; M.S., 1953, Ph.D., 1954, Iowa State.

POIST, RICHARD F. JR., Professor of Logistics, Operations and Management Information Systems and Chair of the Department. B.S., 1965, Pennsylvania State; M.B.A., 1967, Maryland; Ph.D., 1972, Pennsylvania State.

POLITO, THOMAS A., Assistant Professor of Agricultural Education and Studies; Assistant Professor of Agronomy. B.S., 1976, M.S., 1982, Ph.D., 1987, Iowa State.

POLLAK, EDWARD, Emeritus Professor of Statistics; Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1954, Cornell; M.S., 1956, North Carolina State; Ph.D., 1964, Columbia.

POLLAK, LINDA M., Associate Professor of Agronomy (Collaborator). B.S., 1978, Ohio State; M.S., 1980, Ph.D., 1982, Nebraska.

POLSON, DALE, Associate Professor of Veterinary Diagnostic and Production Animal Medicine (Collaborator). D.V.M., 1982, Iowa State; M.S., 1988, Illinois; Ph.D., 1996, Minnesota.

POLSTER, NANCY L., Emeritus Associate Professor of Art and Design. B.S., 1960, Iowa State; M.S., 1964, Syracuse.

POMETTO, ANTHONY III, Professor of Food Science and Human Nutrition (Collaborator). B.S., 1976, George Mason; M.S., 1983, Ph.D., 1987, Idaho.

POON, YIU TUNG, Associate Professor of Mathematics. B.A., 1977, M.Phil., 1980, Hong Kong; Ph.D., 1985, California (Los Angeles).

POPE, CHRISTIE F., Emeritus Associate Professor of History. A.B., 1959, North Carolina; Ph.D., 1977, Chicago.

POPILLION, AMY M., Lecturer in Human Development and Family Studies. B.S., 1994, M.S., 1997, Ph.D., 2000, Iowa State.

PORTER, MARC DAVID, Professor of Chemistry (Collaborator); Professor of Chemical and Biological Engineering (Collaborator). B.S., 1977, M.S., 1979, Wright State; Ph.D., 1984, Ohio State.

PORTER, MARIAH CLAIRSE, Adjunct Instructor in Military Science and Tactics. B.S., 2005, Iowa State.

PORTER, MAX LEE, Professor of Civil, Construction and Environmental Engineering. B.S., 1965, M.S., 1968, Ph.D., 1974, Iowa State.

PORTER, ROBERT B., Assistant Professor of Finance. B.S., 1987, Cornell; M.B.A., 1992, Emory; Ph.D., 1999, Chicago.

PORTER, STEPHEN R., Associate Professor of Educational Leadership and Policy Studies. B.A., 1987, Rice; M.A., 1995, Ph.D., 1996, Rochester.

POST, CONSTANCE J., Associate Professor of English. B.A., 1966, Nyack; M.A.T., 1968, M.A., 1980, M.Phil., 1982, Ph.D., 1986, Columbia.

POTOSKI, MATTHEW, Associate Professor of Political Science. B.A., 1991, Franklin and Marshall College; M.A., 1994, Vermont; Ph.D., 1998, Indiana.

POTTER, ALLAN GEORGE, Emeritus Professor of Electrical Engineering. B.S., 1955, Kansas State; M.S., 1959, Ph.D., 1966, Iowa State.

POTTER, LESLIE A., Senior Lecturer in Industrial and Manufacturing Systems Engineering. B.S., 1991, Iowa State; M.S., 1996, Pennsylvania State.

POTTER, ROSANNE G., Emeritus Professor of English. A.B., 1964, Rosemont; M.A., 1964, Chicago; Ph.D., 1975, Texas.

POWELL, JACK E., Emeritus Professor of Chemistry. B.S., 1943, Monmouth; Ph.D., 1952, Iowa State.

POWELL-COFFMAN, JO A., Associate Professor of Genetics, Development and Cell Biology. B.S., 1986, California (Davis); Ph.D., 1993, California (San Diego).

POWER, DEBRA L., Senior Lecturer in Kinesiology. B.A., 1984, Creighton; M.S., 1986, Iowa State.

POWER, MARK L., Professor of Finance; University Professor. B.S., 1974, Iowa State; M.B.A., 1977, Ph.D., 1981, Iowa.

PRABHU, GURPUR M., Associate Professor of Computer Science. B.Tech., 1975, M.Tech., 1978, Indian Institute of Technology; Ph.D., 1983, Washington State.

PRATER, JEFFREY LYNN, Professor of Music. B.S., 1969, Iowa State; M.M., 1973, Michigan State; Ph.D., 1982, Iowa.

PRELL, SOEREN A., Associate Professor of Physics and Astronomy. Ph.D., 1996, Hamburg (Germany).

PREMKUMAR, SHOBA, Lecturer in Finance. B.A., 1982, Madras; M.B.A., 1997, Iowa State.

PRESCOTT, JAMES R., Emeritus Professor of Economics. B.A., 1957, California (Berkeley); M.A., 1960, Ph.D., 1964, Harvard.

PRESTEMON, DEAN R., Emeritus Professor of Natural Resource Ecology and Management. B.S., 1956, Iowa State; M.S., 1957, Minnesota; Ph.D., 1966, California (Berkeley).

PRICE-HERNDL, SUSAN D., Professor of English. B.A., 1981, Texas Christian; M.A., 1984, Minnesota; Ph.D., 1989, North Carolina.

PRICKETT, SALLY ANN, Clinician in Veterinary Clinical Sciences. D.V.M., 1972, Iowa State.

PRIETO, LORETO R., Professor of Psychology. B.A., 1984, Ph.D., 1996, Iowa.

PRIOR-MILLER, MARCIA R., Associate Professor of Greenlee School of Journalism and Communication. B.A., 1970, Abilene Christian; M.A., 1981, Missouri.

PRITCHARD, JAMES, Adjunct Assistant Professor of Landscape Architecture; Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1976, Miami (Ohio); M.A., 1991, Montana State; Ph.D., 1996, Kansas.

PROKOS, ANASTASIA HELENE, Assistant Professor of Sociology. B.S., 1992, Ph.D., 2001, Florida State.

PROZOROV, RUSLAN, Assistant Professor of Physics and Astronomy. M.Sc., 1992, Institute of Steel and Alloys (Moscow); Ph.D., 1998, Bar-Ilan (Israel).

PRUETZ, JILL D., Associate Professor of Anthropology. B.A., 1989, Southwest Texas State; Ph.D., 1999, Illinois.

PRUSA, KENNETH JOHN, Professor of Food Science and Human Nutrition; Professor of Animal Science. B.S., 1979, Fort Hays; M.S., 1980, Ph.D., 1983, Kansas State.

PRUSKI, MAREK, Adjunct Professor of Chemistry. M.S., 1977, Nicholas Copernicus (Poland); Ph.D., 1981, Nicholas Copernicus (Poland).

PURSEY, DEREK L., Emeritus Professor of Physics and Astronomy. B.S., 1948, Ph.D., 1952, Glasgow.

QIAO, DAJI, Assistant Professor of Electrical and Computer Engineering. B.S., 1994, Tsinghua (China); M.S., 1998, Ohio State; Ph.D., 2004, Michigan.

QIU, JIANWEI, Professor of Physics and Astronomy. M.A., 1983, M.S., 1984, Ph.D., 1987, Columbia.

QU, HONG, Assistant Professor of Philosophy and Religious Studies. B.A., 1986, Northwestern; M.A., 1989, Beijing (China); Ph.D., 2000, Chinese Academy of Social Sciences.

QUIGLEY, JAMES, Professor of Animal Science Collaborator). B.S., 1979, M.S., 1982, New Hampshire; Ph.D., 1985, Virginia Polytechnic.

QUIRMBACH, HERMAN C., Associate Professor of Economics. A.B., 1972, Harvard; A.M., 1980, Ph.D., 1983, Princeton.

QUIST, MICHAEL CARL, Assistant Professor of Natural Resource Ecology and Management. B.S., 1996, Idaho; M.S., 1999, Ph.D., 2002, Kansas State.

RAICH, JAMES W., Associate Professor of Ecology, Evolution and Organismal Biology. B.S., 1977, Michigan State; M.S., 1980, Florida; Ph.D., 1987, Duke.

RAJAGOPAL, LAKSHMAN, Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1998, SIES College (India); M.S., 2004, Ph.D., 2007, Nebraska.

RAJAGOPALAN, R. GANESH, Professor of Aerospace Engineering. B.S., 1973, Madras Christian; B.S., 1976, Madras; M.S., 1978, Indian Institute of Science; Ph.D., 1984, West Virginia.

RAJAN, CHITRA, Lecturer in Economics. B.A., 1978, M.A., 1980, Poona; M.A., 1983, Ph.D., 1991, Ottowa.

RAJAN, HRIDESH, Assistant Professor of Computer Science. B.Tech., 2000, Institute of Technology; M.S., 2004, Ph.D., 2005, Virginia.

RAJAN, KRISHNA, Professor of Materials Science and Engineering. B.A.Sc., 1974, Toronto; Sc.D., 1978, Massachusetts Institute of Technology.

RAJU, SEKAR, Assistant Professor of Marketing. B.E., 1991, Bharathiar (India); M.B.A., 1994, Bharathidasan (India); M.A., 2001, Ph.D., 2002, Ohio State.

RAMAMOORTHY, ADITYA, Assistant Professor of Electrical and Computer Engineering. B.Tech., 1999, Indian Institute of Technology; Ph.D., 2005, California (Los Angeles).

RAMAMOORTHY, SHEELA, Clinician in Veterinary Diagnostic and Production Animal Medicine. B.V.S.C., 1991, Madras (India); M.S., 2002, Oklahoma State; Ph.D., 2006, Virginia Polytechnic.

RAMAN, DAVE, Associate Professor of Agricultural and Biosystems Engineering. B.S., 1986, Rochester Institute of Technology; Ph.D., 1994, Cornell.

RAMASWAMI, SRIDHAR N., Professor of Marketing. B.S., 1974, Madras; M.B.A., 1977, Indian Institute of Management; Ph.D., 1987, Texas.

RAMIREZ, ALEJANDRO, Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1989, Iowa State; M.P.H., 2004, Iowa.

RANDALL, JESSE ALLEN, Assistant Professor of Natural Resource Ecology and Management. B.Sc., 1999, Cornell; Ph.D., 2006, Michigan State.

RANDIC, MIRJANA, Emeritus Professor of Biomedical Sciences. M.D., 1959, Ph.D., 1962, Zagreb.

RAO, ARAGULA GURURAJ, Professor of Biochemistry, Biophysics and Molecular Biology and Chair of the Department. M.Sc., 1974, Gauhati (India); Ph.D., 1981, Mysore (India).

RASMUSSEN, JORGEN S., Emeritus Professor of Political Science; Emeritus Professor of Curriculum and Instruction; Distinguished Professor in Liberal Arts and Sciences. A.B., 1957, Indiana; M.A., 1958, Ph.D., 1962, Wisconsin.

RATHJE, JOHN ALLAN, Clinician in Veterinary Diagnostic and Production Animal Medicine. B.S., 1992, D.V.M., 1997, Iowa State.

RATHMACHER, JOHN A., Assistant Professor of Animal Science (Collaborator). B.S., 1987, M.S., 1989, Purdue; Ph.D., 1993, Iowa State.

RATIGAN, GARY J., Clinician in Educational Leadership and Policy Studies. B.A., 1964, M.S., 1967, Creighton; Ed.D., 1988, Drake.

RAVENSCROFT, SUE P., Professor of Accounting. B.A., 1972, Wayne State; M.B.A., 1976, Detroit Mercy; Ph.D., 1989, Michigan State.

RAWSON, DON CARLOS, Emeritus Professor of History. B.S., 1958, M.A., 1966, Kansas; Ph.D., 1971, Washington.

READ, ALVIN A., Emeritus Professor of Electrical Engineering. B.S., 1949, M.S., 1952, Ph.D., 1960, Iowa State.

RECTANUS, ELIZABETH S., Lecturer in World Languages and Cultures. B.S., 1972, Mississippi; J.D., 1974, M.A., 1979, Mississippi State.

RECTANUS, MARK W., Professor of World Languages and Cultures and Chair of the Department. B.A., 1975, Valparaiso; M.A., 1977, Ph.D., 1983, Washington (St. Louis).

REDDY, MANJU B., Associate Professor of Food Science and Human Nutrition. B.S., 1976, M.S., 1978, Osmania (India); Ph.D., 1987, Texas A&M.

REDMOND, JAMES R., Emeritus Professor of Ecology, Evolution and Organismal Biology. B.S., 1949, Cincinnati; Ph.D., 1954, California (Los Angeles).

REDMOND, MARK VINCENT, Associate Professor of English. B.A., 1971, M.A., 1973, Purdue; Ph.D., 1978, Denver.

REECE, WILLIAM O., Emeritus Professor of Biomedical Sciences; University Professor. D.V.M., 1954, Ph.D., 1965, Iowa State.

REECY, JAMES M., Associate Professor of Animal Science. B.S., 1990, South Dakota State; M.S., 1992, Missouri; Ph.D., 1995, Purdue.

REEDY, MARILYN K., Lecturer in English. B.A., 1977, Bethel College; M.A., 2007, Iowa State.

REGENOLD, MICHELE M., Lecturer in English. B.A., 1989, Grinnell; M.A., 1992, M.S., 1997, Iowa State.

REGER, RICHARD ALLEN, Lecturer in Sociology. B.A., 1975, M.S., 1978, Iowa State.

REGISTER, KAREN B., Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). BSMT, 1981, Western Carolina; Ph.D., 1986, North Carolina.

REHMANN, CHRIS ROBERT, Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1989, Massachusetts Institute of Technology; M.S., 1990, Ph.D., 1995, Stanford.

REILLY, PETER J., Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. A.B., 1960, Princeton; Ph.D., 1964, Pennsylvania.

REINERT, MICHAEL, Assistant Professor in Horticulture. B.S., 1995, Ph.D., 2008, Pennsylvania State.

REINERTSON, ERIC L., Associate Professor of Veterinary Clinical Sciences. D.V.M., 1971, Iowa State; M.S., 1974, Cornell.

REINHARDT, TIMOTHY A., Professor of Animal Science (Collaborator). B.S., 1974, M.S., 1976, Ph.D., 1979, Ohio State.

REITMEIER, CHERYLL A., Professor of Food Science and Human Nutrition. B.S., 1973, Minnesota; M.S., 1975, Arkansas; Ph.D., 1988, Iowa State.

RENDON, LAURA I., Professor of Educational Leadership and Policy Studies and Chair of the Department. B.A., 1970, Houston; M.A., 1975, Texas A&M; Ph.D., 1982, Michigan.

RETALLICK, MICHAEL STEVEN, Assistant Professor of Agricultural Education and Studies. B.S., 1993, Wisconsin (Platteville); Ph.D., 2005, Iowa State.

REYNOLDS, DONALD LEE, Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1977, D.V.M., 1981, Ph.D., 1986, Ohio State.

RICE, MARLIN E., Professor of Entomology. B.S., 1977, Central Missouri; M.S., 1979, Missouri; Ph.D., 1987, Kansas State.

RICHARDS, CHARLES D., Associate Professor of Art and Design. B.F.A., 1979, Illinois; M.F.A., 1983, Wisconsin.

RICHT, JUERGEN A., Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator); Associate Professor of Biomedical Sciences (Collaborator). B.S., 1980, Hohenheim (Germany); D.V.M., 1985, Munich (Germany); Ph.D., 1988, Giessen (Germany).

RICKENBACH, MARK, Associate Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1994, Pennsylvania State; M.S., 1996, Massachusetts; Ph.D., 2000, Oregon State.

RIEDESEL, DEAN HAROLD, Professor of Veterinary Clinical Sciences; Professor of Biomedical Sciences. D.V.M., 1969, Ph.D., 1976, Iowa State.

RIEDESEL, ELIZABETH A., Associate Professor of Veterinary Clinical Sciences. B.S., 1970, D.V.M., 1975, Iowa State.

RILEY, JOHN NEWTON, Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1955, M.Ed., 1965, Oregon State; Ed.D., 1972, Rutgers.

RINEY-KEHRBERG, PAMELA, Professor of History. B.A., 1985, Colorado College; M.A., 1986, Ph.D., 1991, Wisconsin.

RINGLEE, CONSTANCE J., Senior Lecturer in English. B.S., 1970, M.A., 1996, Iowa State.

RIZO-ARBUCKLE, ELISA G., Assistant Professor of World Languages and Cultures. B.A., 1993, Instituto Tecnologico De Estudios Superi; M.A., 1996, Ph.D., 2002, Missouri.

RIZZO, FRANK J., Emeritus Professor of Aerospace Engineering. B.S., 1960, M.S., 1961, Ph.D., 1964, Illinois.

ROBERTS, CARL W., Associate Professor of Sociology. B.A., 1975, Maine; M.A., 1977, M.S., 1982, Ph.D., 1983, New York (Stony Brook).

ROBERTS, DAVID D., Associate Professor of English. B.A., 1967, M.A., 1969, Ph.D., 1979, Arizona State.

ROBERTS, DONALD M., Emeritus Professor of Mechanical Engineering. B.Sc., 1945, Alberta; M.Sc., 1949, Ph.D., 1953, Purdue.

ROBERTS, RONALD A., Adjunct Associate Professor of Aerospace Engineering. B.S., 1979, Purdue; M.S., 1981, Ph.D., 1985, Northwestern.

ROBERTSON, ALISON E., Assistant Professor of Plant Pathology. B.Sc., 1991, Natal (South Africa); M.Phil., 1999, Zimbabwe (Africa); Ph.D., 2003, Clemson.

ROBERTSON, DONALD S., Emeritus Professor of Genetics, Development and Cell Biology. A.B., 1947, Stanford; Ph.D., 1951, California Institute of Technology.

ROBINSON, DAN, Professor of Educational Leadership and Policy Studies; University Professor. B.S., 1970, M.S., 1971, Ph.D., 1978, Iowa State.

ROBINSON, JENNIFER, Assistant Professor of Food Science and Human Nutrition (Collaborator). B.A., 1982, Northwestern; M.D., 1987, M.P.H., 1995, Minnesota.

ROBINSON, WILLIAM, Professor of Philosophy and Religious Studies. A.B., 1962, Yale; Ph.D., 1966, Indiana.

ROBSON, RICHARD M., Professor of Animal Science; Professor of Biochemistry, Biophysics and Molecular Biology; Professor of Food Science and Human Nutrition. B.S., 1964, M.S., 1966, Ph.D., 1969, Iowa State.

ROBYT, JOHN F., Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1958, St. Louis; Ph.D., 1962, Iowa State.

RODDE, JAMES F., Professor of Music. B.A., 1974, Augsburg College; M.A., 1977, D.M.A., 1987, Iowa.

RODDE, KATHLEEN, Senior Lecturer in Music. B.A., 1984, North Dakota; M.A., 1986, Arizona State.

RODERMEL, STEVEN R., Professor of Genetics, Development and Cell Biology. B.A., 1972, Yale; M.S., 1976, Wyoming; Ph.D., 1986, Harvard.

RODERUCK, CHARLOTTE E., Emeritus Professor of Food Science and Human Nutrition; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1940, Pittsburgh; M.S., 1942, Washington State; Ph.D., 1949, Iowa.

RODRIGUEZ, JULIO C., Adjunct Assistant Professor of World Languages and Cultures. B.A., 1995, Whitman College; M.A., 1998, Ph.D., 2006, Iowa State.

RODRIGUEZ, MA LULU A., Professor of Greenlee School of Journalism and Communication. B.S., 1979, Philippines; MPS, 1987, Cornell; Ph.D., 1993, Wisconsin.

ROE, KEVIN J., Adjunct Assistant Professor of Natural Resource Ecology and Management; Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1988, M.S., 1994, Georgia; Ph.D., 1999, Alabama.

ROETTGER, CHRISTIAN G., Lecturer in Mathematics. M.S., 1994, Augsburg (Germany); Ph.D., 2000, East Anglia (UK).

ROGERS, CARL A., Assistant Professor of Landscape Architecture. B.Arch., 1993, Kansas State; M.L.A., 1997, Rhode Island School of Design.

ROGGE, THOMAS RAY, Emeritus Professor of Aerospace Engineering. B.S., 1958, M.S., 1961, Ph.D., 1964, Iowa State.

ROHACH, ALFRED F., Emeritus Professor of Aerospace Engineering. B.S., 1959, M.S., 1961, Ph.D., 1963, Iowa State.

ROLLENHAGEN, ROSALIE A., Senior Lecturer in Horticulture. B.S., 1978, M.S., 1980, Iowa State.

ROLLINS, DERRICK K., Professor of Chemical and Biological Engineering; Professor of Statistics; Assistant Dean of the College of Engineering. B.S., 1979, Kansas; M.S., 1987, M.S., 1989, Ph.D., 1990, Ohio State.

ROOF, MICHAEL B., Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1987, M.S., 1989, Ph.D., 1991, Iowa State.

ROSATI, MARZIA, Associate Professor of Physics and Astronomy. B.S., 1985, La Sapienza (Italy); Ph.D., 1992, Mc Gill (Canada).

ROSENBERG, ELI IRA, Professor of Physics and Astronomy. B.S., 1964, City University of New York; M.S., 1966, Ph.D., 1971, Illinois.

ROSENBLAT, TANYA SOLIE, Associate Professor of Economics. B.A., 1994, M.A., 1994, Northwestern; Ph.D., 1999, Massachusetts Institute of Technology.

ROSENBUSCH, MARCIA H., Adjunct Associate Professor of World Languages and Cultures; Adjunct Associate Professor of Curriculum and Instruction. B.S., 1965, Oregon State; M.S., 1966, Ph.D., 1987, Iowa State.

ROSENBUSCH, RICARDO F., Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1964, Buenos Aires; M.S., 1966, Ph.D., 1969, Iowa State.

ROSENSTOCK, MARTIN, Lecturer in World Languages and Cultures. M.A., 2002, Johann Wolfgang Goethe (Germany); Ph.D., 2007, California (Santa Barbara).

ROSS, DALE H., Emeritus Associate Professor of English. B.A., 1959, M.A., 1962, Akron; Ph.D., 1974, Iowa.

ROSS, DENNIS KENT, Emeritus Professor of Physics and Astronomy. B.S., 1964, California Institute of Technology; Ph.D., 1968, Stanford.

ROSS, JASON W., Assistant Professor of Animal Science. B.S., 2000, Iowa State; M.S., 2003, Ph.D., 2006, Oklahoma State.

ROSS, RICHARD FRANCIS, Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1959, M.S., 1960, Ph.D., 1965, Iowa State.

ROTH, JAMES ALLEN, Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1975, M.S., 1979, Ph.D., 1981, Iowa State.

ROTHMAYER, ALRIC PAUL, Professor of Aerospace Engineering; Professor of Mathematics. B.S., 1980, M.S., 1982, Ph.D., 1985, Cincinnati.

ROTHSCHILD, MAX F., Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1974, California (Davis); M.S., 1975, Wisconsin; Ph.D., 1978, Cornell.

ROUSE, GENE, Emeritus Professor of Animal Science. B.S., 1967, Minnesota; M.S., 1969, Ph.D., 1971, Iowa State.

ROUSE, JON MATTHEWS, Assistant Professor of Civil, Construction and Environmental Engineering. B.S., 1994, Iowa State; M.E., 1995, Ph.D., 2004, Cornell.

ROUSE, SHELLEY RANICE, Lecturer in Greenlee School of Journalism and Communication. B.A., 1990, Drake; M.B.A., 2002, Frostburg State.

ROVER, DIANE THIEDE, Professor of Electrical and Computer Engineering; Associate Dean of the College of Engineering. B.S., 1984, M.S., 1986, Ph.D., 1989, Iowa State.

ROWE, ERIC W., Assistant Professor of Biomedical Sciences. D.V.M., 1999, Ph.D., 2005, Iowa State.

ROWLEY, WAYNE ALLRED, Emeritus Professor of Entomology. B.S., 1960, M.S., 1962, Utah State; Ph.D., 1965, Washington State.

ROWLING, MATTHEW J., Assistant Professor of Food Science and Human Nutrition. B.S., 1999, Nebraska (Kearney); Ph.D., 2004, Iowa State.

ROY, SONALI, Lecturer in Economics. B.Sc., 1998, Presidency College; M.S., 2000, Ph.D., 2006, Indian Statistical Institute.

ROY, TIRTHANKAR, Assistant Professor of Marketing. BSTAT, 1980, MSTAT, 1981, Indian Statistical Institute; Ph.D., 1999, California (Los Angeles).

ROY, VIVEKANANDA, Assistant Professor of Statistics. B.Sc., 2001, Ramakrishna Mission College (Calcutta); MSTAT, 2004, Indian Statistical Institute (Calcutta) ; Ph.D., 2008, Florida.

ROZENDAAL, CHRISTOPHER M., Lecturer in English. B.S., 1996, M.S., 2003, Cornell; M.A., 2005, Iowa State.

RUAN, LU, Assistant Professor of Computer Science. B.E., 1996, Tsinghua (China); M.S., 1999, Ph.D., 2001, Minnesota.

RUBEN, ROBERT A., Associate Professor of Logistics, Operations and Management Information Systems. B.S., 1989, M.S., 1991, Clarkson; Ph.D., 1995, Indiana.

RUDOLPH, WILLIAM B., Emeritus Professor of Mathematics; Emeritus Professor of Curriculum and Instruction. B.A., 1960, Bethany (West Virginia); M.S., 1965, Ph.D., 1969, Purdue.

RUDOLPHI, THOMAS J., Professor of Aerospace Engineering. B.S., 1969, M.S., 1974, Ph.D., 1977, Illinois.

RUEDENBERG, KLAUS, Emeritus Professor of Chemistry; Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. Abitur, 1938, Bielefeld; M.S., 1944, Fribourg; Ph.D., 1950, Zurich; Ph.D., 1975, (Hon) Basel.

RULE, LITA C., Associate Professor of Natural Resource Ecology and Management. B.S., 1975, M.S., 1982, Philippines; Ph.D., 1988, Texas A&M.

RUNYAN, WILLIAM S., Emeritus Professor of Food Science and Human Nutrition. B.S., 1960, M.S., 1962, Idaho; D.Sc., 1968, Harvard.

RUSSELL, ALAN MARK, Professor of Materials Science and Engineering. B.S., 1972, M.S., 1975, Ph.D., 1994, Iowa State.

RUSSELL, DANIEL W., Professor of Human Development and Family Studies. B.S., 1975, Tulsa; Ph.D., 1980, California (Los Angeles).

RUSSELL, DAVID R., Professor of English. B.A., 1973, Central State (Oklahoma); Ph.D., 1981, Oklahoma.

RUSSELL, JAMES R., Professor of Animal Science. B.S., 1972, M.S., 1976, Ph.D., 1979, Wisconsin.

RUSSELL, MARTHA E., Emeritus Adjunct Associate Professor of Chemistry. B.S., 1945, Rochester; M.A., 1947, New York (Buffalo); Ph.D., 1954, Purdue.

RUSSELL, WILBERT A., Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S.A., 1942, Manitoba; M.S., 1947, Ph.D., 1952, Minnesota.

RUST, ROBERT E., Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition. B.S., 1951, Wisconsin; M.S., 1954, Michigan State.

RYAN, SARAH M., Professor of Industrial and Manufacturing Systems Engineering. B.S., 1983, Virginia; M.S.E., 1984, Ph.D., 1988, Michigan.

RYAN, VERNON DEAN, Emeritus Professor of Sociology. B.S., 1966, Utah State; M.S., 1969, Ph.D., 1974, Pennsylvania State.

SACCO, RANDY E., Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1981, M.S., 1983, Iowa State; Ph.D., 1987, Texas A&M.

SACKS, PAUL E., Professor of Mathematics. B.S., 1976, Syracuse; M.A., 1978, Ph.D., 1981, Wisconsin.

SADOSKY, LEONARD JOESPH, Assistant Professor of History. B.A., 1994, Connecticut; M.A., 1997, Miami (Ohio); Ph.D., 2003, Virginia.

SADOW, AARON DAVID, Assistant Professor of Chemistry. B.S., 1997, Pennsylvania State; Ph.D., 2003, California (Berkeley).

SAGE, PRISCILLA K., Emeritus Associate Professor of Art and Design. M.S., 1958, Pennsylvania State; M.F.A., 1981, Drake.

SAKAGUCHI, DONALD S., Associate Professor of Genetics, Development and Cell Biology; Associate Professor of Biomedical Sciences. B.S., 1979, Ph.D., 1984, New York (Albany).

SAKAI, MARY R., Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2003, California (Berkeley); D.V.M., 2007, Kansas State.

SALAPAKA, MURTI V., Associate Professor of Electrical and Computer Engineering (Collaborator). B.S., 1991, Indian Institute of Tech; M.S., 1993, Ph.D., 1997, California (Santa Barbara).

SALAS-FERNANDEZ, MARIA, Assistant Professor of Agronomy. B.E., 1995, Argentina Catholic; M.S.C., 1999, Texas A&M; Ph.D., 2008, Cornell.

SANDERS, C. GORDON, Emeritus Professor of Engineering. B.A., 1947, Northern Iowa; M.A., 1949, Northern Colorado.

SANDERS, WALLACE W., Emeritus Professor of Civil, Construction and Environmental Engineering. B.C.E., 1955, Louisville; M.S., 1957, Ph.D., 1960, Illinois; M.Engr., 1973, Louisville.

SANDERSON, DONALD E., Emeritus Professor of Mathematics. B.A., 1949, Cornell College; M.S., 1951, California Institute of Technology; Ph.D., 1953, Wisconsin.

SANDOR, ELLEN, Associate Professor of Art and Design (Collaborator). B.A., 1963, Brooklyn College; M.F.A., 1975, School of the Art Institute of Chicago.

SANDOR, JONATHAN A., Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.A., 1974, California (Santa Barbara); M.S., 1979, Ph.D., 1983, California (Berkeley).

SANDOVAL, GERARDO, Assistant Professor of Community and Regional Planning. B.S., 2000, California (Davis); M.C.P., 2002, Ph.D., 2007, California (Berkeley).

SANGER, NATALIE R., Lecturer in Apparel, Educational Studies and Hospitality Management. B.A., 2004, Iowa State; M.A., 2006, California (Davis).

SAPP, STEPHEN GRAHAM, Professor of Sociology. B.A., 1974, M.A., 1980, Florida; Ph.D., 1984, Texas A&M.

SAPP, TRAVIS R. A., Associate Professor of Finance. B.S., 1994, M.S., 1995, Iowa State; Ph.D., 2001, Iowa.

SAPPINGTON, THOMAS W., Assistant Professor of Entomology (Collaborator). B.S., 1979, Central Missouri State; M.S., 1982, Iowa State; Ph.D., 1989, Kansas.

SAR, SELA, Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1998, Sofia (Bulgaria); M.S., 2002, Ph.D., 2006, Minnesota.

SARGENT, DANIEL J., Assistant Professor of Statistics (Collaborator). B.S., 1992, M.S., 1994, Ph.D., 1996, Minnesota.

SARKAR, PARTHA, Professor of Aerospace Engineering; Professor of Civil, Construction and Environmental Engineering. B.Tech., 1985, Indian Institute of Technology; M.S., 1986, Washington State; Ph.D., 1992, Johns Hopkins.

SASSEVILLE, VITO, Professor of Veterinary Pathology (Collaborator). B.S., 1983, Boston College; M.S., 1986, Connecticut; D.V.M., 1990, Tufts; Ph.D., 1993, Connecticut.

SATTERFIELD, DEBRA JEAN, Associate Professor of Art and Design. B.S., 1986, Morningside College; M.F.A., 1991, Iowa State.

SATTERWHITE, MICHAEL, Lecturer in English. B.A., 1983, M.A., 1986, Texas Technical.

SAUER, GEOFFREY F. K., Assistant Professor of English. B.A., 1990, Notre Dame; Ph.D., 1998, Carnegie Mellon.

SAUER, TOM, Associate Professor of Agronomy (Collaborator). B.S., 1982, Wisconsin (Stevens Point); M.S., 1985, Ph.D., 1993, Wisconsin.

SAUNDERS, KEVIN P., Lecturer in Educational Leadership and Policy Studies. B.A., 1994, Drake; M.S., 2000, Drake; Ph.D., 2004, Iowa State.

SAWYER, JOHN E., Professor of Agronomy. B.S., 1977, Ohio State; M.S., 1985, Ph.D., 1988, Illinois.

SAWYER, MARY R., Professor of Philosophy and Religious Studies. B.A., 1971, M.A., 1975, Missouri; M.A., 1982, Howard Divinity; Ph.D., 1986, Duke.

SCANES, COLIN GUY, Professor of Animal Science (Collaborator). B.S., 1969, Hull; Ph.D., 1972, Wales.

SCHABEL, ELIZABETH S., Senior Lecturer in English. B.A., 1981, M.A., 1982, Iowa State.

SCHABEL, FRANK EDWARD, Assistant Professor of Kinesiology. B.S., 1965, New York (Buffalo); M.S., 1971, Eastern Illinois; H.S.D., 1979, Indiana.

SCHAEFER, JOSEPH A., Senior Lecturer in Aerospace Engineering. B.S., 1962, Loras; Ph.D., 1972, Northwestern.

SCHAEFER, VERNON R., Professor of Civil, Construction and Environmental Engineering. B.S., 1978, South Dakota State; M.S., 1981, Iowa State; Ph.D., 1987, Virginia Polytechnic.

SCHAFER, ELISABETH A., Emeritus Professor of Food Science and Human Nutrition. B.S., 1967, Iowa State; M.A., 1970, Pennsylvania State; Ph.D., 1980, Iowa State.

SCHAFER, JOHN WILLIAM, Emeritus Professor of Agronomy. B.S., 1959, Michigan State; M.S., 1960, Kansas State; Ph.D., 1968, Michigan State.

SCHAFER, ROBERT B., Emeritus Professor of Sociology. B.S., 1965, Utah; M.S., 1967, Iowa State; Ph.D., 1971, Pennsylvania State.

SCHALINSKE, KEVIN, Associate Professor of Food Science and Human Nutrition. B.S., 1983, M.S., 1988, Ph.D., 1992, Wisconsin.

SCHALLER, FRANK W., Emeritus Professor of Agronomy. B.S., 1937, Wisconsin; M.S., 1940, Ph.D., 1948, West Virginia.

SCHARFF, JAMES RICHARD, Senior Clinician in Educational Leadership and Policy Studies. B.S., 1968, M.A., 1970, South Dakota; Ph.D., 1998, Iowa State.

SCHEEL, KAREN R., Senior Lecturer in Psychology. B.A., 1987, California (Santa Cruz); Ph.D., 1999, Iowa.

SCHEIBE, KEVIN PAUL, Assistant Professor of Logistics, Operations and Management Information Systems. B.S., 1991, Biola; M.B.A., 1998, California State; Ph.D., 2003, Virginia Polytechnic.

SCHILLING, KEVIN, Associate Professor of Music; Associate Professor of Curriculum and Instruction. A.B., 1969, Southern California; M.M., 1971, D.M., 1985, Indiana.

SCHLATER, LINDA R. K., Instructor in Veterinary Microbiology and Preventive Medicine (Collaborator). D.V.M., 1976, M.S., 1990, Iowa State.

SCHLORHOLTZ, SCOTT M., Adjunct Assistant Professor of Civil, Construction and Environmental Engineering. B.S., 1981, M.S., 1983, Ph.D., 1990, Iowa State.

SCHMALIAN, JOERG, Professor of Physics and Astronomy. M.S., 1990, Merseburg (Germany); Ph.D., 1993, Berlin (Germany).

SCHMERR, LESTER W. JR., Professor of Aerospace Engineering. B.S., 1965, Massachusetts Institute of Technology; Ph.D., 1970, Illinois Institute of Technology.

SCHMIDT, DENISE A., Assistant Professor of Curriculum and Instruction. B.S., 1982, M.S., 1991, Ph.D., 1995, Iowa State.

SCHMIDT, HELEN HOYT, Adjunct Instructor in English. B.A., 1962, Rollins; M.A., 1966, Columbia.

SCHMIDT, STEFFEN W., Professor of Political Science; University Professor. B.A., 1965, Rollins; M.A., 1967, Ph.D., 1973, Columbia.

SCHMIDT-ROHR, KLAUS, Professor of Chemistry. Ph.D., 1991, Mainz (Germany).

SCHNABLE, PATRICK S., Professor of Agronomy; Professor of Genetics, Development and Cell Biology. B.S., 1981, Cornell; Ph.D., 1986, Iowa State.

SCHNEIDER, IAN, Assistant Professor of Chemical and Biological Engineering; Assistant Professor of Genetics, Development and Cell Biology. B.S., 2000, Iowa State; M.S., 2002, Ph.D., 2005, North Carolina State.

SCHNEIDER, LEO R., Emeritus Professor of Kinesiology; Emeritus Professor of Curriculum and Instruction. B.S., 1949, Iowa State; M.S., 1950, Washington State.

SCHNEIDER, PIA, Assistant Professor of Art and Design (Collaborator); Assistant Professor of Architecture (Collaborator). B.Arch., 1985, Swiss Federal Institute of Technology; M.Arch., 1987, Southern California Institute of Arch.

SCHNEIDER, STEPHAN Q., Assistant Professor of Genetics, Development and Cell Biology. Ph.D., 1996, Eberhard-Karls (Germany).

SCHNEIDER, WENDIE ELLEN, Adjunct Assistant Professor of History. B.A., 1992, Stanford; J.D., 2001, Ph.D., 2006, Yale.

SCHOEFFLER, KRISTOFER R., Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2003, D.V.M., 2008, Texas A&M.

SCHOFIELD, ROBERT E., Emeritus Professor of History. B.A., 1944, Princeton; M.S., 1948, Minnesota; Ph.D., 1955, Harvard.

SCHRADER, GLENN L., Emeritus Professor of Chemical and Biological Engineering. B.S., 1972, Iowa State; Ph.D., 1976, Wisconsin.

SCHRAG, KEITH GORDON, Lecturer in Human Development and Family Studies. B.A., 1960, Indiana; DIV, 1966, M.DIV, 1979, Goshen Biblical Seminary.

SCHROETER, JOHN R., Professor of Economics. B.S., 1973, California Institute of Technology; Ph.D., 1981, Minnesota.

SCHUH, JOHN H., Professor of Educational Leadership and Policy Studies; Distinguished Professor in Education. B.A., 1969, Wisconsin (Oshkosh); M.S., 1972, Ph.D., 1974, Arizona State.

SCHULER, RICHARD ERIC, Lecturer in Physics and Astronomy. B.S., 1985, M.Engr., 1987, Texas A&M.

SCHULTE, LISA, Assistant Professor of Natural Resource Ecology and Management. B.S., 1993, Wisconsin (Eau Claire); M.S., 1996, Minnesota; Ph.D., 2002, Wisconsin.

SCHULTZ, CHRISTINE, Lecturer in Mathematics. B.A., 1973, M.A., 1991, Northern Iowa.

SCHULTZ, RICHARD CARL, Professor of Natural Resource Ecology and Management. B.S., 1965, M.S., 1968, Ph.D., 1970, Iowa State.

SCHULTZ, ROY A., Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1957, D.V.M., 1960, M.S., 1981, Iowa State.

SCHUMACHER, DANA K., Lecturer in Music. B.A., 1974, M.F.A., 1976, California (Irvine).

SCHUTTE, JENNY BETH, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2004, D.V.M., 2008, Iowa State.

SCHWAB, ANDREAS, Assistant Professor of Management. M.B.A., 1987, Eastern Illinois; M.A., 1991, Mannheim (Germany); Ph.D., 2000, Wisconsin.

SCHWAB, CHARLES V., Professor of Agricultural and Biosystems Engineering. B.S., 1979, M.S., 1982, Ph.D., 1989, Kentucky.

SCHWARTE, BARBARA S., Associate Professor of English. A.B., 1971, William Jewell; Ph.D., 1981, Illinois.

SCHWARTZ, JAMES W., Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1941, M.S., 1960, Iowa State.

SCHWARTZ, KENT J., Clinician in Veterinary Diagnostic and Production Animal Medicine. B.S., 1974, D.V.M., 1978, M.S., 1987, Iowa State.

SCHWEINGRUBER, DAVID SCOTT, Associate Professor of Sociology. B.A., 1990, Bluffton College; M.A., 1993, Ph.D., 1999, Illinois.

SCHWENNSEN, KATHERINE, Professor of Architecture; Associate Dean of the College of Design. B.A., 1978, M.Arch., 1980, Iowa State.

SCHWIEDER, DOROTHY A., Emeritus Professor of History; University Professor. B.A., 1955, Dakota Wesleyan; M.S., 1968, Iowa State; Ph.D., 1981, Iowa.

SCOTT, ALBERT DUNCAN, Emeritus Professor of Agronomy. B.S.A., 1943, Saskatchewan; Ph.D., 1949, Cornell.

SCOTT, LARRY R., Adjunct Instructor in Military Science and Tactics.

SCOTT, MARVIN PAUL, Associate Professor of Agronomy (Collaborator). B.S., 1986, Iowa State; Ph.D., 1992, Purdue.

SCOTT, NORMAN A., Associate Professor of Psychology. B.S., 1965, Bucknell; M.A., 1967, Temple; Ph.D., 1971, Maryland.

SCOTT, THOMAS MARVIN, Emeritus Associate Professor of Electrical Engineering. B.S., 1953, Maryland; Ph.D., 1962, Wisconsin.

SCUPHAM, ALEXANDRA, Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1994, Ph.D., 2000, Wisconsin.

SEAGRAVE, RICHARD C., Emeritus Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1957, Rhode Island; M.S., 1959, Ph.D., 1961, Iowa State.

SEATON, VAUGHN A., Emeritus Professor of Veterinary Pathology. B.S., 1954, D.V.M., 1954, Kansas State; M.S., 1957, Iowa State.

SEBRANEK, JOSEPH G., Professor of Animal Science; Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1970, M.S., 1971, Ph.D., 1974, Wisconsin.

SEEGER, CHRISTOPHER J., Assistant Professor of Landscape Architecture. B.L.A., 1995, B.S., 1995, North Dakota State; M.L.A., 1997, Iowa State.

SEIFERT, GEORGE, Emeritus Professor of Mathematics. A.B., 1942, New York (Albany); M.A., 1948, Ph.D., 1950, Cornell.

SEIFERT, KARL E., Emeritus Professor of Geological and Atmospheric Sciences. B.S., 1956, Bowling Green; M.S., 1959, Ph.D., 1963, Wisconsin.

SELBY, MARTHA ANN, Adjunct Assistant Professor of Materials Science and Engineering. B.S., 1981, M.S., 1989, Iowa State.

SELL, JERRY L., Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1957, M.S., 1958, Ph.D., 1960, Iowa State.

SELSBY, JOSHUA TAYLOR, Assistant Professor of Animal Science; Assistant Professor of Kinesiology. B.A., 1999, Wooster College; M.A., 2001, Ohio State; Ph.D., 2005, Florida.

SEN, TANER Z., Assistant Professor of Genetics, Development and Cell Biology (Collaborator). B.S., 1996, M.S., 1998, Bogazici (Turkey); Ph.D., 2003, Akron.

SENCHINA, DAVID. Assistant Professor of Kinesiology (Collaborator). B.A., Northern Iowa; Ph.D., Iowa State.

SEO, HILARY, Assistant Professor, Library. B.A., 1991, California (Santa Barbara); M.A., 1993, Wisconsin.

SERB, JEANNE M., Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1995, M.S., 1999, Illinois; Ph.D., 2003, Alabama.

SEROVY, GEORGE KASPAR, Emeritus Professor of Mechanical Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, M.S., 1950, Ph.D., 1958, Iowa State.

SETHURAMAN, SUNDER, Professor of Mathematics. B.S., 1990, Stanford; Ph.D., 1995, New York.

SEVERIN, MICHAEL J., Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2005, D.V.M., 2006, Iowa State.

SEVERSIKE, LEVERNE K., Emeritus Associate Professor of Aerospace Engineering. B.S., 1958, M.S., 1961, Ph.D., 1964, Iowa State.

SEYMOUR, JENNIFER R., Assistant Professor of Curriculum and Instruction. B.A., 1994, M.A., 2000, Missouri; M.A., 2002, Ph.D., 2004, Wisconsin.

SHAHAN, JAMES CLINTON, Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1979, M.S., 1985, Iowa State.

SHAHJAHAN, RIYAD AHMED, Lecturer in Educational Leadership and Policy Studies. Ph.D., 2007, Toronto.

SHANE, JENNIFER, Assistant Professor of Civil, Construction and Environmental Engineering. B.S., 2000, Colorado School of Mines; M.S., 2003, Ph.D., 2006, Colorado.

SHANK, WESLEY IVAN, Emeritus Professor of Architecture. B.A., 1951, California (Berkeley); M.Arch., 1965, McGill.

SHANKS, BRENT H., Professor of Chemical and Biological Engineering. B.S., 1983, Iowa State; M.S., 1985, Ph.D., 1988, California Institute of Technology.

SHANKS, JACQUELINE V., Professor of Chemical and Biological Engineering. B.S., 1983, Iowa State; Ph.D., 1989, California Institute of Technology.

SHAO, PAUL, Professor of Architecture. B.A., 1964, Ohio; B.F.A., 1965, Great China Art College; M.A., 1966, Kansas; M.F.A., 1970, Ed.D., 1979, Massachusetts.

SHAO, YONGZHAO, Associate Professor of Statistics. B.A., 1985, M.A., 1987, Beijing Normal; M.A., 1993, Ph.D., 1994, Tufts.

SHAPIRO, HOWARD N., Emeritus Professor of Mechanical Engineering. B.S., 1969, M.S., 1971, Ph.D., 1975, Ohio State.

SHARMA, JYOTSNA, Assistant Professor of Horticulture (Collaborator). B.S., 1995, Arkansas; M.S., 1998, Ph.D., 2002, Missouri.

SHARMA, VIJAY K., Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1977, M.S., 1978, Panjab (India); Ph.D., 1987, Toledo.

SHARP, RICKEY LEE, Professor of Kinesiology; Professor of Food Science and Human Nutrition; Professor of Biomedical Sciences. B.A., 1974, California State (Chico); M.Ed., 1976, Nevada (Las Vegas); Ph.D., 1983, Ball State.

SHAW, KENNETH C., Emeritus Associate Professor of Ecology, Evolution and Organismal Biology. B.S., 1954, Cincinnati; M.S., 1958, Ph.D., 1966, Michigan.

SHAW, ROBERT HAROLD, Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1941, M.S., 1942, Ph.D., 1949, Iowa State.

SHEARER, JAN K., Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1971, Ashland; D.V.M., 1975,

M.S., 1981, Ohio State.SHEBLE, GERALD B., Emeritus Professor of Electrical and Computer Engineering. B.S., 1971, M.S., 1974, Purdue; Ph.D., 1985, Virginia Polytechnic Institute.

SHECHTMAN, DAN, Professor of Materials Science and Engineering. B.Sc., 1966, M.Sc., 1968, Ph.D., 1972, Technion (Israel).

SHEDD, CELIA P., Lecturer in Human Development and Family Studies. B.S., 1994, Iowa State; M.Ed., 1998, Illinois.

SHEELER, JOHN B., Emeritus Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1950, Ph.D., 1956, Iowa State.

SHELDON, GARY H., Lecturer in Curriculum and Instruction. B.S.E., 1965, M.S.E., 1970, Ed.S., 1972, Ed.D., 1976, Drake.

SHELLEY, JACK, Emeritus Professor of Greenlee School of Journalism and Communication. B.J., 1935, Missouri.

SHELLEY, MACK CLAYTON, Professor of Statistics; Professor of Political Science; University Professor. B.A., 1972, American; M.S., 1973, Ph.D., 1977, Wisconsin.

SHEN, SHELDON SHIH-TA, Professor of Genetics, Development and Cell Biology. B.S., 1969, Missouri; Ph.D., 1974, California (Berkeley).

SHENK, LINDA, Assistant Professor of English. B.A., 1991, James Madison; M.A., 1994, Alaska; Ph.D., 2002, Minnesota.

SHERMAN, PETER JAMES, Associate Professor of Aerospace Engineering; Associate Professor of Statistics. B.S., 1974, M.S., 1975, Ph.D., 1984, Wisconsin.

SHHLOERKE, WALLACE C., Emeritus Professor of Curriculum and Instruction. A.B., 1947, M.S., 1950, Ed.Sp., 1962, Ed.D., 1964, Michigan.

SHI, LIJUN, Lecturer in World Languages and Cultures. B.A., 1985, Beijing Foreign Studies (China); M.A., 2006, Iowa State.

SHI, XIAOWEI, Lecturer in Psychology. B.A., 1997, Beijing Language (China); M.A., 2003, DePaul.

SHIBLES, RICHARD M., Emeritus Professor of Agronomy. B.S., 1956, Maine; M.S., 1958, Ph.D., 1961, Cornell.

SHIH, TOM I-PING, Professor of Aerospace Engineering and Chair of the Department. B.S.E., 1976, National Cheng Kung; M.S.E., 1977, Ph.D., 1981, Michigan.

SHIN, YEON-KYUN, Professor of Biochemistry, Biophysics and Molecular Biology; Professor of Chemistry. B.S., 1982, Seoul National (Korea); Ph.D., 1990, Cornell.

SHINAR, JOSEPH, Professor of Physics and Astronomy and Chair of the Department; Professor of Electrical and Computer Engineering. B.Sc., 1972, M.Sc., 1974, Ph.D., 1980, Hebrew (Israel).

SHINAR, RUTH, Adjunct Professor of Electrical and Computer Engineering. B.S., 1968, M.S., 1972, Ph.D., 1977, Hebrew (Israel).

SHINN, RICHARD DUANE, Emeritus Professor of Community and Regional Planning. B.Arch., 1960, Idaho; M.S.C.R.P., 1962, Southern California; Ph.D., 1969, Washington.

SHIROKOV, ANDREY, Lecturer in Physics and Astronomy. M.S., 1976, Moscow State (Russia); Ph.D., 1987, Kurchatov Institute (Russia).

SHOEMAKER, RANDY C., Professor of Agronomy (Collaborator); Professor of Genetics, Development and Cell Biology (Collaborator). B.S., 1977, Wisconsin (Stevens Point); M.S., 1980, Wisconsin (Green Bay); Ph.D., 1984, Iowa State.

SHOGREN-KNAAK, MICHAEL, Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1994, Stanford; Ph.D., 2000, California Institute of Technology.

SHONROCK, DIANA D., Associate Professor, Library. B.S., 1969, M.S., 1975, Iowa State; M.L.S., 1992, Iowa.

SHOWERS, WILLIAM B. JR., Emeritus Professor of Entomology. B.S., 1958, Arizona; M.S., 1966, Louisiana State; Ph.D., 1970, Iowa State.

SHRADER, CHARLES B., Professor of Management; University Professor. B.S., 1976, M.P.A., 1978, Brigham Young; M.B.A., 1982, Ph.D., 1984, Indiana.

SHRADER, WILLIAM, Emeritus Professor of Agronomy. B.S., 1935, M.S., 1941, Missouri; Ph.D., 1953, Iowa State.

SHROTRIYA, PRANAV, Assistant Professor of Mechanical Engineering. B.Tech., 1995, Indian Institute of Technology (India); Ph.D., 2000, Illinois.

SILET, CHARLES L., Emeritus Professor of English. B.A., 1966, Butler; M.A., 1968, Ph.D., 1973, Indiana.

SIMONS, RONALD L., Professor of Sociology (Collaborator). B.A., 1969, Northern Iowa; M.S.S.W., 1971, Wisconsin; Ph.D., 1974, Florida State.

SIMONSON, DONALD R., Professor of Music. B.M.E., 1974, B.Mus., 1975, M.M., 1976, Drake; D.M., 1987, Northwestern.

SIMPKINS, WILLIAM W., Professor of Geological and Atmospheric Sciences. B.A., 1976, Augustana (Illinois); M.S., 1979, Ph.D., 1989, Wisconsin.

SINGER, JEREMY W., Assistant Professor of Agronomy (Collaborator). B.S., 1990, M.S., 1996, Ph.D., 1998, Cornell.

SINGER, SHIRLEE R., Emeritus Professor of Art and Design. B.A., 1956, M.A., 1966, North Texas.

SINGH, NATALIA N., Adjunct Assistant Professor of Biomedical Sciences. M.S., 1988, Leningrad Lensovet Institute (Russia); Ph.D., 1995, Russian Academy of Science.

SINGH, RAJESH, Associate Professor of Economics. B.Tech., 1981, Bhuit (India); M.Tech., 1983, Iit (India); Ph.D., 2002, California (Los Angeles).

SINGH, RAVINDRA N., Associate Professor of Biomedical Sciences. B.Sc., 1983, M.Sc., 1985, Banaras Hindu (India); Ph.D., 1993, Russian Academy of Sciences.

SIROTIAK, TODD L., Senior Lecturer in Civil, Construction and Environmental Engineering. B.S., 1983, M.S., 1997, Iowa State.

SIVASANKAR, SANJEEVI, Assistant Professor of Physics and Astronomy. B.Sc., 1993, M.Sc., 1995, All India Institute of Medical Sciences ; Ph.D., 2001, Illinois.

SIVILS, MATTHEW WYNN, Assistant Professor of English. B.S., 1994, Arkansas Tech; M.A., 2002, Ph.D., 2006, Oklahoma State.

SKAAR, BRAD RICHARD, Associate Professor of Animal Science. B.S., 1979, Colorado State; M.S., 1982, Ph.D., 1985, Iowa State.

SKRDLA, WILLIS H., Emeritus Professor of Agronomy. B.S., 1941, Nebraska; Ph.D., 1949, Purdue.

SLAGELL, AMY R., Associate Professor of English. B.S., 1983, Ohio; M.A., 1986, Ph.D., 1992, Wisconsin.

SLEUGH, BYRON B., Lecturer in Agronomy. B.S., 1994, Delaware Valley College; M.S., 1997, Ph.D., 1999, Iowa State.

SLOAN, JEFF A., Assistant Professor of Statistics (Collaborator). B.Sc., 1981, St. John's College; M.Sc., 1982, Ph.D., 1991, Manitoba.

SLUTZKI, GIORA, Professor of Computer Science. B.S., 1970, Hebrew (Jerusalem); M.S., 1973, Weizmann Institute; Ph.D., 1977, Tel-Aviv.

SLY, DAVID P., Lecturer in Industrial and Manufacturing Systems Engineering. B.S., 1985, M.S., 1990, M.B.A., 1995, Ph.D., 2004, Iowa State.

SMADI, OMAR G., Adjunct Assistant Professor of Civil, Construction and Environmental Engineering. B.S., 1987, Yarmouk (Jordan); M.S., 1991, Ph.D., 2000, Iowa State.

SMARANDESCU, LAURA, Assistant Professor of Marketing. B.A., 2002, British Columbia; Ph.D., 2007, South Carolina.

SMAY, TERRY ALLEN, Emeritus Professor of Electrical and Computer Engineering. B.S., 1957, M.S., 1959, Ph.D., 1962, Iowa State.

SMILEY, MICHAEL W., Professor of Mathematics. B.S., 1975, M.S., 1976, Michigan Tech; Ph.D., 1980, Michigan.

SMILEY-OYEN, ANN, Associate Professor of Kinesiology. B.S., 1977, M.S., 1979, Illinois; B.A., 1989, Ph.D., 1993, Michigan.

SMITH, ARTHUR A. JR., Professor of Philosophy and Religious Studies and Chair of the Department; Professor of Political Science. B.A., 1974, Boston College; Ph.D., 1980, New York (Stony Brook).

SMITH, BRUCE E., Emeritus Professor of Art and Design. B.F.A., 1967, M.F.A., 1971, Michigan State.

SMITH, CARL RAY, Professor of Curriculum and Instruction and Chair of the Department. B.S., 1971, M.Ed., 1973, Virginia Commonwealth; Ph.D., 1983, Iowa.

SMITH, CLIFFORD E., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1949, M.S., 1958, Ph.D., 1964, Iowa State.

SMITH, DUANE EUGENE, Lecturer in Civil, Construction and Environmental Engineering. B.S., 1970, M.S., 1980, Iowa State.

SMITH, EMILY, Assistant Professor of Chemistry. M.S., 2000, Pennsylvania State; Ph.D., 2003, Wisconsin.

SMITH, FRANCES, Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Professor of Curriculum and Instruction. B.S., 1952, Southwestern (Oklahoma); M.S., 1958, Oklahoma State; Ph.D., 1966, Iowa State.

SMITH, FREDERICK G., Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1939, Chicago; M.S., 1941, Ph.D., 1943, Wisconsin.

SMITH, GERALD W., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1952, M.S., 1958, Ph.D., 1961, Iowa State.

SMITH, HEATHER S., Lecturer in English. B.S., 1994, Virginia; M.F.A., 1997, Iowa.

SMITH, JOHN F., Emeritus Professor of Materials Science and Engineering. B.A., 1948, Missouri (Kansas City); Ph.D., 1953, Iowa State.

SMITH, JONATHAN D. H., Professor of Mathematics. B.A., 1970, M.A., 1974, Ph.D., 1975, Cambridge; Dr.rer.nat, 1983, Darmstadt (Germany).

SMITH, KIM ANTHONY, Professor of Greenlee School of Journalism and Communication. B.A., 1974, M.A., 1976, Ph.D., 1978, Wisconsin.

SMITH, MARY MARLA, Instructor in Food Science and Human Nutrition (Collaborator). B.A., 1948, Clarke; M.S., 1966, Iowa State.

SMITH, MATTHEW O., Senior Lecturer in Music. B.S., 1993, Illinois; M.M., 1999, Michigan.

SMITH, RICHARD JOHN, Emeritus Professor of Agricultural and Biosystems Engineering. B.Sc., 1962, Kings College; M.S., 1967, Ph.D., 1971, Iowa State.

SMITH, RICHARD LYNN, Senior Lecturer in Management. B.A., 1969, Wartburg College; M.B.A., 1998, Iowa State.

SMITH, ROGER A. P., Professor of Educational Leadership and Policy Studies. B.A., 1969, M.A., 1971, Northern Iowa; Ph.D., 1974, Iowa State.

SNELL, LLOYD D., Lecturer in Agricultural and Biosystems Engineering. B.A., 1983, McPherson; B.A., 2000, M.S., 2008, Iowa State.

SOBIECH-MUNSON, ANN CLARE, Assistant Professor of Architecture; Assistant Professor of Art and Design. B.A., 1991, Central College; M.Arch., 2000, Iowa State.

SOMANI, ARUN K., Professor of Electrical and Computer Engineering and Chair of the Department; Anson Marston Distinguished Professor in Engineering. B.E., 1973, Bit (India); M.Tech., 1979, Iit (India); M.S.E.E., 1983, Ph.D., 1985, McGill (Canada).

SONG, GUANG, Assistant Professor of Computer Science. B.S., 1992, Jiolin (China); M.S., 1998, Ph.D., 2003, Texas A&M.

SONG, JIHYUN, Assistant Professor of Art and Design. B.F.A., 1994, M.F.A., 1996, Ewha Women's (Korea); M.S., 2003, Wisconsin.

SONG, JIMING, Associate Professor of Electrical and Computer Engineering. B.S., 1983, M.S., 1988, Nanjing (China); Ph.D., 1993, Michigan State.

SONG, SUNG YELL, Associate Professor of Mathematics. B.S., 1974, Seoul; Ph.D., 1987, Ohio State.

SONG, XUEYU, Associate Professor of Chemistry. B.S., 1984, Nankai (China); Ph.D., 1995, California Institute of Technology.

SONTAG, JON, Emeritus Professor of Art and Design. B.S., 1955, Winona; M.A., 1963, Ph.D., 1970, Minnesota.

SOSNICKI, ANDRZEJ A., Associate Professor of Animal Science (Collaborator). M.S., 1978, Mickiewicz (Poland); Ph.D., 1984, Academy of Agriculture (Poland).

SOSONKINA, MASHA, Adjunct Associate Professor of Electrical and Computer Engineering. B.Sc., 1992, M.Sc., 1993, Kier State; Ph.D., 1997, Virginia Tech.

SOUKOULIS, COSTAS M., Professor of Physics and Astronomy; Professor of Aerospace Engineering; Professor of Electrical and Computer Engineering; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Athens; M.S., 1975, Ph.D., 1978, Chicago.

SOULEYRETTE, REGINALD, Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1984, M.S.C.E., 1986, Texas; Ph.D., 1989, California (Berkeley).

SOUPENE, JOHN C., Professor of Military Science and Tactics and Chair of the Department. B.S., 1991, U.S. Military Academy; M.B.A., 2003, Embry Riddle Aeronautical.

SOUPIR, MICHELLE LYNN, Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1999, Kansas State; M.S., 2003, Ph.D., 2007, Virginia Polytechnic.

SPALDING, BEATRIZ M., Lecturer in Ecology, Evolution and Organismal Biology. B.S., 1976, Napoli (Italy); M.S., 1988, Iowa State.

SPALDING, MARTIN H. II, Professor of Genetics, Development and Cell Biology and Chair of the Department. B.S., 1974, M.S., 1976, Washington State; Ph.D., 1979, Wisconsin.

SPEER, VAUGHN CURTIS, Emeritus Professor of Animal Science. B.S., 1949, M.S., 1951, Ph.D., 1957, Iowa State.

SPIKE, PHILIP LOWELL, Professor of Animal Science. B.S., 1970, M.S., 1972, Michigan State; Ph.D., 1975, Iowa State.

SPINRAD, BERNARD I., Emeritus Professor of Mechanical Engineering. B.S., 1942, M.S., 1944, Ph.D., 1945, Yale.

SPONSELLER, BEATRICE T., Clinician in Veterinary Clinical Sciences. D.V.M., 1996, Berlin (Germany).

SPONSELLER, BRETT A., Assistant Professor of Veterinary Clinical Sciences; Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1990, Virginia Polytechnic; D.V.M., 1994, Cornell; Ph.D., 2003, Iowa State.

SPRY, PAUL G., Professor of Geological and Atmospheric Sciences. B.S., 1976, B.S., 1977, M.S., 1979, Adelaide; Ph.D., 1984, Toronto.

SPRY-KNUTSON, JENNIFER, Lecturer in Kinesiology. B.S., 1990, Iowa State; M.A., 1995, Iowa.

SPURLOCK, DIANE MOODY, Associate Professor of Animal Science. B.S., 1992, Virginia Polytechnic; M.S., 1994, Oklahoma State; Ph.D., 1998, Nebraska.

SPURLOCK, MICHAEL EUGENE, Professor of Food Science and Human Nutrition; Professor of Animal Science. B.S., 1981, M.S., 1987, Ph.D., 1989, Missouri.

SQUIRE, MITCHELL J., Associate Professor of Architecture. B.Arch., 1994, M.Arch., 2001, Iowa State.

SREENIVASAM, ELSA M., Emeritus Associate Professor of Art and Design. B.A., 1951, St. Scholastica; M.A., 1969, Minnesota.

SRITHARAN, SIVALINGAM, Associate Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1985, Peradeniya (Sri Lanka); M.E., 1989, Auckland (New Zealand); Ph.D., 1998, California (San Diego).

ST GERMAIN, ALISON M., Lecturer in Food Science and Human Nutrition. B.S., 1995, M.S., 1999, Iowa State.

STABEL, JUDITH R., Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1981, M.S., 1983, Kentucky; Ph.D., 1987, North Carolina State.

STACY-BATES, KRISTINE, Associate Professor, Library. B.S., 1992, Iowa State; M.A., 1994, M.A., 1997, Wisconsin.

STADLER, JOAN K., Emeritus Professor of Genetics, Development and Cell Biology; University Professor. B.A., 1951, Wellesley; Ph.D., 1954, Missouri.

STAHR, HENRY M., Emeritus Professor of Veterinary Pathology. B.S., 1956, South Dakota State; M.S., 1960, Union; Ph.D., 1976, Iowa State.

STALDER, KENNETH J., Associate Professor of Animal Science. B.S., 1987, Iowa State; M.S., 1992, Western Kentucky; Ph.D., 1995, Iowa State.

STANFORD, JOHN L., Emeritus Professor of Physics and Astronomy. B.S., 1960, Texas; Ph.D., 1965, Maryland.

STANTON, THADDEUS BRIAN, Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1972, Thomas More; Ph.D., 1980, Massachusetts.

STARLEAF, DENNIS R., Emeritus Professor of Economics. B.A., 1959, California (Berkeley); M.A., 1960, California (Los Angeles); Ph.D., 1967, Vanderbilt.

STARNS, GLORIA K., Senior Lecturer in Mechanical Engineering. B.S., 1979, B.S., 1986, Kentucky; M.S., 1990, Ph.D., 1996, Iowa State.

STAROBIN, SOKO, Assistant Professor of Educational Leadership and Policy Studies. B.S., 1996, M.Ed., 1998, Ph.D., 2004, North Texas.

STAUFFER, HANS, Assistant Professor of Chemistry. Ph.D., 2000, Cornell.

STEELE, NATALIE A., Lecturer in Music. B.M., 1994, M.M., 1997, Ohio.

STEINER, ANNE K., Emeritus Professor of Mathematics. A.B., 1958, M.A., 1963, Missouri; Ph.D., 1965, New Mexico.

STEINER, EUGENE F., Emeritus Professor of Mathematics. B.S., 1954, Missouri (Rolla); M.A., 1960, Ph.D., 1963, Missouri.

STEPHENS, LOREN C., Associate Professor of Horticulture. B.A., 1971, Iowa; M.S., 1974, Ph.D., 1982, Minnesota.

STEPHENSON, DAVID T., Emeritus Associate Professor of Electrical Engineering. B.S., 1958, Washington State; M.S., 1962, Ph.D., 1965, Illinois.

STEPHENSON, JAMES A., Emeritus Professor of Economics. B.A., 1960, Wittenberg; M.A., 1964, Ph.D., 1965, California (Berkeley).

STEPHENSON, MATTHEW WAYNE, Adjunct Instructor in Military Science and Tactics. B.S., 2003, Iowa State.

STEPHENSON, W. ROBERT, Professor of Statistics; University Professor. B.A., 1974, Gettysburg; M.S., 1976, Ph.D., 1979, Connecticut.

STEVEN, JULIANNE M., Lecturer in Educational Leadership and Policy Studies. B.A., 1990, M.S., 2000, Buena Vista.

STEVERMER, EMMETT J., Emeritus Professor of Animal Science. B.S., 1958, M.S., 1960, Ph.D., 1962, Wisconsin.

STEWARD, BRIAN LYNN, Associate Professor of Agricultural and Biosystems Engineering. B.S., 1989, M.S., 1994, South Dakota State; Ph.D., 1999, Illinois.

STEWART, CECIL R., Emeritus Professor of Genetics, Development and Cell Biology; Emeritus Professor of Plant Pathology. B.S., 1958, Illinois; M.S., 1963, Ph.D., 1967, Cornell.

STEWART, ROBERT M. JR., Emeritus Professor of Electrical and Computer Engineering; Emeritus Professor of Computer Science. B.S., 1945, Ph.D., 1954, Iowa State.

STEWART, SUSAN DIANE, Associate Professor of Sociology. B.A., 1990, New York (Fredonia); M.A., 1996, Ph.D., 2000, Bowling Green State.

STEWART, TIMOTHY W., Assistant Professor of Natural Resource Ecology and Management. B.A., 1989, Ithaca College; M.Sc., 1993, New York (Brockport); Ph.D., 1999, Bowling Green State.

STIEGLITZ, MARY, Emeritus Professor of Art and Design. B.S., 1963, Wisconsin (Milwaukee); M.A.T., 1965, Indiana; Ph.D., 1972, Wisconsin.

STIEHL, CORY KATHERINE, Lecturer in Chemical and Biological Engineering. B.S., 1985, Rochester; Ph.D., 1990, Massachusetts.

STOKKE, DOUGLAS D., Senior Lecturer in Natural Resource Ecology and Management. B.S., 1980, Iowa State; M.S., 1982, Minnesota; Ph.D., 1986, Iowa State.

STONE, JANIS FINLEY, Emeritus Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1959, M.S., 1963, Ph.D., 1978, Illinois.

STONE, KENNETH EUGENE, Emeritus Professor of Economics. B.S., 1958, Illinois; M.M.S., 1971, Texas Christian; Ph.D., 1976, Illinois.

STONE, RICHARD T., Assistant Professor of Industrial and Manufacturing Systems Engineering; Assistant Professor of Mechanical Engineering. B.S., 1999, M.S., 2001, Rochester Institute of Technology; Ph.D., 2008, New York (Buffalo).

STONE, VERNON F., Emeritus Professor of Architecture. B.Arch., 1948, Washington (St Louis).

STOPPEL, SHELLY, Lecturer in Curriculum and Instruction. B.A., 1991, Upper Iowa; M.A., 2001, Viterbo; Ed.S., 2006, Drake.

STOUT, JANEANN, Associate Professor of Art and Design. B.S., 1971, M.A., 1974, Iowa State.

STOUT, THOMAS B., Lecturer in Civil, Construction and Environmental Engineering. B.S.E., 1971, Sacramento State College; M.S., 1992, Nebraska; Ph.D., 2005, Iowa State.

STOVER, ROGER D., Professor of Finance. B.A., 1966, Hamline; M.B.A., 1968, Indiana; D.B.A., 1975, Virginia.

STOYTCHEV, ALEXANDER T., Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Computer Science. B.A., 1997, American (Bulgaria); M.S., 2001, Ph.D., 2005, Georgia Institute of Technology.

STRAHAN, ROBERT F., Emeritus Professor of Psychology; Emeritus Professor of Statistics. B.A., 1961, Kansas (Pittsburg); Ph.D., 1967, Minnesota.

STRAIT, ERIN L., Clinician in Veterinary Diagnostic and Production Animal Medicine. B.S., 1995, Buena Vista; D.V.M., 2005, Ph.D., 2008, Iowa State.

STRITZEL, JOSEPH A., Emeritus Professor of Agronomy. B.S., 1949, M.S., 1953, Ph.D., 1958, Iowa State.

STROHBEHN, CATHERINE, Adjunct Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1979, Texas Tech; M.S., 1981, Ph.D., 1991, Iowa State.

STROHBEHN, DARYL R., Professor of Animal Science. B.S., 1970, Iowa State; M.S., 1972, Ph.D., 1974, Michigan State.

STROHL, JOHN KENNETH, Lecturer in Food Science and Human Nutrition. B.S., 1981, Minnesota; Ph.D., 1988, Iowa State.

STROMER, MARVIN H., Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1959, Ph.D., 1966, Iowa State.

STRONG, JOHN R., Emeritus Associate Professor of Human Development and Family Studies. B.S., 1959, Brigham Young; M.S., 1962, Arizona State; Ph.D., 1974, Oregon State.

STRONG, KELLY C., Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1980, Iowa State; M.B.A., 1988, St. Thomas; Ph.D., 1992, Colorado.

STRUCK, CURTIS J., Professor of Physics and Astronomy. B.S., 1976, Minnesota; M.Phil., 1978, Ph.D., 1981, Yale.

STRUVE, WALTER SCOTT, Emeritus Professor of Chemistry. A.B., 1967, Ph.D., 1972, Harvard.

STUART, DAVID H., Professor of Music; Professor of Curriculum and Instruction. B.A., 1972, M.M., 1973, South Florida; D.M.A., 1981, Iowa.

STURGES, LEROY DONALD, Associate Professor of Aerospace Engineering. B.Aer.E., 1967, M.S., 1975, Ph.D., 1977, Minnesota.

STURM, JONATHAN, Associate Professor of Music. B.Mus., 1983, Oberlin College; M.A., 1985, M.M., 1985, Eastman School of Music; D.M.A., 1995, Indiana.

SU, BO, Assistant Professor of Mathematics. B.A., 1990, M.S., 1993, Beijing (China); Ph.D., 1999, Northwestern.

SUBRAMANIAM, SHANKAR, Associate Professor of Mechanical Engineering. B.Tech., 1988, Indian Institute of Technology (India); M.S., 1990, Notre Dame; Ph.D., 1997, Cornell.

SUKHATME, SHASHIKALA, Emeritus Associate Professor of Statistics. B.Sc., 1954, M.Sc., 1955, Poona; Ph.D., 1960, Michigan State.

SUMERFORD, DOUGLAS V., Assistant Professor of Entomology (Collaborator). B.S., 1988, North Carolina State; M.S., 1991, Bucknell; Ph.D., 1997, North Carolina State.

SUMMERFELT, ROBERT C., Emeritus Professor of Natural Resource Ecology and Management. B.S., 1957, Wisconsin (Stevens Point); M.S., 1959, Ph.D., 1964, Southern Illinois.

SUNDARARAJAN, SRIRAM, Associate Professor of Mechanical Engineering. B.E., 1995, Birla Institute of Technology and Science; M.S., 1997, Ph.D., 2001, Ohio State.

SUNDERMAN, ROBERT A., Associate Professor of Music. B.F.A., 1979, M.A., 1981, M.F.A., 1982, Iowa.

SUNG, SHIHWU, Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1983, Tam Kang; M.S., 1988, Auburn; Ph.D., 1994, Iowa State.

SURAMPALLI, RAO, Professor of Civil, Construction and Environmental Engineering (Collaborator). M.Sc., 1975, Osmania; M.S., 1978, Oklahoma State; Ph.D., 1985, Iowa State.

SUZUKI, YOSHINORI, Associate Professor of Logistics, Operations and Management Information Systems. B.S., 1987, Sophia (Japan); M.B.A., 1992, New York; Ph.D., 1998, Pennsylvania State.

SVENDSEN, LINDA K., Lecturer in Food Science and Human Nutrition. B.A., 1981, Augsburg College; M.S., 1999, Iowa State.

SWAN, PATRICIA B., Emeritus Professor of Food Science and Human Nutrition. B.S., 1959, North Carolina (Greensboro); M.S., 1961, Ph.D., 1964, Wisconsin.

SWANDER, MARY L., Professor of English; Distinguished Professor in Liberal Arts and Sciences. B.A., 1973, M.F.A., 1976, Iowa.

SWANSON, PATRICIA M., Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1969, M.S., 1975, Ph.D., 1988, Iowa State.

SWEET, DAWN, Lecturer in Psychology. B.A., 1993, Kean College; M.A., 1998, College of New Jersey; Ph.D., 2008, Rutgers.

SWEIGER, SHAUN H., Lecturer in Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1994, M.S., 1998, Missouri.

SWENSON, CLAYTON A., Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1944, Harvard; D.Phil., 1949, Oxford.

SWENSON, DAVID A., Adjunct Assistant Professor of Community and Regional Planning. B.S., 1979, M.A., 1981, South Dakota; M.A., 1985, Iowa.

SWENSON, RUTH WILDMAN, Emeritus Professor of Genetics, Development and Cell Biology. A.B., 1946, Mount Holyoke; M.S., 1947, Illinois; Ph.D., 1969, Iowa State.

SWENSON, VIRGINIA M., Lecturer in Curriculum and Instruction. B.S., 1970, M.S., 1988, Iowa State.

SWIFT, ARTHUR G., Emeritus Professor of Music. B.M.E., 1957, M.M., 1960, Louisiana State; Ph.D., 1969, Iowa.

SWIFT, CURRAN STEWART, Emeritus Professor of Electrical Engineering. B.S., 1962, M.S., 1964, Ph.D., 1968, Iowa State.

SWITZER, WILLIAM P., Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1948, Texas A&M; M.S., 1951, Ph.D., 1954, Iowa State; Dr.H.C., 1979, Vienna.

TABATABAI, LOUISA, Professor of Biochemistry, Biophysics and Molecular Biology (Collaborator); Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1962, California (Berkeley); M.S., 1966, Ph.D., 1976, Iowa State.

TABATABAI, M. ALI, Professor of Agronomy. B.S., 1958, Baghdad; M.S., 1960, Oklahoma State; Ph.D., 1965, Iowa State.

TABER, HENRY GLENN, Professor of Horticulture. B.S., 1965, Cornell; M.S., 1969, Ph.D., 1972, Purdue.

TAIT, JOHN LAWRENCE, Emeritus Professor of Sociology. B.S., 1956, Pennsylvania State; M.S., 1964, Ph.D., 1970, Iowa State.

TAKLE, GENE S., Professor of Agronomy; Professor of Geological and Atmospheric Sciences; Professor of Aerospace Engineering. B.A., 1966, Luther; Ph.D., 1971, Iowa State.

TAM, TIN-SHI, Associate Professor of Music. B.A., 1984, Chinese (Hong Kong); M.A., 1985, Wales; M.Sc., 1986, Durham; D.M.A., 1994, Michigan.

TAMASHUNAS, VICTOR M., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1950, M.S., 1959, Iowa State.

TAN, XIAOLI, Associate Professor of Materials Science and Engineering. B.E., 1989, M.S., 1992, Xian Jiaotong (China); Ph.D., 2002, Illinois.

TANG, LIE, Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1989, Jiangsu; M.S., 1994, Zhejiang; Ph.D., 2002, Illinois.

TANNEHILL, JOHN C., Emeritus Professor of Aerospace Engineering. B.S., 1965, M.S., 1967, Ph.D., 1969, Iowa State.

TANNER, RICHARD T., Emeritus Professor of Curriculum and Instruction. B.S., 1958, Oregon College of Education; M.S., 1962, Oregon State; Ph.D., 1968, Stanford.

TAOUTEL, JEAN-PIERRE, Senior Lecturer in World Languages and Cultures. B.A., 1989, Saint Joseph (Lebanon); M.A., 1993, Sorbonne Nouvelle (France).

TARTAKOV, CARLIE C., Emeritus Assistant Professor of Curriculum and Instruction. B.A., 1963, California State (San Francisco); M.A., 1973, Massachusetts; Ph.D., 1995, Iowa State.

TARTAKOV, GARY M., Emeritus Professor of Art and Design. B.A., 1963, M.A., 1966, Ph.D., 1969, California (Los Angeles).

TAVANAPONG, WALLAPAK, Associate Professor of Computer Science. B.S., 1992, Thammasat (Thailand); M.S., 1995, Ph.D., 1999, Central Florida.

TAYLOR, ADRIAN SEAN, Lecturer in Curriculum and Instruction. B.S., 1992, Brigham Young; M.S., 1996, Iowa State.

TAYLOR, GARY D., Assistant Professor of Community and Regional Planning. B.S., 1985, Northwest Missouri State; J.D., 1988, Nebraska; M.C.R.P., 1996, Iowa State.

TAYLOR, PETER C., Adjunct Assistant Professor of Civil, Construction and Environmental Engineering. Ph.D., 1995, Cape Town.

TAYLOR, ROD K., Adjunct Instructor in Military Science and Tactics.

TAYLOR, STERLING E., Professor of Agronomy. B.S., 1966, Utah State; Ph.D., 1970, Washington (St. Louis).

TEAS, ROY KENNETH, Emeritus Professor of Marketing; Distinguished Professor in Business. B.S., 1969, Augustana (South Dakota); M.B.A., 1970, Ph.D., 1975, Oklahoma.

TENER, JAMES R., Senior Lecturer in Music. B.A., 1970, Iowa; M.Div., 1973, Yale.

TERANDO, WILLIAM D., Assistant Professor of Accounting. B.S., 1979, California State (Hayward); M.S., 1986, Golden Gate; Ph.D., 1993, Illinois.

TESFAGIORGIS, GEBRE H., Adjunct Associate Professor of Educational Leadership and Policy Studies. B.B.A., 1971, Hsi (Ethiopia); M.S., 1975, Ph.D., 1978, J.D., 1988, Wisconsin.

TESFATSION, LEIGH S., Professor of Economics; Professor of Mathematics. B.A., 1968, Carleton; Ph.D., 1975, Minnesota.

THACKER, BRAD J., Professor of Veterinary Diagnostic and Production Animal Medicine (Collaborator). D.V.M., 1978, M.S., 1982, Ph.D., 1985, Minnesota; M.B.A., 2002, Iowa State.

THACKER, EILEEN L., Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1976, D.V.M., 1978, Minnesota; Ph.D., 1993, Michigan State.

THACKER, TYLER C., Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1994, M.S., 1996, Ph.D., 2003, Brigham Young.

THAYNE, JEFFREY T., Lecturer in Animal Science. B.S., 2004, M.S., 2007, Texas A&M.

THERNEAU, TERRY M., Professor of Statistics (Collaborator). B.A., 1975, St. Olaf College; Ph.D., 1983, Stanford.

THIEL, PATRICIA ANN, Professor of Chemistry; Professor of Materials Science and Engineering; Distinguished Professor in Liberal Arts and Sciences. B.A., 1975, Macalester; Ph.D., 1981, California Institute of Technology.

THIELEN, THOMAS B., Emeritus Associate Professor of Educational Leadership and Policy Studies. B.S., 1957, Mankato; M.S., 1964, Wyoming; Ed.D., 1970, Indiana.

THOEN, CHARLES O., Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1959, D.V.M., 1961, Ph.D., 1971, Minnesota.

THOGMARTIN, CLYDE O., Emeritus Associate Professor of World Languages and Cultures. B.A., 1962, M.A., 1964, Kansas; M.A., 1966, Ph.D., 1970, Michigan.

THOGMARTIN, WAYNE, Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.A., 1990, California (San Diego); M.S., 1998, Arkansas; Ph.D., 2002, Southern Illinois.

THOMAS, JAMES A., Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1960, St. Olaf; M.S., 1963, Ph.D., 1967, Wisconsin.

THOMAS, JERRY R., Emeritus Professor of Kinesiology. B.A., 1963, Furman; M.A., 1964, Ed.D., 1970, Alabama.

THOMAS, JOHN CHARLES, Lecturer in Greenlee School of Journalism and Communication. B.A., 1965, Northern Iowa; M.S., 2007, Iowa State.

THOMAS, KATHERINE T., Associate Professor of Kinesiology. B.S., 1971, Mississippi; M.S., 1977, Alabama (Birmingham); Ph.D., 1981, Louisiana State.

THOMAS, REX ALLAN, Emeritus Professor of Curriculum and Instruction; Emeritus Professor of Computer Science. B.A., 1955, Iowa; M.A., 1961, Northern Iowa; Ph.D., 1970, Iowa State.

THOMPSON, DONALD O., Emeritus Professor of Aerospace Engineering; Anson Marston Distinguished Professor in Engineering. B.A., 1949, M.S., 1950, Ph.D., 1953, Iowa.

THOMPSON, ELIZABETH A., Professor of Curriculum and Instruction; University Professor. B.A., 1965, Pomona; M.A., 1966, Stanford; Ph.D., 1981, California (Santa Barbara).

THOMPSON, HARVEY E., Emeritus Professor of Agronomy. B.S., 1947, M.S., 1948, Ph.D., 1951, Wisconsin.

THOMPSON, JAMES R., Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1974, D.V.M., 1974, M.S., 1978, Iowa State.

THOMPSON, JANETTE R., Associate Professor of Natural Resource Ecology and Management. B.S., 1981, Michigan Tech; M.S., 1984, Ph.D., 1991, Iowa State.

THOMPSON, LINDA S., Clinician in Veterinary Clinical Sciences. B.S., 1977, D.V.M., 1982, Iowa State.

THOMPSON, LOUIS M., Emeritus Professor of Agronomy. B.S., 1935, Texas A&M; M.S., 1947, Ph.D., 1950, Iowa State.

THOMPSON, MICHAEL L., Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.S., 1974, Illinois; Ph.D., 1980, Ohio State.

THOMPSON, R. BRUCE, Professor of Materials Science and Engineering; Professor of Aerospace Engineering; Anson Marston Distinguished Professor in Engineering. B.A., 1964, Rice; M.S., 1965, Ph.D., 1971, Stanford.

THOMPSON, WILLIAM H., Emeritus Professor of Transportation and Logistics. B.S., 1934, Pennsylvania State; M.S., 1939, Syracuse; Ph.D., 1948, Iowa State.

THOMSEN, BRUCE V., Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1988, Northwest Missouri State; D.V.M., 1990, Missouri; Ph.D., 2001, Iowa State.

THOMSON, JOHN ULAN, Professor of Veterinary Diagnostic and Production Animal Medicine; Dean of the College of Veterinary Medicine. B.S., 1965, D.V.M., 1967, Iowa State; M.S., 1988, Northwest Missouri State.

THORNBURG, ROBERT W., Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, Tennessee; Ph.D., 1981, South Carolina.

THUNE, WILLIAM SCOTT, Lecturer in English. B.A., 1979, B.S., 1982, M.A., 1994, Iowa State.

TIAN, JIN, Assistant Professor of Computer Science. B.S., 1992, Tsinghua (China); M.S., 1997, Ph.D., 2002, California (Los Angeles).

TIDRIRI, MOULAY, Associate Professor of Mathematics. B.S., 1987, M.S., 1988, Paris-Dauphine and Polytechnic; Ph.D., 1992, Paris-Dauphine.

TIFFANY, LOIS HATTERY, Emeritus Professor of Ecology, Evolution and Organismal Biology; Emeritus Professor of Plant Pathology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1945, M.S., 1947, Ph.D., 1950, Iowa State.

TIM, UDOYARA S., Associate Professor of Agricultural and Biosystems Engineering. B.E., 1981, Ph.D., 1987, Concordia (Canada).

TIMM, CHAD W., Lecturer in Curriculum and Instruction. B.A., 1995, Simpson; M.A., 2002, Ph.D., 2008, Iowa State.

TIMMS, LEO LOUIS, Associate Professor of Animal Science; Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1978, Cornell; M.S., 1982, Ph.D., 1984, Wisconsin.

TIPTON, CARL L., Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1954, M.S., 1957, Nebraska; Ph.D., 1961, Illinois.

TIRTHAPURA, SRIKANTA, Associate Professor of Electrical and Computer Engineering. B.Tech., 1996, Indian Institute of Technology; M.S., 1998, Ph.D., 2002, Brown.

TIWANA, AMRIT, Associate Professor of Logistics, Operations and Management Information Systems. B.E., 1996, Bangalore; Ph.D., 2002, Georgia State.

TOLLEFSON, JON J., Professor of Entomology. B.A., 1967, Gustavus Adolphus; Ph.D., 1975, Iowa State.
TOMAN, BETTY, Emeritus Professor of Kinesiology; Distinguished Professor in Education. B.S., 1948, Wisconsin; M.S., 1957, Iowa State.

TOMER, MARK D., Associate Professor of Natural Resource Ecology and Management (Collaborator); Associate Professor of Geological and Atmospheric Sciences (Collaborator). B.S., 1981, Montana; M.S., 1986, Montana State; Ph.D., 1994, Minnesota.

TONDRA, RICHARD J., Emeritus Professor of Mathematics. B.S., 1965, Notre Dame; M.S., 1966, Ph.D., 1968, Michigan State.

TONG, LUN, Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1994, M.S., 1997, XIOIAN (China); M.S. 2002, Ph.D., 2008, Wisconsin.

TOOMBS, JAMES PRITCHETT, Professor of Veterinary Clinical Sciences. B.A., 1972, Iowa; D.V.M., 1976, Illinois; M.S., 1980, Minnesota.

TOPEL, DAVID GLEN, Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition. B.S., 1960, Wisconsin; M.S., 1962, Kansas State; Ph.D., 1965, Michigan State.

TORRIE, MARGARET C., Associate Professor of Human Development and Family Studies; Associate Professor of Curriculum and Instruction. B.S., 1969, M.Ed., 1971, Wayne State; Ed.D., 1976, Illinois.

TOWNSEND, ANTHONY M., Associate Professor of Logistics, Operations and Management Information Systems. B.A., 1979, Virginia; Ph.D., 1993, M.S., 1993, Virginia Polytechnic.

TOWNSEND, CHARLES L., Emeritus Professor of Electrical Engineering. B.S., 1953, Oklahoma; M.S., 1957, Ph.D., 1963, Iowa State.

TRABALZI, FERRUCCIO, Assistant Professor of Community and Regional Planning. B.A., 1992, Rome (Italy); M.A., 1994, Ph.D., 2002, California (Los Angeles).

TRAHANOVSKY, KATHLEEN, Emeritus Adjunct Associate Professor of Chemistry. B.A., 1960, Emmanuel; M.S., 1962, Ph.D., 1969, Iowa State.

TRAHANOVSKY, WALTER S., Professor of Chemistry. B.S., 1960, Franklin and Marshall; Ph.D., 1963, Massachusetts Institute of Technology.

TRAMPEL, DARRELL W., Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1969, D.V.M., 1974, Iowa State; Ph.D., 1979, Georgia.

TRAVESSET-CASAS, ALEJANDRO, Associate Professor of Physics and Astronomy. B.Sc., 1992, Ph.D., 1997, Barcolona.

TREDE, LARRY DEAN, Emeritus Professor of Agricultural Education and Studies. B.S., 1965, M.S., 1968, Ph.D., 1980, Iowa State.

TREMMEL, MICHELLE R., Senior Lecturer in English. B.S.E., 1978, Central Michigan; M.A., 1983, Ph.D., 2003, Michigan State.

TREMMEL, ROBERT A., Professor of English. B.A., 1971, M.A., 1975, Ph.D., 1982, Iowa.

TRENBERTH, JAMES C., Adjunct Assistant Professor of Music/Theatre. B.F.A., 1979, Santa Fe; M.F.A., 1982, Ohio.

TRENKLE, ALLEN H., Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1956, Nebraska; M.S., 1958, Ph.D., 1960, Iowa State.

TRINGIDES, MICHAEL, Professor of Physics and Astronomy. B.A., 1977, Yale; Ph.D., 1984, M.S., 1984, Chicago.

TRIVEDI, ROHIT K., Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.Tech., 1960, Indian Institute of Technology; M.S., 1964, Ph.D., 1966, Carnegie Mellon.

TROEH, FREDERICK R., Emeritus Professor of Agronomy. B.S., 1951, M.S., 1952, Idaho; Ph.D., 1963, Cornell.

TROST, BETTY CHAMNESS, Lecturer in Apparel, Educational Studies and Hospitality Management. B.S., 1975, Oregon State; M.S., 1996, Ph.D., 2006, Iowa State.

TRUDEAU, LINDA S., Lecturer in Human Development and Family Studies. B.A., 1969, Northern Iowa; M.A., 1975, Iowa; Ph.D., 2000, Iowa State.

TRULIN, DARRYL JON, Emeritus Associate Professor of Aerospace Engineering. B.S., 1961, Iowa State; M.S., 1963, Oklahoma State; Ph.D., 1968, Iowa State.

TSAI, YU-MIN, Emeritus Professor of Aerospace Engineering. Dipl., 1957, Taipei Institute of Technology; Sc.M., 1962, Tennessee; Sc.M., 1964, Ph.D., 1967, Brown.

TSUKRUK, VLADIMIR V., Professor of Materials Science and Engineering (Collaborator). M.S., 1978, National University of Ukraine; Ph.D., 1983, D.Sc., 1988, National Academy of Sciences (Ukraine).

TUCHIN, KIRILL, Assistant Professor of Physics and Astronomy. B.Sc., 1996, M.Sc., 1998, Ph.D., 2001, Tel Aviv.

TUCKER, ROBERT D., Associate Professor of Genetics, Development and Cell Biology (Collaborator). B.S., 1969, Nebraska; Ph.D., 1976, Minnesota; M.D., 1978, Nebraska Medical Center.

TUCKNESS, ALEX, Associate Professor of Political Science. A.B., 1994, Chicago; M.Phil., 1995, Cambridge; Ph.D., 1999, Princeton.

TUGGLE, CHRIS K., Professor of Animal Science. B.A., 1981, St. Cloud; Ph.D., 1986, Minnesota.

TURNER, JOSEPH T., Lecturer in Curriculum and Instruction. B.A., 1966, M.A., 1968, Northern Iowa.

TUTTLE, GARY L., Associate Professor of Electrical and Computer Engineering. B.S., 1983, M.S., 1985, Iowa State; Ph.D., 1991, California (Santa Barbara).

TVRDIK, DEBRA FROHLING, Lecturer in Curriculum and Instruction. B.A., 1972, Northern Iowa; M.A., 1988, Iowa State.

TYAGI, AKHILESH, Associate Professor of Electrical and Computer Engineering; Associate Professor of Computer Science. B.E., 1981, Birla; M.Tech., 1983, Indian Institute; Ph.D., 1988, Washington.

TYLER, HOWARD DAVID, Associate Professor of Animal Science. B.S., 1982, Illinois State; M.S., 1989, Ph.D., 1991, North Carolina State.

TYLKA, GREGORY L., Professor of Plant Pathology. B.S., 1983, M.S., 1985, California (Pennsylvania); Ph.D., 1990, Georgia.

TYNDALL, JOHN CHARLES, Assistant Professor of Natural Resource Ecology and Management. B.A., 1991, Western Michigan; M.S., 1996, Ph.D., 2003, Iowa State.

UEMURA, ETSURO, Professor of Biomedical Sciences. D.V.M., 1965, Nippon; Ph.D., 1976, Wisconsin.

UHLENHOPP, ELDON KARL, Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine; Associate Dean of the College of Veterinary Medicine. D.V.M., 1972, M.S., 1986, Iowa State.

ULMER, MARTIN J., Emeritus Professor of Ecology, Evolution and Organismal Biology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1942, M.S., 1943, Ph.D., 1950, Michigan.

ULRICHSON, DEAN, Emeritus Professor of Chemical and Biological Engineering. B.S., 1962, Nebraska; M.S., 1963, Illinois; Ph.D., 1970, Iowa State.

UNDERHILL, WILLIAM R., Emeritus Professor of English. A.B., 1946, Manchester; M.A., 1947, Ph.D., 1955, Northwestern.

URBATSCH, ROBERT B., Assistant Professor of Political Science. B.S., 2000, Iowa State; Ph.D., 2006, Harvard.

URE, CHERI J., Senior Lecturer in Art and Design. B.A., 1982, M.A., 1985, M.F.A., 1998, Iowa State.

USTUNDAG, ERSAN, Associate Professor of Materials Science and Engineering. B.S., 1990, Bogazici (Turkey); Ph.D., 1995, Cornell.

VAIDYA, UMESH, Assistant Professor of Electrical and Computer Engineering. B.E., 1997, Veermata Jijabai Technological Institute; M.Tech., 1999, Indian Institute of Technology; Ph.D., 2004, California (Santa Barbara).

VAKNIN, DAVID, Adjunct Professor of Physics and Astronomy. B.S., 1978, M.S., 1981, Ph.D., 1987, Hebrew (Israel).

VALENCIA, GERMAN, Professor of Physics and Astronomy. B.S., 1983, University De Los Andes; M.S., 1985, Ph.D., 1988, Massachusetts.

VALENZUELA-CASTRO, MARIA N., Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1991, Los Andes (Columbia); M.A., 1995, Ph.D., 1999, New York (Stony Brook).

VALLIER, FRED JAMES, Lecturer in English. B.A., 1959, M.A., 1961, Pacific; Ph.D., 1977, Colorado.

VALLIER, JANE E., Emeritus Assistant Professor of English. B.A., 1963, Morningside; M.S., 1969, Iowa State; Ph.D., 1980, Colorado.

VAN GEELEN, ALBERT, Adjunct Assistant Professor of Veterinary Pathology. M.S., 1991, Rejks Universiteit Groninger; Ph.D., 1999, Nevada (Reno).

VAN LEEUWEN, JOHANNES, Professor of Civil, Construction and Environmental Engineering; Professor of Agricultural and Biosystems Engineering; Professor of Food Science and Human Nutrition. B.E., 1975, M.E., 1979, DENGR, 1988, Pretoria (South Africa).

VANAST, JOHN, Emeritus Professor of Educational Leadership and Policy Studies. B.S., 1967, M.S., 1970, Western Michigan; Ph.D., 1976, Minnesota.

VANAUKEN, HOWARD E., Professor of Management. B.S., 1972, M.B.A., 1974, Ph.D., 1980, Oklahoma.

VANCE, JUDY MARIE, Professor of Mechanical Engineering. B.S., 1980, M.S., 1987, Ph.D., 1992, Iowa State.

VANDER LUGT, KRISTIN T., Assistant Professor of World Languages and Cultures. B.A., 1995, Rochester; M.A., 1998, Pennsylvania State; Ph.D., 2006, Indiana.

VANDERLEY, BRIAN L., Adjunct Instructor in Veterinary Diagnostic and Production Animal Medicine. B.A., 2005, Dordt College; D.V.M., 2008, Iowa State.

VANDERVALK, ARNOLD, Professor of Ecology, Evolution and Organismal Biology. B.Sc., 1968, indsor; M.Sc., 1970, Alberta; Ph.D., 1973, North Carolina State.

VANDERVALK, SUZANNE C., Senior Lecturer in English. B.A., 1971, Windsor (Ontario); M.A., 1994, Iowa State.

VANDERZANDEN, ANN MARIE, Associate Professor of Horticulture. B.S., 1988, Washington State; M.S., 1990, Cornell; Ph.D., 1994, Washington State.

VANDEWETERING, HYLKE, Emeritus Professor of Economics. B.Sc., 1959, M.A., 1961, McGill; Ph.D., 1964, Iowa State.

VANDYK, JOHN K., Adjunct Assistant Professor of Entomology. B.A., 1992, Dordt College; M.S., 1997, Ph.D., 2003, Iowa State.

VANITEN, RICHARD J., Emeritus Professor of Philosophy and Religious Studies. B.A., 1957, Dubuque; M.A., 1961, Ph.D., 1964, Iowa.

VANMETER, DELMAR B., Emeritus Associate Professor of Mechanical Engineering. B.S., 1954, B.S., 1957, M.S., 1958, Missouri.

VANMETER, KARIN C., Lecturer in Human Development and Family Studies. Ph.D., 1978, Paris-Lodron Univ. Salzburg.

VANN, ROBERTA, Emeritus Professor of English. A.B., 1966, M.S., 1973, Ph.D., 1978, Indiana.

VARDEMAN, STEPHEN B., Professor of Statistics; Professor of Industrial and Manufacturing Systems Engineering; University Professor. B.S., 1971, M.S., 1973, Iowa State; Ph.D., 1975, Michigan State.

VARY, JAMES P., Professor of Physics and Astronomy. B.S., 1965, Boston College; M.S., 1967, M.Ph., 1968, Ph.D., 1970, Yale.

VASWANI, NAMRATA, Assistant Professor of Electrical and Computer Engineering. B.Tech., 1999, Indian Institute of Technology (India); Ph.D., 2004, Maryland.

VAUGHN, ERIC MARTIN, Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1986, M.S., 1990, Ph.D., 1994, Iowa State.

VAUGHN, RICHARD C., Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.A., 1948, Michigan State; M.I.E., 1955, Toledo.

VEGA-GARCIA, SUSAN A., Associate Professor, Library. B.A., 1980, M.A.L.S., 1992, Iowa.

VENKATA, SUBRAHMANYAM, Emeritus Professor of Electrical and Computer Engineering. B.S., 1963, Andhra (India); M.S., 1966, Indian Institute of Technology; Ph.D., 1971, South Carolina.

VENKATAGIRI, HORABAIL, Associate Professor of Psychology. B.A., 1967, M.S., 1969, Mysore; Ph.D., 1977, Bowling Green.

VERHOEVEN, JOHN, Emeritus Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1957, M.S., 1959, Ph.D., 1963, Michigan.

VERKADE, JOHN, Professor of Chemistry; University Professor. B.S., 1956, Illinois; M.A., 1957, Harvard; Ph.D., 1960, Illinois.

VERMEER, MARISSA ELIZABETH, Lecturer in Curriculum and Instruction. B.A., 2001, Wartburg; M.Ed., 2006, Iowa State.

VIATORI, MAXIMILIAN S. III, Assistant Professor of Anthropology. B.A., 1999, Missouri; M.A., 2000, Ph.D., 2005, California (Davis).

VIGIL, DENNIS R., Associate Professor of Chemical and Biological Engineering. B.S., 1985, New Mexico; M.S., 1986, Ph.D., 1990, Michigan.

VILES, JOSEPH MOORE, Associate Professor of Genetics, Development and Cell Biology. B.A., 1965, Rice; M.S., 1968, Ph.D., 1969, Tulane.

VINCENT, AMY LOUISE, Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1993, Western Kentucky; M.S., 1997, D.V.M., 2002, Ph.D., 2004, Iowa State.

VINOGRADE, BERNARD, Emeritus Professor of Mathematics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1937, City University of New York; M.A., 1940, Ph.D., 1942, Michigan.

VLECK, CAROL M., Professor of Ecology, Evolution and Organismal Biology. B.A., 1972, Pomona; M.S., 1972, Ph.D., 1978, California (Los Angeles).

VOELKER, DONALD E., Emeritus Professor of Animal Science. B.S., 1943, M.S., 1950, Iowa State.

VOGEL, DAVID L., Associate Professor of Psychology. B.A., 1993, M.S., 1995, Indiana; Ph.D., 2000, Florida.

VOGEL, JERALD MILO, Emeritus Associate Professor of Aerospace Engineering. B.S., 1962, M.S., 1965, Ph.D., 1971, Iowa State.

VOLKER, CAROL B., Emeritus Associate Professor of Human Development and Family Studies. B.S., 1956, M.S., 1979, Ph.D., 1985, Iowa State.

VOLKER, ROGER PAUL, Emeritus Professor of Curriculum and Instruction. B.S., 1956, M.S., 1963, Ph.D., 1970, Iowa State.

VOLLBRECHT, ERIK WARREN, Assistant Professor of Genetics, Development and Cell Biology. B.A., 1985, Ph.D., 1997, California (Berkeley).

VONDRA, CARL FRANK, Emeritus Professor of Geological and Atmospheric Sciences; Distinguished Professor in Liberal Arts and Sciences. B.S., 1956, M.S., 1958, Ph.D., 1963, Nebraska.

VONGRABOW, RICHARD H., Emeritus Professor of Music. B.A., 1955, M.A., 1958, Ball State; D.M.A., 1972, Southern California.

VOORHEES, ROY DALE, Emeritus Professor of Transportation and Logistics. B.S., 1948, Georgetown; M.B.A., 1970, George Washington.

VOSS, REGIS DALE, Emeritus Professor of Agronomy. B.S., 1952, M.S., 1960, Ph.D., 1962, Iowa State.

VOYTAS, DANIEL F., Professor of Genetics, Development and Cell Biology (Collaborator). A.B., 1984, Ph.D., 1990, Harvard.

VRCHOTA, DENISE ANN, Adjunct Assistant Professor of English. B.A., 1971, Northern Iowa; M.A., 1977, Ph.D., 1989, Iowa State.

WADE, NATHANIEL G., Assistant Professor of Psychology. B.A., 1994, Wheaton College; M.S., 2000, Ph.D., 2003, Virginia Commonwealth.

WAGGONER, DAVID W., Emeritus Assistant Professor of Music/Theatre. B.A., 1962, M.A., 1964, Indiana.

WAGGONER, KATHLEEN M., Adjunct Associate Professor of Sociology; Adjunct Associate Professor of Political Science. B.S., 1975, Wisconsin (Lacrosse); M.S., 1978, Ph.D., 1983, Iowa State; J.D., 1987, Drake.

WAGNER, BRUCE HARVEY, Lecturer in Mathematics. B.A., 1975, California (Santa Cruz); M.A., 1979, Ph.D., 1982, California (Berkeley).

WAGNER, MIMI MARIE, Associate Professor of Landscape Architecture. B.L.A., 1983, M.L.A., 1998, Iowa State.

WAGNER, STANLEY D., Associate Professor of Veterinary Clinical Sciences. D.V.M., 1974, Purdue; M.S., 1983, Kansas State.

WALDEMER, THOMAS PAUL, Senior Lecturer in World Languages and Cultures. B.A., 1977, M.A., 1982, Ph.D., 1991, California (Santa Barbara).

WALKER, DOUGLAS MARK, Assistant Professor of Marketing. B.A., 1985, Kansas State; M.B.A., 2005, Ph.D., 2008, Houston.

WALKER, HOMER W., Emeritus Professor of Food Science and Human Nutrition. B.S., 1951, Pennsylvania State; M.S., 1953, Ph.D., 1955, Wisconsin.

WALLACE, ROBERT S., Associate Professor of Ecology, Evolution and Organismal Biology. B.S., 1981, Wilkes; M.S., 1984, Ph.D., 1988, Rutgers.

WALLER, KENNETH, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 1996, M.S., 2007, D.V.M., 2007, Wisconsin.

WALROD, SHIRLEY A., Lecturer in English. B.A., 1970, Buena Vista; M.S., 2001, Iowa State.

WALSH, PATRICIA, Lecturer in Human Development and Family Studies. B.S., 1976, M.S., 1982, Iowa State.

WALSH, THOMAS E., Emeritus Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1953, M.A., 1962, Michigan State; Ph.D., 1980, Iowa State.

WALTER, CLYDE K. JR., Professor of Logistics, Operations and Management Information Systems. B.S.E.E., 1964, Case Western Reserve; M.B.A., 1965, Ph.D., 1972, Ohio State; M.Engr., 1972, Pennsylvania State.

WALTON, BARBARA JOYCE, Associate Professor of Art and Design. B.F.A., 1991, M.F.A., 1993, Iowa State; M.F.A., 1996, Drake.

WALTON, MARLEE A., Senior Lecturer in Civil, Construction and Environmental Engineering. B.S., 1984, M.S., 1991, Iowa State.

WANG, CHENG, Professor of Economics. B.A., 1984, M.A., 1987, Fudan (China); Ph.D., 1994, Western Ontario (Canada).

WANG, CHONG, Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2001, Peking (China); Ph.D., 2006, Cornell.

WANG, JIGANG, Assistant Professor of Physics and Astronomy. B.S., 2000, Jilin (China); Ph.D., 2006, Rice.

WANG, KAN, Professor of Agronomy. B.S., 1982, Fudan (China); Ph.D., 1987, Ghent (Belgium).

WANG, KEJIN, Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1982, Hefei (China); M.S., 1985, Chinese Academy of Sciences (China); Ph.D., 1994, California (Berkeley).

WANG, LIZHI, Assistant Professor of Industrial and Manufacturing Systems Engineering; Assistant Professor of Electrical and Computer Engineering. B.Eng., 2003, B.S., 2003, University of Science and Technology (China); Ph.D., 2007, Pittsburgh.

WANG, TONG, Associate Professor of Food Science and Human Nutrition. B.S., 1985, M.S., 1988, Shenyang College of Pharmacy, China; M.S., 1992, Arkansas; Ph.D., 1998, Iowa State.

WANG, XINWEI, Associate Professor of Mechanical Engineering. B.S., 1994, M.S., 1996, Science and Technology (China); Ph.D., 2001, Purdue.

WANG, ZHENGDAO, Associate Professor of Electrical and Computer Engineering. B.E., 1996, Science and Technology (China); M.Sc., 1999, Virginia; Ph.D., 2002, Minnesota.

WANG, ZHI J., Professor of Aerospace Engineering. B.Sc., 1985, National University of Defence Tech; Ph.D., 1990, Glasgow (Scotland).

WANNEMUEHLER, MICHAEL, Professor of Veterinary Microbiology and Preventive Medicine and Interim Chair of the Department. B.S., 1974, Purdue; M.S., 1980, Idaho State; Ph.D., 1981, Louisville.

WARD, IRA J., Emeritus Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1950, U.S. Military Academy; M.S., 1955, Iowa State.

WARE, WENDY ADAMS, Professor of Veterinary Clinical Sciences; Professor of Biomedical Sciences. B.Mus., 1975, Westminster Choir College; D.V.M., 1982, M.S., 1986, Ohio State.

WARING, GARY K., Professor of Naval Science and Chair of the Department. B.A., 1982, Michigan; M.A., 2001, Naval War College.

WARME, LOIS J. N., Associate Professor of Art and Design. B.S., 1968, M.A., 1972, Iowa State.

WARREN, RICHARD D., Emeritus Professor of Educational Leadership and Policy Studies; Distinguished Professor in Education. B.S., 1952, M.S., 1960, Ph.D., 1965, Iowa State.

WASS, WALLACE MILTON, Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1951, D.V.M., 1953, Ph.D., 1961, Minnesota.

WATERS, W. RAY, Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1985, D.V.M., 1988, Auburn; Ph.D., 1996, Iowa State.

WEBER, BETHANY JO, Assistant Professor of Psychology. B.A., 1998, Rice; M.S., 2002, Ph.D., 2005, Rutgers.

WEBER, ERIC, Assistant Professor of Mathematics. B.A., 1995, Gustavus Adolphus; Ph.D., 1999, Colorado.

WEBER, ROBERT J., Professor of Electrical and Computer Engineering. B.S., 1963, M.S., 1966, Ph.D., 1967, Iowa State;

WEBER, THOMAS A., Emeritus Professor of Physics and Astronomy. B.S., 1956, DePaul; Ph.D., 1961, Notre Dame.

WEBER-FEVE, STACEY, Assistant Professor of World Languages and Cultures. B.A., 1999, Westminster; M.A., 2001, Ph.D., 2006, Ohio State.

WECHSLER, LORRAINE, Emeritus Professor of Greenlee School of Journalism and Communication. B.A., 1946, Hunter; M.S., 1947, M.A., 1952, Columbia.

WECHSLER, MONROE S., Emeritus Professor of Materials Science and Engineering; Emeritus Professor of Mechanical Engineering. B.S., 1944, City University of New York; A.M., 1950, Ph.D., 1953, Columbia.

WEDIN, WALTER F., Emeritus Professor of Agronomy. B.S., 1950, M.S., 1951, Ph.D., 1953, Wisconsin.

WEERASINGHE, ANANDA, Professor of Mathematics. B.S., 1979, Colombo; Ph.D., 1986, Minnesota.

WEI, MEIFEN, Associate Professor of Psychology. B.A., 1983, Soochow (Taiwan); M.A., 1985, Tunghai (Taiwan); M.A., 1998, Ph.D., 2000, Missouri.

WEISS, HARRY J., Emeritus Professor of Aerospace Engineering; Emeritus Professor of Mathematics. B.S., 1947, M.S., 1949, D.Sc., 1951, Carnegie Mellon.

WELCH, AMY, Assistant Professor of Kinesiology. B.Sc., 2001, M.Sc., 2002, Sheffield (UK); Ph.D., 2007, Leeds (UK).

WELK, GREGORY, Associate Professor of Kinesiology. B.A., 1988, Illinois; M.A., 1989, Iowa; Ph.D., 1994, Arizona State.

WELLS, BETTY LYNN, Professor of Sociology. B.A., 1972, Emporia; M.A., 1974, Wyoming; Ph.D., 1980, Iowa State.

WELLS, GARY L., Professor of Psychology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Kansas State; Ph.D., 1977, Ohio State.

WELSHONS, WILLIAM J., Emeritus Professor of Genetics, Development and Cell Biology. A.B., 1949, M.A., 1952, Ph.D., 1954, California (Berkeley).

WENDEL, JONATHAN F., Professor of Ecology, Evolution and Organismal Biology and Chair of the Department. B.S., 1976, Michigan; M.S., 1980, Ph.D., 1983, North Carolina.

WENDELL, DENNIS C., Emeritus Associate Professor, Library. B.S., 1967, Iowa State; M.A., 1969, Iowa.

WENDELN, BILLY J., Adjunct Assistant Professor of Air Force Aerospace Studies. B.S., 2004, Bellevue; M.S., 2008, Touro.

WENINGER, QUINN R. A., Associate Professor of Economics. B.Sc., 1989, Alberta (Canada); Ph.D., 1995, Maryland.

WERBEL, JAMES D., Professor of Management. B.A., 1972, M.S., 1974, Wisconsin; Ph.D., 1980, Northwestern.

WESLEY, IRENE VARELAS, Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1965, California (Los Angeles); M.A., 1967, California (Irvine); Ph.D., 1973, California (Los Angeles).

WEST, JAMES K., Clinician in Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1971, M.S., 1975, Iowa State.

WEST, ROBERT, Associate Professor of Psychology. B.A., 1991, M.A., 1993, Western Kentucky; Ph.D., 1996, South Carolina.

WESTERMAN-BEATTY, JAN M., Clinician in Educational Leadership and Policy Studies. B.S., 1972, M.A., 1982, Ph.D., 1995, Iowa State.

WESTGATE, MARK E., Professor of Agronomy. B.S., 1974, M.S., 1977, Dayton; Ph.D., 1983, Illinois.

WESTPHAL, LYNNE M., Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.A., 1982, Wisconsin; M.A., 1992, Northeastern Illinois; Ph.D., 1999, Illinois.

WETZLER, SHANNON MARIE, Lecturer in Human Development and Family Studies. B.A., 2002, Sonoma State; M.A., 2008, Iowa State.

WHALEY, DAVID CLAUDE, Professor of Curriculum and Instruction; Associate Dean of the College of Human Sciences. B.S., 1976, M.S., 1976, California (Davis); Ph.D., 1985, Cornell.

WHEELOCK, THOMAS D., Emeritus Professor of Chemical and Biological Engineering; University Professor. B.S., 1949, Ph.D., 1958, Iowa State.

WHIGHAM, DAVID KEITH, Emeritus Professor of Agronomy. B.S., 1966, M.S., 1969, Ph.D., 1971, Iowa State.

WHISNANT, KERRY LEWIS, Professor of Physics and Astronomy. B.S., 1976, Missouri (Rolla); Ph.D., 1982, M.S., 1982, Wisconsin.

WHITAKER, FAYE PAULI, Emeritus Associate Professor of English. A.B., 1963, Lakeland; M.A., 1965, Western Michigan; Ph.D., 1974, Northwestern.

WHITAKER, JAMES W., Emeritus Associate Professor of History. A.B., 1960, Oberlin; M.S., 1962, Ph.D., 1965, Wisconsin.

WHITE, BERNARD J., Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; University Professor. B.S., 1958, Portland; M.A., 1961, Ph.D., 1963, Oregon.

WHITE, DAVID J., Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1997, Missouri; M.S., 1999, Ph.D., 2000, Iowa State.

WHITE, GARY C., Emeritus Professor of Music; Distinguished Professor in Liberal Arts and Sciences. B.M.E., 1959, B.Mus., 1961, Kansas; M.M., 1964, Ph.D., 1969, Michigan State.

WHITE, KEVIN P., Adjunct Instructor in Military Science and Tactics. B.A., 1998, Florida International.

WHITE, PAMELA JUNE, Professor of Food Science and Human Nutrition; University Professor; Interim Dean of the College of Human Sciences. B.S., 1972, M.S., 1974, Washington; Ph.D., 1981, Iowa State.

WHITE, WENDY S., Associate Professor of Food Science and Human Nutrition. B.S., 1980, Cornell; RD, 1982, Massachusetts General; M.S., 1986, Ph.D., 1990, Cornell.

WHITEFORD, MICHAEL B., Professor of Anthropology; Dean of the College of Liberal Arts and Sciences. B.A., 1967, Beloit; M.A., 1970, Ph.D., 1972, California (Berkeley).

WHITEHEAD, ROBERT, Lecturer in Architecture. B.Arch., 1993, Iowa State; M.Arch., 1997, Texas.

WHITHAM, STEVEN ALAN, Associate Professor of Plant Pathology. B.S., 1990, Iowa State; M.S., 1992, Ph.D., 1995, California (Berkeley).

WHITLEY, R. DAVID, Professor of Veterinary Clinical Sciences. D.V.M., 1977, M.S., 1981, Auburn.

WHITMER, JOHN M. JR., Emeritus Associate Professor of Political Science. B.A., 1957, Wisconsin; M.A., 1959, Iowa; M.S., 1975, Ph.D., 1979, Iowa State.

WHITTLE, DIANNE L., Lecturer in Accounting. B.A., 1973, Northern Iowa; MACC, 2002, Iowa State.

WICKERSHAM, THOMAS W., Emeritus Professor of Animal Science. B.S., 1941, M.S., 1954, Iowa State.

WICKERT, JONATHAN ADAM, Professor of Mechanical Engineering and Chair of the Department. B.S., 1985, M.S., 1987, Ph.D., 1989, California (Berkeley).

WICKRAMA, K. A. S., Professor of Human Development and Family Studies. B.S., 1971, Sri Lanka; Ph.D., 1992, Iowa State.

WIDRLECHNER, MARK P., Assistant Professor of Agronomy (Collaborator); Assistant Professor of Horticulture (Collaborator). B.S., 1977, Michigan State; M.S., 1980, Illinois; Ph.D., 1982, Minnesota.

WIE, BONG, Professor of Aerospace Engineering. B.S., 1975, Seoul National; M.S., 1978, Ph.D., 1981, Stanford.

WIEBOLD, TIFFANY L., Lecturer in Curriculum and Instruction. B.S., 2001, M.S., 2008, Iowa State.

WIEDENHOEFT, MARY H., Associate Professor of Agronomy. B.S., 1980, Iowa State; M.S., 1982, Ph.D., 1986, Washington State.

WIEGAND, DOMETA JO, Assistant Professor of English. B.A., 1991, MST, 2000, Wisconsin (Stevens Point); Ph.D., 2005, Washington State.

WIERSEMA, JANICE A., Senior Lecturer in Natural Resource Ecology and Management; Senior Lecturer in Electrical and Computer Engineering. B.S., 1977, M.S., 1984, Northwest Missouri; Ph.D., 2006, Iowa State.

WILDER, DAVID R., Emeritus Professor of Materials Science and Engineering. B.S., 1951, M.S., 1952, Ph.D., 1958, Iowa State.

WILGENBUSCH, ERIN E., Senior Lecturer in Greenlee School of Journalism and Communication. B.A., 1990, Clarke College; M.A., 1992, Drake.

WILHELM, JULIE A., Lecturer in World Languages and Cultures. B.A., 1982, Central College; M.A., 1999, Northern Iowa.

WILLHAM, RICHARD L., Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1954, Oklahoma State; M.S., 1955, Ph.D., 1960, Iowa State.

WILLIAMS, DAVID LEWIS, Emeritus Professor of Curriculum and Instruction; Emeritus Professor of Agricultural Education and Studies; University Professor. B.S., 1959, Oklahoma State; M.S., 1965, Kansas State; Ed.D., 1969, Oklahoma State.

WILLIAMS, R. CHRISTOPHER, Associate Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1991, Vermont; M.S.C.E., 1993, Ph.D., 1996, Purdue.

WILLIAMS, SALLY KEMP, Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Professor of Curriculum and Instruction. B.S., 1962, M.A., 1966, Michigan State; Ph.D., 1975, Pennsylvania State.

WILLIAMS, STANLEY, Emeritus Professor of Physics and Astronomy. B.S., 1954, Nebraska Wesleyan; Ph.D., 1962, Rensselaer.

WILLMORE, HALLIE, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2000, Dickinson State; M.S., 2003, D.V.M., 2008, Colorado State.

WILLSON, LEE ANNE, Professor of Physics and Astronomy; University Professor. B.A., 1968, Harvard; M.A., 1970, Ph.D., 1973, Michigan.

WILLSON, STEPHEN, Professor of Mathematics. A.B., 1968, Harvard; M.A., 1970, Ph.D., 1973, Michigan.

WILSEY, BRIAN J., Associate Professor of Ecology, Evolution and Organismal Biology. B.S., 1986, Henderson State; M.S., 1988, Louisiana State; Ph.D., 1995, Syracuse.

WILSON, ALYSON GABBARD, Associate Professor of Statistics. B.A., 1989, Rice; M.S., 1990, Carnegie Mellon; Ph.D., 1995, Duke.

WILSON, DAVID BALL, Professor of History; Professor of Philosophy and Religious Studies. B.A., 1963, Wabash; Ph.D., 1968, Johns Hopkins.

WILSON, DOYLE EDWARD, Emeritus Professor of Animal Science. B.S., 1967, M.S., 1982, Ph.D., 1984, Iowa State.

WILSON, GREGORY DALE, Assistant Professor of English. B.A., 1989, Emory; MAPW, 1991, Carnegie Mellon; Ph.D., 2001, New Mexico State.

WILSON, JAMES A., Associate Professor of Mathematics. B.A., 1973, California (Los Angeles); M.S., 1975, Ph.D., 1978, Wisconsin.

WILSON, LENNOX N., Emeritus Professor of Aerospace Engineering. B.A.Sc., 1953, M.A.Sc., 1954, Ph.D., 1959, Toronto.

WILSON, LESTER A., Professor of Food Science and Human Nutrition; University Professor. B.S., 1969, M.S., 1971, Oregon State; Ph.D., 1975, California (Davis).

WINAKOR, THORA GEITEL, Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. A.B., 1950, Illinois; M.S., 1951, Drexel; Ph.D., 1960, Iowa State.

WINDOM, KENNETH, Associate Professor of Geological and Atmospheric Sciences. B.A., 1972, West Georgia; Ph.D., 1976, Pennsylvania State.

WINDUS, THERESA L., Professor of Chemistry. B.S., 1988, Minot State; Ph.D., 1993, Iowa State.

WINER, ELIOT H., Assistant Professor of Mechanical Engineering. B.S., 1992, Ohio State; M.S., 1994, Ph.D., 1999, New York (Buffalo).

WINSOR, DOROTHY ANN, Emeritus Professor of English. B.A., 1969, Aquinas; M.A., 1970, Michigan; Ph.D., 1979, Wayne State.

WINTER, MARY, Emeritus Professor of Human Development and Family Studies. B.S., 1961, Minnesota; M.S., 1966, Ph.D., 1970, Pennsylvania State.

WINTERSTEEN, WENDY, Professor of Entomology; Dean of the College of Agriculture and Life Sciences. B.S., 1978, Kansas State; Ph.D., 1988, Iowa State.

WIPF, TERRY J., Professor of Civil, Construction and Environmental Engineering. B.S., 1974, M.S., 1979, Ph.D., 1983, Nebraska.

WIRTH, DANIELLE M., Lecturer in Philosophy and Religious Studies. B.S., 1975, Pennsylvania State; M.S., 1988, Slippery Rock; Ph.D., 1996, Iowa State.

WIRTH, SHARON K., Lecturer in Apparel, Educational Studies and Hospitality Management. B.S., 1973, M.S., 1980, Iowa State.

WISE, CHRISTINE L. LEIRAN, Lecturer in Apparel, Educational Studies and Hospitality Management. B.A., 1981, Northern Iowa; M.S., 1992, North Texas; M.B.A., 1994, Iowa State.

WISE, ROGER P., Professor of Plant Pathology (Collaborator). B.S., 1976, Ph.D., 1983, Michigan State.

WISNER, ROBERT NEWELL, Emeritus Professor of Economics; University Professor. B.S., 1962, M.S., 1964, Michigan State; Ph.D., 1967, Tennessee.

WISSINK, MARSHA H., Lecturer in Kinesiology. B.S., 1992, M.Ed., 2002, Iowa State.

WOHLGEMUTH, DARIN R., Lecturer in Economics. B.S.Ed., 1991, Kansas; M.S., 1993, Ph.D., 1997, Iowa State.

WOHLSDORF-ARENDT, SUSAN, Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1988, Iowa State; M.S., 1991, Rush; Ph.D., 2004, Iowa State.

WOHN, FRED KRAMER, Emeritus Professor of Physics and Astronomy. B.S., 1962, Louisiana State; M.S., 1964, Ph.D., 1967, Indiana.

WOLF, JOHN WILLIAM CLARK, Associate Professor of Philosophy and Religious Studies; Associate Professor of Political Science. B.A., 1986, Oberlin College; M.A., 1989, Ph.D., 1993, Arizona.

WOLFF, NORMA H., Emeritus Associate Professor of Anthropology. B.S., 1955, Butler; M.A., 1965, Michigan State; Ph.D., 1985, Indiana.

WOLFORD, DONALD J. JR., Professor of Physics and Astronomy. B.S., 1971, Rensselaer; M.S., 1974, Ph.D., 1978, Illinois.

WOLINS, LEROY, Emeritus Professor of Psychology; Emeritus Professor of Statistics. B.A., 1951, M.A., 1953, Ph.D., 1956, Ohio State.

WOLT, JEFFREY D., Professor of Agronomy. B.S., 1973, Colorado State; M.S., 1976, Ph.D., 1979, Auburn.

WOMERSLEY, JOHN, Professor of Physics and Astronomy (Collaborator). B.A., 1983, M.A., 1987, Ph.D., 1986, Corpus Christi College (Oxford).

WONG, DAVID MICHAEL, Assistant Professor of Veterinary Clinical Sciences. B.V.M., 1995, D.V.M., 1997, Michigan State; M.S., 2003, Virginia Polytechnic.

WONG, JOHN KONG-FAH, Associate Professor of Marketing. B.A., 1974, William Penn; M.B.A., 1976, Virginia Polytechnic Institute; Ph.D., 1981, Alabama.

WONG, JOHNNY S., Professor of Computer Science. B.S., 1977, Hong Kong; M.S., 1981, Ph.D., 1986, Sydney.

WOO, LEE KEITH, Professor of Chemistry. B.S., 1977, Harvey Mudd; Ph.D., 1984, Stanford.

WOOD, SHIRLEY JEAN, Emeritus Associate Professor of Kinesiology. B.S., 1957, M.S., 1959, Indiana; Ph.D., 1971, Illinois.

WOODMAN, WILLIAM F., Professor of Sociology; University Professor. B.S., 1968, M.A., 1970, West Texas; Ph.D., 1972, Oklahoma State.

WOOL, GREGORY J., Associate Professor, Library. B.A., 1974, Texas; M.A., 1983, Indiana; M.L.S., 1985, Rutgers.

WOOLLEY, DONALD GRANT, Emeritus Professor of Agronomy. B.S., 1951, M.S., 1956, Utah State; Ph.D., 1959, Iowa State.

WORK, GEORGE PAUL, Professor of Music. B.Mus., 1979, M.M., 1981, Eastman School of Music.

WRAY, PAUL H., Emeritus Professor of Natural Resource Ecology and Management. B.S., 1968, Ph.D., 1974, Iowa State.

WRIGHT, FRED M., Emeritus Professor of Mathematics. B.A., 1944, Denison; M.S., 1949, Ph.D., 1953, Northwestern.

WU, HUAIQING, Associate Professor of Statistics. B.S., 1988, M.S., 1991, Beijing (China); Ph.D., 1997, Michigan.

WU, XIAOQING, Associate Professor of Geological and Atmospheric Sciences. B.S., 1983, Hanzhou (China); M.S., 1986, Chinese Academia Sinica; Ph.D., 1992, California (Los Angeles).

WU, ZHIJUN, Professor of Mathematics. B.S., 1982, M.A., 1985, Huazhong (China); Ph.D., 1991, Rice.

WUNDER, WILLIAM W., Emeritus Professor of Animal Science. B.S., 1958, Iowa State; M.S., 1964, Ph.D., 1967, Michigan State.

WURTELE, EVE S., Professor of Genetics, Development and Cell Biology; Professor of Food Science and Human Nutrition. B.S., 1971, California (Santa Cruz); Ph.D., 1980, California (Los Angeles).

WYNNE, EMILY, Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2000, Washington State; M.Ed., 2003, Florida; D.V.M., 2008, Washington State.

XIN, HONGWEI, Professor of Agricultural and Biosystems Engineering; Professor of Animal Science. B.S., 1982, Shenyang Agricultural; M.S., 1985, Ph.D., 1989, Nebraska.

YADAV, ANAND, Professor of Horticulture (Collaborator). B.Sc., 1965, M.Sc., 1967, A&T (India); Ph.D., 1972, Illinois.

YAEGER, MICHAEL J., Associate Professor of Veterinary Pathology. B.S., 1980, St. John's (Minnesota); D.V.M., 1984, Minnesota; Ph.D., 1991, Michigan State.

YAGER, SUSAN F., Associate Professor of English. B.A., 1978, M.A., 1981, Catholic; Ph.D., 1991, Pennsylvania.

YAN, JUE, Assistant Professor of Mathematics. B.Sc., 1995, M.Sc., 1998, Jilin (China); Ph.D., 2002, Brown.

YANG, BING, Assistant Professor of Genetics, Development and Cell Biology. B.Sc., 1986, M.Sc., 1989, Southwest Forestry; Ph.D., 2000, Kansas State.

YANG, XIAO BING, Professor of Plant Pathology. B.A., 1982, M.S., 1985, Beijing Agricultural; Ph.D., 1989, Louisiana State.

YARGER, DOUGLAS N., Emeritus Professor of Geological and Atmospheric Sciences; Emeritus Professor of Agronomy. B.S., 1959, Iowa State; M.S., 1962, Ph.D., 1967, Arizona.

YATES, STANLEY MARTIN, Emeritus Professor, Library. B.A., 1950, Ohio; M.A., 1952, Ph.D., 1961, M.L.S., 1962, Illinois.

YEARNS, MARY HOLT, Professor of Human Development and Family Studies. B.S., 1963, M.S., 1972, Ph.D., 1984, Iowa State.

YEUNG, EDWARD S., Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. A.B., 1968, Cornell; Ph.D., 1972, California (Berkeley).

YIN, YANHAI, Assistant Professor of Genetics, Development and Cell Biology. B.S., 1985, Sichuan; Ph.D., 1997, Scripps Research Institute.

YING, LEI, Assistant Professor of Electrical and Computer Engineering. B.E., 2001, Tsinghua (China); M.S., 2003, Ph.D., 2007, Illinois.

YOON, KYOUNG-JIN, Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1985, M.S., 1987, Korea; Ph.D., 1995, Iowa State.

YOUNG, BING-LIN, Emeritus Professor of Physics and Astronomy. B.S., 1959, National Taiwan; Ph.D., 1966, Minnesota.

YOUNG, DONALD F., Emeritus Professor of Aerospace Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1951, M.S., 1952, Ph.D., 1956, Iowa State.

YOUNG, JERRY W., Emeritus Professor of Animal Science. B.S., 1957, Berry; M.S., 1959, Ph.D., 1963, North Carolina State.

YOUNGQUIST, GORDON R., Emeritus Professor of Chemical and Biological Engineering. B.S., 1958, Minnesota; M.S., 1960, Ph.D., 1962, Illinois.

YOUNGS, CURTIS R., Associate Professor of Animal Science; Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1981, Ph.D., 1985, Minnesota.

YU, CHENXU, Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1993, Nanjing (China); M.S., 1998, Dalian (China); Ph.D., 2003, Wisconsin.

YU, CINDY LONG, Assistant Professor of Statistics. B.S., 1995, Sichuan (China); M.S., 2000, Minnesota; Ph.D., 2005, Cornell.

YU, EDWARD WA-ON, Assistant Professor of Physics and Astronomy; Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1989, M.S., 1991, Southern Illinois; Ph.D., 1997, Michigan.

YUNUS, FARAH, Assistant Professor of Finance. BCOM, 1988, M.B.A., 1991, Karachi (Pakistan); M.S., 1997, London (UK); Ph.D., 2005, New York (Baruch).

ZABOTINA, OLGA, Assistant Professor of Biochemistry, Biophysics and Molecular Biology. M.S., 1982, Kazan State (Russia); Ph.D., 1987, Kazan Institute of Biology (Russia).

ZACHARIAS, JOSHUA R., Clinician in Veterinary Clinical Sciences. D.V.M., 2003, Iowa State; M.S., 2007, Purdue.

ZACHARY, LOREN W., Professor of Aerospace Engineering; Assistant Dean of the College of Engineering. B.S., 1966, M.S., 1974, Ph.D., 1976, Iowa State.

ZAMBRENO, JOSEPH, Assistant Professor of Electrical and Computer Engineering. B.S., 2001, M.S., 2002, Ph.D., 2006, Northwestern.

ZANISH-BELCHER, TANYA, Associate Professor, Library. B.A., 1983, Ohio Wesleyan; M.A., 1990, Wright State.

ZARECOR, KIMBERLY ELMAN, Assistant Professor of Architecture. B.A., 1996, Massachusetts; M.Arch., 1999, Columbia.

ZARING, PHILIP BREWER, Emeritus Assistant Professor of History. B.A., 1955, Indiana; M.A., 1959, Ph.D., 1966, Yale.

ZBARACKI, RICHARD J., Emeritus Professor of Curriculum and Instruction; Emeritus Professor of English. B.A., 1953, St. Thomas; M.A., 1954, Northwestern; Ph.D., 1970, Nebraska.

ZDORKOWSKI, GRETCHEN ANNE, Lecturer in Agronomy. B.S., 1974, M.A., 1977, Oklahoma.

ZEIGLER, LYNN JAY, Professor of Music. B.Mus., 1969, Oberlin; M.M., 1971, Northwestern; Premier Pr, 1973, Conservatory, Geneva.

ZHANG, JING, Assistant Professor of Management. B.A., 1996, M.A., 1999, Renmin-Beijing (China); Ph.D., 2004, National University of Singapore.

ZHANG, QIJING, Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1983, Shandong Agricultural (China); M.S., 1986, National Control Institute of Veterinary; Ph.D., 1994, Iowa State.

ZHANG, SONG, Assistant Professor of Mechanical Engineering. B.S., 2000, Sciences and Technology (China); M.S., 2003, Ph.D., 2005, Stony Brook.

ZHANG, TING, Assistant Professor of Computer Science. B.S., 1996, Peking (China); M.S., 2001, Ph.D., 2006, Stanford.

ZHANG, WENSHENG, Assistant Professor of Computer Science. B.S., 1997, Tongji (China); M.S., 2000, Chinese Academy of Science; Ph.D., 2005, Pennsylvania State.

ZHANG, ZHAO, Assistant Professor of Electrical and Computer Engineering. B.S., 1991, M.S., 1994, Huazhong (China); Ph.D., 2002, William and Mary.

ZHAO, WEI, Lecturer in Architecture. B.Arch., 2000, Tsinghua (China); M.Arch., 2003, Syracuse.

ZHAO, YAN, Associate Professor of Chemistry. Ph.D., 1996, Northwestern.

ZHENG, CHARLES ZHOUCHENG, Associate Professor of Economics. B.A., 1993, Lawrence; Ph.D., 1999, Minnesota.

ZHENG, TIANSHU, Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.S., 2002, M.S., 2003, Ph.D., 2008, Nevada (Las Vegas).

ZHU, DAN, Associate Professor of Logistics, Operations and Management Information Systems; Associate Professor of Computer Science. B.E., 1985, Beijing Polytech; M.S., 1988, Academia Sinica (China); Ph.D., 1995, Carnegie-Mellon.

ZHYLYEVSKYY, OLEKSANDR, Assistant Professor of Economics. B.A., 2000, M.A., 2002, Kiev-Mohyla Academy (Ukraine); Ph.D., 2008, Virginia.

ZIMMERMAN, DAVID, Assistant Professor of English. B.F.A., 1992, Emerson College; M.F.A., 1995, Alabama.

ZIMMERMAN, DEAN R., Emeritus Professor of Animal Science. B.S., 1954, Ph.D., 1960, Iowa State.

ZIMMERMAN, JEFFREY J., Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1978, Nebraska (Omaha); D.V.M., 1984, M.S., 1986, Ph.D., 1990, Iowa State.

ZIMMERMAN, ZORA DEVRNJA, Professor of English; Associate Dean of the College of Liberal Arts and Sciences. B.A., 1967, Ph.D., 1974, New York (Buffalo).

ZMOLEK, WILLIAM G., Emeritus Professor of Animal Science. B.S., 1944, M.S., 1951, Iowa State.

ZOBER, MARTIN, Emeritus Professor of Marketing. B.A., 1940, M.Litt., 1943, Ph.D., 1950, Pittsburgh.

ZOU, QINGZE, Assistant Professor of Mechanical Engineering. B.S., 1994, Electronic Science and Technology (China); M.S., 1997, Tsinghua (China); Ph.D., 2003, Washington.

ZUERNER, RICHARD L., Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1980, California State (Chico); M.S., 1983, Ph.D., 1986, West Virginia.

ZWANZIGER, ELIZABETH, Lecturer in World Languages and Cultures. B.A., 1991, Luther; M.A., 1993, Missouri; Ph.D., 2008, Boston.

ZWICK-TAPLEY, SARAH LYNN, Lecturer in Music. B.A., 1991, Illinois State; M.F.A., 1999, Harvard.

ZYTOWSKI, DONALD G., Emeritus Professor of Psychology. A.B., 1952, Harris; M.S., 1957, Ed.D., 1965, Washington (St. Louis).
