Introduction to the diversity of dinosaur species. Discussion of basic evolutionary theory and interpretation of fossil evidence. Overview of Mesozoic Earth history including paleogeographic and paleoclimate reconstructions. Course available via the World Wide Web.

GEOL 105: Gems and Gemstones
(2-0) Cr. 1. F.
Offered in second half of the semester. Introduction to gems and gemstones, physical and optical properties of gems and gemstones, explanation of where gems come from and how they are found, how to distinguish between synthetic and naturally occurring gems, how the value of gems are determined, and the history of famous gems.

GEOL 106: Earth and Space Science for Elementary Education Majors
(Cross-listed with ASTRO). (2-0) Cr. 2. F.S.
Prereq: Major in elementary or early childhood education.
Fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Online course format.

GEOL 106L: Earth and Space Science for Elementary Education Majors: Laboratory
(Cross-listed with ASTRO). (0-2) Cr. 1. F.S.
Prereq: Restricted to elementary and early childhood education majors; to be taken concurrently with GEOL 106/ASTRO 106
Inquiry-based lab exploring fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Must be taken concurrently with GEOL/ASTRO 106.

GEOL 108: Introduction to Oceanography
(Cross-listed with ENV S). (3-0) Cr. 3. F.

GEOL 111: Geological Disasters
(Cross-listed with ENV S). (1-0) Cr. 1. F.S.S.S.
Introduction to the catastrophic geologic processes that disrupt ecosystems and human activity. Includes a discussion on the role of plate tectonics, the hydrologic cycle, and humans as the driving forces behind selected case studies on volcanic eruptions, earthquakes, tsunamis, landslides, and floods. Summer and fall - online only.

GEOL 112: Geoscience Orientation
(Cross-listed with MTEOR). (1-0) Cr. 1. F.
Orientation course for students enrolled in the Earth, Wind and Fire Learning Community. Provides an introduction to Iowa State University and meteorology, geology, and Earth science programs for students enrolled in the department's learning community. Activities include academic and social activities, talks and presentations on academic success, resume writing, and study abroad, as well as research talks by faculty members.

GEOL 113: Spring Geoscience Orientation for Earth, Wind and Fire Learning Community
(Cross-listed with MTEOR). (1-0) Cr. 1. S.
Spring orientation course for students enrolled in the "Earth, Wind and Fire" Learning Community. Develop and apply quantitative, data-analysis, management, and communication skills on an authentic research project in a team to focus on professionalism and resilience. Introduction to interview strategies and the importance of creating a professional image on social media. Academic and social events, plus two field trips.

GEOL 160: Water Resources of the World
(Cross-listed with AGRON, ENV S, MTEOR). (3-0) Cr. 3. S.
Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment. Meets International Perspectives Requirement.

GEOL 201: Geology for Engineers and Environmental Scientists
(2-2) Cr. 3. F.
Introduction to Earth materials and processes with emphasis on engineering and environmental applications.

GEOL 290: Independent Study
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Independent study for freshman and sophomore students.

GEOL 298: Cooperative Education
Cr. R. F.S.S.S.
Prereq: GEOL 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing the work period.
GEOL 302: Summer Field Studies
Cr. 6. SS.
Prereq: GEOL 102, GEOL 356, GEOL 368
Geologic mapping; structural, stratigraphic, sedimentologic, metamorphic, geomorphic, and environmental analyses. Study areas in the Bighorn Basin and Wind River Range and excursions to Yellowstone and Grand Teton National Parks. A 6-week summer field course required of all geology majors.

GEOL 315: Mineralogy and Earth Materials
(3-0) Cr. 3. F.
Prereq: GEOL 100 or GEOL 201, CHEM 177
Introduction to mineral classification, elementary crystal chemistry, crystal growth and morphology, mineral stability, and mineral associations.

GEOL 315L: Laboratory in Mineralogy and Earth Materials
(0-3) Cr. 1. F.
Prereq: GEOL 100 or GEOL 201
Mineral identification methods, especially hand-specimen identification.

GEOL 316: Optical Mineralogy
(1-2) Cr. 1. F.
Prereq: GEOL 100 or GEOL 201, CHEM 177, credit or enrollment in GEOL 315
Laboratory problems in mineral-identification methods utilizing optical microscopic techniques.

GEOL 324: Energy and the Environment
(Cross-listed with ENSCI, ENV S, MTEOR). (3-0) Cr. 3. S.
Prereq: CHEM 163 or CHEM 177, MATH 140
Exploration of the origin of Earth's energy resources and the environmental and climatic impacts of energy acquisition and consumption. Renewable and non-renewable energy resources within an Earth-system context. Various environmentally-relevant topics such as water quality and availability, habitat destruction, greenhouse-gas emissions, and health and safety hazards to wildlife and human communities.

GEOL 356: Structural Geology and Tectonics
(3-3) Cr. 4. S.
Prereq: GEOL 100 or GEOL 201; PHYS 111
Principles of stress, strain, and rheology. Brittle and ductile behavior of rocks. Mechanics of formation, description, and classification of fractures, faults, folds, foliation, and lineation. From micro-structures to tectonic processes. Laboratory includes application of learned concepts to real-world scenarios, geometrical techniques to solve structural problems.

GEOL 357: Geological Mapping and Field Methods
Cr. 1. S.
Prereq: GEOL 100 or GEOL 201; PHYS 111; credit or enrollment in GEOL 356
Generation and interpretation of geological maps via a combination of laboratory and field exercises. Developing skills in 3D thinking, cross-section construction, stereonet analysis, field data collection, and communicating scientific results.

GEOL 365: Igneous and Metamorphic Petrology
(2-3) Cr. 3. S.
Prereq: GEOL 315, GEOL 315L, GEOL 316
Nature and origin of igneous and metamorphic rocks. Emphasis on important rock-forming environments and processes and their influence on rock characteristics. Laboratory includes thin section study of rock textures and mineralogy and the interpretation of these features.

GEOL 368: Sedimentary Geology
(3-3) Cr. 4. F.
Prereq: GEOL 102
Exploration of the interplay between weathering, sedimentation, sea-level change, tectonics, and life through time that creates sedimentary rocks and stratigraphic packages. Understanding of the historical development of sedimentary geology through the development of petrography, paleontology, deep earth sampling, geophysical technologies, and geochemistry. Field and laboratory problem sets illuminate lecture material.

GEOL 398: Cooperative Education
Cr. R. F.S.S.
Prereq: GEOL 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

GEOL 402: Watershed Hydrology
(Dual-listed with GEOL 502). (Cross-listed with ENSCI, MTEOR, NREM). (2-3) Cr. 3. F.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.
GEOL 406: Geology Field Course
Cr. 1-2. Repeatable, maximum of 2 times. F.S.
Prereq: GEOL 100 or GEOL 201
Weekly seminar introduces students to a selected geological region or theme that is visited on a required ten-day field excursion. Introduction to field-safety leadership.

GEOL 409: Field Methods in Hydrogeology
(Dual-listed with GEOL 509). (Cross-listed with ENSCI). (0-4) Cr. 3. Alt. SS., offered even-numbered years.
Prereq: GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473
Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

GEOL 411: Hydrogeology
(Dual-listed with GEOL 511). (Cross-listed with ENSCI). (3-2) Cr. 4. F.
Prereq: Four courses in biological or physical sciences
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

GEOL 412: Micropaleontology
(Dual-listed with GEOL 512). (Cross-listed with ENSCI). Cr. 3. Alt. F., offered even-numbered years.
Prereq: GEOL 102 and GEOL 102L
Evolution, identification and utility of major microfossil groups from the Mesozoic to present. Focus on Cenozoic applications including biostratigraphy, paleoclimate, and paleothermometry using assemblages, stable isotopes, Mg/Ca, and molecular fossils. Laboratory includes processing and analysis of specific microfossils. Major groups covered include foraminifera, calcareous nannofossils, sponge spicules, diatoms, radiolarians, and silicoflagellates.

GEOL 413: Applied and Environmental Geophysics
(Dual-listed with GEOL 513). (Cross-listed with C E, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GEOL 100 or GEOL 201, algebra and trigonometry
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar.

GEOL 414: Applied Groundwater Flow Modeling
(Dual-listed with GEOL 514). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: GEOL 411 or C E 473; MATH 165 or MATH 181
Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

GEOL 415: Paleoclimatology
(Dual-listed with GEOL 515). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in biological or physical science
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years).

GEOL 416: Hydrologic Modeling and Analysis
(Dual-listed with GEOL 516). (Cross-listed with ENSCI, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in Earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

GEOL 419: Aqueous and Environmental Geochemistry
(Dual-listed with GEOL 519). (Cross-listed with ENSCI). (2-2) Cr. 3. S.
Prereq: CHEM 178, CHEM 178L, junior classification
Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.
GEOL 420: Mineral Resources  
(Dual-listed with GEOL 520). (2-3) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: GEOL 365  
Geology and geochemistry of non-metallic and metallic ore deposits. Major processes that concentrate metals in the Earth. Geochemical conditions of ore formation using stable-isotope and fluid-inclusion studies. Laboratory emphasizes the study of metallic ores.

GEOL 426: Stable Isotopes in the Environment  
(Dual-listed with GEOL 526). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: Four courses in biological or physical science  
Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

GEOL 439: Seismic Methods in Geology, Engineering, and Petroleum Exploration  
(Dual-listed with GEOL 539). (Cross-listed with C E). (2-2) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: GEOL 100 or GEOL 201, algebra and trigonometry  
Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment.

GEOL 444: Petroleum Geoscience and Engineering  
(Dual-listed with GEOL 544). (2-2) Cr. 3. Alt. S., offered even-numbered years.  
The geoscience and engineering aspects of exploration, development, and production of hydrocarbon resources around the world, as well as the historical and legal frameworks through which the industry has developed. Broader discussions of safety, risk, uncertainty, cost, and integrity as relevant to the petroleum industry.

GEOL 452: GIS for Geoscientists  
(Dual-listed with GEOL 552). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. F.S.  
Prereq: GEOL 100, GEOL 201 or equivalent  
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

GEOL 468: Applied Geostatistics for Geoscientists  
(Dual-listed with GEOL 568). (Cross-listed with ENSCI, MTEOR). Cr. 3. F.  
Prereq: GEOL 452, C R P 351, C R P 452, NREM 345, or NREM 446  
Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression).

GEOL 474: Glacial and Quaternary Geology  
(Dual-listed with GEOL 574). (2-2) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: GEOL 100 or GEOL 201 or equivalent experience  
The study of glaciers and glacial processes. Discussion of glaciology, glacial sediment transport, glacial landforms, and Quaternary history. Laboratory emphasizes topographic map interpretation and the Quaternary landscapes of Iowa.

GEOL 479: Surficial Processes  
(Dual-listed with GEOL 579). (Cross-listed with ENSCI). (2-3) Cr. 3. F.  
Prereq: GEOL 100 and GEOL 100L; or GEOL 201; or equivalent experience  
The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

GEOL 487: Microbial Ecology  
(Dual-listed with GEOL 587). (Cross-listed with BIOL, ENSCI, MICRO). (3-0) Cr. 3. F.  
Prereq: Six credits in biology and 6 credits in chemistry  
Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

GEOL 488: GIS for Geoscientists II  
(Dual-listed with GEOL 588). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent  
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.
GEOL 489: Survey of Remote Sensing Technologies  
(Dual-listed with GEOL 589). (Cross-listed with E E, MTEOR, NREM). (3-0) Cr. 3. F.  
*Prereq: Four courses in physical or biological sciences or engineering*  
Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

GEOL 489L: Satellite Remote Sensing Laboratory  
(Dual-listed with GEOL 589L). (Cross-listed with E E, MTEOR, NREM). (0-3) Cr. 1. F.  
*Prereq: Completion or concurrent enrollment in MTEOR/GEOL/NREM/EE 489/589*  
Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context.

GEOL 490: Independent Study  
Cr. 1-3. Repeatable, maximum of 9 credits.  
*Prereq: 6 credits in geology and permission of instructor*  
Independent study for senior students. No more than 9 credits of Geol 490 may be counted toward graduation.

GEOL 495: Undergraduate Seminar  
Cr. 1. F.S.  
*Prereq: Junior or senior classification*  
Weekly seminar on topics of current research interest. Requires written summaries of three presentations of choice.

GEOL 498: Cooperative Education  
Cr. R. F.S.S.  
*Prereq: Geol 100 or GEOL 201, GEOL 100L, GEOL 102, GEOL 102L, and permission of the department cooperative education coordinator; senior classification*  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduates:

GEOL 506: Geology Field Course  
Cr. 1-2. Repeatable, maximum of 2 times. F.S.  
*Prereq: Graduate classification*  
Weekly seminar introduces students to a selected geological region or theme that is visited on a required ten-day field excursion. Graduate students are expected to assist in field teaching and safety leadership.

GEOL 507: Midwestern Geology Field Trip  
Cr. 1. Repeatable, maximum of 4 times. F.  
*Prereq: GEOL 365*  
On-site inspection of various ore deposits, mining operations, and terrains dominated by igneous or metamorphic rocks. Offered on a satisfactory-fail basis only.

GEOL 509: Field Methods in Hydrogeology  
(Dual-listed with GEOL 409). (Cross-listed with ENSCI). (0-4) Cr. 3. Alt. SS., offered even-numbered years.  
*Prereq: GEOL/ENSCI 402 or GEOL/ENSCI 411 or C E 473*  
Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

GEOL 511: Hydrogeology  
(Dual-listed with GEOL 411). (Cross-listed with ENSCI). (3-2) Cr. 4. F.  
*Prereq: Four courses in biological or physical sciences*  
Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

GEOL 512: Micropaleontology  
(Dual-listed with GEOL 412). Cr. 3. Alt. F., offered even-numbered years.  
*Prereq: GEOL 102 and GEOL 102L*  
Evolution, identification and utility of major microfossil groups from the Mesozoic to present. Focus on Cenozoic applications including biostatigraphy, paleoclimate, and paleothermometry using assemblages, stable isotopes, Mg/Ca, and molecular fossils. Laboratory includes processing and analysis of specific microfossils. Major groups covered include foraminifera, calcareous nanofossils, sponge spicules, diatoms, radiolarians, and silicoflagellates.
GEOL 513: Applied and Environmental Geophysics
(Dual-listed with GEOL 413). (Cross-listed with C E, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: GEOL 100 or GEOL 201, algebra and trigonometry
Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic- and resistivity-imaging systems and radar.

GEOL 514: Applied Groundwater Flow Modeling
(Dual-listed with GEOL 414). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: GEOL 411 or C E 473; MATH 165 or MATH 181
Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

GEOL 515: Paleoclimatology
(Dual-listed with GEOL 415). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in biological or physical science
Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~ 1 million years).

GEOL 516: Hydrologic Modeling and Analysis
(Dual-listed with GEOL 416). (Cross-listed with ENSCI, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

GEOL 519: Aqueous and Environmental Geochemistry
(Dual-listed with GEOL 419). (Cross-listed with ENSCI). (2-2) Cr. 3. S.
Prereq: CHEM 178, CHEM 178L; junior classification
Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

GEOL 520: Mineral Resources
(Dual-listed with GEOL 420). (2-3) Cr. 3. Alt. F., offered even-numbered years.
Prereq: GEOL 365
Geology and geochemistry of non-metallic and metallic ore deposits. Major processes that concentrate metals in the Earth. Geochemical conditions of ore formation using stable-isotope and fluid-inclusion studies. Laboratory emphasizes the study of metallic ores.

GEOL 526: Stable Isotopes in the Environment
(Dual-listed with GEOL 426). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Four courses in biological or physical science
Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

GEOL 539: Seismic Methods in Geology, Engineering, and Petroleum Exploration
(Dual-listed with GEOL 439). (Cross-listed with C E). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: GEOL 100 or GEOL 201, algebra and trigonometry
Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment.

GEOL 544: Petroleum Geoscience and Engineering
(Dual-listed with GEOL 444). (2-2) Cr. 3. Alt. S., offered even-numbered years.
The geoscience and engineering aspects of exploration, development, and production of hydrocarbon resources around the world, as well as the historical and legal frameworks through which the industry has developed. Broader discussions of safety, risk, uncertainty, cost, and integrity as relevant to the petroleum industry.
GEOL 552: GIS for Geoscientists  
(Dual-listed with GEOL 452). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. F.S.  
Prereq: GEOL 100, GEOL 201 or equivalent  
Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI's ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

GEOL 555: Environmental Soil Mineralogy  
(Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: AGRON 473, CHEM 178. Recommend: GEOL 311  
Structure and behavior of clay minerals, humic substances and biochar in soil environments, with emphasis on reactions and environmental implications.

GEOL 558: Introduction to the 3D Visualization of Scientific Data  
(Cross-listed with COM S, HCI). (2-2) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: Graduate-student standing in the mathematical or natural sciences or engineering; basic programming knowledge  
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, and engineering). Class project in interactive 3D visualization using the ParaView, Mayavi, TVTK, VTK or a similar system.

GEOL 568: Applied Geostatistics for Geoscientists  
(Dual-listed with GEOL 468). (Cross-listed with ENSCI, MTEOR). Cr. 3. F.  
Prereq: GEOL 452, CRP 351, CRP 452, NREM 345, or NREM 446  
Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression).

GEOL 574: Glacial and Quaternary Geology  
(Dual-listed with GEOL 474). (2-2) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: GEOL 100 or GEOL 201 or equivalent experience  
The study of glaciers and glacial processes. Discussion of glaciology, glacial sediment transport, glacial landforms, and Quaternary history. Laboratory emphasizes topographic map interpretation and the Quaternary landscapes of Iowa.

GEOL 579: Surficial Processes  
(Dual-listed with GEOL 479). (Cross-listed with ENSCI). (2-3) Cr. 3. F.  
Prereq: GEOL 100 and GEOL 100L; or GEOL 201; or equivalent experience.  
The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

GEOL 587: Microbial Ecology  
(Dual-listed with GEOL 487). (Cross-listed with EEOB, ENSCI, MICRO). (3-0) Cr. 3. F.  
Prereq: Six credits in biology and 6 credits in chemistry  
Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

GEOL 588: GIS for Geoscientists II  
(Dual-listed with GEOL 488). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: GIS course, such as GEOL 452, CRP 451, CRP 452, NREM 345, NREM 446, AE 408 or equivalent  
GIS course with focus on the spatial analysis and modeling of raster data and triangulated irregular network (TIN) data. Uses ArcGIS and various extensions, such as Spatial Analyst, 3D Analyst, and ArcScene. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project.

GEOL 589: Survey of Remote Sensing Technologies  
(Dual-listed with GEOL 489). (Cross-listed with E E, MTEOR, NREM). (3-0) Cr. 3. F.  
Prereq: Four courses in physical or biological sciences or engineering  
Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

GEOL 589L: Satellite Remote Sensing Laboratory  
(Dual-listed with GEOL 489L). (Cross-listed with E E, MTEOR, NREM). (0-3) Cr. 1. F.  
Prereq: Completion or concurrent enrollment in MTEOR/GEOL/NREM/EE 489/589  
Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context.

GEOL 590: Special Topics  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor
GEOL 590A: Special Topics: Surficial Processes  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590B: Special Topics: Stratigraphy  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590C: Special Topics: Sedimentation  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590D: Special Topics: Paleontology  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590E: Special Topics: Petrology  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590F: Special Topics: Structural Geology  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590G: Special Topics: Geochemistry  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590H: Special Topics: Hydrogeology  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590I: Special Topics: Earth Science  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590J: Special Topics: Mineral Resources  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590K: Special Topics: Geophysics  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590L: Special Topics: Mineralogy  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590M: Special Topics: Tectonics  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590N: Special Topics: Paleoenvironment and Paleoclimatology  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590O: Special Topics: Isotope Geochemistry  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590P: Special Topics: Computational Methods and GIS  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590Q: Special Topics: Surface Hydrology  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 590S: Special Topics: Oceanography  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor

GEOL 595: Graduate Seminar  
(Cross-listed with MTEOR). Cr. 1. Repeatable. F.S.  
Prereq: Senior or graduate classification  
Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

GEOL 595A: Graduate Seminar: Presentation Required  
(Cross-listed with MTEOR). (1-0) Cr. 1. Repeatable. F.S.  
Prereq: Senior or graduate classification  
Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

GEOL 595B: Graduate Seminar: Attendance Only  
(Cross-listed with MTEOR). Cr. R. Repeatable. F.S.  
Prereq: Senior or graduate classification  
Attendance only. Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

GEOL 599: Creative Component  
Cr. arr. Repeatable.

Courses for graduate students:
### GEOL 610: Advanced Seminar
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610A: Advanced Seminar: Earth Materials
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610B: Advanced Seminar: Economic Geology
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610C: Advanced Seminar: Environmental Geochemistry
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610D: Advanced Seminar: Geophysics
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610E: Advanced Seminar: Geotectonics
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610F: Advanced Seminar: Hydrogeology
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610G: Advanced Seminar: Surficial Processes
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610H: Advanced Seminar: Sedimentation and Stratigraphy
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610I: Advanced Seminar: Paleoeoclogy and Paleoclimatology
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610J: Advanced Seminar: Isotope Geochemistry
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 610K: Advanced Seminar: Computational Methods and GIS
Cr. 1-3. Repeatable. F.S.
**Prereq:** Graduate standing and permission of instructor

### GEOL 699B: Research: Stratigraphy
Cr. arr. Repeatable.

### GEOL 699C: Research: Sedimentation
Cr. arr. Repeatable.

### GEOL 699D: Research: Paleontology
Cr. arr. Repeatable.

### GEOL 699E: Research: Petrology
Cr. arr. Repeatable.

### GEOL 699F: Research: Structural Geology
Cr. arr. Repeatable.

### GEOL 699G: Research: Geochemistry
Cr. arr. Repeatable.

### GEOL 699H: Research: Hydrogeology
Cr. arr. Repeatable.

### GEOL 699I: Research: Earth Science
Cr. arr. Repeatable.

### GEOL 699J: Research: Mineral Resources
Cr. arr. Repeatable.

### GEOL 699K: Research: Geophysics
Cr. arr. Repeatable.

### GEOL 699L: Research: Mineralogy
Cr. arr. Repeatable.

### GEOL 699M: Research: Tectonics

### GEOL 699O: Research: Isotope Geochemistry
Cr. arr. Repeatable.

### GEOL 699P: Research: Computational Methods and GIS
Cr. arr. Repeatable.

### GEOL 699R: Research: Surface Hydrology
Cr. arr. Repeatable.

### GEOL 699S: Research: Geoscience Education
Cr. arr. Repeatable.

## History

The History department offers courses leading to the B.A. and B.S. degrees in history, an M.A. in History, and a Ph.D. in Rural, Agricultural, Technological and Environmental History.

The department offers a variety of survey courses (200 series) for first- and second-year students as either general education courses or as introductions to advanced courses in history or other subject areas. In addition to 200-level survey courses, it offers advanced undergraduate...
History courses in the history of Europe, Asia, Africa, Latin America, the United States, technology and science, agriculture, and other selected topics.

**The History Major**

History majors may earn either a bachelor of arts or bachelor of science degree. The minimum required for a major in history is 37 credits, including HIST 195 and HIST 495. At least 24 credits of HIST must be in courses numbered 300 or above. Students may take a maximum of 12 credits at the 200-level, a maximum of 15 credits at the 300-level, and must take a minimum of 12 credits at the 400-level or above (i.e. HIST 495 and 9 additional 400+ level credits). A minimum of 15 credits of HIST numbered 300 or above must be taken in residence at Iowa State. The department will accept a maximum of 6 credits of cross-listed courses originating in another teaching department toward the major degree. Candidates for the B.A. must complete two years of university-level study in one foreign language or the equivalent. Many history majors also pursue a minor in another discipline, a second major, or teacher certification.

**Objectives for History Majors**

1. Display the appropriate level of cognitive knowledge of historical themes and events based upon the student's course of study
2. Display an understanding of past cultures and social organizations, based on the course of study
3. Develop the fundamental methodological skills of the historical craft:- The ability to contextualize and analyze primary source evidence.- Familiarity with the concepts of historical argument and interpretation, and the ability to formulate effective argumentation in written and oral forms.- Awareness of the basic historiography in selected research area.- The ability to conduct research and to write a historical essay based upon primary and secondary source research. Students receive an introduction to these concepts in HIST 195 Introduction to History.
4. Display a sophisticated understanding of the relationship between past events and the present. For purposes of outcomes assessment, all History majors must complete three credits of HIST 495 Historiography and Research Writing or, if qualified and willing, one graduate level writing/research seminar.

Communication Proficiency requirement: History majors must receive a grade of C or better in ENGL 250 (or ENGL 250H), and HIST 495 or any graduate seminar.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. For a history major, 15 credits of history at the 300/400 level must be taken at ISU. You must also complete the LAS foreign language requirement.

Students seeking teacher certification should contact the History Department directly for the latest information on specific course work required for certification by the State of Iowa. Course work in addition to the degree minimums may be required.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. For a history major, 15 credits of history at the 300/400 level must be taken at ISU. You must also complete the LAS foreign language requirement.

The BA in History requires the equivalent of 2 years of college-level study in the same foreign language. Six credits of electives may be replaced by 6 additional credits of foreign language.

Students seeking teacher certification should contact the History Department directly for the latest information on specific course work required for certification by the State of Iowa. Course work in addition to the degree minimums may be required.

Minor

The department offers a minor in History, which may be earned with 15 credits in History courses, of which at least 9 must be in courses numbered 300 or above, excluding HIST 490 Independent Study. A minimum of 9 credits numbered 300 or above must be taken at Iowa State. The College of Liberal Arts and Sciences requires students to earn a C or higher in at least 6 of the required 300-level credits. A student may count a maximum of 3 hours of cross-listed courses originating in another teaching department toward the minor in History. The History minor is most frequently chosen by students majoring in Political Science, English, Journalism, Computer Science, and Business.

Graduate Study

The History Department offers two graduate degrees: a M.A. in History and a Ph.D. in Rural, Agricultural, Technological and Environmental History.

Most history graduate courses are either proseminars or seminars. Proseminars acquaint students with the historical literature of a field and prepare them for careers in teaching and research. Seminars require students to conduct original historical research and to write research papers reporting the results.

The M.A. in history includes three options. See the departmental website on the M.A. in History for a full discussion of the options and requirements. An M.A. in History serves as the basis for continued study in history, as well as preparation for careers in law, education, business, and government service. Throughout world history human beings have depended on rural and agricultural communities as well as on the technologies developed and employed by these communities to sustain lives. Iowa State's Doctoral Program in Rural, Agricultural, Technological and Environmental History offers a scholarly community and learning environment dedicated to the close examination of pervasive and enduring questions about these basic aspects of human history. Such questions can best be answered through the multi-faceted perspectives provided by rural, agricultural, technological, and environmental history.
The result is a dynamic learning experience that leads to comparative and transnational analysis shaped by a broad range of methods drawn from the humanities and social/physical sciences. The Program’s aim is to produce students who are excellent researchers and engaging teachers, capable of succeeding in a broad variety of professional positions, both inside and outside of academia.

The Ph.D. in Rural, Agricultural, Technological and Environmental History is designed for students who have completed an M.A. in history. Those who have not yet completed an M.A. will be expected to complete the degree while progressing toward the Ph.D. Thirty semester hours of graduate credit are required for the M.A. and 72 for the Ph.D. Students who continue beyond the M.A. are expected to pass preliminary examinations in four areas of specialization, complete a dissertation, and defend it orally in the Ph.D. final examination. See the departmental website on the program for a full description of requirements.

### Courses primarily for undergraduates:

**HIST 195: Introduction to History**
(1-0) Cr. 1.
*Prereq: classification as history major*
Introduction to the discipline of history and how historians think and work. Focus on research methodologies, writing and analytical practices of historians, and specialization in the discipline.

**HIST 201: Introduction to Western Civilization I**
(3-0) Cr. 3. F.
Western civilization from ancient Mediterranean world to 1500. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.
Meets International Perspectives Requirement.

**HIST 202: Introduction to Western Civilization II**
(3-0) Cr. 3. S.
Western civilization from 1500 to present. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.
Meets International Perspectives Requirement.

**HIST 207: Chinese Civilization**
(3-0) Cr. 3.
Origins, development, decline and transformation of China from earliest times to 1911.
Meets International Perspectives Requirement.

**HIST 221: Survey of United States History I**
(3-0) Cr. 3. F.
Colonial foundations: revolution, confederation, and constitution; nationalism and democracy; sectional disunity, Civil War, and reunion.

**HIST 222: Survey of United States History II**
(3-0) Cr. 3. S.
Industrialization; emergence as a great power; boom and depression; war, internationalism and Cold War; modern industrial society.

**HIST 225: Introduction to Asian American Studies**
(3-0) Cr. 3.
An interdisciplinary and chronological examination of Asian American immigration experiences from the early 19th century to the 21st century. Focus on how these immigration histories are accompanied by changing racial constructions. Discussion of racial stereotyping, the model minority myth, identity development, and efforts for social justice. Meets U.S. Diversity Requirement.

**HIST 255: Introduction to World History, 1500-Present**
(3-0) Cr. 3.
*Prereq: None*
Social and cultural developments; economic and political ideas and institutions; colonization of the Americas; biological exchanges; industrialization; political revolutions; European colonialism; emergence of the Global South; Cold War; decolonization; fossil fuels and energy; global environmental change.
Meets International Perspectives Requirement.

**HIST 280: Introduction to History of Science I**
(3-0) Cr. 3.
Ideas of nature from ancient Greece to the seventeenth-century scientific revolution.
Meets International Perspectives Requirement.

**HIST 281: Introduction to History of Science II**
(3-0) Cr. 3.
Science from seventeenth-century scientific revolution to Darwin and Einstein.
Meets International Perspectives Requirement.

**HIST 284: Wonders of the World, Global History of Innovation**
(3-0) Cr. 3. F.
Innovation across cultures from the ancient “Seven Wonders of the World” to the modern world, with developments in Egypt, Greece, Rome, the Islamic World, India, China, Europe, and the Americas. Topics include major inventions, agricultural technologies, architecture, manufacturing, warfare, engineering, printing, entertainment, transport, and communications.
Meets International Perspectives Requirement.
HIST 304: Cultural Heritage of the Ancient World  
(Cross-listed with CL ST). (3-0) Cr. 3.  
Prereq: Sophomore classification  
Historical examination of art, literature, thought, and religious beliefs of major civilizations of the ancient Mediterranean countries until the end of the 8th century.

HIST 307: American Popular Culture  
(3-0) Cr. 3.  
Prereq: Sophomore classification  
Social practices, beliefs and material traits of everyday life in America from the mid-19th century to the present. Includes literature, music, theater and other entertainments. Dime novels, vaudeville, rock and roll music, Hollywood and establishment of professional athletic leagues are among the cultural artifacts and phenomena considered.

HIST 311: Africa under Colonial Rule  
(Cross-listed with AF AM). (3-0) Cr. 3.  
Prereq: 3 credits of 200-level HIST at Iowa State, and sophomore classification.  
Development of Africa from imposition of colonial rule to independence, including processes of European domination, African reaction and resistance, emergence of nationalism, and dismantling of colonialism. Meets International Perspectives Requirement.

HIST 316: History of Medieval Europe, 300-1500  
(3-0) Cr. 3.  
Prereq: Sophomore classification  
Survey of political, social, and cultural developments in western Europe for the entire medieval period, 300-1500.

HIST 318: History of Early Modern Europe, 1450-1789  
(3-0) Cr. 3.  
Prereq: Sophomore classification  
Survey of major themes in the social, political, cultural, and religious history of early modern Europe, including the eras of renaissance and reformation, the age of exploration, development of the modern individual and household, and enlightenment.

HIST 320: History of Modern Europe, 1789 to Present  
(3-0) Cr. 3. F.  
Prereq: 3 credits of 200-level HIST at Iowa State, and sophomore classification.  
Survey of major themes in the social, political, and religious history of Europe from the French Revolution to the present. Topics to be covered include the French Revolution, nationalism, the Industrial Revolution, the Russian Revolution, World Wars I and II, the Cold War, the fall of the Soviet Union, and the history of globalization.

HIST 325: Society and Politics in England, 1525-1700  
(3-0) Cr. 3.  
Prereq: Sophomore classification  
Social, cultural, demographic, and economic experiences. Religious Reformation. Growth of the State (and Empire) and political institutions.

HIST 327: History of the British Empire  
(3-0) Cr. 3.  
Prereq: Sophomore classification  
Development of British Empire from origins in the seventeenth century to dissolution in the twentieth century. Attention given to empire in S. Pacific, N. America, India and S. Asia, Hong Kong, Africa and the Middle East, as well as theories of empire and the impact of immigration on British society. Irish history also covered. none Meets International Perspectives Requirement.

HIST 331: History of the Islamic World to 1800  
(3-0) Cr. 3. F.  
Prereq: 3 credits of 200-level HIST at Iowa State and sophomore classification.  
Survey of the Islamic world from pre-Islamic Arabia to the 19th century covering the life of the Prophet Muhammad, the spread of Islam through the Arab conquests and the Caliphal dynasties of the Umayyads and the Abbasids, the Mongol conquests, Turkic migrations from Central Asia, and the rise of the Ottoman Empire.

HIST 333: Asian American Material Cultures  
(Cross-listed with ANTHR). (3-0) Cr. 3.  
Examination of material objects made and used by Asian Americans with both historical and contemporary focuses; transnational and interdiscipliarity lenses to interpret the material world; contemporary approaches to analysis of artifacts.  
Meets U.S. Diversity Requirement

HIST 336: History of Modern China I  
(3-0) Cr. 3.  
Prereq: Sophomore classification  
China from 1644 to 1912; internal and external stimuli on traditional structure leading to reform and revolution.  
Meets International Perspectives Requirement.

HIST 337: History of Modern China II  
(3-0) Cr. 3.  
Prereq: Sophomore classification  
China from 1912 to present; search for a new order and continuing Chinese revolution.  
Meets International Perspectives Requirement.
HIST 338: Modern Japanese History
(3-0) Cr. 3.
Prereq: Sophomore classification
Japan 1600 to the present; emphasis on transformation of feudal Japan into a post-industrial society.
Meets International Perspectives Requirement.

HIST 340: History of Latin America I
(3-0) Cr. 3.
Prereq: Sophomore classification
Colonial Latin America from European discovery and colonization to wars for independence.

HIST 341: History of Latin America II
(3-0) Cr. 3.
Prereq: Sophomore classification
Modern Latin America national origins from 1800 to present.
Meets International Perspectives Requirement.

HIST 353: History of African Americans I
(Cross-listed with AF AM). (3-0) Cr. 3.
Prereq: Sophomore classification
Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.
Meets U.S. Diversity Requirement

HIST 354: History of African Americans II
(Cross-listed with AF AM). (3-0) Cr. 3.
Prereq: Sophomore classification
Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.
Meets U.S. Diversity Requirement

HIST 357: American Family History
(3-0) Cr. 3.
Prereq: Sophomore classification
The impact on American families from colonial times onward of agricultural change, industrialization, urbanization, and wars and depressions.

HIST 362: Global Environmental History
(Cross-listed with ENV S). (3-0) Cr. 3. F.
Prereq: Either one of HIST 201, 202, or 207; or 3 credits of Environmental Studies; and sophomore classification.
Survey of the interactions of human communities with their environments from the beginnings of human history to the present. Topics include the domestication of animals, the agricultural revolution, industrialization, urbanization, deforestation, hydraulic management, fossil fuel consumption, and climate change.

HIST 363: U.S. Environmental History
(Cross-listed with ENV S). (3-0) Cr. 3.
Prereq: Sophomore classification
Survey of the interactions of human communities with the North American environment. Focus on the period from presettlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies.

HIST 365: American Agriculture I: The Maya to McCormick’s Reaper
(3-0) Cr. 3.
Prereq: Sophomore classification
North American agricultural development to 1865. American Indian agricultural systems, European background and agricultural revolution, agriculture in the colonial era, early republic and antebellum period.
Topics include origins of modern crops, agriculture’s role in the economy, politics, and settlement of the U.S., slavery, rural and frontier life, and mechanization.

HIST 366: American Agriculture II: Homestead Act to GMOs
(3-0) Cr. 3.
Prereq: Sophomore classification
American agricultural development since 1865. Post-Civil War adjustments; westward expansion; economic boom and bust; mechanization; Dust Bowl and environmental challenges; Great Depression and New Deal; changing rural life; scientific and technological advances; farm crisis and late twentieth century challenges.

HIST 367: America Eats
(3-0) Cr. 3.
Prereq: Sophomore classification
Thematic approach to the development of the American agricultural system through the topics of food and eating. Changes in American food systems from Native American, pre-contact diets through modern innovations such as fast food, organics, and eating locally.
HIST 370: History of Iowa  
(3-0) Cr. 3.  
*Prereq: Sophomore classification*  
Survey of major social, cultural and economic developments in Iowa from the late 1700s. Emphasis on minority groups, pioneer life, early economic development, industrial development, educational and religious development, and outstanding personalities.

HIST 371: Mexican American History  
(Cross-listed with US LS). (3-0) Cr. 3. Alt. F., offered even-numbered years.  
*Prereq: 3 credits of 200-level HIST at Iowa State and sophomore classification.*  
History of the Mexican American community in the U.S. from the 1820s to the present. Topics include community development, employment, social marginalization, racism/discrimination, depression and world wars, civil rights, ethnic power and politics.  
Meets U.S. Diversity Requirement

HIST 372: Latina/o History  
(Cross-listed with US LS). (3-0) Cr. 3.  
Historical and cultural heritage of Latinas/os in the United States. The histories of Mexican, Puerto Rican, Cuban, and other Latin American peoples in the U.S. emphasizing political and cultural convergence and congruencies.  
Meets U.S. Diversity Requirement

HIST 374: Sex, Gender, and Culture in the Ancient Mediterranean World  
(Cross-listed with CL ST, WGS). (3-0) Cr. 3.  
*Prereq: Any one course in CL St, W S, Latin, or Greek*  
Chronological and topical survey of the status of women and men, focusing on sex and gender issues in the Ancient Mediterranean world; study of constructs of the female and the feminine. Readings from ancient and modern sources. Emphasis on ancient Greece, Rome, and Egypt.  
Meets International Perspectives Requirement

HIST 380: History of Women in Science, Technology, and Medicine  
(Cross-listed with WGS). (3-0) Cr. 3.  
*Prereq: Sophomore classification*  
History of women's relationship to the fields of science, technology, and medicine, as students and professionals, consumers, subjects and patients, family members, workers and citizens. Concentrates especially on 19th and 20th century United States, concluding with an examination of current issues of special interest to women in science, technology, and medicine.  
Meets U.S. Diversity Requirement

HIST 382: History and Philosophy of the Scientific Revolution.  
(Cross-listed with PHIL). (3-0) Cr. 3. S.  
The emergence of empirical science as the authoritative methodology for production of knowledge about the natural world in the period between Copernicus and Kant. Scientific progress achieved during the period, including the work of Galileo, Descartes, and Newton. The re-shaping of epistemology in the Western intellectual tradition. Implications for philosophy and historiography.

HIST 383: Technology, Public Science, and European Culture, 1715-Present  
(3-0) Cr. 3.  
*Prereq: Sophomore classification*  
A survey from the Age of Enlightenment to the end of the twentieth century of the relationship between science, technology, and public or popular culture in a comparative European context (including Russia and the former Soviet Union).  
Meets International Perspectives Requirement.

HIST 384: Roman Italy: An Introduction  
(Cross-listed with CL ST). Cr. 2. Repeatable, maximum of 4 credits. S.  
*Prereq: Enrollment limited to students participating in CL ST 385/HIST 385. Instructor permission required.*  
Introduction to the topography, history, archaeology, monuments, and art of Rome from the 8th century BCE to the 5th century CE; attention given to the culture of modern Italy, preparatory to study abroad in Rome.  
Meets International Perspectives Requirement.

HIST 385: Study Abroad: Roman Italy: Building the Empire  
(Cross-listed with CL ST). Cr. 3. Repeatable, maximum of 6 credits. SS.  
*Prereq: CL ST 384/HIST 384 and instructor's permission.*  
Supervised on-site instruction in the history, archaeology, monuments, and art of Rome and environs from the 8th century BCE to the 5th century CE; attention given to the culture of modern Italy.  
Meets International Perspectives Requirement.

HIST 386: History of Women in America  
(Cross-listed with WGS). (3-0) Cr. 3.  
*Prereq: Sophomore classification*  
A survey of social, economic, and political aspects of women's role from colonial era to present; emphasis on employment, education, concepts of sexuality, and changing nature of the home.  
Meets U.S. Diversity Requirement
HIST 389: American Military History  
(3-0) Cr. 3.  
*Prereq: Sophomore classification*
American military experience from the Pequot War to Vietnam, including King Philip's War, the French & Indian Wars, the American Revolution, the War of 1812, the Mexican-American War, the Civil War, the Spanish-American War, World Wars I & II, and the Korean War.  
Meets International Perspectives Requirement.

HIST 390: World Military History  
(3-0) Cr. 3.  
*Prereq: Sophomore classification*
Covers military history from the Napoleonic era through the mid- and late-19th century wars, the First and Second World Wars, and wars of national liberation and regional conflicts since 1945.  
Meets International Perspectives Requirement.

HIST 391: American Diplomatic History  
(3-0) Cr. 3.  
*Prereq: Sophomore classification*
A study of US foreign relations during the twentieth century, including the rise to global power, the First World War, diplomacy during prosperity and depression, the Second World War, the Cold War, relations with Latin America, East and South Asia, and Africa, the search for markets, and the perceptions of American foreign policy held by the US, its allies and adversaries, and others.

HIST 396: Topics in History  
(3-0) Cr. 3.  
*Prereq: Sophomore classification or permission of instructor*
Specialized topics in history; topics vary each time offered.

HIST 396A: Topics in History: Europe  
(3-0) Cr. 3. Repeatable, maximum of 9 credits.  
*Prereq: Sophomore classification or permission of instructor*
Specialized topics in history; topics vary each time offered.

HIST 396B: Topics in History: U.S. and North America  
(3-0) Cr. 3. Repeatable, maximum of 9 credits.  
*Prereq: Sophomore classification or permission of instructor*
Specialized topics in history; topics vary each time offered.

HIST 396C: Topics in History: Global  
(3-0) Cr. 3. Repeatable, maximum of 9 credits.  
*Prereq: Sophomore classification or permission of instructor*
Specialized topics in history; topics vary each time offered.

HIST 402: Greek Civilization  
(Cross-listed with CL ST). (3-0) Cr. 3.  
*Prereq: Sophomore classification*
Ancient Greece from the Bronze Age to the Hellenistic period; evolution of the Greek polis and its cultural contributions, with a particular emphasis on the writings of Herodotus and Thucydides.

HIST 403: Roman Civilization  
(Cross-listed with CL ST). (3-0) Cr. 3.  
*Prereq: Sophomore classification*
Ancient Rome from the Regal Period to the fall of the Western Empire; evolution of Roman institutions and Rome's cultural contributions studied through original sources.

HIST 405: Transformations of the Early Medieval World  
(3-0) Cr. 3.  
*Prereq: Sophomore classification*
Examines major political, religious, and cultural transformations in Western Europe and the Mediterranean, 300-1000. Major topics include the fall of Rome, rise of Christianity, Germanic kingdoms, and Carolingian empire.

HIST 406: The Birth of Europe in the High Middle Ages  
(3-0) Cr. 3.  
*Prereq: Sophomore classification*
Examines political, economic, religious, and cultural forms emerging in Europe, 1000-1300, that still characterize Western society to this day. Major topics include the medieval agricultural revolution, English and French monarchies, crisis of church and state, and growth of the papacy and personal religion.

HIST 407: Crises of the Late Middle Ages  
(3-0) Cr. 3.  
*Prereq: Sophomore classification*
Examines major political, economic, religious, and intellectual crises that beset Europe, 1300-1500, paving the way for early modernity. Major topics include Black Death, 100 Years War, papal schism, and origins of Renaissance and Reformation.

HIST 408: Europe, 1500-1648  
(3-0) Cr. 3.  
*Prereq: Sophomore classification*
Renaissance; Protestantism and the Age of Catholic reform; social, cultural, and economic changes; global expansion; religious warfare.
HIST 410: The Holocaust in History
(3-0) Cr. 3. S.
Prereq: Sophomore classification
Historical and historiographical coverage of the Holocaust. Actions of perpetrators, experiences of the murdered, and inaction or action of bystanders within global, European, German, and Jewish history. Topics include history, historical methods, and contemporary and historical commemoration of the Holocaust. Seminar discussion format. Meets International Perspectives Requirement.

HIST 414: European Cultural and Intellectual History
(3-0) Cr. 3.
Prereq: Sophomore classification
A study of the development of key themes in European thought: nature, man, God, society, history, and creativity from Rousseau to Post-Modernism.

HIST 419: History of Modern France
(3-0) Cr. 3.
Prereq: Sophomore classification
From absolutism to revolution and the rise of modern democracy.

HIST 420: France's Revolutionary Century, 1715-1815
(3-0) Cr. 3.
Prereq: Sophomore classification
An in-depth investigation of the French Revolution, its causes and consequences, beginning in the Ancien Regime and ending with the fall of Napoleon.

HIST 421: History of Russia I
(3-0) Cr. 3.
Prereq: Sophomore classification
Russia to 1850. Origins of Russian people; Byzantine influences; Mongol invasion; rise of Moscow; Westernization. Meets International Perspectives Requirement.

HIST 422: History of Russia II
(3-0) Cr. 3.
Prereq: Sophomore classification
Russia since 1850. Reform and revolution; transformation of society; USSR as a world power; recent changes. Meets International Perspectives Requirement.

Cr. 3.
Prereq: Sophomore Classification
Russian intellectual history from the reign of Catherine the Great to the collapse of Communism. Discussion of Russian literary, philosophical and cultural trends in the nineteenth century and the relationship between intellectual & cultural figures and the Soviet state in the twentieth century.

HIST 424: History of Modern Germany
(3-0) Cr. 3.
Prereq: Sophomore classification
Political, social, and cultural history of Germany from the 19th century to the present.

HIST 427: Crime and Policing in England 1550-1850
(3-0) Cr. 3.
Prereq: Sophomore classification
Course examines different forms and ideas of criminality and the nature and development of law enforcement in England between 1550 and 1856. Significant issues will include the nature of criminal records and statistics, the legal system, the politics of the law and its links with social relations, policing, female crime, juvenile delinquency, organized crime, riots, "social crime," and the treatment of crime in creative literary texts.

HIST 428: Punishment, Mentalities, and Society in England, 1550-1868
(3-0) Cr. 3.
Prereq: Sophomore classification
Explores the history of punishing criminals in England and shows how interdisciplinary perspectives, ideas, and practices of punishment are related to mentalities, and socio-economic change. Issues of significance examined: violence, civility, manners, madness, public punishment, execution, imprisonment, transportation, mercy, the rise of asylums, and penal reform.

HIST 429: "Monstrous London": London's Histories 1500-1800
(3-1) Cr. 3-4.
Prereq: Sophomore classification
Study of London's social, economic, cultural, political, and environmental history 1500-1800, using both quantitative and qualitative methods to examine contemporary and secondary sources. Course combines standard lecture and discussion format with one week of intensive study abroad for 4th hour of course credit.

HIST 431: Modern England
(3-0) Cr. 3.
Prereq: Sophomore classification
England since 1850. Parliamentary and constitutional development; social reform and economic change; imperial Britain; welfare state.
HIST 435: History of the Modern Middle East  
Cr. 3. S.  
*Prereq: Sophomore classification.*  
Ottoman and Qajar reform movements; constitutional revolutions; European legal imperialism; colonialism; World War I and the mandate system; Israeli-Palestinian conflict; Arab nationalism; the Islamic Revolution in Iran; Islamist movements; oil resources; terrorism; sectarianism.  
Meets International Perspectives Requirement.

HIST 441: History of Modern Mexico and Central America  
(3-0) Cr. 3.  
*Prereq: Sophomore classification.*  
Political, economic, and social development of Mexico and Central America in nineteenth and twentieth centuries.

HIST 442: Rebellions and Revolutions in Latin America  
(3-0) Cr. 3.  
*Prereq: Sophomore classification.*  
Survey of rebellions, revolutionary movements, and social revolutions in the twentieth century, including Guatemalan, Cuban, Mexican, Chilean, and Nicaraguan cases.

Meets International Perspectives Requirement.

HIST 449: US Gilded Age, 1877-1900  
Cr. 3. Alt. S., offered even-numbered years.  
*Prereq: Sophomore classification.*  
U.S. History from the end of Reconstruction to the turn of the twentieth century. Discussion of prominent themes, including the opening of the West, the emergence of big business, rapid urbanization, immigration, race relations, American imperialism, and social reform.

HIST 450: Colonial America  
(3-0) Cr. 3.  
*Prereq: Sophomore classification.*  
Exploration, colonization, and development of political, economic, religious, and cultural institutions of North American colonies before 1754. Topics also include social history, emergence of African-American slavery, relations with American Indians.

HIST 451: American Revolutionary Era  
(3-0) Cr. 3.  
*Prereq: Sophomore classification.*  
Participants, ideas, and events leading to independence and the foundation of the United States, 1754 to 1789. Topics include political, military, social, cultural history, also issues of gender and race relations.

HIST 453: Law and Society in U.S. History: Crime, Race, Family, Work and Property  
(3-0) Cr. 3.  
*Prereq: Sophomore classification.*  
The development of both law and the legal system from colonial times to the present, highlighting their crucial role in aspects of American life such as marriage, family, employment, racial identification, and economic exchange. Topics will include important past legal disputes, the different levels of courts, the various actors in the legal process (e.g., police, prosecutors, prisoners, judges and juries), the relationship between the individuals and institutions that comprise the legal system.

HIST 454: Early American Republic  
(3-0) Cr. 3.  
*Prereq: Sophomore classification.*  
Examination of the United States from the Constitutional Convention up to the Mexican War. Topics include the Washington, Jefferson, and Jackson administrations, the War of 1812, slavery and the South, economic and social development, Westward expansion and reform.

HIST 455: U.S. Civil War and Reconstruction Era  
(3-0) Cr. 3.  
*Prereq: Sophomore classification.*  
Examination of the social and economic contradictions that led to Civil War and the reconstruction of American freedom and democracy. Topics include the Mexican War, sectional conflict and the crisis of disunion, economic, political and social aspects of civil war, emancipation, and reconstruction.

HIST 457: History of American Sexualities  
(Cross-listed with WGS). Cr. 3.  
*Prereq: Sophomore classification.*  
The social construction of American sexualities from the colonial era to the present with particular emphasis on how ideas about sex and sexuality have shaped American public life, including education, public policy, party politics, and racial justice.

HIST 458: U.S. 1900 to 1945  
(3-0) Cr. 3.  
*Prereq: Sophomore classification.*  
America in transition and crisis: Progressivism, World War I, the twenties, the Great Depression, and World War II.

HIST 459: U.S. 1945 to the Present  
(3-0) Cr. 3.  
*Prereq: Sophomore classification.*  
Modern American history with an emphasis on political, socio-cultural, ethno-racial, and military history. Topics include the Cold War, the wars in Korea and Vietnam, civil rights and Black/ethnic Power, modern feminism, and the conservative movement.
HIST 460: The Great Plains
(3-0) Cr. 3.
Prereq: Sophomore Classification
History of the Great Plains from prehistoric period. Emphasis on agricultural and rural development, Native Americans, cattle ranching, land policy, agrarian reform movements and federal policy.

HIST 461: The Rural South
(3-0) Cr. 3.
Prereq: Sophomore classification
History of the American South from colonial period to present. Emphasis on economic, social, and political change in this rural region.

HIST 465: The American West
(3-0) Cr. 3.
Prereq: Sophomore classification
History of trans-Mississippi West from 1800 to present, concentrating on settlement and regional identity. Emphasis on the state, the environment, urbanization, agriculture, Native Americans, and minority communities.

HIST 468: History of Rural America
(3-0) Cr. 3.
Prereq: Sophomore classification
History of rural America from the colonial period to the present. Emphasizes immigration, ethnicity, religion, social and cultural change, and agriculture in relation to rural settlement, institution building, demographic change, gender, class, and political and economic development.

HIST 473: Civil Rights and Ethnic Power
(Cross-listed with AF AM, US LS). (3-0) Cr. 3.
Prereq: Sophomore classification
Comparative history of the civil rights and ethnic power movements (African American, Chicano, American Indian, Puerto Rican, among others) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights.
Meets U.S. Diversity Requirement

HIST 474: Tradition and Transformation of China's Foreign Affairs
(3-0) Cr. 3.
Prereq: Sophomore classification
Evolution of China's external relations from the antiquities to our own times; conceptions, practices, and relationships that characterized the inter-state relations of the so-called "Chinese world order," interactions between "Eastern" and "Western," and "revolutionary" and "conventional" modes of international behaviors.

HIST 479: China and the Cold War
(3-0) Cr. 3.
Prereq: Sophomore classification
Important events in China's Cold War involvement, connections between domestic and foreign affairs, factors and rationales in China's foreign policy making the relationship between China's Cold War experience and recent developments.

HIST 480: Field Experience for Secondary Teaching Preparation
Cr. 0.5-2. Repeatable, maximum of 2 times. F.S.
Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.).

HIST 480A: Pre-Student Teaching Experience III: History/Social Sciences
(Cross-listed with EDUC). Cr. 2. Repeatable, maximum of 2 times. F.
Prereq: Admission to Teacher Education
Supervised participation in a 5-12 school setting. Permission of History/Social Sciences coordinator required prior to enrollment. 1/2 day of time needed. Clinical Supervision Level 3.

HIST 481: Public History
Cr. 3. Repeatable, maximum of 1 times. F.
Prereq: Sophomore classification.
Development of theories and methods in the field of public history. Emphasis on practical applications such as archival research, museum interpretation, historic preservation, and oral history within the context of United States history. None

HIST 482: Birth, Death, Medicine, and Disease
(3-0) Cr. 3.
Prereq: Sophomore classification
History of medicine, sickness, and public health from ancient times to the twenty-first century in the US, Europe, and around the world. Topics include changing ideas of health and illness, development of doctors and hospitals, social and ethical issues in health care, and epidemics from cholera to AIDS.

HIST 488: American Stuff, Colonial Times to the Present
(3-0) Cr. 3.
Prereq: Sophomore classification
Inventions, innovations, artifacts, and material culture in the United States, from homespun cloth and the Colt revolver, through the transcontinental railroad and Model T, to fast food and the iPhone.
HIST 489: The World at War
(3-0) Cr. 3. Repeatable, maximum of 6 credits. S.
Prereq: Sophomore standing

In-depth exploration of a particular global conflict (topic varies; e.g., the French and Indian War, the Napoleonic Wars, World War I, World War II, the Vietnam War, and post-Cold War U.S. overseas conflicts) by focusing on multiple aspects of that conflict such as belligerents’ justification, diplomacy, manpower policy, technology, strategies and tactics, morality, protest, civilian and military experiences, gender roles, the aftermath of conflict, and collective memory and memorialization.

HIST 490: Independent Study
(3-0) Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: 9 credits in history; permission of department chair

Reading and reports on problems selected in conference with each student. No more than 6 credits of Hist 490 may be counted toward graduation with a major in History. No credits of Hist 490 may count toward a minor in History.

HIST 495: Historiography and Research Writing
(3-0) Cr. 3. F.S.
Prereq: Senior history majors with at least 12 credits of 300+ level history courses

Variable topics seminar that focuses on historiographical and research skills and writing. Required of majors.

HIST 496: Advanced Topics in History
(3-0) Cr. 3.
Prereq: Sophomore classification or permission of instructor.

Specialized topics in history, topics vary each time offered.

HIST 496A: Advanced Topics in History: Europe
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: Sophomore classification or permission of instructor.

Specialized topics in history, topics vary each time offered.

HIST 496B: Advanced Topics in History: U.S. and North America
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: Sophomore classification or permission of instructor.

Specialized topics in history, topics vary each time offered.

HIST 496C: Advanced Topics in History: Global
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: Sophomore classification or permission of instructor.

Specialized topics in history, topics vary each time offered.

HIST 498: Methods of Teaching History/Social Sciences
(Cross-listed with EDUC). (3-0) Cr. 3. F.S.
Prereq: Concurrent enrollment in HIST 480A; Admission to teacher education and 30 credits in subject-matter field

Concurrent enrollment in 480A; Admission to teacher education and 30 credits in subject-matter field. Theories and processes of teaching and learning secondary history/social sciences. Emphasis on development and enactment of current methods, assessments, and curriculum materials for providing appropriate learning experiences.

Courses primarily for graduate students, open to qualified undergraduates:

HIST 510: Readings Seminar in East Asian History
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor

Readings in East Asian history. Topics vary each time offered.

HIST 511: Readings Seminar in American History
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor

Readings in American history. Topics vary each time offered.

HIST 511A: Readings Seminar in American History: Colonial Period
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor

Readings in American history. Topics vary each time offered.

HIST 511B: Readings Seminar in American History: Nineteenth Century
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor

Readings in American history. Topics vary each time offered.

HIST 511C: Readings Seminar in American History: Twentieth Century
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor

Readings in American history. Topics vary each time offered.

HIST 511E: Readings Seminar in American History: Social and Cultural
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor

Readings in American history. Topics vary each time offered.

HIST 511F: Readings Seminar in American History: West
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor

Readings in American history. Topics vary each time offered.

HIST 512: Readings Seminar in European History
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor

Readings in European history.
HIST 512A: Readings Seminar in European History: Ancient
(Cross-listed with CL ST). (3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in European history.

HIST 512B: Readings Seminar in European History: Medieval and Early Modern
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in European history.

HIST 512C: Readings Seminar in European History: Modern
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in European history.

HIST 513: Readings Seminar in Latin American History
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in Latin American history. Topics vary each time offered.

HIST 530: Readings Seminar in Modern Russian/Soviet History
(3-0) Cr. 3. Repeatable.
**Prereq:** HIST 422
Readings in modern Russian history. Topics vary each time offered.

HIST 550: Readings Seminar in European Rural and Agricultural History
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in European rural and agricultural history. Topics vary each time taught.

HIST 552: Readings Seminar in American Rural and Agricultural History
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in American rural and agricultural history. Topics vary each time taught.

HIST 552A: Readings Seminar in American Rural and Agricultural History:
American Agriculture
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in American agricultural history. Topics vary each time taught.

HIST 552B: Readings Seminar in American Rural and Agricultural History:
Agrarian Reform Movements
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings on American agrarian reform movements. Topics vary each time taught.

HIST 552C: Readings Seminar in American Rural and Agricultural History:
Midwestern Rural Society
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings on American Midwestern rural society. Topics vary each time taught.

HIST 552D: Readings Seminar in American Rural and Agricultural History:
Women in Rural Life
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings on American women and rural life. Topics vary each time taught.

HIST 554: Readings Seminar in Environmental History
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in environmental history. Topics vary each time offered.

HIST 554A: Readings Seminar in Environmental History: American
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in American environmental history. Topics vary each time offered.

HIST 554B: Readings Seminar in Environmental History: European
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in European environmental history. Topics vary each time taught.

HIST 554C: Readings Seminar in Environmental History: Global
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of Instructor
Readings in global environmental history. Topics vary each time taught.

HIST 575: Readings Seminar in Technological History
(3-0) Cr. 3. Repeatable.
**Prereq:** Permission of instructor
Readings in the history of technology. Topics vary each time taught.

HIST 583: Historical Methods
(3-0) Cr. 3.
Study of evidence, theory, and methods.

HIST 583A: Historical Methods: Narrative
(3-0) Cr. 3.
**Prereq:** Permission of instructor
Study of the methodologies of historical narrative.
HIST 583B: Historical Methods: Statistical Evidence and Analysis
(3-0) Cr. 3.
Prereq: Permission of instructor.
Study of methodologies of using statistical evidence in writing history.

HIST 583C: Historical Methods: Issues in Historiography
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: Permission of instructor.
Study of issues surrounding the development of historiography and historical theories.

HIST 585: Teaching Methods for the Modern Europe Survey
(2-2) Cr. 3. S.
Prereq: Graduate status or instructor approval.
Pedagogy and historiography of Europe, from the Protestant Reformation to the present. Pedagogical topics covered include general principles of survey-course construction, lecture technique, and textbook evaluation; historiographical topics will include the Reformation, the Enlightenment, the Industrial Revolution, the French Revolution, the rise of Nationalism, imperialism, the two World Wars, the Cold War and decolonization.

HIST 586: Readings Seminar in Women's History and Feminist Theory
(Cross-listed with WGS). (3-0) Cr. 3.
Prereq: Permission of instructor
Feminism as a movement and feminst theory from the early modern period to the present as it relates to the writing of women's history. Analysis of interpretations of European and U.S. women's history from patriarchal and postmodernist perspectives.

HIST 590: Special Topics
Cr. 1-3. Repeatable.
Prereq: Permission of instructor

HIST 593: Research Seminar in American History
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Topics vary each time offered.

HIST 593A: Research Seminar in American History: Colonial Period
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Topics vary each time offered.

HIST 593B: Research Seminar in American History: Nineteenth Century
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Topics vary each time offered.

HIST 593C: Research Seminar in American History: Twentieth Century
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Topics vary each time offered.

HIST 593F: Research Seminar in American History: West
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Topics vary each time offered.

HIST 594: Research Seminar in European History
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Topics vary each time offered.

HIST 594A: Research Seminar in European History: Ancient
(Cross-listed with CL ST). (3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Topics vary each time offered.

HIST 594B: Research Seminar in European History: Medieval and Early Modern
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Topics vary each time offered.

HIST 594C: Research Seminar in European History: Modern
(3-0) Cr. 3. Repeatable.
Prereq: Permission of instructor
Topics vary each time offered.

HIST 599: Creative Component
Cr. 1-6. Repeatable, maximum of 6 credits.

Courses for graduate students:

HIST 610: Research Seminar in American Rural and Agricultural History
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: Permission of instructor
Emphasis varies each time offered.

HIST 612: Research Seminar in Environmental History
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: Permission of instructor
Emphasis varies each time offered.

HIST 614: Research Seminar in Technological History
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: Permission of instructor
Emphasis varies each time offered.
HIST 699: Research
Cr. 1-6. Repeatable.
Graduate student thesis research.

Interdisciplinary Studies
Interdepartmental Undergraduate Major
Administered by the College of Liberal Arts and Sciences

A major in interdisciplinary studies is offered in the College of Liberal Arts and Sciences for undergraduate students who have unique interdisciplinary educational goals. The student, a faculty review board, and an academic adviser design the major. Leading to either the Bachelor of Arts or the Bachelor of Science degree, the major includes 36 to 48 credits of coursework chosen to provide a coherent, carefully planned program in an area of interest that bridges two or more departments. This specialized area is identified on the diploma. Learning goals are individually crafted for each proposed major.

A degree in Interdisciplinary Studies may be particularly attractive to students who wish to develop an area of interest based upon one of the College's cross-disciplinary programs. Areas of interest in Interdisciplinary Studies have included Classical Studies, International Relations, Ecology Studies, African American Cultural Studies, Asian Studies, and U.S. Latino/a Studies.

A student seeking admission to the program in interdisciplinary studies writes a letter of application that explains how the proposed major meets specific educational and learning goals. A faculty review board screens applications. Since students are expected to earn at least 30 credits after they are admitted into the program, the proposal is ordinarily submitted to the review board in the sophomore or junior year. The proposal will be considered if the area of interest properly falls within the College of Liberal Arts and Sciences and if the student's educational goals cannot be met by a more traditional combination of existing majors, minors, and electives.

The interdisciplinary studies major must satisfy the requirements of the liberal arts and sciences curriculum in the College of Liberal Arts and Sciences. A major emphasizing the humanities or communicative arts normally leads to a B.A.; a major emphasizing the natural or social sciences normally leads to a B.S. Different requirements for the B.A. and B.S. degrees are determined by the nature of the chosen field of study. Courses listed in the individualized major may come from any department of the university with the following restrictions:

1. The selection of courses needs to focus on a single theme and be consistent with the career and educational goals of the student.
2. At least one half of the courses in the major will come from departments within the College of Liberal Arts and Sciences.
3. The courses will be chosen from at least two disciplines.

All courses in the major must be at the 200-level or higher. At least 15 credits must be at the 300-level or higher with at least 6 credits at the 400-level or higher. An average grade of C or better must be earned in 15 credits at the 300-level or higher in the major. To meet the English and communication proficiency requirement, a grade of C or better must be earned in ENGL 250 and in either an advanced English composition course or a course in the major with a significant writing component.

Further information may be obtained from the LAS College Student Academic Services office.

International Studies
Interdepartmental Undergraduate Major and Minor, Administered by the College of Liberal Arts and Sciences

Through a combination of coursework and study abroad, students who complete a secondary major or minor in International Studies can prepare for careers or advanced study in the international arena, such as foreign service, journalism, advocacy organizations, scientific or research institutions, business, nongovernmental development organizations (NGOs), humanitarian agencies, environmental organizations, human rights organizations, think tanks, international agriculture, and international engineering. Students in International Studies gain an understanding of global issues, learn to communicate across cultures, develop awareness of cultural ideas and attitudes, and are well positioned to become global leaders in their chosen field.

A secondary major and a minor in International Studies are available for undergraduates. The program requirements are structured around a combination of a designated Topical Module and a Geographic Region, both selected by the student. Each student's program of study is designed to reflect opportunities at Iowa State University as well as the academic, intellectual, and professional interests of the student.

Secondary Major
A student seeking a secondary major in International Studies must successfully complete two core courses plus courses in a selected Geographic Region and Topical Module; demonstrate proficiency in a language relevant to the selected geographic region (see below); and participate in a required study, service, or work abroad program (see below).

Requirements for the Secondary Major in International Studies:

- INTST 235 Introduction to International Studies
- INTST 430 Seminar in International Studies
• 9 credits of coursework (at least 6 of which are numbered 300 or above) from one of the following Geographic Regions:
  - Africa and the Middle East
  - Asia
  - Latin America
  - Western Europe
  - Russia, East Europe and Central Asia

• 9 credits of coursework (at least 6 of which are numbered 300 or above) from one of the following Topical Modules:
  - Global Environmental Issues
  - Globalization and Economic Development
  - International Issues in Science and Technology
  - International Communication
  - International Conflict
  - Social and Cultural Change

Click here for courses approved for credit for the Geographic Regions and Topical Modules.

• 3 additional credits of coursework selected from either the Geographic Region or Topical Module.

Language Proficiency
• Proficiency in a world language that is relevant to the selected geographic region. This can be achieved by completing the 202 level (or higher) of the language. Students whose first language is not English must still meet this requirement if their first language is not relevant to their selected geographic region.

Study/Service/Work Abroad Experience
• Study, service, or internship abroad for a minimum of 3 weeks, earning a minimum of 3 credits. The credits must be transferable to Iowa State.

The minor must include a minimum of 9 credits not used to meet any other department, college, or university requirement.

Minor
A student seeking a minor in International Studies must successfully complete two core courses plus courses in a selected Geographical Region and Topical Module; demonstrate proficiency in a language relevant to the selected geographic region (see below); and participate in a required study, service, or work abroad program (see below).

Requirements for the Minor in International Studies:
• INTST 235 Introduction to International Studies
• INTST 430 Seminar in International Studies

Courses primarily for undergraduates:
INTST 235: Introduction to International Studies
(3-0) Cr. 3. F.S.S.
Overview of international studies, emphasizing cultural, geographic, economic, and political characteristics of major world areas and nations. Meets International Perspectives Requirement.
INTST 295: International Experience Abroad  
Cr. 1-8. Repeatable, maximum of 9 credits. F.S.S.  
Prereq: 12 college-level credits  
Supervised instruction in an international setting, augmented by practical living experience.  
Meets International Perspectives Requirement.

INTST 350: Topics in International Studies  
Cr. 2-4.  
Exploration of key topics and themes in International Studies. Topics vary each time offered.  
Meets International Perspectives Requirement.

INTST 395: Interdisciplinary Study Abroad  
Cr. 1-4. Repeatable.  
Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture’s role in contemporary society.

INTST 395A: Interdisciplinary Study Abroad: Pre-Departure Seminar  
Cr. 1. Repeatable.  
Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture’s role in contemporary society.

INTST 395B: Interdisciplinary Study Abroad: Humanities  
Cr. 1-4. Repeatable.  
Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture’s role in contemporary society.

INTST 395C: Interdisciplinary Study Abroad: Communications  
Cr. 1-4. Repeatable.  
Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture’s role in contemporary society.

INTST 395D: Interdisciplinary Study Abroad: Mathematics and Natural Science  
Cr. 1-4. Repeatable.  
Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture’s role in contemporary society.

INTST 395E: Interdisciplinary Study Abroad: Social Sciences  
Cr. 1-4. Repeatable.  
Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture’s role in contemporary society.

INTST 430: Seminar in International Studies  
(3-0) Cr. 3. S.  
Prereq: INTST 235, junior classification or higher  
Capstone seminar in international studies focused on economic development, women’s issues, war and ethnic conflict, population, the environment, globalization, human rights, international trade and business and other issues. Students develop a project on a subject linked to their area of professional interest or academic specialization.  
Meets International Perspectives Requirement.

INTST 446: International Issues and Challenges in Sustainable Development  
(Cross-listed with AGRON, GLOBE). Cr. 3. F.S.  
Prereq: 3-credit biology course, Sophomore or higher classification, permission of Instructor  
Interdisciplinary study and analysis of agricultural systems, sustainable management, and impact on plants and animal biodiversity. International field experience in evaluating different agricultural systems and impact on biodiversity may be required. A program fee is charged to students for international study abroad.  
Meets International Perspectives Requirement.

INTST 490: Independent Study  
Cr. 1-3. Repeatable, maximum of 9 credits.  
Prereq: Permission of International Studies director and faculty supervisor  
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered or to integrate areas of study appropriate to special problems with international foci. No more than 3 credits of IntSt 490 may be used in the International Studies major or minor.

INTST 491: Experiences Abroad: Learning to Think Globally  
(Cross-listed with WLC). (1-0) Cr. 1. Repeatable, maximum of 2 credits.  
Prereq: Minimum of 3 cr. of study abroad and/or internship abroad  
Students returning from study abroad gain perspective on the personal, academic, and professional impact of their time spent abroad through readings and discussions. Students will be expected to make one presentation about the culture they experienced to an audience outside of ISU. Offered on a satisfactory-fail basis only.

Journalism and Mass Communication  

The journalism and Mass Communication Major  
The journalism and mass communication major prepares students for careers that involve all aspects of news and information. Emphasis is placed on generating ideas, organizing, writing, editing and presenting information for various media platforms and audiences. Students work with advisers to develop a program of study that prepares them for work in communication-specific areas including broadcast media, magazines
and/or newspapers, photojournalism, science communication, visual communication and digital media. Coursework in this major focuses on writing, research, digital and emerging media, and professional abilities. Students are required to complete a capstone internship experience to practice and refine their skills.

To receive a bachelor of science degree in journalism and mass communication, a student must earn at least 120 credits. A minimum of 72 credits must come from courses other than ADVRT, JL MC or P R. At least 50 of these credits must come from the liberal arts and sciences. Overall, at least 45 credits must be from 300-level or above.

The degree requirements allow for a minimum of 34 credits and a maximum of 48 credits to be taken in ADVRT, JL MC and P R. These include:

Additional recommended courses and requirements for the journalism and mass communication major are available from the Greenlee School.

Students taking one major at the school may not seek a second major or a minor in the school. All Greenlee School majors are required to take a second major or minor outside the school as an area of expertise. All Greenlee School majors are required to take 499A. Greenlee majors and minors cannot take ADVRT, JL MC or P R courses pass/not pass.

**Minor in Journalism and Mass Communication**

Students cannot select more than one minor in the Greenlee School of Journalism and Communication. Minors in the Greenlee School are not available to Greenlee majors.

For a minor in journalism and mass communication, students complete 15 credits.

### University Requirement

Students in all ISU majors must complete a three-credit course in U.S. Diversity, as well as a three-credit course in International Perspectives. The approved course lists are found at the following web addresses: (U.S. Diversity) [http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses](http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses) and (International Perspectives) [http://www.registrar.iastate.edu/students/div-ip-guide/intlperspectives-current](http://www.registrar.iastate.edu/students/div-ip-guide/intlperspectives-current). Students must also demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

### College of LAS Requirement

Minimum of 120 credits, including a minimum of 45 credits at the 300-level and above. You must also complete the LAS Foreign Language requirement and any unmet ISU admission requirements.

### Minor or Second Major

Students are required to fulfill a secondary area of expertise. This requirement can be met by declaring a minor or a second major outside of the Greenlee School of Journalism and Communication.

### Graduate Study

The Greenlee School of Journalism and Communication offers work for a master of science degree in journalism and mass communication. **Majors plan a program of study in one of two tracks:**

**I. Academic track** - The School offers advanced academic preparation in communication theory and research, leading to the master of science degree. Graduate work prepares students to use and contribute to research and scholarship in the field of communication. This track requires a thesis based on original research, which must be defended successfully before a committee at the end of the program.
Areas of research emphasis include: science and risk communication, media effects, advertising, public relations, political communication, communication technology, law and ethics, international communication, visual communication and emerging media.

II. Professional track – The School offers advanced professional study in journalism and mass communication leading to the master of science degree. Graduate work prepares students for professional careers in a variety of mass communication fields. Students with limited training or experience in journalism and mass communication may include skills courses in their programs, but the credits for those courses may not count toward the graduate degree. This track requires either a creative component which must be defended successfully before a committee at the end of the program.

All graduate students must complete 32 credits for graduation, comprised of four core classes, at least two electives outside the Greenlee School, and at least four thesis or creative component credits. The following core courses account for 10 credits of the needed 32 credits.

Each student selects elective courses based on his/her area of emphasis and career goal, in consultation with the student’s major professor and Program of Study Committee.

The Greenlee School graduate program offers minor work for students majoring in other departments. The M.S. minor requires:

JL MC 501, JL MC 510 and one other course in journalism and mass communication for a total of 9 credits taken within the Greenlee School.

Courses primarily for undergraduates:

JL MC 101: Mass Media and Society
(3-0) Cr. 3. F.S.SS.
Communication theory models and their application to the mass media; the mass communication process; organization, characteristics and responsibilities of the mass media; media literacy process.

JL MC 110: Orientation to Journalism and Communication
(1-0) Cr. 1. F.S.Alternate SS., offered irregularly.
Orientation to professional and pre-professional opportunities, writing for the mass media and curriculum requirements in the Greenlee School. Basic media writing preparation. Offered on a satisfactory-fail basis only.

JL MC 201: Reporting and Writing for the Mass Media
(2-2) Cr. 3.
Prereq: Greenlee majors only or departmental permission. Must pass departmental assessment exam in language skills before registering; ENGL 250; credit or concurrent enrollment in JL MC 110.
Generating story ideas, exercising news judgment and gathering information via interviews, observation and documentary sources to produce news and informational material for the mass media. Emphasis on analyzing and organizing information, as well as accuracy and principles of good writing. Use of AP Style.

JL MC 240: Principles of Journalism
Cr. 3. F.S.
Analysis of journalism industry and specific audiences served by print, electronic, visual and digital media. Introduction to core values of journalism and guiding principles that encompass literacy, ethics, law, history, the economy and cultural and societal implications.

JL MC 242: Visual Principles for Mass Communicators
(3-0) Cr. 3. F.S.
Understanding and analysis of the visual message. Visual perception, visual communication theory, design syntax, design elements and how they are applied in mass communication.

JL MC 302: Intermediate Reporting and Writing for the Mass Media
(2-2) Cr. 3.
Prereq: JL MC 110 and Minimum of C+ in JL MC 201
Researching, organizing and writing for newspapers, magazines and digital media. Enhancing and refining skills in developing sources and generating story ideas. Information-gathering techniques, reporting and writing.

JL MC 303: Reporting and Writing for Broadcast Media
(2-2) Cr. 3.
Prereq: JL MC 110 and Minimum of C+ in JL MC 201
Researching, organizing, and writing for radio, television and digital media. Basic principles of news programming and storytelling across broadcast media platforms. An emphasis on development, content and structure.

JL MC 306: Broadcast Media Production
(2-2) Cr. 3. F.S.
Prereq: Minimum of C+ in JL MC 201
Introduction to studio production using professional equipment. Course focus on visual concepts, maintenance and practical operation of studio equipment.
JL MC 307: Digital Video Production  
(2-2) Cr. 3.
Creation of video productions for use as communication tools in advertising, promotions, short documentaries and public relations. Technical and artistic fundamentals of video production including planning, scripting, shooting, lighting and digital editing.

JL MC 308: Broadcast News Gathering and Production  
(2-2) Cr. 3.
Prereq: Minimum of C+ in JL MC 201.
Field techniques in single-camera video production used to shoot and edit visual stories. Introduction to broadcast news gathering.

JL MC 310: Fundamentals of Photojournalism  
(2-2) Cr. 3. F.S.
Prereq: Minimum of C+ in JL MC 201
Basic photojournalism techniques. Includes camera operation, lighting, composition and photo reproduction techniques for print or computer-mediated applications. Emphasis on using the camera as a reporting tool. Basic use of digital imaging and editing software. Ethical issues involving photojournalism. A digital SLR camera is required.

JL MC 312: Advanced Techniques in Photojournalism  
(2-2) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.
Prereq: JL MC 310 or permission of instructor
Advanced techniques and problem solving, both ethical and technical, for photographers who seek to be members of newsgathering teams. Photographic storytelling using a combination of audio and still photography techniques to report stories for print and web publications. Hands on experience with latest digital imaging technology. A digital SLR camera is required.

JL MC 315: Multimedia Production  
(2-2) Cr. 3. F.S.
Prereq: JL MC 308 or JL MC 310 or JL MC 316 or equivalent computer design proficiency
Visual storytelling concepts and principles for evaluating, constructing and designing information for the Web and other electronic publication systems. Issues of ethics and ownership of work pertinent to the new media.

JL MC 316: Introduction to Digital Publishing  
(2-2) Cr. 3. F.S.
Prereq: Credit or enrollment in JL MC 242 and C+ or better in JL MC 201
Digital publishing and beginning techniques in layout, photo editing and vector artwork. Application of visual principles to design print projects.

JL MC 317: Publishing for Mobile Devices  
(2-2) Cr. 3. S.
Prereq: JL MC 316 or equivalent computer design proficiency and JL MC 310 or 315.
Creating, designing and publishing content for mobile devices (e.g., cell phones and tablets). Use of digital publishing tools (e.g., In Design). Exposure to animation and video editing software.

JL MC 344: Feature Writing  
(2-2) Cr. 3.
Prereq: Minimum of C+ in JL MC 302, JL MC 303 or PR 321
Reporting and writing short- and long-form stories for magazines, newspapers, corporate communication and the Web. Focus on departmental stories, personal essays, trend or conflict articles and personality profiles. Emphasis on immersion reporting. Majors may not apply both 344 and Engl 303 toward graduation.

JL MC 346: Public Affairs Reporting  
(2-2) Cr. 3.
Prereq: Minimum of C+ in JL MC 302, JL MC 303 or PR 321
Reporting and writing about government, business, and other institutions; identification of and access to public records; investigative reporting techniques; developing major stories about government and nonprofit organizations; and ethical issues.

JL MC 347: Science Communication  
(Dual-listed with JL MC 547). (2-2) Cr. 3.
Prereq: Graduate classification for JL MC 547. JL MC 347: C+ or better in JL MC 302, JL MC 303 or PR 321. Nonmajors and minors by permission of instructor.
Reporting and writing about science and technology topics for general audiences. Outlets for stories include print, broadcast and online media. Story topics include reporting about basic, applied and social sciences, as well as ethical, political and policy issues related to science and technology.

JL MC 349: News and Feature Editing  
(2-2) Cr. 3.
Prereq: Minimum of C+ in JL MC 302, JL MC 303 or PR 321
Editing content for multiple platforms, including websites, magazines, newspapers, and newsletters. Adapting material for audiences, including selection and organization of text and visuals, grammar, punctuation, usage, logic and accuracy. Designing print and online layouts. Using search engine optimization and social media to promote content.

JL MC 354: Advanced Electronic Media Production  
(2-3) Cr. 3.
Prereq: JL MC 206.
Application of advanced television techniques: writing, producing, and managing live and recorded information programs.
JL MC 390: Professional Skills Development
(Cross-listed with ADVRT, P R). Cr. 1-3. Repeatable, maximum of 6 credits.
F.S.
*Prereq: Minimum of C+ in JL MC 201; other vary by topic. Instructor permission for non-majors.*

Check with Greenlee School for course availability.

JL MC 401: Mass Communication Theory
(3-0) Cr. 3.
*Prereq: Junior classification*
Theory and research in mass communication processes and effects; the scientific process; methods of measuring, evaluating and reporting mass communication research.

JL MC 406: Media Management
(Dual-listed with JL MC 506). (3-0) Cr. 3.
*Prereq: Graduate classification or instructor permission.*
Decision-making functions of media. Basic media market analysis, media organization and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

JL MC 460: Law of Mass Communication
(3-0) Cr. 3.
*Prereq: JL MC 110 and minimum of C+ in JL MC 201; junior classification.*
*Nonmajors by permission of department.*
First Amendment law, libel, privacy, obscenity, contempt, copyright, trademark, the Federal Communications Act; laws affecting advertising, legal publication, and other business activities of the media.

JL MC 461: History of American Journalism
(3-0) Cr. 3.
*Prereq: Junior classification*
Role of the mass media, including advertising and public relations, in shaping the social, economic and political history of America; impact of change in these areas on the development, traditions and philosophies of the media.

JL MC 462: Media Ethics, Freedom, Responsibility
(3-0) Cr. 3.
*Prereq: JL MC 110 and minimum of C+ in JL MC 201. Greenlee majors only.*
Ethics and professionalism in the practice of journalism, public relations and advertising.

JL MC 464: Journalism and Literature
(3-0) Cr. 3.
*Prereq: Junior classification*
A study of journalism's impact on literary writing and literature's impact on journalism, as seen through the works of esteemed American author-journalists.

JL MC 474: Communication Technology and Social Change
(3-0) Cr. 3.
*Prereq: Junior classification*
Examination of historical and current communication technologies, including how they shape and are shaped by the cultural and social practices into which they are introduced.
Meets International Perspectives Requirement.

JL MC 476: World Communication Systems
(Dual-listed with JL MC 576). (3-0) Cr. 3.
*Prereq: JL MC 476: Junior Classification. JL MC 576: Graduate classification or instructor permission.*
World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information, advertising and public relations on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media and computer-mediated systems.
Meets International Perspectives Requirement.

JL MC 477: Diversity in the Media
(3-0) Cr. 3. F.S.SS.
*Prereq: Junior classification*
Portrayals of ethnic groups, gender, sexual orientation and social class in the media in news, advertising, information and entertainment; the effects of mass media on social issues and population groups.
Meets U.S. Diversity Requirement

JL MC 490: Independent Study in Communication
Cr. arr.
*Prereq: Junior classification and contract with supervising professor to register*
Projects during which students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a reportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. No more than 3 credits of ADVRT/JLMC/PR 490 may be used toward a degree in the Greenlee School.
JL MC 497: Special Topics in Communication
(Cross-listed with ADVRT, P R). Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: Junior classification. See Schedule of Classes for possible pre-
requisites.
Seminars or one-time classes on topics of relevance to students in
communication.

JL MC 499: Professional Media Internship
Cr. 1-3. F.S.S.S.
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 302 or JL
MC 306; ADVRT majors: JLMC 110 and minimum of C+ in JL MC 201 and
ADVRT 301; P R majors: JLMC 110, PR 301 and minimum of C+ in P R 321. All
students, formal faculty adviser approval.
Required of all Greenlee School majors. A 400-hour (for 3 credits)
internship in the student's journalism and mass communication or
advertising or public relations specialization. Assessment based on
employer evaluations, student reports and faculty reviews. Available only
to Greenlee School majors. Offered on a satisfactory-fail basis only.

JL MC 499A: Professional Media Internship: Required
Cr. 3. F.S.S.S.
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 302 or JL
MC 306; ADVRT majors: JLMC 110 and minimum of C+ in JL MC 201 and
ADVRT 301; P R majors: JLMC 110, PR 301 and minimum of C+ in P R 321. All
students, formal faculty adviser approval.
Initial, required internship. A 400-hour (for 3 credits) internship in the
student’s specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only
to Greenlee School majors. Offered on a satisfactory-fail basis only.

JL MC 499B: Professional Media Internship: Optional
Cr. 1-3. F.S.S.S.
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 302 or JL
MC 306; ADVRT majors: JLMC 110 and minimum of C+ in JL MC 201 and
ADVRT 301; P R majors: JLMC 110, PR 301 and minimum of C+ in P R 321. All
students, formal faculty adviser approval.
Optional internship in the student’s specialization. Assessment based on
employer evaluations, student reports and faculty reviews. Available only
to Greenlee School majors. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified
undergraduates:

JL MC 501: Theories of Mass Communication
(3-0) Cr. 3.
Prereq: Graduate classification or instructor permission.
Historical overview of mass communication theories. Examination of
major areas of research activity and theoretical development related to
organization, functions, and effects of mass communication.

JL MC 502: Fundamentals of Communication Research Methods
(3-0) Cr. 3.
Prereq: JL MC 501 or concurrent enrollment.
Research methods in journalism and mass communication, including
problem selection, sampling, hypothesis formulation, research design,
data collection and analysis. Designing a research strategy appropriate
for a variety of communication-related questions and assessing the
appropriateness, validity, and generalizability of research results.

JL MC 506: Media Management
(Dual-listed with JL MC 406). (3-0) Cr.
Prereq: Graduate classification or instructor permission.
Decision-making functions of media. Basic media market analysis, media
organization and management, circulation and audience development,
technological developments affecting management decisions, and
relationships with labor and regulatory agencies that affect media
operations.

JL MC 510: Strategies of Communication
(3-0) Cr. 3.
Prereq: JL MC 501
The process of developing professional communication and persuasion
strategies, with emphasis on problem definition, behavioral objectives,
situation analysis, strategy formulation, and justification through
application of communication theories and research.

JL MC 520: Public Relations Theory and Methods
(3-0) Cr.
Prereq: Graduate classification or instructor permission.
Overview of dominant theories and research methods applied to the
study and practice of public relations.

JL MC 521: Theories of Visual Communication
(3-0) Cr.
Prereq: Graduate classification or instructor permission.
Explores the theoretical frameworks in visual communication, including
concepts of perception, visual language, visual persuasion, and
the social, political and cultural implications of the use of images.
Understanding the function of images in changing knowledge, attitudes
and behavior.
JL MC 547: Science Communication
(Dual-listed with JL MC 347). (2-2) Cr. 3.
Prereq: Graduate classification for JL MC 547. JL MC 347: C+ or better in JL MC 302, JL MC 303 or P R 321. Nonmajors and minors by permission of instructor.
Reporting and writing about science and technology topics for general audiences. Outlets for stories include print, broadcast and online media. Story topics include reporting about basic, applied and social sciences, as well as ethical, political and policy issues related to science and technology.

JL MC 560: Risk Perception and Communication
(3-0) Cr. 3.
Prereq: Graduate classification or instructor permission.
Study of risk communication principles, models and theories applicable to any risk communication situation. Emphasis on science, technology and risk issues, such as food, health, agriculture and the environment. Examines roles of scientists and communicators in cultivating a public informed about scientific and technological issues.

JL MC 561: Media and Society: Interrelationships
(3-0) Cr. 3.
Prereq: Graduate classification or instructor permission.
Media roles and functions in society including interrelationships between the media and a variety of social actors and forces. Theories and practices regarding social networking and communication via social media; influence of social media and social networking.

JL MC 574: Communication Technologies and Social Change
(3-0) Cr. 3.
Prereq: Graduate classification or instructor permission.
Personal, organizational, and social implications of the use of communication technologies. Includes theories and empirical research across the continuum of perspectives, from techno-utopianism through an anti-technology stance. Meets International Perspectives Requirement.

JL MC 576: World Communication Systems
(Dual-listed with JL MC 476). (3-0) Cr. 3.
Prereq: JL MC 476: Junior Classification. JL MC 576: Graduate classification or instructor permission.
World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information, advertising and public relations on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media and computer-mediated systems. Meets International Perspectives Requirement.

JL MC 590: Special Topics
Cr. arr. Repeatable.
Prereq: Permission of instructor

JL MC 590A: Special Topics: Media Studies
Cr. arr. Repeatable.
Prereq: Permission of instructor

JL MC 590B: Special Topics: Professional Specialization
Cr. arr. Repeatable.
Prereq: Permission of instructor

JL MC 590C: Special Topics: Research Problems and Methods
Cr. arr. Repeatable.
Prereq: Permission of instructor

JL MC 590D: Special Topics: Technique and Style
Cr. arr. Repeatable.
Prereq: Permission of instructor

JL MC 590E: Special Topics: Specialized Communication
Cr. arr. Repeatable.
Prereq: Permission of instructor

JL MC 591: Professional Internship
Cr. 1-2. F.S.S.S.
Prereq: Permission of instructor
Supervised internship experience. Offered on a satisfactory-fail basis only.

JL MC 592: Introduction to Graduate Study in Journalism and Mass Communication
(1-0) Cr. 1.
Prereq: Graduate classification in JL MC
Overview of advanced study in journalism and mass communication with special emphasis on requirements for obtaining the master of science degree.

JL MC 598: Seminars in Mass Communication
Cr. 1-3. Repeatable, maximum of 3 credits.
Prereq: graduate classification or instructor permission.
Seminar in Mass Communication.

JL MC 598A: Seminars in Mass Communication: Audiences and Effects
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598B: Seminars in Mass Communication: Communication Technology
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.
JL MC 598C: Seminars in Mass Communication: Professional Communication
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598D: Seminars in Mass Communication: Development Communication
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598E: Seminars in Mass Communication: Evaluation Methods
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598F: Seminars in Mass Communication: International Communication
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598G: Seminars in Mass Communication: Mass Communication History
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598H: Seminars in Mass Communication: Mass Communication Law
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598I: Seminars in Mass Communication: Media Management
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598J: Seminars in Mass Communication: Research Methods
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598L: Seminars in Mass Communication: Journalism and Mass Communication Education
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598N: Seminars in Mass Communication: Broadcast Communication
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598O: Seminars in Mass Communication: Communication Theory
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 598P: Seminars in Mass Communication: Computer Mediated Communication
Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

Cr. 1-3. Repeatable.
Prereq: Graduate classification or instructor permission.

JL MC 599: Creative Component
Cr. arr. Repeatable.
Prereq: Approved creative component proposal

Courses for graduate students:

JL MC 699: Thesis Research
Cr. arr. Repeatable.
Prereq: Approved thesis proposal

Liberal Studies

The Bachelor of Liberal Studies degree (B.L.S.) was established by the three Iowa Regent universities primarily to meet the needs of Iowans who want to earn a college degree but whose circumstances present obstacles to completing a traditional on-campus degree program. The degree may be earned from Iowa State University, the University of Iowa, or the University of Northern Iowa.

The B.L.S. is a general studies degree in the liberal arts. There is no traditional major. Instead, students take coursework in three areas of distribution. These areas may be focused in a single discipline or diversified over several disciplines. With the assistance of a B.L.S. adviser, students can structure a program that meets their individual educational, vocational or personal goals.

Up to three-fourths of the total degree requirements can be transferred from accredited institutions. Work done in community colleges or other accredited colleges and universities can be applied toward the degree, as can applicable courses taken at any of the three Iowa Regent universities, whether on or off campus.

The B.L.S. program has no residence requirements. To complete the degree, students may earn credits through distance-learning formats as
well as regular on-campus courses. Students may also earn credits by proficiency or test-out examinations.

**Admission**

Admission to the B.L.S. program is open to persons who meet either of the following levels of previous educational attainment:

- Hold the associate in arts (A.A.) or associate in science (A.S.) degree from an accredited two-year college. (Holders of the associate in applied science or associate in applied arts degree are not automatically eligible, although some courses may be found applicable upon review.)
- Have at least 60 semester credits of collegiate work acceptable toward graduation at ISU with a total cumulative grade point average of at least 2.00 (a C average).

**Requirements for the B.L.S. Degree**

The B.L.S. candidate must earn a total of 120 credits in accordance with requirements listed below. Courses taken at Iowa State University on a pass/not pass basis may be counted toward graduation only as electives. No more than 9 credits of 490 (Independent Study) courses in a single discipline may be counted toward graduation.

<td>120</td>
</tr>
</tbody>
</table>

*The requirement may be met by completion of three or more years of high school study in one world language. A list of courses acceptable in the general education groups can be obtained from the college website (http://www.las.iastate.edu/students/academics/general-education).

**A minimum of 12 credits is required in each of three of the five distribution areas listed below.

**Humanities** (literature, philosophy, history, religion, art and music appreciation)

**Communications and arts** (journalism, speech, writing, drama, art, world language)

**Natural sciences and mathematical disciplines** (chemistry, physics, biology, geological and atmospheric sciences, mathematics, statistics, computer science)

**Social sciences** (sociology, psychology, economics, political science, anthropology, geography)

**Professional fields** (business, education, family and consumer sciences, agriculture, engineering)

At least 24 upper-level credits are required in the three distribution areas with a minimum of 6 upper-level credits in each of the areas.

**Other Requirements**

Included in the total of 120 credits must be the following:

- 45 upper-level credits from a four-year college
- 30 credits from ISU earned during the junior/and or senior year.
- Three credits of course work in U.S. Diversity and 3 credits in International Perspectives.

A grade average of at least 2.00 (a C average) in all coursework applied to the B.L.S. degree, in all upper-level coursework, and in all work completed after admission to the B.L.S. program.

Proficiency in upper-level communication demonstrated by completion of an approved composition/communication course from a four-year college.

**Linguistics**

Linguistics is a cross-disciplinary program in the College of Liberal Arts and Sciences designed to meet the needs of students interested in various aspects of language—its structure, history, varieties, meanings, and uses. The program includes courses in anthropology, communication disorders, computer science, English, psychology, and speech communication and world languages and cultures, thus providing a multi-disciplinary approach to the study of human language.

Courses in linguistics serve as background for students interested in any career that involves working with language, such as teaching English both as a first and as a second language, second language studies, psycholinguistics, cross-cultural communication, linguistic anthropology, computational linguistics, speech-language pathology, and audiology.

In the College of Liberal Arts and Sciences, courses in linguistics can be applied as electives or as part of the group requirements. They may also be used in a minor or in a major.

 Majors in linguistics complete a minimum of 36 hours in linguistics with a grade of C or better in each linguistics course. Courses specifically required are:
LING 119 Introduction to World Languages 3
LING 120 Computers and Language 3
LING 207 Introduction to Symbolic Logic 3
LING 219 Introduction to Linguistics 3
LING 220 Descriptive English Grammar 3
LING 371 Phonetics and Phonology 3
LING 413 Psychology of Language 3
LING 420 History of the English Language 3
LING 437 Grammatical Analysis 3

In addition, linguistics majors must choose 9 credits of elective courses. Discuss choices with the adviser. Suggested areas of further study are:

Communication Disorders
LING 275 Introduction to Communication Disorders 3
LING 286 Communicating with the Deaf 3
LING 471 Language and Reading Development in Children 3
CMDIS 480B Topics in Communication Disorders: Articulation and Phonological Disorders 3

Computers and Linguistics
LING 331 Theory of Computing 3
LING 510 Introduction to Computers in Applied Linguistics 3
LING 526 Computer-Assisted Language Learning 3

Second Language Studies
ENGL 324 Introduction to Teaching ESL Literacy 3
ENGL 325 Teaching Methods for ESL Learners: Oral Communication Skills 3
LING 425 Second Language Learning and Teaching 3
LING 524 Literacy: Issues and Methods for Nonnative Speakers of English 3
LING 525 Research and Teaching of Second Language Pronunciation 3

Sociolinguistics and Language
LING 305 Language, Thought and Action 3
ENGL 322 Language and Society 3
LING 422 Women, Men, and the English Language 3
LING 514 Sociolinguistics 3
LING 527 Discourse Analysis 3

Spanish Linguistics
LING 351 Introduction to Spanish-English Translation 3
LING 352 Introduction to Spanish Phonology 3
LING 354 Introduction to Spanish-English Interpretation 3
LING 462 Contrastive Analysis of Spanish/English for Translators 3
LING 463 Contemporary Spanish Linguistics 3

Additional courses in linguistics are available but not fully in the catalog yet. These include LING 319X, 320X, 322, 324, and 325. They also include courses for study abroad, especially LING 395. Majors in linguistics must show proficiency in a foreign language equivalent to that achieved after two years of university-level study. Alternatively, majors in linguistics can demonstrate university-level study in two foreign languages of at least one year each.

Minors in linguistics are individually tailored to the interests of the student, who consults with the linguistics adviser to develop the minor program of study. All minors must have a minimum of 15 credits in linguistics, of which 6 must be in courses numbered over 300. All programs must include LING 219 Introduction to Linguistics.

Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, Visual, and Electronic Composition 3
or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors
LIB 160 Information Literacy 1

Continuing ENGL Proficiency is based on one course from ENGL 314, a WLC 370-379 course, or a CL ST 370-379 course.

For information about using linguistics courses in an interdisciplinary studies major, see Liberal Arts and Sciences, Cross-Disciplinary Studies.

### Graduate Study

A graduate minor in linguistics permits students to investigate various aspects of linguistics, emphasizing the ability to think about language in a systematic and disciplined way and to apply the methods of the field to research problems in their own disciplines. Graduate courses for the minor may be cross-listed with courses in Anthropology, Communication Disorders, Computer Science, English, Psychology, and World Languages and Cultures.

For the master’s degree, a declared minor consists of 9 credits in linguistics including two foundation courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LING 511</td>
<td>Introduction to Linguistic Analysis</td>
<td>3</td>

<tr>
<td>LING 527</td>
<td>Discourse Analysis</td>
<td>3</td>
</tr>
<tr>
<td>LING 537</td>
<td>Corpus Approaches to Grammatical Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

And one elective from the list of courses approved for graduate credit 3

Total Credits 9

For the Ph.D. degree, the minor consists of 12 credits in linguistics including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LING 511</td>
<td>Introduction to Linguistic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>LING 537</td>
<td>Corpus Approaches to Grammatical Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

And two electives from the list of courses approved for graduate credit 6

Total Credits 12

Additional courses beyond those listed below may be used as electives.

The chair of the supervisory committee can provide information about these.

At least one member of the linguistics faculty will serve on a student’s program of study committee. A list of faculty members may be obtained from the Linguistics program website. Ph.D. candidates will write one section of the preliminary examination on an area of linguistics. Students in Teaching English as a Second Language/Applied Linguistics are not eligible for a graduate minor in linguistics.

### Courses primarily for undergraduates:

<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LING 120</td>
<td>Computers and Language</td>
<td>(3-0) Cr. 3.</td>
</tr>
</tbody>
</table>

Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.
LING 207: Introduction to Symbolic Logic  
(Cross-listed with PHIL). (3-0) Cr. 3. S.  
Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Linguistics majors should take LING/PHIL 207 as early as possible.

LING 219: Introduction to Linguistics  
(Cross-listed with ENGL). (3-0) Cr. 3. F.S.  
Prereq: Sophomore classification  
Introduction to linguistic concepts and principles of linguistic analysis with English as the primary source of data. Sound and writing systems, sentence structure, vocabulary, and meaning. Issues in the study of usage, regional and social dialects, language acquisition, and language change.

LING 220: Descriptive English Grammar  
(Cross-listed with ENGL). (3-0) Cr. 3. F.S.  
Prereq: ENGL 250  
Overview of grammatical structures and functions. Parts of speech; phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

LING 275: Introduction to Communication Disorders  
(Cross-listed with CMDIS). (3-0) Cr. 3.  
Survey of nature, causes, and types of major communication disorders including phonological, adult and child language, voice, cleft palate, fluency, and hearing disorders.

LING 286: Communicating with the Deaf  
(Cross-listed with CMDIS). (3-0) Cr. 3.  
Learn to communicate with the deaf using Signed English and Signed Pidgin English. Other topics covered include types, causes, and consequences of hearing loss, hearing technology (hearing aids, assistive listening devices, and cochlear implants), education of hearing-impaired children, Deaf culture, and the history of manual communication.  
Meets U.S. Diversity Requirement

LING 285: Language, Thought and Action  
(Cross-listed with SP CM). (3-0) Cr. 3.  
Prereq: ENGL 250  
The study of symbolic processes and how meaning is conveyed in words, sentences, and utterances; discussion of modern theories of meaning; and an exploration of relationships among language, thought and action.

LING 309: Introduction to Culture and Language  
(Cross-listed with ANTHR). (3-0) Cr. 3.  
Prereq: ANTHR 201 recommended  
Introduction to study of language, culture and society from an anthropological perspective. Focus on language and thought, ethnography of speaking, discourse and narrative, writing and literacy, and media communication. Discussion of key theories and methods of linguistic anthropology.  
Meets International Perspectives Requirement.

LING 318: Introduction to ESL methods and materials  
(Cross-listed with ENGL). Cr. 3. F.  
Prereq: ENGL/LING 219  
Introduction to methods and materials for teaching English as a Second Language (ESL) for elementary and secondary students. Strategies and resources for teaching reading, writing, speaking and listening skills. Elementary Education students must take this course in the same semester as either CI 280S or CI 480S.

LING 319: Studies in Language and Diversity  
(Cross-listed with ENGL). Cr. 3. Repeatable, maximum of 6 credits. F.  
Prereq: ENGL 250  
Special topics related to the role of language and linguistics in US diversity, such as Dialects and American literature, American English Accents, Legal and Social Aspects of English-only Laws in the US. Connections between language use and social diversity.  
Meets U.S. Diversity Requirement

LING 320: Topics in Linguistic Structure  
(Cross-listed with ENGL). Cr. 3. Repeatable, maximum of 6 credits. S.  
Prereq: ENGL 219/LING 219, ENGL 220/LING 220  
Special topics related to the study of linguistic structure. Focus on language structure in areas not covered in detail by existing courses. Topics include field linguistics, morphology, forensic linguistics, neurolinguistics, semantics, non-English phonology, acoustic phonetics, linguistic universals, and historical linguistics.

LING 322: Language and Society  
(Cross-listed with ENGL). Cr. 3. S.  
Prereq: ENGL/LING 219  
Introduction to variation in language use in society. Survey of factors affecting language use, including background characteristics of language users, location, and purpose of interaction in addition to institutional, state, and national language policies.
LING 324: Introduction to Teaching ESL Literacy
(Cross-listed with ENGL). Cr. 3. F.
Prereq: ENGL/LING 219
Introduction to the issues and methods involved in teaching literacy skills to English as a second language (ESL) learners. The nature of literacy and materials and methods for developing ESL literacy at the middle school, high school, and adult ages across multiple levels of competency.

LING 325: Teaching Methods for ESL Learners: Oral Communication Skills
(Cross-listed with ENGL). Cr. 3. S.
Prereq: ENGL/LING 219
Issues and methods in teaching oral communication skills (listening, speaking, pronunciation) to English as a second language (ESL) learners. The nature of oral language ability. Materials and Methods for developing oral communication skills at middle school, high school, and adult contexts.

LING 331: Theory of Computing
(Cross-listed with COM S). (3-1) Cr. 3. F.S.
Prereq: Minimum of C- in COM S 228, MATH 166, and in COM S 230 or CPR E 310; ENGL 250

LING 351: Introduction to Spanish-English Translation
(Cross-listed with SPAN). (3-0) Cr. 3. F.S.
Prereq: SPAN 303A or SPAN 303B or SPAN 304

LING 352: Introduction to Spanish Phonology
(Cross-listed with SPAN). (3-0) Cr. 3. F.S.
Prereq: SPAN 303A or SPAN 303B or SPAN 304

LING 354: Introduction to Spanish-English Interpretation
(Dual-listed with LING 554). (Cross-listed with SPAN). (3-0) Cr. 3. F.S.
Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Meets International Perspectives Requirement.

LING 371: Phonetics and Phonology
(Cross-listed with CMDIS). (3-0) Cr. 3.
Prereq: ENGL 219
Terminology, theory, research, and applications of the science of the sounds of spoken language. Emphasis on American English and International Phonetic Alphabet.

LING 395: Study Abroad
Cr. 3. Repeatable, maximum of 2 times.

LING 410: Language as Data
(Cross-listed with ENGL). Cr. 3. S.
Prereq: Junior standing
Methods of discovering language patterns in text documents solve practical text analysis problems in the disciplines. Fundamentals of linguistics and its role in text analysis. Practice writing R scripts to perform text analysis and visualize textual data.

LING 413: Psychology of Language
(Cross-listed with PSYCH). (3-0) Cr. 3.
Prereq: PSYCH 101
Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes.

LING 420: History of the English Language
(Cross-listed with ENGL). (3-0) Cr. 3. F.S.
Prereq: ENGL 219 or LING 219, ENGL 220 or LING 220
Comparison of English to other languages by family background and by type. Analysis of representative Old, Middle, Early Modern and present-day English texts, including both literary works and non-literary documents.
LING 422: Women, Men, and the English Language
(Cross-listed with ENGL, WGS). (3-0) Cr. 3. S.
Prereq: ENGL 219 or LING 219
The ways men and women differ in using language in varied settings and
the ways in which language both creates and reflects gender divisions.
Meets U.S. Diversity Requirement

LING 425: Second Language Learning and Teaching
(Cross-listed with ENGL). (3-0) Cr. 3. S.
Prereq: ENGL 219 or LING 219; junior classification
The process of second language learning and principles and techniques
of teaching second languages. Learning and teaching in specific
situations and for particular purposes. Current applications of technology
in teaching and assessment.

LING 437: Grammatical Analysis
(Cross-listed with ENGL). (3-0) Cr. 3. F.
Prereq: ENGL 220 or LING 220; ENGL 219 or LING 219 or introductory course
in linguistics; junior classification
Theories and methods for analysis of syntax and morphology.

LING 462: Contrastive Analysis of Spanish/ English for Translators
(Cross-listed with SPAN). (3-0) Cr. 3.
Prereq: SPAN 351
Linguistic study of the major differences between the Spanish and
English grammatical systems and their applications in the translation of
Spanish to English. Taught in Spanish.

LING 463: Contemporary Spanish Linguistics
(Cross-listed with SPAN). (3-0) Cr. 3.
Prereq: SPAN 352
Study of various topics related to the Spanish language. Topics may
include bilingualism, historical linguistics and dialectology, Spanish in
the U.S., language assessment, computer-assisted language learning and
instruction, and second language acquisition. Taught in Spanish.
Meets International Perspectives Requirement.

LING 471: Language and Reading Development in Children
(Cross-listed with CMDIS). (3-0) Cr. 3.
Prereq: CMDIS 275 or PSYCH 230 or ENGL 219 or LING 219
Development of spoken language, reading and writing covering
semantics, syntax, morphology, phonology, and pragmatics.

LING 480: Topics in Communication Disorders
(Cross-listed with CMDIS). (3-0) Cr. 3. F.S.
Prereq: CMDIS/LING 275, CMDIS/LING 371, and BIOL 255; permission of
instructor.
Guided examination of topics in preparation for graduate work in Speech-
Language Pathology or Audiology. Primary course delivery by WWW.

LING 480A: Topics in Communication Disorders: Anatomy and Physiology
of Speech and Hearing
(Cross-listed with CMDIS). (3-0) Cr. 3. F.S.
Prereq: CMDIS/LING 275, CMDIS/LING 371, and BIOL 255; permission of
instructor.
Structures and functions of respiratory, phonatory, articulatory, auditory,
and nervous systems as they relate to speaking and listening.

LING 480B: Topics in Communication Disorders: Articulation and
Phonological Disorders
(Cross-listed with CMDIS). (3-0) Cr. 3. F.S.
Prereq: CMDIS/LING 275, CMDIS/LING 371, and BIOL 255; permission of
instructor.
Children's acquisition of English speech sounds. Assessment and
management of speech sound disorders in children and adults.

LING 480C: Topics in Communication Disorders: Evaluation and
diagnosis of communication disorders
(Cross-listed with CMDIS). (3-0) Cr. 3. F.S.
Prereq: CMDIS/LING 275, CMDIS/LING 371, and BIOL 255; permission of
instructor.
Assessment and diagnosis of speech, language, and swallowing
disorders. Preparation of clinical reports based on assessment data.

LING 486: Methods in Elementary School World Language Instruction
(Cross-listed with EDUC, WLC). (3-0) Cr. 3. F.
Prereq: 25 credits in a world language
Planning, implementation, and assessment of standards-based, student-
centered, and thematic instruction in the elementary (K-8) classroom.
Special emphasis on K-8 students' communicative skills, cultural
knowledge, and content learning.

LING 487: Methods in Secondary School World Language Instruction
(Cross-listed with EDUC, WLC). (3-0) Cr. 3. F.
Prereq: 25 credits in a world language, admission to the teacher education
program, OPI
Theories and principles of contemporary world language learning and
teaching. Special emphasis on designing instruction and assessments
for active learning.

LING 490B: Independent Study: Linguistics
(Cross-listed with ENGL). Cr. arr. Repeatable, maximum of 9 credits. F.S.
Prereq: 9 credits in English beyond ENGL 250 appropriate to the section taken,
junior classification, permission of Undergraduate Studies Committee or
Linguistics Adviser
Designed to meet the needs of students who wish to study in areas other
than those in which courses are offered. No more than 9 credits of ENGL
490 may be used toward graduation.
LING 490D: Independent Study: Linguistic Anthropology
(Cross-listed with ANTHR). Cr. 1-5. Repeatable, maximum of 9 credits.
Prereq: 9 credits in anthropology.
No more than 9 credits of Anthr 490 may be counted toward graduation.

LING 492: Fieldwork in Communication Disorders
(Cross-listed with CMDIS). Cr. 1-2. Repeatable, maximum of 6 credits.
F.S.S.S.
Prereq: CMDIS/LING 371,471; completion or concurrent enrollment in CMDIS/
LING 480A or 480B or 480C
Guided observation of clinical evaluation and treatment in
Communication Disorders on campus and in the community. Assessed
service learning component.

Courses primarily for graduate students, open to qualified
undergraduates:

LING 510: Introduction to Computers in Applied Linguistics
(Cross-listed with ENGL). (3-0) Cr. 3. F.
Prereq: Graduate classification
Use of software and web applications for language teaching, linguistic
analysis, and statistical analysis. Issues and problems in applied
linguistics related to computer methods.

LING 511: Introduction to Linguistic Analysis
(Cross-listed with ENGL). (3-0) Cr. 3. F.
Prereq: Graduate classification
Principles and methods of linguistic analysis with emphasis on
phonology, morphology, and syntax. Description of linguistic variation and
current theoretical approaches to linguistics.

LING 512: Second Language Acquisition
(Cross-listed with ENGL). (3-0) Cr. 3.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theory, methods, and results of second language acquisition research
with emphasis on approaches relevant to second language teaching.

LING 513: Language Assessment Practicum
(Cross-listed with ENGL). (3-0) Cr. 3. F.S.S.S.
Prereq: ENGL 519 or LING 519
Advanced practicum in language assessment.

LING 514: Sociolinguistics
(Cross-listed with ENGL). (3-0) Cr. 3.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theories and methods of examining language in its social setting.
Analysis of individual characteristics (e.g., age, gender, ethnicity, social
class, region), interactional factors (e.g., situation, topic, purpose) and
national policies affecting language use.

LING 515: Statistical Natural Language Processing
(Cross-listed with ENGL, HCI). (3-0) Cr. 3.
Prereq: STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL
511 or LING 511
Introduction to computational techniques involving human language
and speech in applications such as information retrieval and extraction,
automatic text categorization, word prediction, intelligent Web searching,
spelling and grammar checking, speech recognition and synthesis,
statistical machine translation, n-grams, POS-tagging, word-sense
disambiguation, on-line lexicons and thesauri, markup languages, corpus
analysis, and Python programming language.

LING 516: Methods of Formal Linguistic Analysis
(Cross-listed with ENGL). Cr. 3. Alt. S., offered even-numbered years.
Prereq: ENGL 219/LING 219 or equivalent.
Data and knowledge structures for formal representation of natural
language and speech data. Designing and implementing algorithms
for automating linguistic analysis tasks. Conceptual issues for natural
language and speech processing programming.

LING 519: Second Language Assessment
(Cross-listed with ENGL). (3-0) Cr. 3. S.
Prereq: ENGL 511 or LING 511
Principles of second language assessment including reliability, validity,
authenticity and practicality. Constructing, scoring, interpreting, and
evaluating second language tests for a variety of situations.

LING 520: Computational Analysis of English
(Cross-listed with ENGL, HCI). (3-0) Cr. 3.
Prereq: ENGL 510 or LING 510, and ENGL 511 or LING 511
Concepts and practices for analysis of English by computer with
emphasis on the applications of computational analysis to problems in
applied linguistics such as corpus analysis and recognition of learner
language in computer-assisted learning and language assessment.

LING 524: Literacy: Issues and Methods for Nonnative Speakers of
English
(Cross-listed with ENGL). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theoretical and practical issues and techniques in the teaching of literacy
in a variety of contexts, involving children and adults at basic skill levels
and teens and adults in academic and vocational programs.
LING 525: Research and Teaching of Second Language Pronunciation
(Cross-listed with ENGL). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Theoretical and practical issues and techniques in the teaching of
second language pronunciation as it relates to other areas of language,
especially listening and speaking skills. Topics will include segmental
and suprasegmental features; intelligibility; pronunciation in language
assessment; classroom, technology and individual instruction; and
research issues. Topics will be relevant to those intending to teach or
research in various contexts.

LING 526: Computer-Assisted Language Learning
(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: ENGL 511 or LING 511 or equivalent
Theory, research, and practice in computer use for teaching nonnative
speakers of English. Methods for planning and evaluating computer-
based learning activities.

LING 527: Discourse Analysis
(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Methods and theoretical foundations for linguistic approaches to
discourse analysis. Applications of discourse analysis to the study of
texts in a variety of settings, including academic and research contexts.

LING 528: English for Specific Purposes
(Cross-listed with ENGL). (3-0) Cr. 3.
Prereq: ENGL 511 or LING 511 or an introductory course in linguistics
Issues and techniques in analyzing, teaching, and assessing English
for specific purposes. Topics include theories of specific purpose
language use, analysis of learner needs in target language contexts, and
corpus-informed syllabus and materials development for teaching and
assessment.

LING 530: Technology and Oral Language
(Cross-listed with ENGL). Cr. 3. Alt. F., offered even-numbered years.
Prereq: ENGL 219 or ENGL 511 or equivalent.
Structure and description of oral language and discourse. How spoken
language is linguistically described, analyzed, and taught for research
and for education. Using technology to record, transcribe, and analyze
spoken language at all levels of linguistic structure.

LING 537: Corpus Approaches to Grammatical Analysis
(Cross-listed with ENGL). (3-0) Cr. 3.
Prereq: ENGL 220 or LING 220; ENGL 219, LING 219, ENGL 511, LING 511, or
an introductory course in linguistics; graduate classification
Corpus-informed analysis of syntax in authentic writing and speech, with
emphasis on approaches used in applied linguistics.

LING 554: Introduction to Spanish-English Interpretation
(Dual-listed with LING 354). (Cross-listed with SPAN). (3-0) Cr. 3. F.S.
Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of
consecutive and simultaneous interpretation. Consideration of
material from business, agriculture, law, design, medicine, literature,
advertisement, and sports. Taught in Spanish.
Meets International Perspectives Requirement.

LING 588: Supervised Practice Teaching in Teaching English as a Second
Language
(Cross-listed with ENGL). (1-5) Cr. 3. F.S.S.
Prereq: 9 credits toward the TESL/TEFL Certificate, 15 credits toward
the TESL/AL master's degree, or 18 credits completed toward the ESL
Endorsement option.
Intensive observation of ESL instruction and supervised practice in
teaching learners of English in a context appropriate to the student
teacher's goals. ENGL 588 cannot be used for teacher licensure and
cannot be taken during student teaching.

LING 590: Special Topics
(Cross-listed with ENGL). Cr. arr. Repeatable.
Prereq: Permission of the Director of Graduate Education according to
guidelines available online

LING 590B: Special Topics: Teaching English as a Second Language
(TESL)/Applied Linguistics
(Cross-listed with ENGL). Cr. arr. Repeatable.
Prereq: Permission of the Director of Graduate Education according to
guidelines available online

LING 590G: Special Topics: Applied Linguistics and Technology
(Cross-listed with ENGL). Cr. arr. Repeatable.
Prereq: Permission of the Director of Graduate Education according to
guidelines available online

LING 591: Studies in Applied Linguistics
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: 6 credits in TESL/Applied Linguistics
Intensive study of applied linguistic theory as it relates to specific issues
in language acquisition, teaching, or use.

LING 591B: Directed Readings: Teaching English as a Second Language
(TESL)/Applied Linguistics
(Cross-listed with ENGL). Cr. arr. Repeatable.
LING 591G: Directed Readings: Applied Linguistics and Technology
(Cross-listed with ENGL). Cr. arr. Repeatable.

Courses for graduate students:
LING 623: Research Methods in Applied Linguistics  
(Cross-listed with ENGL). (3-0) Cr. 3.  
**Prereq: ENGL 511 or LING 511**  
Survey of research traditions in applied linguistics. Focus on theoretical and practical aspects of quantitative and qualitative approaches to applied linguistic study, including experimental and quasi-experimental methods, classroom observation and research, introspective methods, elicitation techniques, case studies, interactional analysis, ethnography, and program evaluation. Computational tools and resources for linguistic research will be highlighted.

LING 626: Computer-Assisted Language Testing  
(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
**Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511, ENGL 519 or LING 519**  
Principles and practice for the use and study of computers and the Internet in second language assessment.

LING 630: Seminar in Applied Linguistics  
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable.  
**Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511**  
Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feedback in CALL programs, technology and pronunciation, and advances in language assessment.

**Mathematics**

**Undergraduate Study**

The program in mathematics offers training for students planning to enter secondary education teaching, to work in mathematics and computation for industry, or to continue their studies in graduate school. Students may satisfy the major requirements in several ways, which are designed to meet these various career objectives. Graduates will understand a broad range of mathematical topics, acquire skills for solving problems in diverse situations, and they will be able to construct and effectively communicate rigorous arguments to demonstrate mathematical facts.

**Curriculum**

All students are required to earn credit for the following core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 101</td>
<td>Orientation in Mathematics</td>
<td>1</td>
</tr>
<tr>
<td>MATH 165</td>
<td>Calculus I</td>
<td>4</td>
</tr>
<tr>
<td>MATH 166</td>
<td>Calculus II</td>
<td>4</td>
</tr>
<tr>
<td>MATH 201</td>
<td>Introduction to Proofs</td>
<td>3</td>
</tr>
<tr>
<td>MATH 265</td>
<td>Calculus III</td>
<td>4</td>
</tr>
<tr>
<td>One of the following:</td>
<td></td>
<td>3-4</td>
</tr>
<tr>
<td>MATH 317</td>
<td>Theory of Linear Algebra</td>
<td></td>
</tr>
</tbody>
</table>

To complete the major, leading to a Bachelor of Science degree, students must choose from one of the following four pathways:

**Mathematics Major**

This degree program is designed for students planning to work in industry or those who plan to continue their studies in mathematics at the graduate level. Students are required to earn credit for the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 301</td>
<td>Abstract Algebra I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 414</td>
<td>Analysis I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 492</td>
<td>Undergraduate Seminar</td>
<td>2</td>
</tr>
<tr>
<td>MATH courses at the 300, 400, or 500 level</td>
<td>15</td>
<td></td>
</tr>
<tr>
<td>One of the following:</td>
<td></td>
<td>3-4</td>
</tr>
<tr>
<td>MATH 266</td>
<td>Elementary Differential Equations</td>
<td></td>
</tr>
<tr>
<td>MATH 267</td>
<td>Elementary Differential Equations and Laplace Transforms</td>
<td></td>
</tr>
</tbody>
</table>

**Mathematics Major with Actuarial Science Certificate**

This degree program is designed for students pursuing a career as an actuary or in the financial sector. Students are required to earn credit for the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 240</td>
<td>Mathematics of Investment and Credit</td>
<td>3</td>
</tr>
<tr>
<td>MATH 341</td>
<td>Introduction to the Theory of Probability and Statistics I</td>
<td>4</td>
</tr>
<tr>
<td>MATH 414</td>
<td>Analysis I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 441</td>
<td>Life Contingencies I</td>
<td>3</td>
</tr>
</tbody>
</table>

1. MATH 302 will be offered until Spring 2019. Afterwards, students will be required to take MATH 403/503 Intermediate Abstract Algebra.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 442</td>
<td>Life Contingencies II ¹</td>
<td>3</td>
</tr>
<tr>
<td>MATH 492</td>
<td>Undergraduate Seminar</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td><strong>Total Credits</strong></td>
<td>18</td>
</tr>
</tbody>
</table>

¹ MATH 441/442 will be offered beginning Fall 2019/Spring 2020.

Additionally, students must meet the requirements for the Actuarial Science Certificate (see /collegeofbusiness/actuarialscience/#certificatetext).

### Mathematics Major with Applications

This degree program is for students who want to specialize in the application of mathematics to an area of study. It is recommended for those who plan to work in industry or those who plan to continue studying their specialization area at the graduate level. Students are required to earn credit for the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 492</td>
<td>Undergraduate Seminar</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td><strong>Courses at the 300, 400, or 500 level from the following designations:</strong></td>
<td>12</td>
</tr>
<tr>
<td>AER E, A B E, ASTRO, BBMB, BCB, BC BIO, BIOL, B M E, B M S, CH E, CHEM, C E, CPR E, COM S, CON E, DS, ECON, E E, ENSCI, GEN, GEOL, I E, MAT E, M E, MTEOR, MICRO, NUC E, PHYS, S E, STAT</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>One of the following:</strong></td>
<td>3-4</td>
</tr>
<tr>
<td>MATH 266</td>
<td>Elementary Differential Equations</td>
<td></td>
</tr>
<tr>
<td>MATH 267</td>
<td>Elementary Differential Equations and Laplace Transforms</td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>One of the following:</strong></td>
<td>3</td>
</tr>
<tr>
<td>MATH 304</td>
<td>Combinatorics</td>
<td></td>
</tr>
<tr>
<td>MATH 314</td>
<td>Graph Theory</td>
<td></td>
</tr>
<tr>
<td></td>
<td><strong>Three of the following:</strong></td>
<td>9-10</td>
</tr>
<tr>
<td>MATH 301</td>
<td>Abstract Algebra I</td>
<td></td>
</tr>
<tr>
<td>MATH 341</td>
<td>Introduction to the Theory of Probability and Statistics I</td>
<td></td>
</tr>
<tr>
<td>MATH 350</td>
<td>Number Theory</td>
<td></td>
</tr>
<tr>
<td>MATH 365</td>
<td>Complex Variables with Applications</td>
<td></td>

† Arranged with instructor.

Additionally, students must meet the professional teaching education requirements established by the University Teacher Education Program (see http://education.iastate.edu/undergraduate-studies/secondary-education/)
University and College Requirements

In addition to the core and pathway courses, students are also required to earn credit for the following courses:

Courses from General Education Area I - Arts and Humanities ¹ 12
Courses from General Education Area IIB - Natural Sciences ¹ 8
Courses from General Education Area III - Social Sciences ¹,² 9
Courses meeting the international perspectives requirement ³ 3
Courses meeting the U.S. diversity requirement ³ 3
LIB 160 Information Literacy 1
ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, Visual, and Electronic Composition ⁴ 3
One of the following: ⁵
ENGL 302 Business Communication 3
ENGL 303 Free-Lance Writing for Popular Magazines 3
ENGL 305 Creative Writing: Nonfiction 3
ENGL 309 Proposal and Report Writing
ENGL 314 Technical Communication
MATH 491 Undergraduate Thesis ⁶

¹ Possible choices can be found here: https://las.iastate.edu/students/academics/general-education/
² Students pursuing the Mathematics Major with Teaching Licensure are required to take PSYCH 230 or HD FS 102, PYSCH 333, and earn a grade of C or better in each course.
³ Courses used to meet the U.S. Diversity and International Perspectives requirements can also be used to fulfill general education requirements.
⁴ Students must earn a grade of C or better.
⁵ Students must earn a grade of C- or better.
⁶ With departmental approval.

Furthermore, students must earn a minimum of 120 credits, including a minimum of 45 credits at the 300 or 400 level, and including at least 8 credits in the major at the 300/400 level with a grade of C or better. At least 55 of these credits must be earned at a four-year institution, and the last 32 credits must be earned at Iowa State University. A maximum of 16 technical credits are allowed, and a maximum of 9 P-NP credits of free electives may apply. Students must also meet the LAS World Language requirement and have a minimum 2.00 ISU cumulative Grade Point Average.

Undergraduate Minor

The department offers a minor in mathematics. Students are required to earn credit for the following courses:

MATH 201 Introduction to Proofs 3
MATH 265 Calculus III 4
One of the following: 3-4
MATH 266 Elementary Differential Equations
MATH 267 Elementary Differential Equations and Laplace Transforms
One of the following: 3-4
MATH 317 Theory of Linear Algebra
MATH 407 Applied Linear Algebra
One of the following: 3-4
MATH 301 Abstract Algebra I
MATH 304 Combinatorics
MATH 314 Graph Theory
MATH 331 Topology
MATH 341 Introduction to the Theory of Probability and Statistics I
MATH 350 Number Theory
MATH 365 Complex Variables with Applications
MATH 373 Introduction to Scientific Computing
MATH 414 Analysis I
MATH 421 Logic for Mathematics and Computer Science
MATH 435 Geometry I
MATH 436 Geometry II

Total Credits 16-19

### Graduate Study

The department offers programs leading to a Master of Science or Doctor of Philosophy degree in mathematics or applied mathematics, as well as minor work for students whose major is in another department. The department also offers a program leading to the degree of Master of School Mathematics (M.S.M.).

Students desiring to undertake graduate work leading to the M.S. or Ph.D. degree should prepare themselves by taking several upper division mathematics courses.

The M.S. degree requires a student to take at least 30 credit hours and to write a creative component or thesis. Additionally, students must pass a comprehensive oral examination over their coursework and their creative component or thesis. See the online Mathematics Graduate Handbook for specific requirements.

The Ph.D. degree requires a student to take 48 credit hours of coursework in addition to research hours, pass written qualifying examinations, pass an oral preliminary exam, and perform an original research project culminating in a dissertation which is defended by an oral exam. Ph.D. candidates must have at least one year of supervised teaching experience. See the on-line Mathematics Graduate Handbook for specific requirements.

The M.S.M. degree is primarily for in-service secondary mathematics teachers. Students desiring to pursue the M.S.M degree should present some undergraduate work in mathematics beyond calculus. Candidates for the M.S.M. degree must write an approved creative component and pass a comprehensive oral examination over their course work and their creative component.

### Meteorology

Offered by the Department of Geological and Atmospheric Sciences. ([https://ge-at.iastate.edu](https://ge-at.iastate.edu))

**The bachelor of science major in Meteorology:** The study of meteorology involves the description of the earth’s atmosphere and the processes responsible for its behavior. Students majoring in Meteorology earn the bachelor of science. The major satisfies guidelines specified by the American Meteorological Society and meets education requirements for employment with the National Weather Service and the World Meteorological Organization. Successful preparation for professional or graduate work in Meteorology requires that the student develop and integrate a diverse range of skills and knowledge bases. These include weather observing, the physics and dynamics of the global atmosphere, application of new weather technologies, advanced mathematical tools, computer programming and modeling, and effective oral and written communication. The faculty view the senior thesis (MTEOR 499 Senior Research), in particular, as a capstone experience in which students demonstrate they have achieved this integration. Also, contemporary meteorology is an earth-system science with ties to a variety of human experiences. The electives and general education requirements of the college are further experiences that the meteorology student must integrate with their core meteorology knowledge in order to function effectively in a globally-oriented profession.
**Meteorology Specified Double Major Pathways:** The Meteorology program allows students in academic programs with affinity to meteorology to complete a double major in four years. Students earning a BS degree in electrical or aerospace engineering who complete the designated Meteorology coursework of at least 25 credit hours can earn a second major in Meteorology. Please review information on the department web site or contact the current program head for more information regarding these approved accelerated pathways for earning a second major in Meteorology.

**Combined Degrees:** A concurrent program is offered which combines a bachelor of science degree in meteorology and a master of science degree in meteorology. This program gives well-qualified Iowa State juniors and seniors the opportunity to begin working on the M.S. degree before completing the B.S. degree, reducing by at least one year the normal time period necessary to complete both degrees separately. Review the department website or contact the current program head for more information regarding this option.

**Minor - Meteorology**

The department offers a minor in Meteorology which may be earned by completing 15 credits including MTEOR 111 Synoptic Applications (only 1 credit may count toward the minor), MTEOR 206 Introduction to Weather and Climate and MTEOR 301 General Meteorology. Further information concerning programs of study, including sample degree programs, is available from the department.

The program requires the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>

</tr>
</tbody>
</table>

A grade of C or better (not C-) is required in each of the following courses to meet minimum graduation requirements for a bachelor of science degree in Meteorology:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTEOR 206</td>
<td>Introduction to Weather and Climate</td>
<td>3</td>
</tr>
<tr>
<td>MTEOR 301</td>
<td>General Meteorology</td>
<td>4</td>
</tr>
</tbody>
</table>

Several co-op programs are available for upper division undergraduates. Although a range of opportunities exists for men and women who terminate their studies with a bachelor of science, students who meet the necessary academic standards are encouraged to continue their studies in a graduate program. For these students, additional coursework is recommended in a mathematical or physical science. Other students
can choose a wide range of supporting courses that will contribute to their particular area of interest in meteorology.

**Communication Proficiency requirement:** According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250. The department requires a grade of C or better in ENGL 309.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the Communication Proficiency and LAS World Language Requirements. Six semesters of one foreign language in high school satisfies the World Language requirement.

Students in all ISU majors must complete a 3 credit course in U.S. diversity and a 3 -credit course in international perspectives. Discuss with your adviser how the two courses that you select can be applied to address general education requirements. Check for a list of approved courses at: [http://www.registrar.iastate.edu/courses/div-ip-guide.html](http://www.registrar.iastate.edu/courses/div-ip-guide.html)

1 Students taking CHEM 177 should plan to take CHEM 178 as well.

2 Student must select at least 9 credits from a list of optional courses.

3 Students should select a humanities or social science course based on need. If these LAS requirements have been satisfied, students may select a meteorology elective or alternate course. Students should discuss possible alternate course options with their adviser.

**Path 2 for students needing preparatory mathematics**

**Freshman**

\textbf{Courses primarily for undergraduates:}

\textbf{MTEOR 107: Severe and Hazardous Weather}
(2-0) Cr. 1. F.
Understanding of atmospheric processes that play a role in creating severe and hazardous weather. Focus on thunderstorms, tornadoes, hurricanes, floods, blizzards, ice storms, and temperature extremes. Impacts on lives and property.

\textbf{MTEOR 111: Synoptic Applications}
(1-0) Cr. 1. Repeatable. F.
Prereq: Credit or enrollment in MATH 165
Current weather discussions and introduction to synoptic-scale interpretation of meteorology. Application and use of calculus in meteorology. Course restricted to majors. Others with permission of instructor.

\textbf{MTEOR 112: Geoscience Orientation}
(Cross-listed with GEOL). (1-0) Cr. 1. F.
Orientation course for students enrolled in the Earth, Wind and Fire Learning Community. Provides an introduction to Iowa State University and meteorology, geology, and Earth science programs for students enrolled in the department's learning community. Activities include academic and social activities, talks and presentations on academic success, resume writing, and study abroad, as well as research talks by faculty members.

\textbf{MTEOR 113: Spring Geoscience Orientation for Earth, Wind and Fire Learning Community}
(Cross-listed with GEOL). (1-0) Cr. 1. S.
Spring orientation course for students enrolled in the "Earth, Wind and Fire" Learning Community. Develop and apply quantitative, data-analysis, management, and communication skills on an authentic research project in a team to focus on professionalism and resilience. Introduction to interview strategies and the importance of creating a professional image on social media. Academic and social events, plus two field trips.
MTEOR 160: Water Resources of the World
(Cross-listed with AGRON, ENV S, GEOL). (3-0) Cr. 3. S.
Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment. Meets International Perspectives Requirement.

MTEOR 201: Introductory Seminar
Cr. R. F.
Prereq: Credit or enrollment in PHYS 221
An overview of the atmospheric sciences, the meteorology program at Iowa State, and the major research journals used in the discipline.

MTEOR 206: Introduction to Weather and Climate
(Cross-listed with AGRON). (3-0) Cr. 3. F.S.
Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.

MTEOR 227: Computational Meteorology I
(3-1) Cr. 3. F.
Prereq: Credit or concurrent enrollment in MTEOR 206, credit or concurrent enrollment in PHYS 221
An introduction to computer programming using FORTRAN with focus on meteorological applications. Emphasis on basics of good programming techniques and style through extensive practice in top-down design, writing, running, and debugging small programs. Topics include operations and functions, selective execution, repetitive execution, arrays, input/output, file processing, and subprograms. This course is designed for majors.

MTEOR 265: Scientific Balloon Engineering and Operations
(Cross-listed with AER E). (0-2) Cr. 1. F.
Engineering aspects of scientific balloon flights. Integration of science mission objectives with engineering requirements. Operations team certification. FAA and FCC regulations, communications, and command systems. Flight path prediction and control.

MTEOR 290: Independent Study
Cr. 1-4. Repeatable.
Prereq: Permission of instructor
Independent study for freshman and sophomore students.

MTEOR 298: Cooperative Education
Cr. R. Repeatable. F.S.S.
Prereq: Permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing the work period.

MTEOR 301: General Meteorology
(4-0) Cr. 4. S.
Prereq: MATH 166, credit or enrollment in PHYS 222
Global distribution of temperature, wind, and atmospheric constituents; atmospheric thermodynamics, radiative transfer, global energy balance, storms and clouds, introductory dynamics.

MTEOR 311: Introduction to Synoptic Meteorology
(1-2) Cr. 2. F.
Prereq: MTEOR 301
Concepts of weather map plotting and analysis. Introduction to forecasting and to the use of real-time UNIDATA computer products.

MTEOR 321: Meteorology Internship
Cr. 1-2. Repeatable, maximum of 3 credits. F.S.S.S.
Prereq: MTEOR 311; junior or senior standing, permission of co-op program coordinator, acceptance by sponsoring agency
Supervised practical experience in a professional meteorological agency. Experiences may include providing weather information for radio, TV, utilities, government agencies, construction, or agribusiness.

MTEOR 324: Energy and the Environment
(Cross-listed with ENSCI, ENV S, GEOL). (3-0) Cr. 3. S.
Prereq: CHEM 163 or CHEM 177, MATH 140
Exploration of the origin of Earth's energy resources and the environmental and climatic impacts of energy acquisition and consumption. Renewable and non-renewable energy resources within an Earth-system context. Various environmentally-relevant topics such as water quality and availability, habitat destruction, greenhouse-gas emissions, and health and safety hazards to wildlife and human communities.

MTEOR 341: Atmospheric Physics I
(3-0) Cr. 3. F.
Prereq: PHYS 222, credit or enrollment in MATH 266, MTEOR 301
Basic laws of thermodynamics, thermodynamics of water vapor, mixtures of gases, stability, hydrostatics, cloud physics.

MTEOR 342: Atmospheric Physics II
(3-0) Cr. 3. S.
Prereq: MTEOR 341
Precipitation physics, radar, atmospheric radiation, atmospheric optics, atmospheric electricity.
MTEOR 398: Cooperative Education
Cr. R. Repeatable. F.S.S.
Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing the work period.

MTEOR 402: Watershed Hydrology
(Dual-listed with MTEOR 502). (Cross-listed with ENSCI, GEOL, NREM). (2-3) Cr. 3. F.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

MTEOR 404: Global Change
(Dual-listed with MTEOR 504). (Cross-listed with AGRON, ENSCI, ENV S). (3-0) Cr. 3. S.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.

MTEOR 405: Environmental Biophysics
(Dual-listed with MTEOR 505). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: MATH 165 and some exposure to computer programming (any language)
The movement of energy and mass among the soil, vegetation, and atmosphere. The heat and water budget of humans, other animals, plants, and plant communities. Relevance to weather and climate, the effect of climate change on organisms, and remote sensing.

MTEOR 406: World Climates
(Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. S.
Prereq: AGRON 206/MTEOR 206
Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Meets International Perspectives Requirement.

MTEOR 407: Mesoscale Meteorology
(Dual-listed with MTEOR 507). (Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Math 166 and Mteor 443

MTEOR 411: Synoptic Meteorology
(Dual-listed with MTEOR 511). (1-4) Cr. 3. F.
Prereq: MTEOR 311, Credit or enrollment in MTEOR 454
Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products.

MTEOR 416: Hydrologic Modeling and Analysis
(Dual-listed with MTEOR 516). (Cross-listed with ENSCI, GEOL). (2-3) Cr. 3. S.
Prereq: Four courses in Earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

MTEOR 417: Mesoscale Forecasting Laboratory
(1-5) Cr. 3. S.
Prereq: Credit or enrollment in MTEOR 411
Real-time computer analysis of current weather, with emphasis on small-scale features. Studies of severe weather, lake-effect snow, CSI, cold-air damming.

MTEOR 432: Instrumentation and Measurements
(2-2) Cr. 3. S.
Prereq: Credit or enrollment in MATH 266, PHYS 222
MTEOR 435: Radar Applications in Meteorology  
(3-0) Cr. 3. F.  
*Prereq: Credit or enrollment in MTEOR 341*  
Fundamentals of radar meteorology with emphasis on applications. Topics presented include theory of radar, engineering principles, Doppler radar, polarimetric radar, and applications to remote sensing of clouds and precipitation.

MTEOR 443: Dynamic Meteorology I  
(3-0) Cr. 3. S.  
*Prereq: MTEOR 341*  
Conservation laws, governing equations, circulation and vorticity. Development of quasi-geostrophic theory.

MTEOR 452: Climate Modeling  
(Dual-listed with MTEOR 552). (3-0) Cr. 3. Alt. F., offered odd-numbered years.  
*Prereq: Mteor 301*  
Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world.

MTEOR 454: Dynamic Meteorology II  
(3-0) Cr. 3. F.  
*Prereq: MTEOR 443*  
Planetary boundary layer, linear perturbation theory, atmospheric wave motions, baroclinic and convective instability, mesoscale circulations.

MTEOR 468: Applied Geostatistics for Geoscientists  
(Dual-listed with MTEOR 568). (Cross-listed with ENSCI, GEOL). Cr. 3. F.  
*Prereq: GEOL 452, C R P 351, C R P 452, NREM 345, or NREM 446*  
Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression).

MTEOR 471: History of Modern Meteorology  
(Dual-listed with MTEOR 571). (1-0) Cr. 1. Alt. S., offered even-numbered years.  
*Prereq: MTEOR 341, MTEOR 342, MTEOR 411, MTEOR 443, MTEOR 452*  
Development of meteorological theories and numerical weather prediction, discoveries of important meteorological phenomena, and impact of weather and climate on important historical events.

MTEOR 489: Survey of Remote Sensing Technologies  
(Dual-listed with MTEOR 589). (Cross-listed with E E, GEOL, NREM). (3-0) Cr. 3. F.  
*Prereq: Four courses in physical or biological sciences or engineering*  
Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

MTEOR 489L: Satellite Remote Sensing Laboratory  
(Dual-listed with MTEOR 589L). (Cross-listed with E E, GEOL, NREM). (0-3) Cr. 1. F.  
*Prereq: Completion or concurrent enrollment in MTEOR/GEOL/NREM/EE 489/589*  
Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context.

MTEOR 490: Independent Study  
Cr. 1-3. Repeatable, maximum of 9 credits.  
*Prereq: 6 credits in meteorology, permission of instructor*  
No more than 9 credits in Mteor 490 may be counted toward graduation.

Cr. 1-3. Repeatable, maximum of 9 credits.  
*Prereq: 6 credits in meteorology, permission of instructor*  
No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490B: Independent Study: Dynamic Meteorology.  
Cr. 1-3. Repeatable, maximum of 9 credits.  
*Prereq: 6 credits in meteorology, permission of instructor*  
No more than 9 credits in Mteor 490 may be counted toward graduation.

Cr. 1-3. Repeatable, maximum of 9 credits.  
*Prereq: 6 credits in meteorology, permission of instructor*  
No more than 9 credits in Mteor 490 may be counted toward graduation.

MTEOR 490D: Independent Study: Instrumentation.  
Cr. 1-3. Repeatable, maximum of 9 credits.  
*Prereq: 6 credits in meteorology, permission of instructor*  
No more than 9 credits in Mteor 490 may be counted toward graduation.

Cr. 1-3. Repeatable, maximum of 9 credits.  
*Prereq: 6 credits in meteorology, permission of instructor*  
No more than 9 credits in Mteor 490 may be counted toward graduation.
MTEOR 498: Cooperative Education
Cr. R. F.S.S.
Prereq: Permission of the department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

MTEOR 499: Senior Research
(2-0) Cr. 2. F.
Required of all senior meteorology majors. Research projects in collaboration with faculty. Written and oral presentations of results at the end of the semester.

Courses primarily for graduate students, open to qualified undergraduates:

MTEOR 502: Watershed Hydrology
(Dual-listed with MTEOR 402). (Cross-listed with ENSCI, GEOL, NREM). (2-3) Cr. 3. F.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

MTEOR 504: Global Change
(Dual-listed with MTEOR 404). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. S.
Prereq: Four courses in physical or biological sciences or engineering; junior standing
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Also offered online Alt. F, even-numbered years.

MTEOR 505: Environmental Biophysics
(Dual-listed with MTEOR 405). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: MATH 165 and some exposure to computer programming (any language)
The movement of energy and mass among the soil, vegetation, and atmosphere. The heat and water budget of humans, other animals, plants, and plant communities. Relevance to weather and climate, the effect of climate change on organisms, and remote sensing.

MTEOR 507: Mesoscale Meteorology
(Dual-listed with MTEOR 407). (Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Math 166 and Mteor 443
Gallus. The physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure. Semester project and in-class presentation required.

MTEOR 511: Synoptic Meteorology
(Dual-listed with MTEOR 411). (1-4) Cr. 3. F.
Prereq: MTEOR 311, Credit or enrollment in MTEOR 454
Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products.

MTEOR 516: Hydrologic Modeling and Analysis
(Dual-listed with MTEOR 416). (Cross-listed with ENSCI, GEOL). (2-3) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Four courses in Earth science, meteorology, or engineering; junior standing
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

MTEOR 518: Microwave Remote Sensing
(Cross-listed with AGRON, EE). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Math 265
Microwave remote sensing of Earth's surface and atmosphere using satellite-based or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.

MTEOR 542: Physical Meteorology
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: MTEOR 342, MATH 266, PHYS 222
Planetary atmospheres, radiative equilibrium models, radiative transfer, the upper atmosphere, remote sounding from satellites.
MTEOR 543: Advanced Dynamic Meteorology I  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: MTEOR 455  
The first half of a two semester sequence. Governing equations, scale analysis, simple types of wave motion in the atmosphere, instability theory.

MTEOR 544: Advanced Dynamic Meteorology II  
(3-0) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: MTEOR 543  
Continuation of 543. General circulation and dynamics of zonally symmetric circulations, atmospheric energetics, nonlinear dynamics of planetary waves.

MTEOR 552: Climate Modeling  
(Dual-listed with MTEOR 452). (3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: Mteor 301  
Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world.

MTEOR 568: Applied Geostatistics for Geoscientists  
(Dual-listed with MTEOR 468), (Cross-listed with ENSCI, GEOL). Cr. 3. F.  
Prereq: GEOL 452, C R P 351, C R P 452, NREM 345, or NREM 446  
Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression).

MTEOR 571: History of Modern Meteorology  
(Dual-listed with MTEOR 471), (1-0) Cr. 1. Alt. S., offered even-numbered years.  
Prereq: MTEOR 341, MTEOR 342, MTEOR 411, MTEOR 443, MTEOR 452  
Development of meteorological theories and numerical weather prediction, discoveries of important meteorological phenomena, and impact of weather and climate on important historical events.

MTEOR 589: Survey of Remote Sensing Technologies  
(Dual-listed with MTEOR 489). (Cross-listed with E E, GEOL, NREM). (3-0) Cr. 3. F.  
Prereq: Four courses in physical or biological sciences or engineering  
Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

MTEOR 589L: Satellite Remote Sensing Laboratory  
(Dual-listed with MTEOR 489L). (Cross-listed with E E, GEOL, NREM). (0-3) Cr. 1. F.  
Prereq: Completion or concurrent enrollment in MTEOR/GEOL/NREM/EE 489/589  
Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context.

MTEOR 590: Special Topics  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor  
Topics of current interest.

MTEOR 590A: Special Topics: Boundary-layer Meteorology  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor  
Topics of current interest.

MTEOR 590B: Special Topics: Tropical Meteorology  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor  
Topics of current interest.

MTEOR 590C: Special Topics: Mesoscale Meteorology  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor  
Topics of current interest.

MTEOR 590D: Special Topics: Global Climate Systems  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor  
Topics of current interest.

MTEOR 590E: Special Topics: Climate Modeling  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor  
Topics of current interest.

MTEOR 590F: Special Topics: Numerical Weather Prediction  
Cr. 1-3. Repeatable.  
Prereq: Permission of instructor  
Topics of current interest.
MTEOR 590G: Special Topics: Satellite Observations
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

MTEOR 590H: Special Topics: Statistical Methods in Meteorology
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

MTEOR 590J: Special Topics: Low Frequency Modes
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

MTEOR 590K: Special Topics: Cloud Physics
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

MTEOR 590L: Special Topics: Atmospheric Radiation
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

MTEOR 595: Graduate Seminar
(Cross-listed with GEOL). Cr. 1. Repeatable. F.S.
Prereq: Senior or graduate classification
Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

MTEOR 595A: Graduate Seminar: Presentation Required
(Cross-listed with GEOL). (1-0) Cr. 1. Repeatable. F.S.
Prereq: Senior or graduate classification
Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

MTEOR 595B: Graduate Seminar: Attendance Only
(Cross-listed with GEOL). Cr. R. Repeatable. F.S.
Prereq: Senior or graduate classification
Attendance only. Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

Courses for graduate students:

MTEOR 605: Boundary-Layer Meteorology
(Cross-listed with AGRON). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: MTEOR 443 or equivalent-level course in engineering fluids
Atmospheric boundary-layer structure and dynamics. Diurnal and seasonal variations, turbulent fluxes and turbulence kinetic energy. Measurements and empirical relations for wind and temperature near the ground. Numerical simulation and applications to wind energy.

MTEOR 699: Research
Cr. arr. Repeatable.

Music
Administered by the Department of Music and Theatre

Undergraduate Study

The Department of Music and Theatre offers a strong undergraduate music program, where students study with full-time faculty professionals in a supportive environment that encourages students to become their best.

The music curriculum provides:
1. A comprehensive program of professional studies for students who wish to prepare for careers in music, including teaching, performance, and composition, and for students who plan to pursue graduate studies in music.

2. Courses in music literature, theory and areas of performance for all students, regardless of major.

The department embodies the land-grant philosophy of service to the people of the state with a faculty of active scholars, teachers, and artists committed to excellence in teaching, creative/scholarly work, and arts outreach. The department is an accredited institutional member of the National Association of Schools of Music (NASM).

The Theatre Program is administered by the Department of Music and Theatre (see Index, Theatre and Performing Arts.)

### Curricula Available to Music Majors

Students interested in pursuing an emphasis in music theater should see Index, Theater and Performing Arts.

#### Bachelor of Music

This curriculum leads to the degree bachelor of music. This degree is more specialized and contains fewer general education requirements than the bachelor of arts degree with a major in music. Students in this curriculum choose between options in education, performance, and composition. To obtain a bachelor of music degree, a student must earn a minimum of 122 credits, including a minimum of 32 credits in residence at Iowa State University and a minimum of 45 advanced credits in courses numbered 300 or above and must meet all of the requirements specified below.

Courses taken on a pass/not pass basis may be counted toward the required total credits, and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement.

### Degree Requirements

**GENERAL EDUCATION REQUIREMENTS** (Students choosing the music education option should consult their advisers.) 32 cr.

- Social Science: 6 cr.
- Humanities: 6 cr.
- MUSIC 383: History of Music I: 3 cr.
- MUSIC 384: History of Music II: 3 cr.
- Natural Sciences: 3 cr.
- Mathematics, Natural Sciences: 6 cr.
- Electives (not Music): 5 cr.
- OTHER REQUIREMENTS: 15 Cr.

**ENGL 150** Critical Thinking and Communication: 3 cr.

**ENGL 250** Written, Oral, Visual, and Electronic Composition*: 3 cr.

### Bachelor of Arts—Music Major

A more general degree than the bachelor of music, the bachelor of arts degree requires no formal specialization. It includes more general education requirements and provides a broader course of academic study.

For the undergraduate curriculum in Liberal Arts and Sciences, major in music, leading to the degree bachelor of arts, see Liberal Arts and Sciences, Curriculum.

Candidates for the degree bachelor of arts with a music major will normally complete 48 credits of music including the following required courses:

4 credits:

Bachelor of arts students whose chief professional interest lies in research are encouraged to minor in world languages and cultures, history, literature, or philosophy.

### General Requirements

#### Entrance Audition.

In order to be accepted as a music major, a prospective student must pass an entrance audition for the applied faculty in his/her performance area (piano, organ, woodwinds, strings, percussion, brass, or voice).

Passing the audition is dependent on the demonstration of performance skills appropriate for college level instruction and the potential to perform at a professional level. In addition, the number of students accepted must balance with the space available in the corresponding applied studios. Once accepted, a student must complete a placement examination in keyboard skills. This examination is normally given by members of the departmental faculty the week preceding the opening of classes for fall semester.

#### Seminars and Recitals.

All music majors enrolled for applied music courses will attend a weekly 1-hour seminar in their areas, departmental recitals, and 12 recitals of their choosing each semester.

#### Ensemble Requirement.

See the options above for additional ensemble requirements.

All Bachelor of Music students:

Enrollment in an ensemble course, chosen from the lists below, each semester of full-time enrollment (except during student teaching) is required.

Students in a music education options:

At least six semesters of large ensemble and one semester of chamber music ensemble, chosen from the lists below, are required. One semester of 114A may count as a large ensemble.
Bachelor of Music students in options other than education:
At least 2 semesters of large ensemble and one semester of chamber music ensemble, chosen from the lists below, are required.

**Large Ensembles:**

<td>1</td>
</tr>
</tbody>
</table>

**Continuation Examination**

To be approved for continuation as a music major on the junior level, and enroll in Music 319, a student must pass a continuation examination taken normally at the end of the fourth semester as a music major. Before taking this examination, the student must complete the requisite forms as well as write an essay including:

1. his/her personal goals
2. a self-assessment of his/her progress thus far
3. an assessment of what he/she expects to accomplish before graduation

The student taking the Continuation Examination performs for a Continuation Examination Committee. Requirements include the performance of three works representing different periods or styles selected by, and studied with, the applied teacher, a self-prepared piece, and sight reading. The student must display acceptable solo ability and performance techniques in at least one of the applied areas. A written evaluation will be given each student following his/her performance. This evaluation will include a candid assessment of the student’s potential to achieve his/her goals. In addition, the student may arrange to meet with members of the Continuation Examination Committee at a later date to discuss the results of his/her Continuation Examination. See Piano Proficiency below. For details and forms go to: http://www.music.iastate.edu

**Piano Proficiency Requirement**

All music majors must demonstrate proficiency in functional skills at the piano. Keyboard music majors (students whose primary instrument is piano or organ) accomplish this through courses in their curricula. All other students accomplish this by satisfactorily completing Music 228. All entering non-keyboard music majors with previous piano experience meet with the class piano instructor, usually the week before classes start in the fall semester, to determine the appropriate piano class (127, 128, 227, 228) for their initial piano enrollment. Some students are deemed to have met the piano proficiency at this time. Non-keyboard music majors with no previous piano experience should enroll in Music 127, Class Piano I. Continuous enrollment in piano classes is REQUIRED until successful completion of the piano proficiency requirement. Important: The piano proficiency must be met, either through completion of Music 228 or demonstration of proficiency, to pass the continuation examination. Failure to do so could delay a student’s graduation. All students must fulfill the piano proficiency requirement in order to pass the continuation examination and enroll in Music 319.

**Graduation Proficiency**

To be recommended for graduation, a music student should demonstrate to the music faculty mature acquaintance with performance styles, technique, and repertoire. All music majors will participate in departmental recitals to the satisfaction of the department. Candidates for the bachelor of music degree will present a graduation recital.

* According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 (or ENGL 250H). In addition the Communication Proficiency must be certified through one of the following options:

  1. Certification of writing skills, by the instructor, after completion of one of the following:
     - MUSIC 120 Introduction to Music Literature and Styles 3
     - MUSIC 383 History of Music I 3
     - MUSIC 384 History of Music II 3
     - MUSIC 472 History of American Music 3
     - MUSIC 473 Music of the Baroque and Classical Eras 3
     - MUSIC 475 Music of the Romantic Era 3
     - MUSIC 476 Music of the Twentieth Century 3

   (Passing one of these courses does not automatically satisfy the requirements for Communication Proficiency.)

  2. Satisfactory completion of an advanced writing course:
     - ENGL 302 Business Communication 3
     - ENGL 305 Creative Writing: Nonfiction 3
     - ENGL 314 Technical Communication 3

**Learning Outcomes and Assessment**

Music graduates will understand and demonstrate:
1. Knowledge of music cultural heritage and history
2. Appreciation for musical creativity, reasoning, and the aesthetic value of music
3. Knowledge of organization and structures of music
4. Analytical skills necessary for listening, performing, and teaching
5. Skills necessary to perform music from a variety of periods, styles, and genres
6. Necessary abilities to communicate ideas musically, verbally, and in writing
7. Awareness of the diversity of musical ideas throughout the world’s cultures
8. For Music Education students: success in meeting the ISU Teaching Standards as outlined by the University Teacher Education Program

Assessment measures include the continuation examination, graduating senior surveys and exit interviews, public performances, senior projects, course grades, teacher certification (for music education students), and the National Association of Schools of Music accreditation review.

### Minor in Music

Candidates for the minor in music will complete 17 credits in music including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUSIC 224</td>

### Notes

1. A placement examination in keyboard skills determines the student's placement in the Class Study in Piano courses. Students with a concentration in piano or organ do not take Class Study in Piano.

2. Students should take the major area (WW or brass) with which they are less familiar first to gain more experience in lab band. However, WW players planning to gain additional skills on a 2nd WW, might choose to take that area first. Non-WW players should take 351 before 352. 358B must be taken concurrently with each tech course (350-355).

4. These courses which appear in the same semester must be taken concurrently.

The LAS world language requirement must be met. The U.S. diversity and international perspectives requirements are automatically met with courses required for this degree option (EDUC 406 and MUSIC 383).
Many general education and education (EDUC) courses can easily be taken in different semesters than indicated as well as summer. Music courses are best kept in the order/semesters indicated (Most music courses are offered on semester each year).

<sup>c</sup> ENGL 150 requires concurrent enrollment in LIB 160.

The BM degree requires a minimum of 124.5 credits, **including a minimum of 45 credits at the 300/400 level**. The LAS World Language requirements must be met. Courses which may be used for the General Education Requirements can be found at: [http://www.las.iastate.edu/academics/generaleducation/index.shtml](http://www.las.iastate.edu/academics/generaleducation/index.shtml) All ISU students must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives (which is satisfied with MUSIC 383). A list of approved courses can be found at: [http://www.registrar.iastate.edu/courses/div-ip-guide.html](http://www.registrar.iastate.edu/courses/div-ip-guide.html) The courses taken to meet these requirements may also be used to meet other requirements.

**Flexibility in scheduling.** Many general education courses can easily be taken in different semesters than indicated. Music courses are best kept in the order/semesters indicated. (Most music courses are offered on semester each year.)

<sup>*</sup> Some advanced theory and history courses (organ major requires 2 of each) are not offered every semester. Semesters of offerings are listed in the course descriptions in the catalog at: [http://www.music.iastate.edu/info/advising](http://www.music.iastate.edu/info/advising).

<sup>c</sup> ENGL 150 requires concurrent enrollment in LIB 160.

The BM degree requires a minimum of 124.5 credits, including a minimum of 45 credits at the 300/400 level. The LAS World Language requirements must be met. Courses which may be used for the General Education Requirements can be found at: [http://www.las.iastate.edu/academics/generaleducation/index.shtml](http://www.las.iastate.edu/academics/generaleducation/index.shtml) All ISU students must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives (which is satisfied with MUSIC 383). A list of approved courses can be found at: [http://www.registrar.iastate.edu/courses/div-ip-guide.html](http://www.registrar.iastate.edu/courses/div-ip-guide.html) The courses taken to meet these requirements may also be used to meet other requirements.
A placement examination in keyboard skills determines the student’s placement in the Class Study in Piano courses. Students not required to take four semesters of class piano will take additional music elective credits.

c ENGL 150 requires concurrent enrollment in LIB 160.

A placement examination in keyboard skills determines the student’s placement in the Class Study in Piano courses. Students with a concentration in piano or organ do not take Class Study in Piano.

Lab Ensemble is required every semester offered: Fall and odd springs.

These courses which appear in the same semester must be taken concurrently.

Alternate year courses: The usual semester of offering is indicated by the calendar year (odd or even) of the semester. Consult the current catalog and the department web site for up-to-date information about semesters courses are offered. Psych 230 and EDUC 333 are offered every semester; when they are taken is determined by the schedules of the alternate year music courses.

The LAS World Language requirements must be met. The U.S. diversity and international perspectives requirements are automatically met with courses required for this degree option (EDUC 406 and MUSIC 383).

Advanced theory and history courses (music education major requires 1 history, 1 theory) are not offered every semester. Semesters of offerings are listed in the course descriptions in the catalog at: http://www.music.iastate.edu/info/advising.

Flexibility in scheduling. Many general education courses can easily be taken in different semesters than indicated. Music courses are best kept in the order/semesters indicated (Most music courses are offered on semester each year).

---

1. A placement examination in keyboard skills determines the student's placement in the Class Study in Piano courses. Students with a concentration in piano or organ do not take Class Study in Piano. Students placing out of class piano may need to take additional elective credits to earn the required 124.5 cr. for the BM degree.

2. ENGL 150 requires concurrent enrollment in LIB 160.

3. Alternate year course, taught in odd number years, spring semester.
The BM degree requires a minimum of 124.5 credits, including a minimum of 45 credits at the 300/400 level. The LAS World Language requirements must be met. Courses which may be used for the General Education Requirements can be found at: (http://www.las.iastate.edu/academics/generaleducation/index.shtml) All ISU students must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives (which is satisfied with MUSIC 383). A list of approved courses can be found at: (http://www.registrar.iastate.edu/courses/div-ip-guide.html) The courses taken to meet these requirements may also be used to meet other requirements.

Some advanced theory and history courses are not offered every semester. Semesters of offerings are listed in the course descriptions in the catalog. The BM in composition requires one advanced history course (3 cr.) and 9 credits of advanced theory from the following courses: 346, 440, 446, 490B, 590I. Advanced theory courses must include 346 or 446.

* The BM degree requires a minimum of 124.5 credits, including a minimum of 45 credits at the 300/400 level. The LAS World Language requirements must be met. Courses which may be used for the General Education Requirements can be found at: (http://www.las.iastate.edu/academics/generaleducation/index.shtml) All ISU students must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives (which is satisfied with MUSIC 383). A list of approved courses can be found at: (http://www.registrar.iastate.edu/courses/div-ip-guide.html) The courses taken to meet these requirements may also be used to meet other requirements.

Courses primarily for undergraduates:

**MUSIC 101: Fundamentals of Music**
(1-2) Cr. 2. F.S.
Prereq: Ability to read elementary musical notation
Notation, recognition, execution and analysis of scales, intervals, triads, and rhythm; key signatures; time signatures; transposition. Open to non-majors only.

**MUSIC 102: Introduction to Music Listening**
(3-0) Cr. 3. F.S.SS.
Expansion of the music listening experiences for the general student through greater awareness of differences in techniques of listening, performance media, and materials of the art. The course focuses on the elements of music: rhythm, melody, harmony, form, and style, and how these elements are used in musics of different cultures and time periods. Ability to read or perform music not required. Meets International Perspectives Requirement.

**MUSIC 105: Basic Musicianship**
(1-4) Cr. 3. F.S.
Prereq: Performing arts major status or permission of instructor.
Beginning keyboard techniques, sight-reading, and ear training. Basic materials of music: notation, scales, intervals, key signatures, time signatures, rhythm, and harmony.

**MUSIC 111: Wind Ensemble**
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Emphasis on significant extended compositions for wind and percussion instruments. Performances include formal concerts on campus and the annual tour.

**MUSIC 112: Concert Band**
(0-2) Cr. 1. Repeatable. F.S.
Prereq: Open to all students who have performed on a wind or percussion instrument in high school band or orchestra
Repertoire includes the broad spectrum of band music. Two concerts are presented each semester.

**MUSIC 113: Jazz Ensemble**
(0-2) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Designed to explore various styles and trends in contemporary jazz.

**MUSIC 114: Marching and Pep Bands**
(0-5) Cr. 1. Repeatable.
Performances at athletic events.

**MUSIC 114A: Marching and Pep Bands: Marching Band**
(0-5) Cr. 1. Repeatable. F.
Membership determined by audition and band application. Auditions held for woodwind, brass, percussion, flag, and twirler positions. Presentation of pre-game and half time shows at each home football game; additional performances are also scheduled on and off campus. Audition information is listed on the band website (www.music.iastate.edu/org/marching). Students may not be concurrently enrolled in MUSIC 114A and 114C.

**MUSIC 114B: Marching and Pep Bands: Pep Band**
(0-5) Cr. 1. Repeatable. S.
Prereq: Students selected by audition from members of MUSIC 114A.
Performances at basketball games.

**MUSIC 114C: Marching and Pep Bands: Pep Band for Wrestling and Soccer**
(0-5) Cr. 1. Repeatable. F.
Prereq: Students selected by audition.
Performances at wrestling and women’s soccer games. Students may not be concurrently enrolled in MUSIC 114A and 114C.
MUSIC 115: Symphonic Band
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Stresses high quality wind literature. Performances include formal concerts on campus.

MUSIC 118: Applied Music: Non-majors
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
Applied music for the general student.

MUSIC 118A: Applied Music: Non-majors: Voice
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118B: Applied Music: Non-majors: Piano
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118C: Applied Music: Non-majors: Organ
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118D: Applied Music: Non-majors: Strings
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118E: Applied Music: Non-majors: Carillon
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118F: Applied Music: Non-majors: Woodwinds
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118G: Applied Music: Non-majors: Brass
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118I: Applied Music: Non-majors: Percussion
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 118K: Applied Music: Non-majors: Harpsichord
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 119: Applied Music for Majors
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
Applied music for music majors.

MUSIC 119A: Applied Music for Majors: Voice
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119B: Applied Music for Majors: Piano
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119C: Applied Music for Majors: Organ
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.
MUSIC 119D: Applied Music for Majors: Strings
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119E: Applied Music for Majors: Carillon
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119F: Applied Music for Majors: Woodwinds
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119G: Applied Music for Majors: Brass
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119I: Applied Music for Majors: Percussion
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 119K: Applied Music for Majors: Harpsichord
(0.5-2) Cr. 1-3. Repeatable. F.S.SS.
Prereq: Audition, permission of instructor; restricted to music majors
(5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 120: Introduction to Music Literature and Styles
(3-0) Cr. 3. S.
Prereq: MUSIC 224; music major status or permission of instructor
Directed studies via aural analysis for music majors with emphasis on the materials of music, form and aesthetic issues. Introduction to style and literature of the major performance media in context of historical chronology. Fundamentals of score reading and performance terminology. Only one of Music 120 and 302 can count toward graduation.

MUSIC 127: Class Study in Piano I
(0-2) Cr. 1. F.S.
Prereq: Music major status or permission of instructor
Beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills.

MUSIC 128: Class Study in Piano II
(0-2) Cr. 1. F.S.
Prereq: MUSIC 127 or permission of instructor
Continuation of beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills.

MUSIC 141: Lyrica Women's Choir
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all female students by audition
Large chorus; emphasis on fundamental vocal and choral skills, wide variety of literature. Campus concerts each semester.

MUSIC 151: Oratorio Chorus
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

MUSIC 151A: Oratorio Chorus: Cantamus Women's Choir
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

MUSIC 151B: Oratorio Chorus: Statesmen Men's Choir
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

MUSIC 161: Iowa State Singers
(0-5) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Concert choir specializing in performance of advanced music literature, Renaissance through contemporary. Campus concerts, annual spring tour.

MUSIC 181: Symphony Orchestra
(0-4) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Reading, preparation, and performance of standard repertoire. Five or six concerts annually plus occasional off-campus appearances.

MUSIC 219: Applied Music: Majors
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
Applied music for music majors.
MUSIC 219A: Applied Music: Majors: Voice
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 219B: Applied Music: Majors: Piano
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 219C: Applied Music: Majors: Organ
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 219D: Applied Music: Majors: Strings
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 219E: Applied Music: Majors: Carillon
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 219F: Applied Music: Majors: Woodwinds
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 219G: Applied Music: Majors: Brass
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 219I: Applied Music: Majors: Percussion
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 219K: Applied Music: Majors: Harpsichord
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 224: Music Theory I
(4-0) Cr. 4. F.
Prereq: Music 101, permission of instructor, or passing grade on the Fundamentals placement exam.
Two-voice species counterpoint as an introduction to voice-leading principles. Application of diatonic harmony in analysis and four-part writing. Introduction to notation software and other technologies used in the study of music.

MUSIC 225: Aural Theory I
(0-2) Cr. 1. F.
Prereq: Music major status or permission of instructor; credit or enrollment in MUSIC 224
Aural discrimination of intervals, rhythms and patterns, as demonstrated by proficiency in ear training, sight singing, and related musicianship skills.

MUSIC 227: Class Study in Piano III
(0-2) Cr. 1. F.
Prereq: MUSIC 128 or permission of instructor
Intermediate keyboard technique, transposition, harmonization, improvisation, repertory, and sight-reading skills. Introduction to score reading, hymn playing, and accompanying at the piano.

MUSIC 228: Class Study in Piano IV
(0-2) Cr. 1. F.
Prereq: MUSIC 227 or permission of instructor
Continuation of intermediate keyboard technique, transposition, harmonization, improvisation, repertory, score reading, hymn playing, and accompanying at the piano.

MUSIC 234: Music Theory II
(3-0) Cr. 3. S.
Prereq: MUSIC 224; concurrent enrollment in MUSIC 235 recommended
Harmonic and melodic materials of tonal music including chromatic secondary function chords and modulation techniques. Application of these materials in analysis, part writing, and composition.

MUSIC 235: Aural Theory II
(0-3) Cr. 1. S.
Prereq: MUSIC 225; credit or enrollment in MUSIC 234
Development of sight singing, ear training, and related musicianship skills with emphasis on diatonic harmonic and melodic materials as well as rhythm.
MUSIC 246: Introduction to Creative Digital Music  
(2-0) Cr. 2. F.S.  
**Prereq:** MUSIC 101, MUSIC 105, or MUSIC 224, or permission of instructor  
Introduction to audio and MIDI software used in creating digital music. Includes fundamentals of audio waveform editing, processing, and mixing, MIDI data structures, practical projects in musical composition using a digital audio workstation.

MUSIC 248: Technology in Music Instruction  
(2-0) Cr. 2. S.  
**Prereq:** MUSIC 224 and MUSIC 225  
Introduction to computer software applications used in musical arrangements and presentations, practical introduction to audio and MIDI technologies in lab-based music instruction, basic recording/sound reinforcement and music website management. Intended for Music Education Majors.

MUSIC 265: Music in Elementary Education  
(2-0) Cr. 2. F.S.  
**Prereq:** HD FS 102 or PSYCH 230  
Experiencing and understanding the fundamentals of music through singing, playing classroom instruments, body movement, reading notation, listening, and creative activities. Developing lesson plan strategies and sequence, exploring multicultural musics, integrating music with other subjects in the elementary classroom, and evaluating aspects of musical learning.

MUSIC 266: Introduction to Music Education  
(1-2) Cr. 2. S.  
**Prereq:** Concurrent enrollment in MUSIC 280K  
Required for first-year majors in music education. Historical, philosophical, and social foundations of music education; music curricula overview including goals of the music program, and contemporary and international curriculum development; psychology of teaching music including discipline techniques. Preparation for required observations in area schools.

MUSIC 280K: Pre-Student Teaching Experience I: Music  
(Cross-listed with EDUC). Cr. 0.5. Repeatable. S.  
Pre-student teaching experience in music in school settings. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

MUSIC 290: Special Problems  
Cr. arr. Repeatable. F.S.  
**Prereq:** Permission of instructor; 12 credits in music, approval of department head  
Independent study.

MUSIC 290A: Special Problems: Education  
Cr. arr. Repeatable. F.S.  
**Prereq:** Permission of instructor; 12 credits in music, approval of department head  
Independent study in music education.

MUSIC 290B: Special Problems: Theory  
Cr. arr. Repeatable. F.S.  
**Prereq:** Permission of instructor; 12 credits in music, approval of department head  
Independent study in music theory.

MUSIC 290C: Special Problems: Composition  
Cr. arr. Repeatable. F.S.  
**Prereq:** Permission of instructor; 12 credits in music, approval of department head  
Independent study in music composition.

MUSIC 290D: Special Problems: History  
Cr. arr. Repeatable. F.S.  
**Prereq:** Permission of instructor; 12 credits in music, approval of department head  
Independent study in music history.

MUSIC 290E: Special Problems: Literature  
Cr. arr. Repeatable. F.S.  
**Prereq:** Permission of instructor; 12 credits in music, approval of department head  
Independent study in music literature.

MUSIC 290F: Special Problems: Applied Music  
Cr. arr. Repeatable. F.S.  
**Prereq:** Permission of instructor; 12 credits in music, approval of department head  
Independent study in applied music.

MUSIC 290G: Special Problems: Conducting  
Cr. arr. Repeatable. F.S.  
**Prereq:** Permission of instructor; 12 credits in music, approval of department head  
Independent study in conducting.

MUSIC 290H: Special Problems, Honors  
Cr. arr. Repeatable. F.S.  
**Prereq:** Permission of instructor; 12 credits in music, approval of department head  
Independent honors project in music.
MUSIC 290J: Special Problems: Business
Cr. arr. Repeatable. F.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent study in music business.

MUSIC 301: Opera Studio
Cr. 1-3. Repeatable. F.S.
Prereq: Permission of instructor
Study of selected opera scenes, chamber operas, and works from contemporary and classical music theater. Basic stagecraft, role interpretation, production.

MUSIC 301A: Opera Studio: Opera/Operetta
Cr. 1-3. Repeatable. F.S.
Prereq: Permission of instructor
Study of selected opera scenes and chamber operas. Basic stagecraft, role interpretation, production.

MUSIC 301B: Opera Studio: Music Theater
Cr. 1-3. Repeatable. F.S.
Prereq: Permission of instructor
Study of selected works from contemporary and classical music theater. Basic stagecraft, role interpretation, production.

MUSIC 302: Masterpieces of Music and Art in Western Culture
(3-0) Cr. 3. S.
Prereq: MUSIC 102
Exploration of several great works of classical music in light of the artistic culture in which they were composed; and trends in musical styles as well as individual composers' personalities over history through listening and discussion. Some concert attendance is required outside of class. An ability to read music is not required, but is recommended. Non-majors only. Only one of Music 120 and 302 can count toward graduation.

MUSIC 304: History of American Rock 'n' Roll
(3-0) Cr. 3. S.
Prereq: MUSIC 101, MUSIC 102, MUSIC 224, or MUSIC 225
Rock 'n' Roll from the mid 1950s through the 1990s, focusing on the development of rock styles from its roots in blues, folk, country, and pop. Expansion of listening experience through study of song forms, musical instruments of rock, and the socio-political significance of song lyrics. Examinations, research paper or in class presentation required. Ability to read or perform music not required. Meets U.S. Diversity Requirement

MUSIC 318: Applied Music: Non-majors
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
Applied music for students other than music majors.

MUSIC 318A: Applied Music: Non-majors: Voice
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318B: Applied Music: Non-majors: Piano
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318C: Applied Music: Non-majors: Organ
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318D: Applied Music: Non-majors: Strings
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318E: Applied Music: Non-majors: Carillon
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318F: Applied Music: Non-majors: Woodwinds
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318G: Applied Music: Non-majors: Brass
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.
MUSIC 318I: Applied Music: Non-majors: Percussion
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 318K: Applied Music: Non-majors: Harpsichord
(0.5-0) Cr. 1-2. Repeatable. F.S.
Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

MUSIC 319: Applied Music: Majors
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
Applied music for music majors.

MUSIC 319A: Applied Music: Majors: Voice
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319B: Applied Music: Majors: Piano
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319C: Applied Music: Majors: Organ
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319D: Applied Music: Majors: Strings
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319E: Applied Music: Majors: Carillon
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319F: Applied Music: Majors: Woodwinds
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319G: Applied Music: Majors: Brass
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 319I: Applied Music: Majors: Percussion
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 321: Advanced Ensemble
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in chamber music ensembles that demand high proficiency.

MUSIC 321A: Advanced Ensemble: Voice
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321B: Advanced Ensemble: Piano
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321C: Advanced Ensemble: Organ
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.
MUSIC 321D: Advanced Ensemble: Strings
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321F: Advanced Ensemble: Woodwinds
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321G: Advanced Ensemble: Brass
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321I: Advanced Ensemble: Percussion
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 321J: Advanced Ensemble: Mixed instruments/voice
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.

MUSIC 324: English and Italian Diction for Singing
(2-0) Cr. 2. Alt. F., offered even-numbered years.
Prereq: Credit or enrollment in MUSIC 118A or MUSIC 119A
The international phonetic alphabet and its application to correct pronunciation of English and Italian in singing.

MUSIC 325: French and German Diction for Singing
(2-0) Cr. 2. Alt. S., offered odd-numbered years.
Prereq: Credit or enrollment in MUSIC 118A or MUSIC 119A
The international phonetic alphabet and its application to correct pronunciation of French and German in singing.

MUSIC 327: Functional Piano
(0-3) Cr. 2.
Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.

(0-3) Cr. 2.
Prereq: MUSIC 228 or permission of instructor
Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.

MUSIC 327B: Functional Piano: Voice Majors
(0-3) Cr. 2. S.
Prereq: MUSIC 228 or permission of instructor
Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.

MUSIC 334: Music Theory III
(3-0) Cr. 3. F.
Prereq: MUSIC 234; concurrent enrollment in 335 recommended
Characteristics of common practice chromatic harmony and analytical techniques addressing stylistic practices of music since 1900.
Application of these materials to analysis, part writing, and composition.

MUSIC 335: Aural Theory III
(0-2) Cr. 1. F.
Prereq: MUSIC 235; credit or enrollment in MUSIC 334
Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the eighteenth and nineteenth centuries.

MUSIC 344: Music Theory IV
(3-0) Cr. 3. S.
Prereq: MUSIC 334; concurrent enrollment in MUSIC 345 recommended
Improvisation on existing materials in a variety of styles and arranging for vocal and instrumental ensembles while learning the characteristics of each instrument including voice.

MUSIC 345: Aural Theory IV
(0-2) Cr. 1. S.
Prereq: MUSIC 335; credit or enrollment in MUSIC 344
Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the nineteenth and twentieth centuries.

MUSIC 346: Computer Music Programming Design
(3-0) Cr. 3. S.
Prereq: MUSIC 246 or permission of instructor
Programming and interface design for creative musical applications. Includes computer generation of music data, advanced MIDI data processing, practical projects in musical composition and performance using a visual programming language.
MUSIC 350: Instrumental Techniques: Strings
(0-2) Cr. 1. F.
Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B or MUSIC 358C. Limited to music majors
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 351: Instrumental Techniques: Clarinet, Flute, Saxophone
(1-2) Cr. 2. S.
Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B or MUSIC 358C. Limited to music majors
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 352: Instrumental Techniques: Oboe, Bassoon
(0-2) Cr. 1. F.
Prereq: MUSIC 351 or permission of instructor. Instrumental music education majors: concurrent enrollment in MUSIC 358B or MUSIC 358C. Limited to music majors
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 353: Instrumental Techniques: Trumpet, Horn
(0-2) Cr. 1. F.
Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B or MUSIC 358C. Limited to music majors
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 354: Instrumental Techniques: Trombone, Baritone, Tuba
(0-2) Cr. 1. S.
Prereq: MUSIC 353 or permission of instructor. Instrumental music education majors: concurrent enrollment in MUSIC 358B or MUSIC 358C. Limited to music majors
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 355: Instrumental Techniques: Percussion
(0-2) Cr. 1. S.
Prereq: Instrumental music education majors: concurrent enrollment in MUSIC 358B or MUSIC 358C. Limited to music majors
Techniques and skills required to teach percussion instruments in the schools. Techniques for performing and teaching snare drum, keyboard percussion instruments, timpani, band and orchestral hand instruments, drum set, and Latin percussion. Intended for instrumental music education students.

MUSIC 358: Lab Ensemble
Cr. R. Repeatable.
Review and selection of appropriate literature for ensembles of differing levels and abilities; conducting and rehearsal experience. Intended for music education students.

MUSIC 358A: Lab Ensemble: Choral
Cr. R. Repeatable. F.Alt. S., offered odd-numbered years.
Sight singing, conducting, and accompanying experience in conjunction with 362A. Required of all vocal music education majors every semester offered.

MUSIC 358B: Lab Ensemble: Instrumental
Cr. R. Repeatable. F.S.
Performance on secondary instruments. Includes experiences with wind instruments and percussion techniques. Required of all instrumental music education majors. Offered on a satisfactory-fail basis only. Offered on a satisfactory-fail basis only.

MUSIC 358C: Lab Ensemble: Orchestral
Cr. R. Repeatable. F.
Performance on secondary instruments. Includes experiences with string techniques. Required of all instrumental music education majors. Offered on a satisfactory-fail basis only.

MUSIC 360: Voice Pedagogy
(2-0) Cr. 2. Alt. S., offered even-numbered years.
Prereq: MUSIC 319A or vocal proficiency examination
Physical, acoustical, and musical properties of the vocal instrument, including a survey of important texts and articles on singing and voice production.

MUSIC 361: Conducting I
(1-2) Cr. 2. F.
Prereq: MUSIC 234, MUSIC 235, Music major status or permission of instructor
Introduction to conducting; score reading and analysis. Conveying musical ideas through appropriate gestures. Leadership role of the conductor.
MUSIC 362: Conducting II
(1-2) Cr. 2.

MUSIC 362A: Conducting II: Choral Conducting Techniques
(1-2) Cr. 2. Alt. S., offered odd-numbered years.
Prereq: Music major status or permission of instructor; MUSIC 361;
current enrollment in MUSIC 358A and MUSIC 141, MUSIC 151, or MUSIC 161.
Advanced baton technique, score preparation and interpretation of choral repertoire.

MUSIC 362B: Conducting II: Instrumental Conducting Techniques
(1-2) Cr. 2. S.
Prereq: Music major status or permission of instructor; MUSIC 361;
current enrollment in MUSIC 358B
Advanced baton technique. Score preparation. Specific problems of large instrumental ensembles.

MUSIC 366: Methods of Music Education
(2-0) Cr. 2. F.
Prereq: Concurrent enrollment (1 cr.) in MUSIC 480K and SP ED 401; MUSIC 266 and admission into teacher education.
Music education strategies and materials including development of appropriate objectives and plans for general music classes utilizing traditional and multicultural musics, evaluating musical learning; overview of Orff Schulwerk, Kodaly, and Dalcroze approaches; music in special education; required teaching in lab settings and observations in area schools.

MUSIC 367: Choral Literature
(2-0) Cr. 2. Alt. S., offered even-numbered years.
Prereq: MUSIC 361 recommended
Overview of choral repertoire from the sixteenth century to the present, including accessible works for the young conductor.

MUSIC 368: Marching Band and Jazz Ensemble Techniques
(2-0) Cr. 2. Alt. S., offered odd-numbered years.
Prereq: Credit or enrollment in MUSIC 362B recommended
Techniques and materials for teaching marching band in the high school; philosophy, computer assisted drill design, music analysis, band set up, and other related skills. Jazz style, articulation, phrasing, materials and teaching techniques for secondary school jazz ensembles.

MUSIC 369: String Pedagogy
(0-2) Cr. 1. Alt. S., offered odd-numbered years.
Prereq: MUSIC 319D or MUSIC 350
Practical examination of current teaching methods and materials.
Intended for string instrumental music education majors.

MUSIC 374: Instrumental Methods for Vocalists
(1-0) Cr. 1. Repeatable, maximum of 15 credits. F.
Prereq: Music major status, MUSIC 280K, MUSIC 266 and admission into teacher education.
Techniques and skills required to teach instrumental music in K-12 schools. Introduction of instruments, score reading and transposition, rehearsal techniques, literature, resources and other related skills. Intended for vocal music education majors and required for Iowa teaching license.

MUSIC 375: Choral Methods for Instrumentalists
(1-0) Cr. 1. S.
Prereq: Music major status, MUSIC 280K, MUSIC 266 and admission into teacher education.
Techniques and skills required to teach vocal/choral music in K-12 schools. Vocal production and health, rehearsal techniques, repertoire, resources and other related skills. Intended for instrumental music education majors and required for Iowa teaching license.

MUSIC 376: History of Music I
(3-0) Cr. 3. F.
Prereq: MUSIC 120; music major status or permission of instructor
History of the stylistic and cultural development of music: Middle Ages through Baroque.
Meets International Perspectives Requirement.

MUSIC 377: History of Music II
(3-0) Cr. 3. S.
Prereq: MUSIC 383; music major status or permission of instructor
History of the stylistic and cultural development of music: Classical through contemporary music.
Meets International Perspectives Requirement.

MUSIC 415: Literature and Pedagogy in Applied Music
Cr. 1-4. Repeatable. F.S.
Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 415A: Literature and Pedagogy in Applied Music: Voice
Cr. 1-4. Repeatable. F.S.
Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 415B: Literature and Pedagogy in Applied Music: Piano
Cr. 1-4. Repeatable. F.S.
Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.
MUSIC 415C: Literature and Pedagogy in Applied Music: Organ
Cr. 1-4. Repeatable. F.S.
Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 415D: Literature and Pedagogy in Applied Music: Strings
Cr. 1-4. Repeatable. F.S.
Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 415E: Literature and Pedagogy in Applied Music: Carillon
Cr. 1-4. Repeatable. F.S.
Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 415F: Literature and Pedagogy in Applied Music: Woodwinds
Cr. 1-4. Repeatable. F.S.
Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 415G: Literature and Pedagogy in Applied Music: Brass
Cr. 1-4. Repeatable. F.S.
Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 415I: Literature and Pedagogy in Applied Music: Percussion
Cr. 1-4. Repeatable. F.S.
Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 415J: Literature and Pedagogy in Applied Music: Jazz Pedagogy and Performance
Cr. 1-4. Repeatable. F.S.
Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.

MUSIC 417: Student Teaching
Cr. 8-12. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 417R: Student Teaching: Music-Elementary
(Dual-listed with MUSIC 517R). (Cross-listed with EDUC). Cr. arr.
Repeatable. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 417S: Student Teaching: Music-Secondary
(Dual-listed with MUSIC 517S). (Cross-listed with EDUC). Cr. arr.
Repeatable. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 419: Applied Music: Majors
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
Applied music for music majors.

MUSIC 419A: Applied Music: Voice
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419B: Applied Music: Piano
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419C: Applied Music: Organ
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419D: Applied Music: Strings
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419E: Applied Music: Carillon
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419F: Applied Music: Woodwinds
(1-2) Cr. 1-3. Repeatable. F.S.
Prereq: Audition, permission of instructor; restricted to music majors
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.
MUSIC 419G: Applied Music: Brass  
(1-2) Cr. 1-3. Repeatable. F.S.  
Prereq: Audition, permission of instructor; restricted to music majors  
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419I: Applied Music: Percussion  
(1-2) Cr. 1-3. Repeatable. F.S.  
Prereq: Audition, permission of instructor; restricted to music majors  
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 419K: Applied Music: Harpsichord  
(1-2) Cr. 1-3. Repeatable. F.S.  
Prereq: Audition, permission of instructor; restricted to music majors  
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

MUSIC 420: Junior/Senior Recital  
Cr. R. Repeatable. F.S.S.  
Prereq: Advanced performing ability, permission of instructor, concurrent registration in Music 319 or 419.  
Performance of advanced repertory in a public concert. Preparation of program notes. Offered on a satisfactory-fail basis only.

MUSIC 434: Applied Theory: Improvising and Arranging  
(3-0) Cr. 3. S.  
Prereq: MUSIC 344 and MUSIC 345  
Practical uses for music theory. Emphasis on arranging for vocal and instrumental ensembles and creating improvisations on existing materials in a variety of styles.

MUSIC 440: Seminar in Music Theory  
(3-0) Cr. 3. Repeatable. Alt. F., offered even-numbered years.  
Prereq: MUSIC 344, MUSIC 345  
Various topics in music theory including analysis, counterpoint, arranging, pedagogy, and psychology of music. Content will vary. Contact the Department of Music for the current year offering.

MUSIC 446: Sound Synthesis Design for Electronic Music  
(3-0) Cr. 3. F.  
Prereq: MUSIC 246 or permission of instructor  
Digital sound synthesis structures for creative musical applications. Includes modular sound synthesis techniques, software synthesizer design, and practical projects in electronic music composition.

MUSIC 464: Instrumental Administration, Materials, and Methods  
(2-0) Cr. 2. Alt. S., offered even-numbered years.  
Prereq: Credit or enrollment in MUSIC 362B recommended  
Instructional materials and methods appropriate for teaching instrumental music in elementary, middle school, and high school music programs. Required observations in area schools. Intended for instrumental music education students.

MUSIC 465: Choral Materials and Methods  
(2-0) Cr. 2. F.  
Prereq: Concurrent enrollment in MUSIC 358A and MUSIC 141, MUSIC 151, or MUSIC 161  
Instructional materials and methods appropriate for teaching choral music in the secondary school. Emphasis on pedagogy and rehearsal techniques. Required observations in area schools. Intended for vocal music education students.

MUSIC 466: Program Development and Evaluation in Music Education  
(2-1) Cr. 2. F.  
Prereq: Continuation Examination passed; MUSIC 362, MUSIC 366, concurrent enrollment (1 cr.) in MUSIC 480K  
Developing a rationale for music education; music program development; evaluation of music curricula, programs and facilities; professional growth of the teacher; preparation for student teaching and the job market. Required observations in area schools.

MUSIC 472: History of American Music  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: Ability to read music; 9 credits from music, American literature, American history, art history  
History and development of the sacred and secular music in North America from approximately 1600 to the present, exploring the diverse cultural backgrounds that have contributed to the variety of contemporary musical styles.  
Meets U.S. Diversity Requirement

MUSIC 473: Music of the Baroque and Classical Eras  
(3-0) Cr. 3. Alt. F., offered irregularly.  
Prereq: MUSIC 383, MUSIC 384  
Detailed topic-based study of major composers and compositions from 1600 to the present with a strong research component.

MUSIC 475: Music of the Romantic Era  
(3-0) Cr. 3.  
Prereq: MUSIC 383, MUSIC 384  
Offered F. 2012. Detailed survey of instrumental, vocal, choral, and keyboard music from 1825 to 1910.
MUSIC 476: Music of the Twentieth Century
(3-0) Cr. 3.
Prereq: MUSIC 383, MUSIC 384
Offered S 2013. Detailed survey of instrumental, vocal, choral, and keyboard music from 1900 to the present.

MUSIC 480: Pre-Student Teaching Experience III
(Cross-listed with EDUC). Cr. 0.5-2. Repeatable. F.S.
Prereq: Admission to Teacher Education
Observation and participation in a variety of school settings after admission to the teacher education program. Permission of area coordinator required prior to enrollment. (S/F grading may be used in some offerings of some sections.).

MUSIC 480K: Pre-Student Teaching Experience III: Music
(Cross-listed with EDUC). Cr. 1. Repeatable. F.S.
Prereq: Admission to teacher education
Participation in a K-12 school setting. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 2. Offered on a satisfactory-fail basis only.

MUSIC 490: Independent Study
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490A: Independent Study: Education
(Cross-listed with EDUC). Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head
Independent Study in Music.

MUSIC 490B: Independent Study: Theory
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490C: Independent Study: Composition
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490D: Independent Study: History
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490E: Independent Study: Literature
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490F: Independent Study: Applied Music
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490G: Independent Study: Conducting
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head

MUSIC 490H: Independent Study: Honors
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor; 12 credits in music, approval of department head

Courses primarily for graduate students, open to qualified undergraduates:

MUSIC 517R: Student Teaching: Music-Elementary
(Dual-listed with MUSIC 417R). (Cross-listed with EDUC). Cr. arr. Repeatable. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 517S: Student Teaching: Music-Secondary
(Dual-listed with MUSIC 417S). (Cross-listed with EDUC). Cr. arr. Repeatable. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 590: Special Topics
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor, approval of department head

MUSIC 590A: Special Topics: Education
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor, approval of department head

MUSIC 590B: Special Topics: Theory
Cr. arr. Repeatable. F.S.S.S.
Prereq: Permission of instructor, approval of department head
MUSIC 590C: Special Topics: Composition  
Cr. arr. Repeatable. F.S.SS.  
Prereq: Permission of instructor, approval of department head

MUSIC 590D: Special Topics: History  
Cr. arr. Repeatable. F.S.SS.  
Prereq: Permission of instructor, approval of department head

MUSIC 590E: Special Topics: Literature  
Cr. arr. Repeatable. F.S.SS.  
Prereq: Permission of instructor, approval of department head

MUSIC 590F: Special Topics: Applied Music  
Cr. arr. Repeatable. F.S.SS.  
Prereq: Permission of instructor, approval of department head

MUSIC 590G: Special Topics: Conducting  
Cr. arr. Repeatable. F.S.SS.  
Prereq: Permission of instructor, approval of department head

MUSIC 590I: Special Topics: Electronic Music  
Cr. arr. Repeatable. F.S.SS.  
Prereq: Permission of instructor, approval of department head

The major in performing arts offers the undergraduate student a cross-disciplinary core including 26 credits in three categories: Theatre, Music and Dance. Students also select a 21-24 credit emphasis in one or more of the following areas of focus:

- Acting/Directing
- Dance
- Musical Theatre
- Theatre Studies
- Theatrical Design and Technology

Additional professional development occurs within two required professional internships in which students can practice the skills and passions developed throughout their individualized plans of study. Preparation for these internships include various impactful experiences in theatre and the performing arts here at Iowa State. This work is vital for students to gain a practical understanding of the rigors of the field.

ISU Theatre and Performing Arts focuses solely on the undergraduate student artist, offering students many opportunities to participate in production experiences throughout the academic year. Students implement the theories and principles explored in the classroom with experiential learning though public performances. These productions vary in scope, taking place in the 435-seat proscenium space at Fisher Theatre as well as in other intimate and “found” venues both on and off campus. Performing arts majors must maintain a 2.0 GPA to participate in production activities. Scholarships and employment opportunities are available to both incoming and current students on a yearly basis. All areas of ISU Theatre and Performing Arts, including classes and productions, are open to all students regardless of major. Visit here (https://www.music.iastate.edu/how-get-involved-theatre-and-performing-arts) to learn about scholarships and all of the ways to get involved with Theatre and the Performing Arts at ISU.

In addition to building a solid foundation in theatre, Performing Arts graduates enter the world as empathetic citizen artists prepared to engage in civic life and meet the challenges of the work force or graduate school with strong skills in leadership, collaboration, and critical thinking.

Bachelor of Arts - Performing Arts Major (Perf)

All performing arts majors must complete both the performing arts core and at least one of the emphases listed below. A Minimum GPA of 2.00 in both the major core and the chosen emphasis is required to graduate.

The Core for the Performing Arts Major (26 credits)

Please see the Department advisers for more information about suggested Four Year Plans for the Emphases in Dance and Theatre Studies. Students in all ISU majors must complete a three-credit course in U.S. Diversity and a three-credit course in International Perspectives. Consult the catalogue for a list of approved courses. Discuss with your adviser how these two courses can be applied to your graduation plan.

Performing Arts Minor

The minor in performing arts consists of 15 credits of either Theatre or Performing Arts classes, six credits of which must be 300 level or higher. The following class are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PERF 105</td>
<td>Issues in the Performing Arts (3 semesters)</td>
<td>R</td>
</tr>
<tr>
<td>THTRE 255</td>
<td>Introduction to Theatrical Production</td>
<td>4</td>
</tr>
<tr>
<td>THTRE 263</td>
<td>Script Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

Courses primarily for undergraduates:

**PERF 105: Issues in the Performing Arts**
(1-0) Cr. R. F.S.
Cross-disciplinary analysis and discussion of topics in the performing arts. Six semesters required of performing arts majors.

**PERF 310: Performing Arts Internship**
Cr. R. Repeatable. F.S.S.S.
Required of performing arts majors. A job or internship with a professional or semi-professional performing arts organization. Offered on a satisfactory-fail basis only.

**PERF 401: Performing Arts Seminar**
(2-0) Cr. 2. S.
Intensive collaborative study and practice of topics in music, dance and theatre. Required of performing arts majors.

Courses primarily for undergraduates:

**THTRE 106: Introduction to the Performing Arts**
(3-0) Cr. 3. F.S.S.S.
An audience oriented, broad-based, team-taught survey of the performing arts which emphasizes theatre and includes segments on television, radio, film, dance, and music.

**THTRE 110: Theatre and Society**
(3-0) Cr. 3. F.S.
An introduction to Theatre focusing on its relationship with society throughout history.

**THTRE 151: The Actor's Voice**
(3-0) Cr. 3. F.
Study and practice of fundamentals of vocal production: breathing, quality, articulation, projection, and expressiveness for the performing artist.

**THTRE 224: Concert and Theatre Dance**
(Cross-listed with DANCE). (0-3) Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S.
*Prereq: By audition only*
Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Offered on a satisfactory-fail basis only.

**THTRE 250: Theatre Practicum**
Cr. 1-2. Repeatable, maximum of 6 credits. F.S.
*Prereq: Permission of instructor*
Practice in various aspects of technical theatre production. Offered on a satisfactory-fail basis only.

**THTRE 251: Acting I**
(3-0) Cr. 3. F.S.
Theory and practice in fundamentals of acting.

**THTRE 255: Introduction to Theatrical Production**
(3-3) Cr. 4. F.S.
Standard structure and procedures, historical overview of performing arts production including the design and creation of scenery, costumes and lighting.

**THTRE 263: Script Analysis**
(3-0) Cr. 3. F.S.
Theory, analysis, and interpretation of play scripts for production.

**THTRE 290: Special Projects**
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
*Prereq: 3 credits in theatre; permission of instructor; approval of written proposal*

**THTRE 316: Creative Writing: Playwriting**
(Cross-listed with ENGL). (3-0) Cr. 3. S.
*Prereq: ENGL 250, not open to freshmen*
Progresses from production of scenes to fully developed one-act plays. Emphasis on action, staging, writing, analytical reading, workshop criticism, and individual conferences.

**THTRE 351: Acting II**
(3-0) Cr. 3. S.
*Prereq: THTRE 251, DANCE 120 recommended*
Theory and practice of techniques of acting with emphasis on character and scene analysis.
THTRE 354: Musical Theatre I
(2-2) Cr. 3.
Prereq: THTRE 251 or MUSIC 232 or 3 credits in Dance
Theory, history and practice of musical theatre techniques. Designed to develop the musical theatre performance skills of singers, dancers, and actors.

THTRE 355: Musical Theatre II
(2-2) Cr. 3.
Prereq: THTRE 354
Theory, history and practice of musical theatre techniques. Designed to develop the musical theatre performance skills of singers, dancers, and actors.

THTRE 357: Stage Make-up
(1-2) Cr. 2. F.
Theory and practice of make-up and hair-styling techniques for the performing arts: Theatre, Opera, Dance, Television and Film. Lab required.

THTRE 358: Oral Interpretation
(3-0) Cr. 3. F.
Principles of oral interpretation: practice in analysis, in reading aloud of literary selections, and in reader's theatre.

THTRE 360: Stagecraft
(3-2) Cr. 4. S.
Prereq: THTRE 255
Tools, materials, and techniques of planning, constructing and painting of performing arts scenography. Basic principles of lighting technology. Technical drawing for performing arts production.

THTRE 365: Theatrical Design I
(2-2) Cr. 3. F.
Prereq: THTRE 255
An exploration of the elements, principles and art of theatrical design.

THTRE 366: Theatrical Design II
(2-2) Cr. 3. S.
Prereq: THTRE 365
Intensive application of the principles introduced in 365. In-depth study and practice of the graphic skills of rendering and drafting.

THTRE 393A: Studies in Theatre Design and Production Workshop: Costume Design
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: THTRE 365
Special topics related to costume design.

THTRE 393B: Studies in Theatre Design and Production Workshop: Scenic Design
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: THTRE 365
Special topics related to scenic design.

THTRE 393C: Studies in Theatre Design and Production Workshop: Lighting Design
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: THTRE 365
Special topics in lighting design.

THTRE 393D: Studies in Theatre Design and Production Workshop: Sound Design
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: THTRE 365
Special topics in sound design.

THTRE 393E: Studies in Theatre Design and Production Workshop: Stagecraft
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: THTRE 365
Special topics in stagecraft.

THTRE 393F: Studies in Theatre Design and Production Workshop: Costume Draping and Patterning
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: THTRE 365
Special topics in costume draping and patterning.

THTRE 393G: Studies in Theatre Design and Production Workshop: Advanced Makeup
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: THTRE 365
Special topics related to advanced makeup.

THTRE 393I: Studies in Theatre Design and Production Workshop: Stage Management
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: THTRE 365
Special topics related to stage management.
THTRE 393J: Studies in Theatre Design and Production Workshop: Technical Direction
Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: THTRE 365
Special topics related to technical direction.

Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: THTRE 365
Special topics related to Arts Management.

THTRE 451: Acting III
(3-0) Cr. 3. F.
Prereq: THTRE 351 and permission of instructor
Analysis and practice of period scenes.

THTRE 455: Directing I
(3-0) Cr. 3. F.
Prereq: THTRE 255; THTRE 263; THTRE 251 recommended
Theory, techniques, and practice of directing.

THTRE 456: Directing II
(2-2) Cr. 3. S.
Prereq: THTRE 455
Practical and theoretical experience in directing the stage play.

THTRE 461: Theatrical Design Studio
(3-2) Cr. 4. Repeatable, maximum of 12 credits. F.S.
Prereq: Permission of instructor
Focuses on the art and craft of specific areas of theatrical design. Each semester the student will focus on one or two of the following: scenic, costume, or lighting design.

THTRE 465: History of Theatre I
(3-0) Cr. 3. F.
Prereq: HIST 201 or equivalent
Theatre history from ancient times to 1800.

THTRE 466: History of Theatre II
(3-0) Cr. 3. S.
Prereq: THTRE 465
Theatre history from 1800 to present.

THTRE 469: Advanced Theatre Practicum
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.
Prereq: 9 credits in theatre courses; junior classification
Practicum in production with ISU Theatre, with opportunities for specialization within various areas. Required: Approval of written proposal.

THTRE 490: Independent Study
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS.
Prereq: 9 credits in theatre, approved written proposal, junior classification
Only one independent study enrollment within the department is permitted per semester. No more than 9 credits in Thtre 490 may be counted toward graduation.

THTRE 499: Theatre Internship
Cr. 1-8. Repeatable, maximum of 8 credits. F.S.SS.
Prereq: 18 credits in THTRE, other courses deemed appropriate by faculty adviser; 2nd semester junior or senior standing; minimum GPA of 2.5 and minimum GPA of 3.0 in THTRE courses
Supervised application of theatre in professional settings.

Courses primarily for graduate students, open to qualified undergraduates:

THTRE 504: Seminar
Cr. 1-3. Repeatable. F.S.SS.
Prereq: 9 credits in theatre
Topics may include the following:

THTRE 504A: Seminar: Musical Theatre
Cr. 1-3. Repeatable. F.S.SS.
Prereq: 9 credits in theatre
Topics may include the following:

THTRE 504B: Seminar: Acting Techniques
Cr. 1-3. Repeatable. F.S.SS.
Prereq: 9 credits in theatre
Topics may include the following:

THTRE 504C: Seminar: Acting Styles
Cr. 1-3. Repeatable. F.S.SS.
Prereq: 9 credits in theatre
Topics may include the following:

THTRE 504D: Seminar: Design and Technical Theatre
Cr. 1-3. Repeatable. F.S.SS.
Prereq: 9 credits in theatre
Topics may include the following:

THTRE 504E: Seminar: Arts Management
Cr. 1-3. Repeatable. F.S.SS.
Prereq: 9 credits in theatre
Topics may include the following:

THTRE 590: Special Topics
Cr. 1-4. Repeatable, maximum of 12 credits.
Prereq: Approved written proposal

Philosophy
Philosophy tries to make sense of human experience and reality through critical reflection and argument. The questions it treats engage and provoke all of us, and they occupy an important place in our intellectual tradition: Are there objective standards for deciding what is right and wrong, or is morality merely a subjective matter? Is capitalism morally acceptable? Do I have a will, and is it free? How do my words and thoughts come to be about the world? Does God exist? Can machines think? How are mind and body related? Students in philosophy classes will be exposed to arguments on both sides of such questions, and they will be encouraged to develop and rationally defend their own positions.

Philosophy is not an isolated discipline. It enjoys mutually beneficial exchanges with many fields of study within the humanities and sciences. Philosophers develop tools that allow them to examine critically the assumptions and implications of the social and natural sciences, religion, and law.

The study of philosophy provides several benefits. It emphasizes rigorous understanding of problems, together with careful analysis of the strengths and weaknesses of the available solutions. It encourages clarity in the presentation of one's own ideas, as well as sensitivity in the consideration of the ideas of others. The study of philosophy therefore encourages one to develop skills and habits that are useful not only in philosophy, but in other areas as well. Philosophy students historically do well, for example, in law and medical schools.

However, one should not think that philosophy is only valuable in academic settings. Philosophical questions arise in many areas of family, business, and civic life. Philosophers strive to face these questions with the kind of intellectual honesty that leads to respect for the views of others, and continual reassessment of their own. In this way, the study of philosophy fosters values and attitudes that are helpful for responding to a lifetime of intellectual challenges.

The degree program in philosophy requires a minimum of 33 credits, plus the zero credit PHIL 492 course. The following courses compose the core program of the major from which 15 credits shall be chosen. Additionally, two courses at the 400 level or above (other than PHIL 490 and PHIL 492) are required.

### Ethical theory: One course required.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check http://www.registrar.iastate.edu/courses/div-ip-guide.html for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. Three of the required 45 300+ level credits must be earned in a general education group outside the group of the major. You must also complete the LAS foreign-language requirement.

According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

Minor in Philosophy
The department offers a minor in philosophy which may be earned by completing a total of 15 credits in philosophy. At least 9 credits must be in courses numbered 300 or above (only 3 credits of which may be in PHIL 490).

Philosophy - Graduate Study
The department offers work for a graduate minor in philosophy. For those taking the M.A. or M.S., the minor requirement is two courses above 300 (but not PHIL 490), each taken in conjunction with PHIL 590. For those taking the Ph.D., the requirement is four courses above 300, at least one of which is above 400 (but not PHIL 490), each taken in conjunction with PHIL 590. Interested students should ask the chair to assign a minor adviser.

The department participates in the interdepartmental program in general graduate studies.

Courses primarily for undergraduates:

PHIL 201: Introduction to Philosophy
(3-0) Cr. 3. F.S.SS.
It has been rumored that the unexamined life is not worth living. Philosophy is an attempt to begin examining life by considering such questions as: What makes us human? What is the world ultimately like? How should we relate to other people? Is there a god? How can we know anything about these questions? Understanding questions of this kind and proposed answers to them is what this course is all about.

PHIL 206: Introduction to Logic and Scientific Reasoning
(3-0) Cr. 3. F.S.SS.
Basic principles of critical reasoning and argument evaluation. A consideration of basic forms of argumentation in science and everyday life. Application to contemporary issues and controversies.

PHIL 207: Introduction to Symbolic Logic
(Cross-listed with LING). (3-0) Cr. 3. S.
Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Linguistics majors should take LING/PHIL 207 as early as possible.

PHIL 230: Moral Theory and Practice
(3-0) Cr. 3. F.S.SS.
Investigation of moral issues in the context of major ethical theories of value and obligation; e.g., punishment, abortion, economic justice, job discrimination, world hunger, and sexual morality. Emphasis on critical reasoning and argument analysis.

PHIL 235: Ethical Issues in A Diverse Society
(3-0) Cr. 3. S.
This course will examine a range of arguments on diversity issues. Topics will include: the social status of women, the moral status of sexuality and homosexuality, the nature and role of racism in contemporary society, the relationship between biology, gender roles and social status, and various proposals for change from a variety of political perspectives.

PHIL 310: Ancient Philosophy
(Cross-listed with CL ST). (3-0) Cr. 3. F.
Prereq: PHIL 201
Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth.

PHIL 314: 17th Century Philosophy
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: PHIL 201
Readings from philosophers such as Hobbes, Descartes, Spinoza, Leibniz, and Locke. Changing conceptions of knowledge, self, and deities in response to Galileo’s new science and post-reformation challenge to ecclesiastical authority.

PHIL 315: 18th Century Philosophy
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: PHIL 201
Readings from philosophers such as Berkeley, Hume, and Kant.
Development of Enlightenment thought. Issues include idealism, causation, freedom, and knowledge regarding science, ethics, and deities.
PHIL 316: 19th Century Continental Philosophy  
(3-0) Cr. 3. F.  
Prereq: PHIL 201  
The thought of Hegel, Marx, Nietzsche, and their contemporaries. Various perspectives on the philosophy of history, the nature of reason and subjectivity, the contrast between dialectical and nondialectical philosophy, and the relationship between philosophy and society.

PHIL 317: 20th and 21st Century Continental Philosophy  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: PHIL 201  
Major movements of 20th and 21st century thought, such as Phenomenology, Critical Theory, Post-structuralism, Postmodernism, and Feminism. Issues include the assumptions and limits of Western metaphysics, the nature of reason, the relationship between language and power.

PHIL 318: 20th and 21st Century Anglo-American Philosophy  
(3-0) Cr. 3. S.  
Prereq: 6 credits in philosophy, including PHIL 201.  
Major movements in recent and contemporary philosophy such as realism, logical positivism, ordinary language philosophy, and naturalism. Russell, Wittgenstein, Quine and other leading figures. Topics include knowledge of the material world, mind, language, values, and philosophical method.

PHIL 320: Existentialism  
(3-0) Cr. 3. F.  
Prereq: PHIL 201  
History, development and forms of existential thought. Consciousness, free will, authenticity and bad faith. Readings of major figures in existentialism, such as Kierkegaard, Nietzsche, Dostoevsky, Heidegger, Sartre, and de Beauvoir.

PHIL 330: Ethical Theory  
(3-0) Cr. 3. F.  
Prereq: PHIL 201 or PHIL 230  
Study of major theories of morality and the good life. Includes such topics as moral psychology, practical reasoning, and virtue theory.

PHIL 331: Moral Problems in Medicine  
(3-0) Cr. 3. S.  
Prereq: PHIL 230 or junior classification  
In-depth study of some of the central moral problems arising in medicine, e.g., abortion, euthanasia, patients' rights, health care professionals' duties and responsibilities, allocation of medical resources. Major moral theories will be examined and applied.

PHIL 332: Philosophy of Law  
(Cross-listed with CJ ST). (3-0) Cr. 3. F.S.  
Prereq: PHIL 201 or PHIL 230  
Extent of our obligation to obey the law; what constitutes just punishment; how much of the immoral should be made illegal? Relation of these questions to major theories of law and the state. Discussion of such concepts as coercion, equality, and responsibility.

PHIL 334: Environmental Ethics  
(Cross-listed with ENV S). (3-0) Cr. 3. F.  
Prereq: 3 credits in philosophy or junior classification  
Thorough study of some of the central moral issues arising in connection with human impact on the environment, e.g., human overpopulation, species extinction, forest and wilderness management, pollution. Several world views of the proper relationship between human beings and nature will be explored.

PHIL 335: Social and Political Philosophy  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: PHIL 201 or PHIL 230  
Foundations of social and political life. The basis of political organization, the nature of social and political institutions, rights and authority, justice. Original texts.

PHIL 336: Bioethics and Biotechnology  
(3-0) Cr. 3.  
Prereq: PHIL 201 or PHIL 230 or PHIL 235  
In-depth study of some central moral issues in the life sciences, e.g., genetic screening and testing, genetically engineered plants and animals, risk analysis, biotechnology patents, research ethics, biodiversity, the impact of biotechnology on society and the environment. Major moral theories will be discussed and applied. (Phil 336 contains almost no similarities to Phil 331.)

PHIL 338: Feminist Philosophy  
(Cross-listed with WGS). (3-0) Cr. 3. F.  
Prereq: 3 credits in philosophy or women's studies recommended  
A critical, theoretical examination of the oppression of women, especially as it relates to issues of race, class, and sexual orientation. How concepts such as sex and gender, self and other, nature and nurture, complicate our understanding of what it means to be a woman. Historical and contemporary feminist philosophers addressing topics such as violence, sexuality, pornography, political power, family structure and women's paid and unpaid labor. Meets U.S. Diversity Requirement
PHIL 339: Liberty and Law in America  
(Cross-listed with CJ ST, POL S). (3-0) Cr. 3. Alt. S., offered irregularly.  
Prereq: Sophomore status  
Competing conceptions of liberty in American political thought. Debates about how liberty should be protected by the law, in fields such as health care, drugs, property, speech, religion, and sex.

PHIL 340: Aesthetics  
(3-0) Cr. 3. F.  
Prereq: PHIL 201 or PHIL 230  
Is liking all there is to appreciating works of art or natural beauty? We will examine our appreciative experiences, talk about such experiences (e.g., art criticism), and what makes them valuable. Do the different arts have common values? How are their differences important?

PHIL 343: Philosophy of Technology  
(3-0) Cr. 3. F.S.  
Prereq: 6 credits of social science or T SC 341 and 3 credits of social science  
Moral and other philosophical problems related to developments in technology. Topics may include conditions under which technological innovations contribute to human emancipation, relationship of technology and democracy, utility and limits of technical rationality, and problems of ensuring that benefits of technological advance are communally shared. Topics discussed with reference to such issues as contemporary developments in microelectronics, technology transfer to the Third World, etc.

PHIL 350: Philosophy of Religion  
(Cross-listed with RELIG). (3-0) Cr. 3. F.  
Prereq: 6 credits in philosophy  
The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God’s existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings.

PHIL 353: Buddhism  
(Cross-listed with RELIG). (3-0) Cr. 3. S.  
Prereq: PHIL 201 or Phil 230.  
Central Buddhist positions and arguments on topics such as personal and social ethics, moral psychology, metaphysics, and the relationship between Buddhist thought and the sciences. Differences between Buddhist and Western approaches to philosophy. Meets International Perspectives Requirement.

PHIL 364: Metaphysics: God, Minds, and Matter  
(3-0) Cr. 3. S.  
Prereq: 6 credits in philosophy, including PHIL 201.  
A survey of classical and contemporary views on some basic metaphysical issues. Issues discussed include: Does God exist? Do you have a mind and, if so, how does it relate to your body? What is the nature of cause and effect? Do objects have any essential properties? How can we account for objects having in common?

PHIL 366: Truth, Belief and Reason  
(3-0) Cr. 3. F.  
Prereq: 6 credits in philosophy including PHIL 201, or instructor permission.  
This course focuses on significant topics in theory of knowledge, including the value of true beliefs, the role of sense experience in supporting our theoretical views, and the place of reason in human nature. Historical and contemporary views will be considered.

PHIL 380: Philosophy of Science  
(3-0) Cr. 3. F.  
Prereq: PHIL 201 or 6 credits in a science  
Introduction to the philosophy of science. A variety of basic problems common to the natural and social sciences: the nature of explanation, the structure of theories, the unity of science, and the distinction between science and nonscience.

PHIL 382: History and Philosophy of the Scientific Revolution.  
(Cross-listed with HIST). (3-0) Cr. 3. S.  
The emergence of empirical science as the authoritative methodology for production of knowledge about the natural world in the period between Copernicus and Kant. Scientific progress achieved during the period, including the work of Galileo, Descartes, and Newton. The re-shaping of epistemology in the Western intellectual tradition. Implications for philosophy and historiography.

PHIL 398: Cooperative Education  
Cr. R. F.S.S.  
Prereq: Permission of the department cooperative education coordinator; junior classification  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

PHIL 430: Value Theory  
(3-0) Cr. 3. Repeatable, maximum of 6 credits. S.  
Prereq: PHIL 230  
Theoretical and normative issues in ethics, aesthetics, religious thought, or political philosophy. Topics vary each time offered.
PHIL 450: Agency and Free Will
(3-0) Cr. 3. Repeatable, maximum of 1 times. F.
Prereq: 3 credits in philosophy; PHIL 207 strongly encouraged
Personal identity, agency, free will, moral responsibility, causation, future contingents, and time will be discussed. What makes a person the same person over time? Do humans have free will? Are we not morally responsible if our actions are inevitable consequences of the past and the laws of nature? What distinguishes causes from non-causes? Are there facts about the future?

PHIL 465: Brains, Minds, and Computers
(3-0) Cr. 3. F.
Prereq: 6 credits in philosophy
Examination of concepts such as computability, intelligence, programming, and free will; and of arguments about whether any human capacity is forever beyond realization in a machine.

PHIL 466: Topics in Epistemology
(3-0) Cr. 3. Repeatable, maximum of 6 credits. S.
Prereq: 6 credits in philosophy
Topics in epistemology. Possible topics include skepticism about the external world, the extent of a priori knowledge, rival accounts of moral knowledge, feminist perspectives on the theory of knowledge, and the value of true belief. Topics vary each time offered.

PHIL 485: Philosophy of Physics
(3-0) Cr. 3. S.
Prereq: 3 credits in Philosophy or 3 credits in Physics
S. Conceptual and philosophical issues relating to the interpretation of theories in classical and modern physics. May include one or more of the following topics: the relationship between mathematics and the physical world; Newtonian physics (determinism and predictability); thermodynamics and statistical physics (the nature of probability; entropy and the direction of time); relativistic physics (indeterminism; realism and nonlocality; consciousness and the role of the observer).

PHIL 492: Graduating Senior Survey
Cr. R. F.S.
Prereq: Graduating senior
Final presentation for graduation and the future. Outcomes assessment activities. Offered on a satisfactory-fail basis only.

PHIL 535: Contemporary Political Philosophy
(Cross-listed with POL S). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: 6 credits of philosophy or political science
Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as liberalism, libertarianism, communitarianism, socialism, feminism. Normative assessments of socio-political institutions.

PHIL 590: Special Topics in Philosophy
Cr. 2-4. Repeatable.
Prereq: Permission of instructor, 9 credits in philosophy
PHIL 590A: Special Topics in Philosophy: History of Philosophy
Cr. 2-4. Repeatable.
Prereq: Permission of instructor, 9 credits in philosophy
PHIL 590B: Special Topics in Philosophy: Epistemology and Metaphysics
Cr. 2-4. Repeatable.
Prereq: Permission of instructor, 9 credits in philosophy
PHIL 590C: Special Topics in Philosophy: Value Theory
Cr. 2-4. Repeatable.
Prereq: Permission of instructor, 9 credits in philosophy
PHIL 590D: Special Topics in Philosophy: Logic and Philosophy of Science
Cr. 2-4. Repeatable.
Prereq: Permission of instructor, 9 credits in philosophy
PHIL 593: Summer Bioethics Workshop for Teachers
(2-0) Cr. 2. SS.
Topics include moral theory, pedagogical issues in teaching bioethics, and substantive current issues in bioethics.

Physics and Astronomy

Physics and astronomy are basic natural sciences which attempt to describe and provide an understanding of both our world and our universe. Physics serves as the underpinning of many different disciplines including the other natural sciences and technological areas. Graduates are proficient in the methods of rigorous scientific analysis, relevant mathematical techniques, and modern computational and laboratory methods. They have a broad knowledge of physics, including
mechanics, electricity and magnetism, thermodynamics, and modern physics. They are able to communicate clearly and effectively at general and technical levels. They are prepared to pursue a wide range of careers as a professional physicist, astronomer, or science educator. They are also prepared to pursue advanced studies and careers in areas as diverse as engineering, medicine, law, and business administration. Many opportunities exist for students who terminate their studies with a bachelor's degree, especially when combined with technology studies in other areas. Students who meet the necessary scholastic standards often continue their studies in a graduate college, exploring and contributing to new developments in the field.

The department normally expects each student majoring in physics to complete at least the following courses:

<table>

</tbody>
</table>

*PHYS 221 and PHYS 222 may be substituted for PHYS 241 and PHYS 242.

All students are required to earn at least 6 credits in laboratory work in physics in addition to the laboratory components of PHYS 241 and PHYS 242. These 6 credits must be in courses numbered 304 or higher or in approved substitutions. All students must earn at least 35 credits in physics and astronomy courses numbered 304 or higher. The basic list of expected courses is not a rigid requirement and changes in this basic list will be approved by the department curriculum committee on recommendation of the student's adviser when such changes will better serve the student's needs. In particular, students planning a physics major and also seeking certification for high school teaching may, with the approval of their adviser, follow a significantly different program designed to meet their particular needs; these students should consult the department for further information. Further information concerning programs of study, including sample degree programs, is available from the department.

Students majoring in physics who wish an emphasis in astronomy/astrophysics should consider a minor in astronomy. Those planning graduate work in physics or astronomy/astrophysics should choose the option PHYS 481 from the list above. Another useful course is:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 341</td>
<td>Introduction to the Theory of Probability and Statistics I</td>
<td>4</td>
</tr>
</tbody>
</table>

The expected outcomes for students in these programs are:

1. a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, wave motion and modern physics
2. proficiency in laboratory methods
3. proficiency in modern scientific computational methods
4. a sound foundation in the liberal arts including proficiency in communication skills.

In addition to the performance on exams and course grades, information on evaluating the success in meeting these goals is obtained by:
1. an annual written survey of all students majoring in the program
2. an annual written survey of all graduating seniors
3. a periodic written survey of program alumni
4. student evaluations of all courses
5. adviser evaluations
6. a bimonthly meeting of program majors with the department chair

Communication Proficiency Requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 (or ENGL 250H). The department requires a grade of C– or better in ENGL 302, ENGL 305, ENGL 309 or ENGL 314. Students are also encouraged to study at least one foreign language.

Physics Plus: The Physics Plus option is for students who wish to establish a clear strength in a field of application of physics. This program makes double majors more feasible and is appropriate for students who plan on employment in applied physics. It is not intended for students who plan on graduate study in physics. For more information, see the physics department web site or consult an adviser in physics.

The department offers a minor in physics which may be earned by completing 20 credits in physics courses chosen as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 241</td>
<td>Principles and Symmetries in Classical Physics I 5</td>

Facilities of various research groups of the department, the Ames Laboratory, and the Applied Science Center, including the Microelectronics Research Center, are available for research.

Students with bachelor's degrees in physics or astronomy from other institutions ordinarily will qualify for graduate study at Iowa State provided they have satisfactorily completed course work similar to that suggested for undergraduate majors here intending to go on to graduate school. In some cases additional instruction at the intermediate level may be required.

Graduates have a broad understanding of physical science, as well as mastery of state-of-the-art methods in their area of specialization. They are able to communicate effectively to a wide range of audiences, from the general public to research colleagues. Their skills in rigorous scientific thinking prepare them for leadership in the broader community. They are skilled in carrying out research, communicating research results, and soliciting research support. They have considerable teaching experience. They have developed problem solving skills that prepare them for careers in either industry or academia.

All candidates for an advanced degree in physics are expected to complete:

ASTRO 505 Astrophysical Cosmology 3
ASTRO 510 Observational Astrophysics 3

Astrophysics Ph.D. candidates must take at least three of the 580 level Astro courses, while candidates for the Research Masters must take at least two 580 level Astro courses.

Except for the applied physics major where a thesis is always required, the degree master of science is offered both with and without thesis. For all areas of study except applied physics the basic requirements for the M.S. are the same: at least 30 credits of acceptable graduate work must be completed, not less than 21 of which must be in physics or astronomy. Students must complete not less than 6 credits from outside their major area, with 3 credits being required from outside the department, and 3 credits from a 500 or 600 level course in another area of specialization.

Students choosing a M.S. degree with thesis may apply up to 8 credits of 699 but no credits of 599 toward the minimum 30 credits. Students choosing a degree without thesis should apply 2 credits of 599, but may not apply any credits of 699 toward the minimum 30 credits.

Students whose major area is applied physics must complete at least 30 credits of acceptable graduate work for the M.S. degree and not less than 19 credits of these must be in the required courses listed above; the remaining 11 credits of the 30 credit minimum may be chosen freely either from within the student’s major area or from another area or from outside the department, but it should be noted that not more than 3 credits of PHYS 699 Research may be applied toward the 30 credit minimum.

In addition to course work in the major area of study, all candidates for the Ph.D. degree must complete 12 credits from outside this area. Of these 6 must be taken from other departments and 6 must be taken from the department with the additional constraint that this latter 6 must include at least one 500 or 600 level introductory course in another area of specialization. Each candidate for the Ph.D. degree is required to teach one year of elementary physics or astronomy.

Graduate students interested in a physics minor should contact the department for requirements.

Courses primarily for undergraduates:

ASTRO 102: North Star Astronomy
Cr. 1. F.S.
An entirely web-based course covering topics in observing the sky and navigation by the stars for students with little or no previous experience. The course combines material on common naked-eye phenomena, such as daily and seasonal variations in the sky, with information on how these helped navigators determine where they are on Earth. The course "lectures" are on-line, interactive units with built-in exercises, hands-on (offline) activities and layers of help. Graded homework and quizzes are administered via Blackboard Learn. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 103: Evening Star
Cr. 1. F.S.
An entirely web-based course covering topics in celestial mechanics ("Rocket science!") for students with little or no previous experience. It combines the geography of the solar system with discussion of methods of traveling to the other planets. The course "lectures" are on-line, interactive units with built-in exercises, hands-on (offline) activities, and layers of help. Graded homework and quizzes are administered via Blackboard Learn. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 106: Earth and Space Science for Elementary Education Majors (Cross-listed with GEOL). (2-0) Cr. 2. F.S.
Prereq: Major in elementary or early childhood education.
Fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Online course format.

ASTRO 106L: Earth and Space Science for Elementary Education Majors: Laboratory (Cross-listed with GEOL). (0-2) Cr. 1. F.S.
Prereq: Restricted to elementary and early childhood education majors; to be taken concurrently with GEOL 106/ASTRO 106
Inquiry-based lab exploring fundamental concepts of Earth and Space Science, including the solar system, weather and climate, water and soils, plate tectonics, and geologic hazards. Must be taken concurrently with GEOL/ASTRO 106.
ASTRO 120: The Sky and the Solar System
(3-0) Cr. 3. F.S.S.
For the nonscientist. A survey of our view of the universe, and the exploration of the solar system and beyond. The sky: constellations; motions of the Sun, Moon, and planets; seasons and the calendar; eclipses. The solar system: origin and evolution; characteristics of the Sun, planets, satellites, comets, meteorites, and asteroids. The detection and characterization of other solar systems, and the search for life in the universe. Extensive use of the planetarium is included. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 125L: The Sky and the Solar System Laboratory
(0-2) Cr. 1. F.S.
Prereq: Concurrent or previous enrollment in ASTRO 120
Laboratory course to accompany Astro 120. Students carry out practical exercises involving naked eye and telescopic observing to explore and reinforce ideas covered in Astro 120. Activities based on a sky-simulation computer program and other weather-independent exercises are also included.

ASTRO 150: Stars, Galaxies, and Cosmology
(3-0) Cr. 3. F.S.
For the nonscientist. A survey of astronomy with a focus on the universe beyond our solar system. Basic observational astronomy and the history of astronomy. Stellar astronomy: motions, distances, sizes, spectra; types of stars; variability; binary systems. Stellar evolution: the birth, life, and death of stars, including supernovae, neutron stars, and black holes. The structure and evolution of the Milky Way Galaxy. Other galaxies, clusters of galaxies, quasars. Theories of the origin of the universe.

ASTRO 250: Astronomy Bizarre
(3-0) Cr. 3. S.
Prereq: ASTRO 120 or ASTRO 150

ASTRO 290: Independent Study
Cr. 1-4. Repeatable.
Prereq: Permission of instructor

ASTRO 342: Introduction to Solar System Astronomy
(3-0) Cr. 3. F.
Prereq: PHYS 222
An introduction to the physics of the Solar System and the planetary systems discovered around other stars. General characteristics of planetary systems: dynamics, thermodynamics, internal and surface structure of planets and minor bodies, physics of their atmosphere. Discovery techniques and characterization of extrasolar planets, and planetary systems formation models. "Grand tour" of the Solar System, using data and imagery from probes and telescopes that have visited these worlds. The origin and evolution of life on Earth, and the ongoing search for life in the Solar System and elsewhere in the universe.

ASTRO 344L: Astronomy Laboratory
(1-6) Cr. 3. F.
Prereq: PHYS 222
Experiments in optical astronomy. Observational techniques, ranging from stellar photometry to CCD imaging. Data processing and analysis techniques. Astronomical software packages and online databases and resources. Available instruments include a variety of small telescopes and astronomical CCD cameras.

ASTRO 346: Introduction to Astrophysics
(3-0) Cr. 3. S.
Prereq: PHYS 222
An exploration of the universe beyond our Solar System, with emphasis on the astrophysics of stars and galaxies. Observable properties of stars, physics of stellar atmospheres and interiors. Birth, evolution and death of stars, to understand the past and future of our Sun, the Milky Way galaxy and the other galaxies in the universe. Basic concepts of cosmology, dark matter and dark energy. Use of computer models to calculate the structure and evolution of stars and protostars, and to analyze actual astronomical data obtained by professional astronomers.

ASTRO 405: Astrophysical Cosmology
(Dual-listed with ASTRO 505). (3-0) Cr. 3. S.
Prereq: ASTRO 346 or permission of instructor
Introduction to modern cosmology and large-scale structure; mathematical and observational fundamentals associated with the origin, structure, and evolution of the Universe. Scale of the Universe, Hubble's Law, the cosmic microwave background, Big Bang nucleosynthesis, the origin of elements, dark energy and the accelerating universe, and dark matter. For senior undergraduates and graduate students in all areas of physics.

ASTRO 450: Undergraduate Research
Cr. 1-6. Repeatable. F.S.SS.
Prereq: Permission of instructor
Research under supervision of astronomy faculty.
ASTRO 450L: Undergraduate Research
Cr. 1-6. Repeatable. F.S.S.
Prereq: ASTRO 344L and permission of instructor
Laboratory or observational project under supervision of astronomy faculty.

ASTRO 490: Independent Study
Cr. 1-4. Repeatable, maximum of 9 credits.
Prereq: 6 credits in astronomy, permission of instructor
No more than 9 credits of Astro 490 may be counted toward graduation.

ASTRO 490H: Independent Study: Honors
Cr. 1-4. Repeatable, maximum of 9 credits.
Prereq: 6 credits in astronomy, permission of instructor
No more than 9 credits of Astro 490 may be counted toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

ASTRO 505: Astrophysical Cosmology
(Dual-listed with ASTRO 405). (3-0) Cr. 3. S.
Prereq: ASTRO 346 or permission of instructor
Introduction to modern cosmology and large-scale structure; mathematical and observational fundamentals associated with the origin, structure, and evolution of the Universe. Scale of the Universe, Hubble's Law, the cosmic microwave background, Big Bang nucleosynthesis, the origin of elements, dark energy and the accelerating universe, and dark matter. For senior undergraduates and graduate students in all areas of physics.

ASTRO 510: Observational Astrophysics
(2-3) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: ASTRO 405 or ASTRO 505 or permission of instructor
Techniques in optical and near-IR astronomy, including spectroscopy and CCD photometry. Emphasis on projects involving proficiency in the use of research telescopes and modern instrumentation. Project topics range from photometric studies of pulsating and binary star systems to deep CCD imaging of faint nebulae and galaxies.

ASTRO 580: Stellar Astrophysics
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: ASTRO 405 or ASTRO 505 or permission of the instructor

ASTRO 582: High Energy Astrophysics
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: ASTRO 405 or ASTRO 505 or permission of the instructor
Interactions of high-energy particles, non-thermal radiation processes, spectral evolution of non-thermal systems, cosmic rays, active galactic nuclei, pulsars, neutrinos, measurement techniques for relativistic charged particles, high energy photons, and neutrinos.

ASTRO 584: Galactic Astronomy
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: ASTRO 405 or ASTRO 505 or permission of instructor
Overall structure of our Galaxy and the interstellar medium. Physical processes in the interstellar medium (e.g., heating and cooling mechanisms, turbulence). Observational techniques for studying the interstellar medium. Kinematics and chemical evolution of the Galaxy.

ASTRO 586: Extragalactic Astronomy
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: ASTRO 405 or ASTRO 505 or permission of the instructor
Galaxy evolution, dynamics of external galaxies, evolution and classification of galaxies, groups and clusters of galaxies, extragalactic radio sources, quasars, structure formation, cosmological models and their observational consequences.

ASTRO 590: Special topics
Cr. arr. Repeatable.

ASTRO 599: Creative Component
Cr. arr.
Prereq: Permission of instructor
Individually directed study of research-level problems for students electing the nonthesis M.S. option in astronomy.

Courses for graduate students:
ASTRO 650: Advanced Seminar
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest in astronomy and astrophysics. Offered on a satisfactory-fail basis only.

ASTRO 675: Advanced Stellar Astrophysics
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: ASTRO 580 or permission of instructor

ASTRO 699: Research
Cr. arr. Repeatable.

Courses primarily for undergraduates:

PHYS 050: Preparation for Introductory Physics
Cr. 0. F.S.
Prereq: 1 year high school algebra
An in-depth active learning experience designed to impart the fundamental concepts and principles of physics, with an emphasis on applied mathematical techniques and logical thinking. For students intending to enroll in classical physics (PHYS 221/222) who have not taken high school physics, who have not had a high school college preparatory physics course, or who need a review of physics problem solving and physics concepts. Credit for Phys 50 does not count toward graduation.

PHYS 101: Physics for the Nonscientist
(3-0) Cr. 3. F.S.
Survey of the principal areas of both classical and modern physics. Emphasis on the nature of the physical universe and the application of physical principles to life in the modern world. Not suitable to meet a general physics requirement for natural science majors.

PHYS 102L: Physical Sciences for Elementary Education
(Cross-listed with CHEM). (1-4) Cr. 3. F.S.
Prereq: MATH 195 or MATH 140
Physical science principles for future elementary teachers. Emphasis on experiments that address current elementary science education standards and that are appropriate for their future students to do, such as measurements of mass, length, time, light from atoms, charge and current, motion due to forces, energy and work, heat, waves, optics, building bridges and making musical instruments, studying states of matter and chemical reactions.

PHYS 111: General Physics
(4-2) Cr. 5. F.S.S.
Prereq: 1 1/2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry
General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Mechanics, fluids, heat and thermodynamics, vibrations, waves, sound.

PHYS 112: General Physics
(4-2) Cr. 5. F.S.S.
Prereq: PHYS 111
General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Electricity and magnetism, ray and wave optics, topics in modern physics.

PHYS 115: Physics for the Life Sciences
(4-0) Cr. 4. F.S.
Prereq: high school: 1 1/2 yr. algebra, 1 yr. geometry, 1 semester trigonometry
Emphasis on basic physics principles applied to biological problems. Topics include mechanics, fluids, thermodynamics, heat, light, sound, electricity and magnetism. A coordinated laboratory, Physics 115 laboratory is available.

PHYS 115L: Laboratory in Physics for the Life Sciences
(0-2) Cr. 1. F.S.
Prereq: Credit or enrollment in Phys 115
Experiments related to the elementary topics of physics for the life sciences. Mechanics, fluids, thermodynamics, heat, light, sound, electricity and magnetism.

PHYS 198: Physics of Music
(2-2) Cr. 3. F.
Introductory level course on sound for nonphysics majors. Properties of pure tones and harmonics; human perception of sound; room acoustics; scales; production, and analysis of musical by voice, string, woodwind, brass, and percussion instruments. Not suitable to meet a general physics requirement for natural science majors.
PHYS 199: Introductory Seminar  
Cr. R. F.  
(1-1) Gain experience in key skills that physicists/astronomers use routinely, but are rarely explicitly taught in formal courses. Participate in faculty-led discussions on frontier areas and careers. Offered on a satisfactory-fail basis only.

PHYS 221: Introduction to Classical Physics I  
(4.5-1) Cr. 5. F.S.SS.  
Prereq: Proficiency in algebra, trigonometry, vector manipulation, and topics covered in Math 165, and credit or enrollment in MATH 166.  
For engineering and science majors. 3 hours of lecture each week plus 3 recitations and 1 laboratory every 2 weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound.

PHYS 221H: Introduction to Classical Physics I: Honors  
(4.5-1) Cr. 5. F.S.  
Prereq: Proficiency in algebra, trigonometry, vector manipulation, and topics covered in Math 165, and credit or enrollment in MATH 166.  
For engineering and science majors. 3 hours of lecture each week plus 3 recitations and 1 laboratory every 2 weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound.

PHYS 222: Introduction to Classical Physics II  
(4-2) Cr. 5. F.S.SS.  
Prereq: PHYS 221 OR PHYS 241, MATH 166  
3 hours of lecture each week plus 1 recitation and 1 laboratory each week. Fluid dynamics. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields; LR, LC, LCR circuits; Maxwell's equations; wave optics.

PHYS 222H: Introduction to Classical Physics II: Honors  
(4-2) Cr. 5. F.S.  
Prereq: PHYS 221 OR PHYS 241, MATH 166  
3 hours of lecture each week plus 1 recitation and 1 laboratory each week. Fluid dynamics. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields; LR, LC, LCR circuits; Maxwell's equations; wave optics.

PHYS 241: Principles and Symmetries in Classical Physics I  
(4.5-1) Cr. 5. F.  
Prereq: Proficiency in algebra, trigonometry, vector manipulation, and topics covered in MATH 165, and credit or enrollment in MATH 166.  
Covers all of mechanics; Kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation, and extremum principles. Topics in kinetic theory, thermodynamics, waves and sound.

(4.5-1) Cr. 5. F.  
Prereq: Proficiency in algebra, trigonometry, vector manipulation, and topics covered in MATH 165, and credit or enrollment in MATH 166.  
Covers all of mechanics; Kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation, and extremum principles. Topics in kinetic theory, thermodynamics, waves and sound.

PHYS 242: Principles and Symmetries in Classical Physics II  
(4-2) Cr. 5. S.  
Prereq: PHYS 221 or PHYS 241, credit or enrollment in MATH 166  
Fluid dynamics, electrostatics, potentials and fields, currents, fields of moving charges, the magnetic field, electromagnetic induction, DC and AC circuits, Maxwell's equations and electromagnetic waves, electric and magnetic fields in matter. Topics in optics and special relativity.

PHYS 242H: Principles and Symmetries in Classical Physics II, Honors (Spring).  
(4-2) Cr. 5. S.  
Prereq: PHYS 221 or PHYS 241, credit or enrollment in MATH 166  
Fluid dynamics, electrostatics, potentials and fields, currents, fields of moving charges, the magnetic field, electromagnetic induction, DC and AC circuits, Maxwell's equations and electromagnetic waves, electric and magnetic fields in matter. Topics in optics and special relativity.

PHYS 290: Independent Study  
Cr. 1-4. Repeatable.  
Prereq: Permission of instructor

PHYS 298: Cooperative Education  
Cr. R. Repeatable. F.S.SS.  
Prereq: Permission of the department cooperative education coordinator; sophomore classification  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.
PHYS 302: The Challenge of Contemporary Physics  
(3-0) Cr. 3. S.  
Prereq: Sophomore classification  
A largely nonmathematical but intellectually challenging exploration of physics, which assumes no previous work in the field. Selected material from classical and modern physics establishes the conceptual framework for the study of major areas of contemporary physics, culminating in the discussion of topics at the frontier of present knowledge. Topics vary yearly and may include quarks, lasers, superconductivity, fission and fusion, solid state devices, gravitational waves, string theory, facilities, left handed materials, and quantum computing. Not suitable to meet a general physics requirement for natural science majors.

PHYS 304: Thermal Physics  
(3-0) Cr. 3. S.  
Prereq: PHYS 222 or PHYS 242, MATH 266 or MATH 267  

PHYS 306: Physics of Wave Motion  
(3-0) Cr. 3. S.  
Prereq: PHYS 222 or PHYS 242, credit or enrollment in MATH 267  
Oscillating systems including damped and forced oscillations; fluids, geometric optics, water waves, the wave equation, Fourier and Laplace transforms, non-uniform media, cylindrical and spherical waves, polarization, interference and diffraction, transmission lines, non-linear waves.

PHYS 310: Electronic Instrumentation for Experimental Physics  
(2-4) Cr. 4. F.  
Prereq: PHYS 222 or PHYS 242; MATH 166  
Common electrical instruments; power supplies; transducers; passive and active devices, analog integrated circuits, including filters and amplifiers; digital integrated circuits; signal transmission and enhancement.

PHYS 311: Intermediate Laboratory  
Cr. 1-2. Repeatable. S.  
Prereq: PHYS 322  
Experiments in classical and modern physics performed independently by each student.

PHYS 311T: Intermediate Laboratory for Secondary Physics Teachers  
(0-6) Cr. 3. Repeatable. S.  
Prereq: PHYS 112 or PHYS 222 or PHYS 242  
Experiments in classical and modern physics performed independently by each student. For students preparing for a career in high school teaching.

PHYS 321: Introduction to Modern Physics I  
(3-0) Cr. 3. F.  
Prereq: PHYS 222 or PHYS 242, credit or enrollment in MATH 266 or MATH 267  
Quantum nature of matter: photons, de Broglie’s postulate: wave-like properties of matter; Bohr’s model of hydrogen atom; Schrodinger equations in one dimension: energy quantization; detailed solutions for potential steps, barriers and wells; one-electron atoms, spin and magnetic interactions; ground states, optical and x-ray excitations of multi-electron atoms.

PHYS 321L: Introductory Laboratory in Modern Physics I  
(0-2) Cr. 1. F.  
Prereq: Credit or enrollment in PHYS 321  

PHYS 322: Introduction to Modern Physics II  
(3-0) Cr. 3. S.  
Prereq: PHYS 321  
Quantum statistics; lasers; physics of molecules. Properties of solids, including electron band structure, superconductivity and magnetism. Nuclear physics, including nuclear sizes and masses, stability, decay modes, reactions, fission and fusion. Elementary particles, including strangeness, charm, and quarks. Fundamental forces of nature.

PHYS 322L: Introductory Laboratory in Modern Physics II  
(0-2) Cr. 1. S.  
Prereq: Credit or enrollment in PHYS 322  
Experiments related to the foundations of modern physics. Radioactive decay, elementary particles, Hall effect, quantization, spectroscopy, statistics and instrumentation.

PHYS 361: Classical Mechanics  
(3-0) Cr. 3. S.  
Prereq: PHYS 222 or PHYS 242, MATH 265, credit or enrollment in MATH 266 or MATH 267  
Newtonian mechanics including forced oscillations, central forces and orbital motion, collisions, moving frames of reference, Lagrange’s equations.
**PHYS 362: Intermediate Mechanics**  
(3-0) Cr. 3. F.  
*Prereq: PHYS 361*  
Rigid body motion; small oscillations, normal modes. Special relativity including length contraction, time dilation, simultaneity, Lorentz transformation, 4-vector covariant formalism, relativistic mechanics.

**PHYS 364: Electricity and Magnetism I**  
(3-0) Cr. 3. F.  
*Prereq: PHYS 222 or PHYS 242, MATH 266 or MATH 267*  
Static electric and magnetic fields, potential theory; electromagnetism, Maxwell’s equations.

**PHYS 365: Electricity and Magnetism II**  
(3-0) Cr. 3. S.  
*Prereq: PHYS 364, MATH 385*  
Relativistic electromagnetic theory; radiation and propagation of electromagnetic waves; interaction with matter.

**PHYS 389: Junior Seminar**  
Cr. R. S.  
Recommended for all junior physics majors. Career opportunities: graduate school programs and application, job placement, alternative careers, basic skills needed for the job market competition. Offered on a satisfactory-fail basis only.

**PHYS 398: Cooperative Education**  
Cr. R. Repeatable. F.S.S.S.  
*Prereq: Permission of the department cooperative education coordinator; junior classification*  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**PHYS 399: Seminar on Secondary School Physics**  
Cr. 1-2. Repeatable, maximum of 2 credits. F.  
*Prereq: Permission of instructor*  
Review of materials and curricula for secondary school physics presented and discussed by members of the class. Required for approval to teach physics in secondary schools.

**PHYS 421: Ultrafast Laser Science and Spectroscopy**  
(Dual-listed with PHYS 521). (3-0) Cr. 3. F.  
*Prereq: PHYS 321, PHYS 365, or equivalent with permission of instructor*  
Introduction to ultrafast lasers, nonlinear optics, and their applications. Topics selected from: basic optics, atom-photon interactions, electrodynamics of condensed matter, laser physics, ultrafast and nonlinear optics, ultrashort pulse generation, broadband pulse generation, time-resolved spectroscopy and instrumentation.

**PHYS 432: Molecular and Cell Biophysics**  
(Dual-listed with PHYS 532). (3-0) Cr. 3. S.  
*Prereq: PHYS 304 or CHEM 325.*  
Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes.

**PHYS 450: Undergraduate Research**  
Cr. 1-6. Repeatable. F.S.S.S.  
*Prereq: Permission of instructor*  
Theoretical research under supervision of physics faculty.

**PHYS 450L: Undergraduate Research**  
Cr. 1-6. Repeatable. F.S.S.S.  
*Prereq: PHYS 311, permission of instructor*  
Laboratory project under supervision of physics faculty.

**PHYS 461: Physics of Biomolecules**  
(Dual-listed with PHYS 561). (3-0) Cr. 3. F.  
*Prereq: PHYS 304 or CHEM 325, BBMB 301, or permission of instructor*  
Cell and Molecular Biophysics. Physical techniques used to characterize the structure, dynamics and properties of biomolecules with emphasis on single molecule techniques.

**PHYS 470L: Applied Physics Laboratory**  
Cr. 2-5. Repeatable. F.S.S.S.  
*Prereq: PHYS 322 and permission of instructor*  
Studies in modern experimental techniques via experimentation and simulation in various areas of applied physics, e.g. superconductivity, optical spectroscopy, nuclear magnetic resonance, electron spin resonance, x-ray diffraction, and computation of electronic and structural properties of matter.

**PHYS 480: Quantum Mechanics I**  
(3-0) Cr. 3. F.  
*Prereq: PHYS 322, MATH 385*  
First semester of a full-year course. A systematic development of the formalism and applications of quantum mechanics. Solutions to the time independent Schrödinger equation for various one-dimensional potentials including the harmonic oscillator; operator methods; Heisenberg picture; angular momentum; the hydrogen atom; spin; symmetry properties.
PHYS 481: Quantum Mechanics II
(3-0) Cr. 3. S.
Prereq: PHYS 480
Continuation of 480. Addition of angular momentum; charged particles in electromagnetic fields; time-independent perturbation theory; variational principles; WKB approximation; interaction picture; time-dependent perturbation theory; adiabatic approximation; scattering; selected topics in radiation theory; quantum paradoxes.

PHYS 490: Independent Study
Cr. 1-4. Repeatable, maximum of 9 credits.
Prereq: 6 credits in physics, permission of instructor
No more than 9 credits of Phys 490 may be counted toward graduation.

PHYS 490H: Independent Study, Honors
Cr. 1-4. Repeatable, maximum of 9 credits.
Prereq: 6 credits in physics, permission of instructor
No more than 9 credits of Phys 490 may be counted toward graduation.

PHYS 496: Modern Optics
(Cross-listed with E E). (3-0) Cr. 3. S.
Prereq: Credit or enrollment in PHYS 322, PHYS 365, and PHYS 480
Review of wave and electromagnetic theory; topics selected from: reflection/refraction, interference, geometrical optics, Fourier analysis, dispersion, coherence, Fraunhofer and Fresnel diffraction, holography, quantum optics, nonlinear optics.

PHYS 501: Oral Communication of Physics Seminar
(2-0) Cr. 1. Repeatable. F.
A practical introduction to communication methods in physics and astronomy classrooms and professional settings. For graduate physics majors only. Offered on a satisfactory-fail basis only.

PHYS 502: Introductory Research Seminar
Cr. R. F.
(1-1) Discussion by research staff of their research areas, expected thesis research work, and opportunities in the field. For graduate physics majors only. Offered on a satisfactory-fail basis only.

PHYS 511: Condensed Matter Physics I
(3-0) Cr. 3. F.
Prereq: PHYS 304, credit or enrollment in PHYS 481
First semester of a full-year course. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

PHYS 512: Condensed Matter Physics II
(3-0) Cr. 3. S.
Prereq: PHYS 511
Continuation of 511. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

PHYS 521: Ultrafast Laser Science and Spectroscopy
(Dual-listed with PHYS 421). (3-0) Cr. 3. F.
Prereq: PHYS 321, PHYS 365, or equivalent with permission of instructor
Introduction to ultrafast lasers, nonlinear optics, and their applications. Topics selected from: basic optics, atom-photon interactions, electrodynamics of condensed matter, laser physics, ultrafast and nonlinear optics, ultrashort pulse generation, broadband pulse generation, time-resolved spectroscopy and instrumentation.

PHYS 526: Particle and Nuclear Physics
(4-0) Cr. 4. F.
Prereq: Credit or enrollment in PHYS 481
Basic properties and structures of nuclei, hadrons, and elementary particles; weak and strong interactions; the Standard Model; accelerators and detectors; nuclear models; nuclear decay and stability; nuclear astrophysics; the Higgs mechanism; the CKM matrix; running coupling constants; relativistic heavy-ion collisions; selected topics beyond the standard model such as SUSY and grand unification.

PHYS 528: Mathematical Methods for the Physical Sciences
(3-0) Cr. 3. F.
Prereq: MATH 266 or MATH 267
PHYS 531: Statistical Mechanics
(3-0) Cr. 3. S.
Prereq: PHYS 304 and credit or enrollment in PHYS 481, credit or enrollment in MATH 365 or PHYS 528
Thermodynamic properties of systems of many particles obeying Boltzmann, Fermi-Dirac, and Bose-Einstein statistics; microcanonical, canonical, and grand canonical ensembles and their application to physical problems; density matrices; introduction to phase transitions; renormalization group theory; kinetic theory and fluctuations.

PHYS 532: Molecular and Cell Biophysics
(Dual-listed with PHYS 432). (3-0) Cr. 3. S.
Prereq: PHYS 304 or CHEM 325.
Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes.

PHYS 534: Symmetry and Group Theory in Physics
(3-0) Cr. 3. S.
Prereq: Credit or enrollment in PHYS 481
Theory of groups and group representations; introduction to both point and continuous groups, and their applications in physics.

PHYS 535: Physics of Semiconductors
(Cross-listed with E E). (3-3) Cr. 4.
Prereq: E E 311 and E E 332
Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic structures, crystal structure, energy bands, equilibrium carrier concentration and doping, excess carriers and recombination, carrier transport at low and high fields, space charge limited current, photo-conductivity in solids, phonons, optical properties, amorphous semiconductors, heterostructures, and surface effects. Laboratory experiments on optical properties, carrier lifetimes, mobility, defect density, doping density, photo-conductivity, diffusion length of carriers.

PHYS 536: Physics of Semiconductor Devices
(Cross-listed with E E). (3-0) Cr. 3.
Prereq: E E 535
P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers, heterojunctions, bipolar transistors, field-effect transistors, negative-resistance devices and optoelectronic devices.

PHYS 541: General Relativity
(3-0) Cr. 3. F.
Prereq: PHYS 362, MATH 207 or MATH 317
Tensor analysis and differential geometry developed and used to formulate Einstein field equations. Schwarzschild and Kerr solutions. Other advanced topics may include gravitational radiation, particle production by gravitational fields, alternate gravitational theories, attempts at unified field theories, cosmology.

PHYS 551: Computational Physics
(0-4) Cr. 2. S.
Prereq: PHYS 365, credit or enrollment in PHYS 481
Use of modern computational techniques to analyze topics in classical and modern physics. Offered on a satisfactory-fail basis only.

PHYS 561: Physics of Biomolecules
(Dual-listed with PHYS 461). (3-0) Cr. 3. F.
Prereq: PHYS 304 or CHEM 325, BBMB 301, or permission of instructor
Cell and Molecular Biophysics. Physical techniques used to characterize the structure, dynamics and properties of biomolecules with emphasis on single molecule techniques.

PHYS 564: Advanced Classical Mechanics
(3-0) Cr. 3. S.
Prereq: PHYS 362, PHYS 528
Variational principles, Lagrange's equations, Hamilton's canonical equations, canonical transformations, Hamilton-Jacobi theory, infinitesimal transformations, classical field theory, canonical perturbation theory, classical chaos.

PHYS 571: Electricity and Magnetism I
(3-0) Cr. 3. F.
Prereq: PHYS 365, PHYS 528
Electrostatics, magnetostatics, boundary value problems, Maxwell's equations, wave phenomena in macroscopic media, wave guides.

PHYS 572: Electricity and Magnetism II
(3-0) Cr. 3. S.
Prereq: PHYS 571
Special theory of relativity, least action and motion of charged particles in electromagnetic fields, radiation, collisions between charged particles, multipole fields, radiation damping.

PHYS 590: Special Topics
Cr. arr. Repeatable.
Prereq: Permission of instructor
Topics of current interest.
PHYS 590A: Nuclear Physics
Cr. arr. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

PHYS 590B: Condensed Matter Physics
Cr. arr. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

PHYS 590C: High Energy Physics
Cr. arr. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

PHYS 590D: Physics
Cr. arr. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

PHYS 590E: Applied Physics
Cr. arr. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

PHYS 590F: Biophysics
Cr. arr. Repeatable.
Prereq: Permission of instructor
Topics of current interest.

PHYS 591: Quantum Physics I
(4-0) Cr. 4. F.
Prereq: PHYS 481
First semester of a full-year course. Postulates of quantum mechanics; time-dependent and time-independent Schrodinger equations for one-,two-, and three-dimensional systems; theory of angular momentum; Rayleigh-Schrodinger time-independent perturbation theory.

PHYS 592: Quantum Physics II
(4-0) Cr. 4. S.
Prereq: PHYS 591
Continuation of 591. Variational theorem and WKB method; time-dependent perturbation theory and 2nd quantization of the EM field in Coulomb gauge; method of partial waves and Born approximation for scattering by central potentials; identical particles and symmetry; Dirac and Klein-Gordon equation for free particles; path integral formalism.

PHYS 599: Creative Component
Cr. arr.
Prereq: Permission of instructor
Individually directed study of research-level problems for students electing the nonthesis M.S. degree option.

Courses for graduate students:

PHYS 611: Quantum Theory of Condensed Matter
(3-0) Cr. 3. S.
Prereq: PHYS 512 and PHYS 681 or permission of instructor.
Quasiparticles in condensed matter: phonons, magnons, photons, electrons. Quantum theory of interacting many body systems: Green's functions and diagrammatic techniques.

PHYS 624: Advanced Nuclear Physics
(3-0) Cr. 3.
Prereq: PHYS 526 and PHYS 592
Microscopic few-body and many-body theory; theory of effective Hamiltonians; relativistic nuclear physics; nuclear effects in hadron-nucleus, lepton-nucleus, and nucleus-nucleus reactions.

PHYS 625: Physics of Strong Interactions
(3-0) Cr. 3.
Prereq: PHYS 681
Quark model; Quantum Chromodynamics (QCD); perturbation methods for QCD; effective field theories for pions and nucleons; finite temperature field theories; quark-gluon plasma; phase transitions in QCD.

PHYS 637: Elementary Particle Physics I
(3-0) Cr. 3. S.
Prereq: PHYS 526 and PHYS 592
First semester of a full year course. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry; modern theoretical techniques and tests of the Standard Model.

PHYS 638: Elementary Particle Physics II
(3-0) Cr. 3.
Prereq: PHYS 637
Continuation of 637. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry, and superstring theory; modern theoretical techniques.

PHYS 646: Mathematical Modeling of Complex Physical Systems
(Cross-listed with MATH). (3-0) Cr. 3. S.
Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; coarse grained nonlinear dynamics, interface propagation and spatial pattern formation.
PHYS 650: Advanced Seminar
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650A: Nuclear Physics
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650B: Condensed Matter Physics
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650C: High Energy Physics
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650D: Physics
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650E: Applied Physics
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 650F: Biophysics
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.

PHYS 660: Advanced Topics in Physics
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 660B: Condensed Matter Physics
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 660C: High Energy Physics
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 660D: Physics
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 660E: Applied Physics
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.

PHYS 681: Quantum Field Theory I
(3-0) Cr. 3. F.
Prereq: PHYS 564, PHYS 572, PHYS 592
Quantization of fields (canonical and path integral); Feynman rules; introduction to gauge theories; Quantum Electrodynamics; radiative corrections; renormalization and renormalization group.

PHYS 682: Quantum Field Theory II
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: PHYS 681
Continuation of 681. Systematics of renormalization; renormalization group methods; symmetries; spontaneous symmetry breaking; non-abelian gauge theories; the Standard Model and beyond; special topics.

PHYS 699: Research
Cr. arr. Repeatable.
Prereq: Instructor permission required.
Graduate research.

Political Science
The study of political science is designed to enable students to understand the nature of politics, public values, and the institutions and processes of politics in their various forms.

Students completing a major in political science will understand and be able to interrelate the leading theories, literature, and approaches in the subfields of American government, political theory, international relations, and comparative politics. Graduates can analyze and formulate effective argumentation in written and oral forms, with the ability to appreciate and accommodate diverse political ideas and to collect and critique information and ideas of others in support of original arguments. Graduates appreciate the knowledge and civic responsibilities required for effective participation in political life.

The political science major is often chosen by students preparing for a career in law. Students with this goal should consult with the department in selecting courses. See also Preprofessional Study.

Several internship options are available to the political science major, offering students the opportunity to experience practical application of the knowledge learned in academic courses.

Requirements for the Major:
For the purpose of defining undergraduate requirements in the Department of Political Science, the Department employs five subfields within the discipline, with the following courses in each:

I. Law, justice, and Political philosophy

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL S 235</td>
<td>Introduction to Ethics and Politics</td>
<td>3</td>
</tr>
<tr>
<td>POL S 319</td>
<td>Law and Politics</td>
<td>3</td>
</tr>
<tr>
<td>POL S 320</td>
<td>American Judicial Process</td>
<td>3</td>
</tr>
</tbody>
</table>
To complete the major in Political Science a student must earn 33 semester credits of courses in Political Science subject to the following conditions:

1. Students must satisfactorily complete POL S 101 and POL S 301.
2. Students must complete at least 15 credits in one of the five subfields listed above (or, with departmental approval, an alternative, substantively related set of 15 POL S credits), with at least 3 credits in each of three additional subfields.
3. Political Science courses in which a student has a grade of D+ or lower will not count for the major but can be counted as electives.
4. At least 18 credits of Political Science courses must be numbered 300 or above.
5. At least 9 credits of Political Science courses must be numbered 400 or above.
6. No more than three credits of POL S 490, POL S 496, POL S 497, or POL S 499 (alone or in combination) can be used to fulfill any of these requirements.
7. At least 15 credits of Political Science coursework must be earned at Iowa State University.
8. Students must pass at least one Statistics course from among STAT 101, STAT 104, STAT 105, or STAT 226.
9. According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.
10. Advanced Communication Skills: Majors must earn at least a C in one course from among ENGL 302, ENGL 309, or ENGL 314.

The department offers a minor in political science that may be earned by completing 15 credits beyond the 100-level of coursework in political
science, nine of which must be at the 300 level or above. A student minorin in Political Science normally will be expected to take at least 9 credits in Political Science coursework at Iowa State University. Only 3 credits of POL S 490, POL S 496, POL S 497, or POL S 499, alone or in combination, and only 2 credits of POL S 312, POL S 313, POL S 314, or POL S 315 may be included in the total of 15 credits required for the minor. All minors in the College of Liberal Arts and Science require a minimum of 6 credits in courses numbered 300 and above taken at ISU with a minimum grade of C. Credits earned in POL S 496, POL S 497, or POL S 499, or offered on a satisfactory/fail basis only, will not fulfill this requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level.

1 Meets international perspectives requirement.
2 STAT 101, 104, and 226 also meet LAS College math requirement.
3 May be cross-listed to fulfill other requirements.

Graduate Study

The department offers work for a Master of Arts degree (MA) with a major in political science and minor for students in other departments. The department also offers work for a Graduate Certificate of Public Management and Policy (GCPMP) for those interested in an educational certificate program that requires less work than a full masters program. In addition, the Department of Political Science offers work for a Master of Science in Information Assurance (MSIA) and a joint Master of Arts/Juris Doctor (MA/JD) program with the Law School of Drake University. Information with detailed requirements for all graduate degrees may be obtained at the department's web page at https://www.pols.iastate.edu/academics/graduate/

Master of Arts (MA)

This is a 30-credit masters degree that gives students the opportunity to explore the field of political science in order to pursue a PhD, go to law school, improve research skills, or understand politics better. The three concentration areas are American Politics, Global Politics, and Public Policy. Although it is not a formal concentration, some students have worked heavily in the area of political theory. Top students are eligible for graduate assistantships that make graduate study much more affordable and provide opportunities for assisting faculty with teaching and research. These are awarded on a merit basis. A thesis is required for this degree. The department also has a joint Master of Arts/Juris Doctor (MA/JD) program with the Law School of Drake University. Students wishing to pursue this joint degree must submit separate applications to Drake University and Iowa State University and be accepted by both institutions.

MA graduates have a broad substantive understanding of the political process and the academic study of politics. They also have in-depth knowledge of one or more subfields in political science. Graduates are skilled at conducting research and preparing thorough research summaries. They are able to identify and address complex political
questions, taking into account related ethical, legal, economic, and social issues.

The prerequisites for major graduate work in the MA program normally are completion of at least 15 credits in political science, the GRE (Graduate Record Examination), one year of a foreign language (equivalent to 8 semester hours), and a course in basic statistics (equivalent to STAT 101). If the basic statistics requirement has not been met, the student may remedy the deficiency by passing equivalent courses, for which no graduate credit will be received. During their program of study, all students are expected to complete STAT 587, POL S 502, and a thesis. Additional information including detailed graduation requirements can be found at https://www.pols.iastate.edu/academics/graduate/#ma

Master of Science in Information Assurance (MSIA)

The Master of Science in Information Assurance (MSIA) is a multi-disciplinary program designed to provide students with diverse backgrounds and interests the opportunity to obtain professional training in the emerging field of information assurance. The core of the MSIA program is built around a series of courses taught in Electrical and Computer Engineering, Mathematics, and Computer Science that introduce students to software and hardware aspects of cryptography and computer security. The program also recognizes, however, that information assurance defined in terms of security, privacy, access, and reliability is not simply a technical problem but also involves important societal dimensions, including policy, education, ethics, and management. Recognizing that political science offers many potential intersections with information assurance (e.g., public sector management of information technology; forensics and computer crime; information technology policy and law; and public administration and public sector management of information technology.

Admission requirements generally follow the same guidelines as the MA in Political Science. Degree requirements are specified by the MSIA program in cooperation with Political Science. More in-depth information on the program including detailed graduation requirements can be found at: https://www.pols.iastate.edu/academics/graduate/#msia

Master of Arts/Juris Doctorate Program (MA/JD)

The Drake Law School and the Department of Political Science at Iowa State University are co-sponsors of the Master of Arts/Juris Doctorate degree. This degree combines courses at both Iowa State University and the Drake Law School and follows most of the same requirements as a double degree. However, the student must have full admission to both schools. Detailed information for the MA/JD can be found at the ISU Political Science webpage as well as the Drake Law School website (under Joint Degree): http://www.law.drake.edu/.

The increasing attention being focused on the solution of social problems by state and federal governments has created a need for persons with advanced training in both law and political science. The Drake Law School and the ISU Department of Political Science jointly administer a MA/JD program to provide an opportunity for students at the Drake Law School to achieve, concurrently, a JD degree in law and a MA degree in political science, and for graduate students in political science at Iowa State University to achieve a degree in law.

Successful completion of this program will enable students at Drake Law School to receive both a JD and an MA degree within a three-year period, while graduate students in political science at Iowa State University will be able to transfer a substantial number of hours to the Drake Law School toward the fulfillment of the JD requirements in a similar amount of time. Additional information including detailed graduation requirements can be found at: https://www.pols.iastate.edu/academics/graduate/#majd

Minor

Students in other graduate programs may obtain a minor in political science by completing at least 9 credits of political science courses. Interested students should consult the Graduate College Handbook for additional information on graduate minors.

The Graduate Certificate of Public MANAGEMENT AND POLICY (GCPMP)

The Political Science Department offers a Graduate Certificate of Public Management and Policy (GCPMP). The GCPMP is a 15-credit certificate. Students who are interested in public management and policy, but unsure about committing to a full master’s degree, can aim
for the certificate knowing that those courses will also count toward a master's degree if they choose to continue on. Iowa State graduate students in other fields may want to pursue the certificate to improve their credentials on the job market if their interest overlaps with public management and policy. For example, doctoral students in higher education and education administration can earn all 9 of their "outside" credits in the GCPMP coursework, add the 6 more elective credits, and earn a GCPMP along with their PhD.

Requirements for admission are a graduate school application, an essay stating purposes for study, college transcripts, the GRE (waived for those with five or more years of public or nonprofit sector experience), three letters of recommendation, and the TOEFL for international students. More information on the program including curricular requirements can be found at: https://www.pols.iastate.edu/academics/graduate/#gcpm/.

Courses primarily for undergraduates:

**POL S 101: Introduction to Political Science**  
(3-0) Cr. 3. F.S.  
Introduction to the discipline and sub-fields of Political Science; analytical thinking and research skills relevant to political science.

**POL S 215: Introduction to American Government**  
(3-0) Cr. 3. F.S.SS.  
Fundamentals of American democracy; constitutionalism; federalism; rights and duties of citizens; executive, legislative, and judicial branches of government; elections, public opinion, interest groups, and political parties.

**POL S 235: Introduction to Ethics and Politics**  
(3-0) Cr. 3. F.  
Moral controversies surrounding political issues such as violence, deception, corruption, civil disobedience, democracy, justice, equality, and freedom. Political applications of classic and contemporary texts.

**POL S 241: Introduction to Comparative Government and Politics**  
(3-0) Cr. 3. F.S.  
Interactions between governments and citizens in countries outside the US. Causes of democracy, dictatorship, and economic and social development.  
Meets International Perspectives Requirement.

**POL S 251: Introduction to International Politics**  
(3-0) Cr. 3. F.S.  
Dynamics of interstate relations pertaining to nationalism, the nation state; peace and war; foreign policy making; the national interest; military capability and strategy; case studies of transnational issues, such as population, food, energy, and terrorism.  
Meets International Perspectives Requirement.

**POL S 298: Cooperative Education**  
Cr. R. Repeatable. F.S.SS.  
*Prereq: Permission of department cooperative education coordinator; sophomore classification*  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**POL S 301: Introduction to Empirical Political Science Research**  
(3-0) Cr. 3. F.S.  
*Prereq: POL S 101*  
Techniques of quantitative and qualitative political research and analysis. Development and analysis of concepts and theories. Methods of data collection, research design, and critical thinking. Applications of statistics to political research.

**POL S 305: Comparative Political Behavior**  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
*Prereq: Sophomore classification or six credits in political science*  
Political attitudes and behaviors of citizens in democracies, both in the US and cross-nationally. Citizens' traits and their relationship to democracy.

**POL S 306: Public Opinion and Voting Behavior**  
(3-0) Cr. 3. S.  
*Prereq: 6 credits in political science or sophomore classification*  
The formation of political opinions and attitudes, political participation, and voting behavior of the general public, and their influences on American politics; polling as a means of assessing public opinions and behaviors.

**POL S 310: State and Local Government**  
(3-0) Cr. 3. F.S.  
*Prereq: 3 credits in political science*  

**POL S 312: Special Topics in American Government and Politics**  
(3-0) Cr. 2. Repeatable, maximum of 2 times. F.  
Half-semester courses on selected topical issues in American government and politics. A topic may not be taken more than once.

**POL S 313: Special Topics in Theory and Methods**  
(1.5-0) Cr. 2. Repeatable, maximum of 2 times. Alt. S., offered irregularly.  
Half-semester course on selected topical issues in theory and methods in political science. A topic may not be taken more than once.
POL S 314: Special Topics in Comparative Politics
(1.5-0) Cr. 2. Repeatable, maximum of 2 times. F.S.
Half-semester course on selected topical issues in comparative politics. A topic may not be taken more than once.

POL S 315: Special Topics in International Relations
(1.5-0) Cr. 2. Repeatable, maximum of 2 times. F.S.
Half-semester course on selected topical issues in international relations. A topic may not be taken more than once. Meets International Perspectives Requirement.

POL S 318: Campaigns and Elections
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Methods and techniques of political campaigns in general elections. Supervised participation in candidate and political party campaign activities required.

POL S 319: Law and Politics
(3-0) Cr. 3. F.S.
Prereq: Sophomore standing. POL S 215 recommended
American judicial system and controversies spanning law and politics. Potential topics include statutory construction, judicial review, proper role of the judiciary, vagueness and ambiguity in law, competing constitutional philosophies, executive branch concerns, and relative power of different branches.

POL S 320: American Judicial Process
(Cross-listed with CJ ST). (3-0) Cr. 3. S.
Prereq: POL S 215
An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent.

POL S 333: Democracy and Diversity in America
(3-0) Cr. 3.
Prereq: Sophomore classification.
Competing American conceptions of democracy as strategies for responding to the racial, religious, ethnic, gender, and economic diversity of America. Contemporary debates about topics such as immigration, affirmative action, multicultural education, religion, and minority representation. Meets U.S. Diversity Requirement.

POL S 334: Politics and Society
(Cross-listed with SOC). (3-0) Cr. 3. F.
Prereq: A course in political science or sociology
The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism.

POL S 335: Science, Technology, and Public Policy
(3-0) Cr. 3. S.
Examines the history and political dynamics of public science and technology policies. Examines differences in political and technological orientations. Assessment of the roles of politics, media, engineering, science, and private business in the formation public policies that put heavy reliance on or seek to advance science and technology.

POL S 339: Liberty and Law in America
(Cross-listed with CJ ST, PHIL). (3-0) Cr. 3. Alt. S., offered irregularly.
Prereq: Sophomore status
Competing conceptions of liberty in American political thought. Debates about how liberty should be protected by the law, in fields such as health care, drugs, property, speech, religion, and sex.

POL S 340: Politics of Developing Areas
(3-0) Cr. 3.
Economic and political development as they relate to the political process of developing states. Impact of social and technological change on political systems of developing areas. Meets International Perspectives Requirement.

POL S 342: Chinese Politics
(3-0) Cr. 3.
Legacies of Imperial China, the origins of the Chinese Civil War, and the causes and consequences of the reform era. Issues of contemporary China, including economic transformation, the structure of the Party/state, the environment, the media and other topics. Meets International Perspectives Requirement.

POL S 343: Latin American Government and Politics
(Cross-listed with US LS). (3-0) Cr. 3. S.
Political institutions, processes, and contemporary issues. Selected countries examined intensively to illustrate generalizations. Role of parties, military, church, human rights, women, environmental issues, interest groups, ideology, and globalization. Meets International Perspectives Requirement.

POL S 344: Public Policy
(3-0) Cr. 3. S.
How agendas come to be set in public policy, theories describing the policy-making process, forces molding policy choices and the impact of such choices.
POL S 346: European Politics
(3-0) Cr. 3. S.
Comparative study of political institutions of Europe and the European Union; emphasis on parties, elections, and governmental structures. Substance and process of public policies in selected problem areas. Meets International Perspectives Requirement.

POL S 348: British Government and Politics
(3-0) Cr. 3.
Prereq: POL S 215 or POL S 241
Political institutions and processes in Great Britain and Northern Ireland; emphasis on Parliament, executive and monarchy, and public policies, including devotion. Meets International Perspectives Requirement.

POL S 349: Politics of Russia and Eastern Europe
(3-0) Cr. 3. F.
Nation-states of Central and Eastern Europe. Comparison of European communist systems and the revolutionary conflict leading to the dissolution of communist Europe. Political analysis of post-communist Russian and Eastern European nation-states and their economic, cultural and social variations. Meets International Perspectives Requirement.

POL S 350: Politics of the Middle East
(3-0) Cr. 3. F.
Introduction to the Middle East as a region and to issues of political importance to the Middle East and its place in the world. Topics covered include political Islam, regional conflicts and alliances, local leaders, political economy, democracy, and human rights. Meets International Perspectives Requirement.

POL S 353: Immigration Policy
(3-0) Cr. 3.
Political, economic, and social factors that affect immigration policy. Systematic analysis and implications of different types of immigration policies in countries sending and receiving immigrants. Policies regarding incorporation of migrants into, and effects of migrants on, American society. Meets U.S. Diversity Requirement

POL S 354: War and the Politics of Humanitarianism
(Cross-listed with ANTHR). (3-0) Cr. 3. S.
Prereq: Pol S 235, Pol S 251, Anthr 210, or Anthr 230
Humanitarianism as a system of thought and a system of intervention in conflict and post-conflict situations. Role of humanitarian organizations and actors in addressing human suffering caused by conflict or war. Military action as a form of humanitarian intervention. Meets International Perspectives Requirement.

POL S 355: War and Politics
(3-0) Cr. 3. F.
Prereq: None
Theoretical relationship among politics, strategy, and war. Evolution of war, the relationship between technology and conflict, and the changing causes and nature of global violence. Meets International Perspectives Requirement.

POL S 356: Theories of International Politics
(3-0) Cr. 3.
Introduction to essential theoretical concepts and approaches, both classical and contemporary on world politics including realism, empiricism, liberalism, and postpositivism; for example, war and conflict, peace and cooperation, political economy, crisis decision-making, systemic theory, dependence and interdependence. Meets International Perspectives Requirement.

POL S 357: International Security Policy
(3-0) Cr. 3.
Major theoretical approaches in security policy: strategy and deterrence, game theory, bargaining theory, compellence, coercive diplomacy, and crisis diplomacy. Illustration of these approaches through historical and contemporary cases.

POL S 358: United States Foreign Policy
(3-0) Cr. 3. F.
Prereq: POL S 215 or POL S 251, or HIST 467 or HIST 470 or HIST 471
U.S. foreign policy since World War II with emphasis on changing American values in foreign policy, the role of the President, Congress, and the bureaucracy in policy making, and a survey of current foreign policy issues and problems.

POL S 359: Current Issues in American Foreign Policy
(3-0) Cr. 3. S.
Prereq: POL S 215, POL S 251, or POL S 358
Examination of contemporary U.S. foreign policy issues (e.g., U.S. policy in the Middle East; defense budgeting in the post-Cold War era; conventional and nuclear arms control policy). The course will explore alternate methods to analyze policy, survey the evolution of each issue, and discuss different policy alternatives.

POL S 360: American Institutions: Congress
(3-0) Cr. 3.
Prereq: POL S 215
Theory and practice of representation and deliberation in the legislative branch of the republic; operations of Congress in terms of its committees, leadership, legislative and oversight processes, partisan politics, electoral campaigns, service to local and special electoral campaigns, service to local and special interests, and interactions with the President.
POL S 361: American Institutions: The Presidency
(3-0) Cr. 3.
Prereq: POL S 215
Creation and historical development of the office of chief executive; character and behavior of past chief executives; selection and control; powers, roles, functions; executive staff; relations with Congress, press, public opinion.

POL S 362: The Judiciary
(3-0) Cr. 3. S.
Judicial review, federal common law, judicial confirmation, strict construction of the Constitution, and qualifications to serving on Courts; judicial activism and the infusion of politics into courts.

POL S 363: American Institutions: Media
(3-0) Cr. 3. F.
Prereq: Sophomore standing
Influence of mass media organizations, forms, techniques, and technologies on the practices and expectations of American politics. Role of media in the political process, including promoting or discouraging political participation. Politics of traditional journalism, devices of propaganda, effects of campaign advertising, and media spectacles.

POL S 364: Political Parties and Interest Groups
(3-0) Cr. 3.
Prereq: POL S 215; sophomore classification
Nature of political parties and interest groups, their relation to each other, and their effects on American politics. Topics include party identification, party organization and mobilization, factionalism, lobbying, campaign contributions and financing, and the effects of special interests on public law.

POL S 370: Religion and Politics
(Cross-listed with RELIG). (3-0) Cr. 3. S.
Prereq: Sophomore classification.
The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally.

POL S 371: Public Organizations and Leadership
(3-0) Cr. 3. F.
Prereq: Sophomore classification
A survey of the historic and contemporary administrative realities that contribute to the unique challenges of public governance at the administrative and managerial levels of international, national, state, and local government. This introductory course explores the essential issues and competencies involved in the efficient, effective, and ethical provision of public goods and services. Critical topics addressed in the course include crisis management, intergovernmental relations, social equity, public-private partnerships, and privatization.

POL S 381: International Political Economy
(3-0) Cr. 3. F.
Prereq: POL S 215
Theoretical perspectives on international political economy. Exploration of specific issues such as the changing international trade regime, international finance, exchange rates and monetary policy, and development under conditions of globalization.

POL S 383: Environmental Politics and Policies
(Cross-listed with ENV S). (3-0) Cr. 3. SS.
Prereq: sophomore classification
Major ideologies' relations to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.

POL S 385: Women in Politics
(Cross-listed with WGS). (3-0) Cr. 3. F.
Prereq: Sophomore standing
Entry and participation of women in politics in the United States and other countries. Contemporary issues and strategies for change through the political process.

POL S 395: Advanced Writing in Political Science
Cr. R. F.S.SS.
Taken in conjunction with 300- or 400-level Political Science courses. Offered on a satisfactory-fail basis only.

POL S 397: International Study and Travel
Cr. arr. Repeatable. SS.
Prereq: Permission of instructor.
Supervised study in an aspect of discipline while traveling or located in a foreign country.

POL S 398: Cooperative Education
Cr. R. Repeatable. F.S.SS.
Prereq: Permission of department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing work period.

POL S 402: Legal Analysis
(3-0) Cr. 3. Alt. F., offered irregularly.
Prereq: Junior classification or permission of instructor.
Introduction to the style of legal analysis traditionally used in American law schools to teach law and prepare for legal practice. Topics include case briefing, legal citation, application of legal doctrines, and adversarial argument.
POL S 407: Proseminar in Public Policy
(Dual-listed with POL S 507). (3-0) Cr. 3. F.
Prereq: Six credits in political science or graduate standing
An overview of the major theoretical approaches and empirical methods relevant to the study of public policy. Emphasis is placed on agenda setting, policy formation, policy sustainability, and policy analysis. Seminal writings by leading scholars will be reviewed. Leading quantitative and qualitative methodological tools for analyzing policy are presented.

POL S 409: Political Game Theory
(Dual-listed with POL S 509). (3-0) Cr. 3.
Prereq: ECON 101
Application of economics to political science in the study of nonmarket decision-making. Behavior of bureaucrats, elected officials, and voters. Market failure, collective action, representative democracies, direct democracies, logrolling, voter paradoxes, and game theory.

POL S 413: Intergovernmental Relations
(Dual-listed with POL S 513). (3-0) Cr. 3.
Prereq: 6 credits in POL S
Theories and practices of the American federal system. Politics and policy making among federal, state, and local governments.

POL S 417: Campaign Rhetoric
(Cross-listed with SP CM). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: SP CM 212
Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers.

POL S 420: Constitutional Law
(3-0) Cr. 3. F.
Prereq: POL S 215; junior classification
Development of the United States Constitution through judicial action; influence of public law and judicial interpretations upon American government and society.

POL S 421: Constitutional Freedoms
(3-0) Cr. 3. S.
Prereq: POL S 320 or POL S 420
Leading Supreme Court cases interpreting the Bill of Rights and the Fourteenth Amendment. Emphasis on religion, speech, privacy, due process, and equal protection.

POL S 422: International Law
(Dual-listed with POL S 522). (3-0) Cr. 3.
Prereq: POL S 215 or POL S 251; junior classification
Legal aspects of international activities: state jurisdiction over territories and subjects, law of the sea, use of force, and judicial settlement of international disputes.

POL S 430: Foundations of Western Political Thought
(Dual-listed with POL S 530). (Cross-listed with CL ST). (3-0) Cr. 3.
Prereq: 6 credits in political science, philosophy, or European history
Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law.

POL S 431: Modern Political Thought
(Dual-listed with POL S 531). (3-0) Cr. 3.
Prereq: 6 credits in political science, philosophy, or European history
Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, toleration, property, power, skepticism, and normative views of international politics.

POL S 442: The Policy and Politics of Coastal Areas
(Dual-listed with POL S 542). (Cross-listed with ENV S). (3-0) Cr. 3. SS.
Exploration of political implications of coastal policy. Issues include: "Carrying capacity," zoning, regulation of human development activities, trade-offs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.

POL S 452: Comparative Foreign Policy
(Dual-listed with POL S 552). (3-0) Cr. 3. Alt. S., offered irregularly.
Prereq: POL S 251
Theoretical approaches to understanding foreign policy making and behavior through case studies of selected nations. Meets International Perspectives Requirement.

POL S 453: International Organization
(Dual-listed with POL S 553). (3-0) Cr. 3.
Prereq: POL S 251
Sources of international order in a variety of substantive areas such as international security, international trade and finance, the environment, and human rights: distribution of power, institutions, international law, and norms.
POL S 460: American Political Institutions
(Dual-listed with POL S 560). (3-0) Cr. 3.
Prereq: 6 credits in American government
Examination of policy-making and governance in a separation of powers system. Interaction between the chief executive, the legislature, administrative agencies, and the public. How political and legal forces affect policy makers and are reflected in public policies and programs.

POL S 475: Management in the Public Sector
(Dual-listed with POL S 575). (3-0) Cr. 3.
Prereq: POL S 371
Literature and research on organizational behavior and management theory with emphasis on applied aspects of managing contemporary public-sector organizations. Distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change.

POL S 477: Government, Business, and Society
(Dual-listed with POL S 577). (3-0) Cr. 3. F.
Prereq: 6 credits of POL S
Diverse perspectives on the changing roles and relationships of business, government, and society for more effective policy decisions on corporate affairs. The changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; politics in the business-government relationship.

POL S 480: Ethics and Public Policy
(Dual-listed with POL S 580). (3-0) Cr. 3.
Prereq: 6 credits in political science
Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making.

POL S 487: Electronic Democracy
(Dual-listed with POL S 587). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Sophomore standing
Impact of computers and the Internet on politics and policy. Positive and negative effects of information technology (IT) on selected topics such as hacking, cybercrime, cyberterrorism, cyberwarfare, privacy, civic participation, the sense of community, virtual cities, interest group behavior, viral media, campaigns, elections, and voting.

POL S 490: Independent Study
Cr. arr. Repeatable, maximum of 9 credits. F.S.
Prereq: 6 credits in political science
Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490A: Independent Study: American Government and Politics
Cr. arr. Repeatable, maximum of 9 credits. F.S.
Prereq: 6 credits in political science
Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490B: Independent Study: Theory and Method
Cr. arr. Repeatable, maximum of 9 credits. F.S.
Prereq: 6 credits in political science
Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490C: Independent Study: Comparative Politics
Cr. arr. Repeatable, maximum of 9 credits. F.S.
Prereq: 6 credits in political science
Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490D: Independent Study: International Relations
Cr. arr. Repeatable, maximum of 9 credits. F.S.
Prereq: 6 credits in political science
Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.
POL S 490E: Independent Study: Extended credit
Cr. 1-2. Repeatable, maximum of 9 credits. F.S.
Prereq: 6 credits in political science
Extra study for any 300-Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 490H: Independent Study: Honors
Cr. arr. Repeatable, maximum of 9 credits. F.S.
Prereq: 6 credits in political science
Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

POL S 491: Senior Thesis
Cr. 3.
Prereq: 21 credits of POL S and permission of instructor
Written under the supervision of a Political Science faculty advisor.

POL S 496: Teaching Internship in Political Science
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.
Prereq: 12 credits in political science and permission of instructor
Undergraduate teaching experience through assisting an instructor with an introductory course in political science. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. Offered on a satisfactory-fail basis only.

POL S 497: Research Internship in Political Science
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.
Prereq: 12 credits in political science and permission of instructor
Undergraduate research experience through assisting on a scholarly project with an instructor in political science. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. Offered on a satisfactory-fail basis only.

POL S 498: Cooperative Education
Cr. R. Repeatable. F.S.SS.
Prereq: Permission of department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

POL S 499: Internship in Political Science
Cr. arr. Repeatable, maximum of 12 credits. F.S.SS.
Prereq: 6 credits in political science; junior or senior classification; and permission of internship coordinator
Work experience with a specific nongovernmental or governmental agency at the local, state, national, or international level, combined with academic work under faculty supervision. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

POL S 502: Political Analysis and Research
(3-0) Cr. 3. F.
Prereq: 6 credits in political science
Scope and methods of political science. Introduction to theoretical approaches and analytical reasoning in political science. Relationship of theory and data. Research design.

POL S 504: Proseminar in International Politics
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: 6 credits in political science or graduate standing
Overview of major theoretical and empirical works in the study of international politics and foreign policy. Realism, liberalism, and constructivism; conflict, alliances, and international economic relations.

POL S 505: Proseminar in Comparative Politics
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: 6 credits in political science or graduate standing
Foundations of comparative politics, the study of different political regimes. Political behavior, development, causes and consequences of democracy and authoritarianism. Contrasting research methods and designs.

POL S 506: Proseminar in American Politics
(3-0) Cr. 3.
Prereq: 6 credits in political science or graduate standing
Major theories and research on American government and politics. Modern democratic theory, institutional performance, and mass political behavior. Research methodologies including normative theory, behavioralism, and rational choice analysis.
POL S 507: Proseminar in Public Policy
(Dual-listed with POL S 407). (3-0) Cr. 3. F.
Prereq: Six credits in political science or graduate standing
An overview of the major theoretical approaches and empirical methods relevant to the study of public policy. Emphasis is placed on agenda setting, policy formation, policy sustainability, and policy analysis. Seminal writings by leading scholars will be reviewed. Leading quantitative and qualitative methodological tools for analyzing policy are presented.

POL S 509: Political Game Theory
(Dual-listed with POL S 409). (3-0) Cr. 3.
Prereq: ECON 101
Application of economics to political science in the study of nonmarket decision-making. Behavior of bureaucrats, elected officials, and voters. Market failure, collective action, representative democracies, direct democracies, logrolling, voter paradoxes, and game theory.

POL S 510: State Government and Politics
(3-0) Cr. 3.
Prereq: POL S 310
Comparative analysis of state political systems. Role of interest groups, political parties, legislatures, courts, and governors in state politics. Possible determinants of public policy outputs at the state level.

POL S 513: Intergovernmental Relations
(Dual-listed with POL S 413). (3-0) Cr. 3.
Prereq: 6 credits in POL S
Theories and practices of the American federal system. Politics and policy making among federal, state, and local governments.

POL S 515: Biorenewables Law and Policy
(Cross-listed with BRT). (3-0) Cr. 3. F.
Evaluation of the biorenewables field as it relates to the areas of law and policy. Primary emphasis on the following topics: concerns that motivated the development and expansion of the biorenewables field, a history of the interactions between biorenewable pathways. U.S. law and policy and controversies that have arisen from these interactions and their effects.

POL S 516: International Biorenewables Law & Policy
(Cross-listed with BRT). (3-0) Cr. 3. S.
Evaluation of the international biorenewables field as it relates to the areas of law and policy. Primary emphasis on the following topics: concerns that motivated the development and expansion of the field by adopting countries, a history of the interactions between biorenewable pathways. Law and policy in adopting countries and international controversies that have arisen from these interactions and their effects.

POL S 522: International Law
(Dual-listed with POL S 422). (3-0) Cr. 3.
Prereq: POL S 215 or POL S 251; junior classification
Legal aspects of international activities: state jurisdiction over territories and subjects, law of the sea, use of force, and judicial settlement of international disputes.

POL S 525: Mass Political Behavior
(3-0) Cr. 3.
Prereq: 6 credits in Political Science or graduate standing
An in-depth survey of the theoretical, empirical, and methodological works concerning mass political behavior in the United States. Substantive topics include political attitudes and ideologies, public opinion and voting behavior, and political psychology. Methods for studying mass behavior include survey research and experimental approaches.

POL S 530: Foundations of Western Political Thought
(Dual-listed with POL S 430). (Cross-listed with CL ST). (3-0) Cr. 3.
Prereq: 6 credits in political science, philosophy, or European history
Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law.

POL S 531: Modern Political Thought
(Dual-listed with POL S 431). (3-0) Cr. 3.
Prereq: 6 credits in political science, philosophy, or European history
Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, toleration, property, power, skepticism, and normative views of international politics.

POL S 533: E-goverment and Information Policy
(3-0) Cr. 3.
Legal and policy context of E-government development. Legal and regulatory policies on information management in governments, public policies that use information technologies to address economic and social concerns, and impacts on citizens and governmental organizations.

POL S 534: Legal and Ethical Issues in Information Assurance
(Cross-listed with CPR E, INFAS). (3-0) Cr. 3. S.
Prereq: Graduate classification; CPR E 531 or INFAS 531
Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.
POL S 535: Contemporary Political Philosophy
(Cross-listed with PHIL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: 6 credits of philosophy or political science
Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as liberalism, libertarianism, communitarianism, socialism, feminism. Normative assessments of socio-political institutions.

POL S 542: The Policy and Politics of Coastal Areas
(Dual-listed with POL S 442). (Cross-listed with C DEV). (3-0) Cr. 3. SS.
Exploration of political implications of coastal policy. Issues include:
"Carrying capacity," zoning, regulation of human development activities, tradeoffs between conservation and jobs, the quality of coastal lifestyle, and ways in which citizens participate in policy for coastal areas.

POL S 544: Comparative Public Policy
(3-0) Cr. 3.
Prereq: 6 credits in political science
How, why and to what effect governments deal with substantive policy problems differently. Environmental factors, ideologies, cultures, domestic policy making processes, and interest groups.

POL S 552: Comparative Foreign Policy
(Dual-listed with POL S 452). (3-0) Cr. 3. Alt. S., offered irregularly.
Prereq: POL S 251
Theoretical approaches to understanding foreign policy making and behavior through case studies of selected nations. Meets International Perspectives Requirement.

POL S 553: International Organization
(Dual-listed with POL S 453). (3-0) Cr. 3.
Prereq: POL S 251
Sources of international order in a variety of substantive areas such as international security, international trade and finance, the environment, and human rights: distribution of power, institutions, international law, and norms.

POL S 560: American Political Institutions
(Dual-listed with POL S 460). (3-0) Cr. 3.
Prereq: 6 credits in American government
Examination of policy-making and governance in a separation of powers system. Interaction between the chief executive, the legislature, administrative agencies, and the public. How political and legal forces affect policy makers and are reflected in public policies and programs.

POL S 569: Foundations of Public Administration
(3-0) Cr. 3.
Prereq: Graduate classification
Social, political, intellectual, and environmental factors contributing to the historical development and central issues of American Public Administration. Exploration of classic and contemporary texts of public administration emphasizing constitutional and civic roles of public servants, administrative responsibility in democratic governance and justice, and essential frameworks to identify managerial skills, perspectives, and resources for effective, equitable public service.

POL S 570: Politics and Management of Nonprofit Organizations
(3-0) Cr. 3.
Prereq: Graduate classification
Discussion of contemporary issues and perspectives shaping the policy development and management of national and international nonprofit organizations. Topics include an historic overview of nonprofit and philanthropic perspectives; exploration of nonprofit organization roles in public service provision; review of the legal framework influencing nonprofit governance; and consideration of capacity building issues such as strategic planning, board development, fundraising, human resources, and volunteer management.

POL S 571: Organizational Theory in the Public Sector
(3-0) Cr. 3.
Prereq: Graduate classification
Major theories of administrative organization, including motivations of administrators and organizations, comparisons of organizational arrangements, factors affecting organizational arrangements, and formal and informal decision-making structures.

POL S 572: Public Finance and Budgeting
(3-0) Cr. 3.
Prereq: Graduate classification
Fiscal role of government in a mixed economy; evaluation of sources of public revenue and credit; administrative, political, and institutional aspects of the budget and the budgetary process; alternative budget formats; skills required to analyze public revenue and spending. Spreadsheet use required.

POL S 573: Public Personnel Administration
(3-0) Cr. 3.
Prereq: Graduate classification
History and development of high-performance personnel administration in the public and nonprofit sectors regarding strategic planning, employee rights and responsibilities, performance assessment, collective bargaining, and civil-service systems. Basic competencies in the essential human resource management tools in recruitment, retention, employee development, compensation, discipline, and conflict resolution.
POL S 574: Policy and Program Evaluation  
(3-0) Cr. 3.  
Prereq: Graduate classification or 6 credits of political science  
Integration, application, and utilization of public administration and public policy concepts in the interpretation of results and effectiveness of public programs and the prediction of consequences for policymakers and administrators.

POL S 575: Management in the Public Sector  
(Dual-listed with POL S 475). (3-0) Cr. 3.  
Prereq: POL S 371  
Literature and research on organizational behavior and management theory with emphasis on applied aspects of managing contemporary public-sector organizations. Distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change.

POL S 577: Government, Business, and Society  
(Dual-listed with POL S 477). (3-0) Cr. 3. F.  
Prereq: 6 credits of POL S  
Diverse perspectives on the changing roles and relationships of business, government, and society for more effective policy decisions on corporate affairs. The changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; politics in the business-government relationship.

POL S 580: Ethics and Public Policy  
(Dual-listed with POL S 480). (3-0) Cr. 3.  
Prereq: 6 credits in political science  
Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making.

POL S 581: International Political Economy  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: 6 credits in political science  
Policy and politics surrounding trade, exchange-rate, and finance. Role of international actors in economic development; international organizations such as the World Trade Organization, International Monetary Fund, and World Bank; globalization.

POL S 587: Electronic Democracy  
(Dual-listed with POL S 487). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: Sophomore standing  
Impact of computers and the Internet on politics and policy. Positive and negative effects of information technology (IT) on selected topics such as hacking, cybercrime, cyberterrorism, cyberwarfare, privacy, civic participation, the sense of community, virtual cities, interest group behavior, viral media, campaigns, elections, and voting.

POL S 590: Special Topics  
Cr. 2-5. Repeatable. F.S.  
Prereq: 15 credits in political science, written permission of instructor

POL S 590A: Special Topics: American Political Institutions  
Cr. 2-5. Repeatable. F.S.  
Prereq: 15 credits in political science, written permission of instructor

POL S 590B: Special Topics: Public Law  
Cr. 2-5. Repeatable. F.S.  
Prereq: 15 credits in political science, written permission of instructor

POL S 590C: Special Topics: Political Theory and Methodology  
Cr. 2-5. Repeatable. F.S.  
Prereq: 15 credits in political science, written permission of instructor

POL S 590D: Special Topics: Comparative Government  
Cr. 2-5. Repeatable. F.S.  
Prereq: 15 credits in political science, written permission of instructor

POL S 590E: Special Topics: International Relations  
Cr. 2-5. Repeatable. F.S.  
Prereq: 15 credits in political science, written permission of instructor

POL S 590F: Special Topics: Policy Process  
Cr. 2-5. Repeatable. F.S.  
Prereq: 15 credits in political science, written permission of instructor

POL S 590G: Special Topics: Public Administration and Public Policy  
Cr. 2-5. Repeatable. F.S.  
Prereq: 15 credits in political science, written permission of instructor

POL S 590I: Special Topics: Internship  
Cr. 2-5. Repeatable. F.S.  
Prereq: 15 credits in political science, written permission of instructor

POL S 590T: Special Topics: Teaching Preparation  
Cr. 2-5. Repeatable. F.S.  
Prereq: 15 credits in political science, written permission of instructor
POL S 598: Graduate Student Internship  
Cr. 3-6. Repeatable, maximum of 6 credits. F.S.  
Prereq: 15 credits in political science, permission of the instructor  
Supervised internship with administrative agencies, legislative organizations, judicial branch offices, and nonprofit groups.

POL S 599: Creative Component  
Cr. arr.

Courses for graduate students:

POL S 610: Graduate Seminars  
(3-0) Cr. 3. Repeatable. F.S.  
Prereq: 15 credits in political science

POL S 610A: Graduate Seminars: American Political Institutions  
(3-0) Cr. 3. Repeatable. F.S.  
Prereq: 15 credits in political science

POL S 610B: Graduate Seminars: Public Law  
(3-0) Cr. 3. Repeatable. F.S.  
Prereq: 15 credits in political science

POL S 610C: Graduate Seminars: Political Theory and Methodology  
(3-0) Cr. 3. Repeatable. F.S.  
Prereq: 15 credits in political science

POL S 610D: Graduate Seminars: Comparative Government  
(3-0) Cr. 3. Repeatable. F.S.  
Prereq: 15 credits in political science

POL S 610E: Graduate Seminars: International Relations  
(3-0) Cr. 3. Repeatable. F.S.  
Prereq: 15 credits in political science

POL S 610F: Graduate Seminars: Policy Process  
(3-0) Cr. 3. Repeatable. F.S.  
Prereq: 15 credits in political science

POL S 610G: Graduate Seminars: Public Administration and Public Policy  
(3-0) Cr. 3. Repeatable. F.S.  
Prereq: 15 credits in political science

POL S 699: Thesis  
Cr. arr. Repeatable.

Psychology

For college-level requirements in undergraduate curricula leading to the degrees of bachelor of arts and bachelor of science, see Liberal Arts and Sciences, Curriculum.

An undergraduate major in psychology provides a liberal arts and science education, which also can serve as preparation for graduate study in psychology, law, or the health professions. The undergraduate major in psychology enables graduates to understand and apply the scientific principles, facts, and basic methods of psychology to their personal and professional activities. Students with a bachelor's degree (B.A./B.S.) in psychology may qualify for a variety of positions including those in social sciences, mental health, corrections, rehabilitation, developmental disability centers, and business (management, insurance, opinion polls). Professional work as a psychologist in academic, business, clinical, government, and school settings requires graduate degrees. Depending on professional goals, a minor in another discipline may be desirable.

Following the recommendations of the American Psychological Association, the undergraduate curriculum in psychology is designed to allow each student to:

1. Develop a detailed knowledge of psychology
2. Develop an understanding of scientific inquiry and demonstrate critical thinking
3. Understand the role of ethics and diversity in human behavior
4. Be able to communicate effectively in the discourse of psychology
5. Develop skills supporting employment or graduate/professional education

COMMUNICATION PROFICIENCY REQUIREMENT
According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 150</td>
<td>Critical Thinking and Communication</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 250</td>
<td>Written, Oral, Visual, and Electronic Composition</td>
<td>3</td>
</tr>
<tr>
<td>or ENGL 250H</td>
<td>Written, Oral, Visual, and Electronic Composition: Honors</td>
<td></td>
</tr>
</tbody>
</table>

The Department requires a C- or better in one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 302</td>
<td>Research Methods in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 302</td>
<td>Business Communication</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 309</td>
<td>Proposal and Report Writing</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 314</td>
<td>Technical Communication</td>
<td>3</td>
</tr>
</tbody>
</table>

The major must include the following psychology courses each with a minimum grade of C- and an average of C or better:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 101</td>
<td>Introduction to Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 102</td>
<td>Laboratory in Introductory Psychology</td>
<td>1</td>
</tr>
<tr>
<td>PSYCH 111</td>
<td>Orientation to Psychology or Psych 112 Learning Community</td>
<td>0.5</td>
</tr>
<tr>
<td>PSYCH 301</td>
<td>Research Design and Methodology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 440</td>
<td>Psychological Measurement</td>
<td>3</td>
</tr>
</tbody>
</table>
The major also must include at least one course from four of the following six areas:

**Area A**
- PSYCH 230 Developmental Psychology
- PSYCH 335 Abnormal Psychology of Children and Adolescents

**Area B**
- PSYCH 280 Social Psychology
- PSYCH 380 Social Cognition

**Area C**
- PSYCH 310 Brain and Behavior
- PSYCH 315 Drugs and Behavior

**Area D**
- PSYCH 312 Sensation and Perception
- PSYCH 313 Learning and Memory
- PSYCH 316 Cognitive Psychology

**Area E**
- PSYCH 360 Personality Psychology
- PSYCH 460 Abnormal Psychology

**Area F**
- PSYCH 250 Psychology of the Workplace
- PSYCH 350 Human Factors in Technology

Three additional 3-credit courses in psychology must be taken. Area courses may be used to meet this requirement, but variable credit courses (PSYCH 291, PSYCH 470, PSYCH 490, PSYCH 491, and PSYCH 492) may not.

In accordance with college requirements, a C or better average is required in the courses used to satisfy the major.

Departmental requirements for the B.A. and B.S. include the following supporting courses:

<table>
<thead>
<tr>
<th>Credits</th>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>6</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>PHIL 201</td>
<td>Introduction to Philosophy (not 207)</td>
<td>3</td>
</tr>
</tbody>
</table>

Two of the following
- BIOL 101 Introductory Biology (or higher)
- BIOL 155 Human Biology (or 255 or 256)
- BIOL 313 Principles of Genetics
- CHEM 160 Chemistry in Modern Society (or higher)
- PHYS 101 Physics for the Nonscientist (or higher)
- STAT 101 Principles of Statistics
- or STAT 104 Introduction to Statistics

Three additional 3-credit courses in mathematics from selected course list**

* minimum grade of C-

** Popular choices include Math 104, Math 140, Math 150, Math 165, and Stat 301. See general education mathematics list for alternative options. Neither Math 105 nor Math 106 may be used to satisfy this requirement.

Students pursuing a B.S. degree also must complete PSYCH 302 Research Methods in Psychology with a minimum grade of C- and a minimum of 10 additional credits from courses listed in the LAS Gen Ed Natural Sciences and Mathematical Disciplines Area as follows: six additional credits in natural sciences, one additional credit in a laboratory course, and three additional credits in mathematics. It should be noted that either Math 104 or Math 150 may be counted toward the B.S. degree requirement, but not both.

Students electing a B.A. degree also must complete an ISU approved minor.

The department offers a minor in psychology. The minor requires completing 18 credits in psychology, including PSYCH 101 Introduction to Psychology and PSYCH 301 Research Design and Methodology, each with a minimum grade of C-. At least 9 of the 18 credits must be in 300 level courses (or above), but no more than three credits total may be from PSYCH 291 Introductory Research Experience, PSYCH 490 Independent Study, PSYCH 491 Research Practicum, and PSYCH 492 Fieldwork Practicum. In addition to an overall C average or better in courses used to satisfy the minor, a C- or better is required in each course. Contact the psychology advising office for more information.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS foreign language requirement.

2. The university-wide Communication Proficiency Grade Requirement requires a grade of C or better in ENGL 250.
3. *Choose from list of selected courses available from an adviser.

**Graduate Study**

The department offers work for the degree of doctor of philosophy in psychology. A master of science may be earned as part of that degree.
The department offers a doctoral specialization in counseling psychology (APA accredited) and doctoral areas of concentration in cognitive psychology and social psychology.

A basic goal of graduate study in the Department of Psychology is to provide all students with a broad base of knowledge in psychological science, as well as exposure to the content and methodological skills necessary for effective performance in teaching, research and professional practice. Accordingly, graduates have an extensive knowledge of psychological principles and the conceptual and quantitative skills to conduct psychological research and to communicate the results to the scientific community, students in the classroom, and the general public. Graduates in counseling psychology are skilled in delivering services to diverse clientele in a variety of settings.

The department also participates in the interdepartmental programs in human computer interaction (http://www.vrac.iastate.edu/hci/), neuroscience (http://www.neuroscience.iastate.edu/) and in the interdepartmental minor in gerontology (http://www.gerontology.iastate.edu/programs/).

A formal class and a supervised practicum in the teaching of psychology is recommended for all doctoral students whose future plans may include teaching at the college level. A 12-month internship in a training site or agency approved by the faculty is required of all doctoral students in counseling psychology.

Courses primarily for undergraduates:

**PSYCH 101: Introduction to Psychology**
(3-0) Cr. 3. F.S.SS.
Fundamental psychological concepts derived from the application of the scientific method to the study of behavior and mental processes. Applications of psychology.

**PSYCH 102: Laboratory in Introductory Psychology**
(0-2) Cr. 1. F.S.
*Prereq: Credit or enrollment in PSYCH 101*
Laboratory to accompany 101.

**PSYCH 111: Orientation to Psychology**
Cr. 0.5. F.S.
Program requirements and degree/career options. Required of psychology majors. Offered on a satisfactory-fail basis only.

**PSYCH 112: Psychology Learning Community Seminar**
(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.
*Prereq: Participation in Freshman Learning Community*
Topics include orientation to academic program requirements, career awareness, strategies for successful transition to college, connections with other disciplines, and applying psychology via service learning opportunities. Offered on a satisfactory-fail basis only.

**PSYCH 131: Academic Learning Skills**
(1-0) Cr. 1. F.S.
Evidence-based approach to learning and applying academic skills such as time management, note-taking, reading, test preparation, goal setting and motivation, and well-being. Hybrid course structured in a team-based learning format.

**PSYCH 230: Developmental Psychology**
(3-0) Cr. 3. F.S.SS.
Life-span development of physical traits, cognition, intelligence, language, social and emotional behavior, personality, and adjustment.

**PSYCH 250: Psychology of the Workplace**
(3-0) Cr. 3.
Survey of theories and research methods of psychology applied to the workplace. Consideration of employee selection, training, performance evaluation, leadership, work groups, employee motivation, job attitudes and behaviors, organizational culture, organizational development, human factors, and job design from the scientist-practitioner approach.

**PSYCH 280: Social Psychology**
(3-0) Cr. 3. F.S.SS.
Individual human behavior in social contexts. Emphasis on social judgments and decisions, attitudes, perceptions of others, social influence, aggression, stereotypes, and helping.

**PSYCH 291: Introductory Research Experience**
Cr. 1-4. Repeatable, maximum of 4 credits. F.S.
*Prereq: PSYCH 101, sophomore classification, and permission of instructor.*
Beginning level supervised research experience in a faculty laboratory. Offered on a satisfactory-fail basis only.

**PSYCH 301: Research Design and Methodology**
(3-0) Cr. 3. F.S.SS.
*Prereq: STAT 101; 1 course in psychology*
Overview of the principal research techniques used in psychology with an emphasis on the statistical analysis of psychological data.

**PSYCH 302: Research Methods in Psychology**
(2-2) Cr. 3. F.S.
*Prereq: PSYCH 301, ENGL 250*
Discussion of and experience in designing research studies, collecting and analyzing data, and preparing research reports in psychology.
PSYCH 310: Brain and Behavior
(3-0) Cr. 3. F.S.
Prereq: PSYCH 101
Survey of basic concepts in the neurosciences with emphasis on brain mechanisms mediating sensory processes, arousal, motivation, learning, and abnormal behavior.

PSYCH 312: Sensation and Perception
(3-0) Cr. 3. F.S.
Prereq: PSYCH 101
Survey of the physiology and psychology of human sensory systems including vision, audition, smell, taste, the skin senses, and the vestibular senses.

PSYCH 313: Learning and Memory
(3-0) Cr. 3. F.S.
Prereq: PSYCH 101
Survey of fundamental concepts and theories related to learning and memory derived from human and animal research.

PSYCH 314: Motivation
(3-0) Cr. 3. F.S.
Prereq: PSYCH 101
Theory and research on motivation at biological, environmental, and psychological levels. Topics include emotion, eating, sex, music, addictions, incentives, goal performance, personality, coping, self-determination and purpose.

PSYCH 315: Drugs and Behavior
(3-0) Cr. 3. F.S.
Prereq: PSYCH 101
Biologically based examination of the effects of drugs on behavior and social interactions, including recreational drugs and drugs used in the treatment of psychiatric and neurological disorders.

PSYCH 316: Cognitive Psychology
(3-0) Cr. 3. F.S.
Prereq: PSYCH 101
Overview of human cognition, including sensation and perception, attention, memory, language, and judgment and decision making.

PSYCH 320: Sleep and Dreams
(3-0) Cr. 3. Alt. S., offered irregularly.
Prereq: PSYCH 101
Scientific study of sleep and dreams including basic biological and psychological aspects of sleep-wake cycles, the nature and function of dreams, and the role of sleep in human behavior, performance, and well-being. Sleep problems and their social consequences.

PSYCH 333: Educational Psychology
(Cross-listed with EDUC). (3-0) Cr. 3. F.S.
Prereq: PSYCH 230 or HD FS 102, application to the teacher education program or major in psychology
Psychological theories relevant to student development, learning, and motivation. Review of assessment principles and practices. Implications of theory for teaching children and for assessing learning in K-12 educational settings, with an emphasis on grades 5 – 12.

PSYCH 335: Abnormal Psychology of Children and Adolescents
(3-0) Cr. 3. F.S.
Prereq: PSYCH 101; PSYCH 230 or HDFS 102
Psychopathology of children and adolescents, including childhood depression and anxiety disorders. Consideration of multiple probable causes and corresponding therapies.

PSYCH 346: Psychology of Women
(Cross-listed with WGS). (3-0) Cr. 3. S.
Prereq: 2 courses in psychology including PSYCH 101
Survey of psychological research related to major biological, interpersonal, and cultural issues affecting girls’ and women’s psychological development and behavior.
Meets U.S. Diversity Requirement

PSYCH 347: U.S. Latino/a Psychology
(Cross-listed with US LS). (3-0) Cr. 3. S.
Prereq: Two courses in psychology including PSYCH 101
Historical, political, and social contexts of psychological and mental health constructs in terms of their validity and utility for use with Latino/a people in the U.S. Unique aspects of psychological functioning particular to Latino/a people in the U.S.
Meets U.S. Diversity Requirement

PSYCH 348: Psychology of Religion
(Cross-listed with RELIG). (3-0) Cr. 3.
Prereq: Nine credits in psychology
Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.

PSYCH 350: Human Factors in Technology
(3-0) Cr. 3. F.
Prereq: PSYCH 101; junior classification
Understanding human behavior and cognition in the context of modern technologies. Focus on emergent interactive technologies, human computer interaction, user centered design, usability analysis, and usability testing.
PSYCH 360: Personality Psychology  
(3-0) Cr. 3. F.S.SS.  
Prereq: PSYCH 101  
Historical and contemporary theory and research on development and expression of personality with a focus on normal functioning.

PSYCH 380: Social Cognition  
(3-0) Cr. 3.  
Prereq: PSYCH 101 or PSYCH 280  
How people understand themselves and others, including attitude formation and change, attribution, impression formation, social categories and schemas, the self, stereotypes, and prejudice.

PSYCH 381: Social Psychology of Small Group Behavior  
(Cross-listed with SOC). (3-0) Cr. 3. S.  
Prereq: SOC 305 or PSYCH 280  
A survey of small group theory and research from an interdisciplinary, social psychological perspective.

PSYCH 383: Psychology and Law  
(3-0) Cr. 3. F.S.  
Prereq: PSYCH 101 or PSYCH 280  
Survey of topics in the interface between psychology and the legal system including but not limited to Miranda warning, confessions, police interrogation, lie detection, juries, eyewitness identification, false memories, and the death penalty.

PSYCH 386: Media Psychology  
Cr. 3. F.S.SS.  
Prereq: PSYCH 101 or PSYCH 230 or PSYCH 280  
Theories and research on the psychological mechanisms (e.g., attitudes, perceptions, emotions, arousal) by which media influence children and adults. Topics include media violence, educational media, advertising, music, video games, media literacy, and ratings.

PSYCH 405: History of Psychology  
(Dual-listed with PSYCH 505). (3-0) Cr. 3. S.  
Prereq: 4 courses in psychology  
Origins of psychology in philosophy, physiology, medicine and religion. Development as a scientific discipline during the nineteenth and twentieth centuries. Historical overview of clinical practice and theory.

PSYCH 410: Behavioral Neurology  
(Dual-listed with PSYCH 510). (3-0) Cr. 3. F.  
Prereq: PSYCH 101; PSYCH 310 or equivalent.  
Examination of the neuroanatomical foundation of cognition, affect, and action from a neurological perspective. Focus on basic and applied research with neurological patients.

PSYCH 411: Evolutionary Psychology  
(3-0) Cr. 3. S.  
Prereq: Junior classification, three courses in psychology; one course in biology  
Examination of the application of the principles of evolutionary biology to the understanding of human behavior. Evolutionary perspectives on brain development, cognition, language, mating behavior, sex differences, altruism, artistic behavior, and criminal behavior are explored. Arguments by those critical of the evolutionary approach to psychology are also examined.

PSYCH 413: Psychology of Language  
(Cross-listed with LING). (3-0) Cr. 3.  
Prereq: PSYCH 101  
Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes.

PSYCH 422: Counseling Theories and Techniques  
(3-0) Cr. 3. F.  
Prereq: 3 courses in psychology  
Overview of the major counseling theories and techniques, with emphasis on the key concepts of each theory, the role of the counselor, therapeutic goals, and the main techniques derived from each theory.

PSYCH 422L: Laboratory in Counseling Theory and Techniques  
(0-2) Cr. 1. F.  
Prereq: Three classes in psychology and credit or enrollment in PSYCH 422.  
Learn basic counseling skills such as active listening, reflecting feelings, empathy, confrontation, immediacy and self-disclosure. Supervised practice using basic counseling skills.

PSYCH 440: Psychological Measurement I  
(2-2) Cr. 3. F.S.SS.  
Prereq: PSYCH 301 and 9 credits in psychology, STAT 101  
Principles of psychological measurement, including concepts of reliability and validity; interpretation of scores; factors influencing performance; construction and use of measures of ability, achievement, and personality.

PSYCH 450: Industrial Psychology  
(3-0) Cr. 3. F.S.  
Prereq: 2 courses in psychology including PSYCH 101, STAT 101  
Theory, content and methods of industrial psychology related to the effective operation of organizations. Application of psychology principles to topics including different approaches used to select employees, how to conduct performance appraisals, and how to train and keep employees safe. Work attitudes and behaviors of employees as well as relevant legal issues. Statistics including regression and correlation are used.
PSYCH 460: Abnormal Psychology
(3-0) Cr. 3. F.S.S.S.
Prereq: 3 courses in psychology including PSYCH 101
Description of major forms of psychopathology including anxiety, mood disorders, personality disorders, substance abuse, and schizophrenia. Coverage of research examining causes, development, and clinical issues concerning psychopathology.

PSYCH 470: Seminar in Psychology
(1-0) Cr. 1-3. Repeatable.
Prereq: 12 credits in psychology
Current topics in psychological research and practice in the following areas.

PSYCH 470A: Seminar in Psychology: Counseling
(1-0) Cr. 1-3. Repeatable.
Prereq: 12 credits in psychology

PSYCH 470B: Seminar in Psychology: Experimental
(1-0) Cr. 1-3. Repeatable.
Prereq: 12 credits in psychology

PSYCH 470C: Seminar in Psychology: Individual Differences
(1-0) Cr. 1-3. Repeatable.
Prereq: 12 credits in psychology

PSYCH 470D: Seminar in Psychology: Social
(1-0) Cr. 1-3. Repeatable.
Prereq: 12 credits in psychology

PSYCH 484: Psychology of Close Relationships
(3-0) Cr. 3.
Prereq: 9 credits in psychology including PSYCH 280
Theories and research concerning the functions, development, and deterioration of close relationships. Influence of psychological processes on friendship, romantic, marital, and family relationships. Topics include mate selection, interdependence, trust and commitment, power and dominance in relationships, sexuality, divorce, gender roles, and family interaction.

PSYCH 485: Health Psychology
(3-0) Cr. 3. F.
Prereq: Junior classification, 6 credits in psychology
Application of psychological theory and research methods to issues in physical health. Psychological factors in illness prevention, health maintenance, treatment of illness, recovery from injury and illness, and adjustment to chronic illness.

PSYCH 487: Human Aggression
(3-0) Cr. 3. S.
Prereq: PSYCH 230 or PSYCH 280; PSYCH 301; PSYCH 313, PSYCH 316, PSYCH 318, PSYCH 360, or PSYCH 380
Theory and research on development and occurrence of human aggression; implications for prevention and treatment.

PSYCH 488: Cultural Psychology
(3-0) Cr. 3.
Prereq: PSYCH 280 and PSYCH 301; junior classification
Examination of the ways that cultural beliefs, values, and affordances shape cognitive, developmental, social and other psychological phenomena, as well as the forces that shape and change culture. Meets International Perspectives Requirement.

PSYCH 490: Independent Study
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.S.S.
Prereq: Junior classification, 6 credits in psychology, and permission of instructor
Supervised reading in an area of psychology. Writing requirement. No more than 9 credits of Psych 490 may be counted toward a degree in psychology.

PSYCH 491: Research Practicum
Cr. arr. Repeatable, maximum of 9 credits. F.S.S.S.
Prereq: Junior classification, permission of instructor, and credit or enrollment in PSYCH 301
Supervised research in an area of psychology. Primarily for students intending to pursue graduate education. No more than 9 credits of Psych 491 may be counted toward a degree in psychology.

PSYCH 492: Fieldwork Practicum
Cr. arr. Repeatable, maximum of 9 credits. F.S.S.S.
Prereq: Junior classification, 12 credits in psychology, and permission of instructor
Supervised fieldwork in one of the following applied psychology settings. Offered on a satisfactory-fail basis only. No more than 9 credits of Psych 492 may be counted toward a degree in psychology.

PSYCH 492A: Fieldwork Practicum: Human Services
Cr. arr. Repeatable, maximum of 9 credits. F.S.S.S.
Prereq: Junior classification, 12 credits in psychology and permission of instructor
Offered on a satisfactory-fail basis only.

PSYCH 492B: Fieldwork Practicum: I/O Psychology
Cr. arr. Repeatable, maximum of 9 credits. F.S.S.S.
Prereq: Junior classification, 12 credits in psychology including PSYCH 450 or PSYCH 250 and enrollment in PSYCH 450, and permission of instructor
Offered on a satisfactory-fail basis only.
Courses primarily for graduate students, open to qualified undergraduates:

PSYCH 501: Foundations of Behavioral Research  
(3-0) Cr. 3. F.S.  
Prereq: STAT 401 or equivalent  
Ethical issues, research design, sampling design, measurement issues, power and precision analysis, interpretation of statistical results in non-experimental, quasi-experimental, and experimental research, use of statistical packages.

PSYCH 505: History of Psychology  
(Dual-listed with PSYCH 405). (3-0) Cr. 3. S.  
Prereq: 4 courses in psychology  
Origins of psychology in philosophy, physiology, medicine and religion. Development as a scientific discipline during the nineteenth and twentieth centuries. Historical overview of clinical practice and theory.

PSYCH 508: Research Methods in Applied Psychology  
(3-0) Cr. 3.  
Prereq: PSYCH 440 and PSYCH 501 or STAT 401  
Methods and issues in applied psychological research. Role of theory in research, fidelity of measurement, selection of subjects, sampling, ethical issues, experimenter bias, data collection methods, power analysis, and professional standards for writing research articles. Emphasis on research methodological issues, not statistical issues.

PSYCH 510: Behavioral Neurology  
(Dual-listed with PSYCH 410). (3-0) Cr. 3. F.  
Prereq: PSYCH 101; PSYCH 310 or equivalent.  
Examination of the neuroanatomical foundation of cognition, affect, and action from a neurological perspective. Focus on basic and applied research with neurological patients.

PSYCH 516: Advanced Cognition  
(3-0) Cr. 3. F.S.  
Prereq: PSYCH 316  
Theoretical models and empirical research in human cognition including perception, attention, memory, concepts/categorization, imagery, and judgment and decision making.

PSYCH 519: Cognitive Neuropsychology  
(3-0) Cr. 3.  
Prereq: PSYCH 310 and PSYCH 316 or PSYCH 313; graduate classification or permission of instructor  
Psychological models and related neurological substrates underlying cognition in normal and brain-damaged individuals.

PSYCH 521: Cognitive Psychology of Human Computer Interaction  
(Cross-listed with HCI). (3-0) Cr. 3.  
Prereq: Graduate classification or instructor approval  
Biological, behavioral, perceptual, cognitive and social issues relevant to human computer interactions.

PSYCH 522: Scientific Methods in Human Computer Interaction  
(Cross-listed with HCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: PSYCH 521 and STAT 101 or equivalent  
Basics of hypothesis testing, experimental design, analysis and interpretation of data, and the ethical principles of human research as they apply to research in human computer interaction.

PSYCH 533: Theories of Learning  
(Cross-listed with EDUC). (3-0) Cr. 3. F.  
Major theories of learning and cognition in educational settings. Emphasis on behavioral, cognitive, constructivist, and sociocultural theories and their implications for educational policy and practice.

PSYCH 538: Developmental Disabilities  
(Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: 9 credits in human development and family studies or psychology or permission of instructor  
Theories, research, and current issues regarding the intersection of development and disabilities. Investigation of interventions with individuals and families. (on-line course offering via Distance Education).

PSYCH 542: Applied Psychological Measurement  
(3-0) Cr. 3. F.  
Prereq: PSYCH 440  
Principles of psychological measurement, including concepts of reliability and validity; interpretation of scores; factors influencing performance; test construction and use of measures of intelligence, ability, achievement, vocational interest, and personality. Ethical and multicultural issues in measurement.

PSYCH 544: Practicum in Assessment  
(2-1) Cr. 2. F.S.  
Prereq: PSYCH 542 and admission into the PhD program in counseling psychology  
Supervised practice in integration of clinical interviewing, behavioral observation, and administration, scoring, and interpreting individual tests of cognitive function.

PSYCH 560: Advanced Personality Psychology  
(3-0) Cr. 3.  
Prereq: 4 courses in psychology, including PSYCH 360  
Advanced analysis of contemporary theory and research on personality measurement, development, heritability, and social expression.
PSYCH 561: Psychopathology and Behavior Deviations
(3-0) Cr. 3.
Prereq: PSYCH 460
Examination of DSM and research based perspectives pertinent to the major forms of adult psychopathology including: anxiety, mood, psychotic, personality and other disorders. Coverage of research examining causes, development, and clinical issues concerning adult psychopathology.

PSYCH 562: Personality Assessment
(3-0) Cr. 3.
Prereq: PSYCH 360, PSYCH 440, PSYCH 542, and PSYCH 501 or STAT 401 and admission to the PhD program in counseling psychology
Principles, concepts, and methods of personality assessment. Though not a practicum course, exposure is given to a variety of objective, projective, and situational tests.

PSYCH 580: Advanced Social Psychology: Psychological Perspectives
(3-0) Cr. 3.
Prereq: 4 courses in psychology, including PSYCH 280
Current theories, methods, and research in social psychology with an emphasis on cognitive and interpersonal processes such as attribution, social cognition, attitude change, attraction, aggression, and social comparison.

PSYCH 590: Special Topics
Cr. arr. Repeatable.
Prereq: 12 credits in psychology, and permission of instructor
Guided reading on special topics or individual research projects in the following areas.

PSYCH 590A: Special Topics: Counseling
Cr. arr. Repeatable.
Prereq: 12 credits in psychology, and permission of instructor

PSYCH 590Q: Special Topics: Cognitive
Cr. arr. Repeatable.
Prereq: 12 credits in psychology, and permission of instructor

PSYCH 590R: Special Topics: Social
Cr. arr. Repeatable.
Prereq: 12 credits in psychology, and permission of instructor

PSYCH 590Z: Special Topics: General
Cr. arr. Repeatable.
Prereq: 12 credits in psychology, and permission of instructor

PSYCH 592: Seminar in Psychology
(1-0) Cr. 1-3. Repeatable.
Prereq: 12 hours in psychology or graduate classification.
Seminar in the following areas.

PSYCH 592C: Seminar in Psychology: Developmental
(1-0) Cr. 1-3. Repeatable. F.S.
Prereq: 12 hours in psychology or graduate classification.

PSYCH 592P: Seminar in Psychology: Research Methods and Psychometrics
(1-0) Cr. 1-3. Repeatable.
Prereq: 12 hours in psychology or graduate classification.

PSYCH 592Z: Seminar in Psychology: General
(1-0) Cr. 1-3. Repeatable.
Prereq: 12 hours in psychology or graduate classification.

PSYCH 594: Quantitative Behavioral Methods
(1-0) Cr. 1. F.S.
Prereq: PSYCH 501 or equivalent
Specialized quantitative methods for social and behavioral research problems in the following areas.

PSYCH 594A: Quantitative Behavioral Methods: Classical psychometric theory
(1-0) Cr. 1. F.S.
Prereq: PSYCH 501 or equivalent

PSYCH 594B: Quantitative Behavioral Methods: Modern psychometric methods
(1-0) Cr. 1. F.S.
Prereq: PSYCH 501 or equivalent

PSYCH 594C: Quantitative Behavioral Methods: Construct validation
(1-0) Cr. 1. F.S.
Prereq: PSYCH 501 or equivalent

PSYCH 594D: Quantitative Behavioral Methods: Multi-dimensional scaling
(1-0) Cr. 1. F.S.
Prereq: PSYCH 501 or equivalent

PSYCH 594E: Quantitative Behavioral Methods: Cluster Analysis
(1-0) Cr. 1. F.S.
Prereq: PSYCH 501 or equivalent

PSYCH 594F: Quantitative Behavioral Methods: Meta-analysis
(1-0) Cr. 1. F.S.
Prereq: PSYCH 501 or equivalent

PSYCH 594G: Quantitative Behavioral Methods: Longitudinal analysis
(1-0) Cr. 1. F.S.
Prereq: PSYCH 501 or equivalent

PSYCH 594I: Quantitative Behavioral Methods: Focus Groups
(1-0) Cr. 1. F.S.
Prereq: PSYCH 501 or equivalent
PSYCH 594K: Quantitative Behavioral Methods: Mediation and Moderation  
(1-0) Cr. 1. F.S.  
Prereq: PSYCH 501 or equivalent  
Specialized quantitative methods for social and behavioral research problems.

PSYCH 594L: Quantitative Behavioral Methods: Missing Data  
(1-0) Cr. 1. F.S.  
Prereq: PSYCH 501 or equivalent.  
Specialized quantitative methods for social and behavioral research problems.

PSYCH 594M: Quantitative Behavioral Methods: Power Analysis  
(1-0) Cr. 1. F.S.  
Prereq: PSYCH 501 or equivalent.  
Specialized quantitative methods for social and behavioral research problems.

PSYCH 595: Seminar in Social Psychology  
Cr. 1-3. Repeatable. F.S.  
Prereq: 12 credits in Psychology  
Seminar in the following areas in social psychology.

PSYCH 595A: Seminar in Social Psychology: Social Cognition  
Cr. 1-3. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 595B: Seminar in Social Psychology: Aggression  
Cr. 1-3. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 595C: Seminar in Social Psychology: Culture  
Cr. 1-3. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 595D: Seminar in Social Psychology: Attitudes and Attitude Change  
Cr. 1-3. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 595E: Seminar in Social Psychology: Psychology and Law  
Cr. 1-3. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 595G: Seminar in Social Psychology: Close Relationships  
Cr. 1-3. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 595I: Seminar in Social Psychology: General  
Cr. arr. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 596: Seminar in Counseling Psychology  
Cr. arr. Repeatable. F.S.  
Prereq: 12 credits in Psychology  
Seminar in the following areas in counseling psychology.

PSYCH 596A: Seminar in Counseling Psychology: Supervision  
Cr. arr. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 596B: Seminar in Counseling Psychology: Research  
Cr. arr. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 596C: Seminar in Counseling Psychology: Multicultural  
Cr. arr. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 596D: Seminar in Counseling Psychology: Professional Issues and Ethics  
Cr. arr. Repeatable. F.S.  
Prereq: 12 credits in Psychology

PSYCH 597: Internship in Psychology  
Cr. R.  
Prereq: M.S. degree candidacy, permission of instructor  
Full-time, non-clinical, supervised experience in a setting relevant to psychology. Intended for master's degree level internships.

PSYCH 598: Seminar in Cognitive Psychology  
Cr. 0. Repeatable. F.S.  
Prereq: PSYCH 516, PSYCH 501 or STAT 401.  
Seminar in the following areas in cognitive psychology.

PSYCH 598A: Seminar in Cognitive Psychology: Attention and Perception  
Cr. arr. Repeatable. F.S.  
Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598B: Seminar in Cognitive Psychology: Memory  
Cr. arr. Repeatable. F.S.  
Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598C: Seminar in Cognitive Psychology: Cognitive Neuroscience  
Cr. arr. Repeatable. F.S.  
Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598D: Seminar in Cognitive Psychology: Judgment and Decision Making  
Cr. arr. Repeatable. F.S.  
Prereq: PSYCH 516, PSYCH 501 or STAT 401
PSYCH 598E: Seminar in Cognitive Psychology: Evolution
Cr. arr. Repeatable. F.S.
Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598F: Seminar in Cognitive Psychology: Language
Cr. arr. Repeatable. F.S.
Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598G: Seminar in Cognitive Psychology: Applied
Cr. arr. Repeatable. F.S.
Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 598I: Seminar in Cognitive Psychology: General
Cr. arr. Repeatable. F.S.
Prereq: PSYCH 516, PSYCH 501 or STAT 401

PSYCH 599: Creative Component
Cr. arr.
Offered on a satisfactory-fail basis only.

Courses for graduate students:

PSYCH 605: Multi-level Modeling
(Cross-listed with HD FS). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: HD FS 503 and HD FS 505 or STAT 404 or permission of instructor
Rationale for and interpretation of random coefficient models. Strategies for the analysis of multi-level and panel data including models for random intercepts, random slopes, and growth curves.

PSYCH 621: Psychological Counseling -Theory and Process
(3-0) Cr. 3. F.
Prereq: 3 courses in psychology and permission of instructor
Overview of major counseling theories with emphases upon: key concepts of theories, the role of the counselor, and applications of theory in fostering client change.

PSYCH 621L: Psychological Counseling -Theory and Process: Techniques in Counseling
(0-6) Cr. 3. F.
Prereq: permission of instructor required
Development of basic counseling skills and techniques through observation, role-playing, case studies, and supervised counseling sessions.

PSYCH 623: Vocational Behavior
(3-0) Cr. 3.
Prereq: 3 courses in psychology or graduate classification
Theoretical views, research, and issues in career development through the life span. Methods of career counseling, including appraisal interviewing, assessment, test interpretation, and use of information sources.

PSYCH 626: Group Counseling
(2-2) Cr. 3.
Prereq: Graduate classification
Theory, research, ethical issues, and therapeutic considerations relevant to group counseling. Participation in lab exercises for development of group counseling skills and observation of ongoing groups.

PSYCH 633: Teaching of Psychology
(3-0) Cr. 3. S.
Prereq: Enrollment in doctoral degree program in psychology and permission of instructor
Orientation to teaching of psychology at college level: academic issues and problems, instructional and evaluative techniques.

PSYCH 691: Practicum in Psychology
Cr. arr. F.S.
Prereq: Prereg: Permission of instructor
Supervised practice and experience in the following fields of specialization in applied psychology.

PSYCH 691A: Practicum in Psychology: Counseling (Beginning)
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.
Prereq: PSYCH 621L

PSYCH 691B: Practicum in Psychology: Counseling (Intermediate)
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.
Prereq: Permission of instructor, PSYCH 691A

PSYCH 691C: Practicum in Psychology: Counseling (Advanced)
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.
Prereq: Permission of instructor, PSYCH 691A, PSYCH 691B

PSYCH 691D: Practicum in Psychology: Counseling (Advanced External Practicum)
Cr. 1-3. Repeatable. F.S.
Prereq: Permission of instructor, PSYCH 691A, PSYCH 691B

PSYCH 691E: Practicum in Psychology: Group Counseling
Cr. 1-3. F.S.
Prereq: Prereg: Permission of instructor, PSYCH 626, PSYCH 691A

PSYCH 691S: Practicum in Psychology: Supervision
Cr. 1-3. F.S.
Prereq: Permission of instructor, PSYCH 592A, PSYCH 621L

PSYCH 691T: Practicum in Psychology: Teaching
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.
Prereq: Permission of instructor, PSYCH 633
Offered on a satisfactory-fail basis only.
Public Relations

The Public Relations Major

The public relations major provides students with the concepts, skills, and expertise needed to help organizations build mutually beneficial relationships with diverse publics. The knowledge and tools students develop through the P R curriculum ensure they can enter fields such as corporate communication, government affairs, and public relations firms. Coursework in this major focuses on writing, research, digital and emerging media, and professional abilities. Students are required to complete a capstone internship experience to practice and refine their skills.

To receive a bachelor of science degree in public relations, a student must earn at least 120 credits. A minimum of 72 credits must come from courses other than ADVRT, JL MC or P R. At least 50 of these credits must come from the liberal arts and sciences. Overall, at least 45 credits must be from 300-level or above.

The degree requirements allow for a minimum of 34 credits and a maximum of 48 credits to be taken in ADVRT, JL MC and P R. These include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JL MC 101</td>
<td>Mass Media and Society</td>
<td>3</td>

Public relations majors are also required to take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 101</td>
<td>Principles of Statistics (or another approved statistics course)</td>
<td>4</td>
</tr>
</tbody>
</table>

Additional recommended courses and requirements for the public relations major are available from the Greenlee School.

Students taking one major at the school may not seek a second major or a minor in the school. All Greenlee School majors are required to take a second major or minor outside the school as an area of expertise. All Greenlee School majors are required to take 499A. Greenlee majors and minors cannot take ADVRT, JL MC or P R courses pass/not pass.

Minor in Public Relations

Students cannot select more than one minor in the Greenlee School of Journalism and Communication. Minors in the Greenlee School are not available to Greenlee majors.

For a minor in public relations, students complete 15 credits.

**For 300- and 400-level choices, please choose from the list of selected courses available from an academic adviser. You may schedule an appointment with an adviser by either calling 515-294-4342 or visiting with Greenlee School office staff at 101 Hamilton Hall.**
University Requirement: Students in all ISU majors must complete a three-credit course in U.S. Diversity, as well as a three-credit course in International Perspectives. The approved course lists are found at the following web addresses: (U.S. Diversity) http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses and (International Perspectives) http://www.registrar.iastate.edu/students/div-ip-guide/IntlPerspectives-current. Students must also demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

College of LAS Requirement: Minimum of 120 credits, including a minimum of 45 credits at the 300-level and above. You must also complete the LAS Foreign Language requirement and any unmet ISU admission requirements.

Minor or Second Major: Students are required to fulfill a secondary area of expertise. This requirement can be met by declaring a minor or a second major outside of the Greenlee School of Journalism and Communication.

Courses primarily for undergraduates:

P R 220: Principles of Public Relations
(3-0) Cr. 3.
Introduction to public relations in business, government and non-profit organizations; functions, processes, and management; ethics, public opinion and theory.

P R 301: Research and Strategic Planning for Advertising and Public Relations
(Cross-listed with ADVRT). (3-0) Cr. 3.
Prereq: ADVRT 230 or P R 220
The use of primary and secondary research for situations, organizations and the public. Formation and development of strategic plans for public relations and advertising students.

P R 305: Publicity Methods
(3-0) Cr. 3.
Prereq: ENGL 250, Sophomore classification
Communication and publicity fundamentals and the use of media for publicity purposes. Not available to Greenlee School majors.

P R 321: Public Relations Writing
(2-2) Cr. 3.
Prereq: JL MC 110 and minimum of C+ in JL MC 201; ADVRT/P R 301 credit or concurrent enrollment.
Developing and writing public relations materials with an emphasis on media relations and news. Techniques addressed include media kits, brochures, newsletters, digital media and speeches.

P R 390: Professional Skills Development
(Cross-listed with ADVRT, JL MC). Cr. 1-3. Repeatable, maximum of 6 credits. F.S.
Prereq: Minimum of C+ in JL MC 201; other vary by topic. Instructor permission for non-majors.
Check with Greenlee School for course availability.

P R 420: Crisis Communication
(3-0) Cr. 3.
Prereq: P R 220
Public relations strategies and tactics for crisis situations to protect and recover an organization's reputation: public behavior in crisis, crisis assessment, crisis communication plan, media training for leaders and spokespersons, apology strategy, corporate social responsibility, rumor in social media and reputation management.

P R 424: Public Relations Campaigns
(3-0) Cr. 3.
Prereq: Minimum of C+ in P R 321; ADVRT/P R 301.
Developing public relations and public information campaigns for business and social institutions.

P R 490: Independent Study in Communication
Cr. arr.
Prereq: Junior classification and contract with supervising professor to register.
Projects during which students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a reportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. No more than 3 credits of ADVRT/JLMC/PR 490 may be used toward a degree in the Greenlee School.

P R 497: Special Topics in Communication
(Cross-listed with ADVRT, JL MC). Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: Junior classification. See Schedule of Classes for possible prerequisites.
Seminars or one-time classes on topics of relevance to students in communication.
**P R 499: Professional Media Internship**  
Cr. 1-3. F.S.S.  
Prereq: JL MC majors: JL MC 110 and minimum of C+ in JL MC 202 or JL MC 206 or P R 321; ADVRT majors: JL MC 110 and minimum of C+ in JL MC 201 and ADVRT 301; P R majors: JL MC 110, PR 301 and minimum of C+ in P R 321. All students, formal faculty adviser approval.  
Required of all Greenlee School majors. A 400-hour (for 3 credits) internship in the student’s journalism and mass communication or advertising or public relations specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

**P R 499A: Professional Media Internship: Required**  
Cr. 3. F.S.S.  
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 302 or JL MC 306; ADVRT majors: JLMC 110 and minimum of C+ in JL MC 201 and ADVRT 301; P R majors: JLMC 110, PR 301 and minimum of C+ in P R 321. All students, formal faculty adviser approval.  
Initial, required internship. A 400-hour (for 3 credits) internship in the student’s specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

**P R 499B: Professional Media Internship: Optional**  
Cr. 1-3. F.S.S.  
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 302 or JL MC 306; ADVRT majors: JLMC 110 and minimum of C+ in JL MC 201 and ADVRT 301; P R majors: JLMC 110, PR 301 and minimum of C+ in P R 321. All students, formal faculty adviser approval.  
Optional internship in the student’s specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

---

### Religious Studies

#### Religious Studies - Undergraduate Study

Religious studies gives students the opportunity to investigate and reflect on the world’s religions in an objective, critical, and appreciative manner. Though there is emphasis in religious studies on the wide variety of religious phenomena as well as on the various methods in the study of religion, the aim is to help students develop their own integrated understanding of the nature of religion and its role in individual and social life.

Graduates of the religious studies program have knowledge of the religious diversity in the United States and the world. They have the ability to interpret religion empathetically and critically and to compare and contrast historical and contemporary differences and similarities of religious systems. They understand ways in which religion influences and is influenced by the historical, social, and cultural contexts in which religious systems function. Graduates often pursue careers in non-profit, community organizations; apply to professional schools or graduate programs; or enter seminaries to prepare for ministry.

The major in religious studies seeks to provide both breadth and depth. Breadth is provided through the exploration of the world’s various religious traditions and through exposure to a variety of theoretical approaches and methodologies in the academic study of religion. Depth is achieved through specialized courses in particular religious traditions and particular issues in the study of religions, culminating in research seminars. The objective is to expose the student to various components of the discipline of Religious Studies and by doing so develop skills that are valuable in a number of careers and that provide the necessary foundation for pursuing graduate studies.

Students pursuing a major in religious studies must complete a minimum of 33 credits, including the following requirements:

<table>

13  12

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check [http://www.registrar.iastate.edu/courses/div-ip-guide.html](http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS foreign-language requirement.

1 Laboratory science recommended.

2 According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

The program offers a minor that may be earned by completing a total of 15 credits in religious studies including either RELIG 205 Introduction to World Religions or RELIG 210 Religion in America. Nine hours must be in courses at the 300 level or above (no more than 3 hours of seminar and no more than 3 hours of independent study).

Students may choose to do a senior thesis under the supervision of a religious studies faculty adviser. This option may earn 3-6 credits toward the completion of the major.

**Religious Studies - Graduate Study**

Religious studies may be one of the three areas used for the interdisciplinary graduate studies master's degree.

Courses primarily for undergraduates:

**RELIG 205: Introduction to World Religions**
(3-0) Cr. 3. F.S.SS.

An introduction to the academic study of religions, including myths, beliefs, rituals, values, social forms. Examples chosen from oral cultures and major religions of the world.

Meets International Perspectives Requirement.

**RELIG 210: Religion in America**
(3-0) Cr. 3. F.S.SS.

Introductory study of the major beliefs, practices, and institutions of American Judaism, Catholicism, Protestantism, and Islam with emphasis on the diversity of religion in America, and attention to issues of gender, race, and class.

Meets U.S. Diversity Requirement

**RELIG 220: Introduction to the Bible**
(3-0) Cr. 3. F.S.

Basic overview of the contents of the Old and New Testament in light of their ancient socio-historical background, and with attention to a variety of interpretations and relevance to modern American society.
RELIG 242: History of Christianity: Beginnings to the Reformation  
(3-0) Cr. 3. F.S.S.  
A survey of the major historical developments in Christian thought and practice that shaped Christianity from the time of Jesus through the late medieval period. Attention given to significant persons and major events, including those involving relations with Judaism and Islam.  
Meets International Perspectives Requirement.  

RELIG 243: History of Christianity: The Reformation to the Present  
(3-0) Cr. 3. F.S.S.  
A survey of the major events, issues, and persons that contributed to the Protestant Reformation, the Catholic Counter-Reformation, and the proliferation of Christian denominations. Attention to selected responses of churches to major sixteenth-early twenty-first century developments.  

RELIG 280: Introduction to Catholicism  
(3-0) Cr. 3. F.  
An explanation of the beliefs, spirit, and practices of Roman Catholicism, including its understanding of God, sacramentality, the human person, and community, and its relationship to other forms of Christianity and other world religions.  

RELIG 321: Old Testament  
(3-0) Cr. 3. F.  
An in-depth study of the literature and religion of ancient Israel in light of recent archaeological discoveries, research about the ancient Near East, and a variety of interpretations.  

RELIG 322: New Testament  
(3-0) Cr. 3. S.  
A detailed survey of the sacred scriptures of Christianity in light of recent archaeological discoveries and historical research about their Greco-Roman and Jewish background.  

RELIG 324: Christianity and Science  
(3-0) Cr. 3. S.  
Prereq: BIOL 101, or another science course taught at ISU  
Examines major challenges to Christianity's understandings of creation posed by the sciences; attention given to the relations of Christianity and science, and to Christianity's responses to ecological issues.  

RELIG 323: Introduction to Judaism  
(3-0) Cr. 3.  
An introduction to basic Judaism. Special attention is given to Jewish sacred texts, rituals, social practices, and modern forms.  
Meets International Perspectives Requirement.  

RELIG 334: African American Religious Experience  
(Cross-listed with AF AM). (3-0) Cr. 3. F.  
Prereq: Prior course work in Religious Studies or African American Studies recommended  
Examination of African-American experience from the perspective of black religion with attention to political, economic, social, theological and artistic expressions, including music, that serve the life of African-American communities.  
Meets U.S. Diversity Requirement  

RELIG 336: Women and Religion  
(Cross-listed with WGS). (3-0) Cr. 3. F.  
Prereq: RELIG 205, RELIG 210 or WGS 201 recommended  
Examines the status of women in various religions, feminist critiques of religious structures and belief systems, and contemporary women's spirituality movements.  
Meets U.S. Diversity Requirement  

RELIG 340: Magic, Witchcraft, and Religion  
(Dual-listed with RELIG 540). (Cross-listed with ANTHR). (3-0) Cr. 3. S.  
Prereq: ANTHR 201 or ANTHR 306  
Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.  
Meets International Perspectives Requirement.  

RELIG 342: Religion and U.S. Latino/a Literature  
(Cross-listed with US LS). (3-0) Cr. 3. Alt. S., offered odd-numbered years.  
A study of the religious behavior and attitudes expressed in the literature of Mexican Americans, Puerto Ricans, Cuban Americans and other groups of people living in the U.S. who trace their ancestry to the Spanish-speaking countries of Latin America.  
Meets U.S. Diversity Requirement  

RELIG 348: Psychology of Religion  
(Cross-listed with PSYCH). (3-0) Cr. 3.  
Prereq: Nine credits in psychology  
Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.  

RELIG 350: Philosophy of Religion  
(Cross-listed with PHIL). (3-0) Cr. 3. F.  
Prereq: 6 credits in philosophy  
The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God's existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings.
RELIG 352: Religious Traditions of India
(3-0) Cr. 3.
*Prereq: Credit in RELIG 205 or equivalent.*
Study of texts, practices, beliefs, historical development, and mutual influence of a variety of the religious traditions of India. Emphasis on Vedic religion and the diversity of traditions of Classical Hinduism; survey of Buddhist, Jain, Sikh, and South Asian Islamic traditions. Meets International Perspectives Requirement.

RELIG 353: Buddhism
(Cross-listed with PHIL). (3-0) Cr. 3. S.
*Prereq: Phil 201 or Phil 230.*
Central Buddhist positions and arguments on topics such as personal and social ethics, moral psychology, metaphysics, and the relationship between Buddhist thought and the sciences. Differences between Buddhist and Western approaches to philosophy.
Meets International Perspectives Requirement.

RELIG 358: Introduction to Islam
(3-0) Cr. 3.
An introduction to Islamic religion, culture, and society from 700 to the present.
Meets International Perspectives Requirement.

RELIG 360: Religious Ethics
(3-0) Cr. 3.
Investigates different religious ethical theories and traditions of reasoning about practical moral issues (e.g., abortion, the just distribution of wealth, environmental ethics). Explores in detail the relationship between religious beliefs and moral practice.

RELIG 367: Christianity in the Roman Empire
(Cross-listed with CL ST). (3-0) Cr. 3.
An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries.

RELIG 368: Religions of Ancient Greece and Rome
(Cross-listed with CL ST). Cr. 3.
Nature, origins and development of religious beliefs and practices in ancient Greece and Rome from earliest times up to the rise of Christianity. Roles of divinities and rituals in lives of individuals and families and the governing of city-states and empires. Emphasis on historical contexts of the Graeco-Roman world and influences of neighboring cultures in Africa and Asia. None.
Meets International Perspectives Requirement.

RELIG 370: Religion and Politics
(Cross-listed with POL S). (3-0) Cr. 3. S.
*Prereq: Sophomore classification.*
The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally.

RELIG 380: Catholic Social Thought
(3-0) Cr. 3. S.
Examines biblical roots of and major developments in Catholic social thought. Contemporary issues such as human rights, economic justice, the environment, and war and peace will be treated using principles of Catholic ethics, social analysis, official church documents, and contributions of notable theologians and activists.
Meets U.S. Diversity Requirement

RELIG 384: Religion and Ecology
(Cross-listed with ENV S). (3-0) Cr. 3.
Introduction to concepts of religion and ecology as they appear in different religious traditions, from both a historical and contemporary perspective. Special attention to religious response to contemporary environmental issues.
Meets International Perspectives Requirement.

RELIG 439: Goddess Religions
(Cross-listed with WGS). (3-0) Cr. 3.
*Prereq: RELIG 205 recommended*
Exploration of the foundational myths of Goddess spirituality, including historical and cross-cultural female images of the divine and their modern usage by American women.

RELIG 475: Seminar: Issues in the Study of Religion
(3-0) Cr. 3. Repeatable, maximum of 6 times.
*Prereq: 6 credits in religious studies*
Topic changes each time offered. Closed to freshmen. Sophomores must have approval of instructor.

RELIG 485: Theory and Method in Religious Studies
(3-0) Cr. 3.
*Prereq: 6 credits in Religious Studies or permission of instructor*
Examines the variety of theories and methods employed in the study of religion. Application of these methods to various religions of the world.

RELIG 490: Independent Study
Cr. 1-3. Repeatable, maximum of 9 credits.
*Prereq: 6 credits in religious studies and permission of instructor, approval of chairman.*
Guided reading and research on special topics selected to meet the needs of advanced students. No more than 9 credits of Relig 490 may be counted toward graduation.
RELIG 490H: Independent Study: Honors
Cr. 1-3. Repeatable, maximum of 9 credits.
Prereq: 6 credits in religious studies and permission of instructor, approval of chairman.
Guided reading and research on special topics selected to meet the needs of advanced students. No more than 9 credits of Relig 490 may be counted toward graduation.

RELIG 491: Senior Thesis
Cr. 3.
Written under the supervision of a Religious Studies faculty advisor.

RELIG 494: Special Studies in Religious Research Languages
Cr. 2-3. Repeatable.
Prereq: 6 credits in Religious Studies and permission of instructor
Courses primarily for graduate students, open to qualified undergraduates:

RELIG 540: Magic, Witchcraft, and Religion
(Dual-listed with RELIG 340). (Cross-listed with ANTHR). (3-0) Cr. 3. S.
Prereq: ANTHR 201 or ANTHR 306
Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.
Meets International Perspectives Requirement.

RELIG 590: Special Topics in Religious Studies
Cr. 1-3. Repeatable.
Prereq: Permission of instructor, 9 credits in religious studies

Sociology
Undergraduate Study in Sociology
The Department of Sociology offers course work leading to either a bachelor of arts, bachelor of science, or a minor in sociology. Additionally, a bachelor of science in Agriculture & Society is offered.

Graduates of all these programs will understand and demonstrate:
1. general knowledge of sociology
2. research methods in sociology
3. critical thinking skills
4. application of sociology to pressing social issues
5. sociological and professional values
6. information technology skills
7. communication skills
8. personal and career development

Graduates understand how social institutions, communities, and organizations work and change; they can examine the causes and consequences of conformity, deviance, and inequality. They can apply sociological understanding of human behavior to practical work situations and everyday life. Graduates can read critically, think independently, and communicate effectively about social issues and social policy.

University Requirements:
International Requirements 3
US Diversity 3
Total Credits 6

Communications:
ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, Visual, and Electronic Composition 3
LIB 160 Information Literacy 1
Total Credits 7

World Languages and Culture:
3 years H.S.
SPAN 097 Accelerated Spanish Review 0
2 semesters college 8
Total Credits 8

Departmental requirements for sociology majors include the following supporting courses:
STAT 101 Principles of Statistics 3-4
or STAT 104 Introduction to Statistics
One of the following 3
ENGL 302 Business Communication
ENGL 309 Proposal and Report Writing
ENGL 314 Technical Communication
Total Credits 6-7

Majors must complete both ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition. According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250. In addition, majors must also take an advanced course in ENGL 302 Business Communication or ENGL 309 Proposal and Report Writing or ENGL 314 Technical Communication with a grade of C or better.

Programs leading to a bachelor of arts degree will emphasize additional coursework in groups I and III of the general education requirements. Programs leading to a bachelor of science degree will emphasize
additional coursework in groups IIA and IIB of the general education requirements. Some of the possible areas of coursework include criminal justice, community (urban and rural) sociology, family sociology, sociology of work, research methods and statistics, social change and development, social inequality, social psychology and sociological theory.

A program of study that meets the needs and interests of the student and department requirements will be developed in consultation with the major adviser. Students must maintain a GPA of 2.0 or higher in their core courses. Programs of study will include:

**SOC 115** Orientation to Sociology 1
**SOC 134** Introduction to Sociology 3
**SOC 302** Research Methods for the Social Sciences 3
**SOC 401** Contemporary Sociological Theories 3
6 credits of 200+ Sociology courses 6
18 credits of 300+ Sociology courses 18
Total Credits 34

In addition to the program of study above, students must select complementary courses that will lead to a bachelor of arts or bachelor of science degree.

**Bachelor of Arts supporting coursework**
At least 9 additional arts and humanities and/or social science courses 9
Total Credits 9

**Bachelor of Science supporting coursework**
At least 9 additional credits in natural science, math, or statistics 9
Total Credits 9

**Sociology, Bachelor of Arts (BA) and Bachelor of Science (BS)**

**Freshman**

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses.

**Sociology Minor**

The department offers a minor in sociology which may be earned by completing 15 credits in sociology with a minimum 2.0 GPA:

<table>

9 credits must be 300+

Total Credits 15

At least 9 of the 15 credits must be at the 300 level or higher with a minimum of 6 of those credits taken at ISU. 9 credits must stand alone in the minor.

Graduate Study
The department offers work for the degrees master of science and doctor of philosophy with majors in sociology and rural sociology and minor work for students majoring in other departments. The department offers concentrations in a number of areas, e.g., community studies and development; sociology of families, inequality, food systems, agriculture and environment; methodology; social change and development; criminology; the economy, organizations and work; and social psychology. The Department of Sociology does not offer a nonthesis master’s program.

Contact information: Jeff Bouffard, Professor & Director of Graduate Education, 204 East Hall, 515-294-6508 or jab088@iastate.edu.

Graduates have a broad understanding of sociology, address complex societal problems, and communicate effectively with scientific colleagues and the general public in both formal and informal settings. They understand sociological theory, conduct research, and are prepared to educate college students and contribute to public policy. Although the department stipulates no language requirement for either the degree master of science or the degree doctor of philosophy, specifying competence in one or more languages may be desirable in some instances.

The department also participates in the interdepartmental program in interdepartmental majors in sustainable agriculture, transportation and water resources, and interdepartmental minors in gerontology.

Course requirements are listed below. Information about examinations, theses and dissertations, P.O.S. committees and other requirements are available on the Sociology Department web site.

Ph.D. Core Degree Requirements
Although responsibility for determining the student’s course work resides with the POS committee, the Sociology Department has core courses that must be taken by all students. A graduate course taken elsewhere can be substituted for the Ph.D. core requirements with approval by the Departmental Officer of Graduate Education (DOGE) in consultation with the faculty.

A minimum of 72 semester credits (including master’s degree credits) is required for graduation.

Co-Major Requirements for the Graduate Program in Sustainable Agriculture

The Graduate Program in Sustainable Agriculture (GPSA) develops student competence and expertise in the design, implementation, and evaluation of sustainable agricultural systems. The program's curriculum satisfies the formal requirements for the MS and Ph.D. degrees, as established by the ISU Graduate College, and fosters transdisciplinary and systems-level thinking.

The Department does not offer double majors in sociology.

For admission to the co-major program contact the graduate program coordinator.

M.S. Core Degree Requirements

Although responsibility for determining the student's course work resides with the POS committee, the Sociology Department has core courses that must be taken by all students. A graduate course taken elsewhere can be substituted for the core requirements with approval by the Departmental Officer of Graduate Education (DOGE) in consultation with the faculty.

Three additional courses in sociology for a total of 19 credits.

The department does not offer double majors in sociology at the graduate level. Admission requirements to the co-major program are the same as for the major.

Co-Major Requirements for the Graduate Program in Sustainable Agriculture

The Graduate Program in Sustainable Agriculture (GPSA) develops student competence and expertise in the design, implementation, and evaluation of sustainable agricultural systems. The program's curriculum satisfies the formal requirements for the MS and Ph.D. degrees, as established by the ISU Graduate College, and fosters transdisciplinary and systems-level thinking.

Courses primarily for undergraduates:

SOC 110: Orientation to Public Service and Administration in Agriculture
Cr. R. F.
Survey of public service and administration in agriculture. Exploration of career tracks and career planning. Recommended during first semester of freshman year or as soon as possible after transfer into the department.

SOC 115: Orientation to Sociology
(1-0) Cr. 1. F.S.
Orientation to sociology. A familiarization with University and LAS College requirements and procedures. Occupational tracks and career options open to sociology; introduction to career planning. Recommended during first semester of freshman year, or as soon as possible after transfer into the department. Offered on a satisfactory-fail basis only.

SOC 134: Introduction to Sociology
(3-0) Cr. 3. F.S.SS.
Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure.

SOC 134H: Introduction to Sociology; Honors.
(3-0) Cr. 3. F.S.SS.
Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure.
SOC 219: Sociology of Intimate Relationships
(3-0) Cr. 3. F.S.SS.
Prereq: SOC 134
Analysis of intimate relationships among couples using a sociological perspective. Attention is given to singleness; dating and courtship; sexuality; mate selection, cohabitation, and marriage. Relationship quality, communication, conflict and dissolution of these types of relationship will also be explored.

SOC 220: Globalization and Sustainability
(Cross-listed with ANTHR, ENV S, GLOBE, M E, MAT E). (3-0) Cr. 3. F.S.
An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.
Meets International Perspectives Requirement.

SOC 230: Rural Society in Transition
(3-0) Cr. 3. F.S.
Introduction to the causes and consequences of social and economic change affecting rural people and places. Uses a sociological perspective to examine social structures, social change, and social relationships within rural society. Topics include community, population change, inequality, rural economy, structure of agriculture, social and environmental impacts of resource extraction.

SOC 235: Social Problems and American Values
(3-0) Cr. 3. F.S.
Prereq: SOC 134
Sociological concepts, theories and methods to analyze the causes and consequences of social problems. Social problems discussed may include crime, substance abuse, income inequalities, discrimination, poverty, race relations, health care, family issues, and the environment. How American culture and values shape societal conditions, public discourse and policy.
Meets U.S. Diversity Requirement

SOC 241: Youth and Crime
(Cross-listed with CJ ST). (3-0) Cr. 3. F.
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents' rights, and traditional and alternative ways of dealing with juvenile crime.

SOC 302: Research Methods for the Social Sciences
(3-0) Cr. 3. F.S.
Prereq: SOC 134; STAT 101; or concurrent enrollment in STAT 101
Introduction to the principal research methods used in sociology, including survey research, interviewing, content analysis, experiments, ethnographies, focus groups, historical analysis, and analysis of secondary data. Instruction on sampling and the principles of validity and reliability underlying quantitative and qualitative methods. Training in data analysis using statistical software packages.

SOC 305: Social Psychology: A Sociological Perspective
(3-0) Cr. 3. F.S.SS.
Prereq: SOC 134
Examination of human behavior in a social environment with emphasis on development of the self, interpersonal relations, attitudes, and small groups.

SOC 310: Community
(3-0) Cr. 3. F.S.
Prereq: SOC 134
Analysis of evolving theory and research of community as an ideal type, an ecological system, a political economy, and an interactional field; examination of the impact of economic, cultural, social and political infrastructures on community power structures and change processes in a global era.

SOC 325: Transition in Agriculture
(3-0) Cr. 3. S.
The impacts of agricultural changes on farm families, rural communities, and consumers. Past, present, and future trends in family farms and their social implications.

SOC 327: Sex and Gender in Society
(Cross-listed with WGS). (3-0) Cr. 3. F.S.SS.
Prereq: SOC 134
How the biological fact of sex is transformed into a system of gender stratification. The demographics and social positions of women and men in the family, education, media, politics, and the economy. Theories of the social-psychological and sociological bases for behavior and attitudes of women and men. The relationship between gender, class, and race.
Meets U.S. Diversity Requirement
SOC 328: Sociology of Masculinities and Manhood  
(Cross-listed with WGS). (3-0) Cr. 3. S.  
Prereq: SOC 134 or WGS 201  
Examination of socially constructed and idealized images of manhood, the nature of social hierarchies and relations constructed on the basis of imagery, ideologies, and norms of masculinity. Theories on gender (sociological, psychological, and biological). Particular attention given to theory and research on gender variations among men by race, class, ethnicity, sexual orientation, physical ability and age.  
Meets U.S. Diversity Requirement  

SOC 330: Ethnic and Race Relations  
(Cross-listed with AF AM). (3-0) Cr. 3. F.S.SS.  
Prereq: SOC 134  
Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations.  
Meets U.S. Diversity Requirement  

SOC 331: Social Class and Inequality  
(3-0) Cr. 3. F.S.SS.  
Prereq: SOC 134  
Social stratification and processes resulting in social and economic inequalities; implications of status, class, and poverty for people of different races, ethnicities, and gender.  
Meets U.S. Diversity Requirement  

SOC 332: The Latino/Latina Experience in U.S. Society  
(3-0) Cr. 3. F.  
Prereq: SOC 134  
Examination of the social, historical, economic and political experience of varied Latino ethnic groups in the U.S. - primarily focusing on Mexican, Puerto Ricans, and Cubans.  
Meets U.S. Diversity Requirement  

SOC 334: Politics and Society  
(Cross-listed with POL S). (3-0) Cr. 3. F.  
Prereq: A course in political science or sociology  
The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism.  

SOC 340: Deviant and Criminal Behavior  
(Cross-listed with CJ ST). (3-0) Cr. 3. S.SS.  
Prereq: SOC 134 or CJ ST 240  
Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior.  

SOC 345: Population and Society  
(Cross-listed with ENV S). (3-0) Cr. 3. F.  
Prereq: SOC 134  
Human population growth and structure; impact on food, environment, and resources; gender issues; trends of births, deaths, and migration; projecting future population; population policies and laws; comparison of the United States with other societies throughout the world.  
Meets International Perspectives Requirement.  

SOC 348: Global Poverty, Resources and Sustainable Development  
Cr. 3.  
Prereq: Soc 134  
Trends in hunger, poverty, resource use and development. Assessment of theories, policies, and programs to promote sustainable livelihoods, resource management, and development at local and national levels. Examine solutions through institutional efforts and grassroots social movements.  
Meets International Perspectives Requirement.  

SOC 362: Applied Ethics in Agriculture  
(Cross-listed with ECON). (3-0) Cr. 3.  
Prereq: ECON 101 or SOC 134, junior or senior status in the College of Agriculture  
Identify major ethical issues and dilemmas in the conduct of agricultural and agribusiness management and decision making. Discuss and debate proper ethical behavior in these issues and situations and the relationship between business and personal ethical behavior.  

SOC 380: Sociology of Work  
(3-0) Cr. 3. F.S.  
Prereq: SOC 134  
Inequalities (gender, race, class) related to jobs, occupations, firms, and industries. Satisfactions, rewards, alienation, discrimination, and other topics of importance to workers are examined.  

SOC 381: Social Psychology of Small Group Behavior  
(Cross-listed with PSYCH). (3-0) Cr. 3. S.  
Prereq: SOC 305 or PSYCH 280  
A survey of small group theory and research from an interdisciplinary, social psychological perspective.  

SOC 382: Environmental Sociology  
(Cross-listed with ENV S). (3-0) Cr. 3. F.S.  
Prereq: Soc 134 or 3 credits of ENV S  
Environment-society relations; social construction of nature and the environment; social and environmental impacts of resource extraction, production, and consumption; environmental inequality; environmental mobilization and movements; U.S. and international examples.
SOC 401: Contemporary Sociological Theories
(3-0) Cr. 3. F.S.SS.
Prereq: 9 credits in sociology
Both historical and modern social theories as applied to understanding and researching the social world.

SOC 411: Social Change in Developing Countries
(3-0) Cr. 3. S.
Prereq: SOC 134 plus 3 credits in social sciences
Social change and development in developing countries; international interdependence; causes and consequences of persistent problems in agriculture, city growth, employment, gender equality, basic needs; local and worldwide efforts to foster social change and international development.
Meets International Perspectives Requirement.

SOC 415: Dynamics of Social Change
(3-0) Cr. 3. F.
Prereq: SOC 134 plus 3 credits in social sciences
Examination of public responses to complex and controversial innovations, such as environmentalism, feminism, stem-cell research, same-sex marriage, large-scale hog lots, and others. Strategies for gaining adoption/rejection of controversial innovations. Applications to topics in agriculture, development, business, and marketing. Credit for only Soc 415 or 515 may be applied toward graduation.

SOC 460: Criminal and Juvenile Justice Practicum
Cr. 3-12. Repeatable, maximum of 12 credits. F.S.SS.
Prereq: Junior or senior classification; permission of criminal justice studies coordinator; major or minor in criminal justice or sociology
Study of the criminal and juvenile justice systems and social control processes. Supervised placement in a police department, prosecutor’s office, court, probation and parole department, penitentiary, juvenile correctional institution, community-based rehabilitation program, or related agency. Assessed service learning component. Offered on a satisfactory-fail basis only. No more than a total of 9 credits of 460 can be counted toward graduation. No credits in Soc 460 may be used to satisfy minimum sociology requirements for sociology majors.

SOC 464: Strategies for Community Engagement
(3-0) Cr. 3. S.SS.
Prereq: 6 credits in sociology
Project-focused engagement in community issues and initiatives. A broad range of strategies will be addressed, including popular education, applied research, network analysis and mapping, policy focused work, action research, curriculum development, community organizing, and organizational development.

SOC 485: Sociology of the Family
(3-0) Cr. 3. S.
Prereq: 6 credits in sociology
The contemporary family in developing, industrial, and post-industrial societies. Effects of modernization, cultural change, and family policies on family dynamics, structures, and functions.

SOC 490: Independent Study
Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: 6 credits in sociology and permission of instructor
Students in the College of Agriculture must be of junior or senior classification and may use no more than 6 credits of Soc 490 toward the total of 128 credits required for graduation. Students in the College of Liberal Arts and Sciences may count no more than 9 credits of 490 toward graduation.

SOC 490A: Independent Study: General Sociology
Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: 6 credits in sociology and permission of instructor
Students in the College of Agriculture must be of junior or senior classification and may use no more than 6 credits of Soc 490 toward the total of 128 credits required for graduation. Students in the College of Liberal Arts and Sciences may count no more than 9 credits of 490 toward graduation.

SOC 490B: Independent Study: Rural Sociology
Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: 6 credits in sociology and permission of instructor
Students in the College of Agriculture must be of junior or senior classification and may use no more than 6 credits of Soc 490 toward the total of 128 credits required for graduation. Students in the College of Liberal Arts and Sciences may count no more than 9 credits of 490 toward graduation.

SOC 490E: Independent Study: Senior Seminar
Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: 6 credits in sociology and permission of instructor
Students in the College of Agriculture must be of junior or senior classification and may use no more than 6 credits of Soc 490 toward the total of 128 credits required for graduation. Students in the College of Liberal Arts and Sciences may count no more than 9 credits of 490 toward graduation.
SOC 490H: Independent Study: Honors
Cr. 1-3. Repeatable, maximum of 6 credits.
Prereq: 6 credits in sociology and permission of instructor
Students in the College of Agriculture must be of junior or senior classification and may use no more than 6 credits of Soc 490 toward the total of 128 credits required for graduation. Students in the College of Liberal Arts and Sciences may count no more than 9 credits of 490 toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

SOC 506: Classical Sociological Theory
(3-0) Cr. 3. S.
Prereq: SOC 401 or SOC 505
The origins of the canonical works of sociology in the mid-Industrial Revolution period including Karl Marx, Max Weber, Emile Durkheim and others.

SOC 509: Agroecosystems Analysis
(Cross-listed with AGRON, SUSAG). (3-4) Cr. 4. F.
Prereq: Senior or above classification; permission of instructor
Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing both field visits and classroom activities. Focus on understanding multiple elements, perspectives (agronomic, economic, ecological, social, etc.), and scales of operation.

SOC 511: Research Methodology for the Social Sciences
(3-0) Cr. 3. S.
Prereq: SOC 302 and STAT 401
Covers the philosophy and the techniques of research methods in sociology and other social sciences, including the ethics and politics of social science, validity issues, conceptualization and operationalization, sampling strategies, appropriate research designs for different questions, survey construction, and various data collection and analysis techniques.

SOC 512: Applied Multivariate Statistics for Social and Behavioral Research
(3-0) Cr. 3. F.
Prereq: STAT 404 or with instructor's permission
Applied techniques of multivariate analysis including cluster analysis, principal components and factor analysis, multivariate analysis of variance and covariance binomial and multinomial regression, multi-level random coefficient models, and spatial regression. Conceptual and mathematical grounding for nonstatisticians. Instruction in Mplus and SAS.

SOC 513: Qualitative Research Methods
(3-0) Cr. 3. F.
Prereq: SOC 511
Applied qualitative research methods in sociology. Design and implementation of a course-based research project including data collection, analysis, and presentation of results. Qualitative data gathering techniques using observational, historical, in-depth interviewing or content analysis approaches. Laboratory emphasis on completion of data gathering, analysis, and report writing.

SOC 520: Social Psychology: A Sociological Perspective
(3-0) Cr. 3. F.
Prereq: SOC 305 or PSYCH 280
Examination of cognitive, symbolic interaction, exchange, role-reference group, and dramaturgical approaches. Assessment of contemporary issues in social psychology.

SOC 525: Seminar in Social Psychology
(3-0) Cr. 3.
Prereq: SOC 305 or PSYCH 280
SOC 525A: Seminar in Social Psychology: Small Groups
(3-0) Cr. 3.
Prereq: SOC 305 or PSYCH 280
SOC 525B: Seminar in Social Psychology: Attitudes and Attitude Change
(3-0) Cr. 3.
Prereq: SOC 305 or PSYCH 280
SOC 525C: Seminar in Social Psychology: Symbolic interactionism
(3-0) Cr. 3.
Prereq: SOC 305 or PSYCH 280
SOC 525D: Seminar in Social Psychology: Self and Identity
(3-0) Cr. 3.
Prereq: SOC 305 or PSYCH 280
SOC 527: Seminar in Social Inequality
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: 6 credits in sociology
Analysis of racial and ethnic inequality in the United States and the world; focus on the implications of the changing world social and economic order for differences in racial and ethnic groups relative to wealth, status, and power; a critical examination of majority-group domination of minority groups in various societies.
SOC 527A: Seminar in Social Inequality: Sociology of Race and Ethnicity
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: 6 credits in sociology
Analysis of racial and ethnic inequality in the United States and the world; focus on the implications of the changing world social and economic order for differences in racial and ethnic groups relative to wealth, status, and power; a critical examination of majority-group domination of minority groups in various societies.

SOC 527B: Seminar in Social Inequality: Sociology of Gender
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: 6 credits in sociology
Analysis of racial and ethnic inequality in the United States and the world; focus on the implications of the changing world social and economic order for differences in racial and ethnic groups relative to wealth, status, and power; a critical examination of majority-group domination of minority groups in various societies.

SOC 533: Rural Development and Community
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: SOC 511 or equivalent
Linkages between socioeconomic development, space, and community in local and global contexts. Focus on economic, social, cultural, environmental, and spatial dimensions of communities. Presentation of conceptual models. Applications using data and methods.

SOC 534: Race, Class and Gender Inequality
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: 6 credits in sociology
Critical examination of the causes and consequences of social stratification and inequality; classical theories, contemporary frameworks, and recent empirical studies; international stratification patterns.

SOC 536: Strategies for Community Engagement in Food and Farming Systems
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: 6 credits in sociology
Project-focused community practice using diverse approaches and perspectives.

SOC 540: Comparative Social Change
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: 6 graduate credits in sociology
Contemporary theories of social change, modernization, dependency, and development are critically examined; methodological issues identified; supporting research explored; applicability of theoretical models, concepts, and strategies to current national and international needs are evaluated.

SOC 543: Seminar in Social Change and Development
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: 6 credits in sociology
Seminar in social change and development.

SOC 543A: Seminar in Social Change and Development: Strategies of Community Engagement
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: 6 credits in sociology

SOC 543B: Seminar in Social Change and Development: Sociology of Adoption and Diffusion
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: 6 credits in sociology

SOC 543C: Seminar in Social Change and Development: Technological Innovation, Social Change and Development
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: 6 credits in sociology

SOC 544: Sociology of Food and Agricultural Systems
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: 6 credits in sociology
Social organization of food and fiber production, processing, and distribution systems. Sociological comparison of conventional and alternative production systems; gender roles in agriculture and food systems; local, national and global food systems; perspectives on food and agricultural research and policy.

SOC 549: Sociology of the Environment
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: 6 credits in sociology

SOC 550: Sociology of Economic Life
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: 6 credits in sociology
Social construction of economic activity in non-industrial and industrial societies with special attention on variations of industrial societies (capitalism and socialism), economic globalization, and economic development. Interaction of economic systems with human values, ideology, organizations, work and individual welfare.

SOC 551: Seminar in Economy, Organization, and Work
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: 6 credits in sociology
SOC 551B: Seminar in Economy, Organization, and Work: Complex Organizations  
(3-0) Cr. 3. F.  
Prereq: 6 credits in sociology

SOC 584: Current Issues in Crime and Justice  
(3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: 6 credits in sociology  
Discussion of current research and theory in crime and delinquency; topics include the purpose and role of law in social life; emerging theoretical directions in criminology; recent work on specific forms of criminality; controversies in the criminal justice system.

SOC 590: Special Topics  
Cr. 1-3. Repeatable.  
Prereq: 6 credits in sociology; senior or graduate classification

SOC 590A: Special Topics: General Sociology  
Cr. 1-3. Repeatable.  
Prereq: 6 credits in sociology; senior or graduate classification

SOC 590B: Special Topics: Rural Sociology  
Cr. 1-3. Repeatable.  
Prereq: 6 credits in sociology; senior or graduate classification

SOC 591: Orientation to Sociology  
(1-0) Cr. 1. F.  
Prereq: Formal admission into the sociology graduate program  
Introduction to the department, current graduate student policies at department and university levels, departmental administrative procedures. Required of graduate students. Offered on a satisfactory-fail basis only.

SOC 599: Research for Master’s Thesis  
Cr. 1-6. Repeatable.

SOC 599A: Research for Master’s Thesis: General Sociology  
Cr. 1-6. Repeatable.

SOC 599B: Research for Master’s Thesis: Rural Sociology  
Cr. 1-6. Repeatable.  
Courses for graduate students:

SOC 607: Contemporary Sociological Theory  
(3-0) Cr. 3. S.  
Prereq: 6 graduate credits in sociology  
Provides a review of modern sociological thought, issues, and controversies as they affect current research and discourse in the discipline.

SOC 610: Foundations of Sustainable Agriculture  
(Cross-listed with A B E, AGRON, ANTHR, SUSAG). (3-0) Cr. 3. F.  
Prereq: Graduate classification, permission of instructor  
Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

SOC 613: Structural Equation Models for Social and Behavioral Research  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: SOC 512 and STAT 404, or with instructors permission.  
Specification, identification, and interpretation of structural equation models. Techniques include structural or path models, measurement or confirmatory factor models, structural models with latent variables, and multi-level structural models. Conceptual and mathematical grounding for non-statisticians. Instruction in AMOS, MPLUS, and SAS.

SOC 698: Seminars in Sociology  
(3-0) Cr. 3.

SOC 698L: Seminars in Sociology: Community Studies and Development  
(3-0) Cr. 3.

SOC 698M: Seminars in Sociology: Criminology  
(3-0) Cr. 3.

SOC 698N: Seminars in Sociology: The Economy, Organizations, and Work  
(3-0) Cr. 3.

SOC 698O: Seminars in Sociology: Food Systems, Agriculture, and the Environment  
(3-0) Cr. 3.

SOC 698P: Seminars in Sociology: Methodology  
(3-0) Cr. 3.

SOC 698Q: Seminars in Sociology: Social Change and Development  
(3-0) Cr. 3.

SOC 698R: Seminars in Sociology: Social Inequality  
(3-0) Cr. 3.

SOC 698S: Seminars in Sociology: Social Psychology  
(3-0) Cr. 3.

SOC 698T: Seminars in Sociology: Sociology of Families  
(3-0) Cr. 3.

SOC 698U: Seminars in Sociology: Theory  
(3-0) Cr. 3.

SOC 699: Dissertation Research  
Cr. 1-8. Repeatable.

SOC 699A: Dissertation Research: General Sociology  
Cr. 1-8. Repeatable.
Software Engineering

For the undergraduate curriculum in Software Engineering (http://www.se.iastate.edu) leading to the degree Bachelor of Science. The Software Engineering Program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

The Bachelor of Science degree in software engineering is jointly administered by the College of Engineering and the College of Liberal Arts and Sciences. The Software Engineering program provides undergraduate students with the opportunity to learn software engineering fundamentals, to study applications of state-of-the-art software technologies and to prepare for the practice of software engineering. The student-faculty interaction necessary to realize this opportunity occurs within an environment motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research and outreach programs.

The software engineering curriculum offers many elective choices in software engineering. Students may also take elective courses in computer engineering and computer science.

Program Educational Objectives
Within five years of graduation, the graduates should:

1. attain a productive career in Software Engineering or related fields;
2. attain leadership roles and become effective collaborators to advance professional and organizational goals;
3. engage in lifelong learning and professional development;
4. encourage and support diversity and inclusiveness in their workplace.

We expect that these objectives will be manifested in our graduates through the following five key attributes: (a) peer-recognized expertise, (b) engagement in professional practice, (c) sustained learning, (d) leadership and (e) teamwork.

Demonstration of expertise involves applying state-of-the-art practices for solving problems in the design, development, validation, evolution and sustainment of (software) products. Demonstration of professional engagement involves contributing locally and globally to the use of ethical, competent, and creative practices in industry, academia or the public sector. Demonstration of sustained learning involves the ability to adapt to rapid technological, environmental, and organizational changes through self-study and group study and through opportunities of professional development or graduate study. Demonstration of leadership involves the ability to take initiative, and to facilitate the advancements of individuals and the community by influencing others and by having a widespread, positive impact on critical issues and projects. Finally, demonstration of teamwork involves the ability to work with collaborators who have varied expertise, and with diverse cultural and interdisciplinary backgrounds.

As a complement to the instructional activity, the College of Engineering and the College of Liberal Arts and Sciences provide opportunities for each student to have experience with broadening activities. Students have the opportunity to gain practical industry experience in the cooperative education and internship program. Students have the opportunity to participate in advanced research activities. Through international exchange programs, students learn about engineering practices in other parts of the world.

Curriculum in Software Engineering
The Software Engineering program is an interdisciplinary program delivered jointly by the College of Engineering and the College of Liberal Arts & Sciences.

Leading to the degree bachelor of science.

Total credits required: 125 cr. Any transfer credit courses applied to the degree program require a grade of C or better (but will not be calculated into the ISU cumulative GPA, Basic Program GPA or Core GPA). See also Basic Program and Special Programs. Note: Pass/Not Pass credits cannot be used to meet graduation requirements.

International Perspectives: 3 cr.
U.S. Diversity: 3 cr.
Communication Proficiency/Library requirement:

Transfer Credit Requirements
The degree program must include a minimum of 30 credits at the 300-level or above in professional and technical courses earned at ISU in order to receive a B.S. in software engineering. These 30 credits must
include S E 491 Senior Design Project I and Professionalism and S E 492 Senior Design Project II and credits in the core professional curriculum and/or in technical electives. The software engineering degree program requires a grade of C or better for any transfer credit course that is applied to the degree program.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S Diversity and International Perspectives courses may not be taken Pass/Not Pass.

2. Choose from department approved lists. (http://www.se.iastate.edu/academics)

3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.

See also: A 4-year plan of study grid showing course template by semester.

Note: International perspectives and U.S. diversity courses are used to meet the general education electives (http://www.se.iastate.edu/academics).

* Total credits required - 125 credits. Any transfer credit courses applied to the degree program require a grade of C or better (but will not be calculated into the ISU Cumulative GPA, Basic Program GPA or Core GPA). See also Basic Program and Special Programs.

**Core Professional Curriculum (A minimum GPA of 2.00 is required for this set of courses, including any transfer courses but transfer course grades will not be calculated into the Basic Program GPA)**

Must receive a C or better grade in required English classes. General Educational Elective courses to be selected in consultation with SE advisers from a list of approved courses. They must include courses that satisfy university and college general education requirements. These courses include courses or categories of courses such as international perspectives and U.S. diversity, language, arts and humanities, and social sciences. Pass/Not Pass credit is not accepted.

Software Engineering Electives and Supplementary Electives must be selected from the program-approved list (http://www.se.iastate.edu/academics).

¹ Core Professional Curriculum (A minimum GPA of 2.00 is required for this set of courses, including any transfer courses but transfer course grades will not be calculated into the Core GPA)

² Students who take the 4-credit lab courses CPR E 288, CPR E 308, and CPR E 381 instead of the corresponding 3-credit alternatives can apply the additional credits toward Supplementary Electives. The total number of credits required in the Software Engineering Program remains the same for all students.

**Courses primarily for undergraduates:**
S E 101: Software Engineering Orientation
Cr. R.
Introduction to the procedures, policies, and resources of Iowa State University and the Software Engineering Program. Offered on a satisfactory-fail basis only.

S E 166: Careers in Software Engineering
Cr. R.
Overview of the nature and scope of the software engineering profession, relationship of coursework to careers, and program of study planning. Offered on a satisfactory-fail basis only.

S E 185: Problem Solving in Software Engineering
(2-2) Cr. 3.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

S E 309: Software Development Practices
(Cross-listed with COM S). (3-1) Cr. 3. F.S.
Prereq: Minimum of C- in COM S 228 and MATH 165
A practical introduction to methods for managing software development. Process models, requirements analysis, structured and object-oriented design, coding, testing, maintenance, cost and schedule estimation, metrics. Programming projects.

S E 319: Construction of User Interfaces
(Cross-listed with COM S). (3-0) Cr. 3. F.S.
Prereq: COM S 228

S E 329: Software Project Management
(Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: COM S 309

S E 339: Software Architecture and Design
(Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: S E 319

S E 342: Principles of Programming Languages
(Cross-listed with COM S). (3-1) Cr. 3. F.S.
Prereq: Minimum of C- in COM S 228 and MATH 165

S E 362: Object-Oriented Analysis and Design
(Cross-listed with COM S). (3-0) Cr. 3. F.S.
Prereq: Minimum of C- in COM S 228 and MATH 165; ENGL 250
Object-oriented requirements analysis and systems design. Design notations such as the Unified Modeling Language. Design Patterns. Group design and programming with large programming projects.

S E 396: Summer Internship
Cr. R. Repeatable. SS.
Prereq: Permission of department and Engineering Career Services
Professional work period of at least 10 weeks during the summer. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.
S E 398: Cooperative Education (Co-op)
Cr. R. Repeatable. F.S.
Prereq: Permission of department and Engineering Career Services
Professional work period. One semester per academic or calendar year. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

S E 409: Software Requirements Engineering
(3-0) Cr. 3.
Prereq: COM S 309; for graduate credit: graduate standing or permission of instructor
The requirements engineering process including elicitation, requirements analysis fundamentals, requirements specification and communication, and requirements evaluation. Modeling of functional and nonfunctional requirements, traceability, and requirements change management. Case studies and software projects.

S E 412: Formal Methods in Software Engineering
(Cross-listed with COM S, CPR E). (3-0) Cr. 3.
Prereq: COM S 311, STAT 330; for graduate credit: graduate standing or permission of instructor
A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms and tools for automatic analysis of systems. Graduate credit requires in-depth study of concepts.

S E 416: Software Evolution and Maintenance
(Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: COM S 309
Practical importance of software evolution and maintenance, systematic defect analysis and debugging techniques, tracing and understanding large software, impact analysis, program migration and transformation, refactoring, tools for software evolution and maintenance, experimental studies and quantitative measurements of software evolution. Written reports and oral presentation.

S E 417: Software Testing
(Cross-listed with COM S). (3-0) Cr. 3.
Prereq: COM S 309; COM S 230 or CPR E 310; ENGL 250, SP CM 212
An introduction to software testing principles and techniques. Test models, test design, test adequacy criteria; regression, integration, and system testing; and software testing tools.

S E 419: Software Tools for Large Scale Data Analysis
(Cross-listed with CPR E). (3-3) Cr. 4.
Prereq: CPR E 308 or COM S 352, COM S 309
Software tools for managing and manipulating large volumes of data, external memory processing, large scale parallelism, and stream processing, data interchange formats. Weekly programming labs that involve the use of a parallel computing cluster.

S E 421: Software Analysis and Verification for Safety and Security
(Cross-listed with CPR E). Cr. 3. F.S.
Prereq: COM S 309; CPR E 310 or Com S 230
Significance of software safety and security; various facets of security in cyber-physical and computer systems; threat modeling for software safety and security; and categorization of software vulnerabilities. Software analysis and verification: mathematical foundations, data structures and algorithms, program comprehension, analysis, and verification tools; automated vs. human-on-the-loop approach to analysis and verification; and practical considerations of efficiency, accuracy, robustness, and scalability of analysis and verification. Cases studies with application and systems software; evolving landscape of software security threats and mitigation techniques. Understanding large software, implementing software analysis and verification algorithms.

S E 490: Independent Study
Cr. arr. Repeatable.
Prereq: Senior classification in software engineering
Investigation of an approved topic.

S E 491: Senior Design Project I and Professionalism
(2-3) Cr. 3.
Prereq: S E 329 and S E 339, CPR E 308 or COM S 352, ENGL 309 or ENGL 314
Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; project poster. First of two-semester team-oriented, project design and implementation experience.

S E 492: Senior Design Project II
(1-3) Cr. 2.
Prereq: S E 491
Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in S E 491 and the evaluation of project results. Technical writing of final project report; oral presentation of project achievements.

S E 494: Software Engineering Portfolio Development
Cr. R. F.S.
Prereq: Credit or enrollment in S E 491
Portfolio assessment for Software Engineers. Guidelines and Advice to improve software engineering portfolios and to better use portfolios as a tool to enhance career opportunities.

Speech Communication

Speech Communication, a major in the Department of English, helps students develop their understanding and appreciation of the human communication process and enhances their oral and written communication practice. Speech Communication students develop an awareness of the importance of oral communication and listening for success in their personal, civic, and professional lives; become familiar
with behavioral research in persuasion; understand how language is used to create social change; develop competent delivery skills; assess the quality of arguments; evaluate information found in research and public discourse; and cultivate rhetorical sensitivity in order to better connect with individuals and audiences. In this way, the program contributes to the humanistic, aesthetic, and critical development of liberally educated students in order to prepare them for full and effective participation in society.

**Undergraduate Study**

The cross-disciplinary program in speech communication offers courses designed for all students as part of their general education and as a complement to their professional training. It also offers a major or minor in speech communication as well as an additional endorsement for secondary teachers who already have an endorsement in another content area.

Students who major or minor in speech communication will prepare themselves for a wide variety of employment opportunities in business, industry and government, as well as in non-profit and educational organizations. With their effective oral communication, listening, teamwork, problem-solving and leadership skills, speech communication students find positions in general business management: human resources, benefits, financial services, retail, sales and marketing and serve various organizations as recruiters, trainers, promotions managers, communication specialists, community outreach personnel and event planners. The program also prepares students for the study of law, theology, and for graduate level work in speech communication and related disciplines.

The program participates in the interdisciplinary program in Linguistics. Speech Communication also offers a core course and several optional courses in the undergraduate certificate program in Leadership Studies.

**Speech Communication Major**

A student electing to major in speech communication must earn at least 120 credits with 45 credits at the 300/400 level. A minimum of 33 of those credits must be earned in Speech Communication courses where the student earns a grade of C or better. Our flexible curriculum with few prerequisites can help you meet the 33 hour requirement in a timely way.

**Core Requirements (18 credits)**

**Speech Communication Education**

Students working toward a primary teaching endorsement in another discipline may add a speech communication endorsement as an additional area. Coursework prepares students to teach speech, dramatic arts, and media at the secondary school level. In addition, they prepare to
direct co-curricular and extracurricular activities such as drama, speech and debate.

Each student seeking an additional endorsement in speech communication must meet a 28-29 hour requirement by taking the following courses:

- **SP CM 110** or **COMST 102**
  - Listening
  - Introduction to Interpersonal Communication
- **SP CM 212**
  - Fundamentals of Public Speaking
- **SP CM 313**
  - Communication in Classrooms and Workshops
- **SP CM 322**
  - Argumentation, Debate, and Critical Thinking
- **SP CM 412**
  - Rhetorical Criticism
- **SP CM 325** (also **COMST 325** - has **COMST** prerequisites)
  - Public Speaking
- **SP CM 497**
  - Independent Study: Directing Speech Activities
- **THTRE 251**
  - Acting I
- **THTRE 358**
  - Oral Interpretation
- **THTRE 360**
  - Stagecraft
- **THTRE 455**
  - Directing I

**Speech Communication, B.A.**

**Freshman**

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS foreign language requirement.

Speech Communication Choices include **SP CM 205** (also **ENGL 205**), 305, 312, 313, 322, 323, 325 (also **COMST 325** - has **COMST** prerequisites), 305 (also **ENGL 350**), and 417. Note: Students must earn a C or better in all Speech communication courses used to meet the 33 credits required for the major.

**Speech Communication Minor**

Students from any major can complement their studies with a Speech Communication Minor (http://www.speechcomm.iastate.edu/index.php?option=com_content&view=article&id=34&Itemid=29). The requirements for a minor in speech communication may be fulfilled by credit in **SP CM 212** Fundamentals of Public Speaking plus at least 15 additional hours from the lists above, of which 9 credits are in courses numbered 300 or above.

**Graduate Study**

The program offers courses for a graduate minor in speech communication as well as supporting work for other disciplines. The requirements for a graduate minor (http://www.speechcomm.iastate.edu) in Speech Communication include:
SP CM 412  Rhetorical Criticism  3
Plus 9 additional hours selected from the following  9
SP CM 323  Gender and Communication
SP CM 416  History of American Public Address
SP CM 417  Campaign Rhetoric
SP CM 504  Seminar
SP CM 513  Teaching Fundamentals of Public Speaking
SP CM 547  The History of Rhetorical Theory I: From Plato to Bacon
SP CM 548  The History of Rhetorical Theory II: From Bacon to the Present
SP CM 590  Special Topics
SP CM 592  Core Studies in Rhetoric, Composition, and Professional Communication

The Program of Speech Communication also participates in the interdepartmental program leading to a master's degree in Interdisciplinary Graduate Studies.

Courses primarily for undergraduates:

SP CM 110: Listening (3-0) Cr. 3. F.S.
Theory, principles, and competency development in comprehensive, therapeutic, critical, consumer, and appreciative listening. The impact of listening in relationships and partnerships.

SP CM 212: Fundamentals of Public Speaking (3-0) Cr. 3. F.S.S.S.
Theory and practice of basic speech communication principles applied to public speaking. Practice in the preparation and delivery of extemporaneous speeches.

SP CM 216: America Speaks: Great Speakers and Speeches in US History Cr. 3.
Survey of great speeches examined within their political and cultural contexts. Analysis of the rhetorical strategies of diverse speakers with an emphasis on texts from social movements in the United States. Meets U.S. Diversity Requirement

SP CM 275: Analysis of Popular Culture Texts (Cross-listed with ENGL). (3-0) Cr. 3. F.S.
Prereq: Credit in or equivalent of 250
Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

SP CM 290: Special Projects Cr. 1-2. Repeatable, maximum of 4 credits. F.S.S.S.
Prereq: 3 credits in speech communication; permission of program director

SP CM 305: Language, Thought and Action
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: ENGL 250
The study of symbolic processes and how meaning is conveyed in words, sentences, and utterances; discussion of modern theories of meaning; and an exploration of relationships among language, thought and action.

SP CM 312: Business and Professional Speaking (3-0) Cr. 3. F.S.
Prereq: SP CM 212
Theory, principles, and competency development in the creation of coherent, articulate business and professional oral presentations.

SP CM 313: Communication in Classrooms and Workshops (3-0) Cr. 3.
Prereq: SP CM 212
Principles of communicating information: training in classroom and workshop-oriented communication activities; use of recording for analysis of presentations.

SP CM 322: Argumentation, Debate, and Critical Thinking (2-2) Cr. 3.
Prereq: SP CM 212
Practice in preparing and presenting arguments and debates; emphasis on critical thinking and ethical and logical duties of the advocate; analysis, evidence, reasoning, attack, defense, research, case construction, and judging.

SP CM 323: Gender and Communication (Cross-listed with WGS). (3-0) Cr. 3.
Examination of how understanding and enactment of gender identity is shaped by communication. Verbal and nonverbal communication across various contexts including personal relationships and the media. Explores discourse of social movements aiming to transform cultural definitions of gender. Meets U.S. Diversity Requirement

SP CM 324: Legal Communication (3-0) Cr. 3.
Prereq: SP CM 212
Speech communication in the legal system inside and outside the trial process: interviewing and counseling, negotiating and bargaining, voir dire, opening statements, examination of witnesses, closing arguments, judge's instructions, jury behavior, and appellate advocacy.
SP CM 327: Persuasion and Social Influence  
(3-0) Cr. 3. F.S.SS.  
Prereq: SP CM 212  
Examination of persuasive theories, strategies and research in persuasion. Emphasis on application and analysis; logical, emotional, and ethical proofs.

SP CM 350: Rhetorical Traditions  
(Cross-listed with CL ST, ENGL). (3-0) Cr. 3. S.  
Prereq: ENGL 250  
Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

SP CM 404: Seminar  
(Dual-listed with SP CM 504). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.  
Prereq: Junior or above classification  
Seminar on topics central to the field of speech communication.

SP CM 404A: Speech Communication  
(Dual-listed with SP CM 504A). Cr. 3. Repeatable, maximum of 9 credits.  
Prereq: 15 credits in speech communication

SP CM 404B: Speech Education  
(Dual-listed with SP CM 504B). Cr. 3. Repeatable, maximum of 9 credits.  
Prereq: 15 credits in speech communication

SP CM 412: Rhetorical Criticism  
(3-0) Cr. 3. S.  
Prereq: SP CM 212 and 6 credits in speech communication  
Development of rhetorical theory and practice from Corax to modern times. Application of principles of criticism to current public speaking practices.

SP CM 416: History of American Public Address  
(3-0) Cr. 3. S.  
Prereq: SP CM 212  
Relationship between public discourse and social change; selected speakers and discourse as linked with political or historical events.

SP CM 417: Campaign Rhetoric  
(Cross-listed with POL S). (3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: SP CM 212  
Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers.

SP CM 490: Independent Study  
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS.  
Prereq: 18 credits in speech communication, junior classification, permission of program director  
Only one independent study enrollment is permitted within the department per semester.

SP CM 495A: Independent Study: Directing Speech Activities  
(1-0) Cr. 1. S.  
Prereq: C I 301; 9 credits in speech communication; minimum GPA of 2.5 in speech communication courses  
Problems, methods, and materials related to directing speech activities in secondary schools.

SP CM 495B: Independent Study: Teaching Speech  
(Cross-listed with EDUC). (3-0) Cr. 3. F.  
Prereq: C I 301; 9 credits in speech communication; minimum GPA of 2.5 in speech communication courses  
Problems, methods, and materials related to teaching speech, theatre, and media in secondary schools.

SP CM 497: Capstone Seminar  
(3-0) Cr. 3.  
Prereq: 15 credits in speech communication, junior or senior classification  
Students synthesize relevant theory and research about contemporary communication practice; demonstrate potential to become leaders in public/professional communication contexts.

SP CM 499: Communication Internship  
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.  
Prereq: 18 credits in speech communication courses, other courses deemed appropriate by faculty adviser; 2nd semester junior or senior standing; minimum GPA of 2.5 and minimum GPA of 3.0 in speech communication courses; and permission of the internship committee  
Applications should be submitted in the term prior to the term in which the internship is desired. Supervised application of speech communication in professional settings.

Courses primarily for graduate students, open to qualified undergraduates:

SP CM 504: Seminar  
(Dual-listed with SP CM 404). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.  
Prereq: Junior or above classification  
Seminar on topics central to the field of speech communication.
Iowa State University – 2019-2020

SP CM 504A: Seminar: Speech Communication
(Dual-listed with SP CM 404A). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.S.
Prereq: Graduate classification
Topics may include the following.

SP CM 504B: Seminar: Speech Education
(Dual-listed with SP CM 404B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.S.
Prereq: Graduate classification
Topics may include the following.

SP CM 513: Teaching Fundamentals of Public Speaking
(1-0) Cr. 3. F.
Prereq: Permission of instructor
Introduction to the teaching of public speaking. Exploration of pedagogical theory and methods related to SP CM 212 objectives, pedagogical approaches, lesson planning, assignment development, and evaluation of student projects. Required of all new teaching assistants teaching SP CM 212.

SP CM 547: The History of Rhetorical Theory I: From Plato to Bacon
(Cross-listed with ENGL). (3-0) Cr. 3.
Prereq: 6 credits in English
Rhetorical theory from the classical period of ancient Greece and Rome through the Middle Ages to the early Renaissance; attention to its relation to the nature of knowledge, communication, practice, and pedagogy.

SP CM 548: The History of Rhetorical Theory II: From Bacon to the Present
(Cross-listed with ENGL). (3-0) Cr. 3.
Prereq: 6 credits in English
Rhetorical theory from the early modern period (Bacon, Descartes, and Locke) to the present; attention to its relation to the nature of knowledge, communication practice, and pedagogy.

SP CM 590: Special Topics
Cr. 1-4. Repeatable, maximum of 12 credits.
Prereq: Permission of program chair

SP CM 592A: Core Studies: Rhetoric
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

SP CM 592B: Core Studies: Composition
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

SP CM 592C: Core Studies: Professional Communication
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 9 credits.
Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250
Seminar on topics central to the fields of rhetoric and professional communication or composition.

Statistics
Undergraduate Study
For the undergraduate curriculum in liberal arts and sciences, major in statistics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum.

The curriculum in liberal arts and sciences with a major in statistics is designed to prepare students for (1) entry level statistics positions in business, industry or commerce, nonprofit institutions, and in state or federal government; (2) graduate study in statistics. Entry-level positions include the following types of work: statistical design, data visualization, analysis and interpretation of experiments and surveys; data processing and analysis using modern computation facilities and statistical computing systems; application of statistical principles and methods in commercial areas such as finance, insurance, industrial research, marketing, manufacturing, sports analytics, and quality control and in nonprofit organizations such as large health study institutions.

Students completing the undergraduate degree in statistics should have a broad understanding of the discipline of statistics. They should have a clear comprehension of the theoretical basis of statistical reasoning and should be proficient in the use of modern statistical methods, data visualization, and computing. Such graduates should have an ability to apply and convey statistical concepts and knowledge in oral and written form. They should be aware of ethical issues associated with polling and surveys and in summarizing and displaying the outcomes of statistical studies.
Undergraduate majors in this department usually include in their programs:

It is advisable to have at least a minor in a field of application. Some common minors earned by statistics majors are: Economics, General Business, and Mathematics. Students preparing for positions in data analysis should consider a minor or certificate in Data Science. Students preparing for a career in the field of actuarial science should consider a Certificate in Actuarial Science (https://n/collegeofbusiness/actuarialscience/#certificatetext). Students intending to do graduate work in statistics are strongly advised to complete at least a minor in Mathematics including credit in MATH 414 - Analysis I.

Many Statistics majors earn a second major or degree in a field of application or Mathematics. Your academic adviser can assist you in developing your course of study that includes other majors.

English and Speech proficiency requirement: The department requires a passing grade in ENGL 150 Critical Thinking and Communication, completion of ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors) with a grade of C or better, and completion of one of ENGL 302 Business Communication or ENGL 314 Technical Communication with a grade of C- or better. The department requires a passing grade in COMST 102 Introduction to Interpersonal Communication or SP CM 212 Fundamentals of Public Speaking.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS foreign language requirement.

Minor
The department offers a minor in statistics which may be earned by completing one introductory course in statistics (STAT 101, 104, 105, 201, 226, 231, 305, 322 or 330); STAT 301 or 326; plus 9 additional credits from STAT 341, 342, 361, 402, 404, 406, 407, 421, 430, 432, 444, 451, 457, 479, and 480 to yield a total of at least 15 credits in statistics courses.

Graduate Study
The department offers graduate programs leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees with a major in statistics. Graduate work leading to a minor in statistics is available for students majoring in other programs, at both the M.S. and Ph.D. levels. The Ph.D. degree is also offered as a co-major with other graduate programs. The department participates in inter-disciplinary graduate programs in Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Genetics, Human Computer Interaction, Nutritional Sciences, and Wind Energy Science, Engineering, and Policy.

Graduates of the M.S. program have an understanding of basic statistical theory and methods. Elective courses in the M.S. program provide an opportunity for students to emphasize particular areas of statistical methods or application in their program. Students complete a minimum of 34 semester credits, including work on a capstone project resulting in a written creative component under the direction of an individual major professor and presented in a final oral examination.

Graduates of the Ph.D. program in statistics have studied advanced theory and methods, and have demonstrated the ability to conduct independent research resulting in an original contribution to the discipline. Candidates for the Ph.D. degree in statistics complete a minimum of 72 semester credits, including at least 18 credits given for research activity, pass an oral preliminary examination, and submit a written dissertation containing original research that is defended in a final oral examination. Dissertation research is typically conducted in close collaboration with a major professor and usually results in publishable material. The department does not offer specific program tracks or areas of emphasis, but the diversity of elective courses and research areas of faculty allow students to tailor their individual programs to reflect areas of particular interest.

Graduates of co-major Ph.D. programs in statistics and an applied scientific discipline have mastered basic statistical theory and have studied advanced methodology. Students complete a minimum of 72 semester credits for courses in statistics and the chosen scientific discipline. Students conduct research that is a combination of statistical methodology and the scientific discipline. Co-major professors work with the student to prepare for an oral preliminary examination and conduct research leading to a single dissertation project that produces an original contribution to at least one of the two disciplines that is defended in a final oral examination.

Graduates of co-major Ph.D. programs in statistics and an area of theoretical mathematics have mastered basic statistical methods and have studied advanced statistical theory. Students complete a minimum of 72 semester credits. Co-major professors assist the student in preparing a dissertation that represents original research that makes a contribution at the interface of statistical theory and a sub-discipline of mathematics. The dissertation is defended in a final oral examination.

Courses primarily for undergraduates:

STAT 100: Orientation in Statistics
(1-0) Cr. R. F.
Opportunities, challenges, and the scope of the curriculum in statistics. For students planning or considering a career in this area.

STAT 101: Principles of Statistics
(3-2) Cr. 4. F.S.S.
Prereq: 1 1/2 years of high school algebra
Statistical concepts in modern society; descriptive statistics and graphical displays of data; the normal distribution; data collection (sampling and designing experiments); elementary probability; elements of statistical inference; estimation and hypothesis testing; linear regression and correlation; contingency tables. Credit for only one of the following courses may be applied toward graduation: STAT 101, STAT 104, STAT 105, STAT 201, or STAT 226.
STAT 104: Introduction to Statistics
(2-2) Cr. 3. F.S.S.
Prereq: 1 1/2 years of high school algebra
Statistical concepts and their use in science; collecting, organizing and
drawing conclusions from data; elementary probability; binomial and
normal distributions; regression; estimation and hypothesis testing. For
students in the agricultural and biological sciences. Credit for only one of
the following courses may be applied toward graduation: STAT 101, STAT
104, STAT 105, STAT 201, or STAT 226.

STAT 105: Introduction to Statistics for Engineers
(3-0) Cr. 3. F.S.S.
Prereq: MATH 165
Statistical concepts with emphasis on engineering applications. Data
collection; descriptive statistics; probability distributions and their
properties; elements of statistical inference; regression; statistical quality
control charts; use of statistical software. Credit for only one of the
following courses may be applied toward graduation: STAT 101, STAT
104, STAT 105, STAT 201, or STAT 226. Credit for both STAT 105 and
STAT 305 may not be applied toward graduation.

STAT 201: Introduction to Statistical Concepts and Methods
(3-2) Cr. 4. S.
Prereq: Credit or enrollment in MATH 165
Statistical thinking and applications of statistical concepts and methods
in modern society. Display and summary of categorical and numerical
data. Exploring relationships between variables, association, correlation,
and regression. Observational studies and experiments. Probability
concepts, random variables, discrete and continuous distributions.
Elements of statistical inference; estimation and hypothesis testing.
Credit for only one of the following courses may be applied toward
graduation: STAT 101, STAT 104, STAT 105, STAT 201, or STAT 226.

STAT 202: Career Development in Math and Statistics
(Cross-listed with MATH). Cr. 1. S.
Career development in the mathematics and statistics disciplines with an
emphasis on contemporary social issues. Presentations by professionals
in STEM fields about occupations, decision-making strategies, and career
goal implementation; development of job searching, resume writing,
negotiating, and interviewing techniques. Offered on a satisfactory-fail
basis only.

STAT 226: Introduction to Business Statistics I
(3-0) Cr. 3. F.S.S.
Prereq: MATH 150 or MATH 165
Obtaining, organizing, and presenting statistical data; measures of
location and dispersion; the Normal distribution; sampling and sampling
distribution of the sample mean; elements of statistical inference;
confidence intervals and hypothesis testing for the mean; describing
bivariate relationships and inference for simple linear regression analysis;
use of computers to visualize and analyze data. Credit for only one of
the following courses may be applied toward graduation: STAT 101, STAT
104, STAT 105, STAT 201, or STAT 226.

STAT 231: Probability and Statistical Inference for Engineers
(4-0) Cr. 4. F.S.
Prereq: Credit or enrollment in MATH 265 (or MATH 265H)
Emphasis on engineering applications. Basic probability; random
variables and probability distributions; joint and sampling distributions.
Descriptive statistics; confidence intervals; hypothesis testing; simple
linear regression; multiple linear regression; one way analysis of variance;
use of statistical software.

STAT 301: Intermediate Statistical Concepts and Methods
(3-2) Cr. 4. F.S.
Prereq: STAT 101 or STAT 104 or STAT 105 or STAT 201
Statistical concepts and methods used in the analysis of observational
data. Analysis of single sample, two sample and paired sample data.
Simple and multiple linear regression including polynomial regression
and use of indicator variables. Model building and analysis of residuals.
Introduction to one-way ANOVA, tests of independence for contingency
tables, and logistic regression. Credit for only one of the following
courses may be applied toward graduation: STAT 301, STAT 326, or STAT
401

STAT 305: Engineering Statistics
(3-0) Cr. 3. F.S.S.
Prereq: MATH 165
Statistics for engineering problem solving. Principles of engineering data
collection; descriptive statistics; elementary probability distributions;
principles of experimentation; confidence intervals and significance
tests; one-, two-, and multi-sample studies; regression analysis; use of
statistical software. Credit for both STAT 105 and 305 may not be applied
toward graduation.
STAT 322: Probabilistic Methods for Electrical Engineers
(Cross-listed with E E). (3-0) Cr. 3. F.S.
Prereq: E E 224
Introduction to probability with applications to electrical engineering.
Sets and events, probability space, conditional probability, total
probability and Bayes’ rule. Discrete and continuous random variables,
cumulative distribution function, probability mass and density functions,
equation, moments, moment generating functions, multiple random
variables, functions of random variables. Elements of statistics,
hypothesis testing, confidence intervals, least squares. Introduction to
random processes.

STAT 326: Introduction to Business Statistics II
(2-2) Cr. 3. F.S.S.
Prereq: STAT 226
Multiple regression analysis; regression diagnostics; model building;
applications in analysis of variance and time series; random variables;
distributions; conditional probability; statistical process control methods;
use of computers to visualize and analyze data. Credit for only one of the
following courses may be applied toward graduation: STAT 301, STAT
326 or STAT 401.

STAT 330: Probability and Statistics for Computer Science
(3-0) Cr. 3. F.S.S.
Prereq: MATH 166
Topics from probability and statistics applicable to computer science.
Basic probability; Random variables and their distributions; Stochastic
processes including Markov chains; Queuing models; Basic statistical
inference; Introduction to regression.

STAT 332: Visual Communication of Quantitative Information
(Cross-listed with ENGL). (3-0) Cr. 3.
Prereq: STAT 101, STAT 104, STAT 201 or STAT 226; ENGL 250
Communicating quantitative information using visual displays;
visualizing data; interactive and dynamic data displays; evaluating
current examples in the media; color, perception, and representation in
graphs; interpreting data displays.

STAT 341: Introduction to the Theory of Probability and Statistics I
(Cross-listed with MATH). (3-2) Cr. 4. F.S.
Prereq: MATH 265 or MATH 265H
Probability; distribution functions and their properties; classical
discrete and continuous distribution functions; multivariate probability
distributions and their properties; moment generating functions;
transformations of random variables; simulation of random variables and
use of the R statistical package. Credit for both STAT 341 and STAT 447
may not be applied toward graduation.

STAT 342: Introduction to the Theory of Probability and Statistics II
(Cross-listed with MATH). (3-2) Cr. 4. F.S.
Prereq: STAT 201 or equivalent; STAT 341; MATH 207 or MATH 317
Sampling distributions; confidence intervals and hypothesis testing;
theory of estimation and hypothesis tests; linear model theory;
resampling methods; introduction to Bayesian inference; use of the R
statistical package for simulation and data analysis.

STAT 347: Probability and Statistical Theory for Data Science
Cr. 4. F.
Prereq: MATH 207 or 317; MATH 265, STAT 301 or 326
Introduction to probability; distribution functions and their properties;
classical discrete and continuous distributions; sampling distributions;
tory of estimation; theory of inference; use of R statistical package
for simulation and data analysis. Credit for both STAT 341 and STAT 347
may not be applied toward graduation.

STAT 361: Statistical Quality Assurance
(Cross-listed with I E). (2-2) Cr. 3. F.S.
Prereq: STAT 231, STAT 301, STAT 326 or STAT 401
Statistical methods for process improvement. Simple quality
assurance principles and tools. Measurement system precision and
Experimental design and analysis for process improvement. Significant
external project in process improvement.

STAT 398: Cooperative Education
Cr. R. F.S.S.
Prereq: Permission of department chair
Off-campus work periods for undergraduate students in a field of
statistics.

STAT 402: Statistical Design and the Analysis of Experiments
(3-0) Cr. 3. F.S.
Prereq: STAT 301 or STAT 326 or STAT 401
The role of statistics in research and the principles of experimental
design. Concepts of experimental and observational units, randomization,
replication, blocking, subdividing and repeatedly measuring experimental
units; factorial treatment designs and confounding; common designs
including randomized complete block design, Latin square design, split-
plot design, and analysis of data from such common designs; extensions
of the analysis of variance to cover variance components. Determining
sample size.
STAT 404: Regression for Social and Behavioral Research  
(2-2) Cr. 3. F.S. 
*Prereq: STAT 301 or STAT 326 or STAT 401*  
Applications of generalized linear regression models to social science data. Assumptions of regression; diagnostics and transformations; analysis of variance and covariance; logistic, multinomial and Poisson regression.

STAT 406: Statistical Methods for Spatial Data  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
*Prereq: Six hours of statistics at the 400-level*  
The analysis of spatial data; geostatistical methods, mapping and spatial prediction; methods for areal data; models and methods for spatial point processes. Emphasis on application and practical use of spatial statistical analysis. Use of R and R packages for spatial data analysis.

STAT 407: Methods of Multivariate Analysis  
(2-2) Cr. 3. F.  
*Prereq: STAT 301 or STAT 326 or STAT 401, knowledge of matrix algebra*  
Techniques for displaying and analyzing multivariate data including plotting high-dimensional data using interactive graphics; comparing group mean vectors using Hotelling's T2; multivariate analysis of variance; reducing variable dimension with principal components; identifying factors with exploratory factor analysis; grouping observations with multidimensional scaling and cluster analysis; and classification using discriminant analysis, logistic regression, classification trees, and random forests. Introduction to the R statistical software package.

STAT 421: Survey Sampling Techniques  
(2-2) Cr. 3. S.  
*Prereq: STAT 301 or STAT 326 or STAT 401; STAT 341*  
Concepts of sample surveys and the survey process; methods of designing sample surveys, including: simple random, stratified, systematic, probability proportional to size, and multistage sampling designs; methods of analyzing sample surveys including ratio, regression, domain estimation and nonresponse.
STAT 457: Applied Categorical Data Analysis  
(3-0) Cr. 3. S.  
Prereq: STAT 301 or STAT 326 or STAT 401  
Statistical methods for the analysis of categorical data: graphical summaries, estimation and inference for proportions, sample size determination, chi-square tests, measures of relative risk, odds and association, analysis of paired data and measures of agreement, logistic regression models, log-linear models.

STAT 479: Computer Processing of Statistical Data  
(3-0) Cr. 3. F.  
Prereq: STAT 301 or STAT 326 or STAT 401  
Structure, content and programming aspects of modern statistical software packages. Advanced techniques for data management, graphics, exploratory data analysis, and generalized linear models.

STAT 480: Statistical Computing Applications  
(3-0) Cr. 3. S.  
Prereq: STAT 301 or STAT 326 or STAT 401  
Modern statistical computing. Topics may include: data management; spread sheets; verifying data accuracy; transferring data between software packages; data and graphical analysis with statistical software packages; algorithmic programming concepts and applications; simulation studies and resampling methods; software reliability; statistical modeling and machine learning.

STAT 490: Independent Study  
Cr. arr. Repeatable, maximum of 9 credits.  
Prereq: 10 credits in statistics  
No more than 9 credits in Stat 490 may be counted toward graduation.

STAT 490H: Independent Study: Honors  
Cr. arr. Repeatable, maximum of 9 credits.  
Prereq: 10 credits in statistics  
No more than 9 credits in Stat 490 may be counted toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

STAT 500: Statistical Methods I  
(3-2) Cr. 4. F.  
Prereq: STAT 447 or current enrollment in STAT 542; knowledge of matrix algebra.  
Analysis of data from designed experiments and observational studies. Randomization-based inference; inference on group means; nonparametric bootstrap; pairing/blocking and other uses of restricted randomization. Use of linear models to analyze data; least squares estimation; estimability; sampling distributions of estimators; general linear tests; inference for parameters and contrasts. Model assessment and diagnostics; remedial measures; alternative approaches based on ranks.

STAT 501: Multivariate Statistical Methods  
(3-0) Cr. 3. S.  
Prereq: STAT 500; STAT 542; STAT 579 or equivalent; knowledge of matrix algebra.  
Statistical methods for analyzing and displaying multivariate data; the multivariate normal distribution; inference in multivariate populations, simultaneous analysis of multiple responses, multivariate analysis of variance; summarizing high dimensional data with principal components, factor analysis, canonical correlations, classification methods, clustering, multidimensional scaling; introduction to basic nonparametric multivariate methods. Statistical software: SAS or R.

STAT 502: Applied Modern Multivariate Statistical Learning  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: STAT 500, STAT 542, STAT 579.  
A Statistics-MS-level introduction to Modern Multivariate Statistical Learning. Theory-based methods for modern data mining and machine learning, inference and prediction. Variance-bias trade-offs and choice of predictors; linear methods of prediction; basis expansions; smoothing, regularization, kernel smoothing methods; neural networks and radial basis function networks; bootstrapping, model averaging, and stacking; linear and quadratic methods of classification; support vector machines; trees and random forests; boosting; prototype methods; unsupervised learning including clustering, principal components, and multi-dimensional scaling; kernel mechanics. Substantial use of R packages implementing these methods.
STAT 503: Exploratory Methods and Data Mining
(2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: STAT 301 or STAT 326 or STAT 401; STAT 341 or STAT 447 or STAT 542; STAT 480 or STAT 579
Approaches to finding the unexpected in data; exploratory data analysis; pattern recognition; dimension reduction; supervised and unsupervised classification; interactive and dynamic graphical methods; computer-intensive statistical techniques for large or high dimensional data and visual inference. Emphasis is on problem solving, topical problems, and learning how so-called black-box methods actually work.

STAT 505: Environmental Statistics
(3-0) Cr. 3.
Prereq: STAT 341 or STAT 447; STAT 401
Statistical methods and models for environmental applications. Emphasis on environmental toxicology. Analysis of data with below detection-limit values. Dose-response curve modeling, including overdispersion and estimation of safe doses. Trend analysis; analysis of autocorrelated data. Equivalence testing.

STAT 506: Statistical Methods for Spatial Data
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: STAT 447 or STAT 542
The analysis of spatial data; geostatistical methods and spatial prediction; discrete index random fields and Markov random field models; models for spatial point processes.

STAT 510: Statistical Methods II
(3-0) Cr. 3. S.
Prereq: STAT 500, STAT 447 or credit/enrollment in STAT 543
Linear models and analysis of variance for multifactor experiments with balanced and unbalanced data. Likelihood analysis for general linear models and models with non-normal random components; linear model results in the context of likelihood; linear mixed models and their application; estimation, inference, and prediction. Introduction to generalized linear models and generalized linear mixed models. Case studies of applications including problem formulation, exploratory analysis, model development, estimation and inference, and model assessment.

STAT 512: Design of Experiments
(3-0) Cr. 3. F.
Prereq: STAT 510
Basic techniques of experimental design developed in the context of the general linear model; completely randomized, randomized complete block, and Latin Square designs; factorial experiments, confounding, fractional replication; split-plot and incomplete block designs.

STAT 513: Response Surface Methodology
(3-0) Cr. 3.
Prereq: STAT 402 or STAT 512, knowledge of elementary matrix theory and matrix formulation of regression
Analysis techniques for locating optimum and near-optimum operating conditions: standard experimental designs for first- and second-order response surface models; design performance criteria; use of data transformations; mixture experiments; optimization for multiple-response problems. Requires use of statistical software with matrix functions.

STAT 515: Theory and Applications of Nonlinear Models
(3-0) Cr. 3.
Prereq: STAT 447 or STAT 543; STAT 510
Construction of nonlinear statistical models; random and systematic model components, additive error nonlinear regression with constant and non-constant error variances, generalized linear models, transform both sides models. Iterative algorithms for estimation and asymptotic inference. Basic random parameter models, beta-binomial and gamma-Poisson mixtures. Requires use of instructor-supplied and student-written R functions.

STAT 516: Statistical Design and Analysis of Gene Expression Experiments
(3-0) Cr. 3.
Prereq: STAT 500; STAT 447 or STAT 542
Introduction to high-throughput technologies for gene expression studies (especially RNA-sequencing technology): the role of blocking, randomization, and biological and technical replication in the design of gene expression experiments; normalization methods; methods for identifying differentially expressed genes including mixed linear model analysis, generalized linear model analysis, generalized linear mixed model analysis, quasi-likelihood methods, and empirical Bayes analysis; procedures for controlling false discovery rate for multiple testing; clustering problems for gene expression data; testing gene categories; emphasis on current research topics for statistical analysis of high dimensional gene expression data.

STAT 520: Statistical Methods III
(3-0) Cr. 3. F.
Prereq: STAT 510, STAT 447 or STAT 543
Nonlinear regression; generalized least squares; asymptotic inference. Generalized linear models; exponential dispersion families; maximum likelihood and inference. Designing Monte Carlo studies; bootstrap; cross-validation. Fundamentals of Bayesian analysis; data models, priors and posteriors; posterior prediction; credible intervals; Bayes Factors; types of priors; simulation of posteriors; introduction to hierarchical models and Markov Chain Monte Carlo methods.
STAT 521: Theory and Applications of Sample Surveys  
(3-0) Cr. 3. S.  
Prereq: STAT 401; STAT 447 or STAT 542  

STAT 522: Advanced Applied Survey Sampling  
(3-0) Cr. 3. Alt. F., offered irregularly.  
Prereq: STAT 521 or both STAT 421 and STAT 447  
Advanced topics in survey sampling and methodology: clustering and stratification in practice, adjustments and imputation for missing data, variance estimation in complex surveys, methods of panel and/or longitudinal surveys, procedures to increase response rates, and computing. Examples are taken from large, well-known surveys in various subject areas. Prior exposure to mathematical statistics, probability, and at least one course in survey sampling theory is assumed.

STAT 525: Statistical Methods for Mathematics Teachers  
(6-0) Cr. 6.  
Prereq: STAT 341 or equivalent  
Descriptive statistics; data collection through experimentation and sampling; univariate statistical inference; contingency tables; design of experiments and ANOVA; simple linear regression; logistic regression; multiple linear regression; statistics pedagogy. (Offered on a 3-year cycle; offered SS 2017.). May not be used for graduate credit in the Statistics program. Credit in STAT 410 or STAT 525, but not both, may be applied toward graduation.

STAT 526: Applied Statistical Modeling  
Cr. 3. F.  
Prereq: Admission to Master of Business Analytics program  
Probability concepts and distributions used in statistical decision-making for business applications. Least-squares and maximum likelihood estimation, sampling distributions of estimators, formal statistical inference, analysis of variance, multiple regression models and strategies for model selection, logistic regression, and Poisson regression. Applications implemented with the R statistical package. Simulations used to investigate properties of inferential procedures and to assist in data analysis. May not be used for graduate credit in the Statistics program.

STAT 528: Visual Business Analytics  
Cr. 3. F.  
Prereq: Admission to the Master of Business Analytics Program  
Types of data displays; numerical and visual summaries of data; data structures for data displays; data vs info graphics; good practices of displaying data; human perception and cognition in data displays; graphics as tools of data exploration; graphical diagnostics of statistical models and machine learning procedures; strategies and techniques for data visualizations; basics of reproducibility and repeatability; web-based interactive applets for visual presentation of data and results; programming in R. May not be used for graduate credit in the Statistics program.

STAT 531: Quality Control and Engineering Statistics  
(Cross-listed with I E). (3-0) Cr. 3.  
Prereq: STAT 401; STAT 342 or STAT 447  
Statistical methods and theory applicable to problems of industrial process monitoring and improvement. Statistical issues in industrial measurement; Shewhart, CUSUM, and other control charts; feedback control; process characterization studies; estimation of product and process characteristics; acceptance sampling, continuous sampling and sequential sampling; economic and decision theoretic arguments in industrial statistics.

STAT 533: Reliability  
(Cross-listed with I E). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: STAT 342 or STAT 432 or STAT 447  
Probabilistic modeling and inference in engineering reliability; lifetime models, product limit estimator, probability plotting, maximum likelihood estimation for censored data, Bayesian methods in reliability, system reliability models, competing risk analysis, acceleration models and analysis of accelerated test data; analysis of recurrence and degradation data; planning studies to obtain reliability data.

STAT 534: Ecological Statistics  
(3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: STAT 447 or STAT 542  
Statistical methods for non-standard problems, illustrated using questions and data from ecological field studies. Estimation of abundance and survival from mark-recapture studies, deterministic and stochastic matrix models of population trends, integral projection models, and hierarchical modeling, especially of population dynamics. Additional topics vary based on student interest.
STAT 536: Statistical Genetics
(Cross-listed with GDCB). (3-0) Cr. 3.
Prereq: STAT 401, STAT 447; GEN 320 or BIOL 313
Statistical models and methods for genetics covering models of population processes: selection, mutation, migration, population structure, and linkage disequilibrium, and inference techniques: genetic mapping, linkage analysis, and quantitative trait analysis. Applications include genetic map construction, gene mapping, genome-wide association studies (GWAS), inference about population structure, phylogenetic tree construction, and forensic and paternity identification.

STAT 542: Theory of Probability and Statistics I
(4-0) Cr. 4. F.
Prereq: MATH 414.

STAT 543: Theory of Probability and Statistics II
(3-0) Cr. 3. S.
Prereq: STAT 542.

STAT 544: Bayesian Statistics
(3-0) Cr. 3. S.
Prereq: Credit or concurrent enrollment in STAT 543
Specification of probability models; subjective, conjugate, and noninformative prior distributions; hierarchical models; analytical and computational techniques for obtaining posterior distributions; model checking, model selection, diagnostics; comparison of Bayesian and traditional methods.

STAT 546: Nonparametric Methods in Statistics
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: STAT 510, STAT 542
Overview of parametric versus nonparametric methods of inference; introduction to rank-based tests and/or nonparametric smoothing methods for estimating density and regression functions; smoothing parameter selection; applications to semiparametric models and goodness-of-fit tests of a parametric model.

STAT 547: Functional Data Analysis
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: STAT 543, STAT 510
Theory and methods for analyzing functional data, which are high dimensional data resulted from discrete, error-contaminated measurements on smooth curves and images. The topics include kernel and spline smoothing, basis expansion, semiparametric regression, functional analysis of variance, covariance modeling and estimation, functional principal component analysis, functional generalization linear models, joint modeling, dimension reduction, classification and clustering functional data.

STAT 551: Time Series Analysis
(3-0) Cr. 3. F.
Prereq: STAT 447 or STAT 542
Concepts of trend and dependence in time series data; stationarity and basic model structures for dealing with temporal dependence; moving average and autoregressive error structures; analysis in the time domain and the frequency domain; parameter estimation, prediction and forecasting; identification of appropriate model structure for actual data and model assessment techniques. Possible extended topics include dynamic models and linear filters.

STAT 554: Introduction to Stochastic Processes
(Cross-listed with MATH). (3-0) Cr. 3. F.
Prereq: STAT 542
Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion.

STAT 557: Statistical Methods for Counts and Proportions
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: STAT 500 or STAT 401; STAT 543 or STAT 447
Statistical methods for analyzing simple random samples when outcomes are counts or proportions; measures of association and relative risk, chi-squared tests, loglinear models, logistic regression and other generalized linear models, tree-based methods. Maximum likelihood estimation and large sample theory. Extensions to longitudinal studies and complex survey designs, models with fixed and random effects. Use of statistical software: SAS or R.
STAT 565: Methods in Biostatistics and Epidemiology  
(Cross-listed with TOX). (3-0) Cr. 3. Alt. F., offered even-numbered years.  
**Prereq:** STAT 500 or STAT 401; STAT 543 or STAT 447  
Statistical methods commonly used in epidemiology and human and animal health studies. Overview of cohort studies, case-control studies and randomized clinical trials. Topics include inference procedures for disease risk factors, analysis of time-to-event and survival data, analysis of longitudinal studies of disease progression and health status, diagnostic test evaluation, and meta-analysis. Examples will come from recent studies of physical and mental health, nutrition and disease progression in human and animal populations. Use of statistical software: SAS or R.

STAT 568: Bioinformatics II (Statistical Bioinformatics)  
(Cross-listed with BCB, COM S, GDCB). (3-0) Cr. 3. S.  
**Prereq:** BCB 567 or (BIOL 315 and STAT 430), credit or enrollment in GEN 409  
Statistical models for sequence data, including applications in genome annotation, motif discovery, variant discovery, molecular phylogeny, gene expression analysis, and metagenomics. Statistical topics include model building, inference, hypothesis testing, and simple experimental design, including for big data/complex models.

STAT 570: Bioinformatics IV (Systems Biology)  
(Cross-listed with BCB, COM S, CPR E, GDCB). (3-0) Cr. 3. S.  
**Prereq:** BCB 567 or COM S 311, COM S 228, GEN 409, STAT 430  

STAT 579: An Introduction to R  
(0-2) Cr. 1. F.  
**Prereq:** Enrollment in STAT 500  
An introduction to the logic of programming, numerical algorithms, and graphics. The R statistical programming environment will be used to demonstrate how data can be stored, manipulated, plotted, and analyzed using both built-in functions and user extensions. Concepts of modularization, looping, vectorization, conditional execution, and function construction will be emphasized.

STAT 580: Statistical Computing  
(3-0) Cr. 3. S.  
**Prereq:** STAT 579; STAT 447 or STAT 542  
Introduction to scientific computing for statistics using tools and concepts in R: programming tools, modern programming methodologies, modularization, design of statistical algorithms. Introduction to C programming for efficiency; interfacing R with C. Building statistical libraries. Use of algorithms in modern subroutine packages, optimization and integration. Implementation of simulation methods; inversion of probability integral transform, rejection sampling, importance sampling. Monte Carlo integration.

STAT 581: Analysis of Gene Expression Data for the Biological Sciences  
(3-0) Cr. 3. S.  
**Prereq:** STAT 401 or STAT 587  
Introduction to high-throughput technologies for gene expression studies (especially RNA-sequencing technology): the role of blocking, randomization, and biological and technical replication in the design of gene expression experiments; normalization methods; methods for identifying differentially expressed genes including mixed linear model analysis, generalized linear model analysis, generalized linear mixed model analysis, quasi-likelihood methods, empirical Bayes analysis, and resampling based approaches; procedures for controlling false discovery rate for multiple testing; clustering and classification problems for gene expression data; testing gene categories; emphasis on practical use of methods. May not be used for graduate credit in the Statistics MS and PhD degree programs. Credit in STAT 416 or STAT 581, but not both, may be applied toward graduation.

STAT 585: Data Technologies for Statistical Analysis.  
Cr. 3. Alt. S., offered odd-numbered years.  
**Prereq:** STAT 579.  
Introduction to computational methods for data analysis. Accessing and managing data formats: flat files, databases, web technologies based on mark-up languages (SML, KML, HTML), netCDF. Elements of text processing: regular expressions for cleaning data. Working with massive data, handling missing data, scaled computing. Efficient programming, reproducible code.
STAT 587: Statistical Methods for Research Workers
(3-2) Cr. 4. F.S.SS.
Prereq: An applied statistics course at the undergraduate level, such as STAT 101, 104, 105, 201, or 226. Students without an equivalent course should contact the department.
A first course in statistics for graduate students from the applied sciences. Principles of data analysis and scientific inference, including estimation, hypothesis testing, and the construction of interval estimates. Statistical concepts and models, including group comparison, blocking, and linear regression. Different sections are designed for students in various disciplines, and additional methods covered may depend on the target audience. Topics covered may include basic experimental designs and analysis of variance for those designs, analysis of categorical data, logistic and log-linear regression, likelihood-based inference, and the use of simulation. Equivalent to STAT 401 in previous catalogs. May not be used for graduate credit in the Statistics MS and PhD degree programs. Credit in STAT 401 or STAT 587, but not both, may be applied toward graduation.

STAT 588: Statistical Theory for Research Workers
(4-0) Cr. 4. F.S.SS.
Prereq: MATH 151 and permission of instructor, or MATH 265
Provides an introduction to the theoretical basis of fundamental statistical methods for graduate students in the applied sciences. Probability and probability distributions, moments and moment generating functions, conditional expectation, and transformation of random variables. Estimation based on loss functions, maximum likelihood, and properties of estimators. Sampling distributions, exact and asymptotic results, and the development of intervals. Principles of Bayesian analysis, inference from posterior distributions, and optimal prediction. Uses simulation to verify and extend theoretical results. Equivalent to STAT 447 in previous catalogs. May not be used for graduate credit in the Statistics MS and PhD degree programs. Credit in STAT 401 or STAT 587, but not both, may be applied toward graduation.

STAT 590: Special Topics
Cr. arr. Repeatable.

STAT 590A: Special Topics: Theory
Cr. arr. Repeatable.

STAT 590B: Special Topics: Methods
Cr. arr. Repeatable.

STAT 590C: Special Topics: Design of Experiments
Cr. arr. Repeatable.

STAT 590D: Special Topics: Sample Surveys
Cr. arr. Repeatable.

STAT 590E: Special Topics: Statistics Education
Cr. arr. Repeatable.

STAT 590F: Special Topics: Statistical Computing and Graphics
Cr. arr. Repeatable.

STAT 598: Cooperative Education
Cr. R. F.S.SS.
Prereq: Permission of the department chair
Off-campus work periods for graduate students in a field of statistics.

STAT 599: Creative Component
Cr. arr.

Courses for graduate students:

STAT 601: Advanced Statistical Methods
(3-0) Cr. 3. S.
Prereq: STAT 520, STAT 543 and MATH 414 or enrollment in STAT 641
Methods of constructing complex models including adding parameters to existing structures, incorporating stochastic processes and latent variables. Use of modified likelihood functions; quasi-likelihoods; profiles; composite likelihoods. Asymptotic normality as a basis of inference; Godambe information. Sample reuse; block bootstrap; resampling with dependence. Simulation for model assessment. Issues in Bayesian analysis.

STAT 602: Modern Multivariate Statistical Learning
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: STAT 520, STAT 543, STAT 579
Statistical theory and methods for modern data mining and machine learning, inference, and prediction. Variance-bias trade-offs and choice of predictors; linear methods of prediction; basis expansions; smoothing, regularization, and reproducing kernel Hilbert spaces; kernel smoothing methods; neural networks and radial basis function networks; bootstrapping, model averaging, and stacking; linear and quadratic methods of classification; support vector machines; trees and random forests; boosting; prototype methods; unsupervised learning including clustering, principal components, and multi-dimensional scaling; kernel mechanics.

STAT 606: Advanced Spatial Statistics
(3-0) Cr. 3. Alt. F., offered irregularly.
Prereq: STAT 506, STAT 543
Consideration of advanced topics in spatial statistics, including areas of recent development in modern spatial statistics. Topics may include spatial sampling design; spatial Markov random fields; non-Gaussian spatial models, including spatial generalized linear mixed effects model; spatial Bayesian hierarchical models, simulation of random fields; spatial-temporal process models; non-stationary process models; multivariate spatial process models; spectral methods for spatial data; computational methods for large spatial data, spatial models for stream networks. Use of R to analyze various real spatial data.
STAT 611: Theory and Applications of Linear Models
(3-0) Cr. 3. F.
Prereq: STAT 510; STAT 542 or STAT 447; a course in matrix algebra
Matrix preliminaries, estimability, theory of least squares and of best linear unbiased estimation, analysis of variance and covariance, distribution of quadratic forms, extension of theory to mixed and random models, inference for variance components.

STAT 612: Advanced Design of Experiments
(3-0) Cr. 3. Alt. S., offered irregularly.
Prereq: STAT 512
General theory of factorial experiments. Design optimality criteria, approximate design and general equivalence theory, computational approaches to constructing optimal designs for linear models, and extensions to nonlinear models. Advanced topics of current interest in the design of experiments, including one or more of: distance based design criteria and construction of spatial process models, screening design strategies for high-dimensional problems, and design problems associated with computational experiments.

STAT 615: Advanced Bayesian Methods
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: STAT 544 and STAT 601

STAT 621: Advanced Theory of Survey Statistics
(3-0) Cr. 3. Alt. F., offered irregularly.
Prereq: STAT 521
Advanced topics of current interest in the design of surveys and analysis of survey data, including: asymptotic theory for design and model-based estimators, use of auxiliary information in estimation, variance estimation techniques, small area estimation, non-response modeling and imputation.

STAT 641: Foundations of Probability Theory
(Cross-listed with MATH). (3-0) Cr. 3. F.
Prereq: MATH 414 or MATH 501 or equivalent course.

STAT 642: Advanced Probability Theory
(Cross-listed with MATH). (3-0) Cr. 3. S.
Prereq: STAT 641, or STAT 543 and MATH 515.

STAT 643: Advanced Theory of Statistical Inference
(3-0) Cr. 3. F.
Prereq: STAT 543, STAT 642

STAT 644: Advanced Bayesian Theory
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: STAT 544 and STAT 642
Exchangeability, parametric models, consistency and asymptotic normality of posterior distributions, posterior robustness, selection of priors using formal rules, improper priors and posterior propriety, Bayes factors, model selection, MCMC theory, irreducibility, Harris recurrence, regeneration, minorization and drift conditions, ergodicity, central limit theorems, Gibbs samplers, Metropolis Hastings samplers, techniques for speeding up convergence of certain MCMC algorithms.
Teaching English as a Second Language (TESL)

The Minor in TESL prepares students to teach English to nonnative speakers of English, either in community programs in the United States or in overseas locations. The Minor provides understanding of how English works (ENGL/LING 219) and practical and theoretical applications in how English is taught to those who do not speak English natively (ENGL/LING 322, ENGL/LING 324, ENGL/LING 325, and ENGL/LING 425). The TESL Minor prepares students to cross cultural boundaries to learn about, interact with, and assist speakers of other languages in learning English, the leading global language today. A TESL Minor will help students become global citizens through interacting with and teaching those from around the world who come to the United States and by giving students skills that will allow them to live and work in other countries. All classes listed are requirements for the Minor in TESL (15 credits). A C or better is required in each course used to satisfy the minor. Contact the Linguistics advising office for more information.

ENGL 219 Introduction to Linguistics 3
ENGL 425 Second Language Learning and Teaching 3
ENGL/LING 322X Language and Society 3
ENGL/LING 324X Introduction to Teaching ESL Literacy 3
ENGL/LING 325X Teaching Methods for ESL Learners: Oral Communication Skills 3

Technical Communication

The Technical Communication major (and minor) prepares students for workplace writing in careers that involve information—particularly scientific, workplace, and technical information. Emphasis is placed on researching, thinking critically, collaborating (often with subject
matter experts), organizing, writing, editing, designing, and presenting information clearly. TComm is sometimes a second major for students in technical, scientific, or engineering fields, and often a second major or minor for students who major in English.

**Technical Communication Major Requirements**

Technical Communication majors must take 34-36 credits within the major and 6 hours in a designated area of concentration related to technology, science, or design (an acceptable minor will also fulfill this requirement). Majors develop advanced skills in multiple aspects of technical communication and apply their knowledge of technical communication to a specific discipline.

Designated Area of Concentration Courses

The Designated Area of Concentration (DAC) is a student-designed grouping of related courses in a technical, scientific, or design field that will meet the student's professional or academic interests. Courses for the 6-credit DAC must be taken outside the English Department and approved by the Technical Communication Program Adviser. A second major or a minor in areas such as computer science, social science, natural science, entrepreneurial studies, design studies, engineering studies, or another technical, scientific, or design field may substitute for the DAC.

Technical Communication Major Requirements

Technical Communication majors are required to have, in addition to ISUComm foundation courses (ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition), at least 34 credits in TComm and 6 credits in a designated area of concentration. Majors transferring from other institutions must take at least 18 of their credits in TComm while in residence at Iowa State.

To graduate with a major in Technical Communication and meet the university-wide Communication Proficiency Grade Requirement, a student must have credit for ENGL 150 Critical Thinking and Communication and earn at least a C (not C-) in ENGL 250 Written, Oral, Visual, and Electronic Composition as well as in each of the courses taken to fulfill the program of study, including one advanced communication course.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check [http://www.registrar.iastate.edu/courses/div-ip-guide.html](http://www.registrar.iastate.edu/courses/div-ip-guide.html) for a list of approved courses. Discuss with your adviser how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level.

Total Credits

Nine of the 15 credits must be 300 level or above and students must earn a grade of C (not C-) or higher in each course taken in the minor. Up to 6 of the 15 credits taken for the minor may be used to meet other degree program requirements. Students may design their minor programs around their own interests but are encouraged to work with the Technical Communication Program Adviser.

Note: Students should check the ISU catalog to be sure that they meet prerequisites if they intend to register for 400+ courses.

**World Languages and Cultures Degree: World Languages and Cultures, B.A.**

Curriculum: World language study should be an integral part of an academic program for most students. The theoretical understanding of and practical experience in language underlie many intellectual disciplines that try to meet the complex problems of contemporary society. Courses offered by the Department of World Languages and Cultures are designed to develop students’ understanding of a second culture through the language spoken by that culture.

Upon the completion of their program of studies in the Department of World Languages and Cultures, majors with a concentration in French, German, or Spanish will demonstrate proficiency in five goal areas: Communication, Cultures, Connections, Comparisons, and Communities. Students will be able to:

1. use their concentration language to present and interpret information and to communicate both orally and in writing.
2. demonstrate an understanding of the relationships among the products, practices, and perspectives of the culture(s) in which their concentration language is spoken;
3. demonstrate their ability to acquire information and further their knowledge through their concentration language;
4. demonstrate an understanding of the nature of language and the concept of culture by making comparisons with their own language and culture(s); and
5. demonstrate a desire to become a life-long learner of their concentration language.

Graduates will achieve both linguistic proficiency and cultural literacy through the study of the language and culture of their program. Linguistic proficiency entails the ability to function effectively in the target language and the ability to communicate competently with native speakers of the target language. Students of Latin and Ancient Greek demonstrate proficiency by becoming able to read the languages and to translate from these languages into clear and idiomatic English. Cultural literacy includes a general knowledge of the culture’s history, familiarity with its literature, and basic knowledge of its social and political institutions.

The Department offers a major in World Languages and Cultures with two options, leading to the Bachelor of Arts degree:

1. Languages and Cultures with a Concentration in French, German, or Spanish;
2. Languages and Cultures for Professions (as a second major only) with a Concentration in French, German, or Spanish.

The Department also houses ISU’s program in Anthropology, leading to a Bachelor of Arts or Bachelor of Science degree (http://catalog.iastate.edu/collegeofliberalartsandsciences/anthropology/).

The Department offers minors in Anthropology, Chinese Studies, French, German, Russian Studies, Spanish, and World Film Studies; and instruction in American Sign Language, Arabic, Italian (see Experimental Course List), and Classical Greek and Latin. The Department also houses the College of Liberal Arts and Sciences’ Cross Disciplinary Studies Programs in American Indian Studies, Classical Studies, International Studies, and U.S. Latino/a Studies.

A full statement of requirements for majors and minors may be obtained from the Department. For a complete statement of all the college degree requirements, see Liberal Arts and Sciences, Curriculum. Current and detailed information about the Department, including placement information, is available on-line at www.language.iastate.edu (http://www.language.iastate.edu).

**Policies**

Students who have had formal training in world languages offered at Iowa State may obtain credit by passing appropriate examinations.

Students with native fluency in languages taught at Iowa State may not enroll in or take the Exam for Credit in elementary or intermediate courses (100 and 200 level) in their native language. Students are considered to have native fluency if their ethnic first language as indicated on the matriculation form is the language in which they wish to enroll. Students are also considered to have native fluency if they have had substantial attendance at a secondary school or university where the language of instruction is the language in which they wish to enroll at ISU. Students with native fluency may be eligible to enroll in literature and civilization courses in their native language at the 300 level or above; such students must also consult the department office to determine eligibility for advanced composition and conversation courses (300 level and above).

Students who have completed three or more years of high-school world language study may not enroll in or receive credit for 101-102 in those languages; credit may be obtained by passing the appropriate Exam for Credit or by completing an advanced sequence (200-level or higher) in that language. Students who complete an approved sequence of courses in a single language at the 200- or 300-level (e.g., 201 and 202 or 301 and 302) with a grade of C- or higher are eligible to receive credit for 101 and 102 in that same language if they have not received credit for a 101 or 102 course in the language. Students who complete a 102 course with a grade of C- or higher are eligible to receive credit for 101 in that same language if they have not received credit for 101 in the same language. Students should contact the department after completion of the course sequence to receive credit. Courses in the 101-102 level may not be taken on a remedial basis.

Students who have completed two years but less than three years of a single high-school world language may not enroll in a 101 course in that language. These students may enroll in either a 102 course in that language, or in the case of Spanish, SPAN 097 Accelerated Spanish Review. Before enrolling in either SPAN 097 Accelerated Spanish Review or a 102 language course, students are recommended to take the online placement test available at www.language.iastate.edu (http://www.language.iastate.edu). After completing the online placement test, students who believe that they have extenuating circumstances may appeal to the Department of World Languages and Cultures in order to request enrollment in a 101 language course.

SPAN 097 Accelerated Spanish Review is designed for students who need additional work in the language at the first-year level (101-102) and are not planning to continue their language study at the second-year 201-202 level. Students who complete with a passing grade will have fulfilled the LAS world language requirement. Students who have completed SPAN 097 Accelerated Spanish Review and wish to pursue further study in Spanish at the 201-202 level may enroll in 102.

Students with disabilities who need to satisfy the world language requirement may direct questions to their academic adviser, the
Department of World Languages and Cultures, or the Disability Resources Office.

Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is not normally available.

The Department also offers faculty-led summer study abroad programs in Costa Rica, France, Germany, Greece, Italy, and Spain; and semester study abroad programs in Spain. Programs and exchanges in other areas of the world are offered through study abroad providers. Information concerning these programs can be obtained directly from the Department.

Language and literature courses numbered 300 and above are principally taught in the target language; courses numbered in the 270s, 370s, and 470s are taught in English. For courses taught in English about Ancient Greek and Rome, see Classical Studies. Students may not take intermediate (200 level) courses for credit after successfully completing any advanced (300/400 level) course, except those in the 370 series or courses taught in English translation. Students who have successfully completed any course in the intermediate (200 level) sequence may not take a lower-numbered course in that sequence for a grade.

Students at all levels of world language study will have access to the Language Studies Resource Center, located in 3142 Pearson. The Resource Center contains an extensive collection of world language materials, including audio-visual materials, electronic resources, music, books, language specific software and hardware, and other course-related materials.

Materials fees: Each student enrolled in a 100- through 200-level world language course is assessed a materials and professional support fee of $25.00 per course. If a student drops a course subject to the fee by the 15th day of the semester the fee for that course will not be assessed.

Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors). In addition, the Department requires a grade of C or better in any course numbered between 370 and 379 taught by the Department of World Languages and Cultures or the interdepartmental program in Classical Studies.

American Sign Language (ASL)
Courses primarily for undergraduate students

ASL 101: American Sign Language I
(4-0) Cr. 4. F.S.
Introduction to American Sign Language (ASL). Development of expressive and receptive skills including vocabulary, grammar, usage, and cultural information. Note: Distinct from “Signed English”. ASL is a natural language with its own rules of grammar and usage. Meets U.S. Diversity Requirement

Languages and Cultures for Professions (LCP)
Students with primary majors in the College of Business, the College of Engineering, or the College of Agriculture and Life Sciences are encouraged to complete an LCP second major option in World Languages and Cultures with a concentration in French, German, Spanish, or an LCP minor option in those languages plus Chinese Studies or Russian. The primary objective of the LCP option is to provide learning environments within which students can achieve global literacy, linguistic proficiency, and inter-cultural competence. In the LCP curriculum, students will learn how professions are shaped by social and cultural forces and, alternatively, how professions shape society. In courses on contemporary culture and society, students will identify and analyze issues dealing with the complex interrelationships of languages and cultures and consider how they may affect their chosen profession. Students will experience living and working in diverse cultural settings through study abroad and internship opportunities offered through the LCP program and/or in collaboration with the Colleges of Business, Engineering, and Agriculture and Life Sciences. Students enrolled in the LCP second major option may receive non-graded academic credit for the successful completion of internships (WLC courses numbered 499 in each language area).

For the LCP second major option, students will complete 30 credits within their language concentration beyond the fourth-semester level, selected from the list of approved LCP core courses and electives designated for their respective college curricula in either Business, Engineering, or Agriculture and Life Sciences. Students may only enroll in the LCP option as a second major and may not graduate with the LCP option in the WLC major alone.

Students in the College of Business may combine course work in the International Business (IB) Secondary Major with course work in LCP by selecting from a list of approved options. Students should consult their academic adviser in the College of Business and the WLC adviser for coursework and international experience that fulfill requirements in both the IB and LCP major options.
ASL 102: American Sign Language II  
(4-0) Cr. 4. S.  
Prereq: ASL 101  
Introduction to American Sign Language (ASL) II continues development of expressive and receptive skills introduced in American Sign Language 1, including vocabulary, grammar, usage, and cultural information. Distinct from “Signed English”. ASL is a natural language with its own rules of grammar and usage.  
Meets U.S. Diversity Requirement

ASL 201: Intermediate American Sign Language I  
(4-0) Cr. 4. F.  
Prereq: ASL 102 or equivalent.  
Development of fluency for intermediate conversational skills. Review of grammar and varying grammatical forms for both structured and unstructured social situations such as sharing opinions, discussing weekend activities, and exchanging views on current topics.

ASL 202: Intermediate American Sign Language II  
(4-0) Cr. 4. S.  
Prereq: ASL 201 or equivalent.  
A continuation and further application of language principles learned in ASL 201, to deepen ability to actively engage in dialogue both in structured and unstructured social situations. Further fluency in intermediate conversational skills will be developed, particularly in the areas of semantic equivalence and dialogic/monologic register.

ASL 275: Topics in Deaf Culture  
(3-0) Cr. 3.  
Focus on contemporary topics in Deaf Culture, Communities, and History. Readings and discussion from a wide range of sources. Topics vary according to faculty interest.  
Meets U.S. Diversity Requirement

ASL 490: Independent Study  
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S.  
Prereq: 6 credits in ASL and permission of department chair  
Designed to meet the needs of students in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 6 credits of ASL 490 may be counted towards graduation.

Arabic (Arabc)  
Courses primarily for undergraduate students

ARABC 101: Elementary Arabic I  
(4-0) Cr. 4. F.  
Beginning level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Attention to the use of the Arabic alphabet.

ARABC 102: Elementary Arabic II  
(4-0) Cr. 4. S.  
Prereq: ARABC 101 or placement by department exam.  
Continuation of ARABC 101. Beginning level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture.  
Meets International Perspectives Requirement.

ARABC 195: Study Abroad  
Cr. arr. Alt. SS., offered irregularly.  
Prereq: ARABC 102 or equivalent  
Supervised instruction in Arabic language and culture, formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Arabic.

ARABC 201: Intermediate Arabic I  
(4-0) Cr. 4. F.  
Prereq: ARABC 102 or placement by department exam  
Intermediate level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture.  
Meets International Perspectives Requirement.

ARABC 202: Intermediate Arabic II  
(4-0) Cr. 4.  
Prereq: ARABC 201 or placement by department exam  
Continuation of Arabic 201. Intermediate level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture.  
Meets International Perspectives Requirement.

ARABC 295: Study Abroad  
Cr. arr. Alt. SS., offered irregularly.  
Prereq: ARABC 201 or equivalent  
Supervised instruction in Arabic language and culture, formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Arabic.
Chinese Studies (Chin)

Chinese Studies Minor Option 1: Chinese Studies

CHIN 201 Intermediate Mandarin Chinese I 4
CHIN 202 Intermediate Mandarin Chinese II 4
9 credits at the 300 level 9

3 credits from the following 3

CHIN 301 Advanced Mandarin Chinese I
CHIN 302 Advanced Mandarin Chinese II

POL S 342 Chinese Politics 3

6 cr - choose from only one of the following categories 6

CATEGORY 1

CHIN 272 Introduction to Chinese Culture
CHIN 370 Chinese Literature in English Translation
CHIN 375 China Today

Chinese Studies Minor Option 2: Languages and Cultures for Professions

A. Agriculture and Life Sciences, Business, or Engineering Major and Languages and Cultures for Professions Minor Emphasis in Chinese Studies (17 credits)

CHIN 202 Intermediate Mandarin Chinese II 4
CHIN 304 Chinese for Global Professionals 4
CHIN 499 Internship in Chinese 3

6 cr - choose from only one of the following categories

CATEGORY 2

CHIN 272 Introduction to Chinese Culture
CHIN 301 Advanced Mandarin Chinese I
CHIN 302 Advanced Mandarin Chinese II
HIST 336 History of Modern China I
HIST 337 History of Modern China II
CHIN 403 Seminar in Chinese Language and Culture

Courses primarily for undergraduate students

CHIN 101: Elementary Mandarin Chinese I
(4-0) Cr. 4. F.
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.

CHIN 102: Elementary Mandarin Chinese II
(4-0) Cr. 4. S.
Prereq: CHIN 101
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.

Meets International Perspectives Requirement.

CHIN 201: Intermediate Mandarin Chinese I
(4-0) Cr. 4. F.
Prereq: CHIN 102
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition. Meets International Perspectives Requirement.

CHIN 202: Intermediate Mandarin Chinese II
(4-0) Cr. 4. S.
Prereq: CHIN 201
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition. Meets International Perspectives Requirement.

CHIN 272: Introduction to Chinese Culture
(3-0) Cr. 3. S.
Interdisciplinary introduction to Chinese society and culture from earliest times to the present. Topics include ancient literature, philosophy, religion, art, architecture, customs, transition to a modern society, social changes, urban life, popular culture, and contemporary values and ideas. Meets International Perspectives Requirement.
CHIN 301: Advanced Mandarin Chinese I
(3-0) Cr. 3. F.
__Prereq: CHIN 202 or equivalent__
Continuing development of speaking, writing, reading, and listening skills beyond intermediate level. Expansion of cultural literacy through a variety of texts from the humanities, social sciences, mass media and business. Meets International Perspectives Requirement.

CHIN 302: Advanced Mandarin Chinese II
(3-0) Cr. 3. S.
__Prereq: CHIN 301 or equivalent__
Continuing development of speaking, writing, reading, and listening skills beyond intermediate level. Expansion of cultural literacy through a variety of texts from the humanities, social sciences, mass media and business. Meets International Perspectives Requirement.

CHIN 304: Chinese for Global Professionals
(4-0) Cr. 4. S.
__Prereq: CHIN 202 or equivalent__

CHIN 370: Chinese Literature in English Translation
(3-0) Cr. 3. Repeatable. F.
__Prereq: ENGL 150 or equivalent__
Topics may include traditional prose, poetry, novel and drama; twentieth-century fiction and film. All readings and class discussions in English. Meets International Perspectives Requirement.

CHIN 375: China Today
(3-2) Cr. 3-4. Repeatable. S.
__Prereq: ENGL 250 or equivalent__
Focusing on contemporary society, culture, literature and the arts. All readings, discussions, and papers in English. Topics vary from year to year. Meets International Perspectives Requirement.

CHIN 403: Seminar in Chinese Language and Culture
(3-0) Cr. 3.
__Prereq: CHIN 302 or equivalent__
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese. Meets International Perspectives Requirement.

CHIN 403A: Seminar in Chinese Language and Culture: Translating Contemporary Chinese Texts
(3-0) Cr. 3.
__Prereq: CHIN 302__
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese. Meets International Perspectives Requirement.

CHIN 403B: Seminar in Chinese Language and Culture: Topics on Business and Professions
(3-0) Cr. 3.
__Prereq: CHIN 302 or equivalent__
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese. Meets International Perspectives Requirement.

CHIN 403C: Seminar in Chinese Language and Culture: Reading Chinese Texts
(3-0) Cr. 3.
__Prereq: CHIN 302 or equivalent__
Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese. Meets International Perspectives Requirement.

CHIN 490: Independent Study
Cr. 1-6. Repeatable.
__Prereq: 6 credits in Chinese and permission of department chair__
Designed to meet student needs in areas beyond current course offerings or to accommodate the desire to integrate a study of literature or language with special issues in major fields.

CHIN 499: Internship in Chinese
Cr. 1-3. Repeatable, maximum of 6 credits.
__Prereq: 9 credits of Chinese at the 300 level; permission of adviser and WLC Internship Coordinator__
Work experience using Chinese in the public or private sector, combined with academic work under faculty supervision. Offered on a satisfactory-fail basis only. No more than 3 credits may apply toward the Chinese minor or LCP minor.
French (Frnch)

World Languages and Cultures majors with a concentration in French have two options:

WLC Option I: French Studies

Under WLC Option I, students with a concentration in French Studies must complete at least 30 credits beyond the intermediate (FRNCH 201 Intermediate French I-FRNCH 202 Intermediate French II) level.

Major option in French Studies (30 credits total)

A. Required Core Courses (13 credits)

c. Communication Proficiency Requirements: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors).

In addition, the Department requires a grade of C or better in any course numbered between 370 and 379 taught by the Department of World Languages and Cultures or the interdepartmental program in Classical Studies.

Curricular Notes: no more than 8 credits from FRNCH 370 French Studies in English and/or FRNCH 378 French Film Studies in English may be counted toward the major. Majors must enroll in FRNCH 370, FRNCH 378, and FRNCH 476 for 4 credits. FRNCH 476 French Culture and Society in English and 3 credits of FRNCH 340 Studies in French or Francophone Literature must be completed on campus and may not be fulfilled through transfer or study abroad.

Minor in French

The French Minor requires 15 credits of courses taught in French. Six credits must be in the required core: French 301 and 302. At least three credits must be chosen from the list of approved additional courses.

Courses instructed in English (French 370, 378, and 476) cannot count toward the French minor.

Required core courses (6 credits):

Curricular Notes: no more than 8 credits from FRNCH 370 French Studies in English and/or FRNCH 378 French Film Studies in English may be counted toward the major. Majors must enroll in FRNCH 370, FRNCH 378, and FRNCH 476 for 4 credits. Students may enroll in the Languages and
Cultures for Professions (LCP) Option in French as a Second Major only. They may not graduate with the Second Major in LCP alone.

Courses primarily for undergraduate students

FRNCH 101: Elementary French I  
(4-0) Cr. 4. F.S.S.  
Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture.

FRNCH 102: Elementary French II  
(4-0) Cr. 4. S.S.S.  
Prereq: FRNCH 101  
Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture. Meets International Perspectives Requirement.

FRNCH 201: Intermediate French I  
(4-0) Cr. 4. F.  
Prereq: FRNCH 102  
Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture. Meets International Perspectives Requirement.

FRNCH 202: Intermediate French II  
(4-0) Cr. 4. S.  
Prereq: FRNCH 201  
Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture. Meets International Perspectives Requirement.

FRNCH 301: French Writing and Grammar  
(3-0) Cr. 3. F.  
Prereq: FRNCH 202  
Emphasis on developing functional language skills in reading and writing. Selective review of grammar within the context of cultural and literary prose. Meets International Perspectives Requirement.

FRNCH 302: Reading and Writing French  
(3-0) Cr. 3. S.  
Prereq: FRNCH 301  
Readings in French prose, theater and poetry. Introduction to close reading and analysis. Development of reading and writing skills for upper-level courses. Meets International Perspectives Requirement.

FRNCH 304: French for Global Professionals  
(3-0) Cr. 3.  
Prereq: FRNCH 301  

FRNCH 305: French Conversation  
(3-0) Cr. 3.  
Prereq: FRNCH 202  
Intensive conversational and listening practice emphasizing contemporary France and the Francophone world. Native or near-native speakers are not eligible to enroll. Meets International Perspectives Requirement.

FRNCH 320: France Today  
(3-0) Cr. 3.  
Prereq: FRNCH 202  
Selected topics dealing with contemporary French society and culture. Meets International Perspectives Requirement.

FRNCH 326: Studies in French or Francophone Film  
(3-0) Cr. 3. Repeatable.  
Prereq: FRNCH 302 or concurrent enrollment in FRNCH 302  
In-depth study of a selected filmmaker, genre, or movement. Emphasis on analytical interpretation and relationship between film and French or Francophone culture, history, and society. Counts toward World Film Studies Minor. Meets International Perspectives Requirement.

FRNCH 340: Studies in French or Francophone Literature  
(3-0) Cr. 3. Repeatable.  
Prereq: FRNCH 302 or concurrent enrollment in FRNCH 302  
In-depth study of a selected topic, genre, movement or writer in French or Francophone literature, civilization or culture. Emphasis on close readings and discussion. Meets International Perspectives Requirement.

FRNCH 370: French Studies in English  
(3-0) Cr. 3-4. Repeatable.  
Prereq: For fourth credit, 6 credits in French at 300 level.  
Author, genre, or period study in French or Francophone history, literature, or culture. Three credits: readings, discussions and papers in English; open to all students. Four credits: required for French concentration credit, supplementary readings and written course work in French. Meets International Perspectives Requirement.
FRNCH 370F: Studies in English Translation: French Topics on Women and Gender Studies
(Cross-listed with WGS). (3-0) Cr. 3. Repeatable.
Topics vary according to faculty interest. Readings, discussions, and papers in English.
Meets International Perspectives Requirement.

FRNCH 378: French Film Studies in English
(2-2) Cr. 3-4. Repeatable.
Prereq: For fourth credit, 6 credits in French at 300 level.
Analysis and interpretation of film in French society. Topics vary according to faculty interest. Film directors, genres, movements (e.g. The New Wave), historical survey, aesthetics, and cinematography. Three credits: readings, discussions and papers in English; open to all students. Four credits: required for French concentration credit, supplementary readings and written course work in French. Counts toward World Film Studies Minor.
Meets International Perspectives Requirement.

FRNCH 476: French Culture and Society in English
(3-0) Cr. 3-4. S.
Key moments and themes in French society and culture up to the modern era. Subjects vary according to faculty interest. Readings, discussions, and papers in English.
Meets International Perspectives Requirement.

FRNCH 490: Independent Study
Cr. 1-6. Repeatable, maximum of 9 credits.
Prereq: Permission of French staff and department chair
Designed to meet the needs of students who wish to focus on areas other than those in which courses are offered. No more than 9 credits in French 490 may be counted toward graduation.

FRNCH 499: Internship in French
Cr. 1-3. Repeatable, maximum of 3 credits. F.S.SS.
Prereq: 9 credits of French at the 300 level; permission of advisor and WLC Internship Coordinator. Work experience using French language skills in the public or private sector, combined with academic work under faculty supervision
Credits may be applied only to LCP major. Offered on a satisfactory-fail basis only. No more than 3 credits of French 499 may be applied to the major.

FRNCH 590: Special Topics in French
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

FRNCH 590A: Special Topics in French: Literature or Literary Criticism
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

FRNCH 590B: Special Topics in French: Linguistics
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

FRNCH 590C: Special Topics in French: Language Pedagogy
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

FRNCH 590D: Special Topics in French: Civilization
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

**Courses primarily for graduate students, open to qualified undergraduate students**

FRNCH 590: Special Topics in French
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level French

**German (Ger)**

**WLC Option I: German Studies**

Under WLC Option I, students with a concentration in German must complete at least 30 credits beyond the intermediate level.

- GER 201 (https://currentcatalog.registrar.iastate.edu/collegeofliberalartsandsciences/worldlanguagesandcultures)
- GER 202 (https://currentcatalog.registrar.iastate.edu/collegeofliberalartsandsciences/worldlanguagesandcultures)

Students electing the German Studies option may count a maximum of two of the following courses towards the major:

<table>

</table>

B. Additional Courses:

The remaining 8 credits may be chosen from the following courses:

Repeatable course:
GER 330  German Literature and Culture  3

Study Abroad and Internship option:

GER 499  Internship in German  1-3

Courses taught in English (up to 8 credits applicable towards major; majors must enroll for 4 credits):

GER 370  German Studies in English  3-4
GER 371  The Holocaust in Text, Image, and Memory  3-4
GER 375  Grimms’ Tales  3-4
GER 378  German Film and Media Studies  3-4

C. Study Abroad: The department strongly recommends that all students of German participate in an approved study abroad program based in a German-speaking country. Credit from an approved study abroad program may be applied to the major.

D. Communication Proficiency Requirements: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors). In addition, the Department requires a grade of C or better in any course numbered between 370 and 379 taught by the Department of World Languages and Cultures or the interdepartmental program in Classical Studies.

Curricular Notes: GER 330 German Literature and Culture may be repeated once for major credit when offered with a different topic (6cr. total). GER 476 Topics in German Cultural Studies is required for the WLC major option in German Studies. Majors must enroll in GER 476 Topics in German Cultural Studies for 4 credits. Majors choosing the German Studies option may select two additional courses for 4 cr. from the following:

GER 370  German Studies in English  3-4
GER 371  The Holocaust in Text, Image, and Memory  3-4
GER 375  Grimms’ Tales  3-4
GER 378  German Film and Media Studies  3-4

Minor in German

The German minor requires 15 credits of courses taught in German. At least six credits must be chosen from among German 301, 302, 304, 305, 320, and 330. At least three credits must be chosen from German 320 and 330. Courses taught primarily in English (German 370, 371, 375, 378, and 476) cannot count toward the German minor.

Three credits must be in literature or culture taught in German

GER 320  Germany Today

GER 330  German Literature and Culture

Eligible minor courses

GER 301  Reading: Problems of the Early Twentieth Century  3
GER 302  Composition
GER 304  German for Global Professionals
GER 305  Conversation: The City in Contemporary Europe
GER 320  Germany Today
GER 330  German Literature and Culture

WLC Option II: Languages and Cultures for Professions (LCP)

Under WLC Option II students with a concentration in German must complete a minimum of 30 credits beyond the intermediate (GER 201 Intermediate German I · GER 202 Intermediate German II) level.

I. Languages and Cultures for Professions (Colleges of Agriculture and Life Sciences, Business, and Engineering)

Students with a primary major in the Colleges of Agriculture and Life Sciences, Business, or Engineering pursuing the second major option in German are required to take at least 30 credits beyond the intermediate (GER 201 Intermediate German I · GER 202 Intermediate German II) level.

A. Required Core Courses (19 credits). Additional study abroad credit from an approved study abroad program may be applied to the major.

GER 301  Reading: Problems of the Early Twentieth Century  3
GER 304  German for Global Professionals  3
GER 305  Conversation: The City in Contemporary Europe  3
GER 320  Germany Today  3
GER 476  Topics in German Cultural Studies  3-4
GER 499  Internship in German *  1-3

*or approved credit-bearing study abroad experience

B. Additional Courses (11 credits)

GER 302  Composition  3
GER 330  German Literature and Culture  3
GER 370  German Studies in English  3-4
GER 371  The Holocaust in Text, Image, and Memory  3-4
GER 375  Grimms’ Tales  3-4
GER 378  German Film and Media Studies  3-4

Curricular Notes: students may only enroll in the Languages and Cultures for Professions (LCP) Option as a Second Major. They may not graduate with the Second Major in LCP alone. LCP Majors may select two of the following courses, which must be taken for 4 credits:

GER 301  Reading: Problems of the Early Twentieth Century  3
GER 304  German for Global Professionals  3
GER 305  Conversation: The City in Contemporary Europe  3
GER 320  Germany Today  3
GER 330  German Literature and Culture  3
GER 370  German Studies in English  3-4
GER 371  The Holocaust in Text, Image, and Memory  3-4
GER 375  Grimms’ Tales  3-4
GER 378  German Film and Media Studies  3-4

**GER 101: Elementary German I**
(4-0) Cr. 4. F.SS.
Beginning level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. For beginning-level learners who have little or no prior exposure to German.

**GER 102: Elementary German II**
(4-0) Cr. 4. S.SS.
Prereq: GER 101
Beginning level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. For beginning level learners with only one semester of German (or exposure equivalent to two years or less in high school.).
Meets International Perspectives Requirement.

**GER 201: Intermediate German I**
(4-0) Cr. 4. F.
Prereq: GER 102
Intermediate level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. Intensive review of basic grammar covered in the first-year German class (or equivalent high school courses) while exploring cultural topics and themes.
Meets International Perspectives Requirement.

**GER 202: Intermediate German II**
(4-0) Cr. 4. S.
Prereq: GER 201
Intermediate level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. Emphasis on intermediate level grammar and communication about topics and themes beyond the personal realm.
Meets International Perspectives Requirement.

**GER 301: Reading: Problems of the Early Twentieth Century**
(3-0) Cr. 3. F.
Prereq: GER 202
Emphasis on the development of reading skills through a variety of text types with a focus on German Culture from circa 1900 to 1933.
Meets International Perspectives Requirement.

**GER 302: Composition**
(3-0) Cr. 3. S.
Prereq: GER 202
Emphasis on writing skills, with further development of grammar and reading skills using a variety of current and historical materials.
Meets International Perspectives Requirement.

**GER 304: German for Global Professionals**
(3-0) Cr. 3. F.
Prereq: GER 202
Communication in business and professional contexts in German-speaking countries. Development of effective communication strategies and project management in the workplace. Cultural contexts of business and professional practice. Preparation for internships.
Meets International Perspectives Requirement.

**GER 305: Conversation: The City in Contemporary Europe**
(3-0) Cr. 3. S.
Prereq: GER 202 minimum, GER 301 recommended
Intensive conversational and listening practice in German with an emphasis on a major German-speaking city.
Meets International Perspectives Requirement.

**GER 320: Germany Today**
(3-0) Cr. 3. S.
Prereq: GER 301 or GER 304
Selected topics dealing with contemporary German society and culture. Introduction to materials, resources, and forms of communication available on the Internet, and in other electronic and print media.
Meets International Perspectives Requirement.

**GER 330: German Literature and Culture**
(3-0) Cr. 3. Repeatable. F.
Prereq: GER 301 or permission of instructor
Selected readings in German literature from Classicism to present. Emphasis on techniques of reading and analysis of literary texts. No more than six credits of Ger 330 may be counted toward the major.
Meets International Perspectives Requirement.

**GER 370: German Studies in English**
(3-0) Cr. 3-4. Repeatable, maximum of 6 credits.
Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Three credits: English, open to all students. Four credits: Required for German concentration credit, supplementary readings and compositions in German.
Meets International Perspectives Requirement.
GER 370G: Studies in English Translation: German Topics on Women or Feminism  
(Cross-listed with WGS). (3-0) Cr. 3-4. Repeatable, maximum of 6 credits.  
Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level  
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Three credits: English, open to all students. Four credits: Required for German concentration credit, supplementary readings and compositions in German.  
Meets International Perspectives Requirement.

GER 371: The Holocaust in Text, Image, and Memory  
(3-0) Cr. 3-4.  
Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level  
Examination of such topics as the origins and expressions of Anti-Semitism in central Europe, the political events and structures of the Holocaust, the reality of ghettos and concentration camps, the impact of technological modernization on the Final Solution, and resistance to the Nazis. Materials will include non-fictional texts, literature, art, and music. Three credits: English, open to all students. Four credits: required for German major credit, supplementary readings and compositions in German. Four credits: required for German concentration credit, supplementary readings and compositions in German.  
Meets International Perspectives Requirement.

GER 375: Grimms' Tales  
(3-0) Cr. 3-4.  
Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level  
Introduction to Germanic antiquities, mythology, and heroic legends; Herder's concept of Naturpoesie. Emphasis on the Grimm tales: theoretical approaches to the tales from the late 19th and early 20th centuries; perversions of these traditional tales by the National Socialists (Nazis). Readings in contemporary Grimm scholarship. Taught in English. Three credits: English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German.  
Meets International Perspectives Requirement.

GER 378: German Film and Media Studies  
(3-0) Cr. 3-4. S.  
Prereq: Sophomore classification. For fourth credit, 6 credits in German at the 300 level  
Analysis and interpretation of film or media in German society. Study of media production and reception within multicultural and global contexts. Thematic emphases based on faculty and student interest including: 1) film directors, genres, movements (e.g. New German Cinema), aesthetics, and cinematography or 2) media studies (e.g. television, mass press, popular culture). Three credits: English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German. Counts towards the World Film Studies Minor.  
Meets International Perspectives Requirement.

GER 395: Study Abroad  
Cr. 1-10.  
Prereq: 2 years university-level German  
Supervised instruction in language and culture of Germany; formal class instruction at level appropriate to student's training, augmented by practical living experience.  
Meets International Perspectives Requirement.

GER 476: Topics in German Cultural Studies  
(3-0) Cr. 3-4. S.  
Prereq: Sophomore classification. For fourth credit, six credits in German at the 300-level courses instructed in German  
Key topics and themes in German history and culture up to the modern era. Three credits: Taught in English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German.  
Meets International Perspectives Requirement.

GER 490: Independent Study  
Cr. 1-6. Repeatable, maximum of 9 credits.  
Prereq: 6 credits in German and permission of department chair  
Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Ger 490 may be counted toward graduation.

GER 499: Internship in German  
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.  
Prereq: 9 credits of German at the 300 level; permission of advisor and the World Languages and Cultures Internship coordinator  
Work experience using German language skills in the public or private sector, combined with academic work under faculty supervision. Available only to majors and minors. Offered on a satisfactory-fail basis only. Ger 499 may be repeated to a maximum of 6 credits. No more than 3 credits of Ger 499 may be applied to the major.
GER 590: Special Topics in German
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level German

GER 590A: Special Topics in German: Literature or Literary Criticism
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level German

GER 590B: Special Topics in German: Linguistics
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level German

GER 590C: Special Topics in German: Language Pedagogy
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level German

GER 590D: Special Topics in German: Civilization
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level German

Greek (Greek)
For courses in Greek literature taught in English, see Classical Studies.

Courses primarily for undergraduate students
GREEK 101: Elementary Ancient and New Testament Greek I
(5-0) Cr. 4-5.
Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical and New Testament works.

GREEK 102: Elementary Ancient and New Testament Greek II
(5-0) Cr. 4-5.
Prereq: GREEK 101
Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical and New Testament works.
Meets International Perspectives Requirement.

GREEK 490: Independent Study
Cr. 1-6. Repeatable, maximum of 9 credits.
Prereq: 6 credits in Greek and permission of department chair
Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Greek 490 may be counted toward graduation.

Italian (ITAL)
Courses primarily for undergraduate students
ITAL 107: Intensive Beginning Italian
Cr. 4. F.S.
A communicative approach to grammar and vocabulary within the context of Italian culture for students whose native language is not Italian. Taught in Italian.

Latin (Latin)
For courses in Latin literature taught in English, see Classical Studies.

Courses primarily for undergraduate students
LATIN 101: Elementary Latin I
(4-0) Cr. 4. F.
Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.
Meets International Perspectives Requirement.

LATIN 102: Elementary Latin II
(4-0) Cr. 4. S.
Prereq: LATIN 101
Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.
Meets International Perspectives Requirement.

LATIN 201: Intermediate Latin
Cr. arr. F.
Prereq: LATIN 102
Emphasis on grammatical principles, composition and reading Latin texts.
Meets International Perspectives Requirement.

LATIN 332: Introduction to Latin Literature
Cr. arr. S.
Prereq: LATIN 201
Readings in Latin Literature with emphasis on critical analysis of style, structure or thought.
Meets International Perspectives Requirement.

LATIN 490: Independent Study
Cr. 1-6. Repeatable, maximum of 9 credits.
Prereq: 6 credits in Latin and permission of department chair
Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits in Latin 490 may be counted toward graduation.
Portuguese (Port)
Courses primarily for undergraduate students

PORT 101: Elementary Portuguese I
Cr. 4.
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.

PORT 102: Elementary Portuguese II
Cr. 4.
Prereq: PORT 101
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.
Meets International Perspectives Requirement.

PORT 111: Elementary Portuguese, Accelerated I
Cr. 3.
Prereq: Four semesters of college Spanish or the equivalent. Students with four semesters at the college level or the equivalent of another Romance language may be admitted by permission of the instructor
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.

PORT 112: Elementary Portuguese, Accelerated II
Cr. 3.
Prereq: PORT 111
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.
Meets International Perspectives Requirement.

PORT 375: Brazil Today
Cr. 3. F.
Prereq: None
A survey of social, political, economic, and cultural topics relevant to contemporary Brazil. Includes an introduction to Portuguese language.
None
Meets International Perspectives Requirement.

Russian Studies (Rus)

Minors in Russian Studies are required to complete RUS 201 and RUS 202. The remaining 9 credits must be at the 300 level and above, including at least 3 credits in the Russian curriculum (courses taught in English or Russian).

Russian Studies Minor Option 1: Russian Studies.
9 credits at the 300 level may be selected from the following courses:

* including at least 3 credits in the Russian curriculum (courses taught in English or Russian).
Courses primarily for undergraduate students

RUS 101: Elementary Russian I
(4-0) Cr. 4. F.
Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture.

RUS 102: Elementary Russian II
(4-0) Cr. 4. S.
Prereq: RUS 101
Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture. Meets International Perspectives Requirement.

RUS 201: Intermediate Russian I
(4-0) Cr. 4. F.
Prereq: RUS 102
Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills. Meets International Perspectives Requirement.

RUS 202: Intermediate Russian II
(4-0) Cr. 4. S.
Prereq: RUS 201
Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills. Meets International Perspectives Requirement.

RUS 301: Composition and Conversation
(3-0) Cr. 3. F.
Prereq: RUS 202
Thorough study of the Russian language, with emphasis on strengthening proficiency in writing, speaking, reading, and listening. Increased focus on syntax and word formation. Meets International Perspectives Requirement.

RUS 304: Russian for Global Professionals
(3-0) Cr. 3. F.
Prereq: RUS 102

RUS 314: Reading Russian Literary and Cultural Texts
(3-0) Cr. 3. Repeatable.
Prereq: RUS 102
Selected readings in Russian literature and culture. Emphasis on techniques of reading and analysis of literary and cultural texts. Meets International Perspectives Requirement.

RUS 370: Russian Studies in English Translation
(3-0) Cr. 3. Repeatable.
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

RUS 370R: Studies in English Translation: Russian Topics on Women or Feminism
(Cross-listed with WGS). (3-0) Cr. 3. Repeatable.
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

RUS 375: Russia Today
(3-0) Cr. 3. Repeatable.
A survey of social, political, economic, and cultural topics relevant to contemporary Russia. Readings, discussions and papers in English. Meets International Perspectives Requirement.

RUS 378: Russian Film Studies in English
(3-0) Cr. 3.
Analysis and interpretation of cinema in Russia and the Soviet Union. Topics vary according to faculty interest. Film directors, genres, movements, historical survey, aesthetics, and cinematography. Readings, discussions and papers in English. Meets International Perspectives Requirement.

RUS 395: Study Abroad
Cr. 1-6. Repeatable.
Supervised instruction in language and culture of Russia; formal class instruction at level appropriate to student’s training, augmented by practical living experience. Meets International Perspectives Requirement.

RUS 490: Independent Study
Cr. 1-6. Repeatable.
Prereq: 6 credits in Russian and permission of department chair
Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Rus 490 may be counted toward graduation.
RUS 499: Internship in Russian
Cr. 1-3. Repeatable. F.S.S.
Prereq: 9 credits of Russian at the 300 level; permission of advisor and WLC Internship Coordinator
Work experience using Russian language skills in the public or private sector combined with academic work under faculty supervision. Available only to minors. No more than 3 credits may be applied to the minor.

RUS 590: Special Topics in Russian
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Russian

RUS 590A: Special Topics in Russian: Literature or Literary Criticism
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Russian

RUS 590B: Special Topics in Russian: Linguistics
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Russian

RUS 590C: Special Topics in Russian: Language Pedagogy
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Russian

RUS 590D: Special Topics in Russian: Civilization
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Russian

Courses primarily for graduate students, open to qualified undergraduate students
RUS 590: Special Topics in Russian
Cr. 2-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Russian

Spanish (Span)
Go to Spanish Minor

World Languages and Cultures majors with a concentration in Spanish have two options:

WLC Option I: Hispanic Studies
Under WLC Option I, students with a concentration in Spanish must complete a minimum of 30 credits beyond the intermediate (SPAN 201 Intermediate Spanish I - SPAN 202 Intermediate Spanish II) level.

A. Hispanic Studies Required Core Courses: (12 cr.)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 303A</td>
<td>Spanish Conversation and Composition: through Culture</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 303B</td>
<td>Spanish Conversation and Composition: for Professionals</td>
<td></td>
</tr>
</tbody>
</table>

B. Additional Courses: Students must take at least 15 credits chosen from a, b, and c below (minimum of 3 credits from each section).

a) At least 3 credits of literary studies chosen from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 330</td>
<td>Studies in Spanish Literature</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 332</td>
<td>Studies in Latin American Literature</td>
<td>3</td>
</tr>
</tbody>
</table>

b) At least 3 credits of cultural studies chosen from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 304</td>
<td>Spanish for Global Professionals</td>
<td>3</td>

<tr>
<td>SPAN 321</td>
<td>Spanish Civilization</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 322</td>
<td>Latin American Civilization</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 323</td>
<td>Spain Today</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 324</td>
<td>Latin America Today</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 326</td>
<td>Studies in Hispanic Art or Film</td>
<td>3</td>
</tr>
</tbody>
</table>

c) At least 3 credits of applied language and linguistics chosen from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 351</td>
<td>Introduction to Spanish-English Translation</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 354</td>
<td>Introduction to Spanish-English Interpretation</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 401</td>
<td>Advanced Composition and Grammar</td>
<td>3</td>
</tr>
<tr>

<td>Contrastive Analysis of Spanish/ English for Translators</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 463</td>
<td>Contemporary Spanish Linguistics</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 499</td>
<td>Internship in Spanish</td>
<td>1-3</td>
</tr>
</tbody>
</table>

Students may apply up to 6 credits of SPAN 395 Study Abroad to section a, b, or c above (appropriate section based upon course content and assigned by the WLC adviser).

C. Students must take at least 6 credits of language, literature and/or culture at the 400 level, chosen from the following (each repeatable to 6 credits):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 440</td>
<td>Seminar on the Literatures and Cultures of Spain</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 441</td>
<td>Seminar on Cervantes and the Golden Age</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 445</td>
<td>Seminar on the Literatures and Cultures of Latin America</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 463</td>
<td>Contemporary Spanish Linguistics</td>
<td>3</td>
</tr>
</tbody>
</table>

D. Study Abroad: The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Under Option I, any student who chooses not to participate in a department-approved program will be required to take 3
additional elective credits of Spanish at or above the SPAN 321 level (for a total of 33 credits beyond the intermediate 201-202 level).

E. Communication Proficiency Requirements: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors). In addition, the Department requires a grade of C or better in any course numbered between 370 and 379 taught by the Department of World Languages and Cultures or the interdepartmental program in Classical Studies. Such a course will also fill an LAS Area I (Arts and Humanities) requirement.

WLC Option II: Language and Cultures for Professions

Under WLC Option II students with a concentration in Spanish must complete a minimum of 30 credits beyond the intermediate (SPAN 201 Intermediate Spanish I-SPAN 202 Intermediate Spanish II) level.

I. Languages and Cultures for Professions (Colleges of Agriculture and Life Sciences, Business, and Engineering)

Students with a primary major in the Colleges of Agriculture and Life Sciences, Business, or Engineering pursuing the second major option in Spanish are required to take at least 30 credits beyond the intermediate (SPAN 201 Intermediate Spanish I-SPAN 202 Intermediate Spanish II) level.

A. Required LCP Core Courses: (12 Credits)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 303B</td>
<td>Spanish Conversation and Composition: for Professionals</td>
<td>3</td>

<tr>
<td>SPAN 324</td>
<td>Latin America Today **</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 322</td>
<td>Latin American Civilization</td>
<td></td>
</tr>
</tbody>
</table>

C. Additional Courses: (6 credits)

Select one course from each of the following two categories:

Category 1:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 330</td>
<td>Studies in Spanish Literature</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 332</td>
<td>Studies in Latin American Literature</td>
<td>3</td>
</tr>
</tbody>
</table>

Category 2:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 440</td>
<td>Seminar on the Literatures and Cultures of Spain</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 441</td>
<td>Seminar on Cervantes and the Golden Age</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 445</td>
<td>Seminar on the Literatures and Cultures of Latin America</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 463</td>
<td>Contemporary Spanish Linguistics</td>
<td>3</td>
</tr>
</tbody>
</table>

D. Additional three credits taken at the 300-level or higher.

*Additional credit from an approved study abroad program may be applied to the major.

**SPAN 321 Spanish Civilization and SPAN 322 Latin American Civilization may be substituted.

Curricular Notes: students may only enroll in the Languages and Cultures for Professions (LCP) Option as a second major. They may not graduate with the second major in LCP alone.

Minor in Spanish

The Spanish minor: Option 1: Hispanic Studies, Option 2: Languages and Cultures for Professions

Option 1: The Spanish minor in Hispanic Studies requires at least 15 credits, 12 of which must be at the 300 level or higher. The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Any student who chooses not to participate in a department-approved study abroad program will be required to take 3 additional elective credits of Spanish at the 300 level or higher.

Option 2: Language and Cultures for Professions. The Spanish minor in Languages and Cultures for Professions requires the following courses (12 credits):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 303B</td>
<td>Spanish Conversation and Composition: for Professionals</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 304</td>
<td>Spanish for Global Professionals</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 351</td>
<td>Introduction to Spanish-English Translation</td>
<td>3</td>
</tr>
<tr>
<td>One of the following</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>SPAN 321</td>
<td>Spanish Civilization</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 322</td>
<td>Latin American Civilization</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 323</td>
<td>Spain Today</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 324</td>
<td>Latin America Today</td>
<td>3</td>
</tr>
</tbody>
</table>

The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-
speaking country. Any student who chooses not to participate in a department-approved study abroad program will be required to take 3 additional credits in culture chosen from the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 321</td>
<td>Spanish Civilization</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 322</td>
<td>Latin American Civilization</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 323</td>
<td>Spain Today</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 324</td>
<td>Latin America Today</td>
<td></td>
</tr>
</tbody>
</table>

Note: students taking either SPAN 321 Spanish Civilization or SPAN 323 Spain Today must take either SPAN 322 Latin American Civilization or SPAN 324 Latin America Today. Students taking either SPAN 322 Latin American Civilization or SPAN 324 Latin America Today must take either SPAN 321 Spanish Civilization or SPAN 323 Spain Today.

Courses primarily for undergraduate students

**SPAN 097: Accelerated Spanish Review**
(3-2) Cr. 0. F.S.
*Prereq: Two years but less than three years of high-school Spanish*
For students who require additional review at the first year (101-102) level. Course components include a compact review of 101 and the essential elements of 102. Course completed with a passing grade fulfills the LAS foreign language requirement. Not recommended for students who wish to continue language at the second year (201-202) level without completing 102.

**SPAN 101: Elementary Spanish I**
(4-0) Cr. 4. F.S.
A communicative approach to grammar and vocabulary within the context of Hispanic culture. For students whose native language is not Spanish.

**SPAN 102: Elementary Spanish II**
(4-0) Cr. 4. S.S.
*Prereq: SPAN 101, SPAN 97 or placement by departmental exam*
Continuation of Spanish 101. A communicative approach to grammar and vocabulary within the context of Hispanic culture. For students whose native language is not Spanish.

Meets International Perspectives Requirement.

**SPAN 201: Intermediate Spanish I**
(4-0) Cr. 4. F.
*Prereq: SPAN 102 or placement by departmental exam*
Intensive review of basic grammar and conversation. For students whose native language is not Spanish. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature.
Meets International Perspectives Requirement.

**SPAN 295: Study Abroad**
Cr. 3. SS.
*Prereq: SPAN 102 or equivalent*
Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with SPAN 201 or 202.
Meets International Perspectives Requirement.

**SPAN 202: Intermediate Spanish II**
(4-0) Cr. 4. S.
*Prereq: SPAN 201 or placement by departmental exam*
Continuation of Spanish 201. Intensive review of basic grammar. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature. For students whose native language is not Spanish.
Meets International Perspectives Requirement.

**SPAN 297: Intensive Intermediate Spanish**
(4-0) Cr. 4. F.S.
*Prereq: 4 years of high school Spanish, two years of Spanish at a community college, Spanish 201, or equivalent by placement*
Bridge course between 200- and 300-level Spanish courses that focuses on application of advanced grammatical concepts within the context of Hispanic culture. Accelerated review of SPAN 201 and SPAN 202 designed for students who want to continue at the 300 level. Taught in Spanish for students whose native language is not Spanish.
Meets International Perspectives Requirement.

**SPAN 303: Spanish Conversation and Composition**
(3-0) Cr. 3. F.S.
*Prereq: SPAN 202 or placement by departmental exam*
Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational and writing skills within the context of Hispanic culture. Taught in Spanish.
Meets International Perspectives Requirement.
SPAN 303A: Spanish Conversation and Composition: through Culture
(3-0) Cr. 3. F.S.
Prereq: SPAN 202 or placement by departmental exam
Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational and writing skills within the context of Hispanic culture. Taught in Spanish. For students whose native language is not Spanish. Meets International Perspectives Requirement.

SPAN 303B: Spanish Conversation and Composition: for Professionals
(3-0) Cr. 3. F.S.
Prereq: SPAN 202 or placement by departmental exam
Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational and writing skills within the context of Hispanic culture. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 304: Spanish for Global Professionals
(3-0) Cr. 3. F.S.
Prereq: SPAN 202 or placement by departmental exam (SPAN 303B recommended)
Introduction to professional communication within a cultural context. Grammar review as needed. Individual projects will focus on special interests. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 314: Textual and Media Analyses
(3-0) Cr. 3. F.S.
Prereq: SPAN 303A or 303B

SPAN 321: Spanish Civilization
(3-0) Cr. 3.
Prereq: One course at the 300 level

SPAN 322: Latin American Civilization
(3-0) Cr. 3.
Prereq: One course at the 300 level

SPAN 323: Spain Today
(3-0) Cr. 3.
Prereq: One course at the 300 level
A survey of social, political, economic, and cultural topics relevant to contemporary Spain. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 324: Latin America Today
(3-0) Cr. 3.
Prereq: One course at the 300 level
A survey of social, political, economic, and cultural topics relevant to contemporary Latin America. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 326: Studies in Hispanic Art or Film
(Dual-listed with SPAN 526). (3-0) Cr. 3.
Prereq: One course at the 300 level

SPAN 330: Studies in Spanish Literature
(3-0) Cr. 3.
Prereq: SPAN 314
Introduction to Spanish literature from the earliest times through the present; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 332: Studies in Latin American Literature
(3-0) Cr. 3.
Prereq: SPAN 314
Introduction to Latin American literature from the earliest times to the present; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 351: Introduction to Spanish-English Translation
(Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: SPAN 303A or SPAN 303B or SPAN 304
SPAN 352: Introduction to Spanish Phonology
(Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: SPAN 303A or SPAN 303B or SPAN 304
An introductory study of the articulation, classification, distribution, and regional variations of the sounds of the Spanish language. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 354: Introduction to Spanish-English Interpretation
(Dual-listed with SPAN 554). (Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 370: Hispanic Topics in English Translation
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. May not be counted as a prerequisite.
Meets International Perspectives Requirement.

SPAN 370A: Hispanic Topics in English Translation: Agriculture
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Topics vary according to faculty interest. Knowledge and understanding of major cultural, ethical, sociopolitical and economic issues directly related to agriculture and agribusiness in Latin America, Spain, and/or Equatorial Guinea. Readings, discussions, and papers in English. May not be counted as a prerequisite.
Meets International Perspectives Requirement.

SPAN 370S: Studies in English Translation: Hispanic Topics on Women or Feminism
(Cross-listed with WGS). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. May not be counted as a prerequisite.
Meets International Perspectives Requirement.

SPAN 395: Study Abroad
Cr. 1-10. Repeatable.
Prereq: 2 years university-level Spanish or equivalent
Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to students’ training, enhanced by practical living experience.
Meets International Perspectives Requirement.

SPAN 401: Advanced Composition and Grammar
(Dual-listed with SPAN 501). (3-0) Cr. 3. F.
Prereq: SPAN 314 and one course at the 320-level or above
Advanced study of Spanish grammar and syntax. Students’ writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 440: Seminar on the Literatures and Cultures of Spain
(Dual-listed with SPAN 540). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (Recommended SPAN 330 and SPAN 331)
Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 441: Seminar on Cervantes and the Golden Age
(Dual-listed with SPAN 541). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (SPAN 330 recommended)
Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 445: Seminar on the Literatures and Cultures of Latin America
(Dual-listed with SPAN 545). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (SPAN 332 and SPAN 333 recommended)
Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial times to the Present. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 462: Contrastive Analysis of Spanish/English for Translators
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: SPAN 351
Linguistic study of the major differences between the Spanish and English grammatical systems and their applications in the translation of Spanish to English. Taught in Spanish.
SPAN 463: Contemporary Spanish Linguistics
(Cross-listed with LING). (3-0) Cr. 3.
Prereq: SPAN 352
Study of various topics related to the Spanish language. Topics may include bilingualism, historical linguistics and dialectology, Spanish in the U.S., language assessment, computer-assisted language learning and instruction, and second language acquisition. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 490: Independent Study
Cr. 1-6. Repeatable, maximum of 6 credits.
Prereq: 6 credits in Spanish and permission of department chair
Designed to meet the needs of students in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 6 credits in Span 490 may be counted toward graduation.

SPAN 499: Internship in Spanish
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S.
Prereq: 9 credits of Spanish at the 300 level; permission of advisor and WLC Internship Coordinator
Work experience using Spanish language skills in the public or private sector, combined with academic work under faculty supervision. Up to 3 credits may apply toward the major. Available only to majors and minors.

SPAN 501: Advanced Composition and Grammar
(Dual-listed with SPAN 401). (3-0) Cr. 3. F.
Prereq: SPAN 314 and one course at the 320-level or above
Advanced study of Spanish grammar and syntax. Students' writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 526: Studies in Hispanic Art or Film
(Dual-listed with SPAN 326). (3-0) Cr. 3.
Prereq: 6 credits in Spanish literature or culture at 400 level
Survey of major currents and figures in Spanish and Latin American art and/or film.

SPAN 540: Seminar on the Literatures and Cultures of Spain
(Dual-listed with SPAN 440). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (Recommended SPAN 330 and SPAN 331)
Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 541: Seminar on Cervantes and the Golden Age
(Dual-listed with SPAN 441). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (SPAN 330 recommended)
Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 545: Seminar on the Literatures and Cultures of Latin America
(Dual-listed with SPAN 445). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (SPAN 332 and SPAN 333 recommended)
Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial times to the Present. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 554: Introduction to Spanish-English Interpretation
(Dual-listed with SPAN 354). (Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 590: Special Topics in Spanish
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish

SPAN 590A: Special Topics in Spanish: Literature or Literary Criticism
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish

SPAN 590B: Special Topics in Spanish: Linguistics
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish

SPAN 590C: Special Topics in Spanish: Language Pedagogy
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish

SPAN 590D: Special Topics in Spanish: Civilization
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish
Courses primarily for graduate students, open to qualified undergraduate students

SPAN 501: Advanced Composition and Grammar
(Dual-listed with SPAN 401). (3-0) Cr. 3. F.
Prereq: SPAN 314 and one course at the 320-level or above
Advanced study of Spanish grammar and syntax. Students’ writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 526: Studies in Hispanic Art or Film
(Dual-listed with SPAN 326). (3-0) Cr. 3.
Prereq: 6 credits in Spanish literature or culture at 400 level
Survey of major currents and figures in Spanish and Latin American art and/or film.

SPAN 540: Seminar on the Literatures and Cultures of Spain
(Dual-listed with SPAN 440). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (Recommended SPAN 330 and SPAN 331)
Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 541: Seminar on Cervantes and the Golden Age
(Dual-listed with SPAN 441). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, or SPAN 333. (SPAN 330 recommended)
Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 545: Seminar on the Literatures and Cultures of Latin America
(Dual-listed with SPAN 445). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: SPAN 330, SPAN 331, SPAN 332, SPAN or SPAN 333. (SPAN 332 and SPAN 333 recommended)
Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial times to the Present. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 554: Introduction to Spanish-English Interpretation
(Dual-listed with SPAN 354). (Cross-listed with LING). (3-0) Cr. 3. F.S.
Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 590: Special Topics in Spanish
Cr. 1-4. Repeatable.
Prereq: Permission of instructor; 6 credits of 400 level Spanish

World Film Studies
The World Film Studies undergraduate minor is an interdisciplinary, cross-cultural program in the department of World Languages and Cultures that provides coursework in the history, theory, and aesthetics of world cinemas. Upon completion of the World Film Studies minor students will
1) demonstrate solid skills of formal film analysis and knowledge of the essential theoretical concepts of cinema studies;
2) become familiar with prominent film directors, influential cinematic works, and cinematic traditions across the world;
3) gain an understanding of the evolution of cinema as an art form; understand the relations between cinema and other arts;
4) acquire knowledge and understanding of cinema as a mode of cultural expression and communication; develop new perspectives on U.S. culture and cinema through comparison with other world cultures and cinemas.

A student seeking an undergraduate minor in World Film Studies must successfully complete a minimum of 15 credits, which must include WLC 278 Introduction to Global Film or ENGL 237 Survey of Film History and 12 credits selected from the following list of electives. Of these, at least 6 credits must be from courses taught in the department of World Languages and Cultures.

Courses taught in WLC (at least 6 credits)

CHIN 370 Chinese Literature in English Translation 3
FRNCH 326 Studies in French or Francophone Film 3
FRNCH 378 French Film Studies in English 3
GER 378 German Film and Media Studies 3-4
RUS 378 Russian Film Studies in English 3
SPAN 326 Studies in Hispanic Art or Film 3

Courses outside of WLC (up to 6 credits)

ENGL 315 Creative Writing: Screenplays 3
ENGL 335 Studies in Film 3
ENGL 450    Seminar in Literary Genres    3
JL MC 307    Digital Video Production    3

Curricular note: no more than 6 credits of each repeatable course (FRNCH 326 and FRNCH 378) may be applied to the minor. Both WLC 278 and ENG 237 (6 credits max) may count toward the minor.

Graduate Study

The Department of World Languages and Cultures offers course work leading to a graduate minor in French, German, Latin, Russian Studies or Spanish. The graduate minor in each of these languages is designed to provide an opportunity for graduate students to further their knowledge of that language to complement work in their major disciplines. The graduate minor provides formal recognition of student achievement and expertise in one of the languages above. Graduate minor credits are also offered in Greek.

Graduate Minor

Program Requirements:

Prerequisites

Graduate students who wish to minor in one of the languages above must have 400-level proficiency in that language. When this is not the case, the student may be required to take a language course below the 400-level, which would not count towards the graduate minor requirements.

Course Requirements

For the M.A. or M.S.: Three courses in the language of the minor. No more than three credits may be in courses numbered 401, 402, and 403.

For the Ph.D.: Four courses in the language of the minor which must include at least one three credit course at the 500 level. No more than three credits may be in courses numbered 401, 402, or 403. At least two courses for the M.A. and the Ph.D. minors must be taken in residence at Iowa State University. Papers written for these courses are expected to have a content and depth commensurate with the graduate status of the student.

Courses primarily for undergraduates:

WLC 107: Introduction to Swahili
Cr. 1. Alt. S., offered irregularly.

Prereq: None

Basics of grammar and vocabulary within the context of the cultures where Swahili is spoken. For students whose native language is not Swahili. Taught in Swahili. Offered on-line. No

WLC 119: Introduction to World Languages
(Cross-listed with LING). (3-0) Cr. 3.

Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and language use, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy.

Meets International Perspectives Requirement.
WLC 270: Cultures in Transition
(3-0) Cr. 3.
An interdisciplinary introduction to a world region in a state of rapid social and cultural transition. Discussion of the history, social and political institutions, arts, economy, agriculture, and environment of the new nations.
Meets International Perspectives Requirement.

WLC 278: Introduction to Global Film
(3-0) Cr. 3. F.
Introduction to the cinema of non-English speaking regions and cultures of the world through representative subtitled films, lectures, and readings. Topics vary according to faculty interest. Emphasis on selected national cinemas and film as a mode of cultural expression as well as on diverse cultural contexts of cinema.
Meets International Perspectives Requirement.

WLC 370: Topics in World Languages and Cultures in English Translation
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English.
Meets International Perspectives Requirement.

WLC 370A: Topics in World Languages and Cultures in English Translation: Global Sustainability
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English.
Meets International Perspectives Requirement.

WLC 370B: Topics in World Languages and Cultures in English Translation: Middle East
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English.
Meets International Perspectives Requirement.

WLC 370C: Topics in World Languages and Cultures in English Translation: Global Urban Cultures
(3-0) Cr. 3. Repeatable, maximum of 9 credits.
Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English.
Meets International Perspectives Requirement.

WLC 417: Student Teaching
Cr. 8-12. F.S.
Prereq: minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

WLC 417G: Student Teaching: World Language
(Dual-listed with WLC 517G). (Cross-listed with EDUC). Cr. arr. Repeatable. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in world languages, secondary grades.

WLC 484: Technology, Globalization and Culture
(Dual-listed with WLC 584). (Cross-listed with M E). (3-0) Cr. 3. F.
Prereq: junior or senior classification for M E 484; graduate classification for M E 584
Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.
Meets International Perspectives Requirement.

WLC 486: Methods in Elementary School World Language Instruction
(Cross-listed with EDUC, LING). (3-0) Cr. 3. F.
Prereq: 25 credits in a world language
Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on K-8 students’ communicative skills, cultural knowledge, and content learning.
WLC 487: Methods in Secondary School World Language Instruction (Cross-listed with EDUC, LING). (3-0) Cr. 3. F.
Prereq: 25 credits in a world language, admission to the teacher education program, OPI
Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning.

WLC 491: Experiences Abroad: Learning to Think Globally (Cross-listed with INTST). (1-0) Cr. 1. Repeatable, maximum of 2 credits.
Prereq: Minimum of 3 cr. study abroad and/or internship abroad
Students returning from study abroad gain perspective on the personal, academic, and professional impact of their time spent abroad through readings and discussions. Students will be expected to make one presentation about the culture they experienced to an audience outside ISU. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

WLC 517G: Student Teaching: World Language (Dual-listed with WLC 417G). (Cross-listed with EDUC). Cr. arr. Repeatable. F.S.
Prereq: Minimum GPA of 2.5; Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in world languages, secondary grades.

WLC 584: Technology, Globalization and Culture (Dual-listed with WLC 484). (Cross-listed with M E). (3-0) Cr. 3. F.
Prereq: junior or senior classification for M E 484; graduate classification for M E 584
Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.
Meets International Perspectives Requirement.

### Department of Ecology, Evolution, and Organismal Biology

#### Undergraduate Study

Within the Biological Sciences, studies of ecology, evolution, and organismal biology are essential in understanding the complex relationships of life on Planet Earth. Ecology focuses on the interactions among organisms as well as the interactions between organisms and their physical environments. Evolutionary theory addresses the origins and interrelationships of species. Organismal biology studies both the diversity of biological organisms and the structure and function of individual organisms.

The EEOB Department offers several undergraduate majors with other departments. Students interested in the areas of ecology, evolution, and organismal biology should major in Biology, Environmental Science, or Genetics. The Biology Major is administered and offered jointly by the EEOB and GDCB departments. The faculty of EEOB, together with those in GDCB and BBMB, administer and offer the Genetics Major. Faculty in EEOB, in cooperation with faculty from other departments on campus, administer and offer the Environmental Science Major. Each of these majors is available through the College of Liberal Arts and Sciences or through the College of Agriculture and Life Sciences. Faculty in the EEOB Department also teach undergraduate courses at Iowa Lakeside Laboratory (see the Iowa Lakeside Laboratory listing).

The Biology Major, the Environmental Science Major, and the Genetics Major prepare students for a wide range of careers in biological sciences. Some of these careers include conservation of natural resources and biodiversity, human and veterinary medicine, and life science education. These majors are also excellent preparation for graduate study in systematics, ecology, biological diversity, physiology, and related fields. Faculty members in EEOB contribute to the undergraduate courses listed below. The titles and descriptions of these courses are in the Biology section of the catalog.

**Graduate Study**

The department offers graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees. EEOB graduate students major in one of several interdepartmental majors including Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Environmental Science, Genetics, Interdisciplinary Graduate Studies, Neuroscience, and Toxicology. The EEOB faculty members are active in the interdepartmental graduate majors and teach a wide range of graduate courses. Faculty research programs cover a wide range of specializations including physiology and physiological ecology; Microbiology; animal behavior; evolutionary genetics of plants and animals; modeling of evolutionary and ecological processes; plant and animal systematics; neurobiology; developmental biology; aquatic and wetland ecology; functional, population, community, landscape, and ecosystem ecology; and conservation biology. For further information on faculty research interests check the EEOB web site (www.eeob.iastate.edu). Some EEOB faculty teach graduate courses at Iowa Lakeside Laboratory. Field Station courses are also available through the Gulf Coast Marine Laboratory and the Organization for Tropical Studies (see the Biology listing).

Prospective graduate students need a sound background in the physical and biological sciences, as well as in mathematics and English. Interested students should check the Graduate Program link from the EEOB web site for specific admission procedures and updates. The department and majors require submission of Graduate Record Examination (GRE) aptitude test scores. Subject area GRE scores are recommended. International students whose native language is other than English must also submit TOEFL or IELTS scores with their application.

Students who are enrolled in the interdepartmental graduate majors with EEOB affiliation are required to participate in departmental seminars, to participate in research activities, and to show adequate progress and professional development while pursuing their degree. For both the M.S. and Ph.D. degrees, it is expected that research conducted by the student will culminate in the writing and presentation of a thesis or dissertation. Requirements and guidelines for study are provided by the Graduate College, the EEOB faculty, and the individual student’s major professor and Program of Study Committee. General information about graduate study requirements can be found at the web site for the Graduate College and requirements for the interdepartmental majors can be found by following the links from the EEOB web site above. Although not a formal requirement, the EEOB faculty recommends that students pursuing the Ph.D. include teaching experience in their graduate training.

Courses primarily for graduate students, open to qualified undergraduates:
EEOB 507: Advanced Animal Behavior
(3-0) Cr. 3. S.
Prereq: Graduate standing, BIOL 354, or permission of instructor
Analysis of current research in animal behavior. Topics covered may include behavioral ecology, mechanisms of behavior, evolution of behavior, applications of animal behavior to conservation biology, and applications of animal behavior to wild animals in captivity.

EEOB 514: Life History and Reproductive Strategies
(Dual-listed with BIOL 414). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BIOL 315 or equivalent recommended.
Evolution of ecological adaptations at the individual, population, and species level. Emphasis is on evolutionary mechanisms and adaptive strategies related to life histories and reproduction; age and size at maturity; lifespan and senescence; offspring size/number trade-offs; sex and mating systems; sex determination and sex ratios.

EEOB 531: Conservation Biology
(Cross-listed with A ECL). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: BIOL 312; BIOL 313 or graduate standing
Examination of conservation issues from a population and a community perspective. Population-level analysis will focus on the role of genetics, demography, and environment in determining population viability. Community perspectives will focus on topics such as habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

EEOB 531I: Conservation Biology
(Cross-listed with A ECL, IA LL). Cr. 4. Alt. SS., offered even-numbered years.
Prereq: IA LL 312I
Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.

EEOB 534: Endocrinology
(Dual-listed with BIOL 434). (3-0) Cr. 3. S.
Prereq: BIOL 211, BIOL 212
Chemical integration of vertebrate organisms. The structure, development, and evolution of the endocrine glands and the function and structure of their hormones.

EEOB 535: Restoration Ecology
(Cross-listed with ENSCI, NREM). (2-3) Cr. 3. Alt. F., offered even-numbered years.
Prereq: BIOL 366 or BIOL 474 or graduate standing
Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

EEOB 535I: Restoration Ecology
(Cross-listed with A ECL, ENSCI, IA LL). Cr. 4. Alt. SS., offered even-numbered years.
Prereq: A course in ecology
Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

EEOB 542: Introduction to Molecular Biology Techniques
(Cross-listed with B MS, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS.
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

EEOB 542A: Introduction to Molecular Biology Techniques: DNA Techniques
(Cross-listed with B MS, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

EEOB 542B: Introduction to Molecular Biology Techniques: Protein Techniques
(Cross-listed with B MS, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.SS.
Prereq: Graduate classification
Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

EEOB 542C: Introduction to Molecular Biology Techniques: Cell Techniques
(Cross-listed with B MS, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.
EEOB 542D: Introduction to Molecular Biology Techniques: Plant Transformation
(Cross-listed with BMS, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. S.
Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

EEOB 542E: Introduction to Molecular Biology Techniques: Proteomics
(Cross-listed with BMS, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. F.
Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

EEOB 542F: Introduction to Molecular Biology Techniques: Metabolomics
(Cross-listed with BMS, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. F.
Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

EEOB 542G: Introduction to Molecular Biology Techniques: Genomic
(Cross-listed with BMS, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, VMPM, VDPAM). Cr. 1. Repeatable. S.
Offered on a satisfactory-fail basis only.

EEOB 551: Plant Evolution and Phylogeny
(Dual-listed with BIOL 451). (3-3) Cr. 4. F.
Prereq: BIOL 315 or equivalent.
Survey of land plant evolution; phylogenetic comparison of anatomical, reproductive, and life history specializations. Relationships among bryophytes, lycophytes, pteridophytes, gymnosperms, and angiosperms emphasizing significant evolutionary changes documented by paleobotanical, morphological, and molecular studies.

EEOB 553: Bryophyte and Lichen Biodiversity
(Dual-listed with BIOL 455). (2-3) Cr. 3. S.
Prereq: BIOL 211, BIOL 211L
Introduction to the biology and ecology of mosses, liverworts, and lichens. Emphasis on identification and diversity of local representatives of these three groups of organisms. Required field trips and service-learning.

EEOB 555: Ornithology
(Cross-listed with A ECL). (2-0) Cr. 2. S.
Prereq: A ECL 365 or BIOL 351
Dual-listed with Biol 458. Biology, ecology, evolution, and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation.

EEOB 559: Mammalogy
(Dual-listed with BIOL 459). (2-0) Cr. 2. S.
Prereq: BIOL 351 or A ECL 365
Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation.

EEOB 561: Evolution and Ecological Genomics
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Permission of instructor; BCBIO 444 recommended.
Use of genomic and other "omic" data in evolution and ecology. Review of data-generation platforms, computational methods, and examples of how phylogenomics, metagenomics, epigenomics, and population genomics are transforming the disciplines of evolution and ecology.

EEOB 562: Evolutionary Genetics
(3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Permission of instructor
Seminar/discussion course covering the genetic basis of evolutionary processes in multicellular organisms.

EEOB 563: Molecular Phylogenetics
(2-3) Cr. 3. S.
Prereq: BIOL 313 and BIOL 315
An overview of the theory underlying phylogenetic analysis and the application of phylogenetic methods to molecular datasets. The course emphasizes a hands-on approach to molecular phylogenetics and combines lecture presentations with computer exercises and discussion of original scientific literature.

EEOB 564: Wetland Ecology
(Dual-listed with BIOL 464). (Cross-listed with ENSCI). (3-0) Cr. 3. S.
Prereq: 15 credits in biological sciences.

EEOB 564I: Wetland Ecology
(Cross-listed with ENSCI, IA LL). Cr. 4. SS.
Prereq: IA LL 312I
Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.
EEOB 565: Macroevolution
(Dual-listed with BIOL 465). Cr. 3. Alt. S., offered even-numbered years.
Prereq: BIOL 315
The history and diversity of life on earth; evolutionary patterns and processes above the species level. Diversity from a phylogenetic perspective. Empirical exercises include: phylogeny estimation, ancestral states, estimating diversification rates, evaluating the tempo and mode of evolution, biogeographic patterns, and trait associations across the tree of life.

EEOB 566: Molecular Evolution
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: Permission of instructor
Seminar/discussion course covering the fundamentals of molecular evolution. Emphasis is placed on original scientific literature and current topics, including rates and patterns of genetic divergence; nucleotide and allelic diversity; molecular clocks; gene duplications; genome structure; organellar genomes; polyploidy; transposable elements; and modes and mechanisms of gene and genome evolution.

EEOB 567: Empirical Population Genetics
(3-0) Cr. 3. Alt. F., offered irregularly.
Prereq: Permission of instructor
An overview of fundamental population genetic theory and the ecological and evolutionary factors underlying the distribution of genetic variation within and among natural populations. Emphasis on the analysis of inbreeding, breeding systems, parentage, relatedness, spatial autocorrelation, effective population size, hierarchial population models, and phylogeography.

EEOB 568: Advanced Systematics
(Cross-listed with ENT). (2-3) Cr. 3. Alt. S., offered irregularly.
Prereq: Permission of instructor
Principles and practice of systematic biology; taxonomy, nomenclature and classification of plants and animals; sources and interpretation of systematic data; speciation; fundamentals of phylogenetic systematics.

EEOB 569: Biogeography
(3-0) Cr. 3. Alt. S., offered irregularly.
Prereq: BIOL 315 or equivalent; permission of instructor
Principles underlying the geographic distribution of organisms throughout the world; biological influences of geological history and tectonic movements; role of climate, migration, dispersal, habitat, and phylogeny on past and present organismal distribution patterns; biogeographic methods.

EEOB 573: Techniques for Biology Teaching
(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573A: Techniques for Biology Teaching: Animal Biology
(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573B: Techniques for Biology Teaching: Plant Biology
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573C: Techniques for Biology Teaching: Fungi and Lichens
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573D: Techniques for Biology Teaching: Aquatic Ecology
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573E: Techniques for Biology Teaching: Prairie Ecology
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

EEOB 573F: Techniques for Biology Teaching: Wetland Ecology
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.
EEOB 573G: Techniques for Biology Teaching: Limnology
(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573H: Techniques for Biology Teaching: Animal Behavior
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573I: Techniques for Biology Teaching: Insect Ecology
(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573J: Techniques for Biology Teaching: Biology of Invertebrates
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573K: Techniques for Biology Teaching: Non-invasive Use of Living
Organisms
(Cross-listed with IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 573W: Techniques for Biology Teaching: Project WET
(Cross-listed with A ECL, IA LL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable
for inclusion in elementary, middle, high school, and community college
biology and environmental courses. Exercises will be built around
common organisms and ecosystems in Iowa. Field trips.

EEOB 575I: Field Mycology
(Cross-listed with IA LL). Cr. 4. Alt. SS., offered even-numbered years.
Identification and classification of the common fungi; techniques for
identification, preservation, and culture practiced with members of the
various fungi groups.

EEOB 576: Functional Ecology
(Dual-listed with BIOL 476). (3-0) Cr. 3. Alt. S., offered odd-numbered
years.
Prereq: BIOL 312
The nature of adaptations to physical and biotic environments.
Biophysical, biomechanical, and physiological bases of the structure,
form, growth, distribution, and abundance of organisms.

EEOB 577: Concepts in Theoretical Ecology and Evolution
(2-0) Cr. 1. Alt. F., offered even-numbered years.
Readings and discussion of influential ideas in ecological and
evolutionary theory, with an emphasis on how models are used as
conceptual tools for building synthetic paradigms. Topics are chosen
according to student interests; may include spatial ecology, behavioral
theory, chaos, community assembly and biodiversity, and others.

EEOB 581: Environmental Systems I: Introduction to Environmental
Systems
(Dual-listed with BIOL 381). (Cross-listed with ENSCI). Cr. 3-4. F.
Prereq: 12 credits of natural science including biology and chemistry
Introduction to the structure and function of natural environmental
systems. Emphasis on the analysis of material and energy flows in
natural environmental systems and the primary environmental factors
controlling these systems.

EEOB 582: Environmental Systems II: Analysis of Environmental Systems
(Dual-listed with BIOL 382). (Cross-listed with ENSCI). (2-2) Cr. 3. S.
Prereq: ENSCI 381
Continuation of EnSci 381. Systems approach to the analysis of material
and energy flows in natural environmental systems and the primary environmental factors
controlling these systems.

EEOB 584: Ecosystem Science
(Dual-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Combined 12 credits in biology, chemistry, and physics.
Advanced studies of ecosystems and the biological and physical factors
that influence their properties and dynamics. Conceptual foundations
and modern approaches to ecosystem studies. Interactions among
organisms, biological diversity, and ecosystem attributes. Quantitative
analyses of accumulations, transformations, and fluxes of nutrients,
water, and energy within and among ecosystems. Global change issues.
EEOB 585: Advanced Community Ecology
(2-2) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BIOL 312
Factors controlling species diversity, species abundance, and the structure and function of communities in space and time. Relationships between species diversity and ecosystem process rates and community stability.

EEOB 586: Aquatic Ecology
(Dual-listed with BIOL 486). (Cross-listed with A ECL, ENSCI). (3-0) Cr. 3. F.
Prereq: Biol 312 or EnSci 381 or EnSci 402 or NREM 301
Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

EEOB 586L: Aquatic Ecology Laboratory
(Dual-listed with BIOL 486L). (Cross-listed with A ECL, ENSCI). (0-3) Cr. 1. F.
Prereq: Concurrent enrollment in BIOL 486
Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

EEOB 587: Microbial Ecology
(Dual-listed with BIOL 487). (Cross-listed with ENSCI, GEOL, MICRO). (3-0) Cr. 3. F.
Prereq: Six credits in biology and 6 credits in chemistry
Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

EEOB 589: Population Ecology
(Dual-listed with BIOL 489). (Cross-listed with A ECL). (2-2) Cr. 3. Alt. F., offered even-numbered years.
Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing
Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

EEOB 590: Special Topics
Cr. 1-3. Repeatable.
Prereq: 10 credits in biology, permission of instructor

EEOB 590A: Special Topics: Current Topics in Ecology
Cr. 1-3. Repeatable.
Prereq: 10 credits in biology, permission of instructor

EEOB 590B: Special Topics: Current Topics in Evolutionary Biology
Cr. 1-3. Repeatable.
Prereq: 10 credits in biology, permission of instructor

EEOB 590C: Special Topics: Current Topics in Organismal Biology
Cr. 1-3. Repeatable.
Prereq: 10 credits in biology, permission of instructor

EEOB 590I: Special Topics: Graduate Independent Study
(Cross-listed with A ECL, ANTHR, IA LL). Cr. 1-4. Repeatable. SS.
Prereq: Graduate classification and permission of instructor

EEOB 596: Ecology and Society
(Cross-listed with PHIL). (3-0) Cr. 3.
Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology
Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.

EEOB 599: Creative Component
Cr. arr.
Research toward nonthesis master's degree.

Courses for graduate students:

EEOB 611: Analysis of Populations
(Cross-listed with A ECL). (2-2) Cr. 3. Alt. F., offered even-numbered years.
Prereq: BIOL 312; STAT 401; a course in calculus
Quantitative techniques for analyzing vertebrate population data to estimate parameters such as density and survival. Emphasis on statistical inference and computing.

EEOB 698: Seminar
Cr. 1. Repeatable.
Meetings of graduate students and faculty to discuss recent literature and problems under investigation.

EEOB 699: Research
Cr. arr. Repeatable.
Research for thesis or dissertation. Offered on a satisfactory-fail basis only.

EEOB 699I: Iowa Lakeside Laboratory. (Cross-listed with IA LL 699I)
(Cross-listed with A ECL, ANTHR, GDCB, IA LL). Cr. arr. Repeatable.
Research for thesis or dissertation. Offered on a satisfactory-fail basis only.

Genetics, Development and Cell Biology
The Department of Genetics, Development and Cell Biology (GDCB) is dedicated to biological discovery and excellence in undergraduate and graduate education. The research and teaching mission of the
The department is to achieve a greater understanding of fundamental principles of life by focusing on basic cellular and subcellular processes, including genome dynamics, cell structure and function, cellular response to environmental and developmental signals, and molecular mechanisms of development. Recognizing that student education is of paramount importance, GDCB strives for excellence in teaching and research. GDCB plays a leading role in undergraduate and graduate training through a variety of activities, including traditional courses, undergraduate internships in research laboratories, and advanced graduate seminar and literature-based courses. Innovative approaches to learning are emphasized throughout the curriculum.

Undergraduate Study

The Department of GDCB offers undergraduate majors in conjunction with other departments. Students interested in the areas of genetics, development and cell biology should major in biology, genetics or bioinformatics and computational biology (BCBio). The biology major is administered and offered jointly by the GDCB and Ecology, Evolution and Organismal Biology (EEOB) departments. The GDCB faculty, together with those in EEOB and the Department of Biochemistry, Biophysics and Molecular Biology (BBMB), administer and offer the genetics major. Each of these majors is available through the College of Liberal Arts and Sciences or through the College of Agriculture and Life Sciences. BCBio is administered by GDCB and the Departments of Computer Science and Mathematics, and it is available through the College of Liberal Arts and Sciences.

The biology major and the genetics major prepare students for a wide range of careers in biological sciences. Training in biology or genetics may lead to employment in teaching, research, or any of a variety of health-related professions. Some of these careers include biotechnology, human and veterinary medicine, agricultural sciences and life science education. BCBio majors are prepared for careers at the interfaces of biological, informational and computational sciences in the above fields. These majors are also excellent preparation for graduate study in bioinformatics, molecular genetics, cell and developmental biology, neuroscience and related fields. Faculty members in GDCB contribute to the undergraduate courses listed below. The full descriptions of these courses can be found in the biology, genetics and BCBio sections of the catalog.

Graduate Study

Understanding the genetic blueprint and the functions of cells is critical to virtually all aspects of biology. The basic mission of the Department of
GDCB is to achieve a greater understanding of fundamental principles of life. The GDCB faculty and students conduct hypothesis-driven research into the biology of animals, plants and microbes. While research in GDCB is often based on discovery and analysis of molecular mechanisms of life processes, a true understanding of living organisms will ultimately require the integration of molecular mechanisms in the context of dynamic structural components of the living cell. Thus, research efforts within GDCB use molecular, genetic, biochemical, computational and imaging techniques to study systems at increasingly complex levels of organization.

GDCB faculty contribute to a broad but integrated array of cutting-edge research topics. Faculty implement interactive and multidisciplinary approaches that bridge conventional boundaries, and they incorporate experimental and computational biology as complementary approaches. Examples include using genetics and molecular biology to investigate the cellular basis of development, or combining biochemical and computational approaches to study basic subcellular functions, signal transduction or metabolism.

The faculty in the GDCB Department train graduate students in several interdepartmental majors/programs, including bioinformatics and computational biology; ecology and evolutionary biology; genetics and genomics; immunobiology; plant biology; interdisciplinary graduate studies; microbiology; molecular, cellular and developmental biology; neuroscience; and toxicology. Graduate work leading to degrees in the master of science (M.S.) and doctor of philosophy (Ph.D.) is available.

Prospective graduate students need a sound background in the physical and biological sciences, as well as mathematics and English. Interested students should check the links on the GDCB website (www.gdcb.iastate.edu/) for specific admissions procedures and the latest information about individual faculty and their research programs. The interdepartmental majors and programs require submission of Graduate Record Examination (GRE) aptitude test scores. Advanced GRE scores are recommended. International students whose native language is other than English must also submit TOEFL scores with their application.

Students who are enrolled in the interdepartmental graduate majors and who have affiliations with GDCB are required to actively participate in seminars and research activities, and they are required to show adequate progress and professional development while pursuing their degree. Completion of either the M.S. or Ph.D. requires that research conducted by the student culminates in the writing and presentation of a thesis or dissertation. The Graduate College, the GDCB faculty, and the individual student's major professor and Program of Study Committee provide requirements and guidelines for study. General information about graduate study requirements can be found at the website for the Graduate College (www.grad-college.iastate.edu), and requirements for the interdepartmental majors can be found by following the links from the GDCB website (www.gdcb.iastate.edu/). Although not a formal requirement, the GDCB faculty recommends that students pursuing the Ph.D. include teaching experience in their graduate training.

**Courses primarily for graduate students, open to qualified undergraduates:**

**GDCB 505: Entrepreneurship in Science and Technology**
(3-0) Cr. 3. Alt. F., offered even-numbered years. High level success at modern science requires entrepreneurship both in and outside the laboratory. Scientists are in a unique position to not only think, but to thrive, “outside of the box” and take unorthodox approaches to research that lead to positive paradigm shifts in our lives. Exploration of many facets of science, technology, industry and commerce, with frequent guest lectures from entrepreneurs.

**GDCB 510: Transmission Genetics**
(3-0) Cr. 3. F. 
*Prereq: GEN 410 or graduate standing*
In-depth investigations of modern research practices of transmission genetics. Designed for students interested in genetic research. Topics include: Mendelian genetic analysis, analysis of genetic pathways, mutational analysis of gene function, chromosomal mechanics, genetic mapping, epigenetic inheritance, human genetic analysis.

**GDCB 511: Advanced Molecular Genetics**
(Cross-listed with MCDB). (3-0) Cr. 3. S. 
*Prereq: BIOL 313 and BBMB 405*
Mechanisms of molecular genetic processes in eukaryotes and prokaryotes, including DNA replication and repair, transcription, translation and regulation of gene expression. Critical evaluation and discussion of current primary literature, methodologies and experimental data.

**GDCB 513: Plant Metabolism**
(Cross-listed with PLBIO). (2-0) Cr. 2. Alt. F., offered even-numbered years. 
*Prereq: BIOL 330, PHYS 111, CHEM 331; one semester of biochemistry recommended*
Photosynthesis, respiration, and other aspects of plant metabolism.

**GDCB 528: Advances in Molecular Cell Biology**
(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered even-numbered years. 
*Prereq: Courses in general cell biology and biochemistry*
Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.
GDCB 533: Advances in Developmental Biology
(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BIOL 314 or Biol 423
Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in the current literature.

GDCB 536: Statistical Genetics
(Cross-listed with STAT). (3-0) Cr. 3.
Prereq: STAT 401, STAT 447; GEN 320 or BIOL 313
Statistical models and methods for genetics covering models of population processes: selection, mutation, migration, population structure, and linkage disequilibrium, and inference techniques: genetic mapping, linkage analysis, and quantitative trait analysis. Applications include genetic map construction, gene mapping, genome-wide association studies (GWAS), inference about population structure, phylogenetic tree construction, and forensic and paternity identification.

GDCB 542: Introduction to Molecular Biology Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.S.
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

GDCB 542A: Introduction to Molecular Biology Techniques: DNA Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

GDCB 542B: Introduction to Molecular Biology Techniques: Protein Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.SS.
Prereq: Graduate classification
Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

GDCB 542C: Introduction to Molecular Biology Techniques: Cell Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

GDCB 542D: Introduction to Molecular Biology Techniques: Plant Transformation
(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.
Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

GDCB 542E: Introduction to Molecular Biology Techniques: Proteomics
(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.
Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

GDCB 542F: Introduction to Molecular Biology Techniques: Metabolomics
(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.
Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

GDCB 542G: Introduction to Molecular Biology Techniques: Genomic
(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.
Offered on a satisfactory-fail basis only.

GDCB 544: Fundamentals of Bioinformatics
(Cross-listed with BCB, COM S, CPR E). (4-0) Cr. 4. F.
Prereq: MATH 165 or STAT 401 or equivalent
A practical, hands-on overview of how to apply bioinformatics to biological research. Recommended for biologists desiring to gain computational molecular biology skills. Topics include: sequence analysis, genomics, proteomics, phylogenetic analyses, ontology enrichment, systems biology, data visualization and emergent technologies.

GDCB 545: Plant Molecular, Cell and Developmental Biology
(Cross-listed with MCDB, PLBIO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: Biol 313, BIOL 314, BIOL 330 or BBMB 405
Plant nuclear and organelle genomes; regulation of gene expression; hormone signaling; organization, function, and development of plant cells and subcellular structures; regulation of plant growth and development.
GDCB 556: Cellular, Molecular and Developmental Neuroscience
(Cross-listed with B M S, NEURO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BIOL 335 or BIOL 436; physics recommended
Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.

GDCB 557: Advanced Neuroscience Techniques
(Cross-listed with NEURO). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Neuro 556 or equivalent course
Research methods and techniques; lectures, laboratory exercises and/or demonstrations representing individual faculty specialties.

GDCB 558: Bioinformatics II (Statistical Bioinformatics)
(Cross-listed with BCB, COM S, STAT). (3-0) Cr. 3. S.
Prereq: BCB 567 or (BIOL 315 and STAT 430), credit or enrollment in GEN 409
Statistical models for sequence data, including applications in genome annotation, motif discovery, variant discovery, molecular phylogeny, gene expression analysis, and metagenomics. Statistical topics include model building, inference, hypothesis testing, and simple experimental design, including for big data/modeling approaches.

GDCB 559: Bioinformatics III (Structural Bioinformatics)
(Cross-listed with BBMB, BCB, COM S, CPR E). (3-0) Cr. 3. F.
Prereq: BCB 567, BBMB 316, GEN 409, STAT 430

GDCB 560: Bioinformatics IV (Systems Biology)
(Cross-listed with BCB, COM S, CPR E, STAT). (3-0) Cr. 3. S.
Prereq: BCB 567 or COM S 311, COM S 228, GEN 409, STAT 430

GDCB 585: Fundamentals of Predictive Plant Phenomics
(Cross-listed with BCB, M E). Cr. 4. F.
Prereq: Acceptance into the P3 program or instructor permission.
Principles of engineering, data analysis, and plant sciences and their interplay applied to predictive plant phenomics. Transport phenomena, sensor design, image analysis, graph models, network data analysis, fundamentals of genomics and phenomics. Multidisciplinary laboratory exercises. None

GDCB 590: Special Topics
Cr. arr. Repeatable.
Prereq: Permission of instructor

Courses for graduate students:

GDCB 661: Current Topics in Neuroscience
(Cross-listed with BBMB, NEURO). (2-0) Cr. 2-3. Repeatable. Alt. S., offered even-numbered years.
Prereq: NEURO 556 (or comparable course) or permission of instructor
Topics may include molecular and cellular neuroscience, neurodevelopment, neuropathology, neurodegenerative diseases, cognitive neuroscience, sensory biology, neural integration, membrane biophysics, neuroethology, techniques in neurobiology and behavior.

GDCB 690: Seminar in GDCB
Cr. 1. Repeatable.
Research seminars by faculty, invited speakers, and graduate students. Offered on a satisfactory-fail basis only.

GDCB 691: Faculty Seminar
Cr. 1. Repeatable.
Faculty research series.

GDCB 696: Research Seminar
(Cross-listed with AGRON, BBMB, FOR, HORT, PLBIO). Cr. 1. Repeatable.
Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

GDCB 698: Seminar in Molecular, Cellular, and Developmental Biology
(Cross-listed with BBMB, MCDB, MICRO, V MPM). (2-0) Cr. 1-2. Repeatable. F.S.
Student and faculty presentations.

GDCB 699: Research
Cr. arr. Repeatable.
Research for thesis or dissertation. Offered on a satisfactory-fail basis only.

GDCB 699I: Research
(Cross-listed with A ECL, ANTHR, EEOB, IA LL). Cr. 1-4. Repeatable.
Greenlee School of Journalism and Communication
http://www.greenlee.iastate.edu/

The Greenlee School of Journalism and Communication prepares students for the field of communication. The school offers three majors:
- Advertising Bachelor of Arts (ADVRT)
- Journalism and Mass Communication Bachelor of Science (JL MC)
- Public Relations Bachelor of Science (PR)

Professional skills are taught and practiced alongside academic requirements using the latest technology and leading-edge communication trends and methods.

Founded in 1905, the unit was one of the first journalism programs to be accredited in 1948 and continues to be one of the longest continuously accredited programs in the country. Accreditation is based on the principle that students need a broad-based, liberal arts education and solid core courses within the discipline. Students taking one major at the school may not seek a second major or minor in the school. All students are required to take a second major or minor outside the school as an area of expertise.

Undergraduate Study
Students who major in advertising, journalism and mass communication, or public relations are expected to develop competencies in 12 key areas:

- understand and apply the principles and laws of freedom of speech and press for the country in which the institution that invites ACEJMC is located, as well as receive instruction in and understand the range of systems of freedom of expression around the world, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances;
- demonstrate an understanding of the history and role of professionals and institutions in shaping communications;
- demonstrate an understanding of gender, race ethnicity, sexual orientation and, as appropriate, other forms of diversity in domestic society in relation to mass communications;
- demonstrate an understanding of the diversity of peoples and cultures and of the significance and impact of mass communications in a global society;
- understand concepts and apply theories in the use and presentation of images and information;
- demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity;
- conduct research and evaluate information by methods appropriate to the communications professions in which they work;
- write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve;
- critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;
- apply basic numerical and statistical concepts;
- apply current tools and technologies appropriate for the communications professions in which they work, and to understand the digital world.

Communication Proficiency Requirement
All majors in the School must complete ENGL 150 Critical Thinking and Communication (or be exempt) and earn a grade of C or better in ENGL 250, Oral, Visual, and Electronic Composition (or ENGL 250H). These additional requirements apply.

Advertising majors must earn a C+ or better in:
- JL MC 201 Reporting and Writing for the Mass Media 3
- one of
- ADVRT 334 Advertising Creativity 3
- ADVRT 336 Advertising Account Management 3

Journalism and mass communication majors must earn a C+ or better in:
- JL MC 201 Reporting and Writing for the Mass Media 3
- one of
- JL MC 302 Intermediate Reporting and Writing for the Mass Media 3
- JL MC 303 Reporting and Writing for Broadcast Media 3

Public relations majors must earn a C+ or better in:
- JL MC 201 Reporting and Writing for the Mass Media 3
- PR 321 Public Relations Writing 3

African and African American Studies
Interdepartmental Undergraduate Program

African and African American Studies, a cross-disciplinary program in the College of Liberal Arts and Sciences, offers students the opportunity to explore the African Americans’ experience and African American contributions to American culture. Students in the program analyze and learn about African American experiences through the study of history, literature, art, religion, and society. They gain knowledge and develop
skills and sensitivities to help them function effectively in today’s diverse society.

African and African American Studies at Iowa State University is an expanding program. Most of the courses in the program satisfy general education requirements in the College of Liberal Arts and Sciences, the human relations requirement for teachers, and the university’s diversity requirement. Students can minor or even design their own Interdisciplinary Studies major with an emphasis in African American Studies. Relevant courses are offered through other departments.

**Graduate Study**

Several courses can be applied to a graduate program as electives.

A minor in African and African American Studies requires six courses in the program with a minimum of 18 credits, including AF AM 201 Introduction to African American Studies and AF AM 460 Seminar in African American Culture. The remaining credits must come from at least two departments, with at least two courses taken at the junior level or above. Independent study and internship opportunities are available for credit, but do not count in the minimum requirements for the minor.

**Courses primarily for undergraduates:**

**AF AM 201: Introduction to African American Studies**  
(3-0) Cr. 3. F.S.  
An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience.  
Meets U.S. Diversity Requirement

**AF AM 311: Africa under Colonial Rule**  
(Cross-listed with HIST). (3-0) Cr. 3.  
Prereq: 3 credits of 200-level HIST at Iowa State, and sophomore classification.  
Development of Africa from imposition of colonial rule to independence, including processes of European domination, African reaction and resistance, emergence of nationalism, and dismantling of colonialism.  
Meets International Perspectives Requirement

**AF AM 325: Peoples and Cultures of Africa.**  
(Cross-listed with ANTHR). (3-0) Cr. 3.  
Prereq: 201 or 306 recommended.  
Survey of diverse African culture areas across the continent and globally; local level description and analysis of individuals as members of African communities; regional, national and global scales of identification.  
Meets International Perspectives Requirement

**AF AM 330: Ethnic and Race Relations**  
(Cross-listed with SOC). (3-0) Cr. 3. F.S.SS.  
Prereq: SOC 134  
Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations.  
Meets U.S. Diversity Requirement

**AF AM 334: African American Religious Experience**  
(Cross-listed with RELIG). (3-0) Cr. 3. F.  
Prereq: Prior course work in Religious Studies or African American Studies recommended  
Examination of African-American experience from the perspective of black religion with attention to political, economic, social, theological and artistic expressions, including music, that serve the life of African-American communities.  
Meets U.S. Diversity Requirement

**AF AM 337: Studies in African American Literature**  
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits.  
Prereq: ENGL 250  
Literature by African Americans, which may include study of individual authors, movements, themes, genres.  
Meets U.S. Diversity Requirement

**AF AM 350: Women of Color in the U.S**  
(Cross-listed with WGS). (3-0) Cr. 3. S.  
Prereq: 3 credits in WGS or AF AM  
Economic, social, political and cultural roles of Women of Color in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored.  
Meets U.S. Diversity Requirement

**AF AM 353: History of African Americans I**  
(Cross-listed with HIST). (3-0) Cr. 3. S.  
Prereq: Sophomore classification  
Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.  
Meets U.S. Diversity Requirement
AF AM 354: History of African Americans II
(Cross-listed with HIST). (3-0) Cr. 3. S.
Prereq: Sophomore classification
Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.
Meets U.S. Diversity Requirement

AF AM 460: Seminar in African American Culture
(3-0) Cr. 3. S.
Intensive study of a selected topic in African-American Studies in one or more disciplines. Selected readings of various authors, movements, eras, or genres. Primary and secondary source materials.
Meets U.S. Diversity Requirement

AF AM 473: Civil Rights and Ethnic Power
(Cross-listed with HIST, US LS). (3-0) Cr. 3.
Prereq: Sophomore classification
Comparative history of the civil rights and ethnic power movements (African American, Chicano, American Indian, Puerto Rican, among others) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights.
Meets U.S. Diversity Requirement

AF AM 490: Independent Study
Cr. 1-3. Repeatable, maximum of 3 times.

Air Force Aerospace Studies

The objectives of the Department of Air Force Aerospace Studies (AFAS) are to provide qualified students the opportunity to earn a commission as an active duty officer in the United States Air Force (USAF) and to build better citizens for those not interested in serving in the USAF. Entry into the Air Force Reserve Officer Training Corps (AFROTC) program is not dependent on departmental major or year in the university, and is open to all qualified students.

The curriculum is divided into two basic phases: the General Military Course (GMC) and the Professional Officer Course (POC). The GMC is introductory and open to all ISU students. The GMC consists of four consecutive one-hour courses normally taken during the freshman and sophomore years.

Selection for the POC is on a competitive basis. Cadets enrolling in this course must meet certain academic, mental, and physical requirements as well as having high moral standards. Students who have completed the GMC will compete to participate in Field Training, a four-week summer training program which provides a concentrated experience in the Air Force environment. Field Training includes officer training, career orientation, expeditionary training, an introduction to typical base functions, and physical training. Prior to entry into the POC, students must successfully complete Field Training.

Upon enrollment and acceptance into the POC, all cadets complete a contractual agreement with the Air Force, which signs them up for at least four years of active duty as an USAF officer after graduation. Qualified cadets may compete for selection for flying jobs such as pilot, combat systems operator (CSO), remotely-piloted aircraft (RPA) operator, and air battle manager (ABM).

AFROTC scholarships are available and provide payment of full tuition and fees. In addition, scholarship cadets receive a $300-$500 monthly subsistence allowance and $900 per year book allowance. Scholarships can be awarded for periods from two to five years, depending on academic major. Upon acceptance of a scholarship, complete a contractual agreement with the Air Force, which signs them up for at least four years of active duty as an USAF officer after graduation. To determine eligibility and initiate application procedures for the scholarship program, interested students should contact the AFAS department.

The College of Liberal Arts and Sciences offers a minor in military studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or more of the ROTC programs. At least six credits must be in courses numbered 300 or above.

Courses primarily for undergraduates:

AFAS 103: Introductory Leadership Laboratory with Physical Training
(0-4) Cr. 2. Repeatable, maximum of 4 credits. F.S.
Prereq: Membership as a cadet in AFROTC
Instruction for new cadets on Air Force customs and courtesies; drill and ceremonies, issuing military commands, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers while also using basic military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student’s physical and medical eligibility. Offered on a satisfactory-fail basis only.

AFAS 141: Foundations of the United States Air Force
(1-0) Cr. 1. F.
AFAS 142: Foundations of the United States Air Force  
(1-0) Cr. 1. S.  
A continuation of 141. Topics include Air Force installations, Air Force core values, leadership and team building, further study of interpersonal communication, the Oath of Office and Commissioning.

AFAS 203: Basic Leadership Laboratory with Physical Training  
(0-4) Cr. 2. Repeatable, maximum of 4 credits. F.S.  
Prereq: Membership as a cadet in AFROTC  
Instruction and critique of cadets on Air Force customs and courtesies, drill and ceremonies, and issuing military commands in preparation for AFROTC summer Field Training while also using basic military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student’s physical and medical eligibility. Offered on a satisfactory-fail basis only.

AFAS 251: Team and Leadership Fundamentals  
Cr. 1. F.  
Measuring character through self-assessment and its importance for leadership and team building. The importance of listening and communication for mission accomplishment. Leadership, team building, and problem solving skills in the context of Air Force core values.

AFAS 252: Team and Leadership Fundamentals II  
Cr. 1. S.  
Defining leadership through the lens of human relations, conflict and stress management, and ethical decision making. The importance of leveraging diversity and collaborative relationships with negotiating and resiliency techniques in the context of Air Force core values.

AFAS 303: Intermediate Leadership Laboratory with Physical Training  
(0-4) Cr. 2. Repeatable, maximum of 4 credits. F.S.  
Prereq: Membership as a cadet in AFROTC  
Mid-level management of leadership experience involving planning and controlling of most AFROTC military activities. Students will help senior leadership to prepare and present briefings and other oral and written communications; provide interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets; and use advanced military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student’s physical and medical eligibility. Offered on a satisfactory-fail basis only.

AFAS 341: Air Force Leadership Studies I  
(3-0) Cr. 3. F.  
A look at the fundamental issues of leadership and management in the U.S Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 342: Air Force Leadership Studies II  
(3-0) Cr. 3. S.  
Prereq: AFAS 341  
A continuation of AFAS 341, that looks at the advanced issues of leadership and management in the U.S. Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 403: Advanced Leadership Laboratory with Physical Training  
(0-4) Cr. 2. Repeatable, maximum of 6 credits. F.S.  
Prereq: Membership as a cadet in AFROTC  
Advanced leadership experience involving the planning and controlling of all upper-level AFROTC military activities. Students will prepare and present briefings and other oral and written communications; provide interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets; and use advanced military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student’s physical and medical eligibility. Offered on a satisfactory-fail basis only.

AFAS 441: Preparation for Active Duty  
(3-0) Cr. 3. F.  
Traces the source of military authority and responsibilities from the U.S. Constitution through the DoD to an Air Force officer. Examines the structure and capabilities of the other services and joint structures. Addresses the supervisory duties of an Air Force officer associated with administrative actions and military law as force management tools. Builds upon leadership and management skill learned in AFAS 341/342 and includes demonstrations of written and verbal communications processes.
AFAS 442: National Security Affairs
(3-0) Cr. 3. S.
Examines the national security process through review of the Department of Defense’s statutory administrative and operational relationships as context for this course’s regional studies component. Reviews functions of air and space power as outlined in Air Force doctrine and introduces the concept of joint operations. Integrates these concepts with regional studies to survey issues of interest to professional military officers and governmental leaders. Selectively reviews and discusses Africa, Latin America, South Asia, East Asia, Europe, Russia and the Middle East.
Meets International Perspectives Requirement.

American Indian Studies
American Indian Studies is a cross-disciplinary minor in the College of Liberal Arts and Sciences that allows students to learn more about the contemporary and historical realities of native communities in North America, to appreciate the variety of native cultures and experiences, and to be prepared for an attentive lifelong learning experience in a diverse world.

Courses focus on critical thinking and the application of knowledge in complex, diverse situations. Courses in American Indian Studies thus not only provide knowledge on specific native issues, but also prepare students for careers and further studies in fields such as community development and planning, social work, law, sociology, education, history, anthropology, agriculture, resource extraction, literature, policy, engineering, environmental issues.

Today, 80% of American Indians live outside of reservation communities. American Indian Studies students will gain the knowledge and skills they need for living and working with, in and around native communities and people who live everywhere in North America, and, increasingly, the world.

For students who are interested in deeper knowledge on the issues, a major can be pursued through the Interdisciplinary Studies major in the College of Liberal Arts and Sciences. Faculty members also are available to provide expertise to graduate students working on specific issues that involve American Indian themes.

Most American Indian Studies courses meet the university-wide U.S. Diversity requirement.

The minor in American Indian Studies is 15 credits and includes:

AM IN 210 Introduction to American Indian Studies 3

And 12 additional credits of AM IN coursework, of which at least 9 credits need to be 300-level courses or above.

The coursework will be established in consultation with the director of the program through the student’s “Request for Minor” form.

Courses primarily for undergraduates:

AM IN 205: American Indians in the Movies
(3-0) Cr. 3. Alt. SS., offered irregularly.
Examines the role of American Indians in the movie industry. Explores the development of American Indian characters and filmmaking, and the relevance for Native communities, through feature films and academic analysis. One focus is a comparison of non-Native and Native films in form, content, and message, and the changing character of Native representation in both.
Meets U.S. Diversity Requirement

AM IN 210: Introduction to American Indian Studies
(3-0) Cr. 3. F.S.SS.
Introduction to the multidisciplinary aspects of American Indian Studies. Topics include the relevant events and ideas defining the contemporary American Indian experience, on and off reservation, in the United States. Sovereignty, identity, jurisdiction, taxes, economic development, education, and other issues are addressed.
Meets U.S. Diversity Requirement

AM IN 225: American Indians of Iowa
(Cross-listed with ANTHR). Cr. 3. F.
Cultures and histories of Native people who have called the present state of Iowa home; primary focus on the period between 1700 CE and the present; Native interactions with Spanish, French, British, and American people.
Meets U.S. Diversity Requirement

AM IN 240: Introduction to American Indian Literature
(Cross-listed with ENGL). (3-0) Cr. 3. F.
Prereq: Credit in or exemption from ENGL 150
Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works.
Meets U.S. Diversity Requirement

AM IN 310: Contemporary Topics in American Indian Studies
(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.
Prereq: AM IN 210 recommended
Examines contemporary issues and important topics affecting Native communities overall.
Meets U.S. Diversity Requirement
AM IN 311: Federal Indian Law and Policy  
(3-0) Cr. 3.  
Prereq: AM IN 210 recommended  
Examines the impact of federal American Indian policies on Native communities, especially contemporary Indian Country and communities. Topics include sovereignty, recognition, the role of the Supreme Court, specific policies like allotment, and other relevant issues.  
Meets U.S. Diversity Requirement

AM IN 312: American Indian Education  
(3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: AM IN 210 recommended  
Examines current and historical issues in American Indian education. Topics include traditional education, changes to formal education, tribal colleges and universities, current school systems, and other relevant topics.  
Meets U.S. Diversity Requirement

AM IN 313: Native Land, Water, and Resources  
(3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: AM IN 210 recommended  
Examines Native land rights, water rights, and natural resources. Topics may include Native relations to landscapes, cultural resources and infrastructure projects, land rights, water usage agreements, and resource policies as they apply to on- and off-reservation Native communities.  
Meets U.S. Diversity Requirement

AM IN 315: Archaeology of North America  
(Cross-listed with ANTHR). (3-0) Cr. 3. S.  
Prereq: ANTHR 202  
Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture- historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.  
Meets U.S. Diversity Requirement

AM IN 320: Great Plains Archaeology  
(Cross-listed with ANTHR). (3-0) Cr. 3. F.  
Prereq: ANTHR 202  
Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.  
Meets U.S. Diversity Requirement

AM IN 322: Peoples and Cultures of Native North America  
(Cross-listed with ANTHR). (3-0) Cr. 3.  
Prereq: ANTHR 201 or AM IN 210  
Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.  
Meets U.S. Diversity Requirement

AM IN 332: Current Issues in Native North America  
(Dual-listed with AM IN 532). (Cross-listed with ANTHR). (3-0) Cr. 3.  
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended  
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.  
Meets U.S. Diversity Requirement

AM IN 332A: Current Issues in Native North America: Gender and Family  
(Dual-listed with AM IN 532A). (Cross-listed with ANTHR). (3-0) Cr. 3.  
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended  
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.  
Meets U.S. Diversity Requirement

AM IN 332B: Current Issues in Native North America: Indigenous Ecologies and Geographies  
(Dual-listed with AM IN 532B). (Cross-listed with ANTHR). (3-0) Cr. 3.  
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended  
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.  
Meets U.S. Diversity Requirement

AM IN 332C: Current Issues in Native North America: Cultural and Political Movements  
(Dual-listed with AM IN 532C). (Cross-listed with ANTHR). (3-0) Cr. 3.  
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended  
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.  
Meets U.S. Diversity Requirement
AM IN 332D: Current Issues in Native North America: Regional Focus
(Dual-listed with AM IN 532D). (Cross-listed with ANTHR). (3-0) Cr. 3.
Prereq: ANTHR 201 or ANTHR 306; ANTHR 322 or AM IN 210 recommended
Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.
Meets U.S. Diversity Requirement

AM IN 346: American Indian Literature
(Cross-listed with ENGL). (3-0) Cr. 3.
Prereq: ENGL 250
Survey of literature by Native Americans from pre-Columbian tales and songs to contemporary novels and poetry.
Meets U.S. Diversity Requirement

AM IN 426: Topics in Native American Architecture
(Cross-listed with ARCH). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: Junior classification
History, theory, and principles of Native American/American Indian architecture, landscape architecture and planning considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment History, Theory, Culture. A maximum of 6 credits of ARCH 426 may be applied to degree program.
Meets U.S. Diversity Requirement

AM IN 490: Independent Study
Cr. arr. Repeatable, maximum of 9 credits.
Prereq: 6 credits in American Indian studies; permission of instructor and program director
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 6 credits in AM IN 490 may be counted toward graduation. If more than 3 credits in AM IN 490 are taken, they must be from different instructors.

Military Science Interdisciplinary Program

The Military Science Department does not offer an academic degree and is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program. The mission of the department is derived directly from regulations governing Army Reserve Officers’ Training Corps (AROTC), which are issued by the U.S. Army Cadet Command and U.S. Army Training and Doctrine Command and cannot be modifiable by this department.

Freshmen Year Learning Outcomes
The student will have a working knowledge of the following areas: The Role of the Army, Roles and Origins of the Army, Army Customs and Traditions, Branches (Jobs) in the Army and Military Operations and Tactics, U.S. Army leadership and character development.

Sophomore Year Learning Outcomes
The student will have a working knowledge of the following areas: Transition to Becoming an Officer, Military Justice, Intelligence and Electronic Warfare, Army Personnel Management, Army Logistics, Post and Installation Support and Military Operations and Tactics; Cadets will actively analyze character development and assess leadership skills.

Junior Year Learning Outcomes
The student will have a working knowledge of the following areas:
- Small Unit Training, Command and Staff Functions, Nuclear, Biological and Chemical Warfare, Law of War, Weapons, Human Behavior, Math Reasoning, Computer Science and Military Operations and Tactics;
- Cadets will actively analyze character development and assess leadership skills.

Senior Year Learning Outcomes
The student will have a working knowledge of the following areas:
- Transition to Becoming an Officer, Military Justice, Intelligence and Electronic Warfare, Army Personnel Management, Army Logistics, Post and Installation Support and Military Operations and Tactics; Cadets will internalize and adhere to the U.S. Army's profession through active leadership and congruence of character development.

The mission of the Army Reserve Officers’ Training Corps (AROTC) is to commission the future leaders of the United States Army. Since ROTC produces over 65 percent of the Army's Officer Corps, our task is one of the most important undertakings in the Army and our country today. We seek top quality college students. We train these potential leaders, assess their abilities, and challenge them with the highest standards of profession/professionalism. Those who successfully complete the program, receive a commission as a second lieutenant in the U.S. Army. A commission as an Army officer affords the opportunity to pursue a profession in one or several of the 300 different jobs held by Army officers. Students may request to serve as an officer in either the active army, or part time in the Army Reserve or National Guard. Regardless of the method of service, officers in today's Army can be proud to know that they are doing their share in the defense of the United States of America.

The ISU Military Science program is divided into two segments, the basic program and the advanced program. The basic program (courses numbered 101-290) is designed primarily for freshmen and sophomores. No military obligation is incurred by a person participating in the basic program. The basic program is designed to be informative and to acquaint students with the military as a profession. The basic program or an allowed substitute is a prerequisite for the advanced program. Financial assistance is available on a competitive basis.
Persons interested in Military Science should visit the department located on the second floor of the Armory (east side).

### Basic Program

The basic program courses are primarily for freshmen and sophomore students and, except for persons with prior military service and basic training graduates, are required for entry into the advanced program. Each scholarship cadet in the Basic Program receives a monthly allowance (freshmen $300; sophomore $350) for up to 10 months. The curriculum is designed to train freshmen and sophomores in individual and team skills. It also helps the Professor of Military Science identify individual leader developmental needs.

### Advanced Program

The advanced program courses are for students who have completed the basic program (or received equivalent credit) and are mandatory for potential commissioning upon contracting at the beginning of their junior year. Each cadet receives a monthly allowance (junior $450; senior $500) for up to 10 months. These courses are primarily taught to academic juniors and seniors.

Successful completion normally obligates the student to military service on active or reserve duty. In addition to the advanced program of study, a student (cadet) will be expected to pass the Army Physical Fitness Test (precondition for commissioning) each semester and continually maintain military appearance standards in both personal grooming and uniform. Physical fitness training is regularly conducted outside of class and laboratory hours in a separate course, M S 150 Army Physical Readiness. Students are encouraged to attend and participate in this class.

Professional Military Science Education (PME) coursework outside of the military science curriculum is also a precondition to commissioning. The PME component consists of Basic Academic proficiency standards. These standards are explained to prospective students as they consider enrollment in the advanced program. Army Uniforms will be worn at least once a week. The 300-level courses are designed to prepare cadets for the Advanced Course, which is a 32 day summer internship/training program where cadets are trained to Army standards, develop leadership skills, and have their officer potential evaluated. The 400-level courses are the final preparation for commissioning as a second lieutenant in the United States Army. Students must meet academic alignment criteria and receive basic program credit before entering the advanced program.

### Military Studies Minor

The College of Liberal Arts and Science offers a minor in Military Studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or a number of the ROTC programs. At least 6 credits must be in courses numbered 300 or above.

### Courses primarily for undergraduates:

**M S 101: Introduction to Military Science**

(1-0) Cr. 1. F.

Prereq: Concurrent enrollment in M S 101L required

Examines the role of a Cadet in the Army Reserve Officer Training Corps and a Lieutenant in the United States Army. The course explores a military culture whose ultimate success is determined by the character and proficiency of its’ leaders. Instruction introduces students to the cultural heritage and history of the U.S. Army. Students will begin to understand the structure of the U.S. Army and how it functions as an organization and institution. The curriculum promotes the development of students’ communication skills to enhance their ability to transmit ideas. The class examines how the Army’s cultural values drive the development of leadership in the Officer Corps. Hands-on activities enable students to gain insight on the skills and abilities required of cadets and officers interacting with civilians and soldiers.

**M S 101L: Basic Leadership Laboratory I**

(0-2) Cr. 1. F.

Prereq: Concurrent enrollment in M S 101 required

Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. This concept provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Marching, rifle firing, and tactical patrolling; students gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students’ physical and medical eligibility.
M S 102: Structure and Function of the U.S. Army
(1-0) Cr. 1. S.
Prereq: Concurrent enrollment in M S 102L required
Instructs students on the fundamental skills and proficiencies required of Cadets in the Army Reserve Officer Training Corps and Officers in the United States Army. Allows students to explore the Army culture whose ultimate success is determined by the character and proficiency of its’ leaders. Students will gain an insight to the effects of human behavior and communication on the function of the Army’s basic unit structures. Special focus is given to the emphasis the Army puts on the development and character of the leader and how that affects the culture and operation of the Army as an institution. Students will develop an understanding of the role that morals and ethics play in becoming an Army Officer and leading American Soldiers. Introduction to basic officer/soldier skills will elucidate the complex role of the Officer in the modern Army.

M S 102L: Basic Leadership Laboratory II
(0-2) Cr. 1. S.
Prereq: Concurrent enrollment in M S 102 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students’ physical and medical eligibility.

M S 150: Army Physical Readiness
(0-3) Cr. 1. Repeatable. F.S.
This lab is designed to use basic military skills and instruction to develop confidence, leadership, and physical fitness. The team approach is utilized in the instruction and application of Army physical fitness requirements. Students will learn various Army physical fitness techniques as well as how to conduct physical fitness sessions. Teaching locations include Lied Recreation Center, Beyer Hall, State Gym as well as around campus. Full participation in all events will be determined based on students physical and medical eligibility.

M S 201: Principles of Leadership and Communication Skills
(2-0) Cr. 2. F.
Prereq: Concurrent enrollment in M S 201L required
Explores the development of leadership and communication skills by understanding and studying the principles, traits, and dynamics of leadership and effective communication techniques. These include; leadership dimensions, human behavior, time management skills, stress management, values and ethics, decision making process, problem solving skills, team building exercises, communication techniques, briefing skills, delegating, nutrition, fitness, and counseling. Leadership assessment programs, role playing, active class participation, speeches, country briefs, and video clips are used to enhance and reinforce the instruction.

M S 201L: Basic Leadership Laboratory III
(0-2) Cr. 1. F.
Prereq: Concurrent enrollment in M S 201 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students’ physical and medical eligibility.

M S 202: Map Reading and Land Navigation
(2-0) Cr. 2. S.
Prereq: Concurrent enrollment in M S 202L required
Class focuses on the characteristics and features of the earth’s land mass and how to apply different methods of conducting navigation on land. These methods include; by use of topographical maps, compasses, aerial photographs, military maps, symbols, and all their practical application. These navigation techniques are used in class in conjunction with patrolling techniques and squad movement exercises. Students will utilize verbal and non-verbal communication, communication techniques, and briefing techniques during this class. Students are also assigned to read one professional book from the Army Reading List and complete a written review of the book in the Army writing style.
M S 202L: Basic Leadership Laboratory IV  
(0-2) Cr. 1. S.  
*Prereq: Concurrent enrollment in M S 202 required*  
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills.  
Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility.

M S 250: Advanced Army Physical Readiness I  
(0-5) Cr. 2. F.  
*Prereq: Successfully complete M S 150 and permission of Department Chair*  
Students learn to plan and conduct physical fitness sessions, following Army physical fitness readiness requirements. Development of physical fitness plan and leadership of training sessions. Participation determined by students' physical and medical eligibility.

M S 251: Advanced Army Physical Readiness II  
(0-5) Cr. 2. S.  
*Prereq: Successfully complete M S 150 and M S 250*  
Students learn to plan and conduct physical fitness sessions, following Army physical fitness readiness requirements. Development of physical fitness plan, and leadership of training sessions. Participation determined by students' physical and medical eligibility.

M S 290: Independent Study: Basic Military Study  
Cr. 1-3. Repeatable, maximum of 12 credits. F.S.S.  
*Prereq: Permission of the Chair of Military Science Department*  
Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development.

M S 301: Methods of Instructing Military Skills  
(3-0) Cr. 3. F.  
*Prereq: Completion of the basic Military Science program, concurrent enrollment in M S 301L, and permission of the Chair of the Military Science Department*  
Develops students' proficiency in analyzing, planning, and executing complex operations within a military organizational structure. Students are given situational opportunities and then measured on their leadership abilities through systematic feedback. Students' evaluations are based on sixteen leadership dimensions within the realms of values, attributes, skills, and actions. Students develop an understanding of human cultural heritage and history, as it pertains to the armed forces.

M S 301L: Advanced Leadership Laboratory I  
(0-4) Cr. 1. F.  
*Prereq: Completion of the basic program, concurrent enrollment in M S 301 and permission of the Chair of the Military Science Department*  
The lab compliments M S 301 by providing opportunities to practice the lessons from class. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Participating in the Water Survival test, Army Physical Fitness test and the Land Navigation test are required.

M S 302: Applied Leadership  
(3-0) Cr. 3. S.  
*Prereq: Completion of the basic Military Science program, concurrent enrollment in M S 302L and permission of the Chair of the Military Science Department*  
Prepares students to attend the Leadership Develop and Assessment Course at Fort Lewis, Washington in which they will be assigned specific and situational tasks to accomplish by providing purpose, motivation, and direction to fellow students across the nation. Students will learn how to identify sixteen leadership dimensions in the under classmen and provide specific feedback on their leadership behaviors. Students will develop their oral communication skills about the plans developed by the class, through small group presentation settings. Students will develop methods of studying human behavior.

M S 302L: Advanced Leadership Laboratory II  
(0-4) Cr. 1. S.  
*Prereq: Completion of the basic program, concurrent enrollment in M S 302 and permission of the Chair of the Military Science Department*  
The lab compliments M S 302 by providing opportunities to practice the lessons from class. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Participating in the Water Survival Test, Army Physical Fitness Test and the Land Navigation test required.
M S 401: Seminar: The Military Team
(3-0) Cr. 3. F.
Prereq: Completion of the basic program, concurrent enrollment in M S 401L
and permission of the Chair of the Military Science Department
Develops student proficiency in analyzing and evaluating leadership behaviors, such as values, attributes, skills, and actions. Students are given situational opportunities to assess leadership and provide feedback to other students placed in leadership roles. Students will be measured by their ability to both give and receive systematic and specific feedback on leadership behaviors. Students will develop their ability to communicate thoughts and ideas orally through small group presentations and group discussions. Students will supervise and evaluate the planning and execution of complex operations within a military organizational structure.

M S 401L: Advanced Leadership Laboratory III
(0-4) Cr. 1. F.
Prereq: Completion of the basic program, concurrent enrollment in M S 401L
and permission of the Chair of the Military Science Department
The lab compliments the instruction from class by demonstrating the indelible link between personal values and successful leadership. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs.

M S 402: Seminar: The Professional Military Officer
(3-0) Cr. 3. S.
Prereq: Completion of the basic program, concurrent enrollment in M S 402L
and permission of the Chair of the Military Science Department
Explores the dynamics of leading in the complex situations of current military operations in a contemporary world. Students will examine the differences in customs, courtesies and operational principles in the face of international terrorism. Students will also explore aspects of interaction with nongovernmental organizations, civilians and media in a war zone and foreign national governments. The course uses case studies, scenarios, and practical exercises, which prepare the student to face complex ethical and practical demands of leading soldiers within a multifaceted military organizational structure.

M S 402L: Advanced Leadership Laboratory IV
(0-4) Cr. 1. S.
Prereq: Completion of the basic program, concurrent enrollment in M S 402L
and permission of the Chair of the Military Science Department
The lab compliments the instruction from class by demonstrating the indelible link between personal values and successful leadership. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs.

M S 490: Independent Study: Advanced Military Study
(1-0) Cr. 1. Repeatable, maximum of 4 credits. F.S.S.S.
Prereq: M S 301, M S 302, M S 401 and M S 402 and permission of the Chair of
the Military Science Department
Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development.

Military Studies
Interdepartmental Minor
The Military Studies program is designed for students interested in learning about military skills and careers. The mission of the Reserve Officers’ Training Corps (ROTC) programs is threefold. First, students are developed mentally, morally, and physically in order to make them strong leaders. Second, a desire for development in mind and character is instilled in students so they may assume the highest responsibilities of command, citizenship, and government. Finally, students are imbued with the highest ideals of duty, honor, and loyalty in order to graduate with a basic professional background and motivation toward their careers.

The Military Science, Naval Science and Air Force Aerospace departments accomplish this mission through detailed courses of instruction occurring throughout a typical student’s college career. All academic courses offered by these departments focus on the development of professional military skills and their application. Each department offers courses unique to its branch of the military. Students in Army ROTC classes gain an appreciation for ground warfare and doctrine, while students in Naval Science develop an appreciation for naval surface and maritime engineering. The Air Force Aerospace Studies curriculum familiarizes students with Air Force structure and doctrine. On a broader scale, all three departments offer courses promoting leadership and sound management practices that investigate the military’s role in American domestic and foreign policy, and can be employed in any career path.

Military Science, Naval Science and Air Force Aerospace courses are offered in the interdepartmental Military Studies program in the following participating departments: Military Science, Naval Science and Air Force Aerospace.

Undergraduate Study
Undergraduate study in this program provides the student with an opportunity to develop a minor in Military Studies. The three Iowa State University ROTC programs offer over 64 credits of specialized coursework. The minor in Military Studies is open to any Iowa State University student.

Undergraduate students may minor in Military Studies by taking 15 credits of coursework from a combination of any of the three ROTC
Naval Science

The Department of Naval Science is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program but does not offer an academic degree. The courses offered by the Department are developed by the Department of the Navy. The Naval Science Department and Naval ROTC (NROTC) Program develop individuals mentally, morally, and physically, and imbue in them the highest ideals of duty and loyalty, in order to commission them upon graduation as Navy and Marine Corps officers. Program graduates possess a basic professional background, are motivated towards careers in the Naval Service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship, and government. Emphasis is placed on the core values of courage, honor and commitment.

Naval Science courses are open to any ISU student who has met the course prerequisites. To participate in the Naval ROTC Program, students must apply through one of two programs: the NROTC Scholarship Program (full scholarship; which includes a book stipend, tuition, laboratory fees, uniforms, and a monthly stipend), or the College Program (non-scholarship, with limited financial assistance). Applicants for the Scholarship Program are selected through a comprehensive nationwide competition. Applicants for the College Program are selected by the Professor of Naval Science from among students already in attendance at, or selected for admission by, the university. The College Program involves limited financial assistance by application for a 2 or 3-year scholarship. Upon application, students choose between the Navy Option and Marine Corps Option, for the purposes of training focus. NROTC students pursue their studies like other university students except that they must meet certain additional requirements that will prepare them to serve as naval officers upon graduation.

A Marine Corps Option student incurs a minimum 4-year active duty military obligation as a commissioned officer after graduation; a Navy Option student incurs a minimum 5-year active duty obligation.

Further information is available from the Professor of Naval Science, Iowa State University, isunrotc@iastate.edu, 515-294-6050.

While in the NROTC Program, Scholarship Program students will participate (with pay) in at-sea training cruises during the summer. College Program students, accepted to receive a 2 or 3-year scholarship, will participate in at-sea training during the summer between their Junior and Senior year based on the specifics of their scholarship. Students are also exposed to regular and extracurricular activities that teach leadership principles and help them decide which field of the Navy or Marine Corps they wish to enter. These activities also include weekly leadership laboratory periods and opportunities for involvement in several student societies.

Undergraduate Study

Naval Science courses are primarily for those students in the NROTC program, however, other university students may also enroll. Students enrolled in the NROTC program must fulfill the following requirements:

1. In addition to the normal Naval Science courses, all NROTC students are required to participate in laboratory periods that supplement the various academic courses. The Leadership Lab emphasizes human relations principles, teaches basic military formations, movements, commands, courtesies, and honors, and provides practice in unit leadership. Non NROTC program students enrolled in Naval Science courses are not required to participate in laboratory periods.

2. The College of Liberal Arts and Sciences offers a minor in military studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from any of the three ROTC programs offered on campus. At least 6 credits must be in courses numbered 300 or above.

For basic undergraduate curriculum requirements, see Liberal Arts and Sciences, Curriculum; or Engineering, Curricula.

Courses primarily for undergraduates:
N S 111: Introduction to Naval Science
(3-0) Cr. 3. F.
Introduction to the organization, regulations, and capabilities of the US Navy, with emphasis on mission and principal warfare components.

N S 212: Seapower and Maritime Affairs
(3-0) Cr. 3. S.
An historical survey of sea power in terms of national domestic environments, foreign policy, and the evolution of maritime forces with trends in technology, doctrine, and tactics. The student will develop an understanding of the role the US Navy has played in the nation's history, both in peace and war. Naval events, forces and policies will be studied as elements in the shaping of the national consciousness and sense of purpose. Course content will include the development of the concept of sea power, the role of various warfare components of the Navy, the implementation of sea power as an instrument of national policy, the evolution of naval tactics, and the influence of maritime affairs around the world.

N S 220: Leadership and Management
(3-0) Cr. 3. F.
Introduction to the basic concepts of management and organization, their application to operations and personnel management. Experiential approach to learning principles of leadership and management by examining various management theories and their applications. Skills are developed in the areas of communication, counseling, control, direction, management, and leadership through active guided participation.

N S 230: Navigation
(3-0) Cr. 3. S.
Prereq: Sophomore classification
Study of the fundamentals of marine navigation used by ships at sea; includes practical exercises in piloting using visual and electronic means. In-depth discussion of laws that govern conduct of vessels in national and international waters. Course is supplemented with review and analysis of case studies involving actual navigation incidents.

N S 240: Fundamentals of Maneuver Warfare
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Concepts, definition, and need for maneuver warfare and expeditionary operations. US Marine Corps case studies of specific battles, development, and implementation. Structure, operation and capabilities of the Marine expeditionary unit, Marine air-ground task force and expeditionary strike group. Discussion and incorporation of leadership traits and principles.

N S 320: Naval Ship Systems I (Engineering)
(3-0) Cr. 3. F.
Prereq: PHYS 221, sophomore classification
An introduction to naval engineering with emphasis on the equipment and machinery involved in the conversion of energy for propulsion and other purposes aboard the major ship types of the U.S. fleet. Basic concepts of the theory and design of steam, gas turbine, diesel, and nuclear propulsion. Introduction to ship design, stability, hydrodynamic forces, compartmentalization, electrical and auxiliary systems.

N S 321: Evolution of Warfare
(3-0) Cr. 3. S.
Prereq: Sophomore classification
Evolution of warfare from 3500 B.C. to contemporary times; analysis of the impact of historical precedents on modern military thought and action; emphasis on the historical development of military tactics, strategy, and technology.

N S 330: Naval Ship Systems II (Weapons)
(3-0) Cr. 3. S.
Prereq: PHYS 221, sophomore classification
Introduction to the theory and principles of operation of naval weapon systems. Included coverage of types of weapons and fire control systems, capabilities and limitations; theory of target acquisition, identification and tracking; basics of naval ordnance.

N S 410: Naval Operations and Seamanship
(3-0) Cr. 3. F.
Prereq: N S 230; senior classification
Study of tactical naval operations; employs practical use of maneuvering boards together with shiphandling principles to arrive at tactical shipboard maneuvering solutions. Study also of naval command and control, communications, and the Naval Warfare Doctrine.

N S 412: Leadership and Ethics
(3-0) Cr. 3. S.
Prereq: Requirements for NROTC students - N S 111, N S 212 or HIST 389, N S 220, N S 230, N S 320, N S 330 and N S 410
Basic background concerning the duties and responsibilities of the junior naval officer and division officer in the areas of integrity and ethics, human resources management, personnel management, material management, and the administration of discipline. Preparation for responsibilities encountered immediately upon commissioning.

N S 440: Senior Naval Science Seminar
(1-0) Cr. 1. F.S.
Prereq: Senior classification
Current leadership issues in the US Navy which will challenge the newly commissioned officer. Opportunities to analyze, provide solutions, and discuss actions related to a variety of real world situations.
N S 490: Independent Study
Cr. 1-3. Repeatable, maximum of 9 credits.
Prereq: Senior classification and prior approval of Naval Science Department Chair, 6 credits in Naval Science
No more than 9 credits of N S 490 may be counted toward graduation.

Officer Education Programs
Iowa State University offers Reserve Officers Training Corps (ROTC) programs for the professional training of officers for the Army, Air Force, Navy and Marines.

The purpose of these programs is to provide an avenue for interested students to become reserve or regular officers in one of the United States military services, and the university regards this training as the foundation for possible careers in the military. The Air Force and the Navy require a period of active duty service upon completion of the ROTC program. Graduates from Army ROTC serve in either active Army, the Army Reserve, or the National Guard.

All students enrolled in advanced ROTC programs receive financial allowances, which are described under Student Financial Aid. Scholarships are also available for all services as outlined in the section on financial aid.

For specific courses and programs see also Air Force Aerospace Studies, Military Science, and Naval Science.

U.S. Latino/a Studies Program
Latinos/as/x are the largest and fastest growing culturally diverse population in the United States, representing dynamic and thriving American realities.

U.S. Latino/a Studies at Iowa State University is a cross-disciplinary, coalition-building program that offers well-structured and creative coursework to students interested in the arts, cultures, economies, histories, politics, religions, and literatures of Latino/a/x communities throughout the United States. It facilitates the study of a vast array of communities and individuals with roots in the Caribbean and Latin America, and long-established U.S. citizen communities such as Chicanos/as, Mexican Americans, Tejanos, Californios, Cuban-Americans, Dominican-Americans, and Puerto Ricans on the island and on the mainland.

The program aims to serve as a hub that connects classes, service and outreach opportunities across colleges, schools, and departments. Consequently, students can discover a stimulating field of critical and academic research, engage in an exciting platform on which to link different fields of study, and become part of outreach/community networks in which they will grow to become outstanding, conscientious leaders in their respective careers.

The Program in U.S. Latino/a Studies is well suited to careers in Education, Psychology, History, Sociology, Business, Journalism, Spanish Language and Cultures, Women's and Gender Studies, and Agriculture. A U.S. Latino/a Studies minor, or a double major with a Latino/a Studies track in Interdisciplinary Studies, strengthens student profiles as they compete for jobs on the global market because they have attained an in-depth experience of local and global experiences of Latin America and the Caribbean, as well as a sophisticated understanding of diversity and inclusion.

The US LS Program offers course work that meets the ISU U.S. Diversity requirement and also offers a 15 credit Minor (https://usls.las.iastate.edu/minor).

Interdisciplinary Studies Major, Track in U.S. Latino/a Studies
Students can work with the US LS program director and the Interdisciplinary Studies adviser to develop an individualized major program. In addition to meeting the general requirements for the Interdisciplinary Studies major, students wishing to complete a track in U.S. Latino/a Studies must complete a minimum of 36 credits in the area of U.S. Latino/a Studies including US LS 211 (Introduction to U.S. Latino/a Studies). At least 15 of the 36 credits must be in courses numbered 300 and above and 6 credit hours must be earned at the 400-level. Students must also meet the upper-level communication proficiency requirement by taking English 302 or 314.

Required Courses (36 credits)
Prerequisite for all US LS courses: (3 credit hours):

US LS 211 Introduction to U.S. Latino/a Studies 3
Two of the following Historical Foundations of US LS 6
US LS 372 Latina/o History
HIST 340 History of Latin America I
HIST 341 History of Latin America II
Two of the following Social Science Foundations of US LS 6
SOC 332 The Latino/Latina Experience in U.S. Society
US LS 347 U.S. Latino/a Psychology
ANTHR 323 Topics in Latin American Anthropology
SPAN 322 Latin American Civilization
SPAN 324 Latin America Today
Two of the following Political Foundations of US LS 3
US LS 343 Latin American Government and Politics
US LS 473 Civil Rights and Ethnic Power
Two of the following Literature and Language in US LS 6

Special Topics in US LS (Optional; maximum of 3 credit hours per semester up to 9 credit hours total) 3-9

US LS 490 | Independent Study

Additional Credits for the Major (if not taken to satisfy areas above; 12 four of the following courses)

US LS 372 | Latina/o History
SOC 332 | The Latino/Latina Experience in U.S. Society
US LS 342 | Religion and U.S. Latino/a Literature
US LS 343 | Latin American Government and Politics
ENGL 344 | U.S. Latino/a Literature
US LS 347 | U.S. Latino/a Psychology
US LS 473 | Civil Rights and Ethnic Power
US LS 490 | Independent Study
ANTHR 323 | Topics in Latin American Anthropology
HIST 340 | History of Latin America I
HIST 341 | History of Latin America II
SPAN 322 | Latin American Civilization
SPAN 324 | Latin America Today
SPAN 445 | Seminar on the Literatures and Cultures of Latin America

**Notes**

1. The list of acceptable courses may include courses not currently listed above. Contact the Director of US Latino/a Studies for information on eligible courses.
2. The student must have an average grade of C in the required courses of the major.
3. Fulfillment of the foreign language requirement with Spanish is strongly recommended, but not required. A limit of six (6) credits of approved Spanish courses (304, 322, 324, 445) may be used as supporting courses for the major. Spanish course credits counted toward the major may not be applied to any other degree requirement.

**US Latino/a Studies Minor**

The minor in US Latino/a Studies requires a minimum of 15 credit hours including US LS 211 (Introduction to U.S. Latino/a Studies). University policy indicates that minors must include at least 9 credits that are not applied to any other degree requirement.

**Required course work in core courses (9 credits total):**

**Notes:**

1. The list of acceptable courses may include courses not currently listed above. Contact the Director of US Latino/a Studies for information on eligible courses.
2. A limit of six (6) credits of approved Spanish courses (304, 322, 324, 445) may be used as supporting courses for the minor. Spanish course credits counted toward the minor may not be applied to any other degree requirement.
3. A maximum of 3 credit hours of US LS 490 (Independent Study) may apply toward the minor.

Courses primarily for undergraduates:

US LS 211: Introduction to U.S. Latino/a Studies
(3-0) Cr. 3. F.S.
History and current lives of the Latino/a peoples in the United States, including Mexican, Cuban, Puerto Rican, Dominican, and South and Central Americans, as well as information specific to Iowa Latino/as, will be covered. Through readings, class discussions, writing assignments, and guest speakers, students will acquire accurate information and a solid understanding of the US Latino/a population and cultural perspectives. Elements of Latino/a culture to be covered include historical, sociological, educational, psychological, economic, and political facets.
Meets U.S. Diversity Requirement

US LS 323: Topics in Latin American Anthropology
(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

US LS 323A: Latin American Anthropology: Violence and Memory
(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

US LS 323B: Latin American Anthropology: Social movements and Democracy
(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

US LS 323C: Latin American Anthropology: Race, Class and Gender
(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

US LS 323D: Latin American Anthropology: Regional Focus
(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

US LS 323E: Latin American Anthropology: Culture and Sport.
(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.
Prereq: ANTHR 201 or ANTHR 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
Meets International Perspectives Requirement.

US LS 342: Religion and U.S. Latino/a Literature
(Cross-listed with RELIG). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
A study of the religious behavior and attitudes expressed in the literature of Mexican Americans, Puerto Ricans, Cuban Americans and other groups of people living in the U.S. who trace their ancestry to the Spanish-speaking countries of Latin America.
Meets U.S. Diversity Requirement

US LS 343: Latin American Government and Politics
(Cross-listed with POL S). (3-0) Cr. 3. S.
Political institutions, processes, and contemporary issues. Selected countries examined intensively to illustrate generalizations. Role of parties, military, church, human rights, women, environmental issues, interest groups, ideology, and globalization.
Meets International Perspectives Requirement.
US LS 347: U.S. Latino/a Psychology
(Cross-listed with PSYCH). (3-0) Cr. 3. S.
Prereq: Two courses in Psychology including PSYCH 101
Historical, political, and social contexts of psychological and mental health constructs in terms of their validity and utility for use with Latino/a people in the U.S. Unique aspects of psychological functioning particular to Latino/a people in the U.S.
Meets U.S. Diversity Requirement

US LS 371: Mexican American History
(Cross-listed with HIST). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: 3 credits of 200-level HIST at Iowa State and sophomore classification.
History of the Mexican American community in the U.S. from the 1820s to the present. Topics include community development, employment, social marginalization, racism/discrimination, depression and world wars, civil rights, ethnic power and politics.
Meets U.S. Diversity Requirement

US LS 372: Latina/o History
(Cross-listed with HIST). (3-0) Cr. 3.
Historical and cultural heritage of Latinas/os in the United States. The histories of Mexican, Puerto Rican, Cuban, and other Latin American peoples in the U.S. emphasizing political and cultural convergence and congruencies.
Meets U.S. Diversity Requirement

US LS 420: Bilingualism, Bilingual Education, and U.S. Mexican Youth
(Cross-listed with EDUC). (3-0) Cr. 3. F.
Prereq: EDUC 405 or EDUC 406
Introduction to research on bilingualism and examination of the social, historical, and political contexts of bilingual education in U.S. schools. Attention to policy environment, school program structure, mode of classroom instruction, family and community context, and attainment of bilingualism and biculturalism for U.S. Mexican youth.

US LS 473: Civil Rights and Ethnic Power
(Cross-listed with AF AM, HIST). (3-0) Cr. 3.
Prereq: Sophomore classification
Comparative history of the civil rights and ethnic power movements (African American, Chicano, American Indian, Puerto Rican, among others) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights.
Meets U.S. Diversity Requirement

US LS 490: Independent Study
Cr. 1-3. Repeatable, maximum of 9 credits.
Prereq: permission of instructor
Independent study under supervision of instructor. No more than 3 credits may count towards the U.S. Latino/a Studies certificate.
VETERINARY MEDICINE

Dan Grooms, Dean of Veterinary Medicine
Jared A. Danielson, Associate Dean for Academic and Student Affairs
vetmed.iastate.edu/ (http://vetmed.iastate.edu)

Departments of the College

- Biomedical Sciences
- Veterinary Clinical Sciences
- Veterinary Diagnostic and Production Animal Medicine
- Veterinary Microbiology and Preventive Medicine
- Veterinary Pathology

Other units of the college include the Lloyd Veterinary Medical Center, Veterinary Diagnostic Laboratory, Veterinary Medical Research Institute, Veterinary Education and Technology Services and Office of Curricular and Student Assessment. The college participates in interdisciplinary graduate programs in genetics; molecular, cellular and developmental biology; toxicology; immunobiology; and neuroscience.

Objectives of the Curriculum

The instructional objective of the College of Veterinary Medicine is to enable students to assume vital roles in society as productive health care providers and biomedical scientists. Such an education provides students with general learning, communication, and problem solving abilities; veterinary medical practice and research skills; and professional and ethical values.

The curriculum incorporates basic biomedical and clinical principles, clinical decision making skills, and exceptional clinical experience in small animal medicine and surgery, equine medicine and surgery, food animal medicine and surgery, and production animal medicine. Companion animal medicine and surgery are provided within the regionally recognized referral hospital through the community practice unit and equine field services. The college is located in one of the most intensive livestock producing areas in the United States. Because of this, students engage in extensive food supply veterinary medicine experiences and numerous diagnostic cases.

The professional curriculum is a four-year course of study leading to the doctor of veterinary medicine degree. Each of the first three years of the curriculum consists of two semesters while the fourth year has three semesters. Students are admitted into the professional curriculum after completing a minimum of 60 semester credits of required undergraduate coursework.

A strong and reputable basic science education during the first two years of the professional curriculum prepares veterinary students for a wide range of clinical experience during the last two years of the educational program. Fourth year students may choose to enhance their education by earning clinical elective credits at approved government agencies, research laboratories, veterinary practices and other university hospitals. Outstanding research programs in infectious diseases, food safety, neuroscience, immunoparasitology, evidence-based medicine, and many other areas provide opportunities for qualified students to participate in research.

Concurrent DVM/MS, DVM/PhD, DVM/MPH and DVM/MBA programs are available for qualified students who wish to obtain both veterinary and graduate degrees. Students must have a bachelor’s degree or a minimum of 128 semester credits in undergraduate and professional curricula in order to participate in the concurrent DVM/graduate degree program. Admission to the concurrent degree program is subject to the approval of the deans of the College of Veterinary Medicine and the Graduate College.

The college is an important recruiting center for employers seeking veterinarians for private practice; industry; educational institutions; international agencies; federal, state and local governments; the armed forces; departments of public health; zoological gardens; and other related fields of professional activity. Graduates are highly sought after and typically have multiple employment offers upon graduation. Career services and an online job board are available for students.

Pre-veterinary Medicine Preparation

Admission Requirements

The College of Veterinary Medicine seeks students with diverse backgrounds and encourages students to enroll in baccalaureate programs in the college of their choice.

Undergraduate students are strongly encouraged to complete a bachelor’s degree before applying to the College of Veterinary Medicine. Because veterinarians have varied career options, when deciding on an undergraduate major, the student should consider the area of veterinary medicine which interests them. For example, those who desire a career in clinical practice may wish to pursue a degree in biological science, animal science, agricultural economics, business, social science or humanities. Students with an interest in zoo or wildlife veterinary medicine may want to look at animal ecology, environmental studies or zoology. Future researchers may wish to consider genetics, molecular biology, microbiology, or biochemistry. Students who desire a career in public health (USDA, FDA, etc) or government (legislative/policy) may find benefit in any of the biological sciences or in political science. A degree in education may be valuable to those who envision themselves as educators in a College of Veterinary Medicine. These examples are only suggestions and are but a few of the many possibilities.
For the most current information regarding applications and admission to the College of Veterinary Medicine, please refer to the College web site at [www.vetmed.iastate.edu](http://www.vetmed.iastate.edu).

Applicants for admission to the College of Veterinary Medicine must have attended an accredited college or university, have completed 40 semester credits prior to the deadline for filing an application for admission, and have completed 60 semester credits prior to the end of the spring term of the year in which the applicant seeks to be admitted to the College of Veterinary Medicine.

All science requirements should be fulfilled by the time of application or scheduled for completion by the end of the fall term in which the applicant applies. However, if necessary, the applicant may complete up to two required science courses after the fall term providing a transcript with the courses and grades listed is postmarked by July 1 of the year the applicant would enter. There is no maximum number of non-science required courses that may be completed but the deadline of having a transcript with these course grades posted by July 1 also applies. The July 1 deadline for transcripts and grades is firm.

Required courses must be completed with a grade of C (2.00) or better. A grade of C- (1.67) does not fulfill the requirement.

Credits earned must include the following Iowa State semester course offerings or their equivalents:

**English Composition 6 cr.**
One year of composition or writing emphasis courses. May include business or technical writing. Two of the following courses would fulfill the requirement.

<table>

<tr>
<td>AN S 214</td>
<td>Domestic Animal Physiology</td>
<td>3</td>
</tr>
</tbody>
</table>
Humanity or Social Sciences 8 cr.
Electives 8 cr.
Total Credits Required 60 cr.

Courses above marked with an asterisk (*) are the required science courses. The required science course GPA is calculated from these courses.

Credits in the previously specified courses will normally be earned on the traditional four-letter grading system with A as the highest grade and D as the lowest passing grade. All required courses must be completed with a grade of C (2.0) or better. It is generally expected that required courses have been completed within the past eight (8) years. AP or CLEP credits must be documented by original scores submitted to the College of Veterinary Medicine. CLEP credits may be accepted only for arts, humanities and social sciences. Credits in the preceding specified courses will not be accepted if earned under the pass-not pass grading system or similar options.

**Application and Admission**

Applicants must apply using the Veterinary Medical College Application Service (VMCAS). The VMCAS application may be found online at the VMCAS website (www.aavmc.org) under VMCAS. Those applying through VMCAS also need to complete the ISU Supplemental Application found at the College of Veterinary Medicine website. The Iowa resident deadline for filing the VMCAS application, supplemental application, processing fee, GRE scores, evaluations and transcripts is September 1. The deadline for all other applicants is October 1.

Any student wishing to use international coursework (including study abroad) to fulfill a pre-veterinary requirement must provide a transcript from the foreign institution.

A list of courses in progress at the time of submission and/or scheduled for completion by the end of spring term should accompany the supplemental application. Undergraduate college credits must average at least 2.50 on a 4.00 marking system for the application to be eligible for review. The preceding scholastic requirements are minimum and do not assure admission even though these requirements have been fulfilled.

Admission to the College of Veterinary Medicine is on a competitive and selective basis. GPA, Graduate Record Exam (GRE) general test score (the GRE for Iowa residents must be received by September 1, for all other applicants, it must be received by October 1), animal and veterinary experience, essays, recommendations and personal development (leadership, citizenship, etc.) are given consideration in the selection of candidates. Final selection of candidates is made after an on-campus interview.

Approximately one-half of the positions available are reserved for residents of Iowa. The College of Veterinary Medicine has implemented a Professional Program in Veterinary Medicine with the University of Nebraska-Lincoln for Nebraska residents and contracts with the states of North Dakota, South Dakota and Connecticut. A number of positions are also available to residents of other states. A few highly qualified international students may be accepted and are considered in the non-resident/non-contract applicant pool. Consideration is given equally to all applicants without regard to race, color, national origin, gender, religion, disability, or age, political beliefs, or marital or familial status.

For further information on these programs and contracts, please visit the College of Veterinary Medicine at [www.vetmed.iastate.edu](http://www.vetmed.iastate.edu) and click on APPLY VET MED.

**Curriculum in Veterinary Medicine**

**Graduation Requirements**

To be awarded the degree doctor of veterinary medicine, candidates must have passed all required courses in the curriculum in veterinary medicine, have earned at least 4 elective credits on a graded basis of A, B, C, D while enrolled in the College of Veterinary Medicine, and have at least a 2.0 grade-point average in the veterinary medicine curriculum.

**Required Courses in the Professional Program**

The fourth year of the veterinary medical curriculum is designed to be flexible yet provide a broad based clinical education involving all domestic species of animals. All students participate in rotations that are considered fundamental to any species orientation that the student might choose. In addition, students choose one of four options for additional study, including the Small Animal, Equine, Mixed Animal, or Food Animal Options. Students may obtain clinical elective credits by repeating on-campus rotations or participating in approved off-campus preceptorships at government, private or public agencies; other universities; or private veterinary practices.

The following rotations are required of all fourth year students in addition to the requirements of the track they choose. A complete listing of track-specific requirements can be found at: http://vetmed.iastate.edu/

Reinstatement
Any student who voluntarily withdraws from the College of Veterinary Medicine or who is dismissed from the College of Veterinary Medicine, after having successfully completed one or more semesters forfeits his/her standing and must make written application for reinstatement to this college a minimum of 60 days prior to the opening of the semester for which they seek to re-enter. Any student who voluntarily withdraws from the College of Veterinary Medicine prior to completion of one semester must re-apply for admission to the college in the general applicant pool.

Biomedical Sciences

For professional program of study in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

A good foundation in anatomy, physiology, and pharmacology of animals is necessary to understand the mechanisms of animal disease processes and their treatment. Study of mammalian anatomy and physiology prepares students with a background in the structural and functional activities of cells, tissues, organs, and body systems relevant to veterinary medicine.

An understanding of drug action is essential for rational drug therapy. The general pharmacology courses provide students with a background in basic pharmacology to include pharmacodynamics, toxicology, and the clinical application of drugs. Special emphasis is placed on chemical agents and therapeutic practices specific to veterinary medicine.

Graduate Programs
The department offers Master of Science and Doctor of Philosophy degrees with a major in Biomedical Sciences and specializations in
Anatomy, Physiology, Pharmacology, and Cell Biology. Up to 10 credits of dual-listed veterinary courses may be applied for major graduate credit. Departmental research facilities allow for training in experimental anatomy, pharmacology, and physiology. Graduate studies are supervised by faculty members recognized in their areas of expertise. Current areas of research include: Alzheimer's disease, aquatic animal health, calcium and mineral homeostasis, diabetes mellitus, glia-neuron signaling, neurophysiology of pain, neurotoxicology, physiology and pharmacology of nematode ion-channels, Parkinson's disease, pharmacology of schistosomiasis, pharmacology of salmonellosis, physiology and pharmacology of thalamic neurons, physiology of the retina, Spinal Muscular Atrophy, and study of neural stem cells. The objective of the department is to prepare graduate students for successful careers in biomedical research and professional service. The department is part of interdepartmental programs in neuroscience, toxicology, and molecular, cellular, and developmental biology. The combined Ph.D./DVM program is an option offered by the department.

Courses primarily for professional curriculum students:

B M S 329: Anatomy and Physiology of Domestic Animals
(3-0) Cr. 3. S.
Prereq: BIOL 212, BIOL 212L
Survey of body systems of domestic animals. Provides a medical science orientation particularly useful to students in a preveterinary medicine curriculum.

B M S 330: Principles of Morphology I
(Dual-listed with B M S 530). (4-6) Cr. 6. F.
Prereq: 10 credits in biological science and permission of the instructor
Anatomy of the dog and cat: from basics to clinical application.

B M S 331: Principles of Morphology II
(Dual-listed with B M S 531). (2-6) Cr. 4. S.
Prereq: First-year classification in veterinary medicine. B M S 330
Comparative and topographic anatomy of horse, ruminants, pig, and chicken.

B M S 333: Biomedical Sciences I
(Dual-listed with B M S 533). (5-3) Cr. 6. F.
Prereq: First-year classification in veterinary medicine
Microscopic anatomy and physiology of cells, tissues, cardiovascular system, respiratory system, and urinary system.

B M S 334: Biomedical Sciences II
(Dual-listed with B M S 534). (5-3) Cr. 6. S.
Prereq: First-year classification in veterinary medicine
Microscopic anatomy of the immune system and integument.
Microscopic anatomy and physiology of the digestive system, endocrine system, and reproductive system.

B M S 335: Molecular and Cellular Basis of Disease
(1-0) Cr. 1. F.
Descriptions of molecular and cellular biology especially as it pertains to veterinary medicine. Discussions of cellular components, cellular functions and anomalies thereof. Emphasis placed on divergences relevant to companion animals and livestock.

B M S 336: Veterinary Nutrition
(2-0) Cr. 2. F.
Introduce basic biochemical aspects of metabolism and function of energy, protein, fat, minerals and vitamins in the diet. Determine nutrient requirements of food animals, pets, and horses under various physiological states. Understand fate of various nutrients in simple stomached animals, ruminants, and cecal fermenters. Discuss clinical nutrition problems specific to each species.

B M S 337: Neuroanatomy
(Dual-listed with B M S 537). (2-2) Cr. 3. S.
Prereq: First-year classification in veterinary medicine
Neuroanatomy of domestic animals.

B M S 339: Clinical Foundations I
(Cross-listed with V C S). (0-2) Cr. 1. F.
Prereq: First-year classification in veterinary medicine
Canine physical examination; basic behavior, animal handling and restraint; medical record keeping.

B M S 345: Case Study I
(0-2) Cr. 1. F.
Prereq: First-year classification in veterinary medicine
Clinical applications of basic sciences taught concurrently in the fall semester of the first year curriculum in veterinary medicine.

B M S 346: Case Study II
(0-1) Cr. 1. S.
Prereq: First-year classification in veterinary medicine
Clinical applications of basic sciences taught concurrently in the spring semester of the first year curriculum in veterinary medicine.

B M S 354: General Pharmacology
(Dual-listed with B M S 554). (Cross-listed with TOX). (3-0) Cr. 3. S.
Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.
B M S 401: Intro to Aquatic Animal Medicine
(Cross-listed with A ECL). (1-2) Cr. 1. S.
8 week course. Introductory course with focus on fin fish production, health and medicine. Course content will help define future roles for veterinarians, producers, and service providers. Emphasis will be placed on anatomy, pathology, infectious diseases, nutrition, regulatory constraints in production, food safety, and current research. Field trip to aquaculture facility.

B M S 403: Behavior of Domestic Animals
(1-0) Cr. 1. Alt. S., offered even-numbered years.
Prereq: Classification in veterinary medicine
Normal and abnormal behavior of domestic animals.

B M S 439: Principles of Pharmacology
(Dual-listed with B M S 539). (4-0) Cr. 4. S.
Prereq: A physiology course: B M S 329, BIOL 335, BIOL 336 or the equivalent.
General principles of drug actions; drug disposition; drug acting on, cardiovascular, respiratory, renal, gastrointestinal, and endocrine systems; anti-inflammatory and antibiotic drug; anti-cancer drugs; anesthetics CNS stimulants; lifestyle drugs; drug addiction, abuse and dependence; drugs in sport; drugs for obesity; biopharmaceuticals and gene therapy; drug development.

B M S 443: Pharmacology and Therapeutics
(Dual-listed with B M S 543). (3-0) Cr. 3. F.
Prereq: B M S 354
Pharmacology and therapeutic uses of fluids, antimicrobial and antiparasitic drugs, clinical use of veterinary drugs, and adverse drug reactions.

B M S 447: Principles of Anatomy
(Dual-listed with B M S 547). (2.5-6) Cr. 4. F.
Prereq: Graduate standing and previous biology coursework or instructor permission.
Examination of gross anatomy and neuroanatomy of the human. Laboratories will center on regional anatomy study through human cadaver dissection, in addition to models and virtual learning solutions.

B M S 490: Independent Study
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 490H: Independent Study, Honors
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 496: International Preceptorship
Cr. 1-12. Repeatable. S.
Prereq: Classification in veterinary medicine or permission of the instructor
International Preceptorships and Study Abroad Group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

Courses primarily for graduate students, open to qualified undergraduates:

B M S 501: Selected Research Methods in Biomedical Sciences
(0-8) Cr. 3. F.S.SS.
Prereq: Graduate classification, permission of a BMS faculty member
Experience in biomedical techniques in selected BMS laboratories that include but is not limited to cytochemical methods, molecular biological techniques, extracellular and intracellular unit recording, microiontophoresis, microinjection, spectrophotofluorometric analysis of chemicals, use of radioisotopes, radioimmunoassay, Ca2+ imaging, confocal microscopy, fluorescence microscopy, and immunocytochemistry.

B M S 502: Methods in Biomedical Sciences
(0-6) Cr. 3. S.
Provides laboratory experience in the application of methods in biomedical sciences, including animal physiology and pharmacology laboratory techniques; human physiology recordings and urinalysis; pharmacokinetics; basic techniques in analytical laboratory; basic pathology, immunology, bacteriology, and virology laboratory techniques.

B M S 530: Principles of Morphology I
(Dual-listed with B M S 330). (4-6) Cr. 6. F.
Prereq: 10 credits in biological science and permission of the instructor
Anatomy of the dog and cat: from basics to clinical application.

B M S 531: Principles of Morphology II
(Dual-listed with B M S 331). (2-6) Cr. 4. S.
Prereq: First-year classification in veterinary medicine. B M S 330
Comparative and topographic anatomy of horse, ruminants, pig, and chicken.

B M S 533: Biomedical Sciences I
(Dual-listed with B M S 333). (5-3) Cr. 6. F.
Prereq: First-year classification in veterinary medicine or graduate student status
Microscopic anatomy and physiology of cells, tissues, cardiovascular system, respiratory system, and urinary system.
B M S 534: Biomedical Sciences II
(Dual-listed with B M S 334). (5-3) Cr. 6. S.
Prereq: First-year classification in veterinary medicine or graduate student status
Microscopic anatomy of the immune system and integument.
Microscopic anatomy and physiology of the digestive system, endocrine system, and reproductive system.

B M S 537: Neuroanatomy
(Dual-listed with B M S 337). (2-2) Cr. 3. S.
Prereq: 10 credits in biological science and permission of the instructor
Neuroanatomy of domestic animals.

B M S 538: Principles of Physiology
(4-0) Cr. 4. F.
Principles of neurophysiology, endocrine and reproductive physiology, muscle physiology, cardiovascular, respiratory, renal, and digestive physiology, and regulation of body fluid.

B M S 539: Principles of Pharmacology
(Dual-listed with B M S 439). (4-0) Cr. 4. S.
Prereq: A physiology course: B M S 329, BIOL 335, BIOL 336 or the equivalent.
General principles of drug actions; drug disposition; drug acting on, cardiovascular, respiratory, renal, gastrointestinal, and endocrine systems; anti-inflammatory and antibiotic drug; anti-cancer drugs; anesthetics CNS stimulants; lifestyle drugs; drug addiction, abuse and dependence; drugs in sport; drugs for obesity; biopharmaceuticals and gene therapy; drug development.

B M S 542: Introduction to Molecular Biology Techniques
(Cross-listed with EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS.
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

B M S 542A: Introduction to Molecular Biology Techniques: DNA Techniques
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

B M S 542B: Introduction to Molecular Biology Techniques: Protein
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.SS.
Prereq: Graduate classification
Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

B M S 542C: Introduction to Molecular Biology Techniques: Cell Techniques
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

B M S 542D: Introduction to Molecular Biology Techniques: Plant Transformation
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.
Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

B M S 542E: Introduction to Molecular Biology Techniques: Proteomics
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.
Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

B M S 542F: Introduction to Molecular Biology Techniques: Metabolomics
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.
Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

B M S 542G: Introduction to Molecular Biology Techniques: Genomic
(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.
Offered on a satisfactory-fail basis only.
B M S 543: Pharmacology and Therapeutics
(Dual-listed with B M S 443). (3-0) Cr. 3. F.
Prereq: B M S 354
Pharmacology and therapeutic uses of fluids, antimicrobial and antiparasitic drugs, clinical use of veterinary drugs, and adverse drug reactions.

B M S 547: Principles of Anatomy
(Dual-listed with B M S 447). (2.5-6) Cr. 4. F.
Prereq: Graduate standing and previous biology coursework or instructor permission.
Examination of gross anatomy and neuroanatomy of the human. Laboratories will center on regional anatomy study through human cadaver dissection, in addition to models and virtual learning solutions.

B M S 554: General Pharmacology
(Dual-listed with B M S 354). (Cross-listed with TOX). (3-0) Cr. 3. S.
Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

B M S 556: Cellular, Molecular and Developmental Neuroscience
(Cross-listed with GDCB, NEURO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: BIOL 335 or BIOL 436; physics recommended
Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.

B M S 575: Cell Biology
(Cross-listed with TOX). (3-0) Cr. 3. F.
Prereq: 10 credits in biological science and permission of instructor
A multi-instructor course covering major topics in cell structure and function, including: universal features of prokaryotic and eukaryotic cells, types of utilization and conversion of energy, genetic control of cell shape and functionality, internal organization of cells, communication between cells and their environment, development of multicellular systems. Students have to write a term paper.

B M S 590C: Pharmacology
Cr. 1-7. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 590D: Cell biology
Cr. 1-7. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 599: Creative Component
Cr. 1-3. F.S.SS.
Prereq: Enrollment in BMS graduate program, and permission of instructor.
Creative component for non-thesis Master of Science degree.

Courses for graduate students:
B M S 688: Research Review
Cr. 1. Repeatable. F.S.
Prereq: Enrollment in BMS graduate program.
A forum for B M S students to gain experience in the critical exchange of ideas through oral presentation and discussion of scientific information.

B M S 690: Advanced Topics
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 690A: Anatomy
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 690B: Physiology
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 690C: Pharmacology
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 690D: Cell biology
Cr. 1-5. Repeatable. F.S.SS.
Prereq: Permission of instructor

B M S 698: Seminar
Cr. arr. Repeatable. F.S.SS.
Prereq: Enrollment in BMS graduate program.

B M S 698A: Seminar: Attendance
Cr. R. Repeatable. F.S.
Prereq: Enrollment in BMS graduate program.
Veterinary Clinical Sciences

Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The curriculum of veterinary clinical sciences explores the preventive health care, and diagnosis and treatment of diseases of companion and competitive athletic animals. Veterinary specialists lead didactic and laboratory based learning in the clinical sciences. Experiential based courses conducted through the Veterinary Medical Center during the fourth year provide the student an opportunity to participate in the application of clinical skills and knowledge.

Graduate Study

The department offers work for the degree master of science with major in veterinary clinical science, and minor work for students majoring in other departments. Within the veterinary clinical sciences major, the student may specialize in veterinary medicine, surgery, or theriogenology. The D.V.M. degree or equivalent is prerequisite to a major graduate work.

Both thesis and nonthesis options are available and require the completion of a minimum of 30 graduate credits and a final examination.

World languages and cultures requirements may be established by the student's program of study committee.

Courses primarily for professional curriculum students:

V C S 305: Shelter Medicine
Cr. 1. S.
Prereq: First year classification in Veterinary Medicine or with permission of instructor
An elective course designed to educate the veterinary student about issues of relevance to companion animal population and shelter medicine and welfare.

V C S 311: Veterinarian in Society I
Cr. R. F.
Prereq: First-year classification in veterinary medicine
Introduction to the veterinary profession and the various career opportunities available. Offered on a satisfactory-fail basis only.

V C S 313: Veterinarian in Society III
(1-1) Cr. 1. F.
Prereq: Second-year classification in veterinary medicine
A continuation of the Veterinarian in Society series. The course covers selected topics on moral and ethical issues affecting the practice of veterinary medicine. Offered on a satisfactory-fail basis only.

V C S 314: Veterinarian in Society IV
(1-0) Cr. 1. F.
Prereq: Third-year classification in veterinary medicine
A continuation of the Veterinarian in Society series. This course will focus on helping students develop their communication, leadership, team building and conflict resolution skills. Offered on a satisfactory-fail basis only.

V C S 315: Veterinarian in Society V
(1-0) Cr. 1. S.
Prereq: Third-year classification in veterinary medicine
A continuation of the Veterinarian in Society series. This course will emphasize veterinary law. Offered on a satisfactory-fail basis only.

V C S 339: Clinical Foundations I
(Cross-listed with B M S). (0-2) Cr. 1. F.
Prereq: First-year classification in veterinary medicine
Canine physical examination; basic behavior, animal handling and restraint; medical record keeping.
VC S 385: Grand Rounds
Cr. R. Repeatable. F.S.
Prereq: Classification in veterinary medicine
Seminars and case presentations on selected clinical subjects by fourth-year students of the College of Veterinary Medicine. Attendance is required for a passing grade. Offered on a satisfactory-fail basis only.

VC S 391: Clinical Imaging
(1-0) Cr. 1. F.
Prereq: First-year classification in veterinary medicine
Evaluation of morphologic anatomy of the dog and cat utilizing clinical imaging methods - radiography, ultrasonography, computed tomography, magnetic resonance imaging and nuclear imaging. Emphasis will be placed on normal radiographic anatomy.

VC S 393: Principles of Surgery
(2-2) Cr. 3. F.
Prereq: Second year classification in veterinary medicine
General principles of surgery of companion animals.

VC S 394: Principles of Surgery Laboratory
(0-3) Cr. 1. S.
Prereq: Second year classification in veterinary medicine
General principles of surgery of companion animals.

VC S 395: Small Animal Surgery
(2-0) Cr. 2. S.
Prereq: VC S 394
Small animal surgery.

VC S 396: Fundamentals in Equine Practice
(2-0) Cr. 2. S.
Prereq: VC S 394
This elective course is an introduction and overview of the clinical aspects of common conditions in horses and related conditions, including pathogenesis, clinical manifestations, diagnosis, treatment and prognosis. It is not designed to teach the student how to perform specific procedures, but rather to improve knowledge base of students interested in equine or mixed animal practice. Class will include lecture, photos, video presentations, and other formats.

VC S 398: Anesthesiology
(2-0) Cr. 2. S.
Prereq: Second-year classification in veterinary medicine
Anesthetic equipment, agents and procedures, including pain management for core species.

VC S 399: Ophthalmology
(1-0) Cr. 1. S.
Prereq: Third year classification in veterinary medicine
Principles and techniques of medical and surgical ophthalmology.

VC S 402: Clinical Cardiology I
(1-0) Cr. 1. F.
Prereq: Third or fourth-year classification in veterinary medicine; VC S 444 or concurrent enrollment in VC S 444
Elective course in diagnosis and management of cardiac diseases. Emphasis on interpretation of electrocardiography.

VC S 405: Pet Bird and Exotic Species Medicine
(1-3) Cr. 2. S.
Prereq: third classification in veterinary medicine
Elective course in management and diseases of pet birds and exotic species.

VC S 407: Feline Internal Medicine
(1-0) Cr. 1. F.
Prereq: Third-year classification in veterinary medicine
Elective course in feline internal medicine.

VC S 409: Oncology
Cr. 2. Repeatable, maximum of 4 credits.
Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in oncology.

VC S 414: Companion Animal Nutrition
(1-0) Cr. 1. S.
Prereq: Third or fourth-year classification in veterinary medicine
Elective course in small animal and equine nutrition.

VC S 415: Advanced Small Animal Dermatology
(1-2) Cr. 2. F.
Prereq: Third or Fourth-year classification in veterinary medicine
Elective course in dermatology.

VC S 419: Preceptorship in Companion Animal/Equine Veterinary Medical Practice
Cr. 2-6. Repeatable, maximum of 6 credits.
Prereq: Fourth-year classification in veterinary medicine, permission of department curriculum committee
Elective course in veterinary practice under the guidance of veterinarians in approved practice settings. Maximum of 6 credits in 2 credit increments.

VC S 419A: Preceptorship in Companion Animal/Equine Veterinary Medical Practice: Companion Animal Practice
Cr. 2-6. Repeatable, maximum of 6 credits.
Prereq: Fourth-year classification in veterinary medicine, permission of department curriculum committee
Elective course in veterinary practice under the guidance of veterinarians in approved practice settings. Maximum of 6 credits in 2 credit increments.
VC S 419B: Preceptorship in Companion Animal/Equine Veterinary Medical Practice: Equine Practice
Cr. 2-6. Repeatable, maximum of 6 credits.
Prereq: Fourth-year classification in veterinary medicine, permission of department curriculum committee
Elective course in veterinary practice under the guidance of veterinarians in approved practice settings. Maximum of 6 credits in 2 credit increments.

VC S 419C: Preceptorship in Companion Animal/Equine Veterinary Medical Practice: Zoo/Exotic Animal Practice
Cr. 2-6. Repeatable, maximum of 6 credits.
Prereq: Fourth-year classification in veterinary medicine, permission of department curriculum committee
Elective course in veterinary practice under the guidance of veterinarians in approved practice settings. Maximum of 6 credits in 2 credit increments.

VC S 419D: Preceptorship in Companion Animal/Equine Veterinary Medical Practice: Other
Cr. 2-6. Repeatable, maximum of 6 credits.
Prereq: Fourth-year classification in veterinary medicine, permission of instructor-of-record/V C S Department Curriculum Committee
Elective course in veterinary practice under the guidance of veterinarians in approved practice settings. Maximum of 6 credits in 2 credit increments.

VC S 420: Practicum
Cr. R. Repeatable.
Prereq: VM4 classification, permission of instructor
External practical experiences in the fourth year curriculum for additional professional development of the veterinary student. Offered on a satisfactory-fail basis only.

VC S 422: Rotation at Blank Park Zoo
Cr. 4. F.S.S.
Prereq: Fourth-year classification in veterinary medicine and completion of VC S 405. Enrollment by permission of instructor.
Clinical experience in husbandry, nutrition and training of exotic animals in a zoo environment. Students will get instruction and learn the application of the clinical skills required when dealing with exotic animals, including the hands-off visual examination obtaining historical and clinical information from zookeepers, and the use of immobilization drugs for patient exams. Students will learn the common medical disorders of exotic species and treatment techniques.

VC S 436: Small Animal Internal Medicine
(3-0) Cr. 3. F.
Prereq: Third year classification in veterinary medicine
Clinical diagnosis and treatment of diseases of small animals.

VC S 437: Small Animal Shelter Medicine
(2-0) Cr. 2. Repeatable.
Prereq: Fourth year classification in Veterinary Medicine
A 2-week elective rotation at an animal shelter/humane society that works with the public to place pets in homes. This rotation will encompass population medicine (medicine, surgery, intake, adoption, behavior and temperament, neglect and cruelty) that animal shelters deal with on a daily basis. The selected animal shelter/humane society must have a veterinarian(s) on staff and be approved by the course coordinator. More than one VCS 437 may be taken upon approval of the course coordinator.

VC S 440: Introduction to Clinics
Cr. R. S.
Prereq: Third-year classification in veterinary medicine
Rotating assignments through multiple sections within the Veterinary Medical Center.

VC S 441: Canine Rehabilitation
Cr. 2.
Prereq: Fourth-year classification in veterinary medicine.
Elective clinical assignment in rehabilitation.

VC S 443: Equine Lameness
(1-2) Cr. 2. S.
Prereq: Second or third-year classification in veterinary medicine
Orthopedic diseases of the equine.

VC S 444: Small Animal Medicine
(4-0) Cr. 4. F.S.
Prereq: Third-year classification in veterinary medicine
Clinical diagnosis and treatment of diseases of small animals.

VC S 445: Equine Medicine
(2-0) Cr. 2. F.
Prereq: Third-year classification in veterinary medicine
Clinical diagnosis and treatment of diseases of equine.

VC S 446: Clinical Neurology
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine
Clinical rotation in neurology with an emphasis on neurolocalization, disease processes, use of diagnostics in medical and surgical neurology and treatment options. Exposure to neurosurgical techniques.

VC S 447: Equine Veterinary Diagnostic Skills
(3-0) Cr. 2. S.
Prereq: Fourth-year classification in veterinary medicine - preference to equine track student. Limited to 16 students.
Hands on experience with equine veterinary diagnostic skills related to theriogenology, medicine, surgery, radiology, and ophthalmology.
VC S 448: Diagnostic Imaging and Radiobiology
(2-2) Cr. 3. F.S.
Prereq: Third-year classification in veterinary medicine

VC S 449: Junior Surgery Laboratory
(1-6) Cr. 3. F.
Prereq: Third-year classification in veterinary medicine
Pre-laboratory presentations and laboratories introduce the student to anesthetic and surgical principles and techniques that can be applied to all animal species.

VC S 449A: Junior Surgery Laboratory: Alternative Curriculum
(1-6) Cr. 3. F.
Prereq: Third-year classification in veterinary medicine
This laboratory introduces the student to anesthetic and surgical principles and techniques that can be applied to all animal species. Consists of only neutering humane society animals throughout the laboratory.

VC S 449B: Junior Surgery Laboratory: Traditional Curriculum
(1-6) Cr. 3. F.
Prereq: Third-year classification in veterinary medicine
This laboratory introduces the student to anesthetic and surgical principles and techniques that can be applied to all animal species. Provides a broader range of surgical experiences throughout the laboratory.

VC S 451: Advanced Junior Surgery Laboratory
(1-6) Cr. 2. S.
Prereq: VC S 449
8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species.

VC S 451A: Advanced Junior Surgery Laboratory: Alternative Curriculum
(1-6) Cr. 2. S.
Prereq: VC S 449
8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species. Consists of only neutering humane society animals throughout the laboratory.

VC S 451B: Advanced Junior Surgery Laboratory: Traditional Curriculum
(1-6) Cr. 2. Repeatable. S.
Prereq: VC S 449
8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species. Exposure to more advanced surgical techniques with most surgical principles.

VC S 451C: Advanced Junior Surgery Laboratory: Traditional Curriculum
(1-6) Cr. 2. S.
Prereq: VC S 449
8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species. A second repeat for students with a special interest in small animal surgery.

VC S 452: Clinical Dermatology
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine. Must have instructor permission to repeat this course.
Study of clinical dermatological problems via computer-aided instruction, case simulations, and/or lectures. Clinical management of cases presented to Veterinary Medical Center.

VC S 453: Small Animal Medicine I
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in small animal medicine.

VC S 455: Small Animal Soft Tissue Surgery
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in soft tissue surgery.

VC S 456: Small Animal Orthopedic Surgery
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in orthopedic surgery.

VC S 457: Equine Medicine
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in equine medicine.

VC S 458: Equine Surgery
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in equine surgery.

VC S 459: Small Animal Overpopulation Medicine and Surgery
Cr. 2.
Prereq: Fourth year classification in Veterinary Medicine
A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.
V C S 459A: Small Animal Overpopulation Medicine and Surgery: Nebraska Humane Society, Omaha NE
Cr. 2.
Prereq: Fourth year classification in Veterinary Medicine
A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

V C S 459B: Small Animal Overpopulation Medicine and Surgery: Animal Rescue League of Iowa, Des Moines IA
Cr. 2.
Prereq: Fourth year classification in Veterinary Medicine
A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

V C S 459C: Small Animal Overpopulation Medicine and Surgery: WaySide Waifs, Kansas City MO
Cr. 2.
Prereq: Fourth year classification in Veterinary Medicine
A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

Cr. 2.
Prereq: Fourth year classification in Veterinary Medicine
A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

V C S 459E: Small Animal Overpopulation Medicine and Surgery: ASPCA Spay/Neuter Alliance, Ashville, NC
Cr. 2.
Prereq: Fourth year classification in Veterinary Medicine
A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

V C S 460: Radiology
Cr. 2.
Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in veterinary radiology.

V C S 461: Advanced Small Animal Internal Medicine
Cr. 1. S.
Prereq: V C S 444 and V C S 436
A discussion of advanced topics in small animal internal medicine.

V C S 463: Primary Care
Cr. 2. Repeatable, maximum of 4 credits.
Prereq: Fourth-year classification in veterinary medicine
Clinical experience in hospital based general practice.

V C S 464: Equine Field Services
Cr. 2.
Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in equine ambulatory practice.

V C S 465: Farrier
Cr. 2.
Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment on the principles and practices of normal and therapeutic horseshoeing and equine foot care.

V C S 466: Anesthesiology
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in small animal and large animal anesthesiology.

V C S 467: Pain Management
Cr. 1-2. Repeatable, maximum of 2 credits.
Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment with emphasis on pain management.

V C S 468: Intensive Care
Cr. 4. Repeatable.
Prereq: Fourth-year classification in veterinary medicine
Clinical assignment to provide supervision of hospital cases requiring intensive care and including emergency cases.

V C S 469: Ophthalmology
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in ophthalmology.

V C S 470: Radiology
Cr. 2. Repeatable, maximum of 4 credits.
Prereq: Fourth-year classification in veterinary medicine. Completion of V C S 460 Radiology is required. Enrollment by permission of instructor.
Elective clinical assignment in veterinary radiology.
V C S 471: Animal Reproduction
Cr. 2.
Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in animal reproduction. Equine, Small Animal, Comparative, and Food Animal reproduction only.

V C S 471C: Animal Reproduction: Comparative
Cr. 2. Repeatable, maximum of 4 credits. SS.
Prereq: Fourth-year classification in veterinary medicine.
Elective comparative clinical assignment in Theriogenology with caseload management in Food Animal, Equine, Small Animal and Small Ruminants sections. Rotation through these different sections will depend on the caseload (by species) and include routine breeding management, semen collection and cryopreservation in different species, advanced laparoscopic and non-surgical procedures for insemination and embryo flushing/transfer, pregnancy diagnosis as well as management of reproductive emergencies.

Cr. 2. Repeatable, maximum of 4 credits.
Prereq: Fourth-year classification in veterinary medicine.
Elective clinical assignment in Equine Theriogenology involving both mare and stallion breeding management, cool-shipped semen preparation and semen cryopreservation, embryo transfer, foaling of high-risk pregnant mares as well as normal mares, breeding soundness exams of the mare and stallion, treatment of retained fetal membranes and neonatal care.

Cr. 2. Repeatable, maximum of 4 credits.
Prereq: Fourth-year classification in veterinary medicine.
Elective clinical assignment in Small Animal Theriogenology. Primary reproductive management in the canine involving breeding management of the bitch and stud dog, advanced surgical and non-surgical insemination using fresh or frozen semen, infertility case management for the male and female. High risk pregnancy management, whelping and neonatal care case management as required.

V C S 473: Small Animal Surgery
Cr. 1.
Prereq: Fourth-year classification in veterinary medicine.
Clinical assignment in small animal surgery split between soft tissue surgery (one week) and orthopedic surgery (one week).

V C S 473S: Small Animal Surgery: Soft Tissue
Cr. 1.
Prereq: Fourth-year classification in veterinary medicine.
Clinical assignment in small animal surgery split between soft tissue surgery (one week) and orthopedic surgery (one week).

V C S 475: Cardiology Rotation
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine.
Elective clinical assignment in cardiology.

V C S 476: Veterinary Anesthesiology
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine.
Assignments in equine, small animal, and large animal anesthesiology. Experience includes case work-up, management and recovery. Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

V C S 476E: Equine Anesthesiology
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine.
Assignments in equine, small animal, and large animal anesthesiology. Experience includes case work-up, management and recovery. Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

V C S 476S: Small Animal Anesthesiology
Cr. 2. Repeatable.
Prereq: Fourth-year classification in veterinary medicine.
Assignments in equine, small animal, and large animal anesthesiology. Experience includes case work-up, management and recovery. Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

V C S 478: Intensive and Critical Care
(2-0) Cr. 2. Repeatable, maximum of 4 credits. F.S.S.S.
Prereq: Fourth-year classification in veterinary medicine.
Elective clinical assignment in intensive care.

V C S 480: Veterinary Dentistry
Cr. 1. F.
Prereq: Third or Fourth-year classification in veterinary medicine.
All aspects of veterinary dentistry, prophylaxis, endodontics, and orthodontics. This course is an on-line course.
VC S 481: Advanced Equine Dentistry  
Cr. 2. S.  
**Prereq:** Fourth year classification in veterinary medicine  
Clinical rotation in equine dentistry with an emphasis on routine equine dental examinations, specialized equipment, and corrective procedures. Offered only offered for one 2-week rotation. Enrollment is limited.

VC S 482: Veterinary Dentistry and Oral Surgery Rotation  
Cr. 2. F.S.SS.  
**Prereq:** Enrollment in 4th year of the veterinary curriculum; completion of primary care rotation or familiar with the Primary Care protocol; proof of rabies prophylaxis and a protective titer.  
Basic principles of veterinary dentistry and oral surgery. Participation in dental cleaning and scaling of the teeth in the oral cavity; positioning and interpretation of dental radiographs; administration of regional anesthesia; and patient care and animal handling, including instructions of dental procedures and dental home care. Opportunities may be available to practice oral surgery, extraction techniques and radiographic positioning on cadaver specimens. Interaction with clients during procedures and appointments. Opportunities to observe and assist with advanced dentistry and oral surgery procedures as the need arises. Experience in primary care rotation responsibilities.

VC S 490: Independent Study  
Cr. arr. Repeatable.  
**Prereq:** Permission of Course Instructor-of-Record and Sponsoring VCS Faculty Member.  
Independent Study in veterinary medicine focusing on basic / translational research or learning issues. Enrollment in this course is not appropriate for clinical experiences in the Veterinary Medical Center or extramural experiences in clinical veterinary practice (i.e., preceptorships).

VC S 492: Orientation for International Experience  
(2-0) Cr. 1. Repeatable. S.  
**Prereq:** Classification in veterinary medicine  
8 weeks. Predeparture orientation for group study abroad. Cultural considerations for the study abroad experience and a conversational language introduction. Out of class work may be assigned.

VC S 495: Grand Rounds Presentations  
Cr. R. S.  
**Prereq:** Fourth-year classification in veterinary medicine  
Seminars and case presentations on selected subjects by fourth year students of the College of Veterinary Medicine. Completion of a seminar presentation is required for graduation. Offered on a satisfactory-fail basis only.

VC S 496: International Preceptorship  
Cr. 1-12. Repeatable.  
**Prereq:** Classification in veterinary medicine. Permission of Course Instructor-of-record and sponsoring VCS Faculty  
International Preceptorships and Study Abroad Group programs. Provides opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

**Courses primarily for graduate students, open to qualified undergraduates:**

VC S 490: Special Topics  
Cr. 1-3. Repeatable.

VC S 590: Special Topics  
Cr. 1-3. Repeatable.

VC S 590A: Special Topics: Medicine  
Cr. 1-3. Repeatable.

VC S 590B: Special Topics: Surgery  
Cr. 1-3. Repeatable.

VC S 590C: Special Topics: Theriogenology  
Cr. 1-3. Repeatable.

VC S 590D: Special Topics: Radiology  
Cr. 1-3. Repeatable.

VC S 590E: Special Topics: Anesthesiology  
Cr. 1-3. Repeatable.

VC S 590F: Special Topics - Ophthalmology  
Cr. 1-3. Repeatable, maximum of 3 credits. F.S. Special topics in Ophthalmology.

VC S 596: International Preceptorship  
(0-40) Cr. 1-12. Repeatable. F.S.SS.  
**Prereq:** Admission to graduate college  
International Preceptorships and Study Abroad Group programs. Provides opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

VC S 599: Creative Component  
Cr. arr.  
**Prereq:** Enrollment in nonthesis master’s degree program

**Courses for graduate students:**

VC S 604: Seminar  
Cr. 1. Repeatable. F.S.
V C S 640: Advanced Radiology  
(2-0) Cr. 2.  
Prereq: V C S 448  
Detailed principles of clinical radiology with particular reference to radiographic interpretation.

V C S 671: Advanced General Surgery  
(1-3) Cr. 2.  
Prereq: Permission of instructor  
Course designed to discuss and perform advanced surgical procedures in soft tissue, orthopedic and neurological surgery. Minimally invasive surgical procedures and organ transplantation will be included.

V C S 672: Advanced Special Surgery  
(1-3) Cr. 2.  
Prereq: Permission of instructor  
Innovative techniques in microvascular, thoracic, gastrointestinal, neurological and reconstructive surgery will be investigated.

V C S 676: Advanced Medicine  
(2-0) Cr. 2.  
Prereq: V C S 445  
Principles of general medicine. A study in depth of factors that contribute to the development of clinical signs as related to the pathogenesis of disease.

V C S 677: Advanced Medicine  
(2-0) Cr. 2.  
Prereq: V C S 445  
An advanced study of metabolic diseases.

Veterinary Diagnostic and Production Animal Medicine  
Professional Program of Study  
For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

Courses in veterinary diagnostic and production animal medicine provide students with basic and advanced skills in diagnostics, reproduction, medicine, surgery, production, welfare, and health management of the major livestock species. Students in the fourth year of the curriculum in veterinary medicine may elect to take advanced courses in beef, dairy, swine, poultry or small ruminant production medicine. Elective courses may include preceptorships in private practices, at other veterinary schools, in research and disease control laboratories, or in related agribusinesses.

Production animal medicine emphasizes the integration of veterinary medicine with nutrition, genetics, economics, food safety, and other disciplines, enabling graduates to acquire and use a broad knowledge base to support the health and improve the production and efficiency of the food supply chain.

Graduate Study in Veterinary Preventive Medicine  
Veterinary Preventive Medicine is a multidisciplinary program focused on the study of health and disease in populations. The various disciplines represented in the program are unified by a common approach based on the application of epidemiological methods to problem solving in populations. Through their research and course work, students will learn to understand and apply a variety of disciplines, principles, and techniques to population health issues involving environmental, ecological, nutritional, genetic, infectious, or non-infectious diseases.

Graduate study in Veterinary Preventive Medicine will provide valuable skills and experience to persons interested in public health, food safety, emerging infectious diseases, zoo or wildlife health, and livestock health. A degree in Veterinary Preventive Medicine may be valuable for individuals considering a future in the biological or pharmaceutical industries, government regulatory agencies, public veterinary practice, international service agencies responsible for population health or progressive private practice.

Veterinary Preventive Medicine is an interdepartmental major administered by the Department of Veterinary Diagnostic and Production Animal Medicine (VDPAM) with participating faculty from colleges and departments across the University and collaborators from the National...
Animal Disease Center (USDA:ARS) and the National Veterinary Services Laboratories (USDA:APHIS) located in Ames, Iowa.

Both thesis and non-thesis options are available and require the completion of a minimum of 30 graduate credits for thesis and 36 graduate credits for non-thesis and a final examination.

**Program of Study: Master of Science in Veterinary Preventive Medicine (Thesis Option) 30 credits**

**Graduate Certificate in Veterinary Preventive Medicine**

Veterinary Diagnostic and Production Animal Medicine offers a graduate certificate for DVMs, concurrent DVM students and non-DVMs in allied animal industries in Veterinary Preventive Medicine.

Students in this program are able to select courses that focus in areas of animal welfare, diagnostics, food safety, evidence-based medicine, surgery, pathology, microbiology, epidemiology, public health, statistics and production medicine.

The purpose of the graduate certificate in Veterinary Preventive Medicine for industry professionals is to address the continued and advanced needs of animal health professionals. The certificate enables professionals to gain recognition for a skill set that includes epidemiology, risk assessment, production medicine and animal welfare. A graduate certificate may be used to increase knowledge in a new or emerging area of interest to the candidate. As such, it may be used to formally gain recognition for retraining to meet the needs of today's food production systems.

The graduate certificate for concurrent DVM students is designed to give additional skills to students planning on working with populations of animals. Using a combination of on-line and dual listed graduate level courses, the program is designed to enable DVM students to complete the certificate while studying for their DVM degree. Students enrolled in any US-based DVM program are able to complete a graduate certificate at ISU using a combination of on-line and transfer graduate level courses.

The graduate certificate is an additional qualification awarded by Iowa State University after successful completion of 15 graduate level credits. A graduate certificate is different from continuing education as the certificate includes an academic transcript from Iowa State University. Students complete the same courses graduate students do with the same expectations for all assignments and exams.

The program is available as a strictly on-line (off campus) delivery method or as a combination of classroom-based and on-line course offerings providing maximum flexibility in scheduling.

**Program of Study: Graduate Certificate in Veterinary Preventive Medicine (15 credits)**

Creative Component and Electives to total 18 additional credits

† Arranged with instructor.

**Courses primarily for professional curriculum students:**
VDPAM 308: Spanish for Veterinarians
(2-0) Cr. 2. S.
Prereq: Classification in veterinary medicine and basic knowledge of Spanish
This course is designed to meet the needs of veterinary students who will practice in an environment in which the use of Spanish for accurate client communication is essential which includes much of our food animal industry in the state of Iowa. This is not a traditional Spanish language course. To be successful, students taking the course should have a basic knowledge of Spanish pronunciation, grammar and syntax.

VDPAM 309: Introduction to Production Animal Informatics
(1-0) Cr. 1. S.
Prereq: Classification in veterinary medicine
The fundamentals of how clinical, diagnostic, production and financial information is obtained and used by production animal operations will be presented. Students will acquire skills to create and use spreadsheets for manipulating and summarizing data. They will also acquire knowledge of where to find inexpensive and readily available resources with information on how to use spreadsheets and other software. Students will also have the opportunity to work with record keeping programs used by swine, beef and dairy operations.

VDPAM 310: Introduction to Production Medicine
Cr. 2. S.
Prereq: Second or third year classification in veterinary medicine or permission of instructor
The role of the veterinarian in the management of animal health and production in populations including evaluation tools in dairy and beef cattle herds, beef feedlots and swine herds will be described. Provides veterinary students with a starting point to understand the principles and techniques that are the basis of food-animal population health diagnosis management programs. Course available on-line, attendance is not required.

VDPAM 312: Introduction to Animal Welfare
(1-0) Cr. 1. S.
Prereq: First-year classification in veterinary medicine
A continuation of the Veterinarian in Society series. The objective of this course is to develop knowledge of the fundamental principles of animal welfare, in terms of science, ethics and cultural components.
VDPAM 402B: Advanced Dairy Production Informatics: Experience I
(1-1) Cr. 2. F.S.
Prereq: VDPAM 402A
Independent records analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCDart.

VDPAM 402C: Advanced Dairy Production Informatics: Experience II
(1-1) Cr. 2. F.S.
Prereq: VDPAM 402A, VDPAM 402B
Independent records analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCDart.

VDPAM 402D: Advanced Dairy Production Informatics: Experience III
(1-1) Cr. 2. F.S.
Prereq: VDPAM 402A, VDPAM 402B, VDPAM 402C
Independent records analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCDart.

VDPAM 407: Evidence Based Clinical Decision Making
(Dual-listed with VDPAM 507). (1-0) Cr. 1. S.
Prereq: Permission of instructor
Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations.

VDPAM 408: Poultry Diseases
(Dual-listed with VDPAM 508). Cr. 2. Alt. S., offered even-numbered years.
Prereq: Second or third year classification in veterinary medicine or permission of instructor
Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and gamebirds; biosecurity, immunization, and management procedures to prevent poultry diseases. This course includes wet labs.

VDPAM 409: Veterinary Practice Management and Organization
(2-0) Cr. 2. F.
Prereq: Classification in veterinary medicine
An A to Z introduction to proven veterinary practice management methods and strategies. The student will follow a detailed hands-on workbook describing most of the processes and procedures of day to day veterinary practice. Class content will be deliver via online modules.

VDPAM 410: Llama Medicine
(1-0) Cr. 1. Alt. F., offered even-numbered years.
Prereq: Second or third year classification in veterinary medicine
Introduction to basic camelid medicine, including anatomy, behavior, restraint, handling, husbandry, herd health, common diseases, surgical conditions, and anesthesia protocols.

VDPAM 414: Veterinary Practice Entrepreneurship
(Dual-listed with VDPAM 514). Cr. 2-3. S.
Prereq: Classification in veterinary medicine
Formal exposure to the entrepreneurial and business skills necessary to own and operate a successful veterinary practice or other small business opportunity. Personal finance, marketing, human resource management, general accounting, site assessment, location demographics, practice valuation, and a host of other issues which must be considered when purchasing or starting a new business are covered. Class instruction will be delivered by successful practice and business owners with examples from real world experience.

VDPAM 416: Bovine Reproduction Evaluation Laboratory
(0-4) Cr. 1. F.S.
Prereq: Third year classification in veterinary medicine. 10 students per section.
Bovine rectal palpation techniques will be repetitively taught in 7 four-hour sessions. Students will also learn techniques of epidural anesthesia, artificial insemination, pregnancy staging and ultrasonic imaging. University-owned cattle will be used. No Wednesday section in Spring semester. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 419: Advanced Swine Production Informatics
(1-0) Cr. 1. F.
Prereq: VDPAM 309 or permission of instructor
Advanced coverage of concepts related to collection, manipulation, analysis and reporting of information used by swine production companies. A quick review of modern swine production and measures of productivity ensures students have a firm base for applying the informatics. This course introduces students to two of the most commonly used swine record keeping systems in the industry and gives them access to actual production data to work with. Students then learn how to generate and interpret regularly used reports and will use pivot tables and budgeting models in Excel®. Importance of data entry and validation and how to transform data into useful knowledge are then addressed. Fundamentals of financial information, cost-benefit analysis and using budgeting models to assess the economics of animal health interventions are then applied.

VDPAM 420: Applied Production Animal Medicine Preceptorship
(0-30) Cr. 1-6. Repeatable. F.S.SS.
Prereq: Fourth year classification in veterinary medicine
Advanced course in production animal medicine with emphasis on government, industry or veterinary practice settings. Requires 40 hours clinical experience per week. Assignments will be preceptorships with a practicing veterinarian, governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.
(0-30) Cr. 1-6. Repeatable. F.S.S.S.
Prereq: Fourth year classification in veterinary medicine
Advanced course in mixed animal production medicine with a food animal emphasis in veterinary practice settings. Requires 40 hours of clinical experience per week. Assignments will be preceptorships with a practicing veterinarian, governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 420B: Applied Production Animal Medicine Preceptorship: General Mixed Animal Practice
(0-30) Cr. 1-6. Repeatable. F.S.S.S.
Prereq: Fourth year classification in veterinary medicine
Advanced course in production animal medicine with an emphasis on general mixed animal veterinary practice settings. Requires forty hours clinical experience per week. Assignments will be preceptorships with a practicing veterinarian, governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 420C: Applied Production Animal Medicine Preceptorship: Government Agency or Food Processing Company
(0-30) Cr. 1-6. Repeatable. F.S.S.S.
Prereq: Fourth year classification in veterinary medicine
Advanced course in production animal medicine with emphasis on government agency or food processing company in veterinary practice settings. Forty hours clinical experience per week. Assignments will be preceptorships with a governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 421: Great Plains Veterinary Educational Center
Cr. 1. F.S.S.S.
Prereq: Fourth year classification in veterinary medicine; ability to provide own transportation to each site.
The Great Plains Veterinary Education Center (GPVEC), located on the US Meat Animal Research Center (USMARAC) near Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Students need to provide their own transportation to the site and overnight stays at or near GPVEC are required.

VDPAM 421A: Great Plains Veterinary Educational Center: Calving
Cr. 1. S.
Prereq: Fourth year classification in veterinary medicine; ability to provide own transportation to each site.
The Calving Elective provides an opportunity to expand knowledge and experience in all phases of calving management. The program is structured around normal calving operations at USMARC including night calving. Activities that take place during the Calving Elective including the diagnosis, treatment, and management of many commonly encountered conditions in the dam and calf, necropsies, and daily discussions. Participation in a caesarian section is not guaranteed.

VDPAM 421B: Great Plains Veterinary Educational Center: Bull Breeding Soundness
Cr. 1. S.
Prereq: Fourth year classification in veterinary medicine; ability to provide own transportation to each site.
The Bull Breeding Soundness Examination Elective involves training in all phases of the bull fertility examination as recommended by the Society for Theriogenology. Chuteside, hand-on experience is the primary training technique for this elective with informal discussions held during the performance of breeding soundness examinations on 350 or more bulls.

VDPAM 421D: Great Plains Veterinary Educational Center: Feedlot Management
Cr. 1. F.S.
Prereq: Fourth year classification in veterinary medicine; ability to provide own transportation to each site.
Evaluation of production techniques and production efficiency including ration and feeding management, health management program development and evaluation, environmental management, quality assurance, feedlot necropsy and microbiology techniques, and break even analysis. Approaches to solve seasonal health problems within the management objectives for different feed yards are the strong emphasis of this elective. Students may have the opportunity to follow cattle to a packing plant to learn the methods for tracking animals into the food chain, identifying production problems that are not diagnosable at the feedlot level, and monitoring beef quality assurance. Biosecurity activities will be emphasized and practiced.
**VDPM 421E: Great Plains Veterinary Educational Center: Weaning Management**  
Cr. 1. F.  
**Prereq:** Fourth year classification in veterinary medicine; ability to provide own transportation to each site.  
This is a hands-on elective in which students participate in the weaning management at the USMARC. Students will be involved with processing, feeding, finding, and treating sick calves. Additionally, students will be introduced to developing weaning rations and managing feed delivery. Students will also learn how to develop vaccination and treatment protocols and each student will have as an objective the development of their own vaccination and treatment protocol template. As time allows, students will visit commercial feed yards and cover production management topics.

**VDPM 421F: Great Plains Veterinary Educational Center: Pregnancy Examination**  
Cr. 1. F.  
**Prereq:** Fourth year classification in veterinary medicine; ability to provide own transportation to each site.  
The Pregnancy Examination Elective involves rectal examinations for pregnancy, chuteside data collection and data entry into the CowCalf5 computer software program to evaluate the reproductive performance of the herd. This elective is designed for students who have some palpation experience and are interested in honing their skills. Pregnancy Examination occurs during yearly fall herd work at the USMARC, therefore, speed and accuracy will be stressed, rather than basic technique.

**VDPM 421J: Great Plains Veterinary Educational Center: Lambing**  
Cr. 1. S.  
**Prereq:** Fourth year classification in veterinary medicine; ability to provide own transportation to each site.  
The Lambing Elective involves students working with the USMARC lambing crew and GPVEC faculty in observations, assistance with delivery when necessary, and routine lambing duties. Students will work with veterinary personnel in sheep necropsy and health surveillance. Self-study material will be provided covering topics such as pre-breeding and breeding, pregnancy diagnosis, pregnant ewe management, pre-lambing ewe/lambing management, feeder lamb health and nutrition management, and replacement ewe and ram management.

**VDPM 421K: Great Plains Veterinary Educational Center: Equine Dentistry**  
(20-20) Cr. 1. S.  
**Prereq:** Fourth year classification in veterinary medicine; ability to provide own transportation to each site.  
The Equine Dentistry Elective provides the opportunity for students to expand their knowledge and experience related to equine dentistry. The rotation consists of lectures on topics relevant to equine dental care and hands-on laboratories during which students practice routine dental care procedures on USMARC horses. Equine Dentistry will involve both lecture and lab time at about equal shares.

**VDPM 421P: Great Plains Veterinary Educational Center: Gomer Bull Surgery**  
Cr. 1. F.  
**Prereq:** Fourth year classification in veterinary medicine; ability to provide own transportation to each site.  
The Gomer Bull Surgery Elective is designed to give students interested in food animal surgery an opportunity to practice their surgical skills by performing penile translocations and epididymectomies on USMARC teaser bull candidates. Lectures specific to gomer bull surgery as well as other topics related to food animal surgery will be presented during this elective.

**VDPM 421Q: Great Plains Veterinary Educational Center: Swine Husbandry**  
Cr. 1. F.S.  
**Prereq:** Fourth year classification in veterinary medicine; ability to provide own transportation to each site.  
The Swine Husbandry elective provides students the opportunity to gain hands-on experience related to the daily activities of an intensively managed confinement swine unit. Rotation participants will work closely with USMARC Swine Unit personnel as they complete their daily routines in the farrowing and breeding areas of the USMARC Swine Unit and will participate in piglet delivery, neonatal pig processing, artificial and natural breeding, necropsies, and other activities as they arise.
VDPAM 421R: Great Plains Veterinary Educational Center: Sheep Weaning Management
Cr. 1. SS.
Prereq: Fourth year classification in veterinary medicine; ability to provide own transportation to each site.
This elective provides the opportunity for students to develop their skills in the area of health and nutritional management of sheep immediately before and after weaning. The rotation consists of lectures on pre- and post-weaning nutrition, clinical parasitology, and prevention and control of common ovine infectious diseases. Hands-on experience during the week will take place at the USMARC Sheep Unit and will consist of walk-through and hand-on examinations of recently weaned lambs, treatment of sick lambs, inspection of weaning pen environment, investigation of herd outbreaks, and post mortem examination of all sheep mortalities.

VDPAM 421S: Great Plains Veterinary Educational Center: Ultrasound Pregnancy Examination
Cr. 1. SS.
Prereq: Fourth year classification in veterinary medicine; ability to provide own transportation to each site.
The Ultrasound Pregnancy Examination Elective involves transrectal ultrasonographic examinations for pregnancy, chuteside data collection and data entry into the CowCalf5 computer software program to evaluate the reproductive performance of the herd. This elective is designed for students who have some ultrasound experience and are interested in honing their skills. This elective occurs during yearly fall herd work at the USMARC, therefore, speed and accuracy will be stressed, rather than basic technique. Didactic instruction may include several topics in cow herd health, nutrition, management and reproductive decision making.

VDPAM 422: Beef Cattle Calving
Cr. 2. Repeatable. F.S.SS.
Prereq: VDPAM 310; fourth year classification in veterinary medicine
This elective provides students opportunity to assist cow-calf operations with calving in Nebraska, South Dakota or other locations. These operations typically calve 300-1,000 head each spring. Calving experience is not required, but a good understanding of working around cattle is necessary. Students will be actively participating in the day to day, normal calving routine including detecting and sorting off “springers”, calf “watch”, detecting when intervention is needed and assisting delivery, caring for and monitoring newborns and dams for good health and early disease detection, tagging/processing new calves, treating calves needing intervention and performing other routine calving chores. Students need to provide their own transportation to the site and overnight stays at or near the production sites are required. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 426: Veterinary Toxicology
(Dual-listed with VDPAM 526). (Cross-listed with TOX). (3-0) Cr. 3. S.
Prereq: Third year classification in veterinary medicine
Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

VDPAM 428: Principles of Epidemiology and Population Health
(Dual-listed with VDPAM 528). (Cross-listed with V MPM). (3-0) Cr. 3. S.
Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance.

VDPAM 436: Beef Records Analysis
(0-30) Cr. 1. F.S.
Prereq: First, second or third year classification in veterinary medicine, or permission of instructor
Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability. Each semester’s content builds on the material from the previous semester. Enrolling in the class for multiple semesters will be encouraged.

VDPAM 436A: Beef Records Analysis: Introduction
(0-30) Cr. 1. Repeatable. F.
Prereq: First, second or third year classification in veterinary medicine, or special permission of instructor
Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability.

VDPAM 436B: Beef Records Analysis: Herd Management
(0-30) Cr. 1. Repeatable. S.
Prereq: First, second or third year classification in veterinary medicine, or special permission of instructor, VDPAM 436A
Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability.
VPDAM 436C: Beef Records Analysis: Cow/Calf Preventive Medicine
(0-30) Cr. 1. Repeatable. F.
Prereq: Second or third year classification in veterinary medicine, or special permission of instructor; VDPAM 436A, VDPAM 436B
Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability.

VPDAM 436D: Beef Records Analysis: Feedlot Production Medicine
(0-30) Cr. 1. Repeatable. S.
Prereq: Second or third year classification in veterinary medicine, or special permission of instructor; VDPAM 436A, VDPAM 436B, VDPAM 436C
Lectures will emphasize current production and evaluation techniques for feedlot production and students will develop a standard treatment protocol book. Topics include respiratory disease, receiving programs, nutrition, cattle handling and environmental issues.

VPDAM 445: Production Animal Clinical Medicine
(3-0) Cr. 3. S.
Prereq: Third year classification in veterinary medicine
Clinical diagnosis and treatment of diseases of swine, beef and dairy cattle, and small ruminants.

VPDAM 450: Disturbances of Reproduction
(4-0) Cr. 4. F.
Prereq: Third year classification in veterinary medicine
General principles of normal reproductive functions in addition to environment, management and diseases causing disturbances in reproduction. Cattle, Swine, Equine, Small Ruminant, and Small Animal species will be covered.

VPDAM 451: Clinical Embryo Transfer
Cr. 2. F.S.S.
Prereq: VDPAM 351; Fourth year classification in veterinary medicine
Elective clinical assignment in techniques of embryo transfer. Primary species studied will be bovine but equine and small ruminant embryo transfer will be covered during discussions. Enrollment is limited to four students per two week session. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VPDAM 455: Diagnostic Laboratory Practicum
Cr. 1. Repeatable. F.S.
Prereq: VDPAM 310; Fourth year classification in veterinary medicine
Practical experience and training in necropsy, recognition of gross lesions, diagnostic sample collection and test selection for the diagnosis of infectious, toxic, nutritional and metabolic diseases through exposure to diagnostic cases submitted to the ISU Veterinary Diagnostic Laboratory. The VDL accepts cases from all species; however, this course predominantly consists of porcine and bovine cases.

VPDAM 456: Veterinary Diagnostic Lab Methods & Applications
(16-0) Cr. 1. F.
Prereq: Second or third year classification in veterinary medicine
Strengths and weaknesses of various testing technologies, how to choose appropriate tests and technologies, sampling strategies in diseased and non-diseased populations and interpretation and integration of results of tests to achieve an accurate diagnosis are discussed.

VPDAM 463: Feedlot Production Medicine
Cr. 1. S.
Prereq: VDPAM 310: concurrent enrollment in VDPAM 421D.
One-week VM4 elective focusing on Midwestern feedlot production. Addresses feedlot production practices common to Iowa and surrounding states, including feeding cattle on concrete or under roofs. Activities include participation and visitation to representative feedlots in Iowa.

VPDAM 465: Animal Welfare Clinical Rotation
Cr. 2. F.S.S.
Prereq: Fourth year classification in veterinary medicine
Two-week course for senior veterinary students to gain skills for collecting and interpreting animal welfare data, aid clients with identifying and achieving welfare goals, and assisting law enforcement with animal cruelty response. Field trips to food animal and companion animal facilities are mandatory.

VPDAM 471: Theriogenology: Food Animal
Cr. 2. Repeatable.
Prereq: Fourth year classification in veterinary medicine
Elective clinical assignment in Food Animal Theriogenology involving male and female breeding soundness exams, dystocia management, advanced diagnostic and surgical procedures, surgical and nonsurgical insemination programs in small ruminants, and semen cryopreservation. Medical and surgical correction of reproductive disorders in cattle, swine and small ruminants. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.
VDPAM 476: Food Animal and Camelid Field Service  
Cr. 1-2. Repeatable. F.S.SS.  
Prereq: VDPAM 310; Fourth year classification in Veterinary Medicine  
Students will assist university veterinarians in delivering health care and production management services to the ISU livestock farms and other livestock farms in the local area. Focus will be on delivery of individual animal care and herd health. Focus on the establishment of best practices for herd management of production systems at the university and in the region. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 477: Food Animal and Camelid Medicine and Surgery  
Cr. 2. Repeatable. F.S.SS.  
Prereq: Fourth-year classification in veterinary medicine  
Clinical assignment focused on the management of food animal and camelid medicine and surgery cases. Specific instruction in clinical evaluation of cases coupled with appropriate diagnostic testing and therapeutic intervention will be emphasized. Additional instruction will be provided in disease prevention, intensive care and management of food animal and camelid species. Particular emphasis will be placed on appropriate on-label and extra-label drug usage in food animal species. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 479: Applied Swine Production Medicine Preceptorship  
(0-30) Cr. 1-6. Repeatable. F.S.SS.  
Prereq: VDPAM 310; Fourth year classification in Veterinary Medicine  
Preceptorship course in swine production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will be preceptorships with a practicing veterinarian and/or a production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 480: Swine Production Medicine  
(15-25) Cr. 2. Repeatable. F.S.SS.  
Prereq: VDPAM 310; Fourth year classification in Veterinary Medicine or permission of instructor  
Two week clinical rotation in swine production medicine. Students will be assigned to take the lead in investigating field based client cases with supervision of the instructors. Development of critical thinking skills that will allow students to apply concepts of herd management, production analysis, economic analysis, and disease prevention in addressing client cases. Variable amounts of travel to farm sites will be required with the potential for rare overnight stays. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 481: Advanced Cow/Calf Production Medicine  
(Dual-listed with VDPAM 581). (20-20) Cr. 2. S.  
Prereq: Completion of two semesters of VDPAM 436 or UNL equivalent (V MED 596 Cattle Production), fourth year classification in veterinary medicine  
Two-week senior elective that will focus on the economics of animal disease in cow/calf operations. Evidence based medicine and epidemiological principles will be used in investigation of disease outbreaks. Extensive partial budgeting used. Students will complete at least two disease investigations involving outbreaks in commercial cow/calf operations and communicate their findings to the class, the herd owner, and local practitioner. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 482: Applied Beef Production Medicine Preceptorship  
Cr. 1-6. Repeatable. F.S.SS.  
Prereq: VDPAM 310; Fourth year classification in veterinary medicine  
Advanced course in beef production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 483: Beef Production Medicine  
(15-20) Cr. 2. F.  
Prereq: VDPAM 310; fourth year classification in veterinary medicine  
Two week advanced clinical rotation in beef production medicine. Fifteen hours recitation/discussion and 20 hours clinical experience per week. This course is designed to exposing students to cow-calf and feedlot production concepts. The activities scheduled for the rotation depend greatly on the time of year. Whenever possible, the class incorporates field trips. Students should anticipate that travel, including overnight stays, may be required. These field trips can vary in length from several hours to several days and may include weekends. Typically, 3-4 days of the rotation are spent at the Great Plains Veterinary Education Center, Clay Center, NE. Students should, therefore, plan accordingly and contact the instructor, immediately, if they anticipate a conflict. Students should not schedule Grand Rounds during this rotation. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.
VDPAM 484: Dairy Production Medicine
(15-20) Cr. 2. F.S.S.
Prereq: VDPAM 310; fourth year classification in veterinary medicine
Two week course in dairy production medicine combining class time with multiple on-farm visits to learn various management aspects (DHIA, DC305 & PC Dart record analysis, calf rearing through lactating cows, reproduction programs, udder health and milk quality, biosecurity, welfare, nutrition and cow comfort) for a wide variety of dairy operations. Students will learn the latest in dairy management by reviewing current topic articles and gain experience in farm evaluation through a group project. Fifteen hours recitation/discussion and 20 hours clinical experience per week. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 485: Applied Dairy Production Medicine Preceptorship
(0-30) Cr. 1-6. Repeatable. F.S.S.S.
Prereq: VDPAM 310; fourth year classification in veterinary medicine
Advanced course in dairy production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 486: Introduction to Small Ruminant Production Medicine
(15-0) Cr. 1. S.
Prereq: Third year classification in veterinary medicine or permission of instructor.
Survey of small ruminant production systems, common management practices, and disease processes of small ruminants. This course is intended to give the student a background in small ruminant medicine. Herd health, disease monitoring and prevention, and typical management systems will be emphasized in lecture.

VDPAM 487: Livestock Disease Prevention
(3-0) Cr. 3. F.
The course is designed for both the pre-veterinary and animal science majors who have an interest in production animal health, disease prevention methods, epidemiology of economically important agents, and the ecology of currently important pathogens found in North American livestock industries. It will focus on disease prevention principles for individuals and large production population systems.

VDPAM 488: Laboratory in Clinical Microbiology
Cr. 1. Repeatable. F.S.
Prereq: Fourth year classification in veterinary medicine
Application of microbiological procedures to the diagnosis of infectious diseases.
VDPAM 496: International Preceptorship  
(Dual-listed with VDPAM 596). Cr. 1-12. Repeatable. F.S.SS.  
**Prereq: Second, third or fourth year classification in veterinary medicine**  
International Preceptorships and Study Abroad Group programs.  
This course will provide opportunities for students to be involved in  
applied clinical, production, and/or research experiences in international  
locations. The course consists of 40 hour per week experiential learning  
opportunities. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified  
undergraduates:

VDPAM 507: Evidence Based Clinical Decision Making  
(Dual-listed with VDPAM 407). (1-0) Cr. 1. S.  
**Prereq: Permission of instructor**  
Discussion, lectures and laboratories to assess the quality and  
significance of medical evidence in making informed decisions about the  
treatment of individual animals and animal populations.

VDPAM 508: Poultry Diseases  
(Dual-listed with VDPAM 408). Cr. 2. Alt. S., offered even-numbered years.  
**Prereq: Second or third year classification in veterinary medicine or permission of instructor**  
Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and  
gamebirds; biosecurity, immunization, and management procedures to  
prevent poultry diseases. This course includes wet labs.

VDPAM 514: Veterinary Practice Entrepreneurship  
(Dual-listed with VDPAM 414). Cr. 2-3. S.  
**Prereq: Classification in veterinary medicine**  
Formal exposure to the entrepreneurial and business skills necessary to  
own and operate a successful veterinary practice or other small business  
opportunity. Personal finance, marketing, human resource management,  
general accounting, site assessment, location demographics, practice  
valuation, and a host of other issues which must be considered when  
purchasing or starting a new business are covered. Class instruction will  
be delivered by successful practice and business owners with examples from  
real world experience.

VDPAM 526: Veterinary Toxicology  
(Dual-listed with VDPAM 426). (Cross-listed with TOX). (3-0) Cr. 3. S.  
**Prereq: Third year classification in veterinary medicine**  
Study of toxicological diseases of animals emphasizing clinical  
recognition, circumstances of poisoning, differential diagnosis with  
clinical and laboratory data, therapeutic procedures, preventive  
management and public health implications. Supplemented with case- 
based materials.

(3-0) Cr. 3. Alt. F., offered odd-numbered years.  
**Prereq: STAT 401**  
ANOVA, Linear Regression, Model Selection, Mixed Models, ANCOVA,  
Repeated Measurement Analysis, MANOVA, Nonparametric Methods,  
Diagnostic Test Evaluation, ROC Curve Analysis, Generalized Linear  
Models, Logistic Regression, Survival Analysis, Cox Proportional Hazards  
Regression, Count Data Analyses. This course is available on campus and  
by distance.

VDPAM 528: Principles of Epidemiology and Population Health  
(Dual-listed with VDPAM 428). (Cross-listed with V MPM). (3-0) Cr. 3. S.  
Epidemiology of disease in populations. Disease causality, observational  
study design and approaches to epidemiologic investigations. This  
course is available on campus and by distance.

VDPAM 529: Epidemiological Methods in Population Research  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
**Prereq: STAT 587, VDPAM 528**  
Designing, conducting, analyzing and interpreting outcomes from field- 
based studies, including cross-sectional, case-control, cohort, and clinical  
trials with categorical outcomes. This course is available on campus and  
by distance.

VDPAM 542: Introduction to Molecular Biology Techniques  
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V  
MPM). Cr. 1. Repeatable. F.S.SS.  
Sessions in basic molecular biology techniques and related procedures.  
Offered on a satisfactory-fail basis only.

VDPAM 542A: Introduction to Molecular Biology Techniques: DNA  
Techniques  
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM,  
NUTRS, V MPM). Cr. 1. Repeatable. F.S.  
Includes genetic engineering procedures, sequencing, PCR, and  
genotyping. Offered on a satisfactory-fail basis only.

VDPAM 542B: Introduction to Molecular Biology Techniques: Protein  
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM,  
NUTRS). Cr. 1. Repeatable. S.SS.  
**Prereq: Graduate classification**  
Techniques. Includes: fermentation, protein isolation, protein purification,  
SDS-PAGE, Western blotting, NMR, confocal microscopy and laser  
microdissection, Immunophenotyping, and monoclonal antibody  
production. Sessions in basic molecular biology techniques and related  
procedures. Offered on a satisfactory-fail basis only.
VDPAM 542C: Introduction to Molecular Biology Techniques: Cell Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.S.
Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

VDPAM 542D: Introduction to Molecular Biology Techniques: Plant Transformation
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. S.
Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

VDPAM 542E: Introduction to Molecular Biology Techniques: Proteomics
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.
Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

VDPAM 542F: Introduction to Molecular Biology Techniques: Metabolomics
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.
Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

VDPAM 542G: Introduction to Molecular Biology Techniques: Genomic
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. S.
Offered on a satisfactory-fail basis only.

VDPAM 546: Clinical and Diagnostic Toxicology
(Cross-listed with TOX). (0-3) Cr. 1-3. Repeatable. F.S.SS.
Prereq: D.V.M. degree or VDPAM 526
Advanced study of current problems and issues in toxicology. Emphasis on problem solving utilizing clinical, epidemiological, and laboratory resources.

VDPAM 551: Advanced Veterinary Diagnostic Medicine
(0-3) Cr. 1-3. Repeatable. F.S.SS.
Prereq: VDPAM 455
Laboratory diagnosis of animal diseases with emphasis on gross and microscopic lesion description. Caseload is focused heavily on infectious diseases of food animals.

VDPAM 570: Risk Assessment for Food, Agriculture and Veterinary Medicine
(Cross-listed with AGRON, TOX). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: Statistics 300-level or higher.

VDPAM 581: Advanced Cow/Calf Production Medicine
(Dual-listed with VDPAM 481). (20-20) Cr. 2. S.
Prereq: Completion of two semesters of VDPAM 436 or UNL equivalent (V MED 596 Cattle Production), fourth year classification in veterinary medicine
Two-week senior elective that will focus on the economics of animal disease in cow/calf operations. Evidence based medicine and epidemiological principles will be used in investigation of disease outbreaks. Extensive partial budgeting used. Students will complete at least two disease investigations involving outbreaks in commercial cow/calf operations and communicate their findings to the class, the herd owner, and local practitioner. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VDPAM 590: Special Topics
Cr. 1-3. Repeatable. F.S.SS.
Prereq: Permission of instructor
Topics in medicine, surgery, theriogenology; beef, swine, dairy, or sheep production medicine.

VDPAM 596: International Preceptorship
(Dual-listed with VDPAM 496). Cr. 1-12. Repeatable. F.S.SS.
Prereq: Second, third or fourth year classification in veterinary medicine
International Preceptorships and Study Abroad Group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities. Offered on a satisfactory-fail basis only.

VDPAM 599: Creative Component
Cr. arr. Repeatable. F.S.SS.
Prereq: Enrollment in nonthesis master's degree program
Courses for graduate students:
VDPAM 650: Swine Diagnostic Medicine
Cr. 4. Alt. S., offered even-numbered years.
Prereq: Permission of instructor
A detailed study of swine diseases emphasizing the pathogenesis and diagnosis of swine respiratory, enteric, reproduction, metabolic, and septicemic diseases. Course activities include interpretation of diagnostic case reports and development of diagnostic plans for specific disease objectives.

VDPAM 654: Comparative Antimicrobial Clinical Pharmacology
Cr. 2. Alt. F., offered odd-numbered years.
Prereq: Graduate student, resident, or intern in College of Veterinary Medicine
Initial antimicrobial selection for infectious diseases of domestic animals. The antimicrobial drug groups will be examined, stressing pharmacokinetics, minimal inhibitory concentrations, and the use of these parameters to select appropriate compounds and dosages for maximum efficacy.

VDPAM 655: Advanced Swine Production Medicine
Cr. 4. Alt. S., offered odd-numbered years.
Prereq: Permission of instructor
Detailed overview of applied techniques used in swine production medicine; production modeling and record analysis, facility design and management, analysis of competing intervention options, design and evaluation of therapeutic and vaccination strategies, quality control procedures and food safety. Course activities include interpretation of diagnostic case reports and development of diagnostic plans for specific disease objectives.

VDPAM 699: Research
Cr. arr. Repeatable.

Graduate Study
The department offers opportunities for the degree doctor of philosophy with a major in veterinary microbiology. A specialization in preventive medicine is an option for this degree. Graduates in the Veterinary Microbiology and Preventive Medicine programs have a broad understanding of the fundamental processes involved in infectious diseases, pathogenesis and immunology. They are able to effectively establish research programs, which involve complex biological systems and disease syndromes. They are also prepared to address microbial-based social, ethical and environmental problems. Graduates acquire effective written and oral communication skills which lead to successful research and teaching careers in the medical and veterinary sciences. The department also offers work towards the master of science with majors in veterinary microbiology or veterinary preventive medicine. A non-thesis master’s option is available for majors in preventive medicine. Courses are open for students majoring in other graduate programs.

Prerequisite to graduate study is completion of coursework in general microbiology, biology, biochemistry, mathematical sciences, and physics. Candidates for the majors in veterinary microbiology should possess an undergraduate degree in biomedical science with emphasis in medical microbiology or the D.V.M. degree. Candidates for the major in preventive medicine should possess the D.V.M. degree.

The department also participates in the interdepartmental majors and programs in genetics, immunobiology, and MCDB (molecular, cellular, and developmental biology; see Index).

Each graduate student must demonstrate proficiency in English composition within two semesters in residence.

Courses primarily for professional curriculum students:

V MPM 378: Case Study IV
(2-0) Cr. 2. S.
Prereq: Second-year classification in veterinary medicine
Case-based applied learning that relates to the basic science courses. Emphasis on early integration of basic and clinical science concepts.

V MPM 380: Veterinary Immunology
(2-0) Cr. 2. S.
Prereq: First-year classification in veterinary medicine
Structure and function of the immune system in animals.

V MPM 386: Veterinary Microbiology
(3-5) Cr. 5. F.
Prereq: Second-year classification in veterinary medicine
Bacteria and fungi of veterinary importance with emphasis on mechanisms of disease production and laboratory diagnostic procedures.
V MPM 387: Veterinary Virology
(3-0) Cr. 3. S.
Prereq: Second-year classification in veterinary medicine
Basic principles of animal virology. Pathogenesis of viral infections. The nature and ecology of viruses of veterinary and zoonotic importance.

V MPM 388: Public Health and the Role of the Veterinary Profession
(3-0) Cr. 3. S.
Prereq: Second-year classification in veterinary medicine
Fundamental epidemiology, zoonotic diseases, occupational health, food safety, other public health topics.

V MPM 390: Topics in Veterinary History
(1-0) Cr. 1. F.S.
An overview of the history of veterinary medicine focused primarily on disease-specific events. A review of the historical aspects of the veterinary profession's accomplishments in the discovery of the etiological origins of disease and their subsequent control will provide students with insights that are applicable to understanding and solving today's animal and human health challenges.

V MPM 428: Principles of Epidemiology and Population Health
(Dual-listed with V MPM 528). (Cross-listed with VDPAM). (3-0) Cr. 3. S.
Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance.

V MPM 437: Infectious Diseases and Preventive Medicine
(3-0) Cr. 3. S.
Prereq: Third-year classification in veterinary medicine
Etiology, epidemiology, laboratory diagnosis, regulatory control and preventive medicine aspects of the infectious diseases of swine, sheep, goats, cattle and horses.

V MPM 486: Laboratory in Public Health
Cr. 2. Repeatable. F.S.S.
Prereq: Fourth-year classification in veterinary medicine
Discussions, lectures, exercises and field trips related to veterinary public health.

V MPM 490: Independent Study
Cr. arr. Repeatable. F.S.S.
Prereq: Permission of instructor and department chair

V MPM 491: CDC Epidemiology Elective Preceptorship
Cr. 6. F.S.S.
Prereq: Written permission of instructor
Introduction to preventive medicine, public health and the principles of applied epidemiology within the working atmosphere of the Centers for Disease Control and Prevention.

V MPM 496: International Preceptorship
(0-40) Cr. 1-12. Repeatable. F.S.S.
Prereq: Second-year classification in veterinary medicine
International Preceptorships and Study Abroad group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

V MPM 501: Basic Principles of Microbiology
Cr. 3. F.
The general principles of bacteriology, immunology and virology will be discussed. The structure and function of bacteria and viruses, the mechanisms of pathogenesis, and the host response to infectious agents will be reviewed. Vaccines, their failures, and new developments in vaccine development will be explored.

V MPM 502: Microbial Genetics and Genomics
(Cross-listed with MICRO). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: MICRO 302, BIOL 313
The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of both vertical and horizontal genetic information transfer, gene regulation, and genetic approaches to study complex cellular processes. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics.

V MPM 517: Gut Microbiome: Implications for Health and Diseases
(Cross-listed with AN S, FS HN, MICRO). Cr. 3.
Prereq: Basic Knowledge in microbiology
Explore current research on gut microbiome including modern tools used to study the gut microbiome. Examine the linkages between gut microbiome and health status, diseases, and manipulation of gut microbiome to improve health.

V MPM 520: Medical Immunology I
(4-0) Cr. 4. F.
Prereq: MICRO 310 or V MPM 386, 3 credits in biochemistry
Nature of the immune system and its role in health and disease. Credit for either V MPM 520 or 575, but not both may be applied toward graduation.
V MPM 525: Intestinal Microbiology
(Cross-listed with MICRO). Cr. 3. Alt. S., offered even-numbered years.
Prereq: Micro 302, BIOL 313
Overview of commensal microbiota in the health and well-being of vertebrates. Topics include diversity of intestinal structure, microbial diversity/function, innate immune development, community interactions and metabolic diseases associated with alterations of the intestinal microbiome.

V MPM 528: Principles of Epidemiology and Population Health
(Dual-listed with V MPM 428). (Cross-listed with VDPAM). (3-0) Cr. 3. S.
Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance.

V MPM 536: Zoonoses and Environmental Health
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: V MPM 386, VMPM 387 and V MPM 388 or equivalent or permission of instructor
Pathogensis and control of zoonotic diseases. Factors influencing transmission and survival of pathogenic microorganisms in the environment.

V MPM 540: Livestock Immunogenetics
(Cross-listed with AN S, MICRO). (2-0) Cr. 2. Alt. S., offered odd-numbered years.
Prereq: AN S 561 or MICRO 575 or V MPM 520
Basic concepts and contemporary topics in genetic regulation of livestock immune response and disease resistance.

V MPM 542: Introduction to Molecular Biology Techniques
(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. F.S.SS.
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

V MPM 542A: Introduction to Molecular Biology Techniques: DNA Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. F.S.
Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

V MPM 542C: Introduction to Molecular Biology Techniques: Cell Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. F.S.
Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

V MPM 542D: Introduction to Molecular Biology Techniques: Plant Transformation
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.
Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

V MPM 542E: Introduction to Molecular Biology Techniques: Proteomics
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. F.
Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

V MPM 542F: Introduction to Molecular Biology Techniques: Metabolomics
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. F.
Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

V MPM 542G: Introduction to Molecular Biology Techniques: Genomic
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.
Offered on a satisfactory-fail basis only.

V MPM 542H: Introduction to Molecular Biology Techniques: Proteomics
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.
Offered on a satisfactory-fail basis only.

V MPM 575: Immunology
(3-0) Cr. 3. S.
Prereq: MICRO 310
An examination of humoral and cellular immune function as well as the interaction of the cells and factors of the immune system that result in health and disease. Micro 475L optional. Credit for either Micro 575 or V MPM 520, but not both, may be applied toward graduation.

V MPM 586: Medical Bacteriology
(Cross-listed with MICRO). (4-0) Cr. 4. F.
Prereq: Permission of instructor
Bacteria associated with diseases of vertebrates, including virulence factors and interaction of host responses.

V MPM 586L: Medical Bacteriology Laboratory
(0-6) Cr. 2. F.
Prereq: credit or enrollment in V MPM 586 or V MPM 625
Procedures used in isolation and identification of pathogenic bacteria, including molecular and genetic techniques used in research.
V MPM 587: Animal Virology  
(4-0) Cr. 4.  
Prereq: Permission of instructor  
Principles of animal virology. Biology of viruses associated with diseases of veterinary importance, including mechanisms of pathogenesis.

V MPM 590: Special Topics  
Cr. 1-5. Repeatable. F.S.S.S.  
Prereq: Permission of instructor  

V MPM 599: Creative Component  
Cr. arr.  
Prereq: Nonthesis M.S. Option only  
A written report based on laboratory research, library reading, or topics related to the student’s area of specialization and approved by the student’s advisory committee.

Courses for graduate students:

V MPM 604: Seminar  
(1-0) Cr. 1. Repeatable. F.  
Offered on a satisfactory-fail basis only.

V MPM 608: Molecular Virology  
(Cross-listed with MICRO, PL P). (3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: BBMB 405 or GDCB 511  
Advanced study of virus host-cell interactions. Molecular mechanisms of viral replication and pathogenesis.

V MPM 615: Molecular Immunology  
(Cross-listed with BBMB, MICRO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: BBMB 405 or BBMB 506 and BBMB 507  
Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signaling pathways leading to expression of genes that control and activate immune function.

V MPM 625: Mechanisms of Bacterial Pathogenesis  
(Cross-listed with MICRO). (4-0) Cr. 4. Alt. S., offered odd-numbered years.  
Prereq: Credit in Biochemistry and Microbiology  
Review of current concepts in specific areas of microbial pathogenesis including the genetic basis for bacterial disease, genetic regulation and control of virulence factors and their mechanisms of action, and host-pathogen interactions at the cellular and molecular levels. The application of microbial genetics to understanding pathogenesis will be included.

V MPM 629: Advanced Topics in Cellular Immunology  
(2-0) Cr. 2. Alt. S., offered even-numbered years.  
Prereq: V MPM 520 or V MPM 575  
Current topics and literature in cellular immunology. Topics include thymocyte development and selection, T cell interactions with antigen presenting cells, and lymphocyte effector functions.

V MPM 660: Pathogenesis of Persistent Infections  
(Cross-listed with V PTH). (2-0) Cr. 2. Alt. S., offered odd-numbered years.  
Prereq: Permission of instructor  
Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites.

V MPM 690: Current Topics  
Cr. 1-3. Repeatable. F.S.S.S.  
Prereq: Permission of instructor  
Colloquia or advanced study of specific topics in a specialized field.

V MPM 690A: Current Topics: Immunology  
Cr. 1-3. Repeatable. F.S.S.S.  
Prereq: Permission of instructor  
Colloquia or advanced study of specific topics in a specialized field.

V MPM 690B: Current Topics: Infectious Diseases  
Cr. 1-3. Repeatable. F.S.S.S.  
Prereq: Permission of instructor  
Colloquia or advanced study of specific topics in a specialized field.

V MPM 698: Seminar in Molecular, Cellular, and Developmental Biology  
(Cross-listed with BBMB, GDCB, MCDB, MICRO). (2-0) Cr. 1-2. Repeatable. F.S.  
Student and faculty presentations.

V MPM 699: Research  
Cr. arr. Repeatable.

**Veterinary Pathology**

**Professional Program of Study**

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The Department of Veterinary Pathology offers a systematic study of basic disease mechanisms with emphasis on the changes in gene expression, cells, tissues, organs, and body fluids associated with disease. The theory and practice of veterinary pathology, veterinary clinical pathology, veterinary parasitology, veterinary toxicology, and related disciplines provide the basis for accurate diagnosis and a rational approach to the treatment and prevention of animal diseases.
Graduate Study

The department offers work for the degree master of science and doctor of philosophy with a major in veterinary pathology. The majority of students choose an area of specialization in veterinary anatomic pathology, veterinary clinical pathology, or veterinary parasitology (http://vetmed.iastate.edu/vpath/academics/graduate-program). The master of science degree is available on a thesis or nonthesis basis in the veterinary pathology major with or without an area of specialization.

For the ACVP training track (residency) of the anatomic or clinical pathology graduate program designed to train veterinary pathologists, the student must have a funded position within the Department of Veterinary Pathology. If the student does not have a funded position or is not enrolled in the departmental degree program, enrollment in courses pertaining to the residency program and activities that support the residency program must have the approval of the Department Chair of Veterinary Pathology and the head of the departmental residency training program.

Graduates have a broad understanding of the mechanistic basis of disease pathogenesis. They are able to communicate with clinicians, other scientists, and other colleagues on scientific matters, and with the general public on related science policy matters. Graduates are able to address complex problems facing the agricultural and biomedical sciences, and comparative medicine, and are able to make appropriate diagnoses and investigations of animal diseases. They consider ethical, social, legal and environmental issues, and are skilled at carrying out research, communicating research results, and writing concise and competitive grant proposals.

Collaborative work is recommended in other departments in the College of Veterinary Medicine or departments or programs in other colleges. The department participates in the interdepartmental programs in Immunobiology (www.immunobiology.iastate.edu/), Toxicology (www.toxicology.iastate.edu/ http://www.toxicology.iastate.edu/), Genetics (www.genetics.iastate.edu/ http://www.genetics.iastate.edu/), and Molecular, Cellular, and Developmental Biology (www.mcdb.iastate.edu/ http://www.mcdb.iastate.edu/).

A veterinary degree (doctor of veterinary medicine or equivalent) is required for training in Veterinary Anatomic Pathology and Veterinary Clinical Pathology. Other specializations do not require the veterinary degree. A minimum score of 550 paper-based (213 computer-based; 79 internet based) is required on the TOEFL examination for students whose native language is not English. Scores on the standardized Graduate Record Examination (GRE) General Test are required of students not having a veterinary degree from the United States or Canada. The GRE General Test is strongly recommended for all other applicants. A foreign language requirement will be determined by the student’s program of study committee with the approval of the departmental chair. The Graduate English Examination is a graduate college requirement for native English speakers.

The M.S. thesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 30 graduate credits. Following completion of all other requirements, a comprehensive final examination is administered covering all graduate work including the thesis. The examination is typically oral, but a written component may be specified by the program of study committee. The degree candidate must submit a thesis, including at least one manuscript suitable for publication, to the committee members and departmental chair at least two weeks prior to the final examination. The departmental requirement for graduate courses includes:

† Arranged with instructor.

The M.S. nonthesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 40 graduate credits including at least 10 graduate credits earned outside the department. Every nonthesis master’s degree program requires evidence of individual accomplishment demonstrated by completion of a creative component, special report, or scientific study. A minimum of 3 credits of such independent work (V PTH 599 Creative Component Research) and a practical diagnostic examination (V PTH 606 Diagnostic Interpretation) corresponding to the area of specialization are required on every program of study. The final examination is comprehensive and consists of written and oral questions. The departmental requirement for graduate courses includes those for the M.S. thesis degree plus additional courses corresponding to the area of degree emphasis of specialization. Contact the department for a more complete list of requirements and information on areas of specialization.

The Ph.D. degree in veterinary pathology, with or without an area of specialization, requires a minimum of 72 graduate credits including at least 12 graduate credits earned outside the department. The preliminary examination, consisting of written and oral components, is comprehensive and not restricted to the content of graduate courses. The degree candidate must submit a dissertation, including at least two manuscripts suitable for publication, to the committee members and
departmental chair at least two weeks prior to the final examination. The final examination is primarily a defense of the dissertation, but it may include questions on other areas of specialized knowledge. The department also offers a combined DVM/Ph.D. program designed for completion of courses for the Ph.D. degree in Veterinary Pathology simultaneously with study in the professional curriculum in the College of Veterinary Medicine. Contact the department for a more complete list of requirements for the Ph.D. degree and information on areas of specialization.

Courses primarily for professional curriculum students:

**V PTH 342: Anatomic Pathology I**
(Dual-listed with V PTH 542). (2-2) Cr. 3. S.
*Prereq:* for V PTH 342, *prereq:* First-year classification in veterinary medicine. For V PTH 542, *prereq:* Graduate classification and BIOL 352 or equivalent for graduate credit, permission of instructor.
Basic pathology with emphasis on disease in animals and introduction to diseases by system.

**V PTH 353: Introductory Parasitology**
(Cross-listed with BIOL, MICRO). (3-0) Cr. 3. S.
*Prereq:* BIOL 212
Biology and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites.

**V PTH 372: Anatomic Pathology II**
(Dual-listed with V PTH 572). (3-3) Cr. 4. F.
Response to injury by each body system.

**V PTH 376: Veterinary Parasitology**
(Dual-listed with V PTH 576). (3-3) Cr. 4. F.
Parasitic diseases of domestic animals and their control.

**V PTH 377: Case Study III**
(0-4) Cr. 2. F.
*Prereq:* Second-year classification in veterinary medicine
Clinical applications of the basic sciences taught concurrently in the fall semester of the second year curriculum in veterinary medicine.

**V PTH 401: Basics of Medical Terminology**
(1-0) Cr. 1. F.
Discussion of prefixes, suffixes, and roots (mostly from Latin and Greek) that comprise medical terms.

**V PTH 402: Introduction to Pathology**
(Cross-listed with BIOL). (3-0) Cr. 3. F.
*Prereq:* BIOL 211 and BIOL 212 with labs
Introductory exploration of pathology as a medical discipline. This includes study of disease mechanisms via an introduction to general pathology topics (cell degeneration, necrosis, disturbances of growth, disturbances of blood flow, inflammation, neoplasia) and organ system-specific response to injury.

**V PTH 409: Introduction to Veterinary Cytology and Laboratory Techniques**
(0-2) Cr. 1. S.
*Prereq:* Third-year classification in veterinary medicine
Description, interpretation, and techniques for cellular preparations from tissues and body fluids.

**V PTH 425: Clinical Pathology**
(2-4) Cr. 4. S.
*Prereq:* V PTH 372
Principles of clinical hematology, clinical chemistry, and urinalysis in domestic animals.

**V PTH 456: Necropsy Laboratory Practicum**
Cr. 1. Repeatable.
*Prereq:* Fourth-year classification in veterinary medicine
Practicum in postmortem examination and diagnosis.

**V PTH 457: Clinical Pathology Laboratory Practicum**
Cr. 1. Repeatable.
*Prereq:* Fourth-year classification in veterinary medicine
Methodology in clinical chemistry, hematology and cytology; practice in interpretation of laboratory data.

**V PTH 490: Independent Study**
Cr. arr. Repeatable.
*Prereq:* Permission of instructor and department chair

**V PTH 492: Orientation for International Experience**
(2-0) Cr. 1. Repeatable. S.
*Prereq:* Classification in veterinary medicine
8 weeks. Predeparture orientation for group study abroad. Cultural considerations for the study abroad experience and a conversational language introduction. Out of class work will be assigned. Offered on a satisfactory-fail basis only.
V PTH 495: Clinical Competency Skills Checklist/Remediation  
Cr. R. S.

**Prereq: 4th year classification in Veterinary Medicine**

In order to graduate, all 4th year veterinary students are required to complete a checklist of clinical procedures and complete any assigned remediation (based on evaluation in core clinical rotations). These requirements are tied to the college’s AVMA COE accreditation, and this course is used to document completion of those requirements. Offered on a satisfactory-fail basis only.

V PTH 496: International Preceptorship  
(0-40) Cr. 1-12. Repeatable. F.S.SS.

**Prereq: Second-year classification in veterinary medicine**

International Preceptorships and Study Abroad Group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experience in international locations. The course consists of 40 hour per week experiential learning opportunities. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

V PTH 503: Principles of Pathology  
(3-0) Cr. 3. S.

**Prereq: Graduate classification, permission of instructor**

Introductory exploration of pathology as a medical discipline. This includes study of disease mechanisms via an introduction to general pathology topics (cell degeneration, necrosis, disturbances of growth, disturbances of blood flow, inflammation, neoplasia) and organ system-specific response to injury.

V PTH 530: Teaching and Learning in Veterinary Medical Education  
(3-0) Cr. 3. Alt. F., offered even-numbered years.

Study of principles of teaching and learning as they relate to veterinary medical education. These include: theories of learning, analyzing content/learners/context, identifying goals, identifying appropriate instructional strategies (specific to medical education), matching assessment processes to goals and strategies, common curricular approaches and decision-making processes in medical education, and the scholarship of teaching and learning for veterinary medical educators.

V PTH 542: Anatomic Pathology I  
(Dual-listed with V PTH 342). (2-2) Cr. 3. S.

**Prereq: for V PTH 342, prereq: First-year classification in veterinary medicine. For V PTH 542, prereq: Graduate classification and BIOL 352 or equivalent for graduate credit, permission of instructor.**

Basic pathology with emphasis on disease in animals and introduction to diseases by system.

V PTH 548: Diagnostic Parasitology Laboratory  
Cr. 1-3. Repeatable. F.S.SS.

**Prereq: V PTH 376 or V PTH 576**

Contact hours are (0-3 to 0-9). A laboratory experience in the technical and applied aspects of veterinary parasitology.

V PTH 549: Clinical Pathology Laboratory  
(0-3) Cr. 1. Repeatable. F.S.SS.

**Prereq: V PTH 457; permission of instructor**

Laboratory procedures and clinical interpretations with emphasis on hematology, cytology, and clinical chemistry. Offered on a satisfactory-fail basis only.

V PTH 550: Surgical Pathology Laboratory  
Cr. 1-3. Repeatable. F.S.SS.

**Prereq: V PTH 570 or V PTH 571; permission of instructor**

Contact hours are (0-3 to 0-9). Diagnosis of lesions in biopsy specimens; classification of neoplasms. Course includes rotation through departmental biopsy service and review of selected cases from departmental archives. Offered on a satisfactory-fail basis only.

V PTH 551: Postmortem Pathology Laboratory  
Cr. 1-3. Repeatable. F.S.SS.

**Prereq: V PTH 542; permission of instructor**

Contact hours are (0-3 to 0-9). Necropsy techniques of animals with emphasis on gross and microscopic lesions and diagnosis. Offered on a satisfactory-fail basis only.

V PTH 554: Ethics in Scientific Research and Writing  
(1-0) Cr. 1. Alt. S., offered even-numbered years.

**Prereq: Graduate classification**

Ethical conduct in biomedical research, criticism, writing, and adherence to regulations. Offered on a satisfactory-fail basis only.

V PTH 570: Systemic Pathology I  
(4-0) Cr. 4. Alt. F., offered even-numbered years.

**Prereq: V PTH 342 or V PTH 542; permission of instructor**

Pathology of the respiratory, reproductive, endocrine, musculoskeletal, and cardiovascular systems. Emphasis on pathogenesis and anatomic pathology correlated with interpretive clinical pathology where appropriate.

V PTH 571: Systemic Pathology II  
(4-0) Cr. 4. Alt. F., offered odd-numbered years.

**Prereq: V PTH 342 or V PTH 542; permission of instructor**

Pathology of the integumentary, urinary, digestive, lymphoid, and nervous systems and special senses. Emphasis on pathogenesis and anatomic pathology correlated with interpretive clinical pathology where appropriate.
V PTH 572: Anatomic Pathology II
(Dual-listed with V PTH 372). (3-3) Cr. 4. F.
Response to injury by each body system.

V PTH 576: Veterinary Parasitology
(Dual-listed with V PTH 376). (3-3) Cr. 4. F.
Prereq: For V PTH 376, prereq: Second-year classification in veterinary medicine. For V PTH 576, prereq: Graduate classification and V PTH 542.
Parasitic diseases of domestic animals and their control.

V PTH 590: Special Topics
Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor

V PTH 590A: Special Topics: Veterinary Pathology
Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor

V PTH 590B: Special Topics: Veterinary Parasitology
Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor

V PTH 590C: Special Topics: Veterinary Toxicology
Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor

V PTH 590D: Special Topics: Veterinary Clinical Pathology
Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor

V PTH 590E: Special Topics: Other
Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor

V PTH 596: International Preceptorship
(0-40) Cr. 1-12. Repeatable. F.S.SS.
Prereq: Admission to graduate college
International Preceptorships and Study Abroad Group programs.
This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities. Offered on a satisfactory-fail basis only.

V PTH 599: Creative Component Research
Cr. arr. Repeatable.
Course for departmental graduate research.

V PTH 599A: Creative Component Research: Veterinary Pathology
Cr. arr. Repeatable.
Course for departmental graduate research.

V PTH 599B: Creative Component Research: Veterinary Parasitology
Cr. arr. Repeatable.
Course for departmental graduate research.

V PTH 599C: Creative Component Research: Veterinary Toxicology
Cr. arr. Repeatable.
Course for departmental graduate research.

V PTH 599D: Creative Component Research: Veterinary Clinical Pathology
Cr. arr. Repeatable.
Course for departmental graduate research.

Courses for graduate students:

V PTH 604: Pathology Case Seminar
Cr. 1-2. Repeatable. F.S.
Prereq: permission of instructor
Description and interpretation of microscopic lesions and clinical pathology data collected from cases of natural and experimental disease. Offered on a satisfactory-fail basis only.

V PTH 605: Current Topics Seminar
Cr. 1. Repeatable. F.S.SS.
A seminar of graduate research at the time of thesis or dissertation defense.

V PTH 606: Diagnostic Interpretation
Cr. R. F.S.SS.
Prereq: permission of instructor
A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

V PTH 606A: Diagnostic Interpretation: Veterinary Pathology
Cr. R. F.S.SS.
Prereq: permission of instructor
A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

V PTH 606B: Diagnostic Interpretation: Veterinary Parasitology
Cr. R. F.S.SS.
Prereq: permission of instructor
A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.
V PTH 606C: Diagnostic Interpretation: Veterinary Toxicology
Cr. R. F.S.S.
Prereq: permission of instructor
A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

V PTH 606D: Diagnostic Interpretation: Veterinary Clinical Pathology
Cr. R. F.S.S.
Prereq: permission of instructor
A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

V PTH 652: Pathologic Hematology
(2-2) Cr. 3.
Prereq: V PTH 425; permission of instructor
Pathologic changes in blood constituents of domestic animals.

V PTH 655: Cellular and Molecular Pathology I
(3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: Graduate course in biochemistry, genetics, or cell biology
Cellular and molecular mechanisms of cell injury, cellular responses to injury, and inflammation.

V PTH 656: Cellular and Molecular Pathology II
(Cross-listed with TOX). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: Graduate course in biochemistry, genetics, or cell biology
Cellular and molecular mechanisms of carcinogenesis.

V PTH 660: Pathogenesis of Persistent Infections
(Cross-listed with V MPM). (2-0) Cr. 2. Alt. S., offered odd-numbered years.
Prereq: Permission of instructor
Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites.

V PTH 661: Comparative Immunology and Infectious Disease
(Cross-listed with IMBIO). (2-0) Cr. 2. Alt. S., offered odd-numbered years.
Prereq: Graduate level Immunology or permission of instructor
Discuss and define similarities and differences of varied host responses to infectious challenge. Learning will focus on comparative aspects of the host response and the unique aspects of immunity from different organisms, while highlighting molecular and mechanistic similarities of pathogen recognition, response and resolution.

V PTH 663: Clinical Chemistry
(2-2) Cr. 3.
Prereq: V PTH 425; permission of instructor
The pathophysiology, methodology, and clinical application of laboratory medicine.

V PTH 679: Histopathology of Laboratory Animals
(1-2) Cr. 2.
Prereq: V PTH 570 or V PTH 571; permission of instructor
Study of microscopic lesions in laboratory animals with emphasis on description, etiology, pathogenesis, and diagnosis.

V PTH 699: Research
Cr. arr. Repeatable.
Course restricted to graduate program within the department.

V PTH 699A: Research: Veterinary Pathology
Cr. arr. Repeatable.
Course restricted to graduate program within the department.

V PTH 699B: Research: Veterinary Parasitology
Cr. arr. Repeatable.
Course restricted to graduate program within the department.

V PTH 699C: Research: Veterinary Toxicology
Cr. arr. Repeatable.
Course restricted to graduate program within the department.

V PTH 699D: Research: Veterinary Clinical Pathology
Cr. arr. Repeatable.
Course restricted to graduate program within the department.
Graduate Appointments

Graduate assistantships, fellowships, and research grants have been established at Iowa State University to encourage graduate work and to promote research. Such appointments and research opportunities are available through the various departments of instruction and the research centers on campus.

Graduate assistantships, the most common form of graduate student support, are available in three categories: the research assistantship, the teaching assistantship, or the administrative assistantship. A half-time graduate assistantship (20 hours per week) permits the holder to enroll for a maximum of 12 semester credits. Recipients of these assistantships are assessed fees at full Iowa resident rates regardless of the number of credits for which they register. These students may also be eligible for tuition scholarship awards (50% of in-state tuition for most master's students and 100% of in-state tuition for most Ph.D. students and certain terminal master's students). Students who are graduates of a regionally accredited college or university in the United States or of a recognized institution in another country whose requirements for the bachelor's degree are substantially equivalent to those of Iowa State University, who are admitted in the full or provisional admissions status, and who present the requisite undergraduate or graduate preparation, may apply for these appointments.

Students registered on a restricted basis or those placed on academic probation are eligible for assistantship appointment only on a term by term basis but are not normally eligible for a graduate tuition scholarship. Students admitted as nondegree students are not eligible for assistantship appointments. Further information may be obtained by contacting the appropriate graduate program.

The satisfactory completion of one appointment, plus satisfactory academic performance, will ordinarily make a student eligible for reappointment. After a period of three years of full time study for the master's degree or five years for the doctorate, the student will not normally be continued on assistantship support (shorter periods may be stipulated by the student's program or department).

Postdoctoral Study

Opportunities are provided for postdoctoral study through the extensive research programs of the university. Inquiries should be directed to the appropriate program, institute, or to the Dean of the Graduate College.

Graduate Study by Staff Members

Any full-time member of the research, instructional, or extension staff at the rank of instructor, research associate, or assistant scientist may
carry up to six course credits per semester and three credits per summer session, subject to the approval of the head of the program or section, and provided it does not interfere with other duties. This privilege may be extended to members of the research, instructional, or extension staffs at the rank of assistant professor with approval of the college dean and the Dean of the Graduate College. Staff members at the rank of professor or associate professor cannot become candidates for graduate degrees from ISU.

**Distance Education**

Iowa State offers many graduate degree and certificate programs off-campus. For a listing of the degree programs, registrations for courses, and more information about distance education, consult the Iowa State University Web site at http://www.distance.iastate.edu.

Other information about graduate requirements is available in the Graduate College Handbook at http://www.grad-college.iastate.edu/publications/gchandbook/homepage.html.

**Doctoral Post Prelim (Required Registration)**

Even when Ph.D. graduate students have completed course work and residency requirements, they are required to register and pay tuition and fees, whether or not university facilities and equipment are used or staff is consulted—either in person or in absentia.

After the preliminary oral examination is passed (with either full or conditional pass) and if university facilities, equipment, and staff time are used, the Ph.D. candidate must register for the appropriate number of credits in the major department or program and pay the appropriate graduate tuition and fees.

After the preliminary oral examination is passed (with either full or conditional pass) and if university facilities, equipment, and staff time are not used, the Ph.D. candidate may register for GR ST 681 Required Registration and pay the Doctoral Required Registration tuition and fees.

The Ph.D. candidate must be aware that registration for Gr St 681 is allowed only after the Ph.D. candidate passes the preliminary oral examination; is required only in the fall and spring semesters, and not during the summer term; is not allowed after the completion of the final oral examination; and does not defer student loans.

If students take the final examination during the interim between terms (including the first day of classes), registration can be for the term either before or after the examination is held.

**Auditing**

Audit registration means taking courses without receiving formal credit. Audit provisions are as follows: Instructors must approve ALL audits; students must register for audits by day 10 of the semester; changes to or from an audit must be made in the first 10 days of the semester; students are assessed tuition and fees as though they were taking the course for credit; and the course DOES NOT count in determining full-time student status.

Audited courses do not appear on the student’s permanent record unless the “Request for Audit(s) to Appear on Transcript” form is completed and signed by the student, course instructor, and major professor. Copies of this form, which are available from the Graduate College or from the Graduate College's web site at https://www.grad-college.iastate.edu/student/forms/ must be filed with the Graduate College, 1137 Pearson Hall.

After the fifth class day, if a student changes a regular course to an audit, that course will appear on the student's permanent record as a drop. Audits are not acceptable as registration for loan deferments or meeting visa requirements.

**Graduate Courses Taken by Undergraduates**

Certain graduate level courses listed in the ISU Catalog may be used in the program of study even though they were taken for graduate credit by the student as an undergraduate at Iowa State University.

The following conditions must be met:

1. The POS committee can request approval from the Dean of the Graduate College that up to nine hours of such credit be applied toward meeting advanced degree requirements (these courses must be clearly marked on the POS).
2. Credits earned in these courses must be in addition to those used to meet requirements for the bachelor’s degree and must have grades of B or better.
3. The student must be classified as an undergraduate and not a nondegree undergraduate (credits taken as a nondegree undergraduate student are not allowed).
4. The Graduation Office (10A Enrollment Services Center) should be contacted to determine that the courses were not taken as a nondegree undergraduate student, were not used toward fulfillment of the undergraduate degree program and were graded B or better.

**Courses Taken as a Nondegree Undergraduate Student**

A person classified as a “nondegree undergraduate” student may not use courses taken under that status in a graduate degree program. A student who has received the baccalaureate degree must register as a graduate student if he/she is to receive graduate credit for courses.
Graduate Majors

A complete list of all graduate majors can be found on the Graduate College website, http://www.grad-college.iastate.edu/academics/gradprograms/phd.php, with links to admission requirements and program websites.

Admission

All degree-seeking graduate students must have graduated with a bachelor’s or master’s degree from a regionally accredited U.S. institution or from a recognized foreign institution where the requirements for the bachelor’s degree or its equivalent are similar to those at ISU. Additionally, each applicant must be accepted at ISU by the major program, the Office of Admissions, and the Graduate College. For information concerning graduate study in a particular academic discipline, prospective students should correspond with the chair of the major program in which they wish to study.

Iowa State University has a shared application process, which means certain items are sent (electronically or in print form) to the Office of Admissions and other items are sent to the graduate program to which the prospective student is applying. Detailed instructions are available at http://www.admissions.iastate.edu/graduate/index.php. Students are also encouraged to check the Program Requirements Web page on the Graduate College Web site at http://www.grad-college.iastate.edu/programs/APprograms.php for mailing instructions and deadlines for each program.

The nonrefundable application fee is $40 ($90 for international applicants). An electronic application is required to apply to ISU’s graduate programs; the form and necessary instructions are available at https://www.admissions.iastate.edu/apply/index.php. The application fee is required of all applicants except those who have attended Iowa State as undergraduates. Iowa State requires official academic records and statements of all degrees earned from all institutions attended since secondary school. Faxed, scanned, and notarized copies are not considered official.

Many programs have very early application deadlines. For more details, check program deadlines at www.grad-college.iastate.edu/programs/APprograms.php (http://www.grad-college.iastate.edu/programs/APprograms.php).

Categories of Graduate Admission

An applicant pursuing an advanced degree must be recommended by the program in which he/she will be pursuing an advanced degree and must be approved by the Dean of the Graduate College. There are three admission categories for students who wish to pursue an advanced degree:

Full Admission status may be granted to an applicant who either has achieved a grade point average (GPA) of 3.0 or greater (on a 4.0 scale).

Provisional admission status may be granted to applicants who meet the requirements for full admission but have academic or prerequisite deficiencies to remedy. Transfer from provisional admission to full admission status requires the completion of the graduate English requirement, completion of the coursework prescribed to remedy the background deficiencies with a grade average of B or better, and the written recommendation of the major professor and approval by the Dean of the Graduate College.

Restricted admission status may be granted to an applicant who does not satisfy the formal university requirements for full admission status and/or lacks undergraduate preparation in a field related to the graduate field of study. Restricted admission may also be granted to graduates of non-English-speaking foreign institutions, even if the student meets the university requirements for full admission status. Advancement from restricted to full admission status requires completion of 9 semester credits of graduate level course work as a graduate student with a cumulative grade average of B or better and satisfaction of the Graduate College English requirement. A recommendation is submitted in writing to the Graduate College by the major professor and must be approved by the Dean of the Graduate College.

Nondegree Graduate Admission

Well-qualified applicants who do not intend to seek an advanced degree from Iowa State University may be considered for nondegree graduate admission. Such students usually include:

1. Those who intend to transfer graduate credit earned at Iowa State University to other institutions.
2. Those who intend to use graduate credits earned for professional certification.
3. Those who enroll for personal satisfaction.

Applications and schedules for nondegree students are processed directly by the Office of Admissions and the Graduate College office; no program approvals are generally required, unless the non degree applicant has a very low GPA, then departments are contacted about what courses would be appropriate for the student to take.

A nondegree student who subsequently seeks full, provisional, or restricted admission must apply to and be accepted by a graduate program and by the Graduate College for degree study. A new application,
the regular application fee, and transcripts from all colleges attended are required.

For those students originally admitted to the Graduate College on a nondegree basis, no more than 9 semester hours of graduate credit earned under the nondegree option may be applied if the student later chooses to undertake a graduate degree program. The student's program of study committee will recommend to the Graduate College which courses (if any) taken on a nondegree basis may be included in the degree program.

**Graduate Admission of International Students**

An applicant who is a graduate of a recognized foreign institution is subject to the same criteria for admission as a graduate from an institution in the United States and may be recommended for the same admission categories described above except that of the nondegree option. International applicants for nondegree status may be considered for admission at the discretion of the Graduate College dean. Application and admission deadlines for international students can be obtained from the Admissions web site at www.admissions.iastate.edu/apply/ (http://www.admissions.iastate.edu/apply).

International students are required to show evidence of financial support and to carry adequate health and accident insurance while in residence.

**Admission Examinations**

Graduate Record Examination. The Graduate Record Examination (GRE) is not a university-wide requirement for all applicants. However, many programs require or recommend submission of GRE scores; individual program statements at www.grad-college.iastate.edu/programs/APprograms.php (http://www.grad-college.iastate.edu/programs/APprograms.php) should be consulted for this information.

**Registration**

Graduate students are encouraged to register for courses on the ISU web site (www.iastate.edu (http://www.iastate.edu)) via AccessPlus. Students who are unable or who choose not to register through this system may use a walk-through registration procedure. Students who do not register by the published deadline for initiation of a schedule through the AccessPlus systems must use the walk-through procedure. For complete information on registration, see the ISU Schedule of Classes or the Registration Web site at http://www.registrar.iastate.edu/students.

**Credit Limits**

Registration is limited to a maximum of 15 credits per semester. Schedules for graduate assistants on one-half time appointments are limited to a maximum of 12 credits. For full-time staff members, the limit is 6 credits. (Different credit limits apply during the summer session; see the Graduate College Handbook at www.grad-college.iastate.edu/common/handbook (https://www.grad-college.iastate.edu/handbook) for more details.)

**Interim Registration**

Registration for special work between semesters and during certain vacation periods cannot exceed one credit for each week that the student is in residence. For more information, consult the Graduate College Handbook.

**Grading**

Grades are the permanent official record of a student's academic performance. Iowa State uses A through F grading for most courses. S, P, and NP grades are given in some courses. The standard four-point scale is used to calculate a grade point average.

**Grade Point Average (GPA)**

All courses (even if they are undergraduate courses) taken as a graduate student will be calculated into the graduate GPA. The GPA is determined by dividing the number of grade points earned by the total number of ISU cumulative hours. The grade given when an incomplete (I) is resolved is figured into the cumulative grade point average, but not into a particular semester's average. Marks of I, S, P, NP, T, and X are not counted in the grade point average; a mark of F (even if taken S/F) is counted in the grade point average. Creative Component/Research (599 and 699) credits are not used in the calculation of the GPA. In the case of repeated courses, only the grade achieved the last time the course is taken is used in computing the grade point average. (However, grades in courses that are noted as repeatable courses in the catalog, such as certain repeatable seminars, will all be used in calculating the grade point average.)

**Grading Research and Creative Component Credits**

Creative Component/Research credits may be graded as A, B, C, D, I, S, or F. Plus and minus grades are optional. These credits are not calculated in a student's GPA.

**Pass (P)/Not Pass (NP) Course Credit**

Pass/Not Pass courses are those that a student, with the approval of the major professor, may take for personal enrichment, but not for satisfying prerequisites or deficiencies in the undergraduate background. P/NP marks may not be used in a POS, nor do P/NP marks contribute to the student's GPA. Full credit for P/NP courses is used in calculating tuition assessment and credit load limitations. For more information, see the Graduate College Handbook.

**Satisfactory/Fail (S/F) Grading**

S/F grading is not the same as P/NP grading. S/F grading is by instructor option; all students in a particular course receive S/F grading. P/NP grading is generally a student option. A P mark is equivalent to at least a D grade whereas an S mark is equivalent to at least a B grade at the
graduate level. No special registration procedures are required for S/F grading. An S mark in a course taken S/F is not counted in the grade point average, but an F mark in a course taken S/F is counted in the grade point average and is equivalent to an F in a regularly graded (A-F) course. No more than 20 percent of the total credits (excluding creative component, thesis or dissertation research) in the program of study may be earned on an S/F basis.

S/F grading may be used only for approved courses offered as seminars, symposia, workshops, special topics, and research. Programs must submit requests for S/F grading to the Dean of the Graduate College. The Graduate College Curriculum and Catalog Committee reviews and approves or rejects all S/F courses.

**Grievances about Grades**

A graduate student who feels that a course grade has been unjustly assigned, and whose attempts to resolve the matter with the instructor have failed, may appeal through the grievance procedures described in the Graduate College Handbook.

**Probation**

If a graduate student does not maintain a cumulative 3.0 grade point average on all course work taken, exclusive of research credit, he or she may be placed on academic probation by the Dean of the Graduate College. Grades earned by graduate students in undergraduate courses are included in the calculation of the grade point average. Academic probation judgments are made on the basis of grades in course work only. New, first-term, degree seeking graduate students who fall below a 3.0 GPA at the end of their first semester will be given a one term grace period to bring their grades back to a 3.0 GPA. These students will receive a warning letter from the Graduate College.

While on academic probation a student will not be admitted to candidacy for a degree and if appointed to a graduate assistantship, the student will not receive a Graduate tuition scholarship unless approval is given by the student’s academic college. If a student is to qualify for a tuition scholarship, he/she must be removed from probation by the tenth class day of the term.

To insure that registration does not take place without a review by the program, the Graduate College places a hold on future registrations by a student on probation. Before the student registers for each term, the program must review his or her record and recommend in writing if the Graduate College should permit further registration. Before graduation is approved, the student must complete all courses listed on the program of study with a minimum grade of C and have achieved a 3.0 GPA or greater.

**English Requirements for Non-native Speakers**

Applicants whose native language is not English and who have not earned a bachelor’s or master’s in a country where the only official language is English are required to submit Test of English as a Foreign Language (TOEFL) scores as part of the admission process. A minimum score of at least 79 on the TOEFL internet-based test or 550 on the paper-based test is required by the Graduate College. International students may also submit IELTS (International English Language Testing System) scores in lieu of the TOEFL. The ISU Graduate College minimum is 6.5. Because many programs require higher TOEFL and/or IELTS scores, applicants should check directly with the program to which they desire admission or browse the Graduate College Web site at www.grad-college.iastate.edu to view the requirements.

Graduate students whose native language is not English and who did not graduate from a U.S. institution must take an English Placement Test at the beginning of their first semester of enrollment. This test is administered by the Department of English. A student who does not pass this examination is assigned to one or more courses in the English 99 and 101 series. This course work must be completed during the first year of study. (There is a developmental course fee for the English 99 course.).

Non-native English speaking ISU graduate students who meet or exceed the TOEFL scores (640 or above on the paper-based test or 105 on the internet-based test) are exempted from taking the English Placement Test. (Self-enrollment in English 099 or 101 courses remains possible. A graduate student whose native language is not English but did graduate from a U.S. institution, may bring to the Graduate College the “Request for the Graduate College to Approve the Graduate English Requirement for a Student Whose Native Language is NOT English” form, available from the Graduate College or on the Graduate College’s Web site at https://www.grad-college.iastate.edu/student/forms/. Two conditions must be met: the student must have received a bachelor’s, master’s, or Ph.D degree from a U.S. college or university and the language of instruction at that college or university must have been in English.

New teaching assistants whose native language is not English are evaluated for their ability to communicate effectively in English before their assistantship assignments are made. The Oral English Certification Tests (OECT) are given before the beginning of each semester. The testing dates are announced on the International Teaching Assistants (ITA) program website. Registration for the test is held on line through links posted on the ITA program homepage, https://cce.grad-college.iastate.edu/ita, two to three weeks before the test is administered. TAs and faculty with questions about OECT testing should call 515-294-1958 or 515-294-7996. A prospective teaching assistant who does not pass these tests is required to successfully complete
course work and be retested. English 180 is a series of communication courses designed to help new teaching assistants. Students focus upon pronunciation, listening, question-handling, teaching and lecturing skills, and analyze the culture of U.S. university life. Because enrollment is restricted, TAs cannot register for the courses online through AccessPlus. TAs must go to the ITA Office, 1137 Pearson immediately after they receive the test scores to obtain permission to enter the course by completing a course add slip.

**Department/Program Change**

Transferring from One Major/Program/Department to Another

Students who have been admitted to a graduate program and to the Graduate College may request to transfer at a later date to another department or program. Because graduate students are admitted to particular programs, transfers require the approval of both the receiving program and the Graduate College.

Students seeking transfer to another program or department should first discuss their wishes with the new program DOGE (Director of Graduate Education) to determine requirements and interest by the new program. When a student receives a favorable preliminary response from the new program, he or she should fill out the student portion of the form entitled “Request to Transfer from One/Major/Program/Department to Another” and submit this form to his or her current DOGE. The current DOGE will fill out the Current Program Information adding any comments he or she believes the new program should consider and forward the form to the proposed new program. This form is available from the department, the Graduate College, or the Graduate College web page.

The receiving program will generally give the student the same consideration and employ the same admissions standards that are used for original applications for admission and will expect the same application materials (transcripts, letters of recommendation, test scores, etc). During the process, the new and old programs and the Graduate College are authorized and encouraged to seek and disclose information related to the student’s overall fitness for studies in the receiving program. Programs are authorized to inquire into the student’s prior conduct at the university, both with the prior department and with the Dean of Students.

Upon departmental action (acceptance or denial), the request to transfer form must be sent to the Graduate College for approval. All parties will receive a copy of the completed form from the Graduate College.

Students desiring to transfer from a degree-seeking status to a nondegree-seeking status need to fill out the “Request to Transfer from One Major/Program/Department to Nondegree” form and bring it to the Graduate College.

Students desiring to transfer from nondegree-seeking status to a degree-seeking status must be admitted by a program through the regular graduate admission process.

**Curriculum Change from Active Graduate to Active Undergraduate Status**

Individuals who are in good standing in the Graduate College and who wish to transfer to an undergraduate curriculum must contact the graduate classification officer (1137 Pearson Hall). The classification officer will consult with the student and determine the proper course of action.

**Curriculum Change from Inactive Graduate to Active Undergraduate Status**

Individuals who were admitted to the Graduate College more than one year previous and who do not have active graduate status but who wish to change their status from inactive graduate to active undergraduate, must follow the same procedures required of reentering undergraduate students and must begin the process by filing a completed “Undergraduate Reentry” form with the Office of the Registrar. When considering reinstatement, the undergraduate college may consider the student’s overall fitness for continued studies including information about the student’s conduct, employment and education since the student’s last enrollment.

Individuals who do not have active graduate status and who first enrolled less than one year previous should first see the classification officer in the Graduate College.

**Time Limits**

It is expected that work for the master’s degree shall be completed within five years. In special circumstances the student’s POS committee may recommend that the Dean of the Graduate College extend these degree time limits. Cases in which the student leaves Iowa State during his or her graduate career and later returns are dealt with individually by the student’s POS committee and the Graduate College. The inclusion in the student’s program of study of course work that is beyond the time limits (“over-age” courses) must be justified by the POS committee in a statement accompanying the submission of the program of study.

**Application for Graduation**

Students planning to graduate must complete an “Application for Graduation” form through their online AccessPlus system by the end of the third week of the semester (fall or spring) in which he/she expects to receive the degree, or by the last day of spring semester when wishing to graduate during summer.

Before completing this form, a student must have submitted and had approved by the Graduate College a “Recommendation for Committee Appointment” form and a “Program of Study” form. Also the student must have been fully admitted to a program and have met the Graduate English
required if he/she is a non-native English speaker. Graduation may be delayed if the "Application for Graduation" form filing deadline is not met. If it becomes apparent that a student cannot graduate during the indicated term, he/she can go online through AccessPlus and cancel the previously submitted "Application for Graduation" form by the designated deadline. The student must then complete a new form for the next planned term of graduation.

Thesis. A master's thesis is a scholarly composition that demonstrates the ability of the author to do independent and creative work. A thesis is required in all fields in which a master's degree is awarded, except where specific provision is made for a nonthesis degree program. A minimum of three research credits is required on every program of study for a thesis master's degree.

Responsibility for writing and editing of the thesis rests with the student, under the supervision of the major professor, and not with the Graduate College. The Graduate College does not permit joint authorship of theses. It is the responsibility of the major professor to supervise the preparation of preliminary and final drafts of the thesis to assure the highest level of quality when the student presents the thesis to the committee for final approval.

Copies of the thesis must be submitted to the members of the POS committee at least two weeks before the final oral examination.

All theses and dissertations will be submitted electronically after the final oral examination is held. Please browse the Graduate College's web site (http://www.grad-college.iastate.edu/current/thesis) for requirements, revised fees, and other pertinent information.

Shortly after the submission of the "Application for Graduation" form, a one-time, nonrefundable thesis fee is billed by the university accounting system. In addition, a graduation fee will be assessed by the Registrar's Office. This fee is nonrefundable if a student does not cancel his/her graduation by the Graduate College's cancellation deadline.

Creative Component. Most nonthesis students must present substantial evidence of individual accomplishment (e.g., a special report, capstone course, integrated field experience, annotated bibliography, research project, design, or other creative endeavor). A minimum of two credits of such independent work is required on those programs of study for a nonthesis master's degree. Some programs require more credits. (For more information, contact the individual program or consult the Specific Master's Degrees section in this catalog.) The element of creative independent study must be explicitly identified on the program of study. The format of the creative component is determined in cooperation with the POS committee. As with a thesis, a creative component should be submitted to members of the POS committee two weeks before the final oral examination. However, no final submission of a creative component is turned in to the Graduate College for review and approval.

Final Oral Examination. Most master's candidates must pass final oral examinations. The final oral examination must be held by the final examination deadline date for the semester in which the degree is granted. All coursework in the program of study must either be completed or in progress before the final examination can be scheduled. This examination is oral; it may also include a written component if specified by the student's (POS) committee.

Graduate students must register at Iowa State for the equivalent of two credits, or for the R-credit course if no course work is needed, during the semester in which the final examination is taken. (Graduate students who are not required to take a final oral examination should complete all required coursework on the POS prior to or during the term of graduation. Any transfer credits must be completed the term before the graduation term and follow normal transfer rules.) Taking only an R-credit course where the fee is not equivalent to the 2-credit minimum charge is not acceptable for the term of the final oral examination. If the examination is taken during the interim between terms (including the first day of classes), registration can be for either the term before or the term after the examination is held.

The candidate is responsible for initiating the "Request for Final Oral Examination" form, which must be submitted to the Graduate College at least three weeks before the examination. This form can be obtained only from the student's program/department. The entire POS committee must be convened for the final oral examination. For more information on the final oral examination, see the Graduate College Handbook.

Graduate Student Approval Slip for Graduation. Every candidate for an advanced degree is required to complete a "Graduate Student Approval Slip for Graduation" form. It is sent to the major professor or program to give to the student after the "Request for Final Examination" form is received and approved by the Graduate College. Signatures are required by the major program, the Graduate College Thesis specialist (for those completing a thesis), and the Graduate College. Final clearance of academic requirements will be made when current term grades have been submitted and evaluated by the Graduate College.

All incompletes from previous terms must be completed by the deadline for completion of the Graduate Student Approval Slip. An incomplete or non-report grade that a student receives for the term of graduation will result in removal from that term's graduation list. The student will need to complete a new Application for Graduation and Graduate Student Approval Slip for the new term of graduation. If a conditional pass was recommended at the final oral examination, the major professor and the committee members, if so specified, must notify the Graduate College in
writing no later than the due date for the Graduate Student Approval Slip for the term of graduation that the conditions have been met.

**Undergraduate Admission to Concurrent Graduate Degree/Certificate Programs**

Several programs provide opportunities for qualified ISU juniors and seniors majoring in those curricula to apply for admission to both a bachelor's and master's degree.

The graduate degree will be awarded only at the same time as, or after, the undergraduate degree is conferred. For a complete listing of the concurrent degree programs, consult the Graduate College Handbook, "Concurrent Degree Programs" on page 27 of the Handbook, http://www.grad-college.iastate.edu/common/handbook/.

Students interested in a research career may apply for graduate research assistantships during their last two years of study. Students should contact the graduate programs about applying early in their undergraduate careers. Undergraduate students seeking admission to concurrent graduate degree programs in field other than these, plus any student with an interdepartmental major, must submit the appropriate concurrent form completed and a written proposal for an individualized program, co-signed by their advisers, to the Graduate College for review and approval. For more information about the application process and transferring credits, consult the Graduate College Handbook.

**Veterinary Medicine Students in Concurrent Graduate Degree/Certificate Programs**

Students may be concurrently enrolled in the professional curriculum leading to the D.V.M. degree and in a graduate program leading to the M.S. or Ph.D. degree after completion of 90 semester credits. The graduate program may be in the College of Veterinary Medicine or in another college.

Interested students must adhere to the following process:

- Complete a "Concurrent Enrollment for Graduate/Veterinary Medicine Degrees" form available on the web site at www.grad-college.iastate.edu/common/forms/index.php (http://www.grad-college.iastate.edu/common/forms). This is a combination application/concurrent form.
- Submit the "Concurrent Enrollment Request" form to the Graduate College after appropriate signatures are obtained.

Signed approvals on the concurrent form are required from the graduate program, the College of Veterinary Medicine, and the Graduate College. On admittance, the student receives an admission notification from the Office of Admissions. For more information see the Graduate College Handbook.

**Graduate Students in Concurrent Undergraduate Programs**

Graduate students interested in enrolling in a concurrent undergraduate program should contact the Office of Admissions (100 Enrollment Services Center) to obtain admission information (even if the student has been previously admitted as an undergraduate). An "Application for Graduate Student Wishing to Pursue a Concurrent Undergraduate Degree" form should be obtained from the Graduate College Web site at www.grad-college.iastate.edu/common/forms/index.php (http://www.grad-college.iastate.edu/common/forms) and circulated for the appropriate approvals.

- Official enrollment and fee payment will be as a graduate student.
- The graduate degree or graduate certificate will be awarded only at the same time as, or after, the undergraduate degree is conferred.
- Students interested in a research career may be able to apply for a graduate research assistantship while in a concurrent degree or graduate certificate program.
- Students in concurrent degree programs may, subject to Program of Study Committee approval, double count up to 6 ISU credits of major or nonmajor graduate credits courses for both a Bachelor’s degree and a certificate or a Master’s degree.
- For students pursuing a concurrent undergraduate bachelor’s degree and a graduate certificate, at least 12 graduate credits cannot be double counted and a maximum of 6 graduate credits can be double counted for both the bachelor’s degree and the graduate certificate (when the graduate certificate requires more than 12 credits).
- A student in a bachelor’s and master’s concurrent degree program cannot be on a Ph.D. track during the concurrent program.

A complete list of Concurrent Bachelor and Master Programs or Graduate Certificate Programs can be found in the Graduate College Handbook, pages 30-31.  http://www.grad-college.iastate.edu/common/handbook

**Master’s Degrees**

General requirements for all master’s degrees are as follows:

**General Requirements**

The Graduate College Handbook outlines the general requirements for completion of a graduate degree at ISU. Faculty in a major field have the responsibility for establishing educational objectives for their graduate program, including specific course requirements and research requirements appropriate to the master’s programs in the major. These requirements may place additional responsibilities on the student, the major professor, or the student’s program of study (POS) committee.
Faculty and graduate students are active participants in the academic programs of Iowa State University. As active participants, they have a collective impact on the success of those programs and of the university in fulfilling its mission. Each graduate program is encouraged to implement a mechanism for responding to feedback from graduate students as a valuable resource for continuing improvement.

**Appointment of the Student’s Program of Study (POS) Committee**

New graduate students at ISU may be assigned a temporary academic adviser by the major program in the first semester of the student’s residence. This faculty member guides the student in selection of a field of study and in development of a graduate program of study until the major professor and POS committee are selected. After the POS committee has been selected, it guides and evaluates the student during the remainder of graduate study.

A thesis master’s POS committee consists of at least three members of the graduate faculty. It must include two members, including the major professor, from the major or program. The committee must include member(s) from different fields of emphasis so as to ensure diversity of perspectives. A term member of the graduate faculty may participate in the direction of a student’s master’s research as a co-major professor if a member of the graduate faculty serves as a co-major professor and jointly accepts responsibility for the direction of the program of study. A non-thesis master’s degree needs a minimum of one committee member. Programs may establish requirements for more than one member. For more information on duties and makeup of the committee as well as changes to the committee makeup, see the Graduate College Handbook.

Program of Study. The student and major professor develop the program of study with the consultation and approval of the POS committee. This agreement between the student and the Graduate College should be submitted as early as possible for approval. It is recommended that the committee be formed and the POS form submitted as early as the second semester of graduate study. In no case can the committee and program of study be formed later than the term before the preliminary oral exam for Ph.D students, and the final oral examination for master’s students.

Residency. There is no on-campus residency requirement for the master's degree.

Credits. Unless otherwise noted, at least 30 credits of acceptable graduate work must be completed in all master’s programs. At least 22 graduate credits must be earned from Iowa State University.

Transfer Credits. At the discretion of the POS committee, and with the approval of the program and the Graduate College, graduate credits earned as a graduate student at another institution or through a distance education program offered by another institution may be transferred if the grade was B or better. Such courses must have been acceptable toward an advanced degree at that institution and must have been taught by individuals having graduate faculty status at the institution. If a student wishes to transfer credits from graduate courses taken at or through another university as an undergraduate student, it is the student’s responsibility to provide verification by letter from that institution that these graduate courses were not used to satisfy undergraduate requirements for a degree.

A transcript must accompany the POS in order to transfer credits. The POS committee may ask for other materials, such as a course outline or accreditation of the institution, to evaluate the course. Transfer courses not completed when the POS is submitted must be completed the term before the student graduates. A transcript must then be submitted for review and final approval.

Research credits earned at another institution are generally not transferred. In rare circumstances, the transfer of S or P marks may be accepted for research credits only. It is the responsibility of the POS committee to obtain a letter from the responsible faculty member at the other institution stating that research credits recommended for transfer with S or P marks are considered to be worthy of a B grade or better. Audits may be listed on the program of study, but do not carry credit.

Major. A major is an approved area of study leading to a graduate degree. The exact number of credits in a major is not prescribed.

Minor. Students may request a minor in any program approved to grant a graduate degree and in programs approved to offer only a minor. A student may not minor and major in the same field. Requirements for declared minors are determined by the minor program and the faculty member representing the minor field on the student’s POS committee.

The minor subject area must be tested at the final oral examination and cannot be placed on the transcript after graduation unless it was approved on the program of study, listed on all examination reports, and recorded on the “Application for Graduation” form (diploma slip). A minor cannot be added to a degree that has already been received.

**Specific Master’s Degrees**

The number of credits in a major for a master’s degree will vary according to various degrees. General credit requirements for all master’s degrees include: a minimum of 30 graduate credits is required for all master’s programs at ISU; at least 22 graduate credits must be earned at ISU; any transfer of graduate credits from another institution must be recommended in the program of study by the POS committee; and graduate credit earned as a graduate student will be approved for transfer only if a B grade or better was earned. A transcript must accompany the POS form. A complete listing of specific master’s
degrees can be found in the Graduate Handbook, section E, page 107, http://www.grad-college.iastate.edu/common/handbook/. A complete listing of all master's degrees can also be found online, http://www.grad-college.iastate.edu/academics/gradprograms/index.php.

Master’s Double Degree Programs

A double degree requires fulfillment of the requirements for two graduate majors for which two differently named master's degrees and two diplomas are granted at the same time. For double degrees the final project (thesis or creative component) must integrate subject areas from both departments. One final oral examination must be held covering the combined thesis or creative component. Students planning to pursue double degrees must complete a double degree request form and submit it to the Dean of Graduate College for approval. Just one “Recommendation for Committee Appointment” form and one “Program of Study (POS)” form need to be submitted for the two degrees. However, two “Application for Graduation” forms, one for each degree, will need to be submitted. All forms should show clearly that the student is enrolled in a double-degree program.

Like other master’s programs, three graduate faculty members can constitute a POS committee; however, POS committees for double degrees must include co-major professors from each of the majors. Although specific degree programs may require more, the program of study must include at least 44 hours of non-overlapping credit (22 for each major) in the two degrees.

A complete listing of the Double Degree Programs can be found in the Graduate College Handbook, page 35, http://www.xgrad-college.iastate.edu/common/handbook/.

If a student outside one of the named areas is interested in an individually-developed double degree program, a written proposal for a double degree to serve those interests and needs must be submitted to the Dean of the Graduate College for review. See the Graduate College Handbook for more information.

Drake University Law School/Iowa State University Combined Degree

To provide training in the complementary fields of law, political science, and economics with a minimum amount of academic duplication, special arrangements for combined degree programs have been approved with the Drake University Law School. ISU and Drake offer a combined J.D.-M.A. in political science and J.D.-Ph.D. in economics. Drake Law School students are permitted to transfer the equivalent of nine semester credits of specified law courses to ISU for nonmajor graduate credit. Because of the difference in grading systems, the Law School grades are transferred as passes, provided the student has achieved a grade of C or better in those courses at Drake for the political science program or a grade of B or better for the economics program.

Applicants for either of the combined programs must meet the regular entrance requirements of, and be admitted to, both the Drake Law School and the ISU Graduate College.

Doctor of Philosophy

General Requirements

The degree doctor of philosophy is strongly research oriented. The primary requirements for the degree are:

- high attainment and proficiency of the candidate in his or her chosen field
- development of a dissertation which is a significant contribution to knowledge and which shows independent and creative thought and work
- successful passing of detailed examinations over the field of the candidate's major work, with a satisfactory showing of preparation in related courses. General requirements for Ph.D. candidates follow.

The Graduate College Handbook outlines the general requirements for completion of a graduate degree at ISU. Faculty in a major field have the responsibility for establishing educational objectives for their graduate program, including specific course requirements and research requirements appropriate to the master’s or Ph.D. programs in the major. These requirements may place additional responsibilities on the student, the major professor, or the student’s program of study (POS) committee beyond those listed in the Graduate College Handbook as deemed appropriate to the goals of the major program.

Faculty and graduate students are active participants in the academic programs of Iowa State University. As active participants, they have a collective impact on the success of those programs and of the university in fulfilling its mission. Each graduate program is encouraged to implement a mechanism for responding to feedback from graduate students as a valuable resource for continuing improvement.

Appointment of the Student’s Program of Study (POS) Committee

The POS committee for a doctoral program consists of at least five members of the graduate faculty. It must include at least three members, including the major professor, from within the student’s major or program. The committee must include member(s) from different fields of emphasis so as to ensure diversity of perspectives. A term member of the graduate faculty may participate in the direction of a student’s dissertation research as a co-major professor if a member of the graduate faculty serves as a co-major professor and jointly accepts responsibility for direction of the dissertation.
Changes to POS committee

Recommendations for changes in the POS committee must have the approval of the student, major professor, DOGE, and all committee members involved in the change (committee members who are on Faculty Professional Development Assignments, retired, or resigned do not have to sign) before seeking approval of the Graduate College. These changes must be approved by the Dean of the Graduate College before the preliminary or final oral examination is held. For more information on changes to the committee and to the Program of Study, see the Graduate College Handbook.

Program of Study

The student and the major professor develop the program of study with the consultation and approval of the POS committee. Early selection of a major professor, appointment of a POS committee, and development of a program of study are very important. It is recommended that the committee be formed as early as the second semester of graduate study. In no case can the committee be formed later than the term before the preliminary oral examination.

Credits

A minimum of 72 graduate credits must be earned for a Ph.D. degree. At least 36 graduate credits, including all dissertation research credits, must be earned at Iowa State University. There is no specific university requirement regarding the number of credits to be taken inside or outside the major/program.

Transfer Credits

At the discretion of the POS committee, and with the approval of the program and the Graduate College, graduate credits earned as a graduate student at another institution or through a distance education program offered by another institution may be transferred if the grade was B or better. Such courses must have been acceptable toward an advanced degree at that institution and must have been taught by individuals having graduate faculty status at that institution. If a student wishes to transfer credits from graduate courses taken at or through another university as an undergraduate student, it is that student’s responsibility to provide verification by letter from that institution that those graduate courses were not taken to satisfy undergraduate requirements for a degree.

A transcript must accompany the POS in order to transfer credits. The POS committee may ask for other materials, such as a course outline or accreditation of the institution, to evaluate the course. Transfer courses not completed when the POS is submitted must be completed before the term in which the student graduates. A transcript must then be submitted for review and final approval.

Research credits earned at another institution are generally not transferred. In rare circumstances, the transfer of S or P marks may be accepted for research credits only. It is the responsibility of the POS committee to obtain a letter from the responsible faculty member at the other institution stating that research credits recommended for transfer with S or P marks are considered to be worthy of a B grade or better.

Major

A major is the area of study or academic concentration in which a student chooses to qualify for the award of a graduate degree. Majors are listed at the end of this section of the bulletin. Opportunities also exist for majoring in more than one area of study (co-major or joint major programs).

Minor

Students may request a minor in any program approved to grant a graduate degree and in programs approved to offer only a minor. Requirements for declared minors are determined by the minor program and the faculty member representing the minor field on the student’s POS committee. The minor subject area must be tested at the preliminary oral and final oral examinations. A minor cannot be added to a program of study after the preliminary oral examination has been taken, nor can a minor be placed on the transcript after graduation, unless it was approved on the program of study, listed on all examination reports, and recorded on the “Application for Graduation” form (diploma slip). A student may not minor and major in the same field. A minor cannot be added to a degree that has already been awarded.

Time Limits

A student beginning a Ph.D. degree program at Iowa State with a master’s degree from another institution is expected to complete the Ph.D. within five years, while a student beginning a Ph.D. degree program without the master’s degree is expected to complete the program within seven years. If warranted, the Program of Study (POS) Committee may request by letter that the Dean of the Graduate College extend these time limits. Cases in which the student leaves Iowa State during his or her graduate career and later returns are dealt with individually by the student’s program of study committee and the Graduate College. The inclusion in the program of study of coursework that is beyond the time limits (“over-age” courses) must be justified by the POS committee in a statement accompanying the submission of the program of study.

Preliminary Examination

The Graduate College requires a preliminary oral examination of Ph.D. degree students; most programs add a written portion to the preliminary oral examination. The Ph.D. degree preliminary oral examination rigorously tests a graduate student’s knowledge of major, minor, and supporting subject areas as well as the student’s ability to analyze, organize, and present subject matter relevant to the field. A “Request for Preliminary Examination” form must be submitted to the Graduate
College by the major professor at least two weeks before the proposed date of the examination.

The following conditions should be met before the “Request for Preliminary Examination” form is submitted to the Graduate College: admitted to full admission status in a Ph.D. granting program, approved “Recommendation for Committee Appointment” form, approved POS form, English requirement met, not on probation, time limit not exceeded, qualifying examination (if required by program) passed, and registration for at least the equivalent of 2 credits, or for the R-credit course if no course work is needed, during the term in which the preliminary oral examination is taken. (Taking only an R-credit course where the fee is not equivalent to the 2-credit minimum charge is not acceptable for the term of the preliminary oral examination.)

A preliminary oral examination will not be scheduled for a student on provisional or restricted admission or on academic probation. Upon successful completion of the preliminary oral examination, the student is admitted to candidacy for the Ph.D. degree. If the graduate student fails all or part of the preliminary oral examination, the committee provides two options: gives a not pass and allows the student to retake the examination after six months or gives a not pass and does not allow the student to retake the examination. Six months must elapse between the first attempt and the next. The entire POS committee must be convened for the preliminary oral examination. The preliminary oral examination must be passed at least six months prior to the final oral examination. An exception to the rule is allowed if a request signed by the major professor(s) and the program’s DOGE is approved by the Dean of the Graduate College.

Application for Graduation
Application for graduation should be made by the end of the third week of the semester (fall or spring) in which the student expects to receive the degree, or by the last day of the spring semester if graduation is planned during summer session. To apply for graduation, the student is required to complete an “Application for Graduation” form, available online through the student’s AccessPlus system. Before submitting this form, a student must have submitted and had approved by the Graduate College a “Recommendation for Committee Appointment” form and a “Program of Study” form in the previous semester. Also the student must have been fully admitted to a program and have met the Graduate English requirement. Graduation may be delayed if the “Application for Graduation” filing deadline is not met. If it becomes apparent that a student cannot graduate during the indicated term, he/she can go into AccessPlus and cancel the previously submitted “Application for Graduation” form before the designated deadline. The student must then file a new form for the next planned term of graduation. Late application. A student may file a late Application for Graduation during the fourth and fifth weeks of the semester. Students will be charged a non-refundable $20 late fee for a late application.

Dissertation
A doctoral dissertation must demonstrate conclusively the ability of the author to conceive, design, conduct, and interpret independent, original, and creative research. It must attempt to describe significant original contributions to the advancement of knowledge and must demonstrate the ability to organize, analyze, and interpret data. In most instances, a dissertation includes a statement of purpose, a review of pertinent literature, a presentation of methodology and results obtained, and a critical interpretation of conclusions in relation to the findings of others. When appropriate, it involves a defense of objectives, design, and analytical procedures. Dissertation research should be worthy of publication and should appear in appropriate professional journals or in book form.

Responsibility for writing and editing of the dissertation rests with the student, under the supervision of the major professor, and not with the Graduate College. The Graduate College does not permit joint authorship of dissertations. It is the responsibility of the major professor to supervise the preparation of preliminary and final drafts of the dissertation, so as to assure the highest level of quality when the student presents the dissertation to the committee for final approval. Copies of the dissertation must be submitted to the POS committee at least two weeks before the final oral examination.

All theses and dissertations will be submitted electronically after the final oral examination is held. Please browse the Graduate College’s web site (http://www.grad-college.iastate.edu/current/thesis/) for new requirements, revised fees, and other pertinent information.

Shortly after the submission of the “Application for Graduation” form, a one-time, nonrefundable thesis fee is billed by the university accounting system. In addition, a graduation fee will be assessed by the Registrar’s Office. This fee is nonrefundable if a student does not cancel his/her graduation by the Graduate College’s cancellation deadline.

Final Oral Examination
The Ph.D. final oral examination, conducted after the dissertation is finished, is oral and often limited to a defense of the dissertation. To receive the degree at the end of a given semester, the student must hold the final oral examination before the final oral examination deadline for the semester.

The candidate is responsible for initiating the “Request for Final Oral Examination” form, which must be submitted to the Graduate College at least three weeks before the examination. This form can be obtained only from the student’s program/department. The entire POS committee must
be convened for the final oral examination. For more information on the final oral examination, see the Graduate College Handbook.

**Graduate Student Approval Slip for Graduation**

Every candidate for an advanced degree is required to complete a "Graduate Student Approval Slip for Graduation" form. It is sent to the major professor or program to give to the student after the "Request for Final Examination" form is received and approved by the Graduate College. Signatures are required by the major program. Final clearance of academic requirements will be made when current term grades have been submitted and evaluated by the Graduate College.

All incompletes from previous terms must be completed by the deadline for completion of the Graduate Student Approval Slip. An incomplete, non-report, or grades lower than a C that a student receives for the term of graduation will result in removal from that term's graduation list. The student will need to complete a new Application for Graduation and Graduate Student Approval Slip for the new term of graduation. If a conditional pass was recommended at the final oral examination, the major professor and the committee members, if so specified, must notify the Graduate College in writing no later than the due date for the Graduate Student Approval Slip for the term of graduation that the conditions have been met.
INTERDISCIPLINARY PROGRAMS

Interdepartmental programs are available at both graduate and undergraduate levels. An interdepartmental program is an administrative structure usually not functioning as a department, ordinarily headed by a supervisory committee, and offering a degree with major(s) in that subject area. Interdepartmental programs have been officially approved and may offer courses.

See individual programs for information regarding admission and academic requirements.

Undergraduate Interdisciplinary Programs

Locate information for each program from the A-Z catalog index.

Interdisciplinary Studies

Interdepartmental Undergraduate Major Administered by the College of Liberal Arts and Sciences

A major in interdisciplinary studies is offered in the College of Liberal Arts and Sciences for undergraduate students who have unique interdisciplinary educational goals. The student, a faculty review board, and an academic adviser design the major. Leading to either the Bachelor of Arts or the Bachelor of Science degree, the major includes 36 to 48 credits of coursework chosen to provide a coherent, carefully planned program in an area of interest that bridges two or more departments. This specialized area is identified on the diploma. Learning goals are individually crafted for each proposed major.

A degree in Interdisciplinary Studies may be particularly attractive to students who wish to develop an area of interest based upon one of the College’s cross-disciplinary programs. Areas of interest in Interdisciplinary Studies have included Classical Studies, International Relations, Ecology Studies, African American Cultural Studies, Asian Studies, and U.S. Latino/a Studies.

A student seeking admission to the program in interdisciplinary studies writes a letter of application that explains how the proposed major meets specific educational and learning goals. A faculty review board screens applications. Since students are expected to earn at least 30 credits after they are admitted into the program, the proposal is ordinarily submitted to the review board in the sophomore or junior year. The proposal will be considered if the area of interest properly falls within the College of Liberal Arts and Sciences and if the student’s educational goals cannot be met by a more traditional combination of existing majors, minors, and electives.

The interdisciplinary studies major must satisfy the requirements of the liberal arts and sciences curriculum in the College of Liberal Arts and Sciences. A major emphasizing the humanities or communicative arts normally leads to a B.A.; a major emphasizing the natural or social sciences normally leads to a B.S. Different requirements for the B.A. and B.S. degrees are determined by the nature of the chosen field of study. Courses listed in the individualized major may come from any department of the university with the following restrictions:

1. The selection of courses needs to focus on a single theme and be consistent with the career and educational goals of the student.
2. At least one half of the courses in the major will come from departments within the College of Liberal Arts and Sciences.
3. The courses will be chosen from at least two disciplines.

All courses in the major must be at the 200-level or higher. At least 15 credits must be at the 300-level or higher with at least 6 credits at the 400-level or higher. An average grade of C or better must be earned in 15 credits at the 300-level or higher in the major. To meet the English and communication proficiency requirement, a grade of C or better must be earned in ENGL 250 and in either an advanced English composition course or a course in the major with a significant writing component.

Further information may be obtained from the LAS College Student Academic Services office.

Seed Science Secondary Major

Administered by the Departments of Agricultural and Biosystems Engineering, Agronomy, Horticulture, and Plant Pathology. Must be taken as a secondary major in conjunction with a primary major. The seed science program is designed for students with career interests in one or more aspects of the seed industry. Areas of study focus on seeds including production, conditioning, pathology, physiology, quality control, marketing, and seed plant designs.

Curriculum in Seed Science (Secondary Major)

Total Degree Requirement: 128 cr.

Complete Communication and Library requirements of primary major and 3 cr. from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 302</td>
<td>Business Communication</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 309</td>
<td>Proposal and Report Writing</td>

</tbody>
</table>
Biological Sciences: 7 cr.
BIOL 211 Principles of Biology I 4
& 211L and Principles of Biology Laboratory I
or BIOL 212 Principles of Biology II
& 212L and Principles of Biology Laboratory II
BIOL 313 Principles of Genetics 3
or AGRON 320 Genetics, Agriculture and Biotechnology

Physical Sciences: 8-9 cr.
CHEM 163 College Chemistry 5
& 163L and Laboratory in College Chemistry
or CHEM 177 General Chemistry I
& 177L and Laboratory in General Chemistry I

One of the following:
AGRON 259 Organic Compounds in Plants and Soils 3
BBMB 221 Structure and Reactions in Biochemical Processes 3
CHEM 231 Elementary Organic Chemistry 4
& 231L and Laboratory in Elementary Organic Chemistry

Mathematical Sciences 6 cr.
MATH 140 College Algebra 3
or MATH 150 Discrete Mathematics for Business and Social Sciences

Statistics course 3

Agricultural Sciences: 28-29 cr.
AGRON 181 Introduction to Crop Science 3
or HORT 221 Principles of Horticulture Science
AGRON 182 Introduction to Soil Science 3
AGRON 206 Introduction to Weather and Climate 3
AGRON 217 Weed Identification 1-2
or AGRON 330 Crop and Seed Identification Laboratory
AGRON 281 Crop Physiology 3
AGRON 316 Crop Structure-Function Relationships 3
or HORT 321 Horticulture Physiology
AGRON 354 Soils and Plant Growth 3
TSM 322 Preservation of Grain Quality 3-4
& 322L and Preservation of Grain Quality Laboratory
or TSM 433 Precision Agriculture
6 credits from AGRON, HORT, or TSM (3 credits at 300-400 level) 6

Economics and Business: 9 cr.
ECON 101 Principles of Microeconomics 3
ECON 235 Introduction to Agricultural Markets 3
One course from the following: 3
ACCT 284 Financial Accounting
ECON 102 Principles of Macroeconomics

Seed Science: 16 cr.
AGRON 311 Professional Internship in Agronomy (seed related) 1
or AGRON 491 Seed Science Internship Experience
AGRON 317 Principles of Weed Science 3
AGRON 338 Seed Science and Technology 3
AGRON 421 Introduction to Plant Breeding 3
ENT 376 Fundamentals of Entomology and Pest Management 3

International Perspectives, U.S. Diversity, Humanities, Ethics & Social Sciences (met with primary major).
Remaining credits (student choice).
Because seed science is a secondary major, the courses taken by the student during the first year will vary, depending on the primary major (see typical program for the primary major).

University Studies

Associate Provost for Academic Programs

Certain interdisciplinary courses are offered through university studies, at the discretion of the associate provost for academic programs and upon the advice of the Faculty Senate Curriculum Committee. No major is available in university studies, but credit obtained through university studies offerings may be applied toward a degree in any of the colleges, consistent with the stipulations of the student's curriculum.

Requests to make use of U ST 290 and U ST 490 should be directed to the associate provost for academic programs and should be accompanied by a positive recommendation from the department chairs of the instructor(s) making the request.

Courses primarily for undergraduates:
U ST 101: First Year Seminar I
(1-0) Cr. 1. F.S.
Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.
U ST 101A: First Year Seminar I: Hixson Scholars
(1-0) Cr. 1. F.S.
Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.

U ST 101B: First Year Seminar I: MVP Award
(1-0) Cr. 1. F.S.
Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.

U ST 101C: First Year Seminar I: Science Bound
(1-0) Cr. 1. F.S.
Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.

U ST 101D: First Year Seminar I: Student Athlete Experience
(1-0) Cr. 1. F.S.
Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.

U ST 101F: First Year Seminar I: Academic Program for Excellence (APEX)
Cr. 1. F.S.
Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.

U ST 102: First Year Seminar II
(1-0) Cr. 1. S.
Prereq: U St 101 or instructor permission.
Acceptance/participation in appropriate learning community. Continued exploration of university services, strategies for student success, leadership, and acclimation to university. Exploration of issues associated with learning community focus. Offered on a satisfactory-fail basis only.

U ST 102A: First Year Seminar II: MVP Award
(1-0) Cr. 1. S.
Prereq: U St 101 or instructor permission.
Acceptance/participation in appropriate learning community. Continued exploration of university services, strategies for student success, leadership, and acclimation to university. Exploration of issues associated with learning community focus. Offered on a satisfactory-fail basis only.

U ST 102B: First Year Seminar II: Science Bound
(1-0) Cr. 1. S.
Prereq: U St 101 or instructor permission.
Acceptance/participation in appropriate learning community. Continued exploration of university services, strategies for student success, leadership, and acclimation to university. Exploration of issues associated with learning community focus. Offered on a satisfactory-fail basis only.

U ST 104: Personal Career Development
(2-0) Cr. 2. F.S.
Comprehensive approach to personal career development providing students with the skills and structure to make informed choices about their major and career path. Self-exploration of interests, skills, values, and personality as related to the world of work using a variety of techniques; exploration of majors and occupations; model for major and career decision-making and career goal implementation; exposure to effective job search and interviewing skills and resources.

U ST 105: Carver Academy Seminar: Freshmen
(1-0) Cr. 1. F.
Prereq: Acceptance in Carver Academy Program, George Washington Carver scholarship recipient
Orientation to the university for Carver Academy students focusing primarily on transition and acclimation to the university environment. Individual and group identity development. Life and legacy of George Washington Carver. Offered on a satisfactory-fail basis only. Meets U.S. Diversity Requirement
U ST 106: Carver Academy Seminar: Freshmen
(1-0) Cr. 1. S.
Prereq: Acceptance in Carver Academy Program, George Washington Carver scholarship recipient
Introduction for Carver Academy students to resources at ISU to supplement classroom learning. Exploration of multicultural communities and leadership opportunities at ISU. Offered on a satisfactory-fail basis only.
Meets U.S. Diversity Requirement

U ST 110: International First-Year Experience Seminar
(1-0) Cr. 1. F.S.
Topics to help international students transition to the United States and academic culture, such as culture shock, classroom culture, campus and community resources, learning styles, study skills, basic immigration status and employment benefits, student health and wellness, and research and presentation skills. Offered on a satisfactory-fail basis only.

U ST 205: Carver Academy Seminar: Peer Mentors
(1-0) Cr. 1. F.
Prereq: U ST 106, intended primarily for sophomores
Leadership and peer mentor training for Carver Academy students who will be serving as peer mentors in Carver Academy. Definitions and analysis of diversity in academia. Academic portfolio preparation and career exploration. Offered on a satisfactory-fail basis only.
Meets U.S. Diversity Requirement

U ST 207: Science Bound Pre-Professional Seminar
(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.
Prereq: 102B or instructor permission
Seminar topics prepare sophomore and upper-class students to pursue research and internship experiences in science, technology, engineering and math fields. Offered on a satisfactory-fail basis only.

U ST 290: Independent Study
Cr. arr.
Prereq: Permission of the associate provost for academic programs
Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores.

U ST 301: McNair Program: Introduction to Research I
(2-0) Cr. 2. F.
Prereq: Acceptance to the Iowa State University McNair Program
Introduction to academic research focusing on the initial stages of research with lessons on how to define a research idea, formulate a research question or hypothesis, gather, critique, analyze and synthesize the literature on the subject of inquiry, and understand and be able to apply a number of methodologies to gather data.

U ST 302: McNair Program: Introduction to Research II
(2-0) Cr. 2. S.
Prereq: U ST 301
Continuation of research preparation focusing on methodologies and the relevance to specific research questions, data collection and analysis processes, and scientific research writing and presentation. Lessons on how to determine appropriate methodology and design a scientific protocol, gather and analyze data, and understand findings so as to effectively report and present findings and conclusions.

U ST 303: CALM Life Skills Seminar
(1-0) Cr. 1. F.S.
Prereq: Junior or Senior classification
CALM After the Storm is a course designed to assist student-athletes successfully transition to life after Iowa State University and collegiate athletics. Topics include career preparation, adulthood, life after athletics, and money management. Offered on a satisfactory-fail basis only.

U ST 311: Leaders Seminar I
(1-0) Cr. 1. Repeatable.
For students serving as peer mentor first-year seminar leaders under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.

U ST 311A: Leaders Seminar I: Leaders in Hixson Seminar
(1-0) Cr. 1. Repeatable.
Prereq: U ST 311
For students serving as leaders in Hixson Seminar or MVP Seminar under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.

U ST 311B: Leaders Seminar I: Leaders in MVP Seminar
(1-0) Cr. 1. Repeatable.
Prereq: U ST 311
For students serving as leaders in Hixson Seminar or MVP Seminar under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.

U ST 312: Leaders Seminar II
(1-0) Cr. 1. Repeatable.
Prereq: U ST 311
For students serving as leaders in Hixson Seminar or MVP Seminar under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.

U ST 312A: Leaders Seminar II: Leaders in Hixson Seminar
(1-0) Cr. 1. Repeatable.
Prereq: U ST 311
For students serving as leaders in Hixson Seminar or MVP Seminar under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.
Interdisciplinary Graduate Programs

See individual programs for information regarding admission and academic requirements; or see the Graduate College or specific program page for more information.

Biorenewable Chemicals
Administered by the Center for Biorenewable Chemicals (CBiRC)

The core mission of the NSF Engineering Research Center for Biorenewable Chemicals (CBiRC) is to transform the chemical industry by integrating biological and chemical catalysis systems to create a generalized framework for producing biorenewable chemicals. The minor in Biorenewable Chemicals allows students from a variety of allied disciplines to understand the opportunities for developing biorenewable chemicals through a combination of biocatalytic and chemical catalysis steps. In addition to coursework in core technical areas, students in the minor get explicit entrepreneurial training, a background in the general issues related to production and processing of biorenewable resources, exposure to the economic and environmental realities of the chemical industry. Students in the minor are disciplinary experts (in programs such as Chemical Engineering, Chemistry, and Biochemistry, Biophysics, and Molecular Biology) who are interdisciplinary trained to become globally competitive graduates capable of developing integrated chemical/biological processing systems.

Courses primarily for graduate students, open to qualified undergraduates:

BR C 506: The Evolving Chemical Industry
(1-0) Cr. 1.
An overview of the chemical industry including structure and its evolution. Discussion of the dynamics of recent introduction of biorenewable chemicals to the chemical industry.

BR C 507: Technology-Led Entrepreneurship in Biorenewables
(Cross-listed with BRT). (1-0) Cr. 1. S.
Prereq: Graduate Standing or Permission of Instructor.
Develop an understanding of the relationship between discovery research entrepreneurship and innovation in biorenewables. Understand critical techno-commercial analyses and intellectual property. Learn critical skills needed to found a company, including how to define key assets, write a business plan, leverage local resources, and secure funding.

BR C 590: Special Topics
(2-0) Cr. 2.
Special topics in biorenewable chemicals.
BR C 590K: Special Topics: K-12 Science Education. 
(2-0) Cr. 2. F.S.S.
Understanding of Discovery Research for sixth through 12th grade science teachers. Design, methods and analysis of research associated with biorenewable energy systems. Science teachers will be introduced to the value of scientific inquiry, elements of engineering design, 21st century careers in science, technology, engineering and math (STEM) and how high school students need to be prepared for these careers.

Courses for graduate students:

BR C 688: Catalysis and Catalytic Processes
(Cross-listed with CH E). (3-0) Cr. 3.
Prereq: CH E 382
Principles and applications of heterogeneous and homogeneous catalysis. Adsorption. Reaction kinetics and mass transfer effects. Catalyst characterization. Industrial catalytic processes.

Biorenewable Resources and Technology

Interdisciplinary Graduate Program

The graduate program in Biorenewable Resources and Technology (BRT) offers students advanced study in utilizing plant and crop-based resources in the production of biobased products (fuels, chemicals, materials, and energy). The BRT program was the first graduate program in biorenewable resources established in the United States.

This multi-disciplinary program offers the degrees of master of science and doctor of philosophy in Biorenewable Resources and Technology, and a minor to students taking major work in other departments. Students admitted to the Biorenewable Resources and Technology interdepartmental graduate program may pursue MS, Ph.D., or a Ph.D. minor degree. Additionally a 12 credit hour BRT Graduate Certificate is offered online. The home department of any BRT student is the department of the student’s major professor, who serves as the Chair of the student’s Program of Study (POS) Committee.

The curriculum is designed to encourage students to obtain co-major degrees in Biorenewable Resources and Technology and a more traditional science or engineering discipline. A thesis is required for the master of science degree. Over 160 ISU faculty affiliated members, 29 departments in all seven colleges and 20 research centers and institutes are involved in this highly interdisciplinary graduate program. A complete and up-to-date listing is maintained at: http://www.biorenew.iastate.edu.

Master of Science

The Master of Science degree in Biorenewable Resources and Technology requires 32 credits: a minimum of 8 credits of core required courses; 9 credits of core elective courses representing at least 3 of the 4 barrier areas identified by the United States Department of Energy (DOE); at least 9 credits of research; and an additional 6 credits selected from elective courses (including additional research credit). Prerequisite to major graduate work is a bachelor’s degree or prior graduate training in engineering or a physical or biological discipline, including agricultural sciences.

The core required courses (8 credits min. required) for the Biorenewable Resources and Technology graduate program include:

Core electives in 3/4 barrier areas approved list* | 9
Research | 9
Electives or Research | 6
Total Credits | 32

*Students must complete approved core elective courses from at least three of the four bioeconomic development barrier areas: plant science, production, processing, and utilization. These are selected in consultation with the student’s Program of Study (POS) committee. Additionally, students are to complete the determined amount of elective credits required for their degree, and in consultation with their POS committee, as well as research credits.

Graduates of the program will be equipped with skills to design, develop and/or manage cost effective and environmentally attractive technologies and systems for producing fuels, chemicals, materials, foods and energy from biorenewable resources.

Doctor of Philosophy (PhD) Degree

The Ph.D. degree in Biorenewable Resources and Technology requires 72 credits. A minimum of 8 credits of core required courses; 18 credits of core elective courses representing at least 3 of the 4 barrier areas identified by the United States Department of Energy (DOE); at least 22 credits of research; and an additional 24 credits selected from elective courses (including additional research credit).

One credit from the following: | 1
**Graduate Certificate**

Through a series of 12 credit hours of graduate coursework, the Biorenewable Resources and Technology certificate will offer students from a wide variety of science and engineering backgrounds an exposure to advanced study in the use of plant- and crop-based resources for the production of biobased products, including fuels, chemicals, materials, and energy. The program aims to train professionals to serve the emerging bioeconomy, and in so doing to serve state, national, and global needs in moving toward a more sustainable industrial economy. See certificate details: [http://www.elo.iastate.edu/graduate-certificates/biorenewable-resources-and-technology-graduate-certificate-online/](http://www.elo.iastate.edu/graduate-certificates/biorenewable-resources-and-technology-graduate-certificate-online/).

**Courses primarily for graduate students, open to qualified undergraduates:**

**BRT 501: Fundamentals of Biorenewable Resources**  
(3-0) Cr. 3. S.  
Prereq: Previous coursework in introductory physics and chemistry is recommended.  
Introduction to the science and engineering of converting biorenewable resources into bioenergy and biobased products. Survey of biorenewable resource base and properties; description of biofuels and biobased products; production of biorenewable resources; processing technologies for fuels, chemicals, materials, and energy; environmental impacts; techno-economic analysis of production and processing; and biofuels policy.

**BRT 506C: Biobased Products Seminar: Research Presentations**  
(1-0) Cr. 1. F.S.  
Research presentations throughout the semester as part of the course seminar series and during the course. Research Poster Symposium at the end of the semester. Typically taken in the last semester(s) when completing degree program. Offered on a satisfactory-fail basis only.

**BRT 507: Technology-Led Entrepreneurship in Biorenewables**  
(Cross-listed with BR C). (1-0) Cr. 1. S.  
Prereq: Graduate Standing or Permission of Instructor.  
Develop an understanding of the relationship between discovery research entrepreneurship and innovation in biorenewables. Understand critical techno-commercial analyses and intellectual property. Learn critical skills needed to found a company, including how to define key assets, write a business plan, leverage local resources, and secure funding.
BRT 511: Bioprocessing and Bioproducts
(3-0) Cr. 3. F.
Prereq: A E 216 or equivalent, MATH 160 or MATH 165, one of CHEM 167 or higher, BIOL 173 or BIOL 211 or higher or BRT 501, senior or graduate classification

BRT 513: Biorenewables Supply Chain Management
(Cross-listed with SCM). Cr. 3. Repeatable, maximum of 1 times. S.
Prereq: Graduate Standing or Qualified Undergraduate with Instructor Permission
Evaluation of supply chain logistics related to the field of biorenewables. Unique challenges associated with the biorenewables supply chain are emphasized and examined: cost analysis, market demand & prices, life cycle analysis, environmental impacts, as well as the technological, social, and political factors related to society.

BRT 515: Biorenewables Law and Policy
(Cross-listed with POL S). (3-0) Cr. 3. F.
Evaluation of the biorenewables field as it relates to the areas of law and policy. Primary emphasis on the following topics: concerns that motivated the development and expansion of the biorenewables field, a history of the interactions between biorenewable pathways. U.S. law and policy and controversies that have arisen from these interactions and their effects.

BRT 516: International Biorenewables Law & Policy
(Cross-listed with POL S). (3-0) Cr. 3. S.
Evaluation of the international biorenewables field as it relates to the areas of law and policy. Primary emphasis on the following topics: concerns that motivated the development and expansion of the field by adopting countries, a history of the interactions between biorenewable pathways. Law and policy in adopting countries and international controversies that have arisen from these interactions and their effects.

BRT 535: Thermochemical Processing of Biomass
(Cross-listed with M E). (3-0) Cr. 3. S.
Prereq: Undergraduate course work in thermodynamics and transport phenomena
Introduction to thermal and catalytic processes for the conversion of biomass to biofuels and other biobased products. Topics include gasification, fast pyrolysis, hydrothermal processing, syngas to synfuels, and bio-oil upgrading. Application of thermodynamics, heat transfer, and fluid dynamics to bioenergy and biofuels.

BRT 590: Special Topics
Cr. 1-3. Repeatable. F.S.SS.
Prereq: Permission of instructor
Investigation/study of an approved barrier area(s) topic on an individual basis. Course content and requirements designed and developed in consultation with the student’s major professor/instructor to determine barrier areas covered, but in all cases a formal report should be written.

BRT 592L: Biorenewable Resources Laboratory
(0-3) Cr. 1. F.S.SS.
Prereq: Graduate student status. Undergraduates with instructor approval
An introduction to hands-on experimental laboratory techniques including laboratory safety, calibration, proper usage of chemistry apparatus, chemicals, analytical equipment, and fundamental techniques to ensure successful research.

Courses for graduate students:

BRT 611: Advanced Food Processing
(Cross-listed with FS HN). (3-0) Cr. 3. F.
Prereq: FS HN 311, or FS HN 471/472 or equivalent, or FS HN 511.
Recent advances in the science and technology of food processing and preservation; examples include both thermal and non-thermal processes, including cold plasma, nanotechnology, food packaging, and extrusion. Advances in extraction and separation technologies, waste management, by-product utilization, biorenewables and sustainability in the food processing industry will also be discussed. Students to research on select topics and present.

BRT 699: Research
Cr. arr. Repeatable. F.S.SS.
Prereq: Permission of student's major professor

**Dietetics - Graduate Program**

**Interinstitution Graduate Program**

Participating institutions: Iowa State University; Colorado State University; Kansas State University; Michigan State University; Montana State University; North Dakota State University; Oklahoma State University; South Dakota State University; University of Kansas Medical Center; University of Nebraska.

Dietetics is an interinstitutional distance education program offered through the Web. The student selects a home institution, which grants the degree. After admission at the home institution, the student takes courses from each of the ten institutions: Iowa State University, Colorado State University, Kansas State University, Michigan State University, Montana State University, North Dakota State University, Oklahoma State University, South Dakota State University, Kendra Kattelman, University of Kansas Medical Center, and University of Nebraska.
At Iowa State University, Dietetics is a specialization within the Master of Family and Consumer Sciences degree program (MFCS-Diet) that consists of 36 credits. This is a non-thesis option and a special project or creative component is required. Students typically complete the program in 6-8 semesters while employed full-time. Admission is limited to those who are Registered Dietitians or Registration-eligible Dietitians. A computer with minimum specifications, web access, and an email address are required for completing the program.

The department cooperates in the interinstitution Master of Family and Consumer Sciences program to offer a specialization in Dietetics. The Master of Family and Consumer Sciences-Dietetics is designed for the Registered Dietitian or Registration-eligible Dietitian. The 36 credit program is non-thesis and seeks to develop research skills, stimulate independent thought, and provide up-to-date knowledge in foods, nutrition, and foodservice/business management. This program prepares individuals to integrate and apply the principles from the biomedical sciences, human behavior, and management to design and lead effective food and nutrition programs in a variety of settings. Students may build a program of study from offerings of the partner institutions such as human nutrition, nutrient metabolism, biostatistics, health promotion/disease prevention, foodservice systems management, food science, lifespan nutrition, wellness, entrepreneurship, nutrition education, nutritional assessment and food safety. The online program is tailored for credentialed, practicing dietetics professionals who seek to enhance their knowledge in a specific area of dietetics practice or retool for new career opportunities in dietetics practice.

Admission procedures: Admission to the MFCS-Diet program requires exactly the same procedures as admission to the Graduate College. See Graduate College section of this catalog.

Registration: Students choosing to receive their degree from Iowa State University complete all the admissions, registration and fee payment processes through ISU.

Courses primarily for graduate students, open to qualified undergraduates:

**DIET 511: Research Methods**
(3-0) Cr. 3. F.S.
*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*
An overview of diverse research approaches focusing on methods for collecting and analyzing quantitative and qualitative data. www only. Only one of DIET 511 or FCEDS 511 may count toward graduation.

**DIET 524: Financial Management and Cost Controls**
(3-0) Cr. 3. SS.
*Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Overview of the fundamental knowledge of financial management, managerial accounting, and operational cost controls for dietetics professionals. Topics include a review of managerial accounting concepts for not-for-profit organizations and for-profit organizations based on the Uniform System of Accounts, value and risk analysis, budgeting, asset management, franchising and management contracts, cost-volume-profit analyses, and operational applications for financial performance.

**DIET 526: Obesity Across the Lifespan**
(3-0) Cr. 3. F.
Exploration of the affects that obesity has on public health, the healthcare system, and society in general. Overview of strategies to prevent obesity across the lifespan.

**DIET 530: Nutrition in Wellness**
(3-0) Cr. 3. S.
*Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Addresses wellness promotion through nutrition. Nutritional risk and protective factors will be examined in relation to public health and individual nutrition. www only.

**DIET 532: Maternal and Child Nutrition**
(3-0) Cr. 3. Alt. SS., offered even-numbered years.
*Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Critical examination of behavioral, physiological, and public health issues impacting dietary and nutritional factors that support normal growth and development. Content focuses on early stages of the life cycle: gestation, lactation, infancy, preschool, school age, and adolescence. www only.

**DIET 538: Nutrition: A Focus on Life Stages**
(3-0) Cr. 3. F.Alt. SS., offered odd-numbered years.
*Prereq: enrollment in GP-IDEA MFCS in Dietetics*
Explores influence of normal physiological stresses on nutritional needs throughout the life span. Evaluates dietary intake and identification of appropriate community nutrition services in on-line discussions. Specific considerations, such as the influence of age and cultural heritage, are incorporated. www only.

**DIET 540: Nutrition and Physical Activity in Aging**
(Cross-listed with GERON). (3-0) Cr. 3. F.
WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.
DIET 544: Pediatric Clinical Nutrition
(3-0) Cr. 3. F.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Examines the physiological, biochemical and nutritional aspects of disease processes relevant to infants and children up to 18 years of age. Discussion of medical nutrition therapy for a variety of medical conditions in this population including inborn errors of metabolism, food hypersensitivity, obesity, and diseases of the major organ systems. www only.

DIET 546: Phytochemicals
(3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Overview of phytochemicals (non-nutritive biologically active compounds) from fruits, vegetables, cereals and oilseeds. Covers recent findings of chemistry, physiological functions, and potential health implications of phytochemicals. www only.

DIET 547: Functional Foods in Chronic Disease Prevention
(3-0) Cr. 3. Alt. F., offered odd-numbered years.
Examination of nutritional science, food science, regulatory principles, and nutrient metabolism to understand and explain functional foods, nutraceuticals, and dietary supplements. Additionally students will evaluate the biochemical basis, technologies, legal requirements, and clinical assessment in the marketplace.

DIET 548: Advanced Nutrition: Macronutrients
(3-0) Cr. 3. SS.
Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics
Integration of the molecular, cellular and physiological aspects of macronutrients and energy metabolism in mammalian systems. Dietary energy, carbohydrates, fiber, lipids, proteins, their interactions, metabolic consequences, and major research methodologies. www only. Only one of DIET 558 or NUTRS 501 may count toward graduation.

DIET 550: Advanced Medical Nutrition Therapy
(3-0) Cr. 3. SS.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention directed to medical nutrition needs of patients in the treatment of each disease state. www only. Only two of DIET 560 or NUTRS 561, 564 may count toward graduation.

DIET 555: International Nutrition and World Hunger
(3-0) Cr. 3. F.
Prereq: enrollment in GP-IDEA MFCS in Dietetics
Identification and assessment of malnutrition in low-income countries. Social, cultural, political, economic, and geographic determinants of malnutrition. Protein-energy malnutrition, vitamin and mineral deficiencies. Intervention approaches; international efforts and local sustainability. www only.

DIET 556: Nutrition Counseling and Education Methods
(Cross-listed with FS HN). (2-2) Cr. 3. F.
Prereq: FS HN 361 and FS HN 362
Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

DIET 558: Advanced Nutrition: Micronutrients
(3-0) Cr. 3. S.SS.
Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics
The course features interrelationships of micronutrients in terms of biochemistry, physiology, genetics, and nutrition. Emphasis of the course is on developing understanding of how the coordination of structure and function is related to metabolic needs of the cell and its response to the environment. This integrated approach forms the basis for evaluating the micronutrient needs of humans in both normal and altered metabolic states. Only one of DIET 556 or NUTRS 502 may count toward graduation.
DIET 569: Dietary and Herbal Supplements  
(3-0) Cr. 3. SS.  
Prereq: Enrollment in GP-IDEA MFCS in Dietetics  
Develop skills to partner with patients in making dietary supplement decisions. Explore the safe, efficacious use of botanicals and supplements in nutritional support of aging, maternal health and wellness. Discussions on supplementation in the prevention and treatment of chronic disease include: arthritis, cancer, cardiovascular, diabetes, digestive, liver and renal disorders.

DIET 570: Nutrition and Human Performance  
(3-0) Cr. 3. S.  
Prereq: enrollment in GP-IDEA MFCS in Dietetics  
Develop an understanding of nutrition based on knowledge of the biochemical and physiological process and functions of specific nutrients in meeting nutritional requirements. Emphasis on the relationship of optimal nutrition and physical efficiency and performance. www only.

DIET 571: Leadership in Dietetics  
(3-0) Cr. 3. SS.  
Using leadership theories to develop the fundamental concepts and skills to bridge the gap between theory and practice. Students will be able to successfully evaluate classic and contemporary leadership theories, investigate current leadership trends and identify positive applications in the dietetics community.

DIET 572: Current Issues and Trends  
(3-0) Cr. F.S.  
Prereq: enrollment in GP-IDEA MFCS in Dietetics  
Overview of current topics, issues, and trends in dietetics practice. www only.

DIET 573: Healthcare Administration  
(3-0) Cr. Alt. SS., offered even-numbered years.  
Prereq: enrollment in GP-IDEA MFCS in Dietetics  
A comprehensive review of today's health care institutions and their response to the economics, social, ethical, political, legal, technological, and ecological environments. www only.

DIET 574: Nutrition and Immunology  
(3-0) Cr. Alt. S., offered odd-numbered years.  
Principles and issues related to nutrition and immunology. Impact of nutrients and nutritional status on immune responses. Impact of disease states on nutritional status.

DIET 595: Grant Writing for the Professional  
(Cross-listed with FS HN). (3-0) Cr. 3. SS.  
Prereq: enrollment in GP-IDEA MFCS in Dietetics  
Grant writing, identifying external funding, managing grants, preparing manuscripts for peer-reviewed publication, and preparing papers and poster for presentation at professional meetings.

DIET 597: Nutritional Aspects of Oncology  
(Cross-listed with FS HN, NUTRS). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
Prereq: B.S. in nutrition, dietetics, biology, or related discipline.  
Understanding of basic cancer biology and methodology used to study nutrition and cancer relationships. Using current research as a basis, the role of nutrition in specific cancers will be explored. Students will learn about sources of information for cancer prevention programs, and how to apply this information to clinical patient management.

DIET 598: Clinical Aspects of Nutrition Support  
(3-0) Cr. 3. S.  
Prereq: Enrollment in GPIDEA - Dietetics program  

DIET 599: Creative Component  
Cr. arr. Repeatable. F.S.SS.  
Prereq: Enrollment in GPIDEA MS Dietetics  
For non-thesis option only.

Ecology and Evolutionary Biology  
Interdepartmental Graduate Major  
The Ecology and Evolutionary Biology (EEB) interdepartmental major is offered through ten departments – Agronomy; Anthropology; Ecology, Evolution and Organismal Biology; Entomology; Genetics, Development and Cell Biology; Geological and Atmospheric Sciences; Horticulture; Mathematics; Natural Resource Ecology and Management; Plant Pathology; and Statistics. Faculty in these departments cooperate to offer courses and direct research leading to MS and PhD degrees with a major in Ecology and Evolutionary Biology.

The EEB major is designed for students interested in the study of mechanisms controlling the composition, structure, and functional processes of ecological systems and the mechanisms that regulate the pattern and rate of evolutionary change within and among species. Applicants should have completed an undergraduate or master's of science or art degree in one of the biological, physical, or mathematical
Ecology and Evolutionary Biology

Applicants also should have taken undergraduate courses in both basic ecology and evolution.

The EEB curriculum includes a core course, seminar courses, and an extended field trip. Cooperating departments provide courses and research opportunities in the following areas:

- Conservation and Restoration Ecology;
- Environmental Statistics, Stochastic Modeling, and Quantitative Ecology and Evolution;
- Evolutionary Ecology;
- Landscape Ecology, Modeling, and Spatial Dynamics;
- Natural Resources Ecology and Management;
- Physiological and Behavioral Ecology;
- Population, Community, and Ecosystems Ecology;
- Population, Quantitative, and Evolutionary Genetics; and
- Systematics, biodiversity, and biogeography.

In addition, offerings are available in the ethics and practice of research in the biological sciences as well as in science communication (both written and oral).

Students majoring in EEB are trained for careers focused on basic or applied ecology and evolutionary biology in a variety of settings, including academia, government, industry, and private organizations. Graduates have a broad understanding of ecology and evolutionary biology, experience designing and conducting research, writing grant proposals, and communicating effectively with scientific colleagues at meetings and through publications.

Information on admission procedures (https://eeb.iastate.edu/admissions), academic requirements (https://eeb.iastate.edu/academics), and faculty research areas (https://eeb.iastate.edu/dir/faculty) is available on the EEB website (http://www.eeb.iastate.edu).

Courses primarily for graduate students, open to qualified undergraduates:

EEB 511: Conceptual Foundations in Ecology and Evolutionary Biology
(3-2) Cr. 4. F.
Prereq: Graduate classification
Introduction to key figures and ideas that have shaped the development of ecology and evolutionary biology. Covers major developments in ecology and evolutionary biology at five levels of biological organization: Genome, Organism, Population, Community, and Ecosystem. Impacts of these developments on current approaches to investigation and argument formulation. Effects of technological advances on the direction of scientific investigations. Introduction to analytical skills important for critical thinking in ecology and evolutionary biology and the impact of accepted lines of scientific reasoning on the objectives and conduct of research, such as explanation and prediction, design of studies as experimentation, and structured or unstructured observation.

EEB 585: Extended Field Trip
Prereq: Graduate classification, permission of instructor
Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.

EEB 585A: Extended Field Trip: Pre-Trip Lecture
Prereq: Graduate classification, permission of instructor
Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.

EEB 585B: Extended Field Trip: Travel
Prereq: Graduate classification, EEB 585A and permission of instructor
Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.

EEB 590: Special Topics
Cr. 1-3. Repeatable. F.S.SS.
Prereq: Graduate classification and permission of instructor
For students wishing to conduct in-depth study of a particular topic in ecology and evolutionary biology.

Courses for graduate students:

EEB 698: Seminar
(1-0) Cr. 1. Repeatable. F.S.
Reports and discussion of recent research and literature.

EEB 699: Research
Cr. arr. Repeatable. F.S.SS.
Thesis and dissertation research.
Engineering Management

Engineering Management Master’s Degree Online

The Engineering Management Program focuses on developing an individual’s engineering, science and management skills so they can succeed in a technology driven environment. There is a growing need for engineers that can build multi-disciplinary design teams, then lead those teams to solve technical and business challenges. The Iowa State University Master of Engineering in Engineering Management Program is designed to train leaders who can meet both the technical and managerial challenges in developing modern complex engineered systems. The program can be completed on line or in residence, part-time or full-time.

Admission Requirements

Unrestricted admission requires (1) a 3.0 grade point average from an ABET accredited undergraduate engineering program, (2) two years of engineering experience or current full-time employment as an engineer, (3) calculus, engineering statistics, and engineering economy. A GRE is not required for this program.

Applicants for admission to the Engineering Management Program apply through the Graduate College at Iowa State University. Each applicant must submit:

• Application and application fee
• Official academic transcripts
• Three letters of recommendation
• Resume

Applications should be submitted as early as possible before the beginning of the semester for which admission is sought. Individuals may also take up to 9 credits at Iowa State as a non-degree seeking student and then transfer them to the program when they are admitted. (http://www.elo.iastate.edu/how-elo-works/admission-and-enrollment)

The Master of Engineering in Engineering Management Program at Iowa State University is focused on supporting working professionals so teaching or research assistantships typically are not available.

Genetics and Genomics

Graduate Major

Work is offered for the master of science and doctor of philosophy degrees with a major in Genetics and Genomics in fourteen cooperating departments: Agronomy; Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Ecology, Evolution and Organismal Biology; Entomology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Horticulture; Materials Science and Engineering; Plant Pathology and Microbiology; Natural Resource Ecology and Management; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

Students are admitted by the approval of the Chair after review by the Genetics and Genomics Admissions Committee. Students are admitted either to participate in research rotations with several faculty before deciding on a major professor and laboratory, or by direct admission into a specific lab and department. First year students participating in rotations with Genetics and Genomics faculty will take GENET 697 Graduate Research Rotation.

The diversity of faculty in the Genetics and Genomics major ensures a broad, well-balanced education from the best instructors, while offering flexibility in choice of research area. Genetics and Genomics faculty have strengths in many areas, from fundamental studies at the molecular, cellular, organismal, and population levels, to research with immediate practical application. Ongoing research projects span all the major areas of theoretical and experimental genetics, including genomics, molecular studies of gene regulation, gene mapping, genetics of disease, transposable element studies, developmental genetics, quantitative and statistical genetics, computational molecular biology, evolutionary genetics, and population genetics.

Undergraduate Preparation

Undergraduates wishing to prepare for graduate study in Genetics and Genomics should elect courses in basic biology, chemistry at least through organic chemistry, one year of college-level physics, mathematics at least through calculus, at least one thorough course in basic transmission and molecular genetics, one semester of upper
level statistics and one semester of upper level biochemistry. Incoming students who have not completed an upper level statistics course and an upper level biochemistry course prior to beginning in the program will take STAT 587 Statistical Methods for Research Workers and BBMB 404 Biochemistry I during their first year of graduate training. A waiver may be requested for these courses by providing appropriate documentation (catalog description and syllabus) to the curriculum committee showing completion of an upper level statistics and upper level biochemistry course equivalent to STAT 587 Statistical Methods for Research Workers and BBMB 404 Biochemistry I.

See information from the College of Agriculture and Life Sciences or the College of Liberal Arts and Sciences for information on a bachelor of science degree in Genetics.

All Ph.D. candidates take a core curriculum comprising one course each from the following four categories and attend seminars and workshops as described:

**Transmission Genetics**
- GDCB 510 Transmission Genetics

**Molecular Genetics**
- GDCB 511 Advanced Molecular Genetics

**Quantitative, Population, and Evolutionary Genetics**
- AN S 561 Population and Quantitative Genetics for Breeding
- AGRON 561 Population and Quantitative Genetics for Breeding
- EEOB 562 Evolutionary Genetics
- EEOB 563 Molecular Phylogenetics
- EEOB 566 Molecular Evolution
- EEOB 567 Empirical Population Genetics
- GDCB 536 Statistical Genetics

**Genomics, Bioinformatics and Statistical Genetics**
- AN S 556 Current Topics in Genome Analysis
- BCB 544 Fundamentals of Bioinformatics
- STAT 516 Statistical Design and Analysis of Gene Expression Experiments
- STAT 581 Analysis of Gene Expression Data for the Biological Sciences
- BCB 567 Bioinformatics I (Bioinformatics Algorithms)
- BCB 568 Bioinformatics II (Statistical Bioinformatics)
- BCB 569 Bioinformatics III (Structural Bioinformatics)
- BCB 570 Bioinformatics IV (Systems Biology)
- EEOB 561 Evolutionary and Ecological Genomics
- COM S 549 Advanced Algorithms in Computational Biology

**COM S 551**  Computational Techniques for Genome Assembly and Analysis

Students will give three research presentations (GENET 690 Graduate Student Seminar in Genetics), attend two genetics and genomics faculty seminar series (GENET 691 Faculty Seminar in Genetics), and participate in two Workshops in Genetics and Genomics (GENET 591 Workshop in Genetics) during their graduate training. First-year graduate students will take GENET 692 Conceptual Foundations of Genetics.

Students may elect a computational molecular biology specialty within the genetics major. This requires that the research project be in the field of computational molecular biology. IG2 majors will be expected to complete all of the courses required for the genetics and genomics major, except that one semester of BCB 690 Student Seminar in Bioinformatics and Computational Biology can be substituted for GENET 690 Graduate Student Seminar in Genetics. Students will be expected to take additional courses in the area of specialization.

M.S. students will take the above core courses and seminars with the following changes: participate in one Workshop in Genetics (GENET 591 Workshop in Genetics) and present their research once (GENET 690 Graduate Student Seminar in Genetics). Additional coursework may be selected to satisfy individual interests or departmental requirements.

The course designator Genet applies to graduate courses taught by the interdepartmental major in Genetics and Genomics.

Students wishing to minor in genetics and genomics must submit a complete application to the graduate program. Requirements for the successful completion of a minor at the Ph.D. or M.S. levels are: completion of three of the four categories of the common-core required lecture courses listed above. One semester of Seminar in Genetics is recommended.

**GENET 690**  Graduate Student Seminar in Genetics  1
**GENET 691**  Faculty Seminar in Genetics  1
**GENET 692**  Conceptual Foundations of Genetics  1

One member of the POS committee must be a Genetics faculty member.

Student Outcomes: Most students awarded doctoral degrees continue their training as postdoctoral associates at major research institutions in the U.S. or abroad in preparation for research and/or teaching positions in academia, industry, or government. A few go directly to permanent research positions in industry. Many students awarded master’s degrees continue their training as doctoral students; however, some choose research support positions in academia, industry, or government. A more thorough list of outcomes is available at our web site.
Courses primarily for graduate students, open to qualified undergraduates:

**GENET 539: Ethics and Biological Sciences**
(2-0) Cr. 2. Alt. S., offered odd-numbered years.
Introduction to Bioethics through case studies, discussion of contemporary work on central bioethics topics, and discussion of important emerging ethical issues associated with recent research or technological development. Issues covered will vary somewhat from year to year, but will include at least some of the following: ethics and responsible research practice, animal ethics and the use of animals in teaching and research, cloning, human reproductive and stem cell research, regulation of genetically modified crops and foods, plant biotechnology, gene patents. Students will be divided into groups to develop their own case study, to be presented in class at the end of the term. Offered on a satisfactory-fail basis only.

**GENET 590: Special Topics**
Cr. arr. Repeatable. F.S.S.S.
Contact individual faculty for special projects or topics. Graded.

**GENET 591: Workshop in Genetics**
(1-0) Cr. 1. Repeatable. F.
*Prereq: Permission of instructor*
Current topics in genetics research. Lectures by off-campus experts. Students read background literature, attend preparatory seminars, attend all lectures, meet with lecturers.

Courses for graduate students:

**GENET 690: Graduate Student Seminar in Genetics**
(1-0) Cr. 1. Repeatable. F.S.
*Prereq: Permission of instructor*
Research presentations by students to improve their ability to: orally present scientific work in a clear and meaningful way, critically evaluate oral presentations, and give and receive constructive criticism. Students may enroll in one seminar per school year.

**GENET 691: Faculty Seminar in Genetics**
(1-0) Cr. 1. Repeatable. F.
*Prereq: Permission of instructor*
Faculty research seminars that introduce students to the variety of genetics research projects on campus and provide an opportunity for students to become engaged in the scientific presentation to the point where they can think critically and ask meaningful questions.

**GENET 692: Conceptual Foundations of Genetics**
(1-0) Cr. 1. F.
*Prereq: Permission of instructor*
Landmark papers in the development of genetics concepts. Papers are presented and discussions led by students, guided and mentored by the instructors. Instructors provide a broad overview and history of the development of fundamental concepts in genetics.

**GENET 697: Graduate Research Rotation**
Cr. arr. Repeatable. F.S.S.S.
Graduate research projects performed under the supervision of selected faculty members in the graduate Genetics major. Offered on a satisfactory-fail basis only.

**GENET 699: Research**
Cr. arr. Repeatable. F.S.S.S.
Research.

**Graduate Studies**
Graduate students may enroll in Graduate Studies (GR ST) courses for professional development or to fulfill certain enrollment requirements. No major is granted in Graduate Studies.

Courses primarily for graduate students, open to qualified undergraduates:

**GR ST 529: Preparing Publishable Thesis Chapters**
(3-0) Cr. 3. F.S.
*Prereq: Instructor permission*
Reporting original research results within the norms for writing of a student’s discipline. Emphasis on preparing thesis/dissertation chapters that will be both acceptable to the Graduate College and ready for submission to a refereed journal in the student’s discipline. Focus on reporting student-generated data, norms for discourse within disciplines, and how thesis chapters differ from journal manuscripts.

**GR ST 565: Responsible Conduct of Research in Science and Engineering**
(1-0) Cr. 1. F.S.
*Prereq: Instructor permission*
Ethical and legal issues facing researchers in the sciences and engineering.

**GR ST 566: Communications in Science**
(0.5-0) Cr. 0.5. Alt. S., offered odd-numbered years.
*Prereq: graduate classification*
Reading and reviewing manuscripts; publishing papers; oral and poster presentations.
GR ST 567: Time Management and Mentoring
(0.5-0) Cr. 0.5. Alt. F., offered even-numbered years.
Prereq: graduate classification
Balancing life and career; mentoring; lab management.

GR ST 568: The Interview Process
(0.5-0) Cr. 0.5. Alt. S., offered odd-numbered years.
Prereq: graduate classification.
Applying and interviewing for academia, industry and government.

GR ST 569: Grant Writing
(Cross-listed with ENGL). (1-0) Cr. 1. S.
Prereq: at least two prior years of graduate classification.
Writing a winning proposal.

GR ST 570: Teaching Practices
(0.5-0) Cr. 0.5. Alt. S., offered even-numbered years.
Prereq: graduate classification.
Preparation of a teaching portfolio and course materials; lecturing, technology.

GR ST 585: Preparing Future Faculty Introductory Seminar
Cr. 2. F.
Prereq: One year of graduate course work; admission into PFF program
Introduction to faculty life issues such as hiring, tenure, teaching, and service at a variety of higher education institutions. Includes presentations from faculty at other institutions.

GR ST 586: Preparing Future Faculty Intermediate Seminar
Cr. 1. S.
Prereq: Admission into PFF program; completion of 585 or permission of instructor
Consideration of a wide range of faculty life issues. Includes topics such as higher education trends, diversity issues, learning styles, assessment, grant and proposal writing, and legal and ethical issues. Written components include job and teaching portfolios.

GR ST 587: Preparing Future Faculty Teaching Practicum
Cr. 1-3. Repeatable. F.S.
Prereq: Permission of instructor, GR ST 585, credit for or concurrent enrollment in GR ST 586
Students complete a stand-alone teaching assignment at Iowa State or another higher education institution. Written components include pedagogical documents.

GR ST 588: Preparing Future Faculty Special Topics
Cr. 1-3. Repeatable. F.S.
Prereq: Permission of instructor, GR ST 585, credit for or concurrent enrollment in GR ST 586
In-depth study of topic providing academic professional development.

Courses for graduate students:

GR ST 633: Summer Graduate Assistant
Cr. R. SS.
Only for students not registered in other courses in the summer term.

GR ST 680: Doctoral Post Prelim (Continuous) Registration
Cr. R. Repeatable.
Reserved for Ph.D. candidates only. See the Graduate College Handbook for specific requirements.

GR ST 681: Required Registration
Cr. 1. Repeatable. F.S.SS.
Required registration for graduate students when they have no mandatory classes left to take. Students need to register for Section A, B, or C. Offered on a satisfactory-fail basis only.

GR ST 681A: Required Registration: Doctoral Continuous Registration
Cr. 1. Repeatable, maximum of 6 times.
Prereq: Must have taken and passed preliminary oral exam.
Offered on a satisfactory-fail basis only. Credits may not count toward graduation.

GR ST 681B: Required Registration: Final Exam Only
Cr. 1. Repeatable, maximum of unlimited times.
Prereq: Completed all necessary program requirements to take final exam.
Offered on a satisfactory-fail basis only. This course cannot be used toward graduation.

GR ST 681C: Required Registration: Graduate Assistant Enrollment
Cr. 1. Repeatable, maximum of Unlimited times.
Prereq: Student needs to be a Graduate Assistant
Offered on a satisfactory-fail basis only. The course cannot count toward graduation.

GR ST 697: Curricular Practical Training
Cr. R. Repeatable. F.S.SS.
Professional work period.

Human Computer Interaction

Interdepartmental Graduate Program

Human Computer Interaction is an interdepartmental graduate program that seeks to improve the way individuals and groups use computers through an understanding of the social and cognitive aspects of the design and use of computational devices. Students in the program learn about cognitive psychology, graphic design principles, the impacts of technology on society, evaluating system usability, and cutting edge computer programming for computational perception and language parsing.
Student research projects have explored the latest in virtual reality studies, improving natural interaction through touch screens and 3D camera gesture controls, virtual engineering using force feedback devices, and many other projects at the bleeding edge of technological innovation. Graduates of the program have gone to work at many of the largest technology firms in the US and abroad while others have gone on to positions in academia.

Degrees are offered for the Master of Science (MS) and Doctor of Philosophy (PhD) degrees with a major in Human Computer Interaction (HCI). A Graduate Certificate and an Online Master of Human Computer Interaction (M.HCI) degree are also offered; these degrees are especially targeted for the benefit of students working in business and industry wanting education in this field. The graduate program in Human Computer Interaction (HCI) welcomes applicants from a diverse collection of technical and creative fields whose unifying characteristic is the desire to develop new ways to bridge the gap between human and machine. The students must demonstrate skill in software development and proficiency in high-level, object-oriented programming. These skills can be acquired after admission to the program. Other entrance requirements will include an undergraduate degree and transcripts, test scores and other indicators that the applicant can be successful at the graduate level. All students admitted to the MS or PhD program on campus must secure a graduate assistantship.

All programs of study for the PhD must include:

1. one core course of their choice from each of the categories of Implementation, Design, Evaluation and Phenomena, if not completed as part of the student's Masters program
2. two more courses of their choice from a list of recommended electives
3. a minimum of nine research credits.

The MS degree calls for 30 credits of course work including appropriate credit for the Master's thesis. MS students must take one core course of their choice from each of the categories of Implementation, Design, Evaluation and Phenomena. In addition to these courses, MS students will be required to take a minimum of 3 research credits.

The Online M.HCI program is most appropriate for individuals with a bachelor's degree in a scientific, engineering, business, or artistic discipline, who are pursuing a professional career, and who already have a strong base of information technology skills. Requirements for the Online M.HCI Program include taking four courses, one each from the Design, Implementation, Phenomena and Evaluation categories. However, M.HCI students must take two additional courses of their choice from the list of core courses or the list of recommended electives. M.HCI students will therefore be required to take a total of six courses (18 credits) and the remaining four courses (12 credits) would be electives of your choosing.

Requirements for the HCI Graduate Certificate program include three core HCI courses plus one elective.

Information on applications procedures and specific requirements of the major can be obtained from the following Internet address: http://www.hci.iastate.edu/Academics/index.php.

Courses primarily for graduate students, open to qualified undergraduates:

**HCI 504: Evaluating Technology-based Learning Environments**
(Cross-listed with EDUC). (3-0) Cr. 3. S.
**Prereq: EDUC 501**
Principles and procedures to plan, design, and conduct effective evaluation studies (formative, summative, usability) in different settings are studied. Opportunities to engage in real or simulated evaluation projects of substantial scope are provided. Create evaluation instruments, develop methods with which to evaluate a product or program, conduct try-outs or usability sessions, analyze the data, report the findings, and recommendations are some of the course activities.

**HCI 507: Principles of 3D Character Animation**
(Cross-listed with ARTIS). (0-6) Cr. 3.
**Prereq: ARTIS 308**
Animation techniques using the computer and available software. Principles of character animation. Prior knowledge of modeling, lighting, texturing and rendering with available software is assumed.

**HCI 509: Computer/Video Game Design and Development**
(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable, maximum of 12 credits.
**Prereq: Permission of instructor**
Independent project based creation and development of “frivolous and non-frivolous” computer games in a cross-disciplinary team. Projects require cross-disciplinary teams. Aspects of Indie development and computer/video game history will be discussed.

**HCI 515: Statistical Natural Language Processing**
(Cross-listed with ENGL, LING). (3-0) Cr. 3.
**Prereq: STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL 511 or LING 511**
Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.
HCI 520: Computational Analysis of English  
(Cross-listed with ENGL, LING). (3-0) Cr. 3.  
Prereq: ENGL 510 or LING 510, and ENGL 511 or LING 511  
Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

HCI 521: Cognitive Psychology of Human Computer Interaction  
(Cross-listed with PSYCH). (3-0) Cr. 3.  
Prereq: Graduate classification or instructor approval  
Biological, behavioral, perceptual, cognitive and social issues relevant to human computer interactions.

HCI 522: Scientific Methods in Human Computer Interaction  
(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. S., offered odd-numbered years.  
Prereq: PSYCH 521 and STAT 101 or equivalent  
Basics of hypothesis testing, experimental design, analysis and interpretation of data, and the ethical principles of human research as they apply to research in human computer interaction.

HCI 525: Optimization Methods for Complex Designs  
(3-0) Cr. 3. F.  
Prereq: M E 160, MATH 265  
Optimization involves finding the 'best' according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques.

HCI 558: Introduction to the 3D Visualization of Scientific Data  
(Cross-listed with COM S, GEOL). (2-2) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: Graduate-student standing in the mathematical or natural sciences or engineering; basic programming knowledge  
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, and engineering). Class project in interactive 3D visualization using the ParaView, Mayavi, TVTK, VTK or a similar system.

HCI 570: UX Lab Studies: Eyetracking & Other UX Tools  
(1-0) Cr. 1.  
Practical introduction to User Experience (UX) tools and how to use them for research: Designing a UX study; developing meaningful user tasks; how to plan a research study that integrates eyetracking measures, UX measures, behavioral measures, surveys, interviews and IRB applications; analyzing UX data; and presenting UX study results.

HCI 571: Augmented Reality  
(3-0) Cr. 3.  
Prereq: M E 557/CPR E 557/COM S 557, or equivalent computer graphics experience  
Fundamental technologies enabling augmented reality (AR) application development. Assessment and integration of the hardware and software systems necessary for AR including, tracking, image processing and rendering. Programming skills in C++ and GPU-based optimization are developed to enable evaluation of interaction devices and modalities afforded by AR.

HCI 574: Computational Implementation and Prototyping in HCI  
Cr. 3. S.  
Fundamental concepts of software programming and the practical use of the Python programming language. Assignments include user interaction and interface design, information visualization, as well as other computational HCI tools. Intended for graduate students without prior background in software development. Requires programming during class lectures.

HCI 575: Computational Perception  
(Cross-listed with COM S, CPR E). (3-0) Cr. 3. S.  
Prereq: Graduate standing or permission of instructor  
This class covers statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. This semester we will focus on machine perception techniques that facilitate and augment human-computer interaction. The main goal of the class is to introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

HCI 580: Virtual Environments, Virtual Worlds, and Application  
(Cross-listed with M E). (3-0) Cr. 3. F.  
Prereq: Senior or Graduate status.  
A systematic introduction to the underpinnings of Virtual Environments (VE), Virtual Worlds, advanced displays and immersive technologies; and an overview of some of the applications areas particularly virtual engineering.
HCI 585: Developmental Robotics
(Cross-listed with CPR E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: knowledge of C/C++ programming language.
An introduction to the emerging interdisciplinary field of Developmental Robotics, which crosses the boundaries between robotics, artificial intelligence, developmental psychology, and philosophy. The main goal of this field is to create autonomous robots that are more intelligent, more adaptable, and more useful than the robots of today, which can only function in very limited domains and situations.

HCI 587: Models and Theories in Human Computer Interaction
(3-0) Cr. 3.
Survey of the multidisciplinary models and theories that form the foundation of the science of Human Computer Interaction. Application of the scientific method to solve practical problems by using analyses or approaches from the behavioral and social sciences, and information and computer technology.

HCI 589: Design and Ethics
(Cross-listed with ARTGR). (3-0) Cr. 3. F.S.
Prereq: Graduate classification or permission of instructor.
Issues in ethics and decision-making as they relate to technology, design, design research, HCI, and the design industry.

HCI 590: Special Topics
Cr. arr. Repeatable.
Investigation of problems of special interest in human computer interaction.

HCI 591: Seminar in Human Computer Interaction
Cr. 1-3. Repeatable.

HCI 592: Entrepreneurship Workshop
(1-0) Cr. 1. F.
Students will be taken step-by-step through activities that must be undertaken when attempting to commercialize a technology or start their own company. Speakers will be brought in to introduce relevant topics, provide resources, answer questions, and provide working examples.

HCI 595: Visual Design of HCI
Cr. 3. SS.
Human interaction design as it applies to HCI. Aspects of audience analysis, design methodologies for creating concepts and solutions, techniques of concept prototyping, and the fundamentals of visual design such as color, type, symbolism, and grid structure. Class discussions, tutorials, and hands-on projects.

HCI 596: Emerging Practices in Human-Computer Interaction
Cr. 3. SS.
Prereq: HCI 521
Usability evaluation with emphasis on requirements gathering, rapid prototyping, evaluation, and communicating results through report writing along with emerging practices.

HCI 598: HCI Design, Implementation and Implications
Cr. 3. F.S.
Prereq: 21 credits in human computer interaction or permission of the instructor
Capstone course in HCI. Through a significant design project, students demonstrate their mastery of core courses in HCI. This course is the final course for students in the HCI Online MS program.

HCI 599: Creative Component
(3-0) Cr. 3.
Creative component for nonthesis option of Master of Science degree. Offered on a satisfactory-fail basis only.

Courses for graduate students:

HCI 603: Advanced Learning Environments Design
(Cross-listed with EDUC). (3-0) Cr. 3. S.
Prereq: EDUC 503
Exploration of advanced aspects of the learning environments design process. Application of analysis, design, development and production, evaluation, implementation, and project management principles. Theory and research in educational technology provides the foundation for design decisions. Focus on current trends in learning environment design and the production and use of educational technology.

HCI 655: Organizational and Social Implications of Human Computer Interaction
(Cross-listed with MIS). (3-0) Cr. 3.
Prereq: Graduate Classification
Examine opportunities and implications of information technologies and human computer interaction on social and organizational systems. Explore ethical and social issues appurtenant to human computer interaction, both from a proscriptive and prescriptive perspective. Develop informed perspective on human computer interaction. Implications on research and development programs.
### Immunobiology

**Immunobiology Interdepartmental Graduate Program**

Work is offered for the master of science and doctor of philosophy degrees with a major in Immunobiology. Faculty are drawn from twelve university departments along with researchers from the National Animal Disease Center. Participating departments include: Animal Science; Biochemistry, Biophysics, and Molecular Biology; Biomedical Sciences; Chemical & Biological Engineering; Entomology; Food Science and Human Nutrition; Kinesiology; Natural Resource Ecology & Management; Veterinary Clinical Sciences; Veterinary Diagnostic & Production Animal Medicine; Veterinary Microbiology & Preventative Medicine; and Veterinary Pathology. The diversity of faculty expertise ensures a broad education, while offering flexibility in choice of specialization. Ongoing research projects include areas such as: antibody and cell-mediated immunity, gene expression, immunoochemistry, immunogenetics, immunomodulation, immunophysiology, mucosal immunity and nutritional immunology. Additional information about program faculty members is available at: [www.immunobiology.iastate.edu](http://www.immunobiology.iastate.edu).

Students may enter the Immunobiology program in one of two ways; prospective students may apply directly to the major, or current ISU graduate students may be admitted as a co-major or minor in Immunobiology. Ph.D. students admitted into the Interdepartmental Immunobiology major will take IMBIO 697 Graduate Research Rotation during their first two semesters. From these rotations the student will select a major professor and join a home department. Affiliating with a major professor is done by the end of the second semester.

Before entering the Immunobiology program, prospective students should have a strong background in the biological sciences; typically including work in immunology, genetics and biochemistry. Prior research experience is highly encouraged. The submission of GRE General Test scores is required for admission.

Immunobiology students should include in their program of study a core of courses which will provide a broad coverage of the basic program in immunobiology. Formal courses should include immunology, biochemistry, and statistics. Additional coursework may be selected to satisfy individual interests or departmental requirements. The foreign language and teaching requirements are determined by the student’s home department. All students will take a minimum of one seminar course per fall and spring semester.

Graduates of the Immunobiology program will have a broad understanding of the interdisciplinary field of immunobiology and will be able to effectively integrate the principles of immunology with related disciplines. They are able to effectively communicate with scientific colleagues and the general public in both formal and informal settings. Graduates are able to integrate theory and research to address complex problems facing scientific professionals studying animal and human health, taking into account related ethical, social, legal and environmental issues. They are skilled at carrying out research, communicating research results, and writing persuasive grant proposals.

### Graduate Study in Immunobiology

**Curriculum Requirements for Immunobiology Doctoral Students**

Ph.D. candidates majoring in Immunobiology must take at least 72 graduate credits. This 72 credits includes the below core course requirements and applicable research credits earned. Credits taken during a student’s M.S. program in Immunobiology at Iowa State University will count towards their Ph.D. in Immunobiology.

**Ph.D. students should take each of the following:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BBMB 405</td>
<td>Biochemistry II</td>
<td>3</td>
</tr>
<tr>

Curriculum Requirements for Immunobiology Master’s Students

All M.S. students majoring in Immunobiology are required to complete a minimum of 30 graduate credits. These 30 credits includes core course requirements and applicable research credits earned. The requirements for M.S. students are the same as that for Ph.D. students with the exception of the elective credits. M.S. students are required to take at least one course from the list of electives as opposed to the two course minimum for Ph.D. students.

Curriculum Requirements for a Minor in Immunobiology at the PhD Level

Graduate students studying at Iowa State University with an interest in completing an Immunobiology minor for their Ph.D. studies are required to take a total of 12 credit hours of coursework including core courses and approved electives.

Students must be approved for the minor by the Immunobiology program and must follow Graduate College guidelines for POS Committee membership.

Graduate students wishing to seek a minor in Immunobiology are encouraged to contact the Immunobiology Interdepartmental Graduate Program Coordinator for further information. Inquiries can be submitted to: idgp@iastate.edu.

Immunobiology Minor Curriculum at the Ph.D. Level

Includes:

One course from each of the following two categories:

**Category A:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>V MPM 520</td>
<td>Medical Immunology I</td>
<td>4</td>

Courses for graduate students:

**IMBIO 602: Current Topics Workshop in Immunology**

(1-0) Cr. 1. Repeatable. F.
Lectures provided by off-campus experts. Students are required to participate in discussion sessions with lecturers.

**IMBIO 604: Seminar in Immunobiology**

(1-0) Cr. 1. Repeatable. S.
Student and faculty presentation.

**IMBIO 661: Comparative Immunology and Infectious Disease**

(Cross-listed with V PTH). (2-0) Cr. 2. Alt. S., offered odd-numbered years.
Prereq: Graduate level Immunology or permission of instructor.
Discuss and define similarities and differences of varied host responses to infectious challenge. Learning will focus on comparative aspects of the host response and the unique aspects of immunity from different organisms, while highlighting molecular and mechanistic similarities of pathogen recognition, response and resolution.

**IMBIO 690: Special Topics**

Cr. arr. Repeatable.
Advanced study of specific topics in specialized field of immunobiology.

**IMBIO 697: Graduate Research Rotation**

Cr. arr. Repeatable.
Graduate research projects performed under the supervision of selected faculty members in the Interdepartmental Immunobiology major.

**IMBIO 699: Research**

Cr. arr. Repeatable.
Information Assurance
Interdepartmental Graduate Major

Iowa State University has been offering courses in information assurance since 1995 and has one of the largest programs in the country. Graduate degrees can be obtained in a traditional on campus setting or as an online program. For information on the Engineering-LAS Online Learning program visit www.eol.iastate.edu. (http://www.eol.iastate.edu)

Students graduating from the major will help to fill the need for well-educated system security specialists in the government, private sector, and academia. The program objectives identified as being critical to the accomplishment of this mission are:

1. Impart and enhance knowledge about information infrastructure security
2. Expand and develop the ability to engineer complex systems
3. Instill and nurture social awareness, and the ability to function in a team
4. Instill and nurture a sense of ethics
5. Develop an understanding of strategic and policy issues

We offer 4 different graduate degree options:

1. Masters of Science with thesis
2. Masters of Science without thesis
3. Masters of Engineering (coursework only)
4. Graduate certificate

Graduate Certificate:

A graduate certificate in Information Assurance is offered, which consists of four courses (12 credits): The graduate certificate is targeted for off-campus students as a way to either supplement their education or as a way to try out online education courses. All of the certificate courses will transfer into the MS or MENGR degree in IA.

Total Credits 12

For additional information students should visit http://www.iac.iastate.edu.

Master of Science with & without thesis:

The degree Master of Science with a major in information assurance is under a cooperative arrangement with various home departments including Electrical and Computer Engineering, Political Science, Supply Chain and Information Systems, and Mathematics.

The degree Master of Science with thesis is recommended for students who intend to continue toward the Doctor of Philosophy degree or to undertake a career in research and development. The non-thesis Master of Science degree requires a creative component and is intended for students interested in a career in information assurance.

Students interested in the interdepartmental major apply and are admitted to both a home department (the department that is most closely aligned with the student's research interest and background) and to the program. The home department sets the admission standards, course requirements, and thesis standards. (Note: Electrical and Computer Engineering is the only home department for off-campus students pursuing the Master of Science in Information Assurance)

The program is broadly based and uses courses in the various departments. The program will consist of 24 course credits with 6 credits of research work for a Master of Science with thesis. A non-thesis Master of Science will consist of 27 credits of courses and 3 credits of creative component. The courses are divided into three categories: core, electives, and thesis research. A student's Program of Study Committee, in consultation with the student, determines the elective courses to be taken and the acceptability of transfer credits. The major professor will be selected from the discipline where the student is admitted (home department).

The basic prerequisite for admission to this program is a baccalaureate degree in engineering, mathematics, computer science, management information systems, political science, or closely related field. The GRE or GMAT examination may be required based on the standards of the home department. If the GRE or GMAT is not required it will be considered in admissions decisions if offered. Potential students with baccalaureate degrees in the physical sciences, statistics, or other related fields will be considered on an individual basis, possibly with provisional admission.

Master of Engineering:

The Master of Engineering (MENGR) in Information Assurance degree is only offered to off-campus students. This program is designed to assist all individuals who already have a bachelor's degree in computing or related areas to pursue an in-depth study in information assurance. The Master of Engineering program is based on coursework credits only (a thesis or creative component is not required). Courses are offered via
our Engineering-LAS Online Learning streaming media online education program.  

(Note: Electrical and Computer Engineering is the only home department for the Master of Engineering in Information Assurance)

A coursework only Master of Engineering degree in Information Assurance consists of 30 credits. The courses are divided into three categories: core, electives, and capstone course.  

(Note: Students pursuing the MENGR do not have a program of study committee and the major professor is the Information Assurance, Director of Graduate Education (DoGE)

Students interested in the MENGR in IA degree apply and are admitted to Information Assurance (InfAs) with ECpE as the home department. The admission requirements for students entering the program without work experience are the same as the admission requirements for the ECpE department. For students with 3 or more years of work experience in a computer related position the GRE and GPA minimum may be waived.

Students with an undergraduate degree in a non computing field that have at least 3 years of work experience in an information technology field may be admitted to the program.

Courses primarily for undergraduates:

INFAS 131: Introduction to Computer Security Literacy  
(Cross-listed with CPR E). (1-0) Cr. 1.
Basic concepts of practical computer and Internet security, passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

INFAS 332: Cyber Defense Competition  
(Cross-listed with CPR E). (0-2) Cr. 1. Repeatable. S.
Participation in cyber defense competition driven by scenario-based network design. Includes computer system setup, risk assessment and implementation of security systems, as well as defense of computer and network systems against trained attackers. Team based. Offered on a satisfactory-fail basis only.

INFAS 430: Network Protocols and Security  
(Dual-listed with INFAS 530). (Cross-listed with CPR E). (3-0) Cr. 3.  
Prereq: CPR E 381 or equivalent
Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols. Network security issues, attack and mitigation techniques. Emphasis on laboratory experiments.

INFAS 530: Network Protocols and Security  
(Dual-listed with INFAS 430). (Cross-listed with CPR E). (3-0) Cr. 3.  
Prereq: CPR E 381 or equivalent
Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols. Network security issues, attack and mitigation techniques. Emphasis on laboratory experiments.

INFAS 531: Information System Security  
(Cross-listed with CPR E). (3-0) Cr. 3.  
Prereq: CPR E 489 or CPR E 530 or COM S 586 or MIS 535
Computer, software, and data security: basic cryptography, security policies, multilevel security models, attack and protection mechanisms, legal and ethical issues.

INFAS 532: Information Warfare  
(Cross-listed with CPR E). (3-0) Cr. 3. S.  
Prereq: CPR E 531
Computer system and network security: implementation, configuration, testing of security software and hardware, network monitoring, Authentication, firewalls, vulnerabilities, exploits, countermeasures. Study and use of attack tools. Ethics in information assurance. Emphasis on laboratory experiments.

INFAS 533: Cryptography  
(Cross-listed with CPR E, MATH). (3-0) Cr. 3. S.  
Prereq: MATH 301 or CPR E 310 or COM S 230
Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

INFAS 534: Legal and Ethical Issues in Information Assurance  
(Cross-listed with CPR E, POL S). (3-0) Cr. 3. S.  
Prereq: Graduate classification; CPR E 531 or INFAS 531
Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.

INFAS 535: Steganography and Digital Image Forensics  
(Cross-listed with CPR E, MATH). (3-0) Cr. 3. S.  
Prereq: E E 524 or MATH 317 or MATH 407 or COM S 230
Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.
INFAS 536: Computer and Network Forensics
(Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: CPR E 489 or CPR E 530
Fundamentals of computer and network forensics, forensic duplication and analysis, network surveillance, intrusion detection and response, incident response, anonymity and pseudonymity, privacy-protection techniques, cyber law, computer security policies and guidelines, court testimony and report writing, and case studies. Emphasis on hands-on experiments.

INFAS 538: Reverse Engineering and Security Testing
(Cross-listed with CPR E). (2-3) Cr. 3. S.
Prereq: COM S 321 or CPR E 381, COM S 352 or CPR E 308
Techniques and tools for understanding the behavior of software/hardware systems based on reverse engineering. Flaw hypothesis, black, grey, and white box testing as well as other methods for testing the security of software systems. Discussion of counter-reverse engineering techniques.

INFAS 560: Data-Driven Security and Privacy
(Cross-listed with COM S, CPR E). Cr. 3. Alt. S., offered irregularly.
Prereq: CPR E 531; COM S 474 or COM S 573
Examination of applications of machine learning and big data techniques to various security and privacy problems, as well as secure and privacy-preserving machine learning algorithms.

INFAS 592: Seminar in Information Assurance
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Projects or seminar in Information Assurance.

Courses for graduate students:

INFAS 632: Information Assurance Capstone Design
(Cross-listed with CPR E). (3-0) Cr. 3.
Prereq: INFAS 531, INFAS 532, INFAS 534
Capstone design course which integrates the security design process. Design of a security policy. Creation of a security plan. Implementation of the security plan. The students will attack each other’s secure environments in an effort to defeat the security systems. Students evaluate the security plans and the performance of the plans. Social, political and ethics issues. Student self-evaluation, journaling, final written report.

INFAS 634: Current Research Problems in Cyber Security
(3-0) Cr. 0. Repeatable. F.S.
Prereq: CPR E 530, CPR E 531, permission of instructor.
Discussion of complex cyber security problems. Students will learn how to apply research techniques, think clearly about these issues, formulate and analyze potential solutions, and communicate their results. Working in small groups under the mentorship of technical clients from government and industry, each student will formulate, carry out, and present original research on complex current cybersecurity/information assurance problems of interest to the nation. This course will be run in a synchronized distance fashion, coordinating some activities with our partner schools and our technical clients.

INFAS 697: Information Assurance Summer Internship
Cr. R.
Prereq: Permission of department, graduate classification
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

Interdisciplinary Graduate Studies

www.grad-college.iastate.edu/igs/ (http://www.grad-college.iastate.edu/igs)

Interdepartmental Graduate Program
The degree of master of science or master of arts with major in interdisciplinary graduate studies is available to graduate students who wish to have a more diversified program of advanced study than that generally permitted students who specialize in a single subject. Areas of specialization in arts and humanities, biological sciences, international development studies, physical sciences, social sciences, community development (see below) and a general area are designed to broaden and supplement a student’s program. Students must take courses in three different graduate subject matter areas, each subject contributing a minimum of nine credits toward the 35 graduate credits required for the degree. Courses which may be used for credit toward this degree program are selected from those listed in the Graduate College Catalog for graduate credit.

Both thesis and non-thesis options are available except in arts and humanities in which a thesis is required. If the thesis option is chosen, a minimum of three credits of IGS 699 Thesis Research is required and a maximum of five credits of IGS 699 Thesis Research may be counted in the total of 35 required credits. If the nonthesis option is elected, evidence of original creative effort must be presented. This may be in the form of a demonstration of independent creativity such as a written report of laboratory, field, or library research; a project in fine arts; or some other original contribution acceptable to the student’s committee.

In the nonthesis option a minimum of three credits of IGS 599 Creative Component is required and a maximum of five credits of IGS 599 Creative
Component may be counted toward the total of 35 graduate credits. The student, in consultation with the program of study committee, will decide on the option. The committee also aids the student in planning a program of study and in selecting appropriate courses. Graduates will have experience in designing their own program centered around issues they have identified. Because of the interdisciplinary nature of IGS, students are expected to synthesize knowledge from three different areas of study.

Students who wish to apply for admission to interdisciplinary graduate studies should communicate with the chair of the program, the chair of the supervisory committee or one of its members.

Students in IGS may select a 37-credit area of specialization in Community Development. The Community Development area of specialization, offered in collaboration with five other universities in the Great Plains Interactive Distance Education Alliance, is offered exclusively through courses on the Web.

Courses primarily for graduate students, open to qualified undergraduates:

**IGS 520: Orientation in Community Development**  
(1-0) Cr. 1.  
Introduction to the Community Development program. Focus on on-line delivery methods, graduate level research and writing, technology skills.

**IGS 599: Creative Component**  
Cr. arr. Repeatable.

Courses for graduate students:

**IGS 699: Thesis Research**  
Cr. arr. Repeatable.

**Molecular, Cellular, and Developmental Biology**

**MCDB Interdepartmental Graduate Program**

Work is offered for the master of science and doctor of philosophy degrees with a major in Molecular, Cellular, and Developmental Biology. Faculty are drawn from sixteen university departments along with researchers from the National Animal Disease Center. Participating departments include: Agronomy; Animal Science; Biochemistry, Biophysics & Molecular Biology; Biomedical Sciences; Chemistry; Chemical & Biological Engineering; Ecology, Evolution, & Organismal Biology; Entomology; Food Science & Human Nutrition; Genetics, Development & Cell Biology; Horticulture; Kinesiology; Physics & Astronomy; Plant Pathology; Veterinary Microbiology & Preventive Medicine; and Veterinary Pathology. Facilities and qualified faculty are available in these departments for conducting fundamental research in the various aspects of molecular, cellular, and developmental biology.

Ongoing research projects include molecular and cellular studies of viral, prokaryotic, plant, and animal systems. Additional information about the program and faculty is available at: www.mcdb.iastate.edu (http://www.mcdb.iastate.edu).

Prospective students are admitted by the MCDB program following receipt of a complete application and after review by the MCDB Admissions Committee. Students are admitted either to participate in research rotations with several faculty before deciding on a major professor and laboratory, or by direct admission into a specific lab and department. Ph.D. students typically enter via rotation and M.S students typically enter via a direct admit. Those students admitted through a rotation admit are required to complete a minimum of three research lab rotations with faculty of interest and take MCDB 697 Graduate Research Rotation during their first two semesters. At the end of their second semester, students on rotation must select a major professor from the faculty participating in the program. Current ISU graduate students may be admitted as a co-major or minor with MCDB.

Before entering the MCDB program, prospective students should have a strong background in the biological sciences; typically including work in biological sciences (two years), organic chemistry (one year), physics (one year), and mathematics (through one year of calculus). Prior research experience is highly encouraged. The submission of GRE General Test scores is required for admission.

**Undergraduate Study**

A special program in Molecular, Cellular, and Developmental Biology is not offered for the baccalaureate. Undergraduates wishing to prepare for graduate study in molecular, cellular, and developmental biology should elect courses in biochemistry, biology, genetics, microbiology; and mathematics through calculus; chemistry through organic; and one year of physics.

The following are recommended to undergraduates desiring an introduction to this area:

<table>

**Curriculum Requirements for MCDB**

Ph.D. candidates majoring in MCDB must take at least 72 graduate credits. These 72 credits include the core course requirements (below) and applicable research credits earned. Credits taken during a student’s M.S. program in MCDB at Iowa State University may count towards their Ph.D. in MCDB.
Students seeking an M.S. degree must take a total of 30 credits, with not less than 22 credits earned at ISU. M.S. students must take the core curriculum but need to complete only two of the three components in molecular biology, cell biology, or developmental biology.

Additional coursework for both Ph.D. and M.S. degrees may be selected by the student in consultation with his/her Program of Study (POS) Committee to meet departmental requirements and to satisfactorily prepare the student for their research project.

Graduate credits of B or better earned at another institution may be transferred at the discretion of the POS Committee and with the approval of the MCDB Program and the ISU Graduate College.

Additional information relating to credits required for graduate degrees can be found in the ISU Graduate College Handbook (http://www.grad college.iastate.edu/common/handbook).

**MCDB Core Curriculum requirements include:**

<table>
<thead>
<tr>

*Footnote: GDCB 545 - Plant Molecular, Cellular, and Developmental Biology may be used to fulfill any one of the required component areas.

In addition to the above course requirements, MCDB graduate students are required to take:

1. **Two semesters of research seminar every year.**

   One of these seminars must be MCDB 698, Seminar in Molecular, Cellular, and Developmental Biology. In seminar, students will make journal and research presentations and attend MCDB seminars. Subject to approval by the POS committee, acceptable alternatives to fulfill the second seminar requirement include 1) a "for credit" research seminar series offered by the student’s home department, 2) a workshop comprising a research seminar series, or 3) another ISU research seminar series.

2. **One credit hour of ethics training. Possible ethics courses include:**

<table>
<thead>

</tbody>
</table>

*Not required, but highly recommended for MCDB graduate students:

   BCB 544 | Fundamentals of Bioinformatics | 4

Non-native English speakers must pass the English Requirement as established by the university. Depending on the results of this exam additional courses may be required to meet English proficiency standards.

MCDB graduate students need to teach one semester as part of their training for an advanced degree. Students whose first language is not English must take and pass the Oral English Certification Test (OECT) to be eligible to teach.

**Curriculum Requirements for Graduate Students Seeking a MCDB Minor**

Graduate students studying at Iowa State University with an interest in completing a MCDB minor for their Ph.D. are required to complete the following curriculum requirements.

Students must be approved for the minor by the MCDB program and must follow Graduate College guidelines for POS Committee membership.

Graduate students wishing to seek a minor in MCDB are encouraged to contact the MCDB Interdepartmental Graduate Program Coordinator for further information. Inquiries can be submitted to idgp@iastate.edu.
MCDB Minor Curriculum at the Ph.D. Level Includes:

- **BBMB 404**: Biochemistry I (3)
- **BBMB 405**: Biochemistry II (3)

Students with a Biochemistry background can elect to take the 500-level sequence:

- **BBMB 504**: Amino Acids and Proteins (2)
- **BBMB 505**: Bioenergetics and Metabolism (2)
- **BBMB 506**: Membrane Biochemistry (2)
- **BBMB 507**: Biochemistry of Nucleic Acids (2)

**One course in each of two of the following three areas:**

**A. Cellular Biology**
- **GDCB 528**: Advances in Molecular Cell Biology (3)
- **GDCB 545**: Plant Molecular, Cell and Developmental Biology (3)
- **B M S 575**: Cell Biology (3)
- **BBMB 645**: Molecular Signaling (2)

**B. Developmental Biology**
- **GDCB 533**: Advances in Developmental Biology (3)
- **GDCB 545**: Plant Molecular, Cell and Developmental Biology (3)

**C. Molecular Biology**
- **MICRO 502**: Microbial Genetics and Genomics (3)
- **GDCB 511**: Advanced Molecular Genetics (3)
- **GDCB 545**: Plant Molecular, Cell and Developmental Biology (3)
- **V MPM 608**: Molecular Virology (3)
- **BBMB 676**: Biochemistry of Gene Expression in Eucaryotes (2)

*Footnote: GDCB 545 - Plant Molecular, Cellular, and Developmental Biology may be used to fulfill any one of the required component areas.*

In addition to the above course requirements, MCDB graduate minors are required to register once for:

- **MCDB 698**: Seminar in Molecular, Cellular, and Developmental Biology (1-2)

Courses primarily for graduate students, open to qualified undergraduates:

- **MCDB 511**: Advanced Molecular Genetics (Cross-listed with GDCB). (3-0) Cr. 3. S. 
  Prereq: BIOL 313 and BBMB 405
  Mechanisms of molecular genetic processes in eukaryotes and prokaryotes, including DNA replication and repair, transcription, translation and regulation of gene expression. Critical evaluation and discussion of current primary literature, methodologies and experimental data.

- **MCDB 528**: Advances in Molecular Cell Biology (Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered even-numbered years.
  Prereq: Courses in general cell biology and biochemistry
  Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

- **MCDB 533**: Advances in Developmental Biology (Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
  Prereq: BIOL 314 or BIOL 423
  Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in the current literature.

- **MCDB 545**: Plant Molecular, Cell and Developmental Biology (Cross-listed with GDCB, PLBIO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
  Prereq: BIOL 313, BIOL 314, BIOL 330 or BBMB 405
  Plant nuclear and organelle genomes; regulation of gene expression; hormone signaling; organization, function, and development of plant cells and subcellular structures; regulation of plant growth and development.

- **MCDB 590**: Special Topics
  Cr. arr. Repeatable.

Courses for graduate students:

- **MCDB 676**: Biochemistry of Gene Expression in Eucaryotes (Cross-listed with BBMB). (2-0) Cr. 2. Alt. S., offered even-numbered years.
  Prereq: BBMB 404 and BBMB 504, and BBMB 506 and BBMB 507, or BBMB 405 or BBMB 505 and or GDCB 511
  Analysis of the biochemical processes involved in expression of eucaryotic genes and the regulation thereof, including RNA polymerase, transcriptional regulatory proteins, enhancers and silencers, chromosome structure, termination, RNA processing, RNA transport, RNA turnover, small RNAs, translational regulation, protein turnover.

- **MCDB 697**: Graduate Research Rotation
  Cr. 1-6. Repeatable. F.S.
  Graduate research projects performed under the supervision of selected faculty members in the molecular, cellular, and developmental biology program.
MCDB 698: Seminar in Molecular, Cellular, and Developmental Biology
(Cross-listed with BBMB, GDCB, MICRO, V MPM). (2-0) Cr. 1-2. Repeatable.
F.S.
Student and faculty presentations.

MCDB 699: Research
Cr. arr. Repeatable.

Neuroscience

Neuroscience Interdepartmental Graduate Program
Work is offered for the master of science and doctor of philosophy degrees with a major in neuroscience. Cooperating departments include Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemical and Biological Engineering; Chemistry; Ecology, Evolution and Organismal Biology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Kinesiology; Psychology; Veterinary Clinical Sciences; and Veterinary Diagnostic and Production Animal Medicine.

The diversity of faculty in the Interdepartmental Neuroscience major provides students with a variety of research opportunities and reflects the structure of contemporary neuroscience which has become a diverse and inter-disciplinary field. Facilities and faculty are committed to research in the following areas: neuronal membrane functions, signal transduction, neuroanatomy, neurodegenerative diseases, neuroendocrinology, neurotoxicology, neuropathology, developmental neurobiology, neurogenetics, computational neuroscience, neural networks, behavioral neuroscience, tissue engineering, neuroregeneration and brain repair.

Additional information about program faculty members is available at: www.neuroscience.iastate.edu

An undergraduate or advanced degree in one of the basic or applied sciences is ordinarily a prerequisite for admission to the program. Typical program disciplines include majors in biochemistry, biology, biomedical sciences, human medicine, immunology, neurobiology, physiology, pharmacology, psychology, veterinary medicine, or zoology. Appropriate undergraduate coursework includes mathematics, chemistry, physics, and biological sciences. Prior research experience is highly encouraged.

The submission of GRE General Test scores is required for admission.

Prospective students are admitted by the Neuroscience program following an internal application process and after review by the Neuroscience Admissions Committee. Students are admitted either to participate in research rotations with several faculty before deciding on a major professor and laboratory, or by direct admission into a specific lab and department. Ph.D. students typically enter via rotation and M.S students typically enter via a direct admit. Those students entering through a rotation admit are required to complete a minimum of three research lab rotations with faculty of interest. At the end of their second semester students on rotation must select a major professor from the faculty participating in the program.

Curriculum Requirements for Neuroscience Graduate Students
Ph.D. candidates majoring in Neuroscience must take at least 72 graduate credits. These 72 credits includes the below core course requirements and applicable research credits earned. Credits taken during a student’s M.S. program in Neuroscience at Iowa State University will count towards their Ph.D. in Neuroscience.

Students seeking an M.S. degree must take a total of 30 credits, with not less than 22 credits earned at ISU. M.S. students have the same core requirements as Ph.D. students.

Additional coursework for both Ph.D. and M.S. degrees is selected by the student in consultation with his/her POS Committee to meet departmental requirements and to satisfactorily prepare the student for their research project.

Graduate credits of B or better earned at another institution may be transferred at the discretion of the POS Committee and with the approval of the Neuroscience Program and the ISU Graduate College.

Additional information relating to credits required for graduate degrees can be found in the ISU Graduate College Handbook (http://www.grad-college.iastate.edu/common/handbook).

All students majoring in Neuroscience are required to complete a core curriculum consisting of:

In addition to the above coursework, all Neuroscience majors are expected to take a minimum of six credits of approved elective neuroscience courses. Pre-approved courses include:
Curriculum Requirements for Graduate Students Seeking a Neuroscience Minor

Graduate students interested in completing a Neuroscience minor are required to select 12 credits, with a minimum of 9 credits being from the list of approved courses (see below) and up to 3 credits of thesis/dissertation research (NEURO 699).

Students must be approved for the minor by the Neuroscience Program and must follow Graduate College guidelines for POS Committee membership.

Graduate students wishing to seek a minor in Neuroscience are encouraged to contact the Neuroscience Interdepartmental Graduate Program Coordinator for further information. Inquiries can be submitted to idgp@iastate.edu.

Courses for graduate students:

NEURO 661: Current Topics in Neuroscience
(Cross-listed with BBMB, GDCB). (2-0) Cr. 2-3. Repeatable. Alt. S., offered even-numbered years.

Prereq: NEURO 556 (or comparable course) or permission of instructor

Topics may include molecular and cellular neuroscience, neurodevelopment, neuroplasticity, neurodegenerative diseases, cognitive neuroscience, sensory biology, neural integration, membrane biophysics, neuroethology, techniques in neurobiology and behavior.

NEURO 690: Journal Club in Neuroscience
(1-0) Cr. 1. Repeatable. F.S.

Prereq: NEURO 556

Students are required to attend and make at least one presentation at a weekly journal club focusing on current topics.

NEURO 696: Neuroscience Seminar
(1-0) Cr. 1. Repeatable. F.S.

Prereq: NEURO 556

Presentations and discussion of research by students, faculty, and visiting scholars.

NEURO 699: Research
Cr. arr. Repeatable.

Nutritional Sciences Graduate Study

The Interdepartmental Graduate Program in Nutritional Sciences (IGPNS), administered through the Graduate College, under the auspices of the Chairs of Food Science and Human Nutrition (FS HN) and Animal Science, will provide the structure for coordinating and enhancing interdisciplinary nutrition research and graduate education. M.S. and Ph.D. degrees in Nutritional Sciences will be offered with three specializations: Animal Nutrition, Human Nutrition, or Biochemical & Molecular Nutrition.
The following undergraduate course work is recommended of all applicants who are applying to the IGPNS, but may be modified depending upon the student’s area of emphasis. Recommended course work includes organic chemistry with laboratory, physics, analytical chemistry, a nutrition course that requires biochemistry or organic chemistry as a prerequisite, and a course in biology/physiology or anatomy. Under certain circumstances students can be admitted or provisionally admitted with course work deficiencies. Students with an undergraduate degree will be generally admitted into the M.S. program and upon completion, they can then apply for admission into the Ph.D. program. However, exceptional students with experience can apply directly to the Ph.D. program.

The general requirements of the Nutritional Sciences degree at the MS level, in addition to those of Graduate College, are:

- **NUTRS 501** Biochemical and Physiological Basis of Nutrition: Macronutrients and Micronutrients (4-0) Cr. 4. F.
  - *Prereq: Credit or enrollment in BBMB 404 or BBMB 420*
  - Integration of the molecular, cellular, and physiologic aspects of energy, macronutrient, and micronutrient metabolism in mammalian systems. Survey course that includes interactions among nutrients (dietary carbohydrate, fiber, lipid, protein, vitamins, and minerals) and non-nutrients, metabolic consequences of nutrient deficiencies or excesses, relevant polymorphisms, and major research methodologies.

- **BBMB 404** Biochemistry I (3-0) Cr. 3.
- **BBMB 405** Biochemistry II (3-0) Cr. 3
  - *or BBMB 420 Mammalian Biochemistry*

- **STAT 587** Statistical Methods for Research Workers (4-0) Cr. 4

- **FS HN 580** Orientation to Food Science and Nutrition Research (1-0) Cr. 1
  - *or AN S 501 Survey of Animal Disciplines*

- **AN S 603** Seminar in Animal Nutrition (1-0) Cr. 1
  - *or FS HN 682 Seminar Reflection*

- **FS HN 581** Seminar (or AN S equivalent) (1-0) Cr. 1
  - *or FS HN 681 Seminar (or AN S equivalent)*

- **FS HN 590C** Special Topics: Teaching (1-3) Cr. 1-3
  - *or AN S 590L Special Topics: Teaching*

Successful completion and defense of thesis

Students are expected to complete the course work established by the Program of Study (POS) committee based on specialization with a minimum of 30 graduate-level semester credits, not less than 22 of which must be earned at Iowa State University.

The general requirements of the Nutritional Sciences degree at the PhD level, in addition to those of the Graduate College, are:

- Completion of all requirements of the MS degree in Nutritional Sciences
- 3 additional credits of graduate-level biochemistry (6 credits total including those for the M.S.), graduate-level statistics (STAT 402 Statistical Design and the Analysis of Experiments), and physiology (if not taken for the M.S.)
- Additional graduate-level courses in the field of study as deemed appropriate by the POS Committee and specialization, and additional teaching assistant requirements (FS HN 590C Special Topics: Teaching).

Satisfactory completion of a preliminary examination, a written dissertation, seminar presentation of dissertation research, and defense of the dissertation is also required. Overall a minimum of 72 graduate-level semester credits, no less than 36 of which must be earned at Iowa State University

Courses primarily for graduate students, open to qualified undergraduates:

- **NUTRS 501**: Biochemical and Physiological Basis of Nutrition: Macronutrients and Micronutrients (4-0) Cr. 4. F.
  - *Prereq: Credit or enrollment in BBMB 404 or BBMB 420*
  - Integration of the molecular, cellular, and physiologic aspects of energy, macronutrient, and micronutrient metabolism in mammalian systems. Survey course that includes interactions among nutrients (dietary carbohydrate, fiber, lipid, protein, vitamins, and minerals) and non-nutrients, metabolic consequences of nutrient deficiencies or excesses, relevant polymorphisms, and major research methodologies.

- **NUTRS 503**: Biology of Adipose Tissue (2-0) Cr. 2. Alt. S., offered odd-numbered years.
  - *Prereq: Undergraduate: consent of instructor; Graduate: NutrS 501*
  - Principles regarding the development of adipose tissue and its role in energy balance, and will focus considerably on endocrine and immune actions of the adipocyte. Course material will be in lecture format, including handouts and selected journal articles. Students will be asked to lead critical discussions of key research findings as summary material for a given topic. Species differences will be highlighted, particularly as they relate to research models.

- **NUTRS 504**: Nutrition and Epigenetic Regulation of Gene Expression (1-0) Cr. 1. Alt. S., offered even-numbered years.
  - *Prereq: graduate standing; undergraduate with consent of instructor*
  - Discussion of epigenetic regulation of gene expression and the role that nutrition plays in this process. Examination of current research literature to understand how different nutrients and physiological states influence epigenetics, as well as, the research methodology used to address these relations.

- **NUTRS 505**: Short Course (1-0) Cr. 1. SS.
  - *Prereq: Permission of instructor*
NUTRS 506: Diet and Cancer Prevention
(Cross-listed with TOX). (1-0) Cr. 1. Alt. F., offered even-numbered years.
Prereq: BBMB 404 and BBMB 405 or BBMB 420
Principles of cancer biology and cancer etiology will be integrated with
the impacts of diet on cancer development and prevention. Contributions
of research with humans, animals, cultured cells and cell free systems
will be included. The importance of dietary contaminants, macronutrients
and micronutrients will be examined with an emphasis on the strength of
the evidence and mechanisms of action.

NUTRS 518: Digestive Physiology and Metabolism of Non Ruminants
(Cross-listed with AN S). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: AN S 419 or NUTRS 501
Digestion and metabolism of nutrients. Nutritional requirements and
current research and feeding programs for poultry and swine.

NUTRS 520: Digestive Physiology and Metabolism of Ruminants
(Cross-listed with AN S). (2-2) Cr. 3. Alt. S., offered even-numbered years.
Prereq: AN S 419 or NUTRS 501
Digestive physiology and nutrient metabolism in ruminant and
preruminant animals.

NUTRS 542: Introduction to Molecular Biology Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, V
MPM, VDPAM). Cr. 1. Repeatable. F.S.S.
Sessions in basic molecular biology techniques and related procedures.
Offered on a satisfactory-fail basis only.

NUTRS 542A: Introduction to Molecular Biology Techniques: DNA
Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, V
MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes genetic engineering procedures, sequencing, PCR, and
genotyping. Offered on a satisfactory-fail basis only.

NUTRS 542B: Introduction to Molecular Biology Techniques: Protein
Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, V
MPM, VDPAM). Cr. 1. Repeatable. S.S.
Prereq: Graduate classification
Includes: fermentation, protein isolation, protein purification,
SDS-PAGE, Western blotting, NMR, confocal microscopy and laser
microdissection, Immunophenotyping, and monoclonal antibody
production. Sessions in basic molecular biology techniques and related
procedures. Offered on a satisfactory-fail basis only.

NUTRS 542C: Introduction to Molecular Biology Techniques: Cell
Techniques
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, V
MPM, VDPAM). Cr. 1. Repeatable. F.S.
Includes: immunophenotyping, ELISA, flow cytometry, microscopic
techniques, image analysis, confocal, multiphoton and laser capture
microdissection. Offered on a satisfactory-fail basis only.

NUTRS 542D: Introduction to Molecular Biology Techniques: Plant
Transformation
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, V
MPM, VDPAM). Cr. 1. Repeatable. S.
Includes: Agrobacterium and particle gun-mediated transformation of
tobacco, Arabidopsis, and maize, and analysis of transformants. Offered
on a satisfactory-fail basis only.

NUTRS 542E: Introduction to Molecular Biology Techniques: Proteomics
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, V
MPM, VDPAM). Cr. 1. Repeatable. F.
Includes: two-dimensional electrophoresis, laser scanning, mass
spectrometry, and database searching. Offered on a satisfactory-fail
basis only.

NUTRS 542F: Introduction to Molecular Biology Techniques:
Metabolomics
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, V
MPM, VDPAM). Cr. 1. Repeatable. F.
Includes: metabolomics and the techniques involved in metabolite
profiling. For non-chemistry majoring students who are seeking analytical
aspects into their biological research projects. Offered on a satisfactory-fail
basis only.

NUTRS 542G: Introduction to Molecular Biology Techniques: Genomic
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, V
MPM, VDPAM). Cr. 1. Repeatable. S.
Offered on a satisfactory-fail basis only.

NUTRS 549: Advanced Vertebrate Physiology I
(Cross-listed with AN S, KIN). (4-0) Cr. 4. F.
Prereq: recommended: an undergraduate physiology course and a
biochemistry course
Overview of mammalian physiology. Cell biology, endocrinology,
cardiovascular, respiratory, immune, digestive, skeletal muscle and
reproductive systems.

NUTRS 552: Advanced Vertebrate Physiology II
(Cross-listed with AN S, KIN). (3-0) Cr. 3. S.
Prereq: BIOL 335; credit or enrollment in BBMB 404 or BBMB 420
Cardiovascular, renal, respiratory, and digestive physiology.
NUTRS 561: Medical Nutrition and Disease I
(4-0) Cr. 4. F.
*Prereq: FS HN 360, FS HN 361, FS HN 367, BIOL 256 and 256L or BIOL 306 or BIOL 335*
(Dual listed with FS HN 461.) Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state.

NUTRS 562: Assessment of Nutritional Status
(3-0) Cr. 3.
*Prereq: FS HN 461/NUTRS 561 or NUTRS 501*
Overview and practical applications of methods for assessing nutritional status, including: theoretical framework of nutritional health and disease, dietary intake, biochemical indices, clinical examination, and body composition.

NUTRS 563: Community Nutrition
(3-0) Cr. 3. F.
*Prereq: FS HN 265 or FS HN 360; FS HN 366 recommended*
Dual listed with FS HN 463. Survey of current public health nutrition problems among nutritionally vulnerable individuals and groups. Discussion of the multidimensional nature of those problems and of community programs addressing them. Grant writing as a means for funding community nutrition program development. Significant emphasis on written and oral communication at the lay and professional level. Field trip.

NUTRS 564: Medical Nutrition and Disease II
(3-0) Cr. 3-4. S.
*Prereq: FS HN 360, FS HN 461, or NUTRS 561.*
(Dual listed with FS HN 464.) Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state.

NUTRS 597: Nutritional Aspects of Oncology
(Cross-listed with DIET, FS HN). (3-0) Cr. 3. Alt. S., offered even-numbered years.
*Prereq: B.S. in nutrition, dietetics, biology, or related discipline.*
Understanding of basic cancer biology and methodology used to study nutrition and cancer relationships. Using current research as a basis, the role of nutrition in specific cancers will be explored. Students will learn about sources of information for cancer prevention programs, and how to apply this information to clinical patient management.

NUTRS 618: Vitamins and Minerals
(Cross-listed with AN S). Cr. 2. Alt. S., offered even-numbered years.
*Prereq: Biochemistry, physiology, basic nutrition*
Understanding molecular aspects of vitamin and mineral metabolism and homeostasis in humans and animals. An in-depth examination of the chemistry of vitamins and minerals, including genetic mutations, proteins involved in absorption and excretion, and their necessity in biological processes.

NUTRS 619: Advanced Nutrition and Metabolism - Protein
(Cross-listed with FS HN). (2-0) Cr. 2.
*Prereq: BBMB 405*
Digestion, absorption, and intermediary metabolism of amino acids and protein. Regulation of protein synthesis and degradation. Integration of cellular biochemistry and physiology of mammalian protein metabolism.

NUTRS 620: Advanced Nutrition and Metabolism - Energy
(Cross-listed with FS HN). (2-0) Cr. 2. Alt. S., offered odd-numbered years.
*Prereq: BBMB 405*
Energy constituents of feedstuffs and energy needs of animals as related to cellular biochemistry and physiology. Interpretations of classical and current research.

NUTRS 680: Modern Views of Nutrition
Cr. R. Repeatable. F.
Current concepts in nutrition and related fields. Required for all graduate students in nutrition.

NUTRS 690: Special Problems
Cr. arr. Repeatable. F.S.S.

NUTRS 695: Grant Proposal Writing
(Cross-listed with FS HN). (1-0) Cr. 1. F.
*Prereq: 3 credits of graduate course work in food science and/or nutritional sciences*
Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Formation of grant writing teams in food science and/or nutritional sciences. Discussion of the role of successful grant writing in career development.

NUTRS 699: Research in Nutritional Sciences
Cr. arr. F.S.S.
Offered on a satisfactory-fail basis only.

**Plant Biology**
(Interdepartmental Graduate Major)

The Interdepartmental Plant Biology major (IPB) coordinates graduate education and research in the areas of plant biology including but not limited to plant biochemistry, plant cellular and molecular biology and plant physiology. Graduate study in IPB, leading to the M.S. and Ph.D.
Degrees, is offered through eight participating departments: Agronomy, Biochemistry, Biophysics & Molecular Biology, Chemical and Biological Engineering, Chemistry, Ecology, Evolution and Organismal Biology, Genetics Development & Cell Biology, Horticulture, and Plant Pathology.

Research conducted by the faculty and students of the major represents both basic and applied aspects of plant physiology, biochemistry and molecular biology. The experimental approaches represented in the major span the range of complexity from molecular studies, to cellular, organismal and the ecological level (crop monocultures and natural populations). Graduates have a broad understanding of basic, functional plant biology with emphases on fundamental biology, biochemistry, and molecular biology. They are able to address complex research and policy problems in agriculture, biotechnology, and basic plant biology.

All M.S. candidates take a core curriculum comprising courses recommended from the following four categories, attend research seminars, research credits (PLBIO 699 Research), annual Loomis Distinguished Lecture in Plant Biology and mini-symposium and retreats. Students will take additional courses of interest as directed by their Program of Study (POS) Committee members.

A total of 36 credits including a minimum of 16 course credits are required for a M.S.

In addition to the required core courses, a wide selection of courses
is available to IPB graduate students for broadening their scientific
education. Decisions about which courses are taken and when they are
taken are made by the student, initially in consultation with his or her
temporary advisor, and then with his or her major advisor and eventually
with the POS Committee, which also serves as the Thesis or Dissertation
Committee.

Courses primarily for graduate students, open to qualified undergraduates:

PLBIO 513: Plant Metabolism
(Cross-listed with GDCB). (2-0) Cr. 2. Alt. F., offered even-numbered years.
* Prereq: BIOL 330, PHYS 111, CHEM 331; one semester of biochemistry recommended
Photosynthesis, respiration, and other aspects of plant metabolism.

PLBIO 545: Plant Molecular, Cell and Developmental Biology
(Cross-listed with GDCB, MCDB). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
* Prereq: Biol 313, BIOL 314, BIOL 330 or BBMB 405
Plant nuclear and organelle genomes; regulation of gene expression;
hormone signaling; organization, function, and development of plant cells
and subcellular structures; regulation of plant growth and development.

Courses for graduate students:

PLBIO 696: Research Seminar
(Cross-listed with AGRON, BBMB, FOR, GDCB, HORT). Cr. 1. Repeatable.
F.S.
Research seminars by faculty and graduate students. Offered on a
satisfactory-fail basis only.

PLBIO 699: Research
Cr. arr. Repeatable.

Seed Technology and Business
(Interdepartmental Graduate Major)

The Graduate Program in Seed Technology and Business offers
students advanced study in the seed science and technology and
business management appropriate for application in the seed sector.
The program is offered by nine departments in the Colleges of
Business and Agriculture and Life Sciences: Accounting, Agronomy,
Finance, Horticulture, Logistics, Operations, and Management
Information Systems, Management, Marketing and Plant Pathology.
This multidisciplinary program offers a focused online curriculum for a
Master of Science in Seed Technology and Business, along with Graduate
Certificates in Seed Science and Technology and in Seed Business
Management.

Online Graduate Program in Seed Technology & Business

The curriculum offers a set of scientific and technical courses that are
focused on seed, with a set of basic management courses, similar to
those in the core courses of an MBA program. The business courses will
use examples drawn from the seed industry. A creative component is
required for the Master of Science degree.

Prerequisite for the program is a bachelor’s degree in business,
agriculture, other biological discipline, or related degrees. Graduate
training in these disciplines will also be considered.

Graduates of the Graduate Program in Seed Technology and Business will
be prepared for roles in management and leadership within private and
public seed and seed-related organizations.
All of the courses listed below are required for the Master of Science degree. The pace of the course sequence is designed to allow the students with work and other commitments to participate. Students will complete the creative component under the guidance of their Program of Study Committee. In many cases, the creative component topic will be associated with the student's work.

Graduates of the Master of Science curriculum will be prepared for roles in management and leadership within seed related organizations, private and public.

Graduate certificate courses may be applied to the Master of Science in Seed Technology and Business. Those interested in these graduate certificates should contact the Program for details.

Information on application procedures and specific requirements of the major can be obtained at our website: http://www.seedgrad.iastate.edu or by writing to seedgrad@iastate.edu.

Courses primarily for graduate students, open to qualified undergraduates:

**STB 501: Strategic Management**

(Cross-listed with BUSAD). (2-0) Cr. 2.
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.
Critical analysis of current practice and case studies in strategic management with an emphasis on integrative decision making. Strategy formulation and implementation will be investigated in the context of complex business environments.

**STB 503: Information Systems**

(Cross-listed with BUSAD). (2-0) Cr. 2.
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.
Introduction to a broad variety of information systems (IS) topics, including current and emerging developments in information technology (IT), IT strategy in the context of corporate strategy, and IS planning and development of enterprise architectures. Cases, reading, and discussions highlight the techniques and tactics used by managers to cope with strategic issues within an increasingly technical and data-driven competitive environment.
STB 504: Marketing and Logistics
(Cross-listed with BUSAD). (3-0) Cr. 3.
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.
Integration of the business functions concerned with the marketing and movement of goods along the supply chain with the primary goal of creating value for the ultimate customer. Coordination of marketing, production, and logistics activities within the firm and with outside suppliers and customers in the supply chain.

STB 507: Organizational Behavior
(Cross-listed with BUSAD). (2-0) Cr. 2.
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.
Understanding human behavior in organizations, and the nature of organizations from a managerial perspective. Special emphasis on how individual differences, such as perceptions, personality, and motivation, influence individual and group behavior in organizations and on how behavior can be influenced by job design, leadership, groups, and the structure of organizations.

STB 508: Accounting and Finance
(Cross-listed with BUSAD). (3-0) Cr. 3.
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.
Survey of fundamental topics in accounting and finance. Financial statement reporting and analysis for agriculture firms, corporate governance issues related to financial reporting, (e.g., Sarbanes-Oxley). Basic tools and techniques used in financial management, including stock and bond valuation. How to assess and use capital budgeting methods to evaluate proposed firm investments.

STB 509: Seed Trade, Policy and Regulation
(Cross-listed with BUSAD). (3-0) Cr. 3.
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.
Cultural, financial, economic, political, legal/regulatory environments shaping an organization’s international business strategy. Topics include entry (and repatriation) of people, firms, goods, services, and capital. Special attention to the institutions of seed regulation and policy. Ethical issues facing managers operating in an international context.

STB 510: Crop Improvement
(Cross-listed with AGRON). (3-0) Cr. 3.
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.

STB 534: Seed and Variety, Testing and Technology
(Cross-listed with AGRON). (2-0) Cr. 2.
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.
The components of seed quality and how they are assessed in the laboratory, including traits derived from modern biotechnology. The impact of new technologies on seed quality testing. Variety maintenance procedures and breeder seed. Variety identification: phenotype and grow-out trials, isozyme testing, and DNA marker testing. Procedures for evaluating varieties. The variance tests appropriate for fixed effects analysis of variance. Statistical inference and stratification for yield trials. Use of strip plot testing.

STB 535: Introduction to the Seed Industry
(Cross-listed with AGRON). Cr. 1.
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.
An analysis of the defining characteristics of the seed industry and introduction to the Master in Seed Technology and Business curriculum. The tasks of crop improvement and seed production will be analytically related to basic management functions and classifications of management activities. Management tasks and roles will be analyzed and related to the public policy issues that shape the seed industry. Current issues in the seed industry including ethical and economical approaches to biotechnology, intellectual property, and corporate responsibility will be discussed.

STB 536: Quantitative Methods for Seed
(Cross-listed with AGRON). (2-0) Cr. 2. F.
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.
Quantitative Methods for analyzing and interpreting agronomic and business information for the seed industry. Principles of experimental design and hypothesis testing, regression, correlation, analysis of variance, and graphical representation of data. Use of spreadsheets and statistical software for manipulating, analyzing and presenting data.
STB 539: Seed Conditioning and Storage  
(Cross-listed with AGRON). (2-0) Cr. 2.  
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.  
The technical operations which may be carried out on a seed lot from harvest until it is ready for marketing and use. The opportunities for quality improvement and the risks of deterioration which are present during that time. Analysis of the costs of and benefits of operations. Evaluation of equipment based on benefits to the customer and producer. Interpretation of the role of the conditioning plant and store as a focal points within the overall operations of a seed company.

STB 543: Seed Physiology  
(Cross-listed with HORT). (2-0) Cr. 2. Alt. F., offered even-numbered years.  
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.  
Brief introduction to plant physiology. Physiological aspects of seed development, maturation, longevity, dormancy and germination. Links between physiology and seed quality.

STB 547: Seed Production  
(Cross-listed with AGRON). (2-0) Cr. 2.  
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.  
Survey of crop production; including management of soil fertility, planting dates, populations, weed control, and insect control. Analysis of the principles of seed multiplication and the key practices which are used to ensure high quality in the products. Field inspection procedures and production aspects that differ from other crop production. Foundation seed production. Analysis of the typical organization of field production tasks. Survey of the differences in seed production strategies between crops and the impact of these differences on seed production.

STB 592: Seed Health Management  
(Cross-listed with PL P). (2-0) Cr. 2. Alt. S., offered even-numbered years.  
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.  
Occurrence and management of diseases during seed production, harvest, conditioning, storage, and planting. Emphasis on epidemiology, disease management in the field, seed treatment, effects of conditioning on seed health, and seed health testing. Credit may not be obtained for both PL P/STB 592 and PL P 594.

STB 595: Seed Quality, Production, and Research Management  
(Cross-listed with AGRON). (3-0) Cr. 3.  
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.  
Advanced survey of the organization, staff capabilities and management characteristics typical in seed production and crop improvement in seed enterprises. Analysis of the use of quality information in the management of seed operations and sales. Process management applications for seed. Production planning for existing capacity. Analysis of the manager’s tasks in the annual cycle and how the tasks of these managers relate to the general categories of business management roles. Difference in management strategies used with different situations and groups of employees.

STB 599: Creative Component  
Cr. 2-3.  
Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.  
A written report based on research, library readings, or topics related to the student’s area of specialization and approved by the student’s advisory committee.

Toxicology  
toxmajor@iastate.edu (/toxmajor@iastate.edu)  
Interdepartmental Graduate Major  
Toxicology is the science of studying the adverse effects of substances on living organisms. Students observe, gather data and predict risks and outcomes in populations. Whole organism research and cellular and molecular approaches are used to determine toxicant exposure and mechanisms. Work is offered for the degrees doctor of philosophy and master of science. Students majoring in toxicology will be affiliated with one of the following cooperating departments: Agricultural and Biosystems Engineering; Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemistry; Entomology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Geological and Atmospheric Sciences; Natural Resource Ecology and Management; Physics; Plant Pathology and Microbiology; Veterinary Diagnostic and Production Animal Medicine; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

The prerequisites for entrance into the graduate toxicology major include an undergraduate degree in a relevant area of study; for example, chemical engineering, biology, biochemistry, chemistry, ecology, entomology, food science and technology, microbiology, nutritional science, zoology, or veterinary medicine. Minimum undergraduate coursework should include the following or their equivalent:
• 1 year of college mathematics, including calculus
• 1 year of inorganic chemistry with quantitative analysis
• 1 course in physics
• 1 year of organic chemistry
• 2 years of biological sciences including 1 course in physiology

Other courses that are considered desirable in undergraduate preparation include: biochemistry, physical chemistry, qualitative analysis, and some specialized courses such as histology or advanced physiology.

Facilities and faculty are available for fundamental research in such areas as agricultural toxicology, drug discovery and prevention, ecotoxicology, environmental fate and effects of chemicals, insect toxicology, aquatic toxicology, food safety, nutritional toxicology, mycotoxins, neurotoxicology, cellular and molecular toxicology, reproductive toxicology, and veterinary toxicology.

Ph.D. and M.S. Students should register for TOX 689 (R) every fall and spring semester during their training.

Students majoring in toxicology will be affiliated with a cooperating department. All Ph.D. students take a core curriculum consisting of:

<table>

One member of the student’s program of study committee will be a member of the toxicology faculty.

Most students awarded doctoral degrees continue their training as postdoctoral associates at major research institutions in the U.S. or abroad in preparation for research and/or teaching positions in academia, industry, the military, veterinary research, or government environmental and public health institutions. A few go directly to permanent research positions in industry. Many students awarded master’s degrees continue their training as doctoral students; however, some choose research support positions (i.e., technician, chemist, research associate) in academia, industry, or government. A more thorough list of outcomes is available at our Web site.

Graduates of the Toxicology major will be able to carefully design, execute and analyze experiments that extend the knowledge of toxicology and closely related sciences. They will be able to clearly communicate research findings, and thoroughly evaluate the literature of toxicology, contributing significantly to the advancement of the field.

Courses primarily for undergraduates:

**TOX 354: General Pharmacology**
(Dual-listed with TOX 554). (Cross-listed with B M S). (3-0) Cr. 3. S.
Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.
TOX 401: Principles of Toxicology
(Dual-listed with TOX 501). (3-0) Cr. 3. F.
**Prereq: BBMB 404 or equivalent**
Principles of toxicology governing entry, fate, and effects of toxicants on living systems. Includes toxicokinetics and foreign compound metabolism relative to toxification or detoxification. Fundamentals of foreign compound effects on metabolism, physiology, and morphology of different cell types, tissues, and organ systems.

TOX 419: Foodborne Hazards
(Cross-listed with FS HN, MICRO). (3-0) Cr. 3. Alt. S., offered even-numbered years.
**Prereq: MICRO 201 or MICRO 302, a course in biochemistry**
Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards. Assessed service learning component. Only one of FS HN 419 and FS HN 519 may count toward graduation.

TOX 420: Food Microbiology
(Cross-listed with FS HN, MICRO). (3-0) Cr. 3. F.
**Prereq: MICRO 201 or MICRO 302**
Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications.

TOX 426: Veterinary Toxicology
(Dual-listed with TOX 526). (Cross-listed with VDPAM). (3-0) Cr. 3. S.
**Prereq: Third year classification in veterinary medicine**
Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

TOX 429: Foodborne Toxicsants
(Dual-listed with TOX 529). (2-0) Cr. 2. Alt. F., offered odd-numbered years.
**Prereq: A course in biochemistry**
Mechanisms of action, metabolism, sources, remediation or detoxification, risk assessment of major foodborne toxicants of current interest, design of HACCP plans for use in food industries targeting foodborne toxicants. Taught online only.

TOX 490: Independent Study
Cr. 1-2. Repeatable. F.S.SS.
**Prereq: Permission of instructor is required prior to registration.**
Independent study with a faculty mentor. Intended for students enrolled in the Pharmacology and Toxicology minor. Students in the Pharmacology and Toxicology minor may use no more than 9 credits of university-wide 490 credits towards the total of 120 credits required for graduation.

TOX 499: Undergraduate Research
Cr. 1-3. Repeatable, maximum of 3 credits. F.S.SS.
**Prereq: Permission of instructor is required prior to registration.**
Independent research under faculty guidance. Intended for students enrolled in the Pharmacology and Toxicology minor. Offered on a satisfactory-fail basis only. Students may use no more than 9 credits of university-wide 499 credits towards the total of 120 credits required for graduation.

Courses primarily for graduate students, open to qualified undergraduates:

TOX 501: Principles of Toxicology
(Dual-listed with TOX 401). (3-0) Cr. 3. F.
**Prereq: BBMB 404 or equivalent**
Principles of toxicology governing entry, fate, and effects of toxicants on living systems. Includes toxicokinetics and foreign compound metabolism relative to toxification or detoxification. Fundamentals of foreign compound effects on metabolism, physiology, and morphology of different cell types, tissues, and organ systems.

TOX 502: Toxicology Methods
(0-6) Cr. 3. Alt. S., offered even-numbered years.
**Prereq: TOX 501**
Provides demonstrations or laboratory experience in the application of methods used in toxicology, including safety procedures, calculation and data analysis, teratologic and morphologic evaluation, cellular/molecular toxicological techniques, electrophysiologic measures, in vitro enzyme induction/biotransformation, neural and behavioral toxicology testing.

TOX 504: Toxicology Seminar
(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.SS.
**Prereq: Permission of instructor required**
Presentation of a seminar about a current topic in toxicology as part of a weekly series of seminars by graduate students, faculty, and guest lecturers from off campus. Graduate student speakers will meet with the instructor at least one week prior to their formal presentation.
TOX 506: Diet and Cancer Prevention  
(Cross-listed with NUTRS). (1-0) Cr. 1. Alt. F., offered even-numbered years.  
Prereq: BBMB 404 and BBMB 405 or BBMB 420  
Principles of cancer biology and cancer etiology will be integrated with the impacts of diet on cancer development and prevention. Contributions of research with humans, animals, cultured cells and cell free systems will be included. The importance of dietary contaminants, macronutrients and micronutrients will be examined with an emphasis on the strength of the evidence and mechanisms of action.

TOX 515: Regulatory Toxicology  
(1-0) Cr. 1. Alt. F., offered odd-numbered years.  
Prereq: BBMB 404 or FSHN 403  
Survey of approaches used by toxicologists in government and industry for generating, enforcing and complying with laws and regulations. Regulatory policies and decision making. Toxicological risk assessment and risk analysis.

TOX 526: Veterinary Toxicology  
(Dual-listed with TOX 426). (Cross-listed with VDPAM). (3-0) Cr. 3. S.  
Prereq: Third year classification in veterinary medicine  
Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

TOX 529: Foodborne Toxicants  
(Cross-listed with FS HN). (2-0) Cr. 2. F.  
Prereq: A course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.  
Mechanisms of action, metabolism, sources, remediation/detoxification, risk assessment of major foodborne toxicants of current interest, design of HAACP plans for use in food industries targeting foodborne toxicants, discussion of toxicants from a food defense perspective. Offered online only.

TOX 546: Clinical and Diagnostic Toxicology  
(Cross-listed with VDPAM). (0-3) Cr. 1-3. Repeatable. F.S.S.  
Prereq: D.V.M. degree or VDPAM 526  
Advanced study of current problems and issues in toxicology. Emphasis on problem solving utilizing clinical, epidemiological, and laboratory resources.

TOX 550: Pesticides in the Environment  
(Cross-listed with ENT). (3-0) Cr. 3. S.  
Prereq: 9 credits of biological sciences  
Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere.

TOX 554: General Pharmacology  
(Dual-listed with TOX 354). (Cross-listed with B M S). (3-0) Cr. 3. S.  
Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405  
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

TOX 555: Methods in Biostatistics and Epidemiology  
(Cross-listed with STAT). (3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: STAT 500 or STAT 401; STAT 543 or STAT 447  
Statistical methods commonly used in epidemiology and human and animal health studies. Overview of cohort studies, case-control studies and randomized clinical trials. Topics include inference procedures for disease risk factors, analysis of time-to-event and survival data, analysis of longitudinal studies of disease progression and health status, diagnostic test evaluation, and meta-analysis. Examples will come from recent studies of physical and mental health, nutrition and disease progression in human and animal populations. Use of statistical software: SAS or R.

TOX 570: Risk Assessment for Food, Agriculture and Veterinary Medicine  
(Cross-listed with AGRON, VDPAM). (3-0) Cr. 3. Alt. F., offered odd-numbered years.  
Prereq: Statistics 300-level or higher.  

TOX 575: Cell Biology  
(Cross-listed with B M S). (3-0) Cr. 3. F.  
Prereq: 10 credits in biological science and permission of instructor  
A multi-instructor course covering major topics in cell structure and function, including: universal features of prokaryotic and eukaryotic cells, types of utilization and conversion of energy, genetic control of cell shape and functionality, internal organization of cells, communication between cells and their environment, development of multicellular systems. Students have to write a term paper.

TOX 590: Special Topics  
Cr. arr. Repeatable.  
Contact individual faculty for special projects or topics. Graded.  

Courses for graduate students:
TOX 626: Advanced Food Microbiology  
(Cross-listed with FS HN, MICRO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.  
**Prereq:** FS HN 420 or FS HN 421 or FS HN 504  
Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

TOX 627: Rapid Methods in Food Microbiology  
(Cross-listed with FS HN, MICRO). (2-0) Cr. 2. Alt. F., offered even-numbered years.  
**Prereq:** FS HN 420 or FS HN 421 or FS HN 504  
Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

TOX 656: Cellular and Molecular Pathology II  
(Cross-listed with V PTH). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
**Prereq:** Graduate course in biochemistry, genetics, or cell biology  
Cellular and molecular mechanisms of carcinogenesis.

TOX 675: Insecticide Toxicology  
(Cross-listed with ENT). (2-3) Cr. 3. Alt. F., offered even-numbered years.  
**Prereq:** ENT 555 or TOX 501  
Principles of insecticide toxicology; classification, mode of action, metabolism, and environmental effects of insecticides.

TOX 689: Current Topics in Toxicology  
Cr. R. Repeatable. F.S.  
Lecture and discussion participation on current topics in toxicology.  
An 80% attendance is expected to satisfactorily complete the course.  
Offered on a satisfactory-fail basis only.

TOX 697: Graduate Research Rotation  
(0-12) Cr. 1-12. Repeatable, maximum of 3 times. F.S.SS.  
**Prereq:** Admission to Toxicology graduate program  
Graduate research projects performed under the supervision of selected faculty members in the graduate Toxicology major.

TOX 699: Research  
Cr. arr. Repeatable. F.S.SS.  
Research.

**Transportation**  
(Interdepartmental Graduate Major)  
Work is offered for the degree master of science with a major in transportation under a cooperative arrangement with various departments including Civil, Construction and Environmental Engineering (CCEE), Community and Regional Planning (CRP), and Logistics, Operations and Management Information Systems (LOMIS). Opportunities are afforded for research in such areas as modeling and performance of transportation systems, highway safety and information systems, remote sensing, environmental analysis, techniques for urban and regional transportation system planning, environmental and social policy analysis of transportation systems, transportation policy analysis, analysis of transportation technologies, commodity distribution, public administration of the transportation planning process, regional development and transportation system interrelationships, transportation economics and finance, and planning for logistics management.

Students majoring in transportation will develop a program of study under the guidance of a program of study committee selected by the student in consultation with and approved by the chair of the faculty supervisory committee. For administrative purposes, the student’s home department will be the department originally admitting the student. A major professor may be selected from any of the three participating departments. A student must designate at least one member of the POS committee from his or her home department, and at least one member from outside the home department.

A student must complete at least 34 credits of acceptable work including preparation of a 6 credit thesis or a 2-3 credit creative component. A structured minor requires 12 credits of approved transportation courses and a thesis or creative component on a transportation related topic.

A required core includes:

</tbody>
</table>

Detailed requirements are available from the chair of the supervisory committee.

Graduate students pursuing a major in any of the cooperating departments who have an interest in transportation are encouraged to consider a formal declared minor in transportation. Students considering a declared minor should consult with the chair of the supervisory committee about the requirements for it.

Students typically focus their program of study to support a career in one of five areas: transportation consulting, regional and statewide transportation planning, transportation service operations and management, transportation policy and economic analysis, and transportation planning and operation for local and state governments. Graduates will have specific knowledge in one or more of these focus areas.
areas and the skills to conduct research and analysis of transportation issues. These skills allow graduates to be productive immediately in positions related to a focus area or to continue in more advanced transportation graduate work.

Courses primarily for graduate students, open to qualified undergraduates:

**TRANS 555: Economic Analysis of Transportation Investments**
(3-0) Cr. 3.
*Prereq: C E 350 or C E 355*
Application of economic analysis methodologies to evaluate transportation projects. Multi-modal approaches to evaluate impacts of transportation investments and maximize economic efficiency while considering equity and other social issues related to investment options.

**TRANS 599: Creative Component**
Cr. 1-3.
*Prereq: Pre-enrollment contract required*
Advanced topic for creative component report in lieu of thesis.

Courses for graduate students:

**TRANS 691: Seminar in Transportation Planning**
Cr. 1. Repeatable. S.
Provides an overview of current transportation issues; speakers provide seminars on a variety of timely transportation topics.

**TRANS 699: Research**
Cr. arr. Repeatable.

**Wind Energy Science, Engineering and Policy**

**Graduate Study**

Wind Energy Science, Engineering and Policy (WESEP) is an interdisciplinary Ph.D. program that prepares graduates for wind energy related careers in industry, academia, and government institutions. WESEP is a unique integration of engineering, science, and policy-related disciplines that provides students with an opportunity for breadth and depth in their program of study.

Students take a set of 11 courses and participate each semester in a one-credit seminar course. Of the 11 courses, two courses are introductory wind energy courses, eight are core courses, and one is an advanced specialization course in wind energy. The seminar course will address research methods and communications in science and engineering. Students are also required to pass a qualifying examination in the first 18 months of their program, a preliminary examination generally taken by the end of year three, and a final oral defense with written dissertation to complete the program.

Of the eight core courses, students select five courses from a primary thrust area, providing disciplinary depth, and three courses from a secondary thrust area, providing interdisciplinary breadth. Students can take additional courses within the other thrust areas as needed for their research, but this requirement ensures students are research-capable in two thrust areas.

**WESEP Thrust areas**

- Wind resource characterization and aerodynamics of wind farms
- Wind energy conversion system and grid operations
- Manufacturing, construction, and supply chain
- Turbine reliability & health monitoring
- Economics, policy and public perception

**Admission Requirements**

Applicants should have an undergraduate GPA of at least 3.0 (B average) and a B.S. degree from a calculus-based undergraduate curriculum. A calculus-based undergraduate curriculum is one in which students take the equivalent of two years of calculus, covering differential and integral calculus, multivariable and vector calculus, and differential equations, and one year of physics, covering mechanics, thermodynamics, electric circuits, electromagnetics, and optics. The GRE is not required. Applicants who do not meet these general standards will be evaluated on an individual basis.

Courses primarily for graduate students, open to qualified undergraduates:

**WESEP 501: Wind Energy Resources**
(3-0) Cr. 3.
*Prereq: Graduate standing*
 Forecasting, wind measurement and analysis, site placement, aerodynamic principles associated with blade design, power generation technologies, power electronic topologies used in wind energy conversion, collection circuits, and grid operation with high wind penetration.

**WESEP 502: Wind Energy Systems**
(3-0) Cr. 3.
*Prereq: Graduate standing*
Systems approach to wind turbine design, manufacturing, installation, integrated with wind economics and policy issues. Topics include manufacturing practices used to produce wind turbines, construction practices, sensing and inspection technologies used in monitoring wind farm health, and the impact of policy making on the wind energy industry.
WESEP 511: Wind Energy System Design
(Cross-listed with AER E). (3-0) Cr. 3.
Prereq: WESEP 501 and WESEP 502
Advanced design, control, and operation of wind plants. Topics include electromechanical energy conversion systems, aerodynamic and aeroelastic loads, optimal control of wind farms, life cycle management strategies, tall tower design, and prediction of component residual life.

WESEP 590: Special Topics
Cr. 1-3. Repeatable.
Advanced study of a research topic in the field of wind energy, science, engineering, and policy.

WESEP 594: Wind Energy Real-Time Research Collaborative Seminar
(1-0) Cr. 1. Repeatable. F.S.
Prereq: Graduate standing
Identifying current wind energy research issues and conducting components of the research cycle in real-time, including proposal development, investigation/analysis/discovery, publication and presentation, ethical behavior, and leadership.

Interdisciplinary Undergraduate and Graduate Programs
Locate information for each program from the A-Z catalog index.

Honors Program

Honors Program

The Honors Program provides a vehicle for motivated, academically able undergraduates to experience an innovative and challenging education. It has two components, the First-Year Honors Program for entering students and the University Honors Program for upper-division students.

Students in the First-Year Honors Program usually take five Honors credits in their first term (Engl 250H, Lib 160, Honors 121) and may participate in credit-earning research in the spring semester of their first year. In the University Honors Program, students receive a variety of academic opportunities to help them optimize their undergraduate experience. They create individualized programs of study with opportunities to incorporate independent study and research.

All Honors students must take at least two courses for Honors credit as well as two Honors seminars (listed as Hon 321-324), complete a culminating project, and maintain an overall GPA of 3.5 or higher. Depending on the college of their primary major, students may need to fulfill additional requirements. Most Honors requirements also fulfill requirements for graduation. Detailed information about college requirements is available at honors.iastate.edu/uhp/collegeRequirements.php. Students who complete their work in the Honors Program receive a notation on their transcript.

Oversight of students’ progress is carried out by the Honors Program staff and the undergraduate colleges. Each college’s Honors committee approves its students’ programs of study and project proposals. The University Honors Program Committee, which includes the chairs of the college programs, is responsible for the general coordination of the Honors Program.

Several departments offer Honors courses and Honors sections of regular courses, many with limited enrollment. Most of these are listed by department or program (see for example Engineering, English, Mathematics, Physics, and Speech Communication). In addition to taking established Honors courses, students may perform additional work in a course to receive Honors credit, subject to the agreement of the instructor and approval of the Honors Program director. Many departments offer opportunities for independent study and research under 290 and 490 (credit hours vary); when designated by an H, these carry Honors credit. Grants are available to support Honors research. Information about Honors courses and seminars in a given semester may be obtained from the Honors Program Office, 2130 Jischke Honors Building.

Courses primarily for undergraduates:

HON 121: First-Year Honors Seminar
(0-2) Cr. 1. F.
Prereq: Membership in the First-Year Honors Program
Orientation to Iowa State University and to the University Honors Program. Offered on a satisfactory-fail basis only.

HON 290: Special Problems
Cr. arr.
Prereq: Membership in and permission of the University Honors Program
Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores. Offered on a satisfactory-fail basis only.

HON 290H: Honors
Cr. 1-2. F.S.
Prereq: Membership in and permission of the University Honors Program
Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores. Offered on a satisfactory-fail basis only.
HON 290U: Undergraduate Research  
Cr. arr. F.S.  
Prereq: Membership in and permission of the University Honors Program  
Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores. Offered on a satisfactory-fail basis only.

HON 302: Honors Leadership Seminar  
(1-2) Cr. 2. F.  
Prereq: Selection as a leader of a First-Year Honors Seminar  
For students serving as leaders of First-Year Honors Seminars, under faculty supervision. Development of teaching and leadership skills within the context of an Honors education experience. Offered on a satisfactory-fail basis only.

HON 321: University Honors Seminars  
Cr. 1-2. F.S.  
Prereq: Membership in the University Honors Program  
Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

HON 322: University Honors Seminars  
Cr. 1-2. F.S.  
Prereq: Membership in the University Honors Program  
Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

HON 323: University Honors Seminars  
Cr. 1-2. F.S.  
Prereq: Membership in the University Honors Program  
Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

HON 324: University Honors Seminars  
Cr. 1-2. F.S.  
Prereq: Membership in the University Honors Program  
Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

HON 490: Independent Study  
Cr. arr. Repeatable. F.S.  
Prereq: Membership in and permission of the University Honors Program  
Independent study on topics of an interdisciplinary nature. Intended primarily for juniors and seniors.

Iowa Lakeside Laboratory  
Interinstitutional Program

Iowa Lakeside Laboratory is run cooperatively by the Iowa Lakeside Laboratory Consortium whose members include Drake University, Iowa State University, the University of Northern Iowa, and the University of Iowa. Lakeside courses can be taken for credit through all Consortium members. Students should check with their advisers to determine whether Lakeside courses can be used to satisfy major or minor requirements or college or university general education requirements.

The Laboratory was established in 1909 for the conservation and study of the rich flora and fauna of northwest Iowa, especially those of the Iowa Great Lakes region with its numerous lakes, wetlands, and prairies. Its campus is located on approximately 140 acres of restored prairie, wetland, and gallery forest along the west shore of West Okoboji Lake. Lakeside’s mission is to provide undergraduate and graduate students an opportunity to get hands-on experience working with a variety of natural and human environments through its field-oriented summer courses and to provide research facilities and support for graduate students and faculty working on research projects in northwestern Iowa. Each summer, Iowa Lakeside Laboratory offers students a unique educational experience: small, full-immersion, field-oriented courses in the natural sciences (archaeology, ecology, environmental science, hydrology, evolution, geology, soils, taxonomy). All courses meet all day from Monday through Friday. The majority of courses run for 4 weeks. Enrollments in most courses are limited to 8 to 10 students.

Courses are taught at the undergraduate (sophomore and junior) and the senior/graduate level. Students obtain one credit for each week (40 hours) in class. One and two week courses are also available, including courses designed especially for teachers. Weather permitting, students normally spend at least part of each day doing field work, either as part of their class work or working on individual or group projects. Because some courses are offered intermittently, the current Iowa Lakeside Laboratory summer brochure or the Lakeside Lab Website (www.lakesidelab.org) should be consulted for the list of courses being offered in a given summer session. The Lakeside Lab Website (www.lakesidelab.org) also contains additional information about the Laboratory and about each course being offered.

Research projects by undergraduates, graduate students and faculty can be done either on the campus or at many nearby natural areas. Undergraduate and graduate students are strongly encouraged to do independent projects at Lakeside and graduate students are welcome to use it as a base for their thesis and dissertation research. Laboratory space and other facilities are available for long-term or short-term research projects.

Teaching and research facilities include eight laboratory buildings, a library, and a lecture hall. Living accommodations include cottages, motel-style units, and a large mess hall. All students are encouraged to stay at Lakeside while they are taking courses to take full advantage of its educational, professional, and social life.
Financial Aid
Iowa Lakeside Laboratory Scholarships are available to both undergraduates and graduate students. All scholarships cover room and board. Information about how to apply for Iowa Lakeside Laboratory Scholarships is included on the Website (http://www.lakesidelab.org). Students should also consult the Student Financial Aid Office for other scholarship, work study, and loan programs for which they are eligible.

Registration
Students can only enroll in Iowa Lakeside Lab courses by submitting an Iowa Lakeside Lab Registration and Scholarship form and Housing form to the Iowa Lakeside Laboratory Administrative Office. These forms are found on the Iowa Lakeside Laboratory Website: (http://www.lakesidelab.org).

Early registration is advisable. Because enrollment in Lakeside courses is limited, students should register before May 1 for the following summer session. Housing is also limited and students must apply for housing or indicate that they plan to live off campus at the time of registration.

Courses primarily for undergraduates:

IA LL 293: Natural History Workshop
Cr. 1-2. SS.
Offered as demand warrants. Five-day-long, nontechnical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 293G: Prairies
Cr. 1-2. SS.
Offered as demand warrants. Five-day-long, nontechnical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 302: Plant-Animal Interactions
Cr. 4. Alt. SS., offered odd-numbered years.
Prereq: One course in the biological sciences
Introduction to ecology and co-evolution of plants and animals; emphasis on dispersal, pollination, and plant-herbivore interactions; field and laboratory work, reading, discussion.

IA LL 303I: Undergraduate Internships
(Cross-listed with NREM). Cr. 1-5. Repeatable. SS.
Prereq: Permission of instructor and sophomore standing
Placement with county conservation boards, camps, parks, etc. for experience as interpreters, rangers, and technicians.

IA LL 312I: Ecology
(Cross-listed with A ECL, ENSCI). Cr. 4. SS.
An introduction to the principles of ecology at the population, community and ecosystem level. Field studies of local lakes, wetlands and prairies are used to examine factors controlling distributions, interactions, and roles of plants and animals in native ecosystems.

IA LL 326I: Ornithology
(Cross-listed with A ECL). Cr. 2. SS.
The biology, ecology, and behavior of birds with emphasis on field studies of local avifauna. Group projects stress techniques of population analysis and methodology for population studies.

IA LL 333: Animals and Their Ecosystems
(4-0) Cr. 4.
Prereq: Introductory biology
Vertebrate and invertebrate animals of the Midwest are observed in nature either through passive observational techniques or active trapping exercises. Once identified, animals are placed in their proper taxonomic position (e.g., put onto the "Tree of Life"). They also are put into ecological perspective, including habitat preferences (i.e., wetland, lake, prairie, forest, river, edge), trophic position, and activity patterns. Conservation status is discussed.

IA LL 364: Biology of Aquatic Plants
Cr. 4. Alt. SS., offered even-numbered years.
A field-oriented introduction to the taxonomy and ecology of aquatic plants in lakes, wetlands and rivers. Individual or group projects.

IA LL 367: Plant Taxonomy
Cr. 4. SS.
Principles of classification and evolution of vascular plants; taxonomic tools and collection techniques; use of keys. Field and laboratory studies emphasizing identification of local flowering plants and recognition of major plant families.

IA LL 371I: Introduction to Insect Ecology
(Cross-listed with ENT). (3-3) Cr. 4. Alt. SS., offered odd-numbered years.
Field and laboratory study of insects, their diversity, life history; emphasis on ecology and behavior.

IA LL 402I: Watershed Hydrology and Surficial Processes
(Cross-listed with AGRON, ENSCI). Cr. 4. SS.
Prereq: Four courses in physical or biological sciences or engineering
Effects of geomorphology, soils, and land use on transport of water and materials (nutrients, contaminants) in watersheds. Fieldwork will emphasize investigations of the Iowa Great Lakes watershed.
IA LL 403: Evolution
Cr. 4. SS.
Mechanisms and patterns in microevolution and macroevolution. Field exercises will emphasize studies of natural selection, adaptation, genetic variation, and population genetics of local plant and animal populations.

IA LL 404I: Behavioral Ecology
(Cross-listed with A ECL). Cr. 4. Alt. SS., offered even-numbered years.
Prereq: Two semesters of biology
Animal coloniality, courtship, territoriality, predator defense, habitat selection, foraging, mating systems, and parental care will be examined in the field in order to evaluate various ecological and evolutionary theories of animal behavior.

IA LL 408I: Aquatic Ecology
(Dual-listed with IA LL 508I). Cr. 4. SS.
Prereq: Courses in ecology, chemistry, and physics
Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.

IA LL 415: Freshwater Invertebrates
Cr. 4. SS.
Prereq: One or more ecology courses

IA LL 419I: Vertebrate Ecology and Evolution
(Cross-listed with A ECL). Cr. 4. SS.
Field and laboratory study of representative vertebrates of northwestern Iowa. Observations and experimentation emphasize ecological histories by integrating concepts of functional morphology, behavioral ecology, and evolutionary biology.

IA LL 420I: Amphibians and Reptiles
(Cross-listed with A ECL). Cr. 2. Alt. SS., offered even-numbered years.
Prereq: Two semesters of biology
Ecology, behavior, and conservation biology of amphibians and reptiles with emphasis on their anatomy and morphology; temperature and water regulation; locomotion; life history; reproduction; population and community ecology; and conservation.

IA LL 421I: Prairie Ecology
(Cross-listed with ENSCI). Cr. 4. SS.
Prereq: Familiarity with basic principles in biological sciences and ecology
Basic patterns and underlying physical and biotic causes of both regional and local distributions of plants and animals of North American prairies; field and laboratory analyses and projects.

IA LL 425I: Aquatic Toxicology and Wetland Dynamics in Freshwater Systems
Cr. 2. SS.
Prereq: Introductory biology course and general chemistry course
Fundamental knowledge and understanding of the scientific concepts related to the physio-chemical and biological environment. Problems and issues (global, national, regional, and local) associated with freshwater systems and how wetland restoration can be used to ameliorate problems. Discussion and application of basic tools used to assess aquatic toxicological problems.

IA LL 427I: Field Archaeology
(Cross-listed with ANTHR). Cr. 4. SS.
Nature of cultural and environmental evidence in archaeology and how they are used to model past human behavior and land use; emphasis on Iowa prehistory; basic reconnaissance surveying and excavation techniques.

IA LL 435I: Illustrating Nature I Sketching
(Cross-listed with BPM I). Cr. 2. SS.
Sketching plants, animals and terrain. Visual communication, development of a personal style, and integration of typographic and visual elements on a page will be emphasized.

IA LL 436I: Illustrating Nature II Photography
(Cross-listed with BPM I). Cr. 2. SS.
Beginning to intermediate technical and composional aspects of color photography of natural areas and their plants and animals.

IA LL 450: Topics in Ecology and Sustainability
(Dual-listed with IA LL 550). Cr. 1-4.
Prereq: general biology course
Scientific introduction to ecology and evolution of important groups of organisms: algae to vertebrates, different ecological phenomena (e.g., fire and climate change), varying landforms, different ecosystems (e.g., prairies and aquatic systems); emphasis on sustainability with introduction to concepts, issues, and practices; ability to communicate environmental information through a variety of means.

IA LL 461I: Introduction to GIS
(Cross-listed with ENSCI, ENV S, LA). Cr. 4. SS.
Descriptive and predictive GIS modeling techniques, spatial statistics, and map algebra. Application of GIS modeling techniques to environmental planning and resource management.
IA LL 463I: Soil Formation and Landscape Relationships
(Dual-listed with IA LL 563I). (Cross-listed with AGRON, ENSCI). Cr. 2. Alt. SS., offered even-numbered years.

Prereq: AGRON 182 (or equivalent)

Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 563I may be applied for graduation.

IA LL 480I: Ecology and Systematics of Diatoms
(Dual-listed with IA LL 580I). Cr. 4. SS.
Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characters; project design and execution including construction of reference and voucher collections and data organization and analysis.

IA LL 484: Plant Ecology
Cr. 4. SS.
Principles of plant population, community, and ecosystem ecology illustrated through studies of native vegetation in local prairies, wetlands and forests. Group or individual projects.

IA LL 490I: Iowa Lakeside Laboratory
(Cross-listed with ANTHR, NREM). Cr. 1-6. Repeatable, maximum of 9 credits.

Prereq: 8 credits in biology and permission of instructor
Research opportunities for undergraduate students in the biological sciences. No more than 9 credits in Biol 490 may be counted toward graduation and of those, only 6 credits may be applied to the major.

IA LL 493: Natural History Workshop
Cr. 1-2. SS.
Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

IA LL 494: Ecosystems of North America
Cr. 2-4. SS.
Prereq: A general ecology course and permission of the instructor
An extended field trip to study a particular type of ecosystem (prairie, coastal wetland, forest, alpine, coral reefs, etc.) or the ecosystems of a specific region (Rocky Mountains, Gulf Coast, Appalachian Mountains, Deserts of the Southwest, Central America, etc.). Prior to the field trip, there will be an orientation period and after each field trip a review and synthesis period. A field trip fee will be assessed to cover travel expenses.

IA LL 499: Undergraduate Research
Cr. 1-4. Repeatable.

Prereq: Junior or senior classification and permission of instructor

Courses primarily for graduate students, open to qualified undergraduates:

IA LL 501: Freshwater Algae
Cr. 4. SS.
Structure and taxonomy of freshwater algae based on field collected material; emphasis on genus-level identifications, habitats visited include lakes, fens, streams, and rivers; algal ecology.

IA LL 503: Graduate Internships
Cr. 1-5. SS.
Prereq: Permission of instructor and graduate standing
Placement with county conservation boards, camps, parks, schools, etc. for experience as interpreters, rangers, technicians, and teachers.

IA LL 508I: Aquatic Ecology
(Dual-listed with IA LL 408I). (Cross-listed with ENSCI, ENSCI, NREM, NREM). Cr. 4. SS.

Prereq: Courses in ecology, chemistry, and physics
Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.

IA LL 523I: Fish Ecology
(Cross-listed with A ECL). Cr. 2. Alt. SS., offered even-numbered years.
Basic principles of fish interaction with the biotic and abiotic environment. Field methods, taxonomy, and biology of fish with emphasis on the fish fauna of northwestern Iowa.

IA LL 526I: Advanced Field Ornithology
(Cross-listed with A ECL). Cr. 2. SS.

Prereq: Concurrent registration in IA LL 326I
Field study of birds of the upper Midwest; extended field trip to Minnesota and Wisconsin; individual or group project.

IA LL 531I: Conservation Biology
(Cross-listed with A ECL, EEOB). Cr. 4. Alt. SS., offered even-numbered years.

Prereq: IA LL 312I
Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.
IA LL 532: Analysis of Environmental Data
(2-0) Cr. 2. SS.
Prereq: An undergraduate course in statistics, understanding of basic concepts such as correlation and regression, and familiarity with PC-based software for data analysis
Analysis of Environmental Data will provide students with training in the theory and application of a range of statistical techniques useful for the analysis of ecological and paleoecological data. Topics will include data management, exploratory data analysis, regression analysis, direct and indirect ordination methods, classification techniques, transfer functions and the analysis of temporal data. Practical classes will provide hands-on training in the use of statistical and graphical software including R, CANOCO, C2, and TWINSPAN. The course will be directed towards advanced undergraduate, graduate and working professionals in ecology and paleoecology.

IA LL 535I: Restoration Ecology
(Cross-listed with A ECL, EEOB, ENSCI). Cr. 4. Alt. SS., offered even-numbered years.
Prereq: A course in ecology
Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

IA LL 550: Topics in Ecology and Sustainability
(Dual-listed with IA LL 450). Cr. 1-4.
Prereq: general biology course
Scientific introduction to ecology and evolution of important groups of organisms: algae to vertebrates, different ecological phenomena (e.g., fire and climate change), varying landforms, different ecosystems (e.g., prairies and aquatic systems); emphasis on sustainability with introduction to concepts, issues, and practices; ability to communicate environmental information through a variety of means.

IA LL 563I: Soil Formation and Landscape Relationships
(Dual-listed with IA LL 463I). (Cross-listed with AGRON, ENSCI). Cr. 2. Alt. SS., offered even-numbered years.
Prereq: AGRON 182 (or equivalent)
Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 563I may be applied for graduation.

IA LL 564I: Wetland Ecology
(Cross-listed with EEOB, ENSCI). Cr. 4. SS.
Prereq: IA LL 312I
Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.

IA LL 573: Techniques for Biology Teaching
(Cross-listed with A ECL, EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573A: Techniques for Biology Teaching: Animal Biology
(Cross-listed with A ECL, EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573B: Techniques for Biology Teaching: Plant Biology
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573C: Techniques for Biology Teaching: Fungi and Lichens
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573D: Techniques for Biology Teaching: Aquatic Ecology
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573E: Techniques for Biology Teaching: Prairie Ecology
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.
IA LL 573F: Techniques for Biology Teaching: Wetland Ecology
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573G: Techniques for Biology Teaching: Limnology
(Cross-listed with A ECL, EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573H: Techniques for Biology Teaching: Animal Behavior
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573I: Techniques for Biology Teaching: Insect Ecology
(Cross-listed with A ECL, EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573J: Techniques for Biology Teaching: Biology of Invertebrates
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573K: Techniques for Biology Teaching: Non-invasive Use of Living Organisms
(Cross-listed with EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 573L: Techniques for Biology Teaching: Project WET
(Cross-listed with A ECL, EEOB). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.

IA LL 575I: Field Mycology
(Cross-listed with EEOB). Cr. 4. Alt. SS., offered even-numbered years.
Identification and classification of the common fungi; techniques for identification, preservation, and culture practiced with members of the various fungi groups.

IA LL 580I: Ecology and Systematics of Diatoms
(Dual-listed with IA LL 480I). (Cross-listed with EEOB). Cr. 4. SS.
Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characters; project design and execution including construction of reference and voucher collections and data organization and analysis.

IA LL 590: Graduate Independent Study
(Cross-listed with A ECL, ANTHR, EEOB). Cr. 1-4. Repeatable. SS.
Prereq: Graduate classification and permission of instructor

IA LL 590I: Special Topics: Graduate Independent Study
(Cross-listed with A ECL, ANTHR, EEOB). Cr. 1-4. Repeatable. SS.
Prereq: Graduate classification and permission of instructor

IA LL 593: Natural History Workshop
Cr. 1-3.
Prereq: Permission of instructor
Graduate workshop on some aspect of the natural history of the Upper Midwest or on techniques for studying natural history.

Courses for graduate students:

IA LL 699I: Research
(Cross-listed with A ECL, ANTHR, EEOB, GDCB). Cr. 1-4. Repeatable.

Interdisciplinary Minors
Interdisciplinary programs are administered by more than one college and/or more than one department.

See individual programs for information regarding admission and academic requirements.

Entrepreneurial Studies
Interdepartmental Undergraduate Minor
Entrepreneurial Studies is an interdisciplinary program that provides opportunities for students to learn about entrepreneurship—the process of creating value through recognizing and developing opportunities. It serves to complement the student's major area of study, in any college, by offering a means of putting theory and science into practice. The goal of the Entrepreneurial Studies program is to provide the knowledge and skills needed to create value through recognizing and developing opportunities. In addition to feasibility analysis and business planning,
the program deals with the topics of innovation, opportunity recognition, technology transfer, industry analysis, and competitive strategy. Although the program introduces some fundamental concepts from accounting, finance, marketing, and management, it does not attempt to substitute for any business courses in these areas.

A minor in entrepreneurial studies is available to all undergraduate students at ISU. Students must follow college specific rules in selecting courses. The college representatives to the supervisory committee will be responsible for advising students in their college, and will inform students about the details of the college rules.

A student seeking a minor in entrepreneurial studies must successfully complete a minimum of 15 credits in courses approved for use in the entrepreneurial studies program, including:

</tbody>
</table>

MGMT 310 Entrepreneurship and Innovation is the introductory course and provides an overview of the entire field.

MGMT 313 Feasibility Analysis and Business Planning emphasizes developing an idea for a new venture, conducting a feasibility study, researching the potential market, analyzing the competition, and preparing a formal business plan.

Students take two entrepreneurship-oriented electives (6 cr.) from an approved course list and must also take 3 cr. of experiential learning. Up to six of the 15 credits required for the minor may also be used in the student's required program of study. Detailed information about the minor and the list of approved electives is available online at http://www.business.iastate.edu/undergraduate/prospective-students/choosing-your-major/minors/entrepreneurial-studies-minor/.

**Graduate Certificate**

An interdisciplinary graduate certificate in entrepreneurship and innovation is available to post-graduate students from any discipline. The program provides students an opportunity to learn about entrepreneurship, innovation, and the new venture creation process and to develop business skills that can be used to start a business. The program is flexible so that students can design a program that provides core entrepreneurship education through one required business management course as well as discipline-specific training from entrepreneurship courses in other colleges. Some of these courses for this certificate may be available online.

Students seeking this Graduate Certificate must meet minimum university criteria for admission to graduate programs. Students interested in the Entrepreneurship and Innovation Certificate must successfully complete a minimum of 12 credits in courses approved for use in the certificate program, including one required course, MGMT 566 Entrepreneurship and New Business Creation and three entrepreneurship-oriented electives (9 cr.) chosen from an approved course list. MGMT 566 Entrepreneurship and New Business Creation focuses on the essentials of starting and operating a new business. Additional information as well as the list of approved electives can be found on the certificate website at http://www.business.iastate.edu/masters/graduate-certificates/entrepreneurship-and-innovation/.

**Sustainability Minor**

Sustainability is often defined as "meeting the needs of today without compromising the ability of future generations to meet their own needs." The minor in sustainability at Iowa State University is available to any ISU student who wants to further learn about sustainability issues affecting humans today and in the future.

The interdisciplinary minor in sustainability exposes students to ideas and issues related to a sustainable, balanced and ethical future for the planet and its inhabitants. The minor is at the interplay between environmental, social and economic factors in improving the quality of human life within the capacity of supporting ecosystems.

The minor will help students understand the dynamics of biological population growth and decline in the natural world, predator-prey models, over-exploitation of natural resources, energy balances, and much more. Students also will learn how human behavior affects the natural world and the ability of earth to sustain life.

In addition, students in the minor will understand how the decisions they make as consumers, workers, resource owners, citizens and policymakers affect human welfare in this and future generations. Students also will be able to articulate why some environmental, social and economic profiles are sustainable and others are not.

The minor will provide students knowledge sufficient to apply sustainable practices in their personal and professional lives.

The colleges of Agriculture and Life Sciences, Design, Engineering, and Liberal Arts and Sciences sponsor the minor in sustainability.

**Requirements for the minor in sustainability**

The minor in sustainability may be earned by completing a total of 15 credits including two required courses and nine elective credits from an approved list. Of the nine elective credits, at least six credits must be at the 300 level or higher.

Wind Energy

The wind energy minor is primarily intended for students majoring in engineering or atmospheric sciences, but is available to all that meet the prerequisites, Math 166 and Physics 222. The minor is comprised of 15 credits, of which 6 are required of all students obtaining the minor. As per the University Catalog, at least 9 credits cannot be used to satisfy any other degree, program or University requirement.

Importance of Wind Energy Minor

Wind energy is a pivotal component of our nation’s future energy portfolio, particularly given the desire to reduce the carbon footprint through the use of renewables. The Midwest region is among the richest wind regions in the nation, with Iowa being the second leading state in the nation as measured by installed wind capacity of 3670 MW, after Texas. This minor will help provide this industry (planners, manufacturers, developers, utilities, and maintenance providers) with technical students with the knowledge and understanding of the science, engineering and policy of wind energy.

Student Learning Outcomes

The objectives of the proposed minor are to provide a broad understanding of the wind energy industry from component design and
manufacturing, electric generation, transmission, and grid operations, to policy.

- Communicate objectives of a long-term national energy portfolio and how wind energy will contribute to meeting those objectives
- Understand the wind energy systems and design trade offs for the large components (e.g., blade, turbine, tower, and foundation)
- Manufacturing and supply chain considerations for economic production.
- Identify problems and potential solutions associated with integrating high wind penetrations into the electric grid.
- Communicate most significant reliability problems for wind turbines and be conversant with related monitoring technologies and maintenance methods to address them.
- Identify effects of existing and potential policies on wind energy growth

Learning outcomes will be assessed using tests, quizzes, homework and term papers.

**How to Apply**

2. Obtain a signature from your academic adviser.
3. Submit the form to Dr. Frank Peters.
COLLEGES AND SCHOOLS

Undergraduate and Professional Degree Programs

The university is organized into eight colleges, including the Graduate College. Six colleges offer undergraduate degree programs, and the College of Veterinary Medicine offers the Doctor of Veterinary Medicine degree. The Graduate College (http://www.grad-college.iastate.edu) website provides a complete listing (http://www.grad-college.iastate.edu/academics/programs/apprograms.php) of graduate majors, minors, certificates and programs.

Iowa State University is accredited by the Higher Learning Commission.

ENTRY LEVEL COURSES

Resources for Course Information
http://catalog.iastate.edu/azcourses/
http://classes.iastate.edu

Additional experimental courses: courses not published in the catalog.

The following courses are suitable for first year students. Course numbers that begin with 0 (e.g., MATH 010) may incur an additional "developmental course" fee. See the Tuition and Fees web site for more information about other fees (http://www.registrar.iastate.edu/fees/othfee).

A B E 160: Systematic Problem Solving and Computer Programming
(2-2) Cr. 3. S.
Prereq: Credit or enrollment in MATH 143 or MATH 165
Engineering approach to problem solution and presentation in the context of real world problems. Introduction to basic principles from statics, projectile motion, conservation of mass and energy and electricity and magnetism. Use of spreadsheet programs and computer programming language(s) to solve and present engineering problems. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CPR E 185, EE 185, IE 148, M E 160 and S E 185 may count towards graduation.

A B E 170: Engineering Graphics and Introductory Design
(2-2) Cr. 3.
Applications of multi-view drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports.

A M D 131: Fashion Products and Markets
(3-0) Cr. 3. F.

A M D 165: Dress, Appearance, and Diversity in Society
(3-0) Cr. 3. F.S.
Examination of diversity among consumers and introduction to forecasting trends in dress. Introduction to social justice issues.
Meets U.S. Diversity Requirement

ADVRT 230: Advertising Principles
(3-0) Cr. 3.
Historical, social, economic and legal aspects of advertising. Evaluations of advertising research, media, strategy and appeals. Study of the creation of advertising.

AER E 160: Aerospace Engineering Problems With Computer Applications Laboratory
(2-2) Cr. 3. F.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

AF AM 201: Introduction to African American Studies
(3-0) Cr. 3. F.S.
An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience.
Meets U.S. Diversity Requirement

AFAS 141: Foundations of the United States Air Force
(1-0) Cr. 1. F.

AGRON 120: Introduction to Renewable Resources
(Cross-listed with ENV S, NREM). (3-0) Cr. 3. F.S.
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

AGRON 180: Global Agriculture in a Changing World
(3-0) Cr. 3. F.
A scientific investigation of the global distribution of climate, soils and agricultural production and consumption. Physical processes that connect natural resources to agriculture and the environment. How global change drives increasing demand for agricultural production. Meets International Perspectives Requirement

AGRON 206: Introduction to Weather and Climate
(Cross-listed with MTEOR). (3-0) Cr. 3. F.S.
Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.
AM IN 210: Introduction to American Indian Studies  
(3-0) Cr. 3. F.S.S.S.  
Introduction to the multidisciplinary aspects of American Indian Studies. Topics include the relevant events and ideas defining the contemporary American Indian experience, on and off reservation, in the United States. Sovereignty, identity, jurisdiction, taxes, economic development, education, and other issues are addressed.  
Meets U.S. Diversity Requirement.

AN S 101: Working with Animals  
(1-2) Cr. 2. F.S.  
A hands-on introductory course in skills for proper care and management of domestic animals. Husbandry skills including health observation, animal movement, identification, management procedures, and environmental assessment are covered.

AN S 114: Survey of the Animal Industry  
(2-0) Cr. 2. F.S.  
Ways domestic animals serve the basic needs of humans for food, shelter, protection, fuel, and emotional well-being. Terminology, basic structures of the industries surrounding the production, care, and marketing of domestic animals in the U.S.

ANTHR 201: Introduction to Cultural Anthropology  
(3-0) Cr. 3. F.S.S.S.  
Comparative study of culture as key to understanding human behaviors in different societies. Using a global, cross-cultural perspective, patterns of family life, economic and political activities, religious beliefs, and the ways in which cultures change are examined.  
Meets International Perspectives Requirement.

ANTHR 202: Introduction to Biological Anthropology and Archaeology  
(3-0) Cr. 3. F.S.  
Human biological and cultural evolution; survey of the evidence from fossil primates, the human fossil record and the archaeological record, as well as living primates; introduction to research methods in archaeology and biological anthropology.

ANTHR 230: Globalization and the Human Condition  
(3-0) Cr. 3. F.S.  
An introduction to understanding key global issues in the contemporary world. Focuses on social relations, cultural practices and political-economic linkages among Africa, the Americas, Asia, Europe and the Pacific.  
Meets International Perspectives Requirement.

ARCH 221: History of Pre-Modern Architecture  
(3-0) Cr. 3. F.  
Survey of pre-modern western architectural ideas and practices in their social, cultural, and representational contexts. Comparisons with global examples. Ancient through 1750.  
Meets International Perspectives Requirement.

ART H 280: History of Art I  
(3-0) Cr. 3. F.  
Development of the visual arts including painting, sculpture, architecture, and crafts, from the prehistoric through Gothic periods.  
Meets International Perspectives Requirement.

ART H 292: Introduction to Visual Culture Studies  
(3-0) Cr. 3.  
An introduction to various topics in visual culture studies, including significant trends in the visual arts, mass media, scientific imagery, visual communications, and other areas related to visual literacy and visual representation in local and global contexts. Cross cultural viewpoints and issues of diversity will be presented in relation to visual culture.  
Meets U.S. Diversity Requirement.

ASTRO 103: Evening Star  
Cr. 1. F.S.  
An entirely web-based course covering topics in celestial mechanics ("Rocket science!") for students with little or no previous experience. It combines the geography of the solar system with discussion of methods of traveling to the other planets. The course "lectures" are online, interactive units with built-in exercises, hands-on (offline) activities, and layers of help. Graded homework and quizzes are administered via Blackboard Learn. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 120: The Sky and the Solar System  
(3-0) Cr. 3. F.S.S.S.  
For the nonscientist. A survey of our view of the universe, and the exploration of the solar system and beyond. The sky: constellations; motions of the Sun, Moon, and planets; seasons and the calendar; eclipses. The solar system: origin and evolution; characteristics of the Sun, planets, satellites, comets, meteorites, and asteroids. The detection and characterization of other solar systems, and the search for life in the universe. Extensive use of the planetarium is included. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.
ASTRO 150: Stars, Galaxies, and Cosmology
(3-0) Cr. 3. F.S.
For the nonscientist. A survey of astronomy with a focus on the universe beyond our solar system. Basic observational astronomy and the history of astronomy. Stellar astronomy: motions, distances, sizes, spectra; types of stars; variability; binary systems. Stellar evolution: the birth, life, and death of stars, including supernovae, neutron stars, and black holes. The structure and evolution of the Milky Way Galaxy. Other galaxies, clusters of galaxies, quasars. Theories of the origin of the universe.

BBMB 101: Introduction to Biochemistry
(1-0) Cr. 1. F.
Research activities, career opportunities in biochemistry and biophysics, and an introduction to the structure of biologically important compounds. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

BIOL 101: Introductory Biology
(3-0) Cr. 3. F.S.SS.
Life considered at cellular, organism, and population levels. Function and diversity of the living world. Presentation of basic biological principles as well as topics and issues of current human interest. Does not satisfy biology major requirements.

BIOL 155: Human Biology
(3-0) Cr. 3. F.S.
A survey course of human biology, including principal structures and functions of the body systems and the diseases and disorders associated with them. Designed to meet general education requirements in natural science. Not recommended for those seeking a career in the allied health professions or for students majoring in life science. Does not satisfy biology major requirements.

BIOL 173: Environmental Biology
(Cross-listed with ENV S). (3-0) Cr. 3. F.S.
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Does not satisfy biology major requirements.

BIOL 211: Principles of Biology I
(3-0) Cr. 3. F.S.
Prereq: High school biology
Introduction to the nature of life, including the diversity of microbial, plant, and animal life; the nature of heredity; evolution; and principles of ecology. Intended for life science majors.

BIOL 211L: Principles of Biology Laboratory I
(0-3) Cr. 1. F.S.
Prereq: Credit or enrollment in BIOL 211
Laboratory to accompany 211.

BIOL 212: Principles of Biology II
(3-0) Cr. 3. F.S.
Prereq: High School Biology, high school chemistry or credit or enrollment in CHEM 163 or CHEM 177
Introduction to the chemical, molecular, and cellular basis of life; form and function of microbial, plant, and animal life. Intended for life science majors.

BIOL 212L: Principles of Biology Laboratory II
(0-3) Cr. 1. F.S.
Prereq: credit or enrollment in BIOL 212
Laboratory to accompany 212.

BIOL 255: Fundamentals of Human Anatomy
(3-0) Cr. 3. F.
Prereq: High School Biology and Chemistry, or BIOL 101
An introduction to human anatomy, beginning with cells and tissues, surveying all body systems, relating form to function. Systems covered include: integumentary, bones and joints, muscles, nervous, sensory, endocrine, circulatory, lymphatic, respiratory, digestive, urinary, and reproductive. Pre-Medical students should consider Biol 351 for their anatomy background. Does not satisfy biology major requirements.

BIOL 255L: Fundamentals of Human Anatomy Laboratory
(0-3) Cr. 1. F.
Prereq: Credit or enrollment in BIOL 255
Investigation of human anatomy using models and dissections of preserved organs and model mammals. Pre-Medical students should consider 351 for their anatomy background. Does not satisfy biology major requirements.

BUSAD 102: Business Learning Team Orientation
(1-0) Cr. 1. F.S.
A required orientation for all College of Business Students involved with a Business Learning Team. Review of college and university requirements, transfer credits, academic planning, university policies and deadlines and registration procedures. Includes a consideration of various business majors and careers, tools for success in college including writing skills and presentations from employers, alumni and current students. Only one of BusAd 102 or BusAd 103 may be counted towards graduation.
BUSD 103: Orientation
(1-0) Cr. 1. F.S.
A required orientation for all College of Business students. Review of college and university requirements, transfer credits, academic planning, university policies and deadlines, and registration procedures. Includes group advising for course selection and registration. Only one of BUSAD 102 or BUSAD 103 may be counted toward graduation.

CE 160: Engineering Problems with Computational Laboratory
(2-2) Cr. 3. F.S.
Prereq: Credit or enrollment in MATH 165

CE 170: Graphics for Civil Engineering
(0-4) Cr. 2. F.S.
Fundamental graphics. Introduction to computer aided drafting and modeling. Civil engineering applications.

CRP 201: The North American Metropolis
(3-0) Cr. 3. F.S.
Examination of the evolution of American urban centers from the colonial era to the present. Considers the demographic changes and social movements underway in urban America and explores how an understanding of the history of cities provides us with knowledge that we can use to improve our cities today.
Meets U.S. Diversity Requirement

CRP 251: Fundamentals of Geographic Information Systems
Cr. 3. F.
Fundamentals of the concepts, models, functions and operations of Geographic Information Systems (GIS). Principals of spatial problems, spatial questions and hypotheses and their solutions based on spatial data, GIS tools and techniques. Integration of concepts and applications through lectures and facilitated labs. Applications from a variety of areas including design; physical, social, and human science; engineering; agriculture; business and medicine, landscape architecture, architecture, urban planning, geology, forestry, biology, and ecology.

CHEM 160: Chemical Engineering Problems with Computer Applications Laboratory
(2-2) Cr. 3. F.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

CHEM 050: Preparation for College Chemistry
(3-0) Cr. 0. F.S.
Prereq: 1 year high school algebra
An in-depth active learning experience designed to impart the fundamental concepts and principles of chemistry, with an emphasis on mathematics skills and logical thinking. For students intending to enroll in general chemistry and who have not taken high school chemistry or who have not had a high school college preparatory chemistry course who need a review of chemical problem solving and chemical concepts. Credit for Chem 50 does not count toward graduation.

CHEM 160: Chemistry in Modern Society
(3-0) Cr. 3. F.S.
Aspects of chemistry visible to a non-scientist in our society. A survey of selected areas of chemistry with emphasis on the interface between chemistry and other fields of human activity.

CHEM 163: College Chemistry
(4-0) Cr. 4. F.S.SS.
Prereq: 1 year of high school algebra and geometry and Chem 50 or 1 year of high school chemistry; and credit or enrollment in CHEM 163L
A general survey of chemistry with an emphasis on conceptual problems for those who are not physical and biological science or engineering majors. Nomenclature, chemical reactions, stoichiometry, atomic structure, periodic properties, chemical bonding, states of matter, solutions, thermochemistry, acid-base theory, oxidation-reduction reactions, basic chemical kinetics, and chemical equilibrium. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 163L: Laboratory in College Chemistry
(0-3) Cr. 1. F.S.SS.
Prereq: Credit or enrollment for credit in CHEM 163
Laboratory to accompany CHEM 163. Must be taken with CHEM 163. Only one of Chem 163L, CHEM 167L, and CHEM 177L may count toward graduation.
CHEM 167: General Chemistry for Engineering Students
(4-0) Cr. 4. F.S.
Prereq: 1 year of high school chemistry or CHEM 50 and Math 143 pre-calculus or high school equivalent.
Principles of chemistry and properties of matter explained in terms of modern chemical theory with emphasis on topics of general interest to the engineer. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 177: General Chemistry I
(4-0) Cr. 4. F.S.SS.
Prereq: MATH 140 or high school equivalent, and CHEM 50 or 1 year high school chemistry, and credit or enrollment in CHEM 177L. Chemistry and biochemistry majors may consider taking CHEM 201
The first semester of a two semester sequence which explores chemistry at a greater depth and with more emphasis on concepts, problems, and calculations than 163. Recommended for physical and biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Principles and quantitative relationships, stoichiometry, chemical equilibrium, acid-base chemistry, thermochemistry, rates and mechanism of reactions, changes of state, solution behavior, atomic structure, periodic relationships, chemical bonding. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 177L: Laboratory in General Chemistry I
(0-3) Cr. 1. F.S.SS.
Prereq: Credit or enrollment for credit in CHEM 177 Laboratory to accompany 177. 177L must be taken with 177. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177N: Laboratory in General Chemistry I
(0-3) Cr. 1. F.
Prereq: Credit or enrollment for credit in CHEM 177. For chemistry and biochemistry majors
Laboratory to accompany CHEM 177. CHEM 177N must be taken with CHEM 177. Only one of Chem 163L, CHEM 167L, and CHEM 177N may count toward graduation.

CHEM 178: General Chemistry II
(3-0) Cr. 3. F.S.SS.
Prereq: CHEM 177, CHEM 177L
Continuation of 177. Recommended for physical or biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses.

CHEM 201: Advanced General Chemistry
(5-0) Cr. 5. F.
Prereq: Co-enrollment in MATH 165 or credit, one year of high school chemistry, and one year high school physics or advanced chemistry. Co-enrollment in CHEM 201L.
A one-semester course in general chemistry designed to give students an in-depth, broad-based view of modern chemistry, and, in part, to facilitate participation in independent undergraduate research. Topics include stoichiometry, atomic and molecular structure, chemical bonding, kinetics, chemical equilibria, and thermodynamics. Discussion of current trends in various chemical disciplines, which may be given by guest experts in chemistry, biochemistry, and chemical engineering, will help the student appreciate the scope of the chemical sciences and how research is carried out. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHIN 101: Elementary Mandarin Chinese I
(4-0) Cr. 4. F.
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.

CHIN 201: Intermediate Mandarin Chinese I
(4-0) Cr. 4. F.
Prereq: CHIN 102
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition. Meets International Perspectives Requirement.

CJ ST 240: Introduction to the U.S. Criminal Justice System
(3-0) Cr. 3. F.
Provides systematic overview of law, police organization and behavior, prosecution and defense, sentencing, the judiciary, community corrections, penology, and capital punishment. The course demonstrates the role of discretion in all of these agencies as well as the sociological influences of age, race, gender, and social class on criminal justice system processes.

CJ ST 241: Youth and Crime
(Cross-listed with SOC). (3-0) Cr. 3. F.
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents’ rights, and traditional and alternative ways of dealing with juvenile crime.
CL ST 273: Greek and Roman Mythology  
(3-0) Cr. 3.  
Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories.  
Meets International Perspectives Requirement.

COM S 101: Orientation  
Cr. R. F.S.  
Introduction to the computer science discipline and code of ethics, Com S courses, research and networking opportunities, procedures, policies, help and computing resources, extra-curricular activities offered by the Department of Computer Science and Iowa State University. Discussion of issues relevant to student adjustment to college life. Offered on a satisfactory-fail basis only.

COM S 103: Computer Literacy and Applications  
Cr. 4. F.S.SS.  
Introduction to computer literacy and applications. Literacy: Impact of computer technology in today's societies, hardware, software, software programming, database and information systems, communication and networks, digital media technology, computer security and safety, ethics and privacy. Applications: In-depth hands-on experience with the operating systems, Microsoft word processing, spreadsheets, database management and presentation software. No prior computer experience necessary. Offered online only. Attendance required at an orientation session the first week of class.

COM S 104: Brief Introduction to Computer Programming for Non-Majors  
(1.5-1) Cr. 2. F.S.  
Offered first 8 weeks and last 8 weeks. Use of personal computer and workstation operating systems and beginning programming. Project-oriented approach to computer operation and programming, including use of tools to aid in programming. Topics from computer history, using basic Windows and Unix tools, program structure, expression, variables, decision and logic, and iteration. No prior computer experience necessary.

COM S 107: Windows Application Programming  
(3-0) Cr. 3. F.S.  
Introduction to computer programming for non-majors using a language such as the Visual Basic language. Basics of good programming and algorithm development. Graphical user interfaces.

COM S 113: Introduction to Spreadsheets and Databases  
(2-2) Cr. 3. F.S.SS.  
Using Microsoft Excel spreadsheets and Microsoft Access databases to input, store, process, manipulate, query, and analyze data for business and industrial applications. Credit in Com S 113 may not be applied toward graduation in the COM S, S E, and CPR E majors.

COM S 207: Fundamentals of Computer Programming  
(Cross-listed with MIS). (3-1) Cr. 3. F.S.SS.  
Prereq: MATH 150 or placement into MATH 140 or higher  
An introduction to computer programming using an object-oriented programming language. Emphasis on the basics of good programming techniques and style. Extensive practice in designing, implementing, and debugging small programs. Use of abstract data types. Interactive and file I/O. This course is not designed for computer science, software engineering, and computer engineering majors. Credit may not be applied toward graduation for both Com S 207/MIS 207 and Com S 227.

COM S 227: Object-oriented Programming  
(3-2) Cr. 4. F.S.SS.  
Prereq: Credit or Enrollment in MATH 143 or higher; recommended: a previous high school or college course in programming or equivalent experience.  
Computer programming using objects as the mechanism for modularity, abstraction, and code reuse. Instance variables, methods, and encapsulation. Review of control structures for conditionals and iteration. Developing algorithms on strings, arrays, and lists. Recursion, searching, and sorting. Text parsing and file I/O. Interfaces, inheritance, polymorphism, and abstract classes. Exception handling. Tools for unit testing and debugging. Emphasis on a disciplined approach to specification, code development, and testing. Course intended for Com S majors. Credit may not be applied toward graduation for both Com S 207 and 227.

COM S 228: Introduction to Data Structures  
(3-1) Cr. 3. F.S.SS.  
Prereq: Minimum of C- in COM S 227, credit or enrollment in MATH 165  
An object-oriented approach to data structures and algorithms. Object-oriented analysis, design, and programming, with emphasis on data abstraction, inheritance and subtype polymorphism, and generics. Abstract data type specification and correctness. Collections including lists, stacks, queues, trees, heaps, maps, hash tables, and graphs. Big-O notation and algorithm analysis. Searching and sorting. Graph search and shortest path algorithms. Emphasis on object-oriented design, writing and documenting medium-sized programs. This course is designed for majors.
COMST 101: Introduction to Communication Studies
(3-0) Cr. 3.
An introduction to communication theory, the development and functions of communication, and a survey of verbal, nonverbal, interpersonal, small group, organizational, and intercultural communication.

COMST 102: Introduction to Interpersonal Communication
(3-0) Cr. 3.
Application of communication principles, theory, and research to the process of interpersonal communication; includes verbal and nonverbal communication, listening, and conflict management. Particular emphasis given to using communication to manage interpersonal relationships.

CPR E 131: Introduction to Computer Security Literacy
(Cross-listed with INFAS). (1-0) Cr. 1.
Basic concepts of practical computer and Internet security: passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

CPR E 185: Introduction to Computer Engineering and Problem Solving I
(2-2) Cr. 3.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

DANCE 270: Dance Appreciation
(3-0) Cr. 3. F.S.
Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required. Meets International Perspectives Requirement.

DES 230: Design Thinking
(3-0) Cr. 3. F.S.
Introduction to the phenomenon of design thinking as it appears in various design fields, including methodologies of reasoning and problem solving; patterns of creativity and individual style; and the interaction of art, science, and technology.

DS 201: Introduction to Data Science
Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.
Prereq: 1-1/2 Years of High School Algebra
Data Science concepts and their applications; domain case studies with applications in various fields; overview of data analysis; major components of data analysis pipelines; computing concepts for data science; descriptive data analysis; hands-on data analysis experience; communicating findings to stakeholders, and ethical issues in data science.

DSN S 102: Design Studio I
(1-6) Cr. 4.
A foundation design studio exploring two and three-dimensional design. Emphasis on fundamental skills and ideas shared across design disciplines. Creative processes, visual order, materials, and critical thinking are investigated through studio projects. Lectures and discussions cover the topics introduced in studios.

DSN S 115: Design Collaborative Seminar
(1-0) Cr. 0.5.
Prereq: Member of Design Collaborative Learning Community
Orientation to the College of Design. Introduction to the design disciplines and studio pedagogy. Offered on a satisfactory-fail basis only.

DSN S 131: Drawing I
(1-6) Cr. 4.
An introduction to methods of visual thinking and drawing through studio experiences and lectures. All design fields utilize visual communication and drawing. Focus on the use of drawing as a method for creative problem solving, design development and visual communication. Explore, from observation and imagination, the use of fast sketching and in-depth drawing, using various scales, mediums and processes.

DSN S 183: Design in Context
(3-0) Cr. 3.
Explores designed media, objects, places, spaces, structures, and systems as products of varied and often intersecting contexts. Using historical and contemporary case studies, investigates how cultural, economic, environmental, spatial, social, and temporal contexts, among others, affect design. Explores in particular how design addresses complex and multifaceted problems.

DSN S 232: Digital Design Communications
(3-0) Cr. 3.
Introductory investigations of various digital design media to develop multi-dimensional problem solving, digital communication skills and perceptual sensitivity. Open to all university majors.
**E E 185: Introduction to Electrical Engineering and Problem-Solving I**
*(2-2) Cr. 3. F.S.*
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

**ECON 101: Principles of Microeconomics**
*(3-0) Cr. 3. F.S.S.S.*

**ECON 101L: Laboratory in Principles of Microeconomics**
*(0-2) Cr. 1. F.*
Prereq: Concurrent enrollment in the appropriate section of ECON 101
Discussion of material typically covered in Econ 101. Application of economic principles to real world problems. Economic principles and basic business management concepts applied to decision-making in agribusiness operations.

**ECON 102: Principles of Macroeconomics**
*(3-0) Cr. 3. F.S.S.*
Prereq: ECON 101 recommended

**ECON 235: Introduction to Agricultural Markets**
*(3-0) Cr. 3. F.S.*
Prereq: ECON 101
Basic concepts and economics principles related to markets for agricultural inputs and products. Overview of current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. The implications of consumer preferences at the farm level. Introduction to hedging, futures, and other risk management tools.

**EDUC 204: Social Foundations of Education in the United States: Secondary**
*(3-0) Cr. 3. F.S.S.S.*
Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis is placed on topics and tensions in the relationship between school and society (e.g. equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning at the secondary level in public schools. For prospective teachers in an ISU Secondary Education teacher preparation program; open to students who are considering teaching and/or work in education as a career path. Students in Early Childhood and Elementary Education programs should take CI 205.

**EDUC 205: Social Foundations of Education in the United States: Early Childhood and Elementary Education**
Cr. 3. F.S.
Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis on topics and tensions in the relationship between school and society (e.g., equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning in public schools.

**EDUC 219: Orientation to Teacher Education: Math, Science, FCS Education, and History/Social Science Majors**
Cr. 1. F.S.
Prereq: Students seeking teacher licensure in mathematics, science family and consumer sciences, or history/social sciences in grades 5-12
Overview of mathematics, science, family and consumer sciences and history/social sciences secondary education (grades 5-12), teacher licensure requirements in Iowa and other states. Program and career planning. Offered on a satisfactory-fail basis only.

**ENGL 099S: Strategies for Nonnative Speakers of English: Academic Speaking and Pronunciation**
Cr. 0. F.S.
Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department’s option
ENGL 101B: English for Native Speakers of Other Languages: Academic English  
(3-0) Cr. 3. F.S.  
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)  
For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 101C: English for Native Speakers of Other Languages: Academic English II--Undergraduates  
(3-0) Cr. 3. F.S.  
Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)  
For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from ENGL 101 does not count toward graduation.

ENGL 150: Critical Thinking and Communication  
(3-0) Cr. 3. F.S.SS.  
Prereq: Concurrent enrollment in LIB 160 is recommended.  
Application of critical reading and thinking abilities to topics of civic and cultural importance. Introduction of basic oral, visual, and electronic communication principles to support writing development. Initiation of communication portfolio.

ENGL 201: Introduction to Literature  
(3-0) Cr. 3.  
Prereq: Credit in or exemption from 150  
Study of selected examples of drama, poetry, short fiction, and the novel drawn from both British and American literature. Recommended for nonmajors.

ENGL 214: Introduction to Technical Communication  
Cr. 3. F.  
Prereq: ENGL 150  
A broad introduction to the culture of professional work as a technical communicator, with particular emphasis on principles and best practices for developing and managing technical information and digital media. Examination of user-centered design, the history of the discipline, cross-cultural communication, and the ethics of communicating complex information to lay audiences. Study and practice of team-based collaboration, project management, and technical editing.

ENGL 225: Survey of British Literature to 1800  
(3-0) Cr. 3.  
Prereq: ENGL 250  
Representative works of British literature from the origins to 1800 in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 226: Survey of British Literature since 1800  
(3-0) Cr. 3.  
Prereq: ENGL 250  
Representative works from 1800 to the present in historical, cultural, and literary contexts. Will include multiple genres and may include texts that reflect and/or critique the impact and legacy of the British empire on its former colonies, i.e., postcolonial literature.

ENGL 237: Survey of Film History  
(3-0) Cr. 3. F.  
Prereq: Credit in or exemption from 150  
A survey of the history of film, both U.S. and international, from the beginnings in the late nineteenth century to the present.

ENGL 240: Introduction to American Indian Literature  
(Cross-listed with AM IN). (3-0) Cr. 3. F.  
Prereq: Credit in or exemption from ENGL 150  
Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works. Meets U.S. Diversity Requirement

ENGL 250: Written, Oral, Visual, and Electronic Composition  
(3-0) Cr. 3. F.S.SS.  
Prereq: ENGL 150 or exemption from ENGL 150; sophomore classification or exemption from ENGL 150; credit for or concurrent enrollment in LIB 160  
Analyzing, composing, and reflecting on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on supporting a claim and using primary and secondary sources. Continued development of communication portfolio. The University requires a minimum grade of C in ENGL 250 to meet the Communication Proficiency graduation requirement; some majors/degree programs may set higher standards.

ENGL 275: Analysis of Popular Culture Texts  
(Cross-listed with SP CM). (3-0) Cr. 3. F.S.  
Prereq: Credit in or equivalent of 250  
Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.
ENGR 160: Engineering Problems with Computer Applications Laboratory  
(2-2) Cr. 3. F.S.S.  
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations  
Solving engineering problems and presenting solutions through technical reports. Significant figures. Use of SI units. Graphing and curve-fitting. Flowcharting. Introduction to mechanics, statistics and engineering economics. Use of spreadsheet programs to solve and present engineering problems. Solution of engineering problems using computer programming languages. (The honors section includes application of programming to mobile robotics).

ENT 201: Introduction to Insects  
(1-0) Cr. 1. F.S.S.  
5 weeks. Classroom section spring only. World Wide Web section of course offered summer and fall semesters. Biological and ecological aspects of insects.

ENT 211: Insects and Society  
(2-0) Cr. 2. F.S.  
Prereq: ENT 201  

ENT 214: Insects in Forensic Science  
(3-0) Cr. 3. Alt. F., offered even-numbered years.  
Prereq: none  
Introduction to the use of insects as evidence in court and how they can assist in solving crimes. Topics covered include basic insect biology, systematics, behavior, with emphasis on applications of forensic entomology.

ENT 220: Introduction to Forensic Science  
(Cross-listed with CJ ST). (3-0) Cr. 3. S.  
Prereq: none  
Study of fundamental forensic science techniques and procedures covering types of physical, chemical, and biological evidence and how this information is used in the legal system. Assessment of crime scenes and various forensic specialties will be introduced.

ENV S 101: Environmental Geology: Earth in Crisis  
(Cross-listed with GEOL). (3-0) Cr. 3. F.S.S.  
An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism. Summer - online only.

ENV S 120: Introduction to Renewable Resources  
(Cross-listed with AGRON, NREM). (3-0) Cr. 3. F.S.  
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

ENV S 173: Environmental Biology  
(Cross-listed with BIOL). (3-0) Cr. 3. F.S.  
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Does not satisfy biology major requirements.

ENV S 201: Introduction to Environmental Issues  
(Cross-listed with BIOL, ENSCI). (2-0) Cr. 2. F.  
Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

EVENT 271: Introduction to Event Management  
(3-0) Cr. 3. F.S.  
Overview of the event management industries. Techniques and procedures required for producing successful and sustainable events.

FRNCH 101: Elementary French I  
(4-0) Cr. 4. F.S.S.  
Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture.

FRNCH 201: Intermediate French I  
(4-0) Cr. 4. F.  
Prereq: FRNCH 102  
Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture.  
Meets International Perspectives Requirement.

FS HN 101: Food and the Consumer  
(3-0) Cr. 3. F.S.S.  
Prereq: High school biology and chemistry or 3 credits each of biology and chemistry  
Electronic communication from web emphasized for class reports, notes and assignments.
FS HN 167: Introduction to Human Nutrition
(3-0) Cr. 3. F.S.S.

Prereq: High school biology or 3 credits of biology
Understanding and implementing present day knowledge of nutrition. The role of nutrition in the health and well being of the individual and family.

GEOL 100: How the Earth Works
(3-0) Cr. 3. F.S.S.

How does the earth work, what is it made of, and how does it change through time? Plate tectonics, Earth materials, landforms, structures, climate, and natural resources. Emphasis on the observations and hypotheses used to interpret earth system processes. Students may also enroll in Geol 100L.

GEOL 100L: How the Earth Works: Laboratory
(0-2) Cr. 1. F.S.

Prereq: Credit or enrollment in GEOL 100
Students will gain understanding of how Earth processes affect their lives and how they affect the Earth, and of the complex nature of the Earth and its processes. They will gain a deep knowledge of the methods used to understand the time scales and rates of Earth processes also through an applied research experience on groundwater and surface water.

GEOL 101: Environmental Geology: Earth in Crisis
(Cross-listed with ENV S). (3-0) Cr. 3. F.S.S.

An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism. Summer - online only.

GEOL 105: Gems and Gemstones
(2-0) Cr. 1. F.

Offered in second half of the semester. Introduction to gems and gemstones, physical and optical properties of gems and gemstones, explanation of where gems come from and how they are found, how to distinguish between synthetic and naturally occurring gems, how the value of gems are determined, and the history of famous gems.

GEOL 108: Introduction to Oceanography
(Cross-listed with ENV S). (3-0) Cr. 3. F.

GEOL 111: Geological Disasters
(Cross-listed with ENV S). (1-0) Cr. 1. F.S.S.

Introduction to the catastrophic geologic processes that disrupt ecosystems and human activity. Includes a discussion on the role of plate tectonics, the hydrologic cycle, and humans as the driving forces behind selected case studies on volcanic eruptions, earthquakes, tsunamis, landslides, and floods. Summer and fall - online only.

GEOL 201: Geology for Engineers and Environmental Scientists
(2-2) Cr. 3. F.

Introduction to Earth materials and processes with emphasis on engineering and environmental applications.

GER 101: Elementary German I
(4-0) Cr. 4. F.S.S.
Beginning level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. For beginning-level learners who have little or no prior exposure to German.

GER 201: Intermediate German I
(4-0) Cr. 4. F.
Prereq: GER 102
Intermediate level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. Intensive review of basic grammar covered in the first-year German class (or equivalent high school courses) while exploring cultural topics and themes.

Meets International Perspectives Requirement.

GREEK 101: Elementary Ancient and New Testament Greek I
(5-0) Cr. 4.5.
Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical and New Testament works.

GLOBE 201: Global Resource Systems
(3-0) Cr. 3. F.S.
A comparative analysis of global resources and the various natural and human systems affecting those resources. Assessed service-learning component.

H S 105: First Aid and Emergency Care
(1-2) Cr. 2. F.S.S.
Discussion and application of the basic techniques of utilizing bloodborne pathogen safety measures, administering first aid and cardiopulmonary resuscitation. ARC layperson certification available.
**H S 110: Personal and Consumer Health**  
(3-0) Cr. 3. F.S.  
Physical, mental, emotional and social aspects of health as a basis for understanding and promoting health, and preventing poor health conditions. Study of personal responsibility on the long-term benefits of maintaining a high level of wellness and health. Identification and mitigation of negative lifestyle habits.

**H SCI 110: Orientation and Human Sciences Career Exploration**  
(2-0) Cr. 2. F.S.  
Orientation and adjustment to the university and college; review of policies and procedures; academic resources; and course selection and planning. Comprehensive approach to career development; intensive self-analysis; and in-depth examination of majors in Human Sciences. Required for all students declared as an Undecided major in the College of Human Sciences.

**H SCI 150: Dialogues on Diversity**  
(1-0) Cr. 1. F.S.  
An exploration of diversity within the context of the Iowa State University community through understanding human relations issues. Meets U.S. Diversity Requirement

**HD FS 102: Individual and Family Development, Health, and Well-being**  
(3-0) Cr. 3. F.S.SS.  
Overview of life-span developmental tasks (physical, cognitive, language, social, emotional) examined from various theoretical perspectives. Discussion of topics related to family diversity, individual/family health and well-being and reciprocal relationships as affected by external factors.

**HD FS 183: Personal Finance in Early Adulthood**  
(1-0) Cr. 1. F.S.SS.  
Introduction to basic concepts and budgeting practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans. Offered on a satisfactory-fail basis only.

**HD FS 223: Child Development and Health**  
(3-0) Cr. 3. F.S.  
Typical and atypical development of children prenatal through middle childhood. Examination of healthy development and potential impact of health issues in children. Discussion of influence of the family and society on development. Either HD FS 223 or HD FS 224, but not both, may be applied toward graduation.

**HD FS 239: Consumer Issues**  
(3-0) Cr. 3. F.S.  
Introduction to factors affecting consumer decisions of individuals and families, including housing, healthcare, and personal finances. Emphasis on accessibility and affordability, community contexts for families; and consumer protection, legislation and regulation, and consumer fraud. Meets U.S. Diversity Requirement

**HD FS 240: Literature for Children**  
(3-0) Cr. 3. F.S.  
Evaluation of literature for children, including an emphasis on diversity and inclusion; cultural competence. Roles of literature in the overall development of children. Literature selection and use in the home and educational settings. Meets U.S. Diversity Requirement

**HD FS 276: Human Sexuality**  
(3-0) Cr. 3. F.S.SS.  
Behavioral, biological, and psychological aspects of human sexuality within the social context of family, culture, and society. Role of sexuality in human development. Critical analysis of media and research. Communication and decision-making skills relating to sexuality issues and relationships. Meets U.S. Diversity Requirement

**HIST 201: Introduction to Western Civilization I**  
(3-0) Cr. 3. F.  
Western civilization from ancient Mediterranean world to 1500. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity. Meets International Perspectives Requirement.

**HIST 207: Chinese Civilization**  
(3-0) Cr. 3.  
Origins, development, decline and transformation of China from earliest times to 1911. Meets International Perspectives Requirement.

**HIST 221: Survey of United States History I**  
(3-0) Cr. 3. F.  
Colonial foundations: revolution, confederation, and constitution; nationalism and democracy; sectional disunity, Civil War, and reunion.
HIST 225: Introduction to Asian American Studies  
(3-0) Cr. 3.  
An interdisciplinary and chronological examination of Asian American immigration experiences from the early 19th century to the 21st century. Focus on how these immigration histories are accompanied by changing racial constructions. Discussion of racial stereotyping, the model minority myth, identity development, and efforts for social justice.  
Meets U.S. Diversity Requirement

HIST 280: Introduction to History of Science I  
(3-0) Cr. 3.  
Ideas of nature from ancient Greece to the seventeenth-century scientific revolution.  
Meets International Perspectives Requirement.

HORT 121: Home Horticulture  
(3-0) Cr. 3. F.S.  
Growing plants in and around the home including requirements for growing indoor plants, plant propagation, landscape design, and maintaining trees, lawns, flower, fruit, and vegetable gardens. Recitation includes demonstrations and hands-on activities that illustrate principles of designing, growing and maintaining plants for both indoor and outdoor gardens.

HSP M 101: Introduction to the Hospitality Industry  
(3-0) Cr. 3. F.S.  
Introduction to the foodservice, lodging, and tourism components of the hospitality industry. Background information, current issues, and future challenges in various segments of the industry.

IE 148: Information Engineering  
(2-2) Cr. 3. F.S.  
Prereq: Credit or enrollment in MATH 143  

INTST 235: Introduction to International Studies  
(3-0) Cr. 3. F.S.  
Overview of international studies, emphasizing cultural, geographic, economic, and political characteristics of major world areas and nations.  
Meets International Perspectives Requirement.

JL MC 110: Orientation to Journalism and Communication  
(1-0) Cr. 1. F.S. Alt. SS., offered irregularly.  
Orientation to professional and pre-professional opportunities, writing for the mass media and curriculum requirements in the Greenlee School. Basic media writing preparation. Offered on a satisfactory-fail basis only.

JL MC 240: Principles of Journalism  
Cr. 3. F.S.  
Analysis of journalism industry and specific audiences served by print, electronic, visual and digital media. Introduction to core values of journalism and guiding principles that encompass literacy, ethics, law, history, the economy and cultural and societal implications.

JL MC 242: Visual Principles for Mass Communicators  
(3-0) Cr. 3. F.S.  
Understanding and analysis of the visual message. Visual perception, visual communication theory, design syntax, design elements and how they are applied in mass communication.

KIN 252: Disciplines and Professions in Kinesiology and Health  
(1-0) Cr. 1. F.S.  
Overview of the various disciplines and professions that comprise the field of Kinesiology (the study of human movement) and help students determine the career option that best fits their interests.

KIN 253: Orientation and Learning Community in Kinesiology and Health  
(1-0) Cr. 1. F.S.  
Prereq: Concurrent enrollment or credit in KIN 252  
Overview of ISU policies and procedures, academic advising operations, degree requirements, program of study planning, and campus resources. Students will have out-of-class activities and work with faculty, staff and mentors to explore careers in Kinesiology and complete assignments related to identification & development of their skills and interests. Department of Kinesiology students only. Offered on a satisfactory-fail basis only.

LAS 101: Orientation for Open Option and Preprofessional Students  
(1-0) Cr. 1. F.  
Introduction to all undergraduate colleges. Provides information about university resources and services, assists with a successful academic transition to the university, and helps initiate the process of identifying academic major(s) and eventual career paths. Required of all first-year students in Open Option and Preprofessional Programs. Offered on a satisfactory-fail basis only.

LATIN 101: Elementary Latin I  
(4-0) Cr. 4. F.  
Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.
LD ST 122: Leading with Purpose  
(1-0) Cr. 1. F.S.  
Designed for emerging student leaders. Basic leadership skills covering personal skills development, goal achievement, values-based behaviors and mission statement development.

LD ST 270: Campus Leadership Development  
(3-0) Cr. 3. F.S.SS.  
Theory and practice of effective leadership in a campus and community context. Study of effective leadership models and leadership in complex systems. Expectation of engagement in campus activities and community organizations. Assessed service-learning component.

LIB 160: Information Literacy  
(1-0) Cr. 1. F.S.SS.  
Prereq: For students placed in ENGL 101: Completion of ENGL 101 requirement.  
Eight-week course required for undergraduate degree. Provides a solid understanding of information literacy and the research process with emphases on finding, evaluating, and using scholarly information; the ethical and legal framework related to information use; and utilization of library discovery tools. To be taken as early as possible in the student’s undergraduate career. See course descriptions of ENGL 150 and ENGL 250 for requirements related to LIB 160. Offered on a satisfactory-fail basis only.

LING 119: Introduction to World Languages  
(Cross-listed with WLC). (3-0) Cr. 3.  
Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and language use, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy. Meets International Perspectives Requirement.

LING 120: Computers and Language  
(Cross-listed with ENGL). (3-0) Cr. 3.  
Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.

M E 160: Mechanical Engineering Problem Solving with Computer Applications  
(2-2) Cr. 3. F.S.  
Prereq: M E majors only. MATH 142 or MATH 143 or MATH 145; credit or enrollment in MATH 165.  
Introduction to the field of Mechanical Engineering through problem-solving in a range of topics including statics, mechanics of materials and thermo-fluids. Techniques to professionally present and communicate solutions. Use of MATLAB computer programming to aid problem solving, including curve fitting and graphing. Only one of M E 160, ENGR 160, Aer E 160, C E 160, CPR E 185, E E 185, S E 185 and I E 148 may count towards graduation.

M E 170: Engineering Graphics and Introductory Design  
(2-2) Cr. 3. F.S.  
Prereq: Satisfactory scores on mathematics placement assessments; credit or enrollment in MATH 142 or MATH 143 or MATH 145  
Integration of fundamental graphics, computer modeling, and engineering design. Applications of multiview drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports. Freehand and computer methods.

M S 101: Introduction to Military Science  
(1-0) Cr. 1. F.  
Prereq: Concurrent enrollment in M S 101L required  
Examines the role of a Cadet in the Army Reserve Officer Training Corps and a Lieutenant in the United States Army. The course explores a military culture whose ultimate success is determined by the character and proficiency of its leaders. Instruction introduces students to the cultural heritage and history of the U.S. Army. Students will begin to understand the structure of the U.S. Army and how it functions as an organization and institution. The curriculum promotes the development of students’ communication skills to enhance their ability to transmit ideas. The class examines how the Army’s cultural values drive the development of leadership in the Officer Corps. Hands-on activities enable students to gain insight on the skills and abilities required of cadets and officers interacting with civilians and soldiers.
M S 101L: Basic Leadership Laboratory I
(0-2) Cr. 1. F.
Prereq: Concurrent enrollment in M S 101 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. This concept provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Marching, rifle firing, and tactical patrolling; students gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students’ physical and medical eligibility.

M S 150: Army Physical Readiness
(0-3) Cr. 1. Repeatable. F.S.
This lab is designed to use basic military skills and instruction to develop confidence, leadership, and physical fitness. The team approach is utilized in the instruction and application of Army physical fitness requirements. Students will learn various Army physical fitness techniques as well as how to conduct physical fitness sessions. Teaching locations include Lied Recreation Center, Beyer Hall, State Gym as well as around campus. Full participation in all events will be determined based on students physical and medical eligibility.

MATH 010: High School Algebra
(4-0) Cr. 0. F.S.
For students who do not have adequate facility with topics from high school algebra or do not meet the algebra admission requirement. The course is divided into tracks of one- and two-semester lengths. For most students a diagnostic exam will determine which track must be taken. Students will receive a grade in MATH 25 or MATH 30 respectively depending on the level of material covered. Satisfactory completion of MATH 30 is recommended for students planning to take MATH 140, MATH 143, MATH 145, MATH 150, or MATH 151, while MATH 25 is sufficient for MATH 104, MATH 105, MATH 195, STAT 101 or STAT 105. Students must complete MATH 30 to remove a deficiency in the algebra admission requirement. Topics include signed numbers, polynomials, rational and radical expressions, exponential and logarithmic expressions, and equations. Offered on a satisfactory-fail basis only.

MATH 101: Orientation in Mathematics
(1-0) Cr. 1. F.S.
For new majors. Campus resources and opportunities available to students. Careers and programs of study in mathematics. Mathematical reasoning, culture and resources. Description of main branches of mathematics. Offered on a satisfactory-fail basis only.

MATH 104: Introduction to Probability
(3-0) Cr. 3. F.S.SS.
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry
Permutations, combinations, probability, expected value, and applications. Either MATH 104 or MATH 150 may be counted toward graduation, but not both.

MATH 105: Introduction to Mathematical Ideas
(3-0) Cr. 3. F.S.SS.
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry.
Introduction to the use of basic mathematics to solve real-world problems in the areas of voting issues, measuring power in situations where people have different numbers of votes, apportionment, fair division, and elementary game theory. No prior background in politics or history is necessary for this course.

MATH 106: Discovering Mathematics
(3-0) Cr. 3. F.S.
Inquiry-based approach to mathematics, emphasizing the art, history, and beauty of the subject. Typical topics are mathematics from art, music, puzzles, patterns, and reasoning.

MATH 140: College Algebra
(3-1) Cr. 3. F.S.SS.
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry; or MATH 30.
Coordinate geometry, quadratic and polynomial equations, functions, graphing, rational functions, exponential and logarithmic functions, inverse functions, quadratic inequalities, systems of linear equations. Prepares students for MATH 160. Students in the College of Liberal Arts and Sciences may not count MATH 140 toward the General Education Requirements.
MATH 143: Preparation for Calculus
(4-0) Cr. 4. F.S.
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry; or MATH 140.
Preparation for MATH 160, MATH 165, and MATH 181. Functions, graphing, basic trigonometry, logarithms, exponentials. Emphasis on co-variational reasoning. Students in the College of Liberal Arts and Sciences may not count MATH 143 toward General Education Requirements. Only one of MATH 143 and MATH 145 may count toward graduation.

MATH 145: Applied Trigonometry
(3-0) Cr. 3. F.S.
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry; or minimum of C- in MATH 140.
Mathematical ideas regarding the conception of space. General trigonometry, with an emphasis on the calculation of lengths, areas, and angles. The Law of Sines and the Law of Cosines. Polar, cylindrical, and spherical coordinate systems. Conic sections and quadric surfaces. Students in the College of Liberal Arts and Sciences may not count MATH 145 toward the General Education Requirements. Only one of MATH 143 and MATH 145 may count toward graduation.

MATH 150: Discrete Mathematics for Business and Social Sciences
(2-1) Cr. 3. F.S.SS.
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry
Linear equations and inequalities, matrix algebra, linear programming, discrete probability. Either MATH 104 or MATH 150 may be counted toward graduation, but not both.

MATH 160: Survey of Calculus
(4-0) Cr. 4. F.S.
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of geometry; or minimum of C- in MATH 140; or minimum of C- in MATH 143
Analytic geometry, derivatives and integrals of elementary functions, simple differential equations, and applications. Will not serve as a prerequisite for MATH 265 or MATH 266. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or MATH 181 may be counted towards graduation.

MATH 165: Calculus I
(4-0) Cr. 4. F.S.SS.
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry; or minimum of C- in MATH 143
Differential calculus, applications of the derivative, introduction to integral calculus. Only one of MATH 151 or MATH 160 or the sequence MATH 165-MATH 166, or MATH 181 may be counted towards graduation.

MATH 166: Calculus II
(4-0) Cr. 4. F.S.SS.
Prereq: Minimum of C- in MATH 165 or high math placement scores
Integral calculus, applications of the integral, infinite series, parametric curves and polar coordinates. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or MATH 181 may be counted towards graduation.

MATH 181: Calculus and Mathematical Modeling for the Life Sciences
(4-0) Cr. 4. F.S.
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry, 1 semester of trigonometry; or minimum of C- in MATH 143
Exponential and logarithm functions, difference equations, derivatives, and applications of the derivative. Examples taken from biology. Only one of MATH 151, MATH 160, the sequence MATH 165-MATH 166, or MATH 181 may be counted towards graduation.

MATH 195: Mathematics for Elementary Education I
(2-2) Cr. 3. F.S.
Prereq: Satisfactory performance on placement assessment, 2 years of high school algebra, 1 year of high school geometry, enrollment in elementary education or early childhood education
Whole number operations through analysis of properties, theoretical and hands-on models, mathematical analysis of elementary students' thinking; standard and non-standard algorithms; structure of the decimal system; linear measurement; two- and three-dimensional measurement, shapes and spatial sense; number theory; algebra as it relates to elementary curricula/teaching profession. Students in the College of Liberal Arts and Sciences may not count MATH 195 toward General Education Requirements.

MATH 265: Calculus III
(4-0) Cr. 4. F.S.SS.
Prereq: Minimum of C- in MATH 166 or MATH 166H
Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus.
MATH 267: Elementary Differential Equations and Laplace Transforms  
(4-0) Cr. 4. F.S.SS.  
Prereq: Minimum of C- in MATH 166 or MATH 166H  
Same as MATH 266 but also including Laplace transforms and power series solutions to ordinary differential equations.

MICRO 101: Microbial World  
(3-0) Cr. 3. F.  
Prereq: High school biology or equivalent  
Introduction to the importance of viruses, bacteria, fungi, archaea and parasites both to humans and to the biosphere. Topics include past and present microbial impact on humans and society, ecology and diversity of microbes, biotechnology and microbial impact on the biosphere.

MICRO 201: Introduction to Microbiology  
(2-0) Cr. 2. F.S.  
Prereq: One semester of college-level biology  
Selected topics in microbiology with emphasis on the relationship of microorganisms to human and animal health, agricultural technology, and the environment. With written petition to the chair of the supervisory committee, students who obtain a grade of B or better may substitute 201 for Micro 302 in advanced courses.

MICRO 201L: Introductory Microbiology Laboratory  
(0-3) Cr. 1. F.S.  
Prereq: Credit or enrollment in MICRO 201 or MICRO 302  
Basic microbiology laboratory techniques for non-microbiology majors. Credit for either Micro 201L or 302L, but not both, may be applied toward graduation.

MTEOR 107: Severe and Hazardous Weather  
(2-0) Cr. 1. F.  
Understanding of atmospheric processes that play a role in creating severe and hazardous weather. Focus on thunderstorms, tornadoes, hurricanes, floods, blizzards, ice storms, and temperature extremes. Impacts on lives and property.

MTEOR 206: Introduction to Weather and Climate  
(Cross-listed with AGRON), (3-0) Cr. 3. F.S.  
Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.

MUSIC 101: Fundamentals of Music  
(1-2) Cr. 2. F.S.  
Prereq: Ability to read elementary musical notation  
Notation, recognition, execution and analysis of scales, intervals, triads, and rhythm; key signatures; time signatures; transposition. Open to non-majors only.

MUSIC 102: Introduction to Music Listening  
(3-0) Cr. 3. F.S.SS.  
Expansion of the music listening experiences for the general student through greater awareness of differences in techniques of listening, performance media, and materials of the art. The course focuses on the elements of music: rhythm, melody, harmony, form, and style, and how these elements are used in musics of different cultures and time periods. Ability to read or perform music not required.  
Meets International Perspectives Requirement.

MUSIC 111: Wind Ensemble  
(0-3) Cr. 1. Repeatable. F.S.  
Prereq: Open to all students by audition  
Emphasis on significant extended compositions for wind and percussion instruments. Performances include formal concerts on campus and the annual tour.

MUSIC 112: Concert Band  
(0-2) Cr. 1. Repeatable. F.S.  
Prereq: Open to all students who have performed on a wind or percussion instrument in high school band or orchestra  
Repertoire includes the broad spectrum of band music. Two concerts are presented each semester.

MUSIC 113: Jazz Ensemble  
(0-2) Cr. 1. Repeatable. F.S.  
Prereq: Open to all students by audition  
Designed to explore various styles and trends in contemporary jazz.

MUSIC 114A: Marching and Pep Bands: Marching Band  
(0-5) Cr. 1. Repeatable. F.  
Membership determined by audition and band application. Auditions held for woodwind, brass, percussion, flag, and twirler positions. Presentation of pre-game and half time shows at each home football game; additional performances are also scheduled on and off campus. Audition information is listed on the band website (www.music.iastate.edu/org/marching). Students may not be concurrently enrolled in MUSIC 114A and 114C.

MUSIC 115: Symphonic Band  
(0-3) Cr. 1. Repeatable. F.S.  
Prereq: Open to all students by audition  
Stresses high quality wind literature. Performances include formal concerts on campus.

MUSIC 118: Applied Music: Non-majors  
(0.5-0) Cr. 1-2. Repeatable. F.S.  
Prereq: Audition, permission of instructor  
Applied music for the general student.
MUSIC 141: Lyrica Women's Choir
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all female students by audition
Large chorus; emphasis on fundamental vocal and choral skills, wide variety of literature. Campus concerts each semester.

MUSIC 151A: Oratorio Chorus: Cantamus Women's Choir
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

MUSIC 151B: Oratorio Chorus: Statesmen Men's Choir
(0-3) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

MUSIC 161: Iowa State Singers
(0-5) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Concert choir specializing in performance of advanced music literature, Renaissance through contemporary. Campus concerts, annual spring tour.

MUSIC 181: Symphony Orchestra
(0-4) Cr. 1. Repeatable. F.S.
Prereq: Open to all students by audition
Reading, preparation, and performance of standard repertoire. Five or six concerts annually plus occasional off-campus appearances.

NS 111: Introduction to Naval Science
(3-0) Cr. 3. F.
Introduction to the organization, regulations, and capabilities of the US Navy, with emphasis on mission and principal warfare components.

NREM 120: Introduction to Renewable Resources
(Cross-listed with AGRON, ENV S). (3-0) Cr. 3. F.S.
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

PR 220: Principles of Public Relations
(3-0) Cr. 3.
Introduction to public relations in business, government and non-profit organizations; functions, processes, and management; ethics, public opinion and theory.

PHIL 201: Introduction to Philosophy
(3-0) Cr. 3. F.S.S.S.
It has been rumored that the unexamined life is not worth living. Philosophy is an attempt to begin examining life by considering such questions as: What makes us human? What is the world ultimately like? How should we relate to other people? Is there a god? How can we know anything about these questions? Understanding questions of this kind and proposed answers to them is what this course is all about.

PHIL 206: Introduction to Logic and Scientific Reasoning
(3-0) Cr. 3. F.S.S.S.
Basic principles of critical reasoning and argument evaluation. A consideration of basic forms of argumentation in science and everyday life. Application to contemporary issues and controversies.

PHIL 207: Introduction to Symbolic Logic
(Cross-listed with LING). (3-0) Cr. 3. S.
Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Linguistics majors should take LING/PHIL 207 as early as possible.

PHIL 230: Moral Theory and Practice
(3-0) Cr. 3. F.S.S.S.
Investigation of moral issues in the context of major ethical theories of value and obligation; e.g., punishment, abortion, economic justice, job discrimination, world hunger, and sexual morality. Emphasis on critical reasoning and argument analysis.

PHIL 235: Ethical Issues in A Diverse Society
(3-0) Cr. 3. S.
This course will examine a range of arguments on diversity issues. Topics will include: the social status of women, the moral status of sexuality and homosexuality, the nature and role of racism in contemporary society, the relationship between biology, gender roles and social status, and various proposals for change from a variety of political perspectives. Meets U.S. Diversity Requirement

PHYS 050: Preparation for Introductory Physics
Cr. 0. F.S.
Prereq: 1 year high school algebra
An in-depth active learning experience designed to impart the fundamental concepts and principles of physics, with an emphasis on applied mathematical techniques and logical thinking. For students intending to enroll in classical physics (PHYS 221/222) who have not taken high school physics, who have not had a high school college preparatory physics course, or who need a review of physics problem solving and physics concepts. Credit for Phys 50 does not count toward graduation.
**PHYS 101: Physics for the Nonscientist**  
(3-0) Cr. 3. F.S.  
Survey of the principal areas of both classical and modern physics. Emphasis on the nature of the physical universe and the application of physical principles to life in the modern world. Not suitable to meet a general physics requirement for natural science majors.

**PHYS 111: General Physics**  
(4-2) Cr. 5. F.S.SS.  
*Prereq: 1 1/2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry*  
General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Mechanics, fluids, heat and thermodynamics, vibrations, waves, sound.

**PHYS 112: General Physics**  
(4-2) Cr. 5. F.S.SS.  
*Prereq: PHYS 111*  
General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Electricity and magnetism, ray and wave optics, topics in modern physics.

**PHYS 115: Physics for the Life Sciences**  
(4-0) Cr. 4. F.S.  
*Prereq: high school: 1 1/2 yr. algebra, 1 yr. geometry, 1 semester trigonometry*  
Emphasis on basic physics principles applied to biological problems. Topics include mechanics, fluids, thermodynamics, heat, light, sound, electricity and magnetism. A coordinated laboratory, Physics 115 laboratory is available.

**PHYS 198: Physics of Music**  
(2-2) Cr. 3. F.  
Introductory level course on sound for non-physics majors. Properties of pure tones and harmonics; human perception of sound; room acoustics; scales; production, and analysis of musical by voice, string, woodwind, brass, and percussion instruments. Not suitable to meet a general physics requirement for natural science majors.

**PHYS 222: Introduction to Classical Physics II**  
(4-2) Cr. 5. F.S.SS.  
*Prereq: PHYS 221 OR PHYS 241, MATH 166*  
3 hours of lecture each week plus 1 recitation and 1 laboratory each week. Fluid dynamics. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields: LR, LC, LCR circuits; Maxwell’s equations; wave optics.

**PHYS 241: Principles and Symmetries in Classical Physics I**  
(4.5-1) Cr. 5. F.  
*Prereq: Proficiency in algebra, trigonometry, vector manipulation, and topics covered in MATH 165, and credit or enrollment in MATH 166.*  
Covers all of mechanics; Kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation, and extremum principles. Topics in kinetic theory, thermodynamics, waves and sound.

**POL S 215: Introduction to American Government**  
(3-0) Cr. 3. F.S.SS.  
Fundamentals of American democracy; constitutionalism; federalism; rights and duties of citizens; executive, legislative, and judicial branches of government; elections, public opinion, interest groups, and political parties.

**POL S 241: Introduction to Comparative Government and Politics**  
(3-0) Cr. 3. F.S.  
Interactions between governments and citizens in countries outside the US. Causes of democracy, dictatorship, and economic and social development. Meets International Perspectives Requirement.

**POL S 251: Introduction to International Politics**  
(3-0) Cr. 3. F.S.  
Dynamics of interstate relations pertaining to nationalism, the nation state; peace and war; foreign policy making; the national interest; military capability and strategy; case studies of transnational issues, such as population, food, energy, and terrorism. Meets International Perspectives Requirement.

**PSYCH 101: Introduction to Psychology**  
(3-0) Cr. 3. F.S.SS.  
Fundamental psychological concepts derived from the application of the scientific method to the study of behavior and mental processes. Applications of psychology.

**PSYCH 102: Laboratory in Introductory Psychology**  
(0-2) Cr. 1. F.S.  
*Prereq: Credit or enrollment in PSYCH 101*  
Laboratory to accompany 101.
PSYCH 111: Orientation to Psychology  
Cr. 0.5. F.S.  
Program requirements and degree/career options. Required of psychology majors. Offered on a satisfactory-fail basis only.

PSYCH 131: Academic Learning Skills  
(1-0) Cr. 1. F.S.  
Evidence-based approach to learning and applying academic skills such as time management, note-taking, reading, test preparation, goal setting and motivation, and well-being. Hybrid course structured in a team-based learning format.

PSYCH 230: Developmental Psychology  
(3-0) Cr. 3. F.S.SS.  
Life-span development of physical traits, cognition, intelligence, language, social and emotional behavior, personality, and adjustment.

PSYCH 250: Psychology of the Workplace  
(3-0) Cr. 3.  
Survey of theories and research methods of psychology applied to the workplace. Consideration of employee selection, training, performance evaluation, leadership, work groups, employee motivation, job attitudes and behaviors, organizational culture, organizational development, human factors, and job design from the scientist-practitioner approach.

PSYCH 280: Social Psychology  
(3-0) Cr. 3. F.S.SS.  
Individual human behavior in social contexts. Emphasis on social judgments and decisions, attitudes, perceptions of others, social influence, aggression, stereotypes, and helping.

RELIG 205: Introduction to World Religions  
(3-0) Cr. 3. F.S.SS.  
An introduction to the academic study of religions, including myths, beliefs, rituals, values, social forms. Examples chosen from oral cultures and major religions of the world.  
Meets International Perspectives Requirement.

RELIG 210: Religion in America  
(3-0) Cr. 3. F.S.SS.  
Introductory study of the major beliefs, practices, and institutions of American Judaism, Catholicism, Protestantism, and Islam with emphasis on the diversity of religion in America, and attention to issues of gender, race, and class.  
Meets U.S. Diversity Requirement.

RELIG 220: Introduction to the Bible  
(3-0) Cr. 3. F.S.  
Basic overview of the contents of the Old and New Testament in light of their ancient socio-historical background, and with attention to a variety of interpretations and relevance to modern American society.

RELIG 280: Introduction to Catholicism  
(3-0) Cr. 3. F.  
An explanation of the beliefs, spirit, and practices of Roman Catholicism, including its understanding of God, sacramentality, the human person, and community, and its relationship to other forms of Christianity and other world religions.

RUS 101: Elementary Russian I  
(4-0) Cr. 4. F.  
Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture.

RUS 201: Intermediate Russian I  
(4-0) Cr. 4. F.  
Prereq: RUS 102  
Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills.  
Meets International Perspectives Requirement.

S E 101: Software Engineering Orientation  
Cr. R.  
Introduction to the procedures, policies, and resources of Iowa State University and the Software Engineering Program. Offered on a satisfactory-fail basis only.

SOC 115: Orientation to Sociology  
(1-0) Cr. 1. F.S.  
Orientation to sociology. A familiarization with University and LAS College requirements and procedures. Occupational tracks and career options open to sociology; introduction to career planning. Recommended during first semester of freshman year, or as soon as possible after transfer into the department. Offered on a satisfactory-fail basis only.

SOC 134: Introduction to Sociology  
(3-0) Cr. 3. F.S.SS.  
Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure.

SOC 219: Sociology of Intimate Relationships  
(3-0) Cr. 3. F.S.SS.  
Prereq: SOC 134  
Analysis of intimate relationships among couples using a sociological perspective. Attention is given to singleness, dating and courtship; sexuality, mate selection, cohabitation, and marriage. Relationship quality, communication, conflict and dissolution of these types of relationship will also be explored.
SOC 235: Social Problems and American Values
(3-0) Cr. 3. F.S.
Prereq: SOC 134
Sociological concepts, theories and methods to analyze the causes and consequences of social problems. Social problems discussed may include crime, substance abuse, income inequalities, discrimination, poverty, race relations, health care, family issues, and the environment. How American culture and values shape societal conditions, public discourse and policy.
Meets U.S. Diversity Requirement

SOC 241: Youth and Crime
(Cross-listed with CJ ST). (3-0) Cr. 3. F.
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents' rights, and traditional and alternative ways of dealing with juvenile crime.

SP CM 110: Listening
(3-0) Cr. 3. F.S.
Theory, principles, and competency development in comprehensive, therapeutic, critical, consumer, and appreciative listening. The impact of listening in relationships and partnerships.

SP CM 212: Fundamentals of Public Speaking
(3-0) Cr. 3. F.S.SS.
Theory and practice of basic speech communication principles applied to public speaking. Practice in the preparation and delivery of extemporaneous speeches.

SP CM 216: America Speaks: Great Speakers and Speeches in US History
Cr. 3.
Survey of great speeches examined within their political and cultural contexts. Analysis of the rhetorical strategies of diverse speakers with an emphasis on texts from social movements in the United States.
Meets U.S. Diversity Requirement

SP CM 275: Analysis of Popular Culture Texts
(Cross-listed with ENGL). (3-0) Cr. 3. F.S.
Prereq: Credit in or equivalent of 250
Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

SP ED 250: Education of the Exceptional Learner in a Diverse Society
(3-0) Cr. 3. F.S.
Prereq: EDUC 204 or EDUC 205
An overview of students with diverse learning needs, including students with disabilities, English Learners, students who are at risk, and gifted learners. Emphasis is on early identification; educational programming and implications; and legal foundations.
Meets U.S. Diversity Requirement

SPAN 101: Elementary Spanish I
(4-0) Cr. 4. F.S.
A communicative approach to grammar and vocabulary within the context of Hispanic culture. For students whose native language is not Spanish.

SPAN 102: Elementary Spanish II
(4-0) Cr. 4. S.SS.
Prereq: SPAN 101, SPAN 97 or placement by departmental exam
Continuation of Spanish 101. A communicative approach to grammar and vocabulary within the context of Hispanic culture. For students whose native language is not Spanish.
Meets International Perspectives Requirement.

SPAN 201: Intermediate Spanish I
(4-0) Cr. 4. F.
Prereq: SPAN 102 or placement by departmental exam
Intensive review of basic grammar and conversation. For students whose native language is not Spanish. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature.
Meets International Perspectives Requirement.

SPAN 297: Intensive Intermediate Spanish
(4-0) Cr. 4. F.S.
Prereq: 4 years of high school Spanish, two years of Spanish at a community college, Spanish 201, or equivalent by placement
Bridge course between 200- and 300-level Spanish courses that focuses on application of advanced grammatical concepts within the context of Hispanic culture. Accelerated review of SPAN 201 and SPAN 202 designed for students who want to continue at the 300 level. Taught in Spanish for students whose native language is not Spanish.
Meets International Perspectives Requirement.

SPAN 303: Spanish Conversation and Composition
(3-0) Cr. 3. F.S.
Prereq: SPAN 202 or placement by departmental exam
Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational and writing skills within the context of Hispanic culture. Taught in Spanish.
Meets International Perspectives Requirement.
STAT 101: Principles of Statistics  
(3-2) Cr. 4. F.S.SS.  
Prereq: 1 1/2 years of high school algebra  
Statistical concepts in modern society; descriptive statistics and  
graphical displays of data; the normal distribution; data collection  
(sampling and designing experiments); elementary probability; elements  
of statistical inference; estimation and hypothesis testing; linear  
regression and correlation; contingency tables. Credit for only one of  
the following courses may be applied toward graduation: STAT 101, STAT  
104, STAT 105, STAT 201, or STAT 226.

STAT 104: Introduction to Statistics  
(2-2) Cr. 3. F.S.SS.  
Prereq: 1 1/2 years of high school algebra  
Statistical concepts and their use in science; collecting, organizing and  
 drawing conclusions from data; elementary probability; binomial and  
 normal distributions; regression; estimation and hypothesis testing. For  
 students in the agricultural and biological sciences. Credit for only one of  
the following courses may be applied toward graduation: STAT 101, STAT  
104, STAT 105, STAT 201, or STAT 226.

STAT 105: Introduction to Statistics for Engineers  
(3-0) Cr. 3. F.S.SS.  
Prereq: MATH 165  
Statistical concepts with emphasis on engineering applications. Data  
collection; descriptive statistics; probability distributions and their  
 properties; elements of statistical inference; regression; statistical quality  
 control charts; use of statistical software. Credit for only one of the  
following courses may be applied toward graduation: STAT 101, STAT  
104, STAT 105, STAT 201, or STAT 226. Credit for both STAT 105 and  
STAT 305 may not be applied toward graduation.

THTRE 106: Introduction to the Performing Arts  
(3-0) Cr. 3. F.S.SS.  
An audience oriented, broad-based, team-taught survey of the performing  
 arts which emphasizes theatre and includes segments on television,  
 radio, film, dance, and music.

THTRE 110: Theatre and Society  
(3-0) Cr. 3. F.S.  
An introduction to Theatre focusing on its relationship with society  
throughout history.

THTRE 251: Acting I  
(3-0) Cr. 3. F.S.  
Theory and practice in fundamentals of acting.

TSM 115: Solving Technology Problems  
(2-2) Cr. 3. F.S.  
Prereq: Credit or enrollment for credit in MATH 140 or higher  
Solving technology problems and presenting solutions through data  
analysis and technical report writing. Problem solving cycle, unit  
conversion, unit factor method, SI units, significant digits, graphing,  
curve fitting and computer programming. Use of modern hardware and  
 software tools for applied data-driven problem solving.

TSM 116: Introduction to Design in Technology  
(2-2) Cr. 3. F.S.  
Use of parametric solid modeling software to create three dimensional  
solid models and document parts and assemblies. Includes national  
and international standards for documentation, design projects, and  
teamwork. Rapid prototyping design creation, 3D printing, assemblies,  
rendering, and detailing technical drawings.

U ST 104: Personal Career Development  
(2-0) Cr. 2. F.S.  
Comprehensive approach to personal career development providing  
students with the skills and structure to make informed choices about  
their major and career path. Self-exploration of interests, skills, values,  
and personality as related to the world of work using a variety of  
techniques; exploration of majors and occupations; model for major and  
career decision-making and career goal implementation; exposure to  
effective job search and interviewing skills and resources.

US LS 211: Introduction to U.S. Latino/a Studies  
(3-0) Cr. 3. F.S.  
History and current lives of the Latino/a peoples in the United States,  
including Mexican, Cuban, Puerto Rican, Dominican, and South and  
Central Americans, as well as information specific to Iowa Latino/as, will  
be covered. Through readings, class discussions, writing assignments,  
and guest speakers, students will acquire accurate information and  
a solid understanding of the US Latino/a population and cultural  
perspectives. Elements of Latino/a culture to be covered include  
historical, sociological, educational, psychological, economic, and  
political facets.  
Meets U.S. Diversity Requirement

WGS 160: Gender Justice  
(2-0) Cr. 1. F.S.  
Half semester course. Examines the socialization process in the  
United States and how our perspectives are formed. An introduction to  
patriarchy, sexism, and ally development are explored. Skills to enhance  
communication and understanding among women and men will be  
developed. Offered on a satisfactory-fail basis only.  
Meets U.S. Diversity Requirement
WGS 201: Introduction to Women's and Gender Studies
(3-0) Cr. 3.
Introduction to the interdisciplinary field of Women's and Gender Studies. Contemporary status of women in the U.S. and worldwide from social, economic, historical, political, philosophical and literary perspectives. Analysis of intersection of gender, race, class, and sexuality. Subject matter includes work, health, sexuality, and violence. Foundation for the other courses in the program.
Meets U.S. Diversity Requirement

WLC 278: Introduction to Global Film
(3-0) Cr. 3. F.
Introduction to the cinema of non-English speaking regions and cultures of the world through representative subtitled films, lectures, and readings. Topics vary according to faculty interest. Emphasis on selected national cinemas and film as a mode of cultural expression as well as on diverse cultural contexts of cinema.
Meets International Perspectives Requirement.

The following experimental courses (courses that are new and not yet published in the catalog) are also available:

AM IN 201X. Native People in American Culture. (3-0). Cr. 3. F.S.S.
Perceptions and the realities of Native people living in and responding to American society and culture. Topics include representations, contemporary Native identity, literature, the arts, history, film, and issues of diversity.

HIST 211X. Ancient Empires: From Sargon to Caesar. (3-0) Cr. 3. F.S.
Development of empires in the Near East and Mediterranean from the Akkadians to the fall of Rome. Discussion of the Hittites, Assyrians, Persians, Athenians, Macedonians (including the conquests of Alexander the Great), Carthaginians, and Romans; examination of imperialism as well as the social, cultural, and economic consequences of empire.

Credits
The academic value of each course is stated in semester credits. Each credit is normally earned by attending one (50-minute) hour of lecture or recitation per week for the entire semester, or by attending a laboratory or studio period of two or three hours per week. As a guideline, undergraduate students typically will be expected to spend two hours in preparation outside of class for each lecture or recitation hour; additional outside work may be required for laboratory or studio classes.

Contact Hours
Each course states the number of semester credits assigned to the course, preceded in parentheses by the number of hours in class (contact hours) expected of the student. The first of the two contact-hour numbers indicates the number of lecture or recitation class hours per week for the semester. The second is the number of laboratory or studio hours required per week. Laboratory and studio hours may include some time devoted to lectures and recitations. For example, COM S 227 Introduction to Object-oriented Programming is listed as (3-2) Cr. 4. In that case, the course is 4 semester credits, 3 hours of lecture and two hours of laboratory each week.

Semester Offering
The expected term a course is to be offered is indicated by the abbreviations F (Fall) S (Spring) SS (Summer). The notations are for planning purposes and do not guarantee a course will be offered in a particular term. Always check the Schedule of Classes (http://classes.iastate.edu) for availability and specific offering times.
GRADUATE MAJORS

Ph.D. Programs
A complete list of Ph.D. Programs can also be found on https://www.grad-college.iastate.edu/academics/programs/apprograms.php.

Aerospace Engineering (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=2)
Agricultural and Biosystems Engineering (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=5)
Agricultural Economics (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=3)
Agricultural Education (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=4)
Agricultural Meteorology (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=7)
Analytical Chemistry (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=9)
Animal Breeding and Genetics (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=10)
Apparel, Merchandising, and Design (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=14)
Astrophysics (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=19)
Biochemistry (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=20)
Bioinformatics and Computational Biology (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=21)
Biomedical Sciences (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=22)
Biophysics (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=23)
Biorenewable Resources and Technology (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=24)
Business and Technology (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=26)
Chemical Engineering (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=27)
Chemistry (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=28)
Civil Engineering (http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=29)

Women's and Gender Studies (https://womensstudies.las.iastate.edu/about/degrees)
INFORMATION ABOUT COURSES

A-Z Courses

Course Numbers

The courses in each department are numbered from 1 to 699, according to the following groups:

• 1-99 Courses not carrying credit toward a degree (zero credit).
• 100-299 Courses primarily for freshman and sophomore students.
• 300-499 Courses primarily for junior and senior students.
• 500-599 Courses primarily for graduate students, but open to qualified undergraduates.
• 600-699 Courses for graduate students.

Off-campus courses-Residential Credit

Iowa State University faculty teach distance learning courses online, by video conferencing, streaming media, and CD/DVD. Courses are the same as those offered on campus, carry residential credit, and are taught by Iowa State faculty. Credit earned becomes a part of the academic record at Iowa State University and may be used to meet degree requirements the same as credit earned on campus.

Priority Enrollment

High demand for courses in certain areas has necessitated enrollment management for some courses. When enrollment priority is established for a course, first consideration is given to students whose curriculum/major explicitly requires the course.

Special Course Fees

Courses for which special course fees are assessed are designated in the Schedule of Classes. Special course fees may be assessed for such extraordinary costs as materials fees (which may include consumable materials or equipment replacement), field trip expenses, developmental Math fees, and camp fees. In some cases, special course fee amounts vary from term to term. Additional information on camp fees and the developmental Math fee may be found in the fees and expenses section.

Independent Study

Most departments offer opportunities for independent study through a 490 course listing. Usually a minimum of 6 to 10 credits of coursework in the department is required before independent study is permitted. Students who are interested in this kind of experience in a particular department should check the catalog to determine the department’s prerequisites to register for 490. 490H sections are reserved for students in the University Honors Program.

Students should check with the department about procedures, in addition to meeting the prerequisites, for registering for 490. A written plan of study is prepared in advance with a faculty member who has agreed to supervise the student’s work, to evaluate progress and the final product, and to assign a grade. Initiation of the plan of study should occur prior to the semester in which enrollment is desired. Both the student and the instructor should agree on the number of credits for which the student will enroll, the amount and kind of work the student do for that credit, and the system by which the student will be graded (A-F or S/F). Students should not expect to register for or add 490 credit without an instructor’s permission. Some colleges and/or departments have limits on the number of credits of 490 that may be applied toward graduation.

Credits and Contact Hours

The academic value of each course is stated in semester credits. Each credit is normally earned by attending one (50-minute) hour of lecture or recitation per week for the entire 16-week semester, or by attending a laboratory or studio period of two or three hours per week. As a guideline, undergraduate students typically will be expected to spend two hours in preparation outside of class for each lecture or recitation hour; additional outside work may be required for laboratory or studio classes. The Office of the Registrar will maintain a table of faculty-approved credit-contact hour equivalencies for the types of instruction (e.g. lecture, studio, internships, research courses) offered by the institution.

Courses offered for less than a full semester (e.g. summer terms or compressed formats) will fulfill the same contact hour requirements as full-semester courses having the same credit hours. For example, a student enrolled in a one-credit course offered in an 8-week (half-semester) format should expect two hours of lecture and four hours of out of class preparation per week. Similarly, a course offered in hybrid, online, or distance education format is expected to meet the same contact hour requirement, and offer equivalent student-faculty/student-student interaction and class preparation time, as the same course taught in a traditional format.

Each course states the number of semester credits assigned to the course, preceded in parentheses by the number of hours in class (contact hours) expected of the student. The first of the two contact-hour numbers indicates the number of lecture or recitation class hours per week for the semester. The second is the number of laboratory or studio hours required per week. Laboratory and studio hours may include some time devoted to lectures and recitations. For example, COM S 227 Object-oriented Programming is listed as (3-2) Cr. 4. In that case, the course is 4 semester credits, 3 hours of lecture and two hours of laboratory each week.

The term “Cr. arr.” means that the amount of credit is arranged in advance between the student and the instructor. The credit to be earned depends on the amount of work expected of the student, in accordance with the
policy that some combination of teacher-student contact and outside work by the student involving at least three hours per week for the semester is required for each credit.

The term “Cr. R.” means that the course is required in a certain curriculum or as cognate to one or more other courses. It is also used for cooperative education courses and for some optional inspection trips, study tours, and professional development courses for which numerical credit is not granted. An R credit course does not carry numerical credit toward a student’s degree, but it does apply toward the degree. The R credit course is generally listed on the degree program as a requirement for a specific curriculum/major that must be completed prior to graduation. R credit courses may be graded using the A-F grading scale or the satisfactory/fail grading scale. All R credit courses are assigned a numerical value for purposes of enrollment certification. Requests by students to drop an R credit course will be processed as an administrative drop during period 2 and thus will not be counted against the student's drop limit and will not appear on the student's transcript. (See Schedule Changes.)

Credit Involving a Paid Activity
Students may obtain credit for an activity, either on- or off-campus, for which they are also paid, provided the activity is academically relevant. This policy does not apply to registrations for R credit.

In order for an activity to be defined as academically relevant, prior arrangements for receiving credit must be made with a faculty member in an appropriate department.

The arrangements must include agreement on (1) the academic objectives which the activity is expected to achieve, and (2) the procedure by which the student's learning will be assessed.

Semester of Offering
Within each course description may be found one or more of the following letters: F, S, SS, indicating which term—fall, spring, summer session—of the academic year the course is offered. “Alt.” is the abbreviation for alternate. If there is sufficient demand, courses may be offered more frequently than announced. Insufficient demand or unforeseen staffing problems may result in the cancellation of announced offerings. Students are advised to refer to the Schedule of Classes or consult with departments for up-to-date course schedule information.

Course Prerequisite
A prerequisite indicates the specific academic background or general academic maturity considered necessary for the student to be ready to undertake the course. Prerequisites are usually stated in terms of specific courses, but equivalent preparation is usually acceptable. An instructor may, however, direct a student whose background does not meet the stated prerequisite, or its equivalent, to drop the course. Conversely, an instructor may waive the prerequisite for a course for which he or she is responsible. Thus, permission of the instructor is understood to be an alternate to the stated prerequisites in all courses.

It is university policy that the department or instructor may inform students no later than the first day of class that students who have not met the prerequisite requirements must drop the course. Instructors have the right to neither accept, nor grade the work of a student who does not meet the stated prerequisite, or its equivalent (as determined by the process established in the department offering the course).

Some courses have been approved by their colleges to use administrative drops to enforce prerequisites. In such cases, the department shall inform enrolled students prior to the start of the semester that students who have not met the prerequisite requirements must drop the course or provide evidence of equivalent preparation to be reviewed by the department. After such notification (via email or Canvas announcement), students have 3 business days to either drop the course or initiate a review of their equivalent preparation. If a student neither drops the course nor initiates a review of equivalent preparation, the department or instructor may initiate an administrative drop to remove the student from the course. Students whose request to waive the prerequisite is denied will be administratively dropped from the course. Course prerequisites are listed in the Schedule of Classes as well as in the Courses and Programs section of this publication.

Cross-listed Courses
A course, including its complete description, may be listed in two or more departments. The participating department or departments are noted in parentheses. Credit for the course may be obtained through any of the cross-listed departments.

Dual-listed Courses
Dual-listed courses permit undergraduate and graduate students to be in the same class while receiving credit for either undergraduate or graduate level work.

Credit in the graduate course is not available to students who have received credit in the corresponding undergraduate course. Both graduates and undergraduates receive the same amount of credit for the course, but additional work is required of all graduate students taking the course under the graduate-level course number. This extra work may take the form of additional reading, projects, examinations, or other assignments as determined by the instructor. The instructor must be a member of the Graduate Faculty or a Graduate Lecturer. Each dual-listed course is designated in the catalog with the phrase “Dual-listed with,” although the student’s official transcript of credits, both graduate and undergraduate, does not identify dual-listed courses as such. There is a limit to the number of dual-listed course credits that may be used to meet the requirement for an advanced degree. (For information about
procedures for requesting permission to offer dual-listed courses, faculty should consult the Graduate Faculty Handbook.)
IOWA STATE FACULTY

A
ABBOTT, ERIC ALAN

ABDELKHALIK, OSSAMA
Associate Professor of Aerospace Engineering. B.Sc., 1996, M.Sc., 2000, Cairo; Ph.D., 2005, Texas A&M.

ABEL, CRAIG

ABELSON, ABRAHAM G.

ABENDROTH, ROBERT E.

ABRAHAM, ROBERTA G.

ACERBO, MARTIN J.

ACEVEDO, NURIA
Assistant Professor of Food Science and Human Nutrition. B.S., 1999, Cordoba (Argentina); Ph.D., 2006, Buenos Aires (Argentina).

ACHTER, CHARLES THOMAS
Emeritus Senior Lecturer in School of Education. B.A., 1969, St. John’s; M.S., 1975, St. Cloud State.

ACKER, DAVID G.
Professor of Agricultural Education and Studies; Associate Dean of the College of Agriculture and Life Sciences. B.A., 1975, Wilmington; M.Ed., 1980, M.S., 1980, California (Davis); Ph.D., 1989, Oregon State.

ACKERMAN, RALPH A.

ADAMS, CYNTHIA ANN

ADAMS, DEAN

ADAMS, DONALD R.
Emeritus Professor of Biomedical Sciences; University Professor. A.B., 1960, California (Davis); M.A., 1967, Chico State; Ph.D., 1970, California (Davis).

ADAMS, JEAN W.

ADAMS, ROSS

ADAMS, ROY DEAN

ADELEKE, RAIMI OLATUNJI

ADELMAN, JAMES STEPHEN

ADURI, PAVANKUMAR R.

AGARWAL, SANJEEV
Emeritus Professor of Marketing. B.E., 1979, Roorkee (India); M.S., 1980, California (Davis); M.A., 1986, Ph.D., 1986, Ohio State.

AGBA, EMMANUEL IKECHUKWU

AGNIHOTRI, RAJ
Associate Professor of Marketing. B.E., Pune (India); M.B.A., Oklahoma City; Ph.D., Kent State.

AHN, BENJAMIN
Assistant Professor of Aerospace Engineering. B.E., 2006, New South Wales (Australia); M.S., 2009, Ph.D., 2014, Purdue.

AHN, DONG UK

AHN, HEE-KWON
AHN, SOO
Assistant Professor of School of Education. B.A., 2003, William and Mary; M.A., 2008 Yonsei (South Korea); M.Ed., 2013, Ph.D., 2017, George Mason.

AHRENS, FRANKLIN A.

AIGNER, STEPHEN M.

AITCHISON, GARY L.
Emeritus Associate Professor of Management. B.A., 1956, Northern Iowa; M.A., 1961, Northern Colorado; Ph.D., 1972, Iowa State.

AJJARAPU, VENKATARAMANA

AKINC, MUFIT
Professor of Materials Science and Engineering; Professor of Chemical and Biological Engineering. B.S., 1970, M.S., 1973, Middle East Technical (Turkey); Ph.D., 1977, Iowa State.

AKKURT, CIGDEM

AL-KAISI, MAHDI

ALAMEEN, GHINWA

ALBERHASKY, MATTHEW J.

ALCORN-FERRONE, JANET W.
Emeritus Associate Professor of Music and Theatre. B.Mus., 1958, Northwestern; M.Mus., 1960, Boston University.

ALCOTT, CODY
Affiliate Assistant Professor of Veterinary Clinical Sciences. B.S., 2000, California State Polytechnic; D.V.M., 2004, Iowa State.

ALEXANDER, TERRY J.

ALIPOUR, ALICE
Assistant Professor of Civil, Construction and Environmental Engineering. B.Sc., 2004, K.N. Toosi University of Technology (Iran); M.Sc., 2006, Tehran (Iran); Ph.D., 2010, California (Irvine).

ALLEIN, RACHEL A.

ALEXANDER, DAVID

ALEXANDER, ROGER K.
Emeritus Associate Professor of Mathematics. B.A., 1968, Kansas; M.A., 1974, Ph.D., 1975, California (Berkeley).
AMAYA-LEAL, JOHANNA
Assistant Professor of Supply Chain and Information Systems. B.S., 2002, M.S., 2007, Del Norte (Colombia); M.S., 2009, Florida; Ph.D., 2016, Rensselaer Polytechnic Institute.

AMBROSIO, LINDA
Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, New York (Stony Brook); Ph.D., 1985, Princeton.

AMES, JEFFREY KNOWTON
Lecturer in Greenlee School of Journalism and Communication. B.A., 1970, Drake.

AMIDON, KEVIN SCOTT
Associate Professor of World Languages and Cultures. M.A., 1995, Ph.D., 2001, Princeton.

AMOS, ROSALIE JEANNE
Emeritus Associate Professor of Human Development and Family Studies; Emeritus Associate Professor of School of Education. B.S., 1953, Iowa State; M.S., 1960, Ph.D., 1976, Cornell.

ANAND, ROBBYN KIMBERLY
Assistant Professor of Chemistry. B.A., 2004, Anderson; Ph.D., 2010, Texas.

ANANTHARAM, VELLAREDDY
Affiliate Associate Professor of Biomedical Sciences. Ph.D., 1987, Indian Institute of Science, Bangalore (India).

ANDENORO, ANTHONY

ANDERSEN, DANIEL S.
Associate Professor of Agricultural and Biosystems Engineering. B.S., 2006, Wisconsin (Platteville); M.S., 2008, Ph.D., 2012, Iowa State.

ANDERSEN, DAVID
Assistant Professor of Political Science. B.A., 2000, Pennsylvania State; Ph.D., 2011, Rutgers.

ANDERSON, AMANDA A.

ANDERSON, CARL E.
Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S.A.E., 1962, Pennsylvania State; M.S.A.E., 1965, Arizona; Ph.D., 1975, Kansas State.

ANDERSON, CLAYTON CONRAD

ANDERSON, CRAIG A.

ANDERSON, DEAN

ANDERSON, E. WALTER

ANDERSON, IVER ERIC
Adjunct Professor of Materials Science and Engineering. B.S., 1975, Michigan Tech; M.S., 1977, Ph.D., 1982, Wisconsin (Madison).

ANDERSON, JARED LEE
Professor of Chemistry. B.S., 2000, South Dakota State; Ph.D., 2005, Iowa State.

ANDERSON, JEAN A.

ANDERSON, LLOYD LEE
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1957, Ph.D., 1961, Iowa State.

ANDERSON, MARC

ANDERSON, PAUL F.

ANDERSON, ROBERT M.

ANDERSON-HSIEH, JANET

ANDORF, CARSON
Affiliate Assistant Professor of Computer Science. B.A., 2000, Wartburg; Ph.D., 2013, Iowa State.

ANDRE, THOMAS
Emeritus Professor of School of Education; Emeritus Professor of Psychology. B.S., 1967, Massachusetts; M.A., 1970, Ph.D., 1971, Illinois.

ANDREASEN, CLAIRE B.
ANDREOTTI, ALEJANDRO
Adjunct Assistant Professor of Mathematics. B.A., 1989, Brandeis; Ph.D., 1994, Princeton.

ANDREOTTI, AMY

ANDREWS, JAMES T.

ANDREWS, SMARANDA
Lecturer in Food Science and Human Nutrition. M.A., Constanta (Romania); Ph.D., Iowa State.

ANIELICI, ROBERT JOE
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1959, St. Olaf; Ph.D., 1962, Northwestern.

ANGUS, HECTOR F.

ANTONE, TIFFANY

APPATEGATE, MOLLIE
Assistant Professor of School of Education. B.S.C.E., 1996, Northwestern; Ph.D., 2012, California (Los Angeles).

APPUHAMY, RANGA

APPY, DAVID V.
Lecturer in Chemistry. B.S., 2002, California (Los Angeles); J.D., 2005, Pepperdine; Ph.D., 2014, Iowa State.

ARAND-MCILRATH, TIMOTHY J.
Emeritus Associate Professor of Art and Design. B.A., 1966, Dominican (Wisconsin); M.S., 1969, Wisconsin.

ARBUCKLE, J. GORDON JR.

ARCAND, JANET L.
Assistant Professor, Library. B.A., 1979, California (Los Angeles); M.L.S., 1980, California (Berkeley).

ARCHER, GEORGE

ARCHONTOLIS, SOTIRIOS
Assistant Professor of Agronomy. B.Sc., 2004, Thessaly (Greece); M.Sc., 2006, Ph.D., 2011, Wageningen (The Netherlands).

ARMSTRONG, PATRICK IAN

ARNDT, GRANT
Associate Professor of World Languages and Cultures. A.B., 1994, Ph.D., 2004, Chicago.

ARORA, RAJEV
Professor of Horticulture. B.S., 1975, Meerut (India); M.S., 1979, G.B. Pant (India); Ph.D., 1990, Wisconsin.

ARRUDA, BAILEY

ARTERBERRY, BROOKE
Assistant Professor of Psychology. B.A., 2006, Southern Indiana; M.S., 2010, Indiana; Ph.D., 2015, Missouri.

ARTZ, GEORGEANNE
Associate Professor of Economics. B.A., 1996, Yale; M.S., 1999, Maine (Orono); Ph.D., 2005, Iowa State.

ASBRJORNSEN, HEIDI

ASCOLI, SAMUEL
Lecturer in English. B.A., 2007, California (Santa Cruz); M.A., 2015, Iowa State.

ASHLOCK, JERAMY CURTIS

ATCHISON, GARY JAMES

ATHERLY, ALAN G.
Emeritus Professor of Genetics, Development and Cell Biology; Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1959, Western Michigan; Ph.D., 1964, North Carolina.

ATHREYA, KRISHNA B.
Emeritus Professor of Mathematics; Emeritus Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.A., 1959, Loyola (India); Ph.D., 1967, Stanford.

ATTINGER, DANIEL
Associate Professor of Mechanical Engineering. B.E., 1997, Ecole Polytechnique (Switzerland); Sc.D., 2001, Eidgenoessische Technische (Switzerland).
ATWOOD, DAVID M.
Senior Lecturer in Physics and Astronomy. B.S., 1984, Toronto (Canada); M.S., 1987, Ph.D., 1989, McGill.

AUNE, JEANINE ELISE

AUNG, KYAW
Assistant Professor of Genetics, Development and Cell Biology. B.S., 2000, M.S., 2002, National Chung Hsing (Taiwan); Ph.D., 2011, Michigan State.

AUWERDA, PEGGY A.

AVALOS, HECTOR I.

AVRAAMIDES, ACHILLES

AWINO, JOSEPH K.
Lecturer in Chemistry. B.S., 2003, Moi (Kenya); Ph.D., 2015, Iowa State.

BAAS, THOMAS J.

BABCOCK, BRUCE A.
Emeritus Professor of Economics. B.S., 1980, M.S., 1981, California (Davis); Ph.D., 1987, California (Berkeley).

BABER, LORENZO

BACHMANN, MARILYN D.

BACHMANN, ROGER W.

BADENOHOPE, JULIA M.

BAER, ROGER EDWARD

BAGLEY, RODNEY STEVEN
Professor of Veterinary Clinical Sciences and Chair of the Department. B.S., 1983, West Virginia; D.V.M., 1986, Virginia Polytechnic.

BAHADUR, SHYAM
Emeritus Professor of Mechanical Engineering; University Professor. B.E., 1957, M.E., 1962, Roorkee (India); Ph.D., 1970, Michigan.

BAHNG, EUNJIN
Assistant Professor of School of Education. B.S., 1997, Chun Chun (Korea); M.S., 2004, Ph.D., 2008, Arizona State.

BAI, HUA
Assistant Professor of Genetics, Development and Cell Biology. B.S., 1997, East China Normal; M.S., 2000, Shanghai Fisheries; Ph.D., 2009, Kentucky.

BAI, XIANGLAN
Assistant Professor of Mechanical Engineering. B.S., 1993, M.S., 1996, Beihang (China); Ph.D., 2000, Tokyo.

BAILEY, MICHAEL DAVID

BAILEY, THEODORE B. JR.
Emeritus Professor of Statistics. B.S., 1964, Iowa State; M.S., 1969, Ph.D., 1972, Minnesota.

BAIN, CARMEN M.

BAKER, AMANDA
Assistant Professor of School of Education. B.S., 2011, M.A., 2014, Ph.D., 2017, Ohio State.

BAKER, JENNY LYNN

BAKER, JANICE A.
Assistant Professor of Kinesiology; Assistant Professor of Music and Theatre. B.F.A., 1975, Utah; M.S., 1979, Kansas State.

BAKER, JENNY LYNN

BALDWIN, JOHN

BALISTRERI, EDWARD J.
BALTIMORE, DIANA L.

BANADDA, NOBLE
Affiliate Professor of Agricultural and Biosystems Engineering. B.Sc., 1998, Sokoine University of Agriculture (Tanzania); M.Sc., 2001, Ph.D., 2006, Katholieke Universiteit Leuven (Belgium).

BANDSTRA, ROBERT

BANNANTINE, JOHN P.
Affiliate Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1988, Wisconsin (Oshkosh); M.S., 1991, Ph.D., 1995, Iowa State.

BAO, SHENG
Assistant Professor of Computer Science. B.Eng., 2006, Nanjing (China); Ph.D., 2012, Texas Tech.

BARAN, EVRIM
Associate Professor of School of Education. B.S., 2003, M.S., 2006, Middle East Technical; Ph.D., 2011, Iowa State.

BARB, ADAM
Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 2000, Purdue; M.S., 2002, North Carolina State; Ph.D., 2008, Duke.

BARB, JESSICA

BARLOON, PAUL J.
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. A.B., 1962, Lamar; Ph.D., 1967, Florida.

BARMAJIAN, CARLTON WADE
Emeritus Professor of Community and Regional Planning. A.B., 1996, Chicago; M.C.P., 2000, Georgia Institute of Technology; Ph.D., 2008, Michigan.

BASMAJIAN, MAN

BASSHAM, DIANE CLARE

BASSLER, BRUCE
Emeritus Associate Professor of Architecture. B.S., 1972, Iowa State; M.Arch., 1975, Texas A&M.

BASSLER, EUNICE M.
Emeritus Senior Lecturer in Food Science and Human Nutrition. B.A., 1974, Northern Iowa; M.S., 1979, Kansas State.

BASTAWROS, ASHRAF
Professor of Aerospace Engineering; Professor of Mechanical Engineering. B.Sc., 1988, M.Sc., 1991, Cairo (Egypt); M.S., 1995, Ph.D., 1997, Brown.

BASTAWROS, HALA FAROUK
Senior Lecturer in Genetics, Development and Cell Biology. M.D., 1992, Cairo University School of Medicine; M.S., 2007, Iowa State.

BASU, SAMIK
BATAILLE, ROBERT

BATES, LISA M.

BATHIE, WILLIAM W.

BAUGHMAN, JACQULYN

BAUM, DAVID

BAUM, THOMAS J.
Professor of Plant Pathology and Microbiology and Chair of the Department. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1985, Germany; M.S., 1989, Munich; Ph.D., 1993, Clemson.

BAUMEL, PHILLIP
Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, M.S., 1957, Ohio State; Ph.D., 1961, Iowa State.

BAUMGARD, LANCE HALL

BAUMGARDEN, JOSEPH R.
Emeritus Professor of Mechanical Engineering. B.S.M.E., 1950, Dayton; M.S.M.E., 1955, Ph.D., 1958, Purdue.

BAYOUTH, SHAWN
Affiliate Assistant Professor of Agricultural and Biosystems Engineering. B.A., 2002, Western Illinois; M.S., 2006, Indiana State; Ph.D., 2011, Iowa State.

BEAR, DONALD R.

BEARD, JON W.

BEARSON, SHAWN
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1990, Judson (Alabama); Ph.D., 1997, Southern Alabama.

BEATTIE, GWYN A.
Professor of Plant Pathology and Microbiology. B.A., 1985, Carleton; Ph.D., 1991, Wisconsin.

BEATTY, JAMES D.
Emeritus Assistant Professor of English. B.S., 1964, Iowa State; M.A., 1966, Iowa.

BEAVIS, WILLIAM DALE
Professor of Agronomy. B.S., 1978, Humboldt State; M.S., 1980, New Mexico State; Ph.D., 1985, Iowa State.

BECK, JOSHUA RYAN
Assistant Professor of Biomedical Sciences. B.S., 2004, Iowa State; Ph.D., 2012, California (Los Angeles).

BECKETT, GULBAHAR
Professor of English and Director of Intensive English and Orientation Program. B.A., 1977, Nankai (China); M.Ed., 1992, Queen’s (Ontario Canada); Ph.D., 1999, British Columbia.

BECRAFT, PHILIP W.
Professor of Genetics, Development and Cell Biology; Professor of Agronomy. B.A., 1980, Montana; M.S., 1987, Montana State; Ph.D., 1992, California (Berkeley).

BEECHER, CONSTANCE
Assistant Professor of School of Education. B.S., 1992, Missouri; M.S., 1994, Washington (St. Louis); Ph.D., 2011, Washington State.

BEELL, THOMAS LLOYD

BEER, CRAIG E.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1950, M.S., 1957, Ph.D., 1962, Iowa State.

BEERMANN, DONALD
Professor of Animal Science and Chair of the Department. B.S., 1971, Iowa State; M.S., 1974, Ph.D., 1976, Wisconsin.

BEETHAM, JEFFREY K.
Emeritus Associate Professor of Veterinary Pathology; Emeritus Associate Professor of Entomology. B.S., 1989, Western Washington; Ph.D., 1994, California (Davis).

BEGHIN, JOHN C.

BEHNKEN, BRIAN D.
Behnken, Monic Price
Associate Professor of Sociology. B.A., 2000, Houston; J.D., 2004, Golden Gate; Ph.D., 2008, Pacific Graduate School.

Behrens, Ted H.

Beirman, Erica Anne

Beitz, Donald C.
Professor of Animal Science; Professor of Biochemistry, Biophysics and Molecular Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1962, M.S., 1963, Illinois; Ph.D., 1967, Michigan State.

Beekum, Victor A.

Bell, Steven D.
Senior Lecturer in Agricultural and Biosystems Engineering. B.S., 1981, Iowa State; M.S., 1987, Texas A&M.

Bellaire, Bryan Howard
Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1995, Northern Arizona; Ph.D., 2001, Louisiana State.

Bellville, Amber

Ben Othmane, Lotfi
Lecturer in Electrical and Computer Engineering. B.Sc., 1995, Sfax (Tunisia); M.Sc., 2000, Sherbrooke (Canada); Ph.D., 2010, Western Michigan.

Ben-Sholomo, Gil
Associate Professor of Veterinary Clinical Sciences. Assistant Professor of Biomedical Sciences. D.V.M., 2000, Ph.D., 2009, Hebrew (Jerusalem).

Bender, Holly S.

Bennett, Adrian A. III

Bennett-George, Sarah J.

Bentil, Sarah
Assistant Professor of Mechanical Engineering. B.S., 2003, Vermont; M.S., 2006, Hawaii (Manoa); Ph.D., 2013, The Ohio State.

Beran, George W.

Beran, Janice Ann
Emeritus Adjunct Professor of Kinesiology. B.A., 1953, Central; M.S., 1970, Drake; Ph.D., 1976, Iowa State.

Beresnev, Igor

Berg, Carrie

Berg, Emily Julia

Berger, Darren J.
Assistant Professor of Veterinary Clinical Sciences. B.S., 2003, Iowa; D.V.M., 2007, Iowa State.

Berger, P. Jeffrey

Berger, Roger Wayne
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S.M.E., 1958, Nebraska; M.S.I.E., 1962, Kansas State; Ph.D., 1968, Oklahoma State.

Bergeson, Kenneth L.

Berghefer, Sherry L.

Bergman, Clifford
Professor of Mathematics. Professor of Computer Science. B.S., 1975, Brown; Ph.D., 1982, California (Berkeley).

Bergman, Sara

Berquist, Erin E.

Bern, Carl Joseph
Professor of Agricultural and Biosystems Engineering; University Professor. B.S., 1963, M.S., 1964, Nebraska; Ph.D., 1973, Iowa State.
BERNARD, JAMES EDWARD

BERRY, SCOTT A
Lecturer in Industrial and Manufacturing Systems Engineering. B.S., 1988, Illinois (Urbana-Champaign).

BESSER, TERRY L.
Emeritus Professor of Sociology. B.S., 1969, Iowa State; M.A., 1975, Northern Iowa; Ph.D., 1991, Kentucky.

BEST, JEREMY A.

BEST, LOUIS BROWN

BETCHER, GLORIA J.
Adjunct Associate Professor of English. B.A., 1985, St. Olaf; M.A., 1990, Ph.D., 1994, Minnesota.

BETTS, DANIEL MORTON

BETTEN, JAMIE J.

BHATTACHARYA, JOYDEEP
Professor of Economics. B.S., 1989, St. Xaviers College; M.A., 1991, Delhi School of Economics (India); M.A., 1994, Ph.D., 1996, Cornell.

BHATTACHARYA, SOURABH

BHATTACHARYYA, MADAN KUMAR
Professor of Agronomy. B.Sc., 1975, Assam Agricultural (India); M.Sc., 1978, Punjab Agricultural (India); Ph.D., 1987, Western Ontario.

BHUSAR, MANJOT
Assistant Professor of Management. B.E., 2007, Thapar (India); M.B.A., 2013, Auburn.

BICKETT-WEDDLE, DANIELLE A.

BIEDERMAN, LORI ANN
Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.A., 1995, Gustavus Adolphus College; M.S., 2000, Minnesota; Ph.D., 2007, Texas A&M.

BIGELOW, TIMOTHY
Associate Professor of Electrical and Computer Engineering; Associate Professor of Mechanical Engineering. B.S., 1998, Colorado State; M.S., 2001, Ph.D., 2004, Illinois.

BIGGS, STEPHEN T.

BIRRELL, STEWART J.
Professor of Agricultural and Biosystems Engineering. B.Sc., 1984, Natal (South Africa); M.S., 1987, Ph.D., 1995, Illinois.

BIRT, DIANE FEICKERT
Emeritus Professor of Food Science and Human Nutrition; Mary B. Welch Distinguished Professor in Human Sciences. B.A., 1972, Whittier College; Ph.D., 1975, Purdue.

BISHOP, STEPHEN H.

BISWAS, RANA
Adjunct Professor of Electrical and Computer Engineering; Adjunct Professor of Physics and Astronomy. B.Sc., 1976, Bombay; M.Sc., 1978, Indian Institute of Technology; M.S., 1981, Ph.D., 1984, Cornell.

BIVENS, GORDON E.
Emeritus Professor of Human Development and Family Studies; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1950, M.S., 1953, Ph.D., 1957, Iowa State.

BLAIR, AMY SUE

BLAKE, J. HERMAN
Emeritus Professor of School of Education; Emeritus Professor of Sociology. B.A., 1960, New York (New York City); M.A., 1965, Ph.D., 1974, California (Berkeley).

BLAKELY, BARBARA JEAN

BLANCHONG, JULIE ANNE

BLANKENSHIP, KEVIN L.
BLEYLE, CARL OTTO  

BLITVICH, BRADLEY J.  

BLOCK, CHARLES C.  
Affiliate Assistant Professor of Plant Pathology and Microbiology. B.S., 1974, Briar Cliff College; M.S., 1979, Ph.D., 1996, Iowa State.

BLOCK, DAVID ARTHUR  

BLODGETT, SUE  
Professor of Entomology and Chair of the Department; Professor of Natural Resource Ecology and Management and Chair of the Department. B.S., 1974, Syracuse; M.S., 1980, Cornell; M.S., 1987, Ph.D., 1989, Kansas State.

BLOEDEL, JAMES R.  
Emeritus Professor of Biomedical Sciences; Emeritus Professor of Kinesiology. B.A., 1962, St. Olaf; Ph.D., 1967, M.D., 1969, Minnesota.

BLONG, APRIL  
Assistant Professor of Veterinary Clinical Sciences. B.S., 2005, D.V.M., 2009, Iowa State.

BLUMEN, VICTORIA  

BLYLER, NANCY L.  

BOBECK, ELIZABETH  

BOBIK, THOMAS A.  

BOESEN, CHRISTIAN  
Senior Lecturer in Economics. B.S., 1995; M.S., 1997, Ph.D., 2006, Missouri.

BOGDANOVIC, JELENA  

BOLLES, HEATHER ANNE  
Senior Lecturer in Mathematics. B.S., 1995, Ph.D., 2000, Iowa State.

BOLLUYT, JAMES EDWARD  

BOLSER, KARL W.  

BOMMARAJU, RAGHU R.  
Assistant Professor of Marketing. B.S., 2005, Chennai Mathematical Institute (India); M.S., 2007, Indian Statistical Institute; M.B.A., 2012, Xavier Labour Relations Institute (India); Ph.D., 2017, Houston.

BONACCORSI, CRISTINA  
Senior Lecturer in Chemistry. M.S., 2001, Pisa (Italy); Ph.D., 2005, Swiss Federal Institute of Technology.

BONAKDARPOUR, BORZOI  
Assistant Professor of Computer Science. B.S., 1999, Esfajan (Iran); M.Sc., 2004, Ph.D., 2009, Michigan State.

BOND, LEONARD J.  
Professor of Aerospace Engineering. B.Sc., 1974, Ph.D., 1978, City University, London.

BONETT, DOUGLAS G.  
Emeritus Professor of Psychology; Emeritus Professor of Statistics. B.A., 1974, California State (Fresno); M.A., 1978, California State (Long Beach); M.A., 1980, Ph.D., 1983, California (Los Angeles).

BOON, WILLIAM C.  

BOOTH, LARRY C. JR.  
Associate Professor of Veterinary Clinical Sciences. D.V.M., 1973, Iowa State; M.S., 1976, Michigan State.

BORGEN, FRED H.  

BORICH, TIMOTHY O.  
Associate Professor of Community and Regional Planning. B.S., 1975, South Dakota State; M.A., 1978, South Dakota; Ph.D., 1992, Iowa State.

BORISOVA, GINKA  
Associate Professor of Finance. B.S., 2000, National and World Economy (Bulgaria); M.B.A., 2004, Ph.D., 2008, Oklahoma.

BORS, FERDINANDO  
Emeritus Professor of Physics and Astronomy. B.S., 1961, Ph.D., 1969, Pavia.

BOSSelman, Robert  
Professor of Apparel, Events and Hospitality Management. B.A., 1976, New York (Buffalo); M.S., 1982, Florida International; Ph.D., 1985, Oklahoma State.
BOUFFARD, JEFFREY A.
Professor of Sociology. B.A., 1992, Suffolk; M.A., 1996, St. Michael's (Vermont); Ph.D., 2000, Maryland.

BOUFFARD, LEANA A.

BOURGOIS-MOCHEL, AGNES
Clinical Assistant Professor of Veterinary Clinical Sciences. B.S., 2004, Marseille (France); D.V.M., 2009, National Veterinary School of Alfort.

BOURY, NANCY M.

BOUVARD, JEFFREY A.
Professor of Sociology. B.A., 1992, Suffolk; M.A., 1996, St. Michael's (Vermont); Ph.D., 2000, Maryland.

BOUVARD, LEANA A.

BOYDSTON, JEANNE M. K.

BOYLAN, DAVID RAY JR.
Emeritus Professor of Chemical and Biological Engineering. B.S., 1943, Kansas; Ph.D., 1952, Iowa State.

BOYES, JAN
Assistant Professor of Greenlee School of Journalism and Communication. B.S.J., 2003, M.S.J., 2006, West Virginia.

BOYES, NORMAN L.

BOYLES, JAN
Assistant Professor of Food Science and Human Nutrition. B.S., 1982, M.S., 1984, Iowa State; Ph.D., 1988, Michigan State.

BOYLES, NORMAN L.

BOYLES, NORMAN L.

BOYLES, NORMAN L.

BOYLES, NORMAN L.

BOYLES, NORMAN L.

BOYLES, NORMAN L.

BOYLES, NORMAN L.

BRACHA, VLASTISLAV
Professor of Biomedical Sciences. B.S., 1981, Leningrad State (Russia); Ph.D., 1988, Czechoslovak Academy of Science (Czechos).

BRACKELSBERG, PAUL O.

BRADBURY, STEVEN PAUL

BRADBURY, SUSAN LEE
Professor of Community and Regional Planning. B.A., 1984, McMaster (Canada); M.A., 1987, Waterloo (Canada); Ph.D., 1989, Florida.

BRAIDWOOD, ALEX

BRANDLE, JAMES
Adjunct Instructor in Military Science. Dipl., Gouverneur Central (New York).

BRANDLE, JAMES
Adjunct Instructor in Military Science. Dipl., Gouverneur Central (New York).

BRANDOM, ALEX

BRANDON, ALEX

BRANDON, ALEX

BRANDLE, JAMES

BRANT, GEORGE

BRATIE, KAITLIN
Associate Professor of Chemical and Biological Engineering; Associate Professor of Materials Science and Engineering. B.S., 2003, Minnesota (Minneapolis), Institute of Technology; Ph.D., 2007, California (Berkeley).

BRATIE, KAITLIN
Associate Professor of Chemical and Biological Engineering; Associate Professor of Materials Science and Engineering. B.S., 2003, Minnesota (Minneapolis), Institute of Technology; Ph.D., 2007, California (Berkeley).

BRATIE, KAITLIN
Associate Professor of Chemical and Biological Engineering; Associate Professor of Materials Science and Engineering. B.S., 2003, Minnesota (Minneapolis), Institute of Technology; Ph.D., 2007, California (Berkeley).

BRATIE, KAITLIN
Associate Professor of Chemical and Biological Engineering; Associate Professor of Materials Science and Engineering. B.S., 2003, Minnesota (Minneapolis), Institute of Technology; Ph.D., 2007, California (Berkeley).

BRATIE, KAITLIN
Associate Professor of Chemical and Biological Engineering; Associate Professor of Materials Science and Engineering. B.S., 2003, Minnesota (Minneapolis), Institute of Technology; Ph.D., 2007, California (Berkeley).
BRAUN, SEBASTIAN

BREHM-STECHER, BYRON F.

BREMER, JEFF R.

BRENDEL, VOLKER

BREWER, KENNETH ALVIN
Emeritus Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1960, M.S., 1961, Kansas State; Ph.D., 1968, Texas A&M.

BREWER, MATTHEW T.
Assistant Professor of Veterinary Pathology. B.S., 2008, Wisconsin (Eau Claire); D.V.M., 2012, Ph.D., 2014, Iowa State.

BRICK, TROY

BRILLHART, CRYSTAL

BRINKLEY, JEFFREY

BRINKMANN, JARRED A.

BRO, ADALU C.

BROCKMAN, WILLIAM H.

BROGDEN, KIM

BRONIKOWSKI, ANNE MARIE

BRONSON, CHARLOTTE R.
Emeritus Professor of Plant Pathology and Microbiology; B.S., 1969, New Mexico; M.S., 1974, Michigan; Ph.D., 1981, Michigan State.

BRONSON, JANCI LYNN ABLARD

BROOKE, CORLICE P.

BROTHENSON, MARY JANE

BROWN, ERIC A.

BROWN, GEORGE GORDON

BROWN, JAMES ROBERT
Associate Professor of Finance and Chair of the Department. B.A., 1996, Transylvania; M.S., 1999, Kentucky; Ph.D., 2004, Washington (St. Louis).

BROWN, LAURA MICHAEL

BROWN, MICHAEL G.

BROWN, NANCY EVELYN
Emeritus Associate Professor of Apparel, Events and Hospitality Management. B.S., 1960, Vermont; M.S., 1964, Kansas State; Ph.D., 1972, Iowa State.

BROWN, ROBERT C.
Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering; Professor of Agricultural and Biosystems Engineering. Anson Marston Distinguished Professor in Engineering; Director of the Bioeconomy Institute. B.A., 1976, B.S., 1976, Missouri; M.S., 1977, Ph.D., 1980, Michigan State.
BROWN, ROBERT GROVER
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, M.S., 1951, Ph.D., 1956, Iowa State.

BROWN, WYATT J.

BROWN-BRANDL, TAMIAffiliate Associate Professor of Agricultural and Biosystems Engineering. B.S., 1992, M.S., 1995, Nebraska; Ph.D., 1998, Kentucky.

BRUENE, BARBARA JANE

BRUENE, ROGER J.
Emeritus Associate Professor of Agricultural Education and Studies. B.S., 1956, Iowa State.

BRUMM, THOMAS J.
Associate Professor of Agricultural and Biosystems Engineering. B.S., 1979, Iowa State; M.S., 1980, Purdue; Ph.D., 1990, Iowa State.

BRUN, JUDY KAY
Emeritus Professor of Human Development and Family Studies; Emeritus Professor of School of Education. B.S., 1964, Michigan State; M.S., 1967, Ph.D., 1970, Iowa State.

BRUNA, KATHERINE R.
Associate Professor of School of Education. B.A., 1988, Vassar College; M.A., 1994, Ph.D., 2002, California (Davis).

BRUNER, AARON

BRUSKI, PAUL R.

BRUTON, BRENT T.

BRYDEN, KENNETH MARK

BRYDEN, KRISTY

BUCHHOLZ, SANDRA KAY

BUCK, PETER G.

BUDKO, SERGUEI L.

BUGEJA, DIANE FAYE
Senior Lecturer in Greenlee School of Journalism and Communication. B.S., 1981, M.S., 1988, Oklahoma State.

BUGEJA, MICHAEL J.
Professor of Greenlee School of Journalism and Communication. B.A., 1974, Saint Peters College; M.S., 1976, South Dakota State; Ph.D., 1985, Oklahoma State.

BUHR, DANIEL A.
Adjunct Assistant Professor of Naval Science. B.S., 1995, Iowa State; M.B.A., 2009, Webster.

BUNDY, DWAINES.

BUNDY, JENNIFER M.
Assistant Professor of Animal Science. B.S., 2002, Missouri; M.S., 2005, Ph.D., 2008, Nebraska.

BUNZEL, HELLE

BURGASON, KYLE

BURGER, STEWART LEE
Lecturer in Apparel, Events and Hospitality Management. B.S., 1970, Cornell; M.S., 1972, Iowa State.

BURGETT, CHRISTEN G.

BURKART, MICHAEL R.
Affiliate Associate Professor of Geological and Atmospheric Sciences. B.S., 1964, Wisconsin; M.S., 1969, Northern Illinois; Ph.D., 1976, Iowa.

BURKE, BENJAMIN
Affiliate Assistant Professor of Geological and Atmospheric Sciences. Ph.D., 2006, Dartmouth College.

BURKE, BRIANNA R.
BURKE, K. A.

BURKHALTER, N. L.
Emeritus Professor of Music and Theatre; Emeritus Professor of School of Education. L.T.C.L., 1939, Trinity (London); B.S.M.,1947, Bluffton; M.M.,1949, Northwestern; Ph.D.,1961, Ohio State.

BURNET, GEORGE
Emeritus Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, M.S., 1949, Ph.D., 1951, Iowa State.

BURNETT, JOSEPH W.

BURNEET, REBECCA E.

BURNLEY, JOHN

BURRAS, CHARLES L.
Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.S., 1981, M.S., 1984, Iowa State; Ph.D., 1992, Ohio State.

BURRIS, JOSEPH

BURROUGH, ERIC

BURT, BRIAN
Assistant Professor of School of Education. B.S., 2004, Indiana; M.A., 2006, Maryland; Ph.D., 2014, Michigan.

BUSS, ASHLEY

BUSS, JANICE E.
Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1970, Iowa State; Ph.D., 1983, California (San Diego).

BUTLER, ANNEMARIE
Associate Professor of Philosophy and Religious Studies. B.A., 1996, Trinity College; Ph.D., 2005, Iowa.

BUTLER, LORNA MICHAEL
Emeritus Professor of Sociology; Emeritus Professor of World Languages and Cultures. B.Sc., 1961, Manitoba; M.Ed., 1967, Colorado State; Ph.D., 1976, Washington State.

BUTLER, STEVE
Associate Professor of Mathematics. B.S., 2001, M.S., 2003, Brigham Young; Ph.D., 2008, California (San Diego).

BUTLER, TRAVIS LLOYD

C
CADEMARTIRI, LUDOVICO
Assistant Professor of Materials Science and Engineering; Assistant Professor of Chemical and Biological Engineering. Laurea Magistrale, 2002, Parma (Italy); Ph.D., 2008, Toronto (Canada).

CADEMARTIRI, REBECCA
Lecturer in Materials Science and Engineering. Diploma, 2002, Johannes Gutenberg (Mainz, Germany); Ph.D., 2005, Potsdam (Germany).

CAGLEY, LEE W.
Professor of Interior Design and Chair of the Department. B.A., 1975, Iowa State.

CAI, LING
Senior Lecturer in World Languages and Cultures. B.A., 1988, Beijing Normal (China); M.A., 2007, Iowa State.

CAI, YING

CAIN, BRYAN EDMUND

CAISSIE, BETH E.

CALDWELL, BARBARA A.

CALL, ANSON B.
Associate Professor of Graphic Design; Associate Professor of Architecture. B.F.A., 2000, M.F.A., 2003, Utah State.

CAMARGO-BARTALOTTI, OTAVIO
CAMBARDELLA, CYNTHIA ANN
Affiliate Associate Professor of Agronomy. B.S., 1975, Maryland; Ph.D., 1991, Colorado State.

CAMPBELL, ARDEN RAY

CAMPBELL, CAMERON T.
Associate Professor of Architecture; Associate Professor of Art and Design; Associate Dean of the College of Design. B.Arch., 1997, M.Arch., 2003, Iowa State.

CAMPBELL, CHRISTINA

CAMPBELL, CYNTHIA J.

CAMPBELL, JOY M.

CANNFIELD, PAUL C.
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1983, Virginia; Ph.D., 1990, M.S., 1990, California (Los Angeles).

CANNIFFE, BERNARD
Associate Professor of Graphic Design and Chair of the Department. B.A., 1984, Wales; M.F.A., 1999, Savannah College of Art and Design.

CANNON, STEVEN B.

CANTOR, DAVID EDWARD

CAO, CHENXIN
Assistant Professor of Supply Chain and Information Systems. B.S., 2007, Renmin (China); M.S., 2009, Renmin (China); M.P.P., 2011, Minnesota; Ph.D., 2017, Minnesota.

CARAGEA, PETRUTA CARMEN
Professor of Statistics. B.S., 1997, Bucuresti (Romania); Ph.D., 2003, North Carolina.

CARAWAY, ROSE T.

CARDINAL-PETT, CLARE

CARITHERS, JEANINE R.
Emeritus Professor of Biomedical Sciences. B.S., 1956, M.S., 1965, Iowa State; Ph.D., 1968, Missouri.

CARITHERS, ROBERT W.
Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1956, Iowa State; M.S., 1968, Missouri; Ph.D., 1972, Iowa State.

CARLSON, IRVING

CARLSON, PATRICIA M.
Emeritus Associate Professor of School of Education. B.S., 1975, Nebraska; M.S., 1977, Indiana; Ph.D., 1990, Nebraska.

CARLSON, RICHARD E.

CARLSON, STEVEN A.

CARLSON, SUSAN L.

CARNEVALE, JOYCE
Clinical Assistant Professor of Veterinary Clinical Sciences. B.S., 1984, Cornell; M.S., 1988, Colorado State; D.V.M., 1990, Cornell.

CARPENTER, SHANA K.

CARPENTER, SUSAN LONG

CARRIQUIRY, ALICIA L.
Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1982, Universidad De La Republica (Uruguay); M.S., 1985, Illinois; M.S., 1986, Ph.D., 1989, Iowa State.

CARSON, THOMAS L.

CARSTENS, KERI LYNN
CARTER, RICHARD B.

CARTER, RICHARD I.
Emeritus Professor of Agricultural Education and Studies; Emeritus Professor of School of Education. B.S., 1966, M.S., 1968, Oklahoma State; Ph.D., 1976, Iowa State.

CARTER, WILLIAM HOWARD
Associate Professor of World Languages and Cultures. B.A., 1997, Virginia; M.A., 2000, Ph.D., 2005, California (Santa Barbara).

CARTER-LEWIS, DAVID A.

CASSADY, CHRIS
Lecturer in Animal Science. B.S., 2010, Ph.D., 2016, Texas A&M.

CASTELLANO, MICHAEL

CASTILLO-GIL MIRIAM S.

CASTON (AUCK), STEPHANIE S.
Associate Professor of Veterinary Clinical Sciences. D.V.M., 2002, Texas A&M.

CERFOGLI, FRANK
Clinical Assistant Professor of Veterinary Clinical Sciences. B.A., 1997, Northern Iowa; D.V.M., 2001, Iowa State.

CERVATO, CINZIA
Professor of Geological and Atmospheric Sciences; Morrill Professor. Ph.D., 1990, Swiss Federal Institute of Technology.

CETIN, BORA

CETIN, KRISTEN
Assistant Professor of Civil, Construction and Environmental Engineering. Assistant Professor of Mechanical Engineering. B.S., 2009, M.S., 2010, Maryland; Ph.D., 2015, Texas.

CEYLAN, HALIL

CHACKO, THOMAS I.
Emeritus Professor of Management. B.Sc., 1968, Madras (India); M.A., 1972, St. Francis; Ph.D., 1977, Iowa.

CHAMBERLIN, DENNIS MATTHEW

CHAMBERLIN, JOAN BORSVOLD

CHAMBERLIN, MELISSA

CHAN, CHIU SHUI

CHAN, CHUN KIT
Associate Professor of Psychology. B.S., 2000, Victoria (Canada); Ph.D., 2007, Washington (St. Louis).

CHAN, LYDIA SAU KUM

CHANDRA, ABHIJIT

CHANG, CARL KOCHAO
Professor of Computer Science. B.S., 1974, National Central (Taiwan); M.S., 1978, Northern Illinois; Ph.D., 1982, Northwestern.

CHANG, SHU-HUI H.
Senior Lecturer in Computer Science. B.A., 1982, National Central (Taiwan); M.S., 1998, Ph.D., 2006, Iowa State.

CHANG, WEN
Assistant Professor of Apparel, Events and Hospitality Management. B.S., 2009, Dongbei University of Finance and Economics (China); M.S., 2011, Houston; Ph.D., 2015, Nevada (Las Vegas).

CHAPELLE, CAROL A.

CHAPLIN, MICHAEL H.

CHARAVARYAMATH, CHANDRASHEKHAR
Assistant Professor of Biomedical Sciences. D.V.M./BVSc, 1997, MVSc, 1999, University of Agricultural Sciences (India); Ph.D., 2008, Saskatchewan (Canada).

CHASE, CHRISTOPHER WYATT
CHASE, GERALD W.

CHAUDHURI, SOMA

CHEN, AN
Assistant Professor of Civil, Construction and Environmental Engineering. B.E., 1995, M.S., 1998, Dalian University of Technology (China); Ph.D., 2004, West Virginia.

CHEN, BAOYU
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B. S., 2000, Hunan (China); M.S., 2003, Tsinghua (China); Ph.D., 2008, Pennsylvania State.

CHEN, CHUNHUI

CHEN, DEGANG
Professor of Electrical and Computer Engineering. B.S., 1984, Tsinghua (China); M.S., 1988, Ph.D., 1992, California (Santa Barbara).

CHEN, HAOZHE

CHEN, RUI

CHEN, SENLIN

CHEN, SONG XI

CHEN, TSING-CHANG
Emeritus Professor of Geological and Atmospheric Sciences; Emeritus Professor of Agronomy. B.A., 1965, Taiwan Normal; M.S., 1968, National Central (Taiwan); M.A., 1972, Johns Hopkins; Ph.D., 1975, Michigan.

CHEVILLE, NORMAN F.
Emeritus Professor of Veterinary Pathology; Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Emeritus Dean of the College of Veterinary Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1959, Iowa State; M.S., 1963, Ph.D., 1964, Wisconsin; Dr.H.C., 1986, Liege.

CHIDISTER, MARK J.

CHILCOTT, TRAVIS
Associate Professor of Philosophy and Religious Studies. B.A., 2001, California (Santa Barbara); M.S., 2002, Oxford (UK); Ph.D., 2011, California (Santa Barbara).

CHILDERS, TERRY LEE

CHIMENTI, DALE E.
Professor of Aerospace Engineering. B.A., 1968, Cornell College; M.S., 1972, Ph.D., 1974, Cornell.

CHING, BARBARA A.

CHIOU, CHIEN-PING
Adjunct Associate Professor of Aerospace Engineering. B.S., 1981, National Cheng Kung (China); M.S., 1986, Ph.D., 1990, Iowa State.

CHO, IN-HO

CHO, MICHAEL
Professor of Biomedical Sciences. B.A., 1987, Whitman College; Ph.D., 1994, Utah.

CHO, YONGYEON
Assistant Professor of Interior Design. B.A., 2009, Soong-Sil (South Korea); M.I.A., 2011, Konkuk (South Korea); M.F.A., 2016, Iowa State.

CHOI, EUN KWAN

CHOI, JI YOUNG
Assistant Professor of Human Development and Family Studies. B.S., 2008, Yonsei (South Korea); M.S., 2011, Ph.D., 2014, Purdue.

CHOOBINEH, FARHAD
Adjunct Instructor in Supply Chain and Information Systems. B.S., 1974, Management (Iran); M.E., 1983, Iowa State.

CHOPRA, SHWETA
Assistant Professor of Agricultural and Biosystems Engineering. B.E., 2005, Pune (India); M.S., 2009, Rochester Institute of Technology.

CHOU, LI-SHAN
Professor of Kinesiology and Chair of the Department. B.S., 1987, Tatung Institute of Technology (Taiwan); M.S., 1990, Ph.D., 1995, Illinois.
CHRISTENSEN, AMY C.

CHRISTENSEN, GEORGE C.
Emeritus Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1949, M.S., 1950, Ph.D., 1953, Cornell; D.Sc., 1978, Purdue.

CHRISTIANS, NICK E.
Professor of Horticulture; Professor of Agronomy. University Professor. B.S., 1972, Colorado State; M.S., 1977, Ph.D., 1979, Ohio State.

CHU, CHRIS CHONG-NUEN
Professor of Electrical and Computer Engineering. B.Sc., 1993, Hong Kong; M.S., 1994, Ph.D., 1999, Texas.

CHUKHAREV-KHUDILAYNEN, EVGENY
Associate Professor of English. B.Sc., 2006, M.Sc., 2006, Arkhangelsk State Technical (Russia); Ph.D., 2009, Herzen State Pedagogical (St. Petersburg, Russia).

CHUMBLEY, L. SCOTT

CHUNG, TELIN
Associate Professor of Apparel, Events and Hospitality Management. B.S., 2005, National Chiao Tung (Taiwan); M.S., 2008, Ph.D., 2011, Purdue.

CHYZH, OLGA
Assistant Professor of Political Science. Assistant Professor of Statistics. B.A., 2005, M.A., 2008, Nebraska; Ph.D., 2013, Iowa.

CIANZIO, SILVIA R.

CIARDO, GIANFRANCO
Professor of Computer Science and Chair of the Department. B.S., 1982, Di Torino (Italy); Ph.D., 1989, Duke.

CIHA, ALLAN

CLAPP, TARA
Lecturer in Community and Regional Planning. B.E.S., 1985, Manitoba (Canada); M.E., 1995, Calgary (Canada); Ph.D., 2003, Southern California.

CLARK, LYNN G.

CLARK, PETER
Assistant Professor of Food Science and Human Nutrition. B.A., 2004, Wisconsin (Milwaukee); Ph.D., 2011, Illinois.

CLARK, STEPHANIE

CLARK, WILLIAM R.

CLARKE, ALVIN E.

CLAUSSEN, JONATHAN
Assistant Professor of Mechanical Engineering. B.A., 2006, Minnesota; M.S., 2008, Ph.D., 2011, Purdue.

CLAWSON, BARB A.

CLEASBY, JOHN L.
Emeritus Professor of Civil, Construction and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1950, M.S., 1951, Wisconsin; Ph.D., 1960, Iowa State.

CLEM, ANNE MARIE

CLIBER, JAMES

CLIFFORD, ANNE
Associate Professor of Philosophy and Religious Studies. B.A., 1972, Carlow College; M.A., 1980, Catholic Theological Union; Ph.D., 1988, Catholic University of America.

CLOTTEY, TOYIN A.
Associate Professor of Supply Chain and Information Systems. B.A., 2001, Ghana (West Africa); M.S., 2006, Ph.D., 2010, Ohio State.

CLOUGH, MICHAEL P.

COATES, BRAD S.

COATS, JOEL
Professor of Entomology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1970, Arizona State; M.S., 1972, Ph.D., 1974, Illinois.

COBERLEY, MARK C.
COCHRAN, DIANA  

COCHRAN, ERIC W.  
Professor of Chemical and Biological Engineering. B.Sc., 1998, Iowa State; Ph.D., 2004, Minnesota.

COCHRAN, JAMES  

CODY, ANITA  

CODY, ROBERT  

COFFELT, TINA A.  

COFFMAN, CLARK  
Associate Professor of Genetics, Development and Cell Biology. B.S., 1986, Iowa State; Ph.D., 1993, California (La Jolla).

COHEN, HARRY  

COHEN, MYRA  
Professor of Computer Science. B.S., Cornell; M.S., 1999, Vermont; Ph.D., 2004, Auckland (New Zealand).

COIMBRA-CARDOSO, CARLOS  
Associate Professor of Industrial Design. B.A., 1999, Lisbon University of Technology; Ph.D., 2005, Cambridge (United Kingdom).

COLBERT, JAMES T.  
Associate Professor of Ecology, Evolution and Organismal Biology; Associate Professor of Genetics, Development and Cell Biology. B.S., 1978, Iowa State; M.S., 1981, Ph.D., 1985, Wisconsin.

COLBERT, KAREN K.  

COLE, JIM E.  

COLEMAN, SHANNON M.  
Assistant Professor of Food Science and Human Nutrition. B.S., 2008, M.S., 2011, Alabama A&M; Ph.D., 2015, Colorado State.

COLETTI, JOE PAUL  
Professor of Natural Resource Ecology and Management; Senior Associate Dean of the College of Agriculture and Life Sciences. B.S., 1972, Humboldt; M.S., 1974, Ph.D., 1978, Wisconsin.

COLLINS, PETER  

COLVER, GERALD M.  

COLWELL, PETER  

COMSTOCK, CHESTER JR.  

CONGER, RAND DONALD  

CONSTANT, ALAN P.  

CONSTANT, KRISTEN P.  
Professor of Materials Science and Engineering. Interim Vice President of Information Technology Services/Chief Information Officer; Morrill Professor. B.S., 1986, Iowa State; Ph.D., 1990, Northwestern.

COOK, CHRISTINE C.  

COOK, DIANNE H.  
Emeritus Professor of Statistics. B.S., 1979, New England (Australia); M.S., 1990, Ph.D., 1993, Rutgers.

COOK, K. L.  

COOK, SAMUEL  

COOK, WILLIAM JOHN  
COON, STEPHEN C.
Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1967, Iowa; M.S., 1970, Iowa State.

COOPER, ERIC E.
Associate Professor of Psychology. B.S., 1988, Kansas; Ph.D., 1993, Minnesota.

COOPER, THERESSA NICOLE
Adjunct Assistant Professor of Agriculture Education and Studies; Assistant Dean of the College of Agriculture and Life Sciences. B.S., 2001, M.S., 2002, Texas A&M; Ph.D., 2010, Tennessee.

COOPER, VICKIE LOU

CORDERY, SIMON

CORDERY, STACY

CORDOBA, JUAN CARLOS

CORDRAY, JOSEPH C.

CORMICLE, LARRY W.

CORNETTE, JAMES L.
Emeritus Professor of Mathematics; University Professor. B.S., 1955, West Texas; M.A., 1959, Ph.D., 1962, Texas.

CORNICK, NANCY

CORREIA-LIMA-LINHAES, DANIEL
Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2003, Federal de Goias (Brazil); M.B.A., 2007, Fundacao Getulio Vargas (Brazil); Ph.D., 2013, Minnesota.

COTOS, ELENA

COUNTRYMAN, DAVID W.

COURTEAU, JOANNA W. S.
Emeritus Professor of World Languages and Cultures; University Professor. B.A., 1960, Minnesota; M.A., 1962, Ph.D., 1970, Wisconsin.

COURTNEY, GREGORY W.
Professor of Entomology; Professor of Ecology, Evolution and Organismal Biology. B.S., 1982, Oregon State; Ph.D., 1989, Alberta (Canada).

COURTWRIGHT, JULIE
Associate Professor of History. B.S.E., 1994, Emporia State; M.A., 2000, Wichita State; Ph.D., 2007, Arkansas.

COWAN, ARNOLD RICHARD

COWAN, DONNA LEE

COWLES, HAROLD ANDREW
Emeritus Professor of Industrial and Manufacturing Systems Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1949; M.S., 1953, Ph.D., 1957, Iowa State.

COX, JANE F.

COX, RONALD ARTHUR
Adjunct Associate Professor of Aerospace Engineering. B.S., 1979, Iowa State; M.S., 1982, Texas (Arlington); Ph.D., 1989, Iowa State.

COYIER, ANGELA

CREASE, SEDAHLIA J.
Emeritus Professor of Human Development and Family Studies; University Professor. B.S., 1967, Berea; M.S., 1969, Kentucky; Ph.D., 1972, Iowa State.

CRAWFORD, DENISE A.
Associate Professor of School of Education. B.S., 1982, M.S., 1991, Ph.D., 1995, Iowa State.

CRAWFORD, HAROLD R.

CRAWLEY, HENRY BERT
Emeritus Professor of Physics and Astronomy. B.S., 1962, Louisiana Tech; Ph.D., 1966, Iowa State.

CREDE, MARCUS
Assistant Professor of Psychology. B.Bus., 1997, M.A., 1999, Cape Town (South Africa); Ph.D., 2005, Illinois.
CRESPI, JOHN M.
Professor of Economics. Interim Director of Center for Agricultural and Rural Development. B.A., 1988, B.A., 1989, California State (Sacramento); M.A., 1994, Colorado State; Ph.D., 2000, California (Davis).

CRESWELL, MARY

CROSS, SAMANTHA N.
Associate Professor of Marketing. B.Sc., 1993, University of the West Indies; M.B.A., 1995, Depaul; Ph.D., 2009, California (Irvine).

CROSS, SUSAN ELAINE
Professor of Psychology and Chair of the Department. B.S., 1979, Texas A&M; M.A., 1982, Ohio State; Ph.D., 1990, Michigan.

CROYLE, CORYDON A.

CRUM, MICHAEL ROBERT

CRUMP, MALCOLM H.
Emeritus Associate Professor of Biomedical Sciences. B.S., 1951, Virginia Polytechnic Institute; D.V.M., 1958, Georgia; M.S., 1961, Ph.D., 1965, Wisconsin.

CRUMPTON, WILLIAM G.

CRUSE, RICHARD M.
Professor of Agronomy. B.S., 1972, Iowa State; M.S., 1975, Ph.D., 1978, Minnesota.

CUI, JUN

CULLINAN, TIM

CUNNALLY, JOHN

CUNNALLY, RUTHELLEN

CUNNICK, JOAN E.
Professor of Animal Science; B.S., 1979, McPherson; Ph.D., 1987, Kansas State.

CURRAN, PAULA J.

CURRIGE, CHRISTOPHER

CURRIER, RUSSELL

CURTIS, MICHAEL B.
Clinical Associate Professor of Veterinary Clinical Sciences. B.S., 1977, New Mexico State; Ph.D., 1985, New Mexico; D.V.M., 1985, Colorado State.

CURTIS, SCOTT B.
Professor of Naval Science and Chair of the Department. B.S., 1992, Kansas State; M.S., 2000, Naval Postgraduate School.

CURTZWILER, GREG
Assistant Professor of Food Science and Human Nutrition. B.S., 2009, M.S., 2009, California Polytechnic State; Ph.D., 2017, Southern Mississippi.

CURZON, MIRANDA

CUTRONA, CAROLYN E.
Professor of Psychology. Associate Dean of the Graduate College. B.A., 1973, Stanford; M.A., 1974, New Mexico; Ph.D., 1981, California (Los Angeles).

D
D`ALESSANDRO, DOMENICO
Professor of Mathematics. Ph.D., 1996, Padua (Italy); Ph.D., 1999, California (Santa Barbara).

D’ORIA, LAURA
Assistant Professor of Management. B.S., 2006, Ilum (Italy); M.S., 2008, Ilum (Italy); Ph.D., 2013, Ilum (Italy)

DAHIYA, RAJBIR S.

DAHLSTROM, MICHAEL F.
DAI, XIONGTAO
Assistant Professor of Statistics. B.S., 2013, Hong Kong; Ph.D., 2018, California (Davis).

DAIL, PAULA W.

DAKE, DENNIS MYRON

DALAL, VIKRAM L.
Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1964, Bombay; Ph.D., 1969, Princeton.

DALAR, BRENDA O.
Emeritus Professor of English; University Professor. B.A., 1963, North Dakota; Ph.D., 1985, Minnesota.

DALY, NORENE F.

DAMHORST, MARY LYNN
Emeritus Professor of Apparel, Events and Hospitality Management. B.S., 1972, Illinois; M.S., 1975, California (Davis); Ph.D., 1981, Texas.

DANIELS, THOMAS EARL

DANIELSON, BRENT J.

DANIELSON, JARED A.
Associate Professor of Veterinary Pathology; Associate Professor of School of Education. Associate Dean of the College of Veterinary Medicine. B.A., 1994, Brigham Young; M.S., 1996, Syracuse; Ph.D., 1999, Virginia Polytechnic.

DANOFSKY, RICHARD A.

DARK, FREDERICK H.
Emeritus Associate Professor of Finance; Emeritus Associate Professor of Accounting. B.S., 1971, Arkansas; Ph.D., 1987, Utah.

DARK, VERONICA JOY

DARLINGTON, MAHLON S.

DARR, MATTHEW JOHN
Professor of Agricultural and Biosystems Engineering. B.S., 2002, Ohio State; M.S., 2004, Kentucky; Ph.D., 2007, Ohio State.

DAS, BISWA
Assistant Professor of Industrial and Manufacturing Systems Engineering. B.Sc., 2009, M.Sc., 2011, Sharif University of Technology (Iran); Ph.D., 2016, Florida.

DAVID, CAROL S.

DAVID, WILLIAM MILLS

DAVIS, JAMES A.
Associate Professor of Supply Chain and Information Systems. B.S., 1975, M.S., 1981, Ph.D., 1984, Iowa State.

DAVIS, RADFORD G.

DAVIS, SARAH S.
Senior Lecturer in English. B.A., 1994, California (Berkeley); M.A., 2009, Iowa State.

DAWSON, JACOB
DAWSON, JANE P.

DAY, CHRISTOPHER
Assistant Professor of Civil, Construction and Environmental Engineering. B.S., 2004, Ball State; M.S., 2006, Ball State; M.S., 2007, Purdue; Ph.D., 2010, Purdue.

DAY, TIMOTHY A.
Professor of Biomedical Sciences. B.S., 1988, Kansas State; M.S., 1990, Ph.D., 1993, Michigan State.

DAYAL, VINAY
Associate Professor of Aerospace Engineering. B.Tech., 1972, Indian Institute of Technology; M.S., 1983, Missouri; Ph.D., 1987, Texas A&M.

DE BRABANTER, KRIS
Assistant Professor of Statistics. Assistant Professor of Computer Science. Assistant Professor of Industrial and Manufacturing Systems Engineering. B.Sc., 2003, Hogeschool Brussel (Belgium); M.Sc., 2007, Ph.D., 2011, Leuven (Belgium).

DE CASTRO SEBASTIAO, BEATRIZ

DE LEÓN, J. ELISEO
Adjunct Assistant Professor in Food Science and Human Nutrition. B.A., 1994, California (Davis); Ph.D., 2013, Iowa State.

DEACON, RUTH ELINOR
Emeritus Professor of Human Development and Family Studies. B.S., 1944, Ohio State; M.S., 1948, Ph.D., 1954, Cornell.

DEAM, DIRK J.

DEARIN, RAY D.

DECLERCK, JONATHAN CHARLES

DeFREITAS, ZORAIDA
Affiliate Assistant Professor of Food Science and Human Nutrition. B.S., 1985, Catolica Andres Bello (Venezuela); M.S., 1989, Ph.D., 1994, Iowa State.

DEIBLER, KYLA

DEININGER, MELISSA ANN

DEITER, RONALD E.

DEJONG, PAUL S.

DEKKERS, JACK C.
Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1982, M.S., 1985, Wageningen Agricultural (Netherlands); Ph.D., 1989, Wisconsin.

DELEATE, KATHLEEN
Professor of Horticulture; Professor of Agronomy. B.S., 1977, M.S., 1986, Florida; Ph.D., 1991, California (Berkeley).

DELISI, MATTHEW J.
Professor of Sociology. B.A., 1995, Syracuse; Ph.D., 2000, Colorado.

DELL, BRAD EDWARD

DELLMANN, H. DIETER
Emeritus Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. Dr. Vet., 1954, Alford; Habil(PhD), 1961, Munich.

DEMARIE, SAM

DEMBEK, KATARZYNA
Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2005, Warsaw University of Life Sciences (Poland); M.S., 2012, Ph.D., 2017, Ohio State.

DENEKAS, CHRISTINA M.

DENISON, CHRISTINE ALICIA

DENIZEL-KARAKAYA, MELTEM
Associate Professor of Supply Chain and Information Systems. B.S., 1983, M.S., 1986, Middle East Technical (Turkey); Ph.D., 1993, Florida.

DENTON, DENISE C.
DERRICK, TIMOTHY R.

DERSCHEID, RACHEL

DEWALL, BRIAN S.

DEWELL, GRANT ALAN

DEWITT, JERALD RAY

DHADPHALE, TEJAS
Assistant Professor of Industrial Design. B. Arch., 2002, Pune (India); M.S.D., 2007, Ph.D., 2013, Arizona State.

DIAL, ETHAN
Professor of Military Science and Tactics and Chair of the Department. B.S., 1999, United State Military Academy; M.S., 2013, Kansas State.

DIBLASI, JONATHAN

DICKERSON, JULIE A.
Professor of Electrical and Computer Engineering. B.S., 1983, California (San Diego); M.S., 1987, Ph.D., 1993, Southern California.

DICKSON, JAMES S.
Professor of Animal Science. B.S., 1977, Clemson; M.S., 1980, Georgia; Ph.D., 1984, Nebraska.

DIESSLIN, BRENDA ANN

DILLA, WILLIAM N.
Professor of Accounting and Chair of the Department. B.M., 1978, M.B.A., 1979, Syracuse; Ph.D., 1987, Texas.

DILTS, HAROLD E.
Emeritus Professor of School of Education. B.S., 1951, M.A., 1958, Northern Iowa; Ph.D., 1963, Iowa.

DIMITROVA, DANIELA
DODSON, JACOB  

DOGANDZIC, ALEKSANDAR  

DOHLMAN, TYLER  

DOLLISSO, AWOKE DESTA  

DOLPHIN, WARREN DEAN  
Emeritus Professor of Genetics, Development and Cell Biology; University Professor. B.S., 1962, West Chester; Ph.D., 1968, Ohio State.

DOMINGUEZ-CASTELLANO, J.  
Associate Professor of World Languages and Cultures. B.A., 1998, Extremadura (Spain); M.A., 2000, Michigan State; Ph.D., 2004, Arizona.

DOMOTO, PAUL ALAN  
Emeritus Professor of Horticulture. B.S., 1969, M.S., 1971, California State (Fresno); Ph.D., 1974, Maryland.

DONG, JING  
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 2001, M.S., 2003, Tsinghua (China); Ph.D., 2009, Northwestern.

DONG, LIANG  
Professor of Electrical and Computer Engineering; Professor of Chemical and Biological Engineering. B.S., 1999, Xidian (China); Ph.D., 2004, Tsinghua (China).

DONOHO, HEATHER  

DORAN, ERIN  

DORIUS, CASSANDRA  

DORIUS, SHAWN  

DORMAN, KARIN  
Professor of Statistics; Professor of Genetics, Development and Cell Biology. B.S., 1994, Indiana; Ph.D., 2001, California (Los Angeles).

DORNEICH, MICHAEL  
Associate Professor of Industrial and Manufacturing Systems Engineering; Associate Professor of Aerospace Engineering. B.S., 1990, M.S., 1995, Ph.D., 1999, Illinois.

DOSANJH, RANPAL  
Assistant Professor of Philosophy and Religious Studies. B.Sc., 1998, Trent (Canada); Ph.D., 2001, Cambridge (UK); Ph.D., 2014, Toronto.

DOUGLAS, DANNY  

DOW, JAMES R.  
Emeritus Professor of World Languages and Cultures. B.A., 1957, Mississippi College; M.A., 1961, Ph.D., 1966, Iowa.

DOWNING, JOHN A.  

DOYLE, SHELBY  

DRAKE, SHARON KAY  

DRAPER, DIANNE C.  

DRAPER, DONALD D.  

DRENTH, JESSICA  

DRINKWATER, JENNIFER D.  

DRURY, ALAN  

DUBISAR, ABBY  
Associate Professor of English. B.A., 2001, Missouri (Kansas City); M.A., 2005, Ohio State; Ph.D., 2010, Miami.
DUERFELDT, KEVIN

DUFFY, MICHAEL D.

DUKES, LISA MARIE

DUONG, TRUONG
Associate Professor of Finance. B.S., 2002, Arizona; Ph.D., 2008, Minnesota.

DUPONT, JACQUELINE
Emeritus Professor of Food Science and Human Nutrition. B.S., 1955, Florida State; M.S., 1959, Iowa State; Ph.D., 1962, Florida State.

DURAND, DONALD P.
Emeritus Professor of Plant Pathology and Microbiology. A.B., 1955, Guilford; M.S., 1957, Ph.D., 1960, Kansas State.

DURBIN, PAUL
Professor of Aerospace Engineering. B.S.E., 1974, Princeton; Ph.D., 1979, Cambridge.

DUSSELIER, JANE E.
Senior Lecturer in History and Director of Asian American Studies. B.A., 1979, Avila; M.A., 1999, Sarah Lawrence; Ph.D., 2005, Maryland.

DUTTA, SOMAK

DUWE, HENRY JOHN III

DYCHES, JEANNE

DYER, DONALD CHESTER
Emeritus Professor of Biomedical Sciences. B.S., 1961, Ph.D., 1965, Kansas.

E
EASON, EDWARD

EBBERS, LARRY H.
Emeritus Professor of School of Education; University Professor. B.S., 1962, M.S., 1968, Ph.D., 1971, Iowa State.

EDELMAN, MARK ALAN
Professor of Economics. B.S., 1975, M.S., 1978, Kansas State; Ph.D., 1981, Purdue.

EDWARDS, DAVID C.

EDWARDS, JODE W.

EDWARDS, NATHAN

EDWARDS, WILLIAM M.

EGDORF, DIANE

EID, ARVID RAY

EIKE, RACHEL
Assistant Professor of Apparel, Events and Hospitality Management. B.S., 2007, Iowa State; M.S., 2009, Ph.D., 2014, Oklahoma State.

EISENMANN, DAVID
Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1985, B.S., 2002, Ph.D., 2015, Iowa State; M.S., 1996, Maryville (St. Louis).

EISMAN, APRIL ANGELIQUE

EKKEKAKIS, PANTELEIMON

ELBERT, CAROLYN A.
Lecturer in Apparel, Events and Hospitality Management. B.S., 2006, Iowa State; M.S., 2012, Nebraska.

ELIA, NICOLA
Emeritus Professor of Electrical and Computer Engineering. Ph.D., 1996, Massachusetts Institute of Technology.

ELLINGSON, JOSHUA
ELLINGSON, LAURA D.

ELLINWOOD, NORMAN MATTHEW
Associate Professor of Animal Science; Associate Professor of Veterinary Clinical Sciences. B.A., 1985, Washington (St. Louis); D.V.M., 1997, Ph.D., 2000, Colorado State.

ELLIS, TIMOTHY G.
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1984, Drexel; M.S., 1988, Georgia Institute of Technology; Ph.D., 1995, Clemson.

ELOBEID, AMANI E.
Adjunct Assistant Professor of Economics. B.S., 1986, Khartoum (Sudan); M.S., 1994, Ph.D., 2001, Iowa State.

ELSTON, SCOTT E.
Senior Lecturer in Management. B.S., 1984, M.S., 1990, Iowa State.

ELVIK, KENNETH O.

EMMERSON, JAMES T.
Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1960, M.S., 1964, Iowa State; Ph.D., 1973, London School of Economics.

ENESS, DANIEL

ENESS, PAUL G.

ENGEL, ROSS A.
Emeritus Professor of School of Education. B.A., 1948, Northern Iowa; M.S., 1952, Drake; Ph.D., 1962, Iowa.

ENGELBRECHT, MARK C.
Emeritus Professor of Architecture; Emeritus Dean of the College of Design. B.Arch., 1963, Iowa State; M.Arch., 1964, Columbia.

ENGELKEN, TERRY

ENGEN, RICHARD L.
Emeritus Professor of Biomedical Sciences. B.S., 1954, Iowa State; M.S., 1958, Colorado State; Ph.D., 1965, Iowa State.

ENGER, M. DUANE

ENGLE, MIRIAM
Professor of Landscape Architecture. B.L.A., 1983, Institute of Technology (Israel); M.L.A., 1989, California (Berkeley); Ph.D., 2013, California (Los Angeles).

ENGLER, MIRIAM
Professor of Landscape Architecture. B.L.A., 1983, Institute of Technology (Israel); M.L.A., 1989, California (Berkeley); Ph.D., 2013, California (Los Angeles).

ENSTROM, CATHERINE

ENLOE, LISA L.

EPPELSON, DOUGLAS L.
Emeritus Professor of Psychology. B.S., 1973, M.S., 1976, Utah; Ph.D., 1979, Ohio State.

ERDIN, FIRAT
Assistant Professor of Architecture. B.Arch., 2001, Cooper Union; M.Arch., 2007, Virginia.

ERDING, MATTHEW M.

ESCH, KEVIN JAN

ESLINGER, BRIAN GLENN

ESPENSON, JAMES H.
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1958, California Institute of Technology; Ph.D., 1962, Wisconsin.

ESSNER, JEFFREY JEROME
Professor of Genetics, Development and Cell Biology. B.S., 1987, Iowa; Ph.D., 1996, Minnesota.

ESTES, SIMON
Adjunct Professor of Music and Theatre. B.A., 1963, Iowa.

EUENSTEIN, OLIVER
Professor of Computer Science. Ph.D., 1998, Bonn (Germany).

EVANS, JAMES W.
Professor of Physics and Astronomy. Professor of Mathematics. B.S., 1975, Melbourne; Ph.D., 1978, Adelaide.

EVANS, LAWRENCE E.

EVANS, NANCY J.
EVANS, PETER MCNEIL

EVEN, JOHN C. JR.

EWALD, HELEN R.

F
FABER, CAROL H.

FADEN, ARNOLD M.

FAHEY, GEORGE

FAIRBANKS, WENDELYN SUE
Affiliate Associate Professor of Natural Resource Ecology and Management. B.S., 1982, Nebraska Wesleyan; M.S., 1985, Colorado State; Ph.D., 1992, Kansas.

FAIRCHILD, ELLEN E.
Senior Lecturer in School of Education. B.S., 1976, M.S., 1988, Iowa State; Ph.D., 2002, Iowa.

FALES-WILLIAMS, AMANDA JEAN

FALK, BARRY L.

FANOUS, FOUD S.

FANSLow, ALyCE M.
Emeritus Professor of Human Development and Family Studies; Emeritus Professor of School of Education; Mary B. Welch Distinguished Professor of Human Sciences. B.S., 1957, Minnesota; M.S., 1960, Ph.D., 1966, Iowa State.

FANSLow, GLENN E.
Emeritus Professor of Electrical and Computer Engineering. B.S., 1953, North Dakota State; M.S., 1957, Ph.D., 1962, Iowa State.

FARRAR, DONALD R.

FARRAR, EUGENIA SUE

FARRELL-BECK, JANE A.
Emeritus Professor of Apparel, Events and Hospitality Management; University Professor. B.S., 1963, Georgian Court; M.S., 1969, Drexel; Ph.D., 1975, Ohio State.

FAYED, AYMAN ADEL
Affiliate Associate Professor of Electrical and Computer Engineering. B.Sc., 1998, Cairo (Egypt); M.Sc., 2000, Ph.D., 2004, Ohio State.

FEHR, WALTER R.
Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1961, M.S., 1962, Minnesota; Ph.D., 1967, Iowa State.

FEI, SHUIZHANG
Professor of Horticulture; Professor of Agronomy. B.S., 1986, M.S., 1989, Beijing Agricultural (China); Ph.D., 1997, Nebraska.

FEI, ZHE
Assistant Professor of Physics and Astronomy. B.S., 2006, M.S., 2009, Nanjing (China); Ph.D., 2014, California (San Diego).

FEINSTEIN, SCOTT GRANT

FENG, HUI
Assistant Professor of Marketing. B.S., 2005, Xiamen (China); M.S., 2008, Nanjing (China); M.S., 2011, Ph.D., 2013, Indiana.

FENTON, THOMAS E.

FERNANDEZ-BACA, DAVID
Professor of Computer Science. B.S., 1980, Mexico; M.S., 1983, Ph.D., 1986, California (Davis).

FERNANDO, ROHAN L.

FERNANDO, TERESA

FERWERDA, NICOLE SUZANNE
Lecturer in Animal Science. B.S., 2000, Nebraska; MNAS, 2002, Southwest Missouri State.
FEVE, SEBASTIEN

FEWELL, KENDRA

FINDLAY, ROBERT ALLEN

FINK, ARLINGTON

FINNEMORE, DOUGLAS
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1956, Pennsylvania State; Ph.D., 1962, Illinois.

FIORE, ANN MARIE
Professor of Apparel, Events and Hospitality Management; University Professor. B.S., 1981, Rutgers; M.A., 1984, Ph.D., 1988, Minnesota.

FIORDO, CORNELIA B.
Emeritus Professor of Sociology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. A.B., 1965, California (Berkeley); M.S., 1966, Ph.D., 1970, Cornell.

FITZPATRICK, JANET ELAINE

FOX, JONATHAN J.

FOX, LESLIE ELIZABETH
Emeritus Associate Professor of Veterinary Clinical Sciences. B.A., 1972, Hollins College; D.V.M., 1984, Michigan State; M.S., 1989, Wisconsin.

FOX, RODNEY O.
Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1982, M.S., 1985, Ph.D., 1987, Kansas State.
FRANCA, TIMOTHY S.

FRANCIS, SARAH LUCILLE
Associate Professor of Food Science and Human Nutrition. B.S., 1998, Appalachian State; MHS, 2000, Western Carolina; Ph.D., 2004, North Carolina.

FRANK, MATTHEW CHARLES

FRANKO, LIBBY G.
Senior Lecturer in Kinesiology. B.S., 1988, New York (Buffalo); M.S., 1995, Virginia Polytechnic.

FRANKO, WARREN D.

FRANZ, KRISTIE JEAN
Associate Professor of Geological and Atmospheric Sciences. B.S., 1995, Wisconsin (Eau Claire); M.S., 2001, Arizona; Ph.D., 2006, California (Irvine).

FRANZ, NANCY KAY
Emeritus Professor of School of Education. B.S., 1981, Northland College; MEPD, 1985, Wisconsin (Superior); Ph.D., 2002, Cornell.

FRANZEN, HUGO F.
Emeritus Professor of Chemistry. B.S., 1957, California (Berkeley); Ph.D., 1962, Kansas.

FRATZKE, DARLENE M.
Adjunct Instructor in Apparel, Events and Hospitality Management. B.S., 1974, M.S., 1976, Iowa State.

FREED, RICHARD CURTIS

FREEMAN, ALBERT E.
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1952, M.S., 1954, West Virginia; Ph.D., 1957, Cornell.

FREEMAN, STEVEN A.
Professor of Agricultural and Biosystems Engineering; University Professor. B.S., 1988, Colorado State; M.S., 1990, Texas A&M; Ph.D., 1993, Purdue.

FRETWELL, HELEN MARGARET

FRIEDBERG, IDDO

FRIEDEL, JANICE
Associate Professor of School of Education. B.A., 1972, M.A., 1976, Ph.D., 1980, Iowa.

FRINK, ORRIN

FRIOELICH, AMY G.
Associate Professor of Statistics. B.S., 1994, Ph.D., 2000, Illinois.

FROMM, HERBERT J.
Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, Michigan State; M.S., 1952, Ph.D., 1954, Loyola (Chicago).

FRUTCHER, ROBERT N.
Lecturer in Agricultural Education and Studies. B.S., 2013, M.S., 2016, Iowa State.

FRYE, CASEY
Affiliate Associate Professor of Animal Science. B.A., 1982, Chadron State College; M.S., 1984, Nebraska; Ph.D., 1990, Iowa State.

FRYER, JANICE S.
Emeritus Assistant Professor, Library. B.S., 1968, Iowa State; M.A., 1971, Iowa.

FULLER, WAYNE A.
Emeritus Professor of Statistics; Emeritus Professor of Economics. Distinguished Professor in Liberal Arts and Sciences. B.S., 1955, M.S., 1957, Ph.D., 1959, Iowa State.

FULTON, DONALD BRUCE
Lecturer in Biochemistry, Biophysics and Molecular Biology. B.S., 1982, Saskatchewan (Canada); Ph.D., 1988, Saskatchewan (Canada).

FULTON, KATHARINE

FURUKAWA, YUJI

G

GABIAM, NELL
Associate Professor of World Languages and Cultures; Associate Professor of Political Science. B.A., 1998, Barnard; M.A., 2004, Ph.D., 2008, California (Berkeley).
GABLER, NICHOLAS
Associate Professor of Animal Science. B.S., 1999, Ph.D., 2005, La Trobe (Australia).

GADIA, SHASHI K.

GALL, ANDREW
Affiliate Assistant Professor of Veterinary Clinical Sciences. B.S., 2010, Nebraska; D.V.M., 2015, Iowa State.

GALLAGHER, PAUL W.

GALLUS, WILLIAM A.

GALLOW-KERSH, NYOMI LYNN
Clinical Assistant Professor of Veterinary Clinical Sciences. B.A., 2000, Concordia College; D.V.M., 2005, Iowa State.

GALYON, LINDA R.

GAMON, JULIA ANDREW

GANAPATHYSUBRAMANIAN, B.
Professor of Mechanical Engineering; Professor of Electrical and Computer Engineering. B.Tech., 2003, Indian Institute of Technology; Ph.D., 2008, Cornell.

GANSEMERTOPF, ANN M.
Associate Professor of School of Education. B.A., 1989, Loras; M.S., 1992, Ph.D., 2004, Iowa State.

GAO, LEI
Assistant Professor of Finance. B.S., 2000, Peking (China); M.S., 2006, Michigan State; Ph.D., 2012, Georgia.

GARCIA, PILAR A.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1949, Philippines; M.S., 1950, Michigan; M.S., 1952, Ph.D., 1955, Iowa State.

GARDNER, CANDICE A.
Affiliate Assistant Professor of Agronomy. B.S., 1975, Iowa State; M.S., 1979, Ph.D., 1982, Missouri.

GASSMANN, AARON JOHN
Associate Professor of Entomology. B.A., 1997, Saint Thomas; Ph.D., 2003, New York (Stony Brook).

GASTA, CHAD

GAUER, PHILLIP C.

GAUERSEN, ARTHUR
Emeritus Professor of Mathematics. B.E., 1965, Cooper Union; Ph.D., 1968, Northwestern.

GEHA, JOSEPH

GEIGER, RANDALL L.

GEIRSSON, HEIMIR

GELDER, BRIAN K.
Adjunct Assistant Professor of Agronomy. B.S., 2000, Iowa State; M.S., 2002, Colorado State; Ph.D., 2007, Iowa State.

GEMMILL, DOUGLAS D.
Emeritus Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1972, M.S., 1986, Iowa State; Ph.D., 1988, Wisconsin.

GENALO, LAWRENCE

GENSCHL, ULRIKE
Associate Professor of Statistics. M.S., 2000, Ph.D., 2005, Dortmund (Germany).

GENTILE, DOUGLAS A.

GEFFROY, GREGORY L.
Emeritus Professor of Chemistry; Emeritus President. B.S., 1968, Louisville; Ph.D., 1974, California Institute of Technology.

GEORGE, JOEY
Professor of Supply Chain and Information Systems. Associate Dean of the College of Business. A.B., 1979, Stanford; M.Ed., 1980, Converse; Ph.D., 1986, California (Irvine).

GERHARD, KRISTIN H.

GERRADE, MEG
Affiliate Professor of Psychology. B.A., 1970, Ph.D., 1974, Texas.
GERSTEIN, BERNARD C.
Emeritus Professor of Chemistry. B.S., 1953, Purdue; Ph.D., 1960, Iowa State.

GESKE, JOEL CARL
Associate Professor of Greenlee School of Journalism and Communication. B.A., 1978, Iowa State; M.A., 1982, Northern Iowa; Ph.D., 2005, Iowa State.

GHALACHYAN, ARMINE
Lecturer in Apparel, Events and Hospitality Management. B.S., 1999, Yerevan Banking Economic Institute (Armenia); M.S., 2011, Central Michigan; Ph.D., 2018, Iowa State.

GHOSH, ARKA P.

GHOSH, NANI GOPAL

GIBBONS, FREDERICK X.
Affiliate Professor of Psychology. B.A., 1972, Colgate; Ph.D., 1976, Texas.

GIBBS, KATHERINE P.

GIBSON, DEBRA SOLBERG
Senior Clinician in Greenlee School of Journalism and Communication. B.S., 1981, Iowa State.

GIELDA, THOMAS

GILBERT, KATHRINE
Lecturer in Food Science and Human Nutrition. B.S., 2007, Iowa State; M.S., 2013, Kansas State.

GILBERT, STEPHEN
Associate Professor of Industrial and Manufacturing Systems Engineering. B.S.E., 1992, Princeton; Ph.D., 1997, Massachusetts Institute of Technology.

GILCHRIST, KJ

GILES, MICHAEL S.

GILES, SONJA

GILLEN, ALEXANDRA

GILLESPIE, ARDYTH M.
Affiliate Associate Professor of Food Science and Human Nutrition. B.S., 1967, M.S., 1975, Ph.D., 1978, Iowa State.

GILLETTE, JASON C.

GILLETTE, MEGHAN

GILLETTE, WILLARD E.

GILLIGAN, MEGAN

GILMORE, SHIRLEY ANN

GIMENEZ-LIROLA, LUIS
Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2002, M.S., 2002, Granada (Spain); M.S., 2005, Institut Universitari de Ciencia i Tecnologia (Spain); Ph.D., 2009, Jaen (Spain).

GINAPP, KATHRINE
Lecturer in Apparel, Events and Hospitality Management. B.S., 2013, M.S., 2015, Iowa State.

GINDER, ROGER

GIRTON, JACK RICHARD

GLADON, RICHARD J.
Emeritus Associate Professor of Horticulture. B.S., 1969, Ohio Northern; M.S., 1974, Ph.D., 1977, Ohio State.
GLANVILLE, THOMAS D.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1972, M.S., 1975, Ph.D., 1987, Iowa State.

GLASS, EDYTHE K.

GLATZ, CHARLES E.
Emeritus Professor of Chemical and Biological Engineering; University Professor. B.S., 1971, Notre Dame; Ph.D., 1975, Wisconsin.

GLEASON, BENJAMIN
Assistant Professor of School of Education. B.A., 2002, Oberlin; Ph.D., 2016, Michigan State.

GLEASON, MARK L.
Professor of Plant Pathology and Microbiology; Professor of Horticulture. B.A., 1972, Carleton; M.S., 1976, Ph.D., 1980, Virginia; Ph.D., 1985, Kentucky.

GOBLE, JODI SUZANNE

GOCHÉ, PETER PAUL

GODEBEY, EMILY

GOEBEL, MICHAEL

GOEDEKEN, EDWARD A.

GOFF, JESSE PAUL

GOGELIANI, LALI
Affiliate Professor of Agricultural and Biosystems Engineering. Ph.D., 1993, Georgian Academy of Sciences.

GOGGI, ALCIRA S.

GOLDMAN, ALAN I.
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1979, M.A., 1980, Ph.D., 1984, New York (Stony Brook).

GOLEMO, MICHAEL

GOMES, CARMEN L.
Associate Professor of Mechanical Engineering. Associate Professor of Agricultural and Biosystems Engineering. B.S., 2002, Federal University of Vícosa (Brazil); Ph.D., 2010, Texas A&M.

GONG, NEIL ZHENQIANG
Assistant Professor of Electrical and Computer Engineering. B.E., 2010, Science and Technology (China); Ph.D., 2015, California (Berkeley).

GONZALEZ, ALEX

GONZALEZ CHAVES, M. CELESTE
Lecturer in World Languages and Cultures. B.S., 2002, Superior del Profesorado J. N. Terrero (Argentina); M.A., 2006, Nebraska.

GOODMAN, NEYSA LOUISE

GORDEN, PATRICK J.

GORDILLO, MONICA

GORDON, JENNIFER

GORDON, MARK STEPHEN
Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1963, Rensselaer; Ph.D., 1968, Carnegie Mellon.

GORECZNY, ASHLEY

GOTTESMAN, ISAAC
GOUDY, WILLIS J.
Emeritus Professor of Sociology; University Professor. B.A., 1964, St. Thomas; M.S., 1967, Ph.D., 1970, Purdue.

GOULD, CINDY L.

GOVINDARASU, MANIMARAN

GRADWOHL, DAVID MAYER
Emeritus Professor of World Languages and Cultures. B.A., 1955, Nebraska; Ph.D., 1967, Harvard.

GRAHAM, LYNN M.

GRAHAM, MICHELLE A.
Affiliate Assistant Professor of Agronomy. B.S., 1996, Wisconsin; Ph.D., 2001, Iowa State.

GRANT, DAVID
Affiliate Associate Professor of Agronomy. B.S., 1971, New York (Stony Brook); Ph.D., 1977, Chicago.

GRANT, MICHAEL
Affiliate Assistant Professor. B.S., 1973, Seattle; M.S., 1976, Ph.D., 1979, Iowa State.

GRASS, SEAN C.

GRAVES, DONALD JOHN

GRAVES, WILLIAM R.
Professor of Horticulture; Dean of the Graduate College. B.S., 1981, M.S., 1984, Iowa State; Ph.D., 1988, Purdue.

GRAWE, SCOTT JOSEPH
Associate Professor of Supply Chain and Information Systems; Associate Dean of the College of Business. B.S., 1998, Iowa State; M.B.A., 2005, Minnesota; Ph.D., 2010, Oklahoma.

GRAY, BETHANY EKLE

GRAY, JOSEPH NAHUM

GRAY, TIMOTHY A.

GREDER, KIMBERLY ANN

GREENBOWE, THOMAS J.
Emeritus Professor of Chemistry; Emeritus Professor of School of Education; Morrill Professor. B.A., 1972, New Jersey; M.S., 1974, Indiana State; M.S., 1979, Ph.D., 1983, Purdue.

GREENE, SHAWNA
Affiliate Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2003, Iowa State; M.S., 2007, Purdue.

GREENLEE, JUSTIN J.

GREENLEE, MARY WEST
Associate Professor of Biomedical Sciences. B.S., 1994, Ph.D., 1999, Iowa State.

GREER, RAYMOND THOMAS

GREGORY, DAVID JAMES

GREINER, THOMAS H.
Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S.A.E., 1967, Iowa State; M.S., 1972, Minnesota; Ph.D., 1980, Iowa State.

GREVE, JOHN HENRY

GREVSTAD-NORDBROCK, TED

GREWELL, DAVID

GRIER, RONALD LEE
GRIFFITH, RONALD W.

GRIFFITHS, PAUL D.

GROOMS, DANIEL

GROSS, JEREMY
Adjunct Assistant Professor of Naval Science. B.S., 1998, Montana State; M.B.A., 2008, Maryland University College.

GRUDENS-SCHUCK, NANCY

GRUNDMANN, WILLIAM J.

GRUNDY, JOHN
Assistant Professor of Psychology. B.Sc., 2006, Ph.D., 2012, McMaster.

GU, ROY RUOCHUAN

GU, XUN
Professor of Genetics, Development and Cell Biology. B.S., 1985, M.S., 1987, Fudan (China); Ph.D., 1996, Texas.

GUAN, YONG
Professor of Electrical and Computer Engineering. B.S., 1990, M.S., 1996, Peking (China); Ph.D., 2002, Texas A&M.

GUDMUNSON, CLINTON G.

GUERTTTMAN, MATTHEW P.

GUNDLACH, KATHRYN E.
Lecturer in Kinesiology. B.S., 1975, St. Olaf College; M.S., 1977, Wisconsin (Lacrosse).

GUNSETT, FIELDS
Affiliate Associate Professor of Animal Science. B.S., 1975, California (Davis); M.S., 1977, Idaho; Ph.D., 1980, Wisconsin.

GUNTUKU, DILEEPKUMAR
Adjunct Associate Professor of Agricultural and Biosystems Engineering. B.S., 2000, Acharya N.G., Ranga Agricultural University (India); M.S., 2003, Gujarat Agriculture University (India); M.S., 2004, Ph.D., 2010, Dhirubhai Ambani Institute (India).

GUO, FENG

GUPTA, MOHAN
Assistant Professor of Genetics, Development and Cell Biology. B.S., 1992, Ph.D., 2001, Kansas.

GUPTA, SHUVRA
Lecturer in Mathematics. B.Sc., 2005, Chennai Mathematical Institute (India); Ph.D., 2010, Pennsylvania.

GUTHRIE, NANCY J. T.

GUTHRIE, WILBUR D.
Emeritus Professor of Entomology. B.S., 1950, M.S., 1951, Oklahoma State; Ph.D., 1958, Ohio State.

GUTOWSKI, WILLIAM J.
Professor of Geological and Atmospheric Sciences; Professor of Agronomy. B.S., 1976, Yale; Ph.D., 1984, Massachusetts Institute of Technology.

GUULL, MAX E. JR.
Associate Professor of Psychology. B.S., 1985, Lehigh; M.S., 1990, Utah; Ph.D., 1998, Rutgers.

GWIASDA, KARL ERIC

H

HAAG, ELIZABETH A.

HAAS, BARBARA L.

HADDAD, MONICA
Associate Professor of Community and Regional Planning. B.A., 1989, Federal De Minas Gerais (Brazil); M.U.P., 2000, Ph.D., 2003, Illinois.

HAEN, KARRI MICHELLE

HAGEDORN, LINDA
HAGEMOSER, WAYNE A.

HAGGARD, FRANK E.

HAGGE, JOHN H.

HAGGE, MATHEW J.

HAINLINE, MARK S.
Assistant Professor of Agricultural Education and Studies. B.S., 2010, Sam Houston State; M.S., 2014, Texas Tech; Ph.D., 2017, Texas Tech.

HALBUR, PATRICK G.

HALL, ALEXANDER E.

HALL, JERRY LEE

HALL, STEVEN J.

HALLAM, J. ARNE
Professor of Economics; Associate Dean of the College of Liberal Arts and Sciences. B.S., 1977, Brigham Young; M.S., 1980, Ph.D., 1983, California (Berkeley).

HALLAUER, ARNEL ROY
Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1954, Kansas State; M.S., 1958, Ph.D., 1960, Iowa State.

HALLMARK, SHAUNA L.
Professor of Civil, Construction and Environmental Engineering. B.S., 1991, Brigham Young; M.S., 1996, Utah State; Ph.D., 1999, Georgia Institute of Technology.

HALVERSON, LARRY J.
Associate Professor of Plant Pathology and Microbiology. B.A., 1981, Luther College; M.S., 1983, Tennessee; Ph.D., 1991, Wisconsin.

HAMAN, KAREN
Lecturer in Chemical and Biological Engineering. B.S.E., 2009, Iowa; Ph.D., 2015, Minnesota.

HAMANN, MATTHEW

HAMIDEH, SARA
Assistant Professor of Community and Regional Planning. B.A., 2005, Mazandaran (Iran); M.A., 2008, Tehran (Iran); Ph.D., 2015, Texas A&M.

HAMMER, CAROLYN JEAN

HAMMOND, DAVID
Lecturer in Industrial and Manufacturing Systems Engineering. B.S., 2000, Wisconsin (Platteville); M.E., 2005, Iowa State.

HAN, GANG
Associate Professor of Greenlee School of Journalism and Communication. B.A., 1994, Nankai (China); M.A., 2000, Fudan (China); Ph.D., 2007, Syracuse.

HANDY, RICHARD L.
Emeritus Professor of Civil, Construction and Environmental Engineering. Anson Marston Distinguished Professor in Engineering. B.S., 1951, M.S., 1953, Ph.D., 1956, Iowa State.

HANISCH, KATHY A.

HANNAPEL, DAVID J.

HANSEN, SCOTT W.
Associate Professor of Mathematics. B.S., 1983, Southwest Missouri; Ph.D., 1988, Wisconsin.

HANSEN, STEPHANIE L.

HANSON, VIRGINIA M.

HARBUR, MARIN
HARDING, CHRIS
Associate Professor of Geological and Atmospheric Sciences; Associate Professor of Computer Science. M.Sc., 1993, Free (Berlin); Ph.D., 2001, Houston.

HARGRAVE, CONNIE P.
Associate Professor of School of Education. B.S., 1987, Evangel; M.A., 1989, Northern Iowa; Ph.D., 1993, Iowa State.

HARGROVE, MARK S.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1992, Nebraska; Ph.D., 1995, Rice.

HARL, NEIL E.
Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1955, Iowa State; J.D., 1961, Iowa; Ph.D., 1965, Iowa State.

HARMON, BRUCE N.
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1968, Illinois Institute of Technology; M.S., 1969, Ph.D., 1973, Northwestern.

HARMON, JAY D.
Professor of Agricultural and Biosystems Engineering; Interim Associate Dean of the College of Agriculture and Life Sciences. B.S., 1984, Purdue; M.S., 1986, Minnesota; Ph.D., 1989, Virginia Polytechnic.

HARMON, KAREN M.
Clinical Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1981, Wisconsin; Ph.D., 1986, Minnesota.

HARVEY, ROBERT

HARRINGTON, THOMAS C.
Professor of Plant Pathology and Microbiology; Professor of Natural Resource Ecology and Management. B.S., 1977, Colorado State; M.S., 1980, Washington State; Ph.D., 1983, California (Berkeley).

HARRIS, AMY

HARRIS, DELBERT LINN

HARRIS, ISABEL TURNLEY

HARRIS, MARY A.
Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1977, California (Los Angeles); M.S., 1982, Montana; M.S., 1985, California (Riverside); Ph.D., 1995, Georgia.

HARRIS, ISABEL M.
Clinical Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1981, Wisconsin; Ph.D., 1986, Minnesota.

HARRIS, MARY A.
Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1977, California (Los Angeles); M.S., 1982, Montana; M.S., 1985, California (Riverside); Ph.D., 1995, Georgia.

HARROD, WENDY JEAN

HART, CHAD E.
Associate Professor of Economics. B.S., 1991, Southwest Missouri State; Ph.D., 1999, Iowa State.

HART, ELWOOD ROY
Emeritus Professor of Entomology; Emeritus Professor of Natural Resource Ecology and Management. B.A., 1959, Cornell College; M.Ed., 1965, Ph.D., 1972, Texas A&M.

HARTMANN, BETH LIN

HARTWIG, JONAS T.
Assistant Professor of Mathematics. M.Sc., 2003, Lund (Sweden); Ph.D., 2008, Gothenburg and Chalmers (Sweden).

HARTWIG, NOLAN R.

HARTZLER, ROBERT G.

HARVEY, ROBERT

HARVILLE, DAVID A.

HASHMI, NASTARAN
Associate Professor of Mechanical Engineering. Associate Professor of Biomedical Sciences. B.S., 1999, Amirkabir University of Technology (Tehran); M.S., 2004, West Virginia; Ph.D., 2008, Virginia Polytechnic.

HASSID, JONATHAN H.

HATFIELD, JERRY L.
Affiliate Professor of Agronomy. B.S., 1971, Kansas State; M.S., 1972, Kentucky; Ph.D., 1975, Iowa State.

HAUG, SUE ELLEN
HAUGHERY, JOHN  

HAUPTMAN, JOHN M.  
Professor of Physics and Astronomy. B.A., 1968, Ph.D., 1974, California (Berkeley).

HAUPTMANN, DEBORAH  

HAWS, RICHARD H.  
Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1966, Nebraska Wesleyan; M.S.J., 1970, Northwestern.

HAUXEL, GORDON B.  

HEATH, TRACY A.  

HEATON, EMILY  

HEAVERLO, CAROL A.  
Lecturer in School of Education. B.S., 1989, Mt. Mercy College (Cedar Rapids); Ph.D., 2011, Iowa State.

HEBERT, KURT ROBERT  

HEEGERLEIN, VOLKER H.  

HEGGEN, RICHARD D.  

HEINEN, JENNIFER MARIE  
Senior Lecturer in Chemical and Biological Engineering. B.S., 2001, Bucknell; Ph.D., 2007, Delaware.

HEISE, JAMES ARTHUR  

HEISING, CAROLYN  
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1974, California (San Diego); Ph.D., 1978, Stanford.

HEDLUND, CHERYL SUE  
Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1977, Iowa State; M.S., 1981, Texas A&M.

HEGEDUS, JOHN M.  

HEGER, CHINMAY  
Assistant Professor of Electrical and Computer Engineering. B.S., 1989, South Dakota School of Mines; M.S., 1998, Nebraska.

HEINEN, JENNIFER MARIE  
Senior Lecturer in Chemical and Biological Engineering. B.S., 2001, Bucknell; Ph.D., 2007, Delaware.

HEISE, JAMES ARTHUR  

HEISING, CAROLYN  
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1974, California (San Diego); Ph.D., 1978, Stanford.

HEDLUND, CHERYL SUE  
Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1977, Iowa State; M.S., 1981, Texas A&M.

HEIGHT, TRACY A.  

HEATON, EMILY  

HEAVERLO, CAROL A.  
Lecturer in School of Education. B.S., 1989, Mt. Mercy College (Cedar Rapids); Ph.D., 2011, Iowa State.

HEBERT, KURT ROBERT  

HEGGEN, RICHARD D.  

HEIMES, KENNETH A.  

HEINDEL, THEODORE JOHN  
Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering. B.S.M.E., 1988, Wisconsin; M.S.M.E., 1990, Ph.D., 1994, Purdue.

HEINEN, JENNIFER MARIE  
Senior Lecturer in Chemical and Biological Engineering. B.S., 2001, Bucknell; Ph.D., 2007, Delaware.

HEISE, JAMES ARTHUR  

HEISING, CAROLYN  
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1974, California (San Diego); Ph.D., 1978, Stanford.

HEDLUND, CHERYL SUE  
Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1977, Iowa State; M.S., 1981, Texas A&M.

HEIGHT, TRACY A.  

HEATON, EMILY  
HERZOG, DAVID
Assistant Professor of Mathematics. B.Sc., 2006, Tennessee; Ph.D., 2011, Arizona.

HESSLING, ROBERT

HICKMAN, ROY DON

HICKMAN, TIMOTHY R.

HICKOK, KATHLEEN K.

HIGHTSHOE, GARY LYNN

HILL, CHRISTINA GISH
Associate Professor of World Languages and Cultures. B.A., 1998, Chicago; Ph.D., 2008, Minnesota.

HILL, JAMES CHRISTIAN
Emeritus Professor of Chemical and Biological Engineering. University Professor. B.S., 1962, Stanford; Ph.D., 1968, Washington.

HILL, JOHN C.
Emeritus Professor of Physics and Astronomy. B.S., 1957, Davidson; Ph.D., 1966, Purdue.

HILL, JOHN HEMMINGSON
Emeritus Professor of Plant Pathology and Microbiology. B.A., 1963, Carleton; M.S., 1966, Minnesota; Ph.D., 1971, California (Davis).

HILL, KEVIN D.

HILL, MATTHEW G.

HILLESLAND, GLENN G.
Emeritus Adjunct Professor of Electrical and Computer Engineering. B.S.E.E., 1947, Iowa State.

HILLIARD, JAMES P.

HILLIARD, KATHLEEN
HILLIER, ANDREW C.
Professor of Chemical and Biological Engineering and Chair of the Department. B.S., 1990, Nebraska; Ph.D., 1995, Minnesota.

HINDMAN, RICHARD G.

HINZ, PAUL NORMAN

HIRA, LABH S.
Emeritus Professor of Accounting and Emeritus Dean of the College of Business. B.S., 1969, M.S., 1971, Ludhiana; Ph.D., 1975, Missouri.

HIRA, TAHIRA K.

HO, KAI-MING
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Hong Kong; Ph.D., 1978, California (Berkeley).

HOBSON, KENNETH

HOCHESTETLER, ANDREW LEE

HOCKADAY, CATHERYN M.

HOCKER, JASON

HODGES, LAURENT

HODGSON, ERIN WHITNEE

HOEFL, WILLIAM D.

HOERNER, THOMAS ALLEN
Emeritus Professor of Agricultural and Biosystems Engineering; Emeritus Professor of Agricultural Education and Studies; Emeritus Professor of School of Education. B.S., 1957, M.S., 1963, Ph.D., 1965, Iowa State.

HOFF, CURTIS

HOFF, STEVEN J.

HOFFMAN, DAVID K.
Emeritus Professor of Chemistry; University Professor. B.S., 1960, Illinois; Ph.D., 1964, Wisconsin.

HOFFMAN, ELIZABETH
Professor of Economics; B.A., 1968, Smith; M.A., 1969, Ph.D., 1972, Pennsylvania; Ph.D., 1979, California Institute of Technology.

HOFFMAN, LORRAINE J.

HOFFMAN, MARK PETER

HOFFMAN, RUSSELL W.

HOFMANN, HEIKE

HOFMOCKEL, KIRSTEN

HOGDEN, LESLIE

HOGBERG, MAYNARD GORDON

HOGL, ROGER

HOHLMANN, HEIDI M.
HOIBERG, ERIC OTTO

HOLDEN, PALMER J.

HOLGER, DAVID KERMIT

HOLM, BRENT A.

HOLM, STEPHEN D.

HOLM, ROBERT

HOLLINGER, ROBERT

HOLLIS, JAMES
Associate Professor of Food Science and Human Nutrition. B.Sc., 1999, Ph.D., 2003, Oxford Brookes (UK).

HOLME, THOMAS
Professor of Chemistry. Morrill Professor. B.S., 1983, Loras College; Ph.D., 1987, Rice.

HOLMGREN, MARGARET R.
Associate Professor of Philosophy and Religious Studies. B.A., 1974, Bryn Mawr; Ph.D., 1981, Texas.

HOLSCHER, KENNETH
Emeritus Associate Professor of Entomology. B.S., 1972, Kearney; M.S., 1978, Ph.D., 1981, Oklahoma State.

HOLT, PAMELA

HOLTER, JAMES A.

HOLTKAMP, DERALD J.

HONEYMAN, MARK S.
Professor of Animal Science; Professor of Agricultural Education and Studies. Associate Dean of the College of Agriculture and Life Sciences. B.S., 1977, M.S., 1983, Ph.D., 1989, Iowa State.

HONG, GONG-SOO

HONG, WEI
Affiliate Associate Professor of Aerospace Engineering; B.S., 2000, M.S., 2002, Tsinghua (China); Ph.D., 2006, Harvard.

HONZATKO, RICHARD B.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, Michigan; Ph.D., 1982, Harvard.

HOOD, FREDERICK M. III

HOPKINS, CHRISTOPHER
Associate Professor of Music and Theatre. B.M., 1979, Nebraska; M.M., 1985, Cleveland Institute of Music; D.M.A., 1992, Cornell.

HOPPER, DAVID L.
Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine; B.S., 1971, M.S., 1972, Wisconsin (Oshkosh); Ph.D., 1976, Iowa State.

HORNBUCKLE, BRIAN KIRK
Professor of Agronomy; Professor of Electrical and Computer Engineering; Professor of Geological and Atmospheric Sciences. B.Sc., 1994, Brown; M.A., 1996, Mississippi (Oxford); M.S.E., 1997, Ph.D., 2003, Michigan.

HORNER, HARRY T. JR.

HORST, RONALD L.
Affiliate Professor of Animal Science. B.S., 1971, West Virginia; M.S., 1972, Ph.D., 1976, Wisconsin.

HORTON, RICHARD E.

HORTON, ROBERT JR.
Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1975, M.S., 1977, Texas A&M; Ph.D., 1982, New Mexico State.

HOSTETTER, JESSE M.
HOSTETTER, SHANNON JONES

HOTCHKISS, DONALD
Emeritus Professor of Statistics. B.S., 1950, Ph.D., 1960, Iowa State.

HOU, LISHENG STEVEN

HOUK, ROBERT S.
Emeritus Professor of Chemistry. B.S., 1974, Slippery Rock; Ph.D., 1980, Iowa State.

HOUSE, JOHN B.

HOWARD, JOAN
Clinical Associate Professor of Veterinary Clinical Sciences. B.A., 1985, Albright College; D.V.M., 1989, Pennsylvania.

HOWE, ADINA
Assistant Professor of Agricultural and Biosystems Engineering. B.S., 2003, M.S., 2005, Purdue; Ph.D., 2009, Iowa.

HOWE, MICHAEL

HOWELL, STEPHEN H.
Professor of Genetics, Development and Cell Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1963, Grinnell College; Ph.D., 1967, Johns Hopkins.

HRABA, JOSEPH III

HSIEH, HSUNG-CHENG

HSU, MING-CHEN
Assistant Professor of Mechanical Engineering. B.S., 2003, M.S., 2005, National Taiwan; M.S.E., 2008, Texas (Austin); Ph.D., 2012, California (San Diego).

HSU, WALTER HAW
Emeritus Professor of Biomedical Sciences. B.V.M., 1969, National Taiwan; Ph.D., 1975, North Carolina.

HU, CHAO
Assistant Professor of Mechanical Engineering. Assistant Professor of Electrical and Computer Engineering. B.E., 2007, Tsinghua (China); Ph.D., 2011, Maryland.

HU, GUIPING
Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 2003, Science and Technology (China); Ph.D., 2008, Pittsburgh.

HU, HUI

HU, SHAN
Assistant Professor of Mechanical Engineering. B.S., 2007, Harbin Institute of Technology (China); M.S., 2009, Minnesota (Duluth); Ph.D., 2014, Minnesota.

HUANG, MEI-HSUAN
Associate Professor of Music and Theatre. B.Mus., National Taiwan Normal; D.M.A., Ohio State; M.Mus., Cleveland Institute of Music.

HUANG, SHU-MIN

HUANG, WENYU
Associate Professor of Chemistry. B.S., 2000, M.S., 2002, Nanjing (China); Ph.D., 2007, Georgia Institute of Technology.

HUANG, XIAOQIU
Associate Professor of Chemistry. B.S., 2000, M.S., 2002, Nanjing (China); Ph.D., 2007, Georgia Institute of Technology.

HUBA, MARY ELEANOR

HUFFMAN, SONYA K.
Adjunct Associate Professor of Economics. B.S., 1986, Moscow Cooperative Institute; Ph.D., 1999, Iowa State.

HUFFMAN, WALLACE E.
Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1966, Iowa State; M.A., 1971, Ph.D., 1972, Chicago.

HUFFORD, MATTHEW

HUGHES-BELDING, KERE

HUNACEK, MARK
Senior Lecturer in Mathematics; Senior Lecturer in Civil, Construction and Environmental Engineering. B.S., 1972, Brooklyn; M.S., 1974, New York; Ph.D., 1978, Rutgers; J.D., 1981, Drake.
HUNT, KATHLEEN
Assistant Professor of Agricultural Education and Studies. B.A., 2007, North Carolina (Greensboro); M.A., 2009, Cincinnati; Ph.D., 2015, Utah.

HUNTINGTON, STUART H.
Emeritus Associate Professor of Community and Regional Planning. B.A., 1964, North Park; M.S., 1969, Missouri.

HURBURGH, CHARLES R.
Professor of Agricultural and Biosystems Engineering; Professor of Food Science and Human Nutrition. B.S., 1973, M.S., 1980, Ph.D., 1981, Iowa State.

HURST, JESSICA LYNN

HUS, JAMES J.

HUTCHISON, WALLACE W.
Emeritus Professor of Kinesiology. B.S., 1959, M.S., 1966, Brigham Young; Ph.D., 1971, Utah.

HYDE, WALTER G.

I
I, JI-YEONG
Assistant Professor of School of Education. B.S., 1999, Seoul National (South Korea); M.S., 2014, Ph.D., 2015, Missouri.

IASEVOLI, PAMELA SUE

IKUMA, KAORU

ILES, JEFFERY KENNETH

INGEBRITSEN, THOMAS S.
Emeritus Associate Professor of Genetics, Development and Cell Biology. B.S., 1968, Oregon State; Ph.D., 1979, Indiana.

INYANG, ANIEFIOK D.
Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1976, Kansas; M.S., 1978, Ph.D., 1982, Oklahoma.

ISAACSON, DEAN L.

ISENHART, THOMAS M.

IVERSEN, JAMES D.
Emeritus Professor of Aerospace Engineering. B.S., 1956, M.S., 1958, Ph.D., 1964, Iowa State.

IVERSON, JOSEPH
Assistant Professor of Mathematics. B.A., 2007, Minnesota (Morris); Ph.D., 2016, Oregon.

IVERSON, NEAL R.
Professor of Geological and Atmospheric Sciences. B.S., 1983, Iowa State; Ph.D., 1989, Minnesota.

J
JACKMAN, JOHN K.

JACKSON, CHRISTA
Associate Professor of School of Education. B.S., 1995, Evangel (Missouri); M.S.Ed., 2003, Southwest Missouri State; Ph.D., 2010, Missouri.

JACKSON, LARRY L.

JACKSON, MICHAEL LEE

JACKSON, REBECCA

JACOBS, KERI LEE
Associate Professor of Economics. B.A., 1996, Coe College; Ph.D., 2010, North Carolina State.

JACOBS, CARL ERNEST
Emeritus Professor of Geological and Atmospheric Sciences. B.S., 1975, New York (Binghamton); Ph.D., 1980, California (Los Angeles).

JACOBSON, DOUG W.
Professor of Electrical and Computer Engineering; University Professor. B.S., 1980, Ph.D., 1985, Iowa State.

JACOBSON, JOHN BRUCE
Emeritus Assistant Professor of Aerospace Engineering. B.S., 1971, M.S., 1979, Iowa State.

JACOBSON, ROBERT A.
JAHNKE, MARIANNA
Senior Lecturer in Veterinary Diagnostic and Production Animal Medicine. B.S., 2001, Universidade de Alfenas; M.S., 2005, Iowa State.

JAHREN, CHARLES T.

JANE-TOPEL, JAY-LIN
Emeritus Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1973, National Chung-Hsing; Ph.D., 1984, Iowa State.

JANKE, ADAM
Assistant Professor of Natural Resource Ecology and Management. B.S., 2009, Purdue; M.S., 2011, Ohio State; Ph.D., 2016, South Dakota State.

JANESARI, ALI
Assistant Professor of Computer Science. B.Sc., 2001, Isfahan (Iran); M.Sc., 2005, Stuttgart (Germany); Ph.D., 2010, Karlsruhe Institute of Technology (Germany).

JANVRIN, DIANE J.

JANZEN, FREDRIC J. II

JARBOE, DARREN

JARBOE, LAURA
Associate Professor of Chemical and Biological Engineering. B.S., 2000, Kentucky; Ph.D., 2006, California (Los Angeles).

JARVINEN, JULIE ANN C.

JAYASHANKAR, PRIYANKA

JAYASOORIYA-ARACHCHIGE, RANGA
Assistant Professor of Animal Science. B.Sc., 200, Peradeniya (Sri Lanka); M.Sc., 2006, Virginia Tech; Ph.D., 2010, Virginia Tech.

JAYNES, DAN

JEFFREY, CYNTHIA G.
Associate Professor of Accounting. B.S., 1975, M.S., 1979, Iowa State; Ph.D., 1989, Minnesota.

JEFFRIES-EL, MALIKA

JELESJUEVIC, TOMISLAV
Assistant Professor of Veterinary Pathology. D.V.M., 1996, M.Sc., 2001, Belgrade (Serbia); Ph.D., 2011, Georgia.

JELLINGER, THOMAS C.

JENISON, ROLAND DUANE

JENKINS, MICHAEL ADRIAN

JENKS, TODD ALLEN

JENKS, WILLIAM S.
Professor of Chemistry and Chair of the Department. B.S., 1986, California (Los Angeles); Ph.D., 1991, Columbia.

JENSEN, CHRISTINE

JENSEN, HELEN HANNAY
Emeritus Professor of Economics. B.A., 1968, Carleton; M.S., 1974, Minnesota; Ph.D., 1980, Wisconsin.

JENSEN, TYLER K.
Assistant Professor of Finance. B.S., 2009, Nebraska.

JEONG, EUNHA
Assistant Professor of Apparel, Events and Hospitality Management. B.S., 2007, Nevada (Las Vegas); M.S., 2010, Ph.D., 2015, Purdue.

JERGENS, ALBERT EARL

JERNIGAN, ROBERT L.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1963, California Institute of Technology; Ph.D., 1967, Stanford.

JESKA, EDWARD L.
JEYAPALAN, KANDIAH

JIA, YAN-BIN

JIA, YONGHONG
Associate Professor of Accounting. B.S., Harbin Institute of Technology (China); M.S., Huazhong University of Science and Technology (China); M.S., 2006, Ph.D., 2011, Wayne State.

JIANG, SHAN
Assistant Professor of Materials Science and Engineering. B.S., 2000, M.S., 2003, Zhejiang (China); Ph.D., 2009, Illinois.

JIANG, ZHENGRUI
Professor of Supply Chain and Information Systems. B.A., 1992, Qingdao (China); M.B.A., 2000, M.S., 2000, Louisiana (Lafayette); Ph.D., 2005, Texas (Dallas).

JILES, DAVID C.
Professor of Electrical and Computer Engineering; Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.Sc., 1975, Birmingham (United Kingdom); M.Sc., 1976, Exeter (United Kingdom); Ph.D., 1979, Hull (United Kingdom); D.Sc., 1990, Birmingham (United Kingdom).

JOHANNING, HARVEY H.

JOHANNES, CHAD
Assistant Professor of Veterinary Clinical Sciences. B.S., 1993, Nebraska; D.V.M., 1997, Kansas State.

JOHANSEN, JENNIFER C.

JOHANSEN, JERGEN
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, M.Phil., 1980, Ph.D., 1988, Copenhagen.

JOHANSEN, KRISTEN M.
Professor of Biochemistry, Biophysics and Molecular Biology and Chair of the Department; Professor of Genetics, Development and Cell Biology. B.A., 1982, Pennsylvania; M.Phil., 1985, Ph.D., 1989, Yale.

JOHNSON, ANNA KERR

JOHNSON, DANNY J.

JOHNSON, DENNIS C.
Emeritus Professor of Chemistry. Distinguished Professor in Liberal Arts and Sciences. B.A., 1963, Bethel; Ph.D., 1967, Minnesota.

JOHNSON, DUANE D.
Professor of Materials Science and Engineering. Professor of Chemical and Biological Engineering. Professor of Physics and Astronomy. B.Sc., 1980, Ph.D., 1985, Cincinnati.

JOHNSON, JANET S.
Senior Clinician in Food Science and Human Nutrition. B.S., 1976, Iowa State; M.S., 1985, Delaware.

JOHNSON, LAWRENCE A.
Emeritus Professor of Food Science and Human Nutrition. Emeritus Professor of Agricultural and Biosystems Engineering. B.Sc., 1969, Ohio State; M.Sc., 1971, North Carolina State; Ph.D., 1978, Kansas State.

JOHNSON, MARGARET S.
Emeritus Assistant Professor of World Languages and Cultures. B.A., 1956, Oregon; M.A., 1974, Drake.

JOHNSON, RACHEL

JOHNSON, SCOTT

JOHNSON, STANLEY R.
Emeritus Professor of Economics. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1961, Western Illinois; M.S., 1962, Texas Tech; Ph.D., 1966, Texas A&M.

JOHNSON, SUSAN A.

JOHNSTON, DAVID C.
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1969, California (Santa Barbara); Ph.D., 1975, California (San Diego).

JOHNSTON, ELGIN H.

JOLS, KENNETH ROBERT
JOLLY, LAURA DUNN
Professor of Apparel, Events and Hospitality Management. Dean of the College of Human Sciences. B.S., 1977, Mississippi; M.S., 1979, Ph.D., 1983, Oklahoma State.

JOLLY, ROBERT WILLIAM

JONES, BERT LYNN
Emeritus Associate Professor of Agricultural Education and Studies. B.A., 1970, Missouri Southern; M.A., 1974, Central Missouri; Ph.D., 1985, Wisconsin.

JONES, BRENDA JOYCE

JONES, DOUGLAS E.

JONES, EDWIN C. JR.
Emeritus Professor of Electrical and Computer Engineering; University Professor. B.S.E.E., 1955, West Virginia; D.I.C., 1956, Imperial College; Ph.D., 1962, Illinois.

JONES, PHILLIP HARRISON

JONES-JOHNSON, GLORIA

JORDAN, TERA R.

JUAREZ, JAIME
Assistant Professor of Mechanical Engineering. B.S., 2004, Stanford; M.S., 2006, Texas (San Antonio); Ph.D., 2011, Johns Hopkins.

JUAREZ, JESSICA

JUDGE, KEVIN

JUNG, STEPHANIE
Affiliate Associate Professor of Food Science and Human Nutrition. B.S., 1995, Metz (France); M.S., 1996, National Polytechnique de Lorraine; Ph.D., 2000, Nantes (France).

JUNGST, STEVEN E.

JURENKA, RUSSELL A.

JURGENS, MARSHALL H.

JURIK, THOMAS WAYNE

KADELKA, CLAUS
Assistant Professor of Mathematics. B.S., 2009, Karlsruhe Institute of Technology (Germany); M.S., 2011, Ph.D., 2015, Virginia Tech.

KADOLPH, SARA JEAN
Emeritus Professor of Apparel, Events and Hospitality Management. B.S., 1972, Iowa State; M.S., 1973, Kansas State; Ph.D., 1979, Minnesota.

KAEBERLE, MERLIN L.

KAISER, JOHN
Senior Lecturer in Chemical and Biological Engineering. B.S., 1985, Purdue; M.S., 1987, Iowa State.

KAISER, MARK STEVEN

KALEITA-FORBES, AMY LEIGH

KAMAL, AHMED EL-SAYED
Professor of Electrical and Computer Engineering. B.Sc., 1978, M.Sc., 1980, Cairo (Egypt); M.A.Sc., 1982, Ph.D., 1986, Toronto (Canada).

KAMINSKI, ADAM

KAMRUD, KURT
KANE, KEVIN L.

KANG, SUNGHYUN RYOO

KANNEL, EDWARD J.

KANTHASAMY, ANUMANTHA G.
Professor of Biomedical Sciences and Chair of the Department; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. B.S., 1981, M.S., 1984, M.Phil., 1985, Ph.D., 1989, Madras (India).

KANTHASAMY, ARTHI
Professor of Biomedical Sciences. B.S., 1990, Psg; Ph.D., 2001, Purdue.

KANWAR, RAMESHWAR S.
Professor of Agricultural and Biosystems Engineering; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1969, Punjab; M.S., 1975, Pantnagar; Ph.D., 1981, Iowa State.

KAO, DAVID T.

KAPPMEYER, LORI OSMUS

KARABULUT-ILGU, ALIYE

KARAS, GEORGE G.
Emeritus Professor of Psychology; Associate. B.A., 1956, Depauw; M.S., 1958, Ph.D., 1959, Purdue.

KARLEN, DOUGLAS LAWRENCE

KARPOVA, ELENA E.

KARRIKER, LOCKE A.

KASPAR, CATHERINE N.

KASPER, KEVIN

KATZ, APRIL

KAUFMANN, PAUL J.
Emeritus Assistant Professor of English. B.S., 1964, Nebraska (Omaha); M.A., 1967, Cincinnati; Ph.D., 1975, Iowa State.

KAUTZ, STEVEN MICHAEL

KAVANAGH, PATRICK

KAWALER, STEVEN D.

KEATING, AILEEN
Associate Professor of Animal Science. B.Sc., 1998, National University of Ireland; M.Sc., 1999, Ulster (Ireland); Ph.D., 2003, National University of Ireland.

KEDAGNI, DESIRE
Assistant Professor of Economics. B.Sc., 2007, B.Sc., 2008, University of Abomey-Calavi (Benin); M.Sc., 2011, Issea (Cameroon); M.Sc., 2015, Montreal; Ph.D., 2018, Pennsylvania State.

KEDROWSKI, KAREN

KEENER, KEVIN
Professor of Food Science and Human Nutrition. Professor of Agricultural and Biosystems Engineering. B.S., 1990, M.S., 1993, Ohio State; Ph.D., 1996, Purdue.

KEENEY, DENNIS R.
Emeritus Professor of Agronomy; Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1959, Iowa State; M.S., 1961, Wisconsin; Ph.D., 1965, Iowa State.

KEHRBERG, RICHARD F.
KEHRLI, MARCUS  

KEINERT, FRITZ  

KEISER, DAVID A.  

KELKAR, ATUL G.  
Professor of Mechanical Engineering. B.E., 1984, Poona (India); M.S., 1990, Ph.D., 1993, Old Dominion.

KELLY, JONATHAN  
Associate Professor of Psychology. B.A., 1998, California (Los Angeles); Ph.D., 2006, California (Santa Barbara).

KELLY, KRISTI A. COSTABILE  

KENEALY, MICHAEL D.  

KERR, BRIAN J.  

KERSH, KEVIN DEWAYNE  
Clinical Associate Professor of Veterinary Clinical Sciences. B.S., 1997, Northeastern State; D.V.M., 2001, Oklahoma State.

KERTON, CHARLES R.  
Associate Professor of Physics and Astronomy. B.Sc., 1992, Dalhousie (Canada); M.Sc., 1993, Toronto (Canada); M.S., 1996, Hawaii; Ph.D., 2000, Toronto (Canada).

KHAITAN, SIDDHARTHA  
Research Assistant Professor of Electrical and Computer Engineering. B.E., 2003, Birla Institute of Tech (India); M.Tech., 2005, Indian Institute of Tech (India); Ph.D., 2008, Iowa State.

KIBBEL, BRYCE  
Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., 1999, Iowa State.

KIENZLER, DONNA STINE  

KILMER, LEE HARRY  

KIM, A-RAM  
Assistant Professor of Aerospace Engineering. B.S., 2013, Ph.D., 2018, Kansas.

KIM, DAEJIN  
Assistant Professor of Interior Design. B.S., 2008, Inha (South Korea); M.S., 2010, Yonsei (South Korea); Ph.D., 2016, Florida.

KIM, GAP-YONG  
Associate Professor of Mechanical Engineering. B.S., 1997, Yonsei (South Korea); M.S.E., 2003, Ph.D., 2005, Michigan.

KIM, JAE-KWANG  

KIM, JAEYOUN  
Associate Professor of Electrical and Computer Engineering. B.S., 1992, Kwangwoon (Korea); M.S., 1994, Arizona; Ph.D., 2003, Michigan.

KIM, JEWOO  
Assistant Professor of Apparel, Events and Hospitality Management. B.A., 2001, Yonsei (South Korea); M.B.A., 2010, Brandeis; Ph.D., 2015, Iowa State.
KIM, JINOH
Associate Professor of Biomedical Sciences. B.S., 1990, Seoul National; M.S., 1992, Seoul National; Ph.D., 2000, Connecticut.

KIM, KYUNG SEOK

KIM, SANG W.
Associate Professor of Electrical and Computer Engineering. B.S., 1981, Yonsei (Seoul); M.S., 1983, Korea Advanced Institute of Science; Ph.D., 1987, Michigan.

KIM, STEPHEN

KIMBER, MICHAEL JOHN
Associate Professor of Biomedical Sciences. B.Sc., 1998, Ph.D., 2001, Queens (Belfast).

KIMLE, KEVIN LEE
Senior Lecturer in Economics. B.S., 1989, Nebraska; M.S., 1991, Iowa State.

KING, ALEXANDER

KING, ANDREW
Assistant Professor of Greenlee School of Journalism and Communication. B.S., 2006, Wisconsin (Whitewater); M.A., 2008, Ph.D., 2012, Purdue.

KING, CHRISTINE E.
Associate Professor, Library; Associate Dean of Library Services. B.A., 1976, Sheffield (UK); M.S.L.S., 1983, Long Island.

KING, DOUGLAS S.
Professor of Kinesiology; Professor of Biomedical Sciences. B.A., 1980, California (Berkeley); M.A., 1981, Wake Forest; Ph.D., 1984, Ball State.

KINKEAD, KAREN E.

KIRCHENMANN, FREDERICK L.

KITZMAN, MARION JOHN

KLAAS, ERWIN E.

KLAIBER, FRED WAYNE

KLAVER, ROBERT W.

KLEIN-HEWETT, HANS

KLEIBENSTEIN, JAMES

KLIEMANN, WOLFGANG H.
Professor of Mathematics. Interim Associate Dean of the College of Liberal Arts and Sciences. Dr.rer.nat, 1980, Bremen.

KLING, CATHERINE L.
Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.B.A., 1981, Iowa; Ph.D., 1986, Maryland.

KLONGLAN, GERALD E.

KLUGE, JOHN PAUL

KNAPP, ALLEN DALE

KNIGHT, GORDON BRANCH

KNIGHT, KATHRANNE

KNIXER, CHARLES R.

KNOX, JENNIFER

KNOX, JERRY
KOCH, STEVEN
Affiliate Professor of Geological and Atmospheric Sciences. B.S., 1972, M.S., 1974, Wisconsin; Ph.D., 1979, Oklahoma.

KOCHL, KENNETH J.
Emeritus Professor of Statistics; University Professor. B.S., 1972, Wisconsin (Parkside); Ph.D., 1977, Minnesota.

KOH, MARIAN LOUISE

KOLKA, RANDALL

KOLTES, DAWN
Adjunct Assistant Professor of Animal Science. B.S., 2006, Arkansas; M.S., 2008, Ph.D., 2013, Iowa State.

KOLTES, JAMES E.
Assistant Professor of Animal Science. B.S., 2001, Wisconsin; Ph.D., 2007, Iowa State.

KONG, SONG-CHARNG
Associate Professor of Mechanical Engineering. B.S., 1987, National Tsing-Hua (Taiwan); M.S., 1992, Ph.D., 1994, Wisconsin.

KOPP, JULIUS O.
Emeritus Professor of Electrical and Computer Engineering. B.S., 1949, Wisconsin; M.S., 1954, Ph.D., 1958, Purdue.

KOPSELL, DAVID

KORSCHING, PETER F.

KOSCHNY, THOMAS
Adjunct Assistant Professor of Physics and Astronomy. Ph.D., 2000, Leipzig (Germany).

KOSHELNICK, CHARLES J.

KOTHARI, SURAJ C.
Professor of Electrical and Computer Engineering; Professor of Computer Science. B.S., 1970, Poona; Ph.D., 1977, Purdue.

KOTTMAN, RICHARD N.

KOVAR, JOHN L.

KOVAIR, KRYLYO
Associate Professor of Chemistry. B.S., 2001, Moscow State; M.S., 2001, Moscow State; Ph.D., 2004, Moscow State.

KOWAL, JOHANNA

KOZIEL, JACEK ADAM
Professor of Agricultural and Biosystems Engineering; Professor of Civil, Construction and Environmental Engineering. Professor of Food Science and Human Nutrition. M.S., 1989, Warsaw Technological (Poland); M.S., 1993, Alaska; Ph.D., 1998, Texas.

KRAFSUR, ELLIOT S.
Emeritus Professor of Entomology. B.S., 1962, M.S., 1964, Maryland; Ph.D., 1972, London.

KRAMER, JOHN A. D.

KRAMER, MATTHEW J.
Adjunct Associate Professor of Materials Science and Engineering. B.S., 1979, M.S., 1983, Rochester; Ph.D., 1988, Iowa State.

KRAMER, THEODORE

KRAUS, GEORGE A.
Professor of Chemistry; University Professor. B.S., 1972, Rochester; Ph.D., 1976, Columbia.

KRAUS, KARL

KREIDER, BRENT E.

KREMER, GUL
Professor of Industrial Manufacturing and Systems Engineering and Chair of the Department. B.S., 1992, M.S., 1995, Yildiz Technical (Turkey); M.B.A., 1995, Istanbul; Ph.D., 1997, Missouri (Rolla).

KRENRRICH, FRANK
KRETSINGER-HARRIES, ANNE

KREUDER-KRULL, AMANDA JO

KREYSSIG, ANDREAS
Adjunct Associate Professor of Physics and Astronomy. Ph.D., 2001, Technische Univeitaet Dresden Germany.

KRIER, DANIEL A.

KRISHNAMURTHY, ADARSH

KRIZAN, ZLATAN

KRUGER, TONYA

KRUEMP, KENNETH C.

KRUUSEL, CLAIRE

KRUG, BRIAN

KRULL, ADAM C.

KUM, BARBARA A.
Emeritus Professor of World Languages and Cultures. B.S., 1958, Ph.D., 1968, Louisiana State.

LACASA, JUDITH N.
Emeritus Professor of World Languages and Cultures. B.S., 1958, Ph.D., 1968, Louisiana State.

LACZNIK, RUSSELL N.
Professor of Marketing. B.S., 1978, Marquette; M.B.A., 1979, Wisconsin; Ph.D., 1987, Nebraska.

LADE, GABRIEL E.
Assistant Professor of Economics. B.A., 2009, George Washington; M.A., 2011, Rutgers; Ph.D., 2015, California (Davis).
LADNER, ERIK

LAFLAMME, SIMON
Associate Professor of Civil, Construction and Environmental Engineering; Associate Professor of Electrical and Computer Engineering. B.Com., 2003, B.Eng., 2006, McGill; M.Eng., 2007, Ph.D., 2011, Massachusetts Institute of Technology.

LAFLEN, JOHN M.
Affiliate Professor of Agricultural and Biosystems Engineering. B.S., 1959, M.S., 1960, Missouri; Ph.D., 1972, Iowa State.

LAGE, KRISTIN J.

LAGER, KELLY M.

LAGRANGE, WILLIAM S.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1953, Ph.D., 1959, Iowa State.

LAIRD, DAVID ALAN

LAJOIE, JOHN G.

LAMBERT, MISTY D.

LAMBOY-RUIZ, MELVIN A.
Assistant Professor of Accounting. B.B.A., 1996, Puerto-Rico (Mayaguez); M.H.S.A., 2001, Puerto-Rico (San Juan); Ph.D., 2011, Purdue.

LAMKEY, KENDALL RAYE

LAMM, MONICA HITCHCOCK
Associate Professor of Chemical and Biological Engineering. B.S., 1993, Syracuse; Ph.D., 2000, North Carolina State.

LAMONT, SUSAN J.
Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1975, Trinity (Illinois); Ph.D., 1980, Illinois.

LAMOTTE, CLIFFORD E.
Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1953, Texas A&M; Ph.D., 1960, Wisconsin.

LAMSAL, BUDDHI P.
Associate Professor of Food Science and Human Nutrition; Associate Professor of Agricultural and Biosystems Engineering. B.E., 1992, Tamilnadu (India); M.E., 1994, Asian Institute of Technology (Thailand); Ph.D., 2004, Wisconsin.

LANG, JAMES A.

LANGENBERG, CHRISTIANA
Lecturer in English. B.S., 1980, Nebraska; M.A., 1986, Minnesota.

LANNINGHAM-FOSTER, L.
Associate Professor of Food Science and Human Nutrition; Associate Professor of Kinesiology. B.S., 1994, M.S., 1995, North Carolina (Greensboro); Ph.D., 1999, Florida.

LAPAN, HARVEY E.

LARE, JILLIAN FRANCES

LARIOS-MORA, ALEJANDRO

LAROCK, RICHARD C.
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1967, California (Davis); Ph.D., 1972, Purdue.

LARSON, LISA M.

LARSON, SIDNER

LASLEY, ROBERT P.

LASSILA, KENNETH E.
Emeritus Professor of Physics and Astronomy. B.S., 1956, Wyoming; M.S., 1959, Ph.D., 1962, Yale.

LATHROP, JAMES I.
Assistant Professor of Computer Science. B.S., 1983, California State (Longbeach); M.S., 1987, California (Irvine); M.S., 1994, Ph.D., 1996, Ph.D., 1997, Iowa State.
LAUTER, NICK
Affiliate Assistant Professor of Plant Pathology and Microbiology. B.A., 1995, Grinnell College; Ph.D., 2001, Minnesota.

LAVROV, DENNIS V.

LAW, MARGARET R.

LAWRENCE, CAROLYN
Associate Professor of Genetics, Development and Cell Biology. Associate Professor of Agronomy. B.A., 1996, Hendrix College; M.S., 1997, Texas Technology; Ph.D., 2003, Georgia.

LAWRENCE, JOHN D.
Professor of Economics; Vice President of Extension and Outreach. B.S., 1984, M.S., 1986, Iowa State; Ph.D., 1989, Missouri.

LAWRENCE, WILLIAM
Associate Professor of Greenlee School of Journalism and Communication. B.A., 1996, M.A., 1998, Missouri (Kansas City); Ph.D., 2004, Kansas.

LAWSON, KAREN GRUBER

LE, WEI
Assistant Professor of Computer Science. B.S., 2002, Zhejiang (China); M.S., 2005, Ph.D., 2010, Virginia.

LEANDRO, LEONOR F. S.
Associate Professor of Plant Pathology and Microbiology. B.S., 1996, Universidade Tecnica De Lisboa; M.S., 1997, Nottingham (UK); Ph.D., 2002, Iowa State.

LEAVENS, GARY T.

LEDET, ARLO ELMER

LEE, BRIAN M.
Research Assistant Professor of Biomedical Sciences. B.S., 1989, William and Mary; Ph.D., 1997, Maryland.

LEE, DAEYONG

LEE, DAH-YINN
Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1958, Chen Kung; Ph.D., 1964, Iowa State.

LEE, DUCK-CHUL
Associate Professor of Kinesiology. Associate Professor of Food Science and Human Nutrition. B.A., 2000, Hanyang (Seoul); M.S., 2004, Ph.D., 2007, Seoul National.

LEE, JAE-HWA
Assistant Professor of Interior Design. B.F.A., 2008, Ehwa Womans (South Korea); M.S., 2012, Yonsei (South Korea); Ph.D., 2017, Florida.

LEE, JONGHYUN
Assistant Professor of Mechanical Engineering. B.S., 1999, Inha (South Korea); M.S., 2004, Massachusetts; Ph.D., 2007, Massachusetts.

LEE, JU-YEON
Assistant Professor of Marketing. B.A., 2008, Yonsei (South Korea); B.B.A., 2008, Yonsei (South Korea); M.S., 2011, Washington; Ph.D., 2013, Washington.

LEE, KRISTOPHER

LEE, LEE
Professor of Agronomy; Professor of Genetics, Development and Cell Biology. B.S., 1981, Rutgers; M.S., 1984, Ph.D., 1986, Minnesota.

LEE, SOJUNG
Assistant Professor of Apparel, Events and Hospitality Management. B.A., 1999, B.S., 1999, Yonsei (South Korea); M.S., 2005, Ph.D., 2012, Nevada (Las Vegas).

LEE, SUNGHAN

LEE, YONG S.

LEE, YOUNG-JIN
LEHNER, EDWARD JOSEPH

LEIFSSON, LEIFUR

LEIGH, PATRICIA
Emeritus Professor of School of Education. B.A., 1968, Ohio State; M.Ed., 1978, Arkansas; M.S., 1988, Oklahoma; Ph.D., 1997, Iowa State.

LEMPER, CLAUDIA L.

LEMPERS, JACOBUS D. L.
Emeritus Professor of Human Development and Family Studies. B.S., 1971, Nymegen; Ph.D., 1976, Minnesota.

LENSSEN, ANDREW W.

LEONARD, KATHY S.
Emeritus Professor of World Languages and Cultures. B.A., 1975, California (Riverside); M.A., 1979, Santa Clara; B.A., 1983, Nevada; Ph.D., 1991, California (Davis).

LEONARD, RONALD
Associate Professor of Agricultural and Biosystems Engineering. B.S.A.E., 1956, Iowa State; M.S.A.E., 1958, Michigan State.

LERSTEN, NELS R.

LESAR, RICHARD ALAN

LESLE, THOMAS W.
Professor of Architecture; Morrill Professor. B.S., 1989, Illinois; M.Arch., 1992, Columbia.

LEV, EVGENII M.
Adjunct Associate Professor of Physics and Astronomy. B.S., 1972, Lviv Technical (Ukraine); Ph.D., 1980, Lviv State (Ukraine); Sc.D., 1990, Institute of Materials Science (Ukraine).

LEVINE, DANA
Assistant Professor of Veterinary Clinical Sciences. B.S., 1999, Yale; D.V.M., 2004, Cornell; Ph.D., 2013, North Carolina State.

LEVINE, HOWARD A.

LEVIS, GRETA M.

LEVIS, JOHN M.

LEVITAS, VALERY
Professor of Mechanical Engineering; Professor of Aerospace Engineering. Anson Marston Distinguished Professor in Engineering. M.S., 1978, Kiev Polytechnic Institute (Russia); Ph.D., 1981, Institute for Superhard Materials (Russia); Sc.D., 1988, Institute for Electronic Machinebuilding (Russia); Eng.D., 1995, Hannover (Germany).

LEWIS, CALVIN F.
Professor of Architecture. B.Arch., 1969, Iowa State.

LEWIS, DONALD R.

LEWIS, LESLIE C.

LEYSEN, JOAN MARIE

LI, BEIWEN
Assistant Professor of Mechanical Engineering. B.S., 2012, Beihang; M.S., 2014, Iowa State; Ph.D., 2017, Purdue.

LI, GANWU
Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.V.Sc., 1994, M.V.SC., 1999, Nanjing Agricultural (China); Ph.D., 2005, Free (Berlin).

LI, LING
Adjunct Assistant Professor of Genetics, Development, and Cell Biology. B.S., 1997, M.S., 2000, Peking University Beijing (China); Ph.D., 2006, Iowa State.

LI, QING
Assistant Professor of Industrial and Manufacturing Systems Engineering. B.E., 2008, Tsinghua (China); M.S., 2010, Rochester; Ph.D., 2015, Virginia Tech.

LI, TONGLU
Associate Professor of World Languages and Cultures. B.A., 1992, Hebei Normal (China); M.A., 1995, Beijing Normal (China); M.A., 2005, Ph.D., 2009, Illinois.
LI, WENZHEN
Associate Professor of Chemical and Biological Engineering. B.S., 1998, Dalian University of Technology (China); Ph.D., 2004, Dalian Institute of Chemical Physics (China).

LI, YEHUA
Affiliate Associate Professor of Statistics. B.S., 2000, Tsinghua (China); M.S., 2003, Ph.D., 2006, Texas A&M.

LICHT, MARK
Assistant Professor of Agronomy. B.S., 2000, M.S., 2003, Ph.D., 2015, Iowa State.

LICKLIDER, BARBARA L.
Emeritus Professor of School of Education; University Professor. B.S., 1974, M.S., 1981, Ph.D., 1986, Iowa State.

LIDICKY, BERNARD

LIEBERMAN, GARY M.

LIEBMAN, MATTHEW Z.

LILLIGREN, INGRID M.
Professor of Art and Visual Culture and Chair of the Department. B.F.A., 1980, Wisconsin (River Falls); M.F.A., 1986, Claremont.

LIND, LINDA IMPECOVEN

LINDSHEILD, STACY M.
Affiliate Assistant Professor of World Languages and Cultures. B.G.S., 2002, Kansas; M.A., 2006, Ph.D., 2014, Iowa State.

LING, ZHEJIA

LIPSEY, HOLLY J.
Senior Lecturer in Kinesiology. B.A., 1993, Southwest State (Minnesota); M.S., 1995, South Dakota State.

LITCHFIELD, RUTH E.
Professor of Food Science and Human Nutrition. B.A., 1984, Northern Iowa; M.S., 1986, Kansas State; Ph.D., 2000, Iowa State.

LIU, HAILIANG
Professor of Mathematics. B.Sc., 1984, Henan Normal (China); M.S., 1988, Tshinghua (China); Ph.D., 1995, Academia Sinira (Beijing).

LIU, JIA
Assistant Professor of Computer Science. B.S., South China University of Technology; M.S., 1999, South China University of Technology; Ph.D., 2010, Virginia Tech.

LIU, PENG

LIU, TINGTING
Assistant Professor of Finance. M.B.A., 2010, Brock (Canada); Ph.D., 2015, Georgia.

LOGRASSO, THOMAS A.

LOGSDON, SALLY D.

LOGUE, CATHERINE M.
Affiliate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1990, St. Patrick’s College (Ireland); Ph.D., 1996, Ulster (Ireland).

LOHMANN, BRENDA J.
Professor of Human Development and Family Studies; Associate Dean of the College of Human Sciences. B.A., 1994, Augustana College; M.S., 1996, Illinois State; Ph.D., 2000, Ohio State.

LONERGAN, ELISABETH J.

LONERGAN, STEVEN M.

LOOF, TOREY
LOONEY, MARK

LOPEZ, ROBERTO

LORD, WILLIAM
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.Sc., 1961, Ph.D., 1964, Nottingham.

LORENZ, FREDERICK O.
Emeritus Professor of Statistics; Emeritus Professor of Psychology; Emeritus Professor of Sociology; University Professor. B.S., 1970, Mankato; M.S., 1972, South Dakota State; Ph.D., 1980, Iowa State.

LOOMIN, JEFFERY C.
Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S., 1967, Iowa State; M.S., 1970, Nebraska; Ph.D., 1996, Iowa State.

LOVELAND, STEPHANIE D.

LOVING, CRYSTAL L.
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 2001, Ph.D., 2006, Iowa State.

LOW, M. CHRISTOPHER

LOWIT, RICHARD
Emeritus Professor of History. B.S.S., 1943, City University of New York; M.A., 1945, Ph.D., 1950, Columbia.

LOWRY, KRISTIN

LOY, DANIEL DWIGHT

LOY, JOHN DUSTIN

LOYNACHAN, TOM E.

LU, CHAOQUN
Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 2002, Inner Mongolia (China); M.S., 2004, Nanjing (China); Ph.D., 2009, Auburn.

LU, MENG
Assistant Professor of Electrical and Computer Engineering. Assistant Professor of Mechanical Engineering. B.S., 2002, University of Science and Technology (China); M.S., 2004, Ph.D., 2008, Illinois (Urbana-Champaign).

LUBAN, MARSHALL

LUBBERSTEDT, THOMAS
Professor of Agronomy. Ph.D., 1993, Munich (Germany).

LUCKETT, DUDLEY G.
Emeritus Professor of Economics; Distinguished Professor in Liberal Arts and Sciences. A.B., 1952, M.A., 1954, Missouri; Ph.D., 1958, Texas.

LUECKE, GLENN R.
Professor of Mathematics; Professor of Electrical and Computer Engineering. B.S., 1966, Michigan State; Ph.D., 1970, California Institute of Technology.

LUECKE, GREG R.
Associate Professor of Mechanical Engineering; Associate Professor of Electrical and Computer Engineering. Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1979, Missouri; M.S., 1987, Yale; Ph.D., 1992, Pennsylvania State.

LUETH, PATIENCE LAMUNU

LUO, SONGTING

LUTZ, JACK HAROLD
Professor of Computer Science; Professor of Mathematics. B.G.S., 1976, M.A., 1979, M.S., 1981, Kansas; Ph.D., 1987, California Institute of Technology.

LUTZ, ROBYN R.

LUVAGA, EBBA S.
LUZE, GAYLE JOANNE  
Associate Professor of Human Development and Family Studies.  

LYLES, ADRIENNE  
Lecturer in Philosophy and Religious Studies.  

LYN, GARY  
Assistant Professor of Economics.  
B.Sc., 2004, West Indies (Jamaica); M.Sc., 2006, West Indies (Jamaica); Ph.D., 2012, Pennsylvania State.

LYNCH, DAVID  
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences.  

LYTE, MARK  
Professor of Veterinary Microbiology and Preventive Medicine.  
B.S., 1976, Fairleigh Dickinson (New Jersey); M.S., 1979, Ph.D., 1983, Weizmann Institute of Science (Israel).

M

MABRY, JOHN W.  
Emeritus Professor of Animal Science.  
B.S., 1972, Oklahoma State; M.S., 1974, Ph.D., 1977, Iowa State.

MACDONALD, J. TED  
Adjunct Assistant Professor of Food Science and Human Nutrition.  

MACDONALD, RUTH SEAMAN  
Professor of Food Science and Human Nutrition and Chair of the Department.  
Interim Assistant Dean of the College of Agriculture and Life Sciences.  
B.S., 1979, Western Maryland College; M.S., 1981, Ph.D., 1985, Minnesota.

MACINTOSH, GUSTAVO  
Professor of Biochemistry, Biophysics and Molecular Biology.  

MACKENZIE, CAMERON  
Assistant Professor of Industrial and Manufacturing Systems Engineering.  

MACKIEWICZ, JO MARIE  
Professor of English.  
B.S., 1995, Wisconsin (Superior); M.A., 1997, Minnesota (Duluth); Ph.D., 2001, Georgetown.

MADDEN, BEVERLY S.  
Emeritus Associate Professor of Food Science and Human Nutrition.  

MADDOX, ROGER D.  
Emeritus Professor of Mathematics; Emeritus Professor of Computer Science.  

MADISON, KENNETH G.  
Emeritus Assistant Professor of History.  

MADISON, OLIVIA MARIE  
Emeritus Professor, Library.  
Emeritus Dean, Library.  
B.S., 1972, Iowa State; M.A., 1975, Missouri.

MADON, STEPHANIE  
Professor of Psychology.  

MADSON, DARIN MICHAEL  
Associate Professor of Veterinary Diagnostic and Production Animal Medicine.  

MAGSTADT, DREW  
Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine.  

MAHANNA, BILL  
Affiliate Associate Professor of Animal Science.  
B.S., Cornell; Ph.D., M.S., Wisconsin.

MAIER, DIRK  
Professor of Agricultural and Biosystems Engineering. Professor of Food Science and Human Nutrition.  

MAIN, RODGER GARY  
Professor of Veterinary Diagnostic and Production Animal Medicine.  

MAIR, GUNNAR R  
Assistant Professor of Biomedical Sciences.  
M.Sc., 1995, Innsbruck (Austria); Ph.D., 1998, Queen’s (Northern Ireland).

MAITRA, RANJAN  
Professor of Statistics.  

MALLAPRAGADA, SURYA  
Professor of Chemical and Biological Engineering; Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering.  
Associate Vice President of Research.  
B.S., 1993, Indian Institute of Technology; Ph.D., 1996, Purdue.

MALLARINO, ANTONIO P.  
Professor of Agronomy.  

MALONE, ROB W.  
Affiliate Assistant Professor of Agricultural and Biosystems Engineering.  
MALVEN, FREDERIC C.  

MANEY, ARDITH LOUISE  
Emeritus Professor of Political Science; Emeritus Professor of Agricultural and Biosystems Engineering. B.A., 1966, Colby; Ph.D., 1975, Columbia.

MANGOLD, DUANE W.  
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1958, M.S., 1960, Ph.D., 1965, Iowa State.

MANSBACH, RICHARD W.  

MANSELL, THOMAS  

MANEY, ARDITH LOUISE  
Emeritus Professor of Political Science; Emeritus Professor of Agricultural and Biosystems Engineering. B.A., 1966, Colby; Ph.D., 1975, Columbia.

MANGOLD, DUANE W.  
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1958, M.S., 1960, Ph.D., 1965, Iowa State.

MANSBACH, RICHARD W.  

MANSELL, THOMAS  

MANSSELL, THOMAS  

MANWILLER, FLOYD G.  
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1961, Ph.D., 1966, Iowa State.

MANZ, CARLY  
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1958, M.S., 1960, Ph.D., 1965, Iowa State.

MANWILLER, FLOYD G.  

MANZ, CARLY  
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1958, M.S., 1960, Ph.D., 1965, Iowa State.

MANZ, CARLY  
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1958, M.S., 1960, Ph.D., 1965, Iowa State.

MARASINGHE, MERVYN  

MARASINGHE, MERVYN  

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCOTTI, SARA BETH  
Professor of Apparel, Events and Hospitality Management. Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.
MARTIN, PAUL ALBERT  

MARTIN, PETER  
Professor of Human Development and Family Studies; University Professor. B.A., 1979, Wartburg; Ph.D., 1985, Pennsylvania State.

MARTIN, PHILIP EDWARD  

MARTIN, RICHARD J.  
Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. B.V.Sc., 1972, Ph.D., 1977, Liverpool (UK); D.Sc., 1997, Edinburgh (UK).

MARTIN, ROBERT ALLEN  
Professor of Agricultural Education and Studies; Professor of School of Education. B.S., 1968, M.S., 1974, Purdue; Ph.D., 1981, Pennsylvania State.

MARTIN, ROSE  

MARTIN, RYAN  
Professor of Mathematics. B.Sc., 1995, Delaware; Ph.D., 2000, Rutgers.

MARTIN, STEVE WARTHEN  
Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. University Professor. B.A., 1980, Capital; Ph.D., 1986, Purdue.

MARTINIC-JERCIC, BORIVOJ  

MATHIES, BARBARA F.  

MATTILA, JOHN PETER  

MAURY, WENDY  

MAVES, JOHN H.  
Emeritus Assistant Professor of Architecture. B.Arch., 1968, Notre Dame; M.Arch., 1972, Minnesota.

MAXWELL, GREGORY M.  

MAYFIELD, JOHN ERIC  

MAYHOOK, DANE  
Lecturer in Mathematics. B.S., 2008, Ramapo College (New Jersey); Ph.D., 2016, Florida State.

MAYORDOMO, ELVIRA  
Affiliate Associate Professor of Computer Science. B.S., 1990, Zaragoza (Spain); Ph.D., 1994, Polytechnic (Spain).

MAZUR, ROBERT EDWARD  
Professor of Sociology; B.S., 1976, Iowa; M.A., 1979, Ph.D., 1982, Brown.

McCALLEY, JAMES D.  
Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1982, M.S., 1986, Ph.D., 1992, Georgia Institute of Technology.

McCANDLESS, CHARLES E.  

McCARTHY, WILLIAM P.  

McCARVILLE, KATHERINE  
Affiliate Assistant Professor of Geological and Atmospheric Sciences. B.S., 1978, California (Los Angeles); M.Sc., 1985, Colorado School of Mines; Ph.D., 2004, South Dakota School of Mines & Technology.

McCLELLAN, RITANNE  
McCLELLAND, JOHN
Adjunct Associate Professor of Mechanical Engineering. B.S., 1965, Dickinson (North Dakota); Ph.D., 1976, Iowa State.

McCLOSKEY, MICHAEL A.
Associate Professor of Genetics, Development and Cell Biology. B.S., 1974, California (Riverside); Ph.D., 1979, California (Davis).

McCLUNG, JENNIFER ANN
Senior Lecturer in English. B.A., 2003, California State (Long Beach); M.F.A., 2008, Chatham.

McCONNELL, KENNETH G.

McCORMICK, JAMES M.

McCORMICK, THERESA M.

MCCREKEN, ARIENNE

McCULLOUGH, JASON G.

McCULLY, JOHN R. JR.
Emeritus Assistant Professor of English. B.A., 1957, Mississippi College; M.A., 1960, Mississippi; Ph.D., 1976, Rice.

McDANIEL, MARSHALL

McDONALD, E. DAWN
Emeritus Assistant Professor of Kinesiology. B.S., 1960, Boston University; M.S., 1968, Southern Illinois.

McDONEL, LAWRENCE
Assistant Professor of History. B.A., 1979, Western Ontario (Canada); M.A., 1981, Johns Hopkins; Ph.D., 2014, Illinois.

McELROY, JAMES C.
Emeritus Professor of Management; University Professor. B.S., 1971, Jamestown; M.B.A., 1972, South Dakota; Ph.D., 1979, Oklahoma State.

McGEE, DENIS C.
Emeritus Professor of Plant Pathology and Microbiology. B.S., 1964, Ph.D., 1967, Edinburgh.

McGEE, THOMAS D.
Emeritus Professor of Materials Science and Engineering; Emeritus Professor of Veterinary Clinical Sciences. B.S., 1948, M.S., 1958, Ph.D., 1961, Iowa State.

McGILL, JODI
Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 2005, Iowa State; M.S., 2007, Ph.D., 2010, Iowa.

McGILL, NANCY P.

McGRAIL, MAURA
Associate Professor of Genetics, Development and Cell Biology. B.S., 1988, Massachusetts; Ph.D., 1996, Minnesota.

McJIMSEY, GEORGE T.

McKENNY, RACHEL

McKEOWN, DONALD I.

McKILLIGAN, SEDA

McKinney, Ellen C.
Associate Professor of Apparel, Events and Hospitality Management. B.S., 1996, Texas Christian; M.A., 1999, Texas Woman’s; Ph.D., 2007, Minnesota.

McKINNEY, LELAND
Affiliate Associate Professor of Agricultural and Biosystems Engineering. B.S., 1998, M.S., 2000, Kansas State; Ph.D., 2005, Oklahoma State.

McMULLEN, CATHERINE MABRY

McNAULL, ROBERT
Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 2008, M.S., 2010, Ph.D., 2016, Iowa State.

McNEIL, BETH
McNicholl, Timothy  

Mcqueeny, Robert J.  

McTernan, William  
Professor of Air Force Aerospace Studies and Chair of the Department.  
B.S., 1997, Maryland; M.S., 2011, Troy.

Medeiros-Depaula, Guilherme  

Meeker, William Q. Jr.  
Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1972, Clarkson; M.S., 1973, Ph.D., 1975, Union.

Meier, Mary E.  

Meissner, Christian  

Melby, Janet Niewsma  
Adjunct Professor of Human Development and Family Studies. BS/BA, 1972, M.S., 1974, North Dakota State; Ph.D., 1988, Ph.D., 1989, Iowa State.

Mellata, Melha  
Assistant Professor of Food Science and Human Nutrition. B.S., 1989, M.S., 1998, Mouloud Mammeri (Algeria); Ph.D., 2004, Montreal (Canada).

Melsa, James L.  
Emeritus Professor of Electrical and Computer Engineering; Emeritus Dean of the College of Engineering. B.S., 1960, Iowa State; M.S., 1962, Ph.D., 1965, Arizona.

Melvin, Stewart W.  

Mendelson, Michael T.  
Emeritus Professor of English; University Professor. B.A., 1967, California (Irvine); M.A., 1969, California State (San Francisco); Ph.D., 1981, Washington State.

Mendonca, Aubrey F.  
Associate Professor of Food Science and Human Nutrition. B.S., 1985, M.S., 1987, Ph.D., 1992, Iowa State.

Mennee, Charissa  

Menzel, Bruce Willard  

Mercier, Cletus R.  

Mercier, Joyce  

Merkley, David F.  

Merrick, Laura C.  

Mescher, Phil  

Mesropova, Olga M.  
Associate Professor of World Languages and Cultures. B.A., 1996, M.A., 1996, Ph.D., 2000, St. Petersburg Hertzen.

Messenger, Joseph C.  

Meyer, Jacob D.  
Assistant Professor of Kinesiology. B.A., 2008, St. Olaf; M.S., 2011, Wisconsin; Ph.D., 2015, Wisconsin.

Meyer, Natalie  

Meyer, Terrence  

Meyers, Rachel Lee  
Assistant Professor of World Languages and Cultures. B.A., 1999, Yale; Ph.D., 2006, Duke.

Meyers, William H.  
MICHAEL, JAMES B.

MICICH, ANITA
Clinical Assistant Professor of School of Education. B.M.E., 1970, M.S.E., 1979, Drake; Ed.D., 1993, Vanderbilt.

MICKELSON, ALAN C.

MICKELSON, STEVEN K.
Professor of Agricultural and Biosystems Engineering and Chair of the Department. B.S., 1982, M.S., 1984, Ph.D., 1991, Iowa State.

MIGUEZ, FERNANDO E.

MIKOVEC, AMY E.

MILES, KRISTINA G.

MILLER, BRADLEY A.
Assistant Professor of Agronomy. B.S., 2000, M.S., 2006, Iowa State; Ph.D., 2013, Michigan State.

MILLER, CATHY
Associate Professor of Veterinary Microbiology and Preventive Medicine; Interim Assistant Dean of the College of Veterinary Medicine. B.A., 1993, Ph.D., 2001, Missouri.

MILLER, DAVID

MILLER, GERALD AREY
Emeritus Professor of Agronomy. Emeritus Associate Dean of the College of Agriculture and Life Sciences. B.S., 1965, Virginia Polytechnic Institute; M.S., 1971, Ph.D., 1974, Iowa State.

MILLER, GORDON J. JR.
Professor of Chemistry; University Professor. B.S., 1982, Rochester; Ph.D., 1986, Chicago.

MILLER, GREGORY SCOTT
Professor of Agricultural Education and Studies; Professor of School of Education. B.S., 1987, M.Ed., 1990, Auburn; Ph.D., 1992, Ohio State.

MILLER, KATHRYN M.
Emeritus Associate Professor of Human Development and Family Studies. B.S., 1959, Iowa State; M.S., 1964, Cornell.

MILLER, LESLIE L.

MILLER, MARTIN G.

MILLER, MICHAEL C.

MILLER, NANCY LYNN M.

MILLER, RICHARD KEITH
Emeritus Professor of Mathematics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1961, Iowa State; M.S., 1962, Ph.D., 1964, Wisconsin.

MILLER, VICTOR J.

MILLER, WILLIAM WADE
Emeritus Professor of Agricultural Education and Studies; Emeritus Professor of School of Education. B.S., 1974, Texas A&M; M.Ed., 1976, Stephen F. Austin; Ph.D., 1980, Texas A&M.

MILLER, WYATT A.
Professor of Plant Pathology and Microbiology; Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1978, Carleton; Ph.D., 1984, Wisconsin.

MILLMAN, SUZANNE THERESA
Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Biomedical Sciences. B.Sc., 1990, Ph.D., 2000, Guelph (Canada).

MIN, KYUNG J.
Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1984, California (Los Angeles); M.S., 1985, Ph.D., 1990, California (Berkeley).

MINA, MANI

MINEFEE, ISHVA
Assistant Professor of Management. Ph.D., 2017, Illinois.

MINER, ANDREW S.
Associate Professor of Computer Science. B.S., 1993, Randolph-Macon College; M.S., 1995, Ph.D., 2000, College of William and Mary.
MINION, FRANK C.

MINNER, DAVID D.

MIRANOWSKI, JOHN A.

MIRKA, GARY A.
Professor of Industrial and Manufacturing Systems Engineering.

MISHRA, ABHAY
Associate Professor of Supply Chain and Information Systems. B.S., 1993, National Institute of Technology (India); M.B.A., 1996, Xavier Labor Relations Institute (India); Ph.D., 2003, Texas.

MISRA, MANJIT KUMAR
Professor of Agricultural and Biosystems Engineering. B.S., 1971, Orissa; M.S., 1973, Ph.D., 1978, Missouri.

MITRA, AMBAR K.
Emeritus Associate Professor of Aerospace Engineering. B.S., 1969, M.S., 1972, Calcutta; Ph.D., 1979, Indian Institute of Science.

MIRTA, SIMANTA

MOCHEL, JONATHAN P.
Associate Professor of Biomedical Sciences. Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.Sc., 2001, Golfe (France); M.Sc., 2006, Paul Sabatier (France); D.V.M., 2007, National Vet School of Maisons-Alfort (France). Ph.D., 2017, Leiden (Netherlands).

MOODA, SACHIN B.
Affiliate Associate Professor of Supply Chain and Information Systems. B.Eng., 1998, Pune (India); M.S., 2002, Cincinnati; Ph.D., 2006, Indiana.

MOLGAARD, VIRGINIA K.

MOLISON, ROBERT W.

MOLONEY, KIRK A.

MONROE, JOHN W.

MONTABON, FRANK L.

MONTAZAMI, REZA

MOOK, MARGARET SUSAN

MOORE, EMILY L.
Emeritus Professor of School of Education. B.S., 1968, George Williams; M.A.E., 1972, Washington (St. Louis); Ed.D., 1980, South Carolina.

MOORE, KENNETH J.
Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1979, Arizona State; M.S., 1981, Ph.D., 1983, Purdue.

MOORE, PETER L.

MOORE, SARAH E.

MOORMAN, THOMAS B.

MOOYOTTU, SHANKUMAR
Assistant Professor of Veterinary Pathology. B.Vsc, 2008, Kerala Agricultural; M.Vsc., 2010, Indian Veterinary Research Institute; Ph.D., 2016, Connecticut.

MOQRI, MOHAMMADMAHDI
Assistant Professor of Supply Chain and Information Systems. B.Sc., 2008, Sharif University of Technology; M.Sc., 2011, Iran University of Science and Technology; M.B.A., 2013, Massachusetts (Boston).

MORGAN, EMILY KATHRYN

MORGAN, SVEN
MORRICAL, DANIEL GENE

MORRIS, DILYS E.

MORRIS, JOSEPH E.
Professor of Natural Resource Ecology and Management. B.S., 1979, Iowa State; M.S., 1982, Texas A&M; Ph.D., 1988, Mississippi State.

MORRIS, MAX D.
Professor of Statistics and Chair of the Department; Professor of Industrial and Manufacturing Systems Engineering. B.S., 1973, Oklahoma State; M.S., 1974, Ph.D., 1977, Virginia Polytechnic.

MORROW, PAULA C.
Emeritus Professor of Management; University Professor. B.A., 1973, Maryland; M.S., 1975, Virginia Polytechnic Institute; Ph.D., 1978, Iowa State.

MORTON, LOIS WRIGHT
Emeritus Professor of Sociology. B.S., 1972, Bowling Green; M.S., 1977, Syracuse; Ph.D., 1998, Cornell.

MOSCHINI, GIANCARLO
Professor of Economics. B.S., 1978, Catholic (Italy); Ph.D., 1986, Guelph.

MOSES, JOEL C.

MOSHER, GRETCHEN A.
Associate Professor of Agricultural and Biosystems Engineering. B.S., 1996, M.S., 2002, Ph.D., 2011, Iowa State.

MOSS, KIMBERLY

MOSS, WALTER
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 2004, New York (Stony Brook); M.Sc., 2007, Ph.D., 2012, Rochester.

MOST, CORINNA
Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.Sc., 2009, University College London; M.A., 2012, California (San Diego).

MU, AILI
Associate Professor of World Languages and Cultures. B.A., 1982, M.A., 1984, Shandong (China); Ph.D., 1996, New York (Stony Brook); M.S., 2001, Marist College.

MUECKE, MICKAEL W.

MUELLER, BRANDON
Assistant Professor of Management. B.S., 2011, Luther; M.B.A., 2005, Iowa; Ph.D., 2012, Iowa.

MUELLER, DAREN S.

MUNCH, JOSEPH L.

MUKERJEA, RABINDRA

MULLET, SUZANNE L.
Adjunct Assistant Professor of Naval Science. B.S., 2002, Ohio; M.S., 2009, Bowling Green State.

MULFORD, CHARLES L.
Emeritus Professor of Sociology. B.S., 1958, M.S., 1959, Ph.D., 1962, Iowa State.

MULHERIN, BRENDA L.

MULLEN, ELLEN JO

MULLEN, RUSSELL E.

MUNKVOLD, GARY P
Professor of Plant Pathology and Microbiology. B.S., 1986, M.S., 1988, Illinois; Ph.D., 1992, California (Davis).

MUNSON, BRUCE R.

MURDOCH, ALAN JAMES

MURPHY, AMY

MURPHY, CASON
Assistant Professor of Music and Theatre. A.A., 2006, Los Angeles City College; B.A., 2010, California (Los Angeles); M.F.A., 2016, Baylor.

MURPHY, JOHN S.
MURPHY, PATRICIA ANNE
Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1973, M.S., 1975, California (Davis); Ph.D., 1979, Michigan State.

MURPHY, ROGER P.
Emeritus Associate Professor of Accounting. B.S., 1966, M.S., 1969, Colorado State.

MUSSER, MARGARET

MUTCHMOR, JOHN A.
Emeritus Professor of Ecology, Evolution and Organismal Biology; Emeritus Professor of Entomology. B.Sc., 1950, Alberta; M.S., 1955, Ph.D., 1961, Minnesota.

MUTHS, ERIN
Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1986, Wisconsin; M.S., 1990, Kansas State; Ph.D., 1997, Queensland (Australia).

MUZZY, NORMAN
Lecturer in Agricultural and Biosystems Engineering. BSME, 1978, Iowa State.

MYERS, ALAN M.

MYERS, MEGAN
Assistant Professor of World Languages and Cultures. B.A., 2011, Middlebury (Vermont); M.A., 2013, Vanderbilt.

MYERS, RONALD KEITH

MYERS, RALPH EDWARD
Professor of Materials Science and Engineering. B.S., 1989, Florida; M.S., 1994, Ph.D., 1996, Georgia Institute of Technology.

NABIN, RAMANUJAM
Senior Lecturer in Finance. M.S., 1989, Iowa State.

NAKADATE, NEIL E.

NAKAGAWA, NORIO
Adjunct Professor of Aerospace Engineering. B.S., 1975, M.S., 1977, Ph.D., 1984, Tokyo Japan.

NAKAGAWA, NORIO

NARRA, AJAY
Associate Professor of Horticulture. B.S., 2002, Kerala Agricultural (India); M.S., 2006, Maine; Ph.D., 2011, Michigan State.

NARASIMHAN, BALAJI
Professor of Chemical and Biological Engineering. Anson Marston Distinguished Professor in Engineering. B.Tech., 1992, Indian Institute of Technology; Ph.D., 1996, Purdue.

NEGREROS-CASTILLO, P.
Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1976, Puebla (Mexico); M.S., 1983, Inireb; Ph.D., 1991, Iowa State.

NEIHART, NATHAN MARK

NELSON, MARNA D.
Assistant Professor of Genetics, Development and Cell Biology. B.S., 1998, Drake; Ph.D., 2005, Iowa State.

NELSON, RON M.

NELSON, SCOTT W.
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1997, North Dakota State; Ph.D., 2002, Iowa State.

NEPPL, THOMAS GEORGE

NEPPL, TRICIA
NESBIT, SUNDE
Lecturer in Psychology. B.A., 1998, California State (Fresno); M.S., 2003, Ph.D., 2006, Purdue.

NETTLETON, DANIEL S.

NEWELL, JONATHAN J.

NEWMAN, JENNIFER L.
Associate Professor of Mathematics; Associate Professor of Electrical and Computer Engineering. B.A., 1979, Mount Holyoke; Ph.D., 1989, Florida.

NGUYEN, XUAN HIEN
Associate Professor of Mathematics. B.S., 2000, Free University of Brussels (Belgium); M.A., 2002, Ph.D., 2006, Wisconsin (Madison).

NICHOLSON, TRACY
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1995, Ph.D., 2000, Texas A&M.

NIDAY, DONNA M.

NIE, CHENG
Assistant Professor of Supply Chain and Information Systems. B.Eng., 2007, Huazhong (China); M.Eng., 2010, Chinese Academy of Sciences; M.S., 2012, Pennsylvania State.

NIEHM, LINDA S.

NIEMAN, MARK D.

NIEMI, JARAD

NIKOLAU, BASIL J.
Professor of Biochemistry, Biophysics and Molecular Biology. Professor of Food Science and Human Nutrition. Director of Center for Metabolic Biology. B.Sc., 1977, Ph.D., 1981, Massey (New Zealand).

NILAKANTA, SREEVATSLAN
Associate Professor of Supply Chain and Information Systems. B.E., 1973, Madras (India); M.B.A., 1979, Ph.D., 1985, Houston.

NILSEN-HAMILTON, MARIT
Professor of Biochemistry, Biophysics and Molecular Biology; Professor of Genetics, Development and Cell Biology. B.S., 1969, Ph.D., 1973, Cornell.

NISSEN, STEVEN

NLEBEDIM, CAJETAN IKENNA
Adjunct Assistant Professor of Electrical and Computer Engineering. Ph.D., 2010, Cardiff (UK).

NOLAN, LISA K.
Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Emeritus Dean of the College of Veterinary Medicine. B.S., 1975, Valdosta State College; D.V.M., 1988, M.S., 1989, Ph.D., 1992, Georgia.

NONNECKE, BRIAN J.
Affiliate Professor of Animal Science. B.S., 1974, M.S., 1976, Guelph; Ph.D., 1979, Ohio State.

NONNECKE, GAIL R.
Professor of Horticulture; Morrill Professor. University Professor. B.S., 1975, M.S., 1977, Pennsylvania State; Ph.D., 1980, Ohio State.

NORDMAN, DANIEL JOHN

NORRIS, ELIZABETH J.

NORTHUP, LARRY LEE

NORTHWAY, ERIC

NOXON, JAMES OWEN
Professor of Veterinary Clinical Sciences; Morrill Professor. B.S., 1973, D.V.M., 1976, Colorado State.

NUÑEZ, CASSANDRA
Adjunct Assistant Professor of Natural Resource Ecology and Management. B.S., 1993, Rutgers; Ph.D., 2000, Princeton.

NUSSER, SARAH M.
NUTTER, FORREST W. JR.
Professor of Plant Pathology and Microbiology. B.S., 1976, Maryland; M.S., 1978, New Hampshire; Ph.D., 1983, North Dakota State.

O'CONNOR, ANNETTE M.
Professor of Veterinary Diagnostic and Production Animal Medicine. B.V.Sc., 1993, Sydney (Australia); M.V.Sc., 1997, Queensland (Australia); DVSc, 2000, Guelph (Canada).

O'MARA, DENISE ANN

O'NEAL, MATTHEW ELLIOTT

OAKES, GREGORY WAYNE

OAKES, LISA

OAKLAND, MARY JANE
Emeritus Associate Professor of Food Science and Human Nutrition. B.S., 1966, South Dakota State; M.S., 1970, Ph.D., 1985, Iowa State.

OBERHAUSER, ANN M.
Professor of Sociology and Director of Women’s and Gender Studies. B.A., 1981, Carleton College; M.A., 1986, Ph.D., 1988, Clark.

OCKEY, GARY J.
Associate Professor of English. A.S., 1984, Snow (Utah); B.S., 1986, M.A., 1992, Utah; Ph.D., 2006, California (Los Angeles).

ODENWELLER, KELLY

OESTERREICH, LESIA L.
Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1978, M.S., 1988, Texas Tech.

OGILVIE, CRAIG A.
Professor of Physics and Astronomy; Morrill Professor; Assistant Dean of the Graduate College. B.Sc., 1983, Canterbury (New Zealand); Ph.D., 1987, Birmingham (UK).

OKIISHI, THEODORE H.

OLAFSSON, SIGURDUR

OLDENHOEF, ARTHUR E.

OLDHAM, ANNE M.

OLDS, JUNE ELIZABETH
Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2003, Iowa State.

OLES-ACEVEDO, DENISE

OLIVER, DAVID J.

OLIVER, JAMES H.
Professor of Mechanical Engineering; Professor of Aerospace Engineering; Professor of Electrical and Computer Engineering; University Professor; Director of Student Innovation Center. B.S., 1979, Union; M.S., 1981, Ph.D., 1986, Michigan State.

OLK, DANIEL

OLSEN, DARYL

OLSEN, MICHAEL G.
Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering. B.S., 1992, M.S., 1995, Ph.D., 1998, Illinois.

OLSEN, SHERRLYN S.

OLSEN, STEVEN

OLSON, DENNIS GENE

OLSON, ERIC
Assistant Professor of Apparel, Events and Hospitality Management. B.S., 1998, Wisconsin (Eau Claire); M.B.A., 2003, Stetson; Ph.D., 2014, Central Florida.
OMIDVAR, LADAN R.  

OMMEN, DANICA M.  
Assistant Professor of Statistics. B.S., 2012, South Dakota State; M.S., 2014, South Dakota State; Ph.D., 2017, South Dakota State.

ONG, SAY K.  
Professor of Civil, Construction and Environmental Engineering. B.E., 1980, Malaya (Malaysia); M.S., 1987, Vanderbilt; Ph.D., 1990, Cornell.

OPRIESSNIG, TANJA I.  
Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2002, Veterinary Medicine (Austria); Ph.D., 2006, Iowa State.

ORAZEM, PETER FRANCIS  
Professor of Economics; University Professor. B.A., 1977, Kansas; M.Phil., 1980, Ph.D., 1983, Yale.

ORGLER, LISA  

ORTH, PETER  

ORYSPAYEV, DOSSAY  
Lecturer in Computer Science. B.Sc., 2002, Suleyman Demirel (Kazakhstan); M.Sc., 2004, Twente (Netherlands); M.Sc., 2011, Northern Iowa; Ph.D., 2016, Iowa State.

OSBORN, WAYNE S.  

OSTERBERG, ARVID ERIC  

OSTLUND, EILEEN  

OSWEILER, GARY D.  

OTTO, DANIEL M.  

OUIMAL, CHARLES S.  

OUILMAN, MOTOKO LEE  
Emeritus Professor of Sociology. B.A., 1959, Nara Women's University; M.A., 1963, Indiana; Ph.D., 1969, Iowa State.

OVERSTREET, ROBERT E.  

OWEN, DAVID BISHOP  

OWEN, MICHEAL D.  

OWINGS, WILLIAM J.  

OWUSU, FRANCIS Y.  
Professor of Community and Regional Planning and Chair of the Department. B.A., 1987, M.A., 1990, Ghana; M.A., 1992, Carleton (Canada); Ph.D., 2000, Minnesota.

P

PADALKAR, SONAL  
Assistant Professor of Mechanical Engineering. B.E., 2001, M.E., 2004, Pune (India); Ph.D., 2009, Purdue.

PADGETT-WALSH, CULLEN  

PADGETT-WALSH, SALLIE KATE  

PADGITT, STEVEN C.  
Emeritus Professor of Sociology. B.S., 1965, Iowa State; M.S., 1968, Missouri; Ph.D., 1971, Iowa State.

PAEPCKE-HJELTNESS, VERENA  
Assistant Professor of Industrial Design. B.A., 1999, Potsdam University of Applied Sciences; M.F.A., 2003, Ohio State.

PALERME, JEAN-SEBASTIEN  

PALERMO, GREGORY S.  
PALIK, BRIAN

PALMER, MITCHELL VAN
Affiliate Assistant Professor of Veterinary Pathology. B.S., 1985, Utah State; D.V.M., 1989, Purdue; Ph.D., 1996, Iowa State.

PAN, JUN
Senior Lecturer in Mathematics. M.S., 1984, Henan Normal (China); Ph.D., 2000, Magdeburg (Germany).

PANDEY, SANTOSH

PANTHANI, MATTHEW
Assistant Professor of Chemical and Biological Engineering. B.S., 2006, Case Western Reserve; Ph.D., 2012, Texas.

PAPPENHEIMER, DEBORAH

PASCHKE, TERESA A.

PASKACH, THOMAS J.
Senior Lecturer in Chemical and Biological Engineering. B.S., 1990, Ph.D., 2002, Iowa State.

PASSALACQUA, ALBERTO
Associate Professor of Mechanical Engineering; Associate Professor of Chemical and Biological Engineering. M.S., 2004, Ph.D., 2008, Politecnico di Torino.

PASSE, ULRIKE
Associate Professor of Architecture. B.A., 1990, Technische (Berlin); M.Arch., 1990, Technical (Berlin).

PATE, MICHAEL BENCE

PATIENCE, JOHN FRANCIS

PATTERSON, JOHN W. JR.

PATTERSON, PATRICK E.
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1972, Springfield; M.S., 1978, Cleveland State; Ph.D., 1984, Texas A&M.

PAXSON, LYNN

PAXTON, JILL

PAYNE, WILLIAM DONALD
Emeritus Associate Professor of English; Emeritus Associate Professor of School of Education. B.A., 1967, Louisville; M.A., 1968, Ph.D., 1980, Illinois.

PEAKE, E. JAMES JR.

PEARCE, ROBERT BRENT
Emeritus Professor of Agronomy. B.S., 1963, California (Davis); M.S., 1965, Ph.D., 1967, Virginia Polytechnic Institute.
PEASE, JAMES L.

PECHARSKY, VITALIJ K.
Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. M.S., 1976, Ph.D., 1979, Lviv State (Ukraine).

PEDERSEN, WAYNE A.

PEDIGO, LARRY
Emeritus Professor of Entomology; University Professor. B.S., 1963, Fort Hays; M.S., 1965, Ph.D., 1967, Purdue.

PEEL, SHANNON P.

PELLACK, LORRAINE J.

PELZER, NANCY L.

PEREZ, MICHAEL
Assistant Professor of Civil, Construction and Environmental Engineering. B.S., 2012, Florida State; M.S., 2014, Auburn; Ph.D., 2016, Auburn.

PEREZ, ROSEMARY

PERKINS, BRADLEY S.
Senior Lecturer in Civil, Construction and Environmental Engineering. B.S., 1997, Iowa State.

PERKINS, JON DOUGLAS SR.

PERSIA, MICHAEL

PESCHEL, JOSHUA M.
Assistant Professor of Agricultural and Biosystems Engineering. B.S., 2001, Texas A&M; M.S., 2004, Texas A&M; Ph.D., 2012, Texas A&M.

PESEK, JOHN T. JR.
Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1943, M.S., 1947, Texas A&M; Ph.D., 1950, North Carolina State.

PETEFISH-SCHRAG, AMANDA

PETERS, DAVID J.
Associate Professor of Sociology. B.S., 1994, Minnesota; M.S., 1998, Ph.D., 2006, Missouri.

PETERS, FRANK E.

PETERS, JUSTIN

PETERS, NICHOLAS
Assistant Professor of Plant Pathology and Microbiology. B.A., 2001, M.S., 2003, Miami (Ohio); Ph.D., 2010, Utah.

PETERS, REUBEN J.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1992, California (San Diego); Ph.D., 1998, California (San Francisco).

PETERS, RONALD H.

PETERSON, ANNA DAGMAR

PETERSON, CARLA ANN

PETERSON, DAVID
Professor of Political Science. B.A., 1995, Gustavus Adolphus College; Ph.D., 2000, Minnesota.

PETERSON, FRANCIS
Emeritus Professor of Physics and Astronomy. B.E.E., 1964, Rensselaer; Ph.D., 1968, Cornell.

PETERSON, JANE W.

PETERSON, NICOLE KAY

PETERSON, THOMAS A.
Professor of Genetics, Development and Cell Biology; Professor of Agronomy. B.S., 1976, California (Davis); Ph.D., 1984, California (Santa Barbara).
PETRICH, JACOB W.
Professor of Chemistry. B.S., 1980, Yale; Ph.D., 1985, Chicago.

PFAFF, JOSHUA D.

PHARES, BRENT M.

PHILLIPS, GREGORY J.

PHILLIPS, LEIGH
Assistant Professor of Psychology. B.A., 2003, Grinnell; M.S., 2008, Ph.D., 2011, Rutgers.

PHILLIPS, WARREN

PHYE, GARY D.
Emeritus Professor of School of Education; Emeritus Professor of Psychology. B.A., 1964, M.A., 1965, Wichita; Ph.D., 1970, Missouri.

PIERCE, CLAY L.
Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1980, Mankato; M.S., 1982, Kentucky; Ph.D., 1987, Maryland.

PIERREON, KEOUDONE

PIERSON, BION LEE

PIGOGNI, DON LEONARD

PINEYRO, PABLO

PIRRO, ELLEN B.

PISTOLESI, SARA

PITCHFORD, E. ANDREW
Assistant Professor of Kinesiology. B.S., 2006, Michigan; M.S., 2009, Oregon State; Ph.D., 2016, Michigan.

PLAKANS, ANDREJS

PLASTINA, ALEJANDRO

PLATT, KENNETH B.

PLEASANTS, JOHN M.
Adjunct Associate Professor of Ecology, Evolution and Organismal Biology. B.S., 1971, Notre Dame; Ph.D., 1977, California (Los Angeles).

PLUMMER, PAUL J.
Associate Professor of Veterinary Diagnostic and Production Animal Medicine; Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1999, D.V.M., 2000, Tennessee; Ph.D., 2009, Iowa State.

PLYMESSER, CLIFF ALEX

POAGUE, LELAND A.
Emeritus Professor of English. B.A., 1970, California State (San Jose); Ph.D., 1973, Oregon.

POHL, NICOLA
Affiliate Professor of Chemical and Biological Engineering; Affiliate Professor of Chemistry. A.B., 1991, Harvard; Ph.D., 1997, Wisconsin.

POHLMAN, LYNETTE L.
Adjunct Associate Professor of Art and Visual Culture. B.A., 1972, M.A., 1976, Iowa State.

POHM, ARTHUR V.
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.E.E., 1950, B.E.S., 1950, Cleveland State; M.S., 1953, Ph.D., 1954, Iowa State;

POIST, RICHARD F. JR.

POLEACOVSKI, CRISTINA
Assistant Professor of Civil, Construction and Environmental Engineering. B.E., 2010, Technical University of Moldova; M.S., 2012, Alabama (Huntsville); Ph.D., 2017, Colorado.

POLITO, THOMAS A.
Emeritus Assistant Professor of Agricultural Education and Studies; Emeritus Assistant Professor of Agronomy. B.S., 1976, M.S., 1982, Ph.D., 1987, Iowa State.
POLSON, DALE

POLSTER, NANCY L.
Emeritus Associate Professor of Art and Design. B.S., 1960, Iowa State; M.S., 1964, Syracuse.

POMETTO, ANTHONY III
Affiliate Professor of Food Science and Human Nutrition. B.S., 1976, George Mason; M.S., 1983, Ph.D., 1987, Idaho.

PONPANDI, SWAMY
Lecturer in Electrical and Computer Engineering. B.E., 1997, Madras (India); M.Tech., 1999, Indian Statistical Institute (India); M.S., 2000, South Dakota School of Mines and Technology; Ph.D., 2015, Iowa State.

POON, YIU TUNG
Professor of Mathematics. B.A., 1977, M.Phil., 1980, Hong Kong; Ph.D., 1985, California (Los Angeles).

POPE, CHRISTIE F.
Emeritus Associate Professor of History. A.B., 1959, North Carolina; Ph.D., 1977, Chicago.

POPILLION, AMY M.

POPLIN, ALENKA
Assistant Professor of Community and Regional Planning. M.Sc., 1992, Ljubljana (Slovenia); M.B.A., 1997, Clemson; Ph.D., 2002, Vienna.

PORTER, MAX LEE
Emeritus Professor of Civil, Construction and Environmental Engineering; University Professor. B.S., 1965, M.S., 1968, Ph.D., 1974, Iowa State.

POST, CONSTANCE J.

POSTMA, NATHAN

POSTON, WILLIAM K., JR.

POTOYAN, DAVIT
Assistant Professor of Chemistry. B.S., 2007, Yerevan State (Armenia); Ph.D., 2012, Maryland.

POTTER, ALLAN GEORGE
Emeritus Professor of Electrical and Computer Engineering. B.S., 1955, Kansas State; M.S., 1959, Ph.D., 1966, Iowa State.

POTTER, LESLIE A.

POTTER, ROSANNE G.

POULIOT, SEBASTIEN
Associate Professor of Economics. B.A, 2001, M.A., 2003, Universite Laval (Canada); Ph.D., 2008, California (Davis).

POWELL-COFFMAN, JO A.
Professor of Genetics, Development and Cell Biology. B.S., 1986, California (Davis); Ph.D., 1993, California (San Diego).

POWER, DEBRA LYNN

POWER, MARK L.
Professor of Finance; University Professor. B.S., 1974, Iowa State; M.B.A., 1977, Ph.D., 1981, Iowa.

POWERS, ANGELA M.

PRABHU, GITANJALI

PRABHU, GURPUR M.

PRATER, JEFFREY LYNN

PRELL, SOEREN A.
Professor of Physics and Astronomy. Ph.D., 1996, Hamburg (Germany).

PREMKUMAR, SHOBA

PRENTICE, DAVID

PRESTEMON, DEAN R.
Emeritus Professor of Natural Resource Ecology and Management. B.S., 1956, Iowa State; M.S., 1957, Minnesota; Ph.D., 1966, California (Berkeley).

PRIETO, LORETO R.
PRINCE, ANGELA M.
Assistant Professor of School of Education. M.S., 2001, M.Ed., 2003, Bob Jones; Ph.D., 2013, Clemson.

PRINDLE, WILLIAM

PRIOR-MILLER, MARCIA R.

PRITCHARD, JAMES
Emeritus Adjunct Associate Professor of Landscape Architecture; Emeritus Adjunct Associate Professor of Natural Resource Ecology and Management. B.A., 1976, Miami (Ohio); M.A., 1991, Montana State; Ph.D., 1996, Kansas.

PROVENZANO, GRACE
Lecturer in Greenlee School of Journalism and Communication. B.S., Michigan State; M.A., Arizona State.

PROZOROV, RUSLAN
Professor of Physics and Astronomy. M.Sc., 1992, Institute of Steel and Alloys (Moscow); Ph.D., 1998, Bar-Ilan (Israel).

PRUSA, KENNETH JOHN
Professor of Food Science and Human Nutrition; Professor of Animal Science. B.S., 1979, Fort Hays; M.S., 1980, Ph.D., 1983, Kansas State.

PRUSKI, MAREK
Adjunct Professor of Chemistry. B.S., 1977, Ph.D., 1981, Nicholas Copernicus (Poland).

PURDY, MARCIA

PURSEY, DEREK L.
Emeritus Professor of Physics and Astronomy. B.S., 1979, Fort Hays; M.S., 1980, Ph.D., 1983, Kansas State.

Q
QIAO, DAJI
Associate Professor of Electrical and Computer Engineering. B.S., 1994, Tsinghua (China); M.S., 1998, Ohio State; Ph.D., 2004, Michigan.

QIN, HANTANG
Assistant Professor of Industrial and Manufacturing Systems Engineering. B.S., 2012, Zhejiang (China); M.S., 2014, North Carolina State; Ph.D., 2016, North Carolina State.

QIU, JIANWEI

QIU, YUMOU
Assistant Professor of Statistics. B.S., 2008, Beijing Normal (China); M.A., 2010, Peking (China); Ph.D., 2014, Iowa State.

QU, SHUYANG
Assistant Professor of Agricultural Education and Studies. B.A., 2009, South Central University for Nationalities (China); M.S., 2012, Iowa State; Ph.D., 2016, Florida.

QUAM, ANDREA L.

QUE, LONG
Associate Professor of Electrical and Computer Engineering. B.S., 1990, Peking (China); M.S., 1997, Ph.D., 2000, Wisconsin.

QUIGLEY, JAMES

QUINLISK, M. PATRICIA
Affiliate Assistant Professor. B.S., 1978, Wisconsin (Stevens Point); M.P.H., 1983, Johns Hopkins; M.D., 1988, Wisconsin.

QUINN, AMANDA J.
Lecturer in Apparel, Events and Hospitality Management. B.S., 2011, Iowa State; M.S., 2013, Nebraska.

QUINTERO, SANDY

QUIREMBACH, HERMAN C.

QUISENBERRY, SHARRON SUE

R
RADEMACHER, CHRISTOPHER

RADOWSKI, RAFAEL
Assistant Professor of Mechanical Engineering. Ph.D., 2006, Paderborn (Germany).

RAFFERTY, KATHERINE

RAICH, JAMES W.
RAJAGOPAL, LAKSHMAN
Associate Professor of Apparel, Events and Hospitality Management. B.S., 1998, Sies College (India); M.S., 2004, Ph.D., 2007, Nebraska.

RAJAGOPALAN, R. GANESH

RAJALA, SARAH
Professor of Electrical and Computer Engineering; Dean of the College of Engineering. B.S., 1974, Michigan Technological; M.S., 1977, Ph.D., 1979, Rice.

RAJAN, HRIDESH

RAJAN, PRASHANT
Assistant Professor of English. B.ENG., 2005, Pune (India); M.S., 2008, Cincinnati; Ph.D., 2012, Purdue.

RAJU, SEKAR
Associate Professor of Marketing and Chair of the Department. B.E., 1991, Bharathiar (India); M.B.A., 1994, Bharathidasan (India); M.A., 2001, Ph.D., 2002, Ohio State.

RALSTON, PETER

RAMAMOORTHY, ADITYA

RAMAN, D. RAJ
Professor of Agricultural and Biosystems Engineering. Morrill Professor. B.S., 1986, Rochester Institute of Technology; Ph.D., 1994, Cornell.

RAMASwAMI, SRI DHAR N.

RAMER-TAIT, AMANDA
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 2000, Western Kentucky; Ph.D., 2006, Iowa State.

RAMIREZ, ALEJANDRO

RAMIREZ, BRETT

RAMIREZ-RAMIREZ, HUGO A.
Assistant Professor of Animal Science. B.Sc., 2007, Autonoma Chapingo (Mexico); M.Sc., 2011, Ph.D., 2014, Nebraska.

RANALLI, JAMES
Assistant Professor of English. B.A., 1989, California (Irvine); M.A., 2003, Birmingham (United Kingdom); Ph.D., 2012, Iowa State.

RANDALL, JESSE ALLEN

RANDIC, MIRJANA
Emeritus Professor of Biomedical Sciences. M.D., 1959, Ph.D., 1962, Zagreb.

RAO, ABHIJIT

RAO, ARAGULA GURURAJ
Professor of Biochemistry, Biophysics and Molecular Biology; Associate Vice President of Research. M.Sc., 1974, Gauhati (India); Ph.D., 1981, Mysore (India).

RASMUSSEN, JORGEN S.
Emeritus Professor of Political Science; Emeritus Professor of School of Education; Distinguished Professor in Liberal Arts and Sciences. A.B., 1957, Indiana; M.A., 1958, Ph.D., 1962, Wisconsin.

RASMUSSEN, MARK A.

RATHMACHER, JOHN A.

RAVENSCROFT, SUE P.

RAWSON, DON CARLOS

RAY, PRATIK
Adjunct Assistant Professor of Materials Science and Engineering. B.Tech., 2004, National Institute of Technology (India); M.Tech., 2006, Indian Institute of Technology (India); Ph.D., 2011, Iowa State.

READ, ALVIN A.
REASON, ROBERT
Professor of School of Education. Interim Associate Dean of the College of Human Sciences. B.S., 1992, Grinnell College; M.S., 1994, Mankato State; Ph.D., 2001, Iowa State.

REBER-VETTIGER, JACQUELINE
Assistant Professor of Geological and Atmospheric Sciences. B.S., 2007, M.S., 2009, Eth Zurich (Switzerland); Ph.D., 2012, Oslo (Norway).

RECTANUS, MARK W.

REDDY, MANJU B.
Professor of Food Science and Human Nutrition. B.S., 1976, M.S., 1978, Osmania (India); Ph.D., 1987, Texas A&M.

REDDY, POLAMREDDY
Affiliate Assistant Professor of Agricultural and Biosystems Engineering. B.S., Sri Venkateswara (India), M.S., Ph.D., 1997, Kansas State.

REDDY-BEST, KELLY
Assistant Professor of Apparel, Events and Hospitality Management. B.S., 2006, Johnson and Wales (Rhode Island); M.S., 2010, Rhode Island; Ph.D., 2013, Oregon State.

REITMEIER, CHERYLL A.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1973, Minnesota; M.S., 1975, Arkansas; Ph.D., 1988, Iowa State.

REMES, JUSTIN J.

REN, JUAN
Assistant Professor of Mechanical Engineering. B.S., 2009, Xi’an Jiaotong (China); Ph.D., 2015, Rutgers.

REN, YUE

RENTZ, MICHAEL

RETALLICK, MICHAEL STEVEN
Professor of Agricultural Education and Studies and Chair of the Department. B.S., 1993, Wisconsin (Platteville); Ph.D., 2005, Iowa State.

REUEL, NIGEL
Assistant Professor of Chemical and Biological Engineering. B.S., 2009, Brigham Young; Ph.D., 2014, Massachusetts Institute of Technology.

RICE, MARLIN E.
Affiliate Professor of Entomology. B.S., 1977, Central Missouri; M.S., 1979, Missouri; Ph.D., 1987, Kansas State.

RICHARDS, CHARLES D.

RICHARDS, ERIK W.

RICIGO-GUTIERREZ, LUIS
Professor of Architecture; Dean of the College of Design. B.A., 1986, Itesm (Mexico); M.S., 1997, Carnegie Mellon.

RIDPATH, JAMES M.
Professor of Animal Science; Associate Vice President of Research; B.S., 1990, South Dakota State; M.S., 1992, Missouri; Ph.D., 1995, Purdue.

REGER, RICHARD ALLEN

REGISTER, KAREN B.
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. BSMT, 1981, Western Carolina; Ph.D., 1986, North Carolina.

REHMANN, CHRIS ROBERT
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1989, Massachusetts Institute of Technology; M.S., 1990, Ph.D., 1995, Stanford.

REINHARDT, TIMOTHY A.
Affiliate Professor of Animal Science. B.S., 1974, M.S., 1976, Ph.D., 1979, Ohio State.
RIHA, JULIE
Clinical Assistant Professor of Veterinary Clinical Sciences. B.S., 2008, Michigan State; D.V.M., 2014, Ross.

RINEY-KEHRBERG, PAMELA

RINGHOLZ, DAVID ALLEN
Associate Professor of Industrial Design and Chair of the Department. B.A., 1994, New York (Buffalo); MID, 1997, North Carolina State.

RINGLEE, CONSTANCE J.

RIZO, ELISA G.

RIZZO, FRANK J.

ROBBINS, LANNY
Associate Professor of Chemical and Biological Engineering. B.S., 1961, M.S., 1963, Ph.D., 1966, Iowa State.

ROBERTS, CARL

ROBERTS, DAVID D.

ROBERTS, RONALD A.
Adjunct Associate Professor of Aerospace Engineering. B.S., 1979, Purdue; M.S., 1981, Ph.D., 1985, Northwestern.

ROBERTSON, ALAN P.
Associate Professor of Biomedical Sciences. B.Sc., 1991, Glasgow; Ph.D., 1997, Edinburgh.

ROBERTSON, ALISON E.
Professor of Plant Pathology and Microbiology. B.Sc., 1991, Natal (South Africa); M.Phil., 1999, Zimbabwe (Africa); Ph.D., 2003, Clemson.

ROBIN, KEITH E.

ROBINSON, DAVID A.

ROBINSON, WILLIAM

ROBINSON-ADAMS, SAMANTHA

ROBISON, RONALD A.

ROCHE, JULIEN
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 2007, M.S., 2008, Montpellier II (France); Ph.D., 2012, Centre de Biochimie Structurale (France).

RODDE, JAMES F.

RODDE, KATHLEEN

RODERMEL, STEVEN R.
Professor of Genetics, Development and Cell Biology; Distinguished Professor in Liberal Arts and Sciences. B.A., 1972, Yale; M.S., 1976, Wyoming; Ph.D., 1986, Harvard.

RODRIGUEZ, NOREEN N.

RODRIGUEZ, SARAH L.
Assistant Professor of School of Education. B.A., 2008, Texas A&M; M.S., 2010, Tennessee; Ph.D., 2015, Texas.

ROE, KEVIN J.
Associate Professor of Natural Resource Ecology and Management; Associate Professor of Ecology, Evolution and Organismal Biology. B.S., 1988, M.S., 1994, Georgia; Ph.D., 1999, Alabama.

ROETTGER, CHRISTIAN G.
Lecturer in Mathematics. M.S., 1994, Augsburg (Germany); Ph.D., 2000, East Anglia (UK).

ROGERS, CARL A.
Associate Professor of Landscape Architecture and Chair of the Department. B.Arch., 1993, Kansas State; M.L.A., 1997, Rhode Island School of Design.

ROGERS, HALDRE
ROGGE, THOMAS RAY  

ROHACH, ALFRED F.  

ROLING, LUKE T.  
Assistant Professor of Chemical and Biological Engineering. B.S., 2011, Iowa State; Ph.D., 2016, Wisconsin.

ROLLINS, DERRICK K.  
Professor of Chemical and Biological Engineering; Professor of Statistics; University Professor. B.S., 1979, Kansas; M.S., 1987, M.S., 1989, Ph.D., 1990, Ohio State.

RONGERUDE, JANE MARIE  
Associate Professor of Community and Regional Planning. B.S., 1998, Portland State; M.C.P., 2001, Ph.D., 2009, California (Berkeley).

ROOD, CRAIG J.  

ROOF, MICHAEL B.  

ROOSA, JULIE  

ROSA, JOSE ANTONIO  

ROSATI, MARZIA  
Professor of Physics and Astronomy. B.S., 1985, La Sapienza (Italy); Ph.D., 1992, Mc Gill (Canada).

ROSE, WILLIAM  

ROSENBERG, ELI IRA  

ROSENTHALER, KURT  
Associate Professor of Agricultural and Biosystems Engineering.  
Associate Professor of Food Science and Human Nutrition. B.S., 1994, M.S., 1996, Ph.D., 2001, Iowa State.

ROSENTHAL, AARON S.  
Adjunct Instructor in Military Science and Tactics. B.A., 2006, Iowa State.

ROSS, DALE H.  

ROSS, DENNIS KENT  
Emeritus Professor of Physics and Astronomy. B.S., 1964, California Institute of Technology; Ph.D., 1968, Stanford.

ROSS, JASON WAYNE  
Associate Professor of Animal Science. B.S., 2000, Iowa State; M.S., 2003, Ph.D., 2006, Oklahoma State.

ROSS, RICHARD FRANCIS  

ROSSI, GABRIELA  
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. Ph.D., 1997, National University of Cordoba (Argentina).

ROSSINI, AARON J.  
Assistant Professor of Chemistry. B.Sc., 2005, Ph.D., 2010, Windsor (Canada).

ROSSMANITH, JAMES  

ROSSONI SERAO, MARIANA  
Assistant Professor of Animal Science. B.S., 2002, Universidade de Vila Velha - UVV (Brazil); M.S., 2004, Ph.D., 2007. Universidade Federal de Vicsa - UFV (Brazil).

ROTH, JAMES ALLEN  
Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1975, M.S., 1979, Ph.D., 1981, Iowa State.

ROTHMAYER, ALRIC PAUL  
Professor of Aerospace Engineering and Interim Chair of the Department; Professor of Mathematics. B.S., 1980, M.S., 1982, Ph.D., 1985, Cincinnati.

ROTHSCHILD, MAX F.  
Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1974, California (Davis); M.S., 1975, Wisconsin; Ph.D., 1978, Cornell.
ROUSE, GENE

ROUSE, HEATHER L.

ROUSE, JON MATTHEWS

ROVER, DIANE THIEDE
Professor of Electrical and Computer Engineering; University Professor. B.S., 1984, M.S., 1986, Ph.D., 1989, Iowa State.

ROWE, ERIC W.
Associate Professor of Biomedical Sciences. D.V.M., 1999, Ph.D., 2005, Iowa State.

ROWLEY, WAYNE ALLRED

ROWLING, MATTHEW J.
Associate Professor of Food Science and Human Nutrition. B.S., 1999, Nebraska (Kearney); Ph.D., 2004, Iowa State.

ROY, SUNANDA
Lecturer in Economics. B.A., 1980, Presidency College (India); M.A., 1982, Calcutta (India); Ph.D., 2002, Southern California.

ROY, VIVEKANANDA

ROYSTON, NATALIE A.

ROZIER, ERIC
Assistant Professor of Computer Science. B.S., 2003, William and Mary; Ph.D., 2011, Illinois.

ROZIER, KRISTIN
Assistant Professor of Aerospace Engineering. B.S., 2000, M.S., 2001, William and Mary; Ph.D., 2012, Rice.

RUAN, LU
Associate Professor of Computer Science. B.E., 1996, Tsinghua (China); M.S., 1999, Ph.D., 2001, Minnesota.

RUBLE, RACHEAL

RUDOLPH, WILLIAM B.
Emeritus Professor of Mathematics; Emeritus Professor of School of Education. B.A., 1960, Bethany (West Virginia); M.S., 1965, Ph.D., 1969, Purdue.

RUDOLPH, THOMAS J.

RUEDENBERG, KLAUS
Emeritus Professor of Chemistry. Distinguished Professor in Liberal Arts and Sciences. M.S., 1944, Fribourg; Ph.D., 1950, Zurich; Ph.D., 1975 (Hon) Basel.

RUMBEIHA, WILSON

RUNKAN, WILLIAM S.

RUSCH, JULIE
Lecturer in Electrical and Computer Engineering. B.S., 1985, Western Illinois; M.S., 1988, Iowa State; Ph.D., 1994, Wisconsin.

RUSSELL, ALAN MARK

RUSSELL, ANN E.

RUSSELL, DANIEL W.
Professor of Human Development and Family Studies. B.S., 1975, Tulsa; Ph.D., 1980, California (Los Angeles).

RUSSELL, DAVID R.

RUSSELL, JAMES R.

RUSSELL, STEVE F.

RUST, ROBERT E.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition. B.S., 1951, Wisconsin; M.S., 1954, Michigan State.
RUTENBERG, AMY J.

RUTHERFORD, CASSANDRA J.
Assistant Professor of Civil, Construction and Environmental Engineering. B.S., 2002, Texas A&M; M.S., 2004, Texas A&M; Ph.D., 2012, Texas A&M.

RYAN, SARAH M.

RYAN, VERNON DEAN

S

SABZIKAR, FARZAD
Assistant Professor of Statistics. B.Sc., 2006, Isfahan (Iran); M.S., 2009, Sharif (Iran); Ph.D., 2014, Michigan State.

SACCO, RANDY E.
Affiliate Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1981, M.S., 1983, Iowa State; Ph.D., 1987, Texas A&M.

SACKS, GAVIN
Affiliate Associate Professor of Food Science and Human Nutrition. B.S., 1999, Virginia; M.S., 2001, Ph.D., 2005, Cornell.

SACKS, PAUL E.

SADOW, AARON DAVID
Professor of Chemistry. B.S., 1997, Pennsylvania State; Ph.D., 2003, California (Berkeley).

SAGE, PRISCILLA K.

SAHIN, ORHAN

SAKAGUCHI, DONALD S.
Professor of Genetics, Development and Cell Biology; Professor of Biomedical Sciences. Morrill Professor. B.S., 1979, Ph.D., 1984, New York (Albany).

SALAS-FERNANDEZ, MARIA G.

SALOTTI, VALENTINA

SAMS, BRANDON L.

SANCHEZ, MAYLY
Professor of Physics and Astronomy. B.Sc., 1995, Universidad De Los Andes (Venezuela); Ph.D., 2003, Tufts.

SANDER, KAYLA E.
Senior Lecturer in Accounting. B.S., 2006, MACC, 2007, Iowa State.

SANDERS, DAVID
Professor of Civil, Construction and Environmental Engineering and Chair of the Department. B.S., 1984, Iowa State; M.S.E., 1986, Ph.D., 1990, Texas.

SANDERS, EULANDA

SANDERS, WALLACE W.

SANDOR, JONATHAN A.
Emeritus Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.A., 1974, California (Santa Barbara); M.S., 1979, Ph.D., 1983, California (Berkeley).

SANTOYO-OROZCO, IVONNE
Assistant Professor of Architecture. B.Arch., 2002, Universidad de las Americas Puebla (Mexico); M.Arch., 2006, Berlage Institute (Netherlands); Ph.D., 2017, Architectural Association School (UK).

SAPP, STEPHEN GRAHAM
Professor of Sociology. B.A., 1974, M.A., 1980, Florida; Ph.D., 1984, Texas A&M.

SAPP, TRAVIS R. A.
Associate Professor of Finance. B.S., 1994, M.S., 1995, Iowa State; Ph.D., 2001, Iowa.

SAPPINGTON, THOMAS W.
Affiliate Professor of Entomology. B.S., 1979, Central Missouri State; M.S., 1982, Iowa State; Ph.D., 1989, Kansas.

SARKAR, PARTHA
Professor of Aerospace Engineering; Professor of Civil, Construction and Environmental Engineering. B.Tech., 1985, Indian Institute of Technology; M.S., 1986, Washington State; Ph.D., 1992, Johns Hopkins.
SARKAR, SOUMIK

SASHITAL, DIPALI
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 2001, Michigan; Ph.D., 2008, Wisconsin.

SATHE, SWANAND
Assistant Professor of Veterinary Clinical Sciences. B.V.Sc., 2001, M.V.Sc., 2004, Bombay Veterinary (India); M.S., 2012, Illinois (Urbana-Champaign).

SATO, YUKO
Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2008, Berry (Georgia); D.V.M., 2012, Purdue.

SATTERWHITE, MICHAEL

SAUER, GEOFFREY F. K.

SAUER, MARY BALL

SAUER, TOM
Affiliate Professor of Agronomy. B.S., 1982, Wisconsin (Stevens Point); M.S., 1985, Ph.D., 1993, Wisconsin.

SAWYER, GARY

SAWYER, JOHN E.

SCACCIANOCHE, JENNIFER
Clinical Assistant Professor of Veterinary Clinical Sciences. B.S., 2006, D.V.M., 2010, Iowa State.

SCANES, COLIN GUY
Affiliate Professor of Animal Science. B.S., 1969, Hull; Ph.D., 1972, Wales.

SCHAAL, MICHELE

SCHAFFER, JOSEPH A.
Senior Lecturer in Aerospace Engineering. B.S., 1962, Loras; Ph.D., 1972, Northwestern.

SCHAFFER, KELLY MARIE

SCHAFFER, VERNON R.

SCHAFBUCH, PAUL
Adjunct Associate Professor of Aerospace Engineering. B.S., 1979, Iowa State; M.S., 1980, Stanford; Ph.D., 1991, Iowa State.

SCHAFER, ELISABETH A.

SCHAFER, ROBERT

SCHALINSKE, KEVIN

SCHEEL, KAREN R.
Senior Lecturer in Psychology. B.A., 1987, California (Santa Cruz); Ph.D., 1999, Iowa.

SCHEIBE, KEVIN P.
Associate Professor of Supply Chain and Information Systems. B.S., 1991, Biola; M.B.A., 1998, California State (San Marcos); Ph.D., 2003, Virginia Polytechnic Institute and State University.

SCHENCK, HENRY

SCHWE-MILLER, IRMGARD M.
Lecturer in Chemistry. Diplom, 1987, RWTH (Germany); Ph.D., 1990, Stuttgart (Germany).

SCHILLING, KEITH EDWIN
Affiliate Assistant Professor of Natural Resource Ecology and Management. B.A., 1985, Knox College; M.S., 1988, Iowa State; Ph.D., 2009, Iowa.

SCHILLING, KEVIN
Emeritus Associate Professor of Music and Theatre; Emeritus Associate Professor of School of Education. A.B., 1969, Southern California; M.M., 1971, D.M., 1985, Indiana.

SCHLORHOLTZ, SCOTT M.
SCHMERR, LESTER W. JR.
Emeritus Professor of Aerospace Engineering. B.S., 1965, Massachusetts Institute of Technology; Ph.D., 1970, Illinois Institute of Technology.

SCHMIDT, SHELBY L.

SCHMIDT, STEFFEN W.

SCHMITT, BEATE
Professor of Physics and Astronomy; Dean of the College of Liberal Arts and Sciences. B.Sc., 1981, Rffh Aachen (Germany); Ph.D., 1984, Edinburgh (UK).

SCHMITZ-ESSER, STEPHAN
Associate Professor of Animal Science. Diploma, 2001, Technische Universitat Munchen (Germany); Ph.D., 2004, Vienna.

SCHNABLE, PATRICK S.
Professor of Agronomy; Professor of Genetics, Development and Cell Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences; Director of Center for Plant Genomics. B.S., 1981, Cornell; Ph.D., 1986, Iowa State.

SCHNEIDER, IAN C.
Associate Professor of Chemical and Biological Engineering; Associate Professor of Genetics, Development and Cell Biology. B.S., 2000, Iowa State; M.S., 2002, Ph.D., 2005, North Carolina State.

SCHNEIDER, LEO R.
Emeritus Professor of Kinesiology; Emeritus Professor of School of Education. B.S., 1949, Iowa State; M.S., 1950, Washington State.

SCHNEIDER, PIA
Affiliate Assistant Professor of Art and Design; Affiliate Assistant Professor of Architecture. B.Arch., 1985, Swiss Federal Institute of Technology; M.Arch., 1987, Southern California Inst. of Arch.

SCHNEIDER, WENDIE ELLEN

SCHOUTEN, MAARTJE E.
Assistant Professor of Management. B.Sc., 2007, Amsterdam; M.Sc., 2010, Amsterdam; Ph.D., 2016, Erasmus University Rotterdam.

SCHRADER, GLENN L.
Emeritus Professor of Chemical and Biological Engineering. B.S., 1972, Iowa State; Ph.D., 1976, Wisconsin.

SCHRADER, JAMES

SCHRIER, THOMAS
Associate Professor of Apparel, Events and Hospitality Management. B.S., 1999, Purdue; M.B.A., 2004, Ball State; Ph.D., 2009, Nevada (Las Vegas).

SCHROEDER, JOANNA

SCHROETER, JOHN R.
Emeritus Professor of Economics. B.S., 1973, California Institute of Technology; Ph.D., 1981, Minnesota.

SCHUCKERT, SCOT

SCHUH, JOHN H.
Emeritus Professor of School of Education; Distinguished Professor of Education. B.A., 1969, Wisconsin (Oshkosh); M.S., 1972, Ph.D., 1974, Arizona State.

SCHULT-R-MOORE, LISA ANN

SCHULTZ, RICHARD CARL

SCHULZ, KELLY
Lecturer in Animal Science. B.S., 2006, Wisconsin (River Falls); M.S., 2012, Kansas State.

SCHULZ, LEE L.
Associate Professor of Economics. B.S., 2006, Wisconsin (River Falls); M.S., 2008, Michigan State; Ph.D., 2012, Kansas State.

SCHUMACHER, DARREN

SCHWAB, ANDREAS

SCHWAB, CHARLES V.
Professor of Agricultural and Biosystems Engineering. B.S., 1979, M.S., 1982, Ph.D., 1989, Kentucky.

SCHWAB, CLINTON

SCHWARTE, BARBARA
SCHWARTZ, ADAM

SCHWARTZ, CHRISTIAN J.

SCHWARTZ, KENT J.

SCHWEINGRUBER, DAVID SCOTT

SCOTT, MARVIN PAUL
Affiliate Professor of Agronomy. B.S., 1986, Iowa State; Ph.D., 1992, Purdue.

SCOTT, NORMAN A.
Emeritus Associate Professor of Psychology. B.S., 1965, Bucknell; M.A., 1967, Temple; Ph.D., 1971, Maryland.

SCOTT, THOMAS MARVIN
Emeritus Associate Professor of Electrical and Computer Engineering. B.S., 1953, Maryland; Ph.D., 1962, Wisconsin.

SCUPHAM, ALEXANDRA
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1994, Ph.D., 2000, Wisconsin.

SEAGRAVE, RICHARD C.
Emeritus Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1957, Rhode Island; M.S., 1959, Ph.D., 1961, Iowa State.

SEATON, VAUGHN A.

SEBBAG, LIONEL
Assistant Professor of Veterinary Clinical Sciences. B.Gs., 2006, Lycce Massena (France); D.M.V., 2011, National Veterinary School Toulouse (France).

SEBRANEK, JOSEPH G.
Professor of Animal Science; Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. University Professor. B.S., 1970, M.S., 1971, Ph.D., 1974, Wisconsin.

SEEGER, CHRISTOPHER J.

SEIFERT, KARL E.

SEILER, GALE
Associate Professor of School of Education. B.S., 1976, Fairleigh Dickinson (New Jersey); M.S., 1980, Montana; Ph.D., 2002, Pennsylvania.

SELBY, MARTHA ANN
Adjunct Assistant Professor of Materials Science and Engineering. B.S., 1981, M.S., 1988, Iowa State.

SELL, JERRY L.
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1957, M.S., 1958, Ph.D., 1960, Iowa State.

SELLERS, DEBRA M.
Associate Professor of Human Development and Family Studies; Associate Dean of the College of Human Sciences. B.A., 1988, M.S., 1993, Florida; Ph.D., 2004, Kansas State.

SELSBY, JOSHUA TAYLOR
Associate Professor of Animal Science; Associate Professor of Kinesiology; Associate Professor of Biomedical Sciences. B.A., 1999, Wooster College; M.A., 2001, Ohio State; Ph.D., 2005, Florida.

SEN, TANER Z.
Affiliate Assistant Professor of Genetics, Development and Cell Biology. B.S., 1996, M.S., 1998, Bogazici (Turkey); Ph.D., 2003, Akron.

SENCHINA, DAVID S.
Affiliate Professor of Kinesiology. B.A., 2000, Northern Iowa; Ph.D., 2006, Iowa State.

SENSKE, NICK
Assistant Professor of Architecture. B.Arch., 2003, Iowa State; M.Arch., 2005, Massachusetts Institute of Technology; Ph.D., 2010, Michigan.

SEO, HILARY
Associate Professor, Library; Associate Dean of Library Services. B.A., 1991, California (Santa Barbara); M.A., 1993, Wisconsin.

SERAO, NICK
Assistant Professor of Animal Science. B.Sc., 2007, M.Sc., 2009, Federal University of Vicosa (Brazil); Ph.D., 2012, Illinois.

SERB, JEANNE M.

SEVERIN, ANDREW JOSEF
Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. Ph.D., 2009, Iowa State.
SEVERSIKE, LEVERNE K.
Emeritus Associate Professor of Aerospace Engineering. B.S., 1958, M.S., 1961, Ph.D., 1964, Iowa State.

SHAFII-PAMSARI, BEHROUZ

SHAHAN, JAMES CLINTON
Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1979, M.S., 1985, Iowa State.

SHAIKO, CHRISTOPHER L.
Adjunct Instructor in Military Science. B.S., American Military.

SHANE, JENNIFER
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 2000, Colorado School of Mines; M.S., 2003, Ph.D., 2006, Colorado.

SHANE-NICHOLS, AMY

SHANK, WESLEY IVAN
Emeritus Professor of Architecture. B.A., 1951, California (Berkeley); M.Arch., 1965, McGill.

SHANK, BRENT H.
Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1983, Iowa State; M.S., 1985, Ph.D., 1988, California Institute of Technology.

SHANKS, JACQUELINE V.
Professor of Chemical and Biological Engineering. B.S., 1983, Iowa State; Ph.D., 1989, California Institute of Technology.

SHAO, PAUL

SHAO, ZENGYI
Assistant Professor of Chemical and Biological Engineering. B.S., 2002, Nankai (China); M.S., 2005, Ph.D., 2009, Illinois.

SHAPIRO, HOWARD N.

SHARMA, ANUJ
Associate Professor of Civil, Construction and Environmental Engineering. B.E., 2001, Regional Engineering (Rourkela, India); M.S., 2004, Texas A&M; Ph.D., 2008, Purdue.

SHARMA, ANUPAM

SHARP, JONATHAN R.

SHARP, RICKEY LEE
Professor of Kinesiology; Professor of Food Science and Human Nutrition. B.A., 1974, California State (Chico); M.Ed., 1976, Nevada; Ph.D., 1983, Ball State.

SHAW, ANGELA
Associate Professor of Food Science and Human Nutrition. B.S., 2003, M.S., 2006, Iowa State; Ph.D., 2010, Texas Tech.

SHAW, KELLY B.

SHAW, KENNETH C.

SHEAFFER, JEREMY W.

SHEARER, JAN

SHEBLE, GERALD B.
Emeritus Professor of Electrical and Computer Engineering. B.S., 1971, M.S., 1974, Purdue; Ph.D., 1985, Virginia Polytechnic Institute.

SHECHTMAN, DAN
Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.Sc., 1966, M.Sc., 1968, Ph.D., 1972, Technion (Israel).

SHECHTMAN, ZIPORA
Affiliate Professor of Psychology. B.A., 1968, Haifa (Israel); M.A., 1975, Dayton; Ph.D., 1983, American.

SHEDD, CELIA P.

SHELLEY, MACK CLAYTON
Professor of Political Science and Chair of the Department; Professor of Statistics; University Professor. B.A., 1972, American; M.S., 1973, Ph.D., 1977, Wisconsin.
SHEN, JIEHUA
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1982, Hefei University of Technology (China); M.S., 1985, Chinese Academy of Sciences (Beijing); Ph.D., 1992, California (Berkeley).

SHEN, SHELDON SHIH-TA
Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1969, Missouri; Ph.D., 1974, California (Berkeley).

SHENK, LINDA

SHEPHERD, TIMOTHY A.

SHERMAN, PETER JAMES
Associate Professor of Aerospace Engineering; Associate Professor of Statistics. B.S., 1974, M.S., 1975, Ph.D., 1984, Wisconsin.

SHI, XIAOLEI
Adjunct Assistant Professor of Food Science and Human Nutrition. B.S., 2010, Huazhong Agricultural (China); M.S., 2012, Ph.D., 2015, North Carolina State.

SHIBLES, RICHARD M.
Emeritus Professor of Agronomy. B.S., 1956, Maine; M.S., 1958, Ph.D., 1961, Cornell.

SHIN, YEON-KYUN
Professor of Biochemistry, Biophysics and Molecular Biology; Professor of Physics and Astronomy. B.S., 1982, Seoul National (Korea); Ph.D., 1990, Cornell.

SHINAR, JOSEPH
Professor of Physics and Astronomy; Professor of Electrical and Computer Engineering. B.Sc., 1972, M.Sc., 1974, Ph.D., 1980, Hebrew (Israel).

SHINAR, RUTH
Adjunct Professor of Electrical and Computer Engineering. B.S., 1968, M.S., 1972, Ph.D., 1977, Hebrew (Israel).

SHINN, RICHARD DUANE

SHIRTLIFF, BENJAMIN

SHIRTLIFF, ELIZABETH
Associate Professor of Human Development and Family Studies. Associate Professor of Food Science and Human Nutrition. B.S., 1998, Oregon; Ph.D., 2003, Pennsylvania State.

SHOGREN-KNAAK, MICHAEL
Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1994, Stanford; Ph.D., 2000, California Institute of Technology.

SHONROCK, DIANA D.

SHOOK, ROBIN P.
Affiliate Assistant Professor of Kinesiology. B.A., 2000, Northern Iowa; M.S., 2004, Iowa State; Ph.D., 2013, South Carolina.

SHOwers, WILLIAM B. JR.

SHRADER, CHARLES B.

SHROTRIYA, PRANAV
Professor of Mechanical Engineering. B.Tech., 1995, Indian Institute of Technology (India); Ph.D., 2000, Illinois.

SILET, CHARLES L.

SIMONSON, DONALD R.

SIMPKINS, WILLIAM W.

SIMPSON, STEPHEN
Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1986, Maryland; M.B.A., 1992, Hood; Ph.D., 2015, Iowa State.

SINGER, SHIRLEE R.

SINGH, ARTI

SINGH, ASHEESH
Associate Professor of Agronomy. B.S., 1998, G.B. Pant University of Agriculture and Technology (India); M.Sc., 2001, Saskatchewan; Ph.D., 2007, Guelph (Canada).

SINGH, NATALIA N.
Adjunct Associate Professor of Biomedical Sciences. M.S., 1988, Leningrad Lensovet Institute (Russia); Ph.D., 1995, Russian Academy of Science.
SINGH, RAJESH
Professor of Economics. B.S., 1981, M.S., 1983, Iit (India); Ph.D., 2002, California (Los Angeles).

SINGH, RAVINDRA N.
Professor of Biomedical Sciences. B.Sc., 1983, M.Sc., 1985, Banaras Hindu (India); Ph.D., 1993, Russian Academy of Sciences.

SIPPEL, TRAVIS
Assistant Professor of Mechanical Engineering. B.S., 2006, Kansas; M.S., 2009, Ph.D., 2013, Purdue.

SIVILS, MATTHEW

SKAAAR, BRAD RICHARD
Associate Professor of Animal Science. B.S., 1979, Colorado State; M.S., 1982, Ph.D., 1985, Iowa State.

SKRYNNIKOVA, LIDIA R.

SLAGELL, AMY R.
Associate Professor of English; Associate Dean of the College of Liberal Arts and Sciences. B.S., 1983, Ohio; M.A., 1986, Ph.D., 1992, Wisconsin.

SLATER, TAMMY J.

SLOWING, IGOR IVAN
Adjunct Assistant Professor of Chemistry. Ph.D., 2008, Iowa State.

SLUTZKI, GIORA
Professor of Computer Science. B.S., 1970, Hebrew (Jerusalem); M.S., 1973, Weizmann Institute; Ph.D., 1977, Tel-Aviv.

SLY, DAVID

SMADI, OMAR
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1987, Yarmouk (Jordan); M.S., 1991, Ph.D., 2000, Iowa State.

SMALLEY, SCOTT
Assistant Professor of Agricultural Education and Studies. B.S., Michigan State; M.S., 2006, Ph.D., 2011, Iowa State.

SMAY, TERRY ALLEN

SMILEY, MICHAEL W.

SMILEY-ODYEN, ANN

SMITH, AMY ERICA

SMITH, ARTHUR A. JR.
Emeritus Professor of Philosophy and Religious Studies; Emeritus Professor of Political Science. B.A., 1974, Boston College; Ph.D., 1980, New York (Stony Brook).

SMITH, BRUCE E.

SMITH, CARL RAY

SMITH, CLIFFORD E.
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1949, M.S., 1958, Ph.D., 1964, Iowa State.

SMITH, ELIZABETH SWANNER
Assistant Professor of Geological and Atmospheric Sciences. A.B., 2003, Mount Holyoke; Ph.D., 2011, Colorado.

SMITH, EMILY

SMITH, ERIC

SMITH, JENNIFER D.

SMITH, JODI

SMITH, JONATHAN D. H.

SMITH, JOSEPH S.
SMITH, KIM ANTHONY

SMITH, RICHARD JOHN
Emeritus Professor of Agricultural and Biosystems Engineering. B.Sc., 1962, Kings College; M.S., 1967, Ph.D., 1971, Iowa State.

SMITH, RICHARD LYNN

SMITH, ROGER A. P.
Emeritus Professor of School of Education. B.A., 1969, M.A., 1971, Northern Iowa; Ph.D., 1974, Iowa State.

SMITH, RYAN C.
Assistant Professor of Entomology. B.S., 2002, Ph.D., 2007, California (Riverside).

SMITH, TIMOTHY

SOENKSEN, JOEL L.

SOJKA, NADINE

SOMANI, ARUN K.
Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering; Associate Dean of the College of Engineering. B.E., 1973, Bit (India); M.Tech., 1979, Iit (India); M.S.E.E., 1983, Ph.D., 1985, McGill (Canada).

SOMERVILLE, ANDREW
Assistant Professor of World Languages and Cultures. B.A., 2006, Arizona State; M.A., 2010, Ph.D., 2015, California (San Diego).

SONG, GUANG
Associate Professor of Computer Science. B.S., 1992, Jiolin (China); M.S., 1998, Ph.D., 2003, Texas A&M.

SONG, GUOWEN
Associate Professor of Apparel, Events and Hospitality Management. B.S., 1986, M.S., 1992, Tianjin Polytechnic (China); Ph.D., 2002, North Carolina State.

SONG, JIMING
Professor of Electrical and Computer Engineering. B.S., 1983, M.S., 1988, Nanjing (China); Ph.D., 1993, Michigan State.

SONG, SUNG YELL
Associate Professor of Mathematics. B.S., 1974, Seoul; Ph.D., 1987, Ohio State.

SONG, XUEYU
Professor of Chemistry. B.S., 1984, Nankai (China); Ph.D., 1995, California Institute of Technology.

SONTAG, JON

SOUKOULIS, COSTAS M.
Professor of Physics and Astronomy; Professor of Electrical and Computer Engineering; Professor of Materials Science and Engineering. Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Athens; M.S., 1975, Ph.D., 1978, Chicago.

SOULEYRETTE, REGINALD

SOUPIR, MICHELLE LYNN
Associate Professor of Agricultural and Biosystems Engineering; Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1999, Kansas State; M.S., 2003, Ph.D., 2007, Virginia Polytechnic.

SPALDING, BEATRIZ MARIA
Lecturer in Ecology, Evolution and Organismal Biology. B.S., 1976, Napoli (Italy); M.S., 1988, Iowa State.

SPALDING, DAVID PETER
Professor of Finance; Dean of the College of Business. Interim Vice President for Economic Development and Industry Relations. B.A., 1976, Dartmouth; M.B.A., 1984, New York.

SPALDING, MARTIN H. II

SPEER, VAUGHN CURTIS

SPIKE, PHILIP LOWELL

SPILLER, JAMES MONTGOMERY
Lecturer in Architecture. B.A., 2007, Washington (St. Louis); M.Arch., 2009, School of the Art Institute.

SPODEN, JESSICA
SPONSELLER, BEATRICE T.
Clinical Associate Professor of Veterinary Clinical Sciences. D.V.M., 1996, Berlin (Germany).

SPONSELLER, BRETT A.
Associate Professor of Veterinary Clinical Sciences; Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1990, Virginia Polytechnic; D.V.M., 1994, Cornell; Ph.D., 2003, Iowa State.

SPRY, PAUL G.

SPRY-KNUTSON, JENNIFER

SQUIRE, MITCHELL J.

SRITHARAN, SIVALINGAM
Professor of Civil, Construction and Environmental Engineering; Interim Assistant Dean of the College of Engineering. B.S.C.E., 1985, Peradeniya (Sri Lanka); M.E., 1989, Auckland (New Zealand); Ph.D., 1998, California (San Diego).

ST GERMAIN, ALISON MARIE

STABEL, JUDITH R.

STACY-BATES, KRISTINE

STALDER, KENNETH J.

STAMY, CELINDA

STANFORD, JOHN L.
Emeritus Professor of Physics and Astronomy. B.S., 1960, Texas; Ph.D., 1965, Maryland.

STANLEY, LEVI M.
Associate Professor of Chemistry. B.A., 2001, Augustana (Sioux Falls); Ph.D., 2008, North Dakota State.

STANTON, THADDEUS BRIAN
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1972, Thomas More; Ph.D., 1980, Massachusetts.

STARLEAF, DENNIS R.
Emeritus Professor of Economics. B.A., 1959, California (Berkeley); M.A., 1960, California (Los Angeles); Ph.D., 1967, Vanderbilt.

STARLING, DAVID
Lecturer in Biomedical Sciences. D.V.M., 1975, Iowa State.

STAVNAR, GLORIA K.

STECKELBERG, CAROLYN

STEGEMOLLER, ELIZABETH
Assistant Professor of Kinesiology. B.A., 2001, B.S., 2001, Missouri (Kansas City); Ph.D., 2010, Northwestern.

STEIL, AARON

STEINER, ANNE K.

STEINER, EUGENE F.
Emeritus Professor of Mathematics. B.S., 1954, Missouri (Rolla); M.A., 1960, Ph.D., 1963, Missouri.

STEPHenson, DAVID T.

STEPHENSON, JAMES A.

STEPHENSON, W. ROBERT
Emeritus Professor of Statistics; Morrill Professor; University Professor. B.A., 1974, Gettysburg; M.S., 1976, Ph.D., 1979, Connecticut.

STERLE, JODI

STERNBERG, STEEN-HENRIK
Assistant Professor of Supply Chain and Information Systems. B.S., 2001, Blekinge University of Technology (Sweden); M.S., 2006, Ph.D., 2011, Chalmers University of Technology (Sweden).

STEVENS, JULIE L.

STEVenson, GREGORY W.
STEVERMER, EMMETT J.

STEWARD, BRIAN LYNN

STEWART, AUSTIN

STEWART, CECIL R.
Emeritus Professor of Genetics, Development and Cell Biology; Emeritus Professor of Plant Pathology and Microbiology. B.S., 1958, Illinois; M.S., 1963, Ph.D., 1967, Cornell.

STEWART, SUSAN DIANE

STEWART, TIMOTHY W.

STILL-BROOKS, KELLY M.
Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2001, Berry College (Georgia); D.V.M., 2005, Cornell; M.P.H., 2010, Iowa.

STINES, ELIJAH JAMES

STINGA, PABLO-RAUL
Assistant Professor of Mathematics. B.S., 2005, Universidad Nacional de San Luis (Argentina); M.S., 2007, Ph.D., 2010, Universidad Autonoma de Madrid (Spain).

STOEHR, ALISSA

STOKKE, DOUGLAS D.

STOLEE, KATHRYN

STONE, JANIS FINLEY

STONE, KENNETH EUGENE

STONE, RICHARD T.
Associate Professor of Industrial and Manufacturing Systems Engineering; Associate Professor of Mechanical Engineering. B.S., 1999, M.S., 2001, Rochester Institute of Technology; Ph.D., 2008, New York (Buffalo).

STONER, KRISTIN

STOUT, JANEANN
Emeritus Associate Professor of Art and Design; Emeritus Associate Dean of the College of Human Sciences. B.S., 1971, M.A., 1974, Iowa State.

STOVER, ROGER D.

STOYCHEV, ALEXANDER T.
Associate Professor of Electrical and Computer Engineering; Associate Professor of Computer Science. B.A., 1997, American (Bulgaria); M.S., 2001, Ph.D., 2005, Georgia Institute of Technology.

STRAHAN, ROBERT

STRATHE, MARLENE
Professor of School of Education and Director of the School. B.S., 1967, M.S., 1969, Iowa State; Ed.S., 1973, Northern Iowa; Ph.D., 1975, Iowa State.

STRAWN, GEORGE O.
Emeritus Associate Professor of Computer Science. B.A., 1962, Cornell College; Ph.D., 1969, Iowa State.

STREETER, PAULA

STROHBEHN, CATHERINE
Emeritus Adjunct Professor of Apparel, Events and Hospitality Management. B.S., 1979, Texas Tech; M.S., 1981, Ph.D., 1991, Iowa State.

STROHBEHN, DARYL R.

STROMER, MARVIN H.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1959, Ph.D., 1966, Iowa State.
STRONG, JOHN R.
Emeritus Associate Professor of Human Development and Family Studies. B.S., 1959, Brigham Young; M.S., 1962, Arizona State; Ph.D., 1974, Oregon State.

STRONG, KELLY
Affiliate Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1980, Iowa State; M.B.A., 1988, St. Thomas; Ph.D., 1992, Colorado.

STRUCK, CURTIS J.
Professor of Physics and Astronomy. B.S., 1976, Minnesota; M.Phil., 1978, Ph.D., 1981, Yale.

STRUVE, WALTER SCOTT

STUART, DAVID H.

STURGES, LEROY DONALD

STURM, JONATHAN

STURM, JULIE

STURTEVANT, BRIAN R.
Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1992, Rutgers; M.S., 1996, Utah State; Ph.D., 2001, Maryland.

SU, CHING-HUI

SUAREZ, LUCIA DE LAS MERCE
Associate Professor of World Languages and Cultures and Director of US Latino/a Studies. B.A., 1991, City University of New York; Ph.D., 1999, Duke.

SUBRAMANIAM, SHANKAR
Professor of Mechanical Engineering. B.Tech., 1988, Indian Institute of Technology (India); M.S., 1990, Notre Dame; Ph.D., 1997, Cornell.

SUH, SANG-GON
Affiliate Professor of Horticulture. B.S., 1984, M.S., 1986, Yeungnam (Korea); Ph.D., 1990, Iowa State.

SUKUL, ADISAK

SUKUP, CHARLES
Associate Professor of Agricultural and Biosystems Engineering. B.S., 1976, M.S., 1982, Iowa State.

SUMMERFELT, ROBERT C.
Emeritus Professor of Natural Resource Ecology and Management. B.S., 1957, Wisconsin (Stevens Point); M.S., 1959, Ph.D., 1964, Southern Illinois.

SUMMERS, JAMES

SUN, HUA
Associate Professor of Finance. B.A., 1999, Nankai (China); M.Sc., 2003, National University of Singapore; Ph.D., 2008, British Columbia.

SUNDERARAJAN, SRIRAM
Professor of Mechanical Engineering; Associate Dean of the College of Engineering. B.E., 1995, Birla Institute of Technology and Scienc; M.S., 1997, Ph.D., 2001, Ohio State.

SUNDERMAN, ROBERT A.

SUZA, WALTER
Adjunct Assistant Professor of Agronomy. B.S., 1996, M.S., 2001, Murray State; Ph.D., 2006, Nebraska.

SUZUKI, YOSHIHINORI

SVEC, CHRISTINA L.
Assistant Professor of Music and Theatre. B.Mus., 2005, North Texas; M.Mus., 2009, Michigan State.

SVEC, JOSEPH
Adjunct Assistant Professor of Human Development and Family Studies. B.S., 2008, South Dakota; M.P.P., 2011, Minnesota.

SVENDSEN, LINDA K.

SWALWELL, KATY
Associate Professor of School of Education. B.S., 2002, Northern Iowa; M.A., 2007, Ph.D., 2011, Wisconsin.
SWAN, PATRICIA B.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1959, North Carolina (Greensboro); M.S., 1961, Ph.D., 1964, Wisconsin.

SWANDER, MARY L.

SWANNER SMITH, ELIZABETH

SWARTWOOD, THOMAS

SWEET, DAWN

SWIFT, ARTHUR G.

SWIFT, CURRAN STEWART

SWITZER, WILLIAM P.
Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1948, Texas A&M; M.S., 1951, Ph.D., 1954, Iowa State; Dr.H.C., 1979, Vienna.

SWOBODA, CATHERINE M.

SWOR, TAMARA
Clinical Assistant Professor of Veterinary Clinical Sciences. B.S., 1995, North Dakota State; D.V.M., 1999, Iowa State.

TABATABAI, LOUISA
Affiliate Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1962, California (Berkeley); M.S., 1966, Ph.D., 1976, Iowa State.

TABATABAI, M. ALI
Emeritus Professor of Agronomy. B.S., 1958, Baghdad; M.S., 1960, Oklahoma State; Ph.D., 1965, Iowa State.

TABER, HENRY GLENN

TAIT, JOHN LAWRENCE

TAKLE, GENE S.
Emeritus Professor of Agronomy; Emeritus Professor of Geological and Atmospheric Sciences; Emeritus Professor of Aerospace Engineering; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1966, Luther; Ph.D., 1971, Iowa State.

TALBERT, JOEY
Assistant Professor of Food Science and Human Nutrition. B.S., 2001, Virginia Technology; M.S., 2004, Ph.D., 2009, Cornell.

TAM, TIN-SHI

TAN, XIAOLI
Professor of Materials Science and Engineering. B.E., 1989, Xi’an Jiaotong (China); Ph.D., 2002, Illinois.

TANATAR, MAKARIY
Adjunct Associate Professor of Physics and Astronomy. M.S., 1977, Pniproptrovsk State University; Ph.D., 1981, Institute of Semiconductors, Acad. of SC.

TANG, LIANG

TANG, LIE
Associate Professor of Agricultural and Biosystems Engineering. B.S., 1989, Jiangsu; M.S., 1994, Zhejiang; Ph.D., 2002, Illinois.

TANK, KRISTINA
Assistant Professor of School of Education. Assistant Professor of Materials Science and Engineering. B.S., 2005, Michigan; M.ED., 2007, Ph.D., 2014, Minnesota.

TANNEHILL, JOHN C.

TAOUTEL, JEAN-PIERRE
Senior Lecturer in World Languages and Cultures. B.A., 1989, Saint Joseph (Lebanon); M.A., 1993, Sorbonne Nouvelle (France).

TARARA, JULIE M.

TARTAKOV, CARLIE C.
Emeritus Assistant Professor of School of Education. B.A., 1963, California State (San Francisco); M.A., 1973, Massachusetts; Ph.D., 1995, Iowa State.

TARTAKOV, GARY M.
TARTE, RODRIGO

TATARNIUK, DANE
Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2011, Saskatchewan; M.S., 2015, Minnesota.

TAVANAPONG, WALLAPAK
Professor of Computer Science. B.S., 1992, Thammasat (Thailand); M.S., 1995, Ph.D., 1999, Central Florida.

TAYLOR, GARY D.
Professor of Community and Regional Planning. Director of the Community and Economic Development Program and Design Extension. B.S., 1985, Northwest Missouri State; J.D., 1988, Nebraska; M.C.R.P., 1996, Iowa State.

TAYLOR, PETER
Research Associate Professor of Civil, Construction and Environmental Engineering. B.Sc., 1982, Ph.D., 1995, Cape Town.

TAYLOR, ROD K.
Adjunct Instructor in Military Science and Tactics.

TAYLOR, STERLING E.
Emeritus Professor of Agronomy. B.S., 1966, Utah State; Ph.D., 1970, Washington (St. Louis).

TCHAPRAZOV, STOYAN
Senior Lecturer in English. B.S., 1998, American (Bulgaria); Ph.D., 2009, Minnesota.

TEAS, ROY KENNETH

TEKESTE, MEHARI
Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1996, Asmara (Eritrea); M.S., 2000, Wageningen (The Netherlands); M.S., 2001, Wisconsin; Ph.D., 2006, Georgia.

TENER, JAMES R.

TERPENNY, JANIS

TESFATSION, LEIGH S.
Emeritus Professor of Economics; Emeritus Professor of Mathematics; Emeritus Professor of Electrical and Computer Engineering. B.A., 1968, Carleton; Ph.D., 1975, Minnesota.

TESHOME, YALEM
Adjunct Assistant Professor of World Languages and Cultures. B.A., 1985, Bennett College; M.A., 1994, North Carolina State; Ph.D., 2010, Iowa State.

TESSONNIER, JEAN-PHILIPPE

THACKER, TYLER C.
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1994, M.S., 1996, Ph.D., 2003, Brigham Young.

THANAWONGNUWECH, ROONGROJE

THIEL, PATRICIA ANN
Professor of Chemistry; Professor of Materials Science and Engineering; Distinguished Professor in Liberal Arts and Sciences. B.A., 1975, Macalester; Ph.D., 1980, California Institute of Technology.

THIELEN, THOMAS B.
Emeritus Associate Professor of School of Education. B.S., 1957, Mankato; M.S., 1964, Wyoming; Ed.D., 1970, Indiana.

THIPPESWAMY, THIMMASETTAPPA

THOGMARTIN, CLYDE O.

THOGMARTIN, WAYNE

THOMAS, JAMES A.

THOMAS, JERRY R.

THOMAS, REX ALLAN
Emeritus Professor of School of Education; Emeritus Professor of Computer Science. B.A., 1955, Iowa; M.A., 1961, Northern Iowa; Ph.D., 1970, Iowa State.

THOMSON, ELIZABETH A.
THOMPSON, GRANT

THOMPSON, JANETTE R.

THOMPSON, MICHAEL L.
Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.S., 1974, Illinois; Ph.D., 1980, Ohio State.

THOMPSON, NANCY LYNN

THOMS, ADAM
Assistant Professor of Horticulture. B.S., 2006, Iowa State; M.S., 2008, Ph.D., 2015, Tennessee.

THOMSON, JOHN ULAN

THORNBURG, ROBERT W.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, Tennessee; Ph.D., 1981, South Carolina.

THORNTON, ZOE
Clinical Assistant Professor of School of Education. B.A., 1998, Iowa; M.S., 2011, Drake; Ph.D., 2015, Iowa State.

THUO, MARTIN
Assistant Professor of Materials Science and Engineering. B.Ed (hons)/MS, 2002, Kenyatta (Kenya); M.S., 2004, Simon Fraser (Canada); Ph.D., 2008, Iowa.

TIAN, JIN
Associate Professor of Computer Science. B.S., 1992, Tsinghua (China); M.S., 1997, Ph.D., 2002, California (Los Angeles).

TIM, UDOYARA S.
Associate Professor of Agricultural and Biosystems Engineering. B.E., 1981, Ph.D., 1987, Concordia (Canada).

TIMMS, LEO LOUIS

TIPTON, CARL L.

TIRTHAPURA, SRIKANTA

TOLLEFSON, JON J.
Emeritus Professor of Entomology. B.A., 1967, Gustavus Adolphus; Ph.D., 1975, Iowa State.

TOMAN, BETTY
Emeritus Professor of Kinesiology. Distinguished Professor. B.S., 1948, Wisconsin; M.S., 1957, Iowa State.

TOMER, MARK D.
Affiliate Associate Professor of Natural Resource Ecology and Management; Affiliate Associate Professor of Geological and Atmospheric Sciences. B.S., 1981, Montana; M.S., 1986, Montana State; Ph.D., 1994, Minnesota.

TONEY, RICHARD J.

TOOMBS, JAMES PRITCHETT

TOOTLE, DEBORAH

TOPEL, DAVID GLEN
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition. B.S., 1960, Wisconsin; M.S., 1962, Kansas State; Ph.D., 1966, Michigan State.

TORREMORELL, MONTSEERRAT
Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1994, Autonomous (Spain); Ph.D., 1999, Minnesota.

TORRENCE, DAN
Adjunct Assistant Professor of Air Force Aerospace Studies. B.S., 2010, Upper Iowa; M.A., 2016, Webster.

TORRIE, MARGARET C.
Emeritus Associate Professor of Human Development and Family Studies; Emeritus Associate Professor of School of Education. B.S., 1969, M.Ed., 1971, Wayne State; Ed.D, 1976, Illinois.

TOOTH, AMY LYNN
Associate Professor of Ecology, Evolution and Organismal Biology; Associate Professor of Entomology. B.A., 2000, Bard College; Ph.D., 2006, Illinois.
TOULAN, DINA

TOWNSEND, ANTHONY M.

TRABUE, STEVEN
Affiliate Professor of Agricultural and Biosystems Engineering. B.S., 1985, Maryland; M.S., 1991, Ph.D., 1997, Florida.

TRAHANOVSKY, KATHLEEN
Emeritus Adjunct Associate Professor of Chemistry. B.A., 1960, Emmanuel; M.S., 1962, Ph.D., 1969, Iowa State.

TRAHANOVSKY, WALTER S.
Emeritus Professor of Chemistry. B.S., 1960, Franklin and Marshall; Ph.D., 1963, Massachusetts Institute of Technology.

TRAJCEVSKI, GOCE

TRAVESSET-CASAS, ALEJANDRO

TREDE, LARRY DEAN

TREMMEL, MICHELLE R.

TREMMEL, ROBERT A.

TRENKLE, JAMES C.
Adjunct Assistant Professor of Music and Theatre. B.F.A., 1979, Santa Fe; M.F.A., 1982, Ohio.

TRENKLE, ALLEN H.
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1956, Nebraska; M.S., 1958, Ph.D., 1960, Iowa State.

TRIGIDES, MICHAEL

TRIVEDI, ROHIT K.

TROEH, FREDERICK R.

TRULIN, DARRYL JON
Emeritus Associate Professor of Aerospace Engineering. B.S., 1961, Iowa State; M.S., 1963, Oklahoma State; Ph.D., 1968, Iowa State.

TSAI, CHIN-HSUN
Assistant Professor of Apparel, Events and Hospitality Management. B.S., 2003, Iowa State; M.S., 2006, Texas Tech; Ph.D., 2013, Texas Tech.

TSAI, YU-MIN

TSOU, JONATHAN Y.
Associate Professor of Philosophy and Religious Studies. B.A., 2000, Simon Fraser (Canada); M.A., 2001, Western Ontario (Canada); Ph.D., 2008, Chicago.

TUCHIN, KIRILL

TUCKNESS, ALEX
Professor of Political Science; Professor of Philosophy and Religious Studies. A.B., 1994, Chicago; M.Phil., 1995, Cambridge; Ph.D., 1999, Princeton.

TUGGLE, CHRIS K.

TURNER, TRACY
Associate Professor of Finance. B.A., 1990, California State (Sacramento); M.A., 1994, Colorado State; Ph.D., 2000, California (Davis).

TUTEJA, GEETU

TUTTLE, GARY L.
Associate Professor of Electrical and Computer Engineering. B.S., 1983, M.S., 1985, Iowa State; Ph.D., 1991, California (Santa Barbara).

TYAGI, AKHILESH

TYE-WILLIAMS, STACY ANN
TYLER, HOWARD DAVID

TYLKA, GREGORY L.
Professor of Plant Pathology and Microbiology. B.S., 1983, M.S., 1985, California (Pennsylvania); Ph.D., 1990, Georgia.

TYNDALL, JOHN CHARLES

U
UEMURA, ETSURO

UHLENHOPP, ELDON KARL
Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine; Emeritus Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1972, M.S., 1986, Iowa State.

ULMER, JACQUELYN REES
Professor of Supply Chain and Information Systems; Associate Dean of the College of Business. BSBA, 1992, Ph.D., 1998, Florida.

ULRICHSON, DEAN
Emeritus Professor of Chemical and Biological Engineering. B.S., 1962, Nebraska; M.S., 1963, Illinois; Ph.D., 1970, Iowa State.

UNDERBAKKE, ERIC
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 2001, Iowa State; Ph.D., 2008, Wisconsin.

UNDERHILL, WILLIAM R.

URBATSCH, ROBERT B.
Associate Professor of Political Science. B.S., 2000, Iowa State; Ph.D., 2006, Harvard.

URE, CHERI J.

V
VAIDYA, UMESH

VAKNIN, DAVID

VALENCIA, GERMAN
Emeritus Professor of Physics and Astronomy. B.S., 1983, University De Los Andes; M.S., 1985, Ph.D., 1988, Massachusetts.

VALENTINE, OLIVIA

VALENTINE, RUDY J.
Assistant Professor of Kinesiology. Assistant Professor of Food Science and Human Nutrition. B.S., 2003, Illinois; M.S., 2005, James Madison; Ph.D., 2010, Illinois.

VALENZUELA-CASTRO, MARIA N.

VALLIER, JANE E.

VAN GORP, DEBRA
Clinical Assistant Professor of School of Education; B.S., 1977, M.S., 1980, Ph.D., 1993, Iowa State.

VAN LEEUWEN, JOHANNES
Emeritus Professor of Civil, Construction and Environmental Engineering; Emeritus Professor of Agricultural and Biosystems Engineering; Emeritus Professor of Food Science and Human Nutrition. B.E., 1975, M.E., 1979, DENG, 1988, Pretoria (South Africa).

VAN METER, KARIN
Lecturer in Biomedical Sciences. Ph.D., 1978, Paris-Lodron University, Salzburg (Austria).

VAN VERTLOO, LAURA R.
Assistant Professor of Veterinary Clinical Sciences. B.A., 2006, Luther College; D.V.M., 2010, Iowa State; M.S., 2015, Purdue.

VANAST, JOHN
Emeritus Professor of School of Education. B.S., 1967, M.S., 1970, Western Michigan; Ph.D., 1976, Minnesota.

VANAUKEN, HOWARD E.
Professor of Management; University Professor. B.S., 1972, M.B.A., 1974, Ph.D., 1980, Oklahoma.

VANCE, JUDY MARIE

VANDERVALK, ARNOLD
VANDERVEEN, RYAN
Affiliate Assistant Professor of Animal Science. B.S., 2004, South Dakota State; Ph.D., 2011, Iowa State.

VANDERZANDEN, ANN MARIE

VANDYK, JOHN K.

VANITEN, RICHARD J.

VANLOOCKE, ANDREW

VANN, ROBERTA

VANVELLER, BRETT
Assistant Professor of Chemistry. B.SC., 2006, McMaster (Canada); Ph.D., 2011, Massachusetts Institute of Technology.

VANWAARDHUIZEN, LAURA

VARDEMAN, STEPHEN B.
Professor of Statistics; Professor of Industrial and Manufacturing Systems Engineering; University Professor. B.S., 1971, M.S., 1973, Iowa State; Ph.D., 1975, Michigan State.

VARY, JAMES P.

VASWANI, NAMRATA
Professor of Electrical and Computer Engineering; Professor of Mathematics. B.Tech., 1999, Indian Institute of Technology (India); Ph.D., 2004, Maryland.

VAUGHN, ERIC MARTIN
Affiliate Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1986, M.S., 1990, Ph.D., 1994, Iowa State.

VAZOU, SPYRIDOULA
Associate Professor of Kinesiology. B.S., 1997, M.S., 2001, Athens (Greece); Ph.D., 2005, Birmingham (UK).

VECE, GRIT

VEGA-GARCIA, SUSAN A.

VELA-BECERRA, JAVIER
Associate Professor of Chemistry. B.Sc., 2001, National Autonomous (Mexico); M.Sc., 2003, Ph.D., 2005, Rochester.

VELASCO-LOPEZ, MIGUEL
Lecturer in Supply Chain and Information Systems. B.A., 1996, Universidad de Duesto (Spain); M.S., 2007, Loyola (Chicago); Ph.D., 2016, Minnesota.

VENDITTI, VINCENZO

VENGRIN, COURTNEY
Adjunct Assistant Professor of Veterinary Clinical Sciences. B.S., 2006, Radford; M.S., 2009, Ph.D., 2015, Virginia Tech.

VENKATA, SUBRAHMANYAM
Emeritus Professor of Electrical and Computer Engineering. B.S., 1963, Andhra (India); M.S., 1966, Indian Institute of Technology; Ph.D., 1971, South Carolina.

VENKATAGIRI, HORABAIL

VERGARA-LOPES-SERAQ, NICOLAS
Assistant Professor of Animal Science. B.Sc., 2007, Federal University of Vicosa (Brazil); M.Sc., 2009, Federal University of Vicosa (Brazil); Ph.D., 2012, Illinois.

VERHOEVEN, DAVID
Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1997, Ph.D., 2006, California (Davis).

VERHOEVEN, JOHN

VERMA, SAURABH

VESSONI-DE-LENCE, MARTA A.

VIALL, AUSTIN
VIATORI, MAXIMILIAN S. III
Associate Professor of World Languages and Cultures. B.A., 1999, Missouri; M.A., 2000, Ph.D., 2005, California (Davis).

VIGIL, DENNIS R.
Professor of Chemical and Biological Engineering. B.S., 1985, New Mexico; M.S., 1986, Ph.D., 1990, Michigan.

VINCENT, AMY LOUISE

VLECK, CAROL M.

VOGEL, DAVID L.

VOGEL, JERALD MILO

VOGEL, PATRICK

VOLKER, CAROL B.
Emeritus Associate Professor of Human Development and Family Studies. B.S., 1956, M.S., 1979, Ph.D., 1985, Iowa State.

VOLLBRECHT, ERIK WARREN
Professor of Genetics, Development and Cell Biology. B.A., 1985, Ph.D., 1997, California (Berkeley).

VONDERA, CARL FRANK
Emeritus Professor of Geological and Atmospheric Science; Distinguished Professor in Liberal Arts and Sciences. B.S., 1956, M.S., 1958, Ph.D., 1963, Nebraska.

VONERABOW, RICHARD H.

VORHEES, BRENT

VORST, KEITH
Associate Professor of Food Science and Human Nutrition. B.S., 1997, Purdue; M.S., 2002, Ph.D., 2005, Michigan State.

VOYDAS, DANIEL F.

VRCHOTA, DENISE ANN

VRENTAS, CATHERINE E.
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 2003, Pennsylvania State; Ph.D., 2008, Wisconsin.

W
WACKER, JOHN
Emeritus Professor of Supply Chain and Information Systems. Ph.D., 1975, Wayne State.

WADE, NATHANIEL G.

WAGGONER, DAVID W.

WAGGONER, KATHLEEN M.
Adjunct Associate Professor of Political Science. B.S., 1975, Wisconsin (Lacrosse); M.S., 1978, Ph.D., 1983, Iowa State; J.D., 1987, Drake.

WAGNER, MIMI MARIE

WALD, DARA

WALDEMER, THOMAS PAUL

WALLACE, ROBERT S.

WALLEY, JUSTIN W.
Assistant Professor of Plant Pathology and Microbiology. B.S., 2001, Mount Union (Ohio); M.S., 2005, Miami (Ohio); Ph.D., 2009, California (Davis).

WALSH, PATRICIA

WALSH, THOMAS E.
WALTER, CLYDE K. JR.

WALTON, AMY

WALTON, BARBARA JOYCE

WALTON, MARLEE A.

WALTON, REBECCA
Clinical Assistant Professor of Veterinary Clinical Sciences. B.S., 2007, California Polytechnic State; D.V.M., 2012, Western.

WANAMAKER, ALAN DAVID JR.

WANG, CHONG
Associate Professor of Veterinary Diagnostic and Production Animal Medicine; Associate Professor of Statistics. B.S., 2001, Peking (China); Ph.D., 2006, Cornell.

WANG, JING
Professor of Physics and Astronomy. B.S., 2000, Jilin (China); Ph.D., 2006, Rice.

WANG, KAN
Professor of Agronomy. B.S., 1982, Fudan (China); Ph.D., 1987, Ghent (Belgium).

WANG, KEJIN
Professor of Civil, Construction and Environmental Engineering. B.S., 1982, Hefei (China); M.S., 1985, Chinese Academy of Sciences (China); Ph.D., 1994, California (Berkeley).

WANG, QIAN
Associate Professor of Accounting. B.S., 2000, M.A., 2004, Wuhan (China); Ph.D., 2009, Kansas.

WANG, QUN
Adjunct Assistant Professor in Chemical and Biological Engineering; B.S., 2000, Zhejiang University of Technology (China); M.S., 2004, Ph.D., 2007, Wuhan (China); Ph.D., 2010, Kansas.

WANG, TAO

WANG, TONG
Professor of Food Science and Human Nutrition. B.S., 1985, M.S., 1988, Shenyang College of Pharmacy (China); M.S., 1992, Arkansas; Ph.D., 1998, Iowa State.

WANG, XIAOLU
Associate Professor of Finance. B.S., 1998, Fudan (China); M.Phil., 2000, Bergen (Norway); Ph.D., 2010, Toronto (Canada).

WANG, XINWEI
Professor of Mechanical Engineering. B.S., 1994, M.S., 1996, Science and Technology (China); Ph.D., 2001, Purdue.

WANG, XUEFENG
Assistant Professor of Physics and Astronomy. B.S., 2004, M.S., 2004, Tsinghua (China); Ph.D., 2009, Purdue.

WANG, YU
Assistant Professor of Political Science. B.S., 2005, M.S., 2008, Shanghai Jiao Tong (China); Ph.D., 2014, Georgia Institute of Technology.

WANG, ZHAOYU
Assistant Professor of Electrical and Computer Engineering. B.E., 2009, M.Sc., 2011, Shanghai Jiao Tong; M.Sc., 2012, Georgia Institute of Technology.

WANG, ZHENGDAO

WANGERIN, VIRGINIA
Clinical Assistant Professor of Food Science and Human Nutrition. B.G.S., 1980, M.S.N., 1992, Drake; Ph.D., 2015, Iowa State.

WANNEMUEHLER, MICHAEL
Professor of Veterinary Microbiology and Preventive Medicine and Chair of the Department. B.S., 1974, Purdue; M.S., 1980, Idaho State; Ph.D., 1981, Louisville.

WANYAMA-MASINDE, DOROTHY M.

WARD, IRA J.
Emeritus Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1950, U.S. Military Academy; M.S., 1955, Iowa State.
WARD, JESSICA  
Assistant Professor of Veterinary Clinical Sciences. B.S., 2005, Duke; D.V.M., 2011, North Carolina State.

WARD, THOMAS  
Associate Professor of Aerospace Engineering. B.S., 1998, Missouri (Rolla); M.S., 2000, Stanford; Ph.D., 2003, California (Santa Barbara).

WARE, WENDY ADAMS  
Professor of Veterinary Clinical Sciences; Professor of Biomedical Sciences. B.Mus., 1975, Westminster Choir College; D.V.M., 1982, M.S., 1986, Ohio State.

WARME, LOIS J. N.  
Emeritus Associate Professor of Art and Design. B.S., 1968, M.A., 1972, Iowa State.

WARREN, RICHARD D.  
Emeritus Professor of School of Education; Distinguished Professor in Education. B.S., 1952, M.S., 1960, Ph.D., 1965, Iowa State.

WATANABE, OLENA  

WATERS, W. RAY  
Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1985, D.V.M., 1988, Auburn; Ph.D., 1996, Iowa State.

WEBER, ERIC  

WEBER, MICHAEL JOHN  

WEBER, ROBERT J.  

WEBER-FEVE, STACEY  

WEEMS, CARL  

WEERASINGHE, ANANDA  
Professor of Mathematics. B.S., 1979, Colombo; Ph.D., 1986, Minnesota.

WEESNER, TIMOTHY D.  

WEI, MEIFEN  
Professor of Psychology. B.A., 1983, Soochow (Taiwan); M.A., 1985, Tunghai (Taiwan); M.A., 1998, Ph.D., 2000, Missouri.

WEI, PENG  
Assistant Professor of Aerospace Engineering. Assistant Professor of Electrical and Computer Engineering. B.E., 2007, Tsinghua (China); M.S., 2009, Stony Brook; Ph.D., 2013, Purdue.

WEINSTEIN, AMANDA  

WEISS, DAVID  
Emeritus Professor of Computer Science. B.S., 1964, Union College; M.S., 1974, Ph.D., 1981, Maryland.

WELK, GREGORY  

WELLS, BETTY LYNN  

WELLS, GARY L.  
Professor of Psychology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Kansas State; Ph.D., 1977, Ohio State.

WEN, ZHIYOU  
Professor of Food Science and Human Nutrition; Associate Professor of Agricultural and Biosystems Engineering. B.S., 1994, M.S., 1997, East China; Ph.D., 2001, Hong Kong.

WENDEL, JONATHAN F.  

WENDELL, DENNIS C.  

WENINGER, QUINN R. A.  
Professor of Economics. B.Sc., 1989, Alberta (Canada); Ph.D., 1995, Maryland.

WERBEL, JAMES D.  

WERSTEIN, KIRA M.  
WESTERMAN-BEATTY, JAN

WESTGATE, MARK E.

WESTORT, CAROLINE

WETSTEIN, MATTHEW J.
Assistant Professor of Physics and Astronomy. B.S., 2001, Rutgers; Ph.D., 2009, Maryland.

WHEELER, ANDREA
Emeritus Professor of Chemical and Biological Engineering; University Professor. B.S., 1949, Ph.D., 1958, Iowa State.

WHIGHAM, DAVID KEITH

WHISNANT, KERRY LEWIS
Emeritus Professor of Physics and Astronomy. B.S., 1986, Missouri (Rolla); Ph.D., 1992, Wisconsin.

WHITAKER, FAYE P.

WHITE, BERNARD J.
Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; University Professor. B.S., 1958, Portland; M.A., 1961, Ph.D., 1963, Oregon.

WHITE, CASEY

WHITE, DAVID J.

WHITE, GARY C.

WHITE, PAMELA JUNE
Emeritus Professor of Food Science and Human Nutrition; University Professor; Emeritus Dean of the College of Human Sciences. B.S., 1972, M.S., 1974, Washington; Ph.D., 1981, Iowa State.

WHITE, WENDY S.

WHITEFORD, MICHAEL B.
Emeritus Professor of World Languages and Cultures; Emeritus Dean of the College of Liberal Arts and Sciences. B.A., 1967, Beloit; M.A., 1970, Ph.D., 1972, California (Berkeley).

WHITEHEAD, ROBERT
Associate Professor of Architecture. B.Arch., 1993, Iowa State; M.Arch., 1997, Texas.

WHITHAM, STEVEN ALAN
Professor of Plant Pathology and Microbiology. B.S., 1990, Iowa State; M.S., 1992, Ph.D., 1995, California (Berkeley).

WHITMER, JOHN M. JR.
Emeritus Associate Professor of Political Science. B.A., 1957, Wisconsin; M.A., 1959, Iowa; M.S., 1975, Ph.D., 1979, Iowa State.

WICKERT, JONATHAN ADAM
Professor of Mechanical Engineering; Senior Vice President and Provost. B.S., 1985, M.S., 1987, Ph.D., 1989, California (Berkeley).

WICKHAM, MARY JEAN
Adjunct Associate Professor of Aerospace Engineering; Associate Dean of the College of Engineering. B.S., 1980, M.S., 1981, Iowa State; Ph.D., 1992, Minnesota.

WIDNER, TARA
Lecturer in Psychology. B.S., 2002, Wisconsin (River Falls); M.S., 2006, Oklahoma State.

WIDRLECHNER, MARK P.

WIE, BONG

WIECZOREK, DOUGLAS
Assistant Professor of School of Education. B.A., 1996, New York (Geneseo); M.S., 2000, D’Youville; Ph.D., 2014, Syracuse.

WIEDENHOEFF, MARY H.

WIERSEMA, JANICE A.
WITTON, MICHAEL

WILDER, DAVID R.

WILEY, CAITLIN

WILGENBUSCH, ERIN E.

WILHELM, JULIE A.

WILKINS, GRACE M.

WILSEY, AURIEL
Assistant Professor of Food Science and Human Nutrition. B.A., 2002, Oberlin; M.S., 2006, Ph.D., 2010, Wisconsin.

WILSON, ALYSON

WILSON, COURTNEY

WILSON, DAVID BALL
Emeritus Professor of History; Emeritus Professor of Philosophy and Religious Studies. B.A., 1963, Wabash; Ph.D., 1968, Johns Hopkins.

WILSON, DOYLE EDWARD

WILSON, LESTER A.
Emeritus Professor of Food Science and Human Nutrition. B.A., 1969, M.S., 1971, Oregon State; Ph.D., 1975, California (Davis).

WILWERDING, DAVID

WINDUS, THERESA L.
Professor of Chemistry. Distinguished Professor in Liberal Arts and Sciences. B.S., 1988, Minot State; Ph.D., 1993, Iowa State.

WINER, ELIOT H.
Associate Professor of Mechanical Engineering; Associate Professor of Electrical and Computer Engineering. B.S., 1992, Ohio State; M.S., 1994, Ph.D., 1999, New York (Buffalo).

WINFREY, KELLY

WINHAM, DONNA
Assistant Professor of Food Science and Human Nutrition. B.S., Keene State; M.A., Arizona; Ph.D., California (Los Angeles).

WINSOR, DOROTHY A.
WINTER, ARTHUR
Associate Professor of Chemistry. B.S., 2002, Frostburg State; Ph.D., 2007, Maryland.

WINTERS, JOHN

WINTERSTEEN, WENDY
Professor of Entomology; President of the University. B.S., 1978, Kansas State; Ph.D., 1988, Iowa State.

WIPF, TERRY J.
Professor of Civil, Construction and Environmental Engineering. B.S., 1974, M.S., 1979, Ph.D., 1983, Nebraska.

WISE, ROGER P.
Affiliate Professor of Plant Pathology and Microbiology. B.S., 1976, Ph.D., 1983, Michigan State.

WISNER, ROBERT NEWELL

WITHERS, JAMES H.
Affiliate Assistant Professor of Agricultural and Biosystems Engineering. B.A., 1984, Luther; M.S., 1989, Iowa; Ph.D., 2011, Iowa State.

WITHERS, JEREMY

WITHERSPOON, BRENDA L.

WITZLING, LAURA
Assistant Professor of Greenlee School of Journalism and Communication. B.S., 2005, Wisconsin; M.S., 2009, Illinois; Ph.D., 2018, Wisconsin.

WO, XUHUI

WOHL, SHARON
Assistant Professor of Architecture. B.E.S., 1988, M. Arch., 1995, Manitoba.

WOHLGEMUTH, DARIN R.

WOHLDORF-ARENDT, SUSAN
Professor of Apparel, Events and Hospitality Management. Professor of Food Science and Human Nutrition. B.S., 1988, Iowa State; M.S., 1991, Rush; Ph.D., 2004, Iowa State.

WOHN, FRED KRAMER

WOLC, ANNA
Adjunct Assistant Professor of Animal Science. B.Sc., 2003, Poznan University of Life Sciences (Poland); M.Sc., 2005, Adam Mickiewicz University of Poznan (Poland); Ph.D., 2006, Poznan University of Life Sciences (Poland).

WOLF, JOHN WILLIAM CLARK

WOLFF, NORMA H.
Emeritus Associate Professor of World Languages and Cultures. B.S., 1955, Butler; M.A., 1965, Michigan State; Ph.D., 1985, Indiana.

WOLFORD, DONALD J., JR.

WOLT, JEFFREY D.

WOLTER, PETER T.
Associate Professor of Natural Resource Ecology and Management. B.S., 1985, Wisconsin (Stevens Point); M.S., 1990, New Hampshire; Ph.D., 2009, Wisconsin.

WOLTERS, TIMOTHY S.

WONG, DAVID MICHAEL

WONG, JOHN KONG-FAH

WONG, JOHNNY S.

WOOLEY, LEE KEITH
Professor of Chemistry. B.S., 1977, Harvey Mudd; Ph.D., 1984, Stanford.

WOOD, CYNTHIA
Affiliate Associate Professor of Animal Science. B.S., 1979, Florida; M.S., 1982, Mississippi State; Ph.D., 1986, Iowa State.

WOOD, SHIRLEY JEAN
Emeritus Associate Professor of Kinesiology. B.S., 1957, M.S., 1959, Indiana; Ph.D., 1971, Illinois.
WOODMAN, WILLIAM F.
Emeritus Professor of Sociology; University Professor. B.S., 1968, M.A., 1970, West Texas; Ph.D., 1972, Oklahoma State.

WOODS, BARBARA A.

WOOL, GREGORY J.

WORK, GEORGE PAUL

WOTEKI, CATHERINE E.
Professor of Food Science and Human Nutrition. B.S., 1969, Mary Washington College; M.S., 1972, Virginia Polytechnic; Ph.D., 1975, Virginia Polytechnic.

WRAY, PAUL H.

WRIGHT, JAMES O.

WRIGHT, MARK

WRIGHT, MICHAEL

WU, HUAIQING
Associate Professor of Statistics. B.S., 1988, M.S., 1991, Beijing (China); Ph.D., 1997, Michigan.

WU, XIAOQING
Professor of Geological and Atmospheric Sciences. B.S., 1983, Hanzhou (China); M.S., 1986, Chinese Academia Sinica; Ph.D., 1992, California (Los Angeles).

WU, YUE
Associate Professor of Chemical and Biological Engineering. B.S., 2001, Science and Technology of China; Ph.D., 2006, Harvard.

WU, ZHIJUN

WURTELE, EVE S.
Professor of Genetics, Development and Cell Biology. B.S., 1971, California (Santa Cruz); Ph.D., 1980, California (Los Angeles).

X

XIANG, CHUNHUI
Assistant Professor of Apparel, Events and Hospitality Management. B.Sc., 2000, Beijing Institute of Clothing Tech; M.S., 2006, Ph.D., 2009, Cornell.

XIN, HONGWEI
Professor of Agricultural and Biosystems Engineering; Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. Assistant Dean of the College of Agriculture and Life Sciences. B.S., 1982, Shenyang Agricultural; M.S., 1985, Ph.D., 1989, Nebraska.

XIONG, LIMING
Assistant Professor of Aerospace Engineering. B.S., 2001, Dalian University of Technology (China); M.S., 2004, Huazhong Science and Technology (China); M.S., 2006, George Washington; Ph.D., 2011, Florida.

XU, WEIDONG
Research Assistant Professor of Biomedical Sciences. B.Sc., 1987, M.Sc., 1990, China Agricultural; Ph.D., 1997, Washington State.

Y

YAEGER, MICHAEL J.
Professor of Veterinary Pathology. B.S., 1980, St. John's (Minnesota); D.V.M., 1984, Minnesota; Ph.D., 1991, Michigan State.

YAGER, SUSAN F.

YAN, JUE

YANG, BING

YANG, XIAO-BING
Professor of Plant Pathology and Microbiology. B.A., 1982, M.S., 1985, China Agricultural; Ph.D., 1989, Louisiana State.

YARGER, DOUGLAS N.
Emeritus Professor of Geological and Atmospheric Sciences; Emeritus Professor of Agronomy. B.S., 1959, Iowa State; M.S., 1962, Ph.D., 1967, Arizona.

YATES, STANLEY MARTIN

YEARNS, MARY HOLT
YEUNG, EDWARD S.
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. A.B., 1968, Cornell; Ph.D., 1972, California (Berkeley).

YIN, YANHAI
Professor of Genetics, Development and Cell Biology and Chair of the Department. B.S., 1985, Sichuan; Ph.D., 1997, Scripps Research Institute.

YODER, CHAD

YOON, KYOUNG-JIN
Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1985, M.S., 1987, Korea; Ph.D., 1995, Iowa State.

YOST, BAMBI L.

YOUNG, BING-LIN
Emeritus Professor of Physics and Astronomy. B.S., 1959, National Taiwan; Ph.D., 1966, Minnesota.

YOUNG, DONALD F.
Emeritus Professor of Aerospace Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1951, M.S., 1952, Ph.D., 1956, Iowa State.

YOUNG, JERRY W.

YOUNG, MICHAEL

YOUNQUIST, GORDON R.
Emeritus Professor of Chemical and Biological Engineering. B.S., 1958, Minnesota; M.S., 1960, Ph.D., 1962, Illinois.

YOUNGS, CURTIS R.

YU, CHENXU
Associate Professor of Agricultural and Biosystems Engineering. Associate Professor of Food Science and Human Nutrition. B.S., 1993, Nanjing (China); M.S., 1998, Dalian (China); Ph.D., 2003, Wisconsin.

YU, CINDY LONG
Associate Professor of Statistics. B.S., 1995, Sichuan (China); M.S., 2000, Minnesota; Ph.D., 2005, Cornell.

YU, JIANMING
Professor of Agronomy. B.S., 1994, Northwestern Agriculture and Forestry (China); M.S., 2000, Kansas State; Ph.D., 2003, Minnesota.

YUAN, LINGYAO
Assistant Professor of Supply Chain and Information Systems. B.S., 2009, International Business and Economics (China); M.S., 2011, North Carolina (Charlotte); Ph.D., 2015, Indiana.

Z

ZABOTINA, OLGA
Associate Professor of Biochemistry, Biophysics and Molecular Biology. M.S., 1982, Kazan State (Russia); Ph.D., 1987, Kazan Institute of Biology (Russia).

ZACHARY, LOREN W.

ZACHOVAL, FILIP
Lecturer of World Languages and Cultures. Magistr, 2003, Charles (Prague); Ph.D., 2011, Texas.

ZAFFARANO, BIANCA A.
Clinical Associate Professor of Veterinary Clinical Sciences. BSN, 1979, Iowa; D.V.M., 1986, Iowa State.

ZAIFKINA, YULIA
Assistant Professor of Chemistry. B.S., 2005, Moscow State; M.S., 2005, Moscow State; Ph.D., 2008, Moscow State.

ZALENSNY, RONALD JR.
Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1999, Minnesota; Ph.D., 2003, Iowa State.

ZAMBRENO, JOSEPH

ZARECHNY, OLEK

ZARECORN, KIMBERLY ELMAN

ZARING, PHILIP BREWER

ZARLING, AMIE

ZDORKOWSKI, GRETCHEN ANNE

ZEIGLER, LYNN JAY
ZELLNER, ERIC M.

ZHANG, HONGWEI
Associate Professor of Electrical and Computer Engineering. B.S., 1997, Chongqing (China); M.S., Chongqing (China); Ph.D., 2006, Ohio State.

ZHANG, JIANQIANG
Associate Professor of Veterinary Diagnostic and Production Animal Medicine. M.D., 1996, Beijing Medical University; M.S., 1999, Institute of Virology (Beijing); Ph.D., 2005, Kentucky.

ZHANG, LING
Assistant Professor of Apparel, Events and Hospitality Management. B.A., 2003, Beijing Institute of Fashion Technology; M. FCS., 2008, Ph.D., 2016, Iowa State.

ZHANG, QIJING
Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine.Associate Dean of the College of Veterinary Medicine. D.V.M., 1983, Shandong Agricultural (China); M.S., 1986, National Control Institute of Veterinary; Ph.D., 1994, Iowa State.

ZHANG, SHENGLAN

ZHANG, SUNING
Assistant Professor of Accounting. B.S., East China Normal; M.B.A., The Ohio State; Ph.D., 2007, Minnesota.

ZHANG, WEI

ZHANG, WENDONG
Assistant Professor of Economics. B.S., 2009, Fudan (China); M.A., 2012, Ph.D., 2015, The Ohio State.

ZHANG, WENLI
Assistant Professor of Supply Chain and Information Systems. B.S., 2007, Sichuan Normal (China); M.S., 2013, University of Electronic Science and Technology (China).

ZHANG, WENSHENG
Associate Professor of Computer Science. B.S., 1997, Tongji (China); M.S., 2000, Chinese Academy of Science; Ph.D., 2005, Pennsylvania State.

ZHANG, ZHAO
Affiliate Associate Professor of Electrical and Computer Engineering. B.S., 1991, M.S., 1994, Huazhong (China); Ph.D., 2002, William and Mary.

ZHANG, ZHU
Associate Professor of Supply Chain and Information Systems. B.E., 1996, Tongji (China); M.S., 1999, Fudan (China); Ph.D., 2005, Michigan.

ZHAO, YAN
Professor of Chemistry. B.S., 1992, Lanzhou (China); Ph.D., 1996, Northwestern.

ZHENG, JUNXING
Assistant Professor of Civil, Construction and Environmental Engineering. B.S., 2009, Tongji (China); M.S., 2012, Tongji (China); Ph.D., 2017, Michigan.

ZHENG, MAI
Assistant Professor of Electrical and Computer Engineering. B.S., 2006, Qingdao (China); M.S., 2009, University of Science and Technology of China; M.S., 2015, Ph.D., 2015, Ohio State.

ZHENG, TIANSHU

ZOU, LIN
Adjunct Assistant Professor of Materials Science and Engineering. B.S., 2001, Central South University, Changsha; Ph.D., 2006, Arizona State.

ZHU, DAN
Professor of Supply Chain and Information Systems; Professor of Computer Science. B.E., 1985, Beijing Polytech; M.S., 1988, Academia Sinica (China); Ph.D., 1995, Carnegie-Mellon.

ZHU, ZHENGYUAN
Professor of Statistics. B.S., 1997, Fudan (China); Ph.D., 2002, Chicago.

ZHYLEYEVSKYY, OLEKSANDR

ZIA, ROYCE K P
Affiliate Professor of Physics and Astronomy. A.B., 1964, Princeton; Ph.D., 1968, Massachusetts Institute of Technology.

ZIEGLER, LAURA

ZIMMERMAN, DAVID

ZIMMERMAN, EMILY
ZIMMERMAN, JEFFREY J.
Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1978, Nebraska (Omaha); D.V.M., 1984, M.S., 1986, Ph.D., 1990, Iowa State.

ZIMMERMAN, ZORA DEVRNJA

ZUNKEL, KAREN A.

ZYTOWSKI, DONALD G.
PLAN OF STUDY - SOAR IN 4

Four Year Graduation Guarantee
Iowa State University’s Soar in 4: Four-Year Graduation Guarantee provides the opportunity for students to take a proactive approach towards completing their undergraduate degree in four years (or eight semesters). Through careful planning with their academic advisers, students can complement their undergraduate degree with experiences such as study abroad, internship, and service learning. By graduating in four years, students can reduce their tuition costs and accelerate their entry into the job market or advanced education compared to students who take more than eight semesters to graduate. The program encourages students to work collaboratively with their academic adviser to make strategic academic decisions about which courses to take each semester.

Students wanting to graduate in four years under the Soar in 4: Four-Year Graduation Guarantee are expected to:

• Keep in close contact with their Iowa State academic adviser, who will guide students’ academic decisions and keep students up-to-date with university policies and procedures.
• Take required courses at the times they are available.
• Maintain student registration at ISU during off-campus experiences.
• Register for classes promptly and monitor academic progress on a regular basis by reviewing the degree audit and with their adviser.

Iowa State University will provide the academic advising services and degree-audit mechanisms to assist students in accurately monitoring progress toward graduation. ISU is also responsible for providing class space in the courses required for the student’s respective major in order to complete a bachelor’s degree within eight consecutive semesters.

Additional information about the Four-Year Graduation Guarantee can be found at:

http://www.provost.iastate.edu/academic-programs/soarin4

Four-year (eight-semester) templates for ISU programs of study
Iowa State University offers over 100 majors in six undergraduate colleges. All but two programs, architecture and landscape architecture, may be completed in four years. ISU’s bachelor degree programs require from 120 to 144 credits; therefore, students must average between 15 and 18 credits per semester. To assist students in creating their own personal four-year academic plans, eight-semester templates are provided for all programs of studies covered by the Soar in 4 program.

• Agricultural and Life Sciences Education, B.S - communications option
• Agricultural and Life Sciences Education, B.S - teacher certification option
• Agricultural Biochemistry, B.S. - option 1
• Agricultural Biochemistry, B.S. - option 2
• Agricultural Business, B.S.
• Agricultural Studies, B.S.
• Agricultural Systems Technology, B.S. - Agricultural and Biosystems Management option
• Agricultural Systems Technology, B.S. - Machine Systems option
• Agriculture and Society, B.S.
• Agronomy, B.S.
• Animal Ecology, B.S. - fisheries and aquatic sciences
• Animal Ecology, B.S. - interpretation of natural resources option
• Animal Ecology, B.S. - Pre-vet & wildlife care option
• Animal Ecology, B.S. - wildlife option
• Animal Science, B.S
• Animal Science, B.S. - pre-veterinary medicine
• Biology, B.S.
• Culinary Science, B.S.
• Dairy Science, B.S. - general
• Dairy Science, B.S. - pre-veterinary medicine option
• Diet and Exercise, B.S./M.S.
• Dietetics, B.S.
• Environmental Science, B.S.
• Food Science, B.S. - Food Science and Industry option
• Food Science, B.S. - Food Science and Technology option
• Forestry, B.S. - Forest Ecosystem Management option
• Genetics, B.S.
• Global Resource Systems, B.S.
• Horticulture, B.S. - Greenhouse Plant Production option
• Horticulture, B.S. - Horticulture Food Crop Production and Management option
• Horticulture, B.S. - Landscape Design, Installation, and Management
• Horticulture, B.S. - Public Horticulture option
• Horticulture, B.S. - Horticulture Research option
• Horticulture, B.S. - Turfgrass Management option
• Industrial Technology, B.S. - manufacturing option
• Industrial Technology, B.S. - occupational safety option
• Microbiology, B.S.
• Nutritional Science, B.S. - nutritional and wellness option
• Nutritional Science, B.S. - pre-health professional & research option
• Accounting, B.S.

**PREPROFESSIONAL STUDY**

Requirements for admission to most professional academic programs can be met by study at Iowa State University. These requirements may be met in the course of obtaining a bachelor’s degree from Iowa State or at a level below that of a degree, depending on the intended field of study. The specific courses taken in a preprofessional program will depend primarily upon the admission requirements of the professional schools to which a student wants to apply. In some programs requiring three years of preprofessional work, a student may, by careful planning, complete requirements for the bachelor’s degree upon transferring to Iowa State up to 32 semester credits of professional coursework. Generally these credits will be counted as electives, but a maximum of 24 may be used as major credits in interdisciplinary studies and a smaller number as major credits in appropriate departments.

Students who have not declared a major upon entry should enter as preprofessional students, i.e., premedical, prelaw, PHP (preprofessional health programs), or GENPV (General Undergraduate Studies Pre Vet), until they choose a major or transfer to a professional school. All students, whether they have selected a major or not, are encouraged to identify their interest in a professional career by designating it on their application.

Information about preprofessional program admissions requirements and career opportunities in human health or law may be obtained in the Liberal Arts and Sciences Advising Center. Information about veterinary medicine admissions requirements and career opportunities may be obtained from the coordinator of the prevetinary program in the Office of the Dean of the College of Veterinary Medicine.

**Clinical Laboratory Science/Medical Technology**

Clinical laboratory scientists, still commonly referred to as medical technologists, are important members of health-care teams. They perform the chemical, microscopic, radio-assay, and microbiological tests that are necessary in disease diagnosis, and they type and cross-match blood samples to facilitate blood transfusions. They usually work under the supervision of a physician in a hospital or clinic laboratory, but may also be employed by a pharmaceutical company or by manufacturers of analytical instruments. The professional training requires 12 months in a hospital-based CLS/MT program following at least 3 years of college study that emphasizes chemistry and the biological sciences. Students may earn a bachelor’s degree in specific ISU majors, by completing the admissions requirements of the CLS/MT program and most of the degree requirements in 3 years on campus, then spending their fourth year in one of the hospital programs that are affiliated with Iowa State University. Before beginning the off-campus studies, students must earn at least 88 credits; the 32 most recent credits must have been earned in residence at ISU. A maximum of 32 semester credits earned in pro-fessional CLS/MT school can be used to partially fulfill the requirements for the bachelor’s degree. Students who complete all degree requirements in residence at the university may apply to any school of medical technology for which the admission requirements have been met.

**Dentistry**

Dentists diagnose, treat, and try to prevent diseases and injuries of the teeth, jaws, and mouth. Usually a general practitioner will have spent 3 or 4 years taking preprofessional courses at the undergraduate level and 4 years in dental school earning the degree of doctor of dental surgery (D.D.S.) or doctor of dental medicine (D.M.D.). Learning a specialty requires at least 2 more years. The courses necessary for admission to most dental schools include English, biology, general and organic chemistry, and physics. Students may earn a degree in any major that Iowa State University offers as they meet the admission requirements; they should choose their major to reflect their own interests and abilities. Highly qualified students may be accepted into dental school after 3 years of preprofessional study without earning a baccalaureate degree.

**Health Information Management**

Health information managers serve as supervisors of medical records departments in hospitals, clinics, nursing homes, and other healthcare institutions. Certified registered record administrators (R.R.A.) must have completed a program leading to a bachelor’s degree in medical record administration. Most professional programs are 2 years in length and follow 2 years of college study in chemistry, biology, the humanities, social sciences, languages, and philosophy. Students may take the preprofessional courses at Iowa State University and then transfer to a university offering the professional program or they may earn a bachelor’s degree at Iowa State University before entering a health information management program.

**Hospital and Health Administration**

Administrators of health care organizations manage and guide the varied activities in hospitals, clinics, nursing homes, and mental health facilities. The professional requirement may be for a master’s degree or a bachelor’s degree, depending upon the size of the institution and whether an upper or middle entry-level position is desired. Students at Iowa State may take general education courses for two or more years and then transfer to a university offering a bachelor’s degree in health administration, or they may spend four years earning a bachelor’s degree in any department before entering a master’s degree program at the University of Iowa or other university. Courses required for admission to master’s degree programs in hospital and health administration vary, but may include introductory accounting, management, statistics, and economics.
Human Medicine

Physicians study, diagnoses, and treat illness and injury. They may work in offices, clinics, hospitals, or laboratories, in private practice or for government or industry. Their professional training usually consists of 4 years of study in a college of medicine to earn the doctor of medicine (M.D.) degree, and then 3 or more years in hospital residency learning a specialty such as family medicine, pediatrics, surgery, obstetrics, or psychiatry. A degree of doctor of osteopathy (D.O.) is awarded to those students who complete 4 years in a college of osteopathic medicine before their residency. All medical schools recommend a broad preprofessional education that includes courses in biology, chemistry, physics, mathematics, English, the social sciences, arts and humanities. The degree of a premedical student can be from any college and in any curriculum or major offered by the university. The major should reflect the student’s interests and provide appropriate preparation for an alternative career.

Law

An attorney offers assistance, often where a third-party neutral arbiter is required to resolve conflicts. Many attorneys work in private practice, but others secure positions in the public sector, e.g., federal or state governmental agencies. A minimum of three years from an American Bar Approved (ABA) law school is required to earn a Doctor of Jurisprudence (J.D) degree. A bachelor’s degree is required for admission to all accredited law schools. A student planning to enter law school may pursue an undergraduate degree in any discipline. The choice of the bachelor’s degree should reflect a student’s passion and personal interests and not be perceived as being the best degree to help them be admitted into law school. Appropriate courses should be completed that will enhance a student's development of critical thinking skills, including analytical written and oral skills. An understanding of business, social sciences, and humanities is necessary to comprehend the pluralistic society within and outside of the United States. These courses should include accounting, management, political science, psychology, criminal justice, economics, philosophy, English literature, and history. The completion of these courses will provide students with a knowledge base and skill sets that will assist them with their preparation for law school. Courses in mathematics and statistics are also helpful in developing analytical skills. Advanced writing courses and speech communication courses will also serve students well. The College of Liberal Arts and Sciences participates in a 3+3 program with the Law Schools at Drake University and at the University of Iowa. Visit the Liberal Arts and Sciences Student Academic Services office for details.

Library and Information Science

Librarians and information science specialists select, organize, preserve and promote information resources as well as advocate and teach information literacy skills. Professional opportunities include work for libraries in academic institutions, public education, city and county municipalities, medical facilities, government agencies, and corporate settings. They also have work opportunities in the publishing and information technology professions. Master’s degree programs in library and information science provide the professional preparation. Iowa State students may earn a bachelor’s degree in any department before entering a professional master's degree program. They may choose majors that reflect their interests and provide a foundation for working in the library and information science field.

Occupational Therapy

Occupational therapists provide purposeful activities to help those who have been disabled by physical illness or injury, birth defects, emotional disorder, aging, drug abuse, or other problems to learn to cope with everyday living. Therapists treat patients in hospitals, school systems, and rehabilitation centers. Students may complete a bachelor’s degree in any major at Iowa State University, and then enter a master’s or doctoral degree program at another university.

Optometry

Optometrists examine, diagnose, treat and manage diseases of the visual system, the eye and associated structures. Treatment may include corrective glasses or contacts, vision therapy and therapeutic drugs. Optometrists usually set up their own offices or work in group practice. Professional study requires 4 years in a school or college of optometry and leads to the doctor of optometry (O.D.) degree. All optometry schools require at least 90 semester credits of preprofessional courses, including biology, chemistry, physics, mathematics, and English. Certain optometry schools require a bachelor’s degree. Students wishing to earn the bachelor’s degree from Iowa State University may choose any major and take the courses required for graduation with that major as they take the courses required for admission to a professional optometry program.

Pharmacy

Pharmacists prepare and dispense therapeutic drugs; educate health care professionals, patients and the general public about the appropriate use of drugs; conduct pharmaceutical research and work in industrial settings which involve the manufacture, marketing and advertising of pharmaceutical. Students may complete prepharmacy courses at Iowa State University. Many schools do not require a bachelor’s degree for admission, however most students complete at least 3 years of college before admission to pharmacy schools. Upon admission, the student will then transfer to a Pharm. D. program of study which will entail four years of study.

Physical Therapy

Physical therapists work with people who have been disabled by injury, illness, or birth defects. They assist in evaluating the physical problems and administer therapeutic agents such as massage and exercise,
heat, baths, ultrasonics, and electricity; they work in hospitals, clinics, nursing homes, schools, rehabilitation centers, and private practice. Usually, students earn a bachelor’s degree at ISU before entering professional school to earn a doctoral degree. The bachelor’s degree from ISU may be earned in any department, provided that the physical therapy prerequisites are completed. Courses required for admission to a professional program include biology, chemistry, physics, psychology, mathematics, and statistics.

**Physician Assistant**

A physician assistant provides medical services under the supervision of a licensed physician. PAs conduct physical examinations, order and interpret laboratory tests, make diagnostic and treatment decisions, and are allowed to prescribe medication in most states. Certification as a physician assistant requires at least 2 years in a professional program at the master’s degree level. Applicants must have had health-care experience with direct patient contact experience. Students must have earned a bachelor’s degree before entering a PA program. The degree can be in any area but the student must complete the pre-requisite courses for the PA program. These usually include courses in biology, chemistry, psychology, and statistics.

**Podiatry**

Podiatrists diagnose, and treat diseases and disorders of the human foot and ankle. They treat patients in private and group practice, hospitals, and, increasingly, in industrial and sports-related positions. Professional training requires 4 years in a college of podiatric medicine and leads to the degree of doctor of podiatric medicine (D.P.M.). This is usually followed by 1 to 3 years in a hospital residency. All podiatric colleges require at least 3 years of preprofessional study, including courses in biology, general and organic chemistry, physics, and English. Most entrants have a bachelor’s degree, which may be in any major. A few students may complete the admission requirements and most of the bachelor’s degree requirements in 3 years. If so, a maximum of 32 semester credits may be transferred to Iowa State University from the first year in an accredited podiatric college in order to complete the requirements for the bachelor’s degree.

**Theology or Religious Studies**

The professional education of a student of religion can follow one of two paths. The path to a profession as a pastor, priest, rabbi or other leadership position in a religious tradition usually requires 3 years in a program leading to the master of divinity (M.Div.) offered at a school of divinity or of theology. The path to a profession as a teacher of religious studies at the college level requires 4-7 years in a program leading to the Ph.D. at a graduate school of Religious Studies. Both seminaries and graduate schools require a bachelor’s degree for admission. The American Association of Theological Schools recommends the following areas of study as the best preparation for theological studies:

English language and literature; history, including non-Western culture; philosophy; natural sciences, social sciences, especially psychology, sociology and anthropology; the fine arts; Biblical and modern languages; and religion, both Western and Eastern. Although students in a variety of major fields may qualify for admission to a theological school, interested persons are advised to review their proposed programs with a representative of the Religious Studies Program in the Department of Philosophy and Religious Studies.

**Veterinary Medicine**

About 75% of all veterinarians are engaged in private practice. In a mixed practice, they diagnose and treat health problems among a variety of animals. Others specialize in one species (e.g., feline, pet bird) and still others specialize in a specific discipline within veterinary medicine (e.g., cardiology, ophthalmology). Veterinarians may also choose public and corporate practice (e.g., public health, education, research, food safety, industry, laboratory animal medicine, aquatic animal medicine, poultry medicine, and military veterinary medicine).

The professional program requires four years at a college of veterinary medicine and leads to the doctor of veterinary medicine degree (D.V.M.). Admission to a veterinary college involves at least two years of preprofessional college education. Candidates must take courses in biology, chemistry, genetics, physics, English, humanities, social sciences, speech, anatomy and physiology, and biochemistry. (For Iowa State University see Veterinary Medicine, Admission Requirements; for most recent information, consult the College of Veterinary Medicine Web site: [www.vetmed.iastate.edu](http://www.vetmed.iastate.edu).)

Students may pursue their preveterinary preparation in any college at Iowa State University. A major (preveterinary medicine is not a major) should be selected that is allied to each student’s vocational interests in veterinary medicine or that otherwise offers vocational satisfaction in the event that plans for entry into the College of Veterinary Medicine change. Students are encouraged to pursue a bachelor’s degree; the most effective progress toward a bachelor’s degree is made when a major is selected upon entry and no change occurs before graduation. However, students who have not even considered a career other than veterinary medicine may need some time to explore possibilities before selection of a major.

To assist students who have indicated interest in the preveterinary program for the College of Veterinary Medicine and are undecided about a major, an advising category is available known as GENPV (General Undergraduate Studies Pre Vet). Orientation and advising services for these students are designed to help students fulfill preveterinary course requirements, to introduce available majors and careers allied to veterinary medicine, and to introduce career options in veterinary medicine. GENPV students must select a major by the end of their second semester. Some Iowa State University majors allow, by careful
planning, the opportunity for a student to earn the bachelor’s degree by combining credits from three years of preprofessional study and one year of professional study in the College of Veterinary Medicine.
PREVIOUS CATALOGS

Previous Catalogs
The Iowa State University Catalogs are accessible online for the years 1983/1985 through 2005/2007. Visit the Digital Repository to see these items at: http://lib.dr.iastate.edu/catalog/. Paper copies of the catalogs are available for viewing in the Special Collections Department.

Following is a list of previous catalogs.

2018-2019 (pdf) (html)
2017-2018 (pdf) (html)
2016-2017 (pdf) (html)
2015-2016 (pdf) (html)
2014-2015 (pdf) (html)
2013-2014 (pdf) (html)
2012-2013 (pdf) (html)
2011-2012 (pdf) (html)
2009-2011 (pdf)
2007-2009 (pdf)
2005-2007 (pdf)
2003-2005 (pdf)
2001-2003 (pdf)
1999-2001 (pdf)

About the Catalog
The Iowa State University Catalog is a one-year publication, which lists all academic policies, and procedures. Versions prior to 2011 were two-year publications and available in hard copy as well as online.

The catalog also includes information for fees; curriculum requirements; first-year courses of study for over 100 undergraduate majors; course descriptions for nearly 5000 undergraduate and graduate courses; and a listing of faculty members at Iowa State University.

New programs may be offered in the term (semester or summer session) following final approval by the Board of Regents, State of Iowa and any required accrediting bodies. New courses developed and offered since catalog publication are called experimental courses. A list can be found on the Web at www.registrar.iastate.edu/faculty-staff/courses/explistings.

Updates to the Catalog
The curriculum process is governed by the Faculty Senate. The ad hoc committee, Faculty Senate Curriculum Committee (http://www.facsen.iastate.edu/councils/academicaffairs/curriculum) considers new curricula proposals, changes and discontinuations to the catalog. Additional information may be in the college governance documents.

The curriculum approval process generally consists of a proposal from the department/program level, approved by the department/program curriculum committee (if applicable), college curriculum committee, and the dean. Additional approvals are needed from the Graduate College if the program proposal is a graduate program. The program proposal is submitted to the Faculty Senate Curriculum committee for review.

The Academic Affairs Committee reviews the proposal before passing it onto the Faculty Senate. The Board of Regents, State of Iowa approves all new programs and majors. For additional information about the approval process, see the link to Faculty Senate/Faculty Handbook Curriculum Approvals – Section 10.8. See the Office of the Provost (http://www.provost.iastate.edu) web site for more information.

Catalog updates are generally processed with approvals from department, college, and Faculty Senate Curriculum Committee (http://www.facsen.iastate.edu/councils/academicaffairs/curriculum) representatives. Editing begins in late February with course changes due to the Office of the Registrar by June 1. Curriculum and other general information is due to the Office of the Registrar by December 1. Publication is the following February.

See the catalog editing web site (http://www.registrar.iastate.edu/catalog-editing) for more details on how to make changes to the catalog.
Registration

Registration/Enrollment
In order to register for classes students must first accept their offer of admission by the university. Registration and the payment of assessed fees are required of all who attend classes. Enrollment is not complete until fees are paid, including room and board fees for those living in residence halls.

Registration is a process by which students become officially enrolled in classes for a given term. The process involves consultation between the student and the student's academic adviser. All undergraduate students are assigned an academic adviser based on their major/curriculum. A new adviser assignment is made when a student changes majors/curricula.

Students who attend classes must complete registration and pay their assessed fees. Registration is not complete until all fees are paid, including board and room fees for those living in residence halls.

Disabled students who need assistance with any phase of registration should contact the Student Disability Resources office.

Validating Enrollment
To validate their enrollment in each course at the beginning of the semester, students must attend the first or second meeting (first meeting if the class meets only once a week). Students who add a course after the term begins must attend the next class meeting. The instructor has the option to offer a registered place in the course to another student when a registered student fails to attend and has not obtained prior approval of the instructor. Students who do not validate their enrollment must drop the course or they will receive an F grade.

Enrollment Status
Enrollment status is defined for certification purposes as either full-time or half-time.

Full-time status, fall or spring semester
Undergraduates: 12 credits
Graduates: 9 credits

Three-quarters status, fall or spring semester
Undergraduates: 9 credits
Graduates: 7 credits

Half-time status, fall or spring semester
Undergraduates: 6 credits
Graduates: 5 credits

Summer status
Summer status depends on the number of weeks a student is enrolled. Always contact the Office of the Registrar to verify a student's status for a summer session.

With the exception of enrollment certification for veterans' benefits, credit hours are rounded up to the next whole number. For example, credit load of 11.5 credits is rounded up to 12 credits. Contact the Office of the Registrar for more information.

Registration Responsibilities
The registration process includes advising, enrollment in courses, and schedule changes. In addition to the student, this process may involve the student’s adviser; the student services staff of the student’s college; and the dean of the college. Each is responsible for knowing and following the academic policies and procedures.

Student
• knowing and adhering to university policies and procedures that apply to registration and schedule changes
• checking the accuracy of his/her schedule on AccessPlus, including schedule adjustments (i.e., adds, drops, section changes)
• knowing the degree requirements of his or her major and/or curriculum
• planning course schedules to meet those requirements; and
• monitoring the accuracy of the degree audit.

Adviser
• consulting with advisees during the advising/registration period
• providing information about student’s major and curriculum requirements
• providing guidance in the student’s course selection
• assisting in monitoring the degree audit for accuracy
• notifying the college student services office with corrections to the degree audit.

College Student Services Staff
• assisting new and reentering students with the registration process
• resolving unusual scheduling problems
• updating the degree audit or solving problems concerning the degree audit.

Dean
• making decisions with respect to requests for deviations from university policies, deadlines, etc.

Students and staff should check with the college office to find out who is authorized to grant approvals or exceptions on behalf of the dean.
Class Schedule Planner
The Class Schedule Planner is an application that allows students to plan their schedules using courses displayed in the Schedule of Classes. Students can select courses and/or sections they want to take for a particular term, as well as block out unavailable class days and times. Based on those selections, Class Schedule Planner can return all possible schedules to the student in a color coded grid format.

Though it is a Web-based application, the Class Schedule Planner does not require authentication (no user ID, PIN, or password). Therefore, it is essential that students understand this is a planner and as such, it does not register them in courses and cannot be used to complete their registration. The application requires that the user have Java on their computer. The first screen of the Planner provides information about how to use the planner and simple instructions for downloading the Java application. A useful Help link also has been provided. The Class Schedule Planner is available at http://classes.iastate.edu/planner.

Using AccessPlus Registration
Students enter the system via AccessPlus by using university ID and password. A registration access number (RAN) also is needed, if required by their college.

The registration system provides messages after each entry indicating whether each request has been processed. Students also may review their current schedules at any time during registration. Students are held accountable for all changes made to their schedules.

All students are encouraged to register for courses through the AccessPlus registration system. However, students who are unable to use the system may register in person by processing their signed Registration Worksheet in the Registrar’s Student Scheduling Office, 10 Enrollment Services Center.

Registration System Abuse
Using the AccessPlus registration system is a privilege, which may be revoked if abuse is detected. Abuse includes, but is not limited to, creating and using an automated program to search for course openings and/or enrolling in a section with the intent of reserving space in that particular section for another student. The Office of the Registrar, college office, and/or advisers have the right to determine abuse and revoke privileges for any type of registration system abuse.

Registration Process
To register for classes, students need the following materials and information:

- Registration Worksheet, available for download at www.registrar.iastate.edu/forms/ (http://www.registrar.iastate.edu/forms).
- A RAN (registration access number) if required by their college.
- Course information from the Online Schedule of Classes at http://classes.iastate.edu/.
- Other departmental information applicable to their curriculum, available from their adviser.

Students are expected to do the following in the advising and registration process:

1. Meet with their adviser, who will provide the following:
   a. degree audit
   b. guidance in course selection
   c. Registration Authorization form, with RAN, if applicable.

2. Choose specific sections of each course. Students are responsible for choosing their course sections. In most cases advisers will not be involved in selecting meeting times.

3. Review their registration start date/time information and any registration hold information on AccessPlus (https://accessplus.iastate.edu/frontdoor/login.jsp), under Current Information. Students in those colleges which require a four-digit registration access number (RAN) should meet with their adviser in advance of their start date, to obtain their Registration Authorization Card on which the RAN is printed.

4. Register for courses using the AccessPlus (https://accessplus.iastate.edu/frontdoor/login.jsp) registration system.

Making Schedule Changes
Students may make most schedule changes through the first five days of class using the AccessPlus (https://accessplus.iastate.edu/frontdoor/login.jsp) registration system.

Procedures for schedule changes vary by the time period of the semester. The effective date of a schedule change is the date when the change is entered into the registration system.

Schedule change periods for full term courses are as follows:

- **Period 1** ends on the fifth day of classes in the fall and spring semesters. Schedule changes during period 1 are free and do not require adviser signatures. Instructor or departmental approval may be required for adds or section changes for some courses during period 1. Course drops during this period do not count toward a student’s ISU course drop limit, and will not appear on a student’s permanent record. Schedule changes during period 1 may be processed through the AccessPlus registration system or by presenting a Schedule Change form to the Registrar’s Student Scheduling Office, 10 Enrollment Services Center.

- **Period 2** ends the Friday of week 10 in the fall and spring semesters. During this period, schedule changes require signatures of adviser and
instructor and are processed on a Schedule Change form. A schedule change fee is assessed for adds, drops, and section changes during this period. Course drops after period 1 count toward a student’s ISU drop limit and appear as an X on the permanent record. A section change does not require a drop.

Drops and other schedule changes that are judged to be beyond the student’s control may be processed as administrative actions if approved by the college dean. There is no schedule change fee for administrative schedule changes. Administrative drops do not count toward a student’s ISU drop limit and do not appear as an X on the permanent record. The effective date of an administrative action is the date it is approved by the college dean or authorized representative.

Period 3 is anytime after period 2. Schedule changes during this period are permitted only for extenuating circumstances, may require a written statement of support from the instructor and the student, and must be approved by the dean of the student’s college or authorized representative.

Half-Semester and Partial Term Courses
Specific deadlines for adding and dropping half-semester courses are published in the university calendar. Prorated adjustments to add and drop deadlines are made for other partial term courses. To find out specific deadlines for partial term courses, contact the Registrar’s Student Scheduling Office, 10 Enrollment Services Center, 294-2331.

R-Credit Courses (required courses)
Processing a scheduling change for a required course is usually considered administrative. There is no fee for administrative schedule changes. Administrative drops do not count toward a student’s ISU drop limit and do not appear as an X on the permanent record. To make a Period 3 R-credit drop administrative requires approval of the college dean.

Dates and Deadlines
Dates for registration are published in the university calendar (http://www.event.iastate.edu) (choose the Academic calendar link), and at www.registrar.iastate.edu/calendar/ (http://www.registrar.iastate.edu/calendar/). Students are assigned a registration start date and time, which is the first day and time they can use the registration system. Registration start dates are assigned based on projected year in school classification (computed by combining total credits, current term credits, and current term test out credits). Then specific start dates within projected year in school are established by using the sum of total credits and current term test out credits.

Students may choose to delay their registration until a later date; however, courses will begin to fill on the first day of registration. Any delay in registration may reduce course selection options. A list of start dates by classification is available at http://www.registrar.iastate.edu/calendar/registration-start-dates.

Continuing students register for the following term during the middle of the current term. For example, registration for spring term begins the middle of fall term; registration for summer session is completed during the previous spring at the same time as registration for fall semester.

A late registration fee is assessed for registration initiated on or after the first day of classes for fall and spring terms. This fee is not charged for the summer term. If registration is not initiated by the end of the fifth day of classes, students must obtain written permission from their advisers, the instructors for the courses they plan to take, as well as approval from the dean of the college in which they are registered. During the summer session, these approvals must be obtained in order to register after the third day of classes.

Students may not enroll in courses with time conflicts without the approval of the instructors concerned.

Students who participate in off-campus experiences for which they receive Iowa State University credit must register for that credit during the term when the experience is taking place, whether or not they are taking courses on campus during that time.

Withdrawal of Admission to the University
New undergraduate students who wish to withdraw their admission to the university prior to the first day of classes must initiate their withdrawal by completing the Admissions Office’s Application Change Form: https://www.admissions.iastate.edu/forms/change_application.php.

Cancellation/Withdrawal - Currently Enrolled Students
Students who decide not to attend classes before the date class work begins must cancel their registration (http://www.registrar.iastate.edu/students/cancel-withdraw) to avoid tuition and fees assessment. Students who decide not to attend classes beginning the first day of class or later must withdraw from the university (http://www.registrar.iastate.edu/students/withdrawal).

Course Information
Prerequisite. A prerequisite indicates the specific academic background or general academic maturity considered necessary by the faculty for the student to be ready for maximum success in the course. For more information, see Information About Courses, Course Prerequisite.

Permission Required courses/sections. To register for these sections, students must obtain authorization on a Request for Schedule Change or
Restriction Waiver form and process the approved form in the Registrar’s Student Scheduling Office, 10 Enrollment Services Center.

Restricted courses/sections. Some courses or sections are restricted to students who meet specified criteria including curriculum/major, college, and/or year in school. In addition, some sections may be restricted to new students to ensure that sufficient spaces are available when new students register during summer orientation. A department may waive a restriction for a student who has extenuating circumstances. The student must obtain the authorization from the department on a Request for Schedule Change or Restriction Waiver form. The form is processed in the Registrar’s Student Scheduling Office, 10 Enrollment Services Center.

Classrooms are listed for each course in the Online Schedule of Classes at http://classes.iastate.edu/ and on the student’s class schedule on AccessPlus, beginning approximately 3 weeks prior to the start of the term.

Cancelled courses/sections. In some cases, courses or sections may be cancelled due to low enrollment or departmental staffing considerations. Students who are registered for a cancelled course or section will be notified by the Office of the Registrar, the department, and/or on their AccessPlus schedule.

Textbook information. A link to textbook information, including the ISBN and retail price for assigned textbooks, is available from the Schedule of Classes. Textbook information for Iowa State University courses is posted as close to the start of registration as possible. Students may purchase textbooks from any source they choose.

Credit Limits
For fall and spring semesters, the credit limit is 18 credits for undergraduates and 15 credits for graduate students. For summer session, the limits are 12 credits for undergraduates and 10 credits for graduate students. A student may be required to drop credits before adding another course. In some cases, the college dean may approve a higher or lower credit limit for individual students. Students may request a change in their credit limit by contacting their adviser. Advisers should notify the student’s college student services office if the credit limit needs to be changed.

Registration Holds
Students with holds on their registration will not have access to registration until the initiating offices have released the holds. Those who attempt to register before the holds have been released will receive a message indicating which offices have placed holds on their registration. Prior to their registration, students may check for holds on AccessPlus.

Drop Limit
Students are limited in the number of courses they may drop during their academic career. (This refers to drops processed after the fifth day of classes of each semester.) Students who entered Iowa State University as freshmen are allowed to drop a maximum of five courses during their undergraduate career. If they entered at a level above freshman classification or in the College of Veterinary Medicine, they are allowed to drop a maximum of four courses. Courses dropped during their first term at Iowa State are not included in this limit, nor does the summer count as a first term for this purpose. Students who enroll at Iowa State University as undergraduates after receiving a bachelor’s degree are permitted four drops.

Exceptions to the drop limit may be made for courses that must be dropped for reasons beyond the student’s control. These exceptions are granted only by the dean or other authorized person in the student’s college.

The number of drops students have left is indicated on their grade report (available on AccessPlus) each term. Students are responsible for not exceeding their limit. At the instructor’s discretion, students who attempt to drop a course beyond the limit without special permission by the dean of the student’s college will continue to be enrolled in the course and will receive a grade at the end of the term.

Auditing
To audit a course means to enroll in the course without receiving credit for the course. The instructor of the course approves the audit request. Students are assessed tuition and fees as though they are taking the course for credit, but the audited course does not count in determining full-time student status. However, an audited course does count towards the maximum allowable credits per semester. Audited courses do not apply toward V.A. benefits.

Graduate students: An audited course counts as one credit in the graduate student’s allowable course load; however, tuition and fees will be assessed for the full number of credits for the course. See Graduate College.

Changing status to audit: Changing a course from credit to audit requires dropping the course for credit and adding it as an audit on a schedule change request form. After day 5 of the semester, the drop will count toward the total allowable ISU drops. The drop appears on the student’s permanent record.

Rights and privileges: Once enrolled in an audited course, auditors have the same rights and privileges as any student taking the course for credit. Their names appear on the class list with a notation that they are auditing the course. Audited courses do not appear on the student’s permanent record except by special request from the student. A request form can be downloaded from the Office of the Registrar website at www.registrar.iastate.edu/forms (http://www.registrar.iastate.edu/forms).
Audit Deadlines and Required Signatures
In addition to the deadlines provided below, note that instructors must approve all audits.

- Full semester courses:

Adding an audit—day 10 deadline:
- Through day 5 of classes: instructor approval required.
- Day 6-10: instructor, adviser approval required.
- After day 10: only with extenuating circumstances, instructor, adviser, college approval required.

Changing status, from credit to audit—day 10 deadline:
- Through day 5 of classes: instructor approval required.
- Day 6-10: instructor, adviser, college approval required.
- After day 10: only with extenuating circumstances, instructor, adviser, college approval required.

Changing status from audit to credit—day 5 deadline:
- Through day 5 of classes: instructor approval required.
- After day 5: instructor, adviser, college approval required.

- Partial semester or summer courses:

Deadlines are determined based on the length of the course. For deadlines concerning partial term or summer courses, contact the Scheduling & Fees Office, 515-294-2331.

Reinstatement
The procedures delineated in this section apply to students who were dismissed from Iowa State for academic reasons. Students who left Iowa State in good academic standing and who are seeking reentry should see Index, Reentry for more information.

1. Reinstatement is not automatic. Students who have been dismissed for academic reasons should contact the dean's office in the college they wish to enter for instructions specific to that college. The college Academic Standards Committee reviews each petition and other relevant information, and reinstatement is based upon that review. As part of the petition process, students must submit a plan for academic success that identifies the causes of their poor academic performance and demonstrates that they have taken actions to avoid or eliminate these causes.

2. Students can only be reinstated after at least one academic semester has elapsed since they were academically dismissed. The summer session is not a semester for the purpose of being out of school one semester.

3. Students who have been dismissed from enrollment two or more times are not eligible for reinstatement until at least two academic semesters have elapsed since their last academic dismissal. The summer session is not a semester for the purpose of being out of school one semester.

4. Students who were dismissed by one college and subsequently reinstated by another college cannot transfer back to the original college unless permission is granted by the Academic Standards Committee of the original college. This procedure applies regardless of the student's academic standing when the transfer is requested.

5. To be considered for reinstatement to the university, students must submit a petition to the Academic Standards Committee of the college in which they desire to enroll at least 45 days before the beginning of the semester. Students who have not been enrolled for a period of 12 or more months or who are international students must also file a reentry form prior to their return. For more information see the Reentry web site at http://www.registrar.iastate.edu/info/reentry.html. (Students dismissed for the second time and requesting reinstatement in the College of Liberal Arts and Sciences must submit their petition 70 days before the beginning of the semester.)

6. Juniors and seniors with extenuating circumstances may request a waiver of their required semesters of absence as identified in number 2 and 3 above. The petition requesting early reinstatement must be submitted to the Academic Standards Committee of their college no later than Thursday prior to the start of the term for which the student is seeking to be reinstated.

7. As a condition of reinstatement, students will reenter on academic probation and must accept whatever additional requirements are stipulated by the college Academic Standards Committee. Examples include full- or part-time status, specified credit hours, specific courses, specific GPAs, restriction on choice of major, and required counseling.

Student Appeal
Students may appeal a decision regarding their academic status if they believe that new information can be provided or extenuating circumstances exist that would alter the application of any rule in this section. The appeal should be made in writing to the Academic Standards Committee of the college in which the student is enrolled. The written appeal must include the reasons for the appeal and the evidence to substantiate these reasons.

The student should initiate the appeal process by contacting the secretary of the college Academic Standards Committee in the administrative office of her or his college immediately upon receipt of notification of the committee's action, and at least ten calendar days before the beginning of the semester. The secretary will then inform the student of the deadline for submission of the written appeal.

If the student is dissatisfied with the committee's action, he or she may submit an appeal in writing to the dean of her or his college within seven calendar days after they are notified of the committee's action. The dean
must respond in writing within seven calendar days of receipt of the appeal.

If the issue is not resolved within the college, further appeals may be made in writing to the provost and subsequently to the president of the university. Appeals beyond the college level will, however, be considered only if based on one or both of the following contentions: (a) appropriate procedures were not followed at the college level; (b) academic rules were not applied correctly at the college level.

**Academic Renewal**

Students who are returning to Iowa State University to pursue an undergraduate degree after an extended absence may request permission to remove one or more of their complete academic terms from future degree and GPA considerations.

1. **Eligibility.** To be eligible for academic renewal consideration, students must meet these requirements:
   a. Students must not have enrolled at Iowa State University for four or more consecutive calendar years.
   b. Students must not have graduated from Iowa State University.
   c. Students must have demonstrated satisfactory academic performance as evidenced by earning a GPA of at least 2.00 over a minimum of 12.00 credit hours taken after returning to the university. If more than one semester is taken to reach 12.00 credit hours, the combined GPA of all semesters/terms of enrollment after returning to the university must be 2.00 or greater.

2. **Conditions.** Academic renewal is based on the following conditions:
   a. All courses and credits that were taken during the chosen terms will be removed from consideration for GPA and degree requirements. Students may not combine courses from multiple terms to comprise the semester(s) or quarter(s) dropped. Degree requirements met during the dropped terms will ordinarily have to be repeated.
   b. Renewal may be applied only to academic terms completed prior to the students’ extended absence.
   c. All courses and grades for the chosen terms will remain on the students’ academic record.
   d. Designated repeats, drops and P/NP options will be reinstated for the terms dropped.
   e. Students who have used all of their drop options will be given one extra drop.
   f. Students may be granted only one academic renewal.

3. **Procedures.**
   a. Students should discuss their desire to pursue academic renewal with an adviser in the college they wish to enter.
   c. After the form is signed by the student and academic adviser, it is submitted to the Records area in the Office of the Registrar, 214 Enrollment Services Center.

**Returning/Reentry to the University**

U.S. students who have been absent from Iowa State University less than 12 months may be admitted as a returning student. If more than 12 months have elapsed since last enrolled, a U.S. student must apply for reentry to the university. All international students must apply for reentry regardless of the time away from the university.

**Returning Students**

U.S. undergraduate and U.S. non-degree undergraduate students planning to return to Iowa State University after an absence of less than 12 months do not complete a reentry form; however, international undergraduate and international non-degree undergraduate students planning to return to Iowa State University after an absence of less than 12 months must complete a reentry form.

Returning U.S. students and graduate students should contact the Office of the Registrar at 515-294-2331 or reentry@iastate.edu to have their records updated and registration access created. Students should contact their advisers to select courses and begin the registration process.

International students must complete a reentry form regardless of the length of their absence. Forms are available from http://www.registrar.iastate.edu/forms/. International Students must also complete the Returning to ISU electronic form for the International Students and Scholars Office in order to receive their new I-20 or DS-2019. The form can be found under the F-1 or J-1 Student Services tab in Cystart at https://cystart.its.iastate.edu. If you have questions or concerns in regards to your documents, please contact the International Students and Scholars Office at 515-294-1120 or isso@iastate.edu.

Returning students who want to change their curricula should follow the same procedure as in-school students. Students who were dropped from enrollment at Iowa State University must obtain reinstatement by the Academic Standards Committee of the college that they wish to reenter. (See Reinstatement/Renewal for policies that apply to requests for reinstatement).

**Reentry Students**

Undergraduate and nondegree undergraduate (special) students who plan to attend Iowa State University after an absence of twelve months or more must complete a reentry form. Forms are available from http://www.registrar.iastate.edu/forms/.
Students with a bachelor’s degree who plan to take supporting graduate level coursework prior to applying for graduate degree admission should request a nondegree graduate admission application.

Students who have previously attended Iowa State University only as nondegree (special) students and who now seek to earn an undergraduate degree should request an undergraduate application.

International Students must also complete the Returning to ISU electronic form for the International Students and Scholars Office in order to receive their new I-20 or DS-2019. The form can be found under the F-1 or J-1 Student Services tab in Cystart at https://cystart.its.iastate.edu. If you have questions or concerns in regards to your documents, please contact the International Students and Scholars Office at 515-294-1120 or isso@iastate.edu.

The reentry form should be completed and returned to the Office of the Registrar, 10 Enrollment Services Center, well in advance of the term of reentry. Students who have attended another college or university since enrollment at Iowa State University must have an official transcript(s) of all course work attempted sent to the Office of Admissions, 100 Enrollment Services Center.

Reentering students must also contact their departmental office/adviser to prepare a class schedule. Reentry must be approved prior to registration.

Iowa State University requests the information on the reentry form for the purpose of making a reentry decision. The university reserves the right not to approve reentry if the student fails to provide the required information.

**Graduate Students**

Returning graduate students that have been enrolled in the last 24 months and are looking to continue in the same program, should contact the Office of the Registrar at 515-294-2331 or reentry@iastate.edu to have their records updated and have registration access created. Students should contact their major professor to select courses and begin the registration process.

Reentering graduate students that have not been enrolled in the last 24 months, or are looking to come back in a different program than previously enrolled, please go to the Returning Graduate Students (https://www.grad-college.iastate.edu/common/forms/inactive-to-active) website and follow the instructions for your specific situation. Please contact the Graduate College at 515-294-4531 if you have question on returning to the Graduate College.

International students also need to contact International Students and Scholars Office, 3248 Memorial Union, Ames, IA 50011-1130, phone: 515-294-1120, fax: 515-294-8263, or email: intserv@iastate.edu to find out any steps that need to be taken prior returning.

**Reentry Approval Process**

Generally, a request to reenter Iowa State University will be approved within the Office of the Registrar. However, the Office of the Registrar will refer the reentry form to the college to which a student plans to return if the student: (a) desires to change curriculum; (b) has a previous Iowa State University cumulative grade point average below 2.00; (c) was dropped from the university for unsatisfactory academic progress or was not otherwise in good standing; or (d) since leaving Iowa State University, has completed additional college study with less than a 2.00 grade point average.
STUDENT FINANCIAL AID

The Office of Student Financial Aid helps families afford Iowa State University. Scholarships, grants, loans, and part-time employment opportunities are available to assist students and families in meeting college expenses. For more information see:

http://www.financialaid.iastate.edu
STUDENT HOUSING AND DINING

Department of Residence (DOR)
Welcome to your Cyclone Home! The university provides housing for almost 11,000 students in university owned on-campus residence halls and apartments. Single (non-family) student housing is available in all residence halls and the Frederiksen Court and University Village apartment communities. Family housing is available to students and their partners, children, and other relatives in the Schilletter Village apartments. While newly-admitted freshmen 18 and under are assigned to the halls, all halls and apartments have a diverse mix of freshmen, sophomores, juniors, seniors, and graduate students making on-campus housing a great place to live and learn. Visit http://housing.iastate.edu/ for details.

ISU Dining
With 24 locations, a fresh meal or snack is right around the corner! We offer flexible meal plans for students living both on and off campus. Our dining centers serve a wide variety of fresh-made items and are a great place for a sit-down meal. Locations like our cafes, restaurants and markets are perfect for coffee breaks, meals and snacks when you’re on the go. Our culinary team is ready to serve you! Visit https://dining.iastate.edu/ for meal plan options, locations, menus and hours.

Questions?
Email the Administrative Services Office at housing@iastate.edu for information about DOR housing or dining@iastate.edu for information about ISU Dining.
Memorial Union- Activities and Services

The Memorial Union is an historic building that is regarded as the heart of campus life and the center of informal education at Iowa State University.

515-296-6848; www.mu.iastate.edu (http://www.mu.iastate.edu)

Arts, Entertainment, Recreation:
• CyBowl & Billiards: bowling, billiards, video arcade, table tennis
• Maintenance Shop: live music, comedy, open mic
• Student Union Board: weekly films, comedy, music, diverse programs, special events, much more
• Art exhibits and art-for-rent
• Workspace: art and crafts classes for fun, studios for work in wood, photo, pottery; button maker
• Big screen TVs; pianos to play
• Lectures

Student Organizations
• Student organization offices and meeting space; recognition process.

Dining & Shopping
• Food Court & MU Market & Café
• University Book Store

Study Spots
• Multicultural Center
• Browsing Library & Computer Lab; Chapel;
• Lounges: Main, West, Pride, Commons & more

Services
• Meeting rooms, catering
• Parking ramp
• Copy Center
• Souls Family Visitor Center
• ATMs, Mshop Ticket Office, Lockers (in the MCC)
• U.S. Post Office – full service
• Student Legal Service

Distinctive Feature
• Gold Star Hall, an active memorial to Iowa State service personnel lost in the nation's conflicts

Student Activities Center

COORDINATOR FOR ENTERTAINMENT operations
Dustin Smothers

COORDINATOR FOR Major PROGRAMS
Katie Haygood

SAC Secretary
Brigitte Milhous

The Student Activities Center (SAC) in the Memorial Union is committed to helping students learn inside and outside the classroom by offering countless ways to get involved at Iowa State through leadership, service, arts, entertainment and recreation activities.

The Student Activities Center includes: the Workspace (arts studio), the Maintenance Shop (entertainment venue), CyBowl & Billiards (recreation center/ bowling alley), Cyclone Cinema, leadership and service programs, art galleries in the MU, and management of the recognition of over 900 campus and student organizations. For a complete list of recognized organizations visit www.stuorg.iastate.edu.

The staff provides assistance to student and campus organization leaders, members and advisers on an individual or group basis. Available on the SAC website are resources for student and campus organizations including the event authorization process, publicity and promotion ideas, constitution writing guidelines, and officer transition information. The Student Activities Center is home to the Leadership and Service Center which provides hands on support for students interested in leadership and service opportunities and student organization officers looking to better their clubs. In addition the SAC offers a 3-credit course called Leadership ISU, where students learn leadership capacity through a series of activities and seminars, as well as many other leadership conferences and retreats. Reservations for the Lynn Fuhrer Lodge are managed by this office as well.

The Student Activities Center coordinates the Co-Curricular Transcript (CCT), an online system to help students manage their experiences, achievements and involvement while as an Iowa State student. Faculty and staff can add verified entries while students can add their own
self-managed entries as well. Entries are added to one of the following categories: Campus Involvement, Community Service, Honors and Awards, Internships and Study Abroad, Leadership Experience, On Campus Employment, Publications, Recreational Activities, Research, and Seminars and Workshops. From there students can create customized and comprehensive transcripts to use when applying for jobs, internships, scholarships, graduate school or leadership opportunities.

Annual SAC events include: ClubFest & Spring ClubFest (organization involvement fair), WelcomeFest (Ames and ISU opportunity fair), ISU AfterDark (substance-free alternative program - six times per year), Iowa State Leadership Experience (one-day leadership conference), Winterfest (celebration of all things winter) and Cyclone Carnival (spring activities for students, alumni and community members). Student Activities Center staff advise key student organizations and events including: Student Union Board, AfterDark, Dance Marathon, Freshmen Council, Campus Service Crew, Cyclone Carnival, and WinterFest.

More information is available at the Student Activities Center, located in the East Student Office Space in the Memorial Union (across from Panda Express); online at www.sac.iastate.edu; or by calling (515) 294-8081.

Lectures

www.lectures.iastate.edu/ (http://www.lectures.iastate.edu)

Throughout the academic year, the Committee on Lectures brings to the campus a number of speakers eminent in national and international affairs, the sciences, and the arts. In addition to giving formal lectures, a number of these speakers meet with students informally for meals and discussions. Through these lectures and discussions the students are given a well-rounded presentation on a range of subjects including popular culture, educational and economic philosophy, the arts, and technological and scientific development. Past speakers include evolutionary biologist Richard Dawkins and physicist Michio Kaku; activist Gloria Steinem; writers Margaret Atwood and Cheryl Strayed; and former Secretary of State Madeleine Albright.

The World Affairs Series is an annual series of speakers on a topic of international interest. The National Affairs Series invites speakers on a topic of national concern. The Committee on Lectures also sponsors or co-sponsors dramatic and film events.

Students are encouraged to contact the lectures program office and become involved in the planning of these events.

Honor Societies

Honor societies at Iowa State University provide opportunities for students who excel in the classroom and want to network with others in their major. Members of these honor societies are eligible for transcript recognition through the Office of the Registrar. The complete list of honor societies can be found on the student organization website at www.stuorg.iastate.edu (https://www.stuorg.iastate.edu/orgtype/12)
STUDENT RECORDS

Student Records

Iowa State University maintains various records concerning students, to document their academic progress as well as to record their interactions with university staff and officials. In order that their right to privacy be preserved and to conform with federal law, the university has established certain policies to govern the handling of student records. All policies conform with FERPA, the Family Educational Rights and Privacy Act (also known as the Buckley Amendment).

Student Addresses

Students have the responsibility to notify the Office of the Registrar each time their information changes. Student information changes can be made through the Address Change link on the Student tab in AccessPlus (https://accessplus.iastate.edu/frontdoor/login.jsp).

Iowa State employees (e.g., Graduate Assistants, student employees, etc.) must also report an address change to the office of University Human Resource Services (http://www.hrs.iastate.edu/hrs). Information changes can be made through the Address Change link on the Employee tab in AccessPlus (https://accessplus.iastate.edu/frontdoor/login.jsp).

When Records May Be Withheld

The appropriate university official may request that a student’s record not be released if that student is delinquent in an account with the university or an affiliated organization. The effect of this action is that a transcript will not be released and registration will be withheld.

The appropriate official may also request that records be withheld in instances when official disciplinary action has been taken against a student. Authorization for these actions is supported by The Iowa Code and The Iowa Administrative Code.

In order for such an action to be rescinded, the Office of the Registrar must receive written authorization from the official who originally requested the action, indicating that the student has met the obligation. Further information about this policy can be obtained from the Office of the Registrar.

Review and Challenge of Records

A student may challenge the accuracy of handling of records maintained by the university on grounds that the records are inaccurate, misleading, or otherwise violate the privacy or other rights of the student. The university has established the following procedures to provide an opportunity for the student to correct or delete inaccurate records, or to insert into the record a written explanation of the content. Students who question their records should discuss the issue first with the individual staff person who established or maintains the records. Presumably most issues can be resolved at this level. If a satisfactory resolution cannot be reached, the student should submit the question to the head of the department in which the record is maintained.

The department head will discuss the issue with the staff person and the student challenging the record. If resolution cannot be reached after meeting with the department head, the student may submit the question to the dean or director to whom the department head is responsible. The dean or director will investigate, and will respond in writing.

If the record has not been reconciled through these measures, the student may direct a written request to the president of the university. The president will convene an Ad Hoc Hearing Panel of Access and Confidentiality of Educational Records, composed of two faculty members, two students, and one administrator, appointed by the president for a period of one year, with the president or a designee serving as nonvoting chairperson. The student shall be given an opportunity to present to the panel evidence relevant to the issues raised, and the panel will issue a written response.

Posting Grades and Test Scores

Instructors who wish to inform students of their performance may post grades and test scores on a secure course website as long as individual students may only access their own grades. The test scores or course grades of students may not be posted in any public location (World Wide Web or hard copy posting) unless the instructor posts the information using a code for each student that is known only by the instructor and the student.

Release of Grades

Students who choose to release their grades to parents or other trusted third parties may do so using the AccessPlus third party system. Reports of a student’s grades are not routinely sent to the student’s parents. Parents of students under 18 years of age may obtain grades by writing to the Office of the Registrar. The grades of other students will be sent to their parents only with written permission of the student, or by establishing dependency as outlined in item 9 under Confidential Information.

ISUCard and Identification Number

Each student is assigned a random university identification number on entry to the university. This number appears on the ISUCard that is provided to each student at the time of first registration. The ISUCard may be required for some services and/or activities. At the time the ISUCard is issued each student also selects a university password, which is required for electronic access to personal student information.
Loss of an ISUCard should be reported immediately to the ISUCard Office, where the lost card will be invalidated and replaced for a charge. Disciplinary sanctions may be imposed for improper use of the ID card or attempts to obtain, by fraudulent means, any form of identification.

Social Security Number

Social security numbers are collected from prospective and current students, for administrative coordination and record identification purposes only. Although procedures have been established by the registrar for assignment of an alternative number upon request, students who wish to be employed on campus, desire to claim federal educational tax benefits, or are applying to receive financial aid, are required by law to provide their social security numbers for administrative use. The social security number is a confidential record and is maintained as such by the university in accordance with the Family Educational Rights and Privacy Act.

Policy on Student Names

Iowa Regent universities have a common policy regarding student names and name changes. The name on the student record should be the student's complete and legal name; however, we understand and respect that not all students identify with their legal name. If a student does not have the official legal documentation required in the standard Name Change Policy to support their legal name change, the Office of the Registrar will work with the student to still process the name change. In evaluating and processing all name change requests, the university reserves the right to require adequate and appropriate documentation as warranted. After a name change, a current student must obtain a new ISUCard; a replacement fee may apply.

Information Disclosure

Iowa State University is required by law to make available to enrolled students, prospective students, and their parents certain information about the university. The information disclosure policy is available at www.iastate.edu/~disclosure (http://www.public.iastate.edu/%7Edisclosure). Students without electronic access can obtain the information from the Office of the Registrar, 214 Enrollment Services Center, 515-294-1840 or from the Office of Admissions, 100 Enrollment Services Center, 515-294-5836. A paper copy of the information will be provided upon request.

Iowa State University Online Directory Information

The ISU Online Directory (https://www.info.iastate.edu) differentiates between verified and guest users:

**Verified Users** - those accessing the directory from an on-campus server or via Iowa State University's virtual private network (VPN) or other authenticated means.

**Guest Users** - those who are external, unauthenticated individuals.

Information available for display to **verified users** include:

- Name
- Major
- Classification
- ISU Email Address
- Phone Number

Information available for display to **guest users** include:

- Name
- Major
- Classification

Guest users do not have access to view Iowa State University email address, but they do have the ability to send an email to the student via a webform.

Public Information at Iowa State University

Online directory information and public information may be released to the public upon request, except in cases where the student has suppressed the release of their information. Iowa State reserves the right to review and respond to the requests for release of public information on a case-by-case basis. While FERPA may authorize the release of student information, it does not obligate a school official to do so. See list below for specific types of public data.

**Online Directory Information**

**Other Public Information**

- Hometown
- Dates of Attendance at ISU
- Expected date of graduation
- College
- Name(s) of adviser(s)
- Awards and academic honors
- Iowa State degree(s) and date(s) awarded
- Previous educational institutions attended, degrees received, dates of attendance
- Full-time or part-time status
Students can withhold public information through the Address Change link on the Student tab in Access Plus (https://accessplus.iastate.edu/frontdoor/login.jsp).

**Confidential Information**

With the exception of the information noted above, all student records are considered to be confidential and are open only to school officials. A school official is a person employed by the university in administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the university has contracted; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Iowa State University’s notification of rights under FERPA can be found at http://www.registrar.iastate.edu/policies.

The following policies govern access to student records:

1. Each type of student record is the responsibility of a designated school official, and only that person or the dean or director to whom that person reports has authority to release the record. The following is a list of the responsible officials:
   
   a. Academic records: registrar
   b. Admissions records: director of admissions
   c. Financial aid records: director of student financial aid
   d. Student financials: director of accounts receivable
   e. Traffic and security records: director, ISU Department of Public Safety
   f. Medical records: director, Thielan Student Health Center
   g. Counseling records and test scores: director, Student Counseling Service
   h. Actions of Academic Standards Committees: college deans
   i. Disciplinary records: assistant dean of students, office of student conduct
   j. Residence hall records: director of residence
   k. Placement records: college placement officers
   l. Evaluations for admission to ISU graduate or professional programs: deans or department chairs
   m. Special academic programs: faculty member in charge of the program and the dean of the college
   n. Student employment: director of university human resources

2. The designated official may release records to other school officials who have a legitimate need for the information. A list of those persons who normally have access to each type of student record is available in 214 Enrollment Services Center.

3. All student records are reviewed periodically. Information concerning the frequency of review and expurgation of specific records is available in 214 Enrollment Services Center.

4. Students have the right to review upon request any records that pertain directly to them, and may obtain a copy of the record for a fee. This provision does not apply to records to which the student has waived their right to review (e.g. letters of recommendation), nor does it apply to medical and counseling records.

5. A student may waive the right to review a specific record by submitting in writing a statement to this effect to the official responsible for that record.

6. A file containing copies of records pertinent to advising is maintained on each student for use by the student’s adviser. This file may be maintained in hard copy or electronic format. Ordinarily this file is kept in the possession of the adviser, but for convenience it may be stored elsewhere such as in the dean’s office or department office. When the student changes majors, or changes advisers within the same major, the file is transferred to the new adviser. Under the university’s student records policy, the student is considered to have the right of access to this file.

7. Medical and counseling records shall be released at the written request of the student to medical or psychological professionals outside the university or to university officials.

8. University personnel who have access to student records in the course of carrying out their university responsibilities shall not be permitted to release the record to persons outside the university, unless authorized in writing by the student or unless one of the exceptions stated earlier is involved.

9. Confidential information may be released by students to their parents or other trusted third parties through the AccessPlus third party system. Confidential information may also be released by obtaining the student’s written consent or by having the parent establish the student’s dependency as defined by the Internal Revenue Code of 1954, section 152, by furnishing a certified copy of the parent’s most recent federal income tax return.

10. The officials responsible for custody of student records will maintain records of requests and disclosures of personally identifiable nonpublic information. The records of requests, whether granted or not, shall include the person or agency requesting the information and the purpose of the release. These records of requests and disclosures will be available to the student on request. Records of requests and disclosures are not necessary for requests made by the student, by school officials
in carrying out their official responsibilities, by persons employed by agencies and offices conducting audits and accreditations of university programs, or any of the other exceptions listed previously.

For the purposes of FERPA, Iowa State University defines Directory Information to include both Online Directory and Other Public Information as defined above.

It is the policy of the university to respect the privacy of students; therefore, only lists containing Directory Information may be made available to members of the public when deemed appropriate and necessary, and in accordance with all applicable Iowa State policies and procedures. While FERPA allows for the release of such information, it does not obligate the university to do so; Iowa State University reserves the right to review and respond to requests for release of information on a case-by-case basis.

Directory Information will be provided at a cost. A sub-set of Directory Information is available via the Online Directory (https://www.info.iastate.edu); please note that the Online Directory differentiates between verified and guest users and displays information accordingly. More information on this can be found in the Public Information section of the University Catalog.

**Disclosures Permitted by FERPA**

Iowa State University retains the discretion to disclose Directory and Confidential Information as indicated in Section 4 (http://www.registrar.iastate.edu/policies) of Iowa State University’s Notification of Rights Under FERPA. Specifically, the university may disclose to the public or to specific individuals, Directory and Confidential Information for reasons of safety if the disclosure meets the criteria under Section 4 (http://www.registrar.iastate.edu/policies).
STUDENT SERVICES

Dean of Students Office
www.dso.iastate.edu (http://www.dso.iastate.edu)
1010 Student Services Building
(515) 294-1020

The Dean of Students Office (DSO) at Iowa State University uses an integrated approach to support student-centered learning through personal, community and academic development culminating in a transformative experience. Reporting through the Division of Student Affairs, the DSO provides numerous opportunities for students to engage in learning beyond the classroom. The fourteen departments that comprise the DSO collaborate to create and support a common community experience for Iowa State University students. Our common goal across all areas within the DSO is to support student success.

Helping Cyclones Succeed

The Student Counseling Service (SCS) assists students in enhancing their academic success and personal well-being with a staff of professional psychologists and counselors. Services are available to help students sort through their feelings, strengths, and options to develop new perspectives and coping skills.

Services include:

- One-on-one counseling for any issue of personal concern, such as depression, anxiety, stress management, relationship issues, identity issues, and other forms of personal challenge. Students may also receive therapeutic services to deal with more severe mental health issues.

- Couples counseling for ISU students and their partners during times of relationship difficulty.

- Eating disorders assessment and treatment for students concerned with eating or body image issues. Students receiving treatment for eating disorders might also work with physicians, nutritionists, and personal trainers as their needs require.

- Substance abuse assessments to help students determine the nature and extent of their alcohol or other drug use and the impact of this use on their well being. Counselors offer recommendations and referrals for any concerns identified through the assessment.

- Career counseling to assist students having difficulty choosing a major or making decisions about their future after college.

- Group counseling is offered to facilitate personal growth and social skills learning. A list of the current semester’s groups is available on the SCS web site.

- A variety of outreach programs are also available.

Counseling services are offered at no cost to ISU students. However, a nominal fee for testing may be required. Nominal fees are also charged for uncanceled missed appointments. Counseling is strictly confidential. SCS staff will not release any information to anyone outside of the Student Counseling Service without the written permission of the client unless an imminent harm condition exists.

In addition to providing counseling and outreach services to students, SCS provides training and consultation to faculty and staff to assist them in addressing the psychological needs of students.

SCS hours are Monday through Friday 8 a.m. - 5 p.m. The Student Counseling Service phone number is 515-294-5056.

Student Support Services Program

Student Support Services Program (SSSP), a federally funded program, provides academic support to eligible students and is designed to increase the retention and graduation rates of low-income individuals who are first-generation college students or individuals with disabilities. The needs of the students who are accepted into SSSP are thoroughly assessed through testing and counseling. SSSP participants receive personal and career counseling, along with academic advice, tutoring, and assistance in receiving financial aid.

Participants in SSSP are encouraged to work with an SSSP student mentor to become acclimated to the ISU environment. These relationships also encourage participants to fully access ISU resources. Study skills improvement sessions and basic skills instruction are provided in the areas of math and writing. In addition, cultural enrichment (i.e. theatre, dance, and musical events) and educational activities (leadership conferences, graduate/professional, etc.) are planned. These services are provided free of charge to eligible students after they are accepted into the program.

International Students and Scholars

The International Students and Scholars Office (ISSO) provides a welcoming and supportive environment for international students and scholars, Iowa State University, and the Ames community. ISSO staff members orient and advise international students and scholars on university procedures, community resources, U.S. immigration regulations, and nonacademic personal concerns. ISSO intercultural programs, such as the Culture Corps, FriendsInternational, and activities developed with the International Student Council and dozens of international student organizations, bring international students and Americans together for mutual learning. We welcome volunteers to join these and other programs to help us maximize the international
experience of students and scholars to the successful completion of their academic objectives and enhance their personal growth.

**Thielen Student Health Center**

Thielen Student Health Center is a full-service medical clinic in Ames, Iowa, that specializes in students. The clinic is staffed with physicians, advanced registered nurse practitioners and nurses. The medical team is available to care for your primary health care needs.

The clinic offers a full range of medical services including illness and injury care, women’s health, allergy and travel care, immunizations, mental health care, laboratory and x-ray services, physical therapy and a full-service pharmacy. After hour service is available for urgent or emergency problems at McFarland Urgent Care Clinic or Mary Greeley Medical Center Emergency Room.

The Prevention Services department provides campus-wide leadership for a comprehensive approach to reduce health risks for students. In collaboration with our campus and community partners, they strive to foster a healthy campus environment and support the academic success of our students. Areas of focus include high-risk drinking and sexual and interpersonal violence.

The mission of the Thielen Student Health Center is to promote the optimal health of our university community by providing high quality, accessible, affordable and accountable health care that encompasses prevention, wellness and education and to support the academic success of the Iowa State University students while building healthy habits for a lifetime.

We provide an inclusive, non-judgmental environment for our diverse student body and are conveniently located on the corner of Sheldon Avenue and Union Drive, right across from State Gym.

Student Health receives no funding from the state of Iowa and relies on the health fee for approximately 50% of its operating budget. Please note that the health fee is not health insurance. All students are encouraged to maintain adequate health insurance coverage while enrolled at Iowa State University. Those taking 4 or fewer credits may still access services by paying the health fee. Spouses/domestic partners of students who opt to pay the health fee also have access to services.

Clinic hours:

Monday, 8 a.m.-6 p.m.; Tuesday, Thursday and Friday, 8 a.m.-5 p.m.; Wednesday, 9 a.m.-5 p.m.; Saturday, 9 a.m.-12 noon. Hours vary during breaks and summer session. Patients are seen by appointment. Please call 515-294-5801.

**The University Library**

http://www.lib.iastate.edu/

---

**Student Answer Center**

https://www.financialaid.iastate.edu/student-answer-center/

Students who have questions but are not sure where to find an answer may contact the Student Answer Center located on the ground floor of Beardshear Hall. A staff member will answer campus-related questions on the spot or provide referrals to other university departments as needed. Information may include registration instruction, financial aid status, or classroom directions. Students can pick up forms, information brochures, campus maps, or use one of the computers to
log on to AccessPlus or e-mail. Questions can be answered by email at answercenter@iastate.edu or by phone 515-294-4469.

**Career Services Offices**

Agriculture and Life Sciences: 15 Curtiss Hall  
Business: 1320 Gerdin Business Building  
Design: 297 College of Design  
Engineering: 4th Floor Memorial Union  
Graduate Business: 1360 Gerdin Business Building  
Human Sciences: 131 MacKay Hall  
Liberal Arts and Sciences: 131 Carver Hall  
Veterinary Medicine: 2270A Veterinary Medicine Complex  

Career Services is a coordinated network of career services offices offering a broad range of programs and services for undergraduate, professional, and graduate students, faculty, staff, alumni, and employers. These services include career exploration, career development, experiential learning, and professional career search assistance programs. The goal is to provide constituents with life-long skills to assist with career development and exploration.

Programs and services are offered including online registration, position listing and interview scheduling; résumé referral; coordination of co-op and internship programs; workshops and seminars on career exploration, résumé preparation, letter writing, job search techniques, interview skills, applying to graduate and professional schools, and adjusting to the first job.

Each year career services sponsors multiple career fairs, which bring to the ISU campus hundreds of employers. The career services offices also coordinate on-campus interview opportunities. Each college career services office serves as a point of entry for students, alumni, and employers to the entire ISU network of coordinated, decentralized career services.

In addition to the college-based career services offices, the Career Exploration Service provides a variety of services to students who are unsure about their major or future career path. Students can work one-on-one with a trained career counselor, use the many books and electronic resources in the Career Exploration Center, or enroll in UST 104, Personal Career Development.

Additional information on career services is available at [http://www.career.iastate.edu/](http://www.career.iastate.edu/).

**Child Care**

Child Care Administration, a unit of Human Resource Services, supports Iowa State University families by linking them with programs and services that can help meet their child care needs. The university child care coordinator is available to assist families in accessing services available both on the campus and in the community.

Child care programs located on campus include:

- Center for Child Care Resources: Assistance in locating campus and community child care services, 100 University Village, Suite 1010, 515-294-8833 or 1-800-437-8599
- University Community Childcare, Family Resource Center, 100 University Village, 515-294-9838
- The Comfort Zone: Childcare for kids who don't feel so good, 100 University Village, 515-294-3333.
- Flex-Care: Part time care for children of ISU students, 100 University Village, 515-294-9838.
- University Child Care Center at Veterinary Medicine, 1700 Christensen Drive, 515-294-2273.
- ISU Child Development Laboratory School, Palmer HDFS Building, 515-294-3040.

For more information about child care options, contact the university child care coordinator at 515-294-8827.
**TUITION, FEES AND EXPENSES**

**Tuition**

Tuition and fees are based on the number of credits in which a student is enrolled as of 5:00 p.m. on the 10th day of class. Maximum charges start at 12 credits for undergraduate and veterinary medicine students. Maximum charges start at 9 credits for graduate students.

Students who are not residents of Iowa pay a higher tuition rate each semester. Nondegree undergraduate students and noncollegiate students pay the same fees as undergraduates. Tuition and fees are assessed in accordance with regulations of the Board of Regents, State of Iowa. Information about these regulations are found in this catalog under Admissions and Registrar.

All tuition, fees, expenses, and policies are subject to change without notice by Iowa State University and the Board of Regents, State of Iowa. For the most current and complete information see http://www.registrar.iastate.edu/fees/

**Residency Classification for Admission and Tuition Purposes**

These criteria are contained in the Policy Manual, Board of Regents, State of Iowa and or the Iowa Administrative Code: Board of Regents, State of Iowa. For additional information regarding the administrative code addressing residency classification: Section 681-1.4 "Classification of residents and nonresidents for admission, tuition, and fee purposes" https://www.legis.iowa.gov/docs/aco/chapter/681.1.pdf (Chapter 1, pg. 4).

**GENERAL INFORMATION**

A. A person enrolling at one of the three state universities shall be classified as a resident or nonresident for admission, tuition, and fee purposes by the registrar or someone designated by the registrar. The decision shall be based upon information furnished by the student and other relevant information.

B. In determining resident or nonresident classification, the issue is essentially one of why the person is in the state of Iowa. If the person is in the state primarily for educational purposes, that person will be considered a nonresident. For example, it may be possible that an individual could qualify as a resident of Iowa for such purposes as voting, or holding an Iowa driver’s license, and not meet the residency requirements as established by the Board of Regents, State of Iowa, for admission, tuition, and fee purposes.

C. The registrar, or designated person, is authorized to require written documents, affidavits, verifications, or other evidence deemed necessary to determine why a student is in Iowa. The burden of establishing that a student is in Iowa for other than educational purposes is upon the student. A student may be required to file any or all of the following:

1. A statement from the student describing employment and expected source of support
2. A statement from the student’s employer
3. A statement from the student’s parents verifying nonsupport and the fact that the student was not listed as a dependent on tax returns for the past year and will not be so listed in future years
4. A statement from the student’s spouse related to sources of family support, length of residence in Iowa, and reasons for being in the state of Iowa
5. Supporting statements from persons who might be familiar with the family situation
6. Iowa state income tax return.

D. Applications for resident classification for a given semester or session are due no later than the fifteenth class day of that semester or session. Applications received after the fifteenth class day of that semester or session will be considered for the next semester or session. Appeals of any nonresident classification decision resulting from applications for resident classifications are due no later than midterm of that semester or session. Change of classification from nonresident to resident will not be made retroactive beyond the term in which application for resident classification is made.

E. A student who gives incorrect or misleading information to evade payment of nonresident fees shall be subject to serious disciplinary action and must also pay the nonresident fees for each term previously attended.

F. Review committee. These regulations shall be administered by the registrar or someone designated by the registrar. The decision of the registrar or designated person may be appealed to a university review committee. The finding of the review committee may be appealed to the Board of Regents, State of Iowa.

**GRADUATE ASSISTANTS**

Students with graduate assistantships of 1/4-time or more are assessed Iowa resident tuition and fees. Nonresident students with graduate assistantships of 1/4-time or more retain their nonresidency classification, but are assessed resident tuition and fees as long as the graduate assistantship is continued.

The spouse of a 1/4-time or more graduate assistant who is a nonresident is eligible for resident tuition and fees during the period of the assistantship appointment. Iowa residency is not granted,
but a waiver of nonresident tuition and fees is in effect. When the
graduate assistantship ends, the tuition and fee waiver for the spouse is
terminated. (Board of Regents, State of Iowa, Minutes March 15, 1995, p.
801).

The graduate student must request the resident tuition assessment
by midterm of the term in question. The benefit will not be granted
retroactively.

GUIDELINES
The following guidelines are used in determining the resident
classification of a student for admission, tuition, and fee purposes:

1. A financially dependent student whose parents move from Iowa after
the student is enrolled remains a resident provided the student maintains
continuous enrollment. A financially dependent student whose parents
move from Iowa during the senior year of high school will be considered
a resident provided the student has not established domicile in another
state.

2. In deciding why a person is in the state of Iowa, the person’s domicile
will be considered. A person who comes to Iowa from another state and
enrolls in any institution of postsecondary education for a full program
or substantially a full program shall be presumed to have come to Iowa
primarily for educational reasons rather than to establish a domicile in
Iowa.

3. A student who was a former resident of Iowa may continue to be
considered a resident provided absence from the state was for a period
of less than 12 months and provided domicile is reestablished. If the
absence from the state is for a period exceeding 12 months, a student
may be considered a resident if evidence can be presented showing
that the student has long-term ties to Iowa and reestablishes an Iowa
domicile. A person or the dependent of a person whose domicile is
permanently established in Iowa, who has been classified as a resident
for admission, tuition, and fee purposes, may continue to be classified as
a resident so long as domicile is maintained, even though circumstances
may require extended absence of the person from the state. It is required
that a person who claims Iowa domicile while living in another state or
country will provide proof of the continual domicile as evidence that the
person:

(1). Has not acquired domicile in another state;
(2). Has maintained a continuous voting record in Iowa; and
(3). Has filed regular Iowa resident income tax returns during absence
from the state.

4. A student who moves to Iowa may be eligible for resident classification
at the next registration following 12 consecutive months in the state
provided the student is not enrolled as more than a half-time student
(6 credits for an undergraduate or professional student, 5 credits for a
graduate student) in any academic year term, is not enrolled for more
than 4 credits in a summer term for any classification, and provides
sufficient evidence of the establishment of an Iowa domicile.

5. A student who has been a continuous student and whose parents
move to Iowa may become a resident at the beginning of the next term
provided the student is dependent upon the parents for a majority of
financial assistance.

6. A person who has been certified as a refugee or granted asylum by
the appropriate agency of the United States, who enrolls as a student
at a university governed by the Board of Regents, State of Iowa, may
be accorded immediate resident status for admission, tuition, and fee
purposes where the person:

(1). Comes directly to the state of Iowa from a refugee facility or port of
debarkation, or
(2). Comes to the state of Iowa within a reasonable time and has not
established domicile in another state.

Any refugee or individual granted asylum not meeting these standards
will be presumed to be a nonresident for admission, tuition, and fee
purposes and thus subject to the usual method of proof of establishment
of Iowa residency.

7. An alien who has immigrant status establishes Iowa residency in the
same manner as a United States citizen.

8. At the Regent institutions, American Indians who have origins in any
of the original people of North America and who maintain a cultural
identification through tribal affiliation or community recognition with one
or more of the tribes or nations connected historically with the present
state of Iowa, including the Iowa, Kickapoo, Menominee, Miami, Missouri,
Ojibwa (Chippewa), Omaha, Otoe (Otto), Ottawa (Odawa), Potawatomi,
Sac and Fox (Sauk, Meskwaki), Sioux, and Winnebago (HoCak/Ho-Chunk),
will be assessed Iowa resident tuition and fees. (Board of Regents, State
of Iowa, Minutes October 15-16, 1997, p. 299)

**Section B below is under revision. For current information, go to http://
www.veterans.iastate.edu/for-students/in-statetuition.

B. Additional guidelines are used in determining the resident
classification of a veteran, qualified military person, and dependent
children and spouses of a veteran or qualified military person for
purposes of admission and undergraduate tuition and mandatory fees:

1. A person who is stationed on active duty at the Rock Island arsenal
as a result of military orders, or the dependent child or spouse of such
person, is entitled to resident status for purposes of undergraduate
tuition and mandatory fees. However, if the arrival of the person under
orders is subsequent to the beginning of the term in which the dependent
child or spouse is first enrolled, nonresident fees will be charged in all cases for the dependent child or spouse until the beginning of the next term in which the dependent child or spouse is enrolled. If the qualified military person is transferred, deployed, or restationed while the person's spouse or dependent child is enrolled in an institution of higher education under the control of the board of regents, the spouse or dependent child shall continue to be classified as a resident under this subparagraph until the close of the fiscal year in which the spouse or dependent child is enrolled.

2. A veteran who is domiciled or moves to the state of Iowa and who is eligible for benefits, or has exhausted benefits under the federal Post-9/11 Veterans Educational Assistance Act of 2008, is entitled to resident status for purposes of undergraduate tuition and mandatory fees. The dependent child or spouse of a veteran who meets these requirements is entitled to resident status for undergraduate tuition. However, if the arrival of the veteran in Iowa is subsequent to the beginning of the term in which the dependent child or spouse is first enrolled, nonresident fees will be charged in all cases for the dependent child or spouse until the beginning of the next term in which the dependent child or spouse is enrolled.

3. A person who is moved into the state as the result of military or civil orders from the government for other than educational purposes, or the dependent child or spouse of such a person, is entitled to resident status. However, if the arrival of the person under orders is subsequent to the beginning of the term in which the dependent child or spouse is first enrolled, nonresident fees will be charged in all cases until the beginning of the next term in which the dependent child or spouse is enrolled. Legislation, effective July 1, 1977, requires that military personnel who claim residency in Iowa (home of record) will be required to file Iowa resident income tax returns.

FACTS
A. The following circumstances, although not necessarily conclusive, have probative value in support of a claim for resident classification:

1. Reside in Iowa for 12 consecutive months, and be primarily engaged in activities other than those of a full-time student, immediately prior to the beginning of the term for which resident classification is sought.
2. Reliance upon Iowa resources for financial support.
3. Domicile in Iowa of persons legally responsible for the student.
4. Former domicile in the state and maintenance of significant connections therein while absent.
5. Acceptance of an offer of permanent employment in Iowa.
6. Military orders, if for other than educational purposes.
7. Other facts indicating the student's domicile will be considered by the universities in classifying the student.

B. The following circumstances, standing alone, do not constitute sufficient evidence of domicile to affect classification of a student as a resident under these regulations:

1. Voting or registration for voting.
2. Employment in any position normally filled by a student.
3. The lease of living quarters.
4. Admission to a licensed practicing profession in Iowa.
5. Automobile registration.
6. Public records; for example, birth and marriage records, Iowa driver's license.
7. Continuous presence in Iowa during periods when not enrolled in school.
8. Ownership of property in Iowa, or the payment of Iowa taxes.

Fee Payment
The Accounts Receivable Office bills students for tuition, room, meal plan, and various other university charges. A statement of new charges is available on the first of each month on Access Plus and each student will receive an email message at that time at their Iowa State e-mail address telling them that their bill is available. It is the student's responsibility to ensure that the university has a correct e-mail address and to regularly check their Iowa State e-mail account. Students who do not receive a billing statement before the term begins or are unable to use AccessPlus to view their bill, should contact the Accounts Receivable Office to learn the amount of their account balance due. Failure to receive a billing statement or view their account on AccessPlus will not exempt students from late penalties or from having a hold placed on their registration. Payments for fall semester are due August 20. Payments for spring semester are due January 20. Payments for summer semester are due May 20.

Students may pay their university bill by direct debit through AccessPlus. They may also pay by mail by sending a check or money order (along with the bottom portion of the billing statement printed from AccessPlus) to Iowa State University, Treasurer's Office, 1220 Beardshear Hall, 515 Morrill Road, Ames, IA 50011-2103. Payments may also be made in person by taking the personal check or certified funds to the drop box that is located behind the Student Answer Center on the ground floor of Beardshear Hall.

Credit Type - Audits and zero credit courses: Assessed according to contact hours; maximum charge for zero credit courses is three credit hours.

Credit Type - Partial credits: (.5) assessed on the next larger whole number of credits, e.g., 6.5 credits is assessed as 7 credits.
Credit Type - R credit: Assessed for the minimum fee only if no other credits are taken.

Deferred Billing Plan (payment over three months): This $20 administrative charge (fall, spring, and summer) is assessed to those students who do not pay their full tuition, room and board charges on or before August 20 for fall semester, January 20 for spring semester, and May 20 for summer session. This permits students to spread payment over three installments. The administrative fee helps defray the extra IT and mailing costs involved in carrying and billing the charges over a longer period of time, as well as the extra personnel required in the Treasurer’s Office to handle the traffic involved with three tuition payments per semester instead of one.

Iowa State University offers a deferment option for employees of businesses and organizations that provide tuition reimbursement programs. To enroll in the Employer Reimbursement Deferment Plan, please complete our online form found on AccessPlus in the following location: AccessPlus>Student tab>Account/U-Bill>Empl Reimb Defer. With successful enrollment in the deferment plan prior to each semester, all applicable charges will be due 30 days after grades are presented. A non-deferrable $35 enrollment fee will be assessed to the student U-Bill after successful enrollment into the deferment plan. Students will be responsible for payment of any non-deferred charges on their U-Bill in accordance with statement due dates.

Iowa State University employees will need to submit a tuition reimbursement request prior to the posted deadline, via AccessPlus>Employee tab>Tuition Reimburse, and obtain approval through University Human Resources. For additional information about eligibility requirements and semester application periods for the Tuition Reimbursement Program, please visit University Human Resources’ website (https://www.hr.iastate.edu/benefits/addlbenefits).

For more information about the Employer Reimbursement Deferment Plan, contact Holly Hohanshelt in the Accounts Receivable Office at (515) 294-4786 or hho@iastate.edu.

Installment Payment Plan: This administrative charge is assessed to those who elect the Iowa State University Installment Plan. This plan will allow students to pay tuition, room, board, fees, and accounts receivable costs in twelve equal monthly installments. The $50 annual application fee will defray the extra IT and mailing costs associated with carrying the charges over a longer period of time, as well as the bank fees associated with the direct debit of payments.

Past Due Accounts: If students have past due accounts receivable charges prior to the beginning of classes, they may be dropped from enrollment if these past due charges are not paid by the Friday before the first day of class. Students that are subject to being dropped will be notified via their Iowa State e-mail account.

Refunds: Refunds are available for students who cancel or withdraw their registration within the appropriate time period. To cancel their registration, students must notify the Office of the Registrar before the first day of the semester to avoid tuition assessment. Beginning on the first day of the semester, it will be necessary for students to formally withdraw from the university to terminate their registration. More information about canceling registration and withdrawing from classes can be found at http://www.registrar.iastate.edu/registration/responsibilities.shtml

Tuition adjustments for all students are made for withdrawals of registration according to the following schedule:

Withdrawal Date/Student Pays

Before first day of classes: 0%
During class days 1-5: 10%
During class days 6-10: 25%
During class days 11-15: 50%
During class days 16-20: 75%
After the twentieth day of classes: 100%

Students who wish to appeal tuition and fee assessment for withdrawals should contact the Scheduling & Fees area of the Office of the Registrar. Decisions of the Office of the Registrar will be based on the existence of extenuating circumstances beyond the control of the student.

Students who wish to appeal the decision of the Office of the Registrar must do so in writing within 10 calendar days after receiving the decision. Such appeals will then be reviewed by the Tuition Appeals Review Committee. Students who wish to appeal the decision of the Tuition Appeals Review Committee may make a request to do so in writing to the Office of the Provost. Fee refund for students with a reduction in credits below full-time: 100 percent if change is made through the 10th day of classes. No adjustment is made after the 10th day of classes. Prorated adjustments in the tuition adjustment schedule are made for summer session courses, or any courses which are less than one semester in length (79 days).

Workshop and Short Courses Refunds: Students who drop workshops or short courses of one or two weeks on or before the first class meeting receive a 100% tuition adjustment for the course. No tuition adjustment will be made after the first day of classes. Students who drop three-week courses receive a 100% adjustment if they drop on or before the first day of classes, a 90% adjustment if they drop on the second day of classes, and no adjustment after the second day of classes.
Veterans and Eligible Dependents Receiving Educational Assistance

In accordance with the requirements of the Servicemembers Improved Transition through Reforms for Ensuring Progress Act (SIT-REP Act, December 31, 2018), the University will not impose any late fee, deny access to classes or facilities, or assess any other penalty to a Veteran or eligible dependent due to a late payment from the Veterans Administration (VA).

This policy is only applicable to Veterans or eligible dependents who are receiving educational assistance under Chapters 31 (VR&E) or 33 (Post 9/11 and Fry Scholarship) of title 38, United States Code (U.S.C.). In accordance with the SIT-REP Act, students receiving VA educational benefits from Chapter 31 or 33 must provide a certification of eligibility for entitlement of educational assistance to the Office of the Registrar. Nothing in this policy precludes the University from assessing a late fee, denial of access, or any other penalty in relation to payments due the University that are not covered under the SIT-REP Act.

For purposes of this policy, the following terms will be defined as:

- **Late Fee**: A financial penalty, equal to 1% of the outstanding balance, charged to discourage late payment of university bills.
- **Denial of Access**: To prohibit entry, participation, or attendance to an event or facility otherwise afforded to all registered students.
- **Any Other Penalty**: Any other fee, prohibition, or assessment levied upon a student for failure to pay required tuition and fees.

ACCOUNTING (ACCT)

Any experimental courses offered by ACCT can be found at:
registrar.iastate.edu/faculty-staff/courses/explistings/ (http://
www.registrar.iastate.edu/faculty-staff/courses/explistings)

Courses primarily for undergraduates:

ACCT 215: Legal Environment of Business
(3-0) Cr. 3. F.S.SS.
Prereq: Sophomore classification
General history, structure, and principles of the US legal system. The legal
system, as an agency of social control and tool for resolving disputes.
The court systems, Constitution, torts, crimes, intellectual property,
contracts, property rights, employment law, basic business entity law,
bankruptcy, administrative agencies, environmental law and agency law.

ACCT 284: Financial Accounting
(3-0) Cr. 3. F.S.SS.
Introduction to the basic concepts and procedures of financial
accounting from a user perspective. The course examines the accounting
cycle, business terminology, basic control procedures, and the
preparation and evaluation of financial reports, with an emphasis on
financial statement analysis.

ACCT 285: Managerial Accounting
(3-0) Cr. 3. F.S.SS.
Prereq: ACCT 284
Understanding of fixed and variable costs and their role in planning,
control and performance evaluation. Examination of alternative costing
methods. Making decisions by identifying and developing relevant
information. Development of spreadsheet skills.

ACCT 301: The Accounting Cycle
(1-0) Cr. 1. F.S.SS.
Prereq: ACCT 284
Interactive computer-based analysis of the accounting cycle including
transactions and financial statements. Preparation of journal entries and
adjusting entries and completion of the closing process.

ACCT 315: Business Data Streams and Issues
(Cross-listed with MIS). Cr. 3. Alt. F., offered even-numbered years. Alt. S.,
ofered odd-numbered years SS.
Prereq: COM S 113, MIS 301, ACCT 284
Identification of open data sources and other private data sources.
Develop methods of data access, collection, and sharing; develop
methods to validate and standardize data sources; develop methods to
assess data worthiness (risk).

ACCT 316: Business Law
(3-0) Cr. 3. F.S.
Prereq: ACCT 215
Continuation of 215. The Uniform Commercial Code as applied to sales
contracts and negotiable instruments. Property law, wills and estates,
insurance, secured transactions, corporation law, partnership law and
antitrust law.

ACCT 383: Intermediate Managerial Accounting
(3-0) Cr. 3. F.S.
Prereq: ACCT 285 or ACCT 501; and ACCT 301
Generation, communication and use of information to assist
management with planning, control, and decision making in
manufacturing and service organizations. Includes cost concepts and
relevance to decision situations, operational and capital budgeting, and
performance evaluation. Emphasis on developing effective teamwork
skills as well as spreadsheet capabilities.

ACCT 384: Accounting Information Systems and Analytics
(3-0) Cr. 3.
Prereq: ACCT 285 or ACCT 501; ACCT 301 and MIS 301
Concepts and procedures underlying creating, sharing, reporting, storing,
and analyzing accounting data. Information technology internal controls
and audit techniques. Trends in accounting information systems.

ACCT 386: Intermediate Accounting I
(3-0) Cr. 3. F.S.
Prereq: ACCT 285 and ACCT 301
The conceptual framework of financial accounting. Communication of
financial information on the income and retained earnings statements,
statement of cash flows, and the balance sheet. Accounting concepts
relating to current and operational assets of the firm.

ACCT 387: Intermediate Accounting II
(3-0) Cr. 3. F.S.
Prereq: Minimum of C- in ACCT 386
Financial accounting and reporting practices for business entities.
Generally accepted accounting principles (GAAP) relative to firm
liabilities, equity, income, taxes, employee benefits, leases, accounting
changes and cash flows. Discussion of current issues in financial
accounting.

ACCT 483: Application and Communication in Managerial Accounting
(Dual-listed with ACCT 583). Cr. 3.
Prereq: ACCT 383 or ACCT 581
Business simulation focusing on generation and communication of
information to assist management with financial decision-making.
Emphasis on developing teamwork, written communication, data
visualization, and oral presentation skills.
ACCT 484: Advanced Accounting Information Systems
(Dual-listed with ACCT 584). (3-0) Cr. 3.
Prereq: ACCT 384
Advanced accounting information systems concepts; database design and information retrieval, internal controls within computerized accounting information systems, financial reporting in an electronic environment.

ACCT 485: Principles of Federal Income Tax
(3-0) Cr. 3. F.S.
Prereq: Minimum of C- in ACCT 386 or ACCT 501
Introduction to the fundamentals of federal income taxation and concepts applicable to all tax entities. Addresses issues related to the measurement and recognition of income, deductions, gains, and losses, taxation of property transactions, and basis/cost recovery concepts. Includes coverage of tax law policy objectives, tax implications of business and investment decisions, tax versus financial reporting treatment of common business transactions, and ethical issues related to tax compliance and planning.

ACCT 487: Volunteer Income Tax Assistance
(Dual-listed with ACCT 587). (0-2) Cr. 1. Repeatable, maximum of 3 credits. S.
Prereq: ACCT 285 or ACCT 501
Introduction to and field work in the preparation of individual income tax returns (state and federal). Basic coverage of filing and residency status, taxable income, exemptions, deductions, and credits. Tax software usage and online filing.

ACCT 488: Governmental and Non-profit Institution Accounting
(Dual-listed with ACCT 588). (3-0) Cr. 3.
Prereq: ACCT 386
Accounting and financial reporting principles of local and state governments, including universities, schools, and hospitals. In addition, accounting and financial reporting of non-profit organizations will be addressed. Financial statements of local governmental units and the university are explored.

ACCT 489: Corporate Social Responsibility Reporting
(Dual-listed with ACCT 589). (3-0) Cr. 3. S.
Prereq: ACCT 386 or ACCT 501
Theory and practice of social and environmental reporting, the role of the corporation in society, and the mechanisms by which society might hold corporations accountable for their actions.

ACCT 490: Independent Study
Cr. 1-3. Repeatable. F.S.S.S.
Prereq: ACCT 285, senior classification, permission of instructor

ACCT 495: Advanced Accounting Problems
(Dual-listed with ACCT 595). (3-0) Cr. 3.
Prereq: ACCT 387
Accounting for business combinations and affiliated companies, intercompany transactions, and consolidated financial statements; Partnership accounting; Segment and Interim Reporting; Multinational accounting.

ACCT 496: Accounting in the Global Economy
(Dual-listed with ACCT 596). (3-0) Cr. 3.
Prereq: ACCT 386 or ACCT 501
Financial reporting issues in a global environment, including introduction to International Financial Reporting Standards (IFRS) and the potential for the use of IFRS in the U.S. Accounting and managerial issues faced by multinational corporations. Technical issues such as transfer pricing, inflation accounting and taxation will be discussed.

ACCT 497: Introduction to Auditing
(3-0) Cr. 3. F.S.
Prereq: ACCT 384, ACCT 387 and STAT 326
The conceptual framework of auditing. Professional ethics. External reporting concepts. Audit methodology including risk analysis, internal control, procedures for gathering evidence and the role of statistical sampling in auditing.

ACCT 498: Capstone in Accounting
(2-0) Cr. 2. F.
Prereq: ACCT 383, ACCT 384, ACCT 387, credit or enrollment in ACCT 485
Integrative studies in accounting. Development of critical thinking, ethical reasoning, professional research and teamwork skills. Written, visual, and oral communication with corporate stakeholders.

Courses primarily for graduate students, open to qualified undergraduates:

ACCT 501: Financial Accounting
(3-0) Cr. 3.
Prereq: Enrollment in MBA program or departmental permission
A general introduction to financial accounting information. Topics covered include the use and analysis of financial information, the regulatory environment, the role of International Financial Reporting Standards (IFRS), and the use of the internet and electronic spreadsheets as a means of accessing and analyzing financial data.
ACCT 571: Real Estate Law
(3-0) Cr. 3.
Prereq: Enrollment in the MRED or instructor permission.
Fundamentals of real estate finance and development from a legal perspective and in a transactional setting. Topics include land acquisition and finance, choice of entity, tax aspects, management, disposition of real property, and recent legal developments. Legal responsibilities of owners, designers, and contractors are also examined by highlighting typical contractual relationships in place throughout the design and construction process.

ACCT 581: Accounting for Decision Making
(3-0) Cr. 3.
Prereq: ACCT 501 or equivalent

ACCT 582: Corporate Governance and Top Management
(Cross-listed with MGMT). (3-0) Cr. 3.
Prereq: MGMT 503 or permission
Duties, structure, and functioning of top management teams and corporate boards of directors. CEO/board tenure and succession planning, top management compensation, board committee composition, assessment of CEO and board performance, theories of corporate governance, management of the corporate strategic agenda, governance codes, international governance, and chairman/CEO duality. Case studies and contemporary issues discussed.

ACCT 583: Application and Communication in Managerial Accounting
(Dual-listed with ACCT 483). Cr. 3.
Prereq: ACCT 383 or ACCT 581
Business simulation focusing on generation and communication of information to assist management with financial decision-making. Emphasis on developing teamwork, written communication, data visualization, and oral presentation skills.

ACCT 584: Advanced Accounting Information Systems
(Dual-listed with ACCT 484). (3-0) Cr. 3.
Prereq: ACCT 384
Advanced accounting information systems concepts; database design and information retrieval, internal controls within computerized accounting information systems, financial reporting in an electronic environment.

ACCT 585: Taxes and Business Strategy
(3-0) Cr. 3.
Prereq: ACCT 485
Integration of concepts from accounting, finance, and economics to determine how taxes affect business decisions. Provides students with a conceptual framework for thinking about business tax planning and applies it to various common business decisions.

ACCT 586: Advanced Federal Taxation
(3-0) Cr. 3.
Prereq: ACCT 485
Advanced coverage of federal taxation including issues related to the taxation of corporations, partnerships, estates and trusts, and their owners. Includes coverage of rules, concepts, background, and planning opportunities related to a number of common transactions involving these entities.

ACCT 587: Volunteer Income Tax Assistance
(Dual-listed with ACCT 487). (0-2) Cr. 1. Repeatable, maximum of 3 credits. S.
Prereq: ACCT 285 or ACCT 501
Introduction to and field work in the preparation of individual income tax returns (state and federal). Basic coverage of filing and residency status, taxable income, exemptions, deductions, and credits. Tax software usage and online filing.

ACCT 588: Governmental and Non-profit Institution Accounting
(Dual-listed with ACCT 488). (3-0) Cr. 3.
Prereq: ACCT 386
Accounting and financial reporting principles of local and state governments, including universities, schools, and hospitals. In addition, accounting and financial reporting of non-profit organizations will be addressed. Financial statements of local governmental units and the university are explored.

ACCT 589: Corporate Social Responsibility Reporting
(Dual-listed with ACCT 489). (3-0) Cr. 3. S.
Prereq: ACCT 386 or ACCT 501
Theory and practice of social and environmental reporting, the role of the corporation in society, and the mechanisms by which society might hold corporations accountable for their actions.

ACCT 590: Special Topics
Cr. 1-3. Repeatable. F.S.S.
Prereq: Permission of instructor
For students wishing to do individual research in a particular area of accounting.
ACCT 591: Fraud Examination and Prevention
(3-0) Cr. 3.
Prereq: ACCT 497 or ACCT 501
Principles and methodology of fraud detection and deterrence. Addresses
the causes and elements of fraud, asset theft, corruption, financial
statement mis-representation, internal controls for fraud prevention,
investigative evidence gathering, and legal aspects of fraud.

ACCT 592: Financial Statement Analysis
(3-0) Cr. 3.
Prereq: ACCT 386 or ACCT 501
Presentation and analysis of financial statement information from the
point of view of the primary users of such data: owners and creditors.
Topics include the financial reporting system, the primary financial
statements, effects of accounting method choice on reported financial
data, and firm valuation.

ACCT 594: Business Valuation
(3-0) Cr. 3.
Prereq: ACCT 387 or ACCT 592
Using financial statement analysis to value the firm. Topics covered
include assessing how well a firm's financial statements reflect
the economic effects of its resource management strategies and
constructing proforma financial information that will serve as inputs to
valuation models.

ACCT 595: Advanced Accounting Problems
(Dual-listed with ACCT 495). (3-0) Cr. 3.
Prereq: ACCT 387
Accounting for business combinations and affiliated companies,
intercompany transactions, and consolidated financial statements;
Partnership accounting; Segment and Interim Reporting; Multinational
accounting.

ACCT 596: Accounting in the Global Economy
(Dual-listed with ACCT 496). (3-0) Cr. 3.
Prereq: ACCT 386 or ACCT 501
Financial reporting issues in a global environment, including introduction
to International Financial Reporting Standards (IFRS) and the potential
for the use of IFRS in the U.S. Accounting and managerial issues faced
by multinational corporations. Technical issues such as transfer pricing,
inflation accounting and taxation will be discussed.

ACCT 597: Advanced Auditing and Assurance Services
(3-0) Cr. 3.
Prereq: ACCT 497
A study of advanced auditing and assurance issues. Topics include
auditor independence, audit risk analysis, internal control evaluation and
reporting, fraud detection, data analytic applications in auditing, audit
reporting, auditors’ legal liability, and non-financial information assurance.

(3-0) Cr. 3. F.
Prereq: ACCT 386 or ACCT 501
Theoretical discussion of the financial accounting and reporting
environment. The usefulness of financial accounting information for
decision making. Current financial accounting issues, the financial
accounting standard setting process, FASB Standards Codification, and
the role of the SEC in financial reporting.

ACCT 599: Creative Component
Cr. 2.
Prereq: Admission to the Master of Accounting Program
This course prepares students to complete their creative component
project option in the Master of Accounting degree.
ADVERTISING (ADVRT)

Any experimental courses offered by ADVRT can be found at:
registrar.iastate.edu/faculty-staff/courses/explistings/ (http://www.registrar.iastate.edu/faculty-staff/courses/explistings)

Courses primarily for undergraduates:

ADVRT 230: Advertising Principles
(3-0) Cr. 3.
Historical, social, economic and legal aspects of advertising. Evaluations of advertising research, media, strategy and appeals. Study of the creation of advertising.

ADVRT 301: Research and Strategic Planning for Advertising and Public Relations
(Cross-listed with P R). (3-0) Cr. 3.
Prereq: ADVRT 230 or P R 220
The use of primary and secondary research for situations, organizations and the public. Formation and development of strategic plans for public relations and advertising students.

ADVRT 334: Advertising Creativity
(2-1) Cr. 3.
Prereq: JL MC 110; Minimum of C+ in JL MC 201; ADVRT 301/P R 301
Development and execution of creative advertising materials. Copywriting, art direction and computer applications. Creative strategy development, execution and evaluation.

ADVRT 335: Advertising Media Planning
(3-0) Cr. 3.
Prereq: ADVRT/P R 301
Concepts of media planning and selection in the development, execution and evaluation of advertising campaigns. Characteristics and capabilities of the advertising media. Utilization of market segmentation, consumer buying and media audience databases.

ADVRT 336: Advertising Account Management
(3-0) Cr. 3.
Prereq: JL MC 110; Minimum of C+ in JL MC 201; ADVRT/P R 301
Fundamentals of account management with emphasis on leadership, sales techniques, relationship building, presentation skills, and strategic thinking. Includes aspects of agency communications, team building, client management, evaluating creative concepts and media plans, and developing strategic proposals and campaign recommendations.

ADVRT 390: Professional Skills Development
(Cross-listed with JL MC, P R). Cr. 1-3. Repeatable, maximum of 6 credits. F.S.
Prereq: Minimum of C+ in JL MC 201; other vary by topic. Instructor permission for non-majors.
Check with Greenlee School for course availability.

ADVRT 434: Advertising Campaigns
(3-0) Cr. 3. F.S.
Prereq: Minimum of C+ in ADVRT 334 or ADVRT 336, and major status
Development of advertising campaigns for business and social institutions. Projects involve budgeting, media selection, market analysis, campaign strategy and creative execution.

ADVRT 435: Advertising Competition
Prereq: Permission of instructor, Junior/senior standing strongly recommended
Preparation of materials for regional and national competitions.

ADVRT 436: Advertising Portfolio Practicum
(3-0) Cr. 3. S.
Prereq: Minimum of C+ in ADVRT 334, non-majors with instructor permission
Advanced advertising writing and design. Emphasis on creative strategy, problem solving and execution of creative materials in print, broadcast and online media for a variety of clients.

ADVRT 490: Independent Study in Communication
Cr. arr.
Prereq: Junior classification and contract with supervising professor to register
Projects during which students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a reportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. No more than 3 credits of ADVRT/JLMC/PR 490 may be used toward a degree in the Greenlee School.

ADVRT 497: Special Topics in Communication
Prereq: Junior classification. See Schedule of Classes for possible prerequisites.
Seminars or one-time classes on topics of relevance to students in communication.
ADVRT 499: Professional Media Internship
Cr. 1-3. F.S.S.
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 202 or JL MC 206 or PR 321; ADVRT majors: JLMC 110 and minimum of C+ in JL MC 201 and ADVRT 301; PR majors: JLMC 110, PR 301 and minimum of C+ in PR 321. All students, formal faculty adviser approval.
Required of all Greenlee School majors. A 400-hour (for 3 credits) internship in the student's journalism and mass communication or advertising or public relations specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

ADVRT 499A: Professional Media Internship: Required
Cr. 3. F.S.S.
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 302 or JL MC 306; ADVRT majors: JLMC 110 and minimum of C+ in JL MC 201 and ADVRT 301; PR majors: JLMC 110, PR 301 and minimum of C+ in PR 321. All students, formal faculty adviser approval.
Initial, required internship. A 400-hour (for 3 credits) internship in the student's specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

ADVRT 499B: Professional Media Internship: Optional
Cr. 1-3. F.S.S.
Prereq: JL MC majors: JLMC 110 and minimum of C+ in JL MC 302 or JL MC 306; ADVRT majors: JLMC 110 and minimum of C+ in JL MC 201 and ADVRT 301; PR majors: JLMC 110, PR 301 and minimum of C+ in PR 321. All students, formal faculty adviser approval.
Optional internship in the student's specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.
AEROSPACE ENGINEERING (AER E)

Any experimental courses offered by AER E can be found at: registrar.iastate.edu/faculty-staff/courses/explistings/ (http://www.registrar.iastate.edu/faculty-staff/courses/explistings)

Courses primarily for undergraduates:

AER E 160: Aerospace Engineering Problems With Computer Applications Laboratory
(2-2) Cr. 3. F.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

AER E 160H: Aerospace Engineering Problems With Computer Applications Laboratory: Honors
(2-2) Cr. 3. F.S.
Prereq: MATH 143 or satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 165

AER E 161: Numerical, Graphical and Laboratory Techniques for Aerospace Engineering
(2-2) Cr. 3. F.S.
Prereq: Credit or enrollment in AER E 160 or equivalent course
Computer-based problem solving using Matlab(R), with emphasis on numerical methods. Introduction to solid modeling and aerospace design using SolidWorks.

AER E 161H: Numerical, Graphical and Laboratory Techniques for Aerospace Engineering: Honors
(2-2) Cr. 3. F.S.
Prereq: AER E 160 or equivalent course
Computer-based problem solving using Matlab(R), with emphasis on numerical methods. Introduction to solid modeling and aerospace design using SolidWorks.

AER E 192: Aerospace Seminar
Cr. R. S.
Vectors, differentiation, integration, matrices, and systems of linear equations.

Cr. R. S.
Vectors, differentiation, integration, matrices, and systems of linear equations.

AER E 261: Introduction to Performance and Design
(3-0) Cr. 3. F.S.
Prereq: MATH 166, PHYS 221, credit or enrollment in AER E 161
Aerodynamics of the airplane, lift and drag, drag polar, propulsion characteristics of turbojets and piston props, level flight, range, endurance, climbing flight, turning flight, take-off and landing, design examples.

AER E 265: Scientific Balloon Engineering and Operations
(Cross-listed with MTEOR). (0-2) Cr. 1. Repeatable. F.
Engineering aspects of scientific balloon flights. Integration of science mission objectives with engineering requirements. Operations team certification. FAA and FCC regulations, communications, and command systems. Flight path prediction and control.

AER E 290: Aerospace Engineering Independent Study: Independent Study
Cr. 1-2. Repeatable.
Prereq: Sophomore classification, approval of the department

AER E 290A: Aerospace Engineering Independent Study: Flight ground instruction
Cr. 1-2. Repeatable.
Prereq: Sophomore classification, approval of the department

AER E 290B: Aerospace Engineering Independent Study: In-flight training
Cr. 1-2. Repeatable.
Prereq: AER E 301

AER E 290C: Aerospace Engineering Independent Study: Other
Cr. 1-2. Repeatable.
Prereq: AER E 301
AER E 294: Make to Innovate I
Cr. 1. Repeatable, maximum of 3 credits. F.S.
Prereq: Restricted to Freshman and Sophomore classifications, Instructor permission required.
Multidisciplinary projects to engage students in the fundamentals of engineering, project management, systems engineering, teamwork, and oral and visual communication. Students will define and attain their team objectives and milestones that are approved by the instructor. Can only be used toward graduation in these cases. To make credit deficiencies in 100 or 200 level courses. No more than 2 credits of Aer E 294X can be used to make-up credit deficiencies in 100 or 200 level courses. Cannot be used in any category or technical electives in the Aer E curriculum

AER E 301: Flight Experience
Cr. R. F.S.
Prereq: Credit or enrollment in AER E 355
Two hours of in-flight training and necessary ground instruction. Course content prescribed by the Aerospace Engineering Department. Ten hours of flight training certified in a pilot log book can be considered by the course instructor as evidence of satisfactory performance in the course. Offered on a satisfactory-fail basis only.

AER E 310: Aerodynamics I: Incompressible Flow
(3-0) Cr. 3. F.S.
Prereq: Grade of C- or better in AER E 261 and MATH 265

AER E 311: Aerodynamics II: Compressible Flow
(3-0) Cr. 3. F.S.
Prereq: AER E 310, M E 231

AER E 321: Flight Structures Analysis
(3-0) Cr. 3. F.S.
Prereq: E M 324, Credit or enrollment in MATH 266 or 267

AER E 322: Aerospace Structures Laboratory
(1-2) Cr. 2. F.S.
Prereq: Credit or enrollment in AER E 321
Design of experiments. Data analysis. Strain gage installation.

AER E 331: Flight Control Systems I
(3-0) Cr. 3. F.S.
Prereq: AER E 355
Linear system analysis. Control system designs using root-locus and frequency response methods. Applications in flight control systems.

AER E 344: Aerodynamics and Propulsion Laboratory
(2-2) Cr. 3. F.S.
Prereq: AER E 310; Coreq: AER E 311

AER E 351: Astrodynamics I
(3-0) Cr. 3. F.S.
Prereq: E M 345

AER E 355: Aircraft Flight Dynamics and Control
(3-0) Cr. 3. F.S.
Prereq: AER E 261, MATH 267, E M 345
Aircraft rigid body equations of motion, linearization, and modal analysis. Longitudinal and lateral-directional static and dynamic stability analysis. Flight handling characteristics analysis. Longitudinal and lateral-directional open loop response to aircraft control inputs. Aircraft flight handling qualities.

AER E 361: Computational Techniques for Aerospace Design
(2-2) Cr. 3. F.S.
Prereq: AER E 310, MATH 267, E M 324, E M 345
Advanced programming, workstation environment, and development of computational tools for aerospace analysis and design. Technical report writing.
AER E 362: Aerospace Systems Integration  
(3-0) Cr. 3. F.S.  
Prereq: Junior standing in Aerospace Engineering or permission of instructor  
Emphasis on impact of component interfaces in aerospace systems. Understand how changes in variables associated with individual components impact the performance of the aerospace system. Specific integration challenges include: capturing implicit disciplinary interactions (e.g. structures/aerodynamics, propulsion/aerodynamics, etc.), propagating tolerances through the system (i.e. uncertainty modeling), balancing component attributes in the system objective.

AER E 381: Introduction to Wind Energy  
(3-0) Cr. 3. S.  
Prereq: MATH 166, PHYS 221  
Basic introduction to the fundamentals of Wind Energy and Wind Energy conversion systems. Topics include but not limited to various types of wind energy conversion systems and the aerodynamics, blade and tower structural loads, kinematics of the blades and meteorology.

AER E 396: Summer Internship  
Cr. R. Repeatable. SS.  
Prereq: Permission of department and Engineering Career Services  
Professional work period of at least 10 weeks during the summer. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

AER E 398: Cooperative Education  
Cr. R. Repeatable. F.S.  
Prereq: Permission of department and Engineering Career Services.  
Professional work period. One semester per academic or calendar year. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

AER E 411: Aerospace Vehicle Propulsion I  
(3-0) Cr. 3. F.S.  
Prereq: AER E 311, AER E 344  

AER E 412: Aerospace Vehicle Propulsion II  
(3-0) Cr. 3. S.  
Prereq: AER E 311  
AER E 432: Flight Control Systems II  
(3-0) Cr. 3. F.  
Prereq: AER E 331  

AER E 433: Spacecraft Dynamics and Control  
(3-0) Cr. 3. F.  
Prereq: EM 345  
Three-dimensional rotational kinematics and attitude dynamics of a rigid body in space. Stability analysis of a spinning spacecraft with or without energy dissipation. Attitude dynamics and stability of a satellite in circular orbit. Introduction to spacecraft attitude determination and control systems (ADCS). Simulation of spacecraft attitude-dynamics and control problems of practical interest using MATLAB.

AER E 442: V/STOL Aerodynamics and Performance  
(3-0) Cr. 3. F.  
Prereq: AER E 261  
Introduction to the aerodynamics, performance, stability, control and critical maneuvering characteristics of V/STOL vehicles. Topics include hovercrafts, jet flaps, ducted fans and thrust vectored engines.

AER E 446: Computational Fluid Dynamics  
(3-0) Cr. 3. F.  
Prereq: AER E 311, AER E 361 and proficiency in at least one programming language  

AER E 448: Fluid Dynamics of Turbomachinery  
(Cross-listed with M E). (3-0) Cr. 3. S.  
Prereq: AER E 311 or M E 335  
Applications of principles of fluid mechanics and thermodynamics in performance analysis and design of turbomachines. Conceptual and preliminary design of axial and radial flow compressors and turbines using velocity triangles and through-flow approaches.

AER E 451: Astrodynamics II  
(3-0) Cr. 3. F.S.  
Prereq: AER E 351  
Orbit determination and prediction using Gibb’s and Gauss’ methods. Advanced orbit maneuvers, triple-, and fixed-impulse; universal variables; Kepler’s problem. Earth gravity field models and gravity harmonics, orbit perturbations, advanced dynamics, variational methods, relative orbital mechanics, and Clohessy-Wiltshire equations.

AER E 461: Modern Design Methodology with Aerospace Applications  
(2-2) Cr. 3. F.S.  
Prereq: AER E 361, AER E 311, AER E 321, AER E 322, AER E 344, AER E 351, AER E 355  
Introduction to modern engineering design methodology. Computational constrained optimal design approach including selection of objective function, characterization of constraint system, materials and strength considerations, and sensitivity analyses.

AER E 462: Design of Aerospace Systems  
(1-4) Cr. 3. F.S.  
Prereq: AER E 461  
Fundamental principles used in engineering design of aircraft, missile, and space systems. Preliminary design of aerospace vehicles. Engineering Ethics.

AER E 463: Introduction to Multidisciplinary Design Optimization  
(Dual-listed with AER E 563). (3-0) Cr. 3. F.  
Prereq: senior standing in College of Engineering or permission of instructor  
Introduction to the theory and methods of Multidisciplinary Design Optimization (MDO), including system coupling, system sensitivity methods, decomposition methods, MDO formulations (such as multi-discipline feasible (MDF), individual discipline feasible (IDF) and all-at-once (AAO) approaches, and MDO search methods.

AER E 464: Spacecraft Systems  
(3-0) Cr. 3. S.  
Prereq: AER E 351  
An examination of spacecraft systems including attitude determination and control, power, thermal control, communications, propulsion, guidance, navigation, command and data handling, and mechanisms. Explanation of space and operational environments as they impact spacecraft design. Includes discussion of safety, reliability, quality, maintainability, testing, cost, legal, and logistics issues.
AER E 466: Multidisciplinary Engineering Design
(Cross-listed with A B E, B M E, CPR E, E E, ENGR, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S.
Prereq: Student must be within two semesters of graduation; permission of instructor.
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

AER E 467: Multidisciplinary Engineering Design II
Prereq: Student must be within two semesters of graduation or receive permission of instructor.
Build and test of a conceptual design. Detail design, manufacturability, test criteria and procedures. Application of design tools such as CAD and CAM and manufacturing techniques such as rapid prototyping. Development and testing of a full-scale prototype with appropriate documentation in the form of design journals, written reports, oral presentations and computer models and engineering drawings.

AER E 468: Large-Scale Complex Engineered Systems (LSCES)
(Dual-listed with AER E 568). (Cross-listed with I E). (3-0) Cr. 3. S.
Prereq: senior standing in College of Engineering or permission of AerE 468 instructor
Introduction to the theoretical foundation and methods associated with the design for large-scale complex engineered systems, including objective function formation, design reliability, value-driven design, product robustness, utility theory, economic factors for the formation of a value function and complexity science as a means of detecting unintended consequences in the product behavior.

AER E 480: Ultrasonic Nondestructive Evaluation
(Cross-listed with E M). (3-0) Cr. 3. S.
Prereq: E M 324, MATH 266 or MATH 267, PHYS 222
Introduction to stress/strain, Hooke’s law, and elastic wave propagation in two dimensions in isotropic media. Ultrasonic plane-wave reflection and transmission; and simple straight-crested guided waves. Transducer construction, behavior, and performance. Simple signal analysis and discrete signal processing. The last few weeks of the course are devoted to case studies.

AER E 481: Advanced Wind Energy: Technology and Design
(3-0) Cr. 3. S.
Prereq: AER E 381 or senior classification in engineering or junior in engineering with a course in fluid mechanics
Advanced topics in wind energy, emphasis on current practices. Theoretical foundations for horizontal and vertical axis wind turbine. Design codes for energy conversion systems design, aerodynamic and structural load estimation, wind resource characterization wind farm design, optimization.

AER E 483: Aeroacoustics
(Dual-listed with AER E 583). Cr. 3.
Prereq: AER E 311 or M E 335; and MATH 266 or MATH 267
Noise metrics, Linear wave equation and its solution in 1-, 2-, and 3- D using Green’s functions. Propagation of sound in free and confined spaces. Aerodynamic noise sources in engineering machines: aircraft engine noise, airfram noise, wind turbine noise, etc.

AER E 490: Aerospace Engineering Independent Study
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490A: Aerospace Engineering Independent Study: Aero and/or Gas Dynamics
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490B: Aerospace Engineering Independent Study: Propulsion
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490C: Aerospace Engineering Independent Study: Aerospace Structures
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490D: Aerospace Engineering Independent Study: Flight Dynamics
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490E: Aerospace Engineering Independent Study: Spacecraft Systems
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490F: Aerospace Engineering Independent Study: Flight Control Systems
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department
AER E 490G: Aerospace Engineering Independent Study: Aeroelasticity
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490H: Aerospace Engineering Independent Study: Independent Study, Honors
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490I: Aerospace Engineering Independent Study: Design
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490K: Aerospace Engineering Independent Study: Wind Engineering
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 490O: Aerospace Engineering Independent Study: Other
Cr. 1-6. Repeatable.
Prereq: Junior or senior classification, approval of the department

AER E 499: Senior Project
Cr. 1-2. Repeatable. F.S.
Prereq: Senior classification, credit or enrollment in AER E 491
Development of aerospace principles and concepts through individual research and projects. Written report.

Courses primarily for graduate students, open to qualified undergraduates:

AER E 501: Advanced Engineering Analysis
(3-0) Cr. 3. F.
Prereq: Math 267 or equivalent
Linear ordinary differential equations with variable coefficients; hyperbolic, parabolic, and elliptic equations; tensors. None

AER E 511: Wind Energy System Design
(Cross-listed with WESEP). (3-0) Cr. 3.
Prereq: WESEP 501 and WESEP 502
Advanced design, control, and operation of wind plants. Topics include electromechanical energy conversion systems, aerodynamic and aeroelastic loads, optimal control of wind farms, life cycle management strategies, tall tower design, and prediction of component residual life.

AER E 514: Advanced Mechanics of Materials
(Cross-listed with E M). (3-0) Cr. 3. F.
Prereq: E M 324

AER E 517: Experimental Mechanics
(Dual-listed with AER E 417). (Cross-listed with E M). (2-2) Cr. 3. Alt. F., offered even-numbered years.
Prereq: E M 324; MAT E 273
Introduction to fundamental concepts for force, displacement, stress and strain measurements for structures and materials applications. Strain gage theory and application. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro- and nano-scale regimes. Selected laboratory experiments.

AER E 521: Airframe Analysis
(3-0) Cr. 3. F.
Prereq: AER E 421 or E M 424
Analysis of static stresses and deformation in continuous aircraft structures. Various analytical and approximate methods of analysis of isotropic and anisotropic plates and shells.

AER E 522: Design and Analysis of Composite Materials
(3-0) Cr. 3. F.
Prereq: E M 324
Composite constituent materials, micro-mechanics, laminate analysis, hygro-thermal analysis, composite failure, joining of composites, design of composite beams and plates, honeycomb core, manufacturing of composites, short fiber composites, and demonstration laboratory.

AER E 524: Numerical Mesh Generation
(3-0) Cr. 3. F.
Prereq: MATH 385, proficiency in programming
Introduction to modern mesh generation techniques. Structured and unstructured mesh methods, algebraic and PDE methods, elliptic and hyperbolic methods, variational methods, error analysis, Delaunay triangulation, data structures, geometric modeling with B-spline and NURBS surfaces, surface meshing.
AER E 525: Finite Element Analysis
(Cross-listed with E M). (3-0) Cr. 3. S.
Prereq: E M 425, MATH 385
Variational and weighted residual approach to finite element equations. Emphasis on two- and three-dimensional problems in solid mechanics. Isoparametric element formulation, higher order elements, numerical integration, imposition of constraints and penalty, convergence, and other more advanced topics. Use of two- and three-dimensional computer programs. Dynamic and vibrational problems, eigenvalues, and time integration. Introduction to geometric and material nonlinearities.

AER E 526: Design of Aerospace Structures
(Dual-listed with AER E 426). (2-2) Cr. 3. F.
Prereq: E M 324
Detailed design and analysis of aerospace vehicle structures. Material selection, strength, durability and damage tolerance, and validation analysis. Design for manufacturability.

AER E 531: Automatic Control of Flight Vehicles
(3-0) Cr. 3. S.
Prereq: AER E 331
Applications of classical and modern linear control theory to automatic control of flight vehicles. Spacecraft attitude control. Control of flexible vehicles. Linear-quadratic regulator design applications.

AER E 532: Compressible Fluid Flow
(Cross-listed with M E). (3-0) Cr. 3. S.
Prereq: AER E 310, 311 or equivalent

AER E 541: Incompressible Flow Aerodynamics
(3-0) Cr. 3. F.
Prereq: AER E 310 or M E 335 or equivalent

AER E 545: Experimental Flow Mechanics and Heat Transfer
(3-0) Cr. 3. F.
Prereq: AER E 310 or M E 335 or E M 378
Similitude and dimensional analysis. Measurement uncertainty analysis; Fluid mechanical apparatus: wind tunnel and water tunnels. Various experimental techniques widely used for fluid mechanics, aerodynamics, heat transfer, and combustion studies: Pressure gauge and transducers; Pitot tube; hot wire anemometry; Shadowgraph and Schlieren Photography; laser Doppler velocimetry; particle image velocimetry (PIV); advanced PIV techniques (stereo PIV, 3-D PIV, Tomographic PIV, Holograph PIV and microscopic PIV); laser induced fluorescence; pressure sensitive painting, temperature sensitive painting; molecular tagging velocimetry; molecular tagging thermometry. Extensive applications and laboratory experiments will be included.

AER E 546: Computational Fluid Mechanics and Heat Transfer I
(Cross-listed with M E). (3-0) Cr. 3. F.
Prereq: AER E 310 or M E 335, and programming experience

AER E 547: Computational Fluid Mechanics and Heat Transfer II
(Cross-listed with M E). (3-0) Cr. 3. S.
Prereq: AER E 546 or equivalent
Application of computational methods to current problems in fluid mechanics and heat transfer. Methods for solving the Navier-Stokes and reduced equation sets such as the Euler, boundary layer, and parabolized forms of the conservation equations. Introduction to relevant aspects of grid generation and turbulence modeling.

AER E 551: Orbital Mechanics
(3-0) Cr. 3. F.
Prereq: AER E 351

AER E 556: Guidance and Navigation of Aerospace Vehicles
(3-0) Cr. 3. F.
Prereq: AER E 331
AER E 563: Introduction to Multidisciplinary Design Optimization
(Dual-listed with AER E 463). (3-0) Cr. 3. F.
Prereq: senior standing in College of Engineering or permission of instructor
Introduction to the theory and methods of Multidisciplinary Design Optimization (MDO), including system coupling, system sensitivity methods, decomposition methods, MDO formulations (such as multi-discipline feasible (MDF), individual discipline feasible (IDF) and all-at-once (AAO) approaches, and MDO search methods.

AER E 564: Fracture and Fatigue
(Cross-listed with E M, M E, M S E). (3-0) Cr. 3. Alt. F., offered even-numbered years.
Prereq: E M 324 and either MAT E 216 or MAT E 273 or MAT E 392.
Undergraduates: Permission of instructor
Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

AER E 565: Systems Engineering and Analysis
(Cross-listed with E E, I E). (3-0) Cr. 3. 
Prereq: Coursework in basic statistics
Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life-cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test evaluation, and systems engineering planning and organization. Not available for degrees in industrial engineering

AER E 566: Avionics Systems Engineering
(Cross-listed with E E). (3-0) Cr. 3. S.
Prereq: E E 565
Avionics functions. Applications of systems engineering principles to avionics. Top-down design of avionics systems. Automated design tools.

AER E 568: Large-Scale Complex Engineered Systems (LSCES)
(Dual-listed with AER E 468). (Cross-listed with I E). (3-0) Cr. 3. S.
Prereq: senior standing in College of Engineering or permission of AER E 468 instructor
Introduction to the theoretical foundation and methods associated with the design for large-scale complex engineered systems, including objective function formation, design reliability, value-driven design, product robustness, utility theory, economic factors for the formation of a value function and complexity science as a means of detecting unintended consequences in the product behavior.

AER E 569: Mechanics of Composite and Combined Materials
(Cross-listed with E M, M S E). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: E M 324

AER E 570: Wind Engineering
(Cross-listed with E M). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: E M 378, E M 345
Atmospheric circulations, atmospheric boundary layer wind, bluff-body aerodynamics, aeroelastic phenomena, wind-tunnel and full-scale testing, wind-load code and standards, effect of tornado and thunderstorm winds, design applications.

AER E 572: Turbulence
(Cross-listed with CH E). (3-0) Cr. 3.
Prereq: AER E 541 or M E 538

AER E 573: Random Signal Analysis and Kalman Filtering
(Cross-listed with E E, M E). (3-0) Cr. 3. F.
Prereq: E E 324 or AER E 331 or M E 370 or M E 411 or MATH 341

AER E 574: Optimal Control
(Cross-listed with E E, M E). (3-0) Cr. 3. S.
Prereq: E E 577
AER E 575: Introduction to Robust Control
(Cross-listed with E E, M E). (3-0) Cr. 3.
Prereq: E E 577

AER E 576: Digital Feedback Control Systems
(Cross-listed with E E, M E). (3-0) Cr. 3. F.
Prereq: E E 475 or AER E 432 or M E 411 or MATH 415; and MATH 267

AER E 577: Linear Systems
(Cross-listed with E E, M E, MATH). (3-0) Cr. 3. F.
Prereq: E E 324 or AER E 331 or MATH 415; and MATH 207

AER E 578: Nonlinear Systems
(Cross-listed with E E, M E, MATH). (3-0) Cr. 3. S.
Prereq: E E 577

AER E 581: Perturbation Methods
(3-0) Cr. 3. F.
Prereq: MATH 267

AER E 583: Aeroacoustics
(Dual-listed with AER E 483). Cr. 3.
Prereq: AER E 311 or M E 335; and MATH 266 or MATH 267

AER E 590: Aerospace Engineering Independent Study: Special Topics
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590A: Aerospace Engineering Independent Study: Aero and/or Gas Dynamics
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590B: Aerospace Engineering Independent Study: Propulsion
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590C: Aerospace Engineering Independent Study: Aerospace Structures
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590D: Aerospace Engineering Independent Study: Flight Dynamics
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590E: Aerospace Engineering Independent Study: Spacecraft Systems
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590F: Aerospace Engineering Independent Study: Flight Control Systems
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590G: Aerospace Engineering Independent Study: Aeroelasticity
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590H: Aerospace Engineering Independent Study: Viscous Aerodynamics
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590I: Aerospace Engineering Independent Study: Design
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590J: Aerospace Engineering Independent Study: Hypersonics
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590K: Aerospace Engineering Independent Study: Computational Aerodynamics
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590L: Aerospace Engineering Independent Study: Optimization
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 590M: Aerospace Engineering Independent Study: Non Destructive Evaluation
Cr. 1-5. Repeatable, maximum of 3 times.
AER E 590N: Aerospace Engineering Independent Study: Wind Engineering  
Cr. 1-5. Repeatable, maximum of 3 times.

AER E 591: Graduate Student Seminar Series  
Cr. R. Repeatable.  
Presentation of professional topics by department graduate students. Development of presentation skills used in a professional conference setting involving question and answer format.

AER E 599: Creative Component  
Cr. 1-5. Repeatable.

Courses for graduate students:

AER E 640: Stability of Fluid Flow  
(3-0) Cr. 3.  
Prereq: AER E 541  
Theoretical methods of stability analysis; linear analysis of exchange of stability and over stability; bifurcation of equilibria; most dangerous modes and pattern formation; shear flow stability theorems. Physical mechanisms. Tollmein-Schlichting waves, disintegration of capillary jets, Benard convection, Taylor-Couette flow, centrifugal instability, double diffusion.

AER E 647: Advanced Computational Fluid Dynamics  
(Cross-listed with M E). (3-0) Cr. 3. S.  
Prereq: AER E 547  

AER E 690: Aerospace Engineering Independent Study: Advanced Topics  
Cr. 1-5. Repeatable.

AER E 690A: Aerospace Engineering Independent Study: Aero and/or Gas Dynamics  
Cr. 1-5. Repeatable.

AER E 690B: Aerospace Engineering Independent Study: Propulsion  
Cr. 1-5. Repeatable.

AER E 690C: Aerospace Engineering Independent Study: Aerospace Structures  
Cr. 1-5. Repeatable.

AER E 690D: Aerospace Engineering Independent Study: Flight Dynamics  
Cr. 1-5. Repeatable.

AER E 690E: Aerospace Engineering Independent Study: Spacecraft Systems  
Cr. 1-5. Repeatable.
AFRICAN AMERICAN STUDIES (AF AM)

Any experimental courses offered by AF AM can be found at: registrar.iastate.edu/faculty-staff/courses/explistings/ (http://www.registrar.iastate.edu/faculty-staff/courses/explistings)

Courses primarily for undergraduates:

AF AM 201: Introduction to African American Studies
(3-0) Cr. 3. F.S.
An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience.

AF AM 311: Africa under Colonial Rule
(Cross-listed with HIST). (3-0) Cr. 3.
Prereq: 3 credits of 200-level HIST at Iowa State, and sophomore classification.
Development of Africa from imposition of colonial rule to independence, including processes of European domination, African reaction and resistance, emergence of nationalism, and dismantling of colonialism. Meets International Perspectives Requirement.

AF AM 325: Peoples and Cultures of Africa.
(Cross-listed with ANTHR). (3-0) Cr. 3.
Prereq: 201 or 306 recommended.
Survey of diverse African culture areas across the continent and globally; local level description and analysis of individuals as members of African communities; regional, national and global scales of identification. Meets International Perspectives Requirement.

AF AM 330: Ethnic and Race Relations
(Cross-listed with SOC). (3-0) Cr. 3. F.S.SS.
Prereq: SOC 134
Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations. Meets U.S. Diversity Requirement

AF AM 334: African American Religious Experience
(Cross-listed with RELIG). (3-0) Cr. 3. F.
Prereq: Prior course work in Religious Studies or African American Studies recommended
Examination of African-American experience from the perspective of black religion with attention to political, economic, social, theological and artistic expressions, including music, that serve the life of African-American communities.
Meets U.S. Diversity Requirement

AF AM 347: Studies in African American Literature
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: ENGL 250
Literature by African Americans, which may include study of individual authors, movements, themes, genres.
Meets U.S. Diversity Requirement

AF AM 350: Women of Color in the U.S
(Cross-listed with WGS). (3-0) Cr. 3. S.
Prereq: 3 credits in WGS or AF AM
Economic, social, political and cultural roles of Women of Color in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored.
Meets U.S. Diversity Requirement

AF AM 353: History of African Americans I
(Cross-listed with HIST). (3-0) Cr. 3. S.
Prereq: Sophomore classification
Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.
Meets U.S. Diversity Requirement

AF AM 354: History of African Americans II
(Cross-listed with HIST). (3-0) Cr. 3. S.
Prereq: Sophomore classification
Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.
Meets U.S. Diversity Requirement
AF AM 460: Seminar in African American Culture
(3-0) Cr. 3. S.
Intensive study of a selected topic in African-American Studies in one or more disciplines. Selected readings of various authors, movements, eras, or genres. Primary and secondary source materials.
Meets U.S. Diversity Requirement

AF AM 473: Civil Rights and Ethnic Power
(Cross-listed with HIST, US LS). (3-0) Cr. 3.
Prereq: Sophomore classification
Comparative history of the civil rights and ethnic power movements (African American, Chicano, American Indian, Puerto Rican, among others) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights.
Meets U.S. Diversity Requirement

AF AM 490: Independent Study
Cr. 1-3. Repeatable, maximum of 3 times.
AGRICULTURAL AND BIOSYSTEMS ENGINEERING (A B E)

Any experimental courses offered by A B E can be found at: registrar.iastate.edu/faculty-staff/courses/explistings/ (http://www.registrar.iastate.edu/faculty-staff/courses/explistings)

Courses primarily for undergraduates:

A B E 102: Learning Communities
Cr. 0.5. F.
8 week learning communities course focusing on student success, engineering, and department curriculum. Building community within the ABE Department. Offered on a satisfactory-fail basis only.

A B E 110: Experiencing Agricultural and Biosystems Engineering (0-2) Cr. 1. S.
Laboratory-based, team-oriented experiences in a spectrum of topics common to the practice of agricultural and biosystems engineering. Report writing, co-ops, internships, careers, registration planning.

A B E 160: Systematic Problem Solving and Computer Programming (2-2) Cr. 3. S.
Prereq: Credit or enrollment in MATH 143 or MATH 165
Engineering approach to problem solution and presentation in the context of real world problems. Introduction to basic principles from statics, projectile motion, conservation of mass and energy and electricity and magnetism. Use of spreadsheet programs and computer programming language(s) to solve and present engineering problems. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CH E 160, EE 185, IE 148, M E 160 and S E 185 may count towards graduation.

A B E 170: Engineering Graphics and Introductory Design (2-2) Cr. 3. S.
Prereq: A B E 170 or TSM 116 or equivalent
8 week-course. Creating, editing, and documenting part and assembly models using Solidworks.

A B E 216: Fundamentals of Agricultural and Biosystems Engineering (2-2) Cr. 3. F.
Prereq: A B E 160 or permission of the instructor
Application of mathematics and engineering sciences to mass and energy balances in agricultural and biological systems. Emphasis is on solving engineering problems in the areas of heat and mass transfer, air and water vapor systems; animal production systems, grain systems; food systems, hydrologic systems, and bioprocessing.

A B E 218: Project Management & Design in Agricultural and Biosystems Engineering (1-2) Cr. 2. S.
Prereq: A B E 216
Project management - critical path, Gantt charts, resource allocations, basic project budgeting, and project management software. Engineering design approaches. Open-ended design projects to demonstrate the preceding principles through application of technical concepts taught in prerequisite coursework.

A B E 271: Engineering Applications of Parametric Solid Modeling (1-2) Cr. 1. F.S.
Prereq: A B E 170 or TSM 116 or equivalent
8 week-course. Creating, editing, and documenting part and assembly models using Creo Parametric.

A B E 272: Parametric Solid Models, Drawings, and Assemblies Using Creo Parametric (1-2) Cr. 1. F.S.
Prereq: A B E 170 or TSM 116 or equivalent
8 week-course. Applications of Creo Parametric software. Create solid models of parts and assemblies. Utilize the solid models to create design documentation (standard drawing views, dimensions, and notes) and for the geometric analysis of parts and assemblies.

A B E 273: CAD for Process Facilities and Land Use Planning (1-2) Cr. 1. F.S.
Prereq: ENGR 170 or TSM 116 or equivalent.
8-week course. Application of 2-D AutoCAD software to create and interpret 2-D drawings and 3-D models of facilities. Topics include geometric construction, design documentation: (using views, dimension, notes), and AutoCAD specific features (i.e. Layers, Blocks, Standards, Styles).

A B E 201: Preparing for Workplace Seminar (Cross-listed with TSM). (1-0) Cr. 1. F.S.
Prereq: Prereq: Sophomore classification in AE, AST, BSE, or I TEC
8 week course. Professionalism in the context of the engineering/technical workplace. Development and demonstration of key workplace competencies: teamwork, initiative, communication, and engineering/technical knowledge. Resumes; Cover Letters; Behavioral Based Interviewing; Industry Speakers; Preparation for internships experiences.

A B E 316: Applied Numerical Methods for Agricultural and Biosystems Engineering (2-2) Cr. 3. F.
Prereq: A B E 160; MATH 266 or MATH 267
Computer aided solution of agricultural engineering problems by use of numerical techniques and mathematical models. Systems analysis and optimization applicable to agricultural and biological systems.
A B E 325: Biorenewable Systems
(Cross-listed with TSM). (3-0) Cr. 3. F.
Prereq: CHEM 163 or higher; MATH 140 or higher
Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, and transportation/logistics.

(2-2) Cr. 3. F.
Prereq: A B E 216

A B E 342: Agricultural Tractor Power
(2-3) Cr. 3. S.
Prereq: Ch E 381 or M E 231
Thermodynamic principles and construction of tractor engines. Fuels, combustion, and lubrication. Kinematics and dynamics of tractor power applications; drawbar, power take-off and traction mechanisms.

A B E 363: Agri-Industrial Applications of Electric Power and Electronics
(3-2) Cr. 4. F.S.
Prereq: A B E 216

A B E 380: Principles of Biological Systems Engineering
(2-2) Cr. 3. S.
Prereq: A B E 316
Engineering analysis of biological systems, through the study of mass, energy, and information transport. Quantification and modeling of biological interactions, biological activities and bioreactor operations. Includes hands-on laboratory experiences.

A B E 388: Sustainable Engineering and International Development
(Cross-listed with C E, E E). (2-2) Cr. 3. F.
Prereq: Junior classification in engineering
Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report. Meets International Perspectives Requirement.

A B E 396: Summer Internship
Cr. R. Repeatable. SS.
Prereq: Permission of department and Engineering Career Services
Professional work period of at least 10 weeks during the summer. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

A B E 398: Cooperative Education
Cr. R. Repeatable. F.S.
Prereq: A B E 218 and permission of department and Engineering Career Services
Professional work period. One semester per academic or calendar year. Students must register for this course before commencing work. Offered on a satisfactory-fail basis only.

A B E 403: Modeling, Simulation, and Controls for Agricultural and Biological Systems
(Dual-listed with A B E 503). (2-2) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: A B E 316, and A B E 363, and MATH 266 or MATH 267
Modeling dynamic systems with ordinary differential equations. Introduction to state variable methods of system analysis. Analysis of mechanical, electrical, and fluid power systems. Analytical and numerical solutions of differential equations. Introduction to classical control theory. Feedback and stability examined in the s domain. Frequency response as an analytical and experimental tool. MATLAB will be used throughout the course for modeling. Individual and/or group projects required for graduate credit.

A B E 404: Instrumentation for Agricultural and Biosystems Engineering
(Dual-listed with A B E 504). (2-2) Cr. 3. F.
Prereq: A B E 316 and A B E 363
Interfacing techniques for computer-based data acquisition and control systems. Basic interfacing components including A/D and D/A conversion, signal filtering, multiplexing, and process control. Sensors and theory of operation applied to practical monitoring and control problems. Individual and group projects required for graduate credit.
A B E 410: Electronic Systems Integration for Agricultural Machinery & Production Systems  
(Dual-listed with A B E 510). Cr. 3. S.  
System architecture and design of electronics used in agricultural machinery and production systems. Emphasis on information technology and systems integration for automated agriculture processes. Design of Controller Area Network (CAN BUS) communication systems and discussion of relevant standards (ISO 11783 and SAE J1939). Application of technologies for sensing, distribution control, and automation of agricultural machinery will be emphasized.

A B E 413: Fluid Power Engineering  
(Cross-listed with M E). (2-2) Cr. 3. F.  
Prereq: Credit or enrollment in EM 378 or M E 335, A B E 216 or M E 270  

A B E 415: Agricultural & Biosystems Engineering Design I  
(1-2) Cr. 2. F.S.  
Prereq: A B E 316 (majors only)  
Identification of current design problems in ag & biosystems engineering. Development of alternate solutions using creativity and engineering analysis and synthesis techniques.

A B E 416: Agricultural & Biosystems Engineering Design II  
(1-2) Cr. 2. F.S.  
Prereq: A B E 415 (majors only)  
Selection of promising solutions to design problems identified in 415 for development by design teams. Presentation of designs through oral and written reports and prototypes.

A B E 418: Fundamentals of Engineering Review  
(1-0) Cr. 1.  
Prereq: senior classification.  
8 week course. Review of core concepts covered in the Fundamentals of Engineering examination with emphasis on statics, dynamics, fluid mechanics, heat transfer, electric circuits, and engineering economics. Open to all College of Engineering seniors, however focus is on the general exam, not discipline specific exams.

A B E 424: Air Pollution  
(Dual-listed with A B E 524A). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.  
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 424A: Air Pollution: Air quality and effects of pollutants  
(Dual-listed with A B E 524A). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.  
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 424B: Air Pollution: Climate change and causes  
(Dual-listed with A B E 524B). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.  
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 424C: Air Pollution: Transportation Air Quality  
(Dual-listed with A B E 524C). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.  
Prereq: C E 524A; PHYS 221 or CHEM 178, MATH 166 or 3 credits in statistics. Senior classification or above.

A B E 424D: Air Pollution: Off-gas treatment technology  
(Dual-listed with A B E 524D). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.  
Prereq: C E 524A, C E 524B; Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above.

A B E 424E: Air Pollution: Agricultural sources of pollution  
(Dual-listed with A B E 524E). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.  
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above  
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 431: Design and Evaluation of Soil and Water Conservation Systems  
(Dual-listed with A B E 531). (2-3) Cr. 3. F.  
Prereq: EM 378 or CH E 356  
Hydrology and hydraulics in agricultural and urbanizing watersheds. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design; relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality. Graduate students will prepare several research literature reviews on topics covered in the class in addition to the other assignments.
A B E 432: Nonpoint Source Pollution and Control
(Dual-listed with A B E 532). (3-0) Cr. 3.
Prereq: A B E 431 or C E 372
Characteristics and courses of non-point source (NPS) pollution in agricultural and urban watersheds, computer modeling and NPS pollution for terrestrial and aquatic systems, strategies to control and manage NPS pollution of water bodies, total maximum daily loads (TMDLs) and integrated watershed management. Graduate students are required to review research papers and develop/deliver lecture models on assigned topics.

A B E 436: Design and Evaluation of Soil and Water Monitoring Systems
(Dual-listed with A B E 536). (2-3) Cr. 3. Alt. S., offered even-numbered years.
Prereq: A B E 431
Development of monitoring systems that support effective planning, performance evaluation, modeling, or environmental impact assessment of soil-, water-, and waste-management systems. Typical soil and water pollutants and physical, chemical, and biological characteristics that affect sample location and timing. Sample collection, documentation, chain-of-custody, and quality assurance procedures. In addition to other assignments, graduate students will prepare several research literature reviews on topics covered in the class and develop monitoring plans.

A B E 437: Watershed Modeling and Policy
(Dual-listed with A B E 537). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: CE 372 or equivalent
A project-based course on watershed-scale models for improving water quality. Legislative and judicial basis of the Total Maximum Daily Load (TMDL) program; approaches to TMDL development; principles and techniques for implementation; stakeholder engagement strategies. Hands-on experiences with GIS-interfaced models, data sources, calibration/validation, statistical assessment of model results, and simulation using multiple tools. In addition to other assignments, graduate students will present case studies of TMDLs using different modeling tools.

A B E 451: Food and Bioprocess Engineering
(Dual-listed with A B E 551). (3-0) Cr. 3. S.
Prereq: A B E 216 and credit or enrollment in M E 356 or CH E 357; or FS HN 351 and MATH 266 or MATH 267
Application of engineering principles and mathematical modeling to the quantitative analysis of food and bioprocessing systems. Physical/chemical characteristics of foods and biological systems, flow processes, thermal processes and separation processes. Term paper required for graduate credit.

A B E 466: Multidisciplinary Engineering Design
(Cross-listed with AER E, B M E, CPR E, E E, ENGR, I E, M E, MAT E). (1-4) Cr. 3. Repeatable. F.S.
Prereq: Student must be within two semesters of graduation; permission of instructor.
Application of team design concepts to projects of a multidisciplinary nature. Concurrent treatment of design, manufacturing, and life cycle considerations. Application of design tools such as CAD, CAM, and FEM. Design methodologies, project scheduling, cost estimating, quality control, manufacturing processes. Development of a prototype and appropriate documentation in the form of written reports, oral presentations and computer models and engineering drawings.

A B E 469: Engineering for Grain Storage, Preservation, Handling, and Processing Systems
(Dual-listed with A B E 569). (2-3) Cr. 3. S.
Prereq: A B E 216
Cereal grain and oilseed production, properties, and quality assessment. Design of storage systems, drying systems, material handling, and size reduction systems. Design of cereal grain processing systems, including dry milling, wet milling, flour milling, feed milling, and fermentation facilities.

A B E 472: Design of Environmental Modification Systems for Animal Housing
(Dual-listed with A B E 572). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: A B E 216, M E 231
Principles and design of animal environmental control systems. Insulation, heat and mass transfer, fans, ventilation, air distribution, heating and cooling equipment, and controls. Individual and group projects required for graduate credit.

A B E 475: Design in Animal Production Systems Engineering
(2-0) Cr. 2. F.S.
Prereq: A B E 271, A B E 272, or A B E 273; E M 324 and enrollment in APSE option of AE program.
Application of engineering fundamentals to the independent solution of an animal production systems engineering problem with well defined criteria and constraints in either environmental control, structural design, manure management, or air quality/mitigation.

A B E 478: Wood Frame Structural Design
(Dual-listed with A B E 578). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: M E 231, E M 324
A B E 480: Engineering Analysis of Biological Systems
(Dual-listed with A B E 580). (Cross-listed with ENSCI). (2-2) Cr. 3. F.
Prereq: A B E 380 or permission of the instructor
Systems-level quantitative analysis of biological systems, including
applications in foods, feeds, biofuels, bioenergy, and other biological
systems. Introduction to economic analysis and life-cycle assessment
of these systems at multiple production scales. Applying these tools
to evaluate and improve cost and sustainability performance of these
biological systems. Students enrolled in ABE 580 will be required to
answer additional exam questions and report on two journal articles.

A B E 490: A B E Independent Study
Cr. 1-5. Repeatable.
Independent Study.

A B E 490A: A B E Independent Study: Animal Production Systems
Engineering
Cr. 1-5. Repeatable.
Independent Study.

A B E 490B: A B E Independent Study: Biorenewable Resources
Cr. 1-5. Repeatable. F.S.SS.
Independent study.

A B E 490E: A B E Independent Study: Environmental Bioprocessing
Engineering
Cr. 1-5. Repeatable. F.S.SS.
Independent study in environmental bioprocessing engineering.

A B E 490F: A B E Independent Study: Food Engineering
Cr. 1-5. Repeatable. F.S.SS.
Independent study in food engineering.

A B E 490G: A B E Independent Study: General Topics in A B E
Cr. 1-5. Repeatable. F.S.SS.
Independent study in general A B E topics.

A B E 490H: A B E Independent Study: Honors
Cr. 1-5. Repeatable.
Guided instructing in agricultural and biosystems engineering for honors
students.

A B E 490L: A B E Independent Study: Land & Water Resources
Engineering
Cr. 1-5. Repeatable.
Guided instruction in land and water resources engineering.

A B E 490M: A B E Independent Study: Advanced Machinery Systems
Engineering
Cr. 1-5. Repeatable.
Guided instruction in advance machinery systems engineering.

A B E 495: Agricultural and Biosystems Engineering Department Study
Abroad Preparation or Follow-up
(Cross-listed with TSM). Cr. 1-2. Repeatable. F.S.SS.
Prereq: Permission of instructor
Preparation for, or follow-up of, study abroad experience (496). For
preparation, course focuses on understanding the tour destination
through readings, discussions, and research on topics such as the
regional industries, climate, crops, culture, economics, food, geography,
government, history, natural resources, and public policies. For follow-
up, course focuses on presentations by students, report writing, and
reflection. Students enrolled in this course intend to register for 496 the
following term or have had taken 496 the previous term.
Meets International Perspectives Requirement.

A B E 496: Agricultural and Biosystems Engineering Department Study
Abroad
(Cross-listed with TSM). Cr. 1-4. Repeatable. F.S.SS.
Prereq: Permission of instructor
Tour and study at international sites relevant to disciplines of industrial
technology, biological systems engineering, agricultural systems
technology, and agricultural engineering. Location and duration of tours
will vary. Trip expenses paid by students. Pre-trip preparation and/or post-
trip reflection and reports arranged through 495.
Meets International Perspectives Requirement.

Courses primarily for graduate students, open to qualified
undergraduates:

A B E 503: Modeling, Simulation, and Controls for Agricultural and
Biological Systems
(Dual-listed with A B E 403). (2-2) Cr. 3. Alt. S., offered odd-numbered
years.
Prereq: A B E 316, and A B E 363, and MATH 266 or MATH 267
Modeling dynamic systems with ordinary differential equations.
Introduction to state variable methods of system analysis. Analysis of
mechanical, electrical, and fluid power systems. Analytical and numerical
solutions of differential equations. Introduction to classical control
theory. Feedback and stability examined in the s domain. Frequency
response as an analytical and experimental tool. MATLAB will be used
throughout the course for modeling. Individual and/or group projects
required for graduate credit.

A B E 504: Instrumentation for Agricultural and Biosystems Engineering
(Dual-listed with A B E 404). (2-2) Cr. 3. F.
Prereq: A B E 316 and A B E 363
Interfacing techniques for computer-based data acquisition and
control systems. Basic interfacing components including A/D and D/A
conversion, signal filtering, multiplexing, and process control. Sensors
and theory of operation applied to practical monitoring and control
problems. Individual and group projects required for graduate credit.
A B E 506: Applied Computational Intelligence
(2-2) Cr. 3. Alt. F., offered even-numbered years.
Prereq: A B E 316 or equivalent, MATH 166, STAT 305
Applications of biologically inspired computational intelligence tools for data mining, system modeling, and optimization for agricultural, biological and other engineered systems. Introduction to Artificial Neural Networks, Support Vector Machines, Fuzzy Logic, Genetic Algorithms, Bayesian and Decision Tree learning. Fundamental Machine Vision techniques will be introduced in the first part of course and be integrated into the lab exercises for learning different computational intelligence techniques. MATLAB will be used throughout the course for algorithm implementation.

A B E 510: Electronic Systems Integration for Agricultural Machinery & Production Systems
(Dual-listed with A B E 410). Cr. 3. S.
System architecture and design of electronics used in agricultural machinery and production systems. Emphasis on information technology and systems integration for automated agriculture processes. Design of Controller Area Network (CAN BUS) communication systems and discussion of relevant standards (ISO 11783 and SAE J1939). Application of technologies for sensing, distribution control, and automation of agricultural machinery will be emphasized.

A B E 511: Bioprocessing and Bioproducts
(3-0) Cr. 3. F.
Prereq: A B E 216 or equivalent, MATH 160 or MATH 165, one of CHEM 167 or higher, BIOL 173 or BIOL 211 or higher or BRT 501, senior or graduate classification

A B E 515: Integrated Crop and Livestock Production Systems
(Cross-listed with AGRON, AN S, SUSAG). (3-0) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: SUSAG 509
Methods to maintain productivity and minimize the negative ecological effects of agricultural systems by understanding nutrient cycles, managing manure and crop residue, and utilizing multispecies interactions. Crop and livestock production within landscapes and watersheds is also considered. Course includes a significant field component, with student teams analyzing Iowa farms.

A B E 524: Air Pollution
(Dual-listed with A B E 424). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 524A: Air Pollution: Air quality and effects of pollutants
(Dual-listed with A B E 424A). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 524B: Air Pollution: Climate change and causes
(Dual-listed with A B E 424B). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

A B E 524C: Air Pollution: Transportation Air Quality
(Dual-listed with A B E 424C). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: C E 524A; PHYS 221 or CHEM 178; MATH 166 or 3 credits in statistics. Senior classification or above.

A B E 524D: Air Pollution: Off-gas treatment technology
(Dual-listed with A B E 424D). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: C E 524A, C E 524B; Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above

A B E 524E: Air Pollution: Agricultural sources of pollution
(Dual-listed with A B E 424E). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.
Prereq: Either PHYS 221 or CHEM 178 and either MATH 166 or 3 credits in statistics. Senior classification or above
1 cr. per module. Module A prereq for all modules; module B prereq for D and E.
A B E 531: Design and Evaluation of Soil and Water Conservation Systems
(Dual-listed with A B E 431). (Cross-listed with ENSCI). (2-3) Cr. 3. F.
Prereq: E M 378 or CH E 356
Hydrology and hydraulics in agricultural and urbanizing watersheds. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design; relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality. Graduate students will prepare several research literature reviews on topics covered in the class in addition to the other assignments.

A B E 532: Nonpoint Source Pollution and Control
(Dual-listed with A B E 432). (Cross-listed with ENSCI). (3-0) Cr. 3.
Prereq: A B E 431 or C E 372
Characteristics and courses of non-point source (NPS) pollution in agricultural and urban watersheds, computer modeling and NPS pollution for terrestrial and aquatic systems, strategies to control and manage NPS pollution of water bodies, total maximum daily loads (TMDLs) and integrated watershed management. Graduate students are required to review research papers and develop/deliver lecture models on assigned topics.

A B E 533: Erosion and Sediment Transport
(Cross-listed with ENSCI, NREM). (2-3) Cr. 3. F.
Prereq: C E 372 or GEOL/ENSCI/MTEOR 402, MATH 166 or equivalent
Soil erosion processes, soil loss equations and their application to conservation planning, sediment properties, initiation of sediment motion and over land flow, flow in alluvial channels and theory of sediment transport, channel stability, reservoir sedimentation, wind erosion, BMPs for controlling erosion.

A B E 536: Design and Evaluation of Soil and Water Monitoring Systems
(Dual-listed with A B E 436). (Cross-listed with ENSCI). (2-3) Cr. 3. Alt. S., offered even-numbered years.
Prereq: A B E 431
Development of monitoring systems that support effective planning, performance evaluation, modeling, or environmental impact assessment of soil-, water-, and waste-management systems. Typical soil and water pollutants and physical, chemical, and biological characteristics that affect sample location and timing. Sample collection, documentation, chain-of-custody, and quality assurance procedures. In addition to other assignments, graduate students will prepare several research literature reviews on topics covered in the class and develop monitoring plans.

A B E 537: Watershed Modeling and Policy
(Dual-listed with A B E 437). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. F., offered odd-numbered years.
Prereq: CE 372 or equivalent
A project-based course on watershed-scale models for improving water quality. Legislative and judicial basis of the Total Maximum Daily Load (TMDL) program; approaches to TMDL development; principles and techniques for implementation; stakeholder engagement strategies. Hands-on experiences with GIS-interfaced models, data sources, calibration/validation, statistical assessment of model results, and simulation using multiple tools. In addition to other assignments, graduate students will present case studies of TMDLs using different modeling tools.

A B E 551: Food and Bioprocess Engineering
(Dual-listed with A B E 451). (3-0) Cr. 3. S.
Prereq: A B E 216 and credit or enrollment in M E 436 or CH E 357; or FS HN 351 and MATH 266 or MATH 267
Application of engineering principles and mathematical modeling to the quantitative analysis of food and bioprocessing systems. Physical/chemical characteristics of foods and biological systems, flow processes, thermal processes and separation processes. Term paper required for graduate credit.

A B E 559: Engineering for Grain Storage, Preservation, Handling, and Processing Systems
(Dual-listed with A B E 459). (2-3) Cr. 3. S.
Prereq: A B E 216
Cereal grain and oilseed production, properties, and quality assessment. Design of storage systems, drying systems, material handling, and size reduction systems. Design of cereal grain processing systems, including dry milling, wet milling, flour milling, feed milling, and fermentation facilities.

A B E 572: Design of Environmental Modification Systems for Animal Housing
(Dual-listed with A B E 472). (3-0) Cr. 3. Alt. S., offered even-numbered years.
Prereq: A B E 216, M E 231
Principles and design of animal environmental control systems. Insulation, heat and mass transfer, fans, ventilation, air distribution, heating and cooling equipment, and controls. Individual and group projects required for graduate credit.
A B E 578: Wood Frame Structural Design
(Dual-listed with A B E 478). (3-0) Cr. 3. Alt. S., offered odd-numbered years.
Prereq: M E 231, E M 324

A B E 580: Engineering Analysis of Biological Systems
(Dual-listed with A B E 480). (2-2) Cr. 3. F.
Prereq: A B E 380 or permission of the instructor
Systems-level quantitative analysis of biological systems, including applications in foods, feeds, biofuels, bioenergy, and other biological systems. Introduction to economic analysis and life-cycle assessment of these systems at multiple production scales. Applying these tools to evaluate and improve cost and sustainability performance of these biological systems. Students enrolled in ABE 580 will be required to answer additional exam questions and report on two journal articles.

A B E 590: Special Topics in Agricultural & Biosystems Engineering
Cr. 1-3. Repeatable.
Guided instruction and self-study on special topics relevant to agricultural and biosystems engineering.

Courses for graduate students:

A B E 601: Graduate Seminar
(Cross-listed with TSM). (1-0) Cr. 1. F.
Keys to starting a successful graduate research project. Effective literature review, formulating research questions, and setting goals. Practicing effectively communicating research and science. Effective strategies for scholarly writing, responding to feedback, peer-reviewing, successful publishing in journals, and curating scholarly output.

A B E 610: Foundations of Sustainable Agriculture
(Cross-listed with AGRON, ANTHR, SOC, SUSAG). (3-0) Cr. 3. F.
Prereq: Graduate classification, permission of instructor
Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

A B E 690: Advanced Topics
Cr. arr. Repeatable.
Advanced topics.

A B E 694: Teaching Practicum
(Cross-listed with TSM). Cr. 1-3. Repeatable. F.S.
Prereq: Graduate classification and permission of instructor
Graduate student experience in the agricultural and biosystems engineering departmental teaching program.

A B E 697: Engineering Internship
Cr. R. Repeatable.
Prereq: Permission of department chair, graduate classification
One semester and one summer maximum per academic year professional work period.

A B E 699: Research
Cr. arr. Repeatable.
Research.

A B E 699B: Research: Biosystems Engineering
Cr. arr. Repeatable.
Guided graduate research in biosystems engineering.

A B E 699C: Research: Computer Aided Design
Cr. arr. Repeatable.
Guided graduate research in computer-aided design.

A B E 699E: Research: Environmental Systems
Cr. arr. Repeatable.
Guided graduate research in environmental systems.

A B E 699F: Research: Food Engineering
Cr. arr. Repeatable.
Guided graduate research in food engineering.

A B E 699Q: Research: Structures
Cr. arr. Repeatable.
Guided graduate research in structures.

A B E 699R: Research: Process Engineering
Cr. arr. Repeatable.
Guided graduate research in process engineering.

A B E 699S: Research: Environment and Natural Resources
Cr. arr. Repeatable.
Guided graduate research in environment and natural resources.
A B E 699U: Research: Waste Management
Cr. arr. Repeatable.
Guided graduate research in waste management.
AGRICULTURAL EDUCATION AND STUDIES (AGEDS)
