MATHEMATICS

Undergraduate Study

The program in mathematics offers training for students planning to enter secondary education teaching, to work in mathematics and computation for industry, or to continue their studies in graduate school. Students may satisfy the major requirements in several ways, which are designed to meet these various career objectives. Graduates will understand a broad range of mathematical topics, acquire skills for solving problems in diverse situations, and they will be able to construct and effectively communicate rigorous arguments to demonstrate mathematical facts.

Curriculum

All students are required to earn credit for the following core courses:

MATH 101	Orientation in Mathematics	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 201	Introduction to Proofs	3
MATH 265	Calculus III	4
One of the following:		3-4
MATH 317	Theory of Linear Algebra	
MATH 407	Applied Linear Algebra	
Total Credits		19-20

To complete the major, leading to a Bachelor of Science degree, students must choose from one of the following four pathways:

Mathematics Major

This degree program is designed for students planning to work in industry or those who plan to continue their studies mathematics at the graduate level. Students are required to earn credit for the following courses:

MATH 301	Abstract Algebra I	3
MATH 414	Analysis I	3
MATH 492	Undergraduate Seminar	2
MATH courses at the 300, 400, or 500 level		15
One of the following:		3-4
MATH 266	Elementary Differential Equations	
MATH 267	Elementary Differential Equations and Laplace Transforms	
Total Credits		26-27

Additionally, the courses must include one of the following sequences:

MATH 301 & MATH 302	Abstract Algebra I and Abstract Algebra II [1]	6
MATH 304 & MATH 314	Combinatorics and Graph Theory	6
MATH 373 & MATH 481	Introduction to Scientific Computing and Numerical Methods for Differential Equations	6
MATH 414 & MATH 415	Analysis I and Analysis II	6
MATH 435 & MATH 436	Geometry I and Geometry II	6

[1] MATH 302 will be offered until Spring 2019. Afterwards, students will be required to take MATH 403/503 Intermediate Abstract Algebra.

Mathematics Major with Actuarial Science Certificate

This degree program is designed for students pursuing a career as an actuary or in the financial sector. Students are required to earn credit for the following courses:

MATH 240	Mathematics of Investment and Credit	3
MATH 341	Introduction to the Theory of Probability and Statistics I	4
MATH 414	Analysis I	3
MATH 441	Life Contingencies I [1]	3
MATH 442	Life Contingencies II [1]	3
MATH 492	Undergraduate Seminar	2
Total Credits		18

[1] MATH 441/442 will be offered beginning Fall 2019/Spring 2020.

Additionally, students must meet the requirements for the Actuarial Science Certificate (see /collegeofbusiness/actuarialscience/#certificatetext).

Mathematics Major with Applications

This degree program is for students who want to specialize in the application of mathematics to an area of study. It is recommended for those who plan to work in industry or those who plan to continue studying their specialization area at the graduate level. Students are required to earn credit for the following courses:

MATH 492	Undergraduate Seminar	2
Courses at the 300, 400, or 500 level from the following designations: AER E, A B E, ASTRO, BBMB, BCB, BCBIO, BIOL, B M E, B M S, CH E, CHEM, C E, CPR E, COM S, CON E, DS, ECON, E E, ENSCI, GEN, GEOL, I E, MAT E, M E, MTEOR, MICRO, NUC E, PHYS, S E, STAT		12
One of the following:		3-4
MATH 266	Elementary Differential Equations	

MATH 267	Elementary Differential Equations and Laplace Transforms	
One of the following:		3
MATH 304	Combinatorics	
MATH 314	Graph Theory	
Three of the following:		9-10
MATH 301	Abstract Algebra I	
MATH 341	Introduction to the Theory of Probability and Statistics I	
MATH 350	Number Theory	
MATH 365	Complex Variables with Applications	
MATH 373	Introduction to Scientific Computing	
MATH 385	Introduction to Partial Differential Equations	
MATH 414	Analysis I	
MATH 424	Introduction to High Performance Computing	
MATH 481	Numerical Methods for Differential Equations	
Total Credits		29-31

Mathematics Major with Teaching Licensure

This degree program prepares students for a career in secondary education. Students are required to earn credit for the following courses:

EDUC 202	Educational Technologies in the 7-12 Classroom	3
EDUC 204	Social Foundations of Education in the United States: Secondary	3
EDUC 219	Orientation to Teacher Education: Math, Science, FCS Education, and History/Social Science Majors	1
EDUC 280A	Pre-Student Teaching Experience I: Core Experience	1-2
EDUC 280J	Pre-Student Teaching Experience I: Mathematics Clinic	1
EDUC 406	Social Justice Education and Teaching: Secondary	3
EDUC 417C	Student Teaching: Mathematics	arr †
EDUC 426	Principles of Secondary Education	3
EDUC 480C	Pre-Student Teaching Experience III: Mathematics	0.5-2
MATH 301	Abstract Algebra I	3
MATH 341	Introduction to the Theory of Probability and Statistics I	4
MATH 397	Teaching Secondary Mathematics Using University Mathematics	3
MATH 414	Analysis I	3
MATH 435	Geometry I	3
MATH 436	Geometry II	3
MATH 497	Teaching Secondary School Mathematics	3
STAT 201	Introduction to Statistical Concepts and Methods	4
SP ED 401	Teaching Secondary Students with Exceptionalities in General Education	3
One of the following:		3-4
COM S 107	Windows Application Programming	
COM S 207	Fundamentals of Computer Programming	
COM S 227	Object-oriented Programming	
One of the following:		3-4
MATH 266	Elementary Differential Equations	
MATH 267	Elementary Differential Equations and Laplace Transforms	
Total Credits		50.5-55 †

† Arranged with instructor.

Additionally, students must meet the professional teaching education requirements established by the University Teacher Education Program (see http://education.iastate.edu/undergraduate-studies/secondary-education/)

University and College Requirements

In addition to the core and pathway courses, students are also required to earn credit for the following courses:

Courses from General Education Area I - Arts and Humanities [1]		12
Courses from General Education Area IIB - Natural Sciences [1]		8
Courses from General Education Area III - Social Sciences [1,2]		9
Courses meeting the international perspectives requirement [3]		3
Courses meeting the U.S. diversity requirement [3]		3
LIB 160	Information Literacy	1
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition [4]	3
One of the following: [5]		3
ENGL 302	Business Communication	
ENGL 303	Free-Lance Writing for Popular Magazines	
ENGL 305	Creative Writing: Nonfiction	
ENGL 309	Proposal and Report Writing	
ENGL 314	Technical Communication	
MATH 491	Undergraduate Thesis [6]	

1 Possible choices can be found here: https://las.iastate.edu/students/academics/general-education/

2 Students pursuing the Mathematics Major with Teaching Licensure are required to take PSYCH 230 or HD FS 102, PYSCH 333, and earn a grade of C or better in each course.

[3] Courses used to meet the U.S. Diversity and International Perspectives requirements can also be used to fulfill general education requirements.

[4] Students must earn a grade of C or better.

[5] Students must earn a grade of C- or better.

[6] With departmental approval.

Furthermore, students must earn a minimum of 120 credits, including a minimum of 45 credits at the 300 or 400 level, and including at least 8 credits in the major at the 300/400 level with a grade of C or better. At least 55 of these credits must be earned at a four-year institution, and the last 32 credits must be earned at Iowa State University. A maximum of 16 technical credits are allowed, and a maximum of 9 P-NP credits of free electives may apply. Students must also meet the LAS World Language requirement and have a minimum 2.00 ISU cumulative Grade Point Average.

Undergraduate Minor

The department offers a minor in mathematics. Students are required to earn credit for the following courses:

MATH 201	Introduction to Proofs	3
MATH 265	Calculus III	4
One of the following:		3-4
MATH 266	Elementary Differential Equations	
MATH 267	Elementary Differential Equations and Laplace Transforms	
One of the following:		3-4
MATH 317	Theory of Linear Algebra	
MATH 407	Applied Linear Algebra	
One of the following:		3-4
MATH 301	Abstract Algebra I	
MATH 304	Combinatorics	
MATH 314	Graph Theory	
MATH 331	Topology	
MATH 341	Introduction to the Theory of Probability and Statistics I	
MATH 350	Number Theory	
MATH 365	Complex Variables with Applications	
MATH 373	Introduction to Scientific Computing	
MATH 414	Analysis I	
MATH 421	Logic for Mathematics and Computer Science	
MATH 435	Geometry I	
MATH 436	Geometry II	
Total Credits		16-19

Four Year Plans

Mathematics Major

Freshman

Fall	Credits	Spring	Credits
MATH 101	1	MATH 166	4
MATH 165	4	Arts & Humanities Choice	3
ENGL 150	3	Natural Science Choice	4
LIB 160	1	Social Science Choice	3
Natural Science Choice	4		
Electives	3		
	16		14

Sophomore

Fall	Credits	Spring	Credits
MATH 201	3	MATH 266 or 267	3-4
MATH 265	4	MATH 317	4
Arts & Humanities Choice	3	ENGL 250	3
Social Science Choice	3	Social Science Choice	3
Electives	3		
	16		13-14

Junior

Fall	Credits	Spring	Credits
MATH Sequence Course I	3	MATH Sequence Course II	3
MATH 301 or 414	3	MATH 414 or 301	3
Arts & Humanities Choice	3	Communication Choice	3
Electives/World Language	6	Electives/World Language	6
	15		15

Senior

Fall	Credits	Spring	Credits
MATH 300+	3	MATH 300+	6
MATH 492	2	Electives	9
Arts & Humanities Choice	3		
Electives	6		
	14		15

Mathematics Major with Actuarial Science Certificate

Freshman

Fall	Credits	Spring	Credits
MATH 101	1	MATH 166	4
MATH 165	4	ECON 102	3
ENGL 150	3	STAT 226	3

Graduate Study

The department offers programs leading to a Master of Science or Doctor of Philosophy degree in mathematics or applied mathematics, as well as minor work for students whose major is in another department. The department also offers a program leading to the degree of Master of School Mathematics (M.S.M.).

Students desiring to undertake graduate work leading to the M.S. or Ph.D. degree should prepare themselves by taking several upper division mathematics courses.

The M.S. degree requires a student to take at least 30 credit hours and to write a creative component or thesis. Additionally, students must pass a comprehensive oral examination over their coursework and their creative component or thesis. See the online Mathematics Graduate Handbook for specific requirements.

The Ph.D. degree requires a student to take 48 credit hours of coursework in addition to research hours, pass written qualifying examinations, pass an oral preliminary exam, and perform an original research project culminating in a dissertation which is defended by an oral exam. Ph.D. candidates must have at least one year of supervised teaching experience. See the on-line Mathematics Graduate Handbook for specific requirements.

The M.S.M. degree is primarily for in-service secondary mathematics teachers. Students desiring to pursue the M.S.M degree should present some undergraduate work in mathematics beyond calculus. Candidates for the M.S.M. degree must write an approved creative component and pass a comprehensive oral examination over their course work and their creative component.
