

TECHNICAL COMMUNICATION

The Technical Communication major (and minor) prepares students for careers that involve writing and designing a wide range of texts, including online content. The major prepares students to make scientific, business, and technical information clear and usable for their intended audiences. Courses emphasize research, critical thinking, collaboration (with other content developers and subject-matter experts), organization, writing, editing, and design. Some students double major in Technical Communication and a technical or scientific field. Technical Communication is also often a second major or minor for students who major in English (<http://catalog.iastate.edu/previouscatalogs/2021-2022/collegeofliberalartsandsciences/english/>).

Technical Communication Major Requirements

Majors develop advanced skills in multiple aspects of technical communication and apply their knowledge of technical communication to a specific discipline. Technical communication majors must take 33 credits within the major and 6 hours in a designated area of concentration related to science, technology, or design (an acceptable minor will also fulfill this requirement).

ENGL 214	Introduction to Technical Communication	3
ENGL 310	Rhetorical Analysis	3
ENGL 313	Rhetorical Website Design	3
ENGL 314	Technical Communication	3
ENGL 415	Business and Technical Editing	3
ENGL 416	Visual Aspects of Business and Technical Communication	3
Electives: 9 credits (with at least 6 credits from 400 or above courses)		9
ENGL 220	Descriptive English Grammar	
ENGL 302	Business Communication	
ENGL 309	Proposal and Report Writing	
SP CM 312	Business and Professional Speaking	
ENGL 312	Biological Communication	
ENGL 350	Rhetorical Traditions	
ENGL 418	Seminar in Argumentation	
ENGL 477	Seminar in Technical Communication	
ENGL 487	Internship in Business, Technical, and Professional Communication	
ENGL 542	Document Design and Editing	
ENGL 549	Multimedia and Interaction Design	

Designated Area of Concentration (DAC) in technical, scientific, or design field 6

Total Credits 33

Designated Area of Concentration Courses

The Designated Area of Concentration (DAC) is a student-designed grouping of related courses in a technical, scientific, or design field that will meet the student's professional or academic interests. Courses for the 6-credit DAC must be taken outside the English Department and approved by the Technical Communication Program Advisor. A second major or a minor in areas such as computer science, social science, natural science, entrepreneurial studies, design studies, engineering studies, or another technical, scientific, or design field may substitute for the DAC.

Technical Communication, B.S.

Technical Communication Major Requirements

Technical Communication majors are required to have, in addition to ISUComm foundation courses (ENGL 150 (<http://catalog.iastate.edu/previouscatalogs/2021-2022/search/?P=ENGL%20150>) Critical Thinking and Communication and ENGL 250 (<http://catalog.iastate.edu/previouscatalogs/2021-2022/search/?P=ENGL%20250>) Written, Oral, Visual, and Electronic Composition), at least 33 credits in TComm (including 6 credits in a designated area of concentration). Majors transferring from other institutions must take at least 18 of their credits in TComm while in residence at Iowa State.

To graduate with a major in Technical Communication and meet the university-wide Communication Proficiency Grade Requirement (<http://catalog.iastate.edu/previouscatalogs/2021-2022/collegescurricula/>), a student must have credit for ENGL 150 (<http://catalog.iastate.edu/previouscatalogs/2021-2022/search/?P=ENGL%20150>) Critical Thinking and Communication and earn at least a C (not C-) in ENGL 250 (<http://catalog.iastate.edu/previouscatalogs/2021-2022/search/?P=ENGL%20250>) Written, Oral, Visual, and Electronic Composition as well as in each of the courses taken to fulfill the program of study, including one advanced communication course.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check <http://www.registrar.iastate.edu/courses/div-ip-guide.html> for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

New LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the LAS world language requirement.

Technical Communication Minor Requirements

The department offers a minor in Technical Communication, which students may earn by completing the following:

ENGL 314	Technical Communication	3
Choose 4:		12
ENGL 214	Introduction to Technical Communication	
ENGL 302	Business Communication	
ENGL 309	Proposal and Report Writing	
ENGL 310	Rhetorical Analysis	
ENGL 312	Biological Communication	
ENGL 313	Rhetorical Website Design	
ENGL 332	Visual Communication of Quantitative Information	
ENGL 350	Rhetorical Traditions	

or with the appropriate prerequisites

ENGL 411	Technology, Rhetoric, and Professional Communication	
ENGL 415	Business and Technical Editing	
ENGL 416	Visual Aspects of Business and Technical Communication	
ENGL 418	Seminar in Argumentation	
ENGL 477	Seminar in Technical Communication	
ENGL 529	Content Management	
ENGL 542	Document Design and Editing	
ENGL 549	Multimedia and Interaction Design	

Total Credits 15

Nine of the 15 credits must be 300 level or above and students must earn a grade of C (not C-) or higher in each course taken in the minor. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. Students may design their minor programs around their own interests but are encouraged to work with the Technical Communication Program Advisor.

Note: Students should check the ISU catalog to be sure that they meet prerequisites if they intend to register for 400+ courses.
