# **ANIMAL SCIENCE**

The Department of Animal Science Undergraduate Program intends for its graduates to be able to explain the symbiotic relationship of animals and humans, to contribute to the solution of complex problems of animal enterprise management, and to apply their knowledge and skills in a technically demanding global community. Graduates of our program will be knowledgeable about sustainable animal production practices that also ensure animal health and well-being and stewardship of natural resources.

To enable learners to pursue a wide array of career interests, the department offers learning experiences ranging from the basic to the applied sciences. Learner outcomes for these goals, for each of our courses, and other information defining the program can be found at our web site: https://www.ans.iastate.edu/undergraduate-students (https:// www.ans.iastate.edu/undergraduate-students/). Our program is designed to provide career skills appropriate to job market needs. Our faculty goals include providing superior academic advising to enable students to fulfill their objectives.

# **Student Learning Outcomes**

Learning outcomes for the Animal and Dairy Science majors dictate that, upon completion of the program, graduates will:

- Demonstrate a comprehensive knowledge of animal science, animal management, and agribusiness
- · Exhibit effective communication skills
- Integrate information to solve problems
- Effectively employ skills as a self -learner
- · Participate as team leaders and team builders
- Demonstrate awareness of contemporary issues that drive change in animal industries

The department offers the degrees bachelor of science in animal science and bachelor of science in dairy science. A double major in animal and dairy science is not permitted. However, combining either the animal science or dairy science majors with other curricula is permitted. A limit of 6 credits each in Intercollegiate Judging (Animal Science 475), or any independent study course (490 courses) can be applied toward a degree. A limit of 4 credits of Undergraduate Teaching Experience (Animal Science 497) can be applied toward a degree.

The department offers a minor in Animal Science and a minor in Meat Science. Certificates in Beef Cattle Production Management, Swine Production Management, Poultry Production Management, and Equine Management are also offered. Both the animal science curricula and dairy science curricula allow complementary work toward admission to veterinary medical school and other professional schools, which may be done while satisfying requirements for the bachelor of science degree. A program that combines bachelor of science and master of science in animal science is offered. In addition, a program that combines a bachelor of science and master of business administration is offered. The Department facilitates student participation in the Midwest Poultry Consortium and the Swine Science Online program to offer additional training in poultry and swine production, respectively.

# **Curriculum in Animal Science**

Students majoring in animal science will complete the degree requirements listed below. If desired, a student may also choose a specialized option. To earn a degree in Animal Science from Iowa State University a minimum of 15 credits in Animal Science must be earned from courses taught in the Animal Science department at ISU. A minimum of 15 credits of animal science coursework must be earned at Iowa State University.

#### Total Degree Requirement: 128 cr.

Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

Senior Fall

Importaistis only one of many equally-sound schedule sequences. Note:

Free electives and specified group electives are often chosen to complement the student's career focus. The student's academic advisor assists with developing scheduling schemes that prepare students individually for careers in the animal industry. They are explained fully in AN S 110 and through appointments with the student's advisor.

Imp**artais**tis only one of many equally-sound schedule sequences. Note:

- Credits currently required for application to Veterinary Medicine program at ISU (55 credits)
  General Chemistry with lab (7)
  Organic Chemistry with lab (4)
  Biochemistry (3)
  General Physics with lab (4)
  General Biology with lab (8)
  Genetics/Animal Breeding (3)
  Mammalian Anatomy and/or Physiology (3)
  English Composition (6)
  Oral Communication (3)
  - Humanities and/or Social Sciences (6)
  - Other Electives (8)

# **Minors: Animal Science and Meat Science**

All minors require at least 15 credits, including at least 6 credits in courses numbered 300 or above taken at Iowa State University. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

The department offers a minor in Animal Science. The minor requires:

	AN S 101	Working with Animals	2
;	AN S 114	Survey of the Animal Industry	2
	AN S 214	Domestic Animal Physiology	3
	AN S 214L	Domestic Animal Anatomy and Physiology Lab	1
	One course from	the following:	3
	AN S 216	Equine Science	
	AN S 223	Poultry Science	
	AN S 224	Companion Animal Science	
	AN S 225	Swine Science	
-	AN S 226	Beef Cattle Science	
	AN S 229	Sheep Science	
5	AN S 235	Dairy Cattle Science	
	AN S 270	Foods of Animal Origin	
	& 270L	and Foods of Animal Origin Laboratory	
	One course from	the following:	3
	AN S 313	Exercise Physiology of Animals	
	AN S 319	Animal Nutrition	
	AN S 331	Domestic Animal Reproduction	
	AN S 345	Growth and Development of Domestic Animals	
_	AN S 352	Genetic Improvement of Domestic Animals	
-	One course from	the following:	2-3
	AN S 319	Animal Nutrition	
	AN S 320	Animal Feeds and Feeding	
	AN S 331	Domestic Animal Reproduction	
	AN S 324	Food Processing for Companion Animals	
	AN S 336	Domestic Animal Behavior and Well-Being	
	AN S 337	Lactation	
	AN S 345	Growth and Development of Domestic Animals	
	AN S 352	Genetic Improvement of Domestic Animals	
	AN S 360	Fresh Meat Science and Applied Muscle Biology	
	AN S 419	Advanced Animal Nutrition	
	Total Credits		16-17

A total of 9 credits must be earned at Iowa State University in animal science coursework that meets a degree requirement for the B.S. degree in animal science. Students interested in the Animal Science minor should contact an Animal Science advisor.

# **Minor - Meat Science**

The department offers a minor in Meat Science. The minor requires:

AN S 270	Foods of Animal Origin	2
AN S 270L	Foods of Animal Origin Laboratory	1
AN S 360	Fresh Meat Science and Applied Muscle Biology	3

Total Credits		15-16
MICRO 407	Microbiological Safety of Foods of Animal Origin	IS
FS HN 471	Food Processing	
FS HN 420	Food Microbiology	
FS HN 412	Food Product Development	
FS HN 410	Food Analysis	
FS HN 406	Sensory Evaluation of Food	
FS HN 403	Food Laws and Regulations	
FS HN 311	Food Chemistry	
FS HN 305	Food Quality Management and Control	
AN S 324	Food Processing for Companion Animals	
5-6 Credits from	the following	5-6
AN S 490C	Independent Study: Meat Science	
AN S 489	Issues in Food Safety	
One course from	the following:	1
AN 3 400	Products	5
AN S 460	Science and Technology of Value Added Meat	3

Students majoring in Animal Science will not be allowed to count the 9 required credits (270, 270L, 360, 460) toward their Animal Science degree. Students interested in the Meat Science minor should contact an Animal Science advisor.

The Department of Animal Science offers certificates in:

- Beef Cattle Production Management
- Dairy Cattle Production Management
- Equine Science and Management
- Poultry Production Management
- Swine Production Management

All certificates require at least 24 credits, including at least 18 credits at the 300 or 400 level. At least 9 credits must be unique to the certificate and will not be applied to a major, minor, or another certificate. All courses applied to the certificate must be taken for a grade. A cumulative GPA of 2.0 is required to complete the program and receive the certificate.

# **Beef Cattle Production Management**

Foundation Cours	e (3 credits)		
AN S 226	Beef Cattle Science		
Fundamental Disciplines in Animal Science (9 credits)			

AN S 320	Animal Feeds and Feeding	3
AN S 331	Domestic Animal Reproduction	3
AN S 352	Genetic Improvement of Domestic Animals	3

#### **Expertise Expansion (3 credits)**

AGRON 280	Crop Development, Production and Management	3
AGRON 334	Forage Crop Management	3
AN S 333	Embryo Transfer and Related Technologies	3
AN S 336	Domestic Animal Behavior and Well-Being $^{\star}$	3
AN S 345	Growth and Development of Domestic Animals $^{\star}$	3
AN S 360	Fresh Meat Science and Applied Muscle Biology $^{\star}$	3
TSM 327	Animal Production Systems *	3
TSM 455	Feed Processing and Technology	3
TSM 457	Feed Safety, Ingredient Quality and Analytics	3
VDPAM 487	Livestock Disease Prevention $^{\star}$	3

 Course fulfills the Animal Science degree discipline expansion requirement unless designated as a unique course in the certificate

#### **Enterprise Management (3 credits)**

AGEDS 451	Agricultural Law	3
ECON 230	Farm Business Management	3
ECON 235	Introduction to Agricultural Markets	3
ECON 332	Cooperatives	3
ECON 334	Entrepreneurship in Agriculture	3

^ Course is a prerequisite for AN S 426

## **Beef Cattle Production Emphasis (6 credits)**

AN S 426	Beef Cattle Systems Management	3
AN S 399A	Animal Science Internship: Graded Internship	3
	Experience	

# **Dairy Cattle Production Management Certificate**

Foundation Course (3 credits)

3

AN S 235	Dairy Cattle Science	3
Fundamental Dise	ciplines in Animal Science (9 credits)	
AN S 320	Animal Feeds and Feeding	3
AN S 331	Domestic Animal Reproduction	3
AN S 337	Lactation	3
Expertise Expansion (3 credits)		
AGRON 280	Crop Development, Production and Management	3
AGRON 334	Forage Crop Management	3
AN S 333	Embryo Transfer and Related Technologies	3
AN S 335	Dairy Cattle Evaluation	3

AN S 345	Growth and Development of Domestic Animals $^{st}$	3
AN S 352	Genetic Improvement of Domestic Animals	3
AN S 419	Advanced Animal Nutrition	2
FS HN 407	Microbiological Safety of Foods of Animal Origins	3
MICRO 302	Biology of Microorganisms	3
TSM 327	Animal Production Systems *	3
TSM 455	Feed Processing and Technology $^{\star}$	3
TSM 457	Feed Safety, Ingredient Quality and Analytics $^{\star}$	3

\* Courses fulfill the Animal Science degree discipline expansion requirement unless designated as a unique course in the certificate

## Enterprise Management (3 credits)

AGEDS 451	Agricultural Law	3
ECON 230	Farm Business Management <sup>^</sup>	3
ECON 235	Introduction to Agricultural Markets	3
ECON 332	Cooperatives	3
ECON 334	Entrepreneurship in Agriculture	3
ECON 337	Agricultural Marketing	3

^ Course is a prerequisite for AN S 434

## Dairy Cattle Production Emphasis (6 credits)

AN S 434	Dairy Systems Management	3
or AN S 435	Applied Dairy Farm Evaluation	
AN S 399A	Animal Science Internship: Graded Internship	3
	Experience	

# **Equine Science and Management Certificate**

Foundation Course (3 credits)

AN S 216	Equine Science	3
Fundamental Dise	ciplines in Animal Science (6 credits)	
AN S 320	Animal Feeds and Feeding	3
AN S 331	Domestic Animal Reproduction	3
Equine Expertise	Expansion (6 credits)	
AN S 217	Equine Farm Practicum	2
AN S 306	Equine Evaluation	3
AN S 313	Exercise Physiology of Animals $^{*}$	3
AN S 317A	Fundamentals of Equine Behavior and Training: Young Horses at Halter	1
AN S 317B	Fundamentals of Equine Behavior and Training: Yearlings	3

	Experience	

# **Graduate Study**

3

The department offers work for the degrees master of science and doctor of philosophy with majors in animal breeding and genetics; meat science; animal physiology; animal science; and an interdepartmental program in nutritional sciences which has an option in animal nutrition. Minor work is offered in these areas to students taking major work in other departments.

A strong undergraduate program is required for students interested in graduate study. Fundamental training in biology, chemistry, mathematics, and statistics is requisite to a satisfactory graduate program. Graduate programs in animal science include supporting work in areas such as agricultural engineering, agronomy; anatomy; biochemistry; chemistry; economics; environmental science; food science and human nutrition; genetics; microbiology; physics; physiology; and statistics. Students may choose graduate programs involving a co-major with one of these areas. Graduate work in meat science is offered as a co-major in animal science and food science and human nutrition.

The department also cooperates in the interdepartmental program in professional agriculture and interdepartmental majors in genetics, immunobiology, microbiology, MCDB (molecular, cellular, and developmental biology), neuroscience, nutritional sciences, and toxicology (see Index (http://catalog.iastate.edu/previouscatalogs/2022-2023/azindex/)).

The foreign language requirement, if any, is established on an individual basis by the program-of-study committee appointed to guide the work of the student.
